U2, "With Or Without You", Island.... I have a feeling Lin Brehmer's "U2!! U2??" reaction won't be unique. True to form, the band has decided to lead off with their most unconventional single yet. Who is to say the heady, sophisticated song structure would work for anyone else? And how many bands would really have the confidence to release such a cerebral and introspective mood piece first? Only the Police at their apex. I am honestly hard pressed to predict multi format success, but have to applaud the group for dealing with the pressures of RockWorld on their own terms. Will it be a hit? Who cares. It's new U2 and that's all that matters.

Night Ranger, "Secret of My Success", Camel/MCA.... We were expecting either balls or ballads with the smart money riding on choice B. What we got is an interesting change of pace, sounding more like early to mid period Chicago than anything Night Ranger has done to date. Bank on big time CHR attention, with Urban crossover also a distinct possibility.

Autograph, "Loud and Clear", RCA.... Guitar pyrotechnics and a quick study chorus is what put these guys on the map in the first place, and we're glad to see they're back to those good rocking basics. Steve Lynch may not be Eddie's equal when it comes to whipping up and down the fretboard, but you've got to appreciate the fact that this tune is one long monster lead break from start to finish and that's what drives the core crowd wild.

Andy Taylor, "Don't Let Me Die Young", MCA.... And you thought anybody having anything to do with Duran Duran was a dead duck? Looks to us like the last one in on "I Might Lie" is a rotten egg. The "image problem" was quickly blown away by the wall of Marshalls, and Andy's sitting on one of the year's quickest turnaround success stories. And considering the overwhelming acceptance and raves from the likes of Carter Alan, Dr. K, Wendy Steele, Joe Blood, and Ron Nenni the world might actually be ready for yet another song from the kid. "Don't Let Me Die Young" gets this vote.

**ALSO NEW THIS WEEK**

Eddie Money, "Endless Nights", Col.... Here's one for the Automatic category, even if top 40 weren't expecting it momentarily.. The rock radio push starts with a 37 station base, including heavy action at WRIF, WLLZ, WHJY, KSHE, KOME, KFMG, WEBN and WRCN, with 7 increases and a 72-47 Underline--the fifth longest this week.

And the absolute, very best, unqualified #1 as of yet unreleased monster in our particular tapeage? **Bryan Adams**"Heat of the Night". He's rich but he's rockin.

Fleetwood Mac, "Big Love", WB.... Didn't Steve and I hear it in Palm Springs? No wait, that was a Big Dish album cut. At least that what we told the Music Police. How do you think we managed to get the CD out of Gerrity's suite? Just don't say a word and I'll get it to you late next week. Not a word.

Iggy Pop, "Isolation", A&M.... Now that Andy Warhol's job is open the sky's the limit for the Igman. It's up to us to make him the rock star he always wanted to be before he goes totally multi media. Now try and tell me "Isolation" isn't as good as some of the mentor's recent soundtrack stuff.

**TAPETALK**

Tomorrow's Music Today!! What a concept. By now you've had a chance to get comfortable with Volume 5 of our Cassette Sampler series--and now that the **Cult**, **Whitesnake**, **John Philip**, **Gino Vannelli**, **Autograph**, and **Del Fuegos** are off and running, here's a little more pre-hype on three lesser known acts we know you'll be intrigued by.

Because Virgin's Michael Plen drives a hard bargain (and gave us the Cutting Crew first), side 1, cut 1 is that new label new big crossover item, **The Other Ones** and "We Are What We Are". To our ears, it sounds like Stevie Nicks meets Aimee Mann. Big haunting hook here. Notice how well it segues into "Love Removal Machine", too.

Speaking of segs, I think you're gonna love **Mondo Rock's** "Primitive Love Rites" out of the **Cult**. Could this be the same band that enjoyed radio success a couple of years ago with "Rock School"? No way!! But, yes, it's true. Since we're into playing the "sounds like" game, how do you like "Whip It" meets that great guitar break in "Gimme All Your Lovin"--capped with a killer harp break that would make Magic Dick stand up and salute. It's hard to categorize this energized little dynamo, but it's an audience exciter if we ever heard one.

And in an equally intriguing but slightly more subdued vein is **Rock and Hyde's** "Dirty Water". Why Paul Hyde picked "The Payolas" for his band name will remain a mystery, but that fact will merit only footnote status to his "ten year overnight success" once this powerful, compelling tune hits the airwaves. It's truly world class in terms of melody and production and just what his long term fans and supporters have known he'd hit with as soon as the checks cleared.

Finally, we're weeks away from **A&M's Thrashing Doves**. It's bouncy, melodic and most of all clever and quirky--one of those songs you like on first listen and sing on the second. Punchy and different.

**IMPACT TRACKS**

Whitesnake, "Still Of The Night", Geffen.... Too long? Too hard? Guess again, as the Snake's latest locks up 55 fast adds and the week's highest #46 debut. As our man Rad at WDIZ says, "Immediate phones for Whitesnake. I guess the audience knows that when you put 'Whole Lotta Love' together with 'Kashmir' and 'Nobody's Fault but Mine' you get a song so Zepplinesque it's gotta be a hit".... WTPA's Chris James predicts, "It should be a hit on all demos and I see top 5 phones after one week".... WLLZ's Jim Pemberton calls it "Probably my favorite record of the week. Coverdale's voice is really good and the instrumentation takes me back to the 'Physical Graffiti' days"... Finally, KOMA's Ron Nenni, "I agree with Greg Gillispie that there are exactly four Led Zeppelin songs on this one song. Instant phones".... Should easily hit the Most Requested rankings next week.

Frozen Ghost, "Should I See", Atlantic.... You won't see many new acts close 'em up this quick-- FroGo closes on the century mark with 98 adds after just three weeks--flush with 8 play increases: WQFM, WEGR, WOUR, KZOQ, KZEL, WKQQ, and CHEZ--with KRQU and KFMH already reporting top 5 phones. KWHL's Kevin Vargas vouches, "The Frozen Ghost contains fine writing lead by an excellent choice for the single".... KRQR's John McRae agrees, "It stands out sharply as quality new product. Expect good calls shortly".... from KEZO's Joe Blood, "Love It. Besides the obvious Flxx sound connection the lyrics are very topical".... and Ron Nenni notes, "It sounds phenomenal on the air and I expect power play within weeks"....

Dokken, "Dream Warriors", Elektra.... 25 second week adds takes the count to 74--with 10 of last report's 40 already listing play increases--including KLOS, WQFM, KDJQ, KISS, and KNAC. Hyperactive phones are the real story, though, with top 5 phones at KILO, WPLR, KWHL, KNAC, KISS and more debuting it at #11. AS KLOL's Dr. K calls it, "If Dokken isn't paying people to call in, then it's a hit. Phone melter."... Lorraine Rapp, WAQX, "The soundtrack is an instant phone smash".... Kiss' Tom Scheppke adds, "The MTV/Film audience are making Dokken a heavy request item already, so we've gone ahead and pushed it to heavy".... and here's one more from that quotemonster Ron Nenni, "Dokken is probably our fastest growing request item right now. Top 5 after one week".... Underlined 52-36 on the Hard Hundred.

Patty Smyth, "Never Enough", Col.... At the rate this record is moving, it could well be the first female #1 since you tell me. Patty's got a 13-7 underline, courtesy of our third best 38 Increases, 73 heavies, 2 powers and 148 now playing. You couldn't make up stronger stats, but you know what impressed us even more this week? The WEBN add on "Isn't It Enough". Curt Gary comments, "It's an excellent version with built in familiarity here". That's a smart add, and we also urge you to spend time with "Called To Heaven" and "Give It Time". The week's strongest album debut at #11.

Del Fuegos, "The Long Slide", WB.... The Fuegos offer up more funky suburban blues you can use--this time with a solid shot of brass--and that signature style ropes in 23 adds and a #100 debut. Key believers include WHJY, WPLR, WBRU, WAAF, and WBCN--with first week support at KFOG, KISW, KQRS, KILO, KICT, and KEZO proving that they've got plenty of moxie outside their New England base.

The Cult, "Love Removal Machine", Sire/WB.... If there's rock and roll in your soul you will add this record. Guitar playing doesn't get more undeniable than this. As noted By WBRU's Alison Stewart, "Holy guitars, Batman--how can you fit so much sound on one little record". WAAF's Russ Mottla calls it "a strikingly simple song with plenty of guitars that will be an instant hit with our Led Zep/Stones/Van Halen core." WPLR's Christina agrees, "Nothing can touch the new Cult tune. This is rock and roll". WBCN's Carter Alan calls it "A huge jump towards the mainstream for them". Out of the box on 24--new at #85

Jon Butcher, "Goodbye Saving Grace", Capitol.... The single continues to set new airplay standards for Jon, this week moving 26-16. It's 137 stations deep, with 19 Increases and 21 heavies--all of which brings the Lp in at #22. KDJQ, WIOT, WEGR, and WBLM have top 5 phones--and we have more radio raves: Dave Numme, KSJO, "Jon has matured with a great song--the best thing he's ever done." Steve Cormier, WIZN, "This should be the album to put him on the tips of people's tongues, and he deserves it". KAZY's Tim Jeffreys tells us "I'm hoping for big things. The riffs are jazzy enough to be cool and rocking enough for our core".

Little America, "Walk On Fire", Geffen.... Redbeard was the first to rave--and this week finds "Fire" the #1 phone item at KTXQ. It's also a top fiver at WEBN. The 56-31 Hard Hundred gain qualifies as our third longest advance, with WEBN and WQFM upping. New on 16, now on 52, with WMAD, WEGR, KZEW, KRQR, KMOD, KISS, WYNF, WNEW, WLLZ, WCMF, KQRS, KLOL, KGB, and KDKB more majors you should know about. A #55 album debut.

The Damned, "Alone Again Or", MCA.... Tell them it's the Darned if you must--but don't pass the year's classiest remake by. KDJQ's Ron Garrett goes back 20 years with the song, saying "I'm happy to see a whole new generation catch a taste of this tune. The Damned do a great job of capturing the mood of this classic". Carter Alan agrees, "Their remake is gorgeously produced and is a sonic delight". Again to Harvey Toejam at KLOL, "I've been trying to come up with something flowery, eloquent and pretentious to say about it (you know, the way Lin Brehmer talks) but the bottom line is that it is a memorable tune". What more could we add, except to say its now on 22--including WHJY, WNEW, WAAF, KYYS, and WBCN.

Psychedelic Furs, "Heartbreak Beat", Col.... The Furs flesh the count out to 120, with 13 adds and 13 increases opening up more solid charts. The Hard Hundred has it 32-23--coupled with a 20-17 Lp advance. But that's not why you should play it--here's the real deal from KDJQ's Ron Garrett, "My target is 18-24, and let's face it, not every 18-24 likes hard rock. The Furs give me credibility with the Edge Heads, and on the street they have a very fresh, very hip image--and I'm taking that to the bank. They move to medium after just one week"....

Cutting Crew, "Died in Your Arms", Virgin.... Easily the fastest moving airplay item out there. The Crew collects our second strongest 44 play increases and 5 adds to blast an 18-8 hole in the Hard Hundred, and it moves to #4 Most Requested with 21 top 5 mentions--as WIOT's Jim Steel sums up the standard reaction, "In the three years I've been here, I've never seen such positive phone reaction in such a short period of time". Now on 152 reporters.

**IF IT'S TOO LOUD YOU'RE TOO OLD!**

# THE HARD REPORT **NEW AIRPLAY ANALYSIS**

## CHART STARS

**Crowded House, "Don't Dream It's Over", Cap....** We wouldn't think of it, not with those adds (KGON, KLOL, WDIZ, WIYY, WQFM) still rolling in—not to mention increases at KLOS, WKDF, WNEW, KTXQ, WEGR and about a dozen more. Then there's the ongoing request action at KYYS, WDHA, KXRX, KTXQ, WIOQ and more—#7 overall. And check those charts—up 14-9 for the track, moving the album 17-14.

**Glass Tiger, "I Will Be There", Manhattan....** Syrupy ballads heavy on the video usually tend to get in the way of subsequent push tracks at the AOR radio level, but not here. Anyone who has seen the band know that they're legit rockers, and smart programmers can't fault their particular route to mass exposure. Plus, when Bryan gives 'em the stamp of the champ, why not? The track's #8 Most Added with 17, with two increases, four heavy reports, and a 48-40 HH underline.

**Santana, Veracruz, Columbia....** We're not sure where you guys are going to go after the single, but we are confident that anyone with less than heavy to power play missed out. Who's got it heavy? Try KQRS, KLOS, KRQR, WLUP, WMAD, KDJQ, KFOG, KGON, KSHE, KZAP, KDKB, KQRS, and KZEL—to a name a few of 42 in that category. Just be sure to get maximum mileage out of the album that KKBR's Bill Evans considers "Santana's best since 'Abraxas'".

**Concrete Blonde, "True", IRS....** One of the most consistent new growth stocks on the air checks in with another 8 adds—KFOG, WTPA, KLBJ, and WAOR front and center, with 13 play-ups riding shotgun on the charts. They include WPYX, KROQ, WPLR, KTXQ, WRCN and WKLC. "True" comes through with a 38-33 underline; that moves the LP 33-30. Here's WIZN's Steve Cormier, "They're one of the best new bands of 1987. 'True' is pulling top 5 phones from listeners of all ages, with 'Dance Along The Edge' also an excellent track".

**Cinderella, "Somebody Save Me", Polygram....** "After the success of 'Shake Me' and 'Nobody's Fool' says KOMA's Ron Nenni, "Somebody" is a natural." Sure makes sense to us. New on 21, now on 58, underlined 77-53.

**David and David, "River's Gonna Rise", A&M....** And here's more no contest logic from KBCO's Doug Clifton—"We've had so much success with David and David why stop now?". Hey, if they played the competition's Christmas party, maybe—but otherwise you'd best get with the program. 'River' adds at WYNF, WPLR, KLPX, KATP, KTYD and 8 more, for 29 to date. Key calls already in include WGTR, KTXQ, WAAF, WCCC, and WQBK.

**The Stranglers, "Always The Sun", Epic....** Wake up and feel the heat. This one's performing. As noted by KRQR's John McRae, "The Stranglers are outperforming everything else we've got on the air. It's doing amazingly well, with especially strong retail". KBCO's Doug Clifton adds, "Stranglers are doing great. We've got it in power and expect retail to kick in soon. It's their strongest ever". Again to Doug Podell at WLLZ, "I think it has a real good hook and it sounds like it has the potential to become a pop crossover hit." New at WLLZ, WIOT, WHJY, WPYX, KTYD, KBAT and WZEW, with KESI, KROQ, KZOQ, WIOQ, and WONE increasing play. Underlined 74-59.

**Hipsway, "The Honeythief", Col....**

We couldn't agree more with WKQQ's Stacy Yelton, who argues, "If you've ever played INXS, don't hesitate on 'The Honeythief'. And if professional listeners like Doug Podell thought it was INXS, what the hell! Besides, with 47 stations already in and all kinds of cool charts we say add it if you like it—just like in the old days! Check the 71-61 HH underline, with 3 adds, 7 ups (WPLR, WAAF, WHMD, KRNA) and 13 heavies.

**Gregg Allman, "I'm No Angel", Epic....** Gregg and Lou Gramm continue to duke it out for Most Requested, with 32 mentions holding "Angel" at #2, and the track needs about ten per cent more muscle to take top honors. It's not power at 35, heavy at 92 with improved rotation at 27—4th overall. And don't be waiting for the 12" on that fine "Don't Want You No More/Aln't My Cross to Bear" medley.

**Bon Jovi, "Never Say Goodbye", Polygram....**

I love it when Jon covers the Jackson Five, especially the way he handles that difficult "No No No, No No No No, Ooooh!" part. And the kids obviously appreciate the treatment, too—as per 16 top 5 phone reports. It's #3 most added with 25, underlined 36-27.

