## NEW THIS WEEK

**Foreigner, "Say You Will", Atlantic...** While their debut album still ranks as one of RockWorld's principal stylistic cornerstones (along with the Cars first and the Heads "Buildings and Food" album), and though the chemistry between Jones and Gramm spawned a legion of occasionally very flattering imitators a decade deep, the original is still the greatest. And yes, it's true that "I Want To Know What Love Is" may have been the group's high water mark commercially, we definitely prefer Foreigner when they're stripped down, streetwise in-yer-face rockers. That's certainly the case here, with the big melody we've come to expect and a Gramm vocal hook just about any contemporary music format could hang its hat on. Nice to hear a solid shot of phasing for a change, too....

# KTXQ, DALLAS

## REDBEARD:

*"I believe that Paul Simon's acoustic guitar riff from 'Hazy Shade of Winter' has been begging for an electric guitar treatment for 21 years and The Bangles have done a great job on it."*

# DC-101, WASHINGTON

## CURT GARY:

*"One of the best covers of 1987. . ."*

# WHTQ, ORLANDO

## SLATS:

*"Saying that AOR can't play certain artists because of their a) previous reputation b) They're all girls or c) It's not on my worklist doesn't float. You don't have to be a record hero to play this one."*

**RECORD OF THE WEEK**

Love and Rockets, "No New Tale To Tell", Big Time/RCA.... We're with the Catfish at WHMD, "The sales are too good to ignore.'No New Tale' is a retail success story"....Ditto the Bearded One at KTXQ, "Probably outselling 30% of the songs that I'm playing in medium rotation—and it has been since its release".... Steve Hoover, KMBY, "We are seeing a gratifying retail build in response to our airplay. The song is working well here".... The airplay build kicked up considerably this week—with L&R scoring their best totals ever: New on 20, Up on 6 (KLOL, WQFM, KMOD, WNPQ, WIZN, WTPA), heavy on 10 and currently on 77. That action translates into a 63-48\* move, our fourth longest. Definitely on one of the strongest candidates for continued serious gains into December....

The Broadcasters, "Down In The Trenches", Enigma.... Sooner or later you folks have got to give a baby band a break—and the Broadcasters are a nice place to start. KSJO's Patty Martin is a fan, calling them "The coolest new band of the month. I was hooked on first listen".... WRXK's Greg Mull also sees the value of this relief rock, "It's hot rock and roll that keeps the sound fresh, even with all the heavyweight product"....

Mick Jagger, "Say You Will", Columbia.... "Throwaway" is still smoking in a number of markets (and the Northwest in particular), but for those of you who have cooked it, this is the next logical choice. Already off to an early start on WNEW, KDJK, KTCZ, KGRQ, WKLT and more....

Chris Stamey, "Cara Lee", A&M.... I always love it when guys from one label call and berate you for not getting behind another company's records. Hence, when Harvey Leeds called raving about Stamey, I knew it was time to fall in line behind JB on this one. The former dB's lead guitarist has assembled an all star cast including Anton Fier, Richard Lloyd, Mitch Easter, Alex Chilton, Marshall Crenshaw and more. The tempo and overall feel could easily cross pop and A/C, so keep an eye on this nifty hunk of pop Americana....

**IMPACT TRACKS**

U2, "In God's Country", Island.... A track that many of you have played in the past slots back into prime time, with 39 adds and a #52 Hard Hundred re-entry. Between the tour and Bono's upcoming San Francisco court appearance, the timing here is perfect—as noted by WPYX's John Cooper, "I'm sure it will help sell a few million more copies of the album and that should keep Bono's supply of spray paint in good shape".... From Carter at WBCN, "I knew that there would be a fourth U2 single, because Bono's face hadn't been used yet on any of the 7" sleeves"....

Great White, "Save Your Love", Capitol.... The remix only your mother could miss rolls up another tidy week. We're talking 26 adds, a KDKB increase, and this week's longest, strongest 100-62\* gain. WKWQ's Ron Marsh calls it "A perfect piece of tempo shift that keeps the guitars up front".... From KMJX's David Allen Ross, "We're the only station in town playing Great White and the record is flying out of the stores. They're great gutsy rhythms and blues based hard rock is very reminiscent of Led Zeppelin".... Again to Curt Cartier, and "'Save Your Love' reminds me of some of the great Scorpions ballads. The Scorps haven't had an album out in a while and Great White has picked up where these guys left off"....

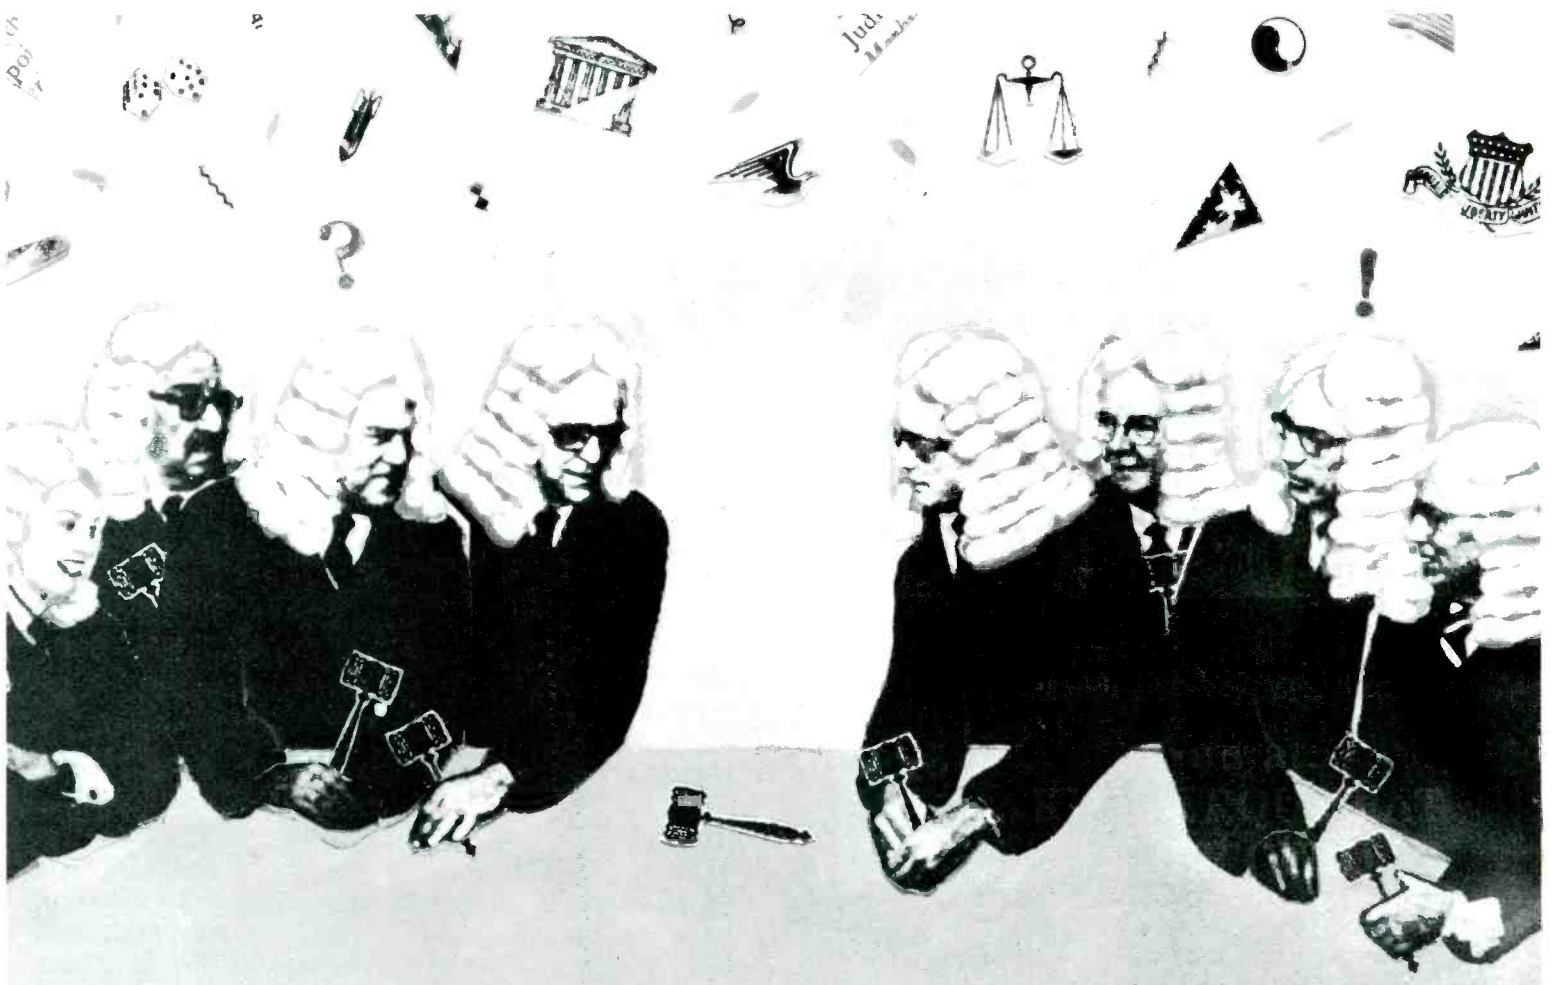

Grateful Dead, "Throwing Stones", Arista.... Early indications have their fourth track grooved in for a healthy run. It's got 15 adds this week, with 10 of 29 now playing listing heavy rotation. That list includes KSJO, WCCC, WMMR, WNEW, and DC101. It returns to the Hard Hundred at 71\*....

"A Very Special Christmas", Various Artists, A&M.... I love to sing Christmas songs because, though I'm a lousy singer, they always come out sounding...well...right. On that note, you can practically scan the package here and know that Jimmy Iovine and company have collaborated on what has to be the greatest rock and roll Christmas album ever. Just look at the artist lineup: Bruce, U2, John Mellencamp, Sting, Stevie Nicks, The Pretenders, Bon Jovi, Bob Seger, the Eurythmics and more. They're all new recordings, and with the exception of only a few songs, just perfect for your holiday programming. And considering how long we've all had "Father Christmas" and Bruce's version of "Santa Claus Is Coming" etched into our brains on a yearly basis, it's nice to have a world class collection like this to play with. As for the fact that it's been in the stores for a few days, better the Special Olympics should benefit from the very first time you que up this Instant classic....

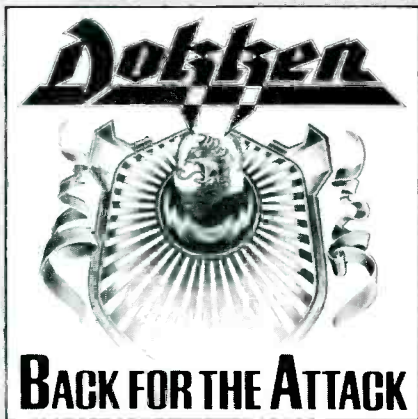

Sinead O'Connor, "Mandinka", Chrysalis.... I'd never expect you to go for the old "if she's OK with U2 she's good enough for you" ploy—but I will try a variation on that theme. Sinead is apparently just what WBCN and WNEW were looking for, and what does that tell you? This is admittedly a mostly esoteric album, but "Mandinka" does a fine job of showcasing the vocal dexterity that has all the consumer rags a titter, and in the quirk/hook division rivals some of the best work of Lene Lovich, Lolita Pop, and even a touch of Cocteau Twins. Check your local progressive retailer—you'll be surprised at the movement....

George Harrison, "Devil's Radio", Dark Horse/WB.... The single slips a notch to #2 (while still #1 requested), with "Devil's Radio" now the clear #2 favorite. It's got 35 more adds, 116 stations to date (37 of them heavy), and 10 increases. It's up 27-22\*, with top 5 calls now on KLBK, WKGR, KTXQ, WEGR, WKLC, WKWQ and WXLK. A few stations seem to be holding "When We Was Fab" in anticipation of the inevitable CHR blitz, but it still came through with a 43-37\* underline. Finally, in the "Gee, that didn't take long" department, check the album's 3-1\* power move....

Whitesnake, "Give Me Your Love", Geffen.... If it's got their name on the label, it'll get the phones flying instamo. KILO, KWHL, KBAT, KBPI, KQRS and WEGR already list top 5 response. It's new on 33, with 12 now posting heavy to power rotation—including WRIF, KEZO, KSJO, WDVE, WHCN, and WRXK. WXRC, KSQY and WEGR increase play, as 72 current reports help nail down this week's second longest 63-41\* advance. KEZE's Curt Cartier calls it, "A great mainstream rocker from an Lp that is still selling top 5 in this town. We're now four cuts deep on this one and they just keep on coming"....

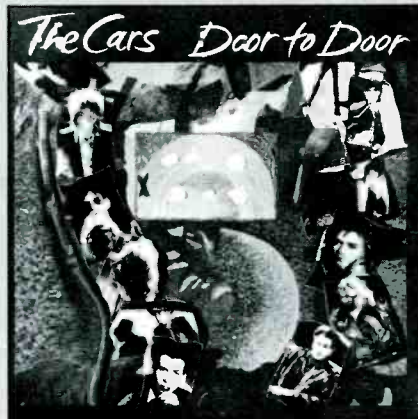

**THERE IS NO JUSTICE...**

**WHERE GREAT MUSIC RULES SUPREME...**  
**ON ELEKTRA SUPERIOR-QUALITY CASSETTES, COMPACT DISCS AND RECORDS.**

**Bruce, "One Step Up" and "Spare Parts", Columbia....** "One Step" takes a big one, with this week's fourth longest 80-64\* underline. It's got 13 adds, 2 increases, and 12 now heavy—including KBCO, KFMQ, WDVE, WKQQ, WLAV, WMAD, and WPYX. WDVE's Anthony Alfonsi says, "It's a song that people here at the station like, probably because they can relate to the lyrics. It's the obvious choice for the next one for us because of the in-station reaction...." "Spare Parts" also picks up 9 adds including WNOR, KISW, KEZO, WPLR, and WHCN, gaining 34-33.

**Kiss, "Reason To Live", Polygram....** Two weeks in and the follow up lays claim to 58 of our reporters, with fast heavy reports from KBPI, KRQU, KWHL, WHCN, WNPQ, and WWZU. Second week increases come from KBPI, WWZU, KFMX, KRXQ, WHEB and WQFM, with WYNF, KRQU and KWHL the first with phones. They've got a definite Chartstar, with the 73-54\* gain ranking third behind Great White and Whitesnake....

**Fleetwood Mac, "Everywhere", WB....** The new 12" starts with 31 stations—including heavy play at WEBN, DC101, WTPA, WPDH, KVRE, KRNA, and WWTR. A track that's always enjoyed popular programmer support debuts at 69\*. Other key calls just in: KSHE, WCMF, WNEW, WWRX, and KILO....

**ALBUM PLAY PRIORITIES**

**Aerosmith, "Hangman Jury", Geffen....** The third track couldn't look much stronger anywhere. The requests are filling in beautifully, with 11 Top Fivers now, including KQRS, WEGR, WPLR, WRKI and KILO. It's got 14 more adds, 105 now playing, and 27 heavies. KLPX's Jack Green tells us, "This is the best these guys have sounded in years and "Hangman's Jury" proves that Aerosmith is a force to be reckoned with AGAIN!".... As WRQK's Rik Elliot says, "They're still getting solid support from the phones and they're selling lots of records and concert tickets around here".... Up 39-30\*....

**Richard Marx, "Have Mercy", EMI/Manhattan....** As Jim Steel at WIOT says, "None of the impressive CD's from '87 have had quite the impact of this release. 'Have Mercy' is another track that will firmly establish him as the leading candidate for Rookie of the Year honors".... No argument here. Richard's latest lands another 13 adds, 12 increases and a strong 32-28\* underline....

**Rush, "Lock And Key", Polygram....** As "Time Stand Still" fades, here's the logical successor, as per the signal of this week's 11 adds. It's up 70-65\* thanks to 38 total reports, and heavy play at KRQR, KISS, KRXQ, KSJO, KTXQ, WHCN, WAPL and WCKW....

**The Cars, "Double Trouble", Elektra....** "Double" has no trouble picking up an additional 16 stations this week, as LVQ, WRIF, KBPI and WGIR come on, swelling the ranks to the 62 mark. KFMU's Dave Ross, "'Double Trouble' goes in with much confidence here. A powerful, steady rhythm keeps the song going. It kind of has a haunting feeling to it, which makes it sound mysteriously great".... 58-46\*....

**Pink Floyd, "On The Turning Away", Columbia....** Gosh, we can't wait to see the cable coverage of the Great Pig Out over KLOS during the Thanksgiving weekend, with the building painted an appropriate shade of Pink and and that giant inflatable Pig from the "Animals" tour tethered over the station. Neat, huh? Meanwhile, "On The Turning" takes in another 20 adds and ups from KLOS, KPEZ, WZZO and KSQY to move 36-29\*. It's now heavy on 35, with current play on 96....

**R.E.M., "It's The End Of The World As We Know It", IRS....** How automatic can you get? About the only angle these guys don't have nailed down is a Saturday morning animated series with a product line to match. The new tune posts play-ups from KRQR, WNEW, KMJX, KOZZ, KWHL, WHEB, WIXV and WRDU, with phones ringing top 5 at KQRS, WNEW, KFMQ, KFMH, and WVVV. Up 51-42\*....

**Tesla, "Gettin' Better", Geffen....** Another solid add week, with WEGR, WDIZ, KSJO, KRQR, WQFM, KQRS, and KAZY just in. Other early believers include WFYV, WDHA, KSJO, KGB, KDKB, KDJK, WYNF, WNEW, KRXQ, and KICT. Plus, we show increases from KSQY, KWIC and WGIR. UP 77-67\*....

**Yes, "Shoot High, Aim Low", Atco....** With "Rhythm Of Love" zoned in on the top slot, it's time to think seriously about the next push track. This week finds "Shoot High" new on 12, with 66 now playing and 19 heavy—including KAZY, KISS, KLPX, KRQR, KSHE, KSJO, WDVE, WFYV, WLAV, WMMR and DC101. Now top 5 at WKGR, KTXQ, KOME and WWCT....

**Hooters, "Karla With A K", Columbia....** Programmers who started with it have stayed with it—and here's KGRQ's Fred Leemhuis to testify, "It's the strongest track from the Lp. We went with it first, and the listener response was stronger on this this track than 'Johnny B' and 'Satellite' combined".... WWZU, WTPA and WHCN show increases, with 8 adds and 32 now on board, including WMMR, KDJK, KFMG, KLAQ, KRXQ, WDHA, WLAV, WNEW, KMOD, and WMAD. 84-73\*....

The Rainmakers, "Snakedance", Mercury.... Da Snakes, dey be dancin' right up da chart. Middle-America's resident rock wits clean up with another 15 adds this week as WRIF, WIOT, WKDF, WEGR, CHEZ, WPDH, WAOR, KLOL and KLBJ all join in and do da "Dance". 'PDH's Pam Brooks, "It's a happenin' tune that's happenin' here. The stormy vocals make this a real standout song that rages on the airwaves and is guaranteed to perk up a lot of ears".... Up at 12; total on at 115. 40-31\*....

Tom Caufield, "Precious Town", Paradox.... Tom has struck a chord in a few hearts out there, and we're finding his fans to be totally committed. KOMÉ's Stephen Page filled us in on "Precious Town", "It has a great back beat, puts a smile on the listener's face and has a dynamic horn section. This song is not about to be overlooked and in the rush of the holidays you just might do that. We've only been on 'Precious Town' for two weeks, and the listeners are interested with numerous curiosity calls. In this day of guitar riffs and blasting bass lines, this song is a very pleasant change of pace and it will make everybody in the office get up and dance".... New at KZEL, KQSP and WHFS....

Al DiMeola, "Beijing Demons", EMI/Manhattan.... With Al's popularity over the years, it should come as no surprise that adult-oriented rockers are turning to "Demons" for some colorful relief. Still early in the project, but Al is comfortable at WIMZ, KBCO, WCKW, WHFS, KTCL, KBLE and KFMH. Got a Wave in the market? Consider for flavor and severe hip factor....

Cry Before Dawn, "The Seed (That's Been Sown)", Epic.... If you think we're left of center on this one, take one listen and try again.... We dare you to not be singing the chorus by the end of this utterly convincing entry into the marketplace. 9 already hear the call with WLLZ leading the way. Try it, you'll like it....

The Connells, "Over There", TVT.... Despite some shipping problems, the Connells are building a nice base of support around the country with programmers talking and many "Favorite at Home" mentions coming in.... But we believe the Connells have the kind of class and freshness to go the distance. They're certainly in our in-house top 5. Give it a chance, and that light, airy production and the razor sharp brass hooks should have you going back for more....

Don Dixon, "Your Sister Told Me", Enigma.... Don's had to slay drekdragons left and right to break through this time of the year, and we're convinced the battle has proved that "Sister" is more of a mutha when played side by side with the competition. 32 now playing, including CHOM, KBCO, WDHA, WHCN, WRDU, KMOD, WRCN, WBLM, CHEZ and WMAD. 83-81....

## **TAKE TWO** Second tracks worthy of your attention....

Squeeze, "Trust Me To Open My Mouth", A&M.... These vets are behind one of the most talked about tours on the road right now, and even though some are still feeling the glow of "Hourglass", "Trust Me...." is emerging as where to turn next. 13 more come on this week (WGIR, WLAV, WKLS) as the harder edge on this cut attracts a decidedly more mainstream audience. KMBY's Steve Hoover, "It's a must-play follow up to 'Hourglass'. It has more guitars and a better hook".... KZOQ's Vern Argo, "After a good lead track, what could be better than a follow up as hot as 'Trust'. Squeeze is a band that is back and sounding better than ever".... On a performance level, retail is the key to this project. WPDH's Pam Brooks, "We're squeezing out every drop of sand from 'Hourglass'. The album is selling extremely well and the phones are constant on this one, so it moves up to power. This band has given me hours of listening delight so I'm tickled at the super response and looking forward to continuing the saga with 'Trust Me'".... And CFOX's Karen Hewko, "Great sales in this market and the audience is very supportive on the phones".... 87-74\*....

