Living Colour, "Middle Man", Epic.... Having seen Vernon burnin' at the Bottom Line a couple of weeks ago, we're not surprised that guys like Mick Jagger and Jeff Beck are major fans--or that critics from the NY Times, the Village Voice, the Boston Phoenix, the Washington Post, Rolling Stone, Musician, Guitar World and the MedLakes Shopper's Guide have all branded the man a legit new guitar legend. Rarely does playing talent truly measure up to a bio line like "Jimi meets Jimmy meets Jeff", but this guy is legitimately one of the most exciting new flash guitarists we've heard in quite a while. If you love that hard driving stuff with plenty of wah wah and wang bar--just the right touch of feedback--and some of the best foot pedal efx since Jorma, Living Colour will drive you wild. And just wait til you see the video!

Joan Jett, "I Hate Myself For Loving You", CBS Associated.... Actually, her "comeback" started with "Roadrunner" and all those nifty market specific custom versions. And while "Light of Day" didn't do the box office business it might have, Joan's exposure with Michael J. certainly heightened her public profile. Now she's back with more of that straight ahead teen/18-24 stuff that she knows how to do best. You've got to believe that Desmond Child knows how to craft a sneaky hit, there's no better rhythm section that Kasim Sulton and Tommy Price--and how 'bout those Mick Taylor riffs! And while it's true that this particular piece of work is more commerce than art--you can bet that with a few passes you--and your listeners--will be singing that damn chorus.

James Reyne, "James Reyne", Capitol... Frankly, I'm surprised at how many of you appear to be resisting "Fall Of Rome" based on what you perceive as too close for comfort Billy Idol sound similarities. Certainly, there's a resemblance, but once you get past the first ten or twelve bars it's totally James' song. And just read the lyrics. No women nailed to the cross on this baby. This week WRXK's Greg Mull told us his phones were starting--and when one caller was told the track has been played just an hour before, proceeded to request some old Skynyrd. Tell me that's not your garden variety rock radio listener responding. But if you need to hear more of what he has to offer before you commit, be sure to check out "Rip It Up" from the CD. A talent you'll be dealing with.

RECORD OF THE WEEK

Neil Young & the bluenotes, "Ten Men Workin'", Reprise.... You'll read a number of comments this week to the effect that this is Neil's best work in years and years--and it's easily his most dramatic radio blastoff since the "Rust" era--with a super strong 23* debut and zillions of radio raves: WAQX's Lorraine Rapp, "His voice is so instantly recognizable, you don't have to worry that your audience will think you've gone big band. They'll listen because it's Neil".... Mike Boyle screams, "For the first time in my life, I'm a Neil Young fan. The blues is your calling, Neil, and this is a smash".... From WRUF's Brian Jordan, "It stands out because of the horns, and it's upbeat. It has more flavor than some of that older stuff, and it's stimulating".... KBCO's Doug Clifton adds, "This is the best work that Neil has done is years".... WGIR's Karen Small praises, "That swing sound that's perfect for this time of year".... and from KKZX's Christina Gorton, "It's upbeat, the horns should work for the format, and best of all, you can sing along with it. Plus, the bluesy feel is great"....

NEW PLAY PRIORITIES

AC/DC, "That's The Way I Want To Rock And Roll", Atlantic.... If you never moved "Heat Seeker" out of nights and into afternoons we say you severely underplayed a proven core audience winner--something a look at any recent Billboard will still tell you. Just ask any station that had it in heavy, like KSJO--where Patty Martin told us, "After ten weeks in heavy for AC/DC it's time for another track. We put it 'That's The Way' for a few weeks when the album came out, so now it's going right into heavy".... Check the add week--KFMG, KISS, KOME, WHCN, KSJO, KLBK, KFMQ, KKDJ, KRZQ, and more--the ongoing play at KJJO, KLOL, WAAF, WFYV, WHJY, WKLS, etc--and make your move.

Tonio K, "Stay", What/ A&M.... While Tonio's admittedly off-beat approach to the pop rock idiom hasn't hit the consumers where they live quite yet, the tremendous industry support for this album has got to place him in the pantheon of favorite sons. He's got fans all over, and as anyone who has spent a little time with this album will tell you--ample track depth to continue to make a major dent. Hey, Tonio is to you basic music intensive programmer what Jesse Jackson is to the UAW. And these days, they're both beginning to look like they've got a serious shot at it. You built an excellent base via "Without Love", and for our money "Stay" is one of the best rock and soul blue eyed ballads to come down the pike--and potentially a big crossover item too.

Timbuk 3, "Reverend Jack and His Roamin' Cadillac Church", IRS.... And while we're on the subject of individuality or lack of same, what a cool little tune from one of the most distinctive acts on the planet. As usual, their social commentary is right on target, and that crazy mix of harmonica, blues guitar and deadpan vocals really makes this record stand out. You've got to at least use it mornings, right?

Jon Anderson, "Hold On To Love", Columbia.... I was surprised at what an obviously pop effort this is, (maybe even more AC actually), but to continue the theme, it is certainly distinctive. There's plenty of available edge to choose from out there, so the soft corners don't worry us. Mornings and middays, it's really a good one, especially considering Yes has never been hotter with a wider audience. Almost sounds like a TV show intro theme, don't you think?

Capitol

Krokus, "Let It Go", MCA.... Probably the most interesting aspect of this release is the fact that it could really be just about any world class metal band covering any Scorpions tune. Granted, Mark Storace's vocals are a bit of a giveaway, but even those have been tempered, probably in deference to the trend started by Joe "More Melody" Elliot. A couple of loud listens to Fernando Von Arb's guitar stroking will confirm this beauty's claim to a nice slice of your playlist (And really, what's not to like?), but we have to question what's to come of the genre when so many such acts trade in more and more of their individual identities in search of commercial validation.

HARD ACTS TO FOLLOW

Divinyls, "Back To The Wall", Chrysalis.... Checking the first week action on one of our all time favorite and as of yet not quite discovered bands, we find instant adds at ten--including KATT, WFYV, KSQY, KROQ, KWQB, KFMX, KFMF, KATT and WBCN--where **Oedipus** told us, "Divinyls rule! We expect to do very well with this song". If you haven't checked this Mike Chapman production out, please do so--he's at the knobs for a reason.

Ziggy Marley, "Tomorrow People", Virgin.... Can it really be that Eddie Grant's "Electric Avenue" was the last legitimate neo-reggae tune to crack the top 20 at AOR? I think it was. And how long before that did Peter Tosh and Jagger do "Don't Look Back"? I realize I'm not building a particularly strong case for Ziggy here--but mention the above mainly to emphasize the point that the right song at the right time can indeed perform in the context of any mix. And "Tomorrow People" is simply one of the smoothest, prettiest, and sensitive songs we've heard this spring. You're going to see startling early retail on this album, and he's on the road--so get familiar with one you could and should play.

Joanna Dean, "Kiss This", Polygram.... The guys down at WFYV have been telling us about gigantic phones for several weeks now--and Joanna's still pulling close to #1 calls there--with tons of female requests. Mike Areford updates, "We put it on and it fought with Kingdom Come for top phones. It's an anthem, and it seems like a lot of women are getting in on it. Not your usual rock and roll types, but across the board standard females." Granted, it's rough--but it works for Tina Turner and it could work for you. We like to think it's the vinyl equivalent of GLOW.

IMPACT TRACKS

Scorpions, "Rhythm Of Love", Mercury.... Between the "Monsters Of Rock" tour and the four year wait since their last studio work, the anticipation couldn't be higher. The Scorps start with 107 adds, a 28* debut--and #7 Most Requested debut--with KISS, KILO, KRXQ, WHJY, KLOL, KSJO, WIOT and WYNF among 16 in with first week top 5 response. And though we expected more than 23 heavy reports, you can bank on these boys blowing back in with one of next week's top increase counts. **Redbeard** reacts, "It's right down the middle. I think it's a great song to start with, it's got a good little hook, and it certainly doesn't have anything that would stop some of the adult stations from playing it".... From **WCMF's Dave Kane**, "This makes you realize how much their particular sound has been missed. This will bring them right back to the top of the melodic hard rock heap".... **Chris Herrmann**, WHJY, "They've taken the edge off and that should help them with a new audience. The power is still there but it's just throttled back a little".

Rocky Hill, "I Won't Be Your Fool", Virgin.... "Fool" continues to fill in nicely--with play now on 67 reporting stations debuting the album at 42*. It's new on 26, up on KLOS, KRXQ, KNCN, WONE and WNGZ, with KNCN and KZAP moving to heavy--prompting KRXQ's **Ron Garrett's** "KZAP put it into heavy. How much more safe do you need?".... Rocky's got our fourth longest track advance this week, 69-50*.

Iron Maiden, "Can I Play With Madness", Capitol.... "Can Maiden play with Madness?" asks KSJO's **Patty Martin**, continuing, "I doubt it. They don't seem to have that natural ska rhythm. The song sure has taken off though. We put it on last week and it's immediately a top 5 phoner".... But the really big question is "Will it play in Peoria?". And from where we tip, it's hitting those bricks in fine form, as 15 adds bring in the group's first ever OTB chart debut at 100*. **Ron Garrett** calls it "Absolutely their most accessible rock radio effort ever. The early believers will make a statement as to who supports hard rock in this country. This song will separate the weenies and whiners from the do'ers". Hear it on KEZE, KFMG, KFMX, KLAQ, KMJX, KNAC, KNCN, KOME, KRXQ, KSJO, WEZX, WHCN, WHJY and WPLR.

Tracy Chapman, "Fast Car", Elektra.... Admit it. You're surprised by how well this one's doing. Two weeks and 37 stations later Tracy's got the third longest 99-77* move. Ed Levine comments, "It just came out of left field. I can best equate it to 'Luka.' Everybody talks about what the 25-34's want to hear, and I would venture to say that this is certainly what the top end of the spectrum is looking to hear in the way of new music. It will work really well for us".... Increased this week on KBCO, WBCN, KFMU and four more, with KBCO, WDHA, WFNX, WMDK AND WVVV already reporting top 5 calls. Also on WNEW, WLLZ, WXRT, WZEW, and WMAD.

Robert Pepper, "The Unforgiven", Epic.... Come on you guys, this is your old buddy Bill talking to you. This is really an action packed track that nobody seems to be listening to. Between that killer Gary Myrick guitar and the one listen chorus you know this sucker will get reaction. After all, how many records does KYYS add out of the box? It's also on KLPX, KFMG, KFMU, KWQB, WKWQ and WRUF. Hey, we realize there's tons of traffic, but this one's plenty theatrical to get noticed, so listen and let us know what you think.

Cheap Trick, "The Flame", Epic.... We've got serious early phones here, folks--and that's been this band's soft spot the last few times out. We're talking a #5 Most Requested debut--with 22 Top 5 reports! **WKDF's David Hall** comments, "It's always gratifying to have the public responding to one of your personal favorites and that's what's happening here. We've got #1 phones". Or, as **KATP's Jim Kelly** says, "If Guns N' Roses ever do go away, Cheap Trick will jump into the #1 slot in an instant".... It's smoking on the Increase Index, too--with 24 play-ups, most of them medium to heavy moves. Factor in another 28 adds, 124 now playing and 34 heavies, and you've got a screaming 31-18* advance. **KRIX's Sonny Cuellar** comments, "I predict it's going to take off like a mother. The countdown is on".... **Dave Powers**, WHTF, "I've been a fan for years and it's great to have them back. We've been waiting for this album and for the original team to get back together".

George Harrison, "This Is Love", Dark Horse/WB.... The unusually high early heavy play report percentage here says you guys expect CHR to jam this one in about a minute. Of 31 current mentions going into this week, 15 were heavy--and six of the new adds start it in heavy. That list includes majors WDVE, WLUP, WMMR, WNEW and KISW, to drop a few names. Also please be aware it's the Hard Hundred's longest, strongest airplay gainer for the second consecutive week, this time moving 69-43*.

Michael Bolton, "Wait On Love", Col.....

Programmers have told us they were basically just waiting for a little breathing room to roll this obvious crossover champ--and 11 stations found it this week--including WAAF, WCCC, WKLS, WLWQ, WRDU and WTPA. The current count already includes KMOD, KRXQ, KSHE, WCMF, WDHA, WHCN, WLLZ, WPLR, and WRIF--with KSQY increasing. New at 83*. You handed CHR a frybaby last time--so get in early and do it to em again.

Deacon Blue, "Dignity", Columbia....

One of the most consistent debut performers on the street adds another 10 to the list--as a total of 109 now playing improve the album number 33-30*, moving "Dignity" 34-30*. New key calls include KGON, KRXQ, WDVE and WEGR, with increases from KBCO, WBCN, WFYV, WAPL, KOZZ and KMBY. The best early phones come from WFYV, KEZE, WZEW, WKFM, KPEZ, WIMZ, KSQY, KZOQ, WEQX and CFNY. As crazy as the industry is about this record, isn't it about time the listening audience had a little quality time with it? This much momentum after only four weeks deserves medium play at least.

Yngwie Malmsteen, "Heaven Tonight", Polydor....

Hear it on the air a few times and you'll know. As **Redbeard** told us, "Andy Lockridge looked at me after one week of airplay and said, 'The Yngwie is a hit'. It's really going to happen. The hook with Joe Lynn is really huge".... As **WHTF's Dave Powers** puts it, "The vocal by Joe Lynn really propels Yngwie into a whole new arena. Great stuff".

Kings Of The Sun, "Serpentine", RCA....

The royal romp rolls on--with another socko Hard Hundred underline 35-32*--backed up by stellar stats in all the right places: New on 16, including KQRS, WBCN, WCCC, WYNF and WTUE; Up on KGB, KISS, KLBj, KOZZ, KSJO, WFYV, WQFM and 6 more. Currently on 110, with KSJO, WQFM, KWHL, KNCN, KQWB, KDXR, KAZY and KACV the first in with heavy play reports.

TAKE TWO

Henry Lee Summer, "Darlin' Danielle Don't", CBS Assoc....

It's not often that a new artist's first track goes to #1. But the sound of this song makes me think that he could have another chart topper waiting in the wings. If it's been a while since you gave this tune a listen you best pull out the Lp. When it comes to belting out a ballad it looks like he's got that skill down pat. "Danielle" is the kind of song that will bring in those coveted female numbers and light up your phones as well. WTUE, KNCN, WONE and CFOX are among the early 13 on it, with WAPL and WZZQ having it in Heavy. The time is right for those who went out early on "Wish I Had A Girl", this track will do the trick.

Kingdom Come, "Living Out Of Touch", Polydor....

In a survey of programmers with Redbeards, they had this to say about the band, "#1 retail and we just needed to go deeper".... Are you sure he's talking about music? Oh well, these guys continue to be the story of the year and this track will write the next chapter. We then asked for comments from radio people with former Egyptian presidents last names and **WCKW's Al Nassar** said, "It's so forceful, it continues to kill at retail".... The band is definitely loaded, 56 stations are already on board including WNEW, KATT, WLLZ, KLOL, WNOR, KOME, WTUE, KNAC, WYNF, WDVE and KATP. Last but not least, we surveyed those with names like Roger Moore's T.V. characters and **KZEW's Jimmy "The Saint" Christopher** replied, "Continues to grow with steady phones and great research feedback".... With the band set to be the opening act for the "Monsters Of Rock" tour it wouldn't hurt to get this one on. Get this one on? That's a good idea for a song, right now "Living" is singing at 46*.

Glass Tiger, "I'm Still Searching", EMI/Manhattan....

What will undoubtedly be their biggest rock radio crossover track to date locks up another very strong add week--lining up behind Neil and the Scorpys with 34 reports. Ups and Heavies are solid plus, too--with KFMG, KRNA, KZRR, WAPL, WIMZ, WTPA, WZZQ and KFMU increasing, and heavy play from CHEZ, WLLZ, KAZY, KFMU, KOZZ, WIMZ, WTPA, WWZU and WZZQ. **KATP's Jim Kelly** comments, "We've decided to swing in based on the strength of the last album and some very positive testing last week".... From **WLVQ's Wendy Steele**, "Good to hear them rockin', and it goes into medium this week".... Up 44-36*.

Honeymoon Suite, "Love Changes Everything", WB....

Here you can pick any play perspective you like--and you're looking at a gone gator. Increases? KLOS, KATT, KXRX, WEGR, WFYV, KMFG and five more. Heavies? 20, including KAZY, KSJO, WFYV, WHJY, WIOT, WQFM, WRXK, KATT and KFMF. **KQWB's Ty Banks** speaks for the early uppers, "Talk about fast movers, Honeymoon Suite is popping into heavy after only one week on the playlist. Charts? 33-27* on the Hundred, with action now on 115 reporters, 27 of 'em new this week.

David Lee Roth, "Stand Up", WB....

As we wrote last week, there's easy top 10 momentum here. Witness the 25-16* move--and what made it happen: 24 adds, 65 heavy to power reports, and 16 increases--with only 2 decreases and no lights. What can you say--Diamond Dave's earned another slot in your heavy category.

Bodeans, "Pick Up The Pieces", Reprise....

As you've read, everybody loves the Fleetwood Mac overtones, and the early add action indicates the 'Deans have themselves another super solid contender. Two weeks into the project and the count climbs to 27--including KBCO, KMOD, WLLZ, WOUR, WPLR, WRCN, WRKI, WYNF, KLOS, KMOD, WPLR and WXRC. New at 78*.

Pat McLaughlin, "No Problem", Capitol....

Infectious from the word go is all I can say about this tune. It sets your toes a tappin' and when that happens the rest of the body just seems to follow along. **Tony Montoya** at KRQU agrees, "It moves along pretty good. Makes me wish I had a beer in one hand and a fishing pole in the other".... This song has already hooked a mighty big fish, **WLUP**. Does that tell you something about the bait? 6 other stations were on the add list: KBCO, WMAD, KRQU, WCCC, WIMZ and **WGIR's Karen A.** Small exclaims, "It's an uptempo rocker that has it, hands down".... How long has it been since a record label said they picked the wrong number? Your mission, if you decide to accept it, consists of giving this one some more spins, forget that this guy comes from Iowa and remember, **The Loop** put it on, early. This write up will self destruct in 10 seconds.

White Lion, "Tell Me", Atlantic....

Let's talk numbers first. No, not how many stations are on it or where the song is on the charts, we'll get to that later. The ones I want to talk about are sales figures. How does 125,000 units in one week grab you. This Lp will be nearing that sacred platinum ground soon and with more weeks like that it won't take long. An even 50 stations are now on including WLLZ, KBPI, WRIF, KNAC, WNEW, KISS, WTPA, KGB and KILO. They are currently opening for Aerosmith and recently turned down an appearance on American Bandstand. This song is going to pick up where "Wait" left off. Phones will be lightin' and things are gonna get excitin' wherever these boys play, concert or on-air. Currently at 52* after a ten point leap up the Hard Hundred. 125,000 albums in one week, phew, the mind boggles.

Michael Bolton, "Wait On Love", Col.....

Programmers have told us they were basically just waiting for a little breathing room to roll this obvious crossover champ--and 11 stations found it this week--including WAAF, WCCC, WKLS, WLWQ, WRDU and WTPA. The current count already includes KMOD, KRXQ, KSHE, WCMF, WDHA, WHCN, WLLZ, WPLR, and WRIF--with KSQY increasing. New at 83*. You handed CHR a frybaby last time--so get in early and do it to em again.

Deacon Blue, "Dignity", Columbia.... One of the most consistent debut performers on the street adds another 10 to the list--as a total of 109 now playing improve the album number 33-30*, moving "Dignity" 34-30*. New key calls include KGON, KRXQ, WDVE and WEGR, with increases from KBCO, WBCN, WFYV, WAPL, KOZZ and KMBY. The best early phones come from WFYV, KEZE, WZEW, WKFM, KPEZ, WIMZ, KSQY, KZOQ, WEQX and CFNY. As crazy as the industry is about this record, isn't it about time the listening audience had a little quality time with it? This much momentum after only four weeks deserves medium play at least.

Yngwie Malmsteen, "Heaven Tonight", Polydor.... Hear it on the air a few times and you'll know. As **Redbeard** told us, "Andy Lockridge looked at me after one week of airplay and said, 'The Yngwie is a hit'. It's really going to happen. The hook with Joe Lynn is really huge".... As **WHTF's Dave Powers** puts it, "The vocal by Joe Lynn really propels Yngwie into a whole new arena. Great stuff".

Kings Of The Sun, "Serpentine", RCA.... The royal romp rolls on--with another socko Hard Hundred underline 35-32*--backed up by stellar stats in all the right places: New on 16, including KQRS, WBCN, WCCC, WYNF and WTUE; Up on KGB, KISS, KLBj, KOZZ, KSJO, WFYV, WQFM and 6 more. Currently on 110, with KSJO, WQFM, KWHL, KNCN, KQWB, KDXR, KAZY and KACV the first in with heavy play reports.

TAKE TWO

Henry Lee Summer, "Darlin' Danielle Don't", CBS Assoc.... It's not often that a new artist's first track goes to #1. But the sound of this song makes me think that he could have another chart topper waiting in the wings. If it's been a while since you gave this tune a listen you best pull out the Lp. When it comes to belting out a ballad it looks like he's got that skill down pat. "Danielle" is the kind of song that will bring in those coveted female numbers and light up your phones as well. WTUE, KNCN, WONE and CFOX are among the early 13 on it, with WAPL and WZZQ having it in Heavy. The time is right for those who went out early on "Wish I Had A Girl", this track will do the trick.

Kingdom Come, "Living Out Of Touch", Polydor.... In a survey of programmers with Redbeards, they had this to say about the band, "#1 retail and we just needed to go deeper".... Joe Satriani, "Surfing With The Alien", Relativity.... Time to testify my friends, when a man from deep in the heart of Texas has a story like this we must let him come forward. **Redbeard** at KTXQ proclaims, "Tremendous sales continue, tied for #6 retail this week. It beats Sting, AC/DC, David Lee and Pink Floyd".... No, he didn't invent the guitar solo he just brought it to a higher plain. KGB, WBCN and KOME are among 7 who have it in Heavy, while WMMR, KISS, WRIF, KLOS, KNAC, KRQR, KLOL, WYNF, KRZQ and WHCN are among the 59 total stations on it. KFMX, WHEB, WYFV, KQWB and KWHL are reporting Top 5 phones. Hanging Ten at 49* ain't a bad place to be Bro', we expect a tsunami of adds to come in soon, maybe on the next wave.

ALBUM PLAY PRIORITIES

Robert Plant, "Ship of Fools", Es Paranza/Atl.... Shows are selling out as fast as they're announced. He's #1 on the most requested list again and getting more airplay than the Jim and Tammy Bakker story. 1988 will be remembered as the year Plant singlehandedly conquered Rock Radio. Two #1 songs on the Hard Hundred already and here comes "Ship of Fools". **Dave Powers** at WHTF says, "Now that we've gotten past the obvious with 'Tall Cool One' it's time to get back to the meat of the album. 'Ship of Fools' is my favorite and should go top 5 across the board".... 105 stations are already on "Ship" and when the conversions come in it'll fly like a cat out of a cannon. KBPI, WVVV, KSHE, WNEW, KOME, WRDU, KAZY and KISS are among the 35 showing it in Heavy or better. "Plant continues to knock me out with this album", claims **Christina Gorton** at KKZX, "There isn't a dead spot on the whole LP".... With no let up in sight you might as well start engraving his name on a whole lot of awards. Right now "Ship" is mooring at 25*.

