Will Your Radio Station Work On Jan. 1, 2000? Suppliers Say Yes

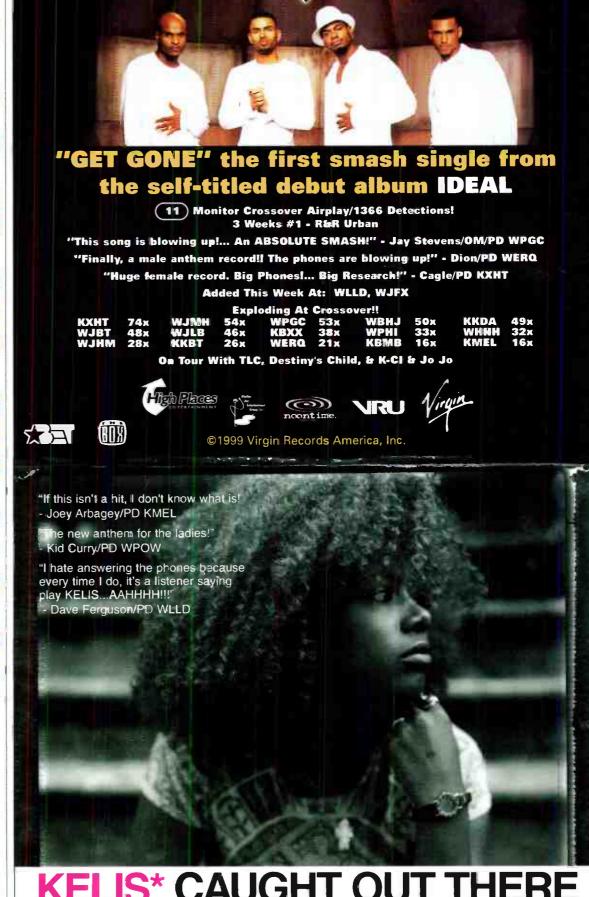

by Jeff Silberman and Frank Saxe

News item: "To the Dow's detriment, investors sent shares of 1BM tumbling 14% Thursday morning after Big Blue warned that the year 2000 computer bug will pinch profits for the next two quarters.

News item No. 2: "Ninety percent of Americans are aware of the Y2K issue, but only 10% of those who are aware are concerned about it, according to a recent Maritz Poll conducted by Maritz Marketing Research. Though they claim little concern, many people are planning to take precautionary measures. Some of the most popular Y2K precautions: store up food and water; avoid air travel; withdraw money from bank accounts; use a generator or other utility alternatives, such as candles or propane; avoid elevators; avoid public transportation; leave metropolitan areas: store up guns, ammunition, and other weapons; and avoid driving a

Despite the apparent paranoia of some of the citizenry, representatives of four companies that use computers to service the radio and/or record industries-Broadcast Data Systems: music software provider Radio Computing Services, parent company of Selector music software; ratings agency Arbitron; and "virtual radio" automation provider Prophet Systems-insist that they identified the potential Y2K problems years ago and, after years of testing, have taken the steps necessary to ensure a smooth transition to the next century.

"We've done everything we can, except physically change the time of year," says RCS VP of sales and mar-keting Paul McKnight, "We've re-created the situation on our computers, creating scenarios we've heard about and testing certain combinations of Continued on page 6

"Welcome Back, EURYTHMICS"! Prepare To Be Loved All Over Again."

*"17 Again" is a rich four-minute masterpiece from the ultimate diva of modern times. Thanks to her renewed kinship with Dave Stewart "17 Again" takes steadfast Eurythmics fans on a journey that will leave them on their knees. There's no previous song that quite compares to this one, which tells of a newfound love that feels like "17 Again." You just can't go wrong here. This track is as rewarding as a high school reunion where you find that special someone you've been wondering about over the years. Welcome back, Eurythmics. Prepare to be loved all over again.

Million Dollar Insurer Hit Twice In 24 Hours

American Media & Special Promotions did a pretty good job making millionaires last week in its Birthday Game: two different millionaires at two different stations. Twenty-four hours after top 40 KIIS Los Angeles awarded someone \$2 million, R&B WRKS (Kiss FM) New York made a 72-year-old woman a \$1 million winner. American Media's Scott Meach notes that since starting this game less than 18 months ago on stations in more than 50 markets, there have been four million-dollar winners. Besides the aforementioned stations, country WYAY (Y106.7) Atlanta paid out \$1 million, as did KIIS a year ago.

Nevertheless, Meach isn't afraid that all these winners will break the bank. "We know there are going to be winners," he says. "We're in business to pay winners, so we want to do [the] game as much as possible." Annuities are common in the Birthday Game, he adds, noting that the terms of the annuity length vary from 20 to 40 years.

323-525-2303 • jsilberman@airplaymonitor.com

In other K1IS news, morning co-host Ellen K gets some exclusive, er, exposure, modeling bikinis on the Web site bikini.com. (Specifically, bikini.com/ellenk . . . not that we spent a long time there. Like any good journalist, we have to confirm all news stories.) Complementing the pictorial is an interview in which Ms. K answers such hard-hitting questions as, "Ellen, why is the beach so popular?" and our favorite, "Do you just love bikinis, or what?"

INTERNET-ONLY BRAND EXTENSIONS KEEP ROLLING OUT

Finally, following the Oct. 13 sign-on of KIIS' brand-extension Internet station, kiisfmi, Hot Radio Networks and Clear Channel are rolling out a second online station, devoted to men in the 18-24 demo, in December. According to Hot Radio Network co-chairman Laurence Norjean, the new site, called xtrai, will be tied into KIIS' sports-talk sister KXTA and will program sports talk in the morning, "extreme" modern and hard rock in the afternoons, and male talk at night. There will also be features targeted to the same mind-set as Comedy Central's "The Man Show." Following the rock/talk channel will be an R&B/hip-hop site (rapi.com), as well as country, Hispanic, and teen-oriented talk Internet-only stations.

Then there's KFMB-FM (Star 100.7) San Diego, which quietly rolled out one of the first brand-extension stations well before K11S. KFMB's "Ultimate '80s Channel," programmed by GM Tracy Johnson, now averages about 400 listeners during daytime hours. The station is considering two more Internet-only stations by year's end. Meanwhile, Johnson and MD Jen Sewell are sharing programming duties following PD Scott Sands' departure for the PD slot at WZPL Indianapolis, replacing Tom Gjerdrum.

