## FRONTRUNNERS

Chrysalis

### HUEY LEWIS

#### "PERFECT WORLD"

*"The Huey Lewis stereotypes will fly out the window when people hear what a diverse album this is. There's something for everyone here and the single is #1 all formats, no doubt". . . .*

John Edwards, KBPI

Epic

### GREGG ALLMAN

#### "CAN'T GET OVER YOU"

*"Even with the current onslaught of major artists, you can't afford anything less than a power add on the Voice of the South. A great single from an album even deeper than his last". . . .*

Rad Messick, WDIZ

Mercury

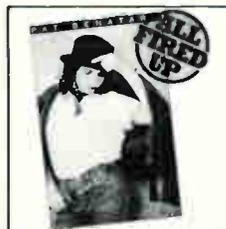

### CINDERELLA

#### "GYPSY ROAD"

*"Cinderella's second is going to surprise everyone. In one vinyl step the band has left their polished metal beginnings for a bluesier rock maturity". . . .*

Carter Alan, WBCN

## RECORD OF THE WEEK

Chrysalis

### PAT BENATAR

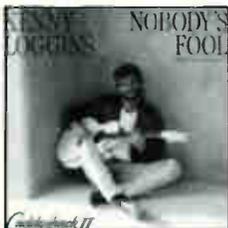

#### "ALL FIRED UP"

*"Let's give Pat a big hand. The band is tight, the song is top notch and the guitar work is big and nasty. This is a welcome return". . . .*

**Huey Lewis and The News, "Perfect World", Chrysalis....** You start with the certainty that Huey's gonna deliver a whopper of a pop track--and hope it's News you can use. The hooks are always there to spare, the message is always positive, and his squeaky clean Boy Next Door image always shines through. From your formatic standpoint, it comes down to how heavily he plays to the upper and lower end--and few artists can cover them both as well with one song. Sure, "Stuck With You" had them tuned in from 12 to 50--while those 18-34's were grooving to Gregg Allman. However, we'll gladly line up behind **John Edwards** in terms of this album's variety and relative risk taking. Certainly the last thing Huey wants to be stuck with is a schlock stigma--something that's hard to sidestep when you're as media adept as our hero. There's a reason why we all played him in the first place, and "Perfect World" is a strong opening statement that the music is still the main thing.

**Gregg Allman, "Can't Get Over You", Epic....** With "I'm No Angel" knocking off #1 rock radio airplay and close to gold sales, last year's success has to put Gregg right up there behind Aerosmith in the "Back From the Brink" division. The man was dues-paid in full about a decade ago--and everybody loves a winner, especially when that comeback comes late in the game while batting with one arm and a blindfold. As **Rad** says, his voice is indeed the mouth of the South but it's also one of the 70's few remaining signature sounds that relies only indirectly on nostalgic value. The man's a player. Between A&R ace Michael Caplan, and that platinum gleam in Harvey Leeds' eye, all Gregg ever needs is a solid song to sink his teeth into. This one was co-written by new Fleetwood Mac member Billy Burnette--and it's easily his best effort since "Angel" hit the top. As **KQRS' John Lassman** sez, "It's 'Tush' meets 'Tough Enough', and some of his best work in years. Watch this re-establish this artist as the founding father of Southern rock."

## HARD ACTS TO FOLLOW

**Robben Ford, "Wild About You", WB....** Having first seen Robben play on Joni Mitchell's "Court And Spark" tour and indirectly following his career up to the Yellowjackets albums and on through to the Miles Davis tour two years ago, I was fascinated to find that jazz/fusion was really not his primary interest area. His real musical preference? Blues! It was also equally surprising to find he has a not just good, but great, voice. Given how well rootsier stuff has gone over on the air--a la the James Harmen band--and how the public seems to respond to guitar heroes of late--we'd say Robben's latest walks in with all kinds of credibility. "Wild About You" is authentic, hooky, and as well played as one would expect--with an especially cool sax/guitar break.

**Kenny Loggins, "Nobody's Fool", Columbia....** Here's a late arrival we couldn't go to press without making room for--and given his batting average, priority status at your end would seem to make even better sense. Given Kenny's penchant for sugar, this is a swell turn in a noticeably cleaner, leaner direction--and you know the movie is can't miss. A second listen singalong, no doubt--and no "Dit, dit, dit's" this time!!

**Impellitteri, "Somewhere Over The Rainbow", Relativity....** Hey, we know Matt and the folks at Relativity are chasing the Rainbow remake of "Since You Been Gone". And given the fact that they've teamed original vocalist up with wunderkind player Chris Impellitteri we can see why that's the priority--and we do like the rendition. But on the other hand, whoda thunk the Judy Garland classic would make such a killer "Rainbow" cover? I agree that it verges on novelty--but everyone knows and loves the song and you'll be surprised at Impellitteri's following. The pipeline knows the name for sure. PS: Don't be surprised to see at least one giant mainstream station roll a first week add.

## ALBUM PLAY PRIORITIES

**Rhythm Corps, "Common Ground", Pasha....** The Rhythm's there now--with another solid add week, healthy increase action--and a move to 39\*. New's include KOME, KRXQ, WBCN, WEBN, WEGR, WMAD, WKRR and WRFX, with KLPX, KTYD, KZAM, KWLN and several more upping. **WAPL's Rick Panneck** told us, "It's already starting to pick up, and we moved it to medium. At first we thought it might be too CHR, but decided, 'Aw, screw it! This is just a good song!'".... **Carter Alan** comments, "There's a chance those subtleties could slip by at first, but once the melody gets you, it's just a natural. People won't have any idea who it is when they hear it on the radio but they'll keep listening to find out".... With the album arriving this week, put an ear to "Cold Wire" and realize Rhythm Corps is one hell of a lot harder than you might think.

**Cinderella, "Gypsy Road", Mercury....** And while we're on the subject of Comebacks, Breakthroughs and other Major Achievements, who's going to argue that only Poison shared the spotlight in last year's Hard Rock debut darling division. Double platinum doesn't lie--especially when backed up by torrid tour performance (most notably with David Lee) and drop-dead video success. And while the genre is dogged by more than its share of one shot wonders, you can expect the "Long Cold Winter" project to slot Cinderella in for a nice long run. "Gypsy Road" is more of that straight ahead three chord AC/DC style stuff they do so well--but a little less heavy than the debut. Get your ears behind an advance cassette, and as **Carter** says, you'll hear a heavy helping of blues influences a la Aerosmith, Great White and Led Zep--and more on target evolution than any band has a right to the second time out.

## RECORD OF THE WEEK

**Pat Benatar, "All Fired Up", Chrysalis....** Well, it only took about a day to find out what a strong rock radio item "All Fired Up" would be. We had people like **Ted Utz** at WMMR telling us the listener demand was so heavy they had to slot it in during every shift in the two days before the system took over rotation. **WYNF's Charlie Logan** comments, "She has returned in a big, big way. Nothing faddish, gimmicky, or pseudo hip. Just a wonderfully straight forward record".... **KOMP's Big Marty** feels "Pat has come up with what I think has to be one of the best songs she has ever recorded".... **WBLM's Robin Mathieu** feels, "If it wasn't a rocker, it wouldn't have been as easy to get so excited about the track--but this is truly great rock and roll".... **KFMZ's Mike Richter** says, "It sounds like a big truck...coming down the hill...straight at you--with no brakes!! A gritty rocker that gets Pat back from the brink of AC-dom".... 154 First week adds definitely get her back on the chart in a big way--with this week's highest 9\* debut and 41 OTB heavy reports.

**Steve Forbert, "Running On Love", Geffen....** He's one of the best as of yet unbroken songwriters I can think of--but it's no secret those raspy tones qualify as a serious acquired taste. As long time fans, we think this new tune is quite cool--and as **WYNF's Charlie Logan** hypothesizes, "I think John Mellencamp may have paved the way for Forbert's success now".... They also like it at KLBK, with **Don Gilmore** saying, "It's just good to have Steve on the radio again. There's a good portion of our listeners who remember him from the first couple of records".... **KFMU's Dave Ross** calls it "A killer all daypart song with just the right amount of hooks".... Currently on 21 reporters, including WNEW, WYNF, WPDH, WLAV, KMOD, KLBK and KDJK.

**Rebel Heels, "In Hot Pursuit", Atlantic....** Are we, in fact, in the early stages of what amounts to a female rock revolution? Have we been operating under what amounts to a quota system all this time? A look at any airplay chart over the past ten years would tend to confirm that theory, especially when compared to our current chart--which shows no less than ten females on the Hundred. Why stop there? If you've had success with anything on the sultrier side--do have a go at the Heels. Pat Benatar meets Martha Davis.

**Robert Palmer, "Simply Irresistible", EMI/Manhattan....** Mark our words, it'll be his biggest hit to date. The rave-a-rama couldn't be much more intense, as typified by KLBJ's **Don Gilmore** and "The record of the summer and possibly the record of the year! Before all is said and done, this is going to be an across the board smash. There's not a note out of place".... **Rick Panneck, WAPL** adds, "This satisfies our audience's yearning for raucous rock and roll without scaring them away by being too dance oriented".... **Mike Boyle, WDHA**, "Can you say, 'Going to #1 in no time at all?' That's the only thing that needs to be said about this!".... Again to **Charlie Logan** and "Palmer has set the phones ablaze!! This song is a monster".... **Ernie James, WEQX**, "A truly strong record from a rare talent".... Checking first week phones: KQRS, KQDS, KWLN, WAOR, WEGR, WKRR, WRXK and WYNF. Officially added at 143, debut 10\*.

**Brian Setzer, "Rebelene", EMI/Manhattan....** Considering Brian and the Stray Cats boys basically started the rockabilly revolution, it's about time he got back to what bought him all those Big Bikes in the first place. I mean, in his case horns are fine--but only when mounted on the hood of a vintage Caddy. Pink, to match his sideburns. "Rebelene" is nothing but fun--with thoroughly good vocals and that never-miss "Ain't Got Nothing Yet" chord progression. Like the song says, he's country but he ain't no hick.

**IMPACT TRACKS**

**Crowded House, "Better Be Home Soon", Capitol....** "Far and away the most skillful songwriting I've heard in a spell", says **WHJY's Chris Herrmann**, "I feel like the Beatles have been reincarnated as Crowded House. 'Better Be Home Soon' forced me to pull my car over, close my eyes and shiver, (same reaction I had to 'Don't Dream It's Over'), and I mean it. This will be an AOR/CHR/AC SMASH!".... **KFMZ's Mike Richter** did his best Joe Piscopo when he said, "The big story, Crowded House! We're looking for big things again, these guys are a breath of fresh air".... "Just a hell of a followup", claims **KRIX's Sonny Cuellar**, "This song is sweeter than sweet, if you think you can't play it, you're missing the boat. It will bring in upper demo's and the females will moisten their silk over this one".... 80 OTB adds make them third on the Most Added List and debut them at 40\* on the Hard Hundred. **KQWB's Ty Banks** adds, "They fill a real empty void and they have a style that is needed now for the format"....

**Jimmy Page, "The Only One", Geffen....** "It's good to see Plant and Page together", comments **KRZQ's Dick Sheetz**, "Maybe this is a hint of what's to come in the future".... **Robin Mathieu** at **WBLM** agrees, "We went on this track because of the Plant connection. This one really stands out as one of the strongest selections from a really solid album".... "The Only One" received 76 adds OTB, and made it's debut at 43\* on the HH, but that's not the only one. "Wanna Make Love" also debuted on the chart at 82\*, getting 26 adds. Other songs from "Outrider" receiving action were "Prison Blues", "Hummingbird" and "Writes of Winter", the LP debuted at 4\* on the Album Chart. **Tom Van Sant** at **WIZN** tells us about his favorite cut, "Page's 'Prison Blues' is a screamer. It lights up the phones everytime. Truly a rock legend at his best".... Let's not forget about the track that started things off, "Wasting My Time" is now rolling on 164 stations, 80 in Heavy or better, and sits at 6\* on the Hard Hundred. **Jon McGann** at **KFMX** says, "Hearing the Jimmy Page album was one of the biggest treats in months"....

**Patti Smith, "People Have The Power", Arista....** **KSHE** and **KLOS** come on board this week along with 25 others to help Patti jump 32-24\* on the HH. **WBCN**, **KRXQ** and **WMAD** lead a group of 12 to give rotation increases, her station number now stands at 142, with **WHTG** in **Power** and **KBCO**, **WXXP**, **KOME**, **WCCC** and **WFNX** all part of the 25 heavies. Any artist would give their right leg to take a 9 year vacation from the music biz and get this kind of airplay action as a welcome home. Look for her LP to hit your desk soon, this tune appears to be only one gem in her bracelet of fine songs.

**Paul Kelly And The Messengers, "Dumb Things", A&M....** Given the traffic, I guess it's kinda dumb to expect anyone to play more than the single for now--so you should know it's one of this week's strongest gainers, 70-60\*. That move comes across via another 13 adds, 52 now playing, and ups from **KBOY**, **KTYD**, **WDRE**, **WGTU**, **WHTG**, **WMDK**, **WWWV** and **WBCN**--where **Carter Alan** called it "A great little pop song with an infectious melody and a cute lyric".... **WGLF's Jeff Horn** feels, "Paul grabs you by the ears and drags you to the turntable".... But on the home listening front, if the **John Hiatt/Jules Shear** approach appeals to you, this album will take over your ears. Paul's an effortless songwriter--and a remarkably facile and expressive guitarist. Why, he's **Dave Edmunds** and **Nick Lowe**, all rolled into one! Just check out "To Her Door", "Little Decisions", "Same Old Walk" and "Under the Sun".

**Ronnie Montrose, "Telstar", Enigma....** You had to know that if anyone could cover this early sixties instrumental classic, it's Ronnie. Actually, anyone at the top end of the 25-34 spectrum who took guitar lessons probably learned this tune first--along with "Walk Don't Run". What's really amazing is that most--if not many--under 25 listeners have never heard it. Dawn Hood, f'rinstance. But it only took one play for her to give it the old "Hey, great tune!" reaction. Gee, maybe that's what took **The Tornadoes** to #1 worldwide, huh? Definitely worth a test.

**Iggy Pop, "Cold Metal", A&M....** **John Riggs** at **WKLC** had a vision when he heard this tune, "Iggy Pop is the living, breathing king of rock and roll. 'Cold Metal' proves why the man is God".... "This is a fantastic new tune from Iggy", exclaims **WCCC's Joe Marino**, "Blah, Blah, Blah only scratched the surface, this will make more and more people aware of this great artist".... **KFMH's Phil Maicke** screams, "Talk about great lyrics, Iggy also cuts a mean guitar, CHECK IT OUT!".... **WLLZ**, **KNAC**, **WRIF**, **KSJO**, **WNEW**, **KTXQ**, **WBCN**, **KOME** and **KROQ** are. They're among the 48 stations on, 37 of those by way of new adds this week. **WDHA** was one of them and **Mike Boyle** relates, "Iggy has got the phone's buzzing already. 'Cold Metal' has the grit we're used to from the man".... **Robin Mathieu** at **WBLM** says, "It took a couple of listens, but it has a raw quality, with great lyrics, we just had to play it. Being a fan, I knew this song had to get on the air".... The **Iggster** debuts on the Hard Hundred at 65\*.

**Deep Purple, "Hush", Mercury....** "If **Eric Clapton** can do it, so can they", claims **WRXL's Paul Shugrue**, "This song hasn't been revised since the 1968 original, so the audience is well disposed to accept it".... With the kind of OTB action it got, **KSHE**, **WNEW**, **KOME**, **WLLZ**, **KTXQ**, **WMMR**, **KISS**, **WYNF**, **KSJO**, **KATT** and 45 others, it appears as if that statement has some truth to it. The story we hear, is that the guys got together in the studio and just for fun decided to jam. This version was taped live and that's what you hear on the vinyl. For more fun slap "Highway Star", "Smoke On The Water", or if you have to make that all important bathroom pit stop while on the air, the 11:26 version of "Knocking At Your Back Door" will do the trick.

**Guns and Roses, "Sweet Child O' Mine", Geffen....** **Ty Banks** at **KQWB** speaks the truth, "Sweet Child" could be the biggest phone hit yet for Gun's, they're burning off the hook".... **Tim Parker** at **KNCN** adds, "Give the people what they want, they're not requesting it, they're demanding it. I haven't seen this kind of reaction to a record in a long time, not even for **Def Leppard's Pyromania** and we all know what 'Rock of Ages' was like when it was a current".... **KRZQ's Dick Sheetz** tells this story, "This is a rock station, in what has in the past not been a rock and roll city. When we first stated playing cult rock bands **Gun's** and **Roses** was one of the first. We were on them when other cities, including **L.A.**, weren't. It would be as stupid not to play this tune as it would be to walk down **Hollywood Blvd.** with a blindfold on".... **KLOS** and **WRIF** get on this week, so did **KATS**, **Ron "Sweet Child O' Brian"** relates, "Better late than never, talk about a hook as well as great music and vocal variety. **Axl's** voice is amazing!".... #1 phones in the country for the third straight week and a 27-18\* on the Hard Hundred.

**56\* Hard Hundred**

*from the stunning solo debut*

**38\* Album Impact**

### **Ginger MacKenzie, KATP**

*"I love Melissa Etheridge! I think she puts a lot of emotion into her music, she has a wonderful voice and strong songs."*

### **David Sadof, KLOL**

*"'Bring Me Some Water' sounds great on the air. She sings with conviction and is an artist people can relate to."*

### **Eric St. John, WNPQ**

*"We have finally added her this week and my morning guy is jumping up and down about this record!"*

### **KBCO, Doug Clifton**

*"Melissa Etheridge stopped by and played four songs live on the air last week. Her performance reaffirmed our strong feelings that she is going to be one of the rising stars of 1988."*

**Steve Winwood, "Holding On", Virgin....** "What put Steve Winwood in such a good mood?" asks **WWCT's Paul Nelson**, "Whatever it is, I want some of it".... Maybe it was the checks from Michelob? How about being on a new label? Maybe he missed that dinner with Naumann (BURP). Oh well, having "Roll With It" hold down the top spot of the Hard Hundred will have to do, along with having three other tracks debut. "Holding On" was the fifth most added song with 72 OTB, and came in at 41\*. "Hearts On Fire" blew in at 52\* with 49 adds and that familiar sounding "Don't You Know What The Night Can Do" popped in at 57\* with 46 stations on. **WAQX's Lorraine Rapp** may have hit the nail on the head when she said, "This album is solid, from the first note to the last".... It definitely gave Van Halen a scare, the LP screamed in at 2\* on the Album Chart. **WIZN's Tom Van Sant's** comments may help alleviate some fears about, well Tom you tell em, "Although Virgin may be worried about overexposure, we've been banging 'Roll With It' and 4 other cuts with no negatives yet".... But **WHTF's Dave Powers** has the shortest, yet sweetest comment, "You can't lose on any track"....

**Elton John, "I Don't Wanna Go On With You Like That", MCA....** "From the opening chords of 'Goodbye Marlon Brando', we realize that Elton can still rock", relates **WWCT's Paul Nelson**, "I especially like the crack about saying goodbye to new age music. With the heat, it may not be a good idea to say goodbye to Marlon Brando, he can provide some serious shade".... One of the Biggest Movers on the chart, 30-20\*, was helped along by 14 more adds, and play ups from the likes of WBCN, KLOL, WIZN, WAAF and WHCN. With 123 stations on, 12 are in Power while 37 are in Heavy. "Reg Strikes Back", debuts on the album chart in the same place as his single is sitting on the HH, 20\* and rising.

## MORE HARD ACTS

**Aslan, "Loving Me Lately", Capitol....** **Joe Marino** at **WCCC** calls it, "A record you shouldn't forget, even in these crazy, crowded times".... **WLLZ** and **KGB** haven't neglected it either and **WDHA**, **KATP**, **WWTR**, **KATT**, **WSTZ**, **KJJO**, **KMOD**, **WGIR**, **KRQU** and **WOXY** are also finding room for this sleeper on their playlist. The band has been opening on the **Graham Parker** tour and leaving audiences awestruck, sort of like they've been doing in Ireland for the past few years. **Capitol** is committed to breaking this band and after one listen it appears that they definitely have the goods. Now it's up to you to help deliver them to a radio near you.

**The Bible, "Crystal Palace", Chrysalis....** "A sophisticated sounding band", says **KTCZ's Jane Fredrickson**, "We really like 'Crystal Palace' it has a strong hook and is a well crafted song that has tremendous CHR crossover potential".... So here we stand once again, rock radio has the chance to break this band before Top 40 so let's get the job done. If they took a most requested chart around the office, this band would be near the top. **KLOL's David Sadof** calls it, "Another solid effort, The Bible is really sounding good to me".... With **WNEW** and 32 more stations behind it, The Bible is at 80\*.

**Shine, "This Wall of Hate", RCA....** "Have you listened to Shine yet?", asks **WDHA's Mike Boyle**, "If you listened to 'This Wall of Hate' only once and threw it aside you've done yourself an injustice. Pull it out again. I guarantee this will sneak up and bite you on the ass after a couple of spins".... Along with **WDHA's** add, **WNEW** also came on line this week along with **KFMH**, **KZOQ**, **KTAO**, **KTCL** and **KFMU**. Ireland's recent musical exports have been on the softer side and Shine, while effectively fusing various rhythmic styles still has a lot of bite to go along with their bark.

## TAKE TWO

**Scorpions, "Believe In Love", Mercury....** Maybe we should print tons of Scorps pictures every week, I know they'd like it. Whether it was because of all those backstage Monster photos or something else "Believe In Love" shot up the HH 67-50\* and became the Biggest Mover this week. **WLLZ**, **KSJO**, **WLAV**, **KISW**, **WHCN** and **WWWV** were part of the 28 add barrage that brought the station total to 64\*. **KGB**, **KISS**, **KOME**, **WDHA**, **WXRC**, **KRXQ**, **WEBN** and **KOZZ** are already in that number of believers and this track should help keep those Teutonic terrors flying high through the long hot summer.

**Midnight Oil, "The Dead Heart", Columbia....** "Don't lose any ground with this smash", explains **KRIX's Sonny Cuellar**, "If you were late on 'Beds' now is the time to switch to this track".... With 15 more adds this week, it appears as if some stations out there are starting to heed those words. **KNCN** is new to the game where **Tim Parker** relates, "It's got a hook that hit me over the head after about 5 listens. Why it took me so long, I don't know. It's top 20 retail here".... **WLLZ**, **KGB**, **WNEW**, **KBCO**, **WBCN**, **KOME**, **KTXQ** and **KSJO** are all part of the 121 station onslaught that looks to be even bigger in the coming weeks with a 27\* on the Hundred.