**Peter Wolf, "Come As You Are", EMI....** As speaking of life at the top, don't be surprised to see our man Pete parachute into the top 3 momentarily. 48 play-ups gave him the biggest overall airplay gains this week as reflected in the 8-5 surge, and he's sitting pretty with 22 powers and 76 heavies.

**Tesla, "Modern Day Cowboy", Geffen....** It's taking forever to break on a national scale, but the erosion factor is practically nil. KTXQ and KRQR came in this week, with WHCN, KDJQ, and WPLR pacing 7 play-ups, and the request tempo builds to #5 Overall. Considering the rather tight 75 station base, that's remarkably active fan response. KISS' Tom Schepcke tells us "Tesla is still performing well after five months—pretty amazing". And if you're not quite ready for "Modern Day Cowboys", you can always deal with "Little Suzie".

**Poison, "Talk Dirty to Me", Capitol....** How vociferous are their fans? WOUR's Tom Starr knows. We expected a buzz when we added the Poison record to support an upcoming appearance with Ratt, but what we got was a roar!! #1 phones from day one". The request lines are raging at KNAC, WWZU, KDJQ, KISS, WRCN, WTPA, KILO, KRIX, KWHL, and more. New on WNEW, WOUR, WBAB, WRKI and several more, with 35 now playing and 1 increase charting out 87-71. Top 40 is totally hip to this record so watch out.

**Europe, "Rock The Night", Epic....** This one won't take long. 21 adds (#6 overall) and 5 increases cook up this week's longest Hard Hundred move, 80-48.

**Los Lobos, "Set Me Free (Rosa Lee)", WB....** Bet on this backup track. It scores this report's second longest 85-55 underline, with 15 adds, 3 increases and 43 now playing, including WLUP, WIOT, WAAF, KLPX, KLOL, WPLR, WMAD, DC101, and WRXK. Food for thought: If this were a Phil Collins or Pete Townshend song would it show up behind a Sara Lee TV commercial?

# THE HARD REPORT HARD ACTS TO FOLLOW

**XTC, "Dear God", Geffen....** A voice in my head keeps telling me that this CD standout track will be a huge hit record. So do several on the telephone—including Redbeard at KTXQ, "#3 after two days. You heard right. #3 calls and it's not even in rotation". Ditto WRXK's Greg Mull, "For instant phones you owe it to yourself to add it". KRIX's Joe Kelly reported a few initial negatives, but now tells us, "The response has turned positive and great since we let it play". And WCMF's Dave Kane closes the promo sermon with "It's powerful, thought provoking, and probably controversial, and that's about as close a testimony to the power of music that I can think of". Yes, that and top 5 phones—and at this rate we'll have plenty of those to talk about next week.

**Wire Train, "She Comes On", Col....** The act we'd consider the Bay Area's best bet to break big bags 8 more adds—with KFOG, KRQR, WLIR and KZEL the standouts. KRQR's John McRae reports, "They're already out of the box with #1 calls. Of all the local bands out there, they've got the hottest cut and they were frothing at the mouth for it". WBRU's Alison Stewart feels the waves a continent away, saying "Wire Train has a sassy tune with great potential. This is a big step forward". Already on WMAD, KEZO, KJET, KBCO, KLPX, WDHA, WMRY, KWHL, KTCL—29 in all.

**John Philip, "What's It Gonna Be", Atlantic....** Yeah, we missed it at first, too. But then those Petty overtones got us, as did the active Florida radio turnout. WDIZ's Rad Messick calls it "One of the brighter hopes this state ever had. Kinda like Tom Petty in terms of style". Do we hear an echo? WRUF's Harry Guscott remarks, "It's fresh rock and roll with an edge, with the sound of an early Petty record". Live with it on our new Sampler tape—you'll get the message.

**The Saints, "Just Like Fire Would", TVT....** Lord knows I've tried to be patient in regard to the Saints, but now I'm afraid my worldly importunations to give this mutha a shot are simply not enough. The Airplay Angel has ddddlybopped down to earth with an ultimatum. Either Ten stations add "Just Like Fire Would" next week—or my ears get repossessed. So I beg of you, please listen again, consider ongoing action at WMAD, CILQ, KEZO, KRQU, KZEL, KBCO, KLPX, WDHA and more—and do the right thing so that I can continue to pick the hits.

**Farrenheit, "Fool In Love", WB....** Don't look now—but a tune many of you dismissed as "nice—but too pop" is pulling in more than a few serious clout call letters—including WQFM, WBCN, KDJQ, WAAF, KSHE, KLOL, KISW, and WLLZ, where Doug Podell explained, "sure, it's a little pop, but the sound tells me it could research really well. A very subtle record". WTPA's Chris James also hears a hit, saying "The record just sounds great and should be perfected for any format". New at #99.

**The Big Dish, "Slide", WB....** Building on WLUP's import add, "Slide" slips in at #98 on the Hard Hundred. The call letter count on what WIZN's Steve Cormier calls "a cross between Mr. Mister and David and David" now includes WIOQ, KYYS, WLAV, KBCO, WKLS, and WHFS—27 in all. It's also moving well in the play-up department, with KGRQ, KEYX, WTOS, KRQU, KZOQ, WBGK and WHFS increasing. New at #98.

**CHARLIE KENDALL WSHE OM**

Last Sunday night. Charlie and I were talking to each other in our homes in Jersey. In the background, it was obvious we had the same show on TV. On the screen, hands roamed over breasts and thighs.

**Charlie:** Whoa. What's this called?

**Steve:** "I'll Take Manhattan."

**Charlie:** You can have it.

Monday morning. Newark to Miami International. Turn that new page in your life.

"I've just had the first airstaff meeting," says Kendall. "It was the usual evangelical experience."

Which leads us to one of the big reasons he's there. Charlie has a slightly better chance of collecting \$4.5 million before the end of the month than Oral does.

"When you factor in cost of living, I make about what I did in New York," says Charlie. That's not including bonuses.

Then we get to one of the other reasons he's there. Numbers.

"We had sixes and now we have fours," says TK Communications VP/Programming Rick Peters.

On the latest monthly (which was not a pretty picture) Kendall says, "I don't think this is the end of it. I fully expect the station to get beat in the Winter book."

"We have an uparalleled brain trust in Rick, Michael (Dalfonzo), and me," cites Kendall. Dalfonzo remains PD and afternoon driver.

Six months ago, the market had one AOR. Now it has three. Why?

"Well, I can see where GTR came from. They target 16-24, and are very clean. They pump music out." Charlie feels that "SHE, being all alone, got fat. And tried to expand a bit to far."

On WINZ: "I hear an 'also-ran' radio station."

Since Kendall has worked with George Harris, I asked him what he felt WINZ would develop into.

"Hopefully," snaps Kendall, "he'll do as well as he did at KMET."

Which leads us to another big reason why Charlie went to WSHE. No consultants. His history in this area is not exactly an industry secret.

One consultant who had the pleasure of working with Kendall in the past said, "It's not like he ever listened to anything I said, anyway..."

Which leads us to the company. Will they underwrite the expensive stuff? The Billboards? The TV?

"This is a war," says Dwight David Kendall, "You do not win a war without weapons, and everybody here knows that."

But most amazing is that with assuming the OM job at SHE, Charlie may not be the deepest voice in the building--something he is very used to.

"(Jim) Roach and I are gonna flip a coin to see who does the promos," smiles Kendall.

Kendall is pleased that the company will not inhibit his freelancing, limited consultancies, and his pursuit of a station for purchase.

His wife, former WKDF PD, WYSP DJ, WMMR MD, and Hard Sheetette, Lisa Richards, plans to float around the pool with a drink that has a little paper umbrella in it.

**K-GON-SKI: BOLGER'S CRYSTALS**

KGON OM Pete Bolger will steer Miami's latest AOR, WINZ.

He hits town Monday (3/9).

With a lot of people in the business wondering whether a third AOR in Miami was the result of a stroke of genius or just a stroke, we asked WINZ consultant George Harris.

"If I was not completely and totally confident that this direction was the right one," says George, "I would never have recommended it."

"I think it's great," chirps Bolger, "I think there's more room for three AORs than four CHRs. AORs have the potential to have a much greater share of the market than they do now. Not just in Miami, but most other markets."

And, say kids, this opens up a PD gig in a nice, sizable city--Portland. At a great station. A station that's well liked in town and has fabulous numbers to prove it. A station you couldn't wreck with hand grenades. Why, what a tremendous opportunity for some sharp, young primate.

"I'm looking for somebody who has a lot of energy, not really green--maybe it's their second or third programming job," says Ackerley Group PD Rick Scott. "Someone who is aggressive and wants to go beyond Portland, but not someone who wants to come in here for six months and then bolt."

Send your package without delay to: Rick Scott, Director of Programming, Ackerley Broadcasting, PO Box 3726, Seattle, WA 98124.

**GARIANO ON WHTQ**

In a week filled with jokes about Florida sinking from the sheer weight of AOR stations, there was always that nagging question: Why three AORs in Orlando?

"Even though they are getting ready for their 16th birthday, and even though they position themselves as heritage, I found in my research that WDIZ only became an AOR in 1976," says brand new WHTQ PD Dave Gariano. "They were oldies before that. They never earned that special niche in the listeners heart like a WMMR."

This could be more revealing than black patent leather shoes. Let's reflect up.

"The only other factor here is WORZ/Z102," adds Dave. "And it's pretty lame. They've got AC jox, a morning show from Peoria that's like Ozzie and Harriet on the radio. You can hear anything from Harry Chapin's 'WOLD' to Sweet's 'Fox on the Run'. I think the format is 'The Music of the Program Director's Life.' If you wanted to use the words 'focus' and 'Z102', you wouldn't be able to use them in the same sentence."

**Dave's not here**

As reported in last week's NOISE, Gariano had disappeared from the Philadelphia headquarters of Harris Communications [where he was VP/Programming] over a month ago, to be WHTQ's Mutha of Invention. And if Reagan needs a new CIA director, he might call Dave.

"I worked undercover for four weeks--still representing Harris at the time--and I was able to interview the entire WDIZ staff. This enabled me to find out an awful lot about their people and their operation. Their people were very vocal with me. I may have been covert, but it was what I felt I needed to do," confides Dave. "I interviewed everyone right down to their part time people."

Any good spy story has defectors and this is no exception. Garlano grabs WDIZ 7-M man **Slats** and Production Director **Dave Culp**. Slats'll be the MD, too. **Mike Lyons**, a charter DIZer, comes on board. If you think this is starting to look like Seattle with palm trees, you're not alone.

All this started in mid-December, when WHTQ [then country WHOO] GM **Jim Jordan** approached Harris for a format conversion. Garlano was assigned the project was soon asked if he would like to join the station. He did, George still consults and everybody's still pals.

"It's perfect," says **George Harris**, "we hit the ground running. The production and the artwork are in place. It's been the most exciting project I've ever worked--we had carte blanche and it was TOP SECRET. THERE WASN'T A LEAK. We had the element of surprise."

New station, new logo. WHTQ's new logo has been cut by **Scott Ross** of Tampa. He cut the WMMR and the new WCKG logos.

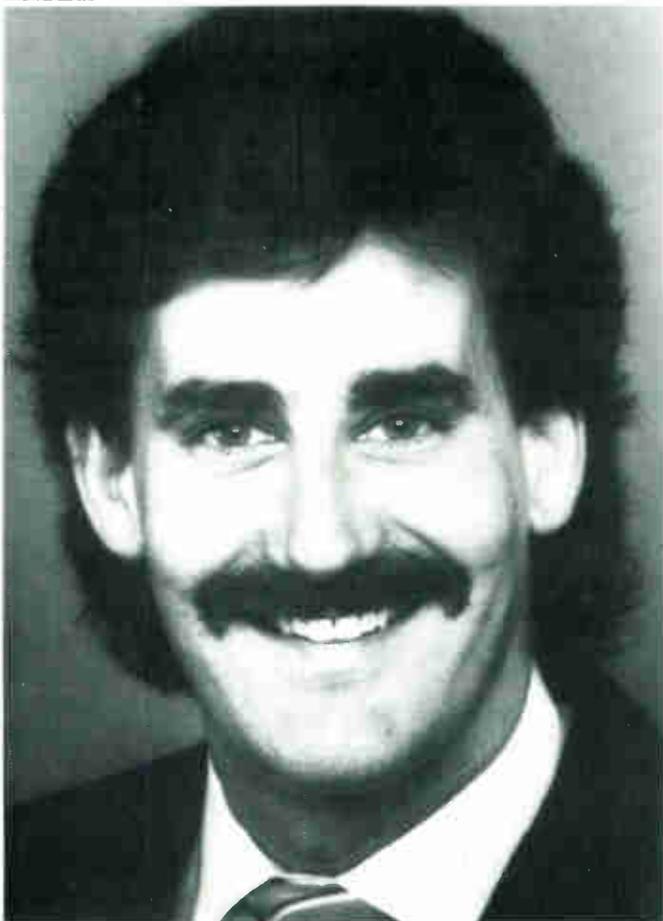

Remember college? You've got to do well on your boards. Garlano plans to do well on his: Billboards and posterboards are planned as well as TV.

Because the station was Country, the air staff was terminated and talent for other dayparts is in the process of negotiation. WHTQ is talking to Florida DJs primarily because Dave feels they understand the lifestyle better.

Just what **Kevin Vargas** wanted to hear. Hey, just kidding etcabig guy! Have some more polar-bear-on-a-stick and relax!

Garlano gets even more explicit in the attack his station will make: "I understand the heritage factor--maybe better than most PDs, because I've seen how it can be used very effectively. I don't think they (WDIZ) have taken advantage of it. It's a special thing between a person and a radio station. I think they have their audience, but I don't know how loyal they are. That's what we're banking on."

### JOINT

Partner **Jon Sinton** has been named Chairman and VP/Operations of Joint Communications. **Colleen Robinson** becomes Exec VP/Marketing of the research/consultant firm. **John Parikhal** remains CEO and **Dave Charles** is still President.

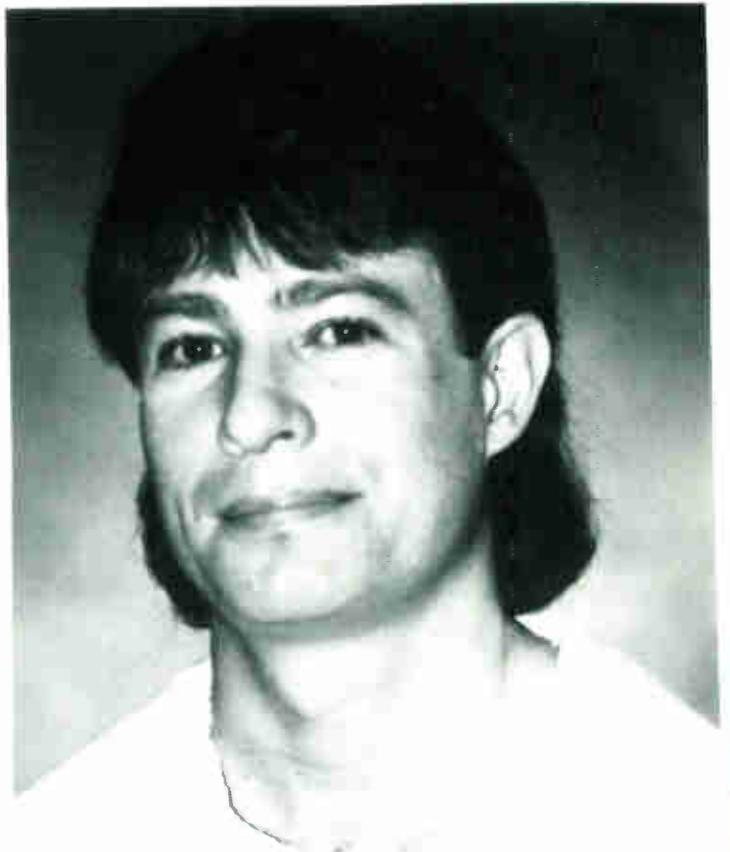

Sinton commented, "I can hardly wait to go in Monday morning so the four of us can hurl titles around the office."

