Swing Era Lives Again In Great Goodman Album

a self-explanatory title: Benny Coodman 1937-38 Jass Con-cert No. 2. What happened at the party is described in pictorial detail on Page 9. What happens on the records is a result of the handiwork of Bill Sav-ory, now a Columbia Records engineer, who in the 1930s was an ardent enough Goodman fan to take a large number of Benny's network broadcasts off the air. These airchecks, after much careful sorting (half a dozen different takes were available on the same tune in several cases), have been amembled into two 12-inch LPs. The album is lavishly produced, with close to 5,000 words of program notes by George Avakian. It starts out with Benny's opening theme (Let'a Dance) and a short speech by Benny; it closes with the band's famous radio-fadeout theme, Gordon Jenkins' Goodbye. Of the 37 items presented, 21 are by the full band, 16 by the trio and quartet. There are only three vocals, one each by Lionel Hampton, Martha Tilton and Helen Ward. This album represents a substantial improvement on the Carnegie collection in two respects. First, having been balanced for radio, the performances are technically far superior. Second, there are 15 num-ter that were never available before on records by Beny. There is more in this music than can be translated into black and white. There is more in this music than can be translated into black and white. Suffice it to say that the exciting freshness of swing music when it was a new music to the men that made it, new to the world that heard it, comes through in brilliant clarity and with a wonderful im-pact; that Harry James, Lionel Hampton, Gene Kruna, Teddy Wilson, Ziggy Elman and Benny are responsible for some inspired solos; and that Columbia deserves great credit for its part in recreating what we now can look back on as a golden era of jazz. — The Editors

Temptation

I emptation New York—Personal manager Dick Gabbe was reminiscing the other night at the Cafe Rouge here about his days while he was handling Jimmy Dorsey. He related a tale about Jimmy's theater date in Minneapolis in 1943, a period when JD was sizzling hot on the road. Jimmy, on stage, was having a sax solo based on Holiday For Strings, made two false starts, failed to get going on both oc-casions, and came down front to calm his audience with some stale gage about how tough the arrangement was.

New York - The discovery and development of new musical talent is beginning to shift from the hands of the shift from the hands of the music business into a circle which can be labelled a modern crop of "patrons." And, to boot, the major talent agencies, fearing the effect of time alone on their artist rosters, are conducting activated new talent programs. The total effect will bring into the public eye more youngsters in the coming months than have made the parade in many moons.

Total to success via bandwork, and the list is too formidable to list here, though some pertinent ex-amples would be Frank Sinatra, Dick Haymes, Jo Stafford, Hugo Winterhalter, Eddie Sauter and Bill Finegan, Jerry Gray, Ralph Flanagan, Buddy Morrow, Billy May, Ray Anthony, etc. Since the spotlight has swung to singers and to records, the pursuit for new talent assumed new pat-terns designed by recording chief-tains who were anxious to uncover hidden talents and felt the way to do it was to find them in hidden places. Thus the bands lost their magical appeal (to youngsters) as a center of music business orienta-tion and, mest important, exposure.

a center of music business orienta-tion and, most important, exposure. No Incentive And, in his attempt to survive, the bandleader has deemphasized his personnel in favor of giant self-centered treatment, so that the various maestri actually offer little or no incentive to a young singer or even a young musician or ar-ranger, though the latter talents have little or no place else to turn to for experience except an organto for experience except an organized band

ized band. Today's youngsters have a new tact completely. Find an angel and make records. Makes no difference whether the angel be a former mobster or an oilman from Texas, as long as there's a guy who'll pay the way. Apparently youngsters have not had a hard time finding these patrons, for it is becoming an alarmingly large part of the contemporary recording scene whereby a discery is willing to take (Turn to Page 19)

Dixie Crosby Dead At 40

Los Angeles—Dixie Lee Crosby, wife of Bing, died here Nov. 1 after a long struggle with cancer. She was three days short of her 41st birthday. Bing and their four sons were at her bedside. At the time of her marriage to Bing in 1930, Dixie was a promis-ing movie starlet and Bing still a comparative unknown. Headlines announcing the wedding read: Dixie Lee Marries Band Singer. Dixie made a couple of appear-ances on Decca records in duets with Bing, but had been inactive for most of the past two decades.

Thrush Brown meanwhile has been signed to a five year renewal recording contract by Atlantic Records.

By Al Martino Second Million Is Just As Hard To Make As The First By AL MARTINO

No matter what they say, the second million isn't any easier to make than the first. Either is it any simpler to come up with a second hit record than it is a first. In fact, I think it's

with a second hit record than even tougher. Here's why. When we made Here In My Heart, it was just one of a set of tunes we cut at a session. I was unknown and not too much was ex-pected of me. But the record broke open. I woke up one morning to fini I had a smash hit on my hands. Maybe it came too easily.

The Heat's On

The Heat's On Because recently the pressure started. "You've got to find an-other record," people began saying. "You've got to find another one to prove you aren't just a one-record fluke. You've got to come up with momething that will top *Here In My Heart.*" And they're right. I need an-other big hit. Not to keep working regularly—I don't think I'll ever starve as a singer after the boost I got from *Heart*—but to establish myself firmly as a good record seller and to open up some of the really top spots in the country so I can work them. It would give me that second leg to stand on, so to

I can work them. It would give me that second leg to stand on, so to speak. Make me established. So I've already begun searching and digging and scrambling for that one more big one. And believe me, it's a lot rougher to find than the first, for I can't experiment and record a lot of things and hope that one hits. Everybody's watching everything that's issued to see if I stumble, and they're comparing each side with *Heart* to see if I top it. You know something I always used to enjoy reading? Those old "Did you know?" articles. You don't see them much anymore. What say we play "Did you know?" here in our little page-two bor this afternoon? Did you know that America's first hit song was Yankee Doodle and to this day nobody knows who wrote it? Did you know that There's a Tavern In the Town is an ancient English folk melode? Did you know the English folk melody?

English folk melody? You knew, of course, that (America My Country 'Tis of Thee) was known to the English as God Save the King—but did you know that mo one knows who wrote either the words or the music. The melody is considered by some authorities to be over three hundred years old. Did you know that Sir Thomas More, who is often credited with writing Drink To Me Only With Thime Eyes, had nothing to do with the number? Ben Jonson was the lyricist and the melody is so ancient that, like many another folk-ballad, its origin is shrouded in obscurity. Did you know that Francis Scott Key did not write the Star Spangled Banner in its entirety? He created only the lyric. Three men have been credited with writing the melody, the original title of which was To Anacreon in Heaven. Historians have not been able to agree on which one of the trio was the actual composer.

The Original Key

The Original Key Did you know that Key originally titled his lyric The Defense of Fort McHenry? Did you know that the song was not actually the national anthem until March 3, 1931 on which date President Hoover signed a bill pro-claiming it as such? Did you know that Robert Burns wrote part of the lyric to Auld Lang Syme? The melody? That's right: nobody knows the name of the luckless gent who wrote it. It seems safe to say that he was a Scotaman. so Jess Scotsman.

