**MOTOWN SEEKS TO END PACT**

On Tuesday, May 14, the Motown Record Company, L.P. filed suit against MCA, Inc. charging MCA with "failure to live up to its agreement to distribute and promote Motown Records." The suit asks for termination of the company's distribution agreement.

In a strongly worded press release, Motown said that the suit, filed in Los Angeles Superior Court, charges that MCA has performed with "ineptitude and deliberate misconduct" that has "undermined Motown's effort to write a successful "second chapter" to its legendary 30-year history."

Among other charges leveled, Motown asserts that MCA has not effectively promoted their product to pop radio stations, which limits their chances to generate "crossover" hits; that MCA has "systematically breached" their agreement while collecting distribution fees; and that during a one-month span in 1989, MCA "lost the ability to fill any orders for Motown." The 1989 event, Motown says, cost the label at least half a million in sales of the soundtrack to the Spike Lee film *Do The Right*

Thing.

"Motown has repeatedly asked MCA to acknowledge and perform its obligation," said Motown

President/CEO Jheryl Busby, himself a former MCA executive.

"To protect its legacy and its art-

*Zimmermen Tweak The Jazz/AA Section*

**JAZZ/ADULT COVERAGE EXPANDED**

Two New Subcharts Debut

This week's edition of the Gavin Report contains two new Subcharts that detail and expand our coverage in the Jazz and Adult Alternative arena. A "Commercial AA" Subchart will be culled exclusively from those commercial stations broadcasting the format full time. The "Post Bop" Subchart will be researched from a sample of both commercial and primarily non-commercial stations that emphasize hard Jazz, commonly referred to as "mainstream" or more "acoustic" Jazz.

"This is an idea that was born out of the last Gavin Seminar," said Gavin Jazz Editor Keith Zimmerman, "That's when it really became apparent that Jazz and Adult Alternative have become two totally different animals, veering in two different directions."

Predictably, Adult Alternative Editor Kent Zimmerman agrees. "Smart AA programmers will notice the subtleties between the standard Gavin AA chart and this new Commercial AA Subchart. Factoring out the noncommercial input, it puts a different, major market-oriented slant to the music. I feel comfortable that both charts will break new music, that both charts will compliment each other."

These new Gavin Subcharts follow the positive reaction to the Commercial and College Subcharts that are now found inside the Gavin Alternative section.

"Response was so favorable on the Alternative side," added Kent Z, "that we couldn't resist giving our Jazz/AA readers the same information jump-start needed to compete for adult listeners and noncommercial funding."

**NAB/RIAA  
SQUARE OFF  
OVER ROYALTIES**

The Recording Industry Association of America (RIAA) has re-instituted a push to have Congress pass legislation that would set up a performers' royalty.

The move, which mirrors a similar attempt turned back in 1976, has provoked an outcry from the National Association of Broadcasters (NAB) who fears that the brunt of the financial responsibility will fall on commercial radio stations.

"We oppose it because we think it's an issue that's already been resolved in the right direction," said NAB spokesperson Lynn McReynolds. "Broadcasters already promote artists recordings by playing them every day—they do a tremendous amount of free promotion, and to have to pay them (artists) for that is adding insult to injury."

RIAA Executive VP Hilary Rosen disputes the NAB's stance. "Our intention is not to affect current radio practices," she told the Gavin Report. "What we're most concerned about is

ists, Motown cannot and will not wait any longer for MCA to deliver."

In an equally strong statement, MCA alleges that the lawsuit is a ploy by Boston Ventures, Motown's majority owner, to renegotiate the two companies' agreement.

"The claims raised in Motown's lawsuit have been invented to create a negotiating position and to assign blame to the wrong party for Motown's lack of success to date," said a MCA spokesperson.

MCA went on to say that Boston Ventures is upset that they haven't received the financial success they expected when they purchased Motown.

"MCA has evidenced a com-

mitment to Motown long before the purchase, having distributed Motown Records since 1983," said Zach Horowitz, Executive Vice President, MCA Music Entertainment Group. "Because we have a significant financial investment in Motown, a belief in the Motown legacy, as well as a long term commitment to our core business of building record companies, we have every reason to maximize Motown's value and success. It is regrettable that Boston Ventures would endanger the stability of Motown with this action."

MCA also charges Boston Ventures with "interfering with MCA's ability to fulfill its responsibility to Motown."

the impact of digital broadcasting technologies. A system such as Digital Planet can sign on with a cable company, and the cable company then charges the consumer an extra seven dollars a month. So the latest Madonna comes out on May 15 and on May 15 it's on Digital Planet's list in digital form. It ends up a commercial transaction and Madonna doesn't get paid for it."

Rosen asserts that legislation would essentially establish the right of the copyright owner to negotiate a royalty fee.

This doesn't sit well with the NAB, which asserts that the legislation will affect radio down the

road. Said McReynolds: "Probably within the next decade all radio stations will be moving into a digital format. (Royalty fees) would in the future affect radio. In fact, the market for radio stations will always be larger than the market for cable services because you can't drive around and listen to anything via cable."

The RIAA hopes to have a proposal introduced to Congress within the next few weeks. In the meantime, NAB President Eddie Fritts has been quoted as saying his organization is preparing for "the mother of all lobbying battles."

## HOLLYWOOD MEETS BOSTON

Producer Maurice Starr has signed a custom label deal that will align his newest venture, Boston International Records, with Hollywood Records.

Starr, known as the mastermind behind *New Edition* and *New Kids On The Block*, will be President/CEO of the label. He will sign and produce all acts. Also playing a large role in the formation of Boston International is veteran promotion executive Cecil Holmes, who's title will be Senior Vice President for Promotion. The label will be distributed via WEA,

through Hollywood's deal with Elektra.

"We're very excited about a joint venture with Boston International Records," said Hollywood president Peter Paterno. "The energy of the staff at Hollywood Records will compliment Mr. Starr's A&R and production genius."

Commented Starr: "Hollywood Records' strong promotion staff and Boston International's fresh, new direction will make a winning combi-

nation."  
 Plans call for Boston International to release three to four albums a year. First up is 17-year-old vocalist Rick Wes, whose album is due out mid-summer.

### KROQ JOCKS PAY

Kevin Ryder, Gene Baxter and Doug Roberts, the KROQ-Los Angeles disc jockeys who engineered the on-air murder confession that turned out to be an expensive hoax, will split the \$12,000 cost of the sheriff's department investigation.

In addition to absorbing the investigative costs, the three will perform 149 hours of community service, which is calculated to be the equal number of hours that the L.A. County sheriff's office

spent working on the case.  
 "They've been humiliated, they've had to apologize on the air," said KROQ lawyer Steven Lerman. "Short of termination, I don't know what else we can do to them."

Meanwhile, station corporate owner Infinity Broadcasting filed a 152-page response to the FCC in answer to the commission's letter of inquiry into the hoax.

### LANE UPPED TO VP AT SBK

This week it was officially announced that Ken Lane has been promoted to Vice President, Top 40 Promotion at SBK Records. He was Senior Director, National Singles Promotion.

Lane joined the label at its inception in 1989 as Director, National Singles Promotion. He previously worked with SBK Executive Vice President/General Manager Daniel Glass at Chrysalis Records, and prior to that was Promotion Director at Z100 (WHTZ)-New York. "It's been a real thrill for me to have started at SBK Records on day one, and in two years watch its success build continuously," said Lane of his promotion. "I am proud of the relationships I have built with Top Forty, and I look forward to strengthening those ties."

"Ken Lane has lead SBK Records to unprecedented successes at Top Forty radio in the past two years,"

said Glass. "He epitomizes our ability to take new artists and bring them all the way."

# LISTENERS SAY THE DUMBEST THINGS

And Some Of Them Just Think Dumb Things

**I**n my last column, I boldly proclaimed that jocks say the dumbest things. I take it back. Jocks do say dumb things but I think we all know that it's listeners who say the dumbest things. Under ordinary circumstances, as they live their lives from day to day, they'll say dumb things upon occasion. But put them live on the radio and it's been mathematically tabulated by professional oddsmakers that the dumb quotient of the things they are likely to say is compounded three fold.

**SANDER C. WALKER** from WFFX in Tuscaloosa, AL was taking calls from secretaries on, appropriately enough, Secretaries' Day. He had asked them to call and reveal the dumbest thing their boss had ever asked them to do. One particular secretary called and recounted the tale of how her boss had asked her to file a personal medical insurance claim

after he had accidentally caught his "thing," as she termed it, in the file cabinet. Hey, it could be worse. "Uh, Miss Burns, can you come in here and help me locate something. I may have filed it under 'P'."

