AIRPLAY ANALYSIS

Gregg Allman, "I'm No Angel", Epic. Although the big guy has yet to sprout wings, you'd have to call this week's performance a serious return from pop purgatory. In the midst of thick competition, Gregg reels in 101 adds (complete with 29 heavies) for our highest #19 debut. He's even got instatop 5 calls at WKRR, WIBA, and WIXV. Radio reaction: Doug "One of the year's best new songs" Clifton, KBCO; Michael "Lives up to all the pre-release hype" Davis, KFMG; Alan "He has the pipes to pull off a huge comeback" White, KIL0; Dave "Rave of the week" Lange, WLAV; Rick "One of several tracks that will dominate album radio" Panneck, WAPL; Mike "Never heard him sound better" Boyle, WDHA; and Rad "Could be THE comeback of '87" Messick, WDIZ—and that's but a sampling of the knee deep raves we heard this week.

Barbusters, "Light of Day", Epic.

The #2 Most Added position rates—but you can damn sure expect a lot more than 32 adds next week. As noted by KIL0's Alan White, "The combination of a great Springsteen song plus Joan's performance and interpretation add up to a smash and a half".... From WBRU's Alison Stewart, "The song is so strong that if the movie's a hit the Barbusters just might be Chartbusters".... ditto WIYY's Chris Emry, "If the movie is half as good as the song, theater owners will be wearing big smiles". Not to mention programmers with co-pros. WPDH's Pam Brooks sez, "Hats off to Joan Jett. I've seen the coming attractions and heard the song, and both deserve rave reviews". New at #58.

From The Album

On Tour Now With
The Fabulous Thunderbirds

REO Speedwagon, "Life As We Know It", Epic. As is the case with Lou Gramm, there's definitely more where the instantly white hot single came from. "That Ain't Love" lays claim to 36 increases this week, slamming out a 13-10 Hard Hundred move. As for the album, this particular incarnation finds the band's collective libido even more active than usual, with all kinds of soft focus themes for back seaters from 16 on up--all thick with Gary's signature guitar and Kevin's equally distinctive vocals. We like "Variety Tonight" and "One Too Many Girlfriends", and "New Way to Love" gets the point across, too.

Little America, "Walk On Fire", Geffen. Just when you thought it was raining rootsrockers, up pops a "major new talent" that's simply a really neat suburban band. The first 12" here sounds fresh and inviting, if only for the lack of gimmickry and posing. There's plenty of guitar, it's easy to dance to and even easier to sing along with. Redbeard was right.

ALSO NEW THIS WEEK

Jason and the Scorchers, "Shotgun Blues", EMI. Now here's a portrait of a track that is truly itching to explode. The band is building on a terrific two tune track record from the latest album, with an intense tour to back 'em up. "Shotgun" is just over two minutes of rip 'em up fun, the perfect wide demo rock and roll punctuator. And if for some reason you might be thinking of waiting a week or two, the coming issue's 20+ adds (and half a dozen industrial strength majors) should turn you around.

Martee LeBow, "Love's A Liar", Atlantic. Once again, Chrissy and Ann Wilson are the only current female voices on rock radio--and that ain't good. Except for Ms. LeBow. The little lady with the big pipes is back with a tune that Messrs. Mellencamp or Seger would be proud of--and she's practically got those playlists open to herself. I know this thing had our whole building locked with just one listen and could well be one of the best leftfielders you'll audition this week.

Also In The Most Added...

Sammy Hagar, "Winner Takes It All", Col. I remember when the Bay Area and parts of Texas were the only sure fire startup regions for Sam. But now? Try 14 top fives in just two weeks--with WPLR, KGON, WWCT, WAOR, WGIR, KPOI, KRNA, KLBJ and KFMX front and center. The increases come just as quickly, with WPLR, KQRS, KFMG, KILO, WMGM, WIBA, WAPL, and KRQU pacing a field of 15. It's new on 30, now on 124, underlined 25-16. WMAD's David Anderson says, "Give David credit for a tasteful, driving adult rocker".... WLLZ's Jim Pemberton adds, "It's already moved up several positions in our mediums and should be heavy before long". And this advice from the Catfish at WHMD, "the new solo will definitely cross over with all the Sly exposure it's getting. Lead the competition"..

Santana, "Veracruz", Col. Their latest sounds fine on 99--with 28 more adds just in. It's heavy on 12, and already increased on 11, including KFOG, KILO, KRQR, KMBY, KVRE, KSQY, and WTPA. As WKDF's David Hall comments, "It's great to hear Carlos working with some of his old pals, such as Greg Rolfe and Buddy Miles. The result of some of the best Santana music in years".... One of this week's longest gainers, 48-35.

Paul Simon, "The Boy In The Bubble", WB. Occasionally we like to use that front page real estate to carry on about a record you're probably aware of and ready to add, and that's the case here. All but the very hardest AOR's would be way off base to hesitate on "Bubble" at this stage of the game. Between the album's growing musical and social acclaim, the first two singles' rock radio success, and the custom CD, they don't get any more obvious than this. Really. You need a personal call from the man himself?

The Cutting Crew, "Died In Your Arms", Virgin. Flow is the real deal in successful music programming and we have to put in another front page shot for the best new mid tempo balance record we've heard of late. The overall feel here is definitely atmospheric and continental, but there's nothing at all affected, cliched or dancey about this number. You'll hear nice clean vocals and great female appeal lyrics. You'll also hear a tune you'd hate to have used against you down the dial.

"Over The Top" Soundtrack, Columbia. Soundtracks are like letter bombs--you just can't tell what you're dealing with til it goes off under your nose. With Sammy already half way to the moon, you'd best get acquainted with what your CHR competition will be pounding in a week. You'll see quick crossover play on Kenny Loggins' "Meet Me Half Way" and be sure to check out Asia's "Gypsy Soul" as a point of interest. What the hell, have a battle of the bands with Esquire.

Rank and File, "Black Book", Rhino. I've always had a thing for the Bobby Fuller Four, and you can sure count me in as a charter member Bodeans fan. And that's why I like this record--it's got a little of both. Plus it's funny. And now that one of the world's hippest labels has cracked the mass market with Billy and the Beaters, you never know what they might pull off next.

Lou Gramm, "Ready Or Not", Atlantic. How seriously is the format taking this artist? Well, you can't do much better than a #1 played single and legit airplay action on more tracks. "Midnight Blue" pushes 5-1 with heavy play just about everywhere, and a 5-2 Most Requested move. "Ready Or Not" takes second with 23 first week adds, and a #77 debut. "Heartache" claims 8 stations, with "If I Don't Have You" new on 6. Naturally, we're talking the week's highest LP debut at #5. KEZO's Joe Blood responds, "Shockingly good. It has to be the best solo LP released this year in terms of writing, production and total execution".... From WFYV's Lex Staley, "It's the Foreigner record that should have been. Nobody sounds better with a raw edge.".... from KLOL's Dayna Steele, "Two more tracks from Lou go in. Every single song on that record is a hit".... and this from KGON's Inessa York, "Lou is catching on fast with top 5 phones, and there is enough on the album to hold us until the Foreigner guys go on tour"...

Steve Winwood, "The Finer Things", Island/WB. Another one of this report's Premiere performers, Steve's latest racks up a 35-21 advance. New on 23, now on 108.

Robin Trower, "No Time", Crescendo. There's no let up in sight. Or sound. Of 104 now playing, we found only 2 decreases. Probably stations that somehow got stiffed on the CD. And hey! Where's ours?! Robin strings together 11 increases (KOME, KLOS, WIMZ, WAQX), as 9 adds, 3 powers and 20 heavies roll up yet another 29-24 underline. WFYV's Lex Staley calls it the comeback of the year--and we'd have to agree.

Los Lobos, "Shakin Shakin Shakes", Slash/WB. 22 increases ranks fourth in that key stat, with closeout play now approaching the 150 mark. Now power at 4, heavy at 45 more and underlined 20-14. You ought to be following that lead with at least one more track, with "Rosa Lee" and "One Time, One Night" two easy ways to go.

Julian Cope, "World Shut Your Mouth", Island. You know it's over the top when Ted and WMMR come in. We're talking no risk. WLAV, WIZN and KFMX also add, bolstered by 9 play-ups: KLOS, WHJY, KMBY, KDJQ, and WWZU included. Up 38-33 on the song chart, 28-26 on the album.

Don Dixon, "Praying Mantis", Enigma. This one's proving to be one of the best long haul performers on the street--major acts included. Your name here. Whattaya know--six more adds, with WGTR, WKDF, WCCC and WONE out front. Also check his ongoing request action--currently #10 nationally. Upped at WHCN, KGB and three more. "Mantis" moves 53-48. It's now on 62, and it's earned a run on double that number.

Triumph, "Just One Night", MCA. This dramatic change of pace picks up a nice 88-75 move, with new air on WLLZ, WQFM, WCMF, WAQX, WBYP, and WRCN. Now on 27, including KSHE, KGB, KOME, WHJY, KISS, KLPX, KMOD, and KRIX.

Georgia Satellites, "Battleship Chains", Elektra. At the rate people are calling for "Battleship" you know they're much more than a one off novelty appeal item. 22 top fivers bring it in at #4 Most Requested, with 12 ups, 4 adds, and 38 heavies cooking up an 18-17 track underline. If Skynyrd were around today.....

Stevie Ray Vaughan, "Willie The Wimp", Epic. Getting second tracks from live sessions up and running is next to impossible, and you've got to hand it to Epic for not wimping out. Well done. Willie's now on 95 reporters, with 8 ups, 8 heavies, and a 40-34 underline. The Lp holds 33-30.

Ben Orr, "Too Hot to Stop", Elektra. Best back to back weeks Ben's had since the first single took off. #12 Most Added with 10, upped at WKQQ, KFMQ, WOUR, DC101, KAZY and 4 more, now heavy at 17. The Lp pushes to #21 behind the track's 34-27 underline.

Starship, "Nothing's Gonna Stop Us Now", RCA. The on column pushes to 100, 8 of which list power and 33 heavy. The 18 station play up count ranks #6 there, with KZEW, KLOL, KSJO, WDIZ, KYYS, WLWQ and WWCK among those increasing. The phone count found top 5 response at WQMF, WWZU, KFMQ, KRQU, WIMZ and KRNA. Underlined 24-20.

World Party, "Ship Of Fools", Chrysalis. As per the 16 play increases, WP is still building nicely, too. WQFM, WRIF, WYNF and WGTR muscle up another strong week week, with DC101, KDKB, WEGR, WCCC, and KQRS leading 16 play jumps. And now that you have the special CD, be sure to also check the Junior Walkeresque "World Groove" and their version of "Nowhere Man". Meanwhile, "World Party" bulds 8-7.

Esquire, "Moving Together", Geffen. Everyone I speak with seems to prefer "To The Rescue" or "Sunshine", but for some reason the 12" continues to garner the airplay. It's new on 9, now on 29, and our 4th longest Hard Hundred galner, 99-85. WHCN's Kim Alexander comments, "No, it's not a first listen record, but after four or five listens that baby kicks in and won't let go.".... KBLE's Ron Sorenson says, "They fill the art rock slot nicely and we'll go several cuts in".... and from WLLZ's Jim Pemberton, "Love the Esquire. Rarely do I sit in my office and listen to a record five times in a row...85% positive on Rate At Eight."

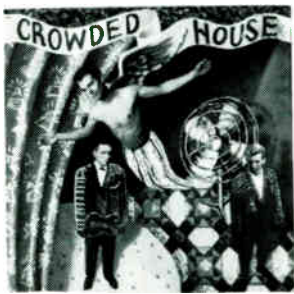

Rob Jungklas, "Make It Mean Something", Manhattan. Updating on Robble J's mean moves: Six adds include KLOL, KLOS, and WRXL.... Nine ups include WEGR, WAAF and KWHL. Double bulleted--33-31 on the track, 36-34 for the album.

Iggy Pop, "Real Wild Child", A&M. The Pretenders tour is factoring in big time, no? WDIZ, WQFM and WLWQ add this week, with WKFM, WBYP, KLPX and KKDJ increasing. That means it's underline time once again, 39-36....The track's 91 stations deep and just weeks away from the big break he's worked for, so hang in there.

Tesla, "Modern Day Cowboy", Geffen. One of the best long term developers out there comes up with 6 adds--including WHCN, KEZO and WLWZ, with KGB, WTPA, KKDJ, and WWTR leading six increases. Now a top 5 phone item at KDJQ, KNCN, WAQX, WRCN and WXRC. Underlined 51-46. Still a very safe bet to go the distance.

Ratt, "Dance", Atlantic. Even though a number of album stations played this one on Lp release, it's still the smartest re-add on the street. Top 40 is poised to break the song wide open, and the now platinum plus album sales and major video success should in themselves have you ready to go back. Could well be bigger than "Round and Round".

Deep Purple, "Call Of The Wild", Polygram. Toldja this was the track. 23 more adds and increases from KDKB, WHCN and WIXV give it this week's second biggest 57-41 move--with momentum that could well put it in front of "Bad Attitude" next week. Words for the wise from WLLZ's Jim Pemberton, "So So research on 'Bad Attitude' moves 'Call' into medium".... Clearly the one to be on, with 65 now playing.

Crowded House, "Don't Dream It's Over", Cap. In reality, this baby's thru the proverbial roof. How about 16 adds in a week when most of the "priorities" had to sit and wait? Increases include KLPX, WAAF, WCCC, WLWQ, KBCO, KMOD, KNCN, WBRU and WNGZ. The rotation stacks up 13 deep in heavies and 4 in powers, with 74 stations listing current play. The album totals reflect with the week's longest, strongest 44-37 Underline.

Eric Clapton, "Miss You", Duck/WB. 15 adds and 6 ups (KOME, WDIZ, WOUR, WAQX) give the soon to be lead cut a healthy 30-23 underline. It's now on 96 with 3 powers and 35 heavies. One you should be on or strongly considering.

