In musical sagebrush circles, Capitol Records's Merle Travis is among the top hands. His disks are consistently good sellers and he has co-authored some of the most popular recent folk-song hits, including "Smoke, Smoke, Smoke"; "So Round, So Firm, So Fully Packed" and "No Vacancy." His latest Cap cowboy clicks are "Information Please" and "Devil To Pay," and he has long been a featured rider of the ether trails, having turned in sock performances on WSM's "Grand Ol' Opry" and CBS's "Hollywood Barn Dance." Partner Richard Wiley is Travis's personal manager.

EX-KMPC'ERS BLOW WHISTLE

Agents See Hypo
In Percentage
Deals for Acts

NEW YORK, Feb. 28.—The current cafe showbiz slump throught the country can be beaten off by co-operation between ops and booking agents, according to one 10 percent. The answer, the agent insists, is that percentage deals will ease clubs' burdens and give acts a mark to shoot for. Another agent claims the only salvation is for the ops to stop cutting one another's throats and get together in gentlemanly fashion so that each spot can be assured of a portion of the available biz. Still a third view is that the biz is only going thru a normal recession, coupled with inclement weather in the Northern areas, and both will disappear with the snow.

Save Big Ork
Coast Bookers

Name Band Biz Sags

HOLLYWOOD, Feb. 28.—The lowly cocktail combo has suddenly emerged as the backbone of band bookers' biz, in some aspects dwarfing attention formerly paid to big bands, and demanding full energies of top agency salesmen. Such is the picture on the West Coast at least, where location biz for name and semi-name bands is grim, forcing agency men to look to other musical fields for ready cash.

There is no big band biz to speak of, the Pacific Northwest and San Francisco areas having dwindled to nothing. For example, three San Francisco hotels, Fairmount, Palace and Drake, are using local scale outfits, something the town hasn't seen in a decade. Same condition exists in other Coast areas, with the possible (See Combos Rescue on page 13)

Hellinger Pic Preem
To Aid Heart Fund

NEW YORK, Feb. 28.—Top personalities from the stage, screen and radio will gather at the Capitol Theater Wednesday night (3) for the world preem of *The Naked City*, the late Mark Hellinger's last pic. The Hellinger Memorial Fund is sponsoring the event, all proceeds of which will go to the New York Heart Campaign, entertainment division, of which the Hellinger fund is a part.

With kleig lights, radio broadcasts and telecasts from the lobby, this will be the Stem's first full-scale flicker world premiere since before the war. In connection with the benefit, the committee will distribute a memorial booklet carrying tributes to Hellinger from people in all walks of life, including showbiz.

Charge Richards Ordered
News Slanted To Promote
Own Political Beliefs

Also Claim Smear Orders on Roosevelts, Hughes, Jews, Etc.

By Lee Zhitto

HOLLYWOOD, Feb. 28.—Clete Roberts, former war correspondent for American Broadcasting Company (ABC) and more recently director of news and special events for Station KMPC here, and George E. Lewin, former KMPC newsroom manager, charged this week that the station's president, G. A. Richards, made a practice of injecting his own political, racial and religious beliefs into the newscasting policy of the 50,000-watt indie.

Roberts showed *The Billboard* photostatic copies of letters and memoranda he alleges were written to him by Richards (who, incidentally, is also head of WJR, Detroit, and WGAR, Cleveland) during Roberts' tenure with KMPC. These letters and memoranda contain recommendations that the station's news department smear the Roosevelt family and the Democratic administration, and plug Generals Eisenhower and MacArthur and Tom Dewey in the '48 presidential race.

Slanted Newscasts

Lewin issued exclusively to *The Billboard* a signed statement, attested to by witnesses, in which he alleges that Richards ordered him to slant the station's newscasts to follow reports on Communist activities with items re people like David Lillienthal, Henry Wallace, Henry Kaiser and Howard Hughes with items on Communism. Lewin, in his statement, also alleges that newscasts concerning the Palestine situation in December of last year were ordered discontinued because he (Richards) felt such newscasts would "give aid and comfort to Jews and Communists."

Letters and memoranda shown *The Billboard* by Roberts follow:

Letter written on stationery headed: WJR, WGAR, KMPC, G. A. Richards, President:

"Clete:

"Read this to our boys and meet (See Ex-KMPC'ers Blow on page 8)

often to do this job that will affect the future of everyone at KMPC and elsewhere.

"The tide ("tide" was underscored) is turning, Clete, let's keep it going.

"I believe in making a chump of this adm ("administration" abbreviated) at every turn, as Roosevelt did for 15 (fifteen) years—give 'em hell where it hurts. The papers seem to believe Wallace's entry makes it easy for Dewey and Eisenhower in New York.

"The J. Roosevelt story on 3d (third) child should be elaborated on by our station. He has been married? times to? who and what is their history, and hook Elliott up with his burlesque queens and other wives. They are the rum pots, dead end kids of the royal family that all but wrecked this world. If these facts are nailed down we can win in 1948—if not, no. Wish you would do an outstanding job in supervising the newscasters in political policy all year.

"It's the most important job we have ever had to do in 50 years.

"It's Marxism vs. Christianity. Our form of gov (government) or Socialism leading to Communism.

"Clete, I'm sure of the above statements and regardless of the screwballs trying to make light of the menace its here and we should stamp it out in our country, just as soon as possible. The Catholics are good subjects to work on as they think more of their church duties than Protestants as a rule and they have for most part voted dem (Democratic). They can be changed over by hard work and that's what is cut out for us all in 1948. (So lets go all out). (Signed GAR.)"

Editorial

Richards & Mayflower Hearings

ON THIS PAGE *The Billboard* reports the situation at Station KMPC, Los Angeles, 50,000 watter, as two ex-staffers allege it exists. It is, perhaps, ironic that a story of this nature is published on the very eve of the Federal Communications Commission (FCC) hearings in Washington on the Mayflower doctrine—the question of whether broadcasters should have the right to editorialize on the air.

If the charges leveled at G. A. Richards by Clete Roberts and George Lewin, after a fair and impartial hearing, prove to be true, the FCC will certainly have to conduct a thoro investigation into the entire KMPC operation. If the charges eventually prove untrue all the talk (currently on the West Coast, but seeping thru to other key radio centers) anent KMPC and Richards should cease.

In any event we hope charges of this kind, developing in connection with a single station, will not unduly affect the FCC hearings on the Mayflower question. Station operators, on the whole, are fully aware of their responsibilities to the FCC and to the public which they serve.

Doggone!

COLUMBIA, S. C., Feb. 28.—Jim Swain, young manager of the Columbia Theater here, has a new gimmick for keeping the house seat bottoms clean. It's a dog, named Juicy Fruit. Every morning, Juicy Fruit roves thru the rows of seats, biting the parked chewing gum off the seats and dropping it on the floor to be swept up. Dog hasn't learn to push a broom yet.

Strike Threat

By N. Y. Grips

NEW YORK, Feb. 28.—The threat of a strike by the stagehands is casting a larger shadow on the New York legit horizon. The latest negotiation session yesterday (27) produced only a wage offer by the League of New York Theaters similar to the one previously refused by the grips' contract committee. However, the League wanted its offer submitted to the deckhands' membership and this will be done tomorrow (29) at a union meeting with a recommendation by the union's negotiating committee that it be thumbed down. The League's offer was an over-all pay increase of 5 per cent.

Meanwhile, union heads will leave for a session with the International Alliance of Theatrical Stage Employees (IATSE), the parent body, to explain the situation to them. IATSE will come into the picture and if it can't shake a better offer loose from the producers, the boys may take to the pavements.

Showbiz Taxes
In Jan. Slump

WASHINGTON, Feb. 28.—The entertainment world got off to a poor start in 1948, the Internal Revenue Bureau indicated this week in revealing that January tax collections sagged below the previous January's in every branch of the industry affected by excises.

Collections on phonograph records fell off a good 40 per cent from January, 1947, while the levy on admissions to theaters and cabarets was off about 12 per cent. Biggest decrease in dollars came in the liquor collections, which were some \$55,000,000 below receipts for January, 1947.

The general slump pattern was followed by collections on radio and phonograph sets and parts, cigarettes and coin machines.

200G Youmans Coup vs. Miller

Estate Wins Record Suit Against Pub

Several Top Tunes Involved

NEW YORK, Feb. 28.—Probably one of the biggest money suits involving any given publisher or composer (accounting may go over \$200,000) was won by the estate of Vincent Youmans, Inc., against Miller Music branch of the Loew's-Robbins publisher group this week. The suit involved claims by the estate of the late renowned ASCAP composer to publisher-performance monies received by Miller from ASCAP since 1943. New York State Supreme Court Justice Irving Levey upheld plaintiff's claim that Miller had breached contractual agreements with Youmans. He ruled that the testimony and exhibits clearly established the plaintiff's right to an accounting in connection with three causes of action. Levey dismissed a fourth cause of action for revision of the Youmans-Miller agreements reached in 1931. Leonard Zissu, of the Zissu & Marcus law firm, represented the Youmans estate, while Julian Abeles acted for Miller Music.

Top Tunes Involved

The huge chunk of dough expected to be sought by the plaintiff stems from fact that some of ASCAP's most heavily performed copyrights are involved (*Time on My Hands*, *More Than You Know*, *Without a Song*, *Great Day*, etc.). The plaintiff had charged that three contracts made in 1931 and 1932 called for Youmans to receive a share of the ASCAP performance monies paid to the publisher. The three causes of action were: (1) The score of *Smiling Thru*, where a 50 per cent share in the pub-

Klan Threatens Miami Cafe For Staging a Show for Jews

MIAMI, Feb. 28.—A threatening letter purporting to be written by the Ku Klux Klan and received by the Little Roumanian Cafe was being investigated this week-end by the Federal Bureau of Investigation (FBI), after the ops, Philip Freed and Michel Rosenberg stated that an American-Jewish Congress (AJC) dinner and show would go on as scheduled Sunday (29).

The letter, postmarked Miami Beach, Fla., February 23, was received Wednesday (24). It was addressed by hand, apparently by a woman. With the letter was a tear sheet of *The Miami Sun Tropics* of February 22 containing a picture of three women, AJC officials. In block letters around the pic was written: "They raise their children like themselves. Three Jew Communists—see

how they want equal rights."

The letter, which was written by hand, not block letters, on ordinary white foolscap paper, had the letters "K. K. K." printed on the top of the sheet. Part of the text of the letter, a photostat of which was shown to *The Billboard*, follows:

"If you allow those (etc., etc. . . .) to hold their luncheon for the civil rights drive in your . . . joint next Sunday, you will be out of business."

The letter ran on in this villifying tone and ended: "This is no crank. . . . K. K. K. We still live."

Miss. Showbiz Tax Defeated

JACKSON, Miss., Feb. 28.—House Ways and Means Committee has defeated a State proposal for a 1 per cent tax on admissions to all amusements.

Don't Fool With Phil: The Moral Of Spitalny's Charmed Life With Charm Wax; Whizbang Exploiting

NEW YORK, Feb. 28.—Unique in record business annals is the saga of Phil Spitalny, *Hour of Charm* maestro, who started out recording for a major label (Columbia), switched to one of the war-born indies (Vogue), then launched his own plattery, issuing his own waxings exclusively. Long known in music circles as a gent with a great disdain for orthodox techniques, Spitalny's own record company operation includes procedures which would give veteran disk makers a severe case of the screaming meemies. Yet the sales record established by the fledgling plattery, the type of outlets cracked and the effect of the operation on Spitalny's old Columbia items can not be shrugged off.

Fleshers Come Back In West Australia

PERTH, West Australia, Feb. 28.—The pic chain, Fullers Theaters, have failed to renew their lease on His Majesty's Theater here after holding it since 1918, and Cyril Moss, acting on behalf of the trustees of the theater, is hunting for flesh shows in Sydney. Jack Davey, the radio fun man, is one possibility, and the Cecily Courtneidge *Under the Counter* show is also on the list. Some \$6,500 is being spent on carpeting, redecorating and improvements on the house.

There is every indication of a vigorous revival of fleshers in the West, where pix have been experiencing a pronounced slump. With the Tivoli, the Capitol and His Majesty's all switching to live shows there may

be a possibility of an excess, but the change is definitely being welcomed by the public who have been denied stage shows for so long because of the high transport costs to the West.

How They Age!

Melissa Ann Montgomery, daughter of thrush Dinah Shore and film actor George Montgomery is going to age rapidly if press agents and reporters aren't a little more careful. In supplying caption material for Dinah's front cover photo (*The Billboard*, February 28) the George Evans office, Dinah's flackery, added a month to Melissa's age, to allow for the gap between time they were supplying copy and date of publication. *The Billboard* writer, in shaping up the Evans's material had the same idea and added another month. So the cover caption said Melissa was "four months" old. Actually little Miss Montgomery will be just two months old March 4.

Richards's Accuser Gets a New Job

HOLLYWOOD, Feb. 28.—Clete Roberts, former director of KMPC's news and special events department, moves to KFWB Monday (1) to take over the 6 p.m. Monday thru Friday 15-minute news seg sponsored by Melody Lane. Roberts is one of a group of persons who made available to *The Billboard* documentary material charging KMPC Prexy G. A. Richards with demanding that news be slanted.

Roberts's exit from KMPC February 6 kicked off a series of dismissals at the station, among those relieved of their duties being C. G. (Tiny) Renier; George Lewin, newsroom manager, and Maurice Sterrels, news editor.

MBS Preps Show On Use of A-Bomb

NEW YORK, Feb. 28.—The Mutual Broadcasting System (MBS) is considering two new shows for airing shortly, one to be a one-time, all-out documentary program on the atom bomb, and the other a talent hunt for new comedy writers, aimed specifically at college students.

The atom bomb show, a project of Bob Swezey, MBS's veepee and general manager, will be devoted to the peacetime uses of the bomb, showing the enormous good to which the instrument can be placed and endeavoring to give listeners a clear picture of what the thing is. It's being developed by MBS staffers.

The comedy writers idea, now up to Phil Carlin, MBS program veepee, for final okay, will attempt to locate upcoming gag writers on the nation's college campuses.

Montgomery Holds Out on "Suspense"

NEW YORK, Feb. 28.—Altho the electric Auto-Lite Company signed yesterday (27) to sponsor *Suspense*, the Columbia Broadcasting System (CBS) package, instead of its current Dick Haymes opus, no agreement had been reached at the week's end with Robert Montgomery, the mystery airer's star, who is holding out for more loot. Montgomery is reportedly asking for \$2,500-\$5,000 per show, as narrator only and \$2,500 more if he acts as well as narrates. However, *Suspense*, cut down to 30 minutes from its current full-hour format, will cost considerably less than the Haymes budget of about \$14,000 weekly. As a result, Auto-Lite is understood to be considering a bolstered name-guest policy for *Suspense*.

The mystery show is slated to move into Haymes's 9 p.m. Thursday seg on CBS early in July. The agency is Ruthrauff & Ryan.

WJLB Enjoined On Language Shift

DETROIT, Feb. 28.—Protests of foreign language groups against WJLB policy, effective midnight tonight (Saturday), of dropping all foreign language shows, leaving the city without foreign air programs, resulted in an injunction granted yesterday by Federal District Judge Arthur F. Lederle against WJLB.

The formal action was taken by a group of individuals having monetary interest in foreign programs, either as salesmen or employees. The injunction is for 10 days.

The station's action is still uncertain.

Sylvester & Spouse Audition Disk Show

NEW YORK, Feb. 28.—Bob Sylvester, dramatic columnist of *The New York Daily News*, and his wife, Bunt, yesterday auditioned their new show for both WOR and the American Broadcasting System. It's a combination man and wife, nocturnal disk jock program.

Sylvester recently lambasted disk jocks in his column and says that if the show is sold, he'll have some fancy apologizing to do.

'Cricket' Chirps For Sponsors

NEW YORK, Feb. 28.—A new package, *Jiminy Cricket*, starring Cliff Edwards, vet film and radio singer, is under consideration at J. Walter Thompson and Young & Rubicam, it was reported this week.

The show is based on the Walt Disney cricket character and would air from the Disney lot in Hollywood. Edwards, in the lead, would be cast as the chirping conscience of famous historical characters, to be played by top name guests. Robert Young already has been set for the lead in the first show, *Patrick Henry*.

The budget is said to be \$12,000 weekly.

Y&R Accounts Mull Net Segs

NEW YORK, Feb. 28.—Several clients of Young & Rubicam (Y&R) are reported to be considering network shows for the near future. These include the Jello and Jello Pudding divisions of General Foods. Other Y&R accounts pondering stanzas are said to be Celanese Corporation and the Metropolitan Life Insurance Company, both of which have used radio before.

Y&R has been reported interested in Meredith Willson for one of the above accounts.

"Parky's" May Quit Mutual in Spring

HOLLYWOOD, Feb. 28.—The *Meet Me at Parky's* stanza, currently over Mutual Broadcasting System (MBS) as a co-op venture, is reported set to move to another net at season's end in a new single sponsorship deal. The reason for the shift is said to be dissatisfaction with low rating and Mutual's inability to peddle the

U.S. Continues To Hold B.R.'s Liable for Actors' S. S. Funds

WASHINGTON, Feb. 28.—The Bureau of Internal Revenue is keeping an unofficial eye on the Social Security tax squabble between the American Federation of Radio Artists (AFRA) and the Gulf Oil Company, but does not plan an investigation until the expected AFRA protest (*The Billboard*, February 21) arrives.

The present inclination of the bureau, a spokesman for the employment tax division said this week, is to continue its policy of holding all radio sponsors responsible for arranging Social Security coverage for all actors employed by them—whether under contract or not.

Must Cite Individual
The official emphasized that if AFRA plans an official protest on Gulf's reported plan to discontinue payment of benefits in behalf of transient actors on *We the People*, the union must do so in the name of an individual actor affected by the alleged Gulf move.

Filed in the correct form, the spokesman said, an AFRA complaint would be investigated. Unless Gulf

66 Mil for NBC

NEW YORK, Feb. 28.—The gross income of the National Broadcasting Company (NBC) for 1947 was \$65,690,001, the greatest in its history and 7.6 per cent ahead of 1946. The income in 1946 was \$61,067,034. Figures were disclosed this week via the annual statement of NBC's parent company, the Radio Corporation of America.

Scripters Balk At Certifying

NEW YORK, Feb. 28.—Radio Writers' Guild (RWG) this week flatly refused a demand by New York advertising agencies that the Guild be certified as bargaining agent for writers on agency-produced commercial programs. The certification demand had been made by the American Association of Advertising Agencies (AAAA) in response to an RWG bid for a minimum basic agreement covering the writers involved.

The AAAA demand is predicated on Taft-Hartley requirements, but the Guild's position is understood to be that such certification is merely a delaying tactic and actually unnecessary. Ground for this claim is that the Guild recently set a new contract with the four major networks and that, therefore, the certification demand isn't required.

stanza in major markets.

Parky's (Harry Einstein) current pact with Mutual guarantees the comic \$6,000 weekly. The show is bankrolled by local sponsors in 150 markets, but is still unsold in important cities such as New York, Chicago, Los Angeles, Detroit, etc. The potential gross take on the show is estimated at \$11,000 but the figure cannot be reached without sale in major markets. New bankroller was not disclosed at this time.

can present a strong case to the contrary, the bureau will be inclined to rule in favor of the union, it was asserted.

Altho admitting that the cases of actors on occasional call fall in the "twilight zone" of Social Security rulings, the official said: "We feel that a radio advertiser, whether working thru an agency or not, is liable for Security payments for the benefit of all persons employed by him or his agents."

Vaude Sitch Different

In the case of entertainers working for a vaudeville house, it was stated, the matter is quite different. It was explained that the bureau—upheld by a New York court—contends that a vaude performer is an individual contractor and is not covered by Social Security. However, the spokesman continued, a radio actor is hired by a sponsor to perform a prescribed duty at a prescribed time and is so considered to be a simple employee of that sponsor, even tho the actor speaks only one line.

Thomas, Brice, Skelton and Durante Off?

48G Weekly Talent Bill

NEW YORK, Feb. 28.—Four top shows were reported facing cancellation this week. They are Fannie Brice (General Foods) on Columbia Broadcasting System (CBS) and Jimmy Durante (Rexall) and Red Skelton (Brown & Williamson), the last two on National Broadcasting Company (NBC).

In the case of Miss Brice, her option is up Monday (1) and as of the week-end, Young & Rubicam, the agency involved, had not picked it up. Brown & Williamson, insofar as Skelton is concerned, is faced with a budget problem, from reports, and while eager to keep him, may be forced to cancel when the contract expires this season. It was also said that B & W is considering Sig Romberg as a summer replacement and a return to its coupon-type selling. This gimmick, used on Kool and Raleigh cigarettes, was dropped some years ago. Savings on a Skelton replacement would facilitate the coupon business.

Freeman-Keyes, who has a personal management contract with Skelton, is reported to have been submitting him to prospective accounts in recent months.

Budget Sitch

Schnozzola's reported cancellation is again not a question of rating but reportedly reflects a budget situation. Option time is within the next week or so, it is said, with N. W. Ayers, the agency for Rexall, reportedly looking for a cheaper program.

It's not known whether General Foods will retain the Brice time on CBS. The latter show runs back to back with Danny Thomas, who may also have option trouble, from reports. Dropping the Brice-Thomas hour would just about knock the props out of Columbia's Friday night comedy revamp schedule.

Budgets for the shows are around \$7,500 for Thomas, \$13,000 for Skelton, \$13,000 for Miss Brice, and \$15,000 for Durante.

Nets' '47 Income Put at 190 Million

WASHINGTON, Feb. 28.—Topped by the year's high in December, gross income of the four major networks amounted to \$190,900,000 in 1947, the Commerce Department estimated this week. December income was estimated at \$17,780,000, an increase of some \$800,000 over November and about \$1,000,000 more than the previous December.

According to Commerce statistics, 1947 brought the second highest gross income in chain history, being topped only by time sales of \$193,000,000 in 1946.

Biggest contributor to the radio kitty last year was the toilet goods groups, which put up some \$55,500,000 of the total. Close behind came the food-beverage sponsors who paid in about \$52,500,000.

BONANZA OR BOOMERANG?

FM Wonders, On Lifting of Petrillo Ban

Tuners Resent the Soapies

NEW YORK, Feb. 28.—Recent lifting of the ban on duplication of AM music programs over FM outlets by James C. Petrillo, president of the American Federation of Musicians (AFM), may turn out to be far from a bonanza for FM operators. This was indicated this week when it was learned that FM station managers are receiving numerous complaints from listeners regarding the program quality of the newly revamped FM station skeds. The squawks are to the effect that FM listeners, most of whom have been weaned on good music and news, are now getting their quota of soap operas, disk jockeys and singing commercials—and they don't like 'em. For an FM listener, it is pointed out, a soapie is still a soapie even if static-free.

The complaints from tuners, it is understood, have been directed primarily at network affiliates who are now taking AM schedules piped from the webs. Quite a few web FM affiliates are not taking the AM programs owing to the regulation that all AM programs must be duplicated or none at all. This regulation, which prevents an FM station from carrying some AM network programs and excluding others, is designed to give advertisers a fair break. This all-or-none regulation prevents some FM outlets from taking AM programs because they are loath to dispense with local accounts. In other words, some of these FM outlets would like to take the entire AM schedule but cannot.

Poses a Dilemma

Those affiliates who are duplicating face a dilemma. When Petrillo lifted the ban February 1 FM execs hailed the move as a great boon, one which would permit them to vary their schedules and forge ahead business-wise. It seems now, however, that in a large measure duplication has intensified FM's programming problems. FM audiences have not only become accustomed to good music and news—they were actually sold FM on that basis. They also feel they have an investment in their receivers. Capping all this is the admitted fact that FM audiences are a cut above the general AM audience in intelligence, and are therefore more articulate than the average audience.

Commenting on the dissatisfaction of FM audiences with duplicated programs, one network exec stated that despite the disappointments and dilemmas posed by duplication, it was nevertheless the ultimate road to salvation, inasmuch as it was the smoothest method whereby AM could change over to FM.

Webs Hamper FM? Stations Are Queried

WASHINGTON, Feb. 28.—The policy of networks on FM is in for a thoro study by both the Federal Communications Commission (FCC) and FM Association (FMA). Tackling the question from different angles, the FCC and FMA this week sent out questionnaires designed to bring out whether the chains are hampering FM.

The commission sent letters to the four major webs asking various questions on network policy, including a query about whether FM affiliates which carry some AM network programs are required to carry all of the net's sponsored shows.

The FMA's questionnaires went out to some 400 FM broadcasters asking whether network policy "interferes with or hampers you in any way in programming your FM station locally in the public interest." In a query similar to the FCC's chief question to the chains, the FMA asked FM-ers whether webs with which they are affiliated permit them to choose which network programs they will carry.

In announcing the questionnaire mailing, the FMA explained that it has received complaints from members that "some of the major networks have adopted policies of 'take all our programs or none' on FM." The FMA said the poll was an attempt to find out how prevalent this policy was.

New Spot Sought For "Ford Theater"

NEW YORK, Feb. 28.—Altho Ford Motors this week renewed its Sunday afternoon time on the National Broadcasting Company (NBC) for *Ford Theater*, both the account and the network are looking around to find a different time spot. Both Columbia Broadcasting System and American Broadcasting Company are likewise trying to line up acceptable periods.

Renewal is for 13 weeks, and Ford is reiterating its policy of continuing to sponsor *Theater* as a long-time radio project. The account wants to

FCC Starts Its Hearings On Ban on Editorializing

WASHINGTON, March 1.—Spokesmen for the major networks were on hand to deliver the formal opening punches against the Federal Communications Commission's (FCC) historic Mayflower air editorializing ban as a many-times-deferred hearing on the ruling was slated to get under way here today (Monday). The hearing, attracting national interest and absorbing the attention of all the FCC commissioners, appears likely to run at intervals for several weeks, with some FCC spokesmen forecasting it will not reach a wind-up until mid-April.

As the hearing was set to get under way this morning, general belief prevailed backstage that FCC may seriously consider reversing its stand against editorializing on the air. Seen as a likely modification is a rephrasing of the ruling, at least to accommodate facsimile broadcasters, and some insiders believe the FCC may even go all the way in letting stations editorialize within restricted limits of "identified" programs. The issue, regarded as the paramount one before FCC, will be debated heatedly, with tens of thousands of words of testimony to be poured onto the record before the commission deliberates on a decision and with organized labor ready to give vigorous opposition to station owners and the National Association of Broadcasters (NAB) who will ask FCC to reverse itself. Organized labor will argue against any revision of FCC's original ruling in the Mayflower case.

AFM in Background

The shadow of current negotiations between broadcasters and the American Federation of Musicians (AFM) will hang over the entire hearing inasmuch as the FCC is agreed on interrupting the hearing "at any time" to accommodate NAB and broadcasters engaged in negotiating music broadcast contract terms with Prexy James C. Petrillo and AFM locals. With more than 100 witnesses slated to testify and with the FCC content to stage the proceedings in two and three-day spells over a period of several weeks, the hearing is seen likely to become one of the longest on record.

Leading off broadcast ownership's attack on the editorializing ban are officials of American Broadcasting Company (ABC), Columbia Broadcasting System (CBS), National Broadcasting Company (NBC) and Yankee Network. In presenting a united front in favor of editorializing on the air, the networks and other radio ownership spokesmen, including NAB, will reiterate arguments already offered many times by them in public speeches that the Mayflower ruling constitutes an "abridgement" of free speech in violation of the Bill of Rights.

Mutual Broadcasting System (MBS) opposition to the Mayflower ruling will be voiced by T. A. M. Craven, head of Mutual-Cowles station WOL, Washington. Others to be heard on this side of the issue include Nathan Straus, WMCA, New York; Morgan Sexton, KROS; Robert Mason, WMRN; E. R. Vadeboncoeur, WSYR; Ralph Hardy, KSL; Berl Lottredge,

shift time not only to improve its rating but to get away from the Ford dealers Sunday night program starring Fred Allen, also heard over NBC.

WOC, and Robert E. Cushman, WHCU.

Unions Support Ban

Among supporters of the editorializing ban who will be heard are the United Automobile Workers, an affiliate of the Congress of Industrial Organizations (CIO), the Communications Workers of America, the AFM and the American Federation of Labor (AFL). The long list of witnesses slated to appear at the hearing includes spokesmen for religious, music, advertising, educational, farm and veterans' interests, besides labor and radio ownership. Among witnesses will be representatives of American Veterans' Committee, American Jewish Congress, Farmers' Union of America, Institute for Education by Radio; Co-Operative League, USA; Advertising Federation of America, Revere Racing Association, American Council of Christian Churches, Iowa Association of Radio News Editors, Progressive Citizens of America, Committee for Constitutional Government, Radio Writers' Guild, Joint Religious Radio Committee, National Association of Educational Broadcasters, National Association of Radio News Directors, National Association of Broadcast Engineers and Technicians, American Federation of Radio Artists, American Association of Theatrical and Radio Press Agents, Radio and Television Broadcast Engineers' Union.

4 Webs, AFM Huddle Mar. 8

NEW YORK, Feb. 28.—Execs of the four webs and the American Federation of Musicians (AFM) resume negotiations March 8—a week later than originally scheduled, to work out a new contract. Details to be covered in the sessions with James C. Petrillo, AFM chief, include scales for AM, FM, co-op programs and television. The consensus is that this time Petrillo will okay live music for video.

Webs have been operating under a 60-day extension of the 1947 pact. A one-week delay in resumption of negotiations resulted from the fact that a lot of the network brass took vacations and couldn't get their routine work in order in time.

FMA Huddle Friday To Map Expansion

WASHINGTON, Feb. 28.—The FM Association (FMA) board of directors will chart what is expected to be an "expanded program of operations" for FMA at a meeting here next Friday and Saturday (5 and 6). In calling the meeting, FMA Prexy Everett L. Dillard said the session will be "one of the most important" in FMA's career, and he voiced belief that FM broadcasting is at last "over the hump."

The agenda for the session includes discussion of proposed copyright legislation, duplication of web programs on AM-FM, the American Telephone & Telegraph Company's proposed rates for FM web lines, FMA's role at the Mayflower hearing, and FMA's policy on video-casts of still pictures with music accompaniment. The board will also take up the question of future outlays and budgeting.

U. S. RADIO ACTOR SURVEY

AFRA Charges Taft-Hartley Hamstrings Union Activity

NEW YORK, Feb. 28. — Enactment of the Taft-Hartley labor law has resulted in delay, procrastination and hamstringing of union activities, George Heller, national secretary of the American Federation of Radio Artists (AFRA), declared this week. AFRA, now engaged in a nationwide organizing drive, has found that both the provisions of T-H itself and stall-tactics adopted by some broadcasters, have gummed up the works, Heller said. His statements were made to a New York AFRA local membership meeting this week.

The question of the union shop under T-H is a particular problem, Hel-

ler said. The law provides that every employee vote in union shop elections, meaning that even actors who have worked only once during a given period must be contacted. If they do not vote at all, it is counted as a vote against the union shop. Such elections are pending at WINS and WHN, New York, which nevertheless have recently concluded AFRA negotiations.

The union shop is even more complex insofar as networks are concerned, by virtue of the many performers used. AFRA, Heller disclosed, is trying to arrange a one-shop election, rather than four, to cover the four networks and to obtain a definition of the period to be covered in the shop election. Even if but for one month, thousands of performers will have to be contacted to cast their ballots.

Heller named a number of sore points in the negotiation picture, including Fort Wayne, Ind.; Peoria, Ill.; San Francisco; Raleigh, N. C.; Kansas City, Mo., and Louisville. He also charged that many broadcasters were using coercive methods as a means of fending off AFRA shop.

The union exec also reported that AFRA was opposing moves by broadcasters to classify announcers as professionals rather than as employees. As the former, they would be excluded from AFRA provisions.

Heller denied charges that increased pay scales are responsible for current decreases in employment. The real reasons, he maintained, are changes in the excess profits tax laws, material shortages, increased time rates and a general depression fear thruout management.

The meeting also heard reports by Nelson Case, newly elected AFRA president, and Clayton Collyer, the latter on employment (see story elsewhere in this issue). The membership also approved a plan whereby addressograph files would be made available for union election material.

CBS Plans Godfrey Scouts Vaude Unit

BIRMINGHAM, Feb. 28.—Columbia Broadcasting System (CBS) production brass are completing plans for an Arthur Godfrey Talent Scouts vaude unit. The web will build one unit initially, as a test, to see how the unit fares in theaters around the country. William Morris and Music Corporation of America have already been approached to do the booking, but late this week no deal on bookings was set.

The unit will probably include six acts, and these will not necessarily be the winners—rather, the best talent. Irving Mansfield will produce.

D-C-S Agency Bags New Nestle Account

NEW YORK, Feb. 28.—One of the most sought after new advertising accounts to come up in some time was reported snagged by the Doherty, Clifford & Shenfield (D-C-S) ad agency this week. The account is Nestea, a new product manufactured by Nestle Milk Products, which also makes candy and Nescafe. Nestea is an instant soluble tea, first product of its kind on the market, its use

Tough Competish Hypos Wells' Rate

NEW YORK, Feb. 28. — An unusual instance of a program turning in a higher Hoopering in a new time slot against tougher competition than it was able to get against weaker competish to a different time has developed via Christopher Wells. The current Hoopering of the DeSoto-Plymouth program is 7.9, against Fibber McGee, which is up to 26.9. Wells has been airing only four weeks on Tuesdays. The previous rating has been 7.3.

As a Sunday night show, against the Theater Guild and Take It or Leave It, which run around 10 to 15 Hooper-wise, it was unable to do better than five in the rating sweepstakes. Wells, owned by Ed Byron, was renewed this week for 13 weeks.

Forrestal Asks Nets, NAB for 'Censor' Huddle

WASHINGTON, Feb. 28. — The voluntary "censorship" proposal of Defense Secretary James Forrestal will be aired officially for the first time at a meeting of publishers and broadcasters in the secretary's office Wednesday (3), a Forrestal aid told *The Billboard* this week.

Invitations to take part in the discussion have been sent to National Association of Broadcasters (NAB), the National Broadcasting Company (NBC), the American Broadcasting Company (ABC), the Columbia Broadcasting System (CBS) and Mutual Broadcasting System (MBS).

The aid explained that no individual broadcasters received invitations because "we don't want the meeting to be unweildy. We feel that the NAB and the networks will be able to give the views of radio," he added.

Forrestal's plan is to set up a security board of army, navy and air force personnel to advise radio and the press whether or not news stories submitted to the board would injure national security. Forrestal has emphasized that the system will be strictly voluntary, with the board having no authority to compel editors to abide by its rulings.

CBS Sets Gottlieb To Produce 3 Segs

NEW YORK, Feb. 28.—Lester Gottlieb, who this week joined Columbia Broadcasting System's (CBS) program staff, shifting over from Young & Rubicam, has been assigned to take over production on three shows. They are *It Pays To Be Ignorant*, now on CBS as a co-opper; the new Goodman Ace show and *Strike It Rich*.

Gottlieb will also handle talent details in the program department, assuming the job formerly held by Larry Puck.

eliminating the usual tea bag or strainer routine.

Almost a dozen of the top agencies in town pitched for the account which went to D-C-S. Advertising plans will be developed slowly, with prior problems of distribution and packaging requiring initial attention.

Labor Dept. Will Check Job Picture

Stems From AFRA Group

NEW YORK, Feb. 28.—A nationwide survey of the economic status of radio artists will be made shortly by the Bureau of Labor Statistics (BLS) of the U. S. Department of Labor, the first such study ever made by a government body of a show business field. BLS survey is the result of several months study of employment conditions by the American Federation of Radio Artists (AFRA) New York local.

Survey will start in New York March 22 and will be made nationally about four weeks later. First field work is being done in New York so as to enable BLS and AFRA to double check the efficiency of the questionnaire, final draft of which is to be approved Tuesday (2). Entire survey will be made on an anonymous basis.

To Turn Up Data

Radio actors thruout the country, and especially in New York, have been bedeviled by unemployment for some months, with AFRA a few months ago setting up a committee to study the problem. While the BLS questionnaire does not include any remedial elements in itself, the actors—and some employers, notably the networks, who have been co-operative in the field work done so far—have been stymied by a lack of data. It is figured that facts as to income levels, frequency of employment and the like, will provide guideposts to improving conditions.

Questionnaire will check age, sex, marital status, experience, education, pre-radio background and qualifications, work during one specific week, whether radio income is implemented by non-radio work, in or outside of show business, and information as to earnings during 1947.

Initial move to get the government survey was made for AFRA by Minerva Pious.

Bordon Splitting Costs on New Seg?

NEW YORK, Feb. 28.—Time and talent billings will apparently be split when the new Bordon show starts on the Columbia Broadcasting System (CBS) April 7. The show, now airing on the Coast with Mark Warnow, is heading East for New York origination.

The new cast will include Ed Slatery and an orchestra and chorus and Earl Wrightson, Thomas L. Thomas and Mary Martha Briney, singers. Frank Hummert will produce and it is understood, collect the talent commissions, with time billings going thru Kenyon & Eckhardt.

HOOPER ELECTS TWO

NEW YORK, Feb. 28.—The board of directors of C. E. Hooper, Inc., this week elected H. Douglas Hadden vice-president and general manager, and Albert M. Wharfield vice-president in charge of advertiser and agency relations. Wharfield has been placed in executive charge of program Hooperatings and the new U. S. Hooperatings. He and Hadden both will be headquartered in New York.

Perl's Civil Rights Script Deals Await Disentanglement

NEW YORK, Feb. 28.—With at least three local outlets interested in buying writer Arnold Perl's two-part documentary series on the report of the President's Committee on Civil Rights, shelved last week by Mutual Broadcasting System (MBS), Perl has indicated his willingness to make transcriptions of the shows available without charge, except for the wax, to all stations. The shows were replaced by straight readings of the report beginning Tuesday (24) by MBS on the ground that dramatic interpretation might limit the amount of material covered. Offers have been made to Perl by WMCA, WNEW and WOV, but the writer has been unable to make any disposition of the scripts pending settlement of the question with MBS of property rights.

Perl said this week that MBS had paid him for the first of the scripts only, on the minimum basic contract covering first radio rights. However, the MBS readings included several verbatim excerpts from Perl's script. This, said Perl, accounted for a technical first performance of the material. Preliminary MBS opinion, however, was that the excerpts used were so fragmentary as not to constitute a performance, and that any stations desiring to utilize the script would thus have to negotiate with MBS for its release. MBS President Edgar Kobak said the web would like to air Perl's show at a more propitious time, in the future. The second show was never paid for by MBS and thus remains Perl's property.

The MBS reading drew, according to one web spokesman, a large number of letters and wires praising the broadcast and lauding the airing of the material. At the same time, numerous organizations have rallied around Perl and have voiced condemnation for MBS's action in renegeing on the documentary three days prior to the broadcast. The United Automobile Workers (CIO) contacted Perl from Detroit, saying it wished to have various locals thruout the country sponsor airings of the shows. The magazine '48 has asked Perl to write a piece for its Workshop department on how a documentary is penned, using portions of the script for examples. The radio division of the Progressive Citizens of America issued a statement stating that MBS "set out to dramatize the full meaning of the report . . . it has."

EX-KMPC'ERS BLOW WHISTLE

Charge Richards Ordered News Slanted To Promote Own Political Beliefs

Also Claim Smear Orders on Roosevelts, Hughes, Jews, Etc.

(Continued from page 3)

5939 Sunset Blvd.

"Dear Clete.

"Let's back up the board of supervisors on the loyalty plan.

"Throw out the Communists, wherever we can and really follow thru and see that it's done.

"Enclosed find a good editorial from the Hearst paper which would get on our air, over and over and over again.

Regards.

G. R. Richards."

A third letter written on stationery bearing Richards's name:

"Genl. MacArthur is a great man who believes in Christianity and our way of life, etc., etc., who, if called upon to be our president would become one of the greatest leaders and crusaders of all times, etc. Get this over. Again and again and again." (Signed) GAR."

Lewin's Statement

Lewin's statement, in full, reads:
"February 26, 1948.

"A statement relating to actions of G. A. Richards in connection with presentation of news on Station KMPC, Los Angeles. The statement is made by George E. Lewin, KMPC newsroom manager from February, 1947, to February, 1948.

"In general, Mr. Richards told me many times to seek news items derogatory to the New Deal, as he always referred to the Truman administration. He told me to plug always for General MacArthur and Tom Dewey and to keep hammering at the Jews, who are, he said, all Communists.

"Specifically, Mr. Richards told me always to follow any story about Communists with a story (derogatory) about any member of the Roosevelt family. He ordered me to use the same treatment of news stories tying in the names of David Lilienthal, Henry Wallace, Howard Hughes, Henry Kaiser and others whom he considered to be dangerous men.

Lilienthal's Case

"During the Senate hearings on David E. Lilienthal's confirmation as head of the Atomic Energy Commission, Mr. Richards ordered me to give extra long treatment to charges against Lilienthal and to suppress anything favorable to Lilienthal. Lilienthal, he said, was a Communist.

"When Howard Hughes was testifying before the Senate War Contracts Investigating Committee, Mr. Richards told me almost daily to give Hughes hell. He told me specifically to refer always to Hughes's flying boat as the worthless plane or the mammoth waste of the taxpayers' money and ordered me to work into the news stories the prediction that it would never fly.

"Mr. Richards ordered me to stop the use by newscasters of stories about events in Palestine. That was in the latter part of December, 1947. He said that publicizing the situation

in Palestine would give aid and comfort to Jews and Communists.

"Screwball Wallace"

"He ordered me never to use a story about Henry Wallace unless it was unfavorable to Wallace and said that I must always precede Wallace's name with the nicknames of screwball or tumbleweed.

"When Elliott Roosevelt testified before the Senate War Contracts Investigating Committee Mr. Richards ordered me to dig up the complete dossier on Elliott Roosevelt and recap all of his brushes with the press, which might conceivably reflect on young Roosevelt.

"The treatment of news stories ordered by Mr. Richards was identical with that which I had encountered while working for Hearst, Cissie Patterson, Capt. Joe Patterson and Scripps-Howard.

"The incidents listed above were repeated many times and in connection with many other personalities. The general tenor was always the same.

Practices at KMPC have been the subject of local radio circle gossip for some time. Not only ex-staffers, but present staff members of the powerful indie have spread all types of stories about the operation, but the Roberts and Lewin letters and material are the first tangible statements published on the situation.

NAB OK's 15G Hypo For Intl. Parleys

WASHINGTON, Feb. 28.—National Association of Broadcasters (NAB) is set to spend \$15,000 on increasing its activity in international communications parleys. It is also considering stepping up its interest in a motion picture project publicizing radio—a project which may entail an outlay up to \$200,000. The NAB board at its Hot Springs, Va., meeting this week approved the \$15,000 outlay and passed a resolution urging the movie project which is already supported by the four major networks with a combined pledge of \$50,000 toward it.

The movie project, publicizing the aims and operations of American radio broadcasting, has been under discussion nearly two years and, according to Vic Ratner, vice-president in charge of promotion of the Columbia Broadcasting System, would employ an "entirely new technique of visual presentation." The board is expected to turn over the discussion to the Los Angeles convention which, if it gives final approval, will make it possible for the project to get under way next fall.

Conn. Indies Organize

HARTFORD, Feb. 28.—A new State radio group, Connecticut Independent Broadcasting System (WCCC, Hartford; WAVZ, New Haven; WMMW, Meriden; WNOG, Norwich; WLCR, Torrington) will meet Tuesday (2) at the WMMW offices in Meriden. Election of officers will take place. Temporary chairman is Richard Carson, of WAVZ.

NAB Code Okayed, But New Board May Revise Further

WASHINGTON, Feb. 28.—The National Association of Broadcasters' (NAB) projected code was turned over by the NAB board this week to a special re-styling committee headed by NAB President Justin Miller. It will be less than a third its original length by the time it is submitted by mail to NAB members a month in advance of the Los Angeles convention. The code, which now is prefaced by a brief and highly general preamble approved by the board this week in Hot Springs, is being given a better than even chance for final board acceptance at insiders are privately acknowledging one major reservation—the ultimate fate of the code will remain unknown until the make-up of new members of the NAB is established. The present board will stage its last meeting on the eve of the Los Angeles conclave in May but will avoid acting on the code. Instead, it will turn the document over to the incoming board, which will meet on the wind-up Wednesday of the convention. The new board will thus have an opportunity to gauge general NAB sentiment on the code thru at least one full day of convention discussion before voting to approve or disapprove the document.

With 16 new members about to be elected as replacements on the 25-member board, the newcomers will, thereby, have a majority voice in code action. It's possible that some candidates for the board, running some districts where opposition has been registered against a new NAB code, may actually compete for the posts on an anti-code platform. At present, however, this is not expected to develop on a widespread scale, particularly since NAB President Justin Miller is known to have gone on record at this week's board meeting advising against railroading thru a highly detailed code which obviously could not be acceptable universally. Miller, it is learned, has insisted that the development of a code should be brought about "in progressive stages," and that the NAB this year should be content to agree on a mild improvement rather than a revolutionary new document.

The code, even in its present form, represents drastic revision from its original form, having been stripped of several major "morality" provisions (*The Billboard*, February 7) in addition to the changes made by the NAB board in the commercial sections last fall. Even the commercial section underwent further modification at this week's board meeting, with the board deciding to allow an additional five seconds for commercial plugs on 25-minute program segments. Commercials can run two minutes and 50 seconds instead of two minutes and 45 seconds. The intent of many of the original sections of the code is still implied in the existing draft which, nevertheless, is a highly condensed and a more general version. The preamble, which the code now bears (*The Billboard*, February 21, February 28), is also in highly general language of 150 words, consisting of four brief paragraphs stating radio's credo as operating in the public welfare for the "common good" of all groups.

Miller's re-styling committee, which is allotting itself about five weeks to complete its work on the code preparatory to mailing copies to NAB members, includes A. D. (Jess) Willard, executive vice-president of NAB, and Harold Fair, NAB program department director. Miller is authorized to appoint additional members, and it is considered likely that at least one independent station representative will be named in order to avoid recurrence of the indie rebellion that developed against the original proposed code.

Railroads Mull Network Show With B and B

NEW YORK, Feb. 28.—Association of American Railroads (AAR) this week was reported again considering entry into network radio. A number of conferences have taken place recently between executives of the AAR and its agency, Benton & Bowles (B&B). The association neared the pacting stage for a web show about two seasons ago, but the program was picked up by another sponsor before the contracts could be drawn.

A meeting between the AAR board members and B&B radio department officials is slated for late March, probably in Chicago, where the decision about use of radio is likely to be made. It is believed the AAR's renewed interest in radio stems from the critical barbs aimed at its members by railroad mogul Robert R. Young, whose Chesapeake & Ohio line has used the *Information, Please* show to sound off about poor equipment and service of other lines.

Hooper Lifts Ban on New Orleans Ratings

NEW YORK, Feb. 28.—C. E. Hooper, Inc., this week reversed its decision on discontinuing publication of a city report for New Orleans. The research org had planned to drop the city because of a promotion giveaway being conducted by WNOE, which, Hooper declared, produced distortions in the ratings.

Under the revised set-up, however, New Orleans ratings will be published, with WNOE ratings omitted. Ratings spaces for this station will carry a line that they were omitted because of promotional activities which "artificially inflate" the figures.

NAB To Meet in Chi In '49; Maybe Always

WASHINGTON, Feb. 28.—National Association of Broadcasters (NAB) will resume its annual conventions in Chicago in 1949 as the result of resolutions adopted by the NAB board in Hot Springs, Va., this week. The 1949 conclave will be staged at the Stevens Hotel April 8-13, and the NAB will negotiate on arrangements for Chicago as a permanent convention site. This step is being taken to meet requirements for a centrally located site, particularly since some criticism had been raised against staging this year's conclave at a Pacific Coast site inconvenient to Easterners.

Dear Miss Stafford:

You will be interested to know that in our Continuing Audit of Radio Personalities, a regular ARI nationwide survey, you have the most enthusiastic following of any female singer included in the most recent poll.

You have reached a position of public recognition as a radio star by 53% of the radio listeners in the country. Furthermore, among those people who have heard you, 60% picked you as one of their favorite performers.

Although several other singers are more widely known, none of those included in this survey has quite the "Enthusiasm Quotient" that you have. The "E.Q." values reported in the Audit are a combination of two measurements:

- a. The extent to which a performer has been heard by the listening public, and
- b. The degree to which the performer's following is enthusiastic about his or her performance.

Sincerely yours,

Samuel H. Northcross

Reviewed Wednesday, February 25. Aired Wednesdays, 8:30 to 9 p.m. via 50,000-watt WBBM, Columbia Broadcasting System o.-and-o. station, Chicago. Talent: Written, produced and directed by Ben Park; narrated by Flahey Flynn; orchestra under the direction of Frank Smith; announcer Tony Parrish.

No Hooperatings available.

Not daunted by magnitude or complexity of subject matter, WBBM has begun devoting its famed series, *Report Uncensored*, to one of the country's major problems—housing. It was with the first *Report Uncensored* series, devoted to juvenile delinquency, that WBBM did a notable documentary job, establishing a new high mark for public service programming here. If this series lives up to the promises of the first show, which was a more or less introductory presentation of the problem, WBBM stands a chance to score highly for the second time.

