the powerful new song from

the **TRUTH**

CD Pro and 12" Pro on your desk now!

Produced and engineered by Dennis Herring. Mixed by Csaba Petocz and Dennis Herring. From the I.R.S. album, WEAPONS OF LOVE (IRS-5981)

Peter Wolf, "Come As You Are", EMI... Good time party pleasing doo-wop rock is Pete's claim to fame—and as per the title track's quick sprint to the #1 slot last week, he's a top eliminator in the phone dragster department. Now Mr. Personality goes that tune one better with an album as well balanced as anything from the good old Gells days. This is straight forward, no nonsense, no novelty great music—with song selection to get your meat in motion. Just sample "Can't Get Started", "Love On Ice" and "Blue Avenue" then give the Woofer Goofer the winkin blinkin ever thinkin' triple track play that goofball deserves.

The Truth, "Weapons Of Love", IRS... Noted hookologist Redbeard hipped us to this great song months ago, and we've been ready and waiting to whup it on the unsuspecting ever since Barry Lyons advanced the tape in late February. The big guitars and that soulful chorus come gift wrapped in a contemporary arrangement that should whack you back with one listen, easy add precision. The Truth? I'd call them this innovative label's best shot ever at a mainstream rock radio hit. As WMAD's David Anderson puts it, "Who says they're a label that's afraid of real rock and roll. This sounds like Bad Company".

Record of the Week:

Rock and Hyde, "Dirty Water", Capitol... At a time when all but the automatic wait for limited airspace, this sparkling number racks up over 100 adds in just two weeks—culminating in this Report's longest 71-38 advance. Why? Because you folks know quality when you hear it and aren't afraid to act on your ears and instincts. There's not a better song on the street—and wait til you experience the CD dynamics. As WKQQ's Stacy Yelton says, "I fell in love on the first listen, and despite the Moody Blues comparisons, I'd say this record is fresh, new, and just what I'd expect from Paul Hyde".

ALSO NEW THIS WEEK

REO Speedwagon, "Variety Tonight", Epic... What's not to like about this one? As WLVQ's Wendy Steele puts it, "It's a sexy tune with punch that appeals to the upper demos. We've been on it a month with good requests"....From WIOQ's Bill Webber, "As an adult AOR, it is working very well for us. A great textured song that adds a nice flavor to the station. Good phone activity, too". New on 7, now on 43—and a minute away from blastoff. Underlined 66-52, with WRIF, WCMF, KSHE, KLPX, KILO, KFMQ and WIMZ already among those listing heavy play.

Stan Bush, "Heart Vs. Head", Scotti Bros... Listen to this tune and tell me it doesn't sound like Dan Fogelberg's rocking younger brother—or one of John Parr's better songs. We're talking the right licks in the right places—complete with a sax solo to drive the housewives wild. All this guy needs is a toe-hold at top 40, a little video exposure—and he could be the heir apparent to Rick Springfield's long vacant hunk rock throne.

Autograph, "She's A Tease", RCA...

"Loud And Clear" picks up 4 adds, 3 ups, and a two position gain to #62—with 46 stations to date. But the real deal on the album? No problem. "She's A Tease". They're the kings of hormone rock and if this tune doesn't get teen tongues a wagging, nothing will. Coupla busty babes on MTV and we could be talking over the top.

Eddie and the Tide, "Stand A Little Rain", Atco... The current single is fine, but by now it's apparent rock radio programmers want pop confirmation before doing much more with it (75-75, 3 adds, 1 up). And while we're watching and waiting for validation, put your ear to a super solid album track, "Stand A Little Rain". Comfortable on first listen, we hope it's the follow-up.

Bryan Adams, "Into The Fire", A&M... We don't have to heap much more praise on "Heat"'s performance—as it pulls comfortably into the #5 slot behind our top rated 38 Increases, 40 powers, 90 heavies—and 25 top 5 phone mentions. With the single safe at home—or nearly there—it's nice to see the kid taking a few chances and coming up thumbs up. From the guy who got depth play before it was fashionable, you're also going to love the title track (the album's best?), "Victim of Love", "Native Son", the rough and tumble "Only the Strong Survive" and "Remembrance Day". As WRCN's Wayne Summers says, "Bryan's raspy rowdy rockin' is a statement of his best effort to date. Great depth and variety provide a big plus from a credible established crossover artist". Bet on at least four more Hard Hundred debuts next week.

Gary Moore, "Over the Hills And Far Away", Virgin... Anybody who knows anything about odds and eventualities—and a little bit about Gary's regard across the pond—knows megarock status stateside is only a matter of time. And the right song. But little did we expect the man most respected for his guitar work to make the big score with a sound most like Big Country—complete with a fiddle break. Great shades of Horslips meets Jethro Tull while having lunch of the Mull of Kintyre. Could be the big hook of the week.

Gregg Allman, "Anything Goes", Epic... By now you've pounded "Angel", played around with the medley, and stand fully aware of the impact of this comeback. It is almost as if the guy never left. Then make sure he doesn't—with everybody's consensus follow-up. As WQFM's Chlp Hobart says, "He's hotter than ever and improves with age. And these vocals are piercingly superb. It fits in perfectly. It's what AOR is all about—and anyone who doesn't add this one is a fool". Also on WAQX, WHJY, KQDS, WAPL, KWHL, KFMQ and a dozen more, new at #94.

Ratt, "Slip Of The Lip", Atlantic... Between a million units over the counter and the relentless roadwork with Poison, you'd have to work to come up with a hotter hard rocking outfit. The teen/male draw is big and getting bigger—so take advantage of the phenomenon. It's a natural if you target core—and a strong night play candidate anywhere. CHR loves to scoop you guys on pop metal crossovers—and we say you'd be wise to hit it quick—enough already!

Dave Edmunds, "Paralyzed", Columbia... Considering the mileage most of us got out of Dave's "Wanderer" cover, we say one of the format's favorite sons deserves the double shot for this rave up rendition of an original. Forget "will he have a hit single with it?" and have a little spontaneous fun—perfectly timed with current club tour. New on WMMR.

ENIGMA

David Bowie, "Day-In Day-Out", EMI.... If anybody's not knocked out, we sure couldn't find them. The reaction certainly surpasses what I heard when "Let's Dance" came out. And the press conference? Simply brilliant. As WTOS Wayne Sherman says, "Bowie's a true artist. He always changes to suit his needs. His new leather/greaser image should do well for him". Factor in the tour excitement we're talking anticipation matched only by upcoming pictorials on Fawn Hall and Vanna Whiteside. Naturally it's Number One Most Added with 109, new at #15--with 3 powers and 53 heavies. Watch 74 medium mentions mushroom into at least half that many heavies next week, with a move into the top 5 a bet I'd gladly take.

U2, "The Joshua Tree", Island....

Wolf got his week in the sun but now U2 rules with close out 173 station saturation play, 52 powers, 104 heavies, and 21 increases. Still far and away the most active phone item out here, too, with 73 top five reports. In other U2 news, "Still Haven't Found" gains 37-27 (80 on/6 up), "Where the Streets Have No Name" goes 47-40 (59/1), "Bullet The Blue Sky" 50-42 (61/7), with "In God's Country" up 52-45 and "One Tree Hill" steady at 89. When you total it all up, "The Joshua Tree" once again doubles the second most played album.

The Other Ones, "We Are What We Are", Virgin.... A release we expect big things from on the rock/pop and new/alternative fronts turns in a strong second week, finishing #5 Most Added with 20--including KYYS, WBCN, WBYR, WLNZ, and WMGM. It debuts at #81, with 53 total reports. From Her Royal Hookness Inessa at KGON, "I like this band. It takes multiple listens but there is something very memorable here"... KNCN's Tim Parker also hears a heavyweight, noting the "Massive hook"... WTPA's Chris James promises a place next week, calling it "Virgin's smash #2"... and WIXV's Virgil Thompson tell us "This has a quality sound. Even with all the major releases, they make the list this week. And I've got a feeling they're gonna be around for a long time".

The Thompson Twins, "Get That Love", Arista.... At the rate it's developing, this could be the Twins' biggest album rock showing to date. The 78-65 gain comes about via 10 more adds (WHCN, WCCC, KZEL, WOOR, KROQ), 56 now playing and play jumps at KBPI, KGRQ and WIMZ. WMMR has to qualify as one of the most significant early believers, with Erin Riley front and center, "It's perfect for us--in fact, it's John DeBella's favorite new song. It's true to the Thompson Twins sound, but even more rock and roll".

The Damned, "Alone Again Or", MCA.... Solid curiosity calls at WPLR are just the start of what we think could be a huge semi-novelty reaction record. This week KLOL, KROQ, WLAV, KBCO, WQFM AND three more came to the party, with 52 stations total and 4 increases pushing through the 76-71 underline.

TAKE TWO

Follow up tracks we feel merit priority airplay consideration--based on charts, comments and overall progress to date.

Los Lobos, "Set Me Free (Rosa Lee)", Slash/WB.... Their second track now sits on 90 adds--with new air this week on KGB, WKLS, WNEW, WSHE, WCCC, KICT, WKFM, and 8 more, and play-ups from KFOG, WAQX, WKQQ and 8 more. Heavy at 22, including WPLR, WMAD, WIOQ, WHCN, KZEL, KRQR, KLPX and KFMH. Underlined at #30.

Europe, "Rock The Night", Epic....

File this under autopilot. The add tempo intensifies with WSHE, WHCN, WDVE, WIMZ, WCCC and KEZE just in, along with ups from KWHL, WGIR, WLZR, KFMQ, KMJX, and KNCN. Already a heavy at KBPI, KLPX, KWHL, WIMZ, and WYNF.

The Del Fuegos, "The Long Slide", Slash/WB.... It takes a little dirt under your nails to get close to this true blue street rocker--and we're glad to see those starched lists opening to accommodate one of our favorites. Thanks to 11 adds (KGB, WIZN, WPLR, WTPA) and five increases, the boys are back with the week's third longest 67-50 underline--moving the Lp 39-35. Now on 68--including KGB, KQRS, KYYS, WAAF, KISW, KFOG, WHJY, WPLR, WSHE, KDJQ, WCCC and KMOD.

Night Ranger, "The Secret Of My Success", Camel/MCA.... Well, I've never seen Night Ranger move out like this. It's 124 stations deep after only 3 weeks--and 31 heavies spells committed airplay--with 16 increases to boot. "Secret" gains 20-18, powering up the week's highest #15 Lp debut.

The Cult, "Love Removal Machine", WB....

Now you may not agree with Harvey Kojan's assessment that this is "The best song ever", but it's sure their best ever. New air at KBPI, KLOS, KZEW, WDVE, WEGR, WQFM and 14 more--along with 12 increases (WBCN, KROQ, WAAF, WHJY) and the Cult cops a 39-32 Hard Hundred hit. The phones are just as impressive, with top 5 response at WAAF, WDHA, KNCN, KBPI, KFMX, KQRS, KOZZ, KPCC, and more making it #10 Most Requested. KFMX's Loris Lane says, "The Cult tune is gnarly. It's got more punch than anything I've heard in a long time"...From Anthony Alphonsi at WDVE, "I never thought you could combine the Rolling Stones, Led Zeppelin and AC/DC but it seems the Cult has been able to pull it off"... and from KJOT's Dave Stone, "This is The definitive rock and roll song of '87."

Mondo Rock, "Primitive Love Rites", Columbia....

The record that stands up and demands at least an on-air test comes through with 12 stations for #10 Most added--with action now on KDJQ, KLPX, KMOD, KZEL, WDHA, WHFS, WHJY, WKDF, WMAD, WRXK, and WMRY. Better get familiar--this is one of those custom made cruisers those aggressive rockin' top 40's love to lead the way on.

Tesla, "Little Suzi", Geffen....

Carter Alan was right all along--this band is bound for glory. KLBJ's Jeff Carroll's "Led Zeppelin of the 80's" comment might not be too far off. We still say anybody could have used "Modern Day Cowboy"--and everybody should now be ready to cash in on "Little Suzi". As KQRS John Lassman says, "We've always thought this was the cut. Now it is, and it's happening. Be sure to leave in the acoustic intro, it makes the song". It's #9 Most Added with 14, increased at KDKB, KBPI, KSQY, and WDHA, and a top 5 phoner at KILO, KWHL, and KNCN. Underlined 81-64.

Fleetwood Mac, "Big Love", WB....

Doubters take note—"Big Love" leads the pack for Increase Play Honors with 38, as the Heavy count hits 100—with 27 powers and an 8-4 move. Top 5 at KMOD, KZOQ, WAPL, WIMZ, WKQQ, WMAD, WQMF, WRQK, WYNF, WZZQ, KFMG, KFMH, KGON, KMJX, KSJO, KZAP—and more, for #3 Most Requested overall.

Crowded House, "Something So Strong",

Capitol.... Let Top 40 own this band? Forget it. See them once live and you'll realize they're destined for the Hall of Fame—with Neal Finn's songwriting skills approaching the genius level. When Jimmy Iovine calls the first single "The best ballad of the past five years" gimme a break! These guys are it!! And to make things even easier for you, now they're coming with the rocker—and WLUP's already got it heavy!

Dokken, "Dream Warrior", Elektra....

Our second strongest request builder adds another 6 top 5 phone reports to hang tough at #7 Most Requested, with 3 more adds and 9 ups (KOME, WHCN, KBPI) generating a 27-25 underline. Now heavy at 13 of 103 total stations.

The Stranglers, "Always The Sun", Epic....

The Bay Area response still leads the way, as Chris Miller reports, "From Day One, 'Dreamtime' has shown steady sales here. 'Always the Sun' sounds great on the Rocker, as newcomers and old fans alike are responding".... From WTPA's Chris James, "We're giving the song a second life. The song won't quit and has been one of my faves from the start". New on WCCC, WTPA, and WWCT, upped at WMAD, KPOI and WIZN, Underlined 51-47.

Whitesnake, "Still Of The Night", Geffen....

Here's the fastest moving new request item in these pages. The top 5 call count almost doubles from 15 to 28, moving it 7-5 Most Requested. As WWCT's Phil Manickl reports, "Whitesnake checks in with #1 phones after one week. Talk about reaction!! Adds at KSHE, WEBN and WPLR make it 101 stations to date, with WRIF, KBPI, WHCN, KOME and KILO among 16 increases.

Lou Gramm, "Ready or Not", Atlantic....

"Midnight Blue" may be tough act to follow, but "Ready" definitely is. 17 increases (KLOS, KBPI, WPLR, WDHA) and 4 adds fire up an 18-16 track advance, holding the Lp in at #2. Now on 117, 53 heavy. Also check out "Heartache" with a 90-79 Lner—with KTXQ, KLOL, KICT, WCMF, KMOD, KLOS and KSHE among 20 already in.

XTC, "Dear God", Geffen....

Before we get to those exploding phones, check out their 98-78 Underline, second longest this week. It's new on 10, increased on 9, and heavy or better at 19. Top 5 phones now include WHCN, KFMH, WMAD, WNEW, WTOS, KBCO, KRIX, WQBK, and WRXK. If you're not in yet, line up behind WXP's Gary James, who asks, "Dear God, when can I play XTC?"

The Cutting Crew, "Died In Your Arms",

Virgin.... Watch this one mount a strong charge for #1 in the next two weeks. 21 Increases (4th best) move it 6-3, with 42 top 5 phone reports holding that lock on #2 National requests. Now on 158, With 38 Powers and 79 Heavies. Time to get familiar with "One For The Mockingbird".

Eddie Money, "Endless Nights", Columbia....

The vital stats say add and up with confidence: It's #6 Most added with 18, as 16 Increases (WLUP, WGTR, WNEW, WMMR) bring in a 29-20* Hard Hundred gain, and 25-18* progress in the album rankings.

Eric Clapton, "Run", Duck/WB....

The chart curve here says to expect more muscle in the next few weeks, too. "Run" rings up a 46-39 move, with ups from WHJY, WMAD, WCCC, WGIR, KFMG, WLZR, and WZYC. #8 Most Added with 14, with 68 of those now playing listing heavy rotation.

Georgia Satellites, "Railroad Steel", Elektra....

KGB, KLAQ, WBAB, WPDH, KNCN, WAPL and 7 more hop on board, and thanks to increases at KFMG and WLZR the track turns in a 47-40 gain. 64 reporters total.

Frozen Ghost, "Should I See", Atlantic....

Now the calls start to fill in, with WYNF, KPOI, KRQU, and WGLU early top fivers. 32 increases ranks #3 in that all important stat, with 43 of 149 now playing reporting heavy to power play. Underlined 16-11, 19-13 Album Impact. New on WLUP, KLOS, WKLS and two more. Have you heard "Beware the Masque"? Second only to the Cutting Crew for fastest breaking debut this year.

Psychedelic Furs, "Heartbreak Beat",

Columbia.... Expect top 10 play in our next report, building on this week's 17-13 momentum. New on 4, now on 141, upped at 15, including WHJY, WLUP, WOUR, WPLR, WIOQ, and WDHA. 60 heavy reports help move the Lp 12-7.

