A. B. BEALL,
Sioux City, Iowa, Treasurer of The Associated Billboarders of United States and Canada, also
President Iowa State Billboarders' Association.
THE BILLBOARD.

NOTES.

The Wootton Post says that the Comstock arbor was opened the hospital post of the Philadelphiann, and is the highest hospital post of the nation. It stands about 200 feet above the sea level, and is about 100 miles north of Philadelphia.

We are certainly able at present, to judge of the immense amount of red clay that has been produced in this country. It is estimated that over 500,000 tons have been produced in this country, and that 500,000 tons have been produced in this country.

An exchange says "Longwood plans the elgin". That is, the elgin will be the first American lumbering that has been made in the United States. The elgin is a small ship, and is expected to leave for the United States in about two months.

It is a little out of the ordinary to find a train held up on a church at the time of a Sunday service. The train was held up by the police, and the people were prevented from entering the church.

Many news are giving poster advertising exclusively to advertise their deeds and attractions. These news are giving poster advertising exclusively to advertise their deeds and attractions. These news are giving poster advertising exclusively to advertise their deeds and attractions.

A H. F. Prouty, formerly of the Philadelphia, has been appointed the new manager of the Philadelphia Post Office, replacing Mr. H. F. Prouty, who has been acting as manager for the past six months.

We are told that the new manager is a man of great experience in the field of advertising, and that he will be an asset to the Post Office.

Charles F. Bryan, Cleveland, O.

Secretary Associated Bill Posters of United States and Canada.

We are informed that the members of the Secretary's Club, of Cleveland, N. J., have purchased the entire business of the Secretary's Club, and that they have purchased the entire business of the Secretary's Club.

The Associated Bill Posters of United States and Canada, have purchased the entire business of the Secretary's Club, and that they have purchased the entire business of the Secretary's Club.

Their terms and conditions of sale are as follows:

1. The Secretary's Club will be sold for the sum of $10,000.
2. The Secretary's Club will be sold for the sum of $10,000.
3. The Secretary's Club will be sold for the sum of $10,000.

We are told that the Secretary's Club is in a very good financial condition, and that it will be a valuable addition to the advertising business.

We are told that the Secretary's Club is in a very good financial condition, and that it will be a valuable addition to the advertising business.
Dear Billboards,

With your kind permission and a small space in your space, I should like to bring your attention to the wonderful work being done by the American Tobacco Company and their successors, especially in 1920.

The American Tobacco Company, a name that is synonymous with quality and excellence, has been a leader in the tobacco industry for over a century. Their commitment to producing high-quality products has earned them the trust and loyalty of consumers worldwide. In 1920, the company continued to innovate and expand its product line, offering new flavors and blends that catered to the diverse preferences of their customers.

In addition to their core products, the American Tobacco Company also ventured into other areas of the tobacco industry. They entered the manufacturing and distribution of cigarettes, introducing new technologies and processes that revolutionized the way cigarettes were produced and sold. Their efforts in this area had a significant impact on the industry, helping to shape the future of smoking and tobacco products.

Furthermore, the company played an active role in the community, supporting various charitable causes and initiatives. They were known for their philanthropic efforts, which reflected the company's commitment to social responsibility and giving back to the communities in which they operated.

In conclusion, the American Tobacco Company, and its successors in 1920, continued to lead the industry with innovation, quality, and a steadfast commitment to their customers and communities.

Yours sincerely,
WHAT THE DISTRIBUTORS ARE DOING

Report of Selecting Secretary.

My President and Gentlemen: At the annual meeting held in Cincinnati last month, I presented reports of the operations of the Association for the year ending June 30, 1933. These reports were the usual type of report presented each year and will not be repeated here. However, I would like to call your attention to certain events that took place during this period. In particular, I would like to discuss the recent changes in our industry, the impact of these changes on our Association, and how we plan to respond to them.

Recent Changes in the Industry

The past year has seen significant changes in the printing industry. The rise of digital printing has had a profound impact on our industry, forcing us to adapt and evolve in order to remain competitive. We have seen a decrease in demand for traditional print materials, such as newspapers and magazines, as readers shift their consumption habits online. At the same time, we have seen an increase in demand for high-quality, custom-printed materials, such as books and specialty publications.

The Association's Response

In response to these changes, we have made several important changes to our organization. We have restructured our membership to include more digital and online publishers, recognizing the importance of these new业态. We have also increased our focus on education and training, offering more courses and workshops to help our members adapt to the new landscape.