Continuing a style found successful for the juvenile delinquency series, a style which uses a combination of narration and tape recorded interviews primarily and some dramatizations, the first show of the new series was powerful documentary broadcasting. After the narrator had made an attempt to outline the problem, the show presented recorded interviews with families living under frightful conditions. One family with an invalid daughter, spent three nights on streetcars because they could find no place to live. Others included veterans compelled to live in damp, unheated basements; others who had to send children to institutions because health department officials would not allow them to stay in available family quarters, and still other shocking cases.

As Many Shows as Needed

No definite number of shows has been allocated to this new series. The station has merely decided that the problem will be given as many shows as are necessary. And as writer-producer Ben Park has stated in pre-broadcast conversations and as Flynn made clear during the show, the complete treatment of the problem is many weeks away. In subsequent weeks there will be information further explaining the complexity of the problem. There will be interviews with private builders, mortgage company executives, governmental agency representatives, social workers and finally an attempt to explain what could be done to solve the over-all problem. WBBM has made an excellent start. If it follows the pattern and promises of the first show, Chicagoans will for the first time have a chance to see the complex housing picture in all its involved, sometime contradictory, parts.

Jacques Fray's program is a classical disk jock turn. In keeping with the standards of the station the show Wednesday (11) radiated good taste, both in the musical selections and in Fray's script. The talk sessions were quite brief interludes; the music, considerable.

To this reviewer Fray's comment seemed quite unusual in nature, and this fact lent a touch of novelty to the program. Fray, for instance, called attention to the use of the English horn on one record and remarked that a critic had said it was "a wind instrument that nobody blows good."

The Kinsey Report

One broadcast only; February 27, 9:30-10 p.m.

Produced by WMCA Public Service Division; director, Howard Phillips; announcer, George Willard; moderator, Morris L. Ernst, lawyer-author; participants; Dr. S. Bernard Wortis, professor of psychiatry, New York University College of Medicine; Dr. Abraham Stone, medical director, Marriage Consultation Center of Community Church, president, American Association of Marriage Counselors; Dr. Ruth Benedict, associate professor of anthropology, Columbia University.

The *Billboard* a few months ago remarked on radio's new-found freedom with regard to the airing of programs on sex education. WMCA's decision to broadcast a round-table discussion of *Sexual Behavior of the Human Male*, the Kinsey report published by W. B. Saunders Company, is of course an outstanding example of this type of courageous public service programming. Let it be said immediately that the WMCA program was handled with excellent taste, the panel of experts maintaining an attitude never even remotely vulgar.

The discourse, participated in by experts on psychiatry and the social sciences and moderated by Morris L. Ernst, noted lawyer and author, considered the Kinsey report from the standpoint of its possible effect on the traditions and customs of our time. They assessed the report in its relation to marriage, morals and legislation. Some fallacies of the report were pointed out, such as alleged inadequate sampling. But when it was all over Ernst summarized the report as contributing very measurably to our knowledge and civilization, altho, as he said, it was only a beginning.

No Hint of Obscenity

Judging the report as radio fare, it can be stated that as presented by WMCA and the panel of experts, pop and mom and all the kids could have listened to it with profit and with never an obscene titillation.

It's interesting to note that the National Broadcasting Company (NBC) had been considering a public service program based on the Kinsey report. Contrary to a trade paper story, Kinsey was willing to let NBC do it—but opposition developed within the web. So WMCA broke some ground on a mature programming level and nobody got hurt.

Participating with Ernst were Dr. Abraham Stone, medical director of the Marriage Consultation Center of the Community Church and president of the American Association of Marriage Counsellors; Dr. S. Bernard Wortis, professor of psychiatry at New York University, and Dr. Ruth Benedict, associate professor of anthropology, Columbia University. Paul Ackerman.

phrases and thoughts. His selections included a lot of soothing music such as Debussy's *Claire de Lune* and other tone poems or descriptive numbers. Remarking on the beneficial effect of such pieces on the jangled nerves of humans, Fray digressed to give a few side-lights on the effect of such music on animals—unorthodox perhaps, but unusual and fresh in a disk jock (See Jacques Fray on page 12)

The old *World Security Workshop*, which went thru several changes in format during its tenure over American Broadcasting Company (ABC) most recently has experimented with a moot-court type of discussion show. ABC found this style so satisfactory that it has retained it permanently and changed the name of the program to *On Trial*. First in the new series was aired this week from Boston, utilizing personnel from the Harvard Law School Forum. The result was a lively and informative program, not quite as rough and tumble as the more argumentative moments of *America's Town Meeting*, but with fewer static periods.

The show was divided into seven periods in taking up the topic, "Should the United States Advocate United Nations Enforcement of the Palestine Partition?" A judge, one defending counsel and witness and one opposing counsel and witness comprised the participants. Each witness was given about five minutes of questioning by his own counsel and five minutes of cross-examination. Each counsel delivered a brief summation, and the judge instructed the jury (the listeners) about the factors to weigh in making up their minds.

The participants all felt keenly the roles they played, and obviously were sincere in their statements. Opposing counsels, in fact, both repeatedly interrupted the "unfriendly" witnesses' replies to their questions. Consequently, the program never lagged, and any listener interested in the topic to begin with must have found the treatment of more than average interest.

Arguments offered had the pro-enforcement team bring out the importance to the United Nations of carrying thru a joint decision, while the anti charged the playing of politics by American officials supporting partition. Apart from the merits of the arguments, the courtroom format was a neat, if somewhat pat departure from traditional debate or discussion program techniques. As a public service show, it rates a nod. Evidently operating on the theory that propagation is here to stay, WINS is airing this morning show for the maternal member of the family. Emcee Johnny Clarke makes with child-rearing hints and labor-and-money-saving ideas pertaining thereto, with two or three pop records sandwiched in. Tho the content definitely limits the show's appeal, Clarke's fluent, easy style made it a pleasant and informative 30 minutes. Besides stuff which producer-writer Barbara Will apparently dug up, Clarke also read extracts from articles appearing in magazines on the breeding and care of young 'uns. WINS has made special tie-ups with several publications, obtaining permission for broadcasting excerpts from their editorial matter. This reviewer, boasting no offspring, cannot pass on the efficacy of suggestions made, but the manner of presentation, at least, seemed to be the sort which would gain the ear of conscientious parents.

Besides the pop waxers dropped into the show, which generally features romantic ballads by male vocalists, each show also spots one record for the older kids in the family, consisting of a novelty number of the Spike Jones variety. The show is sponsored on a participation basis, with National Shoes taking the entire first 15 minutes of each program, while one Pepsi-Cola jingle enlivens the second half. Sam Chase.

FOREIGN MASTERS VS. BAN

For Petrillo

NEW YORK, Feb. 28.—An American Federation of Musicians (AFM) publicity release (based on an article by James C. Petrillo in the current issue of *International Musician*, union house organ), set some daily newspaper boys here hopping this week with the notion that a recording-ban peace was near. This, because the release stated that the AFM "stands ready to come to any agreement in its dealings with record manufacturers that will safeguard its members against mechanical competition."

Tradesmen, familiar with the background of the Petrillo ban, realized that the statement and text of the article were mere reiterations of a constant Petrillo position. Representing no evident decision to budge even one inch from AFM's desires to preserve its "unemployment fund" (a problem still snagged by the Taft-Hartley law) or collect payment for records used by radio stations, wired music, juke boxes, etc., the Petrillo article was seen as mere restatement of old aims as well as good public relation material.

Highlights of Petrillo's article indicated:

AFM's willingness to permit immediate manufacture of records for home use, provided they were not diverted to profitable use by radio stations, Muzak, juke boxes, etc. No suggestions offered, however, as to the method of such diversion.

"It is not the desire of the musician to stop or prevent the use of his work," Petrillo said. "The musician merely desires the means to regulate commercial exploitation of his work."

That AFM considered the recording problem unique in the field of technological progress because "neither the record nor the phonograph destroys the need for the musician."

Still the industry and technological progress were inexorably destroying both the art of music and the musician himself. This . . . "because of the failure of Congress, and of the courts, to regulate and restrict the commercial use of records."

"If recordings . . . go unchecked . . . a handful of musicians can supply the musical needs of the United States and Canada."

"Not even the cream of the profession, able to meet the most exacting musical standards, could exist by making records alone."

Victor Leads Way Skirting Barrier by Importing "New" Pop Wax Cut in England

MGM, Col, Musicraft Due To Follow Suit

By Joe Carlton

NEW YORK, Feb. 28.—Large-scale skirting of James C. Petrillo's recording ban thru the medium of foreign masters—which would be pressed and sold by major firms in this country—should become a reality at any moment. From indications it is almost a certainty that the RCA Victor Company, for one, will extend its coverage of "new" pop song material via platters cut in England for its His Master's Voice (HMV) affiliate in the Electric Musical Industries (EMI) group. Other firms such as MGM, Musicraft and possibly Columbia, which enjoy an affiliated relationship with EMI's Columbia and Parlophone labels, can be expected to follow suit where it is deemed necessary to get "on the hits."

Victor's move to use pop English masters must await approval of RCA's top brass, but it is believed that the company will okay the plan and present a pop-foreign-assist as representing no deviation from past policy. For years Victor's red seal label has been issuing a good part of its releases from English masters and at one time, in the pop sphere, put out a series of Ray Noble disks which were originally recorded abroad. In addition, Victor's position that nothing inconsistent with past policy is planned would include the argument that its foreign department long has provided for importation of masters from Cuba, South America, etc.

"Manana" and "Teresa"

Meanwhile, it is known that Eli Oberstein, Victor's artist and repertoire chief, already has on hand several English masters, among them two sides by Britain's Joe Loss and his ork featuring the American hit *Manana*, as well as the pop-plug, *Teresa*. In concurrence with expected technical approval, these probably will be issued by Oberstein back-to-back and would solve RCA Victor's problem in getting covered on sales-demand built up by the Capitol-Peggy Lee dinking of *Manana* as well as on the well-recorded *Teresa*. Capitol had cut its *Manana* disk just prior to the Petrillo ban, but copies of the song were too closely guarded for Victor to get in its own recorded version during the pre-deadline backlog race.

The Victor precedent for *Manana*, as soon as it actually develops, opens up a whole torrent of possibilities for music publishers here who have been looking for devices to get "new songs" exploited on major-label wax despite the Petrillo ban. Not only does Victor now offer potential for new-recording but a trend may develop which will see MGM take advantage of its newly launched MGM-English label abroad to bring masters back, while Columbia, which has long exchanged classical disks with its EMI branch much along the Victor-HMV set-up, may be expected to keep a sharp eye open.

Traders here also foresee in a possible mass disker movement after English masters big and curious future development of English song, publisher and artist functioning and dollar power. At a time when English-Decca boss E. R. (Ted) Lewis is spreading himself out in America via the London label and the British Musicians' Union (BMU) in England has refrained from committing itself on the American Petrillo ban, the idea of an American music biz moving thru England and relying on English performing artists to launch exploitation here of new tunes provokes some intriguing problems for Petrillo and the AFM.

BMU Will Welcome Biz

The BMU as well as the English government can be expected to welcome an increasing amount of native recording for the American market, not only as a desirable means for dollar-credit expansion but also as an important wedge for British performers and musicians, some of whom already have been denting the U. S. wax stalls via the London label route. The latter company, if Victor's new pop moves work out practically, may find itself in the unique position of relinquishing its "exclusive" edge in the American market, yet competing not with American talent alone but with fellow British artists on other labels.

At this stage no recording exec will hazard a guess as to the range of the foreign recording gimmick, pointing out that its possibilities are inversely proportionate to the chances of Petrillo's getting down to bargaining terms that can be worked out without recourse to Congress.

Against Petrillo

NEW YORK, Feb. 28.—The Industry Music Committee (IMC) wasted no time in offering a rebuttal to James C. Petrillo's statements in the *International Musician*. (See other boxed story on this page) this week.

IMC, representing broadcasters, record firms and e. t. companies, issued a statement saying:

"Mr. Petrillo's reply is not regarded as a genuine offer to bargain, because it apparently calls for an amendment of federal statutes, something which does not lie within the power of private parties."

"Regarding employment of musicians, Mr. Petrillo's statements are inaccurate. The findings of government tribunals and the statistics of Mr. Petrillo's own union show that recording has not lessened the job opportunities of the professional musician nor lessened interest in music. The contrary is the fact. The membership of the AFM is steadily and swiftly growing. More people are studying music today. More money is being paid to musicians than ever before. Musicians are getting higher wages than ever. Mr. Petrillo omits from the figures that he gives concerning employment by recording companies the large amounts which are paid to the band leaders who are members of his union."

"The union leader also claims credit for the distribution of \$1,500,000 which was exacted from the recording companies. He fails to state that this money was collected on the theory that it would be used to aid the unemployed. In fact, it was distributed among the locals of the union, in ratio to the voting power of the locals in electing the federation's president. Moreover, practically all of the money went to people who were already fully employed."

"The head of the union is still looking . . . for support for persons who earn their living in other fields and who also happen to be members of the American Federation of Musicians."

Continental in Majestic Deal

NEW YORK, Feb. 28.—On the strength of its Vaughn Horton dinking of *Tootie Oolie Doolie*, Continental Records may soon close a deal with Majestic Records' chain of over 59 distributors to handle the independent label, according to Donald Gabor, Continental's prexy. Majestic distribs were recently informed by its parent company (now bound by judicial provisions of the Chandler Act) that they could take on "non-competitive" lines.

Gabor says he's holding more than 11 applications from other distributors in abeyance until the Majestic deal is confirmed.

Band leader Horton, who also wrote the lyrics, embarks on a nationwide tour this week to plug the polka waxing with disk jockeys across the country.

N. Y. SYMPH, 802 SCALE

NEW YORK, Feb. 28.—After several weeks of negotiating, Local 802, American Federation of Musicians (AFM), and the Philharmonic Society of New York have reached an agreement on the union's basic scale demands for next season. Apparently working on a "principle" policy instead of dollars, 802 originally demanded a weekly scale raise of \$20 (from \$110 to \$130), with a \$112 bonus for this year. The society countered with an offer of a \$15 raise in April and a \$250 bonus for the long-haired boys. Charles R. Iucci, secretary of the local, today confirmed that 802 has accepted the society's compromise offer.

Dorsey Offers Promoters "1st Money" Deals; WM Pairs Disk Artists and Dance Orks

Drastic Moves May Salvage the Sitch

By Hal Webman

NEW YORK, Feb. 28.—An escape thru the horns of its own dilemma may be charted for band biz here, depending on results of two import-loaded ork and agency moves this week. In one startling gesture aimed at restoring one-nighter incentive to promoters who have had rough sledding with most bands during the past two years, name maestro Tommy Dorsey will set a precedent for top flight dance crews by offering his ork to promoters on "first money" deals. The other potential break for the ork biz as well as the promoter, is the new William Morris Agency (WM) pairing of top recording singles like Vic Damone and Francis Craig in

packages with lesser name bands at reasonable prices.

TD Guarantee Dropped

Most important — and to some tradesmen the conceivable answer to road woes—is the Dorsey "first money" proposition. Under the terms of such a deal the orkster does away with his guarantee completely. MCA has been instructed to submit TD for May and June one-nighters in the New England and Eastern territory under the following terms:

TD is to get the first box-office dollar up to \$1,500. The promoter takes out the next \$500. Above that (See DORSEY OFFERS on page 37)

performance monies was claimed; (2) the *Time on My Hands* ditty, where a 50 per cent share of same monies was claimed, and (3) an additional 11 copyrights agreements, whereby Youmans allegedly was to receive 50 per cent on some tune and 25 per cent on the others. The defendant had contended that Youmans had received payment for the performance of his music thru his writer's share of ASCAP monies, but the court took notice of contractual agreements for the publisher share.

Victor Switches Staff; Hendler Rejoins Firm In Camden Ad Dept.

NEW YORK, Feb. 28.—Herb Hendler this week rejoined the RCA Victor firm, in one of several waxery staff changes, to work out of the Victor Camden, N. J., headquarters as an assistant exec in the advertising department. He was formerly Victor's artists and repertoire man, later an exec with the Cosmo and Rainbow diskeries and until recently the wax promotion rep for Dinah Shore.

Other Victor changes placed John Coyle in charge of the firm's syndicate sales from his field representative post in Dallas. Coyle succeeded H. S. Clifton, who recently was appointed supervisor of Red Seal Sales activities. Coyle will be succeeded by Wayne Bennett, formerly with Straus-Frank, for the Victor distrib in Dallas. Robert Barnes, formerly with Buehl & Sons, Chicago, replaced George Fearnought, Boston field representative, who is joining the RCA Victor home instruments sales staff in Cincinnati.

Indications of how high the accounting of monies due Youmans may run are seen in the tremendous amount of performance credits chalked up by his copyrights since 1943. Estimating the average ASCAP pay-off per performance since '43 at about 19 cents (total Youmans performance credits are known to stack up at over 584,000) and the Youmans' percentages claim at about 40 per cent, the estate would be seeking to recover some \$45,000 in pure-performance dough. Since previous lawsuit precedent (*Palma vs. Sam Fox*) has granted similar claimants the same percentage for "availability" and "seniority" monies as was due for performances, accounting may push the total up close to \$100,000. Then, if other previous judicial precedent is repeated, accounting may provide for interest payments at the rate of 6 per cent for each of 15 years which would raise the total to about \$190,000.

Meanwhile, a new wrinkle may develop in the form of a claim by the estate that its share of the "availability" monies should exceed a percentage based on "performance" ratio. This, along lines of the argument that ASCAP itself recognizes superior "availability" for "lasting" copyrights in which category many of Youmans' ditties would be presumed to fall. Such an adjustment, if granted by the court, conceivably could lift the amount Miller might have to shell out to well over \$200,000. Altho no confirmation could be gotten at press time, it is understood that the Miller firm long ago had set aside a \$150,000 fund to meet the possibility of a successful claim's being pushed against the performance dough collected on Youmans' copyrights.

New Musicraft 475G Bond Issue Almost Set; Will Enable Debt Buy-Off, Leave 153G Cap.

NEW YORK, Feb. 28.—Musicraft Records this week informed deferred creditors that back liabilities will be paid off beginning Monday (March 1) at the rate of 25 cents on the dollar. The diskery also has received verbal agreement from the Internal Revenue Department on a plan to pay off at the same rate some \$160,000 in excise taxes due. According to plan, diskery should knock out its total of \$587,000 indebtedness inside of four months at a cost of \$322,000 (which includes full payment on a \$200,000 debt to the Marine Midland Bank, stemming from the diskery's initial refinancing last June).

Jack Meyerson, Musicraft prexy, declared that 90 per cent of the firm's deferred creditors had okayed the 25 cents on the dollar pay-off. He felt that approvals on the remaining 10 per cent would be forwarded shortly and averred that these represented only a minute portion of the accrued debt. All music-publisher and most of the artist creditors have fallen in line with the plan.

Buck To Handle It

Richard Buck & Company will handle payment of the debts, acting as trustee for the diskery. Under the terms of the agreement made with creditors, if the average payment of

deferred liabilities comes out higher than the 25 per cent payoff (pending settlement with the 10 per cent of the creditors not yet aligned with the plan), then the creditors will be entitled to the difference upon making a claim before July 1.

Pulling the strings on the second phase of its refinancing plan together, the diskery is on the verge of completing new registration with the Securities & Exchange Commission (SEC) for the firm's proposed new \$475,000 bond issue. Nearing completion, too, is finalization of the underwriting of the bond issues with Warren York Associates Accounting for \$275,000 first-lien bonds and Atlas Corporation assuring coverage on the \$200,000 second-lien bonds.

With the \$475,000 figured to come into the diskery's coffers in the next few weeks and with the creditors (including the government) pay-off totalling roughly \$322,000, Musicraft figures to be left with some \$153,000 in fresh working capital on top of being current with creditors.

Meanwhile, Musicraft sales exec Ollie Sabin, currently on a nationwide biz trip, this week signed four new distrib (in Memphis, Kansas City, New Orleans and Denver), bringing the Musicraft network total up to 32.

Combos Rescue Coast Agents; Sad Band Biz Dictates Shift

(Continued from page 3)
 exception of Los Angeles, where location dates appear a bit on the upgrade.

Drive To Sell 'Em

Agency execs admit that the cocktail combo biz is nothing to write home about, but with a drive to sell as many units to a wide variety of spots, a commission house can remain in the black. Prices offered cocktail units are down as much as 50 per cent, for any but top bracket name combos. Many units are working for scale—and glad for the chance. To keep ops happy and guarantee repeat biz, agencies are avoiding the "I'll give you three musicians" type of salesmanship, and are making an effort to develop worth-while combos which can make a buck for the op.

Deadwood Pruned

First step in the combo sales drive has been to prune agency stables of deadwood, holding on to name combos as much as possible and ditching mediocre groups who were easy to peddle only during war. William Morris Agency, for example has considerable fewer small combos under contract. Music Corporation of America (MCA) cut its stable by some 20 outfits during the past six months, and is currently concentrating on peddling a relative handful of top outfits. Moreover, MCA now has an all-time high of eight Hollywood office men selling combos. This includes five full-time cocktail men and three big band peddlers who also handle smaller units. Added sales push has paid off, according to an MCA spokesman, who claimed the firm is plenty ahead of last year in cocktail sales. Significant also is fact

that MCA has reached far into the hinterlands for biz, something the agency didn't think worth the trouble during lush years. The booking behemoth now services small spots in such far off locations as Billings, Mont., Pocatello, Ida., and other relative whistlestops. Spokesman pointed out that MCA will go after the biz wherever it is, even if it means selling a single or two-man unit in the sticks.

New Package Gimmick

General Artists Corporation (GAC) is attempting new packaging gimmick to sell its combos, according to Booker Harold Jovien. Agency is offering to build special name combos for sale with a featured vocalist, to give buyer more for his dough. For example, GAC now has the Ernie Felece Quartet backing up thrush Virginia Maxey, as a straight deal. To peddle Frances Wayne, outfit built a trio around arranger Neal Hefti. Percentagery argues that the op gets better deal, and agency gets more dough, plus a crack at percentage deals.

Tele No Worry

Television, heretofore a disconcerting note in larger cities, no longer worries agency men. Bookers feel that spots reverting to tele were never great talent buyers in the first place. As for more important combo locations, video means nothing until programming matures. Moreover, since tele entertainment ends in early evening hours, a spot still needs entertainment to keep the club humming until closing time, which means a combination of video and live talent are both essential to paying operation.

Disco, Standard To Swap Disks

NEW YORK, Feb. 28.—Among the significant American-foreign diskery deals, which have been developing in increasing number since shortly after the war's end, is the arrangement concluded this week between Standard Phono here and Disco Trade of Brussels, Belgium. Standard, long among the top firms in the international record picture in this country, will exchange masters with the Brussels plattery which also has an extensive international catalog numbering some 1,200 masters in French, Yiddish, all the Scandinavian languages and a solid chunk of American hot jazz items.

The pact is for 10 years and calls for a straight exchange. Standard will send sample recordings of its new releases to Disco and vice versa. Each company then selects the numbers it wants, and the firm on the other end immediately air freights the masters of the required items. Standard will press Disco stuff here, and Disco will manufacture Standard items in Brussels. Disco products here will bear the Standard label, and the Standard stuff abroad will be issued under one or both of Disco's two labels, Magic and/or Victory. Disco has rights to Standard disks for Holland, Belgium, France and Luxembourg, while Standard holds U. S. rights on Disco's material.

The first releases of Disco stuff under Standard aegis here will be three Yiddish platters, while Disco is planning to release Standard's *Too Fat Polka* and four albums abroad. Standard Prexy Tedos Demetriades and General Manager Joe Scovell are now cooking up other foreign deals to supplement the Disco arrangement.

Kenton May Pull A BG and Solo With Philharmonic

NEW YORK, Feb. 28.—Negotiations are underway between Daniel Rybb, founder and director of the Carnegie Hall pop concerts and orkster Stan Kenton for the latter to play solo piano with the New York Philharmonic as part of this year's pop series. Plans should be concluded Sunday (29). If the date is set it will be booked some time late in the pop series which starts May 1 and runs for five and a half weeks.

Meanwhile, Kenton is reportedly penning an original composition for jazz piano and symphony ork which he will introduce at the session. If the piece is well received, the 88-er intends using it on other concert dates thruout the country.

Ernie Anderson's one-night concert tour, featuring Billie Holiday, will be launched Easter Sunday, March 28, at Boston's Symphony Hall, with the city's local disk jockey, Sherman Fellers, acting as emcee and sharing in the take.

Four Vie for Local 77 Helm

PHILADELPHIA, Feb. 28.—Election of officers this spring at Local 77, American Federation of Musicians (AFM), promises a free-for-all scramble for the presidency. Already three tickets have been set up against incumbent Frank A. Liuzzi, who will seek another term. Two former presidents, John Colaprete and Romeo Cella, along with Charles McConnell, former contractor of the Earle Theater pit orchestra, are the candidates.

Dear Art:

I want to go on record stating that SAM DONAHUE and his Orchestra are the greatest attraction ever to play the Club Kavakos. The band broke every existing record at the club and proved that by pleasing the patrons and working with as well as for a club, a band can draw better than capacity.

You can set a repeat date for Sam Donshue at the Kavakos Club at any time, but I would like to bring him back as soon as possible and for a lengthy engagement.

AFM Puts Circle, Indianapolis, on Its Unfair List

CHICAGO, Feb. 28.—The Circle Theater, Indianapolis movie house which played occasional vaude shows, this week was placed on the American Federation of Musicians' (AFM) unfair list, following failure of reps of the Monarch Theaters of New York, who operate the house, to meet demands of the Indianapolis AFM local.

Rift developed three weeks ago, when the musickers' local notified the Circle that the house would have to utilize a stand-by band during the week of February 19 when a stage bill comprising Jerry Murad's Harmonicats, Tim Herbert, the Bunin Puppets and Harry Cool's ork, would appear there. The AFM order, a theater spokesman said, came as a surprise, for since the passage of the Taft-Hartley bill the theater has played two package shows with road orks, and had not paid the stand-by fee. Up until the AFM notification on the Harmonicats package, theater reps said they had not received a demand for a stand-by ork from the union.

Stand-by ork, with salaries approximately \$811.25 per week, previous to last week's AFM demands, hadn't turned up at the theater, a house spokesman said, but the new union order carried a clause indicating that the local-staffed band would be at the house and demand that it play at least an overture.

The theater asked the union if the show might be played providing the stand-by ork salary were put in escrow, pending a hearing by the National Labor Relations Board. However, the local refused and the Circle notified acts and the Cool band

Olsen, Howard Bid To Pay Studio for Their Own Masters

NEW YORK, Feb. 28.—Two Majestic artists, George Olsen and Eddy Howard, have contacted the recording studio where they cut masters for Majestic prior to the ban, suggesting that they themselves pay for the masters they cut, according to an authoritative source who stated that Majestic is still in arrears to the recording studio.

Olsen, it was learned, has tried to have Majestic restrained from picking up his masters from the studio, but was told that under Chandler Act regulations no disposition can be made of any Majestic wax, which is listed as an asset in the Majestic assets and liabilities sked presented to the court.

Pinsky Heads RCA Sales

PHILADELPHIA, Feb. 28.—Edward Pinsky has been appointed RCA Victor Records sales manager for Raymond Rosen & Company, Inc., in the Eastern Pennsylvania, Southern New Jersey and Delaware territories. Pinsky joined the wholesale distributing firm in 1928 as an office boy. He headed the Rosen record department from 1935 to 1940 and, more recently, acted as the company's field sales representative.

NEW YORK, Feb. 28.—Henry Jerome's ork is booked into the Green Room of the Hotel Edison here to fill a nine-day gap between Claudia Carroll's closing and the Alvy West-Buddy Greco opening on March 26.

that it was dropping its vaude shows until a deal could be worked out.

MGM Wax-MGM Pic Promotion Ties Set; Lobby Plugs for Wax

NEW YORK, Feb. 28.—Long expected sales-promotion, tie-in between MGM diskery and theaters owned by parent Loew's, Inc., film interests, has begun locally. Reportedly the waxery-theater exploitation drive will spread outside the New York area. The firm's execs currently are reticent to discuss the extent of the theater newspaper and lobby disk promotion, terming it an "experiment" which has yet to prove its potential as a wax-promotion gimmick. Rumors that the promotion gimmick would eventually lead to direct lobby sales of MGM platters of MGM film songs were denied by waxery execs who felt such a practice would stir friction between the firm's distribs and neighborhood retail outlets.

"Good News" Album

Local theater-movie promotion has been centered around the waxery's *Good News* album which features original film cast and sound track excerpts from the MGM *Good News* film. Daily Loew's circuit newspaper ads refer to the MGM album along with mentions of the film. Outlying Loew's houses are using lobby-display posters heralding the *Good News* pic music and the waxery's album of the flick's tunes. Other Loew's newspaper ads have plugged the diskery's waxing of *The Dickey Bird Song* featured in *Three Daring Daughters* current at the Capitol Theater here, a Loew's house.

Additional promotion devices employed on the *Good News* album includes the use of special window displays in retail disk shops in the immediate vicinity of a theater skedded to play the film.

Stress on Albums

Altho the diskery's promotion may extend to MGM-waxed music from non-MGM pic scores, heaviest promotion will be poured onto the diskery's screen track albums. Next due for release are packages built around the score of *The Pirate*, with picture stars Judy Garland and Gene Kelly in the wax version as well, and *The Kissing Bandit* flick with Kathryn Grayson (in the pic) and Johnny Johnson (singing Frank Sinatra Songs) in the album.

Meanwhile MGM diskery this week topped the million mark for the first time in its less than a year of existence with the Art Mooney *Four Leaf Clover* waxing. *Clover* had gone 1,080,000 at last reports and was still climbing as the week ended.

Philly Whelan's Now Sells Wax

PHILADELPHIA, Feb. 28.—Whelan's drugstores becomes the second major drug chain here to enter the retail record business, causing no little concern to the regular retail record shops. For more than a year, the Sun Ray Drug Company has been operating record and radio departments at its key stores most successfully. This week, Whelan's opened its first record department at its largest store in the center of the city at 13th and Market streets. As a come-on, first customers were offered a special in a 79-cent record album for 39 cents.

Opening of a disk counter at Whelan's promises heavy competition at that particular downtown corner. Directly across the street is a giant Sun Ray drugstore where records are sold, and several doors away is the High Point Record Shop. On still another corner is the John Wanamaker department store, which does about the biggest record biz in town. Whelan's expansion of the record depots to other stores after this initial try will make for serious competition to other music shops, particularly those in the downtown shopping district.

Ads Alone To Plug a Tune

NEW YORK, Feb. 28.—In the first large-scale attempt ever made to put a song over with an advertising campaign alone, w.-k. concert promoter, agent and ASCAP composer Harry Squires is launching an extensive ad and direct-mail campaign this month to plug his new pubbery's first number, *If That's the Way You Feel About Me*.

Squires formed the Irving Arthur Publishing Company (named after his two sons for whom he wants to build a business rather than an agency) after the recording ban went into effect and has been unable to push his tunes thru regular disk-exploitation channels. He conceived his present scheme as a necessary experiment.

With lead sheet ads breaking in the trade press this week, Squires will follow up with a national advertising campaign in 53 daily newspapers, including *The New York Daily News* and *The Chicago Tribune*, with a total circulation of 31,000,000. At the same time he will hit retailers, jobbers, the trade and selected consumer groups via direct mail. Total expenditure in this unique song-publishing plan will go over \$10,000.

The trade will be watching the Squires' move with considerable interest, since it has been an accepted precept among pubbers that newspaper ads do not sell sheet music copies.

Romm Expands Agency Activity

NEW YORK, Feb. 28.—On top of his recent excursion into the motion picture field, theater booker Harry Romm's activities blossomed even further with the acquisition this week of artist rep Jack Lenny to assist with the Romm Agency's booking.

Romm leaves for the Coast March 5 (immediately after the Tex Beneke opening at the Capitol) to begin production on his first Columbia pic and line up several Hollywood personalities for Easter p.a.'s during his stay in California.

Meanwhile, Romm has re-signed Irish crooner Phil Regan, who left him eight months ago to go with the Music Corporation of America. Regan begins a two-week engagement at the Olympia Theater, March 3, in Miami, where another Romm client, Connee Boswell, is now doubling between the Olympia and the Brook Club.

Other current bookings for the Romm talent stable include the Bob Chester ork and the Clark Sisters who go into the Rajah Theater in Reading, Pa., April 1, their first theater appearance.

Romm also handles theater dates for the Andrew Sisters, the Three Stooges, the Hoosier Hotshots, Tex Beneke and Jerry Colonna, and is in the process of lining up a summer tour for the radio comedian's 13-week lay-off period.

Lenny's own clients (now part of the Romm set-up), include Sherry Britton, the Stagg McMann Harmonica Trio, Betty Jane Smith, Jimmy Burrel and the Dunbills.

CANADA'S TOP TUNES

Songs listed are sheet music best sellers in Canada. Listing is based on reports received from the two largest wholesalers in the dominion, Canada Music Sales and Gordon V. Thompson. Since both firms are also American publishers' representatives and publish songs themselves (and consequently push different songs), The Billboard presents the song titles and the sales rank order in which each of the two firms rate the song. In other words, while the No. 1, 2, 3, etc. songs as listed by Canada Music and by Thompson may vary, the full list does represent the tunes which are selling best in Canada.

THE BILLBOARD PICKS:

HEARTBREAKER Ferko String Band.....Palda 109
Aqua String Band.....Mercury 5119
Milt Scott Ork & Chorus.....Universal U-101
Jerry Wayne & Dell Trio.....Columbia 38150

These disks capture the simplicity and string band community flavor of the "Four Leaf Clover" smash, particularly the Palda platter. Formula the same for the new ditty (banjos and chorus chanting) except on the Columbia platter where trio prevails neatly.

BABY FACE Art Mooney and Ensemble.....MGM 10156
Still another "string-bandish" item is the Mooney follow-up to his big "Clover" disk. Material not as strong as predecessor but should sell strong in its own right.

CRYING FOR JOY Dinah Shore Columbia 38114
Monica Lewis-Russ Morgan Ork.....Decca 24334

Has the makings of a hit. Billy Rose has fashioned a superior lyric to a fine melody penned by the late Jimmy Monaco. Dinah's capable tonsils fondle the lyric in respect to its merit. Lewis gal's styling is much like the Memphis thrush and features "sweet" Russ Morgan orking.

RATINGS (100 Point Maximum)

90-100 TOPS • 80-89 EXCELLENT • 70-79 GOOD • 40-69 SATISFACTORY • 0-39 POOR

How Ratings Are Determined

Records are reviewed three times: (1) for retailers; (2) for operators; (3) for disk jockeys. Each time on the basis of nine key categories. Each category is assigned a maximum number of points within which new releases are rated. The best possible rating is 100. Maximums are subject to change, depending on results of a survey of the music trade now being conducted. N. S. indicates a record is not suitable for appraisal within the market.

The Categories

Point listings are maximums. Song calibre, 15; interpretation, 15; arrangement, 15; "name" value, 15; record quality (surface, etc.), 5; music publisher's air performance potential, 10; exploitation (record adv't'g-promotion, film, legit and other "plug" aids), 10; manufacturer's distribution power, 10; manufacturer's production efficiency, 5.

Album Reviews

Week Ending February 27

The large boldface number in each review is the retail rating. This rating is based on nine key categories, each of which is assigned a maximum number of points. (The best possible rating is 100.) Maximums are subject to change depending on results of a survey of the music trade now being conducted.

Suitability for juke box operators or disk jockeys is indicated in boldface comment under the separate headings within each review.

KHACHATURIAN: MASQUERADE SUITE 88

Leopold Stokowski-Philharmonic Symphony Ork of New York (Columbia MM-729 (3-12" Records)

1. Waltz; 2. Nocturne; 3. Mazurka; 4. Romance; 5. Galop and Ippolitov-Ivanov: In the Village.

The American appetite for Aram Khachaturian whetted on his "Gayne Ballet Suite" and the "Sabre Dance" excerpt, much consumer curiosity will be stimulated by the Columbia follow-up with the "Masquerade Suite." The fringe popular-classic buyers will discover, however, that this is Khachaturian, the Russian, brooding, colorful, nationalistically melodic; not the Armenian, swirling, rattling and temperamentally heady. Only the "Galop" portion of the suite rings out what presumably is the popular Aram. This is not to the detriment of "Masquerade"; even if the public suffers initial disappointment the exploited appeal of "anything by Kachaturian" should carry reaction thru to the better values. These are present, make no mistake, altho Stokowski's first Philharmonic affiliation does less justice to the composer than the conductor has rendered earlier for other Russians.

JUKES

JOCKS

Longhair disk programs can use this.

BING CROSBY SINGS WITH MARY MARTIN, JUDY GARLAND, JOHNNY MERCER 88

(John Scott Trotter Ork-Joseph Lilley Ork-Victor Young Ork) (Decca A-631)

Lily of Laguna, Wait Till the Sun Shines Nellie, You've Got Me Where You Want Me; Yah-Ta-Ta, Yah-Ta-Ta; Mine, Connecticut, Mister Meadowlark, On Behalf of the Visiting Firemen, Mr. Crosby and Mr. Mercer, Small Fry.

Second in series of Decca packages with triple-talent peg featuring der Bingle's former vocal wax compatriots. All disks are former single releases but album as a whole should appeal to all who are Crosby fans (who ain't). Particularly valuable, and as rhythmically appealing as when they first came out are the Mercer team-ups with Gallagher-Shean version of "Mr. Crosby and Mr. Mercer"; "Small Fry," "On Behalf of the Visiting Firemen." In fact whole album sparkles with the xairy, wunnerful Crosby touch.

JUKES

Always a buy.

JOCKS

Gotta have this.

VOCAL-LOVELIES 48

The Mullen Sisters (Tony Mottola Ork) (Victor P-194)

Time On My Hands; Standin' in the Need of Prayer; The Moon of Manakoor; Frances; The Kerry Dance; Empty Saddles; Basin Street Blues; Carioca.

Lots of versatility in tune choices, harmonized in pleasant but hardly unusual fashion by the fem vocal trio. Instrumental backing by a Tony Mottola-led group helps to give this package some of the spark it otherwise lacks. These disks could probably have fared far better as individual releases rather than in the package form. "Carioca" is Mottola group instrumental done neatly, unexcitingly.

JUKES

"Time," "Frances," "Basin" worth a whirl.

JOCKS

To program the tunes, these versions are adequate.

RAVEL: PIANO CONCERTO FOR THE LEFT HAND (2-12") 80

Robert Casadesus-Philadelphia Ork-Eugene Ormandy, Dir. (Columbia MX-288)

This is off-the-beaten track stuff written in the modern classical spirit by one of the leading modernists. Basically the concerto is a series of exercises for a one-armed pianist which most pianists would find tough to perform with both hands. Casadesus shows off all of his reputable technical brilliance in the waxing of the brief and difficult Ravel concerto. Eugene Ormandy provokes the full measure of intensity which an ork must put into the single movement of the work.

JUKES

JOCKS

Longhairs should like this is a specimen of the unusual.

IT'S A GREAT DAY FOR THE IRISH 60

George Murphy (Jeff Alexander Ork) (MGM 19)

Where the River Shannon Flows; It's a Great Day for the Irish; It's the Same Old Shillelagh; MacNamara's Band; The Wearing of the Green; Sweetheart Darlin'; Danny Boy; Dear Old Donegal.

Another MGM standard catalog filler destined for the St. Patrick's Day demand. In its favor are the familiar Irish selections, the movie name value of George Murphy and some smart vocal quartet (un-billed) and Jeff Alexander ork backing. Murphy, as a singer, does best on the screen. He simply doesn't project on wax. But he delivers the words and melodies so that they're readily identifiable.

JUKES

Some sides suited for seasonal spins.

JOCKS

For Murphy name value worth a spin — especially for St. Patrick's Day.

ROMAN SINGERS OF SACRED MUSIC (3-10") 66

Roman-Vatican Choir (Rt. Rev. Msgr. Licio Refice, Dir.) (Seva 19)

Incipit Oratio Hieremiae, Parts 1 and 2; Caudent in Coelis; Amavit Eum Dominus; Exultate Justi; Ave Maria (Bach-Gounod) This is a neatly packaged album of full-bodied religious choral by the 54 voices of the visiting Roman-Vatican Choir. Well-chosen selections, good recording and fine performance are hampered commercially by the limited counter appeal of church chorals. But for whatever market exists in the religious field, particularly around Easter, this album should do very well with proper merchandising. Packaged in the box-type album with sleeves.

JUKES

N. S.

JOCKS

For religious shows on both AM and FM a must.

CELTIC GEMS (3-10") 62

Frank Saunders (Apollo A-12)

She Moved Through the Fair; Believe Me If All Those Endearing Charms; Ballynure Ballad, Bonny Wee Mare; Glory O... Glory O; Molly Brannigan; Druncolligher. Charming is the proper word to use for description of the selections and delivery of them in this collection of Irish folk songs. Saunders, set on the commercial way by Arthur Godfrey, sings in a thin tenor voice with plenty remnants of the brogue lending authentic flavor to his delivery. These lesser-known selections will require adroit salesmanship even around St. Patrick's Day. Simple green cover. Simple but adequate organ backing for Saunders.

JUKES

N. S.

JOCKS

Especially fitting for St. Patrick's Day shows, but suitable for "something different" department as well.

KEYS TO ROMANCE 70

Buddy Cole (Capitol BD 63)

The Moon Was Yellow, Easy To Remember, This Is Romance, Sophisticated Lady, S'Posin', Orchids in the Moonlight, I've Got the World on a String, Cheek to Cheek.

Cole's third album for the Capitol label features a grouping of favorite ballads with accent on dreamy 88-ing. His styling for the most part is straight and subdued, stepping out a bit on "Cheek to Cheek." For the tango "Orchids in the Moonlight" the 88-cr weaves a slow delicate rhythm picture that's first rate. Album on the whole adds up fine for the sigh trade. Album covers photo montage (wisp dancing couples and piano keyboard) very pretty.

JUKES

Dim light locations might like.

JOCKS

All good for individual program change or as package.

**Don't Fool With Phil: The Moral
Of Spitalny's Charmed Life With
Charm Wax; Whizbang Exploiting**

(Continued from page 4)
N. J., and the Sonora plant in Norwalk, Conn. The album itself (artwork, binding, etc.) cost Charm 24 cents each. Add roughly, another 12 cents for shipping, packing, trade expenses, etc., and the total cost per album (excluding session cost) hits some 91 cents. The package sold to dealers for \$2.31 and to the consumer for \$3.85.

The overhead, obviously, is another and an important item, but in the case of Spitalny's Charm, a difficult one to figure. Charm's offices were Spitalny's Park Central Hotel suite (where he has lived for years). Charm's staff, en toto, was Spitalny himself, and a couple of girls from the band (Betty, a vocalist, and Mildred, who plays the tuba). Betty and Mildred doubled out of the band as secretaries, stenographers and general gals of all work. An occasional staff assist was tossed in by Evelyn (featured violin and Mrs. S) and Harry Squires, who has handled booking of many a Spitalny tour.

That was the staff, and Spitalny decided to do all selling, promotion, advertising, publicity, etc., himself. No distributors, no sales staff, no nothing. The Carols package was released in September, practically concurrent with an Hour of Charm concert tour. Spitalny had fliers plugging the album (and containing an order

coupon) printed and inserted in the programs distributed at each of the 24 concert dates. Cost, maybe \$500.

Department Store Sales

Where possible (and it often was), a plug for the album would be worked into the concert routine. But most important, in each of the 24 cities played (Detroit, Cleveland, Chicago, Philadelphia, Washington, Milwaukee, Montgomery, Ala., etc.), Spitalny personally made sales calls on department stores, record shops, etc., and sold the album. Typical of the type of accounts sold and number of albums eventually sold by each (note how towns coincide with those made on tour) were: Macy's, New York, 7,216; Macy's, San Francisco, 2,012; Gimbel's, New York, 5,056; Gimbel's, Milwaukee, 2,000; Bamberger's, Newark, N. J., 2,716; Higbee's, Cleveland, 500; Goldblatt's, Chicago, 3,000; Hochsul, Kohn, Baltimore, 1,208; Halle Bros., Cleveland, 1,000, and Montgomery Fair, Montgomery, Ala., 496. All these albums were sold on a non-returnable basis.

In October and November, however, Spitalny kicked off his advertising drive in earnest. In that two-month period he bought four full-page black and white ads in Life. Space cost, \$15,225 each; total cost (including artwork, cuts, copy, etc.) closer to \$18,000 each, or \$72,000 for the four. In addition to these, he ran one full-page black and white ad each in the New York Times magazine section (space cost \$2,810; full cost, \$3,500) and in the American magazine (space cost, \$5,500; full cost, \$7,000). In advertising in national media, this single item diskery sunk some \$82,500. But Spitalny wasn't just selling albums on his store calls. He got his Charm item at least another \$100,000 worth of advertising for free thru large-space local newspaper advertising placed by stores such as Jordan, Marsh, Boston; Abraham & Straus, Gimbel's and Macy's in New York; Woodward & Lothrop, Washington; Goldblatt's, Chicago; Hecht Company, Washington; Higbee, Cleveland, and Kaufman's, Pittsburgh. All this consumer plugging was supported by 15 consecutive weeks of trade paper advertising, paid for by Charm and bringing the diskery's own ad nut up close to \$100,000.

Additional personal selling effort was put out by the maestro from his New York Park Central headquarters via long-distance phone calls to stores all over the country.

Indicative of the kind of selling job the ork fronter did is the sale of 1,000 Carol packages he made to Wyman's in South Bend, Ind. A letter from Elsie Eldrege, president of the shop, tells it all. It says:

"When you proposed your Christmas Carol album to me for sale in my store, I was a little in doubt as to whether we could sell it, since we have no record department. But after your explanation that this could be sold as a gift item—the same way we sell all other gift items—it sounded very good to me.

"The fact that we have sold 1,000 of these albums in such a short time pleases me greatly; and we are very interested in promoting your new album, entitled To My Mother, as a gift item, also. I feel sure that we can sell it every day as a birthday gift for mothers, as well as special holidays, such as Mother's Day, Easter and Valentine's Day."

Spitalny won't talk about the total number of Carol albums he has sold, but when a South Bend gift shop (sans record department) moves 1,000, that's a pretty fair sign, and Spitalny says he is setting up production plans to sell a million of the packages next Christmas season.

When he launched his To My Mother six-sided package, however, he decided to switch to a distributor set-up to achieve his sales. Not, says Spitalny, because he figures they can do so much better than he himself can, but because the pace is getting a little rough. He has already lined up six distributors. He intends, however, to put the same kind of advertising push behind Mother as he did behind Carols. The current Life carries a two-color half page, and the April 19 issue will carry a four-color full page, as starters.

Another wrinkle employed by Charm is a questionnaire postcard enclosed in each Carols album, asking the purchaser to indicate which song in the album he liked best. On the basis of tabulation of the thousands of such cards returned, Spitalny figures to re-issue the two most popular sides as a single disk.

Spitalny has some 28 sides lying in vaults, which he will issue piecemeal when the drive on Mother is completed. Most of these will be albums, but there will be a few single sides.

Charm has worked not only as an enterprise, but it has resulted in hypoing the royalty checks Spitalny gets from Columbia for the album of hymns he made for them several years ago. This week he got a check for the last quarter for some \$3,900, practically double any previous Columbia quarterly royalty payoff.

Dorsey Offers Promoters "1st Money" Deals; WM Pairs Disk Artists and Dance Orks

Drastic Moves May Salvage the Sitch

(Continued from page 16)

the orkster and promoter split 60 per cent (for TD) and 40 per cent (for the op) of the next \$500, 65-35 of the next \$500 and 70-30 on everything above a \$3,000 gross. The orkster demands control of the admission price in order to keep it at a low enough level to induce attendance and also must be assured of a minimum requirement in advance advertising and publicity.

If the orkster should drop an egg under such terms, the promoter would be hurt for no more than the cost of advertising, publicity and hall rental (in the event the promoter doesn't operate regularly in his own ballroom). Therefore if Dorsey should gross \$750 under this deal, he could take out only the \$750 and no more. But the orkster will be guaranteed one-night scale for his band in any event covering him on the date for any loss except transportation costs. He also figures to win promoter good will by not subjecting the op to the \$2,000-and-up guarantee which Dorsey received prior to his current six-week vacation.

Break in Controversy

The "first money" move by Dorsey is the initial break in the long raging promoter - agency - artist controversy over top-heavy name ork prices. Since one-nighter biz began to feel the post-war pinch, promoters have bellowed long and loud about overpricing of orks. Prices on the lesser named bands have consistently been coming down but most of the bigger ork attractions have been retaining the \$2,000 to \$3,000 per night guarantee against percentage tag. Altho these top priced ork attractions frequently afford them the opportunity to make a buck, the promoters contend that the heavy pay-off cuts their profit potential thereby endangering their capital outlays for future promotions. And in the event the heavy-sugared orkster happens to lay an omelet the beating can be severe enough to cut down on future promotion expenditure.

