Gap Twixt Classics, Jazz Now Erased: Hammond

Bridge Cap Now that countless numbers of musicians, like Benny Goodman, Artie Shaw, Pete Rugolo, Mel Powell and Dave Brubeck have bridged the gap between the jazz and classical worlds, it is obvi-ously time for a magazine devoted to the field of popular music to treat in the classics as an influ-ence on the nation's musical tastes. This was certainly the case when Down Beat first came off the presses in 1934. Those were the days before the rise in popularity of awing bands and soloists, and a good 10 years before the era of bop and "progressive" music. Thanks in part to the crusading work of this magazine, iazz fans have become increasingly appre-ciative of the most complex rhyth-mic structures and harmonic pat-terns in modern arrangements. At the same time, a revolution has occurred in the world of classical musicians and composers, who have become aware of the vital importance to the musical scene of jozz and its soloists. New York—Will Bradley, pulling down bundles of loot as one of the busiest studio sidemen in town, returned to active band leading last week at the Paramount Theater. He worked on a bill which starred Billy Eckstine and featured Fran Warren. Bradley was a last minute replacement for Charlie Barnet, originally scheduled for the date but later cancelled to pave way for the latter's honeymoon with nitery singer, Betty Reilly. Bradley is remembered as half of the band which also featured Ray McKinley in the early 40s; the Bradley-McKinley crew was the outfit that made hay while the boogie woogie flowed from Freddie Slack's left hand.

London-Astonishing scenes marked Billy Daniels' London bow when the singer arrived to open at the Palladium recently. Arriving at Waterloo Station, he was met by a band, and by policemen frantically trying to con-trol a wild mob of music publish-ers, press agents, photographers and fans. The last group included 50 members of a Catholic youth club headed by their priest. Daniels' opening at the Palla-dium brought scenes described as the most frantically enthusiastic since Danny Kaye captured the hearts of the British public. Dan-iels could have continued to sing all night, and mly the playing of *God Save the Queen* could put a stop to the show. Daniels was accompanied, as usual, by pianist-vocalist Benny Payne, who was described by one paper as "at least 50% of the act."

Let's Face The Facts

Let's Face The Facts What ray of hope is then held out to the amateur song writer? A ver dim one indeed. This is a fact: Your chances of being struck by lightning are actual greater than your chances of writing a hit song. The music public a get avidly interested in only a hundred or so songs per year, but the are probably a million Americans capable of turning out a passal ditty. Add to that the fact that people like Cole Porter, Irving Berli-Frank Loesser and Hoagy Carmichael go right on producing, so y can see what the newcomer is up against. Why do amateurs keep trying in spite of the odds? Some desire fam: others riches, and a certain number are content to keep producing main rial whether or not the market accepts it. Fame? However, if you're still determined that you have what takes to make the grade, here are some suggestions.

How To Do It

How To Do Is Don't get too excited about your first song. The tenth or twentie, number you write is more apt to be your best. Don't submit just a til a lyric or a melody to a publisher. Submit only completed numbers, wi the copywork neatly done. If you don't know how to put music on pape irre someone who does. This costs about five dollars a page. Publishers currently are more interested in novelties than ballat Don't bother sending material to disc-jockeys, movie stars, agents your songs to publishers and vocalist. I personally like to see new fellows get a chance to make it; but let's face it, if you have a Lou Stein on piano, a Chris Grif-fa on trumpet, or a Will Bradley on trombone, the part is going to be played correctly the first time through, and a minimum amount of time is consumed in rehearsing the band. of time the ban

should be varied. (You even can learn things on a "Mickey" band.) Mental Attitude Too much accent can't be placed on Junior's mental attitude. Along with being competent instrumental-ists, the majority of musicians that I have come in contact with on record dates, etc., are congenial and coöperative. Certainly a great musical talent such as Hymie Shertzer doesn't have to polish apples for anyone. Yet I've always found Hymie good natured and ex-tremely coöperative. There is an awful lot of nervous tension in this kind of work. If everyone concerned shows up in a good frame of mind, the work is much more enjoyable. For a few years, a lot of the younger guys had that ultra "cool" approach, but I believe that era has ended. Practice Junior would be amart to study continually with teachers, and as you probably know, this means that you have to spend a lot of time practising. (If you don't, you're wasting the loot!) It's true that he will meet more conductors and contractors on the golf course or in a bar than he will in a prac-tise studio but his ability to shoot in the low 80s means nothing if his intonation is bad. Study and practise give you a lot of confi-dence, and brother, you need this as much as you need your horn. It's my belief that it's a god idea to study some theory and harmony even if you don't have any ideas of ever becoming an arranger. All Is Not Gold That **Reaches Reissue Lists**

By ROBERT D. DARRELL

What with cut-price wars, floods of European tapes, and the usual miscellaneous headaches—you can't blame the big brains of the classic disc business for lapsing into Proustian "remembrance of things past." But if evoking the ghosts of years back has its fascination, living with the spooks themselves may

years back has its inscination, itving with a set of the all fun. It could be that the big outfits, whose family vaults are well-packed with old masters, are (like some film companies) spending more time and attention on their re-releases than in making really exciting up-to-date productions. I won't argue that prickly point, but I'd like to chew over one question that's more immediately pressing to you, the indi-uidual LP-huver.

over one question that's more immediately pressing to you, the indi-vidual LP-buyer. What percentage of your disc budget should be earmarked for "re-vivals"? Treasure-hunting is tempting sport and sometimes richly re-warding, but it can be more expensive than it's worth if you get stung too often paying out banknotes for gold-bricks.

Sentimental Traps

Sentimental Traps Now, re-issues are genuinely valuable to old-time phonophiles who are anxious to replace worn or missing 78's of favorite recordings with nicely cleaned-up, less noisy, uninterrupted LP versions. It's like greet-ing an old friend back from a successful rest cure. You know by long familiarity that the music and performance are up your alley. All you have to know is that the old favorite has been given a good transfer job—and as a rule it gets just that. But what's usually forgetten is that the situation may be different for youngsters and recent disc converts. It's easy for the latter to accept collector and 'or critic rapture over many revisals as googel rather than realize that often it represents only an expression of nostalgic senti-were really the last word—there's a fair chance that yesteryear's master-pieces may fire you today about as much as faded valentines and snap-shots in grandma's serapbox

Caruso's Bawls

Caruso's Bawls The bigness of the name isn't enough in itself. If Caruso once laid you in the aisles, you'll want to re-live old times in such re-issued "im-mortal performances" as RCA Victor's LCT1034 (Caruso in Opera and Song) or LCT1037 (Famous Duets), LCT1039 (Stars of the Golden Age), etc. But it could be that the one-and-only original Golden Throat may strike you, as it does me, as a producer of bull bawls, better suited for a hog-calling contest than musical enjoyment. On the other hand, if you're one of the few who can take Toscanini or leave him alone, even you may well relish his Beethoven "Pastorale" Symphony (RCA Victor LCT1042) as better than anything he's done lately. For in those days he could relax a bit and gained, moreover, by some attractive British recording warmth, instead of the glacial chill of NBC's Studio 8H acoustics.

Attractive Re-Issues

Attractive Re-Issues I'd say, too, that you'll be taking better than an even chance in trying out Madeleine Grey's Songe of the Auvergne and Bidu Sayao's Bacht-enes Brasileines No. 5 (Columbia ML4459 & AL3), for both these ladies ing these extraordinary pieces—in the words of the immortal Belle Baker—"like no one else can." And certainly you can't go far wrong with Casele in the Drorak 'Gello Concerto, Landowska in a Haydn Harpsichord and Mozart Piano ("Corroution" Concerto), or Rachman-inoff in Schumann's Carnaval (RCA Victor LCT1026, LCT1029, and LCT12). inoff in LCT12).

LCT12). For most of the rest, it's all a question of individual (natural or acquired) tastes. Maybe you'll appreciate Aksel Schiotz's interpretative refinement in Schubert's Schoene Muellerin Lieder-cycle (RCA Victor LCT1048)! But, then again, your real dish (heaven help you!) may be the Grace Moore (Decca DL9593) or Jeanette MacDonald and Nelson Eddy (RCA Victor LCT16) resurrected from the dear early Vitaphone dave

Eddy (RCA view action action, teaching at days. You pays your money and you takes your choice! All I'm driving at is that you should make your choice and not let some ad-copy writer or any reviewer (including me) make it for you. Disc revivals can be wonderful, but time o Danaos et dona ferentes, caveat emptor, and watch your step crossing the street of dreams!

