## Folkswinging Wave On— Courtesy of Rock Groups

By ELLIOT TIEGEL

**HOLLYWOOD** — With Bob Dylan as the stimulus and the Byrds as disciples, a wave of folk-rock is developing in contemporary pop music.

British groups—such as the Animals and the Nashville Teens—have on occasion used pure country-folk material. But their identity has been really in the Beatles vein. The Byrds, on the other hand—with a similar driving sound — are the first American rock group to obtain the majority of its material from the folk field and make a success out of it. Their Columbia single of "Mr. Tambourine Man" is the No. 6 record in the "Hot 100" survey this week.

The five folk singers switched to rock 'n' roll when the Beatles made it fashionable to wear long hair and play amplified guitars.

Since the single was released, with San Francisco and Los An-

geles the first two markets accepting the Bob Dylan-authored song, a host of other rock groups have caught the message. And the race is on to get on the folk-rock band wagon.

Such acts as Billy J. Kramer, Jackie DeShannon and Sonny and Cher have all begun using folk-oriented material on singles. A new group, the Rising Sons, displayed a folk-rock style at their Ash Grove bow in Los Angeles recently. Joe and Eddie, Crescendo Records top folk artists, are now reported switching over to a blend of folk-rock. An act billing itself as the Living Spoonfull is reported working in the New York area with a folk-rock sound.

When the Byrds played their first engagement at Ciro's in Los Angeles, many folk artists attended. The boys rubbed elbows with Mary Travers of Peter, Paul and Mary and Dylan. It was reported that several diskmen brought portable tape re-

orders to the club to catch their sound. The Byrds' sound combines falsetto voicings with blaring guitar chords and a rock bottom drum beat, all applicable for dancing.

Their repertoire is heavily Dylan, espousing his causes

BRINGING IT ALL BACK HOME is the perfect title for Bob Dylan's latest album. In a successful tour of the British Isles, Bob turned the tide and reversed the English wave which has captivated the U. S. Bob's new album and his single, "Subterranean Homesick Blues," are riding high on the British best seller charts. (Advertisement)

## UA Steps Up Pace in B'way, Track Fields

By PAUL ACKERMAN

**NEW YORK**—United Artists Records has moved into a position of key importance in the past 12-18 months and is planning to expand in various areas. The disk firm will be involved in at least two Broadway properties next season. One of these is the musical version of "Never on Sunday," which will be written by John Patrick of "Tea-house" fame. A second is Lionel Bart's musical, tentatively titled "Twang," based on the adven-

tures of a bumbling "Robin Hood." UA will invest substantially in these properties and will have the original cast rights.

The label has racked up an enviable record in the sound-track field, and is continuing this activity full tilt. The Beatles' track, "A Hard Day's Night," has sold just short of 2 million units; "Goldfinger" hit 600,000, and others, including

## London of Can., Mercury Deal

**CHICAGO** — As of July 1, Mercury Record Corp. and all its labels will be represented in Canada by London Records of Canada. The long-term agreement was concluded Thursday (3) here after two days of negotiations between Irving H. Steinberg, executive vice-president of Mercury, and Fraser Jamieson, managing director of London.

A Mercury spokesman said

THE FOUR TOPS, Motown Records' swinging quartet, are helping themselves to a lot of chart action with their current single release, "I Can't Help Myself." The popular group, in addition to having a Top 10 single in the Hot 100, also scored high on the Top LP chart recently with their album, "The Four Tops." (Advertisement)

## Copyr't Reform Passed in Bonn

By OMER ANDERSON

**BONN** — The West German Parliament (Bundestag) has passed a measure reforming the copyright law, making tape recorder manufacturers liable for the payment of music-taping royalties on their products and placing the German performing rights society (GEMA) under State supervision.

The law extends copyright protection from 50 to 70 years after death of the artist. It applies to music and literary works.

The bill rings down the curtain on the long battle by the German performing rights society to collect royalties for the private taping of music. It provides that tape recorder manufacturers must pay GEMA a lump-sum amount on each tape recorder sold, this amount to

## SENATE SEEN ACTING ON TAX CUT BILL—BUT FAST

**WASHINGTON**—In the wake of the smashing 401 to 6 vote on excise tax cuts in the House last week, the Senate is expected to make fast work of putting the President's excise cut program through committee action and swift vote. No changes are expected to be made in the House version which will kill federal excises on phonographs, records, radio and TV sets, musical instruments, coin-operated amusement devices and juke boxes (both manufacturers' 10 per cent excise and the \$10 per location stamp) by July 1, 1965. Tax on admissions and cabaret will go off at noon, Dec. 31, 1965, to give New Year's Eve the biggest break since before the wars and the depression put the punisher tax on entertainment.

House Ways and Means committee report on the bill so gaily and overwhelmingly passed last week, notes these expected annual revenue losses on the entertainment items: On radio, TV, phonographs and record category, \$255 million; musical instruments, \$27 million; coin operated amusement devices (the tax stays on the gambling devices), \$6 million; general admissions (including sports events, theater, concerts, movies, and race tracks) \$55 million; cabarets, \$47 million.

Floor stock refunds will be made on items in wholesale or retail dealers hands as of July 1, 1965. Musical instrument situation led to a further provision that items sold as of July 1, 1965, but returned to the dealer any purchase price refunded by July 31, 1965, can also get stock refund, tax recovery. Ways and Means report says this applies to all items: radios, TV's, phonographs, refrigerators, air-conditioners and similar appliances.

# House Copyright Group Mulls Educators' Pleas

WASHINGTON—While juke box, record industry and community antenna spokesmen line up to testify in this week's copyright revision hearing before the House Judiciary Subcommittee on Copyrights, the Subcommittee is still puzzling over last week's thumping demands by educators for free use of copyrighted musical and literary material.

Spokesmen for an Ad Hoc Copyright committee representing 34 educational associations, last week urged major changes in the 1965 copyright revision bill, including: restoration of the blanket not-for-profit exemption from performance royalty in use by teachers; a new section giving teachers specific "fair use" and copying (or recording) rights, including right to make one complete copy of a work, or multiple copies of excerpts for classroom use (in school or in educational radio and TV teaching by transmission).

Educators demand removal of limits on free use of copyrighted nondramatic music and other material in the nighttime educational radio and TV broadcasts. They want permission to continue use of "ephemeral" recordings for broadcast, indefinitely, to enable them to recover costs in "telecourses." The 1965 bill would limit the period to six months, after which ephemerals would be destroyed or go into archival use only. Further testimony on these issues was scheduled for Friday by educational TV spokesmen.

Also, the educators would have courts waive damages incurred by teachers in "innocent" infringement cases involving use of copyrighted material. Burden of proof would be in all cases on the copyright owner. Testimony also indicated educators feel music teachers should have the right to make arrangements of musical works, and make copies of their arrangements, to a "reasonable" extent. They would hold copyright duration to 28 years for a first term, and a second term of 28 years, or 48 years at most.

Dr. Harold E. Wigren, and

Washington attorney Harry N. Rosenfield, spokesmen for the educators' Ad Hoc committee, got into trouble over a "yellow sheet" memo circulated among teachers warning them that the new revised copyright law would curtail existing rights enjoyed by teachers under the present law. The single page memo was put out "before" the Copyright Office's supplementary report emerged, said Dr. Wigren.

Rep. Robert Kastenmeier (D., Wis.), acting subcommittee chairman in the absence of Rep. Edwin E. Willis (currently ill), said the memo gave a false impression. "Teachers were misled to think they could do these things now, but not under the 1965 law. This memo should say the new law is no different from the old on these uses."

The point was also brought out by Representative Tenzer (R., N. Y.). Representative Tenzer has expressed strong sympathy with the needs of teachers, scholars, researchers, et al.—but he closely questioned some of the demands and claims of educator spokesmen during the Tuesday hearing. He pointed out that the policy of Fair Use is actually affirmed for the first time in the 1965 bill, and was not even mentioned in the old law—Fair Use was built up by court decisions covering use of excerpts in reviews, teaching, etc.

Subcommittee counsel Herbert Fuchs won admission from

attorney Rosenfield that there are no "new" restrictions in the proposed revision, on teachers' rights in copying and Fair Use. But Rosenfield argued that dropping the "not for profit" exemption in the performing rights section of the old law would make teachers fearful of lawsuits, and kill creative teaching which now uses many copying and recording devices to stay current with today's development. He claimed, too, that curtailment of free use on educational TV would go contrary to the President's antipoverty program by denying free culture to the proper families.

Educators were particularly upset by guidelines put out by music publishers associations in their "Music Copyright Law Guide." Educators say this forbids any copying or recording "by any method or means or for any use or purpose, whether on records, film or tape."

Educators were cool to the idea of a clearing house for copyright use by teachers and institutions. An "ASCAP-type" clearing and licensing operation under the statute would involve too much "administrativia," said Dr. Wigren—coining a word the subcommittee immediately wanted put in public domain.

In general, educators hold that the 1909 law awards "special and primary right to such non-profit uses" for educators "by

## Col.'s Show Catalog Campaign Set to Roll

NEW YORK—The most extensive Broadway show album catalog promotion will accompany Columbia's second annual Summer Stock campaign which got under way this week. Releases will also include motion picture soundtracks and the label's Broadway reissue series.

Bruce Lundvall, merchandising manager for original cast catalog, said that the program is aimed to hit consumers during their peak leisure period. He added that more than 500 summer theaters will being Broadway shows to their communities, and that a heavy percentage of these productions are repre-

sented by Columbia's original cast albums.

The drive was initiated last summer. During June and July, 10 times as many Columbia original cast and soundtrack albums were sold as compared with the same period a year earlier, Lundvall said.

Timed for the promotion is a special Broadway programming album spanning the 58 years between "The Merry Widow" and "Do I Hear a Waltz?" The album consists of excerpts from 18 shows, commentary by Lee Jordan, critic, and interviews with Julie Andrews, Barbra Streisand, Rex Harrison, Dick Van Dyke, Robert Goulet and Richard Rodgers.

# WGOK Is Given Notice

WASHINGTON — FCC has notified WGOK, Inc., Mobile, Ala., that "possible payola practices may be going on among its disk jockeys, and management has failed to take sufficient supervisory precautions. The WGOK deejays allegedly wrote an Atlanta talent booking agent a letter "which, on its face, appears to have been effort to solicit payola from the Atlanta agent in return for the play of certain records of artists who were to perform in the Mobile area or for other broadcast publicity for such artists."

In addition to the apparent pressure instance, FCC says the station leaves its music management completely in the hands of the deejays, who may refuse to play some records, or push others. Also, lists of music played are not regularly maintained, and therefore the management can't review to determine if some records are being given more play than others.

WGOK is also being fined \$500 for failure to file time broker contracts. WGOK management has 30 days to contest the fine, and 20 days to comment on its "apparent" failure to establish appropriate internal controls to prevent "situations conducive to payola."

There is no mention in the FCC notice of any evidence of actual payments to any of the WGOK deejays in return for record play. Field investigators turned up the "apparent" payola situation at WGOK.

# NO. 1 A HABIT FOR SUPREMES

NEW YORK—The Supremes, Motown Record artists, have made it five in a row. Billboard's "Hot 100" chart this week revealed their "Back in My Arms Again" is perched in the No. 1 position—their fifth consecutive big hit.

They first landed in the top position last year with "Where Did Our Love Go" Aug. 8 and stayed there two weeks. "Baby Love" reached the top Oct. 31 for a four-week spell. "Come See About Me" actually hit the top twice—Dec. 19 and again Jan. 16 after riding the No. 2 spot for three weeks. "Stop in the Name of Love" spent two weeks in No. 1 position beginning March 20.

# Shirelles Drop Suit Against Scepter-Wand

NEW YORK—The Shirelles have withdrawn their suit against Scepter Records and Wand Management Corp. filed in Federal Court here, and Scepter-Wand has withdrawn its countersuit against the Shirelles.

According to Florence Greenberg, Scepter-Wand president, the Shirelles are now on the road on a promotion tour, and their contract with Scepter-Wand still has a year to run.

The Shirelles had filed a breach of contract suit against Scepter-Wand and had sought to void the contract, get an accounting and collect \$100,000 in damages.

Mrs. Greenberg said the suit

DELLA REESE signs an exclusive recording contract with ABC-Paramount, with the label's president, Larry Newton, pointing to the dotted line. Lee Magid, Miss Reese's manager, looks on. Miss Reese, formerly with RCA Victor, will have her first ABC-Paramount single out this week. An album is scheduled for release later this month.

# The Limelight Jazz Family Is Paying Off

HOLLYWOOD — After releasing 16 LP's in five months, Limelight Records has found that uniting all jazz artists from the Philips-Mercury family under one umbrella is paying off saleswise.

Gerry Mulligan is selling more on Limelight than he did when he was on the parent Philips label, reported Jack Tracy, Limelight's a&r director.

Other artists on the Limelight roster are also experiencing good consumer acceptance, prompting Tracy to say he felt justified in the belief that jazz sells better when separated from pop products.

Limelight's first year goal is 50 LP's, each with a distinctly unique package. This packaging combining unorthodox insert-type booklets and photos, has generated enthusiasm among record industry artists—several of whom have applied for jobs with Limelight—and jazz fans who dig arty, avant garde qualities.

Tracy's first 50 LP's will comprise several reissued Mercury jazz packages in addition to such projects as teaming Gerry Mulligan with Luiz Bonfá and other pairings if schedules and agreements can be worked out.

Tracy has just concluded talks with Orrin Keepnews—recently resigned as marketing director for Colpix — to handle some repackages of the defunct Keynote label featuring jazz of the early 1940's. Keepnews, formerly a top executive with the defunct Riverside jazz line, will handle the research and preparation in New York.

A memorial 10th anniversary tribute to the late Charlie Parker in a recent release brought the comment from Tracy that "it's a sad commentary that a lot of the younger players today are not listening more to Bird.

Instead, the young musicians are listening to players copying Parker, one of the innovators of modern jazz, Tracy feels.

# Muntz Sued by Autostereo

LOS ANGELES—Autostereo has filed suit in U. S. District Court against Earl Muntz charging trade-mark infringement and unfair competition. Plaintiff claims Muntz is advertising his product as "Muntz Autostereo" and "Muntz Stereo-Auto." A hearing has been set June 10 before Judge Harry Westover to hear arguments for a preliminary injunction to restrain Muntz's tape cartridge company from using the Autostereo trade-mark, any imitation of the name or advertising its product with any closely aligned moniker.

Complaint filed by attorney Ashley S. Orr of Kendrick, Subkow and Stolzy, asks that Muntz, whose company is Muntz Stereo-Pak, be enjoined during the pendency of the action and permanently from infringing on the trade-mark in any manner. Also asked are damages sustained by Auto-

stereo as a result of the alleged copyright infractions.

Autostereo president Richard Danielson Jr. in an accompanying affidavit claims the company has spent approximately \$100,000 a year—since acquiring the assets from Muntz Dec. 11, 1963—to develop markets to promote the product. The company was originally formed by Muntz in March 1963, with the Danielson interests buying him out nine months later. Danielson claims that Muntz gave up all his rights to Autostereo through this pact.

