Administration Official Defends Spectrum Tax

Trade rep Kantor says \$4.8 billion fee not 'set in stone,' but offers no alternative

U.S. Trade Representative **Mickey Kantor** last week stepped up talk of a \$4.8 billion tax on broadcasters to make up part of an expected \$14 billion shortfall resulting from the GATT international trade agreement.

Kantor defended what he called the "so-called tax" in a speech Wednesday (5/25) before the Heritage Foundation, a conservative think tank.

"Right now, if you want a new portion of the spectrum . . . you must pay for it," Kantor said. "If you already own part of it or if you have a license from the people of the United States, last time I looked, it's the people's airwaves. It's not for private property. The fact is, you didn't have to pay anything."

He noted, though, that "some might argue" the fairness of such an idea.

'Not A Tax'

"All revenue that comes in is not a tax," Kantor said. "This is to cover costs. The

fact is, the CBO [Congressional Budget Office] scores it not as a tax, but . . . as a program cut. And so, therefore, it's at the other side of the ledger."

According to the CBO, "offsetting receipt" is a term that includes such things as program reductions and fee increases.

Although he did not offer any alternatives, Kantor said the idea of a spectrum royalty is not set in stone. "Somebody's going to walk out of

April Radio Revenues Up 9%

Dollar gains seen in all regions

Radio revenues sustained their upward momentum in April with a 9% gain, according to RAB figures. Local sales rose 9%, and national spot revenues were up 7%.

RAB President **Gary Fries** expressed optimism that the revenue gains would continue. "This summer's flood of new beverage introductions bodes particularly well for radio in the coming months," he noted.

Local revenues were up across the board. Three regions — the East, Midwest, and West — had gains of 10%, while the Southeast and Southwest were each up 8%.

National spot sales were also up in every region, although the Midwest managed only a 1% increase over April 1993. The biggest increase was in the Southwest (19%), followed by the Southeast (14%), then the East and West (7%).

Four months into 1994, total radio revenues were 12% ahead

of last year. Local sales were up 11% and national spot 13%.

RAB's calculations are based on data provided by the accounting firms of **Miller, Kaplan, Arase & Co.** and **Hungerford, Aldrin, Nichols & Carter.**

CHR Leads '94 Revenue Growth

CHR, after taking significant hits in both ratings and revenues over the past few years, appears to be turning the corner in terms of dollars. According to a **Miller, Kaplan, Arase & Co.** survey of revenue growth through the first four months of 1994, CHR led all formats with an 18% growth rate for that period. This improvement follows a modest 7% gain last year and three years of double-digit declines prior to that.

Oldies, CR music big in Winter 1994

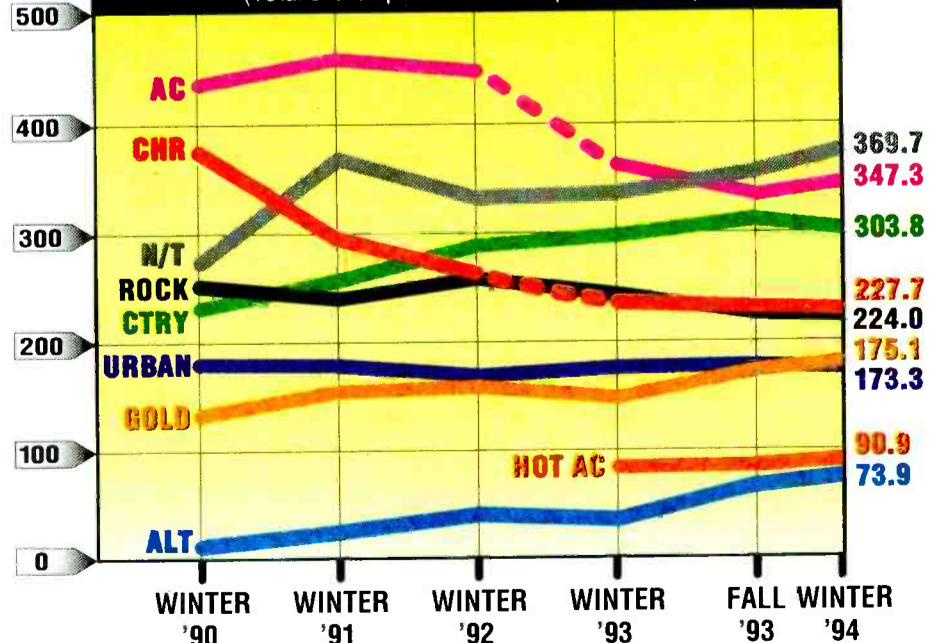

R&R's exclusive Winter '94 Format Performance Review indicates that plenty of listeners in the Top 30 markets have turned to favorites of the '50s, '60s, and '70s. In the last year, Gold and Classic Rock have added 17.9% and 17%, respectively, to their cumulative audience shares. And favorites of the 17th, 18th, and 19th centuries are also doing well — Classical gained 13.3% over the same period.

There are a couple of bright spots on the new music front: Alternative nearly doubled its audience in the last year, while

Bolinger GM At KFMB/SD Combo

Former KKLQ-AM & FM/San Diego GM Bob Bolinger has joined crosstown KFMB-AM & FM in a similar capacity. He succeeds Paul Palmer, who exited the Midwest Television-owned combo several weeks ago. The AM is a Full-Service station; the FM, currently in the third week of a "format-a-day" stunt, is expected to unveil its new format Monday (6/6) (see Street Talk, Page 17).

KFMB Stations President/GM Arnold Kleiner commented, "We're fortunate to land a guy like Bob. He's one of the best leaders and motivators in radio. KFMB looks forward to sharing in Bob's very successful San Diego history."

Radio Big With Little Kids

■ Medium reaches 91% of 2-11 children

Despite being overwhelmed by an intense array of multimedia entertainment and education options, 91% of 2-11-year-old kids find time to listen to radio, according to a "Family Radio Listening" study that was jointly sponsored by Arbitron and Children's Satellite Network and conducted in Minneapolis last fall.

Among the conclusions:

- The 91% audience penetration level for kids compared to 95% for teens and 98% for adults.
- Kids tended to be light listeners, spending about seven hours a week with radio. In com-

parison, Minneapolis teens spent about twice that amount listening to the radio during the fall, while adult women spent about 21 hours and adult men 24 hours.

• Kids' listening patterns were similar to those of teens . . . listening peaked in drivetimes and fell in middays during the week. On weekends, listening peaked during the 10am-3pm daypart.

• Households with kids spent more of their time listening to a radio in their cars than 12+ listeners in all households. This higher in-car listening was even more pronounced for the children's-formatted station.

Response Encouraging

The study is among the precious few radio research projects involving listeners below age 12. The project report said seven-day diaries have been successfully used with children in Canada, the United Kingdom, and Australia, but admitted that "acceptance of this method for children's measurement in the considerably more complex U.S. radio environment requires new methodological investigation."

Despite that admonition, Arbitron was able to come up with a remarkable 60% response rate for the youngsters, who were allowed the help of their parents in filling out their diaries. The proportion of in-tab diaries returned from kids almost perfectly matched the actual 2-11 population of the Twin Cities market.

RAB Reconfigures Dues Structure

The RAB has altered its decades-old dues structure to accommodate the realities of radio ownership in the '90s. Instead of basing a station's dues on its average unit rate, the bureau will now place its members into one of 12 revenue classifications based on the previous year's gross revenues for all commonly owned stations in a market.

"This new RAB dues plan is the result of a four-year study to

FCC Requests \$21 Million Hike In 1995 Budget

Although FCC user fees were signed into law only 10 months ago as part of the government's 1994 budget, Chairman **Reed Hundt** has already raised the possibility of a budget increase next year to pay for additional Commission staffers.

In a House Telecommunications Subcommittee hearing Thursday (5/26), Hundt asked for a \$21 million hike (12.5%) in the FCC's proposed 1995 budget — from \$167.4 million to \$188.4 million. The extra cash would be used to add 251 staffers. Of the \$188.4 million, \$116 million (61.5%) would come from broadcaster fees, up from \$95 million (56%) in the original budget.

Hundt said the FCC was "burning the midnight oil" and it was "impossible" to do more without the increase. If he gets his way, the Commission will add 77 employees to the Mass Media Bureau, 124 to Common Carrier, 44 to Private Radio, and six to the General Counsel's office.

Citing an example of the backlog on M Street, Hundt said about a quarter of the 4000 applications processed by the FM Branch in 1993 were contested and took an average of 24 months to resolve. By bolstering Mass Media, Hundt said the FCC would "virtually eliminate" backlogs in AM and FM licensing and reduce backlogs of EEO reviews.

[John] Dingell will have a large say on whether this proposal sees the light of day.

—NAB's Doug Wills

Who'll Pay The Bill?

Although subcommittee members seemed sympathetic to Hundt's request, a couple of Republican members expressed reservations about how to pay for it.

"That [funding the increase with user fees] would require changes in the current statutory framework," said Rep. **Jack Fields** (R-TX), the panel's ranking minority member. "I think you're going to need to examine this proposal closely."

"Every agency of the government faces a tight budget," noted Rep. **Michael Oxley** (R-OH). He questioned why the FCC should "be an exception to premise."

chael Oxley (R-OH). He questioned why the FCC should "be an exception to premise."

Unfair Raise

Although fee increases were not discussed in any detail, Hundt's prepared testimony noted that the premise behind the introduction of FCC user fees was that "those subject to the policy, rulemaking and enforcement of activities of the Commission should provide the funding base for its efforts." Commissioner **Andrew Barrett**, in a written statement, said that "increased funding derived from user fees should prove very helpful in the long term."

Any increase in FCC user fees would have to pass through the subcommittee's parent, the Energy and Commerce Committee. Chairman Rep. **John Dingell** (D-MI) has previously expressed doubts about any fee increase. "Dingell will have a large say on whether this proposal sees the light of day," said NAB spokesman **Doug Wills**.

While NAB supports the FCC receiving adequate funding, it has said it would be "unfair to raise these fees again, even before the first round of fees are collected." The FCC recently announced a fee collection schedule, beginning in July.

EARNINGS

Malrite, CBC Post Reports

Malrite Guaranteed Broadcast Partners L.P. reported a net loss of \$1.6 million (\$1.51 per beneficial unit certificate) for 1993, compared to a loss of \$1.2 million (\$1.10) in 1992. Total revenues were \$4.2 million, down from \$6.2 million.

MGBP has a deal pending to sell its only property, **WJJZ/Philadelphia**, to **Pyramid Communications** for \$20 million. Its filing with the SEC said that sale is expected to close this summer. Once that closing occurs, MGBP expects to distribute approximately \$18.87 per unit to its investors. That works out to about \$744 for each \$1000 initially invested in 1987.

The company attributed its 1993 revenue decline to a format switch in March 1993, when **CHR WEGX** became "Smooth Jazz" **WJJZ**. The filing said that although initial ratings after the format switch were encouraging, they later leveled out. **WJJZ** was the only remaining Malrite station after **Malrite Communications**

was taken over by **Shamrock Broadcasting**. None of the other stations had been owned by the publicly traded partnership, which was managed by Malrite.

Children's Consolidates

Children's Broadcasting Corp. (Nasdaq Small Cap: AAHS) reported a first-quarter net loss of \$937,000 (18 cents per share), compared to a loss of \$591,000 (24 cents) a year ago. Net revenues were \$756,000, up from \$102,000.

"The company continues to invest in building its national network," said President/CEO **Christopher Dahl**. "We believe expenses should decrease and advertising revenues will continue to increase as the year progresses due to the consolidation of our Los Angeles network operations into the new Minneapolis headquarters."

Children's Broadcasting owns seven radio stations and is acquiring another. It produces and distributes the **Radio AAHS** network, which the company said is now carried by stations in 17 markets and reaches 19% of the U.S. population.

When It Comes To Building Radio Brands...

We Wrote The Book.

The NAB knows the importance of branding in today's multi-media world. To help broadcasters survive in this fiercely competitive environment, they decided to publish a definitive handbook on building radio brands -- a book that would be an invaluable resource to every manager today, as well as in the future. The NAB turned to Stratford Research, the recognized authority on branding, to write the book that represents the next generation in strategic thinking for radio.

THE FRANCHISE is a must-read for all managers who are interested in rising above the pack and competing on the next level -- as a branded market franchise. You can order your copy from the NAB at 800-368-5644.

