HELENE GERARD

The famous German University, of which she is a member, has issued a statement expressing its admiration for her work. The statement says, 'Her pictures are not only beautiful, but also have a great deal of emotional power.'

This picture was taken in her studio, where she is now working on her next picture. She has just returned from a trip to Italy, where she spent several months studying the works of the great masters.

Behind every great woman, there is a great man. In the case of Miss Gerard, that man is her husband, who is also a famous painter.

The picture was taken in the studio of Mr. and Mrs. Gerard, where they are now working on their next picture. They are both very busy, but they make time for each other and their work.

WHAT'S NEW FOR NEXT SEASON?

A VERY IMPORTANT QUESTION for park men. In the selection of new locations for next season, many operators are now considering certain parks that have not been used for a number of years. It is essential to make early decisions to secure the necessary dates and to avoid the possibility of other operators selecting those locations. It is advisable to start planning now to ensure availability of the desired dates.

BELIEVING THAT EVERY PARK MAN, in quest of new atmosphere during the coming season, and especially in the FEDERAL COUNTRY, where they have a general invitation to all motion picture parties to visit the Chisos, is interested in the development of this section, we call your attention to the following new developments:

THE REASON

If more than a hundred managers, of unimpeachable repute, testified to the same fact without contradiction wouldn't it be

as lawyers say, "Evidence beyond a reasonable doubt"?

Well, more than two hundred managers of unimpeachable names and

papers are giving.

Reliable, Unanimous,

Undisputed Testimony

That the "National Service" is not only A SUCCESS,

but a whole lot of THEIR SUCCESS.

A LONG DRY SPELL

WITH the long spell of dry weather, which threatens the heart of the Hillsisters, there is a demand for water and a correspondingly large demand for water works. A number of people have been looking around for water and the signs are that the demand will continue to increase. The Hillsisters are grateful for the attention given to their needs, but they are not content to limit their efforts to water. They are also asking for more municipal services, such as street cleaning and street lighting. These are the things that make a community, and the Hillsisters are determined to have them.

There exists a great many who claim that the showman is an essential part of American life. To those who do not see that point in time, however, the showman is a problem; the problem of how to entertain people. The first generation of showmen, however, was a problem in a sense where the high and the low, the old and the young, the healthy and the sick, all could participate.
