# Jazzwise, Paris Isn't What It's Cracked Up To Be

Paris—American jazz critics have wasted a great deal of breath over the last 15 years lamenting the fact that Europeans, and especially the French, were the first to take our native music seriously. They could have saved their sorrow. It is true that Robert Goffin and Hugues Panassie were among the first to write about jazz. It is also true that the bulk of Europe's jazz enthusiasts are still without any real understanding of what the music is all about. The few experts may know their stuff, but the ordinary fan is nowhere.

Insensitive

few experts may know their stuff, but the ordinary fan is nowhere.

Insensitive
In the first place this enthusiast is insensitive to any of the beauty of jazz. He gets his kicks only when the music is rough, fast, or shrill—it must be Dixieland, bop, or screaming trumpets.

The crowd in the Club St. Germain des Pres, where Eldridge was playing until recently, appreciated none of Roy's beautiful notes, none of the timing of his occasionally wonderful runs. But they loved the screamers and the terrific volume and speed of his playing.

I nearly induced sleep in three French afteionados when I played them Armstrong's lovely Savoy Blues, but they were immensely impressed with the loud and fast Bechet-Davison Blue Note sides. The average listener here is almost totally incapable of appreciating any of the delicacies or subtleties of jazz. He uses jazz as a stimulant. He only wants to be frantic.

Knows Few

ant. He uses jazz as a stimulant. He only wants to be frantic.

Knows Few
Secondly, this enthusiast (by enthusiast I mean the guy who professes knowledge, argues heatedly, and collects records) is familiar with the names and work of only a few muscians. He knows of Armstrong, Parker, Gillespie, Hines. Bechet—the men who have played over here a good deal or who have been the centers of controversy in the French jazz magazines.

But he knows little or nothing of men like Bobby Hackett, Chu Berry, Teddy Wilson, or Jimmy Crawford. He loves Mezzrow because (1) Panassie said to, and (2) because Mezz once smoked opium.

(2) because Mezz once smoked opium.

It's the extremes again: his knowledge stops at 1930 and doesn't begin again until 1945. If Panassie and Delaunay have cataloged every performer, good and bad, the average enthusiast hasn't bothered to learn the names of more than two dozen.

Add to this a tendency to intellectualize lazz while the screaming

New York — After several last minute, on-again-off-again changes of mind, Norman Granz finally de-cided March 9 to cancel his entire European tour, which had been scheduled to start nine days later

scheduled to start nine days later in Copenhagen.

Main reason for the cancelation was that the tour, which was originally visualized by Granz as a semi-vacational jaunt for himself and his musicians, showed signs of deteriorating into a big financial hassel. At least five of the top stars had to call off their participation owing to economic problems or previous commitments.

Granz still hopes to make a foreign excursion next year; meanwhile the unit will be reorganized in late summer for its annual fall concert tour of the U.S.

It's a mark that stacks up well with previous high boxoffice figures of postwar period set by Freddy Martin (1949) and Jerry Gray (1950).

Kenton gave them the works on his opening night, an occasion marked by appearance of more music business folk than the Palladium has seen for years. He made little, if any, concession to the supposed popular taste for more conventional dance music.

Later in the week he mixed in a few more of the less controversial dance numbers in his book, but whether it really made any difference or not is doubtful.

New York — Sarah Vaughan fans who read a review of Sarah's recent Carnegie hall concert in The New Yorker were mystified and confused. The reviewer, Douglas Watt, in a typical outburst of condescending comments in the New Yorker manner, risted that Sarah was accompanied only by a rhythm socion. No mention of the impleon strings and harp that played her second set.

### Important

Important

Not long ago Down Beat staffer
Ralph Gleason put the spotlight on
an important facet of the dance
band deterioration of the last few
years when he reported Jess
Stacy's observation to the effect
that something is wrong when the
sidemen in a band fail to express,
in their performances and personal
attitudes, genuine pride in the organization of which they are a
part.

We heard Lee Dance of the staffer of the st

we heard Les Brown's band on a one-niter here at the Trianon where they found themselves, by some rather fantastically ambitious booker's effort, the very night of the day they returned from their tour of the koresn fighting fronts. Dead tired, unhappy that they were unable to spend their families and friends, they pitched in and played a job that, under the circumstances, was marked by a surprising degree of spirit, punch, and musical perfection.

# Pride in Selves

Reason: Les Brown's bandsmen have that pride in their organiza-tion so notably lacking, as Stacy pointed out, in too many of the dance band units of the post-war

Les tells us that during the last year not one of his sidemen earned less than \$8,000. During that same year Columbia released a Les Brown album, Dance Date, that re-ceived critical acclaim from every well-versed reviewer as one of the important musical achievements of the year.

In our opinion, the Les Brown band in that album carried commercially marketable dance music just about as far as it will ever go, in the foreseeable future, into the realm of musical art. The members of his band play with pride because they play with pleasure; it is a team in which every musician seems to know that he belongs; each seems to understand the pattern of which he is a part; each one feels it the same way; each derives his share of musical satisfaction and his share of material remuneration.

Result: a genuinely "happy"

Result: a genuinely "happy' band of musicians headed by a leader who, in a profession now largely divided into factions represeasely divided into factions repre-senting embittered exponents of bop, diehard devotees of Dixie, and cynical commercialists who are satisfied to play any kind of music that makes money (and we're not condemning them), is a rarity him-

Les gives every indication of being a well-adjusted personality. Inasmuch as that is something in itself, let's take a look at his background:

Les was born in Reinerton, Pa., in 1912. His father, from whom he received his first musical instruction—on a curved model, B-flat soprano sax—was a successful bakery operator and amateur musician whose hobby was playing saxophone in a quartet consisting of himself and his brothers, also amateur musicians. amateur musicians.

First Dance Job

He played his first dance jobs while he was at the conservatory with a band comprised of conservatory students and it was for that band that he wrote his first arrangements. It was the stylized type of dance band in which the jazz influence w.. just beginning to become evident—three saxes, three brass (two trumpets and trombone), and four rhythm (piano, drums, banjo, and tuba).

