# Bob Dylan & Eric Clapton

Rock radio  
has met  
its match!

"What a combination!  
**Dylan** and **Clapton** playing a **John Hiatt** song. '**The Usual**' has all the sizzle and spark that **Dylan** gave us on his '**True Confessions**' tour. A must play!"

**Dan McClintock, WWRX**

"**Bob Dylan** with help from **Eric Clapton** makes '**The Usual**' a high voltage number! His voice has a lot of punch and that's the way I like it."

**Anthony Alfonsi, WDVE**

## "The Usual"

Debut 52\* Hard Hundred

"**'The Usual'**, hardly, **Clapton** boogies with a touch of pure **Dylan**. The result is a rock and roll song that will rule the airwaves!"

**Dale Miller, KATP**

From the original soundtrack "Hearts of Fire"

**George Harrison, "Cloud Nine", Dark Horse/WB....**

You won't catch us calling a record perfect more than once or twice a year--but it's an accolade we'll gladly trot out for this magnificent comeback. Everything about "Cloud Nine" merits every superlative we could muster--from the playing, the production, the songwriting and selection--right down to the packaging. It's simply the record we all knew George had in him, and a really heartwarming re-affirmation of the Beatles genius--and of George's key role in their sound. Any committed musicologist has also got to love the blueblood backup team of Clapton, Ringo, Keltner, Cooper, Horn, and Wright--and to finally welcome Jeff Lynne to that rarefied rock plateau. In terms of play priorities, we're partial to "When We Was Fab", "Cloud 9", "Fish On The Sand", the ELOid "Devil's Radio" and rocking "Wreck Of the Hesperus". Also note the single's move to #1 requested.

**Cry Before Dawn, "The Seed (That's Been Sown)", Epic....**

Whenever Harvey Leeds says, "Hey, just listen and call me if you like the record" I know he's got a killer up his sleeve. That's definitely the deal here. Looks like the label is expecting a somewhat stronger initial sendoff via the alternative level--but it sure sounds to me like the kind of bright, hooky stuff you guys are always looking for. From the Beatles, through Dave Edmunds and Nick Lowe, the Brits have excelled at twangy, almost Midwestern retropop, and "Seed" is some of the best of the breed that we've heard of late. We like the execution, the influences and the overall ambience.

**Bryan Ferry, "Bete Noire", Reprise....** The title track continues to move well, with another seven adds, six ups and an underline to 55\*. As WIOQ's David Anderson says, "It's a hypnotic, danceable track with strong crossover potential".... Or, as KEYX's Jonathan Rosen puts it, "Anything Brian puts out right now will be successful. He's perfect for upper demos".... Hmmmm. Could be. This prince of fashion forward crossover is obviously due for The Reeeely big commercial breakthrough, and again we'll say that sophisticated rhythm is our format's safest avenue of adult approved exploration. Bete for our money, "Limbo" will be the track to do it, conveniently located cut 1, side 1. Those lush, tropical overtones are Ferry at his best, and besides, who looks better in a smoking jacket?

**The Connells, "Over There", T.V.T....** I had heard Dawn Hood talking about this album for a couple of weeks before I got around to listening, and as such was surprised by this tune's ultra-mellow mood and texture. We were really smitten by the almost medieval sounding trumpet repeat--complemented by a big, loping western guitar break straight out of "The Big Valley". All in all, this North Carolina band has come through with a really cool collection of sounds, unique but still comfortable. We later decided that "Over There" borrowed heavily from Fleetwood Mac's Danny Kirwan days, especially the "Future Games" album. And while we're playing the same/name game, if you enjoyed the Celtic flavor of Horslips, you'll also get off on "Scotty's Lament".

**RECORD OF THE WEEK:****Glen Burtnick, "Heard It On The Radio", A&M....**

Closing those second tracks from newer artists is always big work--but the combination of label commitment, a great song, and a hard working, well liked artist is helping immensely here. We're hoping Glen's best of show 100-72\* gain will further pique your interest. Currently on 32, including KBPI, KAZY, KDJK, WKLS, WLAV, WLLZ, WNEW, WYNF, KMOD and KFMF.

**NEW THIS WEEK**

**R.E.M., "It's the End Of The World....", IRS....** Come up with a reasonable excuse not to consider--and add this record--and we'll give you a dollar. The band has come through in every relevant criteria you'd care to name--and it's a fine song. So are the other 11 on that nifty new "Best Of" Promotional CD coming your way this week. Up 88-76\*, with 9 adds, 32 now playing--and quick support from majors WKLS, WNEW, KTXQ and KBCO.

**Mojo Nixon, "I'm gonna Dig Up Howlin' Wolf", Enigma....** We think Mojo is the haps on a couple of levels. Guy makes good music. And he's funny as hell. He's kind of the sitdown comedian of rock and roll. Now we know y'all got a kick out of "Elvis Is Everywhere", a song that really smoked on the air (for those of you who had the balls to move it out of mornings). Mojo scored there with humor and topicality. Now, he's back with a piece that's well timed for Halloween--and qualifies as a bad jam in itself. There's some serious string bending happening here folks. If your list is gettin' a little too serious--Nixon's the one to lighten things up.

**Year Zero, "Hourglass", Chrysalis....** Whattt! A Texas band that isn't Stevie Ray or the T-Birds sideways? In fact, (is this a trend?) they sound like Fleetwood Mac circa Bob Welch and "Hypnotized". You might also notice a little touch of Nils vocals in there, too. Year Zero is light, bright, with far more polish and sophistication than than we went into this audition expecting.

**Europe, "Cherokee", Epic....** With Lp sales now in the 2.5 million range, here's one to deal with if you're rocking--and they definitely are at KBPI, KISS, KDKB and KRXQ. After all, the Lp is still a top 20 item in cities like Pittsburgh, Houston, Seattle, Syracuse, Cincinnati, Boston--and top 30 in a whole lot more. Hey--when it comes to closing those females with the Cowboy and Indian motif, Adam Ant this ain't.

**Roger Hodgson, "My Magazine", A&M....** We had a feeling the joint release of Roger's solo and the Supertramp project had the makings of a super case of Sibling rivalry--and now as both projects slide into the backup track stage, we've got to give Roger's deuce the decided advantage. He's got 12 stations now playing, including KISW, KOZZ, KILO, WONE, WMAD, KQDS and WAQX.

## HEART “There’s The Girl”

**D79\* Hard Hundred**

New 12” remixed for rock radio by Ron Nevison

Heart’s third single from the Lp “Bad Animals” is  
an out of the box CHR smash! #1 Most added  
with 71 first week R&R stations!

The second biggest tour (after U2’s) of 1987 continues. . .

**Grapes of Wrath, "Peace Of Mind", Capitol....** While there always seems to be a surplus of good and bad rootsrock around, it seems the supply of folkrock oriented material is always relatively low. Ditto that with a slightly country oriented feel. The Grapes ability to tap into both of those veins has made them a Vancouver favorite--and any fan of producer Tom Cochrane knows he's likely to whip some good Byrds/Hollies moves on ya at any given moment. You'll enjoy "O Lucky Man" from the Lp--but "Peace of Mind" has already taken off in Canada, and works like a charm after the relatively soft intro.

**White Lion, "Wait", Atlantic....** KGB-FM's Pam Edwards has been talking this act up for a couple of weeks now--and it was her projection last week that re-oriented us to the project. The record's initial release happened in June, amidst incredibly thick traffic--only to get noticed via a healthy sales curve generated by their tour with Ace Frehley. KJJO Minneapolis has since had strong market reaction, and WKLC's Brian Kryscz has also picked up a strong airplay/sales correlation. The band has just been named to open the Kiss tour--and we found several big number majors interested in backing a track they've wanted to champion for months. As Pam says, "These guys have got what it takes to become major stars. They've got the musicianship, and straight ahead rock and roll sound with massive hooks"....

**Tesla, "Gettin' Better", Geffen....** These guys've been makin' lots of noise on the road of late, on stage with Def Lep by night, and off-stage on-air by day, as they travel 'round the country getting to know the markets, programmers, and fans as they go. In light of the killer exposure (and in keeping with the continuing retail) "Better" gets the nod to fly. From the alluring acoustic intro (Van Halen, anyone?) to the instantly familiar chord progression, topped off with anthemic lyrics that Francis Scott Key could salute to, "Gettin' Better" is simply made for those 18-24's out there. Already on KILO, KISS and WFYV....

## **IMPACT TRACKS**

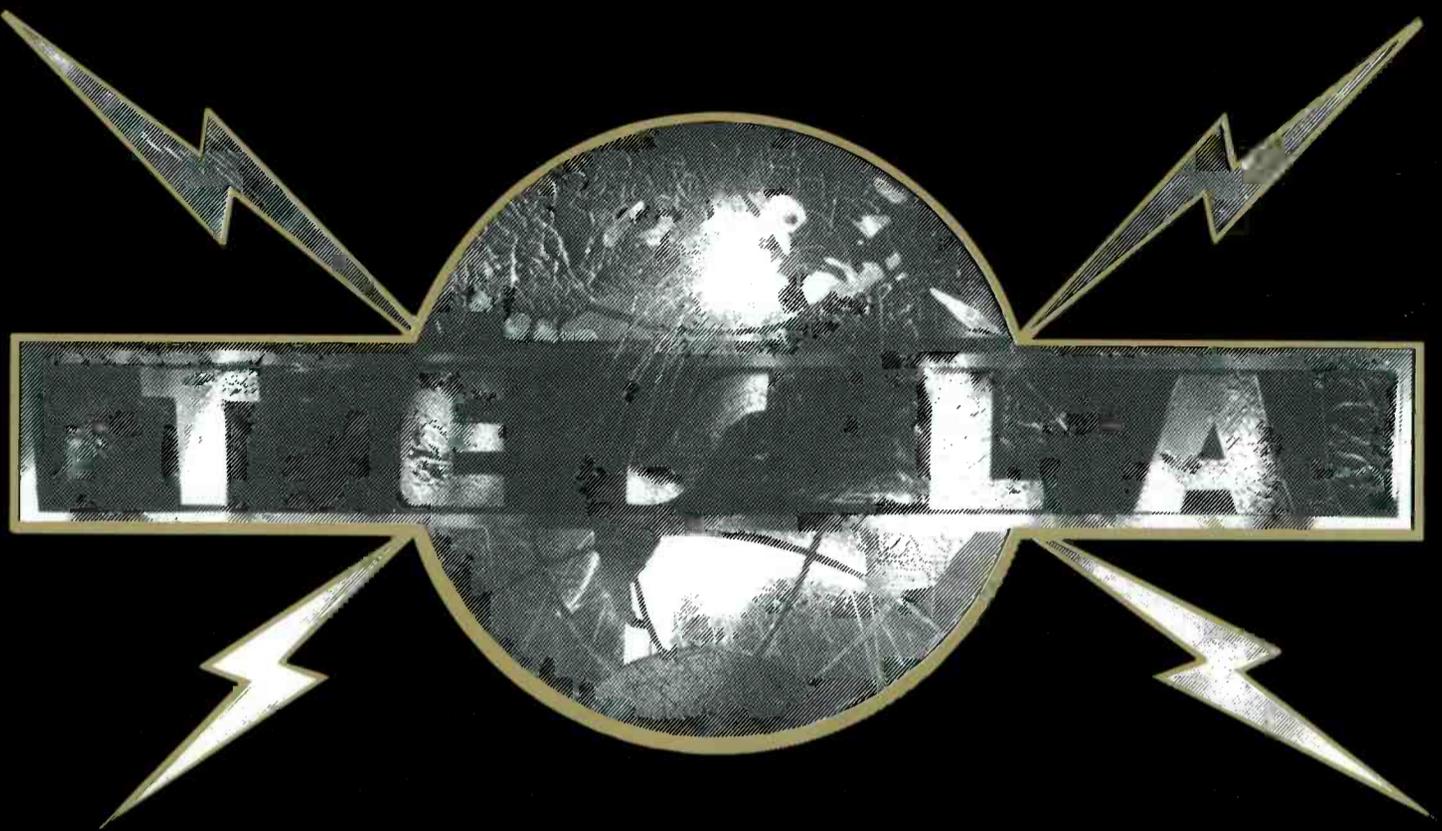

**Triumph, "Long Time Gone", MCA....** That Gregorian break in the middle did the trick--as Triumph's new change-of-pace 12" tops the Most Added out of the box, with 63 stations and our strongest #51 debut. Of the slightly unexpected quirk quotient, KISS' Tom Scheppke comments, "It kicked in on about the third listen. I think you have to hear it in kind of a time release way. I think sometimes those are the ones that really seem to work".... Reaction: Rick Van Gil, WLNZ, "I think this is the song they needed to do for their core: straight ahead back to their familiar sound".... Ron Garrett, KRXQ, "Great to hear them back on the scene with a sensational track like this. Time and experience have made this group better than ever before".... Jeff Ivan, KFMX, "Excellent! This interesting departure should gain lots of new fans for the band".... Dave Fortney, WKLK, "What impresses me most about the track is that it's not an overproduced record".... Jim Pemberton, WLLZ, "They've long been a success story here and if you've had any success with them in the past you should be using this. Already huge phones".... And speaking of phones, "Long Time Gone" scores Top Fivers OTB at KOME, WCMF, WIOT, WYNF, KLOL and WDHA.

**Robbie Robertson, Geffen....** Between the listening parties and excellent promotional set up in general, all the consumer press coverage, and single success to date, the album anticipation level couldn't have been much higher. Neither could the #10 Hard Hundred album debut, a function of legit triple track depth, and well over 50 stations now playing two or more songs. First, updating "Showdown" stats: 24 play increases and 89 heavy reports bring home an 8-6\* underline, with the track now #9 Most Requested with 16 Top 5 mentions. The U2 connection has obvious appeal in "Sweet Fire Of Love", which nets 36 first week adds and a #60 debut. As WRQK's Rik Elliot says, "The whole album sounds pretty good, but that combination is just too powerful to ignore".... Ditto WLNZ's Rick Van Gil and "How can you go wrong with two legends like Robbie and Bono? Sounds tremendous".... Then there's this from KLOL's David Sadof. "The new Peter Gabriel and U2 tracks are excellent, and Robbie's cameo appearance is a nice bonus".... "American Roulette" (our vote for best Lp track) claims 11 adds, with interest also in "Fallen Angel".... WOUR's Tom Starr summarizes, "Consider this nothing less than a giant sonic magnet for the upper demos. A modern sounding record from a veteran that really embodies the concept that you're never too old to rock and roll"....

**Dave Mason, "Something In The Heart", Voyager/MCA....** Dave turns in his third strong consecutive Most Added showing--finishing #4 with 32. The station count climbs to 78; KZOQ, WMJY and WWRX increasing with KRNA and WPDH the first to report max play. PDH's Pam Brooks explains, "You couldn't ask for a finer entry for those upper demos. Like a well tuned vehicle that cruises along gathering admiring onlookers, Dave adds special flair to the radio".... David Anderson, WIOQ, "Sounds like a hit. It's a great pop flavored record that will return Dave to the charts".... From WKDF's David Hall, "Mason and Winwood sound like they had a good time working together again and I am having a good time listening to it".... and KZAM's Tom Krumm adds, "Sounds very much like Dave used to, but there's a whole new feel to it that works very well".... Our third longest Hard Hundred gainer, 69-43\*.

**Jethro Tull, "Farm On the Freeway", Chrysalis....** At this stage of Tull's comeback tale, the trick is matching retail with rotation--and from where we sit this is clearly a two track proposition. Rest "Steel Monkey" if you will--but with CHR getting it this coming week, and the tour set to blaze through the Northeast at the same time--and MTV upping rotation, you'd best not rest it too long. "Farm" finds a home on 25 new believers, with 9 increases and 40 heavies moving it 30-18. The phones look terrific, too, with KLOL, KZEL, WEBN, WIOQ, WKQQ, KQWB, KSQY, WBLM, WOUR and WXRC all reporting top 5 action.

**Bob Dylan/Eric Clapton, "The Usual", Columbia....** Between the singer, the player, the writer and the movie--this project offers a 1-2-3-4 punch combo you'd best deal with quicko pronto!! 51 of our reporters popped it--good for a #52 Hard Hundred debut. WWRX's Dan McClintock says, "What a combination! This has all the sizzle and spark that Dylan gave us on his 'True Confessions' tour. A must play!".... KWHL's Cyn-dee Maxwell adds, "With Clapton on board, this is an exceptional Dylan track".... Tom Scheppke, KISS, "The last time I heard a Dylan cut with guitars like this might have been 'Leopardskin Pillbox Hat' from 'Blonde on Blonde'".... Brian Illes, WKFM, "Put two legends together on a song that should have been a hit for John Hiatt and you've got an unbeatable combination".... Dale Miller, KATP, "This is hardly the usual, as Clapton boogies with a touch of pure Dylan. The result is a total rock and roll song that will rule the airwaves".... Anthony Alfonsi, WDVE, "A high voltage number. Dylan's voice has a lot of punch to it and that's how I like to hear him sing".... and from Karen Small, WGIR, "You can't get guitar playing any sweeter than Clapton and his teaming up with Bob Dylan has produced a song with an instant classic sound"....

**The Alarm, "Rain In The Summertime", IRS...** With about 80% of our reporters already in, it's really just a matter of closing up the holes at this point. 16 more adds bring "Rain" to the 147 mark--15 deep in increases, and early phones at KOME, WFNX, WLNZ, WMDK and KNCN. More reaction: Carter Alan, WBCN, "Rain" shows a strong debut at #5 Requests for this past week".... David Anderson, WIOQ, "The blue chip record of the week. It'll be in the top 10 by Christmas".... John Cooper, WPYX, "We're starting to get very promising feedback on the Alarm, both requests and sales".... Alison Stewart, WBRU, "As passionate as ever, 'Rain' walks the line between mainstream and progressive, thereby having the potential to work within both formats".... And from Slats, WHTQ, "Hypnotic is how we feel about the Alarm's latest. It's summertime for ten months of the year, regardless of the time change".... Up 33-24\*....

**Dokken, "Burning Like A Flame", Elektra...** The instant requests again headline the development on Dokken's most commercial number ever--as the call count climbs from 10 to 19--motivating a #8 National Request debut. It's all systems go on the play stats as well, with 21 more adds, 86 stations to date and 8 increases turning in a solid 46-38\* track advance. Already heavy on KOME, WFYV, WPLR and WRIK. From KWHL's Cyndee Maxwell, "It's just a great song and I think they'll get new fans with this new and improved style. Top 5 phones".... Kelly Cruise, WEGR, "The most commercial thing I've heard from them in years".... Rick Van Gil, WLNZ, "Dokken will be a huge record that demands immediate attention. Reaction calls after one play".... and from Harve Alan, WCCC, "Dokken is getting excellent nighttime phones and the buzz on the band is very strong"....

**Aerosmith, "Hangman's Jury", Geffen...** We see a lot of life left in "Rag Doll"--but for stations ready to move on to a new and softer track, "Hangman" is noose you can use. Again to Rick Van Gil and "It's a tune that could have come off of 'Toys In The Attic'". They've just come back with a killer album that we will be playing well into spring".... #5 Most Added with 25 stations, and this week's second longest gainer, 83-56\*. Now on 47, heavy at KISS, KNAC, KRQR, KTYD, WFYV, WHCN, WHEB, WMRY and WZZO.

## TAKE TWO

**Sting, "Little Wing", A&M...** After the leadoff single found more than a few programmers wrestling with their feet for control, the album's arrival was made an even more blessed event. Now full attention is focused in on the most obvious track, "Little Wing". New at 14 this week (DC 101, KDJK, KISS, KNCN, KYYS, WLLZ) with increased air at CFOX, WNEW, WHJY, WEGR and KZAP. KATP's Dale Miller feels, "Not many artists can remake a Hendrix classic and capture the magic that Jimi put into it, but Sting delivers with 'Little Wing'".... KISS' Tom Scheppke calls it, "A neat stylized version of the song".... WEGR's Kelly Cruise reports, "It's selling out the wazoo in Memphis".... And WKXL's Renee Blake, "The top album of the year in my opinion has just made #1 sales at our local record outlet--Sting!".... The cover climbs 31-26\*, while "We'll be Together" burns along with a 17-17\*.

**Danny Wilson, "Girl I Used to Know", Virgin...** With their proven adult track record, DW is a must-consider if you skew 25+--or felt like they got robbed on "Mary's Prayer". 11 jump on "Girl" this week with WLIR (heavy), WDHA, WMAD, KZOQ, KATP already at the party. Checked your retail? We understand the units are still flying from "Mary's" run, so find/listen/consider this "Girl" ASAP....

**The Silencers, "I See Red", RCA...** In the wake of their showcase tour of the states, the Silencers, with Jimmie O'Neil in top voice, are knockin' em dead in smoky clubs across the land. A big week for "Red" with new air at 11 (CHOM, KLAQ, WBRU, KATT, WRUF), driving that total to 53, with increases at 5 (KBPI, KRXQ) helping in that 74-65\* build up the Hundred. Taking that wait-and-see attitude? Action like this after just 3 weeks of emphasis spells doom for delayers.... Certain to break top 50 by next week....

**The Rainmakers, "Snakedance", Mercury...** Those WYNF Jocks love it--so much so, that Charlie Logan tells us "They throw it on everytime Carey Curelop turns his back. Usually when the air staff gets this excited about a song, it comes home".... From WKFM's Brian Illes, "Polygram's contract with the National Weather Service allows them to release one tornado a year. The winds are picking up and we'll all be doing the 'Snakedance' soon".... WDVN's Anthony Alfonsi adds, "It took me a couple of listens to get into it, but it's a really catchy tune".... New on 24 reporters, with WAPL, KQDS, KZOQ, WDHA, WIZN and WKQZ listing early increases; KICT and KQWB already into top 5 phones.

**Heart, "There's The Girl", Capitol...** WPDH's Pam Brooks explains, "As Ann and Nancy continue their stronghold on WPDHland, we move to this well textured, nice laid back track. More guaranteed hot phones for the sisters Heart".... New on 17, now on 27, debut 79\*.

**Richard Marx, "Have Mercy", EMI/Manhattan...** He's as automatic as a new act can get these days, what with another 21 adds and 69 now on board. KEZE, 'PLR and WKXL show increases, with max mentions from KDKB, WKQX, WNGZ, WRIK, and WWTR--all good for a 51-46\* showing.

**Def Leppard, "Hysteria", Polygram...** Another tour-timed ultra obvious title track bulls in with a big add count--24 stations in all--with 6 increases and 26 heavies firing up a 49-37\* advance.

**Insiders, "Love Like Candy", Epic...** A top contender for Baby Band Of The Year, The Insiders make it look easy with 11 adds this week (WLLZ, KRQR, KRXQ, WRXK) pushing the total playing to 36. KRXQ's Ron Garrett testifies, "I'm going on 'Candy' based on the successful reaction we experienced with their first song. The Insiders have the ingredients of a superstar group for tomorrow. Listen to them, not me".... But wait! There's more! From WLLZ's Jim "Will perform even better than the first track" Pemberton, KTYD's Jane "We love it" Asher, and WKWQ's Ron "Reaches out and grabs you" Marsh. Heavy air at KWHL and KZEL help fire up an 89-67\* Hard Hundred hike--this week's fourth longest gain.

**The Brandos, "Honor Among Thieves", Relativity...** This band is making friends as quickly as you can track the album and raves this week from KRXQ's Ron Garrett, KLOL's David Sadof, and WIZN's Tom Van Sant prove there's plenty of life in this project. We count 14 now total on the title track with support from WYNF, WDHA, CHEZ, WMAD, KRXQ and more, with thousands of reporters on the Considering list. Primed to break the Hundred this week....

