WILSON

Good things come to those who wait, and for the millions of fans who have waited over twenty years to hear from one of modern music's authentic geniuses, the reward is at hand. The first ever solo album by Brian Wilson has arrived.

Despite tantalizing glimpses of Brian's extraordinary musical gift over the past two decades, nothing can quite prepare the listener for the scope, depth and range of the eleven songs comprising **Brian Wilson**, the album. From the prayerful sentiment of "Love And Mercy" to the cosmic perspective of "There's So Many;" from the exquisite harmonies of "One For The Boys" to the deeply personal "Melt Away;" from the wry wisdom of "Baby Let Your Hair Grow Long" to the multi-faceted musicality of the album's eight minute-plus centerpiece "Rio Grande," it is obvious that Brian Wilson is in tune with the times. And ahead of them.

But that should come as no surprise to anyone familiar with Brian Wilson's contribution to the lexicon of contemporary music. The creative focus of the Beach Boys, the most successful, innovative and influential American band in history, Brian singlehandedly fashioned the evocative "California Sound," a musical fantasy of sun, fun, cars and girls shared worldwide. "Surfin' U.S.A.," "I Get Around," "California Girls," "Fun, Fun, Fun," "In My Room," "God Only Knows," the epochal "Good Vibrations." From 1962 to 1966, Brian and the group created an astonishing body of work with 12 LPs and more than two dozen Top 40 hits, virtually all written, arranged and produced by Brian. "Brian is the Beach Boys," remarked the band's drummer, the late Dennis Wilson. "We're just his messengers."

And now the message of Brian Wilson is heard again in a dazzling return to form and the beginning of what promises to be a long and fruitful solo career. Restoring a generation's faith in the simple joy of music, **Brian Wilson** has been well worth the wait.

Crowded House, "Temple Of Low Men", Capitol.... There's simply no getting around it. Neil Finn is hands down the best new melody meister to come along in years--and possibly the best at his craft since the those sweeping Elton John/Bernie Taupin confections of the mid 70's. And even though the new single is very much on the move with tons of stations and a 30-26* underline, we hear several tunes we think will rank well ahead of it as CroHo classics. Only a reptile could resist those gorgeous flowing harmonies in "Never Be The Same", so adeptly mated to the neo-psychedelic outro, and for a delicious time trip back to some of McCartney's baroque period, you've got to check out "Into Temptation". Yeah, we like 'em when they get a little frisky too, but for the really big score, Ballads R Them--so get used to it.

Pete Bardens, "Gold", Cinema/Capitol.... With a number of very successful musical variations on the market these days playing on the edges of the post progressive movement, Pete Bardens maintains some of the best balance on the scene. The Gilmouresque guitar, including some nifty speed riffs, comes layered onto a cycling syncopation a la Depeche Mode that sets the tone throughout this piece. And that seems to be the key here. Pete has a definite sound going for him and what worked well with "In Dreams" is now even stronger. The style is refined and precise, featuring a much more controlled and evocative vocal but when it all comes down we like to think of this one as Alan Parsons with hooks. And with that long lived Floyd album starting to sink slowly in the west, it's time to dig down for this sterling replacement within the genre.

HARD ACTS TO FOLLOW

Marti Jones, "The Real One", A&M.... Marti has always had terrific writer radar--and her selection of this wonderful John Hiatt composition once again highlights her great taste. You know female vocals have never worked better with rock listeners (though ample quality has been available all along), and to our ears Marti has always had one of the most expressive and evocative voices on vinyl. Factor in Don Dixon's impeccable production and playing talent, throw in Marshall Crenshaw on guitar and you can only lose if you don't play. Great album, too.

Beatnik Beatch, "Beatnik Beatch", Atlantic.... Dawn Hood is a big fan of this band--dating back to her coverage of their indy release last year. We've been digging the new disc in our office over the past couple of weeks--but it wasn't until Russ Mottla popped it at WIYY this week that we really tuned in to the mainstream potential. We won't say you've got to be right on the water to catch the wave--but in terms of tapping into a neat little sparkler of a shore thing, the appeal here should be obvious. Between the "Jack Kerouac" reference and the Ray Charles influence, this thang's nothing but 3:00 of fun.

The Escape Club, "Wild, Wild West", Atlantic.... Hey, we haven't gone for the "name game/sounds like" gambit too much this week, so here goes. Anyone else hear The Cruzados "Bed Of Lies" meets Elvis Costello's "Pump It Up"? Granted, "Wild, Wild West" could come across as almost too much fun for any rock radio type who likes to play it safe and serious. But for fun seekers, the abundance of musical bells, whistles, and melody make this pop/rock crossover something you'd want to move on quickly. Sure sounds like a reaction record to us.

NEW PLAY PRIORITIES

Glass Tiger, "Far Away From Here", EMI/Manhattan.... Anyone familiar with their previous album knows these guys didn't have to rough it up in order to move units. But all it took was one listen to "I'm Still Searching" to know that course correcting the sound back in our direction was a priority. They made a real effort to come back to the fold, a stylistic overhaul that resulted in their strongest AOR support to date. You're well on the way to reclaiming a band with a long future ahead of them--and surprising female appeal--so don't stop while you're ahead. Are they, in fact, Gene Pitney meets The Edge? Don McLean meets Buster Poindexter? Only one thing's for sure. It will be big on at least two formats--and your piece of the action depends on your timing.

Winger, "Madalaine", Atlantic.... Noted decibel demon Beau Hill has a better idea--and if he was taking on investors we've bet the ranch and the dog. What he's done is to round up a bunch of his studio pals--guys like Kip Winger (Alice Cooper tours and albums), Red Beach (Howard Jones, Chakka Khan, Bee Gees, Fiona, Zip the Wonder Pig), and highly respected stickman Rod Morganstern of Dregs fame--and crank out a tune with twist and turn that ever worked. From the 12 string (dying to be talked over) intro to the true layered harmonies (as opposed to the hampsters on speed effect of most metal bands), to the just the right drum and keyboard flourishes--everything on this song is perfectly in place. It's what you'd expect from pros of this caliber.

RECORD OF THE WEEK

Huey Lewis, "Perfect World", Chrysalis.... 132 adds later and the Huester sits high atop the most added, all alone in the end zone. But not quite. Somehow he got most of the Tower Of Power horn guys in there with him, and radio feels they're a really welcome addition to the team. WKGR's Mike Ryan comments, "It has 'monster smash' written all over it. And how about those Tower of Power horns? It's great to hear Huey getting down with some first class brass action".... WKFM's Brian Illes adds, "I don't know if I hear it as an oldie on my station in six months, but it is too good a record to ignore for the summertime".... From Al Scott at KZEL, "Huey is out of the box and is getting top 5 phones already. CHR is already on it, so there is no time to hold back." Obviously the week's highest debut at 13*--with 15 powers and 59 heavies.

Hank Williams, Jr., "You're Gonna Be A Sorry Man", Curb/WB.... Have you ever noticed how well heavily research oriented outlets such as KQRS do with Hank Jr. records? It's true. Just call Johnny Rock at KQRS and ask him about "Bocephus". It's gotta be the big hook that lurks right under the skin. You don't have to work too hard to get the message, and in this case you've got playing from rock aces like Gary Rossington making this remix all the more relateable to your audience.

Parthenon Huxley, "Double Our Numbers", Columbia.... We were hoping the obviously artsy overtones of "Chance To Be Loved" would generate a little more programmer enthusiasm, but alas, that wasn't to be. But don't let that song's sound or it's track record keep you from putting an ear to this follow up. Our new MD Mike Marrone had #1 phones for "Double Our Numbers" three weeks in a row at WHTG--and top 5 response for five weeks--starting with the first week of play. Maybe it's the old "settling down" theme, or those almost Jackson Browne like overtones--but whatever the attraction, you can't argue with results.

World Radio History

Brian Wilson, "Love And Mercy", Sire/Reprise.... Brian's highly anticipated new single scoops up 32 first week stations, and some truly heavy duty accolades. For instance, BCN's **Carter Alan** calls it "Undoubtedly the best Beach Boys record in 18 years".... From WKWQ's **Art Boerke**, "I was never really much of a Beach Boys fan, so I didn't expect much--but this is a really great pop song. The older demos should really eat it up".... From WGIR's **Karen A. Small**, "I hadn't realized how much I missed Brian til this tune came in. Lush harmonies and beautiful arrangements adorn this song".... OTB adds include KSHE, WBCN, WHCN, WKDF, WLLZ, WMAD, WNEW, WPYX and KILO. New at 76*.

Henry Lee Summer, "Hands On The Radio", CBS Associated.... I can see why the folks at 51 W. 52nd went for the big ballad shot with "Danielle"--but "Hands On The Radio" is obviously much closer to the style that made "Wish I Had A Girl" such a cool crossover item. He writes a great summertime chorus--and this track's got one of the best. Plus, isn't it nice to hear a "Radio" song that's not at all cloying or gratuitous. New this week on KFME, KFMH, WEZX, WKFM, WNGZ, WRUF and WWTR. Already on KRZQ, KZAP, WAOR, WDHA, WGIR, WTPA and WZZQ.

Lita Ford, "Back To The Cave", Dreamland/RCA.... OK, so how many of you amateur tattoo artists thought the former Runaway whose previous best seller had topped out at 150 thou would be closing in on 700 units? Between all that rock radio play, top 10 CHR action and a video that will probably wind up voted one of the year's best at MTV, there's simply too much momentum to ignore. The track's not too pop, it doesn't feature Ozzy, and she'll be touring all summer long.

Camper Van Beethoven, "Eye Of Fatima", Virgin.... While we're on the subject of "whoda thunk", whoda thunk a band whose first radio exposure came via "The Day Lassie Went To The Moon" followed by "Take The Skinheads Bowling"? No one but Naumann, of course. Now, mere years later, the likes of KRQR, WHJY, KOZZ and WKGR are actually adding the record. Not to mention ongoing play at KBCO, KEZO, WBCN, WHCN, WKLS, WNEW, WPLR and WZEW. As WHEB's **Scott Laudani** says, CVB takes so many musical directions, it makes my head spin. This band deserves a shot".... Or, as WKGR's **Mike Ryan** puts it, "It's just different enough to guarantee some listener response, so we want to give it a shot and see how the reaction stacks up. The band is certainly tight and has some unique musical ideas."

IMPACT TRACKS

The Fabulous Thunderbirds, "Powerful Stuff", Elektra.... As if the sound of the record weren't convincing enough in its own right--the stats further reinforce our belief that this will be their strongest radio track since "Tuff Enuff" and may well be their biggest song ever. As WIOT's **Jim Steel** says, "Just when you might start having doubts about the T-Birds, they have put together a tune head and shoulders above their previous work. Looks like the soundtrack is going to be a killer too".... Down the pike a ways, WONE's **J.D.** adds, "This song is just what the title implies. Once again the T-Birds come through with a hot number with their impeccable touch".... Out of the box on 102 stations, with a significant 16 starting it heavy--including KAZY, KISS, KLBJ, KSJO, WEBN, WRXK and WTPA. New at 28* on the Hundred.

Van Halen, "Finish What You Started", WB.... Looking at the growth curve, it's safe to say you'll be dealing with this 41-35* mover if you aren't already. It's new on 14, up at KFMG, WIBA and WKGR and currently on 89. Solid in the heavy play division as well, with WLUP, WFBQ, WHCN, WMAD, WMMR, KTXQ and WAAF listing it max. As for the phones, KQRS, WKGR and WKQQ Top Five it.... Meanwhile, "When It's Love" notches up a 3-2* week on the Hundred, with #1 a status a heartbeat away. That one's power on 52, heavy at 93 more, up at KLOS, WMMR, KAZY and half a dozen more. At this rate, don't be surprised to see the LP rebound back into the top slot.

David Drew, "Green-Eyed Lady", MCA.... BCN's **Carter Alan** calls it "Another DJ hit. This song is already generating huge response. The new version rocks and was a good choice for a cover".... KWHL's **Cyndee Maxwell** seconds, "Really a killer version. Excellent work".... In a week when a lotta records took it in the shorts, David digs in with 17 more adds--and play-ups from WBCN, WCCC (who report top 5 phones) and WHEB. Other key calls: KOME, KYYS, KZAP, WAAF, WDIZ, WDVE, WHCN, WHJY, WLWQ, WMMR, WNEW, WNOR, WQFM and WYNF. 69-60*--and it's just now getting started.

Scorpions, "Believe In Love", Mercury.... The Scorps turn in this issue's third longest 39-29* gain, thanks to 20 more adds, 104 now on board, ups from KGB, KRXQ, KWHL, WIMZ, WVVV and WGIR. Just goes to show what a monster tour will do to get that follow-up in high gear. It's already heavy on 23, including majors KBPI, KGB, KRXQ, WLLZ and WYNF. And the first with Top 5 phones--KISS, KWHL, WBYR, WHEB.

Cinderella, "Gypsy Road", Mercury.... Two weeks down the road and the long awaited follow up nails down 99--with 20 brand new believers and early ups from KBPI, KISS, KZOQ, WIXV, WHEB, WGIR and KZRR cranking out a 43-34* advance. The #8 Most Requested debut has to qualify as even bigger news, with KBPI, KISS, KJJO, KQDS, KSJO, KQRS, WCCC, WKLS, WQFM and WYNF leading the list of 17 Top Fivers. As WCKO's **Johnny James** sez, "No sophomore jinx here. Probably one of the most powerful tracks that we've put in. This has got Top 5 phones here in just one week's time".... KGB's **Pam Edwards** adds, "As with most bands trying to top an impressive debut LP, there is always that sophomore jinx phenomenon to contend with. But like an unstoppable freight train, Cinderella has not only crushed any thought of a jinx but has moved onto the next plateau."

Kenny Loggins, "Nobody's Fool", Columbia.... Kenny cops this weeks fourth longest 70-59* underline--not too tough to do when you take 13 adds and 6 increases to the table on a relatively quiet week. Ups include WCMF, KZOQ, KGGO and WWCT, with no decreases and heavy play at WZZQ, KFMZ, KGGO, KZEL, WIOT, WPLR and WWCT. Here's KFMZ's **Mike Richter** with the quote: "Kenny Loggins is working exceptionally well for us here. The 'Caddyshack' connection has people calling up and wanting more."

Gregg Allman, "Can't Get Over You", Epic.... 18 increases give Gregg the #3 spot on the Increase Index--with WQFM, WMMR, WLLZ, WKDF, WCMF, WBCN, KQRS and KLPX on that early-up list. 13 adds make it 156 now playing, with 56 listing heavy rotation. KKZX's **Christina Gorton** calls it "Good strong rock with a great blues base. This one really works with the more mature male listener. Gregg remains true to himself without selling out and becoming too pop along the way. This is a very consistent piece of work".... Already a Top 5 performer at KGGO, KKZX, WIBA, KMOD, WQFM and WWRX. 14-10* on the Hundred.

THE NEW SINGLE

TO
THE
CAVE

LITA

Iggy Pop, "Cold Metal", A&M.... WKWQ's Art Boerke raves, "'Cold Metal' has got to be the best radio song the man has ever given us. The song really jumps out of the speaker".... WAAF's Rick Mackenzie says, "The Northeast has always been good to Iggy and now he reciprocates with a hot piece of rock and roll".... The Igman turns in the second longest HH move this week, 56-45*, with new air on WFBQ, WKLS, WAAF, KTYD, KTCL and 6 more, along with ups from KJJO, WHCN, WRQK, KMBY, KFMH and KBOY.

TAKE TWO

Ziggy Marley, "Tumblin' Down", Virgin.... Considering the single's top 10 rock radio acceptance--and tremendous phones and sales to match--we'd think you'll have this follow up slotted into near-automatic status. True, it's a bit gamier than "Tomorrow People", but now that we're well into summer, what the hell! You gave those listeners the appetizer, now get a little closer to the authentic item. New this week on WDHA, KROQ, KWIC, WBRU, WCCC, WFNX and four more, with KBCO, KLBJ, KTCL, KTYD, WKLS, WMAD, WPLR, WWRX and WRCN among those already in. New at 79*

Jerry Harrison, "Man With A Gun", Sire/WB.... About the only reason that might make sense for holding off on this beautiful remix is the fact that it sounds more like Pink Floyd and less like "Rev It Up". And considering how many of you folks at first thought "Rev" was "Too dancey", I'd say that's a positive. And not only is the tune totally tastefully reworked--but it's lyrically one of the most intelligent things on the street. This man has kids he wants to send to camp so come on!! New on KLBJ, KZAP and WFNX, with KROQ, KRZQ, KTYD, WBLM and WRDU among the early supporters.

Yngwie Malmsteen, "Now Is The Time", Polydor.... Well, jump back if the Yngman doesn't have this week's longest Hard Hundred move! Adds at KBPI, KOME, KZAP, WFBQ, WDHA, WIMZ, WNGZ and WRQK bring home that 87-75* underline, with WLLZ, WQFM, WRIF, WLZR, KRZQ, KJJO and KEZO the most significant adds to date.

The Church, "Reptile", Arista.... From where we sit, there's not much more a first track can do to lock up a hall pass for the second--short of really gigantic sales. And as we frequently hear at conventions, programmers aren't in the business of selling records. In short, 78 current reports for "Reptile" on the heels of a #1 song certainly adds fuel to the fire that this format is way too tough on second tracks. KLPX, KOME, WNEW and KMBY add, with KBCO, KPEZ and WIZN showing play increases. Up 46-42*.

CHARTSTARS

Guns N' Roses, "Sweet Child O' Mine", Geffen.... Unless Mike Dukakis chooses Tracy Chapman as his running mate, it sure looks to us like these guys have Rookie Of The Year honors sewed up--with or without the Good Housekeeping Seal Of Approval. And even if the album weren't at two million, their loud and proud stance high atop the Most Requested should be sufficient motivation to anybody even half way watching the street. Plus, this is easily their most programmable track--a la WMMR's first ever action on the band this week--along with new air on KZEW, KRQR and three more. Very solid in the increase area too, with KBPI, WDIZ, WEGR, WIOT, WOUR, KMBY and six more giving the group our fifth best increase total. Currently on 138 reporters, 16-14* on the Hundred.

