Foreigner, "Inside Information", Atlantic....

The fact that it took the single only two weeks to take the #1 Most Requested position should tell you how badly this band's been missed. Radio responds to that demand with this week's strongest play increase count--as 37 play-ups factor into a stringing 12-4* Hard Hundred surge, 112 heavy rotation reports deep. Yo mama. At the rate we've watched this track accelerate, expect equally fast phones on the Lp's obvious rock radio exclusive (for the time being, that is), "Heart Turn To Stone". Also consider killers "A Night to Remember" and the title track....

Record Of The Week

Michael Bolton, "Sittin' On The Dock Of The Bay", Columbia.... Before we get to those killer stats--how about this from none other than Zelma Redding, "Michael's is my all time favorite version of my husband's classic. His recent performance of the song on 'Showtime at the Apollo' brought tears to my eyes.... I am honored that he chose to record this song".... Hey, when Harve Alan says, "This baby is a killer and it takes nothing away from the original" he ain't lyin. We've got good early calls, too--with WKLS, KOME, WCCC, KOZZ and WDIZ all into top 5--with Rad Messick reporting "#1 phones for 8 days in a row. And Neil Schon and John Caine don't hurt the credibility of the song either".... New on 16 (including KSJO, KWHL, WLAV, WNEW, WSHE, KZEL; Now on 47); Up 80-60*, this week's third longest Hard Hundred gain....

NEW THIS WEEK**The Radiators, "Doctor, Doctor", Epic....**

As a huge fan of the Rads, I'm relieved that this excellent second track will be hitting the street with the traffic so relatively light. "Dreamers" demonstrated their ability to work both sides of the radio dial, and more than acquitted itself in terms of both industry and listener reaction--but if you've ever seen the band, "Doctor" is the real deal. There's more guitar, more punch in the vocal, and more of that comfortable Little Feat feel as only this band can do it. And, like I said, now there's plenty of room for you to roll this deserving double shot....

Steve Winwood, "Talking Back to The Night", WB.... Candidly, I'm glad to see CHR taking over on "Valerie" cause I prefer the cleaner sound of the original recording. It may be that I just heard the older version a million times, and it may just be that the newer dynamics were custom crafted for pop radio. At any rate, "Talking Back" is Steve at his hip, rhythmic best and delightfully obscure best--and as such should be treated to automatic airplay....

In House Hits For Happening Holiday Consideration**The Broadcasters, "Down In The Trenches", Enigma....**

The boys at BCN moved it to heavy after just two weeks--with Carter Alan testifying, "This is a great, up front rock and roll track for us, and we're very positive about it. Be sure to check out the rest of the album; it's one of the most varied in style of any album this year".... Alison Stewart also hears it, saying "They have a hook and a half, rocking along with nifty guitars. It sure gets you singing by the end and for the rest of the day. It should be big".... Now on 19, including WRCN, WDHA, KKDJ, WRXK, WBRU, WBCN, KTYD and KROQ....

The Brandos, "Honor Among Thieves", Relativity....

WNEW, KZAP, WRUF and WWRX come aboard this week, boosting the Brandos follow up 88-79*. It's currently on 30, with WFYV, KTYD, KRXQ, KMOD, WQFM, WLLZ, WLAV, WDHA, and WAQX front and center. You've only to see the show one time to become a fan for life--as noted by WPDH's Pam Brooks, "I've seen them twice and it was a very strong show. This album is a powerful first release and I'm hoping for room ASAP to get on the new track"....

Eurythmics, "I Need A Man", RCA.... First off, this exciting new single is anything but too slick--and we start on that note that's this format's typical excuse when it comes to this act. But this number is as rough and tumble as you could ask for, with plenty of rock radio bite. Hooks you could take for granite. Annie's vocal takes names and kicks total ass, Dave's guitar is nice and taut, and the team's writing represents the high point of their gutter/intellectual style. It's simply the roughest, toughest rocker by and for women that we've heard this year. And it might even be the grittiest white vocal since "Ball and Chain". It won't be easy, but we'll be surprised if this isn't their core rocking success to date....

Black Sabbath, "The Shining", WB....

Great. Rock radio finally evolves to the point where programmers are actively involved in picking the best metal to mainstream crossover songs--and Sabbath steps right into the Sun City controversy. Politics aside, this is clearly their best work since "Neon Knights", with Tony Iommi's playing noticeably more subdued and tasteful than ever, and those brain blotting pyrotechnics at a minimum. And while new vocalist Tony Martin doesn't sound at all like his dad Dean, he does bear a striking resemblance to Ronnie. Redrum!!....

Cry Before Dawn, "The Seed (That's Been Sown)", Epic....

The somewhat unusual combination of musical elements seems to be just a touch too quirky for some one listen American musical appetites. But we think a few listens will take care of that. The group recently played in Boston, and WBCN rolled out a little light airplay on "The Seed". Carter Alan reports they put on an "outstanding" performance--and went on to tell us "This track has developed from early light rotation into a major request item". Also on KZEL, WHTG, WKLT, WLAV, WLLZ, WRAS, WHFS, WRXK, and WWRX....

The Connells, "Over There", TVT....

KBCO's Doug Clifton comments, "Now is the time of the year that we have a chance to really get a close listen to the developing acts, and this is one of my favorites. Give it a couple of listens, especially the remix. I think you'll agree that it will sound great on your station".... From early believer Charlie Logan at WYNF, "A brilliant, innovative, intelligent album. We've been playing 'Scotty's Lament' and will go to the 'Over There' party this week too".... And when we're talking a new act with double track depth on WYNF, you know it's hot. Also new on WNEW, KPEZ, WKWQ, WNGZ, WTPA, KRQU and more....

Attention reporting stations!!

This reminder that we will publish two more reports in 1987--with a regular issue next week, and our Special Year End edition dated December 18th. Please be aware that we plan to take your regular airplay information and provide our usual charts and stats in addition to our various Polls and special features in the final sheet.

Love and Rockets, "No New Tale To Tell", Big Time/RCA.... Though the official Most Added rankings have L&R listed in the #5 slot with 23 stations--please note it's the highest ranking "new" song there. The 41-34* Hard Hundred move reflects that new add activity, along with six increases (KSJO, WRXK, KLBK, WFYV, WXRC), 16 heavy reports and 113 now playing. WBAB, WNDY, KBCO and WZEW lead with top 5 calls. KGON's Inessa York compares this stage of the band's commercial development to the Police in the period just before "Roxanne" broke--and we'd call that telling the tale like it is. KBPI's John Edwards told us, "We're getting a lot of actives and a lot of requests. In fact, it will show up at #8".... Between the solid and growing retail, an electric industry buzz--and the relative absence of new heavy hitter product, you'd have to look long and hard to find a higher potential new act....

Great White, "Save Your Love", Capitol.... Though, as KFMQ's Joe Skare notes, "It's not in the traditional Great White vein", this song is pulling strong early calls. Joe reports, "Surprising #3 phones, after really good response on our 'Rock Wars' program".... It's also a Top Fiver at KRQU, KISS, WHCN, KJOT and KMJX. #8 Most Added with 18 this week, with ups from WIMZ, KMJX, WKLT and WNGZ, and current play on 75. Up 55-48* on the Hard Hundred, thanks to medium or better action at the likes of KDKB, WQFM, KATT, KAZY, KBPI, KICT, KISS, KZEW, WAAF, WCCC, WFYV, WIOT, WKDF, WLAV, WLLZ, WRXK and WZZO....

The Royal Court of China, "It's All Changed", A&M.... A&M's Top ranked reserve in the Christmas countdown climbs back into the ring with 15 adds this week--including KMOD, WLAV, WLLZ, WQFM, KTYD, WAQX, WKLS and WMAD. KTYD's Russ Mottla told us, "We're always looking for songs to balance out our mainstream list, and to add some interesting sound to the station. This definitely has a rock feel, but it's guitar based and quirky enough to appeal to the active listeners".... Similar thoughts from WQFM's Downstairs Dan, "They've got a real interesting sound, kind of a twangy REM. The vocals sound kind of 60's poppish, kind of a neo-psychedelic thing. It sounds modern, yet it should appeal to upper demos".... New at 96*....

MSG, "Love Is Not A Game", Capitol.... 12 new believers put MSG's followup within an RCH of hitting the Hard Hundred--a debut we'll comfortably guarantee for our next report. It's already on at KISS, KILO, KRQR, KFMG, KMOD and KEZO. This is a track that many Schenker fans preferred from day one--with KJJO's J.J. Jeffries explaining, "I think it will get better response because it's just a more active type of song. Plus there are a lot more hooks and changes"....

White Lion, "Wait", Atlantic.... As we've been saying--it's to the point where the phone potential here can't be denied. This week's request roll call finds Top Five action at KBPI, KNAC, WQFM, KDJK, WAQX, WRIK and KFMX. And how about yet another whopper of an add week--with 19 stations placing at #7. Factor in ups from KBPI, WQFM, WAQX and WRIK, and you've got a serious plus 82-61* advance. WKWQ's Ron Marsh says, "An immediate attention grabber from the first line. The females are already reacting".... From KQWB's Ty

Banks, "We tested it on our Fresh Tracks program two weeks ago and it got immediate phones. All the elements to sound great on the air".... KDJK's Beaver Brown updates, "It has clawed its way to the #2 requested position. It's amazing the response we're getting"....

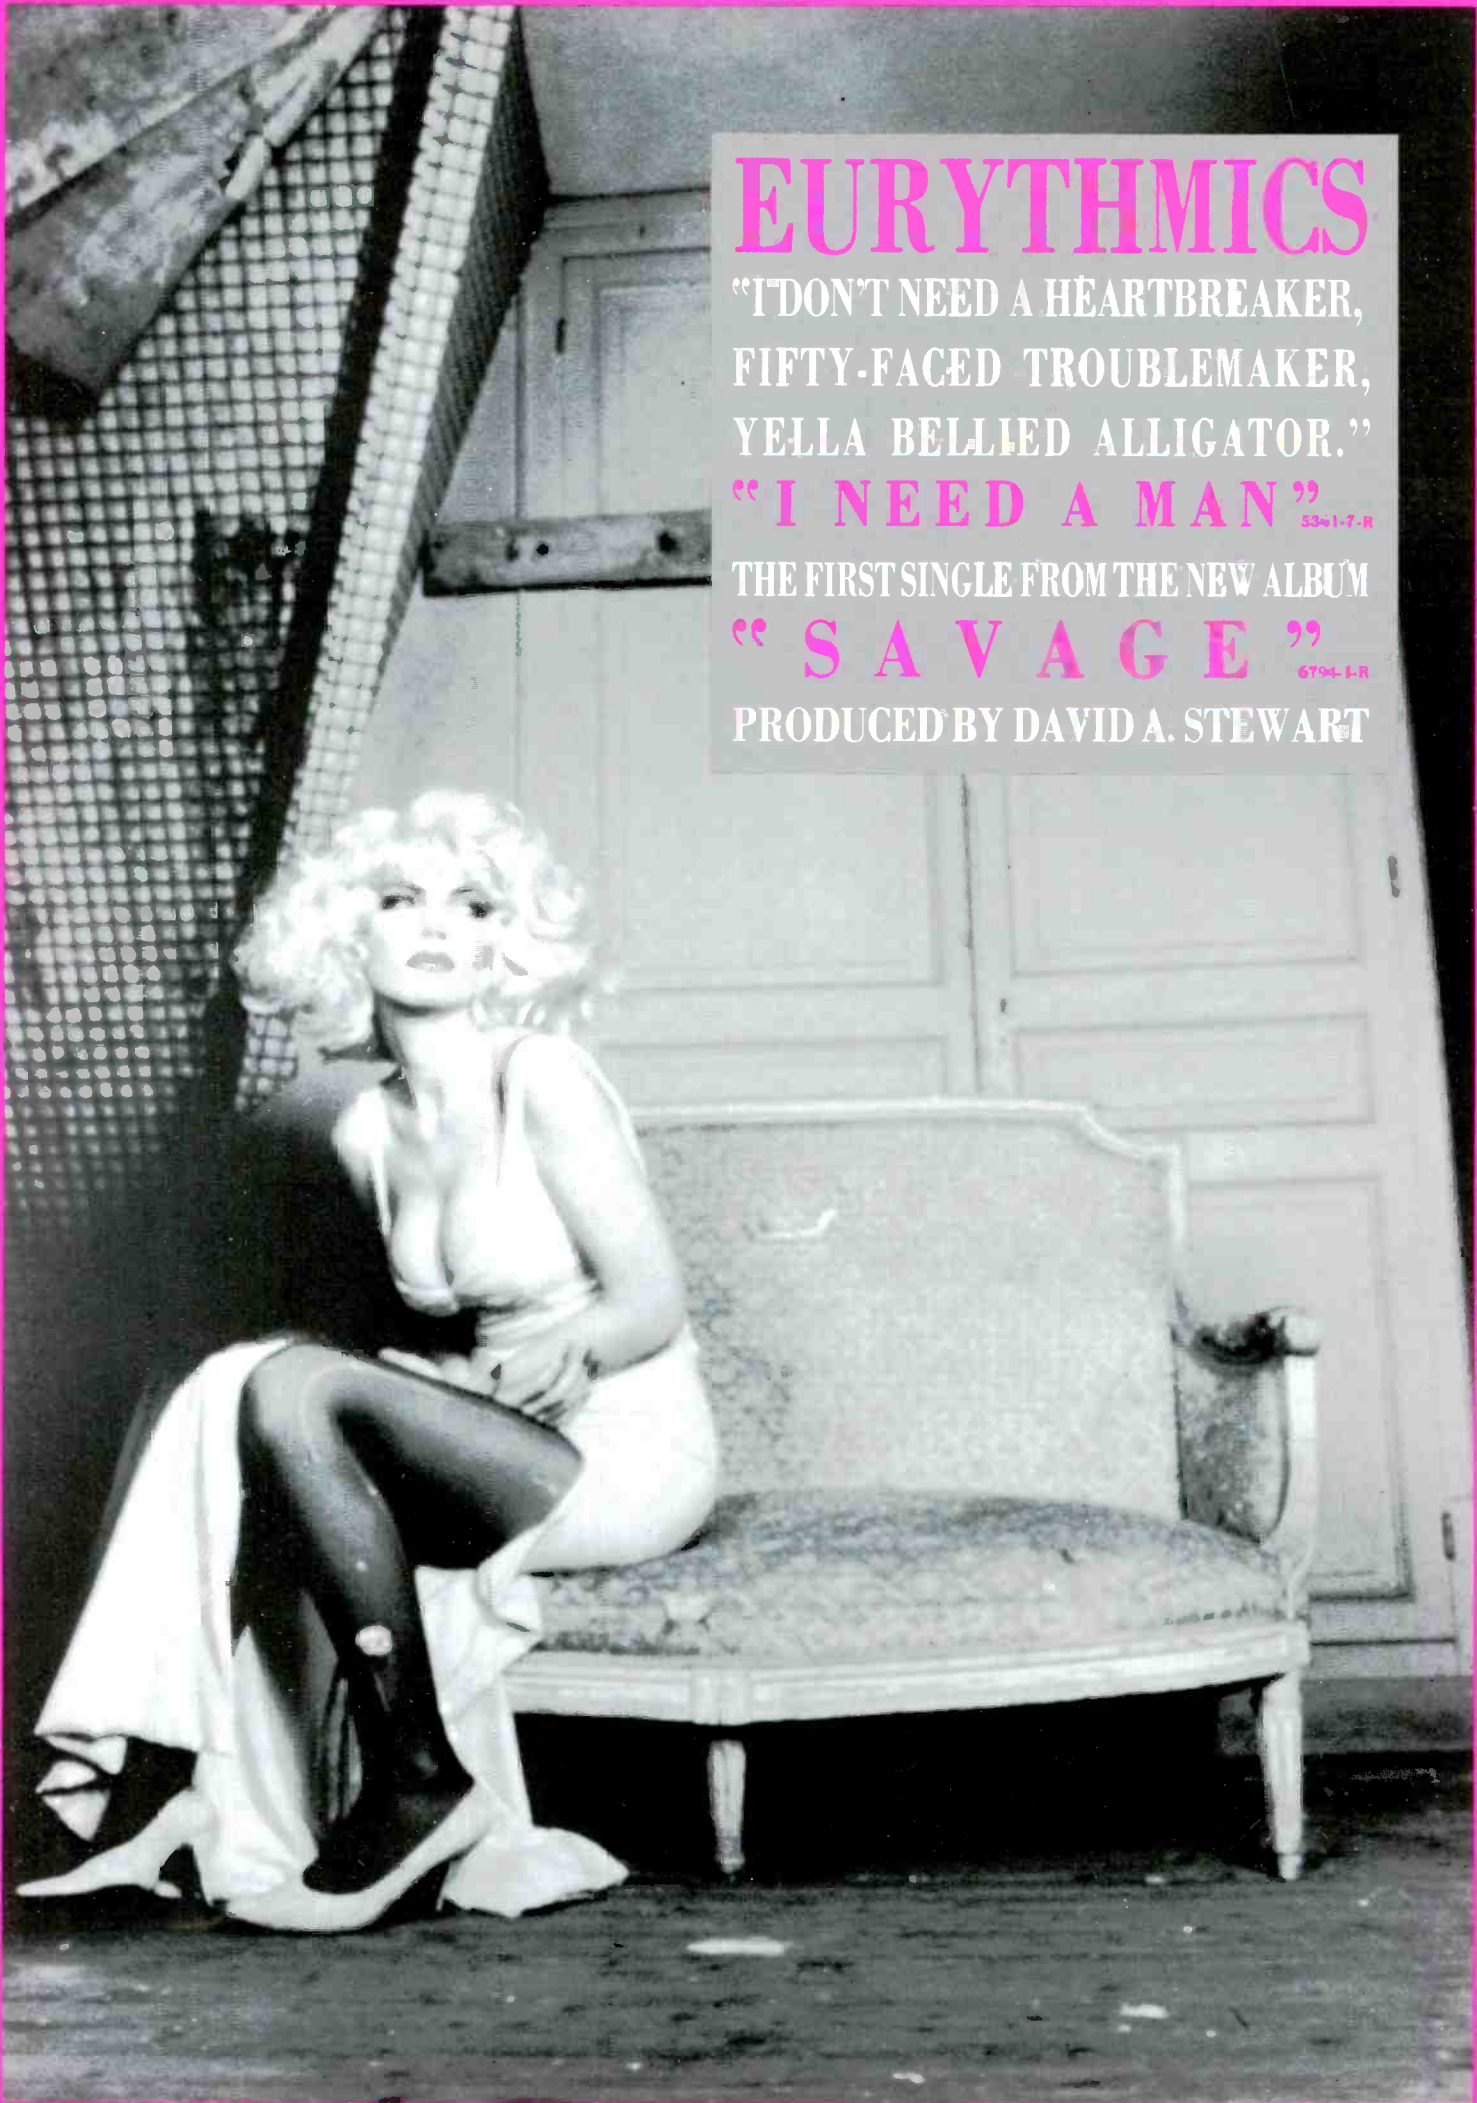

"A Very Special Christmas", Various Artists, A&M.... The deserving cause notwithstanding, this has to qualify as the greatest Christmas collection in twenty years. As WDVE's Anthony Alfonsi says, "This should have been done years ago. From an AOR standpoint, it covers all of our demos in terms of artists--and the song selection is just perfect. Even the songs we can't play are great".... KBCO's Doug Clifton calls it "The best package of contemporary Christmas music that I've ever heard".... WGIR's Karen Small agrees, "Undoubtedly this will rank right up there with Phil Spector's Christmas Lp as one of the great rock and roll Christmas records".... As for specific cut selection, the "open" report was really the rule, but from where we sit, it looks like they line up in this order: U2, Bruce, Bryan, Bon Jovi, and Seger....