MANAGEMENT: MORE CLUSTER VPS

AMFM has named another round of cluster VPs: Former R&B oldies KTXQ (Magic 102) Dallas GM Brian Bieler is named cluster VP for Sacramento, Calif., including AC KGBY; top 40 WXKS-FM (Kiss 108) Boston GM Jake Karger is named cluster VP for Boston, overseeing Kiss and rhythmic top 40 WJMN (Jam'n 94.5); AC KODA Houston GM Chris McMurray is named cluster VP for Houston, which includes album KLOL and country KKBQ-FM; and jazz KKSF San Francisco GM Doug Sterne is made cluster VP for San Francisco, including rhythmic top 40 KYLD (Wild 94.9), R&B KMEL, adult R&B KISQ, and AC KIOI (K101). Finally, ex-VP of radio for Nationwide Communications Clancy Woods is named cluster VP for Phoenix, including country **KMLE**, modern AC **KZON**, and rhythmic top 40 **KKFR** (Power 92). Also, AMFM has named four former Capstar executives as regional senior VPs of programming. Former Atlantic Star VP of programming Alan Furst will oversee 90 stations in 18 Northeastern markets; former Pacific Star VP of programming Rich Hawkins will handle 60 stations in 13 Western markets; former Central Star VP of programming David Lange gets 43 stations in 12 Midwestern markets; and former Sea Star VP of programming Buddy Scott will oversee 60 stations in 19 Southeastern markets.

FORMATS: KIOI BRIGHTENS

In other news from KIOI, it becomes the latest AMFM AC to undergo a notable brightening, adding titles from **Christina Aguilera** and **Britney Spears** ("[You Drive Me] Crazy"). The station has also, according to market observers, dropped its "Soft rock hits" positioner, although it continues to use "The music that picks you up."

up."
Also some notable tweaking at crossover KXJM (Jammin' 99.5) Portland, Ore., which shows First Impressions this week on Backstreet Boys' "Larger Than Life" and Jennifer Lopez's "Waiting For Tonight." Add that to existing airplay on "Genie In A Bottle," "Mambo No. 5," and One Voice's "When U Think About Me," and there's a considerably greater pop/rhythmic component on KXJM than there was when the station signed on with a primarily R&B diet.

WQEN Birmingham, Ala., adds a simulcast partner this week, new sign-on WQEM (101.5). The new station will improve WQEN's coverage in the southern end of the market.

PROGRAMMING: ALLEN CLEANS UP

Steve Allen, PD of WBIG (Oldies 100) Washington, D.C., and director of oldies programming for AMFM, adds PD duties for AC sister WASH, replacing Darren Davis, who leaves for the PD slot at country KIKK-FM Houston.

WWXM (Mix 97.7) Myrtle Beach, S.C., OM Scrap Jackson is replaced as Mix PD by afternoon host Wally B. Country sister WGTR (Gator Country) mornings/APD Johnny Walker is now interim OM. WWXM mornings/MD Booger adds PD duties at active rock sister WDZD.

Adult top 40 WYCO (Y108) Wausau, Wis., PD Brian Cornwell exits. MD/afternoon host Derek James is named interim PD. Bob and Sheri are inked for mornings; crosstown top 40 WIFC part-timer Dayton Stone joins WYCO for middays; Delilah is added for nights.

WMGI (Mix 100.7) Terre Haute, Ind., PD/morning host Rich O'Brien joins AC KMXD (Mix 106.3) Des Moines, Iowa, as APD/mornings.

PEOPLE: VETERAN EXITS

AC WYJB Albany, N.Y., afternoon host Joe Condon exits, after 31 years with the station.

KMXV (Mix 93.3) Kansas City morning duo Mike and Nycki exit the business. MD Dylan will hold the fort until successors are named.

Former KRXY (Y108) Denver morning host Dave Otto joins crosstown R&B oldies KDJM for mornings along with modern KBPI morning co-host Laurie Michaels, who joins KDJM in the same capacity. Also, crosstown rhythmic top 40 KQKS (KS107.5) middayer Cha Chavez joins KDJM for afternoon drive.

Crossover WERQ (92Q) Baltimore taps middayer Egypt from sister WPHI (Philly 103.9) Philadelphia. Morning host Brian Carter exits.

KZQŻ (Z95.7) San Francisco morning producer Aaron Machado heads to KDON Monterey, Calif. to host his own morning show.

Middayer Robin Cole is now morning co-host

at WKSL (Kiss FM) Memphis, replacing Krista. Former KYLZ (Wild 106) Albuquerque, N.M., PD MC Scrappy joins KZZP Phoenix for nights as Brian Marino, replacing Naughty Boy

KSMB Lafayette, La., middayer Cheryl Robichaux joins WEZB (B97.1) New Orleans in the same capacity, replacing Patty Steele, who joined WLNF (Live 95) Biloxi, Miss., as PD and has since segued that station from modern AC to mainstream top 40. Also, night jock J. Love moves to afternoons, replacing Booker, now in mornings, and overnighter Tom Mitchell heads to nights.

'Will 2K' Starts Big At Rhythmic, Mainstream

Will Smith scores Airpower, Greatest Gainer, and Most New Stations honors at rhythmic top 40 and Greatest Gainer and Most New Stations honors at mainstream top 40 with "Will 2K" (Columbia). The song shows an 80% increase in rhythmic audience, a 156% increase in rhythmic detections, a 46% increase in mainstream audience, and a 108% increase in mainstream detections.

Back in July, **702's** "Where My Girls At?" (Motown) hit No. 1 on the rhythmic detection chart. This week, the title moves into the No. 1 slot on the rhythmic audience chart. Despite being down less than 2% in audience, the song gets a bullet, since it is in its first week at No. 1 on the chart.

Despite achieving Airpower status on the adult contemporary chart this week, **Celine Dion's** "That's The Way It Is" (550 Music) has no Airplay Leader. Dion's quick acceptance at multiple AC reporters meant that the song was able to reach top 20 in detections and audience before any single station had given it 100 total spins.

