## Miss O'Connell **Leaves Dorsey** To Become Mrs.

May Continue Radio Work; Kitty Kallen Takes Her Place

New York - One of bandom's biggest vocal acts will be broken up at the and of this week songstress Helen O'Connell leaves the Jimmy Dorsey band, now at Strand theater, to take up private life preparatory to marrying a young Maine-man now in training in the navy air corpa. Her replacement will be Kitty Kallen, formerly of the Jack Teagarden band.

Green Eyes doesn't intend to give up the beainess completely but will take an apartment here and probably work one radio commercial a weak. She's turned down \$1,250 a week for a theater tour of cities around here, and has sold Hollywood to go stuff it.

Thus closes one of the most successful singer-band relationships in the history of the business. Sooner or later most band vocalists, leave. claiming that they aren't treated properly. Helen O'Connell toid the Beat a few days ago that this never had been the case with J. Dorsey. That she and Bob Eberly had never had anything but heartfelt liking for him, and that the only reason she was leaving was that she wanted to get married and that she didn't think the two would mix.

Helen joined the band in February, 1939, after a Beat staffer here had recommended her to Nita Moore, JD's secretary, who talked the boas into hiring her. At that time she was working with Larry Funk's band at the Greenwich Village Barn, and living at the same (Modulate to Page 2)

## **Jazz Unit Plans For Tour Killed**

Coca-Cola Officials Abandon Scheme to Entertain Troops

New York—Plans of the CocaCola company to send a jass unit,
headed by Eddie Condon, to entertain troops abroad definitely were
cincelled here last week. Although
officials of the company, and of
the D'Arcy Agency, which handles
the account, refused to comment,
advice from Washington indicated
that Lieut. Col. Marvin S. Young,
former NBC official now in special services, frowned upon the
plan and it seemed apparent that
further delays would not be overcome.

The unit had been organised and was in rehearsal, even had a theme song writen by Mel Powell. Bud Freeman, clarinetist, went to Cleveland to be drafted, and Condon expected to feel the breeze soon. Mel Powell may join Capt. Glenn Miller's air corps (Modulate to Page 17)

### Yank Lawson Follows Peewee

New York—Yank Lawson, trumpet, has joined Benny Goodman, replacing Peewee Irwin, who had remained with the band only a few days after returning. Lawson, formerly with Bob Crosby, had been playing a pit orchestra job here.

#### Johnny McGee To Break Up

New York—Johnny McGee will break up his band shortly after his current Arcadia ballroom stand, because of difficulty in making replacements in his brass section and other troubles. He probably will take a pit trumpet job with Mike Todd's Ziegfeld Follies.

#### **Maria Kramer Buys the Ritz**

New York-As accoped in Down Beat over two months ago, Maria Kramer, owner of several name band policy hotels, is buying N.Y.'s ritzy Rits-Carlton Hotel. The price worked out is said to be around the three and a half million dollar mark and Mrs. Kramer will run the hostelry along the same nameband lines as her Edison and Lin-

band lines as her Edison and Lincoln N.Y. spots when she takes over on February 1.

Incidentally, bandsters report that Mitchell Ayres had to take his outfit off the stand at 2 a.m. New Year's Eve because of Mrs. Kramer's unwillingness to pay over-time. The killer is that insiders estimate the Lincoln's Green Room, where the band plays, would have more than made up the over-time money in food and liquor sold. As it was, the crowd disappeared just as soon as Mitch and his boys went off, and a four-piece combo took over.

## Burger and Dorso **Quit Savoy Plaza**

New York—Following a squabble between the active management and the board of directors of the ritry Savoy Plaza hotel here, arising over the engagement of Lena Hosne, colored singer, Manager Don Burger, Dick Dorso, booker, and Allen Meltzer, press relationatendered their resignations, effective immediately.

Despite the fact that the Horne girl is said to have drawn custom at least 20 percent in excess of marks established by such artists as Hildegarde, Jean Sablon, Larry Adler and Morton Downey, the management and the directorate could not get together on operation policy.

Dorso has established personal management offices in the Squibb building, Meltzer has joined the script department of MCA, and Burger plans a hotel management firm.

#### May Broadcast **Duke's Concert**

New York—Alan Courtney, at press time, was attempting to negotiate for a broadcast, via station WOV and the Atlantic network, Duke Ellington's concert at Carnegie Hall on January 23, being staged for the benefit of Russian war relief.

During intermission at the concert, Ellington will be presented with an award of merit by music world luminaries.

#### Lyman Was Slow -Maria Worried

New York—Abe Lyman, sched-uled to open at the Hotel Lincoln here on January 7, was not ready and it was believed it would be at least another week before he could start the engagement. At press time, Maria Kramer, operator of the hotel, was tearing her hair in an attempt to find an eleventh hour replacement.

# Spivak Leaping at Pennsylvania

## **Earns Special Award for Band Achievement**

**Every Known Record** At Pennsy Shattered By Charlie's Trumpet

by Mike Levin

Chartie Spivak's covers at the Betel Pennsylvania for the week anding January 2 totalied 4,202. This not only topped Glenn Miller's record of 3,886 for the same week last year, but was the first time in the history of the hotel that total covers had exceeded the 4,000 mark. Spivak's high for a single night is 887, just nine less than Miller's top mark.

New York — The above figures tell this tale. Charlie Spivak came, saw, and konked the opposition. His former boss, Glenn Miller;

saw, and konked the opposition. His former boss, Glenn Miller; Benny Goodman: Artie Shaw, and all the other outfits that have worked the Hotel Pennsylvania here found their records swamped in the deluge of business that Charlie has been drawing.

Eight months ago, I said that Charlie Spivak looked like the band of the year. And that I thought he would eventually overtake the lead of Harry James in the popularity contests. Last summer record. Then he came on with My Devetion and White Christmae plus a series of fine dance records that put him on top in the Beat's dance record division. Last week as a result of his finishing fifth in our cumulative figures, Charlie was awarded the Beat's special achievement award as the new band which had made the biggest stride into the bigtime this year.

#### Some Changes Made

Thus there are lots of voices howling in the wilderness with me, people who claim that not only was Charlie Spivak the big deal in '42 but that given the right breaks in '43, he will be right in there slugging with James and Dorsey for top commercial honors. Here's why: when I last re-

Dorsey for top commercial honora.

Here's why: when I last reviewed Charlie, I claimed that he was being top quiet on the stand, suppressing his fine horn work under a trick mute, and standing back with the brass so much that Dave Tough's shoes, an almost intended to the crowd didn't know who was leader. This is no longer so. Spivak is playing mostly open well. Proof of that is that the

San Francisco—This is a patriotic strip tense, if you please—and you're bound to please, or at least be pleased by this shot of beautoous Ada Leonard stripping off her ailk hosiery for the duration. She waited until after Christmas so she could first hang 'em for Santa, and what do you think she got? A perfectly swell week's engagement with her all-girl hand at the Golden Gate theater here. But it didn't make the stocking look as pretty as does Ada's or-re-r limb!

horn now—much of it soft, but a great deal of it with a boot that aluga the band's brass up to Cloud? His natural elation over his outfit's wonderful performance has made him alive and amiling on the bandstand, a showman instead of a nice guy fronting a good band. People are aware of Spivak the leader now as well as the Spivak band—and they like it.

#### Rhythm Still Swings

The rhythm section without Dave Tough and Dave Mann (piano) swings just as much. This can be laid directly at the door of one James Middleton, a sterling bassman if there ever was one. bassman ir there ever was one.
The guy never stops swinging, getting a huge tone that fills the entire room and provides the band
with a fine foundation of resonance. A wonderful showman,
James admits that now and then James admits that now and then his bouncing while playing might be a mite overdone. As far as I'm concerned, he can change funny hats every other 12 bars as long as he plays the way he does now. No slouch on the rhythm either is gitboy Kenny White.

Leering at Lovely Lynn

Newark, N. J.—Dig the lose that Paul Brenner, disc spinner at WAAT here, is tossing toward Lynn Gardner, Bob Allen congstress, while at the right Boss Bob chortles at the wolfing, the cad. Shot was taken at Brenner's inauguration of a new idea on his Requestfully Fours. Every Friday come 5:30 p.m., a different band leader spins the records and gives out with anecdotes and stuff.

band still jumps lightly. Now and then he rushes, but Middleton just clamps down a little harder and he falls right back in.

The braas sounds the best it ever has. Now up to four trams, the slide section has the best tone of any in the business, and even though fine hotman Bill Mustard is no longer there, swings constantly with tasty phrasing and gutty attack. Much the same goes for the trumpets, especially when Spivak plays lead, at which he is tops for my dough.

#### Reeds Okay Now

The last review complained about Charlie's reeds, saying that they weren't full enough. Comes leadman Willie Smith. Comes on leadman Willie Smith. Comes on the sax-section. The organ-tone has to be heard for best description. Smith's lead is driving but subtle, and his solos, especially on pretty tunes, are excellent. My only beef now about the reeds is not in their playing, but what is done with them behind Spivak's lead horn. Arranger Sonny Burke's wide voicings are A-1 on jump tunes and up ballads (see People Like You and Me), but they don't give as full and rich a background as Spivak's beautiful horn deserves for the slow ditties. At press-time Spivak was huddling with his staff on this angle.

Another slight kick is that the band needs a few very light up tunes in its boots, it having a slight tendency to kill 'em all as soon as it leaves ballad tempos.

Vocal department is much improved. Stardusters are a fine vocal group. while the only thing

Vocal department is much improved. Stardusters are a fine vocal group, while the only thing wrong with Garry Stevens singing is that he sings too softly. If he could step back and let out just a little, it would make a tremendous difference in the way his voice registered. Willie Smith's items on the necessity of knocking a kiss and saving fat are a killer commercially as well as for kicks.