Did you know that The Old Oaken Bucket was originally a temper-

Did you know that I'm Old Oaker Backer was originally a temper-ance song, performed to extol the virtues of water as a beverage? Did you know that Benny Goodman's theme song Let's Dance is nothing more than von Weber's Invitation to the Dance in swing-time? Don't feel too bad if you didn't know any of these things. I didn't either and, as Will Rogers has pointed out, we're all ignorant . . . only on different subjects

Both Kleiber and Scherchen are free from Toscanini's prime errors of mad-rushing and over-preten-tiousness... With both, the music has far more pleasing flow and more effectively shaped drama. Scherchen, as usual, has a few odd stylistic and tempo idiosyncrasies, but on the whole I'd take his set for the best all-round sense-and-sound-that isfi of course, if I have to take the Ninth at all! As far as I'm concerned there'll never be an "ideal" or "definitive" recording ... which is entirely OK by me. Both Kleiber and Scherchen are

Added Starter With the Toscanini and Scher-chen sets, you also get an added starter in the (to me) infinitely more delightful *First Symphony*. But again we have three cherches, for London puts out a separate Schuricht ten-inch disc. Toscanini's can be ruled aut pronto, for even those who fall for his *Ninth* are willing to admit his *First* is over-stressed and lacking in true verve. Scherchen's probably is best in or-chestral precision, finesse, and bril-liance ... but it's planned on too big a scale for my taste and is a bit overpowering at times in sheer energy. Schuricht, on the other hand, has a lighter, warmer touch ... and while his orchestra may (Turn to Page 5)

A Musical American Day

The long and hard—(if slow—) fought campaign for American mu-sic Doc Hanson has been waging up Rochester way at last gets a better break on records than it's ever had before, even when RCA Victor was releasing an occasional 78 set. For while Hanson still hasn't anything phenomenal to offer in the way of music itself, his at least pretty good material now is presented in the most resplendent of recorded sound. These first two releases in an American Music Festival Series are worth the attention of any at all interested in native music . . . No one in particular is not to be missed by anyone hunting for the absolute maximum in full shoral and orchestral phonographic sonorities. Hanson's own three Songs from Walt Whitman's Drum Taps are stirring stuff without too much real character or substance . . . But

Randall Thompson's Testament of Freedom (on Jeffersonian texts) is a super-patriotic Fourth-of-July celebration . . . conservatively ortho-dox musically, but mightly exciting in its sincere fervor, and even more exciting in the colossal outpourings of vocal and instrumental sound captured on this disc. Turn the volume up and seek shelter! This'll bring the house down-maybe literally. <u>Anti-Climax</u> The quictor pieces for science on a articlimax only in the big have

Anti-Climax The quieter pieces for strings are an anti-climax only in the big-bang department. They too are superbly (if less sensationally) recorded and the music itself has far more individual character. Contemporary Tom Canning's Fantasy on a Hymn by one Justin Morgan of Revolutionary times tries hard to re-work Vaughan Williams's success with his Tallis Fantasia—and doesn't miss by too much. Young Pete Mennin's little Arioso is less ambitious, but it's quite moving in its restrained expres-sivenesa. But the top music prize of both discs is the late Arthur Foote's Suite in $E \rightarrow a$ far too neglected work by a far too neglected composer . Writen back in 1907, it's still brimful of life and vitality: achiev-ing true graciousness without over-sweetness, verve without mechanic-ally produced momentum, and a true "life" without strain. -dar

Counterpoint Cherchez Les Femmes By NAT HENTOFF

We've been having quite a hassel in our town lately. Some of you may have read about it in *Time*. It seems the first chair in the flute section of the Boston Symphony Orchestra was open. And a chick, a mere woman, had the brass (block that metaphor!) to audition for it. Not only that. She was hired

hired! At this point the music critic for the Boston Herald (a spiritual though not quality descendant of the late Transcript) rose in his hirsute righteousness and harrumphed: "A very serious matter and I am not a little dismayed by it." He kept on being dismayed in subsequent columns and even after the first concert in which the young lady stoned the other critics, Mr. Rudolph Elie, frowning at this new fangled social phenomenon, ob-served, "I find it difficult to accept the notion that any lady future play-er could ever succeed Georges Lau-rent either as an artist or as an object of such veneration among men."

Face Prejudice?

Face Prejudice? Well, the second time out Miss Doriot Ant'onv wailed all the way in a Bach suite for flute and strings and Mr. Elie with grin self-discipline avowed as how she could play that flute pretty well--but she was still a woman and had no right to that first chair. Sounds pretty ludicrous, doesn't it? But how many times have you seen or heard a disc jockey or an emcee or a writer of album notes refer to Mary Lou Williams as "the best of the female painists"? The implication always is that in the minor leagues of feminie jazz, she's peerless but in competition with male keyboardists, she's all right-for a woman. Bonnie Wetzel played a date here with Roy Eldridge. She played good rhythm bass, not great, but somewhat more than adequate. I didn't hear a single comment from usician or layman that didn't in-clude a one-bar tag to the effect: "Yuh, for a chick she's all right." Chauvinistic

Chauvinistic

Psychology Of Sex

Psychology Of Sex I am not maintaining there is no difference between a woman's and a man's approach to music. Music interpretation reflects the entire personality and in our cul-ture obviously, a girl's growing up leads to different character for-mations than does a boy's. So Bar-bara Carroll is apt to feel some songs differently than Hank Jones for reasons beneath the inevitable individual differences among art-ists.

individual differences among -----ists. But it's still hard to define with any exactness what those differ-ences in interpretation based on gender are. And even if it were possible to draw them in a graph, they still would have to be judged by the same standards of musical quality. **Double Standard**

By the same standards of missical equality. **Double Standard** What happens, however, is the almost invariable assumption on the part of male musicians and listeners that women jazz artists are standards by themselves on a lower criterion of excellence. This haan't applied to vocalists because their male contemporaries. This haan't applied to vocalists because that comparison by gender never comes to mind. And also because that comparison by gender never comes to mind. And also because that comparison by gender never comes to mind. And also because that comparison by gender never formale because that comparison by gender never comes to mind. And also because that with the few intrepid chicks who have played other instruments. The witheringly patronizing scorn of the males has often in the way of a defense reaction (and for commercial reasons) to the formation of all-girl bands. Most of these have been unfortunate musically because of uneveness of ability in the band and because of the fact that if a band (male or female) feels it's being listened to for reasons other than its music, it cannot play at its musical best.