Dokken, "Heaven Sent", Elektra.... With this album nearing double platinum status and the "Monsters Of Rock" tour looming in the distance rockin' with Dokken sounds like a pretty good idea. This power ballad is what fans have been hungering for and you can please their palates with play, airplay that is. When Don Dokken belts out a tune like this it can only bring in those all important female listeners. WLLZ, KBPI and WAPL are among 7 new adds bringing the station total to 36 with KISS, WTPA, KILO, KRXQ, KNAC and KOME among them. Another big jump this week 81-64*.

Foreigner, "I Don't Want To Live Without You", Atlantic.... What has it been, 10 years since their first album? With hit after hit under their belt they seem to always come back with another great song, this one is no exception. The Kings of the Love Ballad are back again to tug at your listeners heart strings. How many memories will be made to this one, how many will call it "Their Song", How many will remember to use a condom? The answer to these and other questions will come when you put "I Don't" on the air. Lou Gramm's gripping vocals are now on 99 stations with KLBj, WMMR, WPYX, WNOR, KGGO, KATS, WBAB and KZOO part of the 59 reporting it in Heavy or better spins. Can you hear those female calls now? 22* on the Hundred this week.

John Cougar Mellencamp, "Rooty Toot Toot", Mercury.... If you're looking for a perfect song for spring this could fit the bill. Who better to describe a day in the sun with his best girl Teddi Jo, but the Coug'man. So roll out your blanket on the side of the road, BBQ up some steaks and the rest should take care of itself. Capturing the feelings inside a person seems to be where John is at his best and this song is no exception. It's simple, carefree and easy, aren't those the feelings that are fun to remember? KTXQ, KTYD, WPDH, WZZO and WWTR are among the 7 stations on it. There's no way you can lose on this one.

Joe Cocker, "Rivers Rising", Capitol.... When it comes to pleasing the upper demo crowd there is no one better than Joe. His vocal stylings have once again been captured to their fullest in this effort. When he lets out the trademark scream, it's enough to send shivers up and down your spine. Not to be ignored in this piece are the fine solos by Phil Grande on guitar and Jeff Levine on Hammond Organ. KATT, WLLZ, KILO, WWTR, KSHE, WRCN, KYYS, WTUE and KRXQ are among the 40 that are on it, with KAZY, WGIR, KFMG, KAZY and KZAP having it in heavy. Adds this week include KFMF, WNGZ, KMJX, WBYR and WCMF moving the track up 7 spots on the HH to 60*.

MORE HARD ACTS

Leslie West, "Love Is Forever", Passport.... So you're still a little skeptical about the Les Man? **Jeff Ivan** at KFMX isn't, "You have to add Leslie's very cool new album. Your older demos will eat this up and it should pick up the younger kids too".... KLOS is among the 9 stations to add "Love" this week along with KKZX, KXBR and WBYR. "This is a great sounding track, very upbeat and the Jack Bruce bass work is very welcome", says **KFMH's Phil Maicke**, "All in all, the audience is very big, (no pun intended), on having Leslie back".... Well, like they say, "A friend in need and so on and so forth". All landslides start with a small stone, so when the trickle of adds we're getting turns into an avalanche, don't get steamrolled. Hey, when it comes to comebacks, Les is more.

Sting, "Englishman In New York", A&M.... 6 new adds this week, including WMMR and KLOS, may convince you to give this another spin. For pleasing the upper demo and female listeners the ole Stingster is hard to beat. With those familiar vocals and classic jazz stylings it's perfect for that time of day when the kids are in school and the radio belongs to adults. WNEW, WNOR, KFMH, WPLR, WXXP, KZOO, KLBj and WRCN are among the 30 in Heavy or better rotation. KBCO, WBCN, KISS, WDHA, KNCN, WBAB, KMOD and WONE are among the 94 total on the track giving it a 31* here in Hardland.

INXS, "New Sensation", Atlantic.... If you ask most Americans what their favorite Australian imports are they'd probably say Koalas, Kangaroos and INXS. But not necessarily in that order. The band has taken this country by storm and anyone who has seen one of their concerts knows the effect Michael Hutchence has on women. **WWRX's Dave Richards** realized that, "On the air for only a week and already pulling down Top 5 Phones".... Dave's phone sentiments are echoed by WNGZ, WRUF, WZEW and WZZO. 127 reporters are on it with KISS, WYNF, KSJO, WTUE, KATP, WXXP, KGB, WNEW, KRQR, WLLZ, KTXQ and WAPL among the 69 in Heavy or better. Making like a Wallaby and hoping to 15* this week on the HH.

Great White, "Mistreater", Capitol.... If you had any success with the first two tracks, what's stopping you from playing this one? AOR radio broke the band and took them to platinum heights, so don't give up the ship now. 52 stations have stayed onboard including KATP, WLLZ, KATT, KRXQ, KBPI, KISS, KILO, WCCC, WRIF, KAZY and WQFM. But wait, what's this I see, 5 more adds this week and in the group is KNAC and KLOS. Could this be the start of something big? Stay tuned to this station for all the latest results. 56* this week at Hard Acres.

Dancing Hoods, "Baby's Got Rockets", Relativity.... "My favorite new band out there is the Dancing Hoods", testifies **Phil Maicke** of KFMH, "A killer hook that sounds so good in the speakers I can't believe it".... He's not alone with that statement, the whole office has been hoppin' to the Hoods since the CD came in. 6 Adds this week include KBCO where **Doug Clifton** says, "I understand they have a good following in LA, but it won't take long to spread their success nationally with this release".... What more are you looking for in a song? The music is great, the singing is superb and Lincoln is the capital of Nebraska. **KOZZ's Harry Reynolds** gives it his highest praise, "The Dancing Hoods have one of the best new songs of the year".... No arguments at this end, so all that's left is for you to pick up yours.

Jon Anderson

“Hold On To Love”

CD Single On Your Desk!

10,000 Maniacs, "Like The Weather", Elektra.... If airplay continues to fill in behind the ongoing retail blowout, this could well wind up the long range promo success story of the year. The Maniacs LP percolated along with barely respectable numbers for months--and yet the past two weeks we've seen close to 100,000 units clear the counter. Ty Banks at KQWB admits, "With the renewed industry interest in 10,000 Maniacs we gave it another listen and came up with a medium add this week".... Along with Ty, 6 more stations got on board this week including KATT, KLBj, WGIR and WZEW, bringing the total count to 32. This band is also great on the road as attested by Jane Fredricksen at KTCZ, "They quickly sold out a 1,400 seat arena here in the Twin Cities. That's how hot this group is here".... The Maniacs also made a sizable jump on the Hard Hundred, leaping 15 points to 81*. I'll leave you with the words of a guy who's is really hooked, Catfish at WHMD, "Play it! Add it! Count the requests!!!".

Mission UK, "Tower Of Strength", Mercury.... This second effort from Mission UK is clearly their ticket out of New/Alt typecasting, with quite a few of our mainstream reporters playing this band for the first time ever. Howza bout KATT, KEZE, KMOD, KRXQ, WDHA, WEZX, WLAV, WQFM and WRIF. Once again, don't let the length of the LP version scare you because those thoughtful folks at Mercury have a 4:34 version on the flip side of the 12". Well isn't that special? A Healthy jump on this weeks HH puts the Mission at 82*.

House Of Schock, "Middle Of Nowhere", Capitol.... Where do you go after being a GO-GO? Ya rock to The House of Schock! Though she's one of the best female sticksters since Karen Carpenter, her's was obviously more of a supporting role in the 80's most successful female quintet. Teamed with New Orleans bass man and songwriter Vance DeGeneres the band delivers a hooky little number that's bound to catch an ear. The story is just now starting to build, with KXBR's Denney Goode testifying, "When we first put it on, people were coming into the station off the street asking where they could get the record".... WHMD's very own Catfish gives this review, "A bouncy back beat, fun harmony and moonlight in the hook. Don't let the song title fool you, 'Middle of Nowhere' is definitely someplace".... Capitol is letting radio simmer on this one now, but new adds from WBCN and KTYD may start the pot to boiling, especially with KROQ already moving and grooving at medium.

CHARTSTARS

Treat Her Right, "I Think She Likes Me", RCA.... It's definitely clicking with those blues starved listeners--and here's WCMF's Dave Kane to testify, "We're getting some major league calls. In addition to its unique sound, it is also getting strong call out results and looks like it will be around for a while".... WHJY's Chris Herrmann seconds, "It moves up this week motivated by great phones and an in-house buzz that tells us this song is for real".... That's the bottom line on the statistical trend--with new air on WEBN, WAQX, WIMZ, WKRR, KSQY, KKDJ, WZEW, KATT and KLPX, and increases from 13 (KFMG, KTCL, KWHL, WHJY, WOUR) making for a 39-37* underline. Currently on 101 stations, with heavy play on 19 and Top 5 phones at KXRX, WAAF, WAOR, WCMF, WMDK.

Bruce Springsteen, "Roulette", Columbia.... As per Beaver's feedback on the Long Island show this past week, Bruce singles out the B Sides on the current tour, with "Be True" and "Roulette" all coming up in the first set. It's up on our chart as well--with new air at KAZY, KICT, KLBj, WKLT, WRFX and WZEW and increases from WAQX and KDKB taking it 50-45*. Now heavy at 18, including KOME, KSJO, KZAP, WAQX, WBRU, WHCN and WTPA.

Smithereens, "Only A Memory", Enigma/Capitol.... One of the most active new tracks on the radio, the Reens nail down the #4 slot on the Increase Index with 24 ups, 15 in the Medium to Heavy division. Key calls there include KLOS, KMOD, KOME, KXRX, WYNF and KISS. 57 now list it heavy, 8 more at power, with a total of 169 regular reports just in. With the track muscling 15-8* on the Hard Hundred--and pulling top 5 phones at WAAF, WFYV, WOUR, WWCT, WXXP, KTYD, KSQY, KFMH, KABL and more, it's clearly time to deal depth from an album with great tracks to spare--and "House We Used To Live In" is where to start.

The Church, "Under The Milky Way", Arista.... The play-up count's importance increases in direct proportion to the length of time on the street--and as such yet another 24 increases for "Milky Way" makes this arguably the hottest record on the street--as does the 12-7* Hard Hundred move. It's currently Power on 6 and Heavy at 74--and those mega-calls are still coming in, with WMMR, WLUP and WDVE topping this week's 7 adds. Nice #10 Most Requested debut, too--with KEZO, KPEZ, KRNA, KZEW, WFYV, WHMD, KFMF and KPOI among the phone hot spots.

Kings X, "King", Megaforce/Atlantic.... Now wait just a minute! Don't pass up this paragraph. Have you given this song a listen? Everyone's talking about bands with strange names being overlooked, but what about label names? Yes Kings X is on "Megaforce" but there's nothing wrong with that. Pick that record up off the floor or take it off the shelf, (wherever you put your 12"), and listen to it, I think you'll be pleasantly surprised. 6 stations added it this week (KLOL, WKLC, WDHA, WNGZ, KDXR and KOAS). So look around the room right now.... I'll wait.... have you found it? Good, now put it on and listen and also look at the charts, 98* debut, and it's only the beginning.

The Bears, "Aches And Pains", PMRC/IRS.... The last time I think anyone went crazy over someone named Adrian it was that Balboa guy in "Rocky 12". Or was it 13? No matter, the only Adrian you should be paying any attention to this one--and (as Howard Cosell might say) his name is Be-lew. "Aches and Pains" has amassed 54 stations so far, with WRIF, KKDJ, WVVV, KSJO, KRXQ, WIZN, KFMH, WFNX and KOZZ. "If you want to see the phones go crazy, play the Bears"... says Ernie James at WEQX. He should know. He's got Top 5 calls, and so do KCPR, WEBN and KTCL. This quirky little number has one of the most original breaks so far this year, so don't cheat your listeners out of it. By the way, if you haven't listened to the flip side of the 12", "Talking About Music is Like Whistling About Chickens", you're missing a treat. Our fifth longest gainer 90-71*.

The Adventures, "Broken Land", Elektra.... Here's a band that came from out of nowhere and is already 90 stations into airplay--against heavy competition, the record is moving up. This week's increases include WHTG and KOME where Stephen Page moved it from Light to Heavy, "It's a real fine tune. All the songs on this album are very inventive, have great hooks and some of the best production I've heard in a long time".... KTCZ also believes, they made the move from Medium to Heavy. Moving to 38* this week on the Hundred and breaking ground as it goes.

The Del Lords, "Judas Kiss", Enigma.... Nice to see the add at WYNF and a couple more this week--but you folks are really making Enigma work too hard for this record. It's far and away the band's best work to date--it's hooky, topical--and in a style that's working more and better on the radio all the time. We do have top 5 phones at KTYD, WPLR, KJET, KFMU, KDXR and KACV, with WCCC, KFMU and KMBY increasing. Want response? Roll into the kind of rotation it takes to get a newer band noticed. Up 59-55*.

Robert Plant tops the list again with a hard rolling assault on the Number 1 slot this week. This album full of format teasers is already performing like a house on fire and the tour is, if possible, making things hotter and hotter all across the country. "Tall Cool One" is coming in at Power on CFOX, KYYS, WRXK and KLBj while increases at WMMR, KTYD, KEZO, WRKI and WAAF help Robert push everything out of the way in his relentless drive towards Album Of The Year status.

Another mover and shaker in the Top Ten is George Thorogood who has taken his behavioral bopper "Born To Be Bad" from 6-3* with plenty of juice to give Henry Lee Summer fits. People who enjoy this pick crusher include KQRS, WFYV, WZZO and KFMX where George is ranting and raving in a Power rotation. This is also the week that Midnight Oil breaks into the Top Ten at 12-9* with rotational increases at KLBj, WRXK, WPYX and WLAV leading the way and big phones at KBCO, WBCN, WEZX and KGON following close behind. Now that the tour is underway count on an aftershock of retail to invest new life in this band's consumer awareness.

Virgins everywhere are dancing in the streets with news of the big 17-11* move for Balaam And The Angel this week. This atmospheric rocker has found a home at a lot of format leaders including Heavy or better support play on KYYS, KBCO, WNOR, WFYV and KPOI. Best of all is the album's depth which should continue to please those who have found this lead track so satisfying. Another new band showing continued strength is The Church. "Under The Milky Way" moves from 21-14* with another sterling performance from the Arista field staff. Increases in play at WEGR, KLOL, WLvQ and CFOX bolster things while new play on WMMR, The Loop, KOMP and WDVE expand the impact of this musical breath of fresh air. David Lee Roth and his usual assortment of buxom video babes is shuffling tracks faster than chart physics can keep up with. "Stand Up" makes a ten point jump up the Winners Chart 26-16* this week with adds on WKDF, KLAQ, KGGO and KEZO. Increased play on KLOL, WDIZ, WONE and WRXK shows you can't keep a good boy from Pasadena down. WB's singles shotgun strategy has kept the Diamond One in a fluid pattern that may use up the album quickly but has definitely kept his fans in a delirium across the country.

Neil Young has posted the biggest debut on the Winner Chart since its inception at 20*. Old time fans have found the song irresistible and doubters are swinging on the bandwagon with an impressive flood of adds including CFNY, KTXQ, KTYD, The Loop, KILo, KATT, KQRS, KZAP, WEBN, WEGR, KEZE, KLOL, WFYV, KMJX and WPYX this week. Given the mountain of programmer raves and listener anticipation a-building, count on Neil and The Blue Notes to streak right into the Top Ten in near record time. The horserace this week was definitely between "Ten Men Working" and the new Scorpions track, "Rhythm Of Love". The Scorps popped onto the chart with a 23* that promises more big things to come. This track has a tone that should shine in all dayparts and a sense of restraint that will extend the base beyond their legion of fans. New play this week on KTYD, KICT, KGB, KFMX, KSHE, WONE, KLPX, WMMR, KLOL, KLBj, KQRS, WEZX, KPOI, WEBN and KATT and the royalty of rock radio have given their blessing to what has to be one of the prime albums to watch in the near future. Look for that video support to complete the attack of those Teutonic Terrors. The Scorps are back!

A handful of other songs are finding their place on the premium playlists of the format and the week was a big one for stations doing some spring cleaning. George Harrison breaks new ground for his proven album with "This Is Love" charting at 40*. New stations include KATT, WRKI, WEZX and KICT with Heavy or better rotations at WNEW, WMMR, KISS and KPOI. Rocky and Dusty Hill, sons of a geologist no doubt, with enough musical genes to go round for another six kids. Well, this time out it's brother Rocky getting the nod at WLAV, KILo, WMMR and WZZO while increases on KLOS and WONE help "I Won't Be Your Fool" to a 43* ranking this week. Yngwie J. Malmsteen, (the J. is so we won't confuse him with all the other Yngwie Malmsteens out there I guess), has hit the Winners Chart at 46*. New airplay at KLAQ, KLOL and KMJX backs up steady airplay at WDVE, WEZX, WNEW and KTXQ. Check out that smoking Joe Lynn Turner vocal and remember the line forms to the left. A smokey vocal and some colorful imagery has propelled Robbie Robertson's "Somewhere Down The Crazy River" to a 49* spot on the chart this week. Everywhere this beauty gets aired the requests follow hot and heavy so get on board and make use of one of the most accessible and unique tracks on the market today. Medium or better rotations are reported by The Loop, KYYS, KLOL, WRXK and KTYD while new play on KILo, WLvQ, KLPX and WEZX round things out. For years we have been watching Joe Cocker explore his own musical vision from gritty blues to A/C ballads. His new one, "Rivers Rising", comes across as the most recent synthesis of all those adventures in style and content. Heavy airplay is already reported by KEZE and KZAP and significant support from WLAV, KMJX, KSHE and KILo helps to push the profile on this offering to a 50* debut on the Winners Chart this week.

INDIE IMPACT HITS AT AOR

With all the publicity swamping the indie question, you could just smell the fuse burning on yet another explosion regarding radio's willingness to deal with same. Just this week we saw another development in the story when KSHE and WKQQ supposedly announced their intention to exclude indies from any further contact with their stations. Word has it that the new KSHE policy has eliminated all communication with indies whatsoever while announcing their intention to return the phone calls of National and Regional people on a selective basis. This will effectively position the local staffs to deal exclusively with the station regarding adds on the station. In the meantime, WKQQ has enforced their standing corporate policy of not dealing with indies. The policy was set three years ago when the last big indie flap hit the fan but had lapsed at WKQQ because of a special agreement with corporate management. Sources cite the recent press coverage in Rolling Stone for the decision by the parent group, Village Companies, to enforce their existing policy. The company did permit significant communication between at least one indie and top management before making their decision known. Although a company insider expressed sympathy for the position of the indies hurt by the move, the general consensus remained that the situation was too volatile for the company not to take this action. Despite the fact that the flagrant abuse of promotional perks and influence has, so far, been tracked almost exclusively to Top 50 market CHR's, this may signify the beginning of a "better safe than sorry" policy in the boardrooms of corporations whose primary concern is the avoidance of even a hint of impropriety. This sort of reaction hit hard the last time out and we'll follow the development of this story very closely in the weeks to come.

POLLACK SIGNS WITH WESTWOOD ONE

The Pollack Media Group has resigned their relationship with ABC Radio Networks to pursue similar work with Westwood One. A joint statement made the move public with Jeff Pollack commenting, "We look forward to playing a key role in the development and expansion of innovative programming that stations need in order to win in today's competitive marketplace." Norm Pattiz countered with, "Jeff has a great team that will play an important role in shaping future directions for Westwood One."

THE BILLBOARD SHUFFLE

With former Radio Editor Kim Freeman taking a position with Profile records as National Pop Promotion Director, the folks at Billboard are still shopping for a replacement. Peter Ludwig is in place to handle Kim's duties for the interim but we expect an announcement shortly from Managing Editor Ken Schlager.

KISS/San Antonio and their new morning team. Pictured are Steve Hahn and Eileen Pace who are getting folks up Lone Star style.

ELEKTRA UPS COHEN

Mark Cohen has been promoted to the post of Director of National Alternative Promotion for Elektra. The job is a new one and Mark fills it after holding down the position of Manager for National Alternative Radio. Mark has been with the company since 1983 in a variety of assignments. Of the man behind the promotion, Brad Hunt said, "Mark is without peer in the industry and the growing importance of college radio is extremely important and valuable to us at Elektra/Asylum Records."

Mark Cohen, new Director of Alternative Promotion at Elektra.

JOEL WEBBER LEAVES ISLAND

Joel Webber, who has been one of the Executive Directors of The New Music Seminar, is stepping down from his position as VP of A&R at the cutting edge label, Island. "I've really enjoyed these past two years at Island," Webber told NOISE, "It has been very exciting to help shape an artist roster that will take Island into the 90's." Aside from his work with the NMS, Joel will be leaving to re-establish his own record label, Uproar Records.

SPV SIGNS ON IN AMERICA

The German record group, SPV, has debuted in America with offices in Bellmore, New York. The group of labels handled by SPV will cover the spectrum of music from thrasher and alternative to high energy Euro Disco. The group has a significant catalogue of product already in circulation in Europe so they anticipate an extensive release schedule in the coming year, would you believe 120! The American office is being run by Joe Leonard who was with both Arista and Combat/Relativity formerly. The team at SPV can be reached at (516) 783-3040.

MARK GORLICK GETS IN "UNI" FORM

Long time West Coast Atlantic type guy, Mark Gorlick is jumping over to the newly assembled UNI crew. Information is sketchy at this time but Mark will be headquartered in Los Angeles with Bill Bennett while Sam Kaiser will make the East his home with an as yet unnamed cohort to balance out Mark's Western territory. The label will grow slow to start, but look for big things with wires like Bennett, Kaiser and Gorlick involved.

DOWN TO THE BONE

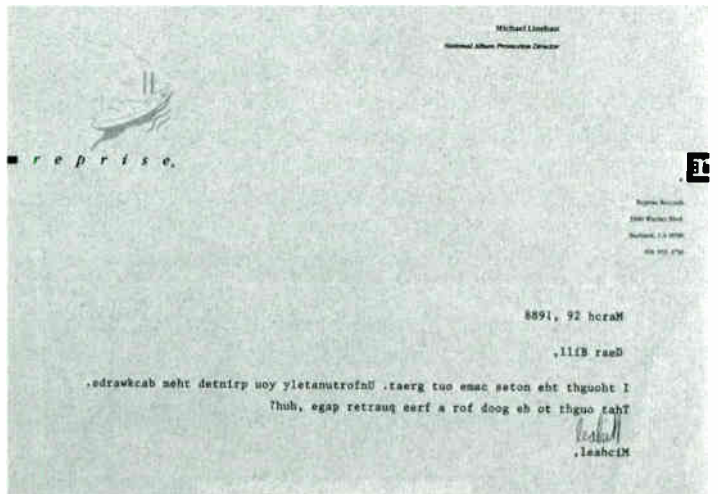

When I saw this photo of that Chrysalis cavalier Prez, Mike Bone, I mistook that device in his hand for something from Madam Whoopee's Latex House Of Pleasure.