Psychedelic Furs, "Heartbreak Beat", Col. The stats continue to back those breakthrough predictions--ours and others--with our third longest 76-59 Hard Hundred gain. It's #7 Most Added with 17, now on 72, increased at 7. Currently heavy at 14. WBRU's Allison Stewart reports top 5 phones, and WBLM's Robln Mathieu says, "'Heartbreak Beat' shows major crossover potential, but I feel AOR can own this act in the end"....

Hard Acts to Follow:

Concrete Blonde, "True", IRS. We predicted top-flight first quarter breakout status for this act, and their chart topping 82-65 underline is a huge step in the right direction. It's #10 Most Added with 14, with 5 increases, 6 heavies and 63 now on board. This rare cameo appearance from WXRT's Lin "Am I too late for a report?" Brehmer, "After hearing Concrete Blonde on the airwaves over the past few weeks, I'm more convinced than ever that Concrete Blonde will be a household word by summertime"....

Pseudo Echo, "Living In A Dream", RCA. Another encouraging week. New air includes WBCN, WLAV, WRIF, KOME, KRQR, WBRU, CILQ, and WWCK--definitely heavy on quality calls. KOZZ ups, with WXXP and KEYX listing top 5 phones. Now on 49 reporters, underlined 80-74. WBRU's Allison Stewart feels "'Living In A Dream' is such a collage of sound that it would intrigue even the most conservative of listeners"...and WFYV's Lex Staley adds, "It has been met with great acceptance and it looks like they'll finally get their shot at the big time".

The Stranglers, "Always the Sun", Epic. Yo Chartwatchers of the World--check those double debuts: #99 on the Hard Hundred and #49 Album Impact. Hey, it's a start. This in-house favorite looks like a phone getter anywhere it gets a solid shot--with WNEW, WMAD, WXXP and WVVV now listing top 5 response. From WUVA's John Malinowski, "The name of the band is misleading, but the song sounds GREAT on the air"...from KGRQ's Jerry LaChelt, "The Stranglers are getting big phones. I love everything about that song." And what does Jer like best? "The way it grabs you by the balls and just keeps getting better". But what do you really think?

China Crisis, "Arizona Sky", A&M.

You basic three listen special now sits atop a grand total of 35 reports, doing especially well on Adult targetted stations, where it moves 58-52*. Ups at KGRQ, KSTM, KBCO, KDKB and WHFS, and adds at KLPX and WRKI bring it on the Hard Hundred at #98. What can we tell you--it's like New Age music with words.

The Saints, "Just Like Fire Would", TVT. I've got to hand it to Tom Teuber and David Anderson at WMAD. Those guys are really doing a fine job of finding hits lately. They lead the way on Crowded House, they're already into serious top 5 phones on the Stranglers--and now they're one of five quick adds on the Saints, which we're equally crazed about. It's early Graham Parker meets Mick Jagger. Just listen a few times and you'll get it.

Vinnie Vincent, "No Substitute", Chrysalis. You will not find a better pop metal powerballad crossover anywhere. Period. Sales, Image, kids, adults--everything. Vinnie racks up an 81-69 underline, with new air on KFMQ, WAQX, WWZU, KRZQ and KFMX...KNAC and KWHL increase, with KDJQ and KNCN our current request leaders. Now on 31.

Hank Williams, "My Name Is Bocephus", WB. Boring, mid-tempo, no response records got you down, bunky? Weeeeell. Here's the solution to that. Take it from WRXK's Greg Mull, "I'll guarantee top 5 phones on the first play. This rockin' blues tune will hit our core right where they live".... and KWIC's Tim Kelley adds, "Who gets a few test plays and then jumps into top 5 requests before it's even added? They call him Bocephus. I call it a hit!"... Call in on at KQRS, WQFM, WMAD, WKLS, WAAF and KDKB to name a few.

Waysted, "Heaven Tonight", Capitol. Our favorite new melodic rocker collects another 9 adds, with WLLZ, WKDF, WFYV and KLAQ out front. It's currently on 29, including WHJY, WDHA, WAQX, KRIX, KAZY, KMOD, WMGM, KSHE, KNCN, KISS and KFMG. Up 92-79 in overall play, underlined 74-58 Core.

Spoons, "Bridges Over Borders", Polygram. Like most of '87's new/developing acts, the Spoons may have taken a bit of backseat to the current automatic onslaught, but there's definitely quality in them that adds: WLLZ, WBCN, WBAB, and WEGR and KDJQ highlight the new action, with increases at KYYS, KOZZ and WKFM. Currently on 61. The lp debuts at #47, with the track up a notch to #64.

In Pursuit, "Only For You", MTM

Isn't it interesting that MTM's first real rock radio project may get its foothold at album radio via MTV. The video is indeed a grabber and we've found the rather mixed medium arrangement of the tune--and Emma's vocals in particular--really sticks in your brain. As KESI's Jim Robinson says, "In Pursuit stands out as perfect texture for Das BMW Boomers. Really good 25+ stuff". Already on KESI, KZEL, WTAO, WTOS, WONE, WHFS, WRAS, WEQX, KMOD, KTCL, KRQU, and WKDF.

Colin James Hay, "Hold Me", Col.

I must admit those early doubts were there, but it sure sounds good on WIOQ. They like it enough to increase play, along with KBCO, KRIX, KGB, WMAD, and several more. It's currently on 80, 10 of which have it heavy. Underlined 50-43.

DAIRY HOME COMPANION

I know it's the buzz of the Industry, but since it's already been in the LA papers and VARIETY, and since it's almost as depressing to read about as it is to write about, I'm gonna pass on this whole cattle prod deal. It sounds like an Ozzy Osbourne story taken out of context. I'm interested in dairies, not dairies. Let's mooove on to other things...

CHERNOFF PD AT WNEW-FM

"I had hoped I would get the job," says new WNEW/NYC PD Mark Chernoff, "but I knew they were talking to a tremendous amount of qualified people. One of them even sent in a video presentation."

Chernoff got the word he had been promoted from MD to PD Friday (1/30) morning. He was told by WNEW Operations Manager-for-life Scott Muni.

The thought that ran through my mind was "growing up listening to WNEW...and here I am the program director!"

God, what a country we live in. America. Without the "k".

"We have mutual respect for each other," says Mark. "Growing up listening to Scott and Dave Herman, I learned a lot about AOR from listening to them. They listen to me, I listen to them, and we adjust to each other. Lots of times, our tastes coincide. I respect them and they respect me."

Where is the next place WNEW has to go?

"Coming into our twentieth year as America's most listened to AOR station, we are the major force in the marketplace, and we intend to stay just that," says Mark. "As we move into the late 80s and early 90s, we will continue to grow. We have a history and we have a future. My job will be to put those two together."

Mark will continue to handle the music.

BYE BYE JOHNNY

We were sad when we tuned in to hear Howard Stern say his nationally syndicated Saturday show was history burgers.

Saturday's Child

"After six months, we've decided to discontinue production," says Carol Strauss at DIR. "The show just was not profitable. It was a very, very expensive show for us to produce. We had to rent studios large enough to accommodate an audience, and the show took huge man-hours to book and produce. Unfortunately, it just didn't generate enough income. We wound up saying 'why are we doing this?'"

Astonishing when you consider that Stern brought up daypart ratings as much as four times in nearly all of the show's markets. The show picking up stations and was close to having 100 markets.

Industry observers agree the show's inability to draw national advertisers was the key in DIR folding its tent. Howard's hysterical, but controversial, act made the "nationals" queasy. Add the recent FCC inquiry into his local NY and Philly shows and national sponsors wouldn't touch him with a ten foot prod.

Stern gets around this problem on his weekday show because of gaggle of eager local advertisers, who reportedly give up to \$1500 per minute on his K-Rock show. But a national show requires national sponsors. So Howard and DIR part company on friendly terms. The last show will be--you guessed it--Valentine's Day, Feb. 14.

DIR is owned by Lorimar--the same folks who gave us the Waltons. But if Howard puts together a TV deal, it'll probably be with Fox TV, not Lorimar, as reported elsewhere. Too bad. He'd have been great on DALLAS as a pork farmer.

It's not 100 percent, but we've heard rumors DIR is in the process of tying up an exclusive deal with David Bowie. Concerts, everything.

WILLIAMS AND PITTMAN

As expected, former EMite Dick Williams has joined Bob Pittman in the launching of Quantum Music Incorporated, the new label Pittman is forming with partner MCA.

Continued

Williams assumes the title of Executive VP/GM QMI Music Division meaning he heads the label. He'll be based in Los Angeles.

LARRY BRUCE NAILS KXRX

Larry Bruce Communications of LA has signed KXRX/Seattle.

"We are very excited to working with Steve West, Paul Sullivan, and Shamrock Broadcasting. Shamrock embodies the best in broadcasting, committed to great radio, based on strategic principles. Seattle is a challenging market, and we look forward to assisting in the success of KXRX," says Larry.

Besides, it rains a lot there. Larry will have an excuse to wear that trick raincoat he's always in.

"It's already a bloodbath because between KXRX and KISW there's only half a staff," notes Bruce. "KXRX has cleaned their clock already: They've got the morning team, the afternoon show, the sales manager, the chief engineer, and, for all I know the custodian. It's gonna be the best war in radio, at least for the first six months."

THE MIDDAY CRUISE AT WCKG

Chicago legend Mitch Michaels is the latest addition to the WCKG airstaff, moving over from his utility gig at the Loop.

Michaels has worked at WHFS, WGAR, WNCR, WLYT, WMMS, WGLD, WXRT, WDAI, WXRT, WDAI, WKQX, WLUP (PD, too.), WBBM-FM, WLUP, and now, WCKG, a fact that prods him to crack that his new positioning statement would be "The saddletramp of the 60s, 70s, and 80s."

"(PD Tim) Kelly's the reason I'm here," says Mitch. "I see parallels between Tim's plan and what (Bob) Pittman did at WKQX ten years ago. It's the same feeling."

Fresh from a strong, but failed attempt to retain his crown at the Bulls' annual celebrity slam-dunk contest (he was runner-up to guy who did full "turnaround 360" jam), Michaels figured he "would go high in next year's draft" and that by then he "could pass the urine test."

"In putting this radio station together," notes Kelly "I need some heritage jocks, guys with ready-made

value in the marketplace. I've got to anchor the station more in Chicago than it has been. It was a logical move."

Mitch indicated that his commercial acting career would continue, as would his voice-over business.

"It's not a matter of chasing the Loop," says Tim, commenting on the direction of the station. "We have goals set and we're going to try to be the best possible album rock station we can be. We are leaning to Classic Rock right now, and will continue to. I'm not going head-to-head with anybody. I put blinders on and just run."

How is morning man John Fisher sounding?

"I like Johnny. I tried to hire him in LA," volunteers Tim.

So you're not chasing (JC) Corcoran anymore?

"No. We just couldn't come to terms. We hit our deadline and moved on," adds Kelly.

"Right now, I just want to get this place put together. This is not gonna be one of those wham-bam thank you, ma'am fast-grow situations. But we're getting there."

QUICHE ME, YOU FOOL

CBS Radio Programs has the inside track to distribute Denny Somach Productions' New Age show.

The program will be two hours long and according to DSP GM RD Steele, it will "sound-great-in-your-BMW-drinking-Perrier-talking-on your-carphone-going-to-your-tennis-date." Cultural stereo and monotypes aside, of course.

Labels interested in getting their product included should contact Sheri Gillis at DSP. 215-642-8646.

THEORY OF RELATIVITY

Mike Corcione has joined the staff of Relativity Records as Director of Natl. Album Promotion. Relativity is Important Records Distributors in-house label specializing in Alternative sonics.

Mike has worked at Important for six years, in all phases of the biz. He is also a club DJ.

This is a good move, Mike. If a PD doesn't like the tune, at least he won't throw ice at you.

BRUCE CAREY TO TULSA

WLUP and KAZY vet Bruce Carey, late of KCBQ-FM and KMLO/SD is joining the morning show at KMYZ/Tulsa. He will be teamed with present host Scott Parkin.

Asked for his thoughts about the show Bruce said, "Dying is easy. Comedy is hard."

This is a reunion of sorts, as Carey and PD Brent Alberts worked together at the Loop.

Bruce promised to call us the minute Oral Roberts doesn't die.

KRIX PD

Sonny Cuellar steps into the PD slot at KRIX/Brownsville, replacing Ace Paladino.

Sonny has no trouble in setting his sights for KRIX's next plateau: "To kick ass in the book."

GOOD CHINA

GIMME TWO STEPS

The Bill Wise Interview

Mr. CD speaks freely and without static or surface noise.

Like a lot of us, Bill Wise started on the campus radio station. But he was smarter even then—he went to school in Daytona Beach when the rest of us were Cryogenic majors at Frigidaire U. Like a lot of us, he had stints in CHR and Country before seeing the light and becoming the WKLS/Atlanta Promotion Director in 1982. From there to WFBQ/Indy PD in 1983, and established it as the Rock of the Rustbelt. He went back to Atlanta in April of '85 as PD of WKLS and proceeded to have three straight books in the Nine's. Named PD of Cox's WGTR/Miami late last year, he faces his stiffest challenge yet in WSHE.

Steve: I think we all want to know what was on your mind as you went from Atlanta to Miami...

Bill: It was obviously pretty scary because SHE is the heritage radio station. But the thought was that we could come down and win. Shake things up. And I wanted the personal challenge. Beyond that, we had some special hooks to make our introduction even better.

Steve: What were those hooks?

Bill: The all-compact disc stance. It helped us get into the market. Having SHE's former morning team out of the box was a big plus. We had a footing. With those two hooks—the fun in the morning and the state of the art technology—we have felt we had a winning combination.

Steve: What's the difference between programming WKLS and WGTR?