FCC Extends LMA Report Date

LMA and duopoly stations were given an extension by the FCC on the due date for Form 395-B (the Annual Employment Report), along with guidelines on who reports what in LMA situations.

The form was due May 31. That's now been extended until 30 days after the ruling by Mass Media Bureau Chief Roy Stewart appears in the *Federal Register*: "Employees hired in concert with time brokerages and LMAs should be reported on the Form 395-B submitted by the licensee that employs them." Stewart's ruling was

in response to questions raised by several law firms.

Thus, the brokering station should list all of its employees — even those programming the LMA'd station. And if the broker isn't a licensee, the form doesn't need to be filed.

In the case of duopolies, a form must be submitted for each station. Employees working for more than one station should be listed under the one where they perform their primary duties. When their duties are divided equally between two or more stations, one station's form should list all of the equally shared employees.

Gammon Sham Alleged

Two of broker/station owner Tom Gammon's employees have resigned and returned two FM construction permits to the FCC after a California competitor accused them of acting as sham fronts for Gammon.

KZXY-AM & FM/Victorville, CA GM Jonathan Stephenson (who is leaving the Gammon-owned combo) and former Gammon CFO Althea Bauers broke with Gammon and hired their own legal counsel after **KHWY/Essex, CA** owner Howard Anderson petitioned the FCC to deny

Gannett In Stock Buyback

Gannett Company Inc. has announced plans to resume its existing share repurchase program, which was originally initiated by Gannett's board of directors in 1988.

The program authorized the repurchase of up to 7.5 million shares or \$250 million of its common stock. "At current prices, Gannett's stock represents an attractive investment opportunity," commented Chairman/President/CEO **John Curley**.

The company has repurchased 4.5 million shares for \$158 million. The shares will be repurchased on the open market or in privately negotiated block transactions.

Deadline Set To Top Tak Bid

A federal bankruptcy judge has given bidders until June 20 to top a \$50 million cash bid from **EZ Communications for Tak Communications' WUSL/Philadelphia and WTPX/Miami**.

EZ was the top bidder in a private effort to market the stations. But Tak is in Chapter 11 bankruptcy reorganization, and the court wants to be sure that creditors are getting the highest price possible.

Would-be bidders will have to offer at least \$52.5 million — all cash with a \$2.5 million downpayment — on substantially the same terms as EZ's bid.

the sale of their CPs in Lenwood and Baker, CA to Gammon. Anderson charged that Gammon, who already owns an FM in each community, had directed and financed the CP applications by his employees.

Through their new attorney, Stephenson and Bauers told the FCC they had relied on Gammon and his lawyers for advice and didn't knowingly try to mislead the Commission. Then they dropped a real bombshell — returning both CPs for cancellation.

Tom Gammon also has a new lawyer — his father, **Jim**. The elder Gammon told R&R that he's preparing a response, but insisted, "Everything Tom did was legal."

Jive Adds Two Promo Directors

Denise George has joined Jive as Director/National Pop Promotion, and Marco Navarra has signed on as National Director/Crossover Promotion.

George Navarra

Sr. VP/Pop Promotion Jack Satter stated both would be "working closely with" him — George on "developing and executing all Jive priorities in the Midwest and beyond," and Navarra on "setting up and executing all promotional activities relating to crossover radio and beyond." He praised both for their "vast knowledge."

George joins the firm from East-West, where she was National Director/Pop Promotion. She'd previously been A&M's Midwest Promotion Director.

Navarra comes from the National Promotion Director post at Next Plateau, which he joined after serving as Asst. Director/Crossover-Dance Promotion at Atlantic.

Cline Now Motown VP/Sales & Dist.

Motown Records West Coast Regional Sales Manager David Cline has been upped to VP/Sales & Distribution.

Label Exec. VP/GM Oscar Fields commented, "I've known and worked with David

Cline

Cline for over 15 years, beginning with Elektra/Asylum. I have tremendous respect for him personally and professionally. He has a great business acumen and brings a wealth of knowledge and expertise to the position."

Cline has held key sales positions at a number of music companies, including Elektra/Asylum, Pickwick International, and Nelson Entertainment since beginning his career at Capitol Records. He joined Motown nearly four years ago.

The label has also filled a number of other positions within the sales department: Tony Gaspard has been promoted to National Single Sales Manager, PolyGram Group Distribution Los Angeles sales rep Jamon Green has joined as Western Regional Marketing Manager, PGD New York rep Aaron Talbert comes aboard as Eastern Regional Marketing Manager, and Denise Grundy has been promoted to Merchandising Coordinator.

NYC Tastes 'Forbidden Fruit'

RCA/Novus Records recently celebrated the release of Marion Meadows' "Forbidden Fruit" LP at NYC's B-Smith's. Seen on the scene were (l-r) comedian Terry Hodges, RCA's VP/Black Promotion Michael Halley, Alexandra Zamor, and Bob Anderson, Meadows, and RCA's Marla Roseman and Paul Ramey.

Programming Changes At Rich Rock, N/T Buffalo Stations

Hager becomes WGRF & WUFX OM; Richards recruited as WUFX PD; Parks named N/T WGR PD

Rich Communications has made significant changes to the programming team at its Buffalo duopoly. WGRF (97 Rock) PD John Hager has been elevated to OM of 'GRF and Rock partner WUFX; WQLZ/Springfield, IL programmer Vince Richards has signed on as PD at WUFX; and KTDY-KPEL-AM & FM/Lafayette, LA OM Darryl Parks has joined News/Talk WGR as PD.

The realignment follows the departures of former Rich OM/WGR programmer Chuck Finney, who is now VP/Programming at Secret Communications, and WUFX PD Bob Richards, who now is PD at KBPI/Denver.

"Looking for a replacement for Chuck Finney took over three months," noted Rich Exec. VP/GM Jim Meltzer. "John has been successfully programming 97 Rock for six years. In that time, he has demonstrated not only the technical expertise to oversee both stations, but the people-management skills to manage other managers."

Carls Becomes PD At N/T WLAC (AM)

WGY/Albany-Schenectady OM Kelly Carls has been appointed PD at News/Talk WLAC/Nashville. Carls will take over the programming chores, which had previously been split among a number of station personnel, early this month.

"We're delighted to have someone with Kelly's credentials sitting in the PD chair," commented Keymarket VP/Programming Frank Bell. "Under his leadership and that of newly appointed GM Pat Rosiello, we're looking forward to helping the station to better serve its listeners and advertisers."

Carls joined WGY in 1990 and has been its OM for two years. His previous experience includes stops at KMBZ/Kansas City, KTRH/Houston, and KRMG/Tulsa.

"Darryl has the brains, the desire, and the aggressiveness to take WGR to the next step in its growth."

Regarding Vince Richards, Hager said, "Vince was the clear choice. He has the vision and leadership characteristics that seem like a perfect fit for the Fox. Besides, it made sense to hire another guy named Richards and save money on printing new mailbox and parking space signs." Richards will assume his WUFX duties July 5.

Hager, before being named PD for WGRF, was Operations Director at WYSL & WPHD/Bufalo, an air personality at WGRQ/Bufalo and WCMF/Rochester, and programed WCJW/Warsaw, NY.

Parks was OM at WIRL/Peoria, IL and worked at WENS/Indianapolis and WYSL & WPHD/Bufalo.

there to be served. That includes traditional, digital, and interactive," Solomon told R&R. "I have always adored radio because it's a pure programming medium. There's nothing to look at, so there are no special effects . . . it's got to be great in order to work."

She also pointed out that audio programming continues to be a fundamental function of SW's investors. "If you look at Sony Music or the Warner Music Group, audio accounts for a substantial portion of both companies' revenues. Audio is not overlooked here — it's a critical piece."

Solomon acknowledged she'll also be running a video music channel that Sony and Warner are investors in, but she declined comment on any possible synergy between it and SW Networks except to say, "Clearly there will be a close working relationship."

Sony Corp. President/CEO Michael Schulhof remarked of SW's CEO, "We're thrilled at getting someone of Susan's caliber to run this new venture. Her diverse ex-

Nash Rambles Over To WZRQ/Albany As OM

Longtime WPYX/Albany afternoon driver Cliff Nash has taken the OM post at crosstown Z-Rock affiliate WZRQ.

"I'm very excited about this opportunity," Nash said. "After 15 years doing mainstream Rock, I feel like I've traded in my old, safe, dependable sedan for a bright red 140mph convertible."

Nash's plans for the station include localizing morning drive in the coming weeks and eventually adding more local dayparts. Nash joined WPYX in 1980 and returned for a second tour of duty after a two-year stint as a swing personality/promotions assistant at WMMR/Philadelphia.

Shields VP/Artist Relations At WB

Pat Shields, a six-year Warner Bros. Records veteran, has been elevated to VP/Artist Relations, Black Music.

WB Sr. VP/Artist Relations Carl Scott said, "Pat Shields is, quite simply, one of the best and brightest professionals in the field of artist relations. Her contributions to this department are numerous."

Shields, who had previously been Director/Artist Relations since 1992, began her career in radio at WNEW/New York in 1974. She joined Atlantic Records a year later and eventually worked her way up to Director/Product Management & Artist Relations in 1988. Later that year, she joined WB as Manager/Artist Relations.

Benson Gets Tuff Break Radio Promo Post

Barry Benson has been appointed National Director/Radio Promotions at Tuff Break Records. He'll be based at A&M's Los Angeles offices, where he works Tuff Break's acts to "pop and urban community mix shows and college stations."

He's been at Tuff Break since leaving Hollywood Records earlier this year. Benson still hosts a mix show at the University of California's KUCR/Riverside, where he began his career in the music business.

Dougherty, Frank Named McGavren Guild VPs

McGavren Guild/New York has promoted both of its Regional Managers/co-Directors of Sales, Dan Dougherty and Howard Frank, to VP. The pair will continue to oversee all sales activities of McGavren Guild's New York sales staff, as they have done since 1992.

"During the past year and a half, Dan and Howard have exhibited exemplary leadership in achieving a high performance level for McGavren Guild's New York office," commented McGavren Guild Radio President Peter Doyle. "I'm very pleased to have them leading our sales efforts in New York."

Both execs joined the company as AEs: Dougherty in 1988 and Frank in 1989.

perience in the entertainment business makes her appointment especially appropriate in today's fast-changing media climate."

Solomon joins SW from MacAndrews & Forbes, where as Exec. VP of the Andrews Group she helped expand the company's media and entertainment holdings, in-

cluding Marvel Entertainment and New World Entertainment. Before that, she was a principal in Trillium Media Ltd. and senior investment banker with MMG Patricof & Co., where she specialized in entertainment and media. She also held executive positions with CBS Inc. and Warner Communications.

'ZINE SCENE

Bennett: Red Hot Chili Poppa!

That's what *Entertainment Weekly* calls Tony Bennett, who merits four pages. Elvis Costello, who appears on Bennett's "MTV Unplugged" special, tries to explain the legend's appeal: "He gives you complete confidence. He just makes you feel like you can do it."

Neither Phish Nor Floyd

Phish drummer Jon Fishman notes, "If you pursue what you love, all the material things will fall into place. When we start thinking about 'How do we make this album big?' instead of 'How do we make it good?' that's when our decline will begin" (*People*).

"I just want to make nice music that I enjoy listening to, and people can either come along or not. I've been at it for too long to be concerned by other people's views of the way we ought to be doing things" — Pink Floyd's David Gilmour (*Rolling Stone*).

Poring Over Gen X

Newsweek's Generation X cover story spotlights Matador Records co-Presidents Gerard Cosloy and Chris Lombardi, Spin Doctors singer Chris Barron, Dr. Dre, Queen Latifah, Liz Phair, Eddie Vedder, and saxman Joshua Redman, who scores an entire feature this week in *Time*.

Speaking of Barron, he tells *Rolling Stone*, "Lyrics aren't usually poetry, but every once in a while they are. The lyrics to 'More Than Meets The Ear' on this [new] album are also a poem. That's special. I wrote the lyrics to be held under the microscope, so anyone who wants to pore over them can." Line forms at the rear.

Drugs On The Market

Howard Stern writer Jackie "The Joke Man" Martling tells *High Times* he first tried pot back in 1967, between one of his band's sets. "When we went back in to play, I felt like I was drifting out over the dancers on the floor and engulfing them with our music. Marijuana seemed like a miracle drug."

