## Heftel Sells 13Q and WSHH to Nationwide

Heftel Broadcasting has negotiated the sale of its Pittsburgh radio properties, **WKQT** (13Q) and **WSHH-FM**, to **Nationwide Communications** for \$3.7 million. The sale is pending FCC approval.

13Q PD **Dennis Waters** comment-

ed "We are doing everything we can to keep the energies around the station as positive as possible so we can greet the new owners with the best possible radio stations, just as we've done under Heftel." **WSHH-FM** is programmed with the **Shulke** automation format.

## AOR "Hot Tracks" Debuts On Back Page

The Back Page of **R&R** has changed a bit this week with the addition of the new AOR "Hot Tracks" and the change back to a Top 30 list.

The AOR "Hot Tracks" reflects the growing importance of AOR Radio to the general contemporary radio scene, and the need of Top 40 oriented stations to be aware of the hottest programmed album tracks on top rated AOR stations. This feature was developed from suggestions by many of our Top 40 subscribers, who asked us to expand on the AOR chart. Since the AOR chart is a trendless chart, that reflects only the current week's

activity of albums, we will now present an overview of many weeks at a time, summarizing only the most played cuts from albums that are already getting Top 40 airplay, or the albums by an artist/group that has in the past had success on Top 40 oriented stations.

The second change on the Back Page this week is that our Chart has been decreased from a 40 record list to a 30 record list. This change directly reflects the current attitudes of the Top 40 oriented stations that report to us and from whom we make up the airplay chart.

### Quickies

**Bob Baron**, Group PD of **Smith Broadcasting**, has announced the appointment of **Gary Drake** as Program Director of **WAAY/Huntsville**. Drake is most recently from **WIFE/Indianapolis**. Baron has also announced that **Bill Watts** is the new News Director at **WAAY**, and that **Bob Kay** has been promoted to Assistant PD at **WNUE/**

**Ft. Walton Beach.**

**Robert L. Canada, Jr.** has been appointed Program Manager for **WGH-AM Radio**. Bob joins **WGH** from **WWDC-AM/FM, Washington D.C.** Prior to his position at **WWDC**, Bob was Program Director at **WLEE** in **Richmond.**

## R&R Convention & Expo '77

Things are progressing extremely well for the **Dallas Radio & Records Convention & Expo '77**. Please make a note of the actual convention dates. The dates are Friday, February 18 through Sunday, February 20. The \$100 registration will include the cocktail and buffet dinner party on Friday night, brunch on Saturday and Sunday, and the big dinner and su-

perstar show on Saturday night.

Because of the large attendance at past **R&R** conventions, it was necessary to make arrangements this year with three hotels to accommodate the expected 2000 registrants. **R&R Convention & Expo '77** will base at the **Fairmont Hotel**. We will print Convention and Hotel registration forms within the next few weeks.

**Dolly Parton**  
Female Vocalist

**Waylon & Willie**  
Vocal Duo

**Statler Brothers**  
Vocal Group

At the 1976 Country Music Association Music Awards, held last Monday night in Nashville, RCA recording artists and product took five of the ten award categories. The "Single of The Year" went to **Waylon Jennings** and **Willie Nelson** (who now records for CBS Records) for their RCA recording of "Good Hearted Woman." The top LP award was for the RCA million-plus seller "Wanted—The Outlaws," featuring selected cuts from **Waylon**, **Willie**, **Jessi Colter**, and **Tompall Glaser**. **Waylon** and **Willie** were also voted top "Vocal Duo." **Dolly Parton** and **Ronnie Milsap**, both RCA artists, brought home the awards for best "Female" and "Male" vocalists.

Other awards went to **Mel Tillis** (MCA), top "Entertainer Of The Year;" **Statler Brothers** (Mercury) "Group;" **Hargus 'Pig' Robbins**, studio pianist, "Instrumentalist;" and ABC/Dot artists **Roy Clark** and **Buck Trent** were named best "Instrumental Group."

Songwriter **Larry Weiss** won the award of the 1976 Country Music "Song of the Year" for his composition of "Rhinestone Cowboy," which was recorded by **Glen Campbell** for Capitol Records.

The other major category of the evening was the induction of two people into the Country Music Hall of Fame. In the living category **Kitty Wells**, known to many as "The Queen Of Country Music" and the first female to ever have a number one record on the Country charts (1952), and the late **Paul Cohen**, recording executive, were this year's inductees.

**Waylon Jennings**, winner in three of the categories, caused a stir within the Country music community by refusing to take part in the nationally televised show, or to even accept the awards. Jennings' walkout stemmed from his protest of the system of balloting the awards.

The awards show was the beginning of a week of activities in Nashville

Complete photo coverage of many of the activities will be featured in next week's **R&R**.

## KFRC'S JOHN MACK FLANAGAN TO 'DYE'

KFRC/San Francisco has been running promos on the air for about two weeks saying that their afternoon drive jock, John Mack Flanagan, will "die" for a Bay Area school. Actually, Flanagan will dye his hair the school colors of the winning school in the station's current contest. The high school with the most points in the first three football games of the season will get him to dye his hair their colors and appear at the school to give them an even bigger boost in the season.

KFRC has also announced their new lineup, and the addition of Sally Adams to the station's swing shift. Sally was Sunny Ray at KAKC/Tulsa and KILT/Houston. New lineup is: 6-9am Dr. Don Rose, 9am-12noon Don Sainte John, 12noon to 3pm Rick Shaw, 3-6pm John Mack Flanagan, 6-10pm Marvulous Mark, 10pm-2am Big Tom Parker, 2am-6am Much Moments, and Sally Adams swing.

### A MOVING EXPERIENCE

When Michael St. John and John Long started their new Memphis PD jobs at WMPS and WHBQ respectively, they went through the usual searching for living quarters. Both soon found what they wanted, and signed leases for apartments...right next to each other, unbeknownst to either of them.

### WORLD RECORDS AT FAIR

KAKC/Tulsa has already set five tentative world's records in conjunction with the Tulsa State Fair. PD Ken Curtis set the Guinness record for continuous hopsotch, with a total of 20 hours and 31 minutes of jumping around, beating the old record by 15 minutes. At the station's booth at the fair, Jim Dunaway set the record for joke telling, continuing with the one-liners for 4 hours and 2 minutes. KAKC staffer Sarah Nelson held out for 4 hours and 2 minutes of laughing during Dunaway's stint. Later in the week, various KAKC personalities also managed to flip a pancake 5,032 times, and flipped a paddle bare more times during an hour than any previous record holder.