Bill: You had to play it safe at WKLS. You're the dominant station in the market, you have a lot to protect and you're very cautious. When you have a station like WGTR, that's brand new, a baby, you program it by the seat of your pants. You break all the rules—do anything—realizing that there's such a small amount of cume out there, you're just trying to get attention any way you can. We're more progressive here than at WKLS.

Steve: If you're cautious, you'll just do things that reinforce SHE's image.

Bill: Right.

Steve: Who are your heroes?

Bill: George Harris has to be one. I've watched him for years. He had the image of being the 'bad boy' of the industry—WYNF, etc.—but he's turned it into a really nice consultancy. And he had a hand in bringing up one of the best jocks in the country—the Bearman, when they were at WGRQ years ago—and

Bearman's turned out to be our afternoon guy and MD, thank you. Dave McNamee was my group PD at Gulf (WFBQ). His long top 40 experience was shared with me. He had great knowledge, which he passed along to me. I admire Dwight (Douglas). He has been there all along, through the success of WFBQ, WKLS, and now, WGTR. He knows more about this business than anybody.

Steve: You promote to your own cume very well. You recycle your dayparts admirably. How?

Bill: Basics. Cross-promotion is mandatory to good radio. A feature is always promoted in dayparts other than the one it runs. We always promote the morning show in other dayparts. We do what everyone else does.

Steve: Apparently, you do it better.

Bill: We've been fortunate in Atlanta and Indianapolis. We had really strong, funny morning shows. We were able to promote them in other dayparts. [Noisenote: This continues to be the critical strength of such stations as WMMR: The fact the station has a large audience and uses it well. DeBella is well-known and a big deal, but he's also the beneficiary of other dayparts—and vice-versa.]

Steve: Is your produced sound an important part of recycling dayparts? Do you have a hot production director?

Bill: Absolutely. I had one of the best around in Steve Mitchell (Atlanta). Fifty percent of the success of WKLS was how Steve made the place sound. Promos are definitely the kind of thing that can set you apart from your competitor. And here, we have a great production guy, Scott Chapin, who used to work at KFRC/SF. Scott has already made the station come alive.

Steve: Compare your produced sound to SHE's.

Bill: Well, they take a different approach than us. It's difficult to detail, but they do drop-ins, the kind that were popularized at KFOG. We don't do drop-ins, we highlight our sound and events. We try to get the listener excited about the station—what's coming up next, what new songs we're playing. We do a thing now called "Compact Disc Facts" that tells people what's going on in the world of CD. How CDs they're outselling everything else, how they're growing faster than color TV did when it was introduced.

Steve: Here's the big one: Does your CD stance limit you musically? What about new releases? (No record—but Bruce—comes with a ready-made CD.) What about music available only on 12-inches, the out-of-the-box stuff?

Bill: Yeah, Lou Gramm, case-in-point. But I think I can take your chart and safely say I have 35 or 36 of the first 40. We will get burned on some 12-inches, but we're not gonna sacrifice the sound and thrust of the radio station. I think we're in great shape.

Steve: What are some of your positioning statements on CD?

Bill: We use "the world's first all compact disc rock & roll station". Also, "all compact disc, all rock & roll".

Continued

Steve: Did you ever think of calling the station WCD instead of WGTR?

Bill: I didn't look through the FCC files to see if that was available. But this thing just emerged. The product availability was there the last couple of months. And suddenly it was "Hey, we can do this..." when everyone said we couldn't.

Steve: So, when coming from Atlanta, you didn't know that was one of the holes in the market that you were going to climb in and spread...

Bill: We had it in our minds, but it was kind of a dream. We had been able to play off CD so much in Indy and Atlanta, but to do all CD? We didn't know if it would be possible...the growth of CDs made it possible.

Steve: Do you guys do any research?

Bill: We've done a series of focus groups and we have done some call-out, but at this point, it's been minimal. We've yet to get everything geared up. But it will be.

Steve: What do you look for in a DJ?

Bill: Someone with a really up presentation, with a mixture of AOR and something not unlike the top 40 DJs of the late 70s.

Steve: Like Lanndecker at WLS?

Bill: I'll go with that. Somebody with a good, up presentation but also someone who can communicate to the rock & roll audience. Somebody who knows every AOR band that ever existed, and that the lead player is the illegitimate son of the guy floating in the toilet in the Tidy Bowl commercial. That kind of stuff. Day-to-day type facts.

Steve: What do you look for in a morning show?

Bill: Quick, concise, and funny. And that doesn't necessarily mean that their jox themselves have to be that way. Two of the best in the country are Bob and Tom at WFBQ. They let the listeners be funny for them--whether they're calling in with characters or their own jokes.

Steve: Yeah, but that takes a while to establish with your audience and you're a ways away from having that in Miami.

Bill: Even when they weren't fixtures, it worked. The first year and a half we were there, that's how they won over the audience: They let the audience be the funny people.

Steve: Still, that doesn't mean it doesn't take time. Nobody in Letterman's studio audience laughed at a thing he did for that first year; people weren't used to his sense of humor.

Bill: You're right.

Steve: But you've got a readily accepted sense of humor in guys that have been in Miami...how long? (In case you forgot, one of the first things Wise did upon arrival was appropriate the SHE morning team.

The accusations of surveillance alone would amaze even certain Langley, Virginians--NOISE)

Bill: (Skip Herman and Jim McBean) were together as a team almost four years and Skip Herman's been in the market almost eight years.

Steve: I'll ask the obvious next question. Were they worth the hassle? The detectives? The court date?

Bill: (Laughter.) One hundred percent. They are going on the air February 16th. It'll get into court sometime in March or early April. By the time that happens, I think we'll all have forgotten why it happened.

Steve: Believe me--they don't forget. Are there still people going in and out of the mysterious building with mirrored windows across the street?

Bill: (Laughing) Probably...we keep our eyes on 'em every day. It's Miami Vice all the way...

Steve: What do you look for in support staff?

Bill: I want people who won't take "no" for an answer. Especially when it comes your promotion director talking to people out on the street and getting the right promotion. And people who have a great attitude in the building. People who love to be a part of the station...

Steve: Do giveaways work in 1987?

Bill: We think they do. Especially on the weekends, when people seem to be very active on the phones, we try to package together for them. The key is: It's got to be something worthwhile.

Steve: Do they work as a quarter-hour game?

Bill: I don't think so.

Steve: How about the negative end of giveaways? The clutter. The disinterest? Is it almost a positioning statement to say you DON'T giveaway shit? "The Giveaway-Free Radio Station"?

Bill: Boy, they'll call me on that one. Oh no! That'll be the one in bold print...

Steve: This whole thing's done in bold. Just look at it. How do you approach a week?

Bill: Head first. Monday is key. We do music and set up the promotions on Monday. It seems that from those first meetings on Monday and leaving to go home on Friday, about 2000 things happen. That's radio, I guess. You gotta be ready for any new promotional idea that might come along. I try to set myself up during the week so I'm available, promotionally and musically, so that the station can be right on the cutting edge of something when it needs to be. Too many stations, you've gotta wait until you sit down and have a meeting and discuss it. By then, you've lost the immediacy...

Steve: And radio is the immediate medium...

Bill: Yeah. So we're ready.

Steve: What kind of outside promotion do you guys do?

THE HARD REPORT

INDUSTRIAL NOISE

Bill: We're just getting into billboards and TV...and we're the official station of the Coconut Grove Arts Festival. About a million people go through it in three days. We're the first station ever to sponsor it.

Steve: You've got a really good track record. You're squeaky clean. Not even one firing. How do you stay one step ahead of the sheriff?

Bill: Not the sheriff...you've got to stay one step ahead of the GM. (Laughter.) And about two steps ahead of the Sales Manager. Be ready for anything. "Anything" happens in this business. A lot.

Steve: What do you see in the future of AOR?

Bill: I gotta think the pendulum's gonna swing the other way and we'll get into new music more. That's probably where we're gonna be next. We'll be discovering new artists after our present Classic phase. There'll be a lot of excitement on AOR because we'll be breaking new bands. We have in the last few years, even though we've been accused of not breaking acts. But we'll break even more, it'll be more fun and we won't be as stale.

Steve: Will we be playing new stuff because the Classic phase going to cook our gold libraries?

Bill: I don't think that's gonna happen as much as there's gonna be some terrific new stuff out there to deal with. And when you look for space for it, it'll wind out taking a slot in the sequence where the gold used to be. You'll play less and less gold per hour. Let's get on to it.

PICK

ANDY WHITE "RAVE ON ANDY WHITE"
(MCA) Ok, back to basics. This Lp arrived quietly but has programmers humming to songs and stories about real people, dreams and disappointments. You'll love the imagery, but moreover, Andy's delivery is captivating in "Soldier's Sash", and his surrender is sweet in "Vision Of You". It's an album for radio folks and "folkies" alike, and he rocks--with heartfelt lyrics and strings of protest. Try "Rembrandt Hat" on for size.

Also New...

MOJO NIXON "GET OUT OF MY WAY"
(ENIGMA) We're talking request action here. Just sample the goods from this collection of greatest twisted hits and the caffeine will kick in.... "Mojo Nixon has those phones ringing for 'Burn Down The Malls'" says Duane Sherman, WTOS. When's the last time you heard a tune like "Jesus At McDonald's"?

SQUIRREL BAIT "SKAG HEAVEN"
(HOMESTEAD) And now for a somewhat different blanket of of sound, from a band who take no-pop shots. "Skag Heaven" contains some killer filler--harsh but confident songs that make you sweat. "Too Close To The Fire" demonstrates guitar graffiti in prime form, so bite a bullet and throw it on an during your next alternative fling.

WARD BROS. "MADNESS OF IT ALL" (A&M)
When dealt a good hand, play it, as in the case of this timely project. Start with "Cross That Bridge", and find a brilliant number, with an almighty hook poised for instant response.... Dave Kane, WCMF says "One listen demands another, and before you know it you're stuck on the rest of the album. From the first notes on side one, it's apparent the Ward Bros. have talent."

AIRPLAY ANALYSIS: Chartstars

PSYCHEDELIC FURS "HEARTBREAK BEAT"
(COLUMBIA) It's fitting to start with #1, and because of the new Tracks chart, here we are. 18 more adds this week and we've got 70 on, single-handed. The album ships soon, so for now let's witness the tremendous gains on "Heartbreak Beat".... "1987 already looks bright for breaking new bands and no one is more deserving than the Furs", says WBLM's Robin Mathieu, "'Heartbreak Beat' shows major crossover potential but I have a feeling that AOR can own this one in the end." Now at 5* overall airplay.

STRANGLERS "DREAMTIME" (EPIC)
As interest builds weekly on an act previously thought to be strictly "alternative", I recall that sentiment when Love & Rockets were first introduced to the format. Well, get ready for a repeat performance with "Always The Sun"-- Now in Power and Heavy at KGRQ, KABL, KTAO, KTCL, WFNX, WOXY, WRAS, WTOS, WXXP and KEYX. If you're still having doubts, then try this: Spin it once on the air and then try to take it off! Psst...it's on CD.

MISSION U.K. "WASTELAND" (POLYGRAM)
As the album ships, we can see you're gearing up for more tracks--the 12" claims our biggest airplay move this week, 43-27*. Five more adds arrive at KRQU,

LOS LOBOS "BY THE LIGHT OF THE MOON" (SLASH/WB)

Other action within includes "Set Me Free" and "Is That All...", but check out a sleeper--"This Mess We're In" is far from a snooze.

CROWDED HOUSE (CAPITOL)

It's with great pleasure that I welcome this Lp to the chart for the first time! From the Lp which sizzled on the home turntable during Summer '86, I wouldn't mind it again this year. "Don't Dream It's Over" IS an out and out smash, so take heed to the 16 new adds this week including KOME, KRQR, WEGR, WONE, WLNZ, WGTR, WGIR, KZEW and WBAB. An upward move on this debut is one to be part of.

PETER HIMMELMAN "THIS FATHER'S DAY" (ISLAND)

No doubt, this is one to watch and enjoy. A 50* debut this week brings us to Patty Martin at KMBY, "I love the Peter Himmelman record! Great adult appeal." MUSIC NEWS compiled by Mike Cooper/**MUSIC NOW!**, P.O. Box 4111, Atlanta, GA 30302-4111; (404) 627-2834.

PAUL SIMON is rehearsing with over 20 members of leading contemporary South African bands in preparation for a tour which will start in March in Europe, and then visit Zimbabwe and the United States before British concert dates in April. **HUGH MASEKELA** and his former wife **MARIAM MAKEBA**, will tour with **SIMON**. Only half of the songs on the tour will feature **MASEKELA**, **MAKEBA**, and a South African vocal group called **LADYSMITH BLACK MAMBAZO**. It will give **MASEKELA** a chance to perform his new song, "Nelson Mandela, Bring Him Back Home." **MASEKELA**, says there will be "everything from super-traditional music to ballads as modern as you can get," and the finale will be "Nkosi Sikeleli Afrika," which has become the national anthem of the African National Congress. The European dates may be picketed by Anti-Apartheid Movement supporters. The British AAM contends that **SIMON** broke the 1980 United Nations Cultural Boycott of South Africa by recording there, and has broken the boycott again by bringing black performers out of the country to work. The AAM note that the ANC in Lusaka sent a telex to their office in Sweden, which supports "boycott action" against the tour, and alleges that **SIMON** has "singularly done more harm in flouting the cultural boycott." **MASEKELA** still defends **SIMON'S** recording in South Africa and his tour plans, noting that **SIMON**, whom he has known since 1964, has brought together musicians who had not been able to meet until now. "South African music has been in limbo because of apartheid. Exile and the laws have parted us and caused a lack of growth. This is our music and our country. Who are people in London to tell us what our movements should be, and how we should get together. If they want to help, they should pressurize European governments, not mess with the musicians," **MASEKELA** says. There will be a live album from **SIMON'S** tour, and **MASEKELA** has just signed a new recording contract and should have his own album out to coincide with the tour. After the **SIMON** tour, **MASEKELA** plans his own world tour with a group of South African stars. In addition, **LADYSMITH BLACK MAMBAZO** also have a recording contract with Warner Brothers, and **SIMON** has produced their new album.