Jon then paused and reflected, "Did anyone ever tell you people that your pictures are too damn big? You guys aren't gonna sell my forehead to a label, are you?"

Reached on the phone at home, HR Radio Editor **Steve Sutton** said, "I'm glad. The man has been like a brother to me."

### ROCKY MOUNTAIN WAY

KRQU/Laramie PD **John Edwards** is proud, and with good reason. He goes home to Denver the MD at KBPI. He'll be at the desk March 16th.

"I'm still in a state of shock," says John, "but I can hardly wait to get there."

Noting that Sandusky Broadcasting is aggressive and a winner, Edwards adds, "and with the corporate headquarters in Denver, KBPI is the showcase of the whole chain."

"I was impressed by the fact that John was a PD at a very similar station," jokes KBPI PD **Tom Hunter**, "AND GOD KNOWS THERE ARE VERY FEW OF US AROUND."

John had been PD at KRQU since the station signed on in 1983. GM **John Maki** tells NOISE that Edwards will continue to be involved in the programming of the station--as a consultant.

If you want a shot at programming KRQU, get that package off to: **John Maki**, GM KRQU, 409 S 4th, Laramie, WY 82070.

### IRS AGENTS

**Barry Lyons** is pleased to announce that he won't have to do every goddam thing by himself anymore. In acquiring **Linda Dages**, **Joe Estrada**,

and Judy Barahal for his IRS promotion staff, he has placed people in Atlanta, Dallas, and Chicago, respectively.

Was there one common trait that attracted him to these people?

"Mostly, it was the pictures of dead presidents I found stuffed in my mailbox," snaps Lyons.

What skills does he desire in a potential employee?

"None that can be mentioned in a respectable, family publication like yours," says Captain Quips.

"At IRS our philosophy is based on the idea that when a record goes on the radio the job isn't over, it's just beginning." Barry adds, "Bringing these people in will strengthen the support and follow-thru we supply the radio stations we work with."

### RIVERS FLOWS TO WCCC

Chris Rivers is the new morning kinda guy at WCCC/Hartford.

"When I heard his style, topical way, his ability to involve the audience, and true winning attitude, I went for him," claims PD Harve Alan.

WCCC mornings used to be done by Rick & Suds who recently went to--you guessed it--Miami (WAXY). Alan has been doing the show.

Now Harve can get some sleep. And start that big fourth or fifth AOR in Miami.

"Naw," yawns Harve, "but Peoria could use a couple more."

### ARGUMENT FOR DEPOSIT LAWS

People are talking about a recent Dave Edmunds show in LA, not only because such shobiz giants as George Harrison, Bob Dylan, Brian Setzer, and Jim McKeon were in the wings, but because Enigma's Rick Winward stopped a bottle with his face.

Eleven stitches later, Winward looks forward to "suing... suing... suing."

### GROWING IN QUANTUM

To the surprise of absolutely no one, former MTV VP/Programming Les Garland followed Bob Pittman to QMI where he will be President/Music Division.

The company targets the "emerging visually oriented generation of consumers via synergistic fusion of music, TV, feature films, advertising and marketing." Doo dah, doo dah.

Look for their first artist announcement in the next four to six weeks.

A Chess Club meeting at the Rock & Roll High School. Lucky winners flank Joey Ramone. That's WXXP/Pittsburgh's Stevie Ray Bird up front.

### ADVENTURE IN MOVING

WAQX/Syracuse is looking for a morning person. T&R to: Simon Jeffries/PD, PO Box 95, Syracuse, NY 13250.

Karin Kelly is the new ND at KSJO/SJ.

Jeff Pollack signs KMJX/Little Rock.

New 7-M/Promotion Director at WCCC/Hartford is Angie. Maybe they'll cut enough into the budget next year for her surname...

WHTF/York adds George Harris.

Patty Martin is out at KMBY/Monterey. Steve Hoover is the new MD.

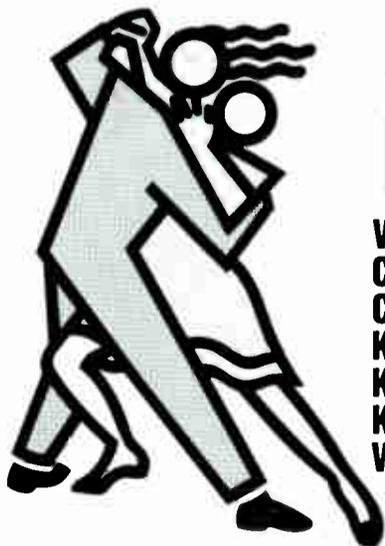

Dru Dawson exits KBAT/Odessa. New MD is John Robbins.

Anita Ammons is the new MD at WUOG/Athens.

Jim Davis is new to afternoons at WCMF/Rochester.

Trading places at KILO/Colo. Springs are DJs Jeff Biel and Red Noize.

# THE HARD REPORT PICKS

# NEW/ALTERNATIVE

**K.D. LANG "ANGEL WITH A LARIET" (SIRE)**  
30 seconds into "Turn Me Round" and you've sampled a new taste of Country "spunk". K.D. Lang has created a state of mind on this Lp and Dave Edmunds helps her reach new production heights that challenge both rock and country formats. No doubt that you'll find her vibrant approach refreshing--the roots are obvious, but the execution could set the standard for a new genre! "Tune Into My Wave" brings out the country in everyone, and she's a downright natural on "Diet Of Strange Places".

**OINGO BOINGO "BOI-NGO" (MCA)** It's time to deal with a captivating release--from a band who've been flirting with "silliness" since 1980! It's no wonder those singles were on the float last fall...In a word? Exacto-pop. Clean, brilliant songs with Danny Elfman's vocals breathing a new outlook. "Not My Slave" is the latest single, a high energy hook-laden piece with quirk added in just the right amounts. The chorus in "My Life" will broadcast with flying colors and "Elevator Man" is a strong reminder that THEY STILL PUMP OUT great party material.

**JOHNSONS "BREAK TOMORROW'S DAY" (RESTLESS)** When you think of Philadelphia bands, the Johnsons may not come to mind at first, but one listen to this fine Lp and you'll wish they were in your backyard too. This trio covered lots of ground in '86--on record and on tour. Built on guitar base, this trio spills pure pop-edge with an honest outlook, and "Burning Desire" or "Open Door" are first run finds--and the tour is underway!

**SINGLE FILE.... THE 77'S "CAN'T GET OVER IT" (EXIT/ISLAND)** If you're not caught by the first chorus, you best turn it up. Already bubbling under, this single is just what they ordered for quick interest on an Lp with more fine edge.... The **DESCENDENTS (SST)** are back with another one to whet your appetite and you'll want it "All". But try "Clean Sheets" first--that's the 7" on your desk. It's their most accessible track to date. Their song/stories and energy still can't be matched, so Enjoy....

## BEATS PER MINUTE

**ALPHAVILLE "RED ROSE" 12" (ATLANTIC)**  
Coming off a well received '86 release, this remix will rekindle more dance potential on the air and in clubs. Hot horns, and tubular beats abound.... **FRONT 242 "INTERCEPTION" 12" (WAX TRAX)** Front 242 use rhythm to its fullest capacity and this single reflects their "OOO" signature. "Aggressiva" is an imposing barrage of new noise mingled with spoken words. The result? A workout on the senses, but their abstract quality is excellent, as is the military imagery within.

## AIRPLAY ANALYSIS: CHARTSTARS

**XTC "DEAR GOD" (Geffen)** No other song has generated such a wide array of responses from reporters so far this year. You know by now this is destined to be a staple--it's timeless, thought provoking and very vulnerable to opinions....but audience reaction? It's there in a big way according to early feedback.... It's new at 9 stations (WHTG, KBCO, KTAO, KFOG, WHEB and more) with Top request mentions at KEYX, WTOS, WXXP, KRIX and KVRE. This is NOT a generic hit. Think about it.

March 6, 1987

**SIOUXSIE AND THE BANSHEES "THROUGH THE LOOKING GLASS" (Geffen)** When the word hit that she would be releasing an album of covers, the question mark sprung—but the Lp did far from disappoint. New mentions for open airplay did too: WRAS, WUOG, KABLE, WHTG and WOXY.... Larry Dunn says "her version of John Cale's 'Gun' is great.... with overall consensus being, Use it! The Lp forges ahead to 6\* for now.

**CHRIS ISAAK (WB)**

For the so-called subtlety of this Lp, it certainly took reporters by storm with mentions on second tracks already coming in....Mark Krob, WVVV says "Even though he's reminiscent of the past, he sounds great in the present and I'm not afraid of real, honest sounding rock and roll".... Ken Ornberg, KABL notes "This album has moved to our Top 3 faster than anything else this year".... Action on "You Owe Me Some Kind Of Love" brings on another bullet at 20\* with play at over 40 stations so far.

**WIRE TRAIN "SHE COMES ON" 12"**

**(415/COLUMBIA)** The pre release buzz did it no harm—it's the highest debut this week at 20\* and the free spirit style does radio just fine.... Jim Trapp at KZEL says "It's accessible to a lot of people".... and Alison Stewart, WBRU hears "A sassy tune with great potential". It's new at 29 and the highest new/alternative add this week. Play highlights include WTOS, KKBR, WEQX, WXXP, KABL, WVVV, WRAS, WGTU, WHFS, WHTG, WMRY and more!

**KILLING JOKE "BRIGHTER THAN A THOUSAND YEARS" (VIRGIN)**

New at 28\*, this album has enough track staying power to push it to much wider acceptance. An easy pick on "Sanity" gets followup from KJET, KKBR, KRQU, WNDY, WTOS, KROQ, WEQX, KABL, KSTM, WGTU and more, with "Adorations" harboring early action as well. You're lookin' at the goods...

**"SOME KIND OF WONDERFUL" Soundtrack**

**(MCA)** The 10 point jump to 14\* this week signals increasing interest on Flesh For Lulu "I Go Crazy" and mentions for March Violets "Miss Amanda Jones" and Furniture's "Brilliant Mind". Yeah, you could get sidetracked, but as Ivar Hamilton from CFNY said before going underground, "It's a surprise record of the week"....John Jesser, WOXY says "People are equating this soundtrack with good overall sound. I think audiences have outgrown the 'Pretty In Pink' association and are sensitive to the music."

**THE CULT "LOVE REMOVAL MACHINE" 12"**

**(SIRE)** By the 3rd measure, this one kicks you into a song that's been compared to every Led, Van, and DC to cross the pike. But there's no denying an all out smash and it's been on the agenda since last year! Check out 39 new adds this week including KUSF, WVVV, WLIR, KFMH, WXXP, KROQ, CFNY, WTOS, WOXY, WUOG and many more with feedback pouring in in buckets. I agree with Mark at WVVV, "We love it. Everyone loves it. End of comment...."

**SAINTS "ALL FOOLS DAY" (TVT)** With yet another upward move to 8\* this week, it strikes me as odd that greater acceptance is wanes for a Top 10 record on this chart?! No doubt this album sparkles on production, with a fine 12" choice with "Just Like Fire Would". It's got true-rock written all over it and to say the airsound is fab may be an understatement.... It's at 29 New/Alternative reporting stations including WXCI, CFNY, KBLE, KUSF, WRAS, WBCN, WOXY, WRVU, WMRY, KTAO, KVRE, WTOS and WHTG.

**THE DAMNED "ANYTHING" (MCA)**

Now in the Top 10, "Alone Again Or" kicks in as the new emphasis track with plenty of interest scattered on the Lp.... John Jesser at WOXY notes "They're #1 Most Requested here. This band has a unique character that comes across so well on the air and people are even still requesting 'Eloise!'.... It's hot and heavy at KABL, KJET, KUSF, WEQX, WLIR, WOXY, WUOG, and WXCI.

**C.S. ANGELS "CHASING SHADOWS" (ISLAND)**

Good news continued this week at 7\* and action maintaining on the Lp at KJET, KUSF, WMDY, WRAS, WFNY, KBLE, KFMH, WOXY, WRVU, WUOG, WXCI, KOAS and more. Looking to add another track? Early reaction goes to "You'll Never Know"—with Robert Palmer backing the vocal. It's prime air time to explore this one beyond "The Cutting Edge" which is peaking at the alternative base.

**LOVE AND ROCKETS "EXPRESS" (BIGTIME)**

"Ball And Confusion" is the track that bumps it back up to 22\* this week for an encore in teh airplay ranks.... Mark Krob, WVVV says "Love & Rockets are a great band of importance for us. This is just a natural. Everyone is familiar with the song and lyrically and musically, it's timeless".... Airplay highlights include new action at WRVU, WNGZ, KVRE, WZZO, WNDY and steady at KROQ, WLIR, WTOS, KFOG, WFNX, WVVV and more.

**WEDNESDAY WEEK "WHAT WE HAD" (ENIGMA)**

"Missionary" fronts an album that one anonymous voice compares to REM with girls! Like it or not, that's a compliment and this debut has caused a quick stir recently at KABL, KEYX, KUSF, WEQX, WVRE, KATO, WMDK, KJET, WGTU, WXCI, WRAS and others, good for a #37 spot this week.

**FROZEN GHOST (ATLANTIC)**

Here's another soon to be smash on the loose. After one quiet first week, a quick turnaround resulted with a listen or two. It's at 98 stations ALREADY with "Should I See" and that count is proof positive for this breakout. The Lp moves to 44\* on the chart with Hard Hundred honors falling in a 31\*.

**DREAM SYNDICATE "50 IN A 25 ZONE"**

**(BIGTIME)** Sure, the title track's been around for a while, but that remix is irresistible. Have you heard "Drinking Problem" on the B Side? Mike Marrone, WHTG says "It's perfect for weekends!" Now at 42\*, this mighty EP holds solid at KABL, KJET, WOXY, WHFS, KUSF, KEYX, KTAO, KTCL, WMDK, WTOS, WRAS and many more.

**HUXTON CREEPERS "12 DAYS TO PARIS"**

**(BIGTIME)** It's time to grab "I Will Persuade You" and run with it. That haunting chorus did the trick for a 49\* debut this week, as Mike Marrone adds, "It sounds great on the air. When I heard it on our station, I immediately turned it up!...(It's not 'punk' either)".... Far from it, and now at WUOG, WHFS, KEYX, KTCL, WEQX, WMOD, WHTG, KJET, WXCI and more.