Some non-MCA one-night bookers feel that Dorsey's trail blazing, if successful, could well become the stimulus the dance promotion biz has been seeking. They feel that if Dorsey proves that money can be made on the "first money" gamble, then other top orksters would be willing to fall in line and open the way for promoters to really promote.

Incidentally, the "first money" type deal is not an uncommon band biz practice. But its use usually is confined to hastily picked up dates with lesser attractions and has never before been used as basis of submission for dates well in advance.

The William Morris one-nighter promotion gimmick, altho not an entirely new practice, nevertheless may help promoters who cut down their operation on grounds that dance music alone is no longer box office. At the same time, the agency, in pairing name recording single with a medium priced ork, paves the way for its lesser named properties to get a crack at some road loot which, under current road conditions, probably would not have come their way. WM currently is offering one package centered around warbler Vic Damone, who will travel with either Hal McIntyre's or Dean Hudson's ork, while a second teams up Francis (Near You) Craig with the Les Elgart ork.

Harmonicats

Another instance of name wax talent working the ballroom promotion circuit is the Harmonicats who have just begun to do a one-nighter series in the Midwest with local orks on hand to supply the dance music. This offering gives the op a solid local promotion angle for tie-ins with disk jockeys and local retail disk shops and a stronger box-office name selling factor.

The eyes of the ork biz will be focused on the Tommy Dorsey "first money" deal and the disk artist-dance ork package deals. Band biz's future may well hinge on their success or failure.

Mary Kay and Johnny

Reviewed Tuesday (24), 7:15-7:30 p.m. Style, dramatic; sponsored by Jay Jay Junior, via WABD, New York. Producer, Johnny Stearns; director and technical director, Frank Bunetta; audioman, Tom Batson; videoman, Jack Falato; cameramen, Ed Bezarez, Barry Shear; commercial announcer, Howard Fisher; model, Pam Rogers; cast: Johnny Stearns, Mary Kay Stearns, Howard Fisher.

This program comes close to being a model tele show. In detailing the adventures, mainly domestic, of a young married couple, Johnny and Mary Kay Stearns have come up with charming and fresh material, which always takes into consideration that there are cameras taking everything in. It is to be regretted that, after 16 successful weeks on the air for Jay Jay Junior gowns, the sponsor was forced to cancel, following the airtel reviewed, due to the closing of his season. However, DuMont execs, much impressed over the mail pull of the opus, are retaining it on a sustaining basis until another bankroller hoves into sight.

One major objection must be made, however. At times the show got just a bit too cute, Mary Kay squealed a bit too much, her voice broke a little too frequently and her spouse's scripting had a tendency to fall into the dreary old tolerant-husband-with-dumb-wife pattern. None of this is inherent in the show or necessary. The duo had the cleverness to come up with funny situations and good sight gags and didn't have to fall back on pat, corny devices. That a good domestic show can be better without such business is proved daily by radio's *Ethel and Albert*. The stanza caught was built around the inevitable routine on the dinner visit by the boss and his wife.

Camera Work Fair

Camera work was fair, tho not too imaginative. Some angles were poor, seeming to foreshorten Mary Kay's body and projecting her considerably plumper than she actually is. Performers bore out their legit backgrounds by some excellent thesping, with the exceptions noted.

Commercials, which opened and closed the show, also were excellent video examples. A comely model exhibited samples of the sponsor's dresses, with the camera picking up features being described by announcer Howard Fisher. For the female viewers, a commercial of this sort should have considerable appeal. For the male viewers, the same can be said of the model. Nobody loses.

Sam Chase.

JUNIOR JAZZ

(Continued from page 14)

unplayed. And apart from the fact that their intonations and nuances make for ear nuisances, this is one musical race where the boys definitely don't finish in a tie.

Rose, in stepping before the camera to introduce each selection, is just as awkward in presence and appearance as the tootlers themselves. Even the drummer boy must have swallowed his gum when it came time for his solo. Moreover, Rose is as much at a loss for words as the boys are in making music.

The visual appeal was just as bad and distorted as the audio. The musicians are huddled together in the corner of the studio, and when the camera tries to get a close-up of the trumpeter's soloing, the trombonist's elbow shows up best on the cathode.

For the sign-off, Rose pays off the boys with a record album by drum beater Sid Catlett and boogie-woogie 88-er Pete Johnson. It was a serious mistake not to play the records, instead, in the first instance. Bad enough that this bit of amateurity sets back television; it also sets back the cause of hot jazz, for which no devotee can forgive.

Sunshine Sportsmen's Show

Reviewed Friday (13), 8:55-9:10 p.m. Style—Sports talk and movies. Sponsor, Barbey's Inc., Reading, Pa., Station WPTZ, Philadelphia. Agency, Gray & Rogers, Philadelphia. Directed by Herbert Horton.

Skedded the quarter-hour before Gillette brings in the boxing matches from New York, and aimed solely at the male audience in behalf of Premium Sunshine Beer, this *Sportsmen's Show* has the week's maximum video audience to satisfy. And it's largely due to the generous use of sports newsreel film that it makes for an easy breezer before the pugilists start in with their punching.

Atmosphere is established easily enough with the setting in the den of a learned sports coach where he informally entertains his friend in sports over a bottle of the sponsor's product and a bowl of pretzels. Bob Carter, air vet and sports writer, is the kindly coach, with Bob Courtleigh, from legit, his weekly guest.

The label on the beer bottle makes for effective credit backgrounds to start, and save for the program fade when the coach pitches hard, the commercial pitch is made by the twosome lapping up several glasses of the lager accompanied by ecstatic comments hardly becoming a sipper of the suds. And what is meant to be a bull session on some sports subject resolves itself into a stodgy question-and-answer period about the subject on hand. Instead of a natural flow between two sports enthusiasts well versed in a subject, it's the espousing of stilted factuals that must have been memorized from the printed pages. In the least, that's what this particular chop-chop about dogs and their breeding sounded like to the viewer.

Fortunately, the gabbing is kept down to short intervals with a decided pickup in program pace when the newsreel cut in on two occasions. And for human interest, since the subject matter was dogs, the program caught had the advantage of the movies taken at the Morris and Essex Kennel Club Exhibit at Madison, N. J. Adding a live cocker spaniel adds another touch of realism to the homey setting, which is more pleasant to the eye than the ensuing gabfest is on the ears. Maurie H. Orodener.

WRESTLING

(Continued from page 14)

neither clearly, and dyed-in-the-sweat grunt and groan fans must have been especially annoyed because it was a blatant slough-off of their favorite fare.

Direction also missed screamingly apparent chances for wonderful programming, as is evidenced by failure to direct cameras to catch a close-up of the upper body and face of the super Swedish Angel, a 351-pound monstrosity, who did a Karloff as he relentlessly pursued his hapless victim, dainty 240-pound Harry Finkelstein, around the ring.

Sam Taub obviously knows his wrestling holds, but he's got a lot to learn about TV announcing. Major fault—tho this may be on instructions from impresarios—is that he treats the whole thing too seriously. Even Henry Wallace knows that wrestling is no longer a noble, uplifting, scientific sport, and for Taub or any other announcer to treat it as such is sheer folly. And Taub's vocabulary and descriptive powers are exceedingly limited. About every other pachyderm to enter the arena was ballyed by Taub as "one of the most scientific wrestlers the game has ever known." And Taub's bow-off line about ". . . and so we bring you another great event as it is taking place, before it becomes history," was as heavy as the Angel, and funnier. Maybe Taub's East Side diction is an asset for this type of show. Wrestling has been, and can be, top tele fare, but it's got to be done a lot smarter than this. Joe Csida.

Cut That Rug!

DES MOINES, Feb. 28.—Irving Grossman, veteran Des Moines booker, was musing on the current success of the William Brothers now booked with Kay Thompson in big time. "They got me my rug," he commented.

"How's that?" someone asked. "I was just opening my office in 1939 and a date offered me the rug in payment for an act. The William Brothers, who were singing over Radio Station WSO, donated their act so I could get the floor piece."

Philly's Jones Calls Thesps' Suit Part Of Deep-Hued Plot

PHILADELPHIA, Feb. 28.—Add American Guild of Variety Artists (AGVA) complications: Richard Jones, who maintains he is still executive secretary of AGVA's Local 6 despite the fracas between Matt Shelvey and the Associated Actors and Artistes of America (Four A's), charged today that the suit brought last week against him by 12 performers of the 1947 tab-vaude package, *Earl Carroll's Vanities*, was an attempt by rival AGVA factions to discredit his local.

Hy Faine, chairman of the Four A's-AGVA executive committee, was quoted in New York as saying: "We know nothing about the suit and we will have nothing to do with it."

Here, Allen Nickerson speaking for Shelvey, who still heads what Jones refers to as the "faction," stated: "The suit entered by performers against Jones has nothing to do with the Shelvey administration."

Jones had said, "The failure of the cast to receive its back pay was because of the willful and delinquent negligence of the Four A's and the so-called director of AGVA, Matt Shelvey."

The suit seeking \$63,637 alleges a failure on Jones's part to help collect back pay or transportation to the West Coast when the show folded in January, 1947.

Part of Jones's defense is that the bulk of the money was due the performers long before they arrived in Philadelphia. Jones also counterclaims that the national AGVA failed to obtain proper bond. He further declares he had collected \$2,536.96 to transport the cast back to California.

"H'w'd on Ice" Skating East

NEW YORK, Feb. 28.—The Eastern and Southern tour of the 50-peopled *Hollywood on Ice* tees off at Youngstown, O., March 30. The portable ice unit, which has been in existence four years, will come east of Kansas City, Mo., for the first time under the direction of the Gale Agency.

Bob Bundy, of that office, set the deal, including a Honolulu date, June 12.

Vaude Death Knell Tolls in San Fran

SAN FRANCISCO, Feb. 28.—The stage of the Golden Gate Theater goes dark when the current show folds Tuesday (2). The next day the house will commence a straight pic policy, thereby bringing down the curtain on the last vaude show place in town. The flesh hadn't been expected to fall until the end of March. Manager Jay Golden was mum as to when vaude might return.

Hold Your Hats, Actors! Now Shelvey AGVA Group Plans Meets & Convention

No Conventions Till Now, Actors Now Have Two To Go To

NEW YORK, Feb. 28.—A national convention is planned by Matt Shelvey, deposed head of American Guild of Variety Artists (AGVA), for Chicago, April 30-May 2, according to Allen P. Nickerson, national AGVA rep (on the Shelvey side) in Philadelphia. This convention, not to be confused with the one called by the Associated Actors and Artistes of America (Four A's) committee now running AGVA (*The Billboard*, February 28), will also be preceded by a series of membership meetings for "educational purposes." A schedule of the proposed meetings appears in this department.

The purpose of this convention, according to Nickerson, is to decide on a constitution and government for AGVA. Nickerson says that all nominees selected thruout the country by the AGVA membership (prior to Four A's "intervention") are entitled to proceed to the convention with no further selection of delegates from the nominating list. All nominees will be accepted as delegates.

(Prior to Shelvey's deposition, meetings were held and nominees elected who were to vote for delegates to the convention. According to the Shelvey faction, the Four A's seizure of the ballot machinery made this latest procedure necessary.)

Shelvey's data sent by Nickerson to all members and branches, states Chicago was originally named in the autonomous grant of November, 1946,

Detroit's Wedgwood Drops Flesh for Straight Bands

DETROIT, Feb. 28.—The Wedgwood Room is switching policy to straight dance band, in place of flesh. The spot, opened two years ago as an after-hours dining room, has used a show policy with occasional name-caliber bookings.

The new policy is the result of a change in ops, with James Cox, former manager of the Van Dyke Club, and Charles Costello, orchestra leader, taking over, and Morris Nort, former owner, retaining only a small interest. Cox will function as manager, with Costello bringing his own band in from the Gold Cup Room.

by the Four A's to AGVA as the convention city.

Hy Faine, chairman of the Four A's AGVA executive committee, said about the Shelvey-planned AGVA meet: "Shelvey has no standing and therefore cannot legally hold a convention." Faine also charged that Shelvey's method of selecting delegates is "undemocratic" and "does not truly represent the rank and file members."

Boston AGVA Backs Shelvey

BOSTON, Feb. 28.—The first of a series of Matt Shelvey sponsored meetings to be held around the country by members of the American Guild of Variety Artists (AGVA) took place at the Hotel Touraine yesterday (27). Arthur W. A. Cowan, counsel for the deposed AGVA head, presided, giving a summary of the differences between the Associated Actors and Artistes of America (Four A's), their current management of AGVA, as headed by Hyman Faine and the former administration.

The meeting was attended by 272 members, as contrasted with the estimated 72 who heard Four A's committeeman Frank Reel speak at the Hotel Bradford February 16.

There was a unanimous vote of confidence in the Shelvey administration and the local representation of Fred Dale. (The executive committee of the Four A's voted February 18 to oust Dale.) At the same time Cowan challenged representatives of the Four A's and its administration to meet him in open debate in Boston, New York or anywhere else in the country.

On five hours notice, he said, he would be ready to argue the case of Shelvey and his administration against the Four A's and before a gathering of the membership.

Ottawa Nitery To Reopen

NEW YORK, Feb. 28.—The Gatman Room, Ottawa, will reopen March 29 with a three-act show budgeted at about \$750. The spot, snowed in for the winter, is booked exclusively by Sol Tepper.

Agent Sees It In Percentage Deals for Acts

Would Stop Throat-Cuts

(Continued from page 3)

Rosenbloom-Chi Latin Quarter hook-up, probably will set the date with the act getting \$1,000 guarantee plus 40 per cent of the gross above the breaking figure, which is the point where all expenses are met and the club starts making money. Rosen claims other agents are percentage-shy because either they do not know how to case a room for equitable percentage returns or they are too lazy to play with simple figures.

Simple Formula

His formula is simple. The club's capacity, number of shows and minimum charge are multiplied to determine the spot's top gross, if filled, and an average minimum spent per person. From one-half to two-thirds of this figure is Rosen's consideration as the breaking point. On the other hand, an act gambling on the biz should be willing to accept 50 to 60 per cent of its regular salary as guarantee.

Rosen cited two examples to prove the practicality of his theory for both upper and lower-bracket talent. Zero Mostel was booked into the Coronet Club, Philadelphia, two years ago with a \$1,500 guarantee plus 25 per cent over \$10,000. Mostel, who then was in the \$2,000-a-week class, wound up with \$2,750, which became his established fee thereafter. More recently, a Bert Frohman-18 Club deal guaranteed Frohman \$500 plus 25 per cent over \$7,750. Frohman, then being booked at \$800 to \$1,000, walked out with \$1,500 for his end.

Ops Must Level

Rosen cautions bookers who try percentage deals not to drive too hard a bargain, while the op must, of course, level on the spot's figures. Honesty in the negotiations is more pertinent than the quibbling over the count at the end of the week. A clause in Rosen's percentage-deal contracts gives the agent's auditor permish to go over the club's books, but this has never been necessary to date.

High "Living"

NEW YORK, Feb. 28.—When comic Ed Schaffer played his home town the other day he went to the cemetery to visit the graves of some relatives. With him was the understander of the acro act on the bill, whose forte was brawn rather than brain.

"What's that?" asked the strong man, pointing to a little granite building.

"It's a mausoleum where rich people who die can rest in privacy," answered Ed.

"Must cost around \$10,000." "Ten grand! Fifty would be a closer figure," Schaffer retorted.

"Fifty grand for one room!" mused the skull over skill man. "That's what I call living."

Chase Club, St. Louis

(Monday, February 16)

Number of shows, two nightly, at 8:30 and 11:30. Manager, Harold Koplar. Publicity, Jeanne Dunaway. Maitre d', Hack Ulrich. Estimated budget this show, \$6,500.

This bang-up revue spotlighting the sweet trumpet stylings of Charlie Spivak and his orchestra rates tops in any league. This is an example of a well-balanced variety show, giving patrons a bit of music, dancing, comedy and vocalizing.

The show opened with a bit of the Spivak theme *Stardreams*, then the band swung into a jump session called *Up and at 'Em* and it sounded just as the title suggests. The Spivak band is at its best on ballads, but bounce numbers showcased the versatility of the ork. The maestro turned his attention to his trumpet solo next, an arrangement of *Jalousie* that showed off the Spivak control of his instrument, his tone and his technique, which is hardly excelled anywhere in the ranks of popular music.

Irene Daye, attractive blonde band vocalist, then did two numbers to a warm reception, *The Gentleman Is a Dope* and *Golden Earrings*. The latter seemed the more suited to her throaty style.

Paysees Terp

The Paysees, James and Beverly, are a young and good-looking dance team that do the conventional lifts and spins with plenty of aplomb and ease. The attractive couple presented their routines in smooth-as-silk fashion to a fine reception.

Closing the show was clever ventro Paul Winchell, who combined his art with some ace mimicry to score solidly. His Jerry Mahoney dummy routines were fast and funny and his impersonations of Charles Boyer, Edward G. Robinson and Barry Fitzgerald were excellent. A high spot of Winchell's act was his three-way conversation between himself, Jerry and the supposedly articulate microphone.

Upstairs in the Zodiac Cocktail Lounge, piano-playing, mugging Nelie Lucher packed 'em in for a three-week engagement. *Abie L. Morris*.

NIGHT CLUB REVIEWS**Blue Angel, New York**

(Tuesday, February 17)

Capacity, 150. Price Policy, \$3.50-\$4 minimum. Owner-operators, Herbert Jacoby-Max Gordon. Booker, non-exclusive. Publicity, Ed Weiner. Estimated budget this show, \$2,000. Estimated budget last show, \$2,500.

Maybe it was the butterflies in their stomachs caused by opening night (altho all acts were repeats), or possibly the chi-chi mob wasn't in the mood, but the all-over package didn't seem to register as solidly as most bills at this bistro. However, individually the acts had merit and in almost every case were deserving of a bigger reward than they received.

Alice Pearce, doubling from the legit musical, *Look, Ma, I'm Dancin'!* using her full bag of gag-props and slapstick comedy asides, blank-faced her way thru four swell novelty songs. The chirp's high-pitched, bell-clear lung department, coupled with dramatic comedy routining, made for some clever bits which could go over in any type of room. They got off their hands to give her the biggest mitt of the evening, but it rattled no rafters.

Magician Jay Marshall dispensed with most of the large repertoire of tricks he has shown over the past number of years and confined his 10-minute act mostly to anecdotes. His material is refreshingly novel and surprisingly clean. Marshall's tongue-in-cheek droll delivery measured up to his immaculate white tie and tails get-up. They giggled when they should have yocked and they didn't sprain any wrists applauding, but they seemed to approve grudgingly.

Beautiful Josephine Premice did deep-throated Haitian and calypso ballads, using English explanatory intros. Her cute build-ups in English were more entertaining than the non-understandable chants that followed. She got her share of applause.

Ellis Larkin Trio and Hal Cooke's keyboarding filled in the lull between acts.

Songsters Nype and Cote were billed but didn't go on at the late show caught. *Jack Tell*.

The Vivian Blaine-Desi Arnaz parlay at this swank spot was disappointing. For one thing, a good deal of the Arnaz edge was worn off by the fact that the tootlers, all 13 of them in flashy scarlet tunics no less, were on the stand too much before the show. Secondly, Arnaz's personality had obviously been toned down to go with the atmosphere of the spot, and if it wasn't the real Arnaz, blame the Brook ops who

Copacabana, Miami

(Monday, February 16)

Capacity, 550. Operators, Murray Weinger and Ben Slutsky. Publicity, Irving Mandell. Booking, Al Beckman-John Pransky. Estimated budget this show, \$12,500. Estimated budget last show, \$3,000.

On top of bringing back the hottest thing in the nitery field—Kay Thompson and the Four Williams Brothers—Murray Weinger was lucky in getting Jan Murray, who, also as a repeater, does one of the best jobs of any comic to play the beach this season—and that's saying a lot.

It's hard to say exactly what makes Miss Thompson's troupe click, but two qualities seem to stand out above everything else—showmanship and imagination. Her showmanship is so slick that the payer has little time to reflect on the gimmicks that make up the act. Her imagination is evidenced in the way she captures audience mood, instead of merely creating it.

Williams Brothers Socko

The Williams Brothers' precision work is tops. The quartet, fronted by the graceful Miss Thompson, tee off with *Jubilee*, segue into *Suzette* and as Miss Thompson tells the story in song or straight, pungently written descriptives, they act out the story in physical and vocal form. The Broadway number, describing everything from the burly show to a biting satirical take-off on a typical Noel Coward drawing room opus, is brilliant. The whole act—from start to finish—is expertly timed, beautifully paced and leaves the audience cheering, which is something to see in Miami.

Jan Murray tees off solidly. Considering the fact that Kay Thompson was the magnet, Murray's success can be seen in the impression he makes. He has added some routines since his last appearance here that are knockouts; for example, the bit of his going into the legit field.

He's strong all the way. He uses his hands to great advantage to sock across a punch line, which is a knack few other comics have. However, he might watch his occasional relapse into the too-standard, albeit solid, gag; and that occasional indigo touch, tho hardly noticeable, could easily be cut out.

Wally Wanger line opens the show. The Harlem number, with the robust baritoning of Ralph Young, goes big. The gals are all lookers and click in the smartly-paced routine. Betty Jane Smith, again held over, goes over with her fast tap spins. *Charles J. Lazarus*.

thought the payers wanted it that way.

What Miss Blaine lacked chiefly was an audience know-how which would tell her, for example, not to do any number unrehearsed. Miss Blaine has looks and diction. She also has a voice if she would show it off to better advantage than in the innocuous special material which she did. *Golden Earrings*, on the other hand, which she did with plenty of schmaltz, got the biggest hand. Miss Blaine has possibilities as a nitery attraction.

Arnaz's stint teed off with a concert-like rendition by the ork of Lecuona's *Maleguena* to good response. In fact, the whole show was put on like a concert.

The turn warmed up in *Chickaboom*, *Matador*, *Cuban Cabbie* and other numbers which gradually bring in the Latin American skins and thumping. The ork's finale, with everybody playing some kind of a tom-tom and with Arnaz going wild, brought warm palming. *Charles J. Lazarus*.

Club Charles, Baltimore

(Thursday, February 26)

Capacity, 325. Price policy, no cover or minimum. Shows at 9:15 and 12:15. Booking policy, Sol Tepper, exclusive. Operators, Tom Shaw, Lou Shaw and Moe Levy. Publicity, Irving Klein. Budget this show, \$3,200. Budget last show, \$3,200.

Jay Jason, making one of his first appearances in the East, combines with Manor and Mignon to set the pattern for a sparkling layout.

Jason worked very fast, offering a new and refreshing type of material. He did the usual series of impressions, unique in that he skipped most standard ones, to reach even as far back as Joe Penner. With a good talent for ad lib and small talk, Jason worked thru several skits and closed solidly with a patriotic bit on the entertainment highlight.

Manor and Mignon offered a varied routine, featuring beautifully executed lifts and spins. The team closed with a dance tribute to George M. Cohan, which sent them off big. An added recall bit, the marriage step, introed as a most difficult step, affirmed the pleasing reception.

Judy Lynne, pleasing chirp, scored best with a torchy *The Man I Love*. The gal works with solid voice and lots of zip. Also contributing vocally was Gunnar Lind, local lad, who, altho possessing a fair voice, lacked a great deal of stage savvy.

The show was cut ably by Norman Brooks and his ork, and the Wally Wanger Girls (6) rounded out with two neat numbers.

James A. Carter.**Sert Room, Waldorf-Astoria, New York**

(Wednesday, February 18)

Capacity, 263. Price policy, \$2 cover after 10:30. Operator, Waldorf-Astoria Hotel. Booking policy, Music Corporation of America. Publicity, Ted Saucier. Estimated budget this show, \$3,500. Estimated budget last show, \$2,250.

The rare wizardry which is part and parcel of every great performer is on display at the Waldorf's Sert Room, where Lucienne Boyer is giving a fine exhibit of sock showmanship. Altho she works virtually completely in French, her delivery, style and craftsmanship are such that almost every number acquires more than one dimension; she could probably do a tune in Hindustani and make it equally as effective and lucid.

Her effectiveness is increased by dramatic showmanship in presentation, as well. A full-length gown centers attraction on her face, spotlighted in most of the numbers against a dark floor. Some of the tunes are done strolling, with a hand mike concealed in a rose corsage; others are down at a standing mike against the bandstand, but either way they add up to the same punch. Her ability is such that even when she fluffed the opening of *Stardust*, sung in English (which she is unable to understand), she managed to convert to her favor, rather than contrariwise. Able support is given by Franck Purcell, her violin accompanist, and the Emil Coleman dance crew.

At a reported \$2,500, Miss Boyer should keep the Sert at capacity. *Jerry Franken*.

Philly Rhumba Rm.**Takes on Fleshers**

PHILADELPHIA, Feb. 28.—Marty Goldberg, operating the Rhumba Room in the Chateau Crillon, midtown apartment house, has gone to floor revues for the first time. Since the season's start the room had confined itself entirely to the hip-swaying music brought in for the bandstand.

Starting Monday (1), the new policy sets up a floor spotlight, with Diosa Costello and the De Castro Sisters in the leads. The night also returns Pupi Campo's music to the bandstand.

**Charley Foy's Supper Club,
Sherman Oaks, Calif.**
(Tuesday, February 17)

Capacity, 250. Price policy: no minimum, no cover. Owner-operator, Charley Foy. Shows at 9:30 and 11:30. Booking policy, non-exclusive. Publicity, Charlotte Rogers. Estimated budget this show, \$1,600. Estimated budget last show, \$2,500.

Biz along San Fernando Valley's bistro lane is spotty, but Foy manages to keep his club in the black by giving patrons a solid, variety-packed show. Current bill, featuring comic Wally Vernon, passes muster all the way.

Vernon is a vastly improved performer, having done much to sharpen his act since his last stint here. His timing is razor-sharp, delivery fast and crisp, and material fresher. Vernon literally came out of oblivion during the past year to build up a strong local following. Best tribute to his comeback is the fact that ringsiders now clamour for special bits and routines which he has developed. His burly of Fanny Brice singing *My Man*, an old Vernon trademark, is still a high spot. Gags pyramid easily, and comic builds for a solid payoff. For final call back, Vernon shifts pace with a serious and straight plea for racial tolerance. Pitch may be a bit out of place on a nitery floor, but it commands attention and rates a big hand.

Another Foy repeater is Eddie Garr, gagster-mimic beginning to register on the Coast. Take-offs are passable and build easily to drunk routine which proves a rib tickler. To some extent, it must be noted that Garr still clings to moth-eaten gags, some of which are inexcusable, especially when dished out to hep Hollywood audiences. Once this is corrected, Garr should have no trouble in the sales department.

Holding down the vocal slot, newcomer Roberta Lee rates plenty of attention. Fresh from the East, lass takes the spotlight with no build-up. Eye-filling brunette has ringsiders with her from the start, dishing out a trio of smart tunes. Style and delivery are on the sultry side, with pipes pitched low, and accent in the torchy vein. With more experience she can develop into a top singing act.

Rest of show are Foy's regulars, including oldster Billy Green, stooge Sammy Wolf and Foy. Routines are the same as they have been for past year but patrons go for them just the same. Abbey Browne's combo continues to hold down terp chores and back show adequately.
Alan Fischler.

Reviews**

LITTLE ROUMANIA, MIAMI: Michel Rosenberg has picked himself something of a plum in Irving Grossman and Dinah Goldberg. This duo, whose act has as much class as any comparative strictly English turn, clicks in a session of smart material, slick delivery and solid showmanship. Grossman and Miss Goldberg do individual turns then get together for some yock-garnering comedy songs.

**Stem Up to 537G; MH 145,
Cap 98, Para 120, Roxy 130**

NEW YORK, Feb. 28.—Skyrocketing to \$536,500, the five Stem flesh-flicker houses had their biggest session in 60 weeks. Not since the New Year's Eve period in 1946, with six theaters on the roster, did the vaudepics enjoy such a field day. The

premiering of four smash bills, including Louis Prima, Vaughn Monroe and Hazel Scott, with Washington's birthday (22) and slick weather were dominating factors in chalking up the top tally. Radio City Music Hall, Paramount, Roxy and Capitol had near-record week-ends, never feeling the effect of a light but steady snowfall on the morning of the holiday. The only holdover was the Capitol, which continued strong with a heavy-weight show topped by Horace Heidt.

Music Hall (6,200 seats; average \$115,000) opened to a hefty \$145,000 with Larry Storch, Paul Franke, William Shriner, Alfred Luizzi and Lawrence Nickol. Pic, *A Double Life*.

Roxy Racks 130G

Roxy (6,000 seats; average \$89,000) racked up \$130,000 for the initial week of Hazel Scott, Gil Lamb, Raye and Naldi and the Don Henry Trio, with *Call Northside 777*.

Paramount (3,654 seats; average \$76,000) filled the registers with \$120,000 in the first week for the Louis Prima ork, Dick and Dot Remy, Cathy Allen and *Road To Rio*.

Strand (2,700 seats; average \$40,000) hit a \$65,000 jackpot, with the opening session of Vaughn Monroe and his ork, the Mayo Brothers, the Moonmaids, Frank Fontaine, Ziggy Talent, Madelyn Russell and Eddie Julian. Pic, *My Girl Tisa*.

Capitol (4,627 seats; average \$66,000) followed a stick-out \$98,000 preem period with a \$76,500 session for a total so far of \$174,500, with Horace Heidt's ork, Don Rice and *Three Daring Daughters*.

**Pa. Liquor Board Control
Over Vaude Investigated**

HARRISBURG, Pa., Feb. 28.—The question of whether liquor control in Pennsylvania extends to selection of stage locations for floorshows and other entertainment in night spots is being studied by a legislative committee probing the rules and regulations of the liquor control board.

The investigators will also look into a board ruling which says music in a licensed spot must be toned down so it cannot be heard outside the establishment.

Lawmakers think perhaps the liquor board has overstepped the authority delegated to it by the Legislature in the control of entertainment. The law, however, requires an amusement permit be issued by the board before any entertainment is provided.

Grossman and Miss Goldberg are nicely costumed, with the lad's *I'm Going Home* (a song about Palestine) and the *Wedding Begins*, a take-off of a Yiddish wedding, being played for great commercial appeal.

Blond Nina Carmen registers okay in Russian and Yiddish numbers. She has a fair set of pipes but needs more work to get rid of some of her awkwardness and to develop the little gimmicks that sell a turn.

Rosenberg still plays the host, with his comedy stint along a very broad style getting hefty yocks. His w.k. bit on Shepsel Kanorik going to a baseball game wins a warm palm.

Peter Drew's showcutting is okay except that the crescendo could be diminuendoed.

Charles J. Lazarus.

MOTHER KELLY'S, MIAMI BEACH: Gloria King, the sophisticated singer, is solid in a stint that's reminiscent of Lena Horne both in appearance and delivery.

The gal, whose sultry S. A. look goes well with her songs, gives out with *Surrender To My Heart*, *Don't Take Your Love From Me*, *Manhattan Towers*, *Sophisticated Lady*, etc. She's a click.

The other chirper on the bill, Julie Wilson, is an eye filler and clicks in the spicy tunes. Terper Chris Kerrigan, also held over, gets across a nice personality, neat hoofing and a good bit of song selling.

Gene Baylos is still bringing them in, especially during the early morning hours, with a brand of comedy that makes you wonder why this guy isn't at the top. He's really that funny.

The Frank Sorrell Trio's accomps are okay.
Charles J. Lazarus.

Outsider Coming?

VAUDEVILLE REVIEWS

Oriental, Chicago

(Thursday, February 26)

Capacity, 3,200. Price, 95 cents straight. Five shows week-days; six on week-ends. House booker, Charley Hogan. Shows played by Carl Sands's house band.

Two outstanding standard acts, plus a film star who knows her way around a stage, make up the fastest-running package to play this house in many a moon.

Brunet Yvonne DeCarlo, in a Turkish dancing gown, chose a poor tune for opening, the *Habenera* from *Carmen Jones*, but recovered quickly with an oomphy version of *For Every Man There's a Woman*. The well-stacked gal scored heaviest in an exchange with frontier Carl Sands, during which she did snatches of her Oriental terping and a satirical love scene. She worked only nine minutes, bowing off with a version of *Babalu* that rated a better-than-average hand.

Rotund Jack Leonard, working the opening slot, clicked immediately and kept the yocks continuous for 15 minutes. The gagster panicked the packed house with a routine that had unusually good continuity. He keeps interest at a peak. His material was fresh and delivery sock. An encore bit, in which he does a j-bug, won a huge hand.

The King Cole Trio seems to have acquired new vitality with the acquisition of guitarist Irving Ashby, who replaced Oscar Moore. All its numbers, save a closing instrumental, featured Nat's vocalizing. *Baby, I Need You*, a forthcoming Capitol novelty release, got a hand.

Frontier Sands and stage director Will Harris collaborated for the finest presentation job since Sands came in six months ago. Sand's opener utilized a modern arrangement of *Scheherazade*, title song of a recent DeCarlo flicker. Harris worked out a fine harem backdrop and a special Cole Trio backdrop for the threesome's stint.

Johnny Sippel.

State-Lake, Chicago

(Friday, February 27)

Capacity, 2,800. Price policy, 95 cents straight. Five shows week-days, six shows week-ends. House booker, Harry Levine. Shows played by Lou Breese's house band.

Lack of continuity causes this four-act line-up to lose plenty of its marquee allure, with the biggest gap coming between the ballet toe-terping of Carol King and the Hoosier Hot Shot's corn.

Johnson and Owen, good-looking muscle benders, won amazed gasps and laughs aplenty, with an acro turn that incorporates comedy and straight flips and spins on stationary bars.

Miss King would do well to work up a more commercialized approach to ballet. While her dancing is top caliber, an occasional explanatory announcement between numbers or a sequence, telling a story, would make her a better vaude bet.

Phil Regan, a standard name here, went thru his usual brace of standards, pops and Irish ditties to reap good response all the way.

The Hoosier Hot Shots, who established themselves as top local names as members of the *WLS Barn Dance*, haven't changed their routine noticeably during their four-year absence. Hezzie and his slide whistle and washboard, bristling with trick, tuned horns, takes the comedy spotlight, with the other boys joining in on the vocals and some of the comedy. Four-some's material, however, has been sharpened up for general vaude consumption considerably, with the tunes still hitting with their established farm fans. Their West Side of Chicago opener got them off to a good start and the lads scored a huge hand at closing.

Johnny Sippel.

Hippodrome, Baltimore

(Thursday, February 26)

Capacity, 220. Price policy, 40 to 70 cents. Number of shows, four daily. House booker, Mickey Aldrich. Show played by Jo Lombardi and house band (12).

Altho the bill is a little top heavy on the vocal side, there is enough contrast in styles to shape it up as excellent variety.

Jackie Gleason did his standard quickie impressions to a big mitt. The radio commercial routines and most gags were especially good, altho he forgot the punch line to some. Gleason's easy and unhurried manner had the crowd with him, and he drew a big hand.

After a medley by Jo Lombardi and the house band featuring Mitchell Day at the drums, Elton Britt took over.

Too Many RCA Plugs

The cowboy singer did several numbers which were well received, but the numerous RCA Victor recording plugs could be omitted. This minor fault, however, is overshadowed by Britt's competent vocals and yodeling, which gained him a nice mitt.

In contrast, Paula Bane, attractively white gowned, offered a couple of nice ditties including *Golden Earrings* and highlighted by a nifty novelty, *If I Were President*, filled with laughs which got her off solid. The chirp also does a cute straight bit with Gleason which even broke up the band.

The Four Macks closed with a top skating act. The lad and three femmes worked at breakneck speed and drew applause on each routine. The wind-up, with a breathtaking double neck swivel, drew plenty of gasps from the audience.

Olympia, Miami

(Wednesday, February 25)

Capacity, 2,100. Price policy, 74 cents-\$. Number of shows, four daily. House booker, Harry Levine. Show played by house ork (10).

This show is well paced, entertaining, balanced and solid all the way and would do any booker proud.

Topped by Connee Boswell, who after all these years still shows herself to be a sock balladeer and seller of pop tunes, the parlay includes the sure-fire novelty turn of Arthur La Fleur, the human top, top-flight tapstering of Hal Leroy and the tasteful comedy of Lou Saxon who also handled the emcee chore in commendable fashion.

Miss Boswell, who looks as great as she sounds, still shows up with pipes whose timbre could be envied by many performers. She was tastefully gowned and paced her stint to good effect. Miss Boswell's showmanship plus her natural talent sold her. Her balancing of oldies plus the newer items gave everybody in the theater reason to respond with warm palm whacking.

Hal Leroy clicked solidly in his terp turn which was aided and abetted by an affable and clicko personality. There was nothing studied about his act and he still retained that boyishness which is always commercial in a family house. Had to beg off.

Lou Saxon came up with a series of nicely told stories and gagging that were free of any double entendre. His stuff registered for healthy laughs and he provided a good atmosphere for the other performers.

Arthur La Fleur was, as usual, good for a solid mitt in a stint which took him practically into the wings. His spinning bit was sure-fire.

Considering the fact that the pic, *Green Dolphin Street*, is heavy drama, the performers rate a nod for selling the show the way they did.

Les Rhodes house ork cut the show nicely.

Charles J. Lazarus.

Adams Theater, Newark, N. J.

(Thursday, February 26)

Capacity, 2,000. Price policy, 50 cents-\$1. Number of shows, five daily. House booker, Mickey Aldrich. Show played by band on bill.

Judging from standees on opening day, Stan Kenton rules the roost in drawing power at this house. Two standard acts, Pat Henning and Meribeth Old, fitted snugly into the Kenton aggregation to round out a powerhouse bill. The only kinks were the brass-heavy beats drowning out band canary June Christy. The chirp had them wrapped up all the way and begged off.

The Kenton book didn't vary much from the ork's stand at the Paramount, N. Y., two months ago. Their *St. James Infirmary* routine with nearly all the sidemen breaking up Kenton's vocal pitch had the house in stitches. Riff brass bleats in the skillfully arranged *Peanut Vendor* number had the mob swaying in their seats. Milton Bernhart's tramping of *Collaboration* and the *Artistry in Bass* solo by Eddie Safranski, possible show stoppers on a concert stage, got mild receptions but didn't seem to slacken the pace of the show.

Pat Henning

Pat Henning's raspy voice almost got him into trouble at the start, because it was a strain to hear him clearly, but the clever comic pulled out quickly with a slight change of tone, talking slower, and from there on it was a shoo-in. Selling with a regular-guy delivery, his constant rapping of the management caught howls with every mention. The take-offs of the flicker names, using quickie sounds for complete impersonation act.

Acro-contortionist Meribeth Old, working on a raised platform, displayed several mitt-getting stunts. The gal did a variety of waist bends and closed strong with a no-hand pinwheel.

This stand marks a break in Kenton's 60-day concert tour of one-nighters in which he set a new pop-house gross mark of \$8,800 at Carnegie Hall, February 14 (*The Billboard*, February 21).

WHERE'S THE HYPO?

(Continued from page 39)

(Miami) cut-throat tactics to snare the resort biz was the example given by the agent who believes such squabbling is the cause of dented profits. This 10 percenter, who preferred to remain anonymous for obvious reasons, claimed that op Murray Weinger, of the Copa, would be glad to sit down and iron out the sitch with Ned Schuyler, of the B'comber, and possibly come to an understanding where both spots could make a buck.

Leon Newman, of Mark Leddy's office, brushed off present conditions with a plea for new faces to give biz the needed shot in the arm. Newman also maintained that any act capable of doing biz at the b.-o. is deserving of naming his own figure.

Meggers' Melon Slices Thick

NEW YORK, Feb. 28.—The dominant position of directors in the production scheme on Broadway was pointed up this week by the disclosure that George Abbott will get a fee of \$5,000 plus 3 per cent of the gross and 15 per cent of the profits for staging Benn W. Levy's comedy, *Clutterbuck*, for producer Roland Haas. This fee has been topped this season by both Joshua Logan, who directed *Mister Roberts*, and Elia Kazan, who did *Streetcar Named Desire*.

Backers, confronted with the heavy demands of directors, point out that the megger is doing more of a job than the producer and argue therefore that the producer should have his percentage shaved to compensate. *Clutterbuck* will star Judith Evelyn, with Binnie Barnes also a possibility for a featured role. It ran 14 months in London. Rehearsals are skedded the middle of March.

Equity May Cut Screening Fee

NEW YORK, Feb. 28.—Actors' Equity Council met Tuesday (24) and considered implementing its picturization clause and revising the rates downward so as to make more screening of legit plays feasible. To make films out of legit scripts, managers must now pay one week's wages to the cast for each day's work. The union is afraid customers will shoot films of plays, especially when viewing operettas out-of-doors. It would like producers to instruct ushers to watch that patrons do not take 16mm. films with their cameras.

The labor org's lowering of the one week's salary cost might prove encouraging to people interested in filming legit. Agnes De Mille wanted to take pictures of dances from *Allegro* for guidance on her London production of the show. However, the rate was so high she didn't find it worthwhile to do the filming.

"Sammy" Prepped As Stem Musical

NEW YORK, Feb. 28.—Martin Gosch has a musical version of Budd Schulberg's novel, *What Makes Sammy Run*, on his fall production schedule. No writers or performers have been signed yet. The show is figured to be in the *Pal Joey* vein and if successful may presage a swing away from the current type of musical. Gosch's last production was *Gentleman From Athens*.

Mister Boffo!

NEW YORK, Feb. 28.—The most solid smash hit to play the Stem in years is *Mister Roberts*. In two weeks its advance sale will hit \$500,000. Its mail order sale each day is \$2,000. It has six men working on the sale of tickets. Each day it takes in 13G—three times the value of capacity-house seats for any performance. There are no ork seats available, except for matinees, until May. The show has been getting a terrific press and this week will see articles in *Newsweek*, *Life*, *The New York Times* and *Time* magazine. The black market price for ork seats is now \$19.85 each.

4 More Weeks and Hartmann Show Will Be Off the Nut

NEW YORK, Feb. 28.—Sherman Ewing's production of *Angel in the Wings* is four weeks away from getting off its nut. The Grace and Paul Hartmann starring vehicle which cost 125G to produce is grossing close to 27G weekly and returning about \$6,200 each week to its backers. *Angel* breaks even at about \$18,000. The revue has three song hits in it which help in a great measure to sell the show. They are *Civilization*, *The Thousand Islands Song* and *The Big Brass Band From Brazil*. Ewing has signed Bob Hilliard and Carl Sigman, the writers of the score, to do a musical, titled *Give It Back to the Indians*, next season.

Diana in 'Joan' at Ft. Worth

FORT WORTH, Feb. 28.—Diana Barrymore played here Tuesday (24) in *Joan of Lorraine*. Three-fourths of the Majestic Theater's 1,200 seats were filled. Prices ranged from \$3.25 to \$1.65.

'Widow' Slumps At Detroit B. O.

DETROIT, Feb. 28.—Production of *The Merry Widow*, with Dorothy Sandlin and Wilbur Evans in the lead roles, proved mildly disappointing in the third week of the Detroit Civic Light Opera season, with a gross of \$40,200. This is considerably under the smash \$54,800 racked up in the first week by *Rose Marie*. Attendance, however, was 24,000, slightly higher than the preceding week, when the gross was some \$2,000 more—evidence that the public is switching toward buying the cheaper seats.

The condition reflects an increasing slump in Detroit showbiz generally, with the better priced seats no longer in premium demand. Results of a 250,000 unemployment figure—offshoot of a temporary gas shortage during the cold spell—are now being reflected in smaller pay envelopes. *Music in the Air*, with Evans and Irra Pettina, was just about holding its own this week and is likely to come out just under \$40,000.

Jouvet Troupe Set for Tour

PARIS, Feb. 28.—In spite of the tremendous Paris success Louis Jouvet and his troupe are having with Moliere's *Dom Juan* at the Theatre d'Athenee, the whole company leaves for Egypt March 4, the first leg on a long foreign tour. Plays by Moliere, La Fontaine, Giraudoux and Jules Romains will be done in Italy, Austria, Germany and Poland.

During their absence, Pierre Blanchard will take over Jouvet's Athenee with Marcel Archard's *We Will Go To Valparaiso*. In the cast with Blanchard will be Simone Renant, Jean Toulout, Georges Lannes, Jean d'Yd, Jean Lanier, Laurence Aubray, Germaine Michel, Dominique Brevan and Yvette Andreyor.

Barn Mgrs. Dump Gripes on Equity

NEW YORK, Feb. 28.—The summer stock managers presented a long list of gripes to the augmented Actors' Equity Barn Theater Committee yesterday (27) over the new hay-loft regulations to go into effect this season. The hot-weather legit operators asked that the rule which they considered favoring package shows by eliminating a resident company of six actors be erased, as well as the provision for a rehearsal pay of \$20 a week also be reversed.

Managers also wanted rephrasing on several provisions of the new regulations, such as withholding taxes and housing, and asked that Equity make stars arrive on time for their shows with their directors. The augmented stock committee will bring the matter before the Equity Council next Tuesday (2).

Barnard Loses Appeal

NEW YORK, Feb. 28.—Actors' Equity Council turned down an appeal by Harold Barnard, producer of *Doctor Social*, Tuesday (24) from a decision by union execs that he pay an additional six performances' pay to Dean Jagger and Al Shean. Both actors had run-of-the-play contracts under which they were supposed to get a week's notice when the show closed.

The notice was posted Friday (13). *Doctor Social* closed Saturday (14), and thus the Equity execs ruled the thespis were owed the six performances' salary. Jagger was receiving \$750 weekly plus percentages if the play clicked.

 METROPOLITAN THEATER, SEATTLE

A new play by Lyford Moore and Harlan Thompson. Staged by Paula Stone. Sets, Philip S. Raiguel. Costumes, De De Johnson. Jacques of Hollywood, and Brooks, of New York. Company manager, John J. If a first-night Seattle preem audience is any indication, *Sleep It Off* should be set for every kind thing, west of the Stem. With careful handling it might turn out to have the gravy draw of a second *Separate Rooms*. But it's not for Broadway. *Sleep It Off* is pure trade, with an eye on the Chicago spring. The positive side of *Sleep* is two fold—the well-paced firecracker direction of Paula Stone and the surprising emergence of Jackie Cooper, the show's star, as a sure-fire comedy juvenile.

The plot, which often weaves in far too many directions, purports to show the harried shennannigans in the Fiji fraternity house, where the hypnotism of a visiting bubble dancer conflicts with the college's efforts to raise dough for the alumni fund. This involves such diverse carryings-on as a partial strip tease, the partial seduction of Bristol College's president and the slapstick efforts of gatman Sissy Malone to pilfer the 10 grand in question. These complications threaten not only the scholastic future of the frat's idea boy, Eddie Liggett, but also come near to putting the kibosh on two terribly typical college romances and one seemingly impossible marriage. All the loose ends are finally tied up in the most obvious ways.

Burly Humor

Author Harlan Thompson aims for socko type situations and often plain burly humor to carry the main load of the farce. Sometimes he makes it. James Ellison and Michael Sloane have assembled a cast of energetic and generally capable youngsters. The leading trio of Cooper as Liggett, Vince Barnett as Sissy, and Ann Corio as the stripper, pull most of the guffaws. In its less jerky moments Barnett's characterization is ingenious. La Corio is, as always, la Corio, and nobody in the audience seems to make any vehement objections. Glen Vernon makes the most of his scenes as the rather studious fraternity patsy, while Bill Henry, Caren Marsh and Jan Erhard handle the romantic burdens successfully.

Structural defects and at times blatant implausibility crop up in *Sleep It Off*, especially in the first act. But the direction of Miss Stone and the playing of Cooper may give *Sleep It Off* a hinterland success not entirely undeserved.

Philip S. Raiguel's set is adequate.
 Wil Stevens.

SONGS:
Then, You Were There; Play Orchestra, Play.

For the alternate bill of Noel Coward's one-acters Gertrude Lawrence and company have picked that trifling Mayfair comedy of errors, *Hands Across the Sea*; the tragi-comic, lower-middle-class domestic rebellion of *Fumed Oak*, and the dream-fantasy about a divorce in the West End's upper social brackets, *Shadow Play*. As a further showcase for the Lawrence versatility, they are good selections.

Hands, of course, gives the star a chance to indulge in the Cowardesque, brittle, cross-fire chit-chat which she has made particularly her own. However, despite the perfection of Coward's direction, his jibe at pre-war London globe-trotters, who invite odd hosts and hostesses to drop in on them at home and then forget who they are, is pretty thin going. The bloom is off the Mayfair peach. But the lady has a way with such trifling matters and she gets particularly amusing support from Philip Tonge and Norah Howard.

"Shadow Play"

Shadow Play, which also falls within the high society brackets, also seems a bit dated after the lapse of a dozen years. Concerning as it does a West End couple who are about to split up and an overdose of sleeping pills on the part of the wife, the bulk of it is in dream form, wherein the lady relives the halcyon days of her courtship, to the accompaniment of dance and song. This is a natural for la Lawrence to revive her musical comedy technique. With an able assist from Graham Payn, she sings the somewhat cloying numbers which go with the piece and trips as nimbly gracefully thru a ballroom sequence as of yore.

