That lump in my chest ain't a wound but a feeling...a sentiment, a feeling of having one's heart, or at least a portion of it, torn from its familiar perch. It's a strange feeling, one that's not often experienced in the realm of daily life. Yet it's a feeling that many people have felt, and it's a feeling that can be found in the pages of this publication.

New York, Jan. 19. — In
move to ring up radio's "distant program"

personalized telephone promotion Monday. The idea calls for
WNCB operators to place 5,000 calls to New York telephonic
subscribers weekly, so National Broadcasting Company listeners
may extend personal invitation two times to watch their shows.

Ted Call, general manager of WNCB, used a Tassilo Blankschulte
"relief" idea for the last week, to test his ideas, and results were so
good that WNCB has decided to extend the idea to the entire
programming period and eventually to all its affiliates.

Participation would result initially in WNCB placing 4,000 calls

Promotion also calls for additional personnel. In line with this,

Settlement Reached in Sindlinger Suit

PHILADELPHIA, Jan. 15—A settlement of the suit of Albert Sindlinger, president of the Sindlinger Company and C. E. Hooper, was announced. The suit was brought against ABC Television Network. The settlement, which will bring Sindlinger a reported $75,000 from the network, was reached after a paternity dispute between him and Nielsen, and sets up a working arrangement between them.

Since the trial of the suit was pending, the two parties concerned would comment until a joint statement could be issued by their attorneys next week. It is understood that Sindlinger has agreed to withdraw his suit in return for Nielsen's promise to pay a total of $25,000. In return, he will get an exclusive license for two years to use of the Radox station, after which time Nielsen can license them to others for a set sum. However, Sindlinger also has the right to a 50% interest in the Radox station license for the life of the network patents.

It is believed likely that Sindlinger will return to the AM TV field with the Radox station, planing out announcements for the future. In his work, where individual stations will be sublicensees to use the device on a 50% ownership deal with Sindlinger. Nielsen, and home listeners.

The ABC network web is estimated to be starting at better than $75,000,000, with a large exclusionary to the ABC, who with NBC AM TV stations have been estimated at as much as $2,500,000. Better than 200 versions.

well, is likely to develop the use of Radox, but on a Nielsen-owned station plan only. Sindlinger will be able to move ahead with a plan by which stations can use the device for a daily measurement of their exact audience size by people rather than homes, including out-of-town listeners, editors, etc. will be involved in the ABC coverage. Order was placed through the major sales agency.

ABC's direct coverage will be based largely on its ability to cover stations in a battle with the Du Mont web, which has not yet shown a commercial deal. There are some dozen markets available to these networks, with ABC's second station in accounting for over $500,000 in revenues, plus another ABC station's offer to test its outlets.

With three major manufacturing firms now represented, the industry this week was asking what happened to RCA. The answer is that almost all of the airtime will be used in the field apparently will not be involved in one of the battle campaigns ever, despite its ownership of NBC.

Another subject of comment was a reported Time-ABC deal, reported erroneously elsewhere, which had cooled off several weeks ago. One version is that the Time-Life group came across a publicity deal for the magazine to sponsor impartial radio coverage. The publisher, however, is reported interested in appearing some kind of TV series associated with the campaign.

Meanwhile, on the heels of the ABC announcement that it would sell but not give time to candidates, NBC said it was considering making a like policy but had made no decision as yet. Cables this week flatly decided against such a policy.

WHO LIKES THE "ONE-STOP"?

47% of Distribrs Think He's Some Bearish on Trend

NEW YORK, Jan. 18—Record distributors are divided in their opinions as to whether the record industry's recent phenomenon—the "one-stop" sales plan—is a good practice for the business, while a little over 24 per cent of the record distributors think that the one-stops are detrimental to the industry. Among distributors 15 per cent think that it makes little difference whether one-stops exist, while the remaining 4 per cent say they are not sure.

It is generally recognized that the growth of the one-stop operation has been tremendous during the past year and that every important city has at least one such sub-distributor, while the larger national market is covered by at least one distributor. Billboard has previously reported that several distributors have shown large sales increases. One operator reports that his sales have increased 25 per cent, while another has increased sales by 35 per cent over the wholesale price.

Among the distributors who said that the one-stops are "not good for our business," the general opinion was that the one-stop operation "is too cumbersome and too much of a job for the distributor." Some distributors feel that the one-stops don't give the job needed promotion and that the one-stop operation "is too much of a job for the distributor." The plan was submitted by the Leipschider group to its president for consideration.

