NEWS FROM POLYGRAM

Album radio/record industry veteran Sky Daniels has been named Vice President of Promotion for the PolyGram Label Group. He joins the label after spending two years at Epic Records as Senior Director of National Album Promotion.

Daniels is widely known throughout album radio, having started in the industry in 1976. He's worked in programming and on-air positions at KMET-Los Angeles, WLUP-Chicago, KFOG-San Francisco and KISW-Seattle.

"Sky and I have been friends for many years and I've been looking forward to working with him for a very long time," said label senior vice president John Barbis. "Not only is he experienced in the record business, but he has an incredible knowledge of the radio industry, especially in the album radio format, which he guided along so well for so many years."

The PLG Product Management team was bolstered this week by the addition of Jeb Hart,

HOT 99.9 CHANGES DIRECTION, INGRAM EXITS

Allentown, PA Top 40 station Hot 99.9 (WHXT) management has decided to steer the station's format in a more adult-leaning direction, and as a result Program Director Clarke Ingram has exited the station.

Ingram is currently doing weekend swing at both Z100 (WHTZ)-New York and Eagle 106-Philadelphia. "I've been doing those two things part time all along," he laughed. "They've stuck with me. It's funny how things work out!"

Ingram said he's looking for another Top 40 position and is "wide open." He can be reached at (215) 252-9990.

Hot 99.9 Vice President Mike Marder could not be reached for comment.

VARIETY COMES TO PITTSBURGH

Late last week in Pittsburgh, what was formerly A/C station WHTX changed calls to WVTY (Variety 96) and now plays a hotter mix of music from the '70s, '80s and '90s.

General Manager Jim Carter said that the change comes after extensive market research. "We found a huge number of Pittsburghers who were looking for a station that played a better variety of music from the seven-

ties, eighties and nineties with less talk," he said. "A large segment felt that the current stations were either too hard or too soft."

Variety 96's format will lean on A/C stalwarts such as Phil Collins, Whitney Houston, Billy Joel and newcomers such as Wilson Phillips. Program Director Bruce Gilbert remains in place. New to mornings is Leigh Phillips.

RADI-O-RAMA

Mojo Messup: Contrary to reports, WPLJ/FM-New York did indeed register "Mojo Radio" as its identifier at the start of the Spring ratings period. So did Z100 (WHTZ), and therein lies the rub—ARB didn't let either party know about the conflict. It remains to be seen what the fallout will be. Z100 didn't use Mojo for long, but...Fireworks were in order for KMEL-San Francisco MD Hosh Gureli who added APD to the initials after his name. Also, Harold Austin is Music Coordinator. And that's all we're going to say about KMEL this week—honest...Still no PD at B-100 San Diego, but MD Gene Knight is

handling those duties in the interim...After eight years as Jazz host at WMJX-Boston, Jesse Sandridge heads across town to WCDJ...Jeff Thomas is the 4-8P personality at Hot 97 FM (WQHT)-New York. He replaces Bill Lee, who works at the same station as Hosh Gureli (we're living up to our promise not to mention those call letters again)...WBNQ-Bloomington, IL MD John Weis leaves to do afternoon drive at KRNQ-Des Moines, IA. PD J.D. Scott will handle music duties in the interim...It's official. Ben Kelly, ex of KSFO/KYA-San Francisco has joined "The Beat Family," taking on air

BOLES JOINS LAFACE

Lamont Boles, currently National Director, Black Music Promotion at Epic Records is leaving that position to join LaFace Records as Vice President/Operations. He replaces Vernon Slaughter who has left the label to pursue other opportunities.

"While we are sorry to see Vernon leave we are extremely excited about Lamont's potential for LaFace," said label owner L.A. Reid. "We are confident that he will succeed in firmly establishing LaFace's presence in the industry."

SBK TAPS THOMPSON

At SBK this week, Greg Thompson was appointed Senior Vice President, Promotion. Thompson, who has known and worked with label Executive Vice President/General Manager Daniel Glass since the two were in college, comes to the label from Jeff McClusky and Associates, where he was Vice President/General Manager.

"SBK Records is incredible," said Thompson of his new company. "My experience at McClusky and Associates was nothing short of terrific, but the chance to be involved in the evolution of SBK is a once in a lifetime opportunity." Said Glass, "It is our fortune to have him (Thompson) as part of the SBK team."

Justin Fontaine is Director, West Coast Top 40 for Chrysalis Records.

Ron Poore is Associate Album Director for Chrysalis Records.

Rich Anhorn, formerly APD at KWSS-San Jose, CA is on his way to Florida as MD at Q105 (WRBQ)-Tampa. After his beloved Golden State Warriors lost the playoffs to the L.A. Lakers, it was rumored that Rich had to leave town. HMMMMMMMM.

NEW HIP HOP RELEASES by Brian A. Samson

E.P.M.D. - GIVE THE PEOPLE (DEF JAM / RAL/COLUMBIA)

E.P.M.D.'s transition from Sleeping Bag to Def Jam has so far been smooth sailing at both retail and radio. "Gold Digger" and "Rampage" have each notched a number one slot on the Gavin Radio Rap chart, and with the laidback stripped down flavor of "Give The People," E & P will jump to the top five. Keep an ear out for their summer tour, the stage is crazy slammin'. Contact Ken Wilson at (213) 566-3934 or Bobbito at (212) 420-0790. **BAS**
TUFF CREW - JIMMY CRACK CORN (SOO-DEFF/WARLOCK)

The Philly trio has stirred some serious noise among our Gavin Rap jocks as it racks up twenty-one reports this week. The comical dialogue flows with a freestyle lyrical delivery suspended over a raw, uptempo break. Making their vinyl debut on the Soo-Deff indie label, the Tuff Crew release their third album, "Still Dangerous," now distributed through Warlock. Added at KCMU-Seattle, WA, KDVS-Davis, CA, and WIZF-Cincinnati, OH. Contact Tanya Roberts at 212-979-0808. **BAS**
PETE ROCK & C.L. SMOOTH - GOOD LIFE (ELEKTRA)

As one of the dopest Rap rosters continues to blow up, Elektra adds another distinguished

recipe to their chapter of hits. A sample of Pete & C.L. was released earlier this year on a mini-cassette, and since then the buzz has been non-stop. Like the rest of the Elektra Rap artists, Pete Rock & C.L. Smooth come across with a slick vocal style and musical identity. The plot sends a positive message of unity to today's poverty stricken communities. "Good Life" is supported by ace-production that's baptized by a soulful bass and organ-key riff. Contact Mike Jones and Fred Jackson at 212-484-7322. **BAS**

LARRY LARR - CONFUSED (THE SOUL CONVENTION REMAKE) (RUFF HOUSE/COLUMBIA)

My Philly homeboy releases the follow up to his debut, "Larry, That's What They Call Me." Larry offers a 110 BPM midtempo track that's an R&B flavored orchestration that seems like a direct hit for Urban Mixshow and club jocks. The melodic keyboard bed and "Atomic Dog" backbeat provides prominent elements underneath L.L.'s free flowin' rhymes and the soulful vocal chorus. The CD or twelve-inch tracks' a very questionable Hip-Hop Mix which sounds like rush job arrangement in a frantic attempt to capture a street appeal. The Soul Convention Remake should create the club

feel buzz that'll eventually spill into retail specialty bins. Contact Ken Wilson at 212-445-8008 or Karen Mason at 212-445-4692.