The Meat Puppets' Curt Kirkwood says, "You can drop a hit of acid and have it out of your system in an hour and a half onstage," but he cautions against it, "because the neck of the guitar starts to flex uncontrollably in your hand... the thing'll try and bend over backwards and strike you in the face. It'll try and tie a knot with itself and your arm. It'll grow simulated necks and arms. It takes a lot of strength to move 20 sets of hands" (*High Times*).

Each week R&R sneaks a peek through the nation's consumer magazines in search of everything from the sublime to the ridiculous in music news. R&R has not verified any of these reports.

Weeds In The Soundgarden

"Even from the beginning, no one could be a worse critic than we were," says Chris Cornell, singer of *Rolling Stone* cover band Soundgarden. "Our worst fears and nightmares about the industry and fans and the paparazzi were always worse than the reality... Even if we had been an overnight success, we still would've been able to deal with it better than a lot of people do."

Cornell

Big City Livin'

The *New Yorker* talks with WNYC Communications Group President Steve Bauman about Classical WNYC-FM. The station — which doesn't sell airtime despite its commercial license — was singled out by NYC Mayor Giuliani as a salable \$45 million asset. Bauman fears WNYC's half-million listeners — and particularly its 65,000 members — won't send donations if they believe it's on the block. "They never thought of it as a commercial asset — and it isn't. But one component of it — the license — is," he frets.

Vogue offers 11 pix of David Bowie and Iman's L.A. pad.

Billy Joel offered to put his tour on hold if Christie Brinkley would return to him — for the sake of their child and the others he wants to have (*Star*).

But The Little Girls . . .

"I'm finding out little girls can be very strong," says All-4-One's Tony Borowiak in *People's* look at the quartet. "When five of them get a hold of your arm, they can lift you up."

Lisa Loeb tells *Interview*, "When I write songs, I take a situation in my head and make it the saddest that it can be. But I actually think it's fun to have a boyfriend. It reminds me of when you're in second grade and you have a partner, somebody that you hold hands with and walk to lunch."

Madonna's Mentfolk

Madonna and Arsenio Hall will co-star in a movie about interracial lovers due to start filming this fall (*National Enquirer*). The *Star* says Madonna's installed a '50s-style beauty salon in her house, complete with metallic turquoise upholstery and bubble hair-dryers. She used to share it with bottle-blond Dennis Rodman, but now she says he's "dumped" her.

COMING ATTRACTIONS:

This week's openers include "The Cowboy Way," starring

Woody Harrelson and Kiefer Sutherland. Look sharp for an on-screen appearance by Travis Tritt, who also performs the title track on the film's 550 Music/Epic Soundtrax LP. Selections by the Gibson/Miller Band, Cracker, Blind Melon, and others round out the album.

Also opening this week is "The Endless Summer II," starring surfers Pat O'Connell and Robert "Wing Nut" Weaver. Guitarist Gary Hoey scored, produced, and plays on the film's Reprise soundtrack, which also features bassist Tony Franklin, drummer Greg Bissonette, Latin percussionist Poncho Sanchez, and "King Of The Surf Guitar" Dick Dale, among others.

Rounding out this week's openers is "Renaissance Man," starring Danny DeVito as an unemployed ad exec who teaches English literature to army recruits, including one portrayed by Mark Wahlberg (aka Interscope/AG act Marky Mark).

Format

Continued from Page 1

NAC broke out of a lengthy slump in the winter sweep. Country and Urban posted marginal gains this book, while AC, CHR, and Rock each suffered relatively minor declines. And for Beautiful Music, which was the seventh most popular format just four years ago, it's time to pay our last respects: The format slipped to 6.8 total shares this book and will no longer appear in this summary.

New Leader

The fragmentation of AC (see below) allowed News/Talk to advance into the No. 1 spot for the first time ever. In fact, this marks the first time any format other than AC has claimed the crown.

This edition of the Format Performance Review is the first to incorporate the Hot AC/Adult CHR format. To provide historical reference, stations that would have been considered Hot AC during the Winter '93 and Fall '93 books were removed from their respective formats' totals (represented by broken lines on the accompanying graph) and used to compile year-to-year and book-to-book Hot AC figures. The Progressive format continues to be included in the Rock format's totals.

Format-By-Format Analysis

AC: A leaner, meaner AC format scored a healthy 3.9% increase this book, although it's still off 3% from last year. For comparison, had the format's reclassified Hot AC stations

been included, the format would be just 4.9% off its figures from two years ago and 6.3% off its winter peak three years ago.

► **Four-year trend:** 436.0-347.3 total shares

Alternative: A 6.9% book-to-book gain closes out a phenomenal year in which the format saw its shares skyrocket 91.5% over Winter '93 levels, an improvement no doubt paced by the appearance of Alternative stations in six new markets since last year.

► **Four-year trend:** 19.8-73.9

Big Band: The format had been steady in recent years, but a 7% decline this book capped off a year in which Big Band's numbers dropped 11.3%.

► **Four-year trend:** 96.6-81.5

CHR: One station's defection to Hot AC this winter cost CHR its first book-to-book increase since Summer '91. In any case, after a three-year slide that cost the format 36.5% of its winter listening, a modest eight-share (3.4%) dip over the past year is welcome news, and the thinning of the ranks has left those remaining with a healthy average share per station.

► **Four-year trend:** 371.2-227.7

Classical: The format's starting 21.7% fall increase was no fluke — it was able to hang on to all but one of its new shares despite losing a station in New York. This winter's performance was nearly 14% better than its scores the past two winters.

► **Four-year trend:** 52.0-59.8

Classic Rock: Coming off an all-time high performance in the fall, Classic Rock scored its best winter numbers ever this time around: 17% better than last year, 18.7% above two years ago, and up 21.1% over three years ago.

► **Four-year trend:** 106.7-124.0

Country: Its meteoric rise may be leveling out — the format's Winter '94 numbers were down 2.1% from last book and up only 2.3% over last year. Still, Country has a higher share per station than any other format.

► **Four-year trend:** 234.6-303.8

Full-Service: In 1991, the format's winter book was up 46% from the fall. In '92, it was a 26.3% increase. In '93, a 30.7% gain. In '94, a 5% decline. A foreboding omen for a format that scored its worst performance in the FPR's four-year history.

► **Four-year trend:** 84.6-69.1

Gold: Gold scored its best numbers ever, up 3.9% over Fall '93 and 17.9% over last winter. But with the recent influx of '70s-based stations and a historical tendency for Gold numbers to increase dramatically in the spring, the best may be yet to come.

► **Four-year trend:** 137.3-175.1

Hot AC: The fledgling format made an auspicious debut, grabbing 3.6% of total shares out of the box. Hot AC also exhibited good growth this book, increasing 11.3% over a pro forma fall figure.

► **One-year trend:** 81.4-90.9

NAC: The addition of three new markets provided NAC with its best showing since Summer '92 and put

an abrupt end to its recent slide. In one book, the format gained back all the shares it had lost in the last two years.

► **Four-year trend:** 55.3-54.6

News/Talk: This winter's harsh East Coast storms sent News/Talk's total shares soaring in Philadelphia, Washington, and Long Island, helping push the information stations to their best book since Fall '92 and their best non-fall book ever.

► **Four-year trend:** 274.9-369.7

Religious: The format has ventured outside the 20-26 share range only twice in the last four years, and this winter's share is exactly the same as last winter's.

► **Four-year trend:** 21.9-24.7

Rock: Since reaching its most recent peak in the latter half of 1991, Rock's share of the market has been slowly eroding. It's down 12.7% from two years ago, 8.9% from last year, and 2.1% from last book.

► **Four-year trend:** 250.9-224.0

Spanish: This format's shares have settled comfortably into the upper 60s-low 70s range. As they did last fall, the Los Angeles and Miami markets account for nearly 58% of all Spanish shares.

► **Four-year trend:** 46.3-69.2

Sports: Winter's usually an off book for Sports, so a meager one-share slip from its fall numbers is a good sign the format — which is up 22.4% over last winter — is poised for more growth.

► **Four-year trend:** 7.2-31.1

Urban: Urban's about as steady as they come, having been within 5% of its current share in each of the last 13 books. This winter's numbers are virtually identical to last year's.

► **Four-year trend:** 178.9-173.3

Kids

Continued from Page 3

About the only problem the study uncovered was "away from parents listening." Most kids were reluctant to take the diaries outside the home, generally expressing the fear that they would be lost or damaged if they did.

RAB

Continued from Page 3

determine a system for structuring membership dues that is not only fair and equitable for all stations in our industry, but adapts well to the changing landscape of station ownership," remarked RAB Chairman and Heritage Media Radio President Paul Fiddick.

Fiddick said the new structure better accommodates duopoly and LMA situations by treating commonly owned or managed stations in a market as a single entity, which would then be classified into one of the 12 revenue categories. The new system is not expected to affect RAB's revenues.

New RAB members will be subject to the new dues structure immediately. Existing members will convert to the new system beginning next year.

Spectrum

Continued from Page 1

here and say, 'Kantor stood up there and said [they've] made a decision to impose a new fee on spectrum.' We haven't done that. We're not even close to making that kind of decision. We've got plenty of time."

Summer Vote Wanted

Another alternative often discussed in Washington is a budget waiver, which would allow implementation of the trade treaty without requiring offsetting taxes. Kantor said he was opposed to the idea, although others in the Clinton administration and Congress favor it. "To go out and seek a waiver could be construed by the market as not being disciplined or opening up the floodgates to many different kinds of waivers," Kantor said.

The administration is pressing Congress to pass GATT before going on summer break in mid-August. According to Kantor, "The president is going to put every energy he can into making sure it's done before the August break."

House Divided

In the House, the powerful Ways and Means Committee has jurisdiction over the GATT agreement. Its chairman, Rep. Dan Rostenkowski (D-IL), stepped down from his post Tuesday (5/31) after being indicted on 17 felony counts. His successor, Rep. Jack Gibbons (D-FL), has indicated he supports a budget waiver. House Majority Leader Richard Gephardt (D-MO), however, has come out against the waiver.

Rep. John Dingell (D-MI), chairman of the Energy and Commerce Committee, stated his opposition to the spectrum royalty in a recent letter to Leon Panetta, director of the White House Office of Management and Budget.

In addition to questioning whether the royalty was appropriate, he also berated the OMB director for not consulting with him: "I hope that in the future, initiatives that amend statutes or affect programs falling within the jurisdiction of this committee will be brought to our attention directly so that we will not have to rely upon the press, lobbyists, or other committees to learn of the administration's intentions."

Growth

Continued from Page 1

Local CHR revenues were up 15%, while national business shot up 31%.

In addition to CHR, five other formats posted increases in excess of the industrywide 12% pace: Alternative (17%), News/Talk and Spanish (16%), Nostalgia (14%), and Urban Contemporary (13%). Country, however, after being the only format to register double-digit increases in 1992 and 1993, slowed to just 5% in the first four months of '94.

—George Nadel Rivin, CPA

Bolinger

Continued from Page 3

Bolinger, who will be reunited with two ex-KKLQ staffers — Director/Programming and Operations Tracy Johnson and KFMB-FM PD Tom Gjerdrum — told R&R, "This is one of America's greatest GM jobs, and I'm honored to have been chosen for it. When I left Q106 in January, it was my goal to stay in San Diego, and being at these two heritage stations is terrific. It will be great to be with Tracy and Tom again."

Before joining KKLQ seven years ago, Bolinger previously managed KQYT/Phoenix, KJQY/San Diego, WHBQ/Memphis, and WKQQ/Lexington, KY.

Ranking The Formats

When Hot AC was sliced from perennial leader AC, longtime runner-up News/Talk seized the opportunity and staked its claim to the top spot. Country still placed a distant third, and CHR — which also lost some shares to Hot AC — was able to hang onto fourth. Gold overtook Urban for sixth place, while Hot AC made its introductory appearance in the No. 9 position. The only other rank changes saw Full-Service drop below both Alternative and Spanish, landing at No. 13.

Format	Fall '93	Winter '94
News/Talk	14.4%	14.7%
AC	16.4%	13.9%
Country	12.4%	12.1%
CHR	9.5%	9.1%
Rock	9.2%	8.9%
Gold	6.8%	6.9%
Urban	7.0%	6.9%
Classic Rock	5.2%	4.9%
Hot AC	—	3.6%
Big Band	3.5%	3.3%
Alternative	2.8%	2.9%
Spanish	2.8%	2.8%
Full-Service	2.9%	2.8%
Classical	2.4%	2.4%
NAC	1.8%	2.2%
Sports	1.3%	1.2%
Religious	0.9%	1.0%

STREET TALK®

Stern On E! With Radio Show

The broadcast booth for **Howard Stern's** syndicated morning show is gonna get just a little more crowded come mid-June — there'll be six TV cameras taping the festivities each morning for later broadcast over **E! Entertainment Television**. The folks at E! — accustomed to working with Stern via his interview show — will condense the radio program into a nightly prime-time half-hour for TV. Dates and times TBA.

