## INSIDE TOP 40 WITH DAVE SHOLIN

Programmers are always dependent upon the availability of records that enhance their station. When Top 40 radio performs poorly around the country, one of the factors always mentioned is the lack of hot product during the rating period. That is not the case at the moment however as lots of folks are happy with the variety and quality of music for the Fall book in progress. Three new entries in the Top Ten all showing significant Hit Factor increases...**BOSTON** exploding 34% to 72%...and **EDDIE MONEY** climbing 58% to 75%.

Top Ten entry number three is **HUMAN LEAGUE** with their first big hit since 1982's "Don't You Want Me". Roger Christian moves it 23-8 at WBEN /FM Buffalo also big jumps for Z100 25-17, WTIC 15-8, 94Q 22-7, WWPZ 27-15, WABB 27-15, KROC14-8, KYYY 22-12, KZZP 17-8, KITS 21-7, KKBG 22-12, KDUX 14-7, KUBE 18-9 etc. By the time **RIC OCASEK** hits the cover of the Gavin (next week) he should be Top 15. Already there at 0K95, KBLQ, KIXS, KXGO, KSYZ, KKEG, WYBR, WWSB, WHHY, 106X, 100KH, 95XXX, WWFX, WWHB, etc. More big debuts on **ARETHA FRANKLIN** coming

in...strong first week numbers for Gary Burton **WATT** #19, Greg Lawley **WDBR** # 27, Dave Weissman **KZLS** #27, Sunny Joe White and Susan O'Connell **WXKS** #25, Bob Hart **KLYK** #27, etc. It's not often that a song becomes Most Added, Certified, and grabs the weeks highest debut, leap frogging over Chartbound. Should be no surprise that's been accomplished by **HUEY LEWIS AND THE NEWS**. Charts Top Thirty in the first week for B106, WRTB, WFMF, WQTU, KMJK, Q96, WLRW, Z-93, K104, KNBQ, etc.

Plenty of programmer belief in **WANG CHUNG** with 59 new believers taking them well over the hard to reach 200 report level. New on B104, WJET, KC101, WPF, WCIL, KKYK, WLKI, KEZY, KKPL, LG73, KZZO, KIXY, KOKZ, Y106, WXXQ, KYA, etc. It's been a struggle for former Record To Watch **THE BANGLES**...Success continues in markets like Atlanta Z93 12-7, Wichita Falls KNIN 23-15, San Angelo KIXY 28-18, Moscow KZFN 23-10, Albany KGAL 28-17, Seattle KUBE 9-7, etc. Several building stories worth mention. **TRIUMPH** scores a 13% hit factor with under 100 reports at this

time. Bill Shannon charts it number two at K104 Erie, with moves at KSLY 29-21, WKQB 21-17, WZON 19-15, 95XXX 25-18, etc. Excellent growth also on **TALKING HEADS** who appear ready to take off...11% hit factor with jumps at WWSB 14-8, KFMI 23-13, KZEV 29-24, and adds at KITI, KMEL, WKTI, WBNQ, KDWZ, Q104, PRO/FM, Q99, WXKS, 94Q, etc.

35 adds give last weeks Record To Watch **BEN K. KING** a nice boost...Debuts #30 at B94, #18 KINN, #28 KKEZ plus moves of 17-7 KATD, 27-21 KUBE, 23-15 KBEQ, 28-25 WEBE etc. **THE TEMPTATIONS** were a back page pick over two months ago (August 1st) and move into the Top 3 on Betty's Urban Chgart. They're finally getting Top 40's attention with 18 adds and a debut at #25 after WROQ, #28 WPKY, 27-22 FM104, KSTN 25-20, Q104 30-24 etc.

The **B-52's** always seem to fly high over the West Coast. That's just what's happening in L.A. where they move 9-7 at KIIS, also San Francisco's **KMEL** debuts it #18. **KROK** Lompoc moves 29-21...new on KAGO, KZZP, WFJA, KWXX, KSTN, and KATD.

# HIT FACTOR

Hit Factor is a percentage of stations playing a record which also have it Top 20.  
ie: 100 stations playing the record — 60 stations have it in their Top 20 — Hit Factor = 60%.

## **WOMAN SURVIVES 2 WEEKS IN A MICROWAVE!!!!!!**

A recent National Enquirer (our favorite Newspaper) was chock full of the usual self-help and advice pieces (in addition to the mandatory 'I MARRIED MY GRANDMOTHER' and 'WOMAN SURVIVES TWO WEEKS IN MICROWAVE' articles). For those of you who limit yourselves to Gavin and the other trades each week, you'd be well advised to start taking our favorite paper seriously. We learned, this week, how to avoid stress, how to assert ourself in conferences with our boss, and we were most intrigued with a report on what today's more aggressive woman can do to avoid giving 'their man' the jitters. Apparently many guys are intimidated by the liberated woman and are resentful of the 'weaker sex' in their new posture of independence and equality. Without going into detail, The Enquirer suggests what you ladies can do to keep your guy from going bananas:

1. Be sensitive to your man's feelings.
2. Don't overcorrect him.
3. Don't call him sexist or tell him he's too macho.
4. Be appreciative.
5. Tell him what's really bothering you.
6. Be realistic if he's set in his ways.

We think that's terrific, but it's hardly EVERYTHING a woman needs to know if she has any hope of keeping a relationship on an even keel. There are some specifics which apply to the record and radio communities, and as a public service, here they are:

1. To those of you ladies married to local promo guys (who are not called local promo guys anymore...they're now Field Promotion Managers): Never, EVER welcome him home at night with a Lime Spiders LP blasting in the background as dinner music if he's just been appointed to National A/C.
2. When he's just returned from a road trip to Yankton, South Dakota, let him unwind before

you grill him about his opinion of that town's French restaurants.

3. If he's just come back from an industry convention (ie: Poe, Gavin, NAB or New Music Seminar) avoid greeting him with lines like, 'How were the hookers?' or 'God only knows what disease I'll contract now.'

4. No matter how heated a family argument gets, keep away from lines like, 'Of course you lost the promotion from weekend guy to overnights. You SOUND like a lifetime overnight guy...make that weekend guy...', which is why I listen to Larry King.'

5. Don't insult him by snidely asking his if he wants you to translate Gary Donohue's column.

6. Try and relate to HIS business if he's in promotion. A good example would be to not pack a Screaming Blue Messiah's LP in his briefcase when he's on his way to lunch with the people from Bonneville.

7. Avoid incendiary comparisons: Example: If you're married to Howard Stern, keep away from lines like, 'Scott Shannon cracked me up this morning'.

Following those simple rules should keep any relationship on a nice steady keel.

POSTSCRIPT: Upon reading the above, our wife asked if she could pass along some thoughts. In fact, she has her own suggestions on how to keep an industry marriage going well. According to Rosemary, when the guy arrives home from the NAB or a road trip, the following should be stated at the door:

1. "Pick up after the dog."
2. "Scrub this roasting pan."
3. "Mow the lawn."
4. "Take me to The Palm for dinner."
5. "Scrub the roasting pan at The Palm after dinner."
6. "Fix the VCR...(yuppies only)."
7. "Get that Sique Sique Sputnik LP out of

the house before my mother comes from Cleveland to stay with us."

8. "How come Richard Palmese is a senior VP and you're still taking guys from Oxnard to lunch?"
  9. "Pick up my mother at LAX and be sure to have Rudy Vallee in the cassette deck when you do."
- Sounds reasonable.