THE CASE OF THE REVERSED BLUE NOTE

I knew I had been working hard and my eyes were beginning to give way but when this came for Bill, I started to wonder about what was left of my brain cells....

But the letter inside was a real (eye) ball buster. I'm not sure how Michael got this together but next time include a secret decoder ring, huh guys.

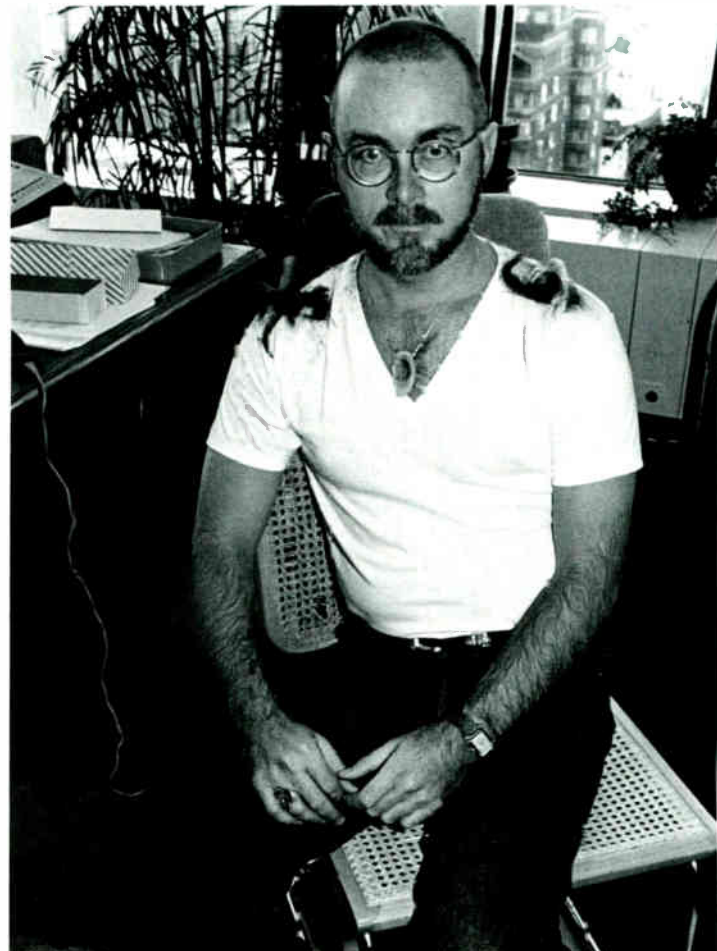

THE COOLIES CONTEST FINALS

Remember these guys?

We gave you folks a while to tell us who this talented group is and what their most recent project is called. Well, the tally is in and these folks were among those terminally hip enough to know the Coolies on sight. The new DB album from these guys is "Doug" and it is getting raves from those who have experienced its tongue in cheek virtuosity. I encourage you to get in touch with Randy Crittenton and promptly hit your knees to beg for your own copy. Actually he's a pretty nice guy and eager to spread the word. And now our winners list:

- David Sadof KLOL/Houston
- Brian Illes WKFM/Syracuse
- Al Scott KZEL/Eugene
- Ty Banks..... KQWB/Fargo
- Allison Heartinger Record Bar/AdVentures
- Paul Marszalek WMAD/Madison
- Zeb Norris..... KSJO/San Jose
- John Koski..... WRVU/Nashville
- Valarie Pittman WRAS/Atlanta
- Phil Maicke..... KFMH/Davenport

But then the truth was exposed like Mike's Hare Krishna scalp job. After vowing to let Sinead skin him if her album hit 50,000 units you had better know that he was going to pay off after the Irish songbird racked up 200,000 albums sold. So one sunny day Sinead came into Mike's office and performed a shave job to collect on his promise. With that, remembrances of Blue Mohawks and formaldehyde rats come surging like a splash of white rum and lime. You want to know how Mike made the top of the pyramid? Start taking lessons on what makes for a promo genius.

CHRYSALIS CROWNS NEW QUEEN OF ALT

Jill Maxick is the new Manager of National Alternative Promotion for Chrysalis. Jill has been with the label as Alternative Field Coordinator and worked in the London Office before that. Kevin Sutter told NOISE, "Jill reflects our maximum commitment to staff development.", to which Daniel Glass added, "Jill will 'Stump' you all!" Charlton Heston was not available for comment.

THE RADIO RUMBLE.... (and how!)

WRIF/Detroit reports the big news that PD Pat Still has been terminated for logging irregularities. It seems that spots were signed off as run when in fact they were not. Audio logs that have been in place since Great American took control of the station are being examined to see how extensive the infraction is. GM Bob Schutt told NOISE, "We missed some spots on Pat's show which is, of course, against company policy and an infraction of FCC regulations as well. We are still tracking the logs to see how deep the problem goes so that we can make things right with our advertisers." When asked about how he was going to replace Pat who also did triple duty as a prime morning man and Promotion Director Bob told NOISE, "We are definitely looking for a replacement for Pat and as far as the morning show goes we will just take that slowly as the situation develops." In the meantime, Scott Jameson has flown in from sister station KYYS/Kansas City to keep things from going boom on the operational front. Just to rub salt in the wound is the additional imbroglio concerning the airing of a bootleg Bruce Springsteen concert that was illegally recorded. To say the least, Columbia Records has taken the issue to the mat and the whole situation has helped to contribute to a "loose canon" atmosphere at the station. In a late breaking development, a local paper alleges that Pat, who is a major league air talent, has already interviewed with a number of potential employers. This is only peculiar given the FCC ramifications surrounding the nature of his firing at WRIF. Further investigation has turned up tantalizing clues that there could be more to this story than meets the eye. It will be interesting to get Pat's side of the story as soon as he can be tracked down.

KTYD/Santa Barbara PD Russ Mottla has packed his bags in preparation for a major schlep back to his beloved East Coast. That decision will finally cap a long term search for a new PD at WIYY/Baltimore. Russ has made a positive impact on the fortunes of the South Coast rocker for the last year and his call to lead the Baltimore blaster is a huge career move. Most likely Russ heard that Michael Jackson and his chimp were moving into town and decided that was just about enough of that.

KRXQ/Sacramento PD Ron Garrett surprised just about everybody with word of his resignation. Management was not available, but a call to Ron found him confident and composed, "I resigned and that's about it. I'm considering all options and I feel good that in the two years that I've been here that the results are there for everyone to see, they speak for themselves. I think that when the Book comes out April 27th the numbers will be good. Basically right now I am considering other options." Ron can be contacted at (916) 482-4038.

KFMG/Albuquerque announces their new PD. He is Glenn Stewart who has been holding down Music chores at WHJY/Providence for as long as we can remember. When NOISE found Glenn on the phone he was understandably enthused about his new assignment, "I've spent some time looking for the right opportunity and this is it. KFMG is an excellent operation and I anticipate being able to turn things around. This is not just a job, it's an adventure." For his part, GM Jeff Guier is also one happy guy, "We interviewed a number of people and feel that Glenn will bring the perfect balance of talents to our station. We are looking forward to a long and productive working relationship together." Glenn hits the station April 18th and will leave his MD responsibilities at WHJY in the hands of staffer Chris Herrmann for the time being.

WYNF/Tampa Bay unveiled their new custom built 95YNF guitar when the guys from Whitesnake blew into town. Pictured with their new call letter axe are bandmembers Tommy Aldridge, Adrian Vandenberg and Rudy Sarzo. Flanking the boys with the rockstar do's are WYNF's Jon Volmar and Russ Albums.

KNAC/Long Beach have ceased their relationship with the Pollack Media Group. The station will continue their highly unique Pure Rock format and, for the moment at least, will fly solo.

WGIR/Manchester had their station van hijacked by a couple of California Raisins at a station event recently. All over the city the pilfered van was spotted racing from point A to point Z, prompting phone calls that jammed the station lines tighter than Donald Trump's colon. Eventually some gung ho mall security types hammered the Raisin gang and it took some fast talking by the station management to keep them out of the hooskow. It was, after all, April Fools Day.

KFMZ/Columbia has found a replacement for Craig Stevens. Their new PD is Rick Jeffrey and he hails from KQKY/Kearney.

WXRT/Chicago has been awarded First Place for Spot News and Reporting/Individual Achievement in the 1987 Illinois UPI competition. News staffers Neil Parker, Charlie Meyerson and Michelle Damico were all spotlighted for their contributions to WXRT's deep and strong news approach. In the past WXRT has been awarded 15 UPI Awards so you might say this is old hat for them. What it really is is an indication of their serious commitment to real radio.

WLUP/Chicago has been sold in a corporate restructuring that has effectively split the H&G Broadcast Group co-owned by Cecil Heftel and Scott Ginsburg. The pair have formed separate organizations and The Loop has been dealt to the Statewide Group headed by Ginsburg. Although the maneuver is highly complex it seems that a running total of 76 Million was the overall tab for all the stations involved.

WPYX/Albany is getting a little carried away with their Spring Book promotion. They are giving a listener a shot at grabbing as much cash as they can in a bank vault. The maximum possible jackpot, \$106,000. If it were my gig I'd cash out a few ton of nickels and make the greedhead work for that change.

KDKB/Phoenix has made it official. Jerry Trujillo has gotten the nod and is the station's fulltime MD. No word about music hours changing so we will assume that things remain as before.

WBAB/Long Island has promoted Jeff Levine to their PD slot with former PD Bob Buchmann going to VP/Programming for the company. Jeff had been APD for the last four years and acting PD for a six month trial period. Now the trial is over and Jeff gets the gig. When contacted by NOISE Jeff told us, "This change has been part of the station's evolution for the past couple of years, our course will remain the same. Thanks to Bob, Tony and Norm for all their confidence in me."

WKLT/Kalkasa married their Morning guy, Dean Berry, to Midday madam, Terri Ray, on the air. The local paper gave them front page coverage and the phones were glowing with congratulatory calls when Terri called everything off after she discovered that Berry had been a Television evangelist in a previous life. She must have seen those pictures of him and a sacred cow together, or maybe it was just April Fools again.

A couple of things that you will never hear on **WXRT/Chicago**.

WGTR/Miami vocal pivot player the Bearman is reported on a northward migration. No, it's not the Salmon run. Word on the street has him headed to WZZO/Allentown for mornings and a more tranquil domestic scene. Those Pennsylvania boys are pretty lucky to get a top notch boomer for their morning duties in return.

KGON/Portland threw the Fourth Annual Mayor's Ball with a full blown 8 stage setup and some 53 local bands hammering the locals. Homeboys made good, The Dan Reed Network, headlined and KGON was on hand for a live broadcast.

Last week our Fax machine went boop-shooby and burped out this communication from an intelligence far greater than anything on the face of our small bluish green orb. I don't know about you, but I'm still sleeping under my bed.

WKLS/Atlanta has put together a statewide talent hunt for promising new bands. Dubbed the "96 Rock Off", the contest will run for eight weeks straight and the finalist will cop \$1,000, some studio time and a demo that will get circulated at the major label A&R level.

KGB/San Diego has hired Greg Steele as their new weekend warrior. Greg was formerly the PD at KNOX/Grand Forks before his move out West.

KMJX/Little Rock is getting in gear for a couple of big events. First they are moving their whole operation to a new location, details to follow. Second, they are preparing for a huge outdoor show to usher in the warm weather with a handful of local bands, Jimmy Davis and Junction and Joe Walsh. Burned backs and braincells are guaranteed for all.

WIZN/Burlington has some changes in their announcer line up. PD Steve Cormier has moved himself to the Executive Noon to 2pm shift while making parttimer Mike Luoma his allnight talent. New music hours as a result are now Monday from 9:00 - 11:00am and 2:00 - 4:00pm. Our best wishes to Tom Van Sant who will be out for a while with a malady that only time and rest can cure. Talk to you soon, buddy.

KMBY/Monterey has moved to fill their afternoon slot with Debbie Scott. No other staff changes are expected and life goes on around the marvelous Monterey peninsula.

WBVR/Buffalo has shifted back to full blown AOR after a flirtation with CHR for a few months now. Seems that the audience response wasn't maintaining a positive trend so, back to the old blackboard jungle. Former news guy Charlie Seitz has been upped to APD in the process.

WONE/Akron shook out Mike Michelli recently and they are looking for his replacement. Interested MD types who can nail an airshift shut should send their package to Brian Taylor at WONE, 1735 S. Hawkins Ave, Akron, OH 44320. On the other side of the fence, Mike Michelli can be reached regarding any potential on air and/or MD positions available at (216) 928-5488.

WBCN/Boston got a chance to spend some time with Robyn Hitchcock when he swung into town recently. When Robyn showed up he brought along his buddy Peter Buck and the pair pulled out their guitars for a jam session that further validated WBCN as the place where musical magic happens on a regular basis.

KILO/Colorado Springs and more April Fools Day stuff. All day long they promoted that they would have Pink Floyd live on their roof at noon. Phones burned up and police were called out to manage a crowd of 3,000 who blocked traffic and milled about in front of the station. When the magic moment came a full PA system was hoisted into action and some screened limos pulled up in back. Then the station cranked out three in-concert recordings of the band while they distributed tickets to their upcoming concert in Denver, albums and a ton of free pizza and soda to the throng. A few room temperature IQs got upset, but most of the crowd went home happy and full.

Some rock and roll survivalists waiting for the pink punchline during KILO's April Fools extravaganza.

WLLZ/Detroit morning guys Jim Johnson and George Baier have reupped their lucrative contract with that piston pounding Motortown rocker. When contacted by NOISE reporter Hugh Ben Stuck the guys said, "How did you get this number? I could buy you ten times over" click...bzzz. Nice to see that success hasn't changed those guys.

J.J. and George pictured in front of a huge blank check signed by all the people in Detroit that they could buy and sell. Actually the guys wanted to present a mammoth get well card to Detroit Red Wings Captain Steve Yzerman when he injured his knee recently.

KFMQ/Lincoln recently celebrated turning up their brand new 100kw transmitter on a 1200 foot stick. How better to do it then to get those good rockin' Dynatoners in town for a show. Pictured are KFMQ PD Bob Allen, Dynatoners Big Walter, Tony Perez, Randy McDonald, KFMQ's Michelle Chase and Dynatone member C.C. Miller. The guy in front? That's KFMQ's Morning man and MD extraordinaire, Joe Skare.

WAQX/Syracuse held a rock and roll auction to benefit the Central New York Food Bank and a few jocks of the other sort dropped by to help auction stuff to the public. Pictured are Pete Ewald former Orangemen defensive back, WAQX's Meg Cooper, Cooper Gardner Orangemen punter, WAQX's morning monster Jeff France, Daryl Johnston Orangemen fullback. Bobcat Goldthwaite hit WRCN/Long Island recently to talk about his new film with Bill Murray, "Scrooge", or as it's working subtitle is known, "Anything But Police Academy". Photographed with the Bobcat is WRCN's Tom Calderone and John Loscalzo.

KBPI AND PART II OF THE DENVER DYNASTIES

Our continuing survey of the Denver market touches base this week with Gabe Baptiste at KBPI. Gabe is an agreeable pro with an interesting outlook on his job and the market he programs for. In talking with Gabe you get the feeling that he has been doing this the right way for some time. His intensity to win is matched by an almost casual overview of how this business really works. The end result is a balanced approach that precludes any tendency to kneejerk. In a fiercely competitive market like Denver, where traditional images hang tough, that personality is ideally suited to a powerhouse like KBPI.

UNLIKE JOHN BRADLEY YOU AND ANDY SCHUON AT KAZY ARE PRETTY NEW TO THE MARKET. WHEN DID YOU TAKE OVER AT KBPI?

Gabe.... I came into the station in July of 1987.

WHAT SURPRISED YOU THE MOST ABOUT THE DENVER MARKET?

Gabe.... How young the market is. That really struck me especially after spending time in Miami. You know, lots of blue hair types, barely seeing over the steering wheel coming at you the wrong way on a one way street.

AND SCREAMING AT YOU TO GET OUT OF THE WAY, YOU BASTIDS!

Gabe.... Exactly, it was very different for me.

WHAT WAS YOUR TRACK RECORD BEFORE KBPI?

Gabe.... Like I said, I spent some time in Miami at WINZ before coming here and before that I was WXPB in Davenport from 1979 through 1985.

WHEN YOU GOT TO KBPI WAS THE STATION ALREADY ON TARGET FOR ITS SHARE OF THE YOUTH MARKET IN DENVER?

Gabe.... Definitely, one of the strengths at KBPI has been that we are so tuned into our audience and have been for years. The staff is very strong and our sound is well defined in the mind of the listener.

THAT SOUND HAS BEEN DESCRIBED BY SOME AS AN AOR/CHR HYBRID. DO YOU AGREE THAT THE STATION BORROWS A LOT OF THINGS FROM THE CHR FORMAT IN TERMS OF PRESENTATION?

Gabe.... That's true to a certain extent, but in the past this market has had a number of very foreground contemporary stations. Just because we are AOR doesn't mean that we have to be background in terms of our presentation. Even an A/C like KHOW in its prime was a very foreground station. So there is definitely room in this market for that kind of sound. And with the size of the AOR listening group here being as large as it is, it fits in very nicely. In my background that's just good aggressive radio. This is the kind of radio that doesn't just lend itself to any one format.

THE GEOGRAPHY OF DENVER WOULD SEEM A MAJOR FACTOR AS WELL.

Gabe.... There are a great number of nuances in the market that I am only just beginning to comprehend and the spread out nature of the city and its bedroom communities is certainly one of them. Even short commutes run at 30 to 45 minutes and that creates some interesting drivetime conditions for our station.

HOW DO YOU COUNTER-PROGRAM A STATION LIKE KBCO?

Gabe.... Really it gets down to being as good as you can be in your own genre. Stations like KBCO win with a feeling, an atmosphere as much as anything else. The musical selections and the people on the air have helped fashion a station that can't really be emulated or confronted without hurting your own efforts. KAZY tried that and it didn't work all that well.

AND WHAT ABOUT KAZY, HOW DO YOU PERCEIVE THEIR EFFORTS RIGHT NOW?

Gabe.... The most noticeable thing going on there is the number of changes being made. The station is definitely going through a period of transition. A few months ago they were a classic rocker and now their current list is longer than ours. It's like they took a list of every AOR gimmick in the world and put it all on the air at the same time. None of my research shows me that the audience is asking for that.

HOW DO CURRENT ROTATIONS DIFFER AT KBPI AND KAZY?

Gabe.... At KAZY the rotations are very lunar. We feel that the best way to treat music is to give the people what they want and that means to play only the right songs and to play them often enough to satisfy the listeners desire to hear them.

DOES THAT MEAN HEAVY ROTATIONS CYCLE IN LESS THAN A DAYPART?

Gabe.... Yes, our Heavy records rotate in less than a daypart usually.

WHAT KEYS THE SUCCESS OF YOUR STATION FOR THE MOST PART?

Gabe.... A strong sense of tradition that hasn't been messed with and the people to pull it off.

DOES THAT MEAN THAT YOU ARE IN A HOLDING PATTERN INSTEAD OF, SAY, KAZY WHO HAS BEEN REBUILDING?

Gabe.... Not at all, we are still moving along and as for rebuilding that is something that never stops. We have to continue focusing the station and to do so we make use of perceptual research and music testing to make sure that we are in touch with audience.

IN OUR KBCO INTERVIEW JOHN BRADLEY MADE MENTION OF THE TRANSIENCE OF THE MARKET BEING A PRIMARY FACTOR. HOW DO YOU READ THAT SITUATION?

Gabe.... I think from the Boulder viewpoint that transience is more of a factor than it is here in Denver proper. The town is going from an all out boom to something approaching normalcy. The business climate here isn't nearly as desperate as some of the locals seem to think.

A STATION LIKE KBPI, THAT FASHIONS A SOUND OF ITS OWN WOULD SEEM TO ATTRACT A MORE DIVERSE AUDIENCE.

Gabe.... The station has the same core that you would expect from any AOR but beyond that you're right, we do draw from a variety of psychographic elements. It's like the mystique of living near the mountains. Can you describe that, I don't think so. Some of our listeners might be taking it easy in their blue jeans while others are making business calls in their cars and wearing a Brooks Brothers suit. The market is diverse and our audience just reflects that.

Gabe Baptiste

The KBPI Urban Assault Party Studio

WHAT PROGRAM ELEMENTS CONTRIBUTE TO THAT ABILITY TO WELD TOGETHER AN AUDIENCE THAT DEFIES PIGEONHOLING?

Gabe.... There a number of separate factors involved but mostly I think it's a personality or sense character that the station has and I want to keep it that way. I mean if it was the liners or the rotations, you could steal that and effectively steal the success of the station, but how do you steal a mystique? Relying on format tools exclusively is just fostering weakness in your strategy.

WHAT HAS JOHN EDWARDS BROUGHT TO YOUR PROGRAMMING TEAM AS MUSIC DIRECTOR?

Gabe.... Well, he certainly is opinionated and keeps things lively. John is a Denver boy and he knows the market very well, that's important here. There are some towns you can go into and get a solid feel for in a pretty short time but Denver isn't one of them. John's knowledge of the market has been very important.

WHAT ABOUT A CONSULTANT?

Gabe.... We work with a consultant but we choose to keep that relationship to ourselves.

AH HA! THE OLD SECRET CONSULTANT TRICK EH? HOW DO YOU SEE THE MUSICAL FLOW IN THE MARKET SHIFTING THESE DAYS?

Gabe.... I think it's like when the Def Leppard Pyromania album came out in '83 and we saw everyone measuring themselves against that standard of excellence. Now they have come out with yet another album that is the epitome of great rock and roll and everything seems like junk compared to it. Then, unfortunately, the record companies figure that metal is working so they sign everything in sight. We need to realize that the epitome of that sound has been released, sit back and see what happens, and realize that everything else will be judged by that. It's really far too early to tell but everything is cyclical and that seems to be the direction it's headed.

KBPI IS NOTED FOR A VERY ACTIVE PROMOTIONAL PROFILE WITH LOTS OF BIG TICKET ITEMS ON THE BLOCK.

Gabe.... Yes we are very active in promotion. As for the platinum quality of those efforts, we gave away Porsches in the Fall Book and ran a remote from Jamaica for a week. Right now we have a Prize Catalogue promotion utilizing bumper stickers. If there is a medium we dominate it's billboards and bumperstickers. We are also getting some surprises ready for the market. We have an urban assault party vehicle that is like a rolling billboard and mobile studio all in one. We are also getting ready to unveil the world's most interesting mascot.

RESEARCH IS SHOWING THAT MASCOTS ARE MAKING A COMEBACK. THAT WITH AN INCREASINGLY FRAGMENTED MARKET PEOPLE, YOUNGER MALES ESPECIALLY, ARE VERY EAGER TO IDENTIFY WITH SOME SYMBOLIC IMAGE THAT MAKES THEIR STATION SPECIAL.

Gabe.... Well this sucker is going to set the market on its ear. It won't be an animal or a monolith. In fact I would be willing to say that nobody in the whole world has a mascot of this genus.

LET'S SEE, A WHOLE NEW GENRE OF MASCOT AND, TO WRAP THINGS UP CULTURALLY, I WOULD GUESS AN AMOEBA WEARING A CONDOM.

