Hooligans Steal The Show!

It's As Easy As 1-2-3!

It didn't take long for Motley Crue to answer whatever questions Rock Radio might have about its new singer and new sound. One hundred and twenty-two programmers add "Hooligan's Holiday" out of the box, including those in 20 major markets. Plus, after less than a week of airplay, both KNAC and KIL0 are spinning the new Motley Crue more than any other song in rotation!

Reaction is the name of this game, as 19 reports of Top 5 phones have come in from all sections of the country, and the *Motley Crue* CD is #5 on the Hot Futures list at retail - a full month before its release!

In an unprecedented showing, the folks at Geffen/DGC have nailed down the top 3 slots on this week's Power Cuts chart. In order, they have placed Counting Crows' "Mr. Jones," Aerosmith's "Deuces Are Wild" and "All Apologies" by Nirvana! For Counting Crows, their #1 Power Cut comes with the very first single they've ever put out. Aerosmith has now hit #1 or #2 on the chart six times in the past year, while Nirvana's Top 3 Power Cuts showing is their finest to date.

Congratulations go out to these three bands, and to the hard working promotion staff at Geffen who made it all happen!

DAVID LEE ROTH

“She’s My Machine” Reprise

Diamond Dave’s name has been synonymous with great rock n’ roll for more than 15 years now, and with “She’s My Machine,” he has further cemented that image. This one cranks, riding on the strength of massive guitars, a monolithic bottom end and David’s familiar, hook-laden wail!

Recorded in his new home, New York City, with Nile Rodgers at the helm, Roth went way back to his

roots for his forthcoming *Your Filthy Little Mouth*. Eschewing all the guitar hotshots that would have given their eyeteeth to join his band, Dave teamed up with Terry Kilgore, a guy he first played and wrote with back in the seventh grade, right here in Southern California.

The Album Network will be world premiering David’s new CD Wednesday, March 2. Call your AN rep for details.

Possum Dixon “Watch The Girl Destroy Me” Interscope/TAG

“Watch This Mofo Explode” might have been an appropriate title as well, because this LA four-piece rocks with the same singable power pop sensibilities as Gin Blossoms, and will work at all the same formats. “Watch The Girl Destroy Me” is 100% closed out at Alternative Radio (where it moved 14-12* last week), was Top 10 at

College Radio, and has begun working at Top 40 Radio, too. Additionally, there are several Power Cuts reporters already on Possum Dixon, including WRZX, WVVV, WDHA and KROQ!

For the whole story, see Possum Dixon live (they’re touring the West Coast currently, and on Conan O’Brien’s show presently), and for the particulars about the band, see the write up in AN Rock CD TuneUp #111 (on your desk now).

collective soul “shine” Atlantic/TAG

At least 13 Rock Radio stations added this one right off of AN Rock CD TuneUp #110, a telling piece of info. Atlantic has just picked up this Georgia band, based on eye-opening sales in a number of markets where “shine” has been getting airplay for a few weeks (we told you a couple weeks back that the *hints, allegations, and things left unsaid* CD was recently #2 sales in Orlando - behind only Pearl Jam)!

If you never listened to “shine,” pay attention when Atlantic hands you their Pro-CD. This one is highly infectious, straight-ahead rock with distorted guitars and powerful words.

Soundgarden “Spoonman” A&M

You read about this one in last week’s Album Network, and now, thanks to a leak, you should have a copy of this monstrous, pounding, volatile piece of rock n’ roll magic. If you’ve heard it, you’re no doubt one of the 91 reporters who added “Spoonman.” If you haven’t yet heard it, realize that with this song, Soundgarden has stepped into the same league with Pearl Jam. Kim Thayil’s guitars are ferocious, bassist Ben Shepherd and drummer Matt Cameron lay down a rhythm track that is thick and engaging, and Chris Cornell’s voice is virtually soaked with passion.

As soon as you have your copy of “Spoonman,” you may race to the control room and throw it on.

Green Apple Quick Step “Feel My Way” Medicine/Giant

Green Apple Quick Step gets new life with their debut album, *Wonderful Virus*, as Giant takes over the project. “Feel My Way” is the first cut under the new agreement, and gauging the explosive guitars and powerful dynamics of this one, a better track could not have been chosen for the honors. And, with Ty Willman’s heartfelt vocal delivery and Bob Martin’s ingenious drumming, “Feel My Way” sets Green Apple Quick Step way apart from the legions of Seattle bands all vying for a share of the market these days.

Whether or not you dealt with GAQS earlier, there is no reason to avoid this band now.

DANDELION

UNDER MY SKIN

DURING OUR COMIC RELIEF RADIOTRON, COLUMBIA SPONSORED A SPIN ON DANDELION'S UNDER MY SKIN. THE PHONES IMMEDIATELY LIT UP AND A LISTENER LIKED THE SONG SO MUCH HE BID TO HEAR THE SONG PLAYED AGAIN. Billy Falcon
Letters From A Paper Ship
 Mercury

With *Pretty Blue World*, Billy Falcon entered the Rock Radio arena via the type of contemplative, heartland rock that made stars of both Bruce Springsteen and John Mellencamp. Finally, nearly three years after "Power Windows" endeared itself to the format, Falcon returns with *Letters From A Paper Ship*, his fifth album. Spiked with everything mainstream radio loves in a good rock song (driving rhythms, insistent electric guitars, crisp acoustic six-strings, thoughtful words and, above all else, impossible-to-ignore hooks), *Letters From A Paper Ship* is a tasty embellishment on Billy's 1991 CD.

Nineteen Rock Radio outlets went out of the box on "I Like How It Feels" last week, giving the song a #74* start on the Power Cuts chart. But *Letters From A Paper Ship* does not end with "I Like How It Feels." Also noteworthy are "Wonder Years," "Cold Hard World," "Paper Ship" (an obvious single), the very Mellencamp-ish "Don't Want Any" and, for a change of pace, "The Coffee."

Various Artists
A Tribute To Curtis Mayfield
 Warner Bros.

Mayfield first recorded with The Impressions in 1957, and along the way, he has managed to influence and inspire innumerable performers, writers and singers. Hit singles like "Talking About My Baby," "I'm So Proud," "Keep On Pushing" and "People Get Ready" made Hall of Fame members of The Impressions, and "Superfly" and "Freddie's Dead" etched Mayfield's name in stone as a solo artist.

In 1990, while performing outdoors, Curtis was paralyzed from the neck down, when strong winds blew a lighting rig onto him. Now, an amazing array of superstars have paid their respects to Mayfield by recording some of his finest music. All proceeds from the sale of *A Tribute To Curtis Mayfield* will go directly to help pay his enormous medical bills.

Rock Radio can dive right into this stunning work, because many core artists, from Eric Clapton to Bruce Springsteen to Lenny Kravitz to Steve Winwood to Rod Stewart to Phil Collins to Elton John, have donated tunes.

Colin James And The Little Big Band
Colin James And The Little Big Band
 Virgin

Three years ago, "Keep On Lovin' Me Baby" embedded this youthful Canadian blues guitarist/singer/songwriter in the hearts and minds of us Yanks. With that traditional blues recording, Colin showed off a style and touch that belied his years. On *Colin James And The Little Big Band* he goes even farther back and shows us he can handle 40s and early 50s jump blues, big band and swing as well. This superb record was made with producer extraordinaire Chris Kimsey, and it features performances by legendary keyboardists Chuck Leavell and Reese Wynans, and The Roomful Of Blues horn section. If you loved the Honeydrippers EP, you will fall for this in a big way.

Thirteen Power Cuts reporters are now on "Cadillac Baby" (including KXXR, where it was added directly to heavy, KAOI, where it jumped from light to heavy in one swift move, and WQNY, KFFX and WERX). Rock Radio outlets looking for something with a little more guitar should gravitate toward "Three Hours Past Midnight," "Sit Right Here" and the Thorogood-like "The Boogie Twist Part II." And, why not let your listeners in on Colin's completely different version of the classic "Train Kept A Rollin'?"

As a package, *Colin James And The Little Big Band* is a killer collection of some succulent party music.

Chris Herriges
"All Real Now"
 Magnet/GMB

This Minneapolis-based singer/songwriter/guitarist re-recorded this track just a few weeks ago with his band. Released last year on an EP called *Long, Cold Road*, "All Real Now" follows Herriges' first indie album, *Come What May*, and you can hear the updated version on our Rock CD TuneUp #111. "All Real Now" is powered by an awesome bass line, dirty power chords and Chris' smooth, Winwood-like voice; this combination of grungy music and clean vocals is very appealing. Given a proper chance, "All Real Now" could work really well at Rock Radio.

For more info on Chris Herriges, and to receive the full EP, contact Gerry Brennan or Janet Miller at the label: (612) 644-6848.

Dewey
"Hangin' On A Tear"
 Astral-Ocean

Dewey's guitar work here fits like an old slipper, as his style has clearly been influenced by early Eddie Van Halen. Taken from his eponymous CD (his third), "Hangin' On A Tear" shows Dewey - and his band, called Them Generation - to be well-versed in full-throttle, hard pop rock. Veterans of the Hollywood and NYC club scenes, Dewey and Them Generation have a winner with "Hangin' On A Tear," which can also be found on AN Rock CD TuneUp #111.

You can reach Astral-Ocean at (818) 886-6484.

ANDERSON BRUFORD WAKEMAN HOWE
"An Evening Of Yes Music Plus" sampler
 Caroline

Finally, for the first time since this group's 1989 tour of the same name, Jon, Bill, Rick and Steve have released a live album. A double-disc collection, pressed on gold disc, *An Evening Of Yes Music Plus* is a two-hour-plus extravaganza, recorded on the final night of that historic tour.

On this week's Designated Hitter, Caroline has reduced the live CD down to a manageable, four-song sampler, which includes the acoustic "Time And A Word" segueing into their dynamite version of "Owner Of A Lonely Heart." Also, for your convenience, an edit of "Owner" has been included here. Then comes two of Yes' all-time greats: "Roundabout" and "Starship Trooper." With a new Yes album in the offing, this release of *An Evening Of Yes Music Plus* could not have been more perfectly timed.

On Deck

February 18, 1994 - Magic Dick and J. Geils from **The J. Geils Band** have formed a new group, called Bluestime, and plan to have a record out later this year. **Boston's** "I Need Your Love" is, for the moment, scheduled for adds on April 11. The new **Cheap Trick** single (on Warner Bros.) is scheduled to be on your desk by the end of the week. **Bono** makes his acting debut in the upcoming thriller, "Strange Days." The **Smithereens** are coming with a new CD for RCA in April; Lou Reed guests on the disc. A "best of" package is coming from **Sammy Hagar** next month. It will feature two new tracks and it's ironically titled *Unboxed*. David Crosby, Benmont Tench and Levon Helm have all helped out on the forthcoming Don Was-produced CD from **Bonnie Raitt**; look for *Longing In Their Hearts* to arrive March 22. **Peter Frampton**, the man who epitomizes live performing, will hit the concert trail in mid-spring.

Smashing Pumpkins

"Disarm"

Virgin

The *siamese dream* CD is Platinum and still in the Top 15 on our Hottest Sales Nationwide chart (as of last week). If that fact alone isn't enough to grab your attention, what about 30 days of exclusive play on MTV as a Buzz Clip? Does that count for anything?

Smashing Pumpkins are not weird, alternative stuff. The undeniably catchy, affecting "Disarm" is already #76* on Power Cuts, and quite frankly, it should not have to be as much of a work record for Virgin as "Today" and "Cherub Rock" were. One listen to "Disarm" should be all it takes.

Def Leppard

"From The Inside"

Mercury

If you think you know Def Leppard, you haven't checked out "From The Inside." Initially recorded as a B-side for *Adrenalize*, this version from *Retro Active* features Liam, Fiachna and Peter from Hothouse Flowers ("From The Inside" was done by Joe Elliott and Liam O'Maonlai for a British TV series before this recording).

"From The Inside" is a folky, acoustic ballad that blends nicely the styles of Hothouse Flowers and Def Leppard, utilizing none of the studio tricks that have marked latter day Leppard CDs. The subject matter is also quite different for these guys; the lyrics view drug addiction "from the inside," the vantage point of the drug itself.

Duff McKagan

"Man In The Meadow"

Geffen

The Gunners' bassist is back with another cut from his *Believe In Me* CD. Totally appropriate for Rock Radio, "Man In The Meadow" sounds like it might have been copped from "*The Spaghetti Incident?*" CD. In fact, with Duff on lead vox, "Man In The Meadow" even shares that in common with much of the latest Guns N' Roses CD.

"Man In The Meadow" was performed by McKagan (bass, rhythm guitar and drums), Ted Andreadis (keys), London McDaniel (vocals) and West Arkeen (lead guitar), and was written for a friend of Duff's who has passed over to the other side.

My Little Funhouse

"Raintown"

Geffen

Various Rock Radio and RAWk Radio outlets have aired both "I Want Some Of That" and "Destiny," from this Irish band's debut outing, *Standunder*. But neither of those tunes prepared you for this passionate, hook-injected, mid-tempo rocker. "Raintown" is so mainstream it's ridiculous, with the guitars of brothers Brendan and Anthony Morrissey sharing center stage with the high-pitched voice of Alan Lawlor. These guys are in their late teens and early 20s, but they rock with the confidence of a band 10 years older.

Look for "Raintown" on AN Rock CD TuneUp #111.

Tab Benoit

"Bone Pickin'"

Justice

Rock Radio stations looking for a guitar pickin' bluesman to pick up the torch from the late Stevie Ray Vaughan need look no further than Tab Benoit. This 26-year-old Louisianan can play like nobody's business, he has a voice that is vaguely reminiscent of Gregg Allman's and he knows how to rock! If you need more validation than our word, consider that Gregg Bissonette (ex-David Lee Roth and Joe Satriani) played drums on Tab's CD.

This format played "So High" and "Nice And Warm," and both cuts reacted extremely well wherever they were spun (more than one-third of the 28 stations that played "Nice And Warm" received Top 5 phones!). Now it's time to get with the program and play "Bone Pickin'." Reach Justice Records for more info at (713) 520-6669.

1 MOTLEY CRUE "Hooligan's Holiday" ELEKTRA • 61834

"We were getting phones on Motley Crue before we even had it to play!"

John Nagarya, WKDF

Motley Crue clearly sets the tone this week that their new lineup and new direction are for real. "Hooligan's Holiday," with new dude John Corabi up front, screams outta the box with 122 adds (16 into heavy) and enters the Power Cuts chart at #20*. Of course it is a first-week Homer!

"Hooligan's Holiday" is a heavy reaction record from the word "go," as 19 stations report Top 5 phones already, including outlets in San Diego, Seattle, Kansas City, Tampa Bay, Portland (Maine) and Denver.

Everybody's talking about this one, including WBXQ's Mike Thomas, who says, "It's plain and simple: Just fuckin' play Motley Crue and watch the phones light up!" KEZE MD Belinda Simmons echoes the thought, stating, "After only a few spins, we already have Top 5 phones! John Corabi was a good choice for lead vocalist."

At WQLZ, Vince Richards exclaims, "'Hooligan's Holiday' is a totally different sound for Motley Crue, and it smokes!" Also, Strummer, at WTKX, states, "With spring break coming, this song will be huge!"

ADDS = 122 • MAJORS = 20

2 SOUNDGARDEN "Spoonman" A&M • 540198

"This track makes me want to start smokin' again!"

Ann Harlo, KOCD

"Spoonman" got rushed to cover a leak, the add date was therefore moved up a week, and still this killer new Soundgarden track pulls in the second most adds at Rock Radio. Ninety-one out of the box supporters are enough to score a #27* debut on Power Cuts and a leadoff Homer!

