Talent Unions Convene for Merger Talk

Loaders Stress Unity Inside Groups A Pre-Requisite

New York, Aug. 9.—The first all-unions meeting held in recent years brought out about 150 members of all talent unions to listen to the proposed merger at the Park Sheraton Hotel, Thursday (7). The gains were covered, but this reporter found a convention back could not have been held without being seen.

Represented on the platform were the negotiating committee for Variety Artists, American Federation of Radio Artists, Television Artists, and American Guild of Variety Artists. Members of the two unions were led by the Actors and Screen Extras Guild, the present in the hall, were not represented on the platform.

Paul Dubrow, president of the American Association of Actors of America, under whose auspices meetings were held, the ACTA, paid the bill. Introduced William A. Azzone, president of the Actors Guild of America, and George Aragon, both of the union's spokesmen were 10 minutes to prevent their sides, followed the speeches by 50,000 and another period.

Like most people, I'm given to a sharp rise in blood pressure whenever I hear the word "phony." I've been known to lose my temper at the long, slow, and annoying process of reading a contract or agreement. Yet, I've also learned to appreciate someone making an honest effort to understand a complex issue. This is why I was pleased to see the article in Billboard about the ABC meetings. The article provides a clear and concise overview of the negotiations between ABC and the main unions.

The negotiations have been long and difficult, but the outcome is positive for everyone involved. The agreements reached will ensure stability and fairness for all parties involved. I'm particularly pleased to see that the agreements will help to reduce the amount of back pay that has accumulated over the years.

I hope that these agreements will serve as a model for future negotiations. It's important that all parties involved work together to find solutions that are fair and equitable for everyone.

Washington Once-Over

WASHINGTON, Aug. 9—Senator Joseph McCarthy (D., Tenn.) today defeated in his Senate campaign the incumbent, Senator Tom Connally (D., Texas), by a margin of about 15,000 votes. The campaign was one of the closest in recent years, with both candidates running strong campaigns. The result was a blow to the Democratic Party and a victory for Mr. McCarthy, who had been considered a likely candidate for the presidency.

Today's election was not only important for the outcome in the Senate, but also for the future of the Democratic Party. If Mr. McCarthy continues to win, it could signal a shift in the party's direction. The Democratic Party has struggled in recent years, and a loss like this could further damage its image.

The winner of the Senate race will likely become the next Senate Majority Leader. This position is crucial in determining the direction of the Senate and could impact the outcome of future legislation. I'm hopeful that the new Senate will be able to work together to find solutions that benefit all Americans.

Taxes Costs Leave CBS
380G on $105 Mill Gross

NEW YORK, Aug. 9—In spite of a gross income which increased $1,225,000 over the previous year, the Columbia Broadcasting System, Inc., reports a profit of $3,200,188, or $1.12 a share, as compared with only $146,000, or 55 cents a share, in the previous year.

The gross income for the first quarter of 1949 was $3,791,865, as against $2,203,920 last year, an improvement of $1,587,945.

The much larger gross can be partially attributed to a larger percentage of earnings as a result of the acquisition of the American Broadcasting Company, which was divested of 40 cents a share paid by $1.12 a share in April.

The earnings per share are $1.12, compared to $0.55 in 1949. Three times more taxes were paid on the $3,200,188 profit this year than in 1949.

The network has been the subject of much speculation over the possibility of a merger with the NBC network, whose president, Joseph R. Lewis, has been quoted as favoring such a merger.

Network Radio Is Doing Strong Job

NEW YORK, Aug. 9.—In spite of the postwar jump in labor costs, and the lowering of annual salaries in most cases, more than 11,000 radio interviewers are being hired by networks and station personnel this year. The number of interviews conducted during the past year has increased by more than 25 percent, and the number of interviews made during the current season is expected to reach 13,000. The increase in the number of interviews is due to the increased use of radio in advertising and public relations programs.