Lit's "My Own Worst Enemy" (RCA) receives a bullet in its 21st week on the adult top 40 airplay chart. The song has increased in detections for the past two weeks and is showing an 8% increase in audience in its 17th week on the adult top 40 audience chart; songs older than 20 weeks usually are not bulleted unless there's a demonstrated pattern of continued growth.

PANEL CHANGES: Effective this week, **KALC** Denver moves from the mainstream top 40 panel to the adult top 40 panel; it continues to report to modern AC. **WVTI** Grand Rapids, Mich., moves from mainstream top 40 to the adult top 40 and modern AC panels. **WKQI** (Q95.5) Detroit moves from adult top 40 to mainstream top 40.

KKDM Des Moines, Iowa, is added to the mainstream top 40 panel. WXIS Johnson City, Tenn.; WTWR Toledo, Ohio; and WQSL New Bern, N.C., are no longer mainstream top 40 reporters. KQCH (Channel 977) Omaha, Neb.; WJBT Youngstown, Ohio; and WDBT Jackson, Mich., are added to rhythmic top 40. KMJJ Shreveport, La., a mainstream R&B reporter, becomes a dual reporter to Monitor's crossover panel.

porter to Monitor's crossover panel.

WQSH Louisville, Ky.; KUCD Honolulu; and WCPT Albany, N.Y., are added as dual reporters to adult top 40 and modern AC. KVLY McAllen, Texas, is added to the AC panel. KSNE Las Vegas is no longer a reporter to the AC panel. There are now 111 mainstream top 40, 33 rhythmic, 77 adult top 40, 35 modern AC, 70 AC, and 61 crossover reporting stations.

PEOPLE MONITOR: Rick Bisceglia exits his post as executive VP of the Epic Records Group ... Former Island Records VP of promotion Dave Sholin resurfaces as VP of pop promotion at Capitol Records. He'll remain based in San Francisco ... N-Coded Music ups senior VP of A&R Carl Griffin to label president.

THE END OF THE YEAR is sooner than you might think. Please be aware that the last BDS tracking date for the 1999 year-end charts will be Nov. 14. Detections accumulated after that date will count toward the 2000 chart year.

Mega-Merger Keeps Industry On Its Toes

The radio landscape is far from solid, say owners, brokers, and analysts who are eyeing mega-mergers and potential spinoffs from Clear Channel's purchase of AMFM. "That should change the face of the radio industry," said **Robin Flynn**, an analyst with Paul Kagan

Associates, which sponsored last week's radio economics conference. To meet federal ownership caps, Clear Channel must sell approximately 125 radio stations in more than two dozen markets. Morgan Stanley Dean Witter analyst Frank Bodenchak says if it were to sell all the stations, it would face a huge \$1.1 billion tax bill, amounting to \$6 per share. Given that, Bodenchak says, "swaps are going to be a top priority." When that process has been completed, the real race begins as dozens of groups vie for the remaining sticks. Clear Channel has faxed a virtual shopping list to dozens of radio CEOs, asking them to check off which stations they are interested in and giving them 10 days to return their list. The company has since set up an office open 24 hours a day to allow

groups to review station books.

On Oct. 18, Clear Channel and AMFM execs met with the FCC and congressional leaders in the effort to convince them to approve the deal. One insider says that while it is "absolutely illegal" for the FCC to force Clear Channel to spin stations to minorities, the commission "strongly encouraged" it to do so.

"I wish I were a minority," jokes Citadel CEO Larry Wilson, saying companies like Radio One will likely be a big winner. Still, he believes there will be 50 to 60 markets available for other broadcasters.

BET TO BUY RADIO

BET Holdings, the parent of Black Entertainment Television and 35% stake holder in Liberty Media, has formed a unit to buy its way into radio. Liberty Media president Robert Bennett says radio "presents an important potential source of cross-promotion and brand extension for BET, including BET.com." BNY Capital Markets has been hired to find BET stations to buy. BET reaches 57.8 million cable households in the U.S.

Just hours earlier, Liberty Media announced it is buying a 14% stake in Emmis Communications, which owns 16 radio stations in markets including New York, L.A., and Chicago. Liberty will buy 2.7 million shares of Emmis stock, worth approximately \$150 million. The deal makes it the second-largest Emmis shareholder, behind CEO Jeff Smulyan. Emmis stock rose nearly \$7 a share Oct. 25 on the news.

Top 40 WOWZ Utica, N.Y., middayer Dana Dee is named MD.

Former album **KYYS** Kansas City P/T **Lauren Miller** joins adult top 40 **KSSS** (Star 101.5) Bismarck, N.D., as morning co-host.

Former top 40 WLSS (Loose 102) Baton

Rouge, La., PD **Robert Elfman** joins adult top 40 **WAEV** Savannah, Ga., as APD/middays.

WMVX/WTAM Cleveland imaging director Chris Duffy exits for the same job at modern AC KDMX (Mix 102.9)/heritage rock KEGL (the Eagle) Dallas.

PROMOGAN

AN OVERVIEW OF RADIO PROMOTIONS • BY JEFF SILBERMAN

323-525-2303 · jsilberman@airplaymonitor.com

Merger Mania: The Rank & File Perspective

The dust has hardly settled over the massive Clear Channel/AMFM merger, yet the shock factor has faded for the majority of Promogan-dists. Clear Channel/AMFM station panelists, who make up a little more than 40% of respondents, were obviously more sensitive to the latest corporate absorption, as 83% of them won-dered aloud about which stations will be spun off and which personnel might be jettisoned. Half of the Clear Channel party expect to assume more duties because of the merger, a third plan to brush up on their résumés "just in case," and another third maintain that if it's good for business, it's good for them.

Slightly more than a third of non-Clear Channel/AMFM panelists say the merger is tantamount to "no skin off my nose," while almost as many are very interested to see what stations and personnel will become available, and 18% expect to face stronger competition from the merger.

Overall, almost half of the panelists definitely expect to be affected. A typical sentiment expressed by one Clear Channel/AMFM promotion director was, "Most of our stations have been bought or sold several times by now. You get to the point where you know that whatever happens happens, so just do your job to the best of your ability. With so many stations and so many people, it will be up to each person to get rewards and gratification out of their jobs themselves. Stay focused on your goals for your station or stations, and just keep on keepin' on."
"You have to stay focused," another confirms.