SQUEEZE keyboardist **JOOLS HOLLAND** has been suspended from his job as a host of the British television program, "The Tube," because of his use of a four-letter word (fuck) during a recent live promo for the program. He apologized for the "slip-up" when the program aired later that day. The television production firm says it "takes a most serious view of what has happened," and it won't let **Holland** appear on any of its programs until March 6.

The **PSYCHEDELIC FURS** say they won't be able to appear as part of the International AIDS Day Concerts. The band's manager says the group was already committed to European dates when the schedule was announced, even though "we had no hesitation in pledging our support in principle." The **BLOW MONKEYS** and **ASWAD** have agreed to perform at the shows, but **PETER GABRIEL**, **THE**

PET SHOP BOYS, **PAUL YOUNG** and **ALISON MOYET** say their schedules won't allow them to perform.

The **GEORGIA SATELLITES** are tentatively scheduled to tour with **REO SPEEDWAGON** once **BOB SEGER** completes his current tour.

PATSY KENSIT, who appeared in "Absolute Beginners," says she'll appear nude in her next movie, "Priceless Beauty." "It's the furthest part I could get away from "Absolute Beginners," she says adding that she asked herself whether the nudity was necessary for the film. "Unnecessary nudity is boring and a turnoff. I wondered if it was going to harm me in the long run. But I came to the conclusion if it shot well it can be very beautiful," **KENSIT** says.

JIMMY JAM HARRIS and **TERRY LEWIS** plan to release their own album, called "The Secret." The LP will be recorded with various guests who are as yet unnamed.... **JANET JACKSON** may be involved in a film that **THE TIME** are planning in conjunction with their upcoming reunion album and tour.

If Iranian-born millionaire **MICHAEL ARMENIAN** has his way, London's Wembley Stadium will soon play host to some of the world's biggest names as part of a huge global rock festival to promote international unity. He plans to form a British supergroup for the occasion that would include **KEITH RICHARDS** of the **ROLLING STONES**, **MARK KNOPFLER** of **DIRE STRAITS**, **PHIL COLLINS**, the three surviving **BEATLES**, and **BRYAN FERRY**. It's called the One World Festival, and it's scheduled for July 11. It will involve a 24-hour satellite link to beam performances to television stations all over the planet, including **QUEEN** in Moscow, **SADE** or **CLIFF RICHARD** in China and **U2** in Managua. Proceeds from the extravaganza will all go to children's charities.

DREAMS SO REAL, whose "Everywhere Girl" was produced by **REM'S** **PETER BUCK**, are one of eight bands featured in a film about the Athens music scene called "Athens Inside/Out." **BARRY MARLER** says that being based in Athens has its advantages as well as its drawbacks. "Every now and then, we'll encounter a bit of bitterness, because people think "oh, here are these guys trying to capitalize on **REM'S** success. That way, they can directly hit at **REM**." **MARLER** admits to liking **REM** "a lot," but adds "I wouldn't be doing this if I thought we couldn't stand on our own six feet. Obviously, we're closer to **REM** than we are to **DEEP PURPLE**. We're in the same ballpark, but there are a lot more people out there who sound more like **REM** than we do and aren't even produced by Peter Buck."

The soundtrack to "Athens Inside/Out" is just being released, and the film will gradually open across the country beginning in late February and continuing through late April. The LP features two tracks from **REM** including their cover version of the **EVERLY BROTHERS'** "All I Have To Do Is Dream," as well as cuts from **LOVE TRACTOR**, **PYLON** and the **KILKENNY CATS**. The first single from the soundtrack will be "Na Na Na Na Na" from the **SQUALLS**.

MUSIC NOW CONTINUED

The Phillips auction house in London says that a grey suit with a black velvet collar that belonged to **PAUL MCCARTNEY** has been sold at auction for \$3,000 to a private collector. The suit was made for about \$135 over 20 years ago, and was worn by **MCCARTNEY** on stage.

IRS records has a new label called the Primitive Man Recording Company (PMRC). The first three signings on the new label are **THE BEARS** featuring **ADRIAN BELEW**, a Los Angeles band called **THE BALANCING ACT**, and New York band **TYREZ TYREZ**. The new label is being run by **SAM GENNAWEY**, who has operated a hip Orange County record store. The new label doesn't mean IRS will lose interest in signing street-level bands, according to a spokesman.

GENESIS' current "Land Of Confusion" hit is a good example of group members "writing more directly now," according to guitarist **MIKE RUTHERFORD**. "I guess it's taken me 18 years to get around to writing a protest song," **RUTHERFORD** says. "I would never have written the lyrics so directly in the early days. The message is very simple -- what a great world we've got here and what a mess we're making of it." **GENESIS** had to cancel a concert in Kansas City recently, because of problems with **PHIL COLLINS'** throat. "He had a cold and his voice went. There's nothing you could do," **RUTHERFORD** says. "But we've canceled just two shows in the last eight years." **GENESIS** is hoping to tour China this year, but hopes of touring the Soviet Union don't seem to be materializing. "We've tried to get in there many times," he says. "But I think we're a little too bizarre for them. Some of our lyrics still worry them."

MEN AT WORK are among the groups that will contribute to the soundtrack to the Australian film "Pandemonium."

IRON MAIDEN lead singer **BRUCE DICKINSON** has been released from a jail in Texas after being arrested on a warrant issued after a fight that occurred near the stage at a **MAIDEN** show in March 1985. **DICKINSON** was released on a temporary \$300 bond in connection with the assault charge against him, which alleges that he hit one of the fight participants in the head with his microphone, and then choked the man with the microphone cable. The band's manager took **DICKINSON** to the authorities after learning of the warrant.

Don't look for any more issues of "Boston Rock." The publication is blaming a lack of advertising and a depressed local music scene for its death after years. Publisher **MIKE DREESE** says "it wasn't looking practical as a business, and I simply don't have the time anymore." **DREESE** is co-owner of the Newbury Comics record stores. "I don't see the same excitement as when we started, when you could see great bands like **GANG OF FOUR** and **THE DEAD KENNEDYS** at the Rat. The hard core audience is still there but I don't see the young kids getting into it. We were relying on independent record labels and nightclubs for our advertising, but lately there isn't much to advertise," **DREESE** says. "There needs to be a new scene, new music and a new look," says editor **BILLIE BEST**.

And now, the latest music news **LIVE FROM LONDON**, courtesy of **CFNY** and our exclusive reporter, **LEE CARTER**. Lee can be heard on **CFNY's** "Sunday Music Magazine" program and on "Live From London" aired Wednesday evenings.

There are fresh reports concerning the 'One World' festival, mentioned previously in this column. The event is scheduled for 11th July, with hope of simultaneous concerts all over the world - 'Live Aid' style. It's now been revealed that the organizers of the event have approached the three surviving **BEATLES** - **PAUL MCCARTNEY**, **GEORGE HARRISON**, and **RINGO STARR** - and asked them to appear in a supergroup together that would also feature **KEITH RICHARDS**, **MARK KNOPFLER**, **PHIL COLLINS**, and **BRYAN FERRY**. Some of the other hot rumours are that **QUEEN** will perform live from Moscow and **SADE** from the Great Wall of China! One however must show a certain amount of skepticism with regards to actually linking all these places together; it's a project that sounds many times more ambitious than Live Aid. The proceeds will go to various organisations for children in need like 'Save the Children' and the festival has the official backing of the Archbishop of Canterbury - the head of the Church Of England.

THE CURE are angry and upset over a controversy in The United States, following the U.S. release of their greatest hits LP, 'Standing On A Beach'. The LP includes the group's single 'Killing An Arab', a U.K. top ten hit in 1979. The lyrics are seen from the point of view of an insecure racist and has always been regarded here as an anti-racist record, but some American dee jays have been using the record as an anti-arab anthem to appeal to a post-Libya jingoistic mood. **THE CURE** have therefore offered to stage a major concert in the USA during the summer, the proceeds of which will be divided equally between American and Lebanese orphanages. Their lead singer, Robert Smith, has also requested that the song be withdrawn from all radio play, while Elektra Records are attaching a sticker to all future copies which reads: "The song 'Killing An Arab' has absolutely no racist overtones. It is a song that declares the existence of all prejudice and consequent violence. **THE CURE** condemn its use in furthering anti-arab feeling."

SIMPLY RED'S new single 'The Right Thing' is out 2nd February in the U.K. and the 12" contains two more tracks, 'There's A Light' and an old Cole Porter number 'Every Time We Say Goodbye'. The LP to follow in March is called 'Men and Women'.

BIG AUDIO DYNAMITE are back with a brand new single out 9th February in Great Britain, 'V Thirteen'. The A-side was recorded in London, while the flip 'Hollywood Boulevard' was recorded in New York.

Virgin have quickly snapped up **AGE OF CHANCE**, (previously on the indie Fon label,) purely on the strength of their single, a rock cover of Prince's 'Kiss' (a wonderful record by the way, particularly the 7"). Their new label are wasting no time in releasing new material in days here. A new EP will contain three songs of their own, another version of 'Kiss' and their own rendition of the **TRAMPP'S** 'Disco Inferno'. Sounds suitably irreverent!

LIVE FROM LONDON CONTINUED

Last September, a band of called WESTWORLD, a pretty American girl living in London and two guys, one from London and the other from Wales, privately pressed up 500 copies of their song, 'Sonic Boom Boy' and did something bands don't normally do - they gave them out free to anyone who was passing. Word got around and the rock TV show 'The Tube' stepped forward, made a video for them, aired it on the show and now WESTWORLD have a great record deal. And 'Sonic Boom Boy' is a great record. It has all the vitality and energy of a classic CLASH record in their most produced period, but it also has a slight American touch, not unlike the PRETENDERS when they started. I'll be very surprised if you don't hear a lot more of WESTWORLD.

JULIAN COPE was pretty splendid last Saturday at the Westminster Central Hall in London, right in the shadow of Big Ben and The Houses of Parliament. I was struck by how young his audience were, originally suspecting that there might be a few old TEARDROP EXPLODES fans crawling out of the woodwork (but they've evidently traded in New Wave for New Age CDs). Yet this very very youthful crowd did know a lot of TEARDROPS material, which COPE played a fair smattering of. JULIAN leapt, pouted, slinked, about like a serpent, actually fell off the stage at one point, got extremely kinky with his extraordinary microphone stand and provided us with an absolutely blistering set of songs, old and new. The man oozed sex in a fashion that PRINCE would admire. His new band are incredible professional and tight, and I have no doubt he is going to be very big in '87 and well deserved it is too.

COCTEAU TWINS and THIS MORTAL COIL FANS are up in arms at the moment (TMC was The COCTEAU'S previous incarnation). Their 'Song To The Siren' has been used here in the U.K. as a TV commercial advertising Sunshine holidays. Not a great image for the country's favourite artschool band - as 'Melody Maker' noted this week: 'Song To The Siren', a private moment that meant so much to so many people has been tied down and will never be the same again." But it turns out the holiday company did obtain the song by slightly devious means. The outfit and their label, 4AD, had given a firm thumbs down to the ad. But the agency acquired the tune from an old ex-member of THIS MORTAL COIL, LOUISE RUDETSKY, and re-recorded it with her, instead of LIZ FRAZER, the original singer.

I'm reliably informed by SWISS SPIES that DAVID BOWIE walked into a disco at a posh ski resort and invited the dee jay to put a cut from his newly recorded LP on the turntable. As soon as it came on, everyone vacated the dancefloor! Oh dear, how embarrassing!

As rumoured, Virgin Records have officially signed STEVE WINWOOD, ending his 20 year association with Island that began with TRAFFIC. Not known previously however is that his deal is worldwide and not just the States. He is no doubt one of the first of many name acts to be lured to Virgin in the next few months, subsequent to their big share flotation in the U.K. to fund the expansion of their American operation.

IN BRIEF: BOB GELDOF'S autobiography 'Is That It' has now been added to the official reading lists in British schools for the Advanced Level Examination, which is the equivalent of the last two years of High School... By climbing the British Charts this week, IGGY POP'S 'Real Wild Child' will become his first top twenty single on either side of the Atlantic... The leading record company presidents in the U.K. this week openly attacked the BBC'S coverage of rock and pop music on television. The big chart show, 'Top of the Pops' was cut back from 45 minutes to 30 last year. Now their leading progressive show 'The Whistle Test' has been miniaturised from one hour to 30 minutes. 'The Whistle Test' has already been trounced in the ratings by Channel Four's 'The Tube' and now independent television are planning a chart show to compete with 'Top of the Pops' to be launched in April. Strong attacks against the BBC'S cutback on pop came from the heads of Phonogram, CBS, and the BPI Chairman Rob Dickens.... Europe's big music-biz conference, MIDEM has begun at Cannes, where some very important wheeler-dealing goes on in the freebie soaked marquees. One of the early outcomes of this 21st MIDEM, is the complete renaming of RCA/Ariola in Europe who were recently taken over by another company who want to drop the RCA tag, according to 'Music Week'... After Matt Johnson's rhetoric about THE THE'S 'Infected' being about the disease of materialism; portions of the video are to be used to advertise Pepe jeans in the U.K.... The world's largest commercial radio station, Radio Luxembourg beam a powerful AM signal right across Europe, their unlicensed English service broadcasting into these shores for eight hours every evening. Now they are boosting their signal to Britain (which currently fades in and out a bit) with help of Ireland's RTE, with large boosters on the east coast Eire.