White Lion, "Wait", Atlantic.... If you're not feeling the pressure courtesy of MTV's breakout rotation already, it won't be long before your top 5 gets customized.... The metal shows have had a good long run with the band, as WHJY's Dr. Metal reports, "This band is headed for stardom. The more 'Pride' gets played the more songs get requested and it's beginning to really snowball. White Lion is one of the best kept secrets in rock and roll".... And WAQX's Lorraine Rapp made room for "Wait" this week, "Judging from the video, this band has the goods. We're expecting top phones".... New at 12 (KLOL, KDJK, KBPI, KBER), up at KFMG, with top 5's at KNAC. Debuts on the chart -- 95\*.... On the metal chart, "Wait" advances 34-24\*....

Bob Dylan/Eric Clapton, "The Usual", Columbia.... The combined talents of these two continue to entice listeners and programmers alike, and won't its inclusion on the forthcoming Dylan album make that your basic pre-heated pizza. Bob lands another 12 adds (WFYV, KCAL, KATT, WQFM, WCMF, WBCN, KGON) with increase action at 9 including KLOS, KRQR and WKDF. Total on grows to 135... On the Hundred: 24-23....

Dave Mason, "Something In The Heart", Voyager/MCA.... The subtleties here hit home after a few sweeps through, and once they do, watch out. Even WIOT's Jim Steel found himself wondering, "...If my ears are rusty or what the deal is. I can't understand why I waited on the Dave Mason. It's the sweetest sounding song on our playlist".... New at 9 (KDJK, KQRS, WAAF, WONE), up at 8....

Peter Himmelman, "Waning Moon", Island.... Pete's been hitting the clubs lately and getting results as he picks up another 9 adds as KDJK, KRZQ, WRXK, KLBJ, KMOD, KZRR and WAQX come in where Lorraine Rapp declared, "I love this song! It has a beautiful melody and will surely do well 25+".... Missed Peter on the club run? Catch him as he opens for Cocker on the first leg of that tour.... On 60, 60-55\*....

Flesh For Lulu, "Postcards From Paradise", Capitol.... In keeping with the growth pattern we saw with Guadalcanal Diary, Lulu is making new friends every week as the lull gives "Postcards" some quality TSL, and the result is serious adds and comments.... 'BCN's Carter Alan, "Reminds me of 'Spiders From Mars', 'Postcards' is working well for us and shows definite promise".... WKWQ's Ron Marsh, "Lulu reaches out and grabs you by the throat. I had four people in the studio when I played it and bet them each a buck that they'd like it. Well, I'm now \$4 richer and we've got another great record on the air".... And KFMU's Dave Ross, "'Postcards' helps keep the flow of our music on the upbeat side. The vocals remind me of Richard Butler and I think that's a plus".... New at 8 (WDHA, KATP, KLAQ)....

*IT'S YOUR DEMO AND  
IT'S RIGHTEOUS!*

# MICHAEL BOLTON "DOCK OF THE BAY"

**#1 Requests - WKLS!  
Top 5 Phones - KOME!**

**Stephen Page, KOME**

"Solid and stellar production makes this performance a #1 hit! 'Dock Of The Bay' comes in at #4 on the phones this week and females just love this song!"

**Ralph Tortora, WBAB**

"8 years ago when Michael Bolton was out at the station for an interview I asked him what song he would like to play, and without hesitation he said 'Dock Of The Bay' by Otis Redding! 8 years later, it looks like he's going to have a hit with it too!"

**Jeff Kauffman, WTPA**

"Otis lives! Michael Bolton's blue-eyed soul moves an R&B classic into the 80's with taste and style."

**CD Single On Your Desk Now!**

Billy Idol, "Hot in the City", Chrysalis.... Retail is the key to "Vital Idol", and continued sales will often dictate deeper play. "Hot" is the choice and not a tough one at that. WHMD's Catfish calls Mr. Idol "An automatic for HMD. A hot one in this city".... On KTYD, WHMD and 'LIR....

Insiders, "Love Like Candy", Epic.... The majors are coming through on this track like gangbusters, with 'NEW joining KISW, KGON, KSHE, WLLZ, KRQR and 54 more this week on a track that, given solid rotation, will perform like a race horse. WKQQ's Stacy Yelton upped the track, "To power rotation where it belongs. The response has been amazing"....

Roger Hodgson, "My Magazine", A&M.... There's little doubt that this is the cut for rock radio, and now the turnaround from the lead track is starting to pick up speed. New at 3 (WQFM, WWZU), up at two, with projections galore.... KFOG picked "Magazine" OTB, and the phones have been top 5 since.... 29 total on; 82-78\*....

The Brandos, "Honor Among Thieves", Relativity.... A class act is hard to hide, and the Brandos won't be a secret much longer. "Honor" debuts on the Hundred this week with 24 reporters including CHEZ, WDHA, WLAV, WAQX, WBCN, WFYV, WYNF and WAPL committed to the cause.... WWZU's Mark Williams remarks, "We're readding 'Gettysburg' to power this week and the phones are top 5. It's probably the most reacting track that we're playing this week. The Brandos' got what it takes"....

Sting, "Little Wing", A&M.... If you're not 2 cuts deep on this project, go home and clean your room. "Little Wing" has obviously taken command of the situation and is set to go all the way with a 21-17\* jump on the Hundred after 6 adds and 8 increases this week powers the track up the chart. The relentless phones have, no doubt played a part in those increases as 18 stations log top 5 requests.... Meanwhile, in the wings and definitely next in line is "The Lazarus Heart", already on 36, with plenty of room to grow....

Jethro Tull, "Farm On The Freeway", Chrysalis.... Have you heard the roar of reaction following JT now that the live show has hit the road? It's not always, that a return is as warmly welcomed, and Ian and company are making it worth everybody's while by delivering stellar performances night after night. WPDH's Pam Brooks reports, "What an album, what a show, what talent. Their tremendous wit and talent has kept their following constant and 'Crest' proves how wonderful and lasting Jethro Tull is. They sold out the Mid Hudson Civic Center, turning away thousands more who would have loved the show and gave those in attendance a joyous romp through vintage tracks as well as the exciting new stuff".... "Farm" continues to be the big request item, with another 18 reporters checking in with top 5 requests. "Jump Start" continues to build maneuvering 90-82\* on the Hundred....

## **SINGLE FILE --CROSSOVER TRACKS**

Bangles, "Hazy Shade of Winter", Columbia.... One second it's here, and next it's through the roof.... Between the incredible quick radio action and the movie raves ("Less Than Zero" netted a cool \$3 mil first week) this captivating cover should be wrapped up in time for Thanksgiving. DC 101's Curt Gary "It's one of the best covers of 1987, but I'm having a little bit of difficulty playing 'Hazy Shade of Winter' when it's 72 degrees in November. I'm sure the weatherman will catch up with the band sooner or later".... KTXQ's Redbeard, "I believe that Paul Simon's acoustic guitar riff has been begging for an electric guitar treatment for 21 years and the Bangles have done a great job on it".... And WHTQ's Slats, "Count us in on the Bangles. Saying that AOR can't play certain artists because of; A) Their previous reputation, B) They're all girls, C) It's not on my consultant's worklist, doesn't float. You don't have to be a record here to play this one".... 11 new this week (DC 101, WAAF, KTXQ, KATS), up at 6 more, with a 56-47\* build on the chart. And be sure to check out the soundtrack for Aerosmith's "Rockin' Pneumonia and the Boogie Woogie Flu", plus Poison, Joan Jett, and Roy Orbison....

Heart, "There's the Girl", Capitol.... The fans can't seem resist Nancy's subtle vocals, and "Girl" is shaping up as one of their most memorable tunes yet. 10 more add this week (KNCN, KATT, WLVQ, WNOR, KCAL), 8 increase rotation as 32 of the 88 total on report heavy or power play. Phone action has warmed up with top 5 reports coming from WKDF, WIZN, WXLN, WZXL and WHMD's Catfish, who reports "An evident track if I ever heard one; evidently people want to hear it!".... 41-34\*.... A touch slow out of the box? Maybe, but it's a monster now....

Michael Bolton, "(Sittin' on) The Dock of the Bay", Columbia.... Michael doubles his audience with adds at KRQR, WDIZ, KMBY, WTPA, KRZQ and 4 more as the emphasis on this project just begins the big switcheroo.... You've got to admit, it's damn difficult to attempt such a classic but we had to agree with KMBY's Steve Hoover, "I'm not a real fan of covers, but I was surprised by how much I liked Michael's 'Dock of the Bay'".... KZQO's Vern Argo, "Michael has recorded a great version. This song is one of those rare covers that works on its own".... And CFOX's Karen Hewko, "This song is timeless".... 14 on OTB....

Robbie Robertson, "Sweet Fire of Love", Geffen.... Some of the best sounds around have jelled out of jams; and we're pretty used to someone jumping on another's album to help out. Still, Bono and the Edge make "Sweet Fire" something out of the ordinary and help give Robbie's solo that extra shine everyone's so excited about.... KEZE's Curt Cartier calls "Sweet" "A Great song from a greater album; could be the best of the year!".... New at 8 (KGB, WFYV, WDVE, CILQ, KBER), up at 6; 96 total on. 38-32\*....

Glen Burtnick, "Heard It On The Radio", A&M.... Glen's got this one wrapped up tight in one big package: Rousing chorus, gritty guitar, singalong lyrics, and a made-for-a-tie-in title, one that could bring a sales department to its knees.... This is a song that was made to be played, and 7 do just that with new air at WEBN, WAOR, KGB, KBER and 2 more, pushing that total on to the 58 mark. On the chart, 54-50\*....

Lynyrd Skynyrd, "Georgia Peaches", MCA.... This band's flock is as varied as they come, and incredibly alive after all these years. And many are feeling the heat both on the phones and in the stores, so why not roll another from this deserving project? "Georgia" picks up another 7 with adds from KMJX, WIZN and KMOD the week. Beth Kepple at 'KLS reports top 5 phones, as the total on grows to 22. The cut debuts on the Hundred at 98\*....

New! KDJK KRZQ WRXK KLBJ KMOD WAQX

Dokken, "Burning Like A Flame", Elektra.... Don, George and the guys are heating up the crowds for Aerosmith, and "Burning" is primed to take them farther than ever before.... KWHL's Cyndee Maxwell, "I should have been a fortune teller! Dokken burst on the retail scene hot and heavy. Number 1 to be exact".... KFMX's Jeff Ivan tells us, "The new Dokken album is so hot, it debuted at number 1 in local sales. The record stores were reporting that kids were waiting in line for the UPS truck to show up. A couple of stores just opened up the boxes and sold out in a matter of minutes".... 5 adds and 15 ups factor into a 28-27\* chart showing. But the real deal this week is Dokken's unbelievable, simply amazing move to #2 requested....

Bourgeois Tagg, "I Don't Mind At All", Island.... More than a few programmers were shy about their name, but the reports of top phones, predominantly women with little to any negs from the core has been the ultimate in reassurance. 16 report top 5 phones including 'IBA's Jack Mitchell, who's been getting reaction calls, "Asking if it's the new George Harrison. The cut is certainly performing even though front selling it is a must".... And KLPX' Jack Green reports, "'I Don't Mind At All' is receiving strong audience response. It's the only track we increased rotation this week and it's destined for the top 10".... "I Don't Mind At All" takes the #1 spot on the Increase Index this week with 26 reporting upward movement. 10-8\*....

BoDeans, "Only Love", Reprise.... The 'Deans have filled big shoes, stepping in to open on the current leg of the U2 tour, and the exposure is coming through with continued and increased airplay.... KSJO's Patty Martin reports "A crowd of 60,000 was entertained this weekend. I'll be a fan for life".... And KCRK's Rich Flamingo declares, "Without a doubt they're a band with a future".... "Love" approaches SRO status with the total at 146; 11 increase (WAAF, WCCC, WLLZ, WHCN) and top 5 phones are heard at 6....

Joe Cocker, "Unchain My Heart", Capitol.... Is there anyone NOT feeling the phone pressure on this one? WIBA's Jack Mitchell raves "This record is HOT, HOT, HOT and I especially like the little bass run in the middle of the song. This is one that you don't have to have a good voice to sing along with, and I don't, but I do".... Joe logs top 5 phones at 11, top 10 at a dozen more, lands another 3 adds and increases air at 17. On the Hundred, 17-13....

Paul Carrack, "Don't Shed a Tear", Chrysalis.... When you've got depth as deluxe as the gems still lurking on "One Good Reason", the current play on Paul's single is really just an airplay appetizer. But then again, when you're countering Top 40, increased rotation is the only way to go. As 'PDH's Pam Brooks tells us, "There's lot of great reasons to be playing "Don't Shed a Tear", but the best is, it's a hit! So much wonderfulness is crammed onto this album that I can barely get it out of my cassette deck".... New at 6 (KGON, WLUP, KZEW, WIOT), up at 9, 20-16\*....

Icehouse, "Crazy", Chrysalis.... With total domination so close at hand, increased rotation is the only way to go for these Aussies, especially in light of the media blitz in the works (including a shot on the Carson show Wed 11/25). 17 move it up, with 95 of the 154 on reporting heavy or power play. Phones a factor? Top 5'ers coming in at WPYX, KLPX, KKDJ, WBYR, WZZO, WZYC and 4 more....

Motley Crue, "You're All I Need", Elektra.... It's hard to argue with Brad when the Crue have what is known as a "pretty good week". Since our last issue, the boys had one of those, in the form of 100,000 units sold.... That's this past week alone! And request wise, you've got to admit your nighttime phones are feeling the heat. The Crue pick up 5 more this week with KLOL, KBAT, KRQU, WKWQ and KZRR new, with increases at WQFM and WIXV....

## **CHARTSTARS**

INXS, "Need You Tonight", Atlantic.... Whether you're fielding the phones or watching sales, you've got to be amazed by this band. We're being deluged with concert raves, top 5 requests, video reaction and retail, retail, retail.... It's truly hard to believe that some might be passing based on the beat—cause that's what's making it happen in the first place. WIOT's Jim Steel has clear insight, "I was hesitant at first with this record; I was scared of how it would work. But after getting over the fear, the realization came that, yes, there is an extremely large audience for this band. And after a number of times, this song sounds soulful, not funky at all".... WLIR's Larry Dunn, "This doesn't happen very often—so how about this.... INXS has #1 phones, #1 sales breakout, and is our #1 record in power. What more can I say?".... And WRCN's John Loscalzo, "Major bigtime phones and retail on INXS.... Hey Michael, buy a shirt!".... "Need" comes in #3 on the Most Requested with top 5 phones at 27, 5 adds push the total on to 144, upped airplay at 24 is good enough for the #2 spot on the Increase Index. On the chart: 13-11\*....

The Alarm, "Rain in the Summertime", IRS.... This band has waited a long time for this song; the breakthrough tune that proves they're here to stay. And as the total on swells to 161, with 64 in heavy rotation (power at KQRS, WHCN and WLIR) can there be any doubt where these guys are heading? KGON's Inessa York speaks for many out there, "The minute we heard 'Rain in the Summertime', we felt this was the strongest LP they've done and a move to heavy solidifies our commitment. We're confident the Alarm will perform with our format giants".... 16-8\*....

Triumph, "Long Time Gone", MCA.... Triumph has made it a science of giving the fans what they want, and once again, no one is leaving disappointed. No doubt your phones have chimed in along with the rest of the country by now on this one, as many reporting top 10 if not top 5 requests. WDVE's Anthony Alfonsi predicts "'Time' to soon be a #1 phoner, climbing to #2 this week".... 9 adds with new air at WRDU, WKDF, KTYD, KATS and WQMF. Top 5 phones at 9. 37-35\*....

Steve Winwood, "Valerie", WB.... With Steve's popularity as formidable as it is (especially with the upper end) is it any wonder "Valerie"'s keeping time with the best of 'em at the top of the chart? And the best and brightest package, thoughtfully provided in time for Xmas retail is destined to make its mark at the top of your sales chart.... New at WLNZ and KATP. Total on 122....

**WHEN THE GOING GETS HARD**

Oh, the things we tipsheet types go through to get all this hard information in your hands every week. Our last sheet was like a scene from *Das Boot*, with snow flurries raging, emergency lighting running low and depth charges blowing out our word processors. What a heartwarming scene, Dawn and Amy huddled around a magnesium flare for warmth, Chris doing some really great shadow designs and of course Eric and Bill dragging the emergency power generator into action in the face of slick roads and dramatic temperature drops. Venetia made popcorn and I took up needlepoint. It was like the Donner party goes print and there were moments when we wondered if we could pull things together in time for deadline. Obviously we did, though it was certainly one for the books, a week when what's always a HARD REPORT became a next to impossible report. There were a lot of changes in the biz last week so read on comrades, and be sure to spend some time with our Seattle market breakout and the upset of KISW by KXRX.

**ANOTHER CHAMELEON CHANGE**

Stephen Powers has been named the new president of the Chameleon Music Group. Working out of the LA offices of the company, Stephen will be responsible for promotion, marketing and manufacturing for the group's 15 independent labels. Formerly an A&R Manager at Capitol, nightclub owner and Director of Entertainment for the '84 Olympics, Powers brings a wealth of industry experience to his new job.

**HARD REPORT CARD FOR '87**

Check out this issue for your chance to significantly alter the course of the record industry and broadcasting. I'm talking about the enclosed ballot for our first annual industry awards. These categories are the result of months spent in research and exhaustive discussions with 4 or 5 locals at Jay's Elbow Room. Don't miss out, your vote could shift the balance of power at Blackrock or catapult a minor market genius to the heights of fame, complete with his own parking space and everything. One warning though, your ballot is printed on time released paper and will burst into unquenchable flame on your desk if you don't get it to us quicko pronto. Don't be nervous.

**THE RADIO RUMBLE**

**KMET/Los Angeles** former jocks David Perry and Jack Snyder have had their million dollar lawsuits thrown out of court. The two had sued when the station switched to KTWV and the Wave format because they had just been signed to contracts that they claimed had been negotiated in bad faith. The court, however, ruled that the situation was already covered under existing union procedures and litigation was improper.

**WEQX/Manchester** has entered into a consultancy agreement with Jon Sinton. The station has long been rumored to be consultant shopping, with many names thrown out as a result. In the end, Jon got the brass ring.

**KWHL/Anchorage** announces new music hours. PD Cyndee Maxwell will take calls from 2:30-5:00pm Tuesday through Thursday. Record reps on the Pacific Rim take note!

**KXRX/Seattle** MD Larry Snider has left the station. An instrumental player in the station's initial growth, Larry is one of

those rare gentlemen who programs from the heart. "I really do care about KXRX. You don't put this much hard work and energy into a station without feeling very strong about it. I will continue to root for the people here. I feel good in the sense that I'm leaving at a time when the station has achieved superiority in the AOR race against KISW. I'm also glad that I have taken the station to a number 1 ranking in 25-54 adults for my daypart with a 7.3. I will be looking for a programming position in AOR somewhere." Indications are that musical differences were at the root of the dissolution. PD Paul Sullivan told NOISE that he is looking for an APD with major market experience who wants to be groomed for the position of PD in the future. T&Rs should be directed his way for one of the juiciest jobs on the west coast right now. For more information on the incredible success story that is the X, check out our Seattle showcase article in this issue of the almost always timely HARD REPORT.

**WOUR/Utica** has been sold to Premiere Broadcasting. The upstate AOR reportedly crossed the blocks for a tidy 3 million. No changes are indicated at this time.

**KUSF/San Francisco** names Linda Ryan as their new Program Coordinator. Linda follows Tim Hyde who was recently hired to run Polygram's Alternative section.

**Public I Publicity** has informed us that Dennis McNamara has inked a pact with Jarad Broadcasting, the incoming operators of 92.7 FM, Long Island. The announcement ends speculation regarding the intention of WLIR's new owners as regards the adventurous AOR.

KGB-FM sponsored the 8th annual 50 mile Fun Bicycle Ride to the largest group of participants ever. Over 14,000 cyclists lined up for the trek to Ensenada where a band named, appropriately enough, Drunk and Crazy, serenaded their efforts. You think these guys bumped knees very much?

CFOX/Vancouver played host to another stellar U2 concert. Fans came from all the provinces and as far away as LA for the show and the lads performed admirably. One peculiar note; everywhere the band is playing these days torrential rains have followed them. It's gotten to be such an in joke on the tour that the band's management have talked about scheduling dates in Ethiopia to end the African drought.

WQFM/Milwaukee firms up the last fragment of their station realignment with the naming of Downstairs Dan, formerly with crosstown rival WLZR, as MD. Now that the lines are drawn, a battle royal should ensue.

WEGR/Memphis reported that Ron Wood dropped in to promote his artwork and book for Christmas. Ron attracts the best wherever he goes and this time out Joe Walsh and Duck Dunn joined him for some impromptu rock and blues.

WHMD/Hammond got together with SLU to make available two semesters of free education at the University. As a high school barn burner this promotion was phenomenally successful.