But by far the best item on the bill is the revival of that wryly unpleasant comedy, *Fumed Oak*, wherein a poor worm of a badgered husband finally turns on a nagging wife, a horrible child and a bitch of a mother-in-law to walk out on the whole bedraggled outfit. It is delightful to see and hear the Lawrence take the leap from a swank Mayfair matron to a South London whining slattern. She makes *Fumed Oak* seem timeless. Phillip Tonge is terrifically, if unpleasantly, funny as the bedeviled husband, and Valerie Cossart and Norah Howard are brilliantly right as the sniveling brat and the stinker of a grandmother, respectively. Together, they make *Oak* the gem of the Coward collection.

Hereafter the first bill, *Ways and Means*, *Family Album* and *Red Peppers* (previously reviewed) will be offered Monday, Thursday and Saturday evenings and Wednesday mat-

ME AND MOLLY

BELASCO THEATER

A comedy by Gertrude Berg. Staged by Ezra Stone. Setting, Harry Horner. Costumes, Rose Bogdanoff. Music arranged by Leon Engel. Lighting, Leo Kerz. Company manager, Richard Highley. Stage manager, Mark Forbes. Press representatives, Kati Bernstein and Henry Senber. Presented by Smit and Feigay and Herbert Kenwith in association with David Cummings.

It is less than improbable that Gertrude Berg's stage saga of the Goldberg family, *Me and Molly*, will rack up in the success bracket. The doings of the Goldberg family were evidently listener-entertainment with a record of some 16 years on the air waves. There will doubtless be plenty of the family's armchair fans who will yep to see them in the flesh and blood at the Belasco.

Nor will they be disappointed, because Mrs. Berg has concocted a plot about the Goldberg domestic matters in a Bronx flat (circa 1919) that is as cornily soap operesque as any sequence that took a month to put across on the air. *Molly* is not a good play by any acceptable standards—in fact, it isn't a play at all, but rather a series of episodes strung together in radio serial form. But with all its strictly off-the-cob hokum, Mrs. Berg has managed to bring her proteges to life with an affectionate, simple warmth and naturalness which redeems some pretty sticky doings. There is considerable gentle laughter in it and some touching moments. It is certainly not pointed at a critical intelligentsia, but for the average customer in search of folksy entertainment packing a smile and a tear it should have a definite appeal.

Potpourri

Mrs. Berg goes back to the Goldberg's early struggles, Matters at the Belasco concern Papa Jake's efforts to break loose from a hired hand's stint in the garment trade and get into business for himself. Uncle David is in it. Daughter Rosie is in short skirts and starting piano lessons. Son, Sammy, is prepping for his bar mitzvah. There is a garment cutter who wants to be a druggist and a romance between him and a piano teacher. There is a mean cousin who wants to keep papa a wage slave, and plenty of neighbors. Molly Goldberg moves serenely thru these elements, kindly, sympathetic, but a tigress when aroused by the cupidity of the rich cousin. At the finish, despite all obstacles, it looks as tho papa is going to realize his dream. And that's *Me and Molly*.

For a role of its kind Gertrude Berg's Molly is a small masterpiece of underplaying. Phillip Loeb is excellent as the mercurial Jake and young Lester Carr and Joan Lazer are fine as the kids. There is also a top contribution from Eli Mintz as the always kindly and understanding Uncle David.

Harry Horner's multiple interior gives with the atmosphere of an East Bronx flat and Ezra Stone's staging of the proceedings in it are likewise excellent. **Bob Francis.**

The second group will have showings Tuesday, Wednesday and Friday evenings plus Saturday (mat). **Bob Francis.**

HEDDA GABLER

(Opened Tuesday, February 24)

CORT THEATER

A drama by Henrik Ibsen. Translated and staged by Eva Le Gallienne. Scenery by the Martin Turner Construction Company. Stage manager, Thelma Chandler. Miss Le Gallienne's costumes by Helene Pons. Press representative, Maurice Turet. Production supervised by Margaret Webster. Presented by Louis J. Singer and the American Repertory Theater.

Miss Juliana Tesman Marion G. Evensen
Berta Merle Madden
George Tesman Robert Emhardt
Hedda Tesman (His Wife) Eva Le Gallienne
Mrs. Elvsted Emily McNair
Judge Brack Herbert Berghof
Ellert Lovborg Efram Zimbalist Jr.

In spite of the heroic efforts of Eva Le Gallienne to inject life into *Hedda Gabler*, the script remains more suited to library shelves than the stage. Ibsen's classic, a trail blazer in its day, is now sadly dated with characters all of which have been seen a dozen times and in a far from interesting situation. The theme is taken for granted, the times call for a different kind of affirmation and the modern school of scripting gets more drama from its plays.

Where the script does gain is from an unusually perceptive portrayal of the title role by Miss Le Gallienne. The actress has never been better and her interpretation, at first strange because of her utter contempt for her newly married husband, gains as we understand her unhappy, frustrated personality. She gets laughs, she gets pity, she gets our contempt and, indeed, she terrifies us. Nevertheless, the actress is slightly too old for the part, unless she were to cast the other characters older.

Robert Emhardt registers as dry-as-dust George Tesman, the husband, whose character is revealed before the first act is concluded. As the evil Judge Brack, Herbert Berghof gives a consistent, understandable portrayal of a despicable man. Emily McNair handles herself well as Mrs. Elvsted, Hedda's conqueror in the battle to regenerate the scholar, Ellert Lovborg. Unfortunately, this latter crucial role which could have added some much needed color to the play was not well delineated. Ellert should have been an explosive, heady personality but Efram Zimbalist Jr., unfortunately, has a different thesping style. In smaller parts both Marion G. Evensen and Merle Madden bolster the production.

Miss Le Gallienne's direction was more than adequate, altho it could have used more pace. Costumes by Helene Pons were in keeping with the times and showed Miss Le Gallienne to advantage. **Leon Morse.**

WHERE STARS WALK

(Opened Tuesday, February 24)

MANSFIELD THEATER

A fantasy by Micheal MacLiammoir. Staged by Hilton Edwards. Settings, Molly MacEwen. Company manager, Richard Skinner. Stage manager, Norman Barrs. Press representatives, William Fields and Walter Alford. Presented by Aldrich and Meyers.

Sophia Sheridan Meriel Moore
Robert Twomey Denis Brennan
Rex Dillon Roy Irving
Tommy Millington Edward Golden
Sheila McCann Patricia Kennedy
Mrs. Dempsey Nora O'Mahony
Eileen Helena Hughes
Martin Micheal MacLiammoir
Nigel Brunton Norman Barrs

Had the Dublin Gate Theater players elected to bow in with Micheal MacLiammoir's *Where Stars Walk*, the Dubliners' Stem debut might have been considerably better. However, other visiting rep troupes have laid an egg or two before they got down to real entertainment values, and evidently the Gate aggregation is no exception. At all events *Stars* is the best job that the Irish visitors have presented to date—something neither outmoded nor so esoterically modern as to be practically non-understandable hitherwise of the Atlantic. Author and leading player MacLiammoir stated in a modest curtain speech that *Stars* is a troupe stand-by included in the current rep to show American audiences that the group is not eternally concerned with Irish politics and Dublin mores. He apologized also for its simplicity. He knows better. *Stars* is a wispy, fragile little fantasy, but its fragility gives it charm, and above all you don't have to be a native to catch its implications.

MacLiammoir's premise baits belief in the ancient Irish legends in terms of modern Irish thinking and at the same time signposts the fact that sophistication can never quite overcome an innate Irish admission that fairyland is just around the corner. A group, headed by an ex-actress who toys with psychic research, is about to put on a charity play about the legendary Edain, fugitive from Shi, the "land of youth," and her subsequent rescue from mortality by her minstrel lover, Midhir. The play is put on with a more or less tongue-in-cheek attitude by the sophisticates, but somehow unleashes unexpected metaphysical didoes in the actress's household. An odd-jobs man and a red-thatched parlor maid turn out to be repeat reincarnations of the queen and her minstrel. Once more the old tale fulfills itself as the two finally fly away to Shi, transformed into swans. Nothing is proven—nor does it seek to prove anything—but for the most part it is pleasant and often touching theater.

Helena Hughes' Princess

In *Stars*, Helena Hughes, who has been but minorly concerned with the troupe's previous productions, registers considerable talent as the princess of Faerie turned mortal parlor maid. MacLiammoir gains in likable stature with each new role. He is fine as the minstrel turned man-servant. Meriel Moore plays the ex-actress with humorous insight, and there is a sharp contribution from Norman Barrs as a bumptious Britisher. Nora O'Mahony scores amusingly as a garrulous cook. Hilton Edwards's staging keeps a nice balance between fantasy and reality.

In sum, the Dubliners should have led off with *Stars*. It is thin, but no one can deny that it is over-all pleasant. **Bob Francis.**

French in Germany Crack Down Upon Stage "Propaganda"

FRANKFURT, Feb. 28.—Extreme sensitivity and alertness of the French government to anything smacking of propaganda in entertainment is indicated by the recent banning of four well-known German legities in the French occupied zone of Germany.

Minna of Barnheim, by one of Germany's top drama critics, Karl Lessing; *Captain of Kopenick* and *The Devil's General*, by Carl Zuckmayer, and an untitled drama by the late Wolfgang Borchert are the shows on the verboten list. *Minna* was blackballed, according to reports, because it ridicules a French national, while *Captain* throws some nasty barbs at military law and order. *General* is the story of a German flying ace and is considered as pushing the theme that the Nazis might have won the war had it not been for sabotage and stupidity on the part of some of its non-military key figures. The Borchert drama told of a German prisoner's experiences in a Russian prison camp, and the soldier's return to the Fatherland. It was considered heavily propagandistic, too. Borchert, incidentally, actually was a Russian POW and died recently at the age of 26 from jaundice acquired while in captivity.

Art (Webfoot) Watts has opened at the Mayfair, Dayton, O., as house comic. . . . Solid Selling Job Helps

ELIZABETH, N. J., Feb. 28.—Polack Bros.' Circus (Eastern Unit) opened a four-day run at the local armory Wednesday (25) night to a near-capacity house and an advance sale assuring good business for the run. This is Polack's first invasion of New Jersey, last week's successful run at Camden and good reception here proving this to be good circus territory.

Bill Green, publicity director, did a bang-up job at Camden and Elizabeth, landing stories and pix in local sheets and in Philadelphia and Newark dailies. The New Jersey stands are under Tall Cedars of Lebanon auspices and are to be annual events. Green left for Akron after the opening here to publicize next week's stand there.

Personnel here included C. V. Badger, director; Mrs. Mae L. Badger, assistant director; Nate Lewis, announcer and ringmaster; Fred Proper, concession manager; Proper's assistant, Al Hyman, and Mrs. Betty Proper, secretary.

N. Y. Sports Show Under 1947 Biz

NEW YORK, Feb. 28.—The 11th annual National Sportsmen's Show wound up its 10-day run at Grand Central Palace Monday (23). With the exception of a six-inch snow fall Sunday morning (22) the show was favored by good weather. Despite the favorable weather, attendance, while good, failed to equal that of last year which topped all post-war records of the annual.

While the show received much favorable publicity, there was some criticism by sports scribes regarding the large number of exhibits and attractions only remotely related to sports. Fully half the floor space was occupied by shooting galleries, walk-thrus, arcade machines, and pitchmen and considerable space was occupied by home furnishing equipment and gadgets of little interest to sportsmen.

H-M Tops '47 Memphis Date For Shriners

MEMPHIS, Feb. 28.—Final check on attendance for the sixth annual Alchymia Shrine Indoor Circus here, February 14-20, with Hamid-Morton providing the attractions, revealed a total count of 70,074, a hike of 4,713 over last year, Vernon L. McReavy, who handled the promotion for the seven-day, 14-performance stand, said.

Officials stated that by using the gallery for standing-room-only patrons for the first time this year, show was able to overcome the slack in attendance at Monday night's (16) performance and Saturday (14) matinee and night shows.

Starting Tuesday (17) and continuing thru Friday (20) show played to turnaways at every performance. Date proved the biggest in Hamid-Morton's six-year history here and showed an increase of 60 per cent over last year. Weather, said McReavy, was ideal thruout.

Paul Van Pool, Joplin, Mo., veteran circus fan, plans to leave this week on a trip to New York.

Harry Atwell, Circus Photog, Was Fave of Teddy Roosevelt

(This is the second of a series of little-known facts about prominent people in the outdoor show business.)

By Herb Dotten

AS PRESIDENT of the Atwell Luncheon Club, Chicago's unique six-noons-a-week gathering of outdoor show folk named for him, Harry Atwell for 17 years has been greeted as "prez," the title he has held ever since the club's formal founding in 1931. Few of Harry's present-day greeters, however, are aware that the Chicagoan, now widely known for his specialty as a circus photographer, once was the choice photographer of a U. S. president and a would-be president, Theodore Roosevelt and William Jennings Bryan, respectively.

Harry recalls those days with unconcealed delight. His associations with both the rough rider and the silver tongued orator were unusual, especially in the light of present-day campaigning practices.

It was Teddy himself who picked the Chicagoan to serve as photographer on a cross-country tour in behalf of the Bull Moose Party. At that time, Roosevelt was a silent partner in *The Outlook*, a magazine which plugged that cause, and Teddy picked the staffers who were to accompany him.

"Teddy loved personal publicity," Harry recounts, "and the colonel always went to great lengths to see that I obtained an advantageous position near the reviewing stand or speaker's platform.

"The incident which stands out in my mind was the time that he came to my rescue and fixed my camera," Harry points out. "Just before boarding the train, I found my Graflex box had gone haywire. There was nothing I could do but get on the train and try to fix it. Soon after the train pulled out, Roosevelt came to my door and wanted to know if I'd be ready to shoot at the first stop when he went out to the platform to greet his expected admirers. I explained my predicament. He told me not to fret, that he would be back to help me. A few moments later he returned, this time shirtless.

Teddy To Rescue

"He sat down alongside of me, grinned and said, 'I've never handled anything like this before, but we'll see what can be done.' Together we fixed the box, and at our first stop I was successful in getting some of the best pictures ever taken of the colonel."

As a cub photographer, one of his earliest assignments was to get a picture of William Jennings Bryan. He got it and it was outstanding. Bryan himself thought so, and three years later Bryan's memory of it helped Harry get an exclusive picture. On that occasion, Bryan, who then

2,500 on hand for matinee —Sweeney and Edwards do big job with publicity

CHICAGO, Feb. 28.—The weatherman failed to smile on Polack Bros.' Shrine Circus here Friday (27) as the show bowed for a 17-day stand in the Medinah Temple, but it didn't hurt the opening day's business.

Despite the rain, some 2,500 were on hand for the matinee, which equaled last year's matinee opener, and at an early hour Friday all reserved seats were sold for opening night. By show time it was a sell-out, general admissions going at a fast pace.

Among the 2,500 at the matinee were 1,000 underprivileged kiddies and war veterans from Hines and Downey Veterans' hospitals.

The program, with one exception, was the same as has been playing the Western Unit this season. Added for the show here was Irene Lafferty and Her Dogs.

Prices this year were approximately the same as a year ago, altho there was a slight hike in the cheaper seats. Medinah Temple seats 4,500 persons.

Irving J. Polack's press agents did a bang-up job on pre-show material. Al Sweeney is handling the newspapers, getting plenty of stories and pictures in advance of the show, and Justus Edwards, regular Polack press agent, handled radio. Edwards had two and three shows a day previous to the opening and his schedule called for a like number of guest shots each day for the rest of the stand. Sweeney works for the Polack org for the Chicago engagement only.

Springfield, O., Without Lot

SPRINGFIELD, O., Feb. 28.—The outlook for Springfield to have a circus this summer, at least within the city limits, isn't bright, according to Park Superintendent R. W. Mefferd.

According to Mefferd there is no room for one in the city limits this year because the old fairgrounds, where the big top has been pitched for many years, will be landscaped for six baseball diamonds by the Church Athletic League.

Cole Bros. seeks a May date here.

Cincinnati Fans Host To Polack Personnel

CINCINNATI, Feb. 28.—The Loyal Repensky-John Robinson Tent of Circus Fans, this city, staged a party for members of the Polack Bros.' Circus at Forest View Gardens, near here, Sunday night (15).

Entire personnel was invited and most of the folks attended, including Irv J. Polack; George W. Westerman, promotion manager; Ross Paul, assistant manager; Jack Klein, emcee-announcer, and Justus Edwards, publicity director. Albert Mayer, Will Dammarell, Cecil (Red) Scott, Don Fosgate, Dr. William Huebener and Art Becker, of the local fans org, were on the job in making the party a merry one for the guests.

North Back, Reports Inking 20 Acts; N. Y. Preem Set for April 7

NEW YORK, Feb. 28.—John Ringling North, president of Ringling Bros. and Barnum & Bailey Circus, returned here yesterday following a lengthy European talent scouting trip. His noon arrival at LaGuardia Field coincided with the report that the Big One would preem at Madison Square Garden April 7, for a 33-day run ending May 9. A probable 65 performances will equal the number staged last year when the circus racked up an estimated record \$2,000,000 gross.

North, who was met at the airport by Art Concello, circus general manager, and Bill Fields, well-known Broadway press agent who handles special assignments for the Big One during the New York showing, said that he had booked a total of 20 foreign acts but did not reveal their names.

From overseas, however, comes word that one of the acts booked is Lulu and Albertson, English clowns, who were recently with Tom Arnold's Indoor Circus at the Harringay Arena, London. They are scheduled to sail from England March 20 on the liner Queen Elizabeth. Lulu and Albertson are not new to this country, having appeared here last with the Ringling show in 1936.

Also reported inked by North are

Unus, high pole balancer, last with the Circus Knie, in Switzerland, and Francis Brunn, juggler, who was found in Spain.

North's trip included England, Belgium, Holland, France, Switzerland, Italy, Spain and Portugal.

Roland Butler, chief of the circus press section, announced at Sarasota quarters the appointment of Gardner Wilson, a former department member, as story man. Wilson, who is expected to join about March 15, was with the Big Show from 1938 thru 1942. He was with the Al G. Barnes Circus before joining Ringling.

Circo Flamante Opening Is Set

SAN BERNARDINO, Calif., Feb. 28.—Circo Flamante opens its season here April 14 under auspices of the Ispana Americana Lodge. Show will play all dates under Mexican auspices. A special ticket set-up has been arranged.

The program will be made up of acts from Mexico, including the Adolfo Morales Family, wire walkers and foot jugglers; the Macias Troupe, acrobats; Ravinito, musical clown; Senoria Candida, contortionist; George Lopez and Company, Spanish singers and dancers; Don Procopio and Dulcina, musical

Three Performances Set For Glendale, Ariz., Rodeo

GLENDALE, Ariz., Feb. 28.—Three performances are planned for the second annual rodeo and gila monster race slated here March 13-14. Two shows will be held March 13 and one the following day, with each being capped off with a gila monster race, a feature that won wide acclaim last year.

The Glendale Lions Club is sponsor. Jimmie Edwards is rodeo chairman. A program of street dancing and bullpen punishment for whiskerless male citizens will start March 6.

Clemans, Colburn To Stage Phoenix Rodeo for Jr. CC

PHOENIX, Ariz., Feb. 28.—Twain Clemans and Everett Colburn have been given a contract to present the Phoenix Junior Chamber of Commerce World Championship Rodeo here, April 9-11. Roger Hagel, rodeo chairman, said Abe Lefton will be the announcer.

Clowns will be George Mills, veteran performer, and Andy Womack, Phoenix building contractor.

Martin Bros. Enjoys Good Business on Southern Tour

STANFORD, Ky., Feb. 28.—Martin Bros.' Circus is enjoying good business on its Southern tour, despite some bad weather. Gray, East Bernstadt, Brodhead and Stanford, in Kentucky, gave with good business. Strong school tie-ups and heavy promotional sales made for red ones in Mount Vernon and Berea, Ky., and Tazewell, Tenn., home town of General Agent Jimmy DeForrest, proved the banner matinee of the season. Rogersville and Washburn, Tenn., gave with good business.

James M. Cole Announces Staff

PENN YAN, N. Y., Feb. 28.—James M. Cole, owner of the circus bearing his name, announces his staff for 1948.

Cole and his wife, Dorothy, will act as manager and treasurer, respectively. Charles J. Meyer is general agent; Harry Kackley, contracting agent; J. E. Hill, brigade manager; Bill Nippo, 24-hour man; Carl Wyche, big top boss canvasman; George Bell, big show band leader; Joseph Robinson, superintendent of light plants; Blackie Abbott, prop boss; Leon Bennett, side show manager; Norman Anderson, superintendent of concessions; Frank Murphy, reserved seats superintendent; (See James M. Cole Staff on page 96)

Rodeo Clowns Stage Special Show for Sick Youngster

YUMA, Ariz., Feb. 28.—Zeke Bowery and Scotty Bagnell, clowns with the Silver Spur Rodeo here February 14-15, gave a special show that wasn't in their contracts the first day of the show.

While riding their trick ponies in the parade which preceded the opening show they noticed a little girl at a window of a home along the parade route.

Informed that the girl was missing the show because of illness, the two joeys dropped out of the parade and put on a special performance on the lawn for the sick child.

Fernie, B. C., Officers

FERNIE, B. C., Feb. 28.—Officers elected at the annual meeting of the Fernie (B. C.) Rodeo Association are: President, Joe Webster; vice-president, Albert Bosio; secretary-treasurer, Frank Dvorak.

Record Seen For Mil'kee

Kenyon predicts crowd of 84,000 for Wisconsin engagement—Zacchini hurt

MILWAUKEE, Feb. 28.—The Hamid-Morton Shrine Circus, which has been doing increased business each year it has shown here, probably will chalk up an all-time record attendance mark when final figures are available.

Altho seating capacity of the Auditorium is listed at 5,600, extra seats were brought in, and the set-up, as prepared for the show, probably brought the capacity closer to the 6,000 mark.

Sees 84,000 Persons

Omer J. Kenyon, who handled this promotion for the H-M org, estimated that total attendance will hit the 84,000 mark, which, if it does, will beat last year's attendance, itself a previous all-time high.

Org's run here is seven days, with two shows given daily. The weatherman co-operated the first four days, giving ideal weather and the show did near-capacity. Friday saw rain but it didn't hurt attendance. From the fourth day on every show was a sell-out. As early as Thursday (26) signs were posted in the auditorium (See H-M Mil'kee Mark on page 96)

Heney, Vet Agent, Passes in L. A.

LOS ANGELES, Feb. 28.—Funeral services were held here today for Tom Heney, for 45 years an advance man for circuses, who died suddenly Monday night (23) in his room at the Cecil Hotel as he was preparing to leave for Gonzales, Tex., to again take over duties as contracting agent for Dailey Bros.' Circus, a post he had held for more than three years.

Born in Peekskill, N. Y., 74 years ago, Thomas Francis Heney was reared in Iowa. Starting independently in show business, he joined Al G. Barnes Circus more than 20 years ago as an advance man. Since then he had been associated with Tom Mix, Russell Bros. and Clyde Beatty circuses.

Heney made San Francisco his home between seasons. He was a member of the Elks and Pacific Coast Showmen's Association. A bachelor, he is survived only by a brother, John, of Joplin, Mo.

PCSA held services at the Bressee Bros. & Gillette Mortuary and rosary was recited last night. Funeral services were at St. Vivian's Catholic Church this morning, with burial in Holy Cross Cemetery.

New Animal Exhibit Formed

JACKSON, Miss., Feb. 28.—C. C. Smith, former secretary of Bailey Bros.' Circus, has bought into W. F. Duggan's Animal Show, which will go out this season as the Pan American Museum and World-Wide Animal Exhibit, reports Ben Thomas, who has left the Bailey show to be general agent of the animal unit. Thomas said \$20,000 has been spent in enlarging the Pan American show which is expected to tour thru about 20 States this year.

DRESSING ROOM GOSSIP**Polack Bros. Western**

We had everything in Cincinnati, balmy spring weather, five inches of snow, sellouts, and three-show weekends.

Everyone is talking about the exhibit of paintings of the circus artists, Glen and Mimi Tracy, coinciding with the show's run. The canvas of the Ward-Bell Flyers stole the show.

Gene Haerlin, Dayton Shrine committee, George Bradford, Judge M. E. Schlafman, Bull Buvinger, potentate, and Ernest Steiner previewed the show before our run in their city.

Visiting Clint Barnes were numerous school chums of 40 years ago from Hamilton. Slivers Madison enjoyed giving orders to his former colonel while backstage. Dr. and Mrs. William C. Huebener and Mr. and Mrs. William J. Dammarell, CFA, entertained several members of the cast at their homes. Other visitors were Mark and Marcia Wells, vaude dancers; John B. Tetlow, Columbus, O., and Ludwig Berosini.

Other items of interest were the formal opening of the back-yard grease joint by U. S. Beck, of the Waldorf; the toilet water treatment of our midget, Morris; Ed Raymond's forcing his photographs on all the performers; Paul Jerome's contract terminating the closing day, and Rudy Docky's transferring to the Eastern unit with his new boxer dog act.

Mr. and Mrs. Joe Berosini made a flying trip to Miami to pick up their trailer. Francisco, king of the swaying gas pipes, went to his home in Rochester, Ind., to repair his rigging. Gus and Betty Bell, Harold Ward, Mildred Keathley, Justus Edwards, Arthur and Dorita Konyot, Josephine, Vickey, and Otto Berosini, Francisco, Harry Dann, Don Dorsey, Clint and Harold Barnes and visitor, Norine Parkin, had a postman's holiday visiting the Hamid-Morton show in Milwaukee.—HAROLD BARNES.

Martin Bros.

With the departure of Willie Rawls for Southern shores, the basketball team suffered a physical and spiritual let-down. With the enthusiasm of a Notre Dame football team, Coach Willie never failed to have his stalwarts aroused and mentally alert for every contest. Col. Horace Gatchell was elected new coach. The starting line-up was somewhat juggled as Pups, Kressie and Miami drew first-team honors, sending Higgs, Hubler and Sebastian to the showers. Most recent game was with Stanford, Ky., High School. Injuries and wind shortages were numerous, plus an owl-eyed referee whose numerous close callings of foul plays left the Martin show with only three players on the floor, two of whom were able to stand. Most baskets were made by Kressie. Harry Rawls collided with Bob Stair and will be out of basketball, not to mention the whip and rope department for a few days.

Several visits were had with Mr. and Mrs. Shropshire, who run the Four Paw Hotel, London, Ky. Visits also were made to the Renfro Valley Farm.

Show staged a parade at Stanford. The spectacle boasted two bands, show stock, girls, clowns, sound car, several parade wagons, a local pet parade and beauty queen. Jack Frazier's truck provided the steam, but lacked the calliope. Corky Frazier did a bang-up job of driving and kept the rods tight. Corky also has been doing a bang-up job on working the come-in, especially the days when he gets made up before the show starts.

Colonel Gatchell's Miracle Dogs and the Red Devils novel fire act have been going over exceptionally well.—GEORGE HUBLER.

Circo Atayde

The birthday celebration for Kay Francis Hanneford was carried off in big league style. Flowers were presented during the performance; pictures were taken and the band played appropriate music. Following the night show, the personnel joined the festivities. Mrs. K. Hanneford served a delicious meal. The birthday cake was a masterpiece, portraying a circus ring, complete with horse and lady rider. True to form, Mrs. Hanneford forgot to serve the salad until everyone had started on the desert. Dancing followed the dinner.

George Hanneford did it! He told Hubert Castle about the wet day the clowns swam down the front track. Castle closed—this engagement, that is. The fact George topped his (Castle's) tall tale had nothing to do with his closing, however. The Pat Knight Trio, wire, replaced him on this program. Pat increased the height of his new nickleplated pedestal by one foot. Looks nifty, too.

Elsie Zacchini and her two children arrived. Hugo and the cannon were delayed temporarily at the border.

The culprit who has been tossing firecrackers into the dressing room better beware. If caught, he will be forced to eat an enchillada without a cooling beverage.

George Neisen paid a visit en route to vacationland.—BOB BEHEE.

Circo Americano

The events of the past few weeks have been much too exciting to miss telling our friends about, so I am going to pinch-hit for Jimmy Harrington, who has been doing advance work for the show for the past month and a half.

We left San Miguel, El Salvador January 30 and arrived in Managua, Nicaragua February 1, personnel via Pan American and material via trucks. Every night, after the evening performance, the performers have been getting together for a swim party in the pool at the Gran Hotel. The pool has been getting a good day-time play also, and Billy Pape and Rene are sporting luscious tans.

The put-up here was a tough one, as for three days after our arrival we had terrific high winds. Storm warnings had been posted at the American Embassy, and they later told us that we had gotten the tail end of the hurricane which had hit Panama.

Directly in front of our lot, on the Malecon, is a carnival complete with rides and pitch joints, and our back yard is on the edge of the beautiful Lake Managua, on the other side of which sit five baby volcanos.

The latest newcomer to the show is Floyd Crouch. Don Floyd's version, on the tight wire, of the South American samba to Tico Tico is making a hit with the people here. Another recent addition is the swinging ladder act of Nellié Infante and Shirley (See CIRCO AMERICANO, page 56)

Polack Bros.' Eastern

After a short layoff the show got away to a good start in Camden, N. J. A rodeo preceded us, showing nine days in the Armory. We played Convention Hall. Business picked up each day. Henry Barrett handled the promotion.

Ambrose McCune, of the McCune Family of acrobats, visited with the writer. Jim McKay, drummer with the show's band, spent most of his spare time at the Kellmayer Music Store, visiting with Oliver Bundick, veteran vaude drummer. William Barton, cloud swing, joined in Camden. Mr. and Mrs. I. J. Polack made a quick trip to Chicago.—CHARLES E. POST.

Clyde Bros.

Show packed 'em in at the Auditorium in Oklahoma City, auspices of the Optimists' Club. Trailer lot was close to the theater, which helped immensely due to three days of rain. Jimmy Armstrong left the org there to join Ringling-Barnum in Sarasota, Fla.

Working the Oklahoma City date, in addition to the regular line-up, were the Gallaghers, Fussner and Fred Valentine's flying turn. Harley had a breakdown but arrived in time to perform. Visitors in Oklahoma City were Black and Bernice, Evelyn Rossi and mother, Paul Jerome and Jimmie Armstrong's mother and sister.—VAN WELLS.

Winter Quarters**Dailey Bros.**

GONZALES, Tex., Feb. 28.—Jack Knight returned from Harlingen, Tex., and reported a successful engagement there with Rogers Bros. The hot weather in quarters has all the trainers going around with their tongues hanging out trying to break enough acts to fill those five rings. The bareback riders are working outside until the next rain.

Tiger Bill Snyder commutes from his home in Waelder, Tex., to work on wagon building.

Mrs. Ben Davenport, Jean Allen and Hulda Weid are en route home from a Florida trip. Many of the Dailey personnel caught the Rogers Bros. opening in La Grange, Tex., February 14. The performers were handicapped by a muddy lot.

Visitors have included Mr. and Mrs. Frank M. Lewis, who were guests of Ralph and Myque Noble; Mr. and Mrs. Earl Jinks, who spent a few hours with their friends, Mr. and Mrs. Dave Curtis; Dan Fast, June Russell, Earl (Hoppy) Chapman, Jeff Kaiser, Tommy Junedes and his partner, and Doc and Mrs. Warner.—HAZEL KING.

Stevens Bros.

HUGO, Okla., Feb. 28.—Mr. and Mrs. Bud E. Anderson have arrived at quarters here. The new side show top, a 60 with two 30's, has been received from the Rogers Tent & Awning Company. An elephant has been purchased from W. C. Richards, Pensacola, Fla.

Order has been placed with Central Canvas Company, Kansas City, Mo., for a new big top, a 70 with two 30's and a 40. The 40-foot ring in center will allow ample space for the 12-horse Liberty turn, while six-horse acts work in the two 30-foot end rings. Poles and eight-high seats are being built at quarters. General Agent John Foss is working on a new line of special paper. One car and two trucks, with seven men, will be on the advance. Managers Anderson and Bob Stevens state that the org will open about middle of April.

Star Bros.

Things are humming in quarters. Blackie Wood is training a new high-school horse. Pete Wood and family returned from their winter vacation in Florida.

In quarters are Max White, general agent, who returned from a booking trip in Mississippi and Alabama; Doc and Sybil Roberts, front door and concert, respectively; Earl Simms, boss canvasman; J. T. Rambo, boss canvasman on side show; Fred Morgan, boss stockman; Alvin Burns, mechanic and electrician, and Brauner and Kenne, who have charge of concessions.

Show's big top will be a 70 with two 30's. The side show top will be a 40 with two 20's. Org will open around April 1.—MRS. PETE WOOD.

Frank Anders, member of King Bros.' staff the last two years, recently underwent a serious operation in St. Luke's Hospital, Chicago.

Nelson Thomas, formerly with the Cole, Ringling, Hagenbeck-Wallace and Beatty circuses, will have the No. 2 brigade on the Kelly-Miller show. Three men will be in his crew.

Kelly-Miller Org's Ad, Pub. Staffs Expanded for '48

HUGO, Okla., Feb. 28.—Advertising and publicity departments of the Al G. Kelly & Miller Bros.' Circus have been considerably enlarged for the coming season, with the No. 1 car comprising a crew of 11, John Grady announced from show's local quarters this week. A brigade of three will bill the Sunday and opposition stands, and rolling stock will be made up of a supply car and three new panel trucks, according to Grady.

J. Eddie Holmes again has been inked as press agent. Albert C. Lindemann will manage the No. 1 crew, with Nelson Thomas in charge of the brigade. Grady said that several new styles of special paper have been received. They include an attractive five-color poster featuring the show's giraffe which will be made up in three sizes. A newspaper mailing list will be used daily in addition to two different types of streamer heralds.

A large variety of animals in addition to 10 elephants will be carried by the org this year.

Leontini, Torrence Hurt in Auto Crash

CHICAGO, Feb. 28.—Jack Leontini, secretary-treasurer of the Independent Circus Corporation, which operated the Wallenda Circus last season, and Frank Torrence, former aerialist with Ringling-Barnum and now in the concession business, were injured in a car accident near Tunnel Hill, Ga., Tuesday (24).

According to Leontini, who with Torrence arrived in Chicago Thursday (26) on business, they had Torrence's trailer hitched to the car. Near Tunnel Hill the trailer hitch broke and the car skidded into the ditch. Leontini suffered a head cut and a bruised nose. Torrence escaped with minor bruises. The trailer was smashed.

Leontini and Torrence were en route to Chicago from Sarasota, Fla.

Morgan To Open His Oxford Lake Spot March 25

ANNISTON, Ala., Feb. 28.—W. E. Morgan, manager of Oxford Lake Park here, announces the funspot will open for the season March 25. "This is a few days earlier than our usual opening," Morgan said, "but in order to get Easter Sunday, which always has been a winner here, it is necessary to open earlier this year."

The park operates seven days a week and will run thru Labor Day.

Morgan says the spot has been renovated and improved in the last two years, and, he says, with the new riding devices recently added, "I am really optimistic about the outlook for this season."

Free acts will be used Sunday afternoons during the season, Morgan says. These proved highly successful and Morgan plans to enlarge this part of his program. The policy of free admission to the grounds and picnic grove will be repeated again this year, Morgan said.

Sitting 'Round the Table

(Editor's Note: The current question is "Are you in favor of reduced prices on rides and concessions for off nights? What nights do you consider as off nights?" Response has been good to this question, but it could be a lot better. Certainly you, as a park owner or operator, have ideas on this subject. How about sending your ideas in so that other park men may benefit by your experience? Mail your views now to the Outdoor Editor, The Billboard, 155 North Clark Street, Chicago 1, Ill.)

Doesn't Like It

I do not consider it good business to operate at reduced prices at any time. The particular business or concession should be set up to provide a fair margin of profit to the operator. Off nights should be corrected either by additional advertising for those nights or added attractions. In my opinion, many businesses are ruined by reducing prices below a safe operating margin.

My contention is that if you have what the public wants, at a fair price, and in a locality where there is sufficient people, you will have plenty of business.—G. W. FRANCISCO, Pulteney, N. Y.

He Fixed Mondays

Monday and Friday nights always were off nights until some 15 years ago, we decided to do something with Monday night, which was the poorest of the two. We advertised a nickel night and it took effect immediately and in a season or two we had such crowds that parking space was insufficient.

It turned out to be such a gala night that bus loads came from distant points for the occasion. In fact, the crowds got so big and the demand for rides, especially, so heavy that we decided to overflow it into Friday night. This night in turn became as heavy as the Monday night and this went on until the war, which, due to our isolated location, put a stop to practically all activities at our park, due to gas restrictions.

After the war, we again put out these inducements and they are coming back again. In the meantime, however, we have run the special price to 10 cents, including tax. This probably has held down the attendance somewhat, but it still is a bargain for these days and people will fall for bargains. We made the cut in price effective only on rides. The other concessions in the park have enjoyed the increased business at regular prices. We are very definitely in favor of this practice, having had a long time to try it out.—LEWIS

Zoo Loses Chief Attractions; Is Forced To Close

YARMOUTH, N. S., Feb. 28.—Noah's Ark Park, which maintained a zoo of native animals and birds, has been forced to close its zoo because of the high cost of feed.

Because of the inflated prices for food for the animals, the Nova Scotian government was asked to allow a grant of money per year for the upkeep. Government officials, however, refused. It was necessary to discontinue the zoo and get rid of the animals.

Replacing the zoo is what is said to be the first and only chincilla ranch in the maritime provinces.

Zoo officials say the zoo may be resumed, with different animals and birds, when the price of fodder drops.

To Open Funspot in S. C.

COLUMBIA, S. C., Feb. 28.—A charter to operate an amusement park was granted recently by the secretary of State to the Ascaugh Club at Warrentonville. J. C. Phillips was named as president of the club, which is capitalized at \$1,000.

KRAUS, manager, Bertrand Island Park, Lake Hopatcong, N. J.

Not Wise

No, I do not believe it wise to reduce prices on what is termed off nights. If you set nights at reduced prices you will find the public waiting for such nights and then your other nights will suffer, making all nights off nights.

I do think it nice to have a family night, but this night must be set up as a regular, not just a stimulator.—J. L. PENICK, manager, Fairgrounds Amusement Park, Memphis.

Schott To Address N. E. Park Meeting

BOSTON, Feb. 28.—Edward L. Schott, president of the National Association of Amusement Parks, Pools and Beaches (NAAPPB), will speak at the afternoon session of the annual meeting of the New England Association of Amusement Parks and Beaches at the Parker House, Wednesday, March 10. Paul H. Huedepohl, secretary, and a number of directors of the NAAPPB are also expected to attend.

President Harry Storin and Julian Norton, program chairman, have announced that all speaking will be confined to the morning and afternoon sessions. Additional talent is being booked to take the place of the usual speeches at the banquet.

Forums on most phases of amusement park operation and speakers from outside the industry have been skedded for both morning and afternoon business meetings.

Rockaway Playland Adds Machine Shop

NEW YORK, Feb. 28.—A. Joseph Geist, operator of Rockaway's Playland at Rockaway Beach, has installed a machine shop and an art atelier on the park premises.

Machine shop is capable of turning out practically all replacement parts for rides and equipment in the park, and the shop crew is currently building a stockpile of spare parts.

The art shop has been set up to create new layouts for the park's buildings and rides. Under supervision of Edward J. Hayden, it is at present designing a new Funhouse, the facade and interior of which will be made by the art department.

A. C. Beach Rebuilding Will Cost \$667,163

ATLANTIC CITY, Feb. 28.—Revised plans for building up this resort's beach places the cost at \$667,163. If the State approves the project, it will contribute \$297,178 of the cost with the city paying the remainder.

The State has previously spent \$78,000 here as its share of rebuilding five stone jetties since its original appropriation for beach protection in Atlantic City following the 1944 hurricane and has earmarked an additional \$154,000 for the 800-foot jetty now under construction.

Mr. and Mrs. Ed Carroll, Riverside Park, Agawam, Mass., attended the Pep-Sierra fight in Miami Tuesday (24). They expect to head north March 6 to attend the annual meeting of the New England Association of Amusement Parks and Beaches at the Parker House, Boston, March 10.

Spangler Hits Chi; Says Biz Outlook Is Good

CHICAGO, Feb. 28.—R. M. Spangler, owner of Rolling Green Park, Sunbury, Pa., visited in Chicago this week, en route home after a trip to the West Coast and Mexico, and predicted that outdoor show business this year would enjoy another big year.

"I don't say we'll be able to get the fancy prices of a few years back, but I believe the business will be there for us. We'll need to do a bit more promoting, to be sure, but if you go after the business, such as picnics, etc., we'll wind up the year okay," Spangler said.

Spangler, accompanied by his wife, visited many parkmen on the West Coast and South on his trip, including Harry Batt at Pontchartrain Beach, New Orleans, and Mrs. Minette Dixon, Lake Winnepesaukee, Chattanooga. While in Chicago, the Spanglers were guests of their son and daughter-in-law, Mr. and Mrs. R. M. Spangler Jr. The senior Spanglers expect to leave early next week for home and Spangler will attend the New England park meeting.

Regarding his own park, Spangler said it will open for week-end operation May 1 and for daily operation May 30. Rolling Green Park this year will boast a kiddieland, Spangler having purchased three rides as a starter, a kiddie whip, boat ride, and horse and buggy ride.

Other improvements at Rolling Green include the enlarging of the refreshment stand and the building a 600-foot retaining wall along the creek which runs thru the funspot.

As a promotion, Spangler says he will use free movies this year. The free acts and band concerts on Saturdays, Sundays and holidays will be continued. The Rolling Green owner said he had a total of 600 picnics last year and the outlook is he will beat that mark this year.

While in Los Angeles, Spangler reported renewing an acquaintance with Grant Allman, advance man for the John R. Van Arnam Minstrel Show back in the early '20's. "John recently sold his parking lot out there and he is more or less retired now," Spangler said.

Petition Withdrawn For Norwalk Spot

NORWALK, Conn., Feb. 28.—Because of the opposition of residents and property owners who appeared at the public hearing held by the zoning board of appeals for reopening Roton Point Amusement Park here as an amusement resort (Billboard, February 28), the Roton Point Corporation thru its chairman, George F. McKendry, withdraw its petition.

McKendry intimated that negotiations are under way for future use of Roton Point Park, which for 70 years has been the mecca of Southern Connecticut and New York excursionists.

CNE SEEKS ENGLISH TALENT

Hughes Sails Soon on Hunt

Would present imported acts in front of grandstand, also import large band

TORONTO, Feb. 28.—Canadian National Exhibition this year will feature variety talent and bands from England.

This was indicated here Wednesday (Feb. 25) at the annual meeting of the Canadian National Exhibition Board when Elwood A. Hughes, general manager, outlined what he planned to seek on his coming trip to England.

Hughes, who will sail March 12 on the Queen Elizabeth, says he plans to scout for the best variety talent. Successful in spotting outstanding acts, which will be available during the CNE run, they will be contracted for appearances in front of the new 4,800-capacity grandstand now under construction.

May Merge Bands

The CNE head also said he will investigate the possibility of bringing over one large English band or bands. In pre-war years, the presentation of a large imported band, such as the Coldstream Guards, was a regular feature at the exhibition. In the intervening years the English bands have been reduced in size and it may be necessary to merge two or more of them to build a musical aggregation which may number between 75 and 100 men and then bring that organization here.

Hughes will remain in England for three or four weeks, he said.

205G to City

At the CNE meeting here the sum of \$205,000, part of the profits of the 1947 exhibition, was turned over to the city of Toronto, which owns and operates the exhibition thru the exhibition board.

J. W. (Patty) Conklin, who with his brother, Frank, holds a long-term CNE midway contract, arrived back from an extended trip to the U. S. to attend the meeting here.

Mitchell Continues as Richmond Expo Mgr.; Create New Position

Robert M. Hazlewood, a contractor, banker and farmer, has been named general manager of the Atlantic Rural Exposition, Richmond, Va. The position is a newly created one and will not disturb the status of J. A. Mitchell, who will continue to serve as exposition manager. Idea of new position is to spur the development of the annual. "Plans have been made to provide new interest among all farm and home groups, schools and clubs," Hazlewood said after being named to the position.

The Placer County Fair, Roseville, Calif., will have a new \$8,000 granite gate, according to Hanford A. Crockard, president of the Placer County Fair Association, who said a contract for the job will be awarded in the near future. The new entranceway will be of concrete and faced with granite quarried in this county. It will be 50 feet behind the present gate. Other construction planned this year includes an exhibit building to cost approximately \$100,000. Plans for this structure must first be approved by the county board of supervisors.

One of the noteworthy features of the advance campaign of the recent Florida State Fair, Tampa, was a booklet consisting chiefly of photographs of the 1947 fair. More than 120 pictures are presented, one to a page, with the printing in an attractive green and the cuts carrying one-line captions. Pictures range the entire fair, with strongest emphasis placed on exhibits, commercial as well as agriculture and livestock.

All-Iowa Fair, Cedar Rapids, this year under the new management of Andy Hanson, will return horse racing to the program. Hanson has dreamed up an All-Iowa Derby,

The premium list will offer \$3,000 in prizes.

Set Dates for La. Yambilee

OPELOUSAS, La., Feb. 28.—The 1948 third annual Louisiana Yambilee will be held October 6-7, said J. W. Low, chairman. Barry Norman, chamber of commerce secretary, has been named manager. Other officers will be selected at a March meeting,

which will be billed as the event to determine the fastest horse in Iowa. Other features contracted include a society horse show for one night, two afternoons of auto races to be presented by Frank R. Winkley; two afternoons of thrill shows, with Capt. George V. Waltz, airplane stunter; a night grandstand show by Barnes-Carruthers Theatrical Enterprises, Chicago, and a one-day appearance of the White Horse Troupe. Hennies Bros.' Shows will be on the midway.

Fire February 17 destroyed a large horse barn at the Franklin County fairgrounds, Hilliards, O. The building, built at a cost of \$10,000 in 1927, was leveled within 30 minutes. Eli Merrick, 76, Columbus, O., the fair's caretaker, sustained burns on his hands and neck in fighting the fire.

Roy E. Symons, treasurer-general manager of Skowhegan, Me., State Fair, reports that he has been awarded the franchise for Maine by the Miss America Pageant committee, Atlantic City, for the purpose of naming Miss Maine, who will be selected at the Skowhegan Fair in August. The winner will be awarded a \$500 scholarship by the fair, a wardrobe of evening clothes, a purse of money and all expenses to the annual Atlantic City event.

Eagle Grove (Ia.) District Junior Fair has changed its dates from August 16-18 to August 23-25, reports Secretary Gerhard Hanson.

Ralph W. Conley, well known among fair men in the East and Middle West, is now with the sales department of Ohio Fireworks Manufacturing Company, Bellaire, O., handling displays for fairs, parks and celebrations.

E. Buford Van Arsdale, president of Harrodsburg (Ky.) Fair and Horse Show for 28 years, has resigned and declined re-election to the board. He said he plans to devote his entire time to private business.

Several new buildings will be constructed on Champlain Valley Fairgrounds, Burlington, Vt., if exposition directors, under chairmanship of Dunbar Bostwick, are successful in raising \$50,000. Bostwick has sent (See *Around the Grounds*, page 56)

Latest feature to be added to the program, the California sheep dog trials, was announced by Prof. Robert F. Miller, of the University of California at Davis. Miller confirmed the choice of the Junior Grand National as the scene of this spectacular event which will be held Saturday afternoon, March 20, opening day of the show. It is expected that the sheep dog trials, held under auspices of the California Sheep Dog Society, will attract several thousand Pacific Coast dog fanciers and sheep ranchers who would not otherwise attend.

Jackson, Miss., Back to State

JACKSON, Miss., Feb. 28.—A bill cancelling the city's 25-year lease to the State fairgrounds has been signed into law by Gov. Fielding L. Wright. The property will revert to the State within 10 days.

Under terms of the bill, the Mississippi Agricultural and Industrial Commission will be in charge of the grounds and the operation of future State fairs.

Altho signed for a 25-year period, the lease to the city contained a clause by which the State could cancel at any time should public necessity demand.

The city's lease had run seven years.

Pomona Guns for 1,000,000 Attendance in '48 Revival

POMONA, Calif., Feb. 28.—Los Angeles County Fair is proceeding with plans to accommodate an attendance of at least 1,000,000 persons at its first post-war exposition, which opens September 17 for a 17-day run. This estimate exceeds by 200,000 the all-time record for one year set in 1941. This was disclosed by C. B. (Jack) Afflerbaugh, president-manager, at the recent annual meeting of the fair association when officers and directors were elected for another year. Officers, in addition to Afflerbaugh, are Arthur M. Dole, vice-president; B. Chaffey Shepherd, secretary-treasurer, Mrs. Gladys M. Donlavy, assistant secretary. Members of the board are W. A. Kennedy, chairman; Afflerbaugh, Fred C. Froehde, Phil J. Curran, M. E. Fellows, Dole, T. J. Brownrigg, Raymond E. Smith, Hugh W. Stiles, H. L. Stoker and Shepherd.

The annual report of Afflerbaugh reflected an optimistic outlook for the coming fair, tho a tremendous amount of work remains to be done in the over-all preparations. Reports from fairs that operated in 1947 have established that all sections of the country and Canada were amusement hungry and people attended fairs in unprecedented numbers, he said.