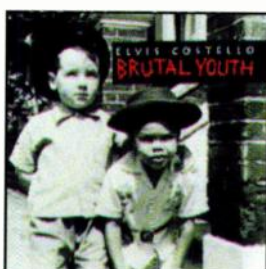

The major market support for "Spoonman" was impressive, as WLLZ, KIOZ, WWBZ, KSJO, KSHE, WRZX and KISS are just a few of the 19 such stations to add it. KXRX, KISW, WXTB and WAAF all put the song right into heavy rotation, while KQXR has already started spinning "Spoonman" four times a day.

KOME's Stephen Page declares, "The new Soundgarden is an out and out smash! Everyone should be able to play this song." WKLL/WKRL PD Mimi Griswold is apparently privy to info most of us aren't: "This song (and the whole record) is just a complete and utter smash!"

Phil Marlowe of WCCC comments, "'Spoonman' will break Soundgarden wide open," and WWBR's Don Alias calls it an "explosive, exceptional track!"

3 ELVIS COSTELLO & THE ATTRACTIONS "13 Steps Lead Down" WARNER BROS. • 45535

"It's great to have Elvis back with the original Attractions!"

Guy Dark, WHDQ

It's been a long time between hits at this format, but Rock Radio embraces Elvis' new song like an old friend this week. With 55 out of the box adds, Costello's "13 Steps Lead Down" ranks third on New Action Airplay and starts its Power Cuts jaunt at #41*. A Homer! for Costello is very near.

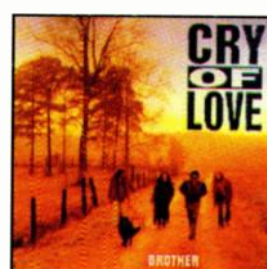

KFOG, WPLR and KXRX are among the seven stations adding "13 Steps Lead Down" into heavy, and WMMR, WNEW, KTCZ, KTXQ, WAVF and WBAB all go with it out of the box. Also, Costello debuts at #20* on the Adult Rock chart this week, he is #1 Most Added at Alternative Radio, and *Brutal Youth* is the #4 Hot Future at retail.

At WVVV, Stevie Lynne proclaims, "This is a very cool Elvis track. It's the sound we like from him!" And Debbie Gilbert of WWWV beams, "The real Elvis Costello is back!"

Rick West of WXKE calls this "very retro Elvis. It'll be interesting to see how the 25+ audience accepts this track. I think they'll like it!" To that, we direct Rick's attention to the Adult Rock Radio debut, mentioned 19 lines up from here.

4 CRY OF LOVE "Too Cold In The Winter" COLUMBIA • 53404

"This should fit well into what just about any station is doing!"

Tim Dukes, WTFX

Forty-three more adds put "Too Cold In The Winter" on 117 Rock Radio outlets after two weeks. And, with 14 rotation increases, Cry Of Love's third offering from *Brother* bullets its way from 33 to 24* on Power Cuts and slugs a Homer!

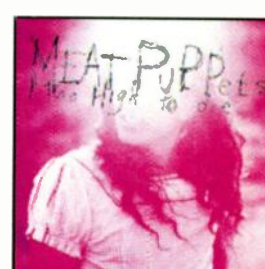

A whole slew of classic calls get added to the list of believers in "Too Cold" this week, WRIF, WLZR, KSHE, WKLS, KXRX, WKLC and KIOZ among them. And, WQLZ reports 21 PPWs on Cry Of Love.

Stevie Lynne of WVVV says of Cry Of Love, "This whole album is awesome. And, of course, 'Too Cold' fits in perfectly with the weather most of the country has been having lately!" At WKLT, Brian Sullivan calls this "another killer track from this great band!"

Music junkie Wally Feldt of KDBM still can't believe the similarity between *Brother* and some of his other favorite CDs: "This is just like listening to the first couple of Bad Company records!"

5 MEAT PUPPETS "Backwater" LONDON/PLG • 828484

"Here is a band that's finally getting the break it has deserved for over 10 years!"

Phil Marlowe, WCCC

After seven albums, Meat Puppets have virtually come out of nowhere to score big at Rock Radio. Again this week, "Backwater" nails down enough adds (41) to go Top 5 New Action Airplay. Combine the adds with the nine rotation bumps and "Backwater" blasts 41-31* on Power Cuts - and parks a Homer!

Too High To Die is again bulleted in the Top 100 on our Hottest Sales Nationwide chart, while stations such as harder RAWkin' outlets KRXQ and WXTB add "Backwater" right alongside Adult Rockers such as KTCZ.

Both KQXR and KSEZ tell us of a minimum of 26 plays this week on "Backwater."

KTCZ MD Jane Fredericksen notes, "I've liked these guys for a long time. They are definitely long overdue for recognition!" At WZNF, Roger The Dodger comes at it from a different angle: "Meat Puppets have been underground for way too long! This is the type of song that should put them right at the top!"

6 RUSH
"Nobody's Hero"
ANTHEM/ATLANTIC/TAG • 82828

"The lyrical content of 'Nobody's Hero' proves that Neil Peart is an absolute genius."

Scott Gentle, WFVW

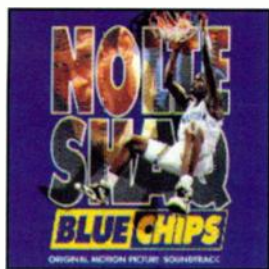

"Nobody's Hero" has another stellar week at the format, owning 40 more adds and 19 rotation raises. The latest from Rush climbs 26-16* on the Power Cuts chart.

WFBQ, KSJO, WXTB, WAQX, WLZR, KISS and KQRC top the list of new supporters this week, while WAVE, WIQB, WTKX, WQLZ and KATP are all giving "Nobody's Hero" at least three spins a day. Plus, KMKF more than doubles its plays this week.

The song's topic seems to be the topic of conversation, as WIBA's Jack Mitchell states, "Lyrically, I find it very interesting for Rush to do this track!" Bill Walker of WROQ says, "It's nice to see Rush keeping on top of things that are happening in the world!"

7 JOHN MELLENCAMP
"Baby, Please Don't Go"
MCA • 10925

"John's hip, the song is hip, and it's a cool remake!"

Pam Brooks, WHCN

"Blue Chips" (Nick Nolte/Mary McDonnell/Shaquille O'Neal) is the movie from which this new reading of a classic comes. Not skipping a beat from the *Human Wheels* singles, John nabs 39 out of the box adds on "Baby, Please Don't Go," good for a #49* debut on Power Cuts.

John always warrants a great deal of out of the box exposure, and KDKB, WBAB, WKLS, WMMR, WNEW, KXRX, KTCZ and WFBQ (the latter two add this one to heavy) all agree there is no reason to wait on "Baby, Please Don't Go."

At KDBM, PD Wally Feldt remarks, "This is more than just a remake, and it's great to hear Mellencamp kick up his heels a little bit!" And KOZZ's Steve Higgs points out what should be obvious to everyone: "This was a no-brainer for us to add!"

8 BROTHER CANE
"Hard Act To Follow"
VIRGIN • 87825

"'Hard Act To Follow' is the strongest of the three Brother Cane tracks released!"

Matt Vaughan, KNCN

"Hard Act To Follow" has all but exploded up the Power Cuts chart. With 32 new adds and 20 rotation increases, the third installment from Brother Cane's debut zooms 22-14* on the airplay chart this week.

Listeners in San Jose, Indianapolis, Seattle, Boston and Palm Springs will all be hearing "Hard Act" on the radio now, and five different stations report at least 21 PPWs, including WTKX, KQXR, WKLQ, KGKL and WQLZ.

At WROQ, MD Bill Walker says of Brother Cane, "These guys continue their momentum with 'Hard Act To Follow.' Their recent show here knocked out the crowd!" Roger The Dodger of WZNF declares, "This record is gonna have a long life!"

9 JOHN HIATT
"Buffalo River Home"
A&M • 31454

"I dig John Hiatt! He flat-out rocks on this whole album!"

Jeff Custer, KFFX

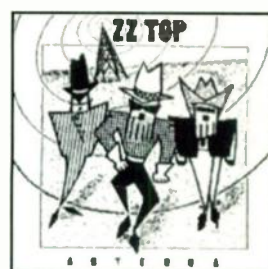

"Buffalo River Home" is on its way to becoming the third hit from Hiatt's *Perfectly Good Guitar* CD, picking up 21 adds in its first week out. The result is a #75* debut on the Power Cuts chart.

Among the new believers in "Buffalo River Home" are WHJY, WMMR, KTCZ, KXRX, WEZX and WHCN. Perhaps some of these stations are also playing the acoustic version of this one from our Rock CD TuneUp #111.

Up in Seattle, KXRX's Lindsey Cipcic comments, "Hiatt continues to merit airplay with 'Buffalo River Home.' His time has definitely come!" At WMMR, Riki Hofberg tells us about another important aspect of John Hiatt: "His live show is very powerful!"

ADDS = 21 • MAJORS = 4

10 ZZ TOP
"Breakaway"
RCA • 86317

"Breakaway is a track that is going to be around in 15 years!"

Rik Maybee, WRXL

"Pincushion" finally relinquishes its #1 Power Cut slot, and "Breakaway" is right there to take its place. With no official push yet from RCA, this cut gains a vote of confidence from 19 Rock Radio stations; it is now on 60 outlets and is this week's Album Network BreakOut at #37*.

Not only do WRIF, KLBj, KLPX and WRKT add "Breakaway" this week, but it has already been on WDVE, WKLS, KQRS, KTXQ and WLVQ, among others.

KDJK's Jeff Riedel says of ZZ Top, "They are not only masters of sparks, but also masters of high tech rock n' roll!" And, at WQLZ, Vince Richards states, "These guys have gone back to the bone. Our audience can't get enough of ZZ Top!"

Logan Blazes To APD/MD At WWBZ

Greg Solk, VP/Programming at Evergreen's WMVP and WWBZ/Chicago, officially announces the addition of Charlie Logan as APD/afternoon driver. Former APD/MD Kevin Lewis exits the building to rejoin Major Broadcasting as APD/MD.

"With the promotion of Charlie Logan to APD/MD and PM drive, The Blaze is set for continued greatness," Solk tells Album Network. "He's the perfect guy to grab the bull by the horns and do whatever it takes to get the job done. His work ethic, along with his knowledge of the format, is second to none. To say I'm elated to be working with Charlie on this project is a giant understatement!"

"I'm excited about this wonderful opportunity to lead The Blaze to new heights in the 90s," enthuses Logan. "I'm thrilled at the confidence that Evergreen Media has shown in me."

Logan has been assisting the programming department of WWBZ since leaving his post as MD of WLUP FM in November of last year. Prior to that, he spent over a decade at Tampa's WYNF, eventually making his way to PD. He also served in MD posts at both WFYV/Jacksonville and WMJQ/Rochester.

Album Network And CEMA To Make NARM Convention History!

As NARM (National Association of Recording Merchandisers) sets up camp in San Francisco for the 36th annual convention on March 19-22, the combined talents of CEMA and The Album Network are preparing to host the biggest showcase the convention has ever seen!

Last year's showcase took place under the stars on Disney's Pleasure Island in Orlando; it featured Blind Melon, World Party and Lenny Kravitz, and drew over 1,500 appreciative fans. The concept is simple: Provide a first look at breaking artists in a venue that is genuine, with a crowd of hardcore music junkies.

1994's showcase will take place on Monday, March 21 at San Francisco's historic Warfield Theater from 8:30pm-1am. This marks the fourth year the Album Network retail staff has put together this amazing showcase, and the second year that CEMA has joined forces to provide an evening of brilliant live performances. The lineup is as follows: Sam Phillips will kick things off with an acoustic set, then dada will plug in and take the stage. After dada will be the legendary Richard Thompson, followed by label mates Crowded House. Topping off the evening will be Cracker. Transportation will be provided to all convention attendees by trolley cars, which will shuttle folks to the Warfield from the Marriott Hotel and the Tower Records store manager bash, and back to the hotel after the showcase.

Once again, CEMA and The Album Network are running a NARM/Showcase Contest. As in the past, four Album Network retail reporters will be flown to the convention, all expenses paid, to revel in all the mayhem SF will have to offer (see this issue for details on how to enter to win).

A special twist will be added to the event this year, as SF's Live 105 (KITS) comes on board to promote the artists and the showcase to its listeners. Live 105 will be giving away 1,000 tickets to lucky listeners, who will enjoy the show from the upper balcony. Since San Francisco is the town and the Warfield is the theater, it only seems appropriate that the ambience will include light and slide shows, classic cult films and just about anything else that is trippy or funky!

Don't miss this year's soon-to-be legendary Album Network/CEMA showcase. It just gets better and better!

Balis Returns To St. Louis As PD Of KSD-FM

KYKY and KSD-AM/FM VP/GM Karen Carroll brings aboard veteran programmer Rick Balis as the new PD at St. Louis classic rocker KSD-FM. Balis assumes his new duties on Monday, February 21, replacing Smokey Rivers, who acted as PD for all three stations while a permanent PD of KSD-FM could be found. Rivers resumes his responsibilities as OM for KYKY and KSD-AM.

"Rick Balis - what a coup for KSD-FM!" exclaims Carroll. "When KSD went on the air as *the* classic rock station in St. Louis, its #1 competition was Rick Balis at KSHE. His expertise, knowledge and integrity make him one of the industry's top operations managers. Rick is a major part of EZ Communications' continuing investment to make a great radio station bigger than life. Stay tuned - there's more to come!"

"I have been waiting for the right opportunity to make my reentry into programming," explains Balis. "EZ Communications, KSD-FM and the Midwest - St. Louis in particular - are an ideal combination."

Says Rivers of the transition, "Rick's experience in the classic rock format, and his prior achievements in the market, are evidence of the great things to come at St. Louis' classic rock station. His contribution to KSD-FM, and what we already have in place at KYKY and KSD-AM, provide EZ Communications with one of the most powerful duopoly programming teams in the nation. I am very enthused about his signing on with us!"

Most recently, Balis programmed WLUP-FM/Chicago. He previously spent 11 years in the St. Louis market at KSHE, garnering the station some of its highest ratings ever during his run as PD from 1984-1991.

Derek Oliver Claims VP Stripes

EastWest America Chairman/CEO Sylvia Rhone ups Senior Director/A&R Derek Oliver to VP/A&R.

"Throughout much of the 80s, Derek's enthusiasm and knowledge made him one of England's pivotal rock journalists," offers Rhone. "Those same qualities, combined with an intense commitment to his artists, which have made him an exceptional A&R person and a major contributor to the growth of EastWest America. It gives me great pleasure to announce Derek's well-deserved promotion."

"It's just a fantastic compliment, on behalf of Sylvia and EastWest," offers Oliver. "I feel honored to be working in such a creative, forward-thinking environment, and with colleagues who love music as much as I do."

Oliver began his career in 1980 as a journalist for the UK publication *Melody Maker*, then moved to *Kerrang!* at its inception in 1982. In 1987, he joined Atlantic UK as A&R Manager, before moving to the US in 1990, where he was named Director/A&R for Atco. Oliver joined EastWest in 1992, and signed Dream Theater and For Love Not Lisa, among others.

I was playing ZZ Top's 'Pincushion' from TuneUp #25 and sold the CD to a guy who said it was the most killer thing he'd ever heard! Keep sending us the TuneUps!

AN Welcomes Hay, Says Goodbye To Lampner

Carla Hay

Rocio Lamoner

For almost seven years, Rocio Lamoner has called The Album Network home, and at the end of this week, we lose one of our favorite people. Our Retail Research Specialist is heading off to the (frozen) solid ground of Chicago to pursue personal interests and start an exciting new life. A graduate of Loyola Marymount, and a former staffer at Chrysalis and at KLOS/Los Angeles, this original "Valley Girl" won't stay away from the entertainment industry long! We are saddened by Ro's choices in Chicago professional sports teams, but with help, she can overcome her shortsightedness and wise up! Everyone who has ever had the opportunity to get to know Ro understands what we mean when we say we are truly losing a great friend.

