MORRIS OUT AT WARNER MUSIC U.S.

Michael Fuchs, Chairman, **Warner Music Group**, announced today that **Doug Morris** has been relieved of his responsibilities as chairman and CEO of **Warner Music U.S.**, effective immediately. "I have made a careful but difficult decision which I strongly believe is in the best interest of the growth and stability of the entire Warner Music Group," said Fuchs, who will assume the position of chairman, Warner Music U.S. The heads of **The Atlantic Group**, **Elektra Entertainment Group**, and **Warner Bros. Records** will report to him, as will Warner Music International, Publishing, and Warner Media Manufacturing and Distribution businesses. Fuchs added, "Warner Music Group has the deepest and finest roster of artists, and the best and most talented executives in the business. The results of that combination have been obvious throughout the years. I feel that this decision will allow us to focus on what we do best. We will only become stronger as a result."

Time Warner Chairman/CEO **Gerald M. Levin** added, "Michael's decision has my full and complete support. He is dedicated to creating an environment where artists thrive, and employees do their best work. I expect him to take this business to even greater heights."

ELLIS NAMED TO MERCURY VP POST

Steve Ellis has been named Vice President, Pop Promotion, at **Mercury Records**. Mercury Executive Vice President **David Leach** made the announcement, and commented, "Steve's broad experience and knowledge of radio at all levels will help break Mercury artists. His fresh ideas are grounded in practical work experience, and I look forward to sharing many successes with him." Ellis added, "It's a

Steve Ellis

once-in-a-lifetime chance to work with an experienced and knowledgeable veteran like **David Leach**."

Ellis joins Mercury from the Senior Director of Promotion post at **Curb Records**. Previously, he held promo positions with **Atlantic**. His radio programming background includes stints at **KDWB/Minneapolis**, **WAPP** and **Hot 103/New York**, and **KLSX/Los Angeles**.

AROUND THE DIAL

Charlie Maxx

Charlie Maxx has been elevated to Program Director at **KZFM/Corpus Christi**, replacing **Mike Steele**, who exits to take the O.M./P.D. gig at **KQKQ/Omaha**. Maxx tells Grapevine, "This is something that

I've worked for for a long time, and I'm glad that **Lillian Katz**, my General Manager, thought enough of my experience and my talent to give me a shot at it. I'm hoping to do many big things." Before joining **Hot Z95**, Maxx held A.P.D./M.D. positions at **WJRZ/Toms River**, and **WAYV/Atlantic City**.

Texas continues to lose Steele, as **KIXY/San Angelo O.M./P.D. Jimmy Steele** (who replaced Mike Steele when he departed for **KZFM**), exits for the O.M. position at **WHHY/Montgomery**. Grapevine wonders... where does this leave **WHHY P.D. Willie B. Goode**, who reportedly hasn't been in the building for six weeks?

AC B101/Philly A.P.D./M.D./afternoon host Eric West exits. West is a market veteran who also spent two years at crosstown **WIOQ** handling production and swing. Reach him at 215-879-8913.

KKFR/Phoenix afternoon jock/A.P.D. **Super Snake** is named interim P.D. He'll hold down the fort until a replacement is named for L.A.-bound **Rick Stacy**. The name that Grapevine keeps hearing as the lead contender for the gig... **Dr. Dave Ferguson**.

Names in the hopper for that vacant **WOSC/Ocean City, MD P.D.** job... **Bob Maxwell**, former P.D. of **Z104/Frederick**; and **Marc Hunter**, former P.D. of **WAYV/Atlantic City**.

Grapevine wonders... will there soon be a new **Hyatt** in Honolulu?

Congratulations to **Bob Hamilton** and everyone at **Wild 107/San Francisco** on the station's outstanding trend! The **KYLD/KYLZ** dynamic duo was up 3.5-3.7 12+; 5.6-6.2 18-34, good for second place (**KMEL** had a 6.8); and 19.4-20.2 in teens, which is #1.

Y107/Nashville will be flagged with a 5B note in the Spring book because

There is a **reason** we've been working this record for six months

(actually, there are several: research, sales, requests)

WKTI, Milwaukee " **#2 call-out** record with females 29-34. Power rotation for 9 weeks." Danny Clayton, PD

WTMX, Chicago "Our **#1** most played song. Smash!" Brian Kelly, PD

GUY ZAPOLEAN/Zapolean Media Strategies "Simply put... **sleeper** hit of the year. Top 5 call-out."

XL106, Orlando "A real pop hit. Consistent top 10 **requests** ." Adam Cook, PD

93Q, Syracuse "A **proven** winner week after week with females." Dave Edwards, PD

WSTW, Wilmington "Passive female **monster** ." Mike Sommers, PD

WFLY, Albany "I do mid-days, and females consistently **request** this song." Mike Morgan, PD

THE END ZONE

Grapevine wonders... are **Hot97/New York** morning hosts (and **Yo! MTV Raps** hosts) **Ed Lover** and **Dr. Dre** preparing to enter the late night TV wars? Industry sources say that the duo is working with **New World Entertainment** to develop an after-dark strip.

Congratulations to **WPST/Trenton**, as the station won the "Best of the Best Award" for the Best Radio Commercial produced by a New Jersey radio station at the New Jersey Broadcasters Association Convention, held at the **Trump Castle** in Atlantic City. The convention - NJBA's most successful ever - was attended by over 800 broadcasters. 'PST Creative Director **John Mozes** wrote the spot, which was

K92/Roanoke is celebrating its 15th anniversary with the biggest concert ever in Central and Southwest Virginia. **Summerblast '95** happens on July 2nd at Salem Stadium, starring **Foreigner, Firehouse, Martin Page, Sophie B. Hawkins, 4PM, and Laura Brannigan**. **K92 P.D. Chris Taylor** commented, "We are celebrating our birthday by putting together the biggest concert event ever for our listeners! Ticket prices for a show like this would normally cost about \$50, but we're making it absolutely free! This will be a great celebration for our listeners, and K92."

And finally, **KUBE/Seattle** made **History** on June 20th, as the station became **MJ93** for 24 hours, and played nothing but **Michael Jackson** music! The station mixed Michael's new music with his extensive catalog, and even adapted the station's normal features. The Heavy 7 at 7 with **Eric Powers** featured the seven most requested Michael Jackson songs of the day. And The Old Skool Lunch with **Shellie Hart** included the oldest Michael hits, such as *Never Can Say*

RCA artists *The Dave Matthews Band* dropped in at KRBE/Houston. (l-r): A.P.D. Scott Sparks; Dave Matthews; P.D. Tom Poleman; and M.D. Paul "Cubby" Bryant.

Goodbye, and Rockin' Robin. Imagine P.D. **Mike Tierney's** surprise the next day, when his cellular phone rang while he was at lunch, and it was Michael himself, thanking Mike for the feature. M.D. **Shellie Hart** also got a call. The hot line rang while she was on the air, and **Polly Anthony** said, "Michael, say hello to Shellie!" Hart spoke with Jackson for about 5 minutes. The hot line doesn't

get much hotter than that!

WELCOME TO ALBIE D.C.!

Interview with WPGC M.D. Albie Dee

By Bob Burke

When WPGC MD Albie Dee was born the Doctor stuck a mic in his face instead of a pacifier and Albie didn't cry. He screamed "HEY MAN I'M F\$@#IN HERE"! This is where his career began! He graduated in 1983 from the Connecticut School of Broadcasting. That same year he gained full-time employment at WCCC/Hartford. He handled all-nights on the FM and afternoon drive on the AM. In 1985, it was on to WKSS/Hartford for all-nights and Music Director. In 1987 he landed the coveted position of MD at WPGC/Washington D.C.! He ruled the night air-waves book after book in Albie DEE C! One of this industry's most respected Music Directors, he has since moved from nights to afternoons, and has matured so to speak. Well some things never change so don't be surprised when you tune to WPGC for the most outrageous and out-spoken individual who is ALBIE DEE! "Still Rockin The Mic So Viciously!"