"With these flourishing conditions, it would seem logical for the Los Angeles County Fair to bend every effort to proceed with plans to accommodate an attendance of 1,000,000. "In my opinion," continued Afflerbaugh, "we are faced with a very serious problem in providing proper facilities to care for such tremendous crowds. It will be necessary to provide more eating places and rest rooms. With the additional land purchased this year, our auto parking facilities will be second to none in the United States.

"Since the government returned the fairgrounds June 9, 1947, the restoration program has been progressing satisfactorily, and so far we have been within the amounts set up for the individual projects."

Plans for the livestock buildings are completed and are now being checked by the county mechanical department, Afflerbaugh said. Advertising for bids will take place immediately. Work is now under way on the big agricultural building.

Sees Easy Space Sales

"The demand for industrial and concession space is very active," said Afflerbaugh. "We should not have any difficulty in disposing of all space at a substantial increase in price.

"Letters and charts of the agricultural building and photographs of the grounds have been mailed to all county boards of supervisors and horticultural commissioners who exhibited at the 1947 California State Fair.

"The premium book is now being revised and we hope to have the book in the mail by the first of June. Premiums will show an average increase of about 25 per cent, altho in some instances they will be more."

Premiums of the livestock department were given a substantial in-

crease, it was stated. This was done to compensate the exhibitors for the length of time (17 days) they are required to remain.

Housing Serious Problem

"Housing accommodations for exhibitors, judges, show people and everyone connected with the fair is one of the most serious problems the fair is now facing. Every hotel, motor court, apartment and rooming house in Pomona is almost filled to capacity. A concerted effort will have to be made for a reservation list of available rooms in private homes."

Afflerbaugh declared, "our finances reflect a building fund of over \$2,000,000. The Department of Finance has approved an allocation of \$1,150,000 from the fair and exposition fund for buildings and improvements."

He pointed out that since the 1941 fair, there has been an accumulated balance for each year from the fair's appropriation of \$125,000 from the State. Including this year's allocation July 1, this accumulation will total \$563,276.38.

New Roadway To Be Ready

Afflerbaugh said that in conferring with the county road department, assurance had been given that Genesha Boulevard will be completed by fair time. He added that this roadway would be one of the outstanding accomplishments since beginning of the fair. This thoroughfare is to be cut thru the hills from Garvey Boulevard directly to the fairgrounds.

The board of supervisors for Los Angeles County has accepted from the fair \$66,412 for purchase of the 44 acres north of the railroad right-of-way north of the fairgrounds, and has authorized negotiations by the county counsel and chief administrative officer with the fair association for inclusion of this property in the county fair agreement and preparations of the recommended agreement extension.

Afflerbaugh also confirmed the report that the fair has made a tie-up with the centennial observance thru the State whereby the fair will be a major contribution to the State-wide program under the theme "A Hundred Years of Progress."

Saskatoon Exhibition Skeds Light Horse Show May 27-29

SASKATOON, Sask., Feb. 28.—Saskatoon Exhibition board will put on a light horse show in the Stadium May 27-29, with 33 classes on the program and \$3,000 in prize money. It will be the first show of its kind sponsored by the board since 1941. A feature will be the appearance of Bill Martin's sheep herding dogs, from Maple Creek, Sask., which appeared at the National Horse Show in New York last fall. Martin's dogs will also be seen at the Regina Exhibition's light horse show, March 30-April 1.

Lethbridge, Alta., Plant Lease Is Renewed by City

LETHBRIDGE, Alta., Feb. 28.—City council approved the draft of a new lease on the city's fairgrounds plant to the Lethbridge and District Exhibition and Rodeo. Lease is for five years at an annual rental of \$1.

One alderman opposed the lease because, he said, he was unable to receive assurance that in employing persons the fair board would give preference to present employees of the city.

Ald. A. W. Shackelford, council's member on the fair board, explained he could not give such a guarantee as he held only one vote on the fair board.

Other aldermen felt the council should not interfere with details of operation of the fair board.

NIX PASSES--URGED IN CALIF.

Upped Admish Also Plugged

Recommendations made by legislative group in okaying \$1,503,276 Fair Budget

SACRAMENTO, Feb. 28.—Recommendations that passes be eliminated and that the admission be increased to 75 cents or more highlighted the action of an assembly subcommittee in approving a \$1,503,275 (1948-'49) California State Fair budget proposal recently.

Assemblyman Philip Boyd, chairman of the subcommittee of the ways and means committee, declared the admission should be 75 cents or higher. General admission to the fair has been 50 cents for years.

Assemblyman Glenn Anderson urged that the pass system be abolished.

"I think everyone should pay, including members of the Legislature, State officials, the press and others who now have special privileges," said Anderson.

Cites Success Elsewhere

Ted Rosequist, assistant general manager of the exposition, declared the Iowa, Minnesota and Tennessee fairs have adopted a "no pass system which works successfully."

Rosequist said that in 1941 about 102,000 out of 651,000 admissions to the State fair were thru the pass gates. He pointed out that legislators, State officials, members of police and fire departments and "50 other categories too numerous to mention," get passes.

"It is getting hard to draw the line on the pass situation," he remarked. "Everyone wants passes and the least deserving are the ones who put on most of the pressure."

Prune Newspaper Outlay

Assemblyman Lloyd Lowery obtained committee approval of a motion to cut the newspaper advertising item in the budget from \$70,000 to \$40,000. This was the only item the committee reduced.

The budget, which represents an increase of \$635,715, or 58 per cent over the 1947-'48 budget, calls for a substantial increase in horse race purses, a \$50,000 fund for possible wage and salary increases and other items.

Revenue is estimated at \$992,000 as against \$945,201 for last year's exposition. It is proposed to make up most of the difference between revenue and expenses by appropriation from the fair and exposition fund, which is supported by pari-mutuel racing pools.

Rosequist said the 1948 fair will run for 11 days (September 2-12) and that there will be nine days of racing instead of eight as in the past.

Money for New Site

The budget contains an extra item of \$1,250,000 to be spent during 1948-'49 toward acquisition of a new site. The Legislature has appropriated \$2,000,000 for this purpose.

The budget will be submitted immediately to the full ways and means committee for action. It must also be passed by the Assembly and the Senate.

Construction of 250G Midget Track Started in Cincinnati

CINCINNATI, Feb. 28.—Construction of a \$250,000 midget race track at Reading and Glendale-Milford roads here has been started, it was announced this week by Harry E. Marble, attorney for Cincinnati Raceways, Inc., the operating company which hopes to complete the project in time to stage races by late May. Events will be presented twice weekly until October, it was said.

Plans call for a quarter-mile banked asphalt track with a grandstand seating capacity of 7,500 and provisions for an additional 7,500 seats at a later date. The site bought by the firm takes in more than 20 acres, allowing ample parking space.

Officers of the company are Frank J. Hall, president; E. E. Stokes, vice-president; P. G. Vondersmith, secretary, and Edward Illig, treasurer.

CIRCO AMERICANO

(Continued from page 50)

Redmond, billed as the Andrea Sisters.

Friday, February 13, was our lucky day, as an elaborate banquet was given by Jerry and Janice Wilson for all the show in celebration of the first anniversary of the Circo Americano. The festivities took place at La Colmena restaurant after the evening performance. The personnel presented Janice and Jerry with a silver plaque on which was engraved a message of congratulations and the names of each of the artists. The performance that evening was in honor of Her Majesty, Berta, the Managuan Queen of Carnival, who attended with her court. There was a pause during spec while Her Majesty was presented with a huge basket of flowers. To each of her ladies was presented a corsage, compliments of Jerry Wilson.

The Saturday matinee (14) was hush-hush and very special. The show was given for President Roman Reyes and General Somoza of the Republic of Nicaragua and their families and friends. At the termination of the performance, President Reyes and General Somoza spoke to Jerry Wilson, complimenting him on the show.

Monday night, February 16, was another gala night, with the show presented in honor of the Association of Reporters (Chicos de la Prensa), which has been very co-operative during our stay here.—DOROTHY STOREY.

Minn. Board Nixes Still Date Events

Fair Races to Winkley

ST. PAUL, Feb. 28.—Minnesota State Fair Board, at its two-day annual attraction meeting, which closed here Saturday (21), turned thumbs down on leasing the fairgrounds for still dates this year. Attitude of the board was that stills might detract from the State fair.

Representatives of almost 10 organizations which sought to lease the track, chiefly for big car or midget auto races, appeared before the board. One of these offered to build a midget track in return for the privilege of using the plant.

The board contracted four days of big car auto racing for the fair from Frank R. Winkley. Efforts were made to have National Speedways (Al Sweeney and Gaylord White) accept two of the four race days, but Sweeney and White declined, maintaining that splitting of the dates ran up the costs and made for inefficient operation.

Action on signing an automobile thrill show for the fair's thrill show days, September 3 and 4, was deferred by the board, but it did contract for three special thrill acts from Ernie Young, of the Chicago booking agency bearing his name, and booked George Walz, airplane stunter, thru Winkley for those days. Acts booked thru Young were Selden, the Stratosphere Man; the Waldorfs, motorcycle aerial act, and the Eltons, five-people ballet.

Major attraction contract again went to the Barnes-Carruthers Theatrical Enterprises, Chicago, which was signed to provide the grandstand revue for 10 nights and to furnish the afternoon grandstand acts. Sam J. Levy, B-C president, arrived the second day of the meeting, his brother, Louis Levy, 70, having died Wednesday (18) in St. Louis.

Fireworks contract again was awarded to Frank Duffield, of Thearle-Duffield Fireworks Company, Chicago.

Douglas Dates Changed

DOUGLAS, Ariz., Feb. 28.—A scarcity of livestock has forced postponement of the 1948 Douglas Rodeo from March 19-20 to April 2-4, Frank Sharp Jr., rodeo secretary, announced.

out hundreds of letters, asking aid thru subscription to one or more shares at \$50 each. Money would be used to build a new cattle barn, a 4-H barn, three exhibition buildings and additional lavatory and restroom facilities.

Emory Bouchet, secretary-manager of Exposition Provinciale, reports on the big business racked up recently by Ice Cycles, skating show, in a still date stand at Quebec Coliseum. Attendance was up 60 per cent over previous years despite sub-zero weather, said Bouchet. It was the third year for Ice Cycles at Quebec.

Sam J. Levy, president of the Barnes-Carruthers Theatrical Enterprises, Chicago, and Mrs. Levy are in Florida on a two-week vacation trip.

Change Made in License Set-Up At Baltimore

BALTIMORE, Feb. 28.—Carnival owners, contemplating Baltimore dates, will toe the mark according to a new ordinance passed recently here.

The former system, under which operators obtained permits from the mayor's office, often under casual arrangement with political and civic clubs, resulted in numerous complaints.

With the new ordinance, carnival operators must post the site where they intend to show at least five days in advance of applying for a permit. Property owners may then file protests with the police commissioner who may refuse the permit, if protests are deemed reasonable.

Applicants must sign applications in person, and sponsoring bodies must have the signatures of an officer and five other members accompanied by an affidavit.

Other provisions of the ordinance include a complete accounting of charitable funds, if the show advertises a charitable purpose, and sponsoring organizations must post a representative on the lot to supervise the carnival.

The commissioner has the power to revoke a permit when any member of the carnival company is convicted of a gambling charge, and he also must notify the fire department, the city engineer and the health department when licenses are issued for inspection of fire hazards, traffic conditions and sanitation.

There is no charge for carnival permits, but those who operate without one, are subject to fines up to \$100.

Royal Crown Big At Winter Haven

WINTER HAVEN, Fla., Feb. 28.—Florida Citrus Exposition here, with Eddie Young's Royal Crown Shows providing the midway, registered new attendance and gross business records for the week-long run which ended Saturday (21). John Snively Jr., annual's president, and Philip Lucy, expo manager, revealed that crowds for the initial three days totaled 72,000 paid admissions, best in the event's 16-year history.

An estimated 35,000 paid turned out for opening day (16), which was tabbed Children's Day. Tuesday, County Commission and Agricultural Day, drew capacity, with many visitors from over the State on hand. Agricultural Agent Mayo, of Tallahassee, Fla., was in charge of the day's festivities. Good weather prevailed and exhibit buildings were filled to capacity, fair officials said.

Royal Crown Shows, making their third appearance at the annual, presented 18 rides, 16 shows and 105 concessions. Fair's new amphitheater (10,000 seats) was formally opened Children's Day and featured the *Ladies Be Seated* air seg, with Tom Moore and Ted Malone. Seven free attractions, featuring Bob Fisher's Fearless Flyers, were presented.

On the midway, the *Vanities*, managed by Johnny Orneallas, and the *Didieanna Revue*, with James Ayers as manager, proved top-money show attractions. Leading the rides were the twin Ferris Wheels and the new High Ball.

Dolly Young, assistant manager and director of public relations, spent the week in a local hospital as the result of injuries sustained in an accident. Tommy Carson had charge of the midway in her absence.

A bingo was held on the shows

GOVERNOR EARL WARREN of California and J. George Loos (right), owner-manager of the Greater United Shows, are snapped together at the recent Washington's Birthday Celebration at Laredo, Tex., where the governor was guest of honor. Loos has furnished midway attractions for the event the past 25 years.

B & V Inks Torina, Six New York Fairs

LODI, N. J., Feb. 28.—Justin Van Vliet, owner-operator of the B & V Shows, announces the signing of Klara Torina, aerialist, as a free act for the coming season.

Van Vliet recently contracted six New York fairs. They are Owego, Whitney Point, Ithaca, Canandaigua, Greenwich and Fonda.

Jones's bingo is already set to repeat the season with B & V, as are Tom Ely, kiddie rides; Cooper's pony track and Loop-o-Plane, and Sturgis's long-range gallery. Also contracted are Nick Green, three stores; M. and J. Walker, two stores; Welkins, popcorn; Gene O'Donnell, custard, Gregory's cookhouse and French fries.

Van Vliet said he had recently purchased two tractor-trailer units to supplement his fleet of trucks.

Tuesday night (17) with proceeds being divided between the Ladies' Auxiliaries of the Tampa and Miami Showmen's clubs. Manager Eddie Young entertained committees from Florida cities where the shows are booked for the next six weeks. Org also has been set for engagements in Albany, Ga., and Attalla, Ala. Harry (Irish) Gaughn has done a good job as concessions manager.

Showfolks' Cemetery Draws High Praise From Patty Conklin

CHICAGO, Feb. 28.—J. E. (Patty) Conklin, in a stop-over here this week en route to Toronto from California and the Pacific Northwest, was loud in his praise of the strides made by the Show Folks of America in San Francisco.

Telling of his visit in the company of Harry Seber, past president of the San Fran org, to the club's cemetery, he described it as a "thing of beauty," adding that it reflected much credit to the club, "for the cemetery has been greatly developed in two years' time."

Twenty-two members and non-members are buried in the club's plot, Patty reported.

Away from Toronto for two months, Patty interrupted his U. S. trip once to attend the Western Canadian fair meetings in Winnipeg, after which he returned to California.

Following several weeks in that State, he made a visit to the State of Washington, where he visited Earl Douglas and the latter's Greater Douglas Shows' winter quarters and also took a peek at the Sparks circus equipment. He also visited the Eyerly Aircraft plant, Salem, Ore., and inspected some of the sea cruisers.

Crafts Inks Orange Show

Org bolsters line-up for San Bernardino event; attendance may top 300,000

NORTH HOLLYWOOD, Calif., Feb. 28.—O. N. Crafts, owner of Crafts 20 Big Shows, inked the midway attractions for the National Orange Show, San Bernardino, Calif., March 11-21, it was announced at the org's headquarters here.

Crafts reports the addition of several new major rides, along with the show's Hollywood Kiddieland to bolster the line-up for the Orange Show date. Last year the annual played to approximately 300,000 people. Attendance this year is expected to exceed that figure.

Enlarging of the amusement zone allotted to midway attractions has been completed, it was said. There will be 24 major rides and 18 kiddie devices including several water rides, miniature Merry-Go-Rounds and a giant Dipper.

In addition to the regular concession line-up, the following concessionaires have arranged for space: Spec Parsons, watchla, bumper and darts; D. W. Al Wallace Buys Out Jack Murray

VALDOSTA, Ga., Feb. 28.—Al Wallace, co-owner with Jack Murray of the Wallace & Murray Shows, has purchased Murray's interest in the shows and is now sole owner of the org, it was announced at winter quarters here.

Murray's reason for selling was given as poor health. Wallace and Murray launched the shows in Florida in March, 1947. Both men have been in the outdoor show business for more than 25 years, Murray for many years operating a Penny Arcade and Wallace operating cookhouses.

According to Wallace, the shows will open for the season here April 3 and will play the Southeastern territory.

Strates Preps For April Bow In Washington

JACKSONVILLE, Fla., Feb. 28.—With 64 men on the pay roll, work of enlarging, rebuilding and rejuvenating the James E. Strates Shows in quarters at the fairgrounds here is moving at a rapid pace and everything is expected to be ready before shows leave quarters March 25. General Manager James E. Strates said that, as in former years, no spring dates will be played in the South. Shows' first stand will be in Washington, for 10 days, opening April 1, three days earlier than the opening in 1947 when business was somewhat hampered because Lent was still on.

Manager Dick O'Brien announced that five 72-foot steel flatcars have been added to the 40-car train to transport the newly purchased rides and additional show equipment and lighting effects. Fifteen dual-wheeled, pneumatic-tired wagons are nearing completion.

A \$20,000 order for new canvas was placed with the U. S. Tent & Awning Company to be delivered in Washington in time for the opening. Order includes canvas for almost every show on the midway, with a specially designed and built big top for the 1948 featured attraction, Georgia Sothorn's revue.

Eddie Hollinger's Colored Revue, last season on the Canadian National Exhibition midway at Toronto, signed with the shows for the season. Business Manager and Mrs. Roy B. Jones, after vacationing in Texas, have arrived in quarters. Nelson Thomas, who thru illness was forced to close before the season ended last year, has recovered and again will be in charge of the enlarged billing department.

Earl Truax, ride superintendent, has his Pretzel ride playing Florida fairs. Williard (Red) Holdredge, utility wagon boss, and wife Betty, wintered in Jacksonville. Johnny Harrison, privilege car manager, arrived after vacationing in Tampa and has the car open for business.

Lloyd Soules, chief mechanic, reports all equipment in excellent shape.

Manager Harry E. Wilson reports that contracts indicate that many new faces will be seen around the midway this year.

ABOVE YOUR COMPETITION

YOU WILL BE, IF YOU TAKE THIS TIP:

Advertising helps your business . . . by selling more goods, it creates more jobs, thus putting more money in circulation, hence more of a demand for products—your products. That's a long-range view, but it's an economic fact. Your competitor advertises, too. If he didn't, you wouldn't consider him much competition. His advertising budget may be small or it may be even larger than yours. But . . . and this is a big question . . . will his advertising be as timely as yours?

There's a big yearly market ripening now. Within a very short time it will be ready for reaping. It's the big '48 OUTDOOR SHOW BUSINESS market. And it

can very easily be your plum if you go after it. Time and place your advertising to reach the buyers in this big market by advertising your products in THE BILLBOARD'S ANNUAL SPRING SPECIAL—it's made to order for you.

All showmen—carnivals, circuses, fairs, parks, tent shows, bookers, agents—will read the Spring Special—will use it as a Buyers' Guide—with their immediate needs and requirements for 1948 in mind. Your product, attractively illustrated and described, will be before their eyes as a reminder of what you have to sell. It's timely and selective advertising at its best.

A society woman visited a gal show three times to be in a position to denounce it.

Mac McMillen, Detroit concessionaire and stagehand, is vacationing in Florida.

E. B. Braden is in the Hotel Richland Plaza, Pulaski, Tenn., recovering from an attack of pneumonia.

Zora, operator of the Garden of Allah, has re-inked the show with Steblar Greater Shows for 1948.

Mr. and Mrs. Sam Bunch have signed with Paul's Amusement Company which opens in Conway, Ark., March 15.

R. Rothrock, billposter with James E. Strates Shows last season, has signed with the Johnny J. Jones Exposition in the same capacity for 1948.

Election year again—and shows' sound trucks will be day-and-dating politicians' noise wagons on streets.

Larry Branthin cards that he attended the fair at Tampa where he renewed acquaintances with many friends.

Ralph Lavinn and Doc Tuffy visited the Arizona Showmen's Association clubrooms at Phoenix, Ariz., recently while en route to join the Midwest Shows.

Elaine Kirby, nitery and theater blues singer, will have her Cotton Club Revue on the World of Mirth Shows this year. Show will be produced by S. H. Dudley.

Frank Westphal cards that he and Merlin Kuhn have been wintering in Phoenix, Ariz., since leaving the Van

Hooton Shows in Ontario, where they operated the No. 2 unit of Westphal's bingo.

Lew Alters, of Alters Bros.' Congress of Wonders, cards that he will have the side show on the J. J. Kirkwood Shows in 1948. Unit will feature Stella May, monkey girl, with Georgie Spears as manager.

Gal ticket sellers marry ride men not only for love but because they need someone to help check ticket sales.

Mr. and Mrs. Ed L. Hall are visiting friends on Crafts 20 Big and Ferris Greater shows in California, after which they return to Indianapolis to ready their concessions for the season.

Bill Reese, his brother, Bev, and the latter's son, Junior, were among recent visitors to Tennessee Valley Amusement Company's quarters in Valdosta, Ga. Also on hand were Doc Swan and Mr. and Mrs. Jack Allen, of Ruskin, Fla.

Rene Rachele, annex attraction with various units, has been signed by Russell Libby, veteran showman, for his new night club, The Blue Shadows, near Peoria, Ill.

Bill and Mary McLaughlin report they will be with Eddie Wheeler Shows this season. At present they are cutting up jackpots nightly with Carl and Rose Jackson, ex-troupers, who own a trailer park in Rome, Ga.

How wonderful it is that a show only has to play a fair two consecutive seasons for its press agent to call it "a tradition."

(Continued from page 61)

He died at La Grange, Ga. Remains were shipped to Chicago for services at Lain's Funeral Home. The deceased had visited his brother, Robert, each season for the past 35 years and was well known to outdoor showmen.

As the years rolled by it was proven that being in charge of the distribution of shavings on midways is better than a gun and mask.

Recent visitors to Pioneer Shows' quarters in Waverly, N. Y., included John Dunlea, secretary Barlow's concessions; R. (Count) Golden, Tony Figaro, Mr. and Mrs. Garlock, Mr. and Mrs. Carl Lovejoy and C. B. Murray.

Mr. and Mrs. Archie Beauchaine, of Clarkston, Mich., recently booked their popcorn and clothespin pitch with Tennessee Valley Amusement Company for 1948. Firm holds the concession contracts for the Panama City Beach Park, Panama City, Fla., Theodore R. Meadows Sr., reports.

Among attractions on Frank W. Babcock's United Shows at their opening in San Bernardino, Calif., was Bones Hartzell and his live octopus, which moved over from the Ferris Greater Shows. Pat Patterson, assisted by Joe McDonough, also joined with his pony ride.

Ray Oakes, owner of the concession manufacturing company bearing his name, reports that the Scranton (Pa.) Dry Goods Company is using a special duck pond in the store as an Eastern promotion. The pond, put out by Oakes, will have 100 ducks and children will receive prizes.

Some kind of a ruling, either for or against the guy, should be made for the midwayite who really isn't for it or entirely against it.

Showfolk attending the fair meeting in Columbia, S. C., January 21 contributed to a purse which was presented to the Police Boys Clubs of Washington, with Carl Barlow, of DeLuxe Concession Company, setting up the movement. Barlow is interested in the various boys' clubs in the Capital City.

BALLYHOO BROS.' CIRCULATING EXPO

A Century of Profit Show

By Starr De Belle

Sand Bar, Fla.
February 28, 1948.

Dear Editor:

While other midways are preparing for the comfort and pleasure of their patrons, we are preparing for the comfort and pleasure of our employees. We make up the lack of paydays with joy, companionship and the finer things in a trouper's life. Those are the things that have kept this big happy family intact, especially the companionship. Surprises for our people never cease.

After checking the box wagons it was learned that they were loaded so full with show and ride equipment that only 40 per cent of the space was left to load beds, springs, trunks, iceboxes, bedding, pots, pans, dressers, wash tubs, dishes and grub boxes. The boss ordered all extra stakes poles, bally curtains, extra ride parts, steps, platforms and all neon signs to be junked, which now provides enough room for wagon-dwellers to bring their relatives along with them as well as enough space for them to pick up a buck or two by hauling a concessionaire's booth.

We have eliminated the portable restaurant and replaced it with a circus-style cookhouse. Plenty of eating and sleeping is our motto. The charge for board will be \$1 per day, but since there are no salaries on this show the buck per day will be deducted from bonuses. Even tho there will be no money involved, a cashier will sit by the exit. That will make the diners heel by the sidewall route. Just another of the finer things in life, cookhouse heeling, that make us happy.

When we arrived here to winter,

the burg's mayor met the train with, "Make our town your town." To date we have made their town ours (had to build 10 more wagons to carry it). To co-operate with the town council, the boss agreed to help the burg by appointing our night watchman as dog catcher. A dog hurry-up-wagon went with the position, which the newly appointed dog guzzler has converted into a popcorn wagon. Right now we have impounded in quarters about 75 pooches. Manager Pete Ballyhoo said: "The dogs come under the heading of joy and companionship, and a dog will be issued with every stateroom. But we'll furnish no linen." So, 75 show souls are to be made happy.

Under our joy-and-finer-things-in-life set-up, the only way the office will have to fine an employee for breaking a rule will be by taking the dog away from him or her for 10 days or by having the cookhouse steam-table man hold the beef out of their beef stews. This is no longer a troupe—it's a sect.

P.S.: Word has just come from the office that as an additional finer-thing-in-life we will be permitted to throw trash and garbage out of the wagons and leave it there after the show pulls off the lot, and that each wagonized family may build and carry a portable restroom. As our special agent is considered a worldly person, he gets money for banners, it will be his job to either hire someone and pay him out of his pocket to dig the holes or to dig them himself two days before the shows' arrival. Yes, money isn't everything.

Major Privilege.

American Carnivals Association, Inc.

By Max Cohen

ROCHESTER, N. Y., Feb. 28.—The 1948 membership drive will be inaugurated shortly. Letters, signed by President Oscar C. Buck will be sent to all known non-members, together with applications and copies of the 1947 annual report.

A reduction in income taxes during the current year is now a virtual certainty, and action on the pending tax bill is expected to be completed early in April.

The Interstate Commerce Commission has approved a 2-5 cents per mile increase in railroad coach fares for various Western and Southern railroads.

The War Assets Administration has a variety of alloy and carbon steel in various forms available for resale. The WAA has available about 33,000 fire extinguishers. They are being offered to State and local governments on a first refusal basis, with the expectation that any unsold items will then be available for general resale.

Attention is called to the fact that many individuals in the carnival industry are obliged to file estimates on their 1948 income tax.

A research service shows there is now available a new type of aluminum hoist, suitable for carrying up to 500 pounds 40 feet in height, an electric tow unit claimed to be available on a low operating and maintenance cost basis, a non-slip belt for motor traction purposes and an automatic welding equipment unit.

Gala Party Marks Opening Of PCSA's New Clubrooms

LOS ANGELES, Feb. 28.—A gala evening of refreshments, dancing and entertainment marked the official housewarming of the Pacific Coast Showmen's Association's new clubrooms at 1235 South Hope Street, Monday (23). More than 300 members and guests attended the festivities which began at 7:30.

The beautifully appointed clubrooms were decorated with flowers and the dancing took place in the auditorium of the men's portion of the building.

A buffet dinner was served by the ladies.

Indianapolis Ups License Fees; To Tighten Controls

INDIANAPOLIS, Feb. 28.—A hike in license fees on street fairs, carnivals and circuses was announced recently by Mayor Al Feeney, who also said that the city will maintain tighter control on sanitation and safety measures at such events.

Present license fee is a flat \$250 a day. New sliding scale will be introduced, with minimum set at \$250 a day.

Elkins Inks West N. Y.

NEW YORK, Feb. 28.—Edward Elkins has contracted with the Catholic War Veterans of West New York, N. J., to put on a carnival and bazaar this spring in conjunction with the festivities being arranged by the civic committee in honor of the 50th anniversary of the founding of the town. B & V Shows will furnish midway and attractions.

Coin Operated Popcorn Machine

You have been overlooking one of the best money makers that would fit into a Circus, Carnival or Amusement Park. This machine is completely automatic and has proved to be one of the most profitable ways of merchandising popcorn. By inserting a dime in the slot the customer receives a hot, delicious bag of popcorn within 5 seconds' time. These machines could be placed in various places through Circus or Carnival. In this way it would catch the eye of every customer.

1. Machines weigh approximately 50 lbs.
2. Have separate locks to money box.
3. Has sturdy steel cabinet with attractive paint job and large visible dome displaying popcorn.
4. Has only four moving parts when in operation, therefore practically anyone can maintain the service of this machine.
5. 15 machines can be hauled on half-ton pick-up truck.
6. Corn is popped with a special process and can't be compared to corn you purchase at theaters.
7. Corn may be purchased directly through us in lined, sealed containers and will stay fresh for at least 45 days. Cost: \$1.26 per bushel—will net you \$3.50 per bushel.
8. Maximum earning power, \$72.00 an hour.

List price, \$235.00 (new). We have a small number of used demonstrators that have been reworked and reconditioned for \$175.00. (10% discount on 10 or more.) 1/3 deposit required with order.

WINTER QUARTERS

Ted Lewis

FAIR LAWN, N. J., Feb. 28.—Ted Lewis, owner-manager of the shows bearing his name, returned to quarters after attending the fair meeting in Raleigh, N. C., and taking a brief vacation at the Florida State Fair, Tampa.

Shows will carry six office-owned rides and about 30 concessions. Current route calls for about 22 weeks around New Jersey, after which the shows will head for the Southern fairs. Lewis recently appointed Joseph Nezek ride superintendent.

Quarters work is expected to get under way soon with the rebuilding of two semi-trailers, one for the Ferris Wheel and the other for the Merry-Go-Round. Kiddie airplane is being rebuilt and everything is expected to be ready for the opening slated for April 2.

A Chevrolet tractor has been delivered and five more are on order. Mike Sabbers will leave his Mt. Pleasant, Pa., home soon for quarters to ready his popcorn trailer. Paul Boda will transform his trailer into a duck pond.—K. Lewis.

Prell's Broadway

CHARLESTON, S. C., Feb. 28.—Winter quarters are in full operation. Two new rides purchased by Owner Sam Prell during the Chicago meetings have been delivered. They are a Tilt-a-Whirl and Hi-Ball. The show now has 15 major and six kiddie rides and 14 shows are planned.

Big Bertha and Tiny Tim are building a new stand for their show. Curley Shoemaker rebuilt the cookhouse and claims he will have one of the best on the road. Cash and Gertie Miller info that they will arrive shortly, as will Ginger Rae, who will handle the posing show.

All power plants have been shipped to Memphis for overhauling. Sam Prell, who is at his Newark, N. J., home, is expected here shortly, as are Joe and Ben Prell. Activities here are under the supervision of Abe Prell. Also expected soon are Stash Lee, Jack Rose and Paul Prell.—ALLAN A. TRAVERS.

Imperial

ASHLAND, Ill., Feb. 28.—Six Illinois fairs have been signed, Bill Gulette, general manager, reports. They are Taylorville, Knoxville, Fairbury, Warren and Mendota (Tri-County).

Wendell Pierce, business manager, returned to quarters with a new house trailer. Hub Luehrs, bingo and diggers operator, reports he is ready for the road.

John and Paul Schmidt, concession operators, who will have charge of the Diesel light plants, pen from Florida that they have caught their share of fish and are awaiting shows' opening.

A severe cold has confined Mary Gulette, wife of Bill Gulette, to bed in Chicago for three weeks.

Mr. and Mrs. Jimmy Perry booked their Snake and Animal shows.

Dobson's United

WILLERNIE, Minn., Feb. 28.—Cold weather has hampered work in quarters up until the last two weeks. Work, in charge of Pete Jensen, with R. O. Pickering and Bill Schmalowski assisting, has been moving fast, with most of the inside painting finished and two new kiddie rides built.

One new tractor and a semi have been added. A garage at White Bear Lake is overhauling the trucks.

Co-Owners Dobson and Patterson have the route just about set. Patterson it at his home in Webster City, Iowa.

Walter Woodard has his new concessions framed with new royal blue canvas. A new royal blue top has arrived for the Merry-Go-Round and entrance marquee. Mr. and Mrs. Neal Lanigan are working on their new popcorn wagon.

Recent visitors have included William T. Collins, manager of the shows bearing his name; Mr. and Mrs. Wolfe, Johnson brothers; Tex Roberts, Irvington, Ala.; J. D. McDonald and Charles Carroll, Veterans United Shows, and Curly Walters and Heavy Frazier.—DOROTHY PICKERING.

Walter B. Fox, who has been doing some general agent work, has returned to his home in Mobile, Ala.

Wolfe Amusements

ROYSTON, Ga., Feb. 28.—New arrivals in quarters are Mr. and Mrs. Gil Reader and Mr. and Mrs. Tom Scott. Mr. Allen brought his concession truck from Augusta and Mr. Allen is expected soon with the trailer. They plan to have at least six concessions with the show this year.

The Lavonia, Ga., Fair was inked for the second consecutive season. The date is the first week in October.

Work of repairing ride trucks already is under way, with Johnny Lytle and Charlie Sanders in charge.—ERNIE SYLVESTER.

WINTER QUARTERS

Mighty Page

WILSON, N. C., Feb. 28.—A skeleton crew has been working in quarters since shows closed November 1, but little has been accomplished because of inclement weather. Tex Perryman, head mechanic, and Hubert (Little Boy) Boykin, ride superintendent, are getting rides and rolling stock ready for a late March bow. Roland Page, assistant manager, purchased a Roll-o-Plane at the Nashville Fair meeting. Mack House, business manager, purchased a Ferris Wheel, giving shows a total of 10 rides.

Owner Bill Page, accompanied by Roland Page and Mack House, attended fair meetings in Tennessee, Georgia, Virginia and North Carolina. Manager Page reports the shows will play all fairs on the 1947 route, with the exception of one. He also added four new annuals to the 1948 route.

Pocketbook Harris will be back to manage Harlem's A-Poppin Minstrel. and Margie Hutzler again will be back with her geek show. Quarters work gets under way in mid-February. Plans call for the addition of 10-in-1, Snake and Monkey shows. These additions will bring the total of shows to seven, all of which will be office-owned with the exception of Mr. and Mrs. Wilson (Speedy) Lanko's motordrome.

Baker United

INDIANAPOLIS, Feb. 28.—Activity in quarters has been retarded considerably due to the severe weather, altho a skelton crew, under supervision of Chester Pierce, has been maintained all winter. All trucks have been overhauled and repainted and rides now are being given similar treatment.

FROM THE LOTS

Majestic Greater

VERE BEACH, Fla., Feb. 28.—Indian River County Fair, with the combined Majestic Greater Shows and Florida Amusement Company, on the midway, was considerably dampened during the first four days and nights by a heavy rain-like fog.

Glen Porter's Side Show and Art Spencer's Wall of Death drew top grosses, with Tina and the Atomic Age very much in the race. The Pretzel and Sylvester's kiddie rides did okay.

Howard Ingram, general director, returned here from a business trip. Mrs. Yellen, sister of Sam Goldstein, and son left by plane for Detroit.

Butch is the champion fisherman. Whitey, the shrimp kid, catches his share and the writer doesn't do badly. Kelly caught the biggest one of all, a five-pound trout. Leonard Gould caught seven in one day.

Visitors included Bob and Mary Pollack, Tom Baker, owner of Baker United Shows; Dick Coleman, Coleman Bros.' Shows; Carl and Goldie Baker, former Sheesleyites and Mel Thompson. The writer is improved after his recent illness.

St. Lucie County Fair, Fort Pierce, proved one of the best. Children's matinee, Wednesday (11), drew an estimated 1,000 adults and 6,000 children. Matinee for Negro children Thursday (12) also was satisfactory. Duke Warren, president of the Junior Chamber of Commerce, sponsor of the fair, and his associates were active in promotion.

Rennir Constantine, who was injured in Okeechobee, was released from the hospital and has returned to her home to recuperate. Mrs. Jack Kelly is in Municipal Hospital, Tampa, for treatment. Henry Dickson, Joe Decker's chef, is reported seriously ill at the Fort Pierce Hospital.

Mrs. Goldstein, mother of the show's owner, spends much time on the midway. Visitors included Sam Prell, owner of Prell's Broadway Shows, Abe Gross and George Kelly.

Dick Thompson, city editor, and Dave Harrison, assistant manager, of the local newspapers were co-operative.—HARRY E. WILSON.

Crafts' 20 Big

EL CENTRO, Calif., Feb. 28.—Cool evenings did not mar attendance at the opening here. Turnout was bigger than last year.

Mr. and Mrs. Craft flew from North Hollywood. A radio show aired over KXO, arranged by press agent Louis Rosenberg and with Jack Keck as emcee, scored big and plan is to continue it as a weekly feature while the shows are on tour.

Frank Warren is managing the org. with Mrs. Warren as assistant. Mr. and Mrs. Hurtt are handling the office duties.

Much credit is due Fred Huber, fair manager, for a job well done, and the Shrine Club, which sponsored the fair, co-operated in every way to make the event a success. olds, who are going with the Clyde Beatty Circus, and Madame Maree and her ponies and dogs, who left for Chicago. Pallenberg's Bears also were missing here because their trainer, Emil Pallenberg Jr., was gouged by one of his pets as he was exercising them prior to the opening.

Running order of the program was as follows: Overture by Charles Post's band; aerial ballet, featuring Conchita; Billy Barton, cloud swings; clowns, with Dime Wilson's table-rocking; Erma and Ray, unsupported ladders; the Ericksons (5), equilibrists; clown gag; Mario and Ivanov, tight wire; Cycling Sidneys; Pepl and Anita, acro medley; clown gags; Lopez Trio, casting; the Ericksons (4), acro; Conchita, iron jaw; clown gag, with Kinko Sunderland in contortion bit; Irene Lafferty with Polack elephants, trained by Cheerful Gardner; clown gag; Adriana and Charley, trampoline; Four Cathalas, rolling globes; clown gag, and Malilkova, high wire.

Billy Barton Clicks

Billy Barton joined recently and clicks with an unusual cloud swing. Outstanding hit was scored by Pepl and Anita, teen-age son and daughter of Charley Borza (Adriana and Charley), who romp thru a series of hand stands, tumbling and acro bits. The Lopez Trio now has Charley Borza handling comedy, Juanita Lopez as leaper and Elmer Santana as catcher.

Adriana and Charley are good in their unusual trampoline number. Mario and Ivanov's wire routine was highlighted by Mario's comedy bits, but he appeared a bit jittery in his two tries at a backward somersault. Malilkov's solo work on the high wire was a good closing number. The Cathalas, who recently joined, scored with a rolling globe, juggling and acro number. The two numbers of the Ericksons are well routined and run at speedy tempo, as does the entire show.

Producing clowns are the Randows, father and son. Working with them are Dime Wilson, Kinko Sunderland, Jack Klippel and Pat Lyte. All are good workers and offered amusing gags. A neat bit was a parody of a Ben Yost choir, with Joeys providing the gestures for a recorded rendition of "Sweet Adeline."

Appearance of the armory rates a mention. From basement dressing rooms to rafters it appeared clean. An added boon was the cement parking space at the rear of the building for the show's autos and trailers. A good impression was also created by clean costumes and props and the neat lay-out of concessions stands.

and Waddell. Byers has purchased land near Worthington, O., where he plans to build a home and possibly winter-quarters buildings.

Paulsen, Louis Grabb, and Joy Jordan, vocalist.

Then there were the early-day circus owners who threatened employees who were leaving without giving notice, with: "If you leave this show I'll use my influence to see that you'll never get a job with another circus."

was drawing huge crowds, sent bodyguards out of his hotel to tell photographers that he was indisposed and would not pose. "I persisted, Bryan noted me, and he boomed out, 'Let that man thru. He took the best picture of me I've ever had taken,'" Harry recalls.

A native of Chicago—he was born there October 4, 1879—Harry quit high school at the age of 18 to take a job in a steel mill, running a crane. The job ended abruptly when Harry had a fight with what he describes as a bully straw boss.

Shortly after his interest turned to newspaper work and he landed a job as a reporter on the old *Chicago Chronicle*. In those days there were no such things as news photographers. Instead, artists accompanied the reporters and made sketches. However, two years after he broke into newspapering, the paper installed a half-tone engraving plant for photo reproduction. Harry took a six-month course in photography, and became a staff member of *The Chicago Inter-Ocean*, working alongside the late Burns Mantle, drama critic, and Walter Howie, Hearst biggie of today.

It was in 1902 that the young photographer met and married Matilda Smith, a Kansas City girl. It was also while he was a young newspaper photographer that he had his first introduction to circuses via their press agents, who came to make his darkroom their headquarters.

"Circus press agency in those days was a lot different than it is today," Harry reflects. "Invariably there was one favorite bar in the neighborhood of a newspaper plant patronized by editors and reporters. And it was there that most of the press agency was done. Stories were placed as the agent spun yarns. In those days the press agents had to be good drinkers and marvelous story-tellers and it helped, too, if they were adept at impersonations.

"Of those old-timers, I think the late Guy F. Steeley was tops. He was at his best in the years around 1907-'09. And what a story teller he was! I think he was far and away the best I've ever heard," Harry reminisces.

Toured With Ringling

The late Alf T. Ringling was responsible for Harry's first tour with a circus.

"That was in 1910," Harry says, "Alf offered me a 50-50 proposition to make and then sell souvenir postcards on the show. As my wife and I had never taken a honeymoon, we decided to make the tour. Frankly, I looked on it pretty much as a honeymoon. I wasn't a pitchman, and my heart wasn't in selling. Alf, however, found out my wife had been a secretary, and he made her his confidential secretary for the season."

At the tour's close, Harry returned to Chicago and opened up the Burke-Atwell News Photo Syndicate, with Frank Burke, another Chicago photographer, as his partner. Business boomed, and at one time they had as many as 17 photographers and color artists.

This partnership continued for 14 years, then was dissolved, with Harry opening a circus and theatrical photographer agency, which he has maintained ever since, the last 12 years in the Garrick Theater Building.

Shot Many Stage Stars

Over the years, Harry has photographed many greats of the stage, including Raymond Hitchcock, Mary Garden, John Drew and John Barrymore.

A studio was built especially for him in Chicago's Civic Opera House, and he used it for five years. He has

taken photos of all of the famous opera names in practically every role in which they appeared, including Robert Ringling, termed an excellent baritone and exceptionally good in the role of Pagliacci.

In more recent years, Harry concentrated his own picture-taking chiefly to circuses, in which field he has taken more photos than any other photographer.

Works in Cage

Harry once was introduced to the late Martin Johnson, big game hunter, "as having shot more wild animals than any other man." Johnson didn't challenge that claim.

The Chicago camera clicker has been in the cage with Clyde Beatty, Terrell Jacobs and Mable Stark.

"I just lockstep behind the trainer, making every move he makes, set my camera as we move in together, and, when I am ready, the trainer steps aside and I snap my camera," Harry explains.

The most nerve-wracking experience he ever had was when he tried to take a picture of a polar bear, this time without the protection of the trainer.

"As I focused, the bear's curiosity was aroused and he moved toward me. My eyes were down, intent on focusing. He continued to move ahead and I kept on re-focusing until the first thing I knew his face was flush against the box," Harry recalls.

This spring he will prepare material for the Ringling-Barnum, Cole Bros., Dailey Bros. and the Polack Bros. circuses. He also will shoot many carnival pictures, handling assignments for such organizations as the Royal American and Hennies Bros.' shows, Cavalcade of Amusements and the Johnny J. Jones Exposition.

It was his wide friendships in the various phases of show business which led to the formation of the Atwell Luncheon Club. For several years up to 1931, when the club was formally organized, it was a daily occurrence for Harry to have lunch with a showman—perhaps an owner, agent or performer—who was passing thru or doing business in Chicago.

Luncheons were informal, but Harry Bert, an old-time circus exec now with RKO in Chicago, upon seeing Atwell and a couple of visiting firemen at one of them tagged it "the meeting of the Atwell Luncheon Club." The name caught on, and the daily get-togethers were called that even before the club was formally organized in '31.

Then, membership cards were issued. Dues of \$1 a year were charged. Proceeds were used to tip the help in the Hotel Sherman Coffee Shop, where the luncheons are held; to pay for flowers sent to sick members, and to break a bottle of good cheer the day before Christmas and New Year's Day.

Membership, currently at 117 but due to grow as spring sets in, is limited to 200. Attendance varies. At the low point, usually in January, when all the agents are in warmer climes, sometimes only three or four are in attendance. But at other times during the year attendance reaches about 20.

Many tall tales are told, much ribbing is done, and not a little business is transacted at the table. Down thru the years there have been many notable guests from fields outside of show business. The membership includes a few who are in love with, but not actually in, show business. Among these are a priest, a railroad executive and an outstanding doctor.

There have been many amusing club incidents.

During the height of the de-

pression, Harry dreamed up an idea designed to get a laugh off the depression. He decided to bury old man depression. He had a friend sculpt a small figure of the old gentleman. The figure was laid out in a full dress suit, placed in a coffin and last rites were held. Fortified first by the cup that cheers, members paraded around the coffin before the eulogies over the old gent were said. And thus, in spirit at any rate, the depression was rubbed out of existence.

At the height of the depression years, Denny Curtis brought out the Curtis-Gregg circus. It didn't last over three months. But its biggest day's receipts came when the Atwell Luncheon Club, rallying to help the staggering circus, sold special gold club cards to its members, and the proceeds, something like \$100, were turned over to the show.

Hotel coffee shop patrons sometimes have been startled by the luncheon club goings-on. As for instance, the time the waitress carried midget Paul Del Rio on a tray to the club table.

Visiting fair men are sometimes invited to the club, and this provoked one of the most amusing incidents. Three carnival agents were in attendance the day when a fair committee was guested. After the fair committee had eaten and left, the three agents, so the story goes, each were noted jotting down either on pieces of paper or in notebooks, "entertaining such and such fair committee, \$6.50."

Next to the luncheon club and photography, Harry's interest lies in fishing. "If it weren't that my business is photography I'd probably be an Izaak Walton fan," he explains. "As it is, my wife and I have managed to get up to the Wisconsin woods each summer for the past 20 years to do some fishing."

The Atwells are childless, but Harry has three brothers, Lyman, chief photographer for *The Chicago Tribune*, Ben and John.

He belongs to one other club—the Showmen's League of America—besides the one bearing his name. "The luncheon club gives me plenty of activity," he explains, thus making what is generally termed a masterpiece of understatement.

Nebraska Board Sets Its Talent For '48 Annual

LINCOLN, Neb., Feb. 28.—Nebraska State Fair Board, in a talent-buying session at the Capitol Building here Thursday thru Saturday (26-28), lined up its attraction features for the State annual which this year runs September 5-10.

Friday afternoon auto races will be conducted by National Speedways, with Al Sweeney and Gaylord hopping here to ink the pact. Toronto's Hell on Wheels Paying Off at Box Office

CINCINNATI, Feb. 28.—The spotlight was turned on roller hockey in the January 10 issue of *New Liberty*, the Canadian counterpart of the American *Liberty* magazine, which devoted eight pages to a feature article, including 25 pictures, to the game as it is played at the Toronto Mutual Street Arena.

According to the author, Frank Hamilton, more than 2,000 fans had paid 50 cents each to see the game played on a plastic floor of 23,959 feet the night he visited the rink. Participants were the Toronto Bombers and the London Tecumsehs. In addition to losing the game by a 4-2 count, the Bombers lost two players during the melee, one suffering a broken arm and the other a broken rib.

Spectators were wildly enthusiastic about the game, Hamilton related, but that is nothing new to E. L. Dickson, Arena manager, who is one of the game's boosters and who recently announced formation of an Ontario league made up of teams from Toronto, London, St. Thomas, Niagara Falls and Welland.

Dickson points out that altho the roller hockey player is as well protected as the player on ice, the game is twice as rough because of difficulty in stopping and turning. Altho a

player now uses skates with springs that allow front and rear wheels to turn, the danger in making stops remains. The puck, painted white in contrast with the green floor, has ball bearings on each side to keep it sliding.

Dickson, the article points out, is the "czar of Canadian roller skating." Since taking over the rink's management he has innovated improvements such as a 14-inch floor to eliminate vibration, air filters and a plastic surface. One application of the plastic is said to last six months. That these innovations have paid off may be seen in the reported \$140,000 gross of the arena last year.

A between-halves feature on hockey night is the show presented by members of the Toronto Roller Skating Club which has membership of about 600. Some of the presentations appear in the club's show, staged annually by about 300 of its members.

Six night sessions and two matinees weekly are open to the public, with admission at 35 cents, including skates. According to Dickson the average attendance is 2,000. Age of the average skater is 26, altho many children skate at the rink.

N. Y. Skate Queen Contest Plans Set By Empire & 'J-A'

NEW YORK, Feb. 28.—Entries are being accepted by Bill Love, of *The New York Journal-American*, for the New York skate queen contest which is held annually at Empire Roller-drome, Brooklyn. The Empire management and the newspaper are again sponsoring the contest and have scheduled eliminations for April 17, with finals to be held the following Saturday.