"I will dearly miss everyone I've worked with over the years and I thank them for always keeping me entertained, even at deadline on Tuesday," says Ro of her departure. "I will miss being with my department mates at NARM this year, where I know Album Network will be a huge success once again." Retail VP Mark Cope summarized his feelings by stating, "Ro, if you ever call us at 3pm on a Tuesday - you're dead! Oh, by the way, the Bulls suck! But seriously, I will truly miss Ro, both as a friend and a great employee. Her follow-through was impeccable. She has been a tremendous asset to the retail staff and will be missed by all of us." Retail Editor Yvette Ziraldo Oyabe adds, "Following the theme of 'Out with the old, in with the new,' apply that thought to The Bulls and The Sonics! Seriously, I'll miss your friendship, but most of all, I'll miss that

infectious laugh!"

As the door to Chicago closes, one from San Francisco opens to bring us Carla Hay, a Stanford graduate who was previously a BAM columnist and an Associate Editor at R&R. We are thrilled to have Carla as a part of our retail team, and we hope all of you will get a chance to know her, as well as appreciate her many skills and great knowledge of the music world. Many of you who will be attending the NARM convention in March will have the opportunity to meet Carla in person. "The Album Network has always been on the leading edge of the industry," observes Carla, "and I'm thrilled to be part of this creative, dynamic team."

Adds Cope, "When I first met with Carla, I knew that she was a person who could bring something special to this department. She is bright, intelligent and a great writer. We are very happy to welcome Carla to the AN retail staff."

Goodbye, little Ro. Welcome Carla. The times, they are a changin'!

Retail Register

In order to meet the needs of the rapidly changing world of retail distribution, UNI Distribution President John Burns announces the creation of three new regional sales and marketing divisions. With ongoing retail consolidation and the growing impact of the independent retailer, UNI feels this move is essential to effectively transport them into the next century.

The new divisions will be Western, Central and Eastern. There will be a Divisional Sales Manager and a Division Marketing Manager overseeing each division. Regarding the changes, Burns states, "Sweeping changes in retail and communication technologies have transformed the distribution industry, widening the focus on local retailers to include a more regional, national and even international point of view." These plans will enable UNI to more effectively distribute their CD-ROM, 3DO and CD-Video products.

UNI stated that the existing sales offices in LA, NY, Chicago, Boston, Dallas, Atlanta and Minneapolis will continue to house Regional Sales Managers. UNI will also be implementing the following changes: The Senior Account Executive staff will double in size, from four to eight; there will be 19 new Field Account Executives; there will be 33 new Retail Promotion Managers (these are newly-created positions) and each of the new divisions will now include a country specialist. The Eastern and Central divisions will include a jazz specialist.

■ CEMA Distribution To Direct-Ship In-Store Promo Material

CEMA Distribution unveils plans to implement its new "In-Store Delivery System" on February 8. This is a new method of ensuring that in-store play material reaches direct-ship accounts in a more timely fashion, assuring accounts that they will have play material immediately to support new releases.

CEMA will begin piggybacking in-store play copies of selected releases with the new release shipments to those direct-ship accounts. The individual labels will now be able to include additional marketing information with the in-store play copies

for retailers.

CEMA Senior VP/Marketing & Sales Joe McFadden comments, "We at CEMA recognize the importance of in-store play in the selling and marketing of our records, and we have implemented the system to maximize in-store play and coincide with the life cycle of the record. It will cut down on returns of product opened by the retailer to be played within the store. We feel that our new system will result in improved awareness for our artists."

Musicland VP/Purchasing Dick Odette reacted to CEMA's system by saying, "CEMA has devised the first timely and systematized method for getting their music into the hands of people who will immediately impact its sales." It should be stated that this new system does not apply to wholesale customers; CEMA will continue to service those customers in the same manner as in the past.

A Visit With KUPD's Ringmaster

Okay - so he attended the Columbia School of Broadcasting, but dropped out when he was fortunate enough to land a real gig as an intern at San Diego's KPRI. Once there, he joined the airstaff and served as Production Director, before heading north to Sacramento's KZAP circa 1979/80. Just one year later, he joined former KPRI staffer Ernesto Gladden at KUPD, where he soon became MD, and then PD in 1986. Oh yeah, we're talking about the daredevil, high-flying, most personable Curtiss (yes, two s's) Johnson. In this week's exclusive interview, Curtiss shares his feelings on the new Sandusky purchase of KUPD, and what it means for the competitive situation with KDKB. And now that rival KSLX has brought John Sebastian back to the party, Phoenix is about to heat up as one of the most watched markets in America, and deservedly so!

After reading this, we're sure you'll agree this premiere programmer has come a long way since stocking shelves at the Alpha Beta grocery store, and has a great philosophy about winning, working and playing in the 90s. May we present veteran KUPD programmer Curtiss Johnson!

Tommy Nast

Our timing couldn't be any better, with the news coming down of Sandusky's purchase of your radio station. What's the official word there now?

Curtiss Johnson

"They have signed an intent to purchase, and I guess it's in the paperwork tunnel right now. Both parties have agreed on a \$20 million price, which should send a few shudders through the industry, as far as prices for radio stations starting to climb back up! It shows you what the economy is doing, and also the power of this radio station in the market."

No doubt, you've been a major market force there for a number of years...you've been there for as long as I can remember! How long have you been with the station?
"It will be 13 years this April."

Is it tough to be the afternoon driver and the PD?

"It's very tough sometimes. You sit here behind the desk and the computer, and you've got to wear the Program Director's hat and think in that big picture way. It's hard sometimes to take off that hat at three o'clock in the afternoon and be a DJ, an entertainer and be off the wall."

You've got a fantastic staff there....

"I have an incredible staff, and I don't want to take any sort of credit for the success of the station all by myself; I've been a small percentage. Dave Pratt is a dynamo; he's a promotion department unto himself for this radio station and for the morning show. J. David Holmes has a tremendous set of ears; he does middays, and he's been here nine or ten years himself. Dave has been here 13 years as well. Consistency is a large part of it, especially when you have things changing daily like they do in this market."

Does it worry you knowing that new owners are about to come in there, especially when your perennial rival, KDKB, is involved? How do you see this situation unfolding?

"You know, it's still too early to make any sort of call. As far as being worried or anything like that, you really don't buy Mrs. Fields cookies - a perennial winner - and change the recipe a whole lot. Especially when you're talking \$20 million! We'll begin to work in chorus together, instead of fighting against each other, because we've been perennial enemies."

"I feel it's a pretty exciting time here right now. There are so many players in the rock arena in this market. I think we're going to see things stabilize here, especially with some programming adjustments at both of these radio stations. We'll own 18 to 54-year-old males in this market, and be a big player in 18 to 54-year-old adults between the two radio stations, considering our respective powers and the core audiences we have."

When you see these duopolies happening around you - Detroit comes to mind, with WRIF being purchased by their classic rock competitor - do you feel that it's a benefit to radio?

"I think they can benefit radio as well as hurt it; it just depends on what aspect you look at. I feel it's just the nature of business period, not just in radio. As we get closer to the year 2000, it seems like everybody is huddling together and making the one or the whole stronger. That's kind of the case in this particular instance. It's been a war in this market, as far as Rock Radio goes, and this will allow us to work together instead of against each other. When you talk about the two top rock stations in the market combining efforts, a lot of good can come out of that!"

There's been a lot of action that has taken place in the Phoenix market in the last few years. Can you give us a synopsis of what's happened in the marketplace, radio-wise?

"After nearly three years, KUKQ, our AM station, flipped from Alternative to talk with the advent of Jacobs Media's 'Edge' format coming in on an FM signal. And as you know, if you've got a music-intensive format, you're really not going to be able to compete, no matter how good your programming is, with an FM signal. It was only a matter of time...I was actually surprised that the ownership stuck with it as long as they did. So, we've got the 'Edge' going for the alternative side of things, and we've got a Z-Rock signal, which is partially satellite and partially local. They came in about three or four years ago and changed the complexion of things for KUPD."

"Then we've got KZON, which is kind of like a KBCO - the Adult Alternative format, if you will. We've also got a classic rock competitor, although not a very good classic rock station, in KSLX. They've been poorly programmed, but they really didn't have a PD for the last five or six years. They had a [former] GM who had some programming experience in Reid Reker. But, when you're trying to run the station and program it at the same time, especially in a market this competitive, you're bound to lose, and they have been. They were very unfocused. Then there's KDKB, which is another heritage rock station like KUPD. Their core audience has tended to be the upper end of the 25 to 54-year-old cell, whereas KUPD has been more of an 18-34 radio station; a younger-leaning, harder-edged station, where KDKB

leaned more toward the AOR classic rock side of things. In the last year to nine months, KDKB and KUPD have almost been sitting on top of each other. We still leaned a little bit more toward the bottom end of the cell, while KDKB leaned more toward the top end, classic side of things, but we still shared a whole lot of audience and music.

"What you'll probably see now is a shift, a little bit more in each direction in our focuses. Instead of being against each other and guarding that turf in the middle, you'll probably see us being able to spread out and do battle against our other competitors."

What do you think about John Sebastian returning to the market as PD of KSLX?

"I should bite my tongue about John Sebastian. John was at KUPD a long time ago, before I joined. When I walked into the station, we were about 13th in the market overall. Ernesto Gladden and I basically turned it into what it is today, along with the help of a tremendous airstaff. John was at KDKB five or six years ago or something, and there was a quote in the paper where he said, 'It's going to be tough to work against my own greatness.' That's bullshit! John had nothing to do with the success of this radio station. Looking back, John had his success at WCOZ, and he's been living off of that ever since. He's a tremendous salesman for himself, but I didn't have much more respect for him than that. To tell you the truth, with the duopoly situation that's happening here, I wouldn't want to be sitting in his chair right now!"

Well, it's definitely going to get interesting there! I don't think people are aware of all the signals that get into Phoenix, and just how competitive a situation it is there. Do you think that the Phoenix market is underrated by the industry?

"I definitely think so. Look at the number of rock stations alone! We have 37 signals coming into this market in one shape or form....it's a dog fight, and it has been for quite some time. Myself, I'm not often in the trades. I don't go out of my way to get my name or picture in print, I come in and I do the best job I can, and I happen to really enjoy the lifestyle and market here. I don't think there's a lot of people here talking about themselves and exposing themselves in the trades all the time, so we've kind of done a real quiet battle here in the Southwest. But there's been some pretty damn good radio coming out of here, and the war has been hard fought."

How would you describe the direction that KUPD is headed in 1994?

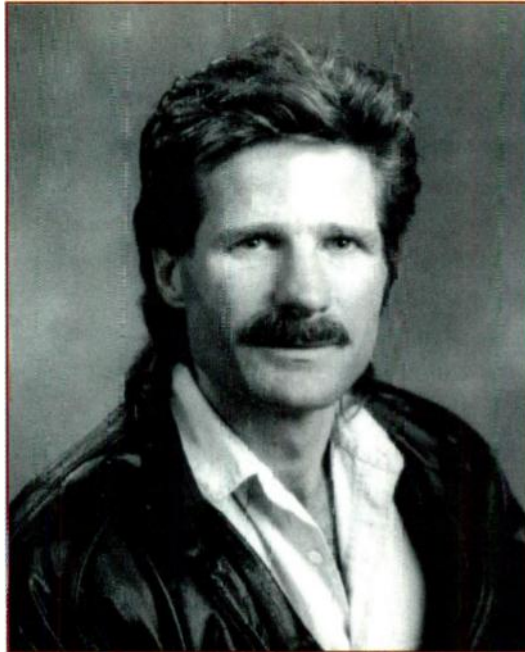

"What has happened, as of last week, will probably change things. But up till now, the battle has basically been between us and KDKB, fighting for that 18-34 market. For a long time, KDKB shied away from a direct, head-to-head confrontation, but in the last nine months, it's been very much head-to-head. We've shared a lot of the same music, and if you look at Arbitron, we share a lot of the same audience. Where I think the battle has been won is the fact that we have a very strong airstaff, and we are out in the streets promoting and marketing ourselves like nobody else. KUPD tends to be probably more top of mind when it comes to rock listeners in Arizona."

Have you and Tim Maranville [KDKB PD] ever spoken?

"No. We've never met."

That should be interesting...there's no doubt the two of you will meet and speak soon. What do you plan on saying in your first conversation?

"I'm kind of that 'Zen radio' philosophy...I do the best job I can, motivate my staff to the best of my ability, and put the best product possible on the radio. I've never been a programmer who likes to go out and do guerrilla warfare. We're out on the street doing guerrilla promotions, but not warfare. They've been the enemy, but that's because it's always good to have a focal point. But we've never said, 'Let's go out and fuck with KDKB,' or any other radio station in the market. We've always

focused on doing the best job we can, and letting the other stations react to us. So, there's no bad blood there; this is a job, and it's what we do. Hopefully, we'll become great allies with each other. I'm looking forward to it."

Tell me about you, personally. During the years we've known each other, it seems like I'm always reading about your escapades of flying jet fighters, sky diving and hand gliding. You seem to like that excitement, and you push the edge of the envelope on some of your outside endeavors.

"I guess you could sum it up like this: When I'm sitting there and I'm 65 years old and in the reclining chair, I don't want to ever say, 'God, I wish I'd have done that.' I guess I'm an adrenaline junkie! I travelled a lot when I was a kid because my dad was in the service, so I lived in Guam and the Philippines and visited Japan, Australia and a lot of the US.

"I spent two weeks in Yosemite climbing El Capitan, and I've been guest ringmaster for Ringling Bros. Barnum & Bailey Circus, which you get to do a lot of when you're in radio, and that's the fun side of it. I've flown with the Blue Angels, and three weeks ago, I played with the Washington Generals against the Harlem Globetrotters. A lot of people are so focused in what we do; it's radio, it's records, it's rock n' roll. That's their whole life. The reason I've been in Arizona so long is I love living here. I like going out and seeing the state and that sort of thing, and I have a life outside of radio that I very much enjoy. You don't see me on a bunch of the junkets that people go to, because I'm busy doing a lot of other things. I race mountain bikes professionally...we have a team that the station sponsors. I'm sponsored by Nike, Specialized, which is a bicycle and component manufacturer, and Endura. That is something that is very much part of my lifestyle outside of radio. I'm into the athletic community here in Arizona...my girlfriend is an elite level runner, and we're very involved in a lot of things outside of rock n' roll and radio. I think I'd go nuts if that was my whole life and that was all I did. I like to experience life too much!"

Curtiss takes to the track...

I think it's great...I've always been intrigued by the things that you do in your outside life.

"Like I said, if everything you have is rolled up into the radio station or the rock n' roll thing, all of a sudden, that becomes way too heavy. You've got to get away from it every once in a while and go, 'Yeah - there's life outside of this!' Then, when you go back to work and you're at the radio station, you give that 100%. It's something that has kept me sane, especially in a market this competitive!"

You've been at KUPD for 13 years. Where do you see yourself 13 years from now? You're too young to be in that easy chair yet!

"It's hard to say...this industry, in the last five years, has changed incredibly. I enjoy this so much, so I probably won't be doing anything a whole lot differently. Do I see myself becoming a GM? Maybe, but probably not. I happen to enjoy getting down in the trenches and doing radio. I really enjoy the art of creating all of this, getting on the air and presenting new music and fun promotions, new ideas and entertaining people. Hopefully, I'll be making a whole lot more money at it!"

Thanks for taking the time and sharing your thoughts on paper with us, and continued success throughout your career!

Interview by Tommy Nast

1 ENIGMA

The Cross Of Changes
Virgin • 39236

"Enigma is an enigma! Customers come in asking for it and don't even know what it is - they just want it!"