Little America, "Walk On Fire", Geffen....

Every one of those breakthrough signs points straight up: 16 increases (WYNF, WEGR, WAOR, WQMF, WOUR), more quality adds (WLAV, WLWQ, WKQQ); A solid heavy count (WOUR, WEBN, KQDS, KNCN, KILO, KFMH), healthy phones (WEBN, KLOL, KNCN) and more great numbers: 44-37* for "Fire", 36* for the Lp.

Jon Butcher, "Goodbye Saving Grace",

Capitol.... Jon's 11-9 push into the top 10 is tremendous momentum in the face of some of the heaviest name brand traffic in months—and we commend Capitol for their flawless follow through to date. The record is 151 reporters strong, with 19 increases and 64 heavies further proof that it's still well ahead of the peak.

The Starmakers chart is formulated using a specially selected sample base of stations that have demonstrated above average early support of debut and/or unbroken artists. To further illuminate the progress of developing acts, we also delete any tracks with significant downward movement. It was either that or put a little tombstone next to them.

Hard Acts to Follow:

Farrenheit, "Fool In Love", WB....

They've hit that sweet spot where the formats meet---and continue to reap those radio rewards. This issues high points: Increases at WLUP, KBPI, WAAF, WTPA and KGRQ, with adds at WGTR, WCCC, WIZN and three more. Now on 47, with KISW, KLOL, KSHE, KZAP, WBCN, WCMF, WLAV, WLLZ, WQFM, WRIF, WHJY and WDIZ more majors you should know about. Underlined 68-57, with a #51 Lp entry.

Hoodoo Gurus, "Good Times", Elektra....

Good week, highlighted by adds at WNEW, KBCO, KILO and half a dozen more, along with ups from CFNY, WLZR and KZOQ. Now on 41 stations total, for a #69 Starmakers debut. KGRQ's Jerry LaChelt comments, "The Hoodoo Gurus have come up with just the right tune for spring time--bright and positive sounding".... KRNA's Steve Kosbau says, "You may expect something very avant garde, but in reality it is extremely accessible. With the help of radio it could be huge".... WAAF's Russ Mottla reviews, "Pure pop. It's great and boy do I like it!"..and "It's a hit" is the word from WRDU's Bob Walton.

Poison, "Talk Dirty To Me", Capitol....

Use it or lose it, folks. You shouldn't need a more obvious indicator than the add at KQRS--with KBPI and WNEW showing play increases. The requests build to #9 nationally, with WWZU, WBAB, KMJX, WNEW, WPLR, WRCN, WTPA, KFMQ, KILO and KZOQ all into top 5 calls. Moving well: 59-53 Hard Hundred, 52-47 Album Impact, #37* Core.

Gino Vannelli, "Wild Horses", Epic....

There's a bit of a groundswell here--and if you'll just put the lounge lizard image on hold and listen once or twice you'll join the fanclub, too. WEBN is the standout add to date--and they've already upped the rotation. WZEW also ups, with WMAD, WQMF, KZOQ and KVRE add. New at #99. Be brave--check it out.

The Reckless, "Nitty Gritty", Atco....

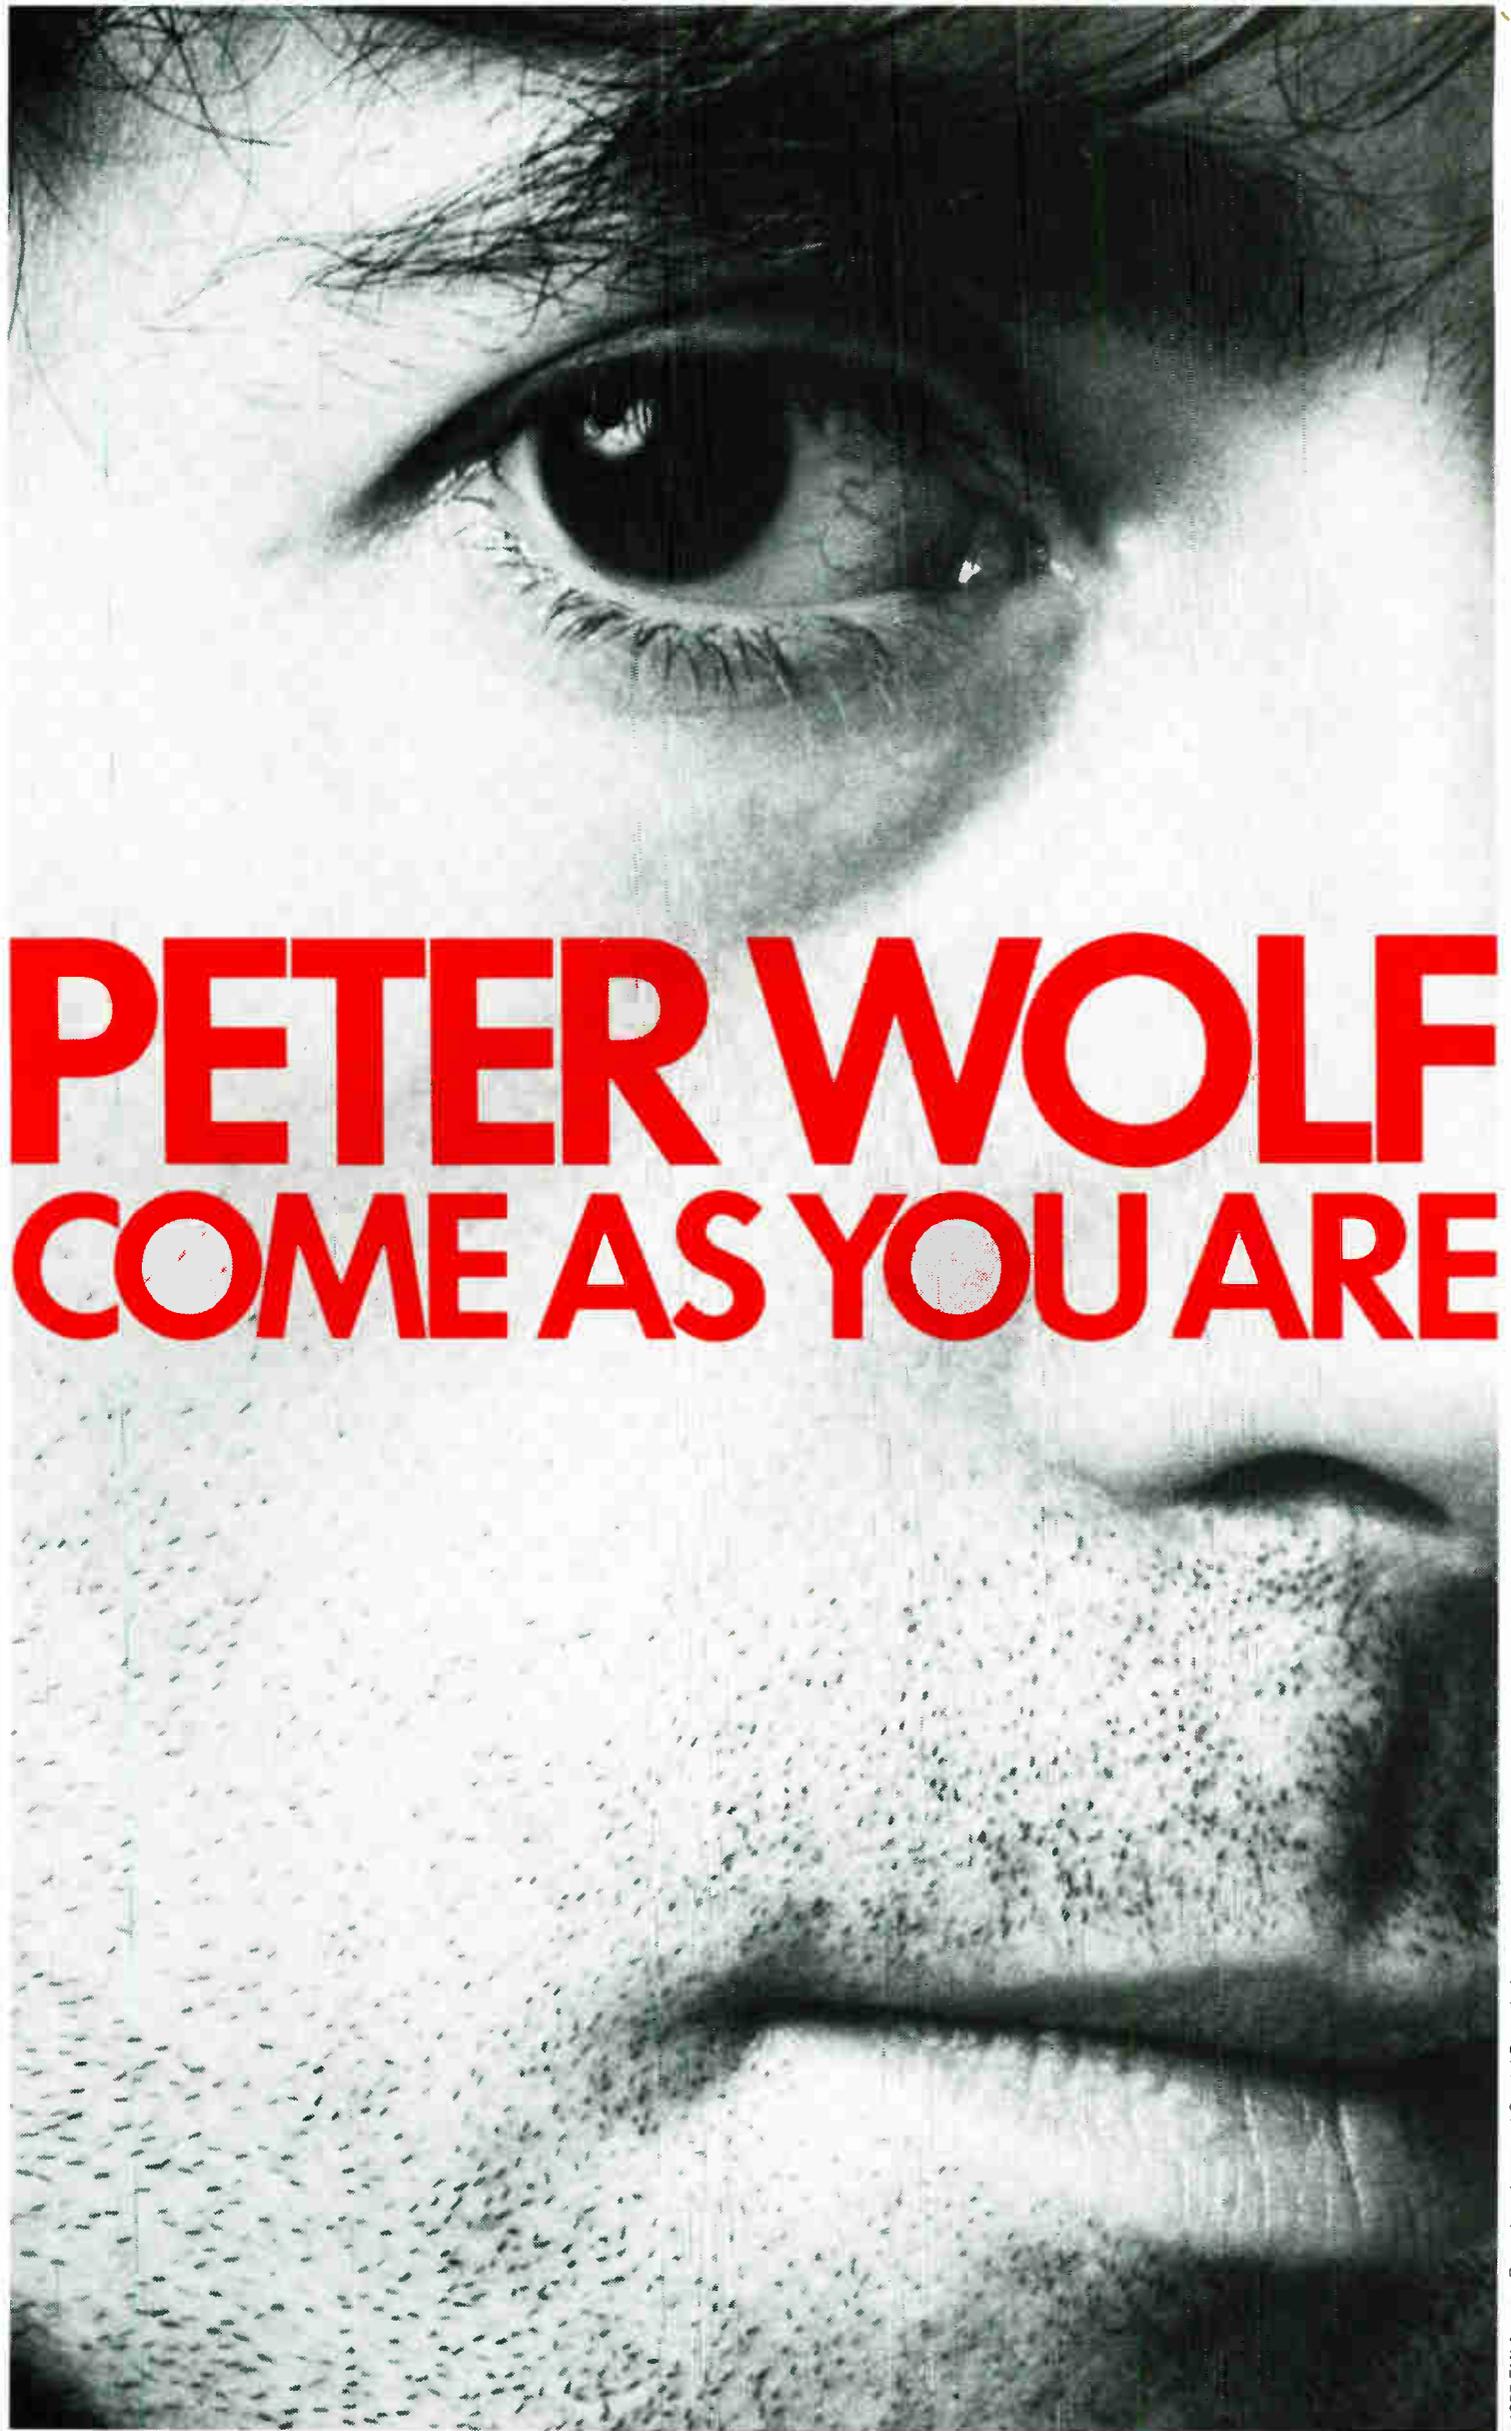

I'm not sure what Mssrs. Prince and Miller did to shift this project into high gear--but that's the haps this week--as KGB, WYNF, KNCN, KICT, KRNA WKDF, and WNGZ roll in. As we've said in multiple print shots, the singer's a bar belter el supremo and they've got the metalpop approach down cold. This one could still do something--dig it out.

Thrashing Doves, "Beautiful Imbalance", A&M....

Now let's not be playing any of those "Flock of Haircut" comparisons games. The name's about the only thing you'll have to get used to--because the song is fun at first listen. Which we hope you'll do so I can flesh out this space with a few quotes next week. Yo--Habeck, Hockmeyer, and Boyle--say something!!

The Saints, "Just Like Fire Would", TVT....

Here's that debut we've been expecting--at #95--with the Lp in at #45. Ralph Tortora makes good on his three week "considering" cliff hanger (along with new air at WTPA and KLAQ, and a little help from increases at WHTG, KEYX, KJET, WGLU, WIZN and WAAF. KWHL's Kevin Vargas laid it on his listeners--and he now proclaims, "A record I felt good about us supporting has now grown into "My God!! This is a great song!!". If you listen and like--it's time to get serious.

FYI: This week's Album Impact rankings reflect a methodology modification as follows: From here on out this chart will factor in play from both mainstream and new/alternative stations as opposed to the formerly all mainstream base. We feel this all inclusive sample base is a more accurate and useful representation of national album airplay—because, after all, programmers look at song charts, while record companies make greater use of overall album numbers.

A KAZY SHADE OF WINTER

DKM's KAZY/Denver is looking for a program director.

"They sat me down and said 'look, we really like you; we just don't think you have the experience to handle this situation,'" said KAZY PD Zak Phillips. Zak was asked to remain PD until a new programmer was found.

"He's so smart," says DKM VP/OP Mary Catherine Sneed. "He's just never been in the trenches. He'd make somebody in a medium market—a market less competitive than Denver—a great PD. We are working very hard to get him located."

KAZY has been running third to KBCO and KBPI. In AOR, unlike the NCAA, making it to the Final Four is not enough. You've got to win. And winning in America's Most Over-Signaled Market is a bitch.

Too damn many radio stations in that town. At least that's what a PD who was approached for the job said.

KAZY's heyday was the Dave Van Dyke/Greg Gillispie era of 1978-79. They won in a walk and DKM's looking for someone to take them back there, Lawd.

Phillips has been at KAZY three years, was PD for about one year. He was at KBPI before that.