In my last week of reporting as Music Director, I would first of all like to thank everyone who I've built strong relationships with over the years, because it is these folks who helped me obtain my new found career with Geffen Records in their Cleveland branch. As the saying goes, they are too numerous to mention but will not be forgotten. Also thanks to Al Coury, Marko Babineau, John Brodey and Howard Lesnick at Geffen for their confidence and support. Also thanks to Dave Krusenklous and the staff at Double Q for 6 1/2 very enjoyable years. It's been great and it's gonna be great. I'm looking forward to working with the radio folks in the Cleveland, Pittsburgh, upstate New York area.... Since we're on the subject of work, I had a chance to catch Tesla on the road with David Lee Roth; surprisingly strong live.... With the influx of Bon Jovi, Deep Purple, Cinderella and Europe too, it's time to Teslafy!! "Modern Day Cowboy" is a straight ahead rocker with a combination of different textures and monster hooks, guaranteed to generate phones.

Dayna Steele, KLOL, Houston

Sammy Hagar is #1 on the phones this week. They think he's from Texas. I think his father was born here, I dunno. He's an honorary Texan and always will be.... I think Gregg's got a pretty good song except for the "I'll Show You My Tattoo Baby" line. It's just disgusting.... Two more tracks from Lou Gramm go in. Every single song on that record is a hit. Great!.... Finally added the Jungklas. I really like him. He's got a haunting voice.... Ratt's "Dance" is great for the teens listening at night. Let's face it, the drinking age here went to 21, and they're at each other's houses partying and/or driving around in their cars, and they want to hear Ratt... Moves: REO and Starship go to heavy. REO sounds like a get on/get off hit, ditto the Starship.... Considering: I saw the Joan Jett video last night, and although she's not my favorite artist, the song is an all out smash. Maybe we'll be on it soon.... I like that Virgin Records because Jeffrey Naumann works there.... Saw Lone Justice the other night and they were great live--Punk Country Rock. We've got to do something about their haircuts.

Dave Kane, WCMF, Rochester

Without a doubt, the favorite add and new piece of music this week is the debut from the Ward Brothers. One listen demands another, and then before you know it, you're stuck on the end of the album. Right from the first notes on Side 1, it's apparent that the Ward Brothers have great talent. The songs are smooth and melodic with great hooks and a very hip 80's sound. Great music, great debut. Glad to see Gregg Allman back as strong as ever. His is the voice of contemporary Southern music and the proven production touch of Rodney Mills makes this one shine.... We're also running with the Triumph ballad "Just One Night".... First two songs from "Sport" did extremely well for us and we expect more success with this next Kinks change up.... Thanks to CBS for servicing some of their landmark jazz albums that have been digitally remastered. They make a great addition to the home library.... Heavy mileage in the car for China Crisis, Ward Brothers, and the Hard samplers.

Rad Messick, WDIZ, Orlando

Gregg Allman could be the comeback of '87. Sure, I was skeptical but after playing "I'm No Angel" on the radio and getting top 5 calls after one day, I can officially testify that you don't have to be an angel to have a hit. We also like "Can't Keep Running" and for that extra true blue Allman Bros. depth the "Don't Want You No More/Cross To Bear" seg works just fine. Just ask me, I live in the South.... Good phones for the Starship. Good out of the box CHR play moves it to heavy here this week.... Paul Simon is almost a million and half units strong. How can you go wrong, considering that most of the people buying the record are 25+.... Iggy Pop had a couple of real successful Pretenders dates in the state, and besides those hard core Iggy fanatics chanting for "Dog's Food" seemed to dig "Real Wild Child".... Clapton's "Miss You" is the next track from "August", and we moved it to heavy this week.... Special thanks to Kevin Sutter and Geary Tanner of Chrysalis for putting together a greater round of golf with Huey Lewis. Whatta sport.

Don Berns, CFNY, Toronto

Speaking of 12" remixes, which I'm sure someone somewhere was doing just before reading this, have you heard the extended remix of the Talking Heads "Love For Sale". Now there's a new version worth playing. The original is great, but the remix is super. What energy and creativity, but one expects that from David Byrne and company anyway, right?.... One of the real values of 12" releases is when there are brand new tracks on the flip side. For those of you who have had a great deal of success with World Party be sure to check out the 12" remix of "Ship Of Fools", with two brand new tracks on the B side. "World Groove" which is also on the promo CD serviced in R&R last week proves that Junior Walker lives. What a great track, plus there is their version of "Nowhere Man" as well. Looks like the Party continues at CFNY.... So, now that "Midnight To Midnight" is finally out, I'm happy, our announcers are happy, and almost all of our listeners are happy. After all, the Psychedelic Furs can do no wrong in Toronto. And the new album continues in their tradition of making fine powerful music. Aside from "Heartbreak Beat", the obvious choice for the first single, "Shadow In My Heart" sounds like a hit, and "One More Word" really sounds good on the air as a depth track. This is one LP not to be missed.... Finally, I'd like to be the first to step forward for a good word about Bobby Christian who was the PD of then 96KX when I was at WTAE in Pittsburgh. I know that some publications want to be first with all the news, but flogging a man when he's down is a bit much don't you think. I'm getting the feeling from reading R&R every week that Bobby murdered somebody. No one has mentioned the fact that he is a really good and respected programmer who deserves better in the way of support from those of us who may be somewhat shocked, but can still look beyond the facts of the case. P.S. Has anyone bothered to check into the facts to see that he was not distributing the alleged pornographic material, but keeping it for himself.

Ellen McKinnon, WEQX, Manchester, NH

You should believe every bit of information you hear about the Saints. "Just Like Fire Would"—Indeed. Whatta great song.... Ahead of the rest, we play the best rock and roll on WEQX.

Kim Alexander, WHCN, Hartford

Whoa! Just opened my eyes. I had quite a good time at Dave Edmunds. The guy is such a great performer; the kind of party band you'd like to have at your wedding.... Gregg Allman, welcome back! "I'm No Angel" retains all the Allman Brothers guts and moves Gregg into the 80's nicely.... We went with Esquire this week. No, it's not a first listen record but after 4 or 5 listens, that baby kicks in and won't let go. A class act. (Now, I can't wait for the Yes album).

Catfish, WHMD, Hammond

Top requests last week: Bon Jovi, Stevie Ray, Peter Dinklage, Robert Cray.... New Gregg is as good or better than the Allman Bros. Recently, Gregg and Dickie Betts played to a full house in the same venue in Baton Rouge where Robin Trower will jam February 17.... Til Tuesday "Coming" and Alan Parsons on CD both move to power rotation.... Now there are three Paul Simon's "Boy In The Bubble" CD versions. We played the album version in drive time and the extended version at night.... Colin Hay will go all the way. "Hold me" is masterfully produced from the opening prayer to the "In Your Eyes" style fade out.... More Australian rock from Pseudo Echo is welcomed here. I remember hearing "Living In A Dream" on Radio Australia's International short wave service recently; that, and reports on the America's Cup Races.... The new Sammy Hagar solo will definitely cross over with all the Sly exposure its getting. Lead the competition with "Winner Takes All".... We played "Willie The Wimp" on Rate at 8 and read the story on the 12" cover and response was totally positive. SRV has another cool record on the air.... Julian Cope moves up to heavy rotation.... With the shorter, more convenient edit on "Tonight", Genesis also receives heavy airplay. The LP version is a jock's option.... It was a pleasure to meet BeBop Hobel of EMI/Manhattan. Thanks for the sneak listen to the advance cassette of local Mammoth, Neville Bros. and a fantastic new Peter Wolf single.... Love the new LOS LOBOS video. All it lacks is Gilda, Mothra, Gamera, and Rodan.... Would you believe 10 angry boy scouts armed with Jay Ziskrout jokes?.... The Hard Report sampler cassette really makes life easier.

The artists featured are the ones to pay attention to. The cassette format makes home research much, much easier. Thanks, Bill.

Steve Cormier, WIZN, Burlington

"I Found Love" is by far the best rock & roll tune Lone Justice has put forth yet.... Comeback of the decade goes to Robin Trower. "No Time" has a 70's sound that fits just right in the 80's.... Despite my disbelief, the phones continue to come in on "Don't Dream" from Crowded House.... Welcome back Gregg Allman. "I'm No Angel" could be one of the bigger surprises of 1987.... Thanks to Jay Miggins for a great night out.... Also thanks to Roman from MCA for the CD's. The Wizard now has close to 350 CD's but we could use more.... WIZN was just voted the top radio station in the best of Vermont issue of The Vanguard Press. Here's our latest ARB's. WIZN went in 12+ numbers from 3.1 to 12.2; Men 18+ from 2.9 to 16.0; Women 18+ from 3.7 to 8.5; Adults 18-34 we're first with a 19.8.

Al Branca, WMGM, Atlantic City

The new Lou Gramm LP is the best I've heard this year. There isn't a throw away track on it. Our favorites: "Ready Or Not", which we added this week, "Until I Make You Mine" and "Heartache".... Can't wait to hear the new Gregg LP. "I'm No Angel" is an out of the box heavy add.... Also on Joan Jett "Light Of Day", Jason & The Scorchers "Shotgun Blues", Kinks "Lost And Found", Deep Purple "Call Of The Wild", Venetians "So Much For Love" (Re-Add), Ric Ocasek "Keep", and Price Sulton "Stories".... Top 5 phones this week are for Bon Jovi "Prayer", Deep Purple "Bad Attitude", Cinderella "Nobody's Fool", Boston "Can't Cha Say", and Eric Clapton "Tearing Us Apart".

Bob Welch, WQBK, Albany

First time I heard Gregg Allman's "I'm No Angel" it was two years ago and Mike Caplan was running around the Superstars convention with a rough mix. I knew then he had something there. The final vinyl on the song proves Mike was right.... Paul Simon's "Boy In The Bubble" is an obvious one for us. The album has been top 5 sales since Day One.... After many listens to the Colin James Hay tune, I give in. It really grew on me. That's a tough admission considering how I felt about Men At Work.... A gold star to WQBK morning man, Roger Coryell. When Merv Griffin was in town recently to meet and greet the staff of his newly purchased stations, Roger got Merv on the phone the next morning and had him play "Wheel of Meat" on the air. If Merv answered

Just one question right, Roger offered to pick up the tab for his luncheon meat. Of course, when Merv was asked who his favorite radio station was, he immediately said WTRY and the buzzer went off and nuked him.... Finally, what Vermont radio station was recently named Capitol region commercial station "on a good day" by three critics of a local arts and entertainment rag? I'll leave the answer to your imagination.

Phil Manicki, WWCT, Peoria

Haven't heard from Gregg in a while, but the wait was worth it! While satisfying your 25+ males, "Angel" won't alienate them wimmens.... Being a Chicago native, I gotta love "Willie The Wimp".

Rick West, WXKE, Ft. Wayne

The Allmans just played here, had trouble selling tix, and three months from now that won't be the case. The new Gregg brings him AND them back.

Greg Mull, WRXK, Ft. Meyers

First and foremost this week, 96 K-Rock has been asked by one of the PGA golf courses here in South Florida if we would be interested in sponsoring a 96 K-Rock Open. I would like the event to benefit a charity (T.J. Martell perhaps) and to be a celebrity event. We're tentatively looking at mid May and intend to make this a Saturday event, with a banquet to follow that evening. A chance for music and golf enthusiasts to spend a spring weekend at the beach and the fairway. If you have put on such an event before or are interested in participating, I would appreciate your input at 813-332-3696.... What a hot week it was for new music.... There is not a bad cut on the new Lou Gramm album. A lot of hot rockers and a few rock ballads, too. We're playing the title cut and "If I Don't have You" and both sound great on the radio. I recommend to Atlantic that they hold off the Foreigner project for a while, push this solo album and perhaps a brief Lou Gramm tour.... The Hank Williams, Jr. cut, "My Name Is Bocephus" is too hot to handle. I'll guarantee top 5 phones on the first play. This rockin' blues tune will hit our core right where they live.

Lin Brehmer, WXRT, Chicago

Sure. We were struck with the thoughtful quality of Matt Johnson's songwriting, the depth of The The Lp, the range of mood and tempo throughout "Infected". Little did we know an album like this

would make such an immediate impression on the people who buy records. Keep an eye on this one, single or no single.... After hearing Concrete Blonde on the airwaves over the past few weeks, I'm more convinced than ever that Concrete Blonde will be a household word by summertime. We'll catch them live when Dave Edmunds comes to town. That'll be the pudding where the proof is.... WXRT is kicking off our Fifteen year anniversary with a couple of Kinks club dates and much more to come.... Adds this week: Camper Van Beethoven.

Doug Clifton, KBCO, Boulder

Gregg Allman is back! "Angel" was a big surprise. This is one of the year's best new songs. This Lp is gonna be an even bigger surprise to most programmers. Gregg goes on out-of-the-box and straight to heavy.... The new Santana finally clicked for us this week. I still wanna hear the rest of the Lp.... A couple of good new bands to keep an ear open for: Zerra One, and the Venetians. The Venetians are right to the point.... Lou Gramm is just a figment of your imagination. No, we're not changing formats, we just happen to like the song a lot. Okay?

Bob Allen, KFMQ, Lincoln

KFMQ is in search of artist ID's. We've been rocking Lincoln for 16 years and would appreciate any greeting we can get. We want them to include a specific statement of course, "This is _____ of _____ and you're listening to KFMQ, celebrating 16 years as so & so band Lincoln's rock & roll leader." Send 'em to: KFMQ, 1540 S. 79th St., Lincoln, NE 68506. Thanx in advance.

Loris Lane, KFMX, Lubbock

After a month of bitching and whining, Crowded House finally goes in and it sounds good so-o-o-o-o good. Now I'm gearing up for a month of bitching and whining for Concrete Blonde.... We've moved Stryper into power. Sales and phones on that record are undeniable.... Sammy Hagar also continues to burn up the phones.... I see that the mailman just delivered the LeRoi Brothers Lp, so I'm going to be unavailable for a couple of hours. Have your secretary call my secretary and we'll have lunch.

