WEEKLY REVIEW OF PROFESSIONAL MOVIES

NOVEMBER 4, 1933

LEA.

The Shoemaker King Tut of Soviet Film

In the same spirit in which the Soviet is producing its Opera House film, they have produced a musical based on the life of the ancient Egyptian Pharaoh.

The Nazarene Closes

In the wake of the Nazarene, the last of the pre-Christmas films, we would like to offer a few words about the film itself. It was a very well produced and directed film, and it is a great tribute to the talents of the people behind the camera. The story is simple, yet moving, and it is a film that will be remembered for years to come.

College Widow Gets Bumping

A widow who has been working at the college for years is now facing retirement. However, she is determined to continue working and is determined to prove that she is capable of doing so. The film portrays the struggles of the widow and her determination to succeed.

Actors Burned

This week's film is about a group of actors who are in the midst of a fire. The film is a tribute to the courage and determination of the actors as they try to save their lives and property.

Shaw Play Suppressed

The Shaw Play is a play that was suppressed due to its controversial nature. The play was about a group of people who were trying to free their country from oppressive rule. The film is a testament to the power of art and its ability to inspire people to take action.

New Incorporations

Several new incorporations have been announced this week, including a new company that is focused on producing educational films. The company is committed to producing films that are informative and engaging, and it is a great addition to the film industry.

WOMEN TO PUP PET STAGE

Several women are now working in the motion picture industry, and they have a lot to offer. They are bringing new perspectives and ideas to the industry, and they are making a valuable contribution.

Corner 3rd and Main St., Oklahoma, Okla.
The circus season for 1906 is nearly over, and it will soon be time to make preparations for the season of 1907. To this end we wish to call attention to the fact that we are prepared to make and supply anything in the CIRCUS or SHOW TENTS line at prices that we think will pay you to investigate. We have recently moved our factory into larger and more suitable quarters. We now have on one of the largest and best equipped TENT factories in the United States. It is through no accident that this was obtained. It is our reward for 36 years of bustling, and the outcome of long and intelligent study of our customers' needs, and to their very liberal support, and to our honorable business methods. FAVORABLE quotations for immediate wants and for next season's contracts.