**Stryper, "Always There For You", Enigma....** "This record will sell like Jalapeno's in Texas", exclaims **KRIX's Sonny Cuellar**, "The audience lives by this band, because they are both metal and religious. The quality of the music speaks for itself".... If you've checked out **MTV's Top 10 Most Requested Videos** you'll see this foursome near the top. Check out sales as well, just call your local retailer and we bet this album will be blowing out the doors. You can't beat **Michael Sweet's** vocals for quality and range and darn it, they're so cute, women will be dying to hear this tune again and again.

**Queensryche, "Breaking The Silence", EMI/Manhattan....** "As I've said before, a thinking man's hard rock band", explains **KILO's Alan White**, "Much improved vocal quality and I think the musicianship has come along as well. A night record at this point with more than its share of curiosity calls but it's another development record that's selling very well".... **KNAC** has it in Power, while **KGB**, **WLLZ**, **KILO**, **WBAB**, **KISS**, **KSJO**, **KRXQ**, **WHJY**, **KOME** and **KJJO** make up part of the 31 total. It's been #1 on the Metal Chart for 6 weeks and sales are near the 300,000 mark, 88\* on the Hard Hundred

**Rod Stewart, "Dynamite", WB....** Some more fuel was added to the fire this week as **KOME** and **WNOR** lead a pack of 14 new stations on Rod's explosive new track. **AOR** programmers have been waiting for quite some time the **Rodster** to rock them as only he can. **KSHE**, **WNEW**, **WPYX**, **KBPI**, **WMMR**, **KILO**, **WLAV**, **KRXQ**, **WWDC**, **KISS** and **KATT** are part of 123 stations that have helped light the fuse under this tune and with yet another good add week and some timely play ups, the man with "Hair as high as an elephant's eye", can easily blow into the top 10. Currently he sits at 25\* on the HH.

**Van Halen, "When It's Love", WB....** Despite a serious threat from the Michelob man, these monsters held on to the top spot of the Album Chart for yet another week. But this track has its sights set for #1 on the Hundred, make no mistake. "When It's Love" received a whopping 41 play ups to rule the Increase Index this week, they also got 5 more adds including pure-rockers **KNAC**. That totals up to 155 stations on with 33 Powers and 86 Heavies. Add it all up and the track moves 10-4\*, a damn good move in murky waters. There's another track warming up in the bullpen, "Finish What You Started" has 65 reporters on and that includes 14 new players that help place it at 4\*.

*“It’s better than  
coffee”* **IGGY POP**

*featuring:* **“Cold Metal”**

**The Church, "Reptile", Arista....** "We just converted from 'Milky Way' this week", says WBLM's Robin Mathieu, "This song is a very satisfying and progressive sound from the band".... KGB also joined the group of 71 on that includes, KRXQ, WBCN, KILQ, WLAV, KISS, WFNX, KDJK, WIZN, WNOR, KMOD, WRCN and WXXP, putting it at 48\* on the Hundred. If there was ever a track to set you off from the CHR competition this one is it. While they're still crisping "Milky Way" you can lead your audience to that next plateau of aural pleasure with "Reptile".

**Neil Young and the bluenotes, "This Note's For You", Reprise....** It's one of the weeks Biggest Movers on the Hundred jumping a full bodied 24-14\*. Ever since rock radio received their longer live version "Note" has been shooting up the chart like Bud out of a well shook up can. With 50 out the 141 stations on this track having it in Heavy or better there's still plenty of room to grow. The Top Ten is an uphill fight these days but Neil has put out the kind of album that already has him ranking in at number one in the hearts of his fans.

**Honeymoon Suite, "Lookin' Out For Number One", WB....** "This cut is better than the first release, hands down", claims KQWB's Ty Banks, "They're huge in this market and consistently requested, along with their older stuff".... WLLZ and KATT lead a group of 10 new stations to bolster their report count to 54 and climbing. WNPQ came on this week where Eric St. John relates, "They've come up with a good track for the band and a solid followup for the project. The band has a local support base that won't quit so we aren't out on a limb on this one".... If you've heard this tune you know it smokes from the word go and that 59\* on the Hard Hundred is starting to ignite as well.

**Smithereens, "House We Used To Live In", Enigma/Capitol....** The Smithereens are fast becoming one of America's most important bands. Just listen to KRIX's Sonny Cuellar, "There's no way I can be without a Smithereens track on the air, period!".... KLOS, WRIF and KSJO all come on this week with 6 other new play reporters, bringing the total to 117 stations on this great followup track. KLLO's David Sadof relates, "The LP is a wonderful piece of work, we're on numerous tracks already".... The success that everyone had with "Only A Memory" should have made this an automatic and at KGB, WNEW and WBCN they already have it in Heavy, it all helps put those Jersey Jolters at 31\* on the HH.

**Cheap Trick, "Let Go", Epic....** It's time to start turning some of that early enthusiasm about this project into solid airplay and this is the track to get it done. Sure, it's been tough the last few weeks to get in that "Favorite followup tune", well now is the time and the Trick has the track. "Let Go" is being called, "One slice of a very wonderful pie", by WKLS's Beth Kepple, it's also getting Top 5 phones at WDHA and KRQU. If you're looking for a song with hooks from heaven, look no further. "The Flame" burned brightly for you and this one is a stylistic inferno waiting to be sparked at 45\* on the Hundred.

**Balaam and the Angel, "I'll Show You Something Special", Virgin....** "The record is a builder, showing some phones and sales that are starting to kick in", claims KILQ's Alan White, "They're a confusing group, not much of a track record, but they have a solid cult following. That's a key word, cult, because they are a lot like the Cult in sound and style. Sharing the same producer certainly has something to do with it.".... KLOS, KGB, KNAC, WFYV, KSJO, WRCN, KZAP and KTXQ are part of the 55 stations on with KLAQ, KXBR and WOXY in Heavy. This song truly kicks so listen before you judge, 64\* on the HH.

**Kings Of The Sun, "Black Leather", RCA....** For a good time call WGLF's Jeff Horn, (but use another name), "This Kings of the Sun track is catchy, makes me want to try S&M".... Well if you're going to whip it, whip it good! KZAP, WPLR and WRKI come on this week to join the likes of WRIF, KISS, KMOD, WDHA, KATP and KZOQ and nobody is hollering for their mama yet. If "Serpentine" wet your whistle, and it did for a lot of us, this one will certainly drown your sorrows. It doesn't matter if it's 100 degrees in the shade, after hearing this you'll want some leather pants, shirt, underwear, whatever, as long as it's "Black Leather". Check that growth to 90\* here at El Rancho Hardo.

## CHARTSTARS

**Camper Van Beethoven, "Eye Of Fatima", Virgin....** Maybe Camper should play a show for all the radio programmers across the country. It would be worth it, if it has the same reaction on them as it had on WKWQ's Art Boerke, "Camper performed here recently and they were great, even the polkas were fun. It's great to translate that buzz into airplay with an add for them this week".... WNEW and WBCN lead a pack of 24 station who are on with WRCN, KACV, WFNX and WHTG playing "Eye" in Heavy. This tastemaker band is notching 86\* on the ole Hard Hundred.

**Hurricane, "I'm On To You", Enigma....** Waxing poetic is KWIC's Tim Kelley, "Yes sir, yes sir, you heard it from me, the greatest hook since Muhamad Ali!".... If you can honestly tell us that the Na-Na chorus in this tune doesn't grab you instantly maybe you've been one of Mike Tyson's recent opponents.... "Drives the girls crazy", exclaims KILQ's Alan White, "It's a dynamic sounding record that draws people in with the hook. This band should be around for a long time, we're also starting to get good phones".... KLOS and KJJO have it in Power already while WLLZ, WPYX, KGB, KOME, WHCN, KSJO, WYNF and KDJK are among the 85 on. Get ready for high winds caused by the fast motion of your listeners running for the phones to hear more once you expose them to this great Summer sing-a-long smash. 38\* on the Hard Hundred.

**Bruce Hornsby and the Range, "Look Out Any Window", RCA....** Despite the tough competition, Bruce managed to nose into the Top 10 this week at 8\*. Major help came from 25 stations that gave him play ups helping make him fourth on the Increase Index. KLOS and WRIF decided to come on board this week and that brings the reporter roster to 144 with 15 Powers and 71 Heavies. With attention being focused in other directions in the past few weeks, it may be time to boost that Hornsby a little higher in your rotation. His tour will be starting soon so look for added publicity and interest in the coming weeks.

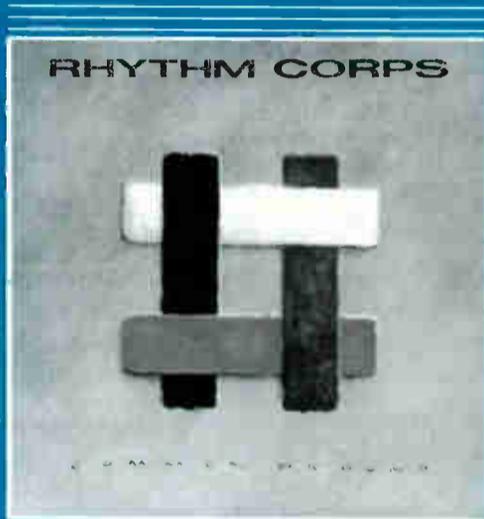

**Michael Anderson, "Sound Alarm", A&M....** It's good to see Michael at the threshold of the Top 20. From the first time we heard this one we knew it was destined for "Hitsville". Check it out, 139 stations are on with the headroom showing plenty of room for growth. Like the zap of a "Death Ray" or the toss of a "Grenade", some massive rotational pressure is sure blow "Sound Alarm" up the Charts. So how about it? Isn't it time to get out your Revengers and help J.B. and his Vinyl Commandos get Michael to the top. Right now he sits at 22\* on the Hard Hundred.

**Britny Fox, "Long Way To Love", Columbia....** A word for the wise comes from KQWB's Ty Banks, "It looks like it could be a smash, and we like to be on these things early".... WPYX, KBPI, KILQ, KDJK and WRXK seem to agree, they're among the 12 new to join the party. WLLZ, KNAC, KISS, WMMR, KRQR, WNOR and KMOD help bring the total to 62 with their continued support. Don't underestimate these Philly natives, with the labels firm commitment to break this band, the sky's the limit. If you're shaky, check that coffee cup and then listen to WKLS's Beth Kepple, "The track is working in a lot of markets so we decided to give it a shot here to see how well it will do".... Yes, there are many comparisons being bandied about, Bon Jovi and Cinderella to name but two, but hey that's not bad company for your limo to be in. 61\* on the Hard Hundred.

**Chris Herrmann, WHJY**

"We got lots of ecstatic phones from all types including 18-24 men. For the life of me, I cannot understand why anyone would drag their feet on Rhythm Corps."

**Christina, WPLR**

"Rhythm Corps is developing early. Why? Because the hook sticks in your brain first listen."

**Karen A. Small, WGIR, Manchester**

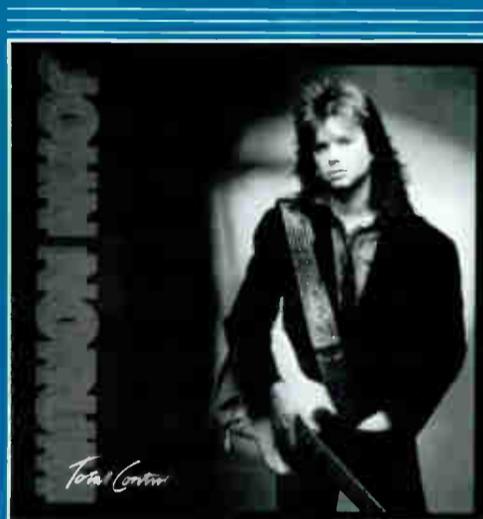

"I predict that this band and this album will be on turntables till I meet my maker at the Pearly Gates."

**JOHN EDWARDS, KBPI**

"The actives and our gut reaction tells us it's a smash. Already a #1 Request item here, there's no doubt that it's perfect for this market."

**Melissa Etheridge, "Bring Me Some Water", Island....** KBCO's Doug Clifton calls her, "One of the rising stars to come out of 1988".... KLOL's David Sadoff relates, "It sounds great on the air. She sings with conviction and is believable, an artist people can relate to. Melissa sings from the heart and you can tell that her music is important to her".... With accolades like that it makes us wonder why more stations aren't drinking in the benefits of "Bring Me Some Water". KATP's Ginger MacKenzie states, "I love Melissa Etheridge, I think she puts a lot of emotion into her music. She has a wonderful voice and writes very strong songs".... This lady will not only make your audience happy but those jaded airstaff types as well. WNPQ's Eric St. John says, "After debating about Melissa we finally added her this week. My morning guy is jumping up and down about this record".... With a 53 station count so far, "Water" is rising this week at 56\* on the Hundred.

**Tracy Chapman, "Fast Car", Elektra....** Superlatives seem to flow about this lady like light through a prism. KTCZ's Jane Fredrickson, you have the floor, "No doubt, one of our hottest records of the year. She did an electric show when she played here a few months ago. The market has responded strongly with sales. She has an intriguing voice and she's not afraid to deal with social issues. Our audience is responsive and sensitive to Tracy Chapman".... Response is a key word, the phones have been lighting up enough to make Tracy the #5 most requested song on rock radio. The station count has now reached a whopping 134 with 7 Powers and 51 Heavys to land her at 17\* on the Hard Hundred. WAQX just came on this week, Lorraine Rapp says, "The surprise add for us this week is Tracy Chapman. Obviously this record has worked everywhere it is being played and you can't argue with success".... Her debut LP is at 14\* on the Album Chart with "Talkin' About A Revolution" also starting to get some action in markets where the first cut did well.

**John Norum, "Back On The Streets", Epic....** KSHE, WLLZ, KLOS, WPYX, KILO, KISS, WNEW and KZAP are just a few of the stations currently playing Mr. Norum. To get that kind of support, you have to be doing something right and the master of Europe's guitar sound has been delivering on every chance at airplay he has gotten. KBPI, WLZR, KAZY and KQRS think so much of it that they already have it in Heavy, with WLZR and KBPI reporting top 5 phones. This is no fluke Frank, we're talking about a very talented individual with a great song. John has already proved he can play by virtue of his hot licks on the "Final Countdown" LP. Give him a shot and you'll see why the stations mentioned here have him on the air with a corresponding 67\* on the Hundred.

**REO Speedwagon, "Here With Me", Epic....** If you can find a better tear rendering, heart tugging balladeer than Kevin Cronin and the Wagon, have them step forward. Here's another one of those tunes that will be, "Our Song", to thousands of couples out there. You want to draw in those coveted female numbers? You want to pitch a Kleenex co-promote? These are the guys for the job, plain, pure and simple. Think of it as that perfect mornings/midday song, Cronin's familiar vocal strains will keep them tuned in for sure. WRIF, WLLZ and KSHE are getting misty with this one getting REO currently up to 62\* on the Hundred. What's that, you got a request for it after one spin? I knew it.

**Bob Dylan, "Silvio", Columbia....** What looks and sounds like the collaboration of the year, (this one and the last one too), moves to 7\* on the Hard Hundred. Bob also received help from the 25 stations that gave him big play ups. One of those was WKWQ, Art Boerke says, "Dylan goes to Heavy this week. Letting the audience in on the fact that the Dead are working on this track certainly helps the acceptance level".... KFMZ is new this week and that helps bring the station total to 172, 'FMZ's Mike Richter relates, "We've been watching it and it's a consensus song for the station. We'll give it a shot and wait for the reaction. There is enough Dead feel to 'Silvio' to validate any of Dylan's eccentricities".... My, what a big word. "Down In The Groove" is holding fast at 10\* on the Album Chart.

**Georgia Satellites, "Open All Night", Elektra....** What the Braves, Falcons and Ted Turner couldn't do for Georgia, the Satellites will. Get out those Confederate flags because in the words of Charlie Daniels, "The South's Gonna Do It Again". "This record is going to be great for us", exclaims KRZQ's Dick "Ah Shucks" Sheetz, "We saw them last Friday, when this band does a live show, the house shakes. 'Don't Pass Me By' is a great Beatles remake, a new standard. 'Mon Cheri' cooks! It's a great novelty song that's starting to get some phone action".... WIZN's "Colonel" Tom Van Sant was also excited, "Kudo's to the Satellites for a full bore rock and roll album highlighted by 'Don't Pass Me By', a song that's been screaming for a remake".... Their LP makes a debut at 9\* on the Album Chart while the single received 29 play ups putting it at number two on the Increase Index and 5\* on the Hard Hundred.

**Jethro Tull, "Part Of The Machine", Chrysalis....** Ian and his gentlemen, (you can't really call them boys anymore), make their way into the Top 20 this week, settling down at 16\*. This first taste of the 20th Anniversary Collection appears to be pleasing musical palates all over the country. Look for more excitement when that main course arrives. For desert, you may want to keep close tabs on the whereabouts of one of their upcoming concerts. The band is on the road again, playing all of their classic morsels for an appreciative audience. 141 stations are on the menu so far, but for maximum enjoyment, a rotation increase will do the trick. Go ahead, take one, they're wafer thin....

**Baxter Robinson, "No Simple Cure", ATCO....** "Pssst, wanna have fun", asks WEGR's Kelly Cruise, "Play 'No Simple Cure'... a sound comparable to INXS and REM, but with a singalong quotient up there with your favorite Beach Boys song".... WEQX is reporting Top 5 Phones, Ernie James relates, "I don't know what it is about that record, but it has a strong sound that really pops on the air".... Baxter debuts at 100\* on the HH this week, WBAB and KPEZ have it in Heavy. 'PEZ's Doc Phillips says, "It's really working for us and the upper demo's are starting to light up the phones for it. It's a song that sets us off from the other stations".... KLOL's David Sadoff sum it up best, "This is a surprise sound, it sounds excellent in the mix and has a lyrical quality I truly enjoy".... Give it a listen, maybe you'll like it too.

**Joe Satriani, "Always With Me, Always With You", Relativity....** "What a piece!", cries WXLP's Haz Montana, "It's the most emotional expression through a guitar that I've ever heard".... You ain't a kiddin' Haz. The new master of the rock instrumental strikes again with one the Biggest Movers on this weeks Hundred, 98-85\*. The East coast appears to be holding back but KGB, KOME, KZAP, KSJO and KRXQ on the West coast were among the 14 new players bringing the total to 33. Relativity is very committed to this track, as shown by their shipping out clear 12" of the release, so don't put your boards away yet. There's plenty of surfing yet to be done with Joe.

**Robert Plant, "Dance On My Own", Es Paranza/Atlantic....** Often imitated, never duplicated, Robert is once again making a climb to the top. "Dance" cracks the top 50 on the Hard Hundred this week at 46\* with KBPI, WHCN, KLOL, WDVE and KMOD among the 15 new players. KGB, WLUP, KOME, WBCN, KATT, WGLF, KZAP and KRQR continue their support to make up part of the 64 total. You can't argue with his current track record and popularity and with "Tall Cool One" being banged hard on CHR you can't do yourself any harm by getting ahead of their steamroller.

**INXS, "Kick", Atlantic....** I hope everyone realizes that the party is far from over for these Aussie boys. As I heard one MD say this week, "Give the people what they want", and it appears that more INXS wouldn't be a bad idea. WLUP, WNEW, KLOS, KGB, WLLZ, KATT and WWDC are just some of the 92 on. With the energy that this song permeates, it's perfect for summertime, you know, a real top down, pedal to the floor, (pardon my expression), Kicker! What more do you need? Certainly not another Fat Boys song. No arm twisting needed on this track, it'll wipe out any hole that exists on your playlist with just one swipe. Watch it climb at 35\* on the HH.

While the Top Ten is pretty much locked up, that sure didn't keep Pat Benatar from wedging a very impressive 10\* debut with format leaders KLOL, KLOS, WDIZ, KRXQ, WPYX, WIOT, KGGO, KTXQ, WMMR, WFYV, WBCN, WNOR, KQRS and KYYS. Pat has come out swinging with a song that combines one of her best vocal performances with some of the grittiest, gutsiest guitar busting that Neal has ever done, period. This track has enough chunk per square inch to hang a ten gallon Stetson on. As for audience reaction, look at those instant top five phones on WNEW, KQRS, KILO and KDKB and play on.

The other big debut this week sees Robert Palmer and "Simply Irresistible" hitting the street at 11\* with support from WNEW, KROQ, WDIZ, KZAP, KYYS, KQRS, WPYX, KPOI, KILO, KTYD, KTXQ, KGB, WONE, KSHE and KLPX. This first time track for his new label shows Robert's style and substance both on an upward spiral. Crooners come and crooners go but almost nobody can generate the kind of flashpoint intensity that Robert guarantees with the mere

mention of his name. Oh yeah, the video is a visual treat as well, but what else did you expect?

Elton John turns in another strong week with a 23-13\* jump for the man with the travelling Roland. The story continues to develop well at KEZO, KLOL, KPOI, WBCN, WHCN, WFBQ, WMAD and KEZE with a killer tune that harkens back to a pastoral time before hair transplants and sex scandal lawsuits. Jethro Tull may not have actually invented the machine but they certainly know how to keep it well tuned. Check that continued growth at WNEW, WRKI, KLOS, WIOT and KGON or that strong 20-16\* move and it becomes obvious that this prolonged comeback shows no signs of weakening at any front.

After a week or two of slipping around the edges of real success, Poison gets back in gear with a 22-17\* push this week helped by WEBN, WPHD, CFOX, KMJX, KQRS and KSHE. Sustained video pressure and more big box office out there on the road help put this band in the contender-fer-sure category. Another band with more lives than a funkadelic feline, Guns And Roses, move up 32-25\* with a little help from KGGO, KLOS, KTYD, WOUR, KATT, KGB and WYNF. Sure they aren't healthy, yeah Axl dances like a windsock on a bad day, yep they fall down as much as they get up, but hey that's what rock and roll is all about.

The biggest album on the scene right now is undoubtedly the Steve Winwood release and the parade of emphasis cuts is starting to unfold this week with format winners leading the way on three separate offerings. "Holding On" is the undoubted consensus track with a full 29\*/41\* differential between the Winners Chart and the HH. Adds on KAZY, KBCO, KEZO, WEBN, KSHE and WPYX help get this cut out ahead of the rest of the pack. Make no mistake, this is the next song to be on. "Don't You Know What..." also clicks in with the winners a bit quicker than with the format at large where KBCO, WIOT, KZAP, KTXQ, WNEW and KLPX help put it at a 42\*/57\* split from the HH ranking. "Hearts On Fire" also makes a showing but here the format leaders are a little hesitant. While it's true that WRXK, WEBN, WMMR, The Loop, KEZO, WZZO and KSHE are all playing it, that 47\*/52\* comparison shows that the Winners have chosen to hold back a bit on this track when compared to the others.