**Loverboy, "Love Will Rise Again", Columbia...** Less you forget, L'Boy ruled the sound of AOR not so long ago, offering up the best slick powerbased rock and roll around. This is some of their best since the first--and definitely one of the band's strongest singalongs. One listen to "Rise", and you'll know they're still setting the pace for the format with dynamic mid-tempo hooks and vocals that don't let go.... 34 reporters already committed with KGB, WTPA and 'NPQ new this week. HH 78-69\*.

Gearing up for another AOR **Smash** with

## "Cherokee"

Already on at-	KBPI	KISS	WKLC	
KRXQ	KDKB	KRQU	WWZU	KZOQ

and more!

"We actually played this track about a year ago. We were so early on '**Final Countdown**' we were looking for backup tracks back then! '**Cherokee**' is an easy add for us."

**TOM SCHEPPKE, KISS**

**Replacements, "Can't Hardly Wait", WB....** Another step deeper into this fine album and "Wait" finds air at 7 stations its first week out. Already on: WLIR, WBRU, WHTG, WRIK and KTYD where Jane Asher told us, "We feel good supporting this class band, and 'Wait' is a strong followup".... If you missed this gem first time around, it's time to relisten and repent....

**Melvin James, "Loving You is Strange", MCA....** We've never been a format that shies away from out-of-the-ordinary titles, but "Strange" has more than its decidedly different moniker to induce play. A minute and a half in, and you'll remember how quickly you were seduced by the lead track so many months ago.... 18 reporters already on "Strange" with KBPI, WCCC, WDIZ, WYNF, WKLS, WTPA, WIMZ among the initiated...

**Mr. Mister, "The Border", RCA....** We were intrigued by this Wavish entry from the Mssr. 2, with its hypnotic production values and tempting hook. While not a quick listen record, "The Border" has no problem easing onto 7 first week out with WDHA, WLAV, WKGR and KGRQ OTB. Possibly the tastiest tune of the week, especially if you're looking 25 + ....

**Guns N' Roses, "Paradise City"....** We were completely sold after one solid listen to this one, with its guaranteed phone potential and totally desirable "Walk This Way" overtones creating office panic whenever the disc headed towards the player, and we promise similar results when your 18-24's get an ear full of "Paradise". Take a look at your retail and chances are you'll be singing the same song as WIXV's Virgil Thompson, "Nighttime play to 'Paradise' as Guns N' Roses continues to sell massive units".... One quick week out and 5 venture on with adds at KQRS, KRZQ, KNAC, KATP and WNPQ....

## **HARD ACTS TO FOLLOW . . .**

**The Bangles, "Hazy Shade of Winter", Def-Jam/Columbia....** Punching up a Simon and Garfunkel chestnut like this takes some chutzpah, but the Bangles deliver with elan--especially with producer Rick Rubin playing the RetroRocket role. Jonathan Rosen, KEYX, can hear it, "I really like the Bangle's 'Hazy Shade Of Winter', a great version that rocks".... 29 stations add it out of the box and more are teetering on the fence. Of those adding, 5 are already using it in Heavy, including WOXY, where Jetson claims, "The new Bangles just blew me away. It sounds great on the air"....

**Martha Davis, "Just Like You", Capitol....** This lady has been there and back, and you can hear it in her rich and seductive voice. 13 stations add this week including KZAM, KGB-FM, WLLZ, KBPI and WFYV where Michael Areford reports, "We really needed a female rocker and Martha Davis fills the bill perfectly".... Increases include WNPQ, KZOQ, KRXQ and WPLR where Christina tells us, "Martha Davis goes to Power. It sounds absolutely wonderful".... 78 reporters and a move up the Hundred 50-47\*....

**Guadalcanal Diary, "Litany", Elektra....** Big moves up the chart and an increasing chorus of programmer raves continue to build the story on this deserving band. Rock and roll lives on the energy and vision of its young talents and it's rewarding to see a great newer act like this defy the odds. And can we talk power imaging among the active audience? Here's KLOL's David Sadof, "People have thanked me for playing the Guadalcanal Diary. This is a really important record for people who are into new music".... 6 increases include moves on WMAD, KRQR and CFNY. At WEGR, Kelly Cruise tells us, "This sounds like REM meets the Byrds. The perfect song to seg into your classic rock tunes".... Another good week moves "Litany" 55-48\*.

**Michael Bolton, "Gina", Columbia....** "Gina" is making moves on your male listeners and do they love it. Michael has been belting out near miss tracks for years now and he finally has gotten next to one that has all the licks necessary to up his profile. Michael's proven vocal prowess and his ear for tried and true rock hooks put this song in the must consider category for any AOR serious about servicing the core without alienating the upper end. Adds on KRQU, WKLC and WLLZ and top phones on KJOT are all part of the story. "Gina" goes 63-62\* on the Hundred. Also be advised we're starting to feel a nice little buzz on the "Dock Of the Bay" cover as well.

**Great White, "Lady Red Light", Capitol....** The "Lady" continues to build in the tradition of "Rock Me", gaining ground week by week, and keeping those committed, satisfied with the results.... We now count 72 on, with adds this week at 6 (WZZO, WRIF, KDJK, KRQU), and increased air at 3. As the track just hovers about the top 40 stage on the Hundred, look for phone action to be the key element to push this one over the top. Bulleted at 45.

**Cruzados, "Time For Waiting", Arista....** Next up from the the Cruiser's is this programmer pick, and we're counting 12 on already, with KLAQ, KATP and KZRR leading the pack of enthusiasts. It's been a good year for the band, and since it's so close to the Holidays, be nice, OK? Look for a solid debut next week.

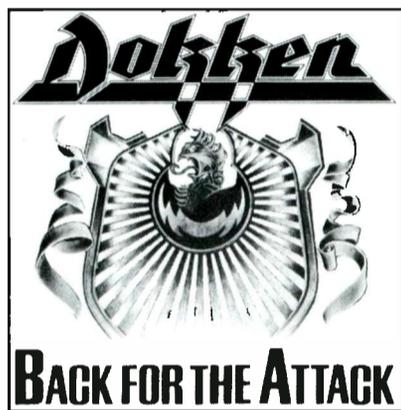

**Supertramp, "Not the Moment", A&M....** The sound that has always set this band apart shines on this depth track, and 25 reporters respond with the 'LUP, KZAM, WQFM, WLLZ, KZAM, KRQR, WPYX and WOUR leading the way.... "Moment" picks up 4 significant adds this week, as the track powers ahead on the Hundred, 98-85\*.

**MSG, Gimme Your Love, Capitol....** The video is inflaming libidos left, right and center; the track is powering up rock oriented stations from coast to coast, and with a 38-35\* move on the Hundred, MSG are getting bigtime mileage from their latest. 9 new reporters include KNCN, WNOR, KLAQ and WLNZ where Rick Van Gil says, "Finally added the MSG this week, after lots of test night time play proved this to be a real success story for us. We're getting lots of calls, This is a really great reaction record".... 88 reporters with Power play on KNAC and WWZU.

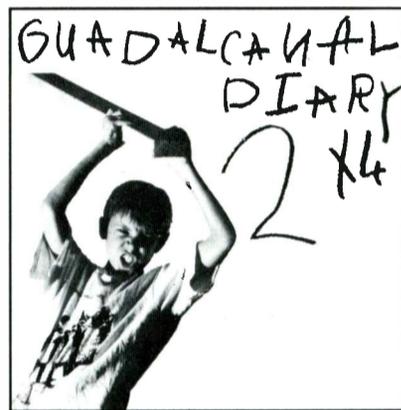

**Buster Poindexter, "Are You Lonely For Me", RCA....** The man has some kind of hairdo and his act is also highly greased and ready to fly. Buster rips it out with a no-holds-barred enthusiasm that picks you up and moves you around the room instantly if not sooner. Searingly soulful backup vocals and a horn section that's 24 karat complete this great package from Buster. 9 stations can hear this one out of the box including WNEW, KEYX, WDHA and WMMR. Play it in your next music meeting and watch the staff throw a party in the hall.

**The Truth, "It's Hidden", IRS....** This band just about walked away winners the last time out, and with a potentially hit movie to move the music along, they may well have it here. "The Truth was a one listen hit. This is a really great song for the format", says Michael Areford, WFYV. 7 stations agree including KATP, where Dale Miller reports, "'It's Hidden', but not for long. This record is a rocket with T minus zero to lift off".... Other believers are KILO, WNEW and KZOQ. It's just the beginning for a track that should cop more than the average share of limelight for this talented band.

**Don Dixon, "Your Sister Told Me", Enigma...** Don has been wowing them live lately and it's good to see that the man knows that even he is going to have to get out and work to make it work. It's not that his near cosmic credentials don't shine on their own; they obviously do. But in a sea of classic artist comebacks, Don needs every stick in the bag to get in under par. What he really needs, is for you to dig this track out and give it a second listen. If that doesn't convince you that this guy is for real, then mail your inner ear to Rick Winward for a refit. An increase to Heavy on tastemaker KEYX and adds this week on WBLM, WNDY and WMAD makes 30 stations on. Don moves 99-91\*.

**Tom Caufield, "Precious Town", Paradox...** This guy can really squeeze a horn section for all it's worth. With "Precious Town", Tom has a genuinely good feeling track that sweeps you along a rhythm intensive tune that sounds so unfeigned and fun that you just can't help but join in the party. 6 stations are out on this one right away and there are more to follow without doubt. The label has a potential winner here, so at least get familiar. Already on KTAO, WNPQ, WOXY, WRIK, WKXL and KFMH.

**Tommy Shaw, "No Such Thing", Atlantic...** Continued heavy play at KBPI has brought in the phones to follow. At KTXQ, Redbeard tells us, "Tommy Shaw really explodes on the air. It's got a great hook and the fans are out there pulling for him".... 82 players include KATT, KDKB, KISS, WPYX and KTYD where Jane Asher tells us, "Tommy Shaw is a fave around here. The audience is really behind this one".... Tommy shows increases on KWHL, KQDS and WKLC and a move 40-39\* on the Hard Hundred this week.

**Paul Carrack, "Don't Shed a Tear", Chrysalis...** With the total on hitting 120 after 12 adds this week, 'looks like Paul's in the home stretch with "Shed" earning heavy play at KOME, WPLR, KILO, KBPI, KAZY, WIMZ and 10 more. Meanwhile, savvy programmers are spending time with the album and liking what they hear.... WOUR's Tom Starr, "Everyone has been waiting for Paul to deliver a career making album and 'One Good Reason' contains plenty of reasons to think this is it. Making a decision between the single and 'Double it Up' was so mind-boggling, we went with both".... KRZQ's Dick Sheetz, "Paul Carrack has a great album on his hands with massive hits throughout. Can't wait to find the room so we can go deeper".... Looking for track reaction? Here's WHMD's Catfish, "This song has just what we're looking for: driving hook from beginning to end, plus a laid back attitude about love gone bad".... WKQQ's Stacy Yelton, "We've been getting reaction calls after each play telling us about the relatability of the lyrics. With #7 phones this week and sales about to kick in, looks like Paul is ready to bust wide open".... And WMRY's Kim Pool updates, "Now that the phones have started, we can feel the excitement building around this record. We foresee this track going all the way".... Nice HH advance this week, 36-28\*....

**INXS, "Need You Tonight", Atlantic...** The secret word this week was INXS, and every time it came up, everybody had something hot to say.... WIOQ's David Anderson, "The phones are alive with calls for INXS. 'Need You' percolates with moving rhythms and a unique sensuous vocal delivery. Watch for this record to fly out of the stores".... KRZQ's Dick Sheetz, "It was easy to go 4 deep on the INXS. All we did was drop the needle and pick one after another. This album is proof that this band is here to stay".... WPLR's Christina, "The INXS record cut for cut is the hottest sexiest sound around!!! Our audience was quick to react and the phones are #2 for 'Need'. I can't pick a follow up track because I like 'em all!".... WBLM's Robin Mathieu, "How appropriate for INXS to title their latest 'Kick'. It sure does and tune for tune, this is already my favorite of the year".... WHCN's Kim Alexander, "Every tune is intriguing and 'New Sensation' is a hit! Good job, guys".... And from KGON's Inessa York, "INXS has been such a success for us over the last couple of albums, almost in spite of their dancy sound. They're one of the few bands that have been able to persevere".... Total on: 142, with 8 new this week. "New Sensation" gets adds at 8, "Kick" comes on at 7, with "Devil Inside", "Never Tear...", "Tiny Daggers", and "Wildlife" are also seeing action.... "Need You Tonight": HH 23-19\*....

**Love & Rockets, "No New Tale to Tell", Big-time/RCA...** Positioned for a strong run up the Hundred, "Tale" is preparing to do to mainstream rockers what they've been doing to alternative programmers for two albums now. The ebb and flow of this swirling piece of hypno-rock doesn't let go once it sets in. Treat your speakers to a sound that has college stations proclaiming L&R the next big thing. Increases on KEYX, KZEL, WHTG and WXCI and top phones on KJET, WLIR and WVVV all help push "Tale" 90-78\*.

**Pete Himmelman, "Waning Moon", Island...** Did this guy hit us at the right time or am I just dreaming? "Waning Moon" has popped up on more programmer fave lists than even a hard core fan could have expected. Peter's capacity for blending infectious hooks with deeper than average lyrics has already carved a following for him that has welcomed this effort with open arms. "Do yourself a favor and get next to the Peter Himmelman, it just gets better with time", Ron Marsh, WKWQ.... One of the week's biggest movers with adds on KDKB, WWRX and WEGR Peter jumps 91-74\* this week with 46 on.

**Silent Running, "Sanctuary", Atlantic...** A band with chops like this will get you given the chance. After a few weeks of solidifying their jumping off point, SR is settling in for a run at even more serious airplay. "Sanctuary" is one of those potential monsters that could come home with the right rotation--and will blow you back with its huge air sound, regardless of rotation. At the same time, the strength here really is one of subtleties and that spells low burn and long shelf life. Adds on WLLZ and WHJY, with Heavy play at KBPI and KRQU keep things up and running. In fact, 60% of those now playing are using "Sanctuary" in a Medium or better rotation. 65-64\* on the Hundred.

**Joe Cocker, "Unchain My Heart", Capitol...** Joe makes himself at home at 131 stations this week including the 7 new adds (WBCN, WAAF), and the increased air at 9, as audience reaction begins to kick in.... WPLR's Christina, "Doing great with better than average phones".... WHCN's Kim Alexander, "Joe's doing well with the calls just starting".... KEZE's Gary Allen, "The upper end really grooves to Cocker".... KBCO's Doug Clifton, "Cocker is returning to the level of success he attained in the early 70's".... And KTCZ's Jane Fredericksen, "Kudos to Joe Cocker for a return to what he does best!".... HH 25-23\*. Also getting attention, the next smash to be, "Two Wrongs"....

**Radiators, "Like Dreamers Do", Epic...** When it comes to the Rad's, nobody tells it better than WWCT's Paul Nelson, "One night about five years ago at a small club in Chicago, I braved an intense snow storm to see this band from New Orleans. About 30 people showed up, but the band went on and tore the place up as if it were packed to the gills. 'Law of the Fish' picks up right where that night left off. It was a long wait, but it was well worth it".... "Dreamers" picks up 7 more adds, as the total committed grows to 131 with top 5 phones at 5 including WNEW. And programmer reaction starts to explode: WFYV's Mike Areford, "We didn't really expect the audience to respond so well but they surprised us. They really want to know what this band is all about".... KPEZ's Doc Phillips, The Rad's are getting good response, especially in call out research. The audience really likes it".... WIXV's Virgil Thompson, "The Rad's are one of the most requested songs on the air".... And WTPA's Chris James, "The Rad's are now getting top 10 phones and overall audience reaction continues as strong as when we first got on it".... Again underlined, 27-25\*....

**BoDeans, "Only Love", Reprise...** The big news this week surrounds the reaction the 'Deans are receiving, courtesy of the U2 tour, as programmers first hand are seeing and believing. 'KQQ's Stacy Yelton, "It was amazing. Watched the atmosphere in the Rupp Arena go from a party to an intellectual celebration. Both bands were brilliant".... And WMRV's Kim Pool, "A fantastic show. The BoDeans were very impressive and successful in pumping the audience for U2".... Meanwhile, back on the turntable, the 'Deans pick up another 5 adds with new air at DC 101, WOUR and WWCK. 'YNF's Charlie Logan is enamored, "The BoDeans cannot be denied. Does anybody else see the pattern developing here? I think the 90's are emerging".... Reactionwise, top 5 phones come in at 5 including WAPL, where Rick Panneck tells us, "They're in the most requested. Undoubtedly this will be the record that will do it for them".... More killer charts, 19-14\*.

**Bruce Springsteen, "Tunnel of Love", Columbia...** 'YNF's Charlie Logan spoke the truth this week when he let us know, "I've never gotten phones like the ones we're getting on 'Tunnel of Love'".... And it looks as though Bruce's adventurous title track has come through as the out and out favorite, surpassing the single for the first time on the Hundred this week, and tying up the market with airplay at over 150 stations. Phones? You'll be hard pressed to find a reporter with less than top 10 requests for "Tunnel". HH 10-7\* movement for "Tunnel", with "Spare Parts" up 35-33, plus continued chart action for "Tougher" and "One Step Up"....

**Icehouse, "Crazy", Chrysalis...** Icehouse cracks the top 10 this week with increases at 20 including WLUP, WIOT, WKLS, KZAP and WYNF, where Charlie Logan calls 'em, "One of those real smooth sounding records that really works well for us. They're a cutting edge kind of band who have now crossed over into the mainstream without alienating their past audience".... KBCO's Doug Clifton seconds that emotion, "Icehouse continues to do very well, which is understandable. After all, we've been playing them since their first album and they've always performed well, and have developed a good following. Their latest is very accessible; getting good phones and about to break into the top 10 retail".... Total on now reaches 164 stations (72 in heavy), with 2 new this week and top phones at 11. And--It's top 10!

**Bourgeois Tagg, "I Don't Mind At All", Island...** Strike up another win for great music, as B. Tagg triumphs over all concerned about name, image and tempo, reaching the 145 total-on mark. 10 more jump in, including WLUP, KLOS, KBER, KRQU, WNOR and WPDH, where Pam Brooks confesses, "I don't mind waiting but I really mind missing out on something altogether. Better late than never on this hot pop wonder that makes music magic. 'I Don't Mind...' is a real ear grabber that our listeners can finally tune into and I know they won't mind at all".... Increased rotations this week at 13, with the phones registering top 5 at 11. HH 21-20\*....

It's almost too much fun. The Twins win the Fall Classic, the real thing is back on the gridiron, not that it helped my bedraggled Raiders all that much, and you can hear the gentle sound of ARB diaries dropping all over the Metro. While PDs and MDs get fat on the feast of superstar product out there right now and those big buck promotions start rolling, we at your friendly neighborhood Hard Report are also mellowing to the season. Check out the interview that caboozes Noise for some thoughts regarding how best to deal with this avalanche of musical good fortune. Read on dear friends and remember, it's only your sheet if you make use of it. Got something going on? Give us a call.

**BRAD BOUNCES BACK AT ELEKTRA....**

When Mike Bone left Elektra for Chrysalis, the position of Sr VP of Promotion at Elektra was the subject of some pretty interesting moves, with Dave Urso finally ending up in the big chair. Now, everything old is new again, and Dave has resigned with Brad Hunt getting the nod as his replacement. Brad brings a unique combination of talents to the job. He is a trained attorney and one of the hardest rocking guys North, South, East and West of anywhere. When Bone was at the label there was a concerted shift to harder edged rock that resulted in an impressive string of big wins for the label. Brad can be counted on to continue that emphasis. Elektra Chairman, Bob Krasnow told Noise, "Brad's hard work and commitment to Elektra have earned him this opportunity." Brad has been with the label since 1983.

**THE RADIO RUMBLE....**

WRIF/Detroit has morning team Pat and Wags sharpening up their incisors and getting their teeth into the 4th Annual Riff Halloween Blood Drive. Albums, paraphernalia and other fun stuff will be enticing donors, with the goal of besting last year's record.

WIOQ/Philadelphia has announced that programming assistant, Debbi Oriolo has been upped to Asst MD. Debbi has been with the station for the last five years and has proven herself a winner in a number of assignments leading to this promotion.

Whether you label it TexMex or SoCal Latino Rock, the sound of a vibrant new ethnic approach to American rock and roll is here and sounding great. In the wake of Los Lobos big breakthrough, the Cruzados, Delgado Brothers and Texas homeboy Joe Ely are establishing an important niche in the contemporary music scene of the '80s. Shown getting hammered backstage at the Roxy are Bruce Bromberg and Larry Sloven/Hightone Records, Billy Steinway and Steve Delgado of the Delgado Brothers, Joe "If I Had A Hammer" Ely, Dennis Walker/Hightone and the other Brothers Delgado, Joe and Bob.

WRDU/Raleigh has acquired the talents of Brian McFadden from WRXL/Richmond for PM drives and Production. PD Michael Hughes, knowing the value of quality image production, was very happy about the signing. When Noise contacted him he told us, "With Brian joining the station we have put the last piece of the puzzle in place." Have 8 track studio, will travel, Brian joins WRDU in the first week of November.

WWCT/Peoria Promotion Director, Mark Bretsch got married to Marcy Ehlen on October 24th. After the ceremony everyone migrated to a local club and commandeered the DJ booth for the rest of the night. Not particularly my idea of how to spend a wedding night, but to each their own.

WQFM/Milwaukee is trying to put things together after all their recent upheaval. The focus now is on PD Dave London of sister station WEZX/Scranton as a possible candidate for the vacancy at WQFM. When Noise contacted WEZX, we were told that Dave was already in Milwaukee, although we couldn't get confirmation about whether he is just window shopping or making a down payment on a career move.

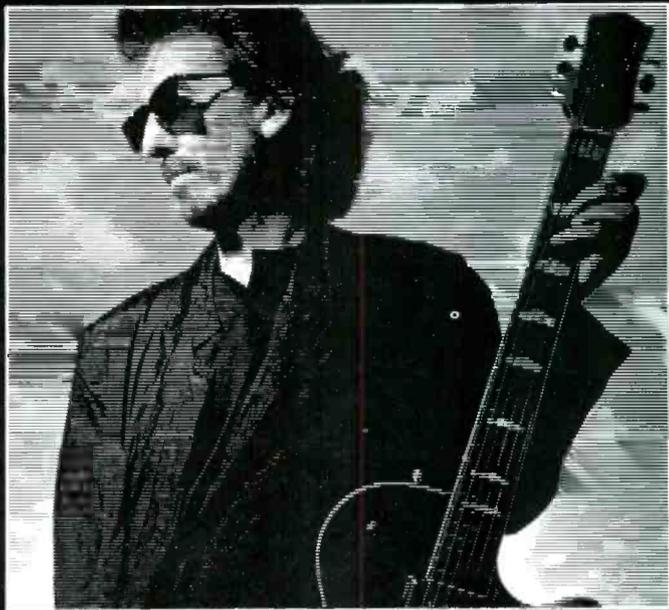

KRQU/Laramie makes it official and dumps their automation for round the clock live AOR. That has to be one of the shortest flirtations with the gods of automation I've seen in a long time. Sort of makes you feel warm all over.

WLIR/Long Island and Larry Dunn have unearthed a theory more shocking than the "Arches Of The Gods", which has linked Mayan technology with fast food franchises. It's known as the dreaded "Billy Martin Effect" and its impact on the stock market could be critical. For details on how George Steinbrenner's mental state could be affecting the economies of the Free World, be sure to look up Larry's comments in this issue of the always informative HARD REPORT.

John McGhan, Executive Producer of McGhan Radio Productions compares smiles with a couple of sizzling hot Latin types. John sent us this casual shot with himself and these stars of the summertime smash "La Bamba" getting buddy buddy. From left to right, Esai Morales, John, Lou Diamond Phillips.