"If you don't, you'll go crazy. You have to keep working and have fun."

TOPICAL BAROMETER

TW 1 2 3 4 5 61	LW 1 4 6 3 10 5	TOPIC Halloween Holiday charities/food drives Thanksgiving Christmas/holiday events College football Breast Cancer Awareness Month (Oct.)
61 8 91 91	<u>2</u>	WB Radio Music Awards Station concerts Fall colors/fruit pickings Baseball playoffs
"The	Story C	NEW MOVIES: "Fight Club," of Us," "Three To Tango," "Bats"
"Sno	And Ag	TTEST TV SHOWS: pain," "Judging Amy," "Oprah," "Wasteland," "WWF/WCW," bu Know," "The West Wing," "Third Watch"

The competition's perspective is not that much different. "Keep your eyes on the ball, and don't worry about others," says a rival promotion ace. "It's so easy to get distracted and go crazy over all this stuff."

"You can't possibly ignore it, but you have to focus on what makes your own station great," says another. "Don't get sidetracked by the chaos going on around you. For the most part, listeners aren't aware of the changes, and they should be your focus.

Some final thoughts from a variety of parties: "They are either going to pay you to stay or to go," says a Clear Channel/AMFM panelist. "The absolute worst thing that could happen is they keep you and you hate it. At the end of the day, everything happens for a reason. It just might not be clear what the reason is at the moment."

'It's part of our radio culture today," says another. "This won't be the last time this happens."
"It's good and bad," says a third. "The salary

structure is going to change and decrease. There will be no more super-big salaries. It almost creates an economy of scale and standardizes the salary structure, much like it is in industries like chemical research or computer programming. On the other hand, radio people won't feel the need to rush and cash pay-checks for 'insufficient funds' as with past ownership groups."

"As long as we're getting paid, we should be happy," says a non-Clear Channel/AMFM promo person. "Let others beat themselves into the ground."

"The ride will be interesting," says an affected ace. "The destination is unknown. Do you have the guts to take the ride? You need to make the decision now. You need to have the attitude to go with the flow, and don't keep looking over your shoulder, thinking you're going to be let go at any minute. Either say to yourself, 'These people should be grateful to have me and the experience I bring to this company,' or 'Do you want fries with that?''

THE PROMO POWER OF GIVING

Fall and winter holidays rule the Barometer this week, with a special emphasis on giving. R&B WJTT (Power 94) Chattanooga, Tenn., is staging its first Jock Food Fight. The morning, midday, and afternoon hosts will broadcast live from a car dealership for a day, each encouraging listeners to bring more goods than the pre-

vious shift for a Thanksgiving food drive. Counting the cans will be Jay Holloway. Also on T-Day: Country WWYZ Hartford, Conn., morning host Neil Hedley will camp out in the **Turkey Drive Tower** in a supermarket parking lot to broadcast live for 92½ hours for Food Share. Last year, listeners donated more than 2,000 turkeys, along with almost 20,000 pounds of nonperishable food items. Stephanie Hogerman thinks this promo is for the birds. In Los Angeles, R&B KPWR (Power 106) is teaming up with the L.A. Mission to deliver free turkeys to needy families and to specific local housing projects.

QUICK TAKES

To do something a little different this fall, country **KEEY** (K102) Minneapolis dug into its archives for the **Secret Sound** contest. "No one in the market has done it for years," says Diana Buckmann. "It's fun, interactive, and has really gotten the phones to ring. We play every 102 minutes, and the pot increases by \$102 each time it's answered incorrectly."

Modern adult KZZO (the Zone) Sacramento, Calif., just finished an MTV Casting Call for "Real World" and "Road Rules 2000." "We flew in casting directors to interview potential cast members, as well as four members from this season's Hawaii cast," says Andrew Fleming. 'Cast members Teck, Colin, Amaya, and Kaia also did live radio shows with various Zone DJs. The promotion was a huge success."

Top 40 Artists Keep On Going . . . And Going . . .

Almost immediately after top 40's mid-'80s rebound began, its detractors switched tacks. Forced, grudgingly, to admit that maybe somebody could enjoy rock, R&B, and country on the same station, they turned their scrutiny to the durability of the format's hitmakers. It went without saying, the reasoning went, that the teen acts would be short-lived, but even the format's rock acts were marked for early obsolescence because they hadn't built a following over the course of several albums that would withstand the alleged damage to their credi-

bility that a top 40 smash brings with it.
When **Backstreet Boys** came back with "Millennium," the "teen act" argument was dented (albeit not destroyed, given the **Han**son and Spice Girls backlash). Then Third Eye Blind, Smash mouth, Sugar Ray, and Fastball proved that even modern rock crossover acts could have depth. In fact, looking at a recent mainstream top 40 chart, it's actually a lot easier to find examples of traditional long-term career development than it is to find the sort of spontaneous career combustion that had us all so concerned a few

Only nine acts on the Sept. 3 mainstream top 40 chart were really there on the strength of their first single: Lou Bega, Jennifer Lopez, Christina Aguilera, Tal Bachman, Vitamin C (if you don't count Eve's Plum), and four acts that had success at rock radio but still made it to top 40 on the same track that broke them through at rock (Citizen King, Len, Train, and Lit). That's not so few that we should be worried about whether top 40 will continue to embrace new artists. But it's few enough to rest the "disposable music and artists" discussion for a minute. Especially since the rest of the chart could be divided into the following categories:

- Acts with successful follow-up projects: Smash mouth, Sugar Ray, Backstreet Boys, 98°, K-Ci & JoJo, and Edwin McCain. That number now also includes Brian McKnight. And, although "So Anxious" didn't cross to mainstream, Ginuwine is also worth a mention for finally eclipsing the success of "Pony" with a career record that has no hint of novelty
- Acts that built careers at other formats and came to top 40 with an established fan base: Destiny's Child and 702 from R&B and rhythmic top 40. Enrique Iglesias, Ricky Martin, and Marc Anthony from Latin radio.

Blink 182 from modern. (And, although she hadn't yet charted on the Sept. 3 chart, Shania Twain from country.)

 Acts with successful follow-up singles from their first album (or an interim soundtrack project): Fastball, Sixpence None The Richer, Britney Spears, 'N Sync, and now Lopez.