Jimmy Page gets his long awaited album going with a little vocal nudge from Robert Plant on "The Only One" and that 37\* debut is just the beginning for a song that is getting a big round of applause wherever it's heard. WYNF, WMMR, KLAQ, KISS, KQRS, KATT and WZZO have all gotten loud with this wall of sound slammer and the audience call for this song is reaching fever pitch. One thing for sure, Page is a definite pleaser with the phone crowd. Another big debut this week poses an entirely different sound. "Better Be Home Soon" by Crowded House shows up at 38\* and the next few weeks will show continued growth. They won big with ballads last time out so why not start this project up where they left off? CFNY, KMOD, WNEW, KBCO, WBCN, KICT, WKDF, KKDJ and KYYS have all found something to get excited about in Neil Finn's healthy touch of C&W coyly disguised as a one man harmony jamboree.

New to the Winners Chart this week, "Believe In Love" gets a start-up push from KEZE, KICT, WRXK, WFBQ, WHCN and KILO with the Scorpions showing up 48\* as a result. The mileage on their first track has been mighty impressive and this one could be even finer when the votes are all in. After all, there's no time like the present to get the most out of all that Monster mayhem going on this Summer and you can't play VH all day, can you? John Norum also makes an appearance on the chart this week with reports from KMOD, KWHL, WDHA, WRKI, KAZY and WLLZ getting him to 50\*, a full 17 slots ahead of his HH placement. John's European lineage certainly doesn't hurt with fans and this daypart depthcharge might just be the one to clear out inner ears from here to polar the cap.

**MARRONE MAKES A MOVE**

The Hard Report is proud to announce that **Mike Marrone** of WHTG/Asbury Park is on his way to hold down our ever levitating MD Desk. (For the complete Beaver Brown story see the end of NOISE.) Mike strikes us as possessing a powerful set of ears and a personality to match. We know you will enjoy talking to him about the acts that matter as well as those "on the horizon" bands that are getting ready to hit the scene. His drive and energy will keep the office hopping for sure and we all feel very lucky to have acquired him for this crucial post. Look for Mike to hit the phones as of July 5th. When NOISE talked to Mike over a quiche and Perrier brunch he told us, "It's very tough to leave WHTG but I'm certainly looking forward to this great opportunity to work with a creative bunch of people at such a fine trade. I hope to be speaking to all of you soon, especially when Bill chips in for that mobile phone. Wow, whatta commute!" Then Mike got up and stung me for the tab and tip. One thing's certain, this guy will fit in just fine.

**LOOKS LIKE A FUMBLE**

The Hard Report has heard through certain sources that the legal efforts of **Friday Morning Quarterback** to block **Monday Morning Replay** have been thrown for a loss. The preliminary injunction being sought by FMQB on the grounds that MMR's name bore an "unacceptable similarity" to the Quarterback has been disallowed according to those sources. The QB gang could continue to push the matter into full court but such a move looks less likely given the unfavorable response to their first end around effort. Read it: 4th and long on the 2 yard line with an interception.

**THE ATLANTIC BOOGIE GOES ON**

Word has it that a number of structural shifts are in line within the Atlantic juggernaut. **Judy Libow** is going to be moving into a key role concerning Artist and Product Development while **Vince Faraci** is primed to take on some of the management responsibilities left behind in the absence of **Dave Glew**. Vince has been essential to the repositioning of the Atlantic label in an orbit of unquestioned strength and this promotion keys on his performance with developing acts like White Lion. **Lou Sicurezza**, who has been running the field staff for the label and **Andrea Ganis** who has been spearheading the push in Singles Promotion, will jointly run the daily operation of the department. As for **Danny Buch**, the man took his family to a quiet upstate New York resort to get away from everybody and everything. With his lovely wife and son in tow, he split for some peace and quiet only to find that a WEA jukebox sales convention was ripping it up at the same resort. Maybe it should be Buch's Law instead of Murphy's. Finally, the official word is out regarding **Bob Clark** who has left his Midwest job to head up Promotion out of Los Angeles while **Rick Sudakoff** gets the nod as Midwest mojo master. With all this going on and that ATCO restructuring now in high gear you can look for even more news flashes in the weeks to come.

**A MINOR NO LONGER**

So what's the surprise? That **Charlie Minor** has added another great season of triumphs to his tenure at A&M? That the man has created more stars than most of us can name? That he's still around to enjoy it all? How about that Charlie has been through it all, and re-invented most of it along the way, and is only 40. The powers that be at A&M took time off from their company convention to celebrate the man's birthday with a surprise party that hammered home just how valued Charlie Minor is to that label. Sorry we couldn't be on hand for a few toasts.

KPOI/Honolulu gave a listener a Platinum Night On The Town with Whitesnake. The package included tickets, dinner, limo service and, best of all, a platinum album from the band. Pictured are KPOI's Susan Cochran and the winner backstage with the boys in the band. Nice tans guys. Great dental work too.

**ROBERT PLANT FOR COKE**

The new summer campaign for Coca-Cola will include a **Robert Plant** spot that is going to make use of his "Tall Cool One" video. We could be wrong, but this looks to us like the first time that an actual music video will be extended and augmented in such a way for use in a commercial endeavor. The spot will debut during the ABC broadcast of the Atlantic 40th Birthday Bash to be aired June 26th.

**Bob Clark**, Atlantic Westcoast Promotion

**RADIO WINS BIG AT PRINCE'S TRUST**

The American attendance at the most recent Prince's Trust Concert was way up this year with 17 stations and 120 lucky listeners getting royal treatment at the Albert Hall. Staff and listeners from a host of stations were on hand for all the pomp and circumstance, the warm beer and cold steak, the bad TV and crumbling infrastructure, of a trip to England. Among those stations involved were KICT/Wichita, CFOX/Vancouver, KEZE/Spokane, WNOR/Norfolk, WHEB/Portsmouth, WLUP/Chicago and KLBK/Austin. A veritable flood of artists were run through those mobile studios and the colonials were entertained by folks like Jack Bruce, Alan Parsons, Phil Collins, John Hurt, Stewart Copeland, Bob Geldof, Keith Emerson and Whoopie Goldberg. The mammoth undertaking was coordinated by RPMC and the results were topnotch all down the line.

**THE SONY TEAM SETTLES IN**

All those heavies that were lined up for duty at ATCO are now signed, sealed and delivered for that Westcoast based Sony label with Jerry Greenberg. Dave Urso is the VP/Promotion, Michael Prince heads up the AOR Department with Linda Murdock holding down the CHR slot. The regional staff has firmed up with Chuck Jones, Steve Brack and Kelly Norris getting ready to hit the streets. Now it's just a matter of deciding on an artist roster, marketing and timetable for the rest of the year. Details, details.

**OLINER FINDS THE ELEKTRA EXIT**

Chuck Oliner no sooner gets the job doing Northeast Regional promotion with Elektra than he moves back into indie work on the same turf. At presstime the label remains undecided as to whether they are even going to hire a replacement for Chuck or let the position lapse. In other news from the wonderful world of Elektra, Del Williams takes over local duties for the label in Los Angeles. Del had been working out of Denver for PolyGram.

**WILSON ALBUM DEBUTS**

Look for Westwood One to premiere the new Brian Wilson solo album over the 4th of July weekend on Timothy White's Rock Stars. Brian will favor the nation-wide audience with portions of his new album which, by the way, was produced by Jeff Lynne. We have heard an advance cassette and this could be "Pet Sounds '88". Lynne has delved deep into enough lush harmonies and swirling Beach Boys musical counterpoint to put me on a four brownie flashback. Brian will also offer some insights to his rather enigmatic career and that alone should be worth the price of admission. Like the time he strolled into Doug Weston's Troubadour when Larry Carlton was doing a solo jam in nothing but a bathrobe and sandals and hopped onstage for an impromptu chorus of "Be-Bop-A-Lula". To his credit, Larry swung with it and delivered one hell of a version on his own. After all, when you're afraid of the water and a Beach Boy at the same time you just gotta know that your entire life is going to be one long anecdote.

**KBCO/Boulder** welcomed T-Bone Burnett for some live time in the studio that included conversation with the station's Roxanne and a little extemporaneous singing and strumming.

**E/P/A EVOLUTION GOES ON**

With **Jack Isquith** back in the Rock trenches who is going to get that top CHR job at the label? Our sources indicate that **Polly Anthony** may soon be leaving the Westcoast for the post du jour at Blackrock. Polly is the Director of National Promotion out in L.A. and if she gets the nod in New York she will probably pick up some VP epaulets as well. It's all just the tip of that shifting Blackrock iceberg as the creation of a new Westcoast label begins to shake things down from coast to coast.

**LYNN WELLS GOES WITH MEDIABASE**

A veteran of stations KOME, KQRS and KBPI, **Lynn Wells** has surfaced as Account Executive-National Sales for the **Mediabase Research Corporation**, publishers of Monday Morning Replay. Lynn will be working out of a Los Angeles office and her primary role will be advertising sales for MMR. **Rich Meyer**, Mediabase President told NOISE, 'Lynn's extensive radio background, coupled with Tony Smith's record executive background creates a tremendous fusion of talents. Additionally, we are pleased that we will now have a Los Angeles office to better serve our client base.' Break a leg Lynn but you'll stay the hell away from our client base if you know what's good for you.

**WIZN/Burlington** spent some time with a few Del Lords after their recent show in town. Pictured with the band are staffers Elise Brown and Tom Van Sant. You can always tell the radio people in any promo photo by their shameless use of the by now famous beer bottle prop.

**MTV NAMES PROGRAMMING VEEP**

That prime MTV Programming job has been handed to Arista VP/Artist Development **Abbey Konowitch**. Abbey will move into the palatial MTV offices in about a month and immediately start working on some great new shows centering on lingerie development and the proper use of lubricants. As for the folks back at Arista, they are now in the market for Abbey's replacement and given the talents of the man, those won't be the easiest shoes to fill.

**CLAIM YOUR STAKE**

**Homestead Records** is looking to field a staff of part time reps in New York, Boston, Chicago, Washington DC, Atlanta, Austin and Los Angeles. A great shot at some on the street experience for anyone who thinks they want to do it on the label side. If you're interested call at (516) 764-6200.

**THE RADIO RUMBLE**

**KISW/Seattle** pulled down a little thunder and lightning in their search for a new PD with the news that Sky Daniels will make the jump from KFOG/San Francisco where he has been holding down the MD/Afternoon shift. Skyboy has seen the world from the studios of W4, The Loop and KMET before going to KFOG and now the Great Northwest. Sources indicate that Sky was hired for his ability to get things done and we expect that he will concentrate his efforts on making the heritage AOR more "enjoyable". Ever since the original KISW airstaff jumped to crosstown rival KXRX, the station has been holding down the fort with music while trying to find an on-air chemistry that would tip the balance in their ratings fight. With the numbers game swinging to a more or less neutral point and the initial KXRX surge pretty much over, the key now will be who can put together a new coalition of music and personality that will nail the door shut on Seattle's rock radio wars.

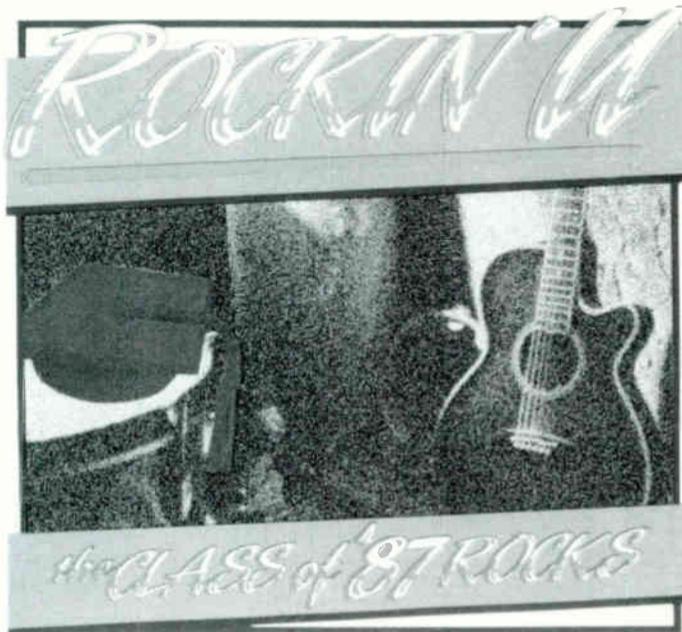

**KPOI/Honolulu** PD Greg Mundy is on the outside looking in after determining that his concert promotion company was the place to put his maximum effort. The station powers began feeling that Greg wasn't giving the proverbial 110% to the programming job and with the station turning in some soft numbers, it seemed time to make a move. MD Andy Preston is filling in temporarily but the phonecalls are already piling up at a phenomenal rate. After all, a shot at rock and roll in paradise doesn't happen everyday.

**WRKI/Danbury** celebrated Marilyn Monroe's 62nd Birthday with a look-alike contest that saw an avalanche of platinum wigs and shapely torsos hit the stage. The winner received a trip to Cape Cod and some mole removal surgery.

**KWLN/Memphis** is getting ready for their ownership takeover and a lamentable if obvious shift in format. Nothing has been officially announced but the change is inevitable given all the cage rattling going on. Paul Fuller is scheduled to get that PD chair although Robert Harder has been asked to stay on in an undetermined capacity. New faces in the hallways and a pretty open predilection for the CHR format are the most notable signs of something about to change in Memphis.

**WHCN/Hartford** successfully signed local legend Hal "Lich" Lichtenbaum to their afternoon drive shift, he crosses over from WCCC and will hit the microphone July 4th. Lich has been a force in Connecticut radio for the last ten years and his addition should help pump things up in that stand-off between WHCN and WCCC. As a result of Lich joining the station Kim Alexander moves into middays and Tom Bass goes from mid-days to all nights. Kim also reports that her new music hours are now Monday, Thursday and Friday from 3:00 - 5:30pm. Music calls should also be directed to a new number, (203) 724-0600, and won't be handled at the main switchboard anymore.

**WNPQ/Canton** put together a custom CD featuring local artists in a package that has been getting lots of play in the market. After a long talent search that has upped awareness in the community, the end product is getting airplay on the competition as well as blowing out at local retail.

**WGIR/Manchester** put on some very ugly bermuda shorts and kicked up some sand for their first ever Rock 101 Beach Bash. Southside Johnny provided the music and the suntan oil flowed in a mighty river over those New England thighs.

**KKZX/Spokane** hired Northwest programmer Greg Tillotson to fill their Promotions Director gap. Greg had worked with PD Larry Snider at KQIN/Seattle and programmed KGRG/Auburn prior to this move. Greg told NOISE, "KKZX is definitely a station on the move and I plan to continue the momentum that's already established here." Congratulations Greg and remember, photos, photos, photos!

**WEBN/Cincinnati** ran the same custom credit card promotion that a lot of stations across the country have made use of but with a little kicker. How about a \$20,000 shopping spree for some applicant picked at random? That should up your casual curiosity factor. The winner came escorted by a Brinks armored truck, the police and the WEBN limo for some well planned buck chucking in the wonderful world of retail. In just three minutes and twenty seconds all but \$5,000 was gone, spent on some jewelry and a truck. The last items purchased were a little less grandiose, a pair of bowling balls and shoes. The winner, in a perfect example of the human condition stated, "I'm a little depressed. We were happier before we got the money." Yeah, right.

**WZBH/Ocean City** is on line to be the new AOR in that market and the home of veteran Syracuse PD Steve Becker. Steve leads the station, rechristened "The Beach", away from a satellite CHR format to straight ahead AOR and will take over OM responsibilities for the AM as well. Also joining the station as MD is Jennifer Gipe who was formerly MD at WWTR, the station's number one target for rock and roll destruction. The morning show is still unsettled but Steve "Mitch" Lewis signs on from WAQX/Syracuse for nights. The station has also signed with BD&A as consultant. Look for a July 1 start up down on "The Beach".

**WIOT/Toledo** PD Keith Masters is on his way to WQFM and the Milwaukee mambo against WLZR. Keith is understandably pumped about his new challenge, the ability to jump into a dogfight like the one going in Wisconsin and have a real impact is one of those rare opportunities that every young PD needs to confront. Although the competition is stiff, we are sure that Keith and his new management team will really make things click in short order. Needless to say, that leaves a position vacant in Toledo so dust off the T&R.

**WBYS/Buffalo** is getting ready for new ownership and new ownership is getting ready for WBYS. The languishing AOR with money problems and a downward spiral in the ratings has chosen to drop the services of John Gorman as consultant. What new and exciting adventures await those bold Buffalo types, only time can tell.

**WDHA/Dover** will be decorating the night sky on July 4th with a pyrotechnic display that should score high with the Jersey crowd. The station will provide a musical soundtrack for the display and has even arranged a lakeside setting for the evening's festivities. There will be special seating for media friends so all you have to do is call for the info.

**KMPC/Los Angeles** PD Sam Bellamy got resigned by Golden West last week. Despite a warming trend in the morning show, (whose host, Guy Kemp, is under suspension for his handling of a promotion), and a general increase in listener awareness, the station was still way in the basement. With a watered down signal and next to no promotion, the station had been running on one leg for the last ten months but the suits in the front office weren't satisfied that Sam was pushing the right buttons and so requested her resignation. Nobody in the building is exactly singing "Happy Days Are Here Again" on any level, in fact the gloom quotient is pretty high right now. Then again, there were those of us who always maintained that "forward thinking AOR" and "Golden West" were about as oxymoronish a couple as possible. No replacement for Sam has been named.

**KWHL/Anchorage** morning muktuk Cary Caragan has left the station and that leaves a prime Pacific Rim post to be filled. T&R's should be sent to Cyndee Maxwell at the station ASAP for consideration. In the meantime music hours have changed with calls taken Tuesday and Thursday from 12:00 - 2:00pm. Adds will be done as of Monday at 2:00pm.

**JOIN THE ESCAPE CLUB.**

*It's not a privilege.  
It's a necessity.*

© 1988 Atlantic Recording Corp. A Warner Communications Co.

**KSJO/San Jose** morning talent Perry Stone certainly snagged some invaluable media attention when he went on the air during the Oakland A's winning streak. But he also got the thanks of the team in a way that most sports fans would die for when the A's made May 31st "Perry Stone Day". Sounds like a great cross-promote to me.

**KXBR/Springfield PD** Bo Jagger is long gone and the station is making some realignments as a result. The new man behind the wheel is Denney Goode. He has made no changes in music hours or report times as of now.

**KROQ/Los Angeles** joined with a local food bank to help raise food for the needy. The station effectively raised 11 tons of food in their drive, called the largest single campaign ever conducted by any organization. The station also marked their 10th Anniversary with a Concert For The Masses, a day long event that raised even more tonnage for the hungry in SoCal. That and a number of canned good drop-offs at local supermarkets all contributed to a very successful push.

**KNAC/Long Beach** and Capitol threw a promotion for the Iron Maiden appearance in town. Listeners just brought in any old Iron Maiden T-Shirt and they got a new Maiden rag in return. Then the group used the shirts as part of their stage design for the local shows.

**KZLR/Little Rock** morning meisters Bob Brown and Jeff Curtis are among the unemployed again. After their dismissal in Brownsville and Poughkeepsie they landed at the new rocker in town with a contract to bump off the folks at KMJX. Now, five months later the guys are still collecting a check but they are no longer treating the audience to their left of center humor. The pair had been getting into hot water with the local media over their blue-ness and when a client pulled spots because of a reputedly off color statement or two, the press started jumping up and down on Brown and Curtis for all it was worth. The boys responded with a phony commercial depicting their newspaper nemesis as hawking an album of organ music and soliciting money. That did it. Ownership yanked the leash, the morning team started barking back and, after much public wrangling, were let go. KZ95 GM Steve McNamara wanted to stifle the image of his new rock station being the purveyors of shock rock in a traditionally conservative market and made the move to quell the storm. As for Brown and Curtis, the guys are still getting paid through February of next year but they definitely feel that they are getting, "The bum end of the media rap."

**WRFX/Charlotte** has Lisa Manning taking calls and handling the MD job now that Mary London is gone. Calls and reporting procedures remain the same until further notice.

**WPYX/Albany** morning type guy Cliff Nash has joined WMMR for weekend duty while holding down his job in upstate New York at the same time. Cliff is part of the Mason and Nash morning show and as such, a very marketable commodity. With the Arbitrends showing slippage in the WMMR Morning Zoo, could this be something along the lines of insurance? Naaaah.

Once again, intelligences far more vast and knowing than our own have begun to fax strange messages in the middle of the night to our Medford Lakes office. One thing is certain the outer Crab Nebula will certainly be well informed regarding the difference between a turntable hit and the real thing. Oh yeah... Klaatu barada nicto to you too buddy.

**WKLC/Charleston** has named a new MD. John Riggs is the man with a turntable just itching for those new work projects. John has been with the station for two years and moves up to fill the space left by Duane Doherty when he moved into the PD position at the station.

**WIXV/Savannah MD** Richard Smith reports seeing Living Colour at a club recently and the man was big time impressed. Vernon Reid's guitar work can tattoo your ears at 150 paces and their driving stage presence kept the natives hopping all night long. Richard also tells us that the station is getting ready for a big 4th of July Party on Hilton Head. Included in the festivities will be an attempt to put the station in the Guinness Book of World Records. The category is undetermined but the effort will provide a great photo opportunity according to Richard.

**KTCZ/Minneapolis** was selected Best Radio Station in the Twin Cities in a recently reader's poll. The weekly mag, City Pages, circulated a poll to their 100,000 plus readership and KTCZ came out on top with the locals.

**KLAQ/EI Paso** had the Ace-man on the air last week as part of the warm up for Frehley's tour with Iron Maiden in July. Ace has been thumping the promo tom-toms for his album and tour and the audience is eating it up.

**WBLM/Portland** has realigned airstaff somewhat to make room for the return to the air of Jose Diaz. Aside from Jose taking that executive 9:00 - 11:00am shift and MD Robin Mathieu moving into a shortened afternoon slot, they have added Jewell Simon to the morning show.

**WLLZ/Detroit** promoted from within to fill the MD slot left vacant by Jim Pemberton. The new ears du jour belong to Gary Palmer who is just as pleased as punch that he is a young American living and working in a system where free enterprise and talent mean everything. Your check is in the mail.

**WBCN/Boston** threw another Boston Rumble and the music was fine as the weather was hot. It was the 10th Annual such contest for the station and 24 bands were given a shot at center stage this time out. Barry Lyons of IRS, Graham Hatch from Frontier, Paul Brown of Virgin, Sire-master Howie Klein, Linda Kirishjian of Columbia and Arista's Sean Coakley were among the judges on hand. A good time was had by the masses and the music was a steel jacketed, nine millimeter success.

**KVRE/Santa Rosa** promoted the Millionth Song Played to mark ten years of AOR excellence and gave away a CD player and a slug of CD's to the lucky winner. The promotion ran for six weeks and then the magic tune, "Long May You Run" by the Stills and Young Band hit the air. The event was deemed a total success and thanks go out to the record companies for helping out with all the goodies.