Jack Emerson, KGGO, Des Moines

Sammy Hagar is just a fantastic new song.... Top 5 Phones this week: Bon Jovi "Prayer", Cinderella "Fool", Lou Gramm "Blue", REO "That", and Europe "Final".

"...Joan Jett has hit the magic chord with 'Light of Day'...a smash and a half." ALAN WHITE, KILO
"The song is an all-out smash." DAYNA STEELE, KL0L

Jack Anthony, WKWQ, Columbia

Time to toss around a few adjectives. Nothing much with teeth in this week's adds. But a few good upper demo things. I think Siouxsie and the Banshees are going to get long deserved AOR attention with "This Wheel's On Fire". Check out the flipside of the 12"... Good things will come to C.S. Angels. Nice and classy.... Well, let's get back to dwelling on this new 500' tower. Three weeks and counting.

Ron Sorenson, KBLE, Des Moines

It's early yet, but unless we get a Beatles reunion this summer, I'd be willing to cast my comeback artist of the year vote right now for Gregg Allman. "Angel" evokes the best of the Bros. and the Dickie and Gregg tour should keep their visibility high.... Although Walter Becker didn't produce the new China Crisis Lp, the band obviously picked up a trick or two from Big Wally. "What Price Paradise" is every bit as strong as "Flaunt The Perfection"; future power for sure.... Esquire fills the artrock slot nicely, and we'll go several cuts in.... A hearty handshake and standing ovation from the peanut gallery for MCA/Zebra jazzman Ted Hijashioka. Your care package was impressive and much appreciated.

Keith Taylor, WQMF, Louisville

By the time you read this, Billy Joel will have put on one fantastic show at Freedom Hall. We gave away a pair of front row tickets.... And what about this weather here in the Derby City. Last week, zero with a wind chill of 20 below and this week it's up to 50. Gee whiz, my sinuses love this. Let's look forward to Spring (but I haven't gotten to go skiing yet this year).... Joan Jett sounds great on the air and thanks for the reel copy of "Light Of Day".... Can't get enough of Gregg Allman, The Cutting Crew, and Esquire. But my tweeters aren't putting up much of a bitch.... Lou Gramm continues to grab great phones.

Michael Prince and Alex Miller, Atco 212-484-6400

Atco has the Canadian connection with Idle Eyes and Brighton Rock. The latest release from Idle Eyes is the title track "Love's Imperfection". This 12" has been serviced with an A side edit and the Lp version on the B. Please listen to this song with the 1-2 power pop punch. Also you can see Idle Eyes live as the opener for Human League.... Brighton "We Came To" Rock is gathering steam at the stations programming it. And in those markets retail is responding. Don't dismiss Brighton Rock who have just completed a tour with Triumph.... For softer AOR's, Larry John McNally's "Obsession" is a must. The remix with production by Gary Katz sounds brilliant.... P.S. Prepare to be RECKLESS.... Since you did thanks for reading.

Michael Plen, Virgin, 213-278-1181

Arriving at your radio station today is Virgin's first rock release by the Cutting Crew called "I Just Died In Your Arms". It seems that virtually everyone who's heard the song falls in love with it and we're expecting a ton of adds next week. Please get behind what seems to be one of the most exciting acts as well as one of the most exciting labels to debut in this country.... The whole industry seems to be excited about the fact that Virgin Records is now in America and ready to deliver some of the hippest records from all over the world. Besides signing Steve Winwood and Warren Zevon, we'll be bringing you more exciting new records, just look out for them.... Coming in two weeks: The Killing Joke album, a Heaven 17 12", and the Cutting Crew, "Broadcast". So get on the bandwagon and get ready to be a Virgin all over again.

Jon Scott, Music Awareness, 818-883-7625

Attention radio, records and celebrities: Make your travel plans now for Los Angeles on April 2, 3, and 4, 1987 for the 5th Annual T.J. Martell Rock 'n' Bowl for Cancer and Leukemia Research. This year's festivities include the bowling party, the Second Annual Celebrity Golf Classic and the First Annual Celebrity Softball Game. If you would like to participate in any of these events or volunteer your services, please call us as soon as possible. This is a great charity so make your plans to be here in LA on Thursday, Friday and Saturday, April 2, 3, and 4. Be there or be square.

Jerry LaChelt, KRGQ, Casper

China Crisis' "Arizona Sky" has a melody that'll stay with you all day.... Stranglers are getting big phones. I love everything about that song. "Always The Sun" grabs you by the balls and just keeps getting better. They have a 12" hot mix out on that and it's unbelievable.... Good to see other stations going on Kinks' "Lost And Found" as it's the best track on the Lp.... Want a different sound? Try the C.S. Angels.

Michael Davis, KFME, Albuquerque

Gregg Allman's "Angel" lives up to all the pre-release hype. The Allman Bros. were a big part of many peoples' lives. This release touches that cord of what was, what could have been and is in 1987. The "Light Of Day" project as a whole will be big. All the indicators point that way.... Rock 108 adds Poison to our night time list. Great response to Poison from our heavy rockers.... It's been fun to sneak listen to the REO. The best album radio track is "Variety Tonight". It smokes the rest of the album.

Dru Dawson, KBAT, Odessa

I'm really big on how records feel, and the **Psychedelic Furs** feel right. Buy her a Fur, she'll love you. And you won't have to kill any animals.... Is **Johnette (Concrete Blonde) Elvira's** little sister? She looks like the kind of girl your mother wouldn't let you go out with, but you did anyway. I like "True" because it sounds like early Pretenders.

Jim Robinson, KESI, San Antonio

On **In Pursuit, "Thinline"** stands out as perfect texture for the **BMW Boomers**. Really good 25+ stuff.

Joe Blood, KEZO, Omaha

Lou Gramm is shockingly good. It has to be the best solo Lp release so far this year in terms of writing, production, and total execution. Love it. "Ready Or Not" and "Arrow" are killer rockers. Much less corporate sounding than expected. The first three songs on side one!.... The advance cassette of the **Psychedelic Furs** tells me this has got to be the breakthrough project. Every facet of the album is excellent, from **Chris Kinsey's** state of the art production to the group writing and ensemble playing, and **Richard's** voice has never sounded better. Besides "Heartbreak", I especially like "Angels Don't Cry", "Shock" and "Torture". Can't wait for the official release.... **Gregg Allman** is a smash. CHR will HAVE to deal with this one.

David Allen Ross, KMJX, Little Rock

Time to get out the soapbox. It's a pity that radio is saddled with inadequate means to measure listenership. We just experienced our best Birch quarterly and our worst ARB simultaneously. We aren't targeted at teens yet in the Birch, which is a teen dominated survey (the teens answer the phones first) we scored the highest numbers we've ever had with that survey. In the ARB, we completely disappeared. Considering the exorbitant cost of radio surveys, you would think that after all these years of fine tuning their methods they would reflect a little more accurately in listenership. On to the next subject.... Congratulations to **Cinderella** and **Bon Jovi** on selling out **Barton Coliseum** in one day. It's the first time that's happened in approximately 10 years. Hats off to the boys.

Michael Gardner, KOAS, Honolulu

I'm still looking for more promo Lp's and CD's, we'll take care of you when you come to Hawaii. A big Aloha from our airstaff: **Mark, Denise, Frank, Dave, and Mike**.

Doc Phillips, KPEZ, Austin

We are still cooling down from this weekend's hot, indoor midwinter beach party. Nothing like a hot tub party to break the ice.... Thanks to **Pat and Barbra McDonald** from **Timbuk 3** for dropping by this past Saturday for an autograph session. We're proud to have been one of the first AOR's to break these Grammy nominees.... Thanks to **Crescendo** for the **Trower CD's**.... We're looking forward to **Chicago's** visit next month.... Part-timer **Dave Day** was promoted to 7-midnight.

Ty Banks, KQWB, Fargo

We're looking forward to our **Joan Rivers** imitation night at a local night spot. Yours truly will be one of the official judges and we are expecting entries from as far away as California. Should be a big night. The winner will appear live on the **Joan Rivers** show.... We appreciate talking to all music reps, however we

would like, if possible, to take calls mainly on Tuesday and Thursdays between 10-Noon Central time. You may also call any evening and ask for Greg.

QUESTIONS; The airplay rotation is what happens as of tomorrow for the coming week.

Rick Panneck, WAPL, Appleton

I'm impressed with the **Gregg Allman Lp. "Angel"** is just one of several tracks that will dominate album radio for most of '87. Welcome back, **Gregg!**.... With **Paul Simon's** Grammy nomination bringing more praise to "Graceland", "The Boy In Bubble" seems to be an automatic add.... **Foreigner's Lou Gramm** shines through with a monster record, and we add an additional two trax, "Ready Or Not" and "Heartache".... My personal fave of the week: **Robyn Hitchcock's Lp.** A left field effort soon to enter the mainstream. Watch out!

Mike Boyle, WDHA, Dover

First this week, congratulations to **Mark Chernoff** at **WNEW-FM** on being named P.D.! We all here at **WDHA** wish him well; it was an excellent choice!.... What depth this new **Gregg Allman** album will have! I have NEVER heard him sound better!.... Also knocked out this week over the **C.S. Angels & the Ward Brothers!**

Ron Garrett, KDJQ, Sacramento

Dave Rothstein and **Bill Bartlett** rolled into town arriving for a lunch an hour earlier than scheduled. They terrorized my Promotion Director before my arrival. Hey Dave, put her down. Bill put that thing away! We then piled in to **Rothstein's** blood red Camarro. I felt as if something strange was about to happen. I was right, Dave put on his driving gloves, lit up a cigarette, and began to drive. (I guess you could call it that.) Then **Bill** whipped it out and stuck it in **Dave's** tape player. He then turned to me and said, "Garrett, we're on a mission from **Walter**. This tape I just stuck in **Dave's** tape deck is the advance cassette of the new **Jon Butcher** album. The track is "Goodbye Saving Grace". As the record began to unfold before my ears, I was swept away by an uncontrollable urge to become excited and emotional. I even went so far as to want to show some feeling. I started to play air bongos as **Dave** picked up his air bass and **Bill Bartlett** started firing off some hot licks from his air guitar. Through the streets we rolled. **Jon Butcher** blaring full blast. We must have looked like a car full of 18 year old kids in **Daddy's** camarro. This **Jon Butcher** track is unbelievable, but believe this. The second I get the record in, it goes on the air. So if you're driving through **Sacramento**, and you see a car full of dudes acting emotional you'll know what's happening. There's some active research going on, baby. Research this, pal. Stick this in your computer.

Alison Stewart, WBRU, Providence

"The Light Of Day" just may have all the right stuff. The song is so strong, and if the movie's a hit the **Barbusters** might be chartbusters. "Light Of Day" has a punchy hook and lots of guitar. **Joan** and the song itself share the spotlight well.... The **Psychedelic Furs** came in with top 10 phones this week.... **Pseudo Echo** happens here this week. "Living In A Dream" is such a collage of sound that it would intrigue the most conservative listener.

Phil Thompson, KICT, Wichita

To everyone who tried and failed to get a hold of me this week, sorry. Although I'm back from vacation, my brain was lost somewhere on the way back. Just ask my program director. Things will be back to normal next week.... Lou Gramm and REO move to heavy after only one week.... Iron Maiden and Vinnie Vincent in town this week. Thanks to Gena from Chrysalis and Justin from Capitol for all the promo stuff and VIP treatment and also to Bill from Polygram for just hanging around.... Our birthday celebration is in full swing. We have Ratt, Jett and Poison this Sunday, and Kansas and The Rainmakers next Sunday for our 8th birthday concert. Thanks to everyone for the birthday ID's and promo items.... Also, to Gene from Columbia: Thanks for lunch and it was good to see ya.

Alan White, KILO, Colorado Springs

Retail Bin Burners in the Springs: Bon Jovi, Beastie Boys, Bruce Hornsby, Cinderella, and Tesla.... I've always considered Gregg Allman to be one of the best white blues singers in the business. "I'm No Angel" proves that Gregg still has the pipes to carry off a huge comeback.... Speaking of material and the right vehicle, Joan Jett has hit the magic chord with "Light Of Day". The combination of a great Springsteen song plus Joan's performance and interpretation add up to a smash and a half.... Some stuff that has caught my ear lately, The Ward Bros., Esquire, C.S. Angels, and Peter Himmelman.

Patty Martin, KMBY, Monterey

After two weeks of this cruddy flu, I'm finally healthy enough to listen to records and like them. I love this Peter Himmelman record! If yours is a station that can jump on records, do it with this one. Great adult appeal.... The Ward Bros. caught my ear.... REO is getting Top 5 phones. They have a hit on their hands.... In spite of the fact that the boss won't let me play Colin Hay yet, I just LOVE the record. He's grown a lot since the Men At Work days.... KMBY is gearing up for the First Annual Monterey Film Festival this weekend. We'll be broadcasting live from the 20th anniversary screen of the Monterey Pop Festival films, and from the party afterwards. Greg Kihn, John Phillips, Scott McKenzie and Jesse Colin Young are all playing at the party.

Harry Reynolds, KOZZ, Reno

Glad to see that Til Tuesday's "Coming up Close" is finally kicking in.... And it looks like LOU Gramm has got a smash single with "Midnight Blue".

Kevin Vargas, KWHL, Anchorage

Thanks to Chrysalis for the Vinnie Vincent CD, and Arista for the Alan Parsons CD. No thanks to Warner Brothers and Polygram since we had to buy your currents on CD.... The REO LP is fantastic, greatly fulfilling the promise of the single. The songs are identifiable, accessible but not rehashes.... Special thanks to Jackson Browne for including KWHL among his interviews. I can't believe we talked as long as we did. Jackson's comments on his music and today's social/political issues will definitely make for a very fine feature. There's nothing like personal insights from artists.

