# SCIRIONS ALTEN NATION

THE FIRST TRACK FROM THE FORTHCOMING ALBUM . FACE the Heat.

PRODUCED BY BRUCE FAIRBAIRN AND SCORPIONS MANAGEMENT, DOC MCGHEE FOR MCGHEE ENTERTAINMENT, INC.

# And The Winner Is...

n an extremely rare occurrence, Rock Radio at large had to add two great songs resulting in a tie for the #1 New Action Airplay position. After studying the finish line photos for several hours. we've declared it a dead heat. As different from each other as day and night, as dark and light, as black and white, the new singles from Meat Loaf and John Mellencamp each cross the line with exactly 119 adds at the format.

Seven years in the making, Bat Out Of Hell II: Back Into Hell will hit the streets on September 14. The sequel to the 23 million-selling Bat Out Of Hell has both radio and retail waiting with baited breath. This week, "I'd Do

Anything For Love (But I Won't Do That)" grabs 17 heavy adds and gets 11 reports of Top 5 phones in its first week. With the 119 adds, "Anything For Love" debuts on Power Cuts at #14\* and easily slams a Homer!

Human Wheels, the follow-up to Mellencamp's 1991 gem, Whenever We Wanted, has already spawned one #1 Power Cut and "Human Wheels" shows all the signs of doing the same. The 119 adds are augmented by 25 heavy reports, giving the song a #15\* entry onto Power Cuts and a tape measure Homer! Plus, the Human Wheels CD, which hits on September 7, is this week's #5 retail Hot Future.

#### **Scorpions**

"Alien Nation"

Mercury

For Face The Heat, their first album in nearly three years, the Scorpions lead with a monster RAWker called "Alien Nation." Featuring killer guitar licks, which double as a second hook, and the explosive drumming of Herman Rarebell (he is a madman on this tune), "Alien Nation" is instantly one of the hottest, hardest rock tracks ever released by the Scorpions. Wait till you hear it!

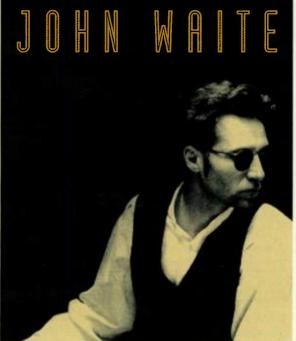

And don't miss Jon Sutherland's in-depth interview with the Scorps, coming up in the Album Network in two weeks.

## John Waite "In Dreams"

Imago

With the disbanding of Bad English, singer John Waite has now signed a solo deal with Imago. In advance of his own album, which comes out early next year, "In Dreams" is taken from the soundtrack to the soon-to-be-released Christian Slater/Dennis Hopper/Gary Oldman flick, "True Romance."

Like "Missing You" nearly a decade ago and Bad English's "When I See You Smile," "In Dreams" is a romantic pop rocker, making it the perfect song to reacquaint Waite with Rock Radio as a solo artist. It is located, for easy reference, on Rock CD TuneUp #103.

#### Squeeze

"Everything In The World"

Some Fantastic Place, the 12th album from Squeeze, not only marks the return of the band to A&M, but also the return of keyboardist/vocalist Paul Carrack to the fold. You know this band...with songwriter/singers Chris Difford and Glenn Tilbrook laying down some of the sweetest and easily digestible melody lines ever, Squeeze have been pop/alternative mainstays for nigh on to 20 years. Now, with "Everything In The World," they have a song that captures all the flavor of mid-60s Motown and delivers it with rock guitar and Hammond organ.

"Everything In The World" is as close to being a perfect white soul record as it can possibly get.

#### Tool

"Sober"

Zoo

Yes, this is the same cut Zoo asked you to add a few weeks ago, but the label now has some very good reasons for you to reconsider it - about 180,000 good reasons, to be exact. That is the number of copies of Tool's Undertow that have crossed the retail counters since this band bowled 'em over on this summer's recently-concluded "Lollapalooza '93" tour. So, Tool has now sold more than 200,000 units on its debut endeavor, with the sales having catapulted Undertow into the Top 5 on the RAWk Retail chart.

MTV is now on "Sober," as are KUPD, KISW and KRXQ. Also, ask your Zoo rep to tell you which markets are showing Tool in the Top 10 at retail with no radio play at all. Make sure you listen to "Sober" again.

#### **My Sister's Machine**

"This Is Fear"

Chameleon/Elektra

As if to prove that the Seattle music scene is much more than grunge, My Sister's Machine offers "This Is Fear," from Wallflower - the band's second CD and first for a major label. Singer/guitarist Nick Pollock once played with Layne Staley before AIC was hip, and "This Is Fear" certainly possesses a great deal of the same darkness that permeates Alice In Chains' material; there are also qualities that might remind you more of the power of Soundgarden.

My Sister's Machine is crankin' to the tune of #4 Most Added and #1 Most Progress on last week's RAWk Radio chart and a #30\* debut at RAWk Retail. Check it out on Rock CD TuneUp #103 and understand how well it can work at Rock Radio, too.

#### **Ghost Of An American Airman**

"King Of Nothing"

Hollywood

If you can hear the volatile opening guitar strains to "King Of Nothing" without immediately falling to the floor, drooling and speaking in tongues, perhaps you might let us know how. Before you even hear the hook, the electric six-string should have you babbling incoherently about how rock 'n roll can - and will - bring peace on earth and good will toward men.

"King Of Nothing," from Ghost Of An American Airman's (forget the cumbersome name and play the song) second CD, *Skin*, is track #2 on AN's Rock CD TuneUp #103. Listen to it now and be reminded of why you love rock 'n roll - *before* you get called into another meeting with the GM to discuss what the morning guy said this time.

#### **Adam Schmitt**

"Rip It Off"

Reprise

We know that Rock Radio programmers are incessantly inundated with promotion pitches, each new song being "perfect" for that station's sound. Under those conditions, it has to be difficult at best to decide exactly what *is* perfect. Say hello to Adam Schmitt's "Rip It Off."

Illiterature, the second release from Illinois-born singer/songwriter Schmitt, shows him to have found the pulse of rock 'n roll in the 90s. "Rip It Off" is hard, angry and dark, and yet it also possesses a certain amount of melody and pop sensibility. This one *really* deserves your attention - you'll find it at the top of Rock CD TuneUp #102.

#### **The Juliana Hatfield Three**

"My Sister"

Mammoth/Atlantic/TAG

Late 60s British pop filtered through late 70s American power pop - with a lady singer. No matter what label has thus far been bestowed upon Boston's The Juliana Hatfield Three, that is what you'll hear when you listen to "My Sister." Oh, to be sure, "My Sister" has already helped drive Hatfield's second offering, *Become What You Are*, to the Top 10 of both the Expand-O Radio and Expand-O Retail charts, and the Top 5 of the Expand-O Most Requested chart. That is simply a formality, a result of the fact that Atlantic chose to work this gem at that format first. The album is also Top 5 on the In-Store Play chart and #73\* on the Hottest Sales Nationwide chart.

#### Los Lobos

Just Another Band From East L.A.: A Collection

After 20 years of setting and breaking trends with their own, unique version of Tex-Mex rock, Los Lobos have earned a box set to commemorate this distinction. More than 40 songs in all, *Just Another Band From East L.A.: A Collection* is an exquisite tribute to the wolves.

Having never changed its sound to fit any format of radio, there are nonetheless several familiar standards included in *Just Another Band From East L.A.*; their radio favorites are represented by "Will The Wolf Survive," "Don't Worry Baby," "Shakin' Shakin' Shakes" and the #1 single "La Bamba." This compilation also includes many previously unreleased live recordings, such as their unreal covers of Marvin Gaye's "What's Goin' On?" and The Grateful Dead's "Bertha." Plus, there will be new Los Lobos music featured in an upcoming movie for Showtime called "The Wrong Man" (three tracks are mixed in here).

Los Lobos' legacy stretches much farther back than their success at Rock Radio, and true fans will be remiss if this is not in their collection.

#### The Indians

"Look Up To The Sky"

Imagine combining the best qualities of 4 Non Blondes with those of Edie Brickell & The New Bohemians. The acoustic guitar, with a taste of the psychedelic, propelled by a strong female voice. And of course, it's gotta be slightly quirky. Now you know what to expect from The Indians' "Look Up To The Sky."

## DESIGNATED

#### **MELISSA ETHERIDGE**

The Only One

The Album Network's support of Melissa Etheridge began well before her first album was released. That is why we're beyond thrilled to share "I'm The Only One" with you as our Designated Hitter!

For the imminent Yes I Am CD, Meissa Etheridge co-produced with veteran producer/engineer Hugh Padgham (The Police, Genesis, Phil Collins), and the results are stellar. "I'm The Only One" begins with a blues beat and bass line, and builds upward to Melissa's awe-inspiring, Grammy award-winning vocals and expertly-placed guitar licks from Waddy Wachtel, giving the tune a roughness not usually evident on Melissa Etheridge songs. This one will go through the roof - bank on it.

We can't say who just yet, but some major artists will be contributing all new original material to a CD called The Beavis And Butt-Head Experience, Volume 1. It's coming in November Guns N' Roses' album of punk covers is also coming in November Rykodisc will be releasing the first three Elvis Costello CDs, remastered, with previously unreleased tracks, this Rocktober, individually and as part of a four-CD box set which includes the much-duplicated-bootleg Live At The El Mocambo Born To Choose is the name of a benefit compilation coming in Rocktober, featuring R.E.M. with Natal Merchant, Soundgarden, Matthew Sweet, Sugar and Helmet; it's on I'm Alive, Jackson Rykodisc as well Browne's first CD in more than four years, is due in Rocktober "Stick It Out," from the new Rush CD, is on the schedule for the first week of Rocktober Yes I Am, the fourth CD from Mellssa Etheridge, will be out the third week of September.

SE HOW HEST

The Indians, with songwriter Angelique Bianca out front, will have this track on their own debut Polydor album soon. For now, "Look Up To The Sky" is included on the soundtrack to the Brad Pitt/Juliette Lewis movie, "Kalifornia." An edit has already been mailed to you.

#### James "J.Y." Young

Out On A Day Pass
Westerdog/Absolute

From the mid-70s to the mid-80s, there was virtually no escaping Styx's music on Rock Radio. Today, tracks from *The Grand Illusion, Pieces Of Eight, Cornerstone* and *Paradise Theater* are still staples at the format. And one of the elements that has always made Styx so appealing is the balance between the softer material written by Dennis DeYoung, the pop rock stuff done by Tommy Shaw and the hard rock tunes delivered by James "J.Y." Young. Enter Young's second solo release, *Out On A Day Pass*.

Out On A Day Pass is fraught with killer licks and riffs, beginning with - but certainly not limited to - "Doctor On Call," which is featured on AN's Rock CD TuneUp #103. With J.Y.'s track record and hot tunes, you should have great success with tracks like "Top Of The World," "Toys For American Boys," "Young Man" (the old Styx tune, redone here), "Love Me Tonight" and "The Bigger They Are, The Harder They Fall."

Baseball and rock 'n roll are inexorably tied, in no fashion more than its followers attempts to revel in the good old days.
But, as great as groups might have been in the 60s or the 70s, there are as many bands rising to the surface now (Ghost Of An American Airman, Goober And The Peas, Gin Blossoms) as ever.

- Peter Gammons,
ESPN and The Boston Globe

#### R.E.M.

"Everybody Hurts"
Warner Bros.

Listen to this song, watch the video (get one if you don't have one), be affected and then add it. "Everybody Hurts" is from Automatic For The People and no one can deny its power. That about says it all.

#### Soul Asylum

"Without A Trace"

The Soul Asylum story is one of the most heartwarming of the past year (read all about it in this week's artist feature). From the #7\* "Somebody To Shove" to the #5\* "Black Gold" to the #2\* "Runaway Train," each subsequent release notched a little higher up the Power Cuts chart. And the thing is, if Columbia had released "Without A Trace" first, the rest of the story would have no doubt unfolded the same way, because it is so good it could easily have been the first single from *Grave Dancers Union* 

This CD is so deep there's no telling when it will be over.

#### Vai

O

#### "In My Dreams With You"

"Down Deep Into The Pain" introduced Vaithe band - to Rock Radio, and now comes a much more melodic and accessible offering from the Sex & Religion CD. On "In My Dreams With You," Steve Vai allows his guitar to take a back seat to a more bandoriented arrangement, while Devin Townsend's vocals fit the mood of the song exactly.

Vai has recently been exposed nationally on "The Tonight Show" with Jay Leno, and Sex & Religion debuted on our Hottest

Sales Nationwide chart in the Top 35. And, since this really is *the* one for mainstream Rock Radio, "In My Dreams With You" should be an easy add.

Hollywood

Atlantic/TAG

#### **Galactic Cowboys**

"You Make Me Smile"

Galactic Cowboys, those eclectic hard RAWkers from Houston, are back with a 2nd Tremor from *Space In Your Face*. Like "I Do What I Do," "You Make Me Smile" showcases the Cowboys' penchant for juxtaposing hard, rough layers of guitars with a complementary blend of equally polished and melodic layered vocal harmonies. This combination sets Galactic Cowboys apart from everything else on Rock Radio these days.

Why don't you try this one at night? If your audience doesn't respond with major phone action, then your audience may have, in fact, left the building.

#### **Sweet Water**

"Head Down"

Somewhere in the bowels of Atlantic Records, someone must have spoken up at a planning meeting. We can hear it now: "Excuse me, but this Sweet Water record is really hot and I think we should give it our undivided attention." Maybe that never actually happened, but Atlantic is reshipping "Head Down" for your consideration. And this time you can bet they'll be asking for an add a little louder than they did last time. And that's a good thing.

"Head Down" is a guitar-driven rocker. It is not pop, not grunge and not metal - just straight-ahead, really cool, powerful rock 'n roll.

#### "I'd Do Anything For Love.

"'I'd Do Anything' was actually added two weeks ago and it's been Top 5 phones ever since; it goes into heavy!

Phil Marlowe, WCCC

Seven years after Meat Loaf's last album and more than 15 years after the original Bat Out Of Hell, "I'd Do Anything For Love (But I Won't Do That)" bogarts 119 out of the box adds (17 into heavy)! The result is a #14\* Power Cuts debut and a tape measure Homer!

"Anything For Love" is already garnering heavy phones in 11 markets, including Columbus, New York and Hartford. Meat Loaf has always been huge east of Denver, but even left coasters KLOS and KRXQ add this track out of the box.

Underscoring the phone action, three programmers independently tell us similar stories: KATP's Dale Miller says, "We're already pulling in big phones on this one!" T.K. O'Grady of KXUS points out, "We are already getting phones on this record," and WWCT's Jamie Markley mentions, "The phones are smokin' early!

Any further questions?

#### JOHN MELLENCAMP

"John Mellencamp is possibly the biggest all-American rocker!" David Allen Ross,

**KMJX** 

The title track from the imminent Mellencamp disk checks in at #15\* on the Power Cuts chart, thanks to 119 first week adds. Also notable are the 25 adds to heavy and the fact that "Human Wheels" smacks a lead-off Homer!

KUPD, WLZR, WLUP, WKLS, WSHE and WNEW are among the first stations to add the second track from Mellencamp's forthcoming Human Wheels CD; KDKB and WHCN head the list of outlets adding it to heavy.

At WGIR, MD Karen Andersen Small proclaims, "If this second track is any indication, Human Wheels is going to be amazing!" WWCT's Jamie Markley says, "'Human Wheels proves once again what a great songwriter John is!"

Phil Marlowe of WCCC calls "Human Wheels" a "real strong track. I like the effect that he has on his vocals; it's very psychedelic!" And KFMX's Kidd Manning tells us, "'Human Wheels' is the crossover record that will break him at all formats!"

### **AEROSMITH**

"Aerosmith is the best thing goin' on at Rock Radio, and they just keep getting better!"

**Tim Dukes, WTFX** 

"Fever" scores another major week, well in advance of the "official" add date. After 57 more adds and 11 rotation bumps, Aerosmith's latest climbs 36-22\* on Power Cuts and is now on 121 Rock Radio reporters: there won't be much left for Geffen to do when they do go for adds.

The new airplay on "Fever," combined with 'Smith's knockout tour, has Get A Grip accelerating back up the Hottest Sales Nationwide chart, 17-13\*.

WKHY PD Mike Morgan calls "Fever" the "best tune on the album," while programmer Rick West of WXKE says it's "another hit track from the boys!"

Barry Taylor, AMD at Winnipeg's CITI FM, maintains that Aerosmith's "Fever" is "another great song from another great album!" And KFMW midday jock Don Betts comments, "Aerosmith is a positive band for us; you put the record on and the phones light up!"

JOHN HIATT "Perfectly Good Guitar"

"This is a terrific song. If you had success with Little Village, try 'Perfectly Good Guitar." Rik Maybee, WRXL

John Hiatt kicks ass in his first week for adds, as 54 Rock Radio programmers give the nod to "Perfectly Good Guitar." Those adds, on top of the 12 before-thebox stations, give John an explosive 93-43\* jump up Power Cuts.

In anticipation of Hiatt's Perfectly Good Guitar CD, the PDs at WDVE, WMMR. WLVQ, KTXQ and KTCZ all add the title track. If you haven't heard this one yet, check it out on our Rock CD TuneUp #103.

Of Hiatt's new one, WIXV's Mark Blake states, "From the first listen, I loved it!" At KATP, PD Dale Miller points out, "This is great; it's mass appeal and the upper demos will really be able to relate to it!"

Tim Adams of KRCH notes, "This could be the track to bring John Hiatt to the top," and KSEZ's Tim Harrison concurs: "This is the song to take John Hiatt over the top. The appeal is there for everybody!"