"The best part of all this," said Stern, "is that my genius will be seen in so many more homes now. It's a dream come true. That's what's so wrong with America, that even a dope like me can realize his dreams." E!, in turn, praised Stern's "animated style and telegenic personality" as well as the "outrageous and hilarious nature of the radio show."

Logan's Run to KXRX?

KEBC/OKC PD Eric Logan resigned last week after 2.5 years in the PD chair (and eight years after he began his radio career as the Country station's mascot). Grunge City scuttlebutt has **Alliance** flipping its soon-to-be-acquired-from-**Shamrock** Seattle property, **Rock KXRX**, to Young Country — with Logan the probable PD. "No comment" was Logan's ... comment.

Meanwhile, **KXRX** morning team **Robin (Erickson) & (John) Maynard** and afternoon driver **Mike West** did their last shows Friday (5/27). The staff was told most of them wouldn't be retained, but some would be allowed to reapply for their gigs. Partimers will execute the Rock format until the slated mid-June Alliance takeover is complete.

Rumors

- With Pyramid's Pop CHR **WXKS/Boston** reportedly set to close on crosstown Rhythmic CHR **WJMN** at any moment, will crosstown AOR **WCGY** flip to CHR if Pyramid moves **WJMN** out of the format? And will **WXKS APD/MD Cadillac Jack** become the new PD at **WJMN**? Bet on it.

- What left coast major market morning personality — using the *nom de aire* "Nick" — auditioned for the **B96/Chicago** morning show last week? And did crosstown **WLUP** back out of putting ex-B96 morning dudes **Eddie & Jobo** on-air this week — after promoting the event?

- Is Rhythmic CHR **WHYT/Detroit** slowly adding some rhythmic pop alternative product, eyeing an eventual move to what some people are calling the "MTV format"? And has consultant **Jerry Clifton** been chatting up this concept to a number of his existing clients?

- Are there major changes in the wind at **Shamrock CR KZFX (Z107/Houston)**?

- What's the real future of **Imago** and **BMG**?

- Are former **KWTO/Springfield, MO** morning teamsters **Rob Carson & Radio-boy** coming soon to a Top 50 near you?

ST's hears **Summit Communications** may get considerably less than \$200 million for its radio group — the result of interest rate hikes over the past two months that have put a damper on the trading market. Bidding was to have been completed last week, but Summit and financial adviser **Morgan Stanley & Co.** have yet to announce the winners.

If any of the rumors are to be believed, everybody's telling ST that **Emmis Broadcasting's** buying **WRKS/NYC**. Only the price varies — from \$60-\$80 million (some variable!).

Curb chatter also has **WAOK & WVEE/Atlanta** going to **OmniAmerica/HMW/Infinity** (insert your name here) for more than \$90 million. Don't bet on that price — or even some of those players. Incidentally, the other Summit stations (**KHVN & KJMZ/Dallas** and **WCAO & WXYV/Baltimore**) haven't generated much pavement palaver at all.

Pearl Jam's memorandum to the Justice Dept. accusing **Ticketmaster** of "exercising a monopoly over ticket distribution" in the U.S. and "using that influence to keep promoters from booking" PJ's proposed, since-cancelled low-cost summer tour hit the *L.A. Times* this week.

Ticketmaster officials told the *Times* they've operated "fully and squarely within the parameters of all applicable laws." The BIG question: Will Justice launch an investigation?

Amos Brown — for 13 years the Station Manager of UC **WTLC/Indy** — resigned this week to join the crosstown **Shirk/Mays** radio/TV duop empire (Rhythmic CHR **WHHH** and Country **WGGR**, Religious/Variety **WXLW**, and **WAV-TV**) as Dir./Strategic Research. Brown will also host a **WAV-TV** program and be heard on-air on the radio stations.

KBCO/Denver GM Dino Ianni exits the Progressive station for an as-yet-undetermined executive position in **Noble's** Sports Marketing Division. Former **Fairmont Communications** President **Mark Hubbard** becomes interim GM. ST hears the PD and MD vacancies will be filled later this week.

Word up on the street is that **Def Jam** officially has become a **PGD**-distributed label. Once the pending **PLG** reorganization is complete — and that's just days away — look for **Def Jam** to become an **Island-promoted/distributed** imprint.

Unistar's Don Geronimo and **Mike O'Meara** have settled that \$50 million lawsuit filed by **WWMX/Baltimore** Promotions Mgr. **Dawn Tritaik**, according to the *Washington Post*. Tritaik filed the invasion of privacy suit after the duo called her a lesbian during a live broadcast. Terms of the settlement were sealed.

KFMB-FM/SD (formerly **AC B100**) finally may be ready to conclude its seemingly endless "Great Radio Experiment" format of the day presentation. Although they provided not a hint of what the permanent format will be, OM **Tracy Johnson** and PD **Tom Gjerdrum** told ST it'll debut Monday (6/6).

The Dayton Game, Alternative Style

Former **WZJX (X-Rock)/Dayton** PD/MD **Randy Scovil** has a few crosstown stations mulling the option of bringing Alternative back to Dayton. Following ZJX's impressive debut in the Winter '94 Arbitron, **Regent Communications** purchased the new sign-on from **Miami Valley Communications** and flipped it to Gold.

Rumbles

- **WDRE/Long Island** adds another affiliate (joining **WIBF/Philly** and **WMRW/Westhampton, NY**) to simulcast its "Modern Rock Network": **WWCP/Albany, NY** signs up via an LMA.

- Country **WMZQ/DC** morning maven **Sandy Weaver** will exit after the spring book to join her husband in Atlanta.

- **Alice 106/Denver** sheds its former calls (**KBPI**) for **KAKL**.

- Ex-**Heritage** Group PD and **WKSF/Asheville** PD **J.J. Cook** joins **Broadcast Programming** as Nat'l Program Consultant for its contemporary formats.

- **Unistar AC WMRV-FM/Binghamton** flips to live AC as "Star 105." Morning man **Russ Monroe** exits. Star 105 is being consulted by **Star 94/Atlanta** OM **Tony Novia** and PD **Lee Chesnut**.

- Former **KBYB/EI Dorado, AR** APD/morning star **John Walker** joins **KNYN/Santa Fe, NM** as PD/morning dude.

- **Alan Dean** becomes PD at **WSTH/Columbus, GA**, coming from the same post at **WPKR/Apleton, WI**.

- **WQFM/Milwaukee** MD **Chris Payne** adds APD duties.

- **WZAK/Cleveland** afternooner **Lankford Stephens** becomes MD in the wake of **Bobby Rush's** recent promotion to PD.

- **WGAY/DC** hires market vets **David Burd** (formerly mornings at **WASH**) and **Beverly Fox** (most recently with **WARW**) to team for wakeups.

- **KDKB/Phoenix** afternoon co-host **Kathy Hart** segues to morning co-host at **WNCI/Columbus, OH**. She replaces **Shawn Ireland**.

- *Leaps O' The Week:* **John "Shotgun" Kelly** becomes evening personality at **KNIX/Phoenix** (market #21), coming from **KGMV/Springfield, MO** (#151). And . . . **KOSO/Modesto** (#124) MD/Love Songs host **Tony Miranda** cops the evening slot at **KJQY/San Diego** (#15).

- Progressive **KMTT/Seattle** weekender and market vet **Dean Carlson** becomes MD, following **Brad Dolbeer's** exit.

- **KROQ/LA** swinger **Freddy Snakeskin** exits for MD/mornings at **KEDG/Las Vegas**; PD **John Griffin** relinquishes the MD reins.

- **WWQM/Madison, WI** afternoon personality "Red Hot" **Ken Scott** exits for PD duties at **WCLO (AM)/Janesville, WI**. **WWQM** midday maven **Chris Michaels** segues to afternoons and **Donna Fisher** moves from nights to middays.

- **KISF/KC** licenses the term "Hot Hits" from consultant **Mike Joseph**.

- **WWZZ (Star 93.1)/Knoxville** takes the new calls **WWST**.

- **WPGU/Champaign, IL** appoints **Sean Smyth** MD, replacing **John Castino**.

- Oooops! New **XHRM/SD** morning co-host **Bruce Wayne** previously held morning intern duties at **KLOS/LA**, and was not AM producer, as erroneously reported here last week.

KHFI Set To Knock On Door No. 1

■ Austin outlet's Arbitron skyrockets 9.1-11.0 for second place

"This is the closest we've been to the market's No. 1 12+ in the last 10 years," observes CHR/Classic Rock combo **KHFI & KPEZ/Austin OM/PD John Roberts** of KHFI's 9.1-11.0 gain in the Winter '94 Arbitron. "We're now in statistical striking distance of Country KASE, which fell 15.5-12.8."

True To Top 40

John Roberts

Roberts describes KHFI's sound and the changes he made after becoming PD last August. "KHFI is a mass-appeal Top 40 in the truest sense, with a rhythmic lean that maintains a pop edge. KHFI favors pop, dance, and alternative songs with a beat versus guitar-based alternatives, rockers, or harsh urban crossovers. But now we'll play the biggest hits that don't fit neatly into the rhythmic mold, like Pearl Jam's 'Daughter' or Snoop Doggy Dogg's 'Gin And Juice.'

"In the past, those types of songs wouldn't have been played. But if they generate sales or phones and we're the hit music station, we must play them. The same goes for ballads, but too many will lose our essence sound: fun, upbeat, and energetic. So I limit the tempo 'relief' to no more than two or three ballads an hour, including currents, recurrences, and gold."

When focus groups said, "I really like KHFI, but they play a lot of songs I don't care for along with ones I like," Roberts worked with then-MD Tracy Austin (now KIIS/Los Angeles's MD) to consolidate the music library. According to Roberts, "CHR needs to be on top of trends but not too far ahead of the curve." He also shortened "power" turnover by an hour and shrank the

library from 400 to 250 titles (see "How They Play On KHFI").

Time Management

In programming two stations, Roberts deals with more than 35

staffers. KHFI holds two weekly music meetings; KPEZ has one. Promotion and morning show meetings have similar structures, so he's learned to delegate duties. "Promotion Director **GINNY SCHOGGINS** and assistants **TRACI WALLER** and **LESLIE BASENBERG** also work with our JOV partners, Talk/AC combo **KFON & KEYI** — they've got to be on top of it for KHFI to have a world-class presence on the streets. They typically will line up more than 40 appearances a month."

During the fall, KHFI backed the 'Birthday Wheel of Cash' with TV, but ran clean during most of the winter book (except ongoing theme-weekend giveaways). The 'Incredible Kash Kow' contest was launched in March — the ninth caller wins '\$100 a squirt' after hearing the laughing cow. KHFI also currently hands out prizes from the van and, in the process, adorns cars with its new bumper sticker rather than trusting listeners to display them.

Unique Features

Also keeping KHFI active is its airstaff and some interesting on-air features:

- **Mornings:** Two-year veteran **Allen Price** teams with **Karen Clauss**, traffic personality **Buck Naked**, and producer **Big Kahuna (Dave Meyers)**, who also does the wacky on-the-street bits. The team kicks off "Way Back Wednesdays" (5:30am-7pm), when KHFI plays only '70s trash disco and early '80s MTV material; the feature's sold out three months in advance.

- **Middays:** Two-year veteran **Carey Edwards** is active with businesses and "at work" listening with faxes and phones.

- **Afternoons:** MD **Fernando Ventura**, who just arrived from **WSNX/Muskegon, MI**, is described by Roberts as a "junior **Elvis Duran**."

- **Nights:** Three-year vet **Bo Nasty** and producer **Pebbles** team to offer trivia at 7:30pm, high school reports at 8:20pm, "Hot Five At 9," and a "Groove Line" dedication segment at 10pm.

- **Overnights:** Asst. MD **Krash Kelly** is a local who helps programming with hometown market preferences and sensitivities.

