PRETENDERS GET UNDER ROCK RADIO'S SKIN!

midst a modicum of "rush release panic," "Night In My Veins," the lead single from the first Pretenders CD in four years, scrambles its way to the top of the New Action Airplay list this week. Owner of 98 out of the box adds, the song from Last Of The Independents (in stores May 10) begins its run up the Power Cuts chart at #22*, and slams a leadoff Homer! in the process.

With a number of major market reporters jumping the gun on "Night In My Veins" last week, the promotion gurus at Warner Bros. decided to service the song a week early, and when they did, found among many others, WDVE, KFOG, WKLS, WNEW, WSHE, KSHE and KXRX ready and waiting to add it. On top of that, WMMS, WMMR, WAPL and KKNB were all giving the new Pretenders single between two and four spins a day before they even had a chance to call in their add.

In next week's Album Network, you'll be able to learn firsthand just what Chrissie Hynde and the Pretenders have been up to these past four years, and why drummer Martin Chambers and producer Chris Thomas have returned.

World Radio History

An Open Letter To The Industry At Large

Last September, Album Network voiced its commitment to *historical* Plays Per Week in a letter not unlike this one. Furthermore, it's no secret that over the last few months Album Network has been working diligently to establish our new database systems so we can bring to the industry the **first** radio reported airplay chart that reflects *reality* at all formats of Rock Radio...Plays Per Week! Beginning next week with Issue #788, **every** radio chart we produce will reflect Plays Per Week.

We have been fortunate enough to watch our sister trade, The Network Forty, successfully implement PPWs at Top 40 radio over the past two years and have further benefited by studying their successes. We thank them for their insight and for paving the way with radio. In addition, the acceptance of BDS and monitored play has also sped the shift to PPW reporting. We're excited by the opportunity to not only measure the Top 100 markets, but also stations playing new music which fall outside the "100" list. This extended view will give a greater overall picture about radio's ability to break new artists and sell records.

Now that the time is here for Album Network to bid farewell to the old Heavy-Medium-Light routine, I feel very pleased that our publication has led the way to this change for the better. In particular, we're happy that the other trades appear to value smooth communication over competitive advantage - accepting PPW as a universal reporting standard.

Although Network Forty was first to use the phrase PPWs in reference to Hit Radio airplay, VP/GM Gerry Cagle encouraged all trades to accept the term. And, as you have seen in print for the past months in Album Network, we have used it exclusively in the Rock Radio arena. So, let me now thank the FMQB for not trying to confuse the issue by coming up with their own term when referring to PPWs. We're pleased that they're using the system, and the common terminology, for the good of the industry.

When Radio & Records' rock section makes the switch, trying to understand their system will probably ignite a rush for enrollment at UCLA's night school. But that is their business. Our business is to continue to do the best we can to keep our industry fresh, appealing and most importantly, reality-based, in a manner all of us can understand, comprehend and implement easily.

As we move into this next phase, trade reporting will be a learning experience for everyone for a while. Then, like the old H-M-L system, PPWs will become second nature. We'll probably look back and realize we should have done this sooner! Thanks for your support.

Traffic "Here Comes A Man" Virgin

Twenty years after the "final" Traffic album comes this ultra cool surprise. Who'da thunk it could ever happen?

"Here Comes A Man" marks the first true collaboration between Steve Winwood and Jim Capaldi since When The Eagle Flies back in 1974. And folks, everything you ever loved about Traffic is here: Mood, groove, un-believable musicianship. Stevie's voice.... No one coulda guessed we'd ever have another Traffic record, but now that we do, let's pray for more!

Traffic will be touring North America, beginning May 16. Also, you can read an in-depth conversation with Winwood and Capaldi, right here in The Album Network, in two weeks.

Mother Station

"Put The Blame On Me" EastWest America/TAG

In the time it takes you to read this sentence, "Put The Blame On Me" is gonna be all over Rock Radio in North America, and we don't mean maybe. This is hard rockin' blues at its best, fraught with killer licks, stellar hooks and some of the ballsiest female vocals we've heard since, well, since Janis.

Brand New Bag is the first album from Memphis' latest export. Comprised of two women (Susan Marshall and Gwin Spencer) and three guys (Rick Shelton, Paul Brown and Michael Jacques), The Mother Station is a real mutha of a new rock band (sorry). This one is on AN Rock CD TuneUp #114.

The Smithereens A Date With The Smithereens

Any discussion of power pop in the 80s and 90s must begin with The Smithereens. From their initial introduction, via the surprising 1986 smash "Blood And Roses," right on up

through the band's current Rock Radio hit, "Miles From Nowhere" (which was #1 most added two weeks back), this New York/New Jersey bunch has virtually copyrighted the name "power pop."

And, now, with the imminent release of their first CD for RCA, The Smithereens have improved on an already formidable sound. You can hear it in the opening strains of "War For My Mind," which has the melodic structure that The Smithereens patented long ago, with a guitar riff seemingly filtered through the Seattle scene (or have the Seattle bands filtered their sound through that of The Smithereens?). And, speaking of grunge, track forward to cut #10, "Sick Of Seattle," for a hilarious indication of writer Pat DiNizio's take on the whole

As with previous Smithereens outings, the quality of the songwriting is remarkably consistent, making it possible to air just about anything you want from A Date With The Smithereens; our picks include "Love Is Gone," "Everything I Have Is Blue," "War For My Mind," "Afternoon Tea," "Sleep The Night Away" and "Life Is So Beautiful."

Rob Rule

"She Gets Too High"

"She Gets Too High" is a four and a half-minute groove party that sounds awesome on headphones. That stated, let us introduce you

to the band: "Rob Rule" is a nickname that was given to guitarist Robbie Allen by the Red Hot Chili Peppers when he roadied for them. Comprised of mostly Southern California guys, Rob Rule is also drummer J.B.J., guitarist David King (both ex-Mary's Danish), 19 year old singer Eddie Anisko and Steve "I won't divulge my last name" on bass.

"She Gets Too High," which is lifted from Rob Rule's self-titled freshman outing, has been featured on both AN Rock CD TuneUps #113 and

> The Grays "Very Best Years"

Remember when undeniable hooks and brain-burning melodies were all over the radio? When Beatlesque chord

changes were de rigueur? When hit songs were rockin' and hummable? Well, The Grays can take you back to those "Very Best Years" with their accomplished blend of ambitious arrangements and solid songwriting.

"Very Best Years" is the perfect introduction to The Grays' unique, yet warmly familiar stylings (tastemaker West Coast stations KLOS and KROQ have already scorched the airwaves with this track); its layers of alternately crunching and jangling guitars command your attention (careful, this song is addictive!). Find it on Rock CD TuneUp

> Are you looking for exclusives? Well, there are a couple of tracks that you won't find anywhere but on The Album Network Rock CD TuneUp #114, which is on your desk Monday.

Meat Loaf

"Objects In The Rear View Mirror May Appear Closer Than They Are"

You may have never added a song with a longer title.... If anyone has ever written a stronger lyric on the pain that goes with looking back on long gone relationships than Jim Steinman has here, we've never heard it. And if anyone could possibly imbue a vocal delivery with more honest passion than Meat Loaf does here, bring that person on, because we can't wait to hear such a performance. Three edits have been delivered to you for your convenience; we recommend the full-length version

Stick

"Grind"

Arista

Like "No Groovy," which many of you played successfully, "Grind" shows the electric energy of this Lawrence, Kansas, outfit. Even a cursory listen to this one will show that Stick is neither too heavy for the mainstream nor too wimpy for the RAWk stations.

Under its previous name of Kill Whitey, Stick released one indie album and shared Midwest stages with the likes of Soundgarden, Primus, Danzig and Faith No. More. A cleaned up version of "Grind" is contained on our Rock CD TuneUp #114.

April 15, 1994 - Is there an Eagles "Unplugged" show in the offing? Could they be performing new material - perhaps a Henley tune called "Get Over It" and a Frey cut called "The Girl From Yesterday"? Only time will tell...but wait, there's more... Take It Easy is the reported title of an outtakes/remakes-type album coming from The Eagles: it is on the books for late May, and we've heard that the two new songs from the "Unplugged" set will be included And Hull is the name of a posthumous tripute album to Mick Ronson. Mick was working on the record at the time of his death last year, and guest artists include **John Mellencamp, Bavid Bowie, Ian Hunter, Chrissie Hynde** of the Pretenders and Joe Elliott of Def Leppard. The CD is due out on April 26 Also, John Meliencamp has his own new album coming in June, titled Dance Naked Last year's Siegly Dill tour should produce a live album by the end of Apparently, all the living members of The Band (current and otherwise) are involved in compiling a pox set, which they hope to have out by this Brothers are scheduled to return to the studio soon to lay down some new tracks for a box set, which is coming this fall. "In A Daydream" Capricorn

Sheryl

"Leaving Las Vegas"

"Kenny & Cleo"

This week brings a trio of tunes that have been previously worked at Rock Radio, each meeting with varying degrees of success. Now, each of the respective labels is showing its unwavering faith by coming back to you for your renewed consideration.

The thing to know about The Freddy Jones Band's "In A Daydream" is that it took the group's Waiting For The Night CD Top 5 at the Adult Rock Radio format. The other important item that should not be ignored is that this band absolutely rocks live. Go back and listen again - it is on our Rock CD TuneUn #114.

Sheryl actually did fairly well at Rock Radio with "Leaving Las Vegas," and her inclusion here should be read as an indictment from A&M that "fairly well" is simply not good enough. Not only does "Leaving Las Vegas" sound great on the radio, and the video has been on MTV for six weeks (now in stress rotation), but Tuesday Night Music Club has sold over 200,000. "Leaving Las Vegas" is now on nearly 100 Top 40 Radio stations...

Why have major market trendsetters WRZX and WAAF each given "Kenny And Clea" in the neighborhood of 400 spins? Why has this one done so well on WAXQ (Q104) in New York City? Well, one more listen to this one from Black Market Flowers' debut CD, Bind, will answer these

PRETENDERS

"'Night In My Veins' is a return to what made the Pretenders a rock staple!" Rita Wilde, KLOS

"Night In My Veins," from the imminent Last Of The Independents, was too good to hold onto, so Warner Bros. released it a week early. The result is 98 out of the box adds, and the track enters the Power Cuts chart at #22* and slugs a Homer!

WMMS, KKNB and WAPL are already up to three or more spins a day on "Night In My Veins," and, from the "We'll Never Say This Again" file: "Night" receives 10 adds into heavy rotation!

Pretenders fans will want to read our in-depth conversation with Chrissie Hynde next week.

At WRDU. Tom Guild beams, "I'm knocked out by this track. It's the best thing I've heard since 'Back On The Chain Gang.'" KATP's Dale Miller says, "Chrissie Hynde's voice just seems to get better with each passing year. What a great song!"

And, M.J. Matthews of KCAL states, "It's good to see Martin Chambers back on the drums!

"If you love Pink Floyd, you'll love everything on this album. If you're not a Floyd fan, vou will be!" Ronni Hunter, WBZX

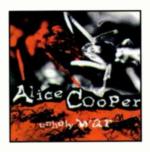

Pink Floyd keeps on rolling, as a pair of CD cuts from The Division Bell again storm Rock Radio; "What Do You Want From Me" nails down an additional 54 adds. Altogether, this track roars 28-21* up Power Cuts and slams a Homer!

As anticipated, The Division Bell debuts at #1* on the Hottest Sales Nationwide chart after an absolutely phenomenal week at

To learn more about this awesome CD, check out Redbeard's exclusive oneon-one conversation with David Gilmour, found on page 21.

Commenting on "What Do You Want From Me," KRAB PD Chris Squires says he "can't play enough Pink Floyd!" Adding his thoughts is KZOZ programmer Rick Andrews: This is but one awesome track from an album with so much to choose from!"

ALICE COOPER "Unholy War

"'Unholy War' picks up immediate phones; of course we love Alice here!"

Dale Miller, KATP

Of course a song sung by Alice Cooper and written by Soundgarden's Chris Cornell, would be among the most added at Rock Radio. Thanks to 41 adds, "Unholy War" takes #3 New Action honors and debuts on the Power Cuts chart at #51*.

Among the instant supporters of "Unholy War" are heavyweight reporters like KIOZ, WLZR, WQFM, WRIF, KUPD and KEGL, while KRZR adds the tune right to heavy (there's that archaic word again).

Thanks to Epic, we've already heard quite a bit of Alice's The Last Temptation CD, and "Unholy War" is simply one of the many killer cuts; the album is available May 31.

Phil Marlowe of WCCC tells us. "Alice is one of those artists who has both a classic appeal and a very new-skewing appeal as well! On top of that, Chris Cornell wrote the song, so this could prove to be one of the bigger day songs for Alice!" At KMJX, David Allen Ross explains why he goes with "Unholy War" out of the box: "Alice has always been a strong artist here!"

"Take It Back"

"'Take It Back' is a Pink Floyd pop masterpiece!"

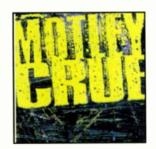

Will Kauffman, WQCM

Last week, "Take It Back" was the #2 most added song at Rock Radio. This week, 38 more adds make it the #4 New Action Airplay cut, and when you factor in the seven upward moves, it climbs 33-23* on the Power Cuts chart. "Take It Back" is also the Floyd's second Homer! this week.

In addition to entering the Hottest Sales Nationwide chart at #1*, The Division Bell flies 17-1* on the In-Store Play chart. Moreover, WBAB, KFOG, WBZX, KEZO and KDJK all join the party on "Take It Back" this week.

WGBF's Tony Couch calls "Take It Back" "one of their more psychedelic, drawn back tunes on the album, but it's still part of the conceptual whole!"

At KRCH, Matt Montgomery wonders (and then answers his own rhetorical question): "What can you say about Pink Floyd? They are huge! We loved 'Take It Back' from the first listen!" At WIXV, Jay Sisson blurts out, "'Take It Back' is so obvious!"