### **FOLLOW THE BOUNCING BEAV**

It's time to say good-bye to Beaver "Get out of town by sun-down clown" Brown as he heads back to morning duties at KDJK/Modesto. Beaver's old station had found it pretty damn tough to replace the boy, (the guy they hired lasted all of two weeks before drowning in a sea of hate mail), and when those local petitions started to demand the Beav-Man's return, the front office came after our MD in a big way. Anyone who has spent time with Beaver knows that he is a born performer and having an entire town creaming for you to come home is enough of an ego hook for just about anybody. When we talked to Beaver during an all-night packing spree he told us, "I just missed being on the air and having the opportunity to touch thousands of people every day." (Yo Beav! There are laws against that you know, even in California.) Beaver went on, dabbing a tear from his eye, "Besides, there aren't any bitchin' babes in this town." Aside from the tire tracks down my front, now we have to worry about the famed Beaver Brown "Jonah Effect". When he left KDJK the transmitter actually blew up and now that he is departing the Hard Report the word processors are beginning to crackle and fry like my braincells at deadline. Founding father and Publisher Bill Hard offered, "Hey, meeting that six figure salary was no sweat but when I buy a Testarosa it's gonna be mine." Look forward to reading Beaver's comments in a tipsheet near you, it sure as hell won't be this rag.

**PAT BENATAR IS BACK  
THE HARD REPORT INTERVIEW**

There is no doubt that Pat Benatar has always been at the forefront of the Women in Rock movement. Whether she got the job done through years of adroit image manipulation or by virtue of her unerring ability to shoot straight for the heart with stinging lyrical barbs, the lady has maintained her supremacy through thick and thin. Female fans have found her the almost perfect embodiment of all their turmoil in a modern world that measures women on the basis of sensuality and then victimizes them with the same criteria. Male listeners find her imposing and tough to pigeonhole, especially after the changes of pace that her music has gone through on the last two albums. It's now been two and a half years since the last of those albums and the anticipation has been building like a runaway train. With a new AOR scene showing more and more female talent per square inch, it's only to be expected that the interest level in the Queens of rock and roll, women like Patti Smith and Chrissie Hynde as well as Pat, would increase exponentially. Would motherhood slow Pat down? Has success blunted her fire tempered blade? Would the woman who likened her own image to the commerciality of "Kleenex" strip away the layers of glitz and show up in a scrubbed down version? In a way the new Benatar album, "Wide Awake In Dreamland", gives a partial answer to all those questions. It is both fresh and workmanlike. The heart of the message is definitely uncluttered but the craft is exemplary. One thing is for sure, the two years spent in studio with this project has effectively rebuilt Pat's place in the pantheon of today's leading women performers. When the Hard Report talked to Pat it was with little Haley, her three and a half yearold daughter, in the background.

**JT....** Thanks for finding the time to talk with us.

**Pat....** Oops, hold on a second, my little girl is crying. Sorry about that, it's kind of like Erma Bombeck with a twist around here.

**JT....** The new album strikes me as being very diverse. Did you plan to expand your musical parameters this time out, was that a conscious part of the plan?

**Pat....** Not really, I think it was more just a function of time. We had a lot of time to work on this album and that gave the songs time to evolve. A lot of times a song gets rustecorded prematurely because of the rush involved with most albums.

**JT....** How has being a mother factored into your career?

**Pat....** Having a child alters everything. Things that seemed real important because they were so egocentric disappear because you don't have the time to indulge yourself. Your perspective suddenly makes a big turn and hinges on that child. Having a child is so enlightening because reality comes sailing right in the window.

**JT....** Does it have any other impact on your actual performance?

**Pat....** It really is amazing because you don't worry about stuff that might have preoccupied you before. You tend to be more centered, more in control of yourself. When I perform I feel like it's more of a storytelling process. Like I was making use of a third person objectivity as opposed to being a participant. The main thing is that we have the luxury of time and that makes working and being a mother a whole lot easier. I still wonder how anybody can do this job.

**JT....** There are a lot of new female artists right now. Do you think it's a function of the A&R sheep mentality surfacing or a genuine expression of a rich vein in women artists finally getting a well deserved shot?

**Pat....** Let us pray it is the latter and not just, as you put it, the A&R sheep. I have been really impressed by this new album by Tracy Chapman. She is wonderful, her voice is so rich.

**JT....** Neil really hammers it on his solo in "All Fired Up". I have always thought of the man as being poised but somewhat

hesitant to grab the spotlight before but his work on this track is certainly a head turner.

**Pat....** That only happened because we begged him to step out. Neil is much happier in the background, that's why he has gotten into album production so much, he really likes keeping a low profile. I virtually threatened him with a forty day fast if he didn't punch up that solo.

**JT....** What are your touring plans looking like?

**Pat....** The first date is in Sacramento on August 20th. It won't be a very long tour, about three and a half months. I don't know if everyone is expecting mini skirts but they won't get it. The one good thing about taking all this the time off is being able to start from zero. We have spent more time offstage trying to bring my two personalities, private and professional, closer together.

**JT....** I get that feeling from the video as well. It's refreshingly free of theatrics.

**Pat....** I really wanted to dispel any trace of the old image and come out as cleanly as I could. I wanted the song to stand on its own instead of pushing any interpretations down their throat. With a song like "All Fired Up" it's very clear what the meaning is.

**JT....** Are videos getting more representative of the artists and their work?

**Pat....** Hopefully, the trend before was to illuminate the storyline in any way possible, sometimes sacrificing what the song was really about. In doing so we often gave too much away. You can't dictate to anybody how to relate to something. Not if it's really worthwhile.

**JT....** You often portrayed women as victims in your early work. Has that perceptually changed with your settling into a more maternal lifestyle?

**Pat....** I don't think so. The one great thing about children is that they open up your perspective. Things that bothered you before, like women as victims, still bother you but your vision gets clearer. It still bothers you just as much but now you know why. You can see the avenues that you should go down in order to best make a change.

**Paul Kelly And The Messengers "Under The Sun" (A&M)**

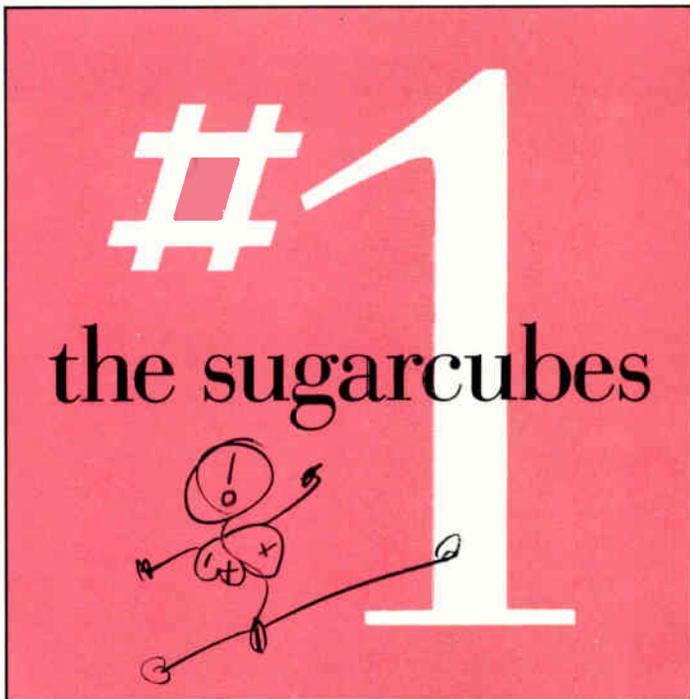

He may have been shouting "Darling It Hurts" last year, but his new album will make you revel in pleasure as Paul Kelly reverts back to his roots and fires up a few molten licks in between that smooth slide guitar. I admit to idolizing this man's songwriting talent for marrying music and lyrics with the right amounts of emotion, hope, humility and faith. It never ceases to amaze that he comes up with a fresh sound every time, even though the original concept is based on straight forward rock and roll. From the harmonica, piano, sax, fiddle and banjo, charm is just around the corner and moreover at your fingertips. In the case of "Under The Sun", it's one of the few times the title track deserves as strong a billing as this one. From the bittersweet chord progressions, the warm fill of the organ and the rolling outro this record leaves a lasting impression. "Dumb Things" is the rock radio cornerstone destined to set the rest of Kelly's dazzling songs into motion. Dig it all summer, especially "Same Old Walk", "Little Decisions", "Happy Slave" and "Crosstown".

**Beatnik Beatch (Atlantic)** Last year this band fell from the sky and tugged firmly at my ears with their Industrial Records mini album. Now four new songs have been added to what is now their major label debut, and what a smashing array of talent to behold! In every aspect the band comes out

on top, as Chris Witt Ketner's radiant voice molds itself to each measure and leaps out with conviction. Then the swinging numbers pulse with acoustic guitar rhythms that grow on you with a personality all their own, especially in the lead single "Beatnik Beatch". Then an irresistible beat urgency is let loose in "Lonesome Town", tempting you to sing-a-long with the rest; and "Sargent Lasard" blends harmonies right into its catchy momentum. "Love On Your Side" mixes stormy romance with mild blues where the harmonies again make this one of the album's most memorable slow songs. Listen till the last note, and the heartfelt arrangements in "Watching The Rain" are sure to wash over you. It's obvious that Beatnik Beatch is a band of substance and musical talent. Excellent songwriting is their ticket to tomorrow.

**Biff Bang Pow! "Love Is Forever" (Relativity)** When Creation founder Alan McGee joined forces with Relativity last year, Biff Bang Pow! was quickly absorbed at college radio with the "Oblivion" Lp. So began America's introduction to a fine group that hinges its music on the new psychedelia movement. McGee is also the core member of BBP, and after a taste of the band's newest effort he can't lose either way. Not only is it hard to resist the sultry sounds of the sixties throughout, but the smooth orchestration in "Miss California Toothpaste 1972" is absolute proof that they Echo appeal similar to that of the Bunnymen. The aloof vocals and scattered acoustics dare you to challenge their sense of melody, as "She Haunts" follows up with a harmonica that will get 'em every time. As you experience the Biff Bang Pow! excursion in sound, it's important not to land too soon. This one is packed with swirling soundscapes and hypnotic chorus lines like those in "Ice Cream Machine" to keep you cool and dreamy all summer.

**NEW RELEASES**

**Ranking Roger "Radical Departure" (I.R.S.)** As the star pupil of Dave Wakeling's General Public, the idea of Roger going solo is natural. The results are one better as he demonstrates an affinity for combining rock and reggae into a potent dance beat. Here lie catchy songs and serious, timely lyrics land a message in the mix. "One Minute Closer To Death" could be his answer to Just Say No, while "Smashing Down Another Door" deals with the futile efforts of war. "Time To Mek A Dime" boasts a big rappin' reggae hook and "So Excited" is quickly becoming a summer sensation as quick reaction to the first single placed it on the Airplay Chart even before the album arrived. An R&B influence swells into a collage of great rhythmic energy on "Radical Departure", a record that reaffirms its roots while stretching into current pop trends.

**Three O'Clock "Vermillion" (Paisley Park)** Rock's favorite flower children have finally arrived via the majors and it's a happy coincidence that their music is unfolding with hit radio potential right before us. "Vermillion" beams with the light airy layers of pure pop that launched their career early in the game. Now that the star status is reaching out of the L.A. circuit, a national success story is well underway. "Love Explosion" is doing just that with smooth and quirky moments led by Michael Quercio's whispery voice. "When She Becomes My Girl" and "To Be Where You Are" enter with light synthesizer melodies and the hint of sitar lends a mystic feel to the atmosphere. Then it hits you... that song just waiting on side two, "Love Has No Heart". You may easily succumb to this haunting chorus on first listen and although it is a slight musical departure, the effect is chemical.

**CHARTSTARS**

**The Sugarcubes "Life's Too Good" (Elektra)** In just five weeks the Sugarcubes have not only dominated these pages, but won us over with an album that challenges, entertains and inspires listeners to seek out innovative new pop music at its best. Now seated at #1, this record has several songs that radio has become familiar with and actively pursued like "Birthday", "Motorcrash", "Coldsweat", "Delicious Demon" and the up and comers "Deus" and "Blue Eyed Pop". So many songs, each very different from the other and so far removed from the conventional music we're drowning in.... WFIT's Helen Urriola said, "We interviewed bjork last week and we were impressed by her intelligence. The record reminds me of the layered sounds of the Cocteau Twins, but with more strength and power. This is an amazing debut and I'm glad that it my first introduction to the Icelandic music scene".... WCDB's Kevin Byrne mentions "It has been the #1 album here for the last two weeks. This record will continue to build here because of its unique style and we're hoping that it will kick in on a Sinead O'Connor level".... KUSF's Tim Ziegler notices "bjork's voice is very intriguing, and the first thing I noticed on the album. She sounds a bit like Niko of Velvet Underground. Her voices cracks and peaks constantly - very intriguing".... KLOL's David Sadoff says "I want to give away an album of each color when they come to town. This is a fun, neat record".... KABL's Mark Miller observes "bjork's voice is neat. She's very musical and her voice goes off in a lot of directions. 'Birthday' is a surprising single, one of the better songs on the album."

**The Bible "Eureka" (Chrysalis)** As their stunning stateside debut awakens new fans with "The Crystal Palace", it's obvious that this British group has the goods to

cross format boundaries. New adds at KJQN, WUNH, KUNV, KUSF, WCDB, WNCS, WRAS, WWVU and increases at WGTU and WMDK make the 47-28\* move our biggest alternative jump this week. With the single already crossing to WBRU, WNEW, WLAV, WRCN, KVRE, WKGR and more let's key in on early reaction: WHTG's Mike Marrone shouts, "I've said it before, but if Julian Cope does not release a record this year, *The Bible* will be my favorite album of 1988! Don't stop with 'Crystal Palace', try 'Skywriting' next".... Mike Thomas at WMDK says "'Crystal Palace' is a great tune. That English touch with Steve Earle's production influence makes it this one have hit radio potential".... Kevin Byrne at WCDB notices "There's a smooth, jazzy feel to their songs. They are definitely great for mainstream and alternative radio. The album is smooth and accessible, don't stay clear of this one!"

**Shriekback "Go Bang!" (Island)** For what will be the band's biggest success story to date, "Go Bang!" does not disappoint even their most loyal fans. Music that was once driven by dark, sinister tendencies is now reworked with a bright sense of energy, swinging upbeat rhythms and a great big funky twist. The title track and "Intoxication" are out of the box gems, while "Shark Walk", "Big Fun" and the KC remake of "Get Down Tonight" have 'em shakin' in their boots. Well #1 Most Added first week honors leave us with a D12\* Airplay as the single enters at 18\*. It's big news at stations like WDRE, WXXP, CFNY, WHTG, KJQN, KJET, WDET, WFIT, WMDK, WRAS and more for 32 stations out of the box! KTCL's Joe Simon says "Shriekback is going to be an enormous record for us. We will eventually play every song. This band has really grown and the new stuff is definitely more accessible than any of their previous work. This album screams 'play me' and we're listening!".... Jamey Karr at KACV says "It's a blast!".... WHTG Music Director, Mike Marrone takes a final radio shot, "Shriekback is getting a lot of response here, especially for 'Intoxication'. No two ways about it, this is a core artist for us at this point. The interest was there from the start."

**MUSIC NEWS!**

**WBCN's Rock And Roll Rumble** has been a buzz word in the past weeks as the yearly battle of the bands contest was held in Boston from June 13 to July 24th. (See Noise) One band who shook the house before my very eyes was Boston's **Bullet LaVolta** on Saturday June 18th at the Paradise. So, the mini album on Taang! Records has been leaning against my desk. I admit it. But after seeing these guys once I wish it was a double album. Imagine a blast of hot desert air hitting you with gale force, enough to melt down even the most devout metal fans. Keep on writing and playing those blistering live gigs and an army of fans knock on your door fellas. Until then, Bullet LaVolta's debut record is available on Taang! Records at P.O. Box 51, Auburndale, MA 02166.... **The U.K. Subs** are back with a new fangled post punk formula on their newest album "Japan Today". How can you resist a band that thanks its roadies right on the cover? Tracks outstanding are "Streets On Fire" prefaced by the "Punk Rap". Tight, crunching guitar work will always go the distance and this will spark right on the table. Available on Restless Records.... A&M Records signs **Soundgarden!** The new Soul Asylum CD single is "Cartoon". The first 12" from the forthcoming Marti Jones album on A&M is "The Real One". Marti's solo career began to burgeon with the last "Match Game" album. Don Dixon is back in the producer's chair and Marti's spectacular voice shines through from beginning to end. Did you hear me? I said the lady cannot hit a bad note, and "The Real One" deserves to reach your listeners ASAP.... The RCA Records alternative department is smokin' with two albums in the top ten and one on the way. **The Primitives** latest single, "Crash", is the first inkling of their American debut. This spicy, upbeat pop tune is short, sweet

and hard to resist as evidenced on the 35\* Airplay Debut this week. Look for album action to come in the weeks ahead. Other upcoming projects include a reissue of **Love And Rockets** "Seventh Dream Of Teenage Heaven" album and August brings new albums from Icicle Works and a new Red Lorry Yellow Lorry album.... Capitol Records plans to swing the **Smithereens** back up in the alternative airplay ranks with the new single "House We Used To Live In". **Afrika Bambaataa** has moved forward to release his latest Lp with the help and talent of artists like Sly & Robbie, Sly Fox, UB40 and more. The album is titled "Light" and offers a wide influx of styles, reworking reggae, R&B and dance pop to groove and move us all. From "World Destruction" to "Kick Out The Jams" to the newest single "Reckless" (with UB40), it's another exciting phase he enters with style and ease. Rumor has it that the **Cocteau Twins** have been signed to Capitol Records. This band crowds their fans' shelves with not just one import album, but the whole catalog. They are captivating purveyors of sound and many people are not aware of the musical beauty they are capable of. Stay tuned.... Wire's lead singer, **Colin Newman**, is in the midst of two album success stories. First is the tidal wave of response to Wire's "A Bell Is A Cup Until It Is Struck" album, perched atop of college and alternative lists nationwide. Up and coming is Colin's second solo album "It Seems" on Restless Records. A few programmers have mentioned that it's like having two Wire records to play. Some of the musical influence is bound to seep through, but Newman's songs are settled calmly on programmed synthesizer rhythms led by his airy hollow guitar and soft voice. "Better Late Than Never" is the track outstanding, as a female vocalist enters the scene. But true Wire fans are likely to devour the whole thang.... By now the **Swans** new single has received a big welcome from college radio. What was once a band that shocked your consciousness with enormous, gruesome dB levels and unforgettable live shows, now does a 180 degree turn. Their new Joy Division cover of "Love Will Tear Us Apart" is mesmerizing. There are two versions: The Black version sung by Michael Gira and the Red version sung by Jarboe, a riveting performance by the woman who is usually silent at the keyboards. Caroline Records is fielding phone calls for this one. Call 212-219-1500 for more information.... **Van Morrison** has joined forces with Ireland's **Chieftains**, resulting in "Irish Heartbeat", a collection of striking Irish folk tunes and Van's noble song style. The title track is most likely to agree with those of you who are a bit shy of those Celtic origins, but the music is as beautiful as a Spring day. Be caught off guard, but do not be disappointed!

**RECORD OF THE WEEK**

**Voivod, "Dimension Hatross", Noise....**

The response to this record has exceeded all previous expectations. This week they pulled the highest debut on the Hard Hitters with their placement at #20\*. If it's any indication of this band's greatness, KUPD's Jonathan Rosen is extremely into this record, just listen to this, "I'll tell ya, believe what Rich Scroggs and Monte Conner stated last week about Voivod's 'Dimension Hatross'. This is a devastating piece of vinyl. This isn't simply 'heavy metal', it defies categorization of what our ears are normally used to. Not to be cute, this has got to be heaving metal. 'Tribal Convictions' is bullish on imagination, as are many of the other tracks. It's either instant appeal or a quick turn-off. I like that. No inbetweens." After another listen to the Lp certain tracks catch your ear as being either extremely strange or utterly brilliant. "Microsolutions To Megaproblems" is one of the stranger ones and "Technocratic Manipulators" is just great. Getting play on: KCMU, KQQK, KTEC, KUNV, WAIF, WCDB, WDWN, WEOS, WJUL, WKNH, WNYU, WPYX, WERK, WWUH (at #1), and WVVS just to name a few.

**King Diamond, "Them", Roadracer....**

This has got to be the most eagerly awaited album of the Summer... so far. Coming off the success they had with "Abigail", the band has really got a shot at gold status with this one. Most of you have already heard the 12", "Welcome Home" and judging from the response to that, (#2 Most Added Metal), you like it. If that's the case, you'll love this concept Lp. KFMX's Jeff Ivan says, "Forget the Bates Motel, look out for Amon. Of course I'm speaking about the house in the latest King Diamond epic, 'Them'. He is really growing into the Stephen King of metal. The first thing you notice about this album is the up-front production of the guitars. The whole thing sounds much better than 'Abigail'." Jeff's absolutely right, the production is much better and some really interesting things are done with the King's harmonies. Check for that on "Tea" and "Mother's Getting Weaker" especially. The musicality of the band is unbelievable. Andy La Rocque and Pete Blakk make one of the best twin-guitar teams in the genre. The same goes for the rhythm section of drummer Mikkey Dee and bassist Hal Patino, very tight. The vocals are trademark King Diamond, from the high pitched stuff to the snarls of the Grandmother. Trax to track are "Bye, Bye, Missy", "The Invisible Guests", "A Broken Spell" and "Twilight Symphony".

**Chrome Molly, "Angst", I.R.S.....** After the first time you listen to this Lp, there's no doubt in my mind that you'll find it falls directly into the straight-forward, hard-rockin'

Continued

ball-buster department. This band shows an incredible amount of potential. You should have the 12" "Thanx For The Angst" soon if you don't have it already and the release date for the LP has been set for Monday the 27th so you don't have much time to prepare for this one. Included on the album is a Difford and Tilbrook cover called "Take Me I'm Yours" on which former Squeeze member Jools Holland makes a cameo appearance with some trademark keyboard work. This is one of those records that combines good songwriting with a great sense of musicality to create something excellent. It's a blend of killer ballads and mid-tempo toonz with some serious rockers thrown in for good measure. "Don't Let Go" and "I Want To Find Out" as well as "Living A Lie" possess AOR/CHR potential while "Come Back" and "Cut Loose" are both mofor rockers for even the heaviest of metalheads. If the production was a bit better I could even go so far as to compare it with the last Whitesnake Lp, but it's not, so I won't. Take a listen and see what you think...

**Iron Maiden, "Evil That Men Do", Capitol....** This is only the second emphasis track from their "Seventh Son" Lp and it's in the classic, instantly recognizable Maiden style. For those of you who have the vinyl version, it's the last song on the other side. It's one of the best tracks on the record featuring the usual great writing and Martin Birch production. Other than the fact that the album is a member of the Hard Hitters #1 club and is currently at #3 very little remains to be said. Except that this includes one of Beaver Brown's "hooks from hell" but that's another story. All you have to know is that it's a killer tune from a kickin' band.