Bob Rivers, Twisted Christmas, Critique.... Looks like this WIYY air personality has a huge instant novelty item on his hands. We log in 16 official adds, but at the rate the calls are coming in, everybody will play it before it's over. Russ Mottla calls it "The most useful Christmas album released to radio since I've been in the business. The response is instantaneous. No what matter gets played it gets immediate response and requests, and the production quality is wonderful".... Or, as Rad Messick says, "About this time of year everybody loads on the Bob and Doug or 'Santa Claus Got Run Over By a Reindeer'. Don't you think it's about time we freshened things up with 'Oh Come All Ye Faithful Dead Heads'?....

Kiss, "Reason To Live", Polygram.... Their follow up scores quickly in terms of adds, ups and phones: New on 14, up on 10--including KDJK, WBLM, WNOR, WQFM, KILO, and KOZZ--and top 5 at KLOL, WBLM, KMJX, KWIC and WRUF. Also check this healthy heavy rotation roster: KBPI, KDJK, KFMG, WBLM, WHCN, WNOR, WQFM and KWHL. John Edwards updates, "Kiss continues to be very strong. Great phone action and it tests fine. Much broader based than the first cut. This one is strong throughout all demos".... On the other hand, it does keep the request lines interesting, as noted by KJJO's J.J. Jeffries, "A much stronger ballad than 'Beth'. It's getting great teen response, especially lower demo females"....

Aerosmith, "Rockin' Pneumonia", Def Jam/Columbia.... WKFM's Brian Illes states the case straight on, "Their current success warrants this add".... It's outta the box at 11, including KFMG, KZAP, WRFX, WRIF and WONE. KFMG's Karl Baehr comments, "We just stepped it up after a week since we're bailing on 'Rag Doll'. It's a good remake, the band is doing well, so it's a spice kind of thing here".... From WQFM's Downstairs Dan, "They're coming to town, they're happening, and it's Aerosmith doing an older song that upper demos are going to like. We have a real good upper/lower mix in there right now, and Aerosmith is one of those crossover bands that goes 12-35 without any trouble....

John Cougar Mellencamp, "The Real Life", Mercury.... Between 29 adds and 55 now playing, John's latest brings in this week's longest 79-51* underline. Already a Power at KLOS, with heavy status at KFMG, KRQR, KXRQ, WDVE, WHCN, WLLZ, WRXK and half a dozen more. WPDH's Pam Brooks offers, "We continue the American saga by adding 'The Real Life' and giving our audience more of his visions"....

Rush, "Lock And Key", Polygram.... The second half of Polygram's Most Added Maulers, "Lock And Key" comes up with a 35-32* advance, courtesy of 29 adds, increases from KQWB, KZOQ, WIZN, WKWQ and WNGZ, and heavy play now on 19, including WRXK, WPLR, WQFM, WAQX, KTXQ, KSJO, KRXQ, KRQR, KISS and KAZY. Now top 5 phones at KTXQ, WRCN, WKFM, and WTPA. As WIOT's Jim Steel says, "No problem with 'Lock And Key'. In fact, I wouldn't be surprised to see both 'Time Stand Still' and this song in a Greatest Hits package in the future"....

The Call, "Walk Walk", Elektra.... The band you might miss on first listen and love two spins later picks up the momentum on their third track with new air on KBCO, KQRS, WRXK, KRQR, and four more. Some nice call letter clout there, eh?....

Sting, "Lazarus Heart", A&M.... Our year end voting has Sting's "Little Wing" coming up nicely in the "Cover Of The Year" category, and "Nothing Like The Sun" is also active in the "Album of the Year" voting. The tour kicks off in January, and "Lazarus" is the perfect vehicle to keep the interest piqued til then. The radio build steps up with 8 more adds and four increases, good for a 58-52* underline....

Aerosmith, "Hangman's Jury", Geffen.... Another SRO tour, and "Jury" is bringin' the house down, not only live but on the phones as well. The "Hangman" debuts in the #8 position on the Most Requested, as the single starts to ease up on the message units. Meanwhile, back in stat land, increases are the big story, where 16 ups ties the track for fourth place on the Increase Index. On the road again, we're filing some of the hottest reviews of the year from this tour. WRQK's Rik Elliot calls it a "Five star, must see show. Can anyone match this band's onstage charisma? I think not".... And KGON's Inessa York is feeling so much pressure, "We moved 'Jury' to heavy just from the groundswell heading our way from the east coast. Our show isn't til January!".... Total on: 118; 23-22*....

Tesla, "Gettin' Better", Geffen.... Still making waves on Def Leppard tour, Tesla has proven they're in for the long haul, and the continued airplay on their debut album is proving that radio is behind them all the way. New at 4 this week (WRXK, KLPX, WAQX) and up at 3 more as the total climbs to 59. KGB's Pam Edwards caught them at the 'Leppard show this week and declared "These guys are major new stars".... Meanwhile, WAQX's Lorraine Rapp added Tesla into medium, "This certainly has been a good year for this band, and 'Gettin' Better' further establishes them as a cut above the rest, combining an enticing acoustic opening, then nailing the listener with some heavy duty rock and roll".... 59-58*....

REM, "It's The End Of The World...", IRS.... This was the week for REM's followup to kick retail and requests in the tail--and that's what came down. WIOT's Jim Steel, "The local sales have been excellent for the album, and we've been getting calls for 'The End...', so we're giving in.... The hook is definitely infectious".... KDJK's Beaver Brown, "'World' has got me jumping around like a duck on a hot power pole".... KFMF's Marty Griffin, "The surprise record of the week. Instant phones and an air-staff favorite".... And WWCT's Paul Nelson, "Anyone who thinks REM is still a cult band should count the 900,000 units sold".... New at 11, up at 9, 36-27*....

The Northern Pikes, "Big Blue Sky", Virgin.... "Things" caught a few by surprise when that subtle hook translated into reaction phones in many markets. "Blue"'s out just a week and already we're watching a similar pattern take form. A quick 14 go OTB (KRQR, CFOX, KRZQ, WAPL, WRXK) this week with the remixed edit at the top of list for consideration....

George Harrison, "Devil's Radio", Dark Horse/WB.... While overall response to "Cloud Nine" continues at a fever pitch, airplay has riveted listeners attention to "Devil's Radio", and the phones are kicking in quite nicely, thank you.... "Radio" debuts this week on the most requested (D-10), while reports of the unrelenting sales of the album continue. Kozz' Harry Reynolds, "The response that we're seeing on the Harrison is very encouraging. Lots of phones and positive feedback from listeners and staff alike".... And 'KLT's Dave Fortney, "This album continues to be an amazing surprise".... New at 8, up at 19 (#3 on the Increase Index); underlined 16-9*....

Jethro Tull, "Jump Start", Chrysalis.... Comeback of the Year, you say? Quite possibly the lead contender in that category, JT is keeping 'em satisfied on air and on stage with this programmer pick. New at 8 this week (WQMF, WAQX, WLAV, WNEW, WPYX); 37 total, with increases at KILO and KATT....

The Cars, "Double Trouble", Elektra.... Track #3 is building up quite a head of steam with 7 adds (WPLR, KWHL, KJOT) and 4 increases keeping that upward momentum in line this week, as reaction to this'un just keeps on comin'.... WPDH's Pam Brooks, "'Double Trouble' packs a one, two punch and aims right for your rock and roll heart. The more I hang out with this album the more I appreciate the stuff that Ric and the guys are giving the music scene".... 78 total now on....

Mick Jagger, "Say You Will", Columbia.... With "Throwaway" quickly advancing top 40, "Say You Will" has stepped in as the next choice AOR, and 20 fall right in line first week with WLUP, WONE, KRQR, KDJK, KZAM and KBCO leading the way. With the audience still reeling from last week's Rockline, and retail following in kind, it's definitely time to do as the man says, and dig deeper to this quality track. 99-92*....

Yes, "Shoot High Aim Low", Atco.... After one of the best years for live shows, a summer of can-you-top-this mega concerts, Yes has come along and blown 'em all away. At least that's the rap that's been floating around this week, and considering the repercussions that still are rocking Philly after this week's extravaganza, we've got to say.... Yowzer! "Shoot High" is the way to go nowadays, and 87 do just that; 7 of which come in new this week. 'TPA's Chris James got a chance to see, and he believes! "It was just incredible! They sound just as good as they did 10 years ago. 'Shoot High' had the crowd singing by the song's end; a sure sign of a major hit. Give one of this year's best protest songs a shot".... 38-35....

Grateful Dead, "Throwing Stones", Arista.... It's not a single--but based on what sounds like Power-Plus rotation on WMMR, it could be. Got to be this Lp's best radio song since "Touch Of Grey". The long time concert favorite scoops up another 24 adds, as 98 current reports, and ups from DC101, KPEZ, KQRS, WIZN, WPYX, WRIK, KMOD, WKWQ, and WNGZ haul in this week's fourth longest 46-29* jump....

Bruce Springsteen, "One Step Up", Columbia.... WIOT's Jim Steel states, "Our immediate pick to click was 'One Step'. It's such a moving song that you don't even have to be a Bruce fan to relate to it and like it".... The stats show 18 adds, ups from WZZO, CFOX, and WRIF, with current play on 67. Now heavy at 17, including KRQR, WPYX, WRIF, WMAD, WLAV, WDVE, KFMQ, and KLBJ....

Whitesnake, "Give Me Your Love", Geffen.... At this point, David Coverdale appears to leading Joey Tempest in our Year End Moussehead (Best Hair) voting, and the new track is bulleting up the charts. Is this guy happening or what? "Give Me" got 9 adds this week, with 99 now playing and 10 increases (WIMZ, WLWQ, WRCN, KWIC, WOUR, and WRKI) cooking up a 37-28* move....

Flesh For Lulu, "Postcards From Paradise, Capitol.... Give radio a chance and they'll go for Flesh.... That's exactly what happened this week when 6 said "Yea", including WNEW, KRQU, KRNA and WKGR, pushing that total on to 31, while increases at 'LIR, KMOD, KFMH and KFMU helped in the 98-89* jump on the chart....

Tom Caufield, "Precious Town", Paradox.... Tom has been at the top of the Critics' List (Of MD's who do their homework, that is) for weeks now and the product lull has created the perfect chance for him to break through. 28 are already playing, 5 of which (WNEW, WTPA, WFYV) are new this week--good for a 97-91* move. From KOME's Stephen Page, "Tom is beginning to catch on with us. We're only playing 'Town' in daytime and late night and we're seeing lots of male calls"....

Peter Himmelman, "Waning Moon", Island.... Island's persistence kept Peter picking up steadily during the heaviest of traffic and now increased play and warming phones are coming through to reward their efforts and your ears.... Pete locks up another 3 including KQRS and KISS this week, while 3 more increase play, giving the track enough boost to advance a notch on the Hundred, 54-53*.... WKWQ's Ron Marsh, "We're doing great with 'Waning Moon'. Please go back and relisten if you have any doubts"....

Beaucoup, "Sweet Rachel", Amherst.... A leftfielder that's got programmers talking is Ms. "Rachel" from Beaucoup. An easy one listen pop monster, B'coup is OTB at KBER, KDJK, WNPQ and KWHL where Cyndee Maxwell pleads, "Rachel" will put this band on the map if you'll just give it a chance".... Certainly destined for crossover heaven....

The Rainmakers, "Snakedance", Mercury.... The time is right and the 'Makers maintain and build into the holidays, closing a number of gaps and forever dismissing their "Regional" status this week as the total number on climbs to 116, with KCAL, WBAB, WZEW and KBPI just a few of those joining in the "Snakedance" this week. Meanwhile, those already committed are seeing results.... WTPA's Chris James, "Phones and sales have really picked up. One of America's premiere party bands look's like they may have the track to bust 'em wide open".... WWCT's Paul Nelson, "The band tears it up live, featuring some of the wittiest writing in rock and roll. This is one baby band that still deserves a shot and 'Snakedance' goes in this week".... New at 5, up at 11; 29-26*....

Billy Idol, "Hot In The City", Chrysalis.... "Mony Mony" took Billy to #1 on the pop charts, and now "City" is primed to keep this collection's momentum in high gear.... New at 4 (Heavy add at DC 101) with KBPI, KTYD, WBYR, WLIR already on....

The Alarm, "Rain In The Summertime", IRS.... Overall play reaches 168 this week, as the little track that could, does it in a big way. 16 increases plus 3 adds were instrumental in the step up on the chart (8-7), but we're impressed by this week's debut on the Most Requested as the public connects and register top 5er's at 13.... WRCN's John Loscalzo upped rotation, "We've had curiosity calls since its release and we predict big things for the Alarm".... And WKFM's logging calls; Brian Illes, "Top 5 phones here. If the current trend continues, this album will be the one that makes them trek through on a mass appeal level"....

Guns N' Roses, "Paradise City", Geffen.... G'n R is shaping up as one of the favorite live cult bands of the year, as week to week, programmers are coming forward after catching the Crue show and singing the praises of the night before. This week, it's 'YNF's Charlie Logan, "I can't even tell you how excited and impressed I was with Guns N' Roses. After the stunning performance I witnessed, I gotta say, these guys are hot! And the street buzz on this band is incredible. Mark my words, they are the next big rock act... FK'n awesome, Dude!".... And KFMX's Jeff Ivan, "Watch your sales and your phones. The public tells you what they want to hear. We gave them a try at night and now they're in our day-parted power rotation and selling records like you wouldn't believe"....

U2, "In God's Country", Island.... There's no doubt that '87 was one helluva a year for this band, and it seems only fitting to end it with the spotlight on one of the finest pieces from "The Joshua Tree". It's new at 27 this week, now laying claim to 125 stations, with increased play at 20 pushing rotations into heavy or power at 70. "Country" scores the hat trick with showings in the Most Added (#3), Biggest Movers (#5); and the Increase Index (#2; 20 ups).... Up 32-19* on the Hard Hundred....

Fleetwood Mac, "Everywhere", WB.... Christine's in total control on this one, and the single is quickly falling in line everywhere.... 21 adds this week (KBPI, KOMP, WBAB, WCCC, WIYY, WLLZ, KGB) takes the total on to 73. WRCN's John Loscalzo, "'Everywhere' has always been my favorite on the 'Tango' Lp and it's about time it was the single".... 52-42*....

Heart, "There's The Girl", Capitol.... "Girl" continues to perform on both sides of the street like a champ, with 12 adds and 12 increases responsible for the 28-20* advance this week, with the tour continuing to keep 'em asking for more.... WEGR's Kelly Cruise, "After seeing Heart's soldout concert over the weekend and the crowd reaction to 'There's the Girl', there's no doubt this song will be a big crossover hit, so get it while it's hot"....

Hooters, "Karla With A K", Columbia.... The Thanksgiving night blowout in Philly broadcast to all ends of the world via satellite had to be heard to be believed, and if by chance you missed one of this holiday season's major musical highlights, check out 'MMR's Erin Riley's comments for complete and sordid details. Meanwhile, cross-country in Modesto, KDJK's Beaver Brown caught the show and raved about reaction, reporting major phone advancements this week with 'Karla' registering #3 requests. KQWB's Ty Banks is committed, "Song for song, this is the definitive album for them and if you're a fan you've got to play 'Karla'".... New at 12, up at 2. 63-57*....

Pink Floyd, "On The Turning Away", Columbia.... Top 40 has just gotten the 45 and the time is now to bang the album version and leave 'em in yer dust. 11 adds and readds gel nicely with the 11 increases for the 19-14* jump this week, as the phones start to simmer at 7. New at WMMR, WCCC, WAAF, KQRS, and DC 101....

Paul Carrack, "Don't Shed A Tear", Chrysalis.... Paul took advantage of the holiday to break through top 40 last week and with that milepost met, increases in rotation are the way to go. 13 up air (WAAF, WBAB, WKDF, WNEW) and new adds at 4 power the 14-10* advance on the chart this week, while the first tremors of phone action are under way with 5 reporting top 5 phones....

Dokken, "Burning Like A Flame", Elektra.... With the phones still steamin' and holiday retail through the roof for Don and the boys, "Burning" has become at least nighttime required reading in most markets. "Flame" locks up another 2, with increases leading the way at WBAB, WDHA, WLLZ, WRUF, KBER, KOZZ and 5 more. On the phones, 26 report top 5's as the single remains firmly entrenched on the Most Requested....

