## • ROCK ROUNDUP •

The New York Hilton and Towers is the site of the Billboard/Airplay Monitor Radio Seminar, scheduled for Sept. 8-10. Seminar events will kick off the morning of Sept. 9 following the previous night's MTV Video Music Awards at Radio City Music Hall. Registration will open Sept. 8.

The radio business seminar, geared toward PDs, MDs, and label promotion executives, will include interactive sessions and training workshops hosted by Billboard sister company Broadcast Data Systems on Sept. 9 and 10, giving seminar registrants two opportunities to attend.

In addition, the seminar will feature sessions and keynote speeches focusing on the recent changes in all facets of the radio business. Seven format-specific gatherings are also planned in the following genres: AC, album rock, country, Spanish, modern rock, R&B, and top 40.

The Billboard/Airplay Monitor Radio Awards will be held Sept. 10 as the seminar's closing event. The nomination process is currently underway. Ballots containing the complete list of nominees will appear in the July 2 issue of Billboard and the July 1 Airplay Monitors.

The New York Hilton and Towers, located at 1335 Avenue of the Americas, is charging seminar attendees a rate of \$160 a night for single and double occupancy rooms. Reservations should be made by August 19, and can be obtained by calling the hotel at 212-586-7000 and mentioning you're registering for the Billboard/Airplay Monitor Radio Seminar. See you in the Apple!

# Monitor ROCK AIRPLAY

## DETECTIONS

JUNE 13—19, 1994

Compiled from a national sample of airplay supplied by Broadcast Data Systems' Radio Track service to Rock Airplay Monitor. 109 album rock and 37 modern rock stations are electronically monitored 24 hours a day, 7 days a week. Songs ranked by number of detections. ©1994, Billboard/BPI Communications.

Records showing an increase in detections over the previous week, regardless of chart movement. A record which has been on either chart for more than 20 weeks will not receive a bullet, even if it registers an increase in detections. Airpower awarded to those records which attain 800 detections (album) or 400 detections (modern) for the first time. If two records are tied in number of plays, the record being played on more stations is placed first. Records below the top 20 are removed from the charts after 26 weeks.