Robert Palmer, "Simply Irresistible", EMI/Manhattan.... We smell a #1 record--and the stats certainly lean that way. KLOS, KOAS and WKWQ take the add total to 173, 31 of which report power, 81 at heavy. The request momentum builds by six more Top 5 mentions to #6 nationally, and he's solid plus in play-ups with 31, for #2 on the Increase Index. It's underlined at 4*--and you can expect at least one more more forward next week--and possibly two. Our guess? #2 behind Van Halen.

Deep Purple, "Hush", Mercury.... You've got to admit--it's a rare remake by the original band that scores this big this fast. It moves 47-41* this week, with new air on KGB, KMBY, WCCC, WCMF, WONE, WSTZ and KNAC. WNEW has it up in play, with no decreases and heavy rotation at KISS, KKZX, WCKW, WFYV, WHCN, WNEW and WTPA.

John Norum, "Back On The Streets", Epic.... I'd think that after Europe the fill-in would be a little faster for the man who was a large part of that sound--but it does look as if the pace is picking up appreciably. John's new on KOME, WBCN, WHCN, WHJY and 5 more, with WCMF increasing, and KAZY, KBPI, KQRS, WCMF, WEZX, WLZR and WQFM all reporting heavy. It's clearly got the stamp of the champ from that Upper Midwest Research network--so expect continuing acceleration.

Brian Setzer, "Rebelene", EMI/Manhattan.... The Stray Cats' success inspired scores of imitators--and paved the way for a number of legitimate roots rockers to finally get the market share the genre deserves. And now that the follow up has him out of those saxophone infested suburbs and back to those rockabilly basics--let's give the boy a break, OK? WHJY, WMAD, KBOY, KATP and four more did this week, with WBCN the Kahuna call letter already in. Hey, if it was Bruce, you'da added it yesterday.

Poison, "Fallen Angel", Enigma/Capitol.... If you played "Good Time", then you've got to play this. It's more formatically compatible, and at this stage you've seen those Billboard numbers. KATP, KJJO, WCCC, WCKO and WIMZ add, with KISS, KLOL, WPLR and WQFM already on board. Count on a debut next week.

Tracy Chapman, "Talkin' Bout A Revolution", Elektra.... Elektra's really a couple of weeks away from the big push--and at the rate this record's cranking out those quarter of a mil ten days, it should hit platinum about the time Mr. Cook calls you regarding your thoughts on "Revolution". Why not be like those forward thinkers at stations like WNEW, KBCO, KLBJ, KILO, WFNX, WMAD, WZEW, WWRX and WCCC and add it...say...when you feel like it. Take it from WKRR's John Amberg, "We continue to get great response around here. The calls are flooding the phones from your basic upper demo females with a healthy dose of male interest as well." Up 94-83*.

Rod Stewart, "Dynamite", WB.... The overall chart movement and heavy report quotient says to expect easy top 10 status here. KQRS, KISS, WCCC and several more show Power rotation, with 47 more heavy--and you know that total's going to build. KBPI, KKDJ and WKGR increase, with Top 5 phones at KISS, WKQZ and WRKI. Currently on 140.

World Radio History

Patti Smith, "People Have The Power", Arista.... WKDF, KNCN and KMJX log in with adds; KATP, WDHA, WJXQ, WNPQ, WONE, WXLP and KUSF show increases. Factor in Top Five phones from CFNY, KTCL, KUSF, WBCN, WFNX, WPDH and WWRX and you've got a record ready to move on to the next plateau. Our calculations say that should happen around the middle of this week, when the album finally hits the stores. Expect serious listener interest in the title track and "Up There Down There".

Elton John, "I Don't Wanna Go On With You Like That", MCA.... While the current state of things might not quite have Elton back to his glory days, you do have to respect 134 adds so far--and the 13-11* move this week. It comes about via adds from KRQR, KZOQ, WEGR and WGLF and Increases from WCCC, WRXL, WVVV, WPDH and 5 more. Also interesting to note Power play at KYYS, WAAF, WCCC, WHCN, WLUP, WMAD, WMMR, WPYX and 12 more--and heavy action at another 57. Now Top 5 at KYYS, WKLC and WNPQ.

Hurricane, "I'm On To You", Enigma.... This power pop rocker continues to rack up points with stations that believe you can't keep a good hook down. Increased airplay on KSJO, WEZX and WQFM indicates how well this neat little stylistic cruncher will perform given a shot. Continued Heavy airplay on WRXK, WHJY, KQWB and KATP look good but let's get serious about that Power play on KLOS and KJJO! These guys nudge up the chart 38-36* and get ready for a little overdrive action to hump it into the upper third of the chart. Don't lose out on this audience pleaser. WRIK, KXBR and powerhouse KBPI all report top five phones.

Pat Benatar, "All Fired Up", Chrysalis.... She rules rotation this week--with 39 play ups topping the all knowing, all seeing Increase Index. That's as real a readout as you're going to get. Not that requests don't count heavily--and there she's sitting pretty with 21 mentions and the #7 National position. 22 now report the song in Power, with 91 more in heavy. And the 8-5* HH advance? Easily the most powerful gain on the chart this week.

MORE HARD ACTS

Melissa Etheridge, "Bring Me Some Water", Island.... This lady is bucking the odds and coming up with a winning combination of song and voice that has programmers sitting up and taking notice from CFNY to KISS with KXRX and KLBj upping rotations. "Melissa is one of the few women who can belt out a rock and roll song with conviction", says **Karen A. Small** at **WGIR**. She gets those phones hopping also at stations like KBCO, WMAD, WZEW and WHTG. **Scott Laudani**, **WHEB** sez "Melissa has what AOR is thirsty for, rich female vocals with passion. Tracy broke the barrier and Melissa is next in line." Check that 48-43* move on the Hundred and watch those 71 reporting stations bloom next week.

Rhythm Corps, "Common Ground", Pasha.... KYYS, WDIZ, WKDF and WKLS all join in this week and swell the reporters on this ear-fave to a 33-31* run around the block. "The Rhythm Corps is a real jock favorite right now. I get real positive feelings everytime I hear the song," sez **John Amberg** at **WKRR** and he seems to be echoing the positive vibe on this band from those vicinities where it is getting some exposure. Premium players KLOS, KATT, WOUR and WCCC have all increased their rotational pressure and phones are shaping up nicely at WRKI, WEQX and WDHA.

Shine, "This Wall Of Hate", RCA.... The Hard Hundred welcomes a newcomer this week as the intriguing fusion of Shine debuts at 100*. Adds this week from KJQN, WCCC, WKXL and WMDK bring the airplay total to 22 stations on including calls as diverse, (in geography and ideology), as KROQ and WNEW. While we know the collective desk of the format is flooded with plenty of new music crying for your attention, "This Wall Of Hate" has a hook that will hypnotize and deserves more than a casual listen or two. Rotational support is increasing already at KFMU...Check it out.

Aslan, "Loving Me Lately", Capitol.... Unfortunately, it's now a fact of life that every band to emerge from Ireland is going to inevitably be compared to "You Too Know Who". But with the passion in these grooves, Aslan proves that they have a sound all their own. And it's the sort of sound that works for KBCO, KKDJ, KOZZ, KVRE and KZAP. These stations join what we see as a growing list of quality supporters for a band that is bound to leave their mark. Chart positions don't lie, especially that Hard Hundred jump of 95-89*.

Robben Ford, "Wild About You", WB.... For a long time Robben has been praised as the consummate guitarist. That is often a nice way of saying, "No thanks, I'll pass", but not in this instance. With "Wild About You" Robben proves his vocal and songwriting skills ain't too shabby either. The action is mostly on the West Coast but the crest of the wave can be seen forming with adds on KBCO, KKDJ, KOZZ, KVRE and KZAP. Mr. Ford is right on the edge of cracking the chart and a few inner ears along the way. The man is a rare talent, stay tuned.

Britny Fox, "Long Way To Love", Columbia.... Here they come and nothing known to man can stop their onslaught. Britny jams 'em and slams 'em like a tough night on the wrong side of town and the effect is pure rock and roll bliss on reporting stations KOME, KMJX, KJJO, WCCC and WHEB. That 55-50* jump is looking pretty healthy with a total of 76 stations getting behind the Fox frenzy. You might not want to spend too much time in their cruel shoes but you couldn't find a better group of guys to set your night numbers on fire. Guaranteed ground zero impact for your core.

Paul Kelly, "Dumb Things", A&M.... This album kills! Paul Kelly is a master songwriter with the ability to jump in and out of more skins than Boa boot manufacturer. His vocal range and clarity of lyrical vision would be enough to guarantee "sensation cum breakthrough" status for the man. But add to that his musical expertise and the music of Paul Kelly looms large for the future. 66 stations are among the believers with WEBN already in Power and CHEZ, KLBj, WIMZ and WKQQ increasing their airplay this week. Paul gets a 57-53* push this week for "Dumb Things" and the only IQ test around here is for those who can't hear this sterling track.

The Bible, "Crystal Palace", Chrysalis.... Looking for that piece of atmosphere for your playlist that will generate instant and intensely positive response? Well, this vaguely surreal piece from the Bible is just the ticket for those speakers that have been bashed into a pulp by too much lower demo tweaking. CHOM, KMOD, KTYD, KRQU and WVVV have all added "Crystal Palace" this week, nudging that total to 44 and the Hard Hundred ranking 72-70*. Heavy airplay on WRCN and WBAB might indicate a Long Island conspiracy but the circle of emphasis play also includes WGTU, WHTG and WMDK.

Gary Wright, "Who I Am", Cypress/A&M.... This week Gary gets some steam in his boiler with WLLZ, WIBA, WCCC, KZOQ, KMOD and KBOY getting his track on the air. While "Who I Am" is distinctively Wrightesque it is also represents some welcome shifts in his musical direction. Gone is the almost self-conscious style of relegating everything to the keyboard. There is a refreshingly "live and natural" sound to much of the instrumentation and the change works wonders. "It's the kind of song that we can play right through afternoon drive. This could be the perfect song to reestablish his career", so sez **John Amberg** at **WKRR** and the man speaks the truth.

top of the Winners Chart is **Gregg Allman** who debuts at 10* with a little help from WLLZ, CFOX, KGB, WMMR, WBCN and WNOR. Gregg's sound is integral to any good AOR and new material from him is most welcome.

No stranger to the upper reaches of any chart known to man, **Huey Lewis** breaks onto the scene with a 12* debut that is going to roll into the Top Ten like a steamhammer on steroids. "Perfect World" gets the red carpet treatment on KSHE, WEBN, WZZO, WLLZ, KGGO, KWHL, WOUR, KTYD and KISS. Huey and the T-of-P horns sound like a multi format mutha if there ever was one. Insta phones attest to that with top five status already at WNOR, CHEZ and KVRE.

The middle of the chart shows some road tested momentum monsters with the Kings of that turf, **Guns And Roses**, leading the way. Play increases at WOUR, KBPI, WIOT, KZAP, WDIZ and KKDJ point the way for that 25-14* stomp up the Winners Chart. Steve Winwood has positioned "Holding On" for a maximum overdrive push into the top of the Winners Chart as well. WEBN, KGGO, WZZO, WKDF and KBCO are among those finding this depth track the perfect compliment for the lead single. "The Dead Heart" marks yet another format win for **Midnight Oil** with WDHA, KOME, KMJX, KISS, KGB and WBCN adding their rotational pressure to that 30-23* leap on the chart. The video is just beginning to roll so get ready for more listener awareness. The **Jimmy Page** onslaught continues with a 37-24* move for "The Only One" and support on KISS, KSHE, KQRS, WONE, WNEW and KEZO. Page's speaker shredding guitar and that Plant vocal guarantee a positive response from the listener at large. **The Scorpions** have done well with "Believe In Love" and WLLZ, KGON, KEZO, KMOD, KLOL and KAZY are riding their coat tails with the kind of airplay that makes a 48-26* move look like the start of something monstrous. The last of our developing tracks is **Crowded House** with "Better Be Home Soon" finding the welcome mat laid out at KLPX, WAAF, The Loop, WDHA and CFNY. At The Loop this track goes into Power this week so stand back for some serious follow the leader increases next week. Neil and the boys get a 38-27* bump this week with a lot more of the same in the works for what has to be called inspired Aussie Swing.

New stuff on the chart this week has the **Fab T-Birds** getting a helping hand from WFBQ, KYYS, WDVE, WOUR, KBCO, KLBj and KSHE. The boys from Austin hit the chart at 31* and we track big growth for them in the weeks to come. "Gypsy Road" from **Cinderella** is a great mid-tempo piece that has found a home at WEBN, KMOD, KLOS, WRKI, CFOX and WLLZ and a 34* on the Winners Chart as a result. **Deep Purple** gets some high profile treatment from WONE, KGB, WNEW, KISS, WHCN and WFYV this week. The band tips their hat at 43* with a flourish among format leaders that hints broadly at more headroom for this classic redone.

Summer wouldn't be summer without another **Caddyshack** film. Well, maybe it would, but that **Kenny Loggins** track is certainly well received on KBPI, WDIZ, WPYX, KGGO and WCMF. Kenny is doing some tentative dates on the Westcoast borscht belt and advance info is encouraging. So get behind that 45* debut and remember to swing clean through the ball. **Van Halen** continues to roll with "Mine All Mine" cycling up for their turn on the chart. This depth cut gets airplay on KRXQ, KMOD, WPYX, KLOL, KILO, WIOT and KDKB with a 46* this week. **Melissa Etheridge** rounds out the report with "Bring Me Some Water" picking up play on WBCN, CFNY, KISS, KLBj, KZAP and KBCO. Melissa can sing with the best of them and this song is structured to showcase her vocal skills to the utmost. Join the parade and watch that 47* get into orbit.

The growth within the Top Ten this week sees **Pat Benatar** juicing up a 10-4* run with help from The Loop, WPYX, WBCN, KGB, KLOS, KLPX, KPOI and WMMR. "All Fired Up" is doing some real chart damage and the album is going to dynamite preconceptions left, right and center. **Robert Palmer** is trailing Pat in a photo finish with an 11-5* week that racks up Power play already at WZZO, WCCC, KLAQ, WMMR, KQRS, WRXK and KYYS. The man with the weaver libido is back and bigger than ever before, don't get left behind. New to the

Who wrote and recorded the 70's classic "Dreamweaver"?

What American musician crossed the Atlantic for seven years of Spooky behavior?

UPPER MIDWEST BROWNOUT

With deadline approaching, my brain is already beginning to heat up. But then Bwana calls on his cellular to tell me that the airconditioning is down and out at the homebase hotel for the Conclave this weekend. In addition to that my friends on the weather channel, (a great American institution), tell me that those huge red patches denoting temperatures in the upper 90's are blanketing the Twin Cities. Oh well. I had hoped to really dress for success this time out but it's starting to look like a real bermuda shorts weekend for yours truly. The radio turnout should be pretty healthy this year and we are all excited about the prospect of seeing some of those Midwest "voices on the phone" who we know so well. See you at the panels or down by the pool!

YUKS 'R' US

Imagine **Howie Mandel, David Letterman, Robin Williams, Richard Pryor and Paul Rodriguez** in one spot at one time. The event in question is the "15th Year Class Reunion" of the **Comedy Store** and you can send your listeners to it for some major league belly busting. The package includes travel, accommodations, rental car, dinner and the show itself at the revered Comedy Store. It's the comedy concert of the year and you can get next to it with Music Awareness Promotion. Give Jon a call at (800) 634-5043.

CHANGES AT ARISTA

With things getting good over at **Arista**, (more AOR acts than ever before and a string of big wins with the format), the company that Clive built is getting ready for some gear shifting on both coasts. Look for **Jay Ziskrout** to return to his beloved New York where he will be working more closely with **Sean Coakely** in the AOR field. Meanwhile, out on the Coast **Hillaire Brosio** has been made Manager/Westcoast Rock Promotion as Jay packs his bags. Hillaire had spent a short stint with Frontier prior to this move to Arista.

OREMAN OVER THE TOP

The announcement hit our desk that **Alan Oremen** has been appointed the new Director of Album Promotion for Columbia on the Westcoast. Not really news, Alan has been holding down that desk for sometime but the official word just got to us. Alan is a 12 year vet with the label and had been doing the local job in Atlanta prior to this move. This promotion puts Alan squarely in Jim McKeon's old shoes with the label.

ONE DOWN-ONE TO GO

In a recent transaction NBC divested themselves of WKYS/Washington in what will prove to be the next to last such deal left to the corporation. **Albimar Communications** picked the station up for an undisclosed amount and will add it to their KDAB property in Ogden. That leaves only KNBR/San Francisco to be sold and then the NBC radio empire will only be a page in a history book.

Andy Summers and Stephen Bishop mugging at a reception for Andy's new instrumental album, "Mysterious Barricades". It's nice to see a former member of the Police who can still smile, don't ya think?

NMS COUNTDOWN

July 16th through the 20th the **New Music Seminar**, (number nine that is), will take over the Marriott Marquis in New York City for an exciting, if unpredictable time. This is the first year that the showcase gigs will be open to the public. With a single pass new music fans will be able to attend approximately 80% of the shows this year whereas 95% of last years shows were effectively closed to the public. Check out Hard Report Alternative Editor **Dawn Hood's** Monday panel on Alternative Radio and after that hit the exhibition hall for some extra kicks. **BMI** has built a remote broadcast studio for interviews and programming by local college radio stations that should be a lot of fun. Another highlight will feature **Phillip Glass** performing his "Music In Twelve Parts" on Macintosh equipment. Phillip will simply strike a single key and the 45 minute composition will be played completely by the PC. The future is definitely now at the NMS. As for me, I'll be holding down the pivot seat at the revolving bar looking for the guy in fishnets and codpiece who showed up last year with his midget girlfriend on a leash. There's nothing like a little colorful New York crowd action to make those zombolas go down like lemonade.