COMMENT: We've just returned from a road trip to our old home town, a city known as 'Balamer' (it's in Maryland). For those of you heading that way shortly, we offer a translation of some phrases used in that town:

HAIRD STREET (Howard Street)  
GAWN TO THE OFFICE (going to same)  
ALL & LUBE THE CAR (oil and lube)  
DANTAN (Downtown)  
TUNA SAH-WID (tuna salad)  
MY SECRETARY FI-WIS (Phyllis)

Happy to be of service...and one more thing, when visiting the Old Home Town:

You eat the WHOLE soft crab...claws and all. And one MORE thing: If you run into promo guy (Field Manager) Tommy Schoberg, don't try and emulate HIS eating habits. He's like the mermaid in SPLASH. He eats the WHOLE LOBSTER!  
...and oh, how was your week, you crab??!●

## EXTENDING LISTENING SPAN ON AM

I had an interesting conversation recently with Don Brix of KAFE in Santa Fe, New Mexico, on this subject. I've written before that AM is somewhat limited in what it can accomplish in extending listening spans, because the band is used differently than FM by adults. FM stations have found it easy to get extended listening spans, and thus larger shares, because the origin of FM listening in home stereo systems has encouraged the band's development as a background accompaniment...A texture behind the activities of the listener. The long spans of listening reflect this use, and even rock stations get their best shares on FM by minimizing elements of contrast, variety, and production. The obvious exception is Top 40, but generally the FM Top 40 stations have a larger proportion of their audience under age 25 than their AM counterparts did years ago--because adults do not expect or want the elements of "contrast, variety and production" on FM. I have pointed out that this spells opportunity for AM programmers, since adults do expect these elements in their AM programming. As I've noted, few AM stations have taken advantage of this opportunity, however; For years the two most common AM trends have been to copy FM practices in music programming (thus systematically eliminating the very factors with the most potential to bring success on the AM band)--And moving toward talk programming (which has a limited audience). Often talk is programmed in blocks, and block programming has no appeal for adults raised with formatted radio--it is simply mistaken for bad or uninteresting programming.

Don wondered about techniques that might work in extending AM listening spans. The most successful have been talk programming and specialty music programming--mainly big-band and nostalgia formats. This has had appeal on many programmers who never get past the share pages of the rating book. One or two talk-format radio stations can rate quite well in larger markets, but since the total cume universe for talk programming is generally about 15% of the market, and over half of all radio stations are AM, talk is not and cannot be the future of the band. Nostalgia has a niche, but it's a minority position--with growth potential only for small AM operators with a decent signal but not much cume to start with. Many AM stations hold good cumes, and to give those up for nostalgia formats' good listening-length efficiency but small cumes is to give up any potential for tomorrow, to make a relatively short-term share gain today. Cume, once gone, for today's AM station, is very hard to rebuild--and nostalgia formats eventually all burn out, as I've explained in a recent column.

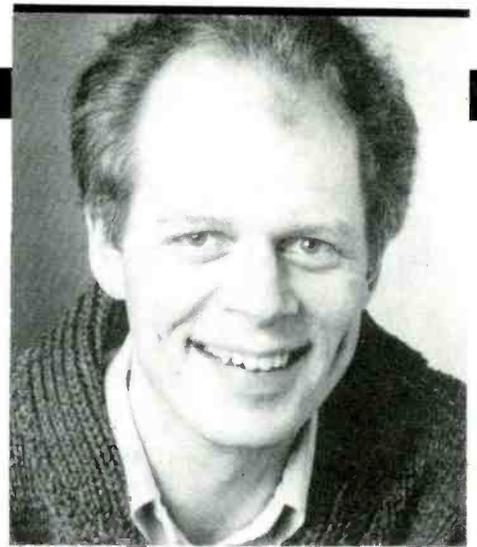

So the answer for AM at present is to take advantage of remaining cume by devising

appealing programming for the cume that remains. Share will rise, because it is a product not only of listening span (somewhat limited by the way adults use AM--when on the go, when doing a chore, when seeking an energy level or interesting companionship), but of repeat listening. And then promote to build the cume by attracting more listeners in the same demographic cell. As I've said before, cume is circulation, and share is efficiency. FM as it's used by today's adult has the advantage in efficiency, but AM stations still have excellent cumes. AM's assignment today: Programming to build cume, and if the programming is appealing to that cume, share will rise as well. Programming AM for share only is, today, a dead-end street.

While on this subject, on a related matter, at the recent NAB/NRBA Convention in New Orleans, it began to look as if an understanding is beginning to emerge between broadcasters and receiver manufacturers which may result in higher quality AM receivers. It appears the manufacturers are willing to improve bandwidth (fidelity) in a specified and predictable manner, if AM broadcasters are willing to transmit using a specific pre-emphasis curve (treble boost). This would mean that receivers could be built with wider bandwidth but with a high-frequency roll-off curve that would minimize static and noise (which is why they say they have severe roll-off built in now, making AM sound muddy and awful).

I have opposed pre-emphasis in the past, on the grounds that the FM transmitting pre-emphasis curve is the major reason FM audio does not live up to its potential, and AM does not have that disadvantage; but to be practical, most AM's use high-frequency boosting to help compensate for today's rotten receivers, so moving to a standardized curve probably won't be that big a deal for most stations, and if that is the price for a general upgrade in the quality of AM receivers, then it seems worthwhile.

There are over 1,000,000 C-Quam AM stereo receivers in cars driving around the U.S. right now, since C-Quam inventor Motorola is the primary vendor in the car radio market; many AM stereo stations are finding all they have to do to activate those radios in their favor is to explain to drivers that the "AM-ST" button is for AM stereo, which most drivers don't know--and tell them how to use it. With the proposed general improvement in AM receiver circuitry, and C-Quam-compatible AM stereo transmission, AM does have the potential to develop FM usage patterns, which could open the door for FM stations to get more interesting to listen to without risk of losing audience (AM listening pattern). We could have a whole new ballgame on both bands in a few years. ●

# A/C ANALYSIS

Toto's a convincing #1. (see HIT FACTOR profile below) Next up will be a battle between Cyndi Lauper, Carly Simon and Cetera/Grant. Those records represent the top of every chart we publish for the rest of the month.

And then there's Lionel Richie. A 72% HIT FACTOR within his base of 210 stations in just three weeks.

Janet Jackson is getting serious rotation reports from 93% of her 151 stations.

Chris DeBurgh's ranking stall at #23 is purely technical. A five point jump next week is likely. His HIT FACTOR is up to 67% and he scored fifteen adds this week.

Kenny Rogers has a "for real" A/C record. It's steadily picking up thirty plus adds a week.

Last week's RECORD TO WATCH, Ben E. King's *Stand By Me* picked up eighteen adds this week.

This week's RECORD TO WATCH is the fantastic new Elton John single, *Heartache All Over The World*. It's our second MOST ADDED record this week in both A/C and Top 40. A/C's onboard include: KDES, WALG, WIOU, WRFC, WBGW and KALE.

## RECOMMENDED FOR A/C RADIO

### Daryl Hall

#### *Foolish Pride (RCA)*

Back to the Hall & Oates formula for this second single from his second solo album. The first single, *Dreamtime*, was too aggressive for many A/C's, and while he'll still have a tough sell to our format, with this one shouldn't be as hard.

### Miki Howard

#### *Come Share My Love (Atlantic)*

An attractive black female with a beautiful voice. A beautiful arrangement. It could be you-know-who, but it's not. Miki gives good song, saving it all for this wonderful debut.

### Billy Ocean

#### *Love Is Forever (Jive/Arista)*

Billy's developing a corner on love songs. His approach is more purely romantic than guttural or erotic. And of all the many he's released, this one is the most halting, least rhythmically driven.

### Matt Bianco

#### *More Than I Can Bear (Atlantic)*

If this sounds familiar, you were one of the

disappointingly few who listened, and maybe even played another version of this song last year. Check it out, now.

### Al Jarreau

#### *Tell Me What I Gotta Do (Warner Bros.)*

His "effortless" grace is actually the result of an amazingly talented singer who's perfected a style. This song combines his easy vocal style with a wonderful track and lyric.

### The Monkees

#### *Daydream Believer (Arista)*

It's short and familiar and leads the second wave of Monkeemania. First time around, in 1967, it went gold two weeks after release. One could be accused of daydreaming if they think lightning will strike twice, but then look at Ben E. King.

### Air Supply

#### *One More Chance (Arista)*

Their consistent track record of providing A/C radio with strong yet safe ballads will remain in tact with *One More Chance*.

