Tommy Conwell and the Young Rumlbers, "Rumble", Columbia....

131 stations after just two weeks and our second longest 42-19* Hard Hundred advance. That's firepower you'd respect from crusty chartwar veterans, let alone expect from even the most promising front-line recruit. **KLBJ's Don Gilmore** calls the single "One of my favorite adds in a long time. 'I'm Not Your Man' could be my song of the month the way things are going right now".... And from **WHJY's Chris Herrmann**, "Tommy is the best thing out of Philly since the Hooters and those awesome cheesesteaks. Good time rock and roll that's right at home here on 'HJY".... And while it's true that Tommy's regional strength is undeniable, you've also got to be impressed when stations as widespread as KLPX, KOZZ, KSJO, KSQY, KZOQ, WTKX and WWWV all show second week increases. But what will really kick this project into orbit is the album's amazing song selection--some of which we think you might even prefer to the leadoff number. For instance, "Half A Heart", "If We Never Meet Again" and "Love's On Fire". In addition, "Everything You Say Is True", "Gonna Break Down", and "I Wanna Make You Happy" are all first rate tracks. Platinum, no problem.

Colin James, "Voodoo Thing", Virgin....

One listen reveals a number of readily identifiable influences in Colin's style, but that can be said about any guitarist who's coming to you from a strong blues base. What counts is the feel, and there this Canadian child prodigy knows how to roll A, D and E into something unique. "Voodoo Thing" starts up with KEZO, KISW, KJJO, KNCN, KRZQ, KWHL, KXXR, WCCC, WTPA and 8 more--with a considering list 30+ deep. As **KEZO's Bruce McGregor** says, "The adult demos can't get enough of this blues based stuff, and it doesn't alienate those 18-24's. It has energy and there's simply too much flat music around here".... From **WRIK's Craig Bradley**, "Hey, Colin reminds me of some of the best new rock to come out this year. It's a damn good song that really rocks".... Finally, from **KATP's Ginger Mackenzie**, "I like Colin 'cause I love the blues. I think he's a great young guitarist and I expect a lot from him in the future."

NEW PLAY PRIORITIES**The Georgia Satellites, "Don't Pass Me By", Elektra....**

We'll definitely line up behind **KICT's Phil Thompson** and "This has to be one of the greatest rave up remakes of all time".... If you're on the fence, just check the adds: KGON, KICT, KMOD, KSJO, KZAP, WRDU, KFMQ and five more. It's already on the likes of KIL0, KISS, KLBJ, KLOL, KSHE, KRXQ, WBAB, WDHA, WFYV, WKLS, WLLZ, and WRXK--with 39 stations in all. One of the best short summer songs out there is also one of the week's strongest movers, 81-63*.

Steve Winwood, "Don't You Know What The Night Can Do", Virgin....

Even with all the multi-media exposure, that original 8 minute version of this song is just simply too long for industrial grade rotation. But who didn't know that? Thus, your friends at Virgin have thoughtfully not only cut it down to 4:30, but have delivered the new version in squeaky clean digital on that nifty CD single. And for you late night denizens of the airwaves, they've also included a 10:05 version if you get hung up on the request line. Put it to use. After all, the original version continues to crank out underlines, this week movin' up 50-46*. Meanwhile, "Holding On" turns in that rare 6-7* bullet based on points, with new air at KJOT, WDET, WNOR, and WXXP, and zillions (actually 22) increases. Now power at 33, heavy at 79.

Europe, "Out Of This World", Epic....

From where we sit, you've got to be totally oblivious to 18-24's and women right on up to 30 to wait on the single. As **KQWB's Ty Banks** sez, "'Superstitious' is already showing some early signs of becoming a major record. This is the type of rock song that can appeal to all demos and all ages".... **WRDU's Bob Walton** tells us, "We got calls for Europe two weeks before it was even released".... And from **WFBQ's Jim Pemberton**, "These guys were just through town with Def Leppard and put on a great show. Good follow up to the last album".... Checking those numbers: New on 31; Up at WYNF, WIMZ, WAQX, KZOQ, and KATP; already Top 5 at KBPI, KFMQ, KJOT, KSQY, WDVE, and WYNF. So--when you boil that down, here's a record that works. But if you feel the need to rock a little harder, try "Sign Of The Times" or "Ready Or Not". But whatever the cut, don't make the mistake of dealing with this group quicko pronto. They count.

Bad Company, "No Smoke Without A Fire", Atlantic....

There's no doubt that last year's Bad Company album had more good ideas than actual execution. And as per **Trapp's** talk with **Simon Kirke** this week, the choice of a first single really hamstrung the whole effort. To stay big, you've got to start that way--and the overabundance of keyboards and only average hook made it an uphill climb from day one. From a strictly personnel standpoint, you couldn't invent a better track record than that of **Simon and Mick**--and, after all, they're two of the original three instruments that put the band on the map. Of course, that's not to diminish the contribution of living legend **Paul Rodgers**--it's just to say that with the right song, the instrumental heart and soul of the supergroup that was can still be a serious market factor. "No Smoke" offers a chorus you could hook a sperm whale with--with all the singalong quality it takes to stay on the radio.

Record Of The Week:**Melissa Etheridge, "Bring Me Some Water", Island....**

This record has defied the odds, and in the face of the strongest female competition ever proved once again you can't beat honest emotion. It's also fascinating to note that after all the talk and all this time, **Melissa's** 16 station showing represents her best week to date. The increase count also points the way to top 10 play--with **KGON, KISS, KLBJ, KLPX, KOME, KRXQ, KZRR, WEGR, KATP** and 8 more showing play ups. **WEQX's Andi Turco** comments, "After weeks of Top 5 phones we move it to heavy. It never fails, each time we play 'Bring Me Some Water' listeners call for more information on how they can get the album. Also be aware of the solid request build, with **KICT, WBLM, WBRU, WBYP, WCKO, WRXK, WZBH, KATP, and KPEZ** and more factoring into an 11-9 Most Requested jump. 27-20* on the Hundred, with current play on 120 reporters. If records that generate instant listener empathy--especially from upper demos--make you feel great about your radio station, give this proven performer her well earned airtime.

Michael Anderson, "Until You Loved Me", A&M....

Michael's "Sound Alarm" distinguished itself with top 15 play, and even if the follow-up wasn't such a strong tune his track record would still rate a top slot on your consideration file. His voice is typically honest and urgent, and we feel those killer backing vocals and the undeniable harp riff might make this an even stronger rock radio item. You've taken this new talent half way home--so as Michael's primary influence **Robert Johnson** would say, don't get caught standing at the crossroads.

Robert Cray, "Don't Be Afraid Of The Dark", Mercury....

We thought the world was already in, but lo and behold, they're still rolling in. The title track racks up new play on 8 more, as 175 total and our third best 23 increases push it 10-9*. That number reflects 12 power reports, 50 more in heavy, and only 11 light mentions. The calls show equal growth, with **KISS, WWCK, WWWV, WEQX, WEGR, KRNA, KJOT, KFMH**, and half a dozen more listing Top 5 response. Plus, every time we try to talk up anything remotely blues based these days, programmers tell us **Cray** has that slot pretty well locked up. So, give the people more of what they want, as **Ray Davies** so wisely advised. To our ears, that's "Across The Line" and "Your Secret's Safe With Me."

THE SWORN TRUTH ABOUT

“CAUGHT IN A LIE”

“The Ya Ya album has been one of my personal favorites this year. Carey and I both believe that ‘Caught In A Lie’ will be a dynamic radio track that will jump out and grab our listeners by their Ya Yas! ”

Charlie Logan, WYNF

THE TRUTH IS . . .

YOU SHOULD BE PLAYING THIS!

Peter Cetera, "You Never Listen To Me", Full Moon/WB.... When Kenny Puvogel overnigheted the new Cetera cut to us we were expecting...well...another Chicagoesqsue ballad. Obviously his top 10 pop hit with Amy Grant put some serious bucks in the bank (not that he needed new shoes) and it was logical to expect this to be much of the same. But wait a minute. That's Gilmour on guitar. Nobody else quite sounds like that--although many have tried--and we're mightily impressed with the collaboration. Those abrupt. Floydian treated guitar runs are straight out of the "Wish You Were Here" soundbook and when combined with the Pino/Stanley Clarke bass lines Peter has the perfect spacy counterpart to his smooth tenor delivery. Segue this into "I Want To Know What Love Is" and tell us Peter's perfect for the format this time out.

Wild, "Hurricane", Columbia.... We're not sure if this is actually a new band or a veritable modern day supergroup with Richard Butler out front, Steve Stevens wailing away, and Myron Grombacher bashing the kit. I mean, this one's got it all. Some hear The Cult and Balaam, and some hear the Furs, but whatever the nuances, Wild is just what the name implies. Ace A&R guy John Mrvos calls them "The first band of the 90's", and from a strictly production standpoint we'd be hard pressed to argue. "Hurricane" is a supercharged macho romp from the git-go, guaranteed to get reaction from Alternative right on through to heavier pop proponents. You won't need a weatherman to chart the gale force phones this change of pace should generate.

Glenn Frey, "True Love", MCA.... Remember the good old days of AM radio and the backseat of your Chevy? Well, Glenn sure does. It's how they spend their weekends in Hollywood. This tune is screaming for a convertible and a moonlight cruise. Let's face it, the voice is basically an institution and when he raps it around a silk torpedo like this, what's not to like? The Big Guy's obviously been running with that tinseltown crowd lately--but he's one guy who can still up that slickness quotient to warp speed and still maintain all kinds of hipness. You might see it on Miami Vice, you won't hear it in a beer commercial. One listen.

Buckwheat Zydeco, "Why Does Love Got To Be So Sad", Island.... You know the tune, look up the number. Anyone who ever bought, programmed, or listened to "Layla" starts totally familiar with one of Eric Clapton's concert staples. You might not know how ultimately hip Buck's band is within musician circles and with the critical press--but you will. He's opening for Eric on his national tour, at the request of Mr. Clapton himself, and you probably already know that the master is playing those wicked leads. Speaking of which, you might also notice that the faster tempo here is more in line with those live Dominos recordings. And isn't it interesting how his leads always seem flashier when he's guesting on the other guy's session. This is no exception.

Hothouse Flowers, "Don't Go", London/Polygram.... "Hothouse Flowers are already a household name in Ireland" says WNEW's Lorraine Caruso, "And they should have no problem taking America by storm. 'Don't Go' is a catchy, original pop rock sounding hit".... It's so original, in fact, that it may take a few more weeks to totally permeate programmer consciousness here, but the early returns are promising plus. It's new on 24 (KEZO, KISS, KLOL, WBCN, WCCC, WHCN, WNEW) with a two week total of 42--including KYYS, KLBj, KMOD and WFYV. And while you might expect an ultra sophisticated area like NYC to respond, how's this from KSQY's Jeff Michaels, "Already Top 5 phones here in the Black Hills. I heard it on the first spin and will put my neck on the line and say the band is going to be huge." New at 80*.

IMPACT TRACKS

Little Feat, "Let It Roll", Warner Bros.... This is much more than just the comeback of the year. Da Feats have racked up the Triple Crown, Cy Young, MVP and Heisman Trophy and if I were Mike Tyson I wouldn't be too anxious to step in the ring with these boys. "Let It Roll" is the fifth Most Added with KATT, KBCO, KEZO, KISS, KSHE, WMMR, WRDU and 20 more jumping on this pup right away fueling the debut at 73* on the HH. WIXV's Richard Smith, "Little Feat's 'Let It Roll' is a solid follow-up headed for a steady run. This is not just lip service".... David Ross at KFMU, "'Let It Roll' seems to be the obvious choice and it certainly has it all. Don't miss out on a giant success story".... Not many are, David. The first track, "Hate To Lose Your Lovin'", is #1 on the Increase Index with KEZO, KLOS, WBCN, WZZO and 40 more upping rotation and 8 new players including KICT, WAAF, WPHD and WQFM. On 177 with Heavy or better at 99, moving up 9-5* on the HH. Request wise, "Hate" is #2 in the nation right behind you know who with Top 5 calls at WNEW, KGGO, KQRS, WEBN, WFYV and 38 more. If you still don't realize how big a deal this LP is, chew on these facts: "One Clear Moment" added at KATT, KBCO, KEZO, KSHE, WHCN, WLAV and 5 more. "Long Time Till I Get Over You" added at KATT, KEZO, KSHE, WFYV and 2 more. "Business As Usual" added at DC101 and 2 more. "Changin' Luck" added at KATT, WLAV and WPLR.... We can't remember an album being opened up so wide so soon.