FLORIDA FOREVER

In its quest to replace the Seattle Saga as the longest running continuous piece this column has ever seen, here's the latest from the land of sun, fun, and twin turbos—some of them even on cars.

In an effort to shore up sagging ratings, WSHE/Miami has gone to seventy-five minute music sweeps. The move makes SHE the last AOR in Miami to move to extended commercial free sweeps.

NOISE has been told that three days after the introduction of the sweeps, WZTA (ne WINZ) changed its sixteen tune jam to a to a seventy-five minute one. Reminds me of the first Leonard-Duran fight, which was even better than the first Duran-Duran fight.

The sixteen song clock gives a station just over an hour of continuous music. It was invented by WZTA consultant George Harris while at WMMR in 1983. It's the maintenance gimmick of the '80s and it is a bone-crushing time spent listening booster, sweeping six quarter hours.

Propping up the TSL at SHE isn't OM Charlie Kendall's only concern. In the last couple of days, he has overhauled the library and hired Tom Robinson (ex-WFBQ, WMMR, WBCN) to fill the 6-10p vacancy. Bill Louis (from Miami's "Maglc") becomes the new SHE production director.

Nobody has lost his sense of humor about this whole thing. Monday (3/23) SHE's morning team of Steve and Jimmy went on the air and told everyone "that if they didn't get fifty more listeners, God was going to call them home."

They are still there.

And the latest segment of Star Wars—yuh know, SHE v. WGTR over Herman and McBean—saw the judge find for SHE. On appeal, a Florida court found that WGTR sales material using Herman and McBean violated a restrictive covenant in the two's SHE contract—even though they were cooling their heels off their air. If this thing continues to go against WGTR, Herman and McBean may have to go to the penalty box again.

WZTA "Zeta 94.9" went live Wednesday (3/25) at noon. Hoping those memories of "Zeta" still make everyone in Miami warm and runny, the station is positioning itself with the line "The Legend Lives On."

At Harris' central Florida outlet, WHTQ/Orlando, PD Dave Gariano tells us that the station now has the Gift of Life.

After three weeks of being canned, WHTQ went live Thursday the 26th at 6 a.m. The Q Morning Crew with Griffiths and Castronovo, middayer Rick Babec from WINK/Ft. Myers, MD Slats in the afternoon, Mike Lyons 7-M and overnites belong to Cheryl Jeffries.

"We are dropping \$100,000 into TV in the next two weeks," says WHTQ PD Dave Gariano, easily making him this week's winner of the Nuclear Threat Award. Follow-up fire power includes boards, more TV, and a \$10,000 giveaway when the first unit runs after a long (days? weeks?) initial commercial free period.

And after talking to WDIZ/Orlando PD Rad Messick, it's obvious that his heritage AOR is not just gonna lie down and die. It's also clear to NOISE that a network of opposing PDs in Miami, Orlando, and Providence is forming to exchange thoughts, intelligence, and satellite photographs on Harris AORs.

By the way, today's mail had a letter from George. It included a Spring '85 LA ARB, noting that KMET had hit a 4.1 12+, and finished second only to KIIS in M25-34, M25-49, M25-54 when he programmed it. Harris presents these figures as a rebuttal to comments by Charlie Kendall in this column two weeks ago.

PD NOISE

Bill Evans is out at KKBR/Albq. He was well liked here. We hope he's ok.

Dave Richards is named PD at Providence's brand new AOR, WWRX. He comes from WBAB/LI where he was the promotion director.

ORAL ROBERTS, CALL HOME

With TV preachers giving everyone enough material to do six years of morning shows, we thought we'd call KMOD and KMYZ to find out how they're handling the man who truly is Living on Tulsa Time.

"We had a pizza delivered," laughs KMOD PD Charlie West. "When he earned the last Jillion, Brent and Phil, our Breakfast Club Zoo sent it to the tower on the air."

Hey, right name, huh? Break-fast Club Zoo.

Over at KMYZ, Bruce and Scooter had the First Annual Electronic Media Para-mutual Dog Races.

"The race failed to start when they just couldn't keep the Jim Bakker dog off the other dogs," says Bruce.

"We're so used to it here," adds West, "that the city pretty much ignores it. On the outskirts of town are big structures that look like Wallyworld, and people that live here don't take it seriously."

"By the way," cautions West, "Oral Roberts is KMOD's official consultant—so Abrams and Pollack watch out."

BILLBOARD

Rumors that BILLBOARD had been sold spread thru the industry like wildfire.

Collie Hard, HARD REPORT VP of Office Wench Operations, denied that the HR had purchased the record biz's oldest rag.

"But we may have been bought by a Florida dog track owner," she confided.

YOU BELONG TO THE CITY

With WKDF/Nashville morning man Carl P. Mayfield opting not to go to KLOS because WKDF gave him a cool mil five-year deal, we asked careful shoppers just what makes him worth \$200k per year. (And \$200k in Nashville is like \$400k in LA.)

"He had pictures of us doing nasty things," jokes WKDF PD Judy McNutt.

Secretary of the Treasury

"You can't buy history," says McNutt. "Carl is history here. He grew up here. He's our family. I didn't want Uncle Carl to work some place else. Beyond that, I thought LA would have been a mistake for him. I tried to explain that to him without getting over on him."

"He's so much a part of that city—he's got the governor, the mayor, the sheriff—they all think he's the greatest thing in the world," says WKLS/Atlanta (and former WKDF) PD Bill Pugh. In a focus group, it would be a toss-up seeing which tested bigger—Mayfield or the station. "It's a double-edged sword."

"You just let him run," adds Billy. "He knows how to do it. You don't have to fool with him. Not like the other morning shows where you have to breast-feed them the minute they get off the air. You know, those great moments in broadcasting. Like 'Pick up a fucking USA TODAY and look at it, ok? Is it that hard?' Or 'You use the telephone to order drugs, can't you use that damn phone for a bit?'"

Pugh is looking for a morning show himself. He's about to slip the surly bonds and sky to far away and strange places to listen for potential contestants. Who knows? The new Bulck could be behind one of those curtains.

NEW DIARIES

Welcome to the new "daypart" Arbitron diary, campers.

The thrills, chills, and uncontrollable hand-wringing stem from Arbitron's introduction of a bold line across the standard 6-10a, 10a-3p, 3p-7p, and 7p-M rated dayparts.

The rules have changed:

If the diary-holder writes KXXX in at 7a, listens all day and writes KXXX in at 5p when finished, but doesn't draw line down thru the bold daypart lines, connecting the "7a" and "5p", KXXX gets credit for two quarter hours, not forty as it used to be.

As the dog on the Jetsons used to say, "ruh-ro."

Some experts say that this new touch will hurt contemps like AOR & CHR stations, while favoring high cume, small quarter hour ones—like News/Talkers.

"I'm rolling with it," says one PD. "It's not like I have a hell of a lot of choice, anyway. The rabid dogs have never filled those things out right. And now, they have to draw on them."

WHAT'S IN A NAME DEPT.

KDJQ/Sacramento has changed its label, but the ingredients are still the same.

Seems KDJQ has a signal overlap with KDJK/Modesto. KDJK beefed. Guess KDJQ was anticipating it, too. We've been noticing that their letterhead and business cards don't have call letters—just "93 Rock."

KDJQ is now KRXQ, and will continue to use the "93 Rock" logo.

THE HARD REPORT

WHO AM US, ANYWAY?

John DeBella, WMMR's prize centerpiece, will appear in an April 6 US magazine piece entitled, "Who Are America's Most Obnoxious DJs?"

DeBella is apparently less than happy with the title and does not feel the label "obnoxious" all too fitting.

You'll also be surprised to learn that Howard Stern will be part of the same article.

By the way, DeBella will be on the April 18 debut of NBC-TV's SWEET SURRENDER. In a great departure from his past, he'll be on the radio. That John, always breaking new ground.

ADVENTURE IN MOVING

Eleanor Mondale (rock & roll TV and yup, Fritz's daughter) is doing morning news at WCKG/Chicago. Want to meet her? She dates Bear Keith Van Horne (6'8", 290). She used to have Secret Servicemen, but he ate them.

KAZY PD Zak Phillips seeks medlum market PD position. He may be contacted at the station.

WEQX/Manchester needs a morning person. T&R to Ellen McKinnon/PD, WEQX, PO Box 1027, Manchester, Vt. 05254.

Mark Krob, formerly of WVVV. Local hero, solid citizen and brand new Balt-DC resident. Looking for a job a music biz opening. 703-435-0570.

DJ Bird has flown as MD at WXXP/Pittsburgh, and goes back to WLIR to DJ. New WXXP MD is Deb Brady. She'll continue her afternoon shift.

Greg Cavanaugh (ex-KOME and KEZX) joins KVRE/Santa Rosa in midday, while MD Scott Murray moves to mornings. Those new music hours (everybody synchronize your EMI Christmas gifts) will be 10-N, Monday thru Friday.

Matt Walsh is the new production director at WKLS/Atlanta. He's just in from WPDH/Poughkeepsie.

New PD at WUVA/Charlottesville is Dave O'Brien, new MD Mark Denise.

Joe Krause is in at WCSX/Detroit. The station continues to chase ex-KMETer David Perry.

Bill Knobler leaves KATT/OKC to become GM at KZEW/Dallas.

Adams Communications has purchased KISS/SA from Capitol Broadcasting for \$11 million. Adams also owns WLAV/Grand Rapids.

INDUSTRIAL NOISE

JC Corcoran will pop up on the air in St. Louis once again. Look for him to pop up on KSD in the next sixty days. Since you asked, rumor says KSD is going Classic.

WIBA/Madison sold for \$10.8 million. New owner: LL Broadcasting should be in the building this June.

Bill Webber, Jr. bows out at WIOQ to go to work for the Selector computer folks. Now there'll be a little bit-o-Bill in every station. And get used to that special kind of high-tech humor, Bill. Like, two computers are having a conversation:

First computer: Do smoke after Interface?

Second computer: I don't know, I never scanned.

Congrats to new WLNZ/Lansing GM Charlie McCain. The station adds Dan Ballard to its morning team. He comes over from WLAV.

STEVE SUTTON

It's a nice day for a white wedding. And when WMMR's Michael Tearson does stuff like this, even we get scared.

DIRECTOR OF METAL HEALTH

We're happy to announce that Gail Flug has joined the Hard Report as editor of our new Metal section. Gail comes to us via the College Media Journal, where she compiled and edited their highly regarded Hard Rock column, and she's also been published in noted British metal mag Kerrang and various fanzines. I mean, Gail's so hard core she'd rather catch a couple of New York Malden dates than lobby for a trip to the Bowling Party. On top of being loads of fun on the phone, Gail is literally a walking encyclopedia on everyone from Anthrax to Yngwie. We're sure you'll enjoy her insight and overview—but that laugh has got to go!. She's the best in her field and we're thrilled we got her.

Before your eyes is the first installment of The Hard Report's new weekly guide to the wonderful loud world of hard rock and heavy metal. It will keep you up to date though charts—both airplay and retail—artist interviews, analysis, record reviews and the latest news. Since I just rolled into town, you'll have to wait a week for charts and reviews. I did round up some gossip as a teaser of what you can expect to see in the future. So, if your station has a hard rock/metal format and/or a blocked show, make sure you phone in for details on how to get involved at 609-654-7272. And if you represent a record label or management company which supports this kind of music, send all albums, tapes, compact discs, and everything else you have this way...yeah!

METALLICA are scheduled to make a guest appearance on "Saturday Night Live" April 18th. The only problem is finding someone brave enough to host that particular show. It will be the first time a Metallica song will be seen or heard in full on television. In the past only clips of concert footage have been shown and remember they have yet to make a promotional video. It will also give many Metallica fans their first look at the new bassist JASON NEWSTED, who replaced CLIFF BURTON last fall. To witness the loudest thing to hit SNL since Sam Kinison, make sure you tune in.

In related news, Elektra Records has signed FLOTSAM AND JETSAM. How does that relate to Metallica? Well, it's Jason's former band! They have since replaced him with former SENTIMENTAL BEAST bassist MIKE SPENCER but do note that the great success of their debut album DOOMSDAY FOR THE DECEIVER (available on Metal Blade Records) is the reason for the major inking. They have just completed a national tour supporting MEGADETH and hope to enter the studio soon to start working on their second album.

Former TALAS/HEAVEN guitarist MITCH PERRY has joined bassist RUDY SARZO and drummer TOMMY ALDRIDGE in a new band called NRG (pronounced energy). The line up is completed with keyboardist PHIL LUPO and vocalist ZEUS. They are currently looking for a major deal and hope to start work on their first album soon.

GRIM REAPER are currently in the studio putting the finishing touches on their third album with producer MAX NORMAN. Titled "ROCK YOU TO HELL", it will feature nine new tracks which RCA plans to unleash on June 11th.

TNT shot a video for their new single "10,000 Lovers (In One)" last week in Los Angeles with regular CINDERELLA director MARK REZYKA. The 12", which was just shipped from the PolyGram vaults, will be included on their second album "TELL NO TALES", due for release on April 13th. Actually, it's their third album—TNT's self-titled debut album was released only in Norway, where three-quarters of the line-up is from (their vocalist is an American) and where they have their largest following. In fact, advance sales for "Tell No Tales" have been great enough for it to be shipped silver. Their world tour kicks off on April 30th in Norway (of course) with plans to start their first trek across America very soon.

Congratulations to Enigma Records and STRYPER who both have just been awarded their first gold albums for "TO HELL WITH THE DEVIL". The band is currently on tour with labelmates HURRICANE.

CBS is hitting with two live albums this spring. Next month watch for "TRIBUTE", a double set by OZZY OSBOURNE, recorded back when guitarist RANDY RHOADS was in the band. As you recall the guitarist was killed five years ago in a airplane crash and has since become a legendary hero in the metal realm. Although most of the music featured on "Tribute" is live recordings, the fourth side will include some previously unavailable outtakes of Randy soloing in the studio. Due for release in May is a double set from Judas Priest culled from their Turbo tour. Details at this point are a bit sketchy but it will be called "JUDAS PRIEST LIVE" (these guys are as original with titles as Whitesnake) and there will be a corresponding video cassette released as well.

SLAYER will soon be heading a major European tour with MALICE in support. Meanwhile, it's said guitarist KERRY KING will make a guest appearance in the forthcoming BEASTIE BOYS video "No Sleep Til Brooklyn".

Metal Blade Records has just released "METAL MASSARCE VIII", a compilation of unsigned hard rock/metal bands from across the nation. The previous editions of the series is reknown for being the place where many major bands recieved their first exposure to vinyl—METALLICA, RATT, MALICE, BLACK 'N BLUE, METAL CHURCH, SLAYER, and FLOTSAM AND JETSAM just to name a few. Other new releases from Metal Blade include LIZZY BORDEN'S "TERROR RISING" (which includes remakes of JEFFERSON AIRPLANE'S classic "White Rabbit" and THE TUBES infamous song "Don't Touch Me There") and "THE BITCH IS BACK" by who else but BITCH. Naturally, the title track is a cover of the ELTON JOHN hit.

It has been confirmed that BON JOVI will headline England's annual mega-concert, Castle Donnington, to be held on August 22nd. CINDERELLA, ANTHRAX, W.A.S.P. and TESLA have been offered slots on the bill, however the only other definite act is DIO, who should have a new self-produced album on the street sometime in July.

DOKKEN have entered the studio to start working on their fourth album with producer NEIL KERNON. Word is that "Dream Warriors" should be included, but the single's b-side, "Back For The Attack" will not, making the record somewhat of a future collector's item. The album should be out sometime in June, to be followed by a another world tour. And no, Freddy Kruger will not be opening for them.

The early summer will also bring the long-awaited ARMORED SAINT album, "RAISING FEAR". It will be self produced (with a little help from enginer CHRIS MINO) and they hope to develop a definite "Armored Saint sound" with this disc. With song titles such as "Crisis", "Book Of Blood", "Terror", and "Human Vulture" how could they go wrong?

THE HARD REPORT

PICKS

THRASHING DOVES "BEDROCK VICE" (A&M) Meet a London based quartet who demonstrate the fine art of exposing a human element with a musical move against old standards. The dance tactics in disguise are, masked by Ken Forman's crackling vocals that play on the brighter side of mind. Laced with satire and wit, every song rings a story and superior ingredients that make up "Beautiful Imbalance" can be heard throughout. There's irony in "Biba's Basement"; desperation in "The Grinding Stone"; and desire in "Killer For You". Go-go for the gusto with "Jesus On The Payroll" and turn left with the Thrashing Doves' magnificent debut. The audience will follow.

BALAAM & THE ANGEL "THE GREATEST STORY EVER TOLD" (VIRGIN) Sharing the new music spotlight this week, is another album gaining airplay merits with yet an even more dramatic approach to songwriting. The force that makes up Balaam is created by three brothers who use a wide spectrum of instruments to develop an appealing mystique. Their debut is filled with imagery and energy found in key cuts like "Light Of The World" and "Don't Look Down". "New Kind Of Love" blares tribal rhythms and and chanting vocals not to be missed. "The Greatest Story Ever Told" is waiting to be heard.