Weingartner Memorial Release

Weingartner Memorial Release Ferhaps the most justified of all current classic-revivals is the Felix weingartner memorial series of Beethoven and Brahms symphonies (complete). Certainly it is the me most needed for serious study pur-poses—especially by every established as well as would-be conductor. It's a sound textbook in symphonic interpretation, a Bible that glows with illumnated musicianship. (Columbia MIA501/7 and SL165, Beet-lower, and ML4510/3, Brahams). The individual works vary a good deal in technical quality. This, be-fuence the Beethoven Pastorale dates back to 1927 (or earlier in Eng-land) while the *Evoica*, 8th and 9th were done with excessive reverber-tion in Vienna. And the better mid-and-late 30's recordings tend to boyer-all transfer job and it's amazing how Weingartner's readings have actually grown in stature over the years. What seemed eminently sane, uid, and reserved at the time of original release, now seems (perhaps by ontrast with other interpretations) almost ideal. The fact remains that nobody yet has done more satisfactory ver-mons of the Beethoven 1st, 8th and 9th. Those are my first choices in the series, but there is a lo 8th on 9th. Those are my first choices in the series, but there is a lo 8th end 9th. Those are my first choices in the series, but there is a lo 8th on 9th. Those are my first choices in the series, but there is a lo 8th origonal release. In every one of the series, but there is a lot to enjoy—and to learn—in every one of the series, but there is a prefirence of countless listeners. Not knowing the series is to have something missing from your musical life! **Eifty. Million Tocco-Ninpoice**

Fifty Million Tosca-Ninnies

Toscanini's La Boheme, an NBC broadcast sensation in 1946, now meems slated for a bis of public and critical hossannahs due to the cur-rent, belated LP transfers from the six-year-old tapes. "Operation history-maker" is the mildest pasan likely to greet it. And the Master Himself will share a few bows with solo-stars Peerce and Albanese-although the latter may be generally backhanded for "singing 'way over their heads." Can everybody be out of step in this bandwagon parade except this skeptical Johnny? Or am I congenitally anaesthetic to both Puccinian Toscinini, separately and collectively? Pending a knee-tapping session with my psychiatrist, I have to pass. This super-Boheme leaves me cold for all its frenzy and bleeding-heart-

The golden-ear crowd was at best polite when Goodman first dared tackle big-time Mozart with the Clarinet Quintet back in '37, but it may give him a little less cold-shoulder

than Reggie. What licks him, sur-prisingly enough, is just that straightforwardness—for he's so intent on doing justice to the letter of Mozart that he misses out in the flexibility of phrasing, buoy-ancy of melodic line, and delicate variety of tone-coloring, which are the quintessence of the Mozartian spirit. And neither he nor the over-tense string-four are helped out by the rather coarse, too high-level recording they're given here. Kell's Steeping P21

recording they're given here. Kell's Sleeping P2l Kell and his partners are much defter and more translucently re-corded, but where Goodman can't relax, the Kell group's relaxation approaches the soporific point. This Brahms is real-dreamy, chamber-pot-music and as played here, bet-ter than a barbituate any white night. It also leaves me with a headache that only can be cured by a bracing shot of Mozart (even Benny Goodman Benny's) or by remembering an old story about Brahms' personal tastes. It seems he loved sardines —even to the point of lapping up whatever oil was left in the can. Anyway, this Kell-Brahms combi-nation is too much of a greasy dose for me, although I don't doubt for a minute that the "echt" Brahmins will spoon it up with genuine relish.

An Armstrong and Bix fan in 1927, when he edited the Phono-graph Monthly Review, he was constantly on the lookout for new trends in jazz, and never let his proccupation with classical discs close his eyes to the tremendous developments in improvised jazz. He knows the classical business from his experience as editor, crit-ic, salesman, and retailer. With the coming of LP, record-ings of serious music are competing seriously for, the first time in dol-lar volume with popular disc. But the gap between the appre-ciation of the two forms is nar-rowing to such a degree that a-is no longer uncommon for record collections to be equally divided between classics and jazz. Since Darrell is a classical musician with a real understanding of jazz. his comments can be enjoyed by all Down Beat's readers.

Vote On Civic Music Tax Is A New Thing

A New Ining Portland, Oregon — On May 16 this city's voters will have their first crack at an unprecedented municipal tax levy which, if passed, could become a model for many U.S. cities of like size. On that date—primary election day— Ortlanders will decide whether to place on the November ballot a measure which would levy an additional 15/100 mill property tax annually to support various civic music groups. It's estimated that the measure would cost each Portland home owner 25 cents a year in additional taxes, and would provide about \$22,000 yearly for the Portland symphony, junior symphony, sum-mer band, and other groups. Local 99 and the symphony society are starting a strong pro-nusic cam-paign, which, in itself, will cost about \$15,000. Only opposition thus far is from persons who refused to sign petitions to get the measure on the primary ballot, claiming it would mean "welfare state" music.

Columbia Repairs Lipatti's Brilliance

Last fall, Columbia came nearer re-burying the late Dinu Lipatti than memorializing him with a faultily-processed 10° LP of the Roumanian's Schumann Piano Con-certo. It's taken a second transfer job to resuscitate the authentic echo of his incredible gifts and snirit.

echo of his incredible gifts and spirit. The new version (now 12" and paired with the equally popular Grieg Concerto) at last gives most American ears a chance to hear what British connoisseurs have been raving about. The results should induce some of our bigger-name keyboard virtuosos to crawl back into their mahogany wood-work.

back into their manogany work. Lipatti sometimes sounds a bit too dewy-eyed to be true, for he has not only a house-bringing-down brilliance, but a romantic warmth and verve that befits music like this. Add Von Karajan's and Gal-liera's equally rich, glowing Phil-harmonic orch. accompaniments— solid British recording (eirea 1949), well dubbed— and you've got all the makings of top-disc box office. By John Hammond Concerto For Cootie

A couple of years ago, Benny Goodman and I were discussing the abilities of the trumpet players who had been members of his various bands. He said be had a favorite, and I immediately assumed it was enter Harry James or Ziggy Elman. "No," said Benny "you're way off. Cotie Williams was by far the most versatile man that ever played the section. He was a fast reader, had the biggest to and unlimited power. Nobody can play lead like cotie, and his solos are great." Totie left Benny in 1942 to start the first of his sondards of the orchestras, was preparing for a brandes. Shortly thereafter, Adolph Busch, the onductor of chamber orchestras, was preparing for a brandenburg Concertos. The 2nd Brandenburg has brandenburg Concertos. Cootie Killed 'Em It was necessary to find either a small F trumpet, or an even tinier archaic instrument, of which Benny Baker was the only possessor in New York. This was immediately borrowed, and Cootie came down to the apartment of Rudolph Serkin, the great pi-aniat who is married to Busch's daughter, and read the part practically without a mistake. The two classical musicians were astonished and delighted, but they were unable to use Cootie for the concerts. It seemed that the difference in embouchures was so great that it might affect the solos on his nightly broadcasts from the Savoy'. Bitterly disappointed, Busch had to substitute a clarinet for the trumpet, and Cootie was robbed of perhaps the greatest pub-licity break and ensuical experience of his career. Nine Long Yean

I tried to dissuade him, but without success. The following year I was in Chicago, and received a call from a small-time booking agent telling me of a jazz organist playing in a bar in the West Side's Polish section. His name, of course, was Bill Davis, and I travelled out expecting the worst. This swing-ing group acquired an aggressive manager, a new recording contract with Columbia's Okeh subsidiary, and a reputation for breaking attendance records in small colored clubs throughout the East. A few months back they hit Birdland as part of the greatest bill ever to play a night club, along with Ella Fitzgerald and the Dave Brubeck Quartet. They were nothing less than a smash, and the ses-sions in which the trio accompanied Ella will never be forgotten. Jennings is a fabulous natural showman, as well as a superlative instrumentalist. The same goes for Columbus, but it is Bill who provides the thrills that make this the most exciting small group in jazz to-day. Don't be misled by their records, which do not begin to capture the sound or excitement of the trio, for the Columbia engineers have been making the same mistakes Mercury made three years ago. I would like to predict that Bill Davis and his trio are going to make and change jazz history in the next year.

