Organizations

Some Chief Executives speak up about the Payroll Savings Plan.

We thought you'd be interested in why your peers feel the Payroll Savings Plan makes good business sense.

So, recently we asked the chief executive officers of 291 companies with 500 or more employees to express their thoughts about offering their employees the opportunity to buy U.S. Savings Bonds through the Payroll Savings Plan.

Here's a sample of what they had to say:
"For the employee, it's a way to save. An organization that offers the Payroll Plan helps the employee achieve at least part of his goal for security."

The Payroll Savings Plan is a convenient, guilt-free way for employers to save regularly, virtually without effort. An employee knows that the money he invests in U.S. Savings Bonds is his, that it's earning interest, and that it will be there when he needs it—whether for a special purchase, for an emergency, for his children's education, for his retirement.

"It's a fringe benefit for the employee and an indirect benefit for the company. The employee may feel more secure financially, so his mind is at ease and he can do a better job."

A secure employee is a more productive employee. A more productive employee benefits your company.

In addition, Bonds provide an attractive supplement to company retirement programs. And since Bonds act as a liquid reserve against emergencies, established company trust plans are shielded against continual withdrawals.

"As far as our company's concerned, it's patriotic and worthwhile...we feel we should support the government."

The United States Savings Bond Campaign is sponsored as an American Magazine and as a Public Service of This Magazine.

Savings Bonds contribute to our country's financial stability. The Payroll Savings Plan reduces the need for government borrowing from the banking system—businesses' own prime source of capital. Money invested by private individuals in the form of Savings Bonds alleviates the pressure generated by government borrowing in the money market.

In short, what these people are saying is what we've been telling you all along: The Payroll Savings Plan is a fringe benefit that benefits everyone. Your employees. Your company. Your country. Everyone who complete selection of materials telling you how you can install and promote the Plan among the employees in your company, simply clip and mail the coupon below.

Shure microphones do something great for all these great voices.

Fact:
Look beyond a Shure microphone and you’re likely to spot a star. And that is especially true in Nashville. Country superstars insist on Shure microphones because of the consistent reliability and clear, natural sound that make these microphones the “Sound of the Professionals.” Make them part of YOUR next performance. Ask your Shure dealer about Shure microphones and tell him Bill, Helen, Crystal, Mickey, Tom T., Sonny, George, Cristy, Loretta, Charly, Ronnie, Eddie, Charlie, Conway, and Tammy sent you.

Vivid lyrics and driving country-rock energy are the trademarks of Howard and David Bellamy.

The Bellamys are a product of the South. They grew up listening to country and blues, then switched to rock 'n' roll and have infused their influences into a unique sound that is very appealing. If you ever doubted that rock and country could be fused together successfully, sample the Bellamy Brothers.

IT'S A SMALL WORLD AFTER ALL

Yes, it's a small world — that is when the USO is there. To U.S. servicemen and women and their families, home is only as far away as the nearest USO.

For nearly 40 years, USO has been our serviceman's and woman's "best friend" and the place they turn to when a problem develops. Whether it's a family crisis, a feeling of being lost in a new town or country, or just a place to relax, USO is always there.

WHY YOU SHOULD MAKE A CORPORATE CONTRIBUTION TO THE AD COUNCIL

The Advertising Council is the biggest advertiser in the world. Last year, with the cooperation of all media, the Council placed almost six hundred million dollars of public service advertising. Yet its total operating expense budget was only $1,147,000 which makes its advertising programs one of America's greatest bargains... for every $1 cash outlay the Council is generating over $10 in advertising.

U.S. business and associated groups contributed the dollars the Ad Council needs to create and manage this remarkable program. Advertisers, advertising agencies, and the media contributed the space and time.

Your company can play a role. If you believe in supporting public service efforts to help meet the challenges which face our nation today, then your company can do as many hundreds of others—large and small—have done. You can make a tax-deductible contribution to the Advertising Council.

At the very least you can, quite easily, find out more about how the Council works and what it does. Simply write to: Robert P. Keim, President, The Advertising Council, Inc., 825 Third Avenue, New York, N.Y. 10022.

Some undernourished Americas have never missed a meal.

You can be overweight and your body can still be hungry for the right foods. Your body needs a well-balanced diet of proteins, carbohydrates, fats, vitamins and minerals.

By reading the booklet, you'll learn that just because you look well-fed doesn't always mean you are.

The better you eat, the better you are.