**METAL FILINGS**

-Chrysalis Recording artists, the **Vinnie Vincent Invasion**, will be hitting the road on a theatre/club tour with L.A. Guns in support. The tour is slated to begin on July 16 in Milwaukee. We'll get more dates to you as soon as we get them. The band will also be recording a video for "That Time Of Year".

-On the Metal Blade front, there will soon be a new live Ep from **Armored Saint**. The material was recorded on the recent "Hell On Wheels" tour which featured the **Saint, Helloween** and **Grim Reaper**. Word is that the CD will also feature extra tracks unavailable elsewhere. They've also recently played two L.A. dates with **Fates Warning**. Also soon to be released is the debut Ep from **Banshee**. These guys were featured on the **Metal Massacre IX** compilation as well as having recently been signed by Atlantic Records so keep your eye on them.

-**Fifth Angel** have been busy writing and recording demos for their next Lp as well as working on summer tour plans. The Lp should be ready for release by the end of 1988/beginning of 1989.

**METAL MUSIC NEWS**

Greetings to all you metalheads. This is Sal "Earl of Earache" Treppiedi reporting from Control Center deep in the heart of Queens, New York. This week we've got a ton of news from around the metal world. Sit back and enjoy as we give you the news that will make you the envy of your neighborhood when you tell your friends, Maybe. Here we go.

One of metal's top showman, **Lizzy Borden**, has decided to pursue a solo career. Most of you should recall that Lizzy recently lost his two guitarists, **J. Holmes** and **Gene Allen**. Lizzy has replaced members several times throughout his career. Now, he is through with that and says that he wants the freedom to work with other people. Hence, this decision. In the meantime, Lizzy Borden's cover version of Steppenwolf's classic "Born To Be Wild" will be released as a promotional single for radio play only by Metal Blade Records. The song is featured in Penelope Spheeris' rockumentary "Decline of Western Civilization, Part Two: The Metal Years". The song was recorded at Perkins Palace last Halloween. Look for a possible video.

Apparently the Earl made a boo boo last week. **Axl Rose of Guns & Roses** is currently suffering from laryngitis. The band has been having problems keeping their lead vocalist quiet. They are currently preparing to hit the road with **Aerosmith**. In the meantime, look for "Welcome To The Jungle" to be featured in Clint Eastwood's forthcoming Dirty Harry movie, "Dead Pool".

Early in their career this band showed so much promise. The band's powerful sound, crunchy riffs and out all mayhemic stage which made them one of metal's top outfits. Then something happened. They were signed by a major label. From that point, it seemed their career took a nose dive. It appeared that after their last LP, this once mighty act was appearing to be finished. It is my pleasure to report that they are back. I'm speaking of **Raven**. The Gallagher brothers are currently recording a new LP for release on Combat Records. The album is entitled "**Nothing Exceeds Like Excess**" and will also mark the debut of drummer **Joe Hasselbender**. The sound on the new album is said to resemble the sound that got Raven their early notoriety. **ROCK 'TILL YOU DROP!!**

Here is project which should prove rather interesting. **Gregg Giuffria** and **Lanny Cardola** of Giuffria fame are working on a new project entitled **House of Lords**. First thing this should tell you is that Giuffria is history. Vocalist **David Glenn Eisley** left the band to work on a solo career. HOL will also feature former Giuffria, Quiet Riot and current Impellitteri bassist **Chuck Wright** and Alice Cooper, Fifth Angel drummer **Ken Mary**. HOL debut album is scheduled to be released in September on Simmons/BMG/RCA Records.

**Tesla** is currently working on an album in between dates with Def Leppard. Following the completion of the tour, the band will head face first into the studio to complete the album, film a video and begin, you guessed it, another tour.

It seems the love bug is biting **Anthrax** in a serious manner. The first to be struck was **Scott Ian**. Now, **Dan Spitz** has been bitten. He was recently married in a private ceremony in New York. The band is currently in the Big Apple mixing their new LP, "**State of Euphoria**". Look for comments in an upcoming news column.

Former Whiplash, Slayer drummer, **Tony "T.J." Scaglione**, has joined forces with **Ludichrist**. He is one of three new mem-

bers to join the outfit since their last LP. **Ludichrist's** new album is entitled "**Power Trip**". Look for a fall release.

**Polygram Records** is set to release their first cassette singles by early July. Among them will be releases by the **Scorpions** and **Cinderella**. Big deal, you say? To record companies and retailers it is. According to an article in the June 25th issue of **Billboard**, "some of the most impressive sales figures on cassette singles have been registered by hard rock acts". The article goes on to say that singles by **Van Halen**, **White Lion**, **Poison** and **Aerosmith** have sold at a 50/50 ratio of cassettes to 45s. In some cases, cassettes have outsold 45s. Is the 45 on its way out? Think of it, LPs and 45s could become obsolete with the advent of CDs and DATs.

**Impellitteri** will be appearing in Japan as part of the CBS/SONY 20th Anniversary celebration. Impellitteri will be appearing with such notables as **Billy Joel** and **Boz Scaggs**. The event will take place at the recently opened Tokyo Dome on July 24th. A live album and video are being planned. This will also mark the return of **Graham Bonnet** to Japan. Bonnet's Alcatraz were practically considered gods in the land of the rising sun.

Finally, we've got a CD review for you:

Last week, we reported that Passport Records had reissued three Hanoi Rocks recordings. Now let's review the CDs:

**HANOI ROCKS:****BACK TO MYSTERY CITY****SELF DESTRUCTION BLUES****BANGKOK SHOCKS, SAIGON SHAKES****PASSPORT RECORDS**

I must admit that with the exception of Hanoi Rocks' Epic release "Two Steps From The Move", I had never heard any of their other material. I first listened to "Two Steps" before throwing on these three CDs. What a mistake! "Two Steps" doesn't quite have the punch. "BTMC", "SDS" and "ESSE" are three LPs that truly show some of the origins of today's glam movement. It's easy to see where bands like Poison got some of their influences from. I did have one complaint. For CDs, the three did not have the crisp sound that is expected from CDs. I guess that is something that can easily be overlooked. This band smokes and leaves no fumes behind.

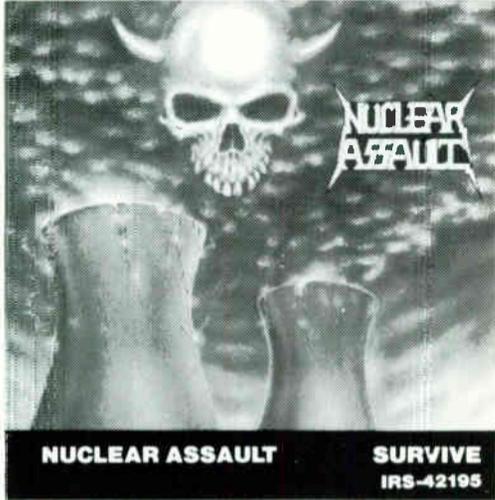

**Performance: 10**  
**Sound: 7-1/4**

That will do it for this week. Next week I'll bring my report from the **Monsters of Rock** concert that took place this past Sunday at Giants Stadium in New Jersey. I hope to have interviews with the bands, the fans and anyone willing to talk. I've hired Mr. Death to protect me from any unruly fans. Until next week, this is Sal "Earl of Earache" Treppiedi with monstrous MUYA!!!!

U2's "Rattle & Hum" documentary is now scheduled to open on November 4th. A double album, that will probably be out in August, will include three sides of live material and one side of new tracks. The first single from the album will be one of the new songs, "Desire." The live sides will include versions of "I Still Haven't Found What I'm Looking For," "Where The Streets Have No Name," and "Pride (In The Name Of Love)."

In Jamaica, 30-year-old Dennis Lobban has been sentenced to hang for the murder last year of **Peter Tosh**. A jury in Kingston took only five minutes to reach a verdict. Asked by the judge whether he had anything to say before the mandatory death sentence was imposed, Lobban said only, "I am innocent." Lobban had denied he was involved in Tosh's killing when he testified in the trial on Tuesday. He said he was drinking at a bar when the murders of Tosh and two other men were committed last September. Death by hanging is the mandatory sentence in Jamaica for murder. Lobban was found guilty of three counts of murder for the deaths of Tosh, Wilton "Doc" Brown and disc jockey Jeff Dixon during a robbery. Three survivors identified Lobban, an unskilled laborer, during the four-day trial. One witness, whose identity was kept secret, told the jury that Lobban was a friend of Tosh's and a frequent visitor to his Kingston home. The witness says that on the night of the killings, Tosh and the others were upstairs in Tosh's two-story house watching television when they heard a knock on the door. Someone went to answer the door and came back under escort by three men with guns. The other man charged with Tosh's murder, taxi driver Steven Russell, was acquitted for a lack of evidence. The judge in the case accepted a "no case submission" by Russell's lawyers and ordered the jury to return a not guilty verdict. The trial was closed to the press. Police have said they are looking for a third suspect in the slayings.

**Motley Crue's** insurance company will pay a settlement of over \$175,000 to avoid a second trial in Alabama of a lawsuit that claims pyrotechnics caused a fan to go blind in one eye while attending a 1986 concert by the group. Jim Corder, an attorney for one of the two boys who filed suit, says an undisclosed sum is being paid to Robbie Miller and David Wright. The first trial last month ended with a deadlocked jury. Corder says most of the settlement will go to Miller, who was blinded when dry ice or some other debris flew off the stage during the band's show. Wright suffered facial cuts.

**Vince Ely**, the original drummer for the Psychedelic Furs, has rejoined the band six years after leaving. Ely replaces Paul Garisto, who is now working with Iggy Pop. The Furs have just released a new single in England, co-produced with Morrissey's collaborator Stephen Street, called "All That Money Wants." The band will have a greatest hits album and video out this fall, and a new studio album (also co-produced by Street) early next year. There aren't any plans for the band to tour this year.

**Boston** has won a partial victory in their lawsuit against their former label (Epic Records). A judge in New York has allowed Tom Scholz and the band to claim over \$3 million in deferred royalties from the band's first two albums. Epic began to withhold the group's royalties in 1981, claiming the band was taking too long for its third album.

**Hunters & Collectors** will have their third U.S. album, "Fate," out in early August. The LP features the band's brass section, which appeared on Midnight Oil's "Beds Are Burning." The Australian version of "Fate" will apparently be slightly different than the U.S. version.

**Glenn Frey** has finished a new solo album called "Soul Searching." It was recorded in Muscle Shoals, Alabama.

**James Brown's** wife, Adrienne, is being held without bond on two counts of possession of PCP after failing to appear for an

arraignment on the charges in Augusta, Georgia. Mrs. Brown was arrested at her home on a fugitive warrant.

The city of Jacksonville will have to pay the **Beastie Boys** legal expenses and \$1,000 in damages because the city printed the warning "for mature audiences only" on tickets for the group's show there last August. The City Council had ordered the language on the tickets because of complaints about the Beasties, but the band challenged the decision as unconstitutional. A U.S. District Judge agreed a day later, but the events only took place a few days before the show. Lawyers have filed a settlement stipulation in which the city agreed the injunction violated free speech and due process. The city agreed to pay a small fine for lost ticket sales, but was able to avoid paying a larger sum. The ordinance didn't mention the Beastie Boys, but was passed after an earlier show in Jacksonville by the band.

**The Fine Young Cannibals** will have a new album out in September.

**Flotsam & Jetsam** say the departure of Jason Newsted for Metallica didn't hurt them for their second album, "No Place For Disgrace." "Jason wrote all the lyrics, so no one really noticed the rest of the band," says guitarist Ed Carlson, "although we all knew that there were four other people in this band who could do the same things." The album includes a cover of Elton John's "Saturday Night's Alright For Fighting." "It was the only song we could agree on," says vocalist Eric AK. "We wanted to do a cover real bad and everybody had a different idea, Kiss songs, Sex Pistols. The Elton John version was a pretty exciting party song so we figured if we converted it to a heavy metal sound it'd be cool." The fine print on the LP includes "a special fuck you to the unsupportive people who didn't believe in us then, who suddenly developed the urge to believe in us now."

**Robert Plant** is performing some Led Zeppelin songs on his current tour. "I feel comfortable about my past now, I don't have to consciously deny it anymore," he says. "The Zeppelin material is part of the spectrum of my career. I deal with it as such. The new songs are still the main part of the show." But that doesn't mean you'll see Plant singing "Stairway To Heaven." "I'd break out in hives if I had to sing that song in every show. I wrote those lyrics and found that song to be of some importance and consequence in 1971, but 17 years later, I don't know. It's just not for me," Plant says. "I sang it at the Atlantic Records show because I'm an old softie and it was a way of saying thank you to Atlantic because I've been with them for 20 years. But no more of 'Stairway To Heaven' for me."

**The Blasters** are touring with new guitarist Greg Hornel and Phil Alvin taking over the songwriting for the band. Alvin says he's a bit worried about having to measure up to the standard set by his brother, Dave, who left to join X a couple of years ago. "If my brother never existed, then I'd have no trouble," Phil Alvin says. "The person I'm going to be compared with is Dave Alvin, who is as good a songwriter as there is on the planet right now." The Blasters are currently without a record contract.

**Bob Goldthwait's** new album has a backward-masking message on it -- one that can be played backwards to say "Obey your parents, be nice, don't eat snacks, go to church and give money to Jerry Falwell." The album is called "Meat Bob."

**Eric Peterson** is now the full-time bass player for the dB's, who expect to have a new album out at the start of the new year. Peter Holsapple will be playing a solo gig in New York (in conjunction with the New Music Seminar).

**The Dregs**, formerly the Dixie Dregs, are now touring, though they are without Andy West, who couldn't get away from his job in the computer field in California. Dave LaRue is filling in for him. The band's current tour ends July 5 in New York. Steve Morse has just finished recording a solo album which will be out (on MCA Records) in September. The LP features some of the other members of the Dregs, and Morse says "it's some of the best writing I've ever done."

The New York Times dryly notes that **Madonna's** appearance on Broadway in "Speed The Plow" is attracting some new fans to the theater. The newspaper cites as evidence "an increased amount of jumping up and down for refreshments." It also says a busload of Madonna fans who arrived late for the show "remained in their seats when the performance was over, waiting for the show to start again."

**Rolling Stone's** September 8th issue will highlight the top 100 singles of the last 25 years.

**The Museum of Broadcasting** in New York is highlighting "Rock Music On Television" through September 10th.

A New York federal court judge has ruled that future copies of the "**Tribute To Lynyrd Skynyrd**" album released last year should carry a sticker noting that the performances were not recorded by the original band. Ronnie Van Zant's widow had filed a lawsuit contending that the album, and this year's concert tour, are misleading. Judge Robert Sweet said that the only way a record buyer would know that the "Tribute" album was not by the original band is to open the record and "the dedication to the victims of the crash is revealed -- and then in size barely visible without eyestrain."

**Carly Simon** is working on a book of memoirs and short stories at her home on Martha's Vineyard.

A Fender Stratocaster guitar used by **Jimi Hendrix** sold for \$15,400 at a Sotheby's auction of rock memorabilia in New York. A Nehru jacket belonging to Hendrix went for \$13,200. A Gibson guitar used by Elvis Presley in the late 1950s and early 1960s sold for \$27,500, and was the highest priced item at the event. A portion of the proceeds went to a charity group. The Elvis Presley Museum in Nashville spent \$9,900 for an autographed bustier worn by Madonna in her video for "Dress You Up." Bob Dylan's handwritten lyrics for "I Want You" went for \$8,800, and a John Lennon gray wool suit sold for \$3,300. Someone paid \$8,250 for one of Lennon's guitar straps.

**Third World** and **Chalice** will soon appear on the same bill for the first time outside their native Jamaica. They will appear at a Reggae Sunsplash on the Caribbean island of Antigua in late July.

**Steve Winwood** begins a tour in St. Louis on July 7 in support of his new album, "Roll With It." The "Don't You Know What The Night Can Do" tour continues through September and includes 42 shows in 33 cities. Russ Kunkel will play drums and Randall Bramblett will play sax for Winwood's band, which has been rehearsing in Nashville.

**Tom Cochrane** is recording in Vancouver with producer Don Gehman, who has worked with John Cougar Mellencamp. Cochrane hopes to have an album out in the fall.

**Robert Plant** appears on a Coca-Cola commercial that includes portions of the video for "Tall Cool One" and is based on the song.

A spokesman for **Bruce Springsteen's** wife, Julianne Phillips, says the two have separated. Springsteen's reported to be dating his backing vocalist, Patti Scialfa. Springsteen made a surprise appearance at an anti-apartheid concert near Paris last weekend.

**Let's Active** release their third full-length album next month. It's called "Every Dog Has His Day," and is co-produced by John Leckie and group leader Mitch Easter. Leckie has apparently been a Let's Active fan for some time. Easter says the LP is more in a heavy rock direction.

**The Fall** have contributed music to a new ballet called "I Am Curious Orange." A half a dozen new songs are part of the score, and the band performed at the ballet's premiere as part of the Holland Festival.

**Bruce Springsteen** is recording Woody Guthrie's "Vigilante Man" for a benefit album for the Smithsonian Institution.

**Chris Jones**, brother of Grace Jones, is recording his first album with Sly & Robbie.

**Stephen "Tin Tin" Duffy** has resurfaced in Britain in a new band called the Lilac Time.

**Henry Small**, formerly of Prism, will be the lead singer for John Entwistle's tour of the U.S. this summer, which has just begun. Small also appears on a solo album Entwistle is recording.

**The Swingle Singers** appear on the new album from the Style Council called "Confessions Of A Pop Group." The concept album has one side called "The Piano Paintings," because "all the pieces reminded Mick (Talbot) of aural poems or paintings." The other side is called "Confessions Of A Pop Group," which is cryptically described as including "personal matters, the state of 1988 and paraphrased cockney classics."

**Jerry Dammers** will be releasing a new version of the Special AKA's "Free Nelson Mandela" to help commemorate Mandela's 70th birthday. The single has been re-recorded with a South African township singer doing the vocals, and it includes "a mournful Acid House version."

**Killing Joke's** new album is called "Outside The Gate." It is dedicated to the late German producer Conny Plank and is said to be "delivered with the fervor of a religious crusade." Plank, who died of cancer, produced the band's "Revelation."

**Adam Horovitz** says his notoriety for being in the Beastie Boys didn't get him a role in a new film with Donald Sutherland being directed by Hugh Hudson. "Hugh had never really heard of the band before and didn't give a shit who I was," Horovitz says. "That's what I liked about it."

The upcoming **Smiths** live album will be called "Rank." Morrissey and Johnny Marr jointly chose the songs to be included on the LP. Morrissey doesn't rule out performing Smith songs if and when he starts touring. "Just because the group ended didn't mean that suddenly all those feelings dissolve," he says. "It's still very much a part of me in 1988." Kirsty MacColl is planning a cover of the Smiths' "You Just Haven't Earned It Yet, Baby," as the b-side of her next single. By the way, those three tracks included on the b-side of the 12-inch of "Everyday Is Like Sunday" were recorded just a couple of months ago, and Morrissey says they were approached differently than the songs on "Viva Hate." "They were the first three songs that I actually set down and pandered across," Morrissey says, admitting he was disappointed with the caliber of the lyrics on his album. "Lyrically, it wasn't the best," he says. "It was a very peculiar time for me, making that record so suddenly, so unexpectedly, and I wanted to try something different."

**Steve Raider** has begun working on a second album with producer Chris Tsangarides. The LP will be called "What Do You Know About Rock & Roll," and one side of the album is a concept piece about a world where rock has been banned. A cover of Thin Lizzy's "Jailbreak" will also appear on the LP. The band also have a tune on the soundtrack to the film "License To Drive," which should be out later this year.

**Iggy Pop's** new album, "Instinct," includes three tracks written with Steve Jones. "This album is really a culmination of everything I've done in the past," Pop says. "It's the first time I've been able to get into the driver's seat and not go off the road."

**Sandie Shaw's** upcoming album includes a new Morrissey song called "Help The Cause." The LP also features Stephen Street, Neil Conteh from Prefab Sprout and Richard Coles of the Communards, and it includes a song written by producer Clive Langer.

A new compilation album features cover versions of tunes by **Captain Beefheart**. It includes contributions by XTC, That Petrol Emotion and the Membranes.

**Slayer** is considering including a cover version of Judas Priest's "Dissident Aggressor" on their album "South Of Heaven," which should be out in a few months.

### **BRIT-PICKS Album:**

#### **"Provision" by Scritti Politti (Virgin)**

An outfit who really consists of the reclusive Green Gartside and whoever he happens to be working with at the time. He works very, very slowly, this being his first album since "Cupid And Psyche" in 1985. If the truth be known, it also doesn't differ too much from his last album either; a blend of razor sharp pop, sparkling along from track to track to the accompanying croon of Green's fey voice. AOR this definitely ain't, but alternatives and CHR might find some good hooks in tracks like "First Boy In This Town", "Sugar And Spice" and "Philosophy Now". A good slow track is "Overnite".

### **UK MUSIC NEWS**

Several controversies have erupted over **The Nelson Mandela 70th Birthday Concert**, held two weeks ago at Wembley Stadium here in London and broadcast up to 1 billion people worldwide. First, the organizers have expressed their anger at the American broadcast of the show. Secondly, both the organizers and the BBC have been accused of "supporting terrorism" and "political bias" by British right wing groups. According to reports in the UK music press, The United States received a heavily edited version of the day's festivities. Even the name of the event was changed to the more innocuous "Freedom Festival". The cable network who produced the American coverage, The Fox Network, owned by Australian publishing tycoon Rupert Murdoch, carried the show on a six hour delay and used the time available to cut out all the ethnic and African performances and most references to Nelson Mandela or remarks about opposing apartheid. The organizers have called it censorship. It is alleged that the sanitizing of the show was due to corporate pressure from sponsors. (Canada's Much-Music took a different feed). But it seems that you can't win either way. Here in The United Kingdom, BBC-TV carried the 10 and 1/2 hour show, without interruption, but they were accused of political bias by right-wing organizations, most of whom have South African business interests. One British Conservative member of Parliament went as far as to accuse the BBC of "being hijacked by left-wing extremists". (It is worth noting however that the official line of the ruling Conservative Party to the event, was made in a message from Prime Minister Thatcher expressing her hope that Nelson Mandela will be released). South Africa itself has lodged two formal complaints against the BBC. They complain that the airing of the concert will raise money to support the African National Congress, hotly denied by both the BBC and UK's Artists Against Apartheid. They also objected strongly to the airing in the same week of a moving documentary, "Suffer The Children" about child torture and detainment in South Africa, where more than 10,000 children have been imprisoned in the past two years.