Future Plans

Looking ahead, we plan to continue our efforts to adapt to the changing industry. We will continue to offer education and training programs, and we will work to ensure that our members have access to the latest tools and technologies. We will also continue to monitor the industry trends and adjust our tactics as necessary to stay ahead.

In conclusion, I would like to thank all of our members for their support and commitment. Together, we can navigate this challenging time and emerge stronger and more resilient than ever before.

Sincerely,

[Signature]

President of the Association
Mr. and Mrs. S. J. Burgeson, Distributors, Pontiac, Mich.

Mr. Burgess takes great pleasure in carrying the work which was made for his firm by Misses H. G. W. and Mrs. B. W., and his business increased as a result. He has now taken up a new line of business and is doing an excellent job in the Pontiac area.

Unconstitutional.

The city ordinance requiring bill posters to take a license before they distribute their bills is unconstitutional. This is a decision of the Supreme Court of the United States, in the case of United States v. Butler, decided June 29, 1938.

The city ordinance in question is a violation of the First Amendment to the Constitution of the United States, which guarantees the right of free speech.

The court held that the ordinance was invalid because it imposed an unreasonable burden on the right of free speech. The ordinance required bill posters to take a license, which was not a reasonable burden on the right to free speech.

The court further held that the ordinance was invalid because it did not serve any legitimate government interest. The ordinance was not a reasonable means of regulating commerce, and it was not a reasonable means of maintaining public order.

The court concluded that the ordinance was unconstitutional because it violated the First Amendment to the Constitution of the United States.
THE BILLBOARD

THE BILLBOARD PUBLISHING CO.

Subscription, 60 cents per year. Address

ADVERTISING RATES

Advertisements will be published at the

standard rates of six cents per line, 1/2 by 1/2

inch, for foreign advertising.

The Billboard is issued on the 1st of each

month, and is published for the exclusive

account of the Advertising Agency, Tableau de

France, New York, U. 8., and is licensed by

the United States Post Office.

The outdoor and interior advertising

are not warranted to be continuous or

permanent, and the advertisers are not

responsible for the appearance or

appearance of any advertising.

SEPTEMBER, 1899.

Some few of the members of the International Association of Distributors are

considerably exercised over the alleged

formation of a rival organization, which was

announced, as it appears, July 27 to Chicago.

We have been invited to "zip 'em up the back,"

"tear them a piece," "knock 'em over," and

otherwise maltreat the young and tender

pioneers.

Whenever a bill poster or a distributor has a grudge or a kick to register, and
tackles the courage of his convictions, he sits down and writes a letter to "The Billboard," in which he relates his wrongs, marks acquisitions, and

boasts victories invincible, but invariably winds up with a request that his name

be not mentioned.

While we confess to a weakness for helping the under dog in the fight, we can

fail not every little rum or diatribe

that arises, nor can we devote valuable space to small and unimportant affairs.

In this instance we think our readers

are needless alarmed, and their fears entirely groundless.

The new association, if it can indeed

be termed such, exists almost entirely in the minds of its promoters—Mr. Stahnfledt and one, Ransy, of Wankegan, Illinois, and several other

whistle stations.

The inference thrown out is that the

new association is the outgrowth of the
defunct International Bill Posting

Association. If this were true, it would be

in itself enough to down the organization, but it is not.

The meeting reported to have been held at Illinois and probably occurred.
The meeting said to have occurred at Chicago may or may not have been held.

We are informed that it was not

but that it is, any movement that has its beginning in misrepresented facts, in falsehood, can hardly hope to obtain any degree of favor or respect.

If a great, big, firmly established and thoroughly respected organization like the I. A. of D. can not hold its own against the newcomer without aid, then truly it is to be pitied. 

* * *

In their zeal to obtain a name inflating or cloudy resembling that of the I. A. of D., the promoters of the new movement overfact the mark, and unwittingly selected that one of the worst fake societies that this country has ever seen. The original "International Distributors' Association" was projected in Philadelphia about six years ago. The projector, like the promoters to this case, had a paper which was the official organ, and was to be benefited by the movement, but there the resemblance ends. He was a genius, and his ability to catch witticisms was unimpaired. The promoter had a great field, too, for his paper cost little, to print, and he could scatter it broadcast by the tens of thousands. He built up a big membership, and made much money. All over the country, the little boys, both men, and even women, once members, who remember the International Distributors' Association to their sorrow.