Tracy Chapman, "Talkin' Bout A Revolution", Elektra.... It's great to see that AOR isn't treating this talented lady as a one-hit wonder because if there was ever a new talent with legs, this is the one. "Revolution" grabs 19 more adds this week including KEZO, KGB, KISW, WLLZ and WNOR. 104 reporters are revolutionizing the airwaves with heavy or higher penetration at KLBj, KAZY, KILO, KLOL, KISS, WBCN and 23 more. 36-26* on the HH and top 5 phone response at WRCN, KFMH, WIZN and WNEW where Lorraine Caruso points out, "The number one selling record this week according to our retail tracking is Tracy Chapman".... KTCZ's Jane Fredericksen is one of many moved by this artist "Tracy Chapman is the voice conscience, her painful, sincere honesty will chill you to the very marrow".... Charlie Logan, WYNF sums it all up "'Fast Car' just won't die here in Tampa, massive sales, #2 in the market. 'Revolution' is another short sweet number but more uptempo so it fits better than 'Fast Car'."

INXS, "Never Tear Us Apart", Atlantic.... So you thought it was safe to file the "Kick" LP away, well hold on there Quick Draw. This track could turn out to be their biggest across the board smash yet. INXS tears up 34 more adds including KATT, KLAQ, KLB, KMJX, KPOI, KRXQ, KTYD, WLUP, WLWQ and WNOR. That makes this beauty #3 most added and speaking of three's--how does third biggest move on the HH grab you? 55-35* is the move this week with increases on KZOQ, WHCN, WRXK, WZZO and 4 more with 78 on board. **WIOT's Jim Steel** is feeling the love, "INXS shows a nice stylistic change on 'Never Tear Us Apart'. Still has a bit of that funky groove but it's different enough where people aren't generally going to get as burned on the group."

Def Leppard, "Love Bites", Mercury.... This has obviously been a firecracker waiting for Mercury to light the fuse. The second Most Added track with new action on WNEW, KISW, KMOD, KOME, KRXQ, KZAP, WAQX, WEBN, WEZX, WIOT, WKDF, WLWQ and 34 more. The Avis syndrome doesn't carry over to the Hard Hundred as Def Lep nail down this weeks biggest move with an explosive 75-40* jump. **Chris Herrmann** at **WHJY** saw it coming, "Since the release of 'Hysteria', 'Love Bites' has run a close second to 'Pour Some Sugar' on our phones--with no spins! Our actives are finally happy on that score".... The Leps are strong on 72 with increases at KSJO, WIXV and 2 more while they are also getting Top 5 phones at KPOI, KSJO, WBLM and 6 others. The LP also shows new life with a 47-27* on the Album Chart. **Jimmy Christopher** at **KZEW** knows the score, "Def Leppard still gets huge requests. This album has a life of its own. It defies time and space."

Cheap Trick, "Don't Be Cruel", Epic.... Speaking of comebacks, and who isn't these days, the Tricksters ain't no slouch in that department. **KZEL's Al Scott** explains, "Cheap Trick has a roll going right now and this tribute to The King is a great example of why they are doing so well with the audience".... Adds at KISW, KLOS, KOMP, KSHE, WAAF, WDIZ, WPLR and 18 more make Rick and the boys our 6th most added. A 41-24* move on the HH is easy to see with increases at KZAP, KFMQ, WLWQ and 12 more with Top 5 phones logged at KBCO, KFMQ, WLWQ and 5 others. The LP is at a very healthy 19* on the Album Chart. Uh...thank you very much, you're all beautiful, pass the mashed potatoes will ya darlin'?

John Kilzer, "Green, Yellow and Red", Geffen.... The third biggest move on the Hundred belongs to Mr. Kilzer with a 86-64* speed shift through heavy traffic that has little old ladies everywhere getting in a huff. New adds are reported on KATT, KEZE, KOME and 14 more including **KSQY** where **Jeff Michaels** says, "Also using the John Kilzer follow up. One of the most colorful new artists of '88 gets another green light here".... More primary color coded action sees increases for the Professor on KGON, KMJX and 3 more. This track is already on 41 with top 5 requests at KGON and WEGR already.

Graham Parker, "Don't Let It Break You Down", RCA.... New to the Hard Hundred this week with a debut at 84* thanks to new air at WNEW, WMMR, KBCO, KLOL, KXR, KZAM and 10 more. This is the track many programmers felt to be the most radio ready from the "Mona Lisa" album in the first place and the new remix makes it work even better. **David Ross**, **KFMU** guru makes perfect sense with, "Graham Parker's 'Don't Let It Break You Down' fits in perfect here. His distinctive vocal style is right in tune with the rest of this solid song. It certainly should appeal to all audiences."

Joan Armatrading, "Living For You", A&M.... A respectable 18 OTB adds clock in for this veteran songsmith including KTCL, KVRE, KZOQ, WBLM, WHTG, WMDK and **KBCO** where **Doug Clifton** was tracked down for this remark "Joan Armatrading is an artist we've been playing ever since her earliest releases. She's been a consistent favorite with our audience. Her new album is one of her best in sometime".... With the new emphasis on female voices in the format you can count on this artist to get a serious once over from musically aware PD's. Look for that HH debut next week and much more of the same to follow.

Neil Young & the bluenotes, "Hey Hey", Reprise.... You know this one won't be helped along by mega video play, so why not prove how well radio can translate into sales success all by itself? Here's **KKAZ's Tony Montoya** with another question, "Neil Young gets on the playlist this week and with a line like, 'Get off your couch and turn off that MTV', how can it miss?".... All together 14 adds this week including KIL, KMOD, KZAP, WHCN and WRKI. Among the many looking forward to next weeks HH debut is **KFMU's David Ross**, "Neil's back again and sounding very hot. 'Hey Hey' combines great horns and upbeat tempo and lyrics that contain that MTV fightback for an overall smash. I'm looking towards big things from Neil on this one."

Blue Oyster Cult, "Astronomy", Columbia.... WMMR, KLB, KLPX, KSHE, WAAF and 9 more adds bring the original "Bad Boys" of power rock up to a 119 station base. **Rick MacKenzie**, **WAAF** is obviously ecstatic, "Finally Blue Oyster Cult has released a song worthy of putting their name on. Being a BOC fan from way back, I for one hope this sparks some interest with many of you too".... Up 29-23* on the HH with 8 increases including **WBCN** where **Carter Alan** says, "The Blue Oyster Cult is a bludgeoning rocker that has threatened to overcome Guns N' Roses in the top requests slot".... Top 5 phones at KGON, KQRS and 4 more with Heavy play at KIL, KISS, KNAC, KOME, KSJO, KZAP, WBCN and 8 more. We think this album will be around for a while and so does **KQWB's Ty Banks**, "And finally, personally exciting to me is the new BOC album 'Imaginos'--very strong!"

Rod Stewart, "The Wild Horse", Warner Bros.... Re-entering the HH at 70* is the track many of you were raving about right from the start. **KMOD**, **KRZQ**, **KTXQ**, **KZAP**, **WLAV** and 12 more hop aboard "The Wild Horse" for a mid tempo gallop that we feel will wind up leading going away in the homestretch. You have to admit "the ROOster" hasn't sounded this good in a long time, so what are you waiting for? Steady on **KISS**, **WDHA**, **WLZR**, **WOUR**, **WBAB**, **WZZO** and 5 more. "Forever Young" debuts at 74* on the HH for a neat double dip of Mr. Stewart with adds at 18 including **KGGO**, **KRZQ**, **KZLR** and **DC101**. The track du jour is already on 29 with Heavy play on **WAQX**, **WRIF**, **WWRX** and **KFMQ**.

Frozen Ghost, "Round and Round", Atlantic.... This sophomore effort comes roaring out of the box with 22 adds including **KKDJ**, **KRZQ**, **KSJO**, **WBYP**, **WDVE**, **WNEW** where **Lorraine Caruso** says, "The Frozen Ghost LP has a lot of substance, including the first single 'Round and Round', and **WEQX** where **Ernie James** expounds, "The new Frozen Ghost is definitely the standout of the bunch this week. We really expect big things from this one".... and **Andi Turco** chips in, "Another wonderful record is 'Round and Round' from Frozen Ghost. Their last record was one of my favorites of 1987 and I am confident that this one has the goods to finally bring them into the limelight".... These talented Canadians debut at 86* on the HH.

MORE HARD ACTS

Reckless Sleepers (featuring Jules Shear), "If We Never Meet Again", IRS.... It's enough to quote Jules Shear and people will instantly perk up and start taking notice of just how erudite you are. Let's face it, the man is a wordsmith with the ability to splice otherwise commonplace phrases into verbal slabs of art that make his peers come across like blacksmiths. "This is a perfect upper demo record", says **KBLE's Ron Sorenson**, "Jules' voice is smoother than ever".... 27 reporters are hearing the sweet logic of that claim with **KATT**, **KMJX**, **WDHA**, **WXXP** and **KBOY** joining this week. The Sleepers get a 91* debut on the HH and steady play on **KBCO**, **KRQU**, **WHTG**, **WFNX** and **CHEZ** underscore the song's undeniable value to the format. Wake up and smell the coffee.

Robben Ford, "Wild About You", Warner Bros.... This happy faced, gap toothed, grinner can certainly pick with the best of them and his polished Milleresque vocals are sure to get things in gear. KBCO, KEZO, KRZQ, KVRE, KGON and KZAP are among the 34 stations propelling that 74-66* growth curve for one of the most satisfying young blues busters on the circuit. "Robben Ford may be a summer sleeper in some places but here he is a roaring giant", according to **Curt Cartier** at KEZE and over at WHCN and KOZZ he is already getting Top Five phones.

Steve Forbert, "Running On Love", Geffen.... WKWQ's **Art Boerke** has been watching Steve for some time and his estimation is pretty on target, "This album represents a big turnaround for the man. It's great to have him back".... 53 other stations agree wholeheartedly and Steve is getting that Heavy treatment on WNEW, KVRE, WPHD and WWRX with new airplay from KZAP, WBCN, WRIK and WIMZ. The guy who took us all "Down To Laurel" is heading up the charts at a 63-59* clip that should start building speed down the line. **WMMR's Erin Riley** tells us, "I think it's as good as his first album, which I though was terrific".... Game, set and match.

Pete Bardens, "Gold", Cinema/Capitol.... Looking for that, "Upper demo appeal a la Alan Parsons? Try Pete Bardens and Gold".... And who better than **Karen Anderson Small** at WGIR to tell it like it is? How about folks like WEZX, KMOD, KLPX, WNEW, KZAP, KVRE and KRZQ for starters? Pete levitates 62-55* this week with adds on WRDU, KWHL, WFYV and KBOY. In the wake of so much 70's inspired progressive rock, the man who was there for much of it the first time around is certainly getting ready to claim his own. Slide this one into the mix and watch those 25+ tachometers start getting into the red.

Toni Childs, "Don't Walk Away", A&M.... This powerful vocalist has been waiting for her day in the sun and the shadows are finally starting to thin out thanks to the "never say die" efforts of the A&M field staff. KBCO, KMOD, KTYD, WBCN, WFBQ and KTYD are all seeing benefit in this electric performer and the 82-78* move this week is building momentum for the weeks to come. At **KBCO Doug Clifton** tells us, "Toni Childs continues to do well for us so we're moving onto the new single".... Count on a surge of newfound appreciation for this track to follow on the heels of exposure like that Heavy airplay at WBCN.