Entertainment Tonight's **John Tesh** getting pensive above the mixing board for his work recording the music CBS used on their Tour De France coverage. We thought about saying something really snotty about this smarmy pose but it's just too easy. We'll let it pass this time, John.

WESTWOOD ONE UPDATE

David Bartlett has been named the new VP/News and Programming for the conglomerate's **NBC Radio Network**. Bartlett has been working with Talknet for the last two years and will be responsible for all news and programming on the reconstituted NBC Radio Net. A veteran of the Voice Of America, Bartlett got high praise from **Norm Pattiz**, "David is one of those exceptional people who stands out in any organization fortunate enough to have him." In other corporate news, the acquisition of a 50% interest in WNEW-AM cost the firm \$11 million. WW1 will be in charge of the station's overall operation subject to FCC approval.

CAPITOL AND CATHY

The word out of the Tower has **Cathy Lincoln** signing on for duty as the Director of Alternative Marketing for the label. The position is a newly created one and part of the company's move to up their alternative profile. Cathy had been working at Warner Brothers for the previous four years.

TRANSTAR TALENT HUNT

They are looking for a fulltime airtalent over at Transtar's Niche-29. **Kurt Kelly** called to tell us he needs someone who is up, topical and has a style that isn't too regionalized. If you want to know what they sound like give the listen line a call at (213) 466-1625. We did, and heard Kurt backselling **Richard Marx** and teasing some upcoming Thin Lizzy as the forerunners of U2. The sound is up and familiar and they want your T&R now. Send it to Kurt at Transtar, 6430 Sunset Blvd., Suite 401, Hollywood, CA 90028.

DEREK DUCKS OUT

With all the news about PolyGram A&R ace **Derek Shulman** looking at that vacant ATCO President's chair, the amount of buzzline gossip is off the scale. At first the whole issue was pooh poohed because nobody could see how anyone would walk away from all the thermonuclear bucks that his big wins at the label had stockpiled. Well, you can scratch that speculation because word has it that Shulman has already resigned at his old label and is currently on vacation and way out of touch. Whether this is all part of Derek's glidepath into that ATCO job or not, something huge is in the works. My money is on the ATCO angle.

Bill Black has been named the new National Sales Manager for **Atlantic Records**. Bill has been with the company for ten years as their Regional Marketing Manager for the Southeast and the Southwest prior to his promotion.

THE RADIO RUMBLE

WSHE/Miami continues to twist slowly in the wind. After pumping a lot of sunshine about Charlie Kendall and his morning show, the station dropped the other shoe loudly and from a great height when they let Charlie go on Tuesday. When we called Charlie he pulled his best world weary smokey voice and said, "It's been an extremely long 15 months and one hell of an ordeal. I'm definitely looking forward to getting back into broadcasting." Charlie is available for curbside wisdom and general observations about the nature of life in radio at (305) 563-9406. Along with Charlie, his Promotion Director John Bloodwell was also put out to pasture. John had worked with Charlie at WMMR and his bio includes W4/Detroit and WYSP/Philadelphia. When contacted by NOISE John said, "This has all been very strange. I mean, radio is strange anyway, right? But this is the weirdest thing I have ever been through." John is a seasoned pro with promotional experience in major markets. His work is top notch and he is ready to relocate immediately. Do yourself a favor and give the man a call at (305) 584-0023.

KPOI/Honolulu named former **KXOA/Sacramento** programmer Paul Mitchell to their vacant PD slot following the departure of Greg Mundy. GM Mike Vassar told NOISE, "Paul has the programming and organizational skills we need to win in the competitive Honolulu market." Andy Preston will remain on site as MD. The station also staged one of their very successful platinum promotions with Aerosmith this time out. The winner got a night on the town, a chance to rub elbows and other appendages with the band and, best of all, a platinum record of their very own to take home. Nice job!

WHTQ/Orlando former PD for a day Neil Mirsky has surfaced at **WTRG/Raleigh**. Neil will be programming the A/C outlet for Capitol Broadcasting and the lovefeast between company and man is off to a torrid start.

WAAF/Worcester wants a somnambulant rocker with the juice to make all-nights really sizzle. If you love getting up in the afternoon and can share the mystery of overnights with an audience, get your T&R to Harve Alan.

WZBH/Ocean City kicked off their new format with a few treats for the market. Before signing on their AOR mix the station played 24 hours of Beach Boys music non stop. (Reprise must have loved that, Steve), Then at 12 noon they unveiled some special production via a piece created by Matt Walsh from 96 Rock in Atlanta. The 15 minute image intensive piece announced the station's intent to an audience that had been titillated with a press conference and plane towed banners along the beach. The weekend got going with a beach block party that featured a ton of tie-ins with local groups and clubs. Then, just to ice the cake, the station co-sponsored the 4th of July fireworks. Looks like Steve Becker and the boys are off to a smokin' start.

WGIR/Manchester conducted their 11th Annual Blood Drive recently and it was an overwhelming success. 14,000 people have been directly affected by the station's efforts and, to mark their good work, the State of New Hampshire proclaimed "Rock 101 Blood Drive Days" for July 14th and 15th. Pictured are WGIR's Jon Erdaht, the Red Cross' M. Ballard, Governor John Sununu and WGIR's Kevin Hamilton. They originally wanted to pose in white smocks with ten inch needles but the marketing department thought that a bit extreme. Frankly, so do we.

KFMH/Davenport was on hand for the Quad Cities Blues Fest '88. 40,000 plus blues fans jammed for the three day event with folks like Koko Taylor, Lonnie Brooks, Room Full of Blues and Lonnie Mack. The event was broadcast live on the station for the full run. Sounds like a rib and beer delight from where I sit.

KZAP/Sacramento gives the people what they want. With water a real problem in crisped out California, the station got a 5,000 gallon water truck and the morning show went around watering lawns for listeners sporting a lawn sign announcing, "I want to be hosed by KZAP." The KZAP Hose Job looks like a big winner with those parched valley types.

KVRE/Santa Rosa has been officially taken over by Keffco Inc. The company is owned by veteran broadcaster Jim Kefford who also picks up the reins at KZAM/Eugene along with an assortment of Northern California properties.

KRQU/Laramie juggles the personnel roster with Tony Montoya leaving for KKAZ/Cheyenne. John McJunkin is the new APD and will split music duties with new PD Matt Roberts. John is also going to move from nights to middays to better handle your calls. Also, Dean Wood has been upped to Ops Manager at the station. Dean has been with the station on the AM side for the last five years and will oversee day to day operations at both stations.

KFMG/Albuquerque former PD Karl Baehr has left his position with Sun Media after four months. Karl and the Sun Media group were positioning for a new station in the Albuquerque market but the delays had outdistanced any promise of potential for Karl. "This is a disappointment for me but I really don't see an option right now. There has been no forward motion for months now and at this point I feel I have to let this whole thing go", said Karl when contacted by NOISE. Karl is open to other opportunities although it's pretty obvious that with his talent he won't stay on the rack for long. You can reach him at (503) 828-0488.

WNGZ/Elmira MD Charlie Foster announced his departure from the station to pursue options on the promotion side of the fence. That means that the station is looking for T&R's to fill his fulltime position. The post may or may not include the MD job, it just depends on your skills.

Q-107 tied into the **Monsters Of Rock** tour and sent Joey Vendetta for some lounge talk with Eddie. Does Eddie have any other grin?

KBOY/Medford got a busload of Southern fried rockers and headed upstate for the Lynyrd Skynyrd and Rossington tour in Portland. Those lumberjack types got pretty dang excited when they saw their favorite Dixie doodlers onstage and the residual action on their request line is ongoing. Thanks go out to MCA's Freddie Zaehler for all his help on the scene.

CFOX/Vancouver made a few staff changes this week. First is the word that Karen Hewko is out as MD and Ross Winters is her replacement. Ross comes from their CHR sister station one flight up from CFOX. The other news from up North is that a new morning team consisting of Larry Hennessy and Willie Percy is on the air. The "Larry and Willy Show" comes over from CKPR/Thunder Bay where men are men and caribou are a snack.

“Melissa Etheridge is one of the few women who can belt out a rock and roll song with conviction. ‘Bring Me Some Water’ will undoubtedly leap out of the radio, grab listeners and not let go.”

ISLAND

WWCK/Flint was on hand for the big Airshow '88 and jock Jon Lockwood got a shot at tossing his cookies when the Ray Ban Gold acrobatic team took him topside for some "Hun in the sun" action.

Here we see Jon getting strapped into his parachute while repeating, "There's no place like home", until the pilot slapped him.

Here we see the Ray Ban team going through their paces with a couple of sweet little machines.

WEQX/Manchester has been voted Best Rock Station in a poll taken by an area entertainment magazine. The station nailed down some heavy ballot action from within the Albany metro which is a healthy indicator for Andi and her squad.

WYBB/Charleston hits the air with Brian Krysz in the driver's seat and a hybrid format that has them hopping down South. Formerly WCCG, the station has moved dial position to 98.1 and upped their power to 50,000 watts. Claiming that most AOR stations are just rock A/C formats, Brian is playing much more core product with an edge and has a 40% current profile. The station has no affiliation with a consultant and plans none in the future.

WMMS/Cleveland morning talent Roberta Gale has left the station and is looking for other opportunities in the Sunbelt. Roberta can be reached at (216) 521-0365. And what's all this stuff we hear about Kid Leo? Could it be that something is on the horizon? Our rumor-o-meter sez, "Count On It".

WOXY/Oxford MD Ken Glidewell is Cincinnati bound. Ken is headed for WEBN and some airwork. Back at the ranch they are handing the metal duties over to Robin Plan and a new MD should be announced very soon.

KWHL/Anchorage competed in a local sand castle competition and won an honorable mention for their efforts. The category? Most sensuous entry. Seems those cabin fevered polar personalities crafted a rock and roll mermaid that melted a few icecaps at the competition.

WIZN/Burlington remains standing, but just barely, after a whirlwind session with Sam Kinison prior to Sam's local how. Steve Cormier and Tom Van Sant are also issuing a standing challenge to all record types who want to take them on for some links action. So far, record reps have been falling fast and furious to their swinging sticks.

WIOT/Toledo counted 500,000 people at their 4th of July Fireworks display. The show was helped along by a synchro-soundtrack and the locals were mightily impressed. As Jim Steel says, "Nice way to finish out the sweeps."

WKWQ/Columbia PD Ron Marsh has resigned citing health reasons. He remains with the station and his replacement has not been announced as of yet. The company is inclined to replace from within and an announcement should follow very soon.

KTWV/Los Angeles recently raked in the gold at the 1988 International Radio Festival in New York. The station got tops in the categories "Magazine Format" and "Best Talk Program". The station also got an award for their "WAVE Aid" music package that benefited AIDS Research. As for all that gossip that Lee Abrams had signed with the station, don't hold your breath.

WXRT/Chicago threw an outrageous 4th of July party for 100,000 close and personal friends. Featured onstage were musical correspondents Graham Parker, Timbuk 3, Robert Cray and the Insiders and the whole event was broadcast live on the station.

World Radio History

WYNF/Tampa enlisted the aid of the Georgia Satellites to help the graduating class of '88 celebrate their ejection from a life of casual concerns into the real world. Little do those high school pooh-butts whiners realize that their little serenade from the Geo Sats would mark the end of the easy times. Ohmigod! Is that Jeff Cook in the middle of all this action?

WGIR/Manchester is among a growing number of stations that have been treated to some live Little Feat recently. So far the scorecard has been unanimous in praising the new material by the band. Look for their release to liven up the tail end of Summer on a playlist near you.

WLVQ/Columbus got drought conscious by teaming with Island artist Melissa Etheridge to "Bring Some Water" to a listener over the Fourth. The lucky winner was whisked off for a holiday weekend at Niagara Falls with all the amenities. Congrats to Andy Allen for another promotional coup.

KCAL/San Bernardino wants a morning show co-host for their team. Candidates will be responsible for topical information and lifestyle news. The station also wants a Promotion Director who is a creative, detail oriented person with a working knowledge of AOR. Interested parties should send the necessities to Dana Jang at the station ASAP.

CFNY/Toronto held their 2nd Annual Canada Day Festival on July 1st. 27,000 were in attendance and sampled the musical prowess of The Mighty Lemon Drops, 54-40, Underworld, Andrew Cash and many more. Sire's Howie Klein showed up as did WRCN's Tom Calderone. We even hear that Island's John "Archie" Souchak hit a home run at the celebrity baseball game. Whatta Stud!

GOOD NEWS

We were happy to hear that Denton Marr has been sent home from the hospital after a tragic incident with a family member left him with a gunshot wound to the face. Denton's condition is encouraging and we wish him a speedy recovery.

BAD NEWS

The Hard Report extends our condolences to the family and friends of Bob Kaghan who collapsed and died during a hiking trip over the Fourth. Bob was a true gentleman and will be missed. On behalf of all the folks who called to express their shock at his untimely passing, we would like to add our sympathy.

SAN JOSE SHAKEDOWN PART TWO KSJO KICKS IT IN

The South Bay wars have geared up and those perennial rock and roll pugilists, KSJO and KOME, have projected themselves into a new era of fierce rivalry. A very solid Winter Book has positioned KSJO for a run at their nemesis and one of the key ingredients has been morning ace Perry Stone. Perry reaps as many negatives as one would expect from an irreverent and high profile personality doing business in a market where camouflaged has been the rule and not the exception. Still, the boys at KSJO think that the flack is worthwhile as Perry starts piling up listener awareness all across the Bay. Musical changes have increased the dial swapping outside of morning drive and the difference could take a few more books to shake out. The man on the spot is PD Ken Anthony who took some time to talk to the Hard Report about how things are developing.

JT.... You've been in the market for a long time Ken, how do you see things going right now?

Ken.... I started working for KSJO in 1981 and I have done everything from Middays and research during the Sebastian years to programming the station since September of '86. Everything about San Jose has grown during that time. Once our downtown was a ghost town but now we have a light rail system working and a new hotel and financial district along with great retail pavilions all helping to cultivate a modern and hip looking downtown. We are working on a 20,000 seat arena. We may even move a pro sports franchise into this area as well. Like everything else, income has gone way up with the heart of Silicon Valley still looking like a boom town. The demographics are very strong 18-40 and very young and affluent as well. I'm impressed at how things have changed for the better here.

JT.... How does the South Bay differ from San Francisco as an AOR market?

Ken.... I think it has a lot to do with the demographics. San Jose has a very young rock and roll audience to work with. It's kind of like a high tech Cleveland. People really love to rock in this market. Make no mistake, San Francisco casts a big shadow and it's hard to compete with it in terms of culture and liberal lifestyle, it is a very fascinating city. But when it comes to good straight ahead rock and roll, we hold our own. San Francisco has a huge Asian population and a Gay population that is very dance oriented. Oakland is very ethnic so soul music does well there. Down here people want more straight ahead rock and we deliver that. AOR needs a kind of street hipness to overcome the limitations imposed by the music when it stands all by itself. I'm not sure that the San Francisco stations have managed that very successfully.

JT.... The big story has to be Perry Stone. Give me the run-down on your new boy.

Ken.... His impact has been tremendous. He is a new phenomena in the Bay Area without a doubt. I mean, Alex Bennett was the closest thing to him but Alex relies on shtick for the most part. Perry is very unique and so is his style of radio. He is also a very likable guy and doesn't take himself too seriously. The show is very fast paced with lots of produced bits and great phone interplay. He has had his share of controversies and I have been in the middle of it but he has certainly shaken things up. Let's face it, radio has been fairly boring around here.

JT.... What about those controversies? How did you guys work out that initial storm of negativity?

Ken.... Those negatives are still there, they are an everyday part of my job. I take a lot of calls and have to deal with them and the letters that come in complaining about Perry. But there have been a ton of positives also. The ratings show that he is pleasing a large number of people. It's hard to pinpoint exactly what he does that gets people so upset. Things like Kittyball where he plays baseball with kittys instead of balls. I get calls from the humane society and cat lovers screaming

at him but, hey, David Letterman put a cat in a blender on his show, it's just part of the act. And Perry owns two cats of his own. Then he'll do some racial humor like when he spoofed the Oakland Olympics with bits like Hubcap Stealing or Prostitute Figure Skating as events. This is really hilarious stuff but people get upset because it's racial in content. I have to tell you though, a lot of the underdogs in Oakland have come out to defend Perry in a big way. The way I look at it, he will offend just about everybody in a democratic fashion. Nothing is sacred, except the FCC limitations of course. The man will tackle just about anything in his own warped way.

JT.... How has Perry had to adjust to the market?

Ken.... Perry came out here without his partner so we looked for someone different from him to work as a foil. He's the typical New York macho loud mouth and Trish is the blonde sushi beach babe. Great comedy teams have always had a good yin/yang to their creative tension and that's what we have created here. After the gay blowout that got Perry fired in Milwaukee, we knew that he would have to watch that angle a bit. In fact, he now has a few regulars who are gays. For instance he will put in a call to Gary the Gay Guy about some subject and let him talk from that point of view.

JT.... How do you separate yourself from the competition?

Ken.... My philosophy is that you have to play the course and not the man. Give the audience great radio and they will respond. KOME is a good station with great backing and I respect them a lot but I don't go out of my way to track them all that much. We just try to do our best and do it with irreverence and a sense of humor. That makes all the difference for us.

JT.... How do you respond to the rap that you simply copycat them?

Ken.... That's a Pollack ploy if ever I heard one. I can give you five to ten examples of stuff that they have copied from KSJO. If they think that we spend our time and energy trying to copycat them, that's an absolute joke. It's a common Pollack trick to take something from the competition and do it double over to make it seem like your own stuff. Our audience is a hell of a lot smarter than that.

JT.... How do you see KOME hurting themselves in the market?

