The Fabulous Thunderbirds, "Powerful Stuff", Elektra.... Now, you know just about any Tom Cruise film is going to be a hit--and you've got to assume that his mug on the cover is going to move a few soundtrack units in itself, right? But how often does a name act like The T-Birds come through with one of their best songs ever in this context, let alone when it's another label's offering? "Tuff Enough" may have been the one to put them on the radio bigtime--and to our ears, this is easily their strongest stuff since then. Jimmy's got his chicken picking in high gear and in terms of rhythm that won't quit and a really big hook--this one's just what the title implies. Gotta be the nicest surprise this week. PS: With new songs from the Starship, John Cougar Mellencamp, Georgia Satellites, the Beach Boys, Ry Cooder, Bobby McFerrin and more--better spend a little time with the package.

Brian Wilson, "Love And Mercy", Sire/Reprise.... On first listen I thought "Nah. Too pop. And way too retro".... But with only one or two more passes, that special dreamtime quality that has made the Beach Boys' best stuff such standards--and Brian such a pop icon--literally stole my heart and ears. After two decades those harmonies are still special--and while Messrs. Love, Jardine, Johnson--and all those guys they dragged in for the "Holland" sessions--could put together a decent floral arrangement, the Bri touch was really the distinctive ingredient in that sound. Hearing this genius on the scene again is what really makes this track work--with just enough Randy Newman overtones to set it apart. It's summertime--so just be sure your CHR competitor isn't the first one to reach the beach.

Pat Benatar, "Wide Awake In Dreamland", Chrysalis.... Just how fired up is the single? Try 38 play increases and 68 heavy reports. The #6 Most Requested debut qualifies Top Notch phone status, too--with 20 stations listing it Top 5. As **KOZZ's Mark Vaughn** says, "Benatar is the big story this week, getting next to instant phones on the new single. A real smokin' hit".... **WHTQ's Mike Lyons** calls it, "Probably the best song out of all the releases this month. Everybody must jam this thing. It's wonderful!".... Now that the album's in your hands, you know it's just one of several excellent tracks--with "One Love" the early fave. As **KSQY's Jeff Michaels** sez, "There's a lot of good material on this release, but this one is so dynamic that it was our obvious first choice."

Record Of The Week

Gregg Allman, "Can't Get Over You", Epic.... Everybody loves it! **WQFM's Dan Hansen** says, "His voice is in top shape, Dan Toler's guitar is just wailing and it's a great track".... **Jack Green, KLPX**, "The man's track record is stupendous and this song continues that trend".... **Curt Cartier, KEZE**, "Can't get over the hook. It reaches out and grabs you by the throat from the opening riff and doesn't let go".... **Marty Griffin, KFME**, "Definitely a number one song. Just love those wailing guitars".... **Richard Smith, WIXV**, "It goes to heavy after only one week, with a real surge of listener interest across the board".... **Karen A. Small, WGIR**, "The new record is perfect album radio material. It's strong music suited for the 80's with that good old Southern rock tradition".... **Anthony Alfonsi, WDVE**, "The next step in his path toward becoming a major force in the music industry once again".... **Stephen Page, KOME**, "A real change of pace in that it rocks hard, as opposed to some of the moody ballads he does".... As for the blastoff stats, Gregg's got nearly double the rest of the best with 137 adds--and the week's strongest debut at 14*.

NEW PLAY PRIORITIES

Patti Smith, "Up There Down There", Arista.... All factors considered, we don't see how anyone could ignore the single. And as per 154 adds to date and her 20* Hard Hundred position, hardly anyone has. That record's currently at heavy on 31, with ups this week from CFNY, CHEZ, KVRE, WMDK, WNCS and WRCN. And while the request rollcall is just 9 stations deep, the inclusion of WNEW, WBCN and KBCO is noteworthy--though we're not so sure it's the kind of offering that's going to generate calls regardless. If that's important to you, check out "Up There Down There". It is the hardest rocker on the album--and a comeback scenario this well publicized deserves at least that degree of depth consideration.

Gary Wright, "Who I Am", Cypress/A&M.... So Gary's from Jersey, eh? That's just one fascinating true fact to be gleaned from JB's nifty promo CD. It's also cool to have a digital edition of "Dream Weaver", a song that most stations still roll on a very regular basis. Hey, factor in spins for "Love Is Alive" and this guy's almost a current act. On that note, we wouldn't be surprised to see even highly classic oriented outlets deal out a little early play on the new tune--and with **KGRS** adding a week before the fact, there's extra fuel for the fire. As for the music, it's stylistically pure Gary Wright, with those trademark mid-tempo progressive sensibilities perfect for daypart consideration. Same as it ever was.

Rocky Hill, "HPD", Virgin.... It's got to be tough growing up in the shadow of a big brother like Dusty--and so it's not hard to understand why the first cut out of the corral sounded a lot like that little ole' band. And at least that got programmers' collective attention. But phase two of the project turns to the ultimate role model for any guitar based armadillo scratchin' Texas Bar band worth its Lone Star: Jimi Hendrix. Solid rhythm rock with just enough flanging on that guitar to make it sound like they found it in a vault.

Ziggy Marley, "Tumblin' Down", Virgin.... And the hotter it gets the better it feels, eh? Now that the Zigster has more than demonstrated his relevance in today's rock radio marketplace, let's get jammin' on the follow-up from the now gold album. True, the deuce is decidedly grittier than "Tomorrow People" but now that the recognition curve is up and rolling, why not? It's new this week on KBCO, KILQ, KLBK, KRXQ, WKLS, WRCN, WWRX, WWTR, WWWV and WXXP, with WMAD, KTCL, WVVV, KTYD, WHMD and WPLR already in.

Poison, "Fallen Angel", Enigma/Capitol.... Given this record's over the top retail readout, I'd think any station even remotely into rocking would be working to find a track. Here it is! New this week on WQFM, WPLR, KNCN, KLOL and KISS--while still a week away from the official liftoff. In terms of what you're looking for in that mix, this is undoubtedly the best tune on the record.

PROVEN PERFORMERS

Rhythm Corps, "Common Ground", Pasha.... **WIBA's Steve Hoover** calls 'em "An outstanding Motor City band whose time has finally come. It's perfect for every station".... "Common Ground" really could work full spectrum--from rock to AC to CHR. **KRIX's Sonny Cuellar** adds, "They've come out with a great tune and we're feeling really strong about the sound of this band right now".... The 12 station add week includes powerhitters KLOS, WLUP and KBPI, with increases reported at KRXQ, WBCN, WPLR, WRDU, WRKI, KMBY 5 more--all factoring into a 39-33* move. Also nice to see those Top 5 Phones starting--with KACV, KFMU, WRKI and WZEW the first ones in.

Britny Fox, "Long Way To Love", Columbia.... It's early in the game--but "Long Way" looks to be a definite crowd pleaser after only a few weeks out. From **WCCC's Joe Marino**, "Our listeners have been begging us to play more. Great phones and excellent callout show a great future for these folks".... Up the road, **WHJY's Chris Herrmann** reports, "Great big, fat positive phones for 'Long Way To Love', which moves to medium".... In addition to those play-ups, we're also seeing increases at KBOY, KMBY, WAPL and WZZO, with add action at KRXQ, WFBO, WLAV, WYNF, KPOI, WKLT, WKWQ, and WKQZ. Currently on 70 reporters, up 61-55*.

Queensryche, "Breaking The Silence", EMI/Manhattan.... With unit sales approaching the 150K mark and all kinds of credible stations now on board--it's time to recognize this band for what they've become. Just this week we find new air on KLOS, KLAQ, WCCC and WHCN--with killer calls like KGB, KAZY, KOME, KRXQ, WBAB, WHJY, WLLZ and WQFM all reporting ongoing play. Up 88-80* on the HH.

Joe Satriani, "Always With Me, Always With You", Relativity.... Not only is the early request trend excellent--with KDKB, KNCN, WHCN, WXLN and KOZZ all top fivers--but KOZZ's Steve Funk tells us it's been there for seven weeks now--further predicting it could be a #1 single. Alreet! Joe's got the longest Hard Hundred move this week, thanks to 13 adds (KLOS, WLVQ, WPLR, WHJY, KILO, KFMG), 4 increases (WKLS, KOME), and 44 current reports. Looks like this could be as big as "Satch".

IMPACT TRACKS

Cinderella, "Gypsy Road", Mercury.... In the "picking up where you left off" department, howzabout these opening week comments: Chris Herrmann, WHJY, "A great track that's much more representative of the band's sound. Light on the glam and hairspray and heavy on the rock and roll".... Greg Morrison, WRQK, "An instant add which tested great. The audience really liked the premiere we did and they were quite vocal about it".... Mark Williams, WWZU, "This is going to kill. It's deadly, raw, and rowdy".... Stephen Page, KOME, "Good phones instantly, and I think it should be Top 5 next week".... John Lassman, KQRS, "How about that Cinderella? Massive early low end response".... Alan White, KILO, "This ain't no fairy tale, kids. Take the 'Gypsy Road' to the place where your core rockers live".... Jeff Michaels, KSQY, "Pretty much what you'd expect from the band but boy does it work".... #2 Most added with 79 OTB adds, new at 43*. Already Top 5 calls at WYNF, WKLS, WDVE and KQRS.

Kenny Loggins, "Nobody's Fool", Columbia.... Given the odds for a box office smash for "Caddyshack II", KFMZ's Mike Richter knows the score: "We're going to pull a Mike Tyson on this Loggins and hammer it til it can't stand up".... Similar thoughts from KLPX's Jack "It's gonna be a smash so hammer it before everybody else does" Green. And the longer you wait, the less punching power you step in the ring with--just like last Monday night. New on 32 (KSHE, WCMF, WFBQ, WIOT, WLVQ, WNEW, WPLR, WRIF); new at 70*.

Iggy Pop, "Cold Metal", A&M.... Iggy's got the industry stirred up, no doubt. There's genuine excitement surrounding this project. WNEW's Lorraine Caruso says, "This reminds me of what fun pure rock is all about".... WCCC's Joe Marino adds, "Iggy slams his way from light to heavy due to listener response".... KRQU's Matt Roberts comments, "Good old Iggy is back to his fighting with the Sex Pistols days and "Cold Metal" is really ripping up the speakers this week".... And from KSJO's Patty Martin, "It's my favorite add of the last few weeks. Sounds like the 'Raw Power' days".... New: KRQR, WPLR, KJJO, KRZQ, WRDU, WRQK, KATP and 7 more--with WBCN, KROQ, KZOQ, WCCC, WOXY and WVVV in with second week increases. 65-56* on the Hundred.

Deep Purple, "Hush", Mercury.... How could you not play this easy rolling cover? As KQRS' John Lassman says, "They give the classic a nice modern touch".... From WCKW's Al Nassar, "We're getting great response after one week. It's so good to have a new version of this classic--and yet have it sound so fresh on the air".... KRXQ and WXRC also have it Top 5. #7 Most Added with 20, with 75 current reports and two increases moving the tune 53-47*. Heaviest play: KISS, KKZX, WCKW, WFYV, WHCN, WTPA.

Rod Stewart, "Dynamite", WB.... Still moving toward that peak, "Dynamite" pulls in new air on KYYS, KTXQ, WEGR, WKDF, WHTQ, KSJO, KLBK and 7 more. Quality play-ups abound as well, with KISS, KSHE, WXRC, WRQK and KMBY topping the list of 15. Currently Power at KISS, KQRS, WAOR, WKQZ and WRKI, with 44 more in heavy--including KRQR, KFMG, KOME, KRZQ, KSHE, WFBQ, WLAV, WMMR, WMAD, WNEW and WRXK. Up 25-19*.

Melissa Etheridge, "Bring Me Some Water", Island.... Every week brings in more and better call letters--and we continue to hear about active audience response wherever "Water" mixes with air. This week's adds include KAZY (locking up Denver), KISW (ditto Seattle), KEZE, KFMQ, WHMD, WKQQ and half a dozen more, with KATT, KICT, KLOL, KLBK, KMOD, KRZQ, KTCL, KYYS, KZAP, WBCN, WDVE, WLVQ, WMAD and WRXK among 64 stations already in. WSTZ's Guy Austin says, "We added Melissa just last week and it's already proving to be a dynamo".... From KVRE's Scott Murray, "She continues to expand, with 'Water' now pulling top 5 phones".... And from KICT's Phil Thompson, "Melissa has been building slowly, but she's starting to take hold with the audience".... Up 56-48* on the Hard Hundred.

Jimmy Page, "Wasting My Time", Geffen.... It only took two weeks to close this baby out; now we watch rotations. They're up and running this week, with 20 stations total, including KGB, KLOS, KQRS, KYYS, KRXQ, WBCN, WRFK and WRXK. And even though it drops back a notch 6-7, that's strictly a function of the giant Palmer and Dylan moves. This track's still very much on the upside. There's also plenty happening with "The Only One" featuring Robert Plant. That picks up 18 adds, four increases and a 43-32* gain. Decent phones, too--with WHCN, WAPL, WWCT and WXRC Top 5.

Robert Palmer, "Simply Irresistible", EMI/Manhattan.... He ties Benatar with 38 stations on the Increase Index--but a slightly stronger play break brings his single one of this issue's most explosive HH gains, 10-4*. Strong stuff! Beautiful request growth too--with 18 Top 5 reports moving it 12-7 in National phones. KSQY's Jeff Michaels predicts, "Nothing is going to keep this from being one of the biggest songs of the summer".... KOME's Stephen Page calls it "One of his hottest, with good phones right out of the box".... From WMMR's Paul Alpobell (who?), "The LP has a great mix of pop, R&B, blues, and metal--not to mention rock and roll. Being a fan going way back to the Vinegar Joe days, I have to say it ranks up there with his best work".... An easy #1 song.

Scorpions, "Believe In Love", Mercury.... WRUF's Brian Johnson feels "Scorpions will have a big one on their hands. These follow up ballads are great strategy in representing the diversity of these monster bands".... Hey, dragging their butts through every major metro in the country ain't such a shabby strategy either, bud. The ballad bags 18 more--taking the current count to 84. It's up on KFMG, KISS, KMBY, WHJY, WTPA, WGLF, WCKO and KQWB--for our fourth longest 50-39* move.

Midnight Oil, "The Dead Heart", Columbia.... Big increase week here--actually quite amazing considering the traffic. And from where we sit, performance in this department is at least as important as adds. There the Oils' follow up boasts 20 in all, including WBCN, WBLM, KOZZ, KWHL, KLOL, KLBK, KILO, KFMG, WKQQ and WIBA. Those adds continue to roll, too--with WSHE, WLUP, WMMR, KQRS, KMOD and CFOX topping the list of 18. Up 27-23*.

Steve Winwood, "Holding On", Virgin.... The label was looking to channel more play into "Holding On", and 29 adds did the trick. KMBY, KPOI, WIMZ and KRNA show increases, with KAZY, KBCO, KLBK, KOME, KQRS, KRQR, KSHE, WEBN, WIOT, WIYY, WMMR, WPYX, WQFM and WRXK among 25 already into heavy rotation. Mix it all up and "Holding On" has our second longest 41-25* move.... Meanwhile, "Roll With It" continues to hold down the #1 play slot with 67 powers, 102 heavies, four up and three down.... And "Don't You Know What The Night Can Do" digs in 57-52* with 9 adds, ups from KGB, WCMF and WLUP--and 55 current reports. Also note the album's move to #1 overall airplay--progress that's not hard to bench test once you've seen the above.

PETE BARDENS

David Drew, "Green-Eyed Lady", MCA....

Our first reaction was "Gimme a break!!"--but there's no denying that plenty of our reporters hear a hit cover song here. **KOME's Stephen Page** feels, "His version deserves at least a listen, if not an addition to your playlist".... **Chris Herrmann, WHJY**, adds, "Initial response has been great for this killer version".... **KILO's Alan White** says, "Look for David to turn some heads around with his kicking version".... And from **WQFM's Dan Hansen**, "He milks the intro a little too much, but once the guitar kicks in, it's hot".... New on 41; debut 69*.

Crowded House, "Better Be Home Soon", Capitol....

This could be one of the biggest upper demo/female getters of the summer--as noted by **KSQY's Jeff Michaels** and "The ballad is killing the females. They like it slow and easy and this one delivers in spades".... **WBLM's Robin Mathieu** adds, "I called it 'flawless' when I played it on the air. Those Beatles undertones make it kind of a perfect song".... 21 adds take the current count to 103, with **WBCN, WRCN, WCCC, KZOQ, KTYD, KSQY, KPOI** and 5 more moving it on up. Up 40-30*, thanks in part to heavy play at **WHJY, WMAD, WIOT, WPLR, WWCT, KTYD, CILQ** and a dozen more.

Paul Kelly, "Dumb Things", A&M.... Sooner or later the world will find out what **KVRE's Scott Murray** already knows: "This record is a subtle bugger, isn't it? Just sneaked its way right up on me. I left the cassette in my car and it will not come out!!".... As we've said--don't stick it in that deck 'cause it'll take over the damn thing. The #1 album at my house for a week now, no problem. Meanwhile, "Dumb Things" locks up 11 more stations and a 60-57* underline. **WWWV's Dave Cowan** calls it "The best 2 1/2 minutes on the radio right now. I'm hoping this will be one of the biggest summertime songs".... **KRQU's Matt Roberts** echoes, "I just love this song. Out here in the Wild West that sound sure can't hurt".... And **KOME's Stephen Page** rates, "A great song from a good band with incredible potential."

TAKE TWO

Smithereens, "House We Used To Live In", Enigma/Capitol....

These guys remain a staple of MD's and PD's from coast to coast. The modern Jersey jangle of these guys would make Mr. Rickenbacker proud. Increased play on **WRKI, WHMD, WGLF** and **WAPL** as well as Heavy support at reporting stations like **KAZY, WDHA, KGB, WNEW, KSJO** and **WBCN** help to validate one of America's most original sounds right now. That 31-24* hike up the Hundred is certainly helped along by guys like **Jack Green** at **KLPX**, "Impressed with the success of their first track and expect more of the same with 'House We Used To Live In'".... While over at **WKRR**, **John Amberg** opines, "It's a positive sign for rock and roll in general when a second cut gets such good response overall from radio. This band is here to stay." And with an album deep as Aunt Li's root cellar, you can bet the last hair of your chin beard on that one, John.

Honeymoon Suite, "Lookin' Out For Number One", WB....

Some new players this week with **KLAQ, KFMF, WXP** and **KATS** coming on. In fact, **KATS' Ron O'Brian** enthused, "From the first I liked 'Lookin'". This is one of those great Summer rock and roll movers and if you don't move when you listen to it, get those reflexes checked".... Heavy airplay gets reported this week from **WCKW, KRQU, KJOT, KDJK, CILQ** and **KQWB** while those Northern request lights are beaming for it non-stop at **KWHL**. Posting in at 60, this track is getting ready to kick it in bigtime.

Jerry Harrison, "Man With A Gun", Sire/WB....

The man who sounds more like the Heads than the Heads themselves, Jerry has refined the percussive soul of that particular sound and layered it with a vocal assurance that soars. Adds on **WRDU, KTYD, KROQ, KRZQ** and **WHEB** combines with steady play at **KVRE** and **WBLM** to poise Jerry for a run on the Hundred. The rules do not apply to people in love and it would seem they also take a healthy vacation when Jerry gets in the studio as well. The man makes his own rules up as he goes along and the final score remains impressive when viewed from any seat in the house, burning or not.

Brian Setzer, "Rebelene", EMI/Manhattan....

Brian has been the man with those Eddie Cochran backbeats running through his brain for years now. On "Rebelene" the man with a razor cut soul has surfaced with a song that should endear him to his legion of traditionalist fans. "This is the kind of Brian Setzer tune rock radio has been waiting for. This has the sound his fans expect," according to **KXBR's Bill Clay**. **KTYD, KFMH** and **WVVV** certainly agree and **KZOQ's Vern Argo** is sighted in pretty well, "Brian Setzer has hit the target with 'Rebelene'".... Look for a debut in the near future.

10,000 Maniacs, "What's The Matter Here?", Elektra....

Mark Williams at **WWZU** starts the week with, "They have sold plenty of product without the benefit of airplay so something big is definitely going on here. We don't get requests so much as compliments for playing it." Stop the cameras! Cut! Print it! That's the story with these darkhorse sweethearts and it's going to continue into the weeks to come with support from **WCCC, KTYD, WBCN, WEQX, KZOQ** and **WPLR** among 33 others. Check that 81-76* improvement and get ready for more. "We're completely into it. The album is still selling Top Ten in the market", according to **WBLM's Robin Mathieu** and that potent combination of grassroots retail support and aesthetic appreciation makes the Maniacs one band to watch carefully.

Balaam And The Angel, "I'll Show You Something Special", Virgin....

This track has been knocking on the door and it's your turn to let it in for some high quality speaker squashing. **Balaam And The Angel** have been blowing 'em back across the country and their live show is renown for a sense of power and drive that has been known to straighten hair at 100 paces. **KATT, KDKB, KISS** and **KRXQ** hear the light this week and join the likes of **KZAP, KAZY, KLOS, KGB, KOME** and **KYYS**. **Balaam** can uncork some mighty tough sounding licks and this track highlights the band at their best. No more holding back friends, if this one has been hanging around the periphery of your listening stack, get it out and dive in deep. Read that 63 and get ready to smell their smoke!

ALBUM PLAY PRIORITIES

Van Halen, "Finish What You Started", WB....

Don't worry about that one folks, these guys are going to strangle that chart without doubt. Heavy players like **KEZE, KTXQ, WEBN, WLUP** and **WMMR** help Eddie and the clan tighten their grip on that 47-41* move this week. The Monsters Tour continues to build across the board excitement with core listeners and this track is a great example of what has been raking in those sterling reviews from coast to coast. The Halenkreg rolls on like Mike Tyson through a Girl Scout Troop. Big phone action at **WAAF, KQRS** and **KQDS** plus a roster of 76 reporters and this song is angling for the top of the stack.

Robin Trower, "Love Won't Wait Forever", Atlantic....

This follow up has people turning their heads and getting excited in markets where "Tear It Up" did so much damage. The group of stations on this melody rich monster include **KVRE, WLAV, KZAM, KFMG** and **KSQY**. Projections are beginning to follow initial interest and at **KMBY Patti Clarke** tells us, "This one will be greatly welcomed on KMBY. It has a great, slow beat, it's melodic and meaningful." The man's return to major label status and a serious push on the part of the Atlantic hit squad will propel "Love Won't Wait Forever" right into the slipstream of his first blowout track.

BRITNY FOX

phones

Chris Herrmann, WHJY

" 'Long Way To Love' is already pulling top night time phones! I love it, the listeners love it and it's killer rock and roll with a name your audience will remember."