Terence Trent D'Arby launched some Stateside dates at the Roxy in L.A. to get the colonials familiar with his incredible stage persona. The man is ripping them up in the Muthaland and his act is a major draw wherever he goes. Standing around with Terence backstage at the Roxy are Columbia heavyweights, Marilyn Lavert/VP Press and Publicity, Ruben Rodriguez/VP Black and Jazz Promotion, Al Teller/President CBS Records, Terence, Marc Benesch/VP Promotion, Mickey Eicher/Sr VP A&R, K.P./P.A.R.C. Management, Jack Rovner/VP Marketing.

When WLNZ/Lansing went all CD they sucker punched the competition by announcing that they were going to begin a "New Age" in Lansing radio. After 40 seconds of New Age programming, the station owner came on and announced the shift to all CD rock and roll with a searing send off courtesy of Led Zep. So be aware record guys and gals, if you want some action on WLNZ it's got to be laser.

Robert Woelfel, Corporate GM for Visionary Radio Euphonics in California has left. The company owns seven stations including mothership KVRE/Santa Rosa, and KZAM/Eugene. Robert has hands on experience that includes every operational aspect of broadcasting, and is currently entertaining offers. Growth oriented companies looking for talented young management types should contact Bob at 707-586-1854.

KYYS/Kansas City PD, Scott Jameson has been bounced up and down the rumor list of potential PDs for WRIF/Detroit when Great American hits the beach in the Motor City. When contacted by Noise, Scott did have some pretty good ideas about how the Pistons could power up their front line, but would neither confirm nor deny that he is considering a move to Detroit. We did squeeze him for news about his new morning personality, Tanna Gutherie, formerly a talk show host across town at KMBZ.

WKFM/Syracuse is looking for a mid-day announcer who can do double duty as Promotions Director for a high visibility, promotionally active AOR. Be up, be smart, be creative. T&R and statement of promotional philosophy should be sent to Brian Illies, WKFM, 1022 Willis Ave. Syracuse, NY, 13204.

KOME/San Jose has a phone number to call for adds now. Record reps can call for complete information after 3pm on Tuesday at 408-246-4636. This should put a few more years on the life expectancy of their receptionist.

New phone hours for KZAM/Eugene. From now on you can reach Tom Krumm on Thursday and Friday from 11-1pm. The programming load and a ton of fall promotions makes it necessary and our friends in the industry should take note.

WGIR/Manchester morning ace Kurt St Thomas may be showing up at a Boston AOR very soon in a Production capacity. Stay tuned and we'll let you know what's going on.

KKDJ/Fresno is still in the market for a truly great morning show. This heritage rocker is in a competitive situation and looking for a top notch talent(s) to get the day off to a great start.

Caught backstage at the Roxy, where everybody plays these days, Don Dixon is enjoying the afterglow of yet another smoking performance. The man is knocking them back wherever he goes, and the L.A. show was a masterpiece. Pictured are left to right, Marti Jones, (who's duet with Dixon drew raves), Don, William Hein/Enigma Records CEO, and Dixon's Manager, Harry Simmons.

With Buzz Knight taking the reins at WLWQ/ Columbus, that leaves WRKI/ Danbury looking for a PD with strong people skills and an absolute understanding of the format. Send your proposal to GM John Fullam, I-95, Box 95, Danbury, CT 06813. A great job with a powerhouse rocker.

WRXK/Ft Myers has lost their morning guy and gal, Jeff Alan and Alison Young, who are moving to WMGG/ Columbus. T&Rs should be rushed to WRXK, PO Box 9600, Estero, FL 33928. Greg Mull is a young PD with a lot on the ball and the station is kicking major butt in the market.

KRSR/Las Vegas is just a little over a month old and already garnering a lot of response from rockers in the market. "The Krusher" is a 24 hour Rock-40 that leans heavily on metal. The kicker is that the station is an AM. The potential audience for this format on AM is huge and the ability to combo a Metal AM with an adult skewing FM AOR represents a real gold mine for Demo Dominance. Factor in the hipness of marketing AM to Metal's target teens and you could have one of the most effective Rock imaging tools ever. One thing's for sure, this approach could give you a way around that conflict of upper and lower demos while creating a strategy that could literally own rock and roll in your market.

Happy Birthday to KLAQ/El Paso, celebrating 9 years as the rock and roll center of the universe for the city of El Paso. They marked the occasion with their 2nd Annual Halloween parade and a ton of presents for their listeners.

KLOS/Los Angeles has upped Stephanie Mondello to their MD slot from her position as Research and Programming Assistant. Stephanie has been with the station for 6 years doing a great job at everything she touches. Music calls will be taken on a daily basis as of yesterday.

WBLM/Portland and Night Ranger get photogenic backstage at a recent concert. L to R is Jeff Watson, Jose Diaz/WBLM, Kelly Keagy and Jack Blades.

KAZY/Denver MD Tim Jeffries steps down to concentrate on his airshift, which is also the top rated AOR shift in the market for the daypart. In the meantime Andy Schuon will be working with Trip Reeb on music and programming.

KABL has a new address, 4740 W 27th St, St Louis Park, MN 55416. Get that Rolodex up to date pal.

**THE BATTLE OF THE BABYBANDS....  
A FOURTH QUARTER BLITZ**

With the increasing flood of Superstar releases and reformed 70s bands getting the lion share of our attention and playlists, the fates have been cold to those developing bands that have debuted albums recently. While this means brighter days for AOR programmers working on their core heritage product, it has some record executives foaming from the frustration of hearing, "I've got no room", over and over again. New bands and new music, long the backbone of the AOR relationship with its audience, seems to be getting beat up in a collision of safe, big name acts. To better survey this concern, we went into the field to talk with some front line MDs.

**The major conflict on AOR playlists these days has Superstar product pushing Babybands off the sheet. How much of a factor is this and where is it taking the format?**

**MIKE AREFORD/WFYV....** I don't see this as an artist consideration so much as a song consideration. We spend our time listening for great songs, not adding safe artists. I agree the format may be going through a sense of deja vu right now but I'm not totally convinced that all this heritage music is going to help us when it comes to ratings. We still have to make room for those great new bands to flavor the air sound.

**STEPHEN PAGE/KOME....** The bottom line is the tune itself. If it's a new or older band doesn't really make any difference. If we think the listeners are going to want to buy this album based on what they hear on the air, we'll play it. It's important to educate the listeners to these new groups however. Basically we try to reflect the community and it's influences whether they are expressed in alternative or mainstream values. It's important that the bands have good material and that the labels do their best to guarantee that these bands will be as big as their potential.

**MARK BRADLEY/WNOR....** Good product will always win out in the end. If that music has a built in image, sure it's going to help generate interest and resulting airplay. Even if it isn't their favorite older band the listener is going to be curious about it and upset if they don't hear it. The audience has a sense of loyalty and security with these artists. It makes them feel like a good old friend and isn't that what radio should be for the audience, a good friend?

**JEFF RIEDEL/KKDJ....** The strength of each song is the most important consideration. Yes, Pink Floyd, Jethro Tull, all are good examples. It would be nice to say that we'd give equal consideration to a Babyband, but when it comes down to it, we have to protect our heritage artists and stay with the bands that made the format great.

**ANDY PRESTON/KPOI....** Some of the newer artists may be pushed off your list, but how important is that. Frankly our ratings were not so great when we relied exclusively on new music and we didn't sound as good as we do now. By working the album slower we still leave lots of room for other bands and cuts on our playlist.

**DICK SHEETZ/KRZQ....** This huge wave of product from old stand-bys proves that rock and roll never dies, it just goes away for awhile. It's so much fun to have all this great music back after years when dance music was, shall we say, Queen. For a few years that force was really dominant, but now it's just going away. If Babybands want to get played they are going to have to be some of the best, cause that's what we've got with these new releases from tried and true artists, the best.

**BUTCH LAZORCHAK/WVVV....** AOR has gotten very conservative regarding the acts they play. If they have no name recognition programmers are very skeptical about adding it. The charts are all dominated by bands that have been around for ten years or more, it's as if there were no new artists out there. A big name is important, but AOR is going way overboard in that regard. They are obviously afraid to try anything new.

**INESSA YORK/KGON....** This is absolutely a factor in the format right now. We are definitely making use of the older product but I don't feel guilty about it because this stuff is so great, it's not just a token gesture to some older artists, it's a genuine impulse.

**This injection of reformed heritage bands may make your 25+ audience glow with a familiar warmth, but just how important is this stuff to your 18-24s? Does this group really care about their big brothers favorite bands? Isn't there an anti-hipness factor here that could backfire?**

**MARK BRADLEY/WNOR....** This music actually works very well. 18-24s are finding out that that this is really great music and these artists are legends for a reason. You might find a small imaging problem that stems from the days when new wave made these people feel that it was unhip to listen to established bands. But what goes around, comes around and the younger audience is very curious about these bands.

**MIKE AREFORD/WFYV....** There's probably a pretty even split among those who dig it and those who don't. Sometimes the younger listener doesn't even know who the artist is, Robbie Robertson is a prime example, so of course they don't share or even understand why we are making such a big deal over him. If the music is up to date sounding and the band has a good rep you'll get great response all up and down the demos.

**STEPHEN PAGE/KOME....** Once again, we try to reflect the area. Here we get a lot of interest in Deep Purple from 18 and 35 yearolds, so we naturally push it. If they like the song they don't really care if it's an old timers band. Sure they have a tendency to be more interested in what their college stations are doing, but in this market they are very open to heritage product as well.

**JEFF RIEDEL/KKDJ....** Ironically, we do very well with the 18-24s when we play heritage artists. I would have thought they wouldn't care that much about it, but that doesn't seem to be the case. Having new crunch product to play helps the 18-24s also, but the 25+ audience tunes it out almost immediately, so heritage artists get you that positive response on both sides of the demo break.

**INESSA YORK/KGON....** Take the Jethro Tull for example, there is a band that is creating a whole new group of listeners and fans for itself while maintaining their original ones. The music may have an older image, but it's not old fogie sounding, there's a modern feel to it that works well with other aspects of the format.

**BUTCH LAZORCHAK/WVVV....** I don't think that the younger audience identifies with this music all that much. They really want their own music instead of repackaged versions of the last decade. Bands like Pink Floyd and Yes are still creating great music but, by and large, the younger listener wants to discover their own music.

**ANDY PRESTON/KPOI....** I wouldn't have thought so but the retail and phone buzz says yes. Take Yes as an example, this

music is as up to date as you can get. I'm only 27 and I and a lot of my friends really want to know about these bands. Every indicator proves that these albums generate massive interest.

**DICK SHEETZ/KRZQ....** The older audience seems to be coming back to radio these days and they want to hear their music on the air. These new releases fill that bill perfectly but they are just modern enough to make a difference. It's not just retread rock and roll, it's new and exciting. It also helps that these guys took some time off. They got fresh again before coming back.

**The glut of these big name acts combined with the mass application of depth cuts virtually slams the door on any product that's not already established. This trend could be justified in fiercely competitive situations, but otherwise you might just be undercutting the product's shelflife.**

**BUTCH LAZORCHAK/WVVV....** There is a very real problem with the format burning stuff up too soon. You see stuff run up the charts real fast and then fall off the edge. Radio makes a big event out of a lot of things, but they should move a little slower to protect the album. Adding a second or third cut automatically seems a little premature and probably damages the album overall. It would be better to leave room on the list for newer bands.

**INESSA YORK/KGON....** We might be hurting ourselves a little, but you can't help but want to get those tracks out there as fast as you can. The audience curiosity is so high it would be a big mistake to let it pass without taking advantage of it. Sometimes, however, we approach these multi-cut albums in a way that the labels may not like by spreading the emphasis around. But you have to respond to the listeners and they really want to hear that stuff.

**ANDY PRESTON/KPOI....** We do a lot to give the album that extra life it sometimes needs, that's a lesson we learned with U2, where the saturation was a bit much. Some of these albums will be around for quite a while so we take it easy cut to cut. Being a new music oriented station we are determined to include lots of new music to maintain our image. Also, the lack of format competition doesn't push us into a situation where we feel forced to exploit a new release too quick.

**STEPHEN PAGE/KOME....** The best example of that was the John Cougar Mellencamp. We were on 4 or 5 cuts right off the bat and that closed out 2 or 3 groups from the playlist. We only do that for a short period of time and then we shift emphasis to the best new track we can find, but during that time we definitely have to hold back on the new bands we would otherwise add. You want to take advantage of the excitement surrounding a new major release but you have to be aware of the potential for burnout.

**JEFF RIEDEL/KKDJ....** We have a reputation for playing new music in the market so we put as much of it on the air as we can. We run it through the system as quickly as we can and increase the stuff that gets the most response from the listeners. It's nice that the audience takes the time to call and get excited about music when our competition is primarily classic.

**MARK BRADLEY/WNOR....** If the band is big, with a major track record, I'll definitely go on depth tracks in packets to support the hit. AOR is album rock isn't it? Providing a little more of a feel for the album is important to the audience because they share that album orientation.

**MIKE AREFORD/WFYV....** We will hold back a little and find other ways to make room for those in between tracks without losing our ability to expose good new bands. Special features like Tuesday TwoFers give you a chance to test out depth tracks

without risk, but only if you presell it as much as you can. I don't think runaway depth programming is as much of a factor as it was 5 years ago. You have to be careful that you don't get hurt that way.

**Given that the quality of new music being played by AOR is more important than ever before, how do these MDs get next to the music that matters?**

**ANDY PRESTON/KPOI....** I don't think this glut has affected how we do music here. We give it a good listen and watch it develop before we move on it. Isolation like we have in this market is a luxury and we use it. Retail is important but we would make a mistake playing records because of stateside charts and sales.

**DICK SHEETZ/KRZQ....** After years of not really caring all that much, it's great to be back in the fray. We can once again load our musical guns and go back to battle. Nothing could be finer. Babybands don't stand a chance against these 70s champions if all they have is a single cut album to work from. For us in AOR, the fun is back. I take this stuff home and listen to it with the TV on, sound off of course. I haven't felt like this for years.

**MIKE AREFORD/WFYV....** I listen to what other people like. I like to go to the hipper clubs and bars and spend time talking to people who aren't in the industry but have very strongly formed opinions about music. Music samplers are a big help also. I usually like to listen to something over and over, rather than giving it a casual once over.

**INESSA YORK/KGON....** I hear a lot of music listening at home. I also like to watch 120 minutes on MTV. It's a great stepladder to awareness for me with bands and artists I wouldn't otherwise know about. A video can often expand your willingness to hear a record, it's a visual tool that helps me hear what the group or artist is all about. I also rely on cassette and CD samplers from tipsheets. Mostly I like to hear music while I do housework, if something can cut through the ambience of a real life situation like that, then it might do the same for the listener also.

**BUTCH LAZORCHAK/WVVV....** People need to read as much as possible to find out what the buzz is. Read every trade you can get your hands on. People talk about being on the street and many aren't or, worse, are on the wrong the street. Sales should be watched closely. The Smiths or the Cure are working and people are being drawn in by their act. Radio certainly isn't integrating new music all that well. You have to do your homework.

**STEPHEN PAGE/KOME....** We watch phone response very closely and retail as well. It's important to read local and industry trade sheets and the music press. I like to talk to people on the phones about what they like and dislike on the air. I believe in the value of that kind of contact.

**MARK BRADLEY/WNOR....** I like to listen in the office after everybody else leaves. I just slip the CD in and pump the volume as high as it will go. Usually I let stuff track. You also have to be aware of the primary agents of exposure; MTV, publications, even Johnny Carson or Miami Vice. It's all part of sharing the psychographic, of being where your listeners are.

**JEFF RIEDEL/KKDJ....** The immediacy of the office is my primary listening environment, I also listen a lot in the car. I hate to admit it, but I will spend more time with a work project, otherwise, I put it on in the background and wait for it to hook me.

**In all this tug of war over new music on AOR, relations with record companies have gotten a little strained. Dealing with that personal relationship has always been a prime con-**

sideration for radio and occasionally it gets pretty uncomfortable. Especially in the new climate of "no can do."

**INESSA YORK/KGON....** My feeling is that the record Rep really understands the situation that I'm in regarding new music. If they listen to the station they should know what we want and then stress the right product as a result.

**MARK BRADLEY/WNOR....** I'm not real big on the hardsell. I do appreciate when they say, "This is for you so stay close to it and use it when you can". You build a sense of trust with some of them and that helps. The worst thing is when everything's a hit or when they alphabet soup you with all the call letters that are on the track. Norfolk is unlike any other place in the world and my concern is to stay in touch with the expectations of the people that live here, so I'm not too impressed by what other towns think of a particular song.

**STEPHEN PAGE/KOME....** It's important to tell them when you can't use something they are pushing so that's understood up front. When you have to wait on a new band you just tell them and make them understand they have to be patient. Then they have to either deal with it, or get in a new line of work. Most of the record guys are easy to work with.

**JEFF RIEDEL/KKDJ....** Sure, you hear a lot of frustration aimed at your consultant, sometimes even you. That frustration is natural but you can't always help it. Why would they release so much similar product so close to each other. This glut can only hurt the artist.

**MIKE AREFORD/WFYV....** There is definitely a harder sell on some of the newer bands, but I don't really mind that so much. Sometimes it helps you to not miss some product that could otherwise slip through the cracks. If the Rep puts a bug in your ear, that's just another tool for you to make use of. So long as the process is productive, it's good.

**BUTCH LAZORCHAK/WVVV... We** play a lot of new acts so we don't get too much pressure from the labels in that regard. But we also play enough established acts that they can hear no from us once in awhile. It's important to be honest with them when you tell them no. If they understand what the station is all about and are willing to listen, we can generally agree to disagree.

**To what extent have these labels front loaded their own failure by not coordinating releases better? Are we just witnessing a lemming like rush for the fourth quarter retail action that is bound to jam radio?**

**JEFF RIEDEL/KKDJ....** The record companies should definitely be more firm with their priorities and spend less time on projects that don't stand a chance. There's nothing worse than being beat up on something that you know you'll never use. Sometimes you commit on a track to help out, and then you pull back because it doesn't work and that makes them even more crazy. Stop trying to win on every project and the working relationship will go a lot further. This is especially true when we have so much automatic product to deal with.

**INESSA YORK/KGON....** The record companies have to rearrange their priorities and develop a greater sense of patience about these things. In many ways these projects have a power and life of their own. I don't really feel any responsibility to give play to these new acts if the Supergroups are doing such good things for the station. If the act is real good we will get behind a new group of fresh faces. But we have to deal with it on a song by song basis.

**MARK BRADLEY/WNOR....** The simple fact is that the labels can sell more product in the fall than they can in spring, so of course they are going to load as many releases into this time of the year as they can. They need to get it out now so they can avoid the starvation time of January and February. They'll always do it that way, no doubt about it.

**STEPHEN PAGE/KOME....** It all comes down to money. All these big names coming out doesn't guarantee airplay. In the rush to make a buck the little bands get the shaft. There are plenty of bands out there who have a contract but, because nobody works them, never get heard of. The greed factor guarantees that some of these bands will get lost in the shuffle and this seasonal rush is a good example.

**MIKE AREFORD/WFYV....** The labels have to do a better job of judging what's going on in the market. It's not that the music isn't good, just that it comes out at the wrong time. Sometimes that will hurt an established band as much as a new band, especially if they have lost momentum over the years. It seems more difficult to make bands last as long as once was the case, the competition is just too stiff. They have to be sure that their promotional priorities and career handling doesn't hurt the artist.

**ANDY PRESTON/KPOI....** The labels are definitely creating their own problem here. It's ridiculous that the coordination has been so bad. These guys had to know their schedules and could have avoided this glut. The first three quarters of the year were abysmal as regards music and now there is too much of it. Some more foresight needs to be exercised. Maybe they are all looking for a big Christmas push, I don't know if that's going to work for them.

**BUTCH LAZORCHAK/WVVV....** This is the most intense period of the year and, frankly, some of this product just isn't that strong. The labels should try to spread it out a bit more. If they want everything in the stores by Christmas perhaps they should back up their release dates. It's foolhardy to release all these records at one time. It's stressful from my point of view, to try to pick from all this stuff when you don't really have any room for it. Newer bands usually get the short end because cautious programmers use the established bands as an easy cop out for not expanding their playlists.

**DICK SHEETZ/KZRQ....** In many situations it's their own fault, especially when it comes to artist protection. Sometimes we get a cut that we go with out of the box and when we are ready to chill it we suddenly get a panic call from the label that they want us to emphasize it. That can be very frustrating. Also don't send me something if you want me to hold back on it. It's my job to play the best new music I can and, in a competitive situation like ours, it doesn't make sense to hold back on good product when you've got your hands on it.

**Doesn't the format have to be very careful about protecting itself against a time when these great heritage artists aren't out there with new releases? This harvest is of undoubted quality, but it can't last forever, and what do we do when it's over? Now might be the time to establish some of these new bands as a security against the lean times that are bound to follow.**

**BUTCH LAZORCHAK/WVVV....** Definitely, we must get more new music on the air. Give your listeners more of the available music that is fresh and vibrant. AOR playlists are getting so small they are running themselves into a dead end. This trend of legacy bands will run its course and when it's done the audience will be left hanging. Now is not the time to overreact, you'll only manufacture a problem for yourself down the road.

Slip some new artist product on in a light rotation and give it time to sink in. AOR is missing a lot of music in a big way.

**ANDY PRESTON/KPOI....** I'd hate to see stations exclude new artists, but you can't not play George Harrison or John Cougar Mellencamp or Rush. However, we should be into more new music after the first of the year. The pendulum has swung pretty far one way and it's inevitable that it swing back in the opposite direction soon.

**MIKE AREFORD/WFYV....** It's important right now to educate the audience about these new bands. If you're playing new music, make an extra effort to sell it to the audience. Then you have to stick with it when it's time to put it in recurrent, because these are the bands you'll have to deal with in the next few months. You want the listener to be able to identify this stuff down the road because how much longer can this trend continue?

**STEPHEN PAGE/KOME....** It will make for a different sound but it won't happen all at once. The change will be gradual and smart programmers can prepare themselves for it. Hopefully the industry will be working those new bands that represent the future of the business or it will be the old fable of the Grasshopper and the Ants all over again; the grasshopper will be screwing off until winter hits, while the ants have been working hard getting ready for it.

**MARK BRADLEY/WNOR....** You plan your heritage product in such a way that you save a few things for the lean times to help keep it fresh. Play some of the new bands and cross your fingers that they might turn into the next U2. I wouldn't leak too much newer product on the air right now when you can use the Superstars to your advantage. Make the most of it while the scene is hot, use it or lose it.

**DICK SHEETZ/KZRQ....** We have to be sure that when these guys go away that we still have something to work with on the air. We try to keep about 40% of our new music from Babybands whenever possible. But these bands really have to work extra hard to stand out and that's what they have to do if they want me to take them to work and put them on the air. They have to draw attention to themselves. We will definitely make room for good Babyband product at the expense of established product but only if it's the right stuff.

**INESSA YORK/KGON....** We'd like to develop a broader base but you never know how long this trend will continue. Classic rock and classic rockers are feeding off each other. This may be because AOR helped bankrupt itself two years ago by not establishing new artists. So it becomes obvious that you have to work these new bands to avoid another cycle like the one that hurt us last time.

Keeping on top of the newest music has always been important to the format, but when that music comes from some of the oldest guys in the biz, a genuine conflict arises. How the format responds to this issue will be key to the health of things during the next Spring book. At that time we may have to pay the price for too many easy decisions made now. A little foresight and some chance taking just might save us all a lot of grief in the future. Never make a move too soon, but don't let things get too weird before you take action. That's the law of survival in 80s AOR.

**FLESH FOR LULU "LONG LIVE THE NEW FLESH" (CAPITOL)** After the success of last year's appearance on the "Some Kind Of Wonderful" soundtrack with "I Go Crazy" (and a nice run on MTV), America realized exactly what Flesh For Lulu had to offer. They are back to finish what sparked on the "Big Fun City" Lp way back when with a clean and clear idea of what the English rock scene has in store for the future. With streamlined production and a more focused approach to a more mature pop sound, the Lulus haven't sacrificed their witty song writing skill as the familiar rock edge continues to emerge on "Sleeping Dogs" and "Dream On Cowboy". "Siamese Twist" joins its album counterparts, being one early track pick from its advance single availability and the tender send off of "Postcards From Paradise" makes it an easy lead single choice. They've achieved the big sound for big airplay without leaving their true fans in the dust.

