"A big surprise is Rhythm Corps. You wouldn't expect it to be a reacting record, but we've got #2 phones! I loved it when it came out and that worried me a little because I never expected the audience to react to it the way they did."

Jim Steel, WIOT
After a few weeks of development on the New Music Show, the Rhythm Corps gets a shot. It's one of those songs you can't help but like.

Matt Roberts, KRQU
"Rhythm Corps is headed for top requests and it's good to hear fresh new ideas from this band."

Bob Walton, WRDU
"We felt from the start that 'Common Ground' was not only smooth and sensitive rock and roll but an across the board hit. And now we have top five phones and strong sales to back up our belief. If their live show is as good as the album, we've got a major act on our hands."

Little Feat, "Let It Roll", WB.... Since we're totally over the top, why not second Ted's mighty front page pronouncement and even take it a few steps further. Has any reunion album ever generated this amount of audience anticipation? Really. Name one. Not Simon and Garfunkel, not the Everly's, not Lynyrd Skynyrd--although they came close. Even more amazing is the fact that the music is far better than anyone's highest expectations. This is one hell of a Little Feat record. No disrespect to Lowell, but Craig Fuller has come through with flying colors--down to the point of writing credits on eight out of ten tracks. And as great as his vocal range and texture are, he's not even close to being the star of the show. Richie, Bill and Paul are the big guns here, but only as a function of their virtuosity--not in deference to their elder statesman status. And songwriting? Don't be surprised if at least half of these songs end up in the cover tune Hall Of Fame--with the title track, "Listen To Your Heart", "Business As Usual", "One Clear Moment", and "Cajun Girl" all, dare we say it, future classics. Regardless of anyone's artistic assessment, "Let It Roll" will undoubtedly rank as the best selling and most played Little Feat album ever--underscoring a realization that rock and roll has proved again and again. Time loves a hero.

Robben Ford, "Wild About You", WB.... Mike Marrone absolutely closed everyone here after only a few hours of non stop jukin' on the the company playback unit--and we got tons of curiosity/raves after only one day of auto-reverse duty on the hold button unit as well. And if you think the folks at 4 Trading Post are tough, you ought to be at our end when stations don't dig what we have on hold. Heard it--like it. And everyone is surprised when they hear it's Robben, if only because they're expecting him to be Larry Carlton's heir apparent. If you're well schooled in the blues, it's more a blend of Jeff Beck and Buddy Guy, with a vocal shot of Mose Alison. But even if "The Fillmore East" was your frame of reference you'd love this record. Give a listen to "Wild About You" or "Talk To Your Daughter" and be ready to add the record, no problem. It's new on KDJK, KZOQ, WGIR, WHFS and WWWV, with KVRE, WCKW, WHEB, WNGZ, and WRXK increasing play. KBCO, KGON, KEZO, KOZZ, KWHL, KZAP, WHCN, and KEZE are among those already in. Again--it's this week's longest 90-74* mover, and a prime candidate for a little left field support from you.

Pete Bardens, "Speed Of Light", Cinema/Capitol.... Different isn't always better--sometimes it's just enough to get your butt kicked in a Laramie bar. But in this case, we think Mr. Bardens' latest is a really fresh breath, not unlike that rarefied air a big tall camel breathes when stuck in a traffic jam. And now that the A&R inspired rush to "new age" has moved on to the "female and folk renaissance" (see Noise), Pete's particular brand of Pink Parsons is all the more distinctive--and ultimately useful to you. This project is appropriately adult and ethereal, but driving and tuneful enough to hold a nice wide demographic coalition. Please note that in Jim Trapp's Winners Chart analysis, lead track "Gold" is almost 20 positions ahead at those ratings dominant outlets, a clear statement of regard. There's really nothing else quite like this currently available. The album offers more of that trademark crystalline style, but this time with a whole lot more applied energy for AOR. In particular, pay close attention to Mick Fleetwood's drum driven "Whisper In The Wind", and the "Headphones Only" special "Westward Ho".

RECORD OF THE WEEK

Tommy Conwell, "I'm Not Your Man", Columbia.... Anyone within WMMR's signal area--or that of any station in the great Cheese Steak belt--knows that TC is the real deal. If they haven't seen him working out at the Chestnut Cabaret, 23 East, The Empire Rock Room or any similar tri-state joint, they've certainly heard an earlier edition of this tune on the air. And that's why manager Steve Mountain and Columbia played host to all those radio and concert promotion heavies here in town last week. You see, you believe--it's that simple. So, naturally, you'll read raves from the likes of Pam Edwards, David Hall, Wendy Steele, Jim Steel, Jimmy Christopher, Kim Alexander, Harve Alan, Lorraine Caruso and anyone else who braved the storm to see the show. But you didn't have to be there for first week air--you know Rap and Jimmy couldn't pull 80 outta the boxers unless this was one monster tune. As KFMF's Marty Griffin says, "One listen was all it took for me. This kid can play! Love it!!".... WBLM's Robin Mathieu agrees, "This band is for real and 'I'm Not Your Man' is the perfect song to introduce him to your rock and rollers".... And from KXBR's Bill Clay, "If this is an indication of what the rest of the album is all about, rock radio has another great debut on its hands".... New at 42*, this week's highest new entry.

HARD ACTS TO FOLLOW

Frozen Ghost, "Round And Round", Atlantic.... What's any Front Page without at least one deserving candidate in the Canadian Corner? And this week we have two! First, a nice surprise from Messrs. Lanni and Wolf, who finished the '87 year end polls as one of the most played debut acts with "Should I Stay". Solid play on two follow up tracks and a well received mini-tour further enhanced their profile. Now they're back with more of what made it work the first time--a catchy compressed Fixxoid vocal and arrangement, and a chorus you'll be singing along with after about half a listen. It's just one of many strong tracks from their forthcoming "Nice Place To Visit" LP, and a terrific test vehicle for audience awareness.

Joan Armatrading, "Living For You", A&M.... For years, Joan's fans have fought to get this original talent her fair share of album radio exposure. She's come close with near classics such as "Love And Affection", and "I Love It When You Call Me Names". With so many new females receiving what one can only describe as "Thank God, women on the radio!" reaction, it's only fitting that that this original should merit a serious listen. "Living For You" leans a little more adult than some of her more rock tinged recent efforts, but given A&M's ongoing commitment and many stations' more pronounced upper demo direction, this could well be the one to remove that cult connotation. Still unique after all these years.

Reckless Sleepers (featuring Jules Shear), "If We Never Meet Again", IRS.... You know he's a writer of the first rank, and it's also about time his performing talents were recognized on their own. First week action has out of the box response at KBCO, WBCN, WIMZ, CHEZ, KRQU, KZOQ, KTCL and 8 more reporters. "Jules is in top form" reviews KBCO's Doug Clifton, with KRQU's Matt Roberts saying "I like this new outlook--kind of Talking Head-ish. I see a lot of movement on this".... KFMU's Dave Ross calls it "A definite all demo song you can play with confidence".... and KFMH's Phil Maicke notes the "Great vocals as usual", continuing with the musical question, "Will Jules become famous? Stay tuned".... Test it and find out for yourself. We think the world's best one thumb guitar player finally has his own hit.

Colin James, "Voodoo Thing", Virgin.... The other half of this week's CanCon contribution slips across the border from Vancouver, but you'd never know it. He sure sounds like a good ole Tejas guitarslinger to us, with a driving "Got Me Under Pressure" approach that even Terry Manning would be proud of. Start with the assumption that those familiar guitar riffs will get the earthdogs all hot and bothered, factor in a raspy growl that could be Billy Gibbons in tight pants--or Dwight Twilley feeling exceptionally gnarly--and you've got a more than workable first effort.

"HEY HEY"

From The Smash Album
THIS NOTE'S FOR YOU

"THE VOLUME DEALERS"

NEIL YOUNG & MIKO BOLAS

Direction:
Lookout Management,

Hothouse Flowers, "Don't Go", London/Polygram.... Just because the Flowers hail from Ireland, don't be thinking they sound like the Clancy Brothers. And let's not make the mistake of comparing this act to Thin Lizzy. No, this is one band from the Land O' Goshen that sounds most like the original Irish rocker, Van Morrison. Most intriguing is lead singer Liam Whatshisname's ability to effect that stream of consciousness delivery that was heretofore the exclusive province of works such as "Astral Weeks" and "St. Dominic's Preview". The imagery is exotic and romantic, and when's the last time a "Na Na Na" song didn't work? Listen a few times. We had to.

NEW PLAY PRIORITIES

Married To The Mob, Soundtrack, Reprise.... This is basically going to score huge on the alternative side of the dial, what with new tracks from the Tom Tom Club, Sinead O'Connor, and what could be the millionth version of "Bizarre Love Triangle" from New Order. But don't let that stop you from digging into a fine new hookfest from Chris Isaak called "Suspicion Of Love". It's Terry Stafford meets The Ventures, and a nice peek into the forthcoming third album from this Bay Area attraction. Let's not forget Ziggy Marley's new tune "Time Bums", and a rare (though not the first) lead vocal from tape texture terror Eno. If you do a new music show, this package is a must. PS: Debbie Harry's "Liar, Liar" scores new air on KZAP, WBCN, WWWV, WOXY, WKXL, WHTG, WDRE and KITS.

Graham Parker, "Don't Let It Break You Down", RCA.... Finally! The song that opens the new album and kicks off the current tour comes to you remixed and radio ready. Any student of Graham's work or fan of Brinsley Schwartz has known this is far and away the best airplay item from the critically acclaimed album, and we won't stop screaming until it gets a fair test. "Get Started" is exactly what the leadoff number did in terms of reacquainting your audience with this world class talent, and this is the one to continue the breakthrough. It's got the attitude, it's got the hooks--and all the label support an artist of his caliber deserves. Anger and intelligence, now that's a concept!

Rossington Band, "Losin' Control", MCA.... Let's talk about Big Voices. Dale Krantz-Rossington has to rank as arena rock's answer to Queen Tina. A fair comparison means going back to the likes of Cold Blood's Lydia Pense or Ten Wheel Drive's Genya Ravan. Take a setta pipes a quarter mile dragster would be proud of and put them in front of Gary R's road tested touring machine and it's Top Eliminator time. "Welcome Me Home" was one of this year's surprise early strong performers, and you'd be remiss to dismiss this follow-up's shot at continuing the ride.

INXS, "Never Tear Us Apart", Atlantic.... If you saw the tour, I don't have to tell you what this number did to the relative humidity in the hall. I mean, they were wilting left and right. Even though it's a ballad by INXS standards, the energy level in that room zoomed--no, make that slid--off the scale. That's star power for you. From the synthstrings to the near Righteous Brothers testifying, "Never Tear Us Apart" could be one of the sexiest songs in rock playlist history. Best use of the dramatic pause since Marilyn Monroe sang "Happy Birthday" to JFK, and a fitting tribute to Smokey's "You Really Got A Hold On Me".

Neil Young & the bluenotes, "Hey Hey", Reprise.... And you thought Neil was back bigtime after "Ten Men Workin'" blazed its way to the top of the charts and that thirty buck club tour sent the faithful home thinking they got double their money's worth. Then Reprise teams up with the Big Guy to top themselves with the supersmart "Video that MTV won't play" promotion. He's on fire, what can you say? Now the ball's in your court to keep what we'd consider his imagematic high point on a roll that not only rocks but positively swings. My My, this "Hey Hey" number is as much fun as a slide guitar freak should be allowed to hear on the radio--but never see on TV.

IMPACT TRACKS

Europe, "Superstitious", Epic.... Before we load on the with the quotes--doesn't this from WDV's Anthony Alfonsi pretty well runs it down, "It's produced by Ron Nevison. Need I say more?".... "Superstitious" hits the bricks to the tune of 75 first week adds and a 44* debut and in spite of their multi-platinum success with the first record, that's indeed their best kickoff week ever. Obviously, that also says plenty about the band's current worth to rock programmers. Here's more: Tim Parker, KNCN, "This should be on every station everywhere. It's very slick but in a positive way. What a great follow up!".... Tom Starr, WOUR, "It represents a quantum leap".... Karen Small, WGIR, "This proves that these guys have more appeal than just their hair".... Chris Herrmann, WHJY, "Europe is destined for tonnage".... Randy Maranz, KDJK, "What can you say, this is a smash. Already taking off with good phones here".... Look for at least 25 more adds in our next Report.

John Kilzer, "Green, Yellow and Red", Geffen.... One of the most highly skilled new hooksmiths on the circuit nails down 20 adds in the first serious week in the trenches bringing in an 86* debut. **KFMF's Marty Griffin** comments, "This was my first pick and I'm glad to see Geffen going after it. With good calls already coming in, this should do as well if not better than 'Red Blue Jeans'.... **KFMU's Dave Ross** says, "I'm shocked that all of rock radio hasn't given him the total attention he deserves. This is a driving song that kicks some--and then even more. Get this guy on your side. He's what rock and roll is all about".... **WCCC's Joe Marino** adds, "Take a listen and you'll get the hook stuck in you so deep it won't let go".... New players include **KZAP, WLLZ, WFYV, WEGR, WCCC, KRQU** and **KFMH**.

Robert Plant, "Dance On My Own", Es Paranza/Atlantic.... Based on the ever escalating station count, this week's 30-22* move marks the point from which this baby is ready to kick in bigtime. It's new on 19, (**KGON, KZEW, WFBQ, WFYV, WKRR, WNEW**), with an equally solid slew of increases including **WAAF, KILO, WHJY, WIMZ, WRFX, WRXK** and **WXLP**. It's currently a Power at **KXRX, KATT, WAAF, WHCN, WPLR, WRXK** and **WGIR**, with 39 more reporting heavy play. As **KKZX's Christina Gorton** says, "The quality of songs from Plant continues to amaze me. This album will keep us all very interested for some time to come".... Also, check out the two live 12" B-sides with alternate versions of "Tall Cool One" and "Ship Of Fools". 11-10* on the album chart.

Cheap Trick, "Don't Be Cruel", Epic.... You've heard it whispered in the hallway, but those rumors are true. **KBCO's Doug Clifton** confesses, "Our add on this record will come as a shock to many but it is one great cover".... **KFMX's Cindy Bennett** adds, "This song is going to be a multi format hit, so we should get on this track right now before the guy across the street starts hitting you on the head with it".... The killer kover has its best add week yet, with new air on 35 reporters including **KATT, KFMQ, KISS, KPEZ, KSJO, KWHL, KYYS, KZAP, WEGR, WHCN, WIYY, WKDF, WNEW, and WRDU**. We log in play-ups from **WRIF, WLVQ, KZOQ, KRNA, KNCN** and **KDJK**, with a total of 82 stations now on board. Already a heavy at **KOME, WFYV, WLVQ, WMMR, WRIF, WRXK, WWCT, KDJK** and half a dozen more with early phones from **KRNA, WHMD, WIXV, WRUF** and **WRXK**. Also, note it's this week's second longest Hundred gainer with a 59-41* jump.

Tracy Chapman, "Talkin' Bout A Revolution", Elektra.... Having caught Tracy's act last Monday night here in Philadelphia, we have no problem attesting to the relative rabidity of her 25+ fans. Her confidence and vocal clarity also scored big. In fact, everything about this artist has "Big" written all over it. Increases at **WBCN, KLOL, WPLR** and **KZOQ** help this follow-up to an impressive 48-36* showing on the Hundred but the key is the phone action. Tracy is an artist demanded by the public and those buzzing request lines on **CHEZ, KISS, WHMD** and **WRCN** attest to the woman and her hold over those fans.

Huey Lewis and the News, "Walking With The Kid", Chrysalis.... **KZEL's Al Scott** proclaims, "Huey is kicking butt bigtime with a supertight horn section and enough hits to power this album through the rest of the year".... **Karen Small** at **WGIR** hears an album "Full of summer sounds. The different influences and rhythmic diversity make for a satisfying departure and really good listening".... **KBCO's Doug Clifton** agrees, "Huey has delivered an album that offers songs for all kinds of album formats".... We also hear a handful of cool album tunes to choose from with "Kid" claiming early backtracking honors. It's new on **KISW, KILO, KFMG, KATT, KSHE, WFYV, WIOT, WLUP, WNEW** and five more, with a 96* debut. There's also significant action on "Old Antone" (**KATT, KBCO, KXRX, WBLM, WKRR**), "Gimme The Keys" (**KSHE, WAPL, WLUP, WPDH, WZXL**), and the title track. Note the 5* album debut, this week's highest new entry on that chart.

CHARTSTARS

Melissa Etheridge, "Bring Me Some Water", Island.... We've said it before, but it's worth repeating, this is an artist you cannot afford to ignore. If the validity of her vocal and songwriting prowess doesn't impress, just check these affecting numbers. Six consecutive weeks of double digit adds thanks to 10 more keeping the batting streak going this week, including **WLLZ, WKFM, WFYV, KTXQ, KLPX** and **KMJX** with a 31-27* move on the Hundred. If you're still not thirsty, ask around. **KQWB's Ty Banks** is at one of the 10 stations reporting top 5 phones, "Melissa Etheridge's 'Bring Me Some Water' is surpassing all expectations. Top 5 phones this week and still growing. No phony image here, she's a genuine singer with a wide range of emotion".... On 105 with Heavy or better at 22 reporting stations, not bad eh bunky? We'll let **WBLM's Robin Mathieu** try to dry you out, "The summer success story here is Melissa Etheridge. In two short weeks 'Bring Me Some Water' is #2 phones and building at retail."

Blue Oyster Cult, "Astronomy", Columbia.... Let's hear it for this week's biggest builder as the Cult shakes loose with a 49-29* underline that is turning heads from here to the Crab Nebula. They got there via another really strong 37 station add showing and increases from **KILO, KLOS, KMOD, WAQX, WDHA, KPOI** and more, making 11 in all. It's currently on 104 reporters with **KYYS, KAZY, KGON, KOME, KQRS, KSJO, KZAP, WBAB, WDIZ, WFBQ, WHCN, WLAV, WLLZ, WLVQ, WNEW, and WYNF** just a partial list of the hammers already on board. **KXBR's Bill Clay** comments, "The remake is going to be great here. It's in immediate heavy rotation".... **WDVE's Anthony Alfonsi** says, "It doesn't rely on their past, which shows they're willing to progress into the 90's".... And from **WNPQ's Eric St. John**, "This new version really took me back to the reasons why I loved BOC in the past."

Robert Cray, "Don't Be Afraid Of The Dark", Mercury.... 21 more adds just about closes Robert's new tune out with 161 after only two weeks! But his 27 station increase count is even more impressive as **WZBH's Jeni Gipe** tells us, "The Cray is great but it's like the Allman's 'Midnight Rider'. A great song, but too short. Guess we'll just have to play it a lot".... **KZEW's Jimmy Christopher** adds, "I love this guy and his album is strong throughout. Look for big things from this effort".... **KQWB's Ty Banks** says, "Good, good song. Everybody here is talking about the commercial tie-in possibilities".... **WRQK's Greg Morrison** feels, "Cray holds strong appeal with an authentic blues style that's commercially acceptable".... One of this week's strongest movers, 18-10*, with **KFMH, KPEZ, KZEL, WWWV** and **WZEW** already reporting top five phones.

Toni Childs, "Don't Walk Away", A&M.... When The Hard House Rockers finally make a record, I sure hope Tom Lord-Alge is still around for re-mix honors. His deft touch has obviously done wonders for Toni's top track, with an undeniably more focused and concise rendition of an already fine tune. Just check the adds: **KBCO** (the #1 source of national female breakouts), **KTYD, WFBQ, WLLZ, WRCN, WBRU, KBOY, KATP, KVRE, WDHA, WHTG** and five more. Factor in earlier adds at **KMOD, WBCN, WCCC, WLAV, WPLR, WZEW, WMDK, WKLC** etc. and you've got a debut at 82*. Significant momentum considering the traffic, eh girlwatchers?

Lita Ford, "Back To The Cave", Dreamland/RCA.... And speaking of strong female fronted talent, total sales on Lita's project are more than competitive in the division--and only Lita rivals Tracy in the crossover competition. And there's no doubt about who's the female fretmaster. The new video highlights that aspect, something that could well make a significant difference in your listeners' perception. "Cave" turns in another excellent add week, with **KBPI, KTXQ, WIOT, WKDF, WRXK, WQMF, KMJX, KSQY** and 6 more, and equally printworthy increases: **KGB, KISS, KOZZ, KSJO, WHJY, KWHL, KPOI, KZOQ** and **WWTR**. Currently on 94 reporters, with early top 5 phones at **KBAT, KJOT, KNCN, KPOI, KWHL, WGIR, WHJY, WHTF, and WNPQ**. It's gonna do it.