If the two attractions can make it during the same dates in a city this size, and with both clubs oper-ating on a door-charge principal, it may open the door to future operations of this nature. By Ted Hallock

By Ted Hallock Portland, Oregon-This hassel will involve every music critic from here to Zamboanga in the very sear future! So to set things right from the start: Oscar Peterson does not want to imitate Nat Cole. This is hard to believe if you've heard his Mercury etching of Until The Real Thing Comes Along. It will be even harder to believe as other biscuits emerge containing the soft, Gole-type warbling and strikingly smilar piano style which are chang-ing Oscar's trademark from bop to pop.

Oscar admits that:
Oscar admits that:
(1) "Nat is the end on piano.
You won't find another pianist as winging in creation. And I like Nat's, and Teddy's (Wilson) cleanliness on the instrument;"
(2) "Nat set up the pattern for trios, which just happens to be the correct pattern;"
(3) "Nat sings naturally. That's really what his style amounts to.
So do I. I'm not a singer. I know my limitations. I just sing the lyrics naturally as they come to man.

BUDDY'S BLUES

If you happen to be one of the readers who voted Buddy DeFranco into the top clarinet alot in the Beat's poll during the past seven years, or even if you are just a mildly interested non-voting DeFranco fan, you may have been struck by the strange lack of any parallel between Buddy's career to date and that of his precursor as clarinet king. Mr. Goodman. "DeFranco Band Fine, But Faces Tough Row to Hoe," said the head-line on our review of Buddy's brand new band in the issue dated June 1, 1951. Alas, we were all too right; the band broke up after six tenu-ous months. During those months the powers behind him included a personal manager, a promotion man, the powerful GAC booking agency, the equally potent MGM record outfit, and the good will Buddy had built up, through all those years of poll victories, with countless thousands of tame.

when Benny Goodman was Buddy's present age, 29, he had three of fans. When Benny Goodman was Buddy's present age, 29, he had three years of national fame and at least a year or two of real prosperity behind him, not to mention the many preceding years as a highly-paid free-lance sideman around New York. Buddy DeFranco, in his dozen years in the business, has either been a moderately-paid name band sideman or a scuffling bandleader.

Buddy's Great, But-

Buddy's Great, But-Where can you nail down the trouble? What does DeFranco lack? His great musicianship is undispated. He is good-looking, has at least as much personality as Benny had. He is well liked as a person. There are several answers. The tenor sax has almost completely edged out the clarinet as a popular jazz instrument. The idea of hear-ing a big band playing jazz is no longer a novelty. The general trend in public taste has moved from bands to singers. And so on and so forth. But a reason that hasn't been advanced, one that we feel is just as relevant though a little subtler, is the climate. Back in the 1930s, it was acceptable, even fashionable, to be a politi-cal progressive or radical. In the 1950s, it is socially and often economi-cally suicidal to be seen in the company of a third cousin of a liberal's aunt.

Needs a Little Mahzel

Needs a Little Mahzel Just as the political climate has changed, the musical climate has moved far to the right and the chances for a musical leftist like Buddy DeFranco are slimmer than ever. When he tried to camouflage his di-rection by playing run-of-the-mill songs, adding a vocal group, sticking to the melody, he merely reduced himself to the level of a score of other bandleaders, a few of whom have made the grade because of shrewd business guidance and musically retrogressive leanings. One thing can save Buddy's career: luck. With a record that clicks for no apparent reason (it may be good or bad, commercial or jazz), he may suddenly become a seller's market. It has happened to other after years of scuffing, of semi-obscure semi-success, as Billy Danieus can testify. Let us hope that soon, very soon, it will happen to the daring young man with the long black stick.

AN UNSOCIAL REGISTER

A fascinating, if slightly morbid, study in which I like to indulge every month is the perusal of the Unfair List in Allegro, the official journal of Local 802. This is not a list of musicians, but of employers who, for one reason or another, have incurred the wrath of the local for their treatment of a member, and have been on the blacklist ever since, month after month, as if eternally damned. The list is largely static, for most of its inhabitants have since changed the name of their operation; or arranged to do their business under the name of some uncondemned friend; or have just drifted out of the music game into a distant mist; or, in a couple of cases, may have cleared themselves and been left on the list indevertently. What a confused medley of thoughts arises from a glance at this list! Who remembers "Feets" Edson, who was a big boss of the night club racket in Prohibition days? Where is Earl Dancer, once a name to be reckoned with uptown?

The reckoned with uptown?
Can You Tell Me?
What is Ralph Cooper, a respectable WOV disc jockey, doing on the list (as Ralph Cooper Agency)? Whatever became of Jane Churchill?
What is Ralph Cooper Agency)? Whatever became of Jane Churchill?
What on earth was Magic Records, which once sent us an album by the Sweethearts of Rhythm and then disappeared forever?
Does Al Siegel have to stay on the list? Will Irving Berman and his Manor Record Co., which got real powerful for awhile with Savannah Churchill et al, remain branded? Do you recall the Ammor Record Corp., first outfit ever to record Nat Cole's trio?
Jay Faggen, who tried to buck the Savoy with his Golden Gate Balhroom in Harlem, is still listed—but so is Lew Leslie, though this once-famous Blackbirds producer works today for the Gale Agency.
Teddy McRae, the tenor sax star whose tune You Showed Me the Way just sold a half million on Derby records (it happened to be on the back of Wheel of Fortune) is unfair, says the list; we don't know when or to whom. Herman Stark (of Cotton Club fame?) is as unfair as the Sun Tan Studios; Dave Wolper, in whose warime Hurricane at 49th and Broadway the Ellington band worked so long, is today no fairer than the Asch Recording Co., the National Association of Blind Artists, or a cat named Georgie Valentine who ran the New Silver Sipper at Lake Ronkonka, Long Island.
It's a strangely assorted roster, this collection of characters who, for reasons now mysteriously loat in the clouds of time, once ran afoul of the federation. Maybe the tales of their misfortunes could be jigsawed together into a whole history of the music business for a quarter century or more.

Mantovani's Charmaine? Start-ed in Cleveland. This is hardly coincidental. Rec-ord company execs, Cleveland rec-ord distributors, the artists them-setves, all point to the Monster. Bill Randle. Salesmen in record abops encounter this query from the dealer with increasing fre-quency: "Is Randle laying on it? I don't care who it is, if Randle's not on it then I don't want it. My customers just won't buy it." It Make Cents Where did the power come from?

a highly literate, intelligent guy turn from good music to the mias-ma of the current pop market? The answer, according to very con-mervative estimates, is loot total-ing over 40 grand a year. In 1942, Randle who was just 19 years old, auditioned at Station WJBK in Detroit. "You're too in-terested in the music, boy. At this station we play the record and read the commercial. That's all. We can't use you." That's what they told him.

CELLO

Tatum Kick In 1945, he flipped for the music of Art Tatum and decided that the public simply had to hear "this cat blow piano." He pooled his resources. In Detroit, Cleveland, Chicago, Pittsburgh, Philadelphia, Youngstown—it was: Bill Randle Presents Art Tatum! Only a year before he had presented his first jazz concert. It featured Joe Tur-ner, Teddy Buckner and two un-knowns, Milt Jackson and Sonny Stitt.

Cleveland In Cleveland, in 1949, Randle changed his mind about a few things. "From that point on I got with it. I didn't care what it was. I wanted to make hits!" He began looking around. Two weeks after he had connected with a radio sta-tion in Cleveland he was playing tion in Cleveland, he was playing the music that he privately con-sidered the worst — and raving about it.