#### **4 NON BLONDES** "Spaceman"

"We're all big fans and have been waiting for a second single! 'Spaceman' is a no-brainer!"

Bobbi Jones, WRXR

"Spaceman" leaps farther up Power Cuts this week, 55-47\*, as 4 Non Blondes vie for their second straight hit. With 28 adds, this track is now on nearly 70 Power Cuts stations.

Adding "Spaceman" this week are KTXQ, WAPL, KJOT, KPOI, WSTZ and KATP, while the Bigger, Better, Faster, More! CD climbs 12-11\* on the Hottest Sales Nationwide chart.

Up in Alaska, KWHL MD Loren Dixon contends that "the more you hear 'Spaceman,' the more you like it," while down in Texas, Dale Miller of KATP calls "Spaceman" the "perfect follow up. This will take 4 Non Blondes to the next level!"

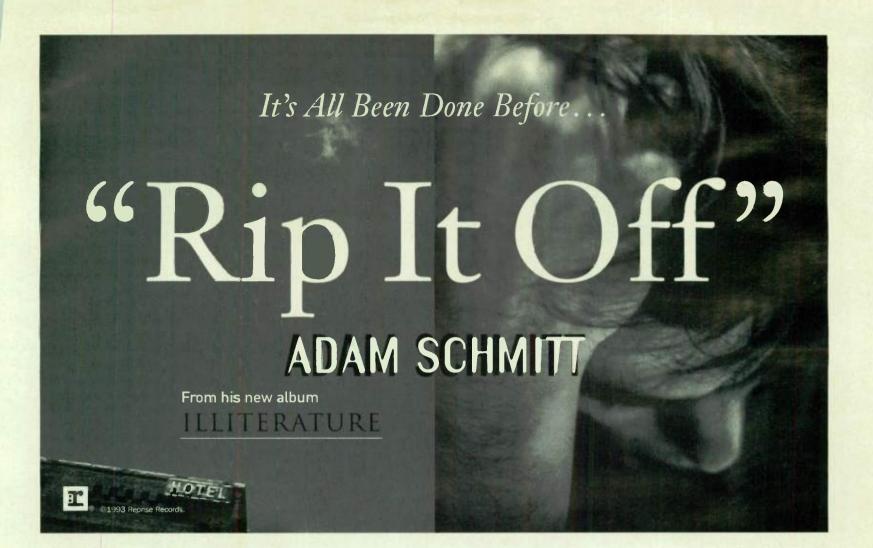

WROQ's Bill Walker refers to the justannounced concert pairing when he says: "I think 4 Non Blondes will do Aerosmith quite well on the tour. This is a nice follow-up to the first track!"

## STONE TEMPLE PILOTS

"'Wicked Garden' is another fine track from one of the hottest bands in the country!"

Phil Mahoney, KZRR

STP's "Wicked Garden" enjoys another week on the New Action Airplay list, as the latest from the Top 5selling Core picks up 22 more adds and 14 rotation increases. All in all, that spells a 19-16\* move up the Power Cuts chart.

With heavy phones now being reported in Minneapolis, Hartford, Orlando and six other markets, WHJY, KLOS, WNEW, KOME and WSHE join the list of Rock Radio believers in "Wicked Garden."

KCLB's Ron Stryker informs us, "Our listeners can't get enough of Stone Temple Pilots!" And, at WRKI, Tim Sheehan remarks, "'Plush' was very strong, so we know that 'Wicked Garden' will work well for us!"

## "Sweet Sixteen"

"Sweet Sixteen' was the last track we heard in the music meeting and I couldn't keep myself from playing air guitar!"

Ronni Hunter, WBZX

"Sweet Sixteen," from Blackfish's debut CD, picks up 20 adds this week and is now on nearly 50 of Rock Radio's faithful. Thus, the track runs 61-51\* up the Power Cuts chart.

In addition to adds at majors like WBZX, KISS, WLLZ, WMMS, KQRC, KUPD and KRXX, KAZY is also reporting heavy phones already on "Sweet Sixteen."

Phil Mahoney, KZRR's MD, exclaims, "'Sweet Sixteen' doesn't take itself too seriously, but should be seriously considered!" At KMJX, David Allen Ross declares, "'Sweet Sixteen' was a one-listen record for me!" And WROQ's Bill Walker says, "I expect big things out of 'Sweet Sixteen' - from the younger listeners to the older!"

 $ADDS = 20 \bullet MAJORS = 7$ 

## "Soul To Squeeze"

"Soul To Squeeze' is so good, everybody likes it!" Anthony Alfonsi,

The story on Red Hot Chili Peppers this past year has been truly inspiring, because it's great to see a band that had been so avoided by Rock Radio for so long finally be accepted on its own terms.

"Soul To Squeeze" becomes the Chili Peppers' second Top 10 Power Cut, as 17 new adds and 19 rotation bumps take the cut 16-10\* up the Rock Radio airplay chart. WDVE, KLOL, WNEW and KSJO top the list of new believers, and 28 stations report Top 5 phones (including KIOZ, WHCN and WIOT).

Loris Lowe, Music Director at KLBJ/Austin, perhaps sums things up best this week: "The more I hear 'Soul To Squeeze,' the more I like it!"

 $ADDS = 17 \bullet MAJORS = 4$ 

#### SMASHING PUMPKINS "Cherub Rock"

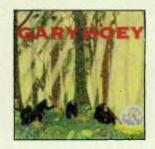

"We never predicted a response this huge; it's strong 25-34 males, as well as the younger end!" Gregg Steele, KRXX

Smashing Pumpkins continue to thrill this week, as 17 more Rock Radio programmers add the song; that brings the total number of reporting stations now playing "Cherub Rock" to 74. Consequently, the single takes a five-point hike to #37\* on Power Cuts.

In a week when WBAB, KBER, KISS, KQRC, KSJO, WWBZ, WMMS and WLLZ all add "Cherub Rock," the siamese dream CD spends another week bulleted in the Top 10 on the Hottest Sales Nationwide chart and at the top of the In-Store Play chart.

KZRR's Phil Mahoney says, "I'm adding 'Cherub Rock' because I like it and hopefully it will break them wide open! This could do for Smashing Pumpkins what 'Smells Like Teen Spirit' did for Nirvana!"

 $ADDS = 17 \bullet MAJORS = 8$ 

"Hocus Pocus' is doing well for us; I knew it would from the first time I heard it!"

John Nagarya, WKDF

And the Gary Hoey buzz gets a little louder.... Sixteen additional adds and 20 upward rotation moves give Hoey's take on "Hocus Pocus" a solid 25-23\* push up Power Cuts.

There are now 14 stations teiling us of Top 5 phones on "Hocus Pocus" - both day and night. With adds from WBCN, KLOL, KLOS and WMMS, among others, Gary is now on 120 outlets.

WHEB's Scott Laudani wonders, "With the story around the country on Gary Hoey, why not give it a spin?" And Pat Queen of WZRR calls this "the perfect 90s version of this classic track. We've been getting a lot of calls for this record!"

 $ADDS = 16 \bullet MAJORS = 6$

The Imago Recording Company, 152 West 57th Street, New York, New York 10019

How long do you think you could stand working at the same place, doing the same nowhere job, day in and day out, for a boss who gave you no reason to believe you wouldn't be stranded in nowhere for the rest of your career? Could you stick it out a year? Two years? Three at the outside?

For Soul Asylum, playing 200-plus dives a year, in seemingly every town in America, and watching the recorded fruits of their hard work sell to probably the same 50,000 or 60,000 fans, album after album, became their past, present and, as far as anyone could tell, their future. To guitarist/vocalist Dave Pirner, guitarist Dan Murphy, bass player Karl Mueller and drummer Grant Young, the road in front of them may have at times seemed like one enormous dead-end, but the road behind them stretched back a dozen arduous, exhausting, onerous, taxing years.

No wonder they took a long time off before finally starting *Grave Dancers Union* with producer Michael Beinhorn. And no wonder they'd become so disillusioned by their rewardless past that they couldn't even allow themselves to fully believe they'd made the album of their career.

"I was confident that the record was good," Murphy says of this CD, "but I thought our other ones were good, too. So when everybody said, 'Oh, this is gonna do so great,' we were like, 'Yeah, right.' I really think there are a lot of people in bands that are incredibly cocky and irritating that way - I think we're kind of the opposite; we could use a little bit more confidence in what we're doing."

That's an interesting comment from someone who could be forgiven a certain amount of cockiness these days. *Grave Dancers Union*, which is nearly a year old now, has been perched in the Top 10 on the Hottest Sales Nationwide chart for a month, it has produced Soul Asylum's first-ever Top 5 single

("Runaway Train") and has easily eclipsed the combined total "success" of the band's library to this point. "We sold, like, as many records last week as we sold of any of those records!" Dan exclaims, putting it all into crystal clear perspective.

#### "Nothing Attracts A Crowd Like A Crowd"

As for why this has happened to Soul Asylum at this juncture, asking Pirner, who has always written most of the group's material, provides no concrete answers. "I'm just as mystified by it all as anyone, I think. Thematically, it's like 'Nothing attracts a crowd like a crowd," he chuckles, quoting a line from "Black Gold," one of three Top 10 Rock Radio cuts from this album. "I just kinda laugh at the irony of that."

Murphy and Pirner have used the cellular (god, I love living in the 90s) to phone me from their tour bus - which is, at the moment, occupying the otherwise empty parking lot of the Cincinnati-area shed they'll be playing later with Spin Doctors and Screaming Trees. It is Dan who is able to offer some insight into the question that must have come up six trillion times since Grave Dancers Union began to take off: Why now?

"I think in hindsight, the Horse record was kind of Soul Asylum's First Album Was Made To Be Broken, But It is Their Seventh Outing, Grave Dancers Union, That Finally Does The Breaking

attempting to do what we did better on this record," he explains. 1990's Soul Asylum And The Horse They Rode In On had been the closest thing to a mainstream-sounding album they'd done before this CD. Like its predecessors, though, Horse failed to break Soul Asylum, resulting in a threatened break-up - a calculated, and risky, maneuver to vacate their previous label deal.

When they did finally begin working on *Grave Dancers Union*, Pirner, Murphy, Mueller and Young radically varied their approach to recording. "This time," Dan relates, "we tried to kinda reduce the song to its lowest common denominator; like, one acoustic guitar could play it. And everybody would listen to it, and then we tried to add things to the song - rather than build up this sonic wall."

#### "In A World Frozen Over With Over-Exposure, Let's Talk It Over"

Grave Dancers Union has now sold something like 1.2 million copies since its September, 1992, release. For a band that hadn't sold 500,000 total units in its career, that's a hefty improvement. In fact, Dan jokes with me that it took Soul Asylum close to 12 years to go Gold, and only a few more weeks to go Platinum. That kind of sudden growth must, by nature, bring with it some God-awful growing pains. Describing some of the more obvious and

drastic changes that have befallen the band in the past year, Murphy tells me of the time he and his wife tried to have a quiet dinner together at a nice restaurant in their hometown of Minneapolis.

"People were coming up and saying, 'Oh, congratulations.' I mean, everybody means well, but it used to be you'd just get recognized at a rock venue, or something. You kind of expected that. But now it's grocery stores and street corners and laundromats and airports...it takes some getting used to."

"And it's kinda funny, 'cause when people finally meet you, they usually just say, 'Oh my God!' They can't think of anything to say, so it's really uncomfortable."

"What do you say when someone says, 'Oh my God!' to you?" Dan snickers.

"They expect you to start performing for them, or something - I don't know what the deal is with that," Pirner says, laughing at the notion. "It would be nice if everyone had a joke or a story or something that they would tell us."

#### "Can You Help Me Remember How To Smile?"

Musically, *Grave Dancers Union* ranges from the power pop of "Somebody To Shove," "Black Gold," "Keep It Up" and "Without A Trace" to acoustic ballads like "Runaway Train," "Homesick" and the quirky, Monkees-like "The Sun Maid" to the explosive "99%" and "April Fool"; the latter two musically connect this record to past Soul Asylum efforts.

Lyrically, Dave's songs predominantly touch on subjects relating to loneliness and despair. If it's

"I'm not exactly sure where the redemption is in all this. It's certainly not about money, you know? And no matter how much I look at how far we've come, it doesn't help me write the next record."

true, as Pirner tells me, that songwriting is "a system of paraphrasing what you're about," then it would stand to reason that he must have been feeling mighty alone when he wrote the bulk of this album

"I think there are a lot of esoteric ethics that go into the process of self-expression. I don't know, some people like to be affected in a way that is either thought-provoking or disturbing, and I think I'm one of those people. It's not so much a matter of expressing your depression, it's a matter of saying, 'This is what I think about,' and it isn't always, 'Let's go dance and party and fuck,' or whatever. It's a little bit deeper than that, and I guess it can get kinda ugly sometimes."

"But I think, in the end, it's really a celebration of getting those things off your chest, and realizing there's a common ground that people stand on, whether it's a destitute thing or a desperate thing or a thing that's just filled with hope and faith that what you see around you isn't always what you get."

In listening to songs like "Runaway Train," which painfully details a sense of loss we've all

felt, or "Homesick," which paints a tragic picture of a man who's completely disconnected from his roots, one gets the sense that Pirner takes some solace in turning himself inside out to reveal a real life human being with real life hurt. "[There's] a natural defense mechanism that kinda says that all my material is strictly derived from my imagination and it's all made up and the names are changed to not protect anyone - you know, it's fiction. I guess the essence of that is that fiction is always drawn from reality, in one way or another."

"I think I somehow have the time to be more sensitive, or affected by my surroundings," he muses. "I guess I just feel lucky that I'm not punching the clock from nine to five, and maybe I'm sort of doing that kind of thinking for people that don't have the time [laughs]."

#### "I'm Homesick For A Home I've Never Had"

As the sole songwriter of *Grave Dancers Union*, 28-year-old Dave Pirner stands to make enough royalty money that he should never again have to worry about how the rent's gonna get paid. Still, the tousled singer has described this as the most insecure time in his life. "I've always had

Minneapolis to go back to - it's always been where my people are - but at this point in my life, I just don't know where I'm going. I mean, I don't know where this is supposed to end up. It's funny, because everything is such a relative thing, and I'm not exactly sure where the redemption is in all this. It's certainly not about money, you know? And no matter how much I look at how far we've come, it doesn't help me write the next record. I'm just kind of floating about, looking for, I guess, more things to affect me, in a way."

That's the downside - if there is one - to all this: Now Dave Pirner must learn to deal with the responsibility, and expectations, of having to write another group of songs of this caliber. But while there is a pressure to top *Grave Dancers Union*, he doesn't see it as that much different from writing for past albums. "I'd like to think that every record we make is that much better than the last one. That's a really important thing for me. It would feel really strange spending three or four months making a record and, toward the end, going, 'God, this is not better than what we managed to come up with a year and a half ago.' That frightens me to death and I hope I never feel that way."

#### "Will I Have The Time To Tell You How I Really Feel?"

Sitting on the tour bus, miles from anywhere with this still empty amphitheater that will be home for a few more hours, the band can take a

brief respite from the rigors of touring and promoting a hit album. For Pirner and Murphy, of course, that respite is at least partially spent on the phone, re-telling their story to the faceless voice belonging to this writer.

"This is an exciting time for us in a way,"
Dan reflects, "because a lot of people come
and see the band and seem to give a shit
about it now. So we're gonna do a couple
more tours on this record, and then I think
I'm sure the record company won't be into

this - we're gonna have to take five or six months off to write a new record, 'cause it's gonna be really important. I mean, the more you get scrutinized, or whatever, the more expectations there are for your next record. That's something we're aware of. We put out a record called *Made To Be Broken*, which did pretty well critically, and we kinda rushed into making the next record, [which] I don't think was very good. I really don't want that to happen again. We're gonna make sure we take enough time to feel proud about what

we're working on."

"I think when I get some time off, I'll be able to kinda go, 'Jesus, what a weird year.""

And, now that they've finally clawed their way to that pinnacle known as

"the big time," can they at least say it's as good as they hoped it might be? "I don't know," Murphy admits. "We never even get a chance to take a break, to step back and figure out what's going

on. It's really not that different, though: [We're] still trying to struggle through our sets and not fuck up! [laughs] But I think when I get some time off, I'll be able to kinda go, 'Jesus, what a weird year.' I mean, we've done so much weird shit: 'Unplugged,' 'Saturday Night Live,' the Inaugural Ball, and we went to Europe and opened for Guns N' Roses. I mean, this has been just non-stop, rapid fire. And every month, something like that happens."

"I'm either amazed or amused at this circus that's going on around the band," Pirner acknowledges, "and I have a tendency to laugh it all off. It's maybe too easy for me to keep a steady orientation of where I am, which, to me, is somewhat of a brooding existence, I think. But, I'm feeling goodnot like I don't have a care in the world, but like I gotta get to work and write another record. And that's pressing, because it's very hard for me to write on the road, and since we're on the road all the time, I have a certain sense of desperation to get somewhere where I can do that. And I'm not sure where that is."

"But personally, I feel good about the people that I'm with and I'm very much not taking it for granted."

"There's been a great street buzz and the success of the single hipped us to expect a #1 debut for the album."

> Cheryl Gregory, Scott's OS

With this, his second solo album, 22 year-old Brad Jordan, aka Scarface, furthers his reputation as a rap street poet. Hailing from the way popular group The Geto Boys, Scarface solo efforts are not about Geto life, but about his life. This guy is definitely involved in his hometown of Houston, where he is planning construction on a gymnasium and restaurants in the underprivileged areas where he grew up.