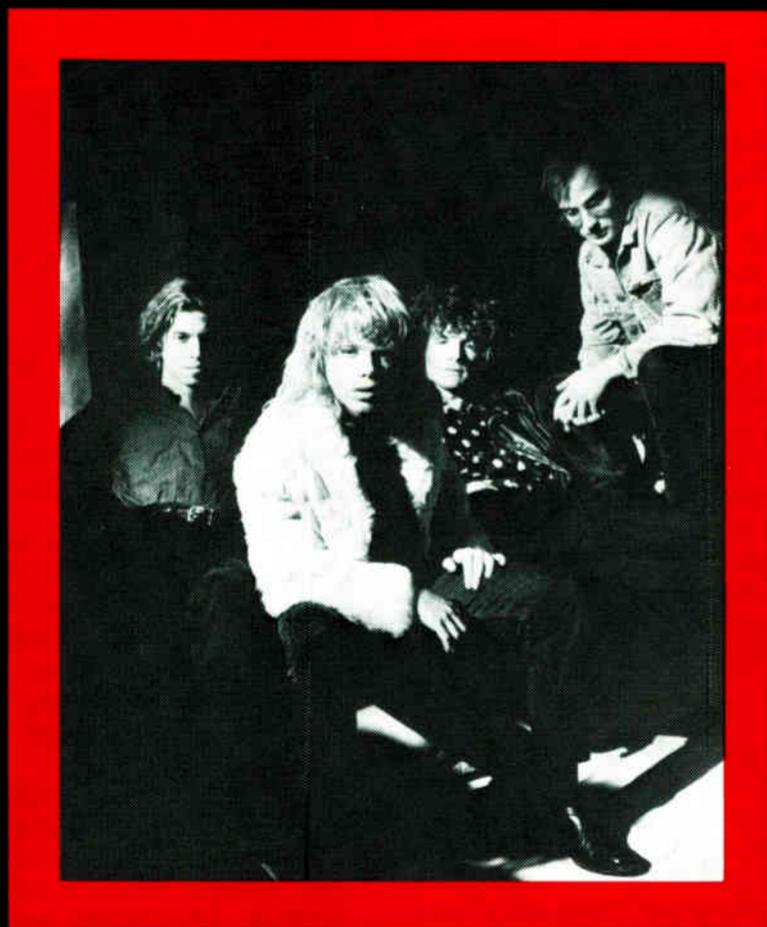

**SIDE TRACKS**

Here's a brief rundown of upcoming songs to watch if you want to get "Side Tracked"! **LEROI BROS.** "Chain Of Love" (Profile).... **CREEPERS** "Baby's On Fire" (Last Time Round).... **PETER HIMMELMAN** "Tremble" (Island).... **WARD BROTHERS** "Why Do You Run".... **THE THE** "Heartland" (Epic).... **THIN WHITE ROPE** "Moonhead" (Frontier).... **BEASTIE BOYS** "Brass Monkey" (Columbia).... **WORLD PARTY** "Private Revolution" (Chrysalis).... **TIMBUK 3** "Hairstyles And Attitudes" (IRS).... **CHAMELEONS** "Tears" (Geffen)

There may not be a Volunteer Jam concert in Nashville this year, because Charlie Daniels has been busy working on a new album. Daniels also plans a heavy touring schedule this summer. Promoters say that if the jam isn't held this year, there definitely will be one next year. The concert has been held 12 times since 1974.

HUSKER DU resumed its tour in Charlottesville, Virginia, after canceling ten dates in the northern portion of the U.S. because of the suicide of manager David Savoy early last month.

WILLIE NELSON is planning a third Farm Aid concert September 19 at the University of Nebraska's football stadium in Lincoln.

What was described as an "extraordinarily rowdy" crowd caused up to \$3,000 damage when the BEASTIE BOYS played at the Sunrise Musical Theater near Miami. Theater spokesman Bob Giarda says 30 cushioned metal seats were slashed or broken by concertgoers jumping on them. Members of the crowd of 4,000 also ruined 39 acoustic wall panels along the theater balcony. "It will be doubtful" that the Beastie Boys and the two other bands on the bill will be invited back, he says. Police say one juvenile was arrested at the concert on charges of resisting arrest with violence.

Members of the NAACP picketed a Gainesville, Florida, club to protest the appearance of a punk band called JEHOVAH'S SICKNESS. The local NAACP chapter contends that the Tampa band's lead guitarist is known for using racial epithets during shows. The chapter also complains that pamphlets promoting the band call for eliminating blacks, Jews and homosexuals. NAACP spokesman Pete Self says the subsequent cancellation of the show "sent a resounding message" to other cities.

Plans to burn rock records at a pentecostal church were abruptly delayed because of concerns that the event might trigger riots among local high school students. Pastor Jerry Sturgeon of the Mainland Assembly of God Church in Linwood, New Jersey, says he was told by police that the record-burning was to draw people from Pennsylvania, New Jersey and New York. The police chief in the city "told us we were looking at the possibility of riot conditions," Sturgeon says.

There are plans for an album and film built around five songs written by WOODY GUTHRIE that were believed to have been lost. They are among 26 songs Guthrie wrote to promote the Columbia River dam projects. He'd been asked by the Bonneville Power Administration to write a film score for a 1941 documentary promoting hydroelectricity. Only four of the songs were used. Bill Murlin of the agency has been looking for the songs for the past three years, and he located the remaining five in Portland, Oregon.

A 12-foot tall flower bouquet promoting a show of photographs by LINDA McCARTNEY in a London suburb has been blamed for a four-car accident. The \$30,000 display was dug up after the local constabulary told organizers that it was creating traffic problems and had caused the auto accident. "We had complaints at several police stations from people saying they had been distracted by the flowers," one policeman says.

JOHN HIATT has just completed recording an album in Los Angeles with a band that includes guitarist RY COODER, bass player NICK LOWE and drummer JIM KELTNER. The album is scheduled for release in England a week after Easter, but Cooder is now without a U.S. label. "Geffen informed me — I think it was four or five months ago — that I was no longer on the label," Hiatt says. "I was sitting on about 35 or 40 songs earmarked for possible recording projects of my own, and the thought occurred to me that shopping for another recording deal was not all that appealing right now."

"I'm not always conscious of what I'm doing," PETER MURPHY says of his stage shows. "The best performances seem to last 30 seconds when they've been an hour and a half. And they're often the performances where you've let go of your rational grip on things and you stop getting in the way of what you're doing." Murphy's latest album is "Should The World Fall To Fall Apart." "My songwriting tends to cut through any of the conditional personalities or responses to situations, and tries to find a source or kernel of reaction that's not just based on emotional reactions, which can be pretty clouded by misinterpretations," Murphy adds.

A federal judge will decide later this month whether to continue a wrongful death suit filed by the parents of musician MICHAEL RUDETSKY, who died of a drug overdose in Boy George's London townhouse last August. The judge has refused to let lawyers who filed the suit obtain information about George's New York business interests. A London coroner concluded that Rudetsky's death was accidental. The federal court seeks \$20 million in damages. Boy George's attorney hopes to have the lawsuit moved to England.

LIONEL RICHIE's "Ballerina Girl" is his 13th American top ten hit in as many solo releases. "Billboard" magazine says that's the longest unbroken string of top tens since the BEATLES had 20 in a row in the 1960's.

RUN DMC say they are talking with MICHAEL JACKSON about doing a record. "He'll sing on the song and we'll rap," says Darryl of the band. "We sat down with him and he was really curious about what we do. We should have had loads of questions for him but he was talking away. I think we can work together, after all he's an incredible performer."

Former Byrds member GENE CLARK and CARLA OLSON of the Textones are releasing an album together in mid-April. The LP includes a version of Joe South's "Don't It Make You Wanna Go Home." CHRIS HILLMAN and MICHAEL HUEY are featured on the LP. Huey also produced the album. The TEXTONES, by the way, are recording a new album, "Cedar Creek," which will include some songs that Olson has written with Scott Kempner of the Del-Lords and former Go-Go's member Kathy Valentine.

**MOTORHEAD** are writing a soundtrack for a film called "Eat The Rich" that features members of the Comic Strip, a group of British comedians. A couple of band members appear in the film, which will be released this fall.

**ROIR** is releasing "21st Century Dub" on an hour-long cassette. The recording sessions for the LP in 1980 were organized by Bob Marley, arranged for Japanese instrumentalists and singers to join with members of the Jamaican music community including Sly Dunbar, Robbie Shakespeare, Augustus Pablo, Marcia Griffiths, Judy Mowatt and others. The dub session has only been released in Japan.

The documentary on **JOHN LENNON's** life produced by David Volper, called "In My Life," will feature two previously unreleased Lennon tracks. Production on the film begins later this month, and Volper will have access to a private film collection belonging to Lennon and Yoko Ono.

**WHITESNAKE's** new album is called "Whitesnake," and it was recorded in Vancouver and Nassau. Bass player **NEIL MURRAY**, lead guitarist **JOHN SYKES** and drummer **AINSLEY DUNBAR**, who are featured on the album, are unlikely to tour with the band. There are reports that former Dio member **VIVIAN CAMPBELL** or **ADJUE VANDENBERG** will join Whitesnake as the band's new guitarist. Drummer **TOMMY ALDRIDGE** and bass player **RUDY SARZO** appear in the video for "Still Of The Night," but they are not expected to join the tour.

**Krokus** have a new line-up with bass player **CHRIS VAN ROHR** returning to the band after having left the band a few years ago. "Our previous bassist Tommy Keiser really didn't work out," says Marc Storace. "He just wouldn't work hard enough and lacked the musical depth we were looking for." Drummer **DANNY CREVILLI** has also joined Krokus, replacing Jeff Klaven, who was "fed up with touring," Crevilli says. The band is planning to produce its next album, which should be out in May. Crevilli says "Change Of Address" "suffered from a very bad production" by Tom Werman and from an "awful sleeve." Bass player Chris Von Rohr has a solo album coming out in Switzerland.

**MURRAY HEAD**, who had a hit a couple of years ago with "One Night In Bangkok," is working on a new album produced by Steve Hillage.

**BILLY IDOL's** video for "Don't Need A Gun" features an appearance by 50's star **JOHNNIE RAY**. Idol says Ray is one of his childhood heroes, and getting him for one of his videos has fulfilled a lifelong ambition.

**TIMBUK 3** have taken out insurance on the portable cassette recorder they use on stage for providing their backing tracks. The box is now insured for \$40,000.

The dispute over **PAUL SIMON's** "Graceland" album continues. The son of the president of the African National Conference has criticized Simon's comments that the ANC has reversed its cultural boycott of Simon's tour. Simon contended at a press conference in London in January that Tambo was about to confirm the change in the ANC's position, but it never came. "There has been absolutely no reversal of the ANC position and Oliver Tambo has

no intention whatsoever of 'clearing' Simon," says Dali Tambo. "Paul Simon has broken the cultural boycott and in so doing, has made a mockery of the suffering of the people of South Africa. He has further added insult to injury by misinforming journalists here and abroad about the attitude of the ANC and the people of South Africa, whom he has at no stage consulted."

Peter Gabriel, Duran Duran, Joan Armatrading, Erasure, Mark Knopfler, Nik Kershaw and Cliff Richard will participate in the "Secret Policeman's Third Ball" benefit shows for Amnesty International in London late this month.

**FRANKIE GOES TO HOLLYWOOD** are giving away condoms in England with copies of their new single "Watching The Wildlife."

**THE KNACK** are attempting to re-form for the second time.

**HOLGER CZUKAY** and **DAVID SYLVIAN** have finished work on a new album. The LP will only feature two long tracks, one on each side.

It's been confirmed that **JOHN CARRUTHERS** is leaving Siouxsie & The Banshees. Carruthers will still help promote the band's current British single. It's not yet known who will replace him.

**BEN E. KING** will record a new album with **JOHN PAUL JONES**, **RON WOOD** and **TED NUGENT**.

**JOE LYNN TURNER**, who is now without a record contract, is just beginning work on his second album after Rainbow.

**ROD STEWART** has been learning to fly a helicopter and has even built a private landing pad at his home near London.

By the time this week's "Hard Report" is in your hands, two major new albums will have just been released in the U.K. **U2** put out their first LP in 2-1/2 years on March 5th, "The Joshua Tree", recorded in Dublin and produced by Brian Eno and Daniel Lanois. Steve Lillywhite, whose association with U2 stretches back to the production of 1982's "Boy", also co-produces four of the cuts, at the invitation of Eno. Following the album's release, U2 embark on their world tour, starting in The United States at the end of April and finishing up at Wembley Stadium in London at the end of the summer. After being put back several times, the new **SIOUXSIE AND THE BANSHEES** LP was also due out shortly after time of writing. "Through The Looking Glass" features a choice of ten cover versions of favorite songs, out of some forty that the group had originally rehearsed. The full track listing is: "This Town Ain't Big Enough For The Both Of Us", originally performed by Sparks, "Hall Of Mirrors" (Kraftwerk), "Trust In Me" (Kaa the snake in "The Jungle Book"), "This Wheel's On Fire" (Bob Dylan), "Strange Fruit" (Billy Holliday), "You're Lost Little Girl" (The Doors), "The Passenger" (Iggy Pop), "Gun" (John Cale), "Sea Breezes" (Roxy Music),

and "Little Johnny Jewel" (Television). This will be the last Lp to be made with John Carruthers, who, as reported, made a shock exit from the outfit a few weeks ago. It is rumoured that the band are expanding their line-up dramatically and they have promised some British dates in July. Regrettably, their planned jaunt around North America has been called off.

**ALISON MOYET** releases her new album in a month, to be titled "Raindancing". A tastier single comes out next week, a follow-up to her U.K. top 20 hit "Is This Love", called "Weak In The Presence Of Beauty". "Alf", her 1984 Lp, was the biggest selling album in Britain by a female artist for that year, a feat unlikely to be repeated due to the subsequent rise of the mega-selling Madonna.

**ANDY TAYLOR** has taken the rest of **DURAN DURAN** to court, but this week the trial was adjourned until a later, unknown date. The band's ex-member is suing the others, claiming that he has not received all the money that is due to him for his contribution to "Notorious". The other three are claiming that Taylor's contribution was minimal.

Well, for some unknown reason, Britain never did get to see on their screens the big New Jersey Amnesty International concert, but it had long been promised that we would get another in the series of Amnesty benefits (started in 1980) "The Secret Policeman's Ball". The third of this cabaret of comedy and music has now been confirmed for March 26th - 29th at a London theatre. The musical contributions come from Peter Gabriel, Duran Duran, Erasure, Nik Kershaw, Jools Holland and the gifted jazz musician Courtney Pine. The comedians include all the members of Monty Python, Who Dares Wins (surely, the next comedic export to the States, after the success of The Young Ones), Mel Smith, Peter Cooke, and Ben Elton. The first SPB was captured (rather badly) on film, but the second was recorded for TV and video. All proceeds go to Amnesty.

**THE CHRISTIANS** are a band who've been leaping up the charts and receiving some airplay in North America for their fine single, "Forgotten Town". They are called The Christians not because they are particularly religious, but because of the three brothers in the group with the second name of Christian: Roger, Gary and Russel. All are from Liverpool and are experienced veterans of the British music scene. The fourth member of the group, Henry Priestman (Yes, his real name, believe it or not), saw the brothers supporting Frankie Goes To Hollywood in 1983 and joined up there and then, leaving it's immaterial. However, The Christians have just been banned from playing in East Germany because the authorities still feel that their name is blasphemous. The band say half-heartedly that they might call themselves CCCP for the eastern bloc (Christian, Christian, Christian and Priestman) but then they would probably annoy the Soviet authorities, as CCCP stands for USSR there.

**ELTON JOHN** reacted with anger in Sydney this week, over allegations of cocaine parties and "sex romps" at a friend's country mansion. Speaking from his hotel where he has been convalescing since an operation on his vocal chords, he said he has referred the matter immediately to his lawyers. The allegations were printed by the London daily tabloid

"The Sun" and was based on the revelations of a so-called "Blonde teenage pimp" — named only as Graham X, who alleges that he was given huge sums of money to regularly find young homosexual men for Elton John and a friend. John, who has been in Sydney since before Christmas, is leaving Australia within the next few days to come back to England. The operation on his vocal chords has been a success, although it will be some time before he is able to sing again.

**STEVE WINWOOD** reacted warmly to the British press over his two top honours at The Grammy Awards. He said, "It's a tremendous honour to receive this at this point in my career. It means much, much more to me now than it might have twelve or fifteen years ago." Winwood topped the field with five nominations, the first of his career.

The left wing music press in the U.K. have noticed **PAUL WELLER** and fellow Style Councillor, D.C. LEE's latest little investment — a mere \$500,000 for a large house in the posh London area of St. John's Wood. The music press have had a field day heckling the hero of the worker's struggle, etc. **THE COUNCIL** film "Jerusalem" has also been mercilessly slagged by the critics, but they have been somewhat kinder about the new Lp "The Cost Of Loving".

"The Boy Is Back!" screams the blurb in the Virgin press release, announcing his new single, a cover of David Gates' "Everything I Own". Although it is good to see the **BOY** apparently fit and fighting, he has quickly become contradictory, elusive and strange. Last week he told the press that he would be touring the world with his new band, Well Red. But on a London phone-in show this week, he revealed that he is still to get a band together! And when was this **NEW** single recorded? Last summer in Martinique...oh.