### BIRTHS

Our **CONGRATULATIONS** to **ANN STEVENS**, Music Director of **WHYL-Harrisburg, PA** and her husband **CRAIG RHODES**, News Director of **WQXA-York, PA** on the birth of their son **MICHAEL EDWARD**. Born on **October 2nd**, weighing **5 lbs, 5 oz**.

As England's **Virgin Records** build up their new United States headquarters, two more posts have just been filled. **Phil Quarataro** will leave his promotion gig at **Arista** to head up the promotional efforts at Virgin starting later this year. Also, **Mark Williams**, now Director of Special Projects at **A&M Records**, will soon become the Director of Artist Development. Expect the first Virgin US releases to include the new **Heaven 17** album. There is no word at this time as to who will be handling the distribution for American Virgin product.

More changes at newly nostalgic **KFRC**-San Francisco--aka **Magic 61**. **Jim Smith** has departed as GM to become General Manager of **Nationwide's KWSS** -San Jose.

As of last Monday morning (October 6th), **KCGL**-Salt Lake City, had the plug pulled on their innovative Modern Album Radio format. The move was pretty much unexpected although there was a recent change of ownership from **Harold Schwartz & Associates** to the **Mid-America Gospel Radio Network** and a group calling themselves **BDG**. Departing the station is newly appointed GM **Richard Rees** and Program Director **Del Williams**. The new format starting October 25th, Christian music, couldn't be farther from **KCGL's** progressive reputation. Check out the ultimate irony: on the last **KCGL** report inside the October 3rd copy of **Gavin**, the very last add listed was **Christian Death**. Now will **Rees** and **Williams** take their format elsewhere? Stay tuned.

According to interim PD **Ken Anthony**, **KSJO**-San Jose is not headed into Album Radio Moldie Oldies doldrums. "Those rumors are unfounded. We've added a few oldies, but we're definitely behind breaking current material." Meanwhile, former **KSJO** PD **Dana Jang** checked in with **Chinwag**. "I feel very good about the progress I made at **KSJO**. I look forward to my next situation. I'm ready for my next challenge." In typical Jangman fashion, he was not at all bitter and seemed good natured. **Dana** can be reached at **408-866-8493**. Give him a bell.

Even more Album Radio bits...**Jonathan L** (whose real last name is **Rosen**) of **KEYX/FM**-Phoenix was jazzed over the station being selected "Best Rock n Roll Station" by **New Times Magazine** of Phoenix. His **Virgin Vinyl** show (which **Jonathan** programs and hosts) was also selected as "Best Rock n Roll Show".

Interesting study released by the **NAB**. Their 1986 Financial Report on the state of radio includes the following tidbits. For instance, average total salaries comprised between 36.1% and 51.7% of a station's total expenses. Local advertising, as a percentage of total time sales, ranged from 70.5% to 91.1% while trade-outs and barbers range from 2.1% to 6.3%.

Another of C'wags favorite Texans is riding his horse northward. **Dominic Testa**, PD of **KFMN**-Abilene, TX has landed the MD slot at **Y108** in Denver. Dom will also tackle the 10pm-2am air shift and is pleased to move to the Mile High City. Now does that make him a fair weather Broncos fan?

**Chinwag** was reminded that new PD/AM drive talent of **WHSY/FM**-Hattiesburg, MS is none other than **Ken Knight**. Ken is remembered in circles as a legendary Southern programmer/record-breaker formerly of **KAAY**-Little Rock, AR and **WROA**-Biloxi, MS in the mid-seventies. Welcome back Ken!

Two proud additions to the **PolyGram** promotion staff. **Joe Riccitelli** has been dubbed the National College Promotion Manager. **Riccitelli** replaces the seat vacated by **Jack Isquith**, who recently joined **Epic Records'** Album Promotion department. Also at **PolyGram**, **Diane Earl** has been appointed Manager of National Video Promotion. **Diane**, prior to joining **PolyGram** in '84, was at **Epic**.

**Elektra Records** has a new VP of Sales. **Kenny Hamlin** fills the slot vacated by **Eddie Gilreath**. Originally a Western regional director, **Hamlin** will now be based out of the New York home office.

**RCA Records** has jumped aggressively into the "new age music" market. **Bob Gooding** has been appointed Director of Marketing and Promotion for **Novus**, **RCA's** label specializing in contemporary jazz and new age. Kicking off the **Novus** label is a new album by former **Windham Hill** pianist **Liz Story**.

Can your heart stand it? **Alligator Records**, the funky blues label of Chicago, will start releasing a line of CD product that'll include **Roy Buchanan**, **Koko Taylor**, **Son Seals**, **Johnny Winter**, **Albert Collins** and **Lonnie Brooks**. Also, original **Chess Records** masters are now available through **MCA Records**. The first batch of releases is mouthwatering. It includes **Little Walter**,

**Muddy Waters**, **Bo Diddley**, **John Lee Hooker**, **Little Milton** and **Howlin' Wolf**--all complete with original front cover art and some original liner notes. Now if THESE come out on CD, it's all over.

Kudos to **Melba Moore** and **Freddie Jackson** for raising over \$200,000 at an anti-crack benefit. Organized by **Moore** and **Al Sharpton**, President of the **National Youth Movement**, **Melba** recently laid down her wrath over crack in a recent issue of **Billboard**. "In New York, crack has moved from Harlem to Wall Street. It has become a crossover drug." **Moore** has invited such acts as **Prince**, **Force MDs** and the **Boogie Boys** to do benefit concerts around the country. Sounds like something radio could help out with in a big way.

**Radi-O-Rama**...**Rich McMillan** has been promoted to Asst. PD/MD at **WLS/AM** -Chicago, taking over for the departing **Chuck Crane**...**Cathy Curtis** has been promoted to Music Director at **KKPL**-Spokane, WA, replacing **Vickie McCarthy** who has moved across town to **KVXO/FM**...Two Southern California legends, **Michael Boss** and **Gary Beck** have been hired away from oldies outlet **69XTRA**-San Diego by crosstown rival **KLZZ**, who have adopted a "California Classics" format. **Michael** and **Gary** will handle afternoon drive and nights respectively...Former **Y107**-Nashville PD **Michael St. John** has been named PD of **Capitol Broadcasting's KICKS 104 FM**...More Nashville roulette has **Tom Cassetty**, an 18 year veteran GM of **WSM AM & FM**, resigning his post to become a partner with the **Southern Broadcasting Corp**. **Bob Meyer**, GM at sister station **WKY**-Oklahoma City will replace **Cassetty** and **Gregg Lindahl**, current PD of **WSM** is now GM at **WKY**...New line-up at **KEEZ/FM** in Mankato, MN. **Jo Guck Bailey** moves to GM. **Mark Seger** is now PD and **Kris King-Rydmark** arrives from **KCPI**-Albert Lea, MN, as the new MD...**Dale Robertson** leaves **KQLA**-Manhattan, KS as air talent /public service director. He's relocated to Indianapolis so look for him soon in that area...**WNEW AM & FM**-New York have promoted **Rose Polidoro** to the newly created Director of Creative Services...**Gary Gross** has been named General Manager of **DJ-100/WDJY-FM** in Washington D.C....**Susan Stogner** has been appointed PD at **KTHO**-South Lake Tahoe, CA. **Steve Ocean** signs on as AM drive air personality (formerly of **KATA**-Arcata)...PD **Dave Goldman** will handle music duties at **KEYP**-Tyler, TX as **T.J. McKay** departs the station.

## CARRYING WATER

We've been talking about leadership in the last few columns and I've been throwing out a few pretty heavy things your way. I hope you've found them useful. Let's take a short break and spend a brief column talking about... carrying water!

Carrying water? No, I'm not about to suggest that you become Gunga Din. I've just found that phrase useful in discussing a really important property of a leader. One of the most successful managers we know put it to us nicely. He said: "The job of the leader is to carry water for his or her people." Another very successful manager told us the same thing, using slightly different words: "The job of a manager is to run interference for his people."