Gabe.... You've been talking to people Jim, I thought we had kept a lid on this.

IF YOU HAD TO SIMPLIFY THE KBPI PHILOSOPHY WHAT WOULD YOU SAY IT IS?

Gabe.... To make the station a fun place to work. To make it the one station that everyone in town wants to work at because of the atmosphere. Eventually that atmosphere comes out on the air. When it gets right down to it, I will sacrifice ratings to keep that atmosphere and group dynamic in tact.

This is a station that obviously makes their own rules. The book on KBPI is that they combine elements of CHR and AOR in exactly the wrong proportions and yet their continued success is undeniable. The elements of CHR that lend themselves well to modern AOR; talking on a record when the intro is appropriate, mixing tempos in a calculated way, promoting consistently so it doesn't sound out of place.... all these factors make KBPI a mood shift cuming monster. And those quickly oscillating rotations keep the best music available to the station in front of the listeners regularly. Best of all, the station is in touch with its market in a way that proves that localization is far more important than the rule book.

AIRCHECK CORNER

One thing you know when you tune into KBPI is that you will get a very upbeat presentation and where better to get a slice of that than in the morning show. Morning host J.R. comes from a CHR background and his mannerisms remain closely associated with that format. His associate, Nancy Harris, had only been on line for two and a half weeks when we heard her. The goal is obviously to offer an active show with lots of community minded information structured in a high energy music mix.

As expected from a show like this an air of positive energy permeates the breaks. Sometimes the sense of humor seems a bit forced, hand claps and laughter apropos nothing in particular, but for the most part the chemistry is tight

given the short period of time these two have had to get their chops honed.

The Prize Catalogue contest is a bumper sticker contest with serious CHR overtones. It gets significant promo and the execution is, by the very nature of the contest, rather lengthy. The vocal style is fired up and raring to go, these people are not talking to you so much as at you. Double time breaks and a preponderance of repetition when it comes to lifestyle information like weather and traffic, even sports, comes across like a high cume turnover station.

The musical backdrop for the station is a notch hotter than I'm used to in the morning but it isn't insistent, rather it goes up and down the tempo graph in a precisely controlled curve that is neither too hard or too passive. The songs are distinct to the station and not always the typical "hits", there are just enough surprises musically to keep the station interesting. The format appears to position long music sweeps in obverse quarter hours from those heavy with information to diffuse any sense of "Talk-Rock".

A sign of how talented a highly produced show really is comes when they have to deal with the unexpected, in this case a malfunctioning CD player. To their credit the team jumped right in and played up the "CD attack from Hell" in a way that flowed and worked admirably as a segue. Unfortunately the object of their segue was an extremely long news break that included a traffic check with a third voice, a weather check and extensive list of school closings due to weather, spots, a satellite report from Maui and a weather recap to follow. Now, while the content was excellent and was really very well done, the sheer volume of it weighed me down. To top it all off they then went into a comedy spot that, in my opinion, couldn't help but be overshadowed by the bulk of the previous break. A stand alone or into stop set position would have given it much more prominence. Now, perhaps the Denver market is really that information conscious, but it seemed a bit much to me.

Phoners with contest winners and amusing bits like "Mystery Meat" came off as very entertaining later in the show because they didn't have to compete with quite so much verbage and because they were genuinely done and funny to boot. It is unfortunate that I heard this tape when the team had only been working together for two and a half weeks because they hadn't really gelled yet. As a result the skeletal "bit oriented" structure of the show was more obvious but I hear real potential for this show to smooth out those honeymoon jitters.

NO QUESTIONS REMAIN

It's like the Bill Murray character in "Caddyshack" said, "Cinderella story, a band from Harrisburg, Pa. goes to L.A., then sell over 3 million albums, become world famous and are being chased by Robin Leach for an appearance on *Lifestyles of the Rich and Famous*"... Well maybe they're not being chased by Robin Leach but ask most any female who's heard or seen Poison and you'll find who's after them. In the beginning they couldn't even get a record label to chase them. But after their multi-platinum debut "Look What The Cat Dragged In", that's all changed. By the time you read this Poison will have hit the road with David Lee Roth and a close look at the group's rider for the tour reveals some interesting statistics. More than 5760 cans of beer, 876 bottles of Evian water, 180 large Domino's pepperoni pizzas, 60 buckets of Kentucky Fried Chicken (extra crispy), 1752 bite-sized Reese's Peanut Butter Cups (smooth) and out of respect for the Surgeon General's request for safe sex, the band will have 876 lubricated Trojan condoms at their disposal. Recently I talked with self-professed "Motor Mouth" and lead singer of the band Bret Michaels about what's coming up with Poison and their new LP "Open Up and Say Ahh"....

Beaver Brown: I understand that on this album you will focus more on your musical expertise and are leaving the glam image behind...

Bret Michaels: The musicianship has always been there, I think that because of the image, people naturally slack us off as just an image band. I think now we have a chance to do a real record. Cinderella and Guns N' Roses had a chance to do that the first time and we didn't. Ours was an independent record. Now we have a real budget and real time and I think the record will open up quite a bit. By no means are we going to sacrifice the image. The image will be just a strong but the musicianship will be 10 times stronger....

Beaver: How is it working with a top notch producer like Tom Werman...

Bret: Tom is the kind of guy that doesn't do anything with your songwriting. All he does is when you're in the studio he brings out the best in what you're doing, he brings the best out in what you have....

Beaver: When did you write the songs that are on the record....

Bret: Most of the riffs were written on the road. How we put our songs together is everyone comes in with their idea and they play it for the band. Each member gets to have their input and takeaway what they think won't work so each person has a key part in the songwriting process....

Beaver: Have you realized what your first album did yet....

Bret: I don't think I'll ever realize it. Hopefully it will never hit me and I'll stay as hungry as I am right now. I'm still very defensive, I still feel like we haven't accomplished anything yet. As funny as that sounds I still feel like I'll go someplace and say "Yes I don't know if you've heard of us but".... I still have that club band feeling sometimes....

Beaver: When a band has a big first album a lot of scrutiny is put on their followup, are you worried about this album....

Bret: (Laughs) Put it this way, I haven't slept since we came off the road, so if that's any indication, I'm definitely worried. You don't worry day by day, but you worry when you stop and think about it all of a sudden. During the day I'm so busy trying to make it work you don't think about it, but when you lay down and you're trying to go to sleep at night you think... "What if this doesn't sell, what if this happens, what if no one likes us this year?"

Beaver: Does it bother you to think people have labeled you as a video band....

Bret: Poison wants to have the perfect mix of musicianship and showmanship. If you have too much showmanship you become a circus act, if you have too much musicianship you become boring and the fact of the matter is and I'm going to tell you this straight out, I don't think there's been a band in the history of rock and roll that's taken more controversy than our band. We were voted best and worst of 87 by every magazine,

I don't think any band has ever done that. People want to come out and see what Poison's gonna do, love us or hate us, we always have something up our sleeve. People say to me, "Why do you need to do a video?" Well, why not? We have that side to us so why not bring it out, why hide something. I got into rock and roll so I wouldn't be limited to anything. All of a sudden people are trying to put us in a box of what "they" think we should do, we are going to keep doing what we feel we do best.

Beaver: How did you manage to hook up with the David Lee Roth Tour....

Bret: That's a good question (Laughs), we're not quite sure yet. In the past David Lee has taken out good bands like Cinderella and Tesla, but I think this year he said "Wait a minute, this year we're gonna put on the biggest, most entertaining, rock and roll extravaganza we can put on" and he picked Poison for the opening act and that was great for us....

Beaver: Having seen your shows a lot in the past 2 years and knowing what your concerts are like, is the stage show going to change much....

Bret: This year it'll be a whole lot better. We'll have time to sit down and work a little harder at it. Last year we kind of stumbled on to the big stage. We had never been on a big stage in our life. This year we know what the stages are like and we can go out and put on a great show. I think the spontaneity mixed with the choreography is what gets people off. I love playing music so there's never a night that I go on stage that I'm bored. There have been nights when I went on and I was sick as a dog, but we were able to put the show on and it was fine.

Beaver: Since your meteoric climb you've played shows with some of the big bands in rock, what's the bands feeling about that....

Bret: It's almost like a mixture of being a fan and being on stage. You can't combine the two feelings. After we were done at the Texas Jam I watched every band. When I watched them I felt like a fan and when I was playing I felt like I was in a band. So you see I'm caught between two feelings. It's really weird. But if I ever lost that feeling then I would start to get scared. If I start to think all these people are just people and it doesn't matter anymore and they don't mean anything, if I start feeling like that I better double check where I'm at....

Beaver: Tell us a little more about the new album....

Bret: The most kickass song on the album is "Love on the Rocks", that's one of my favorites and then there's a ballad called "Every Rose Has It's Thorn." It kind of has that old Stonesh acoustic guitar feeling. We have another called "Fallen Angel" which was written about a girl I had invited to move out to California and she kinda got caught up in the whole Hollywood scene and just got taken over by it. The first single is called "Nothing But A Good Time" and the flip side is called "Look But You Can't Touch" which is pretty self-ex-

planatory, Actually it's a cool story once you read the lyrics, the whole story just sort of comes together. "Back To The Rocking Horse" is a song about the simpler times of the band. Because when we got off the road with Motley Crue it seemed that everyone sort of climbed out of the woodwork and nothing was simple anymore. It was really weird for us so I wrote this song. We also do a cover of "You're Momma Don't Dance". There's a song called "Good Love" that I play harmonica on....

Beaver: That's one of things, people always see you jumping around and dancing and singing, your musicianship is something a lot of people don't know about....

Bret: I play harmonica, keyboards and guitar. You see it's gonna take time. We're supposed to go through a progression. If we came out on stage our first year and we were totally professional, like a Whitesnake, where we already had 8 years of playing experience under our belt, and if we acted like that our first year, what are we going to do 8 years from then. So the first year we're like a firecracker up our ass, the second year we still have the firecracker up our ass but we also have a little bit more professionalism about us, more chance to show our musicianship. This year people are going to see that and each year its going to progress. People are trying to compare us to bands like Motley who've been playing big stages for 5 and 6 years. C'mon its our first year, you have to give us a chance to progress to that level. You just have to wait to hear this record and the next, the progressions is there and the ability is too, you have to progress naturally. I can't stop and say, "Wait a second, I have to be like Robert Plant or David Coverdale or someone like that", although they're great they have so many years under their belt I can't touch it. I've got to progress to that level. And another thing, because of the way we look and the way that our band is people are never going to fully accept us as a musician band. If we took all the make up off and still went out and raised hell they would say we were better, we just took the make up off there's no difference. How that hinders our musicianship I don't understand at all. I'll tell you a lot of people bought our record and they didn't buy it to see what we looked like. If that had been the case they would have looked at it at the record store and left it there. This new album is going to be really different for Poison. Here's how we've progressed in a sense. Our first album was recorded in October and November of 1985. So everyday since then I have seen a gradual change in the band. But for people all they have in their hands is an album that was recorded nearly 3 years ago. When they get this record it's like "Boom", 3 years of change. But for us the change is everyday. So when people listen to this album they'll say, "Wow, listen to this, Poison has progressed to the next level." That's what we want them to think.

Beaver: There was a lot of talk that your album was bought by little girls and women only....

Bret: That's the biggest misconception about our band. Now don't get me wrong, I love women to death so it's not that. But the big misconception is this "pretty boy", "poser" thing. Unless you can say that you saw us and we didnt kick ass on stage. I remember going out there every night and raising as much hell as we possibly could and just having as much fun as we could and being as tight as we could and whats wrong with that? Its like someone wants to blame us for enjoying ourselves.

Beaver: What would you like to say to the people in the Industry out there who will be deciding whether or not to play your record on the radio....

Bret: I think that if you give Poison a chance, your gonna find that you're going to enjoy it. I think that the musicianship is there. If you rememeber what rock and roll is all about and take a good look at what our band's doing, I think it describes what rock is....

NEW RELEASES

The Chills "Brave Words" (Homestead)

The brisk strum of guitars that fuel the Chills' humble melodies will finally reach the States thanks to a long awaited distribution deal with Homestead Records, licensed from Flying Nun. "Brave Words" is the debut album, and after an ever-changing line-up, lead man Martin Phillips returns a band that perfectly treats his bright, refreshing songs with the perfect combination of bar chord simplicity, stormy passion and quiet time. The personality of this New Zealand quartet is irresistible both on stage and record, and the "House With A Hundred Rooms" single is irresistible with its light piano flavor and sweeping theme. And those keyboards blending clear through "Wet Blanket" will warm your heart long enough for "Look For The Good In Others" to erase any suspicions that this innocent pop band doesn't rock. An album who's ebb and flow of emotion is not only enlightening, but offer songs that reach out and touch your every mood.

Dancing Hoods "Hallelujah Anyway" (Relativity)

Originally based in New York, this quartet brewed up some of the best home-grown guitar based pop the city could offer. They recently headed West to the land where bands range from flowery psychedelic to roaring metal, and found favor in the eyes of the mass audience between. With a swift hand at writing and playing rock American style, their romantic innuendo holds magnetic appeal among the multiplying legions of Dancing Hoods admirers, and the single "Baby's Got Rockets" is a direct stab at the radio exposure they wholly deserve. With a garage approach that always seems to be cleansed with studio finesse, it's no surprise that "Hallelujah Anyway" continues the trend with songs of inspiration and tender ballads that show them in fine form - not formula. Tracks like "Torn Away", "Better Look Up" and the rootsy feel in "Welfare Shoes" won't get lost in the crowd.

Pixies "Surfer Rosa" (Rough Trade)

On their second album, this Boston based band returns to finish what they started on their debut last year. A contempt for clone rock is the most blatant message found here, but lo, that cool, clean production from Steve Albini of Big Black is a contradiction that inspires further inquiry into their ruthless, blistering songs. If the result is a cross between uneasiness, anger and downright confusion, you'll be right on all counts. If this one's too hot, get outta the kitchen. The jumbled marriage of ideas found here is new music to the ears of more than you'd think, but then so are the Butthole Surfers and Sonic Youth, and like their counterparts the Pixies find no room for imitation. The mysterious echo-chamber sounds of "Where's My Mind" liken to a mix of Gene Loves Jezebel, Love And Rockets, Gary Numan and arsenic; "Tony's Theme" grinds its savage surf beat into your funny bone; "Oh My Golly" sounds like a Ho-Down gone wild; and "Break My Body" falls somewhere between, garnering early underground airplay.

PICKS Continued

Naked Raygun "Jettison" (Caroline) When hard core bands began spreading like wild fire, and sounding more like each other in the process, Naked Raygun rose to the surface with razor sharp punk and metal influences that motivated two ballsy independent albums that left the rest behind. Let's just admit that these guys are the essence of cool. As for "Jettison", their song topics still range from militant-protest to reckless party brawls, but those screeching, distorted guitars are still well placed, laying an all out rock assault on the front line. A pounding bass, and crashing drums are a perfect backdrop for Jeff Pezatti's vocal fire power in the new and fiery track selection highlighted by "Walk In Cold" (horns?!), "Soldier's Requiem", "Ghetto Mechanic" and "Free Nation". Five extra live tracks and the "Vanilla Blue" single will be included on the CD.

CHARTSTARS

Peter Murphy "All Night Long" 12" (Beggars Banquet/RCA) The first single #1 Most Added with the highest 16* debut on the airplay chart/12* alternative tracks. But numbers don't reveal the full power of this stellar lead track from "Love Hysteria", out soon. A soothing danceable mix of maramba keyboards, under the vocal melodies of an important solo artist, one that mainstream radio is finally ready for.... Deb Brady, WXXP says, "Peter Murphy's 'All Night Long' moves him accessibly away from his Bauhaus past".... KTCL's Joe Simon adds, "We're very excited about the new Peter Murphy single and our listeners will eat it up!".... Ivar Hamilton at CFNY admires "His best effort to date! He will undoubtedly reach a much wider audience than in the past and this new album is first class all the way".... KUSF's Tim Ziegler reports, "The single is getting terrific response here in San Francisco." 21 reports this week bring the total to 27 Hard stations including WHTG, WDRE, KBCO, KROQ, WDET, WFNX, WXXP and CFNY. I can't say enough about this one... but you will be when you hear the cover of Iggy's "Fun Time".

Ziggy Marley "Conscious Party" (Virgin) Just out, the album is certainly a priority this week as #2 Most Added, with 20 new alternative reports including WHTG, WXXP, KABL, KACV, KROQ, WMDK, WOXY, WHFS and KRCK. Not only is Ziggy's approach to reggae refreshing, but he takes island music one step further - to the world. Produced by Chris

Frantz and Tina Weymouth, this album boasts a wide spectrum of musical influences riding high on some of the most inspirational tunes like the "Tomorrow People" single, "Lee And Molly", "Have You Ever Been To Hell" and "Tumblin' Down".... Paul Marszalek, WMAD says, "I'm Happy to hear that Ziggy Marley stepped out on the right foot with 'Tomorrow People'. I see a bright future for the one who could be reggae's heir apparent".... Deb Brady at WXXP notes, "Ziggy picks up where his father left off and he doesn't need to ride the coat tails, either. 'Tomorrow People' is just a taste of an Lp that offers a great mix of pop and reggae".... Bill Evans at KTAO praises "He's not just the son of a music pioneer. These songs are wonderfully written, making this album much more than reggae only."

The Bears "Rise And Shine" (PMRC) Their debut album laid such a strong base the first time 'round, that it's no surprise that "Aches And Pains" has already advanced to 71* Hard Hundred. The mainstream appeal is certainly there, with an alternative consensus that proves Adrian's progressive support is as strong as ever.... Doris Duwe at WTSR says, "I like this better than the first album. It's more adventurous but still an easy listen".... Paul Kriegler at KRCK claims, "Songs like 'Aches And Pains' only come around so often, and they go down easy!".... Tim Ziegler/KUSF adds, "Adrian Belew should not be overlooked. He's as important to pop music evolution as Brian Eno and David Byrne. People may think this is a mainstream record only, but that's not the case".... 30 Alternative stations are now playing the single with mentions on "Complicated Potatoes" and "The Best Laid Plans".

The Mission U.K. "Children" (PolyGram) Advancing to 10* this week, it's easy to predict that The Mission U.K. is headed for the nationals with the early success of "Tower Of Strength" (hear it on the Hard Attack Alternative CD). 6 mainstream adds this week help fuel the growing crossover story, and the momentum of a strong track line up will keep this band on alternative playlists with "Beyond The Pale", "Kingdom Come" and more. Airplay highlights include KJET, WOXY, WHTG, CFNY, KABL, KACV, KITS, KLOL, KTCL, WFNX, WBCN, WHFS, WXXP and WVV.... Paul Kriegler at KRCK reports, "Already #2 Most Requested, and for us the next track with be 'Heaven On Earth'. This album has a wealth of goods songs from which to choose".... WXXP's Deb Brady says, "The Mission U.K. is really doing well. 'Tower' is a solid single from an album of the same that's a lot more accessible than you'd think."

Wild Swans "Bringing Home The Ashes" (Sire) It wasn't until I experienced the whole album that I did a 360 Degree turn around before the 180, but programmers are doing the same. This band rises above every cliché in the book when it comes to English rock sensations because their debut holds music of great beauty and leaves a lasting impression with songs like "Northern England", "Archangels", "Mythical Beast" and the single, "Young Manhood". Howie wasn't kiddin'.... Mike Thomas at WMDK reflects, "This is one of the better albums I've heard in '88".... Ivar Hamilton, CFNY says, "A few more listens on the Wild Swans album really helped to conclude that there are influences of The Smiths, Lloyd Cole and Icicle Works throughout. It's a brilliant debut!".... Renee Blake at WKXL says, "The Wild Swans draw you back to listen again and again".... KTCL's Joe Simon is "...playing practically the whole album and everything sounds so great on the air!".... Now in the Top 20, the single moves to 14* this week as 26 reporting stations remain steadfast.

Tracy Chapman (Elektra) You can throw comparisons around as much as you want to, but this debut is as compelling and personal as they come. It tells a story that could be anyone's, but the delivery is what counts, and Tracy's got the goods. WMDK's Mike Thomas declares, "This will be absolutely huge, and not just in New England. 'Fast Car' moves to heavy in just one week and is reminiscent of Joan Armatrading but better".... Jetson from WOXY says, "Let me be the next person to rave about Tracy Chapman. We added 'Fast Car' as soon as it came in. What a record! Don't let it pass you by".... KBCO's Doug Clifton says, "Her lyrics are powerful and voice hypnotic. We'll be spending lots of time with her in the future".... With 40 reports to date, she's off to a fine start with airplay at WNEW, WMAD, KBCO, WHTG, KROQ, WFNX, WRAS, WFNX, WHFS, KTAO and more.

MUSIC NEWS!

"Blue Monday" by **New Order** is the biggest selling single in England's history, plus, the longest charting single. With the recent acceptance of New Order at hit radio, the long standing status this band has enjoyed at alternative radio and the progressive club scene, a remix of "Blue Monday" will be this week on Warner Bros. It's a CD single remixed by John Potoker and Quincy Jones.... A new single from **Jesus And Mary Chain** will be in your hands also, titled "Sidewalking". The new album, "Barbed Wire Kisses" is due in May. It is a compilation of B sides that have never before been released

in the U.S.... **Greg Kroll's** album debut is distributed by Profile Records for the KBT-FM label. This Southern New Jerseyite met with Gary Burke (Dylan and Joe Jackson player) about 3 years ago and the result is a jazzy mix of mainstream rock with enough smokey atmosphere to land a spot on KROQ with "Help Yourself To My Heart". Contact Dan Tobin, Peregrine Management for more information (212-860-3517).... As mentioned a few weeks ago, the first radio sampler from the band **Stump** is out from Ensign/Chrysalis Records. The forthcoming album is titled "A Fierce Pancake" and boasts all music, wild and wonderful. Sometimes sounding like Wall Of Voodoo meets R2D2, this English band uses imagination to guide you through a sound experience not of this earth, and the witty lyrics are unlike anything you've heard since Zappa or Beefheart. The four song sampler includes "Charlton Heston", also found on the Hard Attack Alternative CD (call me for your instant copy) and the first college radio track, "Alcohol". Jill Maxick is the new Chrysalis Alternative rep who will launch an all-out Stump promotion this Spring.... **Feed Time** is not just another Australian guitar band. Their new album on Rough Trade is "Shovel", and it's a heaping load of power chords ala The Cramps or Poison 13, thrown together in a high speed rock'n'roll blender. A great sounding way to start the day (or night), this trio will never subscribe to any mainstream rock rag. But Rough Trade does so write to them at 611 Broadway Ste 536, NYC 10012 for your copy.... **The Walkabouts** are a northwest band of modern psychedelic folk players, led by the enchanting voice of Carla Torgerson. The new album, "See Beautiful Rattlesnake Gardens" is available on Popllama Records, home of the Young Fresh Fellows, and also the new album from Joey Kline, "Pomp And Circus Pants". We took their advice and played this one LOUD. They made their mark, and now it's your turn. The address for Popllama Products is P.O. Box 95364, Seattle, WA 98145.... **The Rave Ups** have scored a major label deal with Epic Records, and this band certainly warrants national attention with the first 12" single "When The End Comes Before Its Time". A heartfelt group that mixes fireside warmth with the western twang of pop guitars, "The Book Of Your Regrets" is the full length album debut that Rave Ups fans have been waiting for.... Punk mentors, **The Dickies** have returned with an Ep available on Enigma Records titled, "Killer Klowns". Although the "Gigantor" daze are long gone, this band continues to be one of the most entertaining club bands ever (thanks to Leonard Phillips' blow up body parts and quick tongue). As the soundtrack band for the movie "Killer Klowns From Outer Space", the Dickies are still one up when it comes to outrageous rock humor, stiff riffs and fried minds. Send in the Klowns.... England's **Then Jericho** make their American debut with the single, "Let Her Fall". A hazy mix of euro-dance with slick guitar leads, powerful vocals and one listen means this one's headed for hit radio very soon.