The eighth annual event is open to any girl who has not skated professionally. Judging is done on the basis of beauty and personality. Skating skill is not considered in determining the winner, the only requisite being that contestants appear on skates. Judging will be done by a panel headed by Boris Kaplan, Eastern talent scout for Paramount Pictures.

The winner will receive a loving cup, a Chicago Velvet Tread skate outfit, a Benrus watch, a night in the Terrace Room of Hotel New Yorker where *Newfangles on Ice* is appearing, and a pair of tickets to *Icetime of 1948* at the Center Theater. Second and third place winners will receive Chicago outfits, Benrus watches and tickets to *Icetime*. Finalists will be given certificates of honorable mention.

Sefferino on Fla. Vacation

CINCINNATI, Feb. 28.—William F. Sefferino, operator of Sefferino's Roller-drome here, left February 14 for a vacation in St. Petersburg, Fla. Accompanying him on his golfing and fishing expeditions in St. Pete is Mrs. Sefferino.

Wolverine Champs Join 'Dimes' Drive

UTICA, Mich., Feb. 28.—Clintdale Roller Rink here recently held an exhibition benefit for the March of Dimes campaign, three teams of roller champions taking part.

Featured performer was Laurene Anselmy, juvenile girl figure and free-style champion of the Roller Skating Rink Operators' Association of the United States. Miss Anselmy and Paul Lampkin, State and Great Lakes regional champions, also contributed a fox trot-blues number. Viane Milen and Richard Fleischmann, second place national winners, demonstrated two waltzes, and the team of Anselmy and Lampkin returned for an interpretative dance. Bert Anselmy and Lynn Lampkin, second place novice team, turned in neat performances of three tangos.

Harry Warner Sees Hyped Club Program As a Slump Stopper

TAMPA, Feb. 28.—An increase of 200 per cent in membership of the dance and figure club of Coliseum Skating Rink here during the past four months is reported by operator Harry J. Warner, who points out that an active club is a big help in bucking the business slump that some rinks are experiencing.

Warner believes a well-planned program that has included bus trips to other rinks and social activities at Coliseum is responsible, in a good measure, for growth of the Tampa club.

The most recent event held by the club was a Valentine party at which refreshments were served and games and dancing filled the evening program. The next night skaters from a nearby rink visited the Coliseum, repaying a visit Warner's skaters had made the previous week. The Coliseum club also plans bus trips to Miami and St. Petersburg and the Cleveland nationals of the Roller Skating Rink Operators' Association of the United States.

4 N. E. Clubs Grab Dance Meet Honors

BRIDGEPORT, Conn., Feb. 28.—Inter-club dance competitions of the New England Amateur Roller Skating Association continued February 7 with the Holland Skating Club of Bridgeport as host club, reported Phyllis Decker, association publicity chairman.

Teams from Worcester, Mass., and Hartford, Conn., won the juvenile competitions in the straight waltz and collegiate. In the novice division, with 30 teams skating the collegiate, the winners came from Worcester and Boston. Junior winners skating the Keats fox trot were members of the Bridgeport club. At the conclusion the Bridgeport club gave winning girls bouquets, presented by Mrs. Willard Holland, and a buffet luncheon followed.

Judging was done by Mr. and Mrs. Alfred Dahl, while Ozzie Nelson, secretary of the United States Amateur Roller Skating Association, was referee; Donald Decker, tabulator, and Mrs. Holland, announcer.

Represented in the contests were the Holland clubs of Bridgeport and Milford, Conn.; Dance and Figure Skating Club of Milford; Buckingham Skating Club, Waterbury, Conn.; Hartford (Conn.) Skating Club; Worcester Skating Club, and Sholes Dance and Figure Club, Boston. Another meet has been scheduled for tonight at Sholes Roller-drome, Boston.

Speed Matches Pack Them in At Hackensack

HACKENSACK, N. J., Feb. 28.—Before a packed house racers of Hackensack Arena, of the America on Wheels chain of rinks, defeated the Reading (Pa.) Racing Club by a score of 28 to 20 Saturday (21) at Hackensack, reports Jack Edwards, AOW director of speed.

Hackensack, which now stands second with 210 points to the league-leading Mount Vernon (N. Y.) Arena (215 points) in AOW inter-rink racing competition, goes to Reading March 6 for return matches with the Pennsylvanians at Bill Holland's Skateland on the fairgrounds there.

AOW claims a "first" in its plan to televise the inter-rink matches to be held tonight at Twin City Arena, Elizabeth, says Edwards. The races will be televised from 8 to 9 by the National Broadcasting Company tele division.

Results of the February 21 races here: Ladies, 440 yards, Jane Conroy, Hackensack, and Joan Furman, Reading; ladies, 880 yards, Millie Bruno and Jennie Viola, Hackensack, and Joan Furman, Reading; men, 880 yards, Frank Schuarcht, Luther Wenzel and Kenneth Gonrath, Reading; men, one mile, Harold Heim, Hackensack, and J. Albright and A. Moyer, Reading, and men, two miles, Herb and Ray Plump, Hackensack.

Reading skaters were disqualified in the men's two-mile race for arguing with the referee, Charles Lanzotti, of the United States Amateur Roller Skating Association.

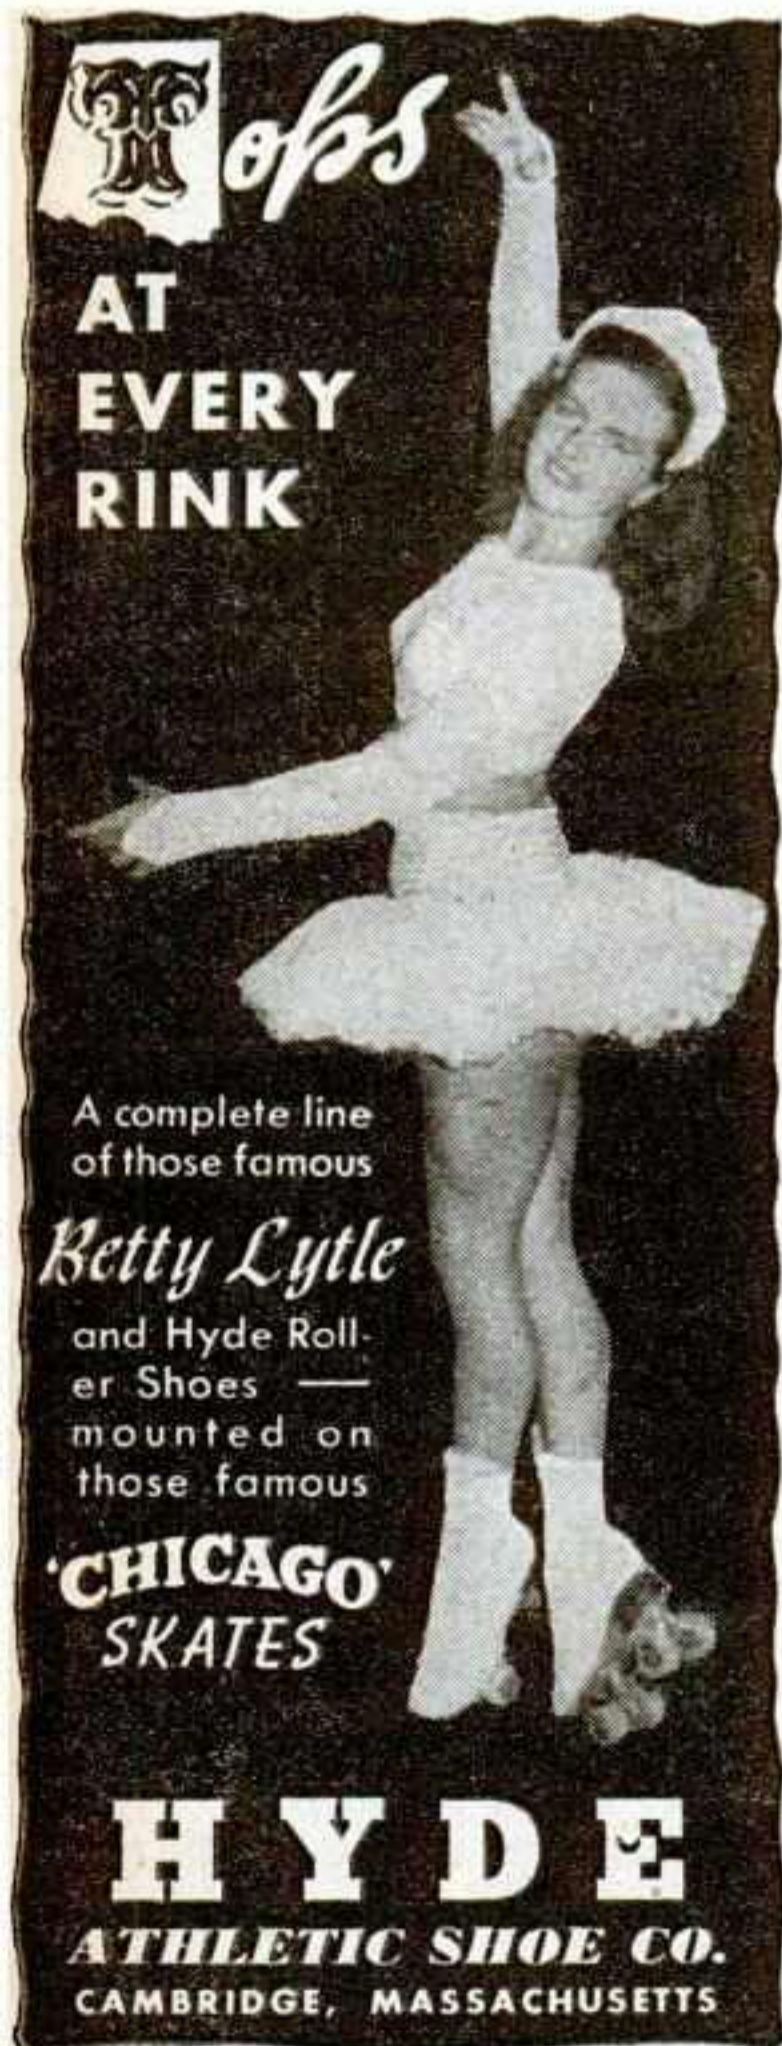

Van Horn Lands Publicity Break

NEW YORK, Feb. 28.—Earl Van Horn's Mineola (L. I.) Roller Rink received a great publicity break in a recent edition of the *New York tabloid, PM*, which devoted a two-page spread to shots of the rink and its skaters. Pictured were such well-known skaters as Fred Ludwig, Barbara Gallagher, Donald Mounce and June Henrich.

The article accompanying the layout ascribed the boom in skating to the establishment of roller rinks as social clubs, the growing popularity of dance and figure skating, modernization of rinks and smart promotion.

Recent special events at Mineola were a March of Dimes show which netted \$166, a Valentine party at which 100 boxes of candy were given winners of a contest and a party staged by the Oldtimers' Club.

Good turnouts of spectators greeted the seventh anniversary show staged at Empire Roller-drome, Brooklyn, February 5 and 6. The presentation, directed by William and Dorothy Opatrny, Empire pros, featured group numbers.

Curvecrest Valentine Party Honors All Married Couples

MUSKEGON, Mich., Feb. 28.—Guests of the management at a Valentine party held February 14 at Perry B. Giles's Curvecrest Roller Rink here were couples who had met at the rink and subsequently married.

Forty-eight couples registered, and each wife received a rose as a souvenir, with orchid corsages being presented to the most recently married woman and to the one married the longest. Group pictures were taken during the evening.

Next special event at Curvecrest will be a Leap Year party, scheduled for tomorrow night. Persons observing their birthday tomorrow will be guests of the management.

Salt Lake Skating Boosted

SALT LAKE CITY, Feb. 28.—Utah roller skating and, in particular, the business in Salt Lake City received a fine boost in the magazine supplement of *The Salt Lake Tribune* of January 25. Set off with a 10½ by 11-inch colored picture of a girl on skates, an article by Shirley Ayres Brown traced the growth of the sport during the past 10 years on the local, national and international levels, attributing much of the progress made to efficient trade-association promotion.

Northern Skaters Give Swell Polio Benefit at Jax Rollery

JACKSONVILLE, Fla., Feb. 28.—Star amateur skaters imported from the North for a Mile of Dimes benefit show presented January 28 and 29 at Jax Roller Rink here received an excellent reception and were responsible to a great extent for the successful outcome of the event, report Mr. and Mrs. James Gradwell, Jax operators.

Importations for the show, sanctioned by the United States Amateur Roller Skating Association, were Donald Mounce, of Earl Van Horn's Mineola (N. Y.) Roller Rink and winner of the world men's singles title at the December 5-7 championship held in Washington, and Violet Gargano and Kurt Hoernlein, of William Schmitz's America on Wheels Twin City Arena, Elizabeth, N. J. Mounce gave demonstrations that outshone his title-winning bid, said Gradwell, who was equally enthusiastic over the work of Miss Gargano and Hoernlein, who gave free style

and pairs exhibitions. Costumes were outstanding, he said, with a variety of changes for various numbers. The performers also gave exhibitions at the local Hope Haven Hospital for polio victims and later distributed balloons to the patients. During the skaters' stay here Mr. and Mrs. Gradwell took them on several sight-seeing tours.

An added attraction was the award by a local jeweler of a gold cup to Dorothy Burch, Jacksonville, the "Jacksonville queen of roller skating for 1948." The cup award is to be an annual event held in connection with the anti-polio drive. All entrants in the queen contest were assessed 50 cents, which was also turned over to the charity fund.

Charles R. Hilty, local campaign chairman, expressed the gratitude of his group for the efforts of the skaters and the Gradwells. The show received two good advance publicity breaks in the papers, one a picture of Miss Gargano and the other a story on the show.

Roller Rumbblings

Frank Gallagher, instructor at Fordham Roller Rink, Bronx, N. Y., has been appointed manager of the spot.

Mr. and Mrs. Joseph L. Bell, operators of Bell's Rink, Fort Wayne, Ind., celebrated the spot's 30th anniversary recently.

W. M. McIntosh, pro at Charles Z. Kahn's Rollerodrome, Atlanta, is reportedly preparing a speed program there.

Northeastern regional contests of the Roller Skating Rink Operators' Association of the United States will be held at Gay Blades Rink, New York, in May.

New Jersey championships of the United States Amateur Roller Skating Association have been awarded to Boulevard Arena, Bayonne, N. J., May 5-8.

Bay Ridge Anniversary Show

Locke Recalls Halcyon Days Of the Trouper

PORTERVILLE, Calif., Feb. 28.—Will H. Locke, old-timer in the rep and tent show fields, revealed from his home here that Bruce Rinaldo's recent contribution to this department rang the bells of memory. He added that the piece probably sent many an irrepressible old dreamer like himself on a nostalgic stroll down memory lane.

"How well we remember," says Locke, "those once-familiar names Bruce recalls. His article took me back to the halcyon days of show business and actor-folks I knew and worked with. My truant fancy often drifts back to the '80's and '90's when there were many road shows abroad in the land and the towns had opera houses for them to play in.

"There was the Sharpley Theater Company — Ad Sharpley and his talented wife, Ada Lawrence. They became favorably known thruout the Midwest. About 1897 Sharpley put out a one-nighter of *Faust*, starring Ada as *Mephisto*, perhaps the only woman ever to tackle that great part. Ad put out an elaborate production of the old classic. He offered me a part, but as the show was to go to the Pacific Coast, I declined because in those days actors were wary about going to the West Coast for fear of not getting back. Afterward I was sorry I didn't go.

"The Peruchi-Beldini Company — Chelso Peruchi and Adalina Beldini played the Southern cities in repertoire and finally settled down in New Orleans producing permanent stock.

"The Baldwin-Melville Company was very popular in the South. The last time I met them was about 1893 when they played a week stand in the Greenwall Opera House at Fort Worth. John King, Harry Mc Donald, John Rapier and I were promoting a minstrel show with local talent at the Greenwall for a charity (and our) benefit.

"The Billy Brodball Comedy Company: In repertoire. First time I met Brodball was in Trinidad, Colo., in 1894 while I was playing in summer stock at the Jaffa Opera House. Billy finally settled down in Oklahoma, struck oil and, it was rumored, became quite wealthy.

"The Ferris Comedians, with the indomitable Dick Ferris, was popular thru the Midwest and during early 1900 was successful with his stock in the Boyd Theater, Omaha. Later on Dick went to California, promoted some big amusement projects and in 1910 ran for lieutenant governor of California and missed being elected by only a few votes. Then for a number of years he operated a permanent stock in a downtown Los Angeles theater and attracted city-wide attention by putting on "milkman's matinees" mornings at 3 o'clock.

"I often wonder how many of these I knew in the '80's, '90's, etc., are still among those present? I'd like to hear from them."

Pipes for Pitchmen

By Bill Baker

BELLE SATTLER . . . is pitching Lyon's polish at Milwaukee's Goldman's with Charlie Lyons to reported good business. After the Goldman stint, Belle moves over to the Kresge five and dimer at Third and Garfield streets, that city.

BEN (HORSEBACK) MEYERS . . . pens from Sarasota, Fla., that he's plying birds to the pitch of Barney Kaplan. Ben says he'd like to read pipes here from Peanuts Kramer.

MRS. ROGERS . . . curler worker, recently completed a click engagement with that item at the Kresge store in Grand Rapids, Mich.

AL KONKI . . . former pitchman, is selling house trailers in Grand Rapids, Mich.

BOB SCHUETTEN . . . Milwaukee pitchman, recently joined the navy, having enlisted from the Beer City.

JIMMY ROACH . . . is reported to be working clothes hangers at the Sears Van Buren Street store, Chicago.

RED MCCOOL . . . has his med pitch clicking off tall counts at Goldman's store, Milwaukee.

JACK STIKLEY . . . pushes thru an ironic note from Phoenix, Ariz., in which he points out that he and about 40 other pitchmen have found it impossible to work the Freedom Train. "We're stuck with our stock and have not worked for days," Stikley says, "and they promise worse treatment from here on in."

ESTELLE HERBERT . . . well known in pitch circles, is working in an office at Gimbel's department store, Milwaukee.

VIOLET McNEAL . . . penner of the book, *Four White Horses and a Brass Band*, letters from Mountain View, Calif., that nearly all of the old-time med men of the 1904-1910 era that she knew are dead. "I hear," continues Violet, "that one or two have retired and that a few have entered other fields of endeavor. Occasionally, however, I run into the names of salesmen in other lines who are still alive. Paul Houck and I worked the same fair about 15 years ago. I wonder how many of the people who are on the road today and who read the pipes column still remember me?" Miss McNeal is currently giving lectures at women's and Rotary clubs in connection with her book and doing research work on another tome she plans to write.

FOLLOWING A . . . lengthy silence, Dave Rose veteran pitcher, fogs one thru from New Orleans: "I've just read Paul Houck's pipe regarding a pitchmen's organization. Paul and I are old friends, but I don't think organizing pitchmen will work. Organization can be effective only where there is a large rank and file centered in any one large city. Pitchmen and pitchwomen are scattered all over the country. We could not make a national organization out of it for that reason. Therefore, we would have to pick a large city for our headquarters, a city that houses the most pitchmen, which I imagine would be New York or Chicago. I suppose one of our largest problems as an organized group would be the opening up of towns, which is an impossibility. On the other hand, let's say we did succeed in opening the town where our headquarters were located. Say, for instance, that headquarters would be in New York. How would that benefit a few people stranded in Wyoming, Utah, Arizona or in some little town

in Arkansas, where one has just been tossed into the clink and is being shaken down for all he has? Another reason it can't and won't work is that merchants all over the country are organized. They belong to the Chambers of Commerce and to the Better Business Bureaus. They do not want any street men in their towns and they see to it that the police enforce their demands. Another reason is that pitchmen who are on the move all the time would not send in their dues anyway. I remember the organization we had in Los Angeles. It did not prove a success either. The town was closed just the same, except for some lots and doorways. Pitchmen have been getting by for a long time without an organization. Of course, it's been tough sledding but we always manage to work. Friend Paul says a personal and financial gain can be derived thru organization. How? I for one am for anything that would help us but when a shamiss in a small town tells you to fold up, an organization over 1,000 miles away won't do you any good. (See PIPES on page 94)

ABOVE YOUR COMPETITION

YOU WILL BE, IF YOU TAKE THIS TIP:

Advertising helps your business . . . by selling more goods, it creates more jobs, thus putting more money in circulation, hence more of a demand for products—your products. That's a long-range view, but it's an economic fact. Your competitor advertises, too. If he didn't, you wouldn't consider him much competition. His advertising budget may be small or it may be even larger than yours. But . . . and this is a big question . . . will his advertising be as timely as yours?

There's a big market ripening now. Within a very short time it will be ready for reaping. It's the big '48 MERCHANDISE BUYING MARKET. And it can very easily be your plum if you go after it. Time and

place your advertising to reach the buyers in this big market by advertising in THE BILLBOARD'S ANNUAL SPRING SPECIAL—it's made to order for you.

All merchandise buyers—agents, salesmen, pitchmen, demonstrators, concessionaires, salesboard operators, premium users, variety stores, novelty dealers, arcade owners, souvenir stands and resorts—will read the Spring Special—will use it as a Buyers' Guide—with their immediate needs and requirements for 1948 in mind. Your product, attractively illustrated and described, will be before their eyes as a reminder of what you have to sell. It's timely and selective advertising at its best.

The streets and sidewalks were not made for pitchmen as a location for their place of business. The merchants will beat you every time. Let's not kid ourselves. We may get a great deal of money from the public in the course of a season but our business is done in 48 States. Therefore, we are not big business. Don't be foolish, boys, and lie awake nights thinking of the towns we could open up if we were organized. One thing that could improve our lot would be for the boys and girls to send lists of towns that can be worked to the Pipes Department for publication. Towns that they are certain are open and can be worked."

Organization? How Well Do You Know the Successful Pitchman?

By Sid Sidenberg

Ed's Note: The following effusion from the pen of Sid Sidenberg, widely known pitchman and an authority on the varied phases of the game, presents a running account of the whys and wherefores of the success of some pitchmen, while others of the profession made it tough on them. Sid is currently preparing another article in which he will attempt to show why organization will not do pitchmen any good. In fact, his contention is that an organization would do pitchmen more harm than good. He plans to incorporate his theories on how and what will open more towns, and to prove this action will benefit pitch-folk generally more than any union-ization could accomplish.

JIMMY MILLER, that fast traveling, geedus-grabbing knight of the tripe and keister fraternity, has requested that I shoot another pipe regarding my opinions on the organization of the pitchman. In our heyday the pitch game had just turned the corner and was halfway up the block past the Johnny-come-lately stage. In those days, Jimmy, better known as Garter Worker Miller, was ordering garters in 100-gross C.O.D.'s, while I worked paddles, Svengali decks, ring and paper-folding tricks in conjunction with a hand-printing press that attracted a steady stream of new tips by my bally. The disk of the press steadily spun and rang in some good spots until early morning. It was not unusual for some friendly minion of the law to admonish me that I was

in the hotel district and that the ring of the press was disturbing the registrants of those hostelries.

It was then that I would start to fold, but in those days business was above par, and despite the admonishing of the law the tip would become argumentive and insist that I make another demonstration, and many were the instances where I handed an acquaintance enough to purchase a half dozen cigars to hand the officer on the beat to come up and put on a sham storm to close me up. That usually happened on Saturday nights, and when a fellow sloughed under those circumstances it meant that business that could have been had had been lost forever. Even so it was better than a complaint to police headquarters, with the inevitable closing of the town to all knights as well as myself forever.

Blue Mondays

Saturday nights were the last day of any spot. Mondays as a rule were off-color days. In those days the traveling knights seemed to have a scheduled itinerary and worked a town one week regardless of how good or poor the spot would be. Sunday morning was the customary breezing time and a knight on the wing easily could be found on a boat dock or at a railway depot purchasing a ticket to his next spot.

One reason for the fast scheduled moves was the C.O.D.'s waiting at (See *Know the Successful on page 97*)

a position with the Pepsi-Cola Company, which will keep him busy this summer.

BILLY (CHIPS) FERGUS . . .
wrapped up plenty of shekels with snowball cones at the recent Fat Stock Show, Fort Worth, and headed for the Silver Dollar Days in Hope-well, Ala.

WHITEY LANGFORD . . .
who has gone native in Jackson, Miss., letters that he too would like to read a few pipes here from such old-timers as Herbert Hull, Mary and Doc Smith and George M. Reed. Langford says he's completing plans for the setting up of a trailer park and kiddie playland in the Mississippi city.

BEA LOUIS . . .
is making plans to close her juke oil demonstration in the F. W. Grand store, Milwaukee, March 13, to take her annual vacation.

In connection with the radio set-up, WTMJ-TV televised the show Wednesday night (25) and installed television sets in various shut-ins' homes and in the home of two kiddies who were laid up with the chicken pox.

Roberto Zacchini, 24-year-old human cannon ball, escaped with minor injuries Tuesday night (24) when he rebounded from a 20 by 60-foot safety net and crashed to the concrete floor.

He suffered a mild concussion of the brain, lip and jaw cuts, and a loosened tooth, and was released under care of his own physician Wednesday (25). Zacchini's doctor said he would be unable to appear during the local run, but would be back in the cannon's mouth in time for the Kansas City (Mo.) engagement next week. His sister, Germa, fled here from Sarasota, Fla., to take his place.

Program was the same as that at Memphis the week before. Music was by Joe Basile and his Madison Square Garden Band.

The program:

Display 1—Joe Basile's Band. Display 2—The Ridola Company, table rock, and Hip Raymond, table rock comedy clown. Display 3—Captain Clemens' lions. Display 4—Cluse and Company, motorcycle acrobats. Display 5—Silvers Johnson, funny Austin. Display 6—Rexola Company, clown comedy; Roberta, dog and pony; clowns. Display 7—The O'Neil Hollywood Girls, aerial ballet. Display 8—Janet and Paul, aerial. Charles B. Leedy, sales manager at Gardner & Company, Chicago, left Monday (23) for a two-week business trip which will cover the Eastern States and Coast.

Harlich Manufacturing Company's (Chicago) new triangle seal board, Fancy Figures, includes 30 square seals in addition to the triangle type. Sam Feldman, sales manager, reports the combination of the two types on one board face creates additional eye-appeal. Two new triangle seal boards are due for early unveiling, he adds. Harlich artist, Kenny Anderson, is gnawing his drawing pencils these days—there is a second Anderson edition scheduled to hit the household any day now. Sam says everyone is betting on a girl; Kenny has a boy.

Organization? How Well Do You Know the Successful Pitchman?

(Continued from page 95)

the express office when a fellow hit town. Most of the boys traversed familiar territory, but going into new or strange territory made little difference to the regular pitchman, for usually he was given the spots by another regular, who, by the way, never gave a bum steer. Even without that info he would take it upon himself to make his own spots. Believe me, a pitchman in those days never arrived in a town thinking that he couldn't work. He generally had that "I will" feeling urging him on. If the town was closed to corners, alleys or doorways he created spots by talking a building owner into permitting him to work on private property even if he failed with the constabulary. If he failed with both he would try a local amusement park or department store and in many

cases would work out a tie-up with a movie house.

If he did land a corner or doorway with his gift-of-gab it was an unwritten law, which was religiously adhered to by real honest-to-goodness pitchmen, to leave the corner or doorway just as clean as he found it. It was not unusual for a knight to borrow a broom and sweep up all paper and rubbish and carry it away to be burned. The next fellow desiring to make the spot had little trouble in securing it. As a matter of fact, when I was printing and pushing magic I tackled bank presidents and obtained permission from some of them to work in front of a bank after its closing hours. These men got a kick out the way a pitchman worked and many times these same men of weight would front for a pitchman until he got a tip and

laughed as loud as anyone in a tip at a pitchman's cracks and demonstrations. The reason for this was that pitchmen in those days didn't overdo things, leaving before he wore out his welcome and acting 100 per cent a gentleman. As a matter of fact, if some mighty minion of the law took it upon himself to roust a pitchman, these same men, bankers, manufacturers and what have you in big men in a community would intercede for a pitchman and a certain law enforcer was admonished to enforce nothing but the law.

Letter List

Back in those days the gasoline buggies were still in the experimental stage. Brakes wore easily and became faulty or tires were not up to snuff, especially when even the main highways had to be graded regularly, and during or after a rain one had to be shoved or towed out of the mired ruts. Hence the boys stayed with the steel, steam and mileage mode of transportation.

The vast majority of the pitch fraternity kept in contact by the exchange of letters thru *The Billboard's* Letter List and Pipes column, and when moves were ready to be made schedules were devised and timed so that a half dozen or more of the boys would meet on the same train. When it was headed for a State fair you would find as many as 20 shooting pipes.

No Burned Bridges

The knights rarely burned any bridges behind them, as it was an unwritten law never to beat a hotel bill, and most of the knights found their credits in AAA shape when the going did happen to get tough. There were few bellyachers in those days and one never heard of organization. The pitchman's creed was "I will" and he did.

I have met many JCL's in my 35 years in the game. While some collapsed bucking the obstacles, a successful pitchman survived; others made meteoric rises to the top once they started. And there were many in the last-named category. In fact, they are too numerous to mention and most of them are still with us batting away for all they're worth. Even among the JCL's little beefing was heard—in fact, the old-timers had little sympathy for a quitter.

In the era immediately after World War I the new and improved automobile came into its own. Cars were built better and were more dependable. Surveyors were working charting highways and soon ribbons of concrete spread in every direction in every section of the country. Pitchmen took to the highways and byways of the nation with the new improved and convenient transportation found in the gas chariots, which not only improved his flash but gave him much more merchandise loading space and relieved him of the dash to certain spots for C.O.D.'s.

Money Savers

Incidentally, the gas chariot saved pitchmen, carnival workers and exhibitors thousands of dollars every year on lumber left on exhibition lots and fairgrounds all over the nation. Pitchmen and flat-store operators, guess your age, scale and grab joints now hinge and carry their lumber with them, whereas it was too inconvenient and expensive to transport lumber by via express.

Break-Jump Spots

When a knight arrived in town he didn't have to wait for a slow-moving street car burdened with a heavy pitch case on his way to a factory spot. In addition, small towns unknown to a pitchman became "break-jump spot" on their way to a fairgrounds or a large city. In the rail days talk about break-jump spots was a joke, for when a train neared a small town—talk about a stop—the train wouldn't even hesitate, for Casey Jones would give his steel monster a little more pressure of steam, two toots and the huge monster flew past the town.

Better Footing

I honestly believe pitching is now on a greater and grander footing than ever before. The boys don't have to depend upon corner and doorways entirely to work, for most of the fellows in the business are now, owing to the automobile mode of transportation, booking celebrations, fairs, building, flower, food and sports shows along with every town, village, hamlet, crossroad and community sales that draw large crowds.

Despite all this progress starting at the turn of the early '20's, the bellyachers and lets-organize cliques were familiar characters, and now in this age and day the bellyachers and this help-me-out bunch are more vociferous than ever. Let's take inventory and find the who and why of these fellows. We all know them, for they are for the most the winos and mootches who never leave a town or city (most of them sneaking a spot or doorway without permission) and staying there until they become an eyesore. Most of them drag an orange crate from which they make their display. Another orange crate or two are set in the doorway on which these fellows and their near-do-well friends relax and cut up jackpots. And with the passing of the tobacco plug among them the sitting and spitting starts. Business is secondary with them, while tobacco juice splotches become conspicuous on a beautifully tiled doorway entrance.

Just about the time the doorway can't look any filthier the owner of the building passes by and the gang is given the bum's rush. And if they did have permission and were roused what chance does the next fellow have of trying to convince the owner that he should rent him the space?

Why these characters refer to themselves as pitchmen is beyond me. We know that there is no law against anyone classifying himself as a pitchman even tho the license issued to these birds call for peddling. I'll take that back, and with all due apologies to peddlers. I found that real peddlers are recognized as some of the best hustlers because they are mostly on the move and never remain in one spot long enough to become a nuisance.

Doorway Sitters

The doorway sitter not only sits and spits, and naturally, after a long tenure in a spot, becomes acquainted with the passers-by, and some of these good folk venture a friendly good morning which is soon turned into wisecracks by the doorway denizen. And then complaints begin to register with the powers that be; and eventually—well, eventually—you know the rest.

I cannot say that every advocate of organization is in this category, but I would get a kick out of anyone trying to convince me that he is a real pitchman and expecting others to shoulder his burden. The real, honest-to-goodness kiester exponent never asks for breaks, but makes his breaks and fights his way to success.

Seven-Year Itch

This controversy now raging in regard to organization reminds me of the dreaded seven-year itch. I would suggest to some to start scratching now, and do it hard, fast and furiously for you may scratch it out of your system in two years, or maybe sooner.

When high-powered exponents of the pitching art like Tom Kennedy, Madaline Ragan, Jimmy Miller, Joe Wahl, Sizz Cummings, Morris Kantroff, Willard Griffith, Ross Dyar, Curly Bartock, Leroy Crandall, Herb Caspar, Paul Houck, Syl LaVelle, Kid Carrigan, George Reed, Joe Morris and Bert Glauner scoff at and walk away from an advocate of organization, there is little doubt in my mind that they were ready to ask him the same question that I would put to him, and that is: How well do you know pitchmen—successful pitchmen?

Four States Considering New Revenue Legislation

CHICAGO, Feb. 28.—Two State Legislatures, California and Utah, will convene next month to consider revenue bills of a general nature. California is scheduled to meet in an unlimited session beginning March 1, while Utah goes into special session for 30 days beginning March 8. Meantime, the coin machine industry was faced with two new pieces of legislation this week—one a proposal to tax coin radios in Virginia, and the second a measure which would place a graduated license fee on all types of coin equipment doing business in Kentucky.

Virginia proposal is currently in the hands of the Senate Finance Committee, which has reported no progress as yet. The measure would amend the State's tax code to set up a fee structure for coin-operated radios in all types of locations, from hotel rooms to restaurants and hospitals.

Tax Radios

Altho the Virginia measure imposes no operators' tax, each radio would be licensed at \$1 per year, and the license fee would not be pro-rated. Issuance fees, for licenses where a number of radios are in the same establishment, would be 75 cents. A separate application is required for each location, altho licenses to cover any number of coin radios on any one location could be applied for in one application.

In the Kentucky Legislature, meantime, law-makers are consider-

ing a far broader measure, introduced February 20. This measure, now being studied by a House committee, would place licenses on all types of coin machines except pay phones and toilet locks.

Under the Kentucky proposal, coin machines are defined to mean "any coin or token-operated vending machine or device, or other coin or token-operated machines or devices which as a result of the deposit of a coin or token therefor, by and thru an automatic or mechanical operation issues or vends value received in the form of merchandise goods . . . or any service, or imparts any information or data of any kind or nature whatsoever, or provides amusement or entertainment in the form of music or otherwise. . . ."

Proposed Fees

Fees proposed by the Kentucky bill range from \$5 per year for penny equipment to a top of \$25 for machines costing 25 cents or more to operate. The measure adds that "if any machine has more than one slot thru which a coin may be dropped to operate the machine, the fee shall be based upon the amount of the highest denomination plus \$1 for each additional slot."

The measure, as far as most operators—particularly operators of merchandise and service vending equipment—are concerned, is a drastic one. Penny bulk operators, for instance, point out that a \$5 per machine tax on their units would virtually put them out of business.

By the same token, juke box operators—whose equipment would fall into the \$25 classification if the measure were enacted—are expected to oppose the bill should there be any indication that the law-makers are seriously considering its passage.

St. Paul Solons OK Bally Digger; Issue Licenses

ST. PAUL, Feb. 28.—Permits to operate 10 Hollycrane diggers, product of Bally Manufacturing Company, were granted here Thursday (26) by city council to Fritz Eichinger.

Licenses were issued on the basis of an opinion handed down several weeks ago by State Attorney General J. A. A. Burnquist that the devices are not in violation of State gaming laws.

Gus Barfuss, city commissioner of public safety, agreed to issuance of license only after satisfying himself that the Hollycranes must be operated skillfully by players to win prizes. The Burnquist opinion had held the device was a game of skill.

Matt Engel, Mayflower Novelty Company, distributor of the unit, said the Eichinger locations are the first for Hollycrane in Minnesota. Units are being shipped into other States, however.

Acme Manufacturing Co. Shuts Chi Plant

CHICAGO, Feb. 28.—Acme Coin Machine Manufacturing Company here, formerly known as Southside Engineering Company, pin game manufacturer, has closed its office and plant at 1701 Belmont Avenue.

As none of the principals of the firm could be reached for comment, the trade here assumed the company has discontinued operations. Acme Coin produced a number of its single game, Casba, before closing its Belmont office.

Audiad Seen as Point-of-Sale Vending Machine Adv. Gimmick

CHICAGO, Feb. 28.—Point-of-sale advertising for most types of standard vending equipment, and possibly for commercial phonographs, is one of the uses Magnecord, Inc., of this city, is claiming for its new magnetic tape recorder.

Russell Tinkham, general manager of the company which is producing the recorders under license from the Armour Research Foundation, told *The Billboard* this week that several vending machine manufacturers—including the producer of a milk machine supposed to be introduced shortly—have been investigating the possibility of using the tape machine as a point-of-sale gimmick.

Spot Messages

Magnecord's device, called the Audiad, is designed to deliver a series of spot sale messages ranging from five seconds to a full minute in duration. The device uses a continuous paper tape on which 60 minutes of messages can be placed. After delivering each message, the machine automatically shuts off. Tinkham said each message could be the same, or each different.

As Magnecord sees it, the tape recorder could serve a variety of purposes. It might be used to deliver a sales message after the customer has deposited his coin in a vending machine. Or it might be switched on automatically in the changing interval between every fifth record on a juke box. Tinkham said the recorder can be set off a variety of ways.

Combo

Unit is being produced as a combination recorder and reproducer, but the reproducing unit will be produced separately for possible use in vending and other point-of-sale pro-

motions. Complete unit, in a case, measures 14½ inches high 9 inches wide and 8 inches deep, and without the case would measure slightly smaller. No price has been set on the unit.

Tinkham said that his firm had considered the possibility of distributing the tape recorder thru established coin machine distributing outlets, but the firm's thinking along that line has not been conclusive. Some distributing outlets have already been contracted, and Magnecord's sales manager is now in the field establishing new outlets.

Magnecord's principal business is professional recording equipment.

NAAMO Names 18 Students in N. Y. Mech. Class

NEW YORK, Feb. 28.—With less than two months to go before the second class of coin machine mechanics is graduated from the Manhattan Trades Center here, F. McKim Smith, president of the National Association of Automatic Machine owners (NAAMO), this week announced the names of the 18 students remaining in the class after a "weeding out" by A. P. Henry, head of Manhattan Trades Center.

Eight students of the 26 enrolled in the second session were dropped from training after failing to maintain scholastic standards set by the school and NAAMO, sponsors of the course.

Set Precedent

These same high standards will set the pattern for the third class, to be started soon after the second is graduated, Henry stated. Other training schools that NAAMO will sponsor (See NAAMO Names 18 on page 100)

York DA Warns Clubs on Bells

YORK, Pa., Feb. 28.—York County district attorney, Harold B. Rudisill, has issued warnings to 30 clubs in this district to remove bell machines from their premises at once.

Rudisill took action after the York City and County Beverage Association, a group of hotel and restaurant operators also holding retail liquor licenses, charged that the use of bells in clubs presented an unfair business advantage.

Authorities in other Pennsylvania communities, including Allentown, Lebanon, Bethlehem and Pittsburgh, have recently issued warnings against bell machines.

Decision on Phoenix \$1,000 License Fee Case Delayed

PHOENIX, Ariz., Feb. 28.—A definite decision on the request of Ben J. Spaulding, local operator, for a temporary injunction to restrain the city from enforcing its new pinball ordinance (*The Billboard*, February 14) was delayed for at least 50 days while briefs are being prepared by the opposing counsel. Spaulding, owner of Spaulding Sales Company and operator of four machines within city limits, had requested the temporary injunction when court action on a previous action, filed January 6, to declare the city's pinball ordinance unconstitutional, was delayed until May 1.

At a hearing held Wednesday (25), Judge Walter Thalheimer took under advisement a motion by city attorney Jack Choisser to dismiss the request for the temporary injunction and asked that briefs be prepared. It is estimated this will take upward of 50 days.

\$1,000 Fee

Passed last December (*The Billboard*, January 3) the city ordinance sets an annual fee of \$1,000 for operators of pinball machines, plus a \$100 annual charge, payable quarterly, for individual machines.

The ordinance has been branded a monopoly move by smaller operators

here, who termed the new license program "confiscatory and ruinous," and said it opened the way for out-of-town operators to come in and take over locations.

Harold R. Scoville, attorney for Spaulding, contended the ordinance is invalid, vague and indefinite and said the license fees are "far in excess of just compensation for services to be rendered by the city in enforcing it." Both Scoville and Choisser agreed the law was a police measure and not concerned primarily with revenue.

Choisser quoted numerous decisions and rulings to support his contention that the machines can be gambling devices and as such require close study and daily supervision, thereby justifying the high fee.

Scoville's Answer

In answer, Scoville asserted he could show that the ordinance will drive the business into the hands of an unacceptable element and "we can show it was designed for that very purpose."

To date the city has not attempted to enforce the collection of the \$1,000 fee. However, operators have complied in the main with provisions of the ordinance calling for quarterly payments of \$25 on the \$100 fee for each machine.

Coin Tax Drop

WASHINGTON, Feb. 28.—Downward trend in collection on the coin machine tax continued into January, Internal Revenue Bureau reported this week. Total collections during the first month of the year amounted to \$304,903 as compared with \$396,002 for January, 1947.

Charge Pa. Bottlers With Soft Drink Tax Violation

PHILADELPHIA, Feb. 28.—Pennsylvania's soft drink tax, which has already caused soft drink vending operators and bottlers considerable expense and trouble, loomed this week as the cause of another problem. Warrants, charging evasion of the State's soft drink tax laws, were sworn out against two bottlers and two distributors. The revenue department asked for the warrants charging the firms with evading payment of the tax.

The Pennsylvania drink tax calls for a cent on every bottled nickel drink.

Distributors against whom the charges were made are liable for stiff penalties, while manufacturers face possible loss of their licenses, according to Wilbert H. Beachy, deputy secretary of revenue. The revenue department charges that the unpaid taxes amount to approximately \$15,000.

Exhibit Supply Kit Offers Ops Flippers For Older Machines

CHICAGO, Feb. 28.—Exhibit Supply Company is now in production on a flipper kit for use on the firm's earlier games which are adaptable for conversion to flipper action, it was announced this week.

Flipper kit includes two complete independently controlled flippers, two plastic flipper control buttons and two coils containing solenoids which energize the coils after the player depresses the control buttons and thus activate the flippers.

Exhibit officials explained the purpose of the kit is to give operators of older Exhibit games the opportunity for converting their games to flipper action, thereby bringing the games up to date. This the firm believes will give its operators a chance to get some extended use out of older models.

Kit includes an instruction sheet that describes how to use the various parts of the kit and where the parts should be placed. The firm also recommends that after the operator makes the conversion to flipper action with older games that certain adjustments in scoring may be necessary to compensate for the higher scoring potential of the player's use of flippers.

Exhibit's newest game is a five-ball called Build Up.

9,000 Contributors In CMI Fund Drive

CHICAGO, Feb. 28.—More than 9,000 contributions were received by Coin Machine Industries (CMI) during its campaign to back the Damon Runyon Memorial Cancer Fund drive, it was disclosed this week by Ray Moloney, CMI Runyon fund chairman, over the *On the Century* radio program.

Moloney was interviewed by Bob Elson, noted sports announcer, just before boarding the 20th Century Limited, on which Moloney and Dave Gottlieb, CMI president, traveled to New York to turn over to Walter Winchell a check for \$130,000, which brought the amount contributed by the nation's coinmen to \$250,000.

Interview was transcribed. First release was made here Monday (23) over WENR; later in the week it was over local stations in New York, Los Angeles, Philadelphia, Detroit, St. Louis and the Twin Cities.

Charged with the violations were the J. Frank & Sons bottling firm and the Porto Rico Pale Dry Company.

Specifically, the warrant charges the Frank firm, reportedly one of the largest bottling companies in the State, with selling untaxed soft drinks to Anthony DiVito, allegedly an unlicensed distributor. Involved in the alleged transaction were 17,137 cases containing 24 bottles, on which a cent tax should have been paid on each bottle. Included, in addition, were 15,691 cases of 12 bottles each on which a 3-cent tax should have been paid on each bottle.

Also charged with selling untaxed soft drinks to DiVito is the Porto Rico firm, which is alleged to have sold DiVito 803 24-bottle and 981 12-bottle cases without payment of the tax.

The revenue department also secured a warrant for Abraham Pearlman, distributor, who is alleged to have purchased 35 cases containing 24 bottles each and seven cases containing 12 bottles each from DiVito.

Harry R. Spaid, supervisor of the Soft Drink Tax Division, said DiVito and Pearlman are liable to a \$10 fine for each untaxed bottle they sold. Under the Pennsylvania law, the manufacturers are liable to a fine of \$100 and costs with a possibility of revocation of their licenses.

The soft drink manufacturers contended they were told by DiVito that the beverages were intended for distribution in New Jersey.

Stress Industry Service To Army-Navy Locations

NEW YORK, Feb. 28. — In its March issue the *Post Exchange and Ships Service Store Magazine* will begin a series of five articles covering all aspects of the use of coin machines in military establishments. Altho the magazine is not an official publication of any branch of the armed forces, it claims world-wide distribution among military and civilian purchasing officers of the army, navy, marine corps, coast guard, merchant marine and Veterans' Administration.

The initial article in the series, titled *Coin Machines in the Military Market*, is a general survey of the purpose coin machines serve on military posts. The article in the March issue, to be distributed after March 20, will emphasize the role of coin equipment as a morale factor which can favorably influence the expanding recruiting drives now under way.

Later articles will consider in greater detail different segments of the coin machine industry. The second in the series, tentatively titled *Automatic Merchandising*, will be authored by Robert Z. Greene, president of the Rowe Corporation and former prexy of the National Automatic Merchandising Association, according to John T. Dunlavy, editor.

The remaining articles will take up in turn coin-operated laundries, miscellaneous and bulk vending, and amusement machines, showing their present place and their potential in military establishments.

Recalling the slash by Congress last year of the requested \$1.20 a month (per man) appropriation for welfare and recreation to 30 cents, the first article will point to the increased load now borne by military retail stores in returning a profit sufficient to provide a decent welfare program.

With \$1.73 per man estimated as the minimum required for such a pro-

Plans Tie Market Thru Coin Outlets

CHICAGO, Feb. 28.—Alan Shepard & Sons, Inc., newly incorporated tie manufacturing concern, plans to market its entire line of Shepard of Chicago ties thru conventional coin machine channels, Alan Shepard, firm president, has announced.

In the tie business for 25 years, first as a salesman, later as a retail shop proprietor, Shepard stated that he believes coinmen channels prove the most feasible way to handle his merchandise.

Shepard is appointing distributors for Illinois and surrounding territories and plans a nationwide advertising campaign soon thru coin machine trade papers.

Keystone Panoram New Philly Operator

PHILADELPHIA, Feb. 28.—The Keystone Panoram Company was organized here for the operation of amusement, vending and ice cream machines, according to application for a charter of incorporation filed by Charles G. Gartling, local attorney for the firm.

Petition stated that the company is being organized for the "selling, purchasing, leasing and servicing vending machines, amusement machines, ice cream making machinery and machines, refrigeration cabinets and equipment, machinery and appendages, including equipment to operate the said machines and machinery, and products of an incidental nature."

gram, the stores will be called on to provide the bulk of the remaining \$1.43 per month for every man in service. One of the best ways of meeting a substantial part of this amount is thru the increased use of coin machines, the article will suggest to military retail store officials.

Following a compilation of army regulations affecting the operation of coin machines on military posts (*The Billboard*, February 28), the magazine lists seven principal reasons for military use of coin equipment. These are:

1. They are morale boosters.
2. They are income producers.
3. They do not replace—they supplement personnel. However, in many cases they actually save labor as machines in main exchanges cut the cost of handling small items during rush hours.
4. They provide an attractive display of merchandise, a reminder to buy.
5. They help eliminate shelf pilferage.
6. They provide easy control of inventory.
7. Concession-operated machines cut down bookkeeping. There is but one entry each month—the commission."

Greater Sales Foreseen

The magazine predicts that by the proper use of vending machines the new sales outlets thus provided can exert a tremendous influence on military volume sales in the next few years. It bolsters this prediction by the following set of figures:

"In the military market, 25 per cent of sales consist of tobacco and tobacco products; 10 per cent of soft drinks; and candy accounts for 8 per cent. Thus, 43 per cent of every dollar spent in the military market is spent on items which can be sold automatically. This figure does not include packaged foods which might very well bring the total well over 50 cents of every dollar."

New Five Ball By United Mfg. In Production

CHICAGO, Feb. 28.—United Manufacturing Company is in production on a new five-ball novelty and replay game, Manhattan, C. B. De Selm, firm sales manager, has announced.