#### Driving Enthusia

Best thing about this band, and something that everyone who has heard the band in and out of the trade has noted, is its driving enthusiasm. There are lots of polished bands around. This is the first big outfit since the big days of Benny Goodman that sounds like 17 men raring to tear heck out of an arrangement. Glenn and Tommy were pretty, but this band out of an arrangement. Glenn and frommy were pretty, but this band is pretty one moment, and savagely swinging the next. It's the first big outfit I've heard in years that was exciting not only for its musical quality, but for the sheer feeling of excitement in its music.

Last time we said that given a few changes Charlie could clap hands and count the chira. Now I

Last year Pvt. Byran and Pvt.
Altwarger (whose professional name is Georgie Auld) were working in Benny Goodman's band.
There was trouble at that time, Bryan and Auld claiming they quit because Goodman was a bad guy, BG stating that he had fired them for "constant grees misbehavior."

At any rate, Auld went on with his musical activities, while Bryan later went to the coast, joining the Santa Ana Air Corps band. After a short time there, he was transferred to an Arisona camp, being dismissed from the band, along with two other well-known musicians, with the preferred charges mentioning the use of marijuana. Around the same time, Bryan was found playing with a civilian band in civvies. Later when he was stationed in Arisona he got into further trouble for being AWOL, he being at the Trianon at the time to hear a famous colored band.

Moets Ursula's Friend

Shortly after this Bryan was transferred to Miami, where his real troubles started. While there he met 40-year-old Ursula Parrott, four-times-married fiction writer, four-times-married fiction writer, who, according to acquaintances, "was infatuated with Bryan." She provided him with a ticket, and late in November, Bryan fiew from Miami to New York, staying at a suite which she allegedly got for him in the Pennaylvania Hotel, after a civilian outfit had been purchased for him.

During this time, Miss Parrott introduced Bryan to a friend of hers, saying that she had known him a long while. This "friend" later turned out to be Roy Anderson, agent of the federal narcotic bureau.

During this time Bryan told several persons, including a friend of his, Rose Reynolds, a singer who closed at a 52nd St. night club two weeks ago. that he was very brought down, and that he wanted to get hold of some "tea" to take back down to Miami with him. Miss Reynolds, trying to do Bryan a favor, went to several places in town, along with Anderson and Miss Parrott, attempting to purchase some of the drug in loose weed state, but was unable to obtain any. During this time Bryan told sevtain any.

Raised the Price

Bumping into Auld in the Forrest lobby, she asked him if he had
any ideas as to where any might
be purchased, and they both decided to try Teddy Reig, a mutual
friend who had been around the
business for years and knew everyone connected with it. Reig didn't
want to do it, but was finally persuaded, with the additional proviso
that he raise the price to Miss
Parrott \$25 so that Auld, who was
broke, could purchase a gift for a
friend.

Reig went upstairs to Miss Reynolds' room in the Forrest, where

Reig went upstairs to Miss Reynolds' room in the Forrest, where in the presence of Miss Reynolds, Anderson, Miss Parrott, and Bryan, he called a friend of his, named fork Chops, uptown and arranged to purchase a half pound of marijuana for \$75, adequate for aeveral hundred cigarettes. Reig then left for uptown with the money and cabfare, and returned, giving the \$25 on the q.t. to Auld and the half-pound to Anderson. Bryan in the meantime had left, having to catch his plane for Miami. So the "tea" was split, half the amount being given to Anderson who "happened" to be going to Floirda on

When Anderson arrived in Florida, Bryan was already on his way back to New York by plane. This time he let it be known that he wanted enough to last him in Florida and also if he should be transferred to Camp Kilmer. It was agreed that a full pound would be needed (\$100 worth). Once more Reig climbed in a taxi, and hunted around, this time not without protest from Anderson, who claims. For some unknown reason, she concealed Bryan in the meantime. For some unknown reason, she concealed Bryan in the back of her car, drove him to her back of her car, drove him to her back of her car, drove him to her back of her car, drove him to a hotel, only to turn him over to the authorities 24 hours later.

And meanwhile had returned to Children where he had been put on post probation for taking a quarter pound from Bryan, and Bryan taking a half bound with him on the plane to Florida.

While Bryan was on the plane, Anderson began making arreets in New York, and the guitarist received a wire in Atlanta telling to the set the news anothing the case to the news not him person, and proposed that a full pound with the others, is the result of the plane and that \$100 was a plit, a quarter to took him to a hotel, only to turn him over to the authorities 24 hours later.

## **Hampton Cracks** Regal Record

Chicago—With seats filled and a constant overflow of cash customers standing along the walls of the Regal theater on Chicago's South Side, Lionel Hampton shattered the all time attendance record for the theater early this month.

Aided and abetted by Lady Day (Billie Holiday), Hamp drew over 20,000 people in his seven day stint. The consensus was that the young Hampton crew (with many new chairs replacing army draftees) was nothing short of terrific—

#### Lionel Burns. Feels Cooler

Chicago — There's a slow burn on the disposition of sunny Lionel Hampton as he considers Illinois Jacquet's dropping from the band because of illness, and then coming through town a few days later on his way to join Cab Calloway. It's not like the Cab. Could Jacquet be the offender? offender?

The burn was replaced by grins, though, as Hamp reintroduced Arnett Cobb to Chicago in Jacquet's place. # **Beat Staffers Slug It Out Over Right Method** To Sell the War Bonds

(A bitter controversy is sweeping the ranks of New York's disc jockies on how to sell war bonds. It started when Alan Courtney, WOV record-spinner, decided to give up the premiums he had been using to attain sensational bond sales, and to stick to straight bond plugging. In doing so, he engaged in some fairly heated wordage with fellow platter-chatterers Dick Gilbert and Martin Block. Block, who started the large scale gimmicking with a free copy of Der Fuehrer's Fece for a fifty dollar bond purchase, has mostly purchased his "gimmicks" himself, while Gilbert, who last month sold \$500,000 worth of bonds, has relied on tie-ups with various theaters and sporting enterprises to get his givenways.

givenways.

It's an important point. Music has and is being used to sell vast quantities of war bonds. The particular way seems important enough so that the men concerned have not hesitated to read statements several times over the air.

The Beat's N.Y. staff started to report the affair, and found itself at odds, with the result that Mike Levin, N.Y. ed, has written a column defending Courtney, while Frank Stacy, assisting ed, is cudgeling for Martin Block. The boys slug it out below.)

defending Martin Block

If giving away theater tickets or phonograph records or any other gimmick means that war bonds will be sold, then I'm all for it.

It may be unfortunate that some American citizens need lures, and comparatively worthless ones at that, before they perform their recognized duty. I'm far from convinced, however, that offering premiums is perverting the democraticides, as has been suggested by the opponents of such high-pressure bond selling.

Bonds Will Wim War

For some reason, the American

as any comparative ratio in gare, but shrewd staffer Stacy, a keen and canny writer.

However, I still claim they both are not only up the wrong tree, but with their pants hanging in shreds to boot.

It has been pointed out that Courtney has been outsold by both Block and Gilbert. Quite true—though one night, just to see what happened, Ceurtney's offering of a pair of baseball tickets brought in over \$10,000 in one hour—before he called it off in disgust. Don't forget too that Block works for a station that has had an established record program longer than Courtney's, that his audience is undoubtedly larger, making comparative figures a little inaccurate.

Don't Need Flim-Flass

Don't Need Flim-Fla:

Den's Need Flim-Flam

Skip, too, the charges of the Courtneyites that actually the reason Block and Gilbert are giving gimmicks is to give their sales offices proven records of sales pull. Both men are established, don't need to indulge in that sort of fim-fam. But despite that, Courtney is still right, and the others dead wrong.

Block told me over the phone that he didn't care "whether it's radios, iceboxes, or war bonds—as long as I can sell a lot of them, I feel that I'm doing my job."

That's exactly the point—bonds aren't like everything else. They are representative of the government's fiscal policy and not cheap radios or bad eyeglasses. The argument that this may be true, but that it doesn't hurt as long as you get the bonds sold, is equally wrong.

Reasum for Bonds

In the first place the reason

way risks making a mockery of
exactly what we are fighting for.
In other words, "Sell 'em simple,

Reason for Bonds

Reasum for Bonds

In the first place, the reason that bonds are sold is not to finance the war—though in some respects it obviously helps. The primary purpose is to soak up excess spending power which would cause inflation and wreck the structure. If bond-buying stopped tomorrow, we would still go on fighting the war, even if we weren't "paying" for it.

We discovered almost ten years ago that paper money doesn't rest on gold—it rests on people's confidence. Germany had an inflation after the last war because of fear, while we devalued and remained stable because of confidence.

The same must hold true of bonds. If we mix their sale up with carnival methods, inevitably the bidding must be forced up until the bonds themselves are practically worthless. While theater tickets may bring 'em out today, it may take a cow or half a house tomorrow. The answer still is, sell em plain, and make people realize that what they are buying MUST

## Marine Chiefs Nix McKinley **Deal for Band**

Criticism of Non-Combat Service for Other Units Blamed for Decision

Los Angeles—Deal under which Ray McKinley and most of his bandsmen were to join the maxine corps as an entertaining unit lim-ited to non-combat service, has

corps as an entertaining unit, limited to non-combat service, has fallen through.

Arrangement was set at the local recruiting office here, where Ray and other members of his band took their physicals and took the preliminary steps toward enlistment. Los Angeles—The entire Spike Wallace ticket was re-elected at recent Local 47 general election for another year. The total vote, although the lightest in many years, was larger than most expected, running approximately 1,700. Union's membership is well over 7,000. It was figured that with a large number of musicians in army bands and hundreds of others working in war industries a small turn-out for the balloting would be inevitable.