Trade-wise observers close to Ran-dle, however, insist that he no longer fills audience demand—he creates it. Randle has publicly discovered for his listcners — and sold for Cleveland distributors—almost ev-ery kind of music . . . except jazz. Audiences were quick to embrace one of Randle's more recent dis-coveries, a frantic kid who was earning a bill a week at the time, Johnnie Ray. Later, there were those who jumped on the band-wagon and tootled their own horns for all they were worth, but Ran-dle in Cleveland was the jock who built the original wagon that was to carry the tortuous shouter so far. **Rift Reported**

typical example of poor handling, he says. His relationship with Tony Ben-nett is very different. Randle has always personally admired the crooner... in a big way. When Bennett hits Cleveland, the desiay tours all the high schools with him, making personal appearances, and generally ingratiating himself with kids by mentioning schools, per-sonal names and describing the excitement of the appearances on his afternoon show. without the help of Bill Randle." —And No Jazz To Randle's credit, one must grant that he has made Cleveland a very commercial music town in which more and more name acts a uppear. Many record acts will take a cut in weekly loot, simply to play in Cleveland and get close to the jock. He has promoted many big shows and donated a large share of the loot to charity. But Randle cannot be censured strongly enough for his attitude toward good jazz. Perhaps he might alienate a large segment of his audience with too much of a good thing. But certainly a man who knows and understands good music as well as he does should have some responsibility to himself as well as to his public. Certainly two or three good jazz records in four hours of radio time would not jar his audience. Surely the un-suspecting ears that grew accus-tomed to the Johnnie Ray "sound" could respond just as readily to Charlie Parker or Buddy De-Franco. Bill Randle would probably be

its beginnings, it has been the facile fashion for most critics to assail it annually on the grounds that its music generates more trick fireworks than creative fire, that its audiences are formed of the most hopeless descendants of the Jukes family and that Grans him-self is an admittedly brilliant salesman whose only aim is loot. It's about time, I think, to jettison these preconceptions, the bulk of which are false, and recognize JATP as an extremely vital factor in the growth, not only of jazz, but of social awareness in many sections of America. Forget the music for a moment, and concentrate on the fact that Granz makes every effort not to play JATP before segregated audi-ences, something which cannot be said of many other jazz promotera. As a result of this stand—which hardly jibes with his alleged avarice --he has eventually demonstrated to many how senseless segregation bars are. bars are.

Haan't a large part of it been memorably creative, even though much has been bombast? And isn't it true that through JATP, artists like Ella, Pres, Charlie Parker and scores of other greats have been brought to many who never otherwise might have had the chance to hear them? Isn't it rue that going to a JATP concert has indoctrinated many a novitiate into jazz? Sure, they don't all become discriminating listeners, but many do, and jazz is accordingly strengthened by the adhesion of thousands of aware partisans.

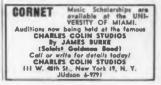

Everything Cool in Chi

Everything Cool in Chi There are other things to say. The differences between cities, for example. The fact that Baltimore has the worst JATP audience and Chicago one of the best has a lot to do with where JATP plays in both those cities. In Baltimore, there being no regular auditorium that isn't Jim Crow, JATP has to play in a fight arena whose owner in-sists on having hot dogs and pea-nuts hawked throughout the con-cert.

At the Chicago Opera House, everything's cool, so the audience is relaxed, which in turn relaxes the musicians and the resultant music.

music. But the trend is improving all over the country. Eventually JATP musicians will play in the best halls anywhere in the country. Not only they, but other artists as well, all before unsegregated audiences. And the nuan who did an enormous amount to start the trend is Nor-man Granz. If he personally can prosper from his courage, that's all the better. I hope he clears a million a year.

The boogie ide is idicit mishelb for most other aide is indistinguishable from most others of its type, though the cooperation between pianist and band is efficient. (London pianist

George Barnes ** Plink, Plank, Plunk ** Tin Whistle Blues

****** Tin Whistle Blues Topside is an instrumental by Leroy Anderson. The performance is described on the label as a guitar solo, but sounds more like a multi-track job a la Lee Paul. The backing has overtone of Willard Cele's penny-whistle magic garden, with tin whistle played by Barnes' co-writer Randy Hall. (Decca 28083.)

Tony Bennett

** Somerche *** Sleepless chere Along The Wey

Tony's ability to reach the hearts of his youthful fans, regardless of what judg-ments may be pronounced upon him from the academic standpoint, can be observed to good advantage here, especially in the superior song on the second side. (Colum-hia 39695.)

Les Brown

**** Love Letters In The Sand *** Who's Excited

Both excellently arranged and per-formed medium-tempo dance sides, the first a former ballad excitingly revived in a brighter style. Lucy Ann Polk sings both well, aided on Who's by the Four Hits. Latter was penned by Johnny Hodges and Johnny Mercer. (Coral 60671.)

DID YOU KNOW that Ralph Flanagan was an arranger for Sammy Kaye, never worked for the Glenn Miller orchestra?

Tommy Dorsey Where Are You Now?

*** Love, Wh *** Keel Ros **WAY Keel Row** Strong money entry for TD. The bal-lad, penned by Arthur Altman and Dick Manning, has a vocal by Tommy's new singer, Buddy Stark, who makes out all right. The instrumental has everything short of the bagpipes for the necessary Caledonian color. Should make some change for Bill Finegan, who penned it, and for all others concerned. (Decca 28077.)

Dorothy Dunn

* There Will Never Be Another You ** You Turned the Tables On Me

There starts with a brief dramatic bit that doesn't quite come off, goes into a fair ballad vocal. Jump vocal overleaf has a piano interlude by Del Brown. (Dee Gee 3500.)

Bob Eberly

** Anything That's Part O/ You *** Tattle-Tale

First is a satisfactory treatment of the ballad, but the second side will get the nickels. Vocal group chirps a corny riffy background to the simple lyrics and melody as Eberly does a confident job on the Ray Gilbert-Ben Oakland novelty. Dave Cava-naugh's music fills it out. (Capitol 2036.)

Stuart Foster

*** Chimney Smoke *** Take Me

The ex-Tommy Dorsey singer debuts on this label with two neatly contrasted sides, one a fast 3/4 novelty, the other a good ballad, not new but not exactly a stand-ard. Good setting with strings noticeable on the latter. Dick Jacobs conducts. (Ab-bey 15065.)

Four Aces

Tour ares takk My Hero tak Spring is A Wonderful Thing The Aces, smoking hot after Sin and Tell Me Why, should have little trouble cleaning up again with their enthusiastic interpretation of the Oscar Strauss stand-ard. Spring is a lightweight, show-type waltz rendered pleasantly. (Decca 28073.)

Jan Garber

*** Two Little Kisses * Who's Excited?

Kisses co-features the Lancers, a vocal group which Jan feeds with a shuffing background. A Hawaiian guitar twangs through here and there. The backing is done as a colorless instrumental, provok-ing the obvious answer: nobody. (Capitol 2033.)

Jeanne Gavle

*** Goods-Goody *** It's Been So Long

Accompanied by Bob Crosby's Bob Cats, Miss Gayle brings back two songs that may be remembered from the early Benny Goodman era. She growls it up a little on the first, sings straighter on the second, which also has a spot of good trombone. (Capitol 2037.)

Ted Heath

*** Hawaiian Mambo *** Obsession

*** Obsession The A side, while not very Hawaiian nor typically mambo, is another refreah-ing example of the Heath band's superla-tive musicianship. Basically it is just an unorthodox approach to the Hawaiian War Chant, played faster than the ac-customed mambo tempo. The David Bee original is a cute little medium bounce piece, not jazz, but good dance band. Both sides are sprinkled with competent solos, Obsession claiming some fine muted trumpet. (London 1198.)

Looks like Patti Page has still another g hit in Whispering Winds, her newest big hit in Whispering Winds, her newest release, to continue the phenomenal suc-cession of top sellers she's had in the last

Neal Hefti-Frances Wayne

**** Everytime **** Sure Thing ***** Lonesome and Blue *** Why Not?

***** Lonesome and Blue **** Why Not? The latest date by the Heftis offers an even shrewder alignment than hitherto of good musical taste and potential public appeal. First and third sides are vocals, both coupled with instrumentals. *Everytime* strikes a perfect medium tem-po, is as good for dancing as for listening, with Frances selling every word. Sure thing is the same Hefti original that Basic recorded, a fast blues. This arrange-ment is different from Count's, even chang-ing the accents in the main phrase. It's beautifully performed, builds very well and has fine work by the reed section. Longome, the new Benjamin-Weias more based on the introduction to their Wheel of Fortune, is the most colorful Wayne verformace since she started her Coral career and should be a big hit. Why Not, which Basie has also cut (not fort, is a Hefti original a la Coral Reef. Trumpet section (Hefti, Fishelson, Coroino, Glow) glows. Surprise: a whole piano chorus, and excellent, by Billy Tay-tor, Jo Jones, Danny Perri and Safranski complete the swinging rhythm section. *Ink Spot*

Ink Spote

*** I'm Heading Back To Paradise *** I'm Heading Back To Paradise *** I Must Say Goodbye Up side is mainly a Bill Kenny produc-tion; reverse is more of a typical Ink Spots song and performance, though Ken-ny again has the limelight. Sy Oliver band backs. (Decca 28078.)