Europe, "Cherokee", Epic.... Try as you may, you cannot deny the damage this debut album has wreaked on retail bins everywhere, and the beat goes on with "Cherokee"'s breakout rotation at MTV and CHR picking up where "Carrie" left off.... 30 now on including KBER, KBPI, KISS, WAQX, WHJY, KILO and WFYV.... 83-73*....

Sinead O'Connor, "Mandinka", Chrysalis.... One of the most exciting artists to break out of Ireland this year is feeling right at home at WBCN, WNEW, KROQ, WLIR, KBCO, WDHA and 11 more with "Mandinka" in full command. The package may be different, but we've all seen much quirkier hooks do big-time damage, and the early retail action and critical acclaim suggest this record could legitimately develop into something. From KKCYS's Kelly Reiterman, "Sinead's voice is just amazing. We love her sound"....

"We've just moved it into a better rotation and the phones have exploded. Now one of our most requested new songs".

HARD POLLSTERS LINE UP

Feedback on our 1987 HARD REPORT Music Poll is coming in from all 50 states with our computers groaning under the load of information. Be sure to get your ballot in and help us name the industry's favorite new artist, biggest hype, best image turn-around, and more. And record folks, you get a shot at focusing some national limelight on those PDs and MDs who deserve it. Our first annual year end poll only needs your input to be the most comprehensive pulse possible on our biz. Strokes and pokes to those that have earned them is the primary goal of our fearlessly honest HARD REPORT. Speaking of honest, be sure to catch some of our completely above board responses, (no anonymity here), from radio regarding the escalating war of words over AOR's musical integrity.

CORPORATE STUFF

Sharon White-Gilbert has been given the Southwest local promo assignment for RCA. Headquartered in LA, Sharon will be responsible for working SoCal, Las Vegas and Arizona for the little Nipper.

Former RCA head of Promotion, Alan Wolmark has joined with Gene Kraut to form MCT, a music consulting firm designed to coordinate label strategy, touring, marketing and radio promotion in America for overseas acts. With an office in New York and a sister office in Dusseldorf Germany, MCT will provide daily promotional help for European bands trying to break on the American scene. Alan can be contacted regarding his new venture at 212-206-6765.

Ken Benson is no longer with EMI/Manhattan effective immediately and can be reached at 818-710-8801. The gentle giant of West Coast promotion is actively seeking gainful employment and will have an announcement soon regarding his future plans.

Elektra Records announces the promotion of Louis Heidelmeier to the position of Southeast Regional Director of promotion for the label. Louis had most recently been working out of Chicago. He has been with the label since 1983.

Relativity, Combat and Important Record Distributors Inc. have a new address with some more elbow room. The change is to 187-07 Henderson Ave, Hollis, NY 11423. Calls should be directed to their new phone number, 718-740-5700.

Both JPC and BADE are cranking up the New Year with client conventions in California and Florida respectively. These January events will be followed by the Gavin in February and the resurrected R&R convention in March. Best rest while you can because it's going to be a busy '88.

THE RADIO RUMBLE

KDKB/Mesa has gotten one step closer to finding that new PD. When NOISE talked to station GM Chuck Artigue he informed us that he has narrowed his choice down to "two or possibly three very likely candidates and we hope to make a decision within a week or two." When informed that he was not one of the finalists for the position he has held for five months now, Chuck Geiger tendered his resignation. Chuck was interim PD at the Arizona AOR since John Sebastian had left to join WBMW/Washington. "We wanted to wait for the complete results of our research to indicate our best formatic direction and I'm glad to indicate that our instincts were right, this station will remain a straight ahead rock and roll AOR." Now all they have to do is ink that PD.

CFNY/Toronto has nabbed Steve Anthony as their new morning drivetime ace. Steve formerly held down afternoons on Q-107/Toronto and was also PD at CKGM/Montreal. Currently he makes rent on Much Music, the Canadian equivalent of MTV. Sounds like a cross promote monster in the making.

KUSF/San Francisco has named Tim Ziegler as new Music Director, Tim steps in for Bill McLaughlin who has decided that school comes before sonics.

WMRY/St Louis MD, Kim Pool has left the station to take the local gig at Reprise. Ted Habeck informs NOISE that he will consolidate Kim's position with his own as a result. Some folks just can't be replaced.

Z-ROCK's Boobie Bondage tells NOISE, "To all the Hard employees, I'm proud to have made it, Hard!" If she only knew. The woman should mail herself to Dr Ruth for a complete analysis and I want the results. SASE only.

KMBY/Monterey is looking for a new MD in the wake of Steve Hoover's going to WIBA/Madison. Nice station, great area, send your essentials to Rich Berlin, KMBY, 1098 Del Monte Ave, Monterey, CA 93940.

WVVV/Christiansburg has a new mailing address for those Christmas cards; PO Box 882, Blacksburg VA 24060. Butch tells us that if he doesn't start getting record service at the new address his owner threatens to meltdown his pen and pencil set.

WLIR/Long Island is changing hands and Denis McNamara is going to build a new staff for incoming owners Jarad Broadcasting. Former 'LIRers Malibu Sue and Maxx are rumored to be joining Denis and the new calls are proposed to be WDRE. We'll keep you informed as things develop.

KTWV/Los Angeles has come up with a musical offering to benefit AIDS research. Entitled "Wave-Aid", the cassette and CD compilation features a number of Wave style signature artists and will be sold to the tune of 10,000 units.

WAAF/Worcester and Eddie Money got together to offer a concert payback to their listeners. Pictured are Promotion Director Ron Valeri and Mr Money before Federal Treasury officers nabbed them on unspecified charges.

A&M's reservice gets a royal reception!

Bill Pugh, WKLS: "Since I'm formerly from Nashville, their name ranks with such notables as Jason and the Scorchers and Walk The West. They're a great band from a great town—and they will be one to contend with into the new year".

Russ Mottla, KTYD: "We played around with it the first time out with some good positives from listeners in test rotation. Now that there is a serious label commitment, this was an easy add. No matter how mainstream you are positioned, you have to have some records that play to the musically actives. This one definitely has a rock feel, but it is also quirky enough to add an interesting sound to the station". . . .

Downstairs Dan, WQFM: "They've got a real interesting sound, almost a twangy REM approach. The vocals sound kind of 60's poppish and neo-psychedelic. It sounds modern, but yet it would appeal to an upper demo".

David Hall, WKDF: "When we first played it we got top 5 requests and came up with high marks on call-out, too. It performed well in all demos with an 83% positive rating. And while playing in the local club scene is a factor, to get these kinds of figures it obviously goes a long way beyond that".

"It's All Changed"

Debut 96* Hard Hundred

You can see why we overlooked a Best Moustache category in the 87 **HARD REPORT** poll. Nobody since Cesare Romero could hope to compete with this pencil thin job on **Willy DeVille**.

WZXL/Atlantic City is looking for multiple part time talents for their Jersey shore rocker. T&Rs to Steve McNee, Box 180, Wildwood, NJ 08260.

WAQX/Syracuse saw John Entwistle hit town for a 95X club date. John hasn't been known for a lot of promotional push in the past but evidently he settled right down and got happy with station winners who were permitted to attend the otherwise private soundcheck.

WBVR/Buffalo announces music calls on Thursday and Friday from 10a-2p. Mike Bensson is still the man to talk to.

KZAP/Sacramento has named Jon Russell MD in a long anticipated change since his acquisition from KFOG and Bill Prescott's move to mornings. We'll miss Bill to be sure but hey there's always a hospitality suite or two to trash every year and Jon is a delight to work with as well.

WRCN/Long Island is another station lining up a Coats For Kids promotion. Listeners trade an old coat for a free LP and everybody wins as a result.

WGIR/Manchester had a recent promotion taking advantage of their New England location, "Breakfast On The Mayflower", van that is. Local businesses were given a shot at complaining about their jobs with the biggest whiner getting breakfasted in a drafty Mayflower moving van. Kinda teaches you humility doesn't it?

KZEL/Eugene has promoted Al Scott to the Music Director position at the station following the recent programming changes there. Music hours remain the same.

WPYX/Albany had a local Metal Shop listener appear on stage in the guise of Jason for the Friday the 13th appearance of Alice Cooper. Word has it that the Cooper concerts are getting off the scale readings for the squeamish. Nice to see a continuing tradition, eh?

WYNF/Tampa and Motley Crue got together on the softball diamond and the Crue blew out those Florida guys. To make it up, they gave the town a stand up double dose of live rock and roll that still has 'em vibrating on the Gulf Coast.

KATS/Yakima announces new music hours. Northwest Reps take note, you can give Ron a ring Monday and Tuesday from 1-3pm.

WZEW/Mobile took three bus loads of the faithful to Baton Rouge for the recent U2, BoDeans show. As usual, the reviews fall in the rave category for this impressive tour.

KFMQ/Lincoln wants artist IDs for their Don't Drink & Drive campaign. Send your stuff to Joe Skare, KFMQ, 1540 South 70th, Suite 200, Lincoln NE, 68506.

WTPA/Harrisburg has a new address. Rev up your Rolodex and make a note; 970 West Trindle Rd, Mechanicsburg, PA 17055.

Before their LA gig, **REM** was awarded their Gold LPs for Document. Buried in a sea of IRS and MCA heavies are the boys from Athens GA and Richard Palmese's suitably confused son. The REM jackets are especially nice.

Lighter than air, the **Pink Floyd** triumvirate looking settled after their hot air adventure with **KLBJ's Jeff Carrol** saw them free floating for hours above Austin in a pair of balloons that were not shaped like pigs.

WLUP/Chicago will be taking 20 listeners out of the frost belt for a beach bashing vacation with their evening ace Kevin Matthews. Kev and the gang will spend a week on St. John in the Virgin Islands where they will enjoy a private yacht, some serious sunshine and a generally superior attitude when they go home tanned and fit. Eager for a taste of the good life, entries came in from as far away as eastern New York and Ohio.

WLLZ/Detroit has set the goal on their Wheels For Meals food drive at over 26 tons of edibles which they will donate to area food banks. They figure to contribute 52,000 meals to the needy as a result. It's the third annual food drive for the station, a great long distance imaging campaign with no down side whatever.

WXLP/Davenport has picked up the options on former **WCKG/Chicago** staffer Ray Sherman who has joined up to take over Production and the 10-12 noon shift. The station also has a 7-12 midnight opening so get your T&R in action.

KSJO/San Jose has made it official, Patty Martin is their new MD. Patty has been holding things down for some time and here promotion was just a matter of time. PD Ken Anthony told **NOISE**, "It would be hard to find someone who is as passionate about the music while being a real pro from the broadcasting point of view. I have nothing but superlatives to say about Patty." No changes are reported in music hours for the time being.

WEGR/Memphis has received the appellation "Best Overall Radio Station" in a recent local poll. Congrats go out to Tim and Kelly and all those fine folks down south.

Transtar is still in the market for mature, relatable jocks for their **NICHE 29** format. If you want to jump on a new trend get that T&R to Kurt Kelly at Transtar Radio Network, 6430 Sunset, Suite 401, Hollywood, CA 90028.

WKFM/Syracuse is in the market for a sharp Promotions Director who can pull a midday shift as well. The station is highly involved promotion and requires a heads up player to keep things happening. If interested, send your T&R and a short outline of your promotional philosophy to Brian Illes, WKFM, 1022 Willis Ave, Syracuse NY, 13204.

WRIF/Detroit and another serious commitment to community service in the MotorCity. Last year, morning pundits Pat and Wags along with the rest of the WRIF crew ran operation "Can-Do" from Thanksgiving until New Years, raising 65 tons of food as a result. This year they aim to beat that goal.

BABY STRAITS

Mark Knopfler and his wife Lourdes announced the birth of their first children recently at London's Humana Hospital. The twin boys, named Benjamin and Joseph, were born on November 17th at 9:17pm. Mom and twins are doing fine so congratulations are in order, times two.

AOR ANSWERS THE HARD QUESTIONS

Recently the format has been coming under fire in one of those cyclical upsurges of critique that always seems to follow a big push of releases. AOR isn't happening, the record guys tell us, the format isn't responsive to music and has fallen behind CHR as a result. Is this just another episode of the record industry's "Assignment Of Blame" sweepstakes or a real diagnosis of AOR's changing, some would say deteriorating, makeup? To find out, we went to a collection of MDs and PDs across the country to get some feedback on the issue du jour facing AOR. You may note that when people talk to the HARD REPORT they use their real names, we're flattered by that.

HAS AOR RELINQUISHED IT'S EMINENCE AS A KEY PLAYER IN BREAKING NEW BANDS TO CHR?

Rik Elliot/WRQK.... I think to a major extent yes. A lot of the artists broken on Top-40 we won't touch. We seem to be very shy of new artists these days with so much major stuff out there right now, but our research says that is what the audience wants. New artists have to be real damn good to get a shot and there are too many bands with too much mediocre product.

Ken Anthony/KSJO.... CHR may break songs better than we do but not bands, that remains the specialty of AOR. The CHR push is to generate one shot wonders whereas we stay with bands over the long haul.

Cynde Slater/WAAF.... I don't think AOR has relinquished their role it's just that all the formats work within their genre to make music happen. Fragmentation of formats means that we have to be more choosy about what we play but we have always helped break new bands and will continue to do so. It just makes more sense to really deliver on 1 or 2 bands rather than doing a so-so job on 10.

Sky Walker/KQSP.... This is a format that has evolved into a much more complex one than it's beginnings. The different elements of AOR have moved in separate directions and it's hard to compare the AOR of years ago with the format we've evolved into. In that change we are just mirroring the growth in our audience.

Dana Jang/KCAL.... It's pretty much dependent on the market size. AOR has garnered big shares of the audience and is comparable to the competition in that regard. As to the depth of music being played as it was in the 70s, of course AOR has tightened up, largely because of the fragmentation going on these days. In general I think we are reaching as big an audience as ever and doing it with less music.

Curt Cartier/KEZE.... As far as we are concerned, that's a bunch of crap. Maybe the majority of AOR's do play it safe, but who broke Richard Marx for CHR, we did. We force their hand on a lot of bands that wouldn't get that exposure on CHR as a result. Just don't try to get us to play dance music, like the first Sting cut, just because it comes from rock artists. We have to be careful not to blur our image.

Brian Illes/WKFM.... Absolutely not. We are still breaking rock and roll bands like the Insiders, the Alarm, INXS, the Rainmakers. Those bands aren't going to get to CHR until they get AOR chart action and while CHR might take the album platinum, it wouldn't get there without us.

Michael Areford/WFYV.... In a lot of ways it's true that CHR breaks bands more than we do but we still make a big effort to do as much of that as possible. It's tragic to think like the consultant who told me, "AOR will be the WGN of tomorrow." If you plan on growing old, you will.

WHAT ABOUT THE CRITICISM THAT AOR DROPS NEW ACTS TOO SOON AND DOESN'T DEVELOP ALBUMS OVER TIME?

Sky Walker/KQSP.... That's a tough one and I don't altogether agree with that point of view. Some acts do get jumped on and then dropped and that is definitely to be avoided, it confuses the audience. On the other hand we have cultivated a number of albums cut by cut over a period of months.

Curt Cartier/KEZE.... Who else is going to go deep on a Glen Burtnick? CHR is the ultimate in playing it safe compared to us. They won't go on anything extra to help an artist while we are out there in no-man's land all the time.

Dana Jang/KCAL.... With the amount of music out there you just have to go for the best stuff available. If an artist can't follow a lead track with a good depth track, that's a problem. We have a lot of loyalty to our heritage bands and a new band without a great couple of songs is going to have a problem. The burden is on the record company and the artist because it takes more than one great track to make things happen.

Cynde Slater/WAAF.... That's a valid criticism and it's one of the reasons why we have a self-imposed standard that guarantees that if we add a record we will stay on it for 6-8wks. Playing "add and drop" does a real disservice to the industry. The labels appreciate a record going into a decent rotation but they have to be willing to hear no once in a while as a result.

Michael Areford/WFYV.... We give albums a lot of push and like to stick with them, especially when you're dealing with a name act. I'm a real fan of this music and, as such, I like to support our artists but you have to be careful about going overboard in a very competitive marketplace.

Rik Elliot/WRQK.... Sometimes that's true. We like to give a record a fair shot but if we haven't seen any action on a project after about three weeks we have to make room for another record. I mean, why stay with it if it isn't working. Sometimes it's the label that encourages us to get off lead tracks in the hope that we will make room for a developing act. You can't have it both ways.

Ken Anthony/KSJO.... We start working a band and develop them with multiple tracks over a long period of time. That complaint is just not grounded in reality, we don't go with music if we don't believe in it and we don't confuse the audience by making abrupt moves.

Brian Illes/WKFM.... I tend to agree to an extent. We like it when we see new bands that we get behind happen, but there are so many good bands out there that if we don't see response to our airplay in retail or research we have to move on to another band and give them a shot. We can only give a band so much time to develop.

HOW DO YOU RESPOND TO THE CRITICISM THAT THE FORMAT IS SO IMAGE SENSITIVE THAT IT IS BECOMING NON-MUSICAL?

Curt Cartier/KEZE.... There is some truth to that. It is difficult sometimes to position new music on your station and have it mean as much to the listener. We give the audience a lot of credit but you have to take into consideration that the audience uses radio as background audio for the most part. It's a shame but they don't really listen to the music all that attentively.

Cynde Slater/WAAF.... Radio's primary public service to our listeners is to let them hear the product. As the audience gets older their heritage becomes more important to them. You have to let the audience make up it's own mind about the respective value of an artist, old or new. In many cases this is a positive resurgence of classic artists, the George Harrison makes me feel like I've got a new Beatles record. This smacks of a little sour grapes on the part of the record labels.

Dana Jang/KCAL.... AOR has definitely changed since the 70s. Back then we were able to play a lot of different forms of music but the diversity of formats now makes us program a certain specific sound. That's a crucial tool in getting our identity across.

Sky Walker/KQSP.... That isn't totally the case for us. Some new bands have just what we are looking for and we add them as a result. Of course, a Pink Floyd or a Yes album is going to get some instant emphasis, and rightly so. We have no new band quotas to fill, it's all a matter of what's on the market.