Out now on MCA Records.... Caroline Records will release the new Swans cover version of Joy Division's "Love Will Tear Us Apart". This needs no further introduction, and the music will most definitely speak for itself. Robert Conroy is the new radio rep for the New York based label and can be contacted at 212-219-1500.... Rykodisc has just released CDs of major importance to history of punk aficionados. First, **The Mission Of Burma** which includes the "VS." Lp, "Signals, Calls and Marches" Ep and the "Academy Fight Song" and "OK/No Way" singles and extra tracks from the "Horrible Truth About Burma" Lp. A historical feast for ardent admirers of the now defunct Boston band whose members eventually went on to bands like Volcano Suns and Birdsongs Of The Mesozoic. Speaking of Birdsongs, the second CD, "Sonic Geology", is comprised of songs from the three albums originally released on Ace Of Hearts Records. HEAVY HITTERS

Iron Maiden, "Can I Play With Madness", Capitol....

The lead off number from the new "Seventh Son Of A Seventh Son" Lp has stormed the charts with a 16* debut, coming in at #1 Most Added Metal. They also landed #3 Most Requested Metal, rivaling such die-hard requests items as Metallica, Kingdom Come and Judas Priest. "Can I Play With Madness" also managed a #100* debut on the Hard Hundred. With all this happening on the strength of the import CD of "Madness", one can only imagine the turbulence that will surely accompany the release of the album. But there is definitely amped anticipation for the rest of the record. Those who can appreciate a good thing when they hear it, though, seem to concur with the likes of KFMX's Jeff Ivan when he says, "...comes the finest ever from Iron Maiden. We already added it to our regular rotation. It's got the hook, the riffs and the keyboards add to it's beautiful colors", and WOUR's Captain Kevin Kasky feels that, "The new Maiden brings a broader base of melody to work from. Sounds great!" This album is up there, with undoubtedly with the likes of "Number Of The Beast" and "Piece Of Mind", and when the whole thing hits the streets it could even rival those.

Hurricane, "I'm Onto You", Enigma....

Here's the first cut from the upcoming "Over The Edge" Lp and this rhythmic rocker's catchy hook phrase doesn't quit. Na Na Na Na Na Na....We're into them in a big way. Featuring the brethren of such big name rockers as Rudy Sarzo and Carlos Cavazo, this band has the goods to rival the success' of bands like Whitesnake and in better times, Quiet Riot -if given the chance. With some short lazy guitars licks slidin' in here and there and some very strong and emphatic Kelly Hansen vocals, it builds in intensity and by the first chorus, it's really stompin' along. Another nice thing about it is the keyboard bed under the driving guitars and drums. ("Ugh! Keyboards?!!", you say - but in this tune they really work). The ivories are so subtle in fact, that you don't really notice them unless you really listen for them. They add a fullness to the overall feel and strengthen the whole song structure. Band members Kelly Hansen (vocals), Robert Sarzo (guitar, vocals), Tony Cavazo (bass, vocals) and Jay Schellen (drums, vocals) have put together a great mix of fast, pounding rockers and melodic mid-tempo grinders on their first full length Lp. We're expecting big things to happen for this outfit in the very near future.

Scorpions, "Rhythm Of Love", Mercury....

Klaus Meine and Co. have re-entered the rock n' roll arena with a out-of-the-box, must add rocker that's stylish and obviously tailored to the mainstream/hard rock audience. Luckily this track isn't so far removed from the harder, trademark Scorpions sound, that it might alienate their core audience. It may in fact, widen that audience considerably into other demo groups. The song has all the ingredients intact, that make a Scorps record sound like it should. That is, the power-house vocals of Klaus, a heavy emphasis on guitar harmonies and solos, strong, emphatic chorus', clean lines and melodies and the tightness of a rhythm section that has played together for well over a decade. This week they land at 25* on Hard Hitters and take #2 Most Added Metal and #10 Most Requested Metal. On the AOR side of life things are just peachy-keen for these German metal masters, coming in with a 28* debut on Hard Hundred, #2 Most Added and #7 Most Requested. All this with just a 12". The album's gonna be a monster.

Fifth Angel, "Fifth Angel", Epic....

After the great beginning this record experienced, who can say what'll happen from here on out. This week they bang in with an impressive 5-2* move on the legendary Hard Hitters Chart, while succeeding in blowing some pretty big names out of their way in the process. People like WAIF, WARC, WBIM, WBNY, WGBW, WGIR, WHFS, WHJY, WHMH, WJUL, WKVU, WOUR, WPYX, WRCN, WWVU, CHEZ, KFMX, KISS, KQQK, KRSR, KSLC, KSJS, KJJO, KNAC and Z-ROCK can be thanked for helping to make this act happen. Remember that there are other tracks to chose from on this quality offering. Be especially sure to check out "Wings Of Destiny", "Only The Strong Survive" and "Cry Out The Fools".

Black N' Blue, "In Heat", Geffen.... With their debut at 30* we all knew that this one was in for quite a run, this week's 15 point move up to 15* doesn't do anything to dispute that feeling. With hard-edged, all out rockers, (that we all knew this band was capable of producing) on it, it really comes as no surprise that "In Heat" has launched Black N'Blue right into the metal limelight. The Saint and his party boys are getting air at: CHEZ, KBER, KFMX, KJOT, KSLC, KZEL, WHFS, WHUS, WKNC, WOUR, WRCN and WSOU with KNAC, KISS, KJJO and Z-ROCK all daytiming it. "Live It Up" was just the prelude to a host of killer tracks like: "Rock On", "Suspicious", "The Snake", "Great Guns Of Fire" and "Get Wise To The Rise". WGIR's Mr. Mike Jones says, "It's really nice to have those Black N'Blue dudes back. "In Heat" is quite good with "Heat It Up", "Great Guns" and "Suspicious" (a possible hit) being the picks to click. This heavier approach and lots of touring should put these guys where they belong - right on top". It's lookin' good.

Killer Dwarfs, "We Stand Alone", Epic....

Since the release of their last Lp, "Stand Tall", these little men of metal have grown up, at least in their reputation for being one hell of a rockin' band. This latest track however, shows off the Dwarfs' more commercial side. "We Stand Alone" is a stylish cut with a highly marketable feel that mainstream should just eat up. This one should be hitting your desks early this week so be on the lookout. I realize that most of you thrash/mosh types will be slightly turned off by this song's AOR sound but the response from your audiences should be very positive. If not, then wait for the album because there's sure to be enough to keep y'all satisfied. Until then, try this one on for size.

Krokus, "Let It Go", MCA....

It was the first thing we listened to when that "oops" (UPS) guy hit the door today, and it looks like Krokus is back in action with the first release from "Heart Attack". Even with Marc Storace's vocals and Fernando Von Arb's guitar playing as up front as ever, the lines have been softened somewhat, giving the band a much more accessible feel. Mad Max has this to say, "Krokus is back and sounding better than ever. Put a new battery in your pacemaker and get ready for the 'Heart Attack'". This cut was produced by "The Long Noses" of Von Rohr and Von Arb and let's just say that it's pretty kickin' stuff, probably the best we've heard from these guys since "Screaming In The Night" was first released. If this cut is any indication of the album's overall sound, I can't wait to hear it. NOTE: Crank it up to 10 and the air-guitarist in you just can't resist a little action.

Smashed Gladys, "Lick It Into Shape", Elektra....

New York City rockers Smashed Gladys have delivered up a tasty little rocker here with "Lick It Into Shape". This mover and shaker obviously draws on the "AC/DC School Of Sure-Fire Hits" for its well placed hooks and saucy, rough-cut vocals. Vocalist Sally Cato could give the big boys out there a run for their money. The band doesn't mind the AC/DC comparisons. Sally told us, "It's not really something that can be copied that easily. It's a whole feeling, and for someone to say you sound like that is really quite a compliment". Their "Social Intercourse" debut is due out April 15th and features some naughty little cuts like "Legs Up", "Dive In The Dark", "Hard To Swallow", "Cast Of Nasties" and "Play Dirty" (No it's not a concept album either). While this style of music isn't for everyone, there are those who are already sold on this band. Z-Rock's Mad Max Hammer is one of them. He says, "Probably our hottest new act with a female singer who really makes herself sound accessible for radio." The band is Bart Lewis (Lead/rhythm guitar), J.D. "Tanto" Malo (Bass), Matt Steluto (drums) and Roger Lane (Lead/rhythm guitar). (They have managed to work their street-tough stuff into accessible radio tracks.) If "Lick It Into Shape" isn't for you try another cut when you get the album. This band could have quite a future.

Black Rose, "Walk It How You Talk It", K-tel....

It took a little while for this one to get off the ground, but it looks as though their time has come. Black Rose is finally gaining some ground on the Hard Hitters with a good-sized 34-26* move this week, one we feel is well deserved. They have a party rock feel about them and with the growing popularity of just that type of music, watch them catch the wave and ride it for a good long time. Be quick to jump on the bandwagon while you still can or look like a doofus. Join the ranks of those in the know like: KFMX, KJOT, KQK, KRSR, KTEC, WBIM, WHFS, WKNC, WOXY, WSOU and Z-ROCK. Don't let this one pass you by, as it is a quality record, and don't forget about tracks like "Don't Fall In Love" and "Bright Lights Burnin'" either.

King Kobra, "Take It Off", New Renaissance....

From the limited edition Ep comes a new track from Carmine Appice's latest collection of deadly rockers. I do have to say that the promotional packaging of this Ep was unique and seemed to be quite popular among those who received it, and even those who didn't. The band has gone through numerous personnel changes since their last release and now consists of Carmine, Johnny Edwards (vocals), Jeff Northrup (guitars), David Michael Phillips (guitars) and Larry Hart (bass). "Take It Off" is another hardy rocker that is beginning to develop a buzz at metal radio. Those already on it include: WCDB, WKNC, WVS and Z-Rock.

Let's get it on the air, these boys are hot.

METAL MUSIC NEWS

Howdy all you metalheads. This is Sal "Earl of Earache" Treppiedi with this week's metal happenings. As I promised, this week we will be reviewing some of the top CD's that have become available to all you metal programmers. But first, we have to get to a few news items.

Wild Rags Records out of Montebello, California have released some pretty wicked cool stuff. First, **Bloodlust** have released a four song mini-LP entitled "Terminal Velocity". The album was produced by Eric Meyer of **Dark Angel**. Bloodlust released an album entitled "Guilty As Sin" on Metal Blade Records back in 1986. The band still features guitarist **Earl Mendenhall** and bassist **Sandy K.**. The band also features former Abattoir vocalist **Steve Gaines** along with guitarist **John Lisi** and drummer **Craig Kasin**. The album features the cuts "Terminal Velocity", "City of the Forgotten", "C.T.R.", and "Semper Fi/Guilty as Sin". The second LP Wild Rags has released is from Texas' **Anihilator**. This four song LP features former Devastation bassist **Alex Dominguez**. The tracks featured on this LP are "Anialator", "Nuclear Destruction", "Extermination By Dawn" and "Mission Of Death". By the way, do not confuse this band with Canada's **Annihilator**. Wild Rags has also released two demos from **Resistant Militia** ("The Rhythm & Noise") and **Preacher** ("Trapped In Hell"). Finally, the label has released the self-titled LP from **Bloodcum**. To most of you this band is just another outfit. But Slayer fans will recognize two of the members in this band. Vocalist **Joey Hanneman** and bassist **John Araya** are Jeff and Tom's brothers respectively. Look for their full length album as well. For those of you who may be interested in finding out a little more about Wild Rags Records, write to them at: 2207 W. Whittier Blvd., Montebello, CA: 90640, Attn: Richard C.. Tell Richard that the "Earl of Earache" sent you.

New Renaissance Records announced the signing of four bands recently. The bands are **THE UNSANE** from New York, **SCREAMER** from Wisconsin, New York's **PROWLER** and **HOLOCROSS** from Pennsylvania. All four bands are expected to release their albums in the spring.

The Earl recently had a conversation with **Exodus'** manager **Toni Isabella**. We discussed the matter of Exodus' alleged signing to Capitol Records. There have been rumors floating that they have done just that. I had a chance to talk to Gary Holt of Exodus a short while back and he explained to me that it was only a short time before the deal would be inked. When I inquired about the deal, Toni explained to me that Exodus would be signing to Capitol. She said that although Combat has the next record, she suspects that it will be released on Capitol. Enough said.

Okay, ladies and gentlemen it is time for some CD reviews. CD's will be rated as follow: Sound and Overall. Ratings will be based on scale of 1 to 10 with 1 being lowest rating and 10 being highest. Let's begin.

DEEP PURPLE, "Deep Purple", "Shades Of Deep Purple", "Book Of Taliesyn"/PASSPORT RECORDS (REISSUES) What a treat it was to be able to hear the beginnings of a legend on CD. To hear such songs as "Why Didn't Rosemary?", "Hush", "Hey Joe" (How many of you know that this song is a Deep Purple original?), and the Beatles' "We Can Work It Out" & "Help" on the crystal clear sound of CD's. One can even look beyond the lack of high end. This package is a sheer treat. It also shows the genius of Jon Lord and Ritchie Blackmore. Get these at all costs.

SOUND: 6-1/2
OVERALL: 8-1/2

KREATOR, "Terrible Certainty"/NOISE INTERNATIONAL/COMBAT Mayhem thrash as only these four Germans know how. Kreator has come up with their finest effort to date. Songs such as the title track, "One Of Us", and "Behind The Mirror" show these boys are their best. My only complaint comes from the fact that there could have been a bit more bottom and little less high end. Catch these dudes when they come stateside. You won't be disappointed by their live show or of "Terrible Uncertainty".

SOUND: 8
OVERALL: 8-1/2

PROPHET, "Cycle Of The Moon", MEGAFORCE/ATL. Early Foreigner can be heard all over this record. Being that I like early Foreigner, I was able to thoroughly enjoy this CD. This is definitely not a heavy metal album. It's got a dash of pop along with some hard rock. The production team of Spencer Proffer and Randy Bishop is immaculate. This CD is as clear as daylight. Give this one several listens. I guarantee that you will enjoy this record a little more with each listen. Count on it.

SOUND: 9-1/2
OVERALL: 9

U.D.O., "Animal House", RCA RECORDS Former Accept vocalist Udo Dirkschneider has returned with a vengeance on his little Napoleon mind. "Animal House" is a return to the sound that put Accept on the map. This was the "Restless And Wild" sound and attitude. The compact disc gives the listener an ear full. With all the power and energy that this band packs, it is hard to imagine the CD sounding anything short of awesome.

SOUND: 10
OVERALL: 10

METALLICA, "Kill 'Em All", ELEKTRA RECORDS It's hard to believe that this record was released five years ago. The songs on this package are still some of my Metallica favorites. With this new CD, Elektra has finally added the tracks "Blitzkreig" and "Am I Evil?". It is the first time these two songs are available in America. The sound is still a bit distorted.

SOUND: 7
OVERALL: 9-1/2

That's all for now folks. Until next week, this is Sal "Earl Of Earache" with an update on the championship match between Mr. Death and current champ Randy "Macho Man" Savage. Macho Man has apparently said that he does not want to fight Mr. Death right away. He apparently wants to fight a lesser opponent first. Macho Man has said that he will take on either Megadon "George Steele" Girovasi or Rich Scroggs first. Mr. Death is apparently trying to scare Savage by demanding a handicap match with both Scroggs and Girovasi. More next week. Until then, MU YA!!!

R.E.M. is about to leave IRS Records to sign with Warner Brothers Records, according to spokesmen for the band and the label. "We have an agreement in principle" says Bertis Downs, attorney for REM. "We're so sure that it will happen that, barring the band breaking up and WB going out of business, it will happen." Bob Merlis, a spokesman for WB says the band will be signed to a "multi album deal. Our preliminary negotiations are completed. Now we have to get the nuts and bolts straight," Merlis says. "I'm sure that it's a long term agreement. We know that the future for this band is a bright one." There are unconfirmed reports that the band is being signed to a five album, 12 million dollar contract. Downs says the band has already finished writing material for the next album, which will be recorded this summer in Memphis and Woodstock. That lp would be released at the end of this year or early next year.

The piece of paper upon which **John Lennon** wrote the lyrics to "Imagine," has sold for \$10,000 at a London auction. The scrap of paper, with red underlining, was not the only bit of memorabilia that went up for sale Wednesday. A check that Lennon once wrote to Britain's Inland Revenue in 1968 was sold to a woman for \$9,000. She says she bought it as a "bit of fun" since she's involved in a dispute with Inland Revenue herself. A gold lame jacket once owned by Ringo Starr sold for over \$2,000 at the event. Other items that went up for sale included a pair of stage shoes worn by Michael Jackson and Elvis Presley's pajama top.

London reggae band **Aswad's** "Distant Thunder" album is just being released in the U.S. It includes the recent British number one single, "Don't Turn Around."

The West End of London ground to a halt this week when 5,000 screaming fans, mostly girls, pushed and shoved in front of an Oxford Street record store. The girls were trying to get as close as they could to the boys in British band **Bros** (pronounced bross), who were there to sign copies of their brand new album, "Push." Unfortunately, things got a bit out of hand, and police had to be called in. There were even a few injuries. One girl broke her leg as she was caught in the rush.

"It seems that we've yet to create a tidal wave in the charts but we're perpetual optimists," says vocalist **Terry Sharpe** of the **Adventures**. "I will agree that the image of the band hasn't been all that dynamic. But now we're trying to change that and the group has agreed that more attention should be focused on me to give us a more definite image. I'm not being vain, it was a democratic decision by everyone in the Adventures." Sharpe says "Broken Land" is a reflection of the way values have changed. "Ten years ago, you could leave your back door open and not have to worry about your house all the time," he says. "But society has become very nasty and there's a whole generation of kids out there who are being sold down the river. The song doesn't just refer to Ireland, I think it's applicable everywhere." By the way, Sharpe's girlfriend is Sarah of Bananarama.

George Michael had to cancel a sold-out show in Melbourne, Australia, when he sprained his back while playing tennis with his fitness trainer. He was taken to a hospital and told to reduce his activities. Michael already had canceled three of his Australian shows because of a throat infection. He's now promising a special concert to make up for the cancellations. There was a report on a British newspaper that Rick Astley had offered to donate two of his vocal chords to Michael. Astley was reported to have found that he has two extra vocal chords that he doesn't need, and when he heard of Michael's throat problems he made his offer. Of course, the report was printed

on April Fool's Day, so presumably we won't be hearing George Michael with Rick Astley's voice.

As well as featuring **Jason Bonham**, son of Led Zeppelin drummer John Bonham, **Jimmy Page's** upcoming album also features **John Miles** on vocals.

The Grateful Dead's **Jerry Garcia** has recorded three songs with jazz saxophonist **Ornette Coleman** for his next album. Coleman saw the Dead at Madison Square Garden last fall and asked Garcia to play on his album. Garcia says it was "a musical education that'll take a year to digest."

Mark Knopfler is producing **Randy Newman's** new album in Los Angeles.

Full Force has recorded a track with **Bob Dylan** called "Death is Not The End" for his upcoming album.

Kid Creole says he's surprised that "I, Too, Have Seen The Woods" was nominated as Best Rock Album in the New York Music Awards which will be given out on April 9. "This album award nomination for 'Woods' is a milestone," he says. "It is breaking the boundaries on what is and isn't rock. Rock is the mother heading to popular music -- all reggae, Latin, soul, R&B and many other styles should come under the 'Rock' heading."

Prince will begin his touring in support of the "Lovesexy" album in Australia on June 17th. He's expected to tour the U.S. in July, though some surprise concerts might take place before then.

Iggy Pop, Bootsy Collins and **Sly & Robbie** appear on **Ryuichi Sakamoto's** new album, "Neo Geo," which was produced by Bill Laswell. Sakamoto says he didn't have a hard time working with so many different artists. "The difference between musicians is more the difference between personalities, personal characters than between their country or nationality." Sakamoto, David Byrne and Cong Su have been nominated for an Academy Award for their original score to "The Last Emperor."

Great White say that even though they're from Los Angeles, they shouldn't be considered just another L.A. band. "I was born and raised in L.A., but most of the so-called bands aren't even from here," says lead singer Jack Russell. "It's a drag that those guys have come here worrying about what they're wearing instead of worrying about music."

A Stax Records reunion concert at the Atlanta Civic Center may turn into a national tour. **William Bell, Eddie Floyd, Isaac Hayes, Luther Kingram, Johnnie Taylor** and **Carla and Rufus Thomas** played at the one-time show in Atlanta.

Robert Cray, Albert Collins and **Kim Wilson** of the Fabulous Thunderbirds headlined a benefit concert in Chicago for Koko Taylor, the blues singer who was injured in an auto accident in February. The show sought to raise money for the \$40,000 in medical bills incurred by Taylor and three of her band members who were also injured in the accident.

UB40 and **Boy George** are featured on the new album, "The Light," from **Afrika Bambaataa & Family**. It's an eight-cut concept album that is said to unify the spirit of music and revolution through the ages.

The Sugarcubes had to cancel a British tour because guitarist Thor broke his wrist in three places slipping on some ice in Iceland. He's been receiving acupuncture for the injury. The tour has been rescheduled for May.

Kevin Rowland, formerly of Dexy's Midnight Runners, will have a solo album out soon.

Ali Campbell of UB40 and his wife, Bernie, have a new daughter. Kibibi Rosanna Campbell. Her first name is Swahili for "little lady." The six-pound, 15-ounce infant is the Campbells' third child.

The Damned, no longer with MCA Records, are said to now be "resting."

Erasure is denying a report in one of Britain's tabloid newspapers that said the band was to break up because Vince Clarke wanted to write jingles for radio and television commercials. Clarke is writing them, but not at the expense of his band. And, Clarke says, London's Sun newspaper got its information wrong. "It mentioned these three products that I've never done ads for," he explains. "And they said my agent was Jeff Lynne, whom I've never met. I've never even bought an ELO record."

During a two-week British tour that he's just started, **Joe Louis Walker** will pick up a prize from the Academie De Jazz de Paris. The Big Bill Broonzy Prize for best blues album is for Walker's first LP, "Cold Is The Night." Walker is playing two weeks of U.K. dates in support of his new album, "The Gift."