CHARTSTARS

Robert Plant, "Dance On My Own", Es Paranza/Atlantic.... Plant powers 22-17*, with strong activity in all key stats. It's up in rotation on 16, including KGB, KICT, KRXQ, KSHE, KZEW, WBCN, and WWRX. New's include KDKB, KOME, WKDF and WZYC--12 in all. KATT, KGB, KXRX, WAAF, WFYV, WHCN, WPLR, WRXK and four more now report power play, with 45 more in heavy. Not to mention all the action on those live B-sides.

Huey Lewis, "Walking With The Kid", Chrysalis.... Though we're confident the title track will soon pull ahead, "Walking" once again comes up thumbs up in the album track pack. It's new on KICT, KFMF, WBYR, WCKO, WFBQ, WKQZ, WLLZ and WRQK, with ongoing action at KATT, KFMG, KILO, KISS, KISW, KSHE, WFYV, WIOT, WLUP, WNEW, WWRX and more. Up 96-82*. Meanwhile, "Small World" airs at WEBN, WNOR, WQMF, WRXL, WKQQ, WAQX and KWHL--with previous adds at KATS, KATT, KGB, KSHE, KZLR, WCKO, WKRR, WLUP and more making for a 91* debut. There's also interest and adds for "Gimme The Keys" and "Old Antone's". As **KOME's Stephen Page** says, "The new album is a stellar collection of songs that will definitely broaden the AOR sound."

Paul Kelly & The Messengers, "Dumb Things", A&M.... He needed a solid week and got it--with adds from KLOS, KRXQ, KLAQ, KATT, WFNX, WKQZ and WPDH, where **Pam Brooks** tells us, "How could I not find room for a man who admits to 'Dumb Things' and makes the

Winger, "Madalaine", Atlantic.... Jammin' tunes like this come along very infrequently. Especially when you factor in the production quotient and an almost unheard of rap on the part of programmers who have found this just the track for the highwater mark of summer. "At last, a great kick ass rocker with just the right amount of production. This will juice up just about any limp playlist", says **WNPQ's Eric St. John**, "Just don't segue it with Tracy Chapman and I guarantee maximum headphone usage for you and your listeners".... 31 reporters are lining up for similar action including KGB, KLAQ, KZOQ, KATT and WYNF where **Charlie Logan** tells us, "'Madalaine' got good response at night with limited play so now it gets the official add".... Check that 94-83* hike up the Hundred and stay tuned.

UB40, "Breakfast In Bed", A&M.... Look who's back. And look who's fronting for them. **Chrissie Hynde** steps out on this little rhythmic mesmerizer that should do well in the post Ziggy atmosphere of the late 80's. KROQ, CHEZ, KBCO and WXRT are leading the pack of 29 reporters on this track putting this one on the map with a 94* debut. Some markets are exploring the album at length but this is obviously the starting point for any serious exploration.

Camper Van Beethoven, "Eye Of Fatima", Virgin.... It was great a few weeks ago when **KILO's Alan White** used his by now famous, "That dog is so ugly it's cute" line when talking about this band. No doubt about it, these guys are cut of different cloth than your average June-Moon-Spoon outfit, and boy are we glad for that. KTYD, WMMR, KGB, KLBK, KLOL, KOME and WLAV have an ear for the unusual and this band packages their unique vision in a musical form that even room temperature IQ's can get behind. The song seems stalled at 56 but put your hand on the radio and say, "I believe!"

The Escape Club, "Wild, Wild West", Atlantic.... This group has obviously tapped some hidden energy source that OPEC would definitely like to get their hands on. With that Hip Clip push on MTV and a gathering storm on radio the time has come for Atlantic to push this band onto centerstage with lights blazing and flowers flying. "It kicks you up with non-stop vitality", sez **Pam Brooks** at **WPDH** while over at **WEQX**, **Ernie James** cites the tune as, "A real staff favorite. They are really into this song".... 28 reporters are getting serious about this band and if you got a copy of their new video in the mail be sure to check it out. The Club gets over the wall to 91-89* week on the HH.

song so infectious that even the guys I play it for are snapping their fingers?".... From **WIXV's Richard Smith**, "Everybody seems to be loving that song the more they hear it".... And from **KSQY's Jeff Michaels**, "Good requests and it sounds great. Plus it was fish or cut bait time with this record, and we decided we simply had to move it up".... 43-39* on the Hundred, with heavy play at KBCO, KTCL, KTYD, WHTG, WPLR, and six more.

Poison, "Fallen Angel", Enigma/Capitol.... You have to admit, every time you turn on MTV these boys are on display. KTXQ, WEGR, KEZO, KMBY, WAOR and WAPL are just in, taking the current count to 61. KNAC, WCKO, KNCN, WIMZ, and WWZU report it heavy, with Top 5 phones in from KLOL, KNCN, WAVF, WLZR, WNPQ and WWZU. Other credible calls on the case include WYNF, WQFM, WHJY, WHCN, WEBN, WDIZ, KZAP, KWHL, KRXQ, KMOD, KISS, KICT, and KTYD. 52-49*.

Cinderella, "Gypsy Road", Mercury.... A hefty 19 to 23 station jump in Top 5 phones increase that National Request number 7-5, with KGON, KISS, KSJO, KWHL, WDVE, WHJY, WKLT, WLZR, WNEW, WPHD, WWZU and WRQK all on the list. KFMZ, WLAV and WRDU add, with **Bob Walton** telling us, "We didn't add the record, the #2 sales debut did".... KISW, KRQU, WBLM, WIXV, WLZR, WNPQ and WXRC increase, with KBPI, KSJO, KTXQ, WBAB, WDHA, WEZX, WFYV, WIMZ, WKLS, WLZR and WZZO among 22 now listing heavy play. Up 25-21*.

MAJOR MOVERS ARE BOXED AND BOLDED.
➤ INDICATES A CHART DEBUT.

The chart is getting ready for some serious shuffling in the weeks to come but for now the changes are all pretty tactical. **Pat Benatar** has exchanged positions with **Robert Palmer** and grabbed the brass ring as a result. Upward pressure by **Steve Winwood**, **Little Feat** and **Guns N' Roses** gets things hot in a hurry with some slipstream sonics from the **Fab T-Birds**, **Van Halen** and **Robert Cray** keeping the race interesting. Back in the teens, the growth is slower than usual

with a number of artists juggling for the inside track to Top Ten status. Look for the next week to really shake things out.

Tommy Conwell starts looking like a guy in a cape with his potent 44-20* leap motivated by new play on WLLZ, KLOS, WKDF, WICT, KEZO and WFBQ. PD's all over the country are reeling under the impact of this debut offering from Tommy. The raves aren't exclusive to the programming chair though with big phone action rolling in at KQDS, WEZX, WDHA and WAOR already. This could be the most exciting thing to emerge from Philly since bad baseball. Right behind and looking damn sharp themselves are those **Cheap Tricksters** with "Don't Be Cruel" moving 36-21* with rotational increases on KZAP, KWHL, WHCN and WKDF getting more stations into a Heavy relationship with this stylish tribute. The third power player this week is **Blue Oyster Cult**. "Astronomy" is racking up new believers at WMMR, WIOT, WAAF, KSHE and KLPX among other format leaders. The phones are starting to get plenty warm for this track and that 32-22* jump is encouraging to say the least.

Europe is back and the audience is hopping on the bandwagon with retail and request action starting to mount at KBPI, WYNF, KFMQ and WDVE. Artist retention is big with this band and the recognition factor a built in positive for anyone wanting to separate the men from the boys in the power rock field. Watch "Superstitious" increase that airplay base at KATT, KTYD, KLOL, KMOD, WZZO, KGB and WRXK, pushing that 38-24* rating even higher. **Tracy Chapman** is following up her initial success with "Talkin' Bout A Revolution" and even those previously hesitant about her worth on AOR are stumbling over each other to get her on the air. Adds on KEZO, KGB, WLLZ, WNOR, WYNF and KISW indicate another big win for the Elektra crowd with a 39-30* move on the Winners Chart that should be followed by more of the same shortly.

The big debuts this week include **INXS** with their love song in the mind of God. "Never Tear Us Apart" is one of the best examples of 80's passion-fodder on the circuit right now and WAAF, WNOR, The Loop, KRQR, KLAQ, KATT and KPOI know a steamy one when they hear it. A 32* debut on the chart sees Heavy or better action at KZAP, WZZO, WHCN and WRXK for these Aussie heart-throbs. The other leading debut this week has **Def Leppard** getting "Love Bites" on the chart a year after it first hit the scene. WEBN, WLAV, WFBQ, WHJY, KMOD and WNEW are all lining up for another shot from this highly prized album. As usual, the phones follow quickly with requests stacking up on KPOI, KNCN, WBLM and KFMX all helping to hike that 33* debut on the Winners Chart.

Ziggy Marley returns to the charmed winners circle with "Tumbling Down" charging up the playlists of CFNY, WDIZ, KBCO, WNEW and KLOL. The Zigster is shaking off any of that one-shot-wonder stigma that threatened to damper this outing in convincing style. His 41* showing is marked by Heavy rotations on WBCN, WRXK, CHOM and KBCO and a strong undercurrent of listener approval. The follow-up to **Poison's** strong first run is getting the nod at KEZO, KTXQ, KTYD, KICT, WEBN and KWHL. Their 45* debut looks like the real thing, especially in the face of what has to be a full frontal media assault helped along by what will be strong video pressure as well.

It's nice to see **Steve Forbert** back in the thick of things and this song is just the track to keep his loyalists happy while expanding that listener profile impressively. KATT, WYNF, WFBQ, KEZO, WNEW, WMMR and WZZO are all keeping time with "Running On Love" and helping Little Stevie to a 49* showing on the chart this week. Another satisfying entry on the Winners Chart sees **Camper Van Beethoven's** "Eye Of Fatima" show up at a 50* this week. KLPX and WRXK join the list of stations making use of this dynamic slice of modern music while KBCO, KEZO, WNEW, KLOL, WBCN and WLAV are among the platinum grade calls that have put Camper in the ear of the beholder. Give this track a trial run and stand back, the face of the future has Camper stamped all over it.

COWAN COMES ABOARD

The Hard Report is getting all fired up for the addition of **Dave Cowan** as our new Research Director. Dave has a love of music that combines with certain statistical skills that make him ideal for a job that will require a rare balance of hard facts and intuitive know-how. Dave comes to us from **WWVW/Charlottesville**, a station known for a music intensive approach that dovetails nicely with the Hard Report's policy of remaining on the leading edge of new music. His addition to the staff, along with the recent acquisition of **Mike Marrone** as Music Director, makes the team here at the Hard Report the best we have ever fielded. When **NOISE** called Dave about his move to the wilds of Jersey he told us, "The chance to keep active in AOR on a daily basis while learning an entirely different set of skills is unique in my experience. I am looking forward to joining a musically aggressive staff like the one at the Hard Report. Working with Bill, Jim, Dawn and Mike is bound to be an eye opener." You can say that again, bud. Look for Dave to hit the phones as early as August 15th, we know that you will find his input valuable. And don't be shy. If we can help any of our friends at radio with the numbers story behind the song, just give us a call. With Dave joining our ranks we hope to expand our service to radio even more completely by providing the kind of information that will help keep your station abreast of the latest musical moves.