David Deeter,
Tower/Stonestown

This is a case where the name definitely describes the talent it represents! Enigma's debut, *MCMXC AD*, was released two years ago, and it has not stopped selling. Even still, you'll occasionally run across the video for the smash "Sadness" on local video shows, as well as *The Box*.

That alone is not impetuous enough for the elephantine buzz that surrounds Enigma. His music can be heard prominently (and unmistakably) in perfume commercials, car commercials, soap operas, etc.

With two million copies sold Stateside (it's over eight million worldwide), *The Cross Of Changes* shipped Gold to retail, where it rounds up 176 total chart debuts to land a #7* debut on the Hottest Sales Nationwide and a #4* showing on the In-Store Play chart. Fifty-two accounts report #1 debuts, including Tower Downtown (NYC), Rose Records (Chicago), Peaches Ent. (Miami), Sound Warehouse (Dallas), Record Rack (Houston) and Virgin Megastore (LA).

The first single, "Return To Innocence," will be released commercially in March, but there is a commercial 12-inch available.

2 TORI AMOS

Under The Pink
Atlantic/TAG • 62667

"She's a goddess of the keys!"

Frank Lucas,
Tower/Las Vegas

The way Frank Lucas feels is representative of how a few million Americans feel about Tori Amos! To say she is in demand is an understatement. The press has been all over Tori Amos and *Under The Pink*, and an appearance on "The Tonight Show With Jay Leno" on the 11th helped to further awareness by leaps and bounds. Tori is headed to Europe for tour dates there, while concert promoters Stateside are chomping at the bit for their shot!

Under The Pink rolls 10 to 9* on the Hottest Sales Nationwide and is #1* on the In-Store Play chart for a second week. Another 33 buyers report chart debuts, which brings total mentions to 223. Debuts include Super Club Music Corp. (Atlanta) #13, Music Millennium (Portland) #1 and Nobody Beats The Wiz (New York) #21, while moves to #1 are realized at Kemp Mill (Baltimore) 4 to 1, CD Delight (Evans City) 3 to 1, Tower Records (Woodland Hills) 3 to 1 and JJ's Ear Candy (Carson City) 7 to 1.

At VIRTUALLYALTERNATIVE Radio, *Under The Pink* moves 4 to 2*, while at Adults Only Radio, an 8 to 6* increase is logged. The video for "God" is in What's New rotation on VH-1 and Stress rotation on MTV.

3 ZHANE

Pronounced Jah-Nay
Motown • 6369

"It's a groove record that can appeal to fans of Guru and Us3."

Tracey Price,
Tower/Yonkers

Zhane was first exposed to the R&B/hip-hop scene via a compilation album on Queen Latifah's Flavor Unit Label, *Roll With The Flava*. The single on the album was "Hey Mr. DJ," which went on to reach #1 on the dance charts and become a smash at Urban and Hit Radio.

That song was an enormous hit that proved to have serious staying power. That was over one year ago, and anticipation for the duo's debut has swelled since that time. The current single, "Groove Thang," is Top 5 at Urban Radio and Top 40 at Hit Radio, while the video can be seen in Active rotation on MTV and is Top 10 on BET's "Video Soul."

Zhane's *Pronounced Jah-Nay* hits the Hottest Sales Nationwide at #26*, with 83 buyers showing chart debuts, 51 of which are Top 30 or better, including Nobody Beats The Wiz (New York) #2, Believe In Music (Grand Rapids) #11, the Homer's Chain (Omaha) #25, Sound Warehouse (Dallas) #27 and Independent Records & Video (Colorado Springs) #10.

4 BEASTIE BOYS

Some Old Bullshit
Grand Royal/Capitol • 89843

"Some people think that this is a brand new album, and it's selling like one!"

Tony Rifugiato,
Daddy Kool/Sarasota

Believe it or not, The Beastie Boys go back a lot further than *License To Ill*. Young as they were when that album broke through many barriers to reach Platinum-plus sales, they had a preceding recording history that, until now, hasn't been available to the public en masse.

Some Old Bullshit is comprised of two EPs that were available only as imports: *Pollywog Stew*, which was recorded in their hardcore punk phase, and *Cooky Puss*, which represents their move into raps and rhymes. Grand Royal is their label, which will be releasing an album of new Beastie Boys material this year with Capitol Records.

Capitol helped raise awareness of this release by mailing postcards to the Beasties' 16,000-strong mailing list, in addition to placing national and fanzine advertising. *Some Old Bullshit* debuts on the Hottest Sales Nationwide at #39*, with 140 accounts reporting chart entries, 84 of which are Top 20 or better, including The Wall Music Inc. (Philadelphia) #16, WUXTRY (Athens) #1, Y&T Music (Miami) #1, Title Wave (Minneapolis) #5 and Streetside Records (St. Louis) #14.

5 RICHARD MARX

Paid Vacation
Capitol • 81232

"Debuts at #3 thanks to our placement, sale pricing and the fans who were more than ready to buy."

Steve Ward,
Coconuts/Cincinnati

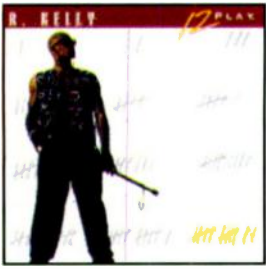

Paid Vacation hits the streets with a hit single and a great set-up job by Capitol, which included taking advantage of Valentine's Day by setting up a national promotion with Gift Line/Superflora that helped to supply massive exposure for the release, in addition to the placement of infomercials and special point of purchase contacts. Also, on February 14, Richard appeared on "The Arsenio Hall Show."

The first single, "Now And Forever," is Top 5 at both Hit and Adult Radio, while the video is in Heavy rotation on VH-1. "Now And Forever" is also used in the Kim Basinger/Alec Baldwin film "The Get-away."

Paid Vacation makes its Hottest Sales Nationwide debut at #44*, with 101 MarketMakers reporting chart mentions, some of which include National Record Mart (Pittsburgh) #25, Northeast OS (Albany) #3, Music Vision (St. Louis) #22, Best Buy (Minneapolis) #20, Apple-tree Records (Chicago) #17 and Roundup Distribution (Seattle) #23.

6 R. KELLY

12-Play
Jive • 41827

“‘Bump N’ Grind’ is burnin’ up the airwaves and causing sales to sky-rocket!”

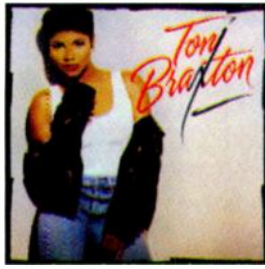

Michael Orbinati, Manifest Discs/Columbia

This is R. Kelly’s fourth straight appearance in Bin Burners, which stands as testimony to not only his being firmly entrenched as a solid talent, but to his overall appeal to many demographics. The single, “Bump N’ Grind,” is a smash at Urban Radio, where it moves into the Top 5, and it’s just getting its start at Hit Radio, where it’s receiving Top 40 exposure. The video is in Box Tops rotation on The Box and has just been added into Active rotation on MTV.

12-Play holds tight at #4* on a very jammed Hottest Sales Nationwide chart, with 14 more accounts reporting chart debuts. Accounts showing significant sales increases include Tower Records (Nashville) 18 to 5, Strawberries (Boston) 16 to 11, House Of Guitars (Rochester) 32 to 11 and Odyssey Records (Las Vegas) 2 to 1.

7 TONI BRAXTON

Toni Braxton
LaFace/Arista • 26007

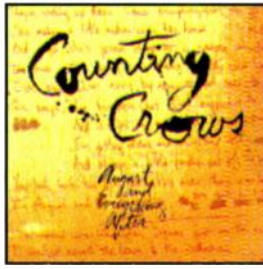

“The AMAs exposed Toni to the few people who are not yet aware of her talent!”

Doug Lofdahl, Tempo/Hollywood

The American Music Awards affected a number of artists’ sales, but from where we sit, no one artist benefited from winning as much as Toni Braxton. In the first four weeks of 1994, Toni continued with Top 15 chart status and in the past four weeks, resurging sales have placed the album in the Top 10. Now, with her AMA wins and exposure on two singles, *Toni Braxton* pushes ahead with a 6 to 5* jump up the Hottest Sales Nationwide. A total of 163 MarketMakers report chart mentions, with 64% of our entire reporting panel showing Top 30 sales, up from 59% last week. Reporters showing upward moves that illustrate the sales detonation include National Record Mart (Pittsburgh) 10 to 5, Strawberries (Boston) 15 to 3, Homer’s (Omaha) 25 to 10, Atlanta CD (Atlanta) 50 to 29 and Virgin Megastore (LA) 21 to 8.

8 COUNTING CROWS

August And Everything After
DGC • 24528

“You guys told us that the Counting Crows would be huge a while back, and you were right!”

Emily Kaskela, The Last Unicorn/Utica

Hear us now, tell us we were right when it happens...*August And Everything After* will reach #1* on our sales chart! The momentum on this record is just tremendous and the band has reached the mainstream enough to warrant the ol’ “who are these guys?” type of editorials in entertainment mags.

The somewhat meteoric rise of “Mr. Jones” at Rock Radio is furthered by its move to #1* on Power Cuts, with stations such as KSEZ, WBXQ, KLBj, KFMZ, WZNF, WKLQ and KRAB all reporting 30 or more Plays Per Week. At Hit Radio, “Mr. Jones” is the #1 Most Added single. *August And Everything After* is #3* on both the Hottest Sales Nationwide and the In-Store Play chart, with 228 buyers reporting sales mentions, 172 of which are Top 10 or better. Ninety percent of our retail panel is reporting Top 30 sales.

9 ACE OF BASE

The Sign
Arista • 18740

“It’s been lingering in the 20s on our chart, and it really kicked in over the past couple of weeks.”

Todd Marconi, Rolling Stone/Chicago

Todd goes on to say, “We’re selling a couple hundred copies of the full CD every week, as the single is in huge rotation on B96. It has really hit a nerve with fans of their Euro-dance style of music.” Ace Of Base has now attained similar status in the States as they have enjoyed over Europe - mega sales and airplay! The single and title track moves to #1* at Hit Radio, while the video is in What’s New rotation on VH-1 and Heavy rotation on MTV.

The Sign enjoys another increase in overall sales, as it climbs 12 to 11* on the Hottest Sales Nationwide. Fourteen accounts show chart debuts, bringing total mentions to 156. Significant upward moves are reported by Michigan Where House (Lansing) 15 to 7, Streetside Records (St. Louis) 54 to 16 and Roundup Distribution (Seattle) 6 to 1.

10 SOUNDTRACK

The Bodyguard
Arista • 18000

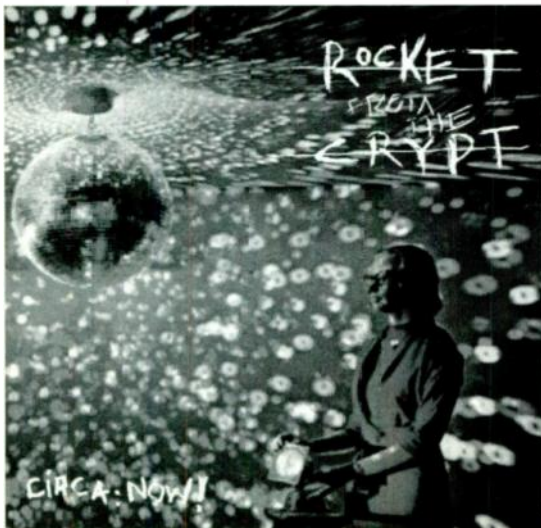

“Talk about a hot label! ‘The Bodyguard’ explodes again, moving back into the Top 10 with a 47 to 7 leap!”

Dave Slania, Rose Records/Chicago

Whitney Houston’s impact on the music industry, and the world for that matter, was made obvious in the American Music Awards broadcast, where she not only won awards in just about every category she was nominated in, but was honored with a Lifetime Achievement award as well.

The “Whitney Houston Awards” broadcast had a predictable effect on sales, as *The Bodyguard* soundtrack nearly doubles in overall piece count sales and flies 34 to 15* on the Hottest Sales Nationwide! Thirty-five MarketMakers report chart re-debuts, while super-duper upward moves can be found at Tower Records (Yonkers) 84 to 24, The Wall Music Inc. (Philadelphia) 31 to 18, Best Buy (Minneapolis) 37 to 11, Twisters (Lincoln) 71 to 17, and JJ’s Ear Candy (Carson City) 46 to 16, to name a few.

1 ALICE IN CHAINS Jar Of Flies Columbia • 67628

"It's been #1 ever since it came out. Every time we play it, people go wild!"
Todd Marconi, Rolling Stones/Chicago

You can't keep Alice In Chains down! *Jar Of Flies* is still burning up the Hottest Sales Nationwide chart at #1*, where it has dominated for the past two weeks.

The first track, "No Excuses," scores a Grand Slam! on Power Cuts, barreling in at #4*, with stations like WAAF/Boston and KQXR/Boise reporting at least 40 Plays Per Week. The song is also the #3* Most Requested and it soars 6-2* on the Heavy Nighttime airplay chart. And MTV just added the video into Exclusive rotation. The acoustic-tinged *Jar Of Flies* EP is a change of pace for AIC, but it's still a 5-3* hit at RAWk Radio, and it continues to occupy the #1* slot at RAWk Retail.

Jar Of Flies is demanding repeat listens, as evidenced by its 9-8* move on the Hottest Airplay chart, and at retail, it's a #2* In-Store Play smash.

2 TOM PETTY & THE HEARTBREAKERS Greatest Hits MCA • 10613

"It's jumped 20-4 on our charts, thanks to heavy in-store play and a lot of support from KLOS."
Larry Salzman, Tower/Brea

Tom Petty & The Heartbreakers have been a Rock Radio staple for the past 15 years, and their *Greatest Hits* package is continuing its healthy run on the charts.

"Mary Jane's Last Dance," one of three new tracks on this compilation, is still going strong at KUFO/Portland and WRXR/Augusta, while MTV has the video in Heavy rotation and it's a 5-Star video on VH-1. Over 40% of Album Network's reporting stations are getting an early start with "Something In The Air," including WEGR/Memphis (25 PPW) and KSEZ/Sioux City (37 PPW), as it moves 12-11* on Power Cuts and 12-10* on the Most Progress chart.

The *Greatest Hits* package, which has been certified Platinum, maintains its #8* position on the Hottest Sales Nationwide and holds at #5* at Adults Only Retail. It's flying out of stores like Tower/Las Vegas 4-3, Cat's CDs/Nashville 7-3 and Street-side/Cincinnati 14-3.

3 CRASH TEST DUMMIES God Shuffled His Feet Ariata • 16531

"KROQ has had a tremendous effect on sales."
Rich Zubrod, Virgin Megastore/Costa Mesa

Trust us: Crash Test Dummies will be one of the biggest rock breakout stories of 1994.

The song "MMM MMM MMM MMM" is already getting immense reactions everywhere it's played, as KROQ/LA already knows - it's #1 in airplay and listener requests at this trendsetting station. Other stations giving the track heavy airplay include WFNX/Boston and KITS/SF, making the album a 6-4* VIRTUALLYALTERNATIVE Radio smash. Other formats are also tuning in, as the song makes progress on Power Cuts (72-71*), and *God Shuffled His Feet* is a #5* hit at Adults Only Radio.

Over at retail, *God Shuffled His Feet* is moving up quickly, soaring 36-28* on the Hottest Sales Nationwide, 12-6* at Adults Only Retail and 16-13* at VIRTUALLYALTERNATIVE Retail. This week's Retail Best Buy is also a 10-6* mover on the In-Store Play chart. Continued MTV Buzz Bin rotation and a recent "Saturday Night Live" appearance will no doubt bring an added sales impact.