Breaking out of the Mid Atlantic!

On! DC101 WWTR and WWWV

Van Halen, "Finish What You Started", WB.... A total of 15 adds including KLB, KMOD, WRXK, WPLR. WCCC bring the Monster headliners into the top ten Most Added here in Hardvania. Joe Marino at WCCC isn't scared one bit, "Van Halen's 'Finish What You Started' is really working well on the air. It's always been my favorite song on the album and it's great to hear Eddie playing the guitar for a change. This song pops on the air like nothing else from the LP".... Increased at 17 stations with Power play at KISS, KSJO and 5 more not to mention the 46 Houses of Wax doing Heavy damage. It's easy to see that 22-12* move on the HH. We have to agree with Vern Argo at KZOQ, "Momentum on this album is still a major factor for us to deal with".... You bet, Vern. "OU812" is mummified at the top of the Album chart and the phones are dripping with top 5 phone gore at KMOD, KQRS, KYYS, WFBQ and WLZR.

The Fabulous Thunderbirds, "Powerful Stuff", Elektra.... This churnin' urn of burnin' funk leads the stax on this week's Increase Index with 37. Checking the menu of calls you'll find CFOX, KXRX, KYYS, KBCO, WBCN and KGB among those juicing rotations this week. The HH move of 10-7* ain't no accident Bobby Joe with 10 more adds spicing up the bop-u-base to 173 with 71 leaning Heavy or higher. According to Brian Illes at smokehouse WKFM this meal is just beginning, take it Bro', "I expect this song to really explode once the movie hits the screen".... The Album chart jump of 12-8* forced KZEL's Al Scott to comment, "What a great song the T-Birds have with 'Powerful Stuff' and boy am I glad that Motley Crue didn't do it as originally planned."

The Gregg Allman Band, "Can't Get Over You", Epic.... Our #5 highest increase with 21, proves the road goes ever on for Mr. Allman. WOUR, KKDJ, KLOS, KLPX, KSHE, KTYD, KWHL and WRIF were among the boosters that couldn't get over the #8 most requested track in the nation. We show Heavy saturation on 132 out of 172 current air captains, translating in a 5-3* position on the HH. But let's not downplay the depth of the album. "Demons" picked up 6 more adds and is just waitin' in the wings. Art Boerke at WKWQ will back that up, "Gregg Allman's 'Demons' has got that real good Brothers bluesy feel to it. One thing is for certain, this album is so much better than the last one".... "Just Before The Bullets Fly" is at #4* on the Album chart so obviously Art is on the mark.

Rhythm Corps, "Common Ground", Pasha.... This pop reactor continues to impress the skeptics with a more than healthy 10-6* uptown cruise in the national request neighborhood. WLLZ, WNEW, WCCC and WHJY are among Marconi's condos experiencing top 5 phone interference with WCCC's Joe Marino broadcasting this testimonial, "A big surprise is Rhythm Corps. You wouldn't expect it to be a reaction record, but we got #2 phones on it!! 'Common Ground' shocked me when it came out. I loved it and that worried me a little bit because I never expected the audience to react to it the way they did".... Currently starring at 143 stations including the latest six carrier's KISW, KZRR, WCKW, WPYX, WTKX, and WWCK. A nice jump of 21-13* on the HH should get you off the fence before your pals at CHR beat you to the ballgame.

Jimmy Page, "The Only One", Geffen.... We've felt all along that this was the track no one could resist. After all, Bob and Jim together doesn't happen with anywhere near enough frequency for the legions of Zep slaves. With early believers Rick MacKenzie at WAAF, "It's like a Zeppelin reunion on the air".... and Cyndee Maxwell at KWHL, "Jimmy Page and Robert Plant together on 'The Only One' takes me back to shades of 'Coda'".... We can see the reason for that 29-24* hike up the HH hill. Of course, the increases at KFMG, KGB, WFYV, WIOT and WHJY or the 118 station count sure doesn't hurt either. "Outrider" is holding steady at #3 on the Album chart.

ALBUM PLAY PRIORITIES

Kingdom Come, "Pushin' Hard", Polydor.... With Robert and Jimmy so active in the charts, it might be tempting to dismiss these guys as a stopgap soundalike. However, when you're looking at sales figures literally a whisker away from Platinum, an early exit may not be such a great move. KBOY, KDJK, KISS, KLAQ, WCCC and 5 more come up with adds and we're looking for a debut next week.

Rod Stewart, "Forever Young", WB.... The perennial youngster has finally given us the album his AOR worshipers have been dying for. No one else could rasp out a mid-tempo grinder like this, even though many have tried. "Forever Young" pulls in KFMQ, KLOL, KLOS, KVRE, WIBA, WRIF, WWRX, WYBB and WZZQ this week. When you think about it, Rod has always scored big with the slower stuff and we think this will continue that tradition. Look for the HH debut next week, and watch "Out Of Order" climb up from 19 on the Album chart.

Scorpions, "Believe In Love", Mercury.... WNEW, KAZY, WOUR, KXRX and 3 more join the converted with adds this week bringing this week's total to 133 with increased play on KGB, KFMQ, KILO, WCCC, WDIZ and 5 more. Heavy or stronger rotations are reported at 47, including WRUF where Brian Jordan puts on his best Sgt. Shultz voice for these words, "The Scorpions have a big one on their hands. 'Believe In Love' will prove to be a dynamic follow-up to 'Rhythm Of Love'".... 24-17* on the Hundred and #9 National requests thanks to top 5 reports from KBOY, KBPI, KLAQ, WEGR, WHJY and 10 more.

10,000 Maniacs, "What's The Matter Here", Elektra.... When this album was released over a year ago, not many programmers at AOR would have predicted the kind of mainstream acceptance that has come to this band. "What's The Matter Here" moves 74-72* on the HH with adds at WNEW, KLOL, KITS, KJQN, WIXV and WNGZ keeping things alive. The gold is already on the wall and since the album is still generating a 40K unit move per week, it's just a matter of time before the platinum is hanging next door.

White Lion, "All You Need Is Rock And Roll", Atlantic.... With a Platinum plus Atlantic debut LP not quite finished wreaking havoc on the charts, White Lion has sprung a special customized version of this track for all the "Wait" watchers. Airplay is happening at 17, with new action on KDJK, KJOT, WAQX, WFBQ, WNGZ, WONE and WRKI. Don't let this one sit around for six months, tear it up right now. The debut on the HH is right around the corner.

Bruce Hornsby and The Range, "Defenders Of The Flag", RCA.... A nice rockin' change of pace from Bruce and The Range spotlighting a harmonica hook that just won't quit. Adds from KICT, KISS, KZAM, KZAP, WPYX and WVVV bring the on air count to 26. Heavy rotation at KFMG, KVRE, WKFM, WLAV and WWWV waves the "Flag" 94-85* on the Hard Hundred. Put three lights in the studio window because on 8/22 you'll have a CD promo with a brand new live recording of this song along with a live version of "Look Out Any Window".

Dokken, "So Many Tears", Elektra.... According to our Metal Editor Chris Black, Don Dokken is "The Babe", apparently a feeling shared by legions of females across the country. A HH debut at 98* this week with new action on KBPI, KILO, KMJX, KZRR and WXLN means Don can buy more accessories to keep that image pristine. It's early, but with play on 21 and the Monsters still touring, you'd have to agree with Al Scott at KZEL when he says "Dokken has come out with a good example of what the band is all about. This record is a must for anyone concerned with their core maintenance."

Henry Lee Summer, "Hands On The Radio", CBS Associated.... Nine stations put their hands on Henry Lee this week including WNEW, KMOD, WRQK, WPYX and KRNA where Kim Jeffries offers these words of wisdom, "How can radio resist a song like Henry Lee Summer's 'Hand's On The Radio'? Put your hands on this one and put it in the studio, this tune is bound to kick in".... An impressive 72-61* jump-shot on the Hundred reflects the muscle of that encouraging 43 station base. Increased play on KZOQ and WAPL along with heavy rotations at WPLR, WFBQ, WGIR and WZZO should alert your eyes and ears to this radio ready tune.

Robert Palmer, "Simply Irresistible", EMI/Manhattan.... Start with the numbers, #1 on the Hundred, #6 on the Album chart and #2 most Requested in the Nation. Eric St. John at WNPQ is almost at a loss for words, "What can be said about Robert Palmer except that he is 'Simply Irresistible' to every woman who ever drew breath".... Or as KKZX's Christina Gorton put it, "Those android women from hell".... Out of the 172 stations on board, only 20 DON'T have this thing in Heavy or higher. We'll give the last word to Mark Williams at WWZU "Robert Palmer is one of the few guys around who can rock and funk at the same time. Guys with his sense of energy and rhythm really make rock and roll fun."

Guns N' Roses, "Sweet Child O' Mine", Geffen.... We've made a new rule here at Hard Acres, we no longer ask for Top 5 phones, we simply ask for the top 4 after Guns N' Roses. Can you say #1 in request land again?...sure you can. "Sweet Child" is #8 on the Hundred with the LP at #9 on the Album chart. Fans of the Rockline program will enjoy this from Rick Panneck at WAPL, "Guns N' Roses continue to dominate the phone lines. Couldn't you just see Weird Al doing a parody, possibly involving regurgitation?".... WWRX and two more come in with adds this week making the station count 147 with 105 in Heavy or better, even more impressive is the 18 to 1 increase ratio.

Cinderella, "Gypsy Road", Mercury.... The book on these guys is that their previous "add water and stir" success raised a lot of cynicism about their ability to stand and deliver when it came time to put out that second effort. Rest easy, ye nay sayers. This band proves that they are for real with a sobering collection of blues tinged rock and in your face ramajama that should keep old fans and new alike very happy. At Z-Rock, Mad Max Hammer tells us, "They go to number one".... And at KISS, KJJO, WHJY, WPYX and WYNF the boys are getting Top 5 phones. Their 25-21* jump on the HH and 7th ranking on the most requested just underscores the obvious: the folks on the other end of the dial love this band.

Pat Benatar, "All Fired Up", Chrysalis.... Don't be confused by the 6-7* move on the Album chart, there is no fall-off for Mrs. Geraldo. We all know that the top 5 is gettin' mighty crowded with big guns. Al Scott at KZEL will testify to that, "Pat Benatar maintains her hold on the audience with 'All Fired Up' keeping her fans in a fever", pass the aspirin Al and give us a call in the morning. Increases are still healthy over at KATT, WDIZ, WWRX, KTXQ and continued phone action at KGGO, WLLZ, WRQK, WBCN and KLAQ.

MORE HARD ACTS

Camper Van Beethoven, "Eye Of Fatima", Virgin.... OK, smart guy. So this band is too far out for your Aunt Lil huh? So what if you can't sing the lyric line the first time through? Check these gold plated calls who have all discovered the aural joy that is Camper. WMMR, KGB, KLOL, KEZO, KSJO and WNEW aren't exactly card carrying members of the "We Are Weird" Club, fans. Fact is, Camper Van Beethoven is nothing more or less than great thumbs up rock and roll in a tradition that is near and dear to ears from coast to coast. "Broaden your horizons and look at 'Eye Of Fatima' by Camper", sez Randy Maranz at KDJK and 53 other reporters are opening up plenty, putting "Fatima" at 56 on the Hard Hundred this week.

Paul Kelly, "Dumb Things", A&M.... 79 reporters are swinging behind this tasteful, upbeat slice of Mr. Kelly's album "Under The Sun" and the results have been gratifying. This record is full of musical moments that stand out as some of the most enjoyable stuff released in the last few months. "Dumb Things" has that loose, clean and comfortable fit that makes for longevity in your mix and the kick drum bottom end is punctuated with a guitar/harmonica counterpoint that only gets better when fueled by Paul's effortlessly brilliant vocals. The track is paused at 43 on the HH but we will continue to holler about this tune 'cause, well, we like it. KBCO, WEBN, KTYD, WDRE and KYYS are all getting good mileage on this one and your turn is next.

The Escape Club, "Wild, Wild West", Atlantic.... This is the band to put on the turntable at a party where the energy has dropped a notch or two. You want reaction? You got it. "I was amazed at how quick the audience has responded to it. We've got top five phones this week and more on the way", according to Ernie James at WEQX and KROQ, WNEW, WXXP, KFMH and KTYD couldn't agree more. That MTV Hip Clip exposure is bound to up the ante for this energetic band and if our rotational radar is even slightly on track, you can count on that 91* debut to rocket upwards with no regard for gravity.

Femme Fatale, "Waiting For The Big One", MCA.... Take one band from New Mexico looking for a break in LA, add a sultry vocalist with enough animal charisma to make macho seem mild, and you've got the chemistry that puts Femme Fatale over the top. "Waiting For The Big One" has all those early Benatar moves to put the core in a lather while the sheer electricity of the video is going to unleash rock and roll libidos from 16 to 60. KMOD, KRQU, KBOY, KBAT join this week while KZAP, WBYR, KICT and WQFM show continued rotational pressure that should put a debut on the books next week.

In Tua Nua, "All I Wanted", Virgin.... This band has always carved a niche among alternative loss leaders but the master stroke this time out is Don Dixon's production. Still in tact is all the acoustic underpinnings that make the band so unique but superimposed is a savvy vocal that WIZN's Tom Van Sant calls, "An intriguing sound".... This track kicks! And stations like KBCO, WDHA, WXXP, WCCC, WIZN and KVRE are getting a good run with this one. WBCN moves it up in rotation this week and that 95* debut should start gaining momentum soon.

Winger, "Madalaine", Atlantic.... We knew this band had the goods when we first heard them during a serious latenight turntable session. Those high density licks just wouldn't quit and the riffing piled on top of each other until the vinyl looked like a topographical map of the Rockies. And rock is the key here. Winger is unabashed energy in musical form, like WHJY's Chris Herrmann says, "Madalaine' has touch. It cooks with great production and, oh yeah, good album art too".... Speaking of the Rockies, both KAZY and KBPI are in for the ride as are WEZX, KISS, KRZQ, WDIZ, WLLZ and WLZR. Peel this one back and take a good long breath of what power rock in the eighties is all about.

Beatnik Beatch, "Beatnik Beatch", Atlantic.... This is one of those infectious tunes that will stay in the front of numerous PD fave stacks. Try putting this one on a loop in the car and see how fast you reach your destination. There is something positively hypnotic about the vocal and arrangement and this has already become a standard for the Summer of 88 around Hard Acres. New play this week on WZZO, WHMD and WZXL helps up the action on this little beauty 87-76* on the Hard Hundred. Skip Isley at WWTR tells us, "Biggest surprise this week is Beatnik Beatch. If you want calls for something besides Guns N' Roses try this one".... Airplay on WPLR, WIYY, KTYD, WEZX, WXXP and KBCO keeps the cooler stocked for yet another day at the Beatch.

PHONES: 7-KBAT, KDJK, KFMQ, KMJX, KNCN, WHCN
CHART MOVE: 62-52*.... A solid second track makes the difference between winning and losing LPs and this one assures a healthy run for Poison.

Brian Wilson, "Love And Mercy", Reprise.... "Undoubtedly the best Beach Boys record in 18 years." Carter Alan, WBCN

PHONES: 2-KVRE, WNEW
CHART MOVE: 40-39*.... Nothing like a little trip down Sunset Boulevard in a robe and sandals to put this whole SoCal thang in perspective. A refreshingly up and affirming work from a guy known for some pretty dark moments.

David Drew, "Green-Eyed Lady", MCA.... "This is an Idolized version of the song that really works." Andy Preston, KPOI
REPORTING: 105-KISS, WMMR, WNEW, WBCN, KYYS
ADDS: 12-KLBJ, KLOL, KQRS, WLLZ, WWCK, WXP

PHONES: 10-KFMQ, KRQU, KWHL, WNEW, WDVE, WRUF
CHART MOVE: 39-31*.... Classic blocking rocker or not, this song has the sort of instant appeal that is pretty hard to do without during the long hot days of summer.

Jimmy Barnes, "Driving Wheels", Geffen.... "The slide guitar on 'Driving Wheels' will send chills up your spine." Joe Marino, WCCC
REPORTING: 68-CILQ, KISS, KLPX, KSQY, WLLZ, WYNF
ADDS: 7-KKDJ, KMBY, KPOI, KQWB, KYYS, WEQX, WKWQ
INCREASES: 5-KATP, KLBJ, KTYD, KZOQ, WVVV
HEAVY/POWER: 7-KATP, KKAZ, KSJO, WCCC, WPLR
CHART MOVE: 50-47*.... A good bit of rockin' energy moves this back on the track that his fans have come to expect.

The Bible, "Crystal Palace", Chrysalis.... Take one of England's most innovative modern bands and team them up with good ol' boy Steve Earle and you end up with one of the most satisfying albums currently available from the UK. The lyrical maturity of this band is in ample evidence throughout the album but this track is especially strong. New play at WBCN, WAOR and WRKI backs up the continuing involvement of KTYD, KATT, KBCO, WNEW, WPLR and KPOI. The Bible is elevating to a state of rotational grace with a 54-51* move that sees 60 stations filling in for Sunday services. Evocative music that blends seemingly disparate extremes into a compatible whole, The Bible is just what your turntable ordered.

Georgia Satellites, "Don't Pass Me By", Elektra.... The album gets a little kick in the pants with this track's 81* debut this week. KILO, KLOL, KSHE, WFYV, WLLZ and WRXK are all among the stations finding this tidy little cover a nice change of pace. That 26 station base is bound to grow with rotational increases next week contributing as well. Ever since Mr. Starkey first moaned his atonal blues, it has been a shower stall favorite for millions. Who better to make it work in the eighties than the South's best little bar band?

Ziggy Marley, "Tumblin' Down", Virgin.... "We just had to keep Rasta rockin' with 'Tumblin' Down'." Pam Brooks, WPDH
REPORTING: 66-CFNY, KBCO, KILO, WDHA, WAOR, WRCN
ADDS: 10-CHEZ, KBAT, KBOY, KLOL, WDIZ, WDRE, WRUF
INCREASES: 4-KLPX, KZOQ, WCKW, WIZN
HEAVY/POWER: 6-KBCO, WHFS, WHMD, WKFM, WRXK
CHART MOVE: 52-48*.... The depth of playing on this album is enough reason to believe that the Marley magic is back but the undeniable charisma of Ziggy himself is the real kicker.

Kenny Loggins, "Nobody's Fool", Columbia.... "The Caddyshack connection has people calling up and wanting more." Mike Richter, KFMZ
REPORTING: 76-KBPI, KOZZ, KTYD, WDIZ, WNEW, WYNF
ADDS: 3-KICT, WNOR, WYBB
INCREASES: 6-KSHE, KZOQ, WFBQ, WIXV, WPYX, WRIF
HEAVY/POWER: 31-KKDJ, WHCN, KBPI, KSHE, WFBQ
PHONES: 3-KATS, KGGO, KYYS
CHART MOVE: 37-33*.... The man has an undeniable way with a tune and this latest example is one of his best.

Smithereens, "House We Used To Live In", Enigma/Capitol.... "There's no way I can be without a Smithereens cut on the air." Sonny Cuellar, KRIX
REPORTING: 137-KBAT, KGB, KISS, KISW, KLOS, KOZZ
ADDS: 3-KBER, WIYY, WPDH
INCREASES: 10-KLOL, KLPX, KMOD, WIBA, WFYV
HEAVY/POWER: 54-KGB, KQRS, WFYV, KISS, KLOL
PHONES: 2-KFMH, KPOI.
CHART MOVE: 17-16*.... If only for the distinctive guitars, here is one of the few current songs you'll be playing a year from now.

The Church, "Reptile", Arista.... "As a station that has believed in power of The Church from day one, we have found that 'Reptile' performed even better for us than 'Under The Milky Way'." Rich Robinson, WHTG
REPORTING: 102-KBCO, KBOY, KQWB, KLOS, WNEW
ADDS: 8-KFMQ, KMJX, KSQY, WFBQ, WKLC, WRDU, WXP
INCREASES: 7-KFMF, KGB, KLPX, KOZZ, KRIX, WZEW
HEAVY/POWER: 26-KABL, KGB, KSJO, WBCN, WHFS
CHART MOVE: 34-30*.... Since their re-issue the early Church albums have sold a healthy 20,000 units each in less than a month. The band has an intense following and it would be a mistake not to capitalize their affection for the band.