What's all this about? Well, the traditional logic calls for the manager to heroically figure out what his or her people need and then, with brilliance and diplomacy, tell them what they need. Effective managers have found that it doesn't work that way. Instead, they have found that what people need, first of all, is a direction, a mission, and a goal. That's what the leader needs to provide first. But once that's done, the best thing that the leader can do is to constantly ask people what they need in order to get the job done. What the leader will find is that subordinates want to do a good job, but they face all sorts of "blocks" to getting their job done. Blocks may include stupid organizational procedures, uncooperative peers, inadequate equipment, unclear priorities, or unfair personnel policies. The job of a leader is to get rid of blocks so that his/her people can do their jobs (and make the leader look good!). Hence, as a leader, you may find that your people may need certain rules eliminated; they may need a clarification or redefinition of their jobs; they may need a piece of equipment; they may need some temporary personnel help; they may need someone to talk to, some emotional support; they may need you to butt heads with the

people upstairs; they may need you to solve an interpersonal problem that they're having among themselves or with another group; they may need you to clarify direction and priorities; they may need information and straight feedback; or, they may simply need you to get the hell out of the way. I don't know what your people need, either as a group or individually, but I can tell you this. I've worked with many companies in which a manager says that he or she knows exactly what subordinates are needing and thinking. Then, upon talking to the people themselves, I find that the manager is so far off base that it's a wonder any work gets done. In fact, one study demonstrated that more than 50% of subordinates have major discrepancies with their bosses about what they are supposed to be doing at all while on the job!

So taking the pulse of your people on a regular basis is critical. Whether you do it in small meetings, over drinks, through questionnaires, or simply one-on-one in an office is not the important thing. The important thing is that you are taking the pulse regularly - finding out what blocks your people are having and then doing something about it. That's what it's all about; giving people direction and then running interference for them so they can score. Carrying water.

Several columns ago, we urged readers who had any questions or comments to write in. I'd like to commend two readers who impressed me with their thoughts and ideas.

Dan Beaman of WLEC in Sandusky, Ohio, gave me a call and asked if he could do a live, on-the-air, phone interview with me. He did and it was a fruitful 30-minute interview. His questions were penetrating and well thought out. I enjoyed our conversation Dan. Thanks a lot.

Jim Holly of WZVN in Lowell, Indiana

**"Subordinates want to do a good job, but they face all sorts of "blocks" to getting their job done. The job of a leader is to get rid of blocks so that his/her people can do their jobs."**

mailed me some very interesting articles that he has been writing. Jim has some good thoughts on improving a manager's communication with his/her people in a radio station. In fact, he writes "I was amazed at the similarities I discovered between working toward a good marriage and operating a good radio station." Absolutely correct, Jim. Being a good spouse and being a good manager both take a lot of work, and constant communication is a critical part of it. Thanks for sharing your ideas with me and I recommend that those of you who are interested contact Jim. You won't regret it.

If you have any ideas or questions you'd like me to address, by all means write me c/o The Gavin Report. See you in a couple of weeks.

Never one to be deterred from a great promotion, Pat moved the show - cows and all - to the front lawn of the station for listeners to witness. Smart mooooove, Pat! ■

# Ricky Skaggs

## Country's Renaissance Man

From  
Nashville

To  
London

BY LISA SMITH

*"Ricky Skaggs picks a handful of perfect songs, sets them to traditionally bluegrass arrangements, and sings them with almost frightening purity. Not only is he blessed with a voice that rings as clear as church bells on a rural Sunday morning, he can carry a beautiful tune on banjo, fiddle, mandolin or guitar (acoustic or electric) with supreme ease."*

Nice review, you might say to yourself. Probably something out of The Nashville Tennessean or The Washington Post. Right? Wrong. This is a review from NME - The New Musical Express, an English weekly that extolls the virtues of talent like Elvis Costello, Big Country and The Cure. So why is NME hyperventilating about someone who has "a voice that rings as clear as church bells on a rural Sunday morning?" Because Ricky Skaggs has knocked Great Britain on its ear. Last year's CMA Entertainer Of The Year has definitely made it his mission to internationalize Country music. So far he's succeeded in sowing bluegrass seeds all over Norway, Sweden, Denmark, Holland, Belgium, France, West Germany, Ireland, Scotland, Northern Ireland and England.

When Ricky called The Gavin Report, it was from a pay phone at the Seattle Airport in between flights to yet another concert. Actually, that was no surprise since Skaggs was the third interview we've had with a Country artist calling from a pay phone while in transit. Country entertainers are always on their way to another concert, yet that seems to apply to Ricky Skaggs more

than most. Here is a man who obviously loves Country music and loves taking it into areas that are not exactly known as hotbeds in the Country music marketplace - namely Europe. Overseas touring is not regarded as a smart move financially. America is where the music money is, and few artists turn a profit doing concerts abroad. Ricky is undaunted.

"I don't look at closed doors, I look through them", Ricky told us. "I try to find the key that will unlock that door. Sometimes it's money, sometimes it's an attitude -- just not taking no for an answer -- and sometimes it's just being able to say 'hey, we're going to play there no matter what.' It cost me an incredible amount of money to go to Europe and try to break that market. Eventually, though, I just know it's going to pay off."

With rave reviews in the European press and sold-out concerts in London, Paris and other European capitals, isn't it paying off?

"It is, but I'm saying that someday it will financially pay off. I've invested about a quarter of a million dollars between May's tour last year and January's tour this year, and that's an enormous amount of money. But I'm confident that

it will pay off, especially if we end up having a huge hit in Europe. Obviously, I can't spend this kind of money with every new country I want to explore. For instance, right now my manager, Chip Peay, is down in Australia, and it looks very good that we'll go to Australia - maybe in '87 - and do a tour. But I certainly couldn't put \$125,000 or \$130,000 out of my pocket for every country. I believed in Europe enough to do it because, to me, Europe is the cradle that this kind of music can really break out of. If we get really hot in Great Britain and Europe and start having big chart records over there, then I think that the rest of the world will probably be open to us."

Ricky believes that Country music is understood and appreciated in Europe, at least his kind of Country music.

"I consider what I do Country music of all forms. We do rockabilly, western swing, bluegrass, gospel, traditional, old-time mountain music - we do everything and enjoy doing everything. When we're in Europe, we don't stereotype it and label it Country music. A lot of people in Europe have a distorted vision of Country music. They either think of cowboys and Indians or Kenny Rogers and Alabama. What we're doing is such a roots form. They really have an appreciation and admiration for that kind of music."

Ricky has had an appreciation and admiration for this kind of music all his life. Born on July 18, 1954 in Cordell, Kentucky, his father Hobert is a retired construction welder. He is also an accomplished musician who plays at church meeting halls and has performed on Eastern Kentucky radio programs. His mother Dorothy is a homemaker who sings gospel music in church and has also performed on area radio programs. Mrs. Skaggs is also a songwriter, and Ricky recorded one of her tunes "All I Ever Loved Was You" on a Sugar Hill album.

"One of my earliest memories is of my mother holding me up in her arms while I was singing in church. I must have been about three years old then" Ricky recalls.

At the age of five, Ricky's father bought him a mandolin. Within two

became the first bluegrass song ever to top the Country charts. That never really surprised Ricky, who knew that "bluegrass has always had permanent cult status."

What's the difference between bluegrass and hillbilly music?

"It's hard to say. I think bluegrass music is more pickin' - banjos, fiddles, mandolins. It just seems like when you hear a banjo in music, you automatically think of bluegrass. Hillbilly music is more acoustic string guitar and fiddle. George Jones' early stuff is a good example of hillbilly music."

Many an artist has confessed that it's very hard to self-produce their own albums, losing that critical outside objectivity of having another person offering input. Yet it's obviously worked well for Skaggs, who produces all his own LP's.

"It works great for me, because I know so much about Ricky Skaggs and what his limitations are, what his goals are, and what he will and won't do. I can look at myself as producer when I'm in the control room, but then when I go back outside and we do another take, then I'm the artist again. It's easy for me to see myself as two different performers."

Up until recently, Ricky was also the producer for his wife Sharon's group, The Whites. That arrangement has since been changed.