The term Autostereo was trade-marked March 19, 1964, according to an accompanying document. Attorney Orr contends the public connects the name with products produced by his client. He says Muntz is "trading on the plaintiff's good-will and reputation acquired over the past several years at a cost of huge sums of money in advertising."

Orr further relates that this is "not a case of innocent infringement." He says that Muntz filed the original copyright application on May 1, 1963, with the trade-mark being registered on March 19, 1964, when the company was owned by Danielson.

against Scepter-Wand was filed as a result of misinformation received by the plaintiffs, and that once the information was cleared up, both the suit and countersuit were withdrawn.

A new Shirelles' release will be made on Scepter.

# Broadcasters 'Animated' Over H-B's Cartoon Series

HOLLYWOOD — Hanna-Barbera Records' cartoon series is slowly gaining acceptance from broadcasters, a first for children's products, the company claims. Both top 40 and good music stations are using tracks from the label's first LP release, reports general manager Don Bohanan.

The reason for this breakthrough, according to Bohanan, is a result of the company's deliberate attempt to capture a contemporary teen-age sound. "With few exceptions, novelty records were not programmed in the past by top 40 and pop standard stations," Bohanan said.

Bohanan reports that on the Gene London TV show over WCAU in Philadelphia, the host uses tracks from the cartoon series while sketching H-B cartoon characters on a drawing board.

In Pasadena, KRLA program director Mel Hall said the records appealed to a broad audience and could be used by his station. KGB (San Diego) program director Les Turpin said he used tracks to spice up his

program. Equally enthusiastic were KFWB (Los Angeles) DJ Don MacKinnon and KMPC (Los Angeles) DJ Gary Owens. "It's the greatest thing since the Greer Garson Song Book," said Owens.

Bohanan is seeking ways to have entire LP's exposed on top 40 radio and is working on Sunday morning programs with local outlets.

# Nasatir: Youngest Head of A Major Record Company

MORT NASATIR

By AARON STERNFIELD

NEW YORK—Mort Nasatir became the youngest president of a major record company when he was named head of MGM-Verve Records a week ago. (The fact that Nasatir was appointed president of MGM-Verve was exclusively reported by Billboard in last week's issue.) He brings to the label a strong background in record merchandising and marketing. Nasatir comes to the label after nearly six years at the New York advertising agency of West, Weir & Bartel (formerly Donahue & Coe) where he was

## NAMES MAHER AD MANAGER

NEW YORK—Mort Nasatir's first official act since assuming the presidency of MGM Records last week was to name Jack Maher to the newly created post of advertising manager. Maher had been MGM-Verve account executive at West, Weir & Bartel. Previously he had served for four years with Billboard as a reporter and international news editor; was assistant editor of Metronome, was connected with Prestige Records, and did a stint with the publicity firm of D'Arcy Ross. He attended New York and Fordham Universities. In his new post, Maher will act as advertising-publicity co-ordinator, working with Sol Handwerker on the latter, and handle packaging, merchandising and promotion.

vice-president in charge of promotion and account executive of MGM Records.

But Nasatir's background in records goes back to 1949, when he joined Decca after graduation from Northwestern University, Columbia University Graduate School, and a stint as a copywriter for Buchanan, a Chicago advertising agency, and a sales promotion manager's job at Ronson.

He began the Buchanan job while still an undergraduate at Northwestern. The duties entailed writing copy for Chicago film exhibitors.

### Conversion Job

Nasatir's first assignment at Decca was to convert the label's catalog from 78 r.p.m. to 33 1/3 r.p.m. albums, repackaging the product and supervising all the administrative details in the process.

Within six weeks of starting the assignment, Nasatir was named advertising manager and was placed in charge of all the label's advertising and promotion activities.

Nasatir left Decca in 1960 to join Donahue & Coe as account executive of MGM Records. During his tenure at Donahue & Coe, which later became West, Weir & Bartel, Nasatir worked closely with MGM President Arnold Maxin. Nasatir feels, as does Maxin, that a top recording artist should not confine his activities to records but should be equally active in films, television and personal appearances.

### Films-Disk Relationship

Nasatir contends that many recording artists have potentials as film performers and that efforts of films and records should be co-ordinated.

While at West, Weir & Bartel Nasatir did not get involved directly with the MGM film advertising, but he did consult with MGM film executives on how best to exploit the music and how to cross promote records and film music.

During Nasatir's presidency at MGM, it's a safe bet that the emphasis on motion picture soundtracks will continue and MGM recording artists will be given the opportunity for film exposure.

### Literary Career

Nasatir's journalism degree from Northwestern has stood him in good stead during his career. He's written a book,

# Memphis Sound: A Southern View

By ELTON WHISENHUNT

MEMPHIS — With widespread talk in the industry about the "Memphis Sound," Billboard questioned four record company leaders in Memphis last week for their views on "What Is the Memphis Sound?"

Joe Cuoghi, president of Hi Records, stated:

"The Memphis sound is the feel of the musicians combined with the feel of the recording engineer. As for the musician, this feel is born with him in the South. Most musicians read music, but we do not use lead sheets with our musicians at Hi. When you use lead sheets you automatically lose the feel for the Memphis Sound.

"Very seldom do we use a musician who is not born in the South. The reason is you cannot get from a musician not born in the South that intangible feel that is in the southern musician. The Memphis Sound cannot be duplicated anywhere else in the country. It is something that cannot be taught.

"You might describe the sound as raunchy with a blues influence. It comes from a rhythmic quality."

Sam C. Philips, who dis-

covered Elvis Presley, Jerry Lee Lewis, Johnny Cash, Charlie Rich and others, said:

"Over-all, it is the feel of the musicians, something which changes from city to city. The secret is the spontaneity of the music. That's what made Elvis Presley, Johnny Cash and the Beatles.

"It's sort of like making a speech off the cuff—something the speaker feels. If he reads the speech it falls flat.

"If we ever started arranging music as they do in Hollywood or New York, we would lose spontaneity. The music here has that wonderful quality. Combined with it is an intangible feel. Our musicians here have this spontaneity, a casualness, yet an intensity of feel more than anywhere else.

"It is mainly derived from the influence of the uninhibited nature of the Negro in the South. He put into words and music the things that troubled him, the things he enjoyed, to convey not only to others but to himself. The music has a native, earthy beat."

## Mercury Names Coast Staffer

HOLLYWOOD—Mike Comb, 20, has joined Mercury Records West Coast a&r staff to handle teen-age product. He is working under Coast director Jack Tracy who says Comb is the youngest a&r man he has seen at Mercury.

Comb is filling in the void left by the departure of independent producer Nick Venet. Tracy has not been involved with the top 40 teen-age records.

Comb will be working with the following Mercury-Philips-Smash Coast acts: the Hondells, Walker Brothers, Paris Sisters (just signed), Sinners, Jerry Wallace and Timi Yuro.

Stan Kesler, vice-president of Pen Records, said:

"I think it is a strong beat with a heavy bottom—a real danceable type beat with heavy bass and drum. That's the basic thing.

"I was in Atlanta not long ago talking to a radio man who was also a sound engineer for a record company. He said the records that came out of Memphis had a bottom they couldn't seem to get. He asked me how we did it.

"I think it is partly in the musicians themselves. The Memphis musicians have a feel for rhythm and blues and rock music both and combine them with a heavy beat. The musicians have the feel for the sound and the mixing engineer does too. The result is a real strong beat and the driving sound with bottom."

### Stewart Opinion

Jim Stewart, president of Stax Records, who has produced hits with Booker T and the MGs, Carla Thomas, Rufus Thomas, William Bell, Otis Redding, the Mar-Keys, said:

"It goes back to the colored influence in the early blues and folk lore music of the South. Our music is still influenced by that.

"All our artists at Stax are Negroes. Naturally, our sound is directly oriented in that direction. The sound is hard to describe. It has a heavy back beat. We accent the beat and rhythm in our recordings. It is very dominant. New York recordings wouldn't bring out the drums or beat as we do.

"But that beat—a hard rhythm section—is an integral part of our sound. The combination of horns, instead of a smooth sound, produces a rough, growly, rasping sound, which carries into the melody. To add flavor and color there is topping with the piano and frills with the guitar or vocal group."

# MGM Unit Combines 2 Efforts

HOLLYWOOD — MGM's Music Co-ordinating Committee is a smoothly functioning body gaining exposure for record products while suggesting artists for feature films.

This body — comprised of Jesse Kaye, West Coast head of MGM Records; Bob Armbruster, general music director for the parent film company; Bill Goldin, film exploitation department, and Hy Cantor and Eddie McHarg of the Big 3 publishing wing — communicates individually and collectively with other labels to get MGM tunes recorded, works out promotions for film-record projects and suggests acts to producers to fit picture roles.

For the film "Made in Paris," currently shooting, the committee helped place Count Basie and an octet, Eddie Cano, Mongo Santamaria and Fran Jeffries in the feature.

Set for the film "I've Got Rhythm," which begins shooting soon, are Louis Armstrong, Herman's Hermits, Connie Francis and Harv Presnel, the last two MGM artists.

### Meet Once a Month

Kaye explained, the committee which meets once a month, attempts to make itself available to film producers who might not be cognizant of the

musical scene. Armbruster noted that producers are becoming increasingly aware of music exploitation to their films.

As an example, such young composers as Lalo Schifrin, Johnny Mandel, Jerry Goldsmith and veterans Kenyon Hopkins and Elmer Bernstein are all working on MGM films. These writers are adding a dash of contemporary thought to wide-screen productions.

## Bliss Opposes Exemption Plan

WASHINGTON—Sir Arthur Bliss, president of Great Britain's Performing Rights Society, has charged that the juke box exemption on performing rights fees is a "flagrant injustice."

In a letter to Rep. Emanuel Celler whose House Subcommittee is holding hearings on a bill to revise the Copyright Law of 1909, Sir Arthur charged that "in no other Western country in which the principle of copyright is accepted are juke box operators exempted from liability to pay performing fees."

In his reply to Sir Arthur, Celler said, "I do not blame you for saying that British writers are aghast at the realization that there are no reciprocal considerations."

Schifrin is working on "Cincinnati Kid," Goldsmith on "Path of Blues," Hopkins on "Mr. Budwig," Bernstein on "7 Women" and Mandel on "Sandpiper."

For the recently opened film "Yellow Rolls-Royce," the score was created by another new, fresh name, Riz Ortolani, Kaye pointed out. There used to be a hard core of film composers but this sacred environment has been breached by a score of energetic new talents.

When someone described Mandel's score for the Elizabeth Taylor - Richard Burton "Sandpiper" exposition as being jazz flavored, the composer stanchly asked that the word jazz not be mentioned. Since he wrote the score for "I Want to Live," he claims this jazz association has kept him out of films six years.

Besides films and their record spin-offs, the committee also touches on television music. The most notable success has been with the "Dr. Kildare" show from which Richard Chamberlain emerged as a record act.

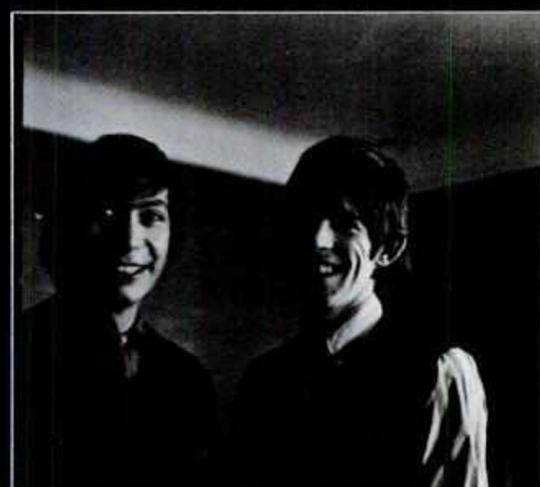

A new MGM-TV property, "The Man From U.N.C.L.E.," is due for several disk projects. The Boston Pops Orchestra will record the theme, the Gallants on Capitol have already cut the theme and RCA is known to be working on an LP of themes from the mystery program.

COLUMBIA RECORDS has announced plans to release the original cast recording of "The Decline and Fall of the Entire World as Seen Through the Eyes of Cole Porter." The recording was produced by Thomas L. Shepard. The show stars Kaye Ballard and features Harold Lang, Carmen Alvarez, William Hickey and Elmarie Wendel. A compilation of largely forgotten Porter melodies from a long list of shows, the musical is the current off-Broadway smash of the season. On left is Ken Glancy, vice-president of artists and repertoire for Columbia Records; Ben Bagley, the show's producer, middle; and John Kurland, who negotiated the contract.

# Disney Looks to New Push

By ELIOT TIEGEL

ANAHEIM, Calif. — Walt Disney Records' catalog of previous hits will gain a fresh shot in the cash register based on new TV and motion picture exposure, 180 representatives at the company's first international sales convention were told last week.

The three-day gathering began Thursday at the company's Burbank film studios and concluded here at Disneyland Saturday.

Sixty albums would gain new hit status, claimed music division president Jimmy Johnson at a Friday business meeting. His contention was based on exposure provided re-released film properties—from which the music was extracted—on television, in theaters and tied in with special seasonal promotions.

Johnson told the 26 domestic distributors and 11 representatives from the international division (eight labels, three publishers) that 40 million persons watch the Disney Sunday evening TV shows, 400 cities will

play the re-issued "Cinderella," and "Mary Poppins" is set to open in 117 new locations alone in June.

Johnson's presentation was in the form of an eight-foot-long calendar with album covers pasted in on the months they would be released. He emphasized that this forthcoming year's theme should be "Continuing Hit Catalog."

Each month's LP released will carry the potency of TV and motion picture exposure. Several feature films would become two-part TV shows, Johnson added.

A new merchandising area—little LP's with complete narration—was explained by Phil Sammeth of Disney's character merchandising department. The company is bowing eight Walt Disney Original Little LP's with complete word-for-word narration duplicating the story in an accompanying booklet. The two-song seven inchers will sell for 98 cents. Playing time is 15 minutes.

The eight 98 centers are: "Winnie the Pooh," "Mary Poppins," "Cinderella," "Peter Pan,"

"Alice in Wonderland," "Lady and the Tramp," "Mother Goose and "Bambi."

## New LP Product

New LP product was introduced by national sales manager Bob Elliot for the \$3.98 Disneyland Storyteller series, the \$3.98 Vista pop line and the \$1.98 Disneyland label.

Vince Jeffords, promotion manager for the character merchandising department, told conventioners about the complementary sideline items for the albums.

A score of corporate executives topped by Roy Disney feted the visiting distributors. A screening of TV shows for which there are catalog LP's was proffered Thursday at the Burbank studio before the contingent moved to Disneyland.

## Columbia Golf Tourney Draws 125 'Sneads'

ELMSFORD, N. Y. — Some 125 tradesters participated in Columbia Records' Second Annual Golf Classic held at the Knollwood Country Club here recently.

Music Trade Cups were won by Virgil Arnett, Billboard, low net; Endo Corsetti, D&H Distributing, Harrisburg, Pa., low gross; Don Comstock, Comstock Distributing, Atlanta, second low gross, and Jack Geldbart, L&F Distributing, Atlanta, third low gross.