Les recalls that he used to copy recording arrangements from the records of Whiteman, Nichols, and Goldkette, injecting some of his own ideas in the process, as was standard procedure in that day. He also used to like to transcribe improvised solos, arranging them, for example, into sax trio forms.

After three years in the music conservatory, he went to a military prep school and completed that phase of his education.

Then he enrolled at Duke University and worked his way through as a musician (his dad's bakery business wasn't so good by this time). He says they had a band at Duke that was specifically enrolled to play for student affairs in return for meals. He was persuaded to enroll at Duke by a "scout" whose job it was to line up musicians for this college band (later known as the Duke Blue Devils) even as athletic acouts endeavor to secure promising high school athletes for the old alma mater.

—a kind of scholarship that other
colleges interested in helping students to earn their way might
look into.

There were no music courses at
Duke that were of interest to a
youngster who already had spent
three years at a conservatory, so
Les graduated with a major in

meant quite a bit to the band's featured singer of that period—Doris Day.

For those who are interested in music as a business, an art, or as both, the Les Brown story adds up to this: He was successful as a dance bandleader because he had the personal and musical qualifications. The fact that he, himself, is a thoroughly schooled musician (he says he lost his touch as an instrumentalist when he was working as an arranger and has never had time or inclination to regain it) is important because only an authentic musician can assemble and get the best performance out of a group of top sidemen such as his band always has contained.

He also was intelligent enough to see the dance band business realistically: that is, that the length of time a bandleader and his sidemen can travel around the country from one job to another is necessarily limited, even for those who consider such a life pattern desirable.

New York—A good-looking redhead who sings, and can redhead who sings, and can play the coolest trumpet this side of Miles Davis—it sounds like the stuff of which hip dreams are made. But it hasn't done Norma Carson much good. Norma's story is typical of the anomalous position occupied in the Jazz scene by the gala with the horns, a position that has been watched closely for several years by the writer and will be dealt with in detail in this series of personality portraits.

Segregation and discrimination by sex, as well as by race, can be a vicious handicap to the career of a girl musician. "I've never found it an advantage to be a girl," Norma points out. "If a trumpet player is wanted for a job and somebody suggests me, they'll say 'What? A chick?' and put me down without even hearing me.

A few days after making this statement, Norma got her first

she not made the grade.

But Norma took a solo on Talk of the Town that combined good taste, fine phrasing, and an excellent sound reminiscent of Fats Navarro. By the end of the evening Norma had lived down that unwelcome comment, "She plays good for a girl," and had elicited the rarer remark, "She plays good."

May Be Turning Point

# May Be Turning Point

Perhaps her Birdland beginnings will prove to have been a turning point for Norma Carson. Certainly nothing spectacular had happened to her previously. Born in 1922 in Portland, Ore., she first went out on the road playing lead trumpet for—as you might have guessed—Ada Leonard. She had been playing from the age of 12; her father. though not a professional, had played trumpet, as did her sister, who, like so many girl musicians, brought her career to a sudden halt by combining marriage with retirement. Perhaps her Birdland beginnings

For five months Norma was a member of the Sweethearts of Rhythm, a predominantly colored outfit in which the discrimination was sexual but not racial. Later she played with a small combo led by the Sweethearts' former tenor sax star, Vi Burnside.

sax star, Vi Burnside.

The amazing fact of the Carson career is that Norma hard played any jazz until 1944, and has only been digging the modern groove for about two years. After coming to New York to sit out her 802 card waiting period, she didn't work for a whole year.

"How did you ever learn to blow Right now, though, Norma has only one minor objective in mind. "I don't want to be a girl musician." she says. "I just want to be a musician." she says. "I just want to be a musician."

that style, while you weren't even working?" we asked.

"Oh, just listening—sitting home by myself and working things out," said Norma casually.

When she went back to work, she would periodically get sick of having to play with inferior musicians, and, saying the heck with it, would stay home; then she'd get tired of inactivity and would go on the road again with, she says, an even worse outfit!

an even worse outfit!

If she doesn't get disgusted enough to throw up the whole thing permanently, Norma may still make the grade. She likes and understands what she is playing, and you can tell that Fats was her idol—"he had more of a true trumpet sound than Miles, but Miles is great too, of course, and I like Doug Mettome."

Simply on the basis of her talent, good looks, and pleasant personality on the bandstand, the very least she rates is her own quintet, say, at the Blue Note or the Black Hawk or Birdland or any of the other comparable spots around the country.

Needless to say, he couldn't make it. His five saxes, six brass, and four rhythm (including a tuba) amount to an unhappy attempt to placate the exceptionally square customers of the Roosevelt grill and his own musical conscience.

Unfortunate Billing
The pity about this outfit is the unfortunate billing as an "All-American Band," leading you to expect something that could never have been accomplished in this room; another pity is the presence of such good musicians as Aaron Sachs, alto (the same who won an Enquire award as the best new jazz clarinetist of 1947!), and Frankie Socolow, tenor. They looked as unhappy reading their parts as we were watching them.

takes just as much work.

# No Script

There is no script, just a couple of mimeographed pages that outline a situation. As soon as the first rehearsal starts, the cast is at home. They make up their own dialogue as they go along, revising and adding lines. And by the time the show goes on the air the plot usually has been altered more than somewhat.

The characters aren't actor they're people getting paid for something they'd probably be do-

ing anyhow.
Studs looks like an ex-bartender who bought a place of his own, then didn't put in a bar because he wanted to relax and chew the fat with his friends.

New York—These four pretty girls are the Heathertones, who can be seen and heard every Monday, Wednesday, and Friday afternoon on the Bert Parks NBC-TV show. Jean Swain and Bix Brent are on the top, while Marianne McCormick and Nancy Overton are on the bottom. The quartet got its name when, two years ago, the girls were singing with Ray Heatherton's band.

He sings folk tunes and repairs plumbing at the joint with equal aplomb.

Grace is a waitress who's learned much about human foibles in several years of waiting on tables.

And that's all. Sometimes a friend or two drops in. But no dancers, no comedians with a dozen gag writers, and no emcee.