LAMBERT GETS MORE LEVERAGE

Craig Lambert, A&M AOR wizard and high elevation hunk, has been moved up that old corporate ladder to the new post of National Album Field Director. Craig has been working with the label since 1986, most recently as Director/National AOR, and his string of wins with A&M make this move a natural. When **NOISE** spoke to Craig he told us, "I'll get more involved with the field staff. This won't affect my involvement with national radio but it will give me a chance to develop some of our younger local reps who may not have as much experience in AOR." When we congratulated Craig on what looks like one of the best squads in record promotion, he was equally enthusiastic, "You look at other labels and the way the structure their upper echelon and it becomes obvious that at A&M we work collectively as a team. We aren't really all that territorial about our job titles and the like and in that way I'm as happy to be in Appleton as New York." In another announcement, **Michael Mena** has been promoted to National Director/Alternative Promotion for the label. Mena had been working College previously and will now add those AOR's with a progressive playlist to his worklist. Mena had begun in the mailroom at A&M and has climbed the rope in real silver screen manner. "I'm very happy to make this appointment", said **J.B. Brenner** when contacted by **NOISE**, "Mena is the best in the college radio business and this promotion is a natural progression."

Michael Mena, new National Director/Alternative at A&M.

ELEKTRA WOMEN ADVANCE

In the continuing round of promotions at Elektra, **Cathy O'Brien** has been upped to Coordinator/Merchandising & Advertising. Cathy has been with the label since July of last year and her promotion is, "In recognition for the tremendous job she has done in the merchandising and advertising areas over the past year", according to **Marcia Edelstein**, Director/Creative Services.

Cathy O'Brien, newly promoted Coordinator/Merchandising & Advertising at Elektra.

NEW BRUCE LOCALE

Larry Bruce Communications has gotten out from under the infamous L.A. inversion layer a little with their move from Santa Monica. The new location is 2238 Bayview Heights Drive, Suite C, Los Osos, CA 93402. He has a new number as well. Give Larry a jingle at (805) 528-0888.

CHRYSALIS CHANGES

With **Jeff Laufer** getting the Westcoast Promotion job for **Chrysalis**, it looks like the label is getting ready to make some other adjustments in their field staff. First is the word that the label is looking for a Midwest AOR Director to flesh out their full frontal assault on rock radio. We also hear that the coveted San Francisco turf has recently opened up as well.

How nice! In appreciation of all his hard work, **Jethro Tull** sprung for a Gold record and presented it to AOR wiz **Kevin Sutter**. The band not only paid for the disc but stopped by to give it to a suitably pleased Kevin.

The **Tommy Conwell** showcase in Philadelphia saw a lot of radio talent winging in for a chance to hear what we locals have been hollering about for a long time.

Just think what a fragmentation grenade could do to the radio/record braintrust in this room. Not to mention the tip-sheets that would grind to a halt.

Columbia honcho **Paul Rappaport** exchanging a manly handshake with Westcoast guy **Ted Edwards** from KGB. Rapper then swore Ted in as the head of his Programming Posse on the Conwell project. Book 'em Danno.

RELATIVITY STAFF EXPANSION

As part of their continuing growth in the industry, **Relativity Records** is looking to add on personnel in some key areas. Interested individuals should send resumes to Jennifer Carr, 187-97 Henderson Avenue, Hollis, NY 11423. The positions being filled include an Alternative Rep in San Francisco, a New York based Product Manager, an L.A. Press person and a bi-coastal Marketing Pro. Get on this little rocket ship before the countdown hits zero.

HUMAN RIGHTS FOR RADIO

The well publicized "Human Rights Now" Worldwide Concert Tour, featuring Peter Gabriel, Bruce Springsteen, Sting and Tracy Chapman has been signed by Westwood One for exclusive radio rights. "We're delighted to be participating again in an event of this magnitude", said Norm Pattiz when contacted by NOISE. Look for major promotional pressure by co-sponsor Reebok International to support the program in your market. This should be a lock in every market in the country.

What sort of man reads the Hard Report? Media movers and shakers of course. Those suave, debonair, upscale Americans like your ol' buddy **Ernest P. Worrell**. (By the way, the "P" stands for Power Tools!) Ernest, AKA **Jim Varney**, is getting ready for his new Saturday morning series that will follow **Pee-Wee Herman** on CBS. He is also working on a new film with Disney entitled "Ernest Saves Christmas" to be seen this holiday season. KnowWhutIMean, Vern!

A NEW LOOK AT POLYDOR & MERCURY

The Fall line of vinyl design is being unleashed on the newly reorganized **Polydor** and **Mercury** team this week at their company convention. The beefed up corporate manifest is spending time with their new product and getting comfortable with the staffs that will be carrying the word to radio in the coming months. Now that the priorities of these new big-boy labels are more or less in place, it's time to start putting together some strategies for making a noise in the market. With guys like Brodey and Leach leading the way, it's gonna be fun just to watch.

BURNS MEDIA SEMINAR SWEEPS DALLAS

The **22nd Burns Radio Studies Seminar** brought a number of broadcast executives to Dallas for some refreshing dialog with **George Burns** regarding the fate of radio. New concepts for attracting and enhancing the audience base were roundly discussed as were means of solidifying advertiser relations in that all important fight for revenues on the street.

THE RADIO RUMBLE

CFNY/Toronto has eschewed the leading edge stance that made them the "Spirit Of Radio" for Toronto these many years for a much more mass appeal format. The once wide ranging playlist will see a 60% cut and count on rotations to jack up as well. Once upon a time the station was showcased as one of the remaining bastions of loosely structured programming that was successful in a market context. But evidently the numbers weren't big enough for the owners so a swing to the middle of the road was dictated as a result. First addition to the airstaff is a computer that will spoon feed the once unbridled CFNY airstaff their song selections.

WAAF/Worcester buried \$50,000 worth of good stuff in the sand for their "Beach Dig" and turned loose 107 lucky listeners, each with a little shovel in hand. The contestants dug around for the prize of their dreams under the broiling sun. Included in the prizelist was a sports car, tons of stereo equipment, concert trips and lots more.

WDHA/Dover hired Andy Dean as their new PD. Andy hails from WPLJ/New York where he was working as MD. He had been with the station since before their change to CHR and it was obvious that he would be moving back to rock radio at the first opportunity.

WRCN/Long Island has a stellar lineup of concerts for their listeners. Check out Hot Tuna, The Ramones, Buster Poindexter, Ranking Roger and B.A.D. for some hot times in potato-land.

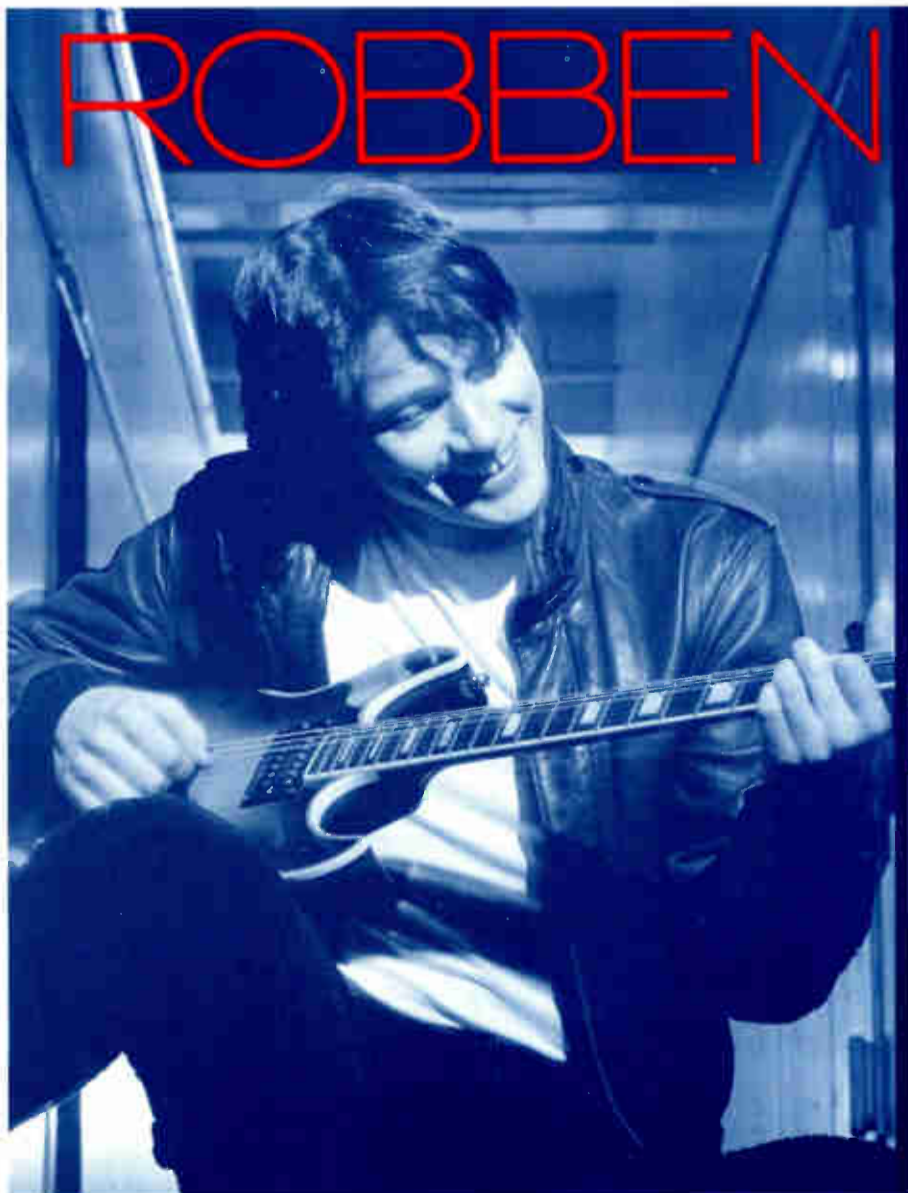

KBPI/Denver has a rare night opening for a hip rocker who has the stuff to join the leading AOR station in the mile high city. T&R to programming ASAP but no calls please. The slot had been held down by Lauri Richardson previously and she is now open to future opportunities. Give her a call at (303) 969-8022.

WLLZ/Detroit co-sponsored the Motor City Music Fest to hundreds of appreciative fans. As a matter of fact over 500,000 folks showed up for the fun and it looked something like this.

KFOG/San Francisco has sealed many of the changes made necessary by Sky Daniels departure for KISW/Seattle. M. Dung, (a nom de plume only a mother could love), will be nailing down the afternoon post, he moves from evenings and is a six year veteran of the station. At nights we will see Rick Anderson move in from his role as utility man. Rick has worked numerous majors and has been at the station for the last year. As for the much coveted MD job, Dave Logan tells us that he will be the man at the other end of the phone. Dave performed music duties for the first two years at KFOG and his touch is highly regarded.

WXRK/New York found their new Production Director in Boston. At WBCN to be exact. His name is Bill Kates and he formerly worked as Assistant Production Director at WBCN before this call to fame and fortune came his way.

August 5, 1988

Amazingly enough, **Debbie Gibson** shocked the world by giving it all up: the planes, the house in the South Hamptons, the free lunches, all of it. What could make one of America's hottest young talents turn her back on fame and fortune for an apartment in Modesto? Only KDJK morning guy and hunka burnin' love Beaver Brown could affect a girl like that. Here our roving eye catches Debbie looking pretty darn happy about that new job at Dairy Queen.

WNGZ/Elmira reports new music hours to go along with that new face at the MD window. Mike Verity is the man to get next to and you can reach him Tuesday through Thursday from 10-1pm with adds available on Monday at 11am. I am told that Charlie Foster's music system required dynamite blasting and lots of heavy equipment to get cleared out of his office. We are told that his recurrent filing technique was more intricate than a Masonic initiation rite.

WRIF/Detroit beat the Detroit Red Wings in a celebrity softball game that benefited a local relief organization. Here we see WRIFer Mark Addy stepping up to the plate.

WRQK/Canton is close to hiring their replacement for Ward Holmes. Look for a Northeast MD on the loose to land on his feet and take the station to that next level in the weeks to come.

