[1] For channels E-21 through E-68, sound frequency is for systems G & H. For system I, image/sound separation, 6 MHz; systems K & L, 6.5 MHz.

[2] OIRT channels use Roman numerals, as OIRT-I, but this book uses R-1 instead because it is more consistent with other channel designations.

Venezuela

(525-line standards, System M)
Color: NTSC System

Sets in use: 1,650,000 black & white; 60,000 color
Networks: 5.

Televisora del Estado Venezolano, Aptdo. 3979, Caracas. Tel. 54-54-36/9.

Armed Forces Television Stations

American Forces Information Service, 601 N. Fairfax St., Suite 360, Alexandria, VA 22314-2007. Phone: 703-274-4856. Melvin W. Russell, deputy dir.

Armed Forces Radio & Television Service Broadcast Center, 10888 La Tuna Canyon Rd., Sun Valley, CA 91352. Phone: 818-504-1201. Col. Rick Fuller, commander.

AFRTS operates radio and television outlets located in over 130 foreign countries. AFRTS operates near major concentrations of U.S. forces overseas as well as in remote areas of Alaska, U.S. trusts, territories and possessions, aboard over 500 Navy ships and as closed-circuit facilities in over 100 isolated locations. Most of the land-based stations are grouped into regional AFRTS networks to serve specified geographical areas, i.e., American Forces Network-Europe in Europe and Far East Network in the Pacific. AFRTS networks and independent stations overseas create their own individual radio and television program schedules from broadcast materials provided by the AFRTS Broadcast Center in Sun Valley, CA and from their own local productions. Some outlets are over-the-air broadcast operations and some are carried on closed-circuit systems of various types. Domestic and Intelsat satellite service is leased on a 24 hour-a-day basis, providing real-time stateside radio and TV to overseas locations.

Major Broadcast Television Locations: Belgium, Cuba (Guantanamo Bay), Diego Garcia, Germany, Greece, Italy, Japan, Republic of Korea, Netherlands, Panama, Philippines, Portugal, Turkey, Kwajalein Atoll & Puerto Rico.

Major Cable Television Locations: Australia, Bermuda, Canada (Newfoundland), Greece, Iceland, Japan, New Zealand and Spain.

CHARACTERISTICS OF TELEVISION SYSTEMS

(C.C.I.R. Report 308, Xth Plenary Assembly, Geneva, 1963)

System	No. of lines	Ch. width MHz	Vision bandwidth MHz	Vision/sound separation MHz	Vestigial sideband MHz	Vision modulation	Sound modulation

Cox, radio correspondent (New York); David McNeil, radio correspondent (Washington).

INDEPENDENT TELEVISION COMMISSION—70 Brompton Road, London, SW3 1EY. Telephone: 71-584-7011. Telex: 24345. Fax: 581 3905; The Independent Television Commission was created by Parliament under the terms of the Broadcasting Act 1990 to license and regulate non-BBC television services including Ch. 3 (ITV), Ch. 4 and the proposed Ch. 5, cable satellite services. The ITC replaced the Independent Broadcasting Authority (IBA), responsible for the provision of independent television and radio services and the Cable Authority, responsible for the provision of cable services. Radio Authority now regulates independent radio services. Early in 1991 the ITC advertised 16 new licenses for Ch. 3 (ITV) including a national breakfast-time license. These will be awarded in late 1991 and the new Ch. 3 companies will begin their services on Jan. 1, 1993, at which point they, rather than the ITC, will become responsible as broadcasters for their output. Ch. 4, currently a wholly owned subsidiary of the ITC whose airtime is sold by the ITV contractors, will also become a corporation and ITC licensee, responsible for selling its own advertising. The license for the proposed Ch. 5 will be advertised by early 1992 with the aim of a new service being launched in 1994. Licenses for Ch. 3 & Ch. 5 will be awarded by competitive tender to the highest bidder who fulfills certain quality criteria, except in exceptional circumstances when the ITC may award a license to a lower bidder. The ITC will also license a number of other services in the following categories: Domestic satellite services using broadcasting frequencies allocated to the UK; non-domestic satellite services; licensable program services, including those program services delivered to cable systems on videotape; cable and local delivery service operations provided by cable and/or microwave (MVDS); additional services, or any form of telecommunications service that can be provided on the spare capacity of a television signal; public teletext, a text service carried on the spare capacity of Ch. 3 & Ch. 4. ITC staff will regulate all services through license conditions and through its various codes on program content, advertising, sponsorship and technical standards.

Members of the Authority: George Russell, chmn.; Jocelyn Stevens, deputy chmn.; Earl of Dalkeith; Professor John Fulton; Roy Goddard, Eleri Wynne Jones; Pauline Mathias; Lady Margaret Popplewell; James Ring; Pranlal Sheth.

ITC Senior Staff: David Glencross, chief exec.; Peter Rogers, dir. of finance; Kenneth Blyth, secy.; Clare Mulholland, dir. of programs; Frank Willis, dir. of advertising; Jon Davey, dir. of cable; Sarah Thane, controller of public affairs; Gary Tonge, controller of engineering; Donald Horn, controller of administration.