**THE REIVERS "SATURDAY" (CAPITOL)**

Here's a band that defies any tag-term associated with R.E.M. while churning out a finely blended guitar-drenched record of acoustic proportions that combines the best sounds that rock-Americana has to offer. Formerly Zeitgeist, the group recently changed names when they found out that a Minnesota band had already read the same book, with a catalog out to prove it. Chosen from a William Faulkner novel, The Reivers is the newly adopted name of this Austin based musical troop. All of their hard work and extensive tour exposure will pay off on their second Lp which fulfills the promise initiated by earlier releases. a voice that can send a chill down your spine or fill you with warmth. "Mandinka" and "I Want Your Hands (On Me)" jump out with heated energy, femininity and strength while "Troy" tells an emotional tale of lost love - also available on video. Clannad's lead vocalist, Eithne, appears on "Never Get Old" and the acdid undertones of "Just Call Me Joe" move in tune with the curious patterns that are ready to conquer the progressive scene.

Bright ideas come in small packages, but don't try to microwave A&M's latest promo campaign for Chris Stamey's song "Cara Lee". This package might resemble one of your favorite snack foods, but inside you'll find a tape of Stamey's new *It's Alright* Lp! It has 0 calories without leaving that bad aftertaste. **RECORD OF THE WEEK**

**MSG, "Perfect Timing", Capitol....** When Michael decided to broaden his horizons by focusing less on being a guitar god and more on a band member, he set the wheels in motion towards success. As he put it when I spoke to him recently, "I've taken a new direction...I've taken the blinders off so to speak. Most guitarists in general have the ambition to be the greatest in the world and have those blinders on...now with my music I would like much more than just the guitar." This record will open many doors for the new MSG. Robin McAuley's versatility as a talented singer/songwriter has allowed Michael the opportunity to reach audiences he wouldn't have thought possible a couple of years ago. With the current line-up of Rocky Newton (bass), Mitch Perry (guitar) and Bodo Schope (drums), MSG has keyed into what tight musicianship is all about. If he can maintain this line-up, Michael may be able to realize his long time goal: to have a successful and creative band. "Follow The Night", "Love Is Not A Game", "No Time For Losers" and "Time" are examples of the diverse material on this record. There are mid-tempo rockers, ballad-types and full speed ahead pounders like "Get Out". There is no question as to the perfect timing of this album. As Robin told me, "perfect timing' was a recurring theme from the beginning of the project. From day one, the pieces just seemed to all fall into place in a very natural way." The proof is in the quality of music on this record. Perfect.

**HEAVY HITTERS**

**Guns N' Roses, "Paradise City", Geffen....** We've been behind this record from the beginning, and we aren't letting up yet. There is no doubt that this album has been a favorite among our reporters. They have been up and down our Hard Metal Chart but this week are holding at #9\*. They also take the #5 Most Requested Metal slot. "Appetite For Destruction" is a versatile record loaded with depth tracks. "Mr. Brownstone", and "Welcome To The Jungle" have been airplay favorites all along, but check out "Rocket Queen", "Sweet Child O' Mine" and "Nightrain". "Paradise City" combines old fashioned rock and roll, with a hard metal edge. It's one of the tunes that sticks in your head for hours. With the release of "Paradise City" we may see some upward movement from these bad boys. It's one of the hottest tracks coming off this vinyl. Guns is getting air on: WSOU, WRCN, WGIR, KRSR, WKNC, WHJY, WHUS, WJUL, WNHU, KNAC, AND Z-ROCK. Bill Fisher of WJUL says, "It took a while, but Guns N' Roses has finally hit me like a brick. 'Appetite' has just shot up our chart with its wide variety of crunch metal" and from WGIR's Mike Jones, "At the risk of sounding redundant, 'Appetite' transcends everything. I think this band is brilliant and I'm not alone"....

**Triumph, "Long Time Gone", MCA....** This track is a shining return to the metal scene for one of rock's staple power trios. Gil Moore, Mike Levine and Rik Emmett are well known within the rock community for their special brand of power melodies. "Long Time Gone" is a track that builds in momentum. The guitar work is classic Rik. Technical and very tasteful, his playing is a study in controlled expression. The song doesn't bog down in guitar pyrotechnics. The vocals, in true Emmett style are loaded with great range and flexibility and this may be the track to bring Triumph back into the mainstream limelight. A listen to the advance cassette confirms that the LP is gonna give

## The Album featuring "The Calling"

## 14\*11-11\* Hard Metal

"The next supergroup is Leatherwolf. They've got the look, the name and without a doubt — the sound. A must play."  
Jeff Ivan, KFMX, Lubbock

"Island picked a winner with Leatherwolf; tons of power and melody. I like this one a lot."  
Mike Jones, WGIR, Manchester

"Accessible with crunch! A commercial tune with enough power to keep the metalheads happy."  
Shelli B. WXRC, Charlotte

"The most instrumental metal band happening now. The vocals are incredible, the guitar work is awesome and precise, and the sound in itself is probably the most professional I've heard from a new band on their first album. They blew me away on first listen!"  
Rudy Mendoza, KTEC, Klamath Falls

some of these new bands a good stompin' on. Triumph is an all-around performance band that appeals to a wide variety of musical palates, and the sharing of vocals gives Triumph even more of an edge. It may take a listen or two.... but give it time, it'll kick in. Look for "Never Say Never", "On and On", "Headed For Nowhere" and "Carry On The Flame" to come through as some must play heavy hitters on the Lp....

**Tesla, "Gettin' Better", Geffen....** These boys are one of the best young bands of the 80's, serving up simple, well-structured songs, that have a fresh strong sound. They also put on one of the most energetic live performances I've seen recently. They blew me away when I saw them open for Def Leppard this month. "Gettin' Better" is a hot rocker that you can really get your claws into. The intro can fake you out, but the chorus hits you like a ton of lead. Jeff Keith has that growling voice that kind of runs along your spine. His vocals on this track are full of expression and power. Musically, these boys can't miss. The production is excellent, and the word hook must be written into their contract. They are electric in their presentation and performance. "Gettin' Better" should be their theme song.

**Laaz Rockit, "Know Your Enemy", Enigma....** This week a three point jump moves the Rockit up to #23 on the Metal Airplay Chart and with good reason. One listen should tell you straight off that they've got the crunch and the talent to be really big. The album features 11 tracks with "Most Dangerous Game", "Means To An End" and "Euroshima" picking up most of the airplay on: WUCF, WRCN, WBIM, KRSR, WKNC, KBER, KCMU, KFMG, KISS, KTEC, WJUL,

WOXY, WWVU, and Z-Rock with top phones at WWVU, WJUL and KCMU. Also check "Shot To Hell" and the sure to be cult classic "Shit's Ugly".

**Europe, "Cherokee", Epic....** From the Swedish mop-heads comes another sure-fire rocker that will inevitably be a hit all the way around. This time, Joey and the boys give us a mid-tempo anthem with an important social reminder. Strange isn't it, that a band from across the world, can so aptly present us with yet another history lesson, in one of man's most obvious blunders. This band has got the hooks and the looks. They've also got the formula for middle of the road rockers, with just enough edge to make them happen on the harder side of things. The video is forthcoming, and it should be interesting to see whether or not it's conceptual. Judging by the success' of "Carrie", "Rock The Night" and "The Final Countdown", "Cherokee" should be quick to join their ranks of qualified smashes.

**TSOL, "All Along The Watchtower", Scream Comp/Geffen....** I am generally wary of cover versions of classic records, but this time we've found a genuinely fresh rendition of this long time format favorite. TSOL is a band that has a delivery like a steam roller. An all-out assault on your senses with power chords and full vocals that do justice to a song, that has always been a "must learn" for aspiring musicians. They keep the music fairly true to the original which is pleasing to the Hendrix fan in me. It's good to hear new bands giving some of the classics modern expression. This track comes off the Scream Compilation that showcases some of the local underground L.A. screamers. Check out TSOL's contribution, it's a nicely done tribute to one of rock's greatest legends.

**Mike Jones, WGIR, Manchester—**  
*Kal Swan is an amazing vocalist, and the band rocks with tons of melody and power. It should be a huge record.*

**Ross Goza, KNAC, Long Beach—**  
*Proven live performance, and solid songwriting and production makes for a winning combination for Lion.*

**Shelli B., WXRC, Charlotte—**  
*"Fatal Attraction" is doing very well for us." the response on Lion has been excellent. Local sales are good, and phones are super. It's good for our night-time audience 'cause it's got the hook that grabs both the younger and older demos. And besides all that they look great.*

**Kevin Nissley, WUCF, Orlando—**  
*A versatile metal act with enough edge to please the hard rockers yet with enough harmony for real musicians to appreciate. We started with "Power Love", and now were getting calls for "Armed and Dangerous" and "Hard and Heavy".*

**Bob Berzins, KRSR, Las Vegas—**  
*New and well-received in Las Vegas, Lion is a band with a lot of potential.*

**NEWS**

Trick or Treat party animals. This is Sal "The Beast Of The East" with another dose of hard rock/metal news.

You are probably not going to believe this initially, but take my word on it. This bit of information comes from a very well placed source. Billy Sheehan is out of David Lee Roth's band. You read right. Billy Sheehan and David Lee Roth have parted company. Roth and his band of merry ole souls had recently begun work on a new record. It is not known whether they had begun the actual recording. Details are still sketchy but we will definitely keep you posted on this one.

Former Black Sabbath vocalist, Ray Gillen, is out of Blue Murder. Blue Murder also features former Whitesnake, Tygers Of Pan Tang guitarist John Sykes, ex-ELP drummer Cozy Powell and former Firm bassist Tony Franklin. It is alleged that Sykes and Gillen were not getting along. Because of this rift, Geffen Records was apparently putting pressure on Sykes to make a move. Once again, we'll keep you posted.

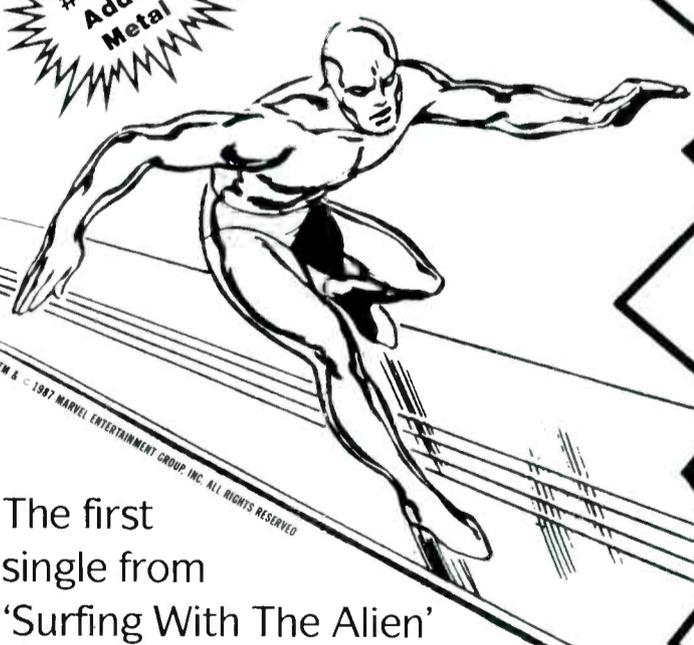

Atlantic Records is going to be quite busy in the coming months. We recently mentioned that Ace Frehley will be supporting Alice Cooper as will Faster Pussycat. Now comes the word that White Lion recently was confirmed to open the Kiss tour. We have managed to come up with the tour dates for both Ace and White Lion.

I recently spoke to Gary Holt of EXODUS regarding the band's upcoming tour plans. Here's how the conversation went:

**HR:** TELL ME ABOUT THE UPCOMING TOUR.

**GARY:** We're going out with Anthrax for about 15 dates. The rest of the tour will be headlining dates.

**HR:** YOU MUST BE EXCITED ABOUT YOUR UPCOMING DATES WITH ANTHRAX AND CELTIC FROST!!!

**GARY:** It's gonna be a blast. It's been a long time since we've been out on an actual tour. It's gonna be a major package. It's gonna be complete mayhem. We're just gonna go out and crush as we know best.

**HR:** HOW'S STEVE (new vocalist Steve Souza) DOING? IS HE PREPARED TO GO CROSS COUNTRY FOR THE FIRST TIME?

**GARY:** He's more than prepared. That's the good thing about Steve is that he can do his vocals day in and day out. He can do them completely tight. He can stay as tight as the rest of the band. He's really excited. It's his first time going out.

**HR:** WHERE WILL THE TOUR TAKE YOU?

**GARY:** We start in San Diego and go through the southwest and do everywhere in Texas, but Dallas, headlining. The Anthrax thing starts in Chicago. We'll be doing Chicago, Detroit, Poughkeepsie and the Felt Forum in New York, plus Boston and some other dates.

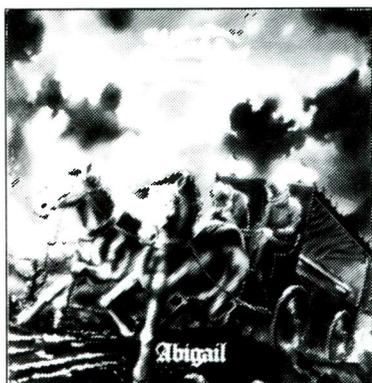

**HR:** WHAT'S THE CURRENT MOOD OF THE BAND?

**GARY:** We've got more energy going through this band than we've had in a long time. With the album coming out and a new vocalist, we just want to come out and prove that we've never gone anywhere. We're still the same Exodus. There should be some really good violence on this tour both on and off stage.

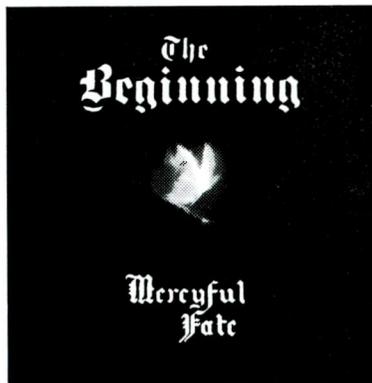

There you have it. The always sadistic Gary Holt also told me that he wants to produce the bloodiest movie ever made. He claims that he had planned it once before, but later put it off. Should be interesting if it ever happens.

That's all for now ghosts, goblins and ghouls. Until next time, this is Sal "The Earl of Earache" Treppiedi reminding you that it's not whether you trick or treat, but whether or not your costume can top Mr. Death's naturally morbid features. MUAYA!!!

# RED HOT

Anyone who has experienced the *Red Hot Chili Peppers* first hand will tell you that this band is an industrial strength sound experience. Meet a young group of L.A. based funk-rockers who have absorbed their surroundings and bounced back with what lead vocalist Anthony Kiedis terms as organic funk from the soul. The idea is safe and sound on their new album aptly s, titled "*The Uplift Mofo Party Plan*", their hardest rock-fest extravaganza to date, combining fiery spirit with raging rhythms and sweeping lyrical force. It challenges the senses and just as their live show, ignites audience reaction. The band is on tour now - and just before count down Anthony took time out to introduce the band with the Plan...

*Dawn Hood:* What is The Uplift Mofo Party Plan?

*Anthony Kiedis:* The Uplift Mofo Party Plan is a feeling... a state of mind, a being, a universe, an erection, an ecstasy in your brain and in your entire body. It's based on taking a person who's feelings might be plummeting into the depths of unhappiness or who is feeling stagnant, and upwardly motivating them to a state of elated consciousness. To make them feel like they want to kiss their neighbor and party all night long with a house full of cats. The Mofo Party Plan was made to stimulate your groove bone and make you

# CHILI

really happy about life, sex, music and the future - all the good things to be happy about. It's also the title of this record, a psychedelic funk-rock extravaganza. After we made this record we were so completely satisfied that we had finally captured on vinyl what we had been trying to capture for the last 3 years, which is our enormous live energy and studio wit. Our funk and rock and soul, all combined in a focused manner on one part, but makes you unfocus on everything negative and to open your mind to the reality of everything we've created - that's the Uplift Mofo Party Plan.

# PEPPERS

**D:** What was your motivation to create the kind of music that is the Chili Peppers?

**A:** It's an expression of our feelings and thoughts. We experience life here in Hollywood on different levels and we take in all the good things we choose to take in. We don't base our music on any particular influence, we are influenced by what we listen to but we don't try to create any type of genre. We just try to express our feelings and it comes out uncategorizable! Over the years we've been known as bone-crunching mayhem funk but what we really are is a combination of soul, funk and rap and it's a style we've integrated into a live situation. The more of a party we create on stage by playing this live organic music, the more we make the audience happy. The more happy the audience is - the more happy we get. It's a non-stop perpetual show.

**D:** What kinds of people do you see when you look out into the audience?

**A:** People who are intelligent, people who want to have a good time and people who want to express themselves. People who aren't restricted by commercialism and those who want to experience something new and different. There's not one class of people. I see people from ghettos and from mansions, and all races and cultures. It just depends on where we are. In the south they love us when we get out there and play this organic funky music. Then in New York we'll play to these pseudo-intellectual types who think they're on top of it, and they enjoy it just as much.

Chili Peppers continued...

D: Where are the band members from?

A: Have you ever listened to the song "Organic Anti-Beat Box Band"? That kind of explains where we're all from. The guitar player Hillel Slovak, was born in Israel and he's the cowboy from the Holy Land. The bass player, Flea, was born in Melbourne and he's the thunder from Down Under. The drummer, Jack Irons, was born in Los Angeles. I was born in Michigan to the sweetest mother in the world. We're all from different parts of the planet but we wound up in Hollywood by the time we were 12 years old and just started experiencing life. We met at Fairfax High School, and it wasn't until about 2 years after we left school that we started the band. The others had been in bands before, and I was just a wandering minstrel or poet. When I heard Grandmaster Flash, I realized that I had the ability to make a musical statement without having a Marvin Gaye voice or a Stevie Wonder melodic style. That I could explain my poetry and combine it with music and create something worth while. So we started the Chili Peppers kind of on a whim. We formed to play one song for a friend of ours and practiced on the spot. We got up on stage and performed live for the first time together, going completely bananas and the song came out perfect! The audience was drooling for more. The good thing about the band is that we were all great friends and that chemistry kind of portrayed itself to the audience.

D: What question are you asked the most?

A: It depends on how well informed the interviewer is - whether or not the person is some critic idiot who knows nothing about the band, who asks us questions like "Why do you guys play black music when you're white?". Then there's no answer other than that we play the kind of music that we like and it doesn't matter what color we are. We just want to create what we feel. We do what we want to do, and we do it the best we can.

D: How did you hook up with Michael Beinhorn and Demolition Sound?

A: Well, Demolition Sound is really kind of a joke. It's just a name for one man who has the great ability to write music and to take someone else's music and record it the way they want it to be recorded. He worked with Herbie Hancock and his smash hit "Rockit" and with Bill Laswell, and he had been in a band called Material which all of us are very fond of. He's a very good writer and arranger. We invited him to tour with us, because when we were thinking about making another record we were on the road. He heard our records before and liked them but he didn't really think that we ever captured on record what we performed live. He saw our shows and thought that they were amazing but our records didn't capture that energy, so we sat down and discussed our musical tastes and we realized that we had the same love for the same types of music. He thought that he could do for us what no other producer had done before which was really to create that live feel. We decided that we liked this guy, and when we went into the studio with him having most of the music ready I was still in the process of writing the lyrics. I was having a writers block and he gave me the confidence to do what I needed to do. We went in and recorded the tracks live and then started working in the vocals. I'm kind of funny about having people in the studio, but he made me feel very comfortable and helped me do what I needed to do. He gave me the confidence to do my best.

D: "Behind The Sun" is a real departure from your sound. How did the song come about?

A: Our guitar player had written the melody, and we all agreed that it was beautiful even though it wasn't our normal style of funk rock. We felt that it was so beautiful that it merited attention and a song. I didn't really know what to write at that point but the song made me feel like I was on the beach in the sun and that song made me feel so good! I didn't really know how to deliver it even though I had no problem writing the lyrics. But Michael Beinhorn figured out the vocal melody and he gets credit on that song because his part in figuring out the vocal melody is so important. It was very difficult to sing it because I'm not used to that style, but once the special touches were added like the sitar, that's how it came to be. We don't want to be known for "Behind The Sun" even though we are proud of it, because it's not our usual style.

D: How does the band relax?

A: One way we relax in the summer is to go to the mountains with our backpacks and freeze dried food and clothes. We hike away from civilization as far as we can go for six or seven days. We sleep under the stars in our sleeping bags with an intense campfire going and we drink from the purest streams of water.... We also like to spend time with our girlfriends. I am in love with a beautiful girl named Lone. I wasn't even looking for her, but we found each other. She's an aspiring actress in L.A. and she just appeared in a movie called "The River's Edge". We read to each other under the covers at night.

D: If you could play to anyone in the world, who would be in the front row? and what song would you sing?

A: I would really like to play for Martin Luther King Jr. I'd play a song called "Green Heaven" from our first album [he breaks into the rap].... I would also like to play for Jimi Hendrix and we might play a song called "Funky Crime" from the new album.... I'd also like to play for Bob Marley. For him I'd choose "American Ghost Dance".

D: Can you explain the Sock campaign?

A: That concept began when I was about 16 years old. This girl had a thing for me and I didn't really care for her at all. She beckoned my roommate to get me out of my bedroom to talk to her and she was under the impression that I had a stimulating genital region. I came out of my bedroom with a sock around my [stimulating genital region] and when my friends all heard about this they thought it was classic. Then when we formed the band we played at a club there were these girls were stripping on the sides of the stage one night. So we decided that for the encore we'd all come out wearing socks. This blew the audience's mind and we became known as the guys who wore socks on their dicks. When we were feeling really crazy about every 20 shows we would do this. It eventually became famous.

D: It also became a tee-shirt!

A: Our record company told us we could never use the photograph and that we should burn the negatives because there was no way the press would ever enjoy it. But we secretly submitted it to the L.A. Weekly and they ran it in a prime location. The next day all around the record company people were putting the picture up around their desks. The next thing you know we've got tee shirts and pens that when you turn them upside down our shorts fall off to reveal the socks. We've got posters, we've got picture disks and now the idea has really taken off.

D: Let's talk about the video...

A: We had total control over the video. We had a choice of any director, but a friend of ours who had previously done a no-budget production of our song "Catholic School Girls Rule" was the person we chose. He's an actor and creator about town who's name is Dick Rude. We suggested him to the record company to their apprehension, but it was important to us to use someone who is creatively inspiring. We did a video for "Fight Like A Brave" which is the single. When it was over we f\*\*\*\*ing loved it. It is the best video we ever did - in just two days! Our director was considerate, talented and sensitive to what we had in mind. We sent it to MTV and thought they would love it but they didn't because the word "bullshit" appears in the lyrics. We were heartbroken but we edited the "bullshit" part and now MTV says that they'll run it. It's action packed and it's fun and it takes place in Hollywood!

...and speaking of film, the Red Hot Chili Peppers will also be performing their single "Fight Like A Brave" in an upcoming movie production of "Less Than Zero". Bassist, Flea appears in "Dudes", and the band will also be seen in the movie "Blue Iguana". Rumor has it that the song you'll hear in "Blue Iguana" will be a cover version of James Brown's "Sex Machine". Ow!

**JOHNNY WINTER**, whose last three solo albums have been released on Alligator Records, has signed to Voyager/MCA. "I just wanted to get more records to more people," Winter says, though he adds that Alligator allowed him "to play straight blues."