Joe Marino, WCCC

"After just four weeks, Britny fox has gotten Top 10 phones. The callout has been fantastic and listeners are calling the station begging to hear more."

"Long Way To Love"

Smokin'

INXS, "Kick", Atlantic.... Those Aussies hit the Century mark this week with additional play from reporters KMBY, WFBQ, WMMR, WNOR and KZRR. This cranked up piece of ground zero energy detonates at Heavy or better with WHJY, WEQX, KRQR, KISS, WRXK and KGB where Power play is the rule. Long thought one of the strongest rock tracks on the album, "Kick" has risen on a surge of interest that belies the album's long developing story at AOR. This week marks a 35-34* nudge for the boys and 101 reporters getting their behinds squarely dented by this track.

Georgia Satellites, "Don't Pass Me By", Elektra.... With "Open All Night" starting to peak and those concert raves starting to pile up for the second track, it seems the perfect time to get serious about that retread Ringo backbeat. "Open All Night" continues to rack up airplay points at 171 with power play at WZZO, KCAL, KQRS, WRXK and KSJO where **Patty Martin** tells us, "The Georgia Satellites go to Power with great response." But note the crosstown buzz at **KOME** with **Stephen Page** crowing, "Added 'Don't Pass Me By'. This concert standout should be the next single." How right you are Stephen and those who agree with you include CHEZ, WCKO, WBAB, WKFM and KRZQ. Most interesting is **WSTZ's Guy Austin** who comments, "It's interesting to note the number of guys in their late thirties who are absolutely into this new Georgia Satellites record. They just cannot get enough of it." With phones ringing round the clock at WKRR, WAPL, KQDS and KFMX the public is standing up and being counted in this election year, loud and clear. The platform you can set a keg on is the only platform worth voting for.

HARD ACTS TO FOLLOW

Camper Van Beethoven, "Eye Of Fatima", Virgin.... Are you ready to face the future? Do you want to get to the party on time? Are you still listening to those Lovin' Spoonful records like they mattered? If you answered two out of three of these questions correctly then you are ready to spend some time next to the exhilarating Camper Van Beethoven release, "Eye Of Fatima". "If you have an adventurous bone in your body give Camper Van Beethoven a spin", says **WKLS' Beth Kepple** and those adds on WPLR, KQWB, WRQK and WNGZ certainly lend credence to her enthusiasm. At **KZOQ Vern Argo** volunteers, "Camper Van Beethoven have done well here. The sales are definitely there so we feel strong getting behind this one." Anyone with ears that have aged past pubescence simply has to agree. These guys are going to be heard in living rooms from coast to coast, with or without your station. Check out that 86-75* Hard Hundred move and quake oh ye Philistines!

Aslan, "Loving Me Lately", Capitol.... This premium Irish import has been ripping up the Hard Hundred with the fourth longest move this week 100-95*. Support from early on believers like KATT, KGB, KJJO, KMOD, WCCC, WDHA and WLLZ got a little help this week from KACV and WLZR. **KRQU's Matt Roberts** notes, "Aslan is holding their own against some pretty tough competition".... That signature sound is making converts with every successive play. "Don't miss the boat on Aslan. One listen and you'll be hooked too!" says **Joe Marino** at WCCC and the number of leading edge reports from happening stations makes Aslan look like the best odds on the betting board right now.

John Norum, "Back On The Streets", Epic.... With a solid 67-61* move this week and solid support from KLAQ, KRQR, WYNF, KLOS, WEZX and WQFM the story on this nifty little guitar clutcher is starting to spread. "John Norum moves to Heavy. He is just catching on now and doing really well. We are getting some good phones too. A lot of Europe fans are just catching on to who he is." So sez **Downstairs Dan** at WQFM, and he should know. Crosstown rival WLZR is also reporting Top five phones as is KBPI. This track is the perfect appetizer for the next Europe project and, once exposed, it becomes obvious that this guy has the stilts to go it alone.

CHARTSTARS

Jethro Tull, "Part Of The Machine", Chrysalis.... This incredible band simply defies time and space, not to mention gravity. This track continues a high arcing performance with the help of 151 reporters including KISS, WMMR, KBOY, WNEW and WEBN. That 16-11* streak is backed up with request action on WDIZ, WHTF, WHJY and KFMU. Ian has even more up his sleeve, so don't get too comfortable yet.

Guns N' Roses, "Sweet Child O' Mine", Geffen.... If you can't keep a good band down how are possibly going to hold back one that's as good and nasty as this one? "Sweet Child O' Mine" stacks up the airplay like cordwood with 130 stations on and an 18-15* jump on the Hard Hundred this week. **John Lassman/KQRS**, "It's huge!", **Mike Lyons/WHTQ**, "No question about it!", **Phil Thompson/KICT**, "Nothing can stand in their way!" Who'd wanna try? Film at 11.

Michael Anderson, "Sound Alarm", A&M.... Those revengers are certainly great for terrorizing the cat J.B.! And that no nonsense rock and roll from Michael Anderson is just the thing for making those CHR geeks sound like a polyester juke-box. This is the kind of music that made the format great and it's the kind of music that can keep it that way. 142 stations have gotten the message including KAZY, WGLF, WHJY, KMOD, KTYD, WEBN and KATP where the rotational story is Heavy or better. At **WKWQ, Art Boerke** tells us, "Another song that is turning into a hot phone item is Michael Anderson's 'Sound Alarm'. Whatta song! Our listeners love his growly presence".... Michael should be growling and grinning with that 22-21 week. More is sure to follow.

The Bible, "Crystal Palace", Chrysalis.... The stations working this record are registering positive feedback to just how fresh this accomplished band sounds on the air. There isn't a single important trend in Popular Rock that hasn't been made use of, and most cases improved, on this record. Adds this week on KBCO, WEQX, KJET, WXXP and WHJY round out the total on to 38 while "Crystal Palace" continues to see steady duty on WRCN, WBAB, CHEZ, KVRE and WNEW among others. This flash of seasonal sunshine will brighten any playlist it touches and that Steve Earle production is custom built for speakers from here to Azusa. That 80-72* jump on the HH shows a developing act on a roll, for sure.

Hurricane, "I'm On To You", Enigma.... Let's face it friends, if you can't find a place in the Summer of 88 for this song and its chromium killer hook, then it might be time to think about investing in that farm implements outlet. 91 stations have made room for this neat little dashboard rattler including KICT, KGB, KQRS, KOME, KMOD and KTYD with emphasis play at KLOS, WRXK and KJJO. Down in Tejas **Sonny Cuellar** at **KRIX** told us, "It's good to get them on the air. It's a very catchy song and it is obviously withstanding the test of time against all those heavyweights right now. Let's face it, you can't fake this kind of reaction over time." That 38* position will get a little push from some stations on the starting line for next week.

Bob Dylan, "Silvio", Columbia.... Now when Bob Dylan's name comes up some may nod and say, "Aaaahh, a coaster." And when The Dead get mentioned it's often as "The Kings Of Coasting." But when the two get together a synergistic something happens that has ears twitching in delight on 172 stations coast to coast. Bob cracks the top five this week with a 7-5* performance that looks as healthy as any striver you'd care to name. This one is not to be ignored.

For the last six months we have been tracking the format leaders to compile our exclusive Winners Chart. The database for this chart draws exclusively from market dominant stations with a heritage of high performance. Now that the year is half over we thought it would be interesting to tap into all that information to make a list of the songs most played by AOR's premium players during that time. What follows are the 100 top songs of the year as selected by the best stations in the biz. Enjoy!

"Bring Me Some Water"

**NEW! KISW KAZY KFMQ WHMD WKQQ
WPHD KQWB KFMU KEZE WRUF CILQ**

**Now reaching across the country—
On over 70 Hard Reporting stations!**

Skid Roadie, KYYS

"This music has the three P's, passion, presence and personality. I met her in person and it holds up live. She was a doll, reminding me a lot of an American Tracy Ullman."

Alan White, KILO

"The record has done very well. She stopped by on her recent promo tour and played live on the air, something we rarely do with anybody. She's real honest and gutsy, with a kind of bluesy, soulful feel that reminds me a lot of Bonnie Raitt. We've got it in a good solid medium and I think it fits well within the scope of the station."

Guy Austin, WSTZ

"We just added Melissa Etheridge last week and she is already proving to be a dynamo. With the beatwave going on right now, we can all use a little water!"

Scott Murray, KVRE

"Melissa Etheridge continues to expand with 'Bring Me Some Water' which is now top 5 phones!"

UPPER MIDWEST MOJO

The Upper Midwest Communications Conclave, (great event -lousy name), is getting ready for another weekend in the Twin Cities. Featured will be a number of multi-format industry heavies dealing with the issues of product improvement, morning show talent, strategic marketing and more. Toss in a Bowling Party and a Riverboat Cruise and a little open collar Sunday Brunch and you have the makings of yet another high octane event. Look for Bwana and I to pick up those nasty 4-10 splits while dispensing wisdom to the unenlightened. See you there!

BURT GETS HIS STRIPES

Columbia National Singles Promotion Director **Burt Baumgartner** has been upped to VP/Pop Promotion at the label. Burt has been putting in those long range hours with telling effect for the roster at Big Red. In his new position he will be reporting to **Marc Benesch**.

GINSBERG GOES TO THE TOP

After joining Elektra in June of 1987 as Director of National Press and Media Relations, **Sherry Ring Ginsberg** has been promoted to VP of that department. A 15 year industry vet with labels like Columbia and Mercury/PolyGram where she worked since 1982. Senior VP of Marketing **Hale Milgrim** told NOISE, "Her efforts have been crucial to Elektra's continuing growth and to the success of its developing artists in particular."

Sherry Ring Ginsberg, VP Press Relations at Elektra.

GRAHAM AT THE RITZ

The Ritz, half rollerdrome from the set of Dune, half rock hall to the stars in New York City, witnessed a stunning set by **Graham Parker** and his new band last week. Graham's voice was pitched perfectly at the heart of some of his most enjoyable material and the effect was mesmerizing. Generous slabs of the new album, interspersed with some truly memorable versions of his classic tunes, slowly built the audience into a lather that culminated in some heartfelt hollering before it was all over. **Brinsley Schwartz** continually amazes with his clawhammer guitar style, getting more out of three frets than most flashy axemen can wring out of the entire neck of their instrument. Thanks to **McKeon**, (another sterling member of Club Jim), for running interference. Your tickets are in the mail. Oh yeah, there was some big deal televised fight afterwards but I went to the men's room and missed it.

MCA AND MOTOWN GET DOWN

The on again, off again purchase of **Motown Records** by **MCA** has finally been consummated with a \$61 million tab negotiated over many arduous weeks. The deal does not include certain prime properties, most notably the publishing arm, that had been the talk of previous takeover speculation. Once the reorganization is solidly in place, look for some roster shuffling between the two principal labels in an effort to reactivate the Motown profile to its former glory. Staff changes are inevitable as well, with details to follow in the coming weeks.

A CREATIVE VIRGIN

Melanie Nissen has been picked up from A&M for the post of Creative Services Director at Virgin. That's a little like being the Director of Fast Breaks for the Lakers. Melaine comes over with the complete and enthusiastic support of Virgin honcho **Jeff Ayeroff**, whose much printed quote includes phrases like, "It's about time that we had a competent person doing the art direction around here."

DITTO AT ELEKTRA

There weren't any spicy quotes to announce it but we did get news that **Marcia Edelstein** had been upped to the Director of Creative Services post at Elektra. Marcia has been with the label for the past five years and has done an excellent job in the Creative, Advertising and Merchandising departments.

Marcia Edelstein, Creative Services Director at Elektra

SILLERMAN STRIKES AGAIN

Robert F.X. Sillerman, the man who leaps tall corporations in a single bound, has put together yet another stupefying deal that could position him near the top of the radio world. Details were sketchy at presstime but it is evident that Sillerman has taken his Legacy and Metropolitan properties and restructured them in such a way that a number of major market stations will be affected. This recent move completes a major bucks broadcast drama that began last April when Sillerman acquired Metropolitan Broadcasting.

BRUCE EXPANDS DOWN UNDER

Larry Bruce Communications announces some new additions to their client roster. LBC has signed with Austereo Ltd. and as such will be working with some of the highest rated stations in the country. The consultancy will be working with properties in Perth, Melbourne and Adelaide and this signing is seen as a decided coup for Larry and the gang. "The challenge of providing valuable service to radio professionals outside the USA has been the key element in LBC's years of work in Australia", said the ever effusive Mr. Bruce.

More leading stations tell why they use **Music Awareness Promotions**

"Enclosed are the details for the Sting promotion that you organized for WCCC. The trip was a huge success as was the contest. Thank you!"

ISLAND A&R NEWS

Kim Buie has been appointed VP of A&R for Island on the Westcoast. An A&R pro, Buie joined Island two years ago after spending time with MCA in the Nashville office. She will be headquartered in Los Angeles where, as Island President Lou Maglia said, "She has already proven to be a major asset to Island on both the film and music sides of our companies."

Kim Buie, Island VP of A&R on the Westcoast.

CODY RETURNS TO THE WAVE

Frank Cody and his partner Owen Leach have been brought in to help along the the SMN Wave format with product development and service to clients. It was Cody who teamed with Leach with to inaugurate the much discussed Wave format in the first place at KTWV/Los Angeles and their return to the fold is seen as a major move on the part of SMN to keep things upright with the format. For instance, rumors are spreading like napalm that the new owner of KTWV is plotting a change of approach for the station once he gets his hands on it. The station's micro-market success hasn't been able to expand beyond the basement ratings wise but monthly revenues have been healthy with a new coalition of loyal clients. Is it another example of the Emperor's Clothes in action, or have these guys found a way to win without the Book in their corner? Only time will tell.

THE NORUM FORUM

Never shy about their faux pas, Epic Records decided to make the most out of an error in the print job they did for this John Norum poster. Anyone who can call Harvey Leeds at (212) 975-8661 and correctly identify the mistake will have their name put in a drawing for one of three prizes. First Place prize is a Fender Stratocaster like the one in the pictures. Second Place prize will be a machine that appears to print money and 10 domestic CD's of your choice on any label. Third Place prize is an electric charcoal starter and 5 domestic CD's of your choice on any label. You must contact Harvey by July 8th to be eligible. Good Luck!

GORMAN RESPONDS

John Gorman called NOISE the other day to contest the news of his dismissal at WBYS/Buffalo. "Simply put, I have not been involved with that station since the first of the year. Whatever they have done since that time has nothing to do with me." John is of course referring to the station's well publicized monetary problems and ratings trouble. The station was picked up for a song recently as the result of those money woes and a whole new chapter is about to be written up Buffalo way.

at 612-927-4487.

Pollack Media Group grand poobah **Jeff Pollack** received a Patriots Award by the Vietnam Veteran's Memorial Fund Association. PMG stations helped to raise the \$45,000 to help repair the damage done to the Vietnam Memorial Wall in Washington D.C. by vandals. The award was presented at a recent dinner held in Jeff's honor by the organization. Pictured are PMG's Sharon Fratello, Jeff and Marilyn Williams receiving the award from Jan Scruggs, founder of the Vietnam Veterans Memorial Fund.

ATCO TO GET SHULMAN?

Here we go again. With any number of industry honchos being mentioned in relation to the vacant ATCO Presidency, now we are titillated with rumblings that PolyGram A&R wiz **Derek Shulman** is on the menu. Despite the big, we mean huge, dollars that are attached to Derek with his PolyGram deal and those Kingdom Come, Bon Jovi and Cinderella bonuses, the buzz out of Manhattan is pretty constant that the man who once helped motivate progressive legends Gentle Giant would soon be hopping over to the ATCO offices. The move would definitely be loaded with prestige for the label and if ATCO is really serious about wanting to rebuild their roster, who better to get the job done?

These rockers were all racing in a very good cause at the 2nd Dodge International Star Challenge celebrity go-round. The race is all part of a national "Don't Drink and Drive" public service campaign designed to show fans how their rock heroes have cleaned up. When gonzo axeman **Ted Nugent** took the checkered flag he then proceeded to smash up his car by slamming into a wall at high speed. What a metaphor! I wouldn't touch that one with a ten foot thesaurus. At any rate here are the winners: **Bobby Blotzer** of RATT, **Ted, Fee Waybill** and **Alto Reed** of Bob Seger's Silver Bullet Band.

MCA MARRIES ELEKTRA

Not really, just metaphorically when MCA's **Bubba Osborne** and Elektra's **Michele Meisner** got hitched in fine style. Michele and Bubba will now settle down to raise more young little promo types to make the world safe for **Elton John** and **Tracy Chapman**.

POE BOYS DO IT AGAIN

Billed as one of the industries biggest parties, I mean events, no let's make it a happening. Ummmm. I know, how about an excuse for some expense account mojo. Whatever. The point is that the guys and gals got together in Washington D.C. to talk about Programming, Air Personalities and Promotion. The top of mind subject this year was the issue of playlist integrity and the need to stop paper reports to trades. A little golf was also played for the benefit of **T.J. Martell** and a whole lot of porcelain polkas went down in the wee hours after the hospitality suites slowed down.

THE RADIO RUMBLE

KOFY/San Francisco PD Thom O'Hair is no longer with the station after a brief and turbulent run with station owner Jim Gabbert. A member of Gabbert's management team will takeover in the interim but the ultimate ability to choose a PD may be difficult given that the vociferous "Coalition To Save The City" has somehow gotten the power of veto over any potential replacement. Talk about a tough interview, whew! The problem seems to be that Thom and Jim simply could not get their heads together on what was the proper direction for the station to take. There are those in the market that are saying, "Told you so", given the unpredictable nature of Gabbert and his management technique.

Global Satellite's Power Cuts Challenge recently awarded a trip for two to see **Robert Plant** in concert. The winners were a pair of sisters from Sacramento who are seen framing the **Curly One** with Atlantic's **Rick Sudakoff** and **Perry Cooper** acting as bookends.

WIOT/Toledo has made **Mark Benson** their interim PD with **Keith Masters** now Milwaukee bound. Mark does double duty as part of the Toledo rocker's morning team and is now going to join the ranks of radio's most overworked group: PD's who do morning shows. That has to be one of the toughest gigs in the history of such things.

WMFX/Columbia has made **Benji Norton** their new PD as **Dick Bascom** steps into a suit and moves to the Sales department. Benji is also doing mornings at the station which puts him in that hard driving "Morning Guy-PD" club. Here's to Benji and his sleepcycle.

KDJK/Modesto has made **Randy Marano MD**, quelling rumors that **Beaver Brown** would be taking up the music chores at the station when he returns. Beaver will be concentrating on his morning show and working on his Pacific Rim moves.

WRIF/Detroit will take part in the International Freedom Festival with a night of free rock and roll featuring **Leon Russell** and **Edgar Winter**. The station will be featuring a live remote for the evening's festivities.

WKLS/Atlanta named **Caesar Speaks** as the winners of their 96 Rock Off. The band was chosen from a virtual avalanche of talented local bands and raised to the status of "Best New Band In Georgia". The judges included the Hard Report's **Mike Cooper** who showed up in his designer **Tiffany** jacket, looking every inch the clothes horse we all know him to be.

WFNX/Boston spent some quality dialogue time with Graham Parker recently when his tour breezed through Boston.

KFOG/San Francisco is out there looking for an afternoon all star who can pull MD chores as well. The vacuum is left by Sky Daniels' departure for Seattle, land of green forests and KISW. That rare combination of talents may not just amble up and smack Logan on the butt with a banjo, still you can count on Dave doing his best to fill a critical gap. Especially with the market closing in on him, and AOR in general, at a fearsome rate.

WMMR/Philadelphia came out with another party for nightshift listeners due to overwhelming response to their first such affair. The party runs from 8:00 to 12:00 noon with free breakfast and entertainment for about 1,500 midnight types. This promotion has done much to reactivate an otherwise passive daypart.

WMMR hostess **Lyn Kratz** at the afterhours party getting listener ID's for later use on the station.

KZLR/Little Rock continues their morning show mayhem with more moves than can be easily tracked without the help of four or five observatories. After being dismissed by the station, morning talents **Bob Brown** and **Jeff Curtis** requested another meeting with management where they requested a second shot, or is it a third, shot. Station Ops Manager **Dave Gariano** told us that the guys accepted that certain guidelines and content control had to be exercised or this would be their last shot. "The people have responded in a tremendous fashion, they virtually swamped the switchboards of the newspaper that had been gunning for us. When they got back on the air the phone calls were overwhelmingly positive." Dave went to tell us that his team, while strong on show prep and truly funny bits, would get themselves in trouble with some unthought out adlibs that boomeranged. "It was mostly an attitude adjustment for them. They realize now that they have to adjust to the market rather than the other way around." In the meantime, Dave has gotten the local newspapers in a lather both damning and defending his station and the press has been better than anything money could buy.

WHTG/Asbury Park has shuffled with Mike Marrone leaving for the green pastures of Hard Acres. PD **Rich Robinson** will be handling music from now on and **Chopper** will help out as AMD. Rich will take calls Monday, Wednesday and Thursday from 3:00 - 6:00pm.

KWLN/Memphis continues to make moves in preparation for what looks like an all but certain shift in format, most probably to CHR. Latest in the news is word that **Howie Castle** will be working at the station in a Production capacity and that **Robert Harder** has been moved from MD to Programming Assistant. Look for an announcement in the coming weeks.

KKAZ/Cheyenne made some changes at PD this week. **Jack Alexander** has departed for the wilds of Los Angeles and MD **Scott Bird** steps up to fill his shoes. In other news, rival PD **Tony Montoya** leaves **KRQU/Laramie** and crosses town to do MD work at the newly fired up AOR.

KOME/San Jose is looking for a fulltime airtalent in their hunt for a replacement to take **Lynn Wells'** job. The station is getting around on the ball and their rivalry with **KSJO** is erupting into full-scale war like we haven't seen in the market for awhile. Interested parties should get their T&R's to **Ron Nenni** ASAP.

WRAS/Atlanta has named **Kim Saade** as their new MD. She will replace **Valerie Pittman** in the musical hotseat as of July 1st. Give the lady a call and find out what's happening in Hot Lanta.

WWRX/Providence hired **Fred Decker** to do mornings recently. Fred had formerly worked out of **WZXL/Atlantic City** in a morning capacity before moving over to the Rhode Island rocker. This hiring moves **Dave Richards** to afternoons and **The Rag Man** to overnights. The station has also hired Boston vet **Greg Cutler** as their new APD.

WGLF/Tallahassee is looking for T&R's for future air positions. Get your best stuff to Will Douglass at 1310 Paul Russell Rd., Tallahassee, FL 32301. No calls please.