Joe Strummer, formerly of the Clash, says it's not that unusual that he's worked with Alex Cox on three film soundtracks, including the most recent one, "Walker." "There comes a time in every rocker's life when he realizes he'd better get off the stage for a while," Strummer says. "And rather than become a milkman or a cabbie, which I shall no doubt get to, Cox gave me a chance to do the score for 'Walker.' Now, without Cox, imagine me, an ex-punk rocker going to Hollywood and saying 'Give me a score!'" That doesn't mean that Strummer is fond of the movie industry, though. "I don't think you can name me a meat market more vicious than Hollywood. Nobody gives a shit about you there. Cox already had some big shot Hollywood guy doing the music but that fell through. I dunno, maybe Cox looked at me and thought 'Hey, this fucker will do the music for cheap.' But I was still grateful for the chance to do it."

Paul Simon, the former Clash bass player, has formed a new band called Havanah 3AM.

Joe Jackson's upcoming double live album will include three different versions of "Is She Really Going Out With Him." The first version was recorded on his 1980 Beat Crazy tour, and features Jackson with his full band. The second version is an acoustic one recorded during his 1984 Body And Soul tour. And there's a third version, a cappella, from his 1982 Night And Day tour. The 22 tracks on the LP were recorded between 1980 and 1986.

Arthur Baker, the New York producer, has now signed as a solo artist and is recording in London. He's working on the album with Maceo Parker who has long worked with James Brown.

A May 2nd trial date has been scheduled for a lawsuit by songwriter **John Powers** against **Billy Joel**. The pair's legal disputes began in 1979 when Powers claimed that Joel took his song called "We've Got To Get It Together," and turned it into "My Life." Powers sued and Joel settled out of court for \$42,000, though "it was stated by Powers that there was no proof Billy had stolen the song," according to Stephen Hayes, an attorney for Joel. Powers then sued again in 1983 over an interview in Playboy, in which Joel said "he wasn't one of (Powers') better friends," Hayes says. In that interview, Joel said, "If I ever meet that guy, I'm going to break his legs. I'm going to break his face." In the newer court action, Powers is seeking damages for libel and for "intentional affliction of emotional distress." Joel plans to testify in the trial. "There is no libel," says Hayes. Powers' attorney, Rupert Schneider, says he won't comment on the case before the trial. "The last thing

we want to do is litigate in the press and muddy the waters further," Schneider says. "We just want to be mum and go to trial."

Mick Jagger, Bette Midler, Phil Collins and **Cher** are to host Atlantic Records' 40th anniversary concert, tentatively scheduled for Madison Square Garden on May 14th. The **Rascals** and **Eagles** may appear at the show, which is also a tribute to Atlantic Records founder and chairman Ahmet Ertegun. **Cher** may perform a duet with **Bono** of U2 at the event. And, **Jimmy Page** and **Robert Plant** are scheduled to perform together, though Jagger and Keith Richards aren't expected to do so. Bands from Atlantic's early days are also to appear, including the **Coasters, Drifters, Ruth Brown** and **Laverne Baker**. HBO reportedly will broadcast the last four hours of the ten-hour concert, and ABC-TV is planning a special based on highlights from the show. There could be a scheduling conflict for the Garden, should the New York Knicks or Rangers make it into the playoffs.

Bono says the **U2** movie to be released later this year will be a "work of art." "It will be totally unlike any other rock film," he says. "It will be a work of art -- on the lines of 'A Hard Day's Night' with a touch of Speiberg thrown in. The cameraman followed us everywhere -- on stage, to the bathroom and even to bed. No secret has been left untold."

"I've heard all about how Tonio K. has mellowed out, and I'm getting sick of it." So says **Tonio K.** His new album, "Notes From The Lost Civilization" features love songs, compared to his earlier records. "What happened was that I grew up a little, as we all must, and figured a few things out. You can't sustain that kind of anger -- you either get better, go to prison or die. I've only had one negative response to what I'm doing now; that came from a woman who used to see my shows and write me regularly. She told me she was disappointed I'm not as angry as I used to be. I just said, 'I'm sorry you still are.'" He says he learned about romance the hard way. "I found out what a good relationship was by experiencing what one wasn't."

The re-formed **Bachman-Turner Overdrive** will be going on the road this summer. Bruce Allen, who is managing BTO, says he's upset that Tim Bachman is on the road billing his group as Bachman-Turner Overdrive. "What they're doing is wrong, it's illegal and it's totally misleading," Allen says. "Legally, Tim Bachman has the lease to the name 'BTO' until February 1989, but according to our agreement, he cannot be billed as 'Bachman-Turner Overdrive.'"

Marshall Crenshaw will choose the tracks and write the liner notes for an album of Depression-era hillbilly music that will be released (on Bug Records). Speedy West, Merle Travis, Jimmy Bryant and the Farmer Boys are among the artists who appear on the LP.

Even though thrash metal is looked down on by many heavy metal bands, the members of **Anthrax** say it doesn't work both ways. "They're helping us," says **Scott Ian** of **Anthrax**. "If a Bon Jovi fan picks up a copy of Circus because Bon Jovi is on the cover, there may be a story about us inside. That fan may be inspired to check out our album. Whoever brings attention to metal helps all of us."

Elliot Easton has remixed "Deliver Me," a track on the "Cross Our Hearts" album by Jeffrey Hatcher and his band, The Big Beat.

Thomas Dolby says he's probably going to put less energy into promotional videos for his new album, "Aliens Ate My Buick." His early clips, notably "She Blinded Me With Science," had a lot to do with his early popularity. "Nowadays, people put less time and energy into music videos," Dolby says. "Videos in general have become less influential in the music world. I'd like to either put together a feature film or a full-length special for someone like HBO."

Kim Mitchell is about to begin recording a new album with producer Paul DeVilliers, who has worked with Mr. Mister and Yes. Plans are for the album to be released in August.

John Cale is producing the debut album from Canadian artist Art Bergmann.

The Parachute Club is about to go back into the studio to record the follow-up to their self-titled debut album from last year.

Loverboy guitarist **Paul Dean** will have his first solo album out this summer. It's produced by Dean and Bob Rock.

Elvis Presley's old Army uniform may go on display in Ribbies, a chicken and ribs restaurant in Montreal. Fred Polansky, the restaurant's owner, is offering a six-figure sum to a Montreal Elvis lookalike who wore the uniform in the 1981 movie "This Is Elvis." The Presley estate was so impressed with David Scott's portrayal that they gave him the uniform to keep. Scott says he's considering Polansky's offer, but says a Memphis museum is also interested in the clothes.

Crowded House's second album is tentatively titled "Temple Of Low Men." It's scheduled to be released in June.

A federal court judge has delayed sentencing of **Doc McGhee**, manager of Bon Jovi and Motley Crue. He was scheduled to be sentenced for participation in the smuggling of almost 20 tons of marijuana from Columbia. He could get a five-year prison term on the charge. The judge, in New Bern, North Carolina, says he wants to hear more about McGhee's proposal to start a nationwide campaign against drugs, instead of a prison term.

The Northern Pikes will soon record their second album, for release by the end of the summer.

The Recording Industry Association of America has begun a new Multi-Platinum category for home music video releases. Criteria for the new category include sales of 100,000 units and/or sales of \$4 million.

James Brown was released on \$15,000 bond after surrendering to police on charges of assaulting his wife with intent to kill her. He's scheduled to go to trial May 2nd in Aiken County, South Carolina, Magistrate's Court. Sheriff's deputies signed warrants charging that Brown fired four shots into his wife's white Lincoln Town Car while she was sitting in it, and that he hit her with a steel pipe later the same day. Both incidents occurred at Brown's home in Beech Island, South Carolina. Judge Martin Sawyer stressed to Brown that he was being released on bail, and not on his own recognizance, because Brown has been accused of similar actions in the past. Brown was arrested in 1984 for allegedly assaulting his wife, but the case ended when she declined to press charges. He also forfeited bond on an assault charge that came after he was involved in a scuffle with police after a traffic accident last November, prosecutors say. Mrs. Brown says the singer has also destroyed her jewelry and some mink coats. In a telephone conversation with a report, Brown denied shooting at the car and hitting his wife. "It's not true. I never laid a hand on her," Brown said. "I can tell you it's over now. She's not coming back to my house. She's just mad because I won't take her to Brazil, and she's not going to go. She's never going to go." Brown was about to leave for a South American tour when the alleged incidents occurred.

Patti Smith's new album is scheduled to be released in mid-April. It features her original band, except for guitarist Lenny Kaye.

Rocky Hill, brother of ZZ Top bass player Dusty Hill, has a solo album just out. The two brothers originally played together in a band called The American Blues before Dusty

started a band with Billy Gibbons. The LP was produced by ZZ Top's producer and manager Bill Ham.

Twenty-four people were arrested for ticket scalping at the Nassau Coliseum in Uniondale, New York, when **Bruce Springsteen** played there.

Promoters of the **Adelaide Arts Festival** Concert in Australia last month had to bring in extra security because so many people came to see Icehouse perform there. About 40,000 people were expected, and 100,000 fans turned out for the show. Some of them climbed through and under fences to get to see the group.

The **Australasian Performing Right Association** sixth annual Music Awards will be handed out May 16. The awards are given out solely on the basis of royalties awarded various artists. Paul Kelly and Neil Finn are among the nominees for Most Performed Australasian Popular Work. Chris DeBurgh, Huey Lewis & Chris Hayes, Giorgio Moroder & Thomas Whitlock, Lionel Richie and Paul Simon are some of the nominees for Most Performed Overseas Work.

Scruffy The Cat has finished recording a new album in Memphis, called "The Moons Of Jupiter." "Working in Memphis was kind of an influence," says Charlie Chesterman. "On a couple numbers, there's a real Stax-Volt sort of sound, a Memphis sound. But that just happened. It wasn't anything that was planned. Also we had friends come in and play keyboards and pedal steel guitar on a couple songs. So we've got legitimate musicians playing extra parts, and that gives some songs a sort of brand-new feel." Chesterman says the album is "twice as good as anything we've recorded so far. It's a weird kind of mix: There's a lot of melodic stuff. A couple songs are slower than we're used to doing. But we've got some of the revved-up rock & roll songs that everybody sort of expects from us."

Here's the latest music news Live From London courtesy of CFNY, Toronto and our exclusive reporter Lee Carter. Lee can be heard on CFNY's "Sunday Music Magazine" program and on "Live From London" aired Wednesday evenings.

Deacon Blue's "Raintown" was instantly added by over 75 American album stations upon its release, and undoubtedly many more by now. Nobody is more surprised than the Glasgow six piece themselves. It gives me great pleasure to devote this week's column to extracts from a recent interview with lead singer Ricky Ross and Lorraine McIntosh whose gutsy vocals and onstage presence make her an irreplaceable part of the band. The group had played the previous evening at London's Town And Country Club.

Lee Carter: "How did you find your live show?"

Ricky Ross: Really good. We played there a few months ago and I guess twice the amount of people were there this time, including a lot of faces we saw last time - so it's a good round-up of a lot of the work we've done over the last year.

Lee: Well it must feel like that because I reviewed the album for "The Hard Report" in May 1987, which was a long time ago. Even here in Britain as little as two months ago I thought it was going to sink without a trace. What happened?

Lorraine McIntosh: Well it really was sinking without a trace to be quite honest, although it was selling steadily, but not in great quantities...but when we re-recorded and re-released "Dignity" with producer Bob Clearmountain, we luckily went top 40 with it, so the album started to pick up after that. Hopefully sales will continue that way with the new single "When Will You Make My Telephone Ring?"

Lee: And now with it picking up almost immediately in North America it must all come as a bit of a shock.

Ricky: Well it's funny; when we were working with producer John Kelly, he asked how much the CBS International people were getting into it...and he and lots of other people kept saying "oh the Americans are going to really like it" - but sometimes people use that as a cop-out phrase, and what they really mean is "the British won't", in any case people promise so much. Then the album release date in the U.S. got put back and we forgot about it. So when we heard it was being played we were really pleased.

Lee: I don't want to gloss over your excellent live show. You must have been in the rehearsal studio for a long time...

Lorraine: (Laughing) Four days!

Lee: Really?! It seems so meticulously put together.

Lorraine: We've got about five basic movements as a band. It took a day and a half alone to convince the bass player and the guitarist that they wouldn't look stupid doing them. People kept saying last night that our dancing was really new - if only they knew it took about half a day or something.

Ricky: We keep hearing these stories - like Micheal Jackson taking 40 weeks to rehearse his tour - or Lloyd Cole - if we did that we'd get so bored. We rehearse a lot at soundchecks anyway.

Lorraine: We also want to make it a show. People don't come along to close their eyes - they're coming for a night out!

Lee: "Raintown" is about Glasgow isn't it?

Ricky: It was written in Glasgow, rather than perhaps being about Glasgow. It's the feeling of being trapped in a place and not being able to get out. They are feelings that interestingly enough we don't have at all now because we're on the move. In fact we're trying to get back to Glasgow! We're trying to convince our producer to come up to us and work there - so at the moment these are feelings that we don't have at all but a lot of people do...

Lee: Is "Town To Be Blamed" about Glasgow as well, or somewhere else?

Ricky: No it's not about Glasgow particularly. It's a similar song to "Raintown" musically; it's got these big bits in it. It's more of a personal situation going on and you're looking for things to blame it on.

Lorraine: You can also hate and love a place at the same time. I know times when I've hated Glasgow. At certain points there seemed to be nothing in it, nothing to do and no future at all - but the thought of leaving it I couldn't stand.

Ricky: Which is like intimate relationships you have, when the person that you love - rather with children and their parents - you're so close to them and there's such a lot of protection you put around them, they hate it and I think cities can do that because it's the only boundary you can see.

Lee: Tell me a little about "The Very Thing".

Ricky: I don't know how many folks in North America would know of this, but there's an album out by a band called The Blue Nile and it had a track called "Stay". I really liked the steadiness of the rhythm on it. I got the drum machine to measure exactly the same time signature and I first recorded it with a sampling of cello and violins. Then I speeded it up a bit and it was a bit too short, but it gave me the right feel, because "Stay" has a real sadness to it which I really wanted to try and capture - a sparse, Autumnal kind of feel...The very thing is probably the most economical song...there are lots of gaps for the imagination both lyrically and musically.

Lee: It seems that old fashioned things like melody and chorus are very important to you.

Lorraine: I think tradition is very important in music. Songs that parents and grandparents can sing and hand down to their children are very important - songs that can stand up on their own two feet without production or hype.

Lee: That also seems to me very much a characteristic of Glasgow bands too - if you look at most of the bands in the eighties in Great Britain, certainly the great bands from northern cities in England tend to be a bit doom and gloom, whether it be Liverpool's Echo and the Bunnymen, The Smiths and New Order from Manchester - while Glasgow's tradition has been formed by the Postcard label - Orange Juice, Aztec Camera, The Bluebells and more recently Danny Wilson and Fairground Attraction; all very up and positive bands.

Lorraine: And not just Glasgow either - in fact Danny Wilson are from Dundee and The Proclaimers are from Fife - it's really good in Scotland right now.

Ricky: I can't help but look at this in a political context. Scotland is a separate country and I've become over the last year almost a fervent nationalist because I feel that we've borne the brunt of Thatcher's policies from down here in London which are all experimented on us up there while we didn't vote her in. (Note: Scotland voted solidly for Britain's opposition Labour Party) We don't even have our own Scottish charts

while Norway or Ireland who are smaller than us do. So we do have a very strong, identifiable music scene but it's not really visible anywhere because it all comes out of London eventually.

Lee: Well why don't you sing in Scottish accents like The Proclaimers?

Ricky: Well it's funny because I've also been always affected by American music.

Lorraine: Most of the music I grew up with was American, it's a bit false to pretend that your roots are in something they're not.

Lee: The name Deacon Blue actually comes from a Steely Dan song doesn't it?

Ricky: And people say we sound a bit like Steely Dan and I've actually tried to find out where we sound like Steely Dan and can't.

Lee: If you could write your own press release though and had to complete the line "Deacon Blue, in the fine tradition of..." which artists would be there? You have been compared to Prefab Sprout.

Ricky: Which is not a comparison that particularly endears me because they are a very limited band, they don't play live, while we're very much a band. I would like to think that we're in the fine tradition of maybe Talking Heads in that we will move ahead and do new things. Live I hope we can provide the kind of uplifting experience of a Springsteen show...but not just a thin like Queen or something like that because I hate that sort of thing.

Lee: Too much dry ice and not enough substance?

Ricky: Yes...I think the band's eventual aim is to strip it to its basics and keep it as simple as possible.

Lorraine: Queen's shows seem to be separate and detached from the audience - "Look at us we're up here" - while I remember reading about U2 when they first started and Bono used to do concerts on the floor with no stage whatsoever; or Springsteen's shows; they don't leave people behind; they don't create a gulf between yourself and the audience.

Ricky: I also admire the Pogues for doing several nights at a small venue rather than doing a large one - I've got a real worry in the future about the size of venues.

Lee: Which do you prefer, the remix of "Dignity" or the album version?

Ricky: I think all bands prefer original versions. One of my favourite bands was Little Feat because they were so different from most American musics and they used to do one version of a track on one album and then re-record it and put it on the next album; then one track on that album, you'd find two albums on and so on - so they were continuously updating their material. So I'm really proud of both versions. Songs can be anything, they're good when you sing them in the bath.

Lee: When are you going to be over in North America?

Ricky: Mid-May we hope. It will certainly be after the (soccer) Cup Final that's for sure. The Scotland versus England game comes up sometime in May too, so we couldn't leave the country before then.

T.J. Martell Foundation for Leukemia and Cancer Research is the charity founded and funded by the music industry. Each year the music industry hosts various functions to raise money for the foundation's research facilities. These functions range from golf tournaments to bowling parties, horse races to black tie dinners. Our goal is to eradicate leukemia, cancer, and AIDS in our lifetime.

This year our branch of the T.J. Martell Foundation would like to gain much needed friends in the radio industry. We have already welcomed several stations to our family, but we would like to see the radio industry become solid backers of this wonderful foundation.

Your help is needed to raise funds. We know your imagination is limitless when it comes to promotions and with that in mind we know you will be able to arrange a fun and exciting charity event! Hosting an event not only promotes your station, but gives you a warm feeling of knowing that you have in some way helped your fellow man by making the world a better place to live.

If you would like to join our family and host your own charity event please call us at the number below for further information. We will be glad to help you and your station create or coordinate your event, if you so desire.

We've decided to wait on waiting on Def Leppard's "Love Bites". It's a #1 record waiting to happen and since the Lp was released, we've been getting calls for it. I'm guessing top 5 phones within two weeks.... "Rhythm Of Love" has made the last four years well worth the wait. The phones are on fire.... Whenever a new Neil Young record is released, you know it will be just like a woman: unpredictable. This time "Ten Men Workin'" is some of the best bopping blues he has delivered.... My heart may be made of steel, but my ears aren't made of stone. After a few more listeners to Will And the Kill, it's got the green light. It's time to break another artist, yee hah!

Carter Alan, WBCN, Boston

BCN would like to thank Chrysalis Records specifically Daniel Glass, Kevin Sutter and David Ross for bringing our Sinead O'Connor broadcast to a successful conclusion. The Irish singer's debut Boston performance was a special moment captured on the air. Sinead's electric vocals delighted the audience and if she is coming your way soon, make it a point to check out the show.... The following evening in conjunction with BCN's 20th birthday celebration The Rock co-sponsored Robyn Hitchcock's soldout visit to the Paradise Theater. Before the show, Robyn visited BCN to play a few songs on acoustic guitar during Tami Heide's radio show. Surprise, surprise! He brought along his friend Peter Buck of REM and the two had a jolly jam session on the air for 45 minutes producing another magical moment in BCN's history. Many thanks to Karen Glauber, Chuck Bliziotis and Sue O'Connell from A&M.... Finally, attention Jackson Avery Coakley! Your new father is still lost.

Pam Edwards, KGB, San Diego

It's a Polygram doubleheader this week. "Savage Amusement" indeed. The Scorpions have unleashed an absolute monster with "Rhythm Of Love". If you're talking about harder rocking bands, this is one of the top 3 or 4 in the world. Add their "Monsters Of Rock" tour into the picture and this album will be huge.... The Dan Reed Network has also made a great album. Add together equal portions of Robert Palmer and Bon Jovi with a small dose of Prince and you get "Ritual", an infectious and hook laden gem. Dan is extremely charismatic and the band is both unique sounding and looking. This is a band to watch.... And speaking of watching a great band, thanks to all at Atlantic for their help on the INXS show. The band was tight and right on the money as they ripped through their set. Michael Hutchence may be the most captivating performer out there right now.... Finally, condolences to Atlantic for losing Mark Gorlick, but congratulations to Uni for hiring one of the best.

Mike Boyle, WDHA, Dover

A tip of the hat to Reuben Blades for a wonderful album. Credit also to Sting, Lou Reed and Elvis Costello for their contributions.... For the first time in my life, I'm a Neil Young fan! The "blues" is your calling Neil. "Ten Men Workin'" is a smash!... Congratulations to Mr. and Mrs. Coakley on the birth of Jackson.... Happy Birthday (4/12) to Polygram's Paddy Rascona; one of the best.

Ron Garrett, KRXQ, Sacramento

The man with the "Heart of Gold" is back with a band of Blue Notes to tickle your senses and make you bop into the good times that unfold before us as Summertime lies waiting. The radio has always been a part of the summer attitude and Neil Young has always been lurking in the dark corners or dancing in the sunshine of the musical spectrum. For now, we have what sounds to be Mr. Young's most inspired work in many moons. Cool Daddy-O! Neil's got the whole damn thing working tonight. Never satisfied to play it safe it's great to have such a free spirit back in action. Long may you run and thanks baby.

Lorraine Rapp, WAQX, Syracuse

Neil Young never fails to amaze me. At this point, we've come to expect the unexpected. Who would have predicted his diverse musical directions back in the "After The Gold Rush"

days? "Ten Men Working" is a great song. His voice is so instantly recognizable, you don't have to worry that your audience will think you've gone big band. They'll listen because it's Neil.... Finally made a believer out of me with the Church getting its shot this week.... Thanks to everyone who surrounded me with flowers last week. It was great.

John Piccillo, WBYR, Buffalo

We've gone back to album rock. Charlie Seitz has been promoted to Asst. P.D. from morning news man. We're happy to be back and rockin' and rollin' in Buffalo, giving the people what they want.

Mad Max Hammer, Z-Rock Satellite

Krokus are back and sounding better than ever. Put a new battery in your pacemaker and get ready for "The Heart Attack".... Probably our hottest new act is Smashed Gladys with a female singer who really makes herself sound accessible for radio.... King Kobra and ancient rocker Carmine Appice are back to playing some good heavy metal.... Fates Warning is another group doing real well for Z-Rock. The new singer carries their core. They're another of the new hot bands we've got on Z-Rock. Once you enter the world of Fates Warning there will be "No Exit".

Jimmy Christopher, KZEW, Dallas

Neil Young is a definite ZOO artist, I even like the horns.... The Scorpions will hopefully be a smash. This track is not too safe despite what anybody says. The boys from Germany have always been one of my faves.... Kingdom Come continues to grow with steady phone response and great research feedback.... On the other side of the coin, The Church is getting thumbs up from our older listeners and moves up in rotation as a result this week.