Describe the Albie D.C. market.

It's mine, babe, it's all f#\$!in' mine! The market's kind of wacked, to be honest with you. It has changed a lot since we came on the air eight years ago. The club life and the night life has really diminished quite a bit. There's not really many crossover clubs left. Street level it's musically polarized. It's either real Pop/Alternative or Black. There's nothing in between anymore.

How has working with New World Communications benefitted WPGC?

Just look at where we're at!

What can we expect to hear on WPGC? Anything out of the ordinary this weekend?

Oh, no, we're just playing the hits. We don't adjust our programming whatsoever for our

radio friends. We love them, we appreciate that they're all listening. Hopefully they're all listening this weekend. But, they don't get diaries. My audience does and they don't give a shit about the Bobby Poe convention.

Take us inside the music meeting.

We first proceed through the lobby, then you go down the hallway into the conference room where you are strip-searched and made sure that there's nothing stuck in any bodily orifice, like tapes, or tape decks or microphones or any listening device! Then we just play tunes, and we listen to tunes and we decide what we like and what we don't like.

What types of research do you use?

We use all the same research that anybody else uses.

How do you balance research with your gut?

I don't know if you can really put your finger on when to use research vs. gut. It's as if everything is taken differently. It's kind of like an artist thing. It's not like a pure science.

How often is WPGC in the streets now?

Every day, all day! From ten o'clock on our people are out. We have a Hummer. We have a Land Cruiser, a portable studio—it's the master cruiser but we sold it to Reebok. It's the portable studio on wheels. And then we have three vans. So, we're out all the time—both the AM and the FM.

How's the move from nights to afternoons working out?

I love it! I think that I had to grow up a little bit. I was getting to the point where I felt that I was getting too old for my night audience, I wanted to take those people who were listening at night when I first hit the air who were in high school and were 18-24 and are now in the 25-34 demo. They remember me at night, so that was a very typical move, and it's really worked out very well. The numbers have done considerably well, and I'm very happy with that. God's blessed me to stay on the air for another three months because the book was good!

WPGC has been market dominant for eons of years. Word has it that the market will see some changes. How, if at all, will that affect WPGC?

I don't think it will affect us at all. I think we're smart enough to roll with the punches.

UP CLOSE

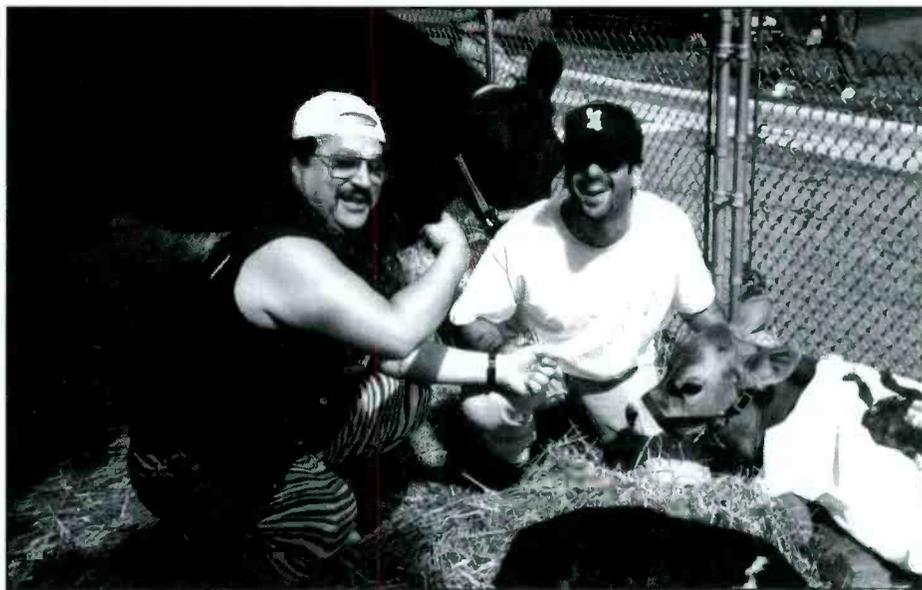

Without giving away any trade secrets, I will say that we can come up with a new play for this town. We have our scouts out! We have the guys up in the booth. So, we can go anywhere. We've got the playing field and we know what we're going to do with it.

In your opinion, how important is mix show programming and how important are they in your market?

I think mix shows are important as a whole because it gives the station, or any particular station that's doing a mix show, an avenue where you can turn up the hip factor a little bit more. You're playing regular radio that's very cool. You're playing all the hits and that's what any radio station is all about playing the hits, but then when you start to mix them and you change up the sound a little bit and you add a different beat underneath it and you add something behind it, it gives it a hipper factor. In this particular market the mix shows have been very effective for me since we put them on the air when I first moved down here eight years ago. It really gives the station an edge that all the other stations don't have. I have

"The market's kind of wacked. Street level it's musically polarized. It's either real Pop/Alternative or Black. There's nothing in between anymore."

the best mixers in the Washington metropolitan area. I have 13 of them for both AM and FM, and by far they are the best! Not only are they mixers but now that they have been with me, some of them are going into the remix service of doing remixes for the record labels. There's about four or five guys who are doing very well making some real good money, and starting to make a name for themselves. I'm very proud of them. Our mix show roster consists of: G Sharp, Maestro, Charles The Mixologist, Dre Dee, Tracey,

SOME COW FUNK MASTER!... Hey this wasn't in the job description! Columbia's Pete Cosenza stopped by for a quick feeding!

D.J. ZX, Random Noise, M.G. Whiz, Tigger, D.C. Seel, KO Productions, Vitamin E, and DJ the DJ, who's Donnie Simpson's son.

Tell us a little bit about the all-important Top 20 "Double Play" countdown.

It came about when Jerry Clifton said to me, "Wow, I have an idea to do a syndicated show. Would you like to be the host?" I said, "Most definitely!" We now have about 30 radio stations now across the country. Thank you to everybody who plays the Top 20 Double Play, I appreciate it! It's a Crossover countdown show that leans both dance and urban. We cater to two different types of charts. We'll do the dancier versions, so we'll put in Stevie B., and Nikki French, and Bryan Adams, and the Intonation record on one chart. Then on the other chart we'll have MokenStef, which hasn't crossed yet, Pure Soul, the Urban crossover records. We have two separate shows. The stations, whichever way they're leaning, could pick it up... Then you have the crossover Rap records that cover both charts—Notorious B.I.G., and Total, Brandy, Immature.

How did the WPGC's Spring Jam turn out?

We officially called it the "Birthday Bash Eight", which is the eighth anniversary of the radio station being on the air. It was a HUGE SUCCESS! We had damned near 10,000 people show up at the U.S. Air Arena. The line-up was Immature, Soul For Real, Subway, Pure Soul, Brian McKnight, Shabba Ranks, and Montell Jordan. Biz Markie was the mixer in between the sets. I thought Biz was the reason why the party wasn't a concert and was a party. When you're doing a 15,000 seat venue, we were worried that it

was going to be a concert. We've always thrown great parties, which are totally different—people swinging from the rafters getting drunk and chasing women, or women chasing men, or men chasing men, and women chasing women. We really don't care. This one we were a little concerned that we were just doing a "concert" but with Biz Markie doing the mixing in between the sets, not a single person left a seat. I looked out during a break in between sets, and saw Biz up on the stage for 25 minutes, and not a single person moved from their seat. He was playing Old School and he was talking to the crowd. People were dancing in the aisles. It was really a great success!

WPGC has a star-studded on-air line-up. Run down the current cast of characters.