KRQU/Laramie has replaced Tony Montoya from within by elevating MD Matt Roberts to the PD slot. As reported, Tony left to work with KKAZ/Cheyenne. The station won't renew with John Edwards and intends to do all programming in-house from now on.

KFMU/Steamboat put their local record reps down for the fourth time in a softball game more noted for popped tops than popped flies. The KFMU Killers topped the Reps 11-8 and caused such psychic damage that they may have to switch to volleyball next year.

KEZE/Spokane MD and afternoon ace Curt Cartier shown here giving it his all during a food drive centering on the Monsters Of Rock Tour. The station hosted some Monster Billboard Surfing and raised about 3,000 pounds of food as a result. Here we see Curt hanging five and a half.

WWCT/Peoria MD Paul Nelson submitted some reasons why the Tyson-Spinks fight was such a short lived affair. Could it have been that Spinks trained with Punky Brewster, or that he thought by winning he would get a Don King spike job and so threw the fight. Naah. I think it was probably that Tyson got his glove stuck in the space between Spinks' teeth and had to keep hitting the side of his head to get it loose. Paul offered to stay in the ring with Tyson for at least 92 seconds if he could bring a bicycle with him.

WVVV/Blacksburg is on the lookout for a News Director who wants to grow with the station. Great locale and tons of peripheral benefits. Get your best T&R to Paula Coleman.

WEQX/Manchester shuffled within and has moved Roger Coryell from afternoons to mornings to fill that crucial AM gap. That leaves afternoons open so get that T&R in the mailslot ASAP and get your nose pointed toward Vermont.

WNEW/New York hosted Lou Gramm recently for some fun and games in studio. Pictured are E.S.P. Management's Rich Totoian and Steve Nider, Lou and WNEW's Ray White.

WRDU/Raleigh has done it again. The station is prominently displayed throughout the film "Bull Durham" and now they have become the official "Voice Of The Bulls". The team is fictional to be sure but, with the movie chewing them up at the box office, that promotional impact is certainly real enough. Nice job Michael!

WFXN/Boston will be among the numerous stations across the country spending time with the Railway Children on their current promotional tour. The band is hitting stations in preparation for a fullscale national tour to be announced.

WAQX/Syracuse wants your T&R now. They are looking for a night rocker and there is no time like the present for you to get that T&R in action.

KITS/San Francisco held the first ever countdown of the 500 Top Modern Songs over Memorial Day. Ballots were submitted from all over the Bay Area in search of the \$1,000 grand prize and to further the cause of modern music for a modern world. What song came in first as the best Modern music track known to man? "Blue Monday" by New Order. Whatta ya mean you've never heard it? Get in the 20th Century bud.

WAQX/Syracuse sponsored their own hot air balloon during a recent lighter than air festival. In this picture, morning news personality Melissa Parr went up for a leisurely float above the throng.

KATS/Yakima MD Ron O'Brian was flipped, flopped and barrel rolled to the limits of human endurance recently when the Red Baron Pizza planes hit town. Ron was shown the meaning of pretzel logic and vows never to leave the ground again without the benefit of ropes and a net.

KISW/Seattle got together with Lynyrd Skynyrd recently for a celebrity softball game. The KISW Fly's with Captain Steve Slaton encouraged the public to show up with cans of food to benefit Northwest Harvest. No word on who won or lost at presstime, but there's nothing like a day playing ball in the Northwest for a good time.

KSJO/San Jose reported great response to their recent Radiothon to benefit the homeless. After a nine hour push they succeeded in raising \$14,000 and a lot of awareness along the way.

WRFX/Charlotte has made weekend warrior and new music show host Fred McFarlin their new MD in the absence of Mary London. In other station news, word has it that the AOR is on the block with a \$15 Million asking price.

KWHL/Anchorage continues their hunt for valid morning talent. Must be able to withstand those long Arctic nights and be able to get through the daily Sperm Whale Report without laughing. Cyndee Maxwell wants to hear from you.

WIZN/Burlington spent some time with the principals of the Gregg Allman/John Kay and Steppenwolf tour. From left: WIZN Production Director Joel Bolton, PD Steve Cormier, John Kay, WIZN GM Arty LaVigne and "Late Kate" Roome, Gregg Allman and WIZN MD Tom Van Sant.

WSHE/Miami may be closer to getting that PD of their dreams. Rumors have been floating that Shadoe Stevens is getting ready to make the move from Houston into that tough turf down South. We'll watch this one very closely.

WZXL/Atlantic City names Brian Elder from KHTZ/Reno as their new morning guy. PD Steve McNee also hands over the PD responsibilities of their AM sister station to News Director Scott Wahl. The station also needs part time talent for some rocking down by the Shore. Put that T&R in his mailbox and take along some shorts and tanning oil.

WLVQ/Columbus got up close and personal with David Gilmour during the last leg of the Pink Floyd tour. The show marked the first time that a concert had ever been held at Ohio Stadium and the event caused ripples of excitement that overloaded Mr. Knight's Buzzometer. Pictured backstage are Buzz Knight, Gilmour, J.J. Jeffries and Wendy Steele.

BABY STUFF

Congratulations to Warner Brothers President **Lenny Waronker** on the birth of his daughter, **Lily**. Both little Lil and her momma, **Cathy**, are doing well.

Marty Griffin of KFMF/Chico and his wife also joined the legion of radio mom and pops recently. The little nipper is **Kevin Robert** and Marty tells us that he can already pick a great lead track for his old man.

Oooh scary stuff, pass that condom bud. Actually this charade is by way of congratulating WYNF/Tampa PD **Carey Curelop** and his wife **Susan** on the birth of their daughter **Alexi Patricia**. There is no truth to the vicious rumor that young Alexi was conceived during a rerun of *Dynasty*. Think about it.

BEST WISHES

The Hard Report was shocked to hear that broadcast veteran Denton Marr had been shot in the head in a family altercation recently. Denton is listed in stable but guarded condition at presstime. Friends can direct their calls, cards and flowers to the Louisville Humana Hospital. We all wish Denton a speedy recovery.

POSTSCRIPT

All of us at the Hard Report want to extend our condolences to the family of Metal Editor Christine Black on the passing of her mother. Christine has long been a creative lodestone for the Report and her work and spirit have been critical to getting this magazine out on a weekly basis. Her absence has been keenly felt. To Christine and her family, our deepest sympathy during this grievous time.

PART ONE OF THE SAN JOSE SHOWDOWN

THE KOME STORY

The battle of the South Bay rockers has always been one of the great subplots in the story of AOR on the Westcoast. The see-saw fight between KOME and KSJO has been fierce in years past, with momentum shifting and staff swapping a regular feature. As the growth in population and dollar count continues to climb in that area, (the Silicone Valley is still reshaping the socio-economics of the region), the continuing turf tug-o-war between these stations takes on extra dimension and importance. In our first part of a spotlight on the San Jose radio wars we spent time with KOME PD Ron Nenni.

JT.... How do you see the market developing right now?

Ron.... It is certainly a more interesting and competitive market with AOR as well as CHR heating up. There's a new Urban station in the market and they are bound to have substantial 12+ impact. Over the past years San Francisco radio has effectively increased their shares in San Jose. AOR has shifted somewhat with KITS/Live 105 coming in with a sizable 18-34 share recently. They also really excelled in the 25-34 male cell which of course makes them a real factor to contend with. As for our longtime competitor KSJO, they have strengthened their position and showed up with one good book in the Winter. It's far from a trend yet, that would take a three book average, but we will have to see where it goes from there.

JT.... San Jose has a reputation as one of the hardest rocking markets on the Westcoast. Is that an accurate measurement of the town?

Ron.... That is definitely true. The Bay Area is very diverse in its taste but San Jose is more classic oriented and harder edged as a whole. San Francisco AOR's end up trying to appeal to Marin county types and as a result end up being a little more out there as a result. We are much more mainstream and our approach to rock in this market attests to that. For instance, bands like AC/DC routinely break out of San Jose first. We are seen as a testing market by a lot of record companies because of that. They expect San Jose to take the lead on a lot of records.

JT.... What are some of the changes that the station have gone through in the recent past?

Ron.... We are really working at maintaining our harder edge but at the same time we have matured as a station very carefully. Imaging and dayparting are the keys. We want to maximize the audience in any given daypart. as for promotions, they should be balanced and targetted to our lifestyle core.

JT.... Speaking of dayparting, how do you handle the new/classic question at night?

Ron.... We tend to open up the new music more at night. Our 25-34 base is strong in evening so we mix new to old at more of a 50-50 rate instead of the 60-40 used during the rest of the day. We also let a lot of harder edged material get exposed and familiar with the audience at that time.

JT.... How do you see the impact of KSJO's new morning man, Perry Stone, in the market?

Ron.... It really remains to be seen how effective he will be. He had a huge spike in 18-24's and that curiosity about him may or may not remain. We have received calls constantly from former KSJO listeners who have come over to us as a result of his antics, so we will see.

JT.... What adjustments has your morning team made?

Ron.... A guy like Perry lets you do more things and still be musically intensive because he talks so much. We can now expand to about 80% of his show and still play more music with no problem. Perry is on mike all the time, he may only play 6 songs per hour and his content is frequently very offensive. San Jose is a very conservative town and easily upset by that kind of thing. This isn't New York City after all.

JT.... Do you see any change in the way he does his show since he got to town?

Ron.... Certainly, we perceive him as mellowing quite a bit these days. His shock value isn't there every break like it was because of the response he has had. Let's face it, if the response had all been good he wouldn't have done anything different. He has had to mellow out.

JT.... With a developing cross come battle starting to hit both stations what have you seen as a big change in the way the competition does business.

Ron.... It is very noticable now how closely KSJO sounds like KOME, how they mirror us and copy our work and positioning. They are out to confuse the market but the audience sharing

hasn't really been all that dramatic. I remain abreast of what's going on at KSJO but we intend to be the best KOME we can be. That means we must deliver on our reputation of being an original radio station. We are recognized as the leader in this market, as being innovative and I think people perceive the mimicry of KOME by KSJO. They know where that stuff comes from.

JT.... How does your announce style differ from the competition?

Ron.... We're a bit more adult in our approach. The DJ's are given more freedom and a chance to develop their

personalities more. We have a staff of older guys, seasoned pros who know what they are about so I don't have to aircheck them everyday. They have the confidence level needed to win and they know the market. That relativity is crucial. These guys also love the hell out of what they are doing and they know how to present it positively to the public. We make an effort to remain hip to the 18-24 audience without having to sound jive.

JT.... What about your musical strategy?

Ron.... It is very important to maintain the mix of familiarity and spice in how you handle the old and the new. Balance is the key, keep them on their toes by being unpredictable but consistant in terms of quality.

JT.... What about the intangibles that make a good station great?

Joe Walsh and his Bass player tune up for The KOME Breakfast Club.

Getting married at the MTV Museum Of Unnatural History.

Ron... The presentation of this station requires more fine tuning and brainwork than any other aspect. Production is essential to that approach. We make use of some very tongue in cheek promos that need to be different and memorable. Everybody plays the same old stuff so set yourself apart with the things in the middle. In fact, our features have become a distinct part of the station and people love all those on-air musical features.

JT.... What is the stylistic problem AOR faces right now?

Ron.... People want distinctive personalities to listen to but it's kinda like a new band. To get that record contract you have to be a band that doesn't remind them of everybody else. Well, if a DJ sounds like the guy across the street why listen? At the same time you must be concise. Maybe in our search for that mix we occasionally try to shove an aggressive attitude that doesn't really work.

JT.... What about the value of promotion?

The KOME Classic Rock Cafe live and direct with Don West and Stephen Page.

Ron.... The people at this station absolutely love to be on the street. In the past two months it seems like we have spent more time outside than in the studio. We are constantly at the beach and boardwalk, backstage at concerts or broadcasting "Live At Noon" at a some restaurant. We really feel that you have to be on the street relating to the public face to face.

JT.... And what about the fight you're in with KSJO?

Ron.... The South Bay is the rock and roll capital of the entire Bay Area but it's a constant struggle to broaden our listenership. We have always had a good battle between us and KSJO and after this year we will see an even bigger distance between the two of us than ever before.

Patti Smith "Dream Of Life" (Arista) The musical declaration of eighties has been one of new rock and nothing but. Commercial rock is at its peak and the young progressive movement is fighting harder than ever. Then you realize that rock and roll is only just reaching the thirty year mark as an accepted art form, and moves in a cycle that continually renews itself. Whether it's the twenty five year span of Dylan or Patti Smith's eight year recording respite, you gotta believe that her new album rounds out the cycle perfectly. There has been much speculation as to why Smith left the spotlight when her success reached an all time high, but one thing is true: By leaving when she did is just as natural as the reason to make a come back. And the evidence is found on "Dream Of Life", a record that is a shining example of how not to burn out. Comparing "the old Smith" with "the new Smith" could be really tiring. But letting the songs envelope you in meaning will probably be one of your most valuable music experiences this year. Not only is Patti inspired, but she moves listeners to feel the same way with her powerful voice and lyrics that travel the spectrum of emotion in eight potent and poetic songs. The only way to do justice to this record is to play it for all who will hear. The music matches its status symbol every time, as her collaborator/husband Fred Smith makes each tune churn with dramatic guitar work. Patti's flair for writing and performing heartfelt anthems is steadfast as she and the songs become one and we stand captive. I pick 'em all, but as radio demands, hear the unshakable presence of "Up There Down There", "Looking For You (I Was)" and the tug on your conscience in "Where Duty Calls".

SHRIEKBACK

Tim Ziegler, KUSF

"Our listeners love it. Before I heard the record I read that they shed their dark sinister sound, but I was pleasantly surprised! This will be a big record for the summer. It's like when you think you lost \$10.00 and then you find it in your back pocket!"

Michael Bright, WFNX

"By now I think most of the alternative folks realize Shriekback is 'the next big thing'. 'Go Bang!' is poised to finish the job of crossing over what 'Big Night Music' started. One big problem. With so many great cuts, where to start?"

4* Hard Alternative!!

NEW RELEASES

Iggy Pop "Instinct" (A&M) Once his name was synonymous with all that is anti-establishment, the angst of youth and lack of control of one's own destiny. Iggy ventured far into a sector of the human psyche where few dared to tread. Then he came back. Iggy made it in one piece and took to writing and performing again with a new sense of vision and his newest album continues in that vein with some reminders of Iggy's daring, rocky past. Not only has his music matured, but his expression on "Instinct" has taken root with "Cold Metal", the advance single that sparked some of the old flames. The album was co-written with Steve Jones, who also handles lead guitar, with the added musicianship of Leigh Foxx on bass (Chris Stein and Patti Smith), Paul Garisto on drums (P Furs) and Seamus Geaghen on keyboards (from the Blah Blah Blah) tour. Stripped down to the bare bones, the musical instinct on this album spells E-N-E-R-G-Y for the summer. You won't miss the target with "High On You", "Strong Girl", "Lowdown" and the title track. Producer Bill Laswell has rediscovered a rock monster.

Pere Ubu "The Tenement Year" (Enigma)

Their first release together in six years, "The Tenement Year" will fill followers with anticipation and wonder. This puzzling troop builds sound upon a series of layered cacophony that seems misplaced at first and all at once ties each song together. A combination of experiment and motive, David Thomas and company are no match for the weak minded but will act like a potent vitamin for the more adventurous among us. At times sounding like a UFO Convention, the background sound efx scream and weave throughout an indirect series of melodies in "Something's Gotta Give" (a mutant cousin to "Psycho Killer") and the elephant-like horns in "George Had A Hat" divert your attention for a brief moment as those Surfer-Gibby gone wild vocals by David Thomas and the psycho surf beat kick in. This is exciting stuff and we're only through the first two songs, but you get the drift and are ready to sink into the rest of this forty minute extravaganza. "Talk To Me" bleeds with heavy rhythmic bass treatment and "Miss You" cuts into side two with screaming guitars and a warm accordion. Pere Ubu creates a wonderful mirage of music whose impact seems to go on forever. And after a brief series of side projects with The Wooden Birds and Home And Garden, the band is back to challenge us with music that's innovative and fun.

story on deck. The balance of events and a solid musical showing mean there's no turning back now. Why would you want to? "Waka", "The Devil Song" and "Turquoise Jewelry" are further proof that this band is just getting started.... WKLS's Beth Kepple challenges "If you have a whimsical, adventurous bone in your body give CVB a spin. They're trippy, they're fun and the cosmic transition in 'Eye Of Fatima' and the musical jam that follows is a rare pot pourri of musical styles"... WBER's Andrew Chinnici updates "This band has a very strong following that grows weekly. There are at least five songs we've chosen for rotation and the album will someday be a definite library item for us"... KUNV's Brett Green says "They have been big here for a long time. I remember when they played in the owner of the Underground's driveway! This album has opened up a whole new audience for the band."

Shriekback "Go Bang!" (Island)

The new album shot to 4* in the third week of release and there's no stopping it. Not only have alternative programmers welcomed a more upbeat musical focus from the band, but the consensus track is all of them! "Go Bang!" is the first formal single, but other gems like "Intoxication" (a definite pick hit), "Shark Walk" and "Big Fun" are immediate standouts already.... So far, 42 Hard Reporters are on the case with increased rotation at WDRE, KTCL, WHTG, KUNV, KUSF, WBER, WDET and WFIT.... If the music doesn't move you (and that's highly unlikely) the buzz surely will. Everybody's talking and there isn't enough room to include all of our incoming raves in this space. A big record this summer? You bet.

Beatnik Beatch (Atlantic) #1 Most Added

status this week says that you'd better wake up to this album sleeper. As mentioned last week, the song writing found here is so catchy you can't miss. Then there's diverse, melodic and downright passionate performance in "Beatnik Beatch", "Lonesome Town", "Sargent Lasard" and the memorable "Love On Your Side".... Early reports from KBCO, KTYD, WXXP, KACV, KJET, KRCK, WBNY, WNCS, WOXY, WRXL, WWWV, KTAO, WFIT, WHFS, WHTG, WKXL, WMDK and nine more see it enter the Top 50 at 32* this week, the highest debut.... WWVU's Patrick Ferrise says "I like the jazzy, smoother moments quite a bit."

Swans 12" "Love Will Tear Us Apart" (Caroline)

This is a bloomin' first - the babes of industrial strength sonic noise and nerve bending live performances enter the commercial alternative arena with one of the best remakes ever. Their version of the Joy Division classic "Love Will Tear Us Apart" has almost everyone speechless, especially the version sung by the group's female member Jarboe. If you are looking for them to break the sound barrier then dig up some catalog, for their sweeping change is one of welcome acceptance and willing exposure to progressive

radio aficionados and listeners alike.... KABL's Mark Miller was burned on cover tunes, but this one made him do a 180, "Jarboe's approach to the song never occurred to me. MUSIC NEWS!

The Hothouse Flowers are one Irish band you will never be able to compare to U2. Once you hear the new single "Don't Go" it will be more like comparing a mixture of Bruce Hornsby and Bruce Springsteen with a newfangled folk twist. After spending a few days with the import CD I am convinced that this group is destined for an impressive debut in America with their forthcoming "People" album on PolyGram Records. With more charm and bluesy tones to unravel, this group will keep you busy with curiosity and appreciation for their roots oriented interpretation.... **Gentlemen Without Weapons** is a new act on A&M Records that is sure to give you a sampling of sounds in a form not heard since early Art Of Noise days. This trio explores world concern in the form of a danceable, exotic, techno-base of instrumentation and thought provoking lyrics. They mold melody into as many forms as possible and provide the visual undertones by taking sounds directly from nature and traveling the world to get them. It is said that it took them 2000 hours of studio time to perfect the machine and results are well worth it. "Unconditional Love" bounces with a world beat and "Time (The Clock Song)" is an exhilarating show of talent and different sound shapes. It's a departure that could make you think you took an early vacation and that's not a bad idea.... **Max Able** brings you his latest work titled "Culture By Force", an album of songs twisting soul with synthesizers, bluesy guitars and abstract symphony. Max's music is moving and curious but most of all original. He channels his creativity into an array of concise tunes ranging from lonely ballads to those dealing with relationships and he's sure to stir more than a few loose chords. Modern blues has never seen this musical chemistry before and tracks like "Victoria Street" and "The Rain Could Last All Night" are as good a place to start as any. Sky Records has your copy so contact 11460 Alpharetta Highway, Suite B, Roswell, Georgia 30076.... An **Arto Lindsay** 12" single? It has been done and the new and first Ambitious Lovers track is declared on the "Love Overlap" single taken from their newly released Lp on Virgin Records. It's a perfect icebreaker to what the New York art rock scene has known for years, and Lindsay does not let up for a minute on this go-go hybrid dance gem. Shed that hep Golden Palominos impression that Arto shrieked about on their debut album eons ago and get funky now.... TVT Records is proud to announce the addition of **Shona Laing** to Erasure's American tour schedule this summer. Beginning this month and extending through August, this should continue the excellent run of exposure Shona has gained since the domestic release of her album "South". The video for "Soviet Snow" is in MTV Breakout rotation with the new video for "(Glad I'm) Not Kennedy" nearing its completion. The tour will begin in Boston on July 13th, landing in New York just prior to the Seminar on July 15th moving west to Los Angeles. To schedule interviews and receive information updates you can call Michelle Higgins at 212-334-9260 for the scoop. Don't miss this tour de force! Erasure will be supporting their new album "The Innocents" on Sire Records, a resident rave on these pages.... Tons of news from SST Records: Ex **Husker Grant Hart** is preparing to release a three song 12"/3" CD on the label, and a full length album in the fall. **The Volcano Suns** have just joined the roster. "Austin Outer Limits" is a syndicated radio program which will feature **FIREHOSE** and the **Meat Puppets** this month. The bands were recorded live at the Liberty Lunch Nightclub in Austin last April and the show is available for broadcast at your station. Call Keith Ayers at

512-454-2500 to join the 50 station group so far. And continuing the longest legged tour ever, the Meat Puppets are in the midst of the third (?) leg of their "Huevos" tour with gigs in Philadelphia 7/6, D.C. 7/12-13 extending down through Athens and to Albuquerque.... **The Wild Flowers** album continues to sink in at alternative radio, and frankly if you can't hear it you just didn't listen. But the next Slash release will be from Canada's Sons Of Freedom. August 28th is the due date for "Dead Dog", the album.... **Fundamental Records Marketing** has changed address: 1466 University Drive South, Atlanta, GA 30306. Make sure you take note as not to miss the onslaught of new releases coming your way.... **Ryuichi Sakamoto** was the winner of this year's Oscar for Best Soundtrack for "The Last Emperor", with David Byrne and Cong Su. He performed at New York's Beacon Theater on June 24th, supporting his latest "Neo Geo" Lp on CBS Records and an extensive world tour is planned for later this year.... We were saddened to learn of the death of Red Hot Chili Pepper **Hillel Slovak** last week. No further details are known at this time as far as the band's future but updates will be available soon.