The buzz on *The World Is Yours* started a couple of months ago when the label released the first track, "Let Me Roll," which is currently charting in the Top 20 at Rap Radio (Top 5 Most Requested). The video is in Box Tops rotation on The Box.

The World is Yours makes a strong debut on the Hottest Sales Nationwide, clocking in at #23\*. A total of 61 buyers snow Top 50 chart debuts, including Nobody Beats The Wiz (New York) #15, Cavages (Buffalo) #29, Streetside Records (St. Louis) #2, Northern Lights (Minneapolis) #1, Michigan Where House (Lansing) #1, Sound Warehouse (Dallas) #1 and Peaches Entertainment (Miami) #13.

## BABYFACE For The Cool In You

"Currently on sale with heavy advertising and displays." Rachel Morris, Tower Records

He's known as Babyface to the record industry, but Kenny Edmonds is one of the hottest artists today. Together with the team of L.A. Reid and Darryl Simmons, this trio has churned out many Top 10 hits at Urban and Hit Radio for the likes of Bobby Brown, Whitney Houston, Boyz II Men...the list goes on. Suffice it to say that, anything that has his name on it commands a listen.

For The Cool In You is one romantic record, which is exactly Babyface's signature style. The first single and title track is already Top 10 at Urban Radio, while the video has just been added at BET. Expect to see a battery of reviews in mainstream publications such as People, USA Today and Rolling Stone, as well TV exposure on the late night circuit.

For The Cool In You debuts on the Hottest Sales Nationwide at 32\*, with a total of 82 buyers showing Top 50 chart debuts, including Strawberries (Boston) #19, Kemp Mill (Baltimore) #12, The Shoppe (Cleveland) #17,, Be Bop Records (Jackson) #9 and Independent Records & Video (Colorado Springs) #4.

## JAMES TAYLOR

"If you buy one James Taylor collection, this should be it!"

John Stinchcomb, Tracks

John continues, "There's some great musicians on this record and the selection of songs and the performances are outstanding. I think it's better than some of his studio releases! The fans are loving it, sales are Top 20 and it seems to be crossing over to a more Lyle Lovett style of buyer. Heavy play in-store also helps awareness."

How many people over the years have gone to see James Taylor and discovered what kind of fan base he has built? Well, we don't have the immediate answer, but James Taylor fans go way, way, back and this is exactly the kind of record that brings the casual shopper back into the stores. The 19 to 15\* move on the In-Store Play chart is indicative of retails' support.

Live sails 29 to 21\* on the Hottest Sales Nationwide, with another 29 buyers reporting Top 50 chart debuts. Significant upward moves include Scotti's Record Shop (New Jersey) 34 to 20, Rockit Records (Boston) 19 to 3, Wee Three Records (Philadelphia) 18 to 12, Be Bop Records (Jackson) 25 to 10, Tower Records (Pasadena) 36 to 14 and CD Listening Bar (Irvine) 25 to 18.

## BLIND MELON Blind Melon

"It's incredible. Out for over one year and it moves to #1 on our chart!"

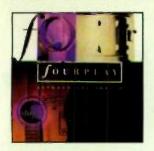

Dan Schaefer, Streetside Records

"This record has increased significantly every week for the past eight weeks!" adds Dan. Blind Melon is, without a doubt, one of the biggest breakout stories of the year. But, even among all the hoopla, the biggest question on everyone's mind has now been answered: The bumblebee girl on the cover (an old photo of a bandmate's sister) is not the same bumblebee girl that appears in the video! Now we know!

On tour with Neil Young, Blind Melon continues to win over new fans, as Mr. Young is drawing quite a diverse crowd with them and Soundgarden opening the bill. We warned you that there would be another massive increase in sales once the single, "No Rain," was released to Hit Radio. This week, the single is among the Top 10 Most Added at the format with 30 new adds! At Rock Radio, "No Rain" moves 10 to 8\* and becomes #1\* Most Requested. The video is still in Buzz Bin rotation on MTV.

Blind Melon powers 6 to 3\* on the Hottest Sales Nationwide! A total of 205 (!) accounts show Top 50 sales mentions, 148 of which are Top 10 or better.

## FOURPLAY Between The Sheets Warner Bros. : 45340

"Their heavy base of fans makes for strong first week sales." Don Van Cleave, Magic Platter

A couple of years back, Bob James, Lee Ritenour, Nathan East and Harvey Mason got together to form Fourplay. Their debut was a smash success, selling well past Gold. Their second release, Between The Sheets, promises to be even bigger, as their choice of guest vocalists includes Chaka Khan, Chante Moore and Philip Bailey.

In November, the group will begin a full-scale US tour. Between The Sheets makes its Hottest Sales Nationwide debut at #47\*, with 64 buyers reporting Top 50 chart debuts, some of which include CD World (South Plainfield) #20, Atlanta CD (Atlanta) #1, Tower Records (Sherman Oaks) #20 and Wherehouse Ent. This record is already receiving tremendous exposure, with a broadcast of the show that's already aired on over 100 PBS stations this month. Recorded in a redwood forest in Santa Cruz. "This Island Earth," a TV special that Kenny worked on for the channel that garnered him two Emmys.

"We sell tons of his records with maximum in-store play and exposure on The Wave."

Carole Lee, Tower Records

In less than three years, Ottmar Liebert has sold over one million and a half copies of his records. His blend of jazz, flamenco, rock and new age guitar has brought him to a rather large base of fans, which all started when he opened for Basia four years ago. Last year, he opened up for Natalie Cole on her "Unforgettable" US tour and in September, he will embark on his own world tour.

A total of 39 Market-Makers report chart debuts, including HMV 86th & Lexington (New York) #8, Tower Records (Rockville) #20, Virgin Megastore (LA) #49, and Valley Records (Sacramento) #1.

What our dynamic animated friends started is now taking on a life of its own, as the clip moves into a real rotation on MTV (Active) and Rock Radio moves the cut into the Top 50 on Power Cuts.

#### **RANDY TRAVIS**

Wind In The Wire

Warner Bros. • 46319

The "sweet-hunk" of the rodeo, Randy Travis is saddled up again with Wind In The Wire, which is also the soundtrack for his TV movie that aired on ABC on August 25. It is a throwback to the old singing cowboy days of yesteryear. You will find the feel of this release reflects that same feeling musically.

"We were playing In-Store Tune-Up #20 and the Umar Bin Hassan track came on and someone in the store recognized his voice and bought the entire CD!"

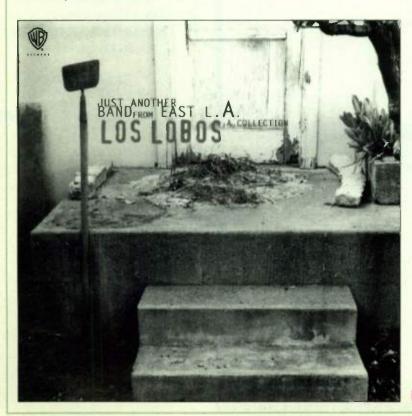

Greg, Camelot #311

Even the Pahinui Brothers can be found on the range (the Hawaiian range, that is), helping out Randy on this classic album!

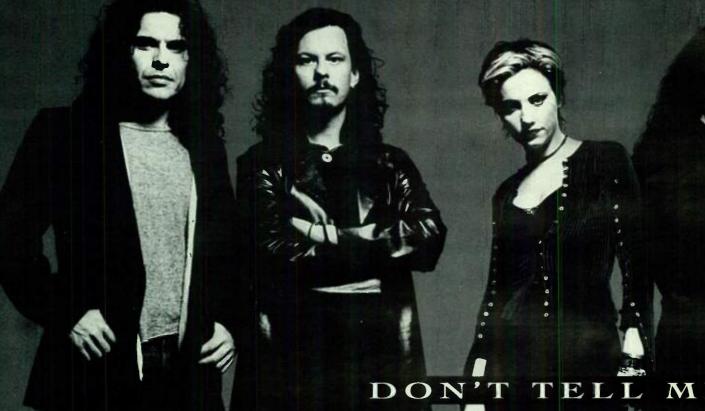

Wind In The Wire wasted no time in jumping right on to the Hottest Sales Nationwide, debuting at #85\*. The video for the swing track, "Cowboy Boogie," can be seen on CMT and TNN. MarketMakers roping in debuts include JEK Entertainment (Baltimore) #37, Record Theatre (Syracuse) #34, Music City OS (Nashville) #18 and Valley Record Dist. (Sacramento) #4.

#### LITERARY TREMORS

For those of you who enjoy a great love story, you've either already read, or are about to read, Robert James Waller's "The Bridges Of Madison County." Soon, this incredible story is going to be made into a film, as Spielberg's Amblin Entertainment has optioned the rights. Atlantic Records was wise enough to sign the author, hence the release of The Ballads Of Madison County. Produced by Arif Mardin, a host of world-class musicians back up RJW and the result is a collection of truly wonderful songs and a great soundtrack to a book that spent five months at #1 on the New York Times bestseller list! Take advantage of RJW's builtin notoriety and display this puppy prominently! The video for "The Madison County Waltz" is in What's New rotation on VH-1.

he master of music, passion and drama has returned with a knockout combination of the original musical team, heavy heartfelt expression and high drama - and on September 14, Meat Loaf is going back into hell! The long-awaited Bat Out Of Hell II: Back Into Hell is an absolute supreme follow-up to Bat Out Of Hell, which was released in 1977, (and is currently closing in on 25 million copies worldwide - it remains among the top selling albums of all time)!

Prepare yourself to see Meat Loaf everywhere. Meat Loaf's legendary live performance opens on Broadway in September for one week and will be accompanied by one of the largest media/publicity launches ever. That includes involving retailers with the magnificence of the video for the single, "I'd Do Anything For Love (But I Won't Do That)," as well as going for Rock AND Hit Radio adds this week. The video was just added to MTV in Active rotation and to VH-1 in Five Star rotation, and the consumers will now get to see what Meat Loaf has been up to (that is, after they slap their jaws shut when the video is over). There have been many confirmed media appearances for Meat Loaf, including "The Tonight Show" with Jay Leno, on the album's street date.

Bat Out Of Hell II: Back Into Hell was written, arranged and produced by Jim Steinman, with the talents of many brilliant artists - featuring Todd Rundgren, Roy Bittan, Bill Payne and many, many more. Other strong tracks include "Life Is A Lemon And I Want My Money Back," and the poignant "Objects In The Rear View Mirror May Appear Closer Than They Are." You don't even have to worry about taking a "chance" on this one, it's as close to a sure thing as it gets. Listen for yourself, see the video and know that Meat Loaf is back and means business.

Atlantic Records continues to flame the alternative A&R fires as it signs Epitaph's Bad Religion...Jane Child pulls an upset, as she knocks down barriers by becoming one of the Top 5 Most Added artists at Expand-0 this week...If you're not playing Therapy?, you are making a huge mistake, it and Paw are amazing. Look for the upcoming In Defense Of Animals on Restless. The animal rights compilation will feature unreleased tracks from Michael Stipe, Helmet, Skinny Puppy, Concrete Blonde, Sarah McLachlan and many more.

Nirvana has pushed back its add date for "Heart Shaped Box" to September 13, with the full In Utero album slated to hit stores on September 21...Johnny Depp is quickly becoming on of LA's most visible alternative scenesters with the opening of his new nightclub in Hollywood, Viper Room. His sometime roommate and good friend, Evan Dando performed a few songs at the private grand opening, as did Shane MacGowan, Maria McKee and Tom Petty. Although rumors have linked Johnny Depp with singer Juliana Hatfield, we didn't see her there...

## THERAPY?

#### Hats Off To The Insane A&M

From the first sampled scream of "Here I am, motherfucker!" on Therapy?'s Nurse album earlier this year, it was apparent this is a band that has little use for polite melodies or your standard, run-of-the-mill love songs. Instead, the music from this Belfast trio is an aggressive wall of noise that bristles with anger and energy. But on Hats Off To The Insane, Therapy? presents a different side of itself, one that recognizes the power of simple, solid hooks as well as that of towering guitars and volcanic drumbeats. "Screamager" (which is also featured on Expand-O CD #38) kicks things off in style, with a hookfilled chorus that combines the disaffected youth feel of the lyrics with menacing guitar and thunderous bass, building a bracing and memorable ride into the world of teen angst. The other tracks, especially the compelling "Turn" and forthright "Opal Mantra," are all evidence that Therapy? is learning how to translate the intensity of their live show into well-honed, but equally powerful, recordings. No doubt about it, Hats Off To The Insane will be the record to open your ears to some much needed Therapy?.

"Jenny Ondioline (Part 1)"

Stereolab is a study in fusion; in the use of varying sounds and styles to create mesmerizing music that is unique and exciting. Formed in 1991 by Tim Gane and Laetitia Sadier, Stereolab's popularity has grown quickly and steadily through college radio play and a series of discs released in Europe on the Too Pure label that have drawn strong critical reaction. Now signed to Elektra, the band looks to gain a larger foothold stateside with "Jenny Ondioline (Part 1)," the first single from their new album Transient Random-Noise Bursts With Announcements. Quietly buzzing guitars, an easy groove, and gentle vocals from Sadier characterize the soothing sound of "Jenny Ondioline (Part 1)." "Jenny Ondioline (Part 1)" serves as a suitable introduction for the uninitiated into the music of Stereolab, which elegantly melds sweet melodies with churning guitars, creating radiant songs.

Squeeze

"Everything In The World"

Songwriters and bands come and go over the years with a regularity surpassed only by extreme doses of Ex-Lax; only a few of the truly talented are able to hold on to their abilities and continue to release top-drawer material yearin and year-out. Whether you refer to Chris Difford and

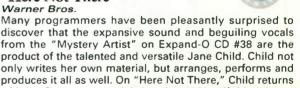

Glenn Tilbrook as master songwriters, pop craftsmen or any of the other terms used to describe the duo over their 15-year career, the fact remains the two know their way around the territory and consistently create intelligent songs with memorable melodies. "Everything In The World," from the upcoming album Some Fantastic Place, is no exception. It has all the elements of a great Squeeze song; the exuberant vocals of Tilbrook and the clean guitar and organ melodies (provided by recently rejoined Paul Carrack) that fill out the sound with a bright, airy pop feel that is both pleasing and irresistible.

Warner Bros.

only writes her own material, but arranges, performs and produces it all as well. On "Here Not There," Child returns with her first new material since her 1990 self-titled debut, and demonstrates her versatility as an artist by creating a mysterious song that is light years from the upbeat pop of her crossover hit, "I Don't Want To Fall In Love." The song's allure comes from an austere mix of soft, dreamy vocals, stinging guitar, keyboards and other elements that provide the song with a rich, moody texture. "Here Not There" is both beautiful and arresting, with an overall feel that is somewhat reminiscent of recent material from Tori Amos and Suzanne Vega, yet it retains a unique and

#### The Proclaimers

"I'm On My Way" Chrysalis/ERG

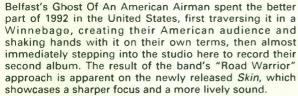

Those of us here in the Expand-O Lounge feel rather vindicated by the resurgence this fine Scottish duo has experienced this year. Let's face it, "I'm Gonna Be (500 Miles)" is the same great song it was way back in 1988 when so many wooden-earred programmers missed the boat on what has become one of the most listenerresponsive records of 1993. "I'm On My Way" is an equally fine song from The Proclaimers, whose Sunshine On Leith album is packed with the Reid Brothers' solid songwriting and engaging Scottish burrs. Sporting a jubilant feel and bounding enthusiasm, "I'm On My Way" is more than capable of duplicating the success of "I'm Gonna Be (500 Miles)." So we'll wipe the slate clean and give everyone a fresh start with the original (and current) follow-up single, "I'm On My Way"; just don't fall asleep at the switch again.

#### **Ghost Of An American Airman**

Skin

Hollywood

From start to finish, Skin exudes the increased presence of guitarist Ben Trowell, whose tenacious play injects the songs, like "War Boys" and the animated first single, "King Of Nothing," with the vibrant textures and energy that are hallmarks of the band's live shows. Adults Only stations won't want to pass up the breezy feel of the James Dean-inspired "1955'er" and the sad beauty of "Country," a song about the strife in Northern Ireland, which the song explains is more about money than religion these days. Among the album's other highlights are "Coathanger Love," which offers a male point of view on abortion, the catchy energy offered by "Fairytale World," and an outstanding cover of the Glen Campbell hit "Wichita Lineman," that is truly exceptional in both sound and execution.

#### **Bettie Serveert**

"Kid's Allright" Matador/Atlantic/TAG

easygoing atmosphere and organic sound and style has garnered the Amsterdam-based band a solid fanbase in addition to rave critical reviews and a step up to the majors by way of their recent deal with Atlantic. "Kid's Allright" is featured on both the upcoming Amongst Friends soundtrack and Bettie Serveert's debut album Palomine, and is a freewheeling track filled with Bettie

Bettie Serveert's combination of honest assertiveness,

Serveert's attractive sound and flavor. Fronted by Canadian emigre Carol van Dijk, Bettie Serveert outshine any number of up and coming young bands by keeping their sound forthright and natural, utilizing intriguing guitar textures to fill out the sound without cluttering it. If the buzz on Bettie Serveert hasn't yet reached your ears, wait no longer and give "Kid's Allright" your full attention; Bettie Serveert is the real thing.