"Misunderstood' is melodic and heavy; it opens an area that the Crue will be able to pursue more in the future!"

Jeff Riedel, KDJK

Now, in its first official week for adds, "Misunderstood" nabs 37 more adds at Rock Radio. Couple that with the six rotation bumps, and the newest Motley Crue cut iams 65-37* up the Power Cuts chart and becomes The Album Network's BreakOut track.

If you're swayed by such things, consider that KSHE, WWBZ, WLZR, WQFM and WBZX are just a few of the stations now playing "Misunderstood."

WKDF's John Nagarya, who may just be the world's biggest Crue fan, points out, "'Misunderstood' is going to be a classic: the arrangement on this record is absolutely genius! We're still playing 'Hooligan's Holiday,' and we're already getting phones on 'Misunderstood!""

Ronni Meanwhile. Hunter of WBZX believes that "you have to listen to this track a couple times, but by the third listen, you'll find yourself saying, 'Yeah, that's cool!'"

CANDLEBOX "Far Behind" MAVERICK/SIRE/WB - 6283

"We jumped the gun on the new Candlebox tune, and already, 'Far Behind' is pulling down Top 5 phones!"

T.J. Bryan, WDHA

This Gold-selling band continues to show that it's no flash in the pan, as "Far Behind" grabs 33 more adds and 19 rotation increases at Rock Radio. The result is a 35-24* rise on the Power Cuts chart and a Homer!

A dozen of our reporters are spinning "Far Behind" at least three times a day, with WAAF and KISW both telling us of between 30 and 40 PPWs.

WZNF's Roger The Dodger says, "The first two did well for the band, but this will put them over the top!" At WBZX, Ronni Hunter says, "Candlebox continues to kick ass all over the radio!" And Guy Dark of WHDQ notes, "The live version of Candlebox's 'Far Behind' on the CD-Pro is also very cool!"

COUNTING CROWS "Round Here"

"'Mr. Jones' was a no-brainer, and 'Round Here' follows suit!" Scott Andrews, KBQQ

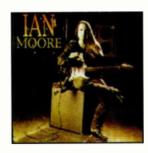

On April 26, Geffen will be asking for adds on "Round Here." If you wait till then, you may be the only Rock Radio station to do so, because with 29 more early adds, the song is now a Homer!, landing at #30* on Power Cuts.

WMMR, WZZO, WIQB, WJRR and WKLQ are a few of the stations already devoting a great deal of airtime to "Round Here," each giving the song more than 21 PPWs. Benefitting from the spins on "Round Here," August And Everything After rebounds 5-4* on the Hottest Sales Nationwide chart.

Scott Steele of WRUF states, "These guys are gonna work at any format, and round here they are already working well!" WSTZ's Russ Allen says, "Judging from the early reaction, 'Round Here' will do as well as 'Mr. Jones'!"

IAN MOORE "Harlem"

"'Harlem' is a gritty track for a gritty time."

Bill Walker, WROQ

lan has now been among the most added at Rock Radio for two weeks running, as "Harlem" owns 21 more adds in its first official week. Last week's Designated Hitter thus runs 17 notches up the Power Cuts chart to #50*.

KRXQ, KTXQ, WGBF, KLOL, WPYX, WDHA, WFXS and KLAQ are all supporting "Harlem" now, and KLBJ and WVVV are among the outlets reporting Top 5 phones.

Greg Bergen, MD at KRZZ, calls "Harlem" the "best cut on the record. lan's touching on so much stuff we all have to deal with. It's a totally powerful song with awesome licks!" At WDHA, T.J. Bryan admits, "I was a little skeptical at first, but 'Harlem' sounds great on the air!"

"If Pink Floyd had a sense of humor, their records would sound like Phish albums!"

Jay Sisson, WIXV

Phish's "Down With Disease" reenters the New Action Airplay pages this week on the strength of 21 new adds. The song is now on 98 Rock Radio reporters, and it jumps 31-26* on Power Cuts.

Some pertinent facts about "Down With Disease" include adds at KLOS, KTXQ, WFYV and WONE, Top 5 phones at five stations and at least three plays a day at WHCN, WAVF, WXRC and WHDQ.

Guy Dark of WHDQ boasts, "As expected, Phish's Hoist is dominating local sales its first week in the stores, and we "hoist" 'Down With Disease' into heavy rotation!"

CRACKER "Get Off This" VIRGIN - 39012

"'Get Off This' is a great radio song with a strong, solid hook!"

Phil Marlowe, WCCC

Cracker's "Get Off This" is the second Homer! from its now-Gold Kerosene Hat CD. This week at Rock Radio, the song gains 18 adds and seven rotation bumps, thereby moving 37-32* up the Power Cuts chart.

KIOZ (into heavy) and KISS lead the list of new supporters for "Get Off This," while KKNB and KSEZ head up a formidable list of outlets reporting a minimum of 21 PPWs this week.

Waxing philosophical, WKZQ's Darren Taylor says, "I like the way this song describes things. Perhaps, if people would take the words seriously, there would be a little less whining and a little more action!" At WTKX, Strummer simply states, "The phones started ringing immediately!"

On the eve of the release of *The Division Bell*, The Album Network presented the exclusive World Premiere radio broadcast of the album from Miami, Florida. Hosted by Redbeard, and airing live from the site of the opening show of Pink Floyd's first tour in six years, this broadcast included the only interview that David Gilmour, Nick Mason and Rick Wright have done for their new album, the 12th such collection in Pink Floyd's career.

The conversations that Redbeard had with each of the members of Pink Floyd were far more detailed and in-depth than could be shared with the listeners of our 250-strong network of participating stations that night, so for the next four weeks, The Album Network is proud and pleased to bring you the opportunity to delve deeper into Pink Floyd's *The Division Bell*, as told by the people who created it.

In this first installment, Redbeard goes one-on-one with guitarist, vocalist and co-producer David Gilmour.

How was the writing and recording of The Division Bell different from the way the band created the last five studio albums?

"Well, in the last few years, we've been through a lot of ups and downs and splits: Rick left and rejoined, Roger left, and didn't rejoin. Animals was more an album where Roger and I were taking command of it, and it was becoming more down to things that were written at home by people. The Wall was even more so, and the Momentary Lapse Of Reason album wasn't a terribly cooperative event.

"And this album, I would say for the first time since, maybe, Wish You Were Here, is more a joint effort. We started off by going into Nick's studio in London, in January 93, with myself, Nick and Rick, and Guy [Pratt], the bass player from our last tour, and we jammed away for two weeks, just playing anything we had in our heads or we made up on the spot. Then we took all that over to Astoria (Editor's Note: Astoria is Gilmour's floating studio, contained within a houseboat on the River Thames in London) and started listening to all the tapes and working stuff out, and we found we had 65 pieces of music.

"Then we had a couple of sessions that we called 'the big listen,' where we listened to all 65, and all the people involved voted on each piece of music as to how popular it was with them. Then we dumped 40 of them and worked on the Top 25, which became the Top 27 because a couple more got added. So the process went on from there, and in the end, we were left with 11 on the album."

On "Keep Talking," whose is that voice?

"It's the voice of Steven Hawking, who is the professor that wrote a hugely popular book called 'A Brief History Of Time.' He's suffering from [Lou Gehrig's disease], and he's in a wheelchair and can't speak. And this is a voice synthesizer/computer thing that has been built for him. I think he can only move one finger a tiny, tiny little bit. And he works in all of that.

"I saw an advert on the television in England for a telephone company, and his voice was on this advertisement. This advertisement nearly made me weep; I'd never had that happen with a commercial on the television. This was the most powerful piece of television advertising that I had ever seen. And, I thought it was fascinating, so I contacted the company that made it and asked if I could borrow the voice track from it, which I did. I applied it to one of the pieces of music we already had and I fiddled around with it for months, until it started making sense.

"The music was written before. And then I got this voice-over and played with that, and put it in. It's a long speech; we didn't use very much of it in the end. And nothing seemed to quite work. It all started sounding very pretentious, [but] then I had an idea for having a voice and answer type thing, and just using that to sort of punctuate it a bit."

As far as I'm concerned, this is not relative, but if you just want to do this type of an in-depth interview once I've got to ask you: There were some rumors that Roger Waters would be involved in this album, or this tour. I knew it was balderdash, but people are still saying that some very highly-placed, inside people were propagating that information. So, following the incredible success of A Momentary Lapse Of Reason, and the tour, did you extend an olive branch to Roger, in any professional form?

"A very short answer: No. There has been no approach or contact. Anyone that reports to know anything from the inside is talking rubbish. We haven't discussed it. There's absolutely no likelihood of that happening, at all.

"A lot of very good work came out of our time together. Roger wrote a lot of very, very good words. It's understandable that people would sort of have an affection for some possibility [of us] going back to the heyday, if you like, of our career, but it is irrelevant to me."

The title, *The Division Bell*, was one of the last things we heard about this project. Did it actually come late or was it something that you just kept under your hat?

"Late, late. I think the last thing we did was get the damn title. We took ages. It comes from a line in 'High Hopes.'"

What is a "division bell"?

"A division bell is a bell that rings in Westminster, in the houses in Parliament, and it also rings in the apartments of many of the members of Parliament to summon them to go to the House Of Commons, and to divide into 'yeas' and 'nays' - to vote on the issues. Because often in debates in the houses of Parliament, the members are not necessarily all there; some of them have already made up their minds, or are just going to follow the party line, so they may be sitting at home. And they get to the point where, when they finish debating, they ring this bell and everyone that's in the area comes down to vote. It's a division bell...it divides the 'yeses' from the 'nos.'

"And you can take it for all sorts of other meanings about division, about leaving things behind, moving on."

If one of your goals is to create an environment for the listener, you've succeeded remarkably. How do you do that? Where do you start, what are you trying to create? That's kind of magic, really.

"Well, that's what we're trying to create, simply: Magic. It's as simple as that. [We're] trying to move people, to move their hearts. I've already had vast amounts of enjoyment out of this record myself. I've sat at home, late at night, and listened through in all the stages it's been through, and I really got off myself.

"And then you just keep honing away at it, trying to make them better, make them have more poignancy, if you like, more heart. And you can only hope that when you deliver it, the pleasure you've had will be shared by other people. I know nothing pleases everyone, but there will be people who will listen to this and derive the same sort of pleasure out of it that I have. And that makes me feel very good about this particular record."

Quyeau hippies Dead-head wannabes. swallowers."

Blind Melon has been called it all.

Actually, the sword-swallowing comment refers to a falsity in an article detailing how Blind Melon signed their record deal with Capitol in 1991; guitarist Rogers Stevens prefers to think of the piece in question as "wonderful and creative" storytelling. Stevens lets us know how he feels about all this by quoting Henry Rollins: "People who don't do shit sit around and criticize people who do shit."

Further reports of the facts will relate how, after convening in the City Of Angels for all of five months, the band recorded a four-song demo and became the subject of a bidding war, eventually deciding on the former home of The Beatles.

Their self-titled album was released in September, 1992, but even before its debut, the band had appeared on MTV's high profile national "120 Minutes" tour; thus, much was expected of the Midwest transplants. However, the first single, "Tones Of Home," garnered little more than an apathetic lack of acceptance at radio. The second cut, "I Wonder," equally flopped.

At this juncture, most bands and labels would be ready to give up and send the A&R guy to unemployment. But not in this case. Instead, all parties involved went back to the video board and cut a clip for 5"No Rain," a happy little ditty about the girlfriend of one of the band members. This video featured the now infamous "bee girl," who has gotten as much - if not more - press as the band. "I think people have made something up in their heads, that we have animosity towards the 'bee girl," says Stevens, "I picked up 'The Globe' a week ago, and they were talking about how we had disowned her. I think it's kind of amusing." Curious "bee girl" ripple effect: "Tones Of Home" was re-released in late 93; this time it was an undeniable hit.

Flash forward to April, 1994: Lead singer and king of silly antics, Shannon Hoon, has reportedly retired (for now) to Chicago and guitarist Christopher Thorn has grunged his way back to Seattle, while the remaining band members, bassist Brad Smith, drummer Glen Graham and guitarist/current interview subject Stevens have Mardi Gras'd themselves to an area just outside New Orleans' French Quarter.

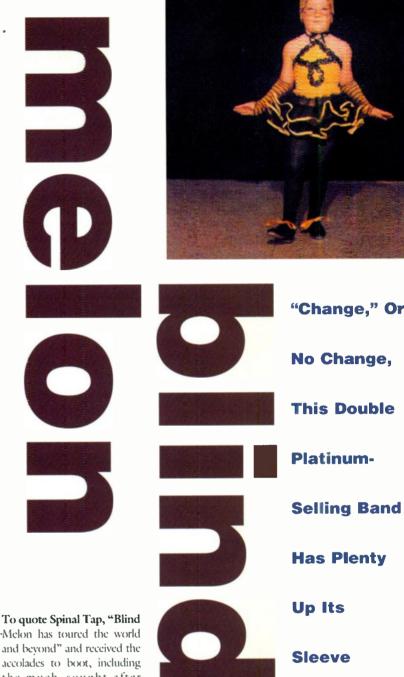

Much has happened to the band since they wrote "Tones Of Home," a song of disillusionment about their move to IA and subsequent departure to North Carolina: They have toured with Guns N' Roses, Neil Young and Soundgarden, amongst others; they made the cover of a "little-known" rock mag called "Rolling Stone"; they sold almost two million records. Blind Melon has also seemingly appeared in every other publication, from Burbank to Timbuktu. Stevens tells me that, before the "bee girl" video, "We were thinking 'Okay, we should wind this down and go record our second album." It wasn't to be, however, 'cause of a little redheaded girl: "I always knew that if MTV played our video, people would buy it," says Stevens. "Because the fact is, your face and sound have been put out to the masses."