### FEATURED ARTIST CONTEST

WIFI/Philadelphia let their listeners count artists' hits during one recent weekend. Object of the contest was to determine what artist or group was the "most featured" of the weekend. The listener who correctly identified Chicago as the group won a trip to Atlanta to see them in concert, hotel accommodations, and \$100 cash spending money.

### AIN'T THAT A BITCH

WNOE/New Orleans played up one

of their hottest charted records with the "Ain't That A Bitch" weekend. Giveaways of Johnny Guitar Watson's LPs, which contain the "Bitch" cut, were given away to listeners who called in and said the title on the air, instead of the usual "WNOE plays the best music" phrase.

### SUPER CARDS

WFOM/Marietta has printed thousands of their new "Super Cards," and are telling listeners that they will enable them to "charge" valuable merchandise to WFOM. The cards are available at local merchants and at the station studios. Anytime the "Super Card Charge" signal is given on the air, the first person with a Super Card to go to a specified retail store, can charge at least \$100 worth of merchandise to the station.

### ROCKING, WALKING AND GETTING HIGH FOR CHARITY

WNCI/Columbus has just completed their 52 hour "Rock-A-Thon" for St. Jude's Children's hospital in Memphis. Phone pledges from listeners raised a total of nearly \$13,000.

Last week, WRKO/Boston held their third annual March of Dimes Superwalk led by air personality Johnny Dark. Local government officials took part in the last "Golden" mile of the 10 mile walk. Listeners picked up sponsor sheets at local merchants and then solicited for sponsors at 25¢ per mile.

KRSP/Salt Lake City's effort for the Jerry Lewis Telethon brought in nearly \$35,000 for the charity through various station activities. Jock Steve Carlson was suspended on a 110 foot tower for one week to raise pledges totaling \$16,000. In addition, a check for \$3,100 was presented to the Telethon at the same time from proceeds from the station's Bike-In. KRSP personalities Alan Hague and Tom Robin co-hosted the Provo segment of the Telethon.

### SECOND ANNIVERSARIES

WAKX/Duluth has just completed their "2nd Music Anniversary," asking listeners to send in their original birthday cards to the station. Grand prizes for the most original ones included FM stereo digital clocks, FM car converters, and greatest hits LPs. All participants won tickets to see a station-sponsored show by a hypnotist.

KRNA/Iowa City is also kicking off their third year on the air with a giant album giveaway of Bob Dylan's "Hard Rain," Linda Ronstadt's "Hasten Down The Wind," and Orleans' "Waking and Dreaming." To top the celebration off, the station is having a gala birthday party at one of Iowa City's top nightspots.

### KMEN DINES FORMALLY

KMEN/San Bernardino morning man Darin Gregory is riding through town in a limo surrounded by gorgeous ladies in formal attire, stopping

at various locations to give away money, albums and other prizes. Once each day, Gregory selects a lucky listener to have lunch with him and his ladies on a portable tablecloth formally set outside the limo.

### LAST SUMMER BREEZE CONTEST

Wabash Valley College's student-run WVJC in Mt. Carmel, Illinois held their "Last Summer Breeze" contest. Listeners identified ten songs that all included the word "summer" in them. The first place winner walked off with 10 hit Lps, second place won 10 singles. All winners were announced on the last day of summer as a farewell to the sunny season.

### ROCK & ROLL RECALL

WLOF/Orlando played nothing but past hits from the 50's, 60's and 70's during their "Rock & Roll Recall" weekend. During the weekend, the station's Prize Patrol Van was sent out looking for old WLOF memorabilia such as playlists, pictures of former jocks, etc. Listeners owning such bits from the past won Lps, T-shirts and other prizes. The oldest relic was a playlist from February 1959.

### KNOCKING FOR PRIZES

WEEO/Waynesboro's "Mystery Door Knocker" is traveling around town, calling in to the station with his general location, and then knocking on doors in hopes of finding a winner. Residents who open the door and say "I Listen To 1130 WEEO" win cash or albums.

### GETAWAY WEEKEND

A "Getaway Weekend" to Newport Beach is the prize in KFXM/San Bernardino's promotion. Listeners call in and say what time they want to win. Later, they are called back within a few minutes of that time, and if they answer the phone with "KFXM Lets Me Getaway," they win the trip.

### ROCK & ROLL WITH Q102

The Q102/Cincinnati custom jeeps are now loaded with the station's new bumperstickers. The Q102 jeeps check in to the station via mobile phone as they cruise the neighborhoods, pulling over cars with stickers and awarding a wide range of prizes to the drivers.

### WEDDING BELLS

KONO/San Antonio noon to 3pm jock Tony Raven kept his recent wedding in the "family." The entire staff was involved in the on-the-air nuptials. On Monday, October 4th, Andy Williams' "Hawaiian Wedding Song" was heard on KONO, and the wedding party took their places on the front lawn of the station. Raven's best man was KONO PD Bill Dante, and the bride entered on the arm of General Manager Dee Collins. Complete on-the-scene description of the services was presented by jock Michael Black. The event was covered in local daily newspapers and TV newscasts.

The Steve Miller Band donated a free headlining performance in Philadelphia to raise money for WFIL's 8th Annual Helping Hand Marathon. The concert and benefit were a triumph. Backstage, Program Director Jay Cook offers his congratulations on the successful show and his thanks for the band's appearance. Pictured (l-r) are bandmembers Byron Allred and Gary Mallaber; Cook; bandmembers Norton Buffalo, Steve Miller, David Denny and Lonnie Turner; and (kneeling) Arthur Field, Capitol's Philadelphia Promotion Men.

WHBQ/Memphis threw a surprise birthday party for their new PD John Long, who celebrated his birthday two days after arriving in the city. "Silver" was welcomed to the station with a new "Q-Visor" and birthday cake with the staff's fond statement.

WISM/Madison featured Harry Chapin in a one hour "Chat With Chapin" hosted by personality Jonathan W. Little. Complete Chapin record libraries and concert tickets were given away on the air. That evening Chapin turned the tables by inviting Little to join him on stage in singing Chapin's theme song "Circles." Pictured at the station are (left to right); Little; Chapin with son Josh; WISM's Charlie "Rock & Roll" Simon; and Elektra's Steve Goralski.

WABC/New York's Dan Ingram (behind microphone) will be featured in a two hour BBC TV special, "The Tongues Of Man." The American radio segment was filmed at the WABC studios last month. The special deals with the development of the English language throughout the years.

Pictured during the award of the cash prize are (left to right); KNOW PD Bill Mayne, Dr. Don, contest winner, Fred Holland, and Bobby Chase.