In the radio-TV division, Ed Sullivan won low net; Frank Simms, disk jockey, took low gross; Carl Tillmans, CBS Television sales vice-president won second low gross, and Bill Edwards and Tiny Markel, disk jockeys, tied for third low gross.

The event was co-ordinated by Gene Weiss, Columbia national promotion director, and Sal Forlenza, Columbia national album promotion manager.

Andy Williams, tournament chairman, presented the Andy Williams Cup to Stanley Kavan, vice-president and general manager of Columbia Records Sales Corp.

## Philles OKd

HOLLYWOOD—The American Federation of Musicians has returned Philles Records to its good graces. Action came as a result of a meeting between Philles attorney Jay Cooper and local 47's board of directors. Cooper said the label paid the local \$500 owed it for two recording sessions on April 28. The union terminated its work contract with Philles after discovering two unreported sessions, including one for overdubbing.

## BB'S DODSON GETS 3 PRIZES

BLOOMFIELD, N. J. — Gerry Dodson, Billboard staff artist, took three prizes in the recent 12th Annual Outdoor Art Exhibition co-sponsored by the Bloomfield Art League and the Bloomfield Recreation Commission. It was the first time in the history of the competition that one artist took three prizes. His oil painting, "Sanctuary," was voted Best in Show, won the Purchase Award and adjudged the best work by the visiting public.

# Hurwitz Is Latest to Feel the Colpix Axe

HOLLYWOOD — Colpix-Dimension's executive team was further depleted with the departure of Ben Hurwitz, national sales manager, last week. Hurwitz's leaving came on the heel's of President Bob Yorke's resignation.

Yorke in turn had followed Orrin Keepnews' departure one week previous from the marketing director's slot. All three had been hired in New York to man the record label's executive team in Hollywood. Hurwitz said he had no immediate plans other than returning to New York. Maintaining control as the record label's acting general manager is Ward Silvester.

The Columbia Pictures record wing has also shuttered its Manhattan offices with approximately 17 persons let go, including Jack Lewis, East Coast a&r director. Hank Levine, appointed several weeks ago as West Coast a&r head, now assumes direction of all a&r.

Also remaining as of last week were Ray Lawrence, field sales manager; Bernie Freedman, production manager, and Lennie Adelman, comptroller.

Hurwitz said he had planned returning to New York to work from the company's Manhattan offices since his family is there, but sudden turn of events changed that.

Acting general manager Silvester said there were no plans to replace Hurwitz. "Ray Lawrence is handling distribution matters and I'm taking an active hand in marketing on a day by day basis," he said.

The record label is jointly owned by Columbia Pictures-Screen Gems whose president is Abe Schneider. Other corporate executives who would naturally huddle over replacing Yorke are Leo Jaffe, Columbia executive vice-president; Stan Schneider, Columbia vice-president; Jerry Hyams, Screen Gems vice-president, and Don Kirshner, president of the music division.

## H-B Promoting Cartoon Line

HOLLYWOOD — Hanna-Barbera Productions has begun merchandising its new record line into sideline comic book and coloring book material. HB Records' first release encompasses six cartoon series albums and 11 singles, all featuring the voices of HB's TV cartoon characters.

The record label reports moving 200,000 LP's to distributors since the May 10 release date.

## Drayson Named

NEW YORK—Harold Drayson has been named vice-president in charge of sales and distribution for Audio Fidelity Records, it was announced last week by Herman D. Gimbel, president. Drayson resigned his post as product manager of Mercury for the new post. Prior to Mercury, Drayson held important posts with MGM, Caedmon and Riverside.

# THE JAZZ BEAT

By DEL SHIELDS

Record companies are changing the complexion of jazz radio shows.

Some 15 years ago, when we first began our career as a jazz broadcaster, one only had to be equipped with the latest bop sides of Diz, Monk, Bird, Kowitz and Tristano to program a good show. Later, as the pendulum started to swing and the audiences developed a degree of sophistication, Kenton, Shearing and the Four Freshmen were added.

The jazz disk jockey did not need to concern himself with the top hits or the best selling jazz albums. There really weren't any to speak of.

Today, to do a jazz show, the jazz broadcaster must become as aware of leading sellers in rock 'n' roll and pop as his counterparts. This evolution in the jazz show may not have been planned by the companies who produce jazz but the jazz jockey finds himself being persuaded unconsciously by the material being released as well as by the dictates of his audience.

The voluminous amount of material in albums and singles now available to play leaves little room for the jazz jockey to become didactic in his approach or artistic in his tone—if he wants to stay on the air.

Three are very few really pure jazz shows left on radio today.

Some of the most successful shows air quasi-jazz performers, jazz influenced, and near jazz practitioners such as Nancy Wilson, Frank Sinatra, Al Hirt, Mongo Santa Maria, Olatunji, Shirley Bassey, Andy and the

Bey Sisters, Arthur Prysock, with only a sprinkling of such purists as Miles, Bird, Ellington, Mingus, Coltrane, etc.

What has happened to the pure shows? Times have changed. As record companies have forced stations to adopt a Top 40 format so are they influencing the change in the formats of jazz shows throughout America. This hidden persuasion is due to more product being available which has created myriad jazz tastes. In order for the deejay to succeed he must cater to the demands of the audience.

To assure his success he must constantly consult the charts. And in reviewing the present list of leading jazz albums on the Billboard Top 100, it proves that the jazz taste of America is one of myriad quantity. Al Hirt, Jimmy Smith, Miles Davis, Cal Tjader, Getz-Gilberto, plus Jimmy McGriff, Sounds Orchestral and Gloria Lynne is indicative of a universal taste among jazz devotees.

Record stores must stock according to the demand. The disk jockey who ignores the charts is fighting a losing battle. This does not preclude the opportunity to program for the purists. The top-selling records must play more of a part in his programming as against his personal taste.

Jazz records have a longer active selling period than rock 'n' roll or pop. With the increasing number of records being released, it has created a situation of shorter periods for air exposure. Whether this will affect the selling of the record only time will tell.

To solve the problem of more

## UA Stepping Up Pace in 2 Fields

• Continued from page 1

Gerry and the Pacemakers' "Ferry Cross the Mersey," "The Greatest Story Ever Told," "From Russia With Love," have achieved 600,000 each.

### New Soundtracks

New and upcoming soundtracks include this month's "What's New Pussy Cat," with music by Burt Bacharach and including sides by Tom Jones, Manfred Mann and Dionne Warwick. Tradesters expect this to be a big one. Soundtracks scheduled for July release include "Glory Guys" by Riz Ortolani and "The Knack," voted the best film at the Cannes Festival, with music by John Barry of "Goldfinger" fame. Another June soundtrack release is "Hallelujah Trail," by Elmer Bernstein, from the film starring Burt Lancaster, opening at the Capitol. Another new one is the track from the Bob Hope starrer, "I'll Take Sweden." In October UA will release the track from "Thunderball," again with music by John Barry. In 1966 Elmer Bernstein's soundtrack from "Hawaii," based on the James Michener film, will be released. It will contain at least one song by Julie Andrews.

Also scheduled are the soundtracks from "A Funny Thing Happened on the Way to the Forum," "How to Succeed in Business Without Really Trying" and "In Her Majesty's Secret Service."

Reissues of the "Dr. No" and "From Russia With Love" films, as a double bill, have resulted in additional soundtrack sales.

All in all, UA figures it has derived tremendous benefits from its soundtrack operation, not only as to tangible sales of albums and singles from the albums (such as the Shirley Bassey "Goldfinger" single), but also from the promotional aspect. This latter is a two-way operation, with the films aiding the record operation and vice versa. UA feels the James Bond stories and other properties have proved this. In view of the success of the James Bond things, it is likely that the film company will reissue "Topkapi" and "Never on Sunday," with the likelihood of additional disk sales.

### Has Biggest Year

UA had its biggest year in 1964. The top brass, including UA president David Picker, executive vice-president Mike Stewart and vice-president and general manager Si Mael are plotting the disk firm's expansion with a view toward hitting an all-time peak in 1965. In addition to the Broadway and soundtrack areas, much is expected from the company's overseas operation. The UA label is now in every major market around the world—some 50 countries in all. In

distinguishing nonprofit from commercial uses of copyrighted material." They want the revision to do the same—and more.

But Subcommittee members had some pointed questions on why educational institutions were averse to the mere thought of making any payment to copyright owners under any circumstances, or accepting anything at all in the way of clearance requirements. Dr. Wigren said he hoped educators would not be the "villains," and offered to talk things over with publishers and authors to reach an understanding, for the benefit of the general public.

conjunction with this spread, UA is concluding deals with numerous foreign producers who will cut both singles and albums for distribution and sale both in Europe and in the United States; in other words, the total operation reflects the one-world market concept. In the last year, it may be noted, UA's ties with England were tightened, Manfred Mann was developed into hit status here; ditto Shirley Bassey, and British a&r man George Martin achieved artist stature here.

### Artists Re-Signed

On the domestic scene, UA has re-signed such key artists as Ferrante & Teicher, Al Caiola, Jay and the Americans. The last-named is currently red hot, whereas Ferrante & Teicher can be conservatively regarded as "fantastic." They cut some 20 blockbuster packages. Caiola is very steady as a catalog seller. Additions to the roster

include Patti Duke, ABC-TV star and winner of Academy and Toni awards; Jerry Herman, "Hello, Dolly!" writer who has been signed as a pianist, and such other notables as Lena Horne and Jimmy Rosselli.

UA in the past year has also built its Latin American catalog, and has signed La Playa Orchestra; Perez Prado, Ray Barretto, Machito and Chucho Avallanet (the Paul Anka of Latin America).

The label is also strengthening its operation in the country field, with its Nashville operation headed by Kelso Herston of Nashville. Herston came up with the country hit by Del Reeves, "The Girl on the Billboard," and has also set other talent such as Johnny Darrell and Jim Foster. As a result of the "Girl on the Billboard" hit, UA's Nashville office has been flooded with activity by writers and artists.

## Vinton's Voice Smooth as 'Blue Velvet' at the Copa

NEW YORK—His voice was so smooth his entire show sounded as great as a recording. But Epic's Bobby Vinton was live and immediate and exciting in his Copacabana debut here Thursday (3). He sings as if he means it. His current hit, "L-O-N-E-L-Y," a song which

he said he wrote while in the Army, was his most winning number.

On "Show Me" and "Mama Don't Allow" he proved he was even more than a singer—an entertainer. But it was numbers such as "More," "Red Roses for a Blue Lady," "As Long as She Needs Me" and "Blue Velvet" that captured the audience and kept them spellbound throughout the evening.

Vinton, a consistent chart performer, paced his numbers nicely, relying on Top 40 Easy Listening type songs. The Copa audience was charmed.

just above the din of their own playing. Their new LP has four Dylan tunes and are by Pete Seeger. To some tradesters the blending of folk lyrics with a rock beat is a natural extension for folk music. To the Byrds it's their hoped-for key to success. They have already played dates with the British Rolling Stones, and a tie-in with the Beatles on their forthcoming U. S. tour has been mentioned. TV appearances have already begun.

If the folk-rock movement takes hold, a song's lyrical content could become as respected as the dominating beat. With the Beatles in the main stream as one rock 'n' roll school, the Rolling Stones and Righteous Brothers dominating white r&b, the Byrds are in flight toward a new plateau combining the imagery of folk lyrics with a granitelike beat.

# Dorsey Band, Sinatra Jr. Headline Disneyland Bill

ANAHEIM, Calif. — The Tommy Dorsey Orchestra with Frank Sinatra Jr., the Pied Pipers and Helen Forrest headlined Disneyland's after-dark entertainment Memorial Day weekend.

Disneyland opened May 26 and will begin its summer schedule June 19, when the park will remain open 9 a.m. until midnight five days a week and until 1 a.m. Friday and Saturday.

First band after the Dorsey

aggregation is Si Zentner, from June 19-26. The schedule then lists Stan Kenton June 29-July 4, Wayne King July 9-17, Harry James July 23-31, Duke Ellington Aug. 6-14, Woody Herman Aug. 20-28, and Tex Beneke and the Modernaires Sept. 3-11.

Monday evenings the park will spotlight folk singers, with a special section arranged for teen-agers Tuesdays. This new area is the "Disneyland Humdinger" to be staged in the Fantasyland Theater with teen-age

disk artists and the Humdinger dancers as regulars of a variety show.

Disneyland's entertainment director Tommy Walker is in charge of all live variety programming. The park will also present the Elliot Brothers Band, the Clara Ward Singers, the Yachtsmen Quartet, Royal Tahitians, Young Men From New Orleans and the Firehouse Five Plus Two. The session will close with a Dixieland special featuring Louis Armstrong. Last year's first big-band scheduling was a resounding success. Both Walker and Walt Disney are big-band fans and went the full route in booking Count Basie, Duke Ellington, Benny Goodman, and Wayne King. The huge park has become one of the top-paying Southern California locations for artists.

# Gary Has Patrons in Palm of His Hands

NEW YORK — The Plaza Hotel's Persian Room proved a perfect showcase for John Gary Wednesday night (2), as the RCA Victor artist charmed the

patrons with song and conversation.

Playing before a full house opening night, Gary drew heavily from show tune material like "Gloccamora" from "Finian's Rainbow," "Come to Me" from "Brigadoon," and the title song from "Sound of Music," and "I'll Never Walk Alone" from "Carousel."

His fine tenor voice showed to greatest advantage, however, in "Danny Boy," before a completely enthralled audience. The number was introduced by the artist with a narrative delivered with charm and feeling. Gary kept in constant communication with his audience, explaining many of the selections with wit and urbanity. His conversation defies the showbiz stereotype. He's articulate and precise and he talks to the patrons without patronizing them or without

being patronized.

He opened with "More," following up the ballad with "Live Young" and "Tender is the Night." Turning to the guitar he accompanied himself in "Unchained" and "The Possum Song," a folk tune he had written.

Gary displayed his talents as a mimic in "O Sole Mio," singing in the manner of a Neapolitan opera artist, in the Tony Martin style, and as Elvis Presley would perform the number. His own guitar accompaniment and appropriate remarks gave dimension to the performance.

Gary sang to several blushing ladies at ringside tables and closed with a round of handshaking with their escorts.

# Wm. Morris Opens Office In London

NEW YORK—The 67-year-old William Morris Agency here has opened a London office, according to an announcement Wednesday (2) by President Abe Lastfogel. John C. Mather, head of the agency's European operations, was named managing director of the London office.

The London office was established because of the constant growth of the agency's international operations in all facets of show business, Lastfogel said. The agency will continue its association with the Foster Agency, Ltd., which has represented Wm. Morris talent in England for more than 50 years.

The agency opened offices in Rome, Paris and Madrid in 1961. Another office was opened last year in Munich. New executives in the London operation are John Findlay, Richard Eastham, David Booth and Sally Shuter.

# Garland in Cincy Fadeout

CINCINNATI—Cincy saw a musical version of the recent Clay-Liston fiasco when Judy Garland, in for a one-nighter at Cincinnati Gardens Saturday (29), failed to answer the bell for the second round, alienating some 3,000 payees who laid it on the line at the rate of \$3.75 to \$7.50 top, and leaving them hotter than a cowboy's six-shooter.