MAJOR MOVERS ARE BOXED AND BOLDED.
> INDICATES A CHART DEBUT.

The top of the chart has been pretty stable this week but the contenders are definitely loading up at the back of the bus. With a 14-8* move this week, Little Feat picks up play at CFNY, WNOR, KTXQ, KLOL, KLOS, KOMP and WIOT with requests already rolling in at WKDF, KMJX, WYFN, WDIZ and WEGR. This slice of American bred rock and roll has found rapid acceptance in the AOR marketplace and the album has a wealth of material that should do just as well. The Fab T-Birds are getting an excellent run with "Powerful Stuff" moving 11-9* courtesy of new action on KBPI, The Loop,

CHEZ and increases at KBCO, WBCN, KGB and KISS. The Birds have also hit the market with a Summertime video to support the project that is bound to help things along. Also new to the Top Ten this week is Van Halen's "Finish What You Started", a guitar intensive track that really pops on the air. KYYS, KTXQ, WAQX, WMMR and WEBN are already banging it in Heavy or better rotation and the phones are close behind with KMOD, WFBQ and KQRS all reporting major phone fun for this in concert fave.

In the "almost there" category is Robert Cray's double dipping blues masterpiece, "Don't Be Afraid Of The Dark", which gets a 21-11* push this week. Increases in rotation are the tail this time out with ups at KISS, KLOS, KPOI, WRXK and WBCN being reported. Right behind and staying in there stride for stride is Crowded House with "Better Be Home Soon" hammering a 19-12* improvement on the Winners Chart with help from CFNY, WIOT, WFYV, WNEW and KICT among those stations playing in Heavy or better. This album is going to be with us for some time so now is the time to let the audience know that Neil and the boys are back.

Further back in the pack but moving well is Jimmy Page with "The Only One" firing up with support from WPYX, KBPI, WFBQ, WHCN, WLLZ and KWHL. Jimmy's 24-14* turnaround week is impressive but look at the 14*/24* differential between the Winners Chart and the Hard Hundred and it gets pretty obvious that the format leaders have effectively reappraised their use of this track. The man with the vocal juice that has kept Jimmy afloat also has a new track from his album doing good things. "Dance On My Own" gets Robert Plant up a solid 29-15*, once again a full 7 slots ahead of his HH ranking. KATT, WAPL, KBPI, KGB, WDIZ, KRQR and WLLZ have all lined up for some Heavy treatment on this track.

Blue Oyster Cult makes one of the most impressive moves this week with new players KTXQ, KMJX, KISW, WRDU and WOUR jumping on the Cult-wagon. "Astronomy" moves up 41-32* and the response to this band's reprise has been encouraging for the crew at Big Red. The other song to watch is Lita Ford's "Back To The Cave" which powered up 50-35* with major mambo action on KPOI, WPLR, KGB, KWHL and WHJY. Programmers are telling us that this is their favorite track from the album and given the success of the last couple of offerings, it doesn't require a PHD to plot the trajectory of this one.

The biggest debut this week sees Cheap Trick hit the scene with a 36* for their remake of "Don't Be Cruel" that has gotten the support of premium players like WRDU, KYYS, KATT, KBCO, WHCN and WNEW. The new mix is getting some of the action rolling but, basically, this is simply a marriage of song and style that just can't miss. Europe's "Superstitious" draws the curtain on last years big pop metal success as they return to the scene with a tune that just screams "crossover". Stations like KISW, KSHE, KTYD, KLOS, WAQX and WZZO are all building on the group's prior track record and that 38* debut is an indication of some serious play to follow. Tracy Chapman is a real player folks, and stations that watched "Fast Car" speed by because they couldn't believe that her vocal approach and soulful message would work, are still scratching their heads. Well, now is the time to join KATT, KYYS, WDIZ, WBCN and KLOL on this track. Tracy debuts at 39* on the Winners Chart and there is plenty more where that came from.

New faces to the Chart this week include Tommy Conwell, whose big deal debut has gotten the nod at KTXQ, KISW, WMMR, WAQX, WLLZ, KMOD, KZAP and WHCN. This gritty guitar based rocker has a voiced custom made for the format and the big push is on in a major way with that 44* debut looking big as Blackrock. The real indicator track this week in the Pete Bardens offering, "Gold", which moves onto the chart at 48* a full 14 places ahead of the HH ranking for the same song. Heavy play at KBCO and adds on KLAQ, KLOS and WPLR combine with increases at KLPX and KZOQ to underline this as a track that format leaders are stepping out on in double quick time. Jimmy Barnes joins the parade this week with "Driving Wheel" with steady airplay on WLLZ, KZAP, WYFN, WHCN and WFBQ netting a 50* showing on the Winners Chart. This song is closer to Jimmy's heritage as a rough and ready rock vocalist and his delivery is a treat to hear. Stations across the country are bound to pick up on this edgy track.

SMN SIGNS HANSEN

Lee Roy Hansen has joined the Dallas based **Satellite Music Network** as Operations Manager for all of their WAVE affiliates. Hansen had worked the California AOR circuit at KSJO and KSFM when it was a rocker. Recently Lee had piloted San Antonio's "KMIX 106" to a big win in the ARB's. Lee told NOISE, "I am excited to work with the original architects of this format as we take the WAVE to the next level of success."

BECK-ROSS MEETINGS GO WELL

The annual management meetings of the **Beck-Ross Communications** group featured guest speakers **Kent Burkhart**, **Greg Gillispie** and **Gary Burns** who spent time discussing the industry in general and the BR properties in general. Among those stations is Hard Reporter WHCN/Hartford. Aside from all the biz, a few moments were pasted together for relaxation as well. Group President **Jim Champlin** voiced some sweet reason, "A great deal is accomplished at these meetings, not the least of which is the great camaraderie generated among all the managers and their spouses. A 'job' should be more than just 'work'." Nicely put don't you think? But what else do you expect from a member in good standing of Club Jim?

Beck-Ross boys on the town. From left to right **Jim Champlin**, **Kent Burkhart** and **Martin Beck**.

ABC RADIO RE-SIGNS ASHBY

Long time London music journalist **Jonathan Ashby** has rejoined **ABC Radio** for daily duty from the other side of the Atlantic. Jonathan will be covering the entertainment scene in London for the Network and will tap his considerable sources within the English rocker elite for more than his share of juicy tidbits. Has Boy George discovered girls? Would Mick Jagger like to have his eyebrows plucked? Count on Jonathan to have all the poop at his frenzied fingertips. Ashby has worked with just about every major publication in England and his interviews and scoops are legendary within the buzzline gossip biz.

BE ALL YOU CAN BE

Gorman Media is on the lookout for talent to fill a number of positions in CHR, CR and AOR formatted stations. John is accepting candidates for morning and afternoon drive talent in all size markets and even has an opening for a large market PD. Anyone interested should send a package consisting of T&R and photo to John at Gorman Media, 19754 Panbark, Strongsville, OH 44136. No calls please.

HIGH SOCIETY RANKS

In a recent article, High Society, "The Mag you read with just one hand", rated some of the raunchiest jocks in America. We were proud to note the considerable representation by members of our format. Included in their overview was WHJY's PD Carolyn "How big is it" Fox, KTXQ's Bo Roberts, DC-101's Greaseman, the always present Howard Stern from WXRK and WYSP. Interesting to note is the triple threat from KLOL, including Mark Steven, Jim Pruett and Moby. The 'zine didn't bother to include a suitably revealing photo spread and all we can say is, "Thanks for small favors."

TRACY ONSTAGE

Last week, **Tracy Chapman** hit town and the good folks at Elektra took a select group of us down for her show at the Chestnut Cabaret. The place was jammed with women in comfortable shoes, except a pair of fashion victims in spiked heels, obviously very confused. Tracy picked out a few chords on her guitar and the crowd synched up with her instantly in such a way that defied commonplace description. Her reception was even more impressive given her relatively short history in the public eye. In fact, it was much like being in the presence of **Joni Mitchell** in her heady youth although such comparisons aren't really fair. During the show we heard a lot of unrecorded material the quality of which was proof enough that Tracy Chapman will be with us for some time to come.

CELEB STOPS AT THE HARD-GO-ROUND

It has been a busy few days here at the log cabin we call home. On Monday, **Simon Kirke** dropped by for an interview that will be featured next week. He was a charming and refreshingly down to earth guy with few if any pretensions about life in the rock lane. Oh yeah, thanks for the Stage Deli delights. We also spent some time with **Barry Andrews** of Shriekback who dropped by for a chat up with Dawn Hood and some pithy observations about things here in the Colonies. Then we were treated to the rare talent of **Jules Shear** and his thumb-slide guitar. Jules spent a long Tuesday morning with us and favored the staff with a few impromptu versions of some of his best and brightest songs. It was nice that all of our reporters held back on their calls during Jules' mini-concert. We appreciated that. All in all, just another fun filled week of memories for your friends at the Holiday Inn to the stars, The Hard Report.

BURNS MEDIA EXPANDS MARKETING

Claire West, formerly assistant to the President at the **Jim West Company** in Dallas, has been named Director of Sales and Marketing for the Burns Media Research firm. Claire has also worked in the past producing jingle packages for United Stations out of New York. In her new position with Burns Media, Claire will be responsible for Sales and Marketing and will report to **Judith Burns**, VP/Sales for the company.

Claire West, new Director of Sales/Marketing at Burns Media.

HAPPY BIRTHDAY YOU MANIAC!

Has it really been a year? Am I truly fifteen pounds overweight? Is this one of the best and brightest success stories around? Count on it. July 10th marked the Anniversary of the Elektra release of "In My Tribe" by **10,000 Maniacs**. This **Peter Asher** gem was one of the first indications that the format was swinging back to a newfound appreciation of

female vocals and folk inspired contemporary music. Since that time, the "Female and Folk Renaissance" has become a byword among industry watchers and this band was right there on the leading edge. The team at Elektra never lost faith when the going got tough and their promo push finally opened the ears of the format, especially when that retail action started kicking in. But Brad's Gang aren't the only ones working hard. The band itself has been on tour almost continually with groups like REM and Squeeze, spreading the good word and keeping up the street pressure. So, to all the stations that could hear this one the first time out, to Porkchop and his squad of Maniacs, and to the band itself.... Happy Birthday!

A&R ADJUSTMENTS

Some big moves in the world of A&R this week with the domino effect of new labels ricocheting through the staffs of Elektra and UNI. **Michael Alago**, formerly Director of A&R for Elektra has moved to the newly aligned UNI label for similar duties. His work has been integral to the success of Metallica, Tracy Chapman and Flotsam and Jetsam. In the meantime, long time industry pro **Carole Childs** slips into A&R mode at Elektra as the record label roller derby continues at breakneck pace. Carole has justifiably taken bows for her work with XTC, Lone Justice and Peter Case.

Carole Childs on her way to Elektra's A&R stable.

MORE OF THE UNHEARD HENDRIX

Westwood One has secured rights to some never heard material from the Hendrix estate for a Labor Day special. The show, entitled "Jimi Hendrix: Live And Unreleased" will feature music that has never before been made available. Included will be jams with Johnny Winter and a home demo of "Angel" that should be worth the price of admission all by itself.

ENIGMA MOVES

As of August 1st, **Enigma Entertainment** will be operating in their new, and no doubt palatial, digs. The new address is Enigma Records, 11264 Playa Court, P.O. Box 3628, Culver City, CA 90231-3628. The phone number is (213) 390-9969. Congrats to Pam and Rick and the rest of those Surf-Nazis on their move up and out.

PROMO-MOJO

Looks like there is a whole lot shaking in the world of record promotion these days with resumes flying in all directions. The action has been intense following all those label shifts recently and the people changing zipcodes these days represent an avalanche of promo talent on the move. **ATCO** has signed **Jeff Neben** to head up their Westcoast Regional effort out of L.A. at (818) 709-4190. Over at **Polydor**, former IRS Top 40 guy **Mel Delatte** has jumped to John Brodey's team where he will be National Director for Pop Promotion at the label. Westcoast Chrysalis rep **Jerry Blair** is on his way back home to Boston to work for **Columbia** with Jeff Laufer looking the man to fill his shoes back on the beach. Allright Jeff, berets for everybody! With ATCO, Polydor and Mercury all getting ready to debut full line field staffs, it is going to be a warmer than average Summer out there on the streets.

KJJO/Minneapolis MD Michael Cross pictured backstage at a recent Whitesnake concert with David Coverdale. Tawny was busy washing the car.

DI DIA UPLINKS WITH GEFFEN

The Western hemisphere had better be careful now that the **Geffen** machine has a pair of "Marks" to work with. The announcement came last week that Marko Babineau had decided on bringing in **Mark Di Dia** as their new National AOR guy. Mark has put in his time as Music Director at FMQB and this move out West is bound to do him some good. He may miss Philly Cheesesteaks and a team that has a permanent condo built in the basement of the National League, but those long hot freeway Summers and Venice Beach vistas should more than compensate for it. In return, Marko gets a guy with some serious phone chops who lives and breathes for bands like Tesla and Guns N' Roses. Looks like a good move all around. As for the position left vacant at FMQB, could it be that a certain tenured North Jersey PD is heading downstate? Count on it. The news is that **Mike Boyle** will be making the big move to tipsheet land and leaving his WDHA/Dover turf behind for the pleasure gardens of Cherry Hill.

THE RADIO RUMBLE

WCXR/Washington is the new home for former KNX/Los Angeles PD Andy Beaubien who is packing his bags for a trip to the Eastern seaboard and some double duty positioned between a straight ahead AOR and N/A competition. Back home in the Smogbelt, we have heard some interesting names pop to the surface in the talent hunt for Andy's replacement. Management there indicates a decision is a few weeks out.

KROQ/Los Angeles named Van Johnson their new APD. Van Had done an excellent job sitting in for Rick Carroll when he had been out of the station earlier this year for some R&R. The station is also in critical need of a Promotion Director who wants the challenge of running a major market promotion department. Send your info and salary requirements to the station ASAP.

WZEW/Mobile hired Kandi Anderson to hold down all-nights as the station shuffles staffers in the absence of Rik Duvall who has left the property for new horizons. The station is looking at a potential formatic conflict within the market as WIZD looks at a shift to Classic in the near future.

WONE/Akron has made use of their Fax machine to up listenership in the workplace. The morning team poses a sports trivia question, encouraging office staffs to gather round the old radio and then fax their answer in on letterhead. The approach can do wonders, if skewed properly, with the 25+ audience.

WXLP/Davenport gave four tickets to Def Leppard away by holding an "Undie 500" in their parking lot. The contest required listeners to run around the station van in their underwear until only four "winners" were left. It took three hours and a slug of leg wax, but the promotion certainly separated the strong from the weak, the shy from the bold.

WKFM/Syracuse hosted the unlimited hydros when they rooster tailed into town. In this shot we see Miller High Life driver Chip Hanour, The Fat Man and Morning co-host Lois Burns poised atop 500 throbbing horsepower. Chip, who is a god on the hydro circuit, was heard to say, "Give me balast, I need balast!"

KMJX/Little Rock will be getting pretty darn bluesy when they participate in the Second Annual Blues Festival down on the Arkansas River. Blues bashers Elvin Bishop and John Lee Hooker will be in attendance as will thousands of locals.

WBLM/Portland had the Smithereens in town recently. Those Jersey jolters spent some studio time with Brian James before hitting the boards at a local venue. Word has it that the show was a major success.

WIXV/Savannah wants T&R's for some future openings at the station. Shifts are prime and the living is easy. Get it to Virgil Thompson and remember they are especially looking for females and minorities.

WHMD/Hammond MD Catfish getting the secret Jersey handshake from Pat Dinizio. You may have noticed that Catfish's bachelor pad has gotten a little rundown. It's probably due to all those "I spotted Elvis" parties the boy has been throwing lately.

WCCC/Hartford is squaring off against market foes WHCN with a new morning face that has area vets Sebastian & Diane firing some rare bits of potentially libelous and always entertaining stuff at an unsuspecting Hartford. Actually the town has some prior warning because Sebastian had pulled down drive duty in the 'burg before he asked a local TV personality something about "swallowing" and promptly got yanked as a result. Early reports indicate that time has not mellowed his act much and it will be interesting to track how this new wrinkle affects things.

KFMG/Albuquerque made Megan Taylor their new overnight cause celebre'. She joins the lineup in the shoes formerly worn by George Welsh who is down the road feeling bad.

KOME/San Jose and the MTV Museum Of (Un)Natural History display an X-Ray of Julie Brown's skull. The crowd is searching for the hidden meaning of the word "Wubba", which was the only thing the imaging process could pick up. I think it means "vastly overrated" in some lost dialect.

WBCN/Boston got Iggy Pop on the air for some live rocking and rolling that put even those sophistos in Beantown in a Cold Metal frenzy. Those who remember Stoogemania went into a major league flashback while young toughs everywhere got turned onto a whole new level of energy from one of rock and roll's true survivors.

KRQR/San Francisco threw their Second Annual Instant Vacation with the San Francisco Giants and U.S. Air. Listeners were required to show up at the ballpark with a packed suitcase and a Giants ticket, ready for almost anything. Ten limos cruised onto the playing field, ten winners were announced, and the whole crew were then driven to the Airport for an Instant Vacation courtesy of U.S. Air. The event guarantees high visibility and has been a big win for the station two years running now.

KMPC/Los Angeles picked up Robert Roll to act as J.J. Jackson's lieutenant. Robert has been working in the metro for almost ten years and will be holding down the Ops job as the station gears up for a last ditch effort.

WFYV/Jacksonville adjusted their frontline team a little with Michael Areford moving to AMD and Sherrie Gregory getting elevated to MD as a result. Sherrie takes calls Monday and Friday only from 3:00-5:00pm.

WRFX/Charlotte welcomes overnight and production guy Jack Anthony to the station. Jack had worked at the station for a stint previously and his return is a welcome one.

WNGZ/Elmira is in the market for an airtalent who can hold down Middays and possibly grow into a Programming position. The sky's the limit for the right candidate. Get your T&R to Tom Height at the station right away.

WKWQ/Columbia made Art Boerke their new PD in the wake of Ron Marsh's resignation. Art had been serving as MD and his musically intensive style should make for an interesting chapter in the station's development. In another change down South, former WRIK/Paducah PD Mike Scott is in as Production Director after a rupture with WRIK management that reads something like. "You can't take a vacation, you're fired." Mike wasted no time in landing on his feet and now that he's teamed up with Art, the pair of them should tear it up pretty well.

WKLC/Charleston wants a new morning co-host as Chris Wilson has left the station. Candidates should be able to handle news and assorted banter responsibilities for the station. Get your package to Duane Doherty for early consideration.

And now a picture for KDJK morning guy and best bud, Beaver Brown. What can I say? The man is gaga for Debbie's act and this little vixen is rich to boot! Frankly, we were amazed to discover that she was only wearing mayonnaise and ropes beneath that graduation gown. How do we know? Beaver told us.

WMMR/Philadelphia was quick to respond when news of a devastating fire in Perkasio, Pennsylvania hit the wire. Homeless residents and nine millions dollars in damage is nothing to sneeze at, so the station got some local artists to kick in for a benefit concert to be held this weekend. Philly phenom Flammin' Harry and John Kuzma, among others, chipped in and the results went a long way to help the town. One of the first casualties of the fire was their Fire Department itself. I can see the headlines now, "Flammin' Harry Cooks For Fire Department." Next on the agenda for Harry is his appearance at the infamous Med Lakes Canoe Carnival bash thrown by Bill and Collie.

WZZQ/Terre Haute needs an all night nemesis. Someone who can make the competition plotz with one break. Get your T&R to Steve Kosbau as soon as humanly possible.

KLOS/Los Angeles programming has a new number. You can reach them now at (213) 840-4836. Write it down.

WDIZ/Orlando Louie Louied their little hearts out when they hit the bricks for the Luekemia Foundation. The station raised more than \$10,000 free and clear for the research drive against luekemia. Here we see some attempts at crowd control from the window of the station van.

WDHA/Dover is looking for a new PD now that Mike Boyle has hopped over to FMQB for Music Director duties. Get your best stuff to Bob Linder ASAP.