Let's start with the morning show. There's Donnie Simpson and The Crew, which consists of Chris Paul and Chip Foo, with David Haynes doing News. Dianne Stupar doing Traffic. Middays is Christina Kelly; afternoon drive is yours truly, Albie the "Mother F*@\$@er" Dee; nights is my man that we found about a year and a half, or two years ago, as an intern here at the radio station, who's now the number one night guy taking over my night numbers. He was really close to beating my record at night. My record at night was a 14.8 12+; he's gotten to a 14.6, and that's Tigger. He was a University of Maryland college intern here and now he's doing a monster night show. After Tigger, there's Prince De Jour, who is the guys that hosts our "Cool Out" program, which is laid back slow jams; and the all night guys is the one and only Dakota. Weekends we have Doug Lazy; We

have Randy, one of our drivers/intern/promotion guys, who I met when he was a freshman in high school. He listened to me when he was 14. Now he's doing weekends. One thing very cool about this radio station and the way that management has done it is that they find a lot of great up and comers, kids who are walking our hallways or whatever, and give them a shot.

Who are some of the programmers whom you respect?

On-air personalities who got me into the business that I admired in the business. The first one that comes to mind is **Smokin' Willie Be Good**, who is now known as Mike Rivers at this 70's station in Miami. He was the man that I really idolized. Then there's **Jo Jo Cookin' Kincaid**, who I think is now working the 70's stations in Boston, and **Pat St. John**, who's doing mornings at WNEW in New York. **WolfMan Jack**—I had the opportunity to meet him, and Wolf Man was nothing but very — what's the word— he just pumped my ego up so much that he listens to me. He does a weekend thing here in Washington at Planet Hollywood, and comes here on Friday afternoon and listens to my show, and loves me. And I don't want to make it sound like I'm Mr. Ego, but I was told that he listens to my show all the time, and loves me to death, and I said, "Yeah, sure, sure," until I met him. And when I met him, he was the Godfather of Personality Radio, going, "Hey, Albie Dee,

Albie Dee's alter ego in full effect! He brings new meaning to the phrase "KISS MY ASS!"

*M*ix shows are important as a whole because it gives the station an avenue where you can turn the hip factor up a little bit more."

Man, you the f\$#@'in'?, man, you gotta keep doin' that shit, baby! You know what I'm sayin'? There's not many of us like that out there no mo'." And he compared me to himself! As for programmers, when I first got into the business, there was **Scott Shannon** and **Steve Kingston**, **Larry Burger**, **Sonny Joe White**. Those are the ones that I really knew of in the beginning coming from the Northeast. Now there are just so many that I can't mention them all.

How do you see the division between the departments—the Urban departments and the Crossover departments? Has it been getting any better than it's been in the past?

Yes, it is getting better. It's definitely gotten better for the national picture. There are still times when I hear, "That was Urban," or "Oh, no, that was Pop," or whatever. That's bullshit. It's all the same label. I'm going to use an example. Let's call it Dee Records. If Dee Records has Michael Jackson on it and the Urban guy leaks it to WBlow Me, and they're an Urban station, and WKISS My Ass is a Pop station, who's responsible? It's Dee Records and tapes; it's nobody else. It's not the Pop side and it's not the Urban side, it's not the Crossover side; whose label is it? It's Dee Records, and Dee Records is held responsible. I think a lot of the labels are getting away from that. There's a couple of labels that are still going, "Well, I don't know if I want my Urban person there, because they have different priorities than we do," and the Urban person—I'm not going to mention the label, but there's an urban person in my market (when I say Urban person it's the person that works the Urban product for the particular record label), he is by far probably one of the best record promoters that I deal with on an everyday basis. I love him to death; he respect me, gives me everything I need, whatever I want, takes care of business, he knows that if I'm the first one playing a record he comes to me. He knows how to work records. He's recently changed to another company and the new company says, "Well, you know, he is an Urban pro-

moter, and they have different priorities than the Pop side." I said, "I don't give a shit about priorities or what you want first or what you don't want; he knows how to work me. I want him in my radio station." "Well, you know, that could set a precedence..." "Well, that's your f\$#@'in' problem, not mine." So there are some who still have a problem with it. The overall thing is getting better, because the bottom line is: who's the number one station in the market? If it's a Churban or Urban or Pop or whatever, and they've been their number one and they've been breaking records number one, you take care of the number one station. If the number one station is beaten by Albie Dee or whoever, and now is the number one station, you take care of him. It doesn't make a difference of who they are or where they report, if they're number one and they play your product, go to them first. Those were the days back in the '70s and '80s before all of a sudden somebody goes, "Hmmm, you're a Pop station. Hmmm, you're an AOR station, you're this or that." These labels are just a pain in the ass.

What are your interests away from radio? What do you do to get away from it all?

I cater to my pregnant wife. We're expecting a little Dee in December. I try to get away from the radio station and get out of town and take long weekends to just spend some quality time with my wife, cause I spend all this time doing the radio, and I need to take care of her. I love professional wrestling, and tinkering with cars, and stuff.

What's the wildest thing that's ever happened to you at the Bobby Poe Convention?

I can't say that in print. I won't even admit it in public!

What will Albie Dee be doing by the year 2000?

Hopefully, working still here at WPGC.

MODERN ROCK

PRIORITY STACK

THE DWELLERS *Rocket Ride* (EMI) The buzz on this Pop/Rock powerhouse continues to grow, with 19 more FMQB reporters launching this song onto the airwaves last week. Excellent Pop harmonies and juicy hooks are in endless supply on their debut album, *Whatever Makes You Happy*. Stations more than happy with this track include **WMMS, WHYT, WGRD, KBZR, WRQK, KNIN, and WNFZ**. New at **WBNQ, WJMX, WYKS, WZOQ, KISR**, and 20 more, adding up to a most-added opening week.

DELAMITRI *Roll To Me* (A&M) 21 more Top 40 stations added this hooky delight last week, bringing the total of stations pounding it to 68, with a convincing 807 spins! This song snags your attention from the git go, and has you tappin' your foot all the way through. 32 stations increased their spins by 10, and 14 of 'em are bangin' it 20 times or more a week. Rolling right along: **WAPE, KISF, WPST, KISX, WSTW, WFLZ, U93, KNIN, OK95, WNFZ, and WGTZ**.

CHRIS ISAAK *Somebody's Crying* (Reprise) Nobody's crying over this homerun, which currently has 95 FMQB stations banging it. We detected 1420 spins last week, and picked up a ton of positive comments from programmers. Great sales, callout, and phones are the norm. This song will work in any daypart, and reel in your female listeners. Just ask **WIFC, KYYY, JET-FM, WKBQ, LIVE 105, WMRV, WBHT, WENZ, WPST, WTIC, WZJM, WPLY, KRBE, KWOD, Q99, WBNQ, KISF, WAPE, KWNZ, FLY92**, and many more. Can you say "smash?"

WEEZER *Say It Ain't So* (DGC) Look for this cut to catapult these guys back into the limelight they enjoyed with their last smash-hit release, *Buddy Holly*. This is a straight-ahead whisper-to-a-scream Pop/Punk tune that will win your listeners over as soon as the goosebump-inducing hook nails you over the head. The crunching guitars and delicately placed harmonies give this song serious crossover potential. Early spins at **Q99, WMMS, WNFZ, WXSR, WLUM, WGRD, 99X, WENZ, and WPFM**.

JILL SOBULE *I Kissed A Girl* (Lava/AG) This little lady has her lips firmly on the mainstream's cheek, with 49 stations playing it an impressive 762 times last week. Many programmers have fallen under the spell of the fantastic hook that drives this song. Ask **WPLY's Garrett Michaels**, who jumped aboard with 17 spins! 20 or more spins at **Q99, WPST, WRQK, KRBE, WPFM, WIOQ, WNFZ, WXSR, WZJM, Z100, and JET-FM**.

cranberries *Ridiculous Thoughts* (Island) 62 stations are on the latest gem from one of the most consistent acts in the format. The total number of mainstream spins climbs to a whopping 803, with increases reported at 35 stations! Classic cranberries' vocals and an almost danceable tempo highlight this track. New spins at **WPLY, WBNQ, and WHOT**, and mega spins at **KWOD, KISF, WGRD, WENZ, KSLY, WSPK, WPST, KRBE, WVSR, KCHX, Z100, WLUM, WHYT, and WEDJ**.