4 CRACKER Kerosene Hat Virgin • 39012

"99X has been playing it a lot, and so are we. People love it."
Sherrie Vacek, Tower/Duluth

No sophomore slump for these guys. In fact, *Kerosene Hat* is outdoing its predecessor in creating a buzz and generating sales for this slightly offbeat band from California.

By now, you've probably heard the first track, "Low," which jumps 9-7* on Power Cuts and 6-5* on the Most Requested chart. MTV has been pounding the video in Stress rotation for several weeks, while stations like WMMR/Philadelphia and WLZR/Milwaukee are giving "Low" a high priority. And hot on the heels of "Low" comes "Get Off This," which has found early believers at WHFS/DC and WAVF/Charleston, making *Kerosene Hat* a 10* hit on the Hottest Airplay chart and at VIRTUALLYALTERNATIVE Radio.

Kerosene Hat continues to fly up the retail charts, as it rises 61-53* on the Hottest Sales Nationwide, 12-11* at VIRTUALLYALTERNATIVE Retail and 21-16* at Adults Only Retail.

5 DIG Dig Radioactive • 9201

"This is one of the best records of the year! Heavy in-store play and KRZQ exposure have made it jump 32-9."
Cimber Weaver, Insurrection/Reno

Like a long-distance marathoner, *Dig* is continuing its steady and enduring progress up the charts, as it gets ready to break through to the mainstream.

The album moves 36-30* on the Hottest Airplay chart, while the lead track, "Believe," moves 30-29* on Power Cuts, thanks to stations like WIYY/Baltimore and KIOZ/San Diego. *Dig* jumps 15-13* at VIRTUALLYALTERNATIVE Radio, while MTV, which has been playing the "Believe" video for 11 weeks, is currently supporting it in Buzz Bin rotation.

The group's self-titled debut is continuing to rack up more sales at RAWk Retail (9-8*), while it moves 34-30* on the VIRTUALLYALTERNATIVE Retail chart and holds steady at #95* on the Hottest Sales Nationwide. Middle Earth/Downey, Blue Vinyl/Amarillo and The Sound/Lynwood all report Top 15 sales.

RETAIL BEST BUY

Crash Test Dummies

God Shuffled His Feet
Arista • 16531

When our retail department originally decided that we must have the Crash Test Dummies as a retail Best Buy, little did we know what an astonishingly huge rocket *God Shuffled His Feet* was about to become! Since that time, the single, "MMM MMM MMM MMM," has literally burned up phone lines at VIRTUALLYALTERNATIVE and Adult Rock Radio stations nationally. At KROQ in L.A., it was one of the most requested records ever, and a recent phenomenon has been jocks having to plead over the air for listeners to stop calling, as they're playing the song as much as they possibly can!

Sales on *God Shuffled His Feet* are rapidly approaching Gold and here is some proof of the impending landslide that is about to hit: At the time of this writing, *God Shuffled His Feet* jumped onto the Top 40 on the Hottest Sales Nationwide, it earned Bin Burners status for having one of the Top 5 sales increases in one week and it climbed into the Top 10 on the In-Store Play chart. The album moves toward the Top 5 at VIRTUALLYALTERNATIVE Radio, and it remains Top 5 at Adult Rock Radio, while "MMM MMM MMM MMM" was the #1 Most Added Track at Hit Radio the first week out. The video is in Buzz Bin rotation on MTV and it can be seen on The Box as well.

God Shuffled His Feet continues to get Hot Future reports at retail, where it keeps picking up new

debut. Markets where sales are most noticeably on the rise are Dallas, Southern California and New England, thanks to airplay on stations such as KDGE, KROQ and WFNX. Several developing artists programs are currently in place, as are listening post promotions. The Crash Test Dummies are touring throughout the spring with October Project and they're doing many promotional stops along the way. On March 15, they will appear on the "Late Show With David Letterman."

New York's red-hot **Q104** is now blaring daily throughout the MTV offices. Promo bloodhounds, adjust your strategies accordingly...A no-bullshit, sincere, hats-fucking-off to **Abbey Konowitch**, **Guy Oseary** and everyone at Maverick Records who has so brilliantly taken Seattle's **Candlebox** from absolute obscurity to imminent GOLD with a methodical, patient and organic campaign atypical of a brand-new label. To hit with your first ROCK release, in this market, is amazing....

The new wave of downhome, feel-good, ass-kicking American rock n' roll continues with Epic's **Barefoot Servants**. In **Jackyl**, **Brother Cane**, **Cry Of Love** and the **Screamin' Cheetah Wheelies** - with a little **Sass** thrown in for spice - we are seeing some of the best guitar-based boogie woogie since the days of Skynyrd, Hatchet and The Outlaws. When MTV finally realizes that middle America loves this shit - and gives some of these bands half (shit, how 'bout a third) the attention they devote to the we're-so-angry, we-hate-everything angst-ridden so-called alternative bands - things are really gonna rock. Meanwhile, Album Radio will carry the torch and, slowly but surely, eyes and ears will open....

Another weird earthquake story: Former Rolling Stone journalist and filmmaker **Cameron Crowe** found his LA pad was badly hit on January 17. But in his "trophy" room, where the walls are covered with Gold and Platinum discs, remarkably only one plaque was dislodged and broken on the floor. It was **The Doobie Brothers'** "Living On The Faultline." **Rod Serling**, where are you?...In a semi-related note, I ran into the co-star of **Cam's** last great pic, **Singles**, while performing my debut workout at my new gym. "You're **Kyra Sedgewick**," I gushed. "I'm a big fan of yours, and a friend of **Cameron's**." Five minutes later, I headed back to the bench with trainer extraordinaire **Michael Monteroso** (**Kalodner** and **Aerosmith** swear by him), pumped up by her sweet smile. You outta shape LA dudes, I highly endorse **Michael's**

FRIEND TO ALL

new place, Workout Warehouse, and suggest you give him a call at (310) 358-1838. Look out, **Glenn Danzig**, Lonn's pumpin' up!

"**Quicksand** was awesome!" exclaimed RIP's **Katherine Turman** after last week's jam-packed Roxy performance with soon-to-be inked Sub Pop RAWkers **Seaweed**...A lot of the negative pre-release propaganda on the new

Crue is coming from the exact same people who were ready to stick a fork in **Aerosmith** a year ago. **Nikki** and company will prove them wrong, too. With each listen this record gets better and better. "Misunderstood." Remember that..."HAIR IS ALIVE AND WELL IN SALT LAKE CITY!" exclaims **KBER's Cory Draper**. And he ain't shittin'. This dude's playlist looks like 1985. "At this very moment, we're pounding **Dirty Looks**, **AC/DC**, the new **Quiet Riot**,

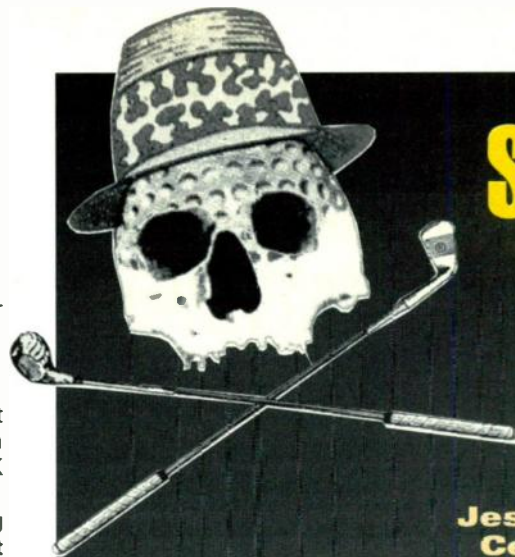

Saints And Sinners and **W.A.S.P.**," laughs the Mormon City metalhead. "**Pearl Jam** is dead. 'Daughter' was the worst-testing record here last week. My listeners would rather hear the four **Roxy Blue** tracks I have in rotation. I can't play enough **Jackyl**. I think that new Epic/550 band **The Poor** is gonna work great for us. Salt Lake City wants metal...hairy, dirty metal. Come here with your earplugs in tight and your pants down, boys. This is the town where crime is illegal and **Bret Michaels** is god." **Andy Schuon**, your flight is boarding...I got a **Bjork** candy bar in the mail from Elektra....

Henry Rollins - let the buzz begin...Where the hell did this **Wildhearts Suckerpunch** EP come from? How 'bout left field? It's completely awesome and I've got a feeling **Sylvia Rhone's** smokin' EastWest outfit is gonna have a monster sleeper with this one. I haven't seen **Walter Winnick** this excited since he put **Meat Loaf** and **Jim Steinman** back together...**Rockin' Peg**, thanks for the photo. Now you'll have to trust me with the caption. By the way, your adding **Sass** is still turning heads, but when will the naysayers follow your lead?...**Tori** rules...Friend out....

World Radio History

STROKE OF THE WEEK

Jesse Lombardi
Century Media
Head Of Marketing and Promotions

The underground is often a breeding ground for bands in the music world. It's also the place where many of us in the RAWk world get our start in the business. Jesse Lombardi of Century Music is a prime example. Working at SOB Records at the age of 13, he's parlayed that into a gig as head of marketing and promotions for CMR, where he oversees radio, retail and press for a determined indie label bent on pumping up **Unleashed**, **Eyehategod**, **Only Living Witness** and some of the world's fine new crushing entertainment. When we asked Jesse what school he went to, he said in his best Brooklyn accent, "I went to Lamours from 13 to 19 and then entered the school of fucking internships. I was in a bar in Hollywood and met someone who said they worked at Capitol, and I said, 'Just introduce me to whom I'm supposed to know and I'll get a gig there.'" Jesse did and was part of the radio team that helped pump **Megadeth** up to #2 on the Billboard charts. After a stint at **Restless**, five years of production and engineering work and the formation of his own street rap/hardcore label, **Dope Discs**, "coach" Lombardi was asked to come over to CMR.

"I think relationships are the key to any success," Jesse said, "and that's what we are after here. I want to sell all the units we have in the marketplace, and if we have to pound the phones to do that, it's done. I tell the people who work as employees and interns that being committed is a commitment to yourself and that's how you'll do the best. When some coffee breath head of promotions asks you for the chart numbers a half hour before he knows you can get 'em, go get 'em! That's what the world of promotions is all about. I try to cut all the bullshit out and go to the next level." Somehow, Jesse, we believe you.

K102's "Rock N' Roll" Peg Pollard and Lonn Friend

"How could I ever take a shot at this guy? He's so adorable."

"Hey, Peg... where's your other hand?"

"Spoonman"

A&M

This is the shit, square #1! The brutal heaviness, that bad ass bass line, the spoon banging, the lead riffs...all are so well thought out and woven together, it's mind blowing. When you add the incredible vocal stylings of Chris Cornell, you have one of the truly great bands in the world just opening the door to what should be one of the best albums of the year. This track is so rootsy and modern at the same time, it's staggering.

SOUNDGARDEN SPOONMAN

Coven

Boneless Christian

Ever Rat/Red Light

Thrash is back with a vengeance in the form of Coven. Formed in 1986 in Seattle, Coven first appeared on the *Metal Meltdown 2* compilation, before signing with Ever Rat Records. After a label move, Coven has returned to Ever Rat/Red Light to record *Boneless Christian*. Coven cracks you right in the skull and pokes you in the ribs simultaneously with tracks like: "Satanic As Hell," "F*ckin' A Nun," "Boneless

Christian" and "The Master's Tool." Hey, these guys can play and they're funny as shit. Your listeners will love Coven!

Mantissa

Mossy God

Polydor/PLG

All hail the *Mossy God*. Mantissa's *Mossy God*, that is. From the land down under comes some deeply entrenched, grooved-out riff-RAWK that hits you right in the gut. Low-strung Les Pauls running through Marshalls cranked up all the way is what Mantissa is all about. Check out "Extro," the first single, "Mary Mary" and the laid back "Sanctify" for starters, but don't stop there, because there is plenty of the *Mossy God* to go around for everyone.

Ramones

Acid Eaters

Radioactive

All we can say is what took them so long? The hippie-vibed CD booklet captures the visual spirit of the era the Ramones are visiting. The straight-ahead, blasting power pop/New York punk attack is both coyly faithful and fun. There is plenty to choose from, well beyond the first emphasis track, The Who's "Substitute." The Ramones' totally rage on Love's "7 And 7 Is," and they're a gas covering The Troggs' "I Can't Control Myself." Totally cool!

KMFDM

"Light"

Wax Trax!/TVT

This German techno-industrial band has attracted so much attention and praise through the underground, and rightfully so. Having nine different, highly respected artists remix "Light" speaks highly of KMFDM's importance. The Fat Dub Mix, courtesy of Nine Inch Nails' Trent Reznor, is being gobbled at the more creative stations, which are willing to dig into the seven and a half minute version; it's a roller coaster ride full of twists, turns, grinding guitars and effects that is always entertaining.

Blood From The Soul

To Spite The Gland That Breeds

Earache

What do you get when you mix members of Sick Of It All and Napalm Death? Napalm bass player Shane Embury and SOIA vocalist Lou Koller are the ingredients, and Blood From The Soul is the answer. The album, *To Spite The Gland That Breeds*, is a churning cauldron of anger seething with crushing guitars and hardcore, guttural vocals. Killer cuts include "The Image And The Helpless," "On Fear And Prayer," "Suspension Of My Disbelief" and "Yet To Be Savoured."

THE GRANITE PLANET

One of the benefits of getting near a band is hearing the speculation about what they might do next. During the **Rush** shows in Southern California, there was talk among the crew of possibly recording a live album while the band is on the road. Also, there was some conversation about doing another leg of the tour that would feature older material, kind of a reward for the fans and something worth considering when you have 19 albums' worth of great material. **Candlebox**, the opener, went over well and may pick up a couple more legs of the Rush tour.

• **Downset**, the band with a huge street buzz in LA, was finishing up recording an EP when Mercury decided to turn the recording into a full album. Smart move, the band rips • The era of tribute albums is certainly upon us. Reprise's **Jimi Hendrix** compilation was so successful, why not go for more? A **Kiss** compilation is scheduled for April, and there's a **Black Sabbath** collection also well under way.

Atlantic is assembling a collection of **Led Zeppelin** covers and the list of bands that are committed to the project is amazing. Among them are **Blind Melon, Lenny Kravitz, Tool, Helmet, 4 Non Blondes, Henry Rollins** and **Counting Crows**. The list will surely grow before this celebration of 25 years of Led Zeppelin hits the streets in the fall.

CRYPT KICKER

Therapy? cranks out records at such a machinegun pace that in five years their catalog should include around 20 albums and EPs. They just keep getting better every time they write a new song. This month's Therapy? album, *Troublegum* on A&M, is by far their best to date.

Troublegum kicks into gear right off the bat with the first single, "Knives." "Screamager," which is also on the *Hats Off To The Insane* EP, has one of the most unforgettable choruses ever written. "Nowhere" is pop-metal at its best and in the same vein as the Goo Goo Dolls. Other tracks worthy of aural inundation are: "Hellbelly," "Stop It You're Killing Me," "Die Laughing," "Turn" and "Brainsaw." Therapy? has a way of combining catchy, pop-sensibilities with heavy, guitar-driven, lyrically dark songs and making it work extremely well. *Troublegum* is a mainstream smash just waiting to happen.

From The Debut Album

My soul is wet

Produced by Eli Ball. Mixed by John Hampton and Eli Ball.
 Management: Warren Tuttle/Memphis, TN.

I would like to share a nice note with you that I received from Dennis Constantine. He wrote, "I enjoyed the Adult Rock article that you wrote [in your debut issue]. I thought it was very concise and made the point about the format very clearly. Anyone reading it should be enthused and ready to switch their station to this format! Keep up the good work!" ...Thanks, Dennis. And those of you who haven't yet commented, what do *you* think?