### Has a Ball

Chet enjoys it and is happy to be in a spot in the new medium where he doesn't have to play pop tunes, where he can refer to Vaughn Monroe as "The Moose," and where he puts in his 36 to 40 hours a week (counting rehears als) but doesn't have to go on the road to do it.

# **Director Studies Piano** To Improve Video Show

By RIA A. NICCOLI

New York-Ever hear of a television director who started

New York—Ever hear of a television director who started studying piano so he could get the most out of the musical program he was assigned to direct? Well, Dick Sandwick, who directs WABD's Star Time, did it and it actually improved the show to a visible degree. The surprise twist to the story is that now he's soing on with his leasons for his own amusement.

In many ways, Dick is a happy addition to such a variety show as he knows his way around dramatically, too, having appeared in several Broadway productions before he joined the navy in the last war.

Pretty Relaxed

Star Time is pretty relaxed, since everybody gets along with everybody else, nobody tries to pull rank, and all the departments and

makes for a happy, if rather ecstatic, audience.
Rehearsals for this show go on all week, with Monday and Tuesday reserved for camera. All the weekly guest shots are set acts—that is, they are already perfected—so there is no need to rehearse them till the last two days, when they practice with the band and are integrated into the whole.

Surprise of surprises, however, at actual performance it unraveled itself and came through without a single hitch. When the act was over, the orchestra as one man arose and yelled, "Bravo!"

Chicago-With but a few exceptions, the jazz that's left to be heard in this town these days can be found only in the loop. Almost the whole south side is dead, with only an oc-

loop. Almost the whole south easional trio to be heard in addition to Red Saunders at the Delia and Booker Washington Dixie five at the Bee Hive.

The same holds true when you head north, with Art Hodes at Rupneck's, Johnny Lane at the 1111 club, and Danny Alvin at the Normandy providing the only fireworks of import. Woody Herman's Herd is currently at the Edgewater Beach hotel, but don't ask for Keeper of the Flame, More Moon, That's Right, etc., unless you're just being jocose.

Shearing Returns Condos et Brandow

The very wonderful Steve Condos and Jerry Brandow are going into their second week at the Chicago theater, on the same bill with Dick Contino and Kitty Kallen.

The Ravens and Tiny Bradshaw open today (23) at the Regal, with some talk of bringing Buddy Johnson's band in sometime in April or May.

Shearing Returns

In the loop, George Shearing is at the Blue Note. It's one of few jazz groups left that consistently does good business wherever it plays. At writing it was rumored that Lennie Tristano might follow George, but nothing definite was set for that date or any following. Ken Henderson's trio stays on with Shearing.

The Hi-Note did right well with Georgie Auld, but nothing had been booked to follow at presstime. The Monday and Tuesday off-nights there are getting to be well-populated, with Bill Russo's quintet set on those nights for just about as long as they want to stay.

### Lila at Capitol

Capitol doing great with Lila Leeds, whose name proved to be quite a drawing power, though she still must learn more about mike presence and delivery to be a competent singer. Husband Dean McCollom's band gives fine support, plays some good sets on its own. All local men, the group lines up with Eddie Petan on piano; Dave Poskonka, bass: Lester Perry, tenor, and McCollom, drums.

They head for the Riptide in Calumet City at the close of the Capitol date.

Have Headaches, Too

"They have their headaches, too, like all of us. One of their problems is television, and how to meet it. We're using that in our picture. Personally, I think that disc jockeys will keep their branch of radio alive long after television has taken over the soap operas, dramatic shows, variety shows, and all the rest of radio's stock-in-trade.

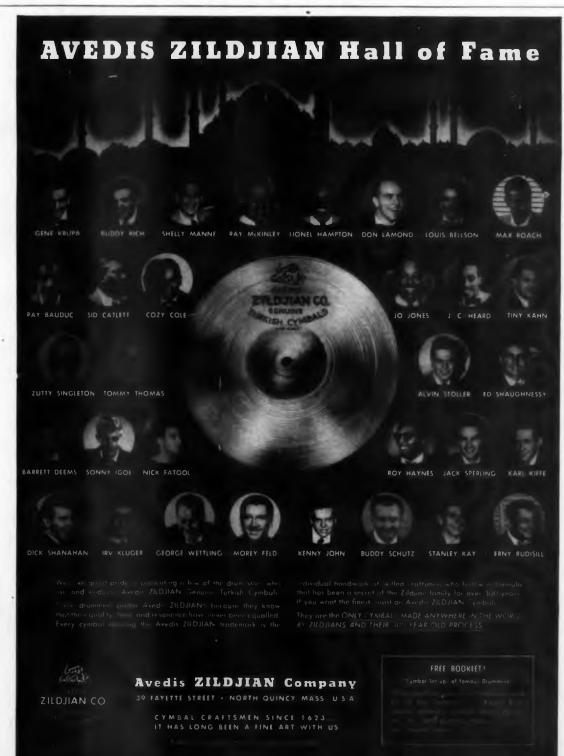

"They will always have a place with that large portion of the public that just wants to listen to all kinds of good music."

Some 20 of radio's leading platter pitchmen are to appear in Disc Jockey, some of which will be shot in New York and other cities in order to save the boys the trouble of coming to Hollywood. Martin Block seems to be in line for the most attention, according to the tentative script. West coasters expected to get their share of footage are Gene Norman, Frank Bull, Joe Adams, Bill Anson, and others.

# **Not Every Man** Is A Comedian

one or two observations a few bandleaders and a lot of musicians might take into account in these days of a lot of funny hats on bandstands, which are supposed to indicate humor and impart a general feeling of jolliness to the dance hall and saloon business.

The most important of these, perhaps, is that not every musician is born a comedian. On the contrary, those with a genuine ability to make an audience laugh, coupled with the time required to keep up on fresh material, come in about the same ratio as do comics in any other field—infrequently. Consequently, no one should expect something hilarious from a musician just because he's on the stage and in the spotlight.

This may seem to be laboring the obvious, but how many combos and bands are forced through creaking routines and outfitted in unfortunate getups on the supposition that some metamorphosis will be wrought thereby, resulting in surefire humor by the bandsmen?