THE SMITHS "LOUDER THAN BOMBS" (SIRE) For Smiths fans and admirers, this double-record set is packed with previously unreleased material (save for imports), both A and B sides, and 7 new outstanding songs (24 total). Not only is the new material a must for long time supporters—it's prime time for Album Radio to take a serious look and listen. This band has more than proven its popularity, seated at the Top of college and alternative radio charts with Peter Gabriel, Psychedelic Furs, R.E.M., U2, The Cult etc... who've all shared the AOR/ crossover spotlight recently. Morrissey's blue charm flows freely, intertwined with Johnny Marr's now famous stringwork, on the targetted "Shoplifters Of The World Unite" single. Others to play up include "Panic", "Ask" and a new version of an old favorite, "These Things Take Time".

FLESHTONES "VS. REALITY" (EMERGO)

Peter Zaremba is one of the few who can recreate a 60's aura and get away with it, while stepping one flashback further. The Fleshtones' are more than a New York phenomenon. Their influence is wide spread, and can easily be heard in the young garage/ psychedelic community--and now they've pressed another one to wear out. Start at the beginning with "Another Direction", high energy, to prep you for the rest of the Lp. Jump back. The makeover of "Treat Her Like A Lady" is going to cause soundwaves. Call Steev Riccardo at (212-219-0077).

HUNTERS & COLLECTORS "LIVING DAYLIGHT" (I.R.S.)

H&C have whipped together some exciting tracks to take advantage of on this Ep of 3--new and 2--remixed songs. It's time for a show of strength for a unique band of "punctuating" musicians who continue their excellence, with songs like "January Rain" and the new version of "Slab".

SALEM 66 "FREQUENCY AND URGENCY" (HOMESTEAD)

In their third and best sounding ROCK record, Salem 66 develops a refined, but aggressive edge enhanced by Ethan (Firehose)James in the producer's chair. They're on the "road" to recognition with jangling guitar edge and dual vocals by Judy Grunwald and Beth Kaplan--both echoing strong in "Post Card" and "Wanderlust" as album highlights.

SINGLE FILE

THE LUCY SHOW "NEW MESSAGE" 12" (BIGTIME)

If you were one of the movers on "A Million Things", it's easy to go for this superior followup--and sure to place them in strong future-play standing. You've got a highly memorable hook on your hands.... **AGE OF CHANCE "KISS" 12" (VIRGIN)** Industrial strength drums are front and center on this rendition. All out attitude makes for mucho fun and that's for everyone. Pour it straight.... **SMITHEREENS "TIME AND TIME AGAIN" (ENIGMA)** One of the best American bands who broke in '86 and their acclaimed Lp is far from over! Steady smooth power is what caught Album Radio's attention in the first place, so refresh your memory with this album extension. The silent break is tempting.... **MEAT PUPPETS "I AM A MACHINE" 12" (SST)** In keeping with the "Out My Way" transitional phase, the Meat Puppets unleash more "free country" style rock. Get ready for the Lp shortly.... **YO LA TENGO "ASPARAGUS SONG" 7" (COYOTE)** Here's a focused, encounter with humming guitars and soft vocals, that put preconceived notions to rest. Produced by Chris Stamey.... **FLOWERPOT MEN (LINK)** A hard to find single until now, the driving, demented brilliance in "Jo's So Mean" could only be heard few and far between on import. Produced by Steve (Sioux) Severin, its sinister drive is timeless fun. The Flowerpot Men are Ben Watkins (ex-Hitmen) who collaborated with Youth (ex-Killing Joke bassist) and Adam Peters. Call 212-334-9556.... **TORCH SONG "CAN'T FIND MY WAY..." 12" (I.R.S.)** Travelling from New Wave to New Age and back again, this cosmic reggae remake penned by Steve Winwood is definitely something to whisper about.... **RAILWAY CHILDREN "BRIGHTER" 12"** Once the Tears For Fears opening subsides,

this flickering dance piece will wrap around you in layered acoustics. Relatively unknown at this point, it sounds like the Railway Children have picked up a few Woodentips, and blended in shades of gray. More to come on the "Union Wilderness" Lp, out soon. Folks at Factory NY can be reached at 212-741-0329.

SIDETRACKS

B.A.D. "No. 10 UPPING ST" (COLUMBIA)

B.A.D. are not only returning for a spring tour, but have re-pressed a few "surprises" on a new version of the Lp. It contains rock remixes of "Badrock City", "V Thirteen" and "Hollywood Boulevard"!.... Look for the debut from **FOR AGAINST** on Independent Project Records. The name of the Lp is "ECHELONS", and the bandmembers are acoustically driven to say the least. One to watch.

DAVID BOWIE has announced plans for a 60-city, 15-country tour, which will include at least 30 U.S. dates. "This is the nearest to rock & roll I've got for a long time," Bowie says. He adds that he and Mick Jagger plan another project next year, but "at the moment I cannot say what," and plans for a film with Jagger are "in the air." At a press conference in New York announcing the tour, Bowie and a band that included Peter Dinklage performed two songs from Bowie's album, "Never Let Me Down," which is scheduled for worldwide release April 20. Dinklage will be in the band for Bowie's "The Glass Spider Tour," which begins in Rotterdam on May 28. Bowie says it will give the world a chance to see "how great he (Dinklage) is," noting that Dinklage's father had been his art teacher. "Many people don't realize that Peter and I went to school together." Compared to the "Serious Moonlight" tour, Bowie says this one "will have a lot more theater. I want to see how far I can take theater at the stadium level." The North American portion of the tour, which begins in Hollywood, will be sponsored by Pepsi-Cola. "I'm

very happy to have Pepsi underwrite this tour," Bowie says. "It's extraordinarily expensive and it's helping me out a lot." Bowie will film a Pepsi television commercial next month in Europe with Tina Turner which "will feature both singers performing one of Bowie's biggest hits." Julien Temple has directed a video for "Day In, Day Out," but a scene at the clip's end which features someone urinating on Ronald Reagan's Hollywood Boulevard star is likely to be edited out.

BOY GEORGE has been given a "conditional discharge" by a court in London after admitting he possessed marijuana last December. Lady Moore Black, chairman of the court, said magistrates took into account George's recent recovery from heroin addiction.

Billboard Publications, which publishes "Billboard Magazine," is being sold to Affiliated Publications Inc., which is the parent company of the "Boston Globe." An agreement has been reached to sell the group for \$100 million in cash.

"I'm still trying to figure out what it's about," **LOS LOBOS'** singer Cesar Rosas says of the band's "Shakin' Shakin' Shakes." "You could say it's about a woman represented by the wind and the elements and all that stuff."

JANIS JOPLIN's hometown is considering building a memorial in her honor. John Palmer, owner of a barge repair and cleaning company in the city of Port Arthur, Texas, has commissioned a bronze memorial to be raised in Joplin's memory. He's hoping to raise \$8,000 in donations. "I want to do this more or less for Janis and really for the people of Port Arthur," says Palmer. "They need to recall the greatness of this entertainer." The memorial is proposed for a museum at Lamar University in Port Arthur.

Success hasn't changed things that much for HUSKER DU, says the band's Greg Norton. However, he says he's a bit amazed that the band's picture appears in "Hard Rock Poster Magazine." "I mean, that's the kind of thing you can buy on newsstands in any drugstore in America." Things aren't that different from the days when the band was on SST Records, he adds, "in the fact that we're still doing everything ourselves, like still booking the tours ourselves. The major difference is that kids who are in, like, Idaho, pick up this 'Hard Rock Poster Magazine' at their local newsstand, read about the band and want to buy the record, chances are they can usually find the album somewhere in their town." Norton says the group's sound hasn't changed because the band is now on a major label. "If Husker Du were to become a mainstream act, it wouldn't be because of Husker Du making a conscious effort to fit in with the mainstream. We're going to keep doing what we do," Norton says. "We're going to keep doing what we do because we like it, and have fun at it."

IRENE CARA says she's "reached the light at the end of the tunnel" in a \$12 million lawsuit against former RSO Records President Al Coury. She filed the suit last year against Coury, her former personal manager, claiming that he improperly obtained money and an interest in her songs. "In a lot of ways, things are still difficult when you have powerful people as enemies," Cara says. "But fortunately it didn't interfere with my making an album for Elektra." The album, "Carasmatic," will be released April 15.

A Florida woman says she plans to write letters to every state PTA group in the country to warn parents about THE BEASTIE BOYS. Jennie Stratton says she was appalled by stories she heard about the band's show at the Bayfront Center in St. Petersburg, including the band's use of a 12-foot-high inflatable phallic symbol on stage, a member of the warm-up group exposing himself, and band members encouraging young women to expose their breasts. "It's too sleazy an act to book," Stratton says. "Among people who keep up with things like this, it's common knowledge that they do this." She says she is not opposed to rock music, just the band's offensive actions. "I decided that parents had a right and a need to know about this," says Stratton, who is a language arts teacher at Pinellas Park High School. "I figured the parents who would be the most offended were probably the least likely to hear about it." After the Beastie Boys' show at the Bayfront Center, police say several youths attacked and robbed some of the people leaving the show. Members of the band were threatened with arrest recently in Louisville, Kentucky, for many of the same activities, says a record label spokesman.

JOE JACKSON's next album, "Will Power," will be all instrumentals, except for a track called "Solitude." The album, Jackson's ninth, features a 50-piece ensemble using orchestral and electronic instruments.

Greg Edward will produce the dB's next album, which should come out in the fall. Edward has worked as engineer for REM and John Cougar Mellencamp and also produced the new Hunters & Collectors' EP, "Living Daylight."

WALL OF VOODOO include a remake of the Beach Boys' "Do It Again" on their album, "Happy Planet," which is scheduled for release April 20. The album's cover was conceived and designed by Steve Sayadias, who was art director for the film "Cafe Flesh." The band plans to begin an "Ugly American" world tour to coincide with the album's release.

THE TRUTH's new album is said to "sound nothing like the old." "Weapons Of Love" will be released April 20, produced by Dennis Herring, who produced "Greetings From Timbuk 3." The Truth, which previously was a five-member group, is down to a duo. Dennis Greaves and Mick Lister played all the instruments on the album and are now in London recruiting a touring band. The album's title track will be the first single.

The 40 Watt Club, a venue in Athens, Georgia, that helped launch the careers of a lot of bands in the area, has closed. The club moved several times after it was first created in the late 1970's in an apartment above a sandwich shop. But it never was more than a few blocks from the University of Georgia campus. Club owner Doug Hoechst says soaring insurance rates, a rise in the drinking age to 21, and the refusal of city officials to let the club stay open later at night are the reasons for the closing.

PETER CETERA says he would write another song for a movie if he was asked. However, Cetera says he would rather act in any production.

A 28-year-old London woman has received two years probation after pleading guilty to supplying heroin to BOY GEORGE. Anna Katrina Tinmaung was charged with delivering the drug to George.

YOKO ONO will receive the Mother's Day award from Women Against Nuclear Disaster on May 10th in Boston. Marlo Thomas won the award last year.

CROWDED HOUSE's Neil Finn says the band hopes to begin work on a second album as soon as possible. "But it really all depends on what happens with this one and the rest of the tour," Finn says. "We've got a lot of new material together, and hopefully we'll get back in the studio by the summer. Meanwhile, we want as many people as possible to hear the first one."

Memorabilia from JIM CROCE's career was destroyed in a fire at his widow's home in San Diego. His widow, Ingrid Croce and the couple's son, Adrian, were not injured in the fire, which was caused by a furnace. The Croce mementos had been stacked over a floor furnace grate while the home

was being redecorated and caught fire when the furnace was turned on during the night. Gold records, awards, guitars and photographs were among the items that were lost in the fire.

JOHN FOGERTY won the award as musician of the year at the 10th annual Bay Area Music Awards given out in San Francisco. **EDDIE MONEY's** "Take Me Home Tonight" was voted best song of 1986. About 5,500 fans attended the awards ceremony at the San Francisco Civic Auditorium. Journey won four awards at the show.

The **RAINMAKERS** plan to begin work on a new album in April for release this summer. "When you make the first record, you don't know if it's going to go from the recording studio to the record company to the cutout bins or the trash bins," says **Bob Walkenhorst**. "I feel like we've got an audience now."

Bill Wyman, in an interview on Europe's "Music Box" television channel, hints that the **ROLLING STONES** won't be playing together again. "The time comes when all good things must pass," Wyman said in the interview. "It's just one of those things. It's a pity we didn't go out with a big bang instead of just a whimper." Wyman blames Jagger for the situation. "He decided to do his own thing and be famous in his own right. I think everybody likes to have success on their own, but I think there are other ways of doing it." He says another Stones tour would depend on "Mick and Keith (Richards) becoming friendly again. That's the problem." The Stones played a few months ago at a club in London, putting on an impromptu concert for about 300 people. "Perhaps that little gig could have been our last. If it was, it was quite a nice one," Wyman says. A Stones spokesman in London would not comment on the interview, but noted that Jagger had told a London newspaper earlier this month that there's no reason why the Stones wouldn't work together again. The "Daily Mirror," on March 3rd, quoted Jagger as saying he has "really kind of lost patience with" the Stones, "and I am tired of trying to glue everyone together." Jagger said the members of the band have "transcended" the Stones and Richards is "the last of the five of us to admit that."

U2 are planning a video for "Red Hill Mining Town," which will be directed by Neil Jordan, who directed the films "Company Of Wolves" and "Mona Lisa."

FRANKIE GOES TO HOLLYWOOD haven't split up for good, but band members are taking some time off, according to the band's manager, Tony Pope. "To be honest they've got to the stage where they can't stand the sight of each other anymore and a nine-month break would be beneficial. It happened to Queen and Duran Duran and after five years living in each other's pockets it happened to Frankie," Pope says. "They've got different musical directions. Holly (Johnson) will record solo, Paul (Rutherford) wants to make a record and the rest (of the band members) have got ideas. When they get those out of their systems they may feel differently. When they learn how to appreciate each other again I think this will blow over." Johnson says he's going to work on a solo album "because I've been promising myself for two years that I would do it." Rutherford is releasing a single called "Love Affair With A Camera." There is an appropriate working title for the third Frankie album, "Family Tension." "At the

moment they're all saying things they could regret," Pope says of the band members. "Everything being said now is very emotional. It's better that they take a break from each other before they kill each other."

Europe won't be playing any live concerts in Sweden anytime soon. It seems that **JOEY TEMPEST** is technically AWOL from the Swedish Army and he risks being arrested if he returns to the country.

When Journey finished touring recently, **STEVE PERRY** gave his tour manager and accountant two-week, all-expenses-paid vacations in the Fiji Islands.

BUDDY HOLLY's widow is lobbying for a bill in the Texas state legislature that would give survivors of famous people control over the use of their names. **Marla Elena Holly Diaz**, of Irving, Texas, says that a bank, a car dealer and a pizza parlor are among the businesses that are profiting from using Holly's name, 28 years after his death. "Buddy became a very well-known person, I would say even a legend," she says. "Because of poor management when he was alive, his finances were not really in good shape," she told a legislative committee.

MITCH RYDER says his last attempt at a comeback album, in 1983, was the victim of a corporate interference that he says has been a problem throughout his career. The album, "Never Kick A Sleeping Dog," was produced by John Cougar Mellencamp. "John did have my interest at heart up to a certain point, and he will always remain in a favorable light with me," Ryder says. "What did happen was that...it ended up that John was using me, even though it was a noble cause...it was a slippery deal, and John was involved with it. We were like sparks, and the whole deal came together quite weird. There was a big fight over control of the budget right from the start."

U2's new album, "The Joshua Tree," debuted at #1 on the British album charts. In fact, demand for the record was so strong that one in every four albums sold in Britain last week was a copy of the U2 disc. The album was released on Sunday, March 9, in England, but record stores in Britain aren't allowed to do business on Sundays. One London record store got around that law by opening its doors at one minute past midnight Monday morning. Even at that time of night, the album was selling at the rate of 1,000 copies an hour. In Belfast, fans got a surprise when the band's four members showed up in person to sign albums and chat with fans. **Elvis Costello** and his companion, **Cait O'Riordan**, were among those who showed up during the wee hours in London to buy "The Joshua Tree." In fact, Costello bought a record, cassette and compact disc of U2's newest offering.

There's a rumor that **BRUCE SPRINGSTEEN** plans to run for Governor of New Jersey. The talk is that he would do a farewell tour sometime next year before taking the office, if elected.

Former North Carolina band **THE RIGHT PROFILE** expect to have their debut album for Arista Records out in a few months. It seems likely the LP will be produced by **Jim Dickinson**, who has worked with **Ry Cooder**, **Big Star** and the **Replacements**. "He knows...where we're coming from and seems to have a real similar attitude to us," says **Stephen Dubner**, the band's keyboardist. "He likes to do records

continued

almost totally live, and he's open to ideas. If everything works out, we'll probably start recording within a month or so and hope that it will be ready by the summer."