"I felt like I made some good records with The Whites. But MCA didn't seem to be able to get #1 records with them. We had some Top Ten records when they were on Warner Bros., so I felt like they were as close to getting The Whites happening as anybody. But we still never really knocked out a #1 record. I felt like we had some really great records and some wonderful performances and I would love to still be producing them, but MCA wanted to make a change. Larry Butler has cut some sides with them, enough for a whole album. I'm not sure what the status of that is. I couldn't really comment honestly because I'm so involved with Sharon. But Sharon and I still work together. We've got a duet on my new album "Love Can't Ever Get Better Than This", that's great. We're both real proud of it."

Ricky Skaggs and Elvis Costello performing "Don't Get Above Your Raisin" during Ricky's Dominion Theatre show in London.

***"Bill Monroe created bluegrass music by combining the Old English and Irish style of folk music with some old black blues music."***

weeks, and with virtually no instruction, he figured out more than just the basic four chords. He was singing and playing chord progressions. Skaggs cites his main musical influences as Ralph and Carter Stanley, the Beatles, the Rolling Stones, the Hollies, George Jones and, of course, Bill Monroe.

"Bill Monroe created bluegrass music by combining the Old English and Irish style of folk music with some old black blues music. He ended up creating one of the rarest forms of American music that's ever been." While attending a Bill Monroe concert in Martha, Kentucky a five year old Ricky was brought on stage to perform. He played "Ruby" on Monroe's mandolin and received a thunderous ovation.

"I never really took my playing as a novelty", Ricky remembers. "I knew I was young and I knew that some of the people referred to me as 'that cute little boy who sings and plays real well', but I was serious about it. I had a lot of ambition when I was a youngster. I wanted to be a big star someday."

By age 19, tired of the long hours, low pay and constant travel required of a young musician, Skaggs moved to Washington, D.C., where he took a job in the boiler room of the Virginia Electric & Power Company. But the pull of music was just too strong. He left the job in 1974 to join the Country Gentlemen as a fiddle player.

In the mid-1970's Ricky became musically acquainted with J.D. Crowe and The New South. In 1975 he formed his own group called Boone Creek. It was through this circle of musicians that he met Emmylou Harris. She asked him to join her Hot Band in 1977. Ricky wrote arrangements for Emmylou's critically acclaimed 1980 album "Roses In The Snow." Soon thereafter, he left the security of the Hot Band and headed for Nashville to pursue a solo career. He went to label after label, armed with a tape of bluegrass cuts he had just recorded. From the very beginning, Skaggs demanded to be signed on his own terms, insisting on full production and creative control of his records. Rick Blackburn at CBS took that chance. Five years and seven albums later, both Rick and Ricky have been vindicated. His bluegrass roots caused serious ripples throughout Country radio. His remake of Bill Monroe's "Uncle Pen"

In addition to playing Europe and of lot of Northeastern American cities other Country artists avoid, Ricky plays in quite a few small markets that other artists of his stature tend to overlook as well. "We enjoy saying that the CMA's Entertainer Of The Year went to Pendleton, Oregon. They never thought that they would have the Entertainer Of The Year performing in their town. That makes a big impression on those people and makes us feel great too."

Ricky has very strong Christian beliefs, and allows no drinking, drugs, or smoking within his organization. He told the Washington Post "There's times when I don't feel like I should bring the issue (of religion) up, and there's times when I feel led to. I'm certainly not ashamed of it. It's important to me to let people know what's happening in my life because Ricky Skaggs is the success story that you always dream about as a musician - on his first album he has a number one record, entertainer of the year in four years...what's different about him? God's been real good to me and I know that, but that goes so far. God gives the talent and if we sit in a corner and don't do anything with it, it will rot eventually. I do thank God for (the talent), because that's something I didn't have on my own and that's a gift. But I've taken it and done something with it. I haven't just said 'pour it on me and I'll wait here 'til it all comes'."

With his busy schedule of recording, producing and touring, one might assume that he has no time for anything else, though he does manage to work in time to relax. He's an avid fisherman and an excellent photographer. He collects Marx Brothers and Three Stooges films, which he frequently watches while travelling. Another passion is clothes shopping. In as many cities on tour as possible, he likes to discover vintage clothing shops.

Life's going pretty well for Ricky Skaggs. Once again he's been nominated for the CMA's Entertainer Of The Year award. His new album has just been released to great enthusiasm at the radio level. Internationally, the pot's still boiling. With longevity the norm in Country music, Country's "One Way Rider" should continue riding high into the ninties on many different levels of Country music's spectrum. ●

### One To One-Howard Jones (Elektra)

It's safe to say that **One To One** is Howard Jones' first album as a mega -superstar, though I doubt he's changed much. A cognac drinking vegetarian, Howard Jones mixes more of his pacifistic principals with an inventive sense of instrumental fun and experimentation. The trax do jump out clearly and obviously. "All I Want" is my favorite, one of HJ's shining achievements. Other trax to sound the alarm over include "Where Are We Going?," "Don't Want To Fight," "Step Into These Shoes" and "Good Luck Bad Luck." This one will easily be one of '86's biggest success stories--a fantastic piece of work.

### Hard To Mouth-General Public (IRS)

It's rare when a quality groundbreaking group splinters into two viable offshoots. I'm referring to the **English Beat** into **Fine Young Cannibals** and **General Public**. Both groups have panned out nicely, their combined efforts more than rivalling the English Beat's impact. I found Hand To Mouth, GP's second LP, an extremely satisfying work, stumbling onto a whole bunch of good songs even before the single pops up on side two. HTM opens with the semi-desperate, semi-whimsical "Come Again" followed by a crooning Roger on "Faults And All." Other trax include "Murder" (an unlikely name for a pleasant love song), "Too Much Or Nothing" and the eternal promise "Cheque In The Post."

### Mosaic-Wang Chung (Geffen)

**Wang Chung** let techno producer **Peter Wolf** into their compact, two man world of sound. He seems to have fit in just fine as the chemical balance seems to permeate good good good vibrations. As it goes,

# NEW

Releases

"Everybody Have Fun Tonight" is the rule rather than the exception. The remainder of **Mosaic** has a pop bounce as illustrated on "Hypnotize Me," "The Flat Horizon." Both Jack and Nick sing "Let's Go" while "Betrayal" tells a sad tale.

### No. 10. Upping St.-Big Audio Dynamite (Columbia)

If you're committed to **BAD**, lose that 4:30 edit. It chokes. Instead, go straight to the LP version of the song. The first verse is a proclamation to those controlling the airwaves. If anything, **BAD** have entrenched themselves closer to the sounds of the streets, taking a hint from the folks at **Def Jam**. This is 32 track digital streetnoise--an audio/visual collage. **BAD** definitely stays on the cutting edge. Co-produced by **Joe Strummer**, whose beat-oriented participation keeps the content on the rowdy side, standout trax include "C'mon Every Beatbox" and "Limbo The Law."

### "Don't Stand So Close To Me '86"-The Police (A&M)

Lots of artists long to do it, though they seldom do--re-recording an earlier work, that is. Though this remake is a bit overinterpreted, it should score big points on a curiosity level. If you're like me and you prefer the original...just flip the disc, which also features a decent live version. Remember it's 45 RPM.

### "Heartache All Over The World"-Elton John (Geffen)

Sure liked **Elton's** hot new single. So far we have four separate edits! The best sounding is the 4 minute one on the flip of the 8 minute megamix. Hot tune.

### Charlie Peacock (Exit/Island)

A swingin' rock n roll song is "Counting The Cost." Produced by **Nigel Gray**, this is a superfine song the bridges the intercontinental cultures of Londontown and Sacramento, California. This is Sacramento's finest export since **Jerry Brown, Bourgeois Tagg, Herb Caen**, and meaty tomatoes. I like the airy, flanged guitars, but the chorus is the killer. Great quote on the album jacket by **Dizzy Dean**. Check it out.