SERVING UP RICE

RCA's staff gathered to celebrate the release of Gene Rice's debut album, "Just For You," which features the charting single, "You're Gonna Get Served." Shown (l-r) are Randy Goodman, Sr. VP Marketing; Heinz Henn, Sr. VP, International A&R Marketing; Barry Johnson, Product Director; Miller London, VP Marketing, Black Music; Gene Rice; Skip Miller, Sr. VP, Black Music; Roland Edison, VP Promotion, Black Music; Vic Givens, Co-National Promotion, Black Music.

FAST WEEK in more ways than one! STEVIE WONDER's "Gotta Have You" goes to Number One! Our Top Tip, OAKTOWN 3-5-7's "Turn It Up" had an amazing first week with 26 out-of-the-box adds! Rick Stevens, WCKX-Columbus, likes TEVIN CAMPBELL's "Just Ask Me To," and says, "This is really well liked by our audience." Rob Neal, KXZZ-

Lake Charles, also says his RTW is Tevin Campbell, "One word—SMASH!" Barbara Byrd, KFXZ-Lafayette, says LUTHER VANDROSS' "Don't Want To Be A Fool" is her RTW. "It's going to be another hot one—typically Luther!" Chase Thomas, WJDY-Salisbury, likes BE BE & CE CE WINANS' "Addictive Love" saying, "Another hot one from the Grammy Award-winning group—should be another award winner! Doing well on the telephones—all demos." Andre Carson, WWDM/FM-Sumter, likes CRYSTAL WATERS' "Gypsy Woman (She's Homeless)," saying, "This record is exploding here—heavy phones 18-24." Big Daddy Gilford, WYBC-New Haven, likes JIBRI WISE ONE's "The House The Dog Built," saying, "Nice and funky record with a good street beat. Nice response from young adults." Rocky Love, WJIZ-Albany, likes SAM THE BEAST's "Knock Some Boots," saying, "This is slamin'!" Edward Sargent, WICB-Ithaca, says, HEAVY D & THE BOYZ' "Now That We Found Love," is his RTW. "I'm getting tons of phone calls for this very popular song." Paul Jackson, WUJM/94JAMS-Charleston, says his RTW is PHYLLIS HYMAN's "Don't Want To Change The World," saying, "This is a hot record. Glad to have her back—whole album is great!" Jimmy Mack, WDXZ-Charleston, likes B.G. THE PRINCE OF RAP's "This Beat Is Hot," saying, "Let the title speak for itself." Curtis Carter, WKGC-

LA LA - Always (Motown)

Debut for this lady on Motown. You may remember her from '87 when she released two underrated singles. She also wrote labelmate Whitney Houston's 1985 hit, "You Give Good Love." Well, it's 1991 and La La delivers a very nice ballad reminiscent of a Chaka or a Nippy production. This release comes from her forthcoming album, "La La Means I Love You!" Check it out.

TONY TERRY - That Kind Of Guy (Epic)

Just in case you didn't know, Tony has a new release out. After taking "With You" inside the Top Ten, Tony Terry comes with something with a kickin' dance beat. The CD-Pro gives you four strong versions from which to choose.

PRINCE - Gett Off (Paisley Park/Warner Bros.)

Prince hits you differently everytime; and at roughly an album a year, he has us stunned. If you're familiar with His Royal Badness' music, you may be able to decipher for the title. Prince sings of 23 ways and preferences—I'm partial to the "Urges Single Edit." Look for a copy on your desk this week, and listen to whatever version gets U off.

DEBBIE GIBSON - One Step Ahead (Atlantic)

This young lady has crossed in and out of our format many times in her relatively young career. She teams up with some pros on this release: Lamont Dozier co-wrote and Jellybean produced one Hi-NRG track. Jumpin' the gun are KBLK-Tulsa, OK; WXVI-Montgomery, AL; KMZX-Little Rock, AR.

EDDIE K. - Serious (DLA)

Eddie K. is a 24-year-old singer/songwriter from Northern California with a very strong track record. He calls it the "Eddie K. Thing. This ain't no New Jack Swing." Production is good and tight. You need to hear it for yourself. Contact Demetri at (707) 447-5234.

MANTRONIX - Don't Go Messin' With My Heart (Capitol)

Since "Got To Have Your Love" in 1990, Mantronix has been smoothing the beats out, though the bassline continues to thump. "Don't Go Messin'..." is nice Hip Hop track, a good rap breakdown; it includes a Midi whistled version of the Andy Griffith Theme on the 7" radio mix. You'll be hooked.

Panama City, says, he's "Getting a lot of response, good phones for B. ANGIE B's 'So Much Love' and it's very hot here." Hollywood Higgins, KRUS-Ruston, likes it too, saying, "She's revealing her gospel background to this high-powered ballad." Greg Sampson, WQMG-Greensboro, says his RTW is QUEEN LATIFAH's "Fly Girl", because, "Queen Latifah is back and she's taking names! Great young demos! Fly girl be smokin'!" Ciao for now, Betty.

Huey Lewis

As they proclaimed in "Couple Days Off"—their most recent hit—Huey Lewis & The News took a lot of time off between releases. Their last album, "Small World," an adventurous, musically diverse project came out in July of 1988. After that, Huey laid down his harmonica and picked up his fishing pole and golf clubs, and spent precious time with his family.

When I spoke with him as he prepared to hit the road in support of his latest album, "Hard At Play," he reflected on that period. "We'd been on the radio for ten years and figured we were going to take our time with this one. We really didn't pay any attention to deadlines and because of it, we got it done a lot more thoroughly."

In this unhurried atmosphere the band would record one or two tracks and evaluate them rather than cut the entire album in a much shorter time span. "We had the chance to write and record songs two and three at a time, play a few small gigs, bang the tune into shape and go back into the studio to record it. At that stage, ninety percent of the way, we'd put a little rough mix on it, live with it and then go to the next tune. At the end of the whole project we could go back, listen to all the rough mixes and say, 'Boy, I can do this here, or sing that better.' It was really fun."

Anyone who's ever been in the crowd watching Huey and the band perform knows that fun is a natural byproduct of every show. That aura is exactly what Huey wanted to transfer to the music on "Hard At Play." "I wanted it to sound like we ran into a room and played it live!," he said. "But we're faking that by the very nature of the technological

process of recording. It's such an undertaking. There's so much new technology and you'd be remiss if you didn't check out all the things available. But checking out all the new gadgets takes lots of time, patience, carefulness—things that up until recently weren't Rock 'N Roll qualities."

And it is Rock 'N Roll indeed that's at the very core of the

& The News

down-to-earth Bay Area musician and his longtime group. Huey doesn't hesitate to point out he likes hits, and seems torn about advances in technology taking away some of the magic. "Even at the worst times there were always two or three songs I liked in the Top Ten and I'd listen all day for those tunes because I liked them so much," he said. "I love that—I want to be one of those two Rock 'N Roll records on the radio. But there was a remarkable inconsistency in those old Rock 'N Roll records. Maybe the vocal was great, but the horns were out-of-tune and the way it sounded so human made it fabulous to listen to. Nowadays, everything is consistent, there's nothing out of tune, out of time. It's like cheese, man." Pinpointing what he hears missing, Huey says, "It's the interplay between musicians—the interplay going on and having the vocalist kick the drummer's butt

and vice versa. Old Rock 'N Roll records and New Orleans records had a vibrancy that came from an interplay between the musicians and you don't hear that anymore—it's a shame."

Changes in how music is recorded isn't all that's changed in the twelve years since Huey

Lewis and the American Express decided on a new name on their way to becoming one of America's most successful groups of the eighties. For the first time in more than a decade, the band finds themselves on a new label. While Huey says he enjoys the new relationship, "It feels great, no kidding," he didn't have that on his mind when it came to delivering the final product. "I don't think about it. I don't even think about the audience, I just make it for us and want it to be relevant. I like hits, so I want people to hear it, but I make it for us—absolutely."