RECORD OF THE WEEK

King Diamond, "Them", Roadracer....
It's been an impressive first two weeks for the King, he's gotten excellent Most Added Metal numbers, (#2 last week and #1 this week), as well as a 25* debut on the Hard Hitters, this week's highest. Jeff Ivan from KFMX says, "...Speaking of breaking it open, that is exactly what King Diamond has done. "Them" is gonna terrify a whole lot of listeners into buying the album and with good reason. No matter what you think of King personally or his voice you can't help by get drawn into the story and the music....". How about this from WGIR's "Mikeraphone" Jones, "The King is back. King diamond has a frightening new Lp with some of the best music he's come up with since his early Mercyful Fate days. This is destined to become a horror-metal classic. Turn out the lights and turn up the volume....". WHJY's Dr. Metal was simply spellbound upon hearing the record for the first time. "The King Diamond Lp is by far his best work. All hail and bow to the King. Long live King Diamond!". We're expecting great things from this record, and judging from the initial response, it's gonna be a biggie....

The Top 40 Airplay Chart combines airplay point totals for 12" and albums listed by commercial metal and college reporters

Stryper, "In God We Trust", Enigma.... This is Enigma's #1 band and with good reason. Their last Lp was huge with three MTV Top Ten Most Requested videos and CHR all over the board, "Honestly". This record just picks up where "To Hell With The Devil" left off. In fact, upon listening to the record, two words pop immediately into my mind, "Double Platinum". There are two different singles circulating right now from the Lp. One is the CHR/AOR track, "Always There For You", the other is the Metal Radio 12" featuring the heaviest songs on this release, "The Reign", "Writings On The Wall" and the title track. Both have been enjoying instant phone success as well as inspiring the label to ship the record nearly platinum, (800,000 units shipped). Don't forget, though, that there are six other songs to be reckoned with. There are mid-tempo rockers like "Keep The Fire Burning", (kind of an ironic title for a religious band wouldn't you think?) and "The World Of You And I" as well your usual share of ballads. Surprisingly, one of the best tunes happens to be of the slow variety and it's called "Lonely". All in all, there's something for everyone on this one. This week, the band goes 32-26* on the Hard Hitters. Watch for more action in the future.

Overkill, "Under The Influence", Megaforce.... The Blitz is back, Bobby that is. This is Overkill's third release and it marks the vinyl debut of their new drummer "S.I.D." Falck. Sid has absolutely no trouble filling the

shoes of departed skinsman Rat Skates. The rest of the band has remained the same with Bobby "Blitz" Ellsworth on vocals, guitarist Bobby Gustafson and bassist D.D. Verni. The album was, of course, produced by Megaforce mainstay, Alex Perialas but with a new twist. Michael Wagener (Dokken, Metallica, White Lion) mixed the Lp in L.A. giving this the best and cleanest tone ever heard on an Overkill Lp. Tracks like "Drunken Wisdom", "Hello From The Gutter" and "Never Say Never" have all of the killer qualities usually possessed by Overkill but they've added some maturity to their writing style. Also check out "Mad Gone World" and the continuing series, "Overkill III (Under The Influence)".

Cinderella, "Gypsy Road", Mercury....

Apart from little things like their #30* Hard Hitters debut and the obvious high quality of the production, songwriting and musicianship, I say let the people do the talkin' on this one..."Listen to this boys and girls. "Cinderella's 'Gypsy Road' is also the band's next step toward becoming a formidable force in the music world." Anthony Alfonsi, WDVE. "Cinderella has put out an album that is full of great stuff. They have dived into a more bluesy feel from time to time and the result is perfect for the format. The advance cassette really blew me away." Sonny Cuellar, KRIX. "The Cinderella is going to kill. It's deadly, raw and rowdy." Mark Williams, WWZU. "In the calendar year 1987, Cinderella won my heart with a tremendous opening set for Bon Jovi. In fact, Bon Jovi should have been embarrassed after Tom and friends were done. 'Gypsy Road' is a great track that's much more representative of the band's sound. Light on the glam and hairspray and heavy on the rock and roll." Chris Herrmann, WHJY. "...new Cinderella 12" 'Gypsy Road'. It goes in and seem destined for Top Ten status. More raunch and roll from Kiefer and Company and the excitement builds since they are coming to town with Priest in a couple of weeks..." Mike Jones, WGIR. "Cinderella ain't no fairy tale, kids. Take the 'Gypsy Road' to the place where your core rockers live." Alan White, KILO... and the list goes on.

Death Angel, "Frolic Through The Park", Enigma....

With one of the happiest album titles of the year, these guys are the most promising new group of thrashers to come up since Flotsam & Jetsam. Their style contains elements of everything from Anthrax to Kiss to Jazz. The 12". "Cold Gin" b/w "Bored", has been moving up the Hard Hitters (this week rolling in at 28*) and the Lp's release should push it up further still. This record is a real step up from their first, "The Ultra-Violence". What we have here is a promising, hungry young band with the talent and the drive to make it to the top of their field. More so than previously imagined. Stations reporting Death Angel this week include, KCMU, KFMX, KRSR, KSLC, KTEC, KUNV, KZEL, WGIR, WVV, WNHU, WPYX, WRFL, WWUH and Z-Rock. Check out the cuts, "Road Mutants", "Confused" and "Guilty Of Innocence". They shred.

METAL FILINGS

-On the morning of June 29, Denis D'Amour was diagnosed as having cancer of the pituitary gland. For those of you not familiar with that name, he is better known as Piggy from Voivod. Doctors ordered that immediate and life-saving surgery be performed and consequently Voivod's North American tour has been canceled. Denis should be alright by September and the tour will continue at that time. For further information please contact Alex De Felice at Noise Records, (212) 334-9268.

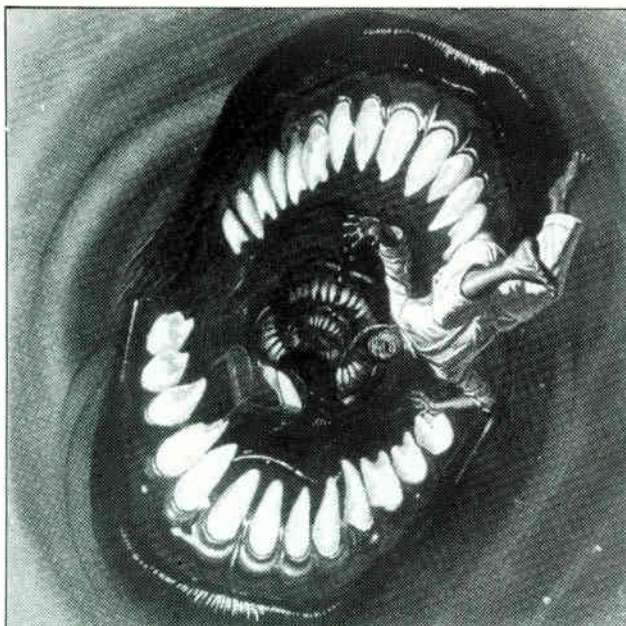

-A while ago it was reported that Racer X guitarist Paul Gilbert had left the band to pursue different musical horizons with Billy Sheehan. We now have word that his replacement is 19-year-old Chris Arvan. Racer X is still looking for a new vocalist to replace the departed Jeff Martin.

-The line-up for the August 20th Monsters Of Rock festival at Castle Donington has recently been completed. The six bands on the bill are Helloween, Guns N'Roses, Megadeth, David Lee Roth, Kiss and Iron Maiden.

-The "MTV Rock Star For A Week With Dweezil Zappa" promotion on the "Headbanger's Ball" will close on July 2nd with the Dweezman chooses the winner of a Kramer guitar and a trip to L.A. for four days of guitar lessons as well as well as the filming of Dweezil's new video. The real news is that MTV's average retail promotion averages anywhere from 200 to 1,000 entries. This one has drawn over 10,000! That makes this one of MTV's most successful promotions ever and it's all thanks to that guitar-type guy!

-Concrete Management informs us that Metal Church, as well as having a new singer in Mike Howe also have a new guitarist named John Marshall. Marshall is best known for having filled in for an injured James Hetfield of Metallica last year. Metal Church also won some local awards in a competition sponsored by the Northwest Area Music Association (NAMA). They took the popular vote in the Best Northwest Metal Band category beating out such acts as Queensryche, Sanctuary and The Accused. Concrete has also signed producer Terry Date for exclusive representation by the management firm. Terry has worked in the past with Fifth Angel, Sanctuary, Metal Church and most recently Liege Lord.

-Roadracer's Monte "Chihuahua" Conner has been kind enough to furnish us with this next bit of information. It seems that Whiplash is on the lookout for a new lead vocalist. All interested parties should get in touch with Monte at (212)-219-0077. He also says that if any of you DJ-types could make this announcement over the air, he would be greatly appreciative.

-Guitar legend **Leslie West** is gonna be hitting the road in support of his latest Passport project, "Theme". The tour will take him through the biggest East Coast clubs before he hooks-up with **Krokus** in the Midwest and possibly West Coast. The big man will be supported by the rhythm section of **Joe Franco** on drums and **Tim Bogart** handling the bass and vocals. Here are some dates: 7/6-Albany, NY; 7/7-Watertown, NY; 7/8-L'Amours in Brooklyn; 7/9-Commack, NY (with Krokus); 7/10-Baltimore, MD; 7/11-New Haven, CT; 7/12-Providence, RI; 7/13-Buffalo, NY; 7/14-Poughkeepsie, NY; 7/15-Boston, MA; 7/16-Morgan, NJ; 7/18-Washington, DC.

-The latest from the Relativity/Combat camp is that Impellitteri bassist **Chuck Wright** (who has reportedly joined Gregg Guiffria's new House Of Lords project) has been replaced with former White Lion/Black Sabbath member **Dave Spitz**. In other Combat news, the latest Lp from Florida's most macabre thrashers, **Death**, has been scheduled for a tentative August 12th release. Titled "**Leprosy**", the album features eight brand new tracks including "Pull The Plug" and "Choke On It".

POSITIVELY SHOKING

I.R.S. Metal artists **Shok Paris** are shown in this rather frightening photo of one insane raging party held for the completion of their second Lp, "**Concrete Killers**". Captured on film are (L-R) I.R.S.' **Karen Kelly**, **Stacy Banet**, **Julie Ritter**, "Headbangin'" **Barry Lyons** and **Keith Altomare**, guest star **Lizzy Borden** (I think he's thirsty for Kin Erb's beer), **Ken Erb** and **Vic Hix** (six letters from Shok Paris), producer **Kevin Beamish** and I.R.S.' **Lavonne Murlowski**. That head belongs to Shok's **Eric Marderwald**.

-**Relativity Records** and **WEA Canada** have inked a Canadian distribution deal. WEA will now be issuing titles on both the Relativity and Combat labels in Canada.

-A sold-out crowd at **New York's Limelight** club thought they were just going to your basic, everyday **Frehley's Comet** show. They were wrong. For the first time in eight years, **Ace**

was joined on stage by former **Kiss** bandmates **Gene Simmons** and **Paul Stanley**. With Simmons handling vocals and Stanley on additional guitar, the band did a brilliant rendition of the Kiss classic "**Deuce**". **Megaforce** records declined to comment on rumors of a Kiss reunion.

FATES AT THE BEAR

Just before their very first Salt Lake City show, those **Fates Warning** guys were trapped at **Dr. Rock's "Rock Clinic"** at **KBER 106.5**. Top: **KBER** early morning man **Steve Walker**, guitarist **Frank Aresti**, singer **Ray Alder**, **Dr. Rock**, the "**Rock Clinic**" nurse, and **KBER** evening guy **Chris Haggin**. Middle: guitarist **Jim Matheos**. Bottom: the rabid rhythm section of **Joe DiBiase** and **Steve Zimmerman**.

MORNING MAN STEVE SEAVER ATTEMPTS SUICIDE!

Steve Seaver of **KBER's** morning show was apparently upset after being kicked out of the **Fates Warning** party the night before. This is the last picture taken after he got really drunk (notice that can of his empties) and tried to strangle himself with a 35 foot **Anaconda**.

METAL MUSIC NEWS

Monsterous greeting to all you rivetheads out there in metal land. This is Sal "Earl of Earache" Treppiedi with this week's metal happenings. Our report will feature a review of the "Monsters of Rock" concert that took place last Sunday at Giants Stadium in New Jersey. Right now let's get to a few news items.

We begin with the continuing saga of **Doc McGhee's** smuggler's blues. Many of you may recall that McGhee received a suspended sentence of five years on the condition that he "obey all local, state and federal laws" as well as other provisions on a case tried in North Carolina. He was also fined \$15,000. Now, McGhee has been accused of being involved in an international drug ring along 170 others. It is alleged that in both instances, suspicion arose through investigations involved Panamanian strongman Manuel Noriega. In the most recent development, McGhee is accused of being involved with a ring that smuggled over one and a quarter million pounds of marijuana which was reportedly worth in excess of one and a half billion dollars. McGhee, who manages both **Motley Crue** and **Bon Jovi**, could be sentenced to a possible 150 years in jail and fined up to \$400,000 if convicted. It is unclear how this will effect McGhee's contractual obligations with the two acts. We'll have more as we receive more information.

Here's an interesting tidbit about a recent **Iron Maiden** adventure on the golf course. It appears that while Iron Maiden were in Denver, they decided to play a few holes of golf. Sometime after starting, tornadoes, three to be exact, hit the Denver area. This prompted guitarist **Dave Murray** to head for his cart and drive off. Murray was later heard to say that it was like the Grand Prix on the golf course. I wonder if golf cars can shift into four wheel overdrive?

On a recent visit to **Electric Lady Studios** here in New York, the Earl had the chance to talk to **Anthrax** on their forthcoming LP entitled "**State Of Euphoria**". The Earl had the privilege of hearing the first completely mixed cut. The song was entitled "**Be All End All**" and it smoked. Cousins **Frank Bello** and **Charlie Benante** had mentioned to me that the album would be more "in your face". True to their word, it was. Wait until you hear this piece of vinyl faithful readers. It will blow you away.

On Sunday, June 26th, the **Monsters of Rock** came to New Jersey's Giants Stadium in the Meadowlands complex. After having already canceled the Monday show, the Earl was skeptical as to what kind of crowd was going to show up to this one. As it turned out to be a near sellout. Boy the crowd was definitely ready. The bands were ready too but I don't know about the sound people.

PERFORMANCES: Without a doubt, **Metallica**, the **Scorpions** and **Van Halen** stole the show. **Kingdom Come** had a nice crowd gathered to watch their set but from what I gathered from spectators, most were there to cure their curiosity. Some did and others didn't. I don't believe the Zepelin tag will ever go away. With **Dokken**, although they really put their hearts into it, the crowd might as well have been brick walls as they got very little response. People around me were noticing how **Don Dokken** and **George Lynch** stayed away from each other throughout the show. Has their feud gotten so bad that it is affecting their stage show? I hope not. Metallica had the crowd in a FRENZY by the time they were announced. There was moshing, slam dancing and assorted tribal dances throughout the audience. There was aggression being let loose all over the place. From the opening notes of "Creeping Death", Metallica fans were going so wild that they can now hold off until the band returns later in the year. It's

too bad Lars was suffering from a bad throat which inhibited his breathing, but it didn't stop him. After all, the show must go on. The Scorpions had the benefit of having the best sound of the night. The reaction that they got may have been bigger than Van Halen's. They played with so much ferocity and fire that they could have burned a hole on the stage. Rudy closing guitar slinging was amazing to watch although I wish I could have heard the leads a bit more. Klaus Meine has never sounded better. They are truly the "world's most popular band". Van Halen was both entertaining and disappointing. I would love to have heard more early Van Halen. I would also like to have heard less solos. Michael Anthony's solo did nothing but prevent them from doing another song. Alex Van Halen's solo also had nothing interesting. What I did like was the way the band interacted with each other. They too showed incredible energy. Quite good.

CROWD: For a crowd that started out acting all most saintly, things turned ugly during the Scorpions set. First, garbage begin to fly from the upper level on the the lower level. Everything from soda and beer to toilet paper and cardboard began being thrown from the upper levels. Then, several females who had obviously had a bit too much began to show a bit more than "a little cleavage". Let's say they decided to go topless. Although I personally did not mind, one has to start wondering when silly actions like this will stop. What astounded me more was that security was nowhere to be found.

OVERALL: It was great show with many entertaining moments. Although there was much that one could be annoyed with, the performances helped you to look past that. Backstage, people were courteous. I must say that I expected more celebrities to be out. I did see Eric Carr and Paul Stanley of Kiss, Sid Falck and Bobby Gustafson of Overkill and John Gallagher of Raven among others. On a scale of 1 to 10, this concert gets a grade of 7-1/2.

That is going to do it for me this week. Next week, we will begin our four part interview with King Diamond. Focus your eyes on that one. Until then, this is Sal "Earl of Earache" Treppiedi with a big MUAYA!!!!

July 1, 1988

Music Now! is contributed by **Mike Cooper**. P.O. Box 4111 Atlanta, GA 30302. 404-627-2834.

Jim Masdea, drummer for **Boston**, is putting a solo band together. He says he's considering touring by boat. "You could navigate up and down the East Coast. You could hit ten cities by boat," Masdea says, "It would be a more cost-effective tour than by using airlines. The band would live on the boat and work as a cooperative. It would be so much cheaper than the \$50,000 a day you often spent on hotels, food and transportation on a regular tour." Masdea is planning to have an LP out this fall.

The Sugarcubes have finally obtained permission to tour the U.S. The group had to abandon their first planned American tour dates a few weeks ago when applications for work permits were turned down. The Sugarcubes have now been given visitors' visas and hope to play a series of dates in late summer, if further negotiations for work permits prove successful.

Aztec Camera's **Roddy Frame** had to call off a date on the band's British tour recently when he suffered a mysterious throat illness. Frame was told to rest his voice completely before two prestigious gigs at London's Royal Albert Hall.

Everything But The Girl are releasing a new track not included on their latest album "Idlewild." It's a cover version of the song "I Don't Want To Talk About It," which was covered by Rod Stewart in the 1970s.

Steve Winwood's new album, "Roll With It," his first in two years, includes one collaboration with Jim Capaldi, "Hearts On Fire," a song that Capaldi says reminds him of the Spencer Davis Group.

Steve Tyler, lead singer of **Aerosmith**, has married his longtime girlfriend, **Teresa Barrick**, in her hometown of Tulsa, Oklahoma. Band members **Joe Perry**, **Brad Whitford**, **Tom Hamilton** and **Joey Kramer** were among the 150 people who attended the wedding. **Aerosmith** are just beginning their first Japanese tour in ten years.

Justin Hayward says he thinks producer **Tony Visconti** helped the band on their new album "Sur La Mer." "There's a grain of truth to the criticism that some of our music has been over-produced and pretentious in the last ten years, but I think the new album is a lot clearer and sharper," Hayward says. "I always liked the stuff (Visconti) did with **Marc Bolan** and **Bowie**."

Tracy Chapman's debut album rose from number 25 to the number two spot on the British album chart after her two-song appearance at the Nelson Mandela birthday concert at London's Wembley Stadium. Albums by **Whitney Houston**, the **Eurythmics**, **UB40**, **George Michael**, **Simple Minds** and **Eric Clapton** also moved up the LP chart in the week following the event. It's estimated that 15,000 copies of five **Dire Straits** albums sold just after the show. "Brothers In Arms" had been in jeopardy of falling off the British top 100 album chart for the first time since its release over three weeks ago, but it's been rescued from that fate, rising to number 13 on the British chart. Four other albums by the band re-entered the chart following the concert.

The Sugarcubes, **Captain Sensible** and **Go West** are participating in a two-day **Live Earth Day** concert taking place at two sites in Scotland next month. Organizers of the show, intended to draw attention to the world's ecological problems, hope to have the event telecast around the world.

Vocalist **John Miles** and drummer **Jason Bonham** will tour the U.S. with **Jimmy Page** on his first-ever solo tour this summer. South American bass player **Durbin Laverdi**, who is also featured on Page's new album, "Outrider," will also be touring with Page. The former **Led Zeppelin** member says he'll be in-

cluding songs from **Zeppelin** and the **Firm** on the set list for the tour. Page says the new album was originally to be a double LP. "I recorded enough tracks to make it a double album but it was just too much of a grueling task," he says. There will be a second solo Page album, though he says he'll approach it "in a totally different way."

Anthrax, who are currently working on a new studio album, also plan to release a concert video called "Oedivnikufecin." (Try reading it backwards.)

Drummer **Pat Torpey** has joined the new band featuring **Eric Martin**, **Billy Sheehan** (formerly of the **David Lee Roth** band) and **Paul Gilbert**. Tropey has worked with **Ted Nugent**, among others. "This is a real band," Sheehan says. "We all need one another and we're all taking 25 percent -- other than what each of us writes, of course. I've always wanted to work with a real happening singer, someone who can do with his voice what I can on bass. Eric's like **Paul Rodgers** meets **Steve Marriot** and **Rod Stewart**, with an octave on top of that. Paul's a real pop freak. He can play practically any **Beatles** song you can think of, and he's a big **Cheap Trick** fan."

Compact discs may not be the perfect mode for sound recordings. There are new reports that the discs may deteriorate over a period of time. The deterioration stems from the way the aluminum reflective surface of the disc is glued to the disc. If the seal isn't air tight, or if ink from the printing on the surface eats through the protective lacquer coating, oxidation can occur. The metal corrosion can lead to a reduction in quality. Tests have shown that less than five percent of the world's CDs have shown any noticeable signs of degradation, and none of them in less than five years. "There's absolutely no need for the public to worry," says **Michael Lee** of **Britain's Nimbus Records**. "Just be aware that you get what you pay for." Production methods are said to have improved so that only about one percent of the compact discs being made worldwide will show any defects in less than ten years.

Billy Idol is now a father. His live-in girlfriend, **Perri Lister**, has given birth in Los Angeles to an 8-pound, 6-ounce boy named **Willem Wolf Broad**. **Broad** is **Idol's** real name.

R.E.M. are working on their next album in Memphis with producer **Scott Litt**, who worked on "Document." The band will finish the recording and mix the LP in Woodstock, New York.

Al Greenwood, former keyboardman for **Foreigner**, has formed a new group called **NYC**.

Steven Van Zandt is upset that the U.S. television broadcast of the Nelson Mandela birthday concert in London was heavily edited. In a letter to the **New York Times**, **Van Zandt** says the **Fox Television Network** and the **Westwood One** radio network apparently decided "that Americans were not interested in learning more about apartheid." **Van Zandt** says his comments were taken out of the broadcast. "I would never knowingly have participated in an event that was to be purged of its 'politics,'" he says.