Featured in the new game is a double-double bonus attraction which allows a player to score as high as 400,000 points on the last ball; an automatic shuffle which makes for easy coin chute operation and button control for replays, speeding up the number of plays on the equipment, and a high score of 890,000 points.

A series of bumpers and rollovers on the playfield, when contacted, spell out the name Manhattan. When the name is completely lit, the double-double bonus scoring goes into effect. Two knockout pockets, located at the right and left hand lower outside corners of the board, double the bottom hole scoring. Therefore, if the bottom hole score is 100,000 when the ball goes into the right hand knockout pocket, 200,000 points register. If the kicker sends the ball into the left hand pocket, an additional 200,000 points are scored. Thus it is possible to score as high as 400,000 on the last ball played and in the last few seconds of play.

Joe Munves Buys Economy Supply Co.

NEW YORK, Feb. 28. — Joe Munves, veteran coinman, announced this week that he had purchased the Economy Supply Company from its previous owners, Bessie and Ike Berman. Located at 615 10th Avenue, the firm specializes in the supply of parts for all types of coin machines.

In addition to supplying parts for standard coin machines, Economy will build parts to specification for those developing new games or venders, and with the electrification of venders on the increase, the firm will enlarge its stock of electrical parts and fixtures.

The transfer of Economy Supply does not involve Apollo Records, the wholesale record business still operated by the Bermans at the same address.

Cig Ops Withdraw Support

BOSTON, Feb. 28.—The mercantile affairs committee of the Massachusetts House this week withdrew House Bill 1476, a measure which proposed a 5 per cent maximum location commission rate payable on cigarette vending machine operations (*The Billboard*, February 21). Operators of cigarette venders in the State, who had at first waxed enthusiastic over the proposal, after giving the measure further thought, withdrew their support.

Reasons for the early support of the measure, as outlined by L. F. Foster, associate director of the Cigarette Merchandisers' Association of Massachusetts, were that by establishing a maximum commission rate under the State's fair trade laws, the payment of excessive commission rates which injures competitors and lessens competition would be eliminated.

At the present time operators estimate that the average commission on each 20-cent package of cigarettes sold thru their machines is one cent. Under the proposed measure, the maximum commission would have been 7/10 of a cent per pack.

Ex-Cell Plans Vender Showing In Los Angeles

CHICAGO, Feb. 28.—Ex-Cell Products Corporation will have a first West Coast showing of its dual flavor cup vender in a Los Angeles theater this week, it has been announced by Joe Goldberg, firm head.

Shipped to the West Automatic Candy Company, Los Angeles, Friday (27), the drink machine will be exhibited under the sponsorship of Sidney Nickin, while Joe Kacic, chief engineer for Ex-Cell Products, will be on hand to represent the manufacturing firm.

Feature of the showing will be that operators will have a chance to view the performance of the machine while it is actually on location in the theater.

Invented and developed over a period of almost four years by Goldberg, the drink machine has a capacity of 800 six-ounce drinks, features controlled carbonation, stainless steel construction, all encased wires and anti-jackpot delivery.

Ex-Cell recently completed its move to a new Chicago plant.

NAMA Regional Date Set for New Orleans

NEW ORLEANS, Feb. 28.—National Automatic Merchandising Association (NAMA) has scheduled its Southwest regional meeting for April 30 and May 1 in New Orleans, according to Tom Vaughan, NAMA regional vice-chairman.

Meet will be held at the St. Charles Hotel. Region includes vender operators from Louisiana, Texas, Oklahoma and Arkansas.

Pleasant Antidote

CHICAGO, Feb. 28.—Operators of ice cream vending equipment can add another sales argument to their location presentations. The National Dairy Council this week announced that ice cream is now recognized as a prime factor in removing safety pins and sundry other items from children's stomachs. The council pointed to St. Joseph Hospital, Elgin, Ill., where several pin-swallowing youngsters have been dosed with small cotton balls covered with ice cream. Result of the combination: No pins and no surgery needed.

Trend Toward Higher Fee Reaches Chicago Theaters

Income from vending machines seen as supplement to lower box-office grosses—increased price helping ops meet higher supply, maintenance costs

CHICAGO, Feb. 28.—Trend toward a 10-cent price on coin-operated cup and bottle vended drinks in larger motion picture theaters which received its initial impetus on the West Coast a year ago, has spread to the Eastern Seaboard, and, within the past few weeks has been introduced into the Loop area in Chicago. While

theater representatives and operators alike report box-office takes (off in the past six months thruout the country) have had nothing to do with the increased per drink price, the revenue from concessions within the theaters, including all types of venders, is seen by some exhibitors as an important source of income to offset the loss of revenue at the ticket windows.

At the present time, approximately two-thirds of the major exhibitors in downtown Chicago have switched to the 10-cent price, including the Balaban & Katz chain, and the Oriental and Woods theaters. Due to the fact the increased price has been in effect for only a short period of time, most locations have not had an opportunity to accurately check the effect on the income of the drink machines. A report from the Oriental Theater, however, (See 10-Cent Drink on page 105)

U. S. Vending Ships Candy Machine; Conducts School

CHICAGO, Feb. 28.—The United States Vending Corporation (USVC) late last week shipped its first two new candy venders by air express to Cleveland and Boston, and, coincident with the start of regular shipments, conducted its first service school here to advise distributor service personnel on the workings of the equipment.

The first candy vender to be shipped left Chicago by American Airlines for Boston where it will be installed in the Metropolitan Theater. The second air shipment, via California Eastern Air Express, was to the firm's Cleveland distributor,

Markepp Sales.

The service school, covering a three-day span, started on Monday with 19 servicemen, representing 18 franchised USVC distributors, in attendance.

The initial class opened with a message of greeting by H. T. Roberts, vice-president and director of sales of USVC. Immediately following was a discussion on the vending mechanism used in the equipment. Paul Ritzman acted as instructor. Cabinet and refrigeration assembly were studied on Tuesday under the direction of M. C. Stoddard, while (See U. S. Vending on page 107)

CMANY Holds Annual Affair In New York

60 Op Firms Host Parties

NEW YORK, Feb. 28.—The 12th annual banquet of the Cigarette Merchandisers' Association of New York (CMANY) drew 282 cigarette machine operators, manufacturers' representatives and their guests to the Waldorf-Astoria Hotel last Saturday (21). Gathered for an evening of merry-making and entertainment—with speeches barred—they filled the hotel's Wedgwood Room to capacity.

While the parties of the 60 operating firms, which compose the association, formed the largest single group at the affair, they were joined in celebrating the 12th operating year of their association by representatives of cigarette machine manufacturers, cigarette suppliers and match manufacturers.

Among those attending were officials of the Malkin-Illion Co., Universal Match Co., Philip Morris & Co., Ltd.; P. Lorillard Tobacco Co., Ohio Match Co., Liggett & Myers Tobacco Co., Lion Match Co., R. J. Reynolds Tobacco Co., Diamond Match Co., the Rowe Corp., and Lehigh Foundries, Inc.

Entertainment for the get-together, which didn't break up until 3 a.m., was provided by Myron Cohen, Diosa Costello, Senor Wences and Jeanne Claire. Marty Beck and his ork played for dancing. Arrangements were under the direction of Matty Forbes, CMANY managing director.

Association, whose members operate in all of New York City except Staten Island, as well as in Nassau, Suffolk and Westchester counties, will hold its next affair in June. This event, CMANY's annual spring outing, will be held at a resort hotel in the Catskills.

SERVICE PERSONNEL from the 18 United States Vending Corporation's distributors gather around the firm's new air conditioned candy vender. The men spent three days in Chicago this week studying the new machine which is now being shipped by USVC.

WVMOA Amends By-Laws To Allow New Assoc. Members

LOS ANGELES, Feb. 28.—Privileges governing associate members in the Western Vending Machine Operators' Association were clarified Tuesday (24) when the group voted unanimously to amend the by-laws to allow new members in this category, provided they are new dealers or jobbers, to attend one meeting and make a brief talk on their business. After this they may attend only upon invitation extended by the association. Associate members who are jobber-

operators may attend the dinners but not the meetings.

A decision to restrict jobber-members to a one-time appearance came late in the regular monthly meeting held at the Unique Restaurant.

The session, conducted by M. I. Slater, president, heard Jim Jackson, of Shine Distributing Company, talk on the merits of the Douglass shoe-shining machine. Jackson distributed brochures describing the machine and, in answering questions asked by

members, emphasized that takes on shoeshiners on location ranged from \$3 to \$10 daily. Replying to J. C. Pruner, who inquired as to financing, Jackson said that, because of the great amount of time consumed in getting the machine into production, this point had not been cleared up. He explained that all Douglass machines have sealed meters and upon presentation of this record to any financing office he felt no difficulty would be encountered in having them take over the paper.

Reads NAMA Letter

Slater read a communication from National Automatic Merchandisers' Association (NAMA) regarding municipal taxes. The NAMA letter was on Ordinance 991 in South Pasadena.

Reading of a report upon the apprehending of an alleged slug user claimed attention. Members were advised to report any unusual amount of slugs found in their machines to the police.

Phil Sreden, association secretary who arrived at the meeting from his route and without the minutes of the last meeting, read the account of this session from a clipping secured from *The Billboard*. President Slater took the floor following the reading of the "minutes" to thank both *The Billboard* and *Vend* for coverage of their meetings and co-operation in matters of importance to the association. Slater pointed out that for over a year *The Billboard* and *Vend* had had two men in attendance at each session while, with the exception of one meeting, there had been no coverage from other trade papers.

Reports on Talk

Sreden reported that he had attempted to call members who had been absent from meetings to obtain their orders for decals. Slater made a report on his talk with the Meyer-cord Company regarding the order for stickers.

Slater greeted H. J. Abarr, who recently recovered from an illness of several weeks. Abarr said that he was feeling very well and hoped to be up to his usual standard in a few weeks. He also said that Marvin Drenkow, association treasurer, had been helping him to keep his business going during his illness. Al Mayo filed application for membership.

Next meeting is set for March 30.

ST. JOSEPH, Mo., Feb. 28.—Chase Candy Company reports a net income of \$1,418,313 for the six-month period ended December 31, 1947. Earnings are equal to \$2.77 per share on the 511,932 common shares outstanding. For same period in 1946, earnings were \$1,378,420, or \$2.70 a share. Firm's volume totaled \$11,500,000 for the six-month period ended December 31 last year, against \$7,900,000 in like period in 1946. For the entire 1946 fiscal year, volume was \$16,400,000.

Jennings Milk Vender Hit by Steel Shortage

CHICAGO, Feb. 28.—Difficulty of obtaining sheet steel needed to fabricate cabinets is holding up production of the bottle and carton milk vending machine developed by the O. D. Jennings Company here. J. R. Bacon, Jennings' vice-president and general manager, said this week that the firm has had to push back initial production to an indefinite date because of the steel situation.

Sheet steel which would go into the Jennings vender is of the same gauge as that used by automobile makers, Bacon said, and demand exceeds the available supply.

Other Parts Available

Despite the steel shortage, Bacon said the firm had a stock of compressors and drive motors on hand ready to begin production on the milk machine as soon as the steel market eases. Meantime the firm is continuing to hold its orders for the vender, altho buyers have been told that production still is indefinite.

Majority of the orders for the milk machines came from established distributing companies, rather than from dairies, Bacon said. He estimated that between 60 and 65 per cent of the orders on hand for the milk machine had been placed by distributing organizations.

Minnesota Ups Freight Rates

ST. PAUL, Feb. 28.—Increase in intra-State railroad freight rates of 20 per cent and motor freight rates of 10 per cent were placed in effect in Minnesota this week following approval by the State Railroad and Warehouse Commission. The boosts will cost State shippers an estimated \$1,500,000 more in rates.

The commission, which in December granted the rails a 10 per cent rate hike, canceled that and instituted the 20 per cent boost instead. An action to set aside the rail freight increase was started at Montevideo, Minn., by G. M. Thompson, freight elevator operator.

**Coffee Vendors of America
Readies Model; Plans Show**

CHICAGO, Feb. 28.—Production model of the combination coffee and doughnut vending machine, to be manufactured by Coffee Vendors of America in this city, will be ready within the next week, according to Paul Lovell, president of the firm. Plans to produce the machine, announced last March, were held back while the firm underwent some changes in executive personnel.

Lovell said that the exact date and place of the showing will be announced in the immediate future. He said that the showing would probably be held either in Chicago or in Los Angeles. Los Angeles, Lovell said, would make a good place to hold the first showing, since the company which manufactures the coffee-making equipment to be used by Coffee Vendors' operators, is located there.

Patented Coffee Process

Coffee used in the vender is brewed ahead of time by a patented process, and Lovell claims that this special method keeps the coffee fresh for 48 hours. Aroma Seal Division of Coffee Vendors, owned by William P. Lawson and J. S. Comstock, manufactures the brewing equipment.

Contracts for the component parts to be used in the coffee vender have now been let with a number of Chicago-area firms, and Lovell said final assembly would be made in Coffee Vendors' own factory.

These firms will make components

for the venders: Aluminum Castings Company, Moline, Ill., will make the door castings; Steel Fabricating & Engineering Company, Chicago, will make the cabinets, racks and some of the internal framework; General Finishing will do the paint work; changers and cup dispensing unit come from Johnson Fare-Box, Chicago. Various other small parts are being farmed out.

Lovell said that the firm has abandoned its original plan to franchise operators, and will instead sell thru distributors to operators. As yet the firm has not made final arrangements for its national distribution.

Price Not Set

No price has as yet been set for the coffee and doughnut vender, but Lovell said he expected the unit would sell for between \$800 and \$900. Coffee making equipment, which the operator must have, has not been priced yet either.

Capacity of the vender has been increased from 240 cups to 260 cups, and operators have their choice of a six or 12-dozen doughnut vender which can be operated at either a nickel or a dime.

As described by the patent holders, the Aroma Seal method of coffee brewing uses an infusion process which has somewhat the same effect on the coffee as homogenization has on milk. Water, kept at a constant temperature of approximately 205 degrees, is shot into the grounds under light pressure thru jets—16 at the top and 24 at the bottom of the coffee maker. Bottom jets keep the grounds off the bottom of the coffee maker and top jets serve to break up the crust which usually forms at the top. Air pressure is sent thru the grounds to extract the coffee oils, and as the liquid reaches a certain point in the brewer it is gradually filtered out.

Coffee and doughnuts are dispensed thru two separate openings in the face of the vender. Lovell said that each operator will make his own local deal on doughnuts, which should be packaged individually in cellophane bags.

**ALD Plans To Push
Philly Laundromats**

PHILADELPHIA, Feb. 28.—ALD, Inc., national distributor of Westinghouse coin-operated Laundromats, has launched a campaign here to interest prospective Laundromat operators in establishing Laundromat stores. First part of the drive consists of display ads in local newspapers stressing the availability of machines.

10-Cent Drink Trend Hits Chi Theaters; Augments B. O.

(Continued from page 101)

ever, indicated that while the total sales had decreased, the income from the machines was about the same. A similar check with the Balaban & Katz executive offices revealed the gross on machines located in their theaters in the Loop had not been affected by the price hike.

The development of the trend toward a 10-cent per drink price started in California approximately a year ago when the Skouras and Fabian theaters there put the 5-cent increase in effect, and, according to reports from that area, a pattern similar to that in Chicago developed. Imme-

diately results were decreased number of drinks vended, but approximately the same grosses. However, over a period of time the volume increased, and the grosses followed suit.

Major exhibitors in the Detroit area have featured the 10-cent price for some time, and, within the past few months, the price increase has become evident in the New York area. The Roxy Theater, the Brandt chain (operating in Manhattan and Brooklyn) and many of the second-run houses located on West 42d Street now have the 10-cent price in effect.

Cite Factors

One of the reasons advanced in the East for the 5-cent increase in price was the increased cost of supplies. With two recent jumps in cup prices alone, gross margin of profit on some machines was cut to about one-half cent. This same item also cut into the income of the Kwik-Kafe hot coffee venders in the New York area, and several operators have been considering a jump to a 10-cent price in recent weeks.

Servicing of equipment has also become more expensive, and, in areas like New York, where bad weather not only kept customers away from locations, but prevented servicing of machines for as much as two or three weeks at a stretch, pro-rated service costs since December, in some instances, tripled. With the 10-cent price in effect, operators could stand the increased supply and service costs, and, over a period of time, increase their take to a point where the operation of theater locations again becomes equitable.

Price Factor

The price of new equipment may also be a factor in the spreading trend toward a 10-cent per drink price. With the average cost of cup venders roughly \$1,000 (they range from a low of \$800 to a high of \$1,695), replacements of older equipment with new units is in many instances impossible for the smaller ops whose profit margin has been slashed to 1/2-cent or less per drink. However, with the possibility of equipment prices dropping (Drink-o-Mat recently reduced its list from about \$1,600 to \$1,320) coupled with a higher profit margin via the 5-cent price hike, movement of new equipment may increase.

From the bottler and the sirup manufacturer angle, the price hike has few complications. Concessionaires have recently sold various bottled soft drinks anywhere from 10 to 25 cents per bottle at baseball parks, on trains and in theaters and other public gathering places. Pepsi-Cola insists on a nine-ounce drink being served, but so far has made no definite statement on the pricing of that drink. It is known, tho, that the firm would insist on a 5-cent price if a competing drink machine held to the lower price, too.

G. Lamont Elected to Lamont, Corliss Bd.

NEW YORK, Feb. 28.—Gordon Lamont, vice-president of Lamont, Corliss & Company, was elected last week as a member of the firm's board of directors to fill the unexpired term of the late Thomas Lamont. He is also a vice-president of the Peter Cailler Kohler Swiss Chocolate Company, Fulton, N. Y., a wholly owned subsidiary of Lamont, Corliss.

Thomas Lamont, who died February 2, was founder and chairman of the board of Lamont, Corliss, as well as chairman of the board for J. P. Morgan & Company. He was the uncle of Gordon Lamont.

Vending Firms Help NAAMO's School Program

ATLANTIC CITY, Feb. 28. — The National Association of Automatic Machine Owners (NAAMO) made public this week the names of 10 vending machine manufacturers who are co-operating in the NAAMO-sponsored coin machine mechanics courses conducted by the Veterans Administration and local boards of education.

F. McKim Smith, NAAMO president, disclosed that the following firms were supporting the educational program by donating machines and/or providing specialist instructors.

Spacarb, Inc.; Stoner Manufacturing Corp.; Drink-O-Mat Industries, Inc.; Statler Manufacturers Corp.; International Mutoscope Corp.; C-Eight Laboratories; Rudd-Melikian, Inc.; Automatic Book Vending Corp.; J. H. Keeney & Co., Inc., and American Gripmeter Co.

Every firm contacted by the association has offered its support, Smith reported. More than 20 music and amusement machine concerns have already joined in the program, he added.

Spacarb Adopts Self Lok as Standard Box On Its Cup Venders

NEW YORK, Feb. 28.—I. H. Houston, president of Spacarb, Inc., this week announced that following field tests, the Self Lok telephone coin collection box has been adopted as standard equipment in the firm's cup vending machines. The Self Lok coin box is also used in other coin-operated equipment including parking meters, Mail-o-Mat, radios and washing machines.

According to Charles H. Lipton, president of the Self Lok Corporation, the principles of the coin collection box have been proven in many years of practical use by 90 per cent of the telephone companies in the country. The Self Lok is the development of a patent collaboration between the Gray Manufacturing Company, makers of telephone coin boxes, and the Lipton firm. The Gray Company patents cover the locking device which automatically snaps into place when a coin-filled box is removed. This device includes both the box cover and the rail upon which it slides, and which is mounted inside the top of the coin box housing.

To insure that the coin box contents are handled by only qualified personnel, a small lead seal is wired on the eye of the latch lock, thus making any attempt to tamper with the contents self-evident.

Ice Cream Experts Discuss Problems at Dairy Confab

COLUMBUS, O., Feb. 28.—Ice cream shrinkage, overrun, flavor and bacterial contamination were among the major topics discussed by ice cream experts during the recent five-day dairy technology conference which took place at Ohio State University here.

Speakers on the program included J. G. Leeder, Ramsey Laboratories, Cleveland; Herbert D. McAuliffe, Bowman Dairy Company, Chicago; D. V. Josephson, Ohio State; Prof. P. S. Lucas, Michigan State College, East Lansing, and Clyde A. Fowler, Pittsburgh.

In all, about 30 topics on different aspects of dairy technology were explained by trade experts and Ohio State staff members.

Wilbur-Suchard To Air Juke Box Jury

LITITZ, Pa., Feb. 28.—Wilbur-Suchard Chocolate Company, Inc., here is combining three items of paramount interest to teen-agers on a new Saturday afternoon radio show. Staged in Boston, over WHDH, the firm is sponsoring a weekly program called *Juke Box Jury*. Broadcast is composed of teen-age arbiters passing judgment on swing music; with the trio of teen tempters (juke box, swing music and candy bars) the program is said to be proving highly popular with both teensters and their parents.

Each week a prominent band leader or singer guest stars on the juke jury broadcast. Similar programs are also being conducted in Pittsburgh, New York and Philadelphia.

Jobber Future Topic At NCWA's Meetings In Memphis-Atlanta

MEMPHIS, Feb. 28. — National Candy Wholesalers' Association (NCWA) held the first of 12 regional council meetings yesterday (27) at the Peabody Hotel here and disclosed that the second would be held March 1 in Atlanta's Ansley Hotel. Discussion during the meet centered about "what lies ahead for the jobber," and will also be the subject of the second gathering.

Afternoon session of the meet here dealt with candy sales trends, chocolate outlook, bar goods and operation costs, trends in merchandise, chain store competition, direct sales to retailers and local co-operation. John F. Poetker, vice-president of NCWA, and heading John F. Poetker & Son, Cincinnati, spoke at the meeting's evening session, as did other association officials and leading members of the industry.

Scheduled to speak at the Atlanta meet is H. W. Looock, first president of NCWA and now chairman of the board of directors. President of Allen, Son & Company, Baltimore, Looock has been connected with the confectionery industry for 40 years.

Among other speakers at the dinner meeting will be C. M. McMillan, NCWA executive secretary. Talks will be followed by round-table discussions.

Remaining 10 NCWA regional council meetings are scheduled during March and April. They are to be held in Boston, New York, Pittsburgh, Baltimore, Dallas, San Francisco, Seattle, Des Moines, Chicago and either Kansas City, Mo., or Lincoln, Neb.

NCA President Gott Tells Cocoa Outlook

SAN FRANCISCO, Feb. 28.—Philip P. Gott, National Confectioners' Association (NCA) president, in his address at the 1948 conference of candy manufacturers of the Pacific area here this week, discussed recent developments in the cocoa situation.

Addressing the group on the second day of the two-day meet in the Sir Francis Drake Hotel, Gott talked on the new export license regulations and the over-all confectionery industry status, emphasizing the part played by Western confectionery manufacturers, in addition to his comment on cocoa. First day of the meet (26) Gott attended committee meetings which were devoted to discussion of specific industry problems.

Gott is also meeting with Denver and Salt Lake City confectioners to talk on matters of candy manufacturing, both in general on particular local problems. He will then visit Los Angeles to meet industry members within that area.

NCWA Reveals Plans For June Convention

CHICAGO, Feb. 28. — National Candy Wholesalers' Association, Inc. (NCWA), this week revealed floor plans for the confectionery exposition which will be held in conjunction with its annual convention June 13-16 at the Sherman Hotel here. C. M. McMillan, executive secretary of NCWA, said that the exhibit space is 50 per cent larger than the 1946 meet, and will consist of approximately 90 exhibit spaces.

Association has placed a limitation of two spaces per firm, and will admit only candy and other confectionery products and candy sales materials and equipment for display. No other jobbing lines will be shown. There will be no exhibits in separate rooms off the exposition floor, McMillan said.

Members of NCWA will be given priority of selection of spaces until March 15, when non-member firms may begin selecting space. Official opening of the exhibit has been set for 4 p.m. June 14.

Ozzie and Harriet Plug Launderettes Via CBS Air Show

NEW YORK, Feb. 28.—Coin-operated launderette self-service stores received their second major plug on a national network radio show recently when Doc, a character on the Columbia Broadcasting System (CBS) program *Adventures of Ozzie and Harriet*, boosted the Telecoin trade-marked stores. Bob Hope had worked a gag on launderettes into his program about a month ago.

An estimated 5,000,000 listeners to the CBS show heard Doc and Ozzie discussing how they could get some dirty laundry cleaned before Harriet returned home.

Part of the dialog follows:
Doc: "... Say, I have a thought. Why don't you take the clothes down to that new launderette on the corner? It's a dandy."
Ozzie: "What's a launderette?"

Doc: "An automatic laundry. They have dozens of machines. You just put in the clothes and drop a coin in the crevasse."

Ozzie: "Confidentially, I do the laundry at our house and I always take it to the launderette. So convenient, and they furnish all sorts of pleasant pastimes while you're waiting. You meet a lot of fine fellows, too. Terrific! I got to be the best checker player in the crowd. I beat Mr. Thompson, the champion, regularly. He was a poor loser—changed his wash day."

Ice Cream Bar Vender Set for Mar. Production

CHICAGO, Feb. 28.—Berco, Chicago firm manufacturing the new Hilco ice cream bar vender introduced at the CMI show in January, will start quantity production of the machine in March, Henry Hildebrand, president, announced this week. To date firm has constructed a number of hand-built pilot units for test purposes.

Hildebrand stated that since February 11 Universal Distributing Company, St. Louis, is no longer acting as national distributor for Berco. Universal had been named firm's distributor prior to the convention showing. As yet, national distributing plans have not been set.

Firm's vender, which dispenses ice cream bars in regular paper bag-type wrappers, is of the manual, lever delivery type. Arrangements have been made with Borden Company, this city, to supply ice cream bars to operators in the Chicago area if latter desire to use them, Hildebrand said. However, the operator may use any brand he chooses.

Beech-Nut Names Officers; Shineman Board Chairman

CANAJOHARIE, N. Y., Feb. 28.—Edward W. Shineman has been elected chairman of the board of Beech-Nut Packing Company, filling the vacancy caused by the recent death of F. E. Barbour, film officials announced this week.

Shineman, with Beech-Nut for the past 44 years, has been vice-president and treasurer during the last 10 years. Other officers elected were Franklin L. Fero, treasurer; Guy W. Sharpe, secretary; C. N. Robinson, director, and Edward W. Shineman Jr., assistant treasurer.

Board of directors of Beech-Nut recently voted a quarterly dividend of 40-cents, payable March 26 to stockholders of record February 28.

50 Kwik-Kafe Machs. in Chi On Location

Midwest Routes Growing

CHICAGO, Feb. 28.—J. T. Williams, sales representative in the Chicago territory for Rudd-Melikian, Inc., makers of Kwik-Kafe hot coffee venders, disclosed this week that there are now five Kwik-Kafe routes in this city, which include 50 on-location machines.

While the development of routes for Rudd-Melikian venders was started along the East and West Coasts over a year ago, concentration on Midwest routes was begun at the end of 1947, Williams pointed out. Other routes in the central States include one in Milwaukee, one in St. Louis and one in Kansas City, Mo. In all, approximately 1,000 Kwik-Kafe machines are on location thruout the country, according to Williams.

One of the prime requisites for a new Kwik-Kafe operator, Williams stated, is that either the operator or his serviceman make a trip to the Rudd-Melikian plant in Philadelphia for a comprehensive one-week training course. When the operator begins to look for new locations, he is advised that locations that have at least 250 workers are considered potential locations. Thru research, Williams explained, the firm has learned that this type of spot will be able to vend more than the required daily average of 83 cups per day.

Thus far the best locations in this area have been office buildings, industrial plants and larger bakery firms. One reason Williams felt that bakeries proved to be particularly valuable stops is that this industry traditionally works at night and night workers are known as heavy coffee consumers. At the moment one local operator is using a theater as a test location. The unusual thing about the test is this is the first time that any Kwik-Kafe vender has ever been on location in a theater, Williams pointed out.

Local coffee operators mentioned by Williams include Kwik-Kafe of Chicago, headed by Herbert Kohn; Cronin Vending Company, headed by Frank B. Cronin; Dave's Kwik-Kafe, headed by D. Gottlieb, and Automatic Dispensers, headed by Andy Anderson.

Rudd Melikian, the remaining in Philadelphia, moved its plant October, 1947, in order to give the firm improved manufacturing facilities. Firm uses a coffee distributed by Standard Brands.

'47 Cig Sales Set New All-Time Record

Smoke 336 Billion Units

WASHINGTON, Feb. 28. — Cigarette consumption rose to an all-time high of 336,015,000,000 units last year, the Commerce Department disclosed this week. The total number of cigars sold in 1947 amounted to 5,626,763,000.

A decrease in smoking of both cigarettes and cigars, however, was reported by Commerce for December, with cigarette sales off about 10 per cent from November figures, while sales of cigars dropped approximately 8 per cent.

Top 1947 month for cigarette sales was October when consumption amounted to a little over 33,000,000,000. Low month was December when only 24,799,000,000 cigarettes were sold.

October was also the high cigar month with sales of 587,880,000, while the low month was April, when only 416,270,000 cigars were smoked.

Heide Recommends Policies on Mexican Import-Export Trade

WASHINGTON, Feb. 28.—A brief recommending revision of trade agreements with Mexico, drawn up by Herman Heide, of Henry Heide, Inc., and filed last week with the Committee for Reciprocity Information, points up six major issues concerning trade agreements negotiations with Mexico and calls for adoption of six policies affecting the import and export of candy products.

Briefly, the recommendation calls for decreasing U. S. import duties on any products used in the manufacture of candy which are not produced in the States in adequate quantities; decreasing U. S. import duties on those products used in candy manufacture which are produced domestically in sufficient quantity; refrain from reducing import duties on sugar candy and confectionery, including chocolate candy.

One of the reasons which Heide, whose brief was submitted with the endorsement of the National Confectioners' Association (NCA), gave to support his recommendations is that candymakers in the United States, including approximately 50,000 employees, "would be harmed by any extensive increase in the importation of candy and confections from Mexico." Heide pointed out that this harm might result from lowering of existing import duties on confectionery products.

Last year, when available supply of all types of confections was far below demand, Mexico and several other foreign countries, including Cuba, announced that it would make a bid for the U. S. candy market—particularly in the chocolate and hard candy lines.

'47 Canada Ice Cream Output Increases 50%

TORONTO, Feb. 28.—Ice cream output in Canada during 1947 totaled 23,714,000 gallons or about 50 per cent above the previous year's production, according to latest figures released here by the Ontario Association of Ice Cream Manufacturers. Canada's nine provinces produced 1,027,000 gallons during the month of December, 1947, alone, a figure

Gum Products Will Extend Club Drive

BOSTON, Feb. 28.—Gum Products, Inc., here has started a campaign aimed at educating children to follow sanitary habits in the chewing of bubble gum. Idea consists of setting up clubs for children, members pledging themselves to follow non-offensive gum disposal habits.

Currently in operation here and in Pittsburgh, Gum Products will soon extend the campaign to other cities and will invite dealer and jobber participation. Latter will be sought thru trade-paper advertising.

Children who are club members receive awards, novelties, club membership cards and a good citizen's chart listing cleanliness habits. Reporting on the success of the program, Tom Wilder, firm's advertising manager, states that in the first week of the campaign some 20,000 reprints of the promotion details were requested by teachers. He added that several thousand children in the two cities have indicated a desire to join the club.

First Break in Price of Cocoa

WASHINGTON, Feb. 28. — First break in the soaring wholesale price of cocoa after 13 months of steady advances occurred in December, the Commerce Department reported this week.

After hitting an all-time high of 51 cents a pound in November, the average price on the New York Cocoa Exchange dropped to 43 cents in the last month of 1947, according to the report.

A drop had been forecast earlier (*The Billboard*, February 28), but the 8-cent decrease exceeded the hopes of commerce officials, who are now counting on a continued downward trend.

Imports of the candy ingredient have been holding steady at around 13,000 tons monthly for the past few months, and Commerce officials attribute the price slash chiefly to growing buyer resistance to higher prices which, even with the cut, are more than double the average 1946 price.

Book Match Ad Firm Opens N. Y. Office

CHICAGO, Feb. 28. — National Match Book Advertising, Inc. (NMBA), this city, has established an Eastern office in the Squibb Building, 746 Fifth Avenue, New York, R. B. Barton, NMBA president, announced Wednesday (25).

Headed by F. J. Prince, firm vice-president, new office will serve advertisers and agencies on the Eastern Seaboard with complete facilities for the purchase and effective use of advertising space on match books. Leon Green will represent NMBA on its Eastern sales staff.

Established in October, 1947, National Match Advertising is a central sales agency which represents leading match manufacturers in the sale and promotion of match books as a major advertising medium.

which almost doubled the amount produced during the same month in 1946.

Top producing province for the full year was Ontario with 10,185,000 gallons, followed by Quebec with 4,638,000 gallons. Same two provinces finished in that order for the December, 1947, totals. Province reporting the smallest output for the full year was Prince Edward Island with but 120,000 gallons.

Miss. Solons Study Change In Coin Laws

Video Play Mentioned

JACKSON, Miss., Feb. 28.—House Ways and Means Committee is still studying a measure to amend the State's general coin machine tax law to make clear that the law does not apply to coin-operated radios or coin-operated television sets. Proposal was introduced early in the month (*The Billboard*, February 14) and marks the first time a Legislature has considered a proposal directly affecting coin video.

The proposed amendment would have no effect on the State's existing laws pertaining to other types of coin machines, but would likewise reaffirm the exemption granted machines which are stored or displayed by distributors and jobbers.

Section pertaining to radio and video sets specifically points out that "This act shall not apply to any radio and/or television set requiring the deposit of a coin, token, slug or thing of value for its operation."

Roberts Named For Wurlitzer Sales Position

NORTH TONAWANDA, N. Y., Feb. 28.—E. R. Wurgler, general sales manager of the Rudolph Wurlitzer Company, has announced the appointment of Wolf Roberts, Denver, as regional sales manager for the Rocky Mountain and Pacific Coast areas. Roberts, prior to the appointment, was president of the Wolf Sales Company, Wurlitzer distributor in the Rocky Mountain region. The firm continues its affiliation with Wurlitzer with Roberts's two sons, A. A. and A. C. Roberts, now in charge.

Wurgler, in announcing Roberts's appointment, stated: "We consider ourselves fortunate to be able to draft Wolf Roberts from the ranks of Wurlitzer distributors for this important and responsible position. As a member of the factory sales team his advice and assistance will be available to a larger part of our field organization."

Seeburg Louisville Distributor Leases Bldg.; Plan Expansh

LOUISVILLE, Feb. 28.—S. L. Stiebel Company, Seeburg distributor in this area, has taken a 10-year lease on a modernistic building at 850 South Third Street here, it has been announced.

Stiebel concern will move into the new location June 1. S. L. Stiebel, firm head, stated that his firm plans to expand its present business to include music system installations in industrial plants.

Building, erected three years ago at a reported cost of \$100,000, is owned by Kenwood Homes, Inc., a firm headed by James G. Polk, who also heads James G. Polk & Company, a kitchen equipment firm currently occupying the building.

Aireon Prices '48 Equipment

KANSAS CITY, Kan., Feb. 28.—This week Aireon Manufacturing Corporation officially announced 1948 prices on its commercial phonograph equipment, wall box and speaker line. New Coronet, introduced to the trade at the Coin Machine Industries' January exposition, is officially listed at \$495.

Three other models—Blonde Bombshell, Fiesta De Luxe and Super De Luxe—which were in production before the Coronet, are listed at \$595, according to Rudy Greenbaum, the firm's sales manager. The '48 Hideaway is officially priced at \$299.50.

RAPID CITY, S. D., Feb. 28.—Tri-State Music, Inc., has been incorporated here, with J. G. and Leona Koerrs and Jean Hayes as directors.

Ice Cream Parlors, Snack Spots Get More Juke Play

Gradual drop-off in bar trade causes Chicago music firms to concentrate on other than tavern location—survey shows non-tavern play 10 per cent higher

By Fred Amann

CHICAGO, Feb. 28.—The major juke box location, profit-wise, has gradually shifted in Chicago during the last six months from the tavern to the hamburger or quick-lunch, ice cream parlor and restaurant stop. While the average route here is still made up largely of tavern and cocktail locations, it is the straight food or confection type location that is returning highest weekly grosses these days, operators claim. An average

increase of 10 per cent over tavern play is attributed to most non-tavern locations.

Altho confirming the fact that the play spotlight is now focused on non-tavern juke box locations, operators say that this does not mean play in these locations has increased. Reason for the non-tavern location's lead in play is explained instead by the reduced play in taverns. Decline in tavern play is said to be the result of both the post-war drop in tavern business (ranging from 30 to 45 per cent) and the advent of tavern television. To date, neither video nor the decline in business have touched the hamburger and ice cream establishments.

An indication of the drop-off in tavern trade is the recent report by the Treasury's Alcohol Tax Unit (ATU). This report showed a 1,156,010 barrel decline in beer production for December, 1947, when com- (See *Ice Cream Parlors on Page 112*)

AMI Appoints Moore Firm Distributor in Northwest

GRAND RAPIDS, Mich., Feb. 28.—AMI, Inc., has appointed the Jack R. Moore Company as distributor in the Northwest territory and Northern California, John Haddock, AMI president, announced this week.

With offices in San Francisco, Seattle, Spokane and Portland, the Jack R. Moore firm has long been one of the leading distributing concerns in the Northwest. Formerly a Seeburg distributor, it was founded by Jack R. Moore, who died suddenly in November, 1947.

Recently, W. H. Schetter was named president and firm general manager with headquarters in Portland. Prior to his new post, Schetter was Los Angeles manager for the Don Clark distributing firm. Other firm officials include Mrs. L. H. Cusson, secretary-treasurer, and J. H. Hiles, who is controller.

Office managers in each of the four cities that have the Moore firm showrooms will remain the same. They are J. E. Cusson, Portland; J. H.

Ruggiero, San Francisco; R. D. Perin, Spokane, and A. S. Beutler, Seattle.

Haddock, who just returned from a three-week trip thru the Northwest, stated that he felt that the Moore firm would prove a strong representative in Oregon, Washington and Northern California. He pointed out that under the able leadership of the late Jack Moore, the firm won a reputation as a fair dealing and aggressive firm. "Since many of the same staff who helped the firm become one of the leading distributors will remain with the firm," he added, "there is every reason to believe that the Jack R. Moore Company will prove an excellent outlet for AMI products."

For Schetter, returning to Portland, will be returning home, since he is a native of that city. "I am very glad," he said this week, "to be back in my own home territory."

Prior to 1945 Schetter was for 10 years district manager for the Soco-Vacumn Company.

Cleveland Ops Pick March Hit Tune Via Radio

CLEVELAND, Feb. 28.—The Cleveland Phonograph Merchants' Association on Sunday (22) held its Hit Tune party to select the song to be placed on No. 1 spot on the city's more than 3,000 music machines for March. Event was held in conjunction with a collegiate disk jockey contest at Chin's Golden Dragon restaurant here.

In addition to the association's membership many boosters of the collegiate disk jockeys attended the event. The contest was sponsored by the Lyon Tailoring Company, was heard over WJMO from 4 to 6 p.m., with Howie Lund, one of Cleveland's top disk jockeys acting as master of ceremonies.

Cash Prizes

Four collegians vying for the title were Bill Robinson, Case Institute of Technology; Bill Lovelace, Fenn College; Clyde Thomas, John Carroll University, and Joe Berg, Western Reserve University. Each contestant was allotted 20 minutes of air time. Robinson was adjudged the winner and also walked off with the majority of cash prizes which in all totaled \$250.

All the tunes entered in the Hit Tune contest had been nominated by the CPMA membership, with the tune for March turning out to be *I Love You, Yes I Do* in a closely waged contest.

Other top tunes entered in the contest were *Treasure of Sierra Madre*, *There Ought To Be a Society*, *Teresa, Ida, I've Only Myself To Blame*, *Little White Lies*, *Because*, *A Tree in a Meadow*, *Brazil*, *Encore*, *Cherie*, *But, Beautiful*, *Manana*, *I'll See You in My Dreams*, *Sophisticated Swing*, *Worry, Worry*, *Worry*, *Sabre Dance*, *If I Knew Susie*, *At the Candlelight Cafe* and *Tonight You Belong to Me*.

Ice Cream Parlors, Snack Spots Get More Juke Play

(Continued from page 111)

pared with the same month in 1946.

Another contributing factor in reduced tavern juke play is the high rate of turnover in bar ownership. In Chicago, the number of tavern licenses issued, as of this week, number 10,024, against 9,741 at this time last year, the city license bureau reports. This increase spreads available tap trade still thinner among the total number of taverns, and may have a tendency to lower juke play in individual spots.

In some instances, operators report a slow rise in play on their non-tavern locations, with an accompanying fall-off in play on tavern spots. Fluctuating play in taverns, while sometimes hitting higher weekly totals than non-tavern locations, averages out to monthly grosses below those of the good non-tavern location.

Jack Paschke, Paschke Phonograph Service, reports that his ice cream parlor and hamburger locations are bringing in about 10 per cent more play than his tavern locations. This trend became apparent five or six months ago, and steadily became more pronounced as tavern trade continued to drop.

Like other operators, Paschke feels that basically the tavern is still the top juke location, needing only a rise in bar business to bring back top record play. Meanwhile, the ice cream parlors, catering to teen-agers, and the hamburger and restaurant spots catering to all ages, have moved up into the leading type of location for juke boxes, he said.

Little Amusement's Floyd Pedone states that the non-tavern location

is proving a top play spot for his machines. Unlike most other local operators, Pedone has about 40 per cent of his equipment in restaurants. These, he says, bring in a uniform amount of play each week, while the tavern juke ranges from high to very low play in the course of a month. Because of this, the tavern machine averages a lower monthly take than machines in restaurant and ice cream parlor spots, Pedone says.

William Nyland, manager of Western Automatic Music, Inc., agrees to the increasing importance of the non-tavern type of juke location. "Today it is the ice cream and hamburger counters that pull in the most coin for juke play," he states. Adolph Raymond, heading A & M Music, concurs with the statement that his machines in these two types of locations are currently getting from 10 to 15 per cent more play than his average tavern stops. This became noticeable during the last two months, he reports.

Anton Oomens, Walter Oomens Sons, while not reporting a higher return from his non-tavern locations, stated that juke play in this type of spot now equals that in the average tavern and cocktail location because of slow tavern trade.

Operator consensus here is that until tavern business starts back on the uptrend, to a point where it will at least equal pre-war levels—operators write off war-time tavern and juke earnings as above normal—the tavern's role as the top juke box location will be taken over by the various types of eating and confectionery establishments.

AMOA To Table Hit Parade Posters Pending New Test

NEW YORK, Feb. 28.—At a meeting of the Automatic Music Operators' Association (AMOA) in the Park Central Hotel here Tuesday (24), a motion that members adopt the Hit Parade poster service was tabled pending the completion of a special test to be conducted under the direction of the association. In an earlier action the AMOA board of directors had recommended that the service be utilized by the operator members. Albert Denver, president, presided at the meeting.

The test, projected to run for a period of 30 to 60 days, will make use of about 100 placards. Placed on location at AMOA expense in a wide variety of stops, the test should provide much accurate information as to the promotion device's effectiveness, Denver said.

Yermie Stern, president of Hit Parade, Inc., suppliers of the poster service, addressed the members and claimed that operators who have used the service have increased their revenue. On-location promotion, directing the attention of customers to popular records featured in juke boxes, will hypo music machine play, he predicted.

Turning to association affairs, the membership unanimously adopted a by-law regulating AMOA office-holders. The new by-law states that no member of the association is eligible for office who holds a director-

ship or office with any other coin machine association. This provision also applies to AMOA's board of directors. The purpose of the by-law is to prevent interlocking directorships of associations whose main interests do not necessarily run parallel, according to Sidney Levine, AMOA counsel.

In a report on legislation of interest to music operators, Levine stated that he was keeping an eye on developments in Washington and Albany, N. Y. He predicted that the bill recently introduced in the New York State Senate by Sen. Joseph Parisi, proposing an annual license fee of \$50 on all coin-operated equipment, would be defeated. The bill has not yet been reported out of committee.

In this connection, both Denver and Levine reaffirmed the association's support of the recently formed committee known as the Music Operators of America (MOA). The group, organized during the Coin Machine Industries (CMI) convention in Chicago in January, was formed to coordinate the efforts of regional operator associations in combating legislation adversely affecting the automatic music business. Denver is the national vice-chairman of the committee, which is headed by George A. Miller, of the California Music Operators' association. Levine is national counsel and legal representative.

Juke Box Roundtable

The Juke Box Roundtable is intended to offer the automatic phonograph trade an opportunity to exchange ideas on the problems currently facing the industry. The Roundtable's purpose is to focus attention on these problems in an attempt to find practical answers. Letters intended for publication in this column should be addressed to Coin Machine Editor, The Billboard, 155 North Clark Street, Chicago. Only letters including name and address of the writer will be considered for publication. Signature will be withheld upon the writer's request.

Wants Co-Operation

C. I. Martin, Macon, Ga.—I've been in the coin machine business for 25 years but never have had the pleasure of seeing the few operators here in Macon work together. There always seems to be one or two who will block any move to help the operator. Co-operation between operators seems to me to be the trade's biggest problem.

After this, my idea is for the operator to get \$4 per week top money on all juke boxes except those in the very best locations. This would help the operator a great deal on record expense, and would not be asking the location for too much.

Direct Sales?

H. H. Wannamaker, Orangeburg, S. C.—I agree that the music business faces some serious problems because operators can't pay the present prices for equipment and stay in business on a 5-cent play basis. I don't believe the public will pay more for a juke box tune. The only answer seems to be lower equipment prices for the operator.

It may be that there are too many "slices" between the factory and the operator. Direct selling from factory to operator might be the solution. But the operator needs co-operation on the service end of the deal from somebody closer to his operation than the factory.

Music Plus

J. Rockwell, New Lisbon, Wis.—In reading your magazine we have noticed much mention of the effect of television on the juke trade. It seems that this should not be such a threat. Good radios did not hurt the juke trade in the past. But now radio is

going to give pictures, as well as sound, and as time passes the quality of these pictures will become better. If the jukes are to stay in the running, does it not seem logical that they should come out with pictures, too?

These pictures would not be television, which has weak points, but would be two and one-half to three-minute reels that give good quality music as well as good pictures, probably on a three or four-foot square screen. It's true that such a machine already has been on the market, but its failure evidently was due to several things. First, the customer could not make his selection; second, quality of music was not the best.

Surely today it would not be too difficult to make a machine (by some juke manufacturer) that would show the picture as well as give the music—a machine where the customer, for his 10 cents, could select at will from 15 selections. If such a machine cost \$1,500 or \$1,800 it still should be more profitable than a \$1,000 juke box.

Change Commissions

William Sheffield, Paducah, Tex.—It seems to me that there are a number of problems as important to our business as high prices. Records that are manufactured today, for instance, are not as good as they should be, and some way should be worked out to make them last longer. New machines should not be changed in style every year. Distributors should not sell locations machines—either new or old. And, finally, operators should decide to better their commission arrangement and not give away 50 per cent of their income. All of these problems can be dealt with, but it is a real job.

Justice Dept. Gives OK to Chi Juke Ops

Sees No Federal Violation

CHICAGO, Feb. 28.—Front-page, eight-column headlines in *The Chicago Daily News* Tuesday (24) and Wednesday reported that the Packard Manufacturing Corporation, Indianapolis, had tried to place its phonograph on city locations but had been "run out of town." *The Daily News* writer charged that Chicago's juke box business is controlled by a combination of unsavory political and labor figures. By mid-week, the city's newspapers reported the U. S. Justice Department would look into the Windy City juke box situation to make a check on possible violations of the law.

Thursday, however, spokesmen for the Justice Department said they had beat everyone to the punch, had just concluded a lengthy investigation of Chicago juke box operations and gave the industry a clean bill of health by deciding there were no violations of federal statutes.

Makes Wire Service

The charge that juke boxes could not be freely placed on Chicago locations made the wire services toward the end of the week, and the question of commercial phonographs in Chicago even came up during a hearing of the House Foreign Affairs Committee in Washington. At the hearing, Homer E. Capehart, who heads the Packard firm, was queried about the front-page stories by congressional colleagues.

Aireon Midwest Showing Dates Now Confirmed

CHICAGO, Feb. 28.—Completing the Midwest circuit, Fred Mann, Aireon regional sales manager, this week reported that the Pittsburgh show for the Coronet 400 will be held at the Mulligan Distributing Company headquarters there March 9 and 10.

At the same time Mann revealed the Detroit showing announced last week (*The Billboard*, February 28) had been pushed ahead one week and will now be held at the Wolverine Sales Company showrooms March 5, 6 and 7. Reason for the one-week delay was to assure a full stock of equipment on hand at show time.

Meanwhile the Cleveland show at the newly formed Erb-Wert Distributing Company headquarters will take place as scheduled March 6-7. With the setting of the Pittsburgh date, all showings in the Midwest territory are scheduled. Mann, who will be on hand for the three above-mentioned shows, is following up the showing in Milwaukee and will also visit Minneapolis and St. Paul before checking into Detroit next Friday.

