THE CONTINUING ODYSSEY OF DANNY T. HOLIDAY

by Tony Richland

Well, Mr. Sophisticate, you're STILL in L.A. for the really big convention. You're Danny T. Holiday, of KGOY in Foonman, Ohio, and after three days in ex-Olympia, you're more than three days older and wiser. Your apple's been polished...your ego's been built...you're knowing no pain and you're feeling no guilt. You've been wined and dined...you feel kinda refined and what's more, you've decided that Rick Dees is no funnier than your morning man.

You've lingered over highballs with the Zimmerman Brothers of the Gavin Report, and after admiring their tuxedoed grace and electric eloquence have determined that you can tell which is Keith and which is Kent. You think you spot them at the call-out panel, confidently call out..."Hi Keith"...and get sluged by one of the Statler Brothers. Minor setback.

You and Jim Q. Diamond from Hairball, Iowa hop into your rented Nissan...formerly Datsun...and head for Beverly Hills for some high-powered stargazing. You note Rodeo Drive, and with your roots in C&W, head for it pronto, thinking you may bump into Mickey Gilley. People around you are calling it Ro-DAY-oh, which you chalk up to West Coast ignorance. Jim and you decide to pick up a couple pairs of jeans and stroll into a place called Gucci. The 501's are marked down to $500. a pair. You pass.

You stop at a homey looking cafe with an open grill, and after being seated at a table adjacent to the men's room, ask the waiter for suggestions. After assuring you that he's not really a waiter but rather a young film-maker, he mentions the chef's 'masterful goat-cheese quiche dressed with an elusive and unpedestrian crayfish mousse, then topped with a richly textured terrine of baby pigeon breast!' You wonder where Ahmet is when you need him most...but you tough it out and order the concoction. It tastes not unlike the underseal of a Volkswagon, and when the young film-maker asks if everything is alright you look him in the nose job and murmur, "Flawed and uneven...sorry."

Time to head back to the convention floor where the Ratings and Research Symposium is about to commence. Back in Foonman, your research consists of calling all your stores each week to determine what's sold more than two copies. Usually, it's "Thriller". Most other product sells two or less and all of THEM are listed on your chart from 2 to 40, in no particular order. Extras are whatever trickles in from Tetragrammaton and Blue Thumb...along with anyone else with a Punk Gospel mailing list. A motivational research psychologist is addressing the dozing crowd, all of whom are killing time 'til the Buzz Bennett meditation seminar. The guy is talking about records like they're computer chips. You can't figure out what Confrontational Electronic Cume Data and Maximized Output Management have to do with YOUR station. YOU add records when KIIS-FM does...and YOU hire jocks if a headset fits them. This is too high-falutin'. You head for the lobby. You run into Rodney McCartney from KDOG in Dogmeat, Ind. He's now a consultant, but doesn't have any clients yet. He tells you he left KDOG recently due to philosophical differences. You ask him what they were. He says he showed up drunk at three meetings with his consultant.

Kal Rudman ambles by...alone! This looks like a hot chance to meet someone heavy. You approach him and intro yourself. He suggests you read Vince Lombardi's autobiography. You think to yourself...big deal! You got the same career tip from Norberg's column only last week. You decide to clear out. You've had it...so you'll miss Al Jarreau's concert...so what. You know a Warners Thirdinary promo guy who can get you all his albums. Time to go back to Foonman. It's been a bit much.