WPHD/Buffalo PD John Hagar resigned his position this week amid significant rumor mongering. John has yet to surface with his new plan but, knowing the guy, he's bound to have one that's a doozy. In the meantime, get that T&R Buffalo bound if you want a shot at heading up a healthy AOR.

KZEW/Dallas former PD David Grossman is up and running at his new assignment. David is in as PD at CHR formatted WVMX/Richmond.

CFNY/Toronto is the source of numerous buzzline chunks of projectile gossip. Subject of all this lip flapping is speculation that the long standing bastion of modern music may be moving more and more into the mainstream as the result of market pressures. Count on us to follow this one very closely in the weeks to come.

WYNF/Tampa held a banner contest for the recent Robert Plant show in their market and these lovelies were the lucky winners.

DAHLMAN DOES IT AGAIN

Amy Dahlman has knocked back that job in her proverbial backyard with the PD-ship of WOKW/Ithaca. When I called Dahl-jeezus about this turn of events she said, "I was just going to relax and take things easy but the prospect of this job really excited me. The management is very enthused about what we can do with the station and you just can't walk away from opportunities like this when they happen."

Hothouse Flowers "People" (PolyGram) As you read an impressive stack of biographical bits that accompany their American debut, one listen to this group will only prove there is substance behind an unheard promise. As one of the best selling albums in their home of Ireland, "People" graces our shores and showers us with the passionate folk rock that is woven through themes of protest and a call for unity. They create music that challenges your soul, cries out with passion and soothes in more quiet and thoughtful moments. Unlike their fellow countrymen the Pogues, the Flowers focus on southern gospel, rock and blues influences as the foundation of sound for their lyrical inspiration and dynamic sound. "Don't Go" is the first single and best introduction to their pop sensibility, complete with a piano groove and choral fanfare. "Love Don't Work This Way" is right on target to prove mainstream hesitation wrong with its gritty guitar and organ combination and "Feet On The Ground" unleashes a wailing sax that beckons you to hear the words. "The Older We Get" is a swaying declaration of strength and "It'll Be Easier" is a dramatic ballad of hope. With all musical bases covered, Hothouse Flowers are about to score big with an audience raised on their sound and looking for new interpretation.

SOMETIMES IT'S PRE-ORDAINED

NEW RELEASES

The Icicle Works "Blind" (Beggars Banquet/RCA) As the alternative music audience grows in and out of new tastes and trends, bands who thrived in the post new wave and punk era of 1984 like Icicle Works have found their success linked to musical progress and change without leaving their followers behind. "Blind" marks a new direction for the band, a raw and truthful approach that incorporates 60's power pop melodies like those in "High Time" to the percussive funk movement in "Sure Thing". As soldiers of fortune finding their destination they sink into a more aggressive sound that's not uniform and suits them just fine. Even the production is honest and straight forward, leaving special effects in the dust and energy in your face. Diverse sounds will break the ice this time, like the splintered effect in "The Kiss Off" and the solo guitar presence in "Starry Blue Eyed Wonder". Best played loud.

Tuesday Blue "Shibumi" (EMI) Bono's Mother label has produced three new bands that are now branching out to leave their mark on the music industry and Tuesday Blue is among the ranks. With a flair for crisp pop ambience and the strong vocal presence of lead singer Mick Ryan, songs like "Love Me Simple" are already ringing in the ears of some who were privy to the special import EP release. Now the full album defines their sound more completely, a strong mix of mid tempo formula with synthesizers filling in the gaps to create an

atmospheric echo. "Tunnel Vision" is a loud and glorious anthem of sorts that demonstrates their outer limits and "Escape The Escape" catches you mid stream with its finely produced rhythmic appeal. Although there are few surprises on Tuesday Blue you won't be surprised to find it springing up on your playlist one day soon. The commercial consistency and alluring melodies are just what the M.D. ordered.

BEGGARS BANQUET

WE JUST WANNA BRING BACK

When you think of great sounds of the northwest, The Young Fresh Fellows should come to mind. As one of the premiere American underground bands they have won over a huge college and club audience with wit and energy on stage (and plenty of antics to go along with their plaid fashion statement). Now the fourth Lp "Totally Lost" continues the crazed wonder of their previous work, with a few more slices of "serious" guitar edge. Highly entertaining and very personable, they have traveled the far corners of the U.S. playing, promoting and drinking their way to great radio and press reaction, so why stop now? We gave songwriter/vocalist/guitarist Scott McCaughey the Freshness test...

Dawn Hood: The Fellows have been known as a novelty group in the past. Do you think your fans are growing with you?

Scott McCaughey: I think some of them do, but a lot of fans expect more from us than just novelty music. There's a certain fan who probably hasn't gotten much past "Amy Grant" and "Beer Money" and songs like that, obviously meant to be funny. There's a statement behind those songs you can say is vaguely serious. But most of our fans who really listen to the records expect a lot more. We'll never eliminate the humor from our music.

Dawn: "Totally Lost" is a great statement in support of what you just said.

Scott: With each album we've tried to get more of a heavier sound which is more like we are live. We would always hear after our tours that we didn't sound like our record did. But we weren't even an actual band then, and didn't have Jim Sangster as our bass player yet. We've been striving for a heavier sound with each album.

Dawn: What are some of the weirdest requests you've ever been asked to play?

Scott: We get some really bad ones and we try to play some although we have definitely been stumped. Some songs wind up being part of our set. I remember once in Salt Lake City, somebody yelled out for "Margueritaville" and we've been playing it ever since. I do think it's time for us to stop though because each time we play those things they get worse! People also yell out for Replacements songs a lot.

Dawn: How did things go at Paul Westerberg's wedding?

Scott: It was really great and lots of fun. It wasn't like many people would think, a rocked out, rave up party. It was a traditional church wedding and we went to some hall afterwards. It was very family oriented, I mean Tina Turner and David Bowie weren't there or anything. We played "Sentimental Journey", "Girl From Ipanema", "This Guy's In Love With You" and "Beer Barrel Polka", real wedding music in the first set. The second set sort of degenerated into a stinky rock and roll jam session with the Mats playing and guys from Agitpop too. The musicians took over and made a big mess out of it but it was a lot of fun. By the time it was over everyone was playing a different instrument. There was this open bar...

Dawn: Did you wear Fellows famous plaid suits to the gig?

Scott: No, we wore these light blue tuxedos with white ruffled shirts and we all matched. I think Paul and Laurie were a little worried we would be too loose but they also had enough confidence that we'd play and not be jerks about it. But again, some of those songs did become part of our new live set.

Dawn: How many songs are in the Fellows repertoire?

Scott: We've got four and a half albums worth, about 60 songs plus another 50 we play including cover versions and originals. We're up into the triple digits by now. It amazes me that people in Seattle come to see us all the time. It leads me to believe that we're different every time we play and they won't hear the same set as the last time.

Dawn: Is it time for a Young Fresh Fellows double album of greatest hits?

Universal Trendsetters: Tad Hutchison, Scott McCaughey, Chuck Carroll and Jim Sangster

Scott: A double live album would be pretty good, but it should include songs not found on any of our records.... Actually we've hatched a plot to put out a bootleg album, and we'll record it this Sunday in my basement. All in one day, 1000 copies to take around with us when we tour so we can be like Sun Ra. We play so many songs we wouldn't really put on an album so a bootleg is perfect for those.... Although on "Totally Lost" we worked very hard to put together a batch of songs that had strong substance. But we still love to play really bad surf covers!

Dawn: It seems like the Fellows tend to record songs that people can relate to, like songs about public figures like "Amy Grant", or a fashion craze, or unconventional love songs. Are you the chief songwriter?

Scott: Yes. But Tad Hutchison or drummer has written a couple of songs and he's really coming into his own. He's a real genius when it comes to writing songs but never really finishes them. He'll put a tape in and strums on a badly tuned guitar and makes up songs for a half hour. Every once in a while I talk him into giving me one of these tapes and I can find the songs that are most finished or the ones with really good possibilities and put them together into songs. "Take My Brain Away" was started by Tad and then I finished it. "Unimaginable Zero Summer" from "The Men Who Loved Music" is a fantastic song that we never play live because he doesn't want to. But we got him to sing it on the last album which is pretty good.

Dawn: What are the top five Fellows songs according to Scott McCaughey?

Scott: I like "Good Things Go", "Topsy Turvy Theme" and on the new album I'm into "No One Really Knows", mostly for the performance more than the song. I also like "Mr. Salamander" and "Ant Farm", not our big live favorites. The songs I mentioned are ones that came out of nowhere instantly while I was sitting around playing one song and another came into my head and done in five minutes. Side two of "Topsy Turvy" has most of my favorites.

Dawn: Where would you like to see the band two years from now... and where do you think it will wind up?

Scott: That's a good one. I'm glad you only said two years and not five. I hate to say it but it's gotten to the point in the last year that we really do have to think about what we're doing. It's our livelihood now although it's real important to me that we never put the livelihood aspect in front of the inspirational aspect. I don't every want to play just to make money. It's nice to be able to scrape by and pay rent, but we do have that as a consideration. We're trying to sell more records, but not by chang our music by recording in 24 track studios. We will keep going in this direction, otherwise I don't want to change our approach to the way we play. I'd like to think that in a couple of years we will have made a couple of more good records and that they will sell maybe 20 or 30,000 more than the last. Then i to and listen to that Pontiac Brothers tune "Real Job" from their last album real loud, "I know I should get a real job, but I don't want to!"

HEAVY HITTERS

RECORD OF THE WEEK

Cinderella, "Long Cold Winter", PolyGram.... When "Night Songs" was first released these guys were greeted with a flurry of praise, platinum and "instant" stardom. It was only natural, because in essence it was a very strong rock album released during the new age of hard rock on the radio. With their latest offering tho', Philly's pride and joy have shown that "instant" success is really the culmination of years and years of hard work and a strong sense of roots. In a show of musical maturity they've resurrected their blues influence, combined them with their tried and true hard rock formula and in doing so have created one of the hottest albums out there. In the last couple of weeks, not only has the record swept up the Hard Hitters Chart with successive moves of 29-21*, then 21-12* and this week 12-3*, but "Gypsy Road" has also garnered air on over 120 AORs moving them to #25 on the Hard Hundred while landing #7 Most Requested. "Bad Seamstress Blues" "If You Don't Like It", and "Don't Know What You Got" are also picking up some precious daytime air. Obviously, with the band now on the road with Judas Priest, they are reaching optimum exposure and are looking at another multi-platinum success story. A Cinderella story at that. (C.B.)

Rhett Forrester, "Even The Score", Rampage....

While the boys in Riot continue to make their presence known in the metal community, their former vocalist is back with a vengeance, a new sound and a new guitarist/writing partner in Paul Kayen. This is the second solo album since the singer went out on his own, the first being released on Shatter Records. There are nine original tunes on the latest one as well as a great cover of Bad Company's "Ready For Love". The lead song is called "I Must Be Crazy" and it's already picked up some airplay, gained the #5 Most Added Metal position for the week and is currently a rumbler on the Hard Hitters Airplay Chart. All of this with support from such luminaries as KJOT, KTEC, WARC, WCKO, WGIR, WHMH, WHVY, WKNH, WRXK and Z-Rock as well as some of our AOR reporters. The record was recorded in New York and produced by Kayen and Chris Pati. There is no permanent set up for the rest of the band as yet and Rhett and Paul are itching to get out on the road. Also listen to "Assume The Position", "Last Fair Deal Gone Down" and the ballad, "See You In My Dreams". (J.L.)

Continued

Living Colour, "Cult Of Personality", Epic.... With the escalation in political awareness nearing election time and the resurfacing of some very heated issues like racism, communism, televangelism etc...it's good to see some artists taking these negatives and creating something very positive from them. We've already seen this happening with records like "Operation: Mindcrime" and Barren Cross' "Atomic Arena" among others. Now from one of THE best new bands to arise on the hard rock front comes a killer song that is not to be denied. Vernon Reid and friends have taken their R&B meets metal music to the masses with a beat that locks into your internal rhythm sensors and refuses to let go, a monster hook and a simple, yet disturbing message: Everything we want to be, we allow others to become, not always finding what we need in ourselves. The few that do, don't always live to reap the rewards, while others monopolize on our fears. The American way of life? Maybe. Maybe I'm taking this all a little too seriously. That's the beauty of a song like this, you get from it whatever you want too. The music is first rate and people of all colors and musical tastes can enjoy it. WGIR's Mike Jones says, "Do yourself a favor and see this band.... These guys deserve to be huger than huge. One of the best bands I've ever seen and four of the nicest guys I've ever had the pleasure of meeting." The band tasted success on the first go-round with "Middleman" on the AOR side of life and now "Cult Of Personality" is the next big thang from this album (see Hard Hitters II CD for primo listening pleasure). Whether your a metalhead or not, don't pass this record by. (C.B.)

L.A. Guns, "Electric Gypsy", PolyGram.... Traci Guns and his gang of four have returned with the latest track from their debut Lp. Although a bit reminiscent of another L.A. band, this song is catchy enough to stand on it's own. The hook is instantly recognizable with the guitars of Guns and Mick Cripps providing a powerful back-up for the strong vocals of Philip Lewis. The rhythm section of Nickey Alexander, (Steve Riley joined the band after the tracks were completed), and Kelly Nickels on bass is one of the bands strong points. These two players work extremely well together to give the band a tighter sound overall. The chorus is just as melodic and memorable as anything else they've done if not more so and after the initial success of "Sex Action" as well as the support tracks "One Way Ticket" and "One More Reason", this band should have no problem turning this "Gypsy" into a big record. (J.L.)

Chrome Molly, "Angst", I.R.S.... When this label decided to do metal, they did it right. They established a killer line-up of powerhouse rockers with Shok Paris, Seduce, Nuclear Assault and now from the motherland comes Chrome Molly. By now most of you have heard the remixed single "Thanx For The Angst" (see Hard Hitters Vol. 2) and have gotten a good taste of the Molly's strong and energetic brand of music. Due to the great response the track has received, Steve Hawkins (vocals), Mark Godfrey (drums), Nick Wastell (bass) and recent addition Tim Read (guitar) now find themselves firmly entrenched on the Hard Hitters with a debut this week at 33*. "Angst" is getting air on: KBG, KRSR, KUNV (add), WARC, WCWP, WHMH (add), WHVY, WRXK (HEAVY), WVVS, WZMB, Z-ROCK AND KJJO and more.... Trax to track include "Set Me Free", "Come Back", "Too Far Gone" and the Mollified remake of Squeeze's "Take Me I'm Yours" featuring Jools Holland on the keys. This band has waited a long time for recognition on these shores and it appears that their time has finally come. (C.B.)

Britton, "Rock Hard", TSR Records.... In the "catch a rising star department" this week, we find another L.A. band vying for their piece of the metal pie. With melodic, crossover metal bands becoming all the rage, perhaps the three years this band spent preparing and planning was well worth the wait. In fact for each individual member of Britton, the road to satisfaction and compatibility has been a long one. Their musical resumes read like a who's who of bands that could have been. Lead vocalist Michael Britton has played with Tommy Lee in a band called Dealer. Drummer Gary Holland, toured Germany with an earlier version of Dokken, worked with Blackie Lawless and Randy Piper in a band called Sister and then with Dante Fox who became Great White. Guitarist Jim McMellen played with Jeff Martin (Racer X) and Greg Chaisson (now with Jake E.Lee) on "U.S. Metal Vol. 4" and eventually hooked up with Britton. Bassist Skip Frank had an album out with Conspiracy and then did a three year stint with Bob Stephan and Bobby Caldwell of Dubrow and The Johnny Winters band respectively. And last, but certainly not least is Pat Shunk - a rhythm guitarist as well as an impressive keyboardist who includes among his credits the theme to "Alf", programming on two Autograph albums and working with Quincy Jones on "The Color Purple" soundtrack. And what do you get when you mix all that experience and dues paying together? Easy. You get finely crafted rock tunes with some

"Masi's new album *Downtown Dreamers* is fresh sounding, innovative pure rock and roll."
-Randy Kaye WHMH

"Check out 'Hellraiser' and 'Thunder and Lightning'-track after track it just smokes."
-Brian Shock KGB

squeaky clean five part harmonies. (Yeah, they all sing too.) While this record hints at greatness, it does have some weak moments. The production could be better, less emphasis on the keyboards could harden the sound a tad, and they could be a bit tighter. However, one would be a fool to miss the sky high hit potential that lies untapped as of yet. In albums to come they could be something really special, but for now spend a little time with "Name The Time", "Hold On", the title track and "Living On The Red Line" which got added on KNAC this week. (C.B.)

Dokken, "So Many Tears", Elektra.... With "Back For The Attack" having played tag with the AOR and metal charts off and on for almost a year now, and the Monsters Of Rock tour now winding down, one would think Don and Co. would be ready for a well deserved rest. Not so for the controversial foursome, whose musical success is upstaged only by rumors about personality conflicts. Following on the success' of "Burning Like A Flame" and "Prisoner" and "Heaven Sent" is this mid-tempo heart pounder. It has all of the hooks, melody lines, and guitar George magic to insure radio airplay. Of course when the album was first released, metal audiences in their infinite rebel-dom shied from the "official" singles and headed for the harder stuff. Understandably, after extensive Lp play, a lot of our rockers became just a bit jaded and went in search of fresh meat. This track could easily have been overlooked by the metal masses however, because of its obvious AOR accessibility. Maybe it's time to stop and head back to the tried and true and give this band another go-round. Metal reporters that have already gone "Back For The Attack" are: KNAC (Heavy), KJJO (Medium), KISS (Light), KFMX, WHMH (Heavy), WRXK, and KJOT. (C.B.)

Winger, "Winger", Atlantic.... Yowza! That word pretty much says it all doesn't it? This band lists as assets powerhouse songwriting, vocals, guitarwork, drums, bass, keyboards, (no, I'm not kidding!!!), production and a Hard Hitters debut at 26*. These guys just can't lose. With a long history of session work and touring experience ranging from Alice Cooper to Bob Dylan, composer/bassist/vocalist Kip Winger, along with guitarist Reb Beach, (with whom Kip shares writing credits on most of the tracks), has put together an all star line-up featuring former Dixie Dregs drummer Rod Morganstein and Cooper keyboardist, Paul Taylor. The lead track, "Madalaine", is becoming extremely huge with metal radio, as well as with the AOR/CHR formats. Other killers like "Seventeen", "Time To Surrender" and "Hungry" provide all of the depth needed for a double platinum debut. The ballads "Without The Night" and "Headed For A Heartbreak", (my personal fave), are designed to break any respectable girl's heart while still being powerful enough to break most small windows. This is one bad ass record so what are you waiting for? (J.L.)

Killer Dwarfs, "Starting To Shine", Epic.... After the video for the first cut from the little Canadians' "Big Deal" Lp, "We Stand Alone", making a better one for the second trak is gonna be a challenge. Not because this is a bad song, it's actually a better song, much more rockin', with a strong melody and hook (this sucker really sticks in your head), as well as plenty of excellent playing. No, it's because the last one was such a great video. Even better than the ones for the "Stand Tall" Lp. All that aside, "Shine" is a great song for metal radio. It begins with a thrashy drum beat by Darrell "Darnell" Dwaarf, and the searing vocals of Russ Dwarf backed by a simple guitar and bass line. Simple but highly effective. The bridge and chorus show a major change in the drum tempo followed by a more complex and textured series of guitar melodies and then returning to the beginning section after the chorus. Mike Dwarf's guitar solo is blistering, but very tasteful. This is not the only other good kut on the album, mind you. "Union Of Pride", "I'm Alive" and especially "Lifetime" are also worthy of your consideration. Check 'em out. (J.L.)

-This past Wednesday (27th) the Slave and I had the chance to catch the **Seducer/Vinnie Vincent Invasion** show when it came to **Philly**. We'd waited to see this show for a while and were particularly psyched about finally hooking up with Seducer. Unfortunately the show was booked into the **Chestnut Cabaret** (fairly non-metal) which is a 21 and above club only. Not only did the **Slave** (he's 18) have to hang around outside while I went in to see the bands, but many others were kept out as well, therefore attendance was pretty poor. My complaint isn't with the Club. They were just doing their job, but why were they booked there? These bands deserved to play to a full house or at least an audience that appreciated their music. They really should have been booked into a club like the **Empire Rock Room** or somewhere similar where they have all ages shows and metal nights. It was a discouraging night for the bands as well as myself. Kudos to both bands for hangin' in there and doing a great job despite it all. Mega thanx to Jeff for being cool enough to wait outside and convincing me to go in for a little while. I appreciated that a lot. Thanx to Caesar too.