The Girls Are Marching

The Girls Are Marching The time, though, is coming when the term "mixed band" will have another meaning from the one it now has. In St. Louis, the symphony orchestra has a woman first trombonist. And as Down Beat's "Girls in Jazz" series has demonstrated, there are other young ladies—trumpeters, clarinet-ists, et. al.—who are going to make it eventually. It'll take a while but I expect in 10 years to see ads in the Beat for lipstick-proof reeds, trumpets de-signed by Jacques Fath and in the classified section, something like: "MUSICIANS. All Instruments Replace-ments for established commercial territory band. Steady employment, guaranteed as ary. kitchen privileges."

Piston's 4th Gets **Boston Premiere**

Boston — The Boston Symphony premiered Walter Piston's Fourth Symphony here recently. Local critics united in harmony, but a few recalcitrant musicians thought they had heard it all be-fore. As one phrased it, "It sounds like watered-down Roy Harris, and that's certainly watered-down enough."

Phill MOORE Show New York-Phil Moore, active in recent years as pianist, com-pose-arranger, combo leader and vocal coach, has a new role, that of producer. His first show, Phil Moore's Flock, was in rehearsal at presstime for presentation this week (Nov. 17) at Monte Proser's La Vie En Rose in Manhattan. Joya Sherrill, former Ellington vocalist who emerged recently from retirement, will be featured in the show, along with dancer Bunny Briggs, former Charlie Barnet show star, Dotty Saulters of the old Calloway band, and singer Bob Bailey.

Stars Called 'Characters' Never Let Me Down Yet! BY FRANK HOLZFEIND

st. The Blue Note, Chicago)

In and out of the music business you hear the expression. "That fellow is a character." This expression is made with assurance and it's so pat, easy, and ambiguous—and so utterly harmful.

terly harmful. During the few that five had the good fortune of sitting on the 50 yard line of the fascinating and exciting game of jazz, five had the pleasure of working with many of those stigmatized people. I've been warned by ambitious well-wishers that so-and-so would never show up; wouldn't play if he did ahow up; wouldn't play if he showed up and would play; couldn't work with others in the band if he hand up and could play (if he would may). The well-wishers add "... and, you know, at one time he was the greatent, man." They leave you heping for the worst and drouing in anticipation of telling you that

**** I Don't Care I'd, credited here to Charlie Grean and Cy Coben, was known in an earlier incar-nation as Ay-Ay-Ay. Here it has one of those suggestive lyrics with the delayed clean ending. Care is not the old Judy Garland hit, but a Charlie Singleton-Guy Manning opus with a slightly revivalist rocking atmosphere. Billy Eckstine

*** Be Fair **** Come To The Mardi Gras

**** Come To The Mardi Gras Mardi Gras is a good change-of-pace for Billy; it's a vintaged samba which Mr. B makes his own rare meat. Nelson Riddle's backing has punch and spirit. Be Fair is an entirely inadequate ballad through which Billy makes a valiant at-tempt to cover up his struggle. (MGM 11351.)

Bill Farrell

Stars, a country tune turned nop, is punched out well by Foley with a fiddle section to help him; Sally is a comball ballad, more beery pop than teary country, doesn't fall right for the singer. Deep Blues is the best demonstration of the guy's singing; he creates a mood and projects great feeling in his handling of the moody blues. Reverse, *Midnight*, fea-tures Red doing his first multiple-dub duet with himself. Latter coupling has a good rhythm section, though the front line is strictly from Nashville, all guitars. *** Lazy River ** Way Marie

A coupling made originally for Signa-ture has been reissued to cash in on the revival of Lazy River. Lily Ann's reading is first-rate, in fact one of the best jobs she has ever done on records. Marie is the old Italian ditty always good for juke box nickels. (Coral 60874.)

Bob Keene

** Easy To Remember *** It Ain't Necessarily So

"At I is dia't Necessarily So Keene, a controversial California figure who was involved in the Ace Hudkins at-tempt to cash in on the old Artie Shaw library a couple of years ago, finally has shown up on records and with a pair of surprisingly good band sides. Of course, Keene's Shaw-styled clarinet dominates, but there's a rich orchestral sound on *Re-*member and a spot of good piano. The Gershwin standard comes off in a show arrangement, tom-toms and clarinet being the key gimmick for the opening and clos-ing. In between there's some pleasant tenor and a good medium jump segment to show off the band's sharpness in ensem-bles. (Vogue 1009.)

Dorothy Loudon

** Sinnin' Again * Nickel And Dime Man

Miss Loudon acts out a couple of ditties, Sinnin' a cowboy ballad with a honky flavor and Man a calypso-type novelty. Neither has what it takes. (Victor 20-1998.)

Gisele MacKenzie-Helen O'Connell ***** Water Can't Quench The Fire Of Love **** A Crasy Wats

******** A Crasy Welts Tongues firmly in cheeks, the gals do two hilarious pieces of satirical material in a pseudo-western vein. Each side punches its point across in less than two minutes, with Dave Cavanaugh's combo (on the first side, just bleating tuba and rhythm) accentuating the laughs. Second side sounds like In A Little Spanish Town in spots. Water_gets a slight edge in hilarity, but both will be popular. (Capitol 2266.) 2266

Ralph Marterie

*** Runnin' Slow ** Summer Love

** Summer Looe Marterie's first-rate crew turns in m clean-cut workout on Slow, m slow beat riff instrumental reminiscent of many in the genre; Marterie gets off a brief muted, moderniah solo to m Kenton-ish arrange-ment, Love is Marterie's trumpet all the wav in his Jamesian mood. (Mercury 70006.)

Skip Martin

*** Rose Room ** There's Danger In Your Eyes, Cherie There's Danger In Your Pres, Cherie Crack arranger Martin employs his Les Brown-ish technique in instrumentally working over a couple of vintaged items; Rose Room perhaps rocks with greater force than Cherie. Both sides feature tasty tenor sax (probably Ted Nash) and piano (Geoff Clarkson?) solos. (MGM 11342.)

Al Martino **** In All This World **** Note

******** Noss This coupling represents Martino's strongest bid for a hit since his original *Here In My Heart. World* is a concerto-type "big" song worked up in real pre-tentious style by Nelson Riddle's big studio crew. Now is a formula song, also of the bravura type. (Capitol 2260.)

Sy Melano

Sy Melano *** Mi Amore ** Troubadour Melano, a promising young tenor with an almost operatic sound, is well presented here in two effective ballads. Orchestra, under Charles Henderson, makes intelli-gent use of strings to accentuate the dra-matic mood of the second side. (Vogue 1012.)

Mills Brothers

*** A Shoulder To Weep On *** Someone Loved Someone

Either side of this coupling could pro-vide the Mills family with a follow-up to its current hit, The Glow Worm. Neither is as strong in performance, arrangement or material as the Worm, but they are typically slick Mills Brothers in every re-spect. Shoulder is the better song, a pol-ished ballad; Someone is a hokey ballad with an obvious sort of corn philosophy. Sy Oliver conducts his own arrangements. (Decca 28459.)