To Be Continued!
Thanks to the diligence of our reporters, the short holiday week did not translate into a shortage of research information. After eight weeks on the Top 40 chart, John Waite not only gets a number one, but still racks up enough reports to land in the number two airplay spot, two reports behind The Cars. Still plenty of growth ahead for Huey, Cyndi and Prince. This was also the week Chicago exploded into the top ten for some, and the top twenty for many! A Hit Factor increase of 62% to 85% is an indication of how well this record is doing. Bananarama pulls off the first top ten entry in their career, with help from LA’s KRLA (4), KIIS/FM (5), San Luis Obispo’s KSly (6), Seattle’s KIIT (2), Atlanta’s Z-93 (9), and Minot’s KIZZ (23-9). WJZR/FM-Charlotte leads the way, taking Sheila E. number one - she’s also top five in Miami at both Y100 and I-95, in San Francisco at KMLE, New York at WKTU, WKKX-Birmingham, etc. As mentioned the early part of August, Madonna’s LUCKY STAR is unquestionably her biggest hit to date. Rarely has a third single off an album ever taken off this fast. Stevie Wonder’s earned his ten point chart jump, with huge gains inside the top twenty at a majority of the 206 stations reporting it. Another to check Hit Factor on, with growth from 18% to 44%. Strong debut for Elton John, who increases in airplay from 149 reports to 205. Not many holdouts left as we head into its third week of release. Donna Summer has been fighting that log jam down at the bottom of the Top 40, but surfaced this week at KUA-D Windsor 24-12, at KRPL-Moscow 28-23, G100-Mobile 27-22, KOZE-Lewiston 24-19, WFMF-Baton Rouge 25-19 and KGNR-Portland 28-21. The Bees already charting John Cafferty top ten - B97-New Orleans (9), and B-94-Pittsburgh (3), Lindsey Buckingham had been suffering the same log jam problem as Donna Summer, but also pulled ahead with key moves in Denver, Boston, Modesto/Stockton, Tucson, etc. Diana debuts convincingly with 34 adds, including KUBE/FM, CPTF, WHYY/FM, KYXO, KGSD/FM, KITS/FM, KAPM, etc. Another impressive week for Billy Ocean, adding 33 new believers to his side, now numbering 153 reports. Our “Record To Watch”, Prince’s PURPLE RAIN, though not a single yet, is the most potent track currently available to Top Forty programmers, therefore it earns the right to be in that category. Already charted #16 by Roy Williams at KJOY in Stockton, #17 for Neil McIntyre at WKTU-New York, plus #21 at KTAT and WBTT, #26 at B-96, #27 at KFMN and #28 at WMPZ and KKHR.

Dave Sholin
"Some of the songs making the rounds will be popular when Bach, Beethoven and Wagner are forgotten—but not before."

Louis Sobel, 1955
Hit Factor is a percentage of stations playing a record which also have it Top 20.

ie: 100 stations playing the record—60 stations have it in their Top 20—Hit Factor = 60%.

That's five number one A/C singles from one LP by one artist (Billy Joel). Never before...and not likely again from any artist. The Cars are next and are only likely to feel the heat from Neil Diamond and Stevie Wonder. The halting at 5,6,7,8 for Huey & Tina & John is probably only temporary. They're too strong to be denied. Ain't nothin' easy for James Ingram, but his latest, (recommended here on June 29th) is about to go top ten. Barry Gibb gets CERTIFIED and debuts at #24. The other CERTIFIED, Madonna is crossing from Black, Dance and Top 40 with a vengeance. The Rogers, Carnes & Ingram has the kind of early profile which likely will see it as an eventual member of the A/C POWER TRIO, but before that, a CERTIFIED.

DAYTIMERS
(Reprinted by permission of Eric Norberg, Consolidated Communications Consultants, 2130 Huntington Drive, Suite 209, So. Pasadena, CA 91030)

I note that the longtime Daytime Broadcasters Association has agreed to merge itself into the National Association of Broadcasters (NAB). Since the DBA has a considerable debt, and had accomplished the major recent project to attain "post-sunset authority" for daytimers, as well as a possible preference for existing daytimers over other applicants for new FM frequencies or a fulltime frequency in the same town (at least the FCC is seriously talking about allowing that), this probably makes sense. Most of the daytimers' disputes over hours and power center on the matter of the rights of the clear channel stations, and the NAB is in a position to mediate the disputes and come up with a mutually agreeable compromise.

However, it strikes me that many who want fulltime may not have thought of the disadvantages! I can attest from personal experience that there is a real bad feeling associated with turning off the station in the winter in the middle of afternoon drive-time—or even before many people get off work. As I had suggested in this column a number of years ago, "post-sunset authority" would ease that problem by permitting operation at least till 6 pm. The FCC has permitted that, and eventually will allow broadcasting up to two hours after sunset. They've even eased the power restrictions for at least part of the time after sunset, since the last time I wrote on the subject. It appears all Class III's, at least, will be allowed at least 100 watts post-sunset—though for many, not for the whole two hour post-sunset period. Quite an improvement over 2 and 5 and 10 watts!