RUSTED ROOT *Send Me On My Way* (Mercury) New adds at **WPST, WNNK, WESA, FLY92, KNIN, and KCHX**, are further proof that if you throw this song into your mix, you'll get results. The tribal rhythms and catchy groove might be just thing to break up the swell of guitar-based Pop that is clogging up many playlists. Stations playing it 15 or more times last week include **WZOQ, WENZ, WGRD, KYYY, WCIL, and WLAN**. Active at **WGTZ, WYKS, WIFC, Z100, KLYV, WERZ, KISF**, and more.

SPONGE *Molly* (WORK) "Powerful" and "effective" are two words to describe this gem. 37 FMQB reporters are all over this reactor, giving it 598 spins. 13 stations upped their spins by 10, and aren't looking back. This band is quickly becoming a very relevant core artist at many stations, and CD & concert ticket sales are starting to surge. Tons of airplay at **WLUM, WHYT, WENZ, 99X, Z100, WPLY, WKBQ, WKDY, WLAN, and LIVE 105**.

A HOUSE *The Strong And The Silent* (Radioactive) A strong showing for this tune at radio with 9 more FMQB stations adding this delightful rocker last week. The guitar work and entrancing chorus knock you out after the first listen. No strangers to the Modern Rock format, this band is now poised to impact Top 40 in a major way. New at **KCHX, KTMT, WAYV, WDDJ, WERZ, WNNK, JET-FM**, and more.

Must listen coming attractions... **Alanis Morissette** *You Oughta Know* (Maverick/Reprise) She's a superstar in the making, with 10,000 SoundScan albums in her debut week! This song will lock you up within the first 30 seconds. **Live** *All Over You* (Radioactive/MCA) The dominance and excellence continues! **Filter** *Hey Man, Nice Shot* (Reprise) Hey man, great song! Rock/Industrial/Pop that'll floor your male and female listeners alike. **Deep Blue** *Something Breakfast At Tiffany's* (Rainmaker/Interscope), a huge buzz track breaking out of the Southwest... where it is already a major seller. **Natalie Merchant** *Carnival* (Elektra) She's back! This sultry little number should put Natalie right back on the winning track. **Never The Bride** *Loser In Love* (Atlantic) Quite possibly the next big act from the label that's real good at bringin' 'em!

TALENT TIPS

"The One-Sided Conversation" —by Jay Trachman

Don't separate yourself from your listeners — get involved with them. It makes the difference between sounding like you're talking "at" people, and talking "with" someone.

One of the easy things to spot on any audition tape is the jock who talks to "the audience" — or even worse, "the masses." Maybe it's a carry-over from the pre-TV days: when radio was *the* entertainment center in the home, and families sat and listened to it. In those days, announcers properly spoke to them all at once.

Maybe it's the influence of TV itself: psychologically, TV addresses an audience. That's why shows sometimes have a live audience — the viewer identifies with it. Those entertainment shows which don't have one often simulate it with canned laughter, to create the same psychological effect.

It's different with radio: we keep people company while they're doing other things; we drift in and out of their focus. We don't absorb the listener except now and then. What we offer is an on-again, off-again distraction which, done properly, makes the listener feel "less alone." The way we achieve it is to select — or create — *one* listener. The illusion we want to weave is that we're talking directly with the listener. It can't be done when you're addressing an audience.

I've noticed something in myself lately. Have you ever been out on a date with someone you liked, but they weren't nearly as talkative as you? Do you find yourself starting and re-starting the conversation — sometimes staying one step ahead, thinking about what you'll introduce the next time the interchange flags? I think it's probably a talent that wide-spread among us, though some nurture it more than others. We've always got something to say. (Well, practically always.) In social situations, perhaps without even thinking about it consciously, we take on the responsibility of keeping the chatter going.

That's the way it is with your listener. You don't want simply to *sound* like you're carrying on a conversation — you want to *feel* like you are, too. He or she isn't ever going to say *anything* (except on the phone), so 100% of the duty falls on your shoulders. And yet,

it's still got to be a conversation. It helps if you have a clear mental image of the person you're talking to, so you can make eye contact — at least in your mind.

I urge air talents either to choose or create a single person — not an average, not a demographic and certainly not the station's "target listener" — to talk *with*, not to talk to. This should be someone important to you: a loved one, a close friend (*not* the PD!)... Or, a fantasy you create. The "target listener" is a statistic; it serves an important purpose in focusing the programming. The Personal Listener is a completely different animal.

The difference is: you're emotionally involved with him or her. You don't just care that he/she listens to the station; you're con-

cerned with liking him/her, and having him/her like you back. So, you do what friends do: you offer emotional satisfaction, and you *take* satisfaction back. It's just like being on a date: you say things you think the other person will enjoy and you say them in an intimate way. You want him or her to come back — and welcome *you* back — for more. You want the relationship to last and deepen.

In a relationship, phoniness and what we call "egotism" are counter-productive. You don't try to impress your friends with how great you are — that's one of the things that makes them friends: you don't *have* to impress them. What you do have to do is be real, to show your true feelings, your likes and dislikes, to talk about the things that are important to you.

The same principles apply to entertaining, except that we focus even more on generating a response from the other person. Whether it's laughter, or "awww," or Hey, me too!" the more you make the person experience his/her emotions, the more you have entertained. Because of the "companionship" nature of music radio, it works best when you create that illusion of speaking directly to the listener, and the listener alone. In order to do that, the first one you have to convince — is yourself.

EDITORIAL

"Radio And Pork Bellies"

(Editor's note: The following was forwarded to us by CIGO, Port Hawkesbury, Nova Scotia, as something of interest to our Family. It is excerpted from a Canadian publication, "Broadcast Dialogue." We don't know who Pat Hurley is, but we think you'll find a certain amount of truth in his comments.)

Pat Hurley sure doesn't like what he says programming consultants are doing to radio. Hurley bemoans the lack of personality, news, sports, talk and commercials.

He says consultants have one focus: to increase rating points. But, he says, the

"THE ILLUSION WE WANT TO WEAVE IS THAT WE'RE TALKING DIRECTLY WITH THE LISTENER."

advertisers and listeners and — importantly — radio are the losers. "News headlines, no sports, no talk, long music sweeps, and fewer commercials will save the station a lot of money, claims the consultant, telling management what it wants to hear.

"Get rid of the news director and most of the news announcers. Run 90-minute music sweeps commercial-free and push them as much as possible on-air. Reduce the allowable commercial load to eight minutes per hour, and cluster commercials as much as possible. Get them all into one lump so the station can run more commercial-free sweeps. Use scripted promos, no high-priced talent, just nice voices. Hours of programming can be recorded if necessary to cut costs even further.

"Now the station sounds like a tape deck. The commercial load is replaced with spots for the station ten times heavier than the commercial load ever was. Put this in place and the listener slowly moves the station into the background, making it a smoother, background sound to work by, drive with or on low when entertaining.

"Yes, the station may increase reach, but can't build quarter-hours because listeners keep tuning away for the services they want. Ad agencies have reduced radio to buying pork bellies. They don't care if the audience

A NOTE FROM THE PUBLISHER

—by Jay Trachman

Would you like to be a more effective air personality? Are you ready for a growth spurt? Do you find it hard to get ample guidance from your PD? Are you a PD who'd like to experience professional critiquing so you can work with your own DJs more effectively? I can help.

The Jock Doc is an intensive, six-week personal course with you and me, *One to One*. Each Monday you mail me your skimmer tape. Each Saturday you phone at your appointed time and we go to work for 50 minutes.