Wallace faction was opposed by a group of candidates headed by California's new state senator, Jack B. Tenney, whom Wallace defeated for the presidency three years ago and who was trying for a come-back.

Nixed in Washingto

The order cancelling the entire deal came from marine headquarters in Washington, where the enlistments had been sent for approval. No official comment on the incident was forthcoming here, but sources which would have reliable information said that the marine chiefs had nixed the idea because they did not want to "set a precedent" which would be a departure in policy. McKinley could not be reached for comment at writing.

"Criticism" Mentioned

'Criticism' Mentione

Same sources stated that the McKinley deal had been cancelled because of criticism of such arrangements which had been carried out in branches of the marmed services," specifically mentioning the enlistment of Phil Harris and his band in the coast guard. Philadelphia—And now the bartenders have entered the field with their "ten best" list.

Joining radio editors, film reviewers and fashion experts, the Bartenders Union of Philadelphia, Local No. 116, announce what they consider the ten best records played on the coin machines during 1942.

First in a new series to follow that started some time ag in the popular field, this column will be devoted to out-of-the-way items that either have been overlooked in the gen-

eral scuffle, or are of particular interest to those who have previously only bought the Bluebird Ellingtons. You won't like every one of the records listed here. But all of them are worth a listen, and given enough time, you'll end up adding them to your collection.

Not all of the Victors listed here, for example, are to be found in their new "duration" catalogue of some 2,000 items. However, most should still be found on dealers' shelves and fairly easy to get for some time yet.

#### Modern

**Igor Stravinsky** Octet for Wind Instri

New York—Al Trace and his orchestra took over at the Plantation Room of the Hotel Dixie here on January 5 when Teddy Powell bowed after having successfully inaugurated a name-band policy for the hostelry.

Local trade paper reports that the Dixie is dropping its name policy after one try, made suppolicy after one try, made suppolicy after one try, made supposedly for the publicity, don't make sense. Trace's outfat is made up of eleven men, four less than Powell's and the scale wage difference isn't enough to matter.

Octos for Find Instruments

Columbia X-25 (1931)

Scored for two trumpets, trombone, clarinets, flute, bassoon, and oboe, this little-known score is igor on his nec-classical slant. Right after he finished his famous ballets (Bite of Spring, Firebird, and the provincial), Stravinsky started playing around with older chamber provided. There are some moments which certainly predate Alece Wilder, others which are biting satire on the elephant-style walts

music found in this country, and most of all, dexterous scoring of a group of seemingly unblendable instrumenta. The playing and re-cording could be a lot better, but there's much here for respinning.

#### Classical

J. S. Bach The Art of the Fugue E. Power Biggs-organ Victor 832-3 (1942)

These albums are wonderful buys for two good reasons: the organ here is a real musical instrument, and they make clear much of the gibberish that the longhairs are wont to fling around about "development," "inverted theme," and "counterpoint."

theme," and "counterpoint."

Biggs plays this series of 18 fugues and a choral on the Barogue organ at Harvard. Unlike the monstrosities to be found in any large theater, this organ was built to sound like those of Bach's day, and for once I go purist and agree that the past is a distinct improvement. You don't get any of that pond-derous mush and heavy tone that makes an organ usually sound like a wheezing beer-drinker. The tones are clear and crisp, and the result is music instead of a mammoth dish of luke-warm cereal.

The other day Deems Taylor told as lush a fable over CBS as I've yet heard. He went ranting on for some fifteen minutes about the dearth of American conductors, saying that when most of the orchestras were formed at the turn of the century, there were no men around with sufficient experience, so that leaders

had to be imported. He feels that now a dangerous tradition has been built up, citing the fact that when Howard Barlow gave his concerts recently at Carnegie Hall, over a three-day

period, only a few hundred tickets were sold besides the regular

Victor 2035 (1936)
Backed by the Philadelphia Orchestra, Melchoir makes the rafters bounce with this one. Anytime someone tells you they like Wagner played by an orchestra, but don't see the sense of husky men and women bellowing their lungs out on the stage, shove this under his nose. It's melodic, potent, has a swell swing, and Melchoir sings as only he can when he hasn't eaten too much the day before.

The best double piano team in the country play Rubinstein's composition for double piano. A three part work with an added prelude, the jig is not only tuneful but a wicked whack at Percy Grainger. Carnegis Hall, over a three-day period, only a few hundred tickets were sold besides the regular season-list. He claims that this is terrible, that Barlow is a wonderful conductor, and that the public ought to be ashamed if itself.

Who is kidding who, as they mutter in the ancient Gaelic? In the first place, Barlow gave concerts that were almost completely contemporary American music, much of it very second-rate. American music should be played—fine—but let people have it easily, sandwiched between a touch of Tachaikovaky and Rossini. Some carpers claim that Barlow knows this as well as the next man, that he scheduled his programs thusly so any lack of attendance would be blamed on the music and not him.

At any rate, Taylor must be thinking of his CBS paycheck. That Victor has furnished with the albums, you can see exactly how a fugue is constructed—and you don't have to be able to read music. It's obvious just by the way the notes appear that an "inversion of the theme" is nothing more than going down when you went up originally and vice versa. ## KEEPING UP WITH TERRITORY BANDS

Larry Geer, secretary-treasurer of the Midwestern Ballroom Operator's Association, has informed this column that the association is attempting to get away from the word "dancehall" as one means of improving ballroom business.

He urges all people connected with the business to co-operate towards the end of adding to the prestige of the business through this first simple rule.

Del Stanley's trio is signed through March 21 at Cold Springs Inn, Gloucester, R. I. They started at the spot in November.

Bernice Pflender is the lovely now singing with Jack Smith's orchestra around Utica, New York. Miss Pflender has been doing dance hand work for less than a year. Bill Pierce, saxist, who formerly arranged for Bob Croaby, is arranging for the ten piece hand. Chuck Mason is on piene.

West coast's Zucca's at Hermosa Beach is once again in its habitual solid groove with the new Jack Moran band. Jack, who once played for name bands, is on piano. Howard Rumsey, ex-Kenton bassist, Pat Fatterson. Fio Rito drummer, Harold Moe, ex Red Nichols trumpet. Burt Johnson, Ozzie Nelson trombone man, and Hugh Hudgins, Pollack tenor, are among those present in the combo.

The enole band turned out to play at his arrival, and the band in turn drew a crowd of innocent bystanders to the depot, giving True about a 500 man reception. He later joined the band on the job for an informal resoon.

#### **Essex House Using Small Band Only**

New York — More band spots curtailed their activities here last week when the Easex House amounced it would continue for at least the present with a small band, while Joe Marsala's departure from the Log Cabins in Armonk leaves that spot operating on weekends with small units. Previously reported as abuttering were the Astor Roof, Glen Island, and the Rainbow Roof and Grill.

#### Hot Jazz

Che Borry and his Little Jazz Ensemble

Stardast and Body and Soul-Commodure 1502 (1938)

Backed by Danny Barker (guitar), Artie Shapiro (bass), Clyde Hart (piano), and Big Sid Catlett (drums), Chu Berry and Roy Eld-ridge rip off two sides here that ecame closely identified with each. became closely identified with each. Little Jazz liked Soul's single-double time especially and drags it out along with his horn case. Reason for the pseudonym of course is that Eldridge was undercontract to Vocalion at the time with his own band. Sides are well-recorded save for a master defect on the first which causes a wavering of key. Roy plays well, but Berry cuts him to shreds, with a dazzling display of idea after idea. Budding jamsters should dig the way he backs Roy's last few bars on Dust, giving a riff as well as harmonic background—no mean trick.

#### Swing

Ambrose and his orchestra Hick Stomp and We're Tope on Saturday Night—Decen 1233 (1937)

Cipsor)

Don't get me wrong. This is neither the acme nor the acne of music, as rival camps would have you believe. It merely was the best British band, with the key slots held down by American musickers. Occasionally a little good jass is to be heard; and most often, good, clean instrumental backing. This does not hold for their dance music, typically English awful. Stomp is a little known Sid (Night Ride) Philips score. Well-paced, it leads with typical Ambrose Dix clarinets and 7 part brass. Piano following isn't too good, nor is the building up of the simple riff. Follows a fine Tommy McQuarter trumpet bit (and lie ain't American), into a Lew Davis tram Miff Molian effort. Then Danny (Claude Thornhill) Polo's clary into the final chorus, which incidentally utilises the tunable kettle drums that this band brought into dance work. Fluff the filp-over.

#### Dance

Artie Shaw

Dencing in the Dark and Smoke Gets In Your Eyes—Victor 27335 (1940)

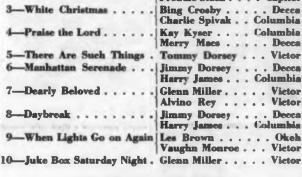

Aptly named, this disc. It's one of the prettiest Artie did with his stringed band, fiddles being richly voiced on the first chorus and the tempo picked for an easy beat. And when the Shavian seer plays straight lead clarines, there are very few who can touch him. Les Robinson's lead alto is tops all the way through. Second side is a small combo version that down't fit here.