Musing about the past two years, Rogers says, "I'm just now getting time to reflect on it; it has been very hectic and blurry. I drank a lot and smoked a lot of pot, so I don't have a lot of memories." Lately, Stevens has been busy setting up a home recording studio in New Orleans and admits that every penny he earned recently has been spent on such endeavors. "I haven't gone out and bought any extravagant gifts, or a Cadillac for my Dad," he says. "I still have nothing, basically."

Apart from the change of location (Rogers was reared in West Point, Mississippi, and moved to Los Angeles when he joined Blind Melon, before relocating to New Orleans), he's also shaved his hair; a result, he says, of finding a mat of hair in his omelette and waking up to find a clump of, er, "hurl," in his hair (hope it didn't happen during the same morning). Change apparently is a theme for Stevens, because, while he likes New Orleans at the moment, he's contemplating a move to Manhattan a polar opposite to his current home. He's also considering a return to college, and lest we forget, a song called "Change" is currently moving up the Power Cuts chart.

As pastimes, Stevens cites smoking pot and drinking among his favorites, and no amount of success, it seems, is about to alter that. Over the phone, it's hard to detect the effects of such habits, but his sentences are constantly punctuated by such utterances as "you know," "I mean," "mmm," "eh," "well," "huh" and "yeah, well."

"Well, mmm, I can't really say that I'm, eh, like, changing that much from, like, on the road; I've always smoked pot, eh, drank and done whatever was put in front of my face," he concedes, adding that he never lets it get out of hand. Stevens also appears to be quite the diplomat - his father is a lawyer - as he balances most of his opinions and statements with views from the opposite side. For instance, discussing the band's well-publicized disillusionment with Los Angeles, Stevens says he was disappointed with much that he discovered here, but then counters, "Jane's Addiction changed the way I thought about music," citing other LA bands Tool and Rage Against The Machine as favorites.

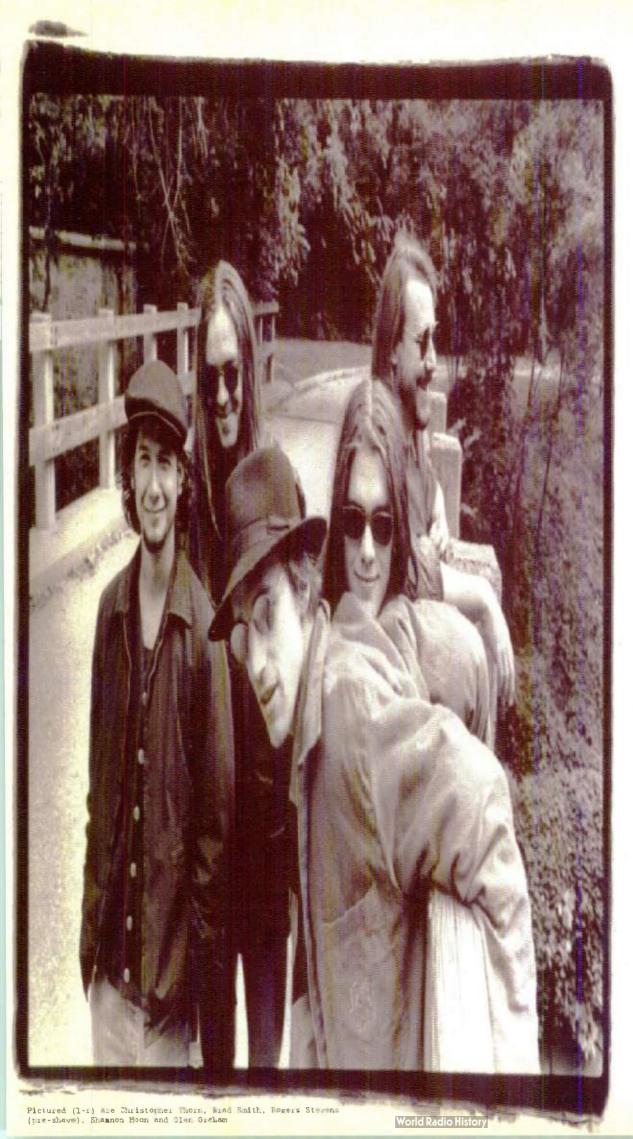

Melon has toured the world and beyond" and received the accolades to boot, including the much sought-after "Rolling Stone" cover. "I don't really place a lot of stock in things like that, but I was

pretty disappointed with the end result," Stevens tells me. "The issue was coming out on Halloween so we did a take-off of The Beatles photo (with clothes on) where they dismembered all the baby dolls. We had a little 'bee girl,' and we dismembered her with machetes and axes. We had blood all over us and we thought, 'Hey, that's perfect.' The naked portrait was my last choice."

In the midst of their two years of touring, Blind Melon managed to record an EP's worth of material in various hotel rooms that Stevens says will have a certain "garagy, bathroom quality"; it's due in August. A video and a "couple of shows" may accompany its release before the band settles down to work on the next full album.

With the technology of the information superhighway available to them, Blind Melon plans to rehearse from their separate locales - possibly a result of spending twoyears together on a bus - before reuniting under the same roof to record; hopefully, they'll have a new album after Christmas. Stevens hopes the next record will be more aggressive-sounding, with the melodies and arrangements more developed and more lyrically precise. Could this be a conscious attempt to shake the Grateful Dead comparison? "I think that because of 'No Rain,' we've been perceived as [part of] some kind of a 'nouveau hippy' movement, which I'm not really interested in," he explains, "I don't think any of us are. I'm more into Black Sabbath...I never liked the Dead," If they can convince Mario Cadatto (Beastie Boys, Mother Tongue) to do it, Blind Melon will enlist him to produce this time.

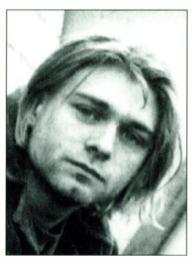

For all of Blind Melon's care-free artitude, large-scale success seems to have made Stevens unsure as to his band's stature amongst other musicians. He says that playing one show with punk band Fugazi would be a thrill, but adds, "With us being the corporate rock whores that we are, they would probably laugh in my face for even mentioning it." For the same reasons, Rogers admits to having had reservations about going out with Alice Donut and the Meat Puppets, bands he admires and respects. "I didn't know what to expect. Those bands [might have] thought we were ridiculous. But we became friends. Maybe secretly, they do [think we're ridiculous]."

Because of the widespread success of their debut CD, it will be a difficult task to reach the same level with its follow up. This fact doesn't seem to bother Rogers. "Success is such a fickle thing. We might be the band that had the 'bee girl' video, but I feel fortunate to have done this so far. I certainly won't be walking around complaining about how horrible my life is, but I think we're going to make a great second record and people are going to like it...and maybe they won't."

"Success is such a fickle thing.
We might be the band that had the
'bee girl' video, but I feel
fortunate to have done this so far.

Kurt Cobain 1967 - 1994

One of rock's most important new voices was silenced last week with the suicide of Nirvana frontman Kurt Cobain. Cobain's body was discovered by an electrician on Friday morning, April 8, in a room above the garage of the singer's home, the victim of a self-inflicted shotgun wound to the head. He was 27 years old.

Widely hailed as a spokesman for an entire generation of disenfranchised youth, a title he despised, Cobain's struggles with the trappings of his newfound fame proved to be too much for the emotionally anguished singer/songwriter, who wrote in his final note, "Sometimes I feel as though I should have a punch-in timeclock before I walk out on stage. I've tried everything within my power to appreciate it and I do, God believe me I do, but it's not enough."

"I.A Times" pop music critic Robert Hilburn wrote that, despite official reports to the contrary, Cobain's March 4 overdose and subsequent coma in Rome was, "in fact, another suicide attempt - complete with a note," according to sources close to the situation who asked not to be identified.

The incident led Cobain's wife, Courtney Love, along with Kurt's band mates, family and friends, to try to convince Cobain to enter a treatment program for drugs and depression, but he resisted their efforts, according to the "Times." "It was a classic case of denial," said one of the sources. "Classic and terribly sad." Sources added that Cobain's use of drugs, including low-level opiates or tranquilizers, and, at times, heroin, was an attempt to block out depression and recurring, severe stomach pains which had plagued the singer for years.

On March 18, police were summoned by a frantic Courtney Love to the couple's home in Seattle, where Cobain had reportedly locked himself in a room with three pistols, a rifle and 25 boxes of ammunition. Love feared suicide, but Cobain told investigators it was the result of an argument between the two. The police confiscated the weapons and no arrest was made.

Love left Cobain to head to LA to wrap up the final details of the release of Hole's latest album, prophetically titled *Live Through This*. According to the "Times," Love finally convinced Cobain to join her in LA and seek help at local treatment/recovery program on March 28. Three days later, he "jumped the fence," says Love, and returned to Seattle. The family's quest to find the singer during his week-long disappearance ended with the discovery of Cobain's body on Friday morning.

A moving candlelight memorial service was held in Seattle on the Sunday following Cobain's death. Over 5,000 mourners gathered together in a grass roots ceremony arranged by local stations KISW, KNDD and KXRX, which was punctuated by Courtney Love's taped message to the crowd. Alternating between heart-wrenching sobs of despair and bitterness, she read from Kurt's suicide note (a transcript of which begins on page 48).

Family and friends attended a private memorial service at a nearby church on Sunday evening. Love shared anecdotes about Cobain's life, and read from the note, which she termed "very narcissistic, very Kurt-like." She described the note as long and rambling, and said he wrote of his concern for their child, "who reminds me too much of myself."

"We are all devastated by the unbelievable tragedy of Kurt Cobain's death," says Geffen/DGC President Ed Rosenblatt. "The world has lost a great artist and we've lost a great friend - it leaves a huge void in our hearts. Obviously, Kurt will be missed by us all."

Nirvana's management company, Gold Mountain Entertainment, issued the following statement: "We are deeply saddened by the loss of such a talented artist, close friend, loving husband and father. The intensity and creativity of Kurt's music and his thoughts will always be treasured. Kurt's art has transcended beyond the popular to speak to millions around the world. Painfully, Kurt's passions and feelings about his fame overwhelmed him. We will miss him, his music and his friendship deeply."

A weary Steve Young, PD of KISW/Seattle, who had been dealing with the suicide and the task of disseminating information to scores of other radio stations across the nation for five straight days at the time of this writing, states, "I think everybody's done the best they can under the circumstances, and in reality, life does go on."

As a business, we all benefitted from Kurt's talent. As fans of his music, we'll never know what could have been. As "Rolling Stone" writer Robert Fricke said during a tribute on MTV, "He was the closest his generation came to a John Lennon. If you don't see the connection, you're missing something."

Cobain is survived by his wife, Courtney Love, and his 20 month old daughter, Frances Bean.

Elliot Claims Manager/Programming & Promotions Title At New York's WAXQ

Bob Elliot, who has served as programmer of New York RAWker WAXQ since its debut, officially accepts the programming and promotions reins at the station, as he becomes Manager/Programming & Promotions. Elliot will continue his independent consulting business in association with Joint Communications, moving his business from Atlanta to the Big Apple.

Regarding the appointment, WAXQ President/GM Randy Bongarten tells Album Network, "Bob has been instrumental in defining and executing the sound of Q 104.3. His contributions to the station's rapid growth and immediate success are immeasurable. All of us at the station are pleased we will have the opportunity to continue to work with Bob."

"This is really, really exciting for me," enthuses Elliot. "To be in a station that's this active in the biggest city in the country is something that doesn't happen often! We're building a tremendous staff here, and it's a once in a lifetime deal. Randy Bongarten is one of the few GMs who is an absolute strategic thinker; there are very few people of his caliber, and it's a real joy to be able to work with somebody in that respect."

Elliot has worked with Joint Communications since 1988. Prior to that, he was a partner in the programming consulting firm of Burkhart, Abrams, Douglas and Elliot, which he had joined in 1980. He has held several on-air and PD posts since his radio career began in 1969.

Beaubien Bounds To KLOL As PD

K LOL/Houston GM Pat Fant ends his search for a PD (following the

departure of Ted Edwards), as he brings aboard Andy Beaubien. Beaubien will assume his new programming duties on April 25.

"The big key to Andy being the successful candidate for this highly coveted job is the fact that both he and his wife have the proper frame of mind to appreciate the natural beauty and the rugged personality of our exceptional city," expounds Fant. "We have really needed someone who wants to become part of this community, and Andy lived here before...he likes it, and I'm tired of losing PDs to the east and west coasts!"

"Programming 101 has been a goal of mine for a long time," states Beaubien. "KLOL is, for me, a destination, not a stepping stone to some other job. As a former Houston PD, I am very familiar with 101's history, and I feel honored to be a part of it."

Beaubien joins from his PD post at Tucson oldies station KWFM. His previous PD gigs include WCXR-WCPT/Washington, DC, KNX-FM/Los Angeles, KSRR/Houston and WCOZ/Boston.

Gabriel Now VP/GM Of TriStar Music; Palmer Takes The Reins At Relativity Records

TriStar Music Group President Bob Buziak ups Howie Gabriel to VP/GM at TriStar Music. Additionally, Relativity Records Executive VP/GM Harry Palmer is given the helm of the label, which is a newly acquired TriStar Music Group company, where he will oversee the day to day operations of the record company.

"Howard's range of talents are perfectly matched to his new role," offers Buziak. "He has headed TriStar Music's sales and marketing efforts since the company's inception, and he enjoys a long-term working relationship with Relativity, having been an integral part of its emergence as one of today's premier artist development companies. Howard's ability to react quickly and precisely to the needs of artists and the marketplace will serve TriStar Music well."

Regarding Palmer, Buziak states, "Harry Palmer is one of the most skilled and respected executives in our industry. He has been key in the development of the Relativity label culture, where a cutting-edge roster of alternative rock and hip-hop artists has flourished. I'm confident Harry's creative and executive skills will contribute to Relativity's and TriStar Music Group's stature."

Gabriel has served as VP/Sales & Marketing for TriStar since July of last year. Previously, he was Executive VP/GM of Continuum Records. Palmer has held his current title since January of last year. He joined Relativity from Atco, where he served first as GM and then as President.