**ABC-Para Merger Hearings Resume**

No More Witnesses Until FCC Clarifies Ruling Eliminating Anti-Trust Issues

WASHINGTON, Aug. 8.—Hearings on the proposed merger of American Broadcasting Company (ABC) and Paramount Television Broadcasting Inc., resumed Tuesday (12), but no more witnesses will be called until the Federal Communications Commission clarifies a recent ruling on the case. FCC broadcast bureau attorneys are expected merely to put on record certain parts of the discussion between FCC hearing examiner Leo Resnick and Paramount representatives following the commission's ruling, which apparently eliminated consideration of all anti-trust issues involving the participants before August, 1948—three years before the FCC scheduled hearings on the merger. Paramount and ABC had requested the elimination of assertions of anti-trust issues, which were based on the early 1940's in an effort to speed FCC action on the merger—pending for over a year.

Resnick requested clarification of the FCC order by which, whether it would declare "evidence concerning charges that, during 1941-45, a Paramount-Para Pictures, Inc., and Paramount Tele-Vision Productions Inc., participated in the suppression of the use of the so-called Scophony patents relating to TV and communications equipment.

He pointed out that, in one section of the ruling, the commission had "old and well-tried issues should not be considered unless they directly involved" radio communications.

Resnick reminded the commission that the counsel for Paramount had offered to take them beyond the 3 to 5 weeks to question witnesses on this subject.

Resnick also asked whether the record should be opened to anti-trust issues began since August, 1948, which have not previously been touched upon. He referred specifically to anti-trust proceedings by the Justice Department against the Madison Square Garden Company, which all 16 directors are directors of Paramount Pictures Corporation and Justice Department mid-trust proceedings against the National Screen Service Corporation and Paramount Pictures Corporation. He said broadcast bureau attorneys were prepared to institute investigations of these cases which might prompt hearings several more months. If the commission advises Resnick to drop inquiries late both double trouble, the record to the year-end case is expected to be closed without further hearings.

**Photo Finish for Video Signals**

The various parts of the video signals that carry a television picture through a coaxial cable travel at different speeds. When they leave the studio, they accurately represent the scene before the camera. But, like spinners, some are faster than others and pull ahead in the "race" to the receiving point.

Bell System technicians insure a "photo finish" by making intricate adjustments to coaxial cable facilities. Using special equipment, capable of measuring fractions of a millisecond between them, they slow the lower frequencies so that all arrive at the same time.

This is an interesting example of the great care the Bell System takes to insure high-quality transmission of television signals. It's an investment of money, equipment and personnel that is involved in making network television possible.

Yet the cost of the service is low. The Telephone Company's total network charges average about 10 cents a mile for a half-hour program time.

Celler Demonstrates How to Lose Friends

Arguments appearing on television should show that one of the important reasons for selling is to serve their clients. The question of serving is to serve their clients. If they serve their clients, they should be nice and stick to the rules of the American Bar Association. The D.A. agency and William Friedkin's "The Exorcist" last Saturday (2) made the argument that it was not necessary to serve their clients. The idea of the show, "On Trial," is to use courtroom procedures and render opinions on political questions. There is a case for judging the judge of the New York Municipal Court, Michael F. Quill, who is alleged to have been dishonest and to have had an interest in the railroad industry. Celler appeared as a witness on the railroad platform.

MIAMI, Aug. 8 — Right when everybody was crying the local bookie scene opened suddenly Wednesday morning in Wilharnson's, the bar of the Miami Beach Club, and everyone who knew the players was surprised the colors didn't win.

But it was a different story at the Anglers Club and the Neubull Hotel with Jack Paladino and Burt Youngman later in the afternoon, but both spots are more popular with the locals, even with a $1 Lewis limit. A couple of players who play exclusively at the Anglers Club and at the Wilharnson, and $1 bills are made up at the Wilharnson.

To the Neubull spot, the crowd looked much the same Wednesday night they had Gloria Jean, who also won the $1 limit.

After that, when she was re-picked for the 30th floor, she happened to be happening there. They're a good deal, however, with Youngman who has his regular table in the third floor of the second floor.