METAL MUSIC NEWS

Greetings to one and all. This is **Sal "Earl of Earache" Treppiedi** reporting from Control Center deep in the heart of Queens, New York. As I try to recover from the shell shock I've experienced due to my new surroundings, I bring you the news from around the world. This week we've got part three of our conversation with **King Diamond**, but first, let's get to some news.

We begin with news on **Ozzy Osbourne**. The California Second District Court of Appeal upheld the 1986 dismissal of a lawsuit brought on by the parents of **John Daniel McCollum**. McCollum committed suicide in 1984 and his parents claim that he was inspired to kill himself after listening to Osbourne's "**Suicide Solution**". Judge John Colo ruled that the dismissal was justified because Osbourne and CBS Records are protected under the free speech provisions of the Constitution. The parents, Jack McCollum and Geraldine Guegenbuehl are planning to take their case all the way to the California Supreme court. **Commentary:** As many of you should be aware, "**Suicide Solution**" is an anti-alcohol song. The song was written about **Bon Scott** who died in 1980. To take this any further than this would appear to be fruitless. I am sure that the family is still felling pain over the death of their son. What must be considered however, is whether their pain will be lessened should they somehow win a decision in this case. What can be accomplished by taking this case to the California Supreme Court? It is the opinion of this writer only, that the family accept their loss and not try to hide, or justify, their pain through the Justice system.

MTV recently announced their nomination for the **1988 MTV Video Music Awards**. Hard rock/heavy metal acts that were nominated include **Aerosmith** for "**Dude (looks Like A Lady)**" (Best Stage Performance and Best Group Video), **Guns N'Roses** for "**Welcome To The Jungle**" (Best New Artist In A Video) and **Lita Ford** for "**Kiss Me Deadly**" (Best Female Video). Guns N'roses are scheduled to perform at the September 7th event which will be broadcast live from the Universal Amphitheater in Los Angeles. One of the presenters scheduled to appear is **David Coverdale** of Whitesnake along with fiancée **Tawny Kitaen**. Say, how about a metal video category? If the Grammy's can do it, why not MTV?

Former Riot vocalist **Rhett Forrester** has resurfaced and has a new album coming out on **Rampage Records**. The LP is entitled "**Even The Score**". When we last heard from Forrester, he had released an album on the ill-fated **Shatter Records**. The new album will feature a new version of "**Assume The Position**", which originally appeared on Forrester's **Shatter** release. Rhett is in the midst of putting together his new band. He should be hitting the road sometime in the fall.

Here is a unique combination. Former **Vanilla Fudge** vocalist **Mark Stein** has gotten together with former **Aerosmith/Adam Bomb** guitarist **Charlie Crespo**. The new alliance will be

known as **Dangerzone**. No word when this band will see the light of day. I expect that there will be big buzz surrounding these two.

Impellitteri has made some lineup changes. **Chuck Wright** has left to rejoin **Greg Guffria** as part of **House Of Lords**. **Dave Spitz** has joined Chris as the new bassist. **Stet Howland** is the new drummer. Both gentlemen recently accompanied Chris and **Graham Bonnet** on their recent tour of Japan which, by the way, was a rousing success.

Candlemass have begun recording the follow-up to their Metal Blade debut, "**Nightfall**". The album is tentatively entitled "**Ancient Dreams**", and it's set for release in October on Metal Blade/Capitol. The album is scheduled to feature eight songs with each being over five minutes in length. The overriding theme of the album is an exploration of the darker side of life. Tracks scheduled to be included are "**Mirror Mirror**", "**Incar-nations of Evil**" and "**Black Messiah**" which was written by **Leif Edling** when he was a member of **Nemesis**. **Candlemass** is expected to finally hit these shores before 1989 is upon us.

Let us get to part three of our conversation with **King Diamond**. Up until now we have discussed **King's** new stage show and we have compared "**Abigail**" to "**Them**". This week, **King** talks about the two newest members of the band.

Hard Report: Tell us what happened to the old guys and how you wound up finding the two new guys?

King Diamond: Michael Denner was one of the guitarists who recorded "**Abigail**". Right after recording that album, Michael wanted to leave the band because he couldn't take the pressure of touring anymore. It got to be too much. It was sad but what could we do? He said that he would do the tour if we could not find a replacement because he was contractually bound to it, but I didn't want someone who would not be comfortable touring with us. We found the new guy two weeks before we started the tour. Michael Moon came in and did a great job on the American and European tour. But he was only 19 years old and he did not have all the experience that the others had. His attitude was very wrong for the band. He didn't treat certain people the right way. I would not allow that to happen. So we told him to leave and brought in **Pete Blakk**. He's another guy from Sweden. He grew up with **Mickey Dee** and **Anthony**. I've known Pete for a long time. Michael Denner recommended him. He said that he would be the perfect guitarist for this band. It showed on the album that it is working. He has the right attitude and is willing to sacrifice anything for the band. **Timi Hansen** had to leave the band after the European tour. He and his girlfriend had a child together, but his girlfriend did not want the child so **Timi** had to take the it. There was no way he could have this child and continue with the band. We parted with Michael and **Timi** as best of friends. **Timi** popped into the studio every now and then. He is sad that he could not continue with us. Now we have a replacement who is named **Hal Patino**. He was born in Las Vegas. He's lived most of his life in Copenhagen, Denmark. He is an old fashioned bass player. He's not trying to play guitar with his bass. He is playing a bass. **Timi** was the same type of player. He's very much into fillers.

HR: Wasn't **Timi** supposed to do the bass tracks on the album?

KD: He was because we did not feel that **Hal** would be able to learn the songs in one week. He came to us just before **Timi** was scheduled to put down the tracks and said that he knew the songs. We brought **Timi** into the studio and told him that we thought it would be best if the new guy, **Hal**, recorded all the bass tracks on the album. He said he thought the same and that although he wanted to do them, that it was the professional thing to do. Had **Timi**, and not **Hal**, played no one would have known what **Hal** was all about. When we start touring, **Hal** would have persuade the audience that he was capable bass player. I have a lot of respect for **Timi** because someone else may have freaked out when they heard that.

Next week, we'll get **King's** reaction to being distributed by **MCA** as well as thoughts on a possible movie career.

That is going to do it for this week's metal news column. Until next week, this is **Sal "Earl of Earache" Treppiedi** reminding that the surgeon general has declared **Mr. Death** hazardous to your health. From that infamous crypt known as **Noise International**, I bid you farewell for this week with an extra hearty **MUYA!!!!**

UK MUSIC NEWS

Nico, the Queen of sixties angst, introduced to the world by Andy Warhol, has died in Ibiza, Spain aged 49. Born Christa Paffgen in Germany, she was found unconscious near her bicycle and immediately taken to hospital where she died a few hours later. The cause of death was a brain hemorrhage. Nico had ironically for two years been on a methadone maintenance programme which included a lot of get fit schedules, including cycling. The young German nihilist went from fashion and acting school to Andy Warhol's factory where she met The Velvet Underground and recorded "The Velvet Underground And Nico". In 1968 she began her solo career with the classic "Chelsea Girl"; cover versions of songs by the likes of Lou Reed and John Cale, sung in a bleak gothic style that preceded David Bowie by two years. Her last performance was with some former Velvets in Berlin, four weeks ago. The last people to see her alive were her friends New Order who stopped by a roadside cafe in Ibiza to say hello to her. Nico died on Monday 18th July and she was cremated on the 19th. Her ashes will be interred alongside her mother's in a simple ceremony on August 14th. There will be a memorial service that night at Berlin's Latin Quarter Club, possibly with an appearance by John Cale. There will also be a remembrance service for her at St. John's Church, Holmfirth, Manchester, in north-west England on 6th August, where Nico lived and played for seven years. Warhol said of her "A face like Nico's looked wonderful in the natural afternoon light - it was made for looking out windows and across deserts, into horizons. I

remember her so well standing there with "Happy Together" by The Turtles playing somewhere in the background."

Following allegations in "The New Musical Express" that Morrissey and his musician/songwriting partner Stephen Street may be splitting up, the paper this week makes the extraordinary assertion that Morrissey and his former partner Johnny Marr may be getting together again under the moniker of The Smiths! The NME base their story on "strong whispers from Manchester..." Morrissey's hometown. The rumour was also mentioned on John Peel's influential, nightly progressive radio show for the BBC. A state of confusion now exists with no other sources, particularly EMI Records, knowing anything about the NME allegations. Naturally the journalists themselves are not revealing their sources. The U.K. music weekly claim that the new Smiths would be a nucleus of Morrissey and Marr with other musicians being drafted in when needed. This seems surprising, given Marr's new found commitments with artists like The Pretenders, Bryan Ferry and The Talking Heads. Morrissey, on the other hand, has always said in interview that he would always be the first to take up any offer to reform The Smiths, hinting that the ball was always in Marr's court. Watch this space.

Echo and the Bunnymen are splitting up. The question is whether it will be a permanent split or just a long break. Bassist Les Patterson has already left the band to move permanently into the boat building business. Lead singer Ian McCulloch said this week: "We've all left each other about ten times before, so maybe this is the big one, I'm not saying any

more than that. We've all got our own plans." The Director of WEA UK, Rob Dickens added: "They've been together about ten years so the band needs a bit of a breather. I have a feeling they may come back after a long lay-off but in a different form. Mac (McCulloch) and Will Sergeant are very much the creative force and I think they'll stick together. However, should Mac go off and do something on his own over the next few months, there is a danger of a permanent split."

Microdisney have split up. Brothers Sean and Cathal Coughlan will pursue solo careers. The split follows poor sales for their excellent fourth album "39 Minutes", resulting in being dropped by Virgin Records a few weeks ago. The band stressed that their decision had little to do with being unsigned. Microdisney signed to Virgin in 1986 after two witty, critically praised album on the indie label Rough Trade. That move appears to have been the beginning of the end, particularly in terms of marketing and publicity. Cathal intends to record an artistically creative album in the near future.

The Beatles have won their case against Charly Records, preventing the specialist label from releasing early material. In their very early days, The Beatles made several demo tapes, including one for Decca Records. They were eventually signed by EMI but the Decca demos have been circulating ever since. Now the Beatles have managed to impose a worldwide injunction on Charly from releasing the material. The injunction was awarded by a London High Court on Friday 22nd July to legal representatives for Starr, Harrison and McCartney. The tapes were originally recorded in January 1962.

The Psychedelic Furs release their greatest hits package "All Or Nothing" on August 1st. It includes their last single "All That Money Wants" plus "President Gas", "Imitation Of Christ", "Sister Europe", "Love My Way", "High Wire Days", "Dumb Waiters", "Pretty In Pink", "The Ghost In You", "Heaven", "Heartbreak Beat" and "All Of This And Nothin". The Furs' Richard Butler recently admitted that their last album "Midnight to Midnight" was a "mistake". He said that he had tried to make the band more commercially accessible but that this turned out to be a wrong decision. Their new album, which is being recorded with Stephen Street will be released early next year. The group has been rejoined by original drummer Vince Ely, who left the band in 1982 after the "Forever Now" album.

Iron Maiden release their second single from the "Seventh Son" album called "The Evil That Men Do", available in a limited edition gatefold jacket and a picture disc. The B side is the classic "Prowler" put out, say the band, due to popular demand. They make their first appearance in their native Britain on August 20th as part of the big British metal festival; Castle Donnington. Meanwhile, on tour in The States, the hot weather finally began to affect the swashbuckling Englishmen, when guitarist Steve Harris collapsed onstage in Connecticut. Later Steve said: "It was unbearable, it was like playing in an oven. It's the only time in my life that I wanted to be a skinhead."

UK INDUSTRY NEWS

As Mike Cooper reported last week, U2 manager **Paul McGuinness** bitterly attacked artists who make sponsorship deals at The New Music Seminar in New York. He described Pepsi's sponsorship of Michael Jackson as "embarrassing" and said it devalued rock music. (FOR FULL SPEECH DETAILS SEE "MUSIC NOW!" IN LAST WEEKS' HARD REPORT) UK Indie label Rhythm King's **Martin Heath** in his speech claimed that the major record labels had "no respect at all" for music and treated consumers as "deadheads to sell records to." He accused the majors of selling records like baked beans. Rhythm King have scored a number of successful records in Britain recently, especially new house records like "S-Express". In response **Peter Robinson** from Chrysalis UK replied that Rhythm King was enjoying its first success, but that Heath may hold different views in ten years time. He added: "I'm not criticizing individuals. It's the structure that's at fault. The individuals are powerless within these big machines."

As **British Members of Parliament** decide on the future of copyright in the U.K., "Music Week" reports that the French authors' society **SACEM** has been reaping revenue from the country's blank tape levy. Revenue from the levy, increased by 9.5 percent. Similar blank tape levy legislation in Britain has been struck down twice, causing a raging debate within the music industry.

PWL Records have decided to release Kylie Minogue's debut, chart topping album on Digital Audio Tape, despite the music

industry's opposition to the format. The British Phonographic Industry refuse to recognize DAT until they have guarantees from the hardware industry that consumers' power to home tape, particularly from CD or to other DATs, is limited. After rejecting Sony's Copycode copyspoiler, the industry seem to be moving slowly towards Philips' Solocopy system which would allow the consumer to make one copy from a CD or DAT. So far the blanket ban on making pre-recorded DATs has been fairly thorough, only broken by indie recording artists Durrutti column and New Order. PWL is also officially an indie label, but Minogue's DAT release will represent a very serious break with the rest of the industry, and the temptation for other artists to follow suit, may be irresistible.

The new figures for the performance of record companies over the last quarter in Britain finds **Polygram** leading the singles market and **WEA** leading the albums. Thanks to sales from new teen sensation Bros, WEA moved from fourth to second in the singles category, while sales of Tracy Chapman and Fleetwood Mac helped them move from fourth to top place in the albums. **CBS** expects to reap the rewards from Michael Jackson sales in the next quarter.

Lead singer **Rolo McGinty** has inexplicably decided to move to Japan. **10,000 Maniacs** return to captivate us all with their wonderful whirlwind of electric folk/rock. The jangliest thing since The Byrds! And if all that wasn't enough **The International Festival Of Street Music** takes place on the south Bank of the river Thames. It's a time when British people can forget about the awful weather and bask in the sounds of brass bands from Spain and Ghana barbarian creole drums; and some jazz bands from New Orleans to name a few.... Is it true Cocteau Twin **Liz Frazier** flew to New York solely to see **Laura Nyro** play?... **The Simple Minds** album is expected in January with a world tour to follow in March. There is be a taster single to be released within the next couple of months. More details as I receive them.... The best selling CD in the U.K. is **Tracy Chapman's** self titled masterpiece.

Carter Alan, WBCN, Boston

Big news for BCN this week were live broadcasts. I mentioned the amazing George Thorogood, Brian Setzer broadcast last week, and again I applaud both artists for their great show.... Iggy Pop and his band blew into The Channel last Tuesday and shellacked a sold out crowd. D.I.R. was in town to record Iggy for The Biscuit, but BCN brought it to our audience live and uncensored. Killer on-stage versions of "Cold Metal" and "Easy Rider" were highlights as well as "Search And Destroy", "I Wanna Be Your Dog" and "1969", bringing back the heights of Stoogedom. Thanks to Al Cafaro, Chuck Bliziotis and Sue O'Connell.... We also had a fabulous broadcast with the Divinyls two days later and thank you to Daniel Glass, Kevin Sutter and David Ross from Chrysalis for helping WBCN to put that together. Also thank you to Danny Heaps and the Divinyls for doing it live.... Living Colour played at The Bears in Cambridge and BCN was there to broadcast even Vernon Reid's incendiary guitar work and his excellent band. I was interested in Living Colour having listened to the album "Vivid", however, now that I've seen the band play live, I'm a total fan. In addition to their blazing version of "Letter To A Landlord", "Middle Man" and BCN favorite "Cult Of Personality", the group also pulled off an accomplished electric reading of Tracy Chapman's "Talkin' Bout A Revolution". Lead vocalist Corey Glover dove offstage and was held aloft by an audience so tightly packed that the band couldn't exit after their set--so they just continued on with their encore. See this band and listen to "Vivid". I am convinced!!

Lorraine Caruso, WNEW, New York

Tommy Conwell is no longer Philly's best kept secret. Tommy and band blew away a sold out house of fans and industry folk on a stormy Thursday night. It was amazing to see an audience sing every word to every song from an album that's not even released yet. This band already has polish, grace and charm and let's not forget professionalism that will take them to great heights. "I'm Not Your Man" is a great basic rock song that'll do well in every market. Many thanks to Rapp, Jimmy & Jerry for a great time.

thanks this week to Paul Rappaport, Alan Orem and Greg Phifer at Columbia and to George Thorogood for all the air time.... Congratulations to Mark DiDia on his Geffen deal. Can't wait to get you on the west coast you smut monster!

Doug Clifton, KBCO, Boulder

Huey Lewis has delivered an album that offers songs for all kinds of album formats. After spending time listening to an advance cassette that Geina Horton brought by, I was sold on several cuts from "Small World". "Old Antone's", "Bobo Tempo" and "Slammin'" all sound great. Another nice package from the folks at Chrysalis is the Jethro Tull 20th Anniversary Box set. The first side of the record features some great early performances of Ian and the boys on the BBC. Also a favorite are the live versions of classic Tull tunes, especially "Thick As A Brick".... Jules Shear is in top form as he returns with his new band the Reckless Sleepers.... Coming as a shock to many will be the add on Cheap Trick's "Don't Be Cruel". It's a great cover.... Another real gem on the "Cocktail" soundtrack is John Mellencamp's cover of "Rave On".... Toni Childs continues to do well for us, so we're moving onto the new single.... After a short rest, we're back on "Soviet Snow" from Shona Laing.... Sean Coakley and Jay Ziskrout asked me to give a listen to Stealin Horses' "Ballad of Pralltown Cafe". I loved it and put in on the air this week.... Top phones: Bobby McFerrin, Melissa Etheridge, The Church, Tracy Chapman and Jimmy Buffett.... Top retail: Tracy Chapman, Steve Winwood, Bobby McFerrin, Melissa Etheridge and Bruce Hornsby.... Thanks to Karla Bonoff for stopping by and performing live on the air.... New Music Express: The Bible doing an acoustic version of "Crystal Palace" and "Cigarette Girl", Siouxsie and The Banshees, Debbie Harry and The Style Council.

Inessa York, KGON, Portland

First of all thanks to Virgin for the trip on the train. Sleepless though it was, Steve Winwood is a subtle performer and it was especially fantastic to watch

Going on a record company junket to see a new band strut their stuff can be: A) a really disheartening experience or B) a remarkably great rock and roll experience. While you stroll down the plush, reddest carpet the host city has to offer, the record company execs extol their virtues of their latest find. You meet the manager, the band members, and other assorted V.I.P.'s. Everyone thanks you for coming. Then the band takes the stage and rips through their set. About half way into it, you realize that that certain magical element needed to take the band to the top is simply not there. Hell, the band is good, but they are really not great. About this time you wish you'd accepted that dinner invitation at your grandma's house instead. This represents the disheartening experience. The great rock and roll experience starts out the same way, but about half way through the band's set you realize that the magical element is there and this is a band to be seriously reckoned with. Hallelujah, you have another core artist to add to your repertoire and you can tell stores years later about how you were there when it all started. The evening ends with champagne corks popping and real smiles all around. This long and windy story does have a point to it, believe it or not. It's my way of telling you that Tommy Conwell and the Young Rumlbers are for real!! The songs are real, the charisma is real the audience adulation is real and so is the sweat dripping from everyone who made this project a reality on Columbia Records. Believe the hype. Play Tommy Conwell and the Young Rumlbers and reap the benefits, they're the real goods.... Be aware of The Paladins, a San Diego band that has garnered quite a national reputation in the past year or so because of their extensive touring and their Miller beer commercial. They've got a new album on Alligator records which is fabulous. We picked the title track as our starting point. If you play Robert Cray and George Thorogood, these guys would make an excellent addition to your list.... And finally, Camper Van Beethoven is quirky, funny, offbeat and more than a little strange. We can't quite figure it out so we're letting our listeners brains do the thinking.... Big

him front row center.... The Crazy 8's, one of the Northwest's great bands, are at it again. Their reputation has been slowly building over the years and I think that anyone who has seen them perform will agree that they are something very special. They are just about to release "Big Live Nut Pack", ninety two minutes of live music from one night's performance in Eugene, Oregon that was recorded earlier this year. It is an interesting package five and three inch CD's in one. And that of course equals a crazy eight inches. It will be in stores in Portland 8/8/88. And it will be available through CMJ through those progressive college cats. Billboard has written up a unique aspect of the packaging and look for the Tower Pulse September issue for a major article on Crazy 8's. I am extremely extremely proud of these guys. Not just because they have done it their way without the majors help and relentless touring, etc. In spite of that, they sound on par with the best.