Peter King Singers

★ Love Where Are You Now?
★ I'll Welk Alone

Both these are plug songs, the latter a revival from With A Song In My Heart. The group, apparently a dozen or so strong, sounds like a Voices of Walter Schumann effort but lacks vigor and is recorded without the necessary presence. No strong possibilities here. (Victor 20-4643.) Stan Kenton

*** Mambo Rhapsody ** Yes

****** Yes Two commercial Kenton sides. First is the Bob Russell-Lou Spence adaptation of Liszt's Hungarian Rhapsody, made into a typical mambo. Conte Candoli, though given label billing, is only heard in a brief high-register solo. Reverse introduces Kenton's new girl, Jerri Wintera, in a fair novelty. Gal has a good sound, phrases well, should even-tually click on records. (Capital 2020.)

Lisa Kirk

*** I Thought O/ You Last Night ** Look Up Lisa turns in a warm, workmanlike job on Night, a persuasive torcher. Reverse, an item right from the corn fields, has little to be recommended. Dave Terry con-ducts an oching choral backdrop. (Victor 20.4642) ducts an 20-4642.)

Roberta Lee

Koberta Lee *** Weitia' For The Evenia' Meil ** Easy On Me Mail is an old melody on the 12-bar construction that crosses the line bet ween western and jazz, especially since the band on this side has a Dixie sound. Bal-lad side is more strictly in the pop field, with Roberta bending her notes in the cur-rently accepted vein, backed by the Blue Diamond Melody Boys. (Decca 28080.)

Nellie Lutcher

*** Keepin' Out Of Mischief No *** That's How It Goes

*** That's How It Goes Advantages of giving Nellie an or-chestral setting are again spotlighted in this pairing with Harold Mooney's orches-tra. The Fats Waller-Andy Razaf stand-ard, in which she tinkles the middle of the three choruses, sings the others, off-sets her well with mellow strings. Percy Faith-Al Neiburg song on the back has a good melody and lyrics, more shrewdly scored strings, and one of Nel-lie's best ballad vocals to date. Should have broader general appeal than most of her recent offerings. (Capitol 2038.)

Wingy Manone

*** Aw/ul Waffle Man *** At Last

*** At Last Wingy wrote Waffle, a mild original in which his singing and playing are spelled by a Matlock-like clarinet and a short pi-ano spell. The Manone mauling of the Gordon-Warren hi is actually good, clean Dixieland fun with Wingy getting an Armstrong-like sound. (Coral 60687.)

Freddy Martin

** Wing-Ding Tonight ** Am I In Love?

-- Am I in Love? Lightweight handling of two songs from Bob Hope's Son Of Paleface, with Merv Griffin and the Martin Men. (Victor 20-1640.)

Eddie Miller

Eddie Miller *** Funny Melody *** Why Worry Eddie "Piano" Miller, once called Eddie "Gin" Miller, is also Eddie "Singer" Mil-ler on these two honky-tonky piano-and-vocal sides, both clearly for juke box consumption. First side gets that beer-hall bounce; Worry moves in a hurry. (Victor 20-4641.) Pasti Page

Patti Page

Patti Page **** Love Where Are You Now? ***** Kisspering Winds First side has that rare quality, Patti Page & Co. It's also a good tune; but the other side, on which Patti does sing a duet with Miss Page, is the one that will keep the singing rage in minks for months. Joe Reisaman gets label credit as arranger on both sides, with Jack Rael's ork. (Mer-cury 5816.) Les Paul

Recorded before his Capitol multi-track Accorded before his capitol multi-take days, these non-experimental sides feature Paul's Trio. Attractively played, though Paul's name will sell these rather than the music, which lacks the Capitol excitement (Decca DL 5376.)

Johnnie Ray

Don't Blame Me Walking My Baby Back Home Don't Take Your Love From Me All of Me Give Me Time The Lady Drinks Champagne Out in the Cold Again Coffee and Cigarettes

Album Raing: ***** Abum Raing: ***** Johnnie's first LP boasts two numbers thies, *Time* and *Champagne*. Both are good songs, with lyrics into which Johnnie can get his gnashing teeth. Both have vocal group background. The last two tunes are also of superior quality, with Lucky Thompson peeking in to take an intro on *Coffee*. The four stand-ards on the first side are a little more routine, with slightly thinner rhythm back-grounds. Johnnie, who has become famous for splitting one-syllable words into several "ylables, goes out of his way to pronuune" "pom" correctly, where it was originally rhymed with the title, on *Walking My Baby Back Home*. This package will be a goldmine for the Oregon oracle and perhaps even a sup-phrasing and musicianship shown are go areally commendable. (Columbia CL 6199.) Album Rating: *****

Trudy Richards ***** / Don't Mind *** / Never Loced Anyons But You Looks as though Trudy, after all her forts to stay musically pure, is now go-ing to make it commercially: she is now singing duets with herself, in thirds, even in sixths, even trios. George Barnes adds some souped-up guitar. The ballad on the back is an odd combination of a Kay Starry-eyed vocal and a rhythm-and-blue-nesed background. (Deca

Lita Roza *** Somewhere in the Moonlight ** Come What May

****** Come What May Here is the young songstress who leapt to the top in this year's Melody Maker poll, and these sides may give you some idea why. Somewhere is a rewrite of the old French jingle, Au Clair De La Lune, an elementary melody. Lita sings it seduc-tively, helped no little by the Ted Heath orchestra. Come is a high-stepping pop. Perform-ance and recording are again commend-able. (London 1197.)

Bill Snyder

**** Herpsi-Boogie *** Reviolli Rag

Both played on something called a harp si-piano, which sounds exactly like its name. The fast blues side and the Zez Confreyesque novelty both sound as if the tempo had been souped up after recording. Big stuff for the corn belt. (Decca 28086.) **Ray Turner**

Kitten On the Keys

Noia Noia Rufenreddy Coaxing the Keys Dissy Fingers Canadian Capers Pianoflage Greenwich Witch Album

Album Rating: *** The fact that this LP is called Kitten On the Keys, and that the latter title and three other Zez Confrey tunes are included, should tip you to the kind of music to ex-pect. Turner, an ex-Whiteman pianist who has recorded large gobs of movie sound-tracks for years, makes his low bow here to the ragtime piano revival vogue. Turner has the necessary technique for numbers of this type. The tempos range all the way from fast to very fast. His on y fault, paradoxically, is that at times he sounds not quite mechanical enough for the mod of the piece. Nick Fatool, drums, and Phil Stephens, bass, accompany him. (Capitol H 306.) Album Rating: ***

Jane Turzy

**** Little Train A-Chuggin' In My Heart **** Little Train A-Chuggin' In My Heart **** The Boom Song Train is a fast, cute novelty that should do well. Jane and the Remo Biondi combo lower the Boom to a deliberately corny level with commercially effective results. (Decca 28062.)

Sarah Vaughan

*** If Someone Had Told Me *** Corner to Corner

**** Corner to Corner Controversy rages (see p. 16) as to the change in Sarah's approach. If Corner is typical of her present style, we're still buying. It's a minor tune that fits her style, and she doesn't go overboard on the mannerisms. Backing is weaker only to the extent that the lyric sounds a little contrived. Percy accompanies faithfully. (Columbia 39719.)

Paul Weston You Were man Spoin This Can't Be Lore Why Shouldn't 1? Embraceable You Pennies From Hearen How High The Moon Orer The Rainbow Album Rating: *** danceable job on these with strings You Were Meant For Me

Good, danceable job on these standards by a dance band with strings. Frequent short instrumental solos lend variety. Ar-rangements are straightforward, tempos apt. (Columbia CL 6024.)

Margaret Whiting

Margaret Whiting *** Moonlight In Vermont *** My Ideal Reissues of two of Maggie's first sides, originally released under the name of Billy Butterfield, with whose band she was sing-ing. Second side, penned by her father, the late Richard Whiting, has a full chor-us by BB and the band before she enters. Both are fine songs, perhaps too good to make a big dent in the present market. (Capitol 1671.)