If there is anything as unnerving and disquieting as com-lete deadpanedness and absolute lack of enthusiasm on a andstand, it is the opposite—a form of manic hyperaction for which there is no apparent motivation, accompanied by foolish grins, sometimes half-apologetic, bad jokes, and worse costumes. The audience is embarrassed by the evident embarrassment of the musicians.

But probably the worst aspect of all this is the debilitating effect which the forced, strained humor may have on the many sound, well-disciplined, educated sidemen who'd rather play than be unfunny trying to be funny.

It won't take long for them to feel brought down. When this happens, their music suffers, and no hat on a musician, be it ever so funny, will bring back the business that his spiritless music drives

A musician would like to feel that the music is the impor tant thing in the audience's eyes and ears. Attempting instead to be something he probably isn't—a comedian—hardly is calculated to make him listenable.

This isn't to low-rate the few good comedian-musicians extant. A funny hat gimmick may lend a temporary financial boost at certain spots, but unless there's complete unity of purpose and desire in the band to combine the gimmick with the music, plus the all-important factor of ability to deliver the humor smoothly and with aplomb, better they should practice the music more. The humor, for both the band and practice the music most in the patrons, wears off in a hurry.

thought you might be interested in the problems of local musicians. I am almost convinced that no one else is. I am a trumpet man, and considered a good one. I have been playing for about 20 years and have a good background of expe-rience as well as education in music, I am one of the few musicians left in Texas who holds an M.A.

rience as well as education in music. I am me of the few musicians left in Texas who holds an M.A. degree.

The last six months I have been located in Galveston, the resort town of Texas. Frankly, things are so bad musicians are taking outside jobs to make a living. I could not exist here without another job on the side. I can't even get enough money to leave, neither can a lot of other musicians.

A union card is not necessary to work here. Only a handful of clubs pay scale. The president and secretary of the local have jobs on the docks and do not work as musicians. They do very little, if anything for the local loys.

Traveling bands and musicians come through here, but their cards are not checked, transfers are not picked up, and tax is not collected. Club owners hire and fire musicians at will, and most of them never heard of a bandleader. You could have a fine man with you and if the owner did not like him, the next night he'd be gone. The first you'd know about it would be when you were told to replace him. The owners can hire you at one price and a few nights later tell you they're sorry, but you'll have to work for less or quit.

I suppose this will cause me more trouble if published, but the situation here is so bad I felt I had to do something.

# Flanagan Dismays

To the Editors:

one record label Feter Uryga, Feb. 8 in I was dismayed, to put it lightly, WALT-Edward J. Walt, 78, componer old music firm bead, recently in Lincoln. ch. with the story on Ralph Flanagan in the March 9 issue. Flanagan

states he can't help explain the colossal success his band has attained in such a short time. The answer to his confusion is his own smooth, commercial band, which seems to be what the people want. Regarding his statements about Stan Kenton, Kenton has put more in the music world than Flanagan takes time to realize. As for wrecking the dance biz, I think the majority of the blame falls on the managers who insisted on booking exhibition bands like Kenton's for ballroom dances. Flanagan also inquires of Kenton's financial status. Kenton draws as much money, if not more, than Flanagan for his appearances and has frequently made Flanagan's attendance records look a bit sheepish. Kenton also uses his money for improvements on the band and for the furthering of his field. He doesn't use it to build up an impressive bankbook to bolster his ego.

In another baffling comment, Flanagan admits being in the music biz sheerly for the money involved. It seems a shame that he has no ambition, contribution, or improvement to make other than soaking up money. For a man whose band has achieved such popularity and gained such respect, I don't understand why he made such an "exuberant juvenile" of himself in front of his readers and admirers.

Phil Beach

To the Editors:
... If Flanagan would learn the meaning of good music and make a simple, sincere effort to produce it, he could name his price and command respect from anyone. Until that time, he will remain a corny, commercial, and helpless instrument which the people use to satisfy themselves.

To the Editors:

So Ralph Flanagan didn't know what hit him! Lucky thing for him that Glenn Miller left behind what is now a much abused style; there would be no Flanagan without it. Name a band without the Miller sound? Les Brown, Elliot Lawrence, T. D., Harry James, Johnny Long—all good showmen, all with standout sidemen to boot. And Guy Lombardo, Sammy Kaye, and Wayne King each has set his own distinct style.

session to get on wax, but is the first actual on-the-spot take. Squirrel's recording history goes back to 1928 when he and his Princeton classmates had a band called the Equinox Orchestra of Princeton. They made a New England tour in '28 with the Triangle show called Napoleon Passes, and following the trip they stopped in New York while Squirrel set up a recording session at the old Columbia studios.

Held Up

Bix promised to make the sides with them, but the pre-session cele-

studio where they cut four sides. They were Riverboat Shuffls. Muskrat Ramble, I Only Want a Buddy, Not a Sweetheart, and Sunday. The band was called The Monday Knights and consisted of Squirrel, Kennedy, Howe, Priestley, Wilson and Joe Rushton, clarinet. The sides were privately issued on the World label, and last year Paramount reissued Sunday and Riverboat.

On the Informal Session at Squirrel's, the following took part: Ashcraft. piano and vocal; Kennedy, guitar; Hoyt Smith, drums; Spencer Clark, bass; Priestley, cornet and guitar solos; Howe, clarinet, and Wilson, trombone. The folder lists the spirit of Joe Rushton as also being present.

A Mercer Tune
As stated above, the LP starts out with the recut of the 1928 That's a Plenty, followed by the boys playing That's a Plenty as they sound today. Two more fill out the first side—a treatment of Richard Rodgers' Manhattan and Jazz Me Blues. The reverse of record number one contains What's the Use!, Farewell Blues, Embraceable You, and Me and the Ghast Upstairs. The last tune is a Johnny Mercer number never before recorded. Squirrel takes the relaxed vocal.

The second LP contains eight

corded. Squirrel takes the relaxed vocal.

The second LP contains eight more sides—Dourre, I've Found a New Baby, Out of Nowhere, My Honey's Loving Arms, You Took Advantage of Me, Susie, Everybody and You, and Poor Butterfly. The star of the seasion was Bill Priestley, who, if he had chosen the music profession rather than architecture, would have been one of the top jazzmen today. He plays in the Beiderbecke tradition, and his musical ideas on both the cornet and guitar are exciting listening.