Michael Areford/WFYV.... I can understand that complaint. When you have a CHR beating you up in the market you really want to keep that heritage rock image. The important thing to remember though, is that the people clinging to the format aren't old enough to even have a heritage. A good song deserves a chance, no matter what. Like the Bangles, some people call up and love it, some call up and absolutely hate it. My way of looking at that is that at least the audience is talking about us and they know that we are flexible enough to break the mold.

Ken Anthony/KSJO.... Any research that targets our audience will show that AOR's listener doesn't really explore as much musically as they once did. The record industry is more upset about the changes in the buying public than they are the evolution of the format, which after all, is just a reflection of the audience's change of climate.

Rik Elliot/WRQK.... That is absolute BS. The REM record is happening, so is the Love And Rockets. The labels are just rationalizing away their weak product with that line of logic. It's just another attempt to cover up their own inadequacy with regard to new bands being signed.

Brian Illes/WKFM.... I agree with that to a point. The Bangles are a good example, there's a band that I won't play because my listeners won't give them a chance. We only have a few slots to play with so why take a chance with the Bangles when I can expand my use of the Insiders or Rush.

HOW MUCH MUSICAL SLOWDOWN COMES FROM CONSULTANT CONTROLS, IF NOT AT YOUR STATION, IN THE INDUSTRY OVERALL?

Michael Areford/WFYV.... Consultants have way too much impact on what happens in the industry. Not everybody shares the same vision and the consultants I've dealt with are, for the most part, in their mid-forties. These guys seem to have too much af-

fection for the music of their youth. It results in an over-reliance on older core product for the stations they work with.

Ken Anthony/KSJO.... I've worked with several consultants and it's the same story every time, you need management support that's strong enough to use the consultant as a resource without him overshadowing your control of the station. Otherwise your station loses integrity.

Cynde Slater/WAAF.... PDs should not let their consultant turn them into a puppet. A consultant should act as an overview along with research and the trades. It's all very helpful to plan your strategy but ultimately your knowledge of the market and your staff's ability to execute will make you win or lose. PDs should have a little courage when dealing with consultants.

Curt Cartier/KEZE.... Consultants have taken the gut level feeling about the music away from the format and replaced it with research. It gets to be so obsessed with safety that you stop listening to music, and that's why we got in the business in the first place. The risk and beauty of AOR is in breaking new music and to do that properly you occasionally have to throw science out the window and go with your gut.

Sky Walker/KQSP.... We talk with our consultant weekly and he gives us good leads to work from, but in no case does he tell me what to play. It would be sheer blindness to think that they don't have a lot of impact on the industry but it's a mistake to treat worklists like they were the Bible.

Rik Elliot/WRQK.... Consultant controls are very important, sometimes they are the ultimate concern to a PD, especially when it comes to industry wide research. I mean, those guys have all the tools and definitely pull the strings. 9 out of 10 times my consultant is on the right records and that input is invaluable.

Brian Illes/WKFM.... I think it's a combination of consultant input and the fact that there are four major tipsheets with charts and a dozen or so indie promoters working records. With all that going on things tend to get a little homogenized.

Dana Jang/KCAL.... That's a difficult question because it depends on the relationship with your consultant. A good PD should be able to visualize what works on the station and deal with music on a local level, free of national constraints that might limit his effectiveness.

HAS THE FORMAT FRAGMENTED ITSELF TO SUCH A DEGREE THAT IT LACKS THE COHESION TO POSITIVELY EFFECT A MASS CONSUMER BUSINESS LIKE THE RECORD INDUSTRY?

Curt Cartier/KEZE.... To a point that's true, but the industry needs to be more into the music themselves. They have to realize that some records will fly on some stations that won't work on others and stop trying to win with every track.

Sky Walker/KQSP.... AOR can still push product, no problem. What we are looking at here is an entirely new kind of buying public. The AOR audience is a prime group of music buyers whether on vinyl or, more importantly, through the introduction of CDs. To say that we don't contribute to sales and the opening up of new technologies is ridiculous.

Dana Jang/KCAL.... In markets with multiple versions of the format that may be the case. In markets with only one or two AORs we still have the ability to reach a large buying public, a public that is still interested in records. CHR is definitely very influential

THE GUN CLUB "MOTHER JUNO" (Red Rhino U.K) It was assumed that The Gun Club shut its doors for good after The Las Vegas Story, then Jeffrey Lee Pierce struck out on his own to record Wildweed. But the band is back with a sound update to send shivers down your spine on an album that pours forth with lush production by Robin Guthrie (Cocteau Twins), a meeting of the minds that explores and creates new musical possibilities for the new Gun Club. The most obvious and captivating combination of their two styles is the windswept sound of "The Breaking Hands". Pierce's quivering vocals come alive in the lyrics, and Kid Congo's guitar power hums with new members Romi Moore on bass and Nick Sanderson (ex-Clock DVA) on drums. Neubauten admirers will be interested to know that Blixa Bargeld even pulls some strings in "Yellow Eyes". It's a solid line up that gives this return even more credence as the tracks swirl around in your head - "Bill Bailey", "Hearts" and "Thunderhead" all hold a sharp fascination that should move this one to the top of the heap.

ANN DeJARNETT (DR. DREAM)

Ann DeJarnett began playing the violin in her teens, later to find those talents centered in the LA rock scene, performing with the likes of Chris D. and Dave Alvin. As a band member in Mnemonic Devices she gained significant reaction from the press in the early 80's, which helped stir attention to her solo debut - an impressive marriage of country western, rock and blues with Ann's striking voice accentuating each note. Chris Ruiz-Velasco, an original member of Berlin, shakes the foundation with his guitar work in "Baptism By Fire" while Ann's soothing voice paints a song blue in "Red Tears". Don't let this one be hearsay. Listen now.... Contact Dr. Dream, 900 E. Katella, Orange CA 92667, 714-997-9387.

NEW RELEASES

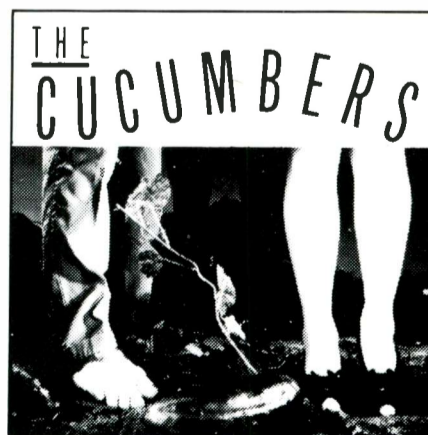

THE ORIGINAL SINS "BIG SOUL" (Bar None)

You are about to experience an early dose of serious rock and roll from a band who released the cover version of "Sugar Sugar" recently, hailed by England's Melody Maker as "the first truly great punk single of this decade"... 1987 finds this Pennsylvania group emerging from the underground with adventurous, stormy songs and J.T.'s no nonsense intentions which in some instances sound like an offshoot of the Huskers. With a bar band energy

fueling the raw emotion in this debut, the initial blast will rock your brain waves. "Possession" and "Not Gonna Be Alright" ricochet full speed ahead, while psychedelic blues and shades of pop in "Read Your Mind" and "Inside/Out" show lyrical strength for a side of the band that will most likely attract radio play.

CINDY LEE BERRYHILL "WHO'S GONNA SAVE THE WORLD?" (Rhino) In a turbulent period for the American rock scene, socio-political awareness seems to have been temporarily filed as a memory of the 60's and a remnant of the punk revival during the late 70's. If you search, however, you will find artists and musicians who thrive on present day concerns often clouded and diluted by the mass media. Cindy Lee's motivation is an inspired combination of folk purity and rock originals set to the scenario of present day reality. Her curious and thoughtful songs have touched live audiences on both coasts and a few early radio supporters stress that her album adds unique and intelligent variety to the list. What's best of all is that Cindy's not screaming for attention - her music is made for those conscious enough to explore bright ideas. Choose now.

THE NILS (Rock Hotel/Profile)

There's a promising aura that surrounds this Montreal band who formed during the punk movement in '78, only just releasing their first full length Lp this year. The Nils may have been inspired by punk rock, but it is 1987 and concentration on melody is a key ingredient to their roaring delivery, so finely blended that you might have to go back and listen twice to absorb it. Alex Soria's vocals move over raging guitar waves in "Bandito Callin'", definitely a focus track. "River Of Sadness" is a straight forward indicator of their energized performance that fits in the aggressive pop meets metal division for a record that positions them as a band for the future.

MUSIC NEWS!

"where the rubber meets the road" is a benefit for the Aids Treatment Project which will be held Wednesday, December 16th at the Beacon Theater, 74th & Broadway, NYC. The event is presented by Glorno Poetry Systems with performances by Laurie Anderson, Philip Glass, Husker Du, John Giorno, William S. Burroughs and Debbie Harry's Tiger Balm w/Chris Stein. The Aids Treatment Project was founded by Husker Bob Mould in May '85, an organization dedicated to the research and treatment of AIDS victims. Tickets are available through Ticketron (399 4444) or charge by phone. For more info contact Peter Wright, 212-777-3966.

Factory Records U.S. announces "It's Clean, It Just Looks Dirty", a video compilation featuring Cabaret Voltaire, Diamanda Galas, Swans, Psychic TV, David (Buster) Johansen and more. It's a mixed media performance that falls somewhere between progressive and promiscuous - sure to test your senses. When's the last time a TV set accomplished that?

Island has signed The Pogues and will service the import single "Fairy Tale Of New York", a Christmas song. The band is on tour with Joe Strummer and you can expect an album in January.

The new Alien Sex Fiend Lp Here Cum Germs is out on the PVC label and the band have not relinquished their adoration for macabre and dark dance rhythms. The album contains the "Impossible Mission" single, plus a ravishing mix of the title track that's found a home at KRCK, WRVU, WWUH, WTSR, WUOG, KUSF so far.

Big Chief Records has released the first 3-song 12" from New York City's Nasty Habits. Straight forward yet stripped down rock and roll that you can check out by contacting Brad Shiller, 54 W 16th St, NYC 10011.

Fundamental Records (P.O. Box 2309 Covington GA 30209) is unleashing a vinyl army this month - lest not these records not be overshadowed by that bodacious Gun Club album mentioned above! Mix one part Eugene Chadbourne and one part Camper Van Beethoven and what's the result? A new album by Camper Van Chadbourne with Eugene on vocals and Campers dividing the instrumentals including sax and mandolin. What pray tell would result in a union of this sort? It seems that Mr. Chadbourne makes it his business to hook up with artists during tours and will do similar projects in the future. The Dust Devils Rhenyard's Grin Lp is also being distributed by Fundamental, originally on Rouska Records U.K. Members of this band met and dabbled in the New York club scene only to wind up back in Leeds, England with a record deal followed by more press and radio attention. The Devils will do an 8-10 city tour traveling the Northeast region around February and March with a new 6-track Ep to coincide.... In Tape will be distributed by Fundamental starting in January, beginning with a sampler Lp. In Tape also owns the rights to some early Gaye Bikers On Acid material and plans to release it as well. Rouska's "Great Satanic Subsidiary" has opened shop in the U.S. at Box F26, Lehigh University, Bethlehem PA 18015 c/o Rich Shupe.

Zodiac Mindwarp are pounding the pavement as they tour the U.S. beginning in Boston 12/3 ending in Los Angeles on 12/4. It's short and sweet so don't miss it! Try to score the new single "Backseat Education" now on import for your pre-concert promo plans.

4AD's Frazier Chorus arrive with the "Sloppy Heart" single, now at 9 reporting stations (WRVU, KRCK, WXCI, WDET, WRAS, WHTG, KCPR, KCMU, WWVU). An airy layered production makes this one a special debut. Their name has nothing to do with Elizabeth Frasier of Cocteau Twins, also on the 4AD label.... The Saqqara Dogs, who take their name from the dogs of an ancient Egyptian necropolis, drift in a world of far eastern rhythmic melodies on their new Lp Thirst. You'll hear a misty variation of cultures taking place, and although most of the Lp is instrumental, "Grave Of Love" is a hypnotic gaze into this production. All members were born in the U.S. and have quite an extensive band history spanning the early 80's, New York underground. Frazier Chorus and the Saqqara Dogs releases are being handled by Thirsty Ear Communications, 310 Madison Ave/1506, NYC 10017.

Frank Zappa will be touring in 1988, his first in many a year. Rykodisc will release five of Frank's albums on CD and has serviced the 3" "Peaches en Regalia" disc, definitely a collector's item. This one even comes with an adapter! Contact John Hammond, Rykodisc U.S.A., Pickering Wharf C-3G, Salem MA 01970.

CHARTSTARS

SINEAD O'CONNOR "THE LION AND THE COBRA" (Chrysalis) When her soft spoken voice appeared on the scene with "Heroine" on the *Captive* soundtrack, who would have thought that Sinéad's talent and diversity was so dominant. Her album is hailed as a new breakthrough from the production to song delivery, this debut is on the rise with recognition as its saving grace. It's already a top 5 request at KACV, KCPR, KJET, WTSR, WXCI, WFNX and more on the strength of "Mandinka". A video will be ready in January - expect to see that one in prime rotation as well. The track is 4* this week with an album position of 3* and ongoing play at WHTG, CFNY, KUSF, WEQX, WRAS, KRCK, WBNY, WMDK, WNCS, WNDY, WXRT, KTCL, WXXP, KBCO and the mainstream leader of the pack, WNEW. I dare you to count to total wattage on this one, this soon!

THE HOUSEMARTINS "THE PEOPLE WHO GRINNED THEMSELVES TO DEATH" (Elektra) A new surge of attention due to audience reaction has caused increases for "Caravan" and new interest in depth cuts for the title track and "The World's On Fire". New action includes KRCK, WUOG, WXCI, WXXP, KBLE, KDVS, WEQX and WFNX with top 5 phone mentions at KJET, WNDY, WXXP, WBNY, WRVU and WTSR - Increases include WGTU, WLIR, CFNY, KCMU, WHTG. WXXP's Deb Brady says, "'Caravan' is a huge song and the Housemartins album is a big record for us!"... Jamey Karr, KACV observes, "Women are calling to hear 'Caravan Of Love' and since they're not finding it on the Lp, they're calling to find out where to buy the single!"... KUSF's Sean Bates looks ahead, "'People Who Grinned' is an amazing song, a lot punchier. This is one of my favorite albums." Now at 5*/#2 Most Requested.

FLESH FOR LULU "LONG LIVE THE NEW FLESH" (Capitol) Now that their musical approach has been directed towards a more accessible outlook, Flesh For Lulu have met with minor resistance from college radio, but overall the band has made a deep impression on those former skeptics who thought they may not have had the discipline to produce a clean, bright album. Not only are their new songs easy to remember, they're even harder to forget! "Postcards From Paradise" leads the with crossover action 89* Hard Hundred/11* Alternative Tracks, with the Lp moving to 13* Airplay. Jonathan Rosen says, "Flesh For Lulu is a solid record from the lead track right on down. I predict success for this band, they deserve it".... KACV's Jamey Karr says "It sounds great on the air. We played 'Crazy' off the soundtrack and we're getting lots of calls for 'Postcards'".... Mike Thomas at WMDK thinks, "They're an excellent band. 'Postcards' is growing on our listeners, they like the music, not the image!" With 31 reports on the single/6 new we hope that trend builds into a year end success story.

LEATHER NUN "FORCE OF HABIT" (IRS) A few short weeks ago, there was some cloudy reaction - and now the truth is that "Pink House" will not go away. Action on the track makes this Lp one of the biggest movers on the Airplay chart this week: 45-28. And just wait 'til you hear this one on the Hard Attack CD. Its distinct yet dubious pop rock influence led by smooth haunting vocals will set you straight on this collection of previous import singles. Timeless at that. It's now in Heavy rotation at KCMU, KCPR, KRCK, KUSF, WBNY, WUOG and WWUH, waiting for more increases! Terry Hamilton at WNDY notes, "There's something I really like about this one. The

lyrics are clever and the cutting effect of the song is what really puts the message across in 'Pink House'.... WXCI's Kandi Wilkins says, "The band has a history here, but this album has really brought them back to light. The newer jocks really like them and the reaction is strong. The first time I heard 'Pink House' I was amazed!"

SCREAMING BLUE MESSIAHS "BIKINI RED" (Elektra) You won't be surprised to find this stellar album showing up in top ten of the year mentions - it's a riveting display of the power hooks that this trio is capable of. There's a wall of sound here, it goes right through you and right on to the air too and if you can't find a track, you ain't lookin' hard enough. Advancing to 8* this week, "I Wanna Be A Flintstone" blew this Lp right open and now look for depth tracks to spring up - we hear "Sweet Water Pools", "Lie Detector" and "I Can Speak American" are contenders. Heavy rotation is powering this one at KRCK, KCMU, KCPR, CFNY, KJET, KTCL, WFNX, WLIR, WRAS, WTSR, WUOG, WWUH, WWVU and WXCI. You own a record that sounds like one great idea rolled into one, and radio has been workin' ME on this one! 'Nuff said.

GENE LOVES JEZEBEL "HOUSE OF DOLLS" (Geffen) The Jezebels had such a strong showing with "Motion Of Love" and it's still on a healthy radio run even though the tour has ended, but "20 KHz" is the new song to sing on their American breakthrough. You'll never kill "Cow" from the *Immigrant* album, and everytime I walk into a record store, the *Promise* Lp seems to be staring at me. Earlier reissues are a welcomed sight, as those albums were the foundation that sent this band skyrocketing - and *House Of Dolls* will certainly carry them through '88. New single adds include WXXP, WAAF, WEQX, KMOD, KPOI and WMRY with increases at KROQ and WLIR. Phones? How 'bout WHTG, WXXP and KRCK. Let's talk about follow through

THE REIVERS "SATURDAY" (Capitol) When was the last time you heard such dimension in American pop music? Don Dixon has this band all figured out, and boosts those guitar embellishments to oblivion in songs like "Once In A While", "In Your Eyes", "What Am I Doing" and "A Test". I could keep going but I hope that you'll enjoy all this record has to offer. Now at 28 reporting stations, airplay highlights include KTAO, WLIR, WEQX, WHFS, KACV, WWVU, WMDK, WXRT, CFNY and KJET with more on board.