 Established acts that have been consistent for a decade (or two): TLC, Goo Goo Dolls (only four years as top 40 hitmakers but a credible act with rock history going back to the late '80s/early '90s), Sarah McLachlan (the same), Will Smith, and Madonna.

 Established acts that are having their first top 40 success in a while: Pearl Jam, Santana, Blessid Union Of Souls, Red Hot Chili Peppers, Whitney Houston, and Gloria Estefan.

Interestingly, there's only one act that can be said to be finally breaking through at main-stream top 40 after several singles that didn't have significant success in another format: **LFO.** While top 40 PDs embrace the concept of breaking their own music, they can still be merciless toward exclusive acts whose first singles don't come home (i.e., Emilia, Jimmy Ray, and, to a lesser extent, All Saints) or even those that do (Donna Lewis, Merril Bainbridge).

Some acts, such as Backstreet Boys and 98°, did manage to break the old way at top 40, parlaying moderate successes into bigger ones. But many artists who start at top 40 face a certain assumption, even by mainstream top 40 PDs, that they have less credibility than other artists. Some, in a grab for credibility, have made less accessible records that limited their durability. And despite having more built-in credibility, modern rock's class of '94-'95 did much the same, which is why it's nice to see that Smash mouth and Sugar Ray didn't feel the need to launch their albums by proving that they could still make college radio records.

Ultimately, more acts have realized that if they take their durability into their own hands by making hit records, the credibility will take care of itself. Top 40 is the beneficiary of those decisions. The "disposability" issue hasn't gone away and probably won't, unless the teen acts become such an ongoing fact of life (as they have in England) that PDs stop tormenting about them altogether. But in a year when both Cher and two former New Kids On The Block showed that anybody could come back with the right record, the D word, one hopes, has lost some of its ability to induce hysteria.

dates that have caused some concern. We're very confident that there won't be many surprises come Ian. I.

TWO-DIGIT DANGER

The good news is that most of the companies we spoke with say that they were able to identify and begin working on the Y2K issue early. "That's why it shouldn't be a problem," says BDS VP of operations Jim Goff. "The two-digit date is 99% of the issue. The original reason for setting two-digit dates in computers was that, years ago, storage was so expensive that you'd cut back in any available area to save space. As time has gone on, storage is much less expensive, so almost all systems written in the last 10 years are written with four-digit dates automatically. What's more, because we know where the problems are, it should be relatively easy to find solutions. Most companies should have no problems in identifying potential problems. The only real issue is time and moneyhow much time you have to correct problems and at what cost.

To correct the two-digit dates that some fear will leave computers unable to distinguish between 1900 and 2000, "we went over all of our data and all of their computer source codes, so that any programs written by BDS have been inspected by programmers," Goff says. "We look for data that is stored by two-digit dates and for source codes where dates are being manipulated with two digits.'

Source codes? "They are instructions given to the computer in English," he says. "For example, it may use two-digit dates to calculate the number of weeks a song is on the charts and subtract it by the first date that title appeared on a chart to the current date, to see how long the song has been on the chart. Using a twodigit date, when '00 rolls over, that calculation might not work properly. So, we either change the source code to handle that, so the computer knows that '00 means 2000 and not 1900, or we go into the data itself and change the dates to a full four digits."

Prophet Systems has come up with its solution to the two-digit conundrum. "We assumed that [if every computer] gave you a two-digit year, how would we deal with it?" asks Prophet Systems director of engineering Jeff Zigler. "So we set up reference points, where the computer assumes that every year is greater then 1980. That way, '00 and every succeeding year has to be higher than 1980. It will never think it's 1900."

SOFTWARE UPDATES

Each music-industry company has revised its software, either by changing to a four-digit date or through other mechanisms, to be Y2K compliant. Arbitron spent three years devising a Y2K compliance strategy. "As part of those plans, much of the computing and software systems infrastructure at Arbitron was re-placed or upgraded," according to the company Web site.

Prophet has been testing its software "quite a bit," Zigler says. "In fact, we've been running our entire training facility in Nebraska, where we bring in Prophet customers, on year 2027. That's the next time all of the days in the calendar match up with the same days this year.'

BDS has been able to test its Y2K efficiency through its redundant systems. "The client sites and field monitors where we identify the music have redundant systems," Goff says, "We've been able to correct any problems in the code by actually setting the clock [on the redundant system] to the [Y2K] rollover, to make it appear as if we're entering the new millennium. In almost all cases, we found no problems.

RCS has conducted two tiers of tests. "First, we tested [Selector] software to see where the problems do occur," McKnight says. "Once problems are identified, the correct fix is applied, then we do a considerable amount of testing to see if the fix has any ramifications on other applications and move on from there. Once that's done, we consolidate everything to a Y2K-compliant CD release for anything above [Selector edition] 12.40. Anything higher than that number, in DOS release, we consider to be Y2K compliant.'

Within the next few weeks, nearly 4,000 programmers worldwide will be receiving a free upgrade version—Selector 12.42. Selector for Windows, which was released in September and is already in wide use, is already compliant.

According to RCS' Tom Zarecki, the key ingredient in clearing the millennium hurdle is installation. "We're finding most people just don't care about this stuff," he says. "Some people won't install this new version. Odds are, some pretty busy PDs and MDs will try to schedule Jan. 2 and something won't work." But even if you're not able to schedule music, your on-air studio won't shut down, since RCS' Master Control digital automation software is fully Y2K compliant.

McKnight points out another potential Y2K problem: "Not only the software can cause problems," he says. "If you're running Y2Kcompliant software on an older computer, you may have to change the computer, too. As software improves, hardware requirements become more demanding. You need to have computers that are able to handle change to year

DON'T BELIEVE THE HYPE

Of course, no one can guarantee that absolutely nothing will go wrong on New Year's Day. Yet many do feel that if any bugs do crop up, they will be able to resolve them without a lot of disruption in service. That's why they aren't bringing on extra manpower to field calls that weekend. Many say their existing 24-hour callin service will do the job.