KZAP/Sacramento named Jon Russell to the newly created APD job at the station. Jon had joined KZAP for some airwork in his favorite city only to find that he was destined to become the MD in doublequick time. With Pat Still's arrival Jon has now taken on those APD duties as well. That does not mean that he valet parks the Sales fleet of Volvos.

KSHE/St Louis spent some time with the guys in Little Feat recently for some informal fraternization foregoing their flawless fete. This was certainly a fantasy fulfilled for Feat friends who frequent KSHE. Whew!

KBOY/Medford gave five listeners the Lear Jet, backstage, champagne sloshing treatment of a lifetime for the Monsters Of Rock date in Seattle. Two thousand hopefuls jammed the contest for their shot at the five hotseats on that plane and the promotional buzz was huge.

WFNX/Boston made some changes in their lineup recently. Angela Strachan goes from weekends to overnights and new to the team are Diego Martinez and Spike Graves who join for special duty on the Weekends. Another development at the station sees Morning talent Tai becoming the on camera host of Channel 27's Shock Theater. All in all, the station is effectively spreading their base in the Boston community by leaps and bounds.

WHTQ/Orlando and MD Mike Lyons are agreeing to disagree. Mike will be leaving to work for Pete Bolger down at ZETA4 in Miami, giving Pete a chance to step down from his airshift and concentrate more of his energy on programming. Mike will be taking on the PM drive slot at the station once he settles in and it should be interesting to see how his arrival impacts that ongoing war with WSHE and WGTR. By the way, that leaves an MD position open in Orlando so get your best to Gerry Cagle for a shot.

KPOI/Honolulu recently gave away one of those prized OU812 license plates in a promotion that saw tremendous response. Here we have the winner with Promotion Director Susan Cochran and MD Andy Preston.

KZEW/Dallas MD Jimmy Christopher reports that he will be leaving the station as of September 1st and is open to any and all programming and talent opportunities. Interested parties can connect him at (214) 986-2698. The man's rock radio chops are finely honed by years on the front line and he could be the perfect addition to any station that wants to put themselves over the top.

KCMU/Seattle ups Maggie McCabe to MD as Faith Henschel heads for the wilds of Los Angeles. Faith is the new Alternative Marketing Director for CEMA and as such will be getting a solid taste of life at the other end of the phone. Meanwhile, back in the Great Northwest Maggie will be taking music calls Monday 11-5pm and Tuesday 11-1pm.

KRZQ/Reno MD Dick Sheetz is out. Word is that Dick went on vacation to the great state of Washington and has not been heard from since. The new guy in the MD chair is Max Volume and no other changes have been announced. Dick, where are you? Give us a call. Collect even.

WKWQ/Columbia former PD Ron Marsh has been let go after he returned from vacation. Ron had resigned his position as PD citing health reasons and split for a little down time with his wife. When he returned the corporate welcome mat was rolled up and Ron is now in the market for something completely different.

KROQ/Los Angeles has an altered air lineup to announce. The Poorman does mornings, Raymondo middays, Richard Blade early afternoons, Jed The Fish PM Drive, Dusty Street evenings, Freddy Snakeskin nights and Egil performs graveyard duties. New to the staff is Mike Halloran who hits the weekend squad with all his gears in motion. No word yet as to that vacant Promotion Director slot.

KWIC/Beaumont put their Production Director in the Programming chair after some recent changes at the station. PD David Perry is out and Paul Keel will hold down his position until a replacement is found. Interested candidates should get their best in the mail ASAP.

WLWQ/Columbus released their latest local music project, "Hometown Project #9", a collection of local bands released on cassette. MD Wendy Steele posed the question, "I wonder how many of you are still doing local music projects?" Good question Wendy. Make no mistake, in a town with any local scene whatsoever you can count on a ton of great rep for the minimal effort expended by a local music compilation. And a local music show on the air really puts your signal right where your mouth is. The combination can definitely be an assist in a tight market race.

WGLF/Tallahassee celebrated a phenomenal debut in the book with a Hand-A-Thon that gave away a new car to the contestant that left their hand on the vehicle for the longest period of time. It took 57 hours for the contest to work itself out and the station was there the whole time. Which is probably why Will Douglass sounded so sedate when he called with those King Kong numbers. The station is number 1 in all key demos and shot from an 8.8 to an 18.1 with their change in format. Congrats to Will and Jeff and the gang down south, we're glad to be along for the ride.

KSHE/St Louis hits the market with Classic CD Compilation done in tandem with MCA Records. The Two Volume set features music by Chuck Berry, Joe Walsh, Dave Mason, Steppenwolf, Steely Dan and Bo Diddley among others. The KSHE Rock Classics CDs are on sale at local outlets and serve as a great reinforcement of the station's posture.

WPHD/Buffalo is searching for a new PD following John Hagar's departure and don't be too surprised if John Piccillo over at WBYS is a leading candidate. John was the PD at WPHD in a previous life and he has been discussed as a likely replacement for the vanished Hagar. As for the speculation that Hagar left WPHD to reintroduce former AOR legend 97 Rock in the marketplace; our sources indicate that the chances are very good that such a scenario is about to be played out.

WHCN/Hartford named Bob Smith to the position of Associate Director/Creative Services at the station. Bob had worked nights at the station before heading for the bracing environment of the Rocky mountains and KFMU/Steamboat. His new post will deal with "programming enhancement" production, special programming creation, production of the PM drive show and assorted writing assignments. PD Bob Bittens told NOISE, "The addition of Bob to the fulltime staff of Connecticut's #1 Rock station is part of our continuing commitment to being the best."

KRXQ/Sacramento picked up the option on former KPOI Promotion Director Randy Scovill. Randy will be moving to the Scorch Valley, as it is known this summer, and gear up for that head to head fight with KZAP.

WTPA/Harrisburg wants a co-host for their well established morning show. You need talent and experience but leave that primadonna ego behind, thank you. Females are encouraged to apply. T&R should be sent to Jeff Kauffman at the station.

Carter Alan, WBCN

"Forget record company and trade hype. Look at the real world. Chances are you're seeing sales and requests. That's what we're seeing in Hartford and that's why 'Eye Of Fatima' moves to heavy rotation this week."

OUR BELOVED REVOLUTIONARY SWEETHEART

KISS/San Antonio has ended a few weeks of speculation about their signing with a consultancy. News this week has the Tejas rocker inking a contract with B.D. & A. for services rendered in their local rock war.

KSJO/San Jose morning mauler Perry Stone raised a few hackles with his campaign to giveaway a day at Candlestick Park to a lucky listener. Big deal, right? Well leave it to Perry to give the whole idea a serious left of center twist. To the chagrin of numerous upstanding society types, Perry tied the whole campaign into getting Charlie Manson out of jail for the day to join in the fun. Listeners were encouraged to send in letters detailing why they should be awarded a "Day With Manson" and, let me tell you, the letters I saw were chock full of the sort of rantings that make involuntarily sterilization look pretty damn good. The hilarious part of it is that some of the straight media took it all too too seriously and started chasing their collective tails to assure the community that they would be safe. That the specter of Charlie in a Giants cap wielding a baseball bat with a nail through the end wouldn't disturb the sleep of an innocent community. So much for the much vaunted sophistication of the Bay Area, eh?

WJXQ/Jackson former MD Bill Webster has put down roots in Pittsburgh and is beating the bushes for some airwork. You can reach Bill at (412) 793-4336 for some good conversation with a guy who might be just the ticket for your station.

KMBY/Monterey wants a morning man who enjoys personal appearances and is twisted enough to want to live in one of America's most beautiful spots. Tough tour of duty for the right person. Get your material to Rich Berlin yesterday.

WCZX/Poughkeepsie PD Lenny Bloch is out at the station after a brief tenure. There is no word as to the reason for Lenny's leaving or who his replacement will be but get that T&R to Gorman Media right now if you are interested in the opening.

KILO/Colorado Springs moves Brian Ihle into afternoons. Brian had been a fixture at KRQU/Laramie before making his move into KILO country.

WWCT/Peoria reports that their CHR competition, in a sterling example of just how hip that format is, has been identifying Tracy Chapman as a man. No kidding, those yahoos have been religiously back announcing, "The latest from his new CD, Tracy Chapman..." Gets kinda scary when you sit down and think about it.

KINK/Portland has given their GM Paul Clithero his VP stripes. Paul has only been with the station since 1987 and his work in the front office has been a significant contribution to their continued growth in the market.

KLPX/Tucson wants your T&R if you are a creative airtalent with good production moves and a hands-on ability to deal with computers. Get your package to Larry Miles ASAP for full consideration.

WDVE/Pittsburgh is on the lookout for some weekend airtalent in a rare opening. Get that T&R to Gene Romano and start checking out those Bucs Box Scores if you want to up your odds at getting the job.

The Return Of Bad Company The Simon Kirke Interview

Bad Company has been a staple of the rock radio scene for years. Their songs are essential to any well reasoned core and their terse, cleanly scripted songs took a gifted vocalist like Paul Rodgers and effectively catapulted him into the rarefied regions of Superstar status. Equally important to that success was the punch and sting of their "power trio with a difference" approach. When success had become a casually accepted fact of life, Rodgers turned away from performing and left his mates to face the \$64,000 Question. Was it time to call it a day or should they make that move that would settle the question, for themselves perhaps more than anyone else, were they indeed Bad Company with or without Paul Rodgers? The first album in that orbit was not particularly encouraging which is why the new release is so important to all concerned. Gone are the ballad heavy keyboards and in their place we have the borderline snarl of classic BadCo in abundance. When Simon Kirke dropped by the Hard Report with Deli sandwiches in hand and an afternoon to kill I eagerly dropped a tape deck in front of him for the following interview.

JT: When I listened to the new album I was impressed by difference between this effort and your last one. You seem to have rediscovered some of your old grit.

Simon: That is definitely true. We wanted to get away from the sound of the last album. "Fame & Fortune" probably had four real Bad Company cuts on it but much of it was just not what we had come to expect from the band. This record gets away from all those keyboards and is much more guitar oriented as a result.

JT: That big move away from keyboards works especially well given Mick's guitar work, which is really sharp this time out.

Simon: Yeah, on "One Night", "Bad Man", "Dirty Boy", "Love Attack" and the lead track, "No Smoke Without Fire", we have gotten back to what makes Bad Company unique as a band. That's the stuff that we very much want to be known for.

JT: The thing that that was an instant hook for me was the first drum beat on the album. It's so Bad Company it was almost a declaration that the band is back in form and ready to go.

Simon: Sort of like the first two beats of "Can't Get Enough". Yeah I know what you mean. I don't consciously do that, it's just that I start a bit ahead of the beat sometimes because I don't really like the old 1-2-3-4. It's just a habit I've gotten into.

JT: The people at Atlantic and even your management tell me that the real reason why you're doing all this; shlepping yourself around Jersey in a sweaty car and eating all this road food is to get the story out to people. And that is, why are you guys still using the name Bad Company? That wasn't really addressed on previous record and it's obviously an important issue.

Simon: I wanted to set the record straight because what happened last year was a lot of screw ups, basically from us and from the record company. I am not laying any blame on anyone really, I'm just citing reasons. But we had this album and Atlantic wanted to call it Bad Company and before we knew where we were it had been released and all. There was really no prior buildup at all for the release and all of a sudden "This Love", in my opinion the worst possible single, is on the radio. It really caught the record buying public by surprise. Not to mention us.

JT: That brings up an interesting question. Where ultimately does the responsibility for that stuff lay? Once you sign a contract is it the company that's responsible for taking care of your career? Who really has to take care of business? Is it you, your middle management or the label itself?

Simon: That's a good question. Ultimately the group is responsible for their own destiny. But there are so many

people involved it's sort of a domino principle in that if one thing goes wrong than everything else goes with it.

JT: So why are you sticking with the Bad Company persona?