Kim Alexander, WHCN, Hartford

As a former inhabitant of the City Of Brotherly Lust, I mean Philadelphia, it was real exciting to be able to hang out at one of the old haunts, the Chestnut Cabaret--and check out some fresh talent. Tommy Conwell and the Young Rumlbers put on a red hot show and the album is deep, deep, deep. Don't wait. You're gonna love "I'm Not Your Man" on your radio station. Thanks to everyone at Columbia and as usual it was great seeing the old crowd.

Erin Riley, WMMR, Philadelphia

As they say, the proof is in the puddin'. Last Thursday night a very large assortment of industry folk came to Philly to see what I've been talking about all this time. And it was obvious that no one walked away disappointed from Tommy Conwell and the Young Rumlbers. I first saw this man play in 1983 as a three piece, and knew at that time he was headed for superstardom. Now you all have it in your hands to judge for yourself. Everything you've heard or read is true, the man is an incredible talent and has more pizzazz

July 29, 1988

live than any other new artist I've ever seen--and I've seen a lot of bands. I'd like it to wish him all the luck in the world. He's great guy and he's worked very hard. I'd just like to say thanks to everyone who wished me happy birthday last week. You guys made it a very special day.

Wendy Steele, WLVQ, Columbus

I've returned from a wild week in New York which all started off with the happening McGathy affair. Bill and Rose are the greatest. It's obvious that many people feel the same way by the turnout. It was really neat to meet many of the people whose comments I read every week. I had a blast! Thanks to David Fleischman and Danny Buch of Atlantic for their fine hospitality at the dinner. It was nice to meet Jon Astley and Firetown. Saw a dynamite performance by Velvet Elvis at the Cat Club, as well as Iggy Pop at the Ritz. Thanks to Chuck Bliziotis and J.B. Brenner of A&M for the tickets. Finally got to meet Kenny Puvoel of WB and I saw Jack Isquith's office again. Thank god he finally straightened it up. Great to see Bill and Collie Hard and as well as the Columbia dudes Jimmy Del Balzo and Paul Rappaport. I loved seeing those two tensed up on a Tuesday. Thanks for everything guys. And you've got one new hot and happening artist with Tommy Conwell and the Young Rumlbers. It's gutsy, straight ahead rock and roll. "I'm Not Your Man" goes into medium this week. And finally, I feel quite honored to be associated with all the people I saw last week.

David Hall, WKDF, Nashville

Had a great time up in Philly last week as a guest of Columbia to see Tommy Conwell and the Young Rumlbers. Many thanks to Rap, Alan and Jim for putting it together. After getting "rumbled" live at the Chestnut Cabaret, I can say it looks like CBS signed a hot one. It was good to get to hang out with some old pals like Tommy and Luanne Nast, and Charlie Kendall, who I urged to get back into broadcasting as he has been threatening to do. I enjoyed meeting Wendy Steele, Harve Alan and many other fellow radio warriors for the first time. Besides the live show, one highlight was the ride over to Chestnut with Monsoon busters Bill and Collie Hard. Saving me from more of the leaking mini bus. Ted Edwards and I found a Dave Morrell Beatles tape in Bill's back seat for some pre-show smiles. An 8am flight the next morning was a drag but two C90's of WMMR are keeping Philly memories alive in my tape deck.... The new Hot Mix of Cheap Trick's "Don't Be Cruel" makes a big difference. I'm digging it now, and aside from a couple of Elvis die-hard purists, most listeners are too. I think it's cool that the Tricksters have taken some of those old chestnuts like "Ain't That A Shame" and "Don't Be Cruel" and made them live again.... Lita Ford's "Close My Eyes Forever" was a power record for us, so "Back To The Cave" is perfectly set up. Here's a case where I may prefer the original to the remix. I think it's a little smoother. Even the CHR fags in town are interested in "Cave" after having such a good run with "Kiss Me Deadly".... Is Little Feat killer or what? I couldn't believe my ears. I was still cranking it on the office stereo when calls started coming into the control room for it. I had to take it in so we could play it on the air. Thankfully an extra copy arrived the next day.... Steve Forbert's "Running On Love" deserves more stations playing it. It's a great song and doesn't everybody love this guy anyway. Hey Marko, why don't you come off some of those acoustic versions Steve played for you on your interview cassette?

Michael Cross, KJJO, Minneapolis

We're not "Superstitious"! Europe is OTB and in heavy. Watch this band go platinum with ease.... Here's a band we really like--Impellitteri. This band rocks!! Check out a tune called "Tonight I Fly". It's an add here.... Def Leppard's "Love Bites" was an add here back in July of 1987, but due to the incredible success of "Pour Some Sugar" we are going back to "Bites". A #1 CHR hit as well!.... The band with a million members, Phenomena is an add with the track "Stop". Killer stuff with Max Bacon from GTR, John Wetton from Asia and more dudes in this band. A very interesting album.... On the promotional side of things, we have our new bumper stickers and they are being distributed through Twin Cities 7-11 stores. They are the hottest stickers I've seen. We'll be giving away cash, CD's, concert tickets and more for having one on a car--covering up another stations sticker of course.... Also, welcome to middays, Pam McManus. She's now on 9am - Noon as Mindy Collins moves to Fresno.... Our new show is off & running. "For Rockers Only" is being aired Monday through Friday at 9:30 pm. I took the un-hosted version and am putting the show together myself. Excellent response. Find out more through Media America, Inc.... Finally, congrats to KQRS for an incredible ARB, and to all at KTCZ for another good book. I couldn't agree more with John at KQ. This has got to be the best AOR market in America.... Well that's it this week from the country's premier hard rocker, Hot Rockin' 104.

Brian Illes, WKFM, Syracuse

I'm very impressed with the sound of the new Blue Oyster Cult record. I just wish somebody at CBS had told me that it was a remake before I heard about it from a listener. Actually about half a dozen listeners, the first time I played it.... I would have gotten to Robert Cray last week, but you know how it goes when there are lots of currents and not a lot of spaces.... The same with the Fabulous Thunderbirds. I expect this song to really explode once the movie hits the screen!

Greg Morrison, WRQK, Canton

We got a solid night time test spin on Tommy Conwell and the Young Rumlbers "I'm Not Your Man". This one is definitely worth a shot.... Veteran axeman Robin Trower put on a blazing show in Akron over the weekend. Many thanks to all who helped make it the smash it was.... Britny Fox "Love

Way To Love" is definitely still building after 1 and 1/2 months of play. Phones are good and we've seen some early retail showing at this point.... Joe Satriani has been one of our main thrusts this year. We have a couple of other AORs who creep into our air space and Joe Satriani helped to set us apart. He was a plus the first time around which is why I won't give up on "Always"!.... More strong music from Paul Kelly and the Messengers with "Dumb Things".... And Little Feat was an instant add for us.... Robert Cray holds strong appeal with an authentic blues style that's commercially acceptable in "Don't Be Afraid Of The Dark". This area is strong on blues since the early Allman Brothers records and Cray sounds great.

Joe Marino, WCCC, Hartford

I'm not going to waste much time with a long reply to Boring Bob's editorial on the Hartford market, I just want to say that Bob should enjoy this book now, because Marino and Sellers are here to clean up this town, which has been void of a "pure" rock station for so many years. This book doesn't reveal anything because it was over just after we arrived. Watch out, Bigmouth Bob! You'll crow from the other end in a few months. Oh, wait, you already did.... Now on to good stuff like rock and roll. Take a listen to John Kilzer's "Green, Yellow and Red". You'll get the hook stuck in you and it won't let go.... Aslan's reacting well to testing in all dayparts and all demo's, especially 18 to 34 males.... Retail is showing great follow through with Britny Fox. When 'CCC gets behind a record, we push it all the way to the cash register!.... A big surprise is Rhythm Corps. You wouldn't expect it to be a reacting record, but we got #2 phones on it!.... And Little Feat breaks the Top 5 first week out, getting both the old Feat fans and a bunch you know are just too young to remember.... Check out Colin James. This record has great guitars and lots of personality.

Anthony Alphonsi, WDVE, Pittsburgh

It's been over a year since I first heard the name Tommy Conwell and listened to the independently released album. I liked the album a lot, so when I heard CBS had signed him I couldn't wait for the official release. "I'm Not Your Man" finally showed up and it looks like we have another winner from that other city in Pennsylvania whose baseball team could use a few. Tommy Conwell's "I'm Not Your Man" has that straight ahead rock sound that sometimes you just can't get enough of.... BOC's "Astronomy" doesn't rely on their past, which shows they are willing to progress into the 90's.... Europe's "Superstitious" is produced by Ron Nevison. Need I say more.... Saturday night I got a change to check out another local band, The Clark's. They were impressive and could be another Pittsburgh band that has a shot. I think the labels should get serious about the Pittsburgh music scene because I think the time is close at hand and similar to what's going on in Pittsburgh sports.

Marty Griffin, KFMF, Chico

What's all the hoopla over this new Tommy Conwell record? One listen was all it took for me, this kid can play, love it!.... "Green, Yellow and Red" was my first pick off the John Kilzer record, glad to see Geffen going after it. It should do as well if not better than "Red Blue Jeans"...already good calls coming in.... Birch numbers just came in for the Chico market, again KFMF is number one by a long shot...12+ 20.4 and 25-54, 22.9. Thanks to all the record companies for the outstanding product the last six months, without you we wouldn't be where we are today.

Charlie Foster, WNGZ, Elmira

I'd like to thank Kevin Young, Michelle Block, Jack Snyder, David Ross, David Bouchard, Jay Brooks, Karen Lee, John Souchak, Bill and Rose McGathy, Pat Rascona, Barbara Balzhick, Alex Miller, Jeff Criden, Sam Calle, Heavy Lenny, Bob Laul, Artie Kornfeld, Robin Bennett, and of course Bruce Moser and Doug Dombrowski and Paul Yeskel for making my three years at WNGZ wonderful ones.... And by the way for you historians, it was fifteen years ago July 28th, 1973 that 600,000 rock fans conquered Watkins Glen International Racetrack in Watkins Glen, NY. Summer Jam '73 was a twelve hour concert featuring three of the nations best rock groups of that era, The Grateful Dead, The Band and The Allman Bros. Unofficially, Summer Jam '73 was the largest crowd ever to gather for an outdoor concert.

Steve McNee, WZXL, Atlantic City

Now the rest of the country can see just how hot Tommy Conwell and the Young Rumlbers really are. We've been playing them for almost two years now. Get ready USA for some hot rockin' fun.

Mike Boyle, WDHA, Dover

Tommy Conwell and the Young Rumlbers...What a mouthful...what a band!! Saw them last week on home turf in Philly...they blew us all away. "I'm Not Your Man" is a must for your playlist! Thanks to everybody at Columbia for a great time...Jerry, Rocky, Rapp, Mark and Cathy!.... Nice to see Kenny from Warner Brothers in NYC during the New Music Seminar! Yes mom, he did have ziti!!

Ty Banks, KQWB, Fargo

Thanks to Ken Ornberg and Reprise Records for the Neil Young video promotion. Because of MTV people are going crazy for this video!.... Melissa Etheridge's "Bring Me Some Water" is surpassing all expectations. Top 5 phones this week and still growing. No phony image here, she's no Penthouse Pet, she's genuine singer with a wide range of emotion.... Moves: Britny Fox built slow and we were getting worried, and then all of a sudden...bang...our core just picked up on it--and now's it's Top 5.... Huey

July 29, 1988

Lewis moves to power. Always a big audience here for him.... Robert Cray's also up to heavy. Good good song. Everybody is talking about the commercial tie-in here.

Dave Ross, KFMU, Steamboat/Vail

I've always been great fan of Big Audio Dynamite. They've come through again with "Just Play Music". This song definitely keeps the progressive edge on our side. It's a song I'm counting on to keep them all listening.... John Kilzer is such an amazing artist I'm shocked all of rock radio hasn't given him the total attention he deserves. "Green, Yellow And Red" is a driving song that kicks some and then even more. Get this guy on your side, for this is what rock and roll is all about.... The New Music Seminar was quite an experience last week and I'm just now starting to catch up on some needed sleep. Much thanks to the McGathy's for a killer afternoon at Yankee Stadium and a wonderful party. Also a big thanks to Danny Buch and David Fleischman, (Mexican food in New York really isn't that bad), as well as Bob Laut, Jack Springer, and everyone else I had a chance to schmooze with. That'll do it one more time from the world's only wind powered radio station.

David Sadof, KLOL, Houston

Polygram, thanks for the worthless piece of vinyl. It's about fucking time. Ha Ha! Seriously though, if you haven't played Def Leppard's "Love Bites" yet, it's a great song. In fact, it did so well for us that it became a staple at the Top 40 stations in our market. Now where's my fifth copy of the CD?.... Favorites among our adds this week include Robert Cray, Little Feat, Georgia Satellites, Blue Oyster Cult, Europe and Camper Van Beethoven.

Tom Van Sant, WIZN, Burlington

Another great Birch book for us in the spring, as adults 18-49 rose from 21.1 to 29.1. And our morning team of Rich Haskell and Nancy Masino beat all comers by two to one. WIZN is #1 in the market again, here's hoping Arbitron catches up this time.... Thanks to Bob Divney and all at Reprise for the Neil Young videos. It's quite a piece of work and we have lots of fun talking it up and giving out MTV's phone number. We gave our listeners a chance to see it at a local pub, where it was shown every half hour all day on Thursday the 21st.... Elton's "Goodbye Marlon Brando" will be on the air for many weeks to come at WIZN. A humorous upbeat rocker from one of everyone's favorite artists. It fits most AOR formats better than the single.... In Tua Nua has an intriguing sound and with Don Dixon on the board, much promise.... And thanks to Don Delacey in securing Treat Her Right for our second boat cruise of the summer on August 19th.

Tim Parker, KNCN, Corpus Christi

The Europe should be on every station everywhere. It is very slick but in a positive way.... What a great followup.... We would have added the Little Feat last week, but we didn't have it. At any rate, in goes in this week and sounds great.... Sleeper of the week is Robben Ford. We added "Talk To Your Daughter" instead of the single but there is no doubt that this guy is for real.... We didn't play "Fast Car" but we have added "Talkin' Bout A Revolution" this week. Sales for Tracy Chapman are starting to build locally and gut instinct tells me this one should work for us.... Def Leppard is number one on the phones by a lot and building great audience response on radio only. In fact, four out of five top phone items this week are getting their only exposure on KNCN.

Cindy Bennett, KFMX, Lubbock

Everyone around here really likes the new Tommy Conwell a lot. Looks like a winner for the format.... Joe Satriani goes in this week. We are banking on the song's melody and sense of musical direction to overcome any potential problems with tempo.... We have also added the "Big Mix" of Cheap Trick's "Don't Be Cruel". This song is going to be a multi-format hit so AOR should get on this track right now before the guy across the street starts hitting you over the head with it.

Jimmy Christopher, KZEW, Dallas

The Robert Cray goes on this week. I love this guy and his album is strong throughout. Look for big things from this effort.... We are already getting lots of 22-29 year old phone action from the Little Feat. The audience has been waiting for the return of this band and the response has been a treat for all of us.

Rich Robinson, WHTG, Asbury Park

Thanks a lot to A&M Records and Capitol Records for a real fun time last week, but will they still respect me in the morning? P.S. Parthenon Huxley is number one requests again, why aren't more stations playing this reaction record?

Al Scott, KZEL, Eugene

David Drew comes up with what is probably one of the best covers I have ever heard. This song really captures a new audience for an older track in such a way that the song takes on its own character.... Huey Lewis is kicking butt bigtime with a supertight horn section and enough hits to power this album through the rest of the year.... Pat Benatar maintains her hold on the audience with "All Fired Up" keeping her fans in a fever.... The Fabulous T-Birds have a great song with "Powerful Stuff" and boy am I glad that Motley Crue didn't do it as originally planned.... Dokken has come out with a good example of what that band is all about. This record is a must for everyone concerned with their core maintenance.... Likewise, Vinnie Vincent has real

rivet head appeal and this track proves the man still has plenty of edge.... Bryan Ferry's "Limbo" is, without a doubt, a sexy summer sizzler that could easily bring back the soft bump all by itself.

David A. Ross, KMJX, Little Rock

David Lee Roth and Poison knocked out a sold out Barton Coliseum Saturday night. Many thanks to Capitol's Jeff Blaylock for the support and to Poison's Brett Michaels for the interview. Just point Brett at a microphone and say go. It was one of the easiest and most entertaining interviews I have done in some time. This weekend Magic 105 hosts the Second Annual Blues Festival with headliners John Lee Hooker and Elvin Bishop along with a host of other bands. The Arkansas River will be rocking noon to midnight with the blues. The next big show in town is Huey Lewis, more next week.

Eric St. John, WNPQ, Canton

Robert Cray has come out with a track that follows up the success of his last record. His laid back blues style has gotten some very receptive feedback on the phones so far.... I was very impressed by the remake of "Astronomy". This new version really brought me back again to the reasons why I loved B.O.C. in the past.... Europe needs a close listen but the song effectively shows another side of the band. We threw it on the air right away and got instant reaction.... Lita Ford is still working for us on the phone and of all the tracks from the album so far, I like this one the best.... What can be said about Robert Palmer except that he is "Simply Irresistible" to every woman who ever drew breath.

Art Boerke, WKWQ, Columbia

The new Jimmy Barnes song is a good commercial track that allows the man to do some serious singing. Take note of that great slide guitar at the beginning.... Gregg Allman's "Demons" has got that real good Brothers bluesy feel to it. One thing is certain, this album is so much better than the last one.

Christina Gorton, KKZX, Spokane

Robert Palmer and his android women from hell have another hit on their hands. The album is a deep one and should last us throughout the summer.... Little Feat works for me this time around even more so than when they were first on the scene.... Steve Winwood has people very happy right now. I think his burn factor is vastly overrated. No doubt about it, the audience loves this guy.... The quality of songs being released by Robert Plant continues to amaze me. This album has all those little extra moves needed to keep the format well stocked with great rock and roll.

Catfish, WHMD, Hammond

We're so happy The Church will again appear in New Orleans. The 8/23 date features Peter Murphy and Tom Verlaine.... Yowza!.... Also watch for The Sugarcubes on tour, we're on the remix of "Coldsweat". The Elektra promo guys will be in town to see the Sugarcubes on 8/29, the same day our station goes Top 40. No Elvis sightings this week.

Craig Bradley, WRIK, Paducah

Melissa Etheridge is doing real well. I'm very happy because the first time I heard it I knew it had to go in, and sure enough the day after I added it, we got that rain we needed.... I'm very impressed with the whole John Kilzer album, it's awesome. We went with "Green, Yellow and Red" this week, but I'm sure I'll be opening up this LP before long.

John Loscalzo, WRCN, Long Island

Wow, McGathy can throw a party. Tommy and I had a great time or at least we're told we did. No thanks to Mr. Social Faux Pas, Spike. Trapp should talk after he tried to rub glasses with me, you devil you! Thank God Ivar stayed coherent through the whole ordeal. One final question, how do you get digested pizza off your sneakers?

Rick Panneck, WAPL, Appleton

Back from vacation with a whole new outlook on life. Maybe it's time to join the monastery. In fact I did meet Amy Grant in Minneapolis!.... Guns N' Roses continue to dominate the phone lines...couldn't you just hear Weird Al doing a parody on Guns N' Roses, possibly involving regurgitation?.... The "Cocktail" Soundtrack has produced no less than three tracks on our playlist with The Satellites "Hippy Hippy Shake" being the staff favorite.... Raymond May continues to build with both sales and requests. Looking forward to Raymond's appearance in our area in the next few weeks.