So what are the disadvantages of fulltime? Daytimers are less expensive to operate as a rule; they can be fully staffed with fewer people, and they use less electricity. Daytimers are AM stations; at the moment the age group most inclined to be loyal to AM reportedly is 35+. People 35+ generally listen to the radio during the hours when it's on the air!

The rating services do not dock you in the ratings if you sign off at sunset. Instead, they "adjust" your ratings to your "actual broadcast schedule". All those zeros at night are subtracted, and the shares, etc., just reflect the station's average daily efficiency drop by factoring the nighttime in; and as a result it's not too uncommon to see a former daytimer drop in the 6 am—12 midnight ratings when becoming a fulltimer.

Of course, another reason for such a drop might be a lousy nighttime signal. A station with a good daytime signal adding a terrible nighttime signal tends to reduce its value as a property, and its reputation and billing as a result. I know of at least one daytime AM that wound up with such a terrible nighttime signal when it finally got fulltime that it went back to daytime again, for some years, till it could find a way to put out a better nighttime signal. Something to consider when planning a $100,000 tower array to be able to go "NIGHTTIME"!

PROMOTIONS
by Lisa Smith and Betty Hollars

STATION GETS MADD
WWSA/WCHY-SAVANNAH, GA, joined forces with the public about the effects of drinking and driving. To kick-off a six-month "Campaign To Save Lives", they held a drunk driving demonstration. Police officers monitored the blood alcohol levels of the participants and state troopers measured driver's accuracy and reaction time. As they drank and then drove a special course set up at a local mall. The station also plans to sponsor a contest in area schools for a public service announcement decrying drunk driving. The winners will have the spot produced and it will be distributed to all Georgia radio and television stations.

HUNGER STRIKE
KNBR-SAN FRANCISCO, CA, and the San Francisco Giants sponsored a rally on August 17 to "strike out hunger". KNBR personalities, the Giants players and their wives, Crazy Crab—the non-lovable un-mascot of the Giants, and the Giants Pep Band were on hand. Those attending the rally were asked to bring cans of nutritious, non-perishable food items to be distributed through the San Francisco Food Bank.

POUNDS OF PIZZA
WMX—FLORENCE, SC, in co-operation with Pizza Hut, sponsored the making of the largest pizza in the state of South Carolina. The pizza was 15 feet in diameter and weighed over 1,300 pounds. Slices were sold to the over 1,000 people in attendance, and $5,000 was raised for the Boys Club Of America.

SUMMER BREAKIN'
KIIZ-KILLEEN, TX, sponsored a break dancing competition on Saturday, August 11, at the Killeen mall. Break dancers from all over Central Texas came out to compete, and over 1,500 break dance fans weathered 90 degree temperatures to see the event. The Killeen Mall merchants donated the prizes, which included trophies, stereo, and gift certificates.

 FALL BALLS
KRPL-MOSCOW, ID is sponsoring a triple back-to-school dance at three different locations in the Moscow area. KRPL personalities will be handling the emcee duties, and the door prizes will include free beer (for people of age, of course), movie passes, and $600.00 worth of back-to-school clothing.

If any stations have photos of their current promotions and community service spots, please send us 8X10 black and white glossies to run with your promo. Thanks again for all your input! Once In A Lifetime/Burning Down The House (Girlfr)  

1. Better/River/Martime/Smash/Psycho Killer - Talking Heads  
2. Absolute state of the art, as both a movie and a live LP. Stop Making Sense was first screened at the San Francisco Film Festival in front of a dancing (!) sold out, frantic audience. Recorded digitally, the music is clear and crisp. Yet wait until you see the movie! It's the ultimate "concert"...no, strike that..."music" film, directed by Jonathan Demme (Swing Shift, Melvin and Howard). So if the movie's killer, what about the record? Put it this way. By playing the record (which is a superb, moderately re-arranged live option "best of") in conjunction with, say, sponsoring a screening of the movie, you'll be aligning yourself with the most distinguished rock & roll multimedia package ever.  