**GREG and STEVEN-O** (The Rude Boys) from San Diego's KGMG claim that listeners phone in with dumb things every day. Among these is a guy who called in to say that he had awoken, that morning, "without a butt." He claimed to have had a butt when he went to sleep but, mysteriously, he woke up without one. Greg and Steven-O never did determine what the guy was talking about to substantiate his claim, but they have linked the phenomenon to a series of station billboards that claim, "The Surgeon General has determined that long-term listening to Rock-102.1 may actually 'rock yer butt off!'" Look, however you attempt to justify the phone call, my determination is that the caller was making an anatomical error. He had actually awoken without a brain.

Then of course there are the "Dumb Things Listeners Say Everywhere." **DALE O'BRIAN** of WMXF in Fayetteville says his favorite occurs when the station goes off the air for maintenance. A listener will invariably call and this conversation with ensue: "Are you off the air?" "Yes, we are." "Well, then why don't you make an announcement?" "Sure. I'll just ride thought the streets and spread the alarm, through every Middlesex village and town."

There's always this popular favorite, pointed out by **WAYNE MICHAELS** at WDCG in Raleigh/Durham, North Carolina. "What time do you do the 'Hot 10 at 10?'" **KIIS/FM Los Angeles'** **HOLLYWOOD HAMILTON** gets a variation on that theme. "When are you doing the 'Top 8 at 8?'" "Gee, I don't know. We were thinking of doing it at eight, but that would be so predictable."

And, of course, there's **SCOTT GURSTEIN's** recurring nightmare at Power 97 in Morgan City, Iowa. Tech limitations force Scott to go live with is winners, so a recent change in call letters has found him tediously reminding listeners to shout "Power 96" and not "Y 96" when he asks the big question: "Who gives you the most chances to win!?" One particular winner seemed a little foggy, so Scott reminder her five or six times what she needed to say when they hit the air. Pull out a tissue, because you can easily guess the ending to this sad story. They went on the air. Scott said, "Who gives you the most chances to win?" And she said...I'm too choked up to continue.

As dumb as this may sound, on

Valentine's Day of this year, a couple of listeners said, "I do," on the **DEANER AND DANIELS** show at San Bernadino's KGGI. Prior to the nuptials, Deaner and Daniels became ordained by the Egalitarian Mail Order Church of America. Then, at a live remote broadcast, they joined Tim and Lisa in holy matrimony. The wedding went so well that Deaner and Daniels were half tempted to milk the radio minister thing and beg for cash.

**CLEVELAND WHEELER** at 93-Q in Houston says that listeners aren't quite as dumb as the guests. He believes that if you were to take all the Playboy Playmate/Beauty Contest Winner interviews done at his station and string them end to end, you might be able to come up with one full sentence, but it would probably be a really dumb one. The category of guests that places second in terms of "least substance" is Politicians, but, according to Cleveland, they can often look much lovelier in a swimsuit.

**RICH VARGO** at WZOM in Defiance, Ohio, now records all phone calls. He didn't until this happened. Rich was giving this listener a hard time by claiming to be his travel agent and re-routing his direct flight via train, helicopter and paddleboat to save him money. By the time Rich confessed his little prank, the guy was highly incensed. Rich said, "Your brother put me up to this." Just then the brother walked in. The irate traveler turned to his brother and said, "You F\*\*\*er!" Rick was suspended for three days. But he was not the only one punished. The travelin' man was sent to his room after his brother told on him.

Yes, listeners do say really dumb things. But isn't that what great radio is all about? Television shows are taped and edited and tweaked and fluffed to a squeaky sheen. Live radio is gritty, messy, dangerous and borderline criminal. Unless you're listening to Kevin and Bean at KROQ. Then it's just borderline criminal.

Fax your ideas to Weezy at (213) 476-9540.

Pictured are Deaner (l) and Daniels and the happy couple who have just exchanged those three little words, "I love you." They are standing in front of a banner that contains three of Deaner and Daniels' favorite words: "Bar...Pizza...Bar."

Hit Factor is a percentage of stations playing a record which also have it Top 20.  
ie: 100 stations playing the record- 60 stations have it in their Top 20- Hit Factor = 60%

# INSIDE TOP 40 by Dave Sholin

Recent census figures reveal that California is now home to one in nine Americans, and there's nothing to indicate population growth easing anytime soon. But it's not only the Golden State's swelling numbers that are astounding. Drive through much of California scanning the radio dial and you'll likely have a difficult time finding a traditional, mainstream Top 40 radio station. As of last week, California's capitol city of Sacramento is now home to what KWOD Station Manager Gerry Cagle describes as, "Alte-gressive-Top 40." According to Gerry, he's still playing the hits with powers like Amy Grant, Roxette, Michael Bolton, Cathy Dennis, Michael Bolton and Hi-Five, along with R.E.M. and Divinyls, but leaning towards Alternative tracks, both gold and current, for "flavoring." He cites research that shows a "huge backlash against Rap expressed by women 16-34," so he's "adjusted his format" accordingly, playing "no Rap," in favor of Modern Rock. Alternative music's popularity seems to grow each year, with releases by R.E.M., Divinyls, EMF and Simple Minds—all enormously successful at Top 40 right now—joined by "Up N' Comers" like Jesus Jones, who are scoring big in a number of markets. California's diversity makes it fertile ground for niche programming, although the appeal of some Alternative music is based in a belief it's Pop music for the Nineties. Alternative Editor Linda Ryan correctly points out that with ten-plus years of musical history, many of the teens who grew up listening to the format in its infancy, are now part of the highly sought after 25+ demo. Linda's predecessor, Peter Standish, now National Promotion and Marketing Manager for Modern Music at Reprise Records, led the way nearly eight years ago when he started up the Gavin Report's Alternative chart. Peter is cautiously optimistic that more music will crossover in coming months and years, but doesn't want to see a "wave that ends up crashing." It's "the maturing of audiences and artists that's helped its commercial viability." "Don't forget," Peter says, "acts like R.E.M., Depeche Mode, The B-52s and others aren't rookies—they've been around for years. At some point, the street buzz—the underground swell—becomes too big for Top 40 to ignore." Richard Sands, PD of LIVE 105-San Francisco, one of the country's most successful Modern Music stations, agrees that a lot more Top 40 programmers are looking at the Alternative charts. "One of the keys to our success," Richard points out, "was realizing there was a large untapped audience not being serviced, but most of them would never admit to listening to a Top 40 station, even if it did play Depeche

Mode." He adds, "Much of what we play is rhythmic music that has driving energy and a beat." How many Alternative releases Top 40 will integrate into the mix is anyone's guess, but don't be surprised to feel its impact more and more in the coming years.

Much like they've done with their previous successes, UB40 is researching very, very well.

It's impossible not to be touched by the nightly images we've witnessed of the Kurdish refugees plight. In an effort to heighten the public's awareness and raise money to help these people, A&M has issued CHRIS DeBURGH's "The Simple Truth." First heard in 1988 on his album "Flying Colors," this track is for radio play only and the cause is certainly worthy. Television has given The Campaign For The Kurdish Refugees a lot of coverage and this is one vehicle to help music radio do its part in encouraging listeners to contribute to the campaign via The Red Cross. If you need a copy or further information, contact A&M's Scot Finck at (213) 469-2411.

**REMINDER:** The Gavin Report will be closed on Monday, May 27th for Memorial Day. Early reports will be accepted the Friday (May 24th) before and on Tuesday, May 28th.

# SAFE isn't necessarily SOUND

**If you're someone who shuns the safe route, you won't be alone at the New Music Seminar.**

NMS attracts the mavericks in music radio like yourself--programmers who keep an ear to the street and who rely on their instincts rather than the back page of *RE-R*--people like Keith Nafialy (PD, KMEL), this year's NMS Webber Award recipient. You share the ability to spot trends, shake up markets, and develop the new formats that the rest of the nation follows. You play and win at the ratings game, but it's got to be on your own terms.

At NMS you'll join 8,500 delegates from around the world representing every facet of the music business. You'll participate in lectures, workshops, debates and panel discussions that will help you solve problems in your own field and broaden your knowledge of the industry forces that profoundly affect radio.

And when the day is done, you can check out hundreds of live acts at New Music Nights, the world's largest international music festival and talent showcase.