For a hair-raising difference, listen to Helen Dowdy's Strawberry Woman's Call, filled with quarter tones and rich resonance. #### Novelty

Jimmy Dersey's Orchestra and Josephine Tummials
The Blue Denube and The Wren-Desca 29009 (1936)
One of the biggest laughs of all time, this was swiped from the famous Andre Kostelanets - Lily Pons radio version. Starts out with Tunminia, one of the Met's second-rank coloratura's taking a high dive into the famous waits with 1D's band-backing including a celeste. Then a double time charus with the dame holding the high ones, while the boys riff, JD noodles, and McKinley lightly lays it on the cowbells and woodblock. Into a half-time modeled on the famous Ray Noble arrangement, shuffle rhythm and all. Add a duet

solo with JD, and a run-out to a photo-finish. They didn't miss a trick on either of these sides.

stely after the story broke originally, the Beat's N. Y. office was deluged with requests for information, both from prea and from individuals. At first our attitude wa don't know a thing"; but when the big news weeklies began checking, with intentions of running a story that would be injurious to the whole business, we started thinking. And when one of the leaders concerned called up in a panic lest his band be ruined by adverse publicity as being a bunch of "tea-hounds," we knew that some action was in order. Finally two weeks ago we received a tip that one of the big p.m. dailies had cornered a letter from a Florida musician, saying what a ball the band was going to have when Bryan arrived with the tea—also that that same paper, not widely known for its ethics, was going to spray the whole music business on its front pages with as much dirt as could be possibly found. Newspapers may need "scandal" for circulation, but there is no reason to pick on the music business. Bryan it is true

We know that there are musicians who smoke tea. We also

know that there is only an extremely minute number who do it. We know that there is a select click that has been working in the top bands for years who do it, and we know that they are going to get it in the neck if they aren't careful. And if the business as a whole isn't careful, it is going to take a bad rap along with them.

Once more the old bogies are going to be floating around. "Musician" is going to be synonymous with "weed hound." The business neither deserves nor can stand a national cam-

There is another slant too. The services are determined to wipe out any situations which may act to the harm of their members. Don't you know that if a girl

In our battalion we have quite a few good musicians and the only thing that stops us is a lack of instruments. Otherwise we could form a fine band to entertain our buddies. We wonder if you can halp me.

#### **Wants Individualism** Cleveland, Ohio

To the Editors:

To the Editors:
Here's one cat who burns when she hears such fine musicians as Harry James, T. Dorsey etc. accumulating such large orchestras that there is no longer any individualism in their arrangements and their playing. These huge bands all sound the same. In a swing tune they all blow their brains out trying to out-play the various other 30 odd members so that this present-day screeching contest loses all semblance to good jazz.

Here is why we like to live in the past when it comes to good jazz—why we speak of Miff Mole, Beiderbecke, Teschemacher, and king Ofliver in hushed tones. There was good jazz then because the musicians were given the chance to play individually by their leaders. Goldkette, Pollack, Trumbauer, etc., kept their bands small enough

To display the talent of the members. But put the heat artists in the country in some of the hands we have today and they would be lost. Twelve pieces is certainly enough for any band but when it hits the 30 mark, that's just too much. Also leave the harps to A. Koatelanetz who puts them to good use. They look pretty silly in a dance band.

The Benny Goodman sextet put out some really mellow jazz numbers because you could actually hear Charlie Christian's good guitar. You could get some kicks listening to Lionel Hampton's vibraphone, Artie Bernstein's bass and Benny's horn dish out a fine beat. Bob Crosby was also smart enough not to bury his talent under 30 pieces of noise. He featured Stacy, Haggart, Bauduc and Rodin and consequently the Dixieland Band is known around the country as a very talented individual and solo group. The sepia bands put out more true jazz, blues, and boogie numbers than all of the whites because their outfits are smaller and because they play with expressiveness and good tone, still maintaining terrific drive. Loud, senseless noise, not music, has become the standard of today's band leader.

Kurt laughed at me when I said Clyde McCoy's Sugar Bluss was not jass. He said, "True jass burgeons only from an uncompromising validity toward the roots of spontaneous creativenes." Cosh! I had to admit he had something there. But what does it mean, diary dear! Heard Lombardo over the air today. I think I did detect a cortain lack of emotional validity, at that. 10/7. Dear Diary: What do you think! I bought a Benny Goodman record today.—A String of Pearls. My, it's certainly different from Kay and Wayne and Shep and

Guy and etc. I just couldn't keep my feet from tap-tap-tappin'. Gusdman has got that certain rhythm, all right, and plenty of uncompromising validity, too, I think. He sure plays a wonderful "licorice-stick." (That's swing-slang for clarinet!)

11/17. Diary: Bonny Goodman is sweful. Kurt said so and I agree, I guess. He said Benny has no transer impulsions toward the creative rootenment of an authentic folkidiom. Of course! I can't understand why I never noticed that. Kurt said I ought to hear a "gete" named Rappolo for real clarinet genius. Kurt himself praised me on my sensitive analysis of this genius (unfortunately, by the way, Bleary-Puss has not been heard by any known living man) and remarked that I was indubitably a critic artistically responsive to the deepest intentions and latent impulsions characteristic in the unsullied, intercorrelative jazz approach. # Ellington to Offer 'Tone Parallel'

# Black, Brown and Beige **Are Three Movements** Of New Concert Piece

by HELEN M. OAKLEY

On the 23rd of January, 1943, Duke Ellington is contracted to appear on the stage of New York's Carnegie Hall to perform an initial American concert presentation of his own works. The occasion will mark the first public performance of the long attended, widely discussed Tone Parallel, the latest and to date most significant work yet delivered from the pen of the famed negro composer.

Because of the sharp musical interest and discerning attention which always have been noticeable throughout this period.

Beuilderment of the English and Engl

Because of the sharp musical interest and discerning attention which always have been noticeable features of the English and European receptions accorded the American Duke, the latter admits to a preference to a continental audience. "They exhibit," he says, "a surprisingly keen interest in what we are attempting to do." He adds, with an engaging amile, "and more surprising still, they are generally aware of our short-comings and successes. Audiences of such caliber are an inspiration. We're stimulated to superior performance by their sound musical intelligence."

Plans Serious Concert

Unlike the Goodman offering and those of others in the dance field who have advanced on Carnegie, the Ellington performance will be a serious program hailing the attention of Carnegie's customary patrons. Regardless of box office returns, if a sincere interest and an intellectual discernment are not notably factors of the New York audience reaction, it will be, Duke Ellington is quoted as saying, a great disappointment to him and, he considers a deterrent to the ambition of all progressing American musicians. In his most recent contribution to American music, A Tone Parallel, written expressly for the concert and concerning which wide-spread interest has been evinced by critic and public alike, the renowned musician-composer, celebrated for his American kullahy, Blue Bells of Harlem, Reminiscing in Tempo, Solitude and Sophisticated Lady, Introduces a pioneer form.

and Sophisticated Lady, introduces a pioneer form.

Acknowledging an aversion to identifying music — Ellingtonian with any accepted classic form, Duke designates his latest work a Tone Parallel. It is to be presented in three movements, but he emphasizes, this construction has been used simply because it satisfactorily lent itself to the presentation of his ideas. "The things we use," Ellington says, "are purely Negroid—we want to stay in character. We are, in the final analysis, the only serious exponents of Negro music."

Can't Call It Symphony

Bewilderment of Freedo

West Indian influence predominant throughout this period.

Rewilderment of Freedom

The fanfare heralding the Civil War assumes the proportions of a gigantic rocket which, ultimately spluttering into a thousand pinpoints of color, represents the countless, conglomerate aspects of mood, of station, of life itself which incorporated, made up the turbulent aftermath which sequelled the awesome Civil struggle. The predominant musical note struck here is that of humor, light, laughter-ringing pathos sounded only in the strain of bewilderment and fear involved by the frightened old folk, told to go free and uncomprehending where or how to proceed.

The third theme is a blues strain that depicts the heartsches and sorrow that ensued from the "lovetriangles" which characterized the post-war conditions of a battle-scarred nation. The second movement is elimaxed finally in the upheaval that signals World War No. I and the calm of exhaustion that succeeded it, when the American Negro found time to stop and think.

In the third movement a subtle and sophisticated mood is introduced. A purposeful false theme signals what Ellington phraseology terms "the recognition of the Harlern Hotcha," the profound inculcation impressed at that time upon public opinion, the musical note sounded as blatant, noisy, fictitious Musical portraiture of a boisterous and chaotic care-freedom symbolizes the erroneous conception of the American Negro then universally entertained.

Religion and Education

Religion and Education

Religion and Education

Progressively the looming hilarity as dispersed in the findings of research and understanding which reveal the race, in general, bent on education and culture, apiritual and material. It is revealed there are more churches in Harlem than the vaunted cabarets. The people respond not at all to the tom-tom, the schools claim their allegianca. "Without," Duke Ellington asys, "anough food, with no clothes at all, with hardly a roof over his head, even the poorest share-cropper struggles to put his kids through school."

The penultimate musical strain comes down to earth. A deep sincerity advances the motif, a note instinct with strength, stability and purpose. Progressively, the melodies from the first movement are brought forward, complimenting the sum of the present with the strains of the traits and heritages that went before, and here, in the complex interchange of melody and counter-melodies, the confusion of the struggle for solidarity is revealed. While wish advances on fulfillment, yet again America, the native land, finds herself thrown into war and, as always in the past, the true spirit of the American Negro rises once more to protect the flag. The magnificent Black, Brown and Beige again prove themselves to be Red, White and Blue and the Tone Parallel moves on to its close.

Other Works Scheduled

In addition to premiering the the only serious exponents of Negro music."

Can't Call it Symaphony
Disclaiming the symphonic idea on the grounds such a designation implies complex orchestration involving 110 pieces, he states his Tone Parallel may be conceived a symphony only inasmuch as a symphony only inasmuch as a symphony only inasmuch as a symphony involving no more than 16 pieces can be conceived. We are not attempting," he clarifies, "to produce a magnificent affair. We desire to remain true to self. The music was inspired by the character of the playing of the men in the band and is characteristic of ourselves, and, we hope, of the saga which motivates our effort. Quite simply, we are waving a musical thread which runs parallel to the history of the American Negro."