Miss Garland, in the first half of her concert, did six songs in a 20-minute period. A 10-minute intermission was stretched to nearly an hour, after which Miss Garland returned to the stage, supported by two local physicians who announced that she had a virus and a temperature and would be unable to continue. A third doctor, who flew in from New York, concurred. The announcement was met with a minimum of boing but nearly 1,000 patrons approached the box office, demanding a refund. Police kept ticket-holders from Miss Garland's dressing room and later escorted her and her entourage from the building.

No refund was made to ticket-holders, but Dino J. Santangelo, producer of the show and front man for several other backers, stated that Miss Garland might return at a later date, at which time holders of ticket stubs would be admitted free. In view of the poor house on this date, it is unlikely that Miss Garland will return—at least not in the near future.

Miss Garland, who was in on this date at a guarantee of \$20,000, was paid off an hour before show time. The show grossed in the neighborhood of \$20,000, leaving the promoters holding the bag for around \$7,000. All in all, it was a winking of a night, with many of the disgruntled patrons hanging around the premises until long after midnight.

Miss Garland left here Sunday (30) for Los Angeles where it was reported she would enter a hospital. She is slated to open at the Thunderbird, Las Vegas, June 15 for a two-week stand.

# Hopkins, Rising Sons Headline L.A. Folk Bill

LOS ANGELES—An example of one of the trails on which folk music is traveling was offered at the Ash Grove in the pairing of Texas blues singer Sam (Lightnin') Hopkins and the Rising Sons, a quintet combining blues lyrics with a rock beat.

Headliner Hopkins intrigued a hushed audience Wednesday (26) with humorous monologs. His flashy finger work on electric guitar was highlighted by sudden manipulations on the instrument's neck, creating jarring

chords to accent passages.

Hopkins, enjoying a resurgence of popularity, sings early Southern blues. He emits growls, moans, and slurs, typical of the rural blues troubadour.

The Rising Sons also feature lyrics of the rural South, but with amplified guitars and a heavy drum beat. Taj Mahal is the group's strength, possessing a Ray Charles soulful quality. He plays harmonica and piano and shouts with the best of the established belters.

## Bonn OK's Copyright Reform

• Continued from page 1

cover the music-taping royalty for the life of the recorder. The amount may not exceed 5 per

cent of the purchase price of the recorder. Dictation machines are exempted, as is recording tape. GEMA, however, regards the tape recorder royalty provision

as a pyrrhic victory in the light of the paragraph in the copyright reform bill putting the performing rights society under State supervision.

Heretofore, GEMA has enjoyed a free-wheeling status in which it "co-operated" with the Ministry of Justice but enjoyed unique autonomy. Its legal status has been roughly that of a golf club or private social organization — an "eingetragener Verein" or "registered association."

The copyright reform makes GEMA, in effect, a public corporation with duties and responsibilities as well as rights and privileges. It gives state authorities the right to regulate royalty payments, and it requires GEMA to deal with any individual or organization.

GEMA must publish all royalty tariffs, and it must make available all copyrights under its control to any person or organization upon request.

Specifically, the new law makes the functioning of GEMA dependent on state permission.

### GEMA Fought Bill

GEMA fought the bill tooth and nail but was unable to head off its adoption. The measure raises the likelihood that the government will appoint an arbitration panel to hear disputes between GEMA and its clients.

Phonograph operators in particular long have charged that GEMA abused its "monopolistic" position.

GEMA takes very little satisfaction, furthermore, in the tape recorder music-taping royalty provision of the bill, which while requiring manufacturers to make payment, nevertheless, specifically exempts private recorder owners from operation of the copyright law on music taping.

RECORD EXECUTIVES attending the council meeting of the International Federation of the Phonographic Industry in Stockholm recently included, from left, C. B. Dawson of EMI, England; J. ## Ellertsen to Mark 1st Year

OSLO — Norway's youngest record company and publishing firm, Jorg-Fr. Ellertsen A-S, celebrated its first anniversary this month.

During the first year of its existence, the Ellertsen firm has produced and issued 48 single records, eight EP's and four 12" LP's. This doubled what was planned. It is the largest production any Norwegian disk company has presented during that length of time, Ellertsen says.

The company has contracts with 40 Norwegian, one American and one Swedish artist and issues most of their records on the Troll label. Some religious records are presented on the Kristine Toner label, and the disk company has the Norwegian representation of the U. S. label Crescendo. Troll label's newest artists are the Mocking Birds, with Rigmor Waler, female vocalist.

Jorg-Fr. Ellertsen is the head of the firm, with Ivar Thorsteinson a&r man.

## U.K. Disk Sales Post A Smaller Decline

LONDON — British record sales fell again in March, giving a clear but gloomy picture for the first quarter of the year. The total number of records manufactured in January, February and March was 23.5 million, compared with 27.1 million in the first quarter of 1964. Due to the rising LP market, the value of sales showed a far smaller drop. They were worth \$16.4 million as against \$16.8 million in the equivalent period last year.

Although lower productivity in February did not prevent an increase of 3 per cent in value over the previous February, the picture was different in March when the value of sales was actually 4 per cent lower than in March 1964.

It is of some consolation to the manufacturers that the entire March drop was in home sales, down by 5 per cent. Export sales were 5 per cent up for the month and exports for the whole quarter were worth \$2.4 million, an increase of \$268,000.

Analyzing the album market, 7.4 million LP's were manufactured in this year's first quarter, an increase of 600,000 over last year's total at the same stage.

Singles production was down from 20.3 million to 16.1 million.

But Liberty chief Al Bennett was right when he said in London recently that not too much importance should be attached to comparisons with 1964 figures, for that year was indeed a freak one for the industry. This is clear when one considers that the 1965 first quarter sales, which seem to have created some despondency, are nevertheless worth \$3.6 million more than in the first quarter of 1963.

## Col. of Can. Hikes LP Sales 30%

TORONTO—Columbia Records of Canada tallied a 30 per cent increase in LP sales in the first four months of 1965, over the same period last year, reports Fred Wilmot, vice-president and director of sales. Although excellent product and a thriving economy have much to do with it, Wilmot says, he feels the foremost reason for the healthy increase is that the Beatles have now settled into a position of reasonable proportion in the industry and are no longer a phenomenon eclipsing all other disk product.

Analysis of the sales figures shows that the increase is spread over the entire catalog.

The company's singles sales have not enjoyed the same upswing in the first quarter, Wilmot says, but prospects look bright with two singles, "Mr. Tambourine Man," by the Byrds and "Hush, Hush, Sweet Charlotte," by Patti Page, moving into the top 10 in Canada this week.

## BARCLAY CO. TOPS PIC HOSTS WITH THE MOST

CANNES—Disques Barclay, a recording company whose interest in films is in the issuance of soundtrack records, threw the biggest party of the 18th International Film Festival at the Club de Valbonne here.

The midnight-7 a.m. event to which 1,000 were invited and 2,000 attended was hosted by Eddie Barclay, who introduced his various recording artists and a new Greek dance, "The Sirikit."

Club de Valbonne operates as a huge discotheque with indoor and outdoor facilities, as well as a swimming pool and fountains. The musical program included the entire repertoire of the Barclay catalog in addition to live entertainment. Such international film stars attended as Carroll Baker, Rex Harrison, Olivia De Havilland, Virna Lisi and other performers from the 32 countries participating in the festival.

## Beatles British Bolsters

LONDON — The British Broadcasting Corp. will use recorded Beatles programs in a new campaign to boost exports. The group frequently records shows for the BBC and excerpts from these will be used to launch a BBC overseas services program designed to promote the achievements of British industry.

The programs will go out in 41 languages, and the campaign, which has the backing of the Board of Trade, the Federation of British Industries and the National Association of British Manufacturers, is expected to

result in substantial export orders.

The BBC has said that it is attempting to present a picture of the new Britain as distinct from the illusion of the Beef-eaters and the Tower of London.

E. Tangye Lean, director of the BBC's External Broadcasting, thought of the idea. The BBC does not charge the industry for publicizing its goods. It regards the task as part of its duty as a public servant.

Lean has said that he regards the Beatles as making much of the world Britain-conscious.

**Burt Bacharach** paid a quick return here last week to make several TV and radio appearances in connection with his major hit "Trains and Boats and Planes" on Decca which has been defeating the EMI cover version by **Billy J. Kramer** and another by **Anita Harris** on Pye. . . . **Bob Dylan** had to cancel the filming of two BBC-TV shows when he was taken ill after returning to London from Portugal where he contracted a virus infection. Dylan's illness became sufficiently acute for his manager **Albert Grossman** to order his transfer from the Savoy hotel to a London hospital. But he was released three days later and hoped to film the TVers before returning to New York. . . . Visitors include **David Hubert** of Horizon Records/Davon Music of Los Angeles who recorded an LP at EMI's studios, and **Bill Morris** managing director of EMI's Brazilian company. . . . Independent producer **Andrew Oldham** is negotiating with **Jimmy Bowen** to record **Nancy Sinatra** when he returns to the U. S. in July. He waxed **Peter James** for Reprise during his recent stay in Los Angeles. . . . EMI, which has exclusive rights to the **Seekers'** independently produced recordings, has bought the material waxed by the group in Australia before they turned professional, for release in the U. S. and other territories. Decca has these recordings for Britain and has already released a

single, "Chilly Winds" and an album.

During her mainly pleasure stay, **Joan Baez** led a march through central London demonstrating against American policy in Vietnam. She and **Pye's Donovan** then sang at a rally in Trafalgar Square. . . . Visiting **Gene Barry** discovered a young American singer living in Britain and introduced him to **Pye**. As a result a single produced by the singer (**Kenny Roberts**) "Say Do You Mean It" is being released on **Pye**. . . . There is going to be a chart battle between **Bob Dylan** and **Solomon Burke**; Burke is due here next week to promote his new Decca release "Maggie's Farm," a Dylan composition, but CBS has rushed out **Bob's** version as a single to compete with it. The latter is a track from Dylan's current hottest selling album here, "Bringing It All Back Home." . . . There is speculation over whether **Frank Sinatra** may be in London to attend the British premiere of his new film "Von Ryan's Express" at the Leicester Square Odeon July 1.

musician **Boris Vian**, Polydor has put out EP's of **Pierre Brasseur** reading Vian poems, and **Magali Noel** and **Serge Reggiani** singing songs by Vian. . . . Philips has put out two EP's of Sirtaki music—by **Georgaki Petsilas** (husband and accompanist of **Nana Mouskouri**) and by the **Bouzouka Ensemble**. **Barclay** and **Riviera** are also putting out Sirtaki records, which will be promoted throughout Europe. Disk Boss **Eddie Barclay** launched the dance at a \$6,000 shindig he staged during the Cannes Film Festival.

The "will he, won't he?" argument about France's top pop star **Johnny Hallyday**, currently serving in the French Army in Germany, continues. Will he have to serve his full term—until Aug. 8—or will he be released earlier? The French Army Ministry says he will not be discharged until Aug. 8; his manager **Johnny Stark**, is reported to have signed a contract for Hallyday to appear at Biarritz Casino July 11. What is certain is that Hallyday will appear at the Cannes Palm Beach Casino in August and will play a season at the Paris Olympia Theater in November. . . . Threatened by the virtual disappearance of music halls, the variety theaters of Paris have been saved by singers. Singing stars like **Charles Aznavour**, **Enrico Macias**, **Jacques Brel**, **Petula Clark**, **Eddy Mitchell**, **Dalida** and **Lenny Escudero** have been pulling them in. The Olympia, **Pacra** and **Bobino** theaters have been playing to an average 80 per cent attendance since featuring recitals by big-name singers. # Cincy Coney Country Fest July 23-25

CINCINNATI—Coney Island here, long regarded as one of the nation's foremost amusement parks, in a tie-in with WCNW, all-country music station at Hamilton-Fairfield, Ohio, will present a country music festival at the park's Moonlite Gardens July 23-25. There will be single performances the first two days, with a matinee and night show skedded for the final day.

Booked for July 23 are Flatt and Scruggs, Johnny Cash, Loretta Lynn and Johnny Sea. On the July 24 bill will be Marty Robbins, Stonewall Jackson, Marion Worth and Archie Campbell. Appearing July 25 will be Porter Wagoner, Billy Edd Wheeler and Billy Walker.

Station WCNW will air the proceedings live from Coney Island. Tickets for the series will be \$5 if purchased in advance.

Ralph G. Wachs, Coney president and general manager, said the park is going into the festival idea for the first time because of the rising popularity of country music in this sector.

## KHAP Goes C&W 'Round the Clock

AZTEC, N. M. — Station KHAP here has expanded its c&w programming from 18 to 24 hours per day, according to T. A. Moyer, president of San Juan Broadcasting, Inc.

Moyer said KHAP is now the only 24-hour c&w outlet between Albuquerque, N. M.; Salt Lake City and Denver. The station serves a four-State area.

Moyer stated that the station needs to expand its record library and called on distributors, labels and artists for aid in promoting c&w music.

Van's biggest waxing to date was "I'll Cross That Bridge," which received considerable recognition nationally. The Van band has been featured in the past at such prominent c&w music havens as the Golden Nugget, Las Vegas; the Caravan East, Albuquerque, N. M., and the Buena Vista Hotel, Safford, Ariz.

# ALBUM REVIEWS (continued)

**SOUNDTRACK SPOTLIGHT**  
**THE AMOROUS ADVENTURES OF MOLL FLANDERS**  
 Soundtrack. RCA Victor LOC 1113 (M); LSO 1113 (S)

Academy award composer John Addison, of "Tom Jones" fame, has scored an equally imaginative, melodious piece of music for this, the filmed female answer to "Tom Jones." Regardless of the reviews for the Kim Novak starrer, the musical compositions stand on their own and should do a great deal to support the box office.

**COUNTRY SPOTLIGHT**  
**HERE COMES MY BABY**  
 Dottie West. RCA Victor LSP 3368 (S); LPM 3368 (M)

This is a beautifully produced package, with the enchantress' voice showcased by tasteful instrumental and choral arrangements. This album debut leads off with Dottie's big hit, "Here Comes My Baby," and contains a number of fine weepers such as the bluesy "Night Life" and the plaintive "No One Will Ever Know."

**SOUNDTRACK SPOTLIGHT**  
**SWINGERS' PARADISE**  
 Soundtrack. Epic LN 24145 (M); BN 24145 (S)

From the forthcoming film soundtrack comes a variety of musical compositions well performed by Richard, British singing star, strongly supported by the Michael Sammes Singers, the Norrie Paramor Strings and Stanley Black's orchestra. The music runs from ballads to rockers and bright dance numbers all in sequence of the film's content. Standouts are the ballads "In the Stars," "Do You Remember" and the vaudeville-oriented "Home."

**COUNTRY SPOTLIGHT**  
**WESTERN STRINGS**  
 Ray Price's Cherokee Cowboys. Columbia CL 2339 (M); CS 9139 (S)

A fine package, containing Price's most requested dance numbers. The tempos are varied and the rhythms are toe-tickling. Included are "Devil's Dream," "Spanish Two Step," "Li'l Liza Jane" and Price's great hit, "Crazy Arms" (the last named one of the vocal sides). Must merchandise for c&w outlets.