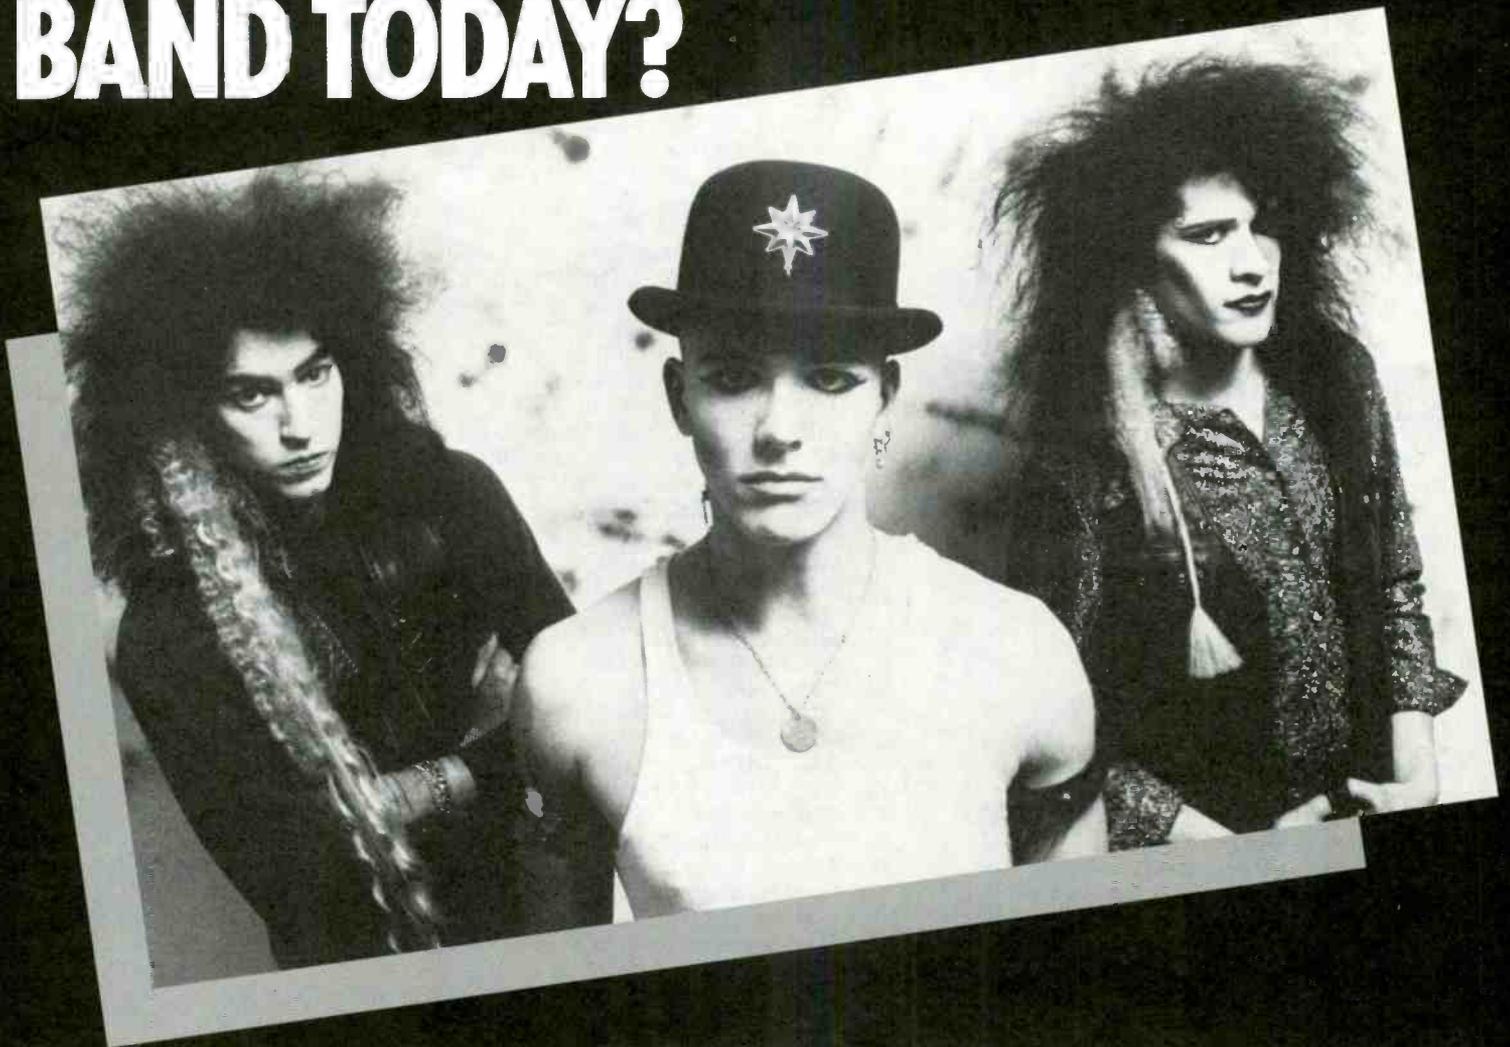

### Taj-Taj Mahal (Gramavision)

One of the sharpest memories of a mispent youth was being introduced to country blues by **Taj Mahal**. Taj was way younger than **Fred McDowell** and a tad easier for a weenager to relate to. Not much later, though, at a live show, Mr. Mahal blew us all away with a frontline assault of four tuba players in African robes. On the cover of his new LP (shot by the magnificent **Robert Mapplethorpe**), Taj is looking as eccentric as ever. He mixes a cool ethnocentricity with synth fills and horn frills. There is a spirituality at work as the songs emit positivity, modern sounds and roots. Trax: "Deed I Do," "Do I Love Her" and "Everybody Is Somebody."

### On The Live Side-Ben Sidran (Magenta/Windham Hill)

**On The Live Side** sounds like a special night. Rock n roll's **Steve Miller** and jazz's **Phil Woods** meet on common ground. On side one, the jazzy side, Sidran treads similar ground previously covered by famed pianist and vocalist/stylist **Mose Allison**. The similarity is astounding. Side two is where upper demo Album Radio will find "Mitsubishi Boy" and the updated "Space Cowboy," featuring some trade-off vocals and guitarwork by Miller. Sidran and Miller were partners on the first few Miller Band LPs. Different callings led to different paths. This LP is a full circle of that relationship. Dig the clean live sound.

## MY 2 cents

The Top Five is a catfight. Talking Heads, Ric Ocasek, Huey Lewis, John Fogerty and especially Boston are permeating most of the lists being researched. Following Boston is Timbuk 3 and David + David, the Top Ten's two debut albums. David + David was knocked down a slot, but has been picking up steam due to the acceptance of "Swallowed By The Cracks," a song inspired by a fellow one of the Davids met in a bar. "I once was a dancer..." was what he crowed just before he became inspiration for a Top Ten Album Radio album...The newly revamped Pretenders are enjoying a strong stream of Album Radio and Top Forty crosplay. Those who saw the Ron Howard movie "Gung Ho" may remember the song on the closing credits. Yes, it's been around that long...Bruce Hornsby will ride out 1986 as one of hottest debut acts. After months of tenacity, it was "The Way It Is" that opened the door. I can see it now. Armies of A & R people scouring the streets looking for intelligent American songwriters...Speaking of the right track, I'm finally starting to get reports on both "Graceland" and "Diamonds On The Soles Of Her Shoes" by Paul Simon. Let's hope that those two trax propel this fine LP up a few more places, perhaps Top 12? I understand it's selling quite well... Iggy Pop had yet another incredible week. Sales are reputed to be already over 150,000. That jibes with the rave retail reports some of stations are reporting, for example WBCN. Boston is definitely Red Sox and Iggy country...The vinyl equivalent to Pete Townshend's Deep End Video is enjoying hot action as an album taking an 8 point jump--29-21.. Twin Certified this week for Georgia Satellites

## SPOTLIGHT LP

### *Beware (The Funk Is Everywhere)* - AFRIKA BAMBAATAA (Tommy Boy)

As rap music moves further along in its life cycle, it faces some challenging crossroads if it wants to remain innovative and "on the edge." Run DMC have been successful with merging rap and hard rock (the achievement of "Walk This Way" is a recent example) and Afrika Bambaataa chooses that angle with two rousing songs, "Rock America" and a spectacular cover of MC 5's "Kick Out The Jams." AB's version of "Kick Out The Jams" makes "Walk This Way" sound like "soft rap/rock" and should be a monster on Alternative radio. The remainder of the album is in the vein of AB's recent work. He brews his own batch of self-proclaimed "Reggae Go-Go" on "Funk Jam Party", mixing in some spicy Go-Go Crankin' sounds.