Which raises the question: Has the media caused unnecessary concern among the populace, including the radio and record industry? "Personally, it made for great news stories," Zigler says. "It's not that it couldn't be a big issue for some people, but we've had time and the ability to test it and know exactly how to re-create [the rollover] and test the full scenario. Surely there will be unpredictables that come into

play, but, in general, media has magnified that."
"I don't think the issue has been blown out of proportion, because the issues would have existed if no one had done anything," Goff says.
"But in the case of most companies, everyone has taken [the Y2K bug] very seriously and has taken steps required to create a smooth transi-

Building On KRQ Tucson's Heritage Success, Richards Tries 'Diff'rent Stroke' In Mornings

PD Tim Richards doesn't have much to complain about at KRQQ Tucson, Ariz. The heritage top 40, known as KRQ, has been at or near the top of the 12-plus ratings for a while, ahead of rivals modern adult KZPT (the Point) and rhythmic KOHT (Hot 98). KRQ's morning show with Mojo and Betsy is highly successful and firmly established in the market. Nevertheless, Richards recently decided to roll the dice and bring in former child stargone-somewhat bad Gary Coleman as a morning co-host.

As one might expect, working with the diminutive star of "Diff'rent Strokes" is a double-edged sword. Predictably, his debut attracted national media coverage. On the other hand, he's not radio-savvy. But, Richards says, going into this, we knew what our objective was. We wanted to garner a certain level of attention, and we've already done that. I told Gary that if he contributes to the show and

'People are attracted to the lifestyle of the station

Tim Richards **Program Director KRQQ Tucson, Ariz.**

> **Owner: Clear Channel** Ratings: 9.2-8.5-8.5-9.3

sounds good on the air, his one-year deal could turn into a long-term contract, but the amount of time he's on the air will be directly proportionate to how well he does. If he doesn't do something to enhance the show, we'll use him on a minimal basis. He's a work in progress right now. Day one went pretty smoothly, but we'll have to teach him the fundamentals about sharing the mike. Coming from the TV and movie side, he's not used to that dynamic. But he has been very affable and a really good guy to work with."

Richards can take a chance on Coleman because the rest of his air staff has built its own market presence. In fact, the only newcomer, afternoon personality Mark Medina, is a return-ing KRQ alumnus. "That consistency is the key to our success," he says, noting that while the quality and quantity of hit music has been plentiful, that's not as important as KRQ's stationality. "I know that's a cliché," he says, "but the great personalities, the extensive amount of external and internal marketing, and on-air contesting image of KRQ has made the station seem larger than life. The result is an audience who comes to be entertained not only musically but from the station's personality as well.

'It also brings up another issue," Richards adds. "With satellite and digital radio on the horizon, I'm very concerned that in the long run, stations that aren't bigger than the music will really suffer. Thanks to audio streaming and MP3, the PC is now being used as an entertainment source. We've pushed the outer boundaries of exposing our music. We need to protect the integrity of our product. To me, KRQ is a brand that's bigger than the music. People are attracted to the lifestyle of the station.

Being larger than life in a relatively under-radioed market has kept KRQ from being fragmented, Richards says. "Only six class C FMs here have full-market-grade signals. The rest are 3,000-watt or, at best, 6,000-watt stations. It makes no sense to go directly up against us without a strong signal. From the flanking end, Hot

98 has carved out a nice niche for themselves. Historically, crossover stations have taken a lot out of mainstream top 40s, but we've been able to maintain our numbers because of the personality of the station. On the other side is modern AC the Point, a decent music station that shares a lot of catalog and library with us. If we didn't have the [high] level of air talent, it would be very easy to get squeezed between the two stations, but we've been able to stay the course and remain pretty successful.

"Musically, a lot of it comes down to dayparting," Richards continues. "When Hot 98 signed on, we realized we had to [skew] younger at night to protect the younger end, as we play less crossover product during the day to protect against the modern AC. KRQ always had a rhythmic feel to it, but during the day, 30% of our hours were either modern AC product or what we call Shania Twain pop. The rest of the time, we play the rhythmic pop of Britney Spears, Backstreet Boys, and Will Smith, then we add the Jay-Z's at night to protect our

Here's a sample hour in afternoon drive on KRQQ: Sugar Ray, "Every Morning"; Brian McKnight, "Back At One"; Backstreet Boys, "Everybody"; Lou Bega, "Mambo No. 5 (A Little Bit Of...)"; Next, "Too Close"; Ricky Martin, 'She's All I Ever Had"; Smash mouth, "All Star"; Santana Featuring Rob Thomas, "Smooth"; Will Smith, "Will2K"; Christina Aguilera, "Genie In A Bottle"; Boyz II Men, "End Of The Road"; and Marc Anthony, "I Need To Know.'

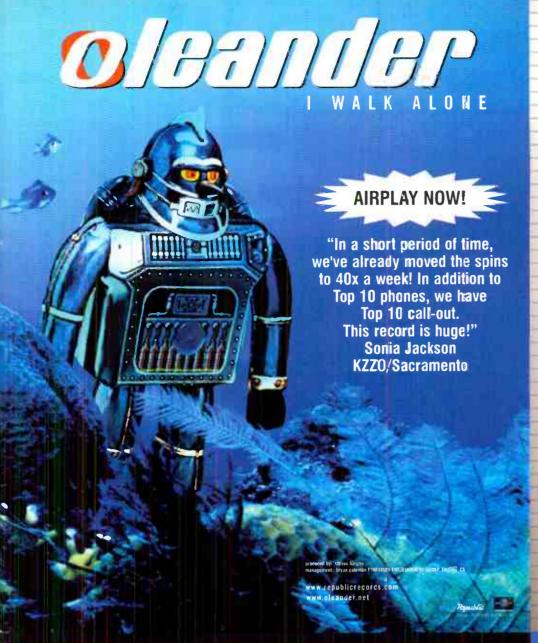

Richards is not afraid of potential boy band burnout. "We look at the available audience being 12-24, so we have to play songs they want to hear. We don't want to send them someplace else to hear it. Fortunately for us, Hot won't play the Britneys and Backstreets. Granted, if we play too much of that, we'd worry about tune out, but as long as we maintain a strong, cohesive personality, we'll do a pretty good job of