Countless acts have had to endure staff changes in the years that Huey Lewis & The News have been on the scene, but amazingly not only their group, but their personnel/road crew is still the same. "We've never lost anybody." Huey credits that to Manager Bob Brown. "Bob doesn't manage twenty-five other bands. We are our own group.

We write our own songs, produce our own records and get them in the Top Ten and they're about as Rock 'N Roll as you can get in the Top Ten—no mean feat these days." But the glue that keeps them all together Huey says is friendship—a friendship born of bonding together through playing music together. "We formed in a San Francisco sense—that is, friends first, colleagues second.

"Everybody had to have a band—you pick your five friends and find out what instruments you're going to play. Not really, but the bottom line is that we formed as friends first." In the case of Huey and keyboard player Sean Hopper, it's 22+ years they've worked together. Billy Gibson, Johnny Colla and Mario Cipollina have been a threesome since their days together as the band Soundhole.

The loyalty grew in part, Huey says, because of hitting the road and playing "live gigs. We have a drummer who's played over a thousand dates in his career. In the 'old days' before video, if you wanted to start a buzz and break a new record in a market, you had to go there and WORK. Play Portland, Seattle, L.A., San Diego, Tucson, Phoenix. By the time you got to New York you've played a hundred gigs. We solidified our relationship by playing live and we've hung on to that. Plus our families are friends." In fact, everyone brings their kids for "family day" rehearsals.

Proud of his self-styled "homegrown operation," Huey states that "first and foremost we are a Rock 'N Roll band." Nevertheless, their last album "Small World," demonstrated what he says was a desire "to play styles of music that we heretofore only enjoyed listening to. It was

mis

really great, even if it wasn't as commercially successful as our others." But "Hard At Play" is not only loaded with Rock 'N Roll it's as Huey puts it, "One of the only records released this year where all the music is recorded exclusively by the people pictured on the outside! (laughs)"

The only "outside" help Huey allows are writers who collaborate with him and other members of the group or offer their own compositions. The test for Huey, however, is if "I can do the definitive version. If it's an outside tune, I've got to feel I can really nail it, which is probably fairly bold on my part."

Like he did on "Hip To Be Square," Huey once again called on some of his friends in the San Francisco 49er organization to put some punch in the backup vocals on "Couple Days Off." "We didn't want it to say (whispers) 'couple

days off,' we wanted (loud) 'COUPLE DAYS OFF!'"

As far as its similarity in theme and style to his 1982 hit, "Workin' For A Livin'," Huey agrees, "It's a natural progression. The inspiration for 'Workin' For A Livin' ' came when I was riding through the projects in New York. I was thinking of the crime they've got and wondering, 'How do people live there?' Then, the thought struck me—there are people who live their entire life there and never get into trouble, now how about them? Guys who'd like to kill somebody but don't. Who's going to write their tune? That's what 'Workin' For A Livin' and 'Couple Days Off' really are and I align with that group."

On his newest release, "Hit Me Like A Hammer," Huey teams with another longtime pal, R.J. "Mutt" Lange who, Huey adds,

"produced the first two records for Clover—my band prior to the News. The song was the last to be completed, arriving when 'Mutt' called to say, 'I got a song for ya!' I said, 'Great. Send it quick because I already got ten cuts.' I wrote the words and we put it on the album, but the single version has been re-mixed. I put a sax solo on it instead of the guitar solo, re-sang it through a few crucial spots, re-mixed it and I think we really nailed it. You know, nowadays with forty-eight tracks, forty-eight things can go wrong. That's the trouble with technology—mixing takes longer, everything takes longer, but I nailed it—I really nailed it."

The one other tune Huey Lewis & The News always nail is the National Anthem. A favored vocal talent by his beloved 49ers, Huey and the guys have sung the world's toughest tune at the National League All-Star Baseball Game, Opening Day Games for the San Francisco Giants and Oakland A's and the recent Golden State Warriors/San Antonio Spurs' NBA Playoff Game. "It's fun singing at Warriors' games because the Coliseum," he feels, "sounds a little better because it's smaller. But it's nerve wracking—the good news is it only lasts two and a half minutes and you get the best seats in the house."

Remaining true to the music he genuinely loves and cares about, Huey is optimistic Rock 'N Roll will never die. "There'll just be less of it around and it will get more expensive. Kids are naturally going to gravitate to stuff that doesn't have any of the harmony that Dad craves—stuff that doesn't have any of that melody that Mom and Dad want like crazy. It's out of tune, but it's got a relentless beat and it's primitive as shit and that's what they want. I understand that entirely—in fact, I dig it and I like a lot of Rap stuff, and the same thing with Metal, parents can't stand it. But," Huey maintains, "let's face it, you can get a lot of help in the studio, you know—just about anybody can make a hit record, in fact, a great producer can make a hit record with anybody. Yet, LIVE Rock 'N Roll still belongs to bands for the most part."

Huey Lewis should know. Few acts have been consistently churning out hits for more than ten years, which prompted Huey to jokingly describe his group as "somewhere between the Grateful Dead and New Kids On The Block!" Pausing, he added, "You better check with Bob (Manager Bob Brown) before you use that."●

#1 TEN YEARS AGO TODAY
Alabama - Feels So Right

COUNTRY HAPPENINGS... Congratulations to WYNE-Appleton/Oshkosh's Vicki Johnson on the July 2nd birth of her son Tyson John Williams... WAMZ-Louisville's Coyote Calhoun tells us that Brooks & Dunn is one of his hottest records, and he doesn't see that happen often with an artist's debut release... Sonny Laguna over at KTEX-McAllen/Brownsville is reporting "unbelievable response to Chris LeDoux" with lots of listeners asking where they can buy it... KKIX-Fayetteville's 7-Midnight personality Tone Marconi married Kevin Watkins on the air on June 18th. Newsman Jess Smith performed the ceremony... Michael Bailey has left WKJN-Baton Rouge. Be watching for him to resurface very soon! In the meantime, WKJN PD Joe Redmond will take music calls Mondays and Tuesdays between 10AM and Noon... Dan Miller has been promoted to Music Director at KVAS-Astoria. Mike Dugan is now doing the evening airshift... Last Saturday, WCTQ-Venice's John Brooks walked over forty miles in a "Walk Of Thanks" to raise funds for their Operation Welcome Home celebration and

raised over \$1200 in the process... KXIA-Marshalltown is getting incredible response to their "You Can Be A Star" contest. The winner gets a trip to Nashville to appear in the next Bellamy Brothers video. For details, contact Roger Lewis at 515-753-3361... Amy Costanza at WFPR-Hammond will now take music calls on Mondays from 10AM-Noon... Correction: Last week we mistakenly listed Mike Reid's new single as being on RCA. He is, of course, on Columbia. We regret the error... With July 4th celebrations and promotions in full swing, quite a few stations are reporting good response to The Goats "Veterans Of The USA"... Byron Mathis is the new Music Director at WRAJ-Anna... Jim Corley has taken over the Music Director duties at KOYN-Paris and will take music calls on Wednesdays from 1-2PM... Both K92/FM-Destin's Skip Davis and WYTE-Stevens Point's Ed Paulson report tons of calls on the Wild Jimbos' "Let's Talk Dirty In Hawaiian"... Lloyd Jenrette moves from WLSC-Loris to WVCB-Shalotte. Jerry J. Gore will now handle the music at WLSC... Karen Dee has joined the KSAN-Oakland/San Francisco air staff as their 6-10PM personality... The KPLX-Dallas' award-winning morning team of Harmon & Evans added a new dimension to their show. Local television sportscaster Ted Dawson joined the crew on June 10th and is now doing sports during the AM drive shift.