"Smash Hits" this week publish the definitive **FRANKIE** breakup interview. **HOLLY JOHNSON** formally announces his solo career while the rest of the group seems to be in some doubt about their own future. Says Holly, "I only ever really cared about me. I've never had much in common with the rest of the band. I did it basically just to get a record deal."

The surviving members of **LED ZEPPELIN** are relieved to have paid out substantial damages to the American blues singer **WILLIE DIXON**, after a two-year court battle. The dispute was over the song that appeared on "Led Zepplin 2", the classic "Whole Lotta Love". Dixon claimed that it was based on his song, composed seven years earlier, "You Need Love". At a preliminary hearing, a judge said that he noticed a similarity in the lyrics, which is believed to have prompted the group to settle out of court. The size of the award is not known. Dixon's manager says, "The suit has been settled on both sides to our mutual satisfaction. We've agreed not to discuss further details."

There seems to be a dispute emerging within the ranks of **THE ROLLING STONES** between Mick Jagger and the rest of the band. Jagger is currently recording his second Lp, which has been delayed because of the recent problems of Mick's girlfriend, Jerry Hall. Mick has said he's not interested in touring with the Stones at the moment, while planning

a solo tour. Discontent has brewed within the group to the point that Keith Richards has apparently threatened to take the Stones on tour without him! A source told "Sounds" this week that, "The Rolling Stones plan to tour with a singer from another mega British group, now defunct." Speculation is increasing that the singer referred to is Roger Daltrey.

**CONCERTS IN THE U.K.**

Perhaps scenting the U.K. Government's discriminatory tax plans, lots of Americans are over here, including CAMPER VAN BEETHOVEN, TIMBUK 3, CYNDI LAUPER, MEATLOAF, TAMMY WYNETTE and THE JUDDS. LONE JUSTICE have also just completed some excellent live TV appearances. Representing the Brits are THE PSYCHEDELIC FURS, SIMPLY RED, BIG AUDIO DYNAMITE, THE STYLE COUNCIL, NEW MODEL ARMY and FUZZBOX. I went to see Fuzzbox at The Camden Palace, probably the youngest and one of the funnest successful bands in the land. Their blend of minimalist garage punk and tongue in cheek acapella renditions of ditties like "Doo Ron Ron" makes for a humorous and warm evening's entertainment. They exude a genuine youthful urgency and raw, slightly gothic sexiness to their show that is probably the nearest any of us are going to get to the kind of English sixteen-year-old punk of days gone by. Fuzzbox, with their girlish giggles and their love of harmony are a good deal softer than those halcyon days, but share a basic inexperience and a "learning while you're up onstage" philosophy. Boosted with capital from WEA, it may be therefore premature to send them to the States, which they plan to do at the end of May. Particular kinds of humour also travel strangely and it's not as if L.A. doesn't have bands doing exactly the same thing on native turf. But they're learning fast, and for this reviewer it was a pleasure to see something we can cross our fingers for, in genuinely youthful music as opposed to the shiny old heads that made up the bulk of The British Record Industry Awards.

**U.K. TOP 40 SINGLES**

New Entries: 40. "WHO IS IT?" by Mantronix. 36. "FIGHT FOR YOUR RIGHT TO PARTY" by The Beastie Boys. The Beasties said they didn't expect this to be a hit here because the British "think too much about their music." Hmmm, we'll see. 31.

"MISSIONARY MAN" by The Eurythmics. 28. "IT DOESN'T HAVE TO BE" by Erasure. Erasure hit upon a new formula with their last hit, "Sometimes" - sounds just like Alison Moyet with Yaz. This sounds more like the ghost of Alf than ever. Good record, too. 22. "I GET THE SWEETEST FEELING" by Jackie Wilson. After the surprise number one of "Reet Petite", the barrel scraping starts here. 18. "LOVE REMOVAL MACHINE" by The Cult. Taking "Led Zep In a day" lessons. Will probably break them in a big way with AOR, but could disappoint long-time fans. Highest New Entry at 16 for a-ha with "MANHATTAN SKYLINE", remixed from the LP. Brilliant. One can poo-poo a-ha all one wants for their pin-up image, but if they keep putting out vinyl like this they deserve much recognition beyond the limited teeny market. Didn't recognise it as them at first. Norway's heroes have also been asked to write the theme song for the next James Bond flick, "The Living Daylights".

Climbers: Up 8 at 32 "TRICK OF THE NIGHT" by Bananarama. Usual stuff, but also includes an honest to God attempt at a harmony. PHEW! Up 8 to 30 "SOUL MAN" by Sam Moore and Lou Reed. Up 8 to 15 "THE RIGHT THING" by Simply Red. An intelligent progression for SR and a superb, funky soul-laden ditty that is so good natured it should fit snugly into any format. Up 5 to 11 "ROCK THE NIGHT" by Europe. AOR par excellence. Suitable follow-up which should intrench the Swedish combo firmly alongside the likes of Bon Jovi in a short space of time. Up 11 to 12 "SONIC BOOM BOY" by Westworld. A very exciting record indeed. Perfect late '80s Big Audio-inspired sound. Raved about at length in this column. Get your hands on the import now. Up 4 to 10 "COMING AROUND AGAIN" by Carly Simon. Up 12 to 9 "CRUSH ON YOU" by The Jets. Touted as the new Five Star but sound more like Shella E. Climbing 11 to 8 "LIVE IT UP" by Mental As Anything. Aussie rock riding on the back of "Crocodile Dundee". Up 3 to 7 "RUNNING IN THE FAMILY" by Level 42. Slick, hooky and another terrific record from Mark and the boys. May take a couple of plays. Up 2 to 4 "MALE STRIPPER" by Man 2 Meets Man Parish. Banned from airplay here. The top two reveals the current British vogue for old R&B records: 2. "WHEN A MAN LOVES A WOMAN" by Percy Sledge and, at 1, "STAND BY ME" by Ben E. King, here promoting Levis rather than the film which has not yet been released in Britain.

Cheerio, 'til next week.

John Philip Is one of the brighter hopes this state ever had. Kinda like Tom Petty in terms of style.... Immediate phones for Whitesnake. I guess the audience knows that when you put "Whole Lotta Love" together with "Kashmir" together with "Nobody's Fault But Mine", you get a song so Zeppelinesque it's gotta be a hit.... Bruce Hornsby's "Kiss" goes to heavy. We have never played it before, but we still get TOP 5 LP sales out of it so.... Robin and Paul Simon also doing well sales wise.... Gregg Allman doing so well, there are none left at the store.... As we get ready to celebrate our 16th Anniversary, we're looking for artist ID's, congratulations, or anyone who wants to start a 4th or 5th AOR in Orlando. Send 'em along to: Mick Dolan, Promotion Dir., WDIZ, 2699 Lee Rd., Winter Park, FL 32789.

**Brian Wolfe, WGLU, Johnstown**

Moving in this week is new Los Lobos, World Party, Europe, Little America, Lou Gramm and another one from Peter Gabriel.... Sneaking into top five phones is the Cutting Crew.... Also good early phones on Jon Butcher and Concrete Blonde.... Thanks to Capital for the Beatles on CD.... And good going, Columbia, on the sampler CD. It is a concept whose time has come.

**Bearman, WGTR, Miami**

"River" is the best song on the David & David CD.... Ratt is a great R&R song.... The best of the bunch is Jon Butcher. I don't know what he's been up to the last 18 months, but I want him to keep it up.... I'd like to invite everyone in the world to come down to Miami and start a radio station. Just bring lotsa cash. Or you can just watch US do it.

**Kim Alexander, WHCN, Hartford**

It's a ringing guitar...it's a soaring sax...it's a balls mix... It's Frozen Ghost. "Should I See" sounds even better each time. Don't miss turning on your listeners.... A cut deeper on World Party? We're standing by our guns and ears on "Ballad Of The Little Man". It has more soul. I hope you'll think so, too.... I think everyone at Elektra had a heart attack when they heard we added Dokken. And they didn't even threaten me!... Indeed, the cradle DID rock this week with Dokken, Concrete Blonde, and Whitesnake. Smart move, guys. "Whole Lotta Love" meets "Black Dog"! Watch, the follow-up will be "Stairway to Kashmir". Hey, I don't care who they rip off -- it's a hot record. (But not as hot as Tesla -- yet.)

**Aris Hampers, WLAV, Grand Rapids**

Whitesnake -- WOW!!!! My favorite vocalist with strings!!!! If they all sounded this good, we'd play them all!

**Doug Clifton, KBCO, Boulder**

We've had so much success with David & David, why stop now? That's why we went with "River".... Venetians have been Top 5 phones -- phones to the point that the DJs really got into it. Moves from light to medium.... Stranglers doing great. "Always" in power and expect retail to kick in soon. It's their strongest ever and will be really big in album radio.... Gino fits into that adult feel with "Wild Horses".... My fave this week: The 77's -- great Byrds feel to it, complete with Chris Hillman.... Cingo Boingo is a big deal at KBCO. To me, they've taken over the cult status of Talking Heads.... We agree with Todd on "Dear God". It's a killer and we expect instant phones.... "Golden Age" from Rank & File fits the KBCO sound better than "Black Book".... Looking forward to new U2 and Del Fuegos.... Thanks to Images, Jay Beckenstein, and Leo Kottke for stopping by.

**Dianne Hicklen, KFMU, Steamboat Springs**

Throughout "Wishes", Jon Butcher has achieved the rare combination of hit material couched in a musical style which promises exceptional longevity. We're 3 cuts deep and I have a hunch that "Living For Tomorrow" will be the next single.... As for Smyth, she doesn't just have another hit single but an album with several chartbound cuts. "Never" will prove to be both that critical and commercial success.... Turning to Townshend, while "Another Scoop" is now as radio accessible as the last two releases, your upper demo and Who fanatics will be drooling over this collector's item.

**Harry Reynolds, KOZZ, Reno**

The Paul Simon show in Berkeley was a gas!! If you get a chance to go, do it. "Diamonds On The Soles Of Her Shoes" has just got to be a hit single!!

**Pam Brooks, WPDH, Poughkeepsie**

My congrats to Bruce Hornsby on their Grammy. I felt like a mom bursting with pride watching her sons. This is one special project I fought to hold on to here at PDH, because at first listen I knew they had a unique sound that one doesn't have a chance to expose often enough. Each time we went deeper, I felt a real triumph. Thanks, guys.... Gramm's "Ready Or Not" is a chartbuster. Calls are strong and steady on "Midnight Blue". Now we rock 'em with the title track and I see more to come. This also shows our listeners are dying for a new Foreigner LP. Smart move, Lou, to tide everyone over with your solo.... Hey, Mark, I been tellin' you from the start! "Sweet 16"! Way to go. The perfect follow-up to expose a different side of Billy. Snarl and rock them and then ease them into the laidback sound that he delivers in a truly original way.... I'm outa hear to follow the sun and cute male buns in Orlando. No plans to start another AOR while I'm down there.

Here's an overview of the Pretenders' Portland show: Just fabulous! It never let up, it had great energy, enthusiasm and was without one negative incident. I had the sense that all the weird baggage of the last several years had finally been left behind and what we had in concert was an exciting show of Pretenders; past, present and possibly future. This seems to be the time to go back and dig out some of those great overlooked tracks from the Pretenders' debut album because they were certainly well represented in concert. Bravo, Chrissie and company!.... Here at the ranch we wish our Operations Manager Pete Bolger bon voyage or perhaps I should say Buena Suerte. It's, as they say in this wacky biz, a great career move. We'll miss you! And don't forget the zinc oxide.

DR. K., KLOL, Houston

If Dokken isn't paying people to call in, then it's a hit. Phone-melter.... We didn't know about Crowded House at first, but, what the hell, we read the Hard Report. It's a big deal.... To begin with, I never had an image problem with Andy Taylor, and I know that the listeners don't. What isn't there to like about "Might".... Whitesnake is a Rick Lambert star-studded selection.... The U2 is simply wonderful -- brilliant guitar, uncompromising vocals--definitely their best ever. (Actually, I haven't even heard it yet; I just wanted to be the first to rave).... But, seriously folks, you guys can stop hyping us on Frozen Ghost. We were sold on it from the start.... Ditto with the Cutting Crew, which appears, on first listen, to be as deep and eminently programmable as anything I've heard in a while.... As far as The Damned record goes, I've been trying to come up with something flowery, eloquent, and pretentious to say about it (you know, the way Brehmer talks) but the bottom line is that it is a memorable tune.... The Cult arrived today and I had a tough time removing it from the TT. I kept grabbing people from the hall and forcing them to listen to "Love Removal Machine" at top volume. The best of AC/DC, Led, and the Stones all rolled up into one.... Finally, thanks to Island for the sampler CD. Lots of good stuff -- especially that long, spacy thing by--what's the name? Oh, yeah -- Traffic. We might even add it if it wasn't so long. How about an edit?

Wendy Steele, WLVQ, Columbus

Andy Taylor is rocking. The intro is a bit dramatic for the office folks, but it's just right for deh nite.... I like the soft side of Billy Idol. No, not THAT! His voice, you fool. "Sweet Sixteen" goes medium this week as well as Robert Cray, Dokken, Huey, and Andy "Cut Your Hair" Taylor.... Looking forward to U2, Mac and Night Ranger.

David Anderson, WMAD, Madison

The XTC record "Dear God" is a thoughtful, insightful record that dares to say publicly some of the things we have all thought privately about religion at one time or another.... I really like the new Cult record. Once you get beyond the off-the-wall title, this is neat stuff. It can best be described as Robert Plant meets AC/DC.... I'm going to be out of town so, in case you want to get in touch, send a messenger pigeon. I'll be camped underneath "The Joshua Tree". I'll be waiting for God and Bono.

Kevin Vargas, KWHL, Anchorage

Thanks to Debi Lipetz of Epic for the REO giveaways.... And thanks to Rick Winward for the Smithereens giveaways.... A tip of the hat to Columbia for the sampler disc (CD), however, in the future how 'bout more AOR material? Or better yet, an AOR sampler!.... The two best new albums belong to Cutting Crew and Frozen Ghost. The Cutting Crew record is a gift for AOR's of all denominations.... The Frozen Ghost contains fine writing led by an excellent choice of a single.... The only thing wrong with the Frozen Ghost is the lack of human drums, but that's a personal hang up. I love the heart and soul of a strong rhythm section made up of human beings.... Is it true Danny Buch is spending his vacation washing out jocks and socks after every Rangers game and practice? A dream come true indeed.

Jim Steel, WIOT, Toledo

The brilliant person behind the release of the Island sampler CD gets my vote for Executive Of The Year. Traffic's "Low Spark Of High Heeled Boys" on compact disc!? It's digital tits!.... After enough shots of cheap tequila with Joe Carroll of Epic Records and members of our executive management staff, we all decided that the Stranglers is a record to be reckoned with. So its mesmerizing beat gets the green light.... In the three years I've been here at WIOT, I've never seen such positive phone reaction in such a short period of time for a new artist like that of the Cutting Crew. From the first cut to the last cut, this whole album sparkles.... Frozen Ghost also gets the green light which was overdue. "Should I See" reminds me a bit of the Fixx.... And there seems to be a mistake being made if "Never Say Goodbye" is not the next single from BON JOVI. The song adds a lot of balance to the band.... FINALLY. AND DAMN IF IT ISN'T THE MOST IMPORTANT. BECAUSE I'M TIRED OF GETTING A BAD RAP FOR NOT TAKING MUSIC CALLS ON MONDAYS -- HEY, FOLKS, I DON'T TAKE MUSIC CALLS ON MONDAYS!! You respect my position and it makes it easier for me to respect yours.