Heaven Knows/Tragedy/Fight To Win/Turn Your Heart Around - Keats (EMI)  

Looking up from his Top Forty research, Keith Z summed it up well..."sounds a lot like an English Toto". Fans of the old Zombies and selected Alan Parsons trax will recognize vocalist Colin Blunstone. From Them and CAMEL is Pete Bardens. Drummer Stuart Elliot is known for his work with Al Stewart and Steve Harley. Producer Alan Parsons provides a wide screen mix as the band careens between fusion-like stops and starts, with Blunstone supplying tasteful and supple frontline vocals. Keats' approach is combination song-oriented and instrumentally grand, with a cultured elegance that's commercial.  

Forest Fire/Perfect Skin - Lloyd Cole & Commotions  

(Polydor UK) Though still pretty much a buzz even inside his native England, Lloyd Cole has been cutting some great singles produced by Paul Hardiman. Of the the fame, "Perfect Skin", released a few months back is well and fine, but the brand new "Forest Fire" single is the serious destroyer. Low singing Lloyd's music isn't unlike Tom Petty or Dwight Twilley. It's snakey American sounding rock with sex appeal and a lean style. Walk on...  

Sunset Now - Heaven 17 (Arista - 12")  

Heaven 17 try their hands at East Coast "beach music" (not to be confused with West Coast "surf music"). Usually to the left of Human League, Heaven 17 now leap-frog to their right, sounding slicker than ever before. Don't let it go to your head/Burnin' Hot/Eat Your Heart Out - Xavion  

With the success of Prince, expect an onslaught of black performers interpreting hard rock. After all, the arena of current black music and metal/hard rock, in many ways, share the same elements of special effects, theatrics, and costuming. Xavion ventures far closer to the hard rock style than any other existing black artists (remember Mothers Finest?) mostly due to guitarist Kevan Wilkins' biting edge. Should be interesting watching Black Radio's reaction since there's nary a funk lick on the whole disc.  

Out Of Touch - Hall & Oates (RCA)  

Try and think of anyone on a hotter hit streak than Hall & Oates. I can't. Everything after "How Does It Feel To Be Back" has literally owned the contemporary airwaves, no matter how short or long, no matter what tempo. "Out Of Touch" certainly isn't.  

Into The Fire - Dokken  

(Elektra - 12") Dokken Don keeps rockin' on. I have a feeling that this guy's gonna be a star. Maybe it's because he confidently uses his last name as the band name like EDDIE VAN HALEN'S HIS NAME (who the lead player sure sounds a lot like).  

Nights In Cairo/What Matters - Design  

(Hib-Tone) Design play a complex and well recorded brand of percussive wave. A big independent seller in Atlanta, Design grapple early-on with some sophisticated rhythms programmed on a Linn. A band to watch, produced by Jonny Hibbert. 404-892-7274.

ANALYSIS

Album Radio is no exception. There's PURPLE RAIN all over THE GAVIN REPORT. If you've seen the movie (at least a couple of times), you'll have noticed the wide spread of different kinds of viewers (and listeners) going crazy. Dig if you will, PURPLE RAIN, after over eight weeks (when most flicks usually crumple up and die), still seems to be going "BOFFO". A thought while shavin: LOU REED and DAVID BOWIE are on the same chart for the first time since they worked together on TRANSFORMER, during the English Glitter era. As far as LOU's LP goes, I still feel the best has yet to be mined. Take "New Sensations", for instance. It has the calm coolness of "Walk On The Wild Side". Plus the lyrics are great, a love song to a motorcycle (something shavin: LOU REED and DAVID BOWIE are on the same chart for the first time since they worked together on TRANSFORMER, during the English Glitter era. ROME0 VOID finally dethrones the BANGLES in a close, split decision. The HOODOO GURU’S continue their movement up one notch to the third position, nudging PRINCE out. Last week’s GAVIN CERTIFIED, LOVE TRACTOR, debuts in the POWER TRIO with a solid jump of six and the record shows excellent potential for future movement. Most airplay on LOVE TRACTOR has come from non-commercial stations who support it whole heartedly. Look for LOVE TRACTOR to begin a national tour in about 2 weeks.