**The Psychedelic Furs** are back. They have announced a changed line-up, a new single and a compilation album and video. The new single is called "All That Money Wants", produced by Morrissey's partner and former producer for The Smiths, Stephen Street. Returning to the drummers stool is Vince Ely, who left the band in 1982. The current line-up now consists of Ely, Richard Butler, Tim Butler and John Ashton. Together they are working on a new studio album to be released in early 1989, again produced by Street. In the meantime they will soon release a greatest hits album and video. Speaking to "Melody Maker", Richard Butler has denounced the band's last album "Midnight To Midnight": "To be polite to 'Midnight...' we tried to make it accessible." He says "I knew it wasn't the most adventurous writing that I'd done lyric-wise, but I wanted something people would easily relate to and, having done that, I think it was our biggest mistake as a band."

**The Pet Shop Boys**, whose film "It Couldn't Happen Here" goes on general release in the UK from July, have already won an international award for the movie. As previously reported

in "The Hard Report", "It Couldn't..." stars people like Barbara Windsor, veteran "Carry On..." star and Gareth Hunt of New Avengers fame, but it was grimly reviewed by a posse of British critics. Now to their surprise, the film has just received a Gold Special Jury Award at Houston's International Film Festival, coming out first against 75 other movies! As most of the music material contained in the movie is old, well known Pet Shop Boys songs, there will be no soundtrack album. The duo have also performed live for the very first time, as part of a special benefit concert in London featuring actors opposed to Clause 28, a new British legislation banning the use of public money to be used to promote homosexuality. A new single from The Pet Shop Boys is expected out in August.

**Killing Joke** release their seventh album, "Outside The Gate" this week on EG Records. The album comes out as the band is experiencing personnel difficulties. The official line-up has now been whittled down to just two members, Jaz Coleman and guitarist Geordie. The album features the recent single, "America".

**IN BRIEF**

Creative indie band **AR Kane** release their long-awaited debut album, "69" on Rough Trade. Several secret cults in Eastern Europe have invited the duo to take part in psychic ceremonies, but despite their ethereal music, AR Kane refute any association with, "...anything mystic"...**Kirsty MacColl**, who did such a great cover of Billy Bragg's "A New England" will attempt to apply her Midas Touch to an old Smiths song, "You Just Haven't Earned It Yet Baby", again with the active co-operation of the original artist, in this case Morrissey. He is also said to be excited about new group Hope Augustus' attempt at Smiths classic, "There Is A Light That Never Goes Out" as their next single. The long awaited live Smiths album on Rough Trade now has a title: "Rank". Morrissey has revealed that "I live a very deprived existence. I don't physically go out and get drunk and vomit over policemen or anything like that."...**The Style Council** release their new album "Confessions Of A Pop Group" this week...**The Fall's** most recent collaboration has been with the alternative London ballet dancer, Michael Clarke. They performed live music for his latest ballet. Although Clarke has often used Fall music before for his work, this is the first time they've gotten together...Iggy Pop, Squeeze, The Godfathers, Deacon Blue, Gene Loves Gezebel, Fields Of Nephilim, The Bodians and Starship are some of the acts lined up for this year's **Reading Festival** in late August, about 30 miles west of London...The organizer of **Mandela Day** and former member of The Specials, Jerry Dammers is releasing a brand new and very different version of "Free Nelson Mandela". The original from 1981 is also being re-released...**The Sugarcubes** have released their album "Life's Too Good" on Digital Audio Tape. While the major record companies continue to wrangle over the format, indie companies like The Sugarcubes' One Little Indian Records are jumping into the breach, even though there are only an estimated 1000 DAT machines in the UK..."Strepzil Logic", a play on words of the classic 1972 Steely Dan album, is the new LP from **Danny Wilson** featuring "Davy" from the album plus three previously unavailable tracks...Now signed to Virgin from Factory, **The Railway Children** release "Somewhere South" as their new single...Following up "Town And Country Blues", **Jim Jiminee** release their new single "Wanna Work" on Cat & Mouse Records...GO! Discs hopefuls **The Blue Ox Babes** release their second single "Apples And Oranges"..."Love Is The Gun" is the new single by **Blue Mercedes**...**Kevin Rowland's** first solo album "The Wanderer" is out this week on Phonogram. Many critics here feel the material is far superior to his latter work under the moniker of Dexy's Midnight Runners...The debut self-titled album from Stephen Duffy's new band, **The Lilac Time** is out on Fontana Records...**Captain Sensible**, recently reunited with his old band The Damned for a one off gig for the first time in years, also releases his first single in a while, "The Toys Take Over"...More than a few people have noticed that **The Sisters Of Mercy** were rather odd to fly to India to shoot their latest vid, only to film the entire thing inside, in a warehouse!...**Duran Duran** album expected soon..."Time Out" magazine recently discovered whether various celebrities are generous tippers. Dire Straits' **Mark Knopfler** is, once leaving a waitress a 40 pound (about \$90) tip on a 100 pound bill. We learn that actor **John Hurt** is a mean tipper, but that **Zodiac Mindwarp** is an absolute

spendthrift, coughing up a 3 pound gratuity on a 5 pound bill for a hamburger. There's a dreadful concept for a bad book somewhere in here...Sade producer **Robin Millar** has renewed the general attack on the state of British pop/rock radio, accusing the national station BBC Radio One of "...playing an awful lot of crap!"...**Johnny Marr**, the former member of The Smiths is about to record his first solo album. It will be the first time the guitarist's voice will have ever been heard too...Following a trip to Elvis Presley's mansion, Graceland, **The Mission** have asked that their American tour bus be decked out in similar style. Mmmm! All those nice pinks!

**BRIT-PICKS Singles:**

**"Breakfast In Bed" by UB40 with Chrissie Hynde (Virgin)**

Not as powerful as "I've Got You Babe" which benefited greatly from being a well known cover. Even with the star quality of Chrissie Hynde, this is a significantly duller effort, although a bit of rapping and skanking on the latter part of the twelve inch improves matters.

**"Atmosphere" by Joy Division (Factory)**

A must on CD! A re-release of the single previous to the one that made them so famous, "Love Will Tear Us Apart", "Atmosphere" was originally released in 1979. It's easy to see why Joy Division's influence in music is incalculable and how this is a work of genius.

**UK CHART SURVEY**

Great to see **Tracy Chapman** coming straight into the album chart at 25 with her self-titled album. Her modest, low-key performance on Mandela Day seems to have done her no harm at all. Straight in at 8 "Provision" by **Scritti Politti** and in at 2, an album well worth checking out; hot new talent from Dublin, **The Hothouse Flowers**. At number one, an MOR various artists album "Nite Flight". "In The Air Tonight 88" by **Phil Collins**, enters the new top 40 singles at 35. New at 30 "Breakfast In Bed" by **UB40 with Chrissie Hynde**. Up 6 to 29 the remix of "Paradise" by **Sade**. New at 28 the re-released 1976 hit "Car Wash" by **Rose Royce**. New at 26, a band who seems to be completely spent of ideas, **a-Ha**, with "The Blood That Moves The Body". Going up a respectable 12 places to 25 "You Have Placed A Chill In My Heart" by **The Eurythmics**. Up 15 to 21, a jumpy, likeable record by **Matt Bianco** called "Don't Blame It On That Girl". New at 20 "Lucretia My Reflection" by **The Sisters Of Mercy** which is also the number one CD Single! 50,000 copies of the format are sold each week and growing. Perhaps only the vinyl single is dying in the UK. New at 19 "The Twist (Yo Twist)" by **The Fat Boys with Chubby Checker**. Jumping 8 places to 15 "Don't Call Me Baby" by **Voice of the Beehive**. Jumping 8 to 11 "Chains Of Love" by **Erasure**. By debuting at 19 last week, it became the highest new entry of **Vince Clarke's** astounding 16 hit career which began in 1982 with Yazoo's "Nobody's Diary". Up 3 to 9 "Every Day Is Like Sunday" by **Morrissey** - also the number 2 CD single. Up 8 places to 7, a soft reggaefied version of the old Cat Stevens' classic "Wild World" given the lovers' rock treatment by **Maxi Priest**. The highest new entry comes in straight at 2 "I Owe You Nothing" by Britain's latest teen darlings **Bros**. The record's OK, but of course its relative standard is of no importance whatsoever to the hordes of screaming girlies - ah, impetuous youth! The new number one is something of a surprise, the **Time Lords** with the novelty record "Doctorin' The Tardis". The record that deposes the four week reign of Billy Bragg and Wet Wet Wet, mixes up the theme of the classic British sci-fi show "Doctor Who", Gary Glitter's "Rock and Roll" and The Sweet's "Ballroom Blitz" to amusing affect. The mastermind behind the project is Bill Drummond, middle-aged father of three and former manager of Echo and The Bunnymen and Julian Cope. Most recently he led the brilliantly satirical cult band The Justified Ancients of Mu Mu who were the only group I know of to turn sampling into angry protest music. JAMS finally came to an end when they were threatened with a hefty lawsuit for sampling Abba. I'm sure this record will have Mr. Drummond whistling "Dancing Queen" all the way to the bank.

Cheerrio till next week.....**Lee Carter**

**Carter Alan, WBCN, Boston**

Hello from the sweltering Metropolis. WBCN stayed cool with Elton John last week when he appeared next door to BCN at the Axis night club. After pumping hands and taking photos, his Elton-ness took the stage to perform several of his hits on piano including "Daniel" and "Candle In The Wind". He also ripped into powerhouse versions of "Heard It Through The Grapevine", "Whole Lotta Shakin'" and "I Saw Her Standing There". Bernie Taupin was also seen accepting congratulations for his contribution to Elton's new record "Reg Strikes Back". By the way, "I Don't Want To Go..." is a natural choice for the air, recalling Elton's best moments of the 70's and firmly reestablishing him as an MCA studio artist. Thank you to Roman and MCA for the rare chance to talk with a legend.... BCN's famous Rock and Roll Rumble is rolling on again. The 10th Annual Contest spotlights 24 of Boston's best up and coming groups. We are now in the semifinal round after six sweaty nights of preliminary competition. Thanks to all of you who flew in to Boston to check out the groups or help BCN as a Rumble judge. The 8 bands in the semifinals to watch out for are: Bim Skala Bim, Tribe, Heretix, Bullet La Volta, Lemonheads, Plate O' Shrimp(!), Incredible Casuals, and Dogzilla. I'll have the winners next week.

**Wendy Steele, WLVQ, Columbus**

I celebrated my eighth anniversary at WLVQ last week and Henry Lee Summer made it quite special for me. Not like that, you fools! We had a nice chit-chat on and off the air. He's a very nice and sincere guy and a dynamic performer. He opened up for Richard Marx that night, who was also excellent. Thanks to Shelley Mori of Epic and Alex May of EMI for their help.... It was good to see Paul Yeskel while he was in town.... Robert Palmer still turns me on, "Simply Irresistible" is just that.... Big phones on Page and Winwood.

**Keith Masters, WIOT, Toledo**

Before I head for QFM Milwaukee, words cannot express my gratitude to those of you who I have had the pleasure of working with during my WIOT tenure. To the ones I will continue to work with, don't be strangers. And to the ones whose area I'm leaving, I won't say goodbye just see you later. Mick Jagger said it the best. "Lose your dreams and you will lose your mind."

**Jim Steel, WIOT, Toledo**

Thanks to Doug Burton of Polygram, Jim Cortez with Elektra and Al Ferstz of Warner Bros. for the Monsters Of Rock hospitality. If the tour swings through your area check it out. Three things caught my attention: 1) the number of Metallica shirts (at least a 2 to 1 ratio versus the other bands) 2) how incredibly cool Hagar's acoustic version of "Eagles Fly" blended right in with the show and 3) Eddie and Michael should be labeled thunder and lightning. They're the best tag team combination since the British Bulldogs.

**Joe Marino, WCCC, Hartford**

First off, thanks to MCA for the great time at the Elton John record release party. Great tunes and lots of fun, especially when Elton played for us. Check out "Goodbye Marlon Brando"; it's a great tune.... A fantastic new tune from Iggy Pop with "Cold Metal". "Blah, Blah, Blah" scratched the surface; "Instinct" will make more and more people aware of this great artist.... Another comeback this week was Pat Benatar's "All Fired Up". This may reestablish Pat as the First Lady of Rock.... And Robert Palmer's new one is pleasantly rocking.... And a record you shouldn't forget, even in these crazy crowded times is Aslan's "Loving Me Lately". This is rock radio's chance to show its breaking power once again by presenting a great new rock band to the world.

**Don Gilmore, KLBJ, Austin**

Strongest add of the week: Robert Palmer. It's certainly record of the summer and may be record of the year. Before this is all said and done, this is just going to be an across the board smash. There's just not a note out of place.... Also new:

Two more Winwood cuts, "Holding On" and "You Know What The Night..." Gotta hit that before the Michelob people kill it.... Went with Steve Forbert, too. It's just good to have Steve on the radio again, it's that simple. There's a good portion of our audience who remember him from the first couple of records.... The Benatar single is an automatic, too. AOR meat and potatoes, right down the middle, now how can it miss?.... Heard the Michael Anderson for the first time on the air, and it just seemed to fit right in.... Finally made room for the Melissa Etheridge. The sound is just so striking. We may have a lot of females on the roster but they all seem to deserve it.

**Kim Alexander, WHCN, Hartford**

As of July 4th, my new air shift will be middays, 10am til 3 pm. New music hours will be Monday, Thursday and Friday 3:00 to 5:30. Calls will no longer be handled at the main switchboard. The music number is 203-7240-0600 only. Adds will be available on this line also, as of 7pm on Mondays.... Thank you Roman, Randy and MCA for the classy Elton John listening party. Roman really knows how to do it up and Elton was a real pro. His performance will keep me smiling for weeks, and the album is his best in years.

**Patty Martin, KSJO, San Jose**

As I'm calling this in, KSJO is in the middle of another Radiothon. This one to benefit the homeless in Santa Clara county. Perry Stone and Trish Bell are staying on the air for at least seven hours, raising money, playing requests, and auctioning off cool rock and roll items. Thanks especially to Bill Graham Presents for some great donations. So far we're averaging well over \$1000 dollars an hour. Watch this space for the final results.

**Pam Brooks, WPDH, Poughkeepsie**

My heart's on fire, and I'm holding on, so don't hush it up, scream it from the rooftops. These songs are dynamite, all fired up, simply irresistible, and I hope I'm not the only one to say 'Hey Little Boy, you'd better be home soon because this girl is running on love.' Now that I've said goodbye to Marlon Brando we can get down to some serious lovin'.

**Karen Small, WGIR, Manchester**

After the avalanche of new product that came out last Wednesday, I find that I'm still trying to dig out from underneath.... The arrival of new Jimmy Page, Robert Palmer, Steve Winwood, Pat Benatar, and Crowded House product all on the same day made me feel like I was in paradise.... Many thanks to Roman from MCA for a wonderful album listening party with the one and only Elton John. I never thought I'd see Elton playing solo in a club before about 250 people but I did last Wednesday night and I still can't believe it. It almost seemed like 11-17-70 all over again. Elton was great. Roman did a stellar job in putting the listening party together. (The food was out of this world).... Rock 101 is all over the state of New Hampshire this week. The Concert On The River series kicks off with Heart this Saturday, when we'll also have the first annual Rock 101 Beach Bash at Hampton Beach with Southside Johnny providing music at the Club Casino.... The Monsters Of Rock come to Northern New England on Saturday, and all of our car wash and Pizza Hut promotions keep us one busy happening radio station.

**Brian Jordan, WRUF, Gainesville**

The new Jimmy Page has done a fairly good job of alleviating the Van Halen rush, but "OU812" remains the supreme crowd pleaser. Phones don't stop for "When It's Love" and "Mine All Mine" success is projected for the very near future.... Winwood's "Roll With It" is a big step above "Back In The High Life". Track after track of pure quality rock and roll.

**Paul Nelson, WWCT, Peoria**

We'd like to thank Kevin Carroll for the help with the Skynyrd show. It went off without a hitch, and they were great guys.... Got a chance to hear the new Dennis DeYoung, not only is he a Chicagoan and a White Sox fan, but he'll be back on track with "Boom Child". Good thing we didn't get a wimpy love song.... From the opening chords of "Goodbye Marlon Brando" we realize Elton can still rock. We especially like the

crack about saying goodbye to new age music. With the heat, it may not be a good idea to say goodbye to Marlon Brando, he can provide some serious shade.... What put Steve Winwood in such a good mood? I want some of it. "Holding On" and "Hearts On Fire" are the ones we like best from the LP.... Finally, we're glad the first of Peoria's Summerfests is over. "Steamboat Days" did have its memorable moments. Though the Parade of Boats on the Illinois River was a treat, we also got a kick out of the Parade of Bad Haircuts, and our CHR competition fit right into the Parade of Big Foreheads.

### **Catfish, WHMD, Hammond**

The Smithereens played to a sold out show at Tipitina's June 18th. Thanks to Phil Fox at Capitol for the gives and more. Nice to see Kerry Gray of WZEW at the show. We're disappointed The Wild Swans from Liverpool couldn't tour with the Smithereens as originally planned. Maybe next time Paul, Jeremy and Joseph of the Wild Swans. Pat Dinizio told me to tell y'all the Smithereens truly appreciate all the support. They really love to rock and roll.... Shona Laing, Peter Murphy, Tracy Chapman, Ziggy Marley, Stealin Horses and Legal Weapon all deserve your immediate attention.... "Siilllllllvvviiooooo".

### **Ty Banks, KQWB, Fargo**

Phones are building fast for the cranking rock and roll of the Georgia Satellites.... "Sweet Child" could be the biggest phone hit yet for Guns N' Roses. They're burning the phone off the hook.... We're getting our party tour buses ready for the Monsters show in Minneapolis with lots of excitement being generated. A big "thank you" to Steve, Bill and Beau for their support product.

### **Doug Clifton, KBCO, Boulder**

A big week for new music, Steve Winwood topping the list of adds, followed by Crowded House, Jimmy Page, Gerry Rafferty, Jimmy Buffett and Johnny Clegg.... Melissa Etheridge stopped by and played four songs live on the air last week. Her performance reaffirmed our strong feelings that she is going to be one of the rising stars to come out of 1988. Thanks to Melissa, Andy Allen and Michael Brannen for stopping by.... KBCO broadcast live from backstage at the Bob Dylan concert, we had a chance to speak with Mike Peters of The Alarm before the show. Thanks to Joe Estrada for his help.... Our latest Livecast from Boulders Coast featured one of my all time favorites, Little Feat. They performed several new songs from their upcoming Warner Brothers release. Of course they touched on all the classics too. Thanks to Chuck Randall and Rich Abravaya for helping to make this Livecast the best yet.... Top retail: Tracy Chapman, Melissa Etheridge, Bruce Hornsby, Ziggy Marley, Midnight Oil, Sade, Tuck and Patti, Bob Dylan, Toni Childs and Boz Scaggs.

### **Ron O'Brian, KATS, Yakima**

We did it last night, and it was oh so good! We gave away our biggest Spring promotion prize, a 1988 Chrysler LeBaron Coupe, complete with tinted windows, nice spoiler package, high performance wheels, etc., all worth over \$16,000!! We've been qualifying listeners for the last few months, both on the air each hour and at special remotes. We've run a lot of great promotions since early spring, but this was the big one.... A real big event here each year is the Yakima Air Fair. It's this Saturday and Sunday and is one of the biggest in the west. The planes begin arriving Thursday and our afternoon ace Dave Nelson and myself Baron Von O'Brian will have the pleasure of going up in the Red Baron Pizza Bi-Planes--open cockpit and all. God, I hope the pilot doesn't do any rollovers or barrel rolls. This should be a kick in the pants or the stomach.... Onto music: I'm ecstatic on getting Guns N' Roses "Sweet Child O' Mine" on. Better late than never, this song grabbed my ears the first time I heard it. Talk about a hook as well as great music and vocal variety. Axl's voice is amazing!.... Pat Benatar is back with a vengeance thanks to her "I am the queen" voice. I'm sure her fans will grab on to this one.... No waiting on the new Crowded House. It's our type of record.... Last but not least, a big thanks to those record reps/friends in the Jet City (Seattle), who continue to help out with giveaways, LP replacement and CD service etc. You know who you are and you're great. Thanks, rock and roll from the Palm Springs of Washington.

### **Bill Evans, KTAO, Taos**

This week's "perfect for what we do" department include the Leon Thomas Blues Band, part of a great series of releases on Portrait! To give you an idea of how perfect, this one will rotate just as often as the Winwood!.... If Ry Cooder is in your library, make sure you get a copy of Bobby King/Terry Evans on Rounder. Ry produced it and plays on every track and it's top notch!!!!

### **Chris Herrmann, WHJY, Providence**

I'm simply overwhelmed by the quality and the quantity of music crossing my desk from established AOR acts. Jimmy Page is back with a vengeance.... The Winwood record is excellent and almost too consistent.... Robert Palmer's latest rocks, and will be irresistible this summer.... Pat Benatar has finally decided to rediscover her roots (Thanks, Neil).... In terms of less established stuff, I feel like The Beatles have been reincarnated as Crowded House. "Better Be Home Soon" forced me to pull the car over, close my eyes and shiver (same reaction I had to "Don't Dream It's Over") and I mean it. Far and away the most skillful songwriting I've heard in a spell--this will be a AOR/CHR/AC SMASH!.... Hurricane update! Heavy!.... Finally, from the new and notable department: Paul Kelly and Midnight Oil (no, I'm not an Australian National...must be the vegemite).

### **J.D., WONE, Akron**

This past week our morning team of Brian and Joe decided to take the serious drought crisis happening here in the midwest to heart. They vowed to stay on the air until it rains. As you can imagine listeners called up and vowed their support to Brian and Joe. Although the guys had fun doing this, there was a serious side to this whole promotion, to heighten awareness of a very serious problem not only here, but in the midwest as a whole. We haven't had rain here in Northeast Ohio since June 3rd and by talking to our listeners it became apparent that many of them hadn't realized it had been so long. Anyway, news traveled fast, and soon we had the local paper and TV station in the studio plus a call from CNN. Yes, the boys made national news and it was quite an event. Local vendors stopped by to provide the guys with nourishment, plus the entire staff and community rallied behind our two morning madmen. We had our local TV weatherman on the phone every two hours giving updates on conditions around the area. Finally, when it seemed like they could be on the air for weeks, the heavens broke loose. Although it was only a brief shower, rain is rain, and 28 hours later June 16th they had accomplished what they set out to do. Just as a footnote, as of print time we haven't had any rain since, and temperatures continue to be in the 90's with no rain in sight.... Finally, dear Carolyn Heldman, how about a trip to Northeast Ohio, for a day of fun and frolic of my choice. Whattya say? How about coming to Northeast Ohio for the All-American Soap Box Derby, August 13th and 14th. Then later on, we can have a candlelight dinner at my place. I've been working on this terrific new recipe for meatloaf. You're gonna love it! Then we can kick back, and watch old reruns of the MTV Top 20 Video Countdown.

### **Lora Porter, KPGA, San Luis Obispo**

Thank You Dyana and William for the Fates Warning show and interview, Fates Warning was GOD! I don't know why I was so surprised that their show was above excellent.