TOP FIVE

Secrets Of KHFI's Success

KHFI/Austin's ratings success also includes top honors among persons 18-34, women 18-34, and teens; it's tied for first in men 18-34, third in women 25-54, and fourth in adults 25-54. OM/PD **John Roberts** shares five elements of KHFI's success:

- VP/GM **Stan Webb** "gets it" and realizes you must protect the product.
- GSM **Judy Lakin** believes in the format and can sell 12-34 success profitably.
- KHFI employs people who understand the mission and possess a killer, winning attitude.
- The station delivers to listeners' expectations: find out what the hits are and play them.
- KHFI is imaged and defined as the most fun station; you can be hip but not too hip for the room.

POINT OF VIEW

What's So Alternative About Alternative?

The following letter written by **Burkhart/Douglas & Associates, Inc.** Exec. VP/Product Development **Greg Gillispie** was taken from the company's recent client newsletter. As a consultant to various Alternative stations, Gillispie's suggestions may help sway passe station decisionmakers' perception of the format.

Greg Gillispie

For the last two years, Alternative music has been touted as the savior of AOR and CHR, and the driving force behind the growth of the format that has been called everything from Alternative to Modern Rock to New Rock. But what's so alternative about Alternative music anyway?

Looking at the playlists of the successful stations in this format, you see tremendous diversity. There are contemporary singer-songwriters such as Sarah McLachlan and Tori Amos; contemporary folk artists such as the Indigo Girls and Sheryl Crow; contemporary rhythmic/dance artists such as Erasure and the Stereo MC's; contemporary rock artists such as Pearl Jam and Alice In Chains; and extreme hardcore artists such as Nine Inch Nails and the Rollins Band.

Is this diversity really any different than the early days of Progressive AOR when you could hear artists such as Elton John, James Taylor, Joni Mitchell, Judy Collins, War, Stevie Wonder, the Rolling

Stones, the Who, Black Sabbath, and Led Zeppelin? In those days, Alternative wasn't even in a broadcaster's vocabulary.

Webster defines alternative as a proposition or situation offering a choice between two or more things, only one of which may be chosen. When you think about the audience loyalty that these so-called Alternative stations have cultivated, they really do not fit the definition of alternative at all. In fact, for many 18-34 adults, these stations have become their sole station. The reason is, these stations have focused on this group's musical tastes and lifestyle needs, becoming the fresh

tivity or influence. Considering the number of artists and songs that have started at the so-called Alternative format and crossed over to AOR and CHR, and the volume of sales these artists and songs have generated, it certainly appears that this format is truly the new mainstream.

While many stations position themselves as mainstream and remain successful against their target audience, they are hardly riding the crest of the prevailing current. They have been forced to live up to the expectations of their past.

Perhaps it's time to realize that a major shift is happening before our eyes and ears. Rather than focusing on the definition of music styles and continuing the debate on what fits where, maybe we should wake up to the new mainstream. Those that don't, may find themselves swept away by the current.

NEW MUSIC SCENE

- **Artist:** Collective Soul
- **Track:** "Shine"
- **LP:** "Hints, Allegations, And Things Left Unsaid"
- **Label:** Atlantic/AG

• **Essentials:** This is the debut release for Stockbridge, GA's **Collective Soul**. The quintet features brothers Ed (vocals/guitar) and Dean Roland (guitars), Ross Childress (lead guitar), Will Turpin (bass), and Shane Evans (drums). Ed and Shane formed the band five years ago after playing together in a group called **Marching Two Step**. "Hints, Allegations, And Things Left Unsaid" was released independently last November. Atlantic inked the band a few months later after significant airplay and record sales from college outlet **WRAS/Atlanta**. The band's name was derived from Ayn Rand's reference to mankind in the novel, *The Fountainhead*. Influences include: **Elvis Presley, Elton John, the Beatles, and AC/DC.**

• **Artist POV:** "Shine" was the first song I wrote on the album," explains Ed Roland. "I had given up on a record deal and was trying to get a publishing deal. Basically, I was asking for God and a new direction. There's a lot of searching lyrically in the songs, but there's hope at the end of the tunnel."

• **Label POV:** "Alternative radio has embraced Collective Soul as its own and the results have been dramatic," notes **Tod Elmore**, Atlantic Nat'l Alternative Promotion. "Shine" garners immediate sales and phones, and with 'Breathe' just around the corner, Collective Soul is poised to be the breakthrough band of '94."

CYNDEE MAXWELL

A Radio War With Honor

■ Kansas City rockers dominate demos without dissing

The 12+ population of Kansas City (Arbitron market No. 29) has 26 signals from which to choose. Among those 26 are three rock signals: low-end-targeted **KQRC**, heritage **KYYS**, and Classic Rock **KCFX**.

KQRC: 'Meat & Potatoes'

"All three rock stations have their own pieces of the pie, and we all do very well," says **KQRC PD Doug Sorenson**, whose two-year-old station is the newest rock entry. "Before we came on, there was a significant hole for 18-34s. So we target that demo — and have been able to capture them. We're aggressive, doing a lot of fun promotions. A recent one was 'Fantasy Garage.' We gave away a wave runner, motorcycle, two mountain bikes, a John Deere lawn mower, and a Chevy S-10 pickup.

Doug Sorenson

"We're also involved with all the rock concerts. We've played softball with **Guns N' Roses**, which [attracted] 5000, and we've played basketball with **Testament**. Our morning guys — **Treetop & Johnny Dare** — raised \$10,000 for the city mission last Christmas when over \$2500 worth of toys was stolen.

"This is a very competitive market with a rock and country base. **KYYS** has been here for 20 years and done great in that time; **KCFX** is one of the oldest Classic Rock stations in the country.

"Kansas City is a meat and potatoes market," continues Sorenson. "So when we choose new music we look for good rock records and for what's worked in the past. When it comes to Alternative, we'll play songs with the rock edge vs. the pop/dance edge. Because of the market competitiveness, it's not as easy choosing music as you might think. We can't afford to play records that

won't work because there are too many good stations here.

"I don't know of any real bad blood between the KC stations. There's a certain amount of peaceful coexistence that **KQRC** has wanted to maintain. We never wanted to come in and start pounding our chest, saying, 'They suck and we suck too, but we're not as bad as them.' Maybe it makes great trade reading, and we all laugh about it.

"But I don't think the audience really cares or pays any attention to it. The audience is saying, 'Forget about your competitor. What are you doing for [us]?' That's what I worry about: what the audience wants and what will keep them happy. Don't get me wrong — we definitely want to win and to dominate our demo. But everybody respects each other, including the sales departments. All three [stations] are legitimate players owned by three good companies."

KYYS: 'Broad' Niche

Scott Souhrada

KYYS takes advantage of its heritage position musically by playing a broad mix. PD **Scott Souhrada** says, "We play the classics and current music from both heritage and new artists. Our base is very broad; we're open to anything. Obviously we're playing the new **Aerosmith**, but we're also playing music that leans alternative, hard, grunge, etc. Our niche is being broad.

"There's an intersecting universe between **KYYS** and **KQRC**. The middle point is songs that both stations play. Then there are songs we play that they don't, and songs they play that we don't. Since they've signed on, the shared universe has gotten bigger. We're not afraid to take chances musically on non-core bands. Not that we're cutting edge by any means compared to some other stations in the country. But if the song is right for **KY**, we don't care who did it."

Souhrada also points to the station's air talent as one reason for its longevity. "Max Floyd is one of the people who signed us on. He took a couple of side trips to Denver and Chicago, but he's back doing mornings with **Tanna** and **Larry Moffitt**. Larry's been here five years,

Tanna for eight. **Frankie** does mid-days now but originally did mornings with Max 20 years ago. Night guy **Marty Wall** has been here for three years. **Skid**'s been doing afternoons for 11 years, and overnigher **Von Mack**'s been the 'overnight institution' since the station's sign-on. And I've been here over four years.

"We try to do promotions that cut through. A classic example is when we got a city in Montana to change its name to Joe, Montana. What started out as a morning show bit snowballed into **KY** appearing in every major publication in the country. A lot of stations got **John Bobbitt** on the air. But when he was arrested in Las Vegas, he was wear-

"One unique thing about Kansas City is that it's not like a big city. The metro population is 1.4 million, but it feels like a rural community. People are very open and friendly; there's a small town feel to it. That's a double-edged sword, too. There are times you wish it was more progressive, but 90% of the time you're glad it isn't.

Kansas City Ratings Review

Kansas City has become one of the major Rock war markets. Below are the Winter Arbitron statistics for the three rockers in the market (estimated 12+ population: 1,338,000).

The number under each demo heading represents the station's rank. The number at the bottom of each column represents the total market share of the three stations combined. A "t" after a rank signifies a tie.

Station	12+ Winter 94	Fall 93- Men 18-24	Adults 18-34	Men 18-34	Men 25-34	Adults 25-54	Men 25-54
KCFX	7.3-5.3	2	5	3	5	5	3t
KYYS	4.4-5.2	3	1	2	1	6	2
KQRC	4.5-4.7	1	2	1	2	12	10
Total	15.2	52.4	30.0	41.2	35.7	16.5	21.7

"That whole philosophy of dissing your competition on the air or crashing their events is a waste of time. That's not offense, it's defense. And that means the competition has the ball. I'm too concerned with trying to make **KY** sound as good as it can — that's how I'm going to win. The other stations here have the same concerns. I've got two great stations on either side of me — which just makes me work harder."

KCFX: 'Super-Focused'

KCFX PD Beau Raines says, "Over the years we've grown tremendously — moving a tower that was in Harrisonville to Kansas City, acquiring the **Chiefs**, and just being true to the format for the long term.

"We target upper-demo men but do well with some younger demos, too. The advantage we have three out of four books is obviously the **Kansas City Chiefs**. Football spans the summer book with preseason and the early part of the regular season. The fall book is all the regular season.

"And with the **Chiefs** being as good as they are, there are generally two or three playoff games in January. So we get a spike and tremendous sampling — close to half a million people on any given football Sunday. There's obviously some residual come, plus we've become the secondary station for many

listeners as opposed to the third. And we do a good job of promoting what we do musically within the sports broadcasts.

"We're a super-focused Classic Rock station with two good AOR competitors. While part of our success with younger demos is because of the football come, they also have a healthy interest in this format. They weren't alive when a lot of this music was recorded, but they still enjoy it. Classic Rock also does better with women than people initially thought it would. Our approximate ratio is 57% male to 43% female.

"Community servicewise, we do a lot with members of the **Chiefs**. All the **Chiefs** are individually involved with a charity, and many of them look at us to get involved with them, too. We're part of Center **Tim Grunhard's** Third Annual Benefit Softball Game, in which the **Chiefs** play against another major league football team. This year they'll play against the **Green Bay Packers**. We're also involved with **Derek Thomas's** literacy campaign. In terms of public affairs programming, we probably do a little more than the national average. We're really devoted to giving back to the community.

"There's a healthy amount of professionalism between broadcasters in this market. Personally, I have friends in noncompeting formats. The dirty tricks you find in other markets aren't the mainstay here. We compete on the radio. [Yet] there's radio camaraderie in the market that's very healthy."

WZFX Appeals To Both Civilians, Military

What does the military have to do with the radio industry? A lot. Cities located near military bases, such as Fayetteville, NC, benefit enormously from such facilities. Even though Arbitron doesn't count the troops in the ratings, the local merchants and Chamber of Commerce applaud their purchasing power.

Ft. Bragg, home of the 82nd Airborne Division, is just outside the Fayetteville city limits. WZFX (The Fox)/Fayetteville has become not only the city's favorite radio station, but also the local soldiers' favorite. It is the highest-rated 12+ UC station in the country, with a 22.8 share.

Getting Involved

WZFX VP/GM Lynn Carraway says the station has a great deal of respect for the military. "As the 123rd market in the country, we're a medium-sized market. We have some of the attributes of a large city, but we still have the values of a small, close-knit community that cares about its own. So when you've got to sell the station and the format, it's not just the numbers, but our relationship with those in the community."

Lynn Carraway

tire package — our numbers and our close community ties.”

Thanking The Troops

WZFX is gearing up for a forthcoming event honoring the military. Along with the Fayetteville Chamber of Commerce and the U.S. Army, the station will honor the troops for their service to the country and welcome home those who recently served in Somalia with a week of festivities. The events will culminate with a live concert, to be held on the base at Ft. Bragg June 25.

“The citywide Military Appreciation Week starts June 20,” says Carraway. “There will be discounts for all military personnel and their dependents at all local retail establishments, a picnic for the military and their families, and other activities sponsored by groups that would like to express their appreciation to the military.”