#### Cranes

"Jewel"

"Jewel," the latest single from the Cranes' Forever album, is an emotionally deep and instrumentally lush display of Cranes' musical vision that is given a fresh luster by way of new mixes crafted by The Cure's Robert Smith, "Jewel" features a haunting and beautiful melody adorned by Alison Shaw's instantly identifiable voice that gently wavers above the mix. The Cranes' sound is

well-suited to Smith's talents, and the result here are mixes that are fresh and original versions of the song and not mere extended rehashes with booming dance beats. Instead, Smith takes the ominous tones of "Jewel" and heightens them, lending the song a slightly more gothic pop feel that is both luxuriant and delicate.

#### Swinging Steaks

"Beg, Steal Or Borrow"

Capricorn/WB

Adults Only stations won't want to miss out on the taste treat provided by "Beg, Steal Or Borrow," the first single from Swinging Steaks' upcoming album Southside Of the Sky. Hailing from Boston, Swinging Steaks have won a number of Boston area music awards over the past few years, but are now ready to move beyond the confines of Beantown with their crisp brand of straight up rock 'n roll that is tastefully accented with country and western instincts. We'll spare you the obvious pun about what a prime cut this is, but "Beg, Steal Or Borrow" features sharp, and yet subtle, hooks that are sure to work their way into your head on the first listen.

#### The Hang Ups

"Waiting"

Clean/Twin\Tone/Restless

The Hang Ups come to you courtesy of the Minneapolis music scene that produced some of the finest alternative talent of the last decade and laid the groundwork for "the Seattle sound" that ultimately stole the thunder created by bands such as The Replacements, Soul Asylum and Husker Du. But the talent pool of Minneapolis remains deep, and with the release of "Waiting," The Hang Ups appear poised to be the next big Minneapolis band. Led by the jangly guitar of Brian Tighe (which has its roots in the garage), The Hang Ups' sound is both breezy and invigorating. "Waiting" features razor-sharp vocal hooks reminiscent of The LA's pure-pop delight, "There She Goes," that draw the listener in with its simple, straightforward appeal.

#### **Bad Brains**

"Rise"

DC's seminal reggae-punk-metal-funksters Bad Brains have moshed a path of groundbreaking musical experimentation and destruction since they introduced the world to their unique version of hardcore. Now, with a new label (Epic) and a new singer (Israel Joseph-I replaces HR), Bad Brains are poised to assume more than cult status. "Rise" (the title track and first single from Bad Brains' forthcoming album) rides the power of aggressive guitars and throaty vocals rendered with the anger and integrity that has been the essence of the Bad Brains since their first single, 1980's "Pay To Cum." In addition to "Rise," the single features "Unidentified," also from Rise. Both songs are shining displays of the Bad Brains' honest, punk ethics and style.

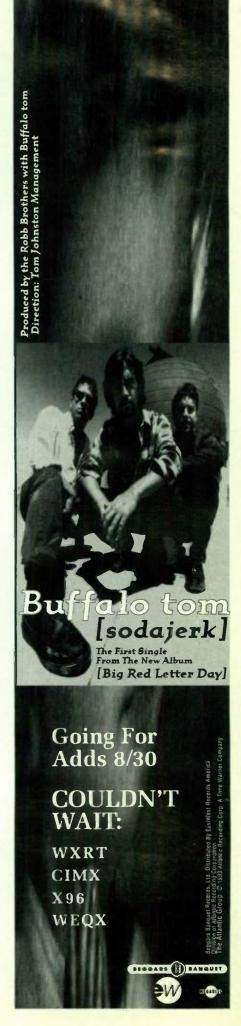

#### **Melissa Ferrick**

"Love Song"

Atlantic/TAG

"Love Song," from Melissa Ferrick's debut album, Massive Blur, introduces an exciting, fresh talent possessing a powerful lyrical presence not found in many young female artists. Melissa, a 22-year-old Ipswich, Massachusetts, native, first gained attention throughout the Northeast thanks to her intense and passionate live shows during her two-year stint at the Berklee College of Music in Boston (where she was voted "Songwriter of the Year" by her fellow students). Her reputation for energetic and hearfelt live performances not only garnered her a fanatical following, but landed her the opening slot on Morrissey's 1991 East Coast and UK tour. "Love Song" emanates a sense of loss with a brutal and painful honesty, in contrast to the sugar-coated, melancholy sap dominant in most ballads.

Boston's Buffalo Tom had far and away one of the finest singles of 1992 with the aching, plaintive "Taillights Fade," a song that opened a number of ears to one of the most exciting American guitar bands around. Buffalo Tom returns now with "Soda Jerk," the first track from the upcoming Big Red Letter Day album, the band's fourth. "Soda Jerk" embodies the best qualities of Buffalo Tom, a band with a solid understanding of the importance of dynamics and subtlety, even in the most aggressive song. With production from the Robb Brothers (Lemonheads), the sound is sharp and focused, with a powerful, shifting arrangement that is anchored by the rock solid rhythm section of drummer Tom Maginnis and bassist Chris Colbourn, which provides a platform for Bill Janovitz's emotional vocals and fuzzy guitar.

The Charlatans UK can breathe a sigh of relief this week after Rob Collins, their keyboardist, was cleared of armed robbery of an off license at Stafford County Court. Collins was arrested and charged for driving the getaway car at the crime earlier this year. After plea bargaining by the defence lawyer, Collins had the charge changed from possession of a fire arm - which carries an almost certain prison sentence - to attempted robbery, to which he pleaded guilty. Collins pleaded guilty to the charge strictly on the basis that he did not believe beforehand that his accomplice would commit the offence until he heard a gunshot, at which stage he picked up his accomplice and drove away. A new trial date to decide his sentence - unlikely to result in a jail term is anticipated within the next four weeks. Meanwhile, The Charlatans will continue to record their new album for Beggars Banquet subsidiary label Dead Dead Good, which they had been attempting to finish before the case came up. The album is being produced with former progressive rocker and rejuvenated ambient man Steve Hillage.

Looting broke out in the Hammersmith area of London last week when fans of New York rappers Onyx were refused entry to the band's debut UK show at the Palais due to overcrowding. Local news networks reported that a riot style confrontation broke out between fans and police after 500 locked-out people had attempted to storm the venue. The mob attacked the police with bottles and stones and helped themselves to electrical goods from a nearby store before 17 arrests were made for public disorder, theft and burglary offences. A spokesperson for the band admitted the act had been surprised by the amount of people who had turned up to see them at the 1200-capacity venue. The incident outside the Hammersmith Palais, the venue made famous by The Clash in their song "White Man In Hammersmith Palais," comes just four months after a man was seriously wounded there during a shooting at a ragga concert, and just last month a gunman fired into the nearby Hammersmith Apollo after a bouncer had asked his girlfriend to leave a Millie Jackson concert there.

On a lighter note, New Order vocalist Bernard Sumner has been invited to produce a single for England football star Lee Sharpe, of English Champions Manchester United, and Chris Lowe of the Pet Shop Boys has also just co-written a song for another England football star, Ian Wright of Arsenal. Creation Records artists Ride on the other hand, have decided to stick to a more traditional band/producer relationship by approaching American Recordings man George Drakoulias, aka Who? George Drakoulias, to oversee their next album.

Suede, The Shamen, Marxman, Jamiroquai, Chumbawumba, Ned's Atomic Dustbin, Buzzcocks, Mega City Four, Fabulous and Bjork are amongst the many acts who have contributed tracks to By Any Means Necessary, a compilation album aiming to raise money for the Youth Against Racism in Europe campaign. Disappointment, however, for promising youngsters Thousand Yard Stare who have been dropped by Polydor. The band was one of the surprises of last year's Reading Festival. Which reminds me, it's Reading again this weekend, so I'm just off to scrape the mud off of my boots which is still there from last year. If you're coming, pack a mac, because it'll probably piss it down. But you will, if the UK music press are to be believed, and they're not (I should know - I worked for them), catch New Order's last ever gig.

#### Once More With Feeling

Since fronting her first band in 1978 (Rosie And The Screamers), Rosie Flores has earned a reputation for being a unique and important talent. Her 1986 self-titled album showed Rosie to be one of the most exciting artists on the Los Angeles and Austin country scenes and proved her to be not only an inspiring live performer, but also an immensely talented singer, songwriter and guitarist. Rosie's latest album, Once More With Feeling, is a captivating display of her eclectic and boundary-crossing appeal.

Once More With Feeling, co-produced by Greig Leisz (k.d. lang, Matthew Sweet) and Dusty Wakeman, highlights Rosie's honest, soulful vocals and guitar playing, as well as her artistic versatility. From the hard driving country rock of "Try Me" to the honky tonk ballad "Love And Danger" to the western swing of "My Blue Angel" to the tongue in cheek blues pop of "Honky Tonk Moon," Rosie glides easily through the various genres as she paints an emotion-filled portrait of love and life. Once More With Feeling adds new depth to Rosie's ever-changing sound, and it should win her more critical acclaim, as well as bring her even more fan recognition. Stand-outs, in addition to the songs previously mentioned, include "Girl Haggard," "Real Man" and "Bandera Highway."

#### Azzoli Ascends To Executive VP/ General Manager

Atlantic Group Co-Chairman/Co-CEO Doug Morris elevates Val Azzoli to the position of Vice President/General Manager of Atlantic Records. In his new post, Azzoli will continue to oversee the label's daily activities, and will become involved with virtually every area of Atlantic's operations. He will remain based at the label's New York headquarters.

States Morris, "Since joining the Atlantic family just three years ago, Val has played a central role in realigning and fine-tuning a number of areas within the company, with a focus on long-range artist development. In particular, he has been instrumental in developing custom-tailored marketing strategies designed to utilize a wide spectrum of both traditional and non-traditional avenues for artist exposure and sales. Our current success is due in no small part to Val's creativity and hard work, and it is with great pleasure that I announce this well-deserved promotion."

Azzoli notes, "The changes which have taken place at Atlantic over the past few years have resulted in the creation of what I believe to be the model music company for the 90s. It is both exciting and challenging to be a part of Atlantic during one of the most dynamic periods in the label's 45-year history. I would like to take this opportunity to thank Doug Morris and Mel Lewinter for their tremendous encouragement and support."

Azzoli joined Atlantic Records in 1990. He was named VP in February 1991, and was tapped as Senior VP/GM in October of the same year. Prior to his arrival at Atlantic, he was an artist manager at Q-Prime. He spent nine years as the General Manager of Anthem Entertainment and Anthem Records, and was a VP at ATV Music Publishing for three years.

#### Ch-Ch-Changes At The Loop

There's a blur of action at WLUP AM/FM in Chicago as of late; two staffers exit the FM station, and the AM drops "The Howard Stern Show."

WLUP FM's Bob Stroud exits the station to join crosstown classic rocker WCKG for middays, while Loop midday man Bobby Skafish leaves the station to pursue new opportunities.

Rampant rumors about the imminent departure of WLUP/FM MD/nighttime air personality Charlie Logan have been circulating as well, but according to PD Dave Logan, Charlie remains at the station in both capacities. However, as of this writing, will be still be there?

We hear that WLUP FM will evolve into a more personality-oriented station, but don't count out their music presence in the Chicago market yet. As for Charlie Logan, is he being wooed to return to Florida?

Meanwhile, WLUP AM discontinues its affiliation with "The Howard Stern Show," effective immediately. VP/GM Larry Wert states, "After several months' experience with the program, we've concluded that 'The Howard Stern Show' is not compatible with our station."

Are any other Chicago radio stations looking into carrying Howard Stern? Wert doesn't know, but said, "As far as WLUP is concerned, they are free to do so."

One more thing...could Kevin Matthews and Danny Bonaduce be joining the FM side of things in Chicago?

#### Asher Heads To IRS As Director Of Promotion, West Coast

IRS Records VP/Promotion & Marketing Paul Orescan taps former Imago West Coast Promotion & Marketing Rep Jane Asher as Director of Promotion, West Coast, effective immediately.

Orescan notes, "Jane is very much today's promotion person. Her experience encompasses both record promotion and radio programming; so to speak, she's sat on both sides of the desk. Jane's got a

great attitude and is excited about our music. In a short time, I'm sure she'll prove to be a valuable asset to the IRS promotion team."

Says Asher, "It's incredible to be back, especially with a label that is so excited about music! The staff is amazing, and I'm already at home here."

Prior to her appointment at Imago, Asher was the Midwest rep for Virgin Records. She held various on-air and programming capacities at a number of radio stations as well, including KTYD and Y97 in Santa Barbara.

#### Henschel Strides To VP, Alternative/ Promotion & Marketing

Elektra's Senior Vice President/General Manager, David Bither, announces the appointment of Faith Henschel to the position of Vice President, Alternative/Promotion & Marketing.

"Faith Henschel's impassioned commitment to the alternative market has been a great asset to Elektra," comments Bither. "This promotion couldn't be more well-deserved."

States Henschel, "The music at Elektra is incredible, the people are swell and I've been dying to find out how much radio has really

changed. So, needless to say, I'm going to love this job! I thank Bob Krasnow and David Bither for this fantastic opportunity!"

Henschel's tenure at Elektra stretches back to 1990, when she was hired as Director, Alternative Marketing. Prior to joining Elektra, she worked in radio promotion at Capitol Records and marketing at CEMA Distribution. She began her career in music in college, handling radio promotion for Sub Pop and serving as Music and Promotion Director at KCMU/Seattle.

"The Dave Clark Five triple shot is really helping to promote their box set. I had two in the store and I sold them in two days. Now, I'm getting more in. A lot of people really aren't aware of it and this helps bring their awareness around. I really appreciate getting the Album Network things!

#### Alexander Joins Hollywood As Director Of International Marketing

Wesley Hein, Executive Vice President of Hollywood Records, announces the appointment of Betsy Alexander as Director Of International Marketing.

Alexander will be responsible for developing marketing, promotion and sales campaigns for Hollywood's entire artist roster outside of the US. The coordination of concert and promotional tours and the securing of record releases will be among her responsibilities. She will be based at Hollywood's headquarters in Burbank, California, and will report directly to Hein.

Notes Hein, "Betsy confirms our dedication for Hollywood Records' artists worldwide and to our licensees."

"I am excited about being given the opportunity by Wes Hein and Peter Paterno to structure the international division and enhance Hollywood Records' presence worldwide," enthuses Alexander.

Prior to her arrival at Hollywood, Alexander was Director/Sales & Marketing at Sony Music International. She was formerly National Director of Publicity at IRS and has worked independently in publicity and artist management.

#### KATS GM Encounters Static At Arbitron

KATS/Yakima General Manager Dave Aamodt uncovered the fact that personnel at competing radio stations KXDD/KUTI had acquired and were using two Arbitron diaries!

Aamodt turned the matter over to Nick Green, of Radio Policies and Procedures at Arbitron, who informed him that the diaries had been deleted from Arbitron's survey system.

However, as of this writing, *nothing* has been done to punish or even warn KXDD/KUTI of their transgressions, despite Arbitron's reportedly tough stance on diary tampering, and despite Aamodt's continued efforts to clicit a response from the company.

States Aamodt, "If filling out a diary while being a radio station employee is not creating distortion, than what is?! I'm a little amazed that the letter I sent to [the president of] Arbitron on August 9 has not merited a responsenot even a phone call! The ball's definitely in their court now."

#### John Knapp Segues To 550 Music As Director Of Alternative Promotion

Former WIYY MD John Knapp nabs the Director of Alternative Promotion post at the newly formed 550 Music. He'll be temporarily based in New York City, but will eventually relocate to Los Angeles.

Knapp will be handling both Commercial and Adult Alternative promotion on a national scale.

Says Knapp, "I'm very excited to be working with a great recording industry leader, Polly Anthony, and a rare situation: Launching the 550 Music record label. Polly has assembled a very talented and enthusiastic staff that complements the innovative, exciting artists on the 550 roster. After I met Polly, Jeff Appleton, Hilary Lerner and Neda Tobin, and heard some of the upcoming releases...I was sold!"

The Recording Academy, which will soon celebrate its 36th annual Grammy Awards, began in 1957, when a group of artists and other recording professionals came together to address the needs of the members of the recording industry.

"The Recording Academy's restructuring is the natural culmination of a profound set of changes within the organization," states President and CEO Michael Greene. "Our membership has grown to over 9,000, our Grammy telecast is seen in over 110 countries, and our slate of professional, educational and human services continues to expand and improve. This restructuring will represent a quantum leap in terms of our ability to provide services to our growing, diversified membership and the creative community at large."

#### Video Jukebox Network Goes Satellite

The Video Jukebox Network (VJN) announces its entrance into a tentative agreement with StarNet/CEA to distribute "The Box" nationwide via satellite; VJN has agreed to sell 687,500 shares of its common stock and issue a \$1.2 million convertible note to StarNet/CEA for \$1.75 million in eash.

With StarNet/CEA's distribution, "The Box" is sure to reach a vastly increased number of households... however, as of this writing, the agreement has yet to be finalized, and there is no assurance of that.

#### Retail Regi\$ter

Between what we hear and what was published in a recent article in the Hollywood Reporter, employees at Sony's US Music Divisions are reportedly living with a few new rules. It seems that with the current antitrust lawsuit that involves Sony Distribution in relation to the used CD issue, all executives and middle management must save every scrap of paper, every memo, no matter the subject (unless it is strictly personal), to be sorted, saved and stored at the request of attorneys, who are taking these precautions because of not only the suits, but also an investigation by the FTC over the sale of used CDs. Going one step further, according to the Hollywood Reporter, insiders say that even voice mail messages are reviewed and stored in a voice mail bank! At press time, Sony Music representatives were not available for comment.

#### ■ Streetside Invests In Revolutionary Reference Tool

The Streetside Records Chain in St. Louis announces the addition of the

1-Station to its chain. Each Streetside store will receive the listening booth, which is capable of holding a total of 48,000 different albums in its system.