Lex Staley, WFYV, Jacksonville

It's true! The Lou Gramm is the Foreigner record that should have been, and it proves that you can over-produce somebody. No one sounds better with a raw edge than Lou.... Starting to get excellent phones on Vinnie Vincent.... Pseudo Echo "Living In A Dream" has been met with great acceptance and it looks like they finally get their shot at the big time.... Comeback of the year: Robin Trower.... If Robert Cray comes within 500 miles of your town, see him.

Chris Emry, WIYY, Baltimore

The 50's gave us Steve and Edie, the 60's Sonny and Cher the 70's Richard and Karen Carpenter, and now the duo of the 80's: Michael J. Fox and Joan Jett. If the movie "Light Of Day" is half as good as the song, a long line of theatre owners will be wearing big smiles. It's still early, but my vote for the redundant song title of the year goes to Gregg Allman for "I'm No Angel". Since I live in one of the world's largest glass houses myself, I think that's enough said. Gregg must gargle with razor blades in order to keep that distinct edge on one of the best blues voices in rock. Welcome back.... Completing our Epic triple play is Stevie Ray Vaughan's "Wille The Wimp", and yes local Epic man about town Gary Thompson is in serious need of new knee pads. Just kidding?!.... This week we're also going with what must be the 500th track from Huey's "Fore" LP, Genesis' beer song and the debut of Geffen's Esquire. All good tunes.

Brian Krycsz, WKLC, Charleston

Thanks to Ms. Jett for the show they did for us. See you in the movies. You're never on hold with me, Babe.... Big Dish is on my plate. I'm thinking of "Sliding" into it.

HIPSWAY

"The Honeythief snuck in last night and not only stole the sweet gooey stuff, but he left us with a hooky, CHR crossover tune."

RUSS MOTTOLA, WAAF

Steve Becker, WKFM, Syracuse

This week we will have Bruce Hornsby in concert and we would like to thank Bruce, Dave Ross and Alan Wolmark of RCA for the special promotion. In connection with our first anniversary, we're having a VIP party after the concert where our winners will be treated to a catered affair and a chance to meet Bruce in person. Much appreciation to Bruce for his time.

John Amberg, WKRR, Greensboro

Thank you Robble Vogt at RCA for the Bruce Hornsby and The Range concert. It was a brilliant show.... My picks to click this week are the new Gregg Allman and Big Dish "Slide". The Allman single can't miss and Big Dish has that David + David feel that seems to work so well these days.... Personal to Phil Manickl at WWCT: Congratulations on another great Book.

Dave Lange, WLAV, Grand Rapids

Rave of the week has to go Gregg Allman. I was kinda hoping that we could hear this tune at next year's Superstars. But NOOOOO! We had to add it this year!... New boys on the block include Pseudo Echo. Like the Import mix better, but this band has future.... Hipsway also impressed us, it's loaded with crossover potential.... Starting to get good phones on Crowded House and I now revise my prediction that 80% of the country will discover this record on CHR.... Good early phones on China Crisis and Psychedelic Furs.... Georgia Satellites is launching itself into top 5 sales. It's the surprise of the year.

Larry Dunn, WLIR, Long Island

As you read this, we have successfully co-promoted three sold-out nights at the Ritz with the Human League.... All the best to Joan Jett and Michael J. Fox in "Light Of Day".... Also, congratulations to Mark Chernoff... Check out the Damned cover version of Loves "Alone Again". The Damned have just entered their second decade together. Let's hope this cool remake sparks more interest in the band.... Screamer of the Week: Lene Lovich and Nina Hagen, "Don't Kill The Animals".

Cathy Down, WLNZ, Lansing

Seems like everyone at the Laser is on a diet--including myself. But I'm going to stick to mine the longest, because I have the most willpower.... As for the music menu, the Gregg Allman "Angel" is like an angel food cake rising to perfection.... Joan Jett "Light Of Day" is a tune with all the right, but zesty ingredients.... Crowded House "Don't Dream It's Over" has the title that reminds me of chocolate cake; and a tangy, but still Split Enz-y effect.... Tesla rounds off the meal with the meat and potatoes and a live show that leaves the fans wanting seconds and thirds.... See, my diet's working! And with no peculiar side-effects! Willpower. That's the key.... Oh, before I go invade Rick's carrot and celery lunch, I'd like to announce that WLNZ is starting a jazz show. Repe, we need jazz, both new and re-service, the sooner the better. Just another dash of flavor making Lansing's Laser Lansing's Leader.

David Anderson, WMAD, Madison

What an eclectic mix of music this week! Steve Winwood, like an Indy 500 mechanic, has made slight modifications to the "While You See A Chance" groove and most likely has another top 20 record.... Husker Du is not a Norwegian cracker you eat with

cheese. It's a great Image record that makes your station sound hip and fresh.... If you've been paying attention to the America's Cup, you know that not only are we leading Australia with the cup, we're also bringing back The Saints with us.... I've got an admission to make: We've NEVER added a Van Halen record and I'm proud of it. But we added Sammy Hagar out of the box. Give Hagar credit for a tasteful, driving ADULT rocker.... I'd like to congratulate Hank, Jr. on his first venture into the world of rock and roll. When we played "My Name", Jimmy the Groundhog popped out of his hole and asked to hear it again.... And finally, Miles plus Santana equals a winner. Get on the phone and book your max saver fare now for "Veracruz".

Ted Habeck, WMRY, St. Louis

Damn, Sam. This place is jumpin' lately! I can't believe the amount of quality of rock and roll out so early in the year.... I'd like to thank Ken Hensley, former keyboard player with Uriah Heep and Blackfoot among others, for pulling the 6-10A shift this week while Mark Klose is on vacation.

John Jesser, WOXY, Oxford

I've been here through three P.D.'s while doing weekends so the transition should be very natural.... It's good to see Matthew Harris get drafted to the majors.... Blue Yonder's "Wind Song" is fresh; Kate Bush meets Tina Turner.

Bird, WXXP, Pittsburgh

A&M makes Double X exciting. Thanks to Stewart Goldberg and Al Cafaro for all their help with our Human League promotion. The band's performance is one that MUST be seen and our listeners enjoyed it thoroughly.... If that wasn't enough the China Crisis single is worthy of anyone's playlist. Congratulations to all at A&M Records.

HIPSWAY

"It's a good sign
when you hear the
hook on the first
listen. This one could
go all the way."

ARIS HAMPERS,
WLAV

Jim Pemberton, WLLZ, Detroit

The Lou Gramm record is going to go through the roof. We're now three cuts deep and I can see us playing most, if not all, cuts before the album is done.... Heard the new REO album and I like the new differences. Horns and stuff? Whoa! I think it will be real good for them.... The Sammy Hagar has already moved up a number of places in our mediums. "Winner Takes All" is gonna be in heavy before long. Sammy's huge here.... Same with Santana.... We've been on the Julian Cope two weeks now and that sounds good on the air.... So-so research on Deep Purple "Bad Attitude" so we moved "Call of The Wild" into medium.... The Trower record is researching really well.... No real story on the Parsons but it sounds good on the air.... Love the Esquire. Rarely do I sit in my office and listen to a record five times in a row, but that one caught my ear and I just kept playing it. I'm in love with "Moving Together". Did 85% positive on Rate at Eight.... Considering: Kinda looking at Brian Spence "Brothers".

Mark Leonard, Target Tracks, 818-344-9155

Welcome to a brand new year year, and a perfect time to start fresh without preconceived ideas or stale old habits. The end of 1986 proved to be a significant time in our business, particularly for indie labels. Strypers LP on Enigma went gold, Billy Vera's single on Rhino went to #1 and Timbuk 3 found that you can't get to heaven on roller skates.... Following this train of thought, leads me to feel that 1987 is positioned to be an excellent year for new developing artists and indie labels. The new release from Target is the band Play the Siren with their LP "Learning From LA", which recalls the best of the San Francisco sound with a decided 80's flavor. The tracks to focus on: "Black Man In Moscow", a powerful commentary on alienation, and "Don't Let It Get You Down", a song about true passion and loneliness. Pay close attention to Play The Siren and I'll look forward to working closely with you in the coming months.

Lorraine Rapp, WAQX, Syracuse

We re-added "Lives In The Balance" this week and I would personally like to thank Jackson Browne for giving us the opportunity to get involved in raising the awareness of people in this country. Radio is a business, radio is entertaining, and radio is an extremely influential medium that can be used in a non-preaching, positive way. I admire and appreciate someone who has the courage to pursue what he or she believes in, especially knowing they may come up against a jaded, cynical, wall of resistance. Be it "Don't drink and drive" or "Go out and cast your vote", we in radio should not lose sight of the tremendous effect we have on our audience and community.

Richard Pachter, Promotion In Motion, 305-482-6629

Did I misread the article in Rolling Stone, or is Capitol going to release the Beatles CD's in mono? Can they be prodded into putting them out in stereo?.... Congratulations to Bonnie Stacy. She's been one of the best MD's I've had the pleasure of promoting. I'll miss her a lot.... Saw Chrissie and the latest Pretenders last weekend, great show and Iggy was terrific. For the first time, I could actually see why David Bowie thinks the Ig is so great. This band was the nerdiest looking guys I've ever seen but they sure could play cool. Good luck Chris Jones and Lex.

Kevin Sutter, Chrysalis, 212-758-3555

World Party Top 5!! That's a story. And speaking of stories, the sales one is really starting to catch fire. Hope you enjoyed the English CD single package we sent you. The CD of the LP is on its way.... Another Front Page item is the Vinnie Vincent Invasion story. On the road with Iron Maiden and selling lots of records and getting airplay. Hey, we even sent you his CD. Remember, if you judge a song

on the song's value as a song on the radio, just like your average listener does, I think you'll agree there's "No Substitute" for a great song.... From the superstars department, the latest news is Huey Lewis and the News have chosen "I Know What I Like" as the new 12" track. For those of you who don't need a 12", it's side 2 cut 1 on the LP. The CD stations can check out cut 6 on the CD.... For Billy Idol, it's "Fatal Charm", another rocker from the Billy Boy. He's in rehearsal now for 8 weeks, and tour dates are being booked. Remember, it was the two years of touring that drove "Rebel Yell" through the roof.... For those of you who consider yourselves to be explorers in the realm of new musical stories, check out our ultimate explorers, The Venetians. "So Much For Love" can do so much for your airsound—just ask: KABL, WMGM, WONE, KBCO, KGRQ, KORX, KRIX, KZEL, WFNX, and WOXY. Their explorers have claimed the song for airplay this week.... Coming up from round the outside is Vigil. The advance tape of the LP is going out to you very soon.... Check it out. Chrysalis, the label that serves up vitamin V3 for airplay; Vinnie V, Venetians, Vigil. Well, dahling, so much for now.

Jeff Naumann, Virgin Records, 213-278-1181

Everybody loves to compare a new band's sound with another established sound right? So what does it mean when you play this new band to 10 people and get 10 different comparisons to what they sound like. I'd say it means you have a band with a unique sound of their own which leads not only to a hit song but a hit band. That's the reaction we're getting with the Cutting Crew. One thing everyone does have in common though, is that everybody loves the new Cutting Crew 12" "I Just Died In Your Arms". What a killer band to get a "new" label off the ground with. This is only the beginning at Virgin.... Congratulations to Bob "The Beak" Meyers on landing his new job at EMI.... Nothing's gonna stop the Starship's new song from being a hit—what a suckah!

During the blizzard of '87, WDHA became Ice Station Zebra. Digging themselves, and digging themselves out are Zebra's Randy Jackson, Atlantic's John Weston, DJ Tony Alessandra and the band's Felix Hanemann.

February 6, 1987

Pam Brooks, WPDH, Poughkeepsie

Truer words were never spoken, and I think this one goes down as the understatement of a lifetime, but "hot damn his life style and wild ways sure make for one swell song". I'm No Angel" Is a treat from Mr. Allman that we slide right into heavy this week, and it was well worth the wait. He's got a way of turning a phrase that's pure magic, and it's super to have something new to play. I predict a real chartburner for this one.... "Think Visual" Is, as far as I'm concerned, an impressive work that demands airplay. Hell it's the Kinks and, for better or worse, they've paved a major road in rock and roll, so it may take a while for your listeners to catch on again and sales may be slow but, there's material here that shows this band's strength, and Ray never sounded better.... Hey, Joan, I've seen all the coming attractions and I've spun "Light Of Day" over and over. You tear 'em up girl. My hats off to you and I wish you tons of rave reviews. The song is smoking. Between you and Michael J. Fox, the film should too. Poughkeepsie loves you.... Virgin's Veritable Suckaahs gets you where you live and this cassette has been eating up my brain. My pick for the two biggest suckaahs are Cutting Crew's "Died In Your Arms" and Pete Wiley's new track. Be prepared for an onslaught of killer music. These two in particular are fine evidence of the quality stuff we will soon be enjoying from Virgin. Gee Plen, we sure can pick 'em.

John Malinowski, WUVA, Charlottesville

I went from being buried two feet deep in snow to begin two feet deep in records! Although I got a lot of product, I'm still missing the Gregg Allman single.... The Hipsway single, "The Honeythief" is a fun-kind, foot tappin' song—definitely something listeners and jocks will dance to.... I was impressed with all the comments the Furs got last week and agree with them all! "Heartbreak Beat" is their most accessible song to date. Definitely don't overlook it.... We've been on Crowded House for at least a month now and it's one of the top 5 requests this week. It's good to see that its potential has been realized.... And speaking of long term developments, the Don Dixon track "Praying Mantis" has been pretty low key these past few weeks, however, at our station, we're pulling Top 5 phones. Once listeners hear it, they really enjoy the fun lyrics, so don't let it slip you by.... Another song that will really grow on you is the Stranglers' "Always The Sun". The name of the band may be misleading, but the song sounds GREAT on the air. One song I would LOVE to hear from CD!.... And speaking of compact discs, the Paul Simon single would have still been an add at our station even if it wasn't a CD single-- the idea of CD singles scares me. We radio stations are thirsty to play CD's but I think that the strategy of servicing singles on compact disc implies that one plays the single BECAUSE it's on CD. I don't mean to be down-playing the idea, but why not just service the entire Lp on compact disc in the first place?