Guy Mitchell

*** Don't Rob Another Man's Castle *** Why Should I Go Home

Costle is an early Mitchell effort, hasn't the sound he's gotten on more recent suc-cesses, and doesn't figure to do more than reach newly-made Mitchell fans. Home is a rather unimpressive and corny ballad. (Columbia 39886.)

Jimmy Palmer *** Secrets *** Yearning **Vaughn Monroe** Palmer's midwestern mickey-mousers have struck a record-selling formula with gang vocals a la Johnny Long on oldies. *Yearning* is the latest attempt and should fall in line with *Who* and the other suc-**** Yours The Vaughn and only should do well with this coupling, coverage of a pair of upcoming ballads, one a revival and I a LOLA AMECHE BILLY JIMMY

new Milton Berle adaptation of Drigo's Serenade. Monroe is backed by his band and a studio chorus. Deliberate commer-cialism done competently. (Victor 20-

Buddy Morrow

**** Greyhound **** Stairway To The Stars Buddy, who seems to have found a com-mercial formula with a rhythm and blues song diet, could well have his biggest box office bet yet with an exciting production of *Greyhound*, a Rudy Toombs item started by Amos Milburn. It's an express train blues novelty which gets its excitement from an underlying rhythm figure (played with crackerjack precision by the Morrow crew) to a vocal, here rendered with sur-prising ginger by Frankie Lester. The revival of Stairway in many ways is one of the best band discs made recent-ly. Taken at a medium beat, Lester and a vocal group handle the lyric to a slight improvisation of the basic melody with Morrow's trombone contributing both solo and obligato moments of considerable merit. (Victor 20-5041.)

**** Greyhound *** Stairway To The Stars

NOTED RACEHORSE SPECIALIST Harry James is expected to sell LPs for many a year as a result of his successful teaming with Rosemary Clouney, who joined him in the recently five-starred set of award-winning movie songs on the Columbia label.

Art Mooney

*** Lazy River ** Honestly

** Honesely Thanks to the metallic honky quality of vocalist Cathy Ryan (formerly Dottie O'Brien), Mooney has in *River* his strong-est hit bid in some time. It's a straight dance band treatment, no gimmicks, no banjoes. The song, of course, is a delight-ful oldie. *Honestly* is a rather dull ballad, sung adequately by Cliff Ayres and group. (MGM 11347.)

Russ Morgan

Att Dream Baby *** Strolling in Lover's Lane Lover's Lane is the side intended for the hit; it's a fairly close mimic of the couple-of-year-old Morgan hit, Cruising Down The River. Russ and a vocal group sing it. Dream Baby is a pleasant old-timey ballad bouncer which Russ sings nicely and his band plays for the song's value for dancers. (Decra 28422.)

cesses the band has had. Ronnie Neubert and a chorus sing Secrets to make a solid commercial coupling for the top side. (Mercury 70013.)

11

Les Paul-Mary Ford **** Lady O/ Spain *** My Baby's Coming Home

Takk My Baby's Coming Home Lady Of Spain is one of the best ex-amples of Paul's technique, both as gui-tarist and as recording engineer. With the song already solidly revived via Eddie Fisher, this instrumental version should have no trouble cleaning up. Home is a country ballad of only moderate appeal, is sung on one of her rare bad days by Mrs. Paul. (Capitol 2265.)

Johnnie Ray

Johnnie Kaj strk Ges But Pm Lonesome *** Don't Say Love Has Ended Here's newsl Johnnie Ray's new record isn't going to be a hit. Both songs are weak and his performance of them sounds like a pale imitation of the griginal. The Four Lads and Jimmy Carroll's rhythm back him up. (Columbia 39814.)

Edmundo Ros

★★ Peladinho ★★ I Like Brasil

Ros' British Latins offer a couple of danceable items, neither really standout, though *Peladinho* has a striking theme which could be exploited with better or-chestration. Ros sings *Brazil* in his mono-tone style. Both sides are marked "baiao." (London 1257.)

Barbara Ruick & Carleton Carpenter

*** No Two People *** When You're Walking In the Rain An engaging new Hollywood discouple deliver a buoyant coupling, both of a novelty nature, with People, the Frank Loesser picture, the likelier song. Skip Martin provided the tasty musical assist. (MGM 11314.)

Sauter-Finegan

Sauter-Finegan **** Midnight Sleighride *** When Hearts Are Young And a couple of distinguither finegan forts to the first six of the Sauter-Finegan merry adaptation of a section from Proko-for the Joys' Doudletown Filer. Frank Sinatra ★★ W[®]hy Try To Change Me Now ★★ The Birth O/ The Blues

Frank sounds awfully tired on Change, a new and rather pleasant ballad. There's only a small improvement on Blues, which is a production arrangement and will have meaning mainly for Axel Stordahl's fancy background. (Columbia 39882.)

Jo Stafford

Jo Stafford ***** Keep It & Secres **** Once To Secres **** Once To Secres Chances are that Jo's plea to Keep It A Secret will be far from kept. It's a strik-ing country-ish ballad treated simply, showcasing Jo's pipes against muted trum-pet, piano and rhythm. Heart's a ballad co-penned by hubby Paul Weston, who also leads the supporting bands. (Colum-bia 39891.)

The Blindfold Test

A Morse Code Of Musical Ethics By LEONARD FEATHER

As you must know if you read the Nov. 19 Down Beat, Ella Mae Morse has some pretty firm convictions about what is going on in the contemporary vocal world. Teeling that a blindfold test would uncover come additional views along similar lines, I concentrated on recent vocal discs for her com-ments and ratings. The following, therefore, represents the Morse code of musical ethics, with a tape recorder standing by as witness. Ella Mae was given no information what-ever about the records played for her, either before or during the blindfold test.

THE RECORDS

THE RECORDS 1. Stan Kenton. Lonesome Train (Capitol). Arr. Gene Roland. Kay Brown, vocal. It's an interesting thing, but it's fright-ening... The whole thing is a gimmick. I den't knew who the girl was. She sounds like part of the train, which was very effective; but it gets a little monoto-mous after awhile. I don't know what else the arranger could have done with it ex-copt just exactly what he did do... I didn't care too much for the balance. I'd give it about one and a half.

2. Harry James-Toni Harper. Fruit Coke (Conbia).

lumbia). Unmistakably Harry James' trumpet, would-n't you say? And it's got to be little Toni Harper. How old is she now? About 16? I think she is wonderful. I am a little preju-diced, you know. Anything Toni does I like. But of course, this type of tune I like, too. This is not on the order of Blacksmith, but it's out that same heat

I his is not on the order of Blacksmith, but it is got that same beat. I don't like Harry James' trumpet playing, which he will probably hate me for; but I never did. But he has always had a great band and the finest rhythm sections. I give this an four

3. Guy Mitchell-Mindy Carson. That's A-Why (Columbia).

adpoint, I would give it two. From my at of view, I wouldn't have this thing point a a gift.