Tom Starr, WOUR, Utica

The new Europe track "Superstitious" is a quantum leap.

Jeni Gipe, WZBH, Ocean City

The new Robert Cray is great but it's like the Allman's "Midnight Rider"...great song...too short. Guess we'll just have to play it a lot.... It's been said many times before, especially in this area, but Tommy Conwell is definitely something everyone should play. Go see him live and you'll know what all the raving is about.... Europe is back with a more accessible mainstream sound. We added "Superstitious" in medium out of the box.

Karen Anderson Small, WGIR, Manchester

Huey Lewis and the News' "Small World" is full of summer sounds. The different influences and rhythmic diversity make for a satisfying departure

for Huey and makes for good listening.... If you're looking for the perfect record to give upper demo appeal a la Alan Parsons, give Pete Bardens "Gold" a try. Yes, I was one of those who used to listen to Camel records in the 70's.... I'm rooting for the Robben Ford record. Excellent guitar playing with true feeling never goes out of style and Ford's latest album is a gem, full of wonderful guitar.... Europe's "Superstitious" proves that these guys have more appeal than just their hair.... Whitesnake is playing a concert on the river and tonight we've got Rock 101 with Rudy Szarso at an in-store and Mike Jones doing live reports from backstage. Once again Rock 101 is everywhere and now I gotta run and be everywhere too.

Bill Clay, KXBR, Springfield

The Bear is sold on Tommy Conwell and The Young Rumber's. "I'm Not Your Man" is a tune that really delivers. If this is an indication of what the rest of the album is all about, rock radio has another great debut on its hands.... Blue Oyster Cult's reworking of "Astronomy" is going to do great here. It's in immediate Heavy rotation.... Hothouse Flowers' "Don't Go" is a catchy tune. It is on our Alternative show and getting calls and could move into regular rotation.... Artistically, Patti Smith's "Dream Of Life" is as powerful as her 70's music. Check out "Up There Down There" and "Looking For You".

Joe Anthony, KISS, San Antonio

Let's all get "Superstitious"!

Chris Herrmann, WHJY, Providence

By the way, our new program director Carolyn Fox and all you record types should talk on the subject of music promotions. I will only except music calls from 2:30 to 5:30 on Thursdays. No Exceptions!!!!.... Talking about music, Europe is destined for tonnage.... Huey and the News are back to the roots and sounding hot.... Lots of nuggets on the new Tull compilations.... Lastly is Winger. I always have been a fan of Rod Morganstein and "Madalaine" cooks, has great production, and great album art.... We are off to see the Smithereens and Squeeze.

Robin Mathieu, WBLM, Portland

The summer success story here is Melissa Etheridge. In two short weeks "Bring Me Some Water" is #2 phones and building on the sales charts. The word from retail is that buyers are mentioning they heard it on BLM. It's nice to have your name behind good quality rock and roll.... "Love Bites" from Def Leppard is an easy add this week, and will keep "Hysteria" strong for the rest of the season.... Hopefully my new favorite will make the airwaves very soon and that is Tommy Conwell and the Young Rumber's. This band is for real and "I'm Not Your Man" is the perfect song to introduce to your rock and rollers.... Smithereens rolled through town on the Squeeze tour last week, and I can't tell you how much we enjoyed the show.... Thanks to Jim and Dennis for joining Brian James live on the air Sunday afternoon, and Tony from Capitol for making it all possible. You guys are welcome at the Rock and Roll Blimp anytime.

Lorraine Rapp, WAQX, Syracuse

Results of the Spring Arbitron are in. 95 X went from a 6.1 to a 9.3. The classic rocker WKFM dropped from a 5.7 to a 5.2. We beat them 30 to 50 percent in all target demos, all dayparts, men, women and adults. Sometimes you kick and sometimes you get kicked. Congratulations to the most dedicated hard working airstaff this side of the Mississippi. What a perfect time for our new owners Atlantic Ventures to come in with mucho dollars and brand new facilities to see us into double digits in the fall.... Def Leppard and Europe put on an incredible show last week. The audience response was incredible for both bands. Thanks to Pat Rascona of Polygram on setting up a great promotion.

Jim Steel, WIOT, Toledo

All the ingredients are there: attitude, conviction, strong following, great tunes and a sizzling stage performance. Tommy Conwell and the Young Rumber's have the goods. Thanks to Rapp, Rocky and Dave Tezak of Columbia for the hospitality. It was also nice to put faces to so many names. Tip of the caps to all those who have supported this effort, you know who you are. And to Columbia for coming up with another band, I won't mind growing old with.

Randy Maranz, KDJK, Modesto

I really like Paul Kelly "Dumb Things". It's a smart add.... Europe's "Superstitious" is a smash. What can you say? It's already taking off with good phone response.... Broaden your horizons and look at "Eye Of Fatima" by Camper Van Beethoven.... We're wild about Robben Ford's "Wild About You". It's a great record.... We've gotten some calls about the Brian Wilson track. It's a good effort and I think for radio it'll do real well.... "Now Is The Time" to add this record from The Vinnie Vincent Invasion. The boy smokes on guitar and it has a great hook. It's rock and roll the way it should be.... For those who have not seen the light on Face To Face check it out. It gets real good phone response here.... The blues man is back. Robert Cray is a smash. Come out of the dark. Don't be afraid, it's getting great response at KDJK. A natural.

J.D., WONE, Akron

"Fax The Facts". We're asking our listeners to fax over our fax machine, answers to a Cleveland Browns trivia question. This is a great promotion to get those people listening at work involved with your radio station. The rules

are very simple. Our morning team of Brian and Joe ask the trivia question at 8:30 A.M., workdays. Then those of you listening at the office gather your fellow co-workers together and try and answer the question. When you have it, you fax it on company letterhead to our office. You have until 3 P.M. weekdays to answer the question. At that time we announce the office winner of the day out of all the correct entries. The daily winners receive four tickets to the Browns exhibition game with the Detroit Lions August 6th. If you don't have a fax then you send your answer to us on company letterhead. Now you're not eligible for the daily prize but your company is included in the grand prize drawing along with everyone who enters, for an office party for 20 before the Crosby, Stills and Nash concert August 16th at Blossom Music Center.... P.S. Dear Carolyn Heldman, after our terrific dinner (and the jello mold), I know of a great hula-hoop contest which will be going on.

Mike Gardner, KOAS, Kealakekua

Iggy Pop is undoubtedly the best rockin' release to come out in months. Good sharp production too.... The Gregg Allman Band is a step up from the previous LP and "Bullets" will be sure to endure. We hope Gregg and band will come our way again this year.... Great positive lyrics from the Moody Blues again.... Pat Benatar's into a great groove with "Wide Awake".... And Patti Smith, Rod Stewart, Van Halen, Jimmy Barnes, Robin Trower and Melissa Etheridge are all going strong here at the southern most U.S. FM.

Ron O'Brian, KATS, Yakima

It was a beachin' weekend in Yakima as KATS was in on a great musical beach party Saturday at the Central Washington State Fairgrounds. Just over 7500 people attended a three-hour beachin' show with Three Dog Night, America and the Beach Boys. We had a great time with a "Show us your best Beach Towel" contest. Listeners were asked to design a beach towel using the phrase "KATS is beachin'". The winner not only had the towel displayed on stage during the show, but also won a trip to the beach. Transportation was provided to Seaside, Oregon, and accommodations for two nights stay. Pictures to follow.... Monsters of Rock, here we come! Off tomorrow to the Kingdome in Seattle, an early big thanks to Jim Anderson at Warner Brothers, and the Kramer Guitar folks on a great Monsters of Rock guitar contest. Our winner, a 29 year-old female and her husband, who collects guitars, will meet Van Halen, and be presented with the limited edition Kramer guitar, signed by Eddie and the boys. Word on the Spokane show was excellent, so I am pumped. I'm sitting here looking at my backstage pass, and sweating.

John Riggs, WKLC, Charleston

WKLC Charleston, West Virginia seeks a news director/morning show partner. Send T&R to Duane Doherty, WKLC, 100 Kanawha Terrace St. Albans, West Virginia, 25177.... I just saw The Church live a couple of times and they were far more powerful than on record if that wasn't powerful enough. And I would like to give Marty Willson Piper a big kiss on the mouth.

Phil Maicke, KFMH, Davenport

The Europe is a great follow-up... Tommy Conwell has excellent R and B overtones, this song was made for our station.... Reckless Sleepers, "If We Never Meet Again", great vocals as usual, will Jules become famous? Stay tuned.... Shriekback is doing well for us and is not just an alternative record, don't lose it on your new music show.... The Vinnie Vincent is the album that won't die.... We're going on the Hothouse Flowers next week, wish I had room this week cuz it's a fine song.

Fred McFarlin, WRFX, Charlotte

If you call the Fox and no one answers it may be because our receptionist Cindy has her headphones on and Toni Childs cranking.... Our promotions director Mark Gullett has some extra cash since "The Book" came in, so call and sell him something.... Finally welcome Jack Anthony to overnight/production. Jack has been here before but has been down in Columbia, South Carolina for the last few months. Welcome back Jack!

Jonathan Rosen, "Virgin Vinyl" KUPD, Phoenix

What's hot: although 110 degree plus temperatures for weeks on end is par for summer these days in Phoenix, two bands far removed from this type of climate are burning the flame of originality. Amsterdam's Fatal Flowers second U.S. release "Johnny D. Is Back" is instantly likeable. Tempo shifts and dialogue are important standouts. Overall nothing is really earthshaking, but "Second Chance" and the title track could easily be adds. If you play David Drew or Kings Of The Sun please check these two songs out.... Beatnik Beach has a name which sounds novel—it isn't. A San Francisco quartet that reeks of rapid appeal is another record to carefully explore. In most cases where programmers will play many different tracks there must be a reason especially in the case of newer artists it usually points to diversity of styling. This record has at least four tracks which deserve airplay. Tracks are "Beatnik Beach", "How Much Does Love Cost", "Lonesome Town" and "Sargent Lasard". This says a lot!.... Looking Back: In the near seven years of "Virgin Vinyl" I've had some very unusual moments. Comedian Steve Landesberg proving how non-humorous he really is, Henry Rollins morbid tales, the night I booted the Meat Puppets off the air and out of the studio, AND OH.... the live on air musical spontaneity of Mojo Nixon, The Vandals, and scores of others. But this past Sunday had to be one of the most unusual. Green On Red's Chris Cacavas on accordion, Giant Sands' Howe Gelb on acoustic guitar and lead vocals, along with percussionist John Convertino performed three songs of what I

July 29, 1988

think was a tex-mex, polka, angst ridden hybrid, linked to an unknown southwestern sub culture kinda thang. I dunno - I still can't figure it out.... Uncle Milt's Rowdy Rivet of the week: Violence--this keeps the Milt meter right at the top at 100 miles per hour.

Rich Flamingo, KRCK, Walnut Creek

After a year as music director I regret to announce I will be leaving the station as of August 1st to continue my scholastic career. A big big thank you to all the folks from all the labels who made my job so easy. I'll be back some day. In the meantime, one of the ways I am supporting myself is working at some of the local nightclubs. Therefore, if anybody can come through with any sort of dance oriented service, I can promise you it will go to good use. My home address is 519 Dover Drive, Walnut Creek, California 94598. My phone number is 415-935-6132. Once again thanks!

Ivar Hamilton, CFNY, Toronto

For the second year in a row, I had a real blast at NMS. It was great seeing everybody who I only see on an annual or semi-annual basis. Highlights of NMS were McGathy's Baseball Party; John Souchak and MacKenzie; Was Not Was at the Palladium; Dave Stewart and Lemmy on the artists panel; Farley JackMaster Funk at the Mix-master panel; Big Dipper gig and CFNY paraphernalia on the field at Yankee Stadium.... Also, a big thanks to Denis McNamara and all the gang at WDRE for allowing me to co-host the morning show last Thursday. You have a great station! Now I have a mountain of records and trades to go through.... The buzz band is the Hothouse Flowers though. They simply can't be ignored!

Jetson, WOXY, Oxford

Fresh back from the New Music Seminar, had a great time. It was really enlightening to meet some fellow alternative program directors. There are some dedicated people trying to make radio something interesting to listen to again. Thanks to Dawn Hood for asking me to be on the panel. There are a lot of people to thank for the good times in NY; I don't know where to begin. I'll just send a general thank you to everyone who made my stay great--you know who you are--although I must personally thank a couple of people. Matt Pollack, Mark Dyba, and the lovely Liz Brooks from Relativity Records and good luck to them because I hear they have just signed The Cowboy from The Village People to a solo record deal. Matt Pollack personally signed his long time friend and everyone's favorite member of The Village People. By the way Matt, thanks for the great hair cut.... Music this week we're adding is a track from the Unsigned Bands CD by the Red Belly Boys. Everyone should take a listen to this track. This band is one of the Midwest's best kept secrets but not for long. Please take a listen, you won't be sorry.

Butch Lazorchak, WVVV, Blacksburg

The Velvet Elvis album contains lots of great music, sort of the missing link of the Let's Active family of music. "Ambition" is our next track.... The House Of Love is a great record too. I like "Hope" and the first four songs on that side. I can't wait to see this band live. I've always liked Creation bands, but these guys tie the distortion, paisley pop melodies all together.... Hothouse Flowers is a bit too poppish, but I didn't know what to expect. They don't sound like they look.... Fatal Flowers, I haven't heard that yet. I wasn't that impressed by the last time.... Reckless Sleepers we don't have in yet. I'd like to hear it though. I was really impressed by Jules Shear and Peter Holsapple's performance at the New Music Seminar.... Brian Wilson's record is disturbing and unsettling. We all know he's had a lot of problems and to hear him begging for "Love And Mercy" is very unsettling. He's an artist who has created an amazing variety of work. It's fascinating, great music.

Bob Weyersburg, WUNH, Durham

How about those Little Feat. And those monstrosities of rock. How about that Robert Cray. Anything else? If you can check out Bobcat Goldthwait. Very funny with a bit of enlightened humor. What could be funnier than Jimmy Swaggart, the CIA and rednecks? Lisa came across a review for Diamanda Galas in the June 1986 edition of Horizon (a magazine focusing its musical eye more on Philip Glass and Windham Hill). October Country - you are lucky if you have it to play. Area. Don't forget Enya.... My great thanks to Sheri, Robert, Chad and (Mark?) - my New York hosts. Come to New Hampshire and My Dad Is Dead. Why can't Test Department come to the U.S.? Call the department of Immigration and find out. Ha! Nick C. Only those driving determine the time of arrival.

Patrick Ferrise, WVU, Morgantown

The Fatal Flowers add to the genre of garage music and make it their own: good fun rock and roll.... It's nice to see My Dad Is Dead, that same hard edge and rhythmic combo.... The Affordable Floors from Pittsburgh are getting lots of hot local response with very slick production and African rhythms mixed with keyboards.... Let's Active is good, I'm looking forward to the album.

Sean Maxson, WXCI, Danbury

Beatnik Beach is a diverse album, it goes from pop to tribal music, I like it.... House of Love is another strong album, the vocals are very airy, it's got some really strong cuts, the guitars blow you away.... The Primitives have a great album, very strong, but "Crash" is not representative of the whole album.... Shriekback isn't like the old "Nemesis" Shriekback, "Go Bang!" is a great catchy tune.... Grandmaster Flash is so funky, especially "Magic Carpet Ride".

Kevin Byrne, WCDB, Albany

Dirty Face is number one again, Brian Wilson is doing well, it's excellent, as far as I'm concerned he's got comeback of the year over Steve Winwood and George Harrison.... I like the new Fatal Flowers better than their last album, it's a lot harder, production-wise, and they've recharged their batteries.... The House of Love can be compared to the "Porcupine" days of Echo and the Bunnymen, it's better than the Jesus and Mary Chain, because it's a poppier sound rather than a feedback-drenched one.... Shriekback is doing well. "Intoxication" caught my ear the most. Dare I say it, yet another bald rock and roller. The new album is infectiously dancy, it has a strength and a renewed focus.

Gina Galli, WBNY, Buffalo

The Beatnigs played in Buffalo two weeks ago, and they put on an amazing show. The crowd was relatively small, but the band attracted a lot of attention here in town. They're both an incredible band and really nice guys.... House of Love reminds me of the Jesus and Mary Chain, with the sixties pop style. It will do really well in college radio.... Shriekback's album isn't as creative as their previous work, but still real quality.... The new Patti Smith is one of my favorites. The lyrics and the message are straightforward. No gimmicks, not too aggressive or too mellow, it's just right.... The Primitives have a lot of originality, they've been compared to Blondie.... But when it comes to Beatnik Beach, there can be no comparisons, the bass line is especially nice.

Lora Porter, KPGA, San Luis Obispo

When you get your Intrinsic LP, sit down and give it a listen. You'll be shocked. The whole album is great. In my opinion extra strong tracks are "Possessor" and "The Head Of The Game". Intrinsic will be playing their first show with David Wain up front on August 9th at The Stone in San Francisco. It's definitely worth checking out.... Something else worth checking out is the debut album from Winger. These guys are going places.

Steve "Speaking For Dimples McCafferty" Prue, WKNC, Raleigh

Well Dewey and I are not dead or lost in the outbacks of North Carolina, Dewey is rocking at a real job so if you need anything I'll be in and out all through the day, all week long.... Seeing as Dewey is not in let's talk metal - Death Angel, D.R.I, Slayer, King Diamond, Flotsam & Jetsam, the list goes on and on. What is this, Christmas? I love it.... Thanks to all the reps for all the great service (nice to have you back Clarissa, Tom did a good job but you're definitely cuter). Have fun. P.S. Tray I'm sorry I ever said anything about your hair.

Jeff Ivan, KFMX, Lubbock

Well it's week 2 of the Liege Lord takeover and I couldn't be happier. This new effort by the band is by far their strongest effort ever. If you haven't listened to "Feel The Blade" yet, stop what you're doing right now and put that baby on. This music is just too good to leave laying around.... The Slayer continues to do phenomenally well. It is selling very well and you can really play every track on this album. This is Slayer at their best.... Mekong Delta is the band with the buzz right now though. Every week people call in and want to know who they are and where to get the album. Play these guys and just sit back and watch it take over.... Also went with the debut effort from Femme Fatale. Very promising sounding band. Nice video too.... I think that everybody should take a serious listen to the new Blue Oyster Cult. If you mix it in just right with the Stephen King intro it will just blow your listeners away.... The new Overkill continues to be a strong one out here. Give them a good tour and look out.... The mighty King Diamond is still scaring the hell out of my audience. I still can't get over how great the production is on this album and the CD is unbelievable.... Death Angel of course, still rules out here and Voivod is living up to my hopes and dream, still.

Caesar Ettore, WKVU, Villanova

Hello from the gutter! Yes, contrary to what some dialogue writers who will remain nameless say, I still exist. I'm writing not to avenge what some of you lowlife humanoids have said, but to talk about what is turning out to be quite a metal summer. Why would I bother lowering myself to the depths of my antagonists, people who obviously wouldn't think twice about mugging an old man in a wheel chair with no arms. I have more class than that. Anyway.... The highlight of the summer so far (besides meeting Chris Black - and I mean that) has to be the partial Kiss reunion at Frehley's Comet's Limelight show. It was there that I was lucky enough to witness Ace, Paul and Gene together once again performing "Deuce" - amazing. Although Metallica ruled Monsters, it wasn't quite what it was built up to be. The return of Riot to the stage was much more exciting. Mark Reale and Co. can really smoke live and how can you lose with a set that includes such Riot classic as "Road Racin'" and "Swords Of Tequila". Other great shows included: Testament, Violence and of course the Ramones.... Some really killer albums have been released in the last few months. Among the ones who would probably have done well at WKVU are: Voivod, Cinderella, Violence, Slayer, Seduce, King Diamond and Overkill. I single out Overkill as perhaps my favorite album of the summer. Looking forward, there are two new LPs looming on the horizon with killer potential. Wrathchild and Liege Lord will rule. Both bands have awesome LPs to be released soon. Wrathchild will be the next Metallica. You heard it here first. Talk to ya in September when the real fun begins.