Ken.... They reacted to Perry in such a way that we have to win. It's interesting how Dennis Erectus is back on the air now. They would send out their sales team to badmouth Perry and then the programming team would promote Dennis on the air. Now Dennis is the prototype of the shock jock who goes for a cheap shot and they had to let him go at KOME because of that. Now that they have gone back to using Dennis, even if only on the weekend, all of that badmouthing on the street has absolutely no credibility. As for the morning show, it sounds to me like they have tried to be the total opposite of Perry. They play lots more music and the music is much softer than before. They counter just about every element that makes

Perry special and by doing so they are executing an about face from their own previous position. It's just not working. Perry is third in the market they are eighth, period. Another thing, Perry really likes his listeners and they react positively to that. There is no jock snobbery in his approach.

JT.... What do your instincts and the trends tell you is next for KSJO?

Ken.... First you've got to take a look at the big picture. A year ago they had 5.4 and were dominant in all key male demos and we had a 3.0 and were just hanging in there. Now, we have a rock solid morning show and they have dropped to a 4.6 while we have risen to a 4.5 and are now #1 males 18-34. That's how I look at it. What could happen a year from now, who knows? We pay attention to the audience and let the rest take care of itself. I'm aware of the competition but I don't overly concern myself with them as much as they obviously do with us right now. It's a great position for us to be in.

JT.... How do you respond to the rap that Westcoast radio just isn't up to snuff and that's why there are so few truly dominant AOR's on the coast?

Ken.... It just ain't so Joe. When you talk about market dominance itself you may have a point but the transience of the people that make up those markets out here makes that goal far more difficult. People in Boston have grown up and lived with WBCN all that time, of course they are going to do better because the audience is more entrenched. There are people in Philadelphia who have never left the county they were born in. Not so on the Westcoast. KSJO has been here 20 years but maybe 1/3 of our target audience is brand new to the market and the station. That's the nature of the Westcoast and the boom-bust cycle of these towns. Also, that sunbaked laid back attitude definitely is a factor. The Giants have to work twice as hard as a team like the Cubs to get people to come out and support their ballclub. Why? Because of all the things for people to do out here. If a team isn't doing well you go to the beach, or the racetrack, or the mountains or out with friends. Radio definitely goes along with them but it plays a much more passive role in their lives. It takes someone like a Perry Stone to come along and make them say, "Holy Shit, that's my radio doing that stuff!"

No doubt about it, the KSJO-KOME feud would do the Hatfields and McCoys proud. With charges of mimicry slinging around and the numbers balancing to a neutral point one thing is certain, it is anybody's game from here on out. The new found confidence at KSJO stems directly from their Perry Stone trump card more than any other single element. So next week we will compare the morning shows at KOME and KSJO head to head with some numbers to help flesh out the story. It should be interesting and if the market race hinges on what happens in that daypart you better believe it will be crucial to who's smiling and who's not by the end of Summer in San Jose.

The Primitives "Lovely" (RCA) As relative newcomers to the British pop scene, this band took the press by storm and found themselves high in demand upon release of their earliest singles. Dense layers of electric guitar and a quick pace beat are the blueprint for their variations on simple melodies, and lead singer Tracey Tracey grabs the vocal reins and guides you swiftly through an impressive album debut. Although "Crash" has been available on import, it's easy to see why the release was delayed for summer arrival. The light whispery vocals and danceable energy help plant the song deep in your memory, just one of many gems on the record. The heavy hitting guitars and repetitive choruses are another musical factor, much like that combo was for the Ramones, Jesus And Mary Chain and the Go-Go's, and there is something to be said about a wall of noise with formula pop strategy underneath. Trashy or trendy, the band's indirect link to the late 60's Velvet Underground sound is another haunting connection that lurks in the mix. Non-stop strumming will keep you spinning with cool ones like "Carry Me Home", "Run Baby Run" and "Ocean Blue", and the psychedelic "Shadow" is a one-of-a-kind experimental success. The Primitives might come off smooth and sweet, but the mingling of music and atmosphere on this "Lovely" album sets a small miracle into motion and makes you wonder what ever happened to the Way Outs.

The House Of Love (Relativity/Creation)

When I first caught wind of the name, I became slightly numb [oh no, not another "house"... Housemartins, Crowded House, House Of Joy, House Of Schock, House Of Freaks, The Red House, The White House what next?!] But upon first listen it was more of a tingling sensation. These guys are, well, great! "Christine" opens with a buzz saw guitar piercing from the start, and the angelic harmonies and flowery imagery will reel you in for a musical journey that awakens every moody corner of your mind. Relaxing and dreamy, the songs conjure rainy and mystic vibrations reminiscent of early Church and did someone say U2? Try a little passive persuasion and take this chiming, charming album and go wild with "Love In A Car", "Happy", "Road Sulphur" and "Hope". A new innovation in rock bands is knockin'... open the door and enter the House Of Love.

The Pedaljets "Today Today" (Twilight)

In a constant search for solid, young American rock bands to counter balance the potent British music invasion, stop and listen to another noteworthy group who have just released a fine album of solid rock for now people. With raw knocks and ragged edges and a flair for songwriting that measures up to even some Replacements standards, the Pedaljets are also another best kept secret on the American Indie scene. Why? Static guitars that make your hair stand on end, and the folks in Kansas City are real lucky to have them based in that town. Live gigs for days. I'd love to see 'em.... On a more serious note, the album rocks big with tunes like "Liking You", "One Million Lovers", "Hide And Go Seek", "Tiny World" and the stylized XTC effect of "Lullaby Alarm Clock". It's noise you can trust with cavey chord work, a crashing drum beat and home grown conviction. "Today Today" floats with a "Dear Prudence" effect, a lazy lovable ballad that will have you windswept in no time. If you are not on the Fundamental Music mailing list, here's your reason to change that: P.O. Box 2309, Covington, GA 30209.

success. His first solo album is a blaring declaration of newfound strength and refueled talent that revives that ghost from the past and makes it materialize in a new form. Jangling bells, bouncing rhythms, powerful mid-tempo orchestration and that strangely familiar voice spark old memories, and a childlike innocence surrounds songs like "Little Children" and "Love And Mercy". The hidden mischief in "Night Time" and "Baby Let Your Hair Grow Long" and the upbeat energy of "Meet Me In My Dreams Tonight" are likely to cause a chemical imbalance in some devout Beach Boys followers, but the spirit is still there and the effect is mesmerizing. "Rio Grande" is the basement tape out take to top 'em all. A beautifully crafted song that no matter how unsettling it may be, seems to pack a mini novel it a roundabout medley that is as bewildering as it is chilling.

The Fountainhead "Voice Of Reason" (PolyGram)

From humble beginnings back in 1982, this Irish duo has managed to hone a fine blend of rhythm and tightly knit melodies with brilliant production, resulting in their best album to date. A careful combination of rock and pop makes a strong showing and Pat O'Donnell's gravelly vocals deliver those hooks with a sugar coating. Flying high on U.K. success, the band is now poised for commercial exposure on these shores and it's safe to say that hit radio recognition is just around the corner, especially with songs like "Someone Like You", "Future Days" and "This Generation" in their corner.

MUSIC NEWS!

Siouxsie And The Banshees make a dynamic return this week with their new single "Peek A Boo", an offbeat dub go-go tune that is destined for dance clubs and beyond. First the single will appear with the ten minute Silver Dollar Mix by Roland (BB) Death, the 7" version and an instrumental piece. Later, a maxi single will be issued with the B sides "False Face" and the playful, bubbling "Catwalk". The new Banshees include players from the "Song From The Edge Of The World", Martin McCarrick on keyboards (Marc Almond) and John Klein (former Specimen guitarist). The full album titled "Peep Show" will be released September 6th, leaving plenty of time to spend with "Peek A Boo"!... EMI Records releases the first Ep from Ireland's **Tuesday Blue** this week, as a prerequisite for the album due July 27th. "Shibumi" is produced by Dave Richards of Iggy Pop and David Bowie fame, and showcases their intelligent pop arrangements in a new and different light. The first single will be "Love Me Simple"... **The Hard Attack CD Samplers** are not the only hot commodity out there for testing

RECORD OF THE WEEK

Seduce, "Too Much Ain't Enough", I.R.S..... From the Motor City to #5 on Hard Hitters in a few weeks time ain't too shabby a feat. With their second release, Mark, David and Chuck have firmly established themselves as one of metal's best new bands. With the first single "Any Time Or Place" they set the pace for what appears to be a very successful future. It brought them onto the charts just a couple of weeks ago and with the release of the full album they have rocketed up the Hard Hitters with a vengeance that surprised a lot of people and have given some of the biggies in the metal market something to really shake in their boots about. "Too Much..." is a really strong release with track after track worthy of airtime. Songs like "Empty Arms", "Been So Long", the title track and "Accusations" perfectly showcase this band's musical dexterity. With the likes of Shok Paris and Nuclear Assault having kicked up some dust in their time and about to do so again, Seduce may be just the push I.R.S needs to really nail down their corner of the hard rock/metal market. This week Detroit's down and dirty trio have Seduced their way onto the air at: CHEZ, KRSR, KSLC, KUNV, WAIF, WCWP, WDWN, WGBW, WGIR, WHMH, WHUS, WJUL, WKNC, WOUR, WPYX, WRCN, WWVU, KNAC, KJJO and Z-ROCK. (C.B.)

Cinderella, "Long Cold Winter", Mercury.... In all honesty, when I first listened to the advance of this record, I was a little disappointed that Tom & Co. had seemingly left the harder stuff at home. BUT, the more I listen to the whole thing the more I have come to love it. The bluesy feel running all through it is a pleasant and surprising touch. It was perhaps a bit risky for a band faced with that ol' sophomore jinx bit, to hang a 90 degree turn towards maturity. A lot of bands would have stuck to the formula that took them to platinum status, but these Philly boys have proven that they weren't just a flash in the pan and that they really are capable of producing some finely crafted, well-written songs. Keifer's vocals are strong and more and more distinguishable, having lost a lot of that Steven Tyler phrasing. While the similarities are still there, it's for sure that Tom has really begun to define his own sound. Musically, the band is of course still sounding very tight and in control. They can swing from that old bluesy "hit the trail" sound to a smooth as silk delivery on the ballads to the crunchy and rough stompers that we've come to know and expect from these guys. "Gypsy Road" was a great lead track, but there are quite a few other air-worthy songs to go deep with including, "Fire And Ice", "The Last Mile", and my current favorite "If You Don't Like It". If you want a ballad to weep by go with "Don't Know What You Got (Till It's Gone)",

and the title track. This week Cinderella is poised at 29* on the Hard Hitters and tied for #1 Most Added Metal. Looks to be a good rest of the year for this band as Jeff Ivan comments, "Cinderella is having quite an impact on our phones already, which is no real surprise. Personally I love this album. Headliners by the end of the summer due to the album". Let's hope so! (C.B.)

Winger, "Madelaine", Atlantic.... Every now and then a band comes along that just knocks you back into your chair with its obvious hit potential. Peggy Donnelly warned us that this was a killer group and that appears to have been something of an understatement. This band has all the hooks, looks, fills and trix that make a great band big. Their music is reminiscent of groups like Kansas, Kings X, VH and a touch of Bon Jovi thrown in for good measure, but what has this band really got to offer? Great guitar work, clever songwriting, smooth melody lines, excellent harmonies, heartfelt vocals, looks that will melt the young girl's hearts and... well, need we go on? Yes, we are impressed by this band, but so is 'GIR's Mr. Mike. He says, "...songs of serious, impressive rock a la Ratt and Bon Jovi. Their first single is an insta-add to commercial metal shows and hard rocking AOR's alike. Hooks everywhere will describe this tune pretty accurately. Check 'em out and you'll be looking at a huge summer smash." Kip Winger has brought together some fine talents and together they have put one of the better new releases of this year. "Madelaine" is the first 12" and it IS loaded with a strong hook and harmonies that won't quit. In other words - it shreds! With the right push and some strong label support this band could become this year's Whitesnake or Bon Jovi. They have certainly got the musical side of things well taken care of. (C.B. & J.L.)

Iggy Pop, "Instinct", A&M.... Some 18 years down the rocky road of his career, it seems Iggy has come home to rock. With a career that delved into hard rock, the original punk stylings and four years of not really doing anything, it is only right that he returns to the roots where he became a legend. With this new release Iggy has brought back the biting guitars (supplied by Steve Jones) and the visual and stark lyrics that made him an innovator in the hard rock genre with the legendary Stooges. On this record he wrote most of the songs himself with the exception of four which he wrote with Jones. On songs like the lead cut "Cold Metal" he hits hard with the pictures of a bleak and cold world that is becoming a concrete jungle. Not a new idea, but certainly in step with the times. He's come into the 90's with songs that echo with a sense of strength and determination. While the hard rock and commercial circles have begun to overlap more and more these days, the Iggster may find himself up against some youngsters just starting out on the road he's already walked. His experience and perspective may give him the edge he'll need to compete with these rookies. No doubt with "Instinct" he'll certainly give them a run for their money. Be sure and catch Iggy out on the road with Balaam And The Angel and also at the New Music Seminar this month. (C.B.)

Jimmy Page, "Outrider", Geffen.... Since the early 1960's this man has been a force to be reckoned with. Beginning as a bass player with the Yardbirds, then moving to guitar after Jeff Beck's departure from the band, then after ten years and the death of a drummer, leaving Zep, taking a few years off and then forming the now defunct Firm. Obviously he's been through a lot. This release follows the recent Zeppelin "reunions" at Live Aid and the Atlantic 40th Anniversary Party and it features performances from Robert Plant and Jason Bonham. The single "Wasting My Time", as well as the Page/Plant track, "The Only One", have had tremendous impact on the mainstream charts. Therefore it comes as no surprise that Jimmy landed on the Hard Hitters chart two weeks ago and is still on the way up, 27-25* this week, With support coming from biggies like KRSR, WHMH, WCKO, KISS, KJJO, KNAC and Z-Rock. The record itself sounds great. Fine production/guitarwork from the man and an excellent back-up band make for an album worth anybody's time. (J.L.)

D.R.I., "Four Of A Kind", Metal Blade.... These guys have had quite a history of success. Then again, with a formula that has always been nothing more than hard work and great music they couldn't miss. This record represents a little bit of a shift for the band from the "Crossover" Lp. With tracks like "Suit And Tie Guy", "Shut Up" and the love song "Too Long Gone" the Imbeciles have managed to break the hardcore image entirely. This Lp contains all of the energy, speed and power as the three previous, but with just a touch more melody and a bit more fun. Taste the fun on one of my all time favorite "anti-girlfriend" songs, "Shut Up". The lyrics for that one should be self-explanatory. Bill Metoyer's production is, as always, top-notch and pulls no punches. The songs are also right to the point, ever-moshable and herds o'fun. The first 12", "Think For Yourself", picked up a few call letters but the Lp gets the debut this week at 35*. Also check out, "Do The Dream" and "Manifest Destiny". (J.L.)

MANY THANKS....

The last couple of weeks have been both trying and emotional for me with the passing of my mother. I would not have been able to come through them quite so well as I have were it not for the love, support and understanding of a lot of great people, family and friends alike. First off I would like to thank **Bill and Collie Hard** for their understanding and help throughout the last nine months. They are wonderful people and were very understanding about my time off. In fact everyone here at The Hard Report has been just incredible. **Dawn** is one of the best friends a person can have, **Venetia** always brings a smile to my face, **Rich** is a pillar of strength and giggles, **Jim** has been there and can relate and is very understanding, **Jeff (the Slave)** was TOO cool for words and he did a great job holding down the metal section for those two weeks. **Rosalie** is a gem and **Beaver** - well he's Beav. Always a help. **Mike** and **Gerry** are going to do great here. This is also my family and I love them all. My mother would have too. Many thanks also to everyone who sent cards and flowers and to all who called to say hi and see how I was doing. Step by step I'm getting back into the chore of "going on". You've all made it that much easier. Thankyou.

METAL MUSIC NEWS

Greetings to one and all. This is Sal "Earl Of Earache" with this week's metal news happenings from around the world. This week, we will begin the first of our four part interview with the one and only King Diamond. Prepare to stop into the world of the King. First, let's get to some metal news.

We begin with news that New Yorkers are certain to jump at. Most of you should have already heard that **Paul Stanley** and **Gene Simmons** recently joined **Ace Frehley** on stage for a "never seemed like they were apart" version of the classic "Deuce". Apparently that was not the only time apple biters will get to see Kiss in their full glory. Kiss has scheduled two shows at the Ritz. The band will be showing a new set that will feature more older material in preparation for their European festival dates. It is rumored that Ace may show up. The Earl feels that this is highly unlikely. Remember, Ace will be on the road with **Iron Maiden**. The Earl suggests that you get to the Ritz though as this may be the only time you rivetheads will have the opportunity to see Kiss on a club stage.

While we are on the subject of reunions, in a recent issue of Concrete's "Foundations" newsletter, **Billy Milano** was quoted as saying that **S.O.D.** will reunite for **Megaforce Records'** 5th anniversary party. The event is scheduled to take place on August 10th at the Ritz in New York. In the interview, Milano was asked how he felt about the reunion. "At first I was pretty reluctant and upset, because I was given no choice in the matter. **S.O.D.** would reunite regardless of how I felt. After thinking about the whole situation there was a lot of bargaining that had to be done for **S.O.D.** to happen. Now that it has been negotiated I think things will go smoothly and it should make our management and label happy, and that's important." Expect bands such as **Metallica**, **Raven**, **Blue Cheer** and **Exciter** to be present for this once in a lifetime event. Personally, I'm dying to see Exciter pound out their classic "Pounding Metal".

Here's some news out of the Chastain camp. **CJSS** are currently recording the follow-up to the highly successful "**Praise The Loud**". The band is currently in Cincinnati recording the Lp and will then mix on the west coast. **CJSS** features **David T. Chastain** on guitar, **Russell Jinkens** on vocals, **Mike Skimmerhorn** on bass and **Les Sharp** on drums. Titles include "In The Flesh", "In The Horizon", "Phoenix" and "Stand Up". Meanwhile Chastain vocalist **Leather Leone** will be recording her debut solo effort to be released in early 1989. In the "**Book Of Earl**", **Leather Leone** is one of the top vocalists in the business.