Simon: Having been around for 12 years I really didn't want to start being Simon Kirke and the Sympathetics. I have put a lot of work into Bad Company, just as Mick had. We have earned this reputation as much as anyone else in the band and if we want to maintain that identity then we should be able to. The only valid question is how good is the music? That's the only criteria for judging what we do.

JT: So, if the labels make mistakes in handling bands and that extends to something as critical as single selection, how do you read that frustration? Shouldn't these guys at the labels be as good as it is possible to be? They certainly have enough experience, that can't be an excuse.

Simon: A lot of the guys making those choices are pretty much at the top of the tree. They are so involved with umpteen different bands that their power of decision is watered down as a result.

JT: I also get the feeling that, more and more, decisions are being made by guys who have stopped listening to music 10 years ago.

Simon: Now more than ever before this is a business and not something that 15 years ago was a bit idealistic. If you sold 200,000 albums then you could count on getting another shot. Now, you're out on the street.

JT: Chris Blackwell's idea at Island has been keyed to developing an artist over time. He really flies in the face of all that "You're selling or you're out" crap.

Simon: Island is probably the exception to the rule. They have maintained that idealistic stance. They have got zillions of artists and they bring them along a bit at a time. When you talk about Atlantic Records or CBS, any of the big conglomerates, it is just a fact of life these days that unless you sell well, you are out.

JT: Let's go over your verbal resume.

Simon: This year I celebrate my 20th year in the business, I was 18 when I started. I was born in London and raised in the States before coming back to London when I was 17. I joined a band called Maton's Magic Mixture, the lead guitarist was a guy called Terri Thomas. That was a Flower Power trio very much Cream oriented. I love Ginger Baker and Eric Clapton and all that stuff. That lasted about 6 months and then I met Paul Kosoff in a pub in London and they were looking for another drummer for their band. I auditioned the next day and got the job with a band called Black Cat Bones. It was a time

when Britain was going through an incredible Blues era but after a while we got fed up with the basic blues and formed Free in late '68. By '73 we closed the chapter on Free and went our separate ways. I went touring around the world for a few months because it had been a nerve racking time with Kosoff going downhill and Free breaking up. Then I met up with Paul Rodgers again and we connected with Mick Ralphs who was very disenchanted with his group, Mott The Hoople.

JT: That first Bad Company record and the work that followed it was a logical extension of everything that had gone before. Those were heady days and the music was more than a little welcome as a kind of refinement of what Free, in their raw energy and blues roots, was all about. How did it all come to a halt?

Simon: Basically, Paul decided he didn't want to tour anymore. He wanted a year off and that year stretched into 2 years. He had become very paranoid about going out on stage after John Lennon was shot and so we all just sat back and waited for him to get the itch to get back in front of a crowd. That lasted until the Firm toured and then we knew we had to do something. Now, trying to replace Paul Rodgers with another singer was very difficult and it took us the best part of a year auditioning. Then we came up with Brian Howe. Just because Paul didn't want to work didn't mean the death of Bad Company.

JT: How do you get up for climbing that mountain all over again? I mean, you have been on top of the world a couple of times; once with Free and once with the original Bad Company. Is it hard to get excited about doing it one more time?

Simon: The whole saving grace to that situation has to be in the music. If I didn't enjoy playing, I wouldn't be able to do it at all.

JT: So do you play a lot when you're not touring or recording? Do you just pick up some players and knock around?

Simon: I have a little studio inside a log cabin and I play with a guy who lives around the corner named Frankie Miller. I did an album with him and that was fun. I always try to keep my hand in, of course, but when it comes to my livelihood, that is earning enough to support my family, I take that pretty seriously. I have thought about it long and hard and I will soon be 36 and I don't want to start all over again and build up another reputation. If I was young and didn't have a wife and kids, maybe. But why should I let all that go just because Paul didn't feel like going out on the road?

JT: And its not like Paul was saying, "I want to be Bad Company?" It wasn't like the Pink Floyd fiasco then?

Simon: Well, actually we had to write things that were very unpleasant and go through the whole lawyer thing. That stuff is never easy on friendships.

JT: One of the interesting things about your career is that you're a respected drummer and songwriter. Did it come naturally to you to write for other people's voices? To structure tunes around instruments other than your own?

Simon: The sure answer is, no. When I first started playing drums I lived in a semi-detached house and I could only play for an hour a day without upsetting the neighbors. So I picked up a guitar once in awhile. Just because I can't play drums doesn't mean that I can't play music. I have been playing guitar just as long as I have been playing the drums actually and I was in the choir in school. I just like playing other instruments so I started playing piano when I was 20. After that I started writing and Paul Kosoff liked some of the stuff I did. I wrote "Bad Company" with Paul and I taught Kosoff the lead

in "All Right Now" and I used to transpose some of the leads from Hendrix for Koss because he couldn't be bothered to do it. That sort of stuff was great training. But it progressed from there. I am not a prolific writer but I do enjoy it.

JT: What are some of the songs that you have written that you are especially proud of. Songs that you will still be humming when you're 85?

Simon: On the "Straight Shooter" album it would have to be "Anna". I also like some of the material on the "Desolation Angels" album as well.

JT: I have always categorized you with Charlie Watts when it comes to drumming. Both of you have a real powerful style that is essentially linear. It really stands out but without overpowering the other players.

Simon: I went through a period where I thought I was playing far too simply. There were people who thought

that the more frills you added on the better you were. But what I found was that what works on stage doesn't necessarily work in the studio.

JT: Just out of curiosity, does the chemistry between a bass player and drummer really matter all that much. Is it hard to find someone who compliments you in the pits?

Simon: There is a great Muddy Waters quote that basically says that if you get along well with a guy and you like him that's 75% of it. Then you can actually play well together. Compatibility is the key. I've seen a lot of great players play poorly because they couldn't communicate with respect for each other.

Hunters & Collectors "Fate" (I.R.S.)

This is the year that Fate will change the course of this band's developing career, from what some perceived to be strictly alternative to the true nature of what their music is really about. Hunters & Collectors deliver earnest songs with muscle, and you can almost feel the strain put forth to achieve the visual intensity of their blue moody themes. The energy live energy has been captured to its fullest this time, from the force of horns in "Do You See What I See" to the passionate slide guitar in "Around The Flame", one of their most powerful ballads to date. If you have ever seen them perform live then this can only be icing on the cake. A moving and emotional anthem leads off with its beautifully crafted melody line that breathes life into "Breadline", and "Faraway Man" bubbles with a hard driving mid tempo bass line drenched with harmonica. "So Long Ago" floats on a pure sounding layer of brass and church-like organ with a rocked out and reverent chorus line that sticks like glue. H&C has entered a new era and the hand of "Fate" is definitely in their corner.

Joy Division "Substance" (Qwest)

Looking back to the late 70's punk movement one thing becomes clear: Joy Division is perhaps the most important musical link to that era. For all the desolation, danger and cynicism that defined their music, they were serious. The band represented the discovery and disappointment of youth culture, the harsh reality and dark beauty many of their fans want to relive over and over again. Many groups have since tried to imitate what Joy Division was about, but not even the surviving members in New Order will attempt that. Ian Curtis was the nucleus that gave them a chilling, wondrous aura. But Ian Curtis committed suicide. People still treat Joy Division as a living entity through their music, which is why the stunning "Substance" collection will still be timely ten years from now. A priceless compilation of rarities is at your finger tips: "She's Lost Control", "Atmosphere", "Warsaw", "Digital", "Love Will Tear Us Apart" and more. Every song is an unknown pleasure.

Picks Continued

The Screaming Tribesmen "Bones + Flowers" (Rykodisc) Ever since their "Date With A Vampyre" days I've been anxiously waiting for these guys to resurface. The wish has come true with a superior performance by one of Australia's best independent bands on their debut album. If you like a big dose of clean guitar edge and radiant pop rock at its best then pick on "Bones + Flowers". "I've Got A Feeling" is deservedly one of the best singles of the summer, with its vibrant electric guitar lines. Running a close second is the instant jangley effect in "Our Time At Last" (watta tune!), and the all white chorus of "Igloo" and "Don't Turn Away" combines all the crispy elements into one big chunk of goodrock. Slick production by guitarist Chris Masuak and Alan Thorne really does the trick and leaves nothing but tasty tunes in our midst. The Screaming Tribesmen have been playing since 1981 and their first full Lp and best record to date was well worth waiting for. It's also good to know that their fresh approach to formula pop won't leave you in the dust.

NEW RELEASES

The Paladins "Years Since Yesterday" (Alligator) The Paladins are Southern California's answer to Stevie Ray Vaughan and the Fabulous Thunderbirds. In fact, touring with those bands upon the release of their self titled album last year has made this trio a down home fave. They swing with dry western twang, a touch of rockabilly and mucho blues. The Paladins are part of a narrowing league of bands who still believe in roots rock, hollow guitars and the origins of American music that never knew the commercialism enjoyed by many contemporary students of the genre. The bar room rock mode suits them fine and as long as the Paladins stay true to their travelin' ways there will always be a story to tell. With good early reaction from college radio, these guys prove you don't always need a gimmick to get started at progressive radio. Check out "Years Since Yesterday", "Going Down To Big Mary's", "Your New Love" and "Don't Stay Out All Night".

My Dad Is Dead "Let's Skip The Details" (Homestead) A person named Mark Edwards from a town called Cleveland may not sound out of the ordinary. But once Mark's one man band goes to work you'll hear delightful sounds not too ordinary. An eerie dissonance accompanies his music, misplaced notes that he soon smacks bacãinto line. He fronts it with a lonely, mischievous voice that leads you into a world where he piles on a thick layer of attitude, anger and rock aggravation into a kindly clamor. "Baby's Got A

Problem", "The Escape Artist", "On Holy Ground" and "The Water's Edge" are a dissonant few to get you going. My Dad Is Dead is quickly becoming a college fave, and all the right slices are in place for "Details" to continue the trend.

The Red Hot Chili Peppers "The Abbey Road Ep" (EMI) The long awaited retail monster Ep (obviously for the fine sock crossing cover art) is finally here. We all know how unforgettable their [lack of] fashion campaign was during the "Uplift Mofa Party Plan", and maybe it will be the next craze behind plastic jeans. But the fact remains that the Chili Peppers are due for a tribute to some mighty fine mofa songs of their career. "Backwoods", "Hollywood (Africa)", "True Men Don't Kill Coyotes", "Catholic School Girls Rule" and a new unreleased version of Hendrix's "Fire". The loss of guitarist Hillel Slovak is tragic one. But the band will continue with a new member, Blackbird McKnight, who played in Parliament Funkadelic and has worked with George Clinton, Herbie Hancock and Bootsy Collins. The new line up will begin recording in September.

B.A.D. "Tighten Up, Vol. 88" (Columbia) By now there is little Big Audio Dynamite could do to change the course of massive reaction by their fans. Although many have linked "Tighten Up" to their first release "This Is...". Musically solid, the songs glow with character and charm, and the urban/island/Clash influence is a great send off. New adds at WXRT, WBNY, WCDB, WUOG, KFMH, KTAO, WOXY, KABL and WWVU combine with six increases to push it to Top 3 status in the first week. "Just Play Music" remains the #1 Alternative track and mentions for "Mr. Walker Said", "Rock Nonstop...", "Applecart" and "Esquerita"/"Champagne" leave them wide open at radio. Early airplay totals 44 Hard reporters and that's a temporary thang.... WFNX's Bruce McDonald says, "Just Play Music' is doing really well for us. We don't miss the sampling!".... KUPD's "Virgin Vinyl" host Jonathan claims, "This is the most loaded record I've heard in many weeks! This is Mick Jones closest link to the Clash since they broke up. It will be one of my Top Ten albums of the year".... WGTU's Dirk Devault hears, "Their best record to date".... Renee Blake, WKXL adds, "A real surprise and accessible sound".... Mike Thomas at WMDK says, "After seeing the audience respond I am convinced this will be a big record for them."

lifetime. But those words really come to life on "Big Boss Sounds", an album packed with meaning and the personal touch of the creator. "If We Never Meet Again" is already off and running on over 40 album and alternative stations, as Most Added status marks a continued trend of reaction to a solid project. "This Heart", "I Wake Up Loving You", "Tried To Please Her" and "Big Before It Bursts" reel in honorable mentions as airplay takes flight.... KJET's Damon Stewart says, "You will be surprised. This is a sleeper!".... Mike Thomas/WMDK says, "'If We Never Meet Again' is one great song on a tremendous effort from Jules Shear. It's great to hear him back on vinyl!".... Doug Clifton at KBCO says, "Jules Shear is in top form".... and KFMH's Phil Maicke asks, "Will Jules Shear become famous? Stay tuned."