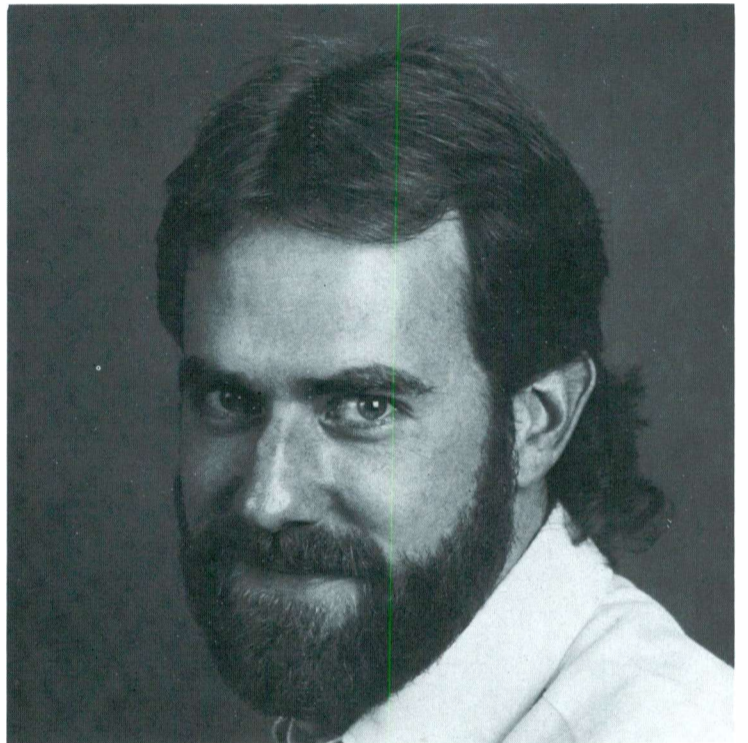

Tired of that tacky station van at promotional events? Trade it in for this custom ride. WRKI/Danbury cruises in the I-95 Strutmobile, a 1953 Ford Crestline convertible. Too bad they couldn't afford clothes for the poor gent in the photo.

WKLC/Charleston makes it official. Brian Krysz and Duane Doherty are headed to the sunny clime of Buffalo and WBYS to take on the PD and MD slots respectively. Those interested in their vacant slots should get those T&Rs in right now.

KDXR/Amarillo has a new drive time heartbreaker. She's Sandy Scott and word is that the divorce rate in Amarillo is off the scale since she's hit the air.

KQSP/Spokane has made some realignments in staff. Christina Gorton moves from nights to midday with Tom Turner leaving all nights for evenings and weekender Vicky McCarthy getting the overnights as a result.

WMYG/Pittsburgh has signed on with consultant Alex DeMers to guide the fortunes of their classic rock outlet. This makes the sixth classic outlet doing business with DPM.

KISS/San Antonio Tom Schepke has been named PD at the Lone Star rocker. Tom replaces Jimmy Christopher who recently split. The man has put in plenty of time at the station and knows the market like the back of his hand. We know he's happy he stayed put when Z-Rock came knocking a year ago.

WDHA/Dover was the latest victim of Dokken's in studio attack. The band is cooking up some great sets on their current tour and make for great interview fodder. If you get a shot at some time with them, don't pass it by.

KLBJ/Austin took a page out of Dick Tracy's Crimebusters Notebook recently. Some guy touring as Dickey Dodd of the Standells came to town for a show and a resulting interview on the station. During the interview, Dan Ford of Guitar Player magazine decided to go down to the station and say hi to his old buddy Dickey. When he got to the station, Dan walked right by the impostor before realizing that something was definitely wrong. The duplicate Dickey Dodd was permitted to go to his scheduled gig and set up before 5 undercover cops busted him in the middle of his second song. KLBJ made everything all right by bringing in the real Dickey Dodd, who claimed that his imitator had even been collecting his royalty checks for a couple of years. Best of all the entire bust went down on video for the viewing pleasure of rockers all over Austin.

## THE HARD REPORT

# INDUSTRIAL NOISE

**KZEL/Eugene** has announced the Tawny Kitaen Acting Appreciation Award. After being exposed to the wonderfully horrible film, "Perils of Gwendoline", the station put together the fund to benefit victims of badly dubbed cinema and hopelessly sexist videos. I've seen the film in question and let's just say.... er, uh, that I certainly hope the marriage works out for her.

**WIXV/Savannah** got a treat when Guns 'N Roses stopped by to do a celebrity co-host on the station's Metal Shop. Then Mojo Nixon cruised the joint looking for a new plaid shirt, he didn't find one, and finally Motley Crue hit the studio before a local concert. Just another star studded week down south where rock and roll is still king.

**WRXK/Ft Meyers** has announced that Mary Jean Graham has been made News Director at the station. This should be the final tweak needed to put this class act AOR over the top.

REO's Kevin Cronin pictured here using Spirit 99 fems as bookends. Pictured are **KQSP/Spokane ND**, Lisa Moon and MD, Christina Gorton with Mr. Cronin. Nice hair huh?

**WRKI/Danbury** has been firing up the promotion machine and getting their appreciative listeners in the front seat for some wild concerts. Lucky winners have been treated to the best seat in the house for Lynyrd Skynyrd, Jethro Tull and REM. To cap the campaign in holiday style they will be sending two folks down to New York in a limo to see John Cougar Mellencamp on Thanksgiving day.

**KBER/Salt Lake City**, proving that an ounce of outrage is worth a pound of pushiness, are bringing the master of both, Sam Kinison to town. I understand that there have been reports of widespread Coke drinking and cigarette smoking in the streets of Salt Lake City in anticipation of Sam's commandment busting appearance.

**WTPA/Harrisburg** has moved Joanna London into the night shift at the Pennsylvania AOR. NOISE has it that Mike Tyler leaves the station as a result.

**WLIR/Long Island** had another showcase at the Ritz in New York with alternative idols, That Petrol Emotion. The band turned in a highpowered set filled with crisp playing and plenty of surprising musical changes. The bass sounded like an F-111 buzzing your backyard and the assembled multitude rocked to one of the brightest new bands out there.

**Transtar Radio Networks** is looking for on air personalities to host their Niche 29 format. You must have a grasp of topical issues and have fun on the air. Major market experience in AOR/AC/CHR would be helpful. Send your T&R along with a photo to Kurt Kelly, Niche 29 Network PD, Transtar Radio Network, 6430 Sunset, Suite 401, Hollywood, CA 90028. No calls please.

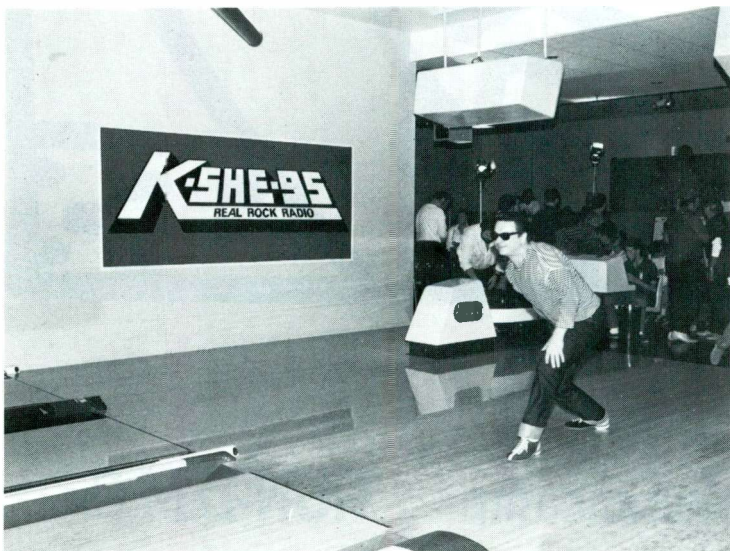

**KPOI/Honolulu** has replaced Promotions Director Lisa Wood with Production wiz Jan Sage. Jan's new title is Creative Services Director, address your correspondence accordingly.

**WMMR/Philadelphia** has taken their morning team trans-Atlantic with a week of shows from Capitol Radio in London. Aside from jetlagging like a big dog, DeBella and Shark got next to Brit luminaries Peter Gabriel, Mark Knopfler, Dave Edmunds and the Alarm, among others.

**KFMU/Steamboat-Vail** has relocated. The new address is 2955 Village Drive, Steamboat Springs, CO 80477. Please make those changes in your compu-disc memory.

Look at those balls. **KSHE/St Louis** got together with some celeb bowlers as part of the 20th Birthday celebrations at the station. Pictured are members of the Fabulous Thunderbirds and the Insiders with members of the staff.

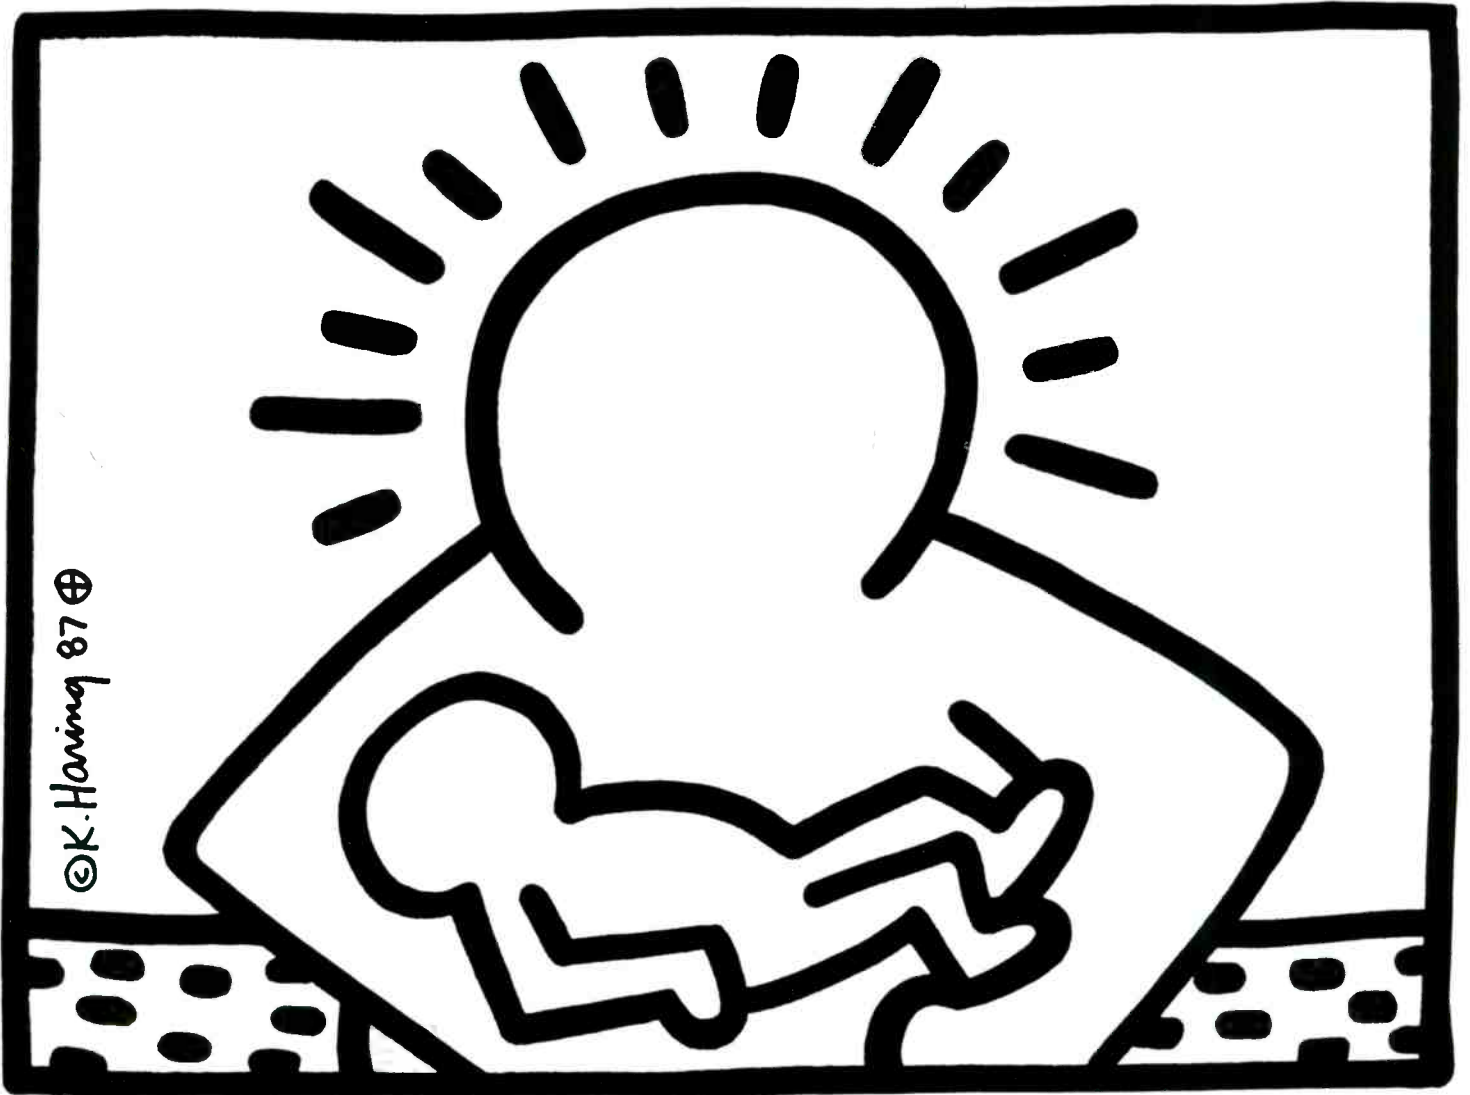

And here we have Jimmy Vaughn showing why he plays a guitar for a living. Fellow T-Bird, Kim Wilson did get a Budweiser Red bowling ball for the high score of 191.

**KATP/Amarillo** has informed us that their demise as an AOR is vastly over-rated. Tim Butler has been named the new PD and tells us that they have no intention of leaving AOR behind. The rumored purchase of the station has also been left high and dry, with no new owner on the horizon. The station has cut back on budgets by simulcasting their AOR on AM, letting the AM staff go and replacing three FM players at the same time. The staff is working extra long shifts and trying to keep the station on an even keel.

SP 3911 © 1987 Special Olympics Productions, Inc. All Rights Reserved. Printed in the U.S.A.

All of A&M Records' receipts from its worldwide distributors will be turned over to Special Olympics International, net only of our documented out of pocket marketing and production costs.

**Z-Rock's Boobie Bondage....** just in case you wanted to know.

**Radio International** will be getting together with Jon Sargent Productions for a special broadcast. The "Children Of The Americas Hunger-Thon" will feature Graham Nash as celebrity co-host in a four hour live show designed to raise money for the UNICEF fight against hunger. The broadcast is set for November 21 and will feature performances by Los Lobos, Jethro Tull, The Hooters, Jackson Browne, James Taylor and Robert Cray. The first respondent was Bruce Springsteen who chipped in a \$10,000 check for the fundraiser. For more info call 213-654-4049.

**WMAD/Madison** had their first ever Budget Show with Guadalcanal Diary firing up the locals. Nearly a thousand people made like sardines to get next to some of the best new rock available at any price. The station looks forward to more of the same with developing acts on the road.

**WBCN/Boston** has released their 4th annual Rock 'N Roll Calendar. This hot little promotional item sells as fast as they can print them with the proceeds benefiting Amnesty International USA.

Hometown boys make good. The Rainmakers stopped by **KYYS/Kansas City** for a little howdy do. Left to right are Rainmakers' Rich Ruth, KYYS MD Skid Roadie, Rainmakers' Steve Phillips and Pat Tomek, KYYS PD Scott "Bolo Tie" Jameson and Rainmaker in chief Bob Walkenhorst. The event was the World Premiere of their new LP "Tornado".

**WKFM/Syracuse** spent some time in studio with Peter Himmelman. Peter not only has a great track on the charts but an engaging personality that indulges in verbal acrobatics that would shame a Timothy Leary-Lenny Bruce debate on semantics.

**WONE/Akron** MD Mike Michelli has begun a draft Tipper Gore movement. Mike thinks the old Tip babe would make a great hospitality suite bimbo at the next NAB. With her selective memory loss she could be the ideal party girl.

**KRZQ/Reno** put together a great quarter hour promotion for their morning show The Captain and The Sarge. The station gave them a cellular phone and told them to get lost, literally. \$2,000 was put up as reward to the first listener who could locate the guys with regular hints and clues broadcast throughout the morning show. The Captain and The Sarge must have been using top flight camouflage because it was three weeks before they were finally hunted down. It took a professional investigator, climbing a mountain, to flush them out. When it was all done the station had listener awareness for their morning show powering through the roof and another great promotion for their portfolio.

Seen convening at the recent RCA/Buster Poindexter soiree our roving eye spotted the legal firm of Edwards, Edwards and Edwards. Otherwise known as John/KBPI, Pam/KGB and Ted/KGB. The leather jackets are regulation in New York.

**KFMX/Lubbock** spent some time with the guys from White Lion recently. They couldn't answer the magic riddle posed in the interview so the band guaranteed mass destruction to the community on a scale unknown in recorded history. The White Lion blitzkrieg rolls on with only armadillos left in its wake. Interview them at your own risk.

**KEYX/Phoenix** has announced a new ownership configuration. After much speculation, Steve Allison has retained control of the Arizona AOR after negotiating a buy out of former owners KeyCom through a merger of Allison Broadcasting and the Florida based Daytona Group. The Daytona group also owns AOR KRIX/Brownsville and CHR KXYQ/Salem. In further changes Jeff Parets and Larry Hayes have assumed control of the station's programming with long time MD Jonathan Rosen exiting. Station management cited a desire to go more adult and a difference of opinion regarding the best way to achieve that goal.

**JIM TRAPP**

**X MARKS THE SPOT... THE SEATTLE SHOWDOWN**

For years the scene in Seattle has been nailed shut. KISW was an AOR dominator with all eight cylinders firing clean, a staff of beloved personalities, a musical monopoly on rock and roll and a seemingly endless line of credit with their bankable male audience. In fact, the success story was so sweet that Nationwide plunked down a large chunk of change to acquire the property. Just another ticket in the broadcast lottery, right? Strangely enough, it was that turn of events that served as the catalyst for a dramatic reversal of fortunes. When the new owners hit town they found themselves at loggerheads with the creative and well entrenched GM, Steve West. Steve had been in the market forever, and his performance had always been impressive. Corporate overseers, however, thought Steve needed to change some of his methods. With Shamrock just in town as a new corporate player, it didn't take long for Steve to wire a deal with them that better suited his personality and goals. Then the floodgates opened and a virtual exodus of KISW talent followed to the newly created KXRX to set about tearing down the house they had once labored so long to build.

Meanwhile, at KISW former PD Beau Phillips had been promoted to GM and proceeded to bring in KEZE/Spokane PD Jon Robbins. After some staff realignments and a considerable war of words, the cold hard reality set in. 10 straight down Arbitrends saw the station plummet from an 8 to a low 5 by summer with the most recent Arbitrend showing that for the first time, the stations had reversed roles with the X pulling a 5.1 to KISW's 4.8. How had it happened? What can possibly explain such a dramatic turnaround in so short a time? In an interview with KXRX PD Paul Sullivan, the HARD REPORT got some of those answers.

**JT....** What has your general performance profile been like?

**Paul....** We've been on the air since January 5th, at that time KISW had an 8 share and since then they have gone steadily downwards. We have had some peaks and plateaus but the general trend has been up.

**JT....** The stations seem to be going at the AOR audience from different vantage points. As a result you would expect a mutually exclusive listener base.

**Paul....** In the earlier days 70% of the audience was coming between the two of us. We are now at about 40-50% cross coming so the people are starting to polarize. The hard rock 18-24s have gravitated to KISW as their station of choice whereas a new audience configuration has chosen the X.

Paul Sullivan PD/KXRX

**JT....** This degree of damage to a heritage rocker in such a quick time is pretty unheard of. Was the market so stagnant that they were eager for any change whatsoever? What factors contributed to this turnaround?

**Paul....** You go into focus groups with your own sense of how things are and for the most part all the focus groups do is parrot that back to you. We all felt that people listened to KISW because they were the only game in town. Sure enough, our focus groups told us that the audience basically tolerated KISW, they didn't really enjoy it that much, particularly in the older cells. So we brought out a radio station that was AOR in base but struc-

tured as a hybrid. The sound is much brighter and easy going. We produce a station with a smile instead of a bad ass attitude.

**JT....** A lot of that bad ass attitude was the result of the on mike personalities that the X stole from KISW. The transition to a brighter, looser approach might have been foreign to such a crew of personalities. In fact the airtalent has made the change with hardly a bump.

**Paul....** It really was never the delivery they wanted to execute. They cut up more and have a whole lot more fun on the air. We have left behind the heavy metal poses and hair fluff in bringing rock and roll to the audience. One word comes back to us all the time when we talk to people about the station, "fun", we sound like we're having fun on the air and people react to that positively.

**JT....** When the war began KISW let it be known that the X would be granted a 2 share on curiosity alone. KISW felt that their position was too deeply rooted to permit much concern about what their competition might do. The big hitter in the market was going to ignore the new kid on the block to death. In fact, KISW did more to focus attention on their competition than might have been wise.

**Paul....** They talked about us on the air and we loved it. They did parodies of us, made fun of us, talked about us in the trades. In comparison I was too busy worrying about internal structure and quality control to really spend all that much time concentrating on KISW. Now they seem to be mirroring our playlist. They have softened their approach and have dropped "Seattle's Best Rock" for "Seattle's Best Rock And Roll". They have a positioning statement that says "The originator not the imitator", thanks for the reference, we like it, it puts our call letters in everybody's mind every time they play it.

**JT....** You would think that taking a disaffected staff from KISW and putting them on the air across town might encourage some sniping in return. Paul tells us that they have done everything to avoid kneejerk references to the competition.

**Paul....** We have totally stayed away from any pot shots against them. Not a word has been said that could reinforce KISW in the mind of the listener.

**JT....** The market has been pretty conservative regarding currents. At the X the increase in new music has made for a dramatic shift in playlists.