Kenny Aronoff, drummer for **John Cougar Mellencamp**, has released a new instructional video called "Laying It Down." In it, he tells drummers to learn about drum machines but not to rely on them. "I'm now being called in to do sessions to replace drum machine tracks. I think people are starting to find the machines a little boring," he says. "I spent 12 hours replacing a drum track on a **Holly Knight** record and did the same for **Belinda Carlisle**, whose producer wanted to make the songs sound more human. I think people have stepped back and found that there's still nothing like the feel of a real drummer."

Eddie Holland Jr., has filed a \$170 million lawsuit against **Berry Gordy Jr.**, the owner of **Motown Records**. **Holland**, part of the **Holland-Dozier-Holland** songwriting team, says he is owed substantial royalties, and he asks that **Gordy** surrender master recordings and copyrights to his works.

Dweezil Zappa and his sister, **Moon**, have been approached about doing a television situation comedy. "It'll be a family show -- but it won't be like anything you usually see," he says. "We'll bring some reality to TV. I'm tired of the Keatons and the Cosbys. Everybody knows real families are just not like that."

Jimmy Buffett launched a tour to support his new album at his club in Key West, Florida. The show at the Margaritaville Cafe was the first date of a 30-city tour in support of his new album, "Hot Water." "This album goes all the way back," Buffett says. "We do an acoustic ballad with James Taylor and Timmy Schmidt that's an old Jesse Winchester song I've loved for 15 years. And I think building the (Shrimpboat Sound) studio (in Key West) and workin' at home had a big effect on what this record sounds like." The album also features Steve Winwood, Grover Washington Jr., Donald "Duck" Dunn, the Neville Brothers, Steve Cropper and Rita Coolidge. Buffett says he took more time to record this album so that he could come up with an LP he was comfortable with. "If you go back and look at (my albums) chronologically you can tell when I was madly in love or when I wasn't or when things were going well or they weren't." Buffett has also been spending time developing his cafe and store in Key West, as well as a mail order business and clothing line.

Guitarist **Tinsley Ellis** has signed with Alligator Records. The Tinsley Ellis Band will have its "Georgia Blue" album out in late January, produced by Ricky Keller.

Jimmy Cliff says he's considering a film script for a follow-up to "The Harder They Come." He says the movie may begin filming next year. "Everybody's been asking me about a follow-up -- and I think the time has come."

Face To Face have turned to a more country direction on their new album "One Big Day," admits singer Laurie Sargent. "We've been influenced by some Appalachian stuff by the Blue Sky Boys," she says. "I've really liked their harmonies. And we've been influenced by Little Feat, who are not Appalachian but still have a sound we like." Sargent says the group tried to keep this album "as simple as possible." A duet with Steve Tyler of Aerosmith had been recorded for the LP but was left off because it would have "stood out like a sore thumb," Sargent says.

The **John Lennon** documentary "Imagine" will be out in October, and there will be a double-album soundtrack. Music for the film will include alternate versions of Lennon songs, as well as a previously unreleased track called "Real Love."

The **Amnesty International** tour will reportedly begin September 10 at JFK Stadium in Philadelphia, with Sting and Peter Gabriel as the headliners. Paul Simon and U2 are said to be considering playing some of the tour's international dates. The tour will wrap up in Buenos Aires with a show that may be televised internationally. The tour is helping Amnesty mark the 40th anniversary of the Universal Declaration of Human Rights.

The world's first music conservatory devoted exclusively to jazz will be located in Durham, North Carolina. The **Thelonious Monk Institute of Jazz** will offer a music curriculum taught by jazz musicians and educators. Bill Cosby is the honorary chairman of the institute, which will be affiliated with Duke University.

"Riders On The Storm," the film about the **Doors**, has been delayed because of the current writers' strike.

John Hiatt has been recording a new album in Nashville with producer Glyn Johns.

Gary Myrick is now touring with a new band called Gary Myrick & The Torture Twins.

Joe Walsh has a song called "Big Country" on the soundtrack to "The Great Outdoors," which stars John Candy and Dan Aykroyd. "Dan's younger brother Peter wrote the song," Walsh says. "Dan called me up and said, 'Look, Peter knows two

chords and you know four, so polish it up so it will sound less like the Troggs and more like something we could use in a movie.'" Walsh has returned to touring as a three-piece band. "I'm playing with a guy I know only as Rick the bass player and a drummer from Memphis named Jack Cromwell. I just said the hell with it and went back to the old James Gang formula."

Soul Asylum singer and guitarist **Dave Pirner** says it "was a really interesting situation" to work with producers Lenny Kaye and Ed Stasium on the band's new "Hang Time" album. "We developed a good working relationship," Pirner says. "We found out a lot about each other -- them being older and more experienced, and us younger and more adventurous. But it was a good combination. It worked out well and we found out that we understood each other more than we thought we would." The band stayed in the studio with the two producers for two months, while previous albums has been recorded in a week or two. "It sounds a lot truer to life, and that's really refreshing after going into a studio and trying to due your way around things. Usually we'd just go ahead and record something and try to fix the sound in the mix. This time we had a lot of time to articulate and think through everything."

Cyndi Lauper has finally received a high school diploma, from the Richmond Hill High School in New York's Staten Island. She received an honorary diploma from the school where she dropped out years ago. "I was never good at formal education," she said in a speech to graduating students.

Sting will perform with 200 children from the St. Augustine School in Lancashire, England, during the presentation of the musical "Yanomamo," at the Kennedy Center in Washington July 12. The musical, which highlights the Amazon rain forests was commissioned by the World Wildlife Fund. Sting will be narrator and host of the event, which will benefit World Wildlife Fund efforts to conserve rain forests in Latin America, Africa, Asia and Madagascar. Sting wrote two songs about rain forests after a recent visit to the Amazon.

The **Gregg Allman Band** put on a benefit concert in West Palm Beach to raise money for a children's crisis unit at an area hospital.

James Taylor begins a U.S. tour July 15 in Holmdel, New Jersey. The tour will run through September.

Rick Roberts of Firefall and **Randy Meisner** of the Eagles and Poco have begun their first tour as the Roberts-Meisner Band. "We're not rushing this thing," Meisner says. "We're kind of nursing it along." Meisner says there's been some record label interest since the band formed about a year ago, "But we're not running around saying, 'Please sign us.' Right now we're concentrating on getting new material worked up." Roberts says that Firefall broke up in 1981 owing a lot of debts. "Unfortunately, Firefall didn't have much business acumen," Roberts says. "Since I was the main songwriter, everyone figured I made the most money, so everybody went after me."

Two of the original backers of **Woodstock** are planning another concert next year, which is the 20th anniversary of the event. There are also plans for a film, "The Village At The End Of The Universe," about the event. Neil Young and Bob Dylan are said to have expressed interest in writing new songs for the film, and appearing in cameo roles. There are also plans for a double album soundtrack of whatever music is used in the \$8 million movie.

Billy Preston makes a cameo appearance in the upcoming film "Wired."

The **Cult** have begun working on a new album with producer Bob Rock in Los Angeles.

Adele Bertei, who has worked with Culture Club and Thomas Dolby, has finally released her debut album, "Little Lies."

Boy George says he has enough material to make his next album a double LP.

July 1, 1988

Johnny Thunders and **Patti Palladin** have recorded an album of cover versions of songs from the 1950s and 1960s. It's called "Copycats."

Gary Newby of the Railway Children is offering a reward for the return of his Fender Telecaster guitar stolen from him at a recent British concert.

The **Eurythmics** are releasing a home video of "Savage," featuring interrelated images for each song on the LP. "We've done ten tracks with Sophie Miller who we first worked with on the 'Beethoven' video, and it's all to do with presenting ideas in an interesting and intelligent way," says Annie Lennox. The compilation also includes a longer version of the "Beethoven" clip. Lennox and Dave Stewart are also planning a feature-length film which will include music and appearances from the band. It's being released by George Harrison's Handmade Films.

Rod Stewart's "Out Of Order" album is his first album in almost two decades to not reach the top ten of the British album charts. It's been declining since it debuted at number 11 in the U.K. and "Lost In You" barely failed to crack the top twenty singles. The last Stewart album that didn't go top ten in Britain was 1970's "Gasoline Alley," which only made it up to number 62.

Deep Purple's upcoming double album, "Nobody's Perfect," will be a live one, with one exception. There's a new studio recording of "Hush," a song recorded by an earlier version of the band 20 years ago.

Ian Gillan of Deep Purple has released a solo single called "South Africa." It features Bernie Marsden, who wrote the song. "I'm committed first and foremost to Deep Purple, the upcoming album and tour, but this project has made me think, and it's time for me to say something," Gillan says. "I do believe very strongly that the only way forward, the only way to make progress in South Africa is by education. I know that attitudes there are deeply entrenched, but I don't believe that violence is a method by which you can end that."

Ronnie James Dio has reportedly fired his touring band, following their recent U.S. tour with Megadeth opening.

White Lion, who have been touring ever since their second album, "Pride," was released a year ago, will stay on the road until December. Then, they'll take a month off before working on a new album in January. "We've been pretty busy writing for it while we've been on tour," says Vito Bratta, guitarist for the band. "We didn't really want a break of two years between albums but the situation just developed that way. The one thing we won't do is try and write more songs like 'Wait.' "We're not a top 40 type of band. Mike (Tramp, vocalist) and I can't write like that. We're not the kind of people who sit down and deliberately write songs for the radio."

Jon Bon Jovi will reportedly be helping to produce and write material for the New York band Skid Row.

Ted Templeman is producing the debut album from Los Angeles band Bullet Boys.

Johnny Clegg & Savuka will be opening for Steve Winwood's upcoming North American tour. Clegg's previous band was Juluka ("Scatterlings Of Africa").

Bonnie Raitt and James Taylor will appear on **David Crosby's** upcoming album.

The **Godfathers** were detained by East German security forces in Berlin after their tour bus ran off the road in an accident. The bus was searched and band members questioned for nine hours, but the band was able to make a scheduled concert in Berlin on time.

UK MUSIC NEWS

Controversy continued this week over **The Nelson Mandela** concert, with Simple Minds lead singer Jim Kerr seeking legal advice after being called "left wing scum" by a British Conservative Member of Parliament. Nicholas Fairbairn MP accused both Kerr and The Eurythmics' Annie Lennox of "lining their own pockets" by performing at Mandela Day. His accusations appeared as part of a front-page headline article in the tabloid "Scottish Daily Record". He also criticized the BBC for televising the entire event live. "Mandela is a terrorist. We are publicly funding the BBC to support terrorism", he asserted. "And what Annie Lennox and Jim Kerr said at Wembley came out of no love for Nelson Mandela. It came from a desire to make money." A spokesman for Simple Minds' management said they could not make any comment as they were seeking legal advice. Annie Lennox also declined to comment, but a spokesman for RCA, her record company told "The New Musical Express": "To use the language of the gutter hardly befits his (Nicholas Fairburn's) position as an elected Member of Parliament. The Eurythmics were proud to play a small part towards creating awareness of a regime they believe to be abhorrent. I defy anyone to suggest that The Eurythmics took the stage with a single mercenary thought in their minds. They not only gave their services freely, but also performed out of a deep-rooted desire to see an end to the disgusting administration that has incarcerated Nelson Mandela - Apartheid." A spokesman for Artists Against Apartheid also defended Jim Kerr. "He has amazing credentials. The MP

clearly knows nothing about him. The work he has done for the city of Glasgow and for Amnesty International has been well documented. "Inescapably however, many artists have seen an increase in their record sales. Most dramatically, Tracy Chapman, whose performance was very low-key, has nevertheless become a star in Britain overnight, her album selling 12,000 copies on the morning following the concert and since rocketing to number 2 in the album charts from virtual obscurity here. Meanwhile, concert organizer Jerry Damners released a new version of The Special AKA hit "Free Nelson Mandela". The record features exiled South African musicians Ndonda Khwze on vocals and Jonas Gwanga on trombone. Damners has stressed that this is not a charity record and that the musicians will be receiving royalties.

Big Audio Dynamite release their new album, "Tighten Up Vol 88" this week, almost two years since their last offering "Number 10 Upping Street". Produced by Mick Jones, the album includes their current single "Just Play Music". B.A.D. will be embarking on their most ambitious British tour to date to promote the record here.

The Godfathers were detained by East German security forces in Berlin last week, after their tour bus was involved in an accident. The bus unexpectedly swerved off the road. The group overstayed their welcome by exceeding the five hour limit the bus was allowed to remain in East Germany, on the main through road to the West. All the band and crew were questioned by security men who also searched the bus very thoroughly. After being held for nine hours, the group was finally released and even managed to make it to their Berlin concert on time.

While the organizers of Mandela Day bask in self-congratulations, a more modest benefit concert in the English Midlands has scored a new low in attendance. **Amnesty International**

al, the human rights organization was hoping to attract the people who would normally go to the The Glastonbury Peace Festival, which has been canceled this year. So they arranged a festival featuring similar acts: The Stranglers, The Screaming Blue Messiahs, The Damned, Aztec Camera, Aswad and Joe Strummer to name a few. But attendance was only around 15,000 and Amnesty may have lost around \$200,000 of precious money on the event. This disappointment has not offset their plans for their world tour, featuring Sting and Peter Gabriel, culminating in a televised show in Buenos Aires to be shown worldwide. The tour, which plans to visit five continents, celebrates the 40th anniversary of the Universal Declaration of Human Rights.

The mold of British radio is about to be broken, according to **Richard Branson**, the celebrated owner of The Virgin Group, whose latest project is "Radio Radio" a new syndicated radio show that regional radio stations in the UK could jump in and out of as they wish. "Radio Radio" will run continuously from 7pm to 6am featuring national celebrities and already famous deejays lured from other radio stations, particularly the BBC's national pop and rock network, Radio One. The latter radio station, which has dominated the interests of pop consumers and the music industry is woefully addicted to a top 40 singles format. Although Radio One does feature some excellent progressive shows, they tend to be scattered across the week and/or at low rating listening times. "Radio Radio" promises an entirely album format from their launch on July 2nd serving a wide variety of different interests from indie music to new age. A particular coup has been scored by getting Jonathan Ross, the British equivalent of David Letterman to present one of the shows.

The Sugarcubes, who canceled dates in The United States after their application for work permits was turned down, have now been granted visitors' visas and have trekked off to the U.S. to do radio, TV and press interviews. The group is still negotiating for work permits however, in the hope of playing some American dates later this summer.

Meanwhile **One Little Indian** have released their album, "Life's Too Good" on Digital Audio Tape. Only three albums are now available on DAT in the UK, the other two contributions to state of the art technology being made by Durutti Column and New Order.

Bon Jovi has announced that they will be playing the UK in September as part of their European tour. They have also announced a new single and album lined up for a summer release. The band's British record company, Phonogram, have confirmed that there will be a new Bon Jovi single in August, with an album to follow in September when they will, if rumours here are to be believed, be playing at least three nights at Wembley Arena here in London.

Jimmy Page, who announced the release of his first solo album "Outrider" last week, will tour The United States later this year. His 36 date tour starts in Florida at the end of August and goes on until the beginning of November.

IN BRIEF:

Scalpers in London have turned the ticketing for **Michael Jackson's** July 16th Wembley shows into shambles, by producing forged tickets that are incredibly accurate and can only be identified as fakes under ultraviolet light...**Voice Of The Beehive**, currently in the British Top 10 singles with "Don't Call Me Baby" finally release their debut album. Called "Let It Bee", it includes their previous singles "I Say Nothing", "I Walk The Earth" and "Just A City"...Quote of the week from **Steve Winwood**: "I used to smoke pot all the time up until about 15 years ago. I don't remember much of those Traffic years. It was all a fog. It's like they say, it's only the people who weren't

there who can remember it."...The new album by **Matt Bianco**, "Indigo" has just been released by WEA...**Killing Joke's** new album is "Outside The Gate" on EG Records... Still going 21 years later, **The Moody Blues** with their latest offering "Sur La Mer" on Polydor...Heavy metal meets bossa nova according to **Robert Palmer**, whose new album is "Heavy Nova" on EMI...Another charity concert, this time **Live Earth Day**, a two day festival in Scotland July 23 and 24 hoping to draw attention to ecological issues. Taking part are Go West, The Sugarcubes, Michelle Shocked, Captain Sensible and Osibisa...**Everything But The Girl's** new single is the classic cover "I Don't Want To Talk About It", not to be found on the last album...**Bryan Ferry** releases a double A side single this week, "Limbo" (Latin Version)" and "Limbo (Brooklyn Mix)". The song was written and produced by Ferry with Pat Leonard...A re-release of the very wonderful "Bring Him Back Home" by **Hugh Masakela** comes out this week on WEA International, Hugh's tribute to guess who?...**"Riot"** on the Fierce label is a limited edition CD version of the **Jesus And Mary Chain's** North London Polytechnic concert in 1985. It was originally a bootleg...**"Where's The Cougar Matey"** is Scottish indie band **Tallulah Gosh's** glorious tribute to Madonna, on 53rd and 3rd Records...**Boy George** is busy at work on his second solo LP and I'm told he's feeling so creative it may be a double. YIKES!...**George Michael** celebrated the end of his world tour by throwing a party costing a mere \$200,000!! Funny thing was the last face to be seen there by the hungry press and celebs was George's himself. There was however a Boy George, plus brothers Gary and Martin Kemp from Spandau Ballet, Koo Stark, Mica Paris and Mel Appleby of Mel and Kim. Actors Robbie Coltrane and "Wish You Were Here" starlet Emily Lloyd were seen hobnobbing with Queen's Roger Taylor with former Sique Sique Sputnik Tony James in tow. Corrinne Drewery of Swing Out Sister and Pete Burns of Dead Or Alive were also seen trying to remind everyone who they are. Pete Burns has been seen going out every night occasionally even convincing a reluctant Morrissey to go with him. A most unlikely pair? Apparently not. Morrissey has been inexplicably a fan of Dead Or Alive from way back. Strange chap...

UK CHART SURVEY

A new entry in the new album chart at 32 "Down In The Groove" by **Bob Dylan**. New at 27 "I'm Real" the new album by the godfather himself **James Brown**. As mentioned, becoming an overnight sensation here, the self-titled album from Boston's **Tracy Chapman** leaps 23 places to number 2. Whether it can topple the MOR various artists compilation "Nite Flight", remains to be seen. Entering the new Top 40 Singles at 40 a terrific ballad from Australia's **INXS** "Never Tear Us Apart". New at 39 "Everlasting" by **Natalie Cole**. Climbing 5 to 27 "There's More To Love", **The Communards** pro-gay pop song, re-entering the charts at 24 the dramatic return of **Salt and Pepa's** "Push It", following their Mandela Day performance. New at 21 "Tougher Than The Rest" by **Bruce Springsteen** while climbing 7 to 18 "You Have Placed A Chill In My Heart" by **The Eurythmics**. Up 4 to 17 "Don't Blame It On That Girl" by **Matt Bianco**, likeable, uptempo jazz tinged pop. Leaping 21 places to 9, undoubtedly the single to benefit most from Mandela Day, "Breakfast In Bed" by **UB40 with Chrissie Hynde**. A gigantic jump too of 27 places for **Phil Collins** "In The Air Tonight 88" now at 8. Up 15 to 4 "The Twist (Yo Twist) by **The Fat Boys with Chubby Checker**. After only one week at the summit, **The Timelords** "Doctorin' The Tardis" is bumped to number two by the record that entered at 2 last week; "I Owe You Nothing" by **Bros**. Bros are the youngest group to have scored a number one hit in Britain since New Edition went to the top in 1983 with "Candy Girl". Their average age is 19. Youth was bountiful on both sides of the pond this week as 17 year old **Debbie Gibson** went to number one in the U.S., (We'll keep Bros) where Bros also entered at 96 in the Billboard Chart with "When Will I Be Famous".

Carter Alan, WBCN, Boston

Well, the 10th Annual Rock and Roll Rumble is history and WBCN is proud that this year's Boston Local Rock and Roll Extravaganza was an unqualified success. For nine nights, competition between two dozen of Boston's best new bands kept capacity audiences entertained at the Paradise and later in the Metro for the semi-finals and finals. On the last night, Tribe and Heretix faced off on stage with the latter group being crowned Rumble Champs. After congratulations and champagne flowed all over the stage and on the monitor cabinets, A&M artists Soul Asylum took charge as special Rumble guest band. The group's "Sometime To Return" is a favorite at the "Rock" with "Cartoon" a great choice as followup. Thank you to Karen Glauber, Chuck Bliziotis and Sue O'Connell from A&M for setting things up. Once again, thanks to all of you in the music industry for flying into Boston to help out as judges or spectators.... Graham Parker turned in a stellar set at the Paradise this week. It was an encore performance after last month's Metro show. WBCN broadcast the concert and are we glad we did! Graham ended the show with a soul stirring acoustic reading of "You Can't Be Too Strong". Thank you to RCA: Jim McKeon and Don DeLacy. Also, thanks to David Knight, Kathy Lehrfeld and the twins from Westwood One.

Pam Edwards, KGB-FM, San Diego

I'm rarely initially thrilled by any ballad, but I'm knocked out by the new Crowded House. "Better Be Home Soon" is an absolutely beautiful song that seems to improve after each listen. Lyrically they smoke and vocally they've never sounded better. I can't wait to get the album.... Heavy duty thanks to Kenny Puvogel for the ultra special gift, it was quite a surprise.... Also major thanks to Brett Michaels of Poison and David Lee Roth for our backstage interviews and to Atlantic Records and the White Lion casting crew for all the fun.

Jim Steel, WIOT, Toledo

What a past few weeks of music!! Of all the material that's in our hands, the Benatar, which many have questioned, is the one I feel strongest about going the distance. She is sultry, sassy, and she has provided the most direct and subtle lyrics since "Hell Is For Children".... This is also big Gregg Allman territory, so we expect "Can't Get Over You" to work well for us.... No denying Loggins on the Caddyshack Two theme. I mean, do you know anybody who hasn't seen Caddyshack? Do you know anybody who hasn't seen Caddyshack more than once? It's a sure bet to challenge "Roger Rabbit" for the biggest hit this summer.... PS: Sorry to see another artist has been cornered for the TV commercial market. "Tall Cool Coke Classic?", give me a break.... PSS: Thanks to Melissa Etheridge for the phone call. Next time I'll let you talk, too.... PSSS: To Keith Masters at WQFM: Buon Viaggio, mio Fratello! It's a hit, deal with it! From acting PD Mark Benson: "My best to Keith Masters and his move to Brewtown. He's been a good influence on me and leaves us in excellent shape. In the meantime, as I get moved in, please direct all your music calls to MD Jim Steel. I look forward to talking with you all soon."