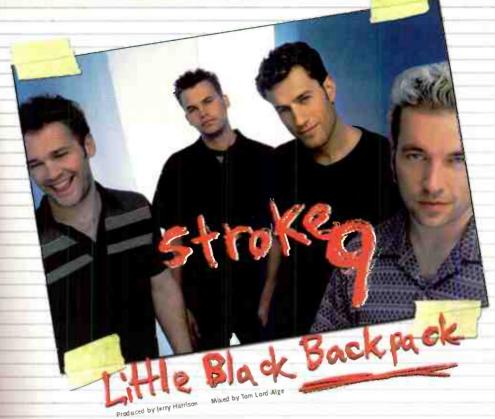

keeping our audience.
"We want to be as musically aggressive as we can be without compromising the family values of the station," he continues. "That's a major concern for us, [so we] don't play unedited versions of songs or play songs that don't fit our values. We made a [conscious] decision not to play Eminem, which didn't affect our ratings. When you have mothers listening, you don't want to play records that'll make them punch you out, because they may not come back

Besides KRQ, Richards has also been lending a hand at other AMFM stations, such as KIKI (194) Honolulu; KGOT Anchorage, Alaska; and KZII (ZI02) Lubbock, Texas. "Musically, they're all completely different," he says. What might be a hit in Honolulu would be completely different in Anchorage from a programming standpoint, but we do use each other as resources for marketing techniques, because good marketing strategies are universal."

What hasn't been so consistent for Richards is KRQ's owner. Since starting three years ago, his paychecks have been signed by the accounting departments of SFX, Capstar, AMFM, and, soon, Clear Channel. "For the most part, the staff has been conditioned to the dynamics of our business," he says. "The good thing is that every owner [has been] better for the health of the station. Clear Channel has a lot of resources, and they're strong visionaries of the future for our business. If I was to pin the future of radio on any one broadcaster, it'd be in the hands of Randý Michaels. He bleeds radio, and that's important because there will soon be a lot of opportunities for people to get our product from outside our industry. We need the Randy Michaels of our business to do something to protect our market share."

Modern AC (10) Adult Top 40 10

> Sales approaching 200,000 for the first 2 weeks

her long awaited new album

breakdown

featuring the new single

ngels would fall

Soundscan #1 internet sales

"Melissa Etheridge has successfully taken her image and her music to even greater heights. 'Angels Will Fall' is the epitome of a perfect pop song for Star 100.7."
-Tracey Johnson OM/VP Programming- KFMB

"She is the core of our sound and her fans have spoken... SoundScan debut in Tampa #6." -Scott Chase PD- WSSR

"The Melissa Etheridge single is doing great! The first batch of callout looks solid and we are bumping up the spins immediately." -Tim Baldwin WOMX

"The research is kicking in solid phones and a great first week of

-John O'Connell OM/PD- WMBX

"The new single 'Angels Will Fall' fits in with her vintage music like a glove. Melissa is still one of the best live performers!"
-Mike Mullaney APD/MD- WBMX

Major US tour

Upcoming TV performances:

Lifetime's "Intimate Portraits" 10/29. Leno 11/26.

VH1 "Artist Of The Month" December.

Song ranked by number of detections. Records showing an increase in detections over the previous week, regardless of chart movement. A record that has been on the chart for more than 20 weeks will not receive a bullet, even if it registers an increase in detections. Airpower awarded to songs appearing in the top 20 on both the Airplay and Audience charts for the first time with increases in both detections and audience. Greatest Gainer awarded to the record with the largest increase in detections. Most New Stations awarded to the record registering six or more detections at the most stations for the first time this week. If two records are tied in number of detections, the record being played on more stations is placed first. Records below the top 20 become recurrents and are removed from the chart after 26 weeks.

40	NE	NÞ	MY LOVE IS YOUR LOVE ARISTA	WHITNEY HOUSTON	8.737	5.173

Songs ranked by audience, computed by cross-referencing exact times of airplay with Arbitron listener data. Records showing an increase in audience over the previous week, regardless of chart movement. A record that has been on the chart for more than 20 weeks will not receive a bullet, even if it registers an increase in audience. If two records are tied in total audience, the record being played on more stations is placed first. Records become recurrents and are removed from this chart in conjunction with the Mainstream Top 40 Airplay chart.

Monitor POWER PLAYLSTS MAINSTREAM TOP 40

FOR WEEK ENDING OCTOBER 24, 1999

Songs ranked by number of detections. Playlists are listed in order of TSA weekly cume beginning with the highest-cuming station. Cumes are updated twice yearly following the release of the spring and fall Arbitron surveys. The number of stations shown each week varies depending upon space.

First Image soon (F1) denotes songs with 6 or more detections at station for first time this week.

IF YOU USE ANOTHER RADIO MONITORING SERVICE, IT'S TIME TO MAKE THE SWITCH.

Log on to BDSradio.com today and experience powerful performance for yourself.

Only BDSradio.com offers you the following:

- Customized reports select the days and hours, and create your own panels, with reports updated automatically
- Instant access to SIX-WEEK rolling charts, updated every day of the year
- A universe of over 1,080, 24/7 monitored stations
- Search the entire monitored universe for any title or artist instantly
- SoundScan sales information from 100 DMAs and nationally
- Available for a commitment of less inventory than any other monitoring service
- Free demo available to you online now

Jones Radio Network, 11 West 42nd Street, 28th floor, New York, NY 10036 Phone: 212-302-1100 Fax: 212-302-6024

World Radio History

Monitor. — POWER PLAYLISTS MAINSTREAM TOP 40

FOR WEEK ENDING OCTOBER 24, 1999

Songs ranked by number of detections. Playlists are listed in order of TSA weekly cume, beginning with the highest-cuming station. Cumes are updated twice yearly following the release of the spring and fall Arbitron surveys. The number of stations shown each week varies depending upon space.

First Impressions (II) denotes songs with 6 or more detections a station for first time this week.

Songs ranked by number of detections. Records showing an increase in detections over the previous week, regardless of chart movement. A record that has been on the chart for more than 20 weeks will not receive a bullet, even if it registers an increase in detections. Airpower awarded to songs appearing in the top 20 on both the Airplay and Audience charts for the first time with increases in both detections and audience. Greatest Gainer awarded to the record with the largest increase in detections. Most New Stations awarded to the record registering six or more detections at the most stations for the first time this week. If two records are tied in number of detections, the record being played on more stations is placed first. Records below the top 20 become recurrents and are removed from the chart after 26 weeks.