FYI: MCA has just released the soundtrack to the new Nick Nolte movie, "Blue Chips," which features a great cover song by John Mellencamp entitled "Baby, Please Don't Go" (sound familiar?)...Polydor is chasing "I'll Shoot The Moon" from Tom Waits' *The Black Rider*...Look for "Oh Life" to be the next Alan Parsons track on Arista...Mercury is providing a timely CD-Pro of "1040 Blues" by Robert Cray...The CD-Pro of John Hiatt's "Buffalo River Home" also has a live acoustic version of the song, recorded at KBCO's studios...The Pogues' next emphasis track is "Once Upon A Time" from Elektra...The new Melissa Etheridge track that Island/PLG is after is "I Will Never Be The Same"...You should definitely pay attention to The Badlees' "Laugh To Keep From Cryin'" on Sharkstooth/Rite-Off...And, the next Band track is "Remedy" (surprise!).

Leo Kottke
Peculiaroso
Private Music

Guitarist extraordinaire, Leo Kottke, has just released his sixth album for Private Music (the 22nd of his career). Once again we are given his own special interpretation of a variety of classics such as Bukka White's "Poor Boy," the Kaempfert gem "Wonderland At Night" and the Platters' "Twilight Time." In addition, there are several originals that spotlight his unique guitar playing styles: "Peg Leg" displays his bottle-neck slide virtuosity; "World Made To Order" is full of jazz chords and classical overtones; "Room Service (at the Tahiti Motel)" showcases his creative abilities at arranging and "Big Situation" allows him the opportunity to just do some "fun pickin'."

Kottke also sings on a few tracks. "Parade" and "Room At The Top Of The Stairs" have the storyteller approach that reminds you of Woody Guthrie or Leonard Cohen. There is also "Turning Into Randolph Scott (Humid Child)," which features Peculiaroso's producer, Rickie Lee Jones, on vocals.

Leo Kottke's music has always been a blend of the traditional and the experimental, the simple and the sublime. You will get a sense of ease and comfort from listening to Peculiaroso that will last long into the silence after the record is over.

Various Artists
Live Forever (Sacred Sources 1)
Guts & Grace/Cohiba/PLG

Live Forever is the first release on Carlos Santana's new label, Guts & Grace. This album marks the beginning of his personal collection anthology series, "Sacred Sources." Included are three songs by Jimi Hendrix, two by Bob Marley, two by Marvin Gaye and a song each from Stevie Ray Vaughan and John Coltrane. None of the selections have ever been released to the public before; all were recorded from performances on final tours. They represent just a small portion of tapes Carlos has secured over the years, either from the artists themselves, from their estates or from his network of musician friends. They are sometimes raw in nature, as many have come directly from the mixing board, but they do capture the energy of the moment.

The fact that Carlos believes music is the spiritual path to deeper understanding is well known. He hopes that this "Sacred Sources" series will enrich our understanding not only of the artists and their music, but of how their special talents may have reached us on a more universal level. There is no doubt that *Live Forever* displays the true genius they possessed.

NRBQ
Message For The Mess Age
Rhino

NRBQ has always flirted with success with their past releases. Now, with the tremendous growth of the Adult Rock format over the past few years, their sound will finally have a real home. *Message For The Mess Age* is NRBQ's first studio album since 1989, and after you listen to it, you'll agree that it was worth the wait.

Their trademark good-time sound has been fine-tuned this time around. "A Little Bit Of Bad" has a rockabilly foundation that supports an uplifting pop hook. "Over Your Head" is a neat little shuffle that is guaranteed to get your toes a-tappin'. You get a taste of their more whimsical side with "Nothing's Wrong With Me," and the crooner, "Ramona," is the one that will stick with you.

Although NRBQ will be the first to warn you not to take their music too seriously, any of the above mentioned songs could easily fit into your programming.

Enigma
The Cross Of Changes
Virgin

Enigma is back with its unique blend of sounds, textures, musical genres and mystical themes. Once again it is the production and songwriting genius of Curly M.C. that is the driving force behind the project. What stands out on *The Cross Of Changes* is the switch from Gregorian chants to a Middle Eastern Islamic chant motif, and the fact that this project is more guitar/rock oriented.

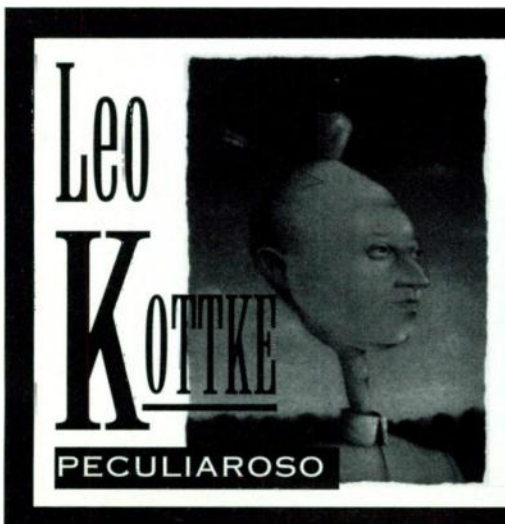

As with *MCMXC A.D.*, the musical and thematic concept is best taken as a whole rather than broken into parts, but there are a few tracks that can easily stand on their own. "The Eyes Of Truth" quickly establishes the above mentioned influences. "Return To Innocence" has a great "chant" hook along with a pretty melody. But the real killer is "I Love You...I'll Kill You"! The guitar solo near the end of the song smokes!

So, as the sun sets in the West, let's all prostrate ourselves and thank the blessed Allah that we have a new Enigma album with which we can transcend our normal, humdrum existences.

Moxy Fruvous
Bargainville
Atlantic/TAG

The music of Moxy Fruvous can best be described as theatrical, vaudevillian and barber shop with a touch of street corner. This multifaceted quartet literally started out playing on street corners in Toronto, during which time, they combined all of the above mentioned crafts. For two years they "owned" a particular corner, and developed a solid and extremely loyal following. They released an indie-distributed cassette of six songs which promptly climbed to #1 in the Canadian trade paper *The Record's* independent chart. This generated enough interest to warrant opening slots for Bryan Adams and Bob Dylan! One thing led to another and their debut album, *Bargainville*, has just been released in the US on Atlantic.

Beyond what I have already told you, not much more can be put into words! You have to hear them and, I suspect, see them to get the full picture. One thing is for sure: They possess beautiful harmonies, can definitely play their asses off and have a great sense of humor.

Leo Kottke
PECULIAROSO

A collaboration between Leo Kottke (artist) and Rickie Lee Jones (producer) should be called Peculiaroso . . .

It should also be called brilliant .

Bruce Cockburn

Dart To The Heart

C O L U M B I A

Bruce Cockburn has always given us music that is intelligent, both in its delivery and in its message. *Dart To The Heart* is no exception! Although there aren't any of Cockburn's trademark, socially incisive songs present, the subject matter of these songs are just as global; it's all about relationships between people. *Dart To The Heart* also shows us another side of Bruce Cockburn: The musician. His guitar playing is simply outstanding. From the lead track, "Listen For The Laugh" (Mark Knopfler, move over!), the instrumental tracks, "Train In The Rain" and "Sunrise On The Mississippi," to his awesome solos on "Burden Of The Angel/Beast," we are treated to a side of Bruce we don't often get to hear. There are even a few songs on *Dart To The Heart* that are downright pretty! "Someone I Used To Love," "All The Ways I Want You" and "Closer To The Light" show us a tenderness and a sensitivity that Cockburn rarely displays.

The folks at Columbia are providing Adult Rock Radio with a CD sampler containing the above mentioned "Listen For The Laugh" (both album and edited versions) and "Burden Of The Angel/Beast." In addition, there is "Southland Of The Heart," a song that expresses how intimacy is our comfort and defense against the hard world, and the lively "Tie Me At The Crossroads."

Bruce Cockburn is an icon representing what Adult Rock is all about: Thoughtful and pertinent lyrics, engaging melodies and subtle musical flair.

2ND VIEWING

AL KOOPER *ReKooperation*

MUSICMASTERS/BMG

Al Kooper falls into the category of "I wonder whatever happened to...?" Well, wonder no more! The man known by his B-3 and Leslies is back with a

very different kind of album. It is an instrumental project saluting the musical heroes of his childhood, people like Bill Doggett, The Meters, Booker T. & The MG's, Bill Black's Combo, Ace Cannon, Jimmy Smith and Willie Mitchell.

The musicians involved are a who's who of the session world, including Randy Brecker, Harvey Brooks, Hank Crawford, Jim Fielder, Anton Fig, Paul Franklin, John Gardner, Kenny Greenberg, Dick Hyman, Johnnie Johnson, John Sebastian, John Simon, Jimmy Vivino and The Uptown Horns.

Kooper produced and arranged this, and judging from the liner notes, it was clearly a labor of love. So, if you missed this one as it crossed your desk the first time, get it out, put it on, turn the lights down low, pour yourself a drink and dig the soulful grooves, daddy-o!

the crusades

Jim Del Balzo Columbia Records

The competition has been pretty heavy out there lately, but **Dandelion**, which is turning into "the little band that could," is thriving! This week we got very credible programmers to come on board: **KISW, KISS, WAAF, WKLL, KTYD** and **WBTZ** are all adds this week. The **KISW** story is a good one. Last week, **KISW** held a pay-for-play charity event. We donated \$100 for **KISW** to play "Under My Skin." After hearing it on the air, a **KISW** listener called up and donated another \$100 to hear the song again! Before **Steve Young** and **Cathy Faulkner** knew it, there were station sales people in their offices wanting to know who that cool new band was. Similar stories are popping up all over the country. We're getting very good phone response in several markets from only nighttime play. Give this record a chance...it'll work for you, too. **Cry Of Love** continues to roll on in their request for a record-setting third #1 track off of their debut album. Watch for another huge jump in BDS. Sales continue to grow as we pass the 200,000-unit mark.

Alice In Chains is looking like a sure shot for #1 with 1,600 BDS plays a week already! **Bruce Springsteen's** Oscar-nominated "Streets Of Philadelphia" continues to grow into a huge track. The Top 40 rotation is stupendous and we're enjoying great success at Album Radio, as we reach the Top 10 BDS audience reach chart. I repeat my previous statement: Any mainstream album programmer not playing this is brain dead. **Bruce Cockburn** will have his biggest Album Radio track in his long career. "Listen For The Laugh" is probably sitting on your desk. Make sure you give it a listen. There's another great new band we have coming - it's **Australia's Died Pretty**. "Harness Up" is the first track from their debut **Columbia US** release, *Trace*. **Harness Up** sounds great in your office, but it's also one of those records that when the compression gets a hold of it, it explodes on the airwaves! We expect great things from this track. Get ready for **Pink Floyd** and a great new album from **Toad The Wet Sprocket**.

Carter Alan WBCN

Jeffrey Gaines has returned to the road, performing a series of coffeehouse gigs to get back in the swing of things now that his second album is finished and ready to come out this spring. The singer/songwriter/guitarist was his usual candid self up on-stage here in Boston last week with a powerful arm full of new songs, the hits from the first album and, of course, what has become his signature - **Peter Gabriel's "In Your Eyes."** Jeffrey said to expect to see him playing electric and fronting a band when he hits the promo and tour circuit to support that upcoming album. Much of the release will be in that very rocked-up "Headmasters Of Mine" vibe from last year.

Buffalo Tom's "I'm Allowed" is a slow-building monster of a song. Innocent at first, it grows stormy and defiant, angry and triumphant. Safe bet for best track on their album, this makes a stand-out single. Commercial gem award goes to **Alice In Chains** for "No Excuses" - what a song! After back to back hits from **Dirt** ("Rooster" and "Down In A Hole" - both heavy, bumme-type metal blues thangs), this lighter, slightly psychedelic single is completely refreshing. It adds a whole new musical facet to this already impressive group. **Bruce Springsteen's "Streets Of Philadelphia"** has reignited interest in the legendary rocker's classic catalog here at **WBCN**. Much of that music has been on the back burner here for nearly two years, following the overkill and burn from his simultaneous two-album release. With the mega-winter still very much with us here in the East, it's great to pull out "10th Avenue Freeze Out" once again!

John Nagarya WKDF

Points of interest: 1. Why is it taking **A&M** so long to get off their ass and place someone at the head of the hard rock department? Their New York rep should already have that gig! 2. Those of you criticizing the new **Motley Crue** are bona fide idiots! You shouldn't even be programming or consulting or whatever it is you pretend to do between coffee breaks! If I, being a long-time, hardcore fan, can accept and dig the change, then the members of your audience can, too. Except you brainless quacks won't give them enough credit to do it! You're the same spineless bastards who would have whined in, "they came out with a repeat of **Dr. Feelgood**, instead of moving firmly into the 90s," which they have done! Thank God people didn't

have your mentality when **Bon Scott** died! If you don't think that comparison's valid, then that's more proof that you have lost touch! 3. "Hard Act To Follow" by **Brother Cane** is our fastest reacting track from this band yet! This isn't my opinion, that's a fact derived from our call-out research! This band is going to be around for quite a while, so get used to dealing with them! And, if you get the chance, check them out on the **Aerosmith** tour. Do so, this package is three hours of pure entertainment! (Now, if the **CEMA** reps will do their fucking jobs and get product into the stores, this album will go Gold, at least!)

Scott Douglas Virgin Records

"Disarm" is the new cut out for adds this week from **Smashing Pumpkins**. This band has absolutely the most active audience I have seen in some time. They have sold out nearly every show they've played. They have sold two million records! "Disarm" has been in a heavy rotation on **MTV** for the last five weeks. And, they will be on the **Lollapalooza** tour this year. No matter the flavor of your station, this cut will fit. It's brilliant! **Brother Cane's "Hard Act To Follow"** is growing...and growing! This may be the most obvious song on the album. These guys have been working their asses off all year long...touring relentlessly, shaking hands and kissing babies. This cut will bring them right on home! They are out touring with **Aerosmith** and bringing the house down everywhere they've played! Just rotate this record...it will work!

Cracker won't die! Believe it or not, this record is just beginning to kick in a lot of markets after several months out! **MTV** is giving "Low" very healthy rotation to help your familiarity scores, and it is really calling out - everywhere! **Lenny Kravitz's "Spinning Around Over You"** hasn't been out there long enough for call-out stories, but it is reacting on the phones. Watch for more **Lenny** tour dates this summer. **Colin James' "Cadillac Baby"** has been rocking the blues shows all over. I bet if you just played it a couple of times in middays, your phones would light up. There is a great buzz on this album. You'll have the whole thing domestically next week. Lastly, **Iggy Pop's "Beside You"** will be arriving on your desk in the next couple of weeks. **Lisa Germano** (you know her from **Melencamp's** records and tours) sings with **Iggy** on this cut. It's easily the most mass-appeal cut **Iggy** has had since "Candy." Check it out...adds on 3/7. Thanks, that's the **Scott Douglas** show....

Jack Daniels KSQY

After 11 years of reporting our playlist to **R&R** magazine, we received notice this past week that the publication would no longer include us on their panel of reporters. The reason given for this termination was because the Metro Rapid City Survey Area only has 85,300 persons (of which, by the way, **KSQY** owns a 16.2 AQH share 12+...the fourth highest AQH share of any AOR station in America). The Metro Rapid City Area consists of two counties, Pennington and Meade. Arbitron also surveys the surrounding 15 counties (TSA), bringing the total amount of persons to 157,900 (of which we own a 19.5 AQY share persons 18+). **KSQY** broadcasts from the Black Hills of South Dakota. Our tower is located high atop Terry Peak and from 7,500 feet takes our 100,000-watt signal into an additional 35 counties outside the USA. This signal, said to be one of the biggest in North America, reaches an estimated 275,000 people. Not to mention the 2.5 million people who come here every year to visit Mount Rushmore, to attend the Sturgis Motorcycle Rally or any of the countless other things to do in the Black Hills.