**CLASSICAL SPOTLIGHT**  
**BEETHOVEN PIANO SONATAS**  
 Sviatoslav Richter. Philips PHM 500-077 (M); PHS 900-077 (S)

Another superb performance is given here by this great artist. His extraordinary hands play these two works with a freshness and sensitivity that is simply marvelous. Beethoven described both sonatas as a dialogue. The pianist's interpretation makes the dialogue crisp and sharp.

**COUNTRY SPOTLIGHT**  
**MISTER SINCERITY—A TRIBUTE TO ERNEST TUBB**  
 George Hamilton IV. RCA Victor LSP 3371 (S); LPM 3371 (M)

In this tribute to Tubb, George Hamilton IV sings songs which are associated with the "Daddy of them all." Indeed, many of the tunes were authored or co-authored by Tubb, such as "Walking the Floor Over You," "Soldier's Last Letter," "You Nearly Lose Your Mind." The sales power of the artist, plus the choice of material made famous by Tubb, should move plenty of albums.

**JAZZ SPOTLIGHT**  
**CHARLIE PARKER 10TH MEMORIAL CONCERT**  
 Various Artists. Limelight LS 86017 (S)

Great names, imaginative jazz and beautiful packaging. Gillespie, Lee Konitz, Roy Eldridge, Coleman Hawkins, etc., plus that "live" quality at Carnegie Hall. Modern jazz of the highest order by the men who helped nurse it through its growing pains.

**JAZZ SPOTLIGHT**  
**MORNING MIST**  
 Chuck Wayne. Prestige PR 7367 (M)

A brilliant jazz guitarist, Wayne and his drummer and bassist form a simpatico group of highly talented musicians. Chuck Wayne's style is smooth and lyrical with a surging pulse beneath it.

**JAZZ SPOTLIGHT**  
**BUD SHANK & HIS BRAZILIAN FRIENDS**  
 Pacific Jazz 89 (S)

In the best traditions of bossa nova and modern jazz, Bud Shank (alto sax) and Joao Donata (piano) combine with a superb rhythm section to produce a satin-smooth album. These men are tops and their playing is first rate. Because of the soft, easy quality here, this album has appeal for the tastes of a wide range of buyers.

## SPECIAL MERIT PICKS

Special Merit Picks are new releases of outstanding merit which deserve exposure and which could have commercial success within their respective categories of music.

### JAZZ SPECIAL MERIT

**INEFFABLE**  
 Friedrich Gulda. Columbia CL 2346 (M); CS 9146 (S)

Friedrich Gulda demonstrates his considerable talents as a jazz pianist in real cool numbers like "Plant Some Flowers" and "Riverbed," then shows that he can take standards like "I'll Remember April" and "I Only Have Eyes for You" and give them unique jazz treatments. Bob Cranshaw on bass and Albert Heath on drums give some fine backing.

### JAZZ SPECIAL MERIT

**MINGUS REVISITED**  
 Charlie Mingus. Limelight LS 86015 (S)  
 This reissue of a 1960 date for Mercury is beautifully packaged and engineered. Mingus

originals except for two cuts of Ellingtonia . . . one Duke tune from channel 1—another from channel 2 . . . the chord structures don't match but it works. Every jazz fan should have this album.

### JAZZ SPECIAL MERIT

**HAROLD BETTERS MEETS SLIDE HAMPTON**  
 Gateway GLP 7009

An exciting album. Two trombones and rhythm make an interesting combination and the sound is big and joyous. The guys are having fun and they want the world to know it, via this walkin' session.

# How much could you possibly make discounting a \$3.98 record to \$2.00?

If you could sell a \$3.98 record for \$3.98 (Who can these days?), you'd make a nice profit.

If you sell it for the usual discount, you make peanuts.

And, if you tried to sell it for \$2.00, you'd be a loser.

But, what if you could get records that your customers would see as \$3.98 values, that would cost you \$1.23, and that you could sell for \$2.00. Then, you'd really be in business.

We have the records that will put you in business.

They're called Pickwick/33's. Pickwick/33's are a different kind of \$2.00 record.

At \$2.00 it's like selling a pre-discounted \$3.98 record, which means you have more than a fighting chance to make a decent profit.

Sure, we have to prove that Pickwick/33 is really a \$3.98 value—and we can do it.

We have the names that are selling on \$3.98 records. Names like Jack Jones, Sammy Davis, Jr., Ferrante and Teicher, Billy May, Jimmy Smith, Pete Fountain, Nelson Riddle, Johnny Rivers, Della Reese; country and

western stars like Johnny Cash, Patsy Cline, Johnny Horton, Faron Young; and classical

front-rankers like Leinsdorf and Steinberg, Milstein, Firkusny; plus the exciting Parris Mitchell strings and voices.

Our sound and packaging are worthy of the performers. We use the best quality pure vinyl pressings. And our jackets are just like the ones on \$3.98 records. Maybe a little better.

By the way, our Pickwick/33 classical line is priced at \$2.50. At that price you can still make more money than you do discounting \$4.98 classicals.

Get a taste of what it's like selling records at a real profit.

You'll enjoy it.

Call or write. Pickwick International, Pickwick Building, Long Island City, N.Y. 11101. Code 212-EM1-8811.

## New Marketing Concepts Urged by Merc-Philips

By PAUL ACKERMAN

NEW YORK—"There is no lessening of demand for classical music, but we do need new and constructive merchandising techniques and approaches to the consumer."

This is the view of Harold Lawrence, director, classical division, Mercury and Philips. Lawrence added that many troubles of the classical segment of the record business can be remedied by a careful study of the needs of classical buyers and a responsiveness to trends and tastes.

By way of emphasizing the essential solidity of the classical market, Lawrence noted that America is a most musical nation; that quite a few symphony orchestras give their personnel full employment, including the New York, Boston, Angeles, Cincinnati and Chicago orchestras. He also pointed out that young people at the college level are exploring the more unusual and lesser known areas of classical music, and are excited by such programs as harpsichord concerts, cello recitals,

chamber music of all kinds, among others. All this, Lawrence points out, is in addition to a continuing interest in the great standard repertoire.

### Heightened Competition

The interest in—and even resurgence of—classical music is also illustrated by the heightened competition among labels. "In the old days a buyer had a choice between RCA Victor and Columbia. . . . Today his choice is very wide indeed and includes considerable budget merchandise such as Wing, Turnover, Nonesuch and Everyman's. These lines are making an impact, Lawrence indicated, adding that buyers like the idea of low-cost product but insist

## MIRELLA FRENI SET FOR MET

upon good-looking and tasteful packaging, including four-color covers.

Lawrence sees no harm in the fact that a great quantity of classical product is being produced. "At least you get people started on it, and as they become more educated they become more discriminating. . . . and finally the good performances win out."

He pointed out that "Parsifal," the five-record set which was recorded at the Bayreuth Festival in the Opera House Richard Wagner built, has already sold more than 6,000 packages. This is the equivalent of 30,000 disks in the brief sales period of two months. This set, by the way, is the only stereo version of "Parsifal," and its sales figures is another indication of the fact that the public really appreciates and is aware of quality, Lawrence feels.

### Personal Appearances

Lawrence has done considerable experimenting with the idea of selling records at the scene of the artists' personal appearances. He has had gratifying sales and concert tie-ins built around the appearance of the Vienna Choir Boys, the De Pauw Chorus and the Romeros. "Sometimes we arrange for the disks to be available in the lobbies of concert halls; we also check to see that local dealers have product available.

There are varied ramifications to the concert-sale tie-in arrangements. For instance, at a concert by the Romeros, Lawrence arranged for albums be autographed and sold. This pays off not only in sales but also in artist relations. "It makes the artist feel happy to see records in the hands of the audience."

Lawrence plans to accelerate this type of tie-in activity for Mercury and Philips classical artists.

In mid-July Lawrence will travel overseas and do considerable recording harpsichordist Rafael Puyana, Frederic Fennell and the London Symphony. Lawrence will also do another Bayreuth Festival package, "Tannhauser."

The youths will perform under the direction of Howard Mitchell, National Symphony of Washington; Szymon Goldberg, Netherlands Chamber Orchestra of Amsterdam; Donald Johanos, Dallas Symphony Orchestra, and Mishel Piasro, Longine Symphonette.

## Schirmer, Music Publisher, Dies

PALM BEACH, Fla. — Gustave Schirmer, former president of G. Schirmer, Inc., music publishing firm which published Gian-Carlo Menotti, Leonard Bernstein, Samuel Barber and William Schuman, died at his winter home here Friday (28). He was 74.

Schirmer was president of the Boston Music Company and had been president of the Willis Music Co., Cincinnati.

He headed the publishing firm, founded by his grandfather, from 1944 to 1957. Schirmer was a director of ASCAP and had been a vice-president.

## Perils of Pop Programming Cited by Storer Radio Executive

By CLAUDE HALL

CHICAGO—There are several traps or pitfalls program directors have to be careful to avoid in programming a popular music station, according to Grady Edney, vice-president in charge of radio for Storer Broadcasting Co., Miami Beach, Fla. Speaking before a radio program clinic here sponsored by the National Association of Broadcasters, Edney admitted that sometimes program directors have to "program by the seat of your pants."

But one of the things program directors watch is stopping play of a record before the audience is ready. He pointed out that no listener ever hears the station "as much as you do. And what's saturation to you may not be to your audience."

Another pitfall, he told the May 27-28 meeting, is disk jockey fatigue. "They will be the first to tire of a record. After a disk jockey tires of a record, he may put it on the air with less than enthusiasm or he may lay off the record entirely."

The way to solve this, he said, is to maintain a check list so that management will have an hour-by-hour control account of what is being played.

Another danger, Edney said, is the You're-Not-With-It-Baby syndrome. This is often created by promotion men. Record promotion men are, in the main, highly skilled, intelligent people, he said. "The program director who doesn't see them is making a mistake." However, "no promotion man worth his salt has interest in a record that has already made the top 50 on the chart. . . . he thinks of that new side" and will use "persuasive wiles" regarding the new release. Therefore, expo-

sure to promotion men should be in moderation, he said.

Another danger he referred to is "chicken rock." Sometimes a non-management owner or advertiser will want a station to mix an occasional middle-of-the-road number in with the station's rock and roll programming. The idea is that this type of mixture will make the station "acceptable" to both teenagers and adults. This type of "chicken rock" format, he said, will please everybody but the audience. Public tastes cannot be dictated.

Rock and roll music has been sneered at for some time, he said, but it continues to grow. "Pop music stations are in the business of playing popular

music. If the station doesn't program it, the audience will go to a station that does."

He also expressed a warning to station executives regarding hiring of air personalities. "If all disk jockeys sound alike to you, I suggest you let somebody else do the hiring. Modern music fans know the difference between good and bad disk jockeys, he said and added that good men are hard to find. Disk jockeys should also be a part of planning in music programming and help in promotions, he said.

The two-day Chicago clinic is the fourth in a series of six. Others are slated June 7-8 in Denver, and June 10-11 in Los Angeles.

LINDA SCOTT, Kapp recording artist who has been a regular on CBS-Radio's "Arthur Godfrey Time," gets a good-by kiss from Godfrey. She begins a Dick Clark TV series, "Where the Action Is," June 28 over ABC network. The five-a-week music-dance-formatted show is scheduled for 13 weeks. She will be a regular performer.

## Radio Reaches 90 to 96%: Stephenson

PORTLAND, Ore. — Radio now reaches between 90 to 96 per cent of all Americans, according to Marion Stephenson, vice-president of the National Broadcasting Corp.'s radio network division. In a speech to the Oregon Advertising Club here Wednesday (26) Miss Stephenson said, "There are more operational radio sets in the United States than people; right now Americans own more than 228 million radio sets, the population totals approximately 195 million."

She said there were an estimated four working radios per home. Almost 28 million radios were sold to the public in 1964, topping the previous mark of 24.9 million in 1962. Not only are more sets being sold today but more "people are reached and more hours are spent listening to radio than ever before."

## WJJD Spurred to Success

By NICK BIRO

CHICAGO—When a station shows a 600 per cent Hooper rating increase in less than three months, you know something is happening. In the case of the 50,000-watt Plough-owned WJJD here, it's a 180-degree switch to an all country format.

How successful? The ratings tell only part of the story.

A recent Chicago's American survey asking readers what type of musical format they liked on Chicago radio stations revealed that a "vast majority preferred country music."

"And," wrote the American, "because WJJD recently switched to all c&w music, that station apparently has become the favorite of country-western music fans throughout the Midwest."

Norm Ziegler, branch sales manager for Columbia Record Distributors, further documented the station's effect on record sales in a letter to George Dubinetz, WJJD general manager.

Wrote Ziegler: "WJJD's new sound has stimulated country record sales in Chicago to a place we have never experienced. In fact, we were caught this past week without inventory on the Ray Price "Burning Memories" album, which was your feature album last week. It has been rather embarrassing for us because we

## Disk Artists for KLRN-TV-er

SAN ANTONIO—A live TV show, "People '65," this summer over KLRN-TV will feature recording artists on an occasional basis. Among the artists scheduled during June on the weekly hour show are Frankie Laine, folksingers Verne and Bonnie Yates, and various jazz bands.

EPIC RECORDS ARTIST Bobby Vinton sat in for ailing DJ Bob Tracy at KDKA-Radio, Pittsburgh, last week, resulting in more than 5,000 phone calls during his broadcast time. Vinton was then performing at the Twin Coaches night club, Pittsburgh.

## KMBC-FM Stereo Comes in Loud, Clear

KANSAS CITY, Mo.—Radio stations, as a rule, show no surprise at mail from half way around the world because radio waves are sometimes freakish, but KMBC station director Chris J. Stolfa was both surprised—and pleased—when he received a letter from Fayetteville, Ark., only 220 miles away.

For one thing, the letter said "excellent reception" and there was nothing freakish about it. It was unique because the reception was FM stereo. Other reports of excellent stereo reception have come in from Springfield, Mo., about 185 miles away from Kansas City, and Jefferson City, Mo., about 150 miles distant.

The reason for the outstand-

ing range of the station is, of course, its new 100,000 wattage—and a new antenna system. The total area now covered by KMBC-FM includes some 26,000 square miles.

Stolfa said the station is planning a promotion in two weeks to find out exactly how far the station does reach with its "bright" good music programming. A good example of the popularity of the increased power—launched May 19—is that the station received 150 phone calls the first morning it was inaugurated. Stolfa, himself, picked up the station in his car stereo receiver 60 miles away a few days later.

KMBC-FM is affiliated with

## Sunrise Corp. Buys WLOD

POMPANO BEACH, Fla.—WLOD-Radio has been purchased, subject to FCC approval, by the new Sunrise Broadcasting Corp. headed by George T. Shupert and Bernard Goodwin. The station was formerly owned by Franklin Broadcasting Co. Shupert was a vice-president at one time of American Broadcasting Co. He founded and was president of ABC Films, Inc. In 1961, Shupert was made vice-president in charge of sales for 20th Century-Fox TV, Inc., which he resigned last fall.

Goodwin, a long-time ASCAP director, was also a director and vice-president at Paramount TV Productions, Inc. He was also a director of Allen B. Dumont Laboratories, Inc., and its first president. The new corporation will enter into other activities and acquire other companies in the entertainment and advertising fields.