HEAVY HITTERS

Black Sabbath, "The Eternal Idol", WB.... After this many years and this many incarnations one gets to be a little wary of new product from these guys. This, however was a pleasant surprise in many ways. First off the vocal work sounds fresh and gives the bands dark reputation a good lift. Second, lommi's guitar work is a lot more restrained and controlled yet still sounds as strong and solid as ever, and thirdly the lyrical content and overall growth of this group has progressed to a point where they'll be able to open themselves up to a much wider audience. If they can overcome the Sun City scandal of a couple years back this record should break some new ground for them. If you listen to the music on this Lp for what it's worth, you'll hear a good rock album from a band that has been around for a long time. "The Shining" is a great tune with interesting changes, and is the obvious choice for emphasis track with it's accessible sound. Others to look for include: "Ancient Warrior", "Glory Ride", "Lost Forever" and "Eternal Idol".

Anthrax, "I'm The Man", Island....

We knew it wouldn't take too long for you people to jump on this "work of art". How about that album cover; graffiti-covered walls and Adidas work-out suits -- like they were Run-DMC or something. It's hilarious! This week the inventors of "Rap-Metal" return to the spotlight with a 26-21* move on the Hard Hitters Airplay Chart, and accomplish the seemingly impossible task of recapturing the #1 positions on both the Most Requested Metal and Most Added Metal charts showing us that this should be THE record to contend with in upcoming weeks. Of course, the three different versions of the "I'm The Man" rap (censored radio version, def uncensored version and totally def III - uncensored version, the last being totally live) would be the tracks with the really big phones, but don't forget about the two other live tracks ("Caught In A Mosh" and "I Am The Law") and the cover of "Sabbath Bloody Sabbath". You can catch them live with Exodus and Celtic Frost through December. This is certainly a show you don't want to miss. As for the Ep, you can be sure to catch that on: KISS, KOZZ, KRXX, KTEC, KSLC, WBIM, WEOS, WGIR, WGBW, WHUS, WIXV, WKNH, WNGZ, WOXY, WPYX, WUCF, WWUH, WXRC and a host of others.

Aerosmith, "Permanent Vacation", Geffen....

Can you count to 500,000? Can you say "Gold" ? It's a sure bet that Steve and Joe can, because this one just went gold folks, and that's just an indication of things to come. Just look at their 12-6* move on the Metal Airplay Chart. These guys rock pretty good for their years. If you've seen them live then you know what I'm talking about. With the energy and enthusiasm of a band playing their first gig they put on one of the best and most exciting performances I've seen in a long while. Tracks getting play include "Angel", "Rag doll" (#36 HH) and "Hangman's Jury" (#22 HH*). We're looking for "Heart's Done Time" (which was absolutely incredible in concert) to be a real killer from this album. It's got a real heavy rock n' roll-type feel and an incredible hook/riff that just picks you up and doesn't let go.

Paradox, "Product Of Imagination", Roadracer.... In the forever growing circle of hungry young bands, one gets used to seeing the same type

of thing over and over again without there ever being a hint of originality. This is not the case with Paradox, a hot young power quartet with a lean hungry sound you don't hear a whole lot of these days. Their songs have a great blend of powerhouse vocals, killer guitar playing and a really tight rhythm section. This is destined to burn up the airwaves. It already is at: WEOS, WCWP, WBIM, WHUS, and WRCN. Cuts to go with are: "Paradox", "Mystery", "Beyond Space" and the title track. If you're into the growing low-toned thrash rock that's hitting the airwaves check these guys out.

Stryper, "Reason For The Season", Enigma....
Ok, Ok..... it's almost Christmas, and since we've been seeing a lot of christmas stuff on the AOR side of things it was only right that we threw some in for good measure. Besides -- this is really good. The "A" side contains the title track but the "B" side is where it's at... that is if you're into a rockin' version of "Winter Wonderland". This band has been seeing some success with "Honestly" which is at 63* on the Billboard Hot 100 Singles Chart, with the album moving 127-103* and approaching platinum. If you're looking for some seasonal fun, here's some vinyl perfect for those Christmas rockers who never get enough.....

Bonfire, "Don't Touch The Light", RCA.... If you can get your hands on a copy of this, it may be well worth your while. So maybe they do remind us a lot of those other German rockers.... but don't let it

fool ya. These boys are very capable musicians with a gift for songwriting. "Starin' Eyes" seems to be getting some response at stations like KNAC and WCWP, but other tracks that I feel are worth spin include: "SDI", the title-track, "Longing For You" and "Hot To Rock". This record may not blow you away on first listen, but it'll grow on you. It has that "mainstream/metal" feel to it that has made successes out of bands like Bon Jovi, Great White and Tesla. We may be seeing a lot more of this band in weeks to come.

METAL FILINGS

-First and foremost a sad and fond farewell to WXRC's Shelli B. from our family of active metal reporters -- but -- a huge congratulations on her move to Long Island's WRCN for afternoon drive. Shelli, your the greatest and your gonna do great! New York doesn't know what they're in for....

-Whitesnake's 1986 release "Slide It In" (a damn great record) has now been certified platinum. This can probably be attributed in part to the triple platinum success of their latest release "Whitesnake". Check out the re-releases of: "Come An' Get It", "Live...From The Heart Of The City", "Saints And Sinners", "Trouble", and "Love Hunter".

-Aerosmith's "Permanent Vacation" has now been certified gold. It's good to see these guys on top again after all this time. Catch out the live show.... it's hot!

MUSIC NEWS!

Greetings to all you rock soldiers. This is **Sal "Booking bands is a bitch" Treppiedi** with this weeks metal mumblenews. Before I begin, let me clear up some typos from the last issue. It seems that the spelling of **Megadeth** was typed as **Megadeath**. No wonder the band is in court. Secondly, there was a passage with regard to **Overkill** that just didn't make sense because there was a complete line missing. So to clarify, **Overkill** is still on the lookout for a drummer. Now on to some current events.

Blond bombshell, **Lita Ford** returns with her first album in over three years. The album is appropriately entitled "**Lita**". The former **Runaways** member's album will be released by **Dreamland Records** in a joint venture with **RCA Records**. **Dreamland** is run by producer **Mike Chapman**, who has been responsible for several **Pat Benatar** records. The album will be released in January. Look for **Dreamland** to sign two more artists to their label.

Isn't it funny how some of the world's greatest bands are completely ignored? **Manowar** has been together since the early '80's and have provided the metal public with some of the most incredible metal on vinyl. The band recently played two jammed packed shows at **L'Amour** in Brooklyn. Talk about being blown away. I must say, though, that it is unfortunate that a band such as **Manowar** still has to play clubs. This is an arena caliber band. Perhaps what **Joey DeMalo** once told me about the band may be true. He said that no one will play with **Manowar** because they are too good. He gave an example by asking who would want to take the stage after **Eric Adams** has gotten off? I'm still wondering. I wanna know who can top **Manowar's** sound? They were loud as a mutha, but yet crystal clear. The band ripped into an hour set with "**Manowar**". They proceeded to perform the songs that had brought the band to their current status. Songs such as "**Battle Hymns**", "**Blow Your Speakers**" and "**Black Wind, Fire and Steel**". There is no doubt in my mind that these guys are four top musicians. **Joey** is right. Who would want to take the stage after **Eric** sings or **Joey** plays one of his amazing bass solos of **Ross the Boss** scorches the

strings on his guitar? Is there a band out there willing and daring enough to take that plunge? I tend to doubt it. **Joey** will admit that **Manowar**, like **Orson Welles**, are outcasts. They may have finally gained some respect by being signed to a major but they are still the outcasts of the metal industry. Why? Simple. They do things the way they want, when they want and where they want and they do things with a flair unlike any other band. **Manowar....Forevermore!!!!**

The **Vinnie Vincent Invasion** is currently in **Cherokee Studios** in Los Angeles recording their new album entitled "**All Systems Go**". I recently spoke to **Mark Slaughter**, the band's lead vocalist, about the new album. I first asked **Mark** what it was like to be recording his first album with the band. "It really is incredible the way everything is coming together. I think that from touring and being around people that you really grow with the band. It really sounds strong. I think it's a damn good album. Everyone that has come through here has been blown away."

Vinnie Vincent wrote most of the songs on the first. I asked **Mark** if he was involved with any of the writing for this album. "Vinnie is the main writer. He writes all the songs. **Dana** is the arranger who makes things happen. **Vinnie** is the main writer and I must say that, on this album he outdid himself. It's real incredible when you think of how good it sounds. The guy is really and incredible writer. I think that more people will be noticing his writing skills more than his guitar playing. That is one side of **Vinnie** that people haven't noticed yet." "**All Systems Go**" will be **Mark's** first recording experience with the **Vinnie Vincent Invasion**. I asked **Mark** whether the sound of the band has changed since he joined. "I think that the music has changed since I started singing. I think I'm easier to work with and it's easier to get something out of me. **Robert** (former lead vocalist -**Robert Fleishman**) was more of a session singer from what **Vinnie** tells me. I'm more of a live singer. I always look at things from a concert or live situation. That's what I'm always thinking of. I think that that is captured along with the fact that we recorded everything live." Next week, we'll have part two of my conversation with **Mark Slaughter** of the **Vinnie Vincent Invasion**.

Okay folks, it's time to remind you of your duties as metal soldiers. What am I talking about? Well, think back to last week, pencilgeeks. We asked for your help in naming former **Quiet Riot** drummer **Drew Forsyth's** new band. Have you sent your suggestion in yet? Why not call me or **Chris Black** with your suggestion. The choices we gave you last week were: 1) **HIGHLANDER** and 2) **MECHANIC**. **Drew** appreciates all the help. By the way other suggestions are also welcome. Naturally, I will be reminding you about this in the coming weeks. **Chris Black** and I will keep you posted on how the voting is going. Remember you could be involved in the shaping of the next supergroup. More on this next week.

That's all for now, dudes and dudettes. Remember to call with your vote for **Drew Forsyth's** new band. Until next time, when we'll have part two of my conversation with **Mark Slaughter** of the **Vinnie Vincent Invasion**, this is **Sal the "Earl Of Earache"** **Treppiedi** reminding you that **Tv's Noid** is really **Mr. Death** in disguise. **MUYA!!!**

-**Sal Treppiedi**

UK MUSIC NEWS

Pre-meditated gang violence was at the core of the trouble that occurred outside of rapper **LL Cool J's** Hammersmith Odeon appearance in London. Witness Ian MacDonald told "Sounds" this week of how he saw gangs of youths deliberately hold up subway trains by jamming their feet in the doors in order to pack them full of people. Then they started an activity called "steaming"; running through the trains, shoving travellers, taking jewelry, handbags, wallets and personal effects. MacDonald said he watched helplessly as one passenger was sprayed in the eyes with ammonia and then kicked in the testicles by a gang numbering fifteen. Police have already declared the violence as the worst ever associated with a London rock concert (although all the trouble occurred outside the venue) and the worst known on the London subway system.

Hot on the heels of Eammon Dunphy's official biography of **U2**, "The Unforgettable Fire", comes another good book on Bono and the boys; "U2 Touch The Flame; An Illustrated Documentary" by Geoff Parkin. The lavish book is packed with facts and photos, rather than the literary biography style of Dunphy's work. It also contains many surprising quotes from the band, friends and associates. It's published by Omnibus in the UK and costs eight pounds here.

Depeche Mode are not the type of band one would associate with Spinal Tap style trashing of hotel rooms. Not so in Berlin when a band party at a hotel there got very rowdy indeed. Finally, somewhat succumbing to complaints from hotel management, the Depechers decided to move the proceedings downstairs to the bar. When the elevator doors opened, ten riot police in full combat gear leapt out! The band were unhurt but barred from using any of the hotel facilities, forcing them to catch a bus into the center of town to obtain further intoxicating substances.

Status Quo and **Black Sabbath** are being considered for inclusion on the United Nations register of entertainers who have broken the cultural boycott of South Africa. Both bands played at the whites only resort Sun City earlier this year and their names were put forward to the UN by Artists Against Apartheid. If they are included on the list, they face being banned from playing many European countries and will be prevented from playing concerts in Britain where any local council supports AAA (which tend to be all Labour and Liberal councils and some Conservative ones.) After first defending their decisions to play Sun City, both bands have now apologized to their fans. "The world at large have decided we were wrong, so we are wrong," read a statement from Sabbath, who have already had concerts canceled in Holland, The Netherlands, Hungary and Romania.

Bono has been summoned to appear in court in San Francisco, charged with "malicious mischief". The charge follows a spontaneous free concert in the business area of San Francisco two weeks ago, billed as a "Save the Yuppie" benefit. Bono climbed a fountain in Justine Herman Plaza and spray painted it with the words "Rock and Roll Stops Traffic." He was not arrested at the time but was summoned to court the next day by Mayor Dianne Feinstein. If he's found guilty of vandalism, Bono may be forced to scrub city council buses, especially with regard to the Mayor's remark "The plan is to hit their pride rather than their pocket." Bono, charged under his real name Paul Hewson, is due to appear in court 16th December, although he need not

be there if he pleads guilty by letter. According to "The New Musical Express", graffiti has become a major problem in San Francisco, to the point where Mayor Feinstein offers \$500 rewards to those turning in suspects.

The two acts that collaborated to make the #1 single "Pump Up The Volume" under the name of M/A/R/R/S are **AR Kane** and **Colourbox** and the small indie label they record for is 4AD (who in addition house The Cocteau Twins and Boston's finest Throwing Muses). A row has broken out between the two acts and the label. AR Kane have already walked out and Colourbox say they are actively looking for a new deal. They accuse the small ideological label of becoming greedy and money oriented since the success of "Pump Up The Volume". (Previously the biggest hit the label had enjoyed was by The Cocteau's which reached 25.) 4AD retort that they've been caught in the middle of a row between the two acts concerning the split of royalties for the record and plead that it has nothing to do with 4AD.

Former Clash drummer **Topper Headon** was jailed for 15 months by Maidstone Crown Court here in England for supplying heroin to a friend Barry Waller, who died from an overdose last February. Headon's wife Catherine was also jailed for possession of heroin. Headon will undergo treatment for his addiction in prison. Meanwhile The Clash compilation album, "Revolution Rock" has been postponed for release until February. The album will include every Clash single ever recorded.

The Smiths have their last ever single released in Britain by Rough Trade 7th December. "Last Night I Dreamt Somebody Loved Me" from the "Strangeways..." album will also contain two previously unreleased session tracks for the BBC John Peel radio show - "Rusholm Ruffians" and "Nowhere Fast". The next single release in North America however will be "Stop Me". The band were prevented from releasing it in the U.K. as a single after the BBC objected to references in the song about mass murders. Rough Trade will re-edit the video used here for "I Started Something", to accompany "Stop Me" in America.

A lawyer for Jeanne Clarke, the 18 year old fan who accused Beastie Boy **Ad Rock** of assaulting her, says that she plans to continue proceedings against the singer. Adam Horowitz was cleared a few weeks ago from the charge that he threw a full beer can at Clarke when the band played in Liverpool last spring, despite the testimony of three witnesses who say they saw the missile hit the girl. Clarke suffered from cuts and bruises to her eye. Her solicitor says he still intends to take out a civil claim for damages against both Horowitz and the group. He says the outcome of the Liverpool trial will not affect a civil action, which will be taken in New York City. The Beastie Boys tour manager responded: "This is just a clear case of somebody trying to make some money. It's ridiculous."

UB40 producer **Ray Falconer** was killed last week when a car driven by his brother and UB40 bassist Earl Falconer, spun out of control, side-swiped another car, overturned and crashed into a factory wall in their hometown of Birmingham in the English midlands. Earl Falconer faces a drunk-driver charge from the accident after he failed a breathalyser test. Ray Falconer died instantly from a broken neck. Earl and the other two passengers in the car were unhurt. The band are said to be devastated by the death of the man they often referred to as the ninth member of the group. Ray was a key member since the outfit's formation

in 1979, producing almost all of their big hits and managing the sound at their live shows.

American outfit **Timbuk 3** are campaigning this Christmas against the sale of war toys. The band are donating profits worldwide from the sale of their record "All I Want For Christmas Is World Peace" to the Stop The War Toys Project. Here in Britain, Labour Party MP Tony Banks has given his unqualified support to Timbuk 3. Copies of the record were delivered last Friday to British Prime Minister Margaret Thatcher, at her home on Downing Street, while last Saturday was declared a day of international protest against the sale of war toys.

You may have heard of Mel and Kim, but have you heard of Mel and Kim Mark 2? It consists of top British comedian **Mel Smith** and luscious pouting **Kim Wilde** who have put together a Christmas record called "Rockin' Round The Christmas Tree" originally done by 50's starlette Brenda Lee. It's accompanied by what has been described as an "all star video" and proceeds go to Comic Relief - funds that go straight to Oxfam and Save The Children for their work in Ethiopia and Sudan. Like Band Aid, Comic Relief, which was originally just one Band Aid project, will continue the work of fundraising through comedy, culminating in a six hour comedy extravaganza telethon, to be screened on BBC-TV in February. Meanwhile, the founder of Band Aid, Bob Geldof flew to Ethiopia on Monday to investigate renewed food shortages threatening the lives of more than five million people. It is understood that Geldof will not launch a fresh Band Aid appeal, but will urge support for the fundraising drive announced by Oxfam and Save The Children. Geldof laid the blame for Ethiopia's famine at the door of the Marxist Government there as he flew from London's Heathrow airport. He said he would be requesting a meeting with the country's leader Colonel Mengistu to ask him about his policy for purchasing arms amongst other issues. Band Aid has raised nearly 80 million pounds for Ethiopia's starving since 1985, but Geldof said he found it distressing that over the past three years "nothing serious has been done."

UK INDUSTRY NEWS

The news that Sony has taken over CBS throws out some interesting speculation about The Digital Audio Tape debate. DAT is the new style cassette tape that can play back with at least the quality of CD and the major labels, including CBS, have campaigned vigorously against it, proclaiming that it will encourage home taping and other forms of copyright infringement. Not unsurprisingly however, Sony are rather in favour of the little technical marvel. Does conflict of interest start here?