**Paul....** We are playing more currents than at anytime in the market. Newer music runs at about 35% right now. That's a big change for Seattle. Our core for the most part goes back to 1965 with an occasional oldies frenzy that might include Elvis or Chuck Berry.

**JT....** The female response to the station hasn't been up to expectations but the station sees hope for an increase in that area.

**Paul....** To begin with we saw a 40-60 split females to males. Since then we have gone to a 20-80 split, so we are looking for those special songs that will attract women without damaging our male core. We remain #1 in men 25-49 and that is where the money is right now. Our current goal is to buff out the 18-24's a little bit, that's a matter of dayparting and tempo more than anything else.

**JT....** The station's more fun concept is rooted in a structure that lends organization without being obvious about it.

**Paul....** Our intention is to sound like we we give them free rein with a resulting sense of wild abandon in their on air approach. People may like a certain security but they don't want to feel like they are listening to a formula.

**JT....** The best example of that attitude was Fred Astaire. He made it all look like such effortless fun when, in fact, he actually rehearsed like a madman to achieve that grace. But you don't share all that labor and hard work with the audience, just the pleasure of the end result.

**Paul....** That's exactly it. There are plenty of surprises on the air, like giving tickets away by using the Wheel Of Meat, but basically we know what we want to do and how to get it done. I set up the structure and they fill it with their creative instincts.

**JT....** Paul is pretty upfront about the contribution being made by Steve West. The man knows the market intimately and has the rare ability to motivate with support psychology.

**Paul....** Steve is a most unusual GM, all of it on the good side. Promotionally the man is brilliant. Like myself, Steve is an appreciator of good radio, that makes all the difference in the world. You win by taking risks. You can be successful by being conservative and not taking risks but you never really get that gold ring. The important thing when you start winning by taking

risks is that you don't reverse course and start becoming conservative to protect what you already have.

**JT....** One of those chance taking scenarios at the X has been their support of local musicians in a town filled with good bands that go largely unheard.

**Paul....** We like to play a number of local artists. A band from Portland, The Razorbacks, got airplay on the X and sold every bit of product they had in the stores. When those guys come to town the shows are routinely sold out, we are proud of having helped in that way. We have some terrific bands in the Northwest and this is a great method of giving something back to the music community. We don't play demos on cassette or anything like that, but if the music is competitive, it goes on the air.

**JT....**The typical AOR response that the audience wants music that is safe and sane finds little sympathy in the offices and studios of the X.

**Paul....** The majority of AOR listeners are asking us to give them something that they can get excited about but you can't step out in front of the crowd so far that they can't see you in the distance. Innovation is a matter of degree and it is an absolute requirement for engaging the 80s audience.

**JT....** The best way to get there is to have a solid plan that is infused with the most effective elements of people oriented management. GM's create major problems for themselves by not being in touch with how best to organize and motivate staff in a beneficial way. It doesn't take a lot of smarts or experience to yell at people.

**Paul....** Well, you know our biggest asset is the morale, the camaraderie and the enthusiasm of our staff. It all starts at the top, for good or ill. If it wasn't for Steve West I probably wouldn't have come out of radio retirement.

**JT....** In conclusion, the rapid fire success of KXRX, while certainly encouraging, isn't more than the first round of a bout that will continue for some time. In less than a year the X has achieved parity with their competition, which is amazing, but they still have a full four quarters to play.

**Paul....** We are pleased at the acceptance we have found here in Seattle. The battle surely isn't over, but for now it seems that the momentum is on our side of the street. It's nice when you put out a product and people like it. I enjoy listening to the radio station too and that's a great way to do business. But we've only taken the first couple of steps at the moment, if we can double it up next year, then I'll be really happy. We are here to win and have a good time doing it. That goal extends to every station in the market, not just KISW. Up to this time we have had a "sink the Bismarck" attitude about the competition but now we are becoming our own radio station and, as a result, we are concerned with ourselves a whole lot more than with what is going on at KISW.

To set up a new rock competitor in a formerly glacial market in such a short period of time is truly remarkable. The X and their staff have put together a broadcast entity that has found a warm welcome in the face of stern competition in a previously unassailable market. The punchline is that a lot of the preconceptions about taking on heritage rockers should be reevaluated. Obviously years as King of the Mountain doesn't hold up when attacked by an inspired and market savvy approach. This also means that stations thinking of taking on an established AOR need more than just budget and staff, they need to put a different approach on the air that will draw attention to itself, that will run risks without going overboard. Most of all it requires management that knows how to foster a winning environment.

### AIRCHECK CORNER

In a sweep of the morning show we heard the KXRX wake-up team of John Maynard and Robin Erickson looking for "opening lines" from their listeners. One call from a butch cop type made references to "old blackie" his nightstick. There were some "I've been looking at you all night and my panties are soup" style comments as well.

The news was soft in focus with an accent on local human interest stories and an emphasis on phone in interviews. Sports information took a large share of the newscast also.

The show featured an interview with a custom car creator on tour with his show. They cooked him an audio breakfast and spent some time promoting his event, with car dealerships placed adjacent. During this bit there was plenty of innuendo regarding car size and sexuality that was played light but remained pretty predictable just the same.

Swing music and plenty of soundeffects were used as bed as were overlaid drop ins, crashes, applause, Pee Wee Herman giggles, etc. For me the highpoint was a demented character called Otis whose sfx voice sounded like a Jimmy Stewart from the fifth dimension on acid.

Street vox pop promos for the morning show were used into music and showed a good cutaway sense of humor and lots of high gloss environmental production that didn't rush to a punchline to make its point.

The interaction is crisp and these two don't push each other around to fill up the studio. The production is perfectly tuned. The hangtime might be a little long for my taste, but they rarely abuse the investment from a listener point of view. John plays the role of agent provocateur to Robin's bad girl pose with more warmth than heat. Overall, the show is loose, clean and comfortable.

The Promotion Department's Kenny Ryback and KXRQ's PD Ron Garrett say thumbs up to Chuck Berry's recently awarded star on the Hollywood Walk of Fame. We couldn't agree more.

**DOCTOR'S CHILDREN "KING BUFFALO" (RESTLESS)** First appearing in '86 with an EP and a mini-album, those releases have been combined into the "King Buffalo" Lp, the first domestic introduction to Doctor's Children. May I be one of the first to say - pleased to meet ya! This band captivated me on first listen with an overall sincerity in their music and delivery led by Paul Smith's hearty guitar/vocal combination. There are groups who make limited music that imitates the 60's and then there are those who use those classic elements combined with their unique talents and the result is a rock and roll event that leaves a lasting impression - one that will reward this band in the future. Producer by John Leckie of XTC fame delivers the outstanding garage-pop qualities of the band who have plenty of room to settle in with "Rose Cottage", "Rock 'N' Roll Jesus" and "Blessed Is The Man".

**MUSIC NEWS!**

Sinead O'Connor has assembled a band for her U.K. tour beginning December 2nd thru 14th opening for INXS. The envelope please? Ex-Smiths Andy Rourke on bass and Mike Joyce on drums will accompany Ms. O'Connor on what will be quite a concert event - especially if her video on "Troy" is any indication of her visual impact. The Lion And The Cobra album showed most progress on the Alternative Chart this week with "Mandinka" plowing in for an 11\* Tracks debut. Sinead even made the Hard cover this week - what with WNEW and WBCN the first majors to take note this early, that's a big hint of things to come for Sinead. The 12" on "Mandinka" is out this week.

Enigma Records and the Milton Bradley company are joining in a promotion for the new Game Theory album, Lolita Nation. 300 Progressive AORs and college radio programmers will receive a cassette of 20-second bits from three songs found on the double Lp. They will identify which songs are on the cassette and send the entry to Enigma Records no later than December 13th. Four winners will receive a copy of the Lolita Nation CD, an Enigma sweatshirt and 5 Milton Bradley games!

Along with a charming rock and roll Christmas collection from A&M Records, Fishbone were sitting around pickin' their teeth recently and decided to release an ovation of a Christmas record. Watching these guys deck the halls in concert is amazing in itself, but songs like "Slick Nick, You Devil You" and "Just Call Me Scrooge" will have your seeing in a different light. And speaking of a Different Light, the Ep was produced by David Kahne who's credits include the Bangles Lp of that very name. Look for this and more holiday toons on Columbia Records.

Michelle Higgins who used to head TVT Records promotion in New York (c'mon, you remember the Saint of Saints) has started her own promotion company, Boomerang Productions. With an immaculate reputation for breaking exposing new acts to radio, Michelle will be expanding to include various artists and labels, coordinating national promotion strategies. Contact her at PH C, 213 East 73rd St, NY NY 10021.

annual CMJ New Music Convention in NYC from Arista for winning their Hurrah contest. While at the CMJ Seminar, Faith went to see Island's Buckwheat Zydeco and won a dance contest for a prize trip to New Orleans Mardi Gras '88! Next time you see Faith, stick close by. She's might end up 'round the world!

That Petrol Emotion are back in Europe after a well received U.S. tour, ending at NYC's Ritz on November 14th. It was an energetic and exciting show to say the least - lead singer Steve Mack had the audience crazed as he jumped and ran what seemed to be 10 miles on stage. The band performed most of the material from their recent Babble Lp including "Big Decision", plus "Genius Move" which is the current single available as an import (or from Paul Brown at Virgin's New York office). Don't be surprised to find That Petrol Emotion on the top many a year-end poll for 1987.... Opening for TPE was Salem 66 and Island's newest signing,

**World At A Glance**, a very promising band from New York who's album debut is expected in January. Their sound is hard to describe, but they hold definite appeal in a 60's meets 80's presentation with all the trimmin's. Young, spirited and ready to grab your attention.

Jim Reid, lead singer in the **Jesus And Mary Chain** put his foot in some hot water last week in Toronto. Two men were allegedly hit over the head with a mike stand and Reid soon spent the evening in jail. He's scheduled to appear before a judge in February.

PMRC Records reports that the **Balancing Act** have survived their first national tour "and lived to tell about it", appearing in record stores and in concert with **Scruffy The Cat**, **10,000 Maniacs** (who recently

appeared on David Letterman) and **Throwing Muses**. They supported their **Three Squares** and a **Roof Lp** which is now out on CD. Emphasis cuts are "Three Cards" and "Red Umbrella", and in the past weeks, they've been flirting with a debut on the **Hard Alternative Chart**.... **Caterwaul** have been signed to PMRC label to begin recording in February. They appear on the Scream compilation out now on Geffen Records with "Manna And Quail".

**House Of Freaks** are becoming an L.A. sensation, and it's a good thing their "Bottom Of The Ocean" single is ready to pave the way for an album Monkey On A Chain Gang in January. With of plenty of hard workin' rhythm and energy for openers, this duet will be one to watch - on Rhino Records.

Major labels are really focusing some heavy attention on their newer, more innovative acts which is not only vital to the cause of exposing new music (especially with some unhealthy music adjustments that have wedged a few progressive stations in the last few months). **Capitol Records** is one such major who have unleashed several promising acts in '87 - now compiled on an album sampler, It Came From Hollywood. It's a retail focused compilation that includes songs from bands you've known about all along: **Grapes Of Wrath**, **New Model Army**, **Skinny Puppy**, **Flesh For LuLu**, **Fetchin' Bones** and more. Not only is it convenient studio tool, it will hopefully encourage even more awareness at record outlets nationwide.

fame. The album has already sold 30,000 in the U.K. and this is the second single to come from a highly successful debut from this band. The current focus track from the Lp is "Throw The R Away" which will be available on the Hard Attack Alternative CD coming out this week. I know we won't be able to keep that one a secret for long!

**The Big Time Syndrome** is a reality, and a welcomed one at that. It's a collection Big Time mega superstars - with current highlights including the slow version of Love And Rockets "Mirror People" and the Dream Syndicate version of Eric Clapton's "Let It Rain". Most of the tracks are previously unreleased on Lp with the exception of the Pastels. Other artists appearing on the record are Redd Kross, The Jazz Butcher Conspiracy, Alex Chilton and Christmas. This collection will definitely be going to college and beyond.

Out on Taang! Records is Keith Levene's EP with Violent Opposition (members of the Red Hot Chili Peppers, and Bob Forrest of Thelouious Monster). Keith left PIL just before the "This Is What You Want" period to pursue a solo career. He lived in LA for a while and met Bob Forrest and Flea who joined Keith's conceptual band, Violent Opposition for the Ep. Now in the U.K., Keith is finishing his full length album with Adrian Sherwood due in the new year with new members of the Opposition still unannounced.... Taang! is also working on the next Mission Of Burma Lp of previously unreleased material produced by Lou Giordano (Bleached Black) from '79 to '82.

New Releases from SST include the solo Lp from Bad Brains lead singer HR, titled Human Rights. Quite a departure from his signature material but a quick reggae/R&B pick!

Nitzer Ebb is opening for the entire Depeche Mode U.S. tour which begins Tuesday, December 1st at the Cow Palace in San Francisco. The tour includes 12 arena dates including 2 sold-out dates at the L.A. Forum. Nitzer Ebb's 12" remix of "Join In The Chant" is now at #12 on the Billboard Dance Chart.

"Space" is the new single from It's Immaterial's Life's Hard And Then You Die Lp on A&M Records that reached 21\* on the Hard Alternative Chart. The 12" features both remixed and Lp versions - out this week.

They Might Be Giants are back with a 12" release of "Don't Let's Start", a band that had a long run at WLIR and WXXP this summer. It's a duet from New York who are accompanied by the accordion and sax - and even have their own Dial-A-Song Line just for curious (and lazy) cats 718-387-6962. Hey, Jim and Tammi did it and made a fortune! The B-side includes a thoroughly enjoyable departure with

"We're The Replacements" that is more than fitting since the world woke up to the Mats Pleased To Meet Me Lp this year.

Not long ago it was announced on these pages that Enigma would be releasing the Straight To Hell soundtrack - and so it was. It features music from The Pogues, Joe Strummer, San Francisco's Pray For Rain and The MacManus Gang (Elvis Costello's entourage). It's a thoroughly enjoyable collection with a slick cover version "The Good, Bad And The Ugly" by The Pogues. It'll keep 'em guessing.

Negativland released their Escape From Noise Lp on SST Records just before a tragic fire wiped out their studio this year. This band has defied conformist expectations and given the world a definite alternative in sound [effects] from which to choose. But it's much more than a sound effects record. It's experimental music communication that any radio-phile will enjoy forever. Some selections for example: "Over The Hiccups", "Stress In Marriage", "Backstage Pass" and "Car Bomb" to name a few with sounds from Jello Biafra, Jerry Garcia, Henry Kaiser and Neubauten's Alexander Hacke. And just remember, from Noise there is no escape!

**Import singles to learn and sing:** From U2's Mother Label, The Hothouse Flowers have released "Don't Go" produced by Clive Langer and Alan Winstanley. Crystal clear production goes a long way for this band who may find a few friends at AOR with their classic rock tendencies layered under a modern rock influence.... The Voice Of Beehive sound like a cross between Bananarama and the Soup Dragons and their new single "I Say Nothing" is bound to receive rousing response if one lucky label decides to pick this one up.... Zodiac Mindwarp And The Love Reaction are back with "Backseat Education", a delightful addition to their slightly sleazy brand of grease rock. A North American tour begins in December with dates in Toronto, Boston, NYC, Philadelphia, Washington, Los Angeles and San Francisco. Keep your ears clean and peeled.... Krush is destined for playlists who rocked MARRS "Pump Up The Volume", with their new single "House Arrest". Very urban, slightly trendy and very danceable, looking for this futuristic disc will keep you busier than usual. Call me. We'll talk....

The New Hampshire Association of Broadcasters named WKXL winner of the Golden Mike Award for 1987. The station was chosen over all stations in NH and VT, and this is the first award the FM station has won, mainly for their New Hampshire Notebook feature program, says P.D. Renee Blake. Congratulations!

# THE HARD REPORT MUSIC NEWS

## HARD ROCK/HEAVY METAL

Good day to all you ladies and germs (Ha Ha). This is Sal "Catching up with things" Treppiedi with this metal news. Having recently taken a trip to the Midwest, I found myself short on news. By the same token, I had a shit load of demos lying around. Therefore, I'll throw in whatever bits of news I've got and then we'll get to some demo reviews. By the way, if you have a demo that you would like to have reviewed, you can send the demo, along with a bio and photo to: Sal Treppiedi: 63-36 78th Street; Middle Village, NY; 11379. Now, on to some news.

For some strange reason Ace Frehley has pulled out of the Alice Cooper tour. Details on this development are sketchy. What we were able to find out is that money had something to do with the decision. It is alleged that Ace was not making enough to pay his crew. Speculation is that Ace will now go out on his own. I do have one thing that does bother me. It has nothing to do with this development. Several friends and myself spoke at a recent convention about why Ace hasn't been picked up by commercial radio. Certainly, Ace Frehley is no stranger to heavy metal. But why can't a song like "Into The Night" be played on commercial or AOR radio? Furthermore, it is obvious that people have the wrong idea about heavy metal artists. Not all of them are into sex, drugs and wild parties. "Rock Soldiers" is definitely a song that proves that. Ace has come back from some hard times. This is someone who definitely deserves a hit single. What's your feeling? Write to me or to the dialogue section of the Hard Report with your comments.

How many of you remember RAZOR from Canada? These guys released an awesome debut and follow-up on Attic Records. Their third album, "Malicious Intent", was a bomb to say the least. The self-titled first album and "Evil Invaders" were as heavy as they came. Unfortunately, Razor did not have an American label or distributor and subsequently, never got the exposure they deserved. This year the band released "Custom Killing". The music was a slight departure for Razor and was going through some problems with personnel. Drummer M-Bro was fired and later rehired. Now, the band has once again gone through personnel changes as they prepare to record a new album. Gone are bassist Mike Campagnolo and once again, M-Bro. According to a press release sent out by the band, "...they had lost their intensity and desire to live the lifestyle of musicians". The two new members of Razor are Rob Mills (20) on drums and Adam Carlo (18) on bass. Adam is guitarist Dave Carlo's younger brother. As for their new album, it is called "Violent Restitution". It will be released on Fist Fight Records, which is the band's own label. The album will contain 14 songs. It will be produced by Brian Taylor, who previously worked with fellow Canadians Sacrifice and will be recorded at Phase One Studios in Toronto. Some of the songs to be featured include "Hypertension", "Enforcer" and "Taste The Floor". The band has also promised that they will tour the States this time around. I wonder if Razor is going to start releasing albums every six months again.

Okay, let's get some demo reviews.

WATCHTOWER, "Instruments Of Random Murder" (1987)... This demo is one I promised I would have several issues back. Let me say that listening to this demo was well worth the wait.

Watchtower is one of the most original bands that I have ever heard. The musicianship is impeccable. How many can guess what honor the band's bassist was almost bestowed? Doug Keyser was one of the three finalists for an open slot in Metallica following the death of Cliff Burton. The rest of the band is comprised of Ron Jarzombek, formerly of Texas' Slayer, on guitar; Jason McMaster on vocals and Rick Colaluca on drums. One listen to this tape and it becomes obvious that these Texans are heavily influenced by Rush, but they definitely have a sound all their own. With songs such as the title cut, "The Eldritch" and "Fall Of Reason", it is hard to believe that this band has not been signed. My suggestion is that you drop them a line: Zombo Records/Watchtower; 225 Congress, Suite 263; Austin, TX; 78701.

DOOMWATCH, Rough Mix For Album (1987)... Here are some dudes from Pittsburg. In a town where the metal scene has supposedly gone on vacation, Doomwatch is a band that is simply killer. A cross between thrash and hardcore, they will give you a serious case of whiplash. They have already released a 7" mini-Lp on Facemelt Records and are currently preparing to do an album. The band obviously had a small budget to work with and still managed to get a fairly decent sound. Songs such as "Monstrosity", "A Waste Of Mind" and "Tragic Flaw" make this a must for all you demo collectors. Write to: Doomwatch; P.O. Box 14055; Pittsburg, PA. 15239.

### HAMMERON, "198", Demo ...

This Chicago based band has been keeping some pretty good company. They are apparently being looked at by some major labels. One listen to this demo and you can easily see why. Their demo was produced by Barry Mraz. It features three songs -- "One More Time", "Hungry For The Fight" and "Hold You" -- each is better than the previous. This demo is so good that it leaves me speechless. Having witnessed Hammeron's live show recently, I can honestly say that these dudes are deserving of something on a bigger scale. Good luck guys and it was real nice meeting you and Cindy. Write to Hammeron: c/o Saint Talent Management; 21224 Sylvan Lake; Mundelein, IL; 60060.

### OLIVER MAGNUM, 5 Song Demo (1986)...

Okay, you may find this hard to believe but there is metal in Oklahoma. It's actually quite godly. Oliver Magnum features Mark Mueller on vocals, Dan Kurtz on bass, Curt Daugherty on drums and Monte Humphrey on guitar. Oliver Magnum has one of those sounds that borders on a heavier commercial metal and thrash. There is some pretty intense musicianship on this tape. It is rumored that Oliver Magnum did not play a gig until two years after they formed. I believe it. There is some serious tightness on the five songs. The songs are "Trapped", "Silent Scream", "Old World Nites", (which is scheduled to appear on a compilation), "2'10"" and "Fahrenheit". This band will remind one of Lizzy Borden in that their approaches to songs are similar. I would write to these guys just to find out about how they got their name. Remember to ask about their tour guide. Write to: Oliver Magnum - Assembled Swine Productions, P.O. Box 3951, Enid, OK; 73702.

That's all for now. Get your pens out and write to these bands. In closing, an issue or two back, we reported how Mr. Death was auditioning for the open bassist slot in David Lee Roth's band and how he was going to turn Roth into a death metal artist. Rumor now has it that Roth is seriously considering Mr. Death's proposal. Mr. Death plans to sing along with Roth. He is also looking at the Great Kat as a possible skin flutist. More details as they become available. **November 20, 1987** MUYA!!!