We use your tape as jumping-off point. **You get far more** than critiques: you get suggestions and guidance on how to create content and use it within the confines of your format. You get methodical instruction on how to reach your listener and invite him or her to bond with you as a friend. **Everything** you do on the air is scrutinized, and you end up with a more polished, more appealing product, plus the knowledge of which paths to follow to continue growing.

Phone me for more info and pricing, (209) 448-0700. The Jock Doc has August openings.

is listening. All they care about is reaching gross rating points against a particular demographic. They decide what they think they should pay per rating point, then tell stations, and the stations bow down and come in at the cost per rating point the agency requests.

"As for forced tuning, this is the tool consultants like best. Offer the listener a chance to win money, etc. during ratings instead of giving them good reasons to stay tuned for long hours. What happens when the ratings are over? Listeners go back to regular tuning habits. Who loses? Advertisers.

"The advertiser is the farthest person away from the consultant's mind. Who pays for the forced tuning? The station. Local advertisers could care less about ratings. They want results. The avails are so limited that advertisers can't buy the frequency they need. They don't see any traffic increases because commercials are crammed into a stop set with three other spots at the end or beginning of a long music sweep.

"Advertisers are telling reps the station doesn't want business because they've made 'commercial' a dirty word. You can thank the consultant for that, clustering them so listeners don't hear them.

"The result: radio doesn't work for local advertisers. Management must take back their stations if they want to increase revenues. Commercial islands must be broken up and spots integrated with programming. ON-air people must be allowed to communi-

cate with their audiences. Personalities will attract audiences, not re-laundered music.

"If management doesn't do it, radio will continue to be downgraded by advertisers as a medium that doesn't get results."

PROMOTIONS

"24-Hour Days" —by Bob Lowry

(Editor's note: The following originally appeared in *Update*, client newsletter of Robert M. Lowry & Company, Scottsdale, Ariz.)

With the increased pace of the American lifestyle, there is a fundamental shift going on that could affect your station. Consider the following statistics:

- One of every five people does not work during traditional daytime work hours.
- One-third of all double-income families includes at least one spouse who works at night.
- 20% of all women and 25% of all men work at night and weekends.
- Phoenix has a 24-hour day-care center.
- A VCR repair shop in Los Angeles is open all night.

- Kinko's Copy Centers are open 24 hours a day, 365 days a year. At 3 a.m. there is someone, somewhere, who needs copies or binding done.
- Every decent-sized city has at least one chain of supermarkets that never close. (Phoenix now has six!)

We are moving to a 24-hour-a-day society. The "grave-yard" shift of the past is "Prime Time" for increasing numbers of people... and radio listeners. The days are numbered when you can very comfortably put your weakest air talent, your most obnoxious commercials, and your poorest-testing music into overnights.

Even those who work a "normal" schedule find themselves shopping late in the evening or very early in the morning, and using the radio.

The next time you field a perceptual study you might be wise to include questions designed to uncover late, late night usage of radio. And, if the findings confirm an available audience, re-think how you approach your post-midnight period.

Maybe news and informational servicing is of key importance to these people. Perhaps a "replay" of that evening's monologue from Jay Leno or David Letterman would hit their responsive button. (Editor's note: *Be sure to secure the rights before you use it.*) Do they want an energetic presentation, or one that allows them to calm down? How many listen later in the day? If there are many, then recycling songs into overnight might prove a mistake. How about the advertising opportunities? All those 24-hour businesses and services need to attract customers.

It's no longer a world of just insomniacs, third-shift workers, wide-awake program directors, and donut shops! It's an extra five to six hours a day of opportunity for selling time and making P1 fans.

Terry Marshall's **DAILY INSIDER**

Prince

EX-PRINCE: The artist Formerly Known As Prince joined Carlos Santana in concert at the Sunrise Theater in Ft. Lauderdale, Florida. The ex-Prince has been opening his own shows with a piece he calls "The Santana Medley," consisting of "Jungle Strut," "Toussaint L'Overture," and "Soul Sacrifice." An hour into Santana's show, they performed it together. After the show the former Prince invited the guitarist (still known as Santana) to his Glam Slam birthday party in Miami's South Beach. However, Carlos was not able to attend due to his touring commitments.

MEGADETH: Megadeth, Flotsam And Jetsam, KoRn and Fear kick off the *Reckoning Day* North American tour July 12 in Providence, Rhode Island. Twenty cities are confirmed before August 4 - and more are being added.

U2: Wal-Mart apparently has no objections to U2 or Batman. A special limited edition CD of "Hold Me, Thrill Me, Kiss Me, Kill Me" with the CD Comics' *Batman Forever* movie adaptation was shipped to Wal-Mart's exclusively.

BETTE MIDLER: Maria McKee's "To Deserve You," the song Bette Midler performed at the VH1 Honors, is from her new album, *Bette Of Roses* (being released July 18). It's her first non-soundtrack studio album since 1990's *Some People's Lives*. Arif Mardin (once Again) produced.

HOOTIE AND THE BLOWFISH: Hootie And The Blowfish make an encore appearance on *The Tonight Show* July 21.

ROBIN S.: Robin S., who hit the Top 5 with *Show Me Love*, took a break from recording her sophomore album on May 20 to marry her longtime boyfriend/manager, Lloyd Harrell. The ceremony was held at the historic Riverside Church in New York.

THE POLICE: *The Police Live!* double CD just out contains 15 tracks recorded at a Boston concert in 1979 and at an Atlanta show four years later on their final tour, 1983's *Synchronicity* tour. This is their first live album. A 90-minute home video, *Outlandos To Synchronicities*, was released May 30.

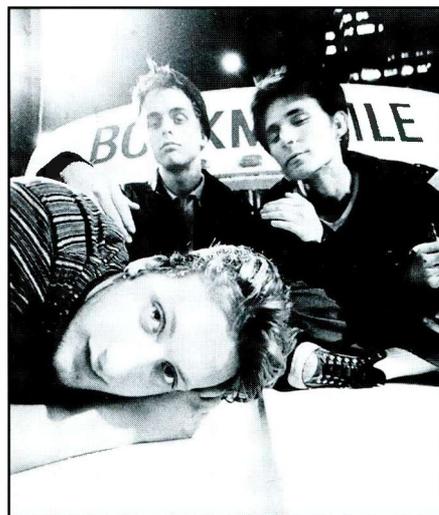

RICKIE LEE JONES: Rickie Lee Jones has left Geffen Records after six years, and will be releasing a live acoustic album this summer on Reprise. The album was recorded late last year at various venues, and it spans her entire career.

HAYNES, DEPP MAKE RECORDING DEBUT IN P IN AUGUST: P, the band formed by vocalist Gibby Haynes and bassist/actor Johnny Depp (when they met making the movie *What's Eating Gilbert Grape?*) will release their debut album in August on Capitol Records. P's debut features a mixture of songs from several genres: Country, Space Aged Reggae, Electric Blues, and a cover of Abba's "Dancing Queen." It was produced by Ween's Andrew Weiss. At the moment, P has no plans to tour. However, the band does hope to play a few gigs. They will shoot a video once a single is chosen. Joining Haynes and Depp in P are guitarist Bill Carter and drummer Sal Jenco.

TR-i CD+ DELAYED: TR-i, the artist formerly known as Todd Rundgren, now hopes to have his CD Plus, CD +, or Enhanced CD — whatever title is chosen for the latest format — in stores no later than the first week of August. TR-i hoped to launch *The Individualist* with an online expo, but a specifications agreement wasn't reached until recently between the Recording Industry Association of America and software suppliers. The agreement means generic data specifications will be used across-the-board in developing enhanced CD titles. Online, TR-i said that he will use the

delay to improve the content of *The Individualist* and add features. Meanwhile, he's made the entire audio portion of the new album available online from Compuserve.