4. Freddie Cole Trio. The Joke Is On Me

Topper. Everybody sings like somebody. Did you notice? He sings an awful lot like King Cole. I think I have heard him before, and I can't remember his name. Just right at the very beginning, I thought it was Nat, but then I knew all of a sudden, because there is a certain amount of sincerity that you-no matter how much you sing like someone else, you just can't make it. This is a very nice tune. I'd sav it has no

This is a very nice tune. I'd say it has no commercial value at all, just for that reason. It isn't hillbilly or folksy enough to make it

on the Hit Parade. It is a very wonderful little rhythm section in the back, too; but I kind of lost interest after the first 16 bars. I'd say three stars.

5. Frances Faye. Night And Day (Capitol). Frances Faye. Night And Day (Capito (Laughter) Ow, Ow! that is the part I like! I am so glad Frances Faye is record-ing at last. She is really wonderful. This girl sings with a terrific beat and complete relaxation. She plays very fine piano too. She's got a wonderful sense of humor, you can tell that in the way she aings. Of course I love that bongo beat they get in the background too. I would give this a big fat four and a half.

George Shearing. It's Easy To Remember

6. George Shearing. It's Easy To Remember (MGM). Teddi King, vocal. I feel real guilty because I never recognize singers anymore. I couldn't possibly, if my life depended on it, tell you who that girl was. She sounded like a combination of a lot of people, but very good. The song is wonder-ful. Everybody is bringing back all the old songs, and everybody has those fade-out end-ings. I am getting a little sick of that. But I am still doing it too, by the way. I guess you've got to follow the parade. I'd say fair, on the whole; but musically the group was a good three and a half. I didn't recognize the group at all.

7. Sarah Vaughan. Sinner Or Saint (Columbia), with Percy Faith Orch. and chorus. I think Sarah Vaughan is getting com

pletely confused. Remember when she first started? Her big record of Don't Blame Me got such fabulous recognition, and the way she was singing was just the way she felt singing; and it was the greatest. Well, then she sort of went hog wild, and was criticised so tremendously for it, and now she is trying to sing straight. Her vibrato goes crazy. It suffers cor it, I think, is one of the nicrest records the has made in a long time, of the newest ones. Some of the new ones I have been read disappointed in because in person Sarah still knocks me completely out. She sings the way she used to sing, in person. But on records I think they are trying to hold her back, and I wish they would leave her alone. Whoever handles her sessions, I would like to bang him right on top of the head, and tell them to let her relax, and sing the way she wants to signe, because she is great. This is a beau-tiful tune, and the band of course, is great. I don't know who conducted; maybe Percy Faith? It sounds like him. I would way there.

8. Fran Warren, Takes Two To Tango (MGM). Ralph Burns Orch. Arr. Ralph Burns.

Raiph Burns Orch. Arr. Kaiph Burns. Oh, this is cruel, I could kill you. Of all the records, this is the one on Two To Tango that I haven't heard. Well I hate to say it, but this is the lowest! It's the worst thing I have ever heard in my life; if I may say it without seeming to be just plain catty. I didn't like one thing about this record. The arrangement was bad, the girl was bad, every-thing was bad. The whole thing lower than zero? thing was bad. The whole thing was a com-plete mess. Is there anything lower than zero? That is the way I rate it.

9. Duke Ellington Orch. Come On Home (Okeh). Comp. Ellington, Jimmy Grissom, vocal.

w here we go again on not knowing Now here we go again on not knowing who the artist was; it really doen't matter because the band drowned him out any-way. I couldn't catch half of the lyric, but this is just another blues; and not a very good one, I don't think. I think the blues are coming back. This is a very depressing type number, what I could hear of it. The balance was very bad. That was a wonderful sax section, and a nice booming bass; the rhythm section was fine. The arrangement I didn't care for. Maybe I'm spoiled by Nelson Riddle and his wonderful arrangements. I think it was over-arranged, because it's a simple

was over-arranged, because it's a simple blues; I didn't like the singer at all, because he was screaming; everybody screams, and this has got to stop. I would give about a one.

10. Wild Bill Davison. I Con't Give You Any-thing But Love (Pax). Helen Ward, vocal.

thing But Love (Pax). Helen Ward, vocal. Records like that bring back memories. It sounds like a combination of Louis Armstrong and maybe Berigan on a jam session. This doesn't sound like a commercial record at all. It sounds like a bunch of musicians get to-gether and they are having a little jam session. Very relaxed. The girl sounded a little like Helen Ward. It couldn't be, could it? She sounded familiar to me. That little quivery sound reminds me of some of her old records with Benny Goodman. From a commercial standpoint this record has no value at all. But I liked it; give it a big fat three.

The Coolest San Francisco — Somebody's writing some pretty commercial advertising signs in the Bay Area these days. Nat Pierce, Herman pianist, spotted this one on a church en route to San Jose: "Sunday Morning Services, 7 A. M., Wish You Were Here" and this billboard for a whisky: "Five Brothers Whisky—Strictly Straight!"

Ted Heath Fights To Hold Britain's No.1 Band Crown

British maestro Ted Heath in his office By MIKE NEVARD

-Ted Heath never looked back as he skyrocketed Londonto the top of the British dance band world seven years ago. But he's glancing over his shoulder now at a young drummer climbing up behind him with a lively jump crew.

Climbing up bening in the intervent of the top with the original Heath band in 1945. Both have held the top poll spots ever since: Heath as Num-ber One Swing Band; Parnell as Number One Drummer. Now Parnell's after the Heath fight. Heath's crew has the polish and power you would expect from a

I think he has come nearer than anyone else to explaining just what takes place in the creation of good piano playing. As far as my own teaching is concerned, I've been teaching ac-cording to the basis of my own style and what I observe to be the harmonic basis of most jazz musi-cians I have known.

band so well established. Parnell has an enthusiastic kick and the imagination of youth. However, Ted's not going to be caught napping when poll time comes along. He's injecting a lot of fire into his 16-piecer.

New Rhythm Kicks

New Rhythm Kicks For a while the band was tame, but now it's regaining some of the inspiration which drove all before it in 1945 and '6. Ralph Dollimore, 23-year-old piano discovery, is put-ting a new kick into the rhythm section. The brass and saves still have

23-year-old piano discovery, is putting a new kick into the rhythm section.
The brass and saxes still have their 1945 stalwarts-trombonist Jimmy Coombes and lead alto Les Gilbert. But there's a young look about the sections.
Bobby Pratt blows most of the solo trumpet with the band now, and is beginning to fill the gap left when Kenny Baker quit the band in 1948. John Keating plays a hot, jagged trombone with terrific force and adds jump where there were once Bill Harris impressions.
But the real strength of the band is in its section work. The brass is punchy and the saxes are smooth and well-blended.
Renown-Like Sound
As Les Brown said when he heard the band: "The standard of musicianship is terrific."
The Heath crew has, in fact, been likened to the Band of Renown. But though the band plays with probably more ensemble precision than the Brown unit, there is nothing of the dynamism that drives the American band on its one-night stands. Drummer Ronnie Verrall is no Sperling, and the British bands seem frightened of producing anything near a deafen-

He came into the musical pro-fession 44 years ago when his father, leader of a local brass band in London's suburbs, taught him London's suburbs, taught him the tenor horn.