Steve McKnee, WZXL, Atlantic City

Thanks to Bobbi Silver and to Danny Buch for the catalogues.... And thanks to all the other record folks who made my first week memorable.... Any CD's that you can send we can use them.

Jeff "Get It Up Or Get It On" Cook, Elektra, 404-344-5080

Hi there again from the sunny south where our motto when it comes to airplay on Elektra records is either get it up or get it on! The Georgia Satellites second track "Battleship Chains" from their now gold, yes I said gold, and soon to be platinum debut Lp is rapidly working its way to top ten at AOR. If you added this record in light or medium rotation, it's time to get it up!! Can you get it up in time, yes I thought you could. Everyone knows that the Satellites are here for the long run, so take my advice and rise to the occasion when it comes to rotation!... Ben Orr's "Too Hot To Stop" is now getting major phones at AOR and this second track is having an uplifting affect on rock listeners now. You got it up for "Stay The Night", can you get it up for Ben? I know you can. There are, however a few of you who haven't gotten it up yet and are not playing "Too Hot To Stop". Maybe these comments will stimulate you enough to add it.... The Housemartins "Happy Hour" record is busting out of Boston and spreading like wild-fire through the Northeast. We are serious about this record so come to the party and get it on.... Other records you need to either get up or get on: Jackson Browne's "Lives In The Balance", Dave Adams "Tears", Billy Bragg "Greetings To The Brunette", Metal Church "Watch The Children Play" and Howard Jones "All I Want".

Jeff Carroll, KLBK, Austin

Adds in this week: Gregg Allman, which I think is great. He's back with instant familiarity. ... Also Ben Orr's "Too Hot".... Moves: Los Lobos to heavy; excellent phones, Austin loves that band. They play here a lot.... Lou Gramm's "Midnight Blue" to power; this record is going all the way, now #2 most requested.

Mike Marrone, WHTG, Asbury Park

It's been a while since I've made any comments because we've been undergoing lots of changes at FM 106.3. As of Tuesday, February 3rd, our new transmitter and antenna system are on line and we're reaching many places we couldn't before--so back to normal with reports and comments.... First of all, I'd like to ask the labels and artists if they could send us new ID's with our new slogan: "FM 106.3, Your Rock Alternative". These are desperately needed, so please help us out. We'd appreciate it.... The new **Julian Cope** single, "Trampoline" is even better than "World Shut Your Mouth" and we all know what happened with that record....Speaking of Island Records, the **Comsat Angels** album is one of the strongest I've heard so far in '87.... Other new and noteworthy songs: **The Saints** "Just Like Fire Would"; **Husker Du**, "Up In The Air" is a great tune.... Something overlooked by many is the **Divine Horsemen**, especially "My Sin"--It sounds like **Jefferson Airplane**.... Check out **Elliot Murphy** "Out For The Killing" from his new album "Milwaukee" produced by Jerry Harrison.... "Wasteland" from **The Mission U.K.** moves to power and if you were reluctant to play it from the Lp because of the intro, that has been removed from the 12"--So Play it! @\$%^*^##.... Just to run down some tracks doing extremely well for us.... **Peter Himmelmann** Tremble"; **Marti Jones** "Inside These Arms" and **New Model Army** "51st State".... **The Red House** from Linden, NJ have a song out called "Rain" that sounds like John Cougar meets U2!And **Don Dixon** "Talk To Me" is just one of the seven "hits" on his album.

Mike Corcione, Relativity, 718-995-9200

Almost everyone I've talked to loves **Robyn Hitchcock** and now we're seeing more adds at rock radio. "If You Were A Priest" b/w "Somewhere Apart" was sent out last week on Promotional 12" and **WMRY**, **WZEW**, and **WTCS** are getting good response. Good reaction on new music and alternative shows at the following stations: **WTKX**, **WXRK**, **KZAM**, **WHTF**, **WXTQ**, **WLNZ**, **WKLT**, **WKRR**, **WRDU**, **WFFX**, **WFXR**, **WHMD**, **WAPL**, **WPGU**, **KYYS**, **KLOL**, **KATP**, **KBAT**, **KOZZ**, **KGB**, and **KMBY**. Let's see some crossover action on this--let's ADD this record, guys, you can't deny **Robyn** the success he deserves.... Also expect to see great action on the unbelievable soundtrack to "Les Miserables". Over \$10 million worth of ticket sales already and the show doesn't open on Broadway till February 28th. If anyone is interested in playing this soundtrack, which will be serviced to AC stations only, give me a call. That also goes for **McLaughlin** and **Joe Satriani** at 718-995-9200.

Tim Kelley, KWIC, Beaumont

Who gets a few test plays, then jumps into Top 5 requests before it's even added? They call him "Bocephus". I call it a hit.... **Hagar** is red hot again and **Tesla** continues to do a big number in this market.... We went for the **China Crisis** CD and **Psychedelic Furs** are going places with their new one.... Thanks to **Ted Mellencamp** and **PolyGram** for the help with the **Bon Jovi**/**Cinderella** show this past weekend.

J.D. Stone, WTKX, Pensacola

Stevie Ray Vaughan is doing really well on the phones. "Willie The Wimp" is easy to dance to.... Till Tuesday "Coming Up Close" is Top 5 requests--a well deserved song. Hopefully, we will move into more on the Lp.... **Joan Jett's** "Light Of Day" will be a big boost to her career. Joan's album

was good, and this single is along the lines of the "I Love Rock And Roll" anthem. It's got a good hook.

Duane Sherman, WTOS, Skowhegan

I'm back from vacation with a pulse rate of '4' but I NEEDED IT. I DESERVED IT!!!.... The **Psychedelic Furs** start in heavy rotation and where will they go from there? Up as far as the station will let them. Phones are already ringing, and little girls are already crying, because they too live for the "Heartbreak Beat". Bravo, Mr. Butler.... While on vacation, I found myself listening to the **Concrete Blonde** cassette--a lot. Coupling that with an MTV interview which I managed to catch, there's no doubt about it, we're looking at a major band for the '80's.... Top 5 requests: 1) The **Psychedelic Furs**, 2) **XTC**, 3) **Don Dixon**, 4) **Husker Du**, 5) **Mojo Nixon**.... We're now 4 tracks deep on the **XTC** album and all are getting phenomenal response.... It took a while for **Don Dixon**, but he's there now.... I'm absolutely in love with the new **Husker Du** album. Where the **Beatles** had a "White Album", let's call this **Husker Du's** "Black Album".... And **Mojo Nixon** has those phones ringing for "Burn Down The Malls". **Mojo Nixon** seems like a man with whom I would like to have a food fight, and if I soak up the true essence of **Mojo**, he wouldn't open that can of clam chowder before he threw it.... My favorite release of the week: **Andy White!** The fighting Irish keep on fighting. He sings with the verbosity of **Elvis Costello** and **Billy Bragg** and although I hate to use the word "cult", he will be a cult hero.

Ward Holmes, WONE, Akron

For those who haven't heard yet, we have a new time and person for music calls on Tuesday. The person is **Mike Michelli** (That's Irish I think). Mike will take the report calls on Tuesday from 11AM till 2PM only and I think you'll find him...interesting. Yeah, that's it, interesting. I will be available for calls only on Thursday and Friday after 12 Noon, Eastern Standard time.

Dede "Vanna" Whiteside, MTM Records, 615-242-1931

You could say that **MTM** is the **Hagan Daaz** of record companies, not the **Baskin Robbins**. We don't have 31 flavors, but the ones we've got are real tasty. After a year of road dates, opening for **R.E.M.**, **Mr. Mister**, **Jefferson Starship**, and aha, **MTM's** power pop trio **In Pursuit** is beginning to attract airplay as well as positive feedback from stations across the U.S. on their new album, "Standing In Your Shadow". Their video is not only receiving play on **MTV** and **Night Tracks**, but "Only For You" was added this week to **Hit Video, U.S.A.** in heavy rotation. We're especially excited by this as **Hit Video** recently supported a relatively unknown band in the same fashion before major airplay. That band was **Europe**. In **Pursuit's** album features the vocals of **Emm** and **Jay Joyce** and their counterplay as they trade lead vocals from chorus to verse, resulting in a musical building that belies the simplicity of chord progressions. **Emma** and **Jay** cut their musical teeth together in **Cleveland** and drummer **Jeff Boggs**, a native of **Pittsburgh**, traces their musical influences from **R&B Motown**, rock and jazz with a result as one fan puts it, "Like an old friend that I can't identify". Please give this one some attention. 38 other stations have in the last week and a half, resulting in their support. Special Meow Awards to the leading ears this week of **KMOD**, **WHFS**, **KRQZ**, **KESI**, **WONE**, **WBSW**, **KABL**, **WTCS**, **KBOY**, **KTCL**, **WEQX**, **KKBR** and **WRAS** for your commitments. "Meow".

Gregg, Gregg, Gregg!!! Great song! It sounds so good on the radio and we got great response when we played it on our new music hour.... The KBC band takes a break on their album to have some fun--and "Wrecking Crew" is the one. Chug a cold one and give it a listen.... Lou Gramm's "Midnight Blue" is working well. So "Ready" or not, we added the title cut.... Esquire is arousing plenty of curiosity.... We're going another track deep into Robert Cray's Lp with "Right Next Door"; my personal favorite on the album.... I used to wonder if movies sold songs or songs sold movies with all the hot soundtrack tunes. But now I'm wondering if commercials don't sell songs as well. Genesis' "Tonight" is one of our most requested songs.

Erin Riley, WMMR, Philadelphia

I most certainly am impressed with the Lou Gramm Lp. So many great songs. I like "Heartache", "Time" and "If I Don't Have You".... Whoda thunk!! It tickles me pink to go with the latest from Paul Simon, "Boy In The Bubble". And a classy act on the part of WB to come with a CD for such a fine song. The video is great and the album continues to sell. There must be something going on here.... The biggest news of the week is Bon Jovi Cinderella. Tickets went on sale over the weekend. The date sold out in less than an hour and there were such riots at the Ticketrons, they had to put a second show on sale right there. And guess what, that sold out, too. 37,000 seats in 90 minutes.

Inessa York, KGON, Portland

Anytime someone writes a line in a song about showing you his tattoo, well. That's our Gregg. We're all nuts about this one.... Lou Gramm is catching on fast with top 5 phones and there is enough on the album to hold us until the Foreigner guys go on tour. Faves so far: "I Don't

David Hall, WKDF, Nashville

I expected Lou Gramm's solo album to be interesting, but I wasn't prepared for such a sparkling gem. I've had the advance cassette permanently inserted in my tape deck. "Midnight Blue", which is the best new song of his young year, was just the beginning. "Ready Or Not" and "Heartache" are both great rockers, and I hear a potential multi-format smash with the ballad "If I Don't Have You".... Another nice surprise is the Gregg Allman song. "I'm No Angel" has all the qualities of Gregg's best work. Without sounding outdated, we've seen a return to prominence of such classic rockers as Steve Winwood and John Fogerty and Gregg Allman appears to be next.... Speaking of Winwood, "Finer Things" is one of the finer things on his album or anyone else's album for that matter.... It sure is good to hear Santana working with some of his old pals like Greg Rollie and Buddy Miles. The result is some of the best Santana music in years.

Karen A. Small, WGIR, Manchester

Lou Gramm's solo record sounds like what "Agent Provocateurs" should have. Good hooks and some chunky guitar make this a great radio Lp.... Rock 101 was busy this past weekend, helping our Cystic Fibrosis and David's House. We helped raise over \$12 million for the charities with a truck convoy. Over 160 trucks headed by the Rock 101 van lined up to make this event the biggest so far.

Robin Mathieu, WBLM, Lewiston

The Gregg Allman was love at first listen for me. "I'm No Angel" is a guaranteed top 10 track that will have the old Allmans' fans coming out of the woodwork. 1987 already looks bright for breaking new artists and new bands. No band is more deserving of a big break than Psychedelic Furs. "Heartbreak Beat" shows major crossover potential but I have a feeling AOR can own this act in the end. Add first and take all the credit later.... Concrete Blonde has an exciting debut album that has taken the first track from most played at home to on air favorite. "True" is a very hip, accessible song to introduce this new band to your listeners. Then check out "Dancing On The Edge", "Cold Part Of Town" and George Harrison's "Beware Of Darkness". Make it a priority.

Bonnie Stacy, KNCN, Corpus Christi

It's been a really hectic couple of weeks. I've yet to stop and catch my breath. Some massive changes have taken place. As many already know, as of February 6th, I've stepped down at PD/MD to take over Dallas regional promotion for Virgin Records. I can't imagine ever leaving a legendary station such as KNCN for anything less than the quality and prestige that Virgin possesses. To have the opportunity of working with and learning from pros like Phil Quarteraro, Michael Plen, and Jeffrey Naumann is equaled only by the wonderful music that Virgin America has (as radio will hear this week from the Cutting Crew) and that's only the beginning. The last seven years of my life have been the best so far, everything I know about this business, I've learned at this station. It was my first and last and I want to wish them the best of everything in the future. OM Pepe Lopez will take over music duties til further notice and he will take record calls on Thursdays and Fridays, 10am til 2pm.... A couple of quick thanks to Capitol's Phil Fox and Iron Maiden, Chrysalis' Jeff Lauffer and the Vinnie Vincent Invasion for an explosive show here last week, and to Bruce Dickenson and Vinnie for being such great people to work with.... Also special thanks to Maria McKee for her advice in Dallas.... Since this is my last chance to comment in these pages, I have just one thing to say. To all the radio friends I've made over the years: Play the Cutting Crew.