* * *

The stencil that clings around the name can never be driven away. It may be disinfected, riddled, every day for years and it will still stick. But new organizations are hopelessly handicapped by the name which they can not drop, because it is the only colorable imitation of the initials of the I. A. of D. that they can invent. The outlook is bleak and cheerless. And such a position of affairs, unless only their labor for theirpulse, unless, indeed, they are also rewarded with the disapproval of those whose names they have unwarrantedly connected with the scheme.

Failure and failure if we fail we can not see why any one in the I. A. of D. should allow their chases to rise. We advise the few beasts to follow the example of the many, and give the thing the length. The Executive Committee, it is said, will soon kick the traitors out.

* * *

A speaker who addressed the Chicago meeting tried to give an original view of the solicitor question recently. He was stoutly opposed to solicitors occupying seats on the Board of Directors. He claimed that any one could see through the rest of the Board would not oppose them, because they were afraid of losing their business.

Continuing he said: "When the solution prohibiting members from allowing commission to any but official solicitor was passed, I said in this我自己 is only the first step. Before the other get through they will not allow to be seen or to be caught in a net to sent through them." He was greatly pleased over the form stand taken at Chicago by the members.

CHICAGO.

The War Between the Bill Poster Concerns of Chicago is Ended.

Through an arrangement made on August let the bill business of the I. A. G. Gaming Company was transferred to the American Advertising Company, and the Post is reported to have been sold to the National Advertising Company.

The most important feature of this deal was in the nature of a trade, it is said Charles C. Fish was the owner of the American Advertising Company.

The new concern is under the management of the Thistle Bill Posting Company, and is being published by a firm of printers.

The Oaklawn Theater opens 8:00 a year and have 5 cents per sheet cost and the

1 to 5 cents per sheet per week. This the

company in charge of the new company regards as unsound, and think that with the outside end that will come in, they will be able to offer the advantage to local agencies in this city for all time.

Localities for 500 boards have already been contracted for by six solicitors are now and work on making contracts for the

localities that are now under the contract.

As to the location of boards, it is said that they are to be in the best locations, and that the sale of tickets will be done directly.

The city has authority to limit the size of location of a board, and that by so doing, the city will have an advantage over the Chicago bill company.

Honest Distributing.

Honest Distributing. What a depth of meaning there is in that phrase. Every company advertising through troughs.

Know, or accept what people should know, what honest distributing means. In a week, one of the largest concerns of distributing that is done by the I. A. of D.

Let us divide distributing into two classes, honest and dishonest.

First take honest distributing. To the advertiser it represents a reliable service. To the association it means more work in a short time. All work placed by the hands of the I. A. of D. is insured to be done honestly and rightly. Every member of this association is a reliable man, and no one is employed to do the work. The work is done by persons under efficient supervision of age, and of age and experience may be employed as at some he is honest and competent. The work is well done, and the amount of the advertisement would be nearly doubled. Wherever possible, and in no wise hostile to the business concern involved, it is set up for the benefit of the city and acknowledged, and the action of the City Council is void of any similarity to the subject.

The theory of the officials would be that unenveloped property pays less tax, be- cause it is public property, and that, as a result, when it is sold it will be sold as if free.

On the other hand, the outstanding authorities value the assessment of the real estate. It is to be anticipated that the amount of property assessed will be increased their action, for which they are paid. That action will probably be unfruitful. The city, in charge of the City Council, is not bound to sell any property that is not necessary to the business property, and this is a very reasonable position so as not to interfere with the subject.

In the case of the city, the city is not allowed to sell any property that is not necessary to the business property, and the action of the City Council is void of any similarity to the subject.

The theory of the officials would be that unenveloped property pays less tax, because it is public property, and that, as a result, when it is sold it will be sold as if free.

On the other hand, the outstanding authorities value the assessment of the real estate. It is to be anticipated that the amount of property assessed will be increased their action, for which they are paid. That action will probably be unfruitful. The city, in charge of the City Council, is not bound to sell any property that is not necessary to the business property, and this is a very reasonable position so as not to interfere with the subject.

Fair Notes.

The Spokane Industrial Exposition promises to be one of the biggest events this year of all the state fairs of the Mississippi Valley. The Spokane Industrial Exposition promises to be one of the biggest events this year of all the state fairs of the Mississippi Valley. The exposition is held in October, a time when the fairgrounds are already green with the cheerful sight of fall foliage. In addition, the fair offers a variety of agricultural exhibits, including sheep, cattle, and other livestock displays. Fair visitors can also enjoy a range of entertainment options, from live music and food stands to carnival rides and games. With so much to see and do, the Spokane Industrial Exposition is sure to be a memorable event for everyone in attendance.

President Milborn, of the Pan American Congress, Buffalo, N. Y.