Greg Mull, WXRK, Ft. Myers

Thanks to Steve Jones for the Genesis tickets -- a great end to a great tour. For your Core.... Whitesnake is white hot.... For instant phones you owe it to yourself to add XTC's "Dear God". Don't be afraid, Rev. Roberts! This record doesn't beg for \$4.5 million, it begs to be heard! It's the record that's been missing from our format for too long. Dear God, do it now!

Mark Williams, WWZU, Williamsport

I've talked to people on the phone and they all say "Well, Mark, I see you're still raving about Poison." Who? Me! Not, I. The record speaks for itself. It is a bona fide #1, rock hit. Look at your retail research and look at your request list. Poison, Starship, Lou Gramm, Peter Wolf and Tesla round out our Top 5 phones.... We're also getting great reaction on the Cutting Crew, Crowded House, Glass Tiger, China Crisis, Patty Smyth, Pseudo Echo, Stranglers, Cinderella, Dokken, Vinnie Vincent and Timbuk 3.... We're seriously looking at the new PRINCE record. What?! Prince on AOR?! "Sign Of The Times" deals with some very "close to home" current events. Great lyrics and some pretty nice guitar work make this track one we can deal with.

## Curt Gary, WEBN, Cincinnati

Added **Patty Smyth's** "Isn't It Enough". Excellent version with built in familiarity here at WEBN.... Like I said last week, the established major artists better watch out for new blood. **Cutting Crew** and **Little America** already jump into heavy. Getting good phones on both.... Moves: For the better late than never department, **Robert Cray** moves into heavy. We figured it was our time to play cleanup.... Also upped the **Patty Smyth**. (Bookin' that the formula is right for a hit song. Bank on the fact that she's writing hit songs).... The party master **Peter Wolf** goes to heavy. Our medium list is anxious for this album.

## Carter Alan, WBCN, Boston

I can't believe I survived last week at BCN with a freebee **Stevie Ray Vaughan** concert, **Brighton Rock** lunchtime show, and evening broadcasts from **Nashoba Valley** ski resort, with a couple thousand of our closest friends.... Thanks to **Lou Gramm** for ringing us on air and letting us know that he wants to do a solo tour. (If he ever gets time after the **Foreigner** album and tour).... The **Damned** album knocks me out!! Inconsistent at best in the past, this seminal English punk band has matured incredibly in the last few years. Their remake of "Alone Again Or" is gorgeously produced and is a sonic delight.... **Del Fuegos** album is as fun as their previous best work and "Long Slide" is a great prelude to some other gems like "News From Nowhere".... we heard DJ's mumble "Cult is God" in the corridors of WBCN and that's pretty close to the truth. "Love Removal Machine" is a huge jump for them towards the mainstream.... Finally, **Andy Taylor** (literally) rocks me off my feet.

## Catfish, WHMD, Hammond

We played **Andy Taylor's** "I Might Lie" from the most recent MCA CD sampler. A radio station without this song is like **Mayberry** without a sheriff. MCA has promised us Parish-wide flea infestation if Andy can't find a bullet for **Barney's** gun by the time that motorcycle fades into the sunset.... We are one of those stations who can play **Simply Red**. If you program a hybrid, this is the stuff.... The **Nevilles** are a staple item in Louisiana. "Whatever It Takes" sounds good on the "Tonight Show", better in concert, and perfect on vinyl. Give your listeners genuine **New Orleans R&B**— whatever it takes!... **Don Dixon** is still strong here as are **Julian Cope**, **Colin Hay**, and **Crowded House**.... Prepare yourself for an old core artist's new release. **Beebop Hobel** of EMI gave **Catfish** a sneak listen — gasp! — and this could be his best.

## Steve Bridges, KFMH, Davenport

We had a good time last evening with **Beau Slegal** of WB and **Gary Wizner** of Atlantic. It was a pleasure. Got to share the good news about KFMH. Within a year's time we should be on a 1,231 foot tower (we are presently at 500 ft). Also understand from our ad agency that our numbers continue to rise and the station's looking better than it ever has. We owe this in part to you who supply us with the tunes and who make this alternative possible. Sincere thanks from all of us at **The Real FM**.... Favorite song of the year so far, **XTC's** "Dear God".

## Bob Welch, WQBK, Albany

Thanks to **Island** for the CD. It's about time somebody did this. Low spark without a pop, awesome.... Good seeing **Paul Brown** from **IRS** last week and glad that **Jay Ziskrout** from **Arista** made us one of the stops on his world tour. The new **Dead's** gonna be a monster and the **Cruzados** is rockin'....

## Chris Emry, WIYY, Baltimore

"Live From LA" was easily the most fun I've ever had doing radio. The entire broadcast went off without a hitch. The guest lineup was positively exquisite; the only thing missing was **Jim Morrison** returning from the dead. Sincere thanks to the "under new management" team, **Bruce Maddey** and **Z**, and to **John McGhan** who kept this entire circus running smoothly.... Great moments in LA part 1: **Bonnie Raitt** live on 98Rock meeting "St. Elsewhere's" **Fiscus** while he was with **KROQ's** **Meg Griffin**. It was a mutual admiration society.... Great Moments in LA part 2: Watching **Dave Edmunds** meet his rock and roll hero (and mine, too), **Little Richard**, for the first time. **June Foray**, the voice of **Rocky the Flying Squirrel** and a million others, knocked me out. What a wonderful, talented, nice, nice woman.... I guess I should stop before I take up the entire page. My thanks go out to all the industry people who took care of us during our stay. It was a true pleasure to have met all of you.... Let's do music. I caught **Crowded House** at the **Roxy** before the fire marshall kicked me out and they are a hot band. Don't miss them! So let's go with **Crowded House**, **Cutting Crew**, **Patty Smyth**, **Crack The Sky** and more **Bon Jovi**.

## John Jesser, WOXY, Oxford OH

It's a happy day for alternative rock radio. Our heavy hitters are putting out the product and it's tuff stuff. **Del Fuegos**, **The Cult**, **U2** and **Wire Train** to mention a few. Long live the 6 string guitar!.... **Ken Gildewell**, better known as **Mr. K** has been promoted to Assistant M.D. He'll be taking music calls if I'm not in. Ask him about his experience with the **Female Bondage Wrestlers**.

**Tim Jeffreys, KAZY, Denver**

We added Whitesnake out the box. Top 5 phones instantly!.... Still big phones on Poison, Tesla and the Crew.... We go with Jon Butcher this week. I'm hoping for big things from this. The riffs are jazzy enough to be cool and rocking enough for our core.... KAZY raised over \$17,000 this past weekend for the American Diabetes Association in the ski spectacular in Winter Park. Cherry Garcia can breathe easier now.

**Rick Panneck, WAPL, Green Bay**

I would to thank Gary Triozzi of Polygram for all his help with the Bon Jovi show in Milwaukee. The concert sold out in 2 hours, but we managed to give away tickets. Bon Jovi is such a hot property right now that the mere mention of possibly meeting the band backstage caused our phone lines to light up for 3 weeks. The phone company is still complaining.... David & David is one of the best new bands of the '80's. "River" is an AOR staple.... The Georgia Satellites song that intrigues both Brian and I is "Nights Of Mystery". The slow acoustic builds into a solid Satellites rocker.

**Lorraine Rapp, WAQX, Syracuse**

The "Dream Warrior" soundtrack from Dokken is an instant phone smash for the movie premiere of "Nightmare Part 3". We hired the make-up artist responsible for King Kong and Ghostbusters to do the 5-hour transformation that turned one of our jocks into Freddie Krueger. "Freddie" was then chauffeured in a limo to our malls where we gave out free movie passes and merchandise. Several hundred showed up at each appearance.... We have a show coming up with the Gregg Allman Band and, judging by the phones we're getting on the new Lp, it's to be a quick sell out and a hot show. His voice is as strong and bluesy as ever, appealing to both the old Allman Brothers fans and a new audience. It's incredible and refreshing to have an artist's music and emotions come out with an Lp so clear and deep as this one.... Good luck to Chris Rivers who is leaving to do mornings at WCCC.... On behalf of everyone at 95X, we extend our deepest heartfelt sympathy to Smokin' Joe Simpson at WHCN on the sudden loss of his father. Our thoughts are with you.

**Dave Kane, WCMF, Rochester**

I'm sitting here fuming over Madison Avenue's latest exploits of some of my favorite rock and roll tunes. I'm referring to the new 7-Up commercials that use Eric Clapton's "Let It Rain" and The Who's "Love Reign Over". First of all, they're awful versions of the songs. Second of all, I prefer to associate great rock and roll songs of my past with memories rather than with products. There oughta be a law.... Many thanks to Island and CBS for their recent CD mailings. They're very valuable additions to our CD library and with over 60% of our music being played from CD, we're thankful for the improving service.... After only one week on the air, encouraging phones are building for Jon Butcher and Andy Taylor.... Hank Jr. and Stevie Ray continue to build in the phone department.... And I gotta say that the new XTC song really just makes you stop and pay attention. It's powerful, thought provoking and probably controversial, and that's about as close a testimony to the power of music that I can think of.... We welcome Jim Davis to afternoon drive here at WCMF. Jim comes to us from Q98 in Fargo, ND.

**Redbeard, KTXQ, Dallas**

Amazing phones this week. Would you believe Little America #1? Well, you can.... #3 after two, you heard right, TWO plays, XTC's "Dear God". That's two plays! It's not even in rotation. I guess it is next week.

**Bob Linder, WDHA, Dover**

Hey! We REALLY appreciate the special advance CD's, but how about a follow-up booklet/liner notes when they're ready? It would also serve as a programming reminder to get that follow-up mailing.... Special thanks for the Island and the Virgin sampler. Our CD players are spinning non-stop.... Now, From Mike Boyle: The Damned have done a great remake of LOVE's "Alone Again"! When you get the rest of the album, check out a cut called "Restless"! Hey, Randy, do I still get the MCA CD of my choice?... Have you checked out Island's The 77's? Don't throw this aside! I'm positive you'll hear it in one spin!... Boyle's "MoFo" this week has to go to The Cult. Have you heard the guitar in this tune? Instant phones as soon as it's played!.... I'd like to thank Santa Bob! We now have two Technics SL-P1200 CD players in the studio! Talk about state of the art! These are THE broadcast machines!

**Karen A. Small, WGIR, Manchester, NH**

Boy, I can't wait 'til the Spring! When the warmer weather comes, our ROCK101 decals are going to be everywhere. The ROCK101 window decal patrol is already out in force.... Musically, I like the Del Fuegos record. Even though you might think they're a Boston band, two of the band's members come from Concord, NH, right in our own back yard. "The Long Slide" has a good down to earth feel to it and fits right in on the air.

**John McRae, KRQR, San Francisco**

Chris Isaak is great, absolutely phenomenal. Amazing phone reaction for this local. It sure does have a good feel to it. I can't envision any CHR worth its weight not playing this record.... Little America knocked me out on first listen and fits in very nicely with all the heavies.... Surprisingly format accessible stuff from Dokken. I didn't think it would fit in too well, but now it sounds like it's a homer.... Wiretrain already out of the box with #1 calls. They were frothing at the mouth for it. Of all the local bands right now they've got the hottest cut out there.... This Frozen Ghost stands out sharply as quality new product. Expect good calls shortly.... Eddie Money has another hit single with "Endless Nights".... Stranglers are outperforming anything else we've got on the air. Amazing. It's really doing well. Selling, too. Got the sales from Epic last week and there moving some product. For a band that was not even that big when they were happening at AOR to come back, I think is a testament.... I think people are interested in Geldof as a person and to be able to have a good record to latch onto helps him all the more. With the book and everything coming out, he's gonna be a major media star for awhile.

**Stacy Yelton, WKQQ, Lexington**

What a deluge of great music!! Crawling out from under, we managed to add some of this stuff. Let me say that if you're undecided about Hipsway, ask yourself if you've ever played INXS. If you have, don't hesitate on "The Honeythief".... Concrete Blonde is now on the playlist, and it won't be long before Central Kentucky is on the phone. What great lyrics and guitars... Bon Jovi blows into town March 21st. So "Never Say Goodbye" was an easy pick. Sales are still #1 on "Slippery When Wet" here in town, and that be all.

## Al Branca, WMGM, Atlantic City

If you have a chance, catch the **Kinks** warming up in smaller venues for their upcoming tour. Don't miss them. Last week was the first time I saw them since the "Soap Opera" tour. Talk about tight — they sounded like they were mid tour and played their asses off. Six encores. Thanks to Joe Ragusso from MCA.... I'd like to commend Island for their CD sampler mailing. Nothing sounds better than classic **Traffic** and **Robert Palmer** on CD.... Adds this week: **Steve Miller**, "Wanna". Great blues track. **Whitesnake**, "Still". I was a bit surprised when the CD arrived, but after one listen I know why the major commitment. This one's gonna be a monster. I wonder if I can sue Geffen for the blown woffer?! **Dokken**, "Dream". Well produced piece of crunch pop. **The Cult**, "Love Removal". This tune is exactly what this talented band needed to push them into the national airplay spotlight. **The Damned**, "Alone". Once you pass the name, it's all downhill. **Eddie And The Tide**, "Weak". This one's a natural for us. Although they're from the Bay area, they sound like they're from the Jersey shore.... Also on **Peter Gabriel's** "Don't Give Up".... Top 5 phones for **Psychedelic Furs**, **Tesla**, **Sammy Hagar**.

## Erin Riley, WMMR, Philadelphia

It was an eventful week in Philadelphia. Monday thru Friday the Morning Zoo was live from Flanigan's, a local club. Many thanks to all the guests who participated. DeBella does a terrible thing to musicians. He has each and every one of them singing before 9 in the morning with our house band, **The Flaming Caucasians**. Everyone was extremely cooperative. **Southside Johnny** is more than experienced with DeBella and the Caucasians. He's helped us out many times before. But you should have seen the look on **Lou Gramm's** face when the band started giving him the eye. It didn't take too long for him to jump up and sing "Money" & "Louie Louie", the Morning Zoo theme song. Thanks to **Frank Sclarra** and **Danny Buch** for putting it together for us. Poor **John Eddie** was badgered into doing "Twist & Shout" at 7:30 AM on no sleep. Friday brought us a reunion of **The A's**, one of Philadelphia's favorites. But Friday night was a hell of a party. Many various record companies were in town to see our local faves, **Tommy Conwell** and **The Young Rumlbers**. Tommy put on, as usual, a killer show with a lot of sweat for February.

## Mike Michelli, WONE, Akron

The **Martee LeBow** has a **Springsteen/Joplin**-kinda feel.... As **Paul**-kinda-Shaffer would say, Do I like the **Ward Bros**? You bet! My boss' name is **Ward**! He's MY bro! It fits the bill!

## Harry Guscott, WRUF, Gainesville

Thanks to **Steve Jones** and **Atlantic Records** for their hospitality in Orlando at the **Genesis** concert. The band just keeps getting better in concert and the light show is something to be seen. **Genesis** put on one helluva show from start to finish.... For a debut, the **John Philip** record is worthy of a listen. It's fresh rock and roll with an edge, with the sound of an early **Tom Petty** record.... Finally, **Jeff Shane** and **Epic Records** should be commended for their long-term commitment to the **Europe** record. "The Final Countdown" was an outstanding track which has proven itself on AOR and Top 40 radio.... **ROCK104** is glad to have been with the project from the beginning!

## Tom Starr, WOUR, Utica

We heard some real academy award performances on the phones as labels scramble to lock adds and solidify rotations on baby acts, while the heavy hitters move towards the batter's box. We've got high hopes for a lot of the new-comers, but the only recent debuts I'm completely confident will survive the onslaught are the **Cutting Crew** and **Frozen Ghost**. Both of which have a sound the format seems anxious to deal with and, more importantly, the kind of future airplay depth we'd like to see on a lot more first outings.... Others we're pulling for are **Concrete Blonde**, **Little America** and, though it isn't a debut, the brilliant new one from **Chris Isaak**.... We expected a buzz when we added the **Poison** record to support an upcoming appearance with **Ratt**, but what we got was a roar! #1 phones from day one.... Love that Island sampler with **Palmer** and **Traffic** thrown in. It's as timely an innovation as the demise of the 12".