“This week of activities just happened to coincide with our eighth birthday celebration, and we offered to let it be a part of the festivities. We had been working on our celebration for the past nine months, and it was already scheduled to take place at Ft. Bragg. The Chamber of Commerce endorsed our birthday party as the finale for the week, and we're very excited about that. So instead of the projected attendance of 6000 we normally have, we now expect a turnout in excess of 20,000.”

An Owner's Pride

The Goldsboro, NC-based Atlantic Broadcasting Group is the parent company of WZFX, and according to President Henry Weil, WZFX is the group's leading biller. “If I had to point out something that was important to the long-term success of the Fox, I think it's that we try to be known as a station that does more than just deliver the music to the people. The music is important, but we've always been interested in doing more.”

“Our efforts have gone into showing the people we are part of the community just like they are. In recent years we have done everything possible to let the people know we care about this community. We want to put positive things back into the community because it's been so good to us over the years. That is one reason why we have been so successful not just in Fayetteville, but in the metro.”

Relationships Key

WZFX GSM Sonny Pagan, who has been with the station for eight years, believes the secret to successful radio sales is personal relationships. “There are several different aspects of sales, but the most important thing is knowing who your customers are and having the personal client relationship.”

Sonny Pagan

Is selling the Fox in that area of the country a difficult task or an easy one? “My philosophy has always been, ‘If you live by the numbers, you'll die by the numbers,’” says Pagan. “Obviously, numbers are important, but I take the position that our customers want to know if we can make their cash registers ring: ‘What can WZFX do for me to create additional sales?’”

“Relationship building is very important to all sales. Sometimes, because we are in the South, we still have some of the old stereotype

mentalities against blacks and other minorities. But for the most part, I think we have overcome most of that by educating our clients.

“In this market, black consumer spending is more than whites; blacks also have a higher percentage of loyalty to brand-name products. Minorities make up 38.4% of our market's population, and the only way our advertisers can effectively reach the black consumer is through WZFX.”

Exclusivity Sells

Pagan says one benefit of advertising on WZFX is exclusivity. “The 18-49-year-old passive audience doesn't subscribe to the newspaper, but [this demo] can be reached by using our radio station. We can offer our clients a product that has an exclusive audience of 30.8%; the average age for Fayetteville is 26.5. So when we get a client who tells us they want to reach the golden

above the average of most Urban stations. I think that's because of our professionalism. Four of our five sales reps are Certified Radio Marketing Consultants; only 5% of all of the people in radio sales have the CRMC qualification.”

Community Programming

PD Bobby Jay Jr. says WGFX's creative on-air sound has made the station popular in the military environment. “Even though we play music, our first job is making sure we stay in touch with the community's wants and needs. For example, at Christmas we did an ‘Adopt A Family’ campaign, which helped those in need.”

Bobby Jay Jr.

“We had a terrible tragedy here at Pope Airfield where a number of members of the 82nd Airborne Division were killed or injured. We were the only station to stop the music and air the entire memorial service held at Ft. Bragg. You don't normally find things like that — or PDs who are involved with the local Chamber of Commerce and other organizations — in this format.”

“It's nice to have your GSM and your VP/GM get involved in local organizations, but it's even more effective when the PD and some of the announcers are also involved. It gives the public a better insight into each [person] and the station. They

begin to [realize] you really mean it when you say on the air you are part of this community. Actions speak louder than words.

Male Nurturing

Society must focus on helping young black males before they drop out of school, commit a crime, or use drugs, says Ronald B. Mincy, editor of “Nurturing Young Black Males.”

The study revealed that 41% of black male high school dropouts between 18 and 24 were either in prison, on parole, or on probation in 1988. Nearly 500,000 black men were incarcerated that year, costing roughly \$14,000 per person.

Mincy says waiting to address these problems not only wastes the young generation's potential, but also increases the likelihood that their children will continue the same negative pattern. He and the contributing authors conclude that public policies and youth development programs should be aimed at black males 10-15, an age at which many important decisions are being made.

XL-ENT ADVENTURE

KXLK Wins Wichita Winter War

Bright AC KXLK/Wichita has taken the 25-54 lead in the market's two-way AC battle by erasing the meaty 9.5 share advantage Soft AC KRBB held just a year ago. Back then, KRBB was one of only two stations in town boasting double digit 25-54 numbers (Country KZSN-FM was the other).

"Programmers, of course, tend to think bad books are Arbitron's fault, and good books are absolutely true," jokes KXLK PD Jeff Couch. "Last year at this time, we decided we needed to win this war on the street. We also worked to brighten the station a bit, but [neither KRBB nor we] did any major winter promotion."

Identity Crisis

When Couch arrived three years ago, KXLK attempted to copy KRBB. "Unless you have [significant] money to spend on marketing, stations trying to do that will have a major uphill battle. KRBB had consistently been doing the same thing for several years. They're very good, and we were trying to displace them."

"We realized that was a stupid idea, because we were playing all the games on their field. We changed

ed [our thinking] and became what they weren't."

Now Couch sees clear distinctions between the two ACs: "Our adjustments away from ballads and '60s and '70s music have made a big difference. Listeners have a better idea of which station they're listening to."

"We have tempo and are '80s-driven, while [KRBB] is very soft.

ably a bit inflated, and this year's figure is a bit too low," Couch remarks. "Reality is somewhere in the middle."

"[KXLK's] mission is to own 25-34 women. KRBB may have been

We play Huey Lewis, Counting Crows, and Ace Of Base. They'll jump out early on Dan Hill, but we'll wait until the song really proves itself. We don't go nuts and get off-the-wall like some CHR or Hot ACs. We're bright — not soft and sleepy."

Brightening Offices

Couch says, "Our biggest victories came in middays. We seem to have gotten lots of in-office listening without doing any at-work promotion."

He isn't surprised that a Bright AC performed well among the at-work crowd, observing, "The same thing happened about 10 years ago, when B/EZ was played in every office. Soft ACs started to gain strength and replaced B/EZ in many offices. Increasingly, we'll see ACs with tempo replace Soft ACs as the in-office favorite."

18-34 Reality

In addition to nabbing the 25-54 lead from KRBB, KXLK also bested the competition among 18-34s. KRBB displayed great strength (#3) last winter in that demo. Those impressive numbers, however, have dwindled by about 70%. "Last year's [KRBB] numbers were prob-

waloped on the younger end, but their real strength is 35+, and ours is 18-44. We both actually sit in a pretty good sales position."

Couch knows this battle is far from over: "KRBB had a cruddy book, but they'll stick to their guns. By no means do I expect they'll go away. They'll probably come back and have a good spring book."

"I knew it wasn't time for us to give up. Management here has given me enough rope to either make this thing work or to hang myself. There's room in the market for both stations, and we'll continue doing what we do."

Wichita Line Score

An interesting two-way format tussle is being waged in Wichita. In the 25-54 race this winter, Bright AC KXLK prevailed over Lite AC KRBB.

Here's a peek at this winter's Arbitron numbers, with special attention given to midday listening habits among the market's 18 rated signals. Comparisons are Winter '93-Winter '94, with fluctuations shown in parentheses.

KVIL's Chapman Resurgent At 25

After 25 years as morning man at KVIL/Dallas, Program Manager Ron Chapman has proven he has plenty of spark left. He celebrated his 25th year as AM driver at the Infinity outlet with No. 1 12+, 25-54, and 35-64 showings.

"Johnny Carson's ratings at the end of his 'Tonight Show' weren't what they'd been in earlier years," Chapman notes. "It's logical to assume you'll have a ratings falloff as time goes by. That was the case for me, but we've suddenly seen slow growth. Instead of quietly fading into the sunset, we're back on top again, kicking major-league butt"

Ron Chapman

to figure out how to balance things. In the meantime, KRLL made [Dean] an offer he couldn't refuse, and he left. I was back doing everything and didn't want anyone to think the wheels came off the show because Jody had left. Out of necessity, I got up earlier, stayed later, and created new features — and it's worked."

Without a partner/producer, Chapman says he "converses with the listener. We knew that's what we should do, but we weren't practicing it."

Unconcerned By Stern

Howard Stern's show on cross-town Classic Rocker KEGL poses no threat, Chapman contends. "He doesn't deal with my female audience; he may have three of them."

Given Infinity's syndication success with Stern, it's natural to wonder, if Chapman's morning show would ever go the same route. "We've talked about it, but I don't think it will happen. Infinity is in its infancy in that business, but I'm not in the infancy of my career. They'd be smarter to take someone who will be around 10-15 years down the road. I can't guarantee that I'm that animal, but when you're No. 1, you think about renewing your contract quicker than when you're not."

Gain From Loss

Morning show producer Jody Dean played a major role in motivating Chapman to succeed. "He'd become a star in his own right on the show for his song parodies and character voices," Chapman explains. "We began asking ourselves if Jody was good for the morning show. The answer was 'yes,' because he was popular, bright, and talented, and he brought a lot to the table."

"But since he was doing so much, we also wondered if it was good for the show that I was doing less. The answer to that was a resounding 'no.' Behind the scenes for the past year, we tried

Letterman: Top Value, Top Price

CBS Radio's rebroadcasts of David Letterman Top 10 list are being carried by a wide variety of stations, including Hot AC/Adult CHR WPLJ/New York and KBIG/Los Angeles.

The Top 10's timeliness and hipness have many programmers salivating. The enthusiasm wanes somewhat when stations are told they need to deliver daily ROS inventory to acquire radio rights to Dave's Top 10.

Rip-Offs Nipped Off

"It was an easy decision for us to take the show," declares KBIG PD Dave Ervin, who slots the list at 6am and 8am. "I've had the opportunity to put the Top 10 [concept] to the test in many focus groups and have never been able to find a morning feature that tests higher. People know and identify with him."

"We wanted it and were willing to pay the price. Many stations had been ripping off these lists for years. CBS finally figured out they had a very marketable show."

Dave Ervin

How much inventory would have been "too much" to yield? "One more spot a day," says Ervin. "This is a tall ticket, but we're running a few less promos a day. We took the inventory from [programming, rather than sales]. Many PDs desperately want to run this show, but some stations won't allow them to take away that much inventory."

Stretched To Legal Limit

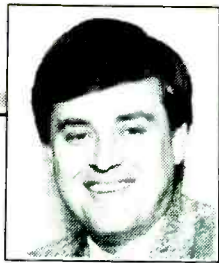

KBIG's other syndicated programming includes Casey Kasem's weekly Westwood One AC countdown. "At some point, there's no more room for barter. It also depends on the station's sellout level. If a sales staff is doing its job, you don't have much flexibility to add bartered shows. The amount of time needed in return for barter situations can be a decision-maker."

"It's supply and demand. CBS has a hot show and knows it can get the legal limit for it. They're not cutting any special deals, and all markets pay the same freight."

Top Ten Teases

The following pitches are used in wooing stations to carry Dave's Top 10 lists:

10. No deadly gamma rays.
9. Like Larry King, it's easier on the ears than the eyes.
8. If you listen with headphones and turn the volume all the way up, you can hear Dave's pacemaker.
7. Just another way for Dave to get his message of love to the masses.
6. Static sort of sounds like applause.
5. Complete traffic and weather updates between #7 and #16.
4. Unlike on Dave's show, when the list is over, (the station's morning team) will play the biggest variety of today's hits and yesterday's favorites.
3. You can pretend the list is being read by handsome actor Robert Wagner.
2. Every list contains a long-distance dedication from Casey Kasem.
1. You're not distracted by Dave's hair.

COUNTRY

Programmers Go For The Gold . . . Again

That distant rumbling you hear may well be the groundswell of a movement by current-intensive Country stations to reintroduce a higher percentage of oldies to the music mix.

Programmers are becoming increasingly concerned about declining TSL levels. Some believe this is a result of increased competition among like-sounding "Hot New Country" outlets, relentlessly pounding out high doses of current music.

Regardless of how you finesse your rotations, multiple Country stations in a market playing the same songs inevitably leads to faster song burnout rates among listeners. Further compounding the situation are the 18-34-targeted outlets that turn the currents as much as 50% faster than 25-54-targeted stations.

Move To More Gold

McVay Media consultant **Bob McNeill** is in the midst of repositioning some of his clients — involved in head-to-head Hot New Country battles — as the "new mainstream," which he defines as a 50-50 mix of currents to gold. (The currents are equally divided among currents and recurrences.) He says, "There's now an opportunity for one station in a market to *not* be the Hot Country outlet, but to be the mainstream, or variety, Country station."