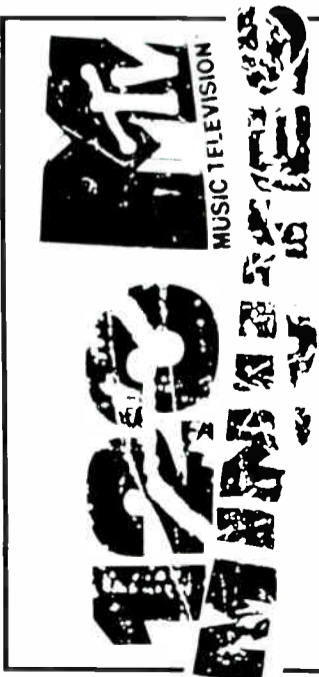

The Hothouse Flowers "People" (PolyGram) This is one debut act that is guaranteed to sink in at stations from A to Z. The Hothouse Flowers have no gimmicks, clicks, ticks or tricks. They just make wholesome, spiritual pop/rock music that echoes a roots influence with a fresh new twist. "Don't Go" is quickly becoming a force to be reckoned with and "I'm Sorry", "It'll Be Easier", "Love Don't Work", and "Hallelujah Jordan" are tops for album depth and 13 alternative adds factor in for the 24* debut (second highest). KSQY and WRAS already report Top 5 phones, with KRCK, WGTU and WXCJ made the move to heavy this week.... Bruce McDonald/WFNX mentions, "We're getting good early response to the Hothouse Flowers, a straight ahead approach but a sound that's new and fresh".... KJET's Damon Stewart says "We were hesitant at first because of the hype of the band, but it sounds really good on the air and that's what really counts."

The House Of Love (Creation/Relativity) This band has been the rave of the Creation label as soon as their debut album hit the street. There's enough smooth, sparkling guitar noise here to fill a canyon, but let's take it one step at a time. "Christine" looms over us with its angelic harmonies and buzzing wall of guitars. In a psychedelic haze the House Of Love pours the music forth and really, all you can do is listen and enjoy. "Road", "Love In A Car", "Happy" and "Sulphur" are four more reasons why you should paint the airwaves with the colorful sounds of a very promising group who fall somewhere between Echo and Mary Chain but who's counting.... WBNY's Gina Galli says "The House Of Love's is a very strong album, music that stands out from the rest".... KABL's Mark Miller adds, "This band has a Jesus And Mary Chain but better, with great pop sense. They use Trippy feedback and soft pop on a diverse album".... Jonathan Rosen says, "This band makes me feel like I did when I heard early Echo. Great appeal, and a record that if you like one song, you will immediately like the whole record!" Now at 17*.

MUSIC NEWS!

Michelle Shocked is about to roll in like a storm with her new studio album "Short Sharp Shocked", to be released on PolyGram Records. Originally from Texas, Michelle moved to England and was soon discovered as the gifted talent she is. She writes some of the most enchanting, country folk songs I have ever heard. And her keen sense of execution could make the Pledge Of Allegiance sound like a major musical. "Anchorage" is the first single out now.... Some bands get under your skin when you're not looking. **The Celibate Rifles** are one troop that can get you with just one shot, and their new "Dancing Barefoot" Ep from What Goes On Records is a valuable pressing for CBers and the like. Guess what the title track is. Right. Patti Smith's famous tune, reworked with power packed guitars and a thin wall of distortion. Nice. Then there's a fearsome pile of "Junk" on side two. Way neat. A live version of "Jesus On TV" is perfect for those who savored it the first time around and Harry Hausen is the new What Goes On rep to contact in your hour of need, 212-529-1606.... **The Full Fathom Five** "Paingiver" 12" is a good follow up to their "Cry Of A Falling Nation" album released last year. Fluid, hooky bass lines and fuzzy guitars all sizzling with purpose. Pack it in with a tight energy and a big beat and let it fly. "For President" is a blistering, timely satire. But it's never too late to make a point. Contact John Hudson at Link Records: 212-334-9556.... **All About Eve's** first single will be "Every Angel" from the forthcoming PolyGram Lp. Lush production, (That wouldn't be The Mission U.K.'s Wayne Hussey in the chair, would it?) and Julianne Regan's pure and uplifting voice are a hint of things to come. An atmospheric gem to own as quickly as possible. Ex Yardbird Paul Samwell-Smith produces a fine musical debut.... **Peter Murphy's** new "Blind Sublime" single has just been released, special mixes backed with two non-Lp tracks. The live acoustic version of "Funtime" and "I've Got A Miniature Secret Camera" are two more reasons why the "Love Hysteria" is far from over. Peter returns to tour the U.S. with Rolling Stone's coverboy's, The Church this month. Hold that chair!.... The Los Angeles based **Genius** label is being distributed by **Rough Trade**. Two new releases of merit are "The Perfect Prescription" from England's **Spacemen 3**, and "Every Day Starts Like This", from LA's **Clay Idols**. Spacemen 3 have been praised by many zines and underground rock columnists for their trippy sounds and orchestrated psychedelic approach. Listening to them gives you a black hole effect, comfort and carefree compositions and good production. If you wanna be sedated, check out the remote wonder of it all on their latest disk. Side two is best. The Clay Idols create a rainy guitars, storm like and stripped down with vocalist Steven Shayer's inspired vocals leading the way. His oneness with music makes perfect sense, and in a remote way, Smithereens fans could grow to love the sounds of the Idols. Genius Records is located at P.O. Box 481052, Los Angeles CA 90048.

Record Of The Week

Slayer, "South Of Heaven", Def Jam....

With consecutive moves of 32-15* and 15-4* in the last two weeks, it would seem justified to say that the only way to go was up. That however, would mean having to dislodge the mighty Queensryche. Well, it's been done. Slayer really hits the big-time with a leap from 4-1* (blowing the doors off of not only Queensryche but also The King). That and their second week as #1 Most Requested Metal also enabled us to bestow up them, the highly coveted, and much sought after Record Of The Week. Keep in mind that this award is reserved only for the elite and is not something to be taken altogether lightly. There are over 50 of our reporters playing the hell (no pun intended) out of this record including CHEZ, KBER, KFMH, KFMX, KGB, KJJO (Heavy), KPGA, KSLC, KSJS, KTEC, WUSB, WNYU, WPYX, KUNV, KZEL, WARC, WBCN, WBIM, WCKO, WCWP, WNHU, WGBW, WHDG, WHJY, WHMH, WHUS, WHVY, WJUL, and WWVU with WLFR, WEOS, WGIR, KCMU, WWUH, WOXY, WDWN, WREK, WRFL and Z-Rock all reporting the band at #1. Just remember these two things on your way to a healthier, happier life. First, Dave Lombardo rulz and second, the real track to consider is "Mandatory Suicide", possibly the best cut on the record. (J.L.)

Kix, "She Dropped Me The Bomb", Atlantic....

This Baltimore band has experienced a quiet kind of stardom due to their years of working the East Coast club circuits. Because of their high energy live shows and easy access, gritty rock and roll, they've managed to accumulate a rather large underground following and are poised for success. With their latest offering they may finally have the material and backing to make it happen. "She Dropped Me The Bomb" is not a new tune and no doubt, most loyal Kix fans will already be familiar with this live set-opener, but for those who aren't it's an obvious choice to enter into the new Lp "Blow My Fuse". It's one of those songs that just clicks in and has a real "get in your car and cruise" feel to it. The cut has consistency, and luckily for a song that basically follows a simple verse/chorus formula, it isn't over-produced. Tom Werman (Poison, The Nuge, Crue & Twisted Sister) obviously has the touch when it comes to keeping a band's sound raw and natural. No beeps and blips here bud, the song is just a straight ahead rocker with some really edgy and raspy vocals by Steve Whiteman. The rest of the band, Ronnie Younkens (guitar), Brian Forsyte (guitar), Donnie Purnell (bass) and Jimmy Chalfant (drums) are quite adept at delivering no-frills,

high-octane rock and roll. In just their first week of airplay Kix has inspired that "Man of a 1,000 quotes" Mr. Mike Jones to comment that, "There was great joy amongst the harder rocking members of the airstaff here this week as we welcomed the raging new Kix single onto the airwaves. "She Dropped Me The Bomb" is a rocker, with Steve Whiteman's trademark yowling....Even the mighty Guns N'Roses look up to Kix. People will eat this one up so play it now!!" Apparently a lot of you did just that as Kix nails #2 Most Added Metal this week. (C.B.)

Frehley's Comet, "It's Over Now", Megaforce/Atlantic.... This is perhaps one of the best tracks on this album, second only to "Fallen Angel". The 12" that just went out is the remix of this great Tod Howarth ballad and if you consider any records for play this week, make sure this is one of them. It features brilliant vocals from Tod and Space Ace lends, as always, excellent guitar support with carefully placed licks and fills. His leads are well designed and don't step too heavily on the vocals or rhythm section. Lyrically, it is probably THE best on the Lp, and the phrasing is exceptional. The Comet has had very good response with this record, due in large part to their ongoing support of major acts like Iron Maiden and the first cut "Insane" did quite well on both the AOR and Metal sides of the proverbial fence. With the rumors circulating about Kiss reunions and all that jazz, Ace is as hot a property as you can get right now, so don't pass the opportunity by to get your hands on a good thing. (C.B. & J.L.)

Kreator, "Out Of The Dark, Into The Light", Noise Intl.... It seems like just a few weeks ago that "Terrible Certainty" hit the desks of thrashers across America, and already here's another slab of dangerous and nasty vinyl (not to mention the cover art) for your moshing madness. "Out Of The Dark..." isn't a record to be taken lightly, in fact nothing about these guys should be taken lightly. When it comes to death metal, hard and fast, Ventor, Mille, Rob and Tritz deliver with the attack of a jackhammer on concrete. This five song Ep features one new track called "Impossible To Cure", a cover of Raven's "Lambs To The Slaughter" and three live tracks - all recorded in Germany. The new track is solid and will no doubt conjure up mass quantities of interest in a forthcoming album release. The cover is alright, but the real thrill for you Kreator fans will most likely come from the three live tracks. Surprisingly enough the production on them is killer and the band handles the live situation like a walk in the park. No problem. They sound tight and thrashy, so head-bashers be on alert. This Ep will no doubt be just the hit you need to hold you over 'till the new stuff hits these shores. (C.B.)

V. Vincent Invasion, "That Time Of Year"/"Love Kills", Chrysalis.... By now I'm sure you've all heard the story about my not being able to get into the Chestnut Cabaret to see these guys perform. Needless to say I was quite annoyed. However, seeing the video for "That Time Of Year" only seemed to anger me all the more because it's just so damn good! This is probably one of the best tracks on the record as far as having the hooks for major AOR airplay action. The chorus is a real killer. "That Time" is the current emphasis track so if you're not on that one already, you would be wise to do so. Another great cut is "Love Kills" which will be featured as the lead song from the movie soundtrack, "Nightmare On Elm Street, Part Four: The Dream Master". The 12" for "Love Kills" will ship on 8/8, the soundtrack will ship on 8/15 and the movie will open on 8/19. The film will also feature cuts from Vigil, Blondie and the Sea Hags. This is more of a ballad-oriented type of song which also has an extremely catchy hook as well as that memorable chorus. If these two tracks aren't enough to hold you over, there's always more stuff to be found on the record. Try "Dirty Rhythm". (J.L.)