**U2** put on a surprise free concert in San Francisco, putting the word out about two hours in advance of the show. During the show, Bono spray painted "Stop The Traffic, Rock & Roll" in red paint on the Vaillancourt Fountain at Justin Herman Plaza, which upset Mayor Dianne Feinstein. Feinstein says the city has been waging war against graffiti artists. "I am disappointed that a rock star who is supposed to be a role model for young people...chose to vandalize the work of another artist," she says. "The unfortunate incident marred an otherwise wonderful rock concert." Concert promoter Bill Graham says he'll pay to have the paint removed. "Oops!," said a statement issued by the band. "U2 would like to apologize for any upset they caused. We got carried away by what was a great day and a great gig." The show was intended to be U-2's "gift to the city of San Francisco." Bono jokingly referred to the show as a "Save The Yuppie" concert that "had to be in a cool city like San Francisco."

**Paul McCartney** has lashed out publicly for the first time at Michael Jackson for allowing the Beatles' hit "Revolution" to be used in the Nike television commercials. McCartney is furious that Jackson, who owns the rights to most of the Beatles songs, gave his permission for the advertisement. Although he and the two other Beatles and Yoko Ono have launched a multi-million dollar lawsuit against Nike shoes, McCartney says he won't be suing Jackson.

British band **Wet Wet Wet** are in trouble again because of lyrics included on their album, "Popped In Souled Out." Van Morrison recently claimed that the band "borrowed" some of his words for their hit, "Sweet Little Mystery." Now, the band have had to settle out of court with Squeeze after Chris Difford of the band noticed a verse in "Angel Eyes" bore more than a passing reference to his song "Heartbreaking World."

**Ringo Starr's** ex-wife, Maureen, is suing a group of London attorneys, alleging breach of contract and negligence in their handling of her divorce settlement. She says the lawyers did not properly investigate Starr's financial affairs. Her attorney in the action says that after the divorce, Maureen had an overdrawn bank account and "was not able to meet ordinary, everyday bills." Her attorney cited a letter from the firm representing her in the divorce proceedings which told her that she should do a better job of managing her financial affairs. If not, she would be treated "like a child" and given "pocket money," the letter said. The hearing is taking place before a High Court in London.

Adam Horowitz of the **Beastie Boys** has been found innocent of a charge of assaulting a female fan at a concert by the band in Liverpool, England, on May 30. Horowitz had been charged with injuring 18-year-old Joanne Clarke when he threw a beer can from the stage during the band's show, striking her in the face and giving her a black eye. Horowitz had pleaded not guilty before Liverpool city magistrates. During the two-day trial, prosecutor Duncan Birrell contended that Horowitz threw the beer can "low and hard" at Clarke. He noted that the crowd had begun throwing cans and abuse at the two acts that opened for the Beasties which "reached a crescendo with the arrival on stage of the Beastie Boys." "When they came on bottles and cans were thrown at them. It is alleged that Horowitz produced a baseball bat and waved that at the crowd and then took a full can of Budweiser beer and threw that into the crowd fast and low towards the rear of the stalls where Joanne Clarke was stand-

ing. It struck her in the face, causing her a black eye and bruising to her nose and face," Birrell told the court. He says two photographers took pictures of Horowitz with the beer can in his hand and three other witnesses saw the can hit the girl. "The concert collapsed very shortly after this incident," he said. After the Beastie Boys left the stage that night, loudspeakers were wrecked and seats thrown from the balcony of the venue.

**Pia Zadora** has recorded an album in Minneapolis with Grammy-winning producers Jimmy Jam Harris and Terry Lewis. It's expected to be released early next year.

There are reported to be plans for an "**American Bandstand**" movie. It would center on a group of working-class Philadelphia teenagers who become national celebrities dancing on the program. Barry Levinson, who wrote and directed "Diner," is expected to direct the film.

**U2** has recorded the Woody Guthrie tune "Jesus Christ" at the Sun Studio in Memphis, where Elvis Presley recorded his first record 34 years ago. The track will be included on an album honoring Guthrie that will benefit the Smithsonian Institution. Bono says U2 decided to record the song in Memphis because, "We figured the best thing to do was get to the center of it. This is the center. This is where rock & roll was invented. As we're reinventing it, we figured we might as well team up. The session, U2's first in a U.S. studio, was produced by Jimmy Iovine. Some parts of the recording session and a visit to Graceland were filmed for the band's documentary of the current tour. Bono says the Sun studio represents "all the years of rock & roll tradition that we rejected for so long. The reason that we rejected it was the only evidence (of the music) we saw in England and Ireland was bad blues bands and bad country acts and the like. So now we try to create our own tradition. We're working on our own sound -- the U2 sound. We never listened to anybody else's sound. But now we've got the U2 sound. We're stretching a little bit and opening ourselves up to influences that we never previously have done." Bono even predicts that U2 will "just explode because of what we've seen and heard over the last year. By the time we distill all this and finally make our brand of it, I think we'll just explode in one big, drunken belch."

**David Johansen** says his debut album as Buster Poindexter came because it was time for a new musical direction. "I was just getting tired of the rock & roll journeyman existence I'd been living," Johansen says. "I'd been on the road 250 nights a year for about 10 years. I wanted to settle down and stay home for a while and have relationships. I didn't see the need to officiate Hitler youth rallies anymore," he says. He says he knew it was time for a change when he would tell friends to come by to see his show and they would say, "We'll meet you at the bar afterward." Johansen is currently touring with a 15-piece band called the Banshees of Blue. "Basically, I wanted to do a show that would entertain my peers, older people, and kids, too. What I'm doing now (as Buster) is entertainment for everybody, not just a yuppie phenomenon," Johansen says. "I'm gonna have this whole area of music to myself until the heavy metal bands from L.A. start wearing tuxedos."

**Jay Leno's** November 20th performance at Symphony Hall in Boston will benefit the AIDS Action Committee of Massachusetts.

Keyboardman **Greg Hawkes** says his current tour with the Cars may be his last. "It's not that I dislike performing," he says.

"It's the whole drudgery aspect that goes along with it. I feel like I could do more Cars records, but I really don't know if I could do more Cars tour. Which brings up the possibilities of the Cars becoming a completely recording band like the Beatles became or Steely Dan. Or, if that's unacceptable to the Cars, then we'll have to work out something. Either they'll get somebody else, or I'll do the records and they can find somebody else to tour."

The Texas Court of Criminal Appeals has overturned the conviction of **David Crosby** on charges of cocaine possession and illegal possession of a pistol. Crosby has served his five-year sentence on the charges, for which he was arrested in his dressing room at a Dallas club in 1982. The court ruled 5 to 4 that Crosby's arrest was illegal, and a search of his belongings should not have been used as evidence against him. It said Crosby had a reasonable expectation of a right of privacy in his dressing room, and police entering without a search warrant violated Crosby's constitutional rights. An officer found Crosby on the floor of the dressing room with a propane torch in one hand and a glass pipe in the other. Court records say a bag of cocaine was in his lap. "Even though they put me in the penitentiary on a case they shouldn't have, I feel gratitude because it may have saved my life," Crosby said after the decision.

**U2** may not play Atlanta because of a dispute over a surcharge that would be added to the cost of tickets to the band's planned shows in early December. SEATS, a ticket-outlet system owned by Ted Turner, usually charges a \$1.50 per ticket surcharge for concert tickets. But, U2 objects to the additional charge. A publicist for the band says the group regards the service charge as "unfair to the consumer... We want it understood that we are charging \$17.50 and someone else is charging \$1.50." The concert promoter says he's "in the middle" and can't do anything about the dispute. Over 50,000 tickets to U2's show at Tampa Stadium on December 5 sold out in one day after the concert was announced.

A Texas district judge has postponed a hearing into a civil lawsuit filed against **David Bowie** by a woman who claims he raped her and then told her that he had AIDS. State District Judge David Brooks postponed the hearing until December 18, at the request of an attorney for Bowie. "We just simply didn't have enough time to address the problem," says Bowie's lawyer, James Linn. A grand jury has heard evidence in a sexual assault complaint against Bowie.

**Mick Fleetwood** says he hasn't seen the film, "The Running Man," in which he plays an 80-year-old rebel leader. "I've no idea how good or bad I was, but I do know I really enjoyed it," Fleetwood says of his role. He wears five hours worth of makeup in the adventure film set in Los Angeles in the year 2019. "I'm certainly not Sir Laurence Olivier, but I do have confidence in the way that people have always reacted to the way I play on stage." Fleetwood's sister, Susan, is a well-known actress in England.

**David Crosby** has settled a lawsuit that he had filed against some former friends claiming that they owed him back rent for staying in his home while he was serving a prison term. The settlement was reached in Marin Municipal Court in California. Peter and Ellen Dodd had stayed in Crosby's Mill Valley home, and they said they didn't pay \$1,500 a month in rent because they did a lot of work to clean the house they described as "an enormous litter box." As part of the agreement, the Dodds will vacate the house and receive a \$6,500 cash payment from Crosby. In court documents, the Dodds described Crosby's house as being "two to three feet thick in every room with dis-

gusting trash that consisted of old spoiled food, newspapers, clothing, pornographic books and dirty drug paraphernalia."

**Cher** and **Little Richard** have agreed to participate in a December 2nd fundraiser at the Metro in Boston. The "Boston Against AIDS" event hopes to raise over \$100,000.

**U2's** "The Joshua Tree" album has become the second fastest album ever to sell a million copies in Canada. It took U2 230 days to be certified as a million seller, second only to the 206 days it took Culture Club's "Colour By Numbers" to reach the same level in 1984.

Some of the proceeds from **Paul McCartney's** new album, "All The Best," will go to help cerebral palsy victims.

**Brian Wilson** of the Beach Boys is going back into the studio to digitally remaster the "Pet Sounds" album for its release on compact disc. The LP was originally released in 1966.

Members of **Grim Reaper**, **Anthrax**, **Tesla** and **Faster Pussycat** appear in the upcoming videocassette, "How To Break Into Heavy Metal (Without Being Screwed)." The tape, scheduled for release in January, will carry a \$20 list price.

The **Eurythmics** will be featured in the film "TVP," planned by George Harrison's Handmade Films company.

**Mick Jagger's** video for "Throwaway" was filmed at a country club in Los Angeles, where Jagger was backed by a band that includes former Missing Persons drummer Terry Bozzio. In fact, that line-up went through a number of tunes from Jagger's two solo albums, a few Rolling Stones tunes, and some classics including Chuck Berry's "Carol" and Jimi Hendrix' "Foxy Lady," and the entire show was filmed.

**Carlos Alomar** has released a new age album (on Private Music Records) called "Dream Generator." "I know it's like a curve ball for me," Alomar says. "This company told me, 'Go do anything you want,' and I always wanted to hear this. This being my first album, I wanted to show that I'm a composer and there is more to my life than being a rock & roll player." Alomar says the album has a "big band sound, with classical overtones." "I don't want it to put you to sleep," Alomar adds. "I want it to be a commercial. I want it to create an environment. I want to create a world and inside that world is the music." "Dream Generator" is dedicated to "all rhythm guitarists," Alomar says.

**George Michael** has reportedly spent over \$100,000 on an apartment in London's Soho district, so that he'll have a place to take his lady friends without revealing where he actually lives. The same report says that two months after buying the apartment, Michael still hasn't used it.

**Jeff Beck** says that part of the reason Mick Jagger's solo tour failed to get off the ground was because Jagger was offering such poor money for the musicians in his band. Beck says Jagger is notoriously cheap and counts every penny.

Some fish belonging to **Freddie Mercury** of Queen are recovering at the London Zoo. Mercury had been keeping the 50 Japanese carp, which cost about \$35,000 to bring in from Japan, in a pool at his London mansion. But the pool recently sprung a leak, and Mercury has spent another \$7,000 to put them in a special aquarium at London Zoo so they can recover.

**Ry Cooder's** new album, "Get Rhythm," is his first studio LP in five years. It includes Elvis Presley's "All Shook Up," and also features guest appearances from Larry Blackmon of Cameo and actor Harry Dean Stanton. Cooder has spent the past five years working on soundtrack albums such as "Paris, Texas," and "Crossroads." He's also put a band together that has been playing concerts in Los Angeles.

**Edwyn Collins**, the former member of Orange Juice, has released two solo singles in England. He's also formed a touring band that includes British reggae artist Dennis Bovell.

**David Bowie** has hinted that he'll release an album of demos and outtakes from the sessions that resulted in the albums "Heroes" and "Low." He commented about the Eno-produced recordings while in Australia as part of his Glass Spider tour.

**Peter Gabriel's** live version of "Biko" is released in conjunction with Sir Richard Attenborough's new film, "Cry Freedom," which is about Stephen Biko, the anti-apartheid crusader who was imprisoned, tortured and murdered by the South African regime in 1977. Proceeds from the sale of the 12-inch will benefit the International Defense Fund for Southern Africa and the Africa Fund. "Stephen Biko had the courage to work and speak out for justice in South Africa," says Gabriel. "Sir Richard Attenborough has made a very moving film about Stephen Biko and this record is being re-released to help the film make Biko's name better known and to draw attention to what is still going on in the name of apartheid." The b-side of the record is "No More Apartheid," which Gabriel originally "improvised" for the "Sun City" album.

Drummer **Bill Ward** of Black Sabbath has been replaced by former Class drummer Terry Chimes. There also have been other changes in the group. Tony Martin of Birmingham, England, replaces Ray Gillen as singer in the band, and Eric Singer is the new bass player in the group. All the changes leave Tony Iommi as the only original member of the group still in Black Sabbath.

**Billy Idol** says there's a message on his phone machine that he doesn't plan to erase. He recently held a party in Los Angeles to celebrate the success of his "Mony Mony" single, which was attended by Cyndi Lauper, Steve Jones and Brian Setzer. When he got home from the party, he found a singing message from Bobby Womack apologizing for not making it to the get together. "That's one phone tape I'm not going to erase," Idol says. Idol adds that "Mony Mony" has a special place in his heart because "it was the first song I ever made love to."

**David Sylvian** has released his third solo album since the days of Japan, called "Secrets Of The Beehive." "The lyrics are more important than before," Sylvian says. "Before they were like keys to help listeners into the landscape of the music, whereas these are more straightforward. I wrote each piece in one sitting instead of letting an idea float around for weeks before putting it into some clear form."

The **Jesus & Mary Chain** are looking for a drummer, following the departure of Bobby Gillespie because of his work with the group Primal Scream. "We've always been looking for a drummer but we can't find anyone we can get on with for a month at a time," says Jim Reid. He denies rumors that Primitives drummer Pete Tweedy will be joining the group. The band will continue to have former roadie Dave Evans on guitar. "Dave knows the songs better than anybody," Reid explains. "He corrects us.

So he's got his big break and he's going to do America as our guitarist."

On the 35th anniversary of the British charts, **T'Pau** had the honors of having the 600th single to top the U.K. chart, with "China In Your Hand."

Former Housemartin **Hugh Whitaker** has joined Hull band the Gargoyles.

**Anthrax** lost almost \$20,000 worth of equipment and valuables when the tour bus was broken into while the band was staying in Liverpool, England. Thieves took two brand new guitars, clothing, money and some of the band's passports.

**Fleetwood Mac's** "Little Lies" is the first single by the band to reach the top five both in the U.S. and England.

**Lloyd Cole** says he included the "Sean Penn Blues" on the new album by Lloyd Cole & The Committions, "Mainstream," because he believes Penn is a hero of our times. "I just think it's time somebody stood up for Sean," Cole says. "He's a really good actor and the idea of writing a song about the man who is married to Madonna was very appealing, too. It's obviously not to be taken seriously and the chorus is nice because it's Sean's revenge -- he's married to Madonna." The Committions have recruited a new guitarist to help Cole out during live performances. Blair Cowan won't be touring with the band, as he's staying home and concentrating on composing. "It's sort of like the end of a particular era, because Blair was the one who started the group with me, so it's very sad," Cole says. "But we're very confident about ourselves now, we're not shy anymore." Cole adds that he won't be writing any more songs, soon, because "it really took a lot out of us on this LP. We threw 15 songs in the dustbin, but you have to be able to admit that you're capable of writing bad songs and hopefully in the long run that'll make me a better writer."

Britain's **Gaye Bikers on Acid** have titled their debut album "Drill Your Own Hole." It's an appropriate title because the LP doesn't have a hole in the center, and you have to do as the title suggests.

A new **Elvis Costello** compilation LP is out in England, called "Out Of Our Idiot." It includes many b-sides and previously unreleased material from Costello.

Fans who come to **Alice Cooper's** shows this fall will get to see him "executed." "We're doing the hanging this time," Cooper says. "We hadn't done it for 15 years so it was time. It's a very uncomfortable feeling. When I used to do it I was drunk, so I didn't really feel anything. Now, I get up there and I know the floor is gonna drop out and I know there's nothing below me...Alice doesn't care, but I do. After the show I go: 'Why do I do that? That's insane.'" Cooper says he's becoming "the Stephen King of rock & roll, which is not a bad place to be." He still offers a warning for people who are close to the stage at his shows. "We pretty much drip into the audience at one point," he says of the fake blood used during his stage show. "We've upped the ante -- and the pressure of the valves that shoot the stuff."

True West bass player **Kevin Staydohar** has died from complications from a heart infection.

While in Chicago, **U2** made a contribution to a traveling exhibit by the Chicago Peace Museum on Dr. Martin Luther King Jr. One such exhibit already exists and has traveled to over 30 cities around the world. Sharon Marley has requested the exhibit come to the Bob Marley Museum in Kingston, Jamaica.

**Elton John's** "Candle In The Wind," the current single from his live album, is the first time the song has appeared on a 45. The song was scheduled to be released as a single 14 years ago, but was never released. "Candle" was scheduled to be the third single from the "Goodbye Yellow Brick Road" album (following "Saturday Night's Allright For Fighting" and the title track), but at the last minute, "Bennie & The Jets" was released instead, and subsequently became a number one single.

A 50-minute compilation of videos by **Squeeze** is being released by A&M Video. "Squeeze Play: The Videos 1978-87" includes older material as well as the band's latest clip for "Hourglass."

The **Cars** have seen some low attendance figures on their current U.S. tour, which began in Norman, Oklahoma, on October 14. Less than 3,500 fans turned out when the band played the Providence, Rhode Island, Civic Center, and a gig at the Cumberland Civic Center in Portland, Maine, drew less than 6,000. About eight thousand fans saw the band's 10th anniversary show at Boston Garden. The band's tour has been drawing an average of 7,000 people per venue. "Strap Me In" has been released as the second single from the "Door To Door" album, which has sold a half a million copies. The first segment of the Cars' tour will end in Detroit on December 12. The band will go back on the road after the holidays.

**Billy Idol, Eddie Van Halen, David Crosby and Craig Chaquico** of Starship participated in the fourth annual 100-mile "love run" by motorcyclists in southern California. The event raised over \$250,000 for the Muscular Dystrophy Association.

## **BRIT-PICKS Albums**

### "Savage" by The Eurythmics (RCA/BMG)

After the hard-hitting rock on "Revenge", this is a mixed bag. Stewart has stripped their sound right down on some tracks, notably the opening cuts on side one: "Beethoven", "I've Got A Lover" and "Do You Want To Break Up". These are poppy pop songs backed by a bare synthesizer that sounds dated. The technique works better on the latter half of the side "You Have Placed A Chill On My Heart" and the title cut. This is more sensitive material with lyrics that are better thought out. "I Need A Man" features a slightly histrionic Annie which left me cold. Radio will appreciate "Put The Blame On Me", "Wide Eyed Girl" and "Heaven", much more standard Eurythmics fare with a fuller rock sound and more of the customary over-dubbing on Lennox's voice. "I Need You" is one of the most extraordinary tracks they've ever put out: Annie singing to a cocktail lounge piano while conversation bubbles all around her. It's a brilliantly executed idea and highlights some killer lyrics. "Brand New Day" is hauntingly beautiful, although a little short. All in all an incomplete effort with some real lows, but enough searing highs for lots of good cuts for the air.

### "Billy and Albert" by Billy Connelly (IO)

### "Motormouth" By Ben Elton (Mercury)

### "The Secret Policeman's Third Ball - The Comedy (Various Artists)

Beefing up your stock for your comedy show? Some 15 years after becoming a star on the British circuit, Connelly is new world class with his singularly Scottish humour. Ben Elton, the host of the U.K.'s version of "Saturday Night Live" and writer of "The Young Ones" is Britain's red hot comic - no subject left untouched to his fast talking savagery. Hatred of MacDonald's and nerds you meet on the beach are universal subjects.. "The Secret Policeman's Third Ball" recorded at the London Palladium for Amnesty International has good moments - Mel Smith and Griff Rhys-Jones remembering how everyone in the 60's used to listen to "Set The Controls To The Heart Of The Sun" with the lights out - while someone stole all of your furniture! But some of the comedy on the "Ball", particularly two impressionists may not have an easy cultural passage across the pond. By the way, Elton and Connelly use lots of naughty language.

## **UK MUSIC NEWS**

**Dire Straits** may be set to split up, if Mark Knopfler's comments in an interview with music monthly, Q magazine are accurate. He says "I'm not really interested in the band at the moment. I don't see it as constant and I don't think there will be another Dire Straits record. I just don't really feel like it and there are more challenging things for me". Mark Cooper of Phonogram U.K. categorically denies the split. "It's a hot quote, taken out of context", he told The Hard Report. "Brothers in Arms", the group's last album, sold 15 million copies and was one of the biggest compact disc hits with rock loving yuppies as well as Britain's Princess Diana.

A magistrate in Liverpool, northwest England, has cleared Beattie Boy Adam Horowitz on a charge of assaulting an eighteen year old female fan, when the band played there last May.