It apparently started with **Flotsam & Jetsam**, continued with **Sacred Reich** and now set to usher in **Atrophy**. It is known as Sun Belt Metal. The latest to emerge is **Atrophy**. The band recently signed to **Roadracer/MCA** is set to go into the studio to record their debut entitled "**Socialized Hate**". Handling the production chores will be **Bill "Raising Arizona" Metoyer**. The Lp is scheduled to be released in October of this year. Tracks scheduled to be included are: "Chemical Dependency", "Rest In Pieces", "Preacher Preacher" and "Matter Of Attitude".

Ronnie James Dio is in the news once again. Kerrang recently reported that Dio had sacked his whole band. **THIS IS FALSE**. According to Niji Management's **Larry Morand**, the band was recently rehearsing in preparation for he recording of the new album. Any rumor of Dio breaking up is totally false. The band is well and together. Some changes will take place, though. First, Dio has proclaimed that the new album will feature less keyboards and more guitar. This, by no means, should lead one to conclude that **Claude Schnell** is out of the band. Also Morand says that Ronnie will be writing 90% of the

material for the new record. What is true about **Ronnie James Dio**, is that he was asked to rejoin **Black Sabbath**. The new line-up would have included **Dio**, **Tony Iommi**, **Geezer Butler** and **Cozy Powell**. Dio, from the start, has refused to rejoin **Black Sabbath**. He is still holding firm to this. Don't expect a **Ronnie James Dio/Black Sabbath** reunion.

Several months ago, this column broke the news that **Rough Cutt** was going to sign with **Atlantic Records**. Well, please hold off on collecting the money you have made making bets with your friends. It now appears that **Rough Cutt** will sign with **Pasha/CBS Records**. **Spenser Proffer** has apparently taken a keen interest in the band and wants them on his label. The deal could be done within weeks. The Earl will be obtaining a copy of a recent demo **Rough Cutt** did with **Ronnie James Dio** producing. Keep your eyes glued to this column for a review.

And now children, the time has come to enter the realm of the King. He has been called controversial, a genius, a mastermind and just plain sick. One thing he is is a brilliant storyteller. His name is **King Diamond**. The new Lp is called "Them" and it is the band's greatest achievement to date. Recently The Earl had the opportunity to re-acquaint himself with The King. In order to create a mood when reading this story, I suggest you turn out all the lights with the exception of a small candle. Prepare yourself.

KING DIAMOND - PART 1

HR: Compare the new album to "Abigail".

KING DIAMOND: The main difference is that you are going to hear clearly that the new album is heavier. The guitars are more up front. When it comes to the vocals, you will see that I have used the normal voice on this album. I have not used it in quite some time. It blends in very well with the other voices. The high pitches, the growls and all the stuff you are used to hearing is there. There is a big difference in the lyrics. The lyrics on "Abigail" had about 10 highlights but things were really happening. There were only things going on in about ten different places. The rest of it was characters, descriptions of characters and their mood, and descriptions of surroundings. With the new one, there are hundreds of things going on. There is more acting. Descriptions of surroundings and mood may suffer but that has all been put into the music. The music is much more eerie. There are more pieces in here that you could characterize as being horror movie music. In that respect, those two albums are a bit different. With the production, it's turned out extremely good on the new one. You can't really compare them because they differ so much from each other. They are good in their own respect.

HR: Would you say that the difference between this album and the last is greater than the difference between "Abigail" and "Fatal Portrait"?

KD: There was a giant jump between "Abigail" and "Fatal Portrait". There is a big jump between "Abigail" and this one but it is a different kind of jump. The music became a bit more complex in "Abigail". This time, it is different in other ways. The moods have been put into the music and it is so much harder. We have changed in the fact that we have put the guitars up front and made them the first priority. There is a big jump.

Next week, we will find out a bit about the King diamond tour. Be here or Grandma may visit you.

That's all from Control Center in the heart of Queens for this week. Next week, we will have part two of our interview with King Diamond. Until then, this is Sal "Earl Of Earache" Treppiedi reminding never to invite Scott Givens to stay over your house unless you have plenty of beer that was left over from a recent party. MUAYA!!!

The **Amnesty International** concert tour to commemorate the 40th anniversary of the Universal Declaration of Human Rights now seems set to include Bruce Springsteen & The E Street Band, Peter Gabriel, Sting, Tracy Chapman and Youssou N'Dour. Up to 20 venues on five continents will be included in the six-week tour which begins in London September 2. Details of the other dates on the tour have not been confirmed, though the tour will end in October in Rio de Janeiro. Amnesty lost money on two weekend concerts in Milton Keynes, England. Only 8,000 and 11,000 people attended the shows, and it's estimated that Amnesty may have lost as much as \$200,000 on the shows. Regardless, the British concerts are expected to become an annual event for the organization.

John Entwistle says the Who will record a new album this fall, but the band isn't likely to tour. "We plan to do an album in October, but haven't really discussed what to do after that," he says. "Maybe a couple of simulcasts, because Pete really isn't into touring. But even if we did a couple of gigs, there's nothing after that." Entwistle is currently looking for a label to release a 10-song album he's recorded with his own band, which includes his long-time drummer Steve Luongo. He says he's looking for "a deal we can live with."

Exene Cervenka says she, her husband, actor Viggo Mortensen, and their young child plan to move from Los Angeles next month and will end up in New York. Exene says she hopes the change of location will boost her creativity. There aren't any plans for X to record anytime soon. The band is currently without a record label. However, John Doe plans a solo album.

Bryan Ferry begins a U.S. tour August 3rd, his first live performance in five years. The 30-city tour will end September 18 in Los Angeles. Ferry says his video for "Limbo" will be a tribute to 1920s jazz musician Josephine Baker.

Earl Falconer, bass player for UB40, has been sentenced to 18 months in prison and banned from driving for three years after pleading guilty to causing the death of his brother by reckless driving. Falconer had a blood alcohol level almost twice the legal limit in November 1987 when he crashed into another car in Birmingham, England. Twelve months of Falconer's sentence were suspended by the judge, who said it was his "public duty" to order a prison term. Testimony indicated that Falconer was traveling between 60 and 80 miles an hour when the accident took place. Ray Falconer, who was in the back seat of the car, was killed instantly. Ray had served as co-producer for the band. UB40 were able to find a last-minute replacement for Earl in time for their world tour which has just begun. For the first leg, at least, Laroy Bushell will stand in for Earl.

Eric Clapton begins a U.S. tour this September celebrating his 25th anniversary as a performer. The 15-city tour begins in Dallas September 1 and ends in southern California September 23.

Tony Kaye, keyboard player for Yes, says the band is working on a new album for release in November. The band won't be touring in the meantime, because many of the members are working on solo albums.

Charlie Daniels has recorded an updated version of his "Uneasy Rider" hit of 15 years ago. "Uneasy Rider '88" appears on the Charlie Daniels Band's new "Homesick Heroes" album. The new "Uneasy Rider" takes two people through the rural south on a trip to New Orleans via Houston. They stop for a drink in what turns out to be a gay bar. The song, written while Daniels was touring last year, has 13 verses. Daniels says he had to close his eyes and concentrate to remember all the words the first time he sang it. "I had thought about doing another novelty song after all of these years," Daniels says. "At the time we did it ("Uneasy Rider"), I kind of shied away from novelty songs over the last years because it kind of typecast the band. It was hard for people to realize we were a different kind of band than the only hit they had ever heard us play. I didn't do any more in that genre for that reason. We had a lot of serious music to play. I got thinking about it and the band

is better established than we were then and I always like a funny story." Daniels says his new album is likely to be labelled as country. "People are going to say the album is more country because I think every cut can be programmed on a country radio station. But some of the cuts would also fit well on some of the other stations," Daniels explains. "As time has gone on, we've been kind of inched out of what people commonly think of these days as rock & roll. We're not a heavy metal band and never have been." Daniels has been asked to narrate an upcoming concert video being released by the Lynyrd Skynyrd Tribute Band.

When John Cougar Mellencamp finished his eight-month tour last week, it didn't mean that violinist **Lisa Germano** could take a break. Instead, she headed to Britain to join recording sessions for Simple Minds' next studio album. "They asked me to play with them at the Freedom Fest," she says. "I was pretty bummed out that I couldn't do it, but we had a show that night."

George Michael is now in Switzerland recovering from surgery at a London hospital where a cyst was removed from his vocal chords. He canceled the remaining dates on his European tour so that he could undergo the surgery. Michael is said to be recovering well, but he's been told not to speak for two weeks. The operation is not expected to delay the beginning of his U.S. tour in Washington, D.C., on August 6. "I am at least relieved that at long last the real reason for my problems has been discovered," Michael says. "I take great heart from my doctor's confidence that after the operation, I will be totally fit to resume the tour." Michael had to cancel two Irish concerts because of the throat surgery. In the week before the operation, Michael appeared with his former Wham!-mate, Andrew Ridgeley, for a concert in Liverpool, England, where 13,000 fans helped to celebrate Michael's 25th birthday.

Elton John will play Uncle Henry in the Ken Russell film of D.H. Lawrence's "The Rainbow." Filming is taking place in London this month.

Iggy Pop is going on the road this month to promote his new "Instinct" album. Former Hanoi Rocks guitarist Andy McCoy and ex-Psychedelic Furs drummer Paul Garisto are part of Pop's new backing band, which also includes bass player Alvin Gibbs, formerly of the U.K. Subs, and keyboardman Seamus Beaghan. The first part of the tour includes mostly club dates.

Rod Stewart is donating his share of the royalties from his new single, "Forever Young," to local projects providing health care for the homeless around the U.S.

The title cut to **Steve Miller's** next album, "Born To Be Blue," was co-written with Mel Torme. The LP also includes covers of tunes by Billie Holiday, Ray Charles, Lionel Hampton and Johnny Mathis.

John Cougar Mellencamp is being commemorated at a new Indiana Walk Of Legends at the Indianapolis Fairgrounds. Mellencamp will be represented by a two-foot square slab of concrete with his name and signature.

Run Westy Run plan to release a seven-track EP this fall. It will include songs recorded during the sessions for the "Hardly Not Even" LP, produced by Grant Hart and Pete Buck.

Prince has fired his longtime public relations representatives, the Howard Bloom Organization, but the parting seems amicable. His publicity will now be handled by his record label. Billboard magazine reports that the "Lovesexy" album may not be sold in Malaysia because of concerns that the cover might be offensive. Prince's record label has chosen not to take orders for the album in that country, but some copies are available as imports.

Billy Joel, Cyndi Lauper, Daryl Hall and John Oates played at a concert at New York's Radio City Music Hall to raise money for the **Police Athletic League**. Over \$1 million was raised for the program for young people. Tipper Gore and her husband were in the audience for the concert and dinner at the Plaza Hotel.

Kenny Loggins, Patty Smyth, Earth, Wind & Fire and the Pointer Sisters appear on the soundtrack for "**Caddyshack**

Two. Dan Aykroyd and Chevy Chase make appearances in the film.

George Thorogood and **Brian Setzer** are touring together this summer. Setzer says he'd like to do a "superbilly" album in Memphis with Carl Perkins and Roy Orbison.

Buddy Guy has been working on an album featuring contributions from Nils Lofgren and Aerosmith guitarist Joe Perry. Eric Clapton, Carlos Santana and Jeff Beck may also appear on the LP.

Little Feat's new album, "Let It Roll," is now scheduled for release on August 2.

Jimmy Buffett says he's sold the movie rights to "Jolly Mon," a children's book he's written.

Steve Forbert says he "took it all back to square one" for his new album, "Streets Of This Town." He says some recording sessions with Garry Tallen, bass player for Bruce Springsteen's E Street Band helped encourage him to put out a new record. "It had been such a long time since I was signed that we were thinking of putting the record out on an independent label if no one else was interested," Forbert says. "It was another option. When the tape turned out so well, everything was a lot better. It was more of a 'Well, here it is. Who will like it enough to go with it exactly the way it is? As it turns out, all we did was mix it. Geffen liked it the way it was."

The Pogues filmed a video for their new British single, "Fiesta," in Barcelona. The clip was directed by Adrian Edmonson of the Young Ones, who also worked on recent clips by Squeeze. The band plan to go into the studio later in the summer to record a new album produced by Steve Lillywhite.

Bryan Adams and **Jim Vallance** have begun writing material for Adams' next album, but recording of the LP is not expected to begin until late this year.

Johnny Clegg & Savuka apparently won't be able to tour England because of objections from the British Musicians Union. Clegg has been expelled from the organization for "conduct detrimental to the union" because he's continued to play in South Africa since the union asked him last year to adhere to a cultural embargo. The union is maintaining its position even though Clegg has the support of Nelson Mandela's wife, Winnie. The ban also prevents Clegg from appearing on television in Britain. Clegg was also unable to participate in the Freedom Fest concert at London's Wembley Stadium. "I am sad that I could not perform at this event and share the birthday of a man who is for many people a living symbol of the alternative to apartheid," Clegg says.

Ranking Roger will be touring the U.S. with Big Audio Dynamite, to support his new album, "So Excited."

The Christians have recorded a version of the Isley Brothers' "Harvest For The World."

Rod Argent has released a solo album called "Red House." He's recently been working with Andrew Lloyd-Webber.

Patricia Morrison of the Sisters of Mercy had mixed reactions to going to Bombay, India, to film a video for "Lucretia." "The first impression I had of Bombay was really just incredible," she says. "Because it's a city of five million people and most of them live on the street, and they were all asleep -- just thousands of bodies." She says the crowds made it difficult for the band to shoot scenes in public. "If I stood out in the street, there'd be 10, 15, 20, 100, 500, a thousand people just like that. They have nothing, they have nowhere to go and nothing to do, so they're just content to stand there and stare at you."

Hurrah! have finished their second album, which was produced by Chris Kinsey and Simon Hanhart.

British metal band **Wolfsbane** have been signed to the Def Jam label for an eight-LP deal. Rick Rubin will produce the band's first two albums.

Todd Rundgren will produce the first album from Canadian band Pursuit Of Happiness, slated for release early next year. The band will re-record its two Canadian hits, "I'm An Adult Now" and "Killed By Love." The band are traveling to Woodstock, New York, for six weeks of recording.

The Proclaimers have finished recording their second album with Pete Wingfield producing. It should be out in September.

Spear Of Destiny are working on a new album, produced by Alan Shacklock. The LP should be out by the end of the year. The band have a new drummer, Chris Bostock.

Nelson Mandela's 70th birthday will be celebrated by some of South Africa's top black musicians on July 17, the day before Mandela's actual birthday. The "Concert For Peace" will feature Ray Phiri, who performed with Paul Simon on the "Graceland" album. The nine-hour show could still be halted by government officials, who have restricted outdoor political meetings and groups sympathetic to the African National Congress. Plans for the concert were announced at a news conference attended by Mandela's wife, Winnie, and daughter, Zindzi. The performers are appearing for free. Proceeds from the \$2.50 tickets will go to charity. It's hoped that 25,000 to 30,000 people will attend.

Crosby, Stills & Nash begin a U.S. tour later this month. A Crosby, Stills, Nash & Young album, recorded at Young's ranch in northern California, will be out in September. David Crosby has been putting the finishing touches on a new solo album.

Metal Church have a new line-up with singer Mike Howe, formerly of Heretic, joining the band. John Marshall, who played guitar with Metallica last year when James Hatfield was injured, has also joined the band, which is recording its third album.

Former W.A.S.P. guitarist **Randy Piper** has formed a new band called Animal. "The sound is like early W.A.S.P. with lots of energy," Piper says. "This is just a good hard rock band, which is what I've always wanted to be in. This is not Randy Piper and Animal, it's a band project with everyone contributing ideas." The band includes vocalist Rich Lewis, who Piper says "sounds like a cross between Udo (Dirkschneider) and Blackie (Lawless)."

Vocalist **Toby Williams** has left Toto, who are rehearsing in Los Angeles with singer Tommy Nelson. Nelson, however, is not considered a permanent member of the band at this time.

Ex-Keel guitarist **Mark Ferrari** has formed a new band with ex-Waysted guitarist Eric Gamans. The band has been working on material in Los Angeles. "Leaving Keel was a very difficult decision," Ferrari says. "I put a considerable amount of thought into it, and finally decided that leaving was the best thing to do. I wasn't asked to leave, but did so of my own accord."

New Order are in a studio in Manchester, England, working on a new album which they hope to release by the end of the year.

Deep Purple's new "Nobody's Perfect" album came about because the band had been recording its concert dates to see how the group had been sounding. "We had a 24-track on the road so we could make a reasonable recording of the shows every now and again -- to check it out and see if it still sounded hungry," says Ian Gillan. "Halfway through the tour it was decided that as the shows were going so well we should do the live album with what we had." Gillan says there were no overdubs on the record. "There are a lot of mistakes on it, a lot of warts. And I think that's the way it should be." The band plan to begin recording a new studio album in September.

Fields Of The Nephilim are wrapping up their second album due out in September. The album was produced by Bill Buchanan.

The Cocteau Twins have finished a new album, slated for September release. It was recorded in the band's studio in North London and was produced by Robin Guthrie.

Sonic Youth have finished recording a double album in New York.

Wire's **Colin Newman** says he "wanted to make a record that didn't begin with drums" and his fifth solo album, "It Seems," is the result. "Rock & roll has always been about emphasis on the on-beat, the boom-cha, which somehow became equated with teenage rebellion," Newman says. Over the years, the drums have become louder, louder, louder, drums equal rebellion, so that what you're buying is rebellion."