Lyons To Lead Giant's Rock Promo Efforts

Giant Marketing & Promotion Head John Brodey nabs the talents of Barry Lyons, bringing the promo vet to the label to head the Rock Promotion department.

"It's not often that you get lucky enough to get somebody in who has the wealth of experience Barry does, plus the relationships and that funny personality of his," remarks Brodey. "We're looking forward to him arriving in time to really have some serious impact on some of the very promising releases we have coming up."

Lyons offers, "With the quality and variety of music Giant has in the pipeline, plus a top-notch staff of veterans and Irving Azoff's Raiders tickets, I don't see how anything can stop us!"

Lyons most recently served as VP/Promotion at Chameleon. Previously, he spent six years in a similar post at IRS.

RCA Creates "Rock Department"

RCA has restructured its promotion department, creating a new division known as the Rock Department. Headed by VP/Rock Promotion Dave Loncao, the label has beefed up its rock promotion staff, including the appointment of ERG's Lisa Worden as Rock Department Manager, National Alternative Promotion/West Coast. Thomas Westfall, formerly Associate Director/National Alternative Promotion, assumes the title of Rock Department Director/Alternative Promotion. He will remain based in New York.

Manager/National College Promotion Nick Bull becomes Rock Department Manager/National College & Progressive Adult Promotion, while Jordan Zucker's new title is now Rock Department Director/ National Promotion. All four staffers report directly to Loncao.

Regarding the new division, Loncao says, "As RCA President Joe Galante's commitment to rock music continues to bring us great projects that are either presently on the table or are being prepared for the table,

Prendergast Now VP/International At Zoo

Zoo President Lou Maglia ups National Director/Artist Development Stephen Prendergast to VP/International.

"Steve's commitment to Zoo has been invaluable," declares Maglia. "His knowledge of the International marketplace has assisted us in breaking Green Jelly, Tool and Matthew Sweet in territories across the globe, as well as introducing some exciting new talent to the label."

"To have Lou's commitment to the International marketplace excites me," offers Prendergast. "Zoo's roster has never reflected a deeper pool of musical talent in all genres, and I'm looking forward to working with BMG International across the globe to further develop it."

Prendergast joined Zoo in 1993, leaving the successful Head Office Management, an artist management firm based in Toronto and LA.

KLSX Gets Downes

Los Angeles classic rocker KLSX scores veteran Southern California air talent Steve Downes as its new afternoon drive personality. Downes, formerly with KLOS and currently the voice of Rockline, will tackle the 3-8pm timeslot, following recentlynamed middayer Cynthia Fox.

Legendary KLSX 6-10pm evening personality Jim Ladd will now be on 8pm-midnight, while interim afternoon host Beau Rials returns to his duties hosting local breaks during "The Howard Stern Show." Interim morning show host Jeff Gonzer continues his weekend duties, and late night host Dusty Street exits the station to pursue other opportunities.

his shingle with the formation of Stay Tuned Communications, a full-service consulting firm focusing on marketing,

promotion and management, as well as the active pursuit of bringing the applications of the burgeoning interactive multimedia field to the music industry.

Regarding his new venture, Faraci tells Album Network, "Due to the expanding amount of new releases each month - both domestically and internationally - the need is more pronounced than ever for the special attention and care that are required to nurture and establish the artist's career at any stage of development."

Most recently, Faraci was Executive VP for Third Stone/Atlantic Records. Stay Tuned Communications can be reached at (212) 551-1426. Fax: (212) 697-8486. Address: 237 Park Ave., 21st Floor, New York, NY 10017.

Jacor Gets "The Point" Across

Cincinnati-based Jacor Broadcasting unfurled its latest banner, with the announcement of the programming transformation of its latest acquisition, WIMJ-FM. The former A/C outlet will now be known as "The Point," and it will feature Cincinnati's favorite "Rock N' Roll Oldies."

WEBN APD Tony Tolliver assumes the PD duties for the new station, and comments, "A lot of people don't want to hear Bobby Vinton bubble gum oldies on WGRR. And they have trouble with WOFX's 'classic' rock format because they rock too hard and play the same stale songs over and over, leaving out a lot of terrific rock n' roll oldies. 'The Point' is going to make these people very happy!"

Mercury VP/Rock Promotion Drew Murray brings Brian McEvoy on board as Metal Promotion Manager. McEvoy will be based in New York.

Rock 'N Charity Gears Up For 94 Festivities!

Mark your calendar! The annual T.I. Martell Foundation/Neil Bogart Memorial Fund Rock N' Charity Week rolls into LA August 15-20. The week will include the Rock'em & Rack'em Billiards Tourney, the world famous Rock 'N Bowl and Silent Auction Cocktail Party, the Celebrity Golf Tournament, and the Hard Rock Cafe blast. This year, Rock N' Charity goers will be treated to a ZZ Top concert, where the band members will receive the Heart of Music Award in recognition of their generous support of the foundation.

The Third Annual Celebrity Rock 'N The Puck hockey game, hosted by LA Kings great Luc Robitaille, will be held one week later, on Saturday, August 27, at the Great Western Forum.

To participate, or for info on available sponsorships, please contact Scott Weinstein at (818) 883-7719.

"Hans Christian Andersen's Thumbelina" opened in theaters March 30 and was among the nation's Top 10 grossing pictures in that first week of release.

President/CEO of ERG Daniel Glass comments, "Barry Manilow has accomplished so very much that writing a truly magical film score was one of the few remaining artistic challenges to be added to his incredible resume. It has been an honor for us to work with such a talented soul on this project."

■ Blockbuster Music Streamlines Operations

Blockbuster Music will make some

big changes in their distribution in the near future, beginning with the closing of their Atlanta distribution center this fall. Coinciding with this move, Blockbuster will open a new center in Dallas in May, which will complete the division of the chain into just two US zones, based in Dallas and Atlanta (they will maintain offices in Atlanta).

Also on the horizon for Block-buster is the implementation of a much-talked about, uniform computer system to bring all areas of the rapidly growing chain in line, enabling them to have much more inventory control. These combined steps will help to bring the many varied aspects of the chain together after their many acquisitions (including Super Club in Atlanta).

of its new hard RAWkin' format. Listeners were treated to a half an hour of heavy breathing and moans on Monday morning, before the station climaxed into an AC/DC A to Z countdown to signal the debut of the new format and call letters, WROC. At the PD helm is crosstown classic rocker WIBX PD Dick Tyler (the station's an LMA partner with WROC), while Hurricane Shane signs on as APD/PM driver. Former WXTB air talent Rocko joins for mornings, Kerri Hunter tackles middays, and Doc Holiday joins for evenings.

■ Record Company Noise

Look for former Mercury Senior VP/GM Larry Stessel to resurface at ERG in a similar post. Linda Ingrisano rises to VP/Visual Marketing at Capitol, and Mitch Brody claims the Manager/A&R title at MCA. Capricorn concludes its threeyear joint venture with Warner Bros. and teams up with Relativity Entertainment Distribution. Madelyn Scarpulla joins Arista as Mainstream Marketing Manager, and Glen Heidenreich steps to National Advertising Coordinator at Warner Bros. Emily Cagan snags the Marketing Coordinator title at Rhino and Brett Greene joins IRS as Rocky Mountain/Southwestern Regional Promotion Manager. Angee Jenkins climbs to National Director/Publicity at MCA, and A&M Director/ Alternative Sales & Marketing Dave Sparks exits the label to open 'Interact! A CD-ROM Store' in Old Town Pasadena. Good luck, Sparky!

In a refocusing effort to "further enhance and support its artist development efforts in the urban marketplace," Zoo Entertainment has dismantled its urban promotions department. All promo activities will be quarterbacked by VP/Promotion Bill Pfordresher. "We will be focusing on alternative urban music artist development that creates a synergy with our entire Zoo roster, and will allow us to build from the street up," comments label President Lou Maglia.

Reflecting Reality:

On April 18, we will close the lid on heavy, medium and light reports and open a new door with the nstitution of Plays Per Weak reporting.

In the previous weeks, we went to both radio programmers and their record company counterparts and asked them to voice their opinions on our upcoming switch to Plays Per Week reporting. This week, it's the independent promotion firms' turn to share how this chart methodology will affect their daily business and its future mpact on the music industry, by answering the following two questions:

Play

#1: How will PPW reporting affect the indie business and your style of promoting records?

#2:How will PPWs affect indie promoters' relationships with record companies?

Bill McGathy - McGathy **Promotions**

#1 & 2: For independent firms, whose relationships with radio and record companies are based on truth, honesty, passion for the music, marketing strategies and follow through, nothing will change, except maybe the amount of the bucks

will finally be commensurate with the bang delivered.

promotion, MTV, retail and press, we will further the career of the up n' coming new artist on the horizon.

Even though there are mixed reviews on the economy - lower concert attendance, declining record sales and downsizing - my personal experience is I see a resurgence in this industry. For example, the vast amount of new music being exposed at radio, and the positive reception the public is giving to these artists; this is an exciting time, and I'm glad to be part of it.

difference in the amount of spins it actually gets from station to station. When you're talking about Plays Per Week, everybody is equal. I have, and always will, continue to work records just based on trying to get as much exposure and airplay for records as I can. I'm not into phony reports; airplay is all that really matters. Bullshit reports don't do any of us any

Somebody's light-medium-heavy may not be the

same number of plays as somebody else's, so if

someone says it's in heavy, it can mean a big

Marko Babineau, MJB **Promotions**

#1: First of all, BDS has been in effect at most labels for the last several months. Now that PPW is being fully implemented into the Network structure, we're on the road to more specific, accurate charting. Every station has had different experiences

regarding spins and light-medium-heavy rotations. As an industry, we will create more clarity about actual, precise spins. But beware - plays could vary due to the respective station's special programming in any given week. In essence, we still have to read into our records' real success, as opposed to just relying on spins. The result: We should be able to see real, active markets. Spiking airplay, which increases Plays Per Week, should create a direct correlation to sales, and also, an improved and closer relationship to our retail buddies, and that's a apod thing.

#2: If anything, it will bring record companies closer to the day to day workings of the independent network. I can only speak for myself, but MJB Promotions will continue to be of service to the record community. Through longterm relationships with station personnel, be it owner, GM, PD, APD, MD or jocks, we create information that transcends into airplay. By spiking records up the charts, in conjunction with various support systems, such as Lee Arnold - Lee Arnold Marketing

#1: Coming from years of radio programming, I've always believed in putting records on the radio that will generate real audience reaction, which translates into real rotation increases. I'd never been much of a believer in the Monty Hall school of promotion, because it

doesn't help create bona fide success stories. Plays Per Week reporting can only reward the promotion people who get real airplay on the radio, and penalize those promo guys who've gotten by for years getting adds without real airplay.

#2: Plays Per Week will make it more necessary for record companies to use those indies that actually can help generate radio play, not just adds. I personally welcome this change, and look forward to radio and record relations based on a common interest in breaking artists with real airplay, while playing records that help generate real audience interest and ratings.

Al Moss - Al Moss Promotion

#1: I don't know that PPWs will necessarily affect it. I work records to get them played anyway, not to get reports. I like the PPW idea, because it's reality and it's equality.

#2: I haven't really given it much thought. I don't deal with political situations as much as just the reality of getting records on the air. I can't imagine doing anything different or thinking of it any differently than

Lenny Bronstein - Heavy Lenny **Promotions**

#1: For me, Plays Per Week was always the goal anyway. Even though we called it lightmedium-heavy, we all fought for increased number of spins, since every station had a different formula. I think it's going to be an inexact science

for a while. If anything, we're all going to impose our opinions, our relationships and everything else we use as professionals to convince other professionals that it's worth a couple of additional slots during the busy week. Fortunately, it'll weed out some of the ol' 'you scratch my back, I'll scratch your back' favor adds. The goal, which is what I've preached for 24 years, is, don't add it if you don't intend on playing it!

The honesty and integrity of reporting now has accurate reinforcement and confirmation, and that is something everyone welcomes, and everyone has ultimately fought for, and it will make it easier for many programmers. The many valiant attempts from the different tipsheets, from Monday Morning Replay to BDS, have all pushed this into the next century, in terms of how we look at records, how we work

Per Week

records, how radio spins records and what their ultimate meaning is in the marketplace.

#2: I'm not sure that any of us know yet what the labels are going to demand, or if they're going to restructure any of their requirements, but as of right now, I don't think any label can force the issue by guaranteeing any of their local people can increase actual number of spins. The goal is, as it always has been, to make hit artists, not just hit songs. Hopefully, as I've preached for the last decade, we will not use the 80s as an example of a decade where we did not build a catalog of artists and longterm classics. Now we'll finally find out how many spins records really get over their lifetime, and not during the weeks that have been designated as chart weeks for the limited number of slots we've been given.

Bruce Moser - Could Be Wild

#1: I don't think it will change it at all. The bottom line is for us to get records played, and the more they're played, the more they sell and the better it is for business. I think it will highlight stations that are really rotating records, like WMMS, WAAF

and WAXQ, for example. Their heavies are eight times a day, where eight times a week is considered a heavy on other stations. It takes away from stations doing paper adds and adding records in lunar rotation.

#2: With Top 40 stations, [the labels] pay for rotations, where AOR has always been paying for projects. It probably won't affect the way that record companies hire independents or pay independents...we're still getting paid a flat rate for working a project, and I don't think Plays Per Week will really affect their payment plan to us.

Michael "Van-O" Van Orsdale -Midwest Music Alliance

#1: At this point, it's really not known if it's going to affect how I work a record. The only thing it's really going to provide is a very concise, honest, no-bull-shit way of looking at how a record is or isn't doing. It's going to give me something else to quote, but I'm not selling a

record on the basis of station A playing it four times a day, and station C playing it six times a day. Plays Per Week information will lend credibility to how a song is doing in other markets, but it won't make any difference in the way I try to sell a song; I try to sell the concept of it, as opposed to how many plays per day it's getting.