Talk with you next week. *The Gavin Country Crew*

MARK CHESNUTT - Your Love Is A Miracle (MCA)

Chesnutt's latest is the most contemporary song we've heard so far from the stone Country singer. It's a winner, a bouncy uptempo that is bound to catch on fast.

CARLENE CARTER - One Love (Reprise)

We love how Carlene uses male backup singers to sing those little fills—it gives the song a fun, retro feel. She says she wrote this catchy song for the gals, but it sounds like it will appeal to everyone.

OAK RIDGE BOYS - Change My Mind (RCA)

Coming off their recent number one single "Lucky Moon," the re-vitalized Oaks continue to show their strengths with this great pleading love song.

RAY KENNEDY - I Like The Way It Feels (Atlantic)

From the very beginning you know you're in for something different. Kennedy sounds so cool on this song, and the guitars practically jump out of the speakers. Sure to perk up some ears.

SAWYER BROWN - The Walk (Curb/Capitol)

By slowing down their usual frantic pace, Sawyer Brown are able to showcase Mark Miller's voice. His voice sounds wonderfully (and appropriately) mature on this story of love and advice passed down through the years.

SHELBY LYNNE/LES TAYLOR - The Very First Lasting Love (Epic)

In my ten years as a music director, this is the first time that all I had to do was look at the names of the performers to know that it would be an out-of-the-box add. Should set the phones on fire! — Skip Davis, MD, K92/FM-Destin, FL.

ON MANAGEMENT

by Oren Harari

THE MANAGER PERCEPTION BIAS

Today I'm going to talk to you about one very basic principle. I believe that a true understanding of this principle will help you become a more effective manager. The technical term for it is the "Observer Attribution Bias," and it's something that, as managers, we would like to avoid as much as possible. It works something like this:

Assume that you observe someone doing or saying something that is out of the ordinary. For example, you are at a restaurant and you observe a fellow at the next table snapping loudly at the waitress. You, the observer, will probably make an inference, or conclusion, as to why that fellow is behaving the way he is. This inference is called an attribution. Social psychologists have found that the direction of your attribution is fairly predictable. Observers, especially when noting novel or unexpected behavior on the part of others, have a strong tendency to infer that the person's behavior is due to his/her personality or make-up. Thus, in that restaurant, you are likely to conclude that the fellow at the next table is rude, or crude, or uptight, or an obnoxious jerk.

It is quite possible, however, that you are completely wrong, and in fact that fellow was simply reacting to the particular situation facing him just the way you or I would. Perhaps the waitress had been ignoring him for a long time. Perhaps he had been receiving poor service in spite of his polite inquiries. Perhaps the waitress had been rude to him. Perhaps the waitress had been serving customers who had arrived after him, despite his polite protests. If you, the observer, consider these factors in your explanations of that fellow's behavior, then you would not be so quick to make sweeping conclusions about his personality.

The social psychological research shows

that we observers, as human beings, like to make quick conclusions about why people behave the way they do. And because we often lack complete information about the situation facing other people, we usually leap toward concluding that people behave the way they do because of their personal make-up. For this reason, it is safe to predict that you would have been far more likely to think the fellow in the restaurant was rude, rather than the service was poor.

And just in case you're wondering, the research suggests that the observer (that's you) is more likely to be wrong than right. That is, people's behavior is not simply due to their "personality" or "the way they are," but is often due more to the kind of situation that they face.

Now what does all of this have to do with management? A lot.

When an employee of yours is not doing what you consider top-notch work, or when your employee is not demonstrating the kind of attitude or motivation that you like, what do you usually conclude? If you're like the majority of managers, you'll probably conclude that the employee is not competent, lazy, uncooperative, or not a team-player, or "just doesn't have what it takes," or is a "problem type of person." How likely are you to conclude that the reason for that employee's behavior is something in the situation, like perhaps your management style? Not very likely. Most managers, like most human beings (and despite what many employees think, managers are human beings!), tend toward the Observer Attribution Bias and believe that problems with an employee are due to problems within that employee.

A few research studies have confirmed this trend with managers. Managers were asked to explain why certain employees were not

performing well on the job. The managers used explanations that revolved around the employees' make-up: insufficient ability, or lack of motivation on the part of the employee. The employees, however, had different explanations. They talked about the situation they faced regularly. They talked about the fact that they were given ambiguous goals and guidelines, insufficient support (resources, information), contradictory objectives, silly rules or policies that inhibited their performance, constantly changing priorities (this month it's this, next month it's that), insufficient training, little feedback on performance, or very little recognition for good work.

In many ways it's easier for us as managers to blame an employee's personality for problems we're having with that employee. Since there's not much we can do about an employee's personality, it takes us off the hook. But the fact is that the situation the employee faces (which includes the way we manage) is a much more potent factor than his/her personal make-up. Sure, there are times when an employee really and truly is stupid, or lazy, or has an impossible personality. But that's the exception rather than the rule. As managers we're paid to take on the burdens of lifting our peoples' performance. If they're not up to par, we're copping out if we say that it's "their" problem or "their" fault.

Let's call the Observer Attribution Bias what it really is: It's a Manager Perception Bias. It takes courage to face the fact that we, as fallible human beings, might be subject to it. It takes even more courage to start working on our own management style rather than to automatically blame the people that work for us. But the payoff is worth it.

P.D. NOTEBOOK

by Eric Norberg

A USEFUL GIZMO

I recently received literature on what appears to be a useful and versatile gadget. It was invented by Ken Blake, the chief engineer of KJAX and KJOY in Stockton, California and it's being manufactured by a company with its own place in broadcast history. Russco is the successor company to Q.R.K., which has been manufacturing the instant-start 12-inch turntables that for over 30 years have been the industry standard. (My turntable at home is a "Q.R.K. Custom" that I bought in 1963, have dubbed thousands of hours of broadcast music tapes on and still use weekly. It still performs as well as it did when it was new.) Russco has manufactured these turntables for many famous brand names, and still sells them today; their extreme reliability often makes them the turntable of choice.

The gadget in question is a "skimmer device" that does not have to be connected to a console. It is connected to a conventional cassette portable, which is then set to record and is activated to record only when speech is present. It's called the "Russco CIA-1 Commercial Interrogation Assistant," because it is intended to record several hours of a competing station's commercial breaks, unattended, on one side of an audio cassette. The intended market is Sales Managers—who up 'til now have had to pay people to sit and log down all commercials broadcast during a period of time on competing stations, to serve as sales leads for the station's staff. These "competitive monitors" have been a familiar part of radio for decades. Blake says that the device has proved 96% to 98% efficient in capturing the spoken breaks and eliminating the music. (Obviously, it will be of little use in recording a competitive monitor of an all-talk station!)

However, I can think of a couple of other uses that might add to the value of the device. One is for a program director to do a competitive monitor of another station. Although it may not be too helpful in identifying the music played (depends on how fast it responds when speech stops), it certainly could scope down all of a competitive deejay's remarks and bits over a considerable period of

time, without the need to spend a lot of time listening.

And the device could also prove invaluable for a P.D. in monitoring his or her own radio station! It would make regular monitoring of all shifts (including 12-6 a.m.) possible, affording better control to the P.D. and eliminating any staff perceptions that "we can do this, the P.D. isn't listening anyway," for those stations with such a staff.