Last winter, Streetside was one of two retailers in the country to test market the I-Station. How does it work? Each customer will be given an I-Card (after filling out a short questionnaire), which will give them access to the system. Customers then scan a release which features the I-Sticker and preview through headphones up to five 30-second cuts from the album. Customers can also see music video clips, album reviews and other information as available, all at the touch of a finger. At the last NARM convention in Orlando, we had a chance to play with this innovative device and were most impressed. Streetside thinks of it as "discs without risks!"

Warner Bros. Records will soon launch the Warner Archives, a new series of vintage reissues, compilations and box sets that highlights over 30 years of recording history culled straight from the Bunny's vaults.

The series has been established and will be supervised by Gregg Geller, who came on board WB as VP/A&R in 1992. An initial 16 albums will be released as part of the Archives series on September 14. Among the classic recordings are albums by the Faces, Tower Of Power and Maria Muldaur.

#### ■ Capitol Gives Away Beach Property! Well, it's not exactly like it sounds...Capitol donated hundreds of

tons of beach sand to Los Angeles, effectively recycling the huge volume of sand the label bought to stage their 30th anniversary "beach" party for The Beach Boys at the famous Tower!

"Our obvious responsibility to the community is to constantly create and release great music," states Capitol President Gary Gersh. "However, a responsibility no one demands of us but one we believe is imperative as residents of Los Angeles - is to play a role in making this city an unequaled place to live and work."

Gersh continues, "We were thrilled to be able to reuse this sand in a celebration of the 30th anniversary of the legendary Beach Boys, and then again to donate it for use in Los Angelesarea parks."

Apparently, sand is quite pricey, and Capitol's donation saved thousands of dollars of the taxpayers' money, while ensuring the further enjoyment of LA-area recreational facilities for residents.

IT TAKES TALENT AND **TEAMWORK** 

The Album Network continues its series of articles analyzing the innovative strategies that labels L and their affiliates use to nurture, develop and, ultimately, break new bands in the 90s. In our artist development spotlight this week are two Capitol success stories that, despite their differences, came out of, seemingly, nowhere to set the retail bins blazing and become two of the most requested bands in the country.

### Smooth Transition: A New Team At Capitol Breaks Blind Melon And Radiohead

Transitional periods are notoriously difficult times; just ask the beleaguered Clinton Administration, which spent its first six months in office just trying to feel comfortable behind huge new bureaucratic desks. But, if the first two months are any indication, then new Capitol Records President/CEO Gary Gersh's move from Geffen to the famed Tower will go down as smooth as fine sippin' whiskey.

Beginning the process of reshaping Capitol's staff and its priorities even before his official start date of July 1, Gersh has refocused the company and imprinted his vision without bringing in a single new band. One of his initial decisions was to have the label direct its resources and energy to breaking two existing acts that were already teetering on the verge: The Heartland-bred, hayseed guitar-slingers Blind Melon and English alternative rockers Radiohead. The company has been rewarded with two of the biggest records of the summer: Blind Melon's homespun "No Rain," which has taken on a timely resonance in their own

Midwest birthplace, and Radiohead's scabrous guitar ode to

self-loathing, "Creep.

"The biggest asset we've brought in here is the increase in focus on certain records," observes Bruce Kirkland, the former head of Second Vision,

the hybrid management/marketing firm he founded, who was recently assigned GM/Senior VP of Marketing stripes at Capitol by Gersh. "The day Gary came in here, the [weekly SoundScan] on Blind Melon was around 300 pieces, and this week it was nearly 40,000. We can't say we came in and waved some magic wand; the process was started a year before we arrived. It's a testament to continuously working artists over the long-term, and that's the philosophy we're bringing to this place - focus and long-term commitment."

It's safe to say that it's an approach finding fans among the Capitol execs who have invested many long, hard-fought hours on the two breaking projects. "I have to say that having Gary Gersh come in here, put the hammer down, and say that Blind Melon is a priority, was like, 'Thank you very much!,'" says Senior Director of Marketing Denise Skinner, who's spent over a year on the Melon project. "We've been working really hard and we were really close."

Tom Corson, VP of Artist Development, who has worked closely with Radiohead, concurs that the Gersh regime is effectively realizing the company's previous efforts on behalf of the bands. "It's a credit to everybody involved that these records are succeeding," he comments. "It's a credit to Hale Milgrim and his staff for signing and making a commitment to developing them, it's a credit to the people during the transition for keeping them going and it's a credit to Gary and his people for making the most of these opportunities."

Even while the new staff has focused equally on ensuring that Blind Melon and Radiohead reach as large an audience as possible, each act has broken in almost diametrically different ways. Blind Melon, a record started well over a year ago, has been a classic case of record company persistence combined with nearly non-stop touring by leader Shannon Hoon and company.

Hoon's initial exposure came via Guns N' Roses' extremely successful "Don't Cry" video. Hoon and Axl Rose both grew up in Lafayette, Indiana, and when they bumped into each other in Los Angeles, Rose suggested Hoon sing on the song and appear in the video. Around the same time, Capitol A&R veteran Tim

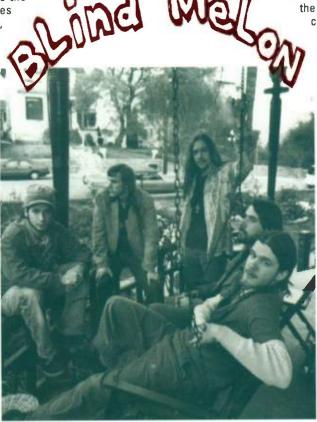

Devine heard a rough, two-song Blind Melon demo and entered into a loose development deal with the band, providing rehearsal space and monitoring their progress. Soon after, the band was inked to the label. At that point, Capitol

concentrated on putting the fledgling band on the road, performing dates at the Foundations Forum, some shows with Soundgarden and then MTV's "120 Minutes Tour" with PiL and Big Audio Dynamite.

The whole thing behind this band was they needed to tour - they weren't quite ready to go in and record because they hadn't been together that long," says Skinner. "A lot of the growth we've seen - and the success we're seeing now - is due to the fact that the band has been out there playing for people."

Blind Melon and the label were aided early on, due to both the live exposure and the GN'R video, by an enthusiastic response from the rock press. The next thing I knew, my phones were going nuts!" recalls Senior Director of Media & Artist Relations, Domenique Leomporra. "Everyone kept asking, 'Who is this band?' That really helped, because it started a buzz. Pretty soon, Blind Melon was doing press with no album out...it wasn't even recorded yet!"

The early notice resulted in a budding story and generated excitement, but once the record was released, the label was in for a slow build. MTV never put the first video, "Dear Old Dad," into overkill rotation, and a second track, "Tones Of Home," wasn't completely embraced at radio, though Senior VP of Promotion John Fagot tried a

novel approach with his staff. "We picked 12 markets," he explains, "and I told each of my local people they were President of Blind Melon Records and said, 'In your market, you have to work this record as if you had an indie label and your income depended on breaking this group.'" There were some responsive markets, notably New York and Miami, and though the track didn't break, Fagot points out that it helped build a base for subsequent tracks, including the current Top 10 Power Cut "No Rain."

Senior VP of Sales Lou Mann notes there were four different occasions when staff meetings revolved around whether or not to continue plugging away at the Melon record. "It always came back to the music," he remembers. "We'd listen to it before meetings and say, 'How could we not continue? Listen to this!"

Ultimately, Capitol's dedication and persistence paid off, something Mann suggests might not have happened in the past. "In the older days, we probably would have walked away if we didn't have success in the first 90 days. We've learned that you need to stay with things."

Things were building steadily, if slowly, for Melon when in stepped Gersh (who Corson says was "clearly involved" in getting "No Rain" added at MTV), and Melon was off to the races some nine months after its release. For National Director of Alternative Promotion Brian MacDonald, the delayed success was a kind of vindication that Blind Melon was a record for the Expand-O format. "[Associate Alternative Director] Greg Seese and I were relentless; it was philosophical warfare in terms of week after week convincing programmers this sound was right for the format."

Finally, MacDonald and Capitol earned the satisfaction of a Top 10 track at both Expand-O and at Rock Radio, a mega-hit at MTV and an album that recently went Gold and is swiftly approaching Platinum.

Unlike Blind Melon, Oxford's Radiohead, with their self-deprecating slice of angst-pop, "Creep," provided the record executive's dream come true: The out-of-the-box explosive hit, though judging from the initially lukewarm response in the band's native England, it might have come as a surprise. "Unlike Suede," says Corson, "who had a huge buzz coming out of England, Radiohead had a nice buzz, but nothing in Suede's league. 'Creep'

had only gone Top 60 in England - it wasn't an event there. It wasn't like a Jesus Jones or an EMF situation, where they were coming off a #1 UK single or album."

Nevertheless, the undeterred Capitol staff felt certain they had something, well, "fucking special" in "Creep," and the first indication they were right came during Christmas of 1992, when an import version of the record quietly scored #1 requests at KITS (Live 105) in San Francisco. Then, KROQ/Los Angeles made an early commitment. "KROQ got crazy about this thing," says Fagot. "[PD] Kevin Weatherly drove down to San Diego with his wife and they listened to the cassette we gave them and just got knocked out, and he decided to break this record. Once KROQ hit it in LA, and it started selling and requesting, hell, from that point on, we just spread it at alternative and broke it big there."

MacDonald concurs: "We took the LIVE 105 and KROQ request stories to the rest of the format, pronto!," he exclaims. "It was our job simply to make people aware of the radio and sales stories around the country and shut 'em down."

Mann relates a similar story at retail: "Radiohead happened very quickly. The record got played at radio very quickly and it was one of

those reaction records - you heard it on the radio and people had to have it. MTV started playing it and they immediately got a reaction."

But National Director of Artist Development Rob Gordon, who served as Radiohead's product manager, points out that in today's crowded marketplace, hit records don't come out of nowhere, and for "Creep," there was a lot of pre-release work. "The main thing was set-up," he reflects. "We started getting music out to our distribution people in February [Pablo Honey was released April 20]. So we got advance music out to all the CEMA people really early. In fact, Hale Milgrim played a video of 'Creep' in a CEMA meeting and everybody started freaking out about the record. We did a special, four-track sampler that went out to press early. I imported 5,000 EPs from the UK and sold them early to get the vibe going here, and they were gone within weeks."

Again, as the record progressed, Gersh jumped on board and made what, in this case, might have been an obvious decision to go full steam ahead. Ultimately, "Creep" is bulleted in the Top 25 on Power Cuts, went Top 3 at Expand-O Radio and was #22\* on the Hottest Sales Nationwide chart as of this writing.

Given their slow start at home, was Radiohead lead singer Thom Yorke surprised by the lightning-quick reaction in the States?

"No and yes," he says. "We always realized that in America, it's a completely different situation, and like good little scholars, we read the books on all the bands and how they broke in America. In Britain, it's a different world, and we spent most of our first year of being signed to EMI trying to regain a modicum of credibility with the press because we'd signed with a major label.

"But our managers came out to the US and returned a bit freaked out and very excited because the response they got was utterly different than we'd gotten in Britain. We had the head of A&R saying, ''Creep' is a great record, and we really wanna push it.' Once we realized the response we were getting from Capitol was positive, it made us think, 'Well, hang on...maybe we could actually do something with this record.'"

As if to underscore the aforementioned differences between Blind Melon and Radiohead, Melon's Shannon Hoon broaches business topics

with the trepidation of Heidi Fleiss confronting a news camera. "I don't really know a lot about the business. I keep a lot of it an arm's length away and I get a lot of it through our management. As for what it takes to run a good record company, you're talking to a kid who never really knew anything about it and still doesn't. But [Capitol] has been supportive of our band; they haven't fucked with our creative control and they've heard us out about the way we've wanted to go with things."

After breaking two big records during a somewhat tumultuous summer at the label, Capitol has similar priorities for both Blind Melon and Radiohead: Take two hit records and parlay them into two hit acts with legs for future success.

"Selling records, great, we're in that business," Kirkland says, summing up the philosophy. "But, our overwhelming priority now is to get a second track away on both these bands. We want to have artists here - not one-track bands. It's almost becoming an obsession around here."

## RAW

ool, Rage Against The Machine, Smashing Pumpkins, White Zombie...Is it metal? Is it alternative? No, motherfuckers, it's RAWk! And the ass being kicked at retail with this fab foursome is awesome. Tool's "Sober" clip is "breakthrough" brilliant and I

foresee a long run for this magnificent track. Could Paw's "Couldn't Know" be next?...Note to my pals, Rubin 'n DiDia, regarding Danzig: I am getting phones every week now for "Mother," a five-year-old track from the artist's debut album. Something weird is happening here and it feels potentially MEGA. Radio dudes, the RAWk CD-Pro on your desk contains a 93 remix of "Mother." Test it. This could be the sleeper smash of the summer. Now, back to Rube 'n Dirt. Methinks that a decent budget vid is in order for this track. Spend \$150K, let Bayer or Taft create one of their wonderful, oh-so-dark visual experiences and, who knows, the BUZZ may be deafening. I've always thought that Glenn was ahead of his time, and looking at the current market, it would appear that time has caught up with the devilish Mr. D...

Thanks much to lensmeister **Robert John** for delivering an autographed copy of his new book, "Guns N' Roses: The Photographic History," published by Little Brown And Company. It's beautiful, as are the numerous pix from RIP parties past and the kind acknowledgement. I'm proud of ya, Bobby J...**Sandy Epps** from **KLOL** in Houston, I got yer invite. Unfortunately, I'm involved with **Foundations Forum** that weekend and can't make the trip. I appreciate the thought, though...Speaking of **Bob Chiappardi**'s annual metalfest, as I have since his first foray into the convention biz seven years ago, I will have a panel and **RIP**'s presence will be felt. And to show that we're all in this together, AN's RAWk section will get

#### FRIEND TO ALL

"special" for its September 10 issue. We're gonna go "upside down" again, beef up with a special interview with **Bob** and the **Scorpions**, throw in some surprises and put said issue in mass quantities all over the convention. Naturally, label promo domos, your support of this sucker will make it work. Call me, **Greg** or **Tommy** for the pitch...

Another potential crossover monster has landed on my desk. It's from Atlantic, it's the new one by the **Melvins**, and it's sooo fucking heavy I needed one of my interns to help me load it into my cassette player. On the heels of STP, watch out for this one. The **Goldberg** era is in full swing, folks...Caught a marvelous acoustic set by Geffen's **My Little Funhouse** at a local LA pub. I still love this band, still think they have it and want you all to listen to "Destiny." And if you still don't get it, try "Been Too Long" or "LSD" from their still brilliant debut, *Standunder*....Your Friend To All and Zoo's **Jayne Simon** are doin' the downward dog

Stuttering John flew in for his "Airheads" cameo last week. I picked him up at the Century Plaza Hotel where he'd already dusted a plate of complimentary white chocolate covered strawberries and escorted him to the gig. To say the stuttering one was a smash is an understatement. The same night, Lemmy did his cameo and was also a rage. I'll tell ya, as for young John's recording career, lemme say, where there were once naysayers, now there is respect. Even Paul Cooper knew John was in town (see inset). John's track, "I Talked My Way Out Of It," is killer and destined for the soundtrack. His other excellent songs appear on his debut Atlantic album early next year. And it's gonna surprise va. Craig Kallman, you got the juice, bro. FFFFFFFUCK!...Erin from Relics Records, you're awesome, too...

One of the great Pirate affiliates, **K-Rock** 100.1 in LaCrosse, Wisconsin, is looking for a cool baby RAWk band to perform on Friday, September 10 for the station's listener appreciation concert. Please call my pal **Jim Dixon** at (608) 784-0100 if you can help him out...

Flying to New York this week, I picked up American Way magazine and read **Jim Shahin**'s article, "Rock Is Dead. Long Live Rock!" Well-written, insightful and featuring a stellar quote from RIP's **Janiss Garza**. "Rock music is about rebellion and adventure, not waxing nostalgic over yesterday's tunes," says Janiss. "Anyone who clamps his mind shut to new sounds loses his right to rock and roll." God, I teach them well...Speaking of the Apple, my exploits with EastWest's remarkable **Sylvia Rhone** and her ass kicking new bands **For Love Not Lisa** and **Clutch** was great, catch the details here next week...**Abbey The Terrific** tells me that **Proper Grounds** is coming back with a new track and clip very soon. And why not? In this Rage, Onyx world of metal/rap hybrids, PG is poised for prosperity. Watch these pages for details...I've just been informed of a third fairly visible artist hooked on that drug named after a part of someone's ass. Please, lord, send down a clue..."The only one I love" is coming. Hallowed be thy croon...Friend out....

Anybody who's a friend of Dyana's knows her taste is very diverse, but right on the mark. Here at RAWk central we're big fans of Dyana's skull jewelry collection, and at times, her outlandish attire. Mix that with her skill in the retail, radio and marketing arenas and it makes Ms. Kass a valuable asset to any company. At Hollywood she has a chance to get really involved.

"I really enjoy artist development and I see that as my future," she said to our RAWking reporter. "We (Dyana's staff of herself and two interns) like to get involved at every level. Anywhere there is a hole, we try and fill it. When I came on board, we concentrated on building a greater awareness of Hollywood Records on the streets

with extensive marketing.

"I really think it is so important to be at a grass roots level. Listen to the kids, talk to them. When I go to shows, I ask fans if they liked the band, how they found out about them, where they first saw them. I really want to know how they got turned on to the music."