Despite the testimony of three witnesses who claimed they saw him throw a full beer can at Jeanne Clark, both Horowitz and his defense lawyer explained that The Beastie Boys were facing a concert audience behaving like "a soccer crowd, ready to fight". Ad Rock, as he's better known to his fans, who has consistently denied throwing the can, told the court how he asked, pleaded and shouted to the audience to stop throwing things. Another witness said that when the show finally broke down, the crowd chanted: "We tamed The Beastie Boys!" Ad Rock says he has never experienced a crowd like the one in Liverpool and that after being continuously struck by missiles, the group became frustrated and angry. The magistrate ordered costs in the case to be awarded from central funds and that Horowitz's bail deposit of \$20,000 be refunded. After the case he told reporters, "I am not happy. I am still sorry she got hurt."

**Terence Trent D'Arby**, one of Britain's hottest soul music properties, announced he would be cancelling his gig in Vienna, because of the allegations against the Austrian president, Dr. Kurt Waldheim. D'Arby decided on his one man cultural boycott because: "I cannot, in good conscience, allow money made off my back going into the government coffers of a country that has, in its own superior judgment, elected a known Nazi conspirator, to head it's nation." D'Arby's Austrian concert promoter, Geoff Maxiam said he respected the singer's decision but considered it unfair nevertheless. "He knew from the beginning that Vienna was included on the tour, so he could have decided before we started selling tickets", he said. The viennese concert had been sold out for some time and Mr. Maxiam added that he thought a lawsuit action for breach of contract against D'Arby was likely. In a statement explaining his decision, D'Arby was profusely apologetic to fans waiting to see him in Austria but he maintained that it would be a slap in the face to Jewish friends of his "...some of whom lost loved ones in the holocaust, possibly due to the involvement of Kurt Waldheim." One fan lining up last week to return her ticket, visibly upset, said: "I am too young to vote and so are all my friends who are going to see him, so I don't see why he should punish us."

**Little Steven** has reacted angrily towards the management of The Hammersmith Odeon venue in west London, who ordered anti-Apartheid demonstrators to take down their stand in the foyer of the theatre during his show there. Steven, president of Artists Against Apartheid, declared after the show that he would have refused to play if he knew what was going on and he referred to Odeon management behaviour as "disgusting." The demonstrators had set up their stall of leaflets, books and a petition at Steven's invitation. The woman who ordered them to dismantle it, refused to give her name to them.

Tears For Fears singer **Curt Smith** has won substantial, undisclosed libel damages from British daily tabloids "The Star" and "The Sun" and from Sunday counterpart "The News Of The World". "The Star" was the first to run an article based on allegations about Smith's teenage sex life from two people who falsely claimed they had been to school with him. The other two newspapers followed suit. The articles were published two years ago and Smith's lawyer commented that such a gap puts off most rock personalities even attempting to sue the gutterpress.

The **Sisters of Mercy**, who made an astonishing recent comeback with their top ten scorcher "This Corrosion" release their second album this week on WEA in the U.K. "Floodland" features eight compositions by frontman Andrew Eldritch, including an eight minute version of "This Corrosion." The cassette features an extra track, while the CD has yet another track and an 11 minute version of "Corrosion"!

The classic punk band **Stiff Little Fingers** have reformed for a nostalgic eight date tour of Britain and Ireland. The line-up reunites Jake Burns, Ali McOrdie, Henry Chury while Dolphin Taylor will step in to the drummers seat for Jim Reilly who has other commitments. Burns explained that the idea was formulated after seeing a Tom Robinson Band reunion concert in London. Later, after a dozen late night cups of coffee and a "Do you remember when?" conversation, they couldn't resist the idea. At first he said there are no plans to record, but this has been modified to "We'll see how the tour goes."

## UK INDUSTRY NEWS

Pangaea, a new label, has been formed by Sting, in partnership with IRS founder Miles Copeland and Christine Reed, former vice president of CBS Masterworks in New York. It will be distributed by IRS through MCA in the United States and by CBS International elsewhere. Among the first signings are two members of the backing band from Sting's tour. Pangaea is interested in all forms of music from classical to avant-garde, according to "Music Week."

Virgin Records is having a hard time convincing radio in Britain to spin the vintage American early 60's song "Ain't Nothing Like Shaggin'" by The Tams. The shag is a dance that originated in South Carolina, but in the U.K. shagging is rudeish slang for the sexual act. If radio programmers are shying away from the old beach classic, retailers have had no such scruples. Towe Records in central London have it in a display right on their singles counter. "Hey Dave!" I heard a customer shout there this week "Come over here, there's a song about shagging here!"

## IN BRIEF

Top ten hitmakers **Hue and Cry** have split up. Brothers Pat and Greg Kane threw in the towel at the end of their recent tour because of "irreconcilable differences"... Virgin's Scottish teen idols **Wet Wet Wet** have been caught plagiarizing lyrics for the second time in three months. As the furor dies down over their "Sweet Little Mystery" filching Van Morrison's "Sense Of Wonder"; Squeeze's Chris Difford has notice that "Angry Eyes" lifts a whole verse from his "Heartbreaking World". Wet's first album entered the charts at 3. An out of court settlement looks likely... **ABC's** next 12", "King Without A Crown" features live versions of 1982 classics "Look of Love" and "Poison Arrow" on the B-side... **The Human League** are working on an album with their long serving producer Martin Rushent. A tasty single is expected in January, the album is released in April... **Pop Will Eat Itself** had to cancel the remainder of their European tour after their manager was detained by customs men for concealing a porno video... Congrats to Depech Mode's **Dave Gahan** and wife Jo on the birth of a baby girl. Fellow Depecher ripped off all his clothes and danced naked around a Barcelona hotel when he heard the news... Banana lady **Sieghan Fahey** is less than a month away from having her baby. Meanwhile dotty father **Dave Stewart** is arranging earthquake drills at his home in Los Angeles. After being scared by the quake, Dave was originally going to sell his \$2.4 million mansion but has now decided against it. Davie's rhythm pal **Annie Lennox** is impressing lots of folk with her role in Robert Altman's movie short, "The Room". "She's a very good actress indeed," says Altman, "She could be bigger than Cher"... It's party party time in London. One was held to launch **George Michael's** album "Faith", a project which cost CBS a cool \$100,000. The party matched their investment, tucking into a four course meal were George, Andrew Ridgely, Bob Geldof and Paula Yates, Elton John and

Renata, John Burt and (gulp) David Cassidy. Another glut-tonous bash was thrown by Paul Young for the "Dreams Come True" charity. Singing "Stand By Me" to raise money was a "supergroup" of Bob Geldof, Paul Young, Curt Smith, Elton John and (double gulp) Donny Osmond. Yours truly went and got shamelessly intoxicated at a party held by Go Discs to celebrate their moving from a broom closet to proper premises. Still roaring at 6 am Paul Weller, Billy Bragg, The Housemartins and dubious crashers from every record company in London were spotted with very red eyes.

**BRIT-PICKS Singles**

**"Hit The North" by The Fall (Beggars Banquet)**

I'm not a Fall freak like most of their fans, as I have preferred more accessible material like "Hey Luciani". This is their most accessible single yet. A 100% addiction factor for alternatives. Terrific!

**"Gorgeous" by Gene Loves Jezebel**

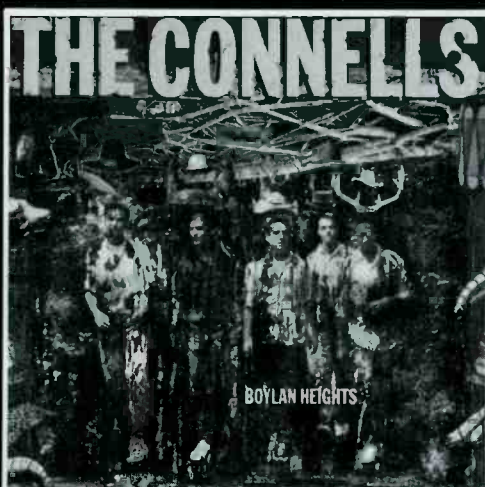

From the "House of Dolls" album. Clean vocals, convincing guitar, great tune. What more could you ask for? AOR should get in on this as well as Alternative.

**EUROPEAN CHART SURVEY**

On the British album chart, **The Alarm's** "Eye Of The Hurricane" enters at 23. "Cloud Nine" by **George Harrison** enters at 10. "Bete Noire" by **Bryan Ferry** enters at 9, "All The Best" by **Paul McCartney** enters at 2 while **George Michael's** "Faith" shoots right into the pole position. The new British number one single is **T'Pau's** "China In Your Hand". **The Communards'** "Tomorrow" replaces The Pet Shop Boys "It's A Sin" at the top of the Spanish singles chart. The Communards who are extremely popular in Spain had another chart topper earlier this year with "Multimix" a British 12" B-side. **Johnny Hates Jazz** are number one in Finland with "I Don't Want To Be A Hero" while in Holland **M/A/R/R/S** oust Rick Astley from number one with "Pump Up The Volume". **Bruce Springsteen, Michael Jackson** and **The Bee Gees** are doing well on many European charts. "Bad" is the biggest seller in total European sales. In the Irish album chart, the excellent double album recorded live at Self-Aid "Live For Ireland" has gone straight to the top. Featured artists include **Elvis Costello, Van Morrison, The Pogues, Clannad, Chris Rea** and many others.

**THE CONNELLS**  
**BOYLAN HEIGHTS**

**Charlie Logan, WYNF, Tampa**  
"A record I really love is the new Connells album. If you haven't checked this out yet, do yourself and TVT a favor! Hey, Relativity proved that you don't have to be a major label to have a major act. This album is incredibly deep and if you appreciate intelligence in your rock 'n roll this band's for you. Moody and infectious, the Connells will captivate your audience."

In Billboard this week, Bryan Ferry's "Bete Noire" moves 169\*-80\*. That's an 89 point jump! One more like that and it will be nine points above #1. On Billboard's CD chart, it debuts at #28\*. Which brings us to "Mike's School of Logic". This week's lesson: the syllogism - a form of deductive reasoning consisting of a major premise and a minor premise leading to a conclusion. Example #1: (major premise) Hit records sell, (minor premise) "Bete Noire" is selling, (conclusion) "Bete Noire" is a hit record. Example #2: (major premise) Radio wants to play hit records, (minor premise) "Bete Noire" is a hit record, (conclusion) radio wants to play "Bete Noire". I don't grade on a curve so you can all get an A. Good Luck!

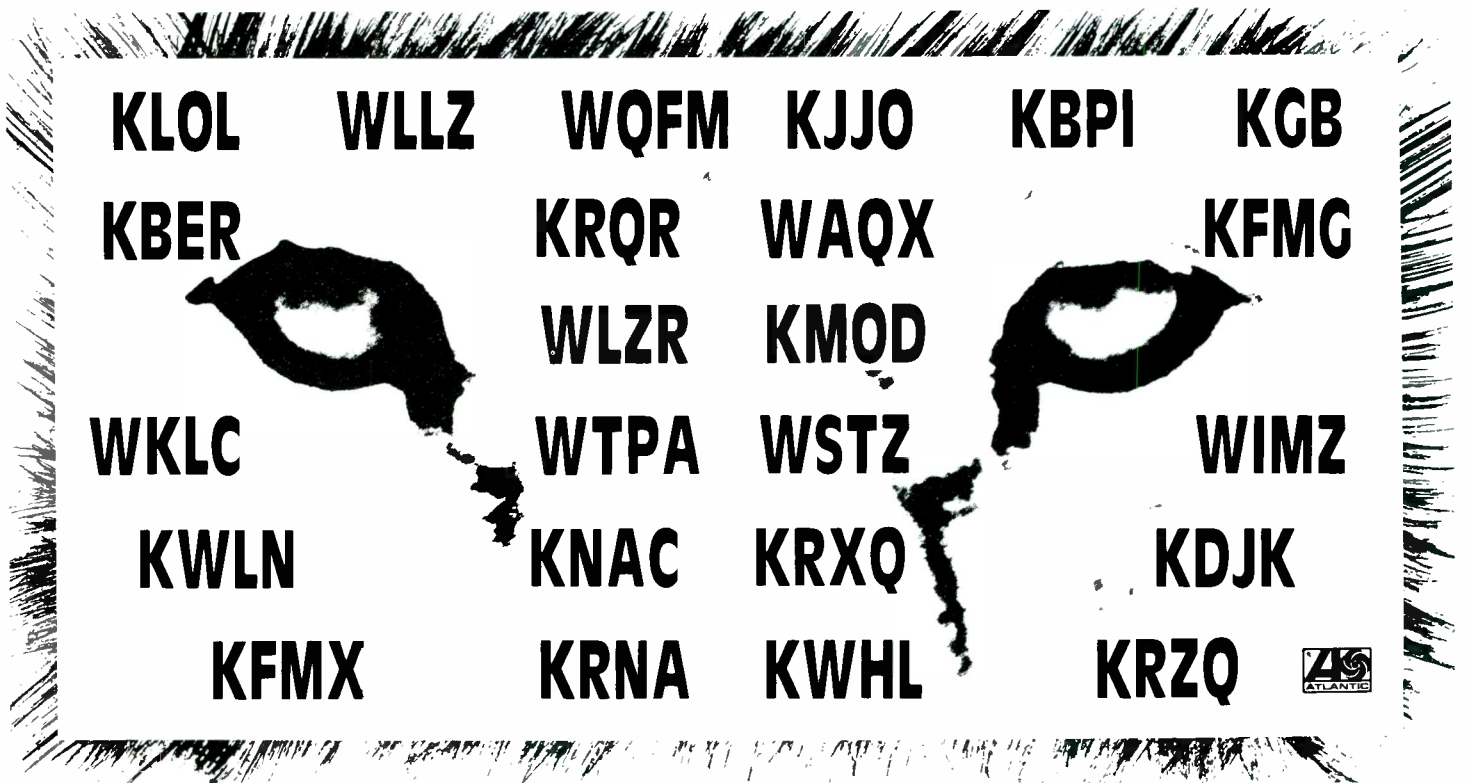

**Hilaire Brosio, Big Time, 213-460-4033**

Okay, folks, it's time to stretch those limbs and pop those joints 'cause Dream Syndicate hits the scene with the Eric Clapton classic "Let It Rain". This is the first single to be released from the multi-faceted Lp "The Big Time Syndrome", the compilation album for the gourmets of today's musical extravaganza. The

waste not another moment.... "Pure Rock" The Lp, and Snake Rock the band are both doing exceptionally well. A very special thanks to Michael Gross, my buddy at KJJO/ Minneapolis for being an early believer in this band. It's great to see radio stations like his that are ready, willing and able to give new bands a break. Also thanks to Brad and Lenny at WRCN, for making snake rock happen in the east. New stations this week KFMX/Lubbock, KBER/Salt Lake City and KZRQ/Reno, NV.... Have a great week.

**Paul Kriegler, KRCK, Omaha**

Any labels who would like to set up interviews at KRCK, please give us some advance notice. We'd like to get more bands into the studio, but we just need some lead time to get it together!... I'd like to get some CD's in the mail: The Bolshoi, The Alarm, Love & Rockets, Dogs In Space, Bryan Ferry, 54.40 (yes, I've got my sights set high), Flaming Lips, Gene Loves Jezebel, Sinead O'Connor, Red Hot Chili Peppers, Chris Stamey! Any record company types, if you see your record here, we'd really appreciate playing it on CD.... Fields Of Nephilim has received

album also has previously unreleased tracks from Alex Chilton, Dumptruck, Love & Rockets, Love Tractor and an assemblage of others.... Max Eider's Lp, "The Best Kisser In The World", has been warmly received and added by KJET, KTCL, WRAS, WUOG and KUSF. Max, along with producer John A. Rivers (of Love & Rockets fame), conjure up an incarnation of the classic Lounge Lizard on hallucinogens that will launch us into the 21st century. If you have your doubts, check out the track "Rosemary" and I'll guarantee that you'll be swept into a martini bliss. Shaken, not stirred, of course.

**Penny Barnes, Rhino, 213-450-6323**

Well, all of us Rhinos are in an uproar this week. Cindy Lee Berryhill and House of Freaks are gaining strength across the country. WXRK/New York adds Cindy Lee, as does WHFS/Washington and WKWQ/Columbia, SC to name a few. We are all 100% behind these records, and you should be hearing from us about them this week, if you haven't already. They are on your desk, or in your stack just waiting to go round on the ole turntable a few times. You'll hear what we heard long ago! So

some curiosity calls saying "What was that? It was hot!".... The Reivers sound fantastic on the air and are also a great group to see live! They were in Omaha a few weeks ago. This album is just one more step towards future success for them.... See Guadalcanal Diary if you get the chance. Thanks to Jeff Rhett for stopping by the studio.... Most of all this week: Thanks to Lori for the tickets and passes to REM. What a bunch of nice dudes!

**Jonathan Rosen, "Virgin Vinyl"**

I enjoyed moving forward with a station that was devoted not just to the theme of new music, but that was a breaking ground for music that should be heard from all over the world including the state of Arizona. Unfortunately all good things must come to an end. Why is that? I wish KEYX much luck in the future with their progressive format. As for me, the direction is full straight ahead! I can be contacted at 602-967-6278/ 318 W. Santa Cruz Dr., Tempe AZ 85282.... The Camper Van Beethoven EP out now features a famous Ringo and George cover of "Photograph". It's fabulous! Considering George is hot right

now, it would make a lot of sense for programmers to check this out. It's called Vampire Can Mating Oven.... Here's a sleeper that features good uptempo music to move to. It's called Full Fathom Five, The Cry of a Falling Nation On Link Records. They're from Iowa City, which just goes to show that some of the better energized rock and roll is coming out of the Midwest, i.e. Oklahoma's Defenestration.

### **Paul Nelson, WWCT, Peoria**

Got a chance to see two great shows over the weekend. Friday night it was INXS at Illinois State's Braden Auditorium, a nice place to see a show, but certainly not conducive for a party. "Cause the show INXS put on had people bopping in the aisles! Glad to have the opportunity to see them in a small hall because there is no question after "Kick", hockey arenas will be the only venues that will suffice. Our thanks to Atlantic's Rick Sudakoff for helping us out. It was great to see him again.... The best show I've seen this year was Roger Water's at Chicago's Aire Crown Theatre Saturday night. He had the same type of screen Pink Floyd used on their "Animals" tour, but this time around he wasn't spitting on the audience as he did late in that tour, he was actually smiling at us! He showed what rock and roll can be, entertaining and thought provoking. Some of the new arrangements of the Floyd tunes were even better than the originals and during "Have A Cigar" the audience knew which one was Pink and they all pointed to him. The show confirmed that Pink

**We went on White Lion's "Wait" when it was first released and were successful enough to place the record in recurrent. Out of nowhere, we started to get a lot of calls for "Wait" and we began to see action at retail, so we put it back in. This project is building and with the right push we expect it to explode!**

## **White Lion's "Wait"**

Floyd without Roger Waters is much like the Beatles without John Lennon. Sure they could still write some great music, but music that stands the test of time was created by Pink Floyd WITH Roger Waters. Thank you, Dave Remidi for making the show possible.

Does anybody really know what the word "classic" means anymore? From where I sit, I see a great many of you throwing the word "classic" into your positioning statements and ID's. It doesn't seem to matter that every album and gold formatted station in town is already using this same word (the "C" word) as the cornerstone of their own uninspired slogans. The term "classic" as a positioning identifier has lost its meaning through over-use and instead of distinguishing your radio station, buries your image in an indistinguishable mass of call-signs. On this side of the microphone, the term has evolved to define a format and a style of programming. To your audience, however, it is just another cliché out of the dictionary, synonymous with words like "vintage" or "typical". Have you ever considered using terms like "CHR", "AOR" or "AC" on the air as a positioner? Of

course not! Because it has no meaning to your audience. CLASSIC: "Of the highest class; being a model of its kind; excellent; standard; authoritative; established" that's what Webster's says. Would you use this description to describe the "Classic Rock" or "Classic Hits" station in your town?... A true discussion of things "classic" should include excellent current music such as "Time For Waiting" from THE CRUZADOS. The sound of this song gracefully borrows the best musical feels of yesteryear, (i.e. "Bitter Creek"), the ones your upper demos will feel comfortable and familiar with while maintaining a fresh, exciting perspective of rock music as it evolves into the next decade. Maybe that's why classic rock stations such as KLSX, KZEP and others have decided to play "Time For Waiting" as one of their few currents. Regardless of how much room you have for new music, you should be playing "Time For Waiting" from THE CRUZADOS. And while you're at it, see them live this week with Fleetwood Mac: Fri. 11/20 - The Arena, St. Louis/Sat. 11/21 - Five Seasons Center, Cedar Rapids/Tues. 11/24 - Civic Center, St. Paul/Wed. 11/25 - Civic Auditorium, Omaha/Special Thanksgiving Headline Show - DJ's, Colorado Springs/Fri. 11/27 - McNicholis Arena, Denver/Sat. 11/28 - Salt Palace, Salt Lake City.... If you liked the album version of the GRATEFUL DEAD's "Throwing Stones", you are going to flip over this new 12", single and promo CD. The time on this version has been cut back to 4:04 and the expert re-mix job brings out the hard to hear vocals and percussion work.... PURISTS TAKE NOTE: Fear not, this is the official edited re-mix produced under the strict standards and supervision of the GRATEFUL DEAD.

Last night, as I was driving in my automobile (a 1979 Volare, if you must know), a Mack truck hit me from behind. As FATE might have it, the Lord granted me MERCY (get it?). Instead of dying a BLESSED DEATH, I was lucky and only got WHIPLASH. So instead of going to see that new movie about CARNIVORE's, as planned, I'm stranded in a hospital bed, stuck watching the late movie called TICKET TO MAYHEM. I knew it was going to be a bad night when a black KAT crossed my path. (Okay, I tried. It's hard trying to be clever every week!)