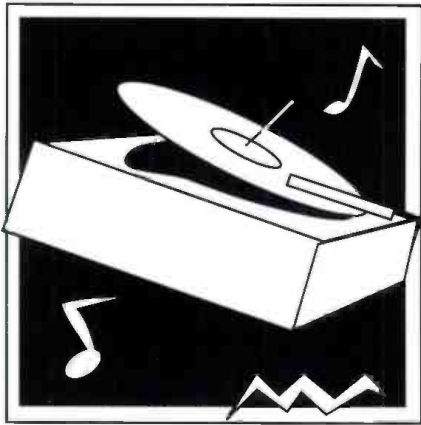

Furthermore, for stations that have deejays that might generate legal trouble, or for those who simply like to have a record of what is

broadcast, it affords the opportunity to have the same sort of legal protection that up to now only certain major market stations have been able to afford: I mean those slow-recording 24-hour "logger tape" machines, in which a whole day of broadcasting is captured on one 12" reel of tape. By modifying an old reel-to-reel deck to run very slowly, and to operate the motor only when the "CIA-1" switches it on (the tape would have to remain against the head

and the machine switched to "record" the whole time) it should be possible to record most of a music station's spoken material on a suitable single reel of tape.

When I was working for Gene Autry's Golden West Broadcasters in Los Angeles and in Portland, Oregon, the "logger tapes" were also a tool, since the deejays were encouraged to add their own personal touch to live commercials, and the results were frequently dubbed off the "logger" onto cassettes to present to the clients concerned. Presumably this could be done with tapes recorded from one's own station using this device. The cost of the CIA-1 is not cheap—\$299—but all these potential uses would seem to justify the cost, and a station could bicycle the device back and forth between the sales and programming department.

For more information on it, contact Russco at 5690 E. Shields Avenue in Fresno, California, 93727; the phone number is (209) 291-5591 and the fax number is (209) 291-9601. If you'd like to call Ken Blake to find out more about what this device can and can't do. You can reach him through the Stockton stations where he works—(209) 948-5569. ●

Geffen Records confirmed rumors about Jimmy Page and David Coverdale working on material together and says they'll press an album and tour. But rumors of four dates at Giant Stadium from Led Zeppelin are false. "John Paul Jones and I have been asking Robert Plant to consider a tour for some time now, but he's adamant he won't do it," said Page. "Yeah, I'd like to do a Zeppelin tour, so would Jonesy. But obviously without Robert it won't happen"...

After pushing the assailant into the Marshall stack and hitting him with a used Yamaha acoustic guitar, it was over. Of course, Joie will pay for the cost of the broken guitar...

MOONLIGHTING

Part I of II

That's the closer for a sixtysomething character who appears in 227 television commercials in 48 markets for radio stations, automobile dealers and Kroger's Supermarkets. "Sister" always reminds viewers to "be sweet."

In the commercials she sits in a chair with a lap full of several live ducks, goes clay pigeon shooting in her front yard, skateboards, shoots an apple from her (off-camera) sister's head and sits amidst a huge mound of crawfish, all the while spouting "Sister, did you tear your hose, honey?"

You may have seen her conducting brain surgery with a chain saw, doing electrical repair work around the house, or in the latest series, in jail. She's quite a lady.

In the real world, "Sister" is 29-year-old Nashville actor/writer/singer/performer Alex Mebane. After graduating from the University of North Carolina at Chapel Hill with a degree in TV & Film Production, Alex moved to Nashville to pursue a pop music career.

I caught up with him in a rare thirty minute period when he had time to tell me about this remarkable character.

MOON MULLINS: Is "Sister" based on a "real" person?

AM: I found the real life "Sister" at a garage sale. There was this little old lady who was selling everything in her house. They were going to raze it. I bought her old footed bathtub. At the time I was driving a station wagon, and she asked me if I would take her and her sister to West Tennessee to pick up a bookcase from their cousin. I said sure, and a few weeks later she called, and I asked if she would rather I go down and pick it up for her, so they wouldn't have to make the long drive. But she said, "We'd like to go and visit with you!"

MM: Who are they?

AM: I won't say who because they live here in Nashville and are aware of what I do, but the only "royalty" they request is a batch of pecan tarts at Christmas.

MM: How did "Sister" evolve into a television and radio character?

AM: I started by calling friends on the phone, imitating these ladies. I had a keyboard near the phone and I would play "Jump" by Van Halen and then say, "Sister, please! I'm on the phone!" At the time I was writing for the WLAC/FM morning show. They did Trivial Pursuit, and "Sister" began calling in to play.

MM: What is it about the "Sister" that's so appealing?

AM: "Sister" gets away with things that people want to get away with. "Sister" does things that people think you have to be older to have a license to do, because then you don't care what anybody thinks. But she doesn't come across like a brainless bimbo. She's got a little something upstairs. We try to localize and make "Sister" a part of the community. We certainly don't want her commercials to be generic. It's not like that—we try to put the flavor of that town in the commercials. Something that would go over great in Baton Rouge might not go over well in Portland, Maine. Say "suck heads" up there and they might get another idea.

MM: I have attended several of the shoots. It appears a lot of time goes into the preparation.

AM: This time of year we shoot all of the commercials starting at six a.m. Mary Beth comes over and touches up my makeup and helps me pick out the clothes I'm going to wear—that type of thing. She puts on my jewelry—she's more color coordinated than I am. I had my colors done, and I thought they were burlap! The crew shows up at about seven. They get everything set up and we shoot from about nine until six or seven. It's a pretty grueling day for me and then I have to get all cleaned up—by that time I feel like I want to have my face sanded.

MM: For many years you shot the commercials in an old house in Edgefield—one of Nashville's older sections. That old house was really generic, like it could be any town.

AM: We're now shooting at a house that's sort of in a remote location, so that we don't have the noise problems that we had before. There is a video assistant at the shoot, which means you can watch on a screen what's going on the film. Granted it's in black and white, but you can see, and it's great for a client, because they can sit there and see what it looks like. Whereas before, it was trusting the camera and not knowing. It's a little more client-happy kind of shoot now.

MM: Unlike most TV spots, yours allows a character to become a part of the station's air staff.

AM: The stations don't even acknowledge the notion that "Sister" is a character. She's one of them. ●

If you don't have your copy yet, call 1-800-652-3400...

Chris Robinson, lead singer for The Black Crowes collapsed in London in the midst of a party being thrown in honor of the band's arrival in England. Doctors diagnosed Robinson as being severely exhausted and considerably underweight. After 285 shows over 16 months of continuous touring, the band flew home and cancelled their promotional tour for now. They'll return to Europe in August to begin a three month tour...

When you get the time to give a listen to the new Alice Cooper album, pay special attention to the track "Snakebite." This song from the new album, *Hey Stupid*, was recorded with three live and very deadly poisonous rattlesnakes. Coop is a perfectionist—but surely he won't bring them on tour... ■

NEW
RELEASESGARY CLAIL + THE ON-U
SOUND SYSTEM - "HUMAN
NATURE" (RCA)

Chances are, Gary Clail is a name most of you are already familiar with, thanks in part to the pioneering work of Tackhead. His new single, titled "Human Nature," combines politics and super-grooves to telling effect. In fact, this single, which went Top Ten in Britain, marks Clail's first chart appearance—ever! He'd be the first to say he couldn't have done it without a little help from his friends in the On-U posse—producer Adrian Sherwood, Bim Sherman, Akabu, David Harrow (3 out of 4 Tackhead members),

Style Scott (Roots Radics), and Bubblers (Aswad). "Human Nature" addresses a myriad of socio-political topics that should be in the forefront of our minds in the '90s—bigotry, homelessness, children on the street—but often get buried somewhere in our grey matter. Music to dance to. Food for thought. LINDA RYAN

XTC - "EXTROVERT" (Geffen)