Pam Edwards, KGB-FM, San Diego

Cinderella's new one may be called "Long Cold Winter", but it sure is going to make this a sizzling hot summer. As with most bands trying to top an impressive debut LP, there is always that sophomore jinx phenomenon to contend with. But like an unstoppable freight train Cinderella has not only crushed any thought of a jinx but has taken their music to the next plateau. Most bands can only hope to sound this much better on a second album but Cinderella has truly pulled it off...even co-producing! Congrats to all involved with this stellar project. Another early fave from the album is "Don't Know What You've Got (Till It's Gone)".... Speaking of faves, I just saw Gregg Allman perform this past weekend and he was great. There are so many Allman Brothers fans that are just dying to hear him play his new stuff and the classics that "Can't Get Over You" is an automatic. If anything on the album can match the popularity of "I'm No Angel", which received thunderous applause, this one's gonna be platinum.... You may have played Def Leppard's "Pour Some Sugar On Me" before, but you should probably pop it in again. After nearly a year on the sales charts it's back close to #1. The video remains #1 requested at MTV for weeks and the callers requesting it are absolutely fanatical. It's our #1 record.... Big thanks to Great White and Whitesnake for the very funny backstage interviews. These guys know how to have a great time and put on a great show to match. PS: Anybody else think it's funny that there is only one track to cue on the commercially available Prince "Lovesexy" CD? Another first from his purpleness.

Carter Alan, WBCN, Boston

I'm very excited about the new Ronnie Montrose emphasis cut. "Telstar" wasn't originally a summer hit in 1962--it peaked at #1 in December, but it still sounds like a perfect summer song. Some people might think that Satriani paved the way in the 80's for hit guitar instrumentals, but Montrose actually started the trend here in Boston with his superb version of "Town Without Pity" from the "Open Fire" album, which has been a big hit at here at WBCN for years. "Telstar" is already a big disc jockey favorite and we expect the requests to come tumbling after.... Another DJ hit is the David Drew remake of "Green-Eyed Lady". This song is already generating huge response. The new version rocks and it was a good choice for the cover.... The Brian Wilson is also a surprise. Undoubtedly the best Beach Boys record in 18 years, thanks to our own Bostonian son Andy Paley who helped Lindsay Buckingham and Brian frame the harmonies.

Jim Steel, WIOT, Toledo

Hope everyone had a fine Fourth of July. WIOT was in front of 500,000 people who came to the riverfront for some fireworks. We took part in live broadcast with the fireworks synchronized to music and everything came off fine. Nice way to finish out the sweeps.... A "Long Cold Winter" will provide us with many hot summer nights. This Cinderella album is nothing short of a monster.... And just when you might start having doubts about the T-Birds, they have put together a tune head and shoulders above their previous work. Sounds like the soundtrack is going to be a killer too.

J.D., WONE, Akron

Another Fourth of July has come and gone, and as always it's going to take a while to recover from this one. It didn't take me long to recover from the new T-Birds record. This song is just what the title implies, "Powerful Stuff". Once again the T-Birds come through with a hot number with their impeccable touch. I'll be enjoying this one for a while. Also I would like to thank Elektra for the nice "Cocktail" set.... And kudos going to Geffen for a nice Jimmy Page package. Thanks....And finally, Dear Carolyne Heldman: I'm still working on the meat loaf. Honest, it's getting better. If that's not appetizing, how about macaroni and cheese. Now here's a recipe I'm a master at. We could sit down to this gourmet dinner after a day of windsurfing on Lake Erie.

Charlie Foster, WNGZ, Elmira

Dear Elektra Records: To whom it may concern regarding Jay Brooks. I've been at WNGZ for three years and over those years I've never spoken to any one rep who was more loyal,

dedicated or hard working than Jay Brooks. Without fail, Jay was there every week. Jay was like clockwork. Whether he was calling from the office, from another station or from a pay phone in some airport, he was always there. There was a time about a year and a half ago when Elektra divided their staff up and the regions they worked. When this happened, Jay was taken away from us. We were given the Boston Rep, who started out like a house on fire, but fizzled out. Then we were given the New York person who also started out strong, but fizzled out as well. I fought and fought and finally got Jay Brooks back. I wanted someone who was always there for us. We may not be a P1, P2 or P3, but we are the only AOR between Poughkeepsie and Rochester. And up until now, our playlist as of last week included Tracy Chapman, The Georgia Satellites, 10,000 Maniacs, The Adventures, Raymond May and Dokken. So we've done our share of support for Elektra. But now, Elektra Records has chosen to let Jay go. This is probably one of the biggest mistakes the company has ever made. However their mistake will be another company's gain. What's that? Has the new Elektra rep contacted us yet. That's a stupid question. Of course not. You'd think Elektra would replace someone they let go with someone better, but that would be impossible to do when the person you're replacing is Jay Brooks.

Kelly Cruise, WEGR, Memphis

Calls are coming out the wazoo for Guns N' Roses "Sweet Child O' Mine" and we're finding that listeners who don't like metal love this song so it's heavy for us.... And on second listen the T-Birds have some powerful stuff on their hands. Even with the onslaught of excellent music now this one should squeeze in near the top.... We're preparing for Monsters Of Rock this weekend (7/9). We're expecting 40,000 plus at the Liberty Bowl Stadium. Special thanks to Gene Dries in advance for all the extra help.

David Gariano, KZLR, Little Rock

Back from my wonderful 4th of July vacation in Dallas, Texas--Got to hear the rather lame coverage of the Monsters Of Rock by Q102. Come on guys, I think it's about time you got a mike that doesn't cut out when you introduce Van Halen. Maybe CBS can appropriate some funds for working and fully functional equipment.... As for KZEW, I realize it was the Fourth of July weekend, and I understand the significance of the song, but do you really feel it's appropriate to play "Saturday In The Park" by Chicago at 11 o'clock on a Saturday night. Who cares, right? It made me appreciate coming back to Lotta Rock and hearing the rock and roll blow torch pulsate and throb. And I'd also like to add it was a thrill of my life to be able to fly Shamu 1, the Southwest Airlines plane painted like the Whale.... Monstersmania hits Lotta Rock this week--as the Grand Finale of our Most Outrageous act contest--what you would do to get to sit on stage with Van Halen, plus a lovely limited edition Monsters of Rock denim jacket and you get complete press box accessibility for the entire nine hour event--not to mention a hotel and limo at your disposal while you're in town.... Meanwhile, our lame competitor Tragic 105 is giving away a Fender guitar, allegedly signed by Eddie Van Halen. Ho hum. A full report on the Monsters Of Rock next week.

Brian Illes, WKFM, Syracuse

I don't think the new Huey Lewis song is a long term record for AOR. I sure don't hear it as an oldie on my station in six months, but it is too good a record to ignore for the summertime.... The Elton John album has a ton of stand out tracks and "Town Of Plenty" and "Goodbye Marlon Brando" are just a few.... My question this week is, why do I need two more Van Halen CD singles or two more Rod Stewart CD singles or two more CD singles of anything? Just send me the whole disc.

Jimmy Christopher, KZEW, Dallas

Congratulations SkyBoy! Fly high and kick some butt!! The Fabulous Thunderbirds title says it all, this is really "Powerful Stuff".... Guns N' Roses are rolling on KZEW this week and "Sweet Child O' Mine" is generating some tremendous phones already. This track is definitely growing on me.... Jethro Tull

gets moved up to Heavy this week with a vintage track that has enough late eighties flair to keep things interesting. I'm really looking forward to that 20th Anniversary compilation set.

Dave Fortney, WKLT, Kalkaska

Steve Winwood continues to do very well. There is no discernible burnout problem that I can see. Right now the material is so diverse that the audience has a lot to think about and their interest in music is heightened as a result.... The Tracy Chapman is through the roof with retail right now.... The Robin Trower is also doing extremely well. I anticipated a mid-chart story for this one but the album is selling excellently for us here.... The staff is really behind the Michael Anderson, it's a sound that they find easy to make work on the air.... And this Pat Benatar record is a real surprise as well. I can't get over how good this one sounds compared to some of her previous work.

Art Boerke, WKWQ, Columbia

I was never really a Beach Boys fan so I didn't expect much from this new Brian Wilson, but this is a truly great pop song. The older demos should really eat it up.... Iggy Pop's "Cold Metal" has got to be the best radio song the man has ever given us. The song really jumps out of the speaker! And boy did they airbrush him on the cover or what?.... We continue to get calls for Peter Murphy every time we play him. I know the song is starting to go backwards on the chart but this is such

Mike Richter, KFMZ, Columbia

We went with Stryper this week and it already looks like a winner. It is obviously the most interesting of the songs added this week, retail is huge across the country and that MTV exposure can't hurt.... Kenny Loggins is working exceptionally well for us here. The Caddyshack connection has people calling up and wanting more.... Huey Lewis has come up with a track that I have taken a real liking to. I've heard that some folks aren't totally sold on this one, but I am really into it in a big way.... Pat Benatar has generated a lot of female interest and the middle demos have been quick to respond. There are a lot of fabulous tracks on this album and I can't wait to get deep into it. Pat is getting top five phones virtually out of the box.

Karen A. Small, WGIR, Manchester

Thanks to George Skaubitis for an excellent evening with the one and only Little Feat. These guys sounded as strong as ever and their new material bridges nicely from where they left off to this new beginning.... Many thanks to the members of Little Feat for the items donated for the Rock 101 Rock and Roll Auction coming up this Fall. Van Halen, (they signed a Kramer guitar for us), Heart, Kiss, Balaam And The Angel, and others have donated items for this auction, the proceeds of which will go to a drug rehabilitation center.... Huey Lewis and the News have the perfect record for the perfect summer in

DID YOU ENTER TO WIN YOUR TRIP TO AN ISLAND PARADISE YET?

IF NOT, BETTER DO IT SOON. DEADLINE FOR ENTRIES JULY 10.

a great song what can I say but f**k the chart. This song has such a great Roxy Music feel that it simply cannot be denied.

Mike Ryan, WKGR, West Palm Beach

We added the Camper Van Beethoven this week. It is just different enough to guarantee some listener response so we want to give it a shot and see how the reaction stacks up. The band is certainly tight and have some unique musical ideas.... The Huey Lewis is an excellent track. It has "monster smash" written all over it. And how about those Tower Of Power horns? It's great to hear Huey getting down with some first class brass action.

Richard Smith, WIXV, Savannah

Aaaaagh. It's Hell Week!

David A. Ross, KMJX, Little Rock

Your monster of rock in Little Rock, Magic 105, is all fired up about the Monster date in Memphis. We have put together concert caravan packages and we will also be putting listeners onstage to watch the Scorpions. We are also giving away a Kramer Monsters guitar, complete with airfare for two, hotel, two tickets, two backstage passes and the winner will be presented the guitar by Eddie Van Halen himself. And after the Monsters, we've got the 2nd Annual Blues Festival down by the Arkansas River. More on that next week.

this less than "Perfect World". The sun, warm weather and Huey Lewis on the radio make for a perfect match.... I hadn't realized how much I missed Brian Wilson until the "Love And Mercy" tune came in. Lush harmonies and beautiful arrangements adorn this song.... Melissa Etheridge is one of the few women who can belt out a rock and roll song with conviction. "Bring Me Some Water" will undoubtedly leap out of the radio, grab the listener, and not let go.... With Pat Benatar and Melissa Etheridge out right now, it's great to hear women rocking on the radio.

John Amberg, WKRR, Greensboro

The Gary Wright gets added this week. It's the kind of song that we can play right through afternoon drive. It is instantly recognizable as Gary Wright on first listen and that's a real positive for us. This could be the perfect song to reestablish his career.... This is the first week that Bruce Hornsby has gotten top five phones at the station. This song has building steadily for a few weeks now and came through impressively this time out.... The Rhythm Corps is a real jock favorite right now. They love the lyrics, the guy has a great voice and that acoustic guitar is great. I get real positive feelings every time I hear this song.... We get great response from the Tracy Chapman around here. The calls are flooding the phones from your basic upper demo females with a healthy dose of male interest as well.... Michael Anderson is doing very well in the studio. It's a real monitor buster.

July 8, 1988

Bryce Crousore, KQDS, Duluth

Looking forward to the Conclave. Hope to see you all there!

Scott Laudani, WHEB, Portsmouth

Thanks to George at Warner Brothers for the tremendous time at the Little Feat show on Hampton Beach. So far the rock and roll event of the summer. Feat fans get ready, this band is definitely back. The new material picks up where the classics left off and was a huge hit with the crowd. I can't wait to see Little Feat in a Heavy rotation again. The "Dixie Chicken" has definitely laid a golden rock and roll egg.... Satch's "Always With You Always With Me" is a song that all dayparts can now enjoy.... Camper Van Beethoven takes so many musical directions, it makes my head spin. This band deserves a shot.... Melissa Etheridge has what AOR is thirsty for, rich female vocals with passion. Tracy broke the barrier and Melissa is next in line.

Wendy Steele, WLVQ, Columbus

We are having a bit of a space problem so there are only two adds this week, Huey Lewis and the Fabulous Thunderbirds.... Over the July 4th weekend we gave away a trip to Niagara Falls. Because of the drought and in honor of Melissa Etheridge's "Bring Me Some Water" we offered to bring someone to the water. It worked out great. Thanks to Andy Allen of Island and Joy Hall for all their help. I'll be out of the office on Thursday, July 14th and will be in New York from the 15th through the 21st for the McGathy affair, some of the New Music Seminar and to just have a good old time.

Al Scott, KZEL, Eugene

Huey Lewis is out of the box and getting top five phones already. CHR is already on it so there is no time to hold back. Get on it and do it every day.... Stryper is a big surprise and a welcome one at that. It definitely attracts listeners when it gets played, especially those all important female listeners. Those guys have tons of women falling out of their spandex pockets.... Gregg Allman is on his way to town and the phones are ripping it up for him.... REO Speedwagon is doing very well and we are increasing airplay on it. This is just like spreading out honey for the flies.

Christina Gorton, KKZX, Spokane

Deep Purple is a big phone project for us. People are really into it and those boys may not call and say, "Hey dudes let's party", but they are probably thinking it.... Gregg Allman is pretty straight forward stuff. Good strong rock with a great blues base. This one really works with the more mature male listener. Gregg remains true to himself without selling out and becoming too pop along the way. This is a very consistent piece of work.... Rod Stewart's "Dynamite" is big on the drum beat and boy do I love that sound! The man sounds like he is having a lot of fun on this one. No doubt about it, this is good time rock and roll at it's best.

John Loscalzo, WRCN, Long Island

Congratulations to Bill Palmieri at WPDH on his promotion to "Big Kahuna". Remember all the fun we had when I worked there, Bill? When I'm poor, broke and destitute you'll at least let me run Metal Shop on the weekend, right! Just remember Bill, PDH is head and shoulders above the "competition".

Andy Preston, KPOI, Honolulu

Many thanks to Keith, David, and the Aerosmith band and organization for their above and beyond help to KPOI/98 Rock during Aerosmith's recent two night stand here in Honolulu. We gave away a platinum "Permanent Vacation" disc to a winner who received it backstage from the band. Another listener was chosen roadie for a day and busied himself polishing Joey Kramer's cymbals. And as if that weren't enough, twenty-five 98 Rock listeners each night were allowed backstage to meet and greet the band. Above everything else the music was absolutely spectacular. It's the kinds of R&R that this town's been thirsting for, for a long time. A tip of the hat also to Arthur Promof of Geffen Records. Opening the show was White Lion who were fresh and great. They too helped out with the show appearing at 98 Rock's pre-concert party for another platinum album giveaway. Thanks to Frank

and the band and Rock and Danny of Atlantic for their tireless assistance. Aloha.

Ken Glidewell, WOXY, Oxford

I am leaving WOXY to work for WEBN in Cincinnati. The metal show will be handled by Robin Plan including all calls, reports etc. It's been great to be here breaking new and exciting acts that will be the future of rock and roll as we know it. Thanks to all records folks who have worked with me. It's been great.

Tom Van Sant, WIZN, Burlington

The Great Golf Challenge has begun and who'd have think that a small time PD and MD would have the upper hand on those kings of leisure-record reps. Thanks to Mr. Mike and Dave Johnson for being the latest victims. Steve Cormier issues the invitation to all comers: "Bring cash and credit cards. We play, you pay." Is this guy ripe or what? Thanks to Kevin Sutter and Sue O'Connell for showing us their faces. And a butt-steak sized thanks to Sam Kinison for visiting WIZN before his Burlington show July 1st. PS: "Tumblin' Down" is the next hit from Ziggy Marley's "Conscious Party".

Johnny Riggs, WKLC, Charleston

Tracy Chapman has written the most depressing but ultimately beautiful song I've heard in years, and our listeners are keeping one ear glued to the radio and one to the phone to keep requesting it again and again.... I don't know if it's marriage, motherhood or just nine years vacation but Patti Smith's "People Have The Power" is one of her deadliest tracks ever. I'd just like to say that 1988 is the year of the women.

Ty Banks, KQWB, Fargo

Love the guitar work on the T-Birds. Great uptempo song. It's the best thing since "Tuff Enuff". I didn't care for the last album at all, and I wasn't expecting too much from this when I put it on.... Just a little different style for Huey Lewis. Doesn't sound like "Jacob's Ladder Part 2". Real original for Huey.... Surprised that Melissa Etheridge is getting a ton of calls. The phones are just ringing off the hook. They're saying "Play that chick who sounds like Janis Joplin".... I'm still big fan of the Rhythm Corps. Finally starting to get reaction.... Almost added: I really like the Del-Lords and the Bible is another one I'm really close to.

Phil Maicke, KFMH, Davenport

The blues are alive on KFMH, the Quad Cities Blues Fest '88 was a rousing success, with over 40,000 attending the 3 day event. Hell raising performances from Room Full Of Blues, Lonnie Mack, Lonnie Brooks and Koko Taylor, as well as local blues favorites all broadcast in its entirety live on the station. Many thanks to Alligator Records Kerry Peace and also Alligator President Bruce Iglauer who showed up to emcee on Sunday.... A name to remember, Terrance Simien and the Mallet Playboy's, Zydeco at its best and one of the crowds favorites.

Bob Jeffries, KBOY, Medford

A busload of KBOY rock and roll evangelicals fortified with southern fried chicken, liquid refreshment from sky blue waters, and a burning for Rossington and Skynyrd trucked to Portland for a dynamite show. I haven't seen such excitement since the Marshall Tucker/Allman Brothers blowout down in the Carolinas back in the 70's. Skynyrd diehards had a real good time. A special thanks to Freddie Zaehler of MCA, for his incredible logistic support. Our request lines are still jamming for the Rossington Band and from the Lynyrd Skynyrd library. The movement got me back me back into red beans, rice, pork chops, red eyed gravy and cornbread. Hell, Southern but by the grace of the Santa Monica.