Lorraine Caruso, WNEW, New York

Last week the radio station was chock full of musical guests. Performing live in the studio were Steve Forbert, Melissa Etheridge and Jethro Tull. Graham Parker did a great sold out broadcast for us at the Ritz. We thank all the record companies for their support.... Four out of five top requests this week were for women. In order of response were Tracy Chapman, Pat Benatar, Patti Smith, and (let's not forget she's a rocker) Cyndi Lauper. All these artists are performing well for us, including Lauper after only being heard a few times.... It seems like Gregg Allman is coming on stronger with every new song he puts out. "Can't Get Over You" has all the elements of a great rock hit, getting added right into Heavy rotation.... Songs by Crowded House, Joe Cocker and Rhythm Corps are starting to build nicely.... Iggy Pop's "Cold Metal" reminds me of what fun pure rock is all about.

Brian Illes, WKFM, Syracuse

I just hope that some intelligent broadcaster will hire Charlie Kendall, give him a signal and a budget and send him to Cleveland to put a real rock and roll radio station on the air there. Now that the baseball team is winning, the basketball team is winning and the football team is great again, all the dirty city needs is a real AOR to be a livable area.... Strongest add of the week: A toss up between Gregg Allman and David Drew.

Robin Mathieu, WBLM, Lewiston

Strongest add of the week: Crowded House, which I called "flawless" when I played it on the air. Those Beatles undertones make it kind of a perfect song, I think.... Also new: 10,000 Maniacs. We're completely into it. The album is still selling top 10 in the market, and with "Weather" going to recurrent, "What's The Matter Here" moved right in.... I think the new Gregg Allman is stronger than most of the material on the last album, but I don't know if it's as strong as "I'm No Angel", which I thought should have been a hit single.... Last night somebody told me they thought the new Cinderella cut was AC/DC, which leads me to believe it's going to go over really well with our rock and rollers. And we're really looking forward to the tour with Judas Priest coming up here.

Paul Nelson, WWCT, Peoria

Chicago's "Come In From the Night" is classic Chicago. While CHR plays the single, don't miss out on a band with a rich history of quality music.

Dave Ross, KFMU, Steamboat/Vail

Well, it was a hot day in the sun and the beer was flowing at the fourth annual KFMU vs. Record Reps softball game that was held this past weekend. KFMU's record is now 4-0, as we pulled it out again by the score of 11-8. Much thanks to everyone who came up, and I'm getting tired of saying this but better luck next year! Keep watching, pictures to follow soon.... Coming off an incredible album, Gregg Allman is doing it again, just like Michael Tyson. Both are strong, efficient and each have a great hook. "Can't Get Over You" is an automatic that fits perfectly here. I'm expecting even bigger things out of this one than his previous one.... I'm really into the new one from The Primitives. "Crash" has a fresh sound for the summer, a great driving beat and absolutely can't miss here. Check this one out and give it a few spins. I think you'll be pleasantly surprised.... That's it from the World's only wind powered radio station.

Dan Hansen, WQFM, Milwaukee

Strongest add of the week: I really like The Church's "Reptile"; a great song on the heels of a great first track.... Also new: David Drew's "Green-Eyed Lady". He sounds a bit too much like a cabaret singer in the beginning, but once he kicks in, it's hot.... Also went with Gregg Allman's scorching new single. His voice is in top shape, Dan Toler's guitar is just wailing and it's a great track, sounding a lot like the old Allman Brothers--custom made for AOR.... Also new: Trower's "Love Attack." I like it. He's a real staple in this market and you can't go wrong with anything from the album.... Gotta maintain that lower end with more throbbing crotch rock from Poison.... Speaking of that, I do like Cinderella's "Gypsy Road". I think they're a little more sophisticated this time out. A good track.... John Norum moves to heavy, just now starting to catch on. A lot of those Europe fans are just now catching on to who he is.

Stephen Page, KOME, San Jose

Who is David Drew and where did he come from? I know he's from New York City but is there more to it than that? His version of "Green-Eyed Lady" deserves at least a listen, if not an addition to your playlist. If this passes you by, don't be left out in the cold and say you weren't warned.... Michael Anderson moves up. We're getting strong response to this catchy tune, one of the best sounding summer songs so far this year.... Palmer moves heavy to power. One of his hottest, with good phones right out of the box.... Strongest add of the

July 1, 1988

week: I'm real partial to the Gregg Allman. This seems to be a change of pace in that it rocks hard, as opposed to some of the moody ballads he does.... Added the Satellites' "Don't Pass Me By". This concert standout should be the next single.... Good phones on Cinderella--instantly, as a matter of fact. Should be top 5 within a week.... And a great song from Paul Kelly. Here's a good band with incredible potential.

Patty Martin, KSJO, San Jose

Strongest add of the week: it's between Gregg Allman and Cinderella. Both are getting just incredible calls, and I think Gregg's is one of the best songs he's come out with in years.... Also new: the Elton John single, which we waited a couple of weeks on. We tested it and put it in after getting incredible response.... I think The Church's follow up is a great second track and may be an even stronger AOR item than the first one.... The Georgia Satellites go to power with great response.... Iggy Pop is my favorite add of the last few weeks. Sounds like the "Raw Power" days.... Palmer goes to power, also getting really good response.... And finally, last week's Radiothon results: 9 hours equals \$14,000 dollars for San Jose's homeless.

John Lassman, KQRS, Minneapolis

Thanks to everyone for all the calls regarding "Conclave '88". See you there.... Strongest add of the week: Gregg Allman by far.... How about that Cinderella? Massive early low end response.... Also new: "Cartoon" from Soul Asylum. These guys are god in Minneapolis as far as local bands go.... Also new: second tracks from the Smithereens (the third track for us) and Midnight Oil... And Deep Purple's "Hush" gives the classic a nice touch.... Moves: Guns N' Roses goes to power: tested like a son of a bitch. It's huge.

Michael Cross, KJJO, Minneapolis

I think Eddie Money needs to come back and sing "Gimme Some Water". It's hotter than hell and drier than dust here in the Twin Cities, but there are some incredible records making it on the air. We were first again breaking Britny Fox. It's flying on the phones. We did the album on 104's Hot Trax and played a cut an hour all night to great response. I think this band is gonna be big.... We hope to see all of you here in Minneapolis for The Upper Midwest Conclave July 7th thru the 10th. This is gonna be the best one yet, so come and be impressed with the Twin Cities, the Conclave and the hottest station in the market, Hot Rocking 104.

Jeff Michaels, KSQY, Rapid City

The new Cinderella is pretty much what you'd expect from the band, but boy does it work!.... "One Love" is a great song and our favorite off the Benatar album right now. There's a lot of good material on the release but this one is so dynamic that it was our obvious first choice.... Rebel Heels gets added this week; that sound really grabbed us right off. It has that Fixx sound, very much a champagne rocker.... The Crowded House ballad is killing the females, they love it slow and easy, and this one delivers in spades.... The audience is certainly enthralled by the Jimmy Page and it continues to dominate the phonelines.... Anybody who can't hear this Robert Palmer smash should get out of the business. Nothing is going to stop this from being one of the biggest songs of the summer.

Sonny Cuellar, KRIX, Brownsville

The new Gregg Allman record is strong! It sounds like The Grateful Dead are backing him up with that little R&B flavor to the rhythm track. The man's vocal is right on top of it as usual and this is definitely the lead track to get on.... Cinderella has put out an album that is full of great stuff. They dive into a more bluesy feel from time to time and the result is perfect for the format. That advance cassette really blew me away.... Hurricane may not be exactly Metal but they are another great hard rock band and it's good to get them on the air. It's a very catchy song and it is obviously withstanding the test of time against all these heavyweights out there right now. Let's face it, you can't fake this kind of reaction over time and you can count on getting a quick reaction to this record once you put

it on the air.... Rhythm Corps has put out a wonderful song with "Common Ground" and after the success of Love And Rockets here we think that this one should do well, it has a much fuller sound so we should have some luck with this one.

John Loscalzo, WRCN, Long Island

What's the deal with adding old songs by old bands as new songs? Thank you.

Mark Williams, WWZU, Williamsport

The Cinderella is going to kill. It's deadly, raw and rowdy.... The Robert Palmer moves into Power this week right off the bat. This is a great record and every once in a while we need some of that funky stuff ya know.... Tracy Chapman has gotten top five phones for the first week here. She may be AC city but it's really a happening daytime track for us and it helps us gain depth in a musical sense. The important thing with a track like this is to bracket it with songs that work with Tracy but retain a rock image. In fact, the two songs around a Tracy Chapman song are more important than the track itself.... Same thing with the 10,000 Maniacs. We will have to handle this song very carefully but they have sold plenty of product without the benefit of airplay so something big is definitely going on here. We don't get requests so much as we get compliments for playing it.

Vern Argo, KZOQ, Missoula

Brian Setzer has hit the target with "Rebelene". It's a much better track than the last one and as a followup it should do well to get the man's music out there.... Guns N' Roses are getting top five phones for four weeks in a row. These guys are on a roll that just won't stop.... Camper Van Beethoven have done well here. The buzz at the University is strong and the sales are definitely there so we feel strong getting behind this one.

Mike Richter, KFMZ, Columbia

We are going to pull a Mike Tyson on this Kenny Loggins and hammer it until it can't stand up.... Cheap Trick has come up with the song that never dies, "The Flame" continues to put big moves on our phones here.... Guns N' Roses is the surprise record of the week. Just add a little airtime and stir and pow! Instant phones like you wouldn't believe.... The CHR in town is banging the hell out of Elton's new one so we will have to start looking for other stuff off the album to play. There's no doubt that this record is working well in the market, now we just have to expand our horizons a little.

Paul Alpobell, WMMR, Philadelphia

I can't remember the last time I actually sat and listened to a new LP, especially in this day of the CD. It is such a bother to get up and turn the record over, but I did it many times for the Robert Palmer album "Heavy Nova". This LP has a great mix of pop, R&B, blues, metal and not to mention rock and roll. Being a fan going way back to the Vinegar Joe days, I have to say it ranks up there with his best work. Looking forward to experiencing the sweet soulful sounds of the man in August.

Guy Austin, WSTZ, Jackson

Steve Forbert gets the nod this week. I have always been a fan so it's great to have him back on the air. This one should get him noticed.... Elton John is definitely hitting our upper demos square on the button.... We just added the Melissa Etheridge last week and she is already proving to be a dynamo. With the heatwave going on right now, we can all use a little water.... The Dylan continues to make an impact in the market. Fans are very responsive to this track.... It's interesting to note the number of guys in their late thirties who are absolutely into this new Georgia Satellites record. They just cannot get enough of it.

Al Nassar, WCKW, New Orleans

The audience is really hot on just about anything that we want to play from the Steve Winwood album. They really enjoy that guy down here.... We are getting great response to the Deep

Purple. After only one week the reaction has been very strong. It's so good to have a new version of this classic and yet have it sound so fresh on the air.

Phil Thompson, KICT, Wichita

Bob Dylan continues to work in Wichita. He goes to Heavy this week based on strong phones and a strong street buzz as well.... Joan Jett is still doing surprisingly well, the momentum on this track continues to build.... The Guns N' Roses story is a real epic around here, nothing can stand in their way.... Melissa Etheridge has been building slow but she's starting to take hold with the audience.

Matt Roberts, KRQU, Laramie

Good old Iggy is back to his fightin' with the Sex Pistols days and "Cold Metal" is really ripping up the speakers this week.... I just love this Paul Kelly song. Out here in the wild west that sound sure can't hurt.... Midnight Oil still sounds good in the mix with "The Dead Heart" building well.... Aslan is hanging in there against some pretty tough competition. We will just watch that track to see how it develops.

Ted McEnroe, WBRU, Providence

Just got through another BRU weekend of Rock and Roll around these parts with Underworld and Mighty Lemon Drops and one big surprise, the Rave Ups. What a wonderful live band! Equally wonderful was Graham Parker in Boston. Thanks to Don Delacy of RCA for his hospitality and, yes folks, it's time for AOR to move on to a second Tracy Chapman cut. With "Fast Car" number one on our phones for nine weeks, "Talkin' Bout A Revolution" was a piece of cake. I personally like it better than "Fast Car" for AOR airplay.... Also hot is the Rhythm Corps, I always knew it was a good song but this week it exploded into top five phones with folks like Chapman and 10,000 Maniacs for company.

Jack Green, KLPX, Tucson

With all the traffic this week it really was difficult to figure out what to do. So we played it safe and went for a little more depth. The obvious choice this week was Gregg Allman's "Can't Get Over You". This man's track record is stupendous and this song continues that trend.... Another easy one was "The Only One" with Robert Plant and Jimmy Page, it may not be Zep Junior but it sure cooks.... If Kingdom Come can continue to produce good stuff like "What Love Can Be" they will surely be around for a long time to come.... Also, I'm very impressed with the success of the Smithereens and expect more of the same with "House We Used To Live In".... Our outside shot this week goes to Kenny Loggin's "Nobody's Fool". It's gonna be a smash, so play it before everybody else does.

Fred McFarlin, WRFX, Charlotte

Good phones for Deep Purple's "Hush" and also David Drew's treatment of "Green-Eyed Lady".... New to the FOX playlist is Michael Anderson with "Sound Alarm". This track has grown on me a lot.... Busy Fourth of July weekend 'round these parts with Bruce Springsteen and Monterey Pop specials plus a FOX sponsored mega-concert to benefit Vietnam vets with Marshall Tucker headlining.... Welcome aboard to new A&M promo person Traci McPherson (Call me babe, we'll do sushi). Traci did service above and beyond for Capitol and she definitely deserves this new position.... Finally, as the new MD I'm looking forward to hearing from all you record dudes and dudettes. I'll be doing the phone thing on Mondays from 10-12 noon and 2-4 pm and also Wednesdays from 10-12 noon. I will also continue doing my new alternative and local music program, FOX Exposures. Ciao for now.

Beth Kepple, WKLS, Atlanta

Caesar Speaks...remember that name. Caesar Speaks is the winner of the 96 Rock Off, a competition that's been raging for the past ten weeks at the Cotton Club to find the best band in Georgia. Round Two of the finals were last night and judging the eight finalists was harder than deciding what my three favorite songs are. And a what a motley crew of judges

besides moi...Jeff Calder of the Swimming Pool Q's and Jeff Walls of Guadalcanal Diary, Matt Walsh our Production Director, and the only person I know who owns a denim Tiffany jacket and has the balls to wear it in public, Mike Cooper of the Hard Report. All eight finalists had an overabundance of talent so, watch out world, expect a lot of great bands to come your way from Hot Lanta in the next few years.... My love affair with Joe Satriani escalates and "Always With You, Always With Me" goes into Heavy this week.... If you have a whimsical, adventurous bone in your body give Camper Van Beethoven a spin. They're trippy, they're fun and the cosmic transition between part one and part two of "Eye Of Fatima" and the instrumental jam that follows is a pot pourri of musical styles rarely heard.... Stealin Horses has stolen my heart and I can't wait to meet them when they ride into town Friday night to open for the Smithereens. Now we just have to make room to get them on the playlist next week.

Dave Gariano, KZLR, Little Rock

Those lazy, hazy, KZ days of Summer roll on. We're smack dab in the middle of two simultaneous Monsters of Rock extravaganzas. The first one is a major ticket blowout that happens everytime you hear the sound of a classic movie monster on the air. The second phase asks, "What is the most outrageous act you would perform in public to sit onstage with Van Halen?" A couple of initial entrants include one gentleman who has offered to ride his motorcycle through a wall of fire and down live goldfish at the other end of his ride. Another gentleman offered to set himself on fire and an older woman, (whom we will call Granny), was willing to stick her thumbs in a rude spot and walk on her elbows. Oh, that older generation. Other concert news around Lotta Rock include concerts in July with Rod Stewart and Diamond Dave. Things couldn't be hotter in Rockinsaw. A personal aside to our good buddies at Tragic 105. Isn't it about time for you guys to print another Birch update?

Chris Herrmann, WHJY, Providence

After the past three weeks I've decided the title of Music Director is somehow lacking...I propose Air Traffic Controller (inflexible system and quantifiable stress complete the corollary), aahh who's complaining.... Let's talk music. In the calendar year 1987, Cinderella won my heart with a tremendous opening set for Bon Jovi. In fact, Bon Jovi should have been embarrassed after Tom and friends were done. "Gypsy Road" is a great track that's much more representative of the band's sound. Light on the glam and the hairspray and Heavy on the rock and roll. It's already smoking the phones and we can't wait for the whole record.... Logical segue - Britny Fox, great big fat positive phones for "Long Way To Love" which goes to Medium.... "Can't Get Over You" from Gregg Allman is fantastic, a legitimate record that needs immediate Heavy airplay. Bang the sucker.... Initial response has been great for David Drew's (killer) version of "Green-Eyed Lady". Hey, it's summer, so let's boogie, to quote Rob Reiner.... Make sure you see Jethro Tull on this swing through. It's their greatest hits live and then some.... Hey, have a great long weekend, get outta the studio and onto the beach!

Kerry Gray, WZEW, Mobile

Not everyone knows this but not only is Mobile home of the original Mardi Gras, the Senior Bowl, Kenny Stabler and Hank Aaron, but it's also the home of Jimmy Buffett. Taking that into consideration it's virtually no surprise that Jimmy's "Homemade Music" is #2 phones this week after only five days on the air. We've gone with two more tracks from "Hot Water". One features Timothy B. Schmidt, James Taylor, Rita Coolidge and Steve Winwood. The other, a funky summertime Gulf Coast jam, features the Neville Brothers. Both "Smart Woman In A Short Skirt" and "Great Heart" debut in medium.... After only four days of airplay the Gregg Allman Band rolls in top five phones joining Shona Laing, Rhythm Corps, Peter Murphy and Tom Principato in the Most Requested category.... On the retail scene Tracy Chapman reigns for the sixth consecutive week dominating Ziggy Marley, Steve Winwood and Van Halen. Sudden retail improvement on Rod Stewart as "Dynamite" rolls into heavy as we gear up for next week's

July 1, 1988

concert. Can't wait for the show.... Thanks to Patti Martin of A&M and Louis Heidelmeier of Elektra for forcing me to abuse my diet at dinner. Thanks, let's do it again!

Catfish, WHMD, Hammond

The new Ziggy Marley track is "Tumblin' Down". The new 10,000 Maniacs cut is "What's The Matter Here". What have they got in common? Both LPs went gold on the strength of the singles. Apparently people want to hear them.... Some people claim Tracy Chapman researches poorly. To hell with research. Her LP went gold too.... And whoever said Elton John is no longer an album rock act needs to talk with Rhonda Rose of MCA ASAP. Call her in Houston at 713-974-5104.... And a big bad Hard good luck to Beaver Brown! Also, welcome to Geri and Mike.

Renee Blake, WKXL, Concord

Christine Lavin on Philo Records has a phenomenal LP called "Good Thing He Can't Read My Mind". Sounds like most dates I've had. Not seriously guys. Listen all the way through. It has some very tasty material. Feels like eating chocolate, you know that feeling that you are in love even if you're not.... Gerry Rafferty's "North And South" LP is another very special release with easily 5 or 6 singles just waiting to be discovered, especially the title track.... Check out All About Eve's "Every Angel" and The Chili Bros.' "Tougher Than Tough".... We're getting heavy phones for Shriekback, Scritti Politti and Bobby McFerrin.

Bill Clay KXBR, Springfield

The Del Lords came to Springfield and generated a lot of excitement. Great show!.... "Rebelene" is the kind of Brian Setzer tune rock radio has been waiting for. This one has the sound his fans expect.... U2 guitarist The Edge has often cited Patti Smith's "Horses" LP as one of his major influences right along with the work of David Byrne. She's been a major figure for many and her new music will build on that reputation and win her a new audience. "People Have The Power" sounds great on the radio.... Guns N' Roses "Sweet Child O' Mine" is still #1 phones. The song has unexpected depth and variety that keeps it fresh.... On the alternative show this week: Sugarcubes, Ranking Roger and the Mighty Lemon Drops.

Skid Roadie, KYYS, Kansas City

It has been several months since I have placed my comments in this publication. I understand circulation has skyrocketed because of it. I'll see everyone at the Midwest Conclave. In fact, I'll see two of everyone. But seriously folks, I taught my dog to roll over...I bought him a Suzuki Samurai.

Joe Marino, WCCC, Hartford

Quite often, record companies thank radio for help with their artists. This time radio should thank MCA for David Drew. This killer version of "Green-Eyed Lady" combined with the two originals they sent us on the cassette show that this guy is going to be a humongous force in rock radio for quite a while.... Our listeners have been begging us to play more Britny Fox. Great phones and excellent call out show a great future for these folks.... Iggy Pop slams his way from light to heavy due to listener response.... And please, don't miss the boat on Aslan. One listen and you'll be hooked too!

Kim Alexander, WHCN, Hartford

Kim's hot list: The Crowded House LP, Cinderella, Monsters Of Rock tour, Robert Palmer, Steve Forbert, Elton John's handshake, Steve Winwood's Michelob commercial, new Letterman shows and middays.

Art Boerke, WKWQ, Columbia

Jimmy Page's "Outrider" album is fantastic! Not only is "Wasting" pulling down top five phones, we get an honest to God Zeppelin reunion of sorts with "The Only One". I've always admired Robert's attitude about Zep getting back together in interviews. I mean what's the point right? I'm sure they don't need the money and if there was one thing about

Led Zeppelin that was constant, it was that their music was not. It was that they were always evolving. Each time they'd put out a tremendously successful album they would step sideways and change direction. If they had not suffered the loss of Bonzo, their sound would probably be far different from even their late period stuff. Certainly they wouldn't be cranking out "Whole Lotta Love Part 2" over and over again. They'd leave that to the Kingdom Come's of the world. But here we have "The Only One". Unmistakably Plant and Page, yet very different also. I think it's a monster and my phone calls agree. My favorite track on the record is the instrumental "Emerald Eyes".... Another song that is turning out to be a hot phone item is Michael Anderson's "Sound Alarm". Whatta song! Our listeners love his growly vocal presence.... A record that a lot of you are ignoring is Peter Murphy "All Night Long". I have no idea why. Is it because he fronted Bauhaus and they were considered weird? Well, Love & Rockets were in Bauhaus and they did all right for themselves. This record sounds incredible on the radio especially at night and in a car. Test this one if you don't believe me. Throw it on a few times during the darker hours and see if the phones don't light up. This is one of those songs that I'm kicking myself for not hearing earlier.... Well it looks like the coolest rock and roll club Columbia has ever had is going to be opening again. Rockefeller is tentatively scheduled to crank it up again August 1st. I wish them luck with the endeavor. Columbia really needs that place.