As a programmer, you'll find that NMS puts you in touch with new artists and new ways of thinking. You'll learn what music's happening in U.S. regional markets and foreign countries--information that will put you several steps ahead of the competition in the market you know so well.

Don't pass up this valuable opportunity. Register before June 12 and save an additional \$45 off our regular rate. Call (800) 888-8596 today! (Registration calls only please.)

# TONY! TONI!

Finding a conversation with Dwayne Wiggins of Tony! Toni! Toné! is like dead stopping a speedboat zooming full tilt across the waves. The rush is still there, your sea legs are still working, but now! everything's stopped and you have to adjust to dry land. If I could write as fast as Dwayne can talk, there'd be no spaces between the words.

The five Tonys, (Dwayne, his brother Raphael, their cousin Timothy Christian plus Elijah Aker, Antron Haile and Carl Wheeler) are just off what they call a "potluck tour." They've been traveling around the states, changing tour partners, so to speak. Joining them in different cities were EnVogue, Father MC, Hi-Five and Salt-n-Pepa. As we spoke, the group was in Los Angeles taping a segment of Rick Dees' *Into The Night*.

How to describe the Tony sound? We've heard it's been described by Mercury Records Co-President Ed Eckstine as "greezy"; it's well-known that one of the Tonys favorite places to eat is "1/4 lb. Giant Burgers" at the corner of 81st Avenue and East 14th Street in East Oakland; the band has concocted their own recipe called "Tony! Toni! Tone!'s Nouveau Soul Mustard Greens with Black-Eyed Peas in White Wine."

Dwayne himself has said, "When you listen to us you want to sit back with a plate of greasy chicken and greens and all that down-home food!"

It's been a heady couple of years for these Oaktown hitmakers. The sales of their 1988 debut album *Who?* leveled off at 700,000 copies and five hit singles. The second, 1990's *Revival*, has passed platinum, and the fourth hit single "Whatever You Want" is slowly moving down the Urban Contemporary chart after making itself at home at number one for a couple of weeks. "Whatever You Want" has also had solid success at Urban/Dance-leaning Top 40 stations.

While *Revival's* success will most likely match that of *Who?*, the similarity pretty much ends there. For their sophomore album the group changed producers and *that look!* The conservative threads they wore have given way to clothes whose colors match the Tony's '70s-ish funky, bottom-heavy sound and personality—vibrant, chic and neon!

What better place for a nineties group to start than Oakland, California—a city whose image belies its reality. Underneath the tarnish the press likes to harp on, is a hopping music scene. And not many are more plugged in and diverse than the Tonys. "We've played instruments behind (gospel singer) Tramaine Jackson," Dwayne re-

members. "We were serious about gospel—still are."

Not far from the Tonys lived a percolating lady named Sheila E., and the group toured as part of her band for awhile. They stood out so much they were offered a contract with Prince's label, Paisley Park, but decided against it. A few twists and turns later the Tonys ended up ended up with Wing/PolyGram Records and in the studio with producers Denzil Foster and Thomas McElroy—and magic was born.

They hit the ground running, and haven't stopped yet.

What to do after such an incredible debut?? How do you survive the stress? For one thing, the Tonys took a chance and

produced *Revival* themselves—something they planned all along, because, though they maintain profound respect for Foster & McElroy, ("They're *workers*, they take themselves and us seriously") the group wanted to take a hand in forging their own identity.

"Your sound and your image is a big part of your success," Dwayne said. We have a really strong opinion of how we want to sound. There was a lot of pressure (producing *Revival*) because it was not just another album. We had to prove ourselves. We wrote all of the album—and thank God the singles were number ones!

"It wasn't as hard as it could have been," Dwayne continued. "*Who?* wasn't one of

# TONÉ!

those situations where the producers said, 'We're the producers and that's it.' They (F&M) respected our opinions and used a lot of our ideas. So we got a good hand in it and were ready to go in and produce our second album."

Although Dwayne, Raphael and Tim are the ones in the spotlight, all five members of the band are credited with writing and producing. What's it like working with four other people? Maybe someone's in charge. Maybe there's creative friction. "There's nothing planned," Dwayne said of the group's workings. "One person will maybe come in with a bass groove, or with a hook, and we work from there."

Whatever the five did in the studio this time sure worked. Ask any musician about the sophomore jinx. Most times you'll get shudders and apprehension. Tony! Toni! Toné! got "Blues," "Feels Good," "It Never Rains," and now "Whatever You Want." And though they say they don't concern themselves with crossing over, and though they haven't hit it huge with Top 40 audiences yet, those folks sure know who they are.

The word revival has many different meanings. In Tony language, it partly has to do with their deeply rooted connection to gospel revivals and partly to do with their new look.

"The new look is what we call 'funky, wild and free,' with the accent on free" Dwayne said, starting to talk even faster. "A lot of our things don't match, but we say 'go for it, it's fun!'"

"Everything was more conservative, clean and preppy on the first album—right down to the shoes. Now we like things that are flashy." There is, however, another reason for the loud clothes. "It helps us stand out on stage because we don't have much production," Dwayne admits. "So, what jumps out is our clothes."

Dwayne's still going 120 mph—matching the speed with which *Revival* is running out of record stores. The "potluck tour" is over, but the Tonys aren't slowing down. As we mentioned, the group was in Los Angeles

taping with Rick Dees. Right after, they were heading into the studio to work on the soundtrack for Kid 'N Play's upcoming film, *House Party II*.

After all the traveling, are they going to be able to stay in the groove? "We sure are," Dwayne laughs. "To be honest, we don't have any ideas yet, but we're going to go in the studio with a vibe and we'll come up with a party mood. We'll probably fill the room up with confetti and party balloons!"

The ride won't stop with the movie soundtrack. Coming up is a tour that begins the first part of June—just two weeks away.

"We'll be out all summer—we're basically going from one tour to another," Dwayne says, with unflagging energy. "We'll be out until September."

But this time, the group is prepared to have even more fun—if that's possible. "We're going to take our toys with us this time. We're taking jet skis, weight machines, go-carts. We're going to put them on the trucks. In certain places we're going to be in town one or two days—so we plan to enjoy the summer!"

As Dwayne talked about his toys, I realized that for all his enthusiasm it's been work! work! work! since Tony! Toni! Toné! went into the studio to record *Revival*. When asked if he can get off the merry-go-round now and then, Dwayne assured me he does.

"When I'm on the road I like to meet people and find out a little about the cities we're in. I go to clubs and I'm not afraid to

talk to people." Can folks get around the fact that he's a Tony. "You just have to let them know," he said. "I just say, 'I want to have a good time like you—let's hang together.' And then I end up spending the evening with three or four people I don't even know, but we have a cool time."

"Sometimes I invite them to our gig. I've even gone to some people's houses and met their families!"

Our conversation began to wind down, even though Dwayne was still speeding. We talked about the label he's forming, Boomtown Records, and a group he's producing, the funky R&B band Kenya Groove. And we talked about the band's hometown.

The part of Oakland that gave us Tony! Toni! Toné! can be pretty mean. In fact, it's been mean to Dwayne and Raphael Wiggins, who have lost two brothers and a sister to the streets. Less than two years ago the sister, Sarah, a singer herself, was backing her car out of the driveway and a man driving a stolen car crashed into her.

Tony! Toni! Toné! spoke of the town's rough side on their first hit single "Little Walter," which is reminiscent of the spiritual "Wade In The Water." It's the story of a drug dealer whose life catches up to him.

But there's a flip side to Oakland—a side that's, if possible, even more vibrant than the Tonys clothes. It's music and poetry and love and *life*. And that's the part Dwayne Wiggins wants to and is capturing and perpetuating. And, like a true Oaklander, he plans to give something back.

"I was talking to a friend—someone who has helped me out in my career," he said. "We always exchange ideas. We want to start what we call a continuation school—a school where African-Americans can go to learn about African history—about our heritage and our culture. I think that would help."

With that positive thought, Dwayne Wiggins said goodbye and sped on to his next adventure. ●

## P.D. NOTEBOOK

by Eric Norberg

PRINCIPLES  
OF PROGRAMMING:  
ONE VIEW

**A** very experienced friend in the business asked me recently to articulate my own views of the principles behind Program Director. Being a PD is central to the point of view of this column, and newcomers to the business are being added to the Gavin readership all the time. I thought a generalized version of my response might be useful to reprint here, although much of it has been dealt with, at least partially, in past columns over the years. I hope it will prove helpful. If you have any thoughts or alternate views, I hope you'll feel free to contribute them to be included in a future follow-up column! Here's what I wrote him:

1. Repeated listening and extended listening is determined mainly by listener expectations. These expectations are influenced by only two things: Previous experience with the station (underlining the importance of format consistency); and outside promotion.