WOMI/Owensboro's recent Bike-A-Thon helped bring in \$9000 for the local Diabetes Chapter. In addition, the station gave away Top 40 records to the leading money solicitors. Pictured in front of some of the attractive starters are WOMI PD Steve Hagan and morning man Mark Evans.

KIOA/Des Moines and McDonald's recently held the second annual Diabetes Bike-A-Thon. Thousands of dollars were raised for the Iowa Diabetes Foundation by the KIOA jocks by riding from one McDonald's to another all over the area. Listeners called in pledges for each mile the air personalities rode. Pictured left to right (back row); Bruce Allen, Mike Ross, Ron Phillips, and Bill Allen. # Don't Move Until You Read This Article!

*You can save yourself money, time, and headaches by following these guidelines before you make your next move.*

by DAVID HIRSCH

Movement is the name of the game in the radio & record industries. A glance at the "Changes" in the Classified section in this week's R&R will give you an idea of how much movement there really is in this industry, from town to town, state to state. To make your rise up the ladder of success a little easier, R&R has compiled a list of things you'll need to know about moving your possessions with you to your new gig. If you would like to save possibly hundreds of dollars take a look at the following information.

Moving long distance is going to cost money; however by choosing a moving company in the right way, you can save a lot of money. The best thing you can do is give yourself some time. It's difficult when you have to start the first of the month, but once you find out that you're definitely going, start your moving preparations immediately. You can save untold hours of annoyance and inconvenience by learning how complex a procedure moving is.

Just as radio is closely supervised by the FCC, moving companies have to answer to the Interstate Commerce Commission (ICC). The ICC has been cracking down increasingly upon moving company abuses, and they can offer some help to the potential customer. The ICC requires that the moving company must give every prospective customer a booklet entitled *Summary of Information for Shippers of Household Goods*. Despite the long title, the booklet can make things simpler. It contains a wealth of information about the ins and outs of moving, as well as a handy checklist of the services and paperwork you must deal with.

The Commission also requires every interstate moving company to file a report on its performance over the past year and to give you a copy along with the booklet. But don't be misled into thinking that you can look at the figure for each company and select the best to do your moving. Since it is the moving company that reports on itself, it seems probable that they give themselves every possible break. These reports make it difficult to decide which is the "best" company. Some companies perform well in some of the specified areas and fall down in others.

This is not to say that the reports are valueless. Figures have been published covering the 1974 performance of the nation's top 20 interstate moving companies: Aero-Mayflower, Allied, American, Red Ball, Atlas, Bekins, Burnham, Engel, Global, Greyhound, John F. Ivory, King, Lyon, National, Neptune, North American, Pan American, Pyramid, Republic, United and Wheaton. The averages they reveal provide several interesting results:

1. There is nearly a 20% chance that your stuff will arrive late. In fact, almost 10% of the shipments showed up more than five days late.
2. Odds are about even that the original cost estimate given to you will prove accurate.
3. In 16% of the moves, a loss or damage of \$50 was claimed.
4. On the average it took about 40 days to settle those claims.

## CUTTING COSTS

As you start putting your move into action you have to make two very important decisions:

1. How many of your things do you REALLY have to take with you?
2. Do you intend to pack yourself or have the movers do it?

At first thought you might be inclined to say, "What the hell, I'll just let the guys in and let them pack everything. It sure would be a pain to do it myself." However, opting for that convenience could cost you hundreds of extra dollars.

By getting rid of unneeded possessions and packing yourself, you insure a savings and you know everything you put into the boxes, so you can easily locate things when they arrive. However, you must start early, a difficult thing to do when your job starts in two weeks.

If you can't move yourself for whatever reason, here's some facts to consider. By law, moving companies must charge for EVERY service they perform in an interstate move. Don't expect to find one company performing for free what another company charges for.

## HAULING

The basic cost, which is the same for every moving company, is computed by the total weight and distance travelled. Though these rates vary slightly among individual movers, due to differences in first estimates, all are figured at so many dollars for each 100 lbs. For 4000 lbs.—the average for a young couple with no children—at the price of \$12.95 per 100 pounds and a distance of 1000 miles you would pay \$518. A move from coast to coast would cost you over \$1500 just for the truck to go door-to-door. The rate drops as the weight goes up, though. An 8,000-10,000 pound load, typical for a family of 4 or 5, might cost \$900 to \$1,100. Since only a few moderately heavy things, such as a couch or a dishwasher, make up 1000 lbs., it is obviously expensive to move anything you don't need.

Rates, although they come down with more weight, go up over longer distances. However the mileage tables that moving companies use are fairly standard, so the differences among companies will generally be minor ones.

## PACKING

The biggest extra cost, which comes as a surprise to many people, is packing. This is an area in which the ICC has few regulations, and prices are high. Charges are figured for both labor and boxes. Thus the charge for a box of records might be

\$3 for the box and anywhere from \$6 to \$10 for labor, depending on the rate in your city. Two big lampshades could easily cost \$10 to pack in 2 boxes. Since packers frequently use as many boxes as they can, the charges can easily reach \$300 to \$400. Remember, this is just for packing. We highly recommend that you pack yourself. You can buy special cartons—such as dish packs, wardrobes, mattress boxes—from the moving company. Sometimes you can buy used boxes at lower prices.

## Liability Protection

Although your belongings are now in boxes and on board the truck, you're not going anywhere until you get liability protection. This is to make sure your goods are insured against loss and damage. It's not a simple problem, and its best to talk to the moving agent you originally contacted. Have him explain to you exactly how much liability protection you have, and exactly how much you will get back for any damage or loss.

The standard liability protection of 60 cents a pound per article is nowhere near enough to pay for any damages. If your stereo, which weighs 75 lbs is shattered into a million pieces, you would receive a whopping \$45.00 from the moving company.

There are 2 ways to get extra protection. First, don't set a specific value on your goods. This increases the movers' maximum liability to \$1.25 times the weight of the shipment—a total value of \$10,000 on an 8,000 pound shipment. However, you are not limited to \$1.25 per pound per article. You can get a full value (up to the maximum) minus depreciation (something which must be haggled over during a claim dispute). The second method is to list the dollar value of everything you have, although valuables, such as jewelry and coin collections are excluded. In both cases this extra protection costs 50¢ per \$100 of value.