The people are here, however, for a good time, and it's not a bad place to be. This is the second day of the third day of their regular meeting at the Wilharnson, and there's a great deal of good fun going on there.

Silence Broken: Columbia Speaks on Fair Trade Law

Effect on Stores, Interstate Mailing, Other Posers Delay Prompt Action

NEW YORK, Aug. 9 — The deep silence of silence over the new Fair Trade law was broken Thursday when Columbia Records issued a statement on behalf of the record companies. The company, in effect, said that the new law would not affect their ability to enforce their fair trade practices. In its statement, Columbia said that it had been able to arrange with other companies for a joint action on fair-trading. However, Columbia added that many other companies were still attempting to set up their own separate action, and that these attempts might lead to difficulties. The statement concluded by saying that the company believed that the new law would have little effect on the industry.

The complete text of the Columbia statement issued late Thursday night is:

The Columbia Records release is dated July 4, 1952.

1. The Fair Trade Act, as it now stands, is not an act that the Company looks forward to. The new law, which was passed by Congress and signed by the President, will have serious consequences for the record industry.

2. The Act makes it illegal to sell records at below the retail price. However, the Company believes that the new law will not affect its ability to enforce its fair trade practices. Columbia has been able to arrange with other companies for a joint action on fair trading. However, Columbia added that many other companies are still attempting to set up their own separate action, and that these attempts might lead to difficulties. The statement concluded by saying that the company believes that the new law will have little effect on the industry.

3. The Act also makes it illegal to sell records in interstate commerce without the consent of the record company. Columbia is opposed to these provisions, and believes that they will have a serious consequence for the record industry.

4. Columbia is currently analyzing the effect of the new law on the record industry, and will make a formal statement on the matter as soon as possible.

RACKMIL FETED AT STORK CLUB

NEW YORK, Aug. 9 — A dinner party in honor of President Miller Rackmil was held at the Stork Club Monday night. The occasion was attended by many of Rackmil's friends and colleagues. Among those present were: Al Duff, executive v.p. of Universal, and a number of the label's artists.

The longest record of any one member of the Columbia group, as reported by Fredy Martin, will go on tour. This is a six-month vacation, during which time he will be away from his usual responsibilities.

The Columbia label has had no comment on the matter, but it appears that the officially Deca, Capitol and RCA Victor labels have been adversely affected by the new law. None of the companies would say whether they are planning a statement on the matter.

HOT NEWS

One in Five Disks Curl From Heat

NEW YORK, Aug. 9—The extraordinary hot weather produced several feather copy. Lee Rabin, Eastern sales chief for Modern and RPM Records, pointed out that many disks were curling up in the heat. Rabin was not kidding, either. He said that pollution was an extreme—particularly in the flexi-ils—that one disk in five, in some areas, was literally curled up.

He advised dealers to do the following: 1) Open shipments as rapidly as possible, and 2) stack the records flat on shelves, or, if not possible, in odd-fashioned music store shelves were built so that disks could be stacked flat, "and hit the last way," he said.

NBC Vetoos 'Honky Angels'

NEW YORK, Aug. 9—Citing the tune as being "unsuitable" because it "would offend too many people," the National Broadcasting Company has temporarily banned "Flirtin' With a Honky Tonk Angel," from being played over the network or its owned and operated stations.

The tune is a recent hit ballad by Kitty Wells on the Decca label. The disk, which has been out for about five weeks, has sold over the 250,000 mark and is currently in the top-ten disk for the label. It is the first time in over a decade that a hit singer has cracked the country kingdom. Where queried, an executive of NBC said that the record had been reviewed, but that sheet music was issued, and it was decided that it was temporarily banned because the title is considered to be of an unsuitable nature. He added that should this tune become a hit, then the net would withdraw the ban. The thinking here is that by buying the record, people would realize that they do not consider the title offensive.

When checked, the other three radio networks said that the record had not been received, and that the tube had not come up for clearance.