DIANA ROSS'S RUSSIAN DEBUT: Diana Ross made her first appearance in Russia when she performed at the Kremlin Palace in Moscow. She was backed in a two-hour concert by an 18-piece band that included many of her best known hits as well as highlights from her forthcoming album (her 38th solo album after 26 albums with The Supremes). The new album, expected in stores this fall, features songwriting and production by The Babyface Camp, Narada Michael Walden, Nick Martinelli, and Brenda Russell. It's her first new studio album in almost four years, and it will be accompanied by her first North American tour in over four years. Ross is currently on a tour of Europe, South America, Japan, and the Far East. She was so mobbed by the media in Jerusalem that she cut short her visit to a historical site. She was in Israel with her ex-husband Robert Silberman and their 22-year-old daughter Tracy to perform at the opening of the Hapoel Games and help her daughter explore her Jewish roots.

Green Day

GREEN DAY: Green Day has written a new song, "J.A.R.," for a film about a misfit teen, *Angus*. The soundtrack will be out in August, and the movie opens in September.

T.V.O.D. — U.K. PRICE FOR BEATLES DOCUMENTARY ABOVE NORMAL: The six-part documentary on the Beatles, which ABC is airing in the U.S. in November, has

MUSIC NEWS

set a new record in British TV history. The \$8 million paid for the TV rights by England's leading commercial network, ITV, is the most money ever paid by a British station for a documentary series. It went for about five times the normal price of a documentary. Bidding on the Apple Productions series was so fierce among the three leading telecasters, according to *Variety*, that the previous owner of Northern Songs, Lord Lew Grade, was asked by his nephew (a Channel 4 executive) to use his influence with Paul McCartney to try to get the series. However, the station could only afford to bid \$7.2 million. ITV plans to air the documentary on Saturday nights this fall.

Hole

HOLE: Courtney Love was sufficiently recovered from her latest drug overdose to perform a scheduled concert in Los Angeles. She'll take a break until the *Lollapalooza* tour starts early next month. Love's management said that she was suffering an adverse reaction to prescription drugs - when she was found unconscious at her home in Seattle.

SYMPHONY TO BACK ELTON, BOLTON, KENNY G. IN FOSTER SHOW: All-4-One producer, David Foster, didn't reveal many details of what he has planned for Elton John, Michael Bolton, Kenny G., and Oleta Adams during a press conference announcing his Grand Slam For Children benefit. The September 30 show at the MGM Grand Garden in Las Vegas will aid the Andre Agassi Foundation - which plans to use the money for at-risk youth in southern Nevada. Foster said that there will be a single theme winding its way through the concert, and that the performers will be backed by a full symphony orchestra. The tennis star asked Foster to produce the

show after the two met at an Elton John/Michael Bolton concert. Tickets are priced at \$25 to \$125.

RADIOHEAD TO JOIN R.E.M. TOUR: Following the July leg of their current headlining North American club tour, Radiohead will open for R.E.M. starting with several dates in Europe before returning to the U.S. The band begins the second leg of their North American club tour on July 9 in Vancouver, following a tour of Japan. European dates with R.E.M. start with a show at the National Bowl at Milton Keynes on July 30. U.S. shows begin on September 8 in Miami and continue through Hartford, Connecticut on October 1.

Radiohead just made an encore appearance on *Late Night With Conan O'Brien*, nearly two years after they became the first musical act to appear on the show.

BROTHER CANE "FOOLS" FOR SOMETHING A LITTLE DIFFERENT: The obsession-themed "And Fools Shine On" is a result of Brother Cane's Damon Johnson and his writing partner, Marty Frederiksen, wanting to experiment. They were surprised and pleased when it was the unanimous choice of Virgin Records to be the first

release from the second Brother Cane album, *Seeds*. Their debut sold 200,000 copies - and landed them tours with Robert Plant, Aerosmith, and Slash's Snakepit. Most bands wouldn't be in the experimental mode after that, playing it safe by keeping the sound similar. Johnson thinks that *Seeds* is "the logical follow-up to the first record - with a few surprises." "Our sound is basically more of a full-on guitar riff thing," says Johnson. "'Fools Shine On' isn't just the most different song on the record, but really different from anything that our band has ever done. The video is real dark, fairly thought-provoking and moody. It's really a mood track." Brother Cane's influences are bands such as

Deep Purple and Thin Lizzy. But based in Birmingham, Alabama, they did suffer some pigeonholing as Southern Rock on their album. They're hoping to prove that they have a broader sound than that on *Seeds*. "We're trying to carry on with the guitar riff at the forefront," Johnson explained, "but hopefully, put a fresh twist on it."

HARD WORK RESULTED IN VAST MOTOWN LEGACY: Talk about Michael Jackson history: The Jackson 5 box set Motown is releasing June 27 contains one disc of all previously unreleased material performed by the King of Pop - and that's just the tip of the iceberg. There are over 100 more. According to Motown's Candace Bond, whose job is to oversee the upgrading of the Motown archives for reissue, the Jackson 5 treasure trove is typical of the label's extensive - and historic - vaults. The Supremes have over 170 unreleased tracks, more than some artists record in an entire career. Asked if years from now we'll be hearing about a wealth of unreleased Boyz II Men material, Bond laughed and said, "No, I think they have laws against working that hard nowadays." She says that everyone wants to know why there is still so much unreleased music. "It was so competitive, they voted on tracks," she explained. "It wasn't unreleased because it wasn't good, it just didn't win! They were voted down and forgotten. We're finding there are still a lot of hits in there." Bond, who had just seen the "Scream" video, says that when you listen to Jackson's music as a child, "The clarity in his voice blows you over. It's like Ella Fitzgerald or k.d. lang," she said. "There's no doubt about it. He was born to be a star."

RUSTY SONG PRAISES VEGETARIAN LESBIAN k.d. lang: "Eat Meat You Dyke" has been spray painted on the sign welcoming visitors to k.d. lang's hometown in Canada. The Toronto band Rusty is now using it as the opening line of the song they wrote as a tribute to k.d. lang, which appears on their debut album, *Fluke*. The album came out in Canada June 16, but won't be released in the U.S. until July 11. "With all the negative stuff that goes on, she's still going to triumph," says Rusty's lead singer Ken MacNeil. "She took a lot of flak for being anti-meat and for her work with people for the ethical treatment of animals. She just said what she thought and she wasn't even that overtly boisterous about it. But then she won a Grammy in the same year. I think it's cool she said what she thought and still succeeded in life." Rusty has not yet heard from lang, who no doubt prefers the chorus, "She's doing fine, she's swell," to the opening line.

URGE OVERKILL: Urge Overkill is now calling their new album *Enter The Dragon*. It's expected out in mid-August.

NUGENT CONCERT ROCKS RETIREMENT RESIDENCE IN COLUMBUS: Ted Nugent says he'll leave the Polaris Amphitheater in Columbus, Ohio to artists like Yanni after officials attempted to shorten his set there. Nugent had his road crew secure the stage to prevent any intervention by venue staff. Nugent's shows range from 90 to 120 decibels, but the Amphitheater set a limit of 98 because of its proximity to a retirement community. Nugent called the location absurd, "like constructing new homes on the Love Canal. They're not fit to be lived in," he said. The feeling is mutual. Amphitheater officials issued a press release

after Nugent's show which said, "We must apologize for our lack of judgment in allowing Mr. Nugent to perform this evening."

TRADE GROUP REPORTS SURGE IN ROCK RECORD SALES: The success of Green Day, Offspring, Pearl Jam and Nirvana contributed to a 5% increase in the sales of Rock albums last year, according to the Recording Industry Association of America. While Rock increased its share of the market to 35.1% of sales, Country, its closest competitor, slipped 2 1/2 points from its 1993 peak of 18.7%. The Pop, Urban Contemporary and Rap fields also showed sales slippage from one to two points. The biggest record buying group remains 15 to 19-year-olds who account for 16.8% of all sales. The biggest increase in record buyers was 50 to 54-year-olds, but they still only account for 4.2% of the market.