2. The product is defined by the package. Would Campbell's soup sell as well if the same product came in clear plastic bags? If the label design were radically changed? Do we define a glass of water by the water or by the glass? A bad product in a good package will not sell as well as it might, but it probably will sell. A good product in a bad package won't sell well at all. In radio, it is important to get the product right—the mixture of program elements, the balance of the music, and so forth—but then it must be *packaged* well in terms of format structure (placement of program elements, use of liners, jingles, elements of distinctive station "style"), and its image or identity enhanced in outside promotion, in order to maximize success.

3. The sad fact of the matter is that the majority of radio programmers don't really understand what's essential in constructing effective programming: Perceiving the station the way the *listener* perceives it (which is quite different from how a radio person perceives it), and then devising the sequential elements on the air so that the listener will perceive it as intended—and so that the intended perceptions are constantly reinforced with each listening. Regrettably, many program consultants have the same problem! Most programmers—and most consultants—

closely adhere to the "conventional wisdom" of the profession at any given time. This results in stations sounding the same, using techniques that all sound the same, using slogans and liners that are all the same, etc.

Many programmers—and, alas, many consultants—want to be judged by *how effectively and consistently they execute the common wisdom in the profession at the time, rather than by what success they may attain!* Perhaps the erratic nature of ratings results encourages this.

4. When you do what everybody else does, in any field, you are insulated from the most risk—but you are prevented from being conspicuously successful, too. In investing, and in fact in any human endeavor, increased risk and increased rewards always come together. To translate this financial simile into radio programming terms, copying currently popular programming ideas would seem to be the low-risk approach (like keeping your money in a bank account), but you are unlikely to dominate your market in that way (in bank accounts, your gain is simply a small, steady rate of interest). Implementing a well-defined but clearly *different* programming approach makes your station stand out (like putting your money into the stock market), and *only by standing out from the competition are you likely to dominate your market.* But you don't understand exactly how a listener perceives your station, you might communicate a "station identity" quite different from what you intend. (Investing in stocks, you can gain much more money that you can in bank deposits, but if you don't choose a stock from a point of understanding the company, and what may influence its stock price, you can lose much or all of your money instead.) For someone who understands the listener's perceptions of his station and of radio in general, though, the risk is low and the potential gain is high. It does require courage to do, no matter how sure you may be that it's right, because it will be a repudiation of peer opinions—the "consensus viewpoint" in the industry. The gain can be great, though, not only because listeners tend to respond to originality and new ideas, but also because when you succeed by doing something perceived by your competitors as being unfashionable and incorrect (or just plain strange), they then lose their confidence in the "conventional wisdom" and drift away from the positive elements of what *they* have been doing, thus reinforcing your own position in the market while weakening theirs further.

5. Any programming decision made without taking the listeners' perceptions and the intended *result* into account is likely to be off-target, at the very least.

I repeat, those are *my* views of some of the basic principles of radio programming; I know many will disagree with some or all of them,

and others will decide I left out important points that should be included. This is your invitation to submit *your* views on this most fundamental of all subjects, and I'll print them in future columns.

Write me, as always, c/o the *Gavin Report*. And should you want to call me directly, my number is (503) 232-9787. If I'm out, leave me a message and/or page me, and I'll get back to you! ●

## HEAR AND THERE

by Sheila Rene

**Bad blood:** The **Black Crowes** have given the boot to their opening act, **Capitol's Maggie's Dream**, after only three dates, alleging the band pursued corporate sponsorship. You probably remember that the Crowes were kicked off **ZZ Top's** tour because lead singer **Chris Robinson** repeatedly made disparaging remarks about corporate sponsorship. But **Maggie's Dream** has issued a press release saying they are "not financially supported or sponsored," even though they did "provide a song to be used in a Miller Beer spot." "It's unfair that **Maggie's Dream** has become victims of an argument between **ZZ Top**, Miller Beer (**ZZ Top** tour sponsor) and the **Black Crowes**," said band manager **Warren Entner**. To replace **Maggie's Dream**, the **Black Crowes** have invited **Uncle Green**, a band from their home base of Atlanta, to open until May 12, and then **Jellyfish** takes over...

**Bits & Pieces:** Out of Austin, TX, gunnin' for your attention is **Johnny Law** on **Metal Blade/Reprise**. **Black Crowes** producer **Brenden O'Brien** took the band to Atlanta to record and introduced them to his buddies in the **Georgia Satellites**. They ended up covering **Dan Baird's** "Too Weak To Fight" and working on some terrific originals...The new **Bad English** album **Backlash** is due in July...**Whitney Houston** will begin her career as an actress in a movie with **Kevin Costner** called "The Bodyguard." Shooting begins as soon as her tour is completed...Producer **Tom Werman** has begun work on **Lita Ford's** next album...**Michelle Shocked** will work with Blues great **Clarence "Gatemouth" Brown** on her next album...**World Party** will release an EP in June with three different mixes of "Thank You, World," plus five new and previously unreleased tracks...Can't wait for the "Lollapalooza" tour which begins July 19 in Phoenix, Arizona. Must admit that even if **Ice-T** fronting **Sire's** Metal band **Body Count** was the only act playing, I'd be there. But it's a chance to see **Jane's Addiction**, **Living Colour**, **Nine Inch Nails**, **Butthole Surfers** and **Siouxsie and the Banshees** at this "arts/entertainment/information festival"... Canada's top

male country vocalist, **George Fox**, has just completed his second U.S. album for Warner Bros., *Spice Of Life*, which was produced by **Garth Fundis** and is scheduled for a May 28 release. Look for Fox and his new band of Nashville musicians at the 1991 Fan Fair in June. The first U.S. tour begins this spring...In June, **KORE/Atlantic** will be releasing the debut album from **Wild Horses**, featuring former members of **Kingdom Come**—drummer **James Kottak** and guitarist **Rick Steier**. The lead vocals will be handled by **John Levesque** and Levesque's fellow Bostonian **Chris Lester** will play bass. **Keith Olsen** is producing...

The "Thelma & Louise" soundtrack has some great stuff on it. **MCA Records** has released the album of **Ridley Scott's** film starring **Susan Sarandon** and **Geena Davis**. The lead track is a new song from former **Eagle Glenn Frey**, written expressly for the film with longtime friend, **Jack Tempchin**. "Part of Me, Part of You," performed by Frey, was produced by super-producer **Don Was** and co-produced by **Elliot Scheiner**. Also included is two Nile Rodgers-produced songs from **Charlie Sexton**—"Tennessee Plates" and "Badlands." Other tracks from **B. B. King**, **Martha Reeves**, **Marianne Faithfull**, **Kelley Willis**, **Toni Childs**, **Chris Whitley** and

**Grayson Hugh** deserve a spin as well...

Get on your mark, get set and fill out your **Foundations Forum '91** registration form. The Los Angeles Airport Marriott will host the fourth hard rock and heavy metal convention October 3, 4 and 5. The great change this year is that the first day will be programs, exhibitions, listening parties, etc. just for music industry folks. The following two days will be chock full of "how to" meetings for the hundreds of bands who are ready to leave their garages. The first annual **Foundations Awards** will be presented on "industry night" at a fund-raising ceremony. A portion of the proceeds will go to **T. J. Martell Foundation**. I'm half packed already...

Musical collaborations get me off and there seem to be more every year. **Contraband** brings together some of the best hard rockers around—**Tracii Guns** of **L.A. Guns**, **Share Pedersen** of **Vixen**, **Michael Schenker** co-leader of **MSG**, **Richard Black**, frontman for **Shark Island** and **Bobby Blotzer** of **Ratt**. It was great to see these troopers turn an MTV "Unplugged" segment featuring **Vixen** and **Ratt** last December into one super spin. Producers **Randy Nicklaus** and **Kevin Beamish** assisted in choosing the ten songs. The **Mott The Hoople** classic, "All The Way From Memphis" from the mind of **Ian Hunter**, and

**David Bowie's** "Hang On To Yourself" are my faves...

**Capitol** recording group **The Smithereens** are currently recording their follow-up album to *Smithereens 11* with producer **Ed Stasium** at **A&M Studios** in Hollywood. There, the Smithereens' **Pat DiNizio** (left), **Dennis Diken** (seated), **Mike Mesaros** (second from right) and **Jim Babjak** (right) had a neighborly reunion with fellow New Jersey native **Bruce Springsteen**, who happened to be laying down tracks in the adjacent studio. Look for the Smithereens' fourth album to be on your turntable by summertime... ●

•MICHAEL JACKSON

British director **Sir Richard Attenborough** has been asked by **Michael Jackson** to direct one of the videos for **Michael's** next album.