#2: The jury is still out. In conversations I've had with labels, they've felt that somewhere down the road, with no real time table given, perhaps there may be a change in how we do business...would we get paid per so many spins? Sometimes, there are little bonuses for a light to medium move or a medium to heavy move. Will there now be the same thing for a record going from four plays a week to six plays a week? It's unknown yet. Maybe labels will pay us in the same way the Top 40 departments are paying the Top 40 indies. Maybe from here on in they'll bill us per station. Maybe we won't ever do that...there's a zillion questions floating around, and no one really knows where it's going. I think most people right now on the label side are trying to figure out exactly how this thing works, and I think somebody's trying to figure out what the hell R&R is doing and how to read their chart! What, do I have to go school for this? I don't understand what it is about R&R...am I supposed to be taking math courses now at night so that I can bone up on how to figure out what percentage of what is happening when/why/where? Do you project your number of spins for three weeks from now? Do you know what you're doing three weeks from now? Will you even be alive?!

Judy Libow - Libow Unlimited Inc.

#1: A Plays Per Week reporting system will not affect what I think is the primary responsibility of any promotion person, and that is, to get the record added. But it will, however, affect the next responsibility of a promotion person, which is to see if the record's a hit. Actual

airplay is the only way to know what is real and what isn't. I'll continue to work records as I always have, with credibility, and with a smile!

#2: I don't think the PPW reporting system will have a major affect on how the record labels work with AOR indies. Obviously, the information will change, because it's going to be much more specific and accurate, but the bottom line will remain the same: Adds are great, but airplay is really what counts.

Kenny Ryback and Calvin Lew - The Promotion Dept.

#1: KR - Airplay and sales are everything. Always were, always will be. Charts - never cared about them, never will. At The Promotion Dept. our directive continues to be 'obtain maximum airplay, period.' Whether

the trades list by number of plays or heavies, the new methodology alters nothing for us, save perception. We are fortunate to have former MRR Rock Representative Deborah Le Vine as part of our team. With the experience of Monday Morning

Replay, the front runners of PPW monitoring, our expert is already in place, and has been for a few years. Just a note/observation: The PPW charts presented by the tipsheets, while a step in the right direction, are still *reported*, not monitored. Therefore, take the new 'reality-based chart' with a grain of salt.

#1: CL - It will be another useful tool in helping programmers understand a song's potential. This and other information will be used in garnering new airplay. The fallible part of PPW reporting is that harder rock/alternative songs that are in restrictive dayparts, that may be highly successful in audience response, will not be reflected in the charts because of the fewer spins they will receive in their restricted dayparts.

Kevin Sutter - McKeon Music Marketing

#1: The beginning element that's most important is getting the record listened to, and then played. Now, Plays Per Week comes in and sets the level of commitment to the play. We're going to have to ask what that commitment is going to translate

into, in terms of Plays Per Week. The focus may be slightly different, but it won't change my presentation. Style is style.

#2: I'm not really sure what the longterm effect is. Remember that the basic reason people hire independents is to support promotional efforts. Occasionally, we're put on projects early on, to determine what their viability is in the marketplace. In a Plays Per Week situation, we may have a record that is in starter's position at several stations, and we'll now be able to measure the development and success of that airplay in more realistic terms than light, medium and heavy.

R KELLY

12-Play

Hvo • 41527

R Kelly's 12-Play has already passed the two million mark in sales, and it currently has three singles at Hit Radio, and has the video for "Bump N' Grind" in Heavy rotation on MTV, The Box and BET! This could explain why 12-Play continues to dominate the Top 10 on the Hottest Sales Nationwide, holding the #7* spot this week.

While the track "Bump N' Grind" is Top 15 at Hit Radio and Top 30 at Urban Radio, the newest cut, "Your Body's Calling," is making moves as well. It slams 49-22* at Urban Radio, while it picks up additional steam heading for the Top 40 at Hit Radio. Over 50% of our retail MarketMakers are reporting sales on 12-Play, with upward moves reported by National Record Mart/Pittsburgh 12-9, Mainstream/Milwaukee 3-1, Coconuts/Cincinnati 43-5 and Abbey Road/Santa Ana 10-5.

CRASH TEST DUMMIES

God Shuffled His Feet

Arista + 16631

As the Crash Test Dummies are knocking 'em dead on their current tour, their album, *God Shuffled His* Feet, continues to sell strongly enough to hold its #8* position on the Hottest Sales Nationwide. The astonishing success of the single, "MMM MMM MMM MMM," is not over yet; it moves 19-18* at Rock Radio and 8-6* at Hit Radio, and the video can be seen on MTV, VH-1 and The Box.

God Shuffled His Feet is currently #14 on both the VIRTU-ALLYALTERNATIVE Radio chart and the Adult Rock Radio chart, while at retail, it holds the #14* position on the In-Store Play chart. Accounts reporting strong sales gains this week include House Of Guitars/Rochester 32-7, Streetside Main/St. Louis 5-3 and Peaches Entertainment/Miami 15-7.

TEVIN CAMPBELL

I'm Ready

Qwest/Warner Bros. • 45388

I'm Ready, Tevin Campbell's Gold album release, jumps 28-27* on the Hottest Sales Nationwide chart, with the help of the title track, which is Top 10 at Hit Radio and #1* at Urban Radio.

I'm Ready picks up 13 new debuts at retail this week. Market-Makers showing significant sales increases include Mainstream/Milwaukee 9-7, Blockbuster Music Plus/Atlanta 14-12 and Campus Records/Columbus 64-24.

Lethal Injection

Priority · 53876

Ice Cube's Platinum album, Lethal Injection, is rolling strong, as the cut "You Know How We Do It" moves 9-8* at Rap Radio.

MTV has the video for "You Know How We Do It" in Heavy rotation, and it is also in rotation on BET. With 17 new debuts this week, Lethal Injection picks up enough sales action to jump 37-36* on the Hottest Sales Nationwide chart. MarketMakers reporting upward sales moves include Poplar Tunes/Memphis 34-13, Michigan Where House/Lansing 36-25 and Kemp Mill/Baltimore 65-49.

RAGE AGAINST THE MACHINE

Rage Against The Machine

Enio - 57056

Rage Against The Machine continues to move strong among the top sellers in retail, with very little airplay and sparse video exposure.

Rage Against The Machine jumps up 63-58* on the Hottest Sales Nationwide chart, picking up 21 debuts. While 25% of sales are still attributed to word-of-mouth buzz, the airplay is having a good impact. Retailers reporting sales increases include Tower/Downtown NYC 62-39, Blockbuster Music Plus/Dallas 73-65 and Insurrection/Reno 54-20.

SAUSAGE

Riddles Are Abound Tonight

Prawn Song/Interscope/TAG • 92361

Primus sucks and now, once again, Les Claypool sucks as a returning, founding member of Sausage, whose new album, *Riddles Are Abound Tonight*, is the first reunion of Sausage members in six years. This release features material that is the result of reworking many of Primus' hits in a funky metal style.

Riddles Are Abound Tonight cooks up 61 sales debuts for Sausage and lands the album at a debut spot of #92* on the Hottest Sales Nationwide chart. The release also scores a debut of #12* on the In-Store Play chart. Retailers reporting sales debuts include Manifest Discs/Greenville

ALI FARKA TOURE WITH RY COODER

Talking Timbuktu

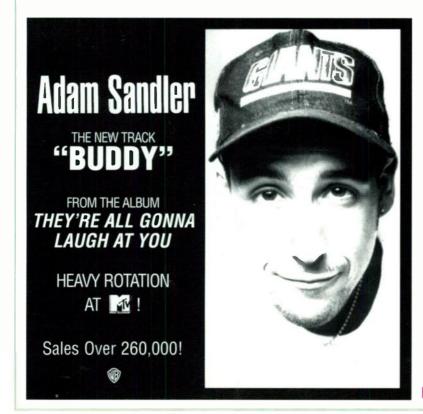

Hannibal/Rykodisc • 138

After both Ali Farka Toure's and Ry Cooder's recent successful solo releases, they have joined together in what seems to be a natural, *Talking Timbuktu*, which brings a taste of the best that world music has to offer to a larger audience.

Talking Timbuktu debuts on the Hottest Sales Nationwide chart at #100*, with in-store play and word-of-mouth buzz accounting for over 60% of sales. Twenty-five MarketMakers report debuts, including Schoolkids/Ann Arbor #10, Waterloo/Austin #15 and HMV 72nd & Lexington/NYC #27. Upward sales moves are reported by Rhino Records/LA 2-1, Plan 9/ Richmond 19-8 and Music Millennium/Portland 52-9.

FIRST TREMORS

It's been 13 years too long, but thank God, War is back doin' the thing they do best - making their own funky style of music. Avenue Records and Rhino will be releasing War's first new album on June 7 (the album has no title, but will be referred to as the PEACE SIGN album), and judging by how often their music has been integrated into today's hip-hop sounds, it should be well received. War will be hitting the road and burning up stages in 50 cities nationally, Rhino will be supporting the release with cool P.O.P. and other goodies, there will be a limited vinyl release one week prior to street date - all this from a group which has sold over 22 million albums. Just to whet your appetite, The Box has added the video for that classic War track, "Low Rider," into rotation.

RAW

resh off the air from my debut show with **Alice Cooper** on **Z-Rock**, Dallas is cloudy but comfortable. And it looks like Alice's Attic is gonna be a blast. We interviewed with CNN this morning - more media kookiness as these exciting two weeks continue. Even though I hadn't been in front of a mike since last October, it was like riding a bike. "You're great!" said **Lee Abrams**, the mastermind behind this mayhem. Just hanging with **Alice**, playing new, cool tunes and having fun on the air again makes this trip more than worthwhile - to say nothing of dinner with **Shep** at a different amazing

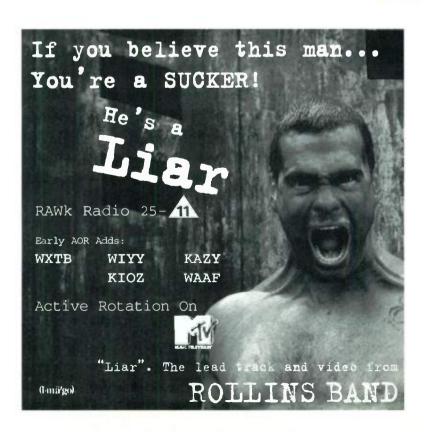

restaurant every night. I'm not worthy!

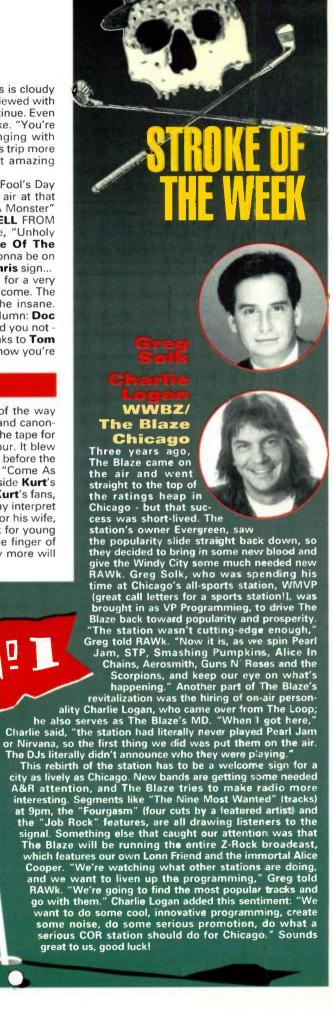

Kudos to Kevin Weatherly for his brilliant KROQ/Pirate Radio April Fool's Day prank. Genius! But Kev, why didn't you call me? I spent 18 months on the air at that zoo! I'd have done my show for free for ya!...Cheap Trick's "Woke Up With A Monster" sounds like a monster to me. Whaddya think?...Did ya notice "CHRIS CORNELL FROM SOUNDGARDEN" plastered prominently across the new Alice Cooper single, "Unholy War"? That couldn't be some kind of Epic payback to A&M for the Temple Of The Dog/Pearl Jam thing, could it?...Speaking of Soundgarden, I noticed they're gonna be on "Rockline" April 25. Wonder how many guitars Howie Gillman's gonna have Chris sign...

I'm in possession of the new **Stone Temple Pilots** tape. It's a gigantic step forward for a very talented band and it serves notice that these boys are gonna be rockin' for a long time to come. The tracks go fucking everywhere, from the heavy to the folksy, from the articulate to the insane. Another keen A&R job by Atlantic's **Tom Carolan**...One wild result of my April Fool's column: **Doc** and **Scott McGhee** have changed the name of their Geffen-financed record label to - I kid you not Divot Records. **David Berman** promises me a finder's fee. I'm holding my breath....Thanks to **Tom Whalley** for the best tourny ever; when you lose by one stroke to **Scott McGhee** you know you're playing good golf. My runner up trophy is gorgeous....

FRIEND TO ALL

All right, I haven't been avoiding the topic, but I thought I'd get the business out of the way before I briefly, but delicately, address the tragic death of **Kurt Cobain**. No one "got" and canonized **Nirvana**'s *Nevermind* earlier or stronger than this reporter. **Kirk Hammett** played the tape for me in July of 1991, when I was in Europe with **Metallica** on the "Monsters Of Rock" tour. It blew through my ears and mind like a tornado. Unfortunately, outside of a lunch with the band before the record came out (which **Kurt** later remembered unpleasantly in the band's biography, "Come As You Are"), I never got to know the members of **Nirvana**. I cannot fathom the demons inside **Kurt**'s head or what could possibly drive a man to an act of such final desperation. I'm sick for **Kurt**'s fans, the impressionable youth of America who saw him as a role model - and for how they may interpret the dangerous "better to burn out than fade away" message in his suicide note. I'm sick for his wife, **Courtney**, who must certainly be struggling with demons of her own. And I'm most sick for young **Francis Bean**, 'cause she won't have a daddy to share her life with. This is shit and the finger of guilt points everywhere and nowhere. For God's sake, the smack must stop, or certainly more will die. I gotta go. Life is good. Please respect and enjoy it...Friend out....

lonn loves it!

