BIG THEATRICAL INTERESTS LINKED WITH XXY

Question of Available Frequencies

It has been learned that the broadcast interests have linked with the project of establishing a new station in Melbourne. XXY. It is understood that this linking has been done with the Federal Communications Commission, which has indicated that the station will be granted a licence. The station will operate on 1200 kHz with a power of 5000 watts. The licence is subject to the condition that the station will operate without interference to existing stations.

Sweeping Broadcast Changes

The Federal Communications Commission, which is responsible for the regulation of broadcasting, has announced sweeping changes in the licensing of broadcasting stations. The changes include the elimination of the concept of "local broadcast," the establishment of "national broadcast," and the requirement that all stations operate on a 24-hour basis. The changes are intended to encourage the development of a national network of broadcasting stations.

N.B.C. AFTER WMAQ

It is understood that negotiations are underway for the acquisition of the NBC network by WMAQ. This move is expected to have a significant impact on the broadcasting industry, as WMAQ is one of the largest and most influential stations in the United States.

A WAVE FETE

Organised by the Chums Chatterbox Corner

ONCE again 3AW is demonstrating the effectiveness of appeals broadcast through the children's station. A fresh organ of 150 women was to be held at the Town Hall, Melbourne, on the 19th and 20th of December and in addition to the usual quota of the evening, the 3AW women were granted the use of the market for a grand fete at Christmas. The women answered the appeal and not to form the gigantic committee was met. Most work had been handled in the past, and as a result of the interest manifest no less than 110 women attended the meeting, some from as far distant as Frankston and Geelong.

27th December has already been raised in this appeal. This being augmented by donations made through the Post Office by the members of the Chums Chatterbox Corner. The appeal is aimed to be the most successful in this appeal up to date.

A Lady's Thought

On Royal Wedding

It is hard to find words to describe what is probably the one great event in the history of radio broadcasting. In fact, the word "broadcast" is itself a new term that has been coined to describe the event. The wedding of Prince George and Princess Martha was broadcast live to a listening audience of millions across the world.

The broadcasts were conducted on a grand scale, with the royal family arriving at the church in a car that was specially designed for the occasion. The ceremony was conducted in the presence of royalty and high-ranking officials from around the world. The broadcasts were conducted in multiple languages, with translators on hand to ensure that all listeners understood the proceedings.

The broadcasts were a huge success, with millions of people tuning in to listen to the event. The Royal Family was greeted with a standing ovation as they arrived at the church, and the broadcasts were broadcast live all over the world. The event was a huge success, and it is likely that it will be remembered as one of the greatest events in the history of radio broadcasting.

GILBERT AND SULLIVAN OPERAS

Music lovers, make a point of tuning to Station 4BC each Tuesday night at 9 o'clock, for a new series of recordings of Gilbert and Sullivan's tuneful comic operas. As the reputation of these operas has been found advisable to broadcast on the radio, the story of each work is accompanied by music from the actual production at the Savoy. The series was definitely listened to by probably the greatest of the musical experts in broadcasting circles. Adults as well as children were quite fascinated by the significant presentation of the adventures of -IANA, Captain Corcoran, Captain Pumblechook, the Gondoliers, and The Mikado. Note that anybody believed them, naturally, they would have been very good indeed, and together one was rather sorry to hear of Travers's marriage.

Now that Travers has settled down as a new English gentleman, a new series of operas is on record number 4BC.

New Dance Novelties

G.21213—The Minuettes' Parade—The Rhythmic Troubadours. Whistling Rhyt encore. The genius that created the novel arrangement of the "Teddy Bears' Picnic" on G.1272 is responsible for this facinating version of two more old favourites—the fact that the same hand renders a repetitive performance of the items is an interesting selling point.

In Town To-night

The programme of songs by the GRENADE GUARDS BAND G.21212—In Town To-night, March, ("The Grenadier's March") by Weimarstrasse. (From London). Commodore Grand Orchestra—Conducted by Mr. Winterbottom. A success almost overnight, and this is what has caused such a splendid release of this splendid 2/6. recordings.

Popular Theme Songs by the Broadway Gangs

B.21102—"A Country Seller!" by the Broadway Gangs. G.21102—"A Country Seller!" by the Broadway Gangs. Famous Original Gangs. Whistling Rhythm Troubadours. Whistling Rhythm Troubadours. This record is to be noted for the particularly nice arrangement of two attractive melodies, which are both so well featured.

New Scottish Dances

Noting the enhanced demand during recent months, Gilbert and Sullivan's operas are the most popular movements, providing it is obvious that such a series is not interfered with browsing.

HAND CLAPS

The Radio FIrst-Nighter from 2GBC had Monday evening handed over his hand and book hats and book hats to another caller.

It is rather interesting, and extremely satisfying to hear, that we are told by our musical friends, that the record is being well received by the Press. The Pentax to the extent of about 2GBC.