•SIMPLE MINDS

**Simple Minds'** new album, "Real Life," is the first album in the band's twelve years that has not included founding member **Michael MacNeil**, who left the group after the band's last tour.

•AMY GRANT/MICHAEL W. SMITH

**Grant and Smith**, two legends in Gospel music, have worked together for more than a decade, but **Michael** decided to keep his song, **PLACE IN THIS WORLD**, for himself. He recently told **The Los Angeles Times** that he was convinced **Amy** would have recorded the song but he said, "I've got to start hanging on to some of these good songs."

•CHICAGO

Former **Chicago** drummer **Danny Seraphine** is suing the band for \$1.5 million, claiming that the remaining original members have recently converted their 1967 partnership into a corporation to exclude him from his rightful shares.

•JOE PASQUALE

The new **Joe Pasquale** single, **PAINT IT BLUE**, was originally written by songwriter **Diane Warren** for **Elton John**, but **Elton** passed and the rest is history.

•MARIAH CAREY

Tired of the criticism that she's trying to sound **Black**, **Mariah Carey** was quoted in the **March Ebony** magazine, "My father is **Black** and **Venezuelan**, my mother is **Irish**. That makes me a combination of all those things. I am a human being, a person. What I am not is a white girl trying to sing **Black**."

•GLENN FREY

Though it is believed that the inability of **Glenn Frey** and **Don Henley** to work well together is the prime reason for the lack of an **Eagles** reunion, it should be noted that **Frey** and **Henley** are neighbors. They both have vacation homes in the mountains of **Aspen, Colorado**.

•PAUL OVERSTREET

The **Mississippi Broadcasters Association** has named **Paul Overstreet** as their 1991 "Mississippian of The Year."

**Entertainment Weekly** notes that after an appearance on **Oprah Winfrey's** TV show in **March**, **Oleta Adams** sold more than 300,000 copies of her album. **Writer Nina Malkin** commenting on the **Oprah** phenomenon says, "Oprah devotees—predominantly female, middle-class and as cutting edge as **Tupperware**, may not know what's hopping on **MTV**, but that doesn't mean they don't buy records."

•ICE CUBE

Not to be outdone by **Ice-T**, **NWA's Ice Cube** will make his acting debut in **John Singleton's** ghetto-life film, **Boyz 'N The Hood**, this summer.

•MARVA HICKS

Only one new entry in the Top Ten and that's LUTHER VANDROSS. He has moved 23 to 9 the past two weeks with a 33% increase in HIT FACTOR during that period.

GLENN FREY's two-week chart gain (33 to 11) comes on the strength of 55 ADDs and a 36% increase in HIT FACTOR. Among this week's new are WJBR/FM, WMTZ, WJON, WFBG, WNUY, KLWN, KSAL and WRBA/FM.

HOTTEST record in A/C radio is PAULA ABDUL's "Rush, Rush." Its three-week air-play total of 225 stations is already the fourth highest in the format. Also of note is that 62% of all players are HIT FACTORing, while 79% of last week's players are already in committed rotation.

The acoustic ballad, "More Than Words" by EXTREME, is continuing to convert skeptics by the score. This week it moves 27 to 20 with another 29 ADDs including CKFM, WWDE, KSTP/FM, KEFM, WTPI, WFMK/FM, WMYX, KESZ and KCMX.

With a 22% HIT FACTOR increase (the second best in the format) the new SURFACE moves 34 to 27. More than half the format is now playing it including KBIG, KCMJ/FM, WAHR, WEOL, KBMG and KMAS among

the ADDs and KSSK/FM and WTPI in HEAVY.

Last week's TOP TIP, SARA HICKMAN's "The Very Thing," is this issue's highest chart debut at 33. Twenty more ADDs take it over the 100 station mark with WSUL, WGMT, KPAY, KMJC/FM, WHSY/FM, WMT/FM and WAHR.

Second-generation musicians the WILLIAMS BROTHERS debut right on SARA's heels at 34 thanks to 24 more players like WBDX/FM, WGBE, WLGN, KAYL, KJTT and Q92/FM.

Re-debuting on the chart is MICHAEL W. SMITH's "Place In This World." Though only 59 stations reported the record this week, a healthy portion of them reported HIT FACTOR rotations (62%).

Our TOP TIP and a sure-shot to debut next week is GEORGE MICHAEL's "Cowboys And Angels." It was our format's MOST ADDED by a wide margin, with 69 out-of-the-box.

R.E.M.'s "Losing My Religion," RECORD TO WATCH last week, converted 18 more A/C stations, delivering their total to 58 and moving the single into CHARTBOUND. A few of the new are WEIM, WSUL, WBLG/FM, WMTZ, WRFC, KRDI/FM, KBHT, KYTE and KWXX. Already in HEAVY rotation with WHMI, WXPS, WKBX, WMSQ, KLSS, KVYN/FM and B100.

Qualifying for RECORD TO WATCH this week is THE ESCAPE CLUB's "I'll Be There," with a notable 47 ADDs in its first week. Among the new are WKYE, WPXZ, WCEM/FM, WFFX, WHSY, WNMB, KSCB, KXLV/FM, WHIZ, WQLR, KKLD, KLZY, KSBT, KKR, KXLE, B100 and KFMB. This song is about when someone dear to you leaves this earth and how inner thoughts keep them still alive within. Their delivery of this well-worded tune is something special.

## WILSON PHILLIPS

*The Dream Is Still Alive (SBK)*

Carnie Wilson takes the lead on this single, the fifth and last from their awesome debut album. Their harmonies are so warming that there's been no overkill, just the feeling of wanting more from this fabulous trio.

## MIKE + THE MECHANICS

*Everybody Gets A Second Chance (Atlantic)*

Motown pop from the crew. It's all hook, all the time. Should make up for the flat-out flop of their previous single, "Word Of Mouth."

## BRUCE HORNSBY & THE RANGE

*Set Me In Motion (RCA)*

A pop tune from the soundtrack of Kurt Russell's new film "Backdraft." Sounds like Hornsby & The Range, so it should get serious A/C consideration.

## DARDEN SMITH

*Frankie & Sue (Columbia)*

With summer around the corner, the timing is right for this likeable boy-girl lyric and finger-snapping melody. Darden may be new to our format, but this song seems to be a natural.

## JEFFREY OSBORNE

*The Morning After I Made Love To You (Arista)*

Lyrical reminiscent of his '84 duet with Joyce Kennedy, "The Last Time I Made Love," this is J.O. at his pillow talkin' best.

## MICHAEL DAMIAN

*What A Price To Pay (A&M)*

Mr. Damian makes a very continental ballad that should sell beyond his legion of pre-sold fans.

## NATHALIE ARCHANGEL

*So Quiet, So Still (MCA)*

Not the languid and limp sounding record implied by the title. A strong rhythmic track and unique vocal approach make this a standout.

# JAZZ NEW RELEASES

## FISH WITH NO FINS - NATHAN BERG (TIME IS)

The Jazz spirit of Kansas City has contributed another aspiring young talent named Nathan Berg. Raised in nearby Lawrence, Kansas, Berg has an innate feel for the lynchpin groove of the acoustic bass. He toured extensively with Maynard Ferguson's Big Bop Nouveau band, and while in New York received fine notices after gigging with Clark Terry. *Fish With No Fins* is swimming quartet sounds with the bassman running the show. Berg tweaks his bass tone with a dash of studio sweetening that lifts him up half a notch over the band in the final mix. It's minutely reminiscent of the times Duke Ellington put Jimmy Blanton centerstage. *Fish With No Fins* is never too snappy or overbearing, and Berg makes the bass speak and strut with punctual bravado. Berg convinces the listener that he's something special. We like "Monk's Dream," "When You're Finished," "Kurt, Rabo And Trout" and the opening title cut. Hard core Jazz fans should take the plunge with *Fish With No Fins*.