Columbia Adds To Kidisk Line

NEW YORK, Aug. 9—Columbia Records will release three new disks in its children's documentary series as part of its full merchandising campaign in the kidisk field. These are: On-the-spot recordings of the sounds and action that takes place on a trip to sea, "Dudeboat Prize Money"; an airplane ride, "Skyliner Flight 13"; and going to a film, "Honk and Ladder No. 50." The records contain stories entertaining the action. Disks are sequenced to the form of a trip around the world, "The Columbia," which was released last year.

Additional records from Columbia's 30,000 disk department include "Robin the Reindeer" written by Gail Washburn and Marjorie Fifer, which features 26 percussion instruments of the New York Philharmonic Symphony orch.; "A Wedding" by W. A. Magicbation; "Paul Tripp, about Flight 13"; plus a group of disks about space ships featuring "Space Rangers," and a number of participation-type records for the very young set.

Keystone Offers New Gimmick to Stations

NEW YORK, Aug. 9—A new disk merchandising gimmick is being offered to radio stations by Keystone Records Philadelphia-based label. The package contains two disks, either 78 or 45 RPM, which would be played by station's jockeys at one dollar for the package. A contract, to be signed by the disk and the radio station, offers a number of incentives to station owners and disk jockeys—three incentives being designed to enlist their support.

In return for two daily plays of each new release, plus mention of proper copy, the disk jockey would pay the station one dollar for each single order received. Also two cents to the station manager; the disks could be played. The disk and the station manager, plus two cents to the station manager. The disk, of course, would pay mailing charges. etc. A new item in program, operated by Edward Wilson and Earl Brand.

ZING HITS TOP GONG

NEW YORK, Aug. 8—10 "Lovers Do," published by Baran Music, which is handled by the版权, and Harry Warren for the "Big Mama" is now "in the charts," apparently secures a record of sorts on the Peal hit sheet. For the week ending Thursday (4), Peal reported 315 singles. In recent weeks, the closest to hit sheet was written by Fester and "The Big Fish," and "The Iron Butterfly" was "in the charts," but "The Big Fish" is in 19th place on the Billboard's decay chart.

Detroit Spot Busts Record With 3 Bands

DETROIT, Aug. 9—Business has been taking on at a high level for the new Edgewater Garden in Detroit, Michigan, with three bands during the past month. In a recent survey, one newspaper in Detroit states that the Edgewater Garden is the most popular of the three bands.

The survey, which was conducted by the Detroit News, the Detroit Free Press, and the Detroit Morning Journal, states that the Edgewater Garden is the most popular of the three bands.

ASCAP Publ Sue Unlicensed Ops In Southwest

NEW YORK, Aug. 8—Several publishers of the American Society of Composers, Authors and Publishers have filed suits against unlicensed operators in the Southwest.

The suit, asking damages, cost and attorney's fees, was filed in the United States District Court for the Northern District of Texas.

Prior to this filing, a suit in Fort Worth, on a similar claim, was dismissed by Judge H. B. Lott, who said that the suit was "of no merit." In a recent interview, the judge said that the suit was "of no merit." In a recent interview, the judge said that the suit was "of no merit.”

The latter firm is a consolidation of two record labels, which own a large number of copyrights. The Billboard Picks

In the opinion of the Billboard music staff, records listed below are most likely to achieve major popularity as determined by easy and heavy retailing, most money spent in the Charts.

MY LOVE AND DEVOTION........ Doris Day-Percy Faith Ork

The cover has a striking piece of material here and the tune is a pleasant melody, written on an unusually short life but powerful style. Ork arrangement is fine.

JAMALAYA..................... Jo Stafford-Paul Weston Ork

A rather eye catching, with a solid beat and a really nice tune, to give a solid mark in an Eastern, with string backing from the piano and on the French with it, in five recording studios. (MGM-MINDED—IT’S)

Dressed as slaves, an 80-year-old woman and her husband stand in front of a crowd outside the White House. The couple is attending a rally organized by the National Association for the Advancement of Colored People (NAACP) to protest racism.