Designating the three movements of the Tone Parallel, Black, Brown and Beige, in the first, the composer advances two themes, the Work Song and the Spiritual. The second movement is punctuated by four short fanfares which represent war, the four which occur during the time-span represented—the Revolutionary, the Civil, the Spanish-American and in the Spanish and the Spanish and the Spanish and the Spanish and the Spani

### Elmer Theiss Denver Likes Has New Band Herb Miller's

St. Louis—Elmer Theiss, local trumpet man, bears watching for his new combination of three tenors, trumpet, trombone, piano, drums and guitar. Theiss features Jack "Five-by-Five" Brown, the guit-box man, both on solo work, and on vocals. Elmer, too, takes a turn on the vocals.

New Year's Eve found St. Louis sold out at all spots. We had Eddy Howard at the Chase Club, Henry King at the Starlite Roof; Johnny Lyons at the Claridge; Nick Stew art at the Club Continental; and the ever popular band of Jeter-Pillars at the Club Plantation.

haif-way programatic break, Duke Ellington will perform his American Lullaby, occasioned originally in the demand for American forms by ten American composers and commissioned into being together with offerings from the pens of Ferde Grofe, DeRose and many others. Conducting the L.A. Philharmonic in the Hollywood Bowl, Meredith Willson recently performed this entire sequence of works with signal success, subsequently recording them. Duke will also present the band in his own Blue Bells of Harlem which was written at the request of Paul Whiteman on the occasion of the latter's 1938 Carnegie performance.

## NorvoGroovy And Toronto Fell Right Out

Toronto, Canada—Home in time from Montreal on New Year's leave to dig that suave subtle Red Norvo type of small combo jazz at Club Top Hat, where he fulfilled a profitable week's run with an out-fit that jumped in a strictly groovy vein. Norvo offered Canada's premier bassist, "Big Joe" Niosi, \$125 per week to join his crew, but Joe declined the offer.

The Bert Niosi brigade now hitting full stride in their fifth consecutive year at Palais Royale ballroom where they're attracting an all time record blasting bis six nites weekly, and continue as Canada's top orchestra attraction. Russ Farr out of Niosi's crew into Horace Lapp's Royal York hotel ork. Replacing Farr is this land's ace rhythmist, that torrid drum tornado Reifer McGarvie from Frank Bogart's Club Top Hat out-fit.

#### American Patrol

Published by Mutual Arr. by Loonard White

American Patrol is the first of a projected series of standard and popular numbers by Mutual, arranged with a modern dance conception and described as "Styled by Glenn Miller." The arrangement is the word of Leonard Whitney who is to be congratulated for his imagination and well constructed scoring.

Swing is the word in this offering and no concessions are made to any concert band precedents as regards to scoring. Tempo markings, dynamics, and phrasing are identical to those found in any damea arrangement. Careful attention to these markings, plus a modern amount of style on the part of the performers, will result in a satisfactory performance.

The original snare drum introduction has been retained, followed by unison clarinets entering at A with a modern phrasing of the melody. Muted brass and clarinets are blocked at B, and the strain is finished with French horns in thirds. C is the interlude with the melody in the reeds and well-woiced brass figures. The patrol is now in full swing, with interpolations of "Columbia, the Gem of the Ocean" and "The Girl I Lett Behind Me" leading to a full brass fanfare at G. The melody is again stated, and the patrol fades away suddenly bursting forth at L with a "ride-out" ending of blocked brass and reed figures, plus a drum solo for a finish.

Mister Five By Five

#### Mister Five By Five Published by Loads My Arr. by Paul Yodes

Paul Yoder has handled a diffi-cult asignment by doing a simple but solid bit of band scoring. The intro is for full band, followed by full brass with reed figures for the first 16 bars of the chorus. The the first 16 bars of the chorus. The release at B features a strong bass and trombone line, and the last 8 are again brass and reeds. On the repeat the brass are eliminated and the sax's take the lead. After a unison modulation, the release is again presented, scored for blocked trombones and horns leading to the last 8 at D for full brass and reeds with a baritone countermelody. melody.

#### The Humming-Bird Published by Robbins M. Arr. by Paul Yoder

The woodwinds are featured in this arrangement and are ideal to express the light character of the melody. The full introduction of 8 bars ends in a short vamp, with the cornets and sax's blocked on the melody and the clarinets playing "answer" figures for the first not half of the chorus, The release at get it for you, or write direct to B is for clarinets, flutea, and pic-

#### Notes BETWEEN THE Notes . . . BY H.E.P.

Raymond Scott recently caught heck from various sharp parties who claimed that he was ruining the men working for him by making them play too much of his brand of music.

The immediate answer to this of course is: Baloney—if a man is a good musician, no matter what he plays it man year.

good musician, no plays, it may bore him, but it certainly can't harm his musi-cianahip. This isn't true. Give a good bot man music of a par-ticular technical intricacy that

ticular technical intricacy that keeps him on his toes reading all the time, and it may inhibit his ability to relan and play good soles. On the other hand, give him ecores that are to easy and his playing may get sloppy and lack hits.

suppy and lack hite.

Scott has always been famous not only for the intricacy of his music, but for a peculiar nervous, staccato-like quality that made it extremely difficult to play correctly. As a result, he used to ride herd on the band's sections to get them to play properly—with the result that the outfit often sounded stale from over-rehearsal.

Now, however, he's given this kick up completely. He realises that he can't expect mess to using under these conditions, and is felling over beckward to give Emment Devry, Coay Cole, George Jehnson, il Lerner, Billy Taylor, and Stanley Webb a chance to play the way they feel.

Scott has said time and again.

Scott has said time and again that if they don't like the way something "lies," to change it to what suits them, merely tipping him so he can adapt the rest of the score. Mel Powell told me after he left the band that he had never worked for a leader before that tried as hard to make things easy for his sidemen as does Scott.

Also is all the broadcast I've

that tried as hard to make things easy for his sidemen as does Scott.

Also in all the broadcasts I've caught, Scott has usually used one ad lib jump tune, one up 'killer,' one balled, and sometimes one of his own originals. It usually averages out to about 20 per cent of the total time—and even if you don't like Scott's stuff at all, that's a much lower percentage of junk than the average big awing bend plays on its broadcasts.

A lot of Scott's scores don't appeal to me, though often he comes out with a good one like When Cootis Left the Duke. But at least he is trying for something original, which is a lot more than can be said for many bands.

Also, look at it this way. Scott is a business man, selling a product. This product is a mixed band, very often playing straight het.

commercial. If by using his name and rep, he can keep as good a band as this one working for CBS. It listen to a lot more than 20 per cent of his tunes, whether like them or not.

Another example of Scott's angely is his new programming on CBS. He'll have Jazz Labratory at 6.115 PM (Well.) for the present, shifting the time after he gets it worked out the way he wants it. This will be a program devoted and only to strict hot, but also any innovations decemed worthy of air-time with guest stare and commentators. Then to satisfy the loyal following of jitterbugs, there will be a CBS feedens of Jazz, which will be more or less commentations and the local state of the braze on the scond repeat chorus are nice as is the prince of the braze on the scond repeat chorus are nice as is the bridge. The last chorus is on-the-beat ensemble.

Pittaburgh—June Robins of Arthur Rave's band at the William Penn, is credited with saving the loss of several lives and a more serious fire by her quick action when she discovered smoke coming from under the bardstand the other night. Savannah, Ga.—One of the units of the U. S. Marine band gave Savannah soldiers a real kick recently when they came over from Parris Island (S.C.) to play for a USO dance. Under the direction of the be-medaled S/Sgt. Andy Olesak, former WJAS (Pittaburgh) staffer, Local 60'er, and Baron Elliott altoist, the outfit includes:

Pvt. Eric Sequist, ax-Herby Kay-Ozzie Nelson - Will Osborne tenor; Cpl. Al Francesconi, ex-Ted Grande - Art Webster tenor; Cpl. Lawrence Hartafield, ex-Cliff Keyes - Glenn Brown saxist; Pvt. Flash (Al) Vezina, tpt, who had his own outfit in Far River, Mass.; Cpl. Lee (Dub) Masters, ditto from Local 784, Pontiac, Mich.; Sgt. Don Rhue, trombone who benged around thither & yon concentrating mostly on Ciney; Cpl. Joe Fink, pianist-arranger, former music teacher in an Eric, Pa., high school; Sgt. Bill Miller, former theater drummer; Pvt. Louie Zebello, converted longhar from the Hartford Symphony and Boston's former Cocoanut Grove, on bass. The leader of the unit, Olesak, also played symphonic at one time. A marine musician is first of all a marine: These boys have to go thru a rigid boot-training just like any other marine, and for that period of time nobody knows or cares whether they are musicians or plumbers or bankers. They all have their share of medals for excellence in pistol, riflery, hand grenade, and bayonet. The band is a far cry now from the outfit that was first organized—when a fellow who had so much as played in a high school band was in. Now they are all pro, and have made a definite and excellent reputation in these parts.

Sgt. Pete Leonard, who is at present in England, writes that he's boogie-pianoing with a jam outfit organized almost as soon as they arrived overseas. Quoting from his letter: "Are you dopey or what? Haven't you ever heard of Ambrose and his Orchestra??? He's the biggest and best recording band of Europe. Better than Harry Roy. He has a 46-piece outfit that is really solid. ### **Pueblo Air Base** Rocks with Jazz

Army Air Base, Pueblo, Colonack, this joint rocks! But deficiely. The base features two solid bands. The white band is under the baton of Staff Sgt. Charlie Quarants, an altoist who is a jass man from way back. The sepia outfit is led by Corp. "Hep Cat" McSwain, who blows a mean trumpet Ray Kranse, former Monroe, Pastor, Donahue trumpeteer, is the newest addition to the ofay group. Ray knocks the cata out with solo throughout Quarants's version of Boy Meets Horn.