Bill Davis Trio

★★★★ Rough Ridin' ★★★★ Asure Te

**** Asure Te Two delightful sides. Bill's Hammond organ still doesn't quite get the sound on records that makes it so exciting in per-son, but he still swings mightily, with the aid of Bill Jennings' guitar and Chris Columbus' drums. Ridin' lacks something that gave the Fitzgerald version its charm --the guitar part voiced a sixth above the melody--but it rocks anyway. Azure Te is a pretty Davis-penned blues, a simple melody in thirds with charming changes. (Okeh 6867.)

Buddy DeFranco

Buddy DeFranco ** Pennywhistle Blues *** Buddy's Blues There's irony on the top side. Buddy is called upon to imitate the crude blues theme of an African flageolet player who, if he could, would doubtless dearly love to imitate Buddy DeFranco. On the back Buddy becomes himself again. Both sides have a quintet, with good piano by Kenny Drew and guitar by Jimmy Raney. (MGM 11206.) Roy Eldridge

Roy Eldridge *** Easter Parade ** I See Everybody's Baby

** I See Everytody's Baby Roy guides his horn through the Easter parade wearing a fashionable mute, sur-rounded by a shirtwaist of strings and a delicately embroidered Teddy Brannon piano. The other side, actually written as a pop song by conductor George Wil-liams and Bob Astor, is delivered here as an instrumental and becomes a little undefined as a result. (Mercury 8975.)

Benny Goodman

Henderson Stomp Makin' Whoopee Sweet Georgia Brown Behate Yourself I Never Knew I Can't Get Started Puttin' On The Rits That's A Plenty

Album Rating: ***

Albam Rating: *** Albam Rating: *** Easy Does It is the title of this LP as-sortment of sides left over from Benny's Capitol era, cut in 1947 and '49 by small groups of various sizes and shapes, from trio to septet. Scattered through the sides you'll find Red Norvo, Mel Powell and Jimmy Rowles on three sides apiece; Al-lan Reuss and trumpeter Jake Porter, two each; guitarist Al Hendrickson and ac-cordionist Ernie Felice, one. None of the seven different personnels here makes the kind of musical history registered by earlier Goodman combos, yet the music is consistently pleasant and seldom old-fashioned. What head-arrang-ing there is sounds skimpy, except on fhat's A Plenty, in which we suspect the fine guiding hand of Mr. Norvo helped no little. This is the swingingest side of the lot, too. The most surprising side is Behave Yourself, offering BG in the best of Jack Teagarden! (Capitol H 295.)

Morris Lane

**** Midnight Sun *** I Don't Want To Set The World On Fire

The ex-Hampton tenor man gets a highly agreeable sound with the aid of Hammond organ and rhythm, plays the Sonny Burke-Hampton tune tastefully, reverse a little faster than expected. Interesting for jazz fans, good for juke boxes too. (Coral 60681.)

Thelonious Monk

RECORD REVIEWS

Thelonious Monk **** Straight No Chaser **** Four In One *** Criss Cross **** Lenore **** Willow Weep For Me **** Ask Me Now These are three new single records. First four are by a quintet with Sahib Shihab, alto; Milt Jackson vibes; Monk piano; Al McKibbon bass; Art Elakey drums. Shihab is missing from the last two sides and Jackson from the last two sides and Jackson from the last one. Monk's technique seems to have im-proved, consequent upon which his ideas, always fertile, are now matched by the execution. Straight is a typically puckish monkish melody. Four has suggestions of Konitz-Tristano, with Monk's odd predi-lection for seconds.

Konitz-Tristano, with Monk's odd predi-lection for seconds. Next pair have some nice unison ex-pressions by alto and vibes, fine under-lining by Blakey. Willow is prettily han-dled by Milt as a vibes solo throughout. Ask, starting with a characteristic double-augmented run, settles into a slow piano exposition of an elegant original melody. (Blue Note 1589, 1590, 1591.)

Vido Musso

Vido Musso * Mail Me Special #* Cooling Mail Me Special, aside from being no-where musically, is an outrage in another respect. The tune is unmistakably Air Mail Special, and Musso is listed as composer. There is even a publisher (Andrea Music, BMI). Considering the record may sell all of 500 copies, isn't this carrying royalty evasion a little too far? (Queen 103.)

Charlie Parker

** Star Eyes *** Au Privave

Nothing much happens on Star Eyes, but turn it over and catch some bop remi-niscent of the haleyon days. Bird, Miles, young Walter Bishop (the songsmith's pianist son) and Max all blow their best on this fast blues. Teddy Kotick completes the quintet. The title, we understand on unimpeachable authority, means nothing. (Mercury 11087.)

Art Pepper

*** Brown Gold *** These Foolish Things *** Holiday Flight *** Surf Ride

**** Surf Ride A standard and three originals by the quondam Kenton alto man with Hamp Hawes on piano, Joe Mondragon on bass and Larry Bunker on drums mark Dis-covery's return to the active label list. The originals aren't the most original, but at least they aren't Indiana spelled or played backwards. Good balance, good solos, with Pepper at his saltiest riding the surf. (Discovery 157, 158.)

George Shearing

**** Swedish Pastry ** To-A Wild Rose

The Barney Kessel blues pattern offers a jump-off point for the Quintet to in-dulge itself a little more than usual. There was even room for 12 whole bars apiece by Chuck Wayne, Joe Roland and Al Mc-Kibbon. Coupling is pressed from the regular Shearing mould. (MGM 11199.)

I Wished On The Moon Album Rating: ★★ For those who like the diluted bop of George Shearing, here it is again at second hand, imported from Sweden. The sight-less Swedish Steinway stylist injects a little more animation into his impression of George's group, however, and the whole result is innocuous, while lacking the spark of the younger and fresher Bengt Hallberg. Personnel of the quintet is not listed, and label listing of tunes do not corres-pond with the music. Actual order of tracks is as listed above (top to bottom). (Prestige PRLP 129.)

DOWN BEAT

Charlie Ventura's Big Four ** Love Is Just Around The Corner ** O.H. Blues 11

Love, it seems, is just around the cor-ner in a little old echo chamber, with Buddy Rich beckoning it. Buddy is a com-petent singer and this song has long-neglected cute lyrics. The blues, which is in three tempos, starts with CV trying to play it cool. Not bad, but this kind of thing has been done a zillion times before, often with more inspiration. (Mercury 8965.)

Teddy Wilson

Album Rating: **** Album Rating: **** These reissues stem from the sessions Teddy made with a small band for Music-craft between 1945 and '47. The sides that feature Charlie Shavers and Red Norvo may recall, for some, the sparkling mo-ments enjoyed by a similar personnel on Mildred Bailey's CBS show in those days. Reat of the collective personnel com-prises Buck Clayton, Ben Webster, Al Casey, Al Hall, Specs Powell and J. C. Heard. The slow sides get a good mood and the fast ones, especially Bugle Call Rag, are among the greatest examples of genuine swing music produced by a small

Kai Winding

**** I Could Write A Book *** Carioca

*** Carioca Kai has been playing Book nightly in the pit at Pal Joey on Broadway. Here he plays melody, then doubles tempo, bops it, gives it to Lou Stein's Steinway for a few bars, slows down gracefully to take it out. Carioca, though well handled, doesn't sustain the interest quite as well. Both sides show the best performance and best recording of Winding in years. (Savoy 840.)

RHYTHM & BLUES

Tommy Brown

*** No News From Home ** Never Trust 4 Woman

After hearing Tommy (Weepin' And Cryin') Brown, you'll think Johnnie Ray is the happiest cat in the world. Tommy sobs audibly throughout No News, should attract a mess of sobbing sympathisers. Woman is a well-rendered routine slow blues. (Savoy 838.)

Glen Covington *** This Is Heaven to Me *** Time Waits For No-One

Five Keva

*** Be Anything *** Red Sails In The Sunset Keys interpolate eight bars of recitatif into the last half chorus of Anything. Melody isn't sung quite correctly on this side, but the mood is right. Sails is a straight ballad treatment by this typical r & b vocal group. (Aladdin 3127.)