It's McNeill's contention that a current-based, adult-oriented format is not sustainable. "The inherent burnout caused by a limited amount of product makes [continued success] almost impossible. Just ask your local CHR station — if there's one left in your market."

KPLX/Dallas PD **Brad Chambers**, heretofore a fierce advocate of current-intensive Country, is another programmer who has recently cut back on the number of currents (though not as drastically as McNeill). He's taken KPLX from 70-30 to 60-40 current-gold, and added one recurrent and one gold position to each hour.

'Lost' In New Music

Why the change in philosophy? "I'm getting a sense the listeners are starting to feel lost — they just can't keep up with all the new music and acts. The sheer amount of new product has them feeling as if they're losing touch with what's going on."

"Country listeners are more in tune with the artists — more conscious of who they are, where they're playing, etc. — than fans of any other format. When they feel they're losing touch, they become uncomfortable. And if they're uncomfortable with the amount of new product, then we have to change."

Country stations have always spent considerable time acquainting their audiences with new artists. But Chambers feels that task is becoming tougher. "Country radio remains a music-driven format, and we can't say enough to get people comfortable with all the new acts. So we have to slow it down to the point where listeners can keep up with it."

Texture Is Critical

McNeill concedes that crafting a station's move from Hot New Country to a more balanced approach can be very tricky. "It's a given we'll have to integrate some of the songs we've abandoned back into the library. But it's important to make sure they're compatible with today's current music on a couple of levels."

"The age of the song is not a factor. But the artists must be viable today, and the texture of the music must be compatible with today's music. The new production and sound of today's country music is a fact of life and the library must match it." He adds that each station's oldies selections are market-dependent and based on research. "That's the only way to know what songs and what types of country work," he says.

“

There's now an opportunity for one station in a market to not be the Hot Country outlet, but to be the mainstream, or variety, Country station.

—Bob McNeill

Bob McNeill

“

A lot of [programmers] think the only way they can stay successful is to play the newest stuff. And there begins the fall.

—Garth Brooks

Chambers says his research has taken an interesting turn of late. "Songs that weren't scoring well are starting to regain favor. Some of the same people who in the past told us they didn't want to hear certain songs are now saying they want to hear them again. They're saying they miss hearing some of the [material] they used to hear but no longer get. Part of that is a desire for the higher 'comfortability factor.'"

Both McNeill and Chambers agree that the AC crossover music that worked for the Country format years ago no longer fits. McNeill says, "It's just not texturally compatible with today's sound."

Making Gold Acceptable

Whether inadvertently or intentionally, many Hot New Country outlets have effectively repositioned pre-1988 music as a negative. McNeill says one of the challenges of introducing oldies back into the mix is making them cool and hip. "Variety is the key word. New mainstreams can position themselves as 'The only station playing today's best Country and yesterday's favorites' or 'The one station that plays better variety.'"

Even though he's in one of the nation's most competitive format battles, Chambers has backed off some of the more aggressive liners which attack his foes and chosen to focus on KPLX's new position. He's adopted the prime positioner "Real Country." New liners include "The best new songs and a few you haven't heard in a while" and "The

best new songs and familiar favorites from the past few years."

When it comes to the mix, McNeill also says it's not just a matter of percentages — it's how the music is positioned. "If, for instance, you come out of every stopset with a current, your station will be perceived as current-driven. If instead you come out of every stopset with gold, the audience will perceive your station as gold-driven. Both are regardless of the actual amount of currents or oldies you play. Listeners are more attuned to songs that come out of stopsets."

Another way to give the impression you're playing more gold is to highlight it. McNeill recommends liners such as "Here's a song you're not going to hear anywhere else but here" or "It doesn't have to be new to be great."

music out. Unfortunately, some of it's not going to get played."

Battling Hot New Country

Some GMs and PDs have been reluctant to back off their current-based positions for fear of losing some of the younger demos who have joined the party during the last few years. In a competitive situation, that could mean losing those folks to your Hot New Country competitor.

McNeill's not worried about that: "The 25-54 demo is still the most important for advertisers. And 35-54 is growing in importance for the advertising community. Indeed, the 35-44 cell is the fastest-growing demo in the U.S. And who wouldn't want a station centered around the 30-40 age group?"

Also remember: The young demos swelling Country listenership aren't a Country audience in the classic sense. They're current music consumers and they will gravitate to whatever's hot.

So how do you do battle with a Hot New Country station if you make the move back to the middle? McNeill suggests repositioning your competitor. "That's difficult for them to defend," he notes. For instance, McNeill might counter a current-based competitor with a liner like "If you're tired of hearing the same new songs over and over, there's an alternative."

He adds, "Call 'em names. Give them the opportunity to either defend or abandon their position."

“

Listeners are starting to feel lost — they just can't keep up with all the new music and acts.

—Brad Chambers

Either way, you can work it to your advantage. Attacking the weaknesses in their strengths makes them either back off on the strength you're attacking or put more emphasis on it, which strengthens the position you've moved to."

The Last Word (?)

And the final word on the matter — for now, at least — can be found in the June 1994 *Playboy* interview with **Garth Brooks**. He says, "Somebody at a radio station told me they're not playing anything pre-1987. That's scary. A lot of these people think that the only way they can stay successful is to play the youngest and the newest stuff. and there begins the fall."

As always, balance is critical. Let me know where your station stands at the current-gold crossroads.

Polydor Returns To Music City

Two months after opening its doors, the newly reactivated Polydor/Nashville label debuts its first single this week: Chely Wright's "He's A Good Ole Boy."

The newest kid on the country block announced its presence with authority amid the fireworks at a recent Music City celebration. But after the smoke cleared and the lights went up, the question remained: Can the country market sustain yet another label full of new talent?

According to Polydor President Harold Shedd — who hopes to capitalize on country's youthful trend with a roster that includes the Moffats, a group of 10-year-old boys, and Amie Comeaux, a 17-year-old Baton Rouge native — the answer is a resounding "yes."

WORKING 'OVER' TIME — BMI recently hosted a listening party for Jamie O'Hara's RCA/Nashville album "Rise Above It" at its Nashville offices. The LP contains O'Hara's latest single, "It Ain't Over ('Til Your Heart Says It's Over)." Background

A big-voiced baritone whom the doctor once told had "vocal cables" instead of vocal cords, Jesse Hunter was born to sing. The Memphis native came by his instant love for music naturally, growing up in a house full of country fans. "Dad's an old cowboy throwback, and he loves the Sons Of The Pioneers and Marty Robbins. He rocked me to sleep singing their songs. He was also a huge fan of rootsy stuff like the Carter Family and Jimmie Rodgers, too."

Hunter picked up his first instrument when his dad literally put it down. His father had tried in vain to learn how to play the harmonica, got frustrated, and laid it down on the seat of the car. Hunter picked it up, and by the weekend he was ready for another harmonica. He later began sitting in with family friends when they played together in town.

Hunter moved on to the guitar at 16, and two years later he was playing club gigs around town. Stints in a radio station house band and at college followed before he decided to move to Nashville and focus solely on his music. Once there, he took a job surveying land on construction sites — but continued to play. "Every time it would rain, I'd make my rounds to the publishing companies. It got so that the receptionists wouldn't even have to look outside, they'd see me coming and know it was raining," he laughs.

Signing

A turning point in Hunter's musical career was when producer Doug Johnson took him aside and called him down for not

Jesse Hunter

writing material for himself. "I was a writer at NEM Music and had just gotten a Bobbie Cryner cut. Doug called me in and asked to hear some of my stuff. Ashamed, I had to admit I didn't have anything for myself. He let me have it, and I immediately took six months off and wrote six songs just for me — some songs that had the spunk and attitude of that wild blonde-haired kid who moved from Memphis years ago."

When Hunter's songs were pitched to BNA, the label arranged a showcase and signed him after hearing three songs. "I proceeded to call Doug and chew him out for not chewing me out earlier," he laughs.

Songs

As a child, Hunter spent hours poring over liner notes, fascinated at the writer and producer credits. That came in handy for one of the first jobs he got in Nashville — a member of a trivia panel for a Wednesday night radio show on WSM.

His love of poetry and writing may have contributed to Hunter's songwriting talents; when he was in the fourth grade he was moved to a sixth-grade English class. He penned seven songs on his debut LP, including his current single. His album also contains a Guy Clark tune, "LA. Freeway."

"There are a lot of new artists out there now, but I think many of them will fall by the wayside in time. The expense of doing business is so astronomical these days that if an act isn't selling, I believe it will automatically drop into a different category after a while. If there is a trend in country right now, it's definitely toward the newer or younger artists. One of the themes of our company is nurturing and breaking new talent, and we're working with younger, more traditional acts to bring that sound to the younger audience."

Polydor VP/GM Steve Miller adds that although the roster will initially be more youth-focused and have a younger slant, the label will explore the boundaries of country and is not limiting itself to younger talent. Each artist will have a customized marketing plan, and Miller plans to use alternative marketing avenues — much like those sister label Mercury/Nashville used with Billy Ray Cyrus.

"We definitely plan to tie into bigger arenas of visibility, and we will look for other ways of breaking acts besides radio," says Miller. "But using these alternative methods will actually help radio, because when we do things that enhance an artist's visibility and chances of getting airplay, it's really just insurance for that programmer."

Short Roster = Special Attention

Small roster size will be another key in ensuring the best possible chances for Polydor's acts to break into the already crowded market. "We plan to keep the roster at around 10 artists so we can stay focused on projects, see them through, and give our acts the specialized attention they need," Shedd explains. "Two years is the shortest length of time we've been working with any of our acts on the roster; we've got one we've been working with for six years. And all this time you thought I hadn't been working!"

Along with flagship artist Wright, a Kansas farmgirl who counts Loretta Lynn among her influences, Polydor's roster also boasts Toby Keith and Davis Daniel, who both move over from Mercury/Nashville. Comeaux, the Moffats, Shane Sut-

ton, and former indie fiddle wonder Clinton Gregory round out the list.

The label sees the Moffats, four Canadian boys who've performed in Las Vegas and on the former "Nashville Now" TV show numerous times, filling a needed gap for country's younger audiences. "There are no good role models for kids out there today in country, and we feel that children will really be able to relate to the Moffats," Miller says. "They're very talented — they all write songs. We believe this is a market that hasn't been tapped into and that they have worldwide potential."

Polydor will release singles by four of its artists before year's end. Wright's LP "Woman In The Moon," due out in August, will be Polydor's first album release. That will be followed by Keith's "Boombtown" disc September 27 and Daniel's self-titled CD in October. Gregory's first single will also cross PD's desks by the end of the year.

Ryman Renovation
High Five Productions and Quincy Jones/David Salzman En-

tertainment taped a CBS-TV special this week at the newly renovated Ryman Auditorium. Among the show's highlights were Suzy Bogguss and Chet Atkins performing a Patsy Cline tune and Alan Jackson doing a Hank Williams Sr. song with members of Williams's original band. Other artists appearing on the special, set to air later this month, include Lee Roy Parnell, Pam Tillis, Rodney Foster, and Steve Wariner. *Life* magazine is planning to run a companion piece to the show in an upcoming issue.

Willie's Way

Waylon Jennings got the last laugh on old buddy Willie Nelson during a recent appearance on TNN's "Music City Tonight." Jennings mentioned during the program that he didn't remember the time he had met his new duet mate, Mark Chesnutt, when host Lorianne Crook teased him by saying, "Willie Nelson told us there's a whole lot you don't remember!" Jennings proceeded to defend himself with, "Now, Willie might tell you that, but there's one thing ol' Waylon ain't never done — I ain't never got busted for sleeping under the influence. You gonna pay attention to a guy who'll do that?" (referring to Nelson's recent arrest for possession of marijuana while sleeping on a roadside).

Incidentally, Nelson recently finished recording his part of "My Way," a duet with Ol' Blue Eyes himself, Frank Sinatra. The cut will appear on Sinatra's forthcoming LP, "Duets II," a follow-up to his 1993 compilation.

Summer School

The Nashville Songwriters Association International will host its annual Summer Seminar and Song Camp 101 July 15-19 in Nashville. Panelists for the event will include writers Jim McBride, Jon Vezner, Bob Regan, Lisa Palas, and Bobby Fisher; the Pro Songwriters Showcase will feature performances by Dean Dillon, Don Henry, Angela Kaset, Sonny LeMaire, and others. For more information, contact the NSAI at (615) 256-3354.