Right now both bands are having a little trouble getting orchestrations, and a little co-operation from the publishers would be very much apprecitaed. Sgt. Charlie has eleven pieces, four reeds, four brass, and three rhythm. McSwain has nine pieces, four rhythm, three feeds and two brass. Most of these cats are from S. Carolina.

Currently, both bands are being given plenty of work, three or four dances per week... and the Quaranta outfit is rehearsing their bit in a musical revue, that the base will present in the Pueblo Civic Auditorium during the early part of February. This opus is entitled, Pass the Ammunition. Music is being written by Pvt. Milt Shaffer, former 802 planist.

# Strings and Swing Don't Mix, Says Cat Who Tried

"I claim that strings don't belong in any band that pretends to swing—and I ought to know—I used them for ten years." That's Clyde Lucas talking, gentlemen, now tramming with his band at the Frolics Club in Miami, Florida. "Strings are fine for show work. When I played the Paramount theater with strings a few years ago, we knocked the older crowd dead. They were so used to hearing the BG boys scream that they couldn't believe there were any bands left that played the way we did—the only trouble was that it didn't swing.

No, I guess you can't. But as a matter of fact, Lynn does something with the band that strikes

only trouble was that it didn't swing.

"And I've learned that no band these days can be a success unless it plays both brands well—so I got rid of the strings.

"Another thing: unless you've got the bankroll of a Dorsey or a James, you can't afford to have men that just play fiddle—they've gotts double. The average musician who doubles reeds and fiddle either plays bad violin or society tenor—and neither work out very well when it comes to swinging.

"I decided to make a complete change when just after Pearl Harbor, my new lead fiddle, who played swell alto, left for the army—the war finished the change I'd already decided to make.

Band's Beat Important

#### Band's Best Important

"After all the most important thing in a band is its best—and there's no questioning the fact that a string section slops up the best. Not necessarily because its best is bad—I know plenty of fiddlers who have just as good a sense of jump time as the best takeoff

lice his larynx just to be fashionable, can you?"

No, I guess you can't. But as a matter of fact, Lynn does something with the band that strikes me as being much more useful and commercial than his vocals. When I caught Ciyde's outfit, they were working at the Roseland Ballroom (NYC), which has a crowd that wants only rhumbas all evening long. Lucas did a far better job at satisfying them on this score than many of the outfits that have played there before. During all this Latin merriment, I caught a couple of choruses of Lynn playing flute, much in the manner that Cugat's sideman does: good, dirty tone plus some ideas. It's unusual and if built up, could add a lot of Lucas' Latin Lads.

The band generally is much better than I expected it would be. Acting on a tip from Boss Burrs, I went in and heard them and was agreeably surprised to find good section work, considering draft replacements, and a couple of good up tunes, done by Cleveland brassman Al Russ. The rhythm was uncertain, since drummer Leo Braun had just joined.

Interesting tale about bassist Andy Lambert, mustered out of the navy for a disability suffered at Pearl Harbor when his leg was hit and ther me deatiened in such a manner that he has a wound that won't heal permanently. Doesn't seem to have hurt his playing any. Best solo kicks are from tenor man Loren Helberg, who often includes some pretty Haymerish ideas in his passages. Commercially vocalist Patty Rose is the nuts. A cute blonde youngster, she sells like a million bucks in the O'Connell manner, causing much favorable comment from the dancers around me, especially the femmes.

This is very important for a singer just starting out. If you singer you and the surface of the surfac of jump time as the best takeoff men.

"It's simply that a fiddle section phrases differently and plays a different beat than the other sections no matter how good it is—it's like having two bands in one—both hauling and shoving to see who'll set the beat. You've either got to play sweet and have the strings, or else junk them and go after good swing.

"The reason I junked mine was that I knew that I couldn't play swing with them—whereas without them. I was sure I could still play good sweet music, and have a fighting chance at decent swing as well.

#### Has New Vocalist

Has New Vocalist
"In the few months that we've really been working at it, I think we've come a long way. My band ian't perfect I know—but it's better than a lot I've heard. My new vocalist, Patty Ross, is the best I've ever had—everywhere we've played the crowda have really been crazy about her. My brother Lynn, who does some of the vocal work, does

Commercially vocalist Patty Ross is the nuts. A cute blonde youngster, she sells like a million bucks in the O'Connell manner, causing much favorable comment from the dancers around me, especially the femmes.

LES BROWN (Reviewed at the Chicago Theater)

We have seen a lot of bands go in and out of the Chicago theater and seldom have we seen one that was able to fill the place or to completely capture the audience. Bow now to Les Brown who, with a new name and a young band, did both and did them so well that you were on the edge of your seat with amazement throughout the stage show.

amazement throughout the stage show.

The band is employing some of the cleanest, best thought out arrangements in the field today. Not necessarily showy, they are attractive to musician and John Doe alike. Excellent little trumpet, alto, clarinet, rhythm passages build a lilt for the full band to later attack avancyly with the audience in

lilt for the full band to later attack savagely with the audience in a receptive and appreciative mood. Full treatment of well selected tunes will put this band on your customer's hit parade.

Roberts Lee has a fine full voice and handles the light tunes like Five by Five and Touch of Texas aptly and well. Her reception, as her delivery, was good. Butch Stone injected his usual touch of comedy into the show and, although we are definitely not admirers of that sort of personality, the audience usually is. beats to the bar? This question comes from Frank Horrington of Rye, N. Y.

The use of four or two beats is arrived by the way one feels, what the tempo of the tune is and what style the band plays. Then of course there's the night, after driving a 150 or 200 miles in the bliszard of the season, you arrive on the job late, the piano is out of tune, the bandstand is too small, the guy on either side of you asket you if you could possibly give him a little more room, the leader comes on like Mr. Keene and then hardly any one shows at the dance.

As Willie the Lion says "Your As Willie the Lion says "Your hardly any one shows at the dance. comes on like Mr. Keene and then hardly any one shows at the dance. The boss of the joint has an expression on his face that makes you think it's the band's fault. I wonder how many beats you would play on the bass drum in a case like this?

As Willie the Lion says "Your future is ahead of you," so join the union and try to get a job. Your action in getting married is a very common one, the only advice I can offer on this is to stand your ground and make an effort to get with a band you think can play, especially if they happen to be good fellows.

#### **Perplexed Mix Satisfies Urge**

Demon reporter, slightly soiled, one-half off:

Seems that RCA Victor sent our Mike Levin a one-sided recording of part of Wagner's Liebestod by Toscanini and the NBC Symphony as a Christmas present. Levin noted that the record was unbreaknoted that the record was unbreak-able, very light, and easily bent. He knew that Victor had had for some years a substance like this called Victrolac, which it used at \$3.50 a shot to make up special pressings for collectors—but fig-ured that this couldn't be it, since the record was quite scratchy, and Victrolac famed for its lack of

So he got on long distance phone to Victor in Camden, and after much headscratching, the boys allowed as how it was Victorolac (scarcer than shellac), and was noisy because the records had been pressed in such a hurry.

The phone call cost \$5.50. Levin is still trying to talk the auditor into charging it off to experience. That worthy is currently figuring out where to charge Levin off.

The Rabbit once again has dusted off the first sax chair of the nation's number one All Star band.

Johnny was born in Boston and is married and the father of a daughter five months old. He joined Duke Ellington some fourteen years ago at New York's Cotton Club when the hand was enlarged in 1927 to go into that job. He is still with the band and going strong. Benny Carter, Willie Smith and Toots Mondello are his favorite alto men. Warm Velley is the record he likes best that he has made with Duke. He has also made many sides under his own name and under those of other Ellington solosits. Rabbit is a character and a nice gay.

in the band and did conduct the TD band when Towny was off the stand. Was marvied for 3½ years to Blanche Hammerer, who divorced him because she claimed he played trampet in his sleep, without the trumpet. First worked in a night club when he was 13. Played as a house musician at Atlantic City Steel Pier, from where he went with Goodman, leaving Goodman last year, when Benny got sick, to join Towny Dorsey. Some of his best work is to be found on Mildred Bailey's Vocalion records—before he joined Goodman—Someday Sweetheart and More Than You Know. His initial fame came due to his adaptation of And the Angels Sing which Benny recorded. Now in the army.

BOBBY HACKETT trumpet. Born in Providence, R. I. Is 28 years old. Went to Commercial High School along with his wife, Edna, whom he has known since he was ten years old. Has a four-year old daughter, Barbara Lee. Played fiddle until he was 12. Unknown to most lazz bands, he still plays a terrific Venuti style fiddle. Then went on to ukelele. Graduated from that on to utilar and finally cornet. When he was 18 years old, started a small band at Boston's famous Theatrical Club. In 1938 he went to Nick's, where he was for 16 months and where he increased his combo to a large band which he took on tour through New England but folded it after eight months. In 1940, he joined the Horace Heidt band. Then quit and jobbed around New York and joined Glenn Miller in 1941, where he stayed for a year. He is currently an NBC house musician. Maybe you don't think the above figures are interesting, but I think they say that Down Beat and its readers have come of age—not just as a select group of partisans, but as a whole group. That dance music in this country has become better and better as the years roll by, and that once and for all, the ising in the teens in both divisions.