## R 'n' R Show to Aid U.S. Drive

NEW YORK—Rock 'n' roll music will be used to combat high school dropouts June 28 when the Columbia Broadcasting System unveils an hour teen-age music show headlined by Murray the K Kaufman. Others slated for the show include the Righteous Brothers, Ray Charles, and comedian Bill Cosby.

The show, "It's What's Happening, Baby!" will be taped at the Fox Theater in Brooklyn June 16. Segments will be taped in Los Angeles and Detroit. Message for the show will be to point out to young people the opportunities and services available to them through the Job Corps, Job Centers and Neighborhood Youth Centers.

Sargent Shriver, director of the Office of Economic Opportunity, said the teen-age show represents "an entirely new departure in our handling of the great challenges we face in reaching the people who need us most." Kaufman said the show would be all "big beat music" and he was trying to have the Beatles appear via tape.

THE RADIO RESPONSE RATINGS of stations and individual air personalities have been determined by survey of local and national record promotion personnel, distributors and record manufacturers. Not a popularity poll, the ratings are strictly on the comparative ability of the stations and air personalities to influence their listeners to purchase the singles and albums played on the air. The ratings likewise point up the importance of music of all types in building audiences and creating the framework conducive to influencing the listener to purchase other products and services advertised on radio stations.

# Merit, 'Clients' Sharing Costs Of Airing Own Radio Shows

LOS ANGELES—Merit Distributors and the labels it represents are sharing costs of airing their own radio show over KTYM to gain needed exposure for new singles.

Distributor Jack Lewerke said that format radio is guilty of "over-exposure for top records and offers less exposure on other records we could sell well."

The Merit program is "The Godfrey Show" with Godfrey Kerr, a young DJ attempting to gain experience in this market. KTYM is a 5,000 AM watter in Inglewood near the Los Angeles Airport.

### Only Distrib

Merit is the only local distributor sponsoring its own radio program. Co-operating in the sponsorship are Atlantic-Atco, Duke, Autumn and Moon-glow Records.

Merit boss Lewerke explains the nature of format radio with the emphasis on proven hits and nary any exposure for new singles motivated the time buying.

"We've heard over again from program directors and disk jockeys that we had a great record and they would put it on when they got calls for it," Lewerke said. "But how can they get calls if they only program from local reports and national charts?"

Godfrey's show—split weekdays in the afternoon and evenings—is free of sponsored messages. He hammers home the titles of the singles programmed by Merit with regularity. Every label involved in the program

is represented at least once per hour.

Lewerke said Merit looked into the idea of having its own show for about one year but couldn't get a block of time on any station.

Lewerke thinks the future will see more distributors participating in sponsored radio shows. "Distributors will have to control the air more," he said, "because it's obvious by the way

sales have been throughout the U. S., that formula stations provide over exposure on top records and less on other products."

### Over-Exposure Negative

Over-exposure has a negative affect on teen-agers, the distributor feels. "The kids hear the records too much and don't buy them. Too much exposure gets the records off the charts too fast."

# KFOX Uses FM to Reach Country Fans

LONG BEACH, Calif.—FM, once considered exclusive and only for classical music or jazz, is being used effectively for country music in the Los Angeles, Long Beach area. Furthermore, for 24 hours a day. But there's a reason.

KFOX Radio general manager Dick Schofield said that the station added FM simulcast about a month ago. This was an effort to further serve country music fans in the area. He said about 86 per cent of the area's population of an estimated 7.5 million originally came to the area from the Middle West and Southern States "so the potential for country music here is great."

A contributing factor to the station's 24-hour programming is that 700,000 are on nighttime payrolls in local industries. As a result, Pulse ratings for the station are always "pretty consistent right across the board to midnight," Schofield said. "The audience is not only large, but listens consistently—unlike some stations that are out of business in the evening because of TV."

One of the oldest radio stations in the area (it went on the air in 1924), KFOX has been country for about the last five years. Schofield said the station presently features a "secret formula of a little folk music

in combination with country music." However, the folk music is chosen very carefully, he said. Schofield and a panel of DJ's select all of the records played. They eliminate ethnic or "message" folk music.

Other factors that have aided in the station's success, Schofield believes, is that most of the air personalities are performers either as singers or comedians and the station is very active in promotions. He said he felt a country music station had greater opportunity in show business than any other type of music station. For the opening of a store or shopping center or a special merchandising event, the radio station will furnish a complete package of entertainment that includes a disk jockey and remote live broadcast from the store and a country music band hired by the station. The station will also furnish a "lot of ballyhoo," Schofield said. "One of the advantages of a country music operation is it has a lot of color and excitement."

KHOW RADIO DISK JOCKEY G. Roy Gunderson hams it up with RCA Victor's Gale Garnett. She was appearing at a Denver night club and stopped at the station to promote her latest album and help with station breaks.

# WBAL Bows Brooks Show

FORT WORTH—"The Elston Brooks Show" will bow on WBAP here Saturday and will be heard weekly at 10:30 p.m. Elston Brooks, amusement editor and columnist of the Fort Worth Star-Telegram, will host.

The format will re-create the "Hit Parade" presented during 1947 through 1950. He has the entire "Hit Parade" listings week by week for the last 35 years. Brooks will play the 10 songs from any given date sent into him by listeners. Occasionally Brooks will also interview visiting personalities.

# WACE Bows Talk Format

CHICOPEE, Mass.—WACE-Radio, a daytime station that serves the Springfield, Mass., area, is launching an "information" format June 7, according to program director Jack Pudney. The station has been playing middle-of-the-road music. Pudney said the change will fill a gap in the market.

# WJJD Spurred to Success

• Continued from page 34

in country music, said he sees people in the store he hasn't seen in years. He's also seeing an unprecedented number of new faces and attributes it to WJJD's new sound.

Charley Nuccio, regional singles promotion manager for Capitol, credited WJJD with breaking Jody Miller's "Queen of the House." The record sold 70,000 copies in Chicago in less than three weeks, Nuccio writes. "We at Capitol feel that most of these sales came directly from your airing of the record. Any station now playing the record is doing so because WJJD made it a hit."

The reason for WJJD's switch to country music last February is simple. The station was playing standards — most of which were programmed out of Plough headquarters in Memphis—and floundering in the ratings.

Why country music? George Dubinetz, WJJD's new general manager, says simply, "Everything else was being done. We wanted to be different and felt a great need for country music in this market."

Dubinetz cites some impressive arguments for making the move:

"We checked Billboard and found that 23 per cent of all country albums were sold in the five-State area of Illinois, Wisconsin, Michigan, Indiana, Ohio, and Kentucky—all within our effective area of coverage.

"From studying other markets, we also found that the basic audience for country music is the blue-collar worker. Chi-

cago has 62.7 per cent of its working force made up of blue collar people, and of this figure, 47.3 per cent have incomes in excess of \$8,700 (compared to \$7,748 for a general male average)."

Harold Krelstein, Plough president, thought the figures made sense and told Dubinetz to make the conversion. Dubinetz hired Chris Lane from KAYO, Seattle, as program director. Lane has been in radio eight years and was a big country name.

A new deejay staff was also built from the ground up. Roy Stingley, an Ohio air personality for 13 years, was put on from 4-9 in the morning, while Lane took the 9-noon slot.

Don Chapman from KING and KAYO, Seattle, took over the noon-3 slot; John Trotter, from KABC, KEWB and KFRC, San Francisco, 3-6; and Stan Scott, another Ohio veteran from 6-10, the station's normal sign-off time.

An advertising budget of \$50,000 was set aside to bally the move on bus cards, billboards and newspaper ads. However, WJJD's popularity snowballed so fast that the full sum was never spent.

One of the biggest breaks came when Jimmy Dean announced WJJD's conversion to country music on his nationwide TV show.

"We received thousands of letters telling us they heard of our move on Dean's program," said Dubinetz. "In fact, our mail in the first three weeks alone numbered in excess of 20,000."

WJJD started a "Top Fifty"

survey sheet and now mails over 40,000 copies to area record outlets. Columbia Records got on the band wagon by designing a poster to hold the sheet (plus a Columbia album pick) and has placed the posters in 253 record shops.

Last March, WJJD held its first country promotion: The Shower of Stars. A slate of country artists plus WJJD's deejays were booked into the 5,500-seat Arie Crown Theater at McCormick Place for two days. Only advertising was on WJJD itself. Within two weeks all 11,000 tickets were sold out.

Ed Lee, McCormick Place general manager, wrote Dubinetz: "The mail-order response to your advertising produced sales more effectively than any other experiences we have observed."

WJJD's Hooper rating average has gone from 1.1 in February to 3.8 in March to 6.3 in April. In April, the station rated sixth in the general market. With some justification, Dubinetz feels the station has found a home.

## Maine Doesn't See the Light

AUGUSTA, Me.—The Maine House of Representatives has overwhelmingly defeated year-round daylight saving bill, which had been strongly opposed by the Maine Association of Broadcasters. The MAB argued that such a change would disrupt radio and TV programming.

The mixup permanent daylight saving would cause was cited by Rep. Paul R. Huber of Rockland, a radio broadcaster, speaking for the broadcasters' organization. He pointed out that 16 of Maine's 32 commercial AM radio stations and all six TV stations have network affiliations.

The measure, which had won earlier approval by the lawmakers, was defended by Rep. S. Glen Starbord Jr. of Kingman.

### 'Shindig' Producer

HOLLYWOOD—Dean Whitmore, director of ABC's "Shindig" TV show, has been named the show's new producer. He replaces Jack Good who resigned a week ago. Good was with the show since its launching.

### KMBC-FM Stereo

• Continued from page 34

KMBC-AM and KMBC-TV, Stolfa said, but has entirely separate programming. The music philosophy of the station is to provide "something more than background music." While vocals are programmed every five or six numbers, the station depends heavily on music such as played by Les Elgart. The station has no program titles as such, but in one manner and another identifies the station on the average of eight times an hour.

The market is exceptionally good for FM radio, Stolfa said. A survey about a year ago showed an estimated 179,000 FM radios in homes in the area. Stolfa said about 40 per cent of these FM sets were capable of stereo reception. All broadcasting is in stereo, but the station has vast mono FM appeal, he said.

## JUDY JUMPS

### Teener Runs Record Shop; Has Own Club

JUDY KOVAC, a high school senior, stands behind the counter of the record department she built from scratch in the rear of her father's office supply store.

By EARL PAIGE

KANSAS CITY, Mo. — Charlie Kovac, of Carrollton, Mo. (a town of some 4,400 located in the beautiful Missouri River Valley country around 70 miles east of here), has seen a 120 square foot section of his office supply store produce over \$7,000 in annual sales since turning it into a record department two years ago.

The department, operated largely by Kovac's daughter, Judy, a junior this year in the local high school, is known as Judy's Record Shop and has consistently doubled its volume to what is now a \$600-a-month average, Kovac reports.

Citing such factors as careful buying planned around Billboard's charts; watchful attention to the restocking of fast movers; thorough follow through on special orders; and modestly overlooking his daughter's popularity among the school-set cus-

tomers; Kovac feels his record club is the real key to the department's success.

"Our record club," Kovac states, "is the biggest reason for the shop's success. It has just been fantastic. We have an LP club and a singles club and give one free long play or 45 single after the club member has 12 purchases punched out on his card."

Kovac has built up a huge file of direct-mail advertising addresses through the use of the club plan and also numbers among his printing customers several record dealers who have seen his attractive club cards and have had him custom print theirs.

The shop, situated in the rear of Kovac's store, stimulates a tremendous amount of traffic past sections devoted to stationery, greeting cards, and the full assortment of office supply items and has Kovac wishing the rest of his store's floor space produced as much volume.

## Korvette Audio Sales Boom; Outlets in 31 Major Cities

By SOLOMON R. KUNIS

NEW YORK—A quiet revolution in audio merchandising has been effected by the E. J. Korvette stores. The New York based giant discount chain, which first entered the hi-fi market in 1959, now has audio centers in 31 of its outlets in major cities throughout the country.

The chain has reported substantial sales increases in each of its audio centers from year to year. Harold Weinberg, Korvette's audio buyer, said he has every reason to believe the upward trend will continue and

that additional audio centers will be opened soon.

Korvette's merchandising policy is to sell low and medium priced audio components, primarily in systems. Contrary to the general impression, the discount house does not sell audio equipment below minimum retail sales prices set by the manufacturers. Instead, it relies on assembling suitably matched components, including some private label brands, into systems which can be sold at an attractive figure.

The aim of Korvette's merchandising policy is to create a mass market for its high fidelity equipment, an approach which has proved highly successful. The chain relies heavily on newspaper ads for its promotions, and advertises regularly in about 50 papers throughout the country.

The ads are generally large, running from 600 to 900 lines, and are often run on a co-operative basis with audio component manufacturers. Special advertising campaigns are planned for holiday sales, such as Washington's Birthday or Columbus Day.

In addition to newspapers, the chain has printed promotion material which is mailed and also distributed over the counter.

The audio centers at Korvette stores are usually located next to the record department, and the two sections often work together. Literature for audio components is often inserted with a record in a customer's shopping bag.

Korvette's has also tried radio promotion and currently sponsors a program on Station WQXR in New York under the direction of David Rothfeld, Merchandising Manager for records, audio and books. Aside from this program, and occasional spot announcements, radio advertising is not widely used.

Korvette audio centers carry not only the top advertised brands like Scott and Fisher but other high quality components like Hartley speakers. The key to selection of a line, according to Harold Weinberg, is value. "The value must be there to permit proper promotion. We cannot and will not promote an inferior product."

# THE JAZZ BEAT

• Continued from page 8

jazz product, programmers have been forced to limit the airing of special shows for the jazz lovers who want their music with no compromise. As a result more stations are utilizing Sunday hours or weekends for the "Big Band," "Period Jazz," etc.

More jazz releases do not mean inferior jazz. Today the musicians are better technically

prepared than the pioneers of yesteryear. The record companies have produced a problem of their own making. They are forced to search for a formula that will keep the successful artists on the charts, as well as hoping that a successful record will not produce a diluted commercial sound by the artist.

Meanwhile, the record stores have found jazz increasing in sales due to the increased product. Singles, with the help of the coin operators, are finding new exposure.

### Korvette Audio

• Continued from page 41

Promotion at Korvette involves more than an appeal to price. Advertising and display of merchandise are also important, but the proper education of its salesmen is a prime consideration. Both Weinberg and the assistant audio buyer Marvin Lazansky make an intensive effort to indoctrinate their audio salesmen properly so that they can best serve their customers. Manufacturers also work closely with Korvette in this area.

Korvette has a sales incentive program which has helped the sale of many audio components. Under this plan, the salesman receives a merchandise bonus for every sale. In addition to boosting sales, the bonus incentive has increased the salesman's earnings and has enabled the store to retain its top men.

# BULK VENDING news

## Southeastern Vendors Re-Elect Smith NVA's Crisman Tops Guest List

By LAMAR GUNTER

CHARLOTTE, N. C.—The newly organized Southeastern Bulk Vendors Association adopted new bylaws and re-elected Lee Smith of Southern Acorn Sales here president in a meeting on May 29.

Smith was president of the Carolina Bulk Vendors Association when the association expanded its scope in 1964.