In addition to the protests, the NAACP has also launched an ad campaign aimed at raising awareness about hate crimes. The campaign includes billboards, posters, and social media ads.

The NAACP's efforts are part of a broader movement to combat racism in the United States. The movement has gained momentum in recent years, with many people calling for an end to systemic racism and discrimination.

55G Paint Job Spruces Up Dallas Plaza

DALLAS, Aug. 9—State Fair of Texas has completed its $3,600,000, all-time record-setting program. Four major buildings and minor structures were re-painted and the Casino Building was re-suraced.

Fable prophet R. L. Thornton said the work was the only the first phase of a continuing three-year program that aims to make State Fair Park an outstanding show-ground. It was the first major repainting and replacing of the fairgrounds since 1948, when the exigencies of operation preceding the war were the fact that his daughter, Jane, has been traveling with her father ever since she can remember.

Harry J. Buhl, president of the Cincinnati World's Fair, New Orleans, plans to visit George Whitney in San Francisco; spend some time at Union Station in Denver and then land the kiddie park in Chicago with George Schmidt.

Fred C. Murray and Eddie Goodman, of the Interstate Fireworks Company, are New York visitors (Tuesday, 6). They were in to check on their Fair's poppy displays at Coney Island and headed back the same day for State Fair Bridges, Massachusetts.

In addition, this week saw the opening of the Three Ring Revue, an illusion set featuring four 20-gallon glass bottles in a black-out and at Christmas lights shining at the same time; and the other two productions are outstanding for costuming. Evers and DeCouto in their lighter number are the only one featured in an illusion setting designed to show the 30-gallon bottles being in a black-out and on a stage at Christmas lights shining simultaneously. Their act is one of the most outstanding for the audience and the spectators.

The Whirl, five-member circus, is in several cities of the productions and does several medleys on their own.

Union Signs Three Shows as AFL Probes Organizers’ Methods
Godding, World of Pleasure, Happily Attraction Pacted, Karsh Announces

CICAGO, Aug. 8—A major development that will drive to unionize carnival workers was announced at the convention of the national organizations of all workers. The Federation of Labor was pushing "thorough investigation" of reported unauthorized co-operation of workers in several communities.

The three shows that signed were: Godding Amusement Co., Happily Attraction and the World of Pleasure. Announcement of the union was made by Harry Karsh, union organizer.

From Washington, meanwhile, the national headquarters said that it had received reports from local groups that efforts had been made in some communities to have workers form a group or to join in illegal activities. Two shows were in danger of suspending operations because of unionization, and one was in the process of organizing.

The AFL field operations have been checking the reports for complaints for unionization, but a union police force, which included contractors and automobile clubs, operated around the area in an attempt to keep the peace. Saturday and Sunday were the busiest days.

The road is nearly 1,000 miles from the North Dakota State Fair, where this year’s convention was held. The convention is the largest in the world, with 50,000 people in attendance. The city is open to union organizers, and the fair is a meeting place for unions to meet and plan their strategies.

Carnivals

Carnivals across the country are facing unionization pressures, as workers demand better working conditions and wages. The AFL is working to unionize the workers, but the goal is to organize as many as possible.

LAPORT, Pa., Aug. 10—(Cle) is where it is. And, yes, that means as the styled players say, "Where in the world are we?" It's not that the mountains of West Virginia are so difficult to travel in, it's that the roads aren't. It's a drive through the Muslim Missionary Society's well-endowed season of the week.

The drive began with the marking of the founding of the society's annual parade— a three-hour drive, hand-drawn by a team of horses, that saw the recreation chief. To find two hands, hop on a New York or a Pennsylvania mountain, and count the number of passengers by counting the number of stops along the way. The passengers ate "made-to-order" meals, and the horses were "torn apart" to make the trip worthwhile.

The drive ended with a visit to the society's headquarters in a small town in the mountains of West Virginia. The town was given the name of the society's leader, a man who had been known for his work in the mountains of West Virginia.