The new XTC album, according to the band's Andy Partridge, is one for "those who want to get really close to the band." Partridge also feels that this is "definitely the weirdest record we've ever put out." Keeping that in mind, let me clue you in on a couple of facts. The album is going to be comprised of alternate versions of songs and tracks that never made it onto any previous album. "Extrovert," the first single, should've been a hit on the Skylarking album, for which it

was recorded. Todd Rundgren produced this slow-building pop gem—and it has XTC written all over it—that is, before they discovered psychedelia. A true classic from one of this format's staple artists. LR

THE PSYCHEDELIC FURS -
"UNTIL SHE COMES" (COLUMBIA)

I have a funny relationship with The Psychedelic Furs—either I think their work is amazing or I hate it—there's no in between. Put their new album in the former category. Leading off as first single is the dreamy, down-tempo track "Until She Comes," which is guaranteed to have your phones ringing off the hook from long-time fans wanting to know when the album comes out. (July 30th, you will tell them.) Producer Stephen Street does a bang up job, as the sound is well-defined and uncluttered. Another one of

the format's staple artists—out just in time for Summer. LR

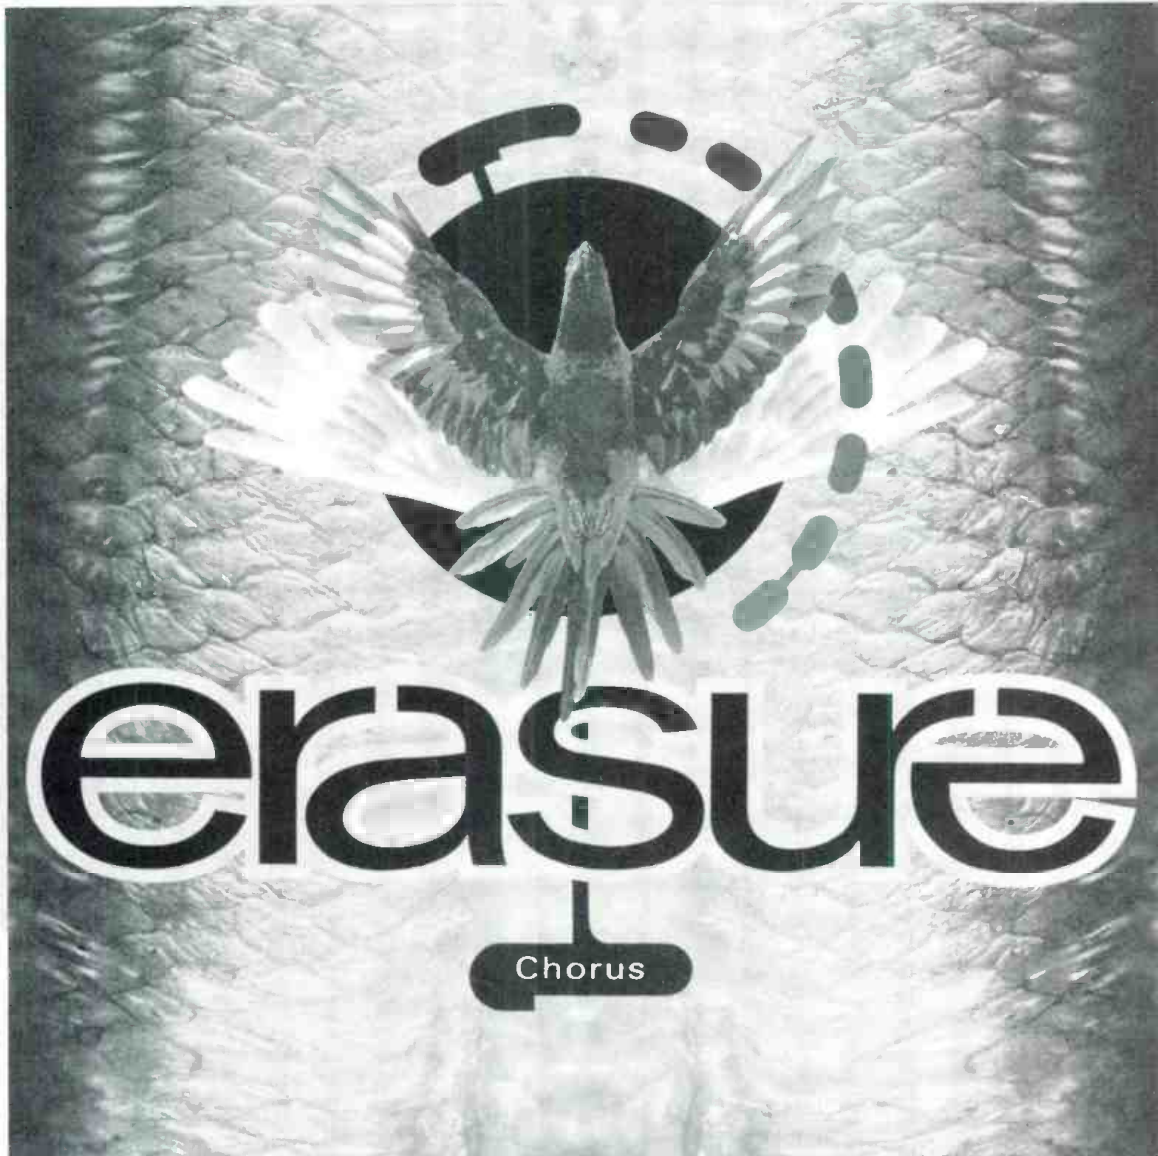

THE DOVES - "WOULDN'T
KNOW YOU FROM THE REST"
(ELEKTRA)

Quite different from the Thrashing Doves' "Beautiful Imbalance" sound—a smart move that prevents geeks like me from comparing oranges to apples. The Doves' energized and groove-laden sound is one that will surely go way beyond the dance floor. In fact, it probably sounds best with the top down so turn it up! LR

HILT - ORANGE PONY (NETTWERK)

Hilt covers ground fast on this four-cut, twenty-five-minute-plus CD. "Orange Pony," the lead and title track is a groovy, psychedelic, housey rave in the tradition of the Soup Dragons' super smash "I'm Free." Its trippy, visceral, and irresistible rhythm breaks down into an unexpected and charming acoustic outro and fade. Nice! Hilt have recorded "Green Love" "with respect to Junior Reid" and dosed it with a spacey, acid-house element. Ganja + LSD = a hallucinogenic Jamaican holiday. Things start to dissemble a bit by Orange Pony's third tune, "Yellow Sunshine," an eleven-minute experience of wandering, patternless keyboards, synth throbs and swellings and sinister mutterings/growlings/whisperings. Slightly scary, retro-alternative stuff from the Fripp/Eno school that's perfect when you just gotta go. Hilt

finally succumb to the lure of chaos with "White Stuff," an unstructured, pounding, feedback and staccato-vocal mishmash that's guaranteed to provoke your listeners to call you and tell you your station's gone off the air. SEANA BARUTH

THE MEAT PUPPETS - "SAM" (LONDON)

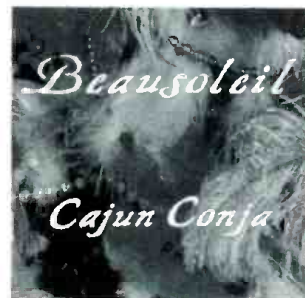

It's been hours since I got up, but despite lots of coffee, I didn't get genuinely bright-eyed until I heard the new Meat Puppets single, "Sam." This spastic, harmelodious and hilarious gem is driven by taut, motorin' rhythm

section interplay punctuated by little tics of Curt Kirkwood's guitar. The lyrics—spewed in monotone at high speed and all-in-one-breath—relate a droll but incomprehensible story about—you guessed it—some guy named Sam. The rushed tension of the verses is mitigated by the Pups' lazy refrains wherein Curt's guitar chases an elusive, fairy-tale melody while he and brother Cris contribute twangy vocals to keep from wandering entirely off this earth. All that and a wailin' hot lead break to boot. Look for a full-length disc next week! SB