### **Rick Panneck, WAPL, Appleton**

Nothing earth shattering about our adds this week. "The Only One" from Jimmy Page with Robert Plant on vocals and Jason Bonham on drums is probably as close as we're going to get to a Zeppelin reunion on vinyl. "Liquid Mercury" is a nice instrumental from Page. Needless to say Led Zeppelin fans are coming out of the woodwork for this LP.... Pat Benatar returns to her rock and roll roots with "All Fired Up." Makes me forget "Le Bel Age".... Robert Palmer's "Simply Irresistible" satisfies our audience's yearning for raucous rock and roll without scaring them away with too much dance orientation.... Starting to get reaction to the Rhythm Corps on our request lines. Check this record out if you haven't done so already.... We'd like to thank the 6000 plus people who attended our first

Wisconsin Rock Annual, featuring the BoDeans, Semi-Twang and E\*I\*E\*I\*O.

**Eric St. John, WNPQ, Canton**

Pat Benatar is back and it's no riddle that when she rocks the audience loves it. She gets top five phones instantly and there's more to come. This is great stuff.... Honeymoon Suite has come up with a good track for the band and a solid followup for their project. They have a local support base that won't quit so we aren't exactly out on a limb with this one.... After debating about the Melissa Etheridge we have finally added her this week and my morning guy is jumping up and down about this record. You know what? He's right! This is a great record that sounds strong on the air.... The phones have really convinced me to go on the Lita Ford. She's a star even without airplay.

**Mike Richter, KFMZ, Columbia**

The big story this week is the Crowded House. We are looking for good things again from these guys. They're are a breath of fresh of air and they are doing really good things on this album.... The new Little River Band album could have a real successful run. I've always been a real fan of this band and couldn't wait to get it on the air.... The Pat Benatar sounds like a big truck...coming down the hill... straight at you...with no brakes! It's a gritty guitar rocker that gets Pat back from the brink of AC-dom. Glad to have you back Pat!.... We've been watching the Dylan and it's a consensus song for the station to give it a shot and wait for the reaction. There is enough of a Grateful Dead feel to "Silvio" to validate any of Dylan's eccentricities.

**Richard Smith, WIXV, Savannah**

Last Thursday I had the pleasure of seeing Living Colour playing live in Savannah. I feel it's a shame that this band is so underrated. It seems that the record company could do so much more to promote this band, but they are not. I do not understand why a band of this caliber is being overlooked by everyone in the industry, radio included. I urge you to listen to Living Colour. I suggest "Middle Man", "Cult of Personality" and "Glamour Boys", although the whole CD is fantastic. If you do not believe it will get response, then call me and I'll read you our request logs.... I also think it a shame that artists with so much integrity as Steve Winwood and Robert Plant feel they have to exploit their art to sell beer and soft drinks. Is the money really that important?.... Now, on a brighter note, if anyone is in the Hilton Head Island area on July 4th we are planning a huge bash featuring John Kilzer, Drivin' and Cryin' and Stealin Horses. Plus we will be attempting to break a Guinness World Record. Everyone is welcome.

**Tom Calderone, WRCN, Long Island**

WRCN goes Heavy OTB with Shriek4's "Intoxication". The song is a terrific representation of the band at its peak and the album is going to be a killer this summer.... Question: Can anyone tell me why there is a high pitched tone on The Fall's "Hit The North"? What is that noise? All the dogs on Long Island croon when we play it. If anyone knows, please call me at (516) 727-1570.... Play the Three O'Clock.

**Haz Montana, WXLP, Davenport**

What's the weather like in Boston? I hope it's cooler there than it is here, 'cause that's where I'm taking my vacation next month. The temperature broke 100 today, so I'm installing a kiddie pool in my car.... Am I crazy, or is there an audible fart at the end of the new version of "Hush" by Deep Purple? It comes a few seconds after the cold ending.... Nice to hear a rocking Pat Benatar cut whose lyrics don't set her up as a martyr for abuse.... And finally, I haven't been moved by a song like Joe Satriani's "Always..." in ages. What a piece! It's the most emotional expression through a guitar that I've ever heard. Right before I got off the air today I played it for the first time and got twelve calls right away, all incredible positives from mechanics to the woman who had just found the perfect song for her wedding receptions first piece of music. Then I was met in the lobby by a couple of listeners who heard it and stopped in to tell me how much they loved it! Enough said, just listen to the Satriani!

**John Riggs, WKLC, Charleston**

Iggy Pop is the living, breathing King of rock and roll and "Cold Metal" is proof why the man is God.

**Al Scott, KZEL, Eugene**

Ray Stevens "Surfing In the USSR" is hot! A complete novelty record that has an eight foot peak.... Just got back from the Robert Plant show and the man was in top form and extremely happy with the way things are going. You would be too! My favorite moment was when the curly one announced, 'And now we'd like to do a song by Kingdom Come'. The crowd was barking at the moon.... "Simply Irresistible" is aptly named and the audience response is amazing.... Let's give Pat a big hand, the band is sounding tight and the song is top notch. That guitar work is big and nasty. This is a welcome return.

**Charlie Logan, WYNF, Tampa**

Yes folks, welcome to the Christmas rush in June. With the all out assault of major artists lately, unfortunately some smaller yet worthy projects are gonna get lost or overlooked.... Pat Benatar has returned in a big big way. Nothing faddish, gimmicky or pseudo hip. Just a wonderfully straight forward record.... Robert Palmer has set the phones ablaze, this song is a monster.... Speaking of monsters, Jimmy Page is totally revitalized.... Steve Forbert also is back with a handsome record. I think John Mellencamp may have paved the way for Forbert's success now.... And Dirty Looks is a phone monster. "Ruby" is getting big reaction the kind that I thought AC/DC would get.

**Mike Boyle, WDHA, Dover**

Gotta start this week with a big thanks to the MCA crew, Bobby Shaw and Randy Hock, for first, bringing out Kat of Legal Weapon. She's fun to be around and everybody should be on "Hurt"! Secondly,, what a great Elton John listening party you guys put together in New York! Seeing Elton performing songs live for us (maybe 200 people!) was the thrill of a lifetime! The new album is chock full of great songs you've come to expect from the Elton/Taupin team! Favorites include "Town Of Plenty" and "Mona Lisa's (Part 2)".... Pat Benatar has done what she needed to do. Rock our socks off! "All Fired Up" is a perfect title for the way we feel about the new record!.... Can you say "Going to Number One in no time at all??" That's the only thing that needs to be said about Robert Palmer's "Simply Irresistible"!.... Have you listened to Shine yet?? If you listened to "This Wall Of Hate" only once and thrown it aside you've done yourself an injustice! Pull it out again. I guarantee this will sneak up and bite you inn the ass after a couple more spins!.... Iggy Pop's got the phones buzzing already! "Cold Metal" has the grit we're used to from Iggy! I also suggest "Squarehead" when you get the album!.... Other projects that deserve your attention are John Norum, The Del Lords, The Bible and an excellent new song from Crowded House!

**Bob Linder, WDHA, Dover**

An open invitation for all to join WDHA for a spectacular fireworks extravaganza Monday July 4th, 1 mile from our Rt. 10 Dover studios. It's a beautiful setting overlooking a lake. The music of course will be provided on-air so bring your FM walkman or boom box. Call us for choice seating.

**Scott Murray, KVRE, Santa Rosa**

It was a busy week for us. First, KVRE shows with Little Feat, also with Bonnie Raitt and slide guitar wiz Roy Rogers. We also saw the completion of a long promotion surrounding our "Millionth Record" played. As a prize to the listener able to guess what our millionth song after ten years would be, we gave away a CD player and 101 CDs. Thanks so much to all the record reps who were extremely helpful in compiling this collection and the companies that responded so quickly to these orders. It was a lot of fun for our audience and staff alike. Somehow our PD Bill Bowker and I were able to keep the identity of the actual song a secret from the staff and audience for the whole six weeks, up to the final moment. What was the song? "Long May You Run" by the Stills Young band seemed to capture a feeling of good times past and continued growth in the future. It was a great promotion for any station that

wants to emphasize their heritage. As a side note, try a promotion like this if you really want to get your sales staff begging with people on the streets buzzing about the contest. The sales people were almost ready to give up their commission for information.

### **Mike Jones, WGIR, Manchester**

The one to punch from Enigma has finally arrived. The three track Stryper 12" is rockin' stuff. Nothing really ground breaking but Stryper is usually synonymous with quality. The title track "In God We Trust" is really good.... Death Angel have come out with a serious monster that definitely won't leave you "bored". "Frolic Through The Park" is a cute album title coming from a band like Death Angel. I'm waiting on pins and needles for the whole LP.... Britny Fox has definitely got a bit of the Cinderella in their sound, along with a lot of early Kiss. It's a solid debut from a band that seems like it could go all the way. "Girlschool", "Kick-n-Fight", "Rock Revolution" and a totally over the top version of Slade's "Goodbye To Jane" make Britny Fox a record that'll heat up the summer.... Remember Seduce are happenin' !!!.... Watch this space for "Mike Goes To The Monsters Part 2" next week.

### **Louis Heidelmeier, Elektra, 404-344-4933**

The new Satellites album is out and the response from radio has been staggering. Seven songs have been mentioned to me as candidates for airplay, not to mention the top five title track that goes to CHR this week. Thank you AOR for your continued support on the Sats.... Tracy Chapman continues to make liars out of those who said never at AOR and CHR. "Fast Car" is top twenty and heading for top ten while "Talkin' Bout A Revolution" is on around 20 stations without benefit of a 12" or CD single.... Have you heard Raymond May? It's a good little rock and roll song with a T-Rex feel and lyrics that most men will relate to.... The 10,000 Manias is GOLD. The new 12" is "What's The Matter Here". Need I say more?.... We at Elektra were very happy with the support given to "Broken Land" by The Adventures. Please remember how good that record sounded on the air and continue your support with "Drowning In The Sea Of Love".... In closing, Listen to The Sugarcubes. You will like it!

### **Phil Hardy, Megaforce, 201-254-6533**

Feeling adventurous this week? Feel like taking a chance on adding something you won't be sure about? No? I don't blame you! That's why you should take no chances and add something safe that you know will perform, i.e., Ace Frehley. Sales are continued up, climbing over 100 Billboard points in two weeks, and the tour hasn't even begun. There is no risk in adding "Insane". Ace is a rocker with a proven track record (since "coming back" last year, Frehley sales have surpassed 700,000 units). Why delay? Play today! And if you still have fear, just test the song! Play it and watch the results roll in; this is the definition of classic night-time rock! Remember, the tour begins the first week of July with Iron Maiden. Don't miss out on the chance to interview Ace and treat your audience to a veritable living legend. Thanks to KLAQ, WDHA and WSOU for the Ace interviews last Friday night.

### **Joe Simon, KTCL, Ft Collins**

Don't let the summer pass you by without spending some time with the Campers: Camper Van Beethoven! "Our Beloved Revolutionary Sweetheart" deserves serious consideration, not only from alternative stations but AOR's as well. I really think "Eye Of Fatima" can work on AOR. This band deserves airplay. They write creative usually tongue-in-cheek songs with catchy, bouncy hooks. Their use of string instruments is unrivaled. We have had them in heavy rotation for two weeks now and the calls keep pouring in. Give them a listen. Don't miss the boat on the Campers!.... Shriekback is going to be an enormous album for us. We will eventually play every song. This band has really grown and the new stuff is not as dancey, not as dark and murky. Definitely more accessible than any of their previous work. Excellent, excellent stuff. This album screams "play me!" and we're listening.... I got a chance to see one of the best concerts I've ever seen this past weekend. If you ever have a chance to see Tackhead, do it. They are unbelievable. It's unfortunate that few people know who they are. If you are an alternative programmer you should check

out Tackhead's "Tape Time" available on Nettwerk Records. Also, a single called "The Game" on 4th And Broadway Records. The music is difficult to describe. Let's call it intense, industrial dance music. Sound effects and voice overs abound. Tune in, turn on, fall out! Don't worry, it's only rock and roll. It won't hurt you. Actually their records don't do justice to the outrageous live show. If Jimi Hendrix were alive today, he'd be groovin' on Tackhead. If you'll like to hear what music will sound like ten years from now, check it out.

### **Jamey Karr, KACV, Amarillo**

Sounds like women rockers have all the good songs these days. Melissa Etheridge has been #1 in phones for four straight weeks. Tracy, Shona and now Patti are still hanging in there for us.... Rhythm Corps are holding all our ears hostage. "Common Ground" is hypnotic for listeners as well, coming in Top 5 phones again this week.... Shriekback is a blast!.... This summer's radio will be loaded with great new artists and songs. What a relief!

### **Jonathan Rosen, "Virgin Vinyl" KUPD, Phoenix**

I'll tell ya, believe what Rich Scroggs and Monte Conner stated last week about Voivod's "Dimension Hatross". This is a devastating piece of vinyl. This isn't simply "heavy metal"; it defies categorization of what our ears are normally used to. Not to be cute, this has got to be heaving metal. "Tribal Convictions" is bullish on imagination, as are many of the other tracks. It's either instant appeal or a quick turn-off. I like that. No inbetweens.... Question: How is Mojo Nixon going to top "Elvis Is Everywhere", last year's gem that gave the Moj deservedly oodles of recognition? Well, two weeks ago during a live phone-in on VV he said he's "goin' to do a number called 'Evil Kneivel is Everywhere', changing a few words here and there, and wait till ya see the video. I got some great footage. Whether my old music friend was shamming us or not, he is eating plenty of beanie weenies and cheese whiz and a writin' all that o-riginal music for his next LP.

### **Renee Blake, WKXL, Concord**

I can't help but love someone who puts a Greenpeace flyer in her album. I can't help but love someone who supports and end to the potential of nuclear disaster. To have her be a great artist with a powerful voice and a sense of melody, and the drama and timing to put across emotion would seem to be too much to ask. Maybe most of the time that's true, but with Shona Laing, she lives up to the promise throughout her album "South". There is a sense of size and power that pours from her. Every time I play "Soviet Snow" I stop everything else going on in the studio and blast the headphones. When she moves from the opening to the melody, I feel transported!.... The Moody's have made me a very happy lady. What a wonderful album "Sur La Mer" is. I think it's the best LP since before "Octave". And get a load of "No More Lies".... The Bible is like The Church in that it's hard to pick a favorite cut. So many are so good. Enjoyable arrangements and the melodies are intricately woven and beautifully executed.... Melissa Etheridge may be proof that there are plenty of good women in rock. After being blessed with Tracy Chapman, Shona Laing and Toni Childs we're just hitting our stride with Melissa. Enough really enjoyable material to keep her on the air until she's ready to record again. Island, please don't forget to give "Precious Pain" a chance to shine apart from the back.... Graham Parker's "The Mona Lisa's Sister" is a catchy LP. "Start A Fire" moved into heavy in a mere two weeks. Thank heavens he left the animal research institute.... Peter Murphy - and interesting album - hard to describe. I feel darker moods expressed in less dark musical settings.... Sugarcubes - pretty crazy stuff but fun, especially "Birthday", "Motor Crash" and "Delicious Demon".... Camper Van Beethoven is selling very well for a new artist. My personal favorite is "Change Your Mind". It has a Dead quality.... Shriekback! It never fails to please me when A&R people and I agree. "Go Bang!" is a great choice off an album that has some good things to choose from.... I gotta say something about Steve Forbert. I love the new album - and it hasn't even been released yet! It's piquant, like cajun food or sweet and sour tofu. Steve, it's great to have ya back.

**John Lassman, KQRS, Minneapolis**

It will be time to celebrate KQ's Spring Book at the thirteenth annual Upper Midwest Communications Conclave. For reservations call Tom Denise or Julie at Conclave Headquarters 612-927-HITS.

**David Sadof, KLOL, Houston**

Trying to find something to do this past week was no trouble at all. Underworld put on a great show and were also a lot of fun to hang out with. Did you know they were previously the band Freur?... The next night, The Smithereens played to an enthusiastic crowd and Billy Cox from Geffen made history with the first underwater listening party featuring Jimmy Page's "Outrider"... And then for the weekend it was off to Dallas for an Elton John listening party complete with a private concert. It as great to see Elton in such an intimate setting, however it was unfortunate that some of the people who were invited continued to carry on conversations while he performed. Thanks to all at MCA for a great time.... It was a pleasure to add Patti Smith and Melissa Etheridge this week. Both sound great on the air.... Other favorites include Robert Palmer, Underworld, Rhythm Corps, Baxter Robertson and The Smithereens.

**Jane Fredericksen, KTCZ, Minneapolis**

Fifteen new adds this week! That's how much new material is out there! Thanks to Twin Cities radio listeners who this month selected the Cities' 97 as the best radio station in the Twin Cities in a readers's poll for City Pages, a weekly news magazine with a circulation of 100,000.

**Steve Kantscheidt, WCDB, Albany (Not a happening town)**

Well finally I return to Albany and regular reporting. This of course means two things - the return to classes and that weekly dilemma of selecting my top fifteen. This summer seems as though it's going to be a pretty sick one. With tons of new stuff from those old favorites like Death Angel, Flotsam and hot new bands like Violence. This all should keep me quite occupied while playing frisbee and drinking in the Albany sun.... One of the hottest releases of the year has got to be Nuclear Assault's fourth, "Survive". This classic from the New York underground band should vault them to the top of thrash with only the best. Tie down any small children or pets before you put this one on because it's going to blow you out the window. This is true thrash in all it's heaviness. The lyrical content has changed to more of a open "socially conscious" vein but comes off very well. It seems these boys are just a little P.O.'d like the rest of us with what's going on. The music itself varies from a slow mosh pace ("Fight To Be Free") to the fastest of hardcore ("Technology") but Glen Evens never stops his sound-barrier thrashing. This album can be compared to brain death in musical content but is much more mature with excellent prod and picks where The Plague left off. It's good to see a band stay heavy after three albums and still be able to say so much with their music. The deadliest tunes are "Fight To Be Free", "Brainwashed", "Equal Rights" and the rest of the album. Also check their "Good Times Bad Times". It's truly the rulingest Led Zep cover. See ya in the video.... What else has me on the edge of my seat? How about the D.R.I. 12". "Think For Your Yourself" is the name of the song and it should already be on your playlists as you eagerly await "Four Of A Kind" and the upcoming tour. The original crossover band is gonna rattle eardrums again and this is just a taste of the sickness. Check it out.... As for my happy marriage with my dear sweet Cheryl, things are just dandy despite claims that I'm 13 years old by some leper accountant in Philadelphia who dresses up in women's clothing and sings "Talk Dirty To Me Monte". And although we practice an open relationship, Bill Fisher still longs to be in my shoes.... Thanx to every one at Concrete (except Derek) and Metal Blade for the mad month of interning, especially Tommy Kealty for sharing his lust for arena football- NY Knights rule!.... My new home phone # is 518-482-5681 and this is the fastest way to get a hold of me. SEE YA!!

**Jeff Ivan, KFMX, Lubbock**

Forget the Bates Motel, look out for Amon. Of course I'm speaking about the house in the latest King Diamond epic,

"Them". He is really growing into the Stephen King of metal. The first thing you notice about this album is the up-front production of the guitars. The whole thing sounds much better than "Abigail". They are looking to go gold on this one and I honestly believe they have a good chance. I'm glad I live in an apartment and that my relatives are in another state.... Before I forget, thanks to all the record dudes and dudettes who've contributed to our two-year metal birthday party with giveaways.... Last week I got a call from a girl saying that she didn't like Gang Green's version of "Living Loving Maid". I think it's a lot of fun myself so I asked her if she liked Kingdom Come, and she says they are the best thing on our station. I don't know, must've been a full moon or something. Here is my new list of "bands that should be played o'er the shit for brains for not playing them list": Death Angel with unbelievable potential, Britny Fox, (the next Bon Jovi), Saxon, (this is their time), Impellitteri (just for the line-up), Frehley's Comet 'cause you must have an Ace in the deck, Vinnie Moore 'cause he shreds, and Fates Warning who are definitely not "Quietus". Well I'd love to stay and chat but it is time for us here at the station to go stare at the new Lita poster.

**Mike Gardner, KOAS, Kealakekua**

Sounding great for us this week is Patti Smith, also Steve Winwood, Van Halen, Graham Parker and Rod Stewart. Still making the phones light up is Joe Satriani with the new Moody Blues a close second. We're still looking for our copies of Pat Benatar and Jimmy Page but we understand the great distance that the mail must travel. Thanks again for the service and for releasing some great tunes for the summer.

**Mad Max Hammer, Z-Rock Satellite**

We're playing the new Stryper and it's a natural progression for these guys from album to album. They're gonna break big, get the message and exceed the platinum level with "In God We Trust". King Diamond, "Them": Z-Rock is playing every track off the album. His heaviest solo album is ultra-heavy. Don't turn your back on Grandma especially when it's tea time. King should flirt with gold status on this one. Long live The King.... Death Angel will be the next breakthrough thrash band. "Cold Gin" is a winner and the song "Bored" is just a Mega-hit. These guys will exceed expectations by far.... Metal Massacre: we're on the Toxik and the Faith Or Fear.

**Bob Richards, WPHD, Buffalo**

This past weekend Monsters Of Rock blew into Rich Stadium and provided some tremendous entertainment. Special thanks to Ed Leffler, Larry White and Rob Steinberg for setting up a tremendous WPHD exclusive live concert back stage with Klaus Meine and Rudolf Schenker. Also thanks to Drew Murray for the on-stage seats. Signing off for now 'cause Pat Benatar's got me "All Fired Up".

**Cole Gill, KSJS, San Jose**

I saw Fates Warning twice recently as well as AC/DC. Both were excellent shows and I'm looking forward to seeing Riot soon. I got the Nuclear Assault this morning and I can't wait to melt some ears with this. I've had so many people call for the new stuff that it was becoming life threatening to tell them I didn't have it yet. It's gonna blow their faces off.

**Joe Anthony, KISS, San Antonio**

You're gonna be a sorry man if you pass this one up. Hank Williams Jr.'s "You're Gonna Be A Sorry Man". It's testing and it's hot. Hank congratulations, you've got an AOR hit. Let me be the first to go on record to say so.

**Janet Getchell, Megaforce Records, 201-254-6533**

Ok, you have no excuses now, you should all have your Ace Frehley's Comet albums in hand. Take the album that's in our hand, put it on your turntable and play it. A lot. Your listeners will love you for it.... Megaforce in the past has brought you Metallica and then Anthrax, now we bring you Testament. This band is going to be a legend and some stations know it like KOZZ, KSLC, (my old stomping grounds), and KTEC, (yo Rudy, give me a call), WCDB, these guys and gal have it #1! WJUL, WGIR, WCWP, KFMX and KCMU are also pretty smart

(Bill, Mike, Ron, Jeff and Jeff, how about putting it at #1?) Thanks guys.... Here's some exciting news for all you M.O.D. fans! The guys will be surfing and touring through the Northeast. For dates, give me a call.