## Extra Charges

This is an area which is not regulated by the ICC and charges vary. However, the major firms are usually not too far apart. Make sure you ask the representative that gives you the estimate what the extra charges will be and ask him to compute them into the overall cost otherwise it might come as an unpleasant shock. Some of the things you may be charged extra for are:

1. Long carries—up to 75 feet from van to entry way of a single family home is allowed. For each additional 50 feet you will be charged.
  2. Stairs—when delivery involves carrying up or down one or more flights of stairs there is a charge for each flight.
  3. Elevator—there is an extra charge for the use of an elevator.
- Other extra costs involve the handling of pianos, organs, etc. Also if you move to a densely populated area such as New York or Los Angeles, you will be charged extra for slower travel in traffic and higher labor costs.

## Hiring a Mover

No matter how good a company you select, the success of your move will depend directly on the particular company, agent and driver you happen to get. Good companies, however, tend to have good agents and good drivers. Inquire around about the companies you are interested in, then ask two or three to send someone to talk with you and prepare the estimate of the move's probable cost.

**THE ESTIMATE:** This is essentially a rough guess at what your move may cost based on how much your goods may weigh and what additional charges you will have to pay. Make sure the estimator sees everything you want to move and knows about any special problems the movers may face. Bear in mind that any estimate by definition is inaccurate. You must pay for what your goods actually weigh when they are on the truck, whether that figure is lower or higher than the estimate.

Even so, you should get a written estimate and keep it. It will protect you when the time comes to unload your goods at your new home. The driver will not unload his truck until he is paid by cash, certified check, traveler's check or other guaranteed payment. He will not accept a personal check. So if you have only a verbal estimate that the bill will be \$1000 and it actually comes to \$1500, you would face the task of finding \$500 in a hurry. Otherwise, your furnishings would go into storage at extra cost, until you produce the money.

If you have a written estimate, however, the driver must unload his truck on payment of 110% of the estimate—\$1,100 in this case—regardless of how high the bill is. You have 15 business days to pay the rest. If the bill was over-estimated and you only owe \$850 instead of \$1,000, the driver probably won't be able to make change on the spot. He will accept your payment, give you a receipt and promise that your money will be returned soon. You can be reasonably sure that payment will be fairly prompt, since the ICC has warned companies that delays will result in stern action.

**THE PAPERWORK:** After you have picked a mover, you must also choose a span of dates during which the movers will pick up and deliver your furnishings. Talk this over carefully with the company's agent. Trucks carry several loads at once and must be coordinated. The agent will let you know as soon as possible when the truck is actually expected to arrive at your old home. You should give him (and later the driver) an address and telephone number where you can be reached in your new city so that you can be on the scene when the truck arrives.

## Moving Out and Moving In

If at all possible, be present when the truck is loaded and unloaded. If you can't, arrange to have someone who has your interests at heart watch what's happening.

During the loading operation make sure the movers take everything they are supposed to take. Point out to the driver each item you are leaving behind. Whatever you do, go through every nook and cranny of the house—closets, attic, cellar, garage, backyard—before the truck is closed to make sure that nothing is there except that you want to leave behind.

If problems arise with the driver or his helpers and you can't resolve them by calling the agent, dig out your little booklet from the ICC then and there. It contains a complete listing of ICC offices and telephone numbers around the country. Call the nearest one for help. If they can't solve the problem immediately, they'll get in touch with the agent or the headquarters of the company. If the local ICC office is unable to help, call the national office in Washington D.C.

Follow the loaded van to the scales, where you'll learn exactly what your goods weigh and get an idea of what the cost might be. Your presence will make sure that the weight is actual and was not taken (as some companies have been known to do) with the crew aboard. By law only the driver is supposed to be in the truck during the weighing.

At your new home, watch them take everything off the truck and make sure that you mention any missing articles or damage immediately and have the driver note it on the receipt. It will help in filing claims later on.

## Tax Break on Moving

Just about all the above expenses, including the cost of house-hunting trips before the move, are deductible. The tax break can be claimed even if you don't itemize other deductions on your return. However, the reason for the move must be job-related—because you are transferred by your present firm, are going to a new job, or are setting up a new practice as a self-employed person, i.e. consultant. Also, generally the new job must be 50 miles or more from your old home. Under those conditions, you can deduct:

1. The family's travel expense, including meals and lodging.
2. The cost of transporting furniture, appliances, other household goods and personal belongings. Included: charges for packing and crating, in-transit storage, insurance, shipping automobiles and pets.
3. Outlays for travel, meals and rooms on house-hunting trips.
4. Food and hotel or motel bills for up to 30 days in the new city if you have to wait to move into your home.
5. The costs of selling your old house or settling up a lease, plus the costs of buying or leasing your new home. You can deduct broker's commissions and similar charges.

**SOME LIMITATIONS:** There's a ceiling of \$2,500 on deductions for household trips, temporary quarters and selling and buying your homes. No more than \$1,000 of the \$2,500 is allowed for househunting and temporary quarters. If your company reimburses you for any expenses, that sum must be reported as income. You'll find other details of the rules in the Internal Revenue Service publication 521, *Tax Information on Moving Expenses*, free from the IRS offices.

## CONCLUSION

No doubt about it, moving is an expensive and complicated process. But by using the information detailed above, you can make it without too much of a headache and with your belongings in one piece. Now you can go to your new station with your mind free to worry about simple things, like the ARB.

## New Copyright Laws

Owners of copyrighted works are guaranteed better rules protecting their works under the new copyright revision bill. Any works registered after January 1, 1978 will be protected for the author's lifetime plus 50 years, and those copyrights now in existence will run for 76 years from registration date. Formerly, new copyrights were exclusive for only a total of 56 years. Other rules in the bill include laws requiring jukebox operators and cable TV systems to pay royalties on works reproduced, and stricter limitations on photocopying.

## Census Every Five Years

To supplement the U.S.A.'s every-decade Census, a mid-decade report will be made starting in 1986, as well as the regular Census taken at the end of each 10 year period. In the review of Census procedures, it has also been decided that jail sentences for refusal to supply census data will be eliminated.

## Illegal Employee Bribery

The National Labor Relations Board has told one U.S. company that bribing workers to inform on other employees is illegal. The case involved a company official who told one employee he would receive a raise if he would identify union supporters.

## Unlisted Phone Study

Research firm Trendex Inc. has issued a report on the validity of samples of unlisted phone households in research projects. The company concluded that results of surveys did not vary to any great extent when unlisted numbers were included in samples. Trendex explains that many households who believe they have unlisted numbers are actually included in phone books under names which previously held their phone number. The company also included in their research a list of findings about "unlisted" number users. The majority of unlisted households were in cities such as Los Angeles and New York, non-White, blue collar, less educated, younger and had less income than those regularly listed.