But still, the fact remains that **R&R** will only monitor Metro populations over 100,000. We have already run two CHR formats out of Rapid City over the past 10 years and now are the only contemporary station playing new rock in a 400-mile radius. We have been an aggressive new music station since our beginning and have helped break hundreds of new bands at the time they needed it the most...out of the box. My question is, is it **R&R** or is it the record industry itself that no longer cares about the thousands of people who buy music in the Midwest? And, just exactly how accurate can a chart be that does not include some very established AOR stations in the heartland of America? (Hey, let's check and see what's happening in Fargo, that should tell the whole story!) The positive part of this whole travesty is that I have received calls from every major record company telling me that this will make no difference in how they view **KSQY** and its continued ability to sell records. We'll see.

Jeffrey Naumann Virgin Records

The ultimate smash from the most successful rock band in years is now primed and ready to go immediately on your airwaves. It's "Disarm" from **The Smashing Pumpkins**. Here are the mind blowing facts: "Disarm" is already on over 60 Top 40s, exclusive Buzz Clip on **MTV** for five weeks, in power rotation on every alternative station on the planet, already before the box on over 20 album rockers, including such greats as **WXTB, WIYY** and **WBAB**. "Disarm" is released from their huge CD *Siamese Dream*, which has sold over two million units. **The Smashing Pumpkins** will be part of **Lollapalooza** this summer. In case you never played "Cherub Rock" or "Today," you may rethink this, since both songs ended up being huge hits for the people who did. So, Jesusmasters, let me ask you, does it make any sense to not play this band? Remember, **Virgin** holds all the stones. "Beside You" from **Iggy Pop** is the "Candy" of 1994. **Caesar** must rest now!

Geez - I haven't written one of these things in a while now, have I? So, how are ya? Happy 1 hope! By now, you've received **Johnny Gale's "Gale Force,"** and of course you've listened to track #1 "Boom Boom," an awesome, rockin' version of the **John Lee Hooker** tune! Check it out, AOR. And, for those with a blues show...ya can't miss this one! Now, I gotta tell ya, due to my decision to further my education, I may have a class during your music call hours, especially those on the West Coast (please don't feel neglected!) Big thanks to the greatest promotion man in history, **Dave Garbarino** of **Geffen** for his help with **Aerosmith**! Thanks also to **Alana Tuene** of **Virgin** for the help with **Cracker**. **Cry Of Love** did a Z-Rock show and it was excellent! Great new tunes on the list: **The Soundgarden** is a smash. It may take a few spins to wash the **Vince** out but the new **Motley Crue** is a hit! Another band getting good early phones is **Dandelion**. Hey, **Richie T.**, nice call!

In April, **Varga** will be going on tour with **Greta** and **Shootyz Groove** for about 18 dates in the upper Midwest and East Coast. Dates will soon follow. **Course Of Empire** is building nicely at Metal Radio. The response has been incredible. They are on tour right this instant with **Machines Of Loving Grace**. It's a must see show. On a side note, the new **Soundgarden** is, well...wow! This record is going to be hard to ignore. Kind of like **Toot**.

The **Afghan Whigs' "Gentlemen"** is new this week at **WTUE**, **KICT**, **KRRK**, **WKZQ**, **WVVV**, **KUGR** and **KAOL**. Moved into Active Rotation on **MTV**! Sales in the last 10 days are over 4,000 across the counter! Get rid of the label "alternative" because what is alternative anyway? It's an overused word that so many **ABUSE** in order to neatly place an artist in a category. I think if more time was taken listening to music there would be fewer lame excuses about being too "alternative"! Take a look at any rock chart - I bet 10 to 15 of the artists fit that "alternative" category a mere year or two ago. Music's not about labels, it's about emotions and power and whatever it means to the person who's listening.

Pam Edwards

Columbia Records

Here's a great story about how we're continuing to break **Dandelion's "Under My Skin."** Last week **KISW** had their annual Comic Relief pay-for-play Radiothon and **Columbia** sponsored a play on **Dandelion**. **KISW** got immediate positive phones. In fact, one listener liked it so much that he bid to hear **Dandelion** played again. After the second day, the phones lit up again and even the sales department visited **Cathy Faulkner's** office to find out "who this great new band was." Gratefully, **Steve Young** and **Cathy** saw the response and decided to give this band the official add this week. In fact, this happened with another label's song, too! Given the chance to hear some great new music, their listeners responded. Also, **KISW** does a great job of front and back selling all of their new music so their listeners can hark into what they're hearing. Give **Dandelion** a grassroots shot like **KISW** did, and I think you'll be pleasantly surprised.

Motley Crue is back with a vengeance! It's been awhile since only a few spins of a record garnered the #1 requested spot! Our listeners love "**Hooligan's Holiday**" and they're so hungry for more. Thanks to **Paul Brown** for the sneak preview! Several months ago, I went to a show and happened to catch the opening band, **Damn The Machine**. I'll never forget my reaction when they played an amazing cover of **Ten Years After's "I'd Love To Change The World."** I thought, geez, if they ever put that song on a record...well, they did, and reaction was the same. A couple of spins on the air got the same response from our listeners. The lyrics seem to fit even better today than they did originally. So, what the hell, we added it. Call it crazy, but it sure sounds good!

I just got home from traveling with **Ian Moore**, and we heard **Counting Crows** everywhere. That is just great radio music. Good job, **Alan** and **Warren**! Speaking of great radio music, the next **Ian Moore** track will be "**Harlem**." With an accompanying **Ice Cube** produced video, this rocker is certain to keep **Ian's** star shining brightly at Rock Radio. The **Ian Moore** tour continues through the west to big, enthusiastic crowds and **Ian's** usual rave reviews. Thanks to **Beaver Brown** and all at **KDJK** for really priming the pump and rolling out the red carpet for **Ian**. The **Big Head Todd/Freddy Jones Band** tour is about to kick off in Colorado. This great bill will then make its way all over the West. We all know what a super band **Todd And The Monsters** is, so, of course, we're very excited to have **The Freddy Jones Band** grace the same stage. Here's an open invitation to come on out and hear the **FJB**...we know you'll be duly impressed. **311** is in the studio. Peace.

Once upon a time, there was a bunch of guys called **collective soul** who got rejected by every major label in America but, because the existence of talent was never in question, they said, "Fuck this noise" and pressed it themselves. Through the morass of other records out there, their song "**shine**" somehow got airplay, first at **WJRR** in Orlando. Lo and behold, within 32 and a half seconds of the record going on the air, it was #2 most requested at night and Top 5 all day long. **WDIZ** soon added "**shine**," just from the calls they were getting off **WJRR's** airplay. Major phones. Records got into stores because somebody's **Uncle Mario** had a U-Haul. Store reports began to read as follows: "Number two seller behind **Pearl Jam**," "Number three seller behind **Alice In Chains** and **John Michael Montgomery**," "Major requests - all demos," "Top 5 seller all through December and January." Adds ensued at **WKZQ**, **KTYD**, **KCAL**, **WXQR** and more. Within four days of the call coming from **Doug Morris**, **Atlantic** had **collective soul's hints, allegations and things left unsaid**. Y'know the whole concept of "ears"? As in, "She's got great ears," or "He has no ears"? Well, this has nothing to do with that. This record has *already done* what people on both the radio side and the record side want a record to do. "**shine**" by **collective soul**...as close to a sure thing as yer gonna get.

Got the chance to check out **Dude Of Life** last week, a band led by the dude himself, an old friend of **Trey Anastasio** of **Phish**. In fact, **Trey** is one of the guitarists for **Dude Of Life**, and **Jon Fishman** of **Phish** sits in on drums. They played at Nectars, so it was a real buzz to see **Trey** and **Jon** back on the stage where it all began for **Phish** so long ago. The place was predictably packed to the gills, with many a familiar face from the "old days." **Trey** and I got a chance to do some catching up after the first night's show. He's really pumped about their new album, which they recorded on the Left Coast with producer **Paul Fox**. According to **Trey**, there are some interesting surprises in store, including some pretty amazing guest musicians. Can't wait till we've got some new **Phish** to groove to! That's for the future; as for the now, **Soundgarden's** new one goes right in this week. Wow - holy psychedelic heaviosity, **Batman!** "**Spoonman**" will pave the way for **Soundgarden** to follow down the path blazed by fellow Seattleites **Pearl Jam**. I'm no metalhead, but my love for **Led Zep** instills in me a love for well done heaviosity like this stuff. I'm really looking forward to the full **Superunknown** to see how these folks have grown.

The new **Soundgarden** is phenomenal! After all their hard work and brilliant material to date, they are way overdue! 1994 will be the year of **Soundgarden**. I am also proud to predict that they'll be the fourth Seattle band to debut at #1 on Billboard. First it was **Nirvana**, then **Pearl Jam**, most recently **Alice In Chains**...now **Soundgarden**. I guess people are not really as tired of Seattle as they pretend to be. I would like to thank everyone for their involvement in this year's **KISW** Rock Radiothon. Between donations for requests and bids on auction items, **KISW** raised over \$15,000 for **Comic Relief**. All the money raised stays right here in Seattle to help our homeless.

Soundgarden will rule 1994! "**Spoonman**" is absolutely amazing. It warms the cockles of my heart to know that **Big Head Todd** is fastly approaching Gold, and **DHA** has been there for the entire ride, as "**It's Alright**" goes in this week. It warms the cockles of my liver to get the new **Crue** in. This is an entirely new band that will have to be set up that way. This is not your father's **Motley Crue**! It warms the cockles of my spleen to see phones starting for other tracks from **Counting Crows**, **Smashing Pumpkins**, **Candlebox** and the **Screamin' Cheetah Wheelies**. It warms the cockles of my uvula to see **Possum Dixon** doing well for us after seven weeks. Now it's time for the rest of Rock Radio land to jump on "**Watch The Girl Destroy Me**." It warms the cockles of my appendix to see **Sheryl Crow** pulling down #1 phones this week. It warms the cockles of my cockles to use the word cockles seven times. As always, it's been a business doing pleasure with you.

With my recent promotion and engagement, I've received many, many bottles of champagne and even a fruit basket. Thank you all so much for your gifts and cards! Things are groovy here in San Diego, with lots of changes on our list this week. It's called "research." Hard to argue with! Grin and bear it. I think the new **Motley Crue** is hot. Looking forward to hearing the rest of the CD in San Francisco this week. "**You**" from **Candlebox**, "**No Excuses**" from **Alice In Chains**, **Cracker's "Low"** and **Nirvana's "All Apologies"** tested through the roof for us. Big surprise! Our best "upcoming" track was "**No Groovy**" from **Stick**. Hope to see a bunch of you in San Fran. If not this weekend, next for the **Sammy Hagar** dinner!

3WV is adding a jazz show to our lineup, and we need your help. We are trying to build a jazz library and need standards, as well as new releases. The show will air on Sunday nights, and will be hosted by **Dean Goodwin**. **Dean** will be available for calls on Thursday, noon-3pm. We will continue to air "Wet Paint," the new and alternative music show, on Sunday nights, as well as "Blue Monday," the blues show on Monday nights. Both of these shows are hosted by **Rick Daniels**, who takes calls Wednesday, 10am-noon. My **Arkansas Razorbacks** are #1 again, the ice is beginning to melt, all is good in the free world.

The **Organization** is Top 10! **The Organization** is Top 10! **The Organization** is on tour! **The Organization** is selling records! **The Organization** is selling records! I do see a pattern. **GWAR** will have a new record on your desk shortly. The video is supposed to premiere on "Headbangers Ball" on February 26. Have you checked out "Ace Ventura: Pet Detective" yet? Make sure you catch **Cannibal Corpse**. A new record, **The Bleeding**, is set for release April 12. It will be huge. **Paradise Lost** continues to hold its own at Metal Radio. The band is currently on the road in Europe. They will be heading to Japan, Israel, Greece and South America shortly. US tour to follow. Tour info: **Chemlab** will be opening for **KMFDM** starting in April. **Broken Hope** will be going out with **Unleashed** and **Demented Ted** starting in April. **GWAR** will also hit the road.

They said it would never last. Three stoners, a road crew, four Green amps, five sleeping bags and two and a half pound of pot all in a revamped diaper delivery truck for eight weeks. They made it! **Sleep** is officially the rulers of the road! The clubs were packed, thanks to everybody who supported the band! The "**Dragonaut**" video should be on **MTV** soon. Play "**The Aquarian**." **Pitch Shifter** is kickin' all kinds of butt on the charts. "**Diable**" is the song for you. The tour with **Carcass** starts the first week in March and will include a secret surprise guest. **OLD** will be doing radio interviews this week! Call me ASAP! **Jim Plotkin** and **Allen Dubin** would love to share a "**Happy Tantrum**" with you. Do yourself justice and listen to cut #9, "**Scorpionic**," on **Scorn's** new one, **Colossus**. You will be instantly amazed. Do not be afraid of the hardcore flava of **Blood From The Soul**. This record is totally unprecedented! **NYHC** and **British goth industrial**. (Say that 10 times, real fast.) **Sick Of It All** + **Napalm Death** = **Blood From The Soul**! Play it! **Benny Hill** has been resurrected with a guitar in the form of **Lawnmower Deth**. God bless **Earache!** (212) DIE 9090.

Well, I think we are just about done "tossing and turning" out here. Yeah, things got pretty shakey, but **Eleven** is still holding on strong. "**Let Down**" is the new single (you should have the CD single on your desk by now). Don't miss **Eleven** on tour with **Candlebox**, call us for dates, tix and interviews! We've got some big plans for **Eleven** in the next few months, so help us support this band now! 1) Add **Eleven's** new single, "**Let Down**." 2) Go see **Eleven** on tour as soon as they come to your town! 3) Feel good inside 'cuz you will be doing a great thang for the world!

Soundgarden's "Spoonman" on the air five minutes and the phones literally explode, everyone wanting to hear more of the *Superunknown* CD. Alas, we can only wait. Vince should have stuck with *The Cruel*, cause they have aimed for the 90s and have hit a bulls-eye. Jon Corobi's vocals definitely have added a harder and bluesier edge to the *Vinceless Cruel*. My two favorite new bands on the block are *Dandelion* and *Lucy's Fur Coat*. Check out "Behind My Back" from the Tempe band, *Beats The Hell Out Of Me* on *Metal Blade*. Looks like Trent Reznor is ready to kick your ass cause "March Of The Pigs" by *Nine Inch Nails* is definitely gonna cause a stir. Until next time....

Michael Cross KJKJ

Farewell rotations! Hello Plays Per Week! As of today, KJKJ will report Plays Per Week playlist. This means instead of a heavy, medium or light rotation, we'll be giving out spins per week. Because we did not begin this system until mid-week, some records are shown as getting little airplay, when in fact, they might have received more before we began the PPW chart. This seems so strange not reporting rotations, and if you have a better way to help know where your records are, feel free to call us with ideas. As you may have heard, R&R has dropped Grand Forks from its panel of reporters. We know what the reality of the situation is, and we'll be taking down the names of those who don't call us any longer. We play records and we sell records. For a publication to decide that we "don't matter," is a crock. To you who continue to conduct business as usual at this radio station - thank you. We have always been there for a lot of folks and we hope that now a lot of folks will be there for us. Here's to the future and BDS, not some "reported" rotations.

Why is it that great music most of the time goes unheard and does not sell? *NRBQ* have been semi-legendary for 25 years. Their first studio album in five years is the best one they have ever recorded. If you love rock 'n roll (as *Joan Jett* told ya), you will enjoy the new *NRBQ* album, *Message For The Mess Age*. It is guaranteed listening pleasure entertainment. So, if you have not heard the album yet, do yourself a favor and listen. Great music can get noticed and sell. And, if you're a retailer in the Northeast, call me at (212) 603-0727, order more and testify!