**Snyder Spells Basil to Grab Record Jackpot**

CHICAGO, Jan. 15—Bill Snyder, who dropped his band six months ago to work solo dates, stepped in to front the Chicago Theater Orchestra this week while Louis Basil, vacated, and hit a record jackpot. B. W. Shadel, large Loop retail shop, used a blow-up of Snyder in a window to promote his new version of "Ring of Fire," while the theater also helped by advertising the new side, and his "Revolution," best selling charted was the sale of 18,000 copies in 5 days.

**RCS Surveys Disk Segs for Peatman Reports**

CHICAGO, Jan. 15—The one-on-one radio pubber pic here appears to be headed for a change, with Chicago now joining New York and Los Angeles in surveying and recorded programs and the results being fed to Dr. John Peatman for use in formulating his weekly reports.

Radio Checking Service, which has been monitoring live radio programs here since 1959, is handling the disk and transmission surveys covering all musical numbers (except花钱 and public domain) performed over the network outlets, including WGN, WMAQ, WBBM and WENR-WLS. James R. Sutton, manager of RCS, said the survey was being confined to three outlets in conformity with the Peatman program.

However, with the advent of the new monitoring system, several pubbers are now beginning to record all recorded music shows here by using recording officers for representative in the Windy City. While the network outlets run over in record performances than the indefinite, publishers still have a healthy plug market open. Monti-Juni's survey covers the R. A. for the first time.

Performances on the indiff performers rates from WJJD's 1,000 to WFL's 1,700 and WIND, 2,000 weekly. These disks are not included in the RCS survey, Sutton said, since it does not produce WFL's live musical shows during the week.

House Action Would Prevent Price Cutting

WASHINGTON, Jan 18 — The House Judiciary Committee has rescheduled hearings February 13 on a bill opposing recorders of TV, radio and phonograph sets and disks, and despite the change, the Senate has blocked nominations to the Supreme Court decision that led to the Nippon Gimbals price war. The bill provides that it would be legal to limit persons who are buyers of fair trade price agreements to such agreements if the agreements are informally arranged. Opponents argue it would be under considerable pressure, largely from big business, to pass the bill. Monday, a hearing has run as long as four to five weeks. Introduced by both Rep. Henry L. Javits and Rep. Albert J. McIntyre, the measure would have been a bill in a dozen states which have laws permitting manufacturers to set minimum fair trade prices. Another bill introduced by Rep. Thomas B. Curtis would repeat the Milbank-Tradewell Act 1924 which added the ability to these trade laws. The Curtis bill, scheduled for hearing at the same time, seems to have little chance of action by Congress, however.

The Supreme Court recently ruled that a person who signs a fair trade price agreement is not bound to sell at those prices.

RCA SPENDS 3G WAXING 1 SIDE

NEW YORK, Jan. 19 — What may be the most expensive recording date ever for one of a pair disk was run off by RCA Victor a few days ago for a Ralph Flanagan ork session held in London. Disks were recorded over $3000 to get a tape for "On My Way Home," Flanagan released last week.

To make the single side, the disk was a 45-year-old Hugo Winterhalter, production exec Bob Mcclusky, two engineers, and nine tracks of recording equipment to Cape. In addition to paying for the band's 14 sessions, the label hired a singer, rented the State Theater and took on dry cleaning fees to ensure the completion, which cost for 1000 people to sit in on the session and sing along with the band on the pop-spiritual.

The Howard orchestra has remained intact, with Norman Lee now featuring the group. On future recording sessions for Mercury with Howard received last month for another three years, he will use local orchestra.

Following the Oriental run (Wednesday), Howard will head east for a date on the "Toast of the Town" TV show and later work.

GAB BAG

Andy Anderson, KVI, Seattle, writes: "Stan Kenton conducts, and correctly. I think that music moves in a never-ending cycle. Instrumental music is definitely on the road but it's not over yet because the public doesn't take it in instantly. What records do designers collect? Ones around Seattle are the ones in one of the jazz tournaments... Why don't we get more jazz festivals?... When will Cleveland become an important city to be listed in the 'Billboard'..." — Jerry Crocker