When we first met Dyana, she was a die-hard fan turning people on to the likes of Primus and the Goo Goo Dolls, and she was getting into very good but very different bands at an early stage. Now as a "hig" in our RAWk world, she still has that enthusiasm and can make a difference. She's excited about the future at Hollywood Records. "We are very, very committed to all of our acts, and by still being a smaller sized company, we can focus like we do. Sacred Reich has been #1 across the board in the trades for 11 weeks, and we will do whatever it takes to break the band in a big way. And now, with Bob Pfeiffer and Nick Terzo here, I know we will have some more great bands to work with " Count on Ms. Kass to "dy" for those bands!

#### Death

"In Human Form"

Have you been killed by Death yet? What? The only real solution at this time is "In Human Form," the latest cut from Chuck Schuldiner's all-star team of maniac death metal heroes. Whoever is "shown to for what you are, a waste of life," must certainly be proud to serve as the inspiration for this mighty metal cut.

#### Fudge Tunnel

"Grey"

Earache/Columbia

Fudge Tunnel, the power packin' English ultra garage band, have grown enormously since their first Earache release in 1991. "Grey," the first track from their long-awaited follow-up to Hate Songs In E Minor, Creep Diets, is an explosive adventure in brain rattling dark and dirty metal. There are two versions to choose from on the radio single; here in RAWkland we prefer the longer, unedited version because it's crazier, even more over the top.

#### **Melvins**

"Honey Bucket"

Atlantic/TAG

Legends for years in the independent circles, releasing countless albums and 7" singles before finally inking with Atlantic, the Melvins have entered the RAWking fray with an amazing new album, with the spotlight first aimed at the bashfest called "Honey Bucket," a track that will certainly rattle a few skulls. The fuzz guitar is so buzzy it sounds like it was amplified by an airplane engine. This is one slammin' cut that can't miss!

#### Scorpions

"Alien Nation"

On this new sampler from the Scorpions' up-coming album, Face The Heat, Germany's greatest export are aiming three new songs at Metal Radio's finest. The opening cut, "Alien Nation," captures the heavier and darker side of the band as they build into a mysterious and gloomy big groove, and lyrically assess the dangers of the new world we are all so much a part of. Klaus says it all very well when he tells us, "We know the time has come to face the heat." Also included, for the sledgehammer society, are "Unholy Alliance" and "Nightmare Avenue," but, as usual with any Scorpions album, it is very deep, with songs that will fit all over the radio dial.

#### **Diamond Head**

Death And Progress

Fort C Records

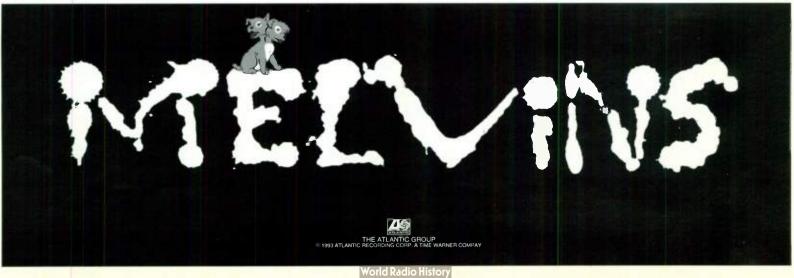

If you are one of the people on earth who don't know that Diamond Head is Metallica's biggest influence, now you do. Reforming after a few years apart, vocalist Sean Harris and guitarist Brian Tatler favor a more layered power chord approach as compared to their famous, riff-laden style from their new wave of British heavy metal days. The prime cut certainly is "Wild In The Streets," and if you want copies from the newly formed indie they are distributed by, call SVO at (510) 841-4762.

#### LONN LOVES IT!

#### Sacred Reich "I Never Said Goodbye" Hollywood

I know I've done some kooky things to show my never-ending support of Sacred Reich. The band was great last week at the Whisky and "I Never Said Goodbye" is just one of many stellar tracks by this awesome band on Independent. Phil Rind shows his more emotional and sensitive side lyrically, but this band cannot be contained for very long in any one song before they slam their very metallic point across. Play or weep!

I need to send out a thank you note to the ever amazing Circis Poland and Damn The Machine for turning me on to their cover version tape. There are songs they are playing live on the road, but you won't find on the album, that buckle knees and leave guitar shredasauruses as casualties in their wake. "Stunning rearrangement" is a weak description of what DTM does to TYA's "I Love To Change The World," Jimi's 'I Don't Live Today," and the Crimson King's "Cat Food," Fancy Feast for the brain, and at a club near you soon with Volved. III Let's file these notes under "don't count the band until it hatches" department, but former Stayer drummer Dave Lombardo is working on a new equation with former Overkill guitarist Bobby Gustaison. This combination sounds heavy enough to be caught by a metal detector. Isn't the new opening theme to the NFL's Monday Night Football show going to be much more exciting this year, with the likes of KISS and Bon Joyi lining up their best shots for this staple of Americana? It seems so appropriate that the Simmons delivered the Raiders a needed kick in the helmet last week when they were filming "I Love It Loud." from Kiss Alive III. Isn't the horribly honest live New York Bolls album, Paris Le Trash (courtesy of Triple XXX), a gas? It's perfect proof of why this band used to win "Best New Band" and "Worst Band In The World" in the same polls. (1) Lemmy from Motorhead has been writing with Skew Siskin. I The NORML project seems to be coming together, with Sacred Reich, Animal Bag and Mind Bomb committed for the duration. Drivin No Cryin will do a few shows along the way. (1) The Will roythm section seems to be a hot seat as they selected a new drummer and now are looking for a replacement at bass for T.M. Stevens. I The A&R spotlight in LA seems to be very focused on Tribe Of Gypsies and Rob Rules, which has risen from the ashes of Mary's Danish. (1) It was hard to listen to any other tape this last weekend after getting the late, great Steve Marriot's Packet Of Three live album from Guitar Recordings in the mail. For the classic rock stations out there looking for a variety of timeless songs, check out "Thirty Days In the Hole" and "I Don't Need No Doctor." It will reaffirm where the soul of Humble Pie came from! Finally got a chance to hear the foreign release on **Dream Theater**, Live At The Marque, and it is absolutely stunning. I dig every fucking note!

## thecrusades

## Larry Mazer/Phil Ernst Entertainment Services Unltd. AN OPEN LETTER TO BEAVER BROWN:

When we read your **Crusade** last week, we felt obligated to set the record straight on behalf of **Arcade**, **Stephen Pearcy** and **Steve Wood**, the band's tour manager. Had you taken the time to investigate the facts surrounding **Arcade**'s cancellation at Metro's, perhaps you would have directed your ire to the place it belonged...to the management of the club. **Steve Wood** had advanced the show as playing on an outdoor deck that was part of the club. He also was told by club management that the sound and lights he required (production that had been procured with no problem at 47 prior clubs on this tour) could only be gotten if the band reduced their guaranteed fee. Only the band's desire to play the show made this financial adjustment acceptable to them. When **Steve** arrived at the club, he was unpleasantly surprised to find that the show he had advanced had been scrapped and that the band would be playing in the round on a stage constructed in a hallway above a staircase leading to the men's restroom. In short, a production and staging nightmare, not to mention a material breach of the club's contract with **Arcade**.

By the way, **Steve Wood** is a veteran tour manager (19 years) who has successfully worked tours from arenas (**KISS, Robert Plant, Cinderella**) to theatres (**Boy George, Saxon, Thompson Twins**) to clubs (**Collision, Arcade, Tangier**) with a minimum of histrionics and bullshit, and a maximum of professionalism and diplomacy. To say that he utilized "stalling tactics" in trying to *work out* the Metro show is to demean **Steve**'s acumen and abilities, and display your lack of knowledge of the process of staging a show. Your comment that "**Stephen** didn't want to play our town" flies directly in the face of logic (and economics). This was the last day of the band's tour; had they not wanted to do the date, they could have all gone home the night before, saving the travelling party of 12 people the trip to Modesto, as well as the \$1000+ in expenses incurred by their doing so (an expenditure, by the way, not matched by the original guarantee, much less the adjusted number).

It is our perception that a thoughtful reading of the facts delineated above will prove that **Arcade** came to Modesto to play a date, not to mislead the management of Metro's, disappoint their fans or antagonize the staff of **KDJK**. It is our further perception that being a professional entails combining responsibility and ability to maximize performance. Your incorrect assessment of **Stephen Pearcy**'s professionalism and the facts surrounding the Metro's cancellation bespeak a temporary abdication of *your* professionalism. While we agree that the show's cancellation was costly and regrettable, the band's rationale for that decision was considered and eminently justifiable.

## Beaver Brown KDJK REBUTTAL TO THE OPEN LETTER FROM ICM:

I wouldn't have shot my mouth off loosely about the cancelled Arcade show if I felt it wasn't warranted. Being at Metro's when everything was going on proved to me who was at fault. I think any investigation would show that Stephen Pearcy and Arcade had no intention of playing that night. Comments heard from road crew members such as, "Well, we'll be in LA tonight just like we planned this morning," certainly didn't make it sound like they were going to play. Yes, the show was supposed to be outside. When Steve Wood arrived and found the stage indoors, he said it wouldn't work. Metro's then agreed to move the stage back outside to accommodate the band. This was met with, "The stage isn't big enough," even though the stage size fit with the contractual agreement. It seemed that every problem the Arcade crew came up with, Metro's solved. Which is what I was referring to as "stalling tactics." Steve Wood agreed to the changes and said the show was going to happen, but after a call to Stephen Pearcy, he said there would be no show. The reason: Stephen wasn't going to play; without even seeing the club. I hold no ill toward Steve Wood. He did everything he could to keep the show from being cancelled, as did Metro's. The club went so far as offering the band an extra \$1000 not to cancel.

If Arcade truly came to play Modesto as it says in your letter, someone should have informed **Stephen Pearcy** of that fact. It was his decision not to play. **Steve Wood** informed us just before he left the club that **Stephen** had told **Steve**, "I'm not playing there." He didn't. I'm not the only one who heard **Steve Wood** say this, there were others present who can back me up.

As for any doubts on my professionalism, I have no problem sleeping at night. How about you, **Stephen?** Since this cancellation occurred, I have heard of many other incidents involving **Stephen Pearcy**. We are not the only station that has had a run in with him, just the first to speak out publicly.

We were playing The Album Network In-Store CD and The Dave
Clark Five came on, and this girl who was in the store went crazy
and we sold her one of the CDs. Then Matthew Sweet came on,
she was still in the store and she bought that, too!

Between 500 and 800 people showed up at each of 15 in-stores across the country in July to see **Todd Rundgren/TR-1** and discuss CDI technology and his new album, *No World Order*. The tour proper starts in October. The single, "**Property**," is already Top 5

at Adult Alternative. Album Radio is in our sights with WMMS and WBAB on it for a month already. The argument: Our dads can beat up your dads. No...I mean Todd has always been a secret pleasure for so many of you, yet you've grown accustomed to treating him as an outsider. You've dug his music and said, "Yeah, God that was a great album. In retrospect, I should have played that. I took it home instead." We'll send you an extra to take home. Play "Property" because it's a great song, not because we asked you to. And really, how often do your generous promo buddies at Rhino ask YOU for something? The Forward label will be offering up ample new music in the years ahead, so start thinking of us a little differently, okay? Cheers!

In an attempt to escape the spotlight which has been following me since my recent promotion, I decided to skip town for a little while. If you've been trying to reach me, I've been down South doing some fishing with an old friend. And, when I say old, I mean old. This friend is like 70 or something and used to work in the record industry until he had a mild stroke that kinda screwed him up in the head. Still, he did give me my first break in the biz and I owe him a lot. That's why I bought the bait. In music: Julianna

Hatfield's "My Sister" is now being reported by 100% of the New Rock panel, with sales already soaring over 100,000. Also, MTV - Active Rotation, #3 on the Heatseekers New Artist Chart and #2 Most Requested at New Rock. If this isn't set to cross in a big way, I'm not worthy of the M. in my name which stands for....

September 12, check out Stranger Than Fiction at KIOZ's Second Anniversary Party! (Congratulations, guys!) One more word before departing...Podunk and Stranger Than Fiction will grow on you like a wart...(hopefully, not genital). Out of here!

box, John Mellencamp is obviously back and better than ever. The single is in stores now and the album, Human Wheels, will be there on September 7. Meanwhile, as you sit reading another one of my Crusades, "Alien Nation" from Scorpions is not only on your desk, but hopefully, on your airwaves by now! Let's just be honest with each other: Scorpions fucking rule! The album is called Face The Heat and will be in stores on September 21. They also will be playing Friday night of the Foundations Forum at the Burbank Hilton, just sort of a taste of things to come as they wind up for the big tour beginning in January. Now, aside from the fact that it is wicked cool to be providing all these phenomenal superstars to you (by the way, Def Leppard Bsides CD in October), we at Mercury understand that there is a new breed of rock and rollers out there not only appreciating these superstars, but indeed are looking for new bands to embrace and call their own.

Go no further, we got those, too! Catherine Wheel is a band we'll be breaking in the next few weeks with a track that has eminent Expand-O success called "Crank." Can you say "large, huge, Mercury windup" in which "No" has been eliminated from Webster's Dictionary. Have you heard it yet? Is it on the air yet? No doubt your local has been relentless with you; the excitement is building. The new album from Robert Cray is called Some Pain Some Shame with an add date of September 27. October 11 brings us a Rock Radio date for Mind Bomb and a great tune called "Daisy Chain." The track and band are doing phenomenally on the metal circuit, the band is on the road perpetually, and KILO and KIOZ have not been able to wait and are both banging "Daisy Chain." So check that out, too, okay? The fourth quarter is bright. We call it 5 in the 4th: John Mellencamp, Scorpions, Catherine Wheel, Robert Cray and Mind Bomb. Indeed, it remains a great day to break a band.

#### Jeff "RushMoore" Cook

Capricorn Records

Thank you, everyone at radio, for taking lan Moore Top 15 this week. This is a sure sign that we have a major new artist at Rock Radio. For those few of you who have not yet added "How Does It Feel," it's time to rush Moore onto the radio. Even a casual glance at the stats on this record should make it obvious to you that this is a real record. I don't mean to mount my soap box here, but it's time to testify that if you're not playing lan Moore by now, you're late. The Swinging Steaks' "Beg, Steal Or Borrow" is already flying on the radio. If you haven't listened, you need to take a few moments to hear this track. The Swinging Steaks come from Boston and we believe they are our next great band. If you're looking for an all daypart record, or a relief record from your harder-edged tracks, "Beg, Steal Or Borrow" is a mass-appeal natural. I'd steak my life on it! Widespread Panic is ready to mount their fall tour. This band is terminally on the road and "Pleas" should be on your radio station. Coming up, Freddy Jones Band from Chicago. The song is 'Take The Time, " and it ships to radio August 31.

Urge Overkill performs at Peabody's Downunder in Cleveland on September 3. UNI's Eliana Giournas will be there. Hope she has air-conditioning; it's a long drive from Chicago. Room To Move just played We Love Erie Days. This Pittsburgh band's new album is heavy! WDVE is lending their support. If you want to hear some killer grooves, call Don Szejk at (412) 421-3888. Their CD smokes. Cleveland's Cherry Bomb returns to Sherlock's on Thurs-

day. All female hard rock in **The Runaways** vein, with a good stage show. Send requests on your station's letterhead to: **Cherry Bomb** Squad, PO Box 26459, Akron, OH 44319. The production and performance is pro-quality. I recommend "**The Rain.**"

Things have been soooo crazy here with the temporary move, that I haven't had a chance to touch base with a lot of folks who have called. I regret my inaccessibility at this time, but leave a message and I'll get back with ya! Please call me Wednesday only from 10am-2pm for now. We're looking forward to getting into our new studios: Please have all your national mailings updated with this info: WXRC, 3440-B St. Vardell Lane, Charlotte, NC 28217. The H.O.R.D.E. festival was incredible! We broadcasted from the event and we were able to interview all the bands, so my heartfelt thanks to: Jay Lewis, G. Scott Walden, Ralph Carroll, Ron Carter, Katherine Kane and everyone else involved in the festival who was there. My thanks to the extra effort from Capricorn's Joe Babka for helping out in advance and from a distance. The next day, I got to rock with my buds in Brother Cane! They opened for the great guys in Skynyrd and Bad Company. Watch out for 'em! Getting lots of calls on "Got No Shame," plus "That Don't Satisfy Me" has got us rockin'! My thanks to Damon, Roman, Glenn & Scott: Kick some major ass, boys! They'll be out on the club circuit, don't miss your chance to see 'em, plus they are very accommodating about interviews and the like. Thanks Gary Gratzer, Jim Sellers and Zan Hefner for their efforts.

Tac Hammer was a guiding light in my life personally and professionally. As a role model for me as a young broadcaster just starting out, I will never forget how Tac took a few minutes from his busy day as Program Director of KQRS to talk with me and give me encouragement. I cherish every visit I made to that little house on Lilac Drive in the late 70s, as Tac brought KQ along on the first steps of its amazing evolution. I acquired my first position in the industry, and always looked to Tac for "the way to do it." In a small way, I hope I was able to repay him. When I was working at WLOL and Doyle Rose told me I would be training our newest part-time announcer for Christmas vacation relief, I could not believe that I would be lucky enough and honored to be the one to show Tac the ropes. He came in, and I showed him where to find things, the little tricks on how to manipulate the thermostat to keep the room warm, and (good grief!) the format! Later, after becoming Program Director, Tac helped me through the difficult loss of my father, and I felt ever closer to a man I was fortunate to have as a friend. I will miss him terribly, and hope that I can pass along the ideals and humanity that he showed us all. Some men seek to project power and influence; Tac Hammer sought nothing of the kind, but through his way of living and working with others, projected warmth, kindness and wisdom.