BERNIE WORRELL says he's not bothered by his dismissal from the Pretenders after the first leg of their North American tour. "I'm still gettin' paid," he notes. "Miss Hynde...she's got a great talent. She's just a little strange. She's just mixed up right now....In essence she just said that we were too good, that she wanted a more English sounding band." Worrell, who is now touring with the Golden Palominos, is working on a solo album. "I've just finished a cover of 'Telstar' that will be out at the end of April," Worrell says. "I did that with just synthesizers and machines. It's a disco-type of thing."

BILLY IDOL has filmed a video for "Sweet Sixteen" at Coral Castle, a tourist attraction near Miami. Idol says he wrote "Sweet Sixteen" after seeing a television documentary on the sad story behind Coral Castle. The structure was built by Edward Leedskalnin after a 16-year-old girl he had planned to marry spurned him. He died in 1951 and the strange building became a tourist attraction. There are some unusual engineering aspects to the building. The doors of the castle are so well balanced that they can be pushed open with one finger, even though they weigh over a ton. "It's great to see it," Idol said. Chris Bergmann, a model and a 10th-grade student at Palmetto High School in Miami plays Idol's love interest in the video. "When he drove up, I'm like dying," she said.

A new **JIMI HENDRIX** album being released in April only on CD includes his version of Cream's "Sunshine Of Your Love." It's the first time that Hendrix' cover of the tune appears on something other than a bootleg. The 71-minute disc, taken from a series of shows at San Francisco's Winterland in 1968, also includes versions of "Purple Haze" and "Foxy Lady." "Live At Winterland" will be only the third Hendrix album to be released in the United States on CD, though virtually all of Hendrix' albums are available on CDs in Europe.

ELVIS COSTELLO will be given an award for "excellence in contemporary music" by the Student Production Association of Harvard University when he plays at the school on May 1. "We've been working on this concept for a number of years and we've been waiting to announce it with a performer at Harvard," says SPA member James Chung. Costello is scheduled to appear in a one-night show at Bright Hockey Center, along with a \$6,000 light show. Nick Lowe will open the show as a solo act. It will be the first major concert at Harvard since REM played at Bright three years ago.

Veteran producer Toni Visconti has remixed a number of **T. REX** classics, on the tenth anniversary of Marc Bolan's death. Visconti has been working on the project with John Bramley, who owns the group's recording rights. The remixed version of the 1972 track, "Children Of The Revolution," was the first to be released. "When I was offered this opportunity, I jumped at it," Visconti says. "Better me than someone like Paul Hardcastle. All I'm doing is updating the T. Rex sound, just making it cleaner and adding more sparkle. I'm not adding things that weren't there, I'm taking what is there and

reinforcing it." Some fans aren't too pleased with the move, saying that "the songs must be enjoyed as their composer intended and as he performed them." Visconti was the band's only producer until 1974, and he's produced 10 albums by David Bowie.

PHIL "ANIMAL" TAYLOR has rejoined Motorhead after leaving the band three years ago. "The Animal is back and it feels like I've never been away," Taylor says. "If you thought that Motorhead was out of control in the past, then you ain't seen nothing yet." Taylor says he needed the break "to recover from eight years of mayhem." **PETE GILL** has left the band "by mutual agreement." "I left for business reasons, not musical or personal," Gill says. "There has been no great rift." Motorhead plan a tour of America in April and hope to begin work in mid-May on a new album.

KISSING THE PINK, while having shortened their name to **KTP**, haven't reduced their strangeness. "Oh yes, we're weirder than ever," says lead singer Nick Whitecross. "I think it's the result of being around for so long. You become totally addled. I don't know anyone in this business who's sane."

THE BLUEBELLS have broken up. Kenneth and David of the band are pursuing their own projects.

"In a way I'm pleased we didn't have instant success," says **LEVEL 42's** Phil Gould. "Running In The Family" is the band's ninth album in six years, and the group's title track has done quite well in the British singles charts. "How do you follow that sort of thing up? Look what happened to Freeez. We'd rather work our way up the hard way because the experience is invaluable."

Former Eagles member **BERNIE LEADON** is performing with the **NITTY GRITTY DIRT BAND** on their current tour.

Half of the top 10 singles in the British charts in a recent week were songs that were written at least 15 years ago. While **BEN E. KING's** "Stand By Me" held the number one spot, **PERCY SLEDGE's** "When A Man Loves A Woman" was number two. **JACKIE WILSON's** "I Get The Sweetest Feeling" also made the top ten, as did **BOY GEORGE's** version of Bread's "Everything I Own," and **FREDDIE MERCURY's** "The Great Pretender," a 1955 song that was a hit for the **PLATTERS**.

EDDIE & THE TIDE have recorded a cover version of "Weak In The Presence Of Beauty," a song originally recorded by Floy Joy and now a hit in Britain for Alison Moyet.

BOY GEORGE concedes that his troubles of the past year have taken their toll. But he says the success of "Everything I Own" in the British charts shows that all that was written about him helped people sympathize. "There are loads of jokes about me," George says. "I mean, at Christmas time, people were saying, 'What is George having for Christmas dinner? Cold turkey.' Or, 'Why is George's Christmas tree the one without any needles?'" George says he suspects that the public got tired of hearing about his woes. "I think people get bored of seeing you looking haggard and ill, and reading bad things about you, and a lot of my career has been based on making people happy. And you get to the stage when you forget you can make yourself happy

continued

as well," he says. "When the press are really treading on you, you actually get a kind of a backlash. Like with George Michael, I used to really detest him. But when they started being rude about him in the papers, I found myself jumping to his defense, saying, 'Hang on, he's really clever,' whereas I wouldn't have thought that before. You need other people to say 'that person is an asshole' before you realize that maybe there's something good about them."

JULIAN COPE says he thinks his new album is "like pre-heavy metal in a way. I kind of wanted to make a rock album. It's very male and a lot of the songs are about having sex under duress."

THE MEAT PUPPETS will begin a tour April 22 in Texas to promote their new album, "Mirage." It's the band's sixth recording on the label and is SST's first simultaneous album/cassette/CD release.

One of the first two releases from IRS Records' new sister label, Primitive Man Recording Company will be an all-digital record of original material of Adrian Belew's band, **THE BEARS**. "The Bears" features cover art from Mort Drucker, known for his work with "Mad" magazine.

CARLY SIMON has written the "theme song" to a non-musical play called "Sleight Of Hand," which will open in New York next month.

BRUCE COCKBURN plans to release a 33-song compilation on two compact discs. The package will include over two hours of music when it is released in April.

HENRY PRIESTMAN of The Christians contributes keyboards on the new Echo & The Bunnymen album.

A third group has risen from the ashes of The English Beat, in addition to General Public and the Fine Young Cannibals. Keyboardist Dave Wright of the band started a group called **TWO NATIONS** with vocalist Allan Watson.

PRINCE's next album, "Sign Of The Times," will be a double LP. The record will include 13 tracks, including the single of the title track. Songs include "Starfish And Coffee," written by Prince and Suzanne Melvoin, and "It's Gonna Be A Beautiful Night," written with Dr. Fink and Eric Leeds, both formerly of The Revolution. Sheena Easton contributes vocals on "U Got The Look."

Duran Duran's **ANDY TAYLOR** is working on an album with **ROD STEWART**.

ROD STEWART's "Sailing" is being re-released as a single in Britain, with proceeds going to a disaster fund for victims of the Channel ferry accident.

MICK JONES is currently writing songs for the next Foreigner album, which should be out later this year.

Harvey Brooks, bass player for the Electric Flag, has formed a new band called the **FLAG**, featuring Mike Finnegan and Kal David.

Thomas Dolby is recruiting musicians for a series of club appearances in the Los Angeles area this spring.

FOR MORE INFORMATION

Here's the latest music news "Live From London" courtesy of CFNY, Toronto and our exclusive reporter LEE CARTER. Lee can be heard on CFNY's "Sunday Music Magazine" program and on "Live From London" aired Wednesday evenings.

"The Joshua Tree" is proving to be U2's magnum opus, as they break chart and sales history records. At the time of writing, the Lp was selling a quarter of a million copies every day. Tower Records locations in London, Glasgow and Belfast opened at midnight last week to sell the first available copies to fans who had lined up for hours. Two of the people who lined up with everyone else at Tower's London store were Elvis Costello and companion, ex-Pogues Cait O'Riordan. (Elvis bought a record, a tape and a Compact Disc!) U2 are now performing eight shows in Great Britain, having announced six more shows to the two announced at Wembley Stadium. Supporting them on some of their shows will be World Party. The next single off "The Joshua Tree" in the U.K. will be "Red Hill Mining Town" and the group are this week making the video for that here in London with Neal Jordan, the man who brought us the movies "Company Of Wolves" and "Mona Lisa". By the way, the day that the dramatic Lp chart was issued and thus the official day that U2 went to number one was 17th March - St. Patrick's Day!

As part of International Aids Week (the first week of next month) Jimi Soverville is re-forming BRONSKI BEAT for a concert at the south London club The Brixton Academy. BB will play with New Order and Sandie Shaw. Somerville told "Melody Maker" this week: "Bronski Beat was originally formed with regard to political issues, under the gay banner. International Aids Week is another political issue for us and, particularly being gay, it's really important to get involved. It was my idea to re-form Bronski Beat and the others were really keen. It dispenses all these rumours about us hating one another." Asked if this reunion might lead to others, Somerville said, "I don't think so. It depends how successful this one is. We'll have to wait and see how it goes."

An all-star version of "Let It Be" was recorded at the weekend featuring Boy George, Frankie Goes To Hollywood, Curiosity Killed The Cat, Mark Knopfler, Bananarama, Jaki Graham, Sarah Jane Morris, Nick Kamen, Nik Kershaw and Mark King. It has been recorded to raise money for the victims of the cross channel ferry disaster near Zeebrugge. Although Paul McCartney was not involved in the new recording of "Let It Be", he gave permission for the master tape of his voice in the original Beatles session to be used (after clearing it first with Michael Jackson, who these days owns the rights to Beatles material). With the understandable depth of feeling here over the disaster, the industry magazine "Music Week" confidently predicts it will go to number one and has advised British retailers to stock loads of it.

ZTT Records have at last come totally clean about the split of Frankie, in one of the most bluntly stated press releases I've ever seen. They do insist that Frankie will resume operation however. The statement reads: "FRANKIE GOES TO HOLLYWOOD have had enough of each other. They can't stand the sight of each other. Members of the group will each spend nine months preparing individual projects, from drummer Ped's duet with

Frank Bruno (British boxer) through to Paul Rutherford's single 'Love Affair With A Camera'. They will then regroup to record their third album 'Family Tension'."

THE COLOURFIELD are about to release their second Lp for Chrysalis called "Deception". It was recorded in London, New York and Paris and features guest appearances from Tears For Fears and the backing singers for Talking Heads. As well as the current single "Running Away", an old Sly Stone song, The Colourfield have a go at The Monkees' "She". The outfit is led by Terry Hall, who was previously in The Fun Boy Three and The Specials.

"The Cure In Orange" is the title of a brand new film of THE CURE in concert in the south of France last summer. It was shot by their long-time celluloid collaborator, Tim Pope, and it will open in London next week. Early reviews indicate that it is pretty splendid.

Princess Diana met one of her greatest admirers when BOY GEORGE introduced her to his mother at a glittering charity gala hosted by the London nightclub owner Peter Stringfellow. The private meeting at The Hippodrome Club came after the Princess (dressed in a red bow tie, dinner jacket and trousers) said she wished to meet Boy George, who was sitting among the crowd at the London nightspot. George is one of those contributing to the Ferry Aid record, which was given the royal seal of approval when the Princess promised to buy it. The Princess also made it a night to remember for The Hippodrome's owner. For months Stringfellow had been busy making arrangements for the royal visit, which raised \$16,000 for charity. George said later, "She told me she liked my safety pins and said I had enough to open a shop." He also revealed that he broke down and wept when he discovered that "Everything I Own" had gone to number one. "I've proven a lot to myself and others," he said.

It's whispered that all is not happy in The SIGUE SIGUE SPUTNIK camp. The band have just mysteriously scrapped the release of their next planned single, a cover of Bowie's "Rebel Rebel". It's also rumoured that the guitarist Neal X has stormed off to join the band Black Elvis 2000, the outfit who supported the Sputnicks on their very first tour. Meanwhile, the punky outfit Pop Will Eat Itself are about to release a tongue in cheek version of "Love Missile F-1-11".

"The libel action of the century" is the perhaps rather exaggerated tag being put on ELTON JOHN's courtroom showdown with "The Sun" newspaper, with estimates of \$100 million bill for damages being hung on Rupert Murdoch's daily gutterpress tabloid - if "The Sun" loses. "The Sun's" response has been predictable - a team of newshounds were immediately dispatched to Los Angeles, John's second home, to dig up any new dirt they could find but came back empty handed, according to this week's "Time Out" magazine. Sources close to John say he is adamant that he is going to see this through because he believes that "The Sun" and newspapers like it have been getting away with smearing people for too long. "Time Out" was told, "He hopes he might be able to do something to improve journalistic standards in this country and when the legal action is over he is going to the press council to make sure that this sort of thing never happens again." It was

on 25th February, while Elton was flat on his back in a Sydney hospital, that "The Sun" front-paged a story claiming Elton had been to sex and cocaine parties with rent boys. Already John, who is beloved in this country as the manager of Watford soccer club, a friend of The Royal Family and one of the few top artists who chooses to remain here and pay high taxes, has had a lucrative contract with Cadbury for TV chocolate ads suspended. Speaking in "The Mirror" newspaper, Elton said that "fifty million pounds would not be enough to compensate me for the harm they have done. I am prepared to go into the witness box and bare my soul about my true lovelife." But one of the nation's top press officers who asked to be nameless told "The Hard Report", "It's all nonsense. He's just putting the frighteners on "The Sun" so that they will settle out of court. It's all part of the game. This case will never go to court."

Life is not all roses at "The New Musical Express", which during punk was probably the most influential music paper in the world, but latterly has disappeared into the world of the obscure and unintelligible, with their readership figures slacking accordingly. Their much praised photographer, Bledyn Butcher, has been fired; two journalists, as yet unnamed, have walked out; the publisher, David Curtess, has resigned; and the editor, Ian Pye, is hotly rumoured to be leaving to become the Music Director at the

MUSIC NEWS

London station, Capital Radio. It's whispered that freelancers are leaving in droves because of the publication's failure to pay them which, if true, leaves the NME in a pretty sorry state.

NEW RELEASES

Singles: "GET THAT LOVE" by The Thompson Twins. "JUST A CITY" by Voice Of The Beehive (Food - Rough Trade). Featuring the rhythm section of Woody and Bedders from Madness, this is a wonderful soft, almost country and western song, with just the right amount of humour, pulled back enough to make it a terrific song. Best out of the Indie pile this week. "GEBURT EINER NATION" by Laibach (Mute). A thrashing punk German version of Queen's "One World". The funniest record I've heard all year and should go down well on alternative radio. Somebody should really send these boys to their probation officer.

Albums: "RUNNING IN THE FAMILY" Level 42. Reinvents the word slick. Those who have followed 42 through their nine Lps may find this disappointing. For their new found fans, particularly in the U.S. It's all the ingredients they have been baying for. Impeccable production and arrangement - the units for this are going to go through the roof. Out of the box?

Most plays on BBC Radio One: "EVERYTHING I OWN" by Boy George (22); "WITH OR WITHOUT YOU" - U2 (23); "SIGN OF THE TIMES" by Prince (23).

RADIO COMMENTS

Carter Alan, WBCN, Boston

The CD revolution is spinning off an exciting series of promotional concepts. The sampler collections from Island, Virgin, CBS, and MCA have been useful in stocking our library until the actual CD of each artist comes in. A great portion of WBCN's selection on air is from CD, and our library boasts over 400 titles now. The CD single is also an interesting concept which we have found useful in our current file. Recently, Rykodisc in Salem, Mass., released a compact disc of The Jimi Hendrix Experience "Live At Winterland". This CD-only release was premiered on WBCN's "Back To The Future" program, and a promotional tie-in with Rykodisc allowed winners to collect their own copy of the collection of new live tunes. Rykodisc has also released a lion's share of Zappa And Mothers records and can be contacted at 617-744-7678. Ask for Don Rose.... Pick this week has got to be Rock And Hyde. The CD single sounds fantastic.

Harvey Kojan, KLOL, Houston

Thanks so much to BeBop, Ken Benson, and everyone from EMI for the great time in Dallas. It was a pleasure meeting people like Ronnie Raphael, Bonnie Stacy, Jeff Carroll and the infamous Redbeard. Speaking of EMI, they've got a winner with the new Bowie, which went right into heavy.... We also added a couple of other things that we've been trying to fit in for quite a while -- The Damned and Concrete Blonde, the latter being one of the strongest albums in recent memory. I'm glad we're finally getting behind this very talented band.... Robert Cray continues selling top 10, actually moving up the chart again this week which is more than enough reason to add two more cuts.... Top 5 phones: U2 "Bullet", Dokken, Crowded House, Little America and Whitesnake, with Bon Jovi, Jon Butcher (which moved to heavy) getting calls, and I expect massive phones on The Cult, which is the best song ever.... The Georgia Satellites continues to sell phenomenally well.... New CD's: Bryan Adams, the U2, Los Lobos.... Need copies of Cinderella, Lou Gramm, Robert Cray, and Patty Smyth.