LIVING COLOUR - BISCUITS (EPIC)

"Talking Loud And Saying Nothing" kicks off this six song EP with high energy, a hypnotic guitar riff, and the occasional sliver of an electronic noise that sounds like R2D2 on crank. The live version of "Memories Can't Wait" chronicles a party in the singer's

mind. A zigzagging bass line bobs and weaves its way around Living Colour's signature swine squealing guitar. A reggae dub version of Jimi Hendrix's "Burning Of The Midnight Lamp" comes off surprisingly well, taking the liberty of injecting a visceral strangling guitar solo in at the end. The inner sleeve says they found these biscuits in the pantry, and it's easy to see why they're being heated up and served. DAVID BERAN

ways been a pretty conservative place. David Duke and pro-lifers aside, the state is steeped in the arguably restrictive tenets of French Catholicism. So it stands to reason the music provides such a release, right? I can't pretend to be an expert in the Creole/Zydeco/Cajun genre, but I know what I like. And I definitely like some of the stuff on Cajun Conja. From the slow, serious, sometimes droning stuff like "Conja (New Orleans 1786)" to the hoppin', tappin' "Cajun Telephone Stomp," this album makes us put aside all the stuff we like to hate about Louisiana, and makes us love it for its beauty, mystery and *mysticism*. When I was a little girl, my Dad would play Creole music and I'd say peee-yoooouuu! Accordions, ick! Violins, yuck! What an idiot I was. Check out "Le Chanky-Chank Francais," "La Nuit de Clifton Chenier (Clifton's Night)," "Sur le Pont de Lyon" and my absolute favor-

ite, the instrumental "Le Reel de Nez Pique." As Gomez Addams used to say, "I love it when you talk French!" BEVERLY MIRE

DOROTHY MASUKA - PATA PATA - (MANGO)

Pata Pata is Zimbabwe-born Dorothy Masuka's Mango debut. A contemporary of Hugh Masekela and Miriam Makeba, Masuka's style is called marabi—"music you can't sit down to." In spots, it's very jazzy, especially on the nightclubbish "Magumede," with its beautiful muted trumpet sounds. Unlike Masekela and Makeba, Masuka didn't leave Africa, and triumphed despite the repressive regimes she lived under—eventually becoming a household name. After "Magumede" try "Kutheni Zulu," "Nhingirikiri" and, of course, "Pata Pata." Masuka will be touring the United States in the fall. Something tells me she's not to be missed. BM

SAFE isn't necessarily SOUND

If you're someone who shuns the safe route, you won't be alone at the New Music Seminar.

NMS attracts the mavericks in music radio like yourself—programmers who keep an ear to the street and who rely on their instincts rather than the back page of *RCR*—people like Keith Naftaly (PD, KMEL), this year's NMS Webber Award recipient. You share the ability to spot trends, shake up markets, and develop the new formats that the rest of the nation follows. You play and win at the ratings game, but it's got to be on your own terms.

At NMS you'll join 8,500 delegates from around the world representing every facet of the music business. You'll participate in lectures, workshops, debates and panel discussions that will help you solve problems in your own field and broaden your knowledge of the industry forces that profoundly affect radio.

And when the day is done, you can check out hundreds of live acts at New Music Nights, the world's largest international music festival and talent showcase.

As a programmer, you'll find that NMS puts you in touch with new artists and new ways of thinking. You'll learn what music's happening in U.S. regional markets and foreign countries—information that will put you several steps ahead of the competition in the market you know so well.

Don't pass up this valuable opportunity. Register before June 12 and save an additional \$45 off our regular rate. Call (800) 888-8596 today! (Registration calls only please.)

ALBUM NEW RELEASES

BY KENT ZIMMERMAN

PRINCE OF THE DEEP WATER - THE BLESSING (MCA)

Hey, better late than asleep, right? After a re-service celebrating the "Denial" track, perhaps it's high time to speak up for both the band and the entire Blessing album. Prince Of The Deep Water features a fine British four piece outfit that write songs that tickle territory usually occupied by Dire Straits and Chris Rea. In fact, Blessing producer Neil Dorfsman shapes this effort much the same way he magnified Straits on the Making Movies/Love Over Gold era. Singer/lyricist William Topley is terrific. His low voice (anyone remember Chris Youlden from the old Savoy Brown band?) waivers delightfully as the rest of the boys erect the sound curtain. POTDW is an hour of musical cinema with powerfully crafted presentations such as the opening "Highway 5" and "Denial." Those with time on their hands might want to check into "Back From Managua" and the duet, "Delta Rain," two songs blessed with patient arranging and dramatic mood swings.

"SILVER THUNDERBIRD" - MARC COHN (ATLANTIC)

While "Walking In Memphis" was an effective introduction,

there are many here among us who feel that "Silver Thunderbird" is Marc Cohn's extra special offering. Written as a moving tribute to his father, extra emotions linger almost subliminally beneath this "car song." Take this track for an attentive spin.

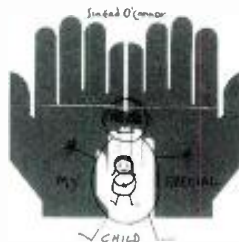

NEVER LOVED ELVIS - THE WONDER STUFF (POLYDOR)

A delightfully snotty effort with loads of attitude, blending a bit of the English acoustic with the power-wah. On hand this time is producer Mick Glossop, whose experience with Van Morrison gives the Wonder Stuff's acoustic stuff some extra viability. While listening through, I found myself rummaging back through the lyrics. Did he really say that? Example. On "Mission Drive" singer Miles Hunt gleefully proclaims, "all the shite you say/I wear it like a bruise/I've never loved Elvis." Or how about "Ohh in another world/he could wear a dress." And the fun only begins there, as singer and band are just a bit loony and loose with his tongues. Like the Pogues who virtually invented this brand of irreverence, Wonder Stuff juggle the guitars quite nicely with the fiddles, mandolins, banjos and loads of drink. You

can certainly hear drunkenness in the grooves, to be sure.

"UNTIL SHE COMES" - PSYCHEDELIC FURS (COLUMBIA)

An advance taste of an upcoming effort by the Furs is a beautifully moody number. WXRT is already pumping an import pressing as the vids and advances make their way around the biz. Richard Butler shows a dark blue side as "Until She Comes" plays against a drum pattern with electric and acoustic textures. The preceding track, "In My Head" is another great midtempo entry.

"MY SPECIAL CHILD" - SINEAD O'CONNOR (ENSIGN/CHRYSALIS)

A special bit of fund raising that's already gathering play at some of the more prominent Commercial Alternatives. In a recent Bravo television special tracing Irish rock n roll back to its poetic roots, Sinead's ancient influences were made quite obvious. On "My Special Child" she further supports such a contention with the use of pipes and strings. Though this song was written out of personal experience, it's easy to see why it was selected in spirit to aid the campaign for Kurdish refugees.

"EASY COME EASY GO" - G.W. McLENNAN (BEGGARS BANQUET/RCA)

Not a familiar name? Does the band Go-Betweens help? Let's just say that this Australian go-between has struck out as a soloist taking his sense of melodic strum with him. G.W. McLennan was one of Linda's standouts last week. Hence it merits an additional plug this week. I hear a hint of Ian McCullough, though this song cuts a much merrier path thanks to the acoustic guitars.