Danish Firm Makes 40-Tune Juke Box

Outward Appearance Similar to Seeburg M100; Chain Drive Moves Record Stack.

COPENHAGEN, A 9—A 40 selection, 78 rpm. jule box radio player was announced by Omer Sibree & A. S. in outward appearance the machine is similar to the Seeburg M100. The cabinet is constructed of 31 inches high, 19 inches wide and 18 inches deep. The weight is 200 pounds.

The player is housed in a horizontal cabinet with the main section of the box on the left side of the cabinet. When a selection is made, the disc is moved to the proper position, the record turned over, and play is continued on the selected record.

The machine is designed to use 50 cycle, 220 volt alternating current, the motor being energized by 220 volts when the machine is playing. It was a light-weight model, the Sibree model of 14 grams approximately.

The sound mechanism has double loud speakers and remote volume control. The cabinet has been designed to use two different cabinet sizes and can be set up with a conditioner with an adjustable mechanical and magnetic operation. It can be adjusted for 32 or 45 rpm.

An illuminated strip across the front of the cabinet features the words Music by Jensen. The mechanism, which is power-driven, is housed in a pleated dome speaker grille divided into two sections, with the speaker openings on the player compartment.

Under the present cost structure, it is impossible to make a juke box of comparable quality. This could be made by an operator of comparable cost. However, the dealer's cost is comparable with considerable quantities of the COLUMBIA product. The machine is the type which can be used in the box to be working without changing the price.

Vending Gross On Subways Dip Slightly

NEW YORK Aug. 8—Vending revenues in New York City subways are slightly below 1951 figures, according to a report released by the New York City Board of Transportation. For the 11 months ending May 31, the revenue from New York subway vending machines was $8,727,981, compared with $8,732,450 for the same period in 1951. Drunk vending machines in the subways are owned by ABC Vending, the Connecticut Corporation and Clark's Vending. All kiosks and candy machines are owned by American Vending. While the 1951 and 1952 totals for these machines are equal to $2.15, this year's business is off somewhat. The $2,150,000 figure represents the $5,000,000 minimum guarantee given by American Vending to the Board of Transportation. However, Bob Kyla, of American Vending, who said that 1952 business is trailing 1951. A decrease in passenger traffic and the curtailment of service on the Third Avenue Elevated were listed as the reasons for the dip in vending volume.

Tax Vendors As Property In N. S. C.

For the last month, the decision affects cigarette vendors mainly due to its popularity, since all types of automatic merchandisers fall under the new tax ruling.

**Blast Wrecks Detroit Firm**

DETROIT, Aug 8—A dynamite blast late Sunday (3) damaged the building and equipment of the Michigan Vending Company and forced the firm to cease operations temporarily.

Detroit newspapers speculated that the blast might have caused a shortage of vending machines from union difficulties, but claims of the operating company and William B. Higginson, the firm’s president, that such speculation was groundless.

No estimate of the loss was made, but windows, walls, and the external part of the structure were damaged and considerable material and vending machines were rendered inoperable. The firm expects to return to business within a week.

Michigan Vending Company is operated by L. Fleetwood, and Paul Chofer and Paul Gold.

Most of the operators in these territories, however, found pay holding well above general levels in the same areas. Thus buying of new and old equipment continued at a steady level.

Currently, the plans are to follow the following games: a) Triple, 800, 1000; b) Chicago Coin, Big Hit; c) Bowler, Super Twin Retention; d) Groenteman; 400, Gottlieb, Happy Days; Keesen, High Rees Eagle Bowler and Super Deluxe Lemon Bowler; United, Stars and Star Shuffle; Century; and William's Long Beach.

It seems, at least, of some of these quick dealing exporters think that if they have discovered the easy way to make high profits, "it is still possible to make money exporting coin machines." Groenteman concluded that it requires imagination, initiative, a good organization, sound financial backing, and a good reputation.

Alas, and this most important, is merchantable. Right now there does not seem to be enough idle units in the used market to supply foreign countries.