Steve McNee, WZXL, Atlantic City

100.7 welcomes Red Decker to the morning show. Red brings his bag of tricks from R104 (now WWRX) in Providence.

Harve Alan, WCCC, Hartford

It's great to know that when Hartford's rock listeners want to hear their favorite new songs during the work hours, they can only turn to WCCC. I'm very happy to play my power and heavy currents more than once during the 9-5.... We have a great sales story to report for LOS LOBOS. Based on rock radio airplay, we've taken this album top 10.... Listen to the fourth--I mean third--track from the Smithereens. "Time End Time Again" should be bigger than their previous successes.... From the "New Bands Who Deserve Hits" pile, check out the Ward Brothers "Why Do You Run", plus Farrenheit's "Fool In Love".... Other adds: Bowie, Thompson Twins, Simply Red, Europe and Whitesnake's "Gimme".... Top 5 phones: U2, Crew, Furs, Cray, Deep Purple.... Up Moves: Cray (very strong phones and sales), Peter Wolf, and Clapton's "Run" goes to heavy--my favorite track on the album.... Considering: Rock And Hyde for next week, and I'm also looking at XTC.

Joe Blood, KEZO, Omaha

The Bowie is rock and it's great. To me it's like "Station To Station" meets "Let's Dance" and I like that combination a lot. Can't wait for the entire album.... In a similar vein is the Rock And Hyde. A great song that is definitely enhanced by the superior production, that sounds unlike anything else Bruce Fairbairn has done recently.... We're also in with second Tesla and REO tracks. Tesla was just here two weeks ago with Alice Cooper. Got a great audience reaction to the show. The album is just short of breaking into the top 20 retail, and I think "Variety" is the best rocker on the album, with more of that older REO sound to it.... New CD's: Thanks to WB for the LOS Lobos, nice to see National CD service starting from WB. It was excellent so see simultaneous CD service on the Fleetwood Mac, same day as 12" and 7". First time I've ever seen same day service there. Thanks also to Island for the U2 CD, which makes a definite audio difference.... Considering: The new Smithereens cut "Time And Time Again". We've had great success with "Blood And Roses" and "Behind The Wall", not only in terms of airplay but top 10 sales for four consecutive weeks as well back in the late fall and early winter. And this is another uptempo track that should do real well for us.... Also looking at the Hoodoo Gurus. That should work, too.

GOOD TIMES

"The Hoodoo Gurus have come up with just the right tune for Springtime--bright and positive sounding!"

RADIO COMMENTS

Beth Kepple, WKLS, Atlanta

It's a sacrilege not to play XTC's "Dear God". Songs that make you think as well as feel, that are as heavy as this, are a rare musical treat. This one has it all, in fact, the same impact as Bruce Cockburn's "Rocket Launcher". Talk about a trip through the emotional ringer!! Whether you agree with the final statement or not, this record is great mental floss.... I wish every one of the Washington Wives would listen to the U2 album and read the lyrics at the same time. It doesn't take a rocket scientist to comprehend the christian references and BONO and company have always been up front about their religious convictions. The album is tops in requests, sales and airplay. Yet how many of the people buying and loving this album embrace the same christian beliefs? I'm sure the majority don't, yet they buy it anyway. So don't try to tell us that our beliefs and value systems are totally subject to the message of the rock and roll we listen to. Now I'll get down off my soap box and get simple.... I'm in love with "Big Love" in a big way. God, isn't it great to hear Lindsey Buckingham all over a Fleetwood Mac song-- and not Stevie bitch!!.... What a pleasure to be paid a visit by Nikki Squire last week. The lady is as lovely as her voice, has Impeccable taste in clothes and even drank our office coffee with a smile. Unless your audience hates Yes, play this record.

Pam Brooks, WPDH Poughkeepsie

Whoa!! Didn't think I'd come home. But how much fun, sun and buns can one woman take? Actually, a lot, but the bosses said I'd have a job waiting for me if I got my butt back quickly. So.... Gregg Allman came to town the other night and kicked ass. What a show!! He was in rare form and the sellout crowd proved that his new material as well as the classic Allman Brothers stuff is much in demand. Thanks, Gregg, for a truly exciting night.... Also on the bill was Island's Peter Himmelman. I was totally in awe. What a refreshing group. By the way, the house was packed by the time Peter hit the stage and the response was very hot for a group that's musically at the other end of Gregg's sound. The crowd was with him all the way. I loved it and I'm gonna fight to get him on the PDH airwaves.... We're right on track with "Railroad Steel" from the still hot Georgia Satellites, proof that there is life after an incredible debut like "Hands". "Railroad" is our third dip into this Lp, and the momentum hasn't let up. Hey, you know what they say. You can't keep good men down and these guys have a sound that just adds a special oomph every time we spin them.... My ears are hot on Wire Train's "10 Women", but I'd love to make it 11.... Also, I'm hoping to be dancing "Along The Edge" with Concrete Blonde, a great follow-up to "True" which has become one of my all-time favorite songs.... We're also looking to give the knob nod to the effervescent Del Fuegos, who never cease to put a smile on my face as well as their songs in my heart. So, hopefully, it won't be too long for us to get on the slide.

Kim Alexander, WHCN, Hartford

It's Spring!! I don't want to work. I want to blast tunes in my car all day.... David Bowie's "Day In And Day Out" is as good as expected, and the press conference was such a good idea. It made the debut an event, not just "New rock from David Bowle on W-blah Blah Blah.".... Robin Trower's "Passion" has done so well for us we're going a cut deeper on "Caroline". Nice tune. Doesn't it remind you of good old Starship?.... Whitesnake is working so well, as is XTC. Other adds: Cray's "Guess", Clapton's "Run", Idol's "16", Europe's "Rock", Thompson Twins, Rock And Hyde, and Peter Wolf and Bryan Adams.... Considering: Gowan. Check this one out. It'll make every woman swoon. And we're looking at Mondo Rock.... New CD's: Los Lobos, U2, Peter Gabriel's "Don't Give Up" single CD.... Phones: U2, Whitesnake, Dokken, XTC, and the Cutting Crew. Cray is still hot, as are Bryan Adams and Tesla.... Moves: We were very early on Frozen Ghost and now I hear it all over. That's up to heavy, along with Dokken (massive teen calls), and Whitesnake is into heavy based on calls and sales. Since we have no Led Zeppelin, the Whitesnake will have to do.

Mike Ramsey, KLAQ, El Paso

KLAQ and the United Blood Services are drawing blood from our listeners today with Alice Cooper's help. The concert is tonight and we want to thank MCA for arranging for Alice to help us with our blood drive.... Also, I want to tell everybody to play that Saints tune. If you're not playing them, you should be.... #1 requested: The Cutting Crew with a song that touches everyone. If you've ever been in or out of love you'll relate to this song. And, musically, it's very current.... Fleetwood Mac is #2--because it's Fleetwood Mac.... I'm surprised that Bryan Adams moves into #5 so quick, but he does have the track record. He also moves to heavy, along with Deep Purple....

Brew Michaels, KEZE, Spokane

Cinderella is a band that has taken the best parts of their influences and combined them in a fresh, unique mainstream hard rock style. "Somebody Saved Me" has vocals reminiscent of Steve Tyler and Bon Scott and guitars that bite with the raw fury of Judas and the boys. What sets it apart are the lyrics. Anyone who writes "The shit you ate for breakfast will only give you cancer" is all right by us. If Bruce wrote pure rock, it would sound like this. Our only problem is getting PD Gary Allen to quit playing it at 7:15 in the morning.... The Whitesnake album has something for every shade of the AOR approach. "Is This Love" is the mainstream smash. Coverdales vocals are every bit as riveting on "Love Ain't No Stranger" and the reduced edge in production will make it a crossover in two, if not three, formats.

Erin Riley, WMMR, Philadelphia

I'd like to take this opportunity to thank George Silva and all the folks at EMI for making it possible for us to go to the Bowie press conference in New York City. Bowie was every inch a superstar last Wednesday. He seemed to have a renewed inspiration for rock and roll and reeked of self-assuredness. I've never seen a press conference held in quite that way. First he and the band kicked in with a new single, and then right from the center of the stage he looked out over the audience and said, "Well, what does everyone want to know?" Bowie fielded questions with such finesse and showed us quite a sense of humor. Looks to be his year in '87.... **Los Lobos** heated up, literally, the Chestnut Cabaret on both Saturday and Sunday nights. It really felt like summer in there. I wanted to break out the Barbeque!... Didn't have the opportunity to comment on the Thompson Twins record last week, but I'd like to make up for it now. Ok, so it's perfect and perfect for WMMR. In fact, it's John DeBella's favorite new song! It's true to the Thompson Twins sound, but even more to rock and roll. Funny how they started out with six, went to three, and finally we can really call them "Twins".... It looks like Little Steven's Manhattan debut will go everywhere. The guitar playing is extraordinary.

Christina, WPLR, New Haven

Sunshine means only one thing, spring skiing!! Send cassettes. We're doing our adds from the roof. **Psychedelic Furs**, **Jon Butcher** and **The Damned** are building nicely. Can't get enough of "The Joshua Tree"... Come to think of it, I don't think anyone has ever gotten burned out from too much U2.... XTC has top 10 sales in Connecticut and it can't just be the Yalles! Expect excellent phones.

Bob Welch, WQBK, Albany

I found "11" on my car stereo today when The Cult's "Love Removal Machine" came on the radio. These guys have been listening to lots of Zeppelin and Stones records.... Just as effective on a different scale, though, is XTC's "Dear God". We've had nothing but positive calls on this song. Every once in a while something comes out that'll stand out head and shoulders above anything else on the air and command attention. "Dear God" is one of those.

Keith Taylor, WQMF, Louisville

Spring is the time when puppies are born and, gee whiz, the derby's right around the corner — you can feel the excitement in the air already beginning.... This week we're jumping on the bandwagon with the new Bowie.... And if you enjoyed success with "Black Cars", check out "Wild Horses" by Gino Vannelli. The new U2 sounds excellent on the air. It must be the best they've done to date, texture, the groove, what more can you ask for?

Bob Walton, WRDU, Raleigh

WE BE WHAT WE BE! The Other Ones is a hit! Sneaks into your ears and grabs you.... The Smyth LP — I can't believe how good it is. We're talking substance here — not just a babysitter for the brain.

Karen Andersen Small WGIR Manchester

I really liked the Payola\$ album, I'm happy to see Rock & Hyde keep the music coming with "Dirty Water". This is one of my favorites so far this year. (I know it's only March but..)

Greg Mull, WRXK, Ft. Myers

Spring is in the air and a young man's fancy turns to "Primitive Love Rites". White boys need help with the rhythm and this song makes it impossible to lose the beat. Just drop it in the CD (yes, it is on the Columbia sampler CD), crank it up and stand back, dude, 'cause you will move to the beat. Then just when you think you've got your blood pressure under control, the harp and guitar solos kick in and you know you've just begun. Instant life will be added to a shopworn playlist.... And that's not all. There's plenty of credible new tunes this week, including the Other Ones "We Are What We Are". And what they are is a bigger record for Virgin than the Cutting Crew. I believe the Virgin is loosening up.... If you're looking for another Gregg Allman track (in Florida you can't leave home without one), then check out "Can't Keep Running".... The World Party album is also too hot to put down. "All Come True" has been my personal favorite since the first listen. It will be the next emphasis track and is probably the most accessible yet.... Another unforgotten or oft ignored album is Robin Trower. Don't ignore it.... "Caroline" is a priority track for AOR. The record is still selling here from "No Time" and the audience is demanding more. With this great new material, CHR doesn't stand a chance in the spring book. Play this stuff and kick some ass.

Mark Williams, WWZU, Williamsport

The Other Ones "We Are What We Are" is probably one of my favorite current tracks. A very tasty song, very listenable...full of class that mixes well with everything we play.... The Cutting Crew has really pulled it off...#1 requests across the board. It's great to see a track that appeals to 35-year-old male factory workers and 17-year-old cheerleaders. Thanks to George Stone.

Don Berns, CFNY, Toronto

Greetings from Concertown. The Pretenders blew in to Toronto this past week and were blown off the stage by Iggy Pop who I'd never seen. But when Chrissie Hynde kissed the stage where Iggy stood, she did the right thing; too bad some of that raw power didn't rub off on the Pretenders who were proficient but nothing to write comments about.... I find that I get most excited about live music these days when I see new artists appearing in clubs, and one of the best of these new artists is Vancouver's **Colin James** who's on the verge of a major label U.S. signing as evidenced by the large numbers of record mavens in attendance Saturday night (I shouldn't say what company they're from, but it was great to see Micheal Plen again and to meet Jeff Naumann). At any rate, Colin James is an artist worth waiting for, America. His power rock and blues is reminiscent of George Thorogood, his guitar work is outstanding and his band is tightness of which fantasies are made. So, all in all, it was a good week for live music.... Not too shabby in the recorded end either with **Hunters And Collectors** "Living Daylight" Ep arriving long enough to audition before making its way into the studio. Boy, does everyone around here like this group with their powerful music and unique vocals that seeth with the raw passion and angst of youth and make for one great sounding record.... This week the CFNY music department picks the **Hoodoo Gurus** as single of the week. With the **Bangles** singing back up we'll have some "good times" playing this across the board winner.... Ivar sez "Dire Straits meets Roy Orbison" and blows my socks off with **Chris Isaak's** self-titled album. We're gonna force WEA Canada to release this one up here!

Craig Marks, Homestead, 516-764-6200

Thanks to all the stations who've taken the time to actually listen to what we've sent them; you don't have to tell me that there's a lot of "product" out there. So far **BIG DIPPER** and **SALEM 66** records have been warmly received and both bands continue to add fans every waking moment. The Dipper just returned home from a 2-van 2-week tour of the East coast.... Their cover of **Gordon Lightfoot's** "Sundown" left skinheads agape wherever they went. Salem 66 have finally manipulated to complete their foursome and they should be in your town and sleeping on your couch in June.... Coming soon: Three brand new tracks from England's **RED LORRY YELLOW LORRY** produced by Vic Maile (Screaming Blue Messiahs, Motorhead).... #1 At Home: **The Larry The Duck/Thompson Twins** Ep.

Mike Corcione Relativity 718-995-9200

Advance tapes of **Scruffy The Cat's** new Lp "Tiny Days" should be on your desk now. If you didn't get one, call me. We've already gotten commitments from WBCN and WXRK. This is one hot potato - **Los Lobos** and the **Georgia Satellites** rolled into one with Horseradish on top. Yummy. 12" shipping April 10th with the Lp following April 17th. Give this tape a listen and watch for a special surprise from Scruffy in your mailbox soon.

Larry The Duck, WLIR, Long Island

My thanks to Brad, Dave, Mark, and Clyde of the **Hoodoo Gurus** for a fun filled on-air interview. Also thanks to Brad Hunt, Steve Schnur and Mark for their help with the sold out Hoodoo's co-promote at the Ritz. If I've said it before, I'll say it again--this is the year of the GURU. (I never said that).... **U2** still commands #1 phones and #1 retail. If you thought the album had depth, wait 'til you hear the b-sides. Bring on the tour.... Comments of the month go to Lin Brehmer with his music Spring Training report.... Upcoming shows in town we look forward to include **Iggy Pop** at Bay Street in the Hamptons, **The Pretenders** at Radio City, **China Crisis** and **Squeeze** in May at the Ritz and seven nights of **B.A.D.** at the Irving Plaza.... My congratulations go to **Deb Brady**--the new music director at WXXP.... Screamer of the Week: **The Smiths** import "Half A Person".

Ellen McKinnon, WEQX, Albany

This is a good week to weed out junk and concentrate airplay on the good stuff we've added over the past few furious weeks. More airplay for **Chris Isaak**.... Also into hot goes the "Some Kind Of Wonderful" soundtrack.... We'll give **K.D. Lang** (the female commander Cody) more airplay in moderate.... Love the new **Hoodoo Gurus**, still lovin' the **Saints** and the "New Chicago Bluebloods". Great talking to Cleedra of Virgin. Can't wait for the May release that hot label has planned. Grammy winner **Anita Baker** is in town tomorrow.... This weekend it's **Los Lobos** and **Johnny Winter**--lots of live rock and roll in the Northeast!! Love and Rockets 'til next week.

