Note from the Editor

Because of the Thanksgiving holiday, The Gavin Report for that week will be printed and mailed on Wednesday, November 22. Correspondents who phone in their reports are urged to call as early as possible on Tuesday (21st). (Early forenoon calls are much less apt to encounter busy signals on our lines.) No phone reports can be accepted on Wednesday.

Headliners

Smash of the Week: YOU DON'T BRING ME FLOWERS-Barbra & Neil (Columbia)
Only three times in recent memory has a record been listed twice as the smash; this one achieved it on successive weeks.

Hot: TOO MUCH HEAVEN-Bee Gees (RSO)
Their immediate acceptance is comparable to the Beatles'.

Top Tip: PART-TIME LOVE-Elton John (MCA)
So far the indications for continued growth are all positive.

Record to Watch: CUZ IT'S YOU GIRL-James Walsh Gypsy Band (RCA)
A regional break-cut in the upper midwest. KKXL (13), KKOA (17), KWWL (19), KEIN (21), KBEQ (22), KIOA (23), KKRC (26), KJCK/FM (27), KLEE (28), KSLQ (29), Krib (30) and WISM (30).

Sleeper of the Week: SHAKE IT-Ian Matthews (Mushroom)

Top Prospect: SEPTEMBER-Earth, Wind & Fire (Columbia)
Charting out of the box.

Top New Airplay: The Earth, Wind & Fire was the most added record; however, Nicolette Larson and the Pointer Sisters were strong seconds.
Recommended Playlist:
(Underlined sides show the strongest potential for continued growth.)

*No Calls Please
This week I'd like to touch on something that comes under the heading of things I wish somebody had told me when I was trying to get started in this business.

**THE AUDITION TAPE.**

Though it is certainly not impossible to get started at a large station if you've got the talent, most beginners make their first money at a small station - which can't afford to fly in an applicant for an interview. Consequently the program director will often make his or her decision on an applicant entirely on the basis of the resume (which should be brief and not contain irrelevant material) and on the audition tape. So the tape has to be right!

Beginners frequently have to submit a tape made in a production room, lacking any actual on-air aircheck. This is perfectly acceptable, as long as you don't try to pass it off as an aircheck when it's not. Make sure that the tape is consecutive; that is, edit out the body of records to telescope the tape, but don't go into one record and out of another in consecutive breaks on the tape, or the PD will wonder what you said or did that was so bad that you're willing to risk having non-consecutive breaks to cut it out. (Maybe it was a two-record segue, and you said nothing; if so, I recommend that you leave in the few seconds around the segue simply to show that; the PD has no way of knowing if you said anything there or not.)

The tape should never be longer than 5 minutes playing time (preferably less) unless a longer aircheck is specifically requested. Moreover, the short aircheck should not be on a long reel....if it looks like a long tape, the PD may never even start to listen to it, to discover how short it is. Some applicants will put "playing time" on the reel, but it's better to make the point with just a small amount of tape on the reel. This also helps you save money, because all you need to do is buy one 1200' reel of tape to make six or more airchecks....dub it over and over on the tape, then wind each piece of tape off onto a separate small empty reel (they're cheap and readily available).

If you're applying primarily for DJ work, don't start the tape with a newscast!! Put a little news at the end of the tape perhaps, but start with DJ work. Start your telescoped aircheck with the first decent break you do. Beginners tend to start the aircheck with their first break, which is usually the worst one on the tape, since they haven't overcome the nervousness of starting yet!

Most importantly, your professional attitude should show in the tape. Many broadcasters making an aircheck have a tendency to try to make the tape a showcase of everything they do (one joke, one great adlib, one clever spot, etc.) - and make it worse by trying consciously to do better work than their average, which makes the result, at best, uneven. A tape like that tells the PD loud and clear that you not only are a beginner, but that you lack confidence in your ability showing through without a special effort, or even in the overall average quality of your work.

A program director wants to hear your average work - how you'd sound on his or her station if the PD just happened to listen in without your knowledge. The PD is listening for consistency and the way you present yourself to your audience. A program director doesn't even mind a mistake or two in the tape, if you don't let it throw you, since it shows you have poise...and it helps convince him or her that you didn't spend months on the tape getting it right! Consistency is far more important than brilliance, and don't worry - if you are a talented communicator, the PD will be able to tell. (Of course, each PD looks for something a bit different in a tape...one PD might be impressed with a tape another is bored by, so don't get discouraged if your first efforts are ignored. Keep trying. Often the best way to get a job, for a beginner, is just to load a lot of tapes and resumes in a car, get a map and a list of radio stations.