Lionel Hampton

First side is a fair tune ineffectively sung by Lionel. Rock starts with piano-vibes riffing, goes into unison shouting of title by the band, winds up another Fly-ing Home with Hampton grunts. (MCM

Coleman Hawkins

What you'll think of this record depends entirely on whether you're a rhythm-and-blues fan or a Coleman Hawkins man. If you're in the second group, you'll be flabbergasted to hear the tenor sax vet-eran bogged down by a thudding rhythm

*** Time Waits For No-One Roost may have a valuable new star in this young artist, who sings the excellent tune on the first side accompanied by the ubiquitous Bill Doggett and his apparently portable Hammond organ, plus the Dave Lambert choir. Other side has no Lambert but equally effective Covington in an agreeable, only slightly aged tune. (Roost 541.)

ing of the Blesh blast re Nat Hent-off's critical analysis of Conrad Janis and his sham-jam technique, this reader put aside the Beat for some hours, coming back to it only to find it wasn't all a bad (albeit highly amusing) dream. As Nat himself made clear in his intraductory column, he antici-pated a good amount of dissenting reaction to the opinions and criti-cism which he planned to deliver. If Mr. Blesh will re-read this most cogent statement of policy he will find that the "Bostonian by the name of Nat Hentoff" is hardly a journalist of the Westbrook Peg-

The estimable Mr. Blesh appar-ently finds the musical press a rather awsomely powerful medium, e.g., his remarks indicating that jazz politics have reached a stage where pure honest evaluation in Jazz politics have reached a stage where pure honest evaluation in print constitutes a smear cam-paign. It would seem, however, that in his ardor for fair dealing, Mr. B. is not above casting shabby aspersions on Eastern musicians, who, through no fault of their own, have a wurd accurd time as it is

have a rough enough time as it is. No Creative Skill In his chronicle of the Janis ca-reer, Blesh remarks that the band has "played and re-played" a num-ber of spots, obviously neglecting to note that they played and re-played the same music, in an un-deviating manner, which. I believe, was the main factor of contention in the Hentoff appraisal—the fact that musicians such as those in the Janis band are static and there-fore lack creative skill. I person-ally have heard the unit only once, and I can truthfully say I have never before or since heard a band work so hard to produce so little. This hearing, incidentally, took place before I was aware of any other opinions of this outfit, pro or con.

On page 13 of the April 18th Down Beat, there is a story titled "Freeman Finds Flanagan Forgetful." As Kalph Flana-gan's managers, we, Bernie Woods and Herb Hendler, imme-diately called Down Beat. We felt that if any blame was to be

(b) Hasn't the fact that the ex-citement created by disc jockeys for Flanagan's records caused them to be more receptive to the rec-ords of the other new bands and didn't they start playing a great deal more instrumental music on the sir than they had before Flan-agan?

Better Understanding

the time we've managed him from the inception of the band in March, 1950, we think the answers to these questions will help Don Free-man, and some of the readers who sent Down Beat some very criti-cal letters after Freeman's 1951 interview with Flanagan, to ar-rive at a better understanding of what Ralph has done to benefit the business and the various individu-als in it. The facts certainly indicate that Flanagan was the first in a long time to come along with something constructive for the dance band business. The results speak for themselves.

Profiled in the Beat last summer, he had at that time been trying to convince the world, for more than two years, of the Hammond organ's right to be considered a jazz instrument. He, too, had worked at Wells' early in 1949, and later that year made four sides for Mercury, only two of which were released. Last January Davis persuaded a rejuctant Birdland, which was reputedly afraid to "turn the club into a church," to try him out. Jesse Crawford and Milt Herth were established record names in the 1930s, the latter cutting a long series of Decca dates featuring Willie (The Lion) Smith that gave a slightly jazz-toned flavor to his brand of corn. The Three Suns have done much to keep the organ alive on discs for a decade. More recently Owen Bradley, now the music director for the western division of Coral Records, backed Red Foley organ-ically on some hits for Decca and Lennie Dee, who also started out as a vocal background man, started waxing under his own name for the same label. Similarly Buddy Cole was the anonymous organist on some Margaret Whiting-Jimmy Wakely sides for Capitol. **Fat Did H** The emergence of the organ in

In the same period that Milt Herth was hot on Decca and Wal-ler was starting his experiments at Victor, John Hammond, then working for Columbia, set up a session to compete with Herth. He surrounded organist Glenn Hard-man with a jazz group (Lee Castle, Lester Young and others) for some oddly intriguing sides, since referred to by collectors as the original John Hammond-organ ses-sion. The Blindfold Test Garroway Laments Sarah's Lapse By LEONARD FEATHER

Like quite a few other gentlemen who have producted out of the disc jockey school into bigger things. Dave Garroway had a pretty sound grounding, in his earlier days, as a music enthusiast, and, during that time, developed as keen a pair of ears and as good a level of taste as you will find in his field. Dave ratings were made according to the

Dave's ratings were made according to the meanal blindfoid test system, four stars being the maximum. His tape-recorded comments are reproduced verbatim.

1. I thought it was Frances Wayne for a 1. I thought it was Frances Wayne for a minute, but . . . anyway, the lady's heard Sarah, but after all, who hasn't, a little bit? This is a nice, pretty slick, competent modern tune; the band sounds a little like Thornhill — the piano did, I mean . . . I don't feel very much about this; it's a better than average production of a little-better-than-average commercial tune. Maybe two stars.

mercial tune. Maybe two stars. 2. Well, this record is what's wrong with Norman Granz. This is the Boston Symphony Hall concert, I think. You notice quickly that they don't try to have a climax every 30 sec-onds. Norman's concerts—actually Norman's are the best of the concerts that try to have a elimax every 30 seconds, but you can't do that! Louis' band has maybe one or two big moments a night, and they work up to that. As incan-descent as the man is, I don't see how he's going to get along without Teagarden and Hines. But he's done it before; he's never depended much on the band. Another thing, Louis' music is less non-arranged than most of the music at these concerts. These boys fit together. Four stars. 3. The gentlemen on that record who were

together. Four stars. 3. The gentlemen on that record who were with Woody Herman in 1946, and maybe be schamed. Even Mr. Harris, whom I admire; but what an embarrassing sound, compara-tively . . . Apple Honey, isn't it . . . This is another example of the guys trying to cram gverything into two minutes and 30 seconds. Wasically it sounds as though it were made in Japan. You're afraid it's going to fall apart any second. Rhythm section was too loud; it in the way. Thump-thump-thump. Give it one star, just to keep us from getting

4. Hodges is the answer to the people who y that you can't produce tastefully all the my that you can't produce tastefully all the time, that you have to fall into the vulgar repetitions and riffs that Flip and Bill fell into on the last record. I've never yet seen him stand up and do something that was vul-gar or not tasteful. I've heard the new band neveral times and it's always exciting. Law-rence Brown is dignified, and handsome too. Even on a nothing tune like this; but the per-formers are such fine fellows, musically, that they make a handsome sound even not doing anything. And of course, they all say Thank You, Duke Ellington. Three, I'd say. 5. The whole mambo husiness is secondarily.

You, Duke Ellington. Three, I'd say. 5. The whole mambo business is secondarily a musical idea and primarily a dance thing. It feels better to move than it does to listen. This wasn't for me; reminds me of George Hoefer's description of a piece of rock candy: nothing happens. Although some of the mam-bos that Prado has done have been wonder-fully exciting things. Almost erotically excit-ing, which I'm sure is what the mambo was first written to be. Dave Barbour's band did a fine thing on the mambo, too. But this one, there just isn't much to say about it. One star. 6. That sounds like Nat Cole after taxes ... the way people are falling apart these days

there just isn't much to say about it. One star.
6. That mounds like Nat Cole after taxes...
the way people are falling apart these days it might even be Nat Cole, but I sure hope not. It can't possibly be. A very dull imitation, yocally and piano-wise. He's stolen all the tricks and left none of the good things there. The guitar is kind of charming; or maybe it's just a relief from the band imitation. Too bad about imitations; I resent them unless they're done in fun, as a humorous frank imitation... to tif we had never heard Nat Cole; suppose this fellow had grown up all by himself on an island someplace, never heard of Nat Cole; auppose this fellow had grown up all by himself on an developed this style in the dark—well, it would be pretty sad for him to hear some guys like the max, well, this fellow's no good, because he imitates somebody of whom he had never heard. And that has probably occasionally thappened. Vern Friley, I believe, never heard of Bill Harris, yet he plays similarly. I'm embartaneed to have to rate this ... one star.
7. Well ... as you grow old, you suspect that you may be changing, as well as the world around you. The way I used to enjoy jazz, I don't any more, I think ... as the saying is, they're doing the same old thing, just a new bunch doing it, and you're not one of 'em anymore, kid. But then I get out the old records and the same things happen to me; the ame physical chills up the spine, so I'm still metabolizing. And occasionally new things reassure me that I'm not growing old, that it was a support of the spine the spine.