Thank yous and congratulations to everyone who helped the **Gin Blossoms** go *Gold*! With all the momentum on "Hey Jealousy," Platinum is in our sights before the end of the year. According to BDS, the track is receiving over a thousand spins a week...and growing. **Squeeze** is back home at **A&M** and back with the band is **Paul Carrack**, no stranger to Rock Radio. Check out the track "Every-

thing In the World," this could be that killer adult record you've been looking for. Squeeze has long been a favorite for creating pop masterpieces you can't get out of your head after just one listen, this is no exception. John Hiatt has a great first week at Rock Radio with "Perfectly Good Guitar" smashing through as one of the most added tracks of the week. Among the more than 50 stations out of the box, include majors WNEW, WMMR, WDVE, KTXQ, WLVQ, KTCZ, WXRT, KFOG and KXRX. This is a novel song without being a novelty! And besides that, it sounds great! Damn The Machine begins its US and Canadian tour with Voivod this week. Do not miss this show! Dates to follow. Paw just may be that summer sleeper that is beginning to wake up. "Jesse" scratches its way onto the station playlists of KQRC in Kansas City and KICT in Wichita. Add to this the success stories building at WAAF, KIOZ, KBPI, KAZY, WMMS, WRZX, KRXQ, KRRK and KRCH and you get a band who is starting to create a buzz out there. If you haven't listened to "Jessie" at least five times, you should be smacked on the nose with a rolled up newspaper!

**WBCN** 

WBCN would like to thank Paul Westerberg for visiting and chatting with afternoon host Mark Parenteau. The former Replacement brought along his guitarist David Minehan, the leader and axeman for Boston's own Neighborhoods, a group we will always dearly miss here. One thing we'd love to miss are all these Red Sox Josses. As Boston hurtles away from first place, a temporary cure for the blues was found at Great Woods with The Allman Brothers. Kelly quitar temp Dave Grissom did a fine job subbing for the vacationing Mr. Betts. Also, mucho thanks to Gregg Allman for jumping on the air with weekend personality and Assistant Music Director Steve Strick. On Sunday night, August 22, Boston celebrated the memory of Stevie Ray Vaughan (who died three years ago this month) by holding a special blues tribute at the House Of Blues in Cam-

Starting out with local guitar gunslingers Rick Russell, Matt Woodburn and Kat In The Hat, and the unbelievable Keith James White, the show continued with solid axe-work from Debbie Davies. Tommy Shannon and Chris Layton of Double Trouble and Arc Angels flew in to anchor the second part of the night which featured guitar work from ZZ Top/Stones/Who sideman Robert Johnson and Ceasar Diaz. The night built to a sizzling climax with a no-holds-barred jam session, which pulled all of the aforementioned guitarists onto the House Of Blues' not-so-huge stage. Thanks to all the artists for being there and doing fine justice to a long repertoire of Stevie Ray Vaughan songs! PS: The word I heard was that the Arc Angels breakup report may have been premature. If I might have some influence, I'd say that this band is too good to go under! Do it again, guys! That first album was fantastic. PPS: Our music calls are on Wednesdays, please, 11am-5pm. We'll talk to you directly or take a message and get back to you by Thursday after-

Believe it or not, August 30 is a history-making day! Tis the day we let loose the Melvins upon the American public! "Honey Bucket" is the smash face first single from Houdini, the forthcoming Melvins release. Believe it or not, Savatage is in the midst of their most successful US tour since they toured with Dio/Megadeth in 1988. Radio play has drawn huge crowds to 'Tage dates all over. "Living In England" is the new single from The Screaming Jets. and these Aussies are rarin' to hit the road. Overkill is still pounding pavement in support of I Hear Black. The new emphasis cut is "Just Like You." Sweet Water's on the road, too! Smokin' tunes coming soon. "Colorado Bulldog" from Mr. Big, "Baby Come Back Home" from Led Zeppelin, "Butterfly Wings" from Machines Of Loving Grace, new Rush, Saigon Kick and Bad Religion. STP equals double Platinum Plus!

I am pleased to announce the promotion of **Stevie Lynne**, our afternoon drive personality to Music Director. She has been doing an outstanding job for us on the air. She loves her work and we're expecting great things from her as Music Director. She is an intelligent and talented broadcaster and a terrific person. If you need other suggestions, please call. Anacrusis is on the bill through September 25th. Please give "Release" a spin - it's an instant reaction track. Paradise Lost will release Icon in October and it will be a priority. Therefore, please use this EP to warm your audience up for the full release. Mouth continues to garner support each week. Two months ago, no one, aside from some honored few in Texas, really knew of the extraordinary skills of lan Moore. As of this week, lan's debut track, "How Does It Feel," leaps into the Top 15. Needless to say, all of us at Capricorn are completely elated and tremendously grateful. Now that "How Does It Feel" has entrenched itself in the minds of your audience, we ask that you give it the rotation it deserves and has merited. THE FORMAT is breaking lan Moore and that fact is important for all of us. If you haven't settled in to listen to the Swinging Steaks' debut tune, "Beg, Steal Or Borrow, there is no better time than right now. You'll love the band's energy and immaculate musicianship. This tune is a pure USDA certified prime cut. Serve it medium rare for maximum tastiness. Widespread Panic and Col. Bruce Hampton And The Aquarium Rescue Unit will be on tour forever. When these bands come to your town, they are a must see. **311** has risen from the embers...peace.

"Peace Pipe" is #1. Thanks to Rock Radio for making "Cry Of Love" the first new band to take the #1 slot in 1993. And, thanks to everybody who worked so hard to make it happen. This is only the start. there's a whole lot more as we march through '93 and '94. Thanks again. Truly the breakthrough band of 1993 at Rock Radio has been Soul Asylum. "Somebody To Shove" and "Black Gold" went Top 5 and "Runaway Train" was a multi-format (including video), runaway smash. They've past platinum and are selling at 60,000+ units per week on the SoundScan chart. The Alternative Nation Tour was one of the summer's best (both financially and artistically) concert packages. So now, "Without A Trace." Without a doubt, another huge chapter in this neverending success story. Midnight Oil is wowing them on the road as is always the case. "Outbreak Of Love" is a career song that we will continue to bring home. This week WMMR and KLOS go to heavy, along with several other moves based on performance. WNEW heads a healthy add week. "Outbreak Of Love" is breaking out. Def Leppard leaps into the Top 10 as retail action on Last Action Hero heats up again. Be alert when the Manic Street Preachers cross your desk. Very interesting. The toy of the year has got to be the giant, roaring stomping Tyrannosaurus Rex from the "Jurassic Park" collection. Bought one for my nieces and had to get one for the house. We grew up too early. Van Halen's in town this weekend with Vince Neil (have you heard "Can't Change Me" yet?) I'm looking forward to the show because I saw it last week in Portland and both bands were great. I just got a finalized itinerary for the first month of the Candlebox tour - they're hitting the Northwest, Southwest and West Coast before they head back across the country. As the story surrounding this band explodes (album sales, phones, rotations), I can guarantee you this is gonna be a great show and a hot ticket. Talk to your local Warner rep and make sure you're covered. Also, make sure you're covered for lan Moore, too. See him live and you'll fully understand why "How Does It feel" is doing so well. He and the band are continuing through the Midwest and Texas. I'll tell ya, judging by the overwhelming response to "Soul To Squeeze" at AOR, Alternative, CHR and MTV, the Chili Peps will rule the world with their next album. Trust me - I'm a Promotion Man. I'm also out.

Another groovy week at Channel Z. On Tuesday's "Hot Plate," John Wesley Harding came to chat and play an acoustic set before his show in town. He then went off golfing and played a stellar show at the Post Office (thanks, Howie, Steve and Warren). On Thursday, Joe Hodge and Mike Mog from 550 Records came to play the new Eve's Plum. After hearing so much about the band at NMS, I finally got to hear it...very hip! Gearing up for the new show on Friday this week, we had an X/Hollyfaith weekend, John Doe and Exene Cervenka in Augusta...too cool. On Saturday, we had our Channel Z/Smile Gas Recycler. If you brought 95 pounds of recyclable items, you got a free CD of your choosing. We literally had tons of garbage. Tonight we have Suddenly, Tammy in Augusta for a show. The "in studio" was great. I can't wait...they promised not to pull An Emotional Fish and strip. Congrats to The The for winning "Shriek Of The Week" with "Love Is Stronger." Stu, we want "Three-Peat" T-shirts. That's three Shrieks off of one CD. No other artist even has two from one CD. Way to go The The and Epic. SuperFrank will be back in Augusta this week. Peace all over you.

This week has been so tight (it makes Scrooge look generous). Cracker gets a medium bite on our chart. After three months of various specialty show airplay, Ace Of Base goes straight to HEAVY. On October 23, we are putting together a benefit for Tree Fresno (a non-profit environmental group) and we will need artists to perform. All labels that can help with making artists available should contact Don Parker or me at (209) 226-5991 ASAP. On the music edge, check out my home county boy Apache Indian and "Boom Shak A Lak" ... a great Reggae track. This bloke has been around for a while and is massive worldwide. Also, check out his last three or four LPs. There's also a new remix of Anne Clarke's "Our Darkness," the 80s alternative-dance smash. Check out German band Intrance, a cool trance-vocal record now available on import. That's about it for now. Don't forget our concert on October 23...otherwise, you may not get any Jam Tarts and Spam sandwiches for tea time next time you're in Fresno.

WDHA did another rock auction to raise money for a great AIDS charity called The Names Project. Over \$7200 was raised with the highest items being an autographed George Thorogood guitar (\$900) and an hour-long guest DJ stint on 'DHA (\$475). Thanks to everyone who donated items for this great cause. A nod to Charlie Londano for bringing Squeeze by last week. Difford & Tilbrook are genuinely nice guys and possibly the finest songwriting team since the Glimmer Twins. Thanks also to Paddy Rascona and Sky Daniels for the performance with Hothouse Flowers. Meatloaf is burning up the phone lines. Hey, if there can be sequels to movies, TV shows and books, why not one of the biggest albums of all time? Thank God the Dylan anniversary show is out on disc. I was getting tired of fast forwarding the interruptions from the PBS beg-a-thon broadcast. Eddie Veder and Mike McCready, Neil Young, Ronnie Wood, John Mellencamp and Rosanne Cash, Mary-Chapin Carpenter and Shawn Colvin are highlights for me. Baby Animals get a bump and make Top 5 phones this week. Add it! As always, it's been a business doing pleasure with you.

It's high time I got around to saying thank you to some great people who have been there helping us out as of late: First to **Dave Ross** for the incredible short-notice help with 94 Rock's "Ticket To Rock" trip to see **U2** in London. Thanks as well to **Pam Edwards** and **Greg Phifer** for bringing the charming and talented **Patti Scialfa** by for a visit and live on-air performance. Speaking of great live on-air performances, **World Party** gave us one recently, too, and thanks to **Jeff Laufer** on that account. Gratitude to **Pamela Jouan** and **Danny Buch** for a lovely evening at The Wiltern and the chance to meet **Pete Townshend** last month, and lots of the same to **JB Brenner** for repeated instances of excessive hospitality on both coasts.

Kudos to Sunkist, Belkin Productions, Blossom Music Center, MCA Records and Zoo Entertainment for their help in the Third Annual WONE Beach Dig. It was very much appreciated. Also, this past weekend, we gave away copies of the Bob Dylan 30th Anniversary Concert Celebration CD and video on a Win-It Before You Can Buy-It weekend. Very special thanks to Jim DelBalzo, Kid Leo and Dave Watson at Columbia for the help in making it all possible. Thank you's also this week to Southside Johnny for giving us a call and spending a few moments onthe-air with us before his show at The Nautica Stage in the flats of downtown Cleveland. Goodbye, Gabe Baptiste. Lincoln is losing the most creative, insightful radio programmer that it has ever seen. For several years, it has been our privilege to work closely with Gabe in developing exciting and effective marketing strategies for both new and established artists. Gabe's perception, adaptability and cooperative spirit have been a significant factor in breaking new artists on the airwaves and in our retail stores. The radio and record "business" is still about the music. We would like to thank Gabe for keeping "MUSIC" as your top priority in a world that focuses more on the "units." It is with a combination of sadness and exhilaration that we wish you the best of luck in your new endeavors. MTV International has hired another major force. Look out, Central and South America! Congratulations to Lorie Counter and Greg Lee on their nuntuals! I hope they're having fun. Much to the amazement of Virgin, we added Cracker's "Low" this week. It's got a hook a mile wide. Great song... Speaking of which, last night I sat in Dean Deleo's bedroom (with his wife and my man!) and listened to three new Stone Temple Pilots tunes. Holy shit! This stuff is better than Core, which is one of my favorite CDs of 1992. Amazing! There are a couple STP originals called "The Lounge Fly" and "The Big Empty" and a cover recorded so far. Dean asked me not to say what it is, but they've been doing it live and it's better than the original, which is blasphemous to say! I'm sure it'll be a while before their second release, but don't even think this band won't be around forever. See you at the Def funeral.

And, thanks to the mighty, mighty **Cheryl V** for setting that up. Also, the next night, **Quicksand, White Zombie** and **Anthrax**...thanks to **Jessica Harley**. (Hey, **Bud**, don't forget the photos). Finally, thanks to **Jon Nardachone** for the upcoming presents. This **Wednes** day night, I'll see **Overkill** pummel Saratoga winners into grateful submission. Hopefully at midnight (my birthday) someone will pick me up and point me towards Vermont. I anticipate bloody good fun. Almost a year older and none the wiser! Right, **Prue**?

KAZY

I keep thinkin'...what are we to do come the end of the year when the music gets dry? You guys are spoilin' us with efforts like Candlebox and Anthrax and Urge Overkill and Brother Cane and Blackfish...and the list goes on! So here's the deal: When December rolls around and we're not adding anything, it's cuz A & R should plan better! Other killer stuff: Blues Traveler, Nudeswirl, Tool, I Mother Earth and Quicksand! Gotta go...it's aiready snowin' in the mountains! Yes! Very soon I'll be skiin' again!

Things are definitely hot down here in Texas! Sixty days without a spec of rain, 15 consecutive days of over 100 degree temperatures, it's steamin'! Speaking of steamin', SHE'S BACK! That transplanted Canadian guitar ace **Sue Foley** with her second release entitled, *Without A Warning*. Dubbed as "The guitar prowess who can hold her own on guitar with the Lone Star blues big boys", being on the road the last two years opening for such greats as **Buddy Guy, Buckwheat Zydeco** and **George Thorogood**, as well as on her own, has led to some incredible new music from **Sue** which is due out in late September. As I said in the beginning, it's definitely hot down here in Texas and it ain't just the weather!

Music Awareness

Special, special thanks to Tommy Nast, Luke Robitaille, Pat Brisson, Scott Weinstein, Paula Palazzo, Carey Curelop and all involved who made our celebrity hockey game a success. The Los Angeles Forum was sold out, 16,005 and over \$100,000 was raised for The T.J. Martell Foundation. This game was probably the greatest thrill of my life, especially seeing Tommy Nast take a pass from NHL superstar Pavel Bure and put the puck in the net! Wow! Call Tommy and ask him why he went "tweeners" on goaltender Manon Rheaume. Only he knows the answer.

Damn The Machine is on the road and in your face, folks! They're on a triple bill that starts fast with Clutch and finishes strong with Voivod. The live situation is where DTM excels, so make arrangements for attendance now. Play "The Mission," "Lonesome God," "I Will," or "Patriot" as you warn people of the show. Damn The Macine has earned and deserves your support. Therapy? returns stronger with an EP's worth of new material titled Hats Off To The Insane. There's NO chance for songs called "Screamager" and "Speedball" to suck! Watch for a Doughboys CD called Crush, keep playing Monster Magnet and Paw and all will be right with the world. And for those of you who went to the alter last weekend, witnessed Soundgarden and heard the new songs, I'm insanely jealous but you know what... I got mine,

Welcome to Volly Void! Thanks, everyone, for the warm reception! Okay, down to business: Morgoth - great showing out there. For those of you late out of the starting gate, what are you waiting for? The track is "Resistance" if you haven't heard. Many have already dubbed this as Morgoth's most

mature work. Be prepared for interviews and a fall tour. Only Living Witness!! You didn't think I was going to let you get away so easily, did ya? Thanks to WUAG, KZRX, WBCN, WBUL, WBNY, WCCR, WFCS, WMBR, WWSP, WXPL, KSFX, KISW, and many others (you know who you are). This record should already be in your top 5! Now you should all be watching it burn its way up the charts. Beware, this tune has been known to cause a severe "Rock N' Roll Neck," not to be listened to while drinking expresso. Upcoming releases: Cro-Mags (look out) and Eyehategod scheduled for September, stay tooned! As they say in Nicaragua, Hasta Sandinista!

Alert

Never ones to let sleeping dogs lie, we here at Alert have enlisted The Pinheads to put their domes to the grindstone so to speak, to fashion some fine hand-crafted promotional items! No, you won't see any of those pre-fabricated, slick graphic shards of plastic promo crap attached to the Alert logo (the name that says "trust"). Instead witness, if you will, the splendor of our individually signed and numbered miniature Pinheads, each one full of elfinmajic and a pure joy to behold. Great at home, the garden or at the end of the driveway. These Pinheads are guaranteed to bring a warm feeling to kids of all ages. So c'mon, everybody, its like Zip says, "Wouldn't you like to be a Pinhead too"? Well, now you can! Simply join the "Proud to be a Pinhead" conga line of respectable airplay! KIOZ has. So have WKLL, WROQ and WPYX. DMX (Digital Music Express) has 'em in power rotation and Digital Cable Radio is on it as well. So don't delay, add The Pinheads today! Note: no longer affiliated with the Franklin Mint. Offer void where prohibited. Must be 21 years or older to receive an anatomically correct Pinhead!