Started Young

Started Young At the age of seven, Ted was playing in brass band contests. At 12, he switched to trombone. Unemployment was rife at the end of the first World War. To keep himself from starving, Ted joined a bunch of itinerant mu-sicians in the London streets. In 1920 his luck changed. Jack Hyl-ton gave him a job at the Queen's Hall Roof Gardens. The same year he went to Vienna with a band called the Southern Syncopators. Back in London, he played with the bands of Bert Firman, Al Star-ita, Ambrose and Sidney Lipton. In 1940, he became first trombonist with Geraldo — the same Geraldo with whom he was later to battle for Britain's Number One band spots.

spots.

Songs For Sale

Songs For Sale Then he added a new facet to his career: composing. With his wife Moira—a former show girl —he wrote That Lovely Weekend and I'm Gonna Love That Guy. With the royalties from these num-bers he floated the all-star band which took the country by storm. A lot of star men played with Ted then—Ralph Sharon, Norman Stenfalt, pianos; Dave Goldberg, guitarist now gigging in Holly-wood as Dave Gilbert; Ronnie Scott, Tommy Whittle, Johnny Gray, tenors; Kenny Baker, trum-pet; Jackie Armstrong, trombone. The big names have gone. But, says Ted: "British musicianship is the best in the world. Only the dance band players' inhibitions

*** A Shoulder To Weep On ** Why Don't You Believe Me? Believe, a not especially outstanding ballad, is a hit via a Joni James MGM waxing; June's version is simple, tasty but doesn't figure to dent the market much. Shoulder is a better production, makes effective use of a male quartet, will be the key side for Miss Valli. (Vietor 20-5017.) s wife, elight. al pro-en his s band ht him

** If I Didn't Love You So ** Last Night I Heard Somebody Cry

Fair vocalizing of a couple of mediocre ballads, Love an ordinary schmaltzer and Cry a hillbilly weeper. (Mercury 70011.)

Billy Williams Quartet

Mad is a frantic novelty which has so much in it that the kitchen sink wasn't necessary. The standard coupling spots Williams and his men at their most inade-quate. (Mercury 70012.)

Joe Yukl Sextette

*** Skaters' Jump *** That Old Gang of Mine

Bisterous pseudo-Dixieland by the trombonist's big-sounding, well-recorded group. The jazzed-up Skaters' Waltz, reminiscent in spots of the old Crosby Bob Cats, will probably get most of the disc-jockey play, but Gang, played more or less straight before it digs into Dixie, is a better showcase for Yukl's horn. Dave Brubeck Quartet

**** Look For The Silver Lining **** This Can't Be Love *** At A Perfume Counter ** Frenesi

** Frenesi Lining, a good tune for revival pur-poses, induces inspired work by Brubeck and altoist Paul Desmond. There are fugu-ish moments in the last chorus, and an amusing Paramount production ending. Love has some of Desmond's coolest, smoothest work and some intense, jumpy Brubeck in a curious assortment of styles; in many ways it's one of the most inter-esting Brubeck items yet. Perfume, another good old tune, opens with the theme, done with almost corny correctness. Bassist Bull Ruther thumps a little too hard behind the piano solo. To our recollection, this is the first B flat jazz record ever to end on an E flat + (and with a flat 5 yet!), Frenesi has Desmond sounding thin and high, as if he wished his alto were a soprano. Much of this side is ruined by Herb Barman's machine gunning. (Fantasy 521, 520.)

ing, reasonably lush and extremely well recorded. Cesana's orchestrations are far more impressive than are his compositions; some of the themes are undeniably attrac-tive, none of them are strikingly original. His piece de resistance, the first move-ment of his Symphony In Jazz, is notable for the development of his thematic mate-rial but its relationship to jazz is purely in its title. Starlight, perhaps the most attractive commercial item in the set, is a concerto-type schmaltz piece which spot-lights Bernie Leighton at the piano. Perhaps in his pursuit to nnd the com-position, Cesana may have stumbled on a formula, now familiarized by the Faitha, Jenkins, and Winterhalters, which could become a commercial entity for star-gazers and young lovers. (Columbia GL 103.)

Here we have some six minutes of Sweet Georgia Brown, extracted from Miles' LP. Miles, altoist Jack McClean, tenor Sonny Rollins are not helped a bit by the rude, unswinging drumming of Art Blakey. (Prestige 777.)

You Believe Me. been great about this band can be found in these reissues of 1940 sides. Cootie Williams' trumpet on the first number, Jimmy Blanton's bass on the second, Hodges' exquisite Warm Valley, all made jazz history. Duke himself arranged every item; Ko-Ko in particular stands out as a miniature masterpiece of form and con-tinuity in jazz orchestration. There has never been greater big band jazz than this, by Ellington or any other unit since. The passage of 12 years has served merely to show the brilliance of these sides in a broader perspective. Let's just add credits for the brilliant work of Rex Stewart, cornet; Lawrence Brown and Tricky Sam, trombones; Barney Big-ard, clarinet; Duke's piano and Ben Web-

Blue Bye Bye Pretty Baby At Sundown When You're Smiling All I Do Is Dream Of You Stomping at The Savoy I'll Never Be The Same At Album Rating: ***

Album Rating: *** Album Rating: *** The Goodman Trio was something new and sensational in 1935. If these records had been made in 1935 (and nothing in the music precludes that possibility) they might have sounded equally devastating to our 1935 ears. But alas, they were cut only a few years ago and released in 1952, and to contemporary ears they will pro-vide nothing that startles or thrills. Ben-ny and Teddy Wilson play tastefully, un-sensationally, perhaps lacking the pioneer spirit that gave their teamwork such a powerful drive in '35. Some clever two-way voicing between Teddy and BG in the Avery Parrish blues, *After Hours*, is about the only thing that really stands out in the set. Jimmy Crawford replaces the original Krupa drums. (Capitol H 343.) 343.)

Hampton Hawes Trio

**** Thou Swell **** Jumping Jacque

What have we here? Another new star? It may well be, for Hamp's solo debut bears out the promise shown in his sides with Shorty Rogers and other coast com-bos. Swell has a well preconceived routine, some incisive improvisation, fine recording and excellent rhythm support from Shelly Manne and Joe Mondragon. Jacque is a medium-tempo blues with a novel stop-and-go theme. Hamp swings in single-note passages, works out some nice ideas with Shelly, and plays block-chord passages swingingly too. (Discovery 164.)