Of Jazz Evolution

. . . He worked at a Canal street taxi dance . . .

Monk Hazel, drummer and sometime mellophonist with the Dixieland band of Sharkey Bonano, was born in Gretna, La., Aug. 15, 1903. He took up the study of the smare drum at the age of 8 and was soon lending his talents to street parades and similar free-for-alls. During his early teens, Monk and his close friend, cornetist Emmett Hardy, worked around Gretna and vicinity with an outfit called Echhart's Jazzolas. After joining the musicians union he worked at Danceland, a Canal St. taxi dance, moved to the Lake Pontchartrain resort, Bucktown, for several months, put in two years at a taxi dancery, and played the Old Absinthe House for another two years. When Hardy pessed away, Monk fell heir to his horn and began to interrupt his paradiddles with an occasional obligato. In 1925 Hazel joined the band at Halfway House but soon moved to the Absinthe House for a year before returning

to Halfway once again. Monk also played cornet now and then at the Fern dance hall. "Fern has quite an alumni," he recalls. "Everybody in town used to sit in out there." His next stops included Metaire inn, Beverly Gardens in Jefferson Parish, the Ritz, a N. O. gin mill, and a job with Norman Brownlee's band, then playing at Spanish Fort. It was while working with Brownlee that Monk began exploring the possibilities of the mellophone, a case of love at first sound. His next assignment was a dog track where the band entertained the audience between races, them the Silver Silyper, and Metaire inn. Hazel organised his own hand in 1927 and managed to keep the group together for two years. Then came New York where he played vaudeville and made a few records before returning to N. O. and a berth with Sharkey at the Honeys suckle. After another trip cast and the discovery that

he "couldn't do any good," Monk came home in the early '30a and with two partners purchased a club called the Golden Pumpkin, Businesa, unfortunately, never lived up to expectations so in 1934 Hazel sold his interest for "a linen suit and a pair of pants" and shoved off for Hollywood's Cocoannt Grove with singer Gene Austin. After working in Hot Springs, Ark., and N. O., the army called in '42 and Monk marched away for 11 months service and then a discharge that read "no horn." Three years passed before Monk went back to music, playing with the staff band at WSMB and at Leon Prima's 500 club, but he seems to be back for good, Now a member in good standing of Sharkey's renowned unit, Monk and his cohorts should go on indefinitely, or at least as long as Hadacal and the Hilton hetels continue to flourish.

# Jazz Off The Record

By BILL RUSSO and LLOYD LIFTON

(Ed. Note: Kai Winding's solo on Waterworks is the 14th in Dona's Jazu off the Record series.)

Cited. Note: Kai Winding's solo on Westersorks is the 16th in Doses Beet's Jass off the Record series.)

Chicago — A constant source of confusion in evaluating immen's work has been the difference between recorded and imperson performances. This difference between recorded and imperson years and the series of the series of

Another unfavorable aspect of recorded jazz is the relatively little time each man is given to improvine. On many records we have had the feeling that the soloists were just getting started when their solo was ending. This time limitation could and should be corrected through the full use of LP.

Considering all the difficulties we have enumerated, it isn't sur-

ance, A comparison with his other work on records and in person seems to substantiate this feeling. Here is a good example of an improvising musician operating at his top creative and technical level. One of the most interesting things about this solo is the greater-than-usual length of the phrases. The entire solo consists of four long phrases. These phrases correspond to the eight-bar divisions in the tune. The eighth-note rests within the phrases merely indicate detached notes, not pauses or breaths. In jazz generally and in trombone jazz especially, these long phrases are indicative of a much more mature developmental

Kai Winding's Solo On 'Waterworks'

approach.

A remarkable feature of this solo is Kai's complete use of his instrument's range. Extending from the high C in bar 2 to the low F# in bar 9, the entire solo embraces 2½ octaves. This use of range, however, is not for effect. It is an essential and natural ingredient of the whole solo. Nowhere does Kai struggle to produce out-of-range sounds.

### Excellent Definition

Another favorable point about this solo is the excellent definition which Kai demonstrates. This solo is well-articulated in two senses: first, in the brassman's sense of being well-tongued, of each note having distinctness; second, in the sense that each group of notes is a clear rhythmic entity, meaningfully separated and related to other groups of notes.

There are four significant harmonic alterations in this solo. Three are lowered ninths in bars 9, 25, and 26. The fourth is a raised fifth on the fourth beat of bar 29.

In summation, we feel that Winding's performance on this rec-

lar 29.

In summation, we feel that Winding's performance on this record is a significant contribution to trombone literature. It is despite the extremely bad quality of the reproduction and the pressing of this side that we have used the solo, though. There are few cases of such distortion. New Jazz, which recorded the date, has exhibited gross unfairness, not only to Kai and his sextet, but to the record buyer.

# SWINGIN' THE GOLDEN GATE

# Illinois, Nellie Also Caught In Frisco No-Pay Hassel

By RALPH J. GLEASON

San Francisco—A brace of "me-pay" hassels hit the Bay area in February in the wake of Duke Ellington's canceled concert. Nellie Lutcher closed at the New Orleans Swing club early in a beef with the club op over a \$1,400 check which Nellie refused to accept. And Illimois Jacquet had a beef with promoter Joe Reed over pay for a dance in Oakland.

Lutcher's hassel with Landry began on a Friday night when the union pulled the band, as she hadn't yet been paid. The matter was then apparently straightened out to the satisfaction of the union and everyone else with the proviso that Lutcher's loot show in the morning. Even More Complicated
The Jacquet thing was even more complicated. He had two dates, one in Frisco and one in Oakland, for promoter Joe Reed of Ellington fame. Reed was allowed by the union to keep the dates despite the Ellington fiasco because he came up with \$500 on the Ellington bill and had already paid an advance against the two Jackets dates.

dates.