## Christina, WPLR, New Haven

Cease heart, and radio dial switch to ten all in the first few beats! Nothing can touch the new **Cult** tune luv! This is rock n roll!

## Justin Phelps, WXRC, Charlotte

**Robert Cray** has a good summertime feel — and it's already summer here, uh, here.... I'm excited about the new **David & David**. It's stronger than their last one. Not so pop.... **Alan "Money" Parsons** doing R&R not the usual CHR. It sounds HOT on the radio.... I'm done preaching, but for God's sake, send that money to **Rev. Roberts** right now!!!

## THE HARD REPORT

# RADIO COMMENTS

### Robin Matheiu, WBLM, Lewiston

Warner Brothers made my Monday with new **Cult** and **Del Fuegos** all in one box. **Del Fuegos** have really hit their groove. The brass is a nice addition and I'd say "The Long Slide" is here for the long run.... What can I say about the **Cult**? Give it a few good listens and it cooks. **Rick Rubens** has given the new record a straight ahead, live rock and roll feel without losing any of the wild guitars and distinctive vocals that made "Love" my most listened to album last year.... Now for the stuff we're already playing: **Sammy Hagar**, **Tesla**, **Lou Gramm**, and **World Party** continue to dominate the phones.... **Frozen Ghost** is an easy add, and the new in-house favorite here.... Significantly early phones on the **Andy Taylor**. People are surprised it's him.... Good upper demo male phones on **Santana**. Top three first couple of weeks.... Moves: **Wolf** goes to heavy with strong phones.... As does **Gregg Allman's "Angel"** and the **Cutting Crew**. Still a lot of curiosity phones.... **Concrete Blonde** continues to ring true, but the beauty of this album is in the depth. As we approach our St. Patty's Day party with **Concrete Blonde**, we're looking to dance along the edge for a double shot.

### Cathy Down, WLNZ, Lansing

After putting just one quarter in a pinball machine, **Pinbot**, last week, my addiction for the high tech games started all over again. (Alan Ferszt, it's your fault). My mind is filled with images of five silver balls, each circulating through the maze rotation. Much like the adds this week, from **Whitesnake**, **Huey Lewis**, **Europe**, **Little America** and **The Cult**. The Intensity continues building, with each flip of the flippers and spin on the air, but the highlight of the game comes with the last ball, and the add of **The Cult**. "Love Removal Machine" is a strong rocker with a **Zeppelin** tilt. This tune should give **The Cult** a whole new following, yet still satisfy the already mesmerized fanatics. The game over light is flashing and I see high scores go to the crew at **Island** and **Columbia Records** for bringing out their CD samplers; brilliant idea, especially adding the **Traffic** and **Palmer** cuts. Great way to rack up a few extra bonus points. The sound of ringing bells and flashing lights are the result of **Capitol's Dave Teczak** and **RCA's Mike Whitenack** for coming through once again on the **Seeger** and **Toby Redd** promotions. All in all a very winning week. Pinball anyone?

### Larry Dunn, WLIR, Long Island

We've conducted outstanding live interviews recently. My thanks to the **Mighty Lemon Drops** who all woke up naked with tour passes around their necks in **Providence** for one of the funniest phoners I've ever conducted. This happened prior to our sold-out co-promote at the **Ritz** with the **Mighty Lemon Drops** and **Chameleons UK**. Also, special thanks to the **Venetians** and **Matt Johnson** of **The The** for insightful and informative interviews.... **Matt Brust**, starting forward of the **St. John's Redmen** (my alma mater), was a special guest DJ on my show recently. Besides being a great all player, **Matt** is a big **Smiths** and **Depeche Mode** fan. **Lou Carnesca** would be proud.... **The Cult** single is outstanding. The remix is superb--it's bigtime for these guys. They've come a long way from being **Southern Death Cult**.... Other adds this week, **Rank And File**, **Wire Train**, **Siouxie And The Banshees** (their great cover of **John Cale's "Gun"**), **Pete Shelley** and the **March Violets' "Miss Amanda Jones"**.... **Screamer Of The Week**, **Flesh For LuLu "I Go Crazy"**.

### Tom Schepke KISS, San Antonio

Easiest add so far this year is "Still Of The Night" by **Whitesnake**. It just jumps out of the stall and doesn't let up.... **Alan Parsons "Money Talks"** is probably one of the most rockin' **Parson** tracks to come down the pike in a while.... The **MTV/film** audience is calling for **Dokken** making it a heavy request item already, so we've gone ahead and pushed it to heavy.... **Tesla** is still performing well after 5 months now -- pretty amazing.... **The Cult** is the "surprise of the year". I actually thought I was listening to **AC/DC**!

### Bird, WXXP, Pittsburgh

The city of **Pittsburgh** has rewarded **WXXP** with sell outs of both the **Ramones** show and just recently **Joan Jett And The Blackhearts**. Thanks go to the whole **Ramones** crew and **Mark Wallace** of **WB Records**. And special thanks go to the **Supreme Court of Laguna** along with the **Joan Jett** crew. Both shows were fantastic. And, by the way, if you haven't added the new **Cult** single "Love Removal Machine", spank yourself and listen again. Who said **Led Zeppelin** wasn't reunited?....

### Ivar Hamilton, CFNY, Toronto

The "Some Kind Of Wonderful" soundtrack was the surprise record of the week. **Flesh For Lulu's "I Go Crazy"** is certainly the early station favorite. Thanks to the lovely **Cleo** of the **March Violets** for dropping by for an interview this week. It must be a record for a band to be together for five years and not have one official album released.... **The Style Council** continues to get top airplay, being our heaviest album in almost two years.... **The Cult's "Love Removal Machine"** is certainly not another "Sanctuary" but is already getting strong response after minimal airplay. Definitely a grower.... For those of you who get **Beggar's Banquet** servicing, check out "Wicklow Hills" by **Pierce Turner**. The production by **Philip Glass** is impeccable and is reminiscent of **John Fox's** early **Ultravox** days.... We'd also like to send a special thanks to **Marc Durand** and **Alert Records** for sending me to **Montreal** to see **Bundock**. No **US** deal yet, but I was impressed to the point that this hopefully won't take long. If you're having trouble finding something to play on the **K.D. Lang** Lp, try "Turn Me Round" or "Tune In To My Wave".... **Berns** is back next week. I go underground until the next convention!

### John Rosen, KEYX, Phoenix

The **McGuire's** album is great. I actually spent \$8 on records over the weekend and the **McGuire's** was one of them. There's so much good music on this one--"TV Party" was my favorite.... **Marc Riley** and the **Creepers "Miserable Sinners"** album is my favorite of the week. It definitely has music oriented to adventurous stations with the exception of "Baby's On Fire", a great **Eno** cover!.... **Red Box "For America"** makes you wanna hum in the shower. Once it's in your head you won't forget it.... **Band Name Of The Week** is **The Dull** on **Budget Ranch** records. The song is called "She's A Nuclear Bomb".

### Michael Bright, WFNX, Boston

Thanks to all the folks at **Elektra Records**, especially **Brad Hunt** and **Karen Durkot**. We hope to go for the gold with you guys much more in the future! We enjoyed seeing the **Chameleons** and **Mighty Lemon Drops**--two sparkling shows in **Boston**. Too bad that other cities around the country didn't get the opportunity to see 'em twice. Thanks to **Mr. Mike** from **Warners** for bringing both bands by the station to chat....

Jim Pemberton, WLLZ, Detroit

I think Farrenheit will probably do pretty well. It fits in fine with the mix of music we're using.... Little America is a personal favorite, and should be a good subtle relief record.... This is a big Dokken town and this soundtrack should do really well here.... Rate at 8 results: Frozen Ghost did well, and we got 85% positives on Vow Wow's "Nightless City". I'm not a big metal fan, but this song is really good.... The Whitesnake is probably my favorite record of the week. Coverdale's voice is really good and the instrumentation takes me back to the "Physical Graffiti" days. With those breaks, stops, and restarts, it just sounds very Zeppelinish. I don't have a problem with the length of it either. We still play "Kashmir".... "Rock The Night" should do well after our success with "The Final Countdown".

Phil Manicki, WWCT, Peoria

Unlike some stations, we love compact discs. So much, in fact, that we had an all CD weekend. Thanks to those labels and reps whose CD service is great, or at least building. To those who don't have a plan yet, I know I'm not alone in the plea for keeping up with the A&M's and Elektra's in the Biz.... Music this week: I always knew that Jon Butcher was a real good singer, but this "Goodbye Saving Grace" track really brings it out.... Added Andy Taylor. Hopefully people will forget about Duran Duran now. Coming up with an original rock and roll riff helped.... Moves: Joan Jett now in heavy with Top 5 phones and the buzz on this is just phenomenal.... Cutting Crew is a hit record, and goes to heavy.... Ditto Huey Lewis and a little Los Lobos increase for "Shakin' Shakin' Shakes" and Paul Simon as well. After the Grammys, people are realizing that this is good stuff.

Ron Nenni, KOME, San Jose

Some great music out this week; I agree with Gillisple that there are exactly four #1 Led Zeppelin phones on Whitesnake. Instant phones on "Still Of The Night".... Because of the tremendous success of the Georgia Satellites, we're anxious to play "Railroad Steel". The concert was a showstopper during our live broadcast a month ago.... Billy Idol's "Sweet Sixteen" could be Billy's most successful crossover song.... There is some great material for night time audiences this week, including Europe "Rock The Night" and Cinderella's "Somebody" is a natural after the success of "Shake Me" and "Nobody's Fool".... The surprise of the week is the Cult's "Love Removal". After one listen, it was an immediate add.... I'm sitting anxiously waiting to play U2.... Frozen Ghost sounds phenomenal on the air and I expect power play within weeks. It sounds that good.... Dokken is probably our fastest growing request item right now. Top 5 after one week — and this is Dokken country.... With the massive market airplay, Cutting Crew should break wide open.... Pseudo Echo moves to medium, with phones starting.... Other moves: KBC goes to heavy with "When Love Comes" was my favorite track at first and now it's really starting to take off.... Eddie Money's "Endless Night" is a natural for us... Moves: Wolf moves to power, it's doing so well. I don't think this one's gonna burn out quickly either.

Mike Ramsey, KLAQ, El Paso

We did a 12 hour radiothon for Special Olympics. Thanks to the rock and roll community of El Paso we were able to raise in excess of \$14,000 for the Special Olympics.

Joe Blood, KEZO, Omaha

Love the Frozen Ghost. Besides the obvious Fixx sound connection, the lyrics are very topical. We're gonna run it in all dayparts and see how it works.... Gotta go out of the box with the Del Fuegos. It worked for us last time and it should work this time, too. Great cut, nice and bluesy.... Another record that came out of nowhere that I relistened to this past weekend and found myself singing the damn song halfway through without knowing the words is the Saints, "Just Like Fire Would". Great hook! This is a sleeper record and it's gonna happen. I've gotta believe.... Whitesnake is a great song, but it's too damn long. We should have been supplied with an edit, because I won't be able to play it til after 7. Sounds almost like a ten minute record at 6:38. Starts out great but just takes too long. I know we're gonna get great phones, but an edit would have allowed me to play it from 3pm on.... World Party's "Private Revolution" is a natural progression from "Ship Of Fools".... Moves: Bon Jovi "Never Say Goodbye" goes to heavy; Pete Wolf "Come As You Are" goes to heavy; Patty Smyth "Never Enough" to heavy; and Steve Winwood's "Finer Things" to heavy.... If you've been doing retail in your market, you've noticed that winning a Grammy all of a sudden means beaucoup album sales again.

Wade Linder, KQDS, Duluth

Vinnie is #1 requested. Getting incredible night phones for us.... Andy Taylor in the last four days has been just non stop on the phones, people just want to hear that record.... Hank Jr. is also showing strong phones and impressive sales.

## Ron Garrett, KDJQ, Sacramento

The Psychedelic Furs "Heartbreak Beat" is an amazing record. It fits in so well with the Cinderella, Tesla, and Bon Jovi tracks we play. My target is 18-24, and let's face it, not every 18-24 likes hard rock. The Psychedelic Furs give me credibility with the Edge Heads, and on the streets the Furs have a very fresh, very hip image and I'm taking that to the bank. They move to medium after just one week.... O.K., The Cult's "Love Removal Machine" is truly rude. I think it has the same attitude as the Beastie Boys' "Fight".... Wiretrain's "She Comes On" is right on track. I'm watching this one real close 'cause I have a feeling it will be the one to finally put this great band over the top.... Wow!! The Damned "Alone Again Or". I loved this record 20 years ago when Love did it and I'm happy to see a whole new generation catch a taste of this tune. The Damned do a great job of capturing the mood of this classic. A real heavy projection for next week.

## Loris Lane, KFMX, Lubbock

Congratulations to our morning man, Dale Dudley, who is moving to Austin to do mornings on KLBJ. I'm so excited for Dale that you'd think I was going myself.... Thanks to Mark Tindall and Steve Resnick from A&M for lunch. Have you heard about Steve's record collection? Unbelievable!... This is for Dave Stone of KJOT: I know what you've been going through with Concrete Blonde. I've been yelling about it since January and we finally added it today. There is a god!! Keep the faith!!

## Larry Snider, KXRX, Seattle

As long as Beau Phillips stuck his neck out and predicted a two share for KXRX, we should officially go on record as stating that we're already at a 2.9 share for the latest Arbitrends and that's without any outside advertising whatsoever -- strictly word of mouth. Naturally, we can project a much higher 12+ share from here by the time this book is over. As for the war, we'll wait til it's over. We've got a long way to go. In addition to that, our outside advertising is just now in place, half way through the book, and it will do wonders for our cuming. Beau can be forgiven for making a premature prediction when we recall that it was Beau who picked the New England Patriots to rout the Chicago Bears in the 1986 Superbowl.... I do want to make a mention of an area band that they're starting to ship out nationally. It's not a Seattle band, they're from Portland (200 miles away), they're called the Razorbacks, and have a very strong album called "More Love, Less Attitude". The title track is already showing up well in requests and starting to show some decent sales at this stage. For more information on how to obtain the album, you can call me here at the station at 206-323-3636, and I'll arrange to get the album in your hands.

## John Amberg, WKRR, Greensboro

ROCK 92 welcomes our new morning team, Brad Krantz, formerly of WZOU, Boston, and Ralph Shaw, late of WISM, Elkin, North Carolina. We all look forward to great times with Brad and Ralph. Also I'd like bid a fond farewell to Chuck Jeffreys, who is moving on to the proverbial bigger and better things in radio. Chuck is a bright and creative guy with fabulous pipes and a great sense of humor. It was fun working with you Chucker and you'll be missed....  
Onto music: **Los Lobos**. I love it. Already on my top 10 list for 1987. "Set Me Free" is destined for hitsville -- so what are you waiting for?.... **Robert Cray** continues to knock me out. "I Guess I Showed Her" is an excellent follow up to "Smokin' Gun". Also watch out for "Right Next Door", the one I think will really break him big.... We finally have **Teslafied**. "Little Suzi" will work really well for us at night.

## Lin Brehmer, WXRT, Chicago

U2!! U2???

## Tim Drayer, WHTF, York

We've been getting strong female phones on **Robert Cray**, so we decided to add "More Than I Can Stand".... We're also beginning to get a strong response on **Paul Simon**, especially with upper demos, who continue to love him.... I'm beginning to like **Joan Jett's** 'Light of Day', which wasn't a favorite at first, but I've seen the light.... I think **Lou Gramm's** 'Time' is the most rocking track on that album.... I expect the new **Glass Tiger** to be successful as well.