Good Advice On Getting Advice

Oh, dear. Your winter book was incredibly lame and the first trend of spring offered little sign of improvement. Now, it turns out the rumors are true and you're going to have a new formatic competitor.

Need some help? Maybe it's time to think about hiring a consultant. If so, here are some things to consider as you go about choosing an outside advisor. Take your time, a good consultant may charge anywhere from \$30,000 to \$60,000 — or more — per year.

Objectivity Is Important

According to programmers and consultants interviewed for this article, the most valuable asset a consultant offers for that kind of money is an objective set of ears.

"It's nearly impossible for a PD or even a group programmer to be objective about their own stations," observes WFLA/Tampa OM Gabe Hobbs, who does some consulting on the side. "Even the group guys are too familiar with the personalities and

A lot of music consultants come in with these cookie-cutter solutions. You can't do that with Talk because what makes the station successful is its own unique personalities and the substance [of the hosts' shows].
— Bill McMahon

Trait Test

Look for these six traits when choosing a consultant:

- Experience
- Faith
- Originality
- Honesty
- Dedication
- Compatibility

decisions involved. Every PD thinks his station is great and the competition sucks. Hopefully, that's true. But sometimes the competition doesn't suck as much as you think, or you're not as good as you think."

KSTP/Minneapolis PD Steve Konrad says he's often amazed at the things his consultant, Bill McMahon, notices during station visits. "The other day Bill mentioned that the call screener on one of our shows had gotten kind of loose about who was getting on the air," recalls Konrad. "I didn't notice that because it was such a gradual slide."

Are You Experienced?

Of course, any consultant worth hiring is more than objective. Here are some other traits to look for as you interview prospective advisors:

Experience — Be sure the consultant you're considering isn't just a theorist or blowhard. Check out his real-world formatic experience and track record of success. "In my experience some people become consultants because they can't hold a

regular job," cautions consultant Bruce Marr.

There is some disagreement about the importance of a consultant's breadth of experience. Marr, himself a former News and Talk programmer, believes Talk is so different from music formats that music radio can't effectively consult Talk outlets.

But Hobbs, a CHR PD turned Talk programmer, thinks "polyformatic" consultants who are versed in several formats can bring new thinking to Talk stations and help them understand their music-based competition.

McMahon doesn't rule out music consultants as an option, but cautions that there is a fundamental difference between consulting Talk and music stations. "A lot of music consultants come in with these cookie-cutter solutions," he says. "You can't do that with Talk because what makes the station successful is its own unique personalities and the substance [of the hosts' shows.]"

Faith — The best consultants have developed a strong system of beliefs about what works — and what doesn't. They don't try to be all things to all clients.

Originality — Look for someone who has taken his experience and beliefs and successfully applied them to different situations. Consultants who have had one success and try to use that approach over and over are of limited value.

Honesty — A yes-man is useless. "Some of the most productive time I've spent with consultants was when we were disagreeing over absolutely everything," says WTMJ/Milwaukee PD Steve Wexler.

Dedication — Make sure the consultant has the time to devote to your

Top Ten Talk Topics

May '94

What's on Americans' minds? Each month R&R conducts an exclusive survey of the nation's leading Talk radio stations to determine the 10 issues that have generated the greatest amount of listener phone response over the past four weeks. Following is a comparison of last month's and this month's hottest topics.

LM	TM	Topic
—	1	Paula Jones Sex Allegations
—	2	Jacqueline Onassis Death
—	3	Assault Weapons Ban
3	4	Singapore Caning Case
8	5	Health Care Reform
—	6	John Wayne Gacy Execution
1	7	Whitewater Probe
—	8	Dan Rostenkowski Scandal
2	9	Richard Nixon Death
—	10	Hillary for President

Health care reform marks its eighth consecutive month on the chart. The Whitewater probe notches its fourth straight month.

Reporting Stations: KGO/San Francisco, Ken Beck; KING/Seattle, Andy Ludlum; KIRO/Seattle, Billy Yeend; KMOX/St. Louis, Tom Langmyer; KOAI/Denver, Kris Olinger; KSDO/San Diego, Kelly Wheeler; KSTP/Minneapolis, Steve Konrad; WABC/New York, John Mainelli; WFLA/Tampa, Gabe Hobbs; WGST/Atlanta, Eric Seidel; WLSI/Chicago, Drew Hayes; WOC/Davenport, IA; WRKO/Boston, Paula O'Connor; WTAE/Pittsburgh, Tom Clendening; WTMJ/Milwaukee, Steve Wexler; WTSO/Madison, Bob Shomper; WWDB/Philadelphia, David Rimmer; WWRC/Washington, Gary Burns; WXYT/Detroit, Michael Packer.

station. Because the format is so tied to what's happening in the community — and since every day's programming is so different in content — frequent market visits are critical. Marr says he would demand at least four visits per year. Both he and McMahon say they visit their clients as often as once a month.

Compatibility — A station and its consultant should be on the same page in terms of where the station needs to be and how it should get there. There must also be some chemistry — or at least respect — between the PD and the consultant. If a PD feels he's being forced to work with a consultant whose judgment or style he questions, the PD can quickly grow resentful.

Indeed, the experts agree that while the GM should be involved in

the search for a programming consultant, the final decision should be left to the PD.

Prove It!

So, how does one go about determining whether a potential consultant has the right stuff? By spending lots of time talking with them and with the stations they've handled. A reputable consultant will be glad to provide potential clients with a long list of references.

McMahon also suggests that stations ask a prospective consultant to critique some of their programming. If his analysis fails to go beyond the formatic nuts and bolts of spot placement and station IDs, think twice about hiring him. "If they can't judge the content of the show, I'd be concerned," says McMahon.

JUNE 13th

I woke up this morning to an empty bed,
Why she left me is hard to say.
Well is this fate or just a bad day?
Is this bad luck or just bad timin'?
Or is it the lies I told it's hard to say.

“When I sang these songs I was only a womanchild, and I’m not sure I understood the power they unleashed. Now I do. Singing them again is like revisiting the past, only with the confidence – and the absolute knowledge – that all my wildest dreams will come true.”

AQH and Cume Persons expressed in hundreds (00's).

R&R WEIGHTING FORMULA: Each station earns its own weight in points, based on the size of its audience and how effectively it reaches that audience. The base elements of the formula include: AQH, Cume, and the station's turnover. We process these raw numbers through simple reduction and limiting formulas to bring the large numbers down to a manageable size and keep any single station from having a weight increase greater than the average of ten stations preceding it.

AUDIENCE IMPACT: A station's turnover figure is used to determine the approximate number of weekly plays a song needs on a station to be exposed to the average quarter-hour persons a minimum of one time.

Here's How to "Read Between the Lines"

2 CHARTS IN 1

QUANTITATIVE

The most heard song may not always be the song with the most plays. Pure airplay is one important evaluator... it shows the number of stations and their commitment to it.

QUALITATIVE

The *qualitative* level of evaluation brings each station's audience reach into the airplay picture. You can quickly determine the audience size of stations playing songs by comparing the *qualitative* chart position and Total Points to the *quantitative* Play Rank and number of stations.

A good example is the Toni Braxton song, #15 on the chart but 23 in Play Rank, with only 31 stations.

Quick conclusion: Must have many large market stations playing it in significant rotation.

(Examination of the actual song stats confirms that most of the top 30 markets are on it with stations playing it 20-35 times a week.)

- *Points* reflect the size of markets and audience of the stations (Qualitative)
- *Plays* reflect the number of plays each station gave a song (Quantitative)

ADD FACTOR INSIGHT INTO WHO'S ADDING A SONG

More than just the quantity of stations

The *Add Factor* gives you a quick analysis of the audience size of stations adding a song. In a situation with the same or similar number of stations adding a song, the one with the higher AF has the stations with larger audiences adding it.

MOST ADDED®

ALL-4-ONE	"Swear"	16 (AF: 9)
MARIAH CAREY	"Anytime"	14 (AF: 8)
STEVIE NICKS	"Maybe"	12 (AF: 4)
WET WET WET	"Around"	10 (AF: 5)
KENNY LOGGINS	"Pooh"	9 (AF: 5)
LOWEN & NAVARRO	"Just"	9 (AF: 4)
JIM BRICKMAN	"Rocket"	6 (AF: 4)
GILL & KNIGHT	"Ain't"	6 (AF: 3)
ATLANTIC STARR	"Remember"	6 (AF: 2)
MITCH MALLOY	"How"	5 (AF: 3)

Mariah Carey has only 2 more stations than Stevie Nicks but double the AF. Mariah is reaching a significantly larger audience with its mix of stations, as is Wet Wet Wet with two less stations.

This chart reflects airplay from May 23 - 29.

158 total reporters. Bullets given only to songs showing growth in total points or plays.

Total play levels were reduced because of holiday special programming.

Therefore, there were fewer bullets than usual on the chart.

This chart reflects airplay from May 23 - 29. 158 total reporters.
 Bullets given only to albums showing growth in total points or plays.
 Chart based on total points, with plays from all cuts from an album combined.

Total play levels were reduced because of holiday special programming.
 Therefore, there were fewer bullets than usual on the chart.

QUANTITATIVE

The most heard song may not always be the song with the most plays. Pure airplay is one important evaluator... it shows the number of stations and their commitment to it.

QUALITATIVE

The *qualitative* level of evaluation brings each station's audience reach into the airplay picture. You can quickly determine the audience size of stations playing songs by comparing the *qualitative* chart position and Total Points to the *quantitative* Play Rank and number of stations.

A good example is the Tevin Campbell song, #22 on the chart but 40 in Play Rank, with only 41 stations.

Quick conclusion: Must have many large market stations playing it in good rotations.

(Examination of the actual song stats confirms that over 70% of the airplay is concentrated in the top 50 markets.)

- **Points** reflect the size of markets and audience of the stations (Qualitative)
- **Plays** reflect the number of plays each station gave a song (Quantitative)

ADD FACTOR INSIGHT INTO WHO'S ADDING A SONG

More than just the
quantity of stations

The *Add Factor* gives you a quick analysis of the audience size of stations adding a song. In a situation with the same or similar number of stations adding a song, the one with the higher AF has the stations with larger audiences adding it.

MOST ADDED®

ANGELA WINBUSH	"Inner"	32 (AF: 12)
GUESSS	"It's"	30 (AF: 11)
SHAI	"Place"	24 (AF: 11)
QUEEN LATIFAH	"Black"	24 (AF: 8)
SNOOP DOGGY DOGG	"Doggy"	24 (AF: 6)
BLACKGIRL	"90's"	17 (AF: 6)
ME'SHELL NDEGECELLO	"Outside"	16 (AF: 6)
KLYMAXX	"All"	15 (AF: 5)
NIKKI KIXX	"What"	14 (AF: 3)
MARIAH CAREY	"Anytime"	13 (AF: 5)

Because these two have the same AF it becomes clear that Shai, with fewer stations, was added on stations with larger audiences in larger markets.

Me'Shell with 8 less stations than Snoop has the same AF. Me'Shell is reaching a larger audience with its station mix.

AQH and Cume Persons expressed in hundreds (00's).

R&R WEIGHTING FORMULA: Each station earns its own weight in points, based on the size of its audience and how effectively it reaches that audience. The base elements of the formula include: AQH, Cume, and the station's turnover. We process these raw numbers through simple reduction and limiting formulas to bring the large numbers down to a manageable size and keep any single station from having a weight increase greater than the average of ten stations preceding it.

AUDIENCE IMPACT: A station's turnover figure is used to determine the approximate number of weekly plays a song needs on a station to be exposed to the average quarter-hour persons a minimum of one time.

QUANTITATIVE

The most heard song may not always be the song with the most plays. Pure airplay is one important evaluator... it shows the number of stations and their commitment to it.

• Points reflect the size of markets and audience of the stations (Qualitative).

• Plays reflect the number of plays each station gave a song (Quantitative).

QUALITATIVE

The qualitative level of evaluation brings each station's audience reach into the airplay picture. You can quickly determine the audience size of stations playing songs by comparing the qualitative chart position and Total Points to the quantitative Play Rank and number of stations.

A good example is the Warren G. song, #16 on the chart but 42 in Play Rank, with only 54 stations. Quick conclusion: Must have several large market stations playing it heavily.

(Examination of the actual song stats confirms that several major market stations are playing it 65 to 75 times a week.)