## Best Promotions Book

The "100 Best Sales Promotions of 1975-1976" has been published, outlining each of the year's best promotions, complete with illustrations, and agencies and personnel involved in putting together the promotions. The book is available from Crain Books, 740 Rush St., Chicago 60611. Price is \$19.95.

## Luring Execs To The Big Apple

New York companies are having a rough time luring executives to move to their city, but most have found that one thing will eventually change their minds; money. Lifestyle patterns may have something to do with the current problem, as more and more Americans are unwilling to move around at all, compared to the 1960's when executives and families moved more frequently. Some companies have had to offer up to thousands of dollars in premiums to urge execs to make the big move.

## Fast Food Menu Spreading

At least two popular fast food chains are testing expansion of their limited menus. Kentucky Fried Chicken is pre-testing the possibility of breakfast menus in their outlets. Also firmly planned is a new chicken, "Country Fair Recipe," which is a spicy version of the Colonel's famous line. It is currently being test marketed in Tulsa, Macon, and Pittsburgh. One McDonald's outlet in Chicago will introduce soup and salad items for the weight-conscious fast food consumer, although the entire chain has no plans at this time for such expansion.

## Zeppelin Film Debuts

Led Zeppelin's feature film "The Song Remains the Same" will be premiered Tuesday (19) in New York, starring the group's members and featuring concert sequences filmed in Madison Square Garden. The premiere is a benefit for the Save The Children Federation. The film was produced by Swan Song Inc.

## Dept. Store Boom?

Department stores nationwide have been having a boom period, with sales showing upward trends for the past year, according to a recent survey. Of the 16 major stores surveyed, all showed healthy gains for the first quarter of 1976, but experts at the research firm say that a slowdown in sales is expected in succeeding quarters.

## \$10 Mil. Dr. Pepper Budget

Nearly 20% of Dr. Pepper's \$10 million ad budget will go to radio buys starting this month. All spots will feature recording artists such as Chuck Berry, Lynn Anderson, B.B. King, KC & The Sunshine Band and Gladys Knight and the Pips.

## Supermarket Games

Premium offers and games are now being used by close to 60% of the top 100 supermarket chains in the country, according to trade sources. These type promotions seem to be replacing the usual discounted item sales pitch. Several A&P market divisions are offering free digital watches, calculators and other merchandise to shoppers in exchange for cash register receipts. Games used by some stores include "Super Cash Bingo," and a "Match and Win" poker-type game.

## "Great Songs Of Madison Ave."

Another new book lets the public in on the lyrics of some of their favorite commercial jingles of all time. The author developed the book because they felt that some of the great jingles of all time were "always interrupted by programs," and therefore supply readers with music sheets as well as lyrics to such all time greats as "Coke Adds Life," State Farm Insurance's "Like A Good Neighbor" and others.

## Media Payment Corp. Exits

Radio and television collection and billing company Media Payment Corp. will close its doors at the end of the year. The Katz Agency subsidiary said that they will cease operations rather than increase rates.

## 7UP's "Undo It"

The latest 7UP ad campaign, themed "UNdo it," kicks off this month, with initial budget set at \$1.5 million. The strategy for the ads highlights the soft drink's unique taste, in an offshoot of the "Uncola" theme, telling consumers to "UNdo" their cola drinking habits.

## Playing Games With Taxes

Executive Tax Service clients of H&R Block are receiving a new game designed for the company called "IRS." Object of the game is to avoid taxes on a big income. Game's winner is then named Chairman of the Board.

## Higher Social Security Taxes

Both employees and employers may have a bigger bite taken by the government for Social Security taxes. Because of delays by Congress in making tax increases, the administration may up the tax rate from 5.85% of income to 6.25% for both workers and employers. Those taxpayers who have higher income brackets can foresee even higher Social Security withholding taxes.

## [So You Can Understand It]

### FCC FURTHER MODIFIES BROADCAST RULES IN REREGULATION PROCESS

As part of its continuing reregulation of broadcasting, the Commission has made changes in a number of its rules.

In adopting its 14th Reregulation Order this week, the FCC:

— Clarified the "major change" determination of FM and non-commercial educational FM stations.

— Conformed Section 73.56, "Modulation monitors," to Section 73.55 "Modulation," to limit the percentage of modulation to no more than 100% of negative peaks of frequent recurrence, or 125% on positive peaks at any time.

— Transferred the requirement to continuously monitor the modulation percentage at the remote control point from Section 73.56 to Section 73.67, "Remote control operations," where it more properly belongs.

— Conformed the paragraphs regarding calibration of instruments in the remote control operation rules to those requirements in the extension meter rules for the AM, FM and noncommercial educational FM services.

— Added a new subparagraph to Section 73.186, "Field intensity measurements in allocation; establishment of effective field at one mile," detailing the widely used method of analysis from partial proofs of performance, rather than complete proofs.

— Starts, with this Order, to change the term "intensity" (in relation to AM field strength measurements) to "strength" wherever found in the rules.

— Redefined, and where possible, conformed the rules in AM, FM, noncommercial educational FM and TV services which provide for "experimental operation."

— Redefined the operator rules in the FM services allowing for part-time first class radiotelephone operators in stations with transmitter output power in excess of 25 kilowatts.

— Allows noncommercial educational FM licensees to use operators with third-class permits without broadcast endorsement, or holding restricted permits, to be employed at noncommercial educational FM stations of 10 watts or less, subject to certain operational restrictions.

The action, which amends Parts 1, 13 and 73 of the rules, becomes effective October 13, 1976.

Action by the Commission September 28, 1976 by Order. Commissioners Wiley (Chairman), Lee, Hooks, Quallo, and Washburn, with Commissioners Fogarty and White not participating.

## SECOND WEEK NIELSEN RESULTS

The new season's second week of new programming again saw ABC on top of the heap with a 21.5 Nielsen rating average, followed by NBC with a 19.4 and CBS' 17.2. The top 10 for the week were: "Happy Days," "Laverne & Shirley," NBC's feature "Dawn: Portrait of a Teenage Runaway," "Earthquake Part 2," "Bionic Woman," "Charlie's Angels," "All In The Family," "Rick Man, Poor Man Book II," "The Way We Were" movie feature on ABC, and "Baretta."