Also, get the bands that the boys thrown out the window. In

thrown out the window. Inthrown out the window. Instead, you can paste up on the wall "You can't be corny for any length of time and get away with it—sooner or later the public catches on." Or to put it tersely: "This year's sensation, next year's stagnation—unless it's really good!"

Take a look at the 1997 swing

Take a look at the 1937 swing figures. If TD and Casa Loma, had better bands than Duke, then Henry Busse awings! Benny at least had the semblance of a good band then, and he had the quartet, capable of fine jazz. Jimmy Dorsey certainly doesn't pretend to have a hand that swings like Basie, while Chick Webb is of course now out of the running.

#### Swing Bands in There

Swing Bands in There

Now dig the new poll results.
Every band on the swing list, with
the off-and-on exceptions of Goodman, Krupa, and Lunceford, plays
good swing. Don't forget that none
of the list are small bands, and
therefore aren't expected to play
good hot jazz. Big bands, they are
expected to have good soloists, interesting arrangements, beats, and
good presentation. Goodman was
up there on the basis of his outfit's
playing early in the year plus his
own clarineting, while Krupa's
Eldridge helped Gene no end.
Lunceford, who has always had a
good band, has been hit hard by
losing Willie Smith and other men,
which accounts for his finishing no
higher.

which accounts are higher.
There can't be much argument about Duke's winning. He not only is this year's king—he's writing things that the boys will be trying to cut ten polls from now.

#### Change in Sweet Taste

Change in Sweet Taste
But what's really interesting is the change in the sweet lists—releasting the change that has taken place in dance likes and dislikes all over the country. In 1937, with the exception of Casa Loma and Dorsey, not one of the top ten swing bands even placed anywhere in the sweet list. A band was expected to swing, and that's all. No finesse—nothing other than thee powerhouse (and often tasteless at that) was expected. The only swing band (other than the top two) that placed in the sweet list was Moody Herman's young crew, which even then was giving evidence of its versatility by fin-

saning in the teens in both divisions.

Also, get the bands that the boys liked for hoofing: Lombardo, Martin, King, Heidt, Osborne, and Olsen! Now I like to amble around a floor with something lovely in my paws as well as the next man, and I claim these outfits are, were and always will be rotten dance bands. I don't question Lombardo's ability to put older folk in an Auld Lang Syme mood, or Martin's showmanship, King's ability at dirges, Heidt's showmanship, and all the rest. All I say is that these bands are nowhere when it comes to dancing. Their tempos are unsteady, monotonous, and often their vocal stylings make dancing impossible.

This Telle a Tale

#### This Tells a Tale

This Telle a Tale
This year's list tells a vastly
different tale. Every band on the
list, with the possible exception of
Ellington and Casa Loma, play
good dance music. Ellington is bad
only in that his complex phrasings
often make his basic beat difficult
for a lot of people to follow. But
all the rest present ballads with
color, taste, and often real originality. I would defy the heppest
musician to pick a much better list
than this. than this.

musician to pick a much better list than this.

There are some more interesting things to dig. No band can survive for any length of time unless they play both good sweet and swing—and that means good, not just loud One O'Clock Jumps and ricky tenor saxes on the ballads. You'll notice that not one of the syrup outfits on the '37 sweet list has survived—you have to go all the way to 18th place in this year's poll to find the first of them: Swing and Swayer Kaye. Kay Kyser must have noticed this too—he's been adding crack sidemen all the time. You'll note that every swing band finished in the sweet division (Herman, 11th; Basie, 21st; Krupa, 25th; Lunceford, 18th)—even such power outfits as Basie finding some of their best records in ballads rather than jumpers.

#### **Down Beat Poll Must Be Nuts!**

Recently, in an interview with the New Yorker magazine, Archduke Otto, one-time Austrian resident and now living in New York for ubvious reasons, gave out that he was a jazz fan.

"The real jazz, you understand," said the Hapaburg hepeat. "It is an art in itself. Personally, I would vote for Sammy Kaye any time, even against Guy Lombardo."

even place in the swing division— this from the band that carried the ball through the years of Lom-bardo goo—and would have fin-ished about 26th in the combined totals!

None of the "corn" bands, nor any band played either exclusively swing or sweet, held onto their places.

places.

Ellington's superlativeness was enough to put him at the head of the list, despite any beefs about his danceability. Anybody who thinks he can't play ballads should twist his My Greatest Mistake (Victor).

Challis Science is the Arms of the

Charlie Spivak is the first of the new bands, cracking the combined totals for fifth, really astonishing for a band that has only been hitting slightly over a year.

#### Tommy's Upe and Downs

Tommy's Ups and Downs

A perfect example of how a band went to the top on one style, slipped, and came back to stay with both sweet and swing is seen in Tommy Dorsey's varied showings. In '37, he didn't finish in the swing, was fourth in sweet. In '38, he still didn't show for jump, but up to third in sweet. In '39, he hit the jackpot for sweet, but still was nowhere in swing. In '40, Miller walloped him in sweet, and Sy Oliver joined the band, adding his famed brand of Luncefordstyle arranging, giving the band an eighth place in swing—thus its overall showing was just as good as in '39, even though his sweet was no longer viewed as tops by dancers the country over. Comes '41, and Dorsey is second in both sections, giving him the top allaround rating. This year, Ellington's series of terrific records plus Harry James' bombastic rise was just too much, and he had to retire to a tie for second place—which isn't bad hunting for a band that's been around for over seven years!

All-Around Balance

#### All-Around Balance

This shows that Dorsey is a shrewd showman. He has combined ace vocalists, plenty of powerhouse. smart tune-picking, a touch of hot jazz now and then, plus fine dance tempos to give him an all-around balance that only James, Herman, and Spivak can touch.

The acid test is this: In '39, musician after musician walked out on the band, disgusted with the unending succession of sweet tunes all played in the same style. Now, while there may have been plenty of untasteful moments in TD's wax and airtime, nevertheless, a musician could hang around all evening and find plenty to listen for at all times.

This to me. sloppy as the sta-

This to me, sloppy as the sta-tistics may be, shows that given time, the public taste is the same as the all-around musicians' tasta. as the all-around musicians' tasts. Ellington may have been king years ago, but the kids, the dancers, and the record buyers eventually got there and that's what counts.

er, quieter, and better dance music than anyone else. But that doesn't mean that young bands are going to be able to get away much longer with copying him and make a go of it. Unless a bad band is already established, I don't think it stands a chance these days. And even the ones that are established will have a tough time keeping going.

The public wants good music. It wants it played increasingly with better taste and more ideas. The public wants good five years ago won't pay

But nothing of real note has

a tough time keeping going.

The public wants good music. It wants it played increasingly with better taste and more ideas. Above all, carbon copies of what was good five years ago won't pay off. Sure a lot of bands are getting away with murder — but that doesn't mean they always will. The public is getting hep—and don't let anybody tell you the kids don't know—because they do. You can thank hundreds of disc jockies for this.

Getting Better Fast

#### Getting Better Fast

Oh sure, they may still think that Elman screaming is better than a tasteful horn solo by Williams, Hackett, or Kazebier. But the percentage is getting less and less. Look at the men who won the individual contests. With the exception of Condon, Russell, Stacy, Beneke, and Rich, there aren't too many arguments. Elman, Hackett, and Eldridge can play good jaxs whenever they want. The same goes for McGarity and Higginbotham. Webster, Mondello, and Hodges don't need any introductions from me.

For the exceptions: some of the

introductions from me.

For the exceptions: some of the guys in a top name band were yipping about them to me the other day. There's nothing I can say. You either like Condon, Stacy, Russell, and the tradition they represent or you skip the results. One group says they're musically reactionary, another that they represent the only men left playing true hot jazz. At any rate, there's enough honest difference of opinion to make their presence on the all-star band just that, rather than any lack of public taste as these 802 boys were screaming.

Forrest and Sinatrs

#### Forrest and Sinatre

Beneke, despite his buildup, plays sax well quite often, as does Buddy Rich drums, when he forgets the theatrics. With all the bad musicians around who are highly publicized, these two are certainly not too hard to swallow.

I take no arguments whatsoever on Forrest, and by actual count Sinatra has turned out some ex-cellent records.

cellent records.

In every one of the side-man polls, you will find that while you may disagree with the particular winner, the list includes in good order most of the men you prefer. And compared to the way winners finished in earlier years, it indicates so much wider knowledge and discrimination that it's nothing short of amazing.

#### Public Knows Its Stuff

Public Knows Its Stuff

And the public doesn't vote blindly for that it hears most either. Goodman has had lots of airtime, theaters, and records—and got slapped down practically all the way, save for the small combination award. He was even licked for favorite soloist, a position he has held every year for the past five years. This doesn't mean the kids think Benny has forgotten how to play, or that sidemen think that he has suddenly turned corny. It strikes me more as being a gesture of resentment against the King doing wrong, against the King took it lightly in the neck this year because he was on the wrong path. Watch what happens to him next year if he doesn't heed the warning!

There's another angle of interest to the roll. Beddy Rowell average and the warning!

But nothing of real note has happened to either band. They are good outfits, well-arranged, with good soloists, and fine blend.

As far as I can see, there is only one answer—neither outfit has a distinctive style. I know personally that when listening to late-hour dance remotes, these are two of the toughest outfits to spot just by listening to them.

#### Need Distinctive Som

by listening to them.

Need Distinctive Sound

In other words, despite the fact that they play very well, neither band has any-distinctive "sound" about it that immediately labels it as Powell or Brown. Without this, or a hit record of the hundred thousands proporotions, it seems to me that both Brown and Powell would not only do far worse in the poll than they deserve, but also would have trouble at the box-office for the same reason. If I have a tough time remembering them, how can you expect the average ticket-buyer who listens much less to the radio, to remember to mark his "x" for Powell-Brown, or to smack down his dough for that matter.