Ron O'Brian, KATS, Yakima

I survived...Ron "Flyin'" O'Brian they call me now. What a kick in the--uh--stomach. I am talking about the flight I got to take in one of the Red Baron Pizza biplanes last Thursday. Both myself and our afternoon pilot Dave Nelson came through just fine.... In the music department Guns N' Roses "Sweet Child O' Mine"...I sing this in the shower, sway to it in the car and scream to it in the control room. These boys know how to really grab ears.... A big howdy doody and hot damn on the new Gregg Allman Band tune "Can't Get Over You". The last Gregg Allman LP contained some real fine music and if this first track is any indication of what's to come on the new LP we're all in for a helluva rock and roll barn burner.... Honeymoon Suite "Love Changes Everything" is a great song, but from day one I liked "Lookin' Out For #1". This is one of those great summer rock and roll movers and if you don't move when you listen, get the reflexes checked.... Van Halen goes to heavy with "When It's Love". This will be the tune that the majority will remember long down the road.... Jimmy Barnes and REO both get top five phones this past week. Jimmy goes to heavy and I'm sure REO will follow.

Greg Morrison, WRQK, Canton

The Monsters Of Rock blew through town last week playing two blistering performances and leaving a stunned audience with ringing ears and a stadium awash with perspiration. Floor temperatures of 118 degrees on opening day didn't slow down the rock and roll. Special thanks need to go out to the Van Halen road crew and Warner Bros. Also thanks to Rob Steinberg of the Scorpions, Drew Murray and Jimmy Fay of Polygram and the folks at Elektra for making this a truly memorable occasion for a lot of people.

Curt Cartier, KEZE, Spokane

Can't get over Gregg Allman's hook. It reaches out and grabs you by the throat from the opening riff and doesn't let go. Three and a half minutes just ain't long enough.... Page's "Outrider" kills from top to bottom. It's like the lost "Houses Of The Holy" tapes. Jimmy and Bob Plant's "The Only One" dumped right into heavy. PD Gary Allen likes "Prison Blues", he says it takes him back to his past and I quote 'Hey, how did I know she was only fifteen?'.... I'm wild about the new Robben Ford, too. It's right in the pocket but different at the same time. It should do well this summer.... Britny Fox, Queensryche, Hurricane, Guns N' Roses, Kings Of The Sun, Cinderella--great young aggressive rock and roll that's giving the format new life. We all play the crossovers, but it's acts like these that set us apart from the sea of rancid dance cheese.

Kim Jeffries, KRNA, Cedar Rapids

The new Robert Palmer is "Simply Irresistible".

Karen A. Small, WGIR, Manchester

This past weekend Rock 101 was literally all over the place covering concerts and beach events. Even though it's Tuesday, the staff is still recovering so we can all go out and do it over again. Hopefully within the next couple of weeks we'll be able to play a little bit of musical catch up.... Talking about an artist who is hitting his stride after many years, Gregg Allman's new record is perfect album radio material. It's strong music suited for the 80's with that good old Southern rock tradition.... And how can radio resist a song like Henry Lee Summer's "Hands On The Radio"? Put your hands on this one and put it in the studio, this tune is bound to kick in.

Marty Griffin, KFME, Chico

Nothing quite like being in the hospital delivery room and experiencing the birth of your first child. It's true, words can't accurately describe the feeling you get when you see him for the first time. Kevin Robert was born a little over two weeks ago and the kid already has better ears than his old man. Since he's the music expert at the station we let him pick the adds this week.... Gregg Allman tops the list with another outstanding performance, "Can't Get Over You" is definitely a number one song. Just love those wailing guitars!.... Speaking of guitars, having always been a Robben Ford fan, there was no hesitation to add "Wild About You". This one fits perfectly into our playlist. What a combination: horns, guitars, and some surprising vocal work.... KFME is already getting a lot of positive response for the new Satriani cut "Always With Me, Always With You".... It's great to be back and thanks to all my radio and record friends for all the kind words and congratulations on the birth of my son.

Patti Clarke, KMBY, Monterey

Our PD Rich Berlin thanks Elektra's Ray Gmeiner for a wonderful time backstage with the Georgia Satellites who opened for Robert Plant at the Shoreline Amphitheater. It was a great pleasure to see those guys again. KMBY presented the Georgia Satellites in Santa Cruz at the Catalyst when they were just getting started a few years back...it's great to see them so big!.... Congratulations to Michelle Meisner and Bob Osborne! Best of luck in the future! To Dave Rothstein at Capitol Records: Try singing "Get Me To The Church on Time" for the next wedding you go to.... Rich is still on cloud nine thanks to Pat Martine, Jim Cowan, Betsy Weden, and of course, Elton John, of MCA Records! It was wonderful of Reg to take time out for such an event and for him to play for us was unreal! Thank you Elton. And thanks Fantasy Studios! Reg is definitely striking back big time at KMBY!

Christina, WPLR, New Haven

This Robert Palmer album is amazing.

Andi Turco, WEQX, Manchester

It's amazing that a band can be silent for years. Then you mention a new album is on the way then you watch the phones ring like crazy. I'm talking about the forthcoming Little Feat record. Audience anticipation is almost as high as it is amongst our jocks.... Leading the way for requests this week are Camper Van Beethoven, Thomas Dolby, Melissa Etheridge and Guns N' Roses with honorable early mentions to Baxter Robertson and Paul Kelly.... Once again I would like to ask cooperation from anyone involved in obtaining station ID's. We rely very heavily on new artists and we make the commitment of lots of airplay for them, but it helps a lot having artist ID's to help us sell the music we're playing. Any and all ID's are appreciated, a simple "Hi, this is..., you're listening to WEQX, your new music connection" will be fine.... Now, since that is off my mind I have one last item. Beginning Tuesday July 5th our afternoon drive talent extraordinaire will be getting up a lot earlier. Roger Coryell will be handling morning drive. This leaves afternoon drive open. If you're good and you think you'd like living in Vermont, send your tape and resume now to P.O. Box 1027, Manchester, VT 05254.

John Amberg, WKRR, Greensboro

I just returned from a well earned vacation in the Blue Ridge mountains where I did not even glance at a radio much less listen to one for four days. Upon my return I discovered a great new Gregg Allman track. "Can't Get Over You" has that ballsy Allman voice plus some really hot guitar licks from dangerous Dan Toler. This one's easy pickin's for these parts.... The Smithereens get the nod this week with their excellent follow up "House We Used To Live In. It's a positive sign for rock and roll in general when a second Smithereens cut gets such good response overall from radio. This band is here to stay.

Gary Palmer, WLLZ, Detroit

What is there to say about Steve Winwood but play it and let it Roll!

Jeff Horn, WGLF, Tallahassee

Paul Kelly and the Messengers sends a message to all music directors to play the record.

Brian Jordan, WRUF, Gainesville

Tracy Chapman has found her way to power but it is no surprise. Listener response to this outstanding performer has been dramatic. Her unique voice and writing style along with the immaculate production of the album grabs the audience on the first listen.... Scorpions also have a big one on their hands just as Van Halen's "When It's Love" became the second power track from "OU812". The Scorp's "Believe In Love" will prove to be a dynamic follow up to their lead track. These ballads are great strategy in representing the diversity of such monster bands.

Ginger MacKenzie, KATP, Amarillo

Gregg Allman's got a hit song with "Can't Get Over You", and if this is any indication of what the rest of the album is like we are in for a real treat. I really like it a whole lot.

Steve Hoover, WIBA, Madison

Rhythm Corps is an outstanding Motor City band whose time has finally come. It's perfect for every station in this fine country of ours!

Rick Panneck, WAPL, Appleton

Hope to see everybody at the Midwest Conclave in Minneapolis. Garrett Hart and I will both be there. Let's have some fun!

Brent Clanton, KPEZ, Austin

David Drew's "Green-Eyed Lady" is great! If you liked the original you will love this version. This CD single is so hot we fried eggs on it this morning.

Jimmy Christopher, KZEW, Dallas

Gregg Allman's new album really works after a couple listens. I found it to really move with top notch production. I like the return to Southern rock and feel that this will be a good one for Gregg.

Al Scott, KZEL, Eugene

Gregg Allman has given us some choice rock and roll and the phones have been building since before the song was even here to play.... Steve Forbert has returned to the vocal form that made "Romeo's Tune" so great. People are already pegging his new one as a big fave.... Steve Winwood is still stapled to the top of the list these days. Everything on this album is a bona fide killer for the format.... Pat Benatar has given us an album that deserves to be played all summer long. The whole release just shines and the audience response indicates how loyal her fans have remained in her absence.... Looking forward to the Fabulous Thunderbirds new track also. Pass the ribs bro.

Dave Cowan, WWWV, Charlottesville

Paul Kelly's "Dumb Things" is the best 2 1/2 minutes on the radio right now. I'm hoping it will be one of the biggest summertime songs.

Alan White, KILO, Colorado Springs

For meat and potatoes from one of the best blues singers in the biz dig the Gregg Allman. And that ain't no side order of guitar from Dan Toler either.... Cinderella ain't no fairytale, kids. Take the "Gypsy Road" to the place where your core rockers live.... Look for newcomer David Drew to turn some heads around with his kicking version of "Green-Eyed Lady".

Jane Fredericksen, KTCZ, Minneapolis

I am on a brief vacation but I'll be back in time to see all of you at the Midwest Communications Conclave July 7th through 10th. "A splendid time is intended for all".

Mark Vaughn, KOZZ, Reno

Pat Benatar is the big story this week and she is getting next to instant phones on her new single "All Fired Up". She's a real smoker, there's no doubt about it, and this song is a real smoking hit.

Mike Lyons, WHTQ, Orlando

Guns N' Roses is a home run, no question about it.... We added the terrific Gregg Allman track. Don't forget that Gregg was married to Cher all but 10 days, much longer than Spinks lasted with Mike Tyson.... Probably the best song out of all the releases this month is Pat Benatar. There comes a time when everybody must jam this thing; it is wonderful!

Inessa York, KGON, Portland

The growing phone items are Kingdom Come's "What Love Can Be", ("Is that a new Robert Plant tune?"/"Is that an old Robert Plant tune?"/"Is that Led Zeppelin?") Also, Guns N' Roses is very strong. Finally catching up on the music; thanks for all of your patience.... Gregg Allman floored me because it's even better than "I'm No Angel".... The Huey Lewis track is very, very interesting and I'm really wanting to start something with Cinderella.... Lynyrd Skynyrd was here last week and we did an absolute kick-ass 92 cent show with them the night before their Coliseum show. I love it when that kind of stuff can work out. Now if we can just get Robert Plant to do a lounge thing I'll be in Heaven.... Pat Benatar, lest I forget, is getting fantastic calls. It's a hit!

J.D., WONE, Akron

The Monsters have come and gone and what can you say. Two days of total bedlam. We were on hand broadcasting for 42 straight hours. Many thanks going out to all 5 bands and their management teams. They are what I would call "A Pro's Pro" in the business. A very special thanks going out to Johnny B., Frank and James Kottak of Kingdom Come who took me hostage for one hour and played whatever they liked. Thanks guys and by the way, can I please have my wallet back? Also, from all of us at WONE, get well wishes going out to Columbia's Doug Hamann, hope you are on your feet soon. Finally, Dear Carolyne Heldman: it was great finally getting a chance to talk with you. Wow, what a sexy voice! Also, the invitation is still open for you to come to Northeast Ohio for the All American Soap-Box Derby on the 13th and 14th of August. By the way, the meatloaf is getting better and I figure with a few more tries it should be OK to eat.

Mike Ramsey, KLAQ, El Paso

This is the summer of female rockers in El Paso. We are having great success with Pat Benatar, Melissa Etheridge, Tracy Chapman, Joan Jett, Stealin Horses and Patti Smith.

Scott Murray, KVRE, Santa Rosa

What a treat it was to get a new Steve Forbert tune. It's been too long and if the single is indicative of the LP, sounds like Steve is picking up where he left off 6 years ago.... Melissa Etheridge continues to expand with "Bring Me Some Water",

which is now Top 5 Phones.... By all means check out Bobby King and Terry Evans on Rounder. Is this the direction Ry Cooder should have gone with his last LP.... Lastly, that Paul Kelly record is a subtle bugger isn't it? Just sneaked its way right up on me. I left the cassette in my car and it will not come out! Great Driving Music!

Anthony Alfonsi, WDVE, Pittsburgh

Gregg Allman's "Can't Get Over You" is the next step in his path toward becoming a major force in the music industry once again.... Maybe the success of the Skynyrd tour and Rossington's "Welcome Me Home" could be an indicator that Southern Rock is coming back into the mainstream of things.... While I am on the subject of follow ups, Cinderella's "Gypsy Road" is also the band's next step toward becoming a formidable force in the music world. Apparently the fans like it because it is already getting top five phones.... Thanks and good luck to Jay Brooks in his endeavors in finding a new position in this crazy business.

Don Berns, CFNY, Toronto

What's hot and what's not hot: "She" by Dalbello. An amazing album on which this Toronto veteran sings and plays most of the instruments on the songs she's written, produced and arranged. Nary a weak track on what has become my fave LP of the year so far. Not: Capitol/EMI U.S. insisting that two songs on this album be replaced before it's released in North America but it's a crime that one has to go to Europe to get this fabulous LP!

Michael Bright, WFNX, Boston

While Bruce takes some much needed r 'n' r in the bush country of upper Maine, I've seized control of his private listening room with jacuzzi and wet bar, the key to his personal CD cabinet (chock full o' lost B sides, imports, and those strange early releases that keep turning up in plain brown wrappers from other countries), the under-age interns, uhm, er, I mean the music research team, the alternative conference call schedule and the CD remote control. Now this is the way to "spend some time" with music.... All right, it's an easy plug but the Railway Children is truly "A Pleasure". Bottom line, it's infectious and you can't get it out of your head. It sounds great on the radio. It's nostalgic but it makes you feel good. It tastes great - it cures - never mind.... Play it.... By now I think most of the alternative folks realize the Shriekback is "the next big thing". "Go Bang!" is poised to finish the job of crossing over what "Big Night Music" started. One big problem. With so many great cuts - where to start?.... Sugarcubes continue to blow out requests.... The Ranking Roger album is a nice surprise. Check out "Time To Mek A Dime" for something more rootsy than "So Excited".... Also, congratulations to Heretix from 'FNX where you heard it first in April 1987.... ('....another martini please Yvette, and toss me a towel....').

David Sadof, KLOL, Houston

Midnight Oil's "Dead Heart" moves to heavy rotation this week. I wish I could tell ya how great the show was but I was on the air at the time! It's our third track off the album and we're still playing "Dreamworld".... I really like the artwork for the CD single of "Cartoon", the new one from Soul Asylum. It looks like the artwork for Capt. Fantastic And The Brown Dirt Cowboy.

Butch Lazorchak, WVVV, Blacksburg

Iggy (Back to basics in prime form) Pop's "Cold Metal" is amazing. It's great to see Iggy with Bill Laswell, who has his feet in so many different pools but he's hip. Laswell is one of the most important artists around these days and he also understands how to get the roots of other artists. Definitely Iggy's best in a number of years, cause it's so stripped down.... We're playing the Scorpions "Believe In Love", a band who is great for our station. They can pull off a heavy metal ballad as good or better than anyone else. This song has a good hook, a slow fist raising anthem that people really get into. If you can play anything by the Scorpions you can play this.... I listened to Paul Kelly's album this weekend while I was getting drunk on

my porch. Someone asked me if it's a Top 40 hit. The thing that could make it a hit is that classic sax sound. "Dumb Things" is catchy. I hear this Dylan flavor when I listen to it.... The Sugarcubes record is surprising. The #1 Alternative position is great and this record is the coolest thing out right now. Since we do play mainstream music, I get concerned about playing bands like Sugarcubes and Camper Van Beethoven or records having a huge alternative draw and are too quirky for mainstream listeners. What makes me stick with it is that this music is the future. It's important, it's breaking new ground and it sounds great. You can play the Scorpions and no one will be offended, but it's not going to stimulate the synapses in the brain either. "Coldsweat" definitely fits in here, it has a real crunch. "Birthday" gives you chills, but I can see how some listeners would be confused by it. "Deus" is another cool song as is "Motorcrash". There is such an incredible buzz going on for them, and if you know anything about new music you should know about this band.... "Eye Of Fatima" is by far the best radio track from Camper Van Beethoven. It works!.... We had great success with The Chameleons U.K., and with Mark Burgess' voice still there, The Sun And The Moon should really take off for us. Although the name is unattractive, it will become just a formality eventually and you won't even think about it. If they have half the success the Chameleons had here it will be great!.... Sales are growing and have been Top 10 for the past few months for 10,000 Maniacs. We've been on "What's The Matter Here" for over a month now and we will continue to stick with it. This band is certainly a success story for us, and here's one record company priority that certainly agreed with us!

Ivar Hamilton, CFNY, Toronto

Not Hot Again: Capitol/EMI delivering the Robert Palmer album four days late in response to CFNY playing the import of "Simply Irresistible". If a record was available in stores as was the Palmer, then we can't take a chance and wait. The market is too competitive and the competition could have just as well gone out and bought the same record. That's just fine, maybe CFNY will be late adding one of those record that needs help next time 'round. Nobody gives a damn if we add a new artist early but as soon as it's a major crossover, the shit hits the fan. I can appreciate the fact that you have a marketing plan and a job to do, but so do we. Put yourself in radio's shoes. Any station would be foolish not to play a record such as Palmer if they could go out and buy it. One week of early airplay can only encourage sales. It's too bad that you've chosen to work this way.

Ken Glidewell, WOXY, Oxford

Iggy Pop's back on a roll with "Cold Metal", we love it and thanks for the tee shirt.... Prince looks very sexy on his new album cover.

Bob Weyersberg, WUNH, Durham

Just because Liz is such a darling person and calls me "hon" is no reason to like Biff Bang Pow. They can be liked for their own merits (great music!).... Muslim Gauze - It's about time. There's music in Budapest and it leaves one hungry for more.... Notes about Todd Bisson: Not only does he sing popular Styx songs, but also popular TV series like "The Love Boat". You think he's touring with Gary Newby? He's actually trying to start a new career singing in third rate nightclubs. We're sure he'll do fine.... Bill Prichard: a well adjusted Morrissey.

Sean Maxson, WXCI, Danbury

Oops, I missed a week of dialogue (like you've all been waiting...). Hey all you obscure noise and sampling fans, listen to Steve Fisk on SST Records. Dude, what a rush! I suppose the ex-Pell Mell keyboardist has gotten himself a video for a song called "No Second Chance" that's gotten airplay on 120 Minutes. I really got caught up in it as I was looking at that stern Judge Wapner on the People's Court!.... Also on SST, (gee did I talk to Brian Long this week?) is a band that might ring a bell for some of you. Not to me though, sorry. It's definitely my loss. The band is called The Last. Wow! It has some of those Mighty Lemon Drops sounding guitars on some

of the tracks, but this ain't "Inside Out". It is a really strong album. It will do well at WXCI because as I said it has "that sound". Oh well.... Add drums and a dance beat to Dead Can Dance and you have Heavenly Bodies. Coincidentally, there are some This Mortal Coil and Dead Can Dance members in the band. It's pretty good and I really like that airy, melodic stuff so I picked up on the album right away. I think it sounds more like Xymox (to each his own).... Call me kooky, but it's good to hear Ranking Roger again.... Since the New Music Seminar registration fee has now peaked at \$300.00 dollars, if there's anybody out there who knows me and knows my generous kind nature, would you like (to put it bluntly) to put me up for a few days? I really want to make it to this but another \$400.00 for a hotel would be pushing it. Don't everyone jump at the opportunity.... Thanks Mike at A&M for the rockin' Soul Asylum tickets, the band that is.... One last thing - who do the Three O'Clock think they are? Seeya.

Valarie Pittman, WRAS, Atlanta

A thousand thanks go out to everyone who made my year as M.D. unforgettable. A special thanks to Elektra and Mark Cohen for 10,000 Maniacs, I.R.S. and Lori Blumenthal for R.E.M., Todd Bisson for toys, Jennifer and Graham for advice and everyone for simply understanding. I hope you miss me as much as I'll miss you. Over and out, your favorite M.D.

Bill Fisher, WJUL, Lowell

When Flotsam & Jetsam first signed to Elektra, I heard many people say that they were overrated. Well, with the release of "No Place For Disgrace", I believe they have well proven themselves. This album is movin' up our charts and well it should. It is a good example of great power metal and fine production. A successful tour is the final step they need to distinguish themselves from the rest of the thrash pack.... Speaking of great thrash bands, the new Death Angel 12" has been added and has only seemed to add fuel to my need for the new Death Angel album. I think the new album should be well worth the wait.... Lastly, by the time you this read this report, Hallows Eve will have invaded Boston and with them that bleached bombshell, Cheryl Valentine. She has finally decided to come out of her hole, only to climb into a smaller hole called Boston. Are all those juicy rumors about Cheryl and her exhibitionistic tendencies true? We'll know in our next issue folks, so stay tuned.

Jeff Ivan, KFMX, Lubbock

If Cinderella really did have a "Long Cold Winter", then I suggest it should happen more often. "Gypsy Road" is a great lead single. You can immediately pick it up as the band and the chorus is still ringing in my head. It's gonna be a long hot summer, so go ahead and take a spin down the "Gypsy Road".... I love it when I hear a band progress from album to album. Such is the case with Voivod. "Dimension Hatross" is without a doubt their best. People around our station who don't generally listen to metal liked what they heard when I rolled it. This has to be the album to break them.... Speaking of breaking it open, that is exactly what King Diamond has done. "Them" is gonna terrify a whole lot of listeners into buying the album and with good reason. No matter what you think of King personally or his voice you can't help but get drawn into the story and the music.... After listening to the advance tape from Overkill I am extremely anxious to get it on the radio. The production sounds great and they have never been tighter. This one is gonna get them a lot of new listeners. I also went with the new D.R.I., which I thought was an instrumental for a while. These boys are crossing over into the metal scene nicely with this new release.

"Perilous" Cheryl LeBeau, WHUS, Storrs

Greetings from the mighty mouth of metal. Has anybody checked out the new Accused album? If you haven't, I would advise you to do it NOW!! Ditto for King Diamond.... Special hello to Tom Callahan at Enigma who likes to send me things in the mail.... I understand we have a challenge for the Real Women's Club. What's this I hear that Megadon is not pleased? Too bad, 'cause we rule! I will see everybody at the

July 1, 1988

Testament show in Providence and in New York in two weeks. Later dudes.

