• ROCK ROUNDUP •

by Mark Marone

NEW ERA: This week, we begin another phase in Rock Monitor's ongoing effort to bring to you the most comprehensive coverage of rock radio by introducing the triple A playlist section on page 14. All 12 playlists will be listed in a manner similar to our Power Playlist sections, which list the top 30 songs for stations ranked by the largest number of plays.

Please keep in mind that the page is just an introduction to the format. We are working with BDS to monitor additional triple A stations, which will be added as they become available. The long-term goal is to have enough stations to publish a triple A chart in the near future.

Thorough coverage for the adult rock format is one of our big goals before the year is out, so please offer us your comments and questions as we put this together. Feel free to contact triple A format manager Anthony Colombo at 212-536-5064 with your thoughts.

HEROES: It's good to hear some of the recent modern rock entries pay a nod to great artists like David Bowie and the Clash, to whom the format owes its beginnings. It's conceivable many of today's 18-year-old modern listeners don't know the significance that these groundbreaking artists held in the '70s, or if they've even heard them in the first place. Edwyn Collins and Rancid sound like the music that was around when the alternative rock format began, and at the same time sound fresh for today's modern world. Good jocks will point out for their listeners the links that these and other current artists have with the past.

NEW BAND: Having been a fan of the Red Hot Chili Peppers through their numerous guitar player changes, from Hillel Slovak on, my anticipation of their new release was heightened even more by the off-season acquisition of one of my favorite recent guitarists, Dave Navarro. "Warped" combines their collective talents to form a spinning, white-hot ball of energy and will certainly leave fans breathless. Despite thoroughly enjoying the track and expecting the album to be fantastic, I remembered with heavy heart the great Jane's Addiction when the song suddenly slowed down with a smooth slide into a pool of calm at its finish, which is the kind of unexpected, majestic shift that Navarro played so well in Jane's. If the single is any indication, Navarro is a perfect match for the Chili Peppers. I can't wait.

NOTE: WONE Akron, Ohio, will be removed temporarily next week due to a reception problem.

Records showing an increase in detections over the previous week, regardless of chart movement. A record which has been on either chart for more than 20 weeks will not receive a bullet, even if it registers an increase in detections. Airpower awarded to those records which attain 800 detections (album) or 800 detections (modern) for the first time. If two records are tied in number of plays, the record being played on more stations is placed first. Records below the top 20 are removed from the chart after 26 weeks.