REMBRANDTS CATCHING UP WITH FRIENDS SUCCESS: "I'll Be There For You" has been a classic case of playing catch up ever since the Rembrandts were contacted about recording the theme for the TV show *Friends*. That's one reason why, except for a sticker, it appears as a "hidden" 15th track on the Rembrandts' third album, *L.P.* Things are on track now though, according to Danny Wilde. The band's drummer, Pat Mastalado, is about to complete the first of his commitments to the King Crimson Reunion Tour and will have more than a two month break beginning July 2. They'll rehearse, do a few warm-up gigs and start a tour at the First Avenue Club in Phil Solem's hometown of Minneapolis on July 14. *Friends* producers contacted them less than a week before the first episode of the series aired. Solem flew out to L.A. two days later on a Friday, they recorded Saturday night, and the show made its debut less than 72 hours later. "The amps were still warm," jokes Wilde. When radio stations recorded the theme off TV and looped the 48-seconds into a song, it triggered an immediate demand. "We never expected it to fly so high so fast," admits Wilde, now coping with being an overnight sensation after a 20-year career. "When television and the music industry get together it's pretty scary. I'm enjoying it though."

**ROCK
REPORT**

It never gets boring in **Rolling Stone's** land as word reaches the *Rock Report* that the band's rumored "acoustic" album

comes closer to completion. Along with sessions in Japan with producer **Don Was**, the band has recorded tracks at the Chateau D'Herouville in Paris, France. Tentative cuts slated for the record include "Angie," "Beast Of Burden," "No Expectations," "Sweet Virginia," "Dead Flowers," "Slipping Away," "Memory Motel," "The Last Time," "Satisfaction," "Let's Spend The Night Together," "Love In Vain," "Wild Horses," "Let It Bleed," "The Spider And The Fly," "Honest I Do," and "Parachute Woman."

While **Dire Straits** take a long respite from touring and recording, fans of the supergroup can revel in one of the band's earliest live recordings taped in Britain. *Live At The BBC*, a UK only release, brings together a wealth of the group's earliest gems like "Six Blade Knight," "Sultans Of Swing," "Wild West End," "What's The Matter Baby?," "Water Of Love," "Down To The Waterline," and "Lions." Later material like "Lady Writer" and a 12-minute rendition of "Tunnel Of Love" augment the collection. Look for the record in the fall.

New from the **BMX Bandits** next week is the single "Gettin' Dirty." It's the title song of the **Belshill**, Lanarkshire group's forthcoming fourth album and the CD single includes "Tiny Fingers" plus **Goffin** and **Kingo's** "Can't Stay Mad At You" and a play on a famous **Burt Bacharach** song with "This Guy's Not In Love With You."

Celtic Heartbeat, the new label formed to bring traditional Irish music to a wider audience, released its first album last week, **Bill Whelan's** "Riverdance." The producer and composer's album of his musical stage show includes the hugely successful title track. The label was formed by **U2's** manager **Paul McGuinness** with his counterpart with **Clannad**, **David Kavanagh**, and music publisher **Barbara Galavan**. With distribution via Atlantic, **Celtic Heartbeat** will release six further albums in April.

Terence Trent D'Arby returns with the new single "Holding On To You" on March 27 with his fourth album *Vibrator* following April 17. It features contributions by ex-**Bros** member **Luke Goss**, **Branford Marsalis** and **Patrice Rushen**. The song featuring **Goss**, "Supermodel Sandwich," is also featured on the soundtrack of **Robert Altman's** *Pret-A-Porter*.

Reggae label Greensleeves is hoping to cash in on the recent chart success of **Ini Kamoze** and **Pato Banton** with a pair of classic CD re-issues. **Kamoze's** self-produced *Shocking Out* Lp was recorded in Jamaica in 1988 while **Banton's** *Never Give In* dates from 1987 and includes "Pato & Roger Come Again," another collaboration with **Ranking Roger** of **The Beat** and **General Public** (just as their new single "Bubbling Hot" is about to appear).

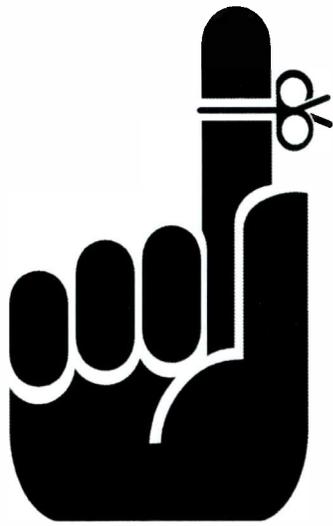

In addition to his work on his new single "Funtime" and album and autobiography *Take It Like A Man*, **Boy George** has co-writ-

ten "You Can Have It All," the new single from **Eve Gallagher**. Gallagher first emerged in 1990 as one of George's protegeses on his More Protein label which now has a licensing deal with Cleveland City, home of last year's UK #1 artist **Tony Di Bart**. "You Can Have It All" is out next week and Gallagher is recording an album for release this summer.

Edwyn Collins releases "If You Could Love Me" as the next single from his acclaimed *Gorgeous George* album this week. It follows his near-hit "A Girl Like You" and includes three new tracks recorded with ex-**Suede** guitarist **Bernard Butler**, of which one is a cover of the **Python Lee Jackson/Rod Stewart** hit "In A Broken Dream."

Celine Dion's seventh week at #1 with "Think Twice" should be her last, because although **Alex Party** stalled at two, **Freakpower** crashed in at three with the reissued "Turn On, Tune In, Tune Out". **The Comic Relief** single "Love Can Build A Bridge," by **Cher**, **Chrissie Hynde**, **Neneh Cherry** and **Eric Clapton**, entered at five, with Euro stars the **Othere Brothers** new at nine via "Don't Stop (Wiggle Wiggle)," **Janet Jackson** at 10 with "Whoops Now," **The Prodigy** at 15 with "Poison" and the **Human League** at 18 with "One Man In My Heart." **Terrorvision** entered in their customary area of the chart with "Some People Say" at 22, the **Cranberries** rose 12 to 23 with "I Can't Be With You," and #29 marked the first Top 40 appearance since their 1978 #1 "Dreadlock Holiday" for 10cc with a new version of their 1975 chart-topper "I'm Not In Love." **Green Day's** "Longview" arrived at 30, Italy's **49ers** returned with "Rockin' My Body" at 31, **Prince** with the "Purple Medley" at 33, and **BT** with "Embracing The Sunshine" at 34.

The #1 on the new album chart was a new entry for the second week in a row, as **Annie Lennox's** *Medusa* replaced **Bruce Springsteen's** *Greatest Hits*. Lennox's previous solo album *Diva* also entered at the top, almost exactly three years ago in April 1992. With **Celine Dion** staying at two, Springsteen's compilation fell to three as **Blur's** *Parklife* also held at four and the surprise hit *Pan Pipe Moods* by **Free The Spirit** jumped back two places to five. The most eye-catching performance of the week was by **Kirsty MacColl**, who in spite of never placing an album in the Top 10 before, went straight to number six with her compilation *Galore*. Also debuting strongly, and also on Virgin, were **Mike and the Mechanics**, with *Beggar On A Beach Of Gold* new at nine, a position only bettered by their 1988 album *The Living Years*, which reached #2.

Street BEAT

ON THE BEAT

THE STREET FALLS IN LOVE WITH SELENA!... EMI told us they would deliver a new Selena track that would match the success that Crossover was and is still having with "Missing My Baby"... **THEY DID!** Selena "I Could Fall In Love" (EMI Latin/EMI) is a total homerun! The potential of Selena as a multi-format artist is unbelievable. A song like this makes her death even more tragic. Programmers are screaming phones, phones, phones! It is FMQB's "Street Beat's Best Vibe Of The Week". EMI still has some new tracks that will be released on an album. Some heavy hitters fallin in love: KGGI's **Sonia Jimenez**; KPRR's **Candyman**; WILD107's **Michael Martin**; KZFM's **Charlie Maxx**; KHFI's **Fernando Ventura**; and POWER 96's **Frank Walsh**.