KING SUNNY ADE, another former GAVIN CERTIFIED, slides into the top ten with an impressive week. It’s great to see KING SUNNY receive the strong exposure he deserves, and the audience wants. This week’s GAVIN CERTIFIED, THE RED HOT CHILI PEPPERS, is just that - red hot. The RHCP improved their rank position by fifty-percent and are busting up the chart. The R.H.C.P.’s (not to be confused with R.C.M.P.) are almost certain to become members of the Alternative POWER TRIO soon.

SHREIKBACK continued to hold its ground and potential for future movement. Most airplay is red hot. The RHCP are almost certain to come once the full albums are released. Look for THE CHURCH to initially move quicker.

## Analysis

Along with Haggard and Conway, Alabama, the Gatlin's, and Willie brighten the airwaves and light up the phones. The Mandrell/Greenwood duet is a quality ballad and a strong request record. Without any fanfare, the Dan Seals record continues to climb the charts. Sounds good on Country radio as do the Schinder and Karen Brooks. Although "Stuck On You" was the Top Requested record last week and continues to get requests (especially from females), it seems to have peaked. Nevertheless, for a pop artist unfamiliar to many country listeners, going Top 20 on the Country chart reflects the sincerity and talent of Lionel Richie. Neither one of the Certified records for September 7 is a surprise. Janie Fricke's ten point jump has heart. Milsap's "Highway" is the highest debut, with Earl Thomas Conley tailgating. "Nobody Loves Me" by Anne Murray and Dave Loggins is gaining immediate affection. Gail Davies first release with RCA will push "It's You Alone" over to the collectors bin. Tom Jones, Kathy Mattea, and Tony Arata are not chalking up enough points to compete much longer. Programmers can look forward to the fall season with many good commercial records arriving. Enjoy!

DROPPED: #20 - Bros. Johnson, #22 - Bar-Kays, #27 - Jacksons (SHOCK), #29 - The Time (CASTLES) #30 - Shannon, Yarborough & Peoples - Patti Austin

The top contender for the number one spot is Prince's LET'S GO CRAZY, and its only close competition could be the Joyce Kennedy & Jeffrey Osborne ballad - which is a surprise because they're such opposites in tempo. If it has that uptempo beat (you can dance to it), it will usually be more successful than its opponent, but this duet might be an exception. Our "Pop Crossover" last week, Madonna, becomes our hottest debuting record this week. Following close behind is one of the "Most Added" singles last week, Chaka Khan's I FEEL FOR YOU. Our other "Most Added", New Edition's COOL IT NOW, is getting a 'warm' reception - warm enough to debut on our chart at #27 this week. Jumps to #23 at WANN-Tallahassee, from 34 to 20 at KNOW-Austin, debuts at #25 at KIIZ/AM-Killeen, and moves into medium rotation at both KNOX and KKDA in Dallas. Adds include WHUR-Washington, WDXX-Rochester, KROF-Lafayette, WDMT-Cleveland, WTLF-Indianapolis, WGCI/FM-Chicago, WDQ-Detroit, KHYS-Pt. Arthur, KMJQ-Houston and on at WRKS-New York, WKTU-New York and WQXI-St. Matthews. As predicted last week, Rebbie Jackson becomes the 4th Jackson family entry on the Top 30. She debuts at #28, but don't expect her to stay in the 20's for long. She'll be giving Jermaine (#8), Janet (#18), and her brothers Jackson (#19) a run for the top ten very soon. A surprise in the debut department is the Ralph MacDonald and Bill Withers duet. Not that strong last week, they've gained enough momentum this week to the point where they're charting at #28. The "Nutbush City Limits" phenomenon, Tina Turner, comes right back at us with another powerful release this week, BETTER BE GOOD TO ME. She's on a roll & rocks the socks off the competition these days - rewriting the rock handbooks of our industry. Watch her give all the Jacksons and Princes a challenge for the top ten when the times comes.