## STORM RISING - JIM SNIDERO (KEN MUSIC)

Looking for a dependable, play everyday, energized Bebop alto sax player? Jim Snidero doesn't yet have the name value of a Christopher Hollyday or the unbridled pizzazz of Frank Morgan, but his latest will provide Jazz radio some decent above-the-mean musical perks. *Storm Rising* is Snidero's fourth effort as a bandleader—something he does with vigor. With Mulgrew Miller one piano, Snidero has an able vet who complements his reach-for-the-sky, flailing note attack. Jim honed his chops during a stint as a soloist for pianist/arranger Toshiko Akiyoshi during the early eighties. Even on a subtle ballad like "Beatrice," Jim seems to look ahead to the next uptempo number like "Fast Lane" or "Storm Rising." He pops off scales and eighth note riffs with sheer speed. Luckily there is just enough anxiety in his sound to classify Snidero among the other young players who are serious about preserving the Bop legacy.

## SERIOUS FUN - LESTER BOWIE'S BRASS FANTASY (DIW)

With the cascade of DIW releases, it's hard to sort the titles without a scorecard. Multi-releases by John Hicks, David Murray and now Lester Bowie have tested our powers of accuracy. Amidst the confusion of two Brass Fantasy discs, *Serious Fun* is a splendid big-band lark that features some exotic covers. Not afraid to toy with your mind, LB's Brass Fantasy takes on Sade's "Smooth Operator," James Brown's "Papa's Got A Brand New Bag," the Billie Holiday anthem "God Bless The Child" and even Bobby McFerrin's immortal "Don't Worry Be Happy." *Serious Fun* is no spoof, but more...well, serious fun. Trombonist Steve Turre and oom-pa-pa tuba

virtuoso Bob Stewart help distinguish the underlying large ensemble sound. Brass Fantasy has the quirkiness of Carla Bley's zanier moments. "Bag" and "Operator" will jar your listeners' psyche and draw a chortle or two. Lester Bowie has succeeded in fusing his rhythm and blues salad days with his raucous, irreverent stance as jester of the Manhattan loft scene. He uses his trumpet like a great comedian uses a microphone—to uplift and entertain, and to stimulate the imagination.

## I REMEMBER CLIFFORD - JAMES WILLIAMS, RICHARD DAVIS, RONNIE BURRAGE (DIW)

*I Remember Clifford* is one of those recordings where no single member of the trio fesses up to being the leader. This is the month of collaborative releases—i.e. Hicks/McBee/Jones, Jones/Holland/Higgins, Drummond/Jones/Higgins. *I Remember Clifford* is a viable threefold collaboration. James Williams affords himself more democratic and adventurous space than his previous EmArcy releases. Richard Davis is the cornerstone of tone and time. Ronnie Burrage is dynamic and powerful, and not content with simple timekeeping. They challenge the infrastructure of the trio to venture past trading eights or sixteens. Duke's "Take The Coltrane" is an explosive, pass-the-ball-around game of musical pepper. Williams isn't burdened with supplying the melodic highlights of the sessions; there's a real interlocking groove here. On a track like "Focus," they emit sparks of individual spirited exchange. The *I Remember Clifford* sessions resemble a boat with three rudders—all on the same course.

## JUBILEE - DOTSERO (NOVA)

Denver's Dotsero satisfies the Adult Alternative format with its dazzling guitar/saxophone/keyboard configuration. Listeners who are fed up with burnt rock recurrences, but still hesitant to take the Bop plunge will find Dotsero a meaningful summit. A spiraling tune like "The Irrational Season" is chordally challenging but retains the familial elements of fluid electric guitar leads and odious saxophone themes. Guitarist David Watts and saxman Stephen Watts play together like they were joined at birth. In fact Dotsero's strong point is that the whole group is a focused unit. The band, which rounds out with bass, drums, keyboards and percussion, really gels on "Winter's Journey." The tune is born out of some sumptuous guitar chording combined with some energetic bursts from keyboards and sax. Today's pop Jazz listeners will feast on the feel-good grooves and Urban-styled accents of "Mission MacGyver."

## RED ALERT! - RED RODNEY (CONTINUUM)

The last thing trumpet legend Red Rodney wants to be these days is a tired relic from the Bird days. That's why *Red Alert!* is a split idea

between furious Bop and a more modern (but not fusionary) electric sound. Rodney's even distinguished the two different styles of tracks by color-coding selections in red and blue. It's a godsend for the hurried radio programmer conducting music meetings. Adult Alternative folks should go for the synth-textured, flugelhorned "Island Girl." There's some cozy duet passages from Red and soprano sax player Chris Potter. Another "blue" track, "Sweet Soul," is a nice romp with Potter switching over to tenor across the backdrop of a triggered drum program. Send out the red alert for crimsoned colored live-drumming, acoustic Jazz gems like "One For Didi" and "In Case Of Fire."

### RED HOUSE - ROD ARGENT (RELATIVITY)

Most of us remember **Argent**, the immensely talented band that **Rod Argent** formed after disbanding the **Zombies**—who topped the charts with "She's Not There" and "Time Of The Season." When crafted songs like "Liar" and "Hold Your Head Up" became hits, Rod went on to pioneer the rock n roll progressive keyboard/synth sound alongside contemporaries **Rick Wakeman** and **Keith Emerson**. After **Argent's** breakup, he opened a music

store in London and recently surfaced as co-producer for **Tanita Tikaram's** albums. **Red House** is some diversionary basement soundscape ditties recorded a few years back. Wave-oriented Adult stations will benefit most from **Argent's** reemergence. **Red House** has good astral rock moments that will sound great next to the fine **William Orbit** and **Darryl Way** recordings that **IRS/No Speak** recently brought out. That's ex-**Humble Pie** guitarist **Clem Clemson** on tracks "Sweet Russian" and "Salvation Song."

### COLLAGE - STEVE HAUN (SILVER WAVE)

If rapturous, classically tinged music that builds and crashes like high energy ocean waves is your thing, look no further than **Steve Haun's Collage**. **Haun's** compositions take on triumphant proportions. Pieces like "Soaring," "Breaking Away," and "The Traveler" are dramatic, symphonic swells of emotion. One envisions immense geographical chasms in **Haun's** music—jagged mountains, deep gorges, sprawling countryside. **Collage** is also cinematically arresting. The main melodies tug at you with vital urgency, like the last few minutes of a **Rocky** film. **Nelson Rangel's** searing alto sax lines pro-

vide the main demonstrative thrust alongside **Haun's** keyboard and drum programming. "Forgotten People" features some anthemic guitar work from **John Radebaugh**.

### CHRIS SMITH (AGENDA)

Harmonica ace **Chris Smith** distinguished himself when the **Agenda Collection** disch had its run on the Adult Alternative chart. He is a super technician with his instrument. His debut **Agenda** release engages two kinds of sounds. Of course we're guessing, but on tracks like "You And Me" and "Jamocha" he performs on chromatic harmonica and we find the tunes to be more melodically structured. "Saguaro" is the breezy AA favorite. On funkified tracks like "Cy Winder" and "G.Y.A.O.O.B.," **Smith** adapts to the chordal blues harp feel. The moods often heat up a bit more. Either way, **Smith** is the "can do" guy on the mouth harp and makes a modern, eclectic statement with his axe.

## NEW RELEASES

BY KENT ZIMMERMAN

### FROM STRENGTH TO STRENGTH - PETER HIMMELMAN (EPIC)

"All these impermanent things/ Oh how they fool me/ dominate and rule me." Peter Himmelman has really arrived. His albums on Island laid the groundwork. When the label merged with PolyGram, roster cutbacks put Peter on the street as an unsigned acoustic balladeer. Using both experiences, Peter has put together a terrific set of songs that pack a wallop. Himmelman crafts a beautiful collection of songs that are poignant not because they're politically correct (heaven forbid), but because they drip with sincerity and humanity. Himmelman deftly combines timely lyrics with backhanded spiritual references. Rather than the politics of the mind, Himmelman jams for the politics of the heart. A couple of ferinstances? Try trax like "Impermanent Things," "Woman With The Strength Of 10,000 Men" and "Midnight Walk In The Ruins." Thanks to Brad Hockmeyer at KTAO who FAXed a report and scrawled "Best Album Of The Year" under Peter's name. What's evident after one play is that this is the kind of album that, like a deep, deep cave, has a rich sense of mystery, allure and creative risk. I see myself venturing deeply into this collection frequently for months to come.