**DAVID BOWIE** says the claim of a Dallas woman that he raped her after his concert there has set the "plight of genuine rape victims back 100 years." The woman contends Bowie sexually assaulted her in his hotel room at The Mansion. "The real tragedy of this whole event is that it puts the plight of genuine rape victims back 100 years," Bowie said in a statement. "This entire affair is the concoction of a malicious woman in search of international publicity." A grand jury has set a November 11 date to hear testimony on the woman's allegation.

Keyboards player **NICKY HOPKINS** is the musical director for **ART GARFUNKEL'S** upcoming tour.

**THROWING MUSES** begin work on another album next month, produced by Boston musician **GARY SMITH** of the band **LIFEBOAT**. "We've had different reactions to the new material," says singer & guitarist Kristin Hersch. "Gary thinks it's the most accessible things we've done, and our manager thinks it's the least accessible. It's very complex and difficult to play, sort of punk-jazz. We've analyzed it from all sides; but we hope to play it with the confusion that we like so much."

**HUSKER DU** are using a two-week U.S. tour to try out material for the follow-up to their album, "Warehouse: Songs And Stories." "We're getting a feel for it (the new songs) and then we'll see what we can do with it in the studio," says guitarist Bob Mould. "As far as direction goes, I don't think it will be a great departure from the past few records. I just hope the songwriting is a bit stronger." Mould says there will be some change from the group's last album. "We're not really closing the book on that chapter, but it's time to move forward. Who knows where it's really going next?"

**WARREN ZEVON** says he has begun writing tracks for his next album, which he hopes to record with some of the members of his current touring band.

There may be a new CD from the **DOORS** that includes material from the "Absolutely Live," "Alive She Cried," and "Live At The Hollywood Bowl."

**GEORGE HARRISON** says it's inevitable that his new album will be compared to the Beatles. "I don't mind," he says. "A lot of the stuff we did, like 'When We Was Fab,' was intentionally reminiscent of that whole late '60s feel.. And on 'Fish On The Sand' I used my old Rickenbacker 12-string for the first time in years -- in fact probably since we did 'Ticket To Ride.' And with Ringo playing drums on most songs, you've got half the Beatles right there."

**SUZANNE VEGA** says the youngster who inspired "Luka" showed up at her former apartment last month. "I ran into my old roommate recently," Vega says. "And she said she got a knock on the door one day. She said, 'Who is it?' And he answered, 'Luka.' And she's like, 'Yeah, right!' She opens the door and there's this kid standing there...he's now a teenager, 13 or 14. And he has this girl standing next to him. He points

his finger to the girl and he says, 'Will you please tell this girl that Suzanne Vega really did live here?'" The recently-released Spanish-language version of "Luka," translated by Suzanne Vega's father, has already become the number one single in Uruguay.

A concert by **MR. MISTER** in Tempe, Arizona, has raised about \$8,000 for a college scholarship fund named after a police officer who was shot and killed in a freeway chase with a man on a motorcycle last month. About 550 people came to the benefit show at the Tempe Hayden Square amphitheater. "Something has to be done to curb the violence in this country," says lead singer Richard Page. "That kind of violence is gut-wrenching to all of us, and it's really wrong." A continuing scholarship fund is planned for Arizona State University's School of Criminal Justice.

Previously unreleased tracks will be included on the CD version of the **ALAN PARSONS PROJECT'S** "Tales Of Mystery & Imagination." Alan Parsons has digitally remixed and remastered the 10-year-old album.

**THE CONNELLS**, a North Carolina band, have just released their second album, "Boylan Heights" (on TVT Records). The LP was produced by Mitch Easter.

**JETHRO TULL'S IAN ANDERSON** plays flute on one of the tracks on Men Without Hats' new album.

**THE JESUS & MARY CHAIN** have asked **OPAL** to open for them on their tour of the U.S. which will start November 3 in Philadelphia. **OPAL**, whose current album is called "Happy Nightmare Baby," will now have two guitarists. Bass player Kendra will now play guitar, and Will Glen, formerly of the Rain Parade, will now be bass player. Keith Mitchell, formerly of Green On Red, has joined Opal as drummer.

**FIREHOSE** have completed their new album, "if'n," scheduled for release in mid-November. One of the 13 tracks on the album is John Fogerty's "Operation Solitaire." Another cut on the LP is called "For The Singer In R.E.M."

The Wisconsin band **TAR BABIES** have recorded a new album in Los Angeles.

**THE RAMONES'** new video for "I Wanna Live" is based on Bon Jovi's video for "Wanted Dead Or Alive," according to director Preacher Ewing. "It's not exactly a parody, but more like the Ramones' version of an on-tour video," Ewing says. The clip was filmed in New York City, Long Island, New Jersey and Washington, D.C., during the band's mini-tour of the east coast in September. The black & white clip uses the "Thrill Cam," which was developed "in honor of David Letterman's rig. We took a cord and ran it from above the balcony at The Ritz," Preacher says. "It created a fairly unique shot. We call it "low-tech innovation." The Ramones are currently on tour in Europe.

**BRUCE SPRINGSTEEN** has agreed to perform at an all-star tribute to Harry Chapin at Carnegie Hall on December 7. The event is being organized by Ken Kragen, Chapin's manager and founder of the USA For Africa effort. The tribute will also feature **PAT BENATAR**, **JUDY COLLINS** and the **SMOTHERS BROTHERS**.

**THE BONGOS' RICHARD BARONE** has released a solo live album, recorded this summer at the Bottom Line in New York. The LP includes a number of Bongos tunes, as well as T. Rex's "Mambo Sun," David Bowie's "The Man Who Sold The World,"

and John Lennon's "Cry Baby Cry." It sees Barone backed by cello, acoustic guitar and percussion.

**THE MISSION** are now in the studio with former **LED ZEPPELIN** bass player **JOHN PAUL JONES** producing the sessions. There are plans for a four-track EP in January, and an LP in February called "Children."

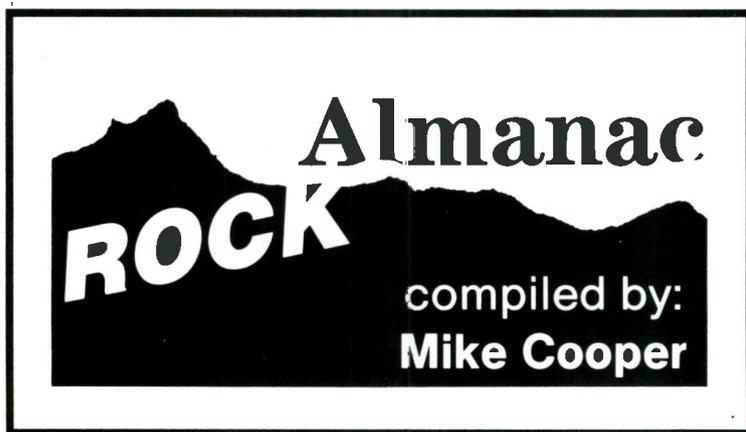

**THE POGUES** plan to release a new album next month which will include a duet with Kirsty MacColl called "A Fairy Tale Of New York." The LP was produced by Steve Lillywhite. The band will be back in the United States before long. Terry Woods and James Fearnley of the band make a guest appearance on the new Talking Heads album.

Variety reports that EMI-Manhattan has dropped or lost a number of artists who were on EMI America Records before its merger with Manhattan in June. **SHEENA EASTON**, **PETER WOLF**, **KIM CARNES**, **JASON & THE SCORCHERS** and the **NEVILLE BROTHERS** are among the artists who are no longer with the label. The publication says the **DEL-LORDS** are being released from the label, and **KATE BUSH'S** contract has not been renewed.

Rykodisc plans to release **FRANK ZAPPA'S** "Peaches En Regalia" on what it says will be the first commercially-available 3-inch CD single.

**THE CARS' ELLIOT EASTON** is producing a single by the Canadian band Jeffrey Hatcher & The Big Beat.

The soundtrack to the film "Less Than Zero" will be released November 2nd, four days before the movie opens. Included on the soundtrack are a **BANGLES** cover of **SIMON & GARFUNKEL'S** "Hazy Shade Of Winter," and tracks by **ROY ORBISON**, **JOAN JETT**, **AEROSMITH**, **L.L. COOL J.**, **SLAYER** and **POISON**. Rick Rubin produced the LP.

## BRIT-PICKS: Albums

**"Mainstream" by Lloyd Cole and the Commo-tions (Polydor)**, Britain's most uptight pseudo-intellectual, has nevertheless come out with an album that contains many moments of brilliance. Lloyd is not one of life's laid back easy going guys and once again he has fallen into traps of pompous narcissism and jarring lyrical structures, after the light breezy single "My Bag" seemed to promise some relief from past excesses. However, Cole is still too important an artist to ignore, particularly when he lays down tracks like the sumptuous "Jennifer She Said" and an ode to -- of all people Sean Penn.

**"Nothing Like The Sun" by Sting (A&M)**...In which Sting carries on the themes he started with "Dream Of The Blue Turtles," a very conscious departure from the sound of The Police. Sting is very gifted and has moments of sheer brilliance, there is no doubt about it, but I think putting out a double is still pushing it; "Rock Steady" and "We'll Be Together" come across as lazy filler, although their "jamming" quality may be more suited for radio. The high points are clearly "They Dance Alone" which depicts the fate of a Chilean woman and the disappearances of political dissenters; "Fragile" is a moving song on the death of Sting's mother. Although we could do without all the oh-so-clever literary references and scholarly sleeve notes, "Nothing Like The Sun" has genuine star quality.

## UK MUSIC NEWS:

The "New Musical Express" story about a forthcoming split in **NEW ORDER** continues to be denied by sources close to the band. Terry Mason, New Order's tour manager said "It's a load of crap! A case of people putting two and two together and getting five. As you know, New Order have been on the verge of splitting up for the past two years, but they always seem to work it out in the end. Suddenly the idea of Barney doing his solo project started ringing off alarm bells with everybody over nothing." Mason is referring to reports that Sumner has been considering several solo possibilities, the hottest rumor is a large offer from EMI. Peter Hook is also strongly rumored to be off to do his own thing with Mark Reilly (ex of The Fall) and his band The Creepers (This collaboration could also include ex-Smith Mike Joyce). The band have, it should be noted, temporarily broken up in the past. After "Blue Monday" they parted company to pursue their own projects before getting back together. New Order's next single, "Touched By The Hand Of God" comes out next month and a new album is expected out in December when the band will also play a major London show. After that they have nothing scheduled for at least six months. Their current collection of twelve inch mixes on one album, "Substance" has just entered the American Top 40 Albums.

**U2'S** documentary about The Joshua Tree receives its premiere in British cinema next April. Shooting of the untitled movie has been going on throughout the tour which ends in mid-December. It's directed by American film maker Phil Joanou, whose past credits include working with Stephen Spielberg. Meanwhile "The Unforgettable Fire" is the official biography of U2, published in the British Isles by Viking Books on November 2nd. It's author E. Dunphy has had no previous experience as a rock writer. He was formerly a soccer player for Millwall and the Irish Internationals as well as president of The Professional Foot-

ballers Association. Dunphy was allowed total access to the band, friends, family members and other associates. We are told that Dunphy is not subject to the usual vetting of the manuscript that an official biographer usually has to go through, in other words, he is supposedly free to write what he feels, without question. The book traces the band's rise from Dublin's Mount Temple School to the mega-sellers they are today. In the U.K., "The Unforgettable Fire" will cost 10 - 95.

**PHIL GOULD** and **BOON GOULD** have both left **LEVEL 42**, Neil Conti, formerly with Prefab Sprout has been named as the replacement for Phil on drums. Neil also played with David Bowie at his Live Aid performance at Wembley. Boon Gould will continue to co-write lyrics with Mark King, although the search is on for a replacement for recording and touring. Those catch all "musical differences" are the official reasons for the Gould brothers' departure. Level 42 are due to fly out to The United States during November to support Tina Turner on a nationwide tour. In 1988, the band will play New Zealand, Australia, Mexico, Venezuela, Israel and Ireland. Industry magazine "Music Week" reports that 5000 people here have already bought Level 42's "It's Over" Compact Disc Video, even though they've got nothing to play them on! CDV players won't be commercially available in Britain until January.

**DAVID SYLVIAN** releases his third solo album "Secrets Of The Beehive" this week containing nine new tracks. The CD version also contains "Forbidden Colours" from the "Merry Christmas Mr. Lawrence" soundtrack. The arrangements on the album are mainly acoustic instruments, together with strings, woodwind and brass sections, so don't expect a return to "Adolescent Sex"!! Steve Jansen is featured on percussion and Sylvian is also joined by long serving colleague Riuichi Sakamoto. Sylvian says of his new work: "Whereas my past work has consisted of writing and recording processes being of equal importance, "Secrets Of The Beehive" relies far more on basic composition than anything I have done before. The strength, if there is one, lies in this direct expressiveness of both lyric and melody." *Merci Monsieur Pretentious* 1987!

A sixteen track album of **PRETENDERS** singles has just been released spanning 1979-1986 and the many line up changes that have occurred. Tracks are: "Stop Your Sobbing" the very first single written for the band by Ray Davies; their first American hit "Brass In Pocket," "Talk Of The Town," "Kid," "I Go To Sleep," "Day After Day," "Message Of Love," "Back On The Chaingang," "Middle Of The Road," "2000 Miles," "Show Me," "Thin Line Between Love And Hate," "Don't Get Me Wrong," "Hymn To Her," "My Baby" and "I Got You Babe" with UB40. Phew! An album to eat up the airwaves or what???

**DAVE STEWART** of **EURHYTHMICS** fame has set up his own label, Anxious Records. First release is from the duo Espanato whose debut single "Love Is The Cure" comes out this week. Other signings (who are total unknowns) are Big Men, Toni Halliday and Londonbeat. Anxious Records will be distributed by Eurythmics current label BMG. In the latest ex-Smiths developments, Andy Rourke and Mike Joyce played in London this week with The Adult Net, the sideline band of The Fall's Brix Smith. Joyce is also working with ex-Fall member Mark Reilly. Meanwhile, still beavering away at Tears For Fears' studio in Bath, Morrissey and Stephen Street have now come up with 18 tracks! More than twice the amount needed for Morrissey's first recording project for EMI. Johnny Marr has been playing on television shows with Bryan Ferry to promote "The Right Stuff" as well as making surprise appearances with virtually unknown Manchester bands at various venues. He soon flies out with The Pretenders to America.

## UK INDUSTRY NEWS:

The end of a great era in British pop music occurred this week when **DAVE ROBINSON** resigned from the **STIFF LABEL**. Robinson founded the label in 1976 with Jake Riviera and it became in the late seventies THE voice of new wave music. Their first signing was **THE DAMNED**; by 1977 their roster grew to include a then unknown **ELVIS COSTELLO**, **NICK LOWE**, **WRECKLESS ERIC** and Larry Wallis - by 1978 that swelled to include **LENE LOVICH**, **RACHEL SWEET**, **JONA LEWIE** and **MADNESS**. One of the first genuine indie labels, they shocked the established music industry with gleeful slogans like "If it ain't Stiff it ain't worth a f\*\*k" and "The shape of things to come". Quieting down in the eighties, the label went on to discover **KIRSTY MACOLL** and **THE POGUES**, but by 1985 had run into financial difficulty and were bought by ZTT. Now their only remaining act, The Pogues are off to new pastures, amidst alleged personality clashes between Robinson and ZTT controller Jill Robinson, who is believed to be the cause of Robinson's departure. Even if they continue in name, with no acts and none of the original Stiff staff left, a label that stood for so much in the last ten years, now stands for nothing.

Stand by for the world's first Compact Disc jukebox. Called The Discaster and manufactured by a London company, they will be in London pubs and clubs by Christmas. The Discaster is about the size of the traditional jukebox but hold a 1000 songs, at 30 pence (about 50 cents) a throw.

## IN BRIEF:

**MARILLION** release a single from their "Clutching At Straws" album. "Warm Wet Circles" backed by a live version of "White Russian" while the 12" also contains "Incommunicado." The band has added an extra show on their current British tour as a benefit for muscular dystrophy research ... **WHITESNAKE** releases a re-mix of "Here I Go Again" on EMI on seven inch only with a limited edition fold out poster bag.... **MEATLOAF** releases a 1987 version of "Bat Out Of Hell" on October 26th to mark a decade since it originally hit the British charts. It remained in the top 100 albums for nearly seven years! The new record is taken from live recording at 100 albums for nearly seven years! The new record is taken from live recording at Wembley Stadium.... **THE JESUS AND MARY CHAIN** release a new single, "Darklands", the title track from their current album. The 12" includes a cover of **THE BEACH BOYS** "Surfin' USA," "Riders" and "Off The Wall".... Both "Melody Maker" and "The New Musical Express" have - would you believe - an Icelandic band on their covers, **THE SUGARCUBES**. Their debut single "Birthday" is receiving progressive radio play and will be of particular interest to alternatives currently playing **THE COCTEAUS**, **SHELLEYAN ORPHAN**, **MOSUS** or even **THROWING MUSES**. Phonogram are rumored to have offered **THE SUGARCUBES** a 100,000 contract. Another band of a similar nature who has caught my ear are **THE GUN CLUB** whose debut album "Mother June" on Red Rhino Records is produced by Robin Guthrie from **THE COCTEAU TWINS** and you can certainly hear his influence.... Expatriate Zimbabweans, the very excellent **BHUNDU BOYS** are considering prosecuting a hotel in the English town of Leicester under The Race Relations Act after they were refused entry because they were black. They were turned away, even though they had booked rooms four days before. The recent WEA signing has a new album out of sweet African rhythms. ... French riot police fired teargas at **RAMONES** fans last week in Paris outside their venue. Hundreds of fans threw missiles at the doors of the concert hall after being turned away from the sell-out show.... **GEORGE MICHAEL'S** debut album "Faith" is out on November 2nd in the

U.K.... **ALANAH CURRIE** of **THE THOMPSON TWINS** is about to give birth to twins!... **THE MISSION** release a four track single in January followed by their record album, "Children" in February. The band is currently recording with the former **LED ZEPPELIN** bassist **JOHN PAUL JONES**. One track for the single is rumored to be a cover of Aerosmith's "Dream On".... Classic punk from Sham 69 is collected on one album "Angels With Dirty Faces" on Receiver Records... **THE BOLSHOI** have just returned from a tour of Brazil and Argentina where they were obliged to hire bodyguards and use police protection... **ICICLE WORKS** bass player Chris Layhe was stranded on the Greek island of Farce last week after force eight winds got so bad, no-one could dock a boat there. As a result many holiday makers missed their flights home from the Athens airport and hundreds had to camp out. Chris was 599th on a standby list of 600... **POP WILL EAT ITSELF** release their debut album "Box Frenzy." Tracks include "Beaver Patrol," "Razerblade Kisses" and their simply wonderful version of "Love Missile F-1-11" ... **THE COMMUNARDS** release their cover version of "Never Can Say Good-bye." Whatever became of Bronski Beat I wonder?... **PAUL WELLER**, whose new Style Council single "Wanted" is just out, complained at Italy's Umbria Festival that The Style Council could not possibly play on a stage that was as small as the one provided. Curiously, Sting, Gil Evans and a 17 piece orchestra seemed to have no problem fitting onto it and without complaint. Could it have had more to do with the fact that grumpy Paul was displeased by the fact that only about 1000 turned up to The Council's segment of the festival?

**CAUGHT IN THE ACT:**

**The La's The Marques. London**....If you're ever in London, catch a gig at The Marques. It's where bands play when they've become good enough to perhaps break out of the club circuit and onto the big time forever. You always see at least a dozen music business faces down there every night. On this particular night, they were getting squashed by dozens of young fans who had hired two coaches to come down from Liverpool to see their local favourites The La's play their London gig. Recently signed to GO! Discs, their debut single is "Way Out" a heady mixture of Merseybeat and summer of love production. After years of Liverpool bands claiming to distance themselves totally from Merseybeat, it seems The La's may make a revival fashionable with their agreeable, jangly pop that for my money actually sounds like The Rolling Stones circa 1964 - it's got that Jaggerish whine and a respect for old R&B built into the sound. None of which would matter to their Liverpool faithful who just enjoyed themselves. Look out for the promising guitar pop of The La's.

**UK CHART SURVEY:**

**Albums:** "Alphabet City" by ABC enters at 7. "Tango In The Night" by Fleetwood Mac climbs 8 places to 4. After only one week at 1, Bruce Springsteen gets dethroned by Sting with

"Nothing Like The Sun" which enters the Top 100 at 1. **Singles:** New at 38 "Mony Mony" by Amazulu, one of two versions of this record in the charts, Amazulu's is the funkier. New at 37 "So The Story Goes" by Living In A Box, a slower and more moody song for them, great production. New at 31 "No Memory" by Scarlet Fantastic, highly recommended to alternatives. New at 30 "Beethoven (I Love To Listen To)" - The Eurythmics. Up 6 to 29 "Just Like Heaven" by The Cure. Up 7 to 23 "Dance Little Sister" by Terence Trent D'Arby. New at 17 "Rent" by The Pet Shop Boys. Up a massive 15 places to 15 "Maybe Tomorrow" by UB40. Up 6 to 12 the good-humored funk sounds of Was Not Was and "Walk The Dinosaur." Up 10 to 11 "Little Lies" by Fleetwood Mac. Highest new entry at 10 for George Michael and "Faith." At least it's not another dreary ballad. It has that syncopation and echo production that reminds me strangely of Billy Joel's "It's Still Rock and Roll To Me." Give it a listen and see what you think? Up 9 to 8 "Mony Mony" by Billy Idol. Up 5 to 7 "The Circus" by Erasure. Up 17 to 5 "Love In The First Degree/Mr. Sleaze" by Bananarama. The Bee Gees maintain their hold on the top of the charts with "You Win Again", which having now passed the 250,000 mark, becomes their first silver single since "Trajedy." "You Win Again" is the 57th hit penned by the brothers Gibb, the 30th Top Ten hit.

**BRIT-PICKS Singles:****Muscle Deep by Then Jericho (Polydor)**

Brilliant! There's so much feeling and aggression in the vocals, while the band provided a perfectly rounded produced sound for a commercial world. They are going to be massive.

**"Letter From America" by The Proclaimers**

**(Chrysalis)** This is NOT the version on the album "This Is The Story." It has been totally remixed and sounds glorious. A chartbound sound if ever I heard one - alternatives should check it out and this Scottish music is so hard to pigeonhole, you never know who else might not want to dip their toes in too!

Occasionally a great album comes out that is almost completely ignored. There is major competition, your playlist is full, it's an unknown band, the label has other priorities, etc. Rarer still are the times when the record company decides to go back and rework that project, convincing programmers to play a record that has been out for months. This is the case with the band White Lion. In every fiber of my body, I believe these guys have got what it takes to become major stars. They've got the musicianship and a straight ahead rock and roll sound with massive hooks. Avoiding comparison, if you play Van Halen or Bon Jovi you can play this record. With renewed commitment from Atlantic and a breather in the recent avalanche of releases, give these guys another shot. I think it would be pretty exciting and gutsy if AOR could break yet another rock and roll band from ground level zero. It only takes a few key players to get the ball rolling. Care to play ball?

**Dewey McCafferty, WKNC, Raleigh**

Dokken, Dokken, Dokken. We're excited about the upcoming show with Aerosmith. If this single is any indication of what the album is gonna be like, then it should be BIG!... To all the reps: We're now doing a feature in November and December. It's 6-packs at 6:00 on our Wednesday album workout. Any new music is appreciated.

**Rik Elliot, WRQK, Canton**

Lynyrd Skynyrd was incredible in concert! It is a must see show. They have an amazing rapport with their fans. People were standing on their chairs, screaming at the top of their lungs, loving every minute of it. It will convert any non-believer. Go see them, they sound great.... Like the Robbie Robertson an awful lot. Going with "Sweet Fire" due to the U2 connection. The whole album sounds pretty good but that combination is just too powerful to ignore.... Jimmy Davis is a record I've wanted to get on for a number of weeks but just had a space problem. Sounds great, got a lot of good hooks.