## OTHER TV NEWS

Overnight Nielsen's in Chicago, Los Angeles and New York showed Barbara Walters' ABC News debut coming in number one in all three markets... Ford/Carter Debate II showed a weaker overnight rating than the first in their series of debates. Total persons watching dropped close to 5 million over the first... "The Lorenzo & Henrietta Music Show," syndicated nationally by MTM Enterprises, is the first casualty of the season. The show has been cancelled after seven weeks of production... A new half hour variety series "The Don Ho Show" replaces "Hot Seat" game show on NBC... In other game show news, "Stumpers" and "50 Grand Slam" replace "Celebrity Sweepstakes" and "Fun Factory" on NBC... Fifteen Special Arbitron Television Market Reports show "Sanford & Son" as the favorite TV show of Blacks in the May 1976 sweep.

The last Manhattans' single, "Kiss And Say Goodbye" was purchased by more consumers (i.e. listeners) than any other single this year except "Disco Lady"

2,000,000 plus and still selling. That's a pretty broad base since only those two singles have been certified platinum this year.

Perhaps you should keep that unique consumer (i.e.: listener) acceptance in mind as you listen to the Manhattans' new single "I Kinda Miss You."

## Mike Harrison

Although it may not always be the most expedient thing to do, it might prove beneficial for broadcasters to make an effort to receive some internal exposure to formats other than their own. The concept of "crossover," which has become such a major musical factor within our industry, is beginning to apply not only to music but radio formats, mechanics, and philosophies, as well.

Radio broadcasters are the first to tell you that listeners from different places (geographical and/or sociological) will have developed varying tastes when it comes to their consumption of music. Quite often, this same concept applies to broadcasters in regard to the "schools of thought" to which they subscribe in running their radio stations and carrying out their careers.

It is within the operations manual of human nature to naturally think that where you've come from is "where it's really at" and that the qualities of whatever it is you've chosen to enter as a career were at their best when you first decided to enter the field.

As the old cliché goes, the only thing constant about the business of radio and records is change. When you add to the chronological change the concurrent geographical differences that spice up the broadcasting spectrum, it begins to seem that our so-called "schools of thought" are only as stable as the time and place in which they were spawned.

The age old concept of the generation gap also comes into play. Changes in society are occurring so quickly that the differences in people's perceptions, if anything, are increasing while the number of years in age between those obvious different plateaus of awareness is decreasing. We fall into the habit of trying to determine where people of different ages are by trying to remember where we were when we were that age or trying to project where we'll be when we get to it. Unfortunately, it doesn't work that way. We are really on a moving train on a track with moving stations.

The wise broadcaster calls upon his/her experience to find the universal truths of playing radio to people and use them as a structure to house totally transient methods and approaches in order to keep up with the forever swinging proverbial pendulum. It's kind of like being a re-fillable soft drink bottle.

### LETTERS:

## Format vs. Music

Dear R&R:

I enjoyed the observations Mike Harrison made in his column of 10/1, especially the "form and content" question—confusion of a musical genre and the on-air format presentation.

I've long looked on this question from a historical perspective—the evolution of Top 40 radio since the mid-50's. It was a useful coincidence, but a coincidence nonetheless, that married the new genre, Rock music, with the new format, Top 40.

But the alliance between Rock and Top 40 was uneasy at best. Although Top 40 radio satisfied two divergent audience groups, those looking for Rock and those looking for familiarity, it was inevitable that a genre-oriented format (AOR) would evolve, depriving Top 40 of a substantial segment of its audience.

With the Rock-oriented listener turning away from Top 40, it left the format with those listeners primarily interested in familiarity and repetition. Top 40 responded to this change in its audience base by cutting playlists even further and increasing repetition, sociologically a sound decision.

So I see our present state of affairs, Top 40 vs. AOR, as a direct result of crucial programming decisions made in the 1950's. Those individuals responsible for creating the Top 40 philosophy did not have to embrace Rock music as an element of their sound, but they did. Likewise, an all-Rock format without repetition could have happened in 1955, but it didn't. And here we are.

# Chart Summary

It was unusually close at the top with **WONDER** steamrolling into the number one position just edging out **BOSTON** by one of the closest margins in this chart's history. **STILLS/YOUNG**, last week's standard bearer, is still an airplay monster. **CLAPTON** came on like gangbusters. **AL STEWART** continues to show positive growth and acceptance and it looks like this could be the one to break the popular AOR artist. **TROWER** moved up nicely. **NUGENT** showed gains. **ROD** came on strong again. **PALMER** was the week's highest debut. **AMBROSIA** inched up. **CALE** had a good week. **RINGO** debuted. **BEBOP** continued to pick up airplay. **EW&F** had a very healthy week. **OZARKS** nudged up. **STYX** debuted. **CLARKE** continues to grow. **WAITS** debuted. **AUTOMATIC MAN** and **GORDON LIGHTFOOT** almost made the chart. There was a tremendous amount of airplay this week of singles, particularly **ELO**, **HOT TUNA**, and **DENNY LAINE**. (See Progressive Singles).

This chart is based solely on airplay and does not attempt to fabricate a trend. The artists in italics are those receiving the most rapid gain in airplay.

# RORY GALLAGHER CALLING CARD

Rory Gallagher has spent most of his time playing his guitar for millions of enthusiastic fans at concerts throughout the world. This week Rory's new album "CALLING CARD" debuted on Radio & Records airplay chart at #28. Program directors, music directors and dee jays across the country made this album one of the most added albums in the country. "CALLING CARD" has been touted by Billboard Magazine as "one of the best rock guitar albums of the season". There is no doubt about it, this is the Rory Gallagher album you have been waiting for. Millions of fans can't be wrong. Rory Gallagher's "CALLING CARD" is the most electrifying album of his career and stands out way above anything he's ever done.

Introducing the Ian Thomas Band to the AOR radio stations was easy. His debut album on Chrysalis was one of the most added albums in the country (Cashbox 10-2-76). KLOS in Los Angeles, WRIF in Detroit and WNEW in New York were some of the early adds. Bob Burch, National Program Director of Century Broadcasting cast his vote when "Goodnight Mrs. Calabash" was immediately added to KWST, KSHE and WABX.

Lee Arnold of WGVL, Gainesville, sums it up by saying, "Goodnight Mrs. Calabash is the first new LP in a while in which every cut stands out."

The Ian Thomas Band on tour in November.

# IAN THOMAS BAND GOODNIGHT MRS. CALABASH

# STEELEYE SPAN ROCKET COTTAGE

This is their most commercially accepted album ever. The first week of release it was the 6th most added LP in the country (Cashbox 10-9-76). Major market acceptance includes Denver, Boston, Hartford, New York, Philadelphia, Houston and San Francisco.

