TWILIGHTS
CAN YOU CATCH A FIB

Do you know The Twilightz well enough to tell when someone's fibbing? Yes, you say? Well see how you get through this quiz before being hosed with silly stories! Nobody's saying that The Twilightz would ever lie! We're just wondering whether you could detect it if they did ever do.

That's why we're having each of The Twilightz make some statements about themselves - some true, some not! You'll be able to catch the fibs every time - if you know very much about your favorites!

1. John Byrnes says he was born in Broken Hill, N.W.
2. Peter Brumby says he was a short baseball player.
3. Terry Byrnes: "Before I was a Twilight, I was a real hipster.
4. Glenn Sheppard: "The singer I admire most is Chris Norman.
5. Laurie Pryor: "The thing I hate most is being tired and looking to strangers before I, myself.
6. Peter McCarrick: "I was born in Essendon, Victoria.
7. John Byrnes: "I was once a doo-wop singer, singer again.
8. Laurie Pryor: "I am very interested in travelling by plane.
9. Peter Brumby: "I have a great love for country music.
10. Terry Byrnes: "My first musical job was to play the piano with the Melbourne Jazz Band Orchestra.
11. Peter McCarrick: "I am not afraid to drive a car too fast.
12. Glenn Sheppard: "I love the drink in a cold beer.
13. Peter Brumby: "My natural hair color is brown.
14. Terry Byrnes: "My hair color is blond.
15. Laurie Pryor: "I always wear pink fattening pyjamas and socks to bed.

If you said true, you'll be off to a bad start, because John was born in Melbourne, Laurie was born in Broken Hill, and Peter McCarrick was born in Essendon. Laurie has a great love for country music, and he has a very large record collection. Peter Brumby has a great love for country music, and he has a very large record collection. JIM KEAYS WON'T GET OUT OF BED

Neil Higginbotham-Bourke has been the Masters Apprentices' road manager for a year. He lives with them in their flat, eats, sleeps, works, talks, walks and breathes with them. Nobody knows all the intimate secrets of each Master. Who else could we have asked to write secret facts and info about these stars but Neil? Here are his candid opinions of the group, divulging their private habits and individual characters.

JIM - VOCALIST

Jim is the only guy I've seen who displays and expresses himself on stage as a lead singer should. He is the most original dresser and designer of clothes in Australia. All the group's clothes are made under his strict supervision. He is very upset by the number of people who are under the impression that he is consulled and high-browed. Contrary to this he is really very sincere. He is a devoted fan of Don Cornell, who is God to Jim.

PETER - RHYTHM

The complete pacifist of the group, an expert Yoga, Peter has an image of complete innocence. He's off all the sordidness of the rock world and is forever writing to, or talking to his countless fans. He thinks he has more fans than any other group member (I've been known to say). Here is his candid opinion of the group, divulging their private habits and individual characters.

GAVIN - BASS

Most certainly the most perfect image of any group member I've ever seen in Australia - on image of mystery. He is also a pacifist at heart and never smokes himself in any argument of any kind. People are amazed and intrigued by his mannerism everywhere the group appears. They just can't get him. He thinks they are scared he might be aggressive and even violent with them. But as no one knows who he would tell, he would not harm a kitten.

COLIN - DRUMS

The most sincere, honest and kind person I have ever come across. His personality is very hard to define. Once people know him, they realise how kind and friendly he is, but those who have never talked to him just stare and probably are frightened of him. To walk down a street with Colin is an experience even to be equalised, as he possesses horrors of disease and death. His constant fear is that people will not be able to hear his new appearance.

DOUG - LEAD GUITAR

The musical leader of the group, he has the most experience. He is the most original man in the Masters Apprentices. He's a very progressive and mature way of thinking, as expressed in his latest musical creations. He is a great admirer of John Mayall and a devoted follower of Eric Clapton. His first love is his Les Paul guitar, which he plays brilliantly and his second love is tea.

THE VIRGIL BROTHERS INTRODUCE A NEW LOOK TO THE POP SCENE -  

THE VIRGIL BROTHERS SET TO TRAVEL

Virgil Brothers are not just going to rejuvenate the scene musically. Along with their superb, world-class vocals, they are the first to introduce the super smooth, immaculate look to the Australian pop scene.

From the ordinary suit design, made in every type of shiny, spacy material, to jackets and slacks tight trousers, immaculate suits and shirts, through to the Edwardian look of today. The pop scene has been through the whole fashion circle.

Pop entertainment has always been the first with the most extreme trends, followed by their fans. They have used every gimmick available in the never-ending battle to be best dressed and up to the minute.

Now we are back to the suit — but what a suit! — incorporating the fitting of an Edwardian jacket and trousers, modifying the style a bit and adding the tailoring techniques and styles of the best French and Italian design sticks with it. But not all.

This was the type wanted, but they had it Melbourne. They asked shops like Gayland's. They found that practically no pop scene and only a few tailors by Travellers Apple worn.

Travellers cater for everyone — extremely fit apprentices have their suits made by this firm. Johnny Young is a typical Travellers style and made, regardless of where they are.

On hearing all the excitement of the Virgil Brothers, one store and ordered from them to do this for the others who insist on tailored by Travellers.

They met all the most popular accent and found it so they decided to sell you.

And the result is immediate.

Let the Virgil Brothers be where to get them in: all at leading men's wear and Opal Stores, and when anyone in the suit in slacks and suits care. ranging from country — even the Masters world's costume tailors, at the tailors' rooms and the others who insist on tailored by Travellers.

or Travellers' clothes, for their favourite men's wear and several pairs of suits. If they could go to the suits being made from tailors, checkers and checkers, they would be, and

The suits are being made by the Travellers and tailored in the suit in the suit by an immaculate on the inside. Piggy Van was the town, not the black.

Years ago, the legendary jazz piano player, Pete Waller, was asked to provide a definition for jazz. His answer, "If you have to have jazz explained, then you’ll never know".

And so, the search for jazz begins. To find and provide a definition of jazz is a task that begins with the words of Pete Waller. What was his inspiration for jazz?

Dear Paul, Yes, I would like to comment on the position of the Australian pop scene in relation to those overseas.

At the moment we have some excellent talent emerging in Australia, but perhaps it's not yet time for us to become a world power. The Bee Gees have made a name for themselves in England and America, and proved themselves to be a success in all their work with international hits following them everywhere.