Bill Fischer, WJUL, Lowell

Holy Headbangers, Grandma! We just added three of the heaviest bands alive. Overkill finally got great production and sound with their new album and it's nice to hear Blitz's vocals up to screeching par.... Secondly, the Death Angel album is one of the most incredible new thrash albums in the past few years. This band proves that thrash need not be cliché as they drag you along a musical maze of metal. This much originality keeps any thrasher tuned in.... And last but not least is the only band heavy enough to start their album with a slow cut. Of course I mean Slayer. With "Reign In Blood" selling 300,000 copies, I see no reason why "South Of Heaven" won't go gold. An album I've really been playing a lot has just reached our Top Five and that is "The Eternal Nightmare" album from Violence. Another great and original band from San Francisco that is heavy enough to put hair on Mike Jones's chest.

Mike Jones, WGIR, Manchester

Well the NMS has come and gone and I wasn't there this year, but I had fun here in New England. It seems like every band in the world came here before or after NMS. I saw Iggy Pop and Balaam And The Angel and then a band from Maryland called Mannequin who really impressed me. Then the heartbreaker - Hurricane with King's X at The Channel and Living Colour at T.T. The Bears in Cambridge on the same night. Hurricane canceled so King's X headlined which meant that I had to choose between Living Colour and them. A really tough choice. As badly as I wanted to see King's X, I went to see Living Colour. Do yourself a favor and see this band. I haven't had so much fun at a gig since Guns N' Roses last year. These guys deserve to be bigger than huge. One of the best live bands I've ever seen and four of the nicest guys I ever had the pleasure of meeting. King's X were awesome from what I was told later. I will see this band somehow if it kills me.... Finally Overkill and Nuclear Assault played on a Sunday afternoon in Boston. Nuclear was simply amazing. Like World War III on stage. Overkill played well but was plagued by bad sound and an audience that seemed to belong to Nuclear.... As far as music goes, I was one of the people turned off by all of the negativity on the "U.S.A. For M.O.D." album, but I think "Surfin' M.O.D." is a lot of fun. "Party Animal" is the kind of song you bounce around to at a party when you've had one too many. I also really like the new Iggy Pop record. It rocks severely.... I'm off to see Whitesnake and Great White now. Then, I'll need a long nap.

Mad Max Hammer, Z-Rock Satellite

Slayer is probably one of our highest debuting groups yet as they hit our chart at number 2 with "South Of Heaven". We're playing all of the tracks on the album. It's a real burner.... Iggy Pop debuts at number 20 with his new album "Instinct". We're about five to six songs deep on this album. Other interesting tracks are "Squarehead" and "Tuff Baby".... Cinderella goes to number one. "Long Cold Winter" is in power rotation right now.... Venice Beach bum Billy Milano debuts at #23 this week. There is some great novelty stuff on this one.... Texas thrashers Rigor Mortis come in at #24 with their balls to the walls record. After listening to this one you will definitely need a chiropractor to straighten out your neck. They're getting ready to open up for Slayer on their Texas dates.... The Wehrmacht single "Biermacht" comes in as one of our most requested songs, already.

Bob Berzins, KRSR, Las Vegas

The Monsters Of Rock in L.A. - I probably could have more fun at a concentration camp. I felt like a sardine in a can, but god bless the music. Due to billions of people being there, there wasn't much of a hospitality suite. It was more like Grand Central Station. I also loved the dude ripping up the metal seat next to me and trying to launch it at Metallica when the sound went down. Loved the Scorpions and look forward to their tour with Kingdom Come opening in Las Vegas this August.

Cole Gill, KSJS, San Jose

Something's buzzing in San Jose. Word's out on the street on the return of Slayer. The album is getting serious phones with the CD (thanx Derek S.) getting much airplay. But wait, there's more.... All in the same week the Bay Area will be getting their brains squashed with two shows each from Slayer and the mighty King Diamond. The Bay is gonna rock for sure.... Hope you all had fun and worked hard (sure, yeah right) at the New Music Seminar last week. Didn't make it out myself to my old stomping grounds, but I'm sure that when you all come out for the Concrete Conference in September, we can have loads of fun. Watch out for the dynamic duo of Diana from Metal Blade and yours truly. You'll never be the same. Til next time!

Johnny James, WCKO, Jackson

A lady called us from Indianapolis, Indiana wanting to know who King Kobra was. Of course we were more than happy to fill her in. The stores down here are completely sold out of King Kobra and also Hurricane so we would like to thank Carmine Appice of King Kobra for all of the help he's given us here at the station. We'd also like to thank Alex Van Halen for making the station known as "the Motherfkr".

Jeffrey Naumann, Virgin, 213-278-1181

WMMR, KLLO, KGB and KFMG!!!! are just some of the news believers adding Camper Van Beethoven and we have over 80 others. You've got to believe this is not just an alternative or college act. It's selling and getting requests at mainstream rock radio too. Virgin Records does not work a record for 14+ weeks unless there are reasons and proof we feel a hit record. "Eye Of Fatima" has proven itself in virtually every market so far. "Eye Of Fatima" is one of those songs which should be much different

(better) in the sterile confines of an office heard on some shitty stereo with the phone ringing. I know your audience wants to hear Camper because we've hold over a hundred thousand pieces and virtually every show is sold out. We're serious in breaking Camper. It's about time you gave us a shot, don't you think?.... The hottest blues guitar player since, dare I say Eric Clapton, is 22 year old Canadian Colin James. Believe me this guy is red hot. The first track is "Voodoo Thing" and you have it now. If this guy doesn't at least make you want to play air guitar I assume you are clinically dead. Colin James is now opening for Steve Winwood—go see them both.... One last thing, if you are not playing Ziggy's "Tumblin' Down" yet, it's time for the add K-Tel breath. Flash: 12" edit of Steve Winwood's "Don't You Know What The Night Can Do" ships Friday, July 29th. P.S. Yes, it's true, the troutmaster does wear a rug.

Chuck Bliziotis, A&M, 212-826-0477

Iggy Pop's "Cold Metal" rocks! Iggy is the kind of artist that originally inspired you to get into this business.... Album radio played a significant role in the establishing and breaking of Suzanne Vega and Tracy Chapman. Toni Childs, with over 25 album stations and over 35 Top 40's, will be the next breakthrough artist. Don't let the competition bury you on this one.... As I said Paul Kelly's "Dumb Things" make for smart programming. Look at Top 5 phones at WKLS #2 at Top 5 at 5, WPGU, WZEW, KTYD and WIXV. Heavy on WDRE, KUPD, KBCO and power on WEBN. This track is happening. Give this your immediate attention.... Marti Jones' record is a blend of original compositions along with cover versions of some of her favorite composers such as, John Hiatt, Graham Parker, Janis Ian and Jackie DeShannon. Her interpretive vocal styling is unparalleled. "The Real One" is the 25+ record you've been waiting for. Add of the week is WNEW. Give this some serious attention and let me know what you think.... Joan Armatrading's new record "The Shouting Stage" is out this week. The lead track is "Living For You". Once again Joan has given us a record of musical versatility coupled with vocal passion. Mark Knopfler adds guitars, and what you have is a dazzling effort. Joan is the predecessor of the current wave of successful women singer/songwriter/artists. This album is on your desk and now is the time for airplay.... Would you just give Soul Asylum a listen. "Cartoon" is more than fun—Roger Rabbitt.... And when you're ready, next up from Michael Anderson is "Until You Loved Me".

Derek Simon, Concrete Marketing, 212-645-1360

Winger's amazing "Madalaine" is beginning to turn heads the way it should be. Kip's hometown of Denver comes in strong this week as both KAZY and KBPI add the record this week. The Winger success story continues.... It's getting hot and heavy in the trenches with Slayer. "South Of Heaven" is quickly becoming a favorite of programmers and audiences alike. Look for the band to hit the road very soon.... Rhett Forrester's "Even The Score" is now rockin' the airwaves in its entirety. Good phones already after just a couple of weeks out there. We're lookin' for Rhett to keep on building.... Britny Fox are making a lot of people believers as of late as "Long Way To Love" continues to make a home for itself on AOR and the video moves upward in rotation on MTV. Top Ten phones are still be reported at everyone's favorite all-video network for the Britny boys. Look for details about a major tour for the band next week.... One final note: equip your control rooms with seat belts now because the new Anthrax is on the way. "State Of Euphoria" kills.

Penny Barnes, Rhino, 213-828-1980

Why can't people in this business return phone calls? I talk to promotions people & other industry executives daily, and this is a common complaint. I have some radio stations who shall, for obvious reasons remain nameless (besides you know who you are), that I have called 50 or 60 times and left messages every time, and have yet to get a return call. Is it my breath? Or just bad habits?? Who knows, by calling us back you might actually gain some new knowledge from it!!! Or at the very least some killer new Rhino product. We've got Roy Orbison on CD, 18 Todd Rundgren CDs, The Raspberries & Soul Shots on CD, also Foghat, 3" CDs, Sparks, and Nuggetts on CD. So, do us & ultimately perhaps yourself the favor of letting us hear back from you. Expand your horizons, and I'll bet you've never even talked to a real Rhino before!!!! Only Child is doing well at radio & this week was officially added to the roster of artists gracing your MTV!!! Also this week...Night Tracks Video & several other major video programs!! Yeh!! Go back & listen once more to "Save A Place In Your Heart". This is a legit hit! Smooth as honey, with a little guitar crunch for flavor.... Also new this week is Rhett Forrester, remember RIOT? Well, he was the original lead singer, and he's back with his first solo effort.... And a big congratulations to Drive for a great job well done on your significant upward jump on National Metal charts. This band is mean, lean & kickin' butt! Take them out for a spin, you'll wanna buy this baby. Have a supreme week everybody!!!!.... A special hello bud Sam Calle, my tag teaming partner in crime. Keep up the great work!!

Jay B. Ziskrout, Arista, 212-830-2307

"Reptile" continues to slither up both the radio and retail charts. As those of you who call record stores know, this up-tempo rocker with the great guitar riff is retailing greater than "Milky Way" in many markets. And dig this. The second leg of The Church's U.S. tour begins on August 11 in Phoenix. It's a great bill, with Tom Verlaine (acoustic Set) and Peter Murphy supporting.... Patti Smith's "Dream Of Life" album is just what the title implies. A remarkably insightful articulation of the process of living. Make sure you listen to this record in its entirety. "People Have The Power", "Up

There Down There", "Paths That Cross" and "Looking For You" are the airplay favorites. This album is selling big and fast. Note: A special Patti Smith interview CD is being prepared and will be on your desk soon.... Don't you just love the sound of "Rain"? We all do! Right now, this very minute, listen to "Rain" from Stealin Houses. This is the song that many of you told us was your favorite. Grab an umbrella, the Stealin Horses downpour is about to begin.... "Do It Till We Drop" from Witness continues to be a major request item at rock radio. So much so that 2nd and 3rd tracks are already being played ("You're Not My Lover" and "Am I Wrong"). If you haven't tried this one out yet, you're missing out on a hot summer reaction record. Play it!!!

Liz Brooks, Relativity/Creation, 718-740-5700

We have a record here, and when we're alone together we call it The House O' Love. And you say you haven't listened to this stellar LP yet? It is a top debut everywhere, and besides it boasts ten songs of rare power and strength. Some of the most adorable human beings around have added The House Of Love and no matter what your format, you will want to hear this record and will find yourself spinning it at home (to accomplish this you might have to call me).... Got that Weather Prophets LP? Try "Always The Light" and "Hollow Heart".... I won't bother with highlights of the NMS, no juicy stories, I'm afraid--count on Dyba for those. Ciao.

Janet Getchell, Megaforce, 201-254-6533

Overkill are gods! I finally got to see the guys at L' Amour last weekend and the show was incredible and the besides seeing a great show I also had nothing happen to my car at L' Amour. MOD opened the show and Billy and the boys were hot, ok so everybody was hot it must have been over 100 degrees in the place and I think I will blame it on MOD for warming up the place a little too much. When Overkill hit the stage it was too much. The audience went crazy and for good reason. If any of you out there want a phone interview with the band just give me a call and we'll set it all up. Don't forget to play this album. "Under The Influence" is one of the best produced albums of the year and the sounds are great so play it. Don't forget some of the other bands. No excuses the new Testament is God. I see that you are letting it slide. Don't give up too soon. My research shows that the audience still wants to hear more from this LP.... There is a new Ace Frehley single out and the people are showing renewed interest in this LP so feel free to dig up some more new tracks for your listeners.

John Bello, Hawker, 212-219-0077

We here at Hawker Records try to give everyone what they want. Some wanted a melodic sounding hardcore LP, showcasing many aspects of the old punk sound with a singer that can sing. So we offered up the Pagan Babies debut LP. Then many of you wanted a no-nonsense hard hitting starving pitbull let off its leash. (Good Times Magazine, June'88). We gave you that with the release of Token Entry's "Jaybird". How do we know that we're doing the job? Well, because the response has been very favorable. Token Entry is currently on tour and is in California playing many shows with Bold, Suicide, Underdog, and Youth of Today. If you want to check out Token Entry live, give me a call, they're one of the best live acts around. We just signed our third band, New York's Rest In Pieces. Rest In Pieces is currently in the studio. More info next issue. If any of you would like to interview the Pagan Babies, Token Entry and or Rest In Pieces, just give me a call. On second thought, give me call anyway. It's getting lonely here.... A special hello to the guys at Triple XXX Records, you guys rule and so does your product, Steve at Giant, Megadon and Scott Givens at Combat, and to all of my other friends I met at the New Music Seminar. Until next time!

"Run For Your Life" because metal's ultimate "Evil One" has come "Up From The Depths" to "Put The Hammer Down". She'll use "The Hand" to "Break The Spell" while she sets "Fire" to all the "Backstabber"(s). She has a "Bad Attitude" and if you mess around you'd be "Better Off Dead".... From a listener at KFIU radio. Thanks to Danny Shammon and all the other maniacs who participated in the "Postcards From The Asylum" contest. King Kobra CD's are on their way out to those of you who have earned them. How about adding another track??? There's plenty of killer tunes to chose from. Why not add "Walls Of Silence" or if you like it heavy how about "Redline" (killer drum line on this one) or "Meanstreet Machine". King Kobra 3 is packed with hits. Crank it up!!! Until next time pound the At War and Chyld and look out for "Biermacht" from Wehrmacht and the debut from Screamer and Gargoyle. Remember the is no postage in hell.

Cheryl "Okay, I lived" Valentine, Metal Blade, 212-645-6208

Yep! I'm still recuperating from NMS. I slept on Thursday and Saturday other than that I have been surviving off of car fumes, bus fumes and the like. This past weekend was spazzo 'cause I went to the Milwaukee Terror Fest where, you guessed it, Fates Warning played and I became a non-fan of a couple of top metal bands due to their rather selfish attitudes. Enough of that-My band rules and they're great as people to boot. We got a killer LP in today! It's Helstar's newest titled "A Distant Thunder" and it wails! You'll be in possession of Helstar and our brilliant new Candlemass 12" very, very soon!.... NMS highlights included Tom Callaghan, Bill Eikost, Joe DiBiase, Ray Alder, and Steve Zimmerman mooning Jim Matheos and Frank Aresti while they were engaged in a rather serious interview with one Miss Charity Kurz (who has mysteriously disappeared into the Midwest). My favorite panel was definitely Walter O'Brien's. He had Metal Blade's extremely visible President, Brian Slagel, by his side interjecting useful

comments. I actually attended a panel where I learned something that my job or previous ones had not taught me. That was refreshing! It wasn't the usual "you suck because you're pigeon-holed as this" kinda panel. I'd say it was on the up beat! Shall we say anything about the Mega One and a certain Ms. Kantor? Nah, everyone knows about that Dynamic Duo by now! The best shows that I saw all during that NMS week had to be (was there any doubt) Fates Warning Friday night at L'Amour and Fates Warning Wednesday night at the Cat Club. The band is tighter than ever now and should blow your jock straps clear up to your eyeballs! Damn! They're hot! More NMS news as I remember it.... I'd like to welcome a certain Clarissa Garcia back into the hotbed of promo land! You know that we missed you 'cause that Tom guy is really weird! Cool tidbit: Mark Osegueda from Death Angel is one of the coolest human beings who is very real. Thank God. Later, I'm boring myself.

Monte Conner, Roadracer, 212-219-0077

There's no stopping King Diamond! Consider the facts: After just two weeks on the Billboard charts, "Them" is currently at #90. The LP is also top ten on the Concrete retail chart. Radio-wise, King is #2 at the Hard Report (and was also #1 most added and most requested), #8 at FMQB and #5 at CMJ (where King got #1 Adventure Pick). King is also a top ten most played and most requested artist at Z-Rock and is a recent featured artist on MJL's syndicated Metal shop. The "Welcome Home" video is receiving great play at MTV and King will be hosting the Headbanger's Ball in early August. All this even before the U.S. tour starts. That tour, with Flotsam & Jetsam opening, Kicks off on August 12th and will keep King in the spotlight well into November. Major press articles are forthcoming in Hit Parader, Power Metal, Rip, Creem Metal, Faces, Rock Magazine, Metal Mania, Metal Rendezvous, Metal Forces, Powerline and Metal Hammer. Oh yeah, King, Mikkey, Andy, Hal and Pete have now relocated to sunny L.A. This means that King can now do more live dates in the U.S. and things will be much easier for us as far as promotion is concerned, since King will now be at our fingertips. Yes indeed, 1988 will be a breakthrough year for both King Diamond and Roadracer. Thanks to everyone for their enthusiasm and support. Cheers.

Megadon, Combat, 718-740-5700

Impellitteri has just returned from the Far East, so all of you who requested interviews should just sit tight and we'll get to you very soon. If you've burned out on "Since You've Been gone," try the instrumental "Somewhere Over The Rainbow" or my favorite cut "Tonight I Fly" and watch the phones light up.... On the heavier side of things, there's the Accused and Acid Reign, which many of you have been surprised to find there's a large demand for. And specking of bands beginning with "A", Pete Lundstrom from Agony would like to thank everyone who interviewed and drank with him during his stay in New York. He had several people at NMS convinced he was me. And speaking of NMS, let's look at some highlights: White Castles and beer at the Important suite, Destruction's first American show (at long last!), Death and DBC and their trashed hotel rooms, Chuck from Death's fear of New York bums, flipping off Dave Counter at every opportunity, walking around aimlessly in the blistering rain, visiting Monte's office, abusing Ron Laffitte, severely abusing Hank Bordowitz, auctioning off Bridget Roy to the highest bidder, boozing up with Chalcraft and Farmer from Metalworks (Virus' UK label) who claim they can outdrink me and Givens anyday (yeah, right), the schism/riot at the Aztec (still unsure as to what actually happened), Mark Osegueda of Death Angel attacking me at the Cat Club, and well, you know, this is rapidly becoming the greatest summer of my life. I hope it never ends.

Phil "Shot O' Love" Hardy, Megaforce, 201-254-6533

Did any of you other doggies see the "Miss Teen USA" thang last Monday? Oh my god!!! Miss New Jersey was totally unreal! Hey c'mon, she's 18 and I'm only 23 so at least it's legal! Anyway she was robbed of assured victory. I cry foul. Why does it seem that the best of the best seem to be overlooked so often. Kinda reminds me of the baby bands that don't have cleavage, and don't have rootpermed, bleached, teased, and streaked hair, or better yet a name from the past that has been dug up from the past to record just one more album. What they do have are the tunes to carry them off to heaven. Yeah, I'm talking about my boys from Texas, King's X. We all know it's a good tune, so why not do more than consider it. Not that I don't mind making three hundred calls a week to all of you fine people, but forgive...I'm impatient! Special thanks this week to Louise Bartolo of WEA Boston for taking care of my King's X dudes during their area show. X-tra special thanks to the dozen people who've gone with their gut, instead of the Back Page.

Michael J. Schnapp, S.P.V., 516-783-3040

Getting a cold in the summer really sucks, but at least I don't work in a Burger King. No sir. Just wait till you hear Hittman. No cold fries here, just wait till you hear it. Melodic, catchy, ballsy.... Next up and already on KNAC is Steeler. Ross informs me it's getting phone action. Coooooo! German hard street rock, as catchy as my cold. If you're a bit congested, try a dose of Assassin followed by a Mekong Delta chaser. Jeff at KFMX is getting phones on Mekong Delta! It'll rattle your little heads up and around. And lest we forget playing the Raymen and The Bollock Brothers "Harley David (son of a bitch)". I'm still spinning from hanging at the rotating "lime-twist" bar at the New Music Seminar. A lovely time was had by all at our Nude Beer Party. I gotta go sneeze now...achooooo.