Mike Stewart, WIMZ, Knoxville

Thanks to Columbia Records for putting the best local guy in our area Way to go Chommie. And special thanks to Kenny Loggins. What a Guy!

Jeff Naumann, Virgin, 213-278-1181

Sorry I don't have any cover versions this week but I do have some killer records anyway. On the top of your heap it's time

to add "Eye Of Fatima" from Camper Van Beethoven. Your peers that have stepped out early on this baby say hit. So there's your research and it is coming back strong.... Ziggy's "Tumblin' Down" is coming in much faster than "Tomorrow People" and I am glad so don't be afraid of this great summertime music.... From the south comes our second track from Rocky Hill "HPD". Guitars is what this veritable broiler is all about.... Don't forget "Holding On" from Winwood. The "What The Night Can Do" tour starts in St. Louis in July and I can't wait. I guess the closest thing I have to a cover version is "Pictures Of Matchstick Men" from Camper Van Beethoven but they only do it live so go see 'em.

Johnny James, WCKO, Jackson

Cinderella...no sophomore jinx here! Probably one of the most powerful tracks that we have put in. This has got Top 5 phones here in one weeks time. Like to thank Bret Michaels and the rest of the Poison band for poisoning the stage manager. We would also like to thank Carmine Appice and also Hurricane's Steve Blaze for hosting the Headbangers Ball and also Only Child. We have expanded our Headbangers Ball--it is now 4 hours from 10pm until 2am on Fridays and Saturdays.

Andi Turco, WEQX, Manchester

I am proud to say that WEQX has been voted the best rock Radio Station in the Capitol district according to the area's

Alternative/progressive/Po Mo stations should not be looked at as farm clubs for artists that need "a buzz" to get that AOR/CHR add. Crossover to other formats is fine. But screwing the people who built your base of support erodes any trust that might exist between labels and programmers. I know that I wouldn't give a record that I wasn't sure about a third or fourth listen if I was mad at the label dude who's trying to tell me that the record deserves play. I don't believe him/her because they have already lied to me.... The Church were quite amazing both sold out nights in Minneapolis. Thanks to Tom and Arista for the continued support. It's nice to see a label remember the station that laid the groundwork for its band's success. Is everybody paying attention?.... Play Curtis A or else.

Lin Brehmer, WXRT, Chicago

WXRT (that's us) and the City Of Chicago threw a July 4th party in Grant Park to well over 100,000 listeners as Robert Cray, Graham Parker, Timbuk 3 and the Insiders performed for free at the Petrillo Band Shell. The concert was broadcast live on WXRT. It was also Walter Peyton Day in Chicago so after the Mayor's proclamation was read on stage, a couple of our emcee's interviewed "Sweetness" on the air. Other celebrities in attendance included RCA's Dave Remedi, John Sigler (who flew in from New York), Judy Barahal and Craig Lambert in his customized WXRT sweatshirt accompanied by his lovely wife and their new baby. Robert Cray previewed some excellent

leading entertainment publication. Considering we are 65 miles outside of Albany that doesn't say too much for the stations that actually are in Albany does it? On that note, keep smiling.

John Lassman, KQRS, Minneapolis

Conclave '88 update: Only a short time into it and it appears this years will out do all others past. Thanks to Tom Kay and Denise Lutz and Julie Smith for making everything run so smoothly. It's always a pleasure to see old friends every year at this time.

Cyndee Maxwell, KWHL, Anchorage

Thank you Huey Lewis for coming back with some variety! You've saved yourself from becoming another soul lost to the Top 40 masses.... Kings Of The Sun "Black Leather", our listeners said it best "Good Clean Rock, No Bullshit!.... David Drew's "Green-Eyed Lady" really is a killer version, excellent work. The KWHL sand crab team competed in Alaska Airlines Sand Castle competition in Juneau and won an honorable mention for the most sensuous entry--a rock and roll mermaid. Next year we will make it to San Diego.

Mark Miller, KABL, Minneapolis

I share the opinions expressed in The Hard Report by other alternative programmers regarding label commitment.

new songs. Especially well received was a song called "Don't Be Afraid Of The Dark". We added some fine songs from albums that we've been playing for a while. "Indigo Eyes" by Peter Murphy, "Cartoon" by the incendiary Soul Asylum, "Chrome Plated Heart" by Melissa Etheridge, "Tumblin' Down" by Ziggy Marley and "Time To Mek A Dime" by Ranking Roger. We generally view soundtrack cuts with dread since the songs can often sound like cast off out takes from a recent album. How encouraging then, to hear the Fabulous Thunderbirds "Powerful Stuff" which pumps like a fresh young heart.... Personal to Benson: August. I said August.

Bob Weyersberg, WUNH, Durham

Camper Van Beethoven's real Boston debut: no later than 9/85 (WZBC). College radio. Where you heard it first (and continue to hear it first). College radio. The old rock on the block (not talk). College radio stations are the only stations that play your music first, long before other stations get hip to it (two years in this instance). Don't settle for being second, or fourth or even eighth. College radio. The first radio stations in the world.

Jonathan Rosen, "Virgin Vinyl", KUPD, Phoenix

"Lost And Found Dept": One record most of you don't have, haven't heard about and unfortunately might never hear about is the Blackbirds self titled debut. It's a most impressive back to the beginning-all-over-again recording from a pair of

was-beens I've ever heard. Tony and Chip Kinman lay out future foundations with modern day psychedelic undertones, and pure rock overtones. Although most tracks are a bit longer than they could be, and lyrics are sparse, this is still a W-O-W beginning and you can feel that. Songs like "Howl", "More" and "Quicksand" have a powerful numbing effect. It's imperative the Kinman's continue to hone this comfortable style of edge much as they did in their earlier years as Rank And File. I just hope Iloki has a bunch more for whoever is as interested in this comeback effort as I was. If you're interested contact Iloki Records, P.O. Box 49593, Los Angeles, CA 90049.... Thanks to those who really can't afford it but do it anyway department: Tony Victor and JFA for calling in live on the air July 3rd, from Miami, Florida. The hometown boys are getting some attention from their latest "Nowhere Blossoms" on Placebo Records. Also to TSOL's Mitch Dean for same. By the way, their new live recording on Restless' new Performance Series Compact Disc only is a fantastic facsimile of what the band's arresting live sets really sound like. I won't report it though due to a Restless label who seems to have stocked Phoenix stores but have not mentioned or sent anything to radio. Although I've supported TSOL for over eight years and they are in my top five all time bands, my principles come first. I purchased the above and I could probably end up playing it every week till next year but I won't report it.... Uncle Milty's Rowdy Rivet Of The Week: West Germany's Assassin, "Interstellar Experience". One hundred MPH on the Milty Meter!

Don Berns, CFNY, Toronto

One of the nice things about working in this "alternative/progressive AOR" format is the great relationships the radio station forms with the artists we play. We appreciate their music and go to great lengths to show that appreciation on the air; they in turn go out of their way to come in for interviews and participate in promotions, which is the crux of these comments today. Our heartfelt thanks go out to the artists, managers, booking agents, and record companies who participated with CFNY in making our 2nd Annual Canada Day Festival a major event this July 1. 27,000 people came through the turnstiles at Molson Park in Barrie (North of Toronto) to see The Mighty Lemon Drops, Timbuk 3, Underworld, 54-40, Chalk Circle, The Parachute Club, Andrew Cash, The Pursuit of Happiness, Manteca, the Shuffle Demons, the Razorbacks, and Eugene Ripper and The North. Without the cooperation and enthusiasm of everyone mentioned above we could have never put this show together and charged only \$3.00 per ticket! And it was great to see Archie Souchak and Howie Klein, who braved those Canadian July snowstorms to join us for this event. And, whew! I like being a promoter-for-a day but it's not something I'd like to do for a living!

Ivar Hamilton, CFNY, Toronto

John Souchak was introduced at our Canada Day Festival as the man who signed U2 in the celebrity baseball game. He got the biggest cheers and hit a home run to boot! Oh yeah besides the folks Don mentioned, it was good to see Tom Calderone from WRCN Long Island making the trip. Big Audio Dynamite "Just Play Music" is a summer smash! It's their best since "The Bottom Line" in '85. Too bad Mick and Joe didn't get back at the recent Milton Keynes show. Gentlemen Without Weapons really sounds great on the air. It's always interesting to hear a project that is doing something different but not too esoteric. GWW is just that. Congratulations to Norm Winer and Lin Brehmer on their 4th of July show. We hear it was a wildly successful event!

Jody Petersen, WNCS, Montpelier

That Smithereens album is more than "Only A Memory" at WNCS. "Green Thoughts" and "The World We Know" have emerged as very strong follow ups that get catchier by the play.... The Primitives were an instant thumbs up with their very infectious "Crash". Two minutes and thirty one seconds of involuntary toe tapping and hum a long there.... A tip for AOR's who incorporate R&B in the fold - Bobby King and Terry Evans! Brand new on Rounder.

Brett Greene, KUNV, Las Vegas

Beatnik Beatch is a great record! Now that they're on Atlantic Records I hope they will get more recognition than on the last one.

Lora Porter, KPGA, San Luis Obispo

Went to the Flotsam & Jetsam/Megadeth show over the Fourth of July weekend. The sound was complete shit. I felt sorry for the bands, but Flotsam was still great. Monte - I tried to think of a way to insult you but couldn't. I guess your just to nice, ha ha. Maybe everyone else could think of warped disgusting insults to throw your way! Yes that's it! Come on everyone get your sick minds in gear and let's see how many slams Monte can get in the next issue.

Jeff Ivan, KFMX, Lubbock

Lots of fresh blood into the Top Ten this week.... You know the more I listen too the new Voivod, the more I love it. With the Epic distribution behind them this album could make a good sized dent in the summer metal sales.... Same goes for the King Diamond. The packaging job alone on this album would make me buy it. The independents are really on a roll now.... The new Cinderella is having quite an impact on our phones already, which is no real big surprise. Personally I love this album. No sophomore jinx here. They took a chance with the heavy blues sound and it definitely paid off. Headliners by the end of the summer due to the album.... I also got to check out the whole Death Angel and D.R.I. albums this week. Death Angel just flat out rule. This is a very strong album and is a smart progression from their debut. They are the thrash band for the 90's. I also really enjoyed the D.R.I. Got a few calls wondering who they were but I am sure I won't have to do that to much longer. They have really increased their audience with "Four Of A Kind".

Mad Max Hammer, Z-Rock Satellite

From our Top Ten, Poison is still holding it's own. Too bad KNAC doesn't like it.... Queensryche is another strong Z-Rock album. "Eyes Of As Stranger" would be a good single.... Stryper breaks into our Top Ten this week. God bless them, they've worked hard and they deserve it.... Cinderella--look out for another monster. This is a hot one.... King Kobra proves that hard work pays off. This week "King Kobra III" breaks into our Terrible 25.... New stuff for Z-Rock is Slayer's "South Of Heaven". A lot of depth on this record and melody. Tom Araya actually sings on it.... Rigor Mortis--like this one or die.

Dr. Metal, WHJY, Providence

I knew in my last comment that I would forget to thank some people. Most notably Tom from Enigma and Derek Simon from Concrete, how could I ever forget you, thanks a lot. Providence is playing host to a whole slew of shows in July. It's gonna be a red hot summer in Providence: Testament/Violence, Mass/Heaven, M.O.D., Vinnie Vincent with L.A. Guns, Overkill/Nuclear Assault, Iron Maiden with Frehley's Comet and Judas H. Priest with Cinderella. I dare any town in America to top that bill for the month.

Mike Jones, WGIR, Manchester

Happy recovery from the 4th of July. Hope you had a great holiday. I spent mine broiling in the sun in Swanzey, New Hampshire at Rock-101's Summer Jam. We had Kiss, Balaam and The Angel, Dirty Looks and two local bands slug it out on Independence Day in front of about 12,000 people. Kiss played a great set - mixing classic old stuff with the new. Balaam and The Angel went down real well despite the fact that they're not really a real heavy rock band. They remind me of a "baby" version of The Cult. Very nice lads though, and their album is called "Live Free Or Die" which happens to be on all of New Hampshire's license plates. Dirty Looks were added at the last minute to replace L.A. Guns. They put on a great show and got the crowd stomping in the fields with their AC/DC-esque rock and roll. All in all not a bad day.... It isn't often that my boss John Erdahl flips out over a hard rock band, but he certainly has over Winger. They're on Atlantic and feature ex-Alice Cooper bassist and co-songwriter Chip Winger, along with guitarist extroadinaire Rob Beach who worked on the last Twisted Sister Lp. I've known about the

July 8, 1988

band since last summer when I was in New York and given a demo of them by Phil "Women Worship My Shadow" Hardy. Six songs of serious impressive hard rock a la Ratt and Bon Jovi. Their first single "Madalaine" is an insta-add to commercial metal shows and hard rocking AOR's alike. Hooks everywhere will describe this tune pretty accurately. Check 'em out and you'll be looking at a huge summer smash.... I finally had a hole to put Drive into. This is a band I've been wanting to add for some time. The momentum is building for them and "Stormtrooper" is one of those monstrous epics that jump out of the radio and slap you in the head. I dig it deep Mon.... Violence is seriously dangerous metal from the bay area. Their first U.S. tour opens in New England in Providence, Rhode Island this week with Testament. This album is so fast I broke a sweat just listening to it. I think these guys could be something real special in a couple of albums time.

Patty Martin, KSJO, San Jose

Just got back from catching a free outdoor concert with Ranking Roger in downtown San Francisco. Same place U2 played. Great show. He did a bunch of stuff from his new record and a bunch of old Beat and Public favorites. FUN. Catch his act if you can.

Clarissa Garcia, Enigma Records

Greetings from Europe! As I write this, I'm laying out on the island of Poros. Hopefully the Greek sun will be kind and allow me to return home with a deep, dark Mediterranean tan. I've done a lot of tourist-type things in Europe like eat gelato on the steps of St. Peter's Cathedral in Rome, run like hell when I cross the streets and be real obnoxious when it come to prices. I finally met the Garcia-Aswads of Europe. What an interesting bunch. My favorite has to be cigar-smokin' beer belly totin' Uncle Hugo. He makes home-made cigarettes. If I manage to get past customs, I'll pass 'em out to ya. (Jem, you kinda resemble Hugo). When I was in Austria, I met the infamous Beaver Hans and Beaver Franz. They offered to pump me up, but I said no thanks and ran the other way. I hate to cut this short (after all, brief dialogues aren't my style), but I have to turn over to insure an even tan. Take care and keep playing Enigma Metal. I'll talk with you as soon as I get back to Enigma.

Mike Gardner, KOAS, Kealakekua

Can't wait for all of the Gregg Allman.... Brian Setzer really delivers on "Nude".... Pat Benatar never sounded better--a great band--we're deep on this one.... Robert Palmer doing his best music since Power Station.... Interesting is the word for Jimmy Page and his long awaited solo.... Iggy Pop has more depth than previous LP.... And fellow Michigan band Rhythm Corps has a strong release.... The deeper we get into Rod Stewart shows a durable, hot LP.... Try the rest of Jimmy Barnes--you'll like it.... And Paul Kelly is much more than "Dumb Things". Still looking for copies of Deep Purple, Steve Forbert and Huey Lewis. Thanks to the artists and companies for the fine summer releases.

Steve Kantscheidt, WCDB, Albany

Brand new Overkill out and "Under The Influence" should be their biggest yet. Musically, it's their best to date and Blitz's vocals have improved tremendously. It's still the same hard driving street-rock that we're used to from these guys, but put together much better than the last two. New drummer Sid Falk definitely holds his own with power surging rhythms. Check out "Shred", "Never Say Never" and "Hello From The Gutter".... If you have yet to check out Concrete's Kevin Bolembach's demo then you're missing out on some great music. His band Valkyrie is already getting requests up here and should be the demo of the year. They're a cross between Nuclear Assault and Iron Maiden that ends up in some hard driving thrash music that is definitely a refreshing change. Derek Simon screams "these guys are better 95% of the stuff I've heard, even Fifth Angel". Bob Chiappardi raves ".....". Don't miss out on this killer demo.... What happened to Hallow's Eve? These Atlanta thrashers still deserve to be on everyone's playlist. If for no other reason than the fact that Cheryl and I are devout Stacyists and we want our religion to grow so we can kidnap

Megadon and program him to our ways in Guyana... This weeks quotes "Hi Steve, this is Sal Treppiedi." Who is this guy and why does he keep calling me?.... A brief public service announcement, Hades rules!!! See ya.

David Fleischman, Atlantic, 212-484-6017

So you say you've never heard of Rebel Heels, Beatnik Beach, Winger, Escape Club, and Andy Leek???? Well...Now you have!!

Doug Clifton, KBCO, Boulder

KBCO carried the Bruce Springsteen show from Stockholm on Sunday to kick off our July 4th weekend, rounding out the weekend with the live broadcast from backstage at Red Rocks before the Robert Plant show on Monday and Tuesday. Thanks to Joe Schuld for the Springsteen giveaway and to Michael Brannen for the Plant tickets.... Last week Geina Horton gave us a preview of the new Huey Lewis album, it's a nice change of pace for the News and it should be an album that will offer songs for the alternative AOR stations.... Nancy Levin showed us the Neil Young video "This Note's For You", it's one of the best I've seen in a long time.... Thanks to Todd from Virgin for stopping by with Gary Newby from the Railway Children. Topping our week of ads this week are Patti Smith and the follow up to the single "Up There Down There".... Our second choice from Crowded House is "Sister Madly".... Marti Jones had a good track record here at 'BCO, the new album has lots of good material to choose from. The perfect song for us right now is "Tourist Town".... Rock and roll T-Birds style as "Powerful Stuff" sounds hot on the air.... Bobby King and Terry Evans who have been working with Ry Cooder step up to the spotlight with Ry producing their Rounder release, we've added "Just A Little Bit".... Pete Bardens latest record was quite successful for us and we anticipate more success with his new one.... Top phones: Bobby McFerrin, Tracy Chapman, Jimmy Page, Basia and Melissa Etheridge.... On The New Music Express: Throwing Muses, The Three O'Clock, Talking Heads remix, Iggy Pop, Escape Club and an interview with Underworld.