Debbie Magill, WWVU, Morgantown

I was very impressed with Seduce. Rich told me to listen to them before I interviewed them and I was extremely impressed.... I also liked Death Angel's "Cold Gin".... And of course the Voivod is great.

Mike Jones, WGIR, Manchester

I'm not going to go into great detail about this but it's really a shame that the rock n' roll fans of New England have been cheated out of a full Monsters Of Rock concert. You know what happened in Foxboro, and as far as the second Monsters Of Rock show in Oxford, Maine is concerned, it was an abortion!!! Not through any fault of the fans, but of the promoters for putting the show in a place that was nearly impossible to get to. Imagine spending eight hours in traffic, two of which on the only road into the concert site in the middle of a near hurricane. Of course, no one can do anything about the weather, but they scheduled the show at a place with a one way road in. So there are people who left their homes in what seemed like plenty of time only to be stuck in a traffic jam that never ended. I left Manchester at 9 a.m. and didn't arrive at the show until 5. Manchester is, technically, only about three hours from Oxford. People wanted their money back but couldn't get it because all of the bands played, even though they were shortened sets because of the weather. At 9 p.m. when I left, there was still a line about three miles long to get in. These people had been on the road for about ten hours just trying to get there. Although there were thirty-four thousand seats sold in advance, only about ten or eleven thousand actually saw the show. Oh well, it's over with and I'm going to try and forget about it.... In new music this week, new Cinderella "Gypsy Road" goes in and seems destined for Top Ten status. More raunch and roll from Kiefer and Company and the excitement builds since they are coming with Priest in a couple of weeks.... The King is back. King Diamond has a frightening new LP with some of the best music he's come up with since his early Mercyful Fate days. This is destined to become a horror-metal classic. Turn out the lights and turn up the volume.... Lastly, Voivod has sure taken a major musical step forward with "Dimension Hatross". I hope it does well for them. That's it.

Dr. Metal, WHJY, Providence

The King Diamond LP is by far their best work. All hail and bow to the King. Long live King Diamond.

Dewey McCafferty, WKNC, Raleigh

The summer's a big success. Thanks to awesome reps like Peggy D., Cheryl, Tom, Todd, Megadon, Derek, Laurie, DJ and last but not least Monte and John from Roadracer. Also thanks to our buddies Chrisby and Jeff the Slave and company for the good times and the great service. You guys rule and so do Dirty Looks.

Monte Conner, Roadracer, 212-219-0077

It's finally here! The long awaited third thriller from King Diamond. There is no way to describe "Them", it simply must be heard and experienced. There's a movie going on in King Diamond's head that nobody had tickets to! (Jon Sutherland) "Them" is not just an LP, it's a well-crafted, finely tuned work of art like nothing ever before released. But I don't need to tell you that. You guys love King. This record is a promo person's dream because there is no work involved, King Diamond sells itself. There's so many awesome tracks to choose from that a person could go insane trying to decide which to play. Therefore, here are my killer picks: "Welcome Home", "The Invisible Guests", "Bye, Bye, Missy", "The Accusation Chair" and "Phone Call" (the B-side of the 12"). Whatever you do, don't you dare bring "Them" home to mother, (unless, of course, she wouldn't mind giving blood in the name of tea...)... Holy Terror advance tapes of "Terror And Submission" are in your paws. The guitar is God in this manic collection of blistering, high-tech speed metal. The vinyl, as

well as the U.S. tour with D.R.I. and Kreator are forthcoming. In the meantime, bang thy head to "Distant Calling", "Mortal Fear" and "Guardians Of The Netherworld". If you like your metal oozing with ungodly class and conviction, then experience Holy Terror or holy be thy shame.

"The Captain" Kevin Kasky, WOUR "Power Hour", Utica

After last week's recovery from the Monsters Of Rock show in Buffalo, I don't think I can ever look a gift beer in the mouth again, (I'll just have to drink it with my eyes closed!)... Things have been hectic around here with trying to keep on the road and on the air. It's lots of fun tryin' anyway.... "Eddie" is heading my way next week. Ace and his boys are with him and it proves to be a real scorcher of a show.... The new King Diamond LP is probably the first album that tells enough of a story so that my listeners will know it's a story and King will get Power Hour play. Now that's my kind of horror story!!! Well, I must be off, (if I wasn't I probably wouldn't love metal!). See ya'll real soon at the NMS. Always remember, "Bangin your head is better than bangin' your fingers!!!"

Jeff Naumann, Virgin, 213-278-1181

What do these stations WKLS, WBCN, WNEW, WHCN, WPLR, WBRU, WIZN, KQWB, WRQK, KEZO, KTCZ, KRZQ, KTYD, KBOY and plenty more have in common? Answer: they're all mainstream stations playing Camper Van Beethoven and loving it! If you've passed these guys off as just an alternative band you are dead wrong and probably haven't listened. Test our special edit of "Eye Of Fatima" on your audience and then maybe you'll understand why there is such a buzz on Camper. Oh yeah, check your local retail outlets as well. It's selling very well even beyond The Cult. These guys are going to be huge, mark my words. Two new 12 inches coming your way are Ziggy Marley's "Tumblin Down" and Rocky Hill's "HPD". "Tumblin' Down" has a groove that sounds like summer and "HPD" is a pure album rock track with some killer guitar licks reminiscent of Jimi Hendrix. As far as Winwood goes please lock in as the second track "Holding On". Thank you. Personal to Denis McNamara: what kind of radio station are you anyway? I can't figure it out.

Jeff "Rockum Sockum" Cook, Elektra, 212-484-7955

Hi there, fight fans, here is ninety one seconds of information about our heavy hitters. Round 1: "Powerful Stuff" by The Fabulous Thunderbirds on Elektra is a knockout from the forthcoming "Cocktail" soundtrack. Add it now!.... Round 2: The Georgia Satellites' "Open All Night" is being pounded at album radio and the fans are rushing to the stores. The album is a killer so beat it!.... Round 3: Tracy Chapman's "Fast Car" has now been acknowledged as a major contender. This record is now headed for Platinum with sales in excess of 700,000. If you're not playing it in Heavy rotation, you're punchy!.... Round 4: "What's The Matter Here" by 10,000 Maniacs is just starting to hit the radio. With a gold record under their belt and major airplay last time out, we predict a lot of you will champion this track.... Round 5: Raymond May's "Romantic Guy" packs a wallop. I know the traffic is heavy out there but this is one tough track.... Round 6: The Adventures' "Sea Of Love" we will be slugging it out with you for adds on this track. We believe in it. It is a winner.... Round 7: Smashed Gladys "Legs Up". This band has been in training around New York City for eight years and they're taking their show on the road throughout the Midwest and Southwest. "Legs Up" smacks of Janis Joplin. This is a band you can't run from.... Finally, The Sugarbushes is currently the super heavyweight at progressive radio and those retail registers are claiming we have a major prizewinner here.... Flotsam & Jetsam are now touring in the West and will crush all competition.

Janet Getchell, Megaforce, 201-254-6533

What a weekend. I'm experiencing the results of my first big weekend in New York and it sure isn't anything like McMinnville, Oregon. Where else could you see Ace Frehley get some help on "Deuce" from two of his old buddies, who

just happened to be Gene Simmons and Paul Stanley. What a night it was at the Limelight. Be sure to catch Frehley's Comet on tour with Iron Maiden, it will be hot.... Saturday I went to see Nuclear Assault and I took the infamous IRS bus to the show. Good thing none of us did any serious drinking at the show and that included Megadon, I think he may have learned his lesson last week. I saw more Overkill t-shirts, including SID from Overkill showing off the latest version, than any other group t-shirt at the show. People are really into this band, they just can't wait for this record. That means when you get your Overkill play it on your show. Thanks. Any stupid jokes, questions or statements send it my way.

Colleen Baxter, SST, 213-835-8977

Sister Double Happiness came down from San Francisco last weekend to grace us with three shows in L.A., and they were amazing. They've had a great live reputation in San Francisco for a long time, but this was the first chance southern California's had to experience them in the flesh. When four people who are skilled musicians, write powerful songs, and have an overwhelming stage presence get together to play rock & roll, people take notice. They'll be touring during July and August, including a show at the New Music Seminar. Treat yourself to the Sister Double Happiness experience.... In the meantime, the Meat Puppets tour continues with gigs in Providence (7/7), Boston (7/8), Trenton (7/10), D.C. (7/12 & 13), Ocean City (7/14), Charlottesville (7/15), New York (7/16), Hoboken (7/18), Norfolk (7/19), Charlotte (7/20), Chapel Hill (7/21), Athens (7/22), Houston (7/25), Austin (7/26) and Albuquerque (7/28).... And on July 8, Minneapolis' Run Westy Run will set out on their first U.S. tour. For six weeks they'll travel coast to coast in their newly purchased ambulance, which they've converted to a tour vehicle of sorts. I'll give you advance warning before they scream through your town. And finally, play The Last!

Charity Kurz, Mechanic, 212-226-7272

Caught the Monsters of Rock at the Meadowlands this weekend. Although I was pelted with garbage I have fully recovered. Actually my whole weekend was filled with violence. I lived through an eternal nightmare at L'Amour after the Nuclear Assault/Hades show on Saturday. The bands kicked ass but I learned that many myths about boys from Brooklyn are true - too bad. And I thought Tom Callahan was my worst nightmare.... P.S. If someone doesn't start paying Mike Cloucci he may have to give up bowling. Boston radio will suffer if Mike gives up bowling.

Derek Simon, Concrete, 212-645-1360

Under the must see file, please file Britny Fox. Unbelievable poise and showmanship. Their single, "Long Way To Love", is killer live. Any doubters would certainly undergo a change of heart after seeing the boys live. The video for "Long Way To Love" just hit MTV in Breakout Rotation, so look for the explosion soon. And don't miss the band live.... Judas Priest are getting closer to their arrival on our shores for the tremendous Ram It Down shows. With Cinderella in support, this is another in the "must see" category.... Queensryche continue their domination of metal radio and are gaining support at AOR as well. With the record approaching 300,000 units in sales, you guys have a lot to be proud of. Look for them on tour this fall.... And finally, an advance sampler cassette of Slayer's new "South Of Heaven" LP is on its way to you. Call me to arrange a pre-release interview. This record is so good, it's scary. Call for information about Foundations Forum '88, our hard rock/heavy metal convention in Los Angeles September 30th and October 1st.

Jill Maxick, Chrysalis, 212-326-2337

If anyone else says "I haven't read it" when asked "What do you think about The Bible?", I'll scream. By now everyone must know that "Eureka" by The Bible is a gorgeous acoustic album with the same kind of strong songwriting that set apart bands like World Party, the added twang of producer Steve Earle, and the smoothness of a summer Sunday afternoon. The jangly lead track "Crystal Palace" takes The Bible to 25* in it's third week on the Hard Alternative Chart! Thanks go to

early supporters WHTG, WHFS, WDRE, WKXL, WMDK, WRAS, WCDB, WFNX, WWVU, WFIT, WBER, WOXY, KTCZ, KVNF, KACV, KTAO, KJQN, 91X, KUNV and KUSF. If you think I'm biased just ask Todd from Virgin or anyone at the Hard 'cuz they love The Bible too! NMS attendees: Catch the Divinyls at their live best on July 19th. P.S. Happy belated birthday to Mr. Sean Maxson of WXCI. He's very old. And (there's more) watch for a Vinnie video for "That Time Of Year" as The Invasion takes to the road starting July 6 in Milwaukee!

You now have "Dream Of Life", Patti Smith's first album in nine years. Please take home the configuration of your choice and listen to the depth of this breathtakingly mature effort from one of rock's leading innovators. The commercial 12" of "People Have The Power" is already creating quite a stir at retail as fans and new converts alike rush to the store following rock radio's immediate attention to "People Have The Power". The album doesn't hit the street until July 12th, so take advantage of this exclusive.... You already know this, but the latest track from The Church's "Starfish" LP is "Reptile". Market by market, airplay on "Reptile" is bringing in phones and more sales than did the number 1 track "Under The Milky Way". You devoured the appetizer ("Milky Way"), supper is on the table, so eat it!!!!.... I know it's difficult to give real airplay to a new artist during this midsummer Christmas rush we are experiencing. But those of you who are really playing "Turnaround" from Stealin Horses are finding retail and phone action is the result (Hey, KLAQ-#17 sales is a great start, thanks!). Now, they're touring with The Smithereens, and I flew out to Florida for the first few dates. Now I can tell you that Stealin Horses is fantastic live. Every night they're earning new fans (Just ask Charlie Logan at WYNF)! The single is out and going on the air at Top 40. MTV is playing the video every day. This might sound overly simplistic, but for real insight into what a tremendous album this is, I strongly suggest that you listen to it (all of it!).... Big and immediate phones result from playing "Do It Till We Drop" from Witness. It's still #1 most requested at WKLS. The video is on MTV in both regular rotation as well as their Saturday night feature "Headbanger's Ball". Many of our adds have resulted from just a feature or a test that set off the aforementioned phone reaction. Put this record on...it'll work.... For those of you who haven't heard yet, we have hired Hilaire Brosio as Manager, West Coast Rock Promotion, who is now based in L.A., as I return to our home office in NYC. Hilaire can be reached at 213-655-9222 and I am now at 212-830-2185.

The word of the week this week just has to be gratitude. Thanks & much gratitude due this week to the stations helping to make the new single from Only Child a viable tune in an otherwise glut ridden radio marketplace right now. I mean so many artists are at radio with Jimmy Page, Georgia Satellites, Van Halen, etc., but lest we forget, that our future is new artists, new material & fresh faces. I know this story has been hashed about quite a bit lately, but come on this is really a problem right now. I know that it's a tough decision to take a chance on an unknown artist, but there are stations out there (we all know em) that play the ultimate blend of both old and new. As a person, who is working with some legends & at the same time breaking new artists, this is also a tough position for me to be in. But I really do feel there is room for everybody, if it is good music, it is good music!!! And Only Child's' adoption papers have been sent, and we want your station to take note. The new single is called "Save A Place In Your Heart" & I have spoken with most of you about it already. And additionally, what many of you may not know, is that whenever this single is sold the profits from it go directly to Child Help, an organization that helps battered or abused children. That's what this tune is all about and we need your support. The video is incredible, utilizing the latest in computer graphics and special effects, and the guys are lookin' oh so good!!! So save a place on your playlist for this one, and help some neat little kids while you're doin' it. And for those stations who are playing the record, we are putting together a long & exciting Only Child tour & we'll make certain that your city is one of the

July 1, 1988

places we stop by & say a personal hello.... Also this week, Drive moves up significantly on national metal charts. Check out "Stormtrooper" or "Kamikaze" for starters. This band is hot rockin'!!!! See Ya!!!!

Megadon, Combat, 718-740-5700

Impellitteri is the hot name on the street these days. The emphasis track seems to be the mega-instrumental "Somewhere Over The Rainbow," which would make Judy Garland proud.... I had the feeling Acid Reign was a winner.... The Accused reaction has been surprisingly cool so far, and "I'd Love To Change The World" is definitely the one to go with. Play it and sit back for some hysterical phone calls.... I just heard five new demos from Montreal gods DBC, and my God, they're huge! Check out these titles: "The Genesis Explosion," "Heliosphere," "Primordium," "Exit the Giants," and "Rise of Man." I don't expect the lyrics are of the "I Love You, You Love Me, Oh How Plummy We Shall Be" variety, do you? I had the rare opportunity to get drunk (but not like I did at the Crumbs show, thank you) with SCroggs and Ettore in the same week. Neither of 'em know how to drink, but they still rule! I saw Nuclear Assault for the twentieth time (no lie) at L'Amour. Unfortunately this potentially great show was plagued with technical difficulties, forcing none other than Ludichrist's Glenn "The King" Cummings to act as second guitarist on several tunes. It was still a show of epic proportions, and thanks must go out to the I.R.S. folks for letting me get on the bus back to Manhattan and to Janet Getchell for dropping me off at my door.... By the time you read this, I should have recovered from the EZO/Megadon "Let's All Get Wrecked And Use Our June Birthdays As An Excuse" extravaganza. If anything great happens, I'm sure Monte will somehow find out and report it to you. Until next week, lustbuckets.

Chris Kamatani, Chameleon, 213-973-8282

"The Bonedaddys move right up...Push AM, Push AM Forward..." so their song goes. And they are moving up with the #1 album on WUOG, WMDK and KJET. Latest add KTAO is the newest recruit to the Brotherhood of the Bone, who joins fellow Bone Brothers WHTG, KSPN, KABL, WRAS, WGTU, WHFS, KTCL, WDET and WOXY. The 'Daddys' "bone-a-fide" hit, the 12" remix of "Push AM Forward" should be on your desks, I mean turntables now. And, the band is on tour now so check out their "groovinacious" (thanks Dave) live shows if you get a chance. Next stops: Dallas, Houston, San Antonio, Austin, New Orleans, Kansas City, Aspen, Ft. Collins, Denver and Santa Fe. As the Arizona Showtimes said, "First exposure to the Bonedaddy's is like losing your virginity." So get boned, you'll never be the same.

Jim McKeon, RCA, 212-930-4309

Take a few extra moments to listen to a quality song by a quality band.... Shine's "This Wall Of Hate". How many songs do you get a chance to play that really turn a great lyric. Not to mention the lead singers voice. I know picking music today is as easy (sometimes) as ordering off a fast food menu. Sometimes it is worth digging a little deeper, thinking a little bit more, listening a little harder. Give Shine that extra consideration...you'll be rewarded for doing so.... The next Hornsby single is "Look Out Any Window" and is there any reason not to Power it??? The extensive tour has just begun and the initial reports are fantastic!!! Interestingly, Bruce's CD is the #1 or #2 seller throughout the country.... Last but definitely not least, get ready for the next installment of Lita Ford. "Back To The Cave" hits your CD players July 7th. I certainly hope you've wallpapered the studio with the newest Lita poster which we've sent to you recently.... I will leave you with word that the Kings Of The Sun are impressing everyone who see them. You must check out the video to "Black Leather". MTV pops it into medium and it will cause some stirrings of the loins for which I can't be held responsible.

Michael J. Schnapp, SPV, 516-783-3040

If you stay up late enough and long enough A) you'll probably be real tired and B) you'll probably get to see a bunch of old war movies. In all of these movies, the United States won the war and Germany lost. That was then and this is Metal! Now

Germany is a winner, producing a wide variety of winning Heavy Metal. First winner up is Steeler. Like early Scorpis, Steeler is melodic and catchy hard rocking metal. A Steeler cut is already on the soon to be out Metal C.D. Samplers. Also in this Deutschland deluxe care package is Mekong Delta. Labeled Techno Thrash, one of Germany's most interesting exports since veenerschnitzel, very progressive riffing and song structures make Mekong Delta stand apart from the rest. A five K review (highest # of K's) in Kerrang, England's heavy metal bible, tells quite a story. Also, check out Assassin. Bashing Thrash from Germany (where else) is so energetic, I...I can't describe it. Check out the cover of Pipe Line. Just in time for the beach. Be a winner and play some winning metal. Something for everyone.... Now, memories of Monsters. Kingdom Come sounding good from the parking lot.... Deluxe tickets (thanks Robin, you rule!).... Metallica Crushing.... Running into Lisa Walker in the WDHA booth. Mike Boyle and Cheryl (Cool crew) and others chillin out and head bangin' to Metallica.... All access pass.... Awesome fried chicken.... Dokken Rokken....My personal monsters of.... Scorpions being real fluid.... More chicken.... Rain inside the elevators, Oh yeah almost getting run over by the Van Halen van backstage.... Thanks and see ya!

Lynn Oakes, Enigma, 212-741-1255

Don't be caught in the middle of a music drought.... Get on to Hurricane!

The Earl of Earache, Mercenary, 212-741-8310

By now all of you should have received the new LPs from Attacker and Sacred Oath. For Attacker, "The Second Coming" is a giant step forward. This band has improved so much, they are lethal. With new vocalist, John Leone, Attacker is looking to go in one direction: Up. Interviews for Attacker are currently being set. Call soon and receive a free cup of Columbian coffee from Juan Valdez himself. Sacred Oath is receiving a bigger response than we had expected. It has already been added by WJUL (I knew Bill was good for something), WHJY, WCWP, WOXY, WRXK and KPGA. This is only one week after the release. Strong airplay being given to "Rising From The Grave" and "Two Powers". If you are not on either record: What the &*\$ are you waiting for??? Look for both bands to be doing dates on the east coast in the coming weeks. By the way, in case changes are occurring at your station over the summer, please call us and let us know about them. Finally, congratulations to all you lucky graduates. Have fun with whatever you do in life. Thanks for the memories and the broken eardrums. Now, I have begun to notice that the dialogues have gotten a bit stale. Quite frankly, I aim to change that this week. First, here's an idea. How many of you would like to hear a duet featuring Billy Milano and the Great(?) Kat? They could do either "I Got You, Babe" or "You Don't Bring Me Flowers". If either participant would like to chat in a nice, friendly and orderly manner, call me at the above number.... I hope that Monte-chihuahua has the balls to go for this. Cheryl LeBeau, bless her little heart, thinks it is a great idea. She's right. This could be the biggest thing since mousse.... Speaking of dog breath, I understand that you are seriously considering getting a transplant. You mean that there is hair on another part of your body that you want put on top of your head? Stick with your bald spot.... Hey, Ms. Valentine, if you're an example of what a "real woman" looks like, I hate to see the impostor.... I don't know about you but I'm glad Cesaer and Russ got rid of their complexes: each other. Those two were getting uglier by the day. I met them last year in Philadelphia but didn't have the heart to tell them. How could you even consider hanging out with metal's version of Frick and Frack.... I hear Scroggs is moving to New York. I'm going to buy him a lifetime supply of underarm deodorant. It's bad enough that all this pollution is ridding us of our ozone layer.... I guess that's it for now. Have fun. I eagerly await your responses. P.S: Meanstreak is coming soon. It's going to be huge!!

THE RIGHT PLACE AT THE RIGHT TIME

“The NMS puts me right in the eye of the tornado that is the music industry. More radio and music people running around than anywhere—it’s dizzying!”

Steve Tipp, National Promotion Manager
Modern Music, Warner Brothers

“Every successive year Enigma and its sister company, Restless, has brought a larger contingent to the New Music Seminar—1988 will be no exception.”

Bill Hein, CEO, Enigma Records

“The New Music Seminar—a week of music, meetings and no sleep—an essential convention.”

Simon Potts, Vice President,
International A & R, Capitol

“It provides all of us in the business with a much needed context for experimentation.”

Alan Grubman, Entertainment
Lawyer, Partner, Grubman,
Indursky & Schindler

“From the beginning, I knew this was something important—not just for industry executives—but for artists as well.”

Cory Robbins, President, Profile Records