Doug Clifton, KBCO, Boulder

Neil Young always seems to surprise us with each new release. "Ten Men Working" is the best work that Neil has done in years. The title song, "This Note's For You", will probably be the first song we play when the CD arrives. Thanks to Nancy Levin for the preview last week.... Love And Rockets have developed quite a following over the last year or two. Of course, they started off with a good cult base back when they were Bauhaus. Now former Bauhaus member Peter Murphy arrives on the scene with a very tasty single. If "All Night Long" is any indication, I think we can count on a long term commitment to this artist.... Another new good song is "Baby's Got Rockets" from the Dancin' Hoods. I understand they have a good following in LA, but it won't take long to spread their success nationally with this new release.... Moving up in rotation, Tracy Chapman and Deacon Blue on the New Music Express, Jonathan Richman, Mission UK, Jimmy Cliff, Dave Wakeling, The Godfathers, an REM remix, and a special feature on Midnight Oil.

David Hall, WKDF, Nashville

It's always gratifying to have the public responding to one of your personal favorites and that's what's happening with Cheap Trick. We've got #1 phones for "The Flame".... Projecting beyond this week, there are some great songs out there I'd like to get on in coming weeks.... George Harrison's "This Is Love" is a song I thought would make a great single when I first heard the album.... There is something catchy about Neil Young's "Ten Men Working". It gets better the more you listen.... Rocky Hill has one of the best blues based songs I've heard all year with "I Won't Be Your Fool".... "Aches And Pains" is the best thing I've heard yet from the Bears.... I'm glad to see Elektra hanging in there and slowly but surely building a case on 10,000 Maniacs. "Like The Weather" is a very tasty song that doesn't deserve to get lost.

Richard Smith, WIXV, Savannah

To start off the spring book, we had one of our most popular weekends, a block party weekend. Starting Friday at 5 and going thru Sunday at 10, we played blocks of at least three songs of each artist. This is one of our most popular features

as it gives us a chance to play music that is not played so often and it sounds great on the air -- as no other station in our market can come close to doing this.... Our \$5,000 shopping spree started off today as well. It sounds great on the air, too.... If you want to increase your 18-24 male audience, may I suggest you think about sponsoring a pro-skateboard festival. We sponsored the Savannah Slammah II festival on Saturday and our Civic Center was filled with 5,500 people, two-thirds of which were 18-24 females. The skaters all skated to rock and roll and the audience ate it up.... The Scorpions new track is a great one, making top 5 phones before it was even an add.... Neil Young's "Ten Men Workin'" took some getting used to, but now I'm grooving every time I hear it.... Gotta go, I gotta job to do.

Curt Cartier, KEZE, Spokane

I think I finally learned to never write Neil Young off.... If you would have told me six months ago I'd be playing Yngwie Malmsteen and Iron Maiden at the same time, I'd have said, "Right, and you're sister's dating Eddie".... What can I say about a fabulous Scorpions record that someone won't say better than me.... Bodeans are very impressive doing backing vocals for Robbie Robertson and not too shabby on their own either. Third cut deep with "Pick Up The Pieces". Take away Stevie Nicks and Christine McVie and this is a dead wringer for Fleetwood Mac.... Hey, am I crazy or does the opening of Cheap Trick's "The Flame" sound like Spirit's "Nature's Way".... Deacon blue, Semi Twang, Kings Of The Sun all kick butt. One a little softer, one a little harder and all of them just right.

Redbeard, KTXQ, Dallas

The Scorps are right down the middle. I think it's a great song to start with, it's got a good little hook and it certainly does not have anything that would stop one of the adult stations from playing it.... Neil is the perfect example of a guy who's so talented that he's got to do things like "Ten Men Workin'" to keep it fun. I hear it in the same vein as the Talking Heads single. They're fun songs.... #1 retail on Kingdom Come and we just needed to go deeper.... We just had Will Sexton play for free in a parking lot and drew 1,500 people on a Saturday afternoon. And then a week later opened for the Alarm at an 800 seat hall and got a real good reception. We're real proud of him.... Big Pig has retail. Last week it was in my top 5 phones and this week is still top 10. I've got a features rotation that's between a medium and a heavy and there's only three songs in there: Big Pig, Cheap Trick, and Joe Satriani. It's going to happen a big way. We've crossed it to top 40 via KEGL, but believe me this one's for real.... Tremendous sales on Satriani continue. The song may be old hat to everyone else, but we're not done with it. Tied for #6 retail this week, this is a hot record for us. It beat Sting, AC/DC, David Lee, Pink Floyd.... Yngwie is amazing. Andy Lockridge looked at me after one week of airplay and said, the Yngwie is hit. It's really going to happen. The hook on that with Joe Lynn is huge. The guitar is fantastic, and the production is real good.

Pam Brooks, WPDH, Poughkeepsie

Hey, I'm a happy camper. I personally want to fly to Kansas City and thank every member of the team. Much to my surprise, I won the WPDH NCAA pool and, of course, much to everyone's dismay.... On top of that, we've added Tracy Chapman's "Fast Car".... Went with Leslie West's "Red House" recorded live nearby in Milbrook, with over 200 WPDH listeners there.... And frankly, it looks like a pretty good week.

Rick Panneck, WAPL, Appleton

Tickets for the first Monsters of Rock show at Alpine Valley in Wisconsin went on sale last week. We did remotes from the Ticketron in our area. Naturally, requests resurged for Kingdom Come, and the new Scorpions track practically blew our phones out. "Rhythm Of Love" definitely is their most accessible track to date. Hit this now before the CHR's get smart.... Lita Ford continues to amaze us in both sales and requests. Give this a shot at night.... I'm getting on a soap box for two of my favorite bands, you won't get a trip to Europe for playing E*I*E*I*O "Hey, Cecelie" but you'll do your consciousness some good. Play the record!... Semi-Twang; fel-

low Wisconsinites unite! If you can play Eric Clapton, you can play Semi-Twang -- it's that simple!... Finally, our morning man Len Nelson recently attended his brother's wedding in Minneapolis. Who played at the reception? None other than the infamous Castaways, doing their 80's rendition of "Liar Liar". You, too, can experience, the Castaways.

Kelli Cluque, KCAL, San Bernardino

Just want to say thanks to the guys in Roxanne and to Rita at Scotti Bros. for helping us to have a terrific April Fool's weekend and warmup party. Roxanne played live and gave our listeners a great set of rock and roll. It's a joy to see them on national playlists, but it's even better to hear them on KCAL with "Cherry Bay".... Just to plug my favorite record this week, the Scorps have stung me big time with the "Rhythm Of Love". I know it's going to go all the way with us.

Mike Jones, WGIR, Manchester

Savage Mondays are fun. PolyGram Boston threw a stylin' bash last week to premiere the new Scorpions album "Savage Amusement", and it was happenin'. A total schmooze-fest and the album sounded really good at least what I heard of it because I had to leave early so I could do my nightly assault on the radio. I want one of those Scorpions' whips.... It's mighty nice to have those Black N'Blue dudes back. "In Heat" is quite good with "Heat It Up", "Great Guns", "Get Wise" and "Suspicious" (a possible hit) being the picks to click. This heavier approach and lots of touring should put these guys where they belong - right on top.... Hurricane is very good and is gonna rack up some serious chart action. (Hi, Clarissa).... And just to satisfy everyone's curiosity, wasn't the Guns N'Roses broadcast on MTV brilliant?

Paul Marszalek, WMAD, Madison

Seem' that we're in the album oriented rock format we decided to jump a little deeper into a couple of albums this week. We added a great track called "The Dead Heart" from Midnight Oil and we love the "Something Wild" soundtrack so much that we decided to pop in Jerry Harrison's "Man With A Gun", which also appears on his album "Casual Gods".... I'm happy to hear that Ziggy Marley stepped out on the right foot with "Tomorrow People". I see a bright future for the one who could be reggae's heir apparent.... Tracy Chapman can walk through the doors that Joan Armatrading has worked so long to open. Let's just hope that musicians like these will be welcomed inside sometime soon.

Brad Martin, WRCN, Long Island

By all indications, it's going to be one rockin' summer in '88. Dirty Looks - it's SPLASH ROCK!. The kind that makes you want to jump right in and join the fun.... Black N' Blue's latest is without a doubt the one that will bring them over the top.... Granted Kingdom Come gets the phones and it sounds good but this will be the year of the Scorpions with the Monsters Of Rock Tour coming in June to Giants Stadium.... Belated thanks to Steve Klein and Danny Buch of Atlantic for their red carpet treatment during White Lion's Ritz show.

Renee Blake, WKXL, Concord

Congratulations Relativity on the Dancing Hoods. You have picked another hit. Their name doesn't tell much about them but the Dancing Hoods are upbeat, melodic, accessible and fun to play.... We had immediate song response on the Smithereens. A great album all the way through. I especially loved "Green Thoughts".... Ziggy Marley; tons of requests at the record store even before "Conscious Party" was released. Ziggy is a real talent I hope to enjoy for years to come. Check "Tumbling Down", "Lee And Molly" and "Tomorrow People".... Morrissey's "Suedehead" is an unusual name for a song but it's good laid back rock. Speaking of unusual names, try "Viva Hate"; an Lp worth having in your collection.... I like so much of this Pat McLaughlin album I hardly know where to start. My favorite is "Lynda", but no matter what you play from this bluesy style of rock, it will follow you around in your head.... The Music Zone held its first annual Easter parade on April Fool's Day. It featured U2, Dorothy Hamill doing a triple axle,

The Toshiba Blimp and following in the footsteps of Les Nesman, dropped Turkeys from the sky. All that and there were still people who thought it was real. An editorial in Wednesday's paper suggested the FCC pull our license.

Brian Illes, WKFM, Syracuse

Back in the old days, we used to get telegrams or some other special delivery message from the competition whenever the ratings came out showing them ahead. That hasn't happened in quite a while, so I guess the rumors we heard are true about us being the #1 AOR in the market 12+, Adults 18+, Adults 18-34 and Adults 25-54. I can't wait until the recently completed Winter Book comes out so that all in the industry can see that things in Syracuse are ch-ch-changin' for the better.

Mike Gardner, KOAS, Kealakekua

An open question to those who run the rock business: Why is there an increasing number of non-rock, pop or CHR style songs appearing on the Hard Hundred? Will this be a continuing trend or will we see a merger of Rock and CHR? If someone can please answer my questions, I'd appreciate it. Thank you.

Catfish, WHMD, Hammond

What's in a name? 10,000 Maniacs, 10,000 Maniacs, 10,000 Maniacs. Play it. Add it. Count the requests. 10,000 Maniacs, 10,000 Maniacs, 10,000 Maniacs.

Anthony Alfonsi, WDVE, Pittsburgh

WDVE has taken up "The Flame", we hope we can go the distance with it.... The Scorpions "Rhythm of Love" is the definition of power ballad. I loved this song the first time I heard it; the more I hear it the more I love it.... Neil Young's "Ten Men Working" caught me off guard at first but the more I listen to it the more it grows on me. I'm curious to hear the rest of the album because Neil's always been one of my favorites.... Deacon Blue's "Dignity" is what everybody's been saying, a cross between Supertramp and Bruce Hornsby. This will be a record to watch... The Church's "Under the Milky Way" is another one that grows on you. It has a 60's feel to it, but still is very up to date.... Foreigner's "I Don't Want To Live Without You" is another classic Foreigner love song that'll be a big hit.... And baseball season is here! Let's go Bucs!

John Loscalzo, WRCN, Long Island

April has been officially declared CD Month at RCN. We are featuring an artist a day and listeners win CD's when we play them. Thanks to all of you who supplied the wonderful compact discs. We know who you are and we'll remember you.

David Ross, KMJX, Little Rock

I'd like to thank Mike Tramp from White Lion and Joey Kramer of Aerosmith for the phoners the day of the show. Plus it was nice to meet the bands and get pictures. Thanks, Atlantic and Geffen. It was a great show and Jesus can that Tyler scream!... April 30th Magic 105 presents Joe Walsh "Rockin on the River 88" along with Jimmy Davis and Junction from Memphis plus three local bands, outdoors, in the sun.... In a couple of weeks, we will be moving the business office and the studios so I will have a new mailing address for you soon.

Karen A. Small, WGIR, Manchester

Rock 101 ushered in April with an April Fool's prank that had the whole state talkin'. On Friday morning Jackie Mathews and Rick Murphy, Rock 101's Breakfast Club, did a live broadcast from a local Dunkin Donuts. Towards the end of our broadcast, two Rock 101 staffers dressed up as California Raisins "stole" the Rock 101 Mobile Home of Rock and Roll on the air and proceeded to drive all over the area giving away albums and Rock 101 gear. The "raisins" also called up the station with demands for return of the van. The phones at the station were going nuts, people were calling in from all over the area telling us that they had spotted the band while other listeners would call in and say that they had the van. Our gallant raisins "Ron Drew and Chris Connors" from the station were even detained by security at a local mall. They thought

the joke was for real. This April Fool's joke created quite a buzz and everyone had quite a great time with it.... This past week saw the release of some musical heavy hitters. I like the new Neil Young tune a lot. He always comes up with something unique and "Ten Men Working" has that swing sound that's perfect for this time of year.... It's hard to believe it's been over three years since the Scorpions have come out with a new record. You wouldn't know it by the sound of "Rhythm Of Love". These tunonic rockers haven't missed a beat. This is one that album radio can call their own.

Inessa York, KGON, Portland

A thing that we do here at KGON is the Fourth Annual Mayor's Ball. Get together 53 local bands on eight different stages and it's a love feast of music. We were there live broadcasting and Dan Reed Network headlined. Let me throw out some other Portland bands to watch. Nero's Rome, Crazy 8's, Curtis Salgado and the Stiletto's, Caryl Mack Band and the Razorbacks.... Really enjoyed Brew Michaels comments last week and he's so "right on" about AOR bashers.... A personal to our country cousin Dick Sheetz: Let's talk about a 15 year reunion next February.... Some favorites from this past week include Neil Young. I think it's "Eureka" for this guy.... That Divinyl's song is something else. Don't you admit that Christina has locked in the vote for top female rock vocalist?... A special favorite this week is Peter Murphy. If you like Love And Rockets, how can you not like Peter Murphy?

Kelly Cruise, WEGR, Memphis

I want to welcome Drake Hall to our staff. He'll be a great addition to our team in Memphis.

Steve Cormier, WIZN, Burlington

Rich Haskell moves from overnights to morning drive. Mike Luoma moves from part-time to overnights. Program Director Steve Cormier moves from morning drive to a Noon to 2pm shift. New music hours because of that. Mondays from 9am-11am and 2-2:30pm. Until Tom returns, I will take calls from Friday from 2-4pm. Tom Van Sant will be out of commission due to the Baaaaaaahh's Outside.

Wendy Steele, WLVQ, Columbus

It's good to hear Glass Tiger rockin'. "I'm Still Searching" goes in to medium this week as well as Hall & Oates.... To complement, these tunes we also added Scorpions, Neil Young, Michael Bolton, the Bears and Robbie Robertson's "Somewhere Down The Crazy River". What a sensual song. It's our Assistant MD's and my pick to click. It's great to tie-in local rivers on the air, too. "Enjoying a picnic lunch along the _____ River." Or better yet "a picnic dinner under the stars. Gotta go."

Joe Skare, KFMQ, Lincoln

The KFMQ "World Tour '88", which has already sent listeners to places like Australia, Los Angeles, New York City, Lake Placid and to concerts in Philadelphia, Minneapolis, Kansas City and Chicago continues to roll up the mileage.... At our April Fool's "Suitcase" party Friday night, qualifiers showed up with suitcases packed and ready for a trip to see Bruce Springsteen in New York. The grand prize winner and guest left the party in a limo to the airport and spent the weekend in the Big Apple. The next stop on the KFMQ "World Tour '88" will be a chance to see The Kinks live in Los Angeles with all the amenities.... Musically, Neil Young scores again with "Ten Men Working". This could be Top 5 phones soon with his strong following in the area.... We've also added Robbie Robertson, Jethro Tull and for the headbangers AC/DC's "That's The Way I Wanna Rock And Roll" and a great offering from the Scorpions "Rhythm Of Love" which is currently enjoying a great run on KFMQ's Rock Wars.... Newcomers to Top 5 phones: Cheap Trick's "The Flame" and Balaam And The Angel.... Guns N' Roses continue to dominate with Robert Plant a strong second and Judas Priest's "Johnny B. Goode" at #4.

Dave Kane, WCMF, Rochester

It's been said that it don't mean a thing if it ain't got that swing. If that's true, then Neil Young's latest is seriously meaningful. Put this song to work for your station and you'll have the audience snapping their feet and tapping their fingers right along with you.... The Scorpions are back with a vengeance with a song that makes you realize how much their particular sound has been missed. "Rhythm Of Love" will bring them right back to the top of the melodic hard rock heap.... We're getting some major league calls on Treat Her Right. In addition to its unique sound, it is also getting strong call out results and looks to be around for a while.... Donald Fagen is also pulling some good phones although they seem to be exclusively from older males.... Thanks to Jerry Lembo from CBS for "Springsteening" me and to Eva from CBS for getting out to see her new territory in person.

Ty Banks, KQWB, Fargo

With the renewed industry interest in the 10,000 Maniacs project, we gave it another listen and came up with a Medium add this week.... The Smithereens move into Heavy this week as do the Kings Of The Sun, which is finding a welcome among our listeners.... Talking about fast movers, the Honeymoon Suite is popping into Heavy after only one week on the playlist.... Top five phones this week contain the usual format leaders and, against all odds, The Church. The reason this record succeeds when other new bands don't is pretty simple: they've got one of the best songs out there right now. When it gets right down to it, that's what counts, isn't it?

Joe Blood, KEZO, Omaha

I knew that Midnight Oil would perform once it got on the air. It's the kind of song that just punches out of the speaker. Sure enough, it has been top five phones for the last three weeks and exploded at local retail from 22-9 this week.... The Church is also performing top 20 sales and is another hot phone property. It has that something special that sets it apart from everything else.

Dave Fortney, WKLT, Kalkaska

It's finally Springtime. We've changed our clocks already, baseball is back, the Redwings are into the playoffs and the Pistons, I hope, are, too.... Since I was gone last week it's time to clean out some things and fill it back up. First of all, Neil Young and The Blue notes, aside from our morning guy loving him even if he burped on record, has a hot one here with "Ten Men Working". It should keep toes tapping all summer.... My personal favorite of the Spring of '88 is the Talking Heads "Blaahhnd".... With all these new metal bands coming out every week and people using them for the most part at nights only, you never know how things will go in that arena. We added "Go Zone" by AC/DC this week to instant top five phones.... Finally, we did some April Fool's Day fun last Friday. Our morning man, Dean Berry, and our midday girl, Terri Ray, got married on the air. We got front page in the local newspaper and people calling up to wish them congratulations. Of course, by afternoon the marriage was off because Terri found out Dean was once a TV evangelist. It was a real fun day.

Alan White, KILO, Colorado Springs

KILO 94 pulled off the most outrageous April Fool's Day prank in our ten year history last week. KILO's morning loon, Red Noize, announced that at high noon there would be live Pink Floyd from the roof of the station. Pink Floyd is scheduled to play Mile High Stadium in Denver this month so we decided to play it up for all it was worth. The phones rang nonstop throughout the morning with loads of questions, but all we said was that there was going to be live Pink Floyd from the roof of KILO at 12 noon. Innuendo and gag interviews fueled the fire throughout the day. We arranged for a huge motor home to pull up in front of the station followed by a stretch limo and lots of support personnel who busily hoisted a PA system to the roof. All the while a steady crowd was gathering outside of our studios wondering what the hell was going on. Even though it was April Fool's Day, we never let on and being the

Rock And Roll Authority it was like leading the lemmings to the edge of the cliff. By noon, police who were directing traffic estimated the crowd at over 3,000. Then at noon from the roof we gave them the payoff with three live Pink Floyd songs that were broadcast on the air, plus we gave away tickets to their upcoming concert, Pink Floyd albums, plus free soda and pizza for the crowd. Amazingly, a large percentage of the crowd actually believed that the band would be at KILO to play live. There were only a few complaints and everyone walked away with a real good attitude even though we had played a huge April Fool's Day joke on them. It was absolutely insane.

Al Nassar, WCKW, New Orleans

Kingdom Come is so forceful it continues to kill at retail and requests, that hook is just so big and powerful that it can't miss.... We need more of the sound that the Scorpions have provided with their new tune. "Rhythm Of Love" is a natural for us here.... Jerry Harrison is still moving up here. Outside of the Robert Plant and Kingdom Come, "Rev It Up" is probably the #1 track with our staff.

Sonny Cuellar, KRIX, Brownsville

The Scorpions sound real good; we are glad to have them back.... Robbie Robertson is growing on me with every listen.... I predict that Cheap Trick is going to take off like a mother, the countdown is on.... "Talking 'Bout" is a killer track bound for great things and we are looking at the George Harrison for next week.

Jim Kelly, KATP, Amarillo

On the strength of the last album and some very positive testing last week, we have decided to swing behind the Glass Tiger release.... Yngwie Malmsteen sounded so good that it pushed the Scorpions back a week for us, Joe Lynn Turner's vocals are just incredible.... There is no stopping Guns N' Roses around here but if they ever do go away the Cheap Trick will jump into the #1 slot in an instant.

Phil Maicke, KFMH, Davenport

Leslie West has a great sounding track, very upbeat sounding and that Jack Bruce bass work is very welcome. All in all, the audience is very big (no pun intended) on having Leslie back.... The Tonio K is an incredibly deep album and the first track did very well for us. It sounds like he has finally decided to write a few songs that will get some airplay.... We do a lot with R&B music so it is wonderful to have Neil Young bounce back with something as perfect for us as "Ten Men Working" which goes directly into Heavy for us.... My favorite new band out there is the Dancing Hoods. "Baby's Got Rockets" has a killer hook that sounds so good in the speakers I can't believe it.

Dave Powers, WHTF, York

Now that we have gotten past the obvious with "Tall Cool One", it's time to get back to the meat of the Robert Plant album. "Ship Of Fools" is my favorite from the album and should go top five across the board.... It is great to have Cheap Trick back, I've been a fan for years and we've been waiting for this album and the original team to get back together.... Neil Young has a hot chunk of vinyl and should do well.... This vocal by Joe Lynn Turner really propels Yngwie Malmsteen into a whole new arena, great stuff.... The INXS is showing big retail in our neck of the woods.

Chris Herrmann, WHJY, Providence

The new Neil Young is no automatic just because of name recognition; he has to earn this add, and he has. You just can't stop your feet once those horns kick in.... The Scorpions is a monster. They've taken the edge off and that should help them with a new audience. Don't get me wrong, the power is still there but it's just throttled back a little.... Treat Her Right moves up this week motivated by great phones and an in-house buzz that tells us this song is for real.

April 8, 1988

**THE
HARD REPORT**

Again, I'd like to thank all of the radio dudes and dudettes, bands, industry personnel, and friends for showing up and thoroughly enjoying themselves at the Fates party! Those of you who didn't show up (Mark Didia, Mark LaSpina, Derek Simon, & others), I'm truly bummed over your non-participation.... Remember that Hallows Eve and Fates Warning's new albums ARE coming. You'll freak! Wait until you hear Hallows Eve's "Shear Heart Attack". It's kinda like the Red Hot Chili Peppers meet Queen.... Once the Fates Lp arrives, no one (Fischer and Scroggs) will be able to tell me that they aren't reporting Fates cause it's a 12". We gotcha now!... Special thanks to: Jessica at WNGZ, where Fates are #1, and Steve at WCDB, Brandon at WRBC, Mike at WNHU, Jon at WKNH, Frank at WSCB, Steve at WFCS, Cheryl at WHUS, Steve & Dewey at WKNC, Kevin at WOUR, and Chris at WHFS (all of which had the Fates 12" in their top 5). Let's see what we can do with these guys. They need and deserve a break! Thanks again!