**Harve Alan, WCCC, Hartford**

If you play "Hazy Shade" from Simon and Garfunkel, then listen to the Bangles new version. It makes a lot of sense to play this new Bangles tune. The band has always worked for me here... Let's just say incredible to the new INXS Lp. Not a bad track on it.... An automatic add has got to be Dylan with Clapton. Excellent classic rock combo.

**Tom Scheppeke, KISS, San Antonio**

The first time I listened to Triumph, I missed it. And I didn't hear it the second time either. Then I was gettin' worried, and finally, when I got the CD in, I listened again and about the third or fourth time it kicked in. I think you have to listen to it in a kind of time release way. I think sometimes those are the ones that really seem to work.... Sting isn't necessarily our cup of tea, but I can't deny his presence as being a major artist in the format, so we're going to go along with it. Hoping we don't get negs from the Hendrix fans. Personally, I think it's a neat stylized version of the song.... Also added Europe's "Cherokee". We actually played this track about a year ago before this band was hot. Shit. We were so early on "The Final Countdown", we were looking for backup tracks back then. This is an easy add for us.... A lot of the INXS cuts have a James Brown/funk beat to them, and I guess that's their new sound, but the one cut that I hear that sounds safe enough for us to play (and reminds me of the old INXS sound) is "Tiny Dagers". I think the band is kind of poised on being big time, but the beast kind of scares me away.... Hey, about this Tesla track "Getting Better". I think it should have been the "Little Suzi" follow up. They're coming to town with Def Leopard.... How about "Hearts Of Fire". Surprised the hell out of me. The last time I heard a Dylan cut with guitars like this might have been "Leopardskin Pillbox" from "Blonde On Blonde"!

**Patti Martin, KSJO, San Jose**

Bob Dylan and Eric Clapton kick ass.... If I ever have a child, I'm going to name it after Robbie Robertson, boy or girl. Or maybe I'll have his child. What an album! I absolutely love every song on the record. But for airplay, my picks today are "Sweet Fire Of Love", "American Roulette" and "Hell's Half Acre".

**Jim Pemberton, WLLZ, Detroit**

New and exciting: Triumph, "Long Time Gone". Looking forward to the rest of this album, but in the meantime, "Long Time Gone" is more than sufficient. They've long been a success story here, and if you've had any success at all with them in the past you should be using the 12". Already huge phones.... We went with Robbie Robertson's "Sweet Fire Of Love"; a great complement song to "Showdown At Big Sky".... New follow up tracks this week from the Insiders. The first one did alright and "Love Like Candy" will do even better.... Glen Burtnick's "Heard It On The Radio". Hey Glen, thanks for the call. Your new one sounds good on the radio as we say.... Re-added the Michael Bolton for a little corporate rock texture.... Also using the Van Morrison for a little adult touch, middays and mornings, and that sounds good.... I sure like that Rainmakers cut a lot. Expect that one to move up next week.... P.S. to Marko: I want a Geffen jacket. Howard told me to tell you.

**Charlie Logan, WYNF, Tampa/St. Pete**

Icehouse moves up. One of those real smooth sounding records that really works well for us. They're a cutting edge kind of band who have now crossed over into the mainstream without alienating their past audience.... Dokken goes up as they are a huge act in Tampa Bay. Kids were calling weeks before it came out. #1 in our phones this week.... Triumph is another huge act here, debuting with instant top 5 phones.... A few interesting calls on the Guadalcanal Diary. Excellent live show.... The jocks can't get enough of the Rainmakers and the BoDeans. They throw it on every time Carey turns his back. Usually when the air staff gets that excited about a song, it comes home. They're just in love with it.... And I've never gotten phones like the ones I've gotten on "Tunnel Of Love".

**Gary Allen, KEZE, Spokane**

Always top 10 phones with Jimmy Davis, with a couple of top five appearances. It's got passion in it. The guy's talking about how many times guys have been jilted in their lives and when the chick dumps them, you feel like kicking the wall... Upper end really grooves to Joe Cocker, but they're not calling for it yet.

**Tom Starr, WOUR, Utica**

Not many artists can harness lush textures and pure power pop comfortably at the same time. U2 and Peter Gabriel do and listening to Robbie Robertson's new song, I get the feeling that their inspiration to him goes beyond their respective contributions to the new album. Consider this nothing less than a giant sonic magnet for the upper demos. A modern sounding record from a veteran that really embodies the concept that you're never too old to rock and roll.... We're hoping for the same from George Harrison.... Everyone has been waiting for Paul Carrack to deliver a career maker album and "One Good Reason" contains plenty of reasons to think this is it. Making a decision between the single and "Double It Up" was so mind-boggling, we went with both.... Brilliant disguises of Halloweens past. Remember when Deep Purple showed up on your doorstep in a Neil Diamond song and Judas Priest's cover of "Diamonds And Rust" made Linda Blair's problem seem like a minor case of gas? Two interesting new ones are stalking your office right now. Michael Bolton's surprisingly inspired version of "Dock Of The Bay" and the Bangles wild treatment of "Hazy Shade Of Winter". Nine out of ten remarks turn out to be tricks instead of treats. I'm not sure where these fit in but both are deserving of a jury of your ears.

**Anthony Alfonsi, WDVE, Pittsburgh**

The Robbie Robertson album is finally here and, of course, I knew it would be a good one. "American Roulette" will be a good backup for "Showdown At Big Sky".... Bob Dylan, with help from Eric Clapton, makes "The Usual" a high voltage number. Dylan's voice has a lot of punch to it, and that's the way I like to hear him sing.... The Rainmakers' "Snakedance" is a catchy tune. It took me a few listens to get into it, but once it grew on me, there is no doubt that it's a good song.

**Inessa York, KGON, Portland**

INXS has been such a success for us over the last couple of albums, almost in spite of their dancey sound. They're one of the few bands that have been able to persevere. This one has such a personal, sexy kind of a dancey sound, and I think it took us back a little bit. Think it will work really well for us. After we finally decided what are we waiting for, the top 40's are going to be all over this like a dirty shirt.... Also went with Jimmy Davis. This has been a real story for us, from the very first moment that MCA presented this project. Up until a week ago when I used it on the new music show, it's been a slow builder in our minds. And finally we said, you know, this ain't half bad. Doesn't break any new ground, but you can always use a straight ahead rocker. Looking back at these two, especially Jimmy Davis, this is living proof that it just took time to get these new artists on. I'm glad that MCA didn't give up on it.... Should have mentioned the Crazy 8's, because we have officially added the record this week. If you need information on them (you might have read CFNY's Don Berns mentioning them), gosh, call me.

Pound, Dave.... Since "Steel Monkey" did OK for us, we're going to go with something the Tull fans are more likely to accept. "Farm On The Freeway" has the flute signature that has become their trademark, and it's a much more fluid tune.... It wasn't until the song was over that I realized just how much I liked the Alarm's "Rain In The Summertime". The song really sneaks up on you.... Even on a half listen, one can tell that the Robbie Robertson album is very special. Hey Robbie, next time don't stay away so long.... An interesting conversation came up the other day. Lately our compact discs have been skipping (minus machine error) and we've been wondering if it's because radio put a great deal of pressure on the record industry to distribute more CD's. Has the quality of the production of the CD's gone down? Anyone care to discuss this?

**Kim Alexander, WHCN, Hartford**

From the soul of "Fallen Angel" to the passion of "Sweet Fire Of Love", to the dreaminess of "Somewhere Down The Crazy River" (does this remind you of "Spill The Wine"?), the Robbie Robertson album is brilliant. The cool thing is, Robbie will probably sell as many records to folks who weren't familiar with The Band as he will to his old fans. This is a masterpiece.... Also good this week is INXS, "Kick". Every tune is intriguing and "New Sensation" is a hit if I ever heard one. Good job, guys. Can't wait for the show.... "Trust Me To Open My Mouth" has always been my favorite tune on the Squeeze album which is great overall. We'll give it a spin, seeing as they're coming in concert soon.... I've been so efficient lately, I've had adds at the desk by 3 or so Monday. Feel free to call for them.... P.S. What do Elvis and Mike Boyle have in common? They're everywhere.

**Bruce McDonald, WFNX, Boston**

As a big fan of the Screaming Blue Messiahs, I was nervously awaiting the followup to their brilliant debut Lp "Gun Shy". I was not to be disappointed. It features Bill Cater's unique personal vision and manic guitar playing over one of the best 80's rhythm sections I've ever heard. "Bikini Red" is without doubt the most vital rock album to be released this year.... The Alarm has been our #1 most requested artist decisively since the release of "Rain In The Summertime". I wouldn't be so surprised but the competition is fierce with the current hit parade of REM, the Smiths, Depeche Mode and so on.... The Proclaimers record on Chrysalis is certainly a breath of fresh air. These twins from Scotland sound like a cross between the Everly Bros. and Billy Bragg.... Congrats to Tim Hyde, Jennifer Grossbernt and Jack Isquith. To think I knew Jack Isquith back when he was getting coffee for Joel Webber.

**Mike Marrone, WHTG, Asbury Park**

Let's talk about *Red*. Then let's talk about Robbie Robertson even though everybody is already talkin' about his new album! Key tracks - everyone of 'em. I don't care that it took him 10 years. It was worth the wait. Besides the obvious quality of the music, the one thing I'm looking for to come out of this record's success is that maybe the BoDeans and some of the other guest artists will finally be accepted at rock radio because of the association. It's a shame it takes a situation like this to give these people their due, but at least they'll get it. Get it?... We're very proud and pleased to present PiL November 17th at the Paramount Theatre in Asbury Park. This show is in association with the Green Parrot in Neptune, NJ. Opening will be the Lime Spiders!... Don Dixon's new album. Why isn't everybody playing "Cool". But then again, why aren't you playing the album! If *Red* were here, he'd play Don Dixon.... Speaking of *Red*, "Bikini Red", the Screaming Blue Messiahs are back and badder than ever. What was hinted at with "Gun Shy" is fully realized on this record. Please don't stop with "Flintstone". Play the rest of the album, like the title track and "Sweet Water Pools".... Peter Himmelman's new single "Waning Moon" is brilliant, but I've said it before.... Has anyone heard the new Big Dipper album? Check out "She's Fetching". It is wonderful.... Also doing extremely well for us at FM-106.3 Bryan Ferry, Bourgeois Tagg, The Alarm, Love & Rockets and Peter Himmelman.... Introducing Segue Feedback. Remember when AOR stations used to do segues?

**Brian Kryscz, WKLC, Charleston**

We featured **"Wait"** on the Top 5 At Five for four solid weeks! **White Lion** has developed into a huge request item here at WKLC, and the response initiated a special retail mailing in this market leading to an incredible sales story. And besides, for us to play a record in heavy rotation it's got to be good.

**Christina, WPLR, New Haven**

The INXS record cut for cut is the hottest, sexiest sound around! Our audience was quick to react and the phones are #1 for "Need You Tonight". I can't pick a follow up track because I like them all. Never saw an INXS show I didn't love to death. Thank you, Atlantic!... Guadalcanal Diary moves to heavy. We like it that much.... Martha Davis goes to power. It just sounds absolutely wonderful; one of her best records of all time. People are already calling about it and it's a song you can sing to -- and that's why it's in power!... Joe Cocker is doing great with better than average phone response.... Great production on the Rainmakers, so you can understand the very clever lyrics, and yet it's another song you can sing to.

**Jim Steel, WIOT, Toledo**

Due to the fact that the Cleveland Browns crushed the LA Rams, my Capital rep, Dave Tezak has ordered me to take a week of vacation. So I won't be around. Tezak on the other hand, to cover the loss of his Rams, will admit on his answering service that he is now a full fledged Browns fan. Welcome to the Dawg

**October 30, 1987**

Well, we still do. Two of the more recent ones that have worked extremely well are Bryan Ferry "The Right Stuff" into the Smiths "Money Changes Everything" since it's basically the same song! The other one is the Alarm "Rain In The Summertime" into U2 "I Still Haven't Found What I'm Looking For". Same song. We'd be very interested to hear what segues have worked for you at your station and so would *Red*. Thank you and have a nice day.

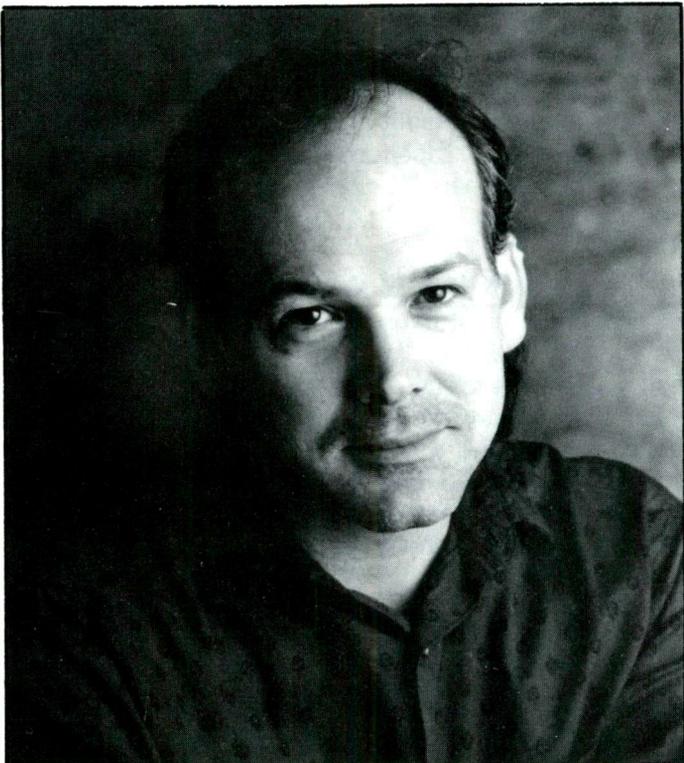

**Don Berns, CFNY, Toronto**

You know, when I came to Canada 2 1/2 years ago, I had a few preconceptions about Canadian music based on what I had heard during my years in the U.S. (Gordon Lightfoot, The Guess Who, Loverboy, Corey Hart, Bryan Adams). I thought, "Well, this Canadian stuff sounds pretty much like what's happening in the States so who really cares?" Then I got here and was totally turned around by the artists who are making music in this country, who are never heard south of our border. And I found myself jumping on the bandwagon because, frankly, the music I've been hearing here is as good or better than anything I've heard from anywhere else in the world. And it's not played here solely because it's Canadian, either. We, for instance, look for only quality when selecting new Canadian records to play. And if The Northern Pikes or Blue Rodeo or K.D. Lang or Chalk Circle can stand up to airplay back to back with the likes of Depeche Mode or Echo And The Bunnymen or REM or Roger Waters or Pink Floyd, then you know the music is quality and should be heard. And why all this ranting and raving over Canadian music? Simply so maybe one or two of you who read these comments will take the extra time to listen to 54.40's "Show Me" and Men Without Hats' "Pop Goes The World" albums. These bands have crafted outstanding projects that stand up to anything you are already playing in the genre of rock and roll (54.40) or pop (Men

Without Hats). Each album deserves airplay consideration at least on alternative stations; each album deserves to be heard by any audience who appreciates great music; each album is more than representative of the world-class quality of music coming from Canada. If you play REM and don't play 54.40, or if you play the Pet Shop Boys and don't play Men Without Hats, you are doing yourselves and your listeners a great disservice.

**Larry Dunn, WLIR, Long Island**

Everyone has an angle to a story. Recently a New York tabloid printed the amazing fact that the five times Billy Martin grabbed the reigns of Yankee Manager the stocks dropped. The four times Billy was fired, the Dow either held steady or went up. Stock market superstition or coincidence? Here's my angle to the recent slides in the Dow. As New York does the Wall Street shuffle with 10,000 Maniacs running around the floor of the Exchange, it seems to me that the country has spent INXS, employers are Dokken pay checks and brokers are Simply Red because money's too tight to mention. When Simple Minds predominate, who needs Pat Robertson for President when we all have Robbie? Anyone who can put together a cabinet of U2, Peter Gabriel, Maria McKee, Terry Bozio, BoDeans and Rick Danko deserves massive fourth quarter sales. The bottom line on Wall Street - It's immaterial when trading losses are paper money and for five years we've enjoyed prosperity. But in the words of corporate raider T Bone Pickins in front of a Congressional subcommittee on 10/20, he stated that 4,000 executives control the economy of the United States and there's nothing the government can do about. I call it white collar anarchy and non-stop massive computer hysteria. It seems George Orwell wasn't too far off. 1984 came, we just didn't know it... Screamer Of The Week: Depeche Mode "Behind The Wheel".... Special

thanks to Ben Orr of the Cars for phoning in live.... Special thanks also goes to Fred Schneider of the B52's for being a 3 hour guest-host with yours truly on WLIR's weekly Party Out Of Bounds program. Fred informed us the B52's will record their new album in January with a May release and a summer tour. The B52's are now managed by our good friend Martin Kirkup, who also manages OMD and Echo And The Bunnymen.... Finally, the joke of the week. What do you call a yuppie stockbroker? A waiter!.... Sincere congratulations go to Jack Isquith and Brad Hunt on their respective promotions.... My vote for second single on the INXS album is "New Sensation".

### **Howard Glassman, WEQX, Manchester**

What can I say about the Robbie Robertson masterpiece that hasn't already been said? It just might make the human race slow down for a bit and smell the coffee.... Just finished listening to the new Richard Barone album; while this might not make it on the air, I think everyone should own a copy.... This Saturday the tradition continues, Blotto-ween! And the Lord said, this is Good.

### **Jonathan Rosen, KEYX, Phoenix**

Love & Rockets move to heavy this week with "No New Tale". Clearly, it's a song that people really dig or really don't. I suspect the people that fall into the latter category are those who only want to hear their cover version of "Ball Of Confusion" over and over again! At the moment we're still looking for a follow up.... I would like to credit Ivar Hamilton for mentioning the Proclaimers many months ago. The name stuck out in my head and I liked it a lot. "Throw The 'R' Away" is picking up a lot of phones. It's similar to Billy Bragg but with a more uptempo edge - folk pop with a smile.... I really like the Bangles "Hazy Shade Of Winter", a great version that rocks them into another style.... Anything Bryan Ferry does right now will be successful. He's perfect for upper demos and can't go wrong with "Right Stuff". Well he could have, but he didn't.... Sometimes you miss a good song and months later you're faced with "do I not add it because the record is no longer charting?" or "do I add it because I truly believe I shouldn't have missed it and now I'm gonna rectify it." Now I'm gonna rectify it. TSOL "Good Morning Blues" from their Lp "Hit And Run" is something that I should have added months ago but due to "The Name Is Love" and one other track I avoided a song I shouldn't have. I'm forcing everyone else to play it because of my mistake!

### **Jamey Carr, KACV, Amarillo**

Some long overdue thank you's need to be cashed in. Thank you very, very, very much to John Sigler, John Souchak, Mark Cohen, Mike Mena and Jackie Tesman. You understand our radio station and make my job so much easier. It's always a pleasure to come away from a phone call with no injuries.... Thank you to our competition across town, KATP. You guys are a class act and it's great to have mutual respect. Integrity is everything.... Finally, thanks to all the labels signing all of these new acts! What a pleasure it is to come to work!

### **Renee Blake, WKXL, Concord**

Something great happened recently - I got a record from a local band called Blind Owl from the University Of Lowell. If you hit a radio blender on puree and stick in Justin Hayward, "War Of The Worlds", Emerson, Lake and Palmer, and the first Pink Floyd Lp you'd come out with Blind Owl! If you'd like to get a copy, call 617-671-9555. It's on Raptor Records in Billerica, Mass.... I love Van Morrison's new one. We're playing "Did Ye Get Healed" and sales have just started.... Top album of the year in my opinion has just made #1 sales at our local record outlet - Sting! A terrific record with a real jazzy feel!... Big sales for a new artist go to Jimmy Davis and Junction. They can't keep it in stock now that people are warming up to it.... The biggest retail questions from customers are: Where are the Robbie Robertson and George Harrison albums?.... A new artist I'm personally excited about is the Grapes of Wrath, an interesting sound that is compared on the album to the Byrds.... Martha Davis is back and

sounding better than ever.... We've already had our first request for "I Wanna Be A Flintstone" by the Screaming Blue Messiahs. I want to play that one after the Flintstone vitamin commercial.... The Housemartins album is an absolute future add, no question. The new album is a lot more political than the last and a number of tracks really get down on the government which makes it very interesting. The song "Johannesburg" is directed toward the situation in South Africa.... The Kane Gang album is real nice for anyone who likes bright, smooth and bouncy music that makes you feel happy!... Sales are going through the roof on Guadalcanal Diary. We're moving up the single this week!... I'm expecting big things from the Radiators from New Orleans. "Like Dreamers Do" is doing really well for us, with good reaction to this one.... Our top 5 requests are Billy Idol, Heart, R.E.M., Mick Jagger "Kow Tow" and Pink Floyd.... Last Thursday and Friday we had a special guest on the air from England. Graham Matthews is working with us to produce an international radio show for the Music Zone. He's from Newcastle, England and he was telling our listeners all kinds of juicy gossip about Queen and Sting!... I just got a call from Gary from the Insiders. Thanks for the station ID's and for singing the theme from the Twilight Zone!

### **Tom Krumm, KZAM, Eugene**

I'll be changing phone hours to Thursday and Friday from 11-1pm only. Sorry for the inconvenience but there's just too much to do.... We are very anxious to hear the new Dave Mason Lp. The lead track sounds very much like Dave used to, but there's a new feel to it that works very well.... Michael Hedges fits in fine as an instrumental for us, he's quite a player.... It took us a while to get to Love and Rockets but we like it a lot and look forward to it fitting into the mix very smoothly.

### **Jennifer Gipe, WWTR, Ocean City**

We expect to get strong response from the Insiders. This should be as strong as their first track.... The Guadalcanal Diary is a real sleeper. It might take a while, but it should break big with patience.... The Love and Rockets are in a light rotation and we are already seeing almost as many requests for "No New Tale" as for Pink Floyd. It's real easy to listen to and the audience is responding well to it.

### **Doc Phillips, KPEZ, Austin**

The Dylan/Clapton track is a natural for us. Great production and wonderful guitar as "Usual".... The Radiators are getting good response, especially in our call out research. The audience really likes it.... Icehouse has gone into overdrive since their recent concert here. The phones have been building ever since.

### **Ron Marsh, WKWQ, Columbia**

The Insiders is a great tempo track, it really reaches out and grabs you.... Mr. Mister's latest has a great feel to it, the ambience really works for us.... My MD's fave is the new Bangles cut. He's been listening to it all night long and can't get enough.... Do yourself a favor and get next to the new Peter Himmelman. We added it last week and it just gets better with time.... Don't let the Melvin James record get passed by. This record works real well and we're showing lots of phone reaction to it on the air.

### **Michael Areford, WFYV, Jacksonville**

The Truth was a one listen hit. This is a really great song for the format.... When we played the Triumph track it jumped right out at us and straight onto the playlist.... It's too early to tell on the Peter Himmelman, but we love this record and we're going to be patient and see how things pan out.... We really needed a female rocker and Martha Davis fills the bill perfectly.... The Guadalcanal Diary is just starting to happen, we expect good things from this one.... We didn't really expect the audience to respond so well to the Radiators but they surprised us. They really want to know what this band is all about.

**Joy Crosslin, WMJY, Long Branch**

The Radiators are fabulous and doing well here.... The lack of good female product makes Martha Davis really stand out... Guadalcanal Diary is up and looking good for us.... Dylan and Clapton together has got to get the audience interested. We are projecting good overall response to it.... Peter Himmelman sounds great on the radio. We're glad to be playing it.