Next year's British record Industry Awards will be taking place for the first time at the massive Royal Albert Hall in London, February 8th. A North American broadcast deal is expected to be worked out within the next three weeks. The ceremony will be seen in a minimum of 112 countries after a deal between the BBC, the EPI and Music-Box, the pan-European cable service, according to "Music Week".

BRIT-PICKS Singles

"A Fairy Tale Of New York" by the Pogues featuring Kirsty MacCall (Pogue Mahone)... Best Christmas single in years. After an introduction that seems to veer the song into usual yuletide sentimentality, the record suddenly explodes into an unmistakable Pogues Jig and reel. Shane and Kirsty are a couple who love to hate each other - "You're a slut" sneers Shane but Kirsty answers back with as good as she gets. "I could have been someone" means Shane. "Well so could anyone," Kirsty replies contemptuously. The Pogues sweet and sour tales about real human beings have never sounded more alive and I can't imagine a radio station in the world who cannot find a niche for their brand of contemporary but traditional folk music that comes straight from the heart, wonderful!

"Deep Wide and Tall" by Aztec Camera (WEA)... Many Aztec fans of old feel that Roddy has traded in poetry and

passion for structure and production values. Nevertheless on those two counts he can't be faulted (although neither can George Michael) and this title cut from the album is as good an example of his new direction as any. Bit cheeky still calling his band Aztec Camera though when he's the only one left.

BRIT-PICKS Albums

"Floodland" by The Sisters Of Mercy (WEA)... For those expecting a crossover appeal from the Sisters (i.e. like The Mission) after hearing the taster single, "This Corrosion" will be disappointed, so I find myself unable to recommend this to AOR as I would like. However, alternatives should find plenty of meat here in the Sisters mold that one would have come to expect, plus an 11 minute version of "Corrosion".

UK Chart Survey

ALBUMS: "Kick" by INXS comes straight in at 37. "Characters" by STEVIE WONDER is new at 33. Leaping in at 9 "Floodland" by THE SISTERS OF MERCY. New at 5 "You Can Dance" the remixes from MADONNA. Static at 3 "The Best Of UB40". Bumping T'Pau to #2 and a new entry at #1 RICK ASTLEY's "Whenever You Need Somebody". Astley is a white British soul singer who I can't imagine having any appeal to North American FM radio.

SINGLES: Numerous new entries from PRINCE, JOHNNY HATES JAZZ, THE HOOTERS, DEF LEPPARD, CUTTING CREW, SHAKING STEVENS, and oldie from THE TAMS, and PAUL MCCARTNEY. Up 11 to 19 "Build" by THE HOUSEMARTINS, one of their gentler tracks. Up 8 to 18 "To Be Reborn" by Boy George. Difficult to know who his substandard material appeals to these days. Up 6 to 14 Gravel-voice BARRY WHITE mounting something of a comeback with his likeable "She You Right". Leaping 15 places to 10 "Letter From America" by the PROCLAIMERS, the new remixed version of the album track by Gerry Rafferty. Although Chrysalis say there are no plans as yet to release this in America, I expect they will after the astonishing success for this here. "Got My Mind Set On You" by GEORGE HARRISON holds at 2 and "China In Your Hand" holds at 1 for T'PAU who are about to start their British tour. Finally, ERIC CLAPTON said in a recent BBC interview that he absolutely hated the "Eric Clapton Is God" slogan that was bounced about in the late 60's and early 70's. But this man is playing NINE nights at The Royal Albert Hall this Christmas. That's a WEEK AND A HALF!!! How he can resist the temptation to turn water into wine while he's at it? Pip Pip 'til next week.

LATE BREAKING FLASH!

Pretty amazing week for interviews here at BCN. Ron Wood stopped by again to chat about his book and his tour with Bo Diddley.... And talking about rock and roll legends, Little Richard spoke with Mark Parenteau in the afternoon, at the same time that Mark fielded a phone call from the already mentioned Ron Wood. Yoko Ono phoned up as well.... We certainly appreciate Willy DeVille's edit of "Southern Politician". The song is doing well here at WBCN in its full six plus minute form, but it will be nice to have the edit for daytime play.... We'd like to thank Cry Before Dawn and Epic Records for the band's outstanding performance at the Paradise Theater. WBCN gave away all the tickets on the air and our audience did not disappoint us. We had a packed house and the band kept them there for their full set. This was Cry Before Dawn's first appearance in America and after a New York performance, they fly back to Ireland. We expect to see them on these shores early next year. "The Seed That's Been Sown" is the track that's working well on WBCN and has developed from early light rotation into a major request item.

Brian Illes, WKFM, Syracuse

With regard to the current anonymous spat going on between the record industry and the broadcast industry in a trade publication vastly inferior to this one, I was at a radio station in the early 1980's that played a ton of currents and got zero ratings. The labels are much better off with me playing fewer currents and having more listeners hear them than the other way around. AOR is breaking records in the late 1980's and we will continue to do so. The labels shouldn't get mad at AOR, they should get mad at Arbitron. If the labels can come up with a better way for stations to sell time than by ratings, we'd love to hear it.

Tom Van Sant, WIZN, Burlington

It came from Ireland. From humble beginnings, it grew to become one of the most popular and influential group of musicians in the 1980's. But beware creating delusions of sainthood. One can only re-invent rock and roll when one is not aware of the process.... I'm happy to report we've added Don Dixon's "Borrowed Time". He never fails to amuse and entertain those who hear his music.... Also this week, Cry Before Dawn's "The Seed" gets the nod. By the way, is Simon Townshend in that band or what?... The Cars' "Double Trouble" moves up. It's another adventurous cut from the Cars who're continuing to expand their vocabulary with this album.... Moved up the Grateful Dead. It's the first effort they've released that's overtly political, and it works.

Harve Alan, WCCC, Hartford

Bourgeois Tagg not only sounds good on the radio but is selling and pulling hot phones.... The Bangles is also top 5 requests with Michael Bolton, Foreigner and Dokken.... This week seems to be the week of third and fourth tracks with addition Fleetwood Mac, John Cougar Mellencamp, Pink Floyd and Bruce.... The aforementioned Michael Bolton should be on everybody's station now. This baby is a killer! It takes nothing away from the original. In fact, it's a great tribute to Otis Redding and what a masterpiece this song really is.... Let's remember what works in one market doesn't mean it will work in another, so before closed minded programmers go out on a limb and say if you are playing "whatever", you should find a new job. Don't condemn anyone else for their actions. Whether or not a song is targeted right or wrong for your market, this kind of attitude breeds narrowminded stupidity.

Doug Clifton, KBCO, Boulder

We're reworking several albums that never had a shot at second cuts a few weeks back. First the Insiders return with "Love Like Candy".... Also making a comeback are the Radiators, "Doctor Doctor".... The Call, Warren Zevon and the Grateful Dead are

three more artists on the comeback trail.... I'm expecting excellent response to "Throwing Stones" from the Dead.... Best new music this week is from the Connells. "Over There" has got a perfect sound for us. A nice addition to our Christmas music collection is "A Very Special Christmas". It's the best package of contemporary Christmas music that I've heard.... Thanks to Jay Ziskrout, Rich Abravaya, and Todd Cavanah.

Beaver Brown, KDJK, Modesto

White Lion has clawed its way to the #2 most requested position. It's amazing the response we're getting. Our listeners believe, like I do, this is a purr-fectly great song.... It took me a few spins but the new REM "It's The End Of The World" has got me jumping around like a duck on a hot power pole.... It'll have to wait til next week for an add but I urge you to listen to the Connells "Over There". It's so catchy we just can't past it up.... Loved the Hooters on Thanksgiving -- Great show, guys!. "Karla" leaps to #3 most requested but PLEASE play the long version of "Karla". The short version loses the magic that this song is.... Phones are just starting for Michael Bolton; absolutely no negs for this cover.... INXS' "Need" is getting top 5 phones. It's still a great song and the album is blowing out of the stores.

Mike Bensson, WBYR, Buffalo

Yes, I'm still here, and I'm still taking music calls Thursday and Fridays from 10a--2p. Call me and we can talk about Cornelius and the Bills.

John Loscalzo, WRCN, Long Island

WRCN is proud to be part of the coat for kids drive this year. Listeners trade a coat for a new lp and the needy child is kept warm this winter in the poorcess.... Love and Rockets is happening big time. Excellect vid-clip.... And finally 'RCN will soon be 100% Cd. Send us all current product on Cd ASAP for on air consideration.... Fleetwood Mac's "Everywhere" has always been my favorite on the "Tango" Lp and it's about time it was made a single.... Moved the Alarm up this week. "Rain" we've had curious ti call since it's release and we see big things for the Alarm and we look forward to upcoming show in in this area.... White Lion Wait moved up in rotation giving Bonjovi a run for his money....

Lorraine Rapp, WAQX, Syracuse

We know love would find a way and it did for a lucky 95X listener who won front row seats for the recent 95X concert event with Yes. Also included in the grand prize: dinner, a limo for the night and a weekend for two in a private condo in Killington, Vermont. Thanks to Atco/Atlantic Records for coming through on a great proomotion.... I'd also like to thank Jack Snyder from Cap for setting up a limo and tickets for a listener and guest to see Joe Cocker in Rochester last week.... Simon and I had a great Thanksgiving in NYC taking in a JCM show at the Nassau Colesium on Friday night. What a dynamic performer! Thanks to Pat Rascona and Brenda Ramono of Polygram.... Sunday night it was the Rangers/Islanders game at the Garden. Not only is it the biggest rivalry in hockey but we got to see history being made when Ranger goalie Bob Froese got credited with a goal. Thanks to Danny Buch for the great seats. #44 is my man. Go Rangers.... Nice to see Bill and Rose McGathy in New York.... Finally our condolences to Paul Yeskel and his family on the death of his grandmother.

Chris James, WTPA, Harrisburg

You think after 20 years a band would start to sound a bit tarnished. In the case of Yes, it's untrue. The current show is just incredible. They sound just as good as they did 10 years ago, my first time I saw them. "Shoot High" had the crowd singing by the song's end; a sure sign of a major hit. Give one of this year's best protest songs a shot.... Thanks to Alex Miller of Atco for helping us with the show.... Foreigner zooms to top 5 requests.

Here's hoping the reunion between Lou and the band stays for awhile.... I love this time of year because things slow down and dynamite bands like the Connells finally get the place where they belong -- on the radio. "Over There" has that Waterboys feel to it along with a 60's sort of sound.... The Rainmakers also take advantage of the slowdown. Phones and sales have really picked up this week. One of America's premiere party bands looks like they may have the track to bust them open.... Finally, thanks to Rick Salvador of Capitol for the help with the Joe Cocker promotion.

Graham Hatch, Frontier, 818-506-6886

Thanks to Jim at KJET and Butch at WVVV for discovering American Music Club. Expect to see them on the road after the new year!... Flying Color is not gonna hurt ya - hell, they might even help ya. So if you haven't explored their new album, you have only yourself to blame.... Naked Prey can be spotted on the new Dawn Hood/Hard Report CD. "Find My Way" is one glorious rocker. Kind of Green On Red meets The Cult!... "Beer Money" and "The Young Fresh Fellows Theme" should be easy adds for you. You don't know how strong the Young Fresh Fellows following is - don't deny them!

Mike Stewart, WIMZ, Knoxville

It seems that newer artists are moving bigger names out of heavy rotation at a time of the year when those bands should be dominating the airwaves! Just take a look - Bourgeois Tagg, The Alarm and Bryan Ferry all in power rotation this week. They are all promising artists who are researched each week and continue to grow with consistent airplay.

David Sadof, KLOL, Houston

Love & Rockets and The BoDeans were great in concert this past week. Both bands played to a capacity crowd.... New on Exposure this week - The Connells, A.C. Reed, Love & Rockets "Waiting For The Flood", Keith Levene "If Six Was Nine", The Northern Pikes "Big Blue Sky".... From our "it's really Big" pile at Autorama this past week at the Astrodome, we unveiled our 20 ft. inflatable Runaway Radio!

Erin Riley, WMMR, Philadelphia

Every Thanksgiving for the last five years, we've had the Hooters play a local club for the holiday weekend. This year, we upgraded them to the Spectrum, an MTV Live Simulcast, a national radio broadcast and a sold-out show. How times have changed! They did a roaring set and were then joined by Patty Smyth for "Where Do The Children Go" and the rendition of "Peace, Love And Understanding".... Glen Burtnick opened the show and from the moment he hit the stage until the Hooters went off the crowd went wild.... Yes were here for two sold-out shows over the weekend. Many thanks to their management and John Weston of Atlantic for coordinating the interview at the hotel on Monday. John, I hope you're picking up the tab for the caviar and champagne. Your band has rather extravagant tastes.

Ivar Hamilton, CFNY, Toronto

It's great to see that Depeche Mode has become such a great box office attraction in these parts. Currently they are out-selling the normal big sellers Yes and Kiss by a large margin. We are still the only station in Toronto that plays Depeche Mode.... A few months ago Don Berns and I spent some time commenting about Pierce Turner when we thought the record was going to be released in the States. Better late than never! "Wicklow Hills" was a top request item at CFNY for over 2 months. If you can get the extended mix, use it. Turner's rendition of The The's "Uncertain Smile" is also a very pleasant alternative. I always think of John Foxx's Ultravox when listening to Turner, although he admits that particular era of the band was not an influence....

The Max Eider album rates with any of the Jazz Butcher material. Please get it into the stores in Toronto! There are many fans up here.... Found another cut from 54.40 this week. "Because Of You" which is on the CD and cassette only is the best combination of vocal harmonies the band has done to date!

Jody Petersen, WNCS, Montpelier

Dan Cardozo of WNCS asks "What ever happened to Dave Dworkin and Mike Tinnes, formerly of WIXX/Greenbay"? Are you guys still doing radio? I am!

Jamey Karr, KACV, Amarillo

A big Texas howdy to David Allen Ross at KMJX and congrats to KATP's Jim Key on his recent marriage.... As we get closer to Christmas and all the label's big guns are out, and before we get tempted to put "Layla" in power rotation to take up the slack check out the B-Teams! Give them a shot. The Grapes Of Wrath, Chris Stamey, The Housemartins and Sinead O'Connor are much better than some three year old cut from male singers who look like Mr. Ed. 'Tis the season to treat our listeners to new music and give "Stairway To Heaven" a rest.

Alex Miller, Atco Records, 212-484-6400

Notes from the road with Yes: Met with Joe Skare in Lincoln where the night life ends at 1 but the hotel room conversation has no limit.... In Louisville, it was quite a pleasure to be threatened in a deep southern drawl by Stacey Yelton and Elaine -- something about being hog-tied to front porch appliances and licked by a blind dog.... It was great to meet Terry Medart in Appleton, Wisconsin. It was dinner with the Dairy Queen of Fondu Lac who spoke of fried cheese curds. Garret Hart's wishing for additional Civil War outerwear while secretly wearing frilly items purchased from any of a number of pink sex shops located off Rt. 41, a road undoubtedly travelled by Rick Panneck in the largest red automobile known to man.... Milwaukee was a treat. In Milwaukee, I've become known as the Pied Piper by the local police force who threatened me with a fifty-eight dollar, sixty cent fine and one night in jail for jay-walking. "Where the hell are you from Pied Piper", he screamed. "You're going to get these people killed by leading them across this highway." The people he was referring to, on that lightly travelled road were the Mikes of WYBR, Thomas and Ferris. It was wonderful meeting Brett Alberts during the show, which was fabulous. The Yes concert should not be missed.... Thanks to everyone who sent me birthday cards and thanks also for your continuing support of new artists like Bourgeois Tagg, Peter Himmelman.... Don't forget that Christmas is coming. So let's make it a Twisted Christmas with the Bob Rivers Comedy Core. If you need a copy of this hilarious Lp, please call. The saga continues.

Megadon, Combat Records, 718-740-5700

Now that Exodus and Zoetrope are ridin' high in the radio charts, bound for the top positions, I guess I can devote a few lines to the question I hear from you guys every day: "Gee Mega, Exodus are God, but what do you guys have coming out next?".... Well, expect our re-issue of the highly underrated Chris Impellitteri mini-Lp very soon. For those who don't know, Chris is a guitar wizard with a difference- he knows how to write good songs, which is something of a rarity these days, methinks. He'll also have a full Lp (with ex-Rainbow/MSG/Alcatraz singer Graham Bonnet on vox) out early in the New Year.... Remember the ads we ran for Exodus that featured artwork totally different to what the sleeve looks like? We're releasing a limited-run picture disc of that classic "banned" artwork. Who knows, if you're good, I might even send you one.... January sees the release of "Beast On My Back," the Crumbsuckers' metal-tinged second Lp.... Also look for "The Return Of Martha Splatterhead", the hard-to-find first Lp by Seattle's demented mayhem merchants the Accused.... Laser maniacs will be happy to know that

Nuclear Assault's "Game Over/The Plague" CD will be out in January, and just about the entire catalogues of GBH and the Exploited will be out under the Combat banner. (I don't know about CD's yet).... In closing, to answer the other question I'm constantly asked, the bands I listen to most often when I'm home include Exodus, Sacrifice, Guns N' Roses, Marillion, Whiplash, Opal, TSOL, Heathen, Death Angel, Zoetrope, Candlemass, Diamond Head, Sacrilege, Armored Saint, and (lots of) Pink Floyd. Happy now?

Greg Mull, WRXK, Fort Myers

The Call is a band that deserves a shot on the radio and "Walk Walk" is the song that will get the airplay. The hot beat catches you on the first listen, and Michael Beens voice is the added attraction that will make this band an AOR staple.... Jethro Tull's "Farm On The Freeway" has re-ignited the album's sales and the listeners demand more. The record is #1 phones this week following the lead track which held that distinction for three weeks.... Sales and requests also demand that Love And Rockets "No New Tale To Tell" be moved into heavy rotation. This will be a hit record for AOR, and when CHR gets it in January it will break there, too. Don't sit through the holidays without this monster on the air.... New tracks that demand immediate attention are: Tesla's "Gettin' Better", The Northern Pikes' "Big Blue Sky" and the debut from Cry Before Dawn.... If you're not already on the Broadcasters, you're late.