Liz Brooks, Relativity/Creation, 718-740-5700

The House Of Love. This is The Record. From the first time you hear "Christine" you'll be an addict. "Christine" is a hooky, lusciously constructed guitar-pop song which you may find reminiscent of the Jesus And Mary Chain (sans noise, plus depth). Dig into the LP a little deeper and you won't think The House Of Love reminds you of anyone (promises, promises...). But oh yeah, you'll remember them--if you don't have this LP, acclaimed as the year's best debut, ring me or your local dude.... Keep in mind a truly fine person, Butch Lazorchak. And Bob, it's a very good reason to like Biff Bang Pow!

Brenda Umbrell, Star Communications, 818-846-9440

Speed demons all over the world are going crazy over At War's "Retaliatory Strike" and I can't blame them a bit, intense speed metal, this LP kills, KBER, KQQK, WHDG, WEOS, Z-ROCK, WWUH, WHUS and 65 others are cranking At War!!! If you like the classic hard rock style of bands like Zeppelin, old Rush, Yes and Pink Floyd, but hate clone-ripoffs, I strongly recommend you check out Chyld's "Conception" (do you need a CD?) Chyld will be in NYC during the New Music Seminar. Deadly Blessing and Screamer will be performing at the Milwaukee Metal Fest the weekend following the New Music Seminar (7/23). These bands will be doing press. If you're attending either event let me know. Special thanks to Danny from KFIU, Miami and Steve from WFCS in New Britain, CT for being brave enough to come visit the evil office this month. Watch for LP's from Wehrmacht, Screamer, Gargoyle, and Prowler.

Penny Barnes, Rhino/Rampage, 213-828-1980

Another fine (albeit short) week, as we put nine, count 'em, nine new stations on the Only Child record. There is a definite buzz developing here, and you should take heed. The proceeds from this single go to Child Help USA, an organization developed to help out needy & battered children.

July 8, 1988

The tune is "Save A Place In Your Heart" and was co-written by Joe Lynn Turner. All proceeds from the sales of this single go directly to Child Help. So in a world of causes, here's a really positive one to get behind. These L.K's (Little Kids) are really the best & need our help. The fireworks still continue at radio this week behind the Drive record. 10 new stations adding this week, and all stations report great phones and sales in their respective markets. Kamikaze, Stormtrooper, The Phoenix are the three to see (or hear) for your metal type playlists. On other Rhino/Rampage fronts a few thanks to: Garrett (meet me at The Conclave) Hart, Cyrene Jagger, Sam (We're Talkin') Calle, thanks again for dinner!!! And my new found friends at KTYD, Roger & Jim. Also, a big early hello to Clone & Cross at KJJO, Monsters await.... And we're gonna get down, and get back up again that day!!!! Hope everybody has as good a week as I'm havin!! Keep rockin!!!!

Monte Conner, Roadracer Records, 212-219-0077

Thanks to everyone for the God-like support of King Diamond's latest concept horror epic, "Them". We just got in CDs, which sound awesome and contain the non-LP track "Phone Call". Call if you want a copy. Hold onto those full color King Diamond souvenir booklets - They could be collector's items. These booklets were included in the first 10,000 European copies of "Them". However, these booklets are unavailable in the U.S. Keep your eyes glued on MTV's "Headbanger's Ball". The "Welcome Home" video will air soon. King's U.S. tour kicks off in mid August with Flotsam & Jetsam opening. As promised, King and the entire band have now relocated and are living in sunny L.A. Keep up the great support but don't you dare bring "Them" home to mother!!!!... Roadracer is proud to announce two recent signings--progressive thrashers Realm and speed metallers Atrophy. Realm hail from Milwaukee and sound like a cross between Fates Warning, Trouble and Metallica! Realm's Roadracer debut, "World Of Confusion". Is currently being recorded. It's due in October. Atrophy is from Tucson, Arizona and are best buddies with the Sacred Reich boys. Bill Metoyer (who has done an awesome job on the new D.R.I. opus) is currently in the studio producing Atrophy's Roadracer/MCA debut, "Socialized Hate" - look for it in October. Holy Terror's new LP "Terror And Submission" is due very soon. Don't forget to check out your advance tapes. Wait till you see the cover!

Colleen Baxter, SST Records, 213-835-8977

Cool summer music on SST: The Last "Confession". This is great pop music, full of hooks and three-part harmonies. If their name rings a bell, give yourself a pat on the back. The Last ruled the L.A. music scene from 1978 to 1981--They inspired everyone from Black Flag to Redd Kross to the Descendents. The Last broke up in 1985, and now they've re-formed and recorded this LP, produced by Bill Stevenson (of Descendents/All Fame). Sylvia Juncosa "Nature". Sylvia is the reincarnation of Jimi Hendrix. She used to have a band named To Damascus, but now they're called simply "Sylvia Juncosa". She's the best female rock guitarist alive and this album is proof. Henry Kaiser "Those Who Know History Are Doomed To Repeat It". Henry is a Deadhead. On this album he and his friends do a 30-minute version of "Dark Star", based loosely on the Grateful Dead original. Then they do a beautiful version of "Mason's Children", which the Dead occasionally play live but haven't recorded in the studio. And you get to hear Henry's interpretation of "The Fishin' Hole" (The Andy Griffith show theme). Release date July 22. Then in August we're releasing new material by Trotsky Icepick, Screaming Trees, Dinosaur Jr., Grant Hart, and Roger Manning. Run Westy Run are touring North America in an ambulance. See them in Ames, IA (7/8), Lawrence, KS (7/9), Kalamazoo (7/11), E. Lansing (7/12), Ann Arbor (7/13), Toronto (7/14), Montreal (7/15), Boston (7/18), New York/NMS (7/19), Charlottesville (7/20), and Raleigh (7/21), with more dates to be announced.

Janet Getchell, Megaforce, 201-254-6533

Hey, did everybody catch the new incredibly brilliant Testament video on MTV? I have had lots of men/boy/children tell me they love the "Insane" video by Frehley's Comet.

Personally I don't think any of those nurses would be part of the real Women's Club. Jim Rogers from WMLN used one word to describe it "Naughty". The Earl of Earache has a brilliant idea of bringing Billy Milano and the Great Kat together for a duet. Just warn me in plenty of time so I can stay away from ground zero, if this happens. OK guys give me a call when Testament comes through your town and we'll set something up. Stupid jokes, statements, questions call me!

Derek Simon, Concrete Marketing, 212-645-1360

The picture is looking ever so good for Britny Fox. These guys are burning up the phones everywhere. The "Long Way To Love" success story continues to build. It looks like no sleep until gold. Then platinum. Then who knows how far this record can go? Slayer CDs of "South Of Heaven" are on their way to you, well in advance of the album's release. One listen should make it obvious that this record kills. Slayer phoners are available on Wednesday July 13th and Thursday July 14th from 12:00 to 6:00pm Pacific time, so call me if you're interested in a time slot. Queensryche continue to dominate metal radio and are on the verge of major AOR breakthrough as well. Metal radio jocks should let their program directors know just how big this record is! Let's get "Breaking The Silence" all over AOR, where it so rightfully deserves to be. Judas Priest will be rolling through your neighborhood soon. Don't miss them. I've always wondered what the inside of a blast furnace looked like. Rob and company have always been terrific onstage and the "Ram It Down" tour is no exception. And over the next few weeks, remember the name Winger. It'll be "Time To Surrender" soon. Details to follow.

Cheryl "See Ya At The Beach House" Valentine, Metal Blade, 212-645-6208

Well, I'm back from my Providence/Boston excursion with the mighty Hallows Eve. Their shows were killer (what did you expect?) and we had a crazed time, especially in Boston. Mega-mega thank you's go out to our tour guides/baby sitters: Mike Colucci (WBCN), Dr. Metal (WHJY), Psycho (WXIN), Cheryl LeBeau (WHUS' Laundromat Woman), Bill "Hallows can crash here" Fischer (WJUL), Val Allgrove (WXPL), and Andy Thurston (WBRB). For all of those who blew us off or landed in jail, it's your loss. Special thanks go to Mike Jones (WGIR) for stopping by for no apparent reason. The quote of the week came from this illustrious trip and was sputtered by Tommy Stewart: "I've never seen so many policemen in all of my life".... By now, some of you have had the pleasure of speaking with my supplementary "Radio Woman from Hell", Nancy Twomlow. She rules, so be cool to her.... Oh my, NMS is upon us! Being the total professionals that we are here at Metal Blade, we will have a booth to end all booths. If ya wanna meet me there just leave a message at the Metal Blade Taj Mahal and we'll hook up. Don't miss our metal extravaganzas at NMS which include LIVE appearances by Fates Warning and Hallows Eve.... Speaking of NMS, has Glenn 'O from WBYS called to beg you yet? Seems he has no place to stay during this event. I told him that my place was full (ha ha).... Oh yeah, kids and kidsters: If you are in the Milwaukee area on July 23rd, ya gotta go to the Metal Fest. Fates Warning and Flotsam & Jetsam will be jammin' out at the Eagles Club.... By the time you read this I'll be a professional water skier, skiing the Great South Bay blind-folded. This will all be compliments of our wondrous retail punk, Brian Lima. Yes, it's a Long Island weekend made complete with the Fates Warning/Dirty Looks gig at Sundance (ya know, Finger's club).

Megadon, Combat, 718-740-5700

Greetings, radio wackos! Despite the agonizing heat from hell, I'm actually in the greatest of moods. Why? Because I'm young, hairy, and intelligent (of course, it would help if I was good-looking and rich as well, but ya can't have everything). Of course, Impellitteri's speedy ascent up the charts is helping matters and elevating my good mood to an even higher plateau. This record's got something for everyone, from Bonnet's vocals and Chris' searing fretboard work to the luxurious packaging. Hell, even Phil Hardy can't find anything bad to say about it! Those wacky noise boys Acid Reign and The Accused are chartbound, too! On the lighter side of life,

The Megadon/E-Z-O blowout was an absolute riot, and featured quite a cross-section of people: thrashers, posers, the over-dressed, the well-dressed, the barely dressed, assorted Real Men (the so-called Real Women were barred from entering) and the ever-present Cycle Sluts From Hell. I never saw eight cases of beer disappear so fast in my life. Definitely one of the most happening events ever, but I don't ever want to play bouncer again. Seems people figure if you're over six feet, it's your job to ask the disruptive element to leave. I still feel like a jerk. Oh well, I hope to see all you happenin' thrill puppies at NMS this weekend. Who will be the first alcohol casualty? Will anyone get arrested? Will anyone be forced into a shotgun marriage? How about balcony diving at the Ritz? All in good time, I guess.

Phil Hardy, Megaforce, 201-254-5274

Two absolutely brilliant parties I attended this weekend! The guitarist of our band Prophet threw a major bash at his place Saturday that was chock full o' dudes (for all you ladies) and dudettes (for all the guys). The music was incredible! Among the best new music I heard: Kings Of The Sun's "Black Leather" (that album rules)! Living Colour (amazing)! Tracy Chapman (what a talent)! But the best music had to be provided by King's X from their debut LP--this band will be the next U2. Catch them on tour with Hurricane (great hook!) in a town near you. I also enjoyed hearing the forthcoming single from Ace Frehley "It's Over Now" - what a tune, sure to surprise many! Also a brilliant new album you should be alerted to comes to you courtesy of Atlantic by a band called Winger. Great guys, great friends of mine. Guitarist impresario Rob Beach played on amazing guitar at party #2, atoning for his sin of locking my keys in my car! Don't forget! Ace Frehley and King's X are both on the road, I told them both (or at least one) to send you a shot of love.

Ramona Rideout, MJI Broadcasting, 212-245-5010

Our deepest condolences to the family and friends of Bob Kagan. He was a friend of ours and one of the truly great people in this business. He will be sorely missed.

Jim McKeon, RCA, 212-930-4309

"Back To The Cave" from Lita Ford is in your hands now. We've blown out 600,000 units with a great first track for AOR and CHR. Not to mention one of the years top videos...We'll we get to do it all over again, this time with a clear rockin' hit...Unleash it. And look for yet another electric video, one of the best live performance pieces you'll ever see. In the midst of this crush of major names, this terrific Scottish band Shine is attracting lots of attention. With Messrs. Boyle and Chernoff trumpeting Shine's virtues. How can you resist. Are there programmers with batting averages better than these guys??? The Kings Of The Sun track is also making some serious inroads at Top 40 radio... "Black Leather" is the great summer rock track we're always looking for.... The Hornsby single "Look Out Any Window is released to CHR next week, time to power rotate, boys and girls!.... Later this summer a great rockin' band from NYC called Circus Of Power, the best yet from Icicle Works, a wonderfully produced act Ashton, and the very first Love And Rockets album previously unavailable here in the USA.

The Earl Of Earache, Mercenary, 212-741-8310

You metal programmers have got to be the greatest people this universe has to offer. Sacred Oath and Attacker become the third and fourth most added last week. The sky is the limit. Well, we've got both of those bands coming into our plush offices to do radio and press interviews this week. Tuesday, the 12th, Pete Altieri and Rob Thorne from Sacred Oath will be here. Wednesday, the 13th, bassist Lou Ciario and drummer Mike Sabatini will be in the office doing phoners. I know it is short notice but call me if you want to do an interview with either band. The "Doing The Right Thing" gang this week features Steve at WCDB, Ron at WCWP, Joe at WDWN, Craig at WEOS (Call dude!!!), Dr. Metal Headbanger at WHJY, Cheryl (My best friend is Kat) LeBeau at WHUS, Bill (Judge Wopner's best friend) Fisher at WJUL, Mike Z. at WNHU, Kaptain Kasky at WOUR and Matt at WRFL. By the way, ask

Mike Z about Video Fallout. You dudes are great!!! Now, it is time for the rest of you to get on these records. We want Attacker and Sacred Oath to rip up the charts but we need your help in doing so. I'd love to add the rest of you to the Mercenary "Doing The Right Thing" list. If not, my Uncle Luigi has a toy that he would like to show you. As Frank and Ed would say: "We thank you for your support." P.S. Prepare for Meanstreak!!! P.S.S.: That dialogue of mine has all the making of a stirring spoon. I don't know about you, but I miss all those dirty tidbits about people.... Finally, with all kidding aside, I would like to send my personal condolences to Chris Black and the rest of her family. Get back soon. I'm sure I speak for everyone involved in metal radio when I say that we all truly miss you. Until next week, MUYA!!!

Alex DeFelice, Noise, 212-334-9268

As a lot of you might have heard by now, the Voivod tour has been postponed due to cancer diagnosed in guitar player Piggy's pituitary gland. Piggy is in the hospital getting ready to undergo surgery and the band should be ready to pummel America by September. We should have an address for you to send "Get Well Piggy" cards real soon...Let's keep Piggy and Voivod alive and well on everybody's playlists. The Sabbath LP "History Of A Time To Come" should have arrived everywhere by now. Check out "Hosanna In Excelsis." Kreator's new Ep "Out Of The Dark Into The Light" is due July 25th. They hit the road on the 21st in Sacramento with D.R.I.

Michael Linehan, Reprise, 818-953-3750

Brian Wilson's solo project is off to a great start as "Love & Mercy" comes in third most added in every trade. Early believers include KSHE, WLLZ, KLPX, KFOG, WKDF, WBCN, KPEZ, WNEW, KLAQ, WPYX, WXRT, KILO and WHCN among many others. As you can see from these calls, the entire spectrum of album radio (OK, except metal) and every region of the country is represented here. No other American artist has had a greater impact on rock & roll, a few may rival him but no one surpasses him. Brian is a heritage artist who predates the format and your audience grew up with him. Spend some time with this track and it will convert you. The LP hits retail this coming week and we already have nearly 100,000 re-orders before it even ships! Play it in the mornings, play it middays, play it afternoon drive, but play it! And hey, if you put it up against the new Cinderella on Smash or Trash at 8pm we all know it's going to get beat, so don't even bother. It is still a record for your station!.... Speaking of Bryan, Mr. Ferry kicks off his tour the first week in August in the Northeast. He will be going as far south as Atlanta, then across the upper Midwest and down the West Coast finishing in L.A. in mid-September. We will be working the cut "Limbo" in conjunction with the tour and you will be resericed shortly on the entire CD. MTV has been banging the "Limbo" video as the "Breakthrough" video (5 to 6 plays per day). It is the first ever video to spend a third week as the "Breakthrough" video. If he's coming to your town, check the ticket sales, this is the hottest (and coolest) tour of the summer.... Speaking of MTV, don't make a video that spoofs sponsors if you want to get it on the air. Neil Young's "This Note's For You" video is not only the funniest of the year, it's also the most controversial. Look for plenty of media coverage on who will and who won't air it. If you haven't seen it yet, call me. "Get off of that couch..."

Mike Mena, A&M, 212-826-0477

Well, I'm looking forward to meeting a lot of you at NMS 9. Should be quite an event. A&M has two hot showcases, on Monday, July 18, Marti Jones will be playing at the Bottom Line with special guests Graham Parker, John Hiatt, Don Dixon and Janis Ian among others. The show will convince any of the non-converted about a talent that has been overlooked for too long. On Wednesday the 20th, the Rock show that will change your life will happen at the Ritz...Iggly Pop and Soul Asylum!! Another seminar event that is definitely worth mentioning is when The Hard Report's own lovely and talented Dawn Hood sings the best of Bread at the A&M dinner just prior to the Marti Jones performance. Rumor has it that the Dawnster can bring down the house. Special radio guests on the spoons too. Call if you need anything Alternative-wise.