### **Art Boerke, WKWQ, Columbia**

I've said it before and I'll say it again and again and again until people start waking up. Guns N' Roses are incredible. I had the chance to see the G & R guys last Saturday night as they ate Motley Crue's lunch. No pretentious raps when W. Axl Rose talked, it was cool and all relevant stuff. He thanks K95 Rock for playing the record. Talk about stage presence, these guys have got it by the case. They did a killer version of "Knocking On Heaven's Door".... Flesh For Lulu's "Postcards From Paradise" is my fave among adds this week. Don't let the name fool you, this is a great pop/rock tune. I think all us Kronenberg fans got a kick out of the Lp title.... Is it just me or are you guys getting sick and tired of these Whitesnake videos, too. They're all the same. I mean Tawny Kitane is gorgeous but let's get some variety. It makes the songs all seem like one, and that's boring. You can always tell what pose the girl is going to strike next.... The Broadcasters tune is really cool. I heard it for the first time over the air while driving home from wherever and nearly had to pull off the road.... I don't understand why more of you aren't

on the Brandos' "Honor Among Thieves". Dave Kincaid's voice is so hauntingly gritty and powerful. It makes the song one of those that grips you like the claw hold unwilling to ease up one bit. It's what rock and roll is all about, guitars and drums, drums and guitars; all else is window dressing.

**Monte Conner, Shatter Records, 212-645-5630**

Paul Di'Anno fever has spread to MTV. The video for "I Don't Wanna Know" is due to hit the Headbangers Ball on November 28th. Be sure to tune in. Hey, guess what, I've got a bunch of Paul Di'Anno T-shirts leftover from last year's "Fighting Back" U.S. tour. If you want one give me a call.... P.S. Sorry, Jeff, no short story this time.... P.S.S. Jessica Harley has godly legs.

**Mike Jones, WGIR, Manchester**

Exodus, the Bay Area bashers and San Francisco sickies are back and smokin'. It's been a long wait but well worth it in this puppy's opinion. "Pleasures Of The Flesh" will ignite the airwaves and the phones. (Hi, Megadon).... Not so new vocalist Zetro Souza from Legacy, oops Testament, is Beloff sounding but a little ballsier and he's also a much better frontman. Those that haven't had a chance to witness this will have an opportunity to do so when Exodus leaves a trail of blood on the road with Anthrax and Celtic Frost. I'm psyched! Congrats to Scott "Not Ian" on his upcoming nuptials.... I totally agree with Dewey from WKNC and his feelings that there should be a Hard convention sometime soon, with a metal section to it, of course. I'm sure it would be lots of fun, so how 'bout it folks?... Well, I'm off to see Alice Cooper, Ace Frehley and Faster Pussycat in Boston. Should be bloody great. Ciao dudes!

**Rick Panneck, WAPL, Appleton**

The Harrison album continues to explode at retail.... Dokken is also very strong.... Great to meet the guys in Great White and Whitesnake in Green Bay last week. Definitely one of the better hard rock shows I've seen in a while. Thanks to Marvin Gliecher and Phil Dempsey. Great White's "Save Your Love" proves the versatility of the band. Nice video, too but not as good as the Tracy edit of "Lady Red Light".... Tesla's "Mechanical Resonance" continues to perform a full year after its release.... Have a great Thanksgiving!

**Hugh Surratt, RCA, 213-468-4000**

They're very hip and very familiar and this week's MAJOR activity on Love & Rockets' "No New Tale To Tell" shows that this band is connecting at mainstream rock radio. Listed among the 20 new adds are KGB, WLLZ, KTXQ, WSHE, KRQR, and KSJO! This is a strong SONG that provides a great variation on the "3rd and 4th track syndrome" which can dominate rock radio at this time of year.... Our main man, Buster Poindexter's got a thang happenin' on both coasts. Lots of major market penetration (he'd like the sound of that). The Big Apple, Philly, Boston, DC, SF and LA have all literally joined the party.... This week, great new stuff from Strangeways, who've given us a tuff, nail-on-the-head rocker, "Dance With Somebody".... Also, check out Pierce Turner's haunting "Wicklow Hills," produced by Phillip Glass. And get ready for the first week of December, because that's when we unleash The Eurythmics' scorcher, "I Need A Man". There's just one thing Annie's lookin' for, "and he don't wear no dress." Hello?

**Rich Flamingo, KCRK, Cedar Creek**

Just like everybody else I'd like to rave about the U2 show that rolled through last weekend. Instead of raving about how wonderful U2 was (and they were) I'd rather talk about how great the Pretenders sounded! Johnny Marr was terrific. That man

plays a mean guitar and it's nice to hear him cut loose a bit instead of playing the laid back music he's been making with the Smiths. The audience really knew who he was and gave him a warm reception.... The BoDeans were also great. They opened the show and I caught them the next night at a club in San Francisco. They are, without a doubt, a band with a future. We're three tracks deep with "Only Love", "Take It Tomorrow" and "Say About Love". Does anyone out there besides me notice a resemblance between Sammy BoDean and Oz Medina?... What the hell is happening in Philadelphia anyway?

**Ivar Hamilton, CFNY, Toronto**

If you're planning on seeing the Jesus And Mary Chain on their current tour, do yourself a favor and stay home. They are awful on stage. Having replaced their drummer with someone called Roland or Korg was a big mistake. Half of the songs stopped 30 seconds in and the band had to start two or three times over. There was no audience contact and vocalist Jim Reid had fun smashing beer bottles and threatening the unfortunates down in front. It all came to a head when the microphone stand allegedly smacked two or three punters in the head. Jim Reid was taken away in a police car and charged with two counts of assault. He also spent the night in a Toronto jail and will be back in court in February. They may be able to get away with this shit in England, but not in North America. Put your music and showmanship first boys, not your ego and your uncontrollable behavior. If you think that people didn't like you, then learn how to play your instruments and program your drum machine. By the way, the Bolshoi blew JMC right out of the RPM Club!... We have been busy compiling the most requested songs over the last year and it culminated this past week with the 200 Most Requested songs play-back on November 14th. Don (I've got a fast new car) Berns played back the last top 20. They were as follows: 1 - Depeche Mode "Strangelove"; 2 - Violent Femmes "Add It Up"; 3 - XTC "Dear God"; 4 - New Order "Bizarre Love Triangle"; 5 - Ministry "Everyday Is Halloween"; 6 - The Smiths "How Soon Is Now"; 7 - R.E.M. "Superman"; 8 - Man Two Man Meets Man Parrish "Male Stripper"; 9 - Bauhaus "Bela Lugosi's Dead"; 10 - Flesh For Lulu "I Go Crazy"; 11 - Joe Strummer "Love Kills"; 12 - Skinny Puppy "Dig It"; 13 - Endgames "First Last For Everything"; 14 - Modern English "I Melt With You"; 15 The Cult "Love Removal Machine"; 16 - Pet Shop Boys "It's A Sin"; 17 - New Order "True Faith"; 18 - Age Of Chance "Kiss"; 19 - Depeche Mode "A Question Of Lust"; 20 - Alphaville "Forever Young".... After pleading for service last week and finally getting it, I have to say I'm as excited about the Buster Poindexter album as I was when I first heard Joe Jackson's "Jumping Jive". "Good morning Judge" is the unanimous CFNY pick.... Thanks to Upside Records for hooking me up with Elliot Easton of the Cars and Jeffrey Hatcher this past week.... Thanks to Iva Davies of Icehouse, Nick of The Bolshoi and Dave Stewart of the Eurythmics for the interviews. Listening to the Eurythmics' "I Need A Man" has got me convinced that Annie Lennox is the new Aretha Franklin. This record just steams!

**Howard Glassman, WEQX, Manchester, VT**

Love And Rockets goes from out of the blue to heavy this week. Will "No New Tale" break them in a big way? Would be nice, wouldn't it?... Ry Cooder is a super-charged, axe wielding, low-down, nitroglycerin MOFO!... So Vic, does this mean I don't get to hang out in Washington and wear a black robe?

**Redbeard, KTXQ, Dallas**

This is the first breath we've been able to take since about March or April, and this is the first time that we could do what I love to do -- and that is to take a couple of shots, 'cause it's been automatic city for so long. In that regard, we added Bangles

"Hazy Shade" and Love & Rockets "No New Tale". I believe that Paul Simon's acoustic guitar riff from "Hazy Shade" has been begging for an electric guitar treatment for 21 years and the Bangles have done a great a job on it.... Love & Rockets is probably outselling 30% of the songs that I've playing in a medium rotation already and has been since its release.

### **Carter Alan, WBCN, Boston**

I knew that there would be a fourth U2 single, because Bono's face hadn't been used yet on any of the 7" sleeves. "In God's Country" is a great choice, but we'll miss those unreleased B sides this time out.... The Flesh for Lulu track is working well for us, "Postcards from Paradise" shows definite promise. That tune as well as "Siamese Twist" reminds me of "Spiders From Mars" rave ups.... I'm still buzzing from last night's Roger Waters show, the last of the tour. Roger said he's hoping to put out another record next year and also tour. Paul Carrack mentioned he'll be doing his own tour, now that his responsibilities with Waters are over. Thanks to Jerry Blair at Chrysalis for bringing Carrack over to 'BCN to chat.... Once Paul left, Alice Cooper and his entourage showed up for an interview with Marc Parenteau. A lucky listener and guest won the chance to have dinner with Alice, Oedipus and Marc.... And last but not least, Ron Wood was in town and stopped by the station to chat about his book, "Tour with Bo Diddley, the Faces and the Stones".... Also thanks to Squeeze for dropping by and congrats to them for their first big hit.

### **Ted Edwards, KGB, San Diego**

**It's not that often that I miss something and I was amazed that a song this good could have gone unnoticed until Pam brought "Wait" to my attention in the music meeting. We're really stoked to be on the ground floor of what looks to be a big success story!**

## **White Lion's "Wait"**

### **Kelli Cluque, KCAL, San Bernadino**

Thanks to Bernie Kilpatrick at IRS for the nice time at both REM shows in southern California this past weekend. They were fantastic. Tell ya one thing about this band, don't go and see them and expect them to do all their biggest hits or all your favorite songs; they'll surprise you every time.

### **Jack Green, KLPX, Tucson**

The Aerosmith legacy continues. This is the best these guys have sounded in years and "Hangman's Jury" proves that Aerosmith is a force to be reckoned with AGAIN!... Imagine my surprise on hearing The Bangles "Hazy Shade Of Winter". Yeah, I was a little concerned with the image thing but hey, it's a great record. So we'll give it a shot and see what happens.... Bourgeois Tagg's "I Don't Mind At All" is receiving strong audience response. It's the only track we increased rotation this week and destined for the top 10!

### **Greg Mull, WRXK, Ft. Myers**

Leave it to the Broadcasters to spread the word. Check out "Down In the Trenches". It's hot rock and roll that keeps the sound fresh, even with all the heavyweight product.... Love and Rockets' "No New Tale" is really something special. I believe this band is going to break big real soon. Even in south Florida, the record is selling extremely well. They have a following that rivals many superstars. Nationally, the album is nearing gold with little commercial airplay! Sort of sounds like the U2 story, doesn't it? Better play this one now!

### **Inessa York, KGON, Portland**

The minute we heard "Rain In The Summertime" by The Alarm we felt that this was the strongest Lp they've done and a move to heavy really solidifies our commitment. We're confident that the Alarm will perform with our format giants!

### **John Loscalzo, WRCN, Long Island**

Aztec Camera's "Love" is a testament to Roddy Frames talent as a songwriter. Don't pass it up!... Not for anything but that Soup Dragons Lp is great.... Major big time phones in retail on INXS. Michael, buy a shirt!... Squeeze was monumental at Madison Square Garden. Thanks, Chuck!... Also we sent some listeners backstage with Jethro Tull at Nassau Coliseum. Many thanks to Mark Diller. Oh, Miss Brooks, great to hear you're all relaxed tan and nice after yet another getaway. Miss you too!... Order your new WRCN Morning Show T-shirt not -- before it's too late.

### **Catfish, WHMD, Hammond**

What can I say? Sales are too good to ignore Love and Rockets. "No New Tale" is a retail success story.... Thank you George Harrison for "Gossip". The "Devil's Radio"; Are you broadcasters?... REM, REM, REM-arkable!... Guadalcanal Diary is an alternative record that is selling well; top 40 retail.... Billy Idol and 'HMD are automatics together. "Hot" is a hot choice in this city; I just wish we could get one of those personalized versions from so long ago.... Moved up Heart 'cause we've got a heart-on for Ann and Nancy. "Girl" is an evident track; evidently people want to hear this.... And Yes' "Rhythm of Love" goes up. Just adds great retail support for a very successful Lp.

### **Virgil Thompson, WIXV, Savannah**

This past week much activity at I95. Many people to thank. Thursday, Guns N' Roses co-hosted Metal Shop with Ron Simmons. A good time and hardly any expletives went over the air. Thanks to George Capellini and all of Geffen for arranging the event.... Friday afternoon was a very busy time as Mojo Nixon stopped by and ad-libbed with Bill Weston. Mojo is insanely funny and was great on the air. Thanks to Bart from Enigma and Al Moss for arranging things.... As soon as Mojo finished, Motley Crue was in for a pre-concert interview. Thanks to Jeff Cook and Jim Davenport from Elektra for bringing the band by the station.... On Sunday, the I95 airstaff along with station winners hit the high seas in search of the "Law Of The Fish". Thanks to CBS' Don Miller for a great promotion highlighting the new Radiators' CD. The seas were a little rough but we all lived. The Radiators' "Like Dreamers Do" continues to be a top request item.... And a huge thanks to all of the labels for the giveaway CDs we've been receiving. We love them and we do remember who you are. Keep 'em rolling in. These giveaways take us one step further as imaging ourselves as Savannah's compact disc station. While the other stations give away archaic vinyl 45's and Lp's, we're handing out digital audio.... I'm on vacation next week so ask for Bill if you call.

**Rik Elliot, WRQK, Canton**

Listen to "Hell's Half Acre" from Robbie Robertson. Robbie has come up with one of the best Lp of the year.... Aerosmith is still getting solid support from the phones and they're selling lots of records and concert tickets around here.... Not much else to mention except: Go Browns!

**Jim Steel, WIOT, Toledo**

To all my reps, thanks for tolerating my extremely hectic schedule lately. I know it seems as though I've been invisible but I guess that's what happens when one goes through the Selector System.... On the subject of Selector, Keith and I would like to commend Greg Gillespie for his diligent work ethic. The door is always open to come home.... Within the past week or so, I've been wondering if my ears are rusty or what the deal is. But I can't understand why I waited on the Dave Mason tune. It's the sweetest sounding song on our playlist.... Looking back on '87 there have been some very impressive CD's from new artists; Jimmy Davis, the Cutting Crew, the Brandos and the list goes on. But none have had quite the impact of the Richard Marx release. "Have Mercy" is another track that will firmly establish him as the leading candidate for Rookie of the Year honors.... Moved up the INXS this week. I was hesitant at first with this record; much like the computer, I was scared of how it would work. But after getting over the fear came the realization that yes, there is an extremely large audience for this band. After a number of times this song sounds soulful, not funky. It's just one of 12 tracks from that record.... When it comes to Great White's "Save Your Love", Rick Van Gil at WLNZ said it best, "Here's a band to be reckoned with."

**David Allen Ross, KMJX, Little Rock**

I would like to wish Jeff Cook of Elektra best of luck in New York; don't ride the subways.... We're getting excited here in Little Rock. November 27th, we've got Whitesnake and Great White at Barton Coliseum and it should be a hot show. Looking forward to seeing Mark at Geffen and the Hawk, Jeff Blalock of Capitol.... We have been a believer in Great White since "Face The Day". We are the only station in town playing Great White and the record is flying out of the stores. They're great gutsy rhythm and blues based hard rock band very reminiscent of Zeppelin.

**Curt Cartier, KEZE, Spokane**

We're doing great with the Radiators' "Doctor Doctor". It's that incredible slide guitar; that white boy blues sound that makes this a dynamic upper demo tune.... Added the latest from Great White. "Save Your Love" reminds me of some of the great Scorpion ballads. The Scorps haven't had an album out in a while and Great White has picked up where these guys left off.... Also went with Robbie Robertson's "Sweet Fire" with Bono. It's a great song from a greater album; could be the best of the year.... And we added the Whitesnake, "Give Me" which is a great mainstream rocker from the Lp that's still selling top 5 in this town. We're now four cuts deep on this one and they just keep on comin'.

**Lorraine Rapp, WAQX, Syracuse**

I love Peter Himmelman's "Waning Moon". It has a beautiful melody and will surely do well 25 + . Check out the album cover. He did it himself.... Another new band we're going with this week is White Lion. The "Wait" video is on MTV and this pretty boy band seems to have the goods. We're expecting top phones.... Although we didn't report Billy Thorpe as an add, we've been playing "Children" since it came out the first time and it remains to date a top request.... From Simon: It was great to meet Peter

Himmelman this past week. It was also good to see Bruce Moser and Andy Allen. "Waning Moon" is an add this week that we feel will do well.

**Curt Gary, DC101, Washington**

It's one of the best covers of 1987, but I am having a little bit of difficulty playing "Hazy Shade of Winter", however it is 72 degrees in November. I'm sure the weatherman will catch up with the band sooner or later.

**Jack Mitchell, WIBA, Madison**

The Joe Cocker record is hot, hot, hot and I especially like the little bass run in the middle of the song. This is one song that you don't have to have a good voice to sing along with, and I don't, but I do. Top 5 phones on this one.... It's about time emphasis has turned to Fleetwood Mac's "Everywhere". What a great track.... And we moved up the Bourgeois Tagg. We've been gettin' calls asking if that is the new George Harrison. The cut is certainly performing even though introing/front selling is a must.

**Mike Scott, WRIK, Paducah**

Congrats to REM making the Rolling Stone cover as the true all American band. Saw REM at the Fox Theatre in St. Louis and it was a very intense show. Thanks Lori Blumenthal for helping us out.... The TSOL song "All Along The Watchtower" is a scream and is doing very well; heavy phones right away.... Tom Caufield is a great song; sounds really good with just the right hooks to it.

**Slats, WHTQ, Orlando**

Count us in on the Bangles. Saying that AOR can't play certain artists because of; A) Their previous reputation, B) They're all girls, C) It's not on my consultant's worklist, doesn't float. You don't have to be a record hero to play this one.... Same goes for Love & Rockets. I don't see CHR running to the bank for this one. We think this has potential.... Finally, I want Morton Downey, Jr. to negotiate my next contract.

**Steve Hoover, KMBY, Monterey**

We are seeing a gratifying build in retail and response to our airplay of Love & Rockets. The song is working very well here. Not being a real fan of covers, I was surprised at how much I like Michael Bolton's "Dock Of The Bay". We tested it at night and got an 80% positive rating.... "Trust Me" from Squeeze is a must play follow up to "Hourglass". It has more guitars and a better hook. This is the case of a definitely stronger follow up.

**Vern Argo, KZOQ, Missoula**

Michael Bolton has recorded a great version of the Otis Redding classic, "Sittin' On The Dock Of The Bay". This song is one of those rare covers that works on its own.... Love & Rockets are beginning to take hold in the market. Record stores are selling the album well and we are seeing some phone response also. We are glad to see this record take off.... After a good lead track like "Hourglass" what could be better than a follow up as hot as "Trust Me". Squeeze is a band that is back and sounding better than ever.

**Ron Marsh, WKWQ, Columbia**

Flesh for Lulu really reaches out and grabs you by the throat. I had four people in the studio when I played it and bet them each a buck that they'd like it. Well, I'm now four bucks richer and we've got another great record on the air.... Omar and the Howlers have really tested well here and we look forward to going with the "Border Girl" track to refamiliarize them with the

audience.... I also really like the Zeppish bluesy feel of Great White's "Save Your Love". This record is a perfect piece of tempo shift that keeps the guitars up front.

**Karen Hewko, CFOX, Vancouver**

U2 goes into heavy on the heels of their local performance to a crowd of 57,000. It was a wonderful show. The BoDeans and Los Lobos opened and were very well received. We are still playing "Hourglass" by Squeeze but we look forward to a good run with "Trust Me" as well. The sales are great in the market and the audience is very supportive on the phones.... We already played Omar and The Howlers "Border Girl" last summer. It is undoubtedly the best single on the album.... Michael Bolton's cover of "Dock Of The Bay" sounds real good to us also. The song is timeless.

**Bill Evans, KTAO, Taos**

When I first moved to this valley, the locals introduced me to a south African band by the name of Juluka. A fresh approach with great energy, that band is no more. However, their leader Johnny Clegg has put a new band together named Savuka on Capitol. This deserves your attention. Not only will it enable you to play off the Paul Simon "Graceland" sound, which, by the way, Juluka predated, but this is downright hit material. Check out "Great Heart"; it can't miss. Happy Thanksgiving!

**Paul Marszalek, WMAD, Madison**

Thanks to Louis Heidemeier at Elektra and Guadalcanal Diary for making the first WMAD Budget Show a major success. Nearly 900 people squeezed in to be treated to an excellent time. Attention record guys and gals: Keep us in mind for similar promotions.... A message to Matt Pollack: The chips are on their way from New Orleans.

**Erin Riley, WMMR, Philadelphia**

Well, I promised you a report on the Aerosmith show. It was stupendous. It really made me realize how much other bands have borrowed from Steven Tyler, but he remains the king. You should have seen him around backstage introducing himself to all the Spectrum security people and the caterers. He was in such high spirits and it really came across in the show. Great song selection, too. Many thanks to Don Maggi for organizing everything and getting Steven and Joe on the air, and to the Collins Management people for being so on top of things.... This is the week our morning show does its annual broadcast from Capitol Radio in London. DeBella and Shark are taking Europe by storm. Some fascinating interviews from Peter Gabriel, Mark Knopfler, Rick Wakeman, Dave Edmunds, the Alarm and tons of others.... The more I listen to the Springsteen record, the more I can't. Maybe if you've listened enough, you'll know what I mean.