### "KOZMIK" ZIGGY MARLEY (VIRGIN)

Virgin is fast becoming the label that is pushing rock radio's soul envelope with amazing music from artists like Lenny Kravitz and now Ziggy Marley. Not that it's the easiest way to break artists,

but a song like "Kozmik" sets up an instant groove. Besides that groove, there's optimism at work here. Totally you-know-what.

### "SAY AHH" MERCHANTS OF VENUS (ELEKTRA)

Brian Landau, our street level Elektra rep, played this one for us first. Then came the radio reports. According to Brian and Jody Peterson at WNCS, Merchants Of Venus are a trio of refugees from Lone Justice and Buster Poindexter's band who moved deep into amid the Amish communities, creatively reviving themselves. As a native Pennsylvanian, I can well remember how the sight of the Amish can jar your brain into another time period. Musically the Merchants are nineties-driven, but it sounds like all that country living ("far from the lights of the city/behind the rolling hills") has taken a strong, fresh effect on this fine new band.

**MIGHTY LIKE A ROSE**  
**ELVIS COSTELLO**  
**(WARNER BROS.)**  
Watching Elvis Costello from al-

bum one, this I conclude. As a writer, Costello has shown finesse and astounding expertise in both his lyrics and melodies. On his most commercially successful releases, lyric and melody are of equal importance. On his more obscure efforts, the lyrics usually take command. Such is the case on Mightly Like A Rose, where lyrical marathons like "How To Be Dumb" and "Invasion Hit Parade" splatter and sizzle images as obscure as "emptied asylums" and "Disco Tex and his Sex-olletes." (What did ever happen to Monte Rock III?). Perhaps last year's commercial success with Spike enables Costello to return to taking liberties as heard on the lushly arranged "Harpies Bizarre" and the L. Cohen-like "After The Fall." From an airplay standpoint, after "The Other Side Of Summer," you're on your own, baby.

### "THE WASTELAND" WARRIOR SOUL (DGC)

I think my friend John Rosenfelder will agree. Last year's Warrior Soul debut, a cross between angry metal and alternative in the most literal sense, was pitifully overlooked. For the hard rock at heart, "The Wasteland" is an easy call. For the more squeamish, it's a challenge, to say the least. Warrior spokesman Kory Clarke seems to be enjoying his relative anonymity and still spews a twisted sense of Americana. His view of the United States is gonzo, sort of Fogerty gone sour, stuck in Detroit as opposed to Lodi. Like

James Brown's "Night Train," "The Wasteland" makes a whole lot of familiar stops off the high road to urban hell. It's rough stuff, but like last time around, I still believe. Look out for these guys. And turn it up, willya?

### "WHICH WAY SHOULD I JUMP?" MILLTOWN BROTHERS (A&M)

I love it when Linda Ryan "walks in" a record like this one. England's Milltown Brothers take g'itar jangle and quivering vocals to a high art. Add a few layers of Velvets/"What Goes On" string dead chord work and you've got a helluva pieceacake. From the upcoming album, Slinky. Slinky? Apt description. Slinky with edge.

### "ALL THE TIME IN THE WORLD" - JUNKYARD (Geffen)

Yes indeed! Junkyard play it rough and hard, conjuring images of a vicious dog dutifully guarding heaps of spent chrome bumpers and crumpled body work. But this one's got a melodic kick to it. Sort of swaggers like the Stones, sorta grinds like Zep, sorta simple like Badco. If you're looking for solid backbeat, this here's the ticket.

# Semi-technological with an acoustic heart

by Brett D. Atwood

## frazier CHORUS

From Brighton comes a keen creation of music and mettle observation known simply as Frazier Chorus. Taking on life, living, and living rooms, founder Tim Freeman discusses "Ray," the band's debut release on Charisma.

"The whole process of making a record is like giving birth," says Tim, founding member and vocalist of the band. "I've always had a very romantic notion of naming the albums as one would a baby. With Ray, the songs seem to cover the sky, clouds and heaven—other atmospheres and things.

"Living in Brighton, one gets to see these ridiculous picture-perfect art scenes—like the sun setting over the sea, mantra ray, sting rays, the rays of the sun," explains Tim. "Our manager's name is Ray, so we figured if we named the album Ray, he'd put a lot of hard work into it. He's very happy to promote himself."

Using these clever and devious tactics, Frazier Chorus are rapidly enroute to success. Of course, the mere fact that the band has produced a brilliant follow-up to an equally brilliant debut offering might have something to do with the widespread excitement they're starting to generate.

The sound of Frazier Chorus is a collision of

unconventional orchestration with wry, witty lyrics and whispery vocals. They utilize keyboards and violins—not to mention the occasional flute and clarinet—making their sounds an experience to behold and share.

"Our music never ceases to be semi-technological, but it does have an acoustic heart. Flutes and clarinets are very intimate instruments," Tim assures. "You can actually hear the breath—it comes directly from you. It's not like touching a keyboard, which goes through a wire and makes a noise. This is far more human than that. It provides a little heart in what could have been harsh music.

One track for which Frazier Chorus has gotten quite a bit of flack is their amazingly subdued version of the Sex Pistols' "Anarchy In The U.K." "We did 'Anarchy' totally out of respect," explains Tim. "When we play it live we'll often get hell from some sixth generation punk rocker. It's always people who weren't even there at the time that are overly possessive about that song. They've got this idea of T-shirt imagery and the like."

With the release of "Nothing" as their latest single, Frazier Chorus continues the lyrical legacy of left-of-center imagery and imagination. This follows the highly successful "Cloud 8," which stormed up the dance and alternative charts

both here and abroad. But what of their uncanny obsessions with household appliances (witness "Dream Kitchen"), living rooms, and the like? Are Tim and the rest of Frazier Chorus doomed to be homebodies?

"I tend to choose subjects that are more everyday happenings—things that happen to most of us. This gives you a very good "in" to most people's psyche by lodging your words into them." Tim continues, "Besides, the cheapest way of entertaining myself was by kickin' it around the house. This became a world I could handle. It was a world I knew intimately due to my not going out so much. There are four outer walls and a roof to my project. I knew everything about this house, thus it was inevitable that it would be so dominant in my writing."

Perhaps by choice, perhaps by fate, Tim and the rest of Frazier Chorus have recently been forced from their homes to embark on a tour of the U.K., playing with the likes of the Cocteau Twins, Aztec Camera, and Electribe 101. Perhaps soon they'll be here in the U.S. supporting Ray.

Until the live experience wanders this way, we'll just have to make do. Meanwhile, check out "Ray" and the weird and wonder-filled world of Frazier Chorus. You might even discover a bit about life, living, and, yes, even living rooms.

# ALTERNATIVE INSIDE

BY LINDA RYAN

A reminder that on Monday, May 27th, we'll be observing the Memorial Day holiday. I will be in on Friday (the 24th) from 11-4 PST and that Monday (27th) from 11-4 PST. If you are a Monday reporter, please make every effort to call or fax your report at these times. It's going to be a crazy Tuesday and anything you can do to help out is greatly appreciated. Thank you in advance!

I've never helped a record label solicit material before, but I suppose there's a first time for everything. Nettwerk Records is in the process of putting together a **DONOVAN** tribute album. He's making a (nother) comeback, you know. Anyway, Nettwerk's looking for a few good bands—both American and Canadian—to be included on their album. Rumor has it

that the Hurdy Gurdy man himself will do a spoken word piece! Interested bands and/or labels should contact **RIC ARBOIT** at Nettwerk, Canada: (604) 687-8649.

In station news this week, **JIM KERR** of **WXVX**, has left radio for a label gig. He'll be taking over the Southwest regional duties for **IMAGO** and will be based in Dallas. We're told the station will NOT be changing format, as some of you have heard. **WXVX** is simply making a concerted effort to play more guitar-oriented bands, as the Top 40 station in their market has started to play many of the dance-oriented artists in the format.

Starting at the end of the

month, **CIMX**, Detroit, MI will go Alternative 24 hours a day. The fact that they weren't already kept them from being a Gavin reporter for some time. We're happy for them and the people in Detroit, who get to hear great music all day and all night!

This is the one we've all been raving about! Have you checked out the new **LENNY KRAVITZ** single, "It Ain't Over 'Til It's Over"? Solid summertime groove. Reminds me of my first time in Paris—a little capuccino while the sun goes down (around 10:30). I remember it like it was yesterday.