Other officers include Ed Owens of Fayetteville, N. C., vice-president; Jack Thompson of Charlotte, secretary-treasurer, and directors Robert A. Tripp of Raleigh, N. C.; Harry Frohman of Rock Hill, S. C.; Bob Merritt of Ninety-Six, S. C., and Charlie Bullman of Asheville, N. C.

Smith said an effort would be made to give other States representation on the board of directors as soon as possible. Only Virginia and Tennessee were represented in addition to the Carolinas at the meeting which drew approximately 75 persons.

Smith appointed Tripp chairman of a membership committee and named Merritt co-chairman. Smith challenged the entire membership to work just as hard as the chairmen to bring in new members, particularly from other States.

Paul Crisman of Chicago, president of the National Vendors Association, was among the guests.

Other guests at the meeting

were Leo Leary of Chicago; Mrs. Margaret N. Kelly and Leo Hardman, both of Pittsburgh, Pa.; Raymond S. Beck of Philadelphia; Fred Loewus of New York City; Manny Greenberg of New York City, and Leo F. Spellman and Carmen D'Angelo, both of Boston.

Each of the guests spoke briefly during the meeting.

Walter Benson, counsel for the Southeastern Bulk Vendors Association, was featured speaker. He urged the vending industry to accept change and to turn it to its advantage, noting that

change is inevitable in every business.

"While you must be alert to

change and adapt to it where possible, you must be prepared to fight bad legislation or other

threats to the industry," Benson said.

Door prizes, courtesy of bulk vending manufacturers represented at the meeting, were awarded to several operator members.

## Vender Shipments Up in 1964

By RAY BRACK

CHICAGO—In value and number of units, shipments of bulk vending machines in 1964 significantly surpassed totals for the preceding year.

According to the annual vending survey by the U. S. Bureau of the Census, \$2,601,000 worth of machines were shipped last year, compared to \$1,812,000 in value shipped in 1963.

The number of units shipped in 1964 was 158,664, as compared to 113,295 the previous year.

These industry growth figures are based upon responses by seven manufacturers to the U. S. Commerce Department survey.

The same survey, with six firms reporting, indicated that \$435,000 worth of postage

stamp vending units were shipped in 1964. The 1963 figure was \$706,000. The 1964 unit figure dropped to 8,293 from a total shipping figure of 13,382 in 1963.

### All-Time Record

The value of manufacturers' shipments of all types of new vending machines reached an all-time record in 1964, jumping 11 per cent over 1963.

Value of equipment shipped in 1963 was \$160,821,000. The 1964 figure was \$179,519,000. Units shipped in 1964 totaled 608,194, compared to 591,665 in 1963.

The complete vending survey included 66 manufacturers.

It is significant to note that the 1965 Vend magazine market

census, published in March, indicated that the bulk confection market showed a healthy increase in merchandise sold through bulk vending machines in 1964. Last year's sales amounted to \$64,922,000. The 1963 total was \$58,760,000.

The Vend survey also reported placement of 5,000 net new machines on location in 1964, for an operational total of 1,135,000. The total reported in operation for 1963 was 1,130,000.

The Bureau of Census report includes both domestic and export shipments of new machines by U. S. manufacturers. Rebuilt or repaired equipment sales are not represented in the survey.

## New Utah Law No Bulk Boon

SALT LAKE CITY—Recent Utah legislation, which exempts bulk vending machine sales from the State sales tax if they are sponsored by nonprofit organization, is expected to have little effect on the bulk vending industry here.

Operators report that most of the charitable organization machines in the State are run by local service organizations such as Kiwanis, Sertoma, Jaycees, etc., who have no connection with commercial bulk operators. There are now few such installations in the State's major cities.

Kenneth Litwhiler, veteran Salt Lake City operator, did remark that elimination of sales tax may encourage more charitable organizations to put out ball gum venders, but he does not expect a big competitive surge.

"Such organizations in attempting to find locations will run up against a blank wall," Litwhiler said. "Even if the location owner is highly co-operative and anxious to help out with such programs, there usually isn't enough space to set another vending machine."

## Tenn. Retarded Child Group Hears Smith

CHATTANOOGA — Bulk vending-retarded children sponsorship pioneer Lee Smith, principal in Southern Acorn Sales of Charlotte, N. C., and National Vendors Association director, addressed a meeting of the Tennessee Retarded Children's Association here June 4.

The three-day meeting (June 4-6) was held at the Reed House Hotel. A highlight of the event was the announcement of collection of \$11,000 in bulk vending sponsorship funds in the State during the past year.

A special guest of the group was Samuel Saunders, executive director of the Arkansas Retarded Children's Association. Saunders is reportedly interested in establishing a bulk vending sponsorship program in his State.

Russ Thomas, head of Vendors Distributing Co. in Memphis, and active in vending sponsorship for some time, was also to attend the conference.

Host for the event was Kermit Harrington, executive director of the Tennessee Retarded Children's Association.

# Jaycees Are Operating Gum Machines in Twin Cities

By ROY WIRTZFIELD

MINNEAPOLIS—A suburban Minneapolis Jaycee chapter has initiated a program to ultimately operate 4,000 penny wrapped gum machines in the Twin Cities with 10 per cent of the gross going to help support a young American physician in Hong Kong.

The program resulted from an appeal to help Dr. Jim Turpin, former Coronado, Calif., Jaycee, who is carrying on a one-man medical campaign in Hong Kong.

The local Fridley Jaycee chapter decided to adopt "Program Concern" for the doctor's benefit. Among fund-raising ideas presented to the chapter were penny vending machines, such as are already being used by individual Jaycee chapters in some Minnesota areas for general money raising purposes.

Not much was at first thought of the scheme, however, until

the Fridley chapter learned that Jaycees in Cleveland, Ohio, make \$8,000 a year or more from vending machines in their city.

Investigating methods of operating, the Fridley group finally decided they would be best off forming a separate corporation to manage the machines. Five chapter members raised capital and incorporated as Five Star Corp.

Machines will be obtained from Vendall, a local distributor. To date about 100 machines have been placed, according to corporation president, Luzell Luke, who is an engineer at Univac, St. Paul.

Luke said, "We're in process of adding some 400 more at this time."

Sanction has been given by the Minnesota Jaycee organization for Five Star to use official Jaycee decals.

The second 10 per cent of gross will be turned over to the state Jaycees, for disbursing to local Jaycee chapters in whose areas Five Star places machines.

## Learning by Doing

"We will concentrate most of our effort in the metropolitan Twin Cities and suburbs," Luke said.

Jaycee chapters in this area which may already be using gum machines for general fund raising will continue doing so, he said.

However, all Five Star placements will go for the purpose described.

Officers of the corporation

are not presently receiving any compensation, and all remaining profits, after 20 per cent of gross, will be used to purchase new machines.

Eventually the group may hire a serviceman, Luke said, but presently the five officers are conducting all operations.

None of the men involved have had previous vending experience, "so we're learning by doing," Luke said.

# COIN MACHINE news

## LBJ Proposes Compatible Coins

EDITORIAL

### Reasonable Solution

The U. S. Treasury bill on coinage provides a reasonable solution to a difficult problem. It settles the issue of this country's diminishing silver supply and still proposes a coin which will not disrupt the nation's economy.

That the new coins are compatible with existing vending, amusement and phonograph mechanisms is good news not only to this industry, but to the millions of Americans that depend upon such equipment for merchandise, music and entertainment.

Credit is due in no small part to the National Automatic Merchandising Association, which so ably represented the view of the coin machine industry.

Billboard can only echo the comment of Thomas Hungerford, NAMA executive director, in urging speedy congressional passage of the bill for the benefit of the entire American economy.

THOMAS HUNGERFORD  
"An ideal solution . . ."

### Dimes, Q'trs Drop Silver; 'OK' for Coin Mechanisms

By MILDRED HALL

WASHINGTON—The President's proposed change in coinage, announced just prior to press time, will drastically alter U. S. coinage without adversely affecting the nation's vital coin-operated industries. President Johnson's coinage message emphasized that the specific new types of dimes, quarters and half dollars were selected "because, alone among practical alternatives, they can be used together with our existing silver coins in the millions of coin-operated devices that Americans now depend upon heavily for many kinds of food and other goods."

With this nod to the trade, the President made the following coinage recommendations:

1. No change in 1-cent pieces or nickels.
2. Elimination of silver from dimes and quarters. Coins to remain the same size and design;

will be faced with same cupronickel alloy used in the present 5-cent pieces bonded to a core of pure copper. (A thin copper-colored ring will show around edge of coins.)

3. Fifty-cent pieces will be faced with an alloy of 80 per cent silver and 20 per cent copper bonded to a core of 21 per cent silver and 79 per cent copper. Appearance will be almost identical with the present half dollar, and the image of President Kennedy will be stamped on the new coins.

The new coins are scheduled for circulation sometime in 1966.

The President's message notes that coin-operated merchandising is a "large and growing part of the national economy—selling \$3½ billion dollars worth of consumer items through 3½ million machines. On more than 30 billion separate occasions, a consumer puts a coin in a machine." The President noted the use of coin-operated devices in "many other services," and dependence of factories, hospitals, et al., for vended services and goods and meals.

#### Made to Order

The message notes that six million of U. S. coin-operated devices have selectors set to reject coins or imitations that do not have the electrical properties of our existing silver money. "To be compatible in operation with our existing coinage, therefore, our new coins must dupli-

## Rowe Passes on 10% Tax Slice

By NICK BIRO

CHICAGO—Juke box operators will not have to wait until July 1 to reap the benefits of President Johnson's proposed excise tax cut.

Rowe AC Manufacturing Co. led the way, announcing it would pass on the 10 per cent reduction to its operator customers immediately.

Rock-Ola Manufacturing Co. announced it would put the cut into effect the day it was passed by Congress. The bill sailed through the House last week and is expected to see speedy Senate approval.

#### Others Watch Closely

Seeburg and Wurlitzer each said they were making no immediate move but were watching the movement of the bill closely. Both indicated they would pass on the tax cut as soon as it became applicable.

The Rowe move is interpreted

JACK HARPER  
"The President's wish . . ."

as a "good faith" reaction to the President's request. Jack Harper, Rowe president, said the firm was attempting to follow the "spirit of the President's wish,"

that the economy be stimulated by the reduction.

Harper said the 10 per cent reduction would be absorbed by Rowe. He said he had no idea of what amount of money was involved.

#### Distributor Refund

Mechanics of the Rowe move involve a distributor refund. Distributors will be asked to furnish Rowe a statement listing all machines sold during June.

Billing to distributors will be at list, but a refund will be made as soon as June sales are verified.

Harper said he expected distributors to pass on the saving to operators immediately.

The cut represents a substantial saving on cost of equipment. As an example, a machine listing for \$1,200 would be reduced in price by \$120.

Ed Doris, Rock-Ola executive vice-president, said his firm would pass on the saving as soon as it cleared Congress—

and before it is signed by the President.

Doris said Rock-Ola would drop its price to distributors and he assumed the distributors would, in turn, pass the saving down to operators.

Bill Adair, Seeburg executive vice-president, said his firm was waiting for definitive information from Washington on the measure. He indicated that Seeburg would move shortly.

Bob Bear, Wurlitzer sales manager, said the firm would pass on the cut as soon as it became applicable to manufacturers. "If the bill had a retroactive provision, we would pass it on now, but our price is too tight for us to absorb a 10 per cent reduction. Bear added there was always the danger that Congress could delete the coin-operated phonograph provision, though he said this was doubtful. He said his company would undoubtedly put the cut into effect by July.

## Site Tax Repeal a \$3 Million Trade Gift

By RAY BRACK

WASHINGTON—The most predictable bonanza to this industry from the Excise Tax Reduction Act of 1965 will amount to nearly \$3 million annually. This will result from repeal of the \$10 coin-operated amusement device occupational tax.

In addition to getting this big slice of President Johnson's \$4.8 billion proposed cut, the industry stands to benefit further from requested repeal of the 10 per cent manufacturers excise tax on juke boxes (invariably passed on to the buyer) and cancellation of the 10 per cent "cabaret" entertainment excise tax. Removal of the latter levy will benefit the trade by enlivening bar and club business.

All three repeal proposals are contained in the measure which passed the House last Thursday (3) by a 401 to 6 vote and rushed to the Senate. A House spokesman told Billboard that the bill is expected to find easy going in the Senate. Action on the act may be delayed for about a week, however, because the Senate is considering the Administration's Medicare bill and will likely clear it ahead of the excise tax measure, the spokesman said.

Congressional intention is to present the bill to the President for signing before June 30 because many of the tax cuts are due to take effect July 1. These include the COAD occupational tax cut and the phono manufacturers excise tax slash. The "cabaret" cut is to become effective at noon on December 31, 1965.

During the fiscal year which ended June 30, 1964, the Internal Revenue Service issued 287,343 COAD occupational tax stamps. Technically, this tax is levied on the location, but the cost is generally borne—and much of the paper work is handled—by the equipment operator.

At \$10 annually, elimination of this tax—which now appears inevitable—would save the industry \$2,873,430 per year. This does not include the additional saving from elimination of the \$20 COAD occupational stamp tax which the location now pays for regulation-size coin-operated pool tables. Calculation of this saving is not possible because the IRS lumps coin-op and standard billiard figures together with those for full-size bowling lanes, all of which require the \$20 stamp.

#### Illinois Example

The State of Illinois, for example, where 22,076 of the \$10 stamps were issued during the last full fiscal period, would experience a \$220,760 bonanza.

The \$10 COAD tax, which the IRS collects by means of Form 11-B "Special Tax Return," applies to such equipment as pinball games, arcade equipment, automatic phonographs, shuffleboards, coin-op bowlers, under-size billiard tables and children's rides. The \$250 gambling tax stamp, 28,310 of which were issued during the past fiscal year, is not to be repealed.

A spokesman for the IRS informed Billboard that it is too early for an official bureau directive on the tax cut yet, but suggested that coin machine businessmen wait until after July 1 before tackling all the paperwork involved with form 11-B. Since the deadline for filing the form is July 31, he said, repeal on July 1 could save the operator a lot of bother.

#### Restrained Glee

Coin machine businessmen meanwhile greeted the House action on the Excise Reduction Tax with restrained glee.

"It's hard to believe," commented one of the nation's largest operators of children's rides. "This kind of tax break is something for which trade associations worked for years. And this one has practically dropped in our laps."

# New Jersey Operators Back Licensing and Game Legislation

EAST BRUNSWICK, N. J.—The New Jersey Council of Coin Machine Operators approved the structure and content of State legislation to license operators and define amusement machines in a meeting here on May 26.

Seeking to bring order out of the amusement equipment chaos now existing in the State due to a maze of game regulations among the municipalities, the association will seek introduction of corrective legislation in the next session of the State Legislature, according to William Cannon, association president, from Haddonfield.

The legislation was outlined to the Council by Raymond Uliase, the association counsel, from Camden. Only representative of regional associations and distributors were present.

#### Complete Survey

Cannon announced that the Council has completed a survey of all 567 municipalities in New Jersey and has compiled their coin machine operating ordinances in a 23-page report avail-

BILL CANNON

able to all Council members.