**Jane Asher, KTYD, Santa Barbara**

The Insiders is a great rocker, straight ahead stuff and we love it.... We're playing the new Replacements track and feel good supporting this class band. "Can't Hardly Wait" is a strong followup.... We are working to get the Radiators in town. The song is getting heavy airplay and we will continue banging it for a while.... Martha Davis sounds so good on the radio, I can't get enough.... Tommy Shaw is another fave around here. The audience is really behind this one.

**Bill Evans, KTAO, Taos**

The Dream Academy has come up with the perfect followup to their initial release. Strong tracks are "Hands Of Love" and "Lesson Of Love". They are an English trio that is bound to be around for a long time.... It's nice to see Marko get a thank you on Robbie Robertson's new album! There's not a CHR track on the Lp, therefore we don't have to share it! (I love his Tom Waits impression on "Crazy River".) We're using every track on this fine, fine record and we're pleased that he's doing his video work here in New Mexico.

**Art Boerke, WKWQ, Columbia**

Well, at first I thought it reeked, but after repeated listens the new George Harrison single has actually grown on me. It's great to have something different, challenging the Crue for phones.... Some incredible shows have been in town recently. I know because people call me on the air at night saying "Art, I can't believe you missed \_\_\_\_\_ last night, they were awesome" and then proceed to depress me with all the gory details. Anyway some of the shows I haven't been able to see lately include: The Hoodoo Gurus, dB's, Christy Rose And The Midnight Walkers, Beat Farmers, and the world's greatest rock and roll band -- The Neighborhoods. I was told they played for almost three hours non-stop. I get to miss Roy Buchanan tomorrow. His new album "Hot Wires" cooks.... We're getting good phones on the new Melvin James "Loving You Is Strange". His album, "The Passenger", is real deep in terms of great tracks.... "Love Like Candy" is an excellent follow-up for the Insiders.... The K-95 New Vinyl Sampler is going well so far. Attention independent labels, we need your records to make the show a real success. Our address is: 910 Gracern Road, Suite C, Columbia, SC 29210. I can be reached Mon-Fri from 3-5:30 for calls.

**John Lassman, KQRS, Minneapolis**

Congrats to the Minnesota Twins. I have never witnessed such mass hysteria in one city in one night in my life. And with KQ's morning team behind the Twins, it makes it all the sweeter.

**Ron Garrett, KRXQ, Sacramento**

A group that delivers a song like "Rain In The Summertime" will not remain unknown to the masses for very long. Hear The Alarm.... It's great to hear Triumph back on the scene with a sensational track like "Long Time Gone". Time and experience have made this group better than ever before.... I supported the Insiders on their first song and I'm going on "Love Like Candy" based on the successful reaction we experienced. The Insiders have the ingredients of a superstar group for tomorrow. Listen to them, not me.... Speaking of follow through on groups we supported early, let's hear it for the Brandos "Honor Among Thieves".... Europe's "Cherokee" is for real.... And "Mercy" from Richard Marx is a welcome sound.... Finally, all of you sissies who never had the courage to play Kiss, can now give your audience what they wanted. "Reason To Live" could cross over

to CHR any minute or Gene Simmons will date your sister. See ya!

**David Fleischman, Atlantic, 212-484-6017**

The INXS Lp is loaded. For my money, you can just drop the needle and groove; however, the earliest of feedback has "Guns In The Sky", "Devil Inside", "New Sensation" and "Kick" as "additional" tracks being programmed.... Yes, I know, there are some skeptics out there in regards to the lead 12" of "Need You Tonight". You say you don't like it. Since I'm sure none of you would program solely on your own personal likes and dislikes, I'm going to assume you mean you feel your audience wouldn't like it. With all respect, I disagree, I believe people are people and are basically the same all over. If the audiences in Dallas, Hartford, New Haven, Mobile, San Diego, Grand Rapids, Nashville, Beaumont, Reno, Honolulu, Santa Barbara, and Laramie, Wyoming like the record (and request it!), I've got a feeling your audiences just might like it, too!

**Megadon, Combat, 718-995-9200**

I knew you folks wouldn't go soft on me. New Zoetrope adds include WEOS, WNGZ, WUCF, WWVU, WXRC. Now let's hear from the rest of you!... The Satriani 12" continues to do well. Stop all that sobbing and crying already, would ya, jeez! I'm sending out the full "Surfing With The Alien" Lp as you read these words from the mouth (or is it typewriter?) of Mr. Schism (another cute name someone has called me -- one of the cleaner ones, anyway).... Meanwhile, I continue to receive call after blooming call (from radio people as well as the "street urchin" contingency) asking the musical question, "Gee, Don, where in holy hell is the new Exodus album you've been promising us and raving about for so long?" No comment. I'm sick of being mauled over the phone. Ain't my fault the thing ain't out yet, but believe me it's coming. Could be today, could be next week, whenever, but it's gonna blow you away.... By the time you read these words, the CMJ Music Marathon '87 will be history, but I'm not gonna be real cute and clever by telling you how great it was, because as I write this, the convention hasn't even started yet. The "God, I was drunk" stories begin next week.

**Donna Geisinger, Passport, 818-500-7677**

1987 has been a year of growth at Passport with the birth of a new label, Paradox. It is always tough for a new independent label to establish acts at AOR but with PolyGram's superior distribution, Tom Caufield's and Eastern Bloc's musical talent, and our own determined commitment to deliver these records home. '87 will go down as a great year in our company's history books. Tom Caufield's first week at radio was worth 30 + stations and more are yet to follow.... While Eastern Bloc added 18 more to the 35 + already on "You Got Love". If you haven't already checked out "Precious Town" and "You Got Love", you better "hear" what you're missing. If you need reservice, please call!

**Brian Illes, WKFM, Syracuse**

1987 has seen Bob Dylan work with a couple of outstanding guitarists; first Bob Weir and Jerry Garcia and now the legendary Slowhand. Put those two together with a song that should have been a hit for John Hiatt and you've got an unbeatable combination with "The Usual".... Polygram Records' contract with The National Weather Service allows them to release one tornado a year. The winds are picking up and we'll all be doing the "Snakedance" soon.... I really like the new album from Triumph. My morning guy, The Fatman, says they are progressing like Rush has and for a change he's right.... Just remember it's only 157 days until opening day.

**Penny Barnes, Rhino/Rampage, 213-450-6323**

Hey everybody! Just wanted to take the time to introduce myself. I am now working Nat'l Promotion for Rhino/Rampage Records. I previously worked in national rock promotion for Capitol. I look forward to meeting and working with many of you in the future and am truly excited about the prospect of work-

October 30, 1987

ing with all of the bitchin' folks here at Rhino. A special thanks to Dave Darus for giving me the chance to come aboard and learn the ropes.... Things are certainly heating up here at Rhino with the recent release of the Pure Rock Ten Best of the West Lp and Cindy Lee Berryhill. Coming to work each day is fast becoming one of life's greatest pleasures.... Also just out the single by House of Freaks, a two piece band out of Richmond, VA. These bands will definitely make you think three times about which records to add to your playlist this week. Pure Rock is just that, hot and steamy with a punch guaranteed to T-K-O. The best hard rock band in the country. Specifically the snake rock track "Can't Stay Home Tonight", possesses a most venomous bite. Stations currently playing the record, KNAC moves into heavy, WBCN, Z-Rock, WRCN, WYNF, and KRXQ.... If you like Dylan, then you'll love Cindy Lee. Melodic, contemporary, intelligent, folk-styled music at its best. Buy the Lp and thank us later.... With the emphasis these days on heavy duty production and electronic wizardry, House of Freaks breaks down the barriers and gets to the reason we all listen to music in the first place. Because it's fun. Sounding like much more than a two piece band "Bottom Of The Ocean" clearly shows that when two people tango, the results can be amazing, scary even. The Lp is due in January. Do we love this record? What, are you ape!... Until next week, keep smiling! See ya!

**Tony Montoya, KRQU, Laramie**

Glad to be back and we'd like to thank all the labels for their patience and cooperation.

**Victor Lentini, Passport/Paradox, 818-500-7677**

This week finds me on the right side of the country, stopping from town to town, telling everybody the great news. I feel like Johnny Appleseed. (Has he just faded from our folklore or what?).... The great news? Oh, nothing, just TOM CAUFIELD jumping out of the box with 11 adds including KSNO, KTAO, KTXT, KGKG, KRKR, WGTU, WKXE, WAAW, WCDB, WSIE, KDNK, hey, it's "Precious Town".... The great news? Oh nothing, just that EASTERN BLOC has just finished filming their video for "You Got Love" which includes 50 screaming girls/cadets from the NY Military Academy all in uniform! EASTERN BLOC can be heard on KFMH, KZEL, WDHA, KYJR, KRPN, KEYX, WHTG, WWVU, & KLPR, just to name the first.... The great news? WXRT, WHFS, KNON, KUCI, KACV, KBSU, KSND, KFMH, KABL, WSIE, KEYX, KBLE, WRAS, WUOG, & KUSF. ALL are having an airplay frolic with BOBBY SUTLIFF'S "Same Way Tomorrow".... The great news? Why is RICHARD BARONE getting instant adds on KTAO, KUSF, KOTR, KJET, KTCL, KBLE, WUOG, WTSR, WKXE? Oh, maybe they like "Cry Baby Cry", or "The Man Who Sold The World" or "The Bulrushes" or "Numbers With Wings".... Oh nothing, just that those west coast rockers, THE DROOGS, meet the east coast with dates in NYC at the Lone Star, sure to make the club hop off the foundation!... I apologize to all the radio programmers for providing so many great Lp's to choose from. Like you would say, you gotta listen to win!

**Kim Pool, WMRY, St. Louis**

U2 came to town last night and for those of you that got to check them out, I'm sure you'll agree it is a fantastic show! I'm glad they are finally getting the success they have deserved all along.... The BoDeans were very impressive and successful in pumping the audience for U2.... INXS moves to heavy due to the "kick" from our audience.... Bryan Ferry's "The Right Stuff" is perfect for our older demos, what a smooth sound.... As for the Cardinals, we played great baseball and look out for us in '88.

**Slats, WHTQ, Orlando**

The real Dave Mason Lp has stood up and should get some serious notice; what a smooth tune.... Hypnotic is how we feel about the latest from the Alarm. It's summertime for ten months of the year hear regardless of the time change.... Looking for-

ward to seeing Jimmy Davis live with The Outfield Halloween night.

**Beaver Brown, KDJK, Modesto**

If you can't hear the Hooters "Karla With A K", take a Q-tip out and clean the wax out of your ears: the song is a bona fide smash.

**Paul Nelson, WWCT, Peoria**

One night about five years ago at a small club in Chicago, I braved an intense snow storm to see this band from New Orleans. About 30 people showed up, but the band went on and tore the place up as if it were packed to the gills. That band called themselves The Radiators (with a short a) "Law Of The Fish" picks up right where that night left off. It was a long wait, but it was well worth it. I guess it's appropriate that they got signed as the rest of the country begins to discover the Cajun culture.... The Twins victory in the World Series proves that the AL West is the strongest division in baseball. The Royals in '85, the Twins in '87 and the White Sox in '88.... Finally to Elektra's Louis "Chopped Liver" Heidelberg: Thanks for the doughnut.

**Paul Marszalek, WMAD, Madison**

Being a transplanted Minnesotan, I've become quite the happy camper since the Twins won it all. My homer hanky will be passed down for generations if I'm ever allowed to reproduce.... My favorite adds this week include Robbie Robertson's "Fallen Angel" and Don Dixon's "Sister".... Now a memo to PolyGram from Tom Teuber: "I thought 10cc's 'Wall St. Shuffle' should have been a hit it '74. Rush release this baby now!"

**David Sadof, KLOL, Houston**

The new Peter Gabriel and U2 tracks are excellent. Robbie Robertson's cameo appearance is a nice bonus.... The new Aerosmith track took a while to grow on me, but I can hear it now.... "Nothing To Fear" has always been my choice for a second Brandos cut and we found room for it this week.... My favorite track on the INXS is "Never Tear Us Apart" which we are playing along with "Wildlife".... We didn't have room for Paul Carrack this week, but that will definitely go on next week.... Artists featured on EXPOSURE this week included Paul Carrack, Robbie Robertson, Tom Caufield, Martha Davis, Screaming Blue Messiahs, Opal, Guadalcanal Diary, TSOL, Chris Stamey, Rainmakers, Mission UK, Love & Rockets and Bryan Ferry.... Thanks to everyone at Chrysalis for a great time in Austin.

**Dale Miller, KATP, Amarillo**

The Kiss Army gears up for the second assault on the phones, as we start to play the follow-up "Reason To Live". War is hell.... The Truth "It's Hidden", not for long. This record is a rocket with T minus zero and lift off.... Not many artists can remake a Hendrix Classic and capture the magic that Jimi put into it, but Sting delivers with "Little Wing".... "The Usual", hardly; Clapton boogies with a touch of pure Dylan. The result, a total rock and roll song that will rule the airwaves.... "Long Time Gone" brings Triumph back to where they belong.... And Alice Cooper remains on top for the third straight week at #1 most requested.

**Curt Gary, WWDC, Washington**

By god, I love this business and Rich Bloom runs the best phone answering service.

**Jane Fredericksen, KTCZ, Minneapolis**

The word is: Euphoria. After four Super Bowl losses, previous World Series heartbreaker and just misses in hockey, soccer, and two presidential elections. How delicious to say: Congratulations Minnesota Twins World Champions! Congratulations also to the fine St. Louis Cardinals who made it a down to the wire battle worth remembering.... Another local hero who brings it all home this week is Peter Himmelman. He scores with a triple play on "Gematria". Now if only someone would provide us with an adequate definition of the album title!... Besides

euphoria, we've been caught up in the intense brooding spiritualism of the Robbie Robertson Lp this week. It's a masterful work that captures the hunger and despair of the American Dream.... Quick kudos to Joe Cocker for a return to what he does best - rockin' blues and gospel.... Avid thanks to Chris Daniels and The Kings who gave one fantastic show last Sunday. There's no better band in the country to get a baseball crazed crowd stoked up for the seventh game of the series.

**Stephen Page, KOME, San Jose**

Hello record people: As of this week you will have a phone number to call for music instead of phoning the receptionist; that number is 408-246-4636. The adds and playlist info will appear after 3pm on Tuesdays. Thanks a lot.

**Linda Kirishjian, Columbia, 212-975-1701**

I'm so excited! We had a phenomenal week here at the Columbia alternative corral! The Bangles "Hazy Shade of Winter" blew out! This brilliant harmonic version of the S&G penned tune is produced by Def Jam's jammer Rick Rubin. The song is from an up and coming movie soundtrack on Def Jam/Columbia entitled "Less Than Zero". The movie opens in November. The Bangles video is in heavy rotation on MTV.... I haven't been writing comments lately, but Terence Trent D'Arby's performance at the Ritz last week has ignited this pen. This man is a star. There is no other way to describe the feeling in the club that night except to say the crowd was groovin'. The caliber of his fans is impressive to say the least. We're talking Paul Young, Little Steven, Faye Dunaway and Robert DeNiro; thank you very much. A note of information: Sales are already starting after the show in Los Angeles, we saw a #5 album at Tower Sunset. New York is already bubbling with a top 20 record in heavy traffic at Tower up and downtown. Be watching and be listening to "Wishing Well". TTD is already on WLIR (Heavy), WBCN, WHFS, KUSF (#10), KTAO, KJET, WRAS, and more, with even more to come.

**Michael Linehan, Reprise, 818-953-3750**

The "Bete Noire" Lp from Bryan Ferry arrives at radio this week and it's a rhythmic masterpiece. From the eerie opening strains of "Limbo", you know you are in for a sophisticated aural treat from one of album radio's true originals. Don't be afraid of this record just because it's rhythmic. The recent successes of Peter Gabriel, Steve Winwood, INXS and Sting, among others amply demonstrates that the audience has no problem with that feel as long as the songs are there, and in this case they definitely are. Everyone and his consultant has been saying for years the Bryan Ferry/Roxy Music is one of the most influential and overlooked artists out there. So give your audience a chance to hear one of the finest albums of the year. Remember if it wasn't a bit challenging, it wouldn't be Bryan Ferry.... Can you say top 15? That's where the Bodeans are headed or already are depending on the tracks chart you look at and the momentum is there to take them even farther. The band is tearing them up on the road and that's not an easy thing to do when you are opening for U2. If they come to your area, don't miss them. "New York Girls", the new 12" pro from Simon F, ships this week. So please give it a listen when you see it. It is the first cut on the Lp for those that don't need a 12".

**Richard Crowley, Ryco, 213-654-2792**

I know it's Halloween but there's no need to be scared! Here's some new music treats that won't trick you or terrify your audience! You need some solid, kick ass hard rocking? Look no further than Silent Rage on Chameleon. This is a great deep debut album. KNAC and Z-Rock believe. One listen and you will too (trust me!).... You need some eclectic alternative softer stuff? "WisconsinInsane" from Sigmund Snopek (his real name!) was made for you, two-thirds of the Violent Femmes are on it. It's good.... You need some good catchy guitar based pop songs? Louis and Clark got 'em! Ex 3 O'Clocker Louis wrote "Walking Down Your Street" for the Bangles. "Cry Cry" and "Walkin'" is where to start. Happy Halloween!

**Paul Brown, Virgin, 212-463-0980**

I will add Danny Wilson. I will add Danny Wilson. That's right, Danny Wilson, one of those bands that defies being folded, spindled, mutilated and otherwise squashed into some neat statistical niche. "A GIRL I USED TO KNOW" showcases these guys for what they are, an upper demo dance band supreme, but, gee, there I go, categorizing them myself. What is cogent here is that a lot of people underestimated this band horrendously the first go around.... Next up, a couple of alternative tracks from ALL THAT JAZZ. The first being "CRUEL SUMMER" and "EVEN THE TREES". Just listen, form an opinion and share it with us.... Similarly, listen to a song entitled "IN LOVE WITH YOURSELF" from MILLIONS LIKE US. For those of you skewing upper, upper demo, you can jam on this band like white on rice.... As for the PiL Lp, "HAPPY?", I wouldn't dream of telling you that it's that dream segue with Mick Jagger or Def Leppard that you've been seeking but the fact remains that this record is selling like crazy, WMAD (where the band has never had any airplay) now reports top 5 phones. Is this critical data? No. But, what is important here is that we got a shot on SEATTLE and it's coming up roses. Try it at night, especially if that's when you get perceptibly harder.

**Matt Pollack, Relativity, 718-995-9200**

THE BRANDOS' "Honor Among Thieves" is only proof that this Fab Four is going to again stick it to the mega monster stars who've been resurrected from the previous decade. On "Gettysburg", Dave Kinkaid's vocals roared into life with a growl reminiscent of Fogerty; this track is a diverse contrast, as he croons some of the most compelling hooks from any singer left or right of the genre. It's really pointless to wait any longer for chart action or the company of adds, because when it comes right down to it last time around these boys raked in stations in the triple digits. That was amidst the barrage of superduper, rating booster bands; but when the phones started ringin' and the buzz started hummin' people began taking second looks. I think that qualifies any band as an automatic.

**Ray Farrell, SST Records, 213-835-8977**

The Meat Puppets advance 12" is on your desk. The album "Huevos" is out on the 27th. The band just returned from an incredible European tour. After their final UK dates, they drove out to Stonehenge and got caught in that history making hurricane. They were caught between two fallen oak trees and took shelter in an old church built by the Saxons in 600 AD. What a way to end a tour!... OPAL has been asked to tour the us with Jesus and Mary Chain beginning November 3. Check out "Happy Nightmare Baby" one more time.... Thanks to Oedipus at WBCN for one of Sonic Youth's best interviews and to everyone in Atlanta for making the Glenn Phillips Band record release party a greater success than we ever anticipated.... Most of our back catalogue is on CD now. In a few weeks, we'll be servicing older Husker Du, Meat Puppets, and Minutemen titles.

**Jason Tyler, WRUF, Gainesville**

Robbie Robertson has returned. Mr. Robertson has put together one of the best albums of recent memory. Every song has its own personality but each track flows together with precision accuracy. An honest challenge to U2's big for album of the year and as fate would have it, U2 leaves their mark on this album as well.... Dokken has pushed Great White from our late night phones.... Big concert week in Florida with Pink Floyd coming to Tampa and the always exciting Warren Zevon along with X stopping in Gainesville.

**John Cooper, WPYX, Albany**

Being #1 25-54 adults in Albany, we are always on the lookout for those perfect upper demos records that make us stand out. We found another one! "Motor Town" by the Kane Gang is perfect. The song is solid, and comparisons can be made to Steely Dan which gives this new song a familiar feel to our listeners.... Triumph's and Dokken's new songs have the request lines hum-

ming already.... And we're starting to get very promising feedback on the Alarm, both requests and sales.

## Dave Fortney, WKLT, Kalkaska

Winter is on the way in Northern Michigan. Everyone seems to be getting a little cranky around here. But as for music, it continues to be great.... Great track from Triumph. "Long Time Gone" is long time waiting. What impresses me most about the track that it's not an overproduced record.... Chalk one up in that category for Robbie Robertson, too. Great album. Friend of mine once told me, and this is a guy who is not in radio but a listener, that there is music and there are radio songs. When I listen to Robbie Robertson, Springsteen, Sting, Triumph, and even Yes, I hear music -- not radio songs. It's time for AOR to flex its muscle and take advantage of great music by major artists.

## Butch Lazorchak, WVWV, Christiansburg

Impressive first week sales for Love & Rockets. They debuted at #6. You'd be surprised how many of your listeners would love to hear something like Love & Rockets on your station.... I'm also impressed with the new record from Big Dipper. It wasn't what I was expecting compared to the last one. It's quite good actually.... Glad to see continued movement on Guadalcanal Diary. Definitely dig deeper into the album because there's lots of good stuff to chose from.... I feel that the dB's record is really being overlooked. They're one of the most accessible bands in the country and people are sleeping through their record. Give it another listen.

## Liz Grove, Chrysalis, 212-735-3555

Okay, this is how you pronounce her name: "Shin-NAYD". That's Sinead O'Connor I'm speaking about. Her debut album, "The Lion And The Cobra", will be on your desk Friday, October 30th. You probably remember her from her work with The Edge on the "Captive" soundtrack single "Heroine" which she co-wrote and sang. "The Lion And The Cobra" is her first solo effort not only singing but writing, arranging and producing it herself. There's no question in my mind that Sinead is one of those truly unique artists that come along once every few years. (I'll stake my career on this one, folks.) The six minute epic "Troy" will send shivers down your spine. But "Mandinka" is the track that will grab radio. Listen closely.... If you found yourself seeing double this week, it must have been the Reid twins, Charlie and Craig (a.k.a. The Proclaimers). #4 Most Added first week on a brand new act! This Scottish duo will throw you back to the acoustic era of yesteryear but the distinct Celtic lilt of their voices and pounding rhythms of percussion and acoustic guitar will let you know they are a force to be reckoned with NOW. Side A, Track 1 "Throw The 'R' Away" will grab ya as it has WFNX, WRAS, WUOG, KABL, KBLE, KEYX, KRCK, WCDB, WPRB.... The Art Of Noise continues to climb (#2 at WRAS) and we've made it easier for your jocks to cue up the record with a limited edition 12" promo of "E.F.L.", "One Earth", "A Day At The Races" and "Ode To Don Jose". It's in your hands now.... And finally, a huge thank you from the guys in Armored Saint for taking their album #1 on the Hard Hitters Chart last week. The band is touring through-out the Midwest this week with dates in Dallas, Oklahoma, Denver and Salt Lake City coming up.

## Dan McClintock, WWRX, Providence

What a combination! Dylan and Clapton playing a John Hiatt song. "The Usual" has all the sizzle and spark that Dylan gave us on his "True Confessions" tour. A must play!