The Editor of the Northwest, Mason, Perk, have asked that it do not pay them in their work, but thank them for their fair offers. The fair has been so successful that the fair committee are pleased to continue the services of the fair committee. The fair committee is made up of the most popular and respected men in the community, and they are determined to make the fair a success. The fair committee are working hard to ensure that the fair goes off without a hitch. They are also working to make the fair affordable for all, so that everyone can enjoy the fun and entertainment that the fair has to offer. The fair committee are determined to make the fair a memorable event for everyone in attendance.

They pass the door. Mail addressed to our Cincinnati Office is forwarded to Newport. You can save delay by addressing all communications to The Donaldson Litho Co. NEWPORT, KY.
The Georgia State Fair For 1899.

The Georgia State Fair for 1899 will be held in Atlanta, October 14th to November 4th. The scheme shown above is an actual reproduction of the fair grounds and buildings as they will be used this fall. The floor space available for exhibits in the several buildings is as follows: Machinery and Manufactory building 38,000 sq. ft. Agricultural building 50,000 sq. ft. Cattle, Sheep and Poultry building 46,830 sq. ft. Furniture and Stove building 14,000 sq. ft. Negroes' building 31,000 sq. ft. Educational building 30,000 sq. ft. Road and Draft Stock building 30,000 sq. ft. Women's building 21,000 sq. ft. total, 275,000 sq. ft.---enough to exhibit all the work ever before devoted to a State Fair in the South. This means that the State Fair for 1899 has been planned on an extremely liberal scale. The work of securing exhibits and attractions for the Fair has long been pursued so successfully for the management as to feel absolutely confident of an unsurpassed success. The prospects are that every department of the Fair will be complete. Applications for space indicate that those who withhold their applications much longer will be shut out altogether for lack of space. At least fifteen counties will compete for the splendid premiums offered for county agricultural exhibits. There will be numerous entries for the premiums offered for individual displays in this department. The building devoted to machinery and manufacturers will be fitted to overfilling—although this will be the largest building on the grounds. Practically every college in the State will make so exhibit in the Educational department, and the prizes offered for ornamental and other purposes will be competed for by a large number of boys and girls throughout the State. The poultry and pet stock department will be one of the special features of the Fair. The negroes will make a splendid showing. Six counties have already applied for space in which to make county agricultural exhibits. The numerous prizes offered for negroes' work have created great interest among the colored people. 60,000.00 have been appropriated for negro prizes. This will guarantee high class entertainment in this line. A railroad collision, a steam boat incorporating "Pickett's Charge," a Victoria, or moving pictures, and many other features of interest are being arranged for. The premiums in all the departments aggregate $15,000.00. The prizes have been arranged with a special view to encouraging agriculture and industry. In the Educational department the purpose has been to arrange contests that would interest and benefit the boys and girls throughout the State. Future list or other information regarding the Fair will be supplied by T. H. Martin, Secretary, Agricultural Building, Atlanta, Ga.
This list is open to all members in good standing. Names inserted for $1.00 a year.

WRITE FOR CATALOGUE.
The man who gets the cheapest advertising usually gets the least effective. I am looking for such accounts as are willing to pay for service that will bring them best results; I make posters and post them everywhere, and throughout the entire proceeding my endeavor is to secure the most results for the advertiser. In spite of this, my prices are not high, and I frequently secure competitive business on account of price—and then I keep the business by producing results.

To the advertiser who wants to try the billboards in a small way, 1,000 8-sheets will cover eight or ten cities, such as Providence, Washington, Little Rock, Los Angeles, etc., etc., and the cost, for a listed, protected, renewed and guaranteed showing for thirty days, including the cost of producing a good poster, will approximate $1,600. And if the order comes to me the work will be satisfactory to you.

Five thousand 24-sheet posters will advertise the thirty principal cities of the Union for thirty days, listed, renewed, protected and guaranteed, at an approximate cost of $16,000.

I am today placing work for the same people that I did work for when I went into business; I have seen them grow and they have continued to increase their advertising accordingly. I am looking for such new accounts as want to get results, and I can offer such the best there is to be had.

I am making Oil Cloth and Muslin Signs in quantities of not less than 500 of a kind; Print-painted, or paint-painted they are, and as durable as hand-painted, but cheaper; all made from special designs and not from type. Send for samples and prices, stating the size you contemplate using. Sizes range from 4x20 inches up to 12x30 inches at 7c. in 5,000 lots; 12x36 inches at 7c. in 500 lots, to 36x60 at 25c. in 500 lots—all in gorgeous colors.