Shaggy "BoomBastic" (Virgin) continues to grab support. Michael Plen is getting it done one by one. Q105; KPRR; and, POWER 99 new this week! Over 600 plays with heavy rotations at THE BOX (77x); WJMH (70x); WPGC (64x). Strong support at KMEL; KTFM and WILD 107... After 7 "Til You Do Me Right" (Virgin) is an awesome song. New at WHJX and KIKI!... Paula Abdul "Ain't Never Gonna Give You Up" (Virgin) is a smash and is my vote for the next single. This is the track that features Color Me Badd on backing vocals. Smooth with a groove!

First it was Montell Jordon then MoKenStef. Now Island has a major buzz at Crossover on Vybe! Yes Vybe is Vybin with "Warm Summer Daze" (Island). I Love this JAM! The Island team can not be stopped! "The Coolio Mix is coming kids! It will appear on FMQB's CD Aircheck "The Street Beat Sound" Volume 18 Hosted by: POWER 106's **Bruce St. James!** It's straight from the Street-The industry's Hottest Jams presented by the industry's Hottest programmers. Only from FMQB!

Tommy Boy's Mike Bcece is in the FLOW! Naughty By Nature "Feel Me Flow" (Tommy Boy) continues to grab quality reports! New Z90; KIKI; KZFM; WHHH; and POWER 96! If your missing this your missing a hit. This is the party record of Summer (so far)!

THE BUCKETHEADS IS THE BOMB!

Big Beat has delivered the BOMB! The Bucketheads "The Bomb (These Sounds...)" (Henry Street/Big Beat). Mix show has built the foundation and radio is ready! New at

KGGI and Q105. WILD 107's Michael Martin spun it 67x! Hot on the phones this past week. People are in to this cut. It's time to step up and step out!

Columbia's **Jerry Blair** and **Charlie Walk** "Feels So Good" with Xscape heating up many airwaves! New at: KS104 and KTFM. Working at THE BOX; 92Q; WHJX; HOT97; and many more.. Buckshot Le Fonque "Some Cow Funk" (Columbia) is hipper than you think. Major TV exposure! Give it a spike or two. This could be something!... HUGE buzz on C&C Music Factory's "Boriqua Anthem" (Columbia). Call **Bruce Reiner** or **John Strazza** now! The POWER 106 remix is the one! Sales are starting to kick in big!

What's the early verdict on the Michael Jackson "HISTORY-Past, Present and Future" Book 1 double CD! Overall the jury is still out. The buzz and hype continue. WPGC's **Albie Dee** says "Scream" debuted #1 SoundScan in the market. Top 5 in most markets. Programmers are listening to this project more than once. That is a great sign. JEFF NELSON, M.D., Z90, San Diego

Give us a brief Jeff Nelson history.

I was born in Honolulu, Hawaii, and was raised in San Diego. I've lived here for the past 32 years. I was obsessed with being a DJ. So I went to the Columbia School of Broadcast, which is out of business now. It just sparked a desire to be in radio. After that, I became a mobil DJ and club DJ. I did that for another ten years. Then I finally got an opportunity to work in radio with Z90. From there I came in as a mix DJ. I also got an opportunity in promotions. I was carrying helium tanks, and setting up remotes. One thing led to another, and I got an opportunity for an overnight position, which led to Music Director. Now I'm Music Director and Night DJ.

Describe the typical Z90 listener.

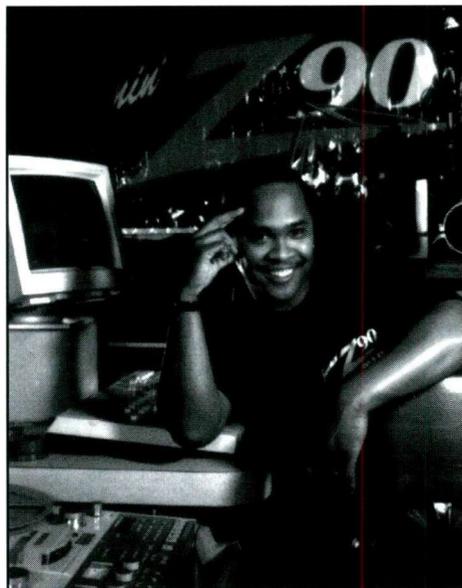

The typical Z90 listener, bottom line, is a club-head. Just a total party animal! They usually are dance fanatics, very trendy, and are always looking for something different, something out of the ordinary, and safe to have fun with. They are between 18 to 34, and you'll find them anywhere from Hip Hop and House underground parties to the Yuppies of the upper echelon hotels.

Take us inside the typical Z90 music meeting.

In a music meeting I'll get with my Music Coordinator, **James Dee**, (he's also our mix DJ), and Lisa Vasquez, my Operations Manager. We'll stick with a stack of CDs, a bag of potato chips and soda. Then we'll start listening to them and then we'll check and see how sales are doing, and of course, requests, and the standard research. But afterwards we'll just look at each other and go, "What do you think?" And it's a combination of all that gut. Then we pick a song.

Tell us about the San Diego market?

It's been said that it's a testing ground for just about all new products. It's out of the ordinary! You might call them wine drinkers on beer money! They're always looking for the best deal and of course, trying to look the best for no money at all. They constantly want something for nothing. I love this city! But, we're all very selfish out here. That causes me to give them great radio, because it is for free. And because it is free - they soak it up. They'll expect a lot! We do our best to fill that void.

How often are you in the streets getting the vibe?

In addition to my regular Music Director chores, and being on-air from 6-10 at night. I also DJ at a club three nights a week, so that I can constantly keep a vibe. I'm deathly afraid of programming from behind a desk because you become more or less a "dictator" as opposed to a "caretaker" of the music.

If you had to pick three songs that sound awesome back to back on Z90, what would they be?

Real McCoy "Another Night", "Let It Whip" by the Dazz Band, and Dr. Dre "Keep Their Heads Ringing."

What promotions are Z90 currently running?

We just had a huge promotion. It was our fifth anniversary party, which turned out to be a real smash. We really focused a lot of our energies on concerts and making them as inexpensive as possible, so that our core can see the artists whom they love the most. In addition to that, we get involved with a lot with the local community, doing everything from the Delmar Fair to doing a big huge beach clean-up. We try to get ourselves involved in a large scale like that.

You talked about Lisa Vee (Z90 OM). How has she influenced you?

Lisa's a big influence. She's the one who appointed me as Music Director when she was given the job of Operations Manager. She's a master at people management. She can see a problem before it occurs so that we can plan for it. She has that female touch that makes a big difference when it comes to a male dominated industry. She really softens my outlook on music, so I can go ahead and say, "Hey this is a sweet song." It helps a lot because sometimes all I want to do is put grit in the craw and go for it on the music to make it hard core.

What has been your biggest achievement to date?

Our biggest achievement today would be taking the station number one 18-34 with an 8.5 in an extremely conservative market where the number one stations are Country and Easy Listening. That's been a great achievement for us. We're #1 with an 8.5 and it's real exciting.

What's next on Jeff Nelson's hit list?

The next thing on our hit list is to achieve number 1 age 12+, which is I'm sure is everybody's challenge. In addition to that, I would say the biggest goal is to try and create a program to clean up the streets and stop the violence with a program that actually works and not just sparks. A real good program that kids and other people are challenged by socio-economic conditions can look to Z90 for help and get help. That's the main goal. Personally, I hope to become a Program Director. I would really like the opportunity to become the Program Director of a radio station.