## Jetson, WOXY, Cincinnati

Another storm of great new music this week. First off, the new INXS has got to be their best. So many good tracks to choose from we're going four deep on the album. Last week I did get a chance to see them in Ft. Wayne, Indiana. Don't miss them if you can, they're great live. Thanks to Bill Heltemes from Atlantic for the chance to meet INXS.... The new Bangles just blew

me away. It sounds great on the air.... Another new track from REM from the movie "Made In Heaven" and a great song to boot. This is the week REM comes to town. I can't wait.

## Jack Green, KLPX, Tucson

Yet another great week for rock and roll. First off, let's talk about Robbie Robertson. This has to be one of the best albums I've ever heard. The more I listen, the better it gets. My personal picks are "American Roulette" and "Sweet Fire Of Love". I think we're gonna be with this album for quite a long time.... Richard Marx's "Have Mercy" is a natural for us. This guy can rock.... Now, a collaboration between Bob Dylan and Eric Clapton sure sounds promising and "The Usual" proves once again that you don't have to be 20 years old to rock and roll.

## Erin Riley, WMMR, Philadelphia

I'd like to make use of this opportunity to hop on my soapbox for a very talented and overlooked performer, Norman Nardini. There seemed to be a degree of pre-promotion on "Love Dogs" but then it came out and just sort of sat there. Now I wasn't sure if the humor in the song wasn't coming through or the fact that Norman is just not that well known in this onslaught of superstar product. All I know is "Love Dog" cracks me up. It's killer rock and roll along the lines of the Georgia Satellites and Norman may very well be the most awesome live performer in the rock and roll world today. This guy deserves a shot and I'm proud to be able to give him one.... The Alarm seem to get better and better every album. This is most definitely the one to put them over the top into large venues and on the radio everywhere. It may even go the way of REM's "The One I Love" and cross over.... Now that the INXS album is here, we've decided upon the title track. "Kick" is subtle throughout but as a complete package, fabulous. It reminds me of their album "The Swing", the way it slows from song to song.... Steven Tyler, if you see this, thanks for calling, you made my life.

## Kelly Cruise, WEGR, Memphis

The new Sting record is selling out the wazoo in Memphis. But homeboy Jimmy Davis is still #1.... Speaking of Jimmy, if you're ready for a second track, try "Are We Rockin' Yet" -- soon to be a household phrase.... The Guadalcanal Diary sounds like REM meets the Byrds. The perfect song to seg into your classic rock tunes.... The new Triumph; rock out of the box on "Long Time Gone".... And Dokken's "Burning Like A Flame" is the most commercial thing I've heard from them in years.... Steve Winwood's "Valerie" is a natural for us and the new version is absolutely incredible.... Hooray! We added Peter Himmelman's "Waning Moon". I can't wait to play it on my show. It's one of the best new records out there!

## Wendy Steele, WLWQ, Columbus

We've caught the "buzz" and we're feeling high!

## Kevin Nissley, WUCF, Orlando

Heathen just keeps proving over and over that they mean serious business. Retail has been brisk all the while and audience response is coming in heavy.... Alice Cooper sounds stronger than ever. It's enjoying a rediscovery among our younger thrash crowd especially with "Prince Of Darkness". Also hot are "Freedom", "Lock Me Up" and "Give The Radio Back".... Future picks: No Mercy, Agnostic Front, Rage is gathering steam, and Lion is roaring loud.

## Ed Trunk, Megaforce/Crazed Mgmt., 201-254-6533

.... The debut release from M.O.D. continues to do big business at retail and now is finally catching on. "U.S.A. For M.O.D." has now debuted on all the metal charts and is a top request everywhere it's being played. M.O.D. will kick off a headline world tour in January. If you need an M.O.D. album, give us a call.... Ace is back again! This time Frehley's Comet is back on the road again, second billed (out of three bands) on the entire Alice Cooper U.S. arena tour! This will be the band's biggest

tour exposure yet and should be a great show. "Calling To You" is still getting strong college airplay, and "Into The Night" and "Rock Soldiers" are heavy recurrences on MTV. It is very likely that we will be releasing a live Frehley's Comet Ep in January, more details soon!... Anthrax and Testament are selling out every major arena in Europe. This tour is breaking Testament in a big way, and making Anthrax certified superstars. In December, the band will return to major touring in America to coincide with the release of the "I'm The Man" Ep (the Anthrax rap).... Speaking of Ep's, Overkill's "F\*\*k You" Ep is out next week with four live tracks. The Ep will be out on Megaforce/Caroline.... Wait until you hear our two new bands; Prophet and King's X. "Cycle Of The Moon" from Prophet (this is NOT a Christian band or metal band) will be out in January and will be the most exciting rock release of the year!... King's X "Out Of The Silent Planet" is due out in February and is one of the most unique sounding groups I've ever heard. Both albums will be out on Megaforce/Atlantic.

**Jeff Ivan, KFMX, Lubbock**

Helix and Night Ranger pulled through town this past Friday and delivered an excellent show. Thanks to the entire Helix organization for a great time and a killer interview. These guys are true professionals, see them if you can. Thanks again to Brian, Ken and "Boy Howdy" Bill. Also thanks to Bubba of MCA for a lot of laughs and some great insight into the business.... I love it when I can rub something into the faces of the non-believers and I got to this week with the announcement of Dirty Looks 8-album deal. Way to go! This will be a very big record.... The new Triumph is excellent and is an interesting departure for the band. Should gain them plenty of new fans.... Joe Satriani has got to be the next guitar hero. "Surfing With The Alien" is very reminiscent of the Neal Schon/Jan Hammer project. This album has plenty of great cuts that will cross over to a wide audience.... And, finally, we lucked out and are getting the Kiss/White Lion show. I can't wait.

**Mike Jones, WGIR, Manchester**

By the time this comes out, I'll have seen Guns N' Roses with EZO three times and I'm drooling. At the risk of being redundant, "Appetite For Destruction" is an album that transcends everything. I think this band is brilliant and I'm not alone.... I'm off to New York this week for four days of schmoozing, abusing and confusing all in my path. I'll be at the bar raging hard.... P.S. Is it me or is the Headbangers Ball getting lamer and lamer. See ya.

**Shelli B., WXRC, Charlotte**

Ronnie LeTekro: I want to bear your children. I love this record -- enough crunch to have that edge but still melodic enough to make everyone happy. Tony Harnell's voice never fails -- even live. Ronnie's guitar playing is reminiscent of a metallized Brian May.

**Bob Berzins, KRSR, Las Vegas**

The Krusher is happening! After only 5 weeks of rockin' the Krusher is stompin' Las Vegas. The audience response is just fantastic.... Metallica, Def Leppard, Helix and Lion are hot on the phones.... Our upper demos are loving the new Aerosmith tracks.... We're looking forward to Def Leppard and Tesla November 25th in Vegas.

**Tom Van Sant, WIZN, Burlington**

Screwed by faulty umpiring again! It's tough enough being the only Cardinals' fan in the state of Vermont. I'm glad Lee Weyer doesn't work for Arbitron.... Excitement is building in anticipation of INXS in Burlington. "Need You Tonight" jumps to #1 requested and heavy rotation this week.... We're also happy to see the Brandos.... What a shame more stations aren't on the Dream Academy's "Indian Summer". Great stuff! It deserves a shot.

**Dave Ross, KFMU, Steamboat/Vail**

The latest album from Don Dixon can be reviewed in one simple word, "Fun". We're getting into the album this week, with "Romeo" and "Cat Out Of The Bag". There should be no reason to deprive your listeners of this truly unique album.... Glen Burntnick says he "Heard It On The Radio" and that's exactly what is going to happen here. It's a well produced song that I'm thoroughly impressed with.... Love & Rockets continue to do well here, and I'm glad we didn't miss out on this one. "No New Tale To Tell" fits in great with good phones.... Other than that I'm getting geared up for U2 and the BoDeans next weekend. I know it'll be a killer show.... That's it for now from the world's only wind-powered radio station.

**Robin Mathieu, WBLM, Lewiston**

How appropriate for INXS to title their latest album "Kick", it sure does, and tune for tune this is already my favorite of the year. I hear some new directions in "Calling All Nations", "Guns In The Sky" and "The Loved One". It'll be a treat to hear fresh material in their live show when they return to Maine Nov. 7th.... My crusade of the week is Don Dixon. It seems to me "Praying Mantis" never got a fair shot in most markets, especially since it was top 5 phones here for weeks and worked very well. Now give the guy a real hit. "Your Sister Told Me" is chock full of hits, and the album has at least three cuts for future airplay. With the holiday traffic slowing down, play Don Dixon now.

**Craig Quackenbush, WEOS, Geneva**

Hello. How about that new Carnivore? They are really developing their own style, and they don't seem to care what anyone thinks. Battlezone, Laaz Rockit, Sacrifice and Zoetrope are melting my turntables and the Lion album is good hard rock give it a try.... Even if you're not into underground tape and demo trading, still try to get the Violence Demo '86. It's some of the best Bay Area metal yet.

**Chris James, WTPA, Harrisburg**

Just when you thought all the candidates for album of the year were in, along comes Robbie Robertson. I've lived with the cassette since it arrived. There isn't a bad song on the album. The Bono cut "Sweet Fire" sounds more like U2 than Robertson, but it's a smash.... Two years ago a consultant told me that Triumph was nothing but a Canadian bar band. It's time to insert foot in mouth. The new track "Long Time Gone" says it all. It's probably their best since "Hold On".... No need to play hide and seek with the Truth. Nothing's hidden here, and it looks to be a smash in three formats.... Surprise of the week is Ry Cooder. Take a proven song with a legendary artist and you've got to get a major hit out of it.... The new Faster Pussycat is going to get phones just from the intro, but drop the needle further in and see it's a great song.... Jimmy Davis builds up steam -- shooting to top three phones. The Conquer Lp is as good if not better than his last. Isn't it ironic that the final song on the album is called "Satisfy". Terrific for upper demos. Check out "Woman Loves A Man", too.

**David Hall, WKDF, Nashville**

Back in 1977 on the Streets Survivor tour, Lynyrd Skynyrd announced a date in my city. We had the concert spots on the air and I was excited because I was going to meet them and do the station announcements. That show never happened because of the crash. Ten years later, it was extra special for me to go out on the Starwood Stage last Friday and welcome the crowd to the season-ender for the amphitheater; the Lynyrd Skynyrd concert. This was actually Skynyrd's second time in Nashville this year, since the whole thing started at Volunteer Jam back in September. Once again Starwood was packed with fans who have kept this music alive for ten years, and this time they got to see the full two hour show. And what a show it was! Lynyrd Skynyrd played their hearts out on song after song that the audience knew by heart. This band deserves the legendary status they've been given. If anything they're better than they

were before. Gary Rossington, Ed King, Billy Powell, Artimus Pyle and Leon Wilkerson all shined on their respective instruments, and Johnny Van Zant is making his brother Ronnie proud up there. I've gotta thank Artimus for wearing the special KDF Legend tour shirt. Every time the camera-man did an over the shoulder shot, the big screens were filled with the KDF logo while Arti wailed away at his drum kit. We couldn't have asked for any better publicity that night. The evening was unforgettable.... I've got a great three week story on George Harrison - medium to heavy to power and requests are still tops.... Sammy Hagar's "Eagles' Fly" is turning out to be the biggest song on the album.... Congratulations are in order for Jimmy Davis and The Junction. This little band from Memphis has a real winner with "Kick The Wall". It's now in heavy for us.... Dave Mason and Steve Winwood sound like they had a good time working together again, and I have a good time listening to it.... Happy anniversary to the Hard Sheet.

**Greg Alexander, WNPQ, Canton**

Dokken is burning up our phones. It's a little more commercial sounding but the more you listen to it the more it grows on you.... Very good response on the MSG. We're playing three tracks and getting good phones on them. This group really fits our format.

**Mike Z., WNHU, West Haven**

If the title track on Motorhead's new album doesn't make every headbanger around the world proud to rock and roll, then nothing ever will. This record definitely has some classic killer Motorhead on it. It's great to hear the Philthy Phil touch on the skins again. It's about time we gave Motorhead the radio airplay they deserve.... A big thank you to Billy Milano of M.O.D. for doing an interview with Vicky from our station recently. It was one of the most honest and intelligent conversations an outrageous and controversial character like Billy could have given to anyone. During the live conversation Billy actually got an emergency breakthrough call from none other than Jon Bon Jovi. (If you can believe that!)

**Catfish, WHMD, Hammond**

The Martha Davis and Danny Wilson singles are perfect upper demo records.... The Radiators continue to climb up the national playlists with that unmistakable New Orleans R&B.... Thanks to Rhonda Rose of MCA for Boston concert rickets. Hubba, hubba.

**Virgil Thompson, WIXV, Savannah**

The Radiators are one of the most requested songs on the air. We've had several calls with people asking, "Who plays 'Like Dreamers Do'?" After we tell them, they say "Great! I'm going to go buy that album right now". Other callers are already familiar with the band, having already seen them in New Orleans. This song is happening, and we look for sales to pick up soon.... Went on Martha Davis' "Just Like You" last week. This song is pure class, and has much cross over potential.... An act selling massive units is Guns N' Roses. We're giving nighttime play to "Paradise City" in preparation for their date here with Motley Crue....

**Stacy Yelton, WKQQ, Lexington**

Top 5 phones on the Radiators. I have determined that they're the #2 most requested here because every time I'm on the air, I have to inform the listeners that this is the best record they'll hear all day.... Moved up the BoDean's this week. Last Friday I went to see U2, where the 'Deans opened up. It was amazing. Watched the atmosphere in Lexington Rupp Arena go from a party to an intellectual celebration. Both bands were brilliant and I must thank Bill Heltemes for two wonderful dinners and two perfect bottles of Pouilly-Fuisse.... Moved Yes up this week. On the turntable at home, Yes' "Big Generator" and Sting's "Nothing Like the Sun" have been my constant companions. Thank goodness there is still room for high caliber intellectual yet still emotional music for me at home.... And whenever Paul Carrack

comes on, we get people calling in saying they can really relate to the lyrics. Now sales are finally kicking in.... Looks like Paul is ready to bust wide open; #7 phones this week.

**Doug Clifton, KBCO, Boulder**

INXS never seems to disappoint us, "New Sensation" and "Mystify" follow up the single.... Robbie Robertson's "Fallen Angel" and "Broken Arrow" will just be the beginning of airplay for this album on KBCO.... Joe Cocker is returning to the level of success he attained in the early 70's. "Two Wrongs" is our choice to join "Unchain My Heart" on the air.... The Alarm is finally being recognized! I'm very happy to see the support being given to "Rain In The Summertime". It's their best effort to date.... The new Ry Cooder has caught our ear.... We also like the new Cruzados single, "Time For Waiting".... Thanks to Tom Holser, Cy Curnin, Adam Woods, Randy Robins, and Bob Margolis.

**Rick Van Gil, WLNZ, Lansing**

Gather 'round the campfire and let me tell you how last week we pulled some major league wool over our competition's eyes. Last Monday we started TV and paper advertising stating that 92.1 WLNZ was going to bring a "New Age" to Lansing radio. It was an intentional play on words and the competition took it hook, line and sinker. We stated in our ads that at 7:20 A.M. Thursday, the "New Age" would begin. By Wednesday afternoon, the market was a buzz over our change. Three General Managers from other stations called wanting to buy time on our station on Thursday stating they were now the place to rock and roll. But we never said that we were going to a New Age format, just that we were bringing in a new age of quality sound. So the big day came. At 7:15 A.M. it was announced that "This is the last rock and roll record you will ever hear on Lansing's Laser", and we played the Who's "The Song Is Over" on a scratchy old album. Once the tune was over, a couple of seconds of dead air followed, then 30 seconds of waves crashing on a beach. With the waves still audible, we started 40 seconds of actual New Age music, then our owner came on and announced that we were coming into a new age of technology by going 100% compact disc rock and roll and we played Led Zeppelin's "Rock And Roll". We are now Michigan's first all compact disc rock and roll station, so send us your C.D.'s.... Added Triumph this week. I think this is the song they needed to do for their core; straight ahead back to their familiar sound.... Aerosmith's "Hangman's" is a tune that could have come off "Toys In The Attic". They have just come back with a killer album that we'll be playing into Spring.... Finally added MSG this week. After weeks of test night time play, it proved to be a real success story for us. We're getting lots of calls and this is really a great reaction record.... Went with Robbie Robertson's "Sweet Fire Of Love"; after all, how can you go wrong with two legends like Robbie and Bono? Sounds tremendous.... Dokken will be a huge record that demands immediate attention. Reaction calls after one play.... The Alarm is registering top 5 phones already. I believe this could be the best record of the year! And it's getting great reaction from the audience. This band definitely has a following and this will be the song for them. We're keeping an eye on two others from the Lp "Shelter" and "Hallowed Ground".

**David Anderson, WIOQ, Philadelphia**

From the city that once booed kids who couldn't find the prizes during the Easter egg hunt comes the Philadelphia Music Awards. On hand last night at the Academy of Music were Todd Rundgren, Joan Jett, Cinderella, Jesse Colin Young, Janis Ian, David Bromberg (the evening's best performance), local favorite Tommy Conwell and many, many others including M.C. Frankie Avalon and special guest Honoree Dick Clark. Despite a few technical glitches, it was a very enjoyable evening.... Want a sure bet? Forget the stock market. The Blue Chip record of the week is "Rain" by The Alarm. It'll be in the top 10 by Christmas.... The phones are alive with calls for INXS. "Need You" percolates with moving rhythms and a unique sensuous vocal delivery. Watch for this record to fly out of the stores.... Dave Mason sounds like a hit. It's a great pop flavored record

that will return Dave to the charts.... Added the Bryan Ferry. It's a hypnotic danceable track which has strong crossover potential.

**Cyndee Maxwell, KWHL, Anchorage**

Listeners from all over Alaska are asking about the new albums from Dokken and George Harrison. Looks like they'll be monster sellers out of the box!... My Pix To Click for the next track off of the Robbie Robertson are "Sweet Fire Of Love" followed by "Hell's Half Acre". These are killer tracks.... Hard core Dylan fans will be pleased with "The Usual". With Eric Clapton on board, this is an exceptional Dylan track.... We readded Def Leppard's "Hysteria" due to popular response.... Martha Davis' "Just Like You" is just like Martha: outstanding!... Top 5 phones for Dokken. It's just a great song and I think they'll get new fans with this new and improved style.

**Carter Alan, WBCN, Boston**

Our #1 requested at 'BCN this week was Yes. We are eagerly awaiting the band's arrival here in the States.... The #2 most requested was Squeeze's "Hourglass" which was deposed from the #1 position last week. This band just added a third concert to its Boston appearance and we're eagerly awaiting their arrival as well. Incidentally, I was very interested to note that "Hourglass" is now the highest charting Squeeze single in the Hot One Hundred ever.... Aerosmith's "Rag Doll" forges ahead to the #3 spot and George Harrison, who makes a big jump from 10 to 4th Most Requested and the Alarm's "Rain In The Summertime" shows a strong debut at the #5 request for this past week.... We just saw the Fourplay tour come through Boston and this is an interesting way to bring attention to four new exciting groups. The Paradise Theatre was packed for the show even as Hurrah (the first band) took the stage. The group was impressive in the vocal department with loads of musical energy.... Northern Pikes did the evening's second set and it was impressive as well. This band has rediscovered the Wah Wah pedal. "Things I Do For Money" garnered a huge reaction from the crowd. Will and Kill was next and rock solid, as was Royal Court of China. This novel way of exposing new talent should be exploited more.... And finally, you should check out the second Ep from Boston hopefuls O-Positive. This record, released on Link, should be available for just a simple phone call. Their previous record was a huge hit in Boston and on national college radio and we're doing quite well with it here at the Rocker.... If Bryan Ferry continues to put out records as strong as "The Right Stuff", then he will unquestionably receive all the success and attention he deserves.... Martha Davis' unique vocal style instantly identifies her as the singer from the Motels which automatically has given her a huge reaction from the BCN audience.

**Jeffrey Naumann, Virgin, 213-278-1181**

With the state of the stock market, can you think of a song more timely than the Northern Pikes "Things I Do For Money"? And geez, the possibilities for promotions are endless. In short, we have a record that has held strong now for 10 weeks with a timely social comment most all of us can relate to. Plus, the Northern Pikes are touring, so why wait any longer. How much more do we have to prove to you before the remainder of holdouts add this great song?... Speaking of great songs, Danny Wilson has a new one. It's up tempo, fast paced with a neat little guitar solo, too. In a word "A Girl" is a cookah!... All That Jazz album and 12" has been at your station now for a couple of weeks. I really like this record. In addition to the 12" track, "Run Hide", check out the killer tracks "Cruel Summer" (no, not the Bananarama song!) and "America".... A hearty congrats to Bill (I have it) Press-Kit on landing MD at KZEW in the big D. YOU are the master.

**Al Nassar, WCKW, New Orleans**

Just wondering why no one is playing the new Van Morrison? We're on "Mystery" and we've been logging great response. Why aren't more stations on this record?

**Dick Sheetz, KRZQ, Reno**

I've had a crush on Martha Davis since the time of the early Motels. And though this album isn't the Motels, her voice shines throughout. We hear lots of great material so we've gone with "Don't Tell Me The Time", which we feel is more representative of Martha's style.... Paul Carrack has a great album on his hands. This guy's got massive hits all over this album. Can't wait to find the room so we can go deeper.... It was easy to go four deep on the INXS. All we did was drop the needle on the album and pick one after another. This album is proof that this band is here to stay!

**Pam Brooks, WPDH, Poughkeepsie**

As Ann and Nancy Wilson continue their stronghold on WPDH land, we move to the well-textured, nice, laidback track "There's The Girl". More guaranteed hot phones for the sisters Heart.... You couldn't ask for a finer entry for those upper demos than Dave Mason "Something In The Heart". Like a well tuned vehicle that cruises along gathering admiring onlookers, Dave adds special flair to the radio. Welcome home Dave, we've missed you.... Sound the Alarm. "Rain In The Summertime" makes for great fall airwaves. This song just creates a feeling of warmth that washes over you nonstop. Here's a funky feelgood find that has my butt boppin' and my radio cranked.... I don't mind waiting, but I really mind missing out on something altogether. Watch out when I throw my little self around which has been the case here since I first heard Bourgeois Tagg's newest. Better late than never on this hot pop wonder that makes music magic. "I Don't Mind At All" is a real ear grabber that our listeners can finally tune into and I know they won't mind at all.

**Karen A. Small, WGIR, Manchester**

The Robbie Robertson album gets better with each listen. There are so many textures on this record that you hear something different each time. This week we'll go with the Robertson/U2 collaboration of "Sweet Fire Of Love".... When I first listened, the Rainmakers "Snakedance" was one of the few songs that I listened to again to hear the hook one more time.... You can't get guitar playing any sweeter than Eric Clapton. And him teaming up with Bob Dylan has produced a song with an instant classic sound.... The INXS "Kick" Lp has a lot of good stuff on it from dancing music to rock and roll. As soon as you put the needle on the record, the music just plows on relentlessly. One of my personal favorite cuts and one that I've gone back to several times is "Devil Inside".... This Halloween season has been very busy for Rock 101; we've been everywhere. There are a lot of haunted houses around town and the station recently co-sponsored the 3rd annual and biggest to date Monster Run last Sunday.

**Ellen Gerdes, KYYS, Kansas City**

Station news: KYYS is pleased to announce a new co-host for Max in the morning -- Tanna Guthrie.

**Mike Ramsey, KLAQ, El Paso**

Rocktober has been a month of nonstop partying at KLAQ. We've been celebrating nine years as the Heart of Rock and Roll in El Paso and will wrap up the festivities with our 2nd annual Halloween parade. And thanks to some great record companies, we were able to give some of our listeners some really fine birthday presents. A&M, Epic, CBS, and Geffen each put a lucky person on their mailing list for an entire year. MCA arranged a Lynyrd Skynyrd Rock trip, and EMI put together a David Bowie trip. Also thanks to Mila Collins of RCA for having me in Dallas for the Silencers show.