**FISHBONE** still maintains their number one by a large margin over all competition. Da

Bone have 66 champions with all but a mere nineteen in **HEAVY** rotation.

New in the Top Ten this week is **JOE JACKSON**, who jumps 16-9. **KJJO**, **KTAO**, **KTOW**, **WBER**, **WDET**, **91X**, **KDGE**, **KTCL**, **KUKQ**, **WBNY** and **WDRE** are just a few of his forty-five supporters.

Our Top Tip this week, **PRIMUS**, debuts at an impressive twenty-nine. This San Francisco band can be heard on **KTCL**, **WBNY**, **KJHK**, **KUSF**, **WFIT**, **91X** etc. The band has eight **ADDs** so look for more growth next week.

I'm still recovering from the awesome surprise **GUNS N' ROSES** show that happened last week in San Francisco. You haven't lived until you hear Guns N' Roses do "Live And Let Die."

## THE CANDY SKINS - "SUBMARINE SONG" (DGC)

It's going to be hard to keep your paws off this one! The Candy Skins deliver pure, sweet pop—complete with to-die-for harmonies, jangly guitars (that occasionally crunch and wah-wah) and the omni-present tambourine—three essential elements when referring to god-like pop music. "Submarine Song" is a bottom-heavy, four-minute raving blast with slashing guitars and a hook so catchy you're going to want to hit the "repeat" button of your CD player. Expect the album in about two weeks and then look out! Near perfect. LINDA RYAN

## MILLTOWN BROTHERS - SLINKY (A&M)

It's a good thing I'm a jangly-guitar freak or reviewing these two albums back-to-back might've been a bit much. The Milltown Bros. also have mastered those "three essential elements for god-like pop music," and throw in a little Byrds and Dylan to solidify their sound. In England, the band's name is synonymous with quality songs with a warm, human touch. No synthesizer dance-beats for this team! I like "Apple Green," "Never Come Down Again," "Seems To Me," "Which Way Should I Jump" and (my favorite) "Something Cheap." Britain's newest stars are America's newest hopefuls. Catch 'em on the way up! LR

## RICHARD THOMPSON - RUMOR AND SIGH (CAPITOL)

In his long and varied career, Richard Thompson's seen it all. He pioneered English folk with Fairport Convention, explored a solo career as a Muslim and flirted with the avant garde. With his latest endeavor, Rumor And Sigh, Thompson once again enlists the production expertise of Mitchell Froom, who elicits a clean, airy sound. But, as is the case with Thompson, spending enough time with his well-spun yarns—often dark and brooding—to decipher their meaning is a must. The best part is when you finally find—and then

understand—the sly wink that's at the heart of many of his tales. I particularly like "Read About Love," "1952 Vincent Black Lightning," "Mother Knows Best," "Psycho Street" and "I Feel So Good." LR

## NEW FAST AUTOMATIC DAFFODILS - PIGEONHOLE (MUTE/ELEKTRA)

Icarus Wilson-Wright's name brings to mind those famous flyers of lore (the mythical soarer and the Kittyhawk siblings), and the moniker appropriately describes the way he flies on drums. Percussion is in the spotlight on Pigeonhole, but a crunching guitar that's fond of changing pitches and a grooving bass play important supporting roles. "Get Better" heads things off with a barrage of rhythm and a guitar that could flip pancakes. "Fishes Eyes" features zealous bongos and a delayed guitar that cops a seventies wah wah lick that sounds like pool balls hitting each other. A funky bass bubbles at the bottom of "Big" and Spearpoint's vocals become gnarled and overgrown. The New FAD's consistency will amaze, for none of these tracks are throwaways. DAVID BERAN

## MIND FUNK (EPIC)

This New Jersey-based band lunges onto the scene with an eponymous debut LP. Their heavy rock sound belies their name—don't expect another Red Hot Chili Peppers, Primus, or Mordred. Mind Funk has only been together for a little over a year, and what they have accomplished in that time is staggering. The band approaches their music aggressively, but remains controlled, filtering their energy through ripped-up chord changes that collide with jagged melodies. Skins-master Reed St. Mark sets the thunderous tempo while lead singer Pat Dunbar navigates each tune, fluctuating between mesmerizing and in-ya-face vocals. "Sugar Ain't So Sweet" and my fave "Big House Burning" demonstrate the powerful,

hipswinging greatness of which the band is capable. "Sister Blue" reveals that Mind Funk has a handle on delicacy as well as explosiveness. Tranquil acoustic guitars accompany a groovy bend and Dunbar's restrained hypnotic vocals, but the band never relinquishes their hard rock roots. The title of this debut should have been Mind Blowing, and if this is what Mind Funk have accomplished in one year, I'm anxious to hear what they'll come up with in the next two or three.

# PERSONAL PICKS

## SINGLES by Dave Sholin

**JOE WALSH** - *Ordinary Average Guy* (Epic Associated/Pyramid)

Oh boy, that wacky creator of songs like "Life's Been Good To Me" is at it again. Thumbing his nose at glitz and glamour, Joe gets down with "the people," acknowledging millions of "regular Joes." Expect phones and sales for a track that family and friends are gonna want to play for each other.

**GLORIA ESTEFAN** - *Can't Forget You* (Epic)

One only needs to review her astounding record of success with heart-wrenching ballads to

know audiences will welcome this with open ears. A rarity these days, here's a singer who vast numbers of people easily recognize and never tire of hearing.

**TITIYO** - *My Body Says Yes* (Arista)

"Yes" was the first word that came to mind when listening to this hot entry. Like her half-sister Neneh Cherry, Titiyo makes it clear fun time has arrived when the beat kicks in and the energy level rises. A highly commercial Dance production that I'm told Arista execs flipped over when they first heard it during their convention two years ago. I understand why.

**LENNY KRAVITZ** - *It Ain't Over 'Til It's Over* (Virgin)

An immensely talented artist, Lenny delivers a song unlike anything in his repertoire and one that lands him squarely in the Top 40 arena. Not only does he play all the instruments, he glides along vocally in a style reminiscent of Smokey Robinson.

**GIRL OVERBOARD** - *I Can't Believe* (RCA)

Bright Pop music continues to surface from the land down under. Here's the latest Australian shipment, arriving just in time to please the countless programmers searching their new release stack for uptempo material. A few listeners is all it takes to become a believer.

**MICHAEL DAMIAN** - *What A Price To Pay* (A&M)

Dreams are coming true for Michael's many fans who have been waiting a long time to hear his new album, "Dreams Of Summer." Annette M. Lai, Gavin's resident Ph.D. in soap operology tells me some songs from this latest collection have already been featured on "The Young And The Restless," and if this tender ballad hasn't shown up yet, "Danny Romalotti"

is sure to be performing it soon. A top request item immediately at WNCI Columbus.

**WILSON PHILLIPS** - *The Dream Is Still Alive* (SBK)

No matter what the human condition, clinging to the hope that things will improve makes getting through difficult times bearable. America's favorite new trio expresses that beautifully in song, both in English and in Spanish, and of course always in harmony.

## CROSSOVER PICK

**KEITH WASHINGTON** - *Kissing You* (Qwest/Warner Bros.)

Try a little of this for a mood altering experience, but it's probably best to be positioned close to the bedroom, couch or back seat. Number One at Urban Contemporary radio last week, it sounds like a sweet offering for middays or late night dedication shows. Eases into the top twenty at KMEL 26-19 and charting at FM102, KKFR, KWIN, WNVZ and KSTN.

## ALBUMS by Ron Fell

**PAULA ABDUL** - *Spellbound* (Captive/Virgin)

The in-studio pressure to match the success of her debut album must have left Ms. Abdul in a bit of a tizzy. But she shows new sides and growth on this sophomore effort. In the four years since her coming-out in multi-platinum glory, Paula has made sufficient space for audio dynamics within this disc's eleven tracks. I seem to recall that this album was supposed to have featured a truckload of producers and songwriters, but for some intelligent reason the project became primarily the structural genius of Peter Lord and V. J. Smith of the group Family Stand. The result is a tight continuity of track flow that makes this set flow. But since flow goes unnoticed by radio programmers, we're left to pick singles, so here goes: The lead single, RUSH, RUSH is already a hit. For sheer groove, VIBEOLOGY has no equal. THE PROMISE OF A NEW DAY is a natural multi-format smash, while a John Hiatt song, ALRIGHT TONIGHT (produced by Don Was), is a freshly reggaed rhythmic Pop track.