Cannon briefed the Council on the potentially damaging effect on the industry of the proposed State sales tax, citing adverse experiences in other States, and he clarified recent rulings on State personal property tax.

Music Operators of America opposition to pending national

copyright legislation was outlined by Cannon as well.

#### Cooperation Offered

In other business, Cannon reported that the Federal Manpower and Development Administration, the New Jersey State Employment Service and the Camden County Vocational School have offered to cooperate with the association in establishing coin machine mechanics schools.

Harry Witsen of Vineland was appointed by the Council to organize a new regional association in his area.

The Council will hold a State-wide general membership meeting this fall.

Present at the afternoon meeting were Dick Steinberg, association secretary-treasurer from Newark; Pat Storino, association vice-president from Toms River; Allen Waldor, association vice-president from Newark; Irving Morris of Newark; Jim Ginsburg of Philadelphia; Frank Collis of Sewell; Paul Cantor of Newark and Witsen.

WILLIAMS MOULIN ROUGE

CHICAGO—A new single-player, adjustable three or five-ball amusement game was introduced last week by Williams Electronic Manufacturing Corp.

Entitled "Moulin Rouge," the product creates score-box attention by means of a mirror area in which is flashed a Toulouse Lautrec-style illustration when the player scores numbers one through 10 progressively.

The 1-10 scoring achievement also lights the game's lower-playfield rollovers for special scoring.

Value of the center eject pocket is increased from 200 to 400 and special scoring is achieved when the player triggers the A-B-C eject pockets (located in the center of the playfield) in rotation.

Other features of the new product are the Williams "customized title strip," "number match," automatic ball lift, three-way multiple coin chute, stainless steel molding and trim and "plastikote" playfield finish.

Factory officials report that the product is in distribution.

## Macke Sales And Net a 6-Month Record

WASHINGTON — Macke Vending Co. sales and net income for the fiscal half year ending March 31 were tops in the company's 39 years, President Aaron Goldman announced last week.

Sales during the period were \$28.3 million, an increase of 19 per cent over the \$23.7 million in sales for the same period the previous year. Net income was \$756,868 (\$0.80 per share) compared with \$647,280 (\$0.68 per share) on fewer shares in the preceding year.

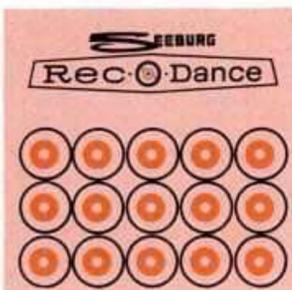

Goldman said the increases reflected a marked increase in food and beverage sales. Founded in 1926, Macke operates 40,000 vending machines and 700 self-service cafeterias in 17 States in the eastern part of the country.

# Seeburg's Big 3

...the winning combination designed to serve the interests of Discothèque listening and dancing.

**Seeburg** has created a new form of public entertainment with its leased Rec-O-Dance\* records—and the Seeburg LPC/480 phonograph and Rhythm Twins speakers, fully capable of delivering the exciting Big Sound they contain. This new entertainment is called: DISCOTHÈQUE MUSIC!

Think about that phrase. This is music you'll never hear on the radio. You won't hear it on television or in the movies. No one can

go to a store and buy a Rec-O-Dance record to play on a home phonograph. The only place it can be heard at all is in a Discothèque location! That's what it was planned for...for listening as well as dancing.

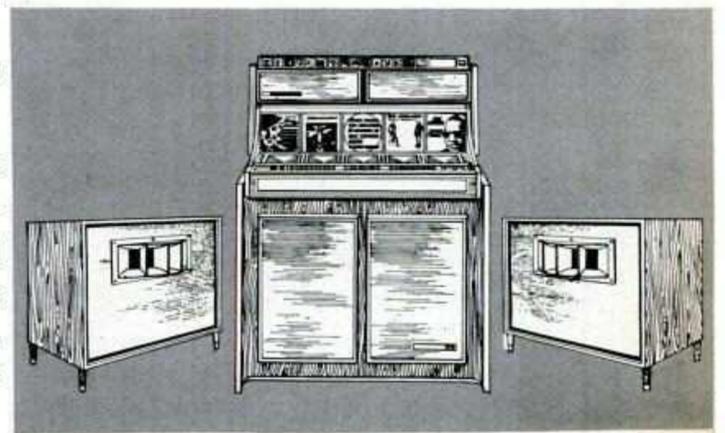

Will people go out of their way to hear Seeburg Discothèque music?

YES! They have been turning out at all hours, day and night for nearly six months now, jamming the several thousand Seeburg Discothèques that dot America from coast to coast, coming back again and again to enjoy the Big Sound of Seeburg Music.

Here is the future of your business. Who else but Seeburg Discothèque operators of America is going to supply the demand for this new form of entertainment?

No one else. Just you.

# Puerto Rican Pinball Ban Bill Is Sent to Governor

SAN JUAN, Puerto Rico—A controversial pinball prohibition bill was passed by the Puerto Rican House on May 26 and was sent to Governor Sanchez for his signature.

The bill, drawn to ban pinball games, arcade movies and target games, had been passed by the Senate on May 17.

According to Billboard's Caribbean correspondent Tony Contreras, it appeared that the governor would sign the measure into law some time last week, with the ban taking effect on January 1, 1966.

**Passed Both Houses**  
The measure passed both

houses of the Puerto Rican Legislature only after several heated hearings during which the bill's proponents, declaring themselves guardians of the island's youth, were challenged by representatives of the coin machine industry.

Strong opposing testimony came, among others, from Rufus King, prominent Washington, D. C., attorney, skilled in sifting fact from fancy in presenting the case for the amusement business.

Passed 30-10 by the House, the bill would "Prohibit the introduction, manufacture, possession, use or operation of pinball machines." The measure was sponsored by Popular Democratic Party Senators Rene Munoz Padin, Carlos Garcia Portela and Salvador Acevedo Colon, who claimed to have introduced the legislation as a result of petitions by parent-teacher groups in the San Juan metropolitan area.

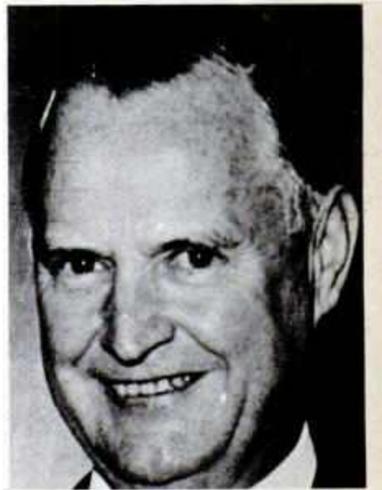

### Favors Ban

Said Padin, "The influence of these machines on the minds of the young is harmful. I favor the banning of these machines, at least in the proximity of schools where their presence adversely affects the aura that should surround a school building."

At the root of the legislator's concern seemed to be the penchant of some kids for spending part of their lunch money playing pinball games.

As introduced in the Senate, the bill, drafted by the Penal Judicial Committee, stated that 10,000 pinball machines were located on the island. As an afterthought, the committee attached

PATRICK L. O'MALLEY, president and chief executive officer of Automatic Canteen Company of America, was honored by St. Joseph's College, Rensselaer, Ind., with an honorary Doctor of Law degree last Sunday (6). O'Malley also delivered the Baccalaureate Address to the graduating class.

an amendment extending the proposed ban to "target practice amusement machines and to machines for the exhibition of photographs of films, of the kind often found in penny arcades."

In the important Judiciary Committee of the House, the bill was bogged down temporarily as committee members voted 5-3 to reject the Senate bill and replace it with legislation that would merely regulate pinball machines—not ban them.

At this action, committee chairman Osvaldo Torres Gomez became incensed and in an unprecedented action announced he would prepare a dissenting report and send it to the House floor. This he did, with the move getting front-page play in the Puerto Rican press.

Leading opposition to the measure in the House was Statehood Republican Party Rep. Luis Camacho, who favored regulating the coin-operated equipment.

# Seeburg Kettle Boils In Midwest Environs

By EARL PAIGE

ST. LOUIS—A wide sampling of operator opinions throughout Southern Illinois, Missouri and Kansas in the wake of the recent Seeburg moves reveals one outstanding observation: Few developments in the coin machine industry during recent years have stirred up as much thought and discussion.

Operators reveal reactions ranging from immediate approval and keen interest to mild indifference and outright skepticism.

The more approving operators say something like, "This will keep ASCAP off our backs," feeling that if operators have a backlog of their own performance royalty-free music to program they can bargain from a position of strength in the copyright-law revision struggle.

### Others Not Sure

But the more skeptical operators aren't sure. From these

one often hears a statement such as, "This music [COPPS material] is all right for fill and background but without air-play, how can it be commercial? We'll still have to use the ASCAP and BMI chart records that our locations demand."

Meanwhile, Seeburg branches on both sides of the State report brisk business.

At L&R Distributing here in St. Louis, Lew Ruben has just added a new salesman, Pete Anderson, to his very busy staff. The sales force has also been strengthened at Sutherland Distributing in Kansas City.

## Wurlitzer Tours N. Y.

BUFFALO — New York State's premiere showing of the new Wurlitzer Discotheque juke box was held at the Arlington Hotel, Binghamton simultaneously with the Board of Governors meeting of the State Restaurant Liquor Dealers Assn. of New York, Inc. (SRLDANY).

John Bilotta, president of Bilotta Enterprises Corp., and John Shawcross, general manager of Rex-Bilotta Corp., Wurlitzer distributors, introduced the concept.

Fred Temming, president of SRLDANY called Wurlitzer's Discotheque program an outstanding one for restaurants and lounges. "The Discotheque idea is gaining in popularity and will be installed in many locations because the public enjoys it," he said.

One hundred and thirty delegates representing 62 counties attended the three-day meet. One of the topics on the agenda was the effect of the new State sales tax on restaurants and hotels.

Student's from Helene's Center of Dance performed.

Also representing the Wurlitzer distributor were John (Doc) Burdick, salesman, and Wilfred R. Rooen, editor of Wurlitzer News and Notes.

MEMPHIS — "I'm moving about 10 to 12 discotheque phonographs a week now," said George Sammons, president of Sammons-Pennington Co., Seeburg distributor, last week in reporting the discotheque boom is catching on bigger than ever in this area.

Sammons said there are now about 15 discotheque locations in Memphis, with that number gradually and constantly growing. He delivered five to Millington, Tenn., a city of about 7,000 (with a 15,000 Naval base population) 20 miles from Memphis and two in West Memphis, Ark., across the Mississippi River from Memphis, last week.

"It is the greatest thing in our business in a long time," he said.

The conventions and the H. Z. Vending party will all be held at the Prom Town House Motel at 7000 Dodge Street here. A big banquet and floorshow are planned for Sunday night, and from Ed Zorinsky comes the traditional Zorinsky reminder to ". . . please bring the ladies and your swimsuits." The motel reportedly has indoor and outdoor pools. . . . The H. Z. Vending hosts also plan trips to Boys Town, Nebraska, and the nearby Strategic Air Command headquarters. cause the electrical properties of a coin that is 90 per cent silver. No single acceptable metal or alloy does so. The composite coins that I am asking the Congress to approve are coins made to order to duplicate the electrical properties of coins with high silver content. They are the only practical alternatives we have discovered to our present coinage."

The President said choice of the metal composites for the coins was made to safeguard coin-operated mechanisms from fraudulent use, which would be costly to all concerned."

In the future the President believes selectors may be made that can accept coins of widely varying electrical properties, while at the same time rejecting imitations and wrong coins. They are not available now, but "when and if they become available, our new coinage will work in them." The choice of coins was made in the knowledge that an "incompatible coinage would mean delays and interruptions lasting a year to three years in the services of these machines," causing inconvenience and losses to the public and the industry, and those employed in it.

The President emphasizes and re-emphasizes, with underline-

ing in the White House document that: "The new coins that I am recommending to you do this (carry out technical functions) and do it well, because they were specifically designed for the task."

Tradition and sentiment decided the President and his Treasury advisers to retain the 40 per cent silver content of the new half dollar. But the first priority will go to getting out "large quantities of the new quarter and dime," before the full production of new half dollars begins.

## Joint Commission

The President also wants a joint commission on the coinage, to include Secretary of the Treasury, Secretary of Commerce, Director of the Budget Bureau and Director of the Mint, plus four public members, members from the House and Senate banking and currency committees, and from both houses of Congress. The commission will make a continuing study of coinage in the U. S.

The President says the new and old coins will continue in use "for the indefinite future" and there is no reason for hoarding present silver coinage, be-

# INDUSTRY ENDORSES TREASURY COINAGE BILL

CHICAGO—Coin machine industry officials received the Treasury's coinage bill announcement with unqualified approval last Thursday (3). Declared Thomas B. Hungerford, executive director of the National Automatic Merchandising Association: "The new coins have been thoroughly tested in existing coin mechanisms and will work side by side with present coins in all coin-operated devices." His association having carried out the lion's share of the trade-treasury coinage-change liaison, Hungerford said, "The vending industry wholeheartedly supports the U. S. Treasury bill on Coinage and commends the Administration for this practical and imaginative solution to the problem of diminishing silver reserves. . . . The vending industry urges passage of the bill because it provides an ideal solution to the crucial coinage problem and assures an adequate and modern coin supply for the American economy in the years ahead."

"Operators of coin-operated phonographs and amusement games will be delighted to hear of the Administration's bill calling for changed coinage that is compatible with mechanisms in the field," stated Fred Granger, executive vice-president of the Music Operators of America. "I congratulate the officials and coinage committee of NAMA for the tremendous job they have done in dealing with the serious coinage problem," he declared. "Conceivably, if the NAMA had not been on the job, our industry could have been confronted with the dilemma of noncompatible coinage."

cause "there is now reason for it to disappear." Supplies of the metals for the new coinage are abundant, and in the first year after new coins are authorized, 3½ billion pieces are expected to be minted, which is 1½ billion more pieces than will be made of the corresponding silver coins in the current fiscal year,

the President told Congress last week (June 3).

Coins will be minted at the Denver mint and temporarily in the old San Francisco mint (converted to an assay office in 1962), and in the new Philadelphia mint when the latter is completed and in operation possibly by late 1967.

## Mid-Southerners Endorse NAMA Coinage Position

MEMPHIS—A score of Mid-South vending, game and phonograph operators announced support for the position of the National Automatic Merchandising Assn. on changes in U. S. coinage.

The operators made the move in a NAMA regional meeting on Saturday (15) at which Gib Tansey, of Chicago, NAMA State council secretary, explained NAMA's position (Billboard, Feb. 27).

Similar meetings are being held throughout the country by NAMA to discuss coming proposals to Congress for changes in the content of coins.

Tansey said NAMA "supports any position which will produce coins that work in the present coin mechanism" in coin-operated machines.

He said there are 3,300,000 vending machines now in use in the U. S., 250,000 coin changers, 470,000 phonographs and 1,410,000 wall boxes.

Operators from Mississippi, Arkansas and Tennessee attended the one-day meeting. Various coin machine manufacturers had hospitality rooms.

Sammons-Pennington Co. was one of the hosts.

The businessmen agreed to write their respective Senators and Congressmen, calling on them to support legislation which will produce coins that will work in vending and coin machines in use now.