### *Big Night Music* - SHRIEKBACK (Island)

Shriekback are skilled at utilizing new technology with a blend of rhythms and tempos which generate a mysterious aura. Big Night Music marks a departure from Shriekback's last album Oil And Gold (which finished at #6 on our 1985 year-end chart). "Gunning For The Buddha" and "The Reptiles & I" make much more of an intimate and sensuous impression. Only the choice cut, "Black Light Trap", is reminiscent of Oil & Gold, with an agitating tension that runs through the spine of their music. Lyrically, Shriekback combine surreal images of water and reptiles that compliment their equally translucent music. Peter

## COUNTRY SUMMARY

Elma 's off to New England for her vacation, so the rest of the Gavin Country Committee (Cyndi, Joel, Natalie and I) have taken over for the next couple of weeks. This week's chart is topped by someone who we're betting will be very visible at Monday night's CMA awards - Randy Travis. Steve Warner, who scores another Top Ten record with "Starting Over Again", has broadened his horizons to include television. He's singing the new theme song this year for ABC's "Who's The Boss". Alabama is an obvious contender for number one status. It has a 76% Hit Factor and 23 stations have taken it Top Ten, including Pam Green @ WHN-New York, Eric Marshall @ WSIX-Nashville, Bob Orf @ KFEQ -St.Joseph, Bill Mayne @

WBAP-Dallas/Ft.Worth, etc. We're sure you don't need convincing. Hank Williams Jr. and crew debut at 31, with Top Twenty numbers at KLYQ-Hamilton, WBAP-Dallas, KRMS-Osage Beach, KQKD-Redfield, WQSB-Albertville and WWRK-Elberton. Coverboy Ricky Skaggs (nice cover, huh?) is having a good week, with Certified status coming on the same week as his interview. Be sure to check out the story of our international hero starting on page 23. Mel McDaniel keeps hanging in there in the Chartbound section, but this Bruce Springsteen penned number shows no signs of weakening, with 106 reports and 5 more adds. Steve Earle's "Someday" proved to be very popular as an album cut, and 37 programmers are

reaffirming their faith in the cut by adding it out of the box. Mike "Crutches" Stanley tells us that he's getting good calls on the "Still In The Game" cut from William Lee Golden's LP (which was, by the way, written by Stevie Winwood). It was great to have so much new product to choose from when we were looking for cuts to Recommend (see above). And finally, big Gavin Congratulations to WHYL's Ann Stevens, who gave birth this week to a baby boy. See the "Births" section on page 18 for more details. We hope all of you who are attending the CMA Award show in Nashville have a good time. We'll be watching!! Talk to you next week.

# “URBANIZING”

by JERRY BOULDING

## KIDS HEAR THE DARNEDDEST THINGS or THE SHORTEST DISTANCE BETWEEN TWO POINTS

### PUSHING TOWARD SUCCESS

Everyone wants to have fun. That is what the so-called good life is all about - good times together...on the radio. Research shows consistently that urban stations which play lots of hits and have personalities who relate and are fun to listen to - and are consistent - usually wind up winning, all things being equal. And winning is what our business is all about.

Lately, because of the prizes given away today, urban radio has had more winners. And the air is being heated up with radio that has fine tuned its programming to the 'nth' degree. With a little more thought, you often discover that you had more fun in the past than you do in the present. This is the theory of oldies or long-term re-currents. It is the association with the past and the happy memories that these songs conjure up. They make you remember your senior prom or your childhood sweetheart, maybe a tour in the service. But hopefully, when you hear a song from your past, you immediately track back to another place and time with fond feelings of nostalgia. Maybe it was a vacation you took with "that girl." There you were, relaxing in good company, and getting away from it all to do things just for yourself before returning to work and reality.

### CHILD'S PLAY

A few issues back, we touched on the subject of the over-achievers and how some parents pushed their kids and how this affected their lives. From birth, our children enjoy playing and want to spend time in the various activities of play.

They play the radio, they watch videos, they go to flicks. From almost the same moment however, parents are interested in training their children to become responsible and competent. This basic conflict creates the natural tension between parents and children that manifest throughout the developmental years. And often the radio station that they grew up with and enjoyed as a child is the one they will continue to listen to until either they feel they have outgrown it or another, better station takes its place. It has been said - and our studies show - that many urban formatted stations continue to do well with young adults as well as teens and sub-teens. And the obvious reason for this is often because their favorite urban station is the only one that plays the music they like. Now, some of that is changing. As the kids go off to college they often develop new tastes in music. If they happen to go to a school which is located in

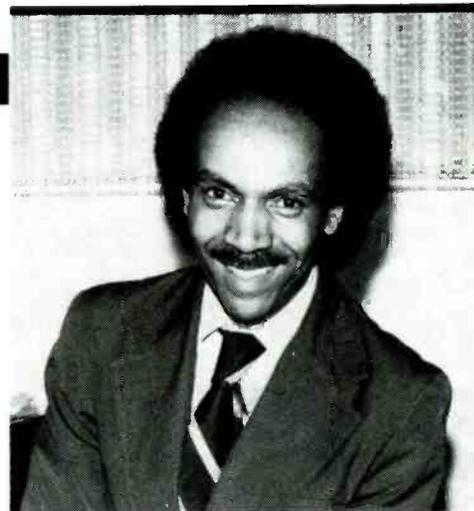

an area where there is no black or urban station, they often have to settle for a station which comes closest to playing at least some of the songs they have grown to love over the years. And in so doing, they often develop both a tolerance and a fondness for other forms of music, particularly rock. And a natural by-product of integration is crossover. The next thing you know, these same college kids are going to rock concerts, starting to enjoy soccer, visiting museums and even ballet. Child's play has changed and will continue to change...it's all a part of growth.

### TOMORROW'S CHILD NEEDS TODAY

It is almost a paradox that children who are being trained to survive and function in tomorrow's world must be able to live in and enjoy the present. Preparing for tomorrow and denying the validity of the present in the process, are significant parts of the liability that comes along with an overdeveloped work ethic. The fears of parents that their children will not be successful, the influence of questionable social values like the music that we play on the radio and the isolation of partners from each other, lead to this common parenting mistake, which systematically negates the children's ability to let go, get away from it all and have some fun right now. After all, that's what these hot tunes that we play on the radio, day after day, over and over, really do. They provide an escape for children of all ages. For the most part, they are fun songs.

### MESSAGE MUSIC

A few years ago, we were into message songs. Lots of the hits that made it to the top of the charts were songs that advised or admonished, and many of them weren't fun songs. And there are still some message songs, but for the most part, the hits we hear up the airwaves with today are love songs, songs with a beat...fun songs. Despite the fact that many psychiatrists would disagree, it has been shown that kids who grew up with strong beat music can relax to it. It's familiar, they know the words, and they enjoy it. Far too often the inability to relax is a problem that parents have experienced for years. Now, without thinking about it, these hardworking parents are teaching or influencing their children to do the same. The result is that for parents and for their children, the good times that make all the work and struggles worthwhile are no longer emotionally possible. Such families have boarded a fast train to the future.