Eric Janssen, KDVS, Davis

Go see Negativland if they come to your area!

Catfish, WHMD, Hammond

Thanks to Phil Fox of Capitol and Billy Cox of Geffen for a "white boy" night at the Whitesnake and Great White concert. With Great White a consistent Top 15 retail item here, it makes sense to "Save Your Love", soft bite of course.... REM ain't the end of the world but it is the last word in fine rock and roll.... Elton John is a core artist in our oldies, why ignore him?

Kim Pool, WMRY, St. Louis

This is my last day in radio and I have to say I've enjoyed it immensely! Radio has opened a lot of doors and thanks to all of you who helped me through the past five years. I'm very excited about Reprise and anxious to get out there and cultivate new friendships. Ted, you're the best and I've had a great year at WMRY. Again thanks to all and I want to keep in touch! I'm not going to say goodbye, but see you later.

Ted Habeck, WMRY, ST. Louis

Rather than discuss music this week, I'd like to take this opportunity to wish our Music Director Kim Pool the best in her new position as Promo Rep for Reprise Records. I hope they realize how wonderful a person they're getting. Kim will be a great loss to WMRY; she's the most professional, thorough person I've ever had the pleasure of working with. In as much as we'll miss her dearly, we all know that she'll go far in the record business because she's the type of person who tackles any job with enthusiasm and professionalism. I've never had to worry about things getting done with Kim in place because she knows what has to be done and she gets it done - right - the first time. So Kim remember we love you, we'll miss you and we look forward to working with you for years to come. Best of everything from all of us at WMRY.

Rebecca St. John, WZEW, Mobile

Can't stop raving about the Robbie Robertson album. It's the station favorite and definitely the best album of the year.... The ZEW took a three bus caravan to Baton Rouge to see U2 and The Bodeans - the best show of 1987.

Howard Glassman, WEQX, Manchester

The REM AOR radio staple is one of the best things to come down the pike in a long time. A tip of the Mets cap to IRS. One question though, why preach to the converted?... Finally, WE ADDED THE F**KING SILOS.

Alision Stewart, WBRU, Providence

The Broadcasters have a hook and a half. "Down In The Trenches" rocks along with nifty guitars. It sure gets you singing by the end and for the rest of the day. It should be big. Listen to it, play it and dig it.

Ron Marsh, WKWQ, Columbia

Listen gang, there's a cut on the Robbie Robertson album that's as intriguing as Casablanca that recalls the mystery of Jon and Vangelis' "Friends Of Mr. Cairo". It has the sultry night fog of an American memory. It's Tom Waits in a dark smokey bar and it's Marianne Faithfull's "Blue Millionaire" with a kick. Adults call and tell us how incredible it is. Kids call and tell us that it's bent. Bent just enough to make them love it. Listeners recommend this cut to us and now I'm recommending it to you. It's "Somewhere Down The Crazy River" and it's guaranteed to stir emotion and ignite reaction. Nuf said!... White Lion is an immediate attention grabber from the first line. The females are already reacting.... The Connells have a great anti-war song with a great ambience.... The Peter Himmelman "Waning Moon" is doing great. Please go back and relisten if you haven't added it yet.... We're considering the Sinéad O'Connor. There's a tune by The Greedy's. It's a Christmas song called "The Merry Jingle" that two members of the Sex Pistols and three of Thin Lizzy put out about four years ago if you can find it.... Also The Three Wisemen "Thanks for Christmas" is actually XTC in disguise and it's brilliant. If you can find any of these, they're great for the Christmas playlists.

Michael Davis, KFMG, Albuquerque

The annual year end "Drake Hotel Party" in downtown Chicago is scheduled for Sat. Dec. 26th. The Man of the Year award will be presented to WWCT Program Director Phil Manicki for his upward mobility this year. All Chicago radio personalities are cordially invited. Call KFMG Albuquerque for more details. The suite has been reserved and the annual Lake Shore Drive jog is set for 6 am Sunday December 27th. P.S. All loose girls from Schaumburg and Tinley Park are invited as well.

Larry "Duck" Dunn, WLIR, Long Island

We added an interesting French import from a band known as Fools Dance which features J.J. Burnel of the Stranglers and Simon Gallup of The Cure. Could be a sleeper!... Speaking of imports, we're pounding a live version of "Maggie's Farm" by U2 - off the Self-Aid live album. This compilation features 30, yes 30 Irish bands benefiting the Self-Aid trust.... Turn yourself on to the Anna Domino album, one listen and you'll swear your listening to Suzanne Vega. Check out "Tempting" from her new Lp. Anna was born in Tokyo, but lives here in New York. It's always a pleasure to support someone from your own backyard.... Screamer of the week: German band Camouflage's new import single "The Great Commandment".

Sean Coakley, Arista, 212-830-2178

Read those letters #1-4 two weeks running in that other trade and can only say "Ashes Ashes...All Fall Down." Have a nice holiday and come back in a better mood.

David Fleischman, Atlantic, 212-484-6017

WHITE LION WHITE LION WHITE LION WHITE LION
WHITE LION WHITE LION WHITE LION WHITE LION
WHITE LION WHITE LION WHITE LION WHITE LION...
CATCH MY DRIFT?

Matt Pollack, Relativity, 718-995-9200

Ya know, the more I listen to Joe Satriani's "Surfin' With The Alien", the more I wish I would have followed through with my guitar lessons as a kid. Man, this is a killer! He does things with a guitar that are nearly impossible and perhaps considered illegal in some states! Granted AOR doesn't usually favor instrumentals, this is without a doubt a solid exception. If you can play rock & roll, you can play this. I've yet to come across any station in my travels that has denied the talent and energy behind this artist. Tracks like "Satch Boogie" or the title cut are crosses between Eddie Van Halen and ZZ Top. Yeah, so there's no vocals, so what! Maybe the guy's got nothing to say! No profound statements that are going to alter your philosophy on life, just kick ass rock & roll. Hate to sound so cliched folks, but you try finding a better definition after listening to this one.... And what would one of my comments be without my boys, The Brandos. Hey, when the numbers were big and the phones reality, your initial skepticism about this band was eliminated simply by their ability to play and make headway among the traffic. I can't see how you can justify this band's inability to prove you wrong once again. Toss that around in a meeting.

Victor Lentini, Paradox/Passport, 818-500-7666

Have I ever mentioned that my vision is angled just like those famous Batman shots? Can KBPI, WKLS, KFOG, WRXL, WLUP or 91X really be that far off on Tom Caufield when we get adds like WNEW, WFYV, KOME, KGRQ, WDHA or WNGZ? I'll Can WBCN, KLOS, WXRT, WYNF, KLOL, or WLZR really be that far off on Eastern Bloc when we have adds like KROQ, WHFS, KFMH, KZEL or WDHA. Not to mention a video added to MTV and tour dates opening for Richard Marx? I'll You can't rub Porcelana on these records. These are age spots and they're here to stay! I'll throw in the tote bag and the umbrella. Plus, a date with Sebastian Cabot. I never watch TV.

Dave Fortney, WKLK, Kalkaska

The George Harrison album continues to be amazing surprise. "Devil's Radio" is our new track and the record sounds great on the air.... It's good to see U2 following up with "In God's Country". Definitely the album of 1987.... Had a great Thanksgiving and am getting ready for Christmas in Northern Michigan.... Thanks to Kevin Sutter for the weekend that I missed in Detroit with Jethro Tull.

Harry Reynolds, KOZZ, Reno

The response that we're seeing on the George Harrison "Cloud Nine" album is very encouraging. Lots of phones and lots of positive feedback from listeners and staff alike. Looks like it's going to be a big one for George.

Marty Griffin, KFME, Chico

Holiday greetings from Northern California's rock 'n' roll radio station.... Station favorites this week include an outstanding followup from the Hooters. "Karla With A K" is already starting to perform quite nicely.... Kiss gets some airtime this week with a terrific sounding power ballad.... The surprise record of the week is REM's "It's The End Of The World". Instant phones and an air-staff favorite.... KFME would like to thank Katie at Polygram for an exceptional job on our Def Leppard promotion.

Kelly Reiterman, KKCY, San Francisco

View From A Hill sounded really good on the air. We spotlighted them and great feedback.... Cry Before Dawn was also spotlighted and sounded good.... Sinéad O'Connor's voice is just amazing. We like her sound a lot.

Paul Marszalek, WMAD, Madison

It's already December. The color of the sky as far as I can see is coal gray. I shiver in my bones just thinking about the weather. Yes, Louis, there is a Santa Claus and he finally brought you the #1 item on your wish list. 10,000 Maniacs, "Like The Weather". By the way, good luck in Atlanta, Louis.

Karen Small, WGIR, Manchester

The Christmas spirit is starting. The calls for Christmas tunes are coming in already. It's good that this year there's some new Christmas music for radio to have fun with. I thoroughly enjoyed the "A Very Special Christmas" release. Each Christmas classic gets brought up to date and it's a great way to help out a very worthy cause. Undoubtedly "A Very Special Christmas" will rank right up there with Phil Spector's Christmas Lp as one of the great rock and roll Christmas records.... "A Twisted Christmas" is full of Christmas parodies and just the thing to add a humorous dimension to your Christmas airplay. I'm sure most people will be able to identify with at least one part of the "12 Pains Of Christmas". For Christmas humor, this album fills the bill.... Promotionally, ROCK101 is getting ready for Christmas in a big way. We've got our 12 Days Of Christmas promotion all geared and ready.... Also this Sunday, December 6th, is the First Annual (the first of many to come) Rock For Tots, a benefit for children.

Mark Bradley, WNOR, Norfolk

"A Very Special Christmas" is the best thing to hit rock radio for the holidays in recent memory.

Ty Banks, KQWB, Fargo

Thanks to Bill Rush and Steve Knill for all the help with the Rainmakers/Insiders show. "Snakedance" continues to rattle our airwaves.... Next, "Devil Inside" by INXS is hotter than hell and you ought to give it a try.... The staying power of Tesla amazes me. Sales and requests have been consistent and "Gettin' Better" is another great track.... Finally added the White Lion. We tested it on our Fresh Tracks program two weeks ago and it got immediate phones. It has all the elements to sound great on the air.... More consistent Hooters with "Karla". Song for song, this is the definitive album for them and if you're a fan you've got to play it.

Anthony Alfonsi, WDVE, Pittsburgh

"A Very Special Christmas" album is something that should have been done long ago. From an AOR standpoint, it covers all our demos in terms of artists and the songs selected by the artists are just perfect for them. Even the songs we can't play are great, especially Whitney Houston's. That song sounds like it was written for her.... Thanks to Mark Fritzges of Atlantic for his help with the Yes show.

Charlie Logan, WYNF, Tampa/St. Pete

Not much to talk about this week, but I have to rave about the Connells Lp. A brilliant, innovative and intelligent album. We've been playing "Scotty's Lament" and will go to the "Over There" party this week, too. If you don't have this album yet, make it a priority to get TVT to send you one.... After getting beaten (slaughtered?) by Motley Crue in softball, I had the distinct pleasure of catching both of their sold-out shows. These guys are now pros.... But I can't even tell you how excited and impressed I was with Guns N' Roses. These guys are hot! There is a stunning street buzz to this band. Mark my words, they are the next big rock act. Stunning performance. Growing up on the streets of New York City, I can relate to the seedier side of their music and lyrics. F**kin' awesome, dude.

Rik Elliot, WRQK, Canton

Aerosmith is in top form. They have never been better. Like a fine wine, they have gotten better with age. From the first note

to the last chorus, the crowd was mesmerized and the sound was crystal clear. A phenomenal concert. All I can say is, thanks for kicking my ass with the jam. A five star, must see show. Can anyone match this band's on stage charisma? I think not, no way. "Hangman's Jury" got fantastic crowd response. Maybe it belongs on your playlist.

Patti Martin, KSJO, San Jose

By the time this comes out, the new Eurythmics will be in our hands and ears, the hottest song of the century. If you can't hear this tune, you're definitely in the wrong business. What a monster!... Speaking of monsters, KSJO pulled off one of the wildest promotions we've done in a while. We took two listeners along for a night of "Hysteria", in conjunction with the Def Leopard concert in San Francisco. Grand prize winners were chosen out of all the ticket winners for special treatment. They were strapped into designer straight jackets, escorted to dinner in an ambulance, where we fed them (for a while). I went along, with Martin Wright, our promotions assistant. We were in hospital issue white coats and pants, emblazoned with KSJO/Def Leopard "Night of Hysteria" across the back. Next, we escorted the winners in the ambulance to the concert and backstage to meet Def Leppard, who signed their straight jackets. We did let them loose to watch the concert. We sure got more strange looks than I've ever encountered.... Watch this space for the pictures.

Joe Skare, KFMQ, Lincoln

I just want to remind you that Q102 is looking for artist ID's featuring "Don't drink and drive" messages for the holidays. We want to use them in conjunction with our Life Ride program. Send them to me, Joe Skare, KFMQ, 1540 South 70th, Suite 200, Lincoln, NB 68506

Paul Nelson, WWCT, Peoria

REM's "It's The End Of The World" gets the nod this week. Anyone who thinks REM is still a cult band should count the 900,000 units sold. Let's not hand this band over to CHR.... "Snakedance" by the Rainmakers goes in this week. This band tears it up live, featuring some of the wittiest writing in rock and roll. And even Steven King has quoted them in his most recent novel, "The Tommyknockers", which entered the chart at #1. This is one baby band that still deserves a shot.

Alan White, KILO, Colorado Springs

I have the highest regard for Jimmy Iovine and all the artists who participated in the Christmas album. I hope everybody plays it and reports it open.... I think MSG has something going. Schenker's guitar work is always good, but I think McAuley's voice, especially on this song, sounds like Jon Anderson. Not that they have similar styles, but I think it's a palatable voice and a song that will do well.

Inessa York, KGON, Portland

Before reading this, put somebody's tongue in your cheek. I've been wanting to rant and rave about Love and Rockets for weeks now. But no, I kept my self at bay. Didn't want to feel like an idiot raving about a band we weren't playing. However, all those grueling music meetings have finally paid off and we're on the bandwagon. Considering our station MO, it's really encouraging that we battled and came through. Be re-assured that this is a "quality" record. Sort of reminds me, not stylistically, but perhaps in terms of timing, of the Police three months before "Roxanne" hit paydirt.... Aerosmith has moved into heavy and we can feel the groundswell from the East Coast, though the concert's not til January.... Finally had a chance to spend a little time with Tom Caufield, and found "Precious Town" to be very hooky.

Stephen Page, KOME, San Jose

This week we want to thank Katie Arnold and those guys from Def Leppard for making the weekend here in the Bay Area so complete. The show they put on at the Cow Palace was outrageous. Thanks to Katie for getting us backstage and having the boys in the band sign that boss bass guitar, and thanks to Hamer for the bass.

Cyndee Maxwell, KWHL, Anchorage

While we're rocking with a 7.4 earthquake, we're rolling with some great music.... Michael Bolton's "Dock Of The Bay" really is inspiring. Neal and Jonathan make a great journey to the dock. Listen and before the chills stop, add it.... Bob Rivers' comedy group is hilarious. I expect a lot of calls on these tunes.... You can't go wrong with U2. To "In God's Country", I say, me 2!... Give Beaucoup a shot. "Sweet Rachel" can put this band on the map if you'll give it a chance. It's only rock and roll.

Jim Steel, WIOT, Toledo

A very special thanks to Jeff Appleton of Atlantic and Michael Prince of Atco for the special treatment at the Yes show in Detroit. It was great to see you guys.... No problem with "Lock And Key" from Rush. In fact, I wouldn't be surprised to see both "Time Stand Still" and "Lock And Key" in a Rush greatest hits package in the future.... Our immediate pick to click from Bruce has always been "One Step Up". It's such a moving song you don't even have to be a Bruce fan to relate to it and like it.

Pam Brooks, WPDH, Poughkeepsie

Even though the flu bug has bitten us all here at WPDH, thank goodness it hasn't hit my ears. So, as I tackle the germs, I tackle lots of great music.... The Cars "Double Trouble" packs a one,two punch and aims right for your rock and roll heart. The more I hang out with this Lp the more I appreciate the stuff that Ric and the guys are giving the music scene. And the talent that opened our ears to a different direction.... Have mercy Mama, Mr. Marx is coming to town. I've been good for goodness sake and my wish came true. I can hardly wait till next week to catch him live in the flesh. Great sales and phones put us on our third track and they still call like crazy for the first two. Like I said before, hang a star on this man's door.... I've had the pleasure of catching the Brandos twice and it is a very strong show. This album is a powerful first release and I'm hoping for room ASAP to get on the new track.... I'm not surprised that the Hudson Valley has embraced this man with such abandon, after all, Robbie Robertson and his work are musical history around here. Everyone is clamoring for this album and I know the response to "Sweet Fire" will be as strong as "Showdown".... More thanks than mere words can express to Pat Rascona of Polygram for the great John Cougar Mellencamp tickets for some lucky listeners and myself. I'm a long time fan and the concert lived up to my expectations. We continue the American saga by adding the "Real Life" and giving our audience more of his vision.

Kelly Cruise, WEGR, Memphis

The local sales have been excellent on REM's "Document" Lp, and we've been getting calls for "The End Of The World" so we're giving in. The intro may be hard to swallow, but the hook is definitely infectious.... After seeing Heart's soldout concert over the weekend and the crowd reaction to "There's The Girl", this song will be a big crossover hit -- so get it while it's hot.... I'm still crazy about Peter Dinklage's "Waning Moon". With so many stations on the track, it's obviously a winner. In fact, the whole album is.... In the "blow your own horn" department, the Eagle was voted Memphis' best overall radio station according to a recent poll in Memphis Star Magazine.

Paul Kriegler, KRCK, Omaha

Happy to go on another track from the Rainmakers album. We're playing "Small Circles" and we suspect you will soon be too.... Added the Meat Puppets, I am a full-fledged Meathead now. You can be one too, just call Ray Farrell.... Also got the new Black Sabbath album. Didn't they just recently play Sun City? Well I...I ain't gonna play Black Sabbath.... Belated congratulations to Lindsay Ryan at KUSF and Kathryn Lauren formerly of WBCN.

