COULD YOU CON RONNIE BURNS

Dear Molly,

I have long, dark, brown hair (just below my waist) and I was born in 1950. Like every other girl I get tired of waiting, in the same way all the time. Could you suggest a style for me to wear in the day and another one to wear at night or a dance?

With every good wish,

Molly

VIRGIL BROTHERS

The whole pop scene was knocked off its feet when the Virgil Brothers' first single hit the charts.

STAN ROFE (3XY D.J.)
The year 1968 is my 16th anniversary as a D.J., and in the 10 years I've been in the business, the most exciting time I've ever had was when the Virgil Brothers were releasing their single. I'll never forget the day, the whole week was a blur! I really feel that the Australian recording industry has arrived at last. This is the first major act that we can all be proud of. The Virgil Brothers are the cream of all Australian music.

JOHNNY YOUNG

Johnny is my friend and I'm very happy to support him. He's a great guy and a great singer. His first single, 'Temptation's 'Bout to Get Me', is fantastic. I hope it goes to number one.

PHIL HUNTER (New 2UW D.J.)
This is a big record, and I'm sure it will go to number one. The Virgil Brothers are a great band and they deserve success. I'm very happy to support them.