Relics Records

Finally, a new Best Kissers In The World! I guess this means it's time to take Puddin off of repeat play. If only I could be Miss Teen USA! Mmm yes, I've a big ole titty hard-on for this new Cracker album. "Track 99" should be the first single. White Zombie and Blind Melon are both still selling strong. The employees here at Relics are proud to say we've been behind both of these albums since the start. We are very happy for both bands and their companies. This is a great example of what a little extra push can do! Better late than never! Hey! Lets hear it for the new Hazel on Sub Pop. That one took me by suprise. Is this another sleeper about to wake up and blow us all away? You all know who else started out on Sub Pop! Oh well, until next time...P.S. Hey, my favorite "LOSER"! Marry Me! Marry Me!

#### Derek Ault

Alligator Records and Management

Dave Hole! Dave Hole! Don't judge this one without a good listen. This is not a hardcore blues purist stroke off release. The pencil necks that read "Living Blues Magazine" would shutter at the first listen of Dave's rocked out slide. This is as far from the traditional rural (i.e. blues shows) as anything that Thorogood or Clapton or Healey has done. Why not give an artist that is simply a natural at whipping things up into a frenzy a decent listen? Don't assume that Alligator is code for blues show music only. Your hard core rock listeners will drop their jaws after one listen to his slide work! This is definitely rock 'n roll with a touch of blues. Unless you are a big flabby loser, give this one a minute of your time. Don't short change your listeners! Check out

"Nobody Hears Me Cryin'," "Workin' Overtime" and "Mean Ole Airplane," for some of the most potent slide work since the last effort from Johnny Winter. I can't think of a better place to start for some great adult numbers. Hey, adult rockers, dont forget to listen to our re-serviced Live From Austin from Delbert McClinton. It's excellent! Thanks for reading! Buenas Knockers!

KRZQ

Hey, and have mercy...uh, yeah, they say imitation is the sincerest form of compliment, Right, Well, I am here to say accept no imitations, go for the real thing. When you're livin' it large and loud in the land of the free, sometimes you have to cut through the clutter to find out what's really real. Adorable was one of those bands that wasn't gonna get 25 adds out of the box, but they are real. Matter of fact, we had them in town for a show, and they rocked big. Reno is a market that gets overlooked and underbooked. We have taken on the task of doing our own shows. That's okay, KRZQ will make the money. We  $\operatorname{did}$  an  $\boldsymbol{\mathsf{X}}$  show and boy, was it big. Damn near sold out a 600 seater. X rules! Also, we're doing a Thrill Kill Kult show to coincide with the release of their new project. Early response has been phenomenal. Went to see Duran Duran and I was extremely pleased. Sound was great, staging, lights and theatrics were superb. It was incredible. Also, attention record people: I need you to start putting the name of the album on the CD single that it coincides with. By the way, we had a great book!

#### Paul W. Brown

Virgin Records

As of August 25, I was on the road for 15 days. Does my brain feel like a poor, little, lonely pork chop that's been microwaved to death? You bet! Does "Got No Shame" jumpin' 8\*-4\* in BDS with a 10.5% increase in airplay give me the wherewithall to keep jamming? You bet! Does the fact that our mystery band is blowin' out at MTV, Alternative, Metal, Hard Rock, AOR, College, Retail and the street make me virtually immune to exhaustion? Absolutely! And, is the Kravitz tour selling out faster than pastel shirts at a Michael Bolton concert? un, huh, un, huh? I'm on vacation (thank heavens) after this trip. Caesar certainly must rest now.

Type O Negative. Type O Motherfuckin' Negative. Type O Goddamn Fuckin' Negative. So, now you know and understand what we have been explaining to you forever. WSOU and WKNC understand. Top 5 phones and #2 and #1 respectively on their charts. We expect, no, we demand, that the most original release of 1993 go to #1 on the charts. Trust me, the sales on this release for the first week alone show that this can do it. Legitimacy hurts, it means you have to chart this thing #1 whether you worship it or not! Annihilator is "setting the world on fire" and we're throwing you some gas! Full CD adds NOW! Just because you're getting it from Epic doesn't mean we won't be bugging you about it, play it NOW! Add Treponem Pal's "Pushing You Too Far" and Pestilence's "Mind Reflections" NOW! Time has finally caught up to Treponem Pal, so give this a top priority listen, NOW! Are you playing Dog Eat Dog and Black Train Jack heavily? You goddamn better be, if not, you're missing out on records that are really reacting for people! New CD single from Black Train Jack is on the way. Life Of Agony playing the night before Foundations at 9pm, everyone please make sure you make it there (these guys are power incarnate). Talk to you soon. Ripping Corpse. Judgment Night. Pungent Stench. Vai.

#### **Aerosmith Score A Star**

B oston's finest rock export, Aerosmith, were honored this past Thursday with a star in their name at the Tower Records Walk of Fame, in their very own hometown!

The 26-inch brass star, which is the first of its kind, was cemented into the ground on the landing of the Tower Records store located at 360 Newbury Street, in Boston.

Every member of the band was on hand to witness this momentous occasion, and each one received a plaque (an exact duplicate of the star) to commemorate the occasion.

The award ceremony was thrown to celebrate Aerosmith's 20 years of kick-ass contribution to the world of rock 'n roll...we say it's well about time they were recognized for their efforts!

So guys...when's the star on Hollywood Boulevard going down?

#### **Halford Starts A New Round**

Ex-Judas Priest frontman Rob Halford has returned to the world of the living (and the thrashing) with his new band, Fight - an act that has been generating quite a buzz in the RAWk world!

Halford and company will soon release War Of Words, their Epic Records debut, and anticipation has been high...the album features 12 new songs, written

and produced by Halford, which tackle distinctly political subjects.

Backing Halford up in Fight are Jay Jay, bassist and "accomplished tattoo artist," who hooked up with Rob after designing some custom tattoos for him; guitarist Brian Tilse, who jammed with Jay Jay previously in a band called Cyanide; guitarist Russ Parrish, from LA's Bad Dog; and former Racer X drummer Scott Travis, who backed Halford up on Judas Priest's 1990 release, *Painkiller*.

Obviously, rumors about Halford losing steam are totally unfounded. "I'm still pissed off at the world," he confirms. "Fight is a band that will take on any subject matter, no matter how taboo, no matter how difficult it might be for some people to accept."

Look for the War Of Words to commence on September 14!

#### T.P. On The Sunset Strip

AN's Howard Luckman
puts in his two cents:

O. Why can't they keep
Jewish people in jail?

A. Because they eat lox.

Tom Petty And The Heartbreakers played their first gig in two years earlier this month - an extremely rare club appearance - in the brand new Viper Room, owned by actor Johnny Depp.

The house was packed to the gills with an opening night, invite-only, star-studded crowd, and Tom Petty and crew treated the audience to a 60-minute set that featured new songs like "Crawling Back To You" and "Going Down To Georgia," which may appear on the band's upcoming greatest hits album this November.

The intimate concert, which also featured the Lemonheads' Evan Dando, Maria McKee and ex-Pogues frontman Shane MacGowan, among others, was a benefit for the Starlight Foundation, an

organization that grants wishes for terminally ill children.

Among the celebs there that night (aside from host Johnny Depp) were Rick Rubin (who's currently working with Tom Petty!), Dennis Hopper, Stevie Nicks, Tim Burton and Julien Temple, the director who shot Tom Petty And The Heartbreakers' video for "Into The Great Wide Open."

#### White Sands, White "Heat"

Herman Rarebell. Ralph Rieckermann, Matthias Jabs, Klaus Meine and Rudolf Schenker of the Scorpions grin director Peter Christopherson (the only one not

Multi-Platinum German rockers the Scorpions will soon release their latest album, Face The Heat, and the band has been busy as of late; their lead-off single, "Alien Nation," is just impacting at radio, and they've just finished the video for another single "Under The Same Sun." Speaking of "facing the heat," The band decided to shoot the clip

under the scorching sun of New Mexico's huge White Sands Desert, braving its extreme weather, including an electrical storm!

Although White Sands was chosen because of its natural beauty and distance from "civilization," the site also holds historical significance as the testing site of the first atomic bomb - ironic, considering that the song "Under The Same Sun" relates the oneness of mankind and our struggle for peace.

We have to hand it to the band and crew for enduring the 115-degree heat; they were so far out in the middle of nowhere that there was no escape. Telephone communication was impossible, too...but unbelievably, throngs of fans managed to make it out to watch the shoot!

Among the faithful were several German military airmen who were stationed in nearby Alamogordo...the soldiers got a cool surprise when the band hooked up with their countrymen to trade stories in their native tongue!

Prepare to Face The Heat on September 20. Now, if all goes right, we may have an awesome Oktoberfest concert live from Germany to bring you...oh my God, imagine the Jagermeister stories!

Hey Drew, get ready!

#### **Money To Burn**

Earlier this month, Miami police and armed Federal agents stormed the Bayfront Amphitheater, where they seized large amounts of counterfeit money...which just happened to belong to Porno For Pyros!

The band, which was scheduled to play the Bayfront Amphitheater later that evening, was held in police custody for several hours while cops counted the funny money.

So, what's going on? Is Warner Bros. not providing enough tour support to Perry Farrell and company? Actually, the band has been using the money as a stage prop. Farrell tosses the quasi-cash into the crowd during the song "Meija."

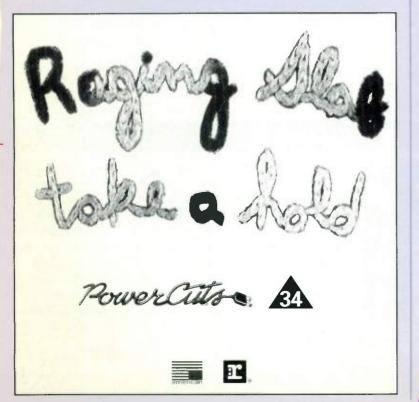

Police were called in after a Denny's restaurant in Tampa phoned in a tip...the band had played Tampa the previous night and one crafty fan presented it to a cashier at the coffee shop.

Amazingly enough, it was taken as legit by a Denny's employee, regardless of the fact that the bill has a portrait of Farrell's face on both sides!

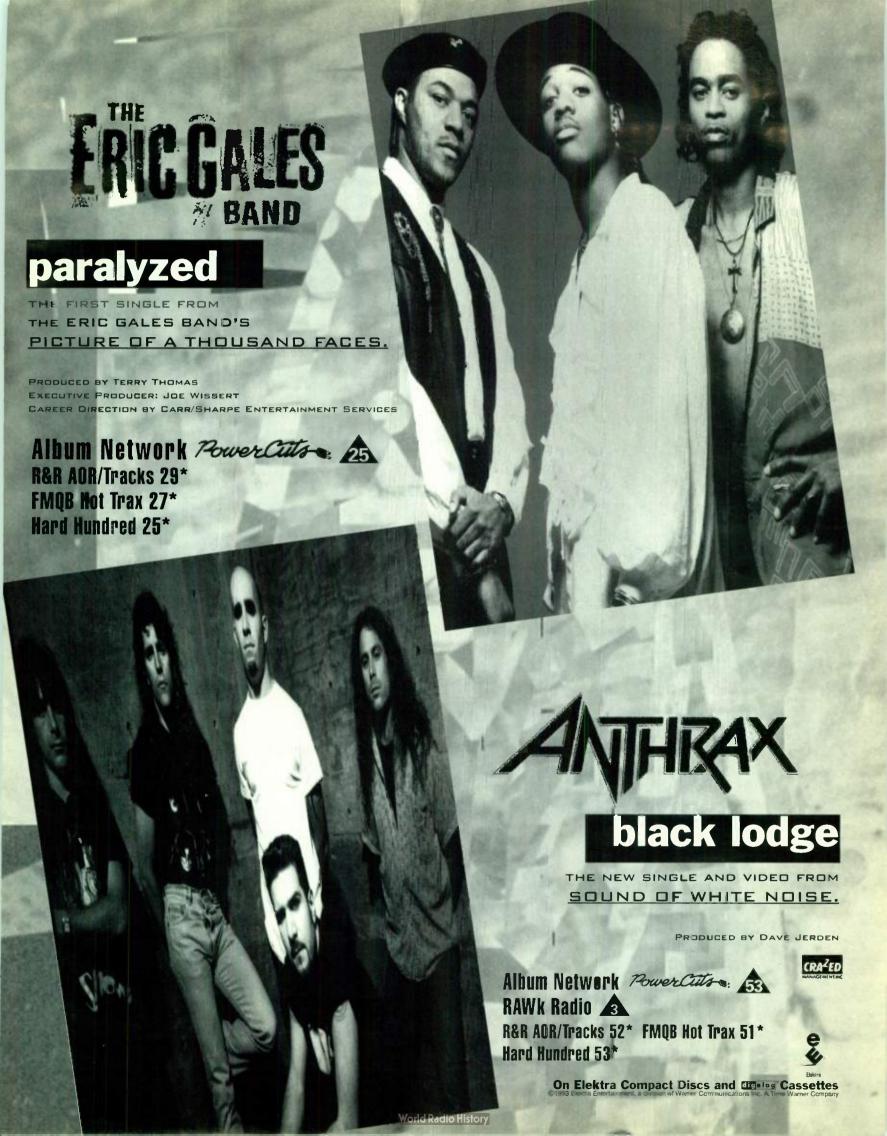

No charges were filed against Porno For Pyros, and the Miami gig went on as planned. However, Perry must now throw real dollar bills into the audience...ironically, we hear that it's actually cheaper than printing the fake bills!

From the "Dwayne & Pat" show at Network Forty: Q. What did Michael Jordan say about his father's death? A. He bet \$50,000 in Las Vegas at 3-1 odds that the two men would get life in prison.

And still more from the "Dwayne & Pat" show: O. What killed Michael Jordan's father? A: A two-point shot and a free throw in the river.

#### The Axeman Cometh

A Jell, it looks like Yngwie Malmsteen, once the god of all things guitarish, has been having quite a terrible run of luck...his manager passed away in December and he's been dropped by his label. Now, to add to the situation, it seems that Yngwie has found himself on the wrong side of the law!

Malmsteen held a stand-off with a SWAT team at his home in Miami Shores, Florida last week, before finally surrendering to authorities. He's been charged with aggravated assault, for allegedly pointing a .12 gauge shotgun at his girlfriend's mother and threatening her life!

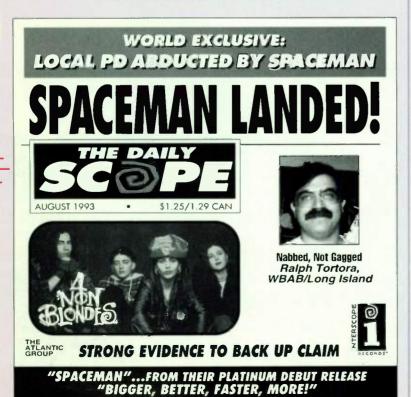

Elaine Potter was visiting her daughter, Amber Dawn Landin (who happens to be Malmsteen's live-in girlfriend), from the Arizona Indian reservation she calls home. She claims that Malmsteen was holding her daughter captive, although Landin denies this.

Malmsteen met police dressed in a blue bathrobe and sporting a cast on one arm. He says he hurt his hand punching a picture frame, but Potter claimed in a police report filed earlier this summer that he'd broken a knuckle punching her daughter!

Police say this is the second domestic abuse case that has been filed against the guitarist this year...and his ex-wife and an ex-girlfriend have also alleged that he hit them.

Malmsteen has denied all the charges leveled against him...we'll keep you posted on the developments!

#### **Jackyl Headlines Flood Benefit**

While the dangers of uncontrollable flooding have receded with the water line, there's still one hell of a mess to clean up! As part of the reconstruction effort, KSHE/St. Louis presented a benefit concert featuring Jackyl and fellow Geffen act My Little Funhouse at The American Theater this past

Although proceeds

from the concert have yet to be accounted for, KSHE has already raised over \$20,000 and has collected thousands of pounds of food and supplies for the relief efforts...proceeds from the gig will go to the Salvation Army Flood Relief benefiting local victims.

Jackyl has also contributed to flood relief efforts in Urbana, Illinois...the band donated one of Jesse James Dupree's infamous chainsaws to WZNF to be auctioned off!

The autographed, turbo-charged Jonsered chainsaw garnered the highest bid, netting over \$1,400!

And what does Jesse have to say about the recent disaster? "We can relate to natural disasters because we are one," quipped Dupree. "Jackyl is a natural disaster just looking for a place to happen."

We have to agree, Jesse!

#### **AMC Update**

Things are getting fun at Wildwind, eh? Don't tell me Erica is gonna go A through yet another husband! Here Dimitri's turned into the perfect guy, and Erica's too dumb to see it!

Speaking of Wildwind, look for a new stable boy to be thrown in the mix and look for this guy - yes girls, he will be a hunk - to not get along too well

Speaking of Charlie, I say that within the next two months, he and Hayley will be splitsville. Glad see Trevor back! Please don't make him start liking Laurel just because Timmy likes her...I think she's gonna get busted, since they found the body! All I can say is, poor Jackson!

And finally, who's takin' bets on Mimi and Lucas as a couple and Derek and Taylor hitting it off as well?

And more from our Invisible Pal:

Q: What does a blonde consider a two-piece

A: Slippers

That's it for me! I'm Tommy Nast with the Nasty Nooz.