**"And often the radio station that they grew up with and enjoyed as a child is the one they will continue to listen to until either they feel they have outgrown it or another, better station takes its place."**

So the question is, *should there be a message in our music?* And the answer is: *when there is a message and when the song is a hit.* But, for the most part, radio is part of what we work so hard for. Radio is an entertainment medium and while we do have an obligation to inform, most people when asked why they listen to the radio, will say, "for the music." And so we play the music our research tells us will make them feel good. And while the mood, message and tempo may vary, most people try to take music wherever they go. And finally to the question, are the kids of today really spoiled? Some are. Some get everything they want and really don't know the meaning of need. They take everything for granted. They not only don't know what it means to be cold at night, but now when they go to sleep with the radio on, they have electric blankets and "walkmen." They don't even say, "tuck me in" ... they say "plug me in." ●

## URBAN CONTEMPORARY SUMMARY

This week has been pretty amazing in terms of moving things and requested items on your stations. Most of the calls are for anti-drug type songs like the GENERAL KANE "Crack Killed Applejack" and the new ISAAC HAYES "Ike's Rap/Hey Girl" which are both powerful enough to make major impacts on our industry. ISAAC HAYES made a personal appearance at BMA on behalf of his anti-drug campaign with the release of his comeback single (see write-up on page 56) and GENERAL KANE's personal appearances around the country at radio stations has caused a major stir. L.D. McCollum, XHRM-San Diego said that his station is the "Official Station" of San Diego's Crack Killed Applejack week (Oct.6th) with a major promotion against drugs. Meanwhile, proclamations have been issued in six cities in response to anti-drug single by GENERAL KANE. Songwriter/performer Mitch McDowell, aka General Kane, released the song because of the deadly crack epidemic and he says that for well over a year he watched helplessly as

several of his friends' lives collapsed around them. These same victims were serious and career-minded young people who had never previously been involved in any substance abuse and McDowell says: "As a medium that communicates to the kids on the street like no other, I charge the recording industry with the responsibility to address this issue." Other artists besides HAYES and KANE on the anti-drug case are JERMAINE JACKSON and GREGORY ABBOTT, and many other artists are now getting the message that they have a good vehicle to get this message to the kids. Tonya Pendleton, WILD-Boston reports that GREGORY ABBOTT's single is "one of the hottest things on the phones in a long time." C.C.Scott, KXZZ-Lake Charles also reports #1 request for ABBOTT and the demos are 18+. We listed it as our Pop Crossover selection last week and Top 40 got 15 adds for a total of 56 reports. With everyone looking for up-tempo stock, COMMODORES had a great week on the phones; J.C.Floyd, WQQK/FM-Nashville reports they are hot

on the phones, Frenche Be, WQIM-Montgomery says they are "the hottest" thing out and getting lots of requests from lots of folks. Licia Torres, KJLH -Los Angeles reports the requests like this: "they're amazing!" And then, Melvin Jones, KRNB-Memphis sez the calls for the single are huge! Ray Boyd, WVEE-Atlanta reports "across the board" calls for it, too. ISAAC HAYES is already getting requests for Bill St.John, KIIZ/AM -Killeen, and he reports "I played it one time on the morning show and had so many instant requests for it I had to play it again on the same show. Tony Wright, WJIZ-Albany phones in with lots of calls for MILLIE JACKSON. Other new product with good response is SHIRLEY MURDOCK who gets calls for Danny Harris, KDKO-Denver. Another single getting calls is the ERIC B...Frank Cerami, WUSL/FM-Philly reports teens calling in and Tonya, WILD-Boston is getting lots of calls for it, too. Thanks for the calls. Betty

**BMA DOES ITSELF PROUD**

Congratulations to newly-elected Black Music Association President, Lee Michaels, who is the P.D. of WGCI AM & FM in Chicago and a recent Gavin P.D. of The Year Award winner! We know that under Lee's leadership, BMA will thrive and meet the needs of a growing organization. Our congratulations also to Rick Morrison, Executive Director of BMA, whose efforts and relentless planning culminated in a very successful, smoothly-run Convention - and we know *first-hand* that it's not an easy feat!

One of the highlights of the event was the surprise appearance of Mr. Isaac Hayes, who received *three* standing ovations during the course of the evening. Mr. Hayes has returned to us with a single that is a plea to radio listeners to stay away from drugs, especially this one called Crack. A lyric sheet is inserted in each copy of his new single and he has joined the anti-drug campaign along with many other black recording artists now touring the country, such as General Kane, Gregory Abbott, and Jermaine Jackson.

Another session deserving mention is the one that dealt with crossover music - a big item in the industry press these days. Among the panel members were Duff Lindsay, P.D. of HOT105/WHQT-Miami, Jerry Rushin, WEDR-Miami and Nelson George of Billboard. A broadcaster from England was in the audience and said she came specifically to the BMA because the British airwaves are currently carrying more and more Black Music, including some recently developed black weekly countdown shows. I was approached by many of you to include a crossover session with Top 40 and Black/Urban (or "hybrid" which seems to be the latest term used for it) at our Gavin Seminar For Media Professionals on February 20-21, 1987. Last year, we broke out into format sessions and did not have the opportunity to re-group with other formats afterwards and this idea has been suggested by Top 40 PD's and MD's alike. I'm working on it for our Gavin Seminar in February. Thanks for all your nice comments on the newest look of the Gavin Report. Your comments do not go unnoticed - I appreciate them tremendously! Betty

**E-O A-OK**

"3-D" is putting it mildly - and after experiencing "Captain E-O" you will swear there's such a thing as "4-D", "5-D" or even "6-D!" And, there's no question in my mind as to why this 17-minute video cost \$17 million dollars - it shows in each million-dollar minute! When a rolling boulder and laser-shooting fingers come out to you in the audience, I challenge each of you wearing your 3-D glasses to remain positioned in your seat without flinching. It's as though the laser rays shoot right past your ears to the person in the seat behind you! Then, after the explosion that shoots off the screen at you and engulfs the audience in real smoke, you'll feel you're in the presence of Michael Jackson. If it's possible to believe, Michael Jackson has spent more time since the "Thriller" videos brushing up on his dancing! Every step he takes is more precise, distinct and choreographed with a technique so smooth it makes you jealous. And the music!! If these tunes are a sampling of the style that Michael and Quincy Jones are currently producing for the new LP - we won't be disappointed. I didn't see anyone in the audience *not* moving during the songs, *including* the wheelchair patrons! The name of the theatre at Epcot Center where we viewed the video is very appropriately named: "The Magic Eye Theater" - Michael Jackson is **magical!** (Frank DiLeo, if you're reading this, tell him he's done himself proud!!!) Betty

## DAVE SHOLIN'S Personal Picks — SINGLES

**SURVIVOR - *Is This Love* (Scotti Brothers)** If it takes more than one listen there's probably a defect in your sound system. This hard working band hit their stride several years ago and they're not about to let up now. Always masters at getting the most out of a hook, Survivor's outdone themselves on this outing. Headed for power rotation.

**BILLY OCEAN - *Love Is Forever* (Jive/Arista)** Another positive, inspirational message dealing with love, which seems to be Mr. Ocean's favorite subject. As always, he makes it seem effortless, drawing upon his vocal range to capture the song's essence. That comfortable, warm feeling of familiarity is built into this release.

**IGGY POP - *Cry For Love* (A&M)** Since I first saw him at San Francisco's Fillmore Auditorium more than 15 years ago, I've looked forward to the day he'd come out with a record accessible to Top 40 radio. Iggy lives up to his reputation as an innovator with a set of lyrics that are anything but ordinary. Bowie's influence as producer, along with this track, gives this effort a real POP shot.

### CROSSOVER PICK

**STACY LATTISAW - *Nail It To The Wall* (Motown)** Hot dance item that made an extremely quick climb into the Urban Contemporary Top Ten. Goes through some nice changes with Jellybean adding elements that should help hammer it home Top 40.

## RON FELL'S Personal Picks — ALBUMS

### WANG CHUNG - *Mosaic* (Geffen)

From goodness to greatness, Jack Hues and Nick Feldman (the collective Wang Chung) have made the LP expected and promised on past efforts. I'd buy this LP on the strength of the single alone. EVERYBODY HAVE FUN TONIGHT should turn out to be the party anthem of the year. I can just imagine a twenty minute live, audience participation showcloser with it. Its walking bassline and unison chorus are solid drawing cards. But instead of one cut and a bucket of filler, the consistency continues with a pop tart, HYPNOTIZE ME, and at the end of side one is a moody, but structurally sound ballad, BETRAYAL. Side two is set off with another punctual rouser, LET'S GO, followed by a "stinging" track, EYES OF THE GIRL.