## Steve Cormier, WIZN, Burlington

**Concrete Blonde** is one of the best new bands of 1987. "True" is pulling in top 5 phones from listeners of all ages. 'Dance Along the Edge' is also an excellent track.... Sometimes I can't figure rock radio out. Along comes a great tune from **Simply Red**, "The Right Thing", and it's ignored by AOR. Why? This is the kind of crossover music rockers must play to beat CHR. It's a hellified song and it should be played... My favorite this week is "Slide" from the **Big Dish**. A mix of David and David and Mr. Mister. Ooh, I hate comparisons.... Didn't think I was going to like anything else on the Iggy record, but "Isolation" has that atmospheric feel that I think will do really well on the radio... No calls yet on the **Jon Butcher**, but I hear at least two or three more tracks that should do well on the radio. This should be the album that puts him on the tips of people's tongues and he deserves it.... We think the **Hipsway** is an important crossover record...and the band that's gonna blow everybody away? The **Cutting Crew**. Track after track of nothing but quality material. think the **Hipsway** is an important crossover record.

Hello and goodbye. First, let me introduce Steve Hoover, the Asst PD and now MD. He will be taking my place. Steve is wearing three hats these days so he'll take music calls 2-4 pm PST Mondays for now, until he gets the hang of things. Me, I'm like the crossing of the Delaware — history. It's an amiable parting and hopefully I'll pop up somewhere soon! In the meantime, you'll be hearing from me, if you haven't already. Thanks to everyone for all you've done. I'd like to mention everybody, but they have limits on space here.... Thanks to Iggy Pop for such a great interview and for being so much fun in person. Go see Iggy anywhere you can.... Finally, I'm available now! 408-649-5236 is the home phone. I'm open to any and all suggestions right now and, yes, I'll leave Monterey.

**Steve Becker, WKFM, Syracuse**

I would like to thank Roman of MCA for the first-class treatment both Brian and I had in Boston recently to go see the Kinks. Here's a band that you shouldn't write off as a revival group. Ray has this group smokin'; be it through the new tunes or the energized classics. Very impressive.

**Dave Fortnay, WKLT, Kalkaska**

With the flood of some great new bands in the first two months of '87, it's time for the first flood of '87 from some major stars. But I feel we'll see a lot of the new bands weather the storm.... Tesla is one of our biggest request items and the Cutting Crew and Andy Taylor are also building real well.... The Cult is my favorite new track of the week. This record should put the Cult on the AOR roadmap.... My thanks to Dave Tezcek of Capitol for helping Chuck Poet and me see a great Bob Seger show in Detroit. My hats off to the Georgia Satellites who put on a great show as well.

**Russ Mottla, WAAF, Worcester**

The Cult's "Love Removal Machine" is a strikingly simple song with plenty of guitars that will be an instant hit with our Led Zep/Stones/Van Halen core.... Again, this week, thank god for the Jon Butcher album, "Wishes". "Goodbye" continues its massive acceptance among 16-34 year old rockers.... Patty Smyth's LP is a deep one. I really like the Willie Nile/Chertoff song, "SueLee" and "Heartache Heard 'Round The World". And what's this Janis Joplin-ish refrain at the end of the record?

**Alison Stewart, WBRU, Providence**

The Cult — holy Guitars, Batman! How can you fit so much onto one little record? "Love Removal Machine" makes its debut as our Master Blaster.... Wiretrain has a sassy tune with great potential. "She Comes On" is a big step forward.... The Del Fuegos should start sending out their superstar applications. "Long Slide" is funky, bluesy and destined for chart action.

**Ellen McKinnon, WEQX, Manchester, VT**

Look at that great list of adds this week. Check out our playlist elsewhere in the pages of this magazine. Do you have the sort of radio experience that would be entertaining with the kind of music we have? Want to work at EQX? Call me quick at 802-362-4600.

KDJQ/Sacramento MD Ron Garrett trades chops with Vinnie Vincent. Hope both were grounded when those guitars touched.

**Bill Evans, KKBR, Albuquerque:**

The 77's have an interesting band all down the line. Their last album was definitely delightful, and this album shows fruition and a positive message for life included in their intelligent lyrics.... We're also using the Simply Red, since no one else will play it. It's great and it's all ours.... The Santana record is his best since Abraxas.... and the Paul Simon 12" continues to kill. With his performance of "Diamonds" at the Grammys that goes back in, and thanks to the Los Lobos connection on "Myth Of Fingerprints" that goes back in too.

Most people should have Whitesnake by now. Put this baby on and burn, baby, burn!!! You'd almost think that it's Led Zeppelin. One of the best rock and roll tunes to come around in a while. "Still of The Night" is so tight, you couldn't get a pin between it. Add it!!.... In the beginning, we had some negative response on XTC "Dear God" and now the reponse on it has changed in a positive way. Getting the audience to pay attention and listen again is important and it's a chance you've gotta take on this song. The reponse has been great since we let it play!.... Gino Vanelli "Wild Horses" is damn good. Gino has been around for a long time, but this tune has a different flavor!

**Duane Sherman, WTOS, Skowhegan**

Please note new music call hours--Tuesday 11AM through 2PM. My airshift is changing effective March 9th. You'll now find me 2 to 7PM. Please note: no calls will be accepted at that time.... We found a secondary track from the Furs album, "Shock". I predict this Lp won't even crest until summertime.... Virgin scores a double this week with Heaven 17 and Killing Joke. Both are welcome with open arms.... And get ready for new vinyl from the Del Fuegos. "Long Slide" received phone response after just one play. The same goes for the The Cult. They seem to have a heavier sound this time, no doubt due in part to the production work of Rick Rubin.... The Blow Monkeys are looking for a bigger smash hit with "It Doesn't Have To Be This Way". It's always been my feeling that British pop music has always been superior to America's.... Don't overlook the new Oingo Boingo Lp. This band has paid it's dues 1,000 times over. The best thing that can be said about Oingo Boingo is you can always tell it's Oingo Boingo, but it's never the same thing twice.... Pick Of The Week: The Creepers. Please don't confuse this with the Huxton Creepers because they're not even similar. I find strains of Adam And The Ants as well as the Kinks on this record.... Do you think Andy Taylor ever listened to Moody Blues "Rock And Roll Over You"? For an unforgettable and unbelievable segue, spin these two together.

**Renee Blake, WKXL-FM, Concord NH**

We need service from RCA and A&M and we're very eager to get a copy of Gregg Allman's Lp!.... WKXL is excited about Billy Joel's "Temptation" from the "Bridge" Lp and the Atlantic release of the Robert Cray Band "Who's Been Talking" is a 100% winner.... And last but not least, if you thought Jennifer Warnes was sugary in the past, then listen to her new album of Leonard Cohen songs!.... PS: The Rob Jungklas album is really terrific. You can't NOT get up and dance to this one!

**Virgil Thompson, WIXV, Savannah**

Little America's "Walk On Fire" goes in this week. Everybody at the station is saying "Hey! That sounds good! Who that be?" I think it's the bass line that gets everyone.... Geffen scores another with Whitesnake's "Still Of The Night". As things warm up and spring starts rolling in, this tune is sure to make the folks roll down the car windows and just let that radio blast.... We're just a couple of weeks away from St. Patrick's Day and our anniversary -- with a big, big party on the horizon. Savannah's St. Pat's Day celebration is second only to New York's, making our March 17th extravaganza the biggest per capita in the nation.... I'm still looking for ID's, so please call us in regard to this matter.

**Kelly Cruise, WEGR, Memphis**

The World Party continues! Our second track from the Lp is "World Party", the tune that keeps ringing in my head long after I've taken the record off the turntable. This track grows on you, much like "Ship Of Fools" did. So give it several listens.... Frozen Ghost and Jon Butcher have some of the best new songs this year. We've already put Frozen Ghost into medium rotation.... "Variety Tonight" from REO caught my ear when I heard it on the World Premiere Weekend sampler cassette. We're going with that one as our second Lp track.... And about the Venetians. Don't close the blinds on this one. "So Much For Love" has the sound that other bands are trying to find.

**Kim Pool, WMRV, St Louis**

I'm starting to get some great items in for our auction for Cerebral Palsy, but I'm still far behind. Now I'm begging and pleading for donations. I'm putting out my red "Send Help!" sign. If you have any ideas, please give me a call at 618-397-2002. Thanks to all who have helped. I love to write thank-you notes, so please send donations.

**Chris James, WTPA, Harrisburg**

The new Whitesnake is a killer. It should be a hit on all demos and I see top 5 phones after one week.... Finally, the long awaited follow up to Europe's "Final Countdown". "Rock the Night" looks to be as big if not bigger.... Don't miss the boat on Farrenheit. The record just sounds great, and should be perfect for any format.... The Georgia Satellites and Cutting Crew continue to heat up the phones and I see power in both of their futures.

**Michael Davis, KFMG, Albuquerque**

Look out, here comes the onslaught of monster releases. The majors of the week for us: Whitesnake's "Still Of The Night" with super immediate response.... And Frozen Ghost "Should I See". The predicted response on the Frozen Ghost from Anytown, USA? "Who are these guys?" Hot, that's who.... ROCK 108 shows continued progress with Gregg Allman, Deep Purple, Dokken and Jon Butcher.

**Chip Hobart, WQFM, Milwaukee**

The amount of great music that's out right now is unbelievable. I've got a list of 40 records I'd like to add. I'm really psyched for U2, Bryan Adams, Autograph and Fleetwood Mac, just to name a few I haven't received yet. And others already in and sounding good are almost too numerous to mention. But the list starts with the new Cult, Del Fuegos, Chris Isaak, Reckless, The Saints, The Damned, John Philip, Wednesday Week, Killing Joke, Ward Brothers and, of course, Whitesnake. Then there's In Pursuit.... As for stuff already on, the Bon Jovi is a monster. I'm glad I discovered the kid, even though everybody else will take credit for it. "New York Rocks '83" is where he got his start and he brought the cassette of "Runaway" to me. Loved it on first listen--and the rest is history.... We're also doing great with the Gregg Allman. There's not a bad track on the album.... Lou Gramm is also doing exceptionally, along with Sammy Hagar, and the phones are also hot for Hank Williams, Jr. I don't think any rock station should be afraid to play it. If you don't like Hank Williams, you can kiss my ass!... You've got to hand it to the people who put out the Cutting Crew promotional saw blade record. Not to be used as a Frisbee--it's a sharp mother. Cut your little brother's head off if you're not careful....

**Ray Gmeiner, Elektra, 213-205-7433**

Big thanks go to Harvey Kojan of KLOL for the all time classic Dokken comments. And I quote "Dream Warriors" is #1 requested out of the box, and that was before they even heard the tune." One week later this enthusiasm has spread across the country. During this past weekend, "Nightmare On Elm Street Part 3" opened and debuted at #1 at the box office out distancing "Platoon" by a two to one dollar amount. Dokken's "Dream Warriors" is the theme song for this box office smash and its star, Freddie Krueger, is featured in the Dokken video now on MTV. Simply put, I can only urge radio to jump on this train, 'cause its rollin'!... Speaking of trains, Elektra/Asylum now acknowledges your lead and agrees. "Railroad Steel" is the track from the #6 selling Lp in the country by those Georgia Satellites.... Coming Tuesday, March 17, The Hoodoo Gurus with a group of ladies who also know how to sell a lot of records.... PS: Ron Garrett, bless you. You hit the nail on the proverbial head better than anyone ever has.... PPS: Congratulations to Capitol Records on the great job on Crowded House. What a smash!... PPPS: Teslafy!

**Alex Miller/Michael Prince, Atco, 212-484-6400**

There's only one thing that can be said about U2 and that is, if you haven't played it out of the box, YOU ARE LATE. Simple enough.... Eddie And The Tide whose "Weak In The Presence of Beauty" roared out of the box on the West coast, jumped over to New York City and is now receiving attention in Phoenix, Minneapolis, Amarillo, and Iowa City. This is a song we cannot let you pass by. Eddie And The Tide built a solid AOR base with last year's "One In A Million", and this year as the band prepares to release the Lp "Looking For Adventure", you have the opportunity to play the advance 12" "Weak In The Presence of Beauty". It has all the ingredients of a hit including the fabulous production of Keith Olsen.... If you want a guitar sound with some "Nitty Gritty", don't pass up Reckless. The Reckless "No Frills" album is on your desk this week. Reckless is a New York band that plays solid rock and roll.... Metal programmers! Manowar is "Fighting The World"! Every song is anthemic. We love the Orson Wells narration on "Defender" and "Black Wind, Fire And Steel" with the world's most bombastic ending for a song ever!... Saw Julian Cope live at The Ritz. The man is a Star — must see! Since you did, thanks for reading!

**Kevin Sutter Chrysalis, 212-758-3555**

"Private Revolution", Baby! And you better believe this revolution will be televised. Check it out: Friday, February 27th, "Ballad Of The Little Man" was on "Miami Vice". Later that same night, Simon LeBon of Duran Duran was on the Joan Rivers show, and said World Party is the best new band and sound they're into. Lou Gramm spoke about World Party and the Beastie Boys as breaking through at the format. Wait! News Flash! New Billboard numbers just in and the World Party Lp is 50 Bullet. Just think, the CHR kingdom is just now starting to react and you know that they are confirming what you already know. This band sells records and gets requests, so let's revolutionize, babes!... Billy Idol: big week last week and it all turned into airplay! What a difference a "Rockline" and a Grammy performance can make. About 30 stations made the move to "Sweet Sixteen" this week. Time for the rest of you to deal with his most mainstream track to date.... I know what I like

and it's more airplay on Huey Lewis And The News. Just like Billy, only Huey's already touring and this track is giving us even more extended airplay life.... In our "watch for this" column, check out "White Magic Spell" from the Vigil advance cassette. If you can't find it in that mountain range on your desk, call me and I'll send another, and another, and another. I'll keep sending them 'til you at least listen to them. Remember: Music is a note. Listen.

**David Ross, RCA, 212-930-4518**

RCA is making it perfectly "LOUD AND CLEAR". It took a while, but Autograph is back and this is the one that's gonna do it. We're signing in this Monday — I'll be speaking to you all!!!

**Walt Rittman, DIR. Broadcasting, 212-371-6850**

It's been "a long and winding road" since 1964 when the Beatles first hit our sunny shores and, although "you can't buy me love", you can say "I feel fine" when you listen to the only weekly Beatle-fest, Scott Muni's "Ticket To Ride"; 60 minutes of music, info and general celebration of a fabulous time in history. So tell, Beethoven to roll over and get on this show today, not "yesterday" because it's "here, there and everywhere" and if you wait too long, well, "tomorrow never knows". Gotta go, "here comes the sun"!

**John Rosenfelder Upside 212-925-9599**

Che is rocking. If your not on it by now, you've got no excuse. It's fresh and it's bad. Banned by the BBC, busted out in the U.S. by KROQ, WLIR, WFNX, KEYX, WMOD, WUNH, WNYU, WRAS, KUSF and razormade. If you don't play it now, you're going to have huevos on your face when —Che is picked up by a nubile young major. And as Miles would say, "That's a pitiful situation to be in".... Now This—This St. Patrick's Day, remember under-privileged kids who will never see these words, because they can't afford the Hard Report. It's the least you could do.

**Mike Corcione Relativity 718-995-8277**

Robyn Hitchcock is still blowing out of stores nationwide and gathering thousands of new fans along the way. Don't ignore this record! You'll have to play him sooner or later, so why not sooner? Be a leader, not a follower. Anyone can play Bon Jovi or Bruce Hornsby (not that I have anything against either one). It is a real shame that a station won't add a record because it's not on a so-called "major" label. What really makes a label "major" anyway? Play music because it's good, not because it's on that "major" label. Be adventurous and watch the positive results make you the person to follow.

MILLER TIME—Nice axe, huh? Bon Jovi gives it up backstage in Portland, Me. l to r: David Rashbaum, WBLM MD Rockin' Robin, Alec John Such, JBJ, lucky winner, Richie Sambora, WBLM OM Jose Diaz.