Pam Edwards, KGB, San Diego

Recently my rock and roll faith has been restored by four great concerts. I attended the U2 show at the L.A. Coliseum as a complete fan. I traveled four and a half hours with a busload of listeners up there, sat in some distant seats while the rain drizzled down and didn't even look for the backstage entrances. The experience was still sublime. The band has a kind of magic that is unmatched. There is no way to walk away from a U2 show without feeling uplifted and rejuvenated.... The next show was Def Leppard and Tesla. Def Leppard is back! It's extremely hard to keep an audience captivated while playing in the round but they pulled it off. While the reaction to the new material was incredible, the response to everything from "Pyromania" was deafening. This band has not been forgotten. Seeing Rick Allen perform was amazing. His attitude about the accident was refreshingly positive and his interview was quite frank. If you get the chance, put him on the air.... And Tesla didn't disappoint either. These guys are major new stars. Thanks to Geffen, Polygram and Cliff Bernstein for all your help on the interviews and the show.... Jimmy Davis and Junction were next with a rip roaring set that knocked my socks off. He's a sweet guy who packs a helluva wallop into his vocals.... And then it was Pink Floyd. Talk about an out of body experience. The subliminal sound and visuals were what hooked me in. But that's the whole point, isn't it? All in all, a great couple of weeks of live music.... It was quite disheartening to read the R&R AOR articles the last two weeks. I certainly hope they reflected minority opinions. Put the contributors in a cage and let them argue each other into A/C or something.... And finally thanks to Atlantic and the "Rock and Roar" boys for making my office the envy of the entire staff. It's appreciated.... P.S. Alan White, I always read your comments!

Jeffrey Naumann, Virgin, 213-278-1181

Mesmerizing, brilliant, best show, best sound, best visuals on this planet -- that's the Pink Floyd concert. If they come to your town don't miss them, it's the ultimate workout for the senses.... Here at Virgin we have one last request from album radio this year: Simply add The Northern Pikes "Big Blue Sky". Don't let this super second cut slip by. Time is of the essence and what a great Christmas present to give your hard working local Virgin rep!... Thanks.

Penny Barnes, Rhino/Rampage, 213-450-6323

Cindy Lee Berryhill is making significant upward moves this week and we're excited to say the least. Stations adding KROQ, WEQX, WTOS, KSPN. Dare to be different. She did and the result is phenomenal. You have the record so give it a listen. Some tracks for your attention "She Had Everything" and "Damn, I Wish I Was A Man". There is no reason for you not to be giving this record consideration.... In case you did not initially receive the House of Freaks 12" "Bottom Of The Ocean" when it was sent to you a few weeks ago, look for it once again in your mail. The Lp is coming to you in January and advance cassettes will be on the way to you shortly. But this tasty tidbit is just a sample of the great things to come.... Pure Rock, Snake Rock. What can we say? First of all a big thank you to the stations that have added the record such as KGB, San Diego and KISS-FM in San Antonio and a tip of the hat also to the ever increasing support from the stations already on. WRCN Long Island, KJJO Minneapolis and

WVX Chicago. Brad, Lenny, Michael and Ralph you guys are great! This band is going places; the bus leaves in an hour and you should be on it.... Snake Rock "Can't stay home tonight". Also check them out on 127 stations nationwide on this week's MJI Metalshop program.... A big response this week to the trivia question that was posed to you. The answer was Jimi Hendrix and some of you who were quick on the draw were KEZO's Joe Blood and Ken Sharp from Denny Somach Productions. Thanks to all those who participated. Here's a new one for you. What Bob Dylan tune was made a hit by the Turtles on their debut Lp in 1965 spawning a succession of hits to follow. Call me at 213-450-6323 and have a great week.

Clarissa Garcia, Enigma, 213-640-6869

Laaz Rockit blasts off. Thanks to all the fine folks who launched "Know Your Enemy". The album is currently crunching its way up the charts -- #12 on Hard Hitters. After they annihilate Europe, Laaz Rockit will take their explosive live show on the road in January. Look for tour dates or ask me for details.... The entries are just starting to come in for the Monte Middle Name Contest. Some of the entries are pretty lame (Phil Hardy), some nicknames don't count (Rich Scroggs), and if I hear "The Waiter" one more time I'll scream. Your mission, should you decide to accept, is to find Monte Conner a middle name. A brilliant, daring, original and all-around middle name. Something he can use with pride. As you know the most important things in life are love and hope and sex and dreams and a middle name. With your help a Monte can have a middle name and live a full life. Well, four out of five ain't bad. You can call me with your entries on or by December 23rd. Winners will be announced in the trades sometime after Christmas. Forget about giving him the McDonald's gift certificates or the cheap cologne or even the paisley tie, Monte only wants a middle name this year, trust me. Call me now!... Special thanks to Miss Chris Black and Jeff Luttrell -- the Metal Slave for putting up with the contest and everything else. Crunch.

Bob Berzins, KRSR, Las Vegas

To "The Sheik". God bless you, I appreciate your support for the Krusher. We need more people like you in this business.

Ray Farrell, SST, 213-833-8977

Wow! The Meat Puppets "Huevos" Lp enters the next CMJ chart at #10! Only nine more to go! The buzz is incredible. What you've heard is true. If you're alternative and not on "Paradise", geez! Don't kid yourself into thinking it'll be forgotten in January. "Paradise" has staying power. Viva Los Huevos! Say no to mush.... KROQ's Swedish Eagle premiered the new FIREHOSE album last week. You'll see yours in January. Check out your advanced cassette. FIREHOSE's Mike Watt jammed onstage last week with Ray Manzarek and Randy California.... Coming soon, Scott Colby - a hot slide guitarist releases his debut Lp "Slide Of Hand", taking the mojo into the future. Elektra/Nonesuch saxman John Zorn is writing material for instrumental trio Blind Idiot God to perform together in Europe.

Jeff Ivan, KFMX, Lubbock

I'm glad Sal brought up the deal about Ace Frehley not getting commercial radio airplay. I don't know why he didn't either. I thought both "Into The Night" and "Rock Soldiers" were fantastic songs that told good stories. "Into The Night" was written by Russ Ballard, who wrote "New York Groove" and I know a lot of you played that cut. Likewise, "Rock Soldiers" was very anti-drug and told a good story that a lot of kids picked up on. In our area the album went top ten sales and top five phones.... There are a lot of other bands that should be getting much more commercial airplay, most notably White Lion. The album "Pride" has melody running all through it. Hell, two of Vito's favorite artists are Elton John and Stevie Ray Vaughan. It doesn't make sense

December 4, 1987

that you'd play Van Halen or Aerosmith and not White Lion. Give these guys a little time and they're gonna be huge. Likewise with Great White who, within two years, I really believe are gonna be as big as Bon Jovi.... Other bands that should be getting strong airplay are: Tesla, who are brilliant, MSG and really Lizzy Borden's latest should be on a lot of commercial stations. All I can say to you programmers is to trust your ears and drop the term Heavy Metal from consideration. I still don't know what the hell it means. If you have to put a label on it use David Lee Roth's -- Big Rock. Watch your sales and your phones, the public tells you what they want to hear. Just give these bands a try at night at least and see what happens. We did that with Guns N' Roses and now they're in our day-parted power rotation and selling records like you won't believe. Trust me it works.

Mike Jones, WGIR, Manchester

I just got back from seeing Lizzy Borden and Shok Paris destroy Boston. What a great show! Lizzy was the consummate showman going through several costume changes and singing his balls off. The band was tight and rockin'. Don't miss this show. It's a treat. Shok Paris played with lots of power and intensity and went down well. Lizzy came up to WGIR to chat with me on my Whiplash show. He gave a fun, informative and entertaining interview. Megahuge thanks to Peggy Donnelly of Metal Blade Records for bringing Lizzy up to Rock101 and thanks to Lizzy for being such a fun interview.... The Anthrax Ep is big def. I just wish I could play the live version of "I'm The Man". Oh well, C'est La Vie.... I still can't get over how good that Warlock album is.... Big week for shows here: Obsession on Wednesday, Rush and MSG Thursday, Mass on Friday, and we'll get the mosh patrol. No sleep 'till Hammersmith.

John Bello, Roadracer Records, 212-219-0077

It's great to see that Blessed Death is getting lots of adds (WVVU, WJUL, WEOS), but don't forget Whiplash's "Ticket To Mayhem", which is one of the best thrash albums of the year. Don't only take my word for it, ask Megadon, Monty "FnJ" Conner and Jem at CMJ. Z-Rock and WHJY have just added it, why don't you?... Gang Green's 12" "We'll Give It To You" and Mercyful Fate's "The Beginning" Lp are starting to work their way into your hearts. It's about time.... A suggestion if I may, start playing King Diamond's "No Presents For Christmas". It's a great holiday song. Enough said.... P.S. Continue playing all of Roadracer's newest releases or I'll get KAT after you. We all know how painful that can be. Until next time, take care.

Monte Conner, Shatter Records, 212-645-5630

Paul Di'Anno's Battlezone has been dominating the metal airplay and request charts for well over 2 months now, but the best is still yet to come. The "I Don't Wanna Know" video premiered on MTV's Headbanger's Ball on Nov 28th. In addition, Battlezone is due to hit the road in January with Obsession. As soon as Paul and the boys hit these shores they will be available for interviews and ID's. A long overdue thanks goes out to the following divine beings for their hand in Paul's hard success:

Chris Black, Jeff Ivan, Kevin Nissley, Jessica "God, those legs!" Harley, Joe Anthony, Ross Goza, Lisa Jensen, Dr. Metal, Shelli B., Mike Jones, Bob Lang, Brad Martin, Mad Max, Wild Bill, Boobie, Ron Simmons, Brian Shock, Sal Treppiedi, Don Weeks, Craig Quackenbush, Jim Hurcomb, Alan Bain, Sandy Scheld, Rudy Mendoza, Tom Smith, Lisa Walker, Chris Vaught, Bill Fisher, Ken Glidewell, Kris Kuper, Jon Johnson, Janet Getchell, Jeff Gilbert, Bob Berzins, John Bello (W), Dewey McCafferty, Mike Z., Vicky Willis, Rich Scroggs, Cheryl Lebeau, Jim Henegan, Mike Davis, the fine folks at WSOU, WWUH, KUCA, and last but certainly not least, the lovely Clarissa R. Garcia.

Jessica Harley, WNGZ, Elmira

First and foremost, I want to say thanks to Michael Coons of Laaz Rokit for the interview and Clarissa for setting it up. Definitely one of the most interesting and entertaining interviews I've ever done. Thanks again.... Attention all you talented metal people out there, our very own Monte "I need a middle name" Conner is still in search of the perfect or semi-perfect (he's taking whatever he can get) middle name. This is your big chance to win a contest -- what are you waiting for? I know you guys and gals are creative and care deeply for Monte so, damn it, give Clarissa Garcia or myself a call with your middle name for Monte. The winner will receive some nifty prizes from Shatter and Enigma.... Back to metal. Another buzz going strong for Anthrax. The live "I'm The Man" is killer. This week the boys move back up into the second most requested slot.... "In A Gadda Da Vida" never sounded better. Slayer's attracting some major phones with this one.... Exodus' "Brain Dead" is incredible. The audience jumped on this track fast. "Pleasures Of The Flesh" is the Lp you all should be spinning.... Hello's going out to: Monte "I need a middle name" Conner, John Bello, Bill Fisher, Mike Jones and Clarissa.... Well, I'm off to see probably one of the most outrageous shows of '87, Anthrax, Exodus and Celtic Frost. Then I'm heading in to New York to help Mr. Death overcome his breakup with the great Kat. He decided to terminate her pregnancy, leaving Mr. Death without an heir to carry on the Death name. Poor morbid soul.

Mad Max Hammer, Z-Rock Satellite

The new singer gives Sabbath a great new sound. Tony Iommi seems to have structured his guitar work differently this time out yet with these changes the sound is still accessible to their old fans and will open them up to wider audiences. It could use some more guitar leads but still is great sounding. It's one that really grows on you.

Kevin Nissley, WUCF, Orlando

Sacred Reich was the surprise of the week. What a phenomenal record.... Exodus is a nice blend of thrash with mainstream metal -- thinking man's thrash. What more can be said about these crazies. Notable tracks include: "Deranged", "Brain Dead" and we're getting lots of requests for the title track "Pleasures Of The Flesh".

OBSESSION

In the world of new up and coming Hard Rock/Heavy Metal bands Obsession is a standout. In a relatively short amount of time they have established themselves as a no-holds barred, hard rockin' band. Band members Matt Karagas, Art Maco, Mike Vescera, Bruce Vitale and Jay Mezas have not only the talent and a tremendous amount of potential, but also a great attitude about their music and the music business. I spoke with Bruce their lead guitarist about their current album "Methods Of Madness" and where they're headed.

Chris: How about some background info. on Obsession to get us started.

Bruce: Okay, Jay - who's the drummer and I grew up together; we've known each other since we were about 4 years old. We got together -- we used to play in this other band, nothing to really speak of. I had a mutual friend who introduced me to Matt in about 1980 and we got together and things worked out pretty good. So we were actually together for about a year before we had any kind of hit, and then Mike joined in 1981. We found him just kind of floating around in the local newspapers...looking for a band. And as it happens we just all kind of hit it off when we met.

Chris: Who are the main songwriters in Obsession?

Bruce: I write all the music and Matt, the bass player writes probably about seventy-five percent of the lyrics and the other twenty-five percent is from Jay and Mike our drummer and singer. So Mike, Matt and Jay write lyrics, and once in a while I might write some, this past album I didn't write much.

Chris: How do you approach writing? Style?

Bruce: We've always been a melodic kind of metal band. It's just a matter of writing what we feel and it's who we are. We try to capture that, not to categorize us or anything, but that Iron Maiden type feel and audience. An all-access kind of audience not just a cult or thrash audience.

Chris: Your record had a pretty good run on the metal charts, and is now beginning to reappear on a lot of playlists. Do you attribute that to anything in particular?

Bruce: Well, I think because we've changed management and hired our own publicists. I think initially we were hurt on the charts because we released the album in June which isn't really a good time, especially as far as the college metal charts go because a lot of the DJs aren't in at the stations. By the time they got back in, our album was already about two months old with about fifteen or twenty new albums ahead of it. So we never really got the initial airplay it deserved. It took a really strong push by us and the people that are working for us now to get back that interest and to get people to dig it out from under the pile so to speak.

Chris: And you have a video out from the album also.

Bruce: Yeah, I think the video helped a lot too. The video was "For The Love Of Money" which we did I think in July. I remember it was the hottest day of the year. We went out under the Manhattan bridge and shot in this big disgusting dirt lot, lit up a bunch of fires all around us, and it was really hot and humid and the wind was blowing and all this dirt was sticking to us and it got really nasty by the time we got to the hotel -- it took like three showers to get where there wasn't black stuff running off of us. But it was fun, and the second part of it was shot out in Time Square the next day which was much cooler and much more happenin'.

Chris: Are you going to do any more videos off this album?

Bruce: We hope to. We're gonna see what happens on the tour with Di'Anno's Battlezone starting in December. 'Till then we'll be doing as many dates all over by ourselves that we can through November. And maybe some possible dates with Lion. So we're looking forward to that but we'll have to see if we'll be able to do another video. If this one helps increase the record sales then maybe we'll get a shot at a new one.

Chris: Do you hold a lot of stock in videos and their role in a bands success?

Bruce: Oh yeah, sure. Especially for us because we haven't had a lot of media exposure and not even really good photos for people to relate to, you know and that's speaking specifically about the last record. So basically there were a lot of people out there liking the band a lot and not really knowing what the hell we looked like or what we were all about. So in that way the video really dictates or gives people a chance to see and relate to what it is we are about and gives them a better opportunity to decide if we're what they like. And so far it's working to our advantage cause it captures our energy -- because we are very energetic live.

Chris: Is live performance as important to you in developing awareness about the band as with video?

Bruce: I think they each hold equal importance. One offsets the other very nicely, but after a few months in the studio it usually becomes a hair pulling experience you

know choking each other and that kind of thing. So it's nice to go and let it all out live. I think playing live is always a high.

Chris: What areas can we expect to see you on this tour?

Bruce: I believe this tour is gonna cover the entire United States. Right now we're playing everywhere from Connecticut to New York, New Jersey, Pennsylvania and down to Maryland and Tennessee and we're doing as many shows as we can.

Chris: Are you looking towards a new album yet?

Bruce: Well, there's always bits and pieces of songs that will come together. What I usually do is in and out of rehearsals I end up putting together so many thoughts for songs that by the time we get around to doing an new album it's just a matter of putting them together. Right now, it's not really a priority because we want to get out there and do as much touring as we can through the summer. I think it's a good enough album to keep touring on and not let it go to waste. I think we can get more sales from it if we get out there and sell ourselves. I think people are getting a good look at the band now from the video and the tour I'm hoping that all hell will break loose for us because no one outside of the Northeast has really seen us live. It's one of the better aspects of the bands -- our live performance. It's one of the most enjoyable parts of the business.

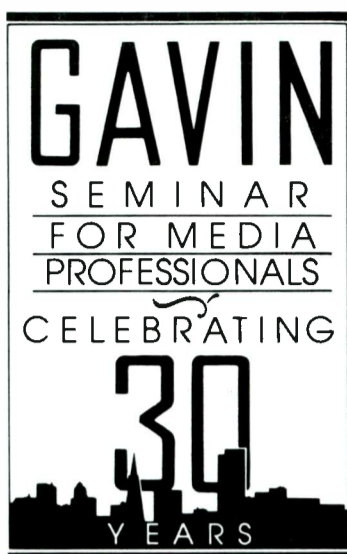

Chris: Any last thoughts?

Bruce: Watch out for Obsession. With our recent change in management and new things happening in organization, we're gonna get our chance to get out there. We're like the bomb ready to explode. We're definitely gonna take advantage of it all so just be aware that we're coming around -- so don't miss us!

Catch Obsession out on the road with the Battlezone and on Enigma Records. Thanks to Bruce and to Gail at Crash Management for your time.