As I raced down the Garden State Parkway at approx 80 MPH, with new *Pantera*, *Kyuss* and *Godspeed* music blazing in the tapedeck, my close, personal companion turned and yelled through the smoky haze, "Jon, it's 35 degrees outside...why in the world are we going surfing?!" "Because," I replied, "the sun is shining, the waves are bitchin', I just bought a new wet suit and *King's X* is everywhere." At that point, I just turned up *Phil Anselmo's* healthy howl and ignored my friends whimpering. Not to be redundant, but *King's X* is the shit! "Dogman" is the most successful "Metal/Rock Radio" record of 1994...the numbers and reaction prove it! If you're not playing *King's X*, you're an ass! How about the reaction to *Jawbox* and *Unsane*. Nothing to laugh about either. *Jawbox* is headlining clubs, *Unsane* will hit the road with *Entombed*, and *King's X* is out with *Scorpions*, then *Pearl Jam*. Call me for your Surgery advance and keep ragin' with *Melvins* metal! "Lizzy" is the Rock Radio cut! Coming soon... "The Crow."

We're sitting in our radio bunker jammin' out on the new *Peach* and *Fudge* albums! These puppies are hot! Both bands will be touring up the wazoo for weeks this spring/summer, so watch for *Southside Speedway* by *Fudge* and *Siesta* by *Peach* this April! Just around the corner is *Hex*, the atmospheric, avant-garde album from London-based *Bark Psychosis*. Also real soon: *Quique* - the genre-breaking bridge between sonic guitar explorations and ambient-house soundscapes from *Seefeel*. *Adrian Belew* gets ready for a very busy year with his new album, *Here*, an appearance at *SXSW* and a killer national tour. There'll be plenty of fresh, cutting-edge *Astralwerks*

music this spring - new *Future Sound Of London*, *Transformer 2*, *Barramundi* v/a compilation and loads more. For a true peek at the rock of the 90s, try the *RE/Search: Incredibly Strange Music* compilation. Does anyone know if there's really going to be an "Aliens Vs. Predator" movie this year?

Once again, *Candlebox* is smoking the airwaves here in the Northwest. Without a doubt, "Far Behind" is the best offering from this band yet! Check it out on the *Warner Bros.* CD, *Candlebox*. Other news: *Danzig* is #1 in sales, #1 in phones and looking to go #1 on our list...and the *Cruel* is cruising, instant phone reaction for "Hooligan's Holiday" (play it at full volume to truly enjoy it!). Give me a call and let's talk music at (208) 743-2282. Keep it loud and keep it rockin'!

Week two: And *Tori Amos* has found some believers. Great radio stations like *WBAB* (Long Island), *KTCZ* (Minneapolis), *KEYJ* and *KCOR* all found "God" and added it. Surprise, surprise, sales for week two are 48,123 and counting. How many more weeks do you need to find "God"? If you missed *Tori Amos* on *Jay Leno* Friday night, call me, I will send you a copy of this amazing rock performance. *MTV* just upped the video into Buzz Bin. Be smart, don't fight a record that is reaching out to your listeners. *collective soul's* debut track, "shine," is in your hands and already on many stations. I love records with a natural buzz. This is a pure and simple *smash!* *King's X* starts their tour this week with *Scorpions*, and in April with *Pearl Jam!* "Dogman" continues to convert as more and more stations get bit. Looking ahead, pay close attention to a band that is new to the *Atlantic* ranks, *The Charlatans*. "Can't Get Out Of Bed" has just started at alternative, but will soon ship to AOR, as it begins to scream for your attention. I'm out of here to enjoy my first good weather week in NYC. I may actually get to dress like a normal person.

Heather Lose WRLG

It's been great saying hello to all you groovy record people! In case you missed last week, my music hours are 3-5pm CST. More and more folks getting clued in to *WRLG*. *Bad Religion* sounding better with each spin. Stoked to finally add *Rage* this week - they've been my heroes since the Shamrock days in LA, and with *MTV* play they should explode. *Meat Puppets* working well, as is *Alice In Chains*, *Buffalo Tom* and *Smashing Pumpkins*. And here comes *Mazzy Star*, out of left field! *Opal* went under-recognized; let's make sure that doesn't happen again. *Beck* still running hot.

Carolyn Wolfe And Jim McNeil TVT Records

With over 115,000 copies out the door, *The Connells* are showing radio that there is no longer a reason to consider them a "college band." A *Power Cuts* debut and support from many stations are making "'74-'75" a familiar voice on the airwaves (not to mention all of the *VIRTUALLYALTERNATIVE* and *Adult Rock* support *The Connells* have had!). The band is currently doing a tour of the Southeast, doing their best to escape all of this funky weather, and then late March/early April sees them starting another bout across the country. Talk to you soon, and if you haven't listened to "'74-'75" yet, you are later than late.

Dennis Constantine Radio Consultant

Okay, are we done with the ice storms on the East Coast? I lived on the East Coast for 26 years, and I've never seen anything like what we've had this winter. Ye gahds...I guess the groundhog knew what he was saying when he said we'd have another six weeks of winter. Okay, now. Bring on the spring! *Peter Dinklage*. Did you ever think you'd hear this name again, after the embarrassing "I'm In You"? Believe it or not, he has made a wonderful new record. You're probably thinking I've really flipped now, but listen to "Out Of The Blue." The song is getting good response at *KQPT*. *Rob Wasserman*. This is a very bizarre collection of songs. But what would you expect from the *Grateful Dead*? There is a bit of inspiration, however. Check out the *Bruce Hornsby* track, "White-

Wheeled Limousine." It's on *Rob Wasserman's Trios*. *NRBQ*. "A Little Bit Of Bad." This is a hit song. For years, I've been listening to *NRBQ* songs recorded by other folks. And when I pulled out the original version by the band, there was something about the performance and the recording technique that left something to be desired. However, they have hit it on the head with this one. A great album all the way through.

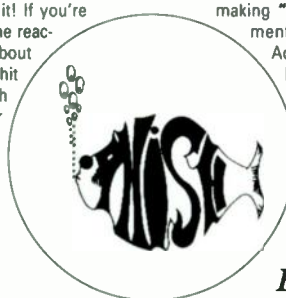

Smash! John Mellencamp. "Baby, Please Don't Go." From the soundtrack of the basketball movie, "Blue Chips." Is this really the same guy who recorded "Jack And Diane"? He's matured, and is making the best music of his career. This haunting cover of the *Van Morrison* 60s song will get top phones. *Fury In The Slaughterhouse*. Don't let the name of this band, or the cover artwork, scare you away. There's some wonderful music on the disc. "Every Generation Got Its Own Disease" is a thinking person's song...and don't we have thinking persons listening to *Adult Rock Radio*? For a giggle, check out the opening drum sample on their cover of the *McGuinness-Flint* song, "When I'm Dead And Gone." *Fury In The Slaughterhouse*, *Mono*. The *Tribute To Curtis Mayfield* is very cool. Check out *Bruce Springsteen's* haunting version of "Gypsy Woman." *Eric Clapton* rocks on "You Must Believe Me." *B.B. King* does "Woman's Got Soul," blues-style. Good stuff.

More new music is coming your way - look for *The Blazers* and their new album titled *Short Fuse*. It was produced by *Cesar Rosas*, guitarist for *Los Lobos*, and it holds many surprises. A name that might be familiar, *Rory Block*, also has a tasty album ready to hit the airwaves and a lot of you seem to be really excited about it. *Smokin' Joe Kubek* and *Vance Gilbert* have both found some new homes and seem to be garnering a lot of interest. Everyone should have *Sacred Sources 1 - Live Forever* by now. Listen to the *Bob Marley* and *Stevie Ray Vaughan* tracks, which are getting the most feedback. *Dee Carstensen* has a beautiful album on her hands that really deserves some attention. Don't miss the boat on this one. The most recent releases from *Antone's/Dos* are coming from *Pat McLaughlin* and *Doyle Bramhall II*. You may recognize *Doyle's* name, as he wrote many tunes for the late, great *Stevie Ray Vaughan*, including "The Hunter" and "Change It." *Stephen Bruton* has tour dates set for various cities in California and Colorado - don't miss him live! You'll thank yourself later. *Karen Farr* is continuing to bubble right under the charts...we're almost there! Go back to "Shadowland" and "Wintertime." Thanks!

David Kane's Them Jazzbeards: It's too far rockin' to be just jazz; far too smart to be jazz-rock; far too subversive to be new age; way too urban to be world music - it's the soundtrack for *Highballs*, *Low-brows* and *Presbyterians*. New from *Alert Music* - you're welcome!

Is Clayton Quittin'?

Rumors have been sweeping the industry about U2 bassist Adam Clayton's future with the superstar band. A gossip show on the entertainment industry-oriented channel E! went so far as to say that Clayton's roadie filled in for the bassist when he failed to make an Australian tour date!

The band's management is denying all stories about Clayton's imminent departure, which has reportedly been attributed to "lifestyle differences" (word has it that the bassist has a reputation for being quite the partier).

Going against the tide of speculation, U2 themselves seem to be getting along just fine, thank you very much; all four band members have been lending a helping hand in the studio to Naomi Campbell, who's currently recording her first record (for those of you living under a rock for the past two years, the supermodel happens to be Clayton's fiancée).

As further evidence of peace and tranquility in the land of U2, Bono, Edge, Larry and Adam all showed up at the invitation-only opening of the band's new bar/restaurant in Dublin, the Kitchen, this past Monday (Valentine's Day, as it happened to be).

What will happen? Our guess is nothing, probably, but we'll keep you posted on the possibilities of a lineup shift in one of the world's biggest bands.

Jay Sisson at WIXV faxed in this Q&A:

Q: Did you hear about the new Barbie Doll they came out with?

A: It's Divorced Barbie...she comes with all of Ken's belongings.

Beatles In The Park?

Speaking of rumors surrounding musical giants, according to the offices of Paul McCartney, a London newspaper report stating that the three surviving members of the Fab Four would reunite for a massive concert in Central Park is "an out and out lie."

Jeff Baker, McCartney's personal assistant, added that "there's not a shred of truth" to the article, which has caused a worldwide commotion. The newspaper story stated that McCartney, George Harrison and Ringo Starr would reunite at the Central Park concert later this year, and that the threesome would be joined by John Lennon's sons, Julian and Sean.

The article also reported that each of the former Beatles would receive \$30 million dollars for performing at the landmark gig - which was to be telecast worldwide - and that McCartney chose Central Park as the location of the concert in honor of Lennon, who was brutally assassinated there in 1980.

Of course, the British newspaper failed to cite a source for all of this remarkable information...and with McCartney et al vigorously denying the story, it looks like yet another example of Limey tabloid journalism.

Don't worry - if the surviving Beatles *do* reunite for a live show, we'll be here to tell ya!

Groovin' On "The Ridge"

There was a bit of suspicion brewing last week here in Quake Town, USA, when a band by the name of "The Ridge" promoted two LA club dates - one at the Whisky and the other at Club Lingerie. Just who was this mysterious band?

Well, the curious (and lucky) folks who turned up at the two shows sure got a great surprise...they were treated to full-on sets from none other than the magnificent Melissa Etheridge! (Get it?)

Melissa's about to embark on a tour that should have her audiences yellin' and screamin'...she's one of rock n' roll's greatest performers, and she'll be sharing the bill with Sting and Matthew Sweet on selected dates, so when she hits your town, be there! You'll be glad you did!

Here are the dates with Sting:

- 2/18 Gainesville (O'Connell Center/Reitz Union)
- 2/19 Pensacola (Civic Center)
- 2/20 Tampa (Sundome)
- 2/22 Orlando (Orlando Arena)
- 2/23 Miami (Miami Arena)
- 2/26 East Rutherford, NJ (Brendan Byrne Arena)
- 2/27 Philadelphia (Spectrum)

And here are the dates with Matthew Sweet:

Another Bobbitt joke, from Kevin Walsh at WVVV...the hits just keep on coming:

Lorena Bobbitt is driving down the road with her husband's severed penis in her hand.

She takes the penis and flings it out the window of the car. Right behind Lorena, two rednecks are driving a four wheel drive pickup truck. The penis strikes the windshield of the pickup and bounces away.

One redneck turns to the other and says, "Damn, did you see the size of the dick on that fly?!"

Nasty Happenings

Last week, I was fortunate enough to see an artist who I believe in from the bottom of my heart. After catching Billy Falcon's set at Cafe Largo here in Los Angeles, I came away convinced that this singer/songwriter has a special talent that comes along very rarely.

Billy is a lyricist whose work is so heartfelt that you can't help but love what he does. If you haven't yet listened to "I Like How It Feels," that's a great place to start. Then check out "Wonder Years," "Paper Ship" and "Mama's Face" - hell, listen to the whole CD - it's well worth your time! Billy, you're a class act and I hope to see you soon!

And in other Richterville news, was that Ian Moore and Stevie Salas wailing away on-stage at the Viper Room with the illustrious Sass Jordan? What a party! MCA already gets my vote for Bash of the Month!

The guest list at the Viper Room that night was a virtual who's who of the biz - as was to be expected, with Ms. Jordan on the bill! Sass, you're as awesome as ever! (Personal to Stevie Salas: Brother, you are a star, and you will rule soon!)

And still more from Jay Sisson:

A blonde was on the way to California and saw a sign that said "Clean restrooms ahead." By the time she hit the coast, she had cleaned 68 of them.

Sex, Guns And Rock N' Roll

Could firearms be replacing drugs as the vice of choice for once hard-livin' rock n' rollers? Maybe.

Motley Crue drummer Tommy Lee was charged with the possession of a concealed and loaded firearm on February 8, following his arrest at Los Angeles International Airport earlier in the year, when airport security spotted a .40 caliber semiautomatic pistol and hollow-point ammunition in his carry-on luggage.

For his penchant for hidden firearms, Lee could face up to a year in jail. However, longtime NRA member, hunter and right-to-arms booster Ted Nugent has never tried to hide his gun lust...and now he's going to be testing the limits of MTV with his pro-guns stance.

The Nuge, a proud right-winger, feels that the video channel is unfairly slanted to the left (it's "so liberal" it makes him "want to gag," according to the LA Times), and he wants to stir it up a little with the soon to be filmed video for "Love Jacker," a tune from his upcoming solo album that defends gun ownership.

"We're gonna find out real soon if MTV's willing to put out an un-PC message," quips The Nuge. "[In 'Love Jacker'] I talk about how it's not only my constitutional right to keep and bear arms, but it's my moral obligation to defend my family - and it can't be done with 911. It's an overtly pro-gun song."

Ted, you are a man's man! Stay tuned!

Everybody called in with this one to share:

Q: What did Jeffrey Dahmer say to Lorena Bobbitt?

A: "You gonna eat that?"

AMC Update

I love when Stewart plays Adam, as he did last week in the board meeting scene (where he found out Alec is trying to take over Enchantment). Unfortunately for poor Stewart, when he confronted Alec about it, he threatened to ruin Gloria's life if Stew spilled the beans.

Frankly, Gloria and Alec are disgusting. Speaking of Alec, if you happen to see the Burt Lancaster/Kirk Douglas movie "Tough Guys" from a few years back, you'll get a chuckle if you catch the scene where Douglas is not knowingly in a gay bar and the bartender gives him quite a sweet wink - that bartender was played by Alec! (Okay, so I forgot the guy's real name!)

Is Kendall starting to see what the real Richard Fields is all about, as he is trying to milk Erica's trial for another film comeback? I'm not sure yet if Erica will pursue Jack or Dimitri when the trial's finally over.

And is there a shot that Brooke and Tad will get back together? Or will Edmund dump poor Maria - weren't these the same story lines we were talking about a year ago?

That's it for me! I'm Tommy Nast with the Nasty Nooz.

The Nasty Nooz is written and edited by Tommy Nast and Benjamin Plotkin.