The Wildhearts "Suckerpunch"

EastWest/TAG

The Wildhearts continue to RAWk the shit out of our offices here in beautiful, downtown Burbank. "Suckerpunch" is a track of such sheer destruction in its all-out intensity that the need to talk about it some more just couldn't be contained. The Wildhearts are really beginning to make their presence felt on the RAWk chart, as they make their bid for Top 10 status. Audience reaction? Heavy phones at WRZK, KISW and WIYY speak for themselves. If you're not already a believer, give "Suckerpunch" another spin, at high volumes, of course. The Wildhearts are for real.

Rollins Band

"Liar"

Imago

Henry and the boys have already begun their domination of radio at the RAWk, alternative and mainstream formats, garnering #1 most added honors and debuting at #25* on the RAWk chart last week. "Liar," the first emphasis track from Weight, begins with a jazz/blues vibe and a spoken word intro explaining how the narrator has come to mean so much to someone and then posing the question: "You want to know why?." "Cause I'm a liar!" is the brutal answer, and Henry's delivery is absolutely crushing. These two sections intertwine throughout the song and spotlight Henry's story-telling prowess. If you're not already on the Rollins Band, there is still time to save face. Add "Liar" now!

HoleLive Through This

Formed in Los Angeles in 1989 by original members Courtney Love and Eric Erlandson, Hole has released an EP, a couple of singles and a full-length before *Live Through This*, their debut on DGC. Straight-ahead and raw, Hole has delivered its best record to date. The tracks of distinction include "Violet," "Plump," "Gutless" and "Rock Star." Courtney's off-key, punkish vocals really shine as she moves between soft, monotone phrasings and absolute screaming from moment to moment. Don't judge *Live...* before you give it a good listen.

Thee Hypnotics "Heavy Liquid"

British blues in a RAWked-up, heavy-as-hell

structure come your way this week in the form of Thee Hypnotics. Suffering through car accidents and deaths and other adversities that would finish off most other bands, Thee Hypnotics have survived to record their fourth album (and their debut on American), The Very Crystal Speed Machine. The first emphasis cut, "Heavy Liquid," is an excellent introduction to Thee Hypnotics. The mode of operation here is Marshall-raw guitars and a heavy Crybaby foot that make you wish you were in a smoky bar with a cold one in your hand. This is cool, fuckin' shit. Play it loud!

Anthrax HyProGlo

Even though Sound Of White Noise has now been out for almost a year, Elektra is still plugging away with emphasis tracks and cool B-sides. This time it's "HyProGlo" with a live version of "Got The Time" recorded at CBGBs. In case, for some weird reason, you haven't seen the John Bush fronted Anthrax, now you know he can handle the old Joey Belladonna stuff just fine. Even though it is a year old, it's still a killer album from a killer band. Give it another spin, your listeners will dig it.

Dio

"Jesus, Mary & The Holy Ghost"

Tracey G's guitar just explodes to open "Jesus, Mary & The Holy Ghost," then a 21st century schizoid vibe overtakes the great Ronnie James Dio before the band plunges deeper into the depths of their new, wilder form of metal. The abrupt stops and starts help build a tension that is eerie, but powerful, which is what the new Dio vibe is all about.

Sarkoma

Blue Horizon

Red Ligh

This three-song taste from Sarkoma's full-length album, *Integrity*, certainly justifies the album's title. The angry, rap-style vocal wails that are mixed with some tasty singing on "Blue Horizon" are met head-on by some real crunchy guitar riffs, definitely making this cut worthy of a few blasts through the speakers.

Jawbox

"Savory"
Atlantic/TAG

For the collectors out there, the three nonalbum tracks on the single are a welcome addition to the Jawbox catalog, but it's the timely new version of "Savory" that should get the most attention. The oddly jangly guitars are just distinct enough to draw the listener in as "Savory" picks up momentum, all the while clinging to the original vibe. Very hypnotic, and guite cool.

Various Deep Six

It's almost impossible to believe that a record like this actually can be put together, considering all the logistics. It just reconfirms the enormous amounts of talent and determination that were brewing in the Pacific Northwest over the past 10 years. The very first recordings by Green River, Soundgarden, Skin Yard, Malfunkshun and Melvins are included here, as well as an important studio effort by the U-Men, so the grunge fans out there can see how some of the most important bands of our time assembled and evolved. The Melvins were just as nuts and cool then as they are now, and Chris Cornell and Kim Thayil give us a glimpse of where they started their sonic adventure on "Heretic." The late Andrew Wood's Malfunkshun was years ahead of the game on "With Yo' Heart (Not Yo' Hands)," and the highly-acclaimed Green River, which produced members of Mother Love Bone and Pearl Jam, kicks off this impressive collection with "10,000 Things." Definitely a disc worth studying intensely.

Imperium Too Short A Season

If you're suffering from a serious prog-rock deficiency, Imperium could very much serve as a steady fix. The Dutch quintet packs a powerful wallop that is still very adventurous and chop laden. Andre Vuurboom (great name for a singer, isn't it?) has some severely elastic lungs, which balance the guitar tandem of brothers Michael and Rob Cerrone very nicely.

Usually in this space we try to write about things just before they hit the streets. However this week we feel the need to write about a record that has continued to grow on us. Varga's debut album on Zoo, Prototype, is so cool that on the first few listens it might go right over your head. Hailing from Hamilton, Ontario, the band's gloomy steeltown roots are manifested in their music. No, it's not dark, doom music, but a progressive, heavy style with a foreboding feel. The band almost seems to ride allong a razor's edge between hope and dread with intellectual lyrics that leave a lot of the interpretation up to the listener. Tracks of veneration include, "Unconscience," "Greed," "Wawnah Mere," "Self Proctainned Messiah," "Bring The Hammer Down" and "The Strong."

Varga is a story in the making at RAWk Radio. It's been a slow, steady climb, but the band is now setting their sights at #1 since they are already enjoying Top 10 success. Looks like Zoo has big plans for Varga, could be the Tool success story revisited. Retailers, play it in-store! My money says Gold by the end of the year.

We begin this week with the announcement of our 10th annual 97X-posure local band contest. Things have changed a little bit this time around: A little earlier in the spring, two semi-final rounds preceeding the final four, and a \$1,000 gift certificate jointly sponsored by PLG, Atlantic, A&M and Elektra. This is in addition to 12 hours of studio time, 300 cassette singles, a wireless mic system and other great stuff. We would like to extend an invitation to your respective A&R people (or yourselves) to act as judges at the semi-finals and final. There could be some real diamonds in the rough in this pack. Over The Rhine were onetime contestants, as were the Afghan Whigs, Ass Ponies and Throneberry. A "Day In Eden" update...we have been chewing your ear off about this outdoor festival in late June (the 25th). The local daily newspaper, "The Cincinnati Enquirer" (circulation: A lot, with a readership of many, many more) has promised us the cover of the "Weekend" magazine, the definitive listing of weekend events, for the Friday preceeding the festival. Time is running out, please call Phil if you can help us out with bands. Speaking of festivals...there are a lot of great ones going on this summer, and we think it would be great to send some listeners to them. We have our eyes on the KROQ "Weenie Roast," the HFStival, ENDfest in Seattle, the Woodstock reunion, and "Lollapalooza" in hip locales. If you can swing it, we'd like to talk. "Flyaway Phil" would be more than happy to take your call.

So, there you are, sitting at your desk and you're saying to yourself, "Hey self, I wish I had something completely different to play on my station. You know I would have to find a song that a bunch of stations are playing and are all getting really strong phones on, after all, I need to satisfy my listeners! But then again, I also need to see if there is a sales base behind the record! Boy, wouldn't it be nice if I found a track like that and the band was even going to be touring my area while I was playing it, getting phones and selling records? Boy, I sure wish I could find a song like that, but it seems impossible! That is what you were just saying to yourself (I know, I can read minds). I have come riding into the picture like the cavalry with the fighting 103rd (I just picked a number randomly) with the answer to all your problems! Type O Negative with "Christian Woman"! Strong phones happening at KNAC, KUPD, WKLL, WVVV, KZRX, WVCR, WXRC and KROK, and more are building rapidly! Give this song a serious chance and it will light up

your phones and prove itself in sales. By the way, thanks to **Pantera**, "hard rock" now has a future and a direction - go, **Matt**, go!

Pavement Music

Crowbar is raging across the country with Pantera, right now as you read on. From what I saw in Detroit, this is the best fuckin' tour of the year. I hope all show goers got their chance to hook up with the band. If you are going to a future show and want to meet the band, let me know. Their video for "Existence Is Punishment" debuted this weekend on "Headbanger's," and Beavis And Butt-Head love seeing Kirk take a dump! After Pantera, Crowbar will set out on a head liner of their own. Openers to be announced. Demented Ted just started their assault across the country with Unleashed and Broken Hope. Call for interviews, meet and greets and tickets. Genitorturers are sharpening up their gear to nail Stressball right where it counts. That's right, Stressball on tour with Gen. Call for dates in your area. It's just about time to start that summer crap, so if you're going to be in this summer, CALL ME! I'll be spending some time on the road with Crowbar, so if I don't get back to you right away, you'll know why. Again, thanks to all supporters.

Hi, Gabby. I got a speeding ticket Monday morning on the way to work. \$75! Even flashing my cleavage didn't work on the old prick. Went to a Sony party this past Sunday for Carcass. Great food, great open bar action, thanks to Irv from the Chicago branch, E.J. and Jim Welch from you know where. I just got off the phone with yet ANOTHER metal director telling me horror stories about label reps and indies harrassing them to add their bands. That's very uncool. Now, damn it, don't forget Skatenigs add date, Monday the 25th! Ha ha. Chainsaw from 'ZMB, the huge Skatenigs fan that he is, was the first station to do liners, so be like Chainsaw and get on it! Rumor has it Jeff from 'SMU is the biggest Z fan in the world! Thanks for your support of Coven, Gutted, Oppressor and Sarkoma

This past Saturday, I had the chance to welcome home some old friends who have been sighted recently making the rounds at radio and retail...The Mother Station. If you have not had the chance to hear this hot, new band from Memphis, you owe it to yourself to check them out. Besides being the woman I lusted after most in high school, Susan Marshall has some of the best pipes I have ever heard...she is one singin' bitch! Gwin Spencer's quitar playing and songwriting are truly outstanding as well! And on a bad day, both of them could out-cuss me in a heartbeat. Thanks to Jim Sellers and Walter Winnick from EastWest for the BBQ and shmooze. Proof positive that Memphis music is alive and well, even if Elvis is not.

Dear little **Frances Bean**, where is your daddy? I know he still loves you. Please be strong, especially for your mommy, she needs you more than ever. Dear **Courtney**, why must you be the victim? We love you and wish the best for you and your new album. You are in our thoughts. Chin up, girl. Dear **Kurt**, we will never understand, but we will always remember. Do you still have the picture of the cake we made you? You've got your cake, but can you bear to eat it?

Hi, I'm back from Cabo San Lucas. If you like sun and relaxation, Cabo would be an excellent getaway for you. It was beautiful. Oh, and stop by Van Halen's Cabo Wabo cantina and check out the Rock 102.1 bus sign that's hanging inside! Boy, that one threw me! Lotsa great music to come back to, though! I'm glad to see The Meat Puppets are kicking ass! Halloran told me they were "not cool enough" for him to play, so we could play them now. Tee hee. Glad to see he changed his mind. Sugartooth moves up in rotation here as does The Poor. The phones are still crazy for Pantera. Pink Floyd's huge with our show here this week. I can't wait! Am I the only one who thinks Brother Cane's "Hard Act..." is their best song? I love that track! See some of you on the 30th in Santa Monica, I hope!

GWAR continues to command all of you to kneel! "Jack The World" is huge. Metal Radio says so. "Headbanger's Ball" says so. Beavis & Butt-Head say so, but more importantly, I say so! Their new movie, "Skulhed...face," is great. Cameos by Jello Biafra and Sebastian Bach. Cannibal Corpse's The Bleeding is in your hands now. Their first video ever was made for track #1, "Staring Through The Eyes Of The Dead." Add this track on April 18, kids. Without sacrificing their integrity, Cannibal Corpse have launched themselves into a new level of musicianship. The lyrics CAN be understood without a lyric sheet! Really. I kid not. Remember...they've sold more merchandise than anyone else the last two years of Milwaukee Metalfest. The hype is VERY REAL. Therefore, if you're spinning Carcass, put in "Staring Through The Eyes Of The Dead" immediately. Coming soon to metal: Those lovable hardcore types from Phoenix, Beats The Hell Out Of Me. On the road: Beats The Hell Out Of Me, GWAR, Broken Hope with Unleashed and Demented Ted. Chemiab with KMFDM, Thought Industry (dates upcoming with Type O Negative) and soon, Cannibal Corpse. Once upon a time there was a little girl who only dreamed of growing tall and working with kick-ass bands. Now checking in at over six feet and working for Mechanic and Futurist Records, my dream has come true in the forms of The Paladins, Cycomotogoat, My Dying Bride, Autopsy, Anathema and Dead Fly Boy! The only thing that could top this off would be upcoming Tad tour dates, and more great releases from Seed, Earth 18 and Ice Cold July, among others. Now, all I need are several Adonises to wait on me, hand and foot. No reasonable offer will be refused....

Bill Walker WROQ

Whatever is said about the guy, please let's not deify Kurt Cobain. It's unfortunate he found suicide the only solution, but in dying, he still ain't nowhere near Lennon, Hendrix, Joplin (Janis or Scott) or even a Randy Rhoads or Ed Hazel. For the others, suicide was not the answer...and it never is. lan Moore's "Harlem," truly a tune for the times. He's making a return visit here (with Skynyrd and Ted Nugent) and our listeners are ready! lan wowed 'em last fall here and was so gracious to stick around after his show to sign stuff for everyone...and I do mean everyone. Top 5 phones: ZZ Top, Bonnie Raitt, Doyle Bramhall and Pink Floyd with "Keep Talking" and "Take It Back." And, with hockey playoffs upon us ('cept for the Kings), is this finally the Rangers' year?