Steeleye Span is currently on its first major tour in America in two years. Already Denver, San Francisco and the Roxy in Hollywood have experienced the Steeleye Span show. The reviews have been nothing short of rave. Bonnie Simmons of KSAN danced the night away in San Francisco. Seeing is believing. Don't miss this exciting show when it comes to Boston-Oct. 15, Philadelphia-Oct. 16 & 17, Chicago-Oct. 18 & 19, Toronto-Oct. 22, Capital Theatre in Passaic-Oct. 23, Washington, D.C.-Oct. 26th and concluding at the Bottom Line in New York October 29, 30 & 31.

**Biff Collie**

## INSIDE NASHVILLE

**EDITOR'S NOTE:** Contributing R&R columnist Biff Collie has prepared some thoughts on the Country industry convention that happens in Nashville at this time each year. Your comments are welcomed.

**THE "GET-TOGETHER:"** In 1949, a dozen guys of us who played what was then called "Hillbilly and Folk" music on the radio, having corresponded and talked on the phone off and on for some time, agreed to meet in Nashville on a given weekend, visit the Opry, have a party and swap ideas about what we were doing on our jobs with Hillbilly music.

**JOE ALLISON, WMAK/Nashville, CHARLEY STOKELEY, KSKY/Dallas, BILLY STANLEY, WNOE/New Orleans, EAR DAVIS, KTHS/Hot Springs, Arkansas, BIFF COLLIE, KNUZ/Houston, JIM BROOKER, WMIE/Miami, TOMMY SUTTON, WONE/Dayton, SMOKEY SMITH, KRNT/Des Moines, AL TURNER, KLIF/Dallas, NELSON KING, WCKY/Cincinnati, and a couple more I can't think of, nor am I sure my memory is sharp enough to be sure these are exactly the ones and the places they worked are correct. Whatever the specifics, this was the first "convention" in Nashville. As a result of that first time, the following year there were two or three times as many, and after three years, if my memory is close, we had nearly a hundred "Hillbilly" DJ's coming together. It was about that time that WSM decided to incorporate their "Opry Birthday Celebration" into the time we all came in. It was, in fact, then known as a "DJ" convention, because it was started by and supposedly propagated for the people who were programming "Hillbilly" or "Western," or whatever the contemporary name for it was.**

We met at the **ANDREW JACKSON HOTEL** to talk. The lobby of the old Jackson was the "center" of the DJ convention because everybody knew they could find somebody who was at the convention if they would just go to the lobby of the Jackson for awhile. I have seen more than a few "awards presentations" be made standing in the lobby or corridor of the Jackson. The original "hospitality suites" were in the Andrew Jackson Hotel rooms. It was wild, unruly, unpredictable. The time **TEX RITTER** went to his room and found it on fire, losing everything he had brought with him... The time **JOE ALLISON** stood over a crumpled body of a "pickled" DJ on the sidewalk outside. The pained soul looked into Joe's eyes and said, "You were up there. Why didn't you stop me from jumping out of that second story window?" Joe said, "Hey man, you were bragging you could do it, and I was bettin' on you!"...**CMA** was formed on the mezzanine of the ballroom of the **A.J.**...**ROGER MILLER** was an elevator operator in the **A.J.** and legend has it that he once got **CHET ATKINS** on his elevator and refused to let him off 'til he listened to one of his songs...I met **ROY CLARK** on the elevator at the **A.J.** and both of us had hangovers the next day. The time we carried a well-known artist, who had over-shot his maximum alcoholic intake, mattress and all, into the hall on the 6th floor, then took pictures of him with well-known DJ's standing around the "body" with funeral expressions. The pic was a feature in the trades later.

It's not a DJ convention anymore. It's the "**GRAND OLE OPRY'S 51st BIRTHDAY.**" There are very few wild parties anymore. Not in public anyway. We have all grown too sophisticated to get excited about what has happened to our music, our business, our stations. It really is not our prerogative these days, they say; Country Radio Management, the corporate complex executive echelon make up most of the **CMA** boards these days, you see, and it's because the bosses have found it's the "in" thing, Country. So they spend thousands of dollars traveling around the world **AT THEIR COMPANIES' EXPENSE** to board meetings and committee meetings. Those early guys who came to the DJ Convention **PAID THEIR OWN EXPENSES** (there weren't national promo men to stay with or sponge room and board off of), and generally had to count time off as part of their vacation.

Now the convention is such a widespread complex affair, the activities are spread over a 25 mile radius of Music Row, that it's impossible to see everyone and make all meetings and parties and a **SELECT FEW** are invited to the awards banquets, certainly not disc jockeys (unless they are "heavies"). This has been happening for a number of years and so has the decline in interest and attendance of the disc jockey. In 1976, in a great part, the "DJ Convention" is, in relation to Country radio disc jockeys, who it started to honor, like having a birthday party but not inviting the guest of honor.

**CHUCK CHELLMAN** and his wife **GEORGIA TWITTY** started the Radio Invitational a couple of years ago, and now **CHARLIE DOUGLAS** and some guys have started **FICAP** (Federation of International Country Air Personalities). Now the Chellmans are building the **COUNTRY DJ HALL OF FAME** to honor the heavy DJ's. These are encouraging signs for the Country radio DJ's, and speaking with the guys who started it, we thank all these.

Hey, I've got a great idea! Let's pick a time and place and start a DJ Convention!

*Jim Duncan's column will return next week with convention coverage.*

## OCTOBER is **KWMT 540** COUNTRY MUSIC MONTH

October is Country Music Month. KWMT/Ft. Dodge Iowa sent their latest bumper sticker promotion which ties in with Country Music Month. The bumper sticker colors are bright red and white.

Baring your soul (?) to the Country. Miss Nude America 1976 paid a visit to WRCP/Philadelphia recently to promote her new movie "Miss Nude America." WRCP personality Nick Reynolds was the lucky interviewer.

Following a week-long engagement in Sparks, Nevada, Moe Bandy made a promotional trip to Los Angeles for his new "Here I Am Drunk Again" album on Columbia Records. Moe stopped in at Armed Forces Radio to visit with Gene Price, who also doubles as a DJ on KLAC, Los Angeles.

WNN/New York recently welcomed Loretta Haggars of Mary Hartman fame to sit in as a guest DJ with Larry Kenny on the morning show. Pictured (l to r) WHN Larry Kenney, WHN Program Director Ed Salamon, Loretta Haggars, Charlie Haggars, and WHN General Manager Neil Rockoff.

On a recent visit to Los Angeles, Epic recording artist Charlie Rich had a reception at his hotel suite for area radio industry people. Pictured (l to r) Jim Duncan, R&R Country Editor; KFOX Long Beach PD Jim Christoferson; Rich; KLAC Los Angeles Operations Director Don Langford; and KFOX air personality Pat O'Brien. Jim Christoferson was saying at the time of this photo, "A great time was had by all!"