Woody Herman

Woody Herman ***** Perdido ** Baby Clementine The band rocks superbly on Perdido; there are two excellent, un-label-credited solos by Arno Marsh on tenor and Carl Fontana on trombone; and the rhythm section at this session had Nat Pierce, Chubby Jackson and Sonny Igoe. It's a head arrangement, played with the fire that used to burn in the first Herman herd. Clementine is an adaptation of the traditional melody, arranged by Ralph Burns and sung by Dolly Houston. Hardhy worth the effort. (Mars 400.) (Turn to Page 17)

Blindfold Proven It

Other Times, Other Ears

By LEONARD FEATHER

One of the most confusing aspects of the appreciation of music, about which critics and fans have indulged in endless and fruitless polemics, is the problem of whether or not one be completely objective in any judgment.

When you're listening to a performance, whether it be by Darius Milhaud or Doris Day, Duke Ellington or Dinah Darius Milhaud or Doris Da Washington, how do you listen? Do you judge it in comparison with other performances by the same artist? With previous works by the same composer? Is the pleasure with which it strikes your ear determined by how many other artists and composers you have heard in the same field? Or do you tell yourself you are completely objective, judging the music simply on its own terms without reference to anything you've heard before? To my mind, those who claim to fall into the second category are perpetrating an enormous hoax on themselves; for there is a law, un-written but immutable, that gov-erns our reactions to any music.

The Eras Philadelphia — Duke Elling-tion told a reporter here recent-by that the history of jazz can be conveniently classified by the instruments that have domin-ated its various phases. "First." he recalls, "there was the piano era. That takes me back to when James P. Johnson and Lucky Roberts for came to Washington; and later, when I first came to New York and heard Willie The Lion Smith. James P. and the Lion Smith. James P. and the Use and heard Willie The Lion Smith. James P. and the Waller, presenting me as a year-ling who, they said, was learn-ing which coincided with the rise of the big bands. It was the rise of the big bands. It was the rain which Louis and Bix and Henry Busse and Clyde McCoy all made their names.

"The next era was the clari-net phase, which symbolized the rise of swing music—the era of Benny Goodman and Artie Shaw. "Today it's the tenor sax

era." Duke didn't make any pre-diction on the looming of the Hammond Organ Era.

<text><text><text><text> Treah and radical. We cannot gen-rate the same excitement on hear-ing a Benny Goodman 1950 Trio identical record in 1935. The converse is also true; to paraphrase a remark in the recent pages, if we had listened to a Gil-lespie solo in 1925 we would merely have thought he was playing wrong works. When we listened in 1945 we thought he was doing something delightfully different. Try This Operationnaire

Try This Questionnaire If you believe the Law of Experi-ence can easily be broken, ask yourself these questions: If you had heard a lot of Shear-ing Quintet records but NOT Sep-tember in The Rain, how would you react to the latter if it came out today as a brand new release? When you hear Woody Herman's current band playing Early Au-tumn, do you simply take it on the basis of what you hear, or do you mentally compare it with the way his previous band played the same arrangement? Can you honestly listen to Ralph

<text><text><text><text><text><text><text><text> arrangement? Can you honestly listen to Ralph Flanagan's or Jerry Gray's music and ignore the fact that you ever heard Glenn Miller? If you are a Stan Kenton fan, can you truthfully say that you would buy all his records, including the concert orchestra works, if you the concert orchestra works, including didn't know they were by Stan? Have you never in your life lis-tened to an old record and said that it sounds "dated"?

Don't You Believe It

Don't You Believe It If you admit your vulnerability, even on only one of the above five questions, you have admitted the existence of the Law Of Experi-ence. And any time you hear me, or anybody else, claiming to be "completely objective" about any musical performance, just remem-ber it's a lot of carwash. As long as we live in the world, and the world is full of music, there will be no such thing as objective re-porting; there will merely be de-grees of subjectivity. White Heat Album Rating: ***

Album Rating: *** After all the chatter about who stole what from Lunceford when, young listen-ers who know only Ray Anthony and Billy May may be interested in this LP, a cur-iously arbitrary assortment of 1939 and 1940 Lunceford sides by a band that en-joyed a unique reputation at that time for precision, incision and fine orchestration. Some of the choppy phrasing sounds oddly dated, but on several numbers the band's wonderful beat and phrasing can be appreciated. Billy Moore's seoring of Mary Lou Williams' Story and Chopin's Preluda, and the head arrangement (Up-town) that became the band's theme, are highlights. White Heat is (and was at the time) sheer trash.

highlights. White Heat is (and was at the time) sheer trash. The soloists, none of them credited in the very vague album notes, include Ted Buckner, Willie Smith and Dan Grissom on altos; Snooky Young and Paul Web-ster on trumpets; Trummy Young and El-mer Crumbley on trombones. Let's hope the next Lunceford LP in-cludes Belgium Stomp, Le Jazz Hot, Put It Away and more of the truly great Luncefordiana. (Columbia GL 104.)

Gerry Mulligan Quartet

Gerry Mulligan Quartet **** Lulleby Of The Leaves **** Bernie's Tume It may have been the quest for a new sound that motivated the absence of a pi-ano, or it may have been simple economy. Anyway, Chico Hamilton's drums and Boh Whitlock's bold bass sound make a perfect-ly effective rhythm support for the two horns—Mulligan's baritone and Chet Bak-er's trumpet. There's nothing sensationally new in the writing on either side—Bernie's opus is a simple minor original—but it's smooth-flowing modern music, excellently recorded. (Pacific Jazz 601.)

*** Lullaby Of The Leaves ** Three Little Words

Cal is at the vibes on Leaves, which in-troduces some pleasant changes. But he's at the drums on Words, which he over-cymballizes to the point where Vince Guaraldi's piano work is undeservedly blotted out. (Galaxy 705.)

Bob Scobey

Bob Scobey *** Chicago ** Sailing Doom Chasapeake Bay Scobey's Frisco Dixie revivalists play with an amazing amount of vigor and spirit. Chicago is one of the better two-beat discs of the season if only for its wonderful free-wheeling spontaneity, a characteristic too often missing in recorded Dixieland. Sco-bey's trumpet leads the pack potently and George Probert's soprano further en-hances the side, which spots a Clancy Hayes vocal chorus. The coupling is com-mercial razzamattazz, musically notable for Wally Rose's honky piano backdrop for Hayes' vocals. (Good Time Jazz 71.)

The coupling, except for a 30-second interlude by Benny, is en-tirely vocal, featuring a female unit that doesn't even get label credit. It's doubtful whether the long-deserved fame and for-tune can reach Benny along this route. (Victor 20-5005.)