So...Beautiful People's "If 60's Was 90's" (and "Rilly Groovy") are getting detections out the butt at modern alternative and Rock Radio - you'll find them debuting in that BDS chart as we speak. I don't care if you don't get it...your listeners will...this track gets phones AND sales wherever it's played, so you can kiss my SoundScan. Need more? Here comes the smokin' PM Dawn mixes of "If 60's Was 90's." Add date is April 26, but if you wanna get this way early, let me know and I'll get you a Dat, just like that. And the "Come To Me Ecstacy" mystery group is...Red Red Groovy. Try it, as others who I can't name already have.

I just wanted to congratulate my old friend Eddie "The Fish" Tuscaloosa on his new management gig. Eddie will be the road manager for Loverboy on their upcoming US tour this summer. Good luck, Eddie. In music news, Atlantic hits again with the mind-numbing King Missile smash "Love Is." It's on your desk now, so check it out. The Dylans' "Grudge" single is off and running with major market airplay already existing in Boston, New York, Providence, Atlanta, Chicago, Denver and Minneapolis. You could be next. Finally, The Charlatans (formerly the Charlatans UK) are out now with their Top 5 Modern Rock hit "Can't Get Out Of Bed." Added to MTV and on tour beginning 4/16. CHR folks get ready. This one's for real. Bye!

By now, the terms "grunge" and "Seattle Scene" seem cliche, but before Nevermind, many AOR playlists were a mix of classic rock artists way past their prime, lame hairbands, with an occasional cool R.E.M. track to break up the monotony. My station was CHR when I first heard "Smells Like Teen Spirit." I thought it was a killer tune, but never in my wildest dreams did I think we'd play it, let alone did I think it would serve as a milestone in rock. Boy, was I wrong! Obviously, the industry will co-opt what it considers to be a profitable fad, and perhaps some of the bands that are getting signed and getting airplay will be relegated to Flock Of Seagulls status before long, but it certainly is an MD! All music lovers owe Kurt a huge debt. In "Serve The Servants" he wrote: "I tried hard to have a father, but instead I had a dad." Frances Bean will have neither, and any way you slice it, that blows.

I fucking hate the idea of a "wildcard" in Major League Baseball, but my Yankees might need it. Bite my tongue. And, my hometown has a new minor league team, the Hudson Valley Renegades! Isn't spring beautiful, people? Oh, yeah, Beautiful People! "If 60's Was 90's." What a hum-dinger! Hurl this platter right over the plate and watch your audience tag it over the fence! Seriously, this record has snuck up on sooooo many people and bit them in the ass. And, once it's on, there's no looking back. While you're adding 87 Floyd cuts this week, don't overlook the single most reactive record out! A record that knows no limits:

Heritage, Classic, Adult. Excellent phones and sales wherever it's on. What else ya need? Hey, I'm thinking of writing one of those "on the road" **Nardachone** pieces next week, with a healty dose of **Kerouac** and **Hunter Thompson** thrown in. What do you think?

The new Traffic is very solid, thanks to Virgin for a preview. Thanks to Elana Teune for a great time in Tallahassee with the Smashing Pumpkins, sold-out venue, full ragin' pit and real excitement! Billy Corgan and company did four encores. Great, but why in the middle of the show, eh? It is Rick Brown and his dancing Dockers. He loves wheelies. Coming to Naples April 20, my buddy Ben Schultz and Barefoot Servants with another 96 K-Rock low dough show to kick off their Southern tour, can't wait. Last but not least thanks to Richie T., I had the experience of a lifetime on the Pink Floyd derigible. I won't forget it. Thanks again to all my label reps for the support and keep those hits comin'.

It's not too late to add The Samples' "Still Water." Now playing at WBCN, KTYD, and many, many more! It's working for them, I'll bet it can work for you, too. The Samples are touring the Northeast now, so look out for them. Boston's Orpheum Theatre is almost sold-out in advance (2,433 tix sold, 180 to go) with the help of Boston radio hammering the city with tracks from The Last Drag. Sold-out shows so far are Denver, Columbia, Cincinnati, Chicago and Northampton. WDST and WVBR just added Lir to their playlists. "Magico Magico" has been released and the band is now touring the Northeast. Check 'em out.

Seeing Rush live is like a nitrous rollercoaster, you know? Involuntary mirth. Many thanks to Atlantic's Mary Tripodi. May you always know what time it is, even in Beverly Hills. Lucy's Fur Coat is already showing great interest, and I'm really looking forward to seeing them at Channel Z's "Hope For The Heartland" benefit in Springfield. Big phones this week on Collective Soul, Sugartooth and Soundgarden's "Black Hole Sun." We added this track four weeks ago to balance the exposure of "Spoonman" at night. It's a beautiful thing.

In the wake of the untimely passing (does anyone ever pass away timely?) of Kurt Cobain, this week's comments are dedicated to him and the musical legacy he left behind. Nirvana's music touched so many lives, opened so many doors for other bands, and other ideas. Headlining this year's Lollapalooza tour would have been the crowning gem for the band that set the standard for artists and poets in this decade. In Utero was such an obvious cry for help. (Remember its initial working title and subsequent song on the Beavis & Butt-Head album, "I Hate Myself And Want To Die"?). Kurt's identification with Frances Farmer (the 1930s actress who felt so trapped by her own success and fame she went insane, became institutionalized, lobotomized, and ultimately died, alone, drunk and despondent) was clear. He named his daughter for her, as well as a song from the album. As I sit in my office listening to the haunting strains of "Something In The Way," the thought of calling radio status and plugging records seems really trivial. Ian Curtis. Stevie Ray Vaughan, John Lennon, Andrew Wood; all great, all gone. Now add Kurt Cobain's name to this tragic list of beautiful artists we were blessed to have shared the planet with. if even for a little while. We'll miss ya, Kurt. Wherever you are now, hopefully you have found the "Nirvana" you were sadly unable to find with the rest of us.

Larry Mac

Kurt Cobain proving once again that it doesn't matter how much success one has in one's life, if you don't have it together upstairs mentally...it just doesn't matter. Condolences to his family from all of us here at KZRX. On to happier subjects: Soundgarden, Pantera and Motley Crue continue to kick ass in sales and requests here in the desert. I dig the tune "Heavy Liquid" by Thee Hypnotics. Check it out if you get the chance. Rollins Band's "Liar" is kickin' ass, request wise. Until next time...have a good one!

Contratulations to the new Program Director at WXLE in Albany: Zeb Norris. He comes from KRQR in San Francisco, where he was the Music Director. Zeb loves music and is excited about moving to the Adult Rock format. Colter Langan is the new Program Director at KMMS/Bozeman, as Dave Cowen moves into the newly created Operations Manager post for both the Moose and

their new A/C partner in Bozeman, Moose Music Director duties will now be handled by Kim Rossi. You have to admire Peter Himmelman. He has done probably the most ambitious project of his life with his new album, Skin, It's a "rock opera" in the spirit of Tommy and Quadrophenia. There are a couple of wonderful songs on this disc-"With You" and "Shilo." Jimmie Vaughan's entire album, Strange Pleasure, arrived this week. There are some real treats on here! Dr. John co-wrote with Jimmie on a fun rocker, "Two Wings." Great guitar work on "Flamenco Dancer." And there's an instant classic instrumental: "Tilt A Whirl." A strong album, start to finish!

Iris Dement follows up her criticallyacclaimed album of last year with another incredible performance. My Life is charming from its opening strands. Try "Easy's Gettin' Harder Every Day," "Sweet Is The Melody" and "You've Done Nothing Wrong." In a summer that will see big concert tours by The Rolling Stones, Traffic, Billy Joel/Elton John and Pink Floyd, the Pretenders are going on the road playing smaller venues - they want to stay close to their fans. Their new album, Last Of The Independents, will be out in a few weeks, and this week we were serviced with "Night In My Veins," a feel good, uptempo rocker. Chrissie Hynde delivers a strong vocal performance, and, as always, has assembled the best musicians to back her. "Cherry In Your Tree" is another catchy pop tune from Andy Partridge and XTC. This one, released as a B-side last year, can be found on Carmen Sandiego: Out Of This World, which is based on a PBS game show. X-tatically wonderful!

Well, the recovery period is underway here...the Final Four festivities here in the Queen City kicked our ass - I mean that in a good way! WRFX teamed up with US Air as hosts of a 45,000 square foot party tent for five days and five nights, featuring, amongst others, Eddie Money, Starship with Mickey Thomas, The Marshall Tucker Band, the BoDeans, Buffalo Tom and Possum Dixon - wow! Thanks again to Jann Hendry from Reprise and Jim Sellers from East-West for all the help! And while we're at it...congrats to the Arkansas Razorbacks for being good winners, but damn, did they ever cramp our Duke party. Pictures and storytelling from the event coming next week!

The Samples move into heavy this week. The entire CD is very strong. The reaction

from "Still Water" is phenomenal! It's a great Adult Rock record. I'm soooo excited over the killer Pretenders record! "Night In My Veins" is an instant add! Ian Moore has a solid hit with "Harlem." The Badlees are a little known band with an awesome CD!

Kim Daniels WHMH

Soooo many things are going on, I don't know where to begin! If planning my forthcoming wedding celebration wasn't enough, I will be leaving WHMH effective April 20 for a full-time career in voice work with a very reputable firm! I'd like to take this opportunity to thank the Hoppe Family for all of their support over the last year, to Scott Klohn for always cheering me along, and to Mark Vos, whom I had the distinct pleasure of working with at KRNA in Iowa City, and who has told me numerous times when I was ready to leave the business, that I deserved to succeed, and he believed in my ability to do so! Here's to you, Vos...I'm finally gonna do it! Bve!

Bob Louis *KOZE*

Showing that they still have a grip, Aerosmith is back with another release from Get A Grip..." Crazy" looks to set the phones ablaze. An unlikely duet...but this one will set you back in your seat. Alice Cooper and Chris Cornell have a combination that is nothing short of riveting. "Unholy War" - an instant add out of the box. Finally this week, the Crow soundtrack is incredible; take the time to listen to "Big Empty" from Stone Temple Pilots, then add it. According to my calendar, I'm due for an oil change - talk to ya soon. Keep it loud and rockin'!

My thoughts and condolences go to all the family, friends and fans of **Kurt Cobain**. I did not know him well, and I won't waste time finding answers to the choices HE made. Elektra Entertainment

First of all, I'm compelled to give public thanks to Steve Schnur and all of the peo-

ple who kept the faith and made everyone so aware of Phish. To get to Elektra and be handed this amazingly deep and wonderfully well-written album of songs (Hoist) is fortuitous, indeed. All facets of this band are firmly in place: A huge touring base, their own computer network (with 40,000 subscribers). fans galore who are forking out bucks all over the country for Hoist and, finally, an album that is so accessible and mainstream that maybe now people will begin to whiteout the word "cult" when writing about Phish. And you must, must, must see them on this current tour. Motley Crue's "Misunderstood" is going onto the radio prior to our officially chasing it, and now, I'm hearing about "Hooligan's Holiday" turning into a research monster. Please understand that when a band reinvents itself, it takes a while for the public (particularly core fans) to find a comfort zone. I saw the Afghan Whigs perform three times last week to overflowing and highly-agitated crowds. You must go back and listen to this Whigs album and specifically focus on "Gentlemen." It's real. And finally, am I the only one who has nightmares about Henry Rollins? Ouch!

John Rozz WSHE

What can we say that hasn't already been said about the tragic death of Kurt Cobain? Our best wishes to his friends and family...the rock world will miss yet another great one! Talking tunes... WSHE will welcome the Counting Crows to South Florida in just a few weeks, and I'm likin' "Round Here" around here! Sounds like another hit! You can certainly hear the feeling in his voice! Alice Cooper and Chris Cornell workin' together on "Unholy War" ... you knew it wasn't going to be a ballad! This tune moves and has mass appeal...l like it, too! "Very Best Years" from The Grays definitely appeals to all the demos, as well as the Pretenders' "Night In My Veins"...good stuff! Chrissie Hynde still sounds sweet, and I like her "advice to chick rockers" on the back of the CD single! Be sure to check 'em out! Hey, Di! Got a few zipperheads with your name on 'em! C-ya!

Lots and lots of music, so let's get goin'...Stabbing Westward - if you haven't checked this out, find a copy of "Nothing" from this Chicago-based band and LISTEN! The record kicks ass and the stories are starting. KEZE in Spokane has instant phones and sales off of their early airplay, and here in New York, Q104 heard the record once, put it on the air, got huge phones and increased

the rotation to 30 spins per week. Off of this airplay, the sales have tripled in three weeks. The point is this: Put it on the air and you will get immediate reaction. Pink Floyd...the music, well it's amazing, as you all now know; the live show - it's Pink Floyd. Wait until you see it. "Keep Talking" continues to dominate the airwaves. The next track, as most of you know, will be "Take It Back" the official date will be April 26. Alice In Chains' next track will be "I Stay Away," on May 3. Also the first week of May, Toad The Wet Sprocket return with their lead track, "Fall Down." It's Toad at their best, and it will be huge at Rock Radio. "Carnival" is the next track from Cry Of Love. Their success continues, and this track could very well be their biggest to date. The story on **Dandelion** continues to grow. Every week, there are more people who continue to come in on this record. The band is on the road, MTV is in on the video and the positive story continues. That's it for now....