OUT OF TOUCH—Hall & Oates (RCA) These two continue to amaze and dazzle everyone. They've been able to retain a consistent, highly identifiable sound without falling into an unimaginable formula trap. Daryl Hall's dynamic vocal range is accentuated by some hot high notes and an extra added quiver in his voice. Ain't it sweet when you've got the magic touch?

USE IT OR LOSE IT—Michael Furlong (Atlantic) Several newcomers have shown up here over the last few weeks with surprisingly powerful releases. "Melodic Metal" has had a good run on most Top 40 playlists this year, which helps open the door for artists in this mode. Title alone is an air personalities dream, insuring instant audience recall.

LEFT IN THE DARK—Barbra Streisand (Columbia) Her strongest Top 40 effort since "Woman In Love". Steinman's dramatic writing style is a perfect compliment to Streisand's classic delivery. Beyond all else, the story line will sell this side. I'd imagine more to women than men, but you never know. Wouldn't Richard Gere be a natural for the male lead in a video?

ALBUMS OF THE WEEK

"What About Me"—Kenny Rogers (RCA) David Foster's production is the big difference here. While the Barry Gibb heaved-up on layers of vocals and synths, Foster looks for the emotional peaks and valleys created by acoustic pianos, gosamer strings, and throaty vocals from Kenny. Obviously the Gibb formula worked and everyone involved with "Eyes That See In The Dark" should take a bow. But "What About Me?" answers its own question, as the singer is now less restrained by production. The first single, WHAT ABOUT ME?, is roarin' in two formats already. SOMEBODY TOOK ME might even be bigger in its probable role as "another single". And a Dolly Parton—penning, THE STRANGER, sounds like a number one record in at least the Country format.

"Stop Making Sense"—Talking Heads (Sire/WB) One of the five best live albums ever released. And if you notice Kent Zimmerman's review on page 19, you'll note that Kent awards it the distinction of being his ultimate concert film. While some re-recording was done, its basis was from shows performed last December at The Pantages Theatre in Hollywood. The recording quality, as reproduced herewith, is spectacularly natural. Miking is intimate/personal and we're spared the "hall" sound of loud notes looking for a place to hide while bumping into each other. David Byrne's voice is appropriately vulnerable and gives new texture to even the most over-played T.Heads songs. This, boys and girls, is why somebody invented sound on film. RON'S PLACE

More rock world celebrities will be in one place at one time than at anytime since WOODSTOCK when M T V'S ROCK VIDEO AWARDS show airs live from RADIO CITY MUSIC HALL in N.Y.C. next FRIDAY evening. Hosts BETTE MIDLER & DAN ACKROYD will introduce performers; MADONNA, TINA TURNER, ZZTOP, ROD STEWART & HUEY LEWIS and THE NEWS. Presenters will include; HALL & OATES, RIC OCASEK, PETER WOLF, ROGER DALTREY, JOHN COUGAR MELLANCAMP, RON WOOD, POLICE and EDDIE MURPHY.

One celebrity who won't be there is KFRC'S DR. DON ROSE. A few years back, a severe leg injury forced the Dr. to host his AM drive show from bed at home for many months while wearing an extremely uncomfortable body cast. Well, TUESDAY morning of this week he re-injured the leg while getting into his car after his show and he may have to relive some or all of the previous inconvenience. THE GAVIN REPORT wishes DR. DON the speediest recovery.

General Manager GARY TAYLOR reports the sale of his KREM-FM SPOKANE, WASHINGTON station to HIGHSMITH BROADCASTING. A call letter change has also taken place with the new calls being KZUZ-FM (93-ZOOFM). The sale of the former KING BROADCASTING station did not bring with it any change of personnel.

SAM HARRIS

Winner of "Star Search"
The long-awaited single
Sugar Don't Bite
From his new album, SAM HARRIS.

A PROVEN WINNER!
The group was Vanity 6. The album was gold.

A year later, Vanity chose Motown as home for her very first solo album, wild animal. And it's a killer. She sings. She writes. And in 1985 you'll see Vanity starring in the Tri-Star feature, The Last Dragon.

But for now, just look at this picture. And listen to wild animal, too.