**Pam Brooks, WPDH, Poughkeepsie**

We're squeezing out every drop of sand from the "Hourglass". "Babylon And On" is selling extremely well and the phones are constant on this one so it moves up to power. This band has given me hours of listening delight so I'm tickled at the super response and looking forward to continuing the saga with "Trust Me".... What an album, what a show, what talent. There's the key. Ian Anderson and company have tremendous wit and talent. And therein lies the staying power. Okay, sometimes a bit off the beaten path but their following remains constant and "Crest Of A Knave" proves how wonderful and lasting Jethro Tull is. They soldout the Mid-Hudson Civic Center, turning away thousands more who would've loved the show and gave those in attendance a joyous romp through vintage tracks as well as

the exciting new stuff. Much thanks to Chrysalis' Mark Diller for the interview, backstage listener party and all around good time. Go see Tull and you'll find that Linda Evans isn't the only one to prove that life that goes on beyond 40.... There's lots of great reasons to be playing Paul Carrack's "Don't Shed A Tear" but the best is it's a hit. So much wonderfulness is crammed onto this album that I can barely get it out of my cassette deck. My future faves are the title track and also "Button Off My Shirt".... The Rainmakers' "Snakedance" is a happening tune that happily is now happening here. The stormy vocals make this a real standout song that rages on the airwaves and is guaranteed to perk up a lot of ears.

**Fred Leemhuis, KGRQ, Casper**

Hooters' "Karla With A K" is the strongest track on the Lp. We went with it first. The listener response was stronger on this track than "Johnny B" and "Satellite" combined. The only person I've asked who doesn't like it is my girlfriend but she's a Carla with a "C" so she's jealous. Seriously, check it out, your phones will light up like a Christmas tree. And we need to get in the mood for Christmas!... Also Bryan Ferry and Martha Davis are both shaping up very nicely. More stations should let the audience decide on these tracks; they work.

**Scott Murray, KVRE, Santa Rosa**

I'm very disappointed in the lack of support for Van Morrison's new album. In this time of "upper demographics" and "baby boomer" awareness, it seems to me that Van's new album is perfect. Great writing, wonderful musicianship and production and obviously a name that's very familiar to anyone over 25 or 30. Yet radio seems to be ignoring this record and I must admit PolyGram hasn't done much to support it either. How come? Anyone in album radio that can get a hold of this album, should sit down and listen to it because it works. We've been playing it heavy since it came out and we are getting excellent phone response and sales.

**Duane Doherty, WKLC, Charleston**

Brian Krysz and Duane Doherty exit WKLC and shuffle off to Buffalo to put some new blood into WBYS as PD and Assistant PD/MD respectively.

**Jody Peterson, WNCS, Montpelier**

The new Cheryl Wheeler rockets to #3 on our chart the first week out. After Jennifer Warnes and Wendy Waldman, it's clear the Cypress label is on to something. Cheryl's success here is due to more than just the decision to add the record.... Rotations are not predetermined by the PD and MD at NCS. It's DJ's choice. From week to week, our core airstaff and part-timers select what they will and we count up the plays on the new Lps to arrive at the week's Top 50. We're very fortunate to have worked together for so long now that taking responsibility to stretch for the lesser knowns as well as popular artists is a given. There are some fluctuations but the cream of the crop naturally rises to the top. The richer the cream the longer it stays. Some might call us prejudiced when they see Robbie Robertson, BoDeans, Eastern Bloc, Cheryl Wheeler, Ry Cooder, INXS, etc. right up there week after week. Some might not understand why a record goes from heavy to light in two weeks' time. Basically, we listen to the music, to each other, to the feedback from our audience, and to what the nation is doing. Granted, it's a fairly unconventional system for radio that wouldn't work for everyone but after 10 years it still works for us.

**Mike Boyle, WDHA, Dover**

Thanks to Lisa Frank at Elektra for bringing Dokken out for a studio visit and thanks to Tom Hamilton of Aerosmith for the phoner. Both camps on this tour deserve a round of applause for doing their homework and taking care of business.... It was a real thrill to see Sting at New York City's "Ritz" last Sunday. Will I ever see him in such close quarters again -- I doubt it! What a great idea and fantastic show. Thanks to everybody at A&M.... P.S. CD singles are great, but how about following through with the whole CD when available?... Top 5 sales this week: Whitesnake, Sting, George Harrison, Bruce Springsteen tied with Pink Floyd, and at #5 INXS.

**Ed Trunk, Megaforce, 201-254-6533**

M.O.D. continues to make big progress this week. U.S.A. for M.O.D. goes to 173 in Billboard and is the #2 best selling indie release this week. M.O.D. starts a headline tour of Europe in December and will start in America early next year.... The buzz on the new Anthrax Ep is tremendous! "I'm The Man" will be huge and finally radio has a censored version for airplay. This record will cross Anthrax over to a new market. The band has just returned from a European tour that was a complete sell out! Anthrax is now preparing to headline in America for the month of December. "Among The Living" has been on Billboard's Top 200 for 33 weeks and sales are consistent.... Frehley's Comet have finished touring with Alice Cooper and will begin writing for their next studio album. The Frehley's Comet Ep is due out in January. Ace may also play some US headline dates in December.... Personal thanks this week to Richard Sanders and Loud And Proud Management for the "Dream Weekend" with White Lion. The band is currently supporting Kiss on the road and I was lucky enough to see the second and third shows of the tour. It was truly great to see two of my favorite bands on the same bill. White Lion is going down better than any band I have ever seen open for Kiss. Why they're not all over AOR radio with a great album like "Pride" is beyond me! Regardless, White Lion will be a supergroup!... P.S. Kiss was great as always. Thanks again to Richard, George and Mike Parente and White Lion.

**Jamey Karr, KACV, Amarillo**

The Elektra Sisters are showing KACV no mercy as "This Corrosion" comes in at #1 on the phones.... From the stranger than truth department, "Preacherman" from Fields of the Nephilim is for real.... The Broadcasters are going to find the same audience that The Brandos did. Can't wait for the phones to start up on this one.

**Brian Illes, WKFM, Syracuse**

The promotional rep world tour through Syracuse continues. Good to see Andy Allen and Bruce Moser bringing Peter Himmelman by for a chat. Other visitors over the last few weeks have included Dave Bouchard from Epic, Pat Rascona from Polygram and the dynamic duo from A&M Craig Lambert and Chuck Bliziotis. Great to see all these smiling faces and thanks for all the lunches.... Just a reminder to everyone about the turkey week schedule. Our office will be closed Thursday and Friday so no music calls next week.

**Mark Zeiger, KDXR, Amarillo**

KDXR's slogan is "Texas Style Rock And Roll" so you can bet we play A LOT of ZZ Top. We were overjoyed by the taste of the six pack - our favorite early ZZ Top on CD! We poor boys have died and gone to heaven.... I'd like to extend a warm welcome to Sandy Scott, our new afternoon driver, from Fayetteville, Arkansas. I don't know who loves her more, the staff or the

audience. We may have to open up a private line to the studio to accommodate all those love sick guys.... Speaking of sick, we're ashamed of the way Amarillo treated The Textones during their visit. We can't figure out why they couldn't start their show until 11:30 pm on a weeknight. My morning co-host and I showed up at 8 o'clock ready for a great show, but we couldn't catch their show and still make our own in the morning. We're still angry about it. Hope we get another chance to see this great band soon.

**Joe Blood, KEZO, Omaha**

Guess you could call this week a return to the secondary tracks as we move further in depth on the Springsteen album with "Spare Parts", Pink Floyd's "On The Turning Away" which is rather deceptive as it starts out slow and builds up to a great Gilmour guitar solo at the end, Aerosmith with "Hangman's Jury", nice to hear them again working closer to their roots.... We made the move this week with George Harrison's "Devil's Radio" as well as Yes' "Shoot High, Aim Low".... The Radiators is starting to happen with phones and additional sales.... REM's "Document has re-surfaced with our add on "Finest Work Song".... Going with INXS' "Devil Inside" last week has brought more awareness to the project. They've always had a strong following in Omaha and the Lp debuts strong at retail.... The big guns in retail are Rush, Springsteen, Pink Floyd, George Harrison and Aerosmith with Dokken, The Rainmakers and The Alarm also doing well.

**John Cooper, WPYX, Albany**

Otis Redding must be shaking in his grave. "Dock Of The Bay" is one of those songs that no one should cover because it could never be done as well as the original.... It's about time U2 released "In God's Country". I'm sure it will help sell a few million more copies of the album and that should keep Bono's supply of spray paint in good shape.... Whitesnake's Lp continues to sell, sell, sell in Albany and "Give Me All Your Love" won't slow it down for a moment.... Thanks to Ian Anderson, Alice Cooper and Rush for the great interviews last week.... This week we've got John Entwistle, Pete Best and Tower Of Power to look forward to. When you're hot.... Lisa Walker, our promotion coordinator by day and the high priestess of metal once a week at night, is screaming for better metal service especially from the major labels. Call her 518-785-9061.

**Stacy Yelton, WKQQ, Lexington**

I took a trip to Springfield, Ohio to see INXS, what a show! A great atmosphere in an old small hot fieldhouse on the campus of Whittenberg. Thanks to Bill Heltemes for getting me there and for introducing me to Bulldog. In Huntington it was a chihuahua, but in Springfield it's bulldogs. Does this guy know his dog beers or what? Also, I must congratulate John Bealieu on his proficiency with a remote control.... The Insiders' "Love Like Candy" is now in power where it belongs; the response has been amazing.

**Al Nassar, WCKW, New Orleans**

We've been rolling our feature album weeks, an album per week and some of the past albums have included Joe Cocker, Sting, George Harrison. This week is Supertramp, one or two tracks per air-shift throughout the day through the week. We're getting good response from the audience.

**Jennifer Gipe, WWTR, Ocean City**

"Painted Moon" was good, but after hearing "I See Red", I see lots of green coming to The Silencers. That song has all the elements of what a good tune should be.... It's nice to see that the

stations that have been holding out on Love and Rockets are finally getting on.... After hearing The Screaming Blue Messiahs, I want to be a "Flintstone", too. I'd go as far as Bedrock to see this band.

**Mark Williams, WWZU, Williamsport**

The Radiator's are kicking ass around here and they have been since we started. We're getting heavy duty phones (#2 this week), heavy males and females 21-38. As far as reaction goes, every time "Like Dreamers Do" gets played on the radio the disc jockeys can always expect at least one call from a listener asking, "Who the hell is this band? This is great".... The Brandos' "Gettysburg" is readded to power this week and the phones are top 5. It's probably the most reacting track that we are playing this week. The Brandos got what it takes.... Kiss' "Reason To Live" moves to heavy with top 10 sales and great phones.... See Bourgeois Tagg live if you can.

**Wendy Steele, WLVQ, Columbus**

Well, I finally got to meet the happening Jim Del Balzo of Columbia -- what a thrill. Thanks to Jim and Sandy Thompson of Columbia for the fine hospitality. We had just one lovely dinner and then it was off to see Dan Fogelberg. Thanks to Shelly Mori of Epic for the tickets and the chance to meet Dan. I'm an old fan.... How 'bout that Kiss song! It sounds like a tune that I can't pinpoint yet, but it will come to me. It sounds very good on the radio.

**Stephen Page, KOME, San Jose**

This week I want to jump on my pedestal and preach and tell you about a song we've been playing for a couple of weeks. This song has everything the listener desires. It has a great back beat, puts a smile on the listener's face and has a dynamic horn section. Course I'm talking about Tom Caufield's "Precious Town". This song is not about to be overlooked and in the rush of the holidays you just might do that. I'm here to tell you not to overlook this song. I'm here to tell you to play this song on the radio. Even though we've only been on "Precious Town" for two weeks, the listeners are interested, the curiosity calls are numerous. In this day of guitar riffs and blasting bass lines, this song is a very pleasant change of pace and it will make everybody in the office get up and dance. All I'm asking is that you listen to it, give it a shot, use your judgment and if you miss out, it won't be because I didn't tell you. Be seeing you!

**John Lassman, KQRS, Minneapolis**

October Arbitrend Monthly: KQRS 10.1; KTCZ 3.9; KJJO 3.4. Sure is nice to be back in double digits again.... Good luck to KJJO's Dan "The Mad" Hatter who's now available.

**Kelly Cruise, WEGR, Memphis**

It was a madhouse last night in the Peabody Hotel Skyway Room. Ron Wood was in town promoting his artwork (which is really good, by the way) and he decided to jam a bit while he was here. Newly established Memphian Joe Walsh got in touch with him and the two played together with a local band called The Coolers (with "Duck" Dunn on bass). When they played "Honky Tonk Women", the crowd went wild! What a night! Ron's artwork will be on display at the Steven Hudson Gallery through December 15th.... Richard Marx played here last Tuesday night with REO Speedwagon. Both were excellent, but seeing Richard play for the first time -- I was really impressed! Not only is he a fabulous singer, but his band is killer (including Jason Walton - I can't remember his real name of The Walton's TV series on guitar - for real!).... Very special thanks to Scott Borchetta and

MTM Records for a wonderful and relaxing time in Acapulco as the HEGE V contest winner.

**Cyndee Maxwell, KWHL, Anchorage**

First of all, attention all record and promotion people: new hours that I'll be taking call are Tuesday and Thursday afternoons from 2:30 - 5:00 (Alaska time) effective immediately. On behalf of our new receptionist Debbie and myself, we appreciate your adherence to the hours.... Secondly, I should have been a fortune teller! True to my prediction, Dokken burst on the retail scene hot and heavy; #1 to be exact. The Last Frontier loves its rock. We're going deep on this album with "Kiss Of Death" for those rock and roll animals. Grrrrrr!

**Dr. Metal, WHJY, Providence**

The Dokken album definitely smokes; all thirteen tracks are surprisingly cohesive, in that it was arranged and recorded in different places. This should bring them into the upper echelons of the heavy metal kingdom. Definitely a class act.... White Lion is one of the best kept secrets in rock and roll. The more their album "Pride" gets played the more it gets requested and it's beginning to really snowball. I think this band is headed for stardom. Strong tracks like "Wait", "Lady Of The Valley" and "Hungry" are just a few examples of what this group can do. They play with a lot of passion.... We're looking forward to seeing Lizzy Borden on November 30th. "Visual Lies" is his strongest effort yet and the most commercially accessible. The lyrics are definitely more relatable to real events rather than killing and pillaging. They've expanded the lyrics to more meaningful topics. It's a very diverse Lp. "Eyes Of A Stranger" is getting lots of airplay and heavy requests.... Di'Anno's "Children Of Madness" is another great record. The production on this album is a step up from the last one. It's superior to anything he's ever put out, even with Maiden. Paul Di'Anno is back! A great record; I love it! "Loaded" and "Metal Tears" send shivers up my spine.

**Jeff Ivan, KFMX, Lubbock**

My thanks to Vito Bratta and Mike Tramp of White Lion for taking the time out to give us a call the other day for a killer interview. By the time you read, this they will have already destroyed Lubbock. I can't wait to be annihilated.... That new Dokken album is so hot that it debuted at #1 in local sales this week, and record stores were reporting that kids were waiting in line for the UPS truck to show up. A couple stores just opened up the boxes and sold out in a matter of minutes.

**Rich Scroggs, WWVU, Morgantown**

Contrary to popular opinion, British metal is not dead. If you need any proof of this, consult any of the following new albums: Sacrilege, Death Wish or the Onslaught 12". Let us hope that this is the beginning of a trend and not a flash in the pan.... The Sacred Reich album is excellent. Best debut metal album this year, and even better than Testament (sorry Megadon).... Finally, Exodus Is God. If it's too fast, you're too old.... Zoetrope is a very interesting album in that it switches off between speed metal and Megadeth gone hard-core. Not a wasted track on it, and I like the guest vocals by El Dueche from the Mentors.... Laaz Rokit has by far their best album at this point. It's melodic thrash similar to that of Heathen, but with even more guts.

**Anthony Alfonsi, WDV, Pittsburgh**

Bruce Springsteen's "One Step Up" is a song that people here at the station, besides myself, really like probably because they can relate to the lyrics. It's the obvious choice for the next one for us because of the in-station reaction.... Triumph's "Long

"Time Gone" is on its way to becoming the #1 phoner. It comes in at #2 this week.... Sting's "Little Wing" looks like it's gonna be a breakthrough record.... Thanks to Bobbi Silver of PolyGram for her great help with the John Cougar Mellencamp show. This is a show you should go out of your way to see.... Thanks to Van O of Chrysalis for his help with Icehouse and Jay Brooks for his help with The Cars.

**Dave Ross, KFMU, Steamboat/Vail**

The Cars "Double Trouble" goes in with much confidence here. A powerful, steady rhythm keeps the song going. It kind of has a haunting feeling to it, which makes it sound mysteriously great.... We're now on our fifth cut off the Cruzados "After Dark". The latest offering "Time For Waiting" is working great. It's bringing in steady requests and all demos seem to love it. It's one song that should not be missed.... Flesh For Lulu's "Postcards From Paradise" helps keep the flow of our music on the upbeat side. There really is no weak spot in this song. The vocals kind of remind me of Richard Butler and I think that's a plus.... That's it for now, from the world's only wind-powered radio station.

**Jessica Harley, WNGZ, Elmira**

The wait was definitely worth it. Exodus' "Pleasures Of The Flesh" is phenomenal. Everything you hoped for and much, much, much more. A must for every metal show. The title track and "Deranged" are getting killer response. "Pleasures Of The Flesh" is full of intense, bloodcurdling riffs and Fouza belts out some incredible vocals. This is thrash at its finest! So play it or die. Amen.

**Janet Getchell, KSLC, McMinnville**

Thanks to Lizzy Borden for the chat last Friday.... This December I'll be taking over Music Director duties for all KSLC programming. Even though I've proposed a new all-metal format, my PD is not thrilled with it, so we'll continue our alternative programming except for, of course, metal Saturdays. If anybody needs to contact me my hours are 12-1 Mon-Fri, Pacific time.

**Bob Lang, WBIM, Bridgewater**

I'm still anxiously chomping on the bit, waiting for the new Dokken Lp. I had a chance to see them put in a great performance as well as Aerosmith. Thanks to Shawn McCormick at Elektra.... Right now I can't wait to see Alice Cooper hang himself tonight, and I'm still really hot on his and Kane's albums. I want to thank Beth at Alive Management for the Kane Roberts interview.... I'm still anxiously awaiting feedback from my homeboys Jonesy, Megadon, the Waiter, and Fisher regarding last week's comments.

**Mad Max Hammer, Z-Rock Satellite**

Metal Onslaught's new release "Cease To Exist" is a total barnburner. It jumps right out of the speakers at you, takes you by the hair and slaps you silly. Metal Onslaught is the hottest up and coming band out today. The ultimate band. They take the bull by horns and punch your lights out, and the response is unreal.

**Patty Martin, KSJO, San Jose**

I was mighty impressed with the BoDeans as they entertained somewhere around 60,000 people opening for U2 and The Pretenders this weekend. They created a fan for life when they opened with the Ramones' "I Want To Be Sedated". I'd heard it was part of their repertoire. I just wish I could have caught their club appearance, but somebody has to hold down the rock and roll airship at night.... The coolest new band of the month is the

Broadcasters. I was hooked on the first listen.... The Tom Caufield record has some hot tunes on it, too. This is destined to be a smash.

**Larry "Duck" Dunn, WLIR, Long Island**

Jon Lydon was Donna Donna's guest on the air this past Friday afternoon. For ninety minutes Jon rambled on about "America", the new album, Sid and Nancy (he called the movie utter rubbish), the tour, the press, you name it the gospel according to Saint Rotten. Thanks to Paul Brown and Cledra White for one of the funniest interviews I've heard in along time.... This doesn't happen very often -- so how about this: INXS has #1 phones, #1 sales breakout, and is our #1 record in power. What more can you say?... Recently I was reading the latest issue of the Scott Tissue -- when this thought occurred to me: What ever happened to the concept of the infamous Jon Scott conference calls. True, Jon doesn't do that anymore but what a great idea. A record company picks up the tab for twenty music directors to get on the phone and talk music. Why do we have to wait for conventions? An honest, informal, noncommittal phone call between old and new friends. Any one have a bar tab?... Screamer Of The Week: The Bangles' "Hazy Shade Of Winter".

**Bryce Crousore, KQDS, Duluth**

First off, let met start by thanking Mike Keller and Chuck Poet for giving me the chance to prove myself. What a feeling -- Brown Institute and totally illiterate to radio in 1986 to Music Director of a medium market AOR in 1987. How easy. Let's just say I owe my radio career and this very rapid advance to Dave Hamilton and KQRS. This young, and I can say I've already been a part of the only two successful AORS in Minnesota.... Also thank you Bernadette Powers of Capitol and Great White. The tour with Whitesnake sold out in Duluth and what a party it was.

**Shelli B., WXRC, Charlotte**

White Lion didn't do well until people saw them live, then it blew up and started a local following. They came with Frehley's Comet and the live performance really impressed a LOT of people!

**Tom Smith, WGBW, Green Bay**

The new Exodus album should definitely push them up to the level of Metallica and Anthrax. It's one of the freshest metal albums of the year -- watch out or your flesh will be their pleasure. The two year wait appears not to have affected them at all.

**Trisha Griffith, KBER, Salt Lake City**

KBER is proud to be bringing into town, the wild man of comedy, Sam Kineson. He'll be here December 3rd, once again proving that KBER radio will dare to do anything.... Thank you to Geffen and Capitol Records for their help with the upcoming Whitesnake and Great White show. Many KBER listeners will be able to rock with the Bear at the show -- thanks again for your support.
