

Spotlight on
record programming
featuring
today's top record talent

This is a personal message. Commercial, but personal. RCA Victor is now about to present four albums by brand-new artists. They come to us as a result of a persevering search by our A & R people for something truly new and exciting. In my opinion, their search has been successful. Rarely have I encountered new talent of such fine calibre. And everyone at RCA Victor shares this same reaction. I sincerely believe that you, and the public, will feel as we do about these four albums.

"ON THE REBOUND"!

FEB. 20th! BILLBOARD MUSIC WEEK SPOTLIGHT WINNERS

FLOYD CRAMER

ON THE REBOUND (Cigma, BMI) (2:05) — **MOOD INDIGO** (Gotham, ASCAP) (2:45)—The "Last Date" man turns out an infectious rhythm instrumental tune follow-up to the original which has the same basic melody. Flip is a solid revival of the great oldie, with much of the pay-off flavor of "Last Dance" and a strong piano approach. Both sides are strong.

Album subscription services took on new importance last year in the wake of the FCC's temporary edict that stations must purchase disks or acknowledge their receipts as gifts on the air. At the same time the trend to greater use of long-play albums for broadcast programming has continued to grow.

Consequently, *Billboard Music Week* has updated data on album subscription services which ran in the December 14, 1959, Winter Programming and Talent Supplement. Here are current details and prices on the bulk of album subscription service plans available on an annual basis. Plans are listed alphabetically by manufacturer.

Most labels not listed here make albums available to stations and deejays at a special per-album price, but do not offer a year-round LP service. Average price on per-album deals is from \$1 to \$1.50 for monaural sets and from \$1.25 to \$2 for stereo packages. In the majority of cases, disk firms require that jockeys and stations submit written requests (on station letterhead paper) for the services, with payment in advance.

HOW TO USE THIS FEATURE

JUKE BOX OPERATORS, in view of the increasing number of stereo juke boxes, will be especially interested in listings of available stereo singles and EP's in the record data column. Also, operators may profit handsomely when an artist is particularly hot by programming, not only his current big record, but also the same artist's earlier hit or

standards. This info, too, is in the record data column.

DISK JOCKEYS will find that the information in this complete easy-to-use directory can be integrated with nearly every spin. The wealth of chatter in the brief biographical summaries is presented here alphabetically by artist for easy reference. And many fine program-

ming ideas can be developed from the record info data.

BUYERS AND BOOKERS OF TALENT will need no diagrams to tell them how valuable this compilation is, or how to use it. They have continuously requested biographical data as well as for the personal managers and booking offices or leading talent. This feature should answer these requests.

A practical programming guide for disk jockeys and juke box operators, featuring biogs and basic record data on all recording artists whose records appeared on the Hot 100 or Action Album charts from December 1960 through February 1961, plus any million-seller artist who had a singles release during the same period.

(NOTE: Biographical and disk data was secured from the record companies for which these artists record. Omissions or lack of data is the result of inability by the record company to provide information to The Billboard. In the case of artists with lengthy record credits, a representative selection is used to provide a basis for programming).

...THE MOST TALKED ABOUT NAME AROUND THE WORLD...

PERSONAL APPEARANCES: One-night tour of Texas, March 10 through April 9. Town Casino, Buffalo, June 5. Casino Royale, Washington, D. C., May 29. Scheduled for hotel dates in Chicago, Los Angeles, New York and Miami. Forthcoming personal appearances in the Philippines, Hong Kong, Japan & Europe in the summer of 1961.

MOVIES: Filming begins on the independent production of "The Young and the Lonely," April 10.

TELEVISION: TV appearances scheduled for England and Italy. His own special TV spectacular slated for Italy.

Of his unique name, Conway Twitty once remarked, "after the first million records, it doesn't sound so bad at all." Now, several hit records later, the name Conway Twitty sounds like music to the ears of record dealers across the country—and brings joy to the hearts of his millions of fans throughout the world.

Born Harold Jenkins in Friars Point, Miss., he was barely in his teens when the family moved to Helena, Arkansas. In Helena, Conway became an outstanding high school athlete and was offered a trial with the Philadelphia Phillies baseball team. Before he could accept, he was drafted into the army. Conway pursued his athletic career while in service, but also began devoting himself more and more to music. He played guitar and decided to form a little band among his pals. Shipped to Japan, he continued with his band, winning talent shows and appearing on the Far East Network.

After service he was undecided on whether to pursue baseball or music as a career. He chose the latter and soon was appearing on shows, proving popular particularly on the Ozark Jubilee. Another friend urged him to

submit some tapes to Don Seat, a leading New York Artist Representative. Seat, upon hearing the tapes, realized the lad's potential and became his personal manager. It was Seat who also gave Harold Jenkins the name Conway Twitty. About a year after making his first record, Conway signed a recording contract with MGM and cut the first disc for his new label. It was a song that he and his drummer, Jack Nance, had written while on tour in Canada. The title: "It's Only Make Believe."

The rest, of course, is popular history. The record sold millions of copies and the lad with the unique name became "The Most Talked About Name Around the World" . . . Conway Twitty, MGM recording star.