Dave Garroway

Dave Ga isn't true the music business is staggering give it what Sarah gave it four or five years ago. And Billy, to a lesser extent—I've never felt that Billy had the heart, or the technique, or the natural equipment Sarah had; just di the same thing to a lesser degree—I admire Sarah very much, admired her great strength when she first came out. So when the new re-ords come out I know all the sounds. She's better than she was a year and a half ago, when she was making arpeggios out of chords, when du understand. But all you have to do to pressure. It would go up. So here is just the stalent; I think if they got her out of those sequin gowns and she would let her hair down and have the fun out of music that she had when I first knew her, everything would be hale—the lady would like to make a buck. If not doing all the things I want to do, either. By there are people who cam make the com-promise. Like Louis. But al least Sarah's vocal uality, like Ella's, remains unimpaired. Give 1. 8. On the late night dise jockey show I used this two stars.

quaity, like Ella's, remains unimpaired. Give this two stars.
8. On the late night disc jockey show I used to do in Chicago— the 1160 Club, we called it —we'd play a classical record after an hour of jazz, then went back to another half hour of jazz, then went back to another half hour of jazz, then went back to another half hour of jazz, then went back to another half hour of jazz, then went back to another half hour of jazz, then went back to another half hour of jazz, then went back to another half hour of jazz, then went went we got off. It made me feel the way this does, like a musical shower-bath. You get cleansed off and you can actually go back and hear jazz better. We found there were two good types: the Debusy type, or sensuous waddling around in the purple mist; or pure straight up and down Bach, little harpsichord things, or sometimes Mozart. But there was no middle ground. If you played Beethoven or Wagner or anything very heavy —outside of the impressionistic stuff—you couldn't get back in the jazz has derived from the impressionist school. In its field, this is four stars; but they're not the same color stars as we've been using.
9. For a minute I thought it was Hawking, the same of the impression is the same color stars as mething very heavy is the performent.

as we've been using. 9. For a minute I thought it was Hawkins, but he wouldn't make that extraneous sound, that belch near the end. I don't find anything very charming about this. He's a nice compet-tent tenor man, who certainly heard a lot of Hawkins. But it fails to establish a mood. The scoring for the strings is not related to the overall mood. Remember, when Shaw's band used strings they were properly integrated. So I find this like I find 96 out of 100 records today, competent but dull. One and a half or two stars.

two stars. 10. That sounds like Brooks Brothers Dixie. The guys know they're supposed to have a good time with Dixie, but they're afraid some-body might hear them. This might be one of the young groups that are interested in Dixie. You don't have to be an old man to have a good time; but this is a pretty dull, dignified Dixie record. Sounds like Jazz Ltd. on a rainy night when everybody's feeling bad. One.

Dut I was always interested. We always had victor Red Seal records in the house, man. And I guess I never heard pop music, really. Then when I got into radio, about 1939 or o, I began to hear pop music more; I was announcing dance pickups. My eyes lit up. About that time they put me in the Navy and I got into a station in Honolulu, KGU, which had a wonderful old library of stuff that had probably never been played. They gave me an hour to fill at night—I was in the Navy but you were allowed to work on the side in those days. Well, I had done classic deejay programs before, but then I found out the sponsor for this hour was a very high-class massage partor, so I thought I'd try pop stuff.
As I began to pull them down from the shelf discovered some very exciting things. When got back to Chicago, I continued it. If the shows were any good, it was because I was discovering these things for the first time myself. I didn't put Louis Armstrong on as an old friend, I'd put it on and say jeez, ian't that great, right along with the listener.
That enthusiasm of discovery only happens once. I know I couldn't do those shows again to but have never made the grade commercially fine but have never made the grade commercially fine but have never made the grade commercially fine that on a place in Chicago and there was an unknown girl named Jeri Souther. and Tuberin Crying Air Day, and erboat Shuffle. Bix's Best The classic Singin' the Blues has always been considered Bix's most exciting record. It sold com-paratively well at the time of its original release, as many copies have been found around by collect-ors. Many musicians contemporary to Bix can still hum note for note his chorus on Riverboat Shuffle. Other very worthwhile sides in this group are I'm Comin' Virginia, Way Down Yonder, and Ostrich Walk. Wringin' and For No Rea-son both are curious trio sides on which Bix plays piano and only picks up his cornet to play a brief coda at the end. Trumbauer and Lang are with him on these two. Whiteman Days: Margis, In a Mist, Take Your Tomorrow, Bor-neo. Bless You, Sister, Baby, Won't You Please Come Home! Tain't So, Honey, 'Tain't So, That's My Weakness Now, Oh, Miss Hannah. On these sides the lengths of Bix's contributions shorten consid-erably where he is surrounded by the large Whiteman band. His muted work on Sue and Baby, Won't You Please Come Home is well worth the listening. Margis is a long unissued Trumbauer side which is pretty bad except for the short Bix bit. It has only been available on a limited edition be-fore. This group concludes the set with one of the most important Bix records, his own original com-position In A Mist, as a piano solo. (Jumped from Page 3) Buddy Morrow's band plays Denver's Lakeside Park for two weeks beginning May 15. After Pee Wee Hunt leaves the Preview ho moves to the Commodore Hotel, Windsor. Opens May 5, then goes to Angelo's in Omaha for a pair on May 15... Judd is the only remaining McMichael member of the Merry Macs. Brother Ted left the group to go into business. HOLLYWOOD HOLLYWOOD Ramez Idrisa, guitarist who wrote the Woody Woodpecker novelty song hit a few seasons back, is doing all of the background music (including the writing) as solo guitarist on the new transcribed radio series, Studio X, from Hollywood. Some of the bridges and cues were multitaped, a la Tony Mottola on the Danger video show . Jakob Gimpel, who soundtracked June Allyson's piano solos for Too Young to Kiss, is doing the same for Hugo Haas in his role as composer-pianist in Columbia pictures' forthcoming Strange Fascination, which, they now tell us, will NOT be another Chopin biografilm but the story of a musician deeply influenced by Chopin and his music. Okay. Anita Ellia, Rita Hayworth "wolce" in most of her recent pictured (but not since Rita veturned

Anita Ellia, Rita Hayworth's "voice" in most of her recent pictures (but not since Rita returned from Europe—in Rita's next, Trinided, the voice is that of Jo Ann Greer), is now ghost singing for Vera-Ellen... Vaughn Monroe is busy at Repub-lic on his second starrer, Toughest Man in Tomb-stome. Joan Leslie in the top femme role... Tony Martin recorded I Hear a Rhepsody and two other rongs for a Juke box sequence in the Walk-Kranna RKOpus Clash by Night. It's an off-stage bit in which singer will not be seen. And though he's now rated one of the biggest stars on that lot, he won't get screen credit.

now rated one of the biggest stars on that lot, ne won't get screen credit. Paul Nero, Hot Canary fiddler and composer, is Paul Nero, Hot Canary fiddler and composer, is taking time out from his post as assistant concert maater at RKO studios to take a crack at the dance game with a new 10-piece crew. A debut date is planned for San Diego's Trianon with the ork con-taining a number of ex-Kentonites. Line up Bud Shank, alto; Bob Cooper, tenor; Art Calderon, bari-tone; Chico Alvarez, trumpet; Dick Kenney, trom-bone; Don Trenner, plano; Billy Wilson, drums; Joe Mondragon, bass. Guitar man still to be set ... Johnny Richarda, who worked with Stan Kenton when the latter was putting together his first large concert unit, has joined Kenton's permanent troupe as assistant conductor and arranger ... Maynard Ferguson was with Spade (King of Western Swing) Cooley's Santa Monica Ballroom band and TV show at this typing.