Jessica Harley, WNGZ, Elmira

Megathanks goin' out to all at Metal Blade for hosting one hell of a party. The open bar part of the whole thing would have been pretty cool, however by the time I got there Megadon and Givens had managed to drink the bar dry.... Well, now on to the best part of the evening Fates Warnings performance. The boys put on a killer show -- Ray Alder fits in perfectly. Fates rules! And speaking of ruling, for two weeks Fates have managed to hold onto the number one slot overall and are dominating the phones. That's pretty intense considering few bands are that powerful with just a 12". Well "Silent Cries" ain't just any 12". It hosts some of the finest music/lyrics from Fates Warning to date as well as the debut of Ray Alder, vocalist extraordinaire. "No Exit" will surely be one of the hottest albums of the year. I can't wait to see these boys when they begin their tour.

Rich Scroggs, WWVU, Morgantown

I was shocked and appalled over the Earl Of Earache's recent debut in the radio comments. For a long time Mr. Treppiedi has been a beacon of information in his metal news column, now he has lowered himself to new lows in name calling. This is obviously a pathetic attempt to call some kind of attention to himself and I think it would be best for all concerned to ignore Mr. Treppiedi altogether. Secondly I have something of a moral dilemma which I hope some of you will help me resolve. Monte Conner has asked me to be a radio comments mercenary against Bill Fischer. My problem is very simple, on one hand I enjoy slamming Bill Fischer any chance that I get, but do I really wish to be associated with Monte Conner? Please someone tell me what to do.... Now let's talk about some records. While the new Udo record is no restless and wild it's an awfully good record anyway. One that deserves a lot of airplay. The Znowwhite record is a fine example of late twentieth century speed metal it should do very nicely on my show.... The Nasty Savage Ep absolutely rules. Any band whose lead singer manages a female wrestling tag team in his spare time can't be all bad.... To sum things up for today, there's a fine line between a nice guy and an idiot. You be the judge of where Bill Fischer fits in.

Megadon, Combat, 718-740-5700

BLIND ILLUSION mania has begun and I'm glad! Seems you've discovered there's life beyond my fave B.I. track "Bloodshower" with "Kamikaze", "Death Noise" and "Vengeance Is Mine" as the top jock picks.... I must be losing it. Keep on the Crumbsuckers, because the tour starts April 14th at Irving Plaza in N.Y.C. Naturally, I'll be available for boozin' and schmoozin'.... I know I'm gonna get my head kicked in for asking, but why hasn't Tigertailz cracked the charts yet? By the way, the English glamsters have a new singer. He's Kim Hooker, formerly with Ran-Kelson. He's not blond.... Okay, it's time for me to get back to true form. Thanks to all at Metal Blade for the Fates schmoozathon. I got more accomplished there than I did at the last convention I attended (the free drinks were an added bonus).... Mike Jones at GIR: Thanks for writing a dialogue that was entirely Guns N' Roses-free.... Caesar and Russ: You newcomers have a lot to learn about dialogue

RADIO COMMENTS

abuse. You ain't tickled my funnybone yet.... Scroggs: Come back to New York. Cycle Slut Nancy wants to abuse you some more.... Robin Taylor: Thanks for having the guts to say what many have been afraid to.... Clarissa: When's the divorce?... Monte: Yeesh! Where should I start? The "boring" part of your last dialogue should not have included Znowwhite - they rip!... Cheryl: We hate you, too!... Phil Hardy: As I have been a regular reader of Kerrang! since issue number one, I think I have the authority to inform you that Kings X (good as they are) are not the first Kerrang! cover story on a band that hadn't released an album yet. W.A.S.P. achieved a cover story long before their debut single was released. Nice try, though. Just call me an Encyclopedia Of Useless Metallic Information.... That's it for now, except Givens and myself attended a party last Saturday night and the Obese One went home after an hour and a half from extreme drunkenness. Just thought you should know.

Clarissa Garcia, Enigma, 213-640-6869

Enter the "Atomic Arena" with Barren Cross in a club near you. Here are some upcoming tour dates: 4/14-Fort Wayne, IN; 4/16-Indianapolis, IN; 4/18-Flat Rock, MI; 4/19-Flint, MI; 4/21-Williamsport, PA; 4/22-Albany, NY; 4/23-Wenham, MA; 4/29-Pitman, NJ; and 4/30-Pottstown, PA. Call me if you want an interview.... I was just singing along to the new 12" mix of "I'm On To You" from Hurricane's "Over The Edge". You'll get "I'm On To You" mid-April if all goes well. It's a great, strong track that brings my prediction ("Hurricane is gonna be huge!") one step closer to being inevitable. Be still my beating heart! I just checked out the rough edit of the video for "I'm On To You". When the final edit hits the video airwaves, it'll be all over. We'll have many hearts a-poundin' all over the country. Could "Over The Edge" be Hurricane's first and Enigma's next gold record? Will they be bigger than even I predicted? Will I finally get my own gold record to display proudly on my wall? I soit'nly hope so. Stay tuned.... Bill and I are going through our wedding gifts and I want to thank everyone for their thoughtfulness. Monte gave us a bottle of hair growth stimulant for Bill's chest. Chris Black and Jeff Luttrell gave us a gift certificate for a free flea dipping for Bill's Monte-chihuahua. Jem, by the way, felt so bad about kicking the poor dog in the mouth that he referred us to his dentist and offered to pay for all repairs. Cheryl Valentine gave me a bottle of hair bleach; Miss Clairol Winter Wheat, the kind she uses. And last but not least, Phil Hardy gave us his and hers pink bandannas to be worn around our ankles. We haven't opened all the gifts yet, but I just wanted to thank you fine folks. We appreciate your kindness and generosity.

Sal "Earl Of Earache" Treppiedi, Mercenary/Celuloid, 212-741-8310

Well, ladies and germs, the GOO GOO DOLLS are off and running. They began the "CRAM THE VAN" North American tour with a rousing show at Syracuse University. The guys were telling me that the show was pandemonium. The guys can't wait to get to all the cities and meet all you lovely metal people. They are going to be available for interviews before and after most of the shows. The guys will be hitting Roanoke, Richmond, Orlando, St. Petersburg, Miami, Atlanta, New Orleans, Houston, Austin, Phoenix, and Long Beach in April. If you would like to interview the GOO GOO DOLLS or see them live with Gang Green, call either myself, Geordio "Gordo" Gillespie or Jerri Meyer and we will do our best to hook you up with whatever you might need.... The Splatcats are doing incredibly well on college radio. They are approaching top 10 status on Rockpool and CMJ's charts and top 20 status on the Gavin Report's chart. The boys are currently knocking people dead over in Europe. When they return, the Splatcats are going to be hitting the road for as long as they can stand it. Knowing those dudes, it's going to be quite a while. If you would like to interview the Splatcats when they return, call Geordie or Jerri and they will take care of you.... By the way Cheryl, can I get some whipped cream with my cake?... Tune in next week, same Earl-time, same Earl-dialogue. MU YA!

Mrs. Irvin Fleischman, Atlantic, 212-484-6017

Please play "Tell Me" by White Lion. It seems the last few weeks, every time my son David calls, he has been extremely

irritable, totally preoccupied with this record stuff, and the most recent pictures I've received from his lovely wife Jaye (you ought to meet her, what a princess!) it appears he's losing quite a bit of weight. I'm sure it's due to worrying about this White Lion record. Please play this record and put this nice Jewish mother's mind at ease. You should all live and be well.

Michael Linehan, Reprise, 818-953-3750

Neil Young had an unbelievable first week at radio with the #1 Most Added track across the board. "Ten Men Workin'" is the highest debut on every tracks chart and is already starting to draw major phones at KFOG among others. The entire CD/Lp is out this week and you should have it as you read this. While we are focusing on "Ten Men", this project is so strong I'm sure many stations will be giving their audiences a taste of several different cuts. Check out the title track, as well as "Life In The City", "Hey, Hey" and "Married Man". There are also great ballads: "Coupe De Ville" and "Twilight". Neil has given us his best effort in years and you have given him the best first week of his career. Thank you, radio!... On another happy note, the Bodeans had an excellent week with "Pick Up The Pieces" picking up debuts in the 70's on all three tip sheet tracks charts and another dozen plus new adds including WQFM, WLZR, WBRU, WEZX and KEZE. Rotations increased at KLOS and KBCO among others. We're getting back incredibly positive comments from programmers, and it looks like this cut could be the sleeper from this album.... The Mighty Lemon Drops take a six point jump in Album Network and debut on The Hard Hundred. I'm sure some of you haven't gotten around to listening yet with all the product out, but this is a great cut that showed chart growth at over two-thirds of the stations playing it this past week.... Likewise, Morrissey is pulling huge phones and blowing out of the stores with a 95*-59* move in Billboard and 52*-31* on the Album Net Retail chart. You should give "Suedehead" a few test spins and see how the audience reacts. With sales like that you know something is happening here, but you don't know what it is, do you Mr. Jones?

Hugh Surratt, RCA, 213-468-4000

What do Dave Logan, Tom Owens and Rick Carroll have in common? The possibilities boggle the mind, don't they? One common link they share is that they all added Treat Her Right this week. This record is performing like gangbusters, folks. Don't you think it's about time you climbed on board? We think you'll like it, that's what we think.... And how 'bout those darn Kings Of The Sun. The track "Serpentine" and the album both blew past Breaker in R&R this week. If you haven't checked out this band's video, you're missing one of the strongest performance videos ever shot.... You all have a CD single on your desk by Mr. Mister. "Stand And Deliver" is from the great new movie of the same name. This song has been remixed and is very strong.... Also look for the Lita Ford CD which is stickered with the next track, "Close My Eyes Forever". This ballad, which is penned and performed by Ozzy and her, has been pulling mega-phones whenever it gets on the air. Put it on at night and step away from the board, 'cause those phones are gonna blow! Love And Rockets and Lita Ford are both out on the road. Catch these artists live, because both are electrifying.

Don Kaye, Noise International, 212-334-9268

Now I know spring is here! Baseball starts as I write this, and my beloved Mets are looking mighty sure to clinch the NL East this season. If you call me and I sound distracted, my apologies -- I've probably got a game on the radio.... Speaking of radio, let's see some chart action for Tankard and Vendetta! Both are getting added all over the place, but I won't be satisfied until I see 'em both climbing the chart. Thanks to Z-ROCK, WWVU, WWUH, WEOS, WNHU, WDPU and everyone else who got a quick jump on this paralyzing pair.... Speaking of paralyzing, I don't remember anything much of the Metal Blade party at the Cat Club last week, but I do remember meeting such notable liggers as Dr. Metal, Psycho, Valerie Allgrove, Dawn from WUSB, as well as the usual bunch of New York boozers. Snake and Away extend special thanks to everyone they met at the party for showing them a great time while they were in New York, and I hope everyone found the Voivod guys

as cool and real as I do.... Oh yeah, I do remember one thing, which several industry personalities are in agreement with me on. With all due respect to the many lovely ladies working in this business, I say that Chris Black is the most beautiful woman in metal. Let's get some feedback on this.

Jay Ziskrout, Arista, 213-655-9222

Who says AOR can't break records? In the case of The Church, rock radio has been key in the ascension of "Under The Milky Way" to hit status. This record was quickly embraced by college and alternative AOR, and was immediately given maximum airplay. Positive audience response and major sales at "hip" retail outlets ensued. Then the record made the transition to mainstream AOR. Again, power rotation results in major request and sales activity. (Now, however, the sales story has crossed over to mainstream accounts.) The single has been released to top 40 radio. Immediately, it is one of the most added tracks for the format. To boil it down, we have significant and rapidly building, multi-format airplay (consider all the disparate presentations within each format), requests and sales. This is the phenomenon of a mass appeal hit record! And, as you know, hit records should be played in your heaviest rotation. As an AOR programmer, you can take pride in being part of the "Starfish" success story. Thank you!

Donna Geisinger, Passport, 818-500-7677

Well, well, well, didn't I tell you? Leslie West is off and running. Those "Making The Story" and not waiting are: KLOS, KJOT, KQWB, WBYR, KJJO, WEGR, KWLN, KFMH, KOSP, KACV, Z-ROCK and many more! A great omen presented itself Monday when we learned that "Mississippi Queen" was released exactly 18 years ago to the day that we released the first track from "Theme", "Love Is Forever". Those stations testing Leslie are finding great response, like WKLS in Atlanta. The album is shipping this week along with a new Wild Seeds' 12". Watch your mailboxes for this incredible package!... Many thanks go out to Sal Treppiedi and Chris Black for a great two part series on Eric Steel and look for a new track from "Infectious", "Rescue Me", to be featured on The Hard Report's all metal sampler CD.... For those of you with a new music program, you should be receiving Dredd Foole and the Din's "Take Off Your Skin", featuring The Volcano Suns with Dredd on lead vocals. This one will definitely set your turntable on overdrive.... I'll be back with you next week.

Victor Lentini, Passport, 818-500-7677

I then yelled from a cliff into the canyon. "Leslie West, Love Is Forever." SSSSSSHHHH. Listen....."Leslie West, Love Is Forever." "Leslie West, Love Is Forever." "Leslie West, Love Is Forever." "Leslie West, Love Is Forever."

Penny Barnes, Rhino/Rampage, 213-828-1980

Only Child, Only Child, Only Child. I really think that I must have broken some kind of record for saying the same words so many times in one week. But to say that I am excited about this record is not enough! I am ecstatic!! AOR radio is constantly in search of great music, and then along comes this band, handed to you on a silver platter like the finest caviar, and radio is eating it up! Already so many stations are committed to this record with adds going immediately into medium rotation! "I Believe In You" is on CD and on your desk. It should be on your CD player, but in case it hasn't yet made it to this predetermined destination (it's in the cards) then speed up the process a little, and get to it today. We have been giving birth to this child, and now we are finally ready to deliver the goods. We need your help. All together now: Only Child, Only Child. This is AOR radio at its finest.... Having just recently signed with Creative Artists, and then jumping aboard The Alarm and next The Midnight Oil tours, House Of Freaks is a band that everybody will be hearing much, much more from in the years to come. House Of Freaks has just recently completed work on a brand new 12" with the new track "Black Cat Bone" on the A side, and on the B side two special live tracks! This album has already made you aware of exactly what this band is capable of, and we expect that this new 12" will be a

.. welcome addition to your playlist also. House Of Freaks, "Black Cat Bone" on a turntable near you. Check it out!

Michael Schnapp, SPV USA, Inc., 516-783-3040

I'm **EXCITED**. Why is he **EXCITED?**, you ask. Well, packing 537 packages of records is always stimulating. And when you pack the likes of Sodom, Destruction and Satan in one envelope, well, your blood gets a boilin'!... Also something exciting is a copy of Bip magazine included amongst the Metal. We like Bip a lot and you should too.... You should also like these metal records. And so should your listeners.... Heads will be bangin' when SODOM, DESTRUCTION and SATAN are spinning.... Also coming real soon is a package for the ALTERNATIVE stations & shows.... The BOLLOCK BROTHERS is a funny, strange record while the RAYMEN are crazy psycho rockers from Germany. I have some advance tapes, so if you want one, you know where I live.... Also anybody who has dance shows or features dance music, let me know because we will be releasing some DANCE 12's soon.... Yo, Chery! Maybe it's Sick Pup called Valentine (or maybe not!) Love ya, Babe.... Mega, I'm waiting.... Chris LaSalle, WORD! Keep these cards and letters coming.... And what happened to the RANGERS! I'm bummed.

Lynn Oakes, Enigma, 212-741-1385

I just want to say anyone who has not yet added the DEL-LORDS' "Judas Kiss", for whatever reason should call Charlie Logan at WYNF. Now here's a man with a story. Of course, if his line is busy, call any one of the several stations currently hypnotized by this record. Our latest victims: WYNF, WRKI, WAQY, WEZX, KROQ, WPXC, WHJY, WNGZ, WRCN, etc.... That ole' guitar layering technique is ever present and ferocious on the new RONNIE MONTROSE track "Mach I". If you dig the monstrous rock of MONTROSE, you will stop at nothing to play this. "Mach I" is already blowing out at KOME, KJJO, and KSJO!... About the BROADCASTERS, first read this: Ever had a date you were really into and over a period of time you wined and dined, phoned faithfully, showered with flowers, etc. and just when you thought your efforts were about to pay off, the door was slammed in your face! All your efforts aimed at really accomplishing something are now accomplishing nothing. Well, a lot of you are hesitating to get behind the BROADCASTERS follow up track "Walls Of The City". Don't let this record be compared to another worthless date! JUST SAY "YES!"

Pamela Newman, Enigma, 213-640-9342

We told you it was infectious and the converts are beginning to fall in line. Picture this: Charlie Logan at home over the weekend, relaxing, defenses down, doing those weekend kind of things (I'm editing out the specifics, Charlie). He gets caught off guard and finds himself being seduced by "Judas Kiss". "This really is a fantastic song", Charlie can now be heard saying. And he put his money (or airplay) where his mouth is - VOILA - WYNF testifies. Along with WEZX, KROQ, WAQY and WXXP new believers come in and the Del Lords' "Judas Kiss" continues to perform and prove itself to be the strongest developing record on the air. With a conversion factor that's rock solid, there ain't a whole lotta "lights" out there and over a dozen stations are reporting top 5 phones!.... Ronnie Montrose is back with a vengeance - doing what he does best. From the all instrumental album, "THE SPEED OF SOUND", comes "Mach I". Ronnie gets welcomed back into the arena with a standing ovation this week at KOME, KSJO and KJJO leading the way. Also, check out "Telestar".... Anyone suffering from that "oh, a second cut" mentality should throw the BROADCASTERS' "WALLS OF THE CITY"⁷ on the air and see if the walls of their city don't start to shake (or at least their phone lines.) This song has even been known to cause near traffic accidents. Just ask Marko.... In the "can you believe this?!" file is the one about Enigma's publicity guy, Tom "the Cord-man" Cording, who claims that his swimming pool burned down last weekend. Now, this is the West coast and the pool was filled with water! Can any of you figure out how this is scientifically possible? Maybe the chlorine caught on fire? Ah, life in Southern California. Fave raves? Cassette, album, CD.... If anyone out there can figure out how to put the

Gina Shock record "MIDDLE OF NOWHERE" into liquid form - I'll buy it! I need this song fed to me intravenously; I just can't get enough.... I have heard CHR's next secret weapon and it's called CLIMIE FISHER (better combat it by adding the DEL LORDS immediately.) Thanks for asking, I knew you cared.

Craig Marks, Homestead, 516-764-6200

After approximately nine years and eight records without an American release, Homestead is proud to announce the debut US Lp from New Zealand's The Chills, "Brave Words". Chills lineup #10 (we think) is the one you're not going to miss -- a swirling, uninhibited blast, alternately remote and incredibly intimate. Without messing around with the basic ROCK-band format (vocals/keys/guitar/bass), the Chills are adding more to the music's vocabulary than anyone else heard today. To touch upon the "serious shit", i.e. life/death, love/hate, without succumbing to MOR cliché or (worse) bad rockguy poetry is rarer than you think. For the Chills to shift so effortlessly from pensive and fragile to moments of mind-blowing electricity leaves me wondering if they have any idea whatsoever just how good they are. Start with "Wet Blanket" or "Dan Destiny" and don't stop there.... Also out and about is the terrific new Salem 66 Lp, "Natural Disasters, National Treasures". "Lucky Penny" comes across as a cross between The Saints and 10,000 Maniacs: hopeful, kinda romantic, and most important, very memorable (and hum-able).... Last, thanks to Mike Marone for the kind words regarding the new Big Dipper 12". "Great Hook, great song," says Mike. "Great band," says I.

Louis Heidelmeier, Elektra, 404-344-5080

In talking to radio, I'm often told how "crowded" it is out there. "So many good tunes." That should make the numbers we've accumulated on the Adventures even more appealing to you. Please note that 2/3's of the stations on "Broken Land" have it in medium or better; very impressive. Persistence will pay off on the Adventures much as it is paying off on 10,000 Maniacs. At this rate, some of you will have gold albums on your wall, who would have thought that? Special thanks to WKLS, KLOL, and KATT for coming to the party. Major phones and now major sales. Some of you are running out of excuses.... Those of you looking for the best of the heavier sounds need only remember that Dokken is approaching double platinum. Your audience has spoken!... If you want something fresh, please listen to Smashed Gladys. The rock 'n' roll power of AC/DC with a female vocalist. Need I say more?... I'll close with a note about Tracy Chapman and Reuben Blades. I've always been amazed that some people in radio think so little of their audience. A record is good enough to make you ask for a CD for your own collection but it's not good enough to share with your audience. That doesn't sound, to me, like you're trying to stay in touch with your audience. Sounds more like you're trying to separate yourself from your audience. I don't know if I would want to listen to someone who thinks he's better than I am.... Personal to Lin Brehmer: In reference to your baseball team of two weeks ago, you forgot one important item, especially in today's times: The 10,000 Maniacs in the bleachers making their presence felt.

Jeffrey Naumann, Virgin, 213-278-1181

The Ziggy Marley album is already selling like pizzas in New York City. Just think what will happen when everyone starts playing this album! Ziggy's tour has already started, the show is two hours of pure party fun, even Michael Plén was seen tapping his foot at the New York show last week. If you're not sold yet, just go see Ziggy live. You'll be blown away like a big fat spleef. It seems to me that "Tomorrow People" is just the spice that radio needs to make radio listening fun again. Try it and see.... Speaking of tours, Balaam and the Angel hits the road this week starting with the East. Balaam will be touring in May through the whole country in the intimacy of clubs. We want you to see Balaam, they are "Veritable Cookaahhs".... Another great week for Rocky Hill including the infamous WMMR. I noticed a lot of increases in rotation, too. I guess "I Won't Be Your Fool" is a hit.... My favorite record this week is the Kings Of The Sun on RCA. Every track is a "Veritable Suck-ah".... Is it true Bubble Butt was seen eating his lunch out of the satellite dish?

ROBERT TEPPER

MODERN MAN

featuring,

“THE UNFORGIVEN”

**Hard Frontrunner
March 25th!**

"Gary Myrick's slashing guitar work is a giant ear pleaser in its own right, and the 'West Side Story' lyrical overtones will definitely hit any even remotely urban listeners where they live. Tepper's growly vocals are intense and compelling and the 'whoa-oh' chorus is impossible not to sing a long with." **Bill Hard**

"Get ready to experience a massive phone blowout when 'The Unforgiven' hits the airwaves. You won't forgive yourself if you miss this smash hit." **Tommy Nast**

"Robert takes his track record into another dimension with 'The Unforgiven'. Look for this powerhouse to dominate your straight ahead rock and roll fans." **Larry Miles, KLPX**