The first date was a Saturday night in Frisco and the band was slightly late . . . failing to show until 11:30. Reed and Jackets called that one off, understandably. The next night they played Oakland to a reasonable crowd of about 1.100. At presstime the band hadn't been paid and Reed's position was that he didn't owe anybody any money. Reed probably netted enough off the two dances as it stands now to square himself as it stands now to square himself for the Ellington deal, if he cares

# New Musicians Mean A New Sound In My Band: Ellington

Hollywood — "There is no such thing as a 'replacement' in my band," says Duke Ellington. "A new musician means for us a new sound and the creation of new music, which he and he alone, can properly express." Those were Duke's words before his March 2 upening at the Ossis, the relatively small southside nitery where venturesome operators Joe Abrahams and Bill Robinson were said to be guaranteeing Duke \$10,000 for a two-week stand.

\*\*As Capitol Exec Hollywood—There's been and the control of the con

The Duke was, of course, refer-ring to the recent departure from his aggregation of two great musi-cians, Johnny Hodges and Law-rence Brown, whose absence, to many Ellington followers, even more than that of Sonny Greer, unquestionably leaves a void that will never be filled.

# New Faces

New Faces

The new faces in the Ellington band are those of Tommy Douglas, Kanasa City saxman, better known perhaps as a tenor man (with Julia Lee on Capitol) than for his work on alto, though he plays plenty of both; and Britt Woodman, trombone man who has been working mainly as a studio and recording musician.

Tommy plays about as much like Hodges as Harry James plays like Bobby Hackett. He has a big, robust tone on alto, with that "roughness" that is beginning to come back into favor. Ellington wisely avoided trying to fill Hodges' chair with anyone whose style would be subject to comparison with Johnny's. The same idea, in a different way, holds true for the Woodman-Brown switch.

Boys do a passable though unspectacular job on this collection of old favorites, treating the songs with almost stultifying respect. Sixth and eighth numbers seemed to have the most life. 6 Out of Nowhere

Jack: You'll hear little "coolness" in Air Mail—it's romping, striding jazz as it is played by Georgie's quintet these days. Unlabeled sidemen are trombonist Frankie Rosolino, pianist Lou Levy, bassist Max Bennett, and drummer Tiny Kahn.

Lou solos first. followed by a grand chorus from Rosolino, wherein he flashes amazing technique and a wonderful jazz sound. Georgie's is a typically gutty, driving solo, with the band winding things up in a Kahn-inspired finish.

S Portrait No. 2 is the same tune as Joe's Portrait No. 2 is the same tune as Joe's Portrait No. 1 in Columbia's Piano Moods series, with strings and Buck Clayton added here. Joe gets to moving right along in his solo and Buck's long-unheard-from voice shows up, playing a pretty muted chorus. But he then falls into a completely tasteless and trite set of fourbar breaks with the drummer which wrecks whatever feeling has been built up.

Dah'ling is a soft, meandering thing that's quite pretty but doesn't really end up any farther ahead of the game than it started. (Columbia 39214.)

### Bette Chapel

2 The Do-Do-Melody
Pat: An engaging performer on television, Bette Chapel is somewhat less appealing from a wholly auditory sense. Her singing style is too dependent upon exaggerated pronunciation and accenting, Nevertheless, she somehow manages to hit a soft and sweet vein now and then on T'Adore, before becoming coy. tion, sounds like a mismating be-tween a polka and a rhumba. Gal, however, is a close copy of carou-sel music, with the same pumping rhythm evocative of brave wooden nies, flags fluttering in midsum breezes, pink spun sugar, and all that.

Some record company might follow this to its logical and probably lucrative conclusion, and issue an album containing music of various nostalgic and incidental types. Snatches of a circus band, of a theater pit ork (five pieces) tuning up and playing the Skater's Waltz, music for a tumbling act, Pomp and Circumstance by any small and anxious high school band, and so forth. Cole's Gal is a natural inclusion in this hypothetical collection. (Capitol F1403.)

George: First side is another popular adaptation from the classics. Based on Tchaikovsky's Romance, the resulting ballad has Nat's intimate-styled voice embraced by Les Baxter's lush orchestral accompaniment complete with haunting choir. Cole's new role as featured vocalist sans trio will not detract from his commercial success. Destination presents King in his more familiar sprightly mood, with Neal Hefti's stringless modern jazz accompaniment. (Capitol F1401.)

George: Darnel's vocal style is less affected than Frankie Laine's, although in the same deep - voiced manner. There is something rather different and appealing in his phrasing as he sings along with an abandon that sounds tense and relaxed almost at the same time. Blue Room

Jack: Miles on Morpheus again attempts something different, this time using a sextet. Evidently he's trying for the same chamber music sound and feel he got on his Capitol sides, but here has only three horns to work with—trumpet, tenor (Sonny Rollins), and trombone (Benny Green). It isn't very cleanly played, however, and the arrangement allows for few solo opportunities, although Miles sounds fine in his short burst.

Blue Room is another recording

3 Here Come the Blues

Pat: Perhaps this was issued to cure people like me from saying they prefer the bluesy Billy. Lots of good musicians had a hand in this, so we can spread the blame. Arrangements are by Pete Rugolo; band was directed by Woody Herman (but not his sidemen in it), and, of course, Mr. B does the vocals. The chaotic background churns while it masticates the score, and Eckstine sounds strained. Maybe it's because he has to work with something like this: "If you find her you'll adore her. Just look around for someone who has a blue-grey fedora." That's from Hat. Blues sounds as musically tormented, and has a hilarious ending with great chord coughs from the band and then Woody's little clarinet. (MGM 10916.)

5 How Blue Can You Get?
George: Sarah Forde is unimpressive on Up, a new one composed and arranged by Mercer Ellington. Given a better tune, her phrase-control might show to advantage. The same holds true for Red Rodney's trumpet and Max Roach's rhythm.

The flip side is a typical simple blues written by Jane Feather and sung hy Chubby Kemp in the accepted fashion that remains constant through the years except when a Holiday or Vaughan gets the blues. It seems funny to hear the suave Duke giving out with a blues piano accompaniment. Pettiford plucks his cello to get a blues guitar sound in one spot. (Mercer 1960.)