Duane Sherman, WTOS, Skowhegan

David Bowie is a true artist. He always changes to suit his needs. Bravo for that. "Day In Day Out" starts heavy out of the box. His new leather/greaser image should do well for him.... **U2** continues a barrage of questions about 1) The new Lp itself; 2) The tour; 3) Bonus Tracks. I can't wait to see them on this tour. I hear the **Pogues** have a shot at opening.... Beautiful Spring has sprung and now its mud season--piss off.... **Green On Red** comes back with an interesting 12" "Clarksville". In fact I have an advance cassette of the Lp and it could very well be their best since "Gas, Food, And Lodging".... Get ready for Virgin's next release, "Age Of Chance", covering **Prince's** "Kiss". After one spin in the middle of the afternoon, people were going nuts trying to figure who and what that was. I hope you are as lucky with it.... Pick Of The Week: **Hoodoo Gurus** "Good Times" should bring good times for this band.

Kelly Cruise, WEGR, Memphis

We're four cuts deep into the new **U2**. Hopefully, it will satisfy the flood of calls.... **David Bowie**, **The Cult**, **Rock And Hyde**, **Glass Tiger**, and the **Other Ones** were our adds this week.... I listened to the **Crowded House** boys on Rocklines last night and was very surprised with the contrast in their music and their personalities. Those guys are nuts.... Special thanks to Polygram's Greg Stevens for taking care of biz at the great **Huey Lewis/Robert Cray** show in Memphis last week.... Also, thanks to **Dave Ross** of Chrysalis for the nice "Rendezvous". Good to see **Gene Dries** in town, too.... At long last, California here I come!! Can't wait to meet everybody in person.

RADIO COMMENTS

Jonathan Rosen, KEYX, Phoenix

Thanks to CBS, and especially Bob Conrad, for their hospitality at the B.A.D. show in Los Angeles on March 19th. The show was superb—and monstrously rhythmic!.... My favorite new record is from the Thrashing Doves on A&M. Upon first listen, I thought "Castroville Street" was one of the strongest pieces of music I've heard in a long time. For my radio audience "Beautiful Imbalance" is the one to go with. It's a HIT! "Tinderbox Man" has the perfect elements to be a hellacious dancefloor smash. "Bedrock Vice" is truly one of the strongest releases I've heard lately.... Green On Red's new album will be a very important record for 1987. The songwriting continues to be solid, clever and on a human level that's relatable. The addition of backup vocalists give this group a gospel/soul influence. We added "Clarksville" this week.... Wishing Mike Schafer the best.... Band Name Of The Week: The Legendary Stardust Cowboy. His song is called, "My Underwear Froze To The Clothes Line" on Spider Records out of San Jose.... And check out D.O.A. on Profile Records, "True (North) Strong And Free".

Doug Clifton, KBCO, Boulder

"Day In Day Out" from David Bowie is the kind of record that grows on you the more you hear it. The interest in Bowie is always there, and with the new studio Lp (we've had enough of the soundtrack songs for now), and an extensive summer tour, David is certainly an asset to any rock radio station.... The Hoodoo Gurus, with a little help from the Bangles, are sounding great. "Good Time" is this band's best shot at a hit record.... The remix of "V13" was good enough to get us to go back and add Big Audio Dynamite.... In Pursuit's "Thin Line" gets a green light this week.... I'm anxiously awaiting my Golden Kitty award from Dede 'Vanna' Whiteside.... Lots of other good new music this week: Records to keep an ear open for include Thrashing Doves, Vigil, Stage Dolls, The Damned, and for all you adult AOR stations, the Washington Squares.... Phones are blazing for U2 and, of course, the retail on "The Joshua Tree" has been incredible.

Stacy Yelton, WKQQ, Lexington

Del Fuegos slide onto the playlist as we anxiously await baseball season. Hey, am I the only one who thought of that?.... U2 owns phones and sales in this corner of the world and I can't think of anyone more deserving.... I fell in love with Rock And Hyde on the first listen and despite the Moody Blues comparisons I say this record is fresh, new, and just what I'd expect from Paul

Hyde.... Also added Little America.... Considering: The Other Ones, Mondo Rock—real neat rites of spring stuff, ready to get down to the Nitty Gritty with Reckless, too. We're still looking at the Stranglers and the Saints.... Top 5 phones include U2, Andy Taylor, Cutting Crew, Bon Jovi, Whitesnake, and Steve Miller still gets phones, with solid curiosity calls on the Frozen Ghost.... Psychedelic Furs is getting a lot of street talk, and I'm waiting for The Cult to bust open.... One last thought—get that Mason Ruffner on vinyl and ship it now!!!

Jeff Carroll, KLBJ, Austin

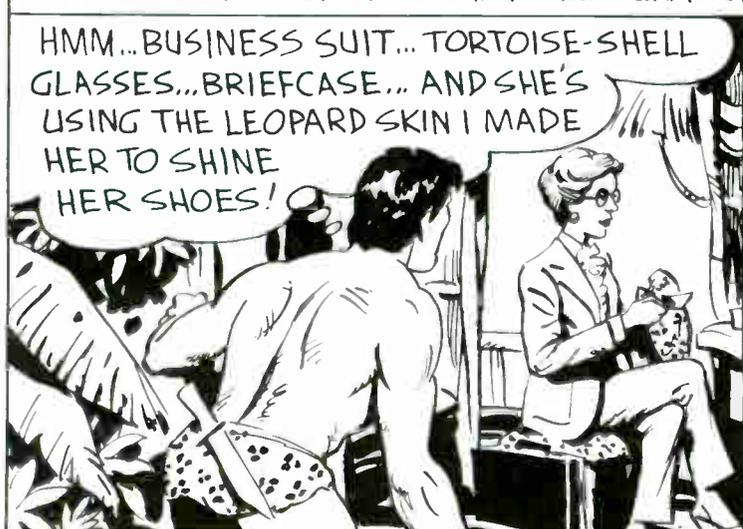

David Bowie? Instant recognition. Inquiring phones want to know—and it should be top 5 next week. An obvious chart climber.... Top 5 Phones on Lou Gramm's "Ready". Sounds like 80's rock.... Tesla's "Suzi" is new. They're versatile, Zeppelin of the 80's. Also new, U2's "Bullet" and Night Ranger's "Secret".... Moves -- to power: Bryan Adams, Cutting Crew, Fleetwood Mac and Patty Smyth; to heavy: Little America.... Live concert and early phones, Frozen Ghost. Lots of phones, staff loves it.... Georgia Satellites also goes to heavy, heavy party fun rock. And Bon Jovi's "Never".... Top 5 calls: U2, Lou Gramm, T-Birds' "Twist", Cutting Crew and David And David. Now having great success with our 4th track.... Calls on Led Zeppelin.

Rick Panneck, WAPL, Appleton

This has to be the best time of the year for New Music. Imagine new material from Bowie and U2 in the same month. Interesting situation with U2's "Joshua Tree" at retail. First week out the total unit sales in our market surpassed both Springsteen and Bon Jovi at their peaks. Bowie is obviously a smash and we're looking forward to seeing him on tour.... Tesla's "Little Suzi" and Cinderella's "Somebody Save Me" continue WAPL's tradition of playing a wide variety of music and the fact that both Lp's are selling like crazy doesn't hurt either. With the backlog of material we've had in the last couple of weeks, I've finally found room for The Cult this week.... Also new: Los Lobos "Rosa Lee" (seeing good retail on it), Billy Idol "Sweet", Georgia Satellites "Railroad" (they're coming to town and we played "Chains" for a long time).... Top 5 Calls: U2, Fleetwood Mac, Cutting Crew, Adams and Bowie, with some calls also for Tesla, and video crossover calls for Poison—with no other market play.... New CD's: Jon Butcher, Los Lobos, Crowded House.

THE LORD OF THE JUNGLE HAD NOTICED SOMETHING STRANGE ABOUT HIS WIFE'S BEHAVIOR!

HMM... BUSINESS SUIT... TORTOISE-SHELL GLASSES... BRIEFCASE... AND SHE'S USING THE LEOPARD SKIN I MADE HER TO SHINE HER SHOES!

BOY... IT LOOKS LIKE JANE'S GETTING SERIOUS!

TO BE CONTINUED...

Mark Kates, Bigtime, 213-460-4033

If you're coming to the Bowling Party (and I do hope you are) Bigtime has a lot planned for you. It's all surrounding the release of **Redd Kross's** "Neurotica" Lp. This monstrous occasion will be marked by two exciting nights at the Whisky A Go-Go, Thursday and Friday, April 2nd and 3rd. Programmers: consider this an invitation and please R.S.V.P. to me. This is one band you'll be hearing about for a long time, so don't miss this chance to see them at their album release shows.... Two other acts you should be playing are the **Stage Dolls** and the **Lucy Show**. Norway's Stage Dolls are attracting mainstream and alternative call letters simultaneously. Just check this week's adds and you'll see what I mean. "Commandos" is the song. Just ask Larry The Duck about it. Many of you (over 50 AORs) had success with the Lucy Show's "A Million Things" and now you have a brand new re-recording of "New Message". This version is VERY hot and will be released commercially in two weeks so throw it on!... See you at the Whisky!

Kevin Vargas, KWHL, Anchorage

I was very disappointed to find out the new **Autograph** album ends up on the shelves before in our hands.... The **U2** record is #1 retail out of the box, selling out all copies everywhere. The surprising thing is this is a first for Anchorage, Alaska. Though always a good seller, they've never been a great seller--until now!.... Next week, we'll be real curious to see how the **Whitesnake** album performed. "In The Still Of The Night" has created more street talk and requests than anything since **Van Halen!** This rock and roll city is eating the single up.... A record that I felt good about us supporting has now grown into the 'My God, this is a great song...' The more I hear the **Saints** record, the more I'm sure this is not just a case of a good record to play. A good record for airplay! There's something here--and after listening to the album a couple of times, there's more than just the one track.... Also more mesmerizing with every air play is **Rock & Hyde**. Thanks to Capitol for the disk. Also, thanks to MCA for the **Night Ranger** CD and Island for the **U2** CD. We love how so many of our currents are being played from disc.

Wayne Summers, WRCN, Long Island

Julian Cope delivers a rocker with a real catchy hook in "Trampoline"...a solid follow-up.... I said some months back that **Tesla** was kicking ass and taking names on "Cowboy", but now get ready to really smoke 'em with the next killer track "Little Suzi". This one separates balls from bullshit.... The pyromaniac of rock sets North America ablaze with "Into The Fire". **Bryan's** raspy, rowdy, rockin is a statement of his best effort to date. Great depth and variety provide a big plus for us programmers from a credible established cross over artist. Native son will be a monster.... Maybe **Peter Wolf** is a solo artist and has been for some time now, but the soul of the **J Geils Band** lives on in "Come As You Are". This record is a synonym for the word party!

Beaver Brown, KDJK, Modesto, Stockton

The **Rank And File** is a great little party record. It really jumps around a lot. We're the only station on it, and we've never played them before.... **Good Bowie** calls after only a few days. The tour announcements are definitely helping the audience anticipation.... Considering: **Mondo Rock**. The ultimate statement about today's singles scene and one we'll possibly add in the next week or two.... The **Hoodoo Gurus** happy approach should work well on the radio, and the background **Bangles** add a lot to the song, too.... Top 5 phones: **U2** (most calls by far), followed by **Poison**, the **Cutting Crew** (lots of females), **Fleetwood Mac** (soon to overtake Ravel's "Bolero" and "Love to Love You Baby" on the seduction scale), and local favorite **Chris Isaak** makes good with top 5 calls. They're surprisingly good for **Gregg Allman**. People are glad it's such a great album. And we're getting some calls for **Glass Tiger**.

Ty Banks, KWQB, Fargo

We're anxious to hear the rest of the **Bowie** album.... Two more **U2** cuts go in, rather than six off the bat. We feel that will prolong the album's excitement level.... Also new: **Poison**. Incredible teen calls, probably from the MTV exposure, and they are playing **Fargo** with **Ratt**. Also went with **Rock And Hyde's** "Dirty Water", something we've been looking at for a couple of weeks and just needed the room.... Moves: **Billy Idol** to heavy. "Sweet 16" was a slow builder, but it just won't burn out. **Whitesnake** goes to heavy with incredible phones. And we're glad to be hanging in with **Glass Tiger**--upped to heavy. This is an excellent song. **LOU Gramm's** "Ready" moves to power. This is an incredible Foreigner market.... Top 5 calls: **U2**, **Bon Jovi**, **The Cult** (the jocks like it so much it gets a big on-air sell and that's helping to generate excitement), **Bryan Adams**, **Georgia Satellites** "Railroad Steel", with calls picking up also on **Little America**.... Considering: **The Damned**, **Mondo Rock**, **Concrete Blonde's** "Dancing On The Edge" to follow up "True" and we're also thinking about using the **Thompson Twins** for a limited run.

Cathy Down, WLNZ, Lansing

Even though the sun is shining brighter than ever and the temps are rapidly rising, the record load isn't lightening up so we can get lazy and soak in some of those rays. From the superstars last week to exposing underground bands this week, looks as though the rays will have to wait. **XTC**, **Red 7** and the **Del Fuegos** have had major college airplay in the past. But, as far as major commercial airplay goes, now that's a whole different story. A segment that should definitely be re-written because all three of these bands sound as fresh and strong as the established pros. But not to leave the pros out of the chapter, **David Bowie's** latest "Day In Day Out" sounds real fine. But, after hearing a brief sneak peak at a few album tracks from the upcoming Bowie album, the single is mincemeat compared to the other tracks. A great comeback for the Bowie man, definitely in the **Ziggy Stardust** fashion. Counting down the days until the Bowie album is in my white pale hands.... If the records keep pouring out at the rate they are, looks as though I'll be obtaining a tan by soaking in the artificial pay rays this year with smash newcomers like the **Other Ones** beaming in my ears.

Inessa York, KGON, Portland

David Bowie—the man we love to love.... Jon Butcher got Instant phones so we've moved him up.... U2—man! Is still here.... Also, we're seeing tremendous interest in the Gregg Allman record, as well as Robin Trower.... We finally made room for the track I consider THE track from World Party, "All Come True". This is a slow and subtle bulder of song and when those keyboards hit at the end, it's pretty neat.

Jerry Lachelt, KGRQ, Casper

The Hoodoo Gurus have come up with just the right tune for Springtime—bright and positive sounding.... The phones are just starting for the Thompson Twins.... The Neville Bros. continue to do well here, with a soulful sound and a roundabout chorus that really grabs me. "Whatever It Takes" has a true '60s flavor and is one of the great upbeat songs out there right now—plus it sounds excellent on the air.... John Parr's "Don't Worry" is a real sleeper. The more we play it, the more response we get. Really doing great.... Another sleeper is Patty Smyth's "Downtown Train". That tune is definitely the best on the album.

Alan White, KILO, Colorado Springs

KILO celebrates its ninth birthday all this month.... Recently we had both Tesla and Little America in the KILO studios. Thanks to Bob Margolls of Geffen/Denver for his help. Both bands have tremendous amounts of talent and we're very pleased to be supporting them at the beginning of their long careers.... Congratulations to our GM Lou Mellini who has just been promoted to VP of radio for our parent company Bahakel Communications based in Charlotte, NC. Lou will continue to run things from our station here in the Springs.... Hot phones for Poison.... In the projection bin: The Other Ones, Julian Cope, Wire Train, Red 7, The Saints and Mondo Rock.

Andy Preston, KPOI, Honolulu

The KPOI air staff and management would like to thank ZZ Top, Run DMC and Stevie Ray Vaughan and their management for their assistance in the recent Aloha Stadium show.... 98 Rock broadcasted live from the stadium pressbox and was piped through the public address system. There's nothing quite like having 25,000 people right in front of you cheer when your call letters get mentioned. Hats off, also, to Promoter/PD Greg Mundy for his smashing success. Also smashed was the '67 Chevy Camaro that 98 Rock gave away during the show. The over exuberent winner leapt up on the roof of his new car, proceeded to jump up and down in front of the 25,000 fans, eventually landing on the hood and causing some \$500 worth of damage to the car. Honolulu needs more stadium shows like this one. Aloha.

Tom Cale, KZAP, Sacramento

To those of you in the record industry that think I fell off the end of the earth, I may as well have. I'm up to my ass in projects. I still love you, but please refer music calls to Bill Prescott TFN. I shall return to normal shortly. See you Thursday in LA!!

Jim Trapp, KZEL, Eugene

KZEL proclaims an absolute across the board smash from the 77's on Exit Records. "Where the f*** are you, World," says Bill St. James - and I couldn't agree more. If power pop wasn't a dirty word, it would live again with the 77's. This is great

American rock.... We have a major commitment to another great American band from the West Coast, Los Lobos, as we have added two more tracks this week: "One Time" and "My Baby's Gone". This band also demands major league support.... And in our notes to the record industry, it would be nice if the powers that be at Polygram would wake up to the potential smash they have in Magnum. With just a little push, the 12-incher "Lonely Night" could go the distance. It is here.

Rick Barr, WBRU, Providence

Pardon me while I climb up on my soap box. Right now "Dear God" is the only song that can hold a candle to U2 on our request chart and I can't believe so many of you are avoiding it. WAKE UP! This is not a New/Alternative only tune. Yes, it's provocative. Yes, it's controversial. Yes, it pisses some people off. So does your morning show. But XTC has something that your morning show is missing. Intelligence. Don't let this one pass you by.... While waiting for Crowded House to take the stage last week (great show - thank you, Tony C.), I was impressed with the number of people singing to "World Shut Your Mouth".... Julian Cope's "Trampoline" follow-up is just as strong so in it goes.