Bob Lee KQXR

One of the cool things (among many) about being located in a pool hall is that there's easy access to the personnel by the listener. I'm blown away by the ADULTS who have come in over the past two days not to drink beer and shoot, but rather to just be in the aura of Pirate Radio. Kurt's untimely passing touched these ADULTS in that it's a blatant slap in the face as to how important it is we all continue to "fight the good fight" in this war of life in the 90s. I've known all along that the power of music is immeasurable, that what Pirate Radio does on the air can be much more than contests and hype: IT'S REAL LIFE. Suzi, I tried to call you over the weekend, because I know your heart hurts for the same reason as my own; however, for what it's worth, Kurt's actions have reminded us to stay the course, because if we don't, we will have dropped the baton and failed in the quest to make a difference. REAL RADIO, REAL MUSIC - WHAT A CONCEPT, HUH? Crime, drugs, political bullshit from our "leaders," widespread war over the world, economic disaster on the horizon and, to top it off, oh my goodness, CIGARETTES! No wonder these things, coupled with the pressure of "THE BUSINESS," the fame and demands that come along with the glory; no wonder Mr. Cobain had to go somewhere...I wish to hell he had my phone number. I hope you "communicated" with your listeners about this tragedy, not just played a couple of tunes as a tribute; after all, I think that's what RADIO was invented for in the first place, right? COMMUNICATION. Now, have a nice freakin' week.

Not only do we have to deal with natural disasters in LA, now baseball season has started and the Dodgers have already lost four out of six games (Atlanta 7-0! Why bother even having a World Series this year?)! Anyhow, on to music...here's the scoop, so far: Storyville finds new believers with KECH. KKOS and KRSH; Pat McLaughlin picks up KPIG; Doyle Bramhall has a new home at KECH and should soon be spinning heavy at KTAO, and WRSI scores with Rory Block. A lot of you previously played an import from The Boomers, but be looking for a domestic release of the album, along with a CD-pro with some new tunes...for your listening pleasure!

Don Darue KTHX

This is a bon voyage message of sorts. I will be taking a leave of absence from KTHX beginning April 18 - October 1. I will be part of a team that is backpacking the entire length of the Continental Divide, from Mexico to Canada. This 2,800-mile trek will follow the divide through New Mexico, Colorado, Wyoming, Idaho and Montana. We will be filming this trek for PBS, and it should be exciting. I want to thank all the great people who have helped and supported KTHX during the last four years. This has been the best radio ride a guy could ask for. I look forward to talking and working with you all again, in the fall. While I'm away, Ken Allen, our midday man, will be acting as Music Director. Since his airshift is 10am-3pm Pacific Time, he will try to take calls from folks in the Eastern time zone in the morning and calls from the Pacific time zone after 3pm. The best friend and Program Director I have ever worked for, Bruce Van Dyke, is still running the show, but as always, would rather have dental work than answer music calls. They say the best laid plans of mice and men...or something to that effect...l guess. Actually, I'm not sure what they say, but I do know we spent months making sure we picked the right track, had the right advertising and Pro-CD packaging ready, got the advance cassettes to the local staff for their pre-promotion...we had it all set for an add date of April 19. But then all hell broke loose. as "Night In My Veins" appeared (as scheduled by our alternative department) on a trade magazine's CD sampler - some of our rock stations got a taste of it, and all our beautiful plans were in the toilet. We were forced, yes, forced, to service the new Pretenders song a week ahead of schedule, botching our advertising schemes, throwing off our street date, pissing off our warehouse guys, ruining the whole damn thing...except "Night In My Veins" is, by far (almost a two to one margin) the MOST ADDED song at Rock Radio this week. So much for plans. The Pretenders picked up 100-plus adds and a couple hundred BDS detections (in half a week, including the weekend), and just really had us going crazy here this week. Add to that the awesome week Candlebox had with "Far Behind" (35-plus adds, including WLLZ, KRXQ, KLOS, KUFO, KDKB and WBZX) and the one Primal Scream had with "Rocks" (16 adds, led by WNOR and WBCN), and the Hutch is rocking! Dear adventurous, forward-thinking broadcaster: This is not a letter from a promotion representative. Just a former promo quy. As you are probably aware, I left Arista last November to launch my own international marketing firm. Things are going great, and I am having more fun than ever before. My latest project is to set up a European marketing and promotion office for Epitaph Records. Epitaph is clearly one of the most successful and promising independent labels around, specializing in cutting-edge punk/metal/alternative music. The label's most successful acts include Bad Religion, Pennywise, NOFX and The Offspring. Most of their releases haven't been for radio. That's why you may not have heard of the company...until now. But the just-released new album from The Offspring, titled Smash, is starting to make major waves (airwaves, that is). The lead single, "Come Out And Play (Keep 'Em Separated)" is already getting BDS spins on KROQ, WSHE, KTXQ and many others, and the album has shipped 70,000 copies! This could be the surprise hit of the spring. I just thought you should be aware of it. Or, maybe I just missed doing promotion a little bit. After all, the really fun part of the job is turning people on to new music without any pressure. Here it is. If you want more information, call Andy Kaulkin here at Epitaph Records, at (213) 957-7555/fax (213) 957-2636.

Ginger Havlat

We've got adds. Lots of 'em. Wild Colonials, Adrian Belew, Smithereens, Grant Lee Buffalo, Dr. John, XTC, Michael Been, Francis Dunnery and, of course, the Pretenders. I've always been a big fan of Michael Been's voice, particularly on powerpacked vocal tunes like The Call's "I Don't Wanna." The single "Us" was a little too hard for us, but almost lost on his new album as the final track is a beautiful tune called "To Feel This Thing." Goosebumps. Francis Dummery's "American Life In Summertime" was the hit of the music meeting. What's funny is that it initially reminded us of the whole 70s hit "Sweet City Woman"...yet we still liked it. I know we were a bit slow to turn on Dr. John's "Television," but hey, we wanted it to warm up first. That's one of those tunes that sounds a lot better on the air than in a music room. Wild Colonials wasn't a first-listen

record either, but now I find it irresistibly hypnotic. And as for "Night In My Veins" by the Pretenders? In my humble opinion, it's their best song since the Learning To Crawl album. Okay, now my favorite album which we haven't added yet? Buster Poindexter. I hope we can find room for this, and it will be a challenge, particularly with Colin James and Brian Setzer also be-boppin' and swingin'. But Buster's Happy Hour is so wonderfully authentic and true I feel like I've been time traveled back to the 40s and 50s. Damn, this album makes me thirsty for a cold one, though. Check out "Breaking Up The House" and "I Got Loaded." Aw, heck - just play the whole thing next time you're playing ultimate host.

in Omaha. The show sold out three weeks before the date, and that night, she showed us why. She rocked the house from 9pm till midnight, and if she'd been called out for one more encore, I would have had to leave. The force of her emotion left me exhausted. My seat was close enough to read her every expression as she sang. Seldom have I felt so moved by a performance. Frankly, I don't know how she remained standing through the show. She tried so hard to give us every last bit of her. It's been very satisfying to see her grow as a recording artist and a performer. If she plays in your area, don't miss the chance to see a woman who has finally come into her own.

Traffic's "Here Comes A Man" is on your desk now. Call your Virgin rep with your adds now. Smashing Pumpkins' "Disarm" is almost Top 10 in BDS...you've got the issue of "Rolling Stone" with their shining faces on the cover. Over TWO MILLION people dug into their pockets and parted with some coin to own the Siamese Dream album. They are the top attraction on "Lollapalooza '94." I keep saying the same shit week after week on the phone and in the trades. You CAN program the Pumpkins among the classic artists. These strings and harmonies and lush arrangements will fit between Queen, Styx, Supertramp, The Beatles and The Stones. Cracker's "Get Off This" deserves the same rap. Get out from behind Selector and listen to the station. These are the kinds of records that are working now. In just this week's BDS Top 15: Alice In Chains, Soundgarden, Pearl Jam, Meat Puppets, Counting Crows, SMASHING PUMPKINS and CRACKER. With the exceptions, BROTHER CANE and Cry Of Love, the rest of the chart looks like the late 70s...Pink Floyd, Yes, Sammy Hagar, Aerosmith and ZZ Top. These records are on virtually every Rock Radio station in the country because they work. Even in between your library...those old records aren't tired. I've seen too much research that says so. But it makes sense to freshen your station and keep it from SOUNDING tired by playing these new sounds. This is the new mainstream. Drag yourself into the 90s if you haven't already...you're four years behind.

In Memory

The world was shocked and saddened last week to learn that one of music's most successful and well-loved artists, Nirvana's Kurt Cobain, took his own life.

This tragic turn of events followed years of turmoil and pain (both physical and mental) in Cobain's life, and it will forever shadow the legacy of his ground-breaking music. He will be missed, dearly.

For more information, please turn to Network News and our VIRTUALLYALTER-NATIVE section.

Mary Brace at WEQX returns to these pages with this:

Q: How is a man like a linoleum floor?

A: If you lay it right, you can walk on it for life.

And for the kids...:

0: Why didn't the skeleton cross the road?

A: He had no guts.

New Eagles Album Will Soon Hatch

There's good [if still unconfirmed] news on the horizon: We hear that the Eagles will soon release a *new* record! A little bird told us that *Take It Easy* - an album featuring outtakes and remakes, and probably a few new tunes as well - has been penciled in for a late May release!

Stay tuned for more information!

FORE!

Monday, April 18, marks an important date - it's the day the First Annual Hard Rock Cafe/Eddie Van Halen Charity Golf Tournament will be held!

The tournament, which will benefit the UCLA School of Medicine's Pediatric Kidney Research Center, boasts an eclectic and star-powered lineup, including celeb golfers Neil Young, Tommy Lee, Bill Murray, Joe Pesci, Rob Lowe, Sammy Hagar and, of course, Eddie Van Halen himself!

Eddie got the idea to do the tournament benefit a few months ago, after the son of a very close friend of his was diagnosed with kidney disease and had to be hospitalized for several months.

Fortunately, the boy received a kidney transplant, but Eddie realized that pediatric kidney disease hasn't received the attention it should; with the help of the Hard Rock Cafe, Eddie was able to organize the golf tournament to help spread the word.

On Sunday, April 17, the Hard Rock Cafe in Los Angeles will host a very special, private dinner event for the tournament participants. An auction will be held to generate additional money, with signed guitars from Eddie, Paul McCartney, The Who, The Rolling Stones and Eric Clapton (among others) on the bidding block.

With so many music greats in one place, it comes as no surprise that a rock n' roll jam is one of the evening's planned highlights.

All money generated by the tournament and auction is carmarked for research, and with sponsors like Warner Bros. Records, Ernie Ball Inc. and Cobra Golf backing Eddie up, the tournament is expected to generate over \$250,000 during its first run.

Kudos to all involved for donating their time and money to this great cause!

Dead Crowd Livens Up

Mell, another week, another concert riot story from Florida...a crowd of bottle and rock throwing gate crashers was pelted with pepper gas grenades after they attempted to storm a Grateful Dead show at the Orlando Arena last week.

Grateful Dead publicist Dennis McNally explained the situation: "Somewhere between three and four hundred kids - of whom I would estimate half were Deadheads and half were just local kids attracted by a party - fueled by way too much beer - decided they were going to get into the show by hook or crook," he stated. "Among other things, they threw some bottles...it's clearly behavior we don't condone."

Tear gas was used by police in an attempt to control the crowd outside the show, but no problems were reported in the show.

Bach Lands "Playgirl" Honors - Again

Pkid Row screamer Sebastian Bach has been Snamed one of the "10 Sexiest Rockers" by "Playgirl Magazine" - for the second time in five years. Although he reports that he was flattered by the mag's repeat offer to put him on the cover of their annual musical issue, he has again declined their invitation.

"At first I thought this must be some sort of cock-up, and the news that 'Playgirl''s readers again bestowed me with this honor really sent me ass over tea kettle," enthuses Bach. "It is a handsome compliment, and one I will cherish, but the real issue at hand right now is keeping abreast of Skid Row's new album and getting a leg up on its impending release by completing the writing and getting our butts firmly planted in the studio."

Skid Row is gearing up to enter the studio to record its fourth record for Atlantic - look for it to come out sometime this year!

Tributes, Tributes Everywhere

Well, a release date for the long-awaited Kiss kovers kompilation, Kiss My Ass, has finally been announced by Mercury Records! On June 7, several of the band's BIGGEST fans (from every musical genre) will debut their loving versions of Kiss klassics.

On Kiss My Ass, you can find Lenny Kravitz and Stevie Wonder (on harmonica) covering "Deuce"; country giant Garth Brooks (backed up by Gene, Paul and the boys) crooning "Hard Luck Woman"; the Lemonheads contributing "Plaster Caster"; the Gin Blossoms rocking on "Christine Sixteen" and Anthrax donating their version of "She" - and that's just a sampling of the great bands involved in this mega-cool project!

"Some people think we did this for validation," explains Kiss frontman Paul Stanley. "They're obviously blind. Who needs more validation than 20 years of fan support? But a tribute album by your peers is obviously the ultimate. We're honored."

And in more tribute news, A&M Records will soon begin production on an irreverent, yet heartfelt tribute record in honor of the 70s' greatest pop duo, The Carpenters, and the 25th anniversary of their signing with A&M!

The project was thought up by rock journalist (and Album Network contributing writer) David Konjoyan and acclaimed producer Matt Wallace, who have been friends and fellow Carpenters fans since their school days.

"Dave and I met in high school singing Carpenter songs in the boys' locker room," admits Wallace. "I guess even I thought it was a strange meeting ground for a couple of 15 year olds, newly testosteroned kids who should've been Kiss Army recruits."

Interestingly enough, Konjoyan and Wallace have decided to go with the hippest alternative artists around for the album; they've assembled a virtual who's who of the alternative world, and every contributing artist is a fan, too!

"We knew The Carpenters mattered, even if most of our peers [in school didn't," says Konjovan. "Much later, I started reading how hip, alternative artists like Chrissie Hynde were huge fans."

So it's only fitting that many of alternative music's top current artists will be involved, including Smashing Pumpkins, The Cranberries, Sonic Youth, Redd Kross, Sheryl Crow, Shonen Knife and Babes In Toyland, among others.

Look for the album to be released this fall