Pat: Ella treats these eight
Gershwin tunes in a sensitive and
fitting manner, with only Ellis
Larkins' piano as accompaniment.
She's singing straight to you, you'll

feel, certainly a rare quality nowadays. But Not for Me displays an
extremely delicate touch, and vies
with How Long Has This Been Going On? as the best in the album,
though Crush and the others are
also beautifully done. Packaging on
this is different, with the envelopes attached to a rod in a hinged
box. Room for a couple of extra
records inside, and discs can't slip
out. (Decca 4-806.)

# Ralph Flanagan and His Orchestra

3 Everytime I Fall in Love 6 Slow Drive 7 Ah, Sweet Mystery of Life 6 Stouthearted Men

6 Stouthearted Men
George: First side is all vocal
featuring the new choir-type refrain set off by a couple of Harry
Prime solo spots. Tune and rendition is banal. Slow Drive never
reaches home. It is a Millerish instrumental, slightly bouncy but too
mechanical to earn its own way.
The strument of the strument

mechanical to earn its own way.

The playing of Victor Herbert's Mystery as an instrumental shows the Flanagan aggregation at its best. The Naughty Marietta number is taken at a lively tempo and the arrangement includes several interesting effects, one of which is a muted brass ensemble that is nigh perfect. The reverse of the above is another instrumental, this time by Romberg and from New Moon. A little less interesting but done well. (Victor 7-4067, 4069.)

Stan Getz

8 On the Alemo
5 For Stompers Only
Pat: Stan's tenor and Al Haig's
piano share honors on Alamo, tracing a very relaxed, lyrical line
and sharing the same mellow mood.
No tricks, no striving for effect,
just a lovely job by two sensitive
musicians. Stompers is not as successful, though Stan still makes
sense. (Roost 522.)

Gone is very amusing. These are the guys who made Peg O' My Heart. Then the Three Suns made a faithful copy of it. Recently, however, the Three Suns cut this arrangement of Gone (which sounds exactly like Peg O' My Heart) and the Harmonicats have now made a copy of that. Personally, I'm lost. (Mercury 5596.)

# Erskine Hawkins

Erskine Hawkins
6 Tuxedo Junction
6 After Hours
George: These are new cuttings by Hawkins' current band of two "killer-dillers" he waxed years ago for Bluebird. As is always true of such anti-climaxes, they do not excite or sound nearly as worthy as the originals. The haunting Avery Parrish After Hours piano blues is handled competently by Ace Harris, who once before recorded it as a solo on Manor. His version lacks the eerie quality attained by Parrish himself on the older Hawkins side. (Coral 60361.)

### PeeWee Hunt

PeeWee Hunt

2 Sugar Blues
5 Carolina in the Morning
George: Capitol must have a padded-cell department to keep their Mel Blancs, Stan Friebergs, and PeeWee Hunts in when the group isn't busy in the studio. The mute manufacturers owe a debt of gratitude to Clarence Williams for writing Sugar Blues in 1919. Hunt's run-through features some pained birdlike sounds from Red Dorris on clarinet that Capitol calls "gruty," and PeeWee giving with the mute on what C. calls "growl trombone." The Carolina side isn't too bad Dixie if the half of the record featuring PeeWee's vocal had been omitted. (Capitol F-1418.)

# Just Jazz The Man I Love Stardust

Album Rating: 6

Album Rating: 6

Jack: Two tunes from a Gene
Norman 1947 Pasadena concert on
LP, featuring Lionel Hampton
(on Stardust only), Charlie Shavers, Corky Corcoran, Willie Smith,
Barney Kessel, Slam Stewart,
Tommy Todd, and Jackie Mills and
Lee Young, drums.

Stardust is the better of the two,
mainly because of some fine Hamp
and pleasantly persuasive Corcoran. Hamp starts his solo at the
slow tempo the group sets, then
for some three minutes plays
quadruple time against the
rhythm section.

Man I Love has some fair Shavers and Kessel. Album notes say,
"I'm sure you'll agree that these
are some of the most moving moments in jazz."

I don't. (Decra DL7013.)

# Peggy Lee

A Yeah, Yeah, Yeah
7 Rock Me to Sleep
George: Louis Prima's imagination on this tune is running away from him. Peg sings it with a sexy lilt. Benny Carter's Rock Me to Sleep suits Lee to a T, and the rendition moves with the well known Carter rock. A fast-moving jazz combination accompanies the second side. (Capitol F-1428.)

### Jerry Lester

Jerry Lester

2 The Beanbag Song
5 Your Sister Knocks Me Out!
Pat: Comedian Lester, star of
the Broadway Open House TV
show, sounds a little like Woody
Herman in the recitative-vocal
on Sister. Ingratiating. Beanbag
is some gimmick from the show,
and rather tiresome. (Coral
60342.)

### Nellie Lutcher

Nellie Lutcher
5 Pa's Not Home, Ma's Upstairs
5 I Really Couldn't Love You
George: The first is a novelty
thing of the type Nellie does well.
This one tells a humorous story of
a girl trying to impress upon her
date that they are alone in the
parlor. The second side was written by Nellie's sister, Vydah
Lutcher, is a pleasant ballad that
also suits the Lutcher whispery
delivery. Snatches of rhythmic
piano are heard on both sides.

Don Ewell's piano solo on Maple Leaf stands out, as does Muggsy's drive on Washington and Lee. (Regal LP 11.)

# Orchestration Reviews

By Phil Broyles LONESOME GAL Published by Morris Arr. by Jack Matthia

Fragment of Clair de Lane and Cynthia's in Love run through this better-than-average tune, and the arrangement adds still more similarity. Nevertheless both the tune and arrangement are well constructed. The aplit choruses open with a brass soil while saxes furnish a fluent counterpart. Saxes pick up the lead on the second eight and the last 16 is a duplicate of the first. The repeat is in reverse order. Over sustained tenors and a bary, two altos in thirds open the special. First trombone takes a solo after two measures and the saxes fall below for support. Muted brass play lead for the next eight and the finale is scored as a tutti.