Albums of the Week
Reviewed by Ron Fell

"Jazz"-Queen (Elektra) The band is back together with producer Roy Thomas Baker after a three year trial separation. The result is the same, with or without him: a truckload of decadent, strutful rock and roll, lavishly produced and arranged. Queen fans expect nothing less than a full harvest from their heroes and they get it once again with this, their seventh major production in the past five years. FAT BOTTOMED GIRLS, DEAD ON TIME, LEAVING HIM, AIN'T EASY, IF YOU CAN'T BEAT THEM.

"Robert Johnson"-Robert Johnson (Infinity) An impressive debut album for both the record company and the seasoned, journeyman guitarist. To crack Rock Radio's resistance to "unknown artists" they must be both different and accessible at the same time. Johnson's incredible guitar playing certainly makes him different and his songs are simple enough in structure to insure accessibility. I'LL BE WAITING, WISH UPON A STAR, GUIDE MY ENERGY, RESPONSIBILITY, KERRI, TELL ME ABOUT IT "SLIM".

Recommended from the following LP's:

"Back To The Bars"-Todd Rundgren (Bearsville) LOVE OF THE COMMUN MAN/LOVE IN ACTION/MEDLEY/I SAW THE LIGHT/IT WOULDN'T HAVE MADE ANY DIFFERENCE/HELLO IT'S ME

"Jerry Jeff"-Jerry Jeff Walker (Elektra) EASTERN AVENUE RIVER RAILWAY BLUES/LONE WOLF/HER GOOD LOVIN' GRACE

"Sanctuary"-The J.Geils Band (EMI) ONE LAST KISS/TAKE IT BACK/WILD MAN

"Crazy Moon"-Crazy Horse (RCA) SHE'S HOT/GOING DOWN AGAIN/LOVE DON'T COME EASY

"Don't Cry Out Loud"-Melissa Manchester (Arista) SHINE LIKE YOU SHOULD/CARAVAN/DON'T CRY OUT LOUD/THROUGH THE EYES OF GRACE

"The Neville Brothers"-The Neville Brothers (Capitol) DANCIN' JONES/AUDIENCE FOR MY PAIN/IF IT TAKES ALL NIGHT

"Totally Hot"-Olivia Newton-John (MCA) DANCIN' 'ROUND AND 'ROUND/DEEPER THAN THE NIGHT/A LITTLE MORE LOVE

"American Dreams"-Jesse Colin Young (Elektra) RAVE ON/KNOCK ON WOOD/CAN WE CARRY ON THE DREAM

"Instant Replay"-Dan Hartman (Blue Sky) INSTANT REPLAY/DJ profession is-OWN/DOUBLE-O-LOVE

"Change of Heart"-Wayne Newton (20th Century) HOUSEWIFE/LEARNING THE GAME

Cheryl Greene, Wife of KIMN M.D. Ed, gave birth to a baby girl - Alison Leigh - the only addition Ed reported to us this week.
NEW RELEASES

NOVEMBER 17, 1978

Gary Taylor’s Personal Picks

LOTTA LOVE-Nicolette Larson (Warner Bros.) This vivacious charmer combines a fine voice with one of Neil Young's finer songs in a kick-drum production that is already being heard at A-C, Rock and Album Radio. I think it's going to be a big record.

IT FEELS GOOD-Starbuck (U.A.) While avoiding comparisons is often difficult, comparing one outstanding record to another is sometimes necessary to point out quality. There is enough of the Little River Band approach here to capture a lot of airplay.

Other Recommended New Releases

HOME AND DRY-Gerry Rafferty (U.A.)
BABY I'M BURNIN'-Dolly Parton (RCA)
A LITTLE LOVIN'-The Raes (A&M)

Editor's Note

On December 2, 1978, the nation's radio and record industry will pay tribute to Bill Gavin, founder and publisher of The Gavin Report, at a testimonial banquet at San Francisco's Fairmont Hotel.

Bill and his late wife, Janet, started The Gavin Report in 1958 after Bill had spent many years of service in radio, including NBC Radio in San Francisco. It was during the 1950's that Bill programmed one of the West Coast's most popular programs, Lucky Lager Dance Time. The Gavin Report started as an outgrowth of the research Bill was doing for that program.

Proceeds from the testimonial will benefit the Janet Breed Gavin Fellowship Fund of The American Association of University Women. This fund was established by Mrs. Gavin prior to her death. The fund provides tuition and support for deserving students around the country.

This event is Black Tie.
Cocktails at 7PM.
Dinner at 8PM.
$125 per person.