Kitty Wells was recently re-united with longtime record producer Owen Bradley (R). Pictured above, the two are going over Kitty's new Capricorn single "Mary Hartman, Mary Hartman."

KSO/Des Moines' Little Red Pick 'Em Up Price Truck is back on the streets again. KSO air personalities drive around town in the truck searching for KSO bumper stickers on rear bumpers of cars. Upon spotting a bumper sticker, the jock calls in on a two-way radio to the station and describes to KSO and follows the instructions of the jock pulling over to the side of the road, he wins a prize right on the spot and becomes eligible for the grand prize which is the little pick-up truck itself. Pictured right, Perry St. John, KSO PD and left, an unidentified hitchhiker.

A Record Breaking Baby! Bob Fuller of WSLR/Akron sent us this clever birth announcement of his new baby boy, Stanley Heath Fuller, born September 16th. Our congratulations to Bob and his wife Jessica.

**KLAC NAMES MUSIC DIRECTOR**  
 Cathy Hahn was named KLAC's Music Director. The announcement was made by Operations Director, Don Langford, who stated that the appointment is effective immediately.

Cathy Hahn has been with the Metromedia Country Music facility in Los Angeles for one year. Her first assignment was that of assistant Music Director, which was followed to her present move into the program department.

Ms. Hahn has been associated with XPRS-Radio Sales and pre-programmed, automated radio format services; Programme Shoppe and Alto Communications.

## October is Country Music Month

October is Country Music Month in Kansas and around the world. Kansas Governor Robert F. Bennett signed the proclamation in his office at the Capitol in Topeka Wednesday September 30th proclaiming October as Country Music Month. Pictured above accepting the proclamation in behalf of the Country Music Industry in Kansas are KFDI P.D. Larry Scott (right) and KFDI News Director Chuck Hogan (center).

## O'Liners

**OCTOBER 15: GREENWICH VILLAGE POET LAUREATE CONTEST...** Once again I honor the occasion with my own poetic tribute: "There once was a poet quite terse/Who had an affair with his nurse/His love she inspired/But he grew very tired/Of jumping from bed to verse!"

**OCTOBER 15-21: NATIONAL JOKE TELLING WEEK:** To exchange jokes with neighbors & friends. I've finally come up with the ultimate joke of all time: You see, this Polish guy rides an elephant into a bar and sees a priest, a rabbi, and a minister with ducks on their heads... And then this drunk walks up to the Irishman and his mother-in-law and says to the farmer's daughter...um...wait a second, that's not right...(Pause)...I wonder if Henny Youngman's number is in the phone book?

**OCTOBER 16: FRAME WHATEVER DAY IN TUCSON:** To call attention to, celebrate and inspire the framing of unusual objects in this historic Southwestern city... That applies to anything but Rep. Alan Howe; he says he already was framed in Salt Lake City!

**OCTOBER 16: SWEETEST DAY...** Don't know what it's all about, but I'd suggest that in honor of the day you take an Osmond sibling to lunch!

**OCTOBER 17-23: NATIONAL BUSINESS-WOMEN'S WEEK:** To honor the U.S. working women... Guest speaker will be Elizabeth Ray, who will lecture on the subject: "When your employer starts giving you the business, should you take it lying down?"

Calendar, topicals, and lots of jock bits... For a free sample issue, write: O'LINERS, 366 West Bullard Avenue, Fresno, California 93704.

**DeVORZON & BOTKIN JR.**  
Nadia's Theme (A&M)  
An especially hot phone item still.

While WCBM morning man Lee Chase vacationed recently, his AM slot was filled by none other than Baltimore's Mayor William Donald Shaefer (right). Sharing in the early morning activities is WCBM's Jack Diamond.

Boston is not only a nice place to live, but it now appears to be getting musical attention in the form of a group with the same name. "More Than A Feeling" on Epic is showing good airplay action at WGAR, KIIS, K149, WLVA.

Jim Capaldi's record "Good Night & Good Morning" on Island picked up a couple of key stations this week...WSAV and WMGC.

Burton Cummings continues to get more and more airplay at the Pop/Adult level...see New & Active for the latest breakdown. Also note that in just one week of play at WMAL, Music Director, Bonnie Smith reports it as one of the very hottest.

Alice Cooper's "I Never Cry" is showing some very strong initial action. See New & Active for station breakdown.

Paul Delicato's "I Take A Lot Of Pride" looking a lot better with key adds at WNEW, KSL and WKHM.

Yvonne Elliman came close to sharing a hit with Helen Reddy several years ago with her version of "I Don't Know How To Love Him." Now, she appears to be well on her way to her very own hit record with "Love Me" on RSO. Check New & Active for station breakdown.

The new Mark Lindsay (now with Greedy) got a good shot in the arm with additions at WMAL, KFI, KITE.

The new Hall & Oates RCA record is "Do What You Want, Be What You Are." It should be shipping some time this week.

The Thelma Jones record is looking strong at WIP in Philadelphia and was just added at WGY.

Love Unlimited Orchestra's "My Sweet Summer Suite" still continues to build in terms of airplay...latest adds include WSB, KITE and WKHM.

Lots of talk and lots of play for Mercury's Philharmonic 2000. The record is "Disconcerto" and was just added at a bunch of solid Pop/Adult stations...check New & Active.

Lou Rawls, who is coming off possibly his biggest record ever with "You'll Never Find Another Love Like Mine" is getting very good play on his latest "Groovy People."

Rod Stewart's "Tonight's The Night" popped open in big fashion (see New & Active) this week. Early indication from many programmers is that this just may be his biggest Adult appeal record since the classic "Maggie May."

## AOR Hot Tracks

We have been asked by many Top 40 programmers to make available a summary of AOR consistently programmed current LP cuts. We are now introducing that feature, which will appear in this space weekly. These cuts will be the ones that AOR Radio has played in top rotation and in many cases is still playing. We will designate the cuts that have also been released to Top 40 Radio as a single with an asterisk (\*). This feature will aid the Top 40 programmer who wishes to consider LP product, and also aid in evaluating the success and familiarity level of a single that comes from an LP programmed heavily by AOR Radio.

- BLUE OYSTER CULT:** " (Don't Fear) The Reaper " \* " This Ain't The Summer Of Love "
- BOSTON:** " More Than A Feeling " \* " Hitch A Ride "
- CHICAGO:** " If You Leave Me Now " \* " Once Or Twice "