NEVERLAND (INTERSCOPE)

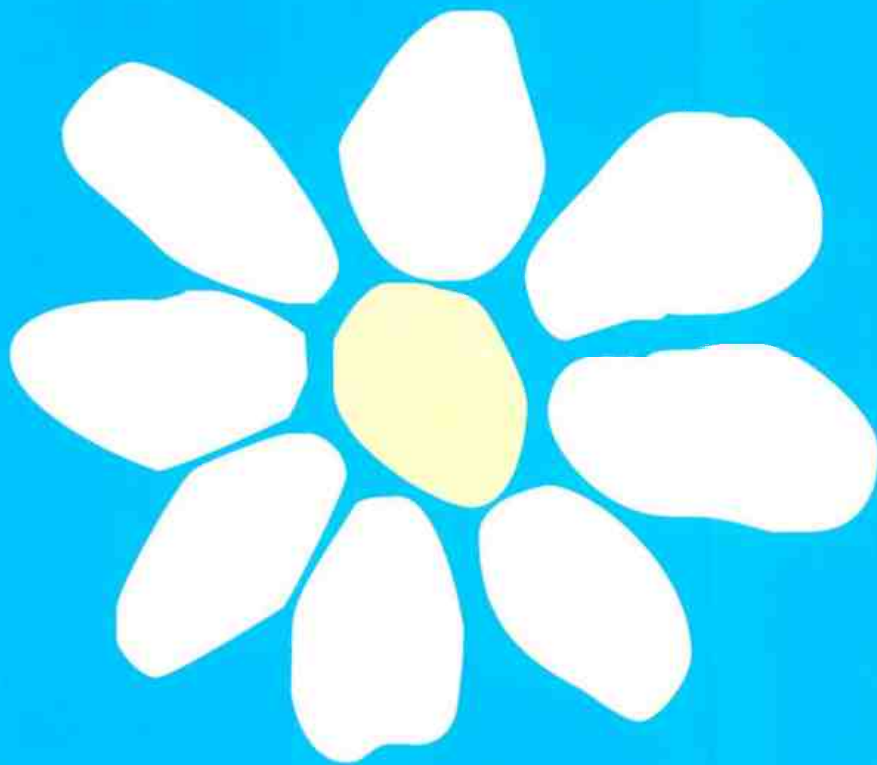

A young band feeling around for a sound. By track three, with the rousing "Take Me Higher" into "Drinking Again" Neverland graduates past being a U2 derivation and turn into true purveyors of thunder. Neverland walk that fine line between Album and Commercial Alternative, meaning that songs like "Drinking Again" could bring key elements of each format into the other. Neverland playing is quite expert and dramatic as guitarist Patrick Sugg is capable of either squeezing a scream or plucking a harmonic with subtlety. Nice stuff all around.

Sit Down

"This is your early morning alarm call -- JAMES are here . . ." *X Magazine*

"With an expanded lineup...and a live performance reputation to kill for, JAMES has taken a major step towards becoming quite an enduring and eclectic band." *Alternative Press*

"JAMES' newfound power places it alongside The Stone Roses as a prime contender to overcome America's resistance to British pop culture." *Request*

PERSONAL PICKS

SINGLES by Dave Sholin

PAULA ABDUL - *The Promise Of A New Day* (Virgin)

Doncha' get that feeling an awful lot of stations will go out on a limb, live dangerously and add this one immediately? In actuality, more than a handful of programmers have hit this rhythmic entry over the past few weeks. Backed by an intriguing beat, America's most lovable singer/dancer/choreographer provides another new twist to her familiar sound.

MARKY MARK AND THE FUNKY BUNCH featuring **LOLETTA HOLLOWAY** - *Good Vibrations* (Interscope)

Bustin' out of Boston, Donnie Wahlberg's younger brother, Marky Mark, is kickin' it and makin' oneserious debut! The Wahlberg Brothers wrote and produced this hot track—something they deserve to point to with pride. Credit Loletta Holloway with takin' it up more than a few notches on a chorus nothing short of incredible. Already Top thirty at KISS 108 and WQGN—stations like KLUC, WTIC/FM, FUN

107, WHYT, WXLC, KGGI, KMEL and WNVZ couldn't wait to add this fresh entry.

HUEY LEWIS & THE NEWS - *It Hit Me Like A Hammer* (EMI)

Cover guy Huey put words to this straight-ahead, easygoing Pop/Rock melody written by his long time pal "Mutt" Lange. Those who are familiar with this track off the album will definitely notice the difference in this hot, hot remix. An avowed fan of hit-based Top 40 radio, Huey supplies the format with a marvelous mass appeal addition.

RIC OCASEK - *Rockaway* (Reprise)

Co-produced by Nile Rodgers, this Pop ditty could become the unofficial theme song for my neighborhood, Rockaway Beach. However, it's doubtful Ric had my area in mind when he wrote this opening track to his new album "Fireball Zone," but keeping the energy level up at all times, he drives home an irresistible melody.

SIOUXSIE AND THE BANSHEES - *Kiss Them For Me* (Geffen)

Alternative music is making itself felt more and more at Top 40, and this song, which is #1 on our Alternative chart for the third consecutive week, stands a good chance of being next in line. Produced with Beatle-ish spirit by Stephen Hague, they're currently starring on the "Lollapalooza Tour" with Jane's Addiction and Living Colour; meanwhile, the video just got added to "Buzz Bin" rotation at MTV.

THE REBEL PEBBLES - *How Do You Feel (I.R.S.)*

"Dream Lover," their debut single, earned this foursome a spot on the Top 40 and helped gain them initial exposure. Now it's time for the knockout punch delivered by this followup which has had a lot of Top 40 programmers excited from the moment the album arrived. Exuding a happy vibe, it's mainstream all the way.

CHESNEY HAWKES - *The One And Only* (Chrysalis)

Obviously well schooled in the art of hitmaking by his Dad, Chesney's music is about to become familiar to a new generation of Americans. His father Chip rode the wave during the British Invasion of the mid-sixties as lead singer of The Tremeloes, who took "Here Comes My Baby" and "Silence Is Golden" up the Top 40 chart in 1967. Number One for more than a month in England, this exciting commercial rocker should have a hot summer run in the U.S. as well.

C + C MUSIC FACTORY - *Things That Make You Go Hmmmm...* (Columbia)

Writers/producers Cole and Clivilles have successfully crossbred a unique brand of Rap and melody that's taken them on back-to-back trips into the Top Ten. This third entry maintains their infectious rhythm, strengthened by a title that will keep audiences hummmmin'.

CROWDED HOUSE - *Woodface* (Capitol)

Crowded House is a band of Kiwis with a penchant for the odd and the intriguing. Neil Finn, the group's primary composer and frequent lead singer, seems never at a loss for words. The set's opener, CHOCOLATE CAKE, is an angry, Clash-like scowl with an unforgiving treatment of classless Americana. (Talk about biting the hand that feeds ya?) Once Neil and company get that one digression out of their system, things settle down to the group's consistently unpredictable ways. The guys wander so far astray that one track, ALL I ASK, with its live strings, sounds like a late seventies Nilsson ballad. In between are practical tracks like WEATHER WITH YOU, WHISPERS & MOANS and FALL AT YOUR FEET, with its bittersweet harmony. For the record, Tim

Finn is now an official Crowded Houseman, joining younger brother Neil, Nick Seymour and Paul Hester. Tim, who played guitar in his old band Split Enz, will become the group's keyboardist in live shows.