New York Location Fights IBEW Tele-Juke Picketing

NEW YORK, Feb. 28. — A case now under consideration by the Bronx Magistrate's Court, involving union picketing of a location in which an operator placed a combination juke box-television set after a union-

serviced juke box had been removed, is exciting interest in local automatic music circles.

The machine in question, a coin-operated Videograph unit, presently on location at the Park View Tavern, 2639 Jerome Avenue, in the Bronx, is owned by Al Layne, independent operator. Recently installed, the new unit was picketed by Fred Mimms, a member of Local 786 of the International Brotherhood of Electrical Workers, an affiliate of the American Federation of Labor (AFL).

T-H Act Invoked

Sid Steinberg, the tavern owner, had a warrant sworn out charging the picket with disorderly conduct and the case was brought before Magistrate Peter Abeles.

It was the contention of Sidney O. Raphael, Steinberg's lawyer, that picketing of the tavern under such circumstances amounted to, in effect, a secondary boycott and, as such, was illegal under the Taft-Hartley Act. The union's attorney, Jack Perlman, countered that no secondary boycott was involved and that peaceful picketing could on no account be considered disorderly conduct.

Magistrate Abeles's office told *The Billboard* Friday (27) that both attorneys had submitted briefs in the case and that a decision would be handed down March 11.

Altho similar cases involving transfers of locations from union-serviced machines to non-union-serviced machines in this area. In no case has a prohibition against picketing been sustained. However, this is the first such case in which a coin-operated television set has touched off a dispute.

Precedent Cited

Raphael, attorney for the complainant, disclosed that he was basing his argument largely on the precedent established in the New York Court of Appeals case, the *People vs. Bellows*. The judge in that case ruled that picketing of an establishment which had purchased non-union produced or serviced equipment, not for re-sale but for use, was a secondary boycott. Picketing in such circumstances, even if conducted peaceably, could be considered disorderly conduct under

AMI's Midwestern Distributor Set-Up Undergoes Changes

CHICAGO, Feb. 28. — AMI, Inc., has made some changes regarding distribution of the firm's products in the Midwest, Lyndon C. Force, firm manager of general sales, announced Monday (23).

Force disclosed that AMI's former representative in the St. Louis area, Murphy Distributing Company, Inc., has been dissolved and the distribution rights of the concern have been transferred to William Cuker, who is widely known in St. Louis coin machine trade circles.

As AMI distributor in the St. Louis territory, which includes Eastern Missouri and Southern Illinois, Cuker has decided to keep the former firm's trade name, Murphy Distributing Company, and will also retain the same address, 3504 Lindell Boulevard.

Murphy Remains

Frank Murphy, who had been one of the originators of Murphy Distributing Company, Inc., is general sales manager of the new firm, while Cuker is sole owner, Force stated.

AMI also announced that the Musical Sales Company, Omaha, has been appointed distributor for Nebraska and for the western tip of Iowa, while the Musical Sales Company, Kansas City, Mo., has been named to handle distribution in Kansas and the western third of Missouri.

Both distributor firms are headed by R. E. Padfield, who has been in the coin machine business since 1938. A native of Wichita, Kan., Padfield attended Wichita College and the University of Kansas.

Penal Law 722, he contended.

The union's attorney, Perlman, countered this argument by citing a later New York Court of Appeals case, the *People vs. Muller*, in which he claimed this precedent was reversed. Perlman also pointed to a recent dispute in Brooklyn, in which Magistrate Block cleared a union picket of a disorderly conduct charge arising under similar circumstances.

Meanwhile, Mimms continues to picket the tavern. The placard he carries requests that tavern customers refrain from playing the Videograph machine.

Indianapolis is attempting to collect at least \$2 in license fees from the pinball machines now operating locally. The question of whether the city can levy the fee on the machines depends on the legal opinion to be handed down by **Edward H. Knight,** corporation counsel. Licenses for the machines have not yet been issued by the city controller. . . . Coin row visitors included **George Morgan,** Peru; **Loyd Anderson,** Automatic Distributing Company, Terre Haute; **Charles Baker,** Wabash Distributing Company, Clinton, and **Tom Burch,** Muncie.

He employs an office girl and two servicemen. He got into coin biz about eight years ago after manufacturing potato chips and running a restaurant. . . . **Music man Murray Siedman** has been busy promoting **Stan Kenton.** He recently went to Syracuse for **Kenton's** appearance at Lincoln Auditorium which drew a full house. Operators here report **Peggy Lee's Manana** a hot follow-up for **Golden Earrings.**

Detroit:

Henry C. Lemke, of Lemke Coin Machine Company, is entering **Henry Ford Hospital** for a general check-up. . . . **Joseph J. Schermack,** veteran stamp vender manufacturer, is turning practically his entire output now over to drugstore outlets. . . . **Zane S. Went,** a newcomer to the coin machine business, has bought out the half interest of **Victor L. Kotwicki** in the Mutual Music Company, East Side juke box operators. Partner **Vincent P. Fisher** retains his original interest. Headquarters have been moved from Mack Avenue to **Went's** own place at 5761 Grandy Avenue.

Donald E. Liss is establishing the **Donel Vending Service** on the East Side. . . . **Peter Athens,** of the Athens Music Company, who is on the lookout for some unusual records for his locations, reports business definitely on the upturn.

Gunnar Gabrielson, sales representative for Seeburg in Michigan, Ohio and Western Pennsylvania, spent the past week in Detroit visiting with operators and discussing current problems in the face of reduced play. He reports that operators using an adequate remote and scientific sound distribution system were able to "hold the line" on grosses, according to **Glenn Payne,** of Atlas Music Company.

Los Angeles:

Al Silberman, sales manager of Adams-Fairfax Company, making another tour of the country. . . . **C. A. Robinson** is off to the Windy City on business for the C. A. Robinson Company which he heads. . . . Visitor in town is **Earl Everette,** of the Seattle Coin Distributing Company, who also heads Shine Distributing Company, Los Angeles. Chicago:

Tom Viviano, Forest Park Music Company, returned Sunday (22) from a California vacation. Tom spent most of the time in Hollywood. . . . **Floyd Pedone,** Little Amusement, is sporting a new service truck. Operating both a juke box route and a retail record store, his dealings in disks are quite comprehensive; he reports that today's wax is drawing top business over the retail counter and steady coin play on the jukes.

Atlas Novelty Company's Harold Schwartz was confined to his home last week. **Joe Kline** is preparing to take off Monday (1) on a 10-day trip thru Illinois. . . . **Bob Gnarro,** ABC Music Service, reports the cutting down in live entertainment being done by many of the larger taverns to reduce overhead is acting as a boost for juke play. Where before many spots had entertainment thru the week, they now feature combos on week-ends. Because over-all tavern business is down, however, juke play in tap locations generally is not spinning at too high a level. New addition to the ABC staff is **Alma Linden,** the charming new bookkeeper and accountant who joined the firm last week.

Monarch Coin Machine Exchange welcomed a parade of callers during the past week, among whom were **Doc Howington,** Freeport, and **John Kegg,** Waukegan, Ill.; **Bob McLean,** Kenosha, Wis., and coinman (to be) **Galvoich** from Alabama. **Clayton Nemeroff** is loud in his praise of **Carl Huppert's** supervision of the new bell division. Repeat orders are still proving a good proportion of the total business of this department. Foreign shipments are now en route to France, Clayton states; latest is heading for Marseille. **Monarch** bookkeeper **Ruth Slutzky** is in Los Angeles for three weeks.

Mike Spagnola, Automatic Distributing Company, continues to be an exponent of good news on the juke box front. Says play and movement of equipment is perking up these days. **Vincent Salvo** and **Frank Zito,** Springfield, Ill., music operators were in last week. **Zito** is the boy who took over **Frank Ballog's** Ballog Amusements in Springfield about two weeks back. Firm is now called **Modern Distributing Company.**

Edward Hanson, vice-president of **Grotechen Tool & Manufacturing Company,** reports that the firm's Camera Chief counter game is going into quantity production this week. Numbers of the new games were placed on test locations in Chicago to determine their mechanical stamina and earning power. School stores and confectionery locations are high play spots for the new unit, he states. According to **Hanson,** the Camera Chief will be made in greater numbers than firm's Imp game of some years back.

J. T. Williams, who handles sales of **Kwik-Kafe** hot coffee venders in the Chicago area, reports that there are now five operators in this area. He claims that there will be a maximum of 10 routes here, which will give the operators who helped with the original spade work a chance to develop a really healthy business. One of the best spots for coffee venders on the South Side here is a theater. This is also the only location that is charging a dime for coffee. **Williams** claims that every time the coffee vender is put on location near food venders—such as doughnut machines and biscuit venders—both the food venders and the coffee machines enjoy an upsurge in business.

Fred Mann, Aireon's regional manager in the Midwest, spent a few days here early this week before resuming his travels. Fred left Wednesday morning (25) for Milwaukee and was scheduled to continue on to Minneapolis, St. Paul, Detroit, Cleveland (See Chicago on page 118)

Twin Cities:

Success of flipper games has brought a suggestion from Hy Greenstein, of Hy-G Music Company. Hy noted that players must use both hands in operating flipper games and that as a result smokers have damaged cabinets by placing burning fags on side rails. "Why not install cigarette holders on rails to protect the equipment?" he asks.

A meeting of the South Dakota Phonograph Operators' Association has been set for March 7-9 at Huron, with owners of Cub Products Company there planning to play hosts to coinmen. Twin City distributors have been invited. . . . North Dakota operators report music play off but that pinball games are doing well. . . . Robert-Lawrence Electronics Corporation, Minneapolis, reports its coin-operated radio, Ro-La, has been well received.

Bush Distributing Company played host to coinmen at the showing of Aireon's Coronet 400 juke box Saturday and Sunday (21 and 22) at its Minneapolis headquarters. Rudy Greenbaum, Aireon vice-president and general sales manager, came from Kansas City, Kan., to aid Ted Bush and Oscar Truppman in introducing the model. . . . Truppman, fighting a cold he picked up in Kansas City, is back from a two-week motor trip to California. He returned in time to find that Chicago Coin's flipper game, Catalina, has been doing well.

Van Middlemas, coinman of Bismarck, N. D., found he can't stay out of the business. Some months ago he sold his holdings to a son-in-law, Bob Westrum. But Van has notified Twin City jobbers he is a coinman once more—specializing in scales, only, however. . . . Herman Paster, head of Paster Distributing Company, Wurlitzer jobber, has been at his St. Paul desk for several days after returning from Miami where he took his family for the rest of the winter. After completing some business here, Paster intends to return there.

Hy Greenstein, of Hy-G Music Company, played host to about a dozen Twin Cities coinmen Friday (20) at a luncheon of the Standard Club, Minneapolis, for the purpose of letting them hear a first-hand report of conditions in Greece from Virginia Souderous, daughter of the Greek prime minister. Nick Karusis, of JAK Sales Company, was on hand to learn about his former homeland. Al Lieberman and Wyman Dieg, of Hy-G Music, are back from Chicago where they took top honors in the two-week Seeburg school. Emil Zellmer and Walter Jones, Hy-G staffers, left Sunday (22) to take the course.

E. E. Mansfield, Wurlitzer factory engineer, North Tonawanda, N. Y., spent several days at the office of Paster Distributing Company. . . . Coinmen in the Twin Cities the past few days buying equipment included Mr. and Mrs. Bob Westrum, Bismarck, N. D.; Frank Kummer, Spring Valley, Minn.; Harry Galep, Menominee, Wis.; Bob Aherin, LaMoure, N. D.; John Barrows, Merrill, Wis.; Lawrence and Dan Sieg, Augusta, Wis.; Ray Kohnen and son, Don, Winona, Minn.; Lyle Kesting and his wife, Appleton, Minn., and August Streyle, Hazelton, N. D.

Henry L. Lichtiz, veteran tobacco jobbing official, who recently joined Mathanson Cigar & Tobacco Company, Minneapolis, after relinquishing his holdings in Perfection Sales Company, died last week in his suite at the Maryland Hotel. Lichtiz was 63 years old. . . . Gene Daoust, salesman for E. B. Crabtree Company, Minneapolis tobacco-candy-cigarette jobbers, is the father of a boy. . . . Sol Sachs, owner of Perfection Sales and Sachs Nut & Shelling Company, Minneapolis, has returned from a business trip to New York and other eastern points. . . . Ben Simmons, Chicago jobber, called on the trade recently.

New Orleans:

Tom Vaughn, regional vice-chairman of National Automatic Merchandising Association (NAMA) Southwest region, reports that he has been appointed chairman of the program committee for the 1949 NAMA national convention by E. F. Pierson, president. . . . Jack Gordon, of Rowe Manufacturing Company, was a recent visitor to the city. . . . According to reports, about 50 per cent of all cigarette machines in New Orleans have been replaced with new models. The two major cigarette operators here have close to 2,000 machines out.

Coinman Joe Greco is said to have a candidate for the Kentucky Derby in his horse, Sargeant Joe. Greco says he has turned down a \$100,000 offer for the colt. . . . Jimmy Tallon says he had a rough football season. . . . Louis Boasberg, who is considered a pretty good handball player, has finally admitted he was beaten at the game while a guest at the Tower Club in Chicago during the CMI show. . . . Aruns Callery, partner and auditor at New Orleans Novelty, is blaming the cold weather for putting the jinx on his golf games.

Flipper action pinball has won the column comments of a local scribbler. . . . Hilliard Bach and Abe Zion have been working the past six months at the Penny Arcade on a Lord's Prayer machine. They claim it is ready for operation. When a penny and a dime are inserted, the Lord's Prayer is printed on the penny. Bach says he saw a similar machine in an arcade in New York and made up his mind to build one.

Music Sales Company is in full swing in its new quarters on Baronne Street. There is a mezzanine for record sales and first floor is devoted to distribution of pinballs and pinball parts. Ed Roberson, manager, reports the addition of a new secretary, Claire Schwegman. Buster Williams, owner, came into town from Memphis. . . . Tac Elms, with business normally quiet for this season, is finding time to enjoy the races.

Work has started on New Orleans Novelty Company's new showroom. (See New Orleans on page 119)

Philadelphia:

Installation of Coca-Cola vending machines at the six Warner Bros. theaters in Wilmington, Del., has been completed by the Berlo Vending Company here. . . . Walt Maquire, disk jockey at WNAR, Norristown, Pa., has joined the Kayler Record Distributing Company, handling the Muscraft, Banner, London and other record labels, for special promotional work, including music operators' contacts.

Charles Goldfine, local theater owner, has entered the popcorn and candy machine business. . . . Twenty years ago, on leap-year day, Eddie Pinsky became an office boy at Raymond Rosen & Company, local Victor record distributor, and this week he was promoted to the position of record sales manager for the company.

Cincinnati:

Frank Michael, of River View Lane, had his membership application for the Cincinnati Automatic Phonograph Owners' Association (CAPOA) approved at the Tuesday (24) meeting of the association. . . . CAPOA's secretary-treasurer, Charles Kanter, has been called to Miami for the second time within two weeks due to the serious illness of his mother. . . . Harry Hester is back from attending the Golden Gloves boxing tournament in Chicago.

Executive board members of CAPOA met in the association offices last week for a regular meeting. Those attending included Sam Chester, Phil Ostand, Roy Bigner, John Nicholas and William Harris.

and Pittsburgh before returning home. Harry LeVine, Biltmore Distributing Company, Aireon distributor here, reports the Coronet 400 is moving fast in this area, and that initial installations have been most successful.

Clarence Bayne, United States Vending, is on a trip that will take him to Cleveland, Albany, Boston and New York. Clarence expects to be on the road about two weeks. B. O. Springer, of the same firm, was also out of town this week, covering Detroit, Indianapolis and St. Louis. With their candy machines now being shipped, things are humming at the USV headquarters these days.

Joseph N. Gould, foreign representative for the Filben Corporation, left this week for a three-week jaunt to Honolulu, where he will appoint a distributor for the Hawaiian territory. Gould is reportedly a member of the board of directors of the Exchange National Bank. William Rabin, president of the Filben Corporation and sales manager of National Filben, was saddened this week by the passing of his mother-in-law, Mrs. Anna Rice.

AMI reports that John Haddock, president, is back at his office after a three weeks' business trip to the West Coast. During that time he appointed the Jack R. Moore Company distributor in Oregon, Washington and Northern California. Lindy Force, AMI's general sales manager, also reports that Musical Sales, headed by R. E. Padfield, is the distributor in Kansas and Nebraska and parts of Iowa and Missouri. Firm has offices in Kansas City, Mo., and Omaha.

Ted Rubenstein and D. A. Wallach, Marvel Manufacturing's president and sales manager, respectively, think their new "plus-four" coin chute will revolutionize the amusement play picture. New idea by Marvel permits player to play one to four nickels at a time and gives the player a chance to win extra replays depending on how many nickels are played at one time. A player who inserts four nickels can win up to 49 replays on one game. Both Rubenstein and Wallach say that play improves up to 25 per cent with the "plus-four" coin chute.

Ken Wilson, partner with Howard Pretzel in Commodity Venders, and "Pop" Corn Sez of Chicago, reports that the popcorn trade is going along on an even keel despite the Lenten season. Ken, who knows the arcade business inside and out, says that the recent mild weather here has given a touch of nostalgia for a walk along the midway.

Lyn Durant and Bill DeSelm, sales manager of United Manufacturing Company, were hard at work this week preparing for the introduction of their new game, Manhattan, next week. . . . at Great Lakes, Ill., naval training station and a smaller one at the Glenview, Ill., naval air station. . . . Ray Moloney, chairman of CMI's cancer fund drive, proved a pleasing radio personality during his *On the Century* interview by Bob Elson, the sportscaster. Moloney explained that more than 9,000 coinmen were responsible for the big \$250,000 check contributed for the advancement of cancer research.

Exhibit Supply announced its "flipper kit" last week. Firm believes that the kit will go a long way toward helping Exhibit operators get some extra returns out of older games. Nate Gottlieb, of D. Gottlieb & Company, is suffering from a laryngitis attack, the remaining on the job. He says he developed the condition by handling so many inquiries on Lady Robin Hood, the firm's new flipper bumper game. Nate also reports that Dave Gottlieb is enjoying the Florida sun.

R. L. Budde, ABT Corporation's assistant to the president, left Friday (27) for Miami via plane. He will return Tuesday (2). New York:

will be visiting New York coinmen soon.

Nash Gordon, office manager of Associated Amusement Machine Operators of New York (AAMONY), reports that the game operator group has more than doubled its membership since January 1. Latest count shows 156 ops signed. . . . Stephen J. Maroney, Washington coinman, is preparing to return from Fort Lauderdale, Fla.

Wally Merila is no longer with Nat Cohn's Modern Music Sales. Nat now is looking for someone to take charge of his "showroom on wheels," the truck filled with coin equipment with which Wally was to cover up-State territories. . . . Sam Sacks, of Acme Sales, was the recipient last week of his first showroom model of the Ace Shoe Shine machine.

Lou Brown, president of Coradio, Inc., reports that the coin radio business is once again on the upswing after several slow mid-winter months. . . . With Albert I. Gorner, public relations director, presiding, the meeting of the Coin Metered Washing Machine Operators' Association, Wednesday (25), devoted most of its agenda to furthering plans for the group's second annual dinner-dance, scheduled for April 10.

John McNulty, PM humorist, came up with a switch this week. He suggests that, with the local racing season almost upon us, the State and city of New York install "juke-box mutuels" in taverns. Combined with television, patrons of the coin-operated dream devices could place their bets automatically, with the machines dispensing receipts, and then watch the races over the tele screen.

New Orleans:

(Continued from page 117)

The entire office on Magazine Street is being renovated. While the four-story building is said to be too small for the firm's needs, the central location makes up for lack of size. Firm has recently rented two warehouses in the immediate vicinity.

Jules and Boe Biharl, of Modern Records, Hollywood, spent the week of Mardi Gras in New Orleans. . . . Among recent out-of-town visitors were Guy Slay, Slay Music Company, and Woodrow Gimmell of G. & S. Novelty, both of Hattiesburg, Miss.

OSCAR LEVANT (Columbia Concert Ork-Lou Bring, Dir.)	90	90	90	90
<i>Khachaturian: Gayne Ballet Suite-Sabre Dance</i> (Columbia 17521-D) (10")				
Levant was touting the "Gayne Suite" long before wide public interest was souped up. This is bound to be a peak seller, even in pop class.				
<i>Khachaturian: Gayne Ballet Suite-Lullaby</i>	80	80	80	NS
More good Levant from quieter portion of Gayne Suite.				
MAHATMA GANDHI (Columbia 17523-D)	70	NS	70	NS
<i>His Spiritual Message, Parts 1 and 2 (10")</i>				
Pointless to review as an ordinary record, this can only be evaluated for "market." Gandhi's death may awaken interest in a moral message recorded years back at a fabulous fee. Schools, libraries, etc., surely will want to buy this.

MOA Chairman To Do Utmost To Meet Org's Expectations

OAKLAND, Calif., Feb. 28.—Making his first statement since his election as national chairman of the Music Operators of America (MOA) at the Coin Machine Industries show in Chicago in January, (*The Billboard*, January 31) George A. Miller this week thanked the 68 industry representatives who voted him into office and said: "It is with great pride that I accept the responsibilities of this office. I shall do my utmost to fulfill their (the 68 members') expectations

as national chairman." MOA, at its formation meeting January 21 at the Hotel Sherman in Chicago, elected a committee of 14 to represent the organization. The committee was authorized by the body to take whatever steps it deemed necessary to oppose such legislation as is now pending in Congress, which in the opinion of the nation's music operators is detrimental to the automatic music industry of America.
In addition to electing the committee of 14, the meeting voted Sidney H. Levine, general counsel of the New York group (Automatic Music Operators' Association), as its national counselor. Al Denver, who heads the New York Association, was named vice-chairman.
The complete executive committee includes George Miller; Al Denver;

Minnesota Ops Forecast Heavy Play for Summer Resort Areas

LONG PRAIRIE, Minn., Feb. 28. — Coin machines located in Minnesota resort sections are due for heavy play this summer, according to operators in this area.

A recent survey of Minnesota operators indicates that the State tourist business should reach an all-time high this summer, and along with it should come record play for coin machines.

See Peak Year

James W. Clark, commissioner of the Minnesota Department of Business Research and Development, informed *The Billboard* that "as a result of attendance at our sports show and the inquiries now coming in, together with reservations made at the many Minnesota tourist resorts, it would appear that this year will equal or even exceed that of 1947."

"In light of this prospect, our resort owners have invested some \$7,000,000 in added and improved facilities, and are joining the State of Minnesota in an advertising program which should be productive of extending the area from which our tourists are largely drawn.

"In the various appeals offered by Minnesota, there are added attractions in the way of beautification of lake shores, planting of fish, stabilization of shore lines, road improvements, and a variety of other features which should cause those who visit our State to feel well repaid for their time and money."

Operators, however, are approaching the tourist season cautiously and not rushing to purchase extra equipment to handle the requirements of the expected increase in tourist trade.

Op's View

Oscar Hochrein, local juke box and pin game operator, whose route extends in a 25-mile radius from Long Prairie and includes several lake resorts, says that he doesn't know just what to expect this summer. "Resorts are usually excellent locations in the summer," he said, "but I don't want to stick my neck out before I'm sure what this season will be like. You never can be sure just what will happen in this area."

Other operators in Minnesota's lake region, however, are more optimistic

Smith Mfg. Develops Motor for Coin Mach

CHICAGO, Feb. 28.—A new fractional horsepower motor, particularly suited to coin machines, has been introduced by the T. C. Smith Manufacturing Company, Springfield, Ill. The motor at rated voltage has a stalling torque of 75 inch-ounces.

Small enough to fit the hand, the motor is the shaded pole, induction type. With 20 watts input at 115 volt, 60-cycle A.C., the no-load speed is 20 revolutions per minute on the output shaft. Lower input wattages are available at correspondingly lower stalling torques, with output shaft speed at no load substantially unchanged.

The motor is constructed of aluminum and has a built-in gear train. Various gear ratios can be supplied, it was reported by the manufacturer. Bearings are composed of oil impregnated powdered metal. By means of three mounting studs tapped with No. 4 by 36 thread, the motor may be attached to any suitable bracket. One of the features of the motor is a magnetic clutch. With de-energizing of the motor, the clutch prevents any over-travel of the output shaft (this does not include gear train coast when the motor is running free).

over the summer outlook. With Minnesotans having more money to spend this year as a result of 1947's record harvest and indications for a large influx of out-of-staters, the majority of operators hope to make up for the slump caused by the extremely cold and stormy winter.

Severe Weather This Winter a Factor in Retail Sales Decline

WASHINGTON, Feb. 28. — Altho severe weather in many sections of the country failed to curb high rates of output, it did cause a more than seasonal decline in retail sales, reports issued by the Federal Reserve Board and the Department of Commerce this week indicated.

The Federal Reserve report stated that the high December output continued on thru the end of January with factory output maintaining its post-war peak, 192 per cent above the 1935-'39 averages. Report also pointed out that January production would have exceeded this figure had it not been for the end of the month cold spell in industrial areas, which resulted in some minor cutbacks in steel output.

Altho a small decline in machinery production helped to carry hard goods production down slightly, according to the Federal Reserve, activity in non-ferrous metals continued an upward climb in January. Deliveries of both copper and zinc to fabricators were at the highest level since the spring of 1947.

Retail Sales Off

While the output report was favorable, the Commerce Department pointed out that January retail sales declined \$3,000,000 from December figures. Altho sales after Christmas traditionally drop in January, the total of \$9,715,000,000 recorded during the first month in 1948, the department explained, was 18 per cent below the report of the same month a year ago.

Commerce blamed a part of the decline on extreme cold weather, but at the same time revealed that food sales went down but slightly. Actually, sales in both durable and non-durable goods dropped both in dollar volume and after the allowance for seasonal declines. Hard goods skidded \$648,000,000 to \$2,310,000,000 while soft goods was off \$2,294,000,000 to \$7,405,000,000. It was also pointed out that all lines reported smaller dollar volume for January compared with December, with the declines reported more than normal for each of the durable groups, while soft goods dropped less than the seasonal average for January.

See Less Cocoa in Fall, Winter of '48

WASHINGTON, Feb. 28. — There will be smaller quantities of cocoa beans available in the autumn and winter, a survey recently completed by the International Emergency Food Committee indicated this week. The survey was conducted in the interests of importing countries, recommended quotas for distribution of the cocoa crop.

Candymakers in this country, who already report that they are trimming costs at the wholesale level, do not expect the smaller cocoa supply will mean higher priced candy, despite the fact that the U. S. quota was reduced for 1948 from 258,300 tons to 254,000.

Purveyor Service Finds Juke Box Clean-Up Drive Pays Off

CHICAGO, Feb. 28.—Herbert Perkins, head of Purveyor Service here, has instituted a cleaning program for his juke boxes which he reports does a triple job—increases play, reduces demand for new equipment and acts as insurance against loss of locations.

Perkins states that the cleaning program, which he started several months ago, is simple, inexpensive and effective. It required the periodic assignment of one man from his shop staff for the sole job of "shining up" the machines. Doing about four or five machines a day, this man gives each cabinet a thorough waxing and does a cleaning job on the juke's interior. Taking four to five months to cover the entire route, the man is assigned shop work for the remainder of the year, and a starting date is set to begin the waxing progress over again the following year. A thorough wax job once a year

is considered a must by Perkins. "We are just about to conclude the first round of waxing jobs and have found that location owner and customer reaction has paid off in smoother relations and higher play. Cost of this service is amply covered by the resulting benefits," Perkins claims.

During the first two or three weeks after a waxing job, juke play in individual locations has been boosted as much as 20 per cent, according to Perkins. While this increase falls off gradually thereafter, it serves to emphasize the fact that a machine with a sparkling cabinet has greater "eye and play appeal" for the average customer. Waxing the plastic as well as metal and wood parts was found to work out well and served to keep finger smudges and dust from impregnating the juke's surface.

"After the complete wax job," according to Perkins, "it is easy for the regular serviceman to give the machine a quick wipe-off during his call to restore it to a high luster."

Wall Buys So. Dakota Route

PIERRE, S. D., Feb. 28.—Gordon and Mayme Stout sold all of their coin-operated music and amusement equipment to Forrest Wall, Ft. Pierre, S. D., for \$67,500 recently. The machines are in operation in over 75 locations in Central South Dakota, with additional equipment on hand in Pierre. The sale was covered by an agreement for payments to be made over a period of five years.

Kunstler Firm To Handle Tele

NEW YORK, Feb. 28. — Featuring the Videograph combination television-juke box, Harry Kunstler this week began business under his new firm name, Kay Distributing Company, Inc. With office and showroom at 446 West 50th Street, the new outlet will also handle the Emerson line of commercial and home-use television sets. In addition, the outlet will stock coin-operated amusement games.

Kunstler, who was formerly associated with Seacoast Distributors here, said his firm plans soon to have a fully-equipped installation and service department for television. He pointed out that, while his main interest will be sales of the Videograph unit, he has no distribution franchise from the manufacturing firm.

Laundry Equip. '47 Sales at New High

CHICAGO, Feb. 28.—Merchandising of laundry equipment hit a new high in 1947, with sales of standard size washers up 86.9 per cent and ironer sales jumping 350.8 per cent. According to the American Washer & Ironer Manufacturers' Association, sales of standard washers reached 3.8 million units in 1947, an increase* of 1.8 million over the 1946 totals.

Meanwhile, the Maytag Company, Newton, Iowa, reported it would build a \$5,000,000 factory to produce its new automatic washing machine. Expecting to have the factory completed and washers coming off the line within a year, Maytag said the factory would be located in either Des Moines, Newton or Cedar Rapids, Ia.

Album Reviews

(Continued from page 33)

BRAHMS: SYMPHONY NO. 2 IN D MAJOR (5-12") 77
Artur Rodzinski - Philharmonic-Symphony Ork of New York.
(Columbia MM-725)

Off-beat, oft-performed Brahms' opus, usually referred to as the composer's "Pastorale" symphony, is given an authoritative reading by a leading interpreter of Brahms. Rodzinski brings out all of the fragile beauty of the work and draws a solid, if not inspiring, performance from The New York Philharmonic org. This rendition stacks up neatly and should hold down a spot in retailer stocks for its standard values.

EASTER HYMNS AND CHORUSES 69
The Canterbury Choir
(Macklin Marrow, Dir.-Ernest White)
(MGM 20)

Welcome, Happy Morning; Ye Watchers and Ye Holy Ones; Jesus Christ Is Risen Today; The Day of Resurrection; The Strife Is O'er; Come, Ye Faithful; The Palms; Hallelujah Chorus.

At least from the point of view of neat packaging, neat cover and excellent recording this is MGM's top effort to date in the album field. Geared for Easter consumption, this package could well become a standard for every year that time. Performance, including the organ backing, is on a fine level. Religious wax limitations commercially will give this package its sole handicap.

JUKES N. S. **JOCKS** For Easter programming.

ON THE RECORD 75
Phil Harris
(The Sportsmen)
(Victor P-199)

Look Out, Stranger, I'm a Texas Ranger; That's What I Like About the South; 44 Sycamore; The Dark Town Poker Club; Woodman, Spare That Tree; Ain't Nobody Here But Us Chickens; Pappy's Little Jug; Minnie the Mermaid.

Something new, something old—all typical Phil Harris—wrapped up and delivered in an eight-sided album. The Harris enthusiasm, the icky but popular breakneck arrangements, the pseudo-Western and folk drawl are all here. Should find a place in the collection of those who go for the Harris type of talk-sing novelty.

JUKES All sides worth a spin. **JOCKS** Jocks who like 'em will spin 'em.

Miami Tourist Trade Holds; Coin Machine Play Nears '47 High

MIAMI BEACH, Fla., Feb. 28.—Tourist trade, an accepted barometer of general business conditions, now at its peak here, is just one step behind the record boom in vacationers last year, and coinmen are finding a high level of play on their equipment which almost touches the top play of the 1947 season. Proving the presence of money-spending pleasure seekers is the fact that hotel occupancy, restaurant and retail sales are at comfortably high levels.

Altho the season was late in starting this year, local merchants and officials are predicting a close second finish with the 1947 spending. During the last two weeks, increasing numbers of tourists have been arriving here and hotels are now filled to capacity. A number of new hotels are now under construction.

Construction of hotels, apartments and homes soared to \$23,724,558 in 1947, a figure \$6,022,026 over the former "phenomenal" days of 1925.

D. C. Music Men Elect Officers In Fourth Meet

WASHINGTON, Feb. 28.—Hirsh de LaViez, of the Hirsh Coin Machine Corporation, received a vote of thanks from the Washington Music Guild (WGM) at its fourth meeting here last week. De LaViez was thanked for his "fine work" in organizing the guild which elected de LaViez to the board of directors after he declined the presidency and agreed to work as an advisor to the new president, P. R. Chapman. De LaViez had served as acting president. Elected as vice-president was E. B. MacManus, and Evan Griffith was named secretary-treasurer.

Directors elected besides de LaViez were Mack Lesnick, General Amusement Company; J. H. Phillips, Phillips Novelty Company; Simon Davis, Washington Music Company, and Ben Rodins, Marlin Amusement Company. Jack Sapienza, Al Kristol and Joe Narlines were installed as new members.

Next WGM meet will be held March 16 at the Hamilton Hotel here.

Memolite Recordings To Be Released Soon

HOLLYWOOD, Feb. 28.—Nine records of a new material, memolite, designed and guaranteed to give a minimum of "250 fine plays—service free plays"—are set to be released soon after March 1, according to Lee Ryer, general manager of Memo Records, a new firm.

Memolite is an undetectable formula, Ryer said, and records made from this material will cost no more than ordinary records. The disks are not unbreakable but are shock resisting. Altho the samples Ryer has on hand are red, memolite can be made in any of several colors. Memo Records, he added, owns the formula, but other companies may use it by having the local company do the pressings.

A test was run on the record by a local wired music concern. To compare the platters Ryer used a memolite record that had over 1,000 plays and a regular record made from the same master but played only 40 times. Ryer has a letter from the coin machine company praising the fidelity of the memolite disk.

Memo's 18 releases cover all fields except classical. Distributors are being named to handle this line on the new material.

Promotion Program By Mercury Records Includes Music Ops

BUFFALO, Feb. 28.—Music machine operators in this area took part in a special recording artist promotion last week when Mercury's Frankie Laine opened an engagement at the Town Casino, a local night club. Niagara Midland, Inc., headed by Joe Mollen, regional distributor for the Mercury label, held a cocktail party for Laine and invited juke box ops, as well as record retailers, disk jockeys and local press representatives.

Among the members of the coin machine industry who participated were Harry Winfield and Tom Stedford, of J. H. Winfield & Company; Vincent R. McCabe and Bob Baer, Redd Distributing Company; Mike McGrath, Empire Vending Company; Ben Kulick, Mills Amusement Company; Louis Frank, Leroy Amusement; Ange Marino, Niagara Falls, and Carl Luhman, Click Amusement Company.

Wolf Represents AMI in So. Calif.

CHICAGO, Feb. 28.—In a joint announcement issued by AMI, Inc., and the M. S. Wolf Company, it was disclosed this week that the Wolf organization will continue to represent AMI as distributor for Southern California. In conformance with this announcement, Bill Wolf, head of the distributor firm, stated that he intends to close both his Portland and Seattle offices, consolidating his activities in California with emphasis on his Los Angeles and San Diego offices.

Wolf, in explaining the move, said: "I feel that the time has come when the operator should receive a more personalized service from his distributor. With this in mind I have decided to concentrate all my energy on California business." Under the name set-up, Wolf added, his firm will concentrate on Southern California operators as serviced by the Los Angeles office, while the Wolf San Francisco office will continue to center its activities on the handling of amusement games.

Lyndon C. Force, sales manager for AMI, confirmed Wolf's statements and added: "The Wolf organization has represented us for a long time and its reputation is such that we are more than pleased to have them continue to represent us in Southern California."

Mobile Denies Juke Permits "For Present"

Studying Applications

MOBILE, Ala., Feb. 28.—City license department has been directed by the city commission to issue no permits "for the present" for juke boxes in retail beer outlets.

All applicants for music box permits for beer places will be referred to the commission for study, Acting Mayor Ernest Megginson said.

The Alabama Alcoholic Beverage Control Board has okayed juke boxes in beer places where municipal law does not conflict.

"I would rather not say definitely now whether the City of Mobile is going to issue juke box licenses to beer places or not," Megginson said. Conferences with the city's law enforcement officers, Megginson indicated, would be a determining factor in issuing juke box permits.

Those elected are Rudolph J. Kantner, vice-president in charge of purchasing; Walter R. Keefe, vice-president in charge of sales, and Henry E. Jaeger, vice-president in charge of plant and production.

NCA Issues Study On Candy Use And Retail Sales

CHICAGO, Feb. 28.—National Confectioners' Association (NCA) this week issued a study of total 1946 sales and retail sales per capita and candy consumption by States. Compiled from statistics in U. S. Department of Commerce's Domestic Commerce Report of September, 1947, and from *Sales Management's* 1947 survey of buying power, figures cover the 48 States and District of Columbia.

New York was found to rank first in total sales, with California taking second place. Following, in order, were Pennsylvania, Illinois, Ohio, and Michigan. Nevada brought up last place.

Per Capita Ratings

Dealing with per capita sales figures, however, a different picture is shown. Nevada ranks first; District of Columbia second; Delaware third; while next three states are Montana, New Jersey and California. Mississippi holds last place in this category.

Under the income per capita classification the survey revealed first place held by Nevada, with New York, District of Columbia, New Jersey and Delaware following in that order. Mississippi again brings up last place.

Dollar Sales

Under candy consumption per capita (in dollars) Utah holds first place, while Colorado, Nevada, Rhode Island, Missouri and Illinois follow. Last place is held by Kentucky. A wide range was found to exist in candy consumption per capita, with the leading State, Utah, showing a figure of \$19.29 and Kentucky tagging last with \$5.36.

NCA release included additional facts, relating to the candy industry. Report stated that 1,252 manufacturers were active in the field, with wage earners numbering 79,500. U. S. confectioners were stated to have produced \$930,000,000 worth of candy, with a volume of 2,584,000,000 pounds, during 1947. The industry is listed as the nation's fourth largest, in terms of employment, and eighth largest in terms of dollar sales in comparison with other food manufacturing industries.

**North Minnesota Ops Report
Five-Ball Play at New High**

BRECKENRIDGE, Minn., Feb. 28.—Coin-operated amusement games are receiving heavy play thruout Minnesota as more machines are installed in State locations.

Minnesota operators, who received a temporary setback last year when Gov. Luther W. Youngdahl slapped an enforced ban on one-ball pin games and several other types of machines, have staged a comeback with flying colors.

Many Five-Balls

Today, in most sections of the States, hardly a single good location lacks a five-ball pin game or some other type of coin-operated amusement game. An on-the-spot survey conducted by *The Billboard* recently indicates that play is, as operators put it, "better than ever before."

Biggest factor in the heavy play has been the record harvests on Minnesota farms during the past few years. Games located where farmer trade is heavy are showing especially good play.

One indication of the popularity of games in the Minnesota farm area is the number of small-town and cross-roads locations which now have coin machines of various types.

Towns which up until a year ago had never seen a juke box, coin-operated amusement game or vending machine, are now heavily covered with all types of coin machines.

Routes Extended

The same picture is true for Western North and South Dakota, the survey indicated. Until recently, the long distances between business communities in the rural areas of the upper Midwest had proven a barrier which few operators wanted to try to bridge. Now, with the increased play in these areas, many operators are extending their routes and many new operators are coming into the business.

Some coin machine routes are operated along with other businesses. Candy and tobacco wholesalers who must travel thru the rural areas at regular intervals have located many coin machines during the past year and are finding they can operate them along with their regular businesses without too much added effort.

The further you get from the large metropolitan areas—principally Minneapolis and St. Paul—the more acceptable used equipment becomes. Operators within a 100-mile radius of the Twin Cities use considerable new equipment, altho they do not have to replace it as frequently as most large city operators do.

However, when you get 150 to 300 miles away from the city area few new games are purchased by operators and most locations remain content with their old game much longer.

Long on Location

Gil Smith, of Smith Brothers Novelty Company, Minneapolis and Fargo, N. D., tells of one rural Minnesota location where he has had the same pin game on location for six months. It was a used game when he put it into the spot, but has given good service. He has tried to take it out, but the location owner insists "it's a good machine, gets good play, so leave it here."

Smith says that many locations are like this, with used pin games able to draw heavy play for several months. However, closer to the cities it is a different picture. Oscar Hochrein, pin game and juke box operator in Long Prairie, Minn., for example, says that he uses nearly all new pin games, and altho they receive heavy play for an extended period, usually have to be replaced with new games when the time comes. The Fergus Falls Novelty Com-

pany, Fergus Falls, Minn., which has many pin game and juke box locations in the Minnesota resort area, uses both new and used equipment.

Most recent trend in coin machines in Minnesota has been toward extended use of arcade-type equipment. Location owners and operators report much satisfaction over the reception Minnesotans have shown toward such machines.

Good Locations

Bowling alleys, cafes, taverns and other locations have proven popular locations for arcade equipment. Gun-type games have proven especially popular, and some locations have enough coin-operated amusement games to be practically arcades in themselves.

Operating problems are many and varied. Because of the long distances between communities in the Minnesota rural areas, the average route is the area within a 50-mile radius of the op's headquarters. Some operators, however, have machines over 200 miles from their operating base.

Several operators have shifted to fewer types of equipment but extended their routes recently. They report that such a change has proven quite satisfactory.

Servicing

Servicing on extended routes is usually on a 7 to 10-day basis. In a case of emergency an out-of-order sign is generally placed on a machine until the operator can service it on his regular call. For better locations, however, operators often will go miles out of their way to take care of an ailing piece of equipment.

Successful operators, almost without exception, say that the biggest factor in their success is good personal contact with the location owners. This usually requires much more time than efficient servicing of equipment would ordinarily call for, but operators say that the more time can spend at their locations, the greater their success.

Because of this factor, "location jumping" is at a minimum thruout the State, particularly in the rural areas. Cold weather has handicapped many ops in the servicing of equipment at regular intervals. However, Minnesota operators say that they feel they are in for one of their biggest years.

U-Dryvit Auto Co. Asks Licenses for 2-Way Radio-Fones

CHICAGO, Feb. 28.—Using units manufactured by Motorola, Inc., Chicago, the U-Dryvit Auto Rental Company, of Cambridge, Mass., has applied to the Federal Communications Commission (FCC) for license to set up mobile radio-phone set-ups in 21 Eastern cities.

The two-way phone is already being used by a number of coin machine operating firms who find it cuts service call time since service messages can be relayed directly to the car or truck from the operator's place of business.

U-Dryvit has a different twist on the two-way phone system which caters to professional and service businesses. Under the system, callers are not connected directly with the vehicles, but phone a mobile service exchange which in turn passes the message along to the vehicle. Similar services are now operating in nearly two dozen major cities throughout the country, but the Cambridge firm's application—which requests permission to operate 1,835 phones—is the largest single application yet received by the FCC.

Marvel Intros New Coin Chute For Game Play

CHICAGO, Feb. 28. — Marvel Manufacturing Company this week announced the development of a new "plus-four" coin chute for use on its pinball games which allows the player to insert from one to four nickels, all of which are played during one game.

New coin chute resembles a conventional coin chute but accepts up to four nickels at a time. In return for putting in more than one nickel at a time the player is able to win replays at a lower score and also a given opportunity to win more replays than if he had inserted one nickel. In all the player may win up to 49 replays during the playing of one game.

Thus far the new idea in amusement game play has been incorporated into the latest models of Marvel's Gold Mine. First deliveries of the game with plus-four coin chutes left the plant this week. It is optional equipment and costs the operator \$10 more than the conventional one-play coin chute. D. A. Wallach, firm sales manager, states that the release of the new play idea was held up until this time so that the firm could test conduct on location tests and also produce the plus-four chute at a nominal price. Wallach says that the new play stimulator was tested for over the past few weeks on different types of locations, with the result that play picked up between 15 and 25 per cent.

According to Marvel, the new feature gives the player with average skill a chance to score winners and not be required to make a score beyond his ability. Each additional nickel inserted gives the player a higher proportion of replays should he reach a high score.

In order to keep check on the number of coins inserted for the playing of one game, four different colored lights are set up just below the end of a game's play field. If the player inserts one nickel a bottom light goes on, if he inserts two, first light goes out and the light above goes on with a similar procedure taking place for the insertion of three or four nickels. The scoring mechanism on a game having a plus-four chute is set up so that when the lower replay score necessary for the playing of more than one nickel is attained it begins to tally replays.

Marvel's newest game, Gold Mine, features four flipper action bumpers, all of which can be actuated by the player pressing a right or left-hand flipper control button, and a novel out-hole scoring feature that permits the player to make as much as 250,000 just after the final ball drops into the out-hole ending the game.

Ten Years of Publisher Song Hits

Since the Petrillo ban on records has centered considerable interest on old songs, *The Billboard* reprints below a feature designed to review the hits of yesteryear. This list was first published in the December 13, 1947, issue.

Listed below are the "publisher hit songs" of the period from 1935 to 1944, with song titles arranged alphabetically with the publisher's name adjacent to the title. These songs represent the No. 1 sheet music sellers and most-performed tunes as indicated in *The Billboard's* Music Popularity Charts for the 10-year period cited.

Johnson Jukes Set Basketball Courts Afire in 32 Wins

SIOUX CITY, Ia., Feb. 28. — The Johnson Jukes, sponsored by the Johnson Automatic Music Company here, has piled up an outstanding record this season in basketball competition with 32 victories in 35 games.

The team is believed to be one of the top professional outfits in the country and one of the few such teams sponsored by a coin machine operator.

Davis H. Johnson, head of the music company, has gathered together a strong array of former college stars who have chalked up victories over some of the better traveling teams, including two wins over the original New York Celtics, and wins over the House of David, New York Broadway Clowns and the Harlem Tops.

The team has brought an abundance of publicity to Johnson and his music company, which handles Seeburg phonographs. A picture of a Seeburg machine is sewed on each of the player's jackets.

Tallest man on the squad is John Helm, who stands six feet, five inches and is a former Morningside College player. Player-coach of the team is Gale Stevens, also a former Morningside player. While in service he set a mark in the Southeastern Army Conference of 48 points in a game.

Other players include Ole Soldberg, one of the best rebound players in the game and who in 1941 was selected on the Little All-American football team; Jack Larson, formerly of University of Illinois and Morningside; Bob Held, Morningside star, who was placed on the All-North Central Conference team for three years; Joe De Maine and Chuck Obye, both former Morningside lettermen.

SHORTCUT

He took one and he's lost!

There are many good shortcuts in business but there's one shortcut that's fatal. Buying equipment because it's cheap. If it's cheap in price, it's probably cheap in quality. Not that Coradio is expensive. It's reasonably priced and the finest made. It plays and lasts and lasts and is the greatest money maker in the field.

CHICAGO, Feb. 28.—Illinois Phonograph Owners, Inc. (IPO), held its annual officers' and board of directors' election Monday (16) at the Sherman Hotel here.

Walter L. Miller, elected IPO president for 1948, held the post of vice-president last year. New vice-president is Paul M. Brown, Western Automatic Music, Inc., while Jerry Frazin, Acme Automatic Music Company, was named secretary-treasurer. Mike Spagnola, Automatic Distributing Company, was re-elected executive secretary. New members of the board of directors are Jacob Nomden, J. Ray Cunliffe, Brown Music Company, who held the IPO presidency during the last five years, declined the nomination for a sixth term.

Providence Pin Ops To Renew Debates

PROVIDENCE, Feb. 28.—Operators of pin games here are expected to take their arguments over free-play pin games back into court, possibly to the State's Supreme Court, to over-ride a verdict handed down here last week that free plays are prohibited by Rhode Island statute.

Case arose when officials seized four pinballs here last fall, charging that because they gave free plays they were not operable under the State's law. The State won its contention in Superior Court where a jury decided that under Rhode Island law, free plays constitute a thing of value.

Counsel for the pinball operators had pointed out to the court that the federal government has recognized that free play pin games are not gaming devices by putting only a \$10 instead of a \$100 tax on free plays.

**... Another Proof of
WURLITZER LEADERSHIP**

**No Other Commercial Phonograph
Has The *ZENITH* Cobra Tone Arm**

HIGH-FIDELITY TONE BRILLIANCE...

Think of it! Less than $\frac{2}{3}$ ounce pressure at the "floating filament" stylus. Extremely low record surface noise, yet the Zenith Cobra Tone Arm picks up the finest modulations. Tone never before heard on a record. Music so marvelous that it sells itself to the listener—produces extra plays and added profits in every location.

UNEQUALED SAVINGS IN RECORD-NEEDLE COSTS...

IMPORTANT: The average popular number on your phonographs is played from 1500 to 2500 times. With conventional pickups record fidelity starts to fall off at from 50 to 300 plays—and falls off FAST. 3 to 4 record replacements are necessary during the life of that tune. With the Zenith Cobra Tone Arm one record plays the entire run, will still have 95% fidelity after 2000 plays. A substantial reduction in record and needle costs. A clear gain that can total hundreds of dollars in extra profits from every Wurlitzer Model 1100 or Model 1080A Phonograph. The Rudolph Wurlitzer Company, North Tonawanda, N. Y.