Songs ranked by audience, computed by cross-referencing exact times of airplay with Arbitron listener data. Records showing an increase in audience over the previous week, regardless of chart movement. A record that has been on the chart for more than 20 weeks will not receive a bullet, even if it registers an increase in audience. If two records are tied in total audience, the record being played on more stations is placed first. Records become recurrents and are removed from this chart in conjunction with the Rhythmic Top 40 Airplay chart.

Monitor POWER PLAYLISTS RHYTHMIC TOP 40

FOR WEEK ENDING OCTOBER 24, 1999

Songs ranked by number of detections. Plassists are listed in order of TSA weekly cume beginning with the highest sumby station. Cumes are updated twice year! following the release of the spring and fall Arbitron surveys. The number of stations shown each week varies depending upon space.

First Impressions (FI) denotes songs with 6 or more detections at station for first time this week.

POWER SISTE

FOR WEEK ENDING OCTOBER 24, 1999

Songs ranked by number of detections. Plaj lists are listed in order of TSA weekly cume, beginning with the hij hest-cuming station. Cumes are updated twice yearly following the release of the spring and fall Arbitron surveys. The number of stations shown each week varies depending upon space.

First Impressions (FI) denotes songs with 6 or more detections at station for first time this week.

40	36_	8	GENIE IN A BOTTLE RCA	CHRISTINA AGUILERA	2.442	2.577

Songs ranked by audience, computed by cross-referencing exact times of airplay with Arbitron listener data. Records showing an increase in audience over the previous week, regardless of chart movement. A record that has been on the chart for more than 20 weeks will not exceive a bullet, even if it registers an increase in audience. If two records are tied in total audience, the record being played on more stations is placed first. Records become recurrents and are removed from this chart in conjunction with the Adult Top 40 Airplay chart.

Songs ranked by number of detections. Records showing an increase in detections over the previous week, regardless of chart movement. A record that has been on the chart for more than 20 weeks will not receive a bullet, even if it registers an increase in detections. Airpower awarded to songs appearing in the top 20 on both the Airplay and Audience charts for the first time with increases in both detections and audience. Greatest Gainer awarded to the record with the largest increase in detections, Most New Stations awarded to the record registering six or more detections at the most stations for the first time this week. If two records are tied in number of detections, the record being played on more stations is placed first. Records below the fore 20 become recurrents and an empression from the other defex 36 weeks. below the top 20 become recurrents and are removed from the chart after 26 weeks

The chart, reprinted from Rock Airpiay Monitor, is compiled from a national sample of data compiled by Broadcast Data Systems. 66 modern rock stations are electronically monitored 24 hours a day, seven days a week. Songs ranked by number of detections. The Records showing an increase in detections over the previous week, regardless of chart movement. A record that has been on the chart for more than 20 weeks will not receive a bullet, even if it registers an increase in detections. Airpower awarded to songs appearing in the top 20 on both the Airplay and Audience charts for the first time with increases in both detections and audience. Greatest Gainer awarded to the record with the largest increase in detections. Most New Stations awarded to the record registering six or more detections at the most stations for the first time this week. If two records are tied in number of detections, the record being played on more stations is placed first. Records below the top 20 become recurrents and are removed from the chart after 26 weeks. ©1999 Billboard/BPI Communications

Their first two albums sold over 3 MILLION copies
Their hit "Flood" was a Top 5 multi-format hit

People extolled their "Beatlesque harmonies
with sharp melodies"

USA Today loved their "grabby pop hooks"

The LA Times liked their "shimmering guitars,"

comparing them to REM, Live & The Wallflowers

In case your memory fails, they are...

"Unforgetful You

The first single from their new album,

Catch them in...

Marion, Rockford, Peoria, Nashville, Johnson City, Atlanta, Cleveland, Grand Rapids, Merrillville, Anderson, D.C., Philly, Boston, New Haven, NYC, Detroit, Cincinnati, Rochester, Pittsburgh, Columbus, St. Louis, Louisville, and Indianapolis before the year ends!

also from the original motion picture soundtrack DRIVE THE CRAZY

On tour with matchbox 20 Spring 2000

Songs ranked by number of audience, computed by cross-referencing exact times of airplay with Arbitron listener data.
Records showing an increase in audience over the previous week, regardless of chart movement. A record that has been on the chart for more than 20 weeks will not receive a bullet, even if it registers an increase in audience. If two records are tied in total audience, the record being played on more stations is placed first. Records become recurrents and are removed from this chart in conjunction with the Adult Contemporary Airplay chart.

FOR WEEK ENDING OCTOBER 24, 1998

Songs ranked by number of detections. Playlists are listed in order of TSA weekly cume, beginning with the highest-cuming station. Curries are updated twice yearly following the release of the spring and fall Arbitron surveys. The number of stations shown each week varies depending upon space. First Impressions (#1) denotes songs with 6 or more detections at station for first time this week.

Albums with the greatest sales gains. ● Recording Industry Assn. Of America (RIAA) certification for sales of 500,000 album units. ▲ RIAA certification for sales of 1 million units (Platinum). ◆ RIAA certification for net shipment of 10 million units (Diamond). Numeral following Platinum or Diamond symbol indicates album's multi-platinum level. Greatest Gainer shows chart's largest unit increase. Pacesetter indicates biggest percentage growth. © 1999 Billboard/BPI Communications and SoundScan, Inc.

Compiled from a national sample of data supplied by Broadcast Data Systems. 110 mainstream top 40, 33 rhythmic top 40, 77 adult top 40 and 61 crossover stations are electronically monitored 24 hours a day, 7 days a week. Songs ranked by number of detections. Records showing an increase in detections over the previous week regardless of chart movement. A record that has been on a chart for more than 20 weeks will not receive a builet, even if it registers an increase in detections, Airpower awarded to songs appearing in the top 20 on both the Airplay and Audience charts for the first time with increases in both detections and audience. Greatest Gainer awarded to the record with the largest increase in detections, Most New Stations awarded to the record registering six or more detections at the most stations for the first time this week. If two records are tied in number of detections, the record being played on more stations is placed first. 1999 Billboard/BPI Communications.