**Donna Geisinger, Passport Records, 818-500-7677**

Well, it is the evening of the final Laker/Pistons series and everyone has left to warm up their TV's and cool down their cold ones. Being from Atlanta, I'm still here wondering why anyone cares. I have made some interesting observations this week while working Richard Barone's "Cry Baby Cry" at AC Radio, though. First, you aren't left on hold as long at AC as AOR; second, a number of AC stations still don't have CD capability, and thirdly, a lot of AC music directors are on vacation this week. So my work has been frustrating but educational. Who's going to the New Music Seminar? I am, and I can't wait to be in the New York area again checking out all the new bands (and the good looking Italian men). Great conversations this week goes to Hilaire at Arista. Congratulations on your new position and best of luck!!

**Don Berns, CFNY, Toronto**

While Ivar's away, the PD will play...or at least watch while others do, which leads me to one of the best concerts of the year as Clannad yet, do so! They'll be back in North America this fall.... And now a few words about Robert Palmer's debut on EMI: hot, hooky hit that's perfect for summer, guaranteed to light up the phones and burn the turntables or CD players to a cinder. It's, well, irresistible.... So's the Shriekback album, "Go Bang", for that matter. If the title track and "The Shark Walk" don't break this group wide open, I don't know what will. The summer's cooking and Shriekback has just made it hotter!.... I would also like to add my recommendation to Ivar's for Andrew Cash's solo debut, "Time & Place". Although reviews have called this album gentle, the artist is anything but that in concert; in fact I would say he's one of the most charismatic performers to come along in quite a while.... And speaking of charismatic, be on the lookout for Vancouver's Colin James opening for the Steve Winwood tour this summer. If you miss Colin, you'll kick your self later; he'll make George Thorogood look like an old fogey, I guarantee.

**Monte Conner, Roadracer, 212-219-0077**

It is June 27th and King Diamond's new horror masterpiece, "Them", is finally unleashed. Yes indeed, King Diamond will be the metal success story of 1988, and it all gets underway now!! First came the advance tapes & lyrics, allowing you a good chance To familiarize yourself with "Them," "King," "Mother," "Missy," "Grandma" and the house, "Amon" (where all the evil shit takes place). Then came "Welcome Home" - The priority track, where the 7 year old King nervously greets his sinister Grandma who has recently returned from a lengthy vacation at the insane asylum. Why is King apprehensive? Well, he is still undecided as to whether it actually was Grandma who had separated Grandpa's head from his shoulders many years ago. And now Grandma is coming home. "They" are waiting upstairs in the attic. Tea is on "Their" mind and Mother's blood is the main ingredient! Of course the real value of this single is the B side, "Phone Call," which is not on the LP, although it does play an important part of the story. Anyway, you've now got the full vinyl epic in your hands, so, turn up the volume. Turn off the lights and enjoy fear sneaking into your minds. My fave tracks are "Welcome Home", "The Invisible Guests", "Bye, Bye Missy", "The Accusation Chair" and "Phone Call". Call for giveaways, CDs, posters, tour info, personal copies and nude pics of Cheryl Valentine.... Went to see Sacred Reich and the Crumbsuckers at L'Amour. The highlight of the show was the massive pool of vomit lying at Megadon's feet. Yes indeed, the ultimate party animal was in fine form. Mega, you're a fuckin' mess but your still #1 in my book. Seriously dude, you are God!.... I'm gettin'killer response to the Holy Terror advance tape. Try "Distant Calling", "Evil's Rising", and "Mortal Fear". Megadon loves Holy Terror!

**Paul Brown, Virgin, 212-463-0980**

Steve Winwood, Balaam And The Angel, Camper Van Beethoven, Railway Children, Ambitious Lovers, Sam Phillips,

In Tua Nua. Summer's here and the time is right for all these Virgin treats. Dancin', dancin', dancin' to the treats.... (C'mon, everybody join in, hey!)

**Paul Marszalek, WMAD, Madison**

In an effort to run things more efficiently we now present the WMAD hot add and tracking line. Call 608-837-8507 to find out new adds and rotation adjustments each Tuesday at 2 P.M. Thanks for the cooperation.

**Penny Barnes, Rhino/Rampage, 213-828-1980**

Hey, Hey!!! Another exciting, fun filled week here at Rhino, as we continue working both only child & drive. We fired off the brand new Only Child single "Save A Place In Your Heart" to radio this week. For all those stations who said "I Believe" was too hard, along comes a ballad that should fit snugly within the realms of your playlist. And whoa! The video!!...the video, well now, indeed one that will start showing up on video stations in the next two weeks. Great video, great lookin' guys, great music, what's a person to do?? Save a place in your heart and on your playlist for this one, that's what!!! Lookin' at the metal/hard rock side of life, Drive is probably one of the best records of this genre that will pass across your desk this year. So if you've got an in house "metal" show, check out "Kamikaze", "Stormtrooper", or "The Phoenix" for starters. America's first all hispanic metal band, you might remember them from last year's pure rock LP that we released. Well, their cut on that particular album did so well, that we decided to give them a shot all their own. Adds this week include Z-Rock, KJJO, KRSR, and it's currently in medium at KNAC!! Calling all you rot gut whiskey drinkers: this is one album sure to make you a certified manly man!!! That's about all for this week, take care!!!

**Michael J. Schnapp, SPV, 516-783-3040**

Little time but lots to say.... Sodom-still hanging tough on all the metal charts. Hide the sheep and play Sodom. Kings of this genre of Heavy Thrash from Germany. When ya play it, they do get requests. (Tell that to the immigration department, those dirty \*#!?!\*.... Bollock Brothers & Raymen.... Yo! Check these out! Raymen songs to get down with are "Down In The Cellar", "Lipstick And Powder" and "Real Wild Child".... From the Bollock Brothers, "Harley David" (If you dare), "God Created Woman" (and then God ripped off Berlin) and of course "Magic Carpet Ride" and "Heartbreaker", of course, of course.... Now I gotta send out some packages, chocked full o' records by Metal dudes deluxe, Assassin, Satan, Mekong Delta, lots of independent product, the hot selling Alternative, Metal and Dance 12's. S.P.V. U.S.A. distribution will kick some serious ass this year. Also, look out at the New Music Seminar this year, S.P.V. and Nude Beer will do a party on July 18th in the Marriot. Be there or be....

**Derek Simon, Concrete Marketing, 212-645-1360**

Britny Fox is looking good. Phones are lighting up wherever the band is on the airwaves. With the video for "Long Way To Love" just completed, look for this record to explode. "Girlschool", "Rock Revolution" and "In America" are also doing well for hard rock/heavy metal shows nationwide. Is anyone not convinced that this record is going to be huge?.... Judas Priest are on their way to our shores in support of "Ram It Down". Rob describes the stage set as 'the inside of a huge metal blast furnace' and I hear from sources in Europe that it is unreal. Who'd expect less from Judas Priest?.... Queensryche dominate metal radio with "Operation: Mindcrime" and are making quite a bit of noise at AOR as well. Anybody who has tested the record soon discovers the potential of this band. With Queensryche, hearing is believing.... Fifth Angel is demoing new songs while awaiting a proper touring opportunity. The new material is unbelievable. Anyone who likes the current album will love the new stuff and people who haven't heard this album are going to wonder how they missed it. We expect to release the new album in late '88 or very early '89. I'll keep you posted. Keep your ears open for the new Slayer album, "South Of Heaven". I'll be servicing a sampler cassette and arranging pre-release interviews very soon. Give me a holler if you're in need.

**Kneale Mann, CFNY, Toronto**

While Ivar's away, his assistant will play as well (some fun!). If I can add to Don Bern's comments on the Shriekback album, WOW!!! This has captured their live strength, funky shit batman! Check out "Go Bang", "Newton", "New Man", "The Shark Walk", "Intoxication" and their cool rendition of the KC and the Sunshine Band "classic" "Get Down Tonight." All these tracks are winners (in my book)!.... The latest in a slew of great summer releases include a wonderful follow-up LP from Johnny Clegg and Savuka, "Shadow Man".... Crowded House have a hit for the female audience with "Better Be Home Soon".... Aslan has a natural winner with "This Is..." It's the U.K. single which I think is superior to "Loving Me Lately".... Thanks to The Pogues, Strange Advance, Clannad, Colin Linden, Icehouse, and Thomas Dolby for dropping by the station for a chat this past week. It makes it all so much more interesting.

**Pamela Newman, Enigma, 213-640-6869**

If everyone who's been claiming they really want to see the Del-Lords happen adds "A Lover's Prayer" this week the track will enter Top 10. Then all the rest of the programmers who say they'd like to play the Del Lords but need to see strong chart action can add "A Lover's Prayer" the week after and it'll be #1!!! Think about this for a minute. Marty Bender isn't wailing on this record because of my wit and charm! Their recent show in Baltimore left Russ Mottla stuttering just trying to describe the experience ("The best live show I've seen in a year!").... Look for Ronnie Montrose' "Telstar" in your mail today. Every summer there's one huge instrumental hit and this summer "Telstar" just might be it. Ronnie hits the road, for the first time since "Gamma", in mid-July. Stay tuned for more details on this three-guitar band extravaganza.... Reports are that the Iron Maiden concert goers were well prepared for opening band's hit song as mid-west arenas rocked last weekend with the sounds of thousands singing, "Na, na, na Na, na, na!!! You will get no more warnings on this storm - the Hurricane has hit.... Oh, and Naumann, just to be certain the record's straight...Everything Steve Winwood has ever done has been "nothing short of perfect."

**Kenny Puvogel, Warner Bros., 818-953-3723**

Jerry Harrison's "Man With A Gun"; Robben Ford's "Wild About You". Two records that sound great!!! We urge you to give a listen to both and consider for airplay. We had a Top 5 track with "Rev It Up" by Jerry Harrison, and we are coming at you with a song that we feel can be played, and played a lot at rock radio and do very well on the air, "Man With A Gun". Robben Ford is a great guitar player. Just ask the likes of George Harrison and Miles Davis what they think of Robben's playing! "Wild About You" is a hot Rock & Roll song and deserves to be heard on rock radio! Please give this record a listen, and you will agree!.... Van Halen's "When It's Love" is heading towards #1 where it belongs. We ask you to give "Finish What You Started" and "Mine All Mine" a shot when you put "Black & Blue" in recurrent. The album is still #1 at retail and we are selling tons of "OU812".... Rod Stewart continues to rock with "Dynamite". The record had a very nice week at rock radio. When you are ready to go recurrent with "Lost In You", "Dynamite" is the way to go, and heavy is the way to play it. Get ready for one of the major tours of the year, Rod Stewart. This man gives you your money's worth every show.... Big, big thanks to WLLZ, WPHD, KMJX, KWLN, KQDS, KATT, WKQZ, KWIC, and CHEZ for adds on Honeymoon Suite's "Lookin Out For #1". We will be lookin out for many adds next week!.... I'm looking forward to seeing many of you on the Monsters Of Rock tour starting next week!!

**Tom Callahan, Enigma, 213-640-6869**

I've been holding out and holding out not giving in to temptation...as it relates to writing a dialogue. The pressure from my peers was too intense however, and as most of you know, I'm not much of a gossip. But did you hear about.... The real reason I'm writing this is to brag about Death Angel, Stryper, Hurricane and Saxon. If any of you guy's haven't added Death Angel or Stryper's 12" you are draggin your butt! We're talking quality thrash and melodic metal. Everyone happy? Ya know I'm gonna come a'callin. I have good news! Hurricane is making me very happy. I believe I've thanked you

all personally. If I haven't, I deserve to be slighted. I have one small bone to pick with some of you who have not memorized all the songs on Saxon's LP "Destiny". It's easy, just keep playing it and will become like osmosis. You'll absorb all that great music. Well, this didn't hurt too much, maybe I'll try gossiping again until then your jocks, dare I say, "Rule!" Together in metal.

**Megadon, Combat, 718-740-5700**

The heat is affecting my already too-fogged brain. It's all I can do to keep my sanity, with the temperature here in Hollis soaring dangerously close to 100 degrees every day, and the humidity is unbearable. About the only thing that keeps me tranquil is the fact that Impellitteri is doing very well. This is probably the most accessible record I have ever worked, and so far, it's been a joy. Nothing cools me off more than getting calls saying 'Mega, the Impellitteri rules!'.... I continue to be asked about Agony. Lead vocalist Pete Lundstrom will be in our New York office on July 12-13, and will be attending the New Music Seminar as well, so reserve your interview time now!.... How about that Accused album? Obviously the most violent band on vinyl, but when you interview them, you'll be amazed at how nice these guys really are...Remember those Satriani guitar picks I sent you eons ago? Hang on to them, because they're worth a fortune--here's the proof positive: His obeseness Scott Givens was able to purchase a large pizza with sausage for a "Satch" pick in his neighborhood. If that's not a manly trade, I don't know what is. Yep.

**Alex De Felice, Noise International, 212-334-9268**

It's one hundred degrees and the cats are in heat. Raw fish in Chinatown are baking on the sidewalk. What better way to put you in the mood for Voivod. "Tribal Convictions" and "Brainscan" seem to be the cuts people are going with. Canadian bacon to all who have added the record, eh? The tour begins July 6 and continues until the band gets homesick.... Sabbath is shipping as I write this. You should have it this week.... Rage's new one "Perfect Man" is due July 11. The CD's got bonus tracks, and we can't wait for you to hear it. The record almost blew up Kerrang's K-meter. It's a perfect album.... Kreator's EP is coming soon as they prepare to hit the road with D.R.1.... Finally, thanks to Mark La Spina for the Bloody Stools tape. Now my toilet won't flush.

**Michael Linehan, Reprise, 818-953-3750**

Brian Wilson is one of the true originals in American popular music. As the creative center of the Beach Boys he helped broaden the scope of the pop song and, along with the Beatles, raised the standards by which all popular music is measured. Now he has completed his first ever solo LP for Sire/Reprise and it is a masterwork. Already it has received a four star review in the brand new Rolling Stone (and they hate everything, don't they). This Thursday, June 30th, we will be servicing radio with "Love and Mercy", the first CD Pro, and when you slap this puppy on you better put on your sweater, because it's going to give you chills. Granted Brian was never known for his crunching rock, but for mornings and middays and general upper demo appeal this song is a monster so get ready.... Neil moves Top 20 or Top 15 depending on whose chart you look at. The video of "This Note" is an absolute howl and should be a most requested video the moment it hits the air. The cut is now among the most requested at radio as well. Tell your Reprise Rep you've got to see this video today.

**Hugh Surratt, RCA, 213-468-4053**

Well slam dunk my soul and cancel that appointment with my cardiologist. It only took 115 games, but they did it! Those Lakers gave us a helluva ride! Now that the playoffs are over, maybe you will have some time to spend with our bright new band from Scotland, Shine. These guys have it all, lyrics, melodies, song structure and strong performances. Check out "Wall Of Hate".... Get hold of the video for Kings Of The Sun's new track "Black Leather" and scope it. It gives a whole new meaning to the term, "Butt Rockin".... There ain't nuthin' else out there like Treat Her Right and those listeners that grooved to "I Think She Likes Me" will want to hear more. Why don't you lay "I Got A Gun" on 'em...That's from the hardest working band in show biz, folks.... Graham and Hornsby just

keep rotating (and they're both on the road).... Coming attractions feature "Back to the Cave" by Lita Ford and "Crash" from The Primitives. Having spent the past week in soggy New York City, I guarantee that RCA will give you the heat this summer. You supply the humidity.

**Graham Hatch, Frontier, 609-799-7597**

Yowsah! There is nothing else to describe the feeling of having Young Fresh Fellows' "Everything's Gonna Turn Out Great" making the playlists of WFNX, WXRT, KROQ, WXXP and Power at KRCK makes you want to stand up and shout. Very, very long national tour starts in July so get your crash helmets on. Also look out for those perennial metal greats, The Circle Jerks to roll into your town. The tour starts this week as well as the reissue of their long out of print "Wild In The Streets" LP, originally on Saulty Records now on Frontier. All you metal heads now read this. Ex-Megadether Chris Pollard will be playing for the Jerks. Thanks to Albert O, Steve, Carter and everyone at 'BCN for putting on a great Rumble. Sorry I missed you Shred, no wonder I couldn't find you-I hear you got a haircut. Bullet Lavolta were beyond rockin', undoubtedly the next Boston band destined to pack sweaty warehouses full of thrashing youths and sell the boat loads of records. A great time had by all even if Barry Lyons couldn't get his eyes off of a certain lead singer. Just to throw another opinion on the fire concerning the plight of some of the alternative stations, it seems clear to me that when a band is just starting to develop an audience the last thing they need to do is to start choosing sides. New bands need all the allies they can get. And what some of these stations are asking is the same thing we ask them everyday, 'give us a chance and watch our smoke.' OK, maybe not in these words, but clearly we ask them everyday to give us an opportunity to expose our new artists. Now they want an opportunity to connect themselves with them when they come to town. Why not? And it would be naive to think that the alternative stations deserve every cool young band that comes to town, we will never hear these artists on AOR if that happens. But I do think that the Sesame Street word "Cooperation" may have a place in all this. Now that I have said my peace you may begin to throw stones.

**David Fleischman, Atlantic, 212-484-6017**

Storming out of the Motor City comes a new band that has all of us promo type folks at Atlantic chomping at the bit. The band is called Rebel Heels. On your desks now is the first 12" entitled "In Hot Pursuit". It's a real one listen record. Also new and in your hands is the latest from Blue Rodeo entitled "Try". Simply put, this is a beautiful song accentuated by a passionate vocal performance. Danny Buch and myself, in order to form a more perfect union, establish justice, provide for the common defenses, insure domestic tranquility and continue our current status of employment, beseech you all to give more than serious consideration to going right on the new Robin Trower 12", "Love Won't Wait Forever", once you've had your run with the very successful "Tear It Up". For those of you already off "Tear It Up", well, you know what to do. Catch my drift?

**John Schoenberger, Relativity, 213-212-0801**

Joe Satriani continues to be the sensation! Even though many of you may feel wary about this "softer" cut, rest assured that it is still a phone gettin' audience reacting track. Come on...Let's expand the listener appeal and the album radio success story!!! Impellitteri, listen to the title cut "Stand In Line" and of course the updated version of "Since You've Been Gone" once again featuring Graham Bonnet. This group features an all star lineup and is already doing tremendous on the metal level!.... I'd like to "requote" Mike Bells' comment from the "first page" this past week to make sure everyone see's it.... "Now is the time for the format to live up to its social obligations and assume the cutting edge of social issues instead of being an outlet for power chord schlock for profit"!!!!.... And a final word...Talkin' about female artists...How about Sade??!!! She writes the most brilliant lyrics/poetry in popular music and she does it with a "Lovers Touch"!

**Liz Brooks, Relativity/Creation, 718-740-5700**

Within a week you will have the debut LP from England's The House Of Love. This record has been hailed as an instant

classic by the UK press -- the band is nothing less than that bright new thing you have been waiting for to shake your blahs and spice your programming. The first track is "Christine" -- it will work for everyone -- a new pop song with a monster hook.... Now sometimes you release a record that is a personal favorite, but maybe, cynic that you are, you don't expect the rest of the world to take it to their hearts so instantly. Then you start getting the rave phone calls. Biff Bang Pow!'s "Love Is Forever" is one such record. Cheers to progressive programmers.... One more time: don't swim right after you eat, don't go to the bar with Megadon, do play The House Of Love.

**Ross Goza, KNAC, Long Beach**

Jimmy Page is back to the sound that made him famous, you can almost hear him falling down! Lots to choose from on "Outrider", but we're gonna stick with the rock tracks like "Wasting..." and "The Only One".... Queensryche continues to be big on the phones and at retail outlets around here, if these guys tour this record will break wide open.... Flotsam and Jetsam has entered the big time with "No Place For Disgrace", we're getting a good buzz from our core metal fans.... And yes, the man that gave us "Raw Power" and "Search And Destroy" when he was with The Stooges has returned with the sound that started it all..."Cold Metal" from Iggy Pop is simple, pure and loaded with attitude. We'll see how it does.... If you like "Sweet Child O' Mine", you might think about "Think About You" as another Guns N' Roses track (we're moving it to power this week).

**Sean Coakley, Arista, 212-830-2178**

On Friday, you'll receive the Patti Smith album entitled "Dream Of Life". Take a copy home and experience a stunning, mature and wise picture from one of our most important poets. And it rocks! Look for this one to make every credible top 10 of the year list. Thanks, Patti, it's an honor.... Rock radio has an opportunity to push The Church past gold with the reactionary "Reptile". Both Oedipus and Carter swear that this is a bigger song than the previously #1 "Milky Way". Don't be a geek. Play "Reptile"!!.... Top 40 gets Stealin Horses "Turnaround" this week as retail action is picking up off the rock play. So many of you are expressing genuine love for this album, perhaps with your competition playing it you will finally be able to "find space".... Witness is for real. #1 phones at WKLS after one week of play. Big phones happening already in Detroit from WRIF and WLLZ. Major MTV commitment. Put this on at "Rate at Eight" or "Smash or Trash" and I promise it'll win. This song gets the earthdogs hot.... Hey, we're hot. Not used to playing so many Arista records at one time, eh? Well we're just warming up for Dreams So Real, Legal Reins, Evinrude and Jeff Healey.

**Cheryl "I Need A Vacation" Valentine, Metal Blade, 212-645-6208**

Do you know which two stations in the U.S. are the epitome of coolness? Why they're WHMH in Sauk Rapids, MN and WCKO in Jackson, MS. Do you know which two MDs in America totally rule the book of rock? Why they're Randy Kaye and Johnnie James! Do you know why these stations jam? Because they are AOR stations that are totally behind Masi's "Downtown Dreamers" and Fates Warning's "No Exit"--Masi and Fates are in regular rotation Dude! They're slammin' stations with mega-wattage and their example should be followed closely! Wake up guys! Johnnie and Randy know what they're doin'!.... We've gotten some killer Betsy adds this week including: WHVY (Derek Alan), WQSU (Traci Scully), WBRS (Andy Thurston), WBIM (Candice Rassias), WKNC (Steve Prue), WOUR (Kevin Kasky), WARY (Jim Gibson), WDWN (Joe Wyatt), WPSC (Paul Schwartz), WXPL (Val Allgrove), and WMUL (John Isaacs). She's makin' waves with this new one! Be looking for her videos on Headbangers' Ball.... Also, did you notice that a couple of weeks ago Fates' video for "Silent Cries" was on Headbangers' within the first hour?.... I'd like to take this opportunity for you all to take pity on me. Caesar's comin' over this weekend. Help!.... Get this! At the New Music Seminar both Hallows Eve and Fates Warning are playing! Killer! Killer! Killer! I shall be basking in all of my glory!.... Ann Wilson chews gum while performing live! Think about that one. Later!