Tom Daniels, WCKG, Chicago

Cubs all the way in '87.... U2 is perfect. There are seven other songs that will emerge over the summer. I will even buy tickets for the show! Thanks for the CD!

Loris Lane, KFMX, Lubbock

That Cult tune is gnarly! It's got more punch than anything I've heard in a long time.

The Cult's "Love"...I Never thought you could combine the Rolling Stones, Led Zeppelin and AC/DC, but it seems The Cult has been able to pull it off. This record should do great for them.... Bowie - Good to hear some fresh new Bowie. Looking forward to seeing him on tour this summer.... Rock And Hyde.... It's very reminiscent of the Moody Blues.... The Cutting Crew.... Retail is the story, so we move it up.... Great phones on Whitesnake. It's taken over the top slot in phones along with Bon Jovi, Deep Purple, Dokken and, of course, U2.... Giving away front row seats complete with guitar and backstage passes to the Bon Jovi show.... Fleetwood Mac.... Getting some phones. I think it's a great song. I really love it.... Frozen Ghost sales are picking up. Fave on the air, "Still Haven't Found"...The best song on the album and I'll never grow tired of it.

Curt Gary, WEBN, Cincinnati

"Hollyann" is now immortalized in song and from the sounds of it. She must have been a beautiful girl.... Night Ranger has always been hot in Cincinnati and "Secret" will be no exception.... How can anyone compete with an LP as well produced as the Whitesnake. It makes me want to pull out the Brown Bomber and compare. Make no mistake, any hard rock band with the depth to write "Is This Love" is going to be a major force in the years to come.... Looking back at one week, Gino Vanelli is already making an impact. "Wild Horses" - this is one record that is in the groove.

Brian Wolfe, WGLU, Johnstown

Cutting Crew is still tops in phones, with U2, Bryan Adams and Pseudo Echo rounding out the top 4. Sneaking into top 5 is Frozen Ghost.... With adds, who can miss the new Bowie.... Other adds include the Thompson Twins, Eric Clapton, Robin Trower and yet more U2. If you're looking for a great spring record, listen to Level 42.

Catfish Phil, WHMD, Hammond

Esquire is Yes in a dress, thanks to Billy Cox of Geffen.... Hooray for Bowie. Definitely check out "Black Book" on Rhino.... Rank & File could be the next Georgia Satellites.... New Thompson Twins soundn' good, too.

Jim Steele, WIOT, Toledo

This summer FM104 will rule Toledo Riverfront with a couple of parties in the park. We're looking for some hot up and coming bands to play in front of 40,000 people - any takers? Please call Keith or myself and ask for info.... Finally, just how much longer do I have to wait for the Springsteen longform video?

Kelly Wallace, WLZR, Milwaukee

Wanna hear a great Whitesnake story? I've got retailers calling me with kids singing "Still" in the background, asking me the name of the tune so they can get the record.... The Other Ones stand out on the first listen. Hit, hit, hit.

Tom Starr, WOUR, Utica

To anyone planning on participating in the Martell Golf Tournament, you would be well advised to don a crash helmet or be sure to stay off adjacent fairways from Me!.... Muscally, encouraging response to Farrenheit - due in part to a very strong live performance a few weeks ago in Central New York. Phones are happenin' and sales are startling.

David Anderson, WMAD, Madison

I feel like a baseball fan visiting spring training. With so many good games (songs), you don't know where to start!.... The Gino Vannelli record, "Wild Horses", is probably going to receive a Grammy Award for the best produced record of the year. It's a wonderful sounding song!.... We added Crowded House, and Neil Finn has a talent for coming up with great melodies. He has all of the best qualities of Paul McCartney and none of the worst.... An impressive debut from the 77's with "Can't Get Over It". I like the jerky rhythm, and the crunching guitars in the song.... IRS has found The Truth! Who says they're a label that's afraid of real rock and roll! It sounds like Bad Company.

Ted Habeck, WMRY, St Louis

I know I've said this a number of times already this year, but damn, there's a lot of great music out there! The new Hoodoo Gurus is real cool. Without a doubt the most commercial record this band has ever done!.... If you're into the Smithereens, then you can't miss with "Time And Time Again".... The Other Ones is one of the better ones. This is one of those records that has such a unique sound that it grabs you with just one listen (good enough, Phil?...I'll take a black Porsche).... Rock & Hyde is going in as a light. It has possibilities and I imagine that it could climb. We'll see.... Mondo Rock is really good. "Primitive Love Rites" deserves to be on your station.... My fave of the week is Thrashing Doves. I listened to the cassette in the car and there's not a bad cut on it!... Thanks for all of your help with our Cerebral Palsy Auction. It will be a big success.

Phil Thompson, KICT, Wichita

Over the weekend I got a glimpse of a band that blew the doors off my fave club, The Coyote. A prior engagement kept me from seeing the entire show. I had time to see the last set and I could tell I was seeing something big in progress. The big band is Little America. Real straight ahead rock & roll is what these guys are all about. If anyone isn't on this, they are missing the boat. This one to Stu Sobell and the band: Don't forget how to find the Wizard.

Jack Green, KLPX, Tucson

This week we are going to catch up with all of the thank yous. First off, thanks to Sharon White and Bubba Osbourne of MCA for the great Boston Jackets, You know I can make a lot of money selling these things. I've never had so many people wanting to buy my clothes before. PS: To Sharon we gotta do lunch more often.... Thanks to Arthur Promoff of Geffen for all of your help with the Tesla and Little America shows last week.... To Michael Baron of Atlantic for a fabulous lunch and finally to Epic's Joe Bravo, maybe next time.

Steve Hoover, KMBY, Monterey

Just got the Stan Bush lp and put "Primitive Lover" on the list before the song finished... what a rocker!.... Look out, here comes the David Bowie that's kept us waiting for years.... We get tons of calls for Whitesnake. We finally got the lp and it's everything I (and our listeners) could want. (Can we call the engineer and have him turn the monitors up in the studio?).... KMBY seems to have settled into a groove and we head into the book of our life. Since ARB re-evaluated the market to include Santa Cruz we are now a medium market and have a year round book.... By the way is there any record for the most number of songs from an lp added in one week? Seems like Bono and the boys are hopping on a gravy train with biscuit wheels. Can't wait to see them.... If you haven't already, check out the new Smithereens single, "Time And Time Again"Tesla continues to do well for us and we're adding "Little Suzi".... Till next week, keep rocking.

Steve Kosbau, KRNA, Cedar Rapids

Effective Friday, April 3rd, KRNA will take music calls Fridays and Mondays 8-11AM. As I look over the playlists of other stations, I can't help but feel that some of them are cheating themselves from a excellent piece of music by Eddie and the Tide called "Weak In the Presence Of Beauty". All I can say is: It tests well, sounds fantastic, AND IT WORKS.... If you're reaching the point where you need to concentrate on a new REO Speedwagon track, I suggest "In My Dreams". I'd bet a hefty sum that it'll be a top 5 single. The response we've gotten is perfect. Everyone seems to love it, especially upper demo females.... And finally, check out the Hoodoo Gurus "Good Times". You may expect it to be very avant-garde, but in reality it's extremely accessible. With the help of radio it could be huge.

Chris James, WTPA, Harrisburg

The U2 continues to set central Pennsylvania on fire. "With Or Without" is our #1 request, but every track's a winner. Thanks to Alex Miller of Atco for the help with U2 on our St. Patrick's Day promotion. Not only did winners get a new U2 lp, but a box of Lucky Charms with anywhere from \$1 to \$100 inside.... We're giving the Stranglers a second life. The song won't quit and has been one of my faves from the start. Also wins lp cover of the year.... Jennifer Warnes, Farrenheit and Jon Butcher continue to

burn up the phones. Not just curiosity calls anymore but legit requests. Finally, don't ignore Doug And The Slugs - a great summer song.

Jack Degan, WRUF, Gainesville

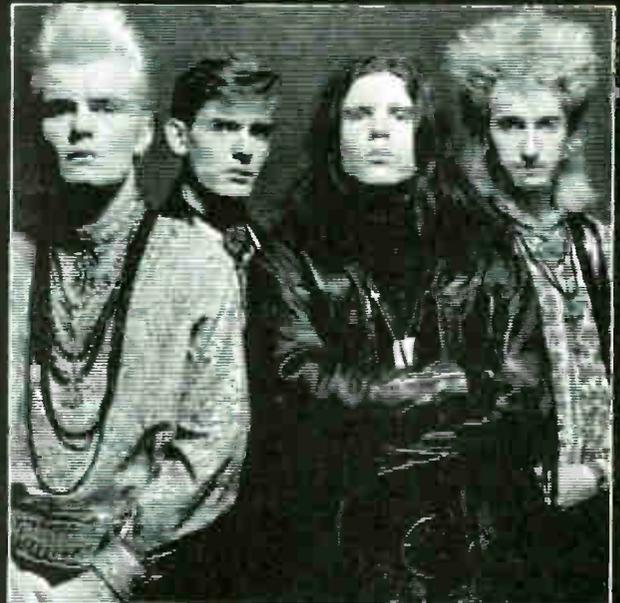

Quality heavy breathing from Fleetwood Mac...Stevie's vocals are literally exciting.... The guys across the street are finally on Cutting Crew. The phones are now from teens. We've been on it over a month and once again CHR gets our leftovers.... I'm really sold on Eric Clapton's "Run". It didn't do it for me the first time I heard it, but now it sounds great and it's getting reaction, too.... The energy and craziness of Peter Wolf's "Come" knocks me out on the video, and translates wonderfully to vinyl. What a great song.... We were out of the box on Farrenheit. Good inquiring phones. It's a solid AOR tune.... John Philip, this local guy is hangin' in there with "Gonna". Give this guy a listen - he's happening here.

Dave Fortney, WKLT, Kankakee

We are so happy that spring is here in northern Michigan—and with it comes our 5th anniversary as northern Michigan's only rock & roll. Thanks to Jim Cortez, and Jay Hart of Elektra for their help in getting the Georgia Satellites for an anniversary show in Traverse City this past weekend. The crowd loved 'em. That band played loud and everything went smoothly.... This weekend is a U2 weekend - the lp is skyrocketing and #1 phones. U2 mania!

Wendy Steele, WLVQ, Columbus

Yesterday, I rolled side 1 of "Joshua Tree" on the air and it sounded superb. Got great phones.... Whitesnake has 'em calling in as well. What an orgasmic record.... Songs that tickle my fantasy: Farrenheit's "Fool", and In Pursuit's "Only" and "Thin Line".

BEGGARS BANQUET

© 1987 Beggars Banquet Records, Ltd.

Ron Woodward, KFME, Chico

I like the new **Bowie** and I can't wait for the tour.... Can't wait for the new Lps from **Fleetwood Mac**, **U2** and **Bryan Adams**.... Watch out for **Rock And Hyde** – It could be a sleeper.

Dave Stone, KJOT, Boise

Rock And Hyde's "Dirty Water" is great sophisticated rock and roll. Fits right in with the new **Jon Butcher**. Glad it came along.... **The Cult's** "Love Removal Machine" is the definitive rock and roll song of '87. A real ass kicker.... **The Rods** – pretty heavy, but good rock and roll.... **David And David's** "River's Gonna Rise" – great mood music. Makes me wanna get on a Harley and ride.... **The Cutting Crew** continues to be top 5 phones and popular with the ladies. Sophisticated rock and roll.

Mike Gardner, KOAS, Kealahou

Aloha from the big island, where we go to great lengths to serve up great music new and old for all of Hawaii. Big for us right now are these Lps: **Frozen Ghost**, **Santana**, **Peter Wolf**, **Gregg Allman**, **Patty Smyth**, **REO** and **Alan Parsons**, to name only a few. Special Aloha to all truly live stations everywhere.

Doc Phillips, KPEZ, Austin

Little America has that Macon flavor. Like the name -- it's 'merican!.... Another great tune from **Timbuk 3** – "Just Another Movie". The little Jambox must be working overtime.

Virgil Thompson, WIXV, Savannah

I listened to the **Other Ones** lots of times before I heard it. I'm that way with most tunes. I'm critical. "We Are What We Are" is QUALITY sound. Even with all the major releases, the **Other Ones** find their way onto the list this week. I've got a feeling this is gonna be around for a long time.... Last week we celebrated our anniversary with four solid days of events highlighted by St. Pat's day and a free show by **Brighton Rock**. Many thanks to the band and their manager, **Ralph Alphonso**. As we enter our second year, to remain as efficient as possible, we have new music hours: M, T, & F 2-4. You can talk to me or **Bill**. If you need to reach us any other time, just call and leave a message.

Phil Manicki, WWCT, Peoria

Little America's sound reminds me of a Chicago band, **The Kind**, straight ahead hooky hypnotic rock and roll.... **Rock and Hyde** is a hit! Play it before your CHR.... **World Party's** "Private Revolution" is the coolest record of the week.... Great upper demo sound and quality with the **Stranglers** "Always the Sun".... High energy **Rock & Roll** from **The Cult**. "Love Removal Machine" has bits of the **Stones**, **Led Zep** and even **AC/DC**. Expect big reaction.... **Whitesnake** checks in with #1 phones after 1 week of airplay! Talk about reaction!

Lorraine Rapp, WAQX, Syracuse

Had a great time at the 95X concert event with **Gregg Allman** last Thursday night. As expected **Gregg's** performance was top notch combining songs from the new album and some jamming versions of classic **Allman Brothers** material. It's hard not to get nostalgic especially for those of us who have been following **Gregg** and his band for over 15 years. Two lucky listeners got to be bad in New York City for a weekend as winners in our "I'm No Angel" promotion. Thanks to **Dave Bouchard** for his help in setting it up.... Syracuse has been one ecstatic town

with the S.U. Orangemen making it to the final 4 in New Orleans. 95X sent a group of listeners for an all expense paid weekend to see the games and the sights in New Orleans.... Ditto the consensus on the new **U2** album. Aside from "With Or Without You", **Simon** and I have narrowed it down to "I Still Haven't" and "Bullet", the latter of which has a guitar riff with a striking resemblance to **Ted Nugent's** "Stranglehold". Listen for yourself before you think we've totally flipped out.... Congrats and best of luck to my friend **Matt Walsh** who starts at **KLS** in Atlanta as production director.

Gary James, WXLN, Davenport

Favorites now on the air: **John Butcher**, **Fleetwood Mac**, **Wiretrain**, **The Other Ones**, and **Del Fuegos**.... I hope the new **Del Fuegos** album doesn't get lost in the hoopla over what is another great **U2** record.... Favorite new stuff not on yet, **Hoodoo Gurus** "Good Times", **Oingo Boingo** "Not My Slave", and **Thompson Twins** "Get That Love". It doesn't bounce any higher than this.... Good to see **Bryan Adams** decided not to sell out. His new record definitely has, shall we say, um...balls.... And, finally, a message to "Dear God", "When can I play XTC?"

Michael Davis, KFMG, Albuquerque

Thanks to the good folks with **Columbia** in LA and Phoenix. To quote an old **Edgar Winter** tune, "We all had a really good time.".... **David Bowie** rocks on with "Day In Day Out". David you are still one of the coolest mofos around. As projected, we have jumped on the **Rock & Hyde**. Lots of potential with "Dirty Water".... Special thanks to those who have supported the **Rock 108 Alice Cooper/Tesla** concert celebration.

Mark Danese, WUVA, Charlottesville

It's transition time here at **WUVA**. **John Malinowski** is graduating and I've been appointed MD for the next year. I'll be taking music calls after 2 p.m. Tues. Music will be ready Tues 12:30. I plan on continuing the music heritage that **John** and the others before him have developed here at the University of Virginia. We're celebrating our 40th year as a radio station here and the tradition continues!

Prince and Alex, ATCO

Eddie And The Tide's Lp "Looking For Adventure" is out, while the single "Weak In The Presence Of Beauty" is in strong rotations across the Hardland of America, and making good moves upward in the trades.... **The Reckless** boys have helped explain their No Frills concept in the video for "Nitty Gritty". "Nitty Gritty" can be heard in great cities like San Diego, Boston, San Antonio, Tampa, Wichita.... The time is now to get down to the "Nitty Gritty". The phones at Z Rock burned last week when **Joey DeMaio** of **Manowar** hit the airwaves.... **Manowar's** "Fighting the World" Lp is selling incredibly well, and after one listen you'll know why: It is a Digital masterpiece.... **Brighton Rock's** ballad "Can't Wait For The Night" is our next emphasis track. It's side one, cut four. If you need it, the 12" ships Monday, the 30th.... **St. Julian** has got the goods! The second track, "Trampoline", from **Julian Cope** is "Trampoline Me". U-2? Since you did, thanks for reading.

J.D. Stone, WTKX, Pensacola

Other Ones "We Are What We Are" should be massive. Great hook – you sit down, listen to it and say "huh--No problem...."