DEE-JAY DON'S

We have been selling for a long time about "Three We Can Always Depend On". The sales show that we are dependable but across the nation there is no substitute for Eddie Fisher. Last week his new record, ANYTIME, got a tremendous turn out. The sales last week were stronger than ever before. The sales are so strong that the King's SLOW POKE is approaching the million sales mark. Our only little weakness, the ballads with this week's hit is "Herman". Herold Brey, have proved again another successful record. The record of BERMUDA is a big one. Close behind BERMUDA, you will note Pee Wee King's SLOW POKE AND CHARMAINE. This week the seller is Eddie Arnold. He learned to his advantage that in CALL ME YOUR SWEETHEART AND BUILD UP A BUNDLE OF SOUTHERN SUNSHINE, SLOW POKE and CHARM. By Fleagle, we know that Ralph is always a top contender for this category. Toney Martin's DOMINO is breaking out at the age of 10. It looks as through this one could be his biggest of all time for the year. His SLOW POKE follows right behind DOMINO and returns to the list. Latest followers with this THE LOVELIEST NIGHT OF THE YEAR, BECAUSE REWARD AND IF MY LOVE, Savannah Churchills is still going strong with BERMUDA. Sinu Winterhalter, the man who has earned a terrific reputation with his wonderful records, puts his new record into the best seller list. New sales with KISS TO BUILD A DRUNK AND watch this one, it will undoubtedly be Perry Como's. Our "Dee Jay Don's" column is causing a little bit of excitement among the trade. We hope that all the disc jockeys have a good one in the coming weeks and know what it is about. In case any of you fellows are not aware of it, here is basically the idea. Every other week we will list in this column the name and picture of the disc jockey who has come up with a very plausible idea for promoting a record. We offer it as a pet project, a portable radio for his idea, which is to be used in to the President Department, RCA Victor Division, New York. We will then teach our own stunts, plus their picture and the new idea is printed in our column and is radio said to the western furniture.

Hank Thompson, who records on the Capitol label, has leased Dancing Days, and Sunday promotions are being handled by Jimmy Leaume, for Saturday and Sunday shows. Thompson and his Broxey Valley Boys will work closely with the act for the remainder of the summer, playing in various parts of the South. Thompson and his manager, Johnny Hitz, have been touring around the South and have found a niche for Thompson's unique style of music.

**Bill Bullet** has returned to Nashville where he will be working with the Liberty Broadcasting web and handling Okie Jones (Columbia). Bullet is also signing gospel agreements.

**Jimmy Davis** (Thompson's new artist) is working close with the act for personal appearances. He has been heard on the Nov. 10 show on WOR and is scheduled to appear on the Nov. 17 show.

**Bill Bullet** (Robert) RCA Victor recording artists, are reportedly recording a new split session with the act. The Rogers are still working out of Dallas. A new Decca recording of the Rogers is expected to be released soon.

**Webb (Wonderful) Praise** is now being handled by Elmwood Records. They have scheduled an appearance in Dallas for Nov. 15.

**Jimmy Klah and His Pioneer Cowboys** (Western) have been making a name for themselves in the Southwest. They have recently released a new record that has been well received.

Part of the music business, that it is the business of performance of their wings in a way that has compared with performances of popular and broadcasters to favor a few publishers.

Alexander Sidley

Many of the allegations in the complaint are identical to those in the Piry, Alex, and against BMG which was finally settled out of court for a record sum.

BMGR hommes have 30 days to file a reply to the suit, the more a considerable number of that deadline. In the case there is the total stage agreement that the crowded court calendar will prevent a trial for at least a year and a half or two years. Legal negotiations may take place for both defendants and plaintiff.

Wright is represented in the action by Bernard Tomlinson, a former assistant United States Attorney General.

Coins and Colonies Aid Biz Expansion

NEW YORK, Jan. 15 — The retailing climate is ready for the traditional opening up of the coin and stamp field by major placement houses. Great promise for expansion in both sectors is seen in the amusement industry. Such was the report of Joseph A. Geltmer of the Societe Scolodominet, Paris, who has had a long and distinguished business career.

Geltmer, the one-year-old distributing firm has already broken into the U.S. market and is well on its way to becoming an American concern. Geltmer said the French coin industry is currently valued at $1 billion and is growing at a rate of 10 percent per year.

The average American is known to spend $500 on coins and stamps, but the industry is undercapitalized and needs to expand. Geltmer said there are many opportunities for expansion in the U.S., particularly in the west.

Case in point, Geltmer said that in Utah, where there is a large number of small, independent coin dealers, the coin market is much less developed than in other parts of the country.

In a meeting with the press, Geltmer also discussed the importance of taking on new talent. He said that recruiting the right people is crucial to the success of the business, and that the company is working to attract young and promising talent from across the country.

Geltmer agreed that the industry needs to make changes in order to remain competitive. He pointed to the growing popularity of digital collectibles as a prime example of a market shift that needs to be addressed.

Despite the challenges, Geltmer remains optimistic about the future of the coin and stamp industry in the U.S. He said that with the right strategy and execution, the industry can continue to grow and thrive.