YOU AND YOUR BEAUTIFUL EYES

Published by Par Arr. by Howard Gibeling

Eyes is from the picture At War With the Army and was written by Mack David and Jerry Livingston. It's a simple arrangement scored in a two-beat style better suited to four, and is overloaded with anticipations. After the usual repeat choruses, trombone and trumpets share the first half of the special, with reed fill-in. Saxes then carry the lead to the finale, which is scored for ensemble.

AND VOIPLL RE HOME Published by Famous Arr. by Johnny Warrington

Arr. by Johnny Warrington
This is a very smooth tune, with
the arrangement adapted accordingly. During the split choruses
there is a lot of ensemble work
that adds to its fullness, but the
phrasing seems a bit awkward in
spots and is often cut short. Saxes
support a trombone solo through
most of the special and a muted
trumpet adds color. The countermelody in the finale, although not
always complete in phrasing but
adequate, furnishes nice support
for brass ensemble work. A good
stock arrangement.

PRINTING 9 RAY LEATHERWOOD, bass: Is 36, comes from Itasca, Texas, has been married 10 years and has two children. Hates characters who label music as "bop," "Dixie," or "swing." Considers playing with Venuti group his most exciting experience.

TONY RIZZI, guitar: Tony is an LA. boy, 27 years old. Has played with Harry James, Matty Malneck. Victor Young, Mark Warnow, and Horace Heidt. Eckstine and Sarah are his favorite vocalists. Likes "just about everyone who plays well." Is unhappy about the lack of clubs where musicians can play what they enjoy and still get paid for it.

GEOFF CLARKSON, piano: Jeff is 36, comes from Yonkers, N. Y. He studied at Juilliard before joining Bobby Hackett. Art Tatum is his favorite instrumentalist, Ella top vocalist. Spends his spare time writing songs, has an ambition to graduate from the "one-hit song writer" class. Pet peeve is bad pianos and irregular living habits connected with the music business.

JACK SPERLING, drums: Jack is 28, comes from Trenton, N. J. Considers Buddy Rich the greatest drummer around, slso likes new vocalist Mary Mayo. Ambition is to own a small ranch away from careless auto drivers. Most exciting experience was Korea trip.

# Lee Shows Spark With New Backing

Hollywood-Music circles are eye-Hollywood—Music circles are eyeing with much interest the spark that seems to have been injected in Peggy Lee's vocal delivery on her recent Capitol releases, Yeah, Yeah, Yeah, Rock Me to Sleep, by hacking her with a mixed crew headed by Jim Wynn, local saxman and leader.

In addition to putting the singer, who has lapsed into rather languid vein during past few years, back on the more exciting style with Which she first gained attention. a flock of agents are angling for Wynn, hailing the band as the "best since Basic."

# **Velma Middleton Cuts** Sides For New Firm

Hollywood — Velma Middleton, singer with Louis Armstrong's All-Stars who hasn't made a record as featured soloist in more than 10 years, cut four sides here as initial offering of a new firm, Middle - Tone. Company was launched recently by Velma's brother Emanuel, local bass player and teacher.

and personal standards as exempli-fied by himself and his bandsmen. He made some interesting ob-servations on the subject, which

we think are worth passing on
On jazz, and its relation to the
dance band:
"Jazz is individual interpreta-

tion of a musical idea—either by improvised solos or by arrangement for two or more instruments."

Re Styles

Re Styles
On Dixie vs. swing vs. bop, etc.:
"I like any kind of music when it's done well. If my band has been successful it might be because my personal tastes are pretty close to those of the average person. But I don't go for thin present trend toward imitation of anything that has been successful."
On strings:

toward imitation of anything that has been successful."

On strings:

"I don't want strings unless I can have at least 50. Then it wouldn't be a dance band, and dance music is my business." (Les added a string section, since dropped, to his band for the Hope show. He has never used strings on dance dates.)

On music:

"Maybe I'm old-fashioned, but I like to hear a good melody."

On trumpet players:

"I wish all trumpet players would listen to Bunny Berigan's records and try to play the way he did. I don't mean to imitate him; I mean develop a big tone like Bunny's and play with that same melodic quality."

# **Impossibility**

Chicago—A guy was eased out of the Hi-Note here one night for throwing a lighted cigaret butt at a waitress. Georgie Auld's crew was on stand.

After getting out on the side-walk, he wasn't indignant or feeling pugilistic about it. He just kept saying, "But you can't throw me out, I dig bands!"

A good number of bop records are available, but the only live "progressive jazz" is a dubious noise produced from time to time by the French orchestra which backed-up Eldridge at the Club St. Germain des Pres.
Of the other places that steadily employ jazz bands, the Vieux Colombier is the best. Bechet played there with Claude Luter's group until recently. They are now part of a variety show in a theater on the Boulevard Poissonniere called

the ABC, a place more accustomed to Mistinguett than to "Rythmes Nouveaux."

When Bechet wields his mighty horn the band swings, but Luter's all-French group, left to itself, is so dependent on copying records that their music is even more mechanical than that of the old Yerba Buena band.

### Expensive

Expensive
The Vieux Colombier and the Club St. Germain are both cellar joints and are both quite expensive (\$1.50 to get in, \$1 a drink). They are always jammed with people, many of them very casually dressed students. These students are encouraged to come by the managements, who hope they will give their joints a gone atmosphere.

give their joints a gone atmosphere.

Somewhat cheaper and less crowded is a bar and restaurant run by the American singer Inez Cavanaugh. Inez' program is proclaimed on a sign outside. It reads, "Aperitifs, Dinner, Music, Happiness." She employs two very able young pianists named Arthur Simmons and Erran Bridges. Inez sings occasionally herself and has not lost her touch.

Another cave that occasionally features jazz is the Club Tabou. Don Byas fought a losing battle

there last fall with a terrible French band. The best French group in town, and the only one worth listening to, is a quintet led by Django Reinhardt. They followed Eldridge at the Club St. Germain. Neither Byas nor Eldridge is working at the moment. Bill Coleman was in Paris for a short while, but is now leading a band in Switzerland.

The situation in Paris will probably improve by the time the summer tourist rush starts. Right now one had best settle for a little piano music at Inez Cavanaugh's... or stay at home with a stack of records.