Teddy got mad at me when we discussed this, said that he felt Bickie Main's and Irving Fazola's playing were enough to label his band, along with Peggy Mann's excellent chirping. All three are swell—but I claim they aren't enough either to identify the band or give it that extra color it needs to make it really commercial. When Goodman, McIntyre, Herman, or any of the rest hit the air, you know who they are instantly. Not so with Powell and Brown.

Poll Matches Discs

The growth of the same of the sam

#### Poll Matches Discs

Poll Matches Discs
The remedy? I'll be danged if I know. You don't just go picking styles out of a hat. It takes a lot of thought, confabbing with arrangers, and what have you. The important point is that this is what's wrong with Teddy's band, rather than "the horrible luck" which he has built into almost a phobia. Certainly Powell has had bad break after bad break. But even if he hadn't, it seems to me that he would have needed something more than he has now to really cash in.

One more interesting slant: the

really cash in.

One more interesting slant: the way the Beat's poll correlated with the bands turning out what we thought were the year's best records. The record list of about 103 really noteworthy resords found Duke Ellington on top for all divisions followed by Tommy Dorsey, then Harry James tied with Woody Herman and Benny Goodman, with Charlie Spivak, Glenn Miller, Count Basie, and Jimmy Dorsey following. The only spot completely out of line seems to be Hall McIntyre, who tied for third in the records, but tied for tenth in the poll.

#### Some Kid, Fun!

New York — Somebody has finally thought of a new angle for fluorshows. Alan Courtney, WOV record-twister, opened at Louise's Monte Carlo on January 6 as the "Prosecuting Attorney." The gag is for Alan to get some hapless visiting fireman from the club audience, handcuff the unhappy wretch to a chair and then start throwing embarvassing questions at him. If the guy says, "No, the girl with me isn't my wife," a bell rings, a light goes on and Alan goes, "Hah! !" If the guy says, "Yes, the girl with me is my wife," a bell rings, a light goes on and Alan goes, "Hah! !"

# Key Spot Bands Rey King Over the News With the Help of Donna

Alvino Rey and the King Sisters are getting the habit of breaking records, it seems. Besides setting a new mark at the Sherman hotel Panther Room, they broke all records at the Coronado theater in South Bend, Indiana. As a result of the Rey-King benefit at Great Lakes Naval Station, Buddy Dean,

Rey tenor sax man decided he bliked the place. Eddie Peabody liked Buddy's work and found a place for him in the naval station band. Johnny Popa from Canton, Ohio, tool the vacated sax chair. Nick Ciazza, Teddy Powell tenor man took the chair vacated by Ronnie Perry's joining his Reymates at the Curtis Bay

Reymates at the Curtis Bay (Md.) coast guard station.
Ralph Harden, from Jan Savitt's crew, replaced Frank Ryerson on trumpet while Lefty Johnson of Chicago came in on tram.
Buddy Cole, Rey pianist, had his army physical acheduled for Christmas Day in Los Angeles. Meanwhile the entire band vacationed over the Christmas holidays, having their annual Christmas party on December 20 in Kansas City and then set to rejoin for their Los Angeles Orpheum theater opening December 30. Christmas Eve was set by the Kings and the Merry Macs as the night to carol their friends. A lot of high paid talent for free under somebody's window.

**Hit Right Tune** 

New York — Christmas cheer cortainly reigned three weeks ago in night court. It seems that Joseph Smith (that's right, hud), age 54, was brought in or playing tunes on various sized howls with shoe trees at one of Broadway's busiest intersections. Haled before Magistrate Aurelio, he tried to mend matters with Where the Riese Shannon Floss. Rudely interrupted by the magistrate, who informed him that his name was Aurelio and not O'Reilly, Smith knocked off O Sole Mio and escaped with confiscation of his bowls and a suapended sentence. Alvino is having face and figure made on a special new guitar so that he will be able to characterise "Stringy," his new talking guitar, for the Rey-King Universal picture Cross Your Fingers. The picture will also feature Allan Jones

# Panassie Reverses Self, In Book, 'The Real Jazz'

Eight years ago a young Frenchman, Hugues Panassie, gave the music world its first book-length evaluation of the most prominent orchestras and instrumental giants of hot jazz. It created a considerable furor among critics and musi-

ments it caused have not yet subsided entirely.

On the whole, that book was remarkably accurate in its judgments, revealing an acute appreciation and a wonderful analytical capacity on the part of the author. If, when he decided to write a second book on the subject, l'anassie had determined to shock his legions of admirers out of their senses, he could not have done so more thoroughly than he will with The Real Jazz, which has just been released by Smith & Durrell.

Repudiates First Book

The Real Jass offers an amazing turnsbout in the opinions of M. Panassie and practically repudiates a large portion of his first book. He has gone over to the side of the colored jassmen completely, nearly emitting favorable comment on even the greatest among the white musicians.

This attitude is not difficult to understand in itself, for the Negro musicians are assuredly in a class by themselves, especially those from New Orleans of whom Panassie is so fond. But this new approach has so little that is consistent with his earlier ideas, that one is both perplexed and gratified by it, perplexed by the reversal in the direction of his criticism and gratified that Panassie is willing to admit the mistakes of his youthful enthusiasms.

Tosses Chicago Jass

#### Tosses Chicago Jana

Tosses Chicage Jass
The fact remains, however, that
now Panassie is a follower instead
of a leader, insofar as jazz criticism is concerned. Since his first
book many writers have forsaken
the white musicians entirely, to
concentrate wholly upon the New
Orleans type of jazz.
Many critics have knocked the
Chicago style. Panassie's own

Many critics have knocked the Chicago style. Panassie's own baby, and finally he too has seen at to toes the Austin High group overboard. If at first he thought a little too highly of their work, he certainly underestimates it now. Such a complete and conclusive denial of Chicago jazz (one has to call it something) is scarcely conceivable and hardly commendable.

#### Stands by Armstrong

It is interesting to note that Panassie defends Louis Armstrong in all the stages of his development, just as he did in his first book, right up to the present. This is fine, for Louis has been harassed too long by the jibes of critics who cannot understand that a man who cannot understand that a man need not stay forever the same to remain a master musician. In-deed, Panassie's presentation of Armstrong is one of the strong points of the book. There are scores of comments on individual musicians that will rile thousands of jazz lovers, such

Red Allen: "his reputation seems largely unjustified"
Bix Beiderbecke: "was neverable to assimilate the spirit of the negro musicians"
Jack Tengarden: "influence has indeed been very regrettable"
Lawrence Brown: "sins through an excess of refinement"
Frank Tecchennecher: "the influence which Bix...had on him, harmed his work considerably"

#### R. U. R.?

An interesting move will be made sometime later this winter when a full-length musical comedy with an all-puppet cast opens on Broadway. Pushing the idea a little further, how about supplying polite robots to replace grouchy hax-office attendants and some hop juke-boxes for those corny pit orchestras? But leave the audiences alone. They're wooden enough, Equity knows.

## Indiana Leader **Plans Promotion** Of Dance Series

Bloomington, Ind. — Stan Sterbenz, bandleader and bandbooker here at Indiana University, recently announced plans to start dance promotions. The town's few niteries and motion picture house are swamped to over capacity. With six hundred Waves and six hundred Yoemen in training at the university in addition to a scheduled three thousand soldiers set to arrive early in February, the dances should be welcomed.

Dances were scheduled to start the ninth January with Sterbens, band playing the opener. Later on various "names" will be brought in and other campus bands will fill the weekly card. Location for the dances will probably spot the large armory.

Dick Jurgens' band played to over five hundred couples for an RCA Corporation here, December 28. Dick Peirce's campus band, on tour through the midwest, arrived here early in January to start the second semester at Indiana University.

Pee Wee Russell: "his use of a grinding sonority . . replaced all melodic inspiration and rendered his work tiresonse" Edmund Hell: "awings in the so-called modern manner . . which charms of the clarinet" Eddie Lang: "awings in a mediocre way and lacks imagination in his solos"

Benny Goodman gave jaxs music as a whole just because he dislikes his clarinet work. True, Benny does not approach Noone as a soloist, but neither is he so bad as Art Shaw, as Panaesie insists. The most stunning blow of all, he mentions Bunny Berigan and Harry James in the same breath, the same sentence! How could anyone with Panassie's insight into hot jaxs put Bunny in the same category with such an exhibitionist and sentimentalist as Harry James? cymbal"
Sidney Catlett: "has made cuncessions to the 'mudernistic' style"
Ray Bauduc: "hasn't the class
of the better Negro drummers"

#### Worried About Future

The most miserable section of the book deals with the saxophonists, although in his first book the same territory was covered very well. Panassie berate: Chu Berry and Lester Young and Ben Webster, praises Eugene Cedric and Joe Thomas, and takes Bud Fisseman through the cut.

How Thomas and Cedric ever got as far as they did seems amazing to this reviewer. Chu and Les and Ben, on the other hand, are three of the greatest stylists the tenor has ever known, especially the latter two. Then Panassie rates Willie Smith as high as Benny Carter and even as high as Johnny Hodges, and claims that Smith swings more than either of those two supreme alto men! Wesvied About Future
All in all, the book is interesting if upsetting. The chapter on "Jaxs and Classical Music" is colossal, the chapter on "Blues and Swing" is a splendid technical discretation, and "Jass—From New Orleans to the Present Day" is a very fine condensation of the history that one may obtain at greater length in Jazzmen or American Jazz Music. The last chapter, "The Future of Jazs," is an excellent treatment, showing that Panassie, too, is troubled over the shape of things to come.

Throughout, Panassie contends