WORLD'S FINEST DRUMMERS INSTRUMENTS

Four Buddies

** Sweet Tooth For My Baby *** What's The Matter With Me?

17

A good Raven-styled group turns in a rocking, though uneventful, medium blues on Baby, reverses to a sugary ballad which is well produced to create mood and succeeds. (Savoy 866.)

Lil' Son Jackson

*** Wakin' This Boogie Security is a gimmicked-up side, spots Sykes shouting with reverberations and echoes thrown wide open. The blues, how-ever, materially is not as strong as the performance of it. Reverse is a boogie blues, instrumental save for a brief chorus. Opening Basie-ish piano, a good guitar and a crisp rhythm section help make this a likely entry (United U-129.)

Backed by a good small combo and a crisp rhythm section, T-Bone reels off a couple of fairly ordinary slow blues, plays some of his odd-sounding steel guitar on both sides, shares the instrumental lime-light on Street with a gutty tenorist. (Imperial 5202.)

Dinah Washington *** Make Believe Dreams **** Stormy Weather

Dinah works out with strings on a cur-rent pop and the classic standard, both of them sung effectively. (Mercury 5906.)

HERDIE FIELD'S ORK. (Corol. 9/23/53). Deug Metterna, Jim Nettlagham, Chuch Genduse, Ed Badgay, tpits.; Edda Bart, Bart Varaslana, tran.; Sam Zitman, Charlie Konnedy, Marbie Field's, Eddie Wasserman, Al Young, Danny Banh, reeds; Joe Black, pinne; Joe Gatte, pilane (on Dardandle); Reddy Cafaro, guilar; Danie Martueck, bass; Phil Arabia, druma. Dardandler, Everything I Here & Youry Ris Rits; Sarf (Manny Alkam erig.).

ARMANDO CAMPILLO Chooses eedy & Judwig

Armando Campillo,

formerly with Xavier Cugat, now featured drummer with Pupi

Campo's outstanding Latin-American band, uses Leedy & Ludwig equipment exclusively-including the famous Leedy & Ludwig authentic timbales. Armando. like other prominent Latin-rhythm drummers, agrees that there is no substitute for the authentic Leedy & Ludwig timbales ... designed especially for the par-

ticular drummer. LEBDY & LUDWIG, Elkhart, Indiana

Left: Pupi Campo with Armando Campillo at his Leedy & Ludwig outht. Pupi's band is a New York favorite in clubs and on TV. Has also worked most famous South American spots. For latest Leedy & Ludwig catalog, address depart-ment 1219. Ludwig ca ment 1219.

*** Rockin' And Rollin' #2 *** Journey Back Home

First rate "down home" southern blues chanting and material with a group of guitars for accompaniment Has a ring of authenticity. (Imperial 5204.)

Smiley Lewis

*** It's So Peace/ul ** Gumbo Blues

Peaceful is a slow rocking blues with a double entendre theme and spots a brief tenor sax bit; reverse is a shuffle blues which reminisces about New Orleans. Lewis is an adept blues singer. (Imperial 5208.)

Jimmy McPhail

* I Could Love You More * I Could Love You More ** Sugar Lump MacPhail delivers the ballad, Love, un-eventfully; Sugar is a jump novelty of no particular import, though it features some tidy band work and the now tradi-tional tenor. (Victor 20-5026.) # Roosevelt Sykes

**** Security Blues *** Walkin' This Boogie

T-Bone Walker

*** Street Walking Woman ** Blues Is A Woman

Ray Charles **** The Midnight Hour *** Roll With My Baby Charles makes his Atlantic debut with a haunting slow blues, Hour, and a light-WHO BLOWS THERE?

that was as fresh a creation in a dance band as there has been in 10 years. But those basic sounds which were the foundation of the band were decimated as time went by, when Claude became too busy to write his own book and other arrangers produced the library. There was a tendency on part of these arrangers to write out their souls into music for Claude and they wrote great stuff, modern stuff. But this was not the stuff that Claude's idea was made of. Claude's band was not a soloist's paradise; this was a band of revo-lutionary sounds (which still are startlingly fresh) whose core was to be found in ensemble work.

(Jumped from Page 1) a fing with a talent provided the bill is being paid by someone else. This holds true for singers mainly, but there are a few rare cases where a band is being financed by non-music business resources. Talent Agencies As for the talent agencies, GAC has long been conscious of keeping on the lookout for new talent and has been lucky enough to come up with most every major new sing-ing talent including Patti Page, Johnnie Ray, Eddie Fisher, Guy Mitchell, Mindy Carson, etc., and band: Ray Anthony, Billy May, etc.

Mitchell, Mindy Carson, etc., and band: Ray Anthony, Billy May, etc. But MCA, the giant of the tal-ent business, has allowed its music scene to decay the last few years. Recently however the against an-dertook to get back both into the singer and band field. It landed Neal Hefti's young band and the out to find and build more. Its approach is novel agency. The agency's many sales-men are combing the hinterlands for budding talent, are particularly on the lookout for kids who have made some small label or local label recordings, and are offering these kids to night spots which have never played talent before. Theory behind the plan is that MCA will be putting to work a potential new entertainer or band at a low salary to a night club buyer who has never investigated the potency of talent on his cash register. Thus MCA acquires new talent and opena new outlets for talent at the same time. But, it is generally agreed in music circles, there still is nothing

Hollywood — Four members of the Lionel Hampton crew, which has been one-niting the Coast ter-ritory, have left to join a new combo headed by Al Grey, former Hampton trombonist. Departers were Ray Johnson, bass; Johnny Board, tenor; Ellis Bartee, drums; and Rosetta Perry, vocals. Permanent replacements not set at writing. what it is that Claude needs to sate that impetus which is neces-ty these days to elevate a band. The Discovery And this is what I discovered after listening and after discussing Claude Thornhill at great length with Claude Thornhill. Much like the nature of his music, there has been a subtle change in the band's sound through the past few years until it no longer is playing a li-berled "Claude Thornhill's." Basi-cally Claude is an arranger. He framed the sound of this band in the early '40a. He was trying to translate the high, thin string sec-tion sound of Kostelanets into the framework of a reed section. This he did with a unison clarinet sound that was as fresh a creation in a dance band as there has been in 10 years.

this new band of his with a new outlook. He's going to slowly but surely bring this band around to play his kind of music, his classi-cally-conceived idea of a dance band. To accomplish his mission, he will again take pen in hand and produce library for himself to once again set the patterns for his band.

An Appetizing Future

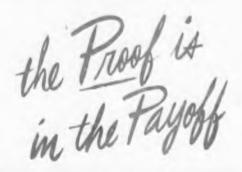

An Appetising Future This was good news to me for I feel that Claude's formula is the one which should have succeeded Glenn Miller's in popular accept-ance. Musically, much of that orig-inal Thornhill idea stands up to-day as completely fresh as when they first were created, smacking of a timelessness in orchestrated popular music as an Ellington and with a commercial appeal of a Mil-ler.