Attacker, "The Second Coming", Celluloid/Mercenary.... There must be something about the water in Hoboken, N.J. cause a lot of hot bands are coming out of that area (Winger, EZO), but then again a lot of great acts are coming out of the Garden State period. The latest to hit the scene is a band formed in 1983 by Mike Sabatini (drums), Pat Marinelli (guitar) and their former vocalist Bob Mitchell who has since been replaced by John Leone. They also recruited former Hades bassist Lou Ciarlo and following

the release of "Battle At Helm's Deep" they also hooked up with guitarist Tom D'Amico. Line-up complete the boys headed for the studios with Alex Perialis (Raven) in tow. "The Second Coming" is a study in gut-level hardcore with pretty good production, and overall, a rather down and dirty sound that is already attracting some solid attention from our metal reporters. KSJS, WEOS, WJUL, WOXY and WRFL are leading the attack with more sure to follow. (C.B.)

Rage, "Perfect Man", Noise Intl.... This is, in my opinion, one of the very best bands ever signed by Noise. They show an unbelievable amount of potential as a heavy, progressive band. Even though this is their third Lp, I must admit that this is the first I've heard and I'm rather impressed with it. Since their last one in '87 both the drummer and the guitarist have been replaced with real men of the new and improved variety. The vocals of Peavey, (dat's right, more Germans with no last names), who also plays bass, reminds me a little bit of Sanctuary vocalist Warrel Dane's higher end. The rest of the band, Chris (drums) and Manni (guitar) supply all of the usual power chord laden songs but with a surprisingly melodic twist. This melodic content is most prevalent in songs like "Wasteland", "Death In The Afternoon" and "Perfect Man". The sound is so full that you'd never guess without reading the bio that they are only a three-piece. They're almost as good as Seduce in that respect. Aside from that they seem to be pretty original, no suspicious stolen riffs or anything like that. At any rate, you should definitely listen to these guys and to the kutz, "Don't Fear The Winter" and "Round Trip". (J.L.)

Intrinsic, "Intrinsic", Important/No Wimp.... I like this band for a few of reasons. First, they're on a label which is obviously not afraid to show just what they're made of. Second, the music is extremely cool, and lastly, they, (along with Metallica, Voivod and others) are one of the few speed-metal bands to actually possess some form of intelligence. After all, three of the band members sport degrees from major American universities. This is a musically and lyrically strong band with a long career ahead of them. Guitarists Mike Mellinger and Ron Crawford weave their intricate melodies around the stable rhythm section of bassist Joel Stern and drummer Chris Binns to create an excellent pedestal for the vocals of Garret Graupner. While Graupner's vocals are a bit sub-par, fear not! He has since left the band and been replaced by ex-Metal Church vocalist David Wayne. Voices from inside the Intrinsic camp tell us that this improvement has the band poised for stardom outside of the California metal scene, in which they have so firmly entrenched themselves by taking opening slots for such acts as Megadeth, Armored Saint, Lizzy Borden and Racer X. Look for big things from these guys in the future, but in the meantime check out "Possessor", "Wasted Life" and "Ahead Of The Game". (J.L.)

Hittman, "Will You Be There?", SPV/Steamhammer.... Schnapp-man is in his glory now that so many of you have expressed your undying love for this band by making them #1 Most Added Metal this week. I for one am heavily psyched about this turn of events, because this song shreds the competition into ribbons. And to think that it just hints at what's to come from these guys. Hittman play with such energy and style that it would be hard to deny them even a moment's airtime. Even as hard rockin' as this band is, the lead track is melodic and atmospheric enough that it could be a real crossover, "Rock Monster of the Week". In other words those AOR types should definitely give it a listen. As 'GIR's Mike Jones says, "It has quality". Some sleepy acoustic picking intros the song and Dirk Kennedy's vocals just kind of ease along on top, all the while the tempo is building, the drums kick in and there it is: A strong and memorable chorus, some tasteful guitar leads and a steady bottom section. Tailor-made for any album rocker that has the guts to play the music that the masses want. And if that isn't enough to convince you to play this record, maybe this will: The Schnapp informs me that "Kerrang!" has given Hittman a rating of four Ks, and did a rave-up review of the single. "Metal Forces" rated them 85 out of a possible 100 and "Circus" is high on them as well. Those who answered the musical question "Will You Be There?" include: KJJO (Day/Light), Z-ROCK, WAIF, WCDB, WGIR, WJUL, WKNC, WNHU, WVVS just to name a few. Shouldn't you be there too? Look for the album to be released around August 31st, but let me just warn you in advance, it's a killer record. You'll be hit hard, guaranteed. (C.B.)

METAL FILINGS

-The Hard Report has learned of a great musical event that took place following the Judas Priest show at New Jersey's Meadowlands Arena. Apparently members of Priest, Billy Squier, Cheap Trick, Deep Purple and tennis great Vitas Gerulaitis got together and did some serious jamming at a local club. They did covers of some Deep Purple greats like "Smoke On The Water". One of the highlights occurred when Squier, Robin Zander and Ian Gillen did their version of the Led Zep classic, "Communication Breakdown". According to our source, a great time was had by all concerned, way into the wee hours of the morning.

-During the recent Monsters Of Rock show at the L.A. Coliseum a local, unsigned band called Brunette nearly

upstaged Van Halen. The band hired a private plane to display such messages as "Brunette rocks" and "Brunette Attacks In August" in lights above the arena. The plane began it's display by flying through the fireworks display before Michael Anthony's bass solo and continued to fly around for a full half hour.

-Witness recently recorded and released their first video for the single, "Do It Till We Drop". The video was shot in Atlanta's Fulton County Stadium before a crowd of 30,000 people. It recently survived it's first viewing on MTV's "Smash Or Trash" with a hearty thumbs-up.

Shown here after Frehley's Comet's recent appearance at the

Brendan Byrne Arena in beautiful New Jersey in support of Iron Maiden is the Space Ace himself along with Atlantic Chairman Ahmet M. Ertegun. After reading Ace's shirt, you should be able to figure out what happens next.

METAL MUSIC NEWS

Greetings to one and all from Metal Control Center deep in the heart of Queens, New York. This is Sal "Earl Of Earache" Treppiedi with metal news from around the world. This week, we will have the final part of our conversation with King Diamond. We'll also have words with father-to-be Eric Brittingham of Cinderella about their current tour with Judas Priest. Right. Now, let's get to some news.

It seems that there is a buzz coming from Minnesota that has nothing to do with Prince. In fact, it has nothing to do with Husker Du either. The band is called **Powermad**. Remember this name. It is destined to be a household word by this time next year. Powermad recently signed a deal with **Warner Brothers Records**. **Ted Templeman**, the man who had a hand in molding early Van Halen, apparently had a hand in signing these guys. Many of you may recall that Powermad was signed to Mercenary Records towards the beginning of 1988. According to **Joel Dubay**, lead vocalist/guitarist, the band had some problems with the label and proceeded to "get out of their contract". Upon doing so, the band immediately inked their deal with Warner Bros.. Their forthcoming Lp is tentatively titled "**Absolute Power**". That was the same title that the Mercenary release would have gone under. Dubay says that the band intends to use most of the material from that Lp and that they will remix, and possibly re-record some of that material. Powermad will record at Paisley Park, their only connection to Prince. Plans at this moment are for Warner to release a three song mini-Lp. But that, says Dubay, is still up in the air. Either way, keep your eye out for this foursome which features **Dubay**, **Adrian Liberty** on drums, **Jeff Litke** on bass and **Todd Hauge** on guitar.

Speaking of things that need to be checked out, I recently received a copy of the new **Kix** single "**She Dropped Me The Bomb**" on **Atlantic Records**. The Earl predicts that this will be the album that finally brings **Kix** the recognition that they have deserved for the longest time. This comes only after having listened to one single. There is no denying that **Kix** have one of the most exciting stage shows in rock and roll. Couple that with a great new album, their fourth, and you have a "finally-can't-miss-formula". The album is called "**Blow My Fuse**". Watch for it!

One of L.A.'s top bands has finally hit the big time. **Jetboy** have signed a deal with **MCA Records**. After months of speculation surrounding a possible deal with Elektra, **Jetboy** came to terms with MCA. Their debut album is entitled "**Feel The Shake**". It is due to hit the streets on September 19th. The single and video, "**Feel The Shake**" will be released on September 12th. The album was produced by **Tom Allom** who has worked with artists from **Black Sabbath** to **Judas Priest**. **Ric Browde** and **Brian Foracker** co-produced an additional track entitled "**Make Some Noise**". **Browde** has worked with **Poison**, **Faster Pussycat** and **Victory**. **Foracker** has engineered and mixed the latest efforts from **Whitesnake** and **Heart**.

The Earl recently had a conversation with **Eric Brittingham** of **Cinderella** regarding the band's current tour plans. "We'll be touring with **Priest** up until October 23rd," says Eric. "From there we will be going over to Europe to support a deal which I can't say because it has not been confirmed yet. It should be a really big European tour. We'll tour there until mid-December and take off until January 15th. We'll then rehearse a headlining set and go over to Japan. We'll return in March to begin a headlining tour here in the States. Of course, that is in a perfect world. We hope everything is going well." Eric also mentioned that their album has now been out for three weeks and that it went platinum two weeks ago this Friday. Finally, I asked Eric about his impending entry into fatherhood. "It's my first. It's due in about a month. I'm real excited about it. We're trying to get someone to fill in for me so that I can be there. **Jimmy**

Bain (**Dio**) was supposed to do it but there is now some question as to whether or not he can. I want to get someone to do it".

According to an unconfirmed rumor, **Deep Purple** is canceling tour plans for the U.S.. No reason has been given for the abrupt cutting of the tour. **Deep Purple** will be doing less than five dates in America. One of these dates will be on August 16th at Giants Stadium in the Meadowlands with **Aerosmith** headlining and **Guns N'Roses** bringing up the rear. More details as we receive them.

Let's get to our interview. This week we will have the final part of our interview with **King Diamond**. In part four, King discusses his reaction to the MCA distribution deal and how it will affect **King Diamond**. He also talks about the possibility of going into the movies. Right now, let's get to our interview.

KING DIAMOND: PART IV

HR: Your reaction to Roadracer signing a distribution deal with MCA Records. How do you think it will effect **King Diamond**?

KD: MCA is very good for us because now the album will be available everywhere. I got so many letters from America and all over the world from people who could not find the record. It just wasn't out in certain places. Quite a few people wrote. Now that it is getting out we feel safe and secure because we now know that everyone that wants the album can get it. In that respect, we feel very good about MCA. While we are talking about MCA, they are the owners of Universal Studios. I have always wanted to make a movie out of "Abigail". It's even more obvious with the new story. SO we will definitely try to approach MCA's movie department and see what they say about trying to make a movie out of "Them". I think it could be one hell of a horror movie. It has all the right ingredients. I hope it can work out. Having a movie based on the lyrics of an album would be something special.

HR: Would you like to write scripts for horror films someday?

KD: You never know.

That will take care of our interview with **King Diamond**. I would like to thank **King Diamond**, **Monte "Chihuahua" Conner**, **Lydia Sherwood**, the U.S. mail and **TDK** cassettes. Beginning next week we will begin a four part interview with **SPV** recording artists **Destruction**. **Schmier** was recently in town for the **New Music Seminar** and several gigs in the **New York** area. We caught up with him there and were able to get this interview. Next week, we will bring you the first of four parts with **Destruction**. Read about what this German band is all about and what the future holds for this band.

That's all for this week. Until next week, this is Sal "Earl Of Earache" Treppiedi reminding you that working in a crypt is better than working with Mr. Death when he has his shoes off. MUVA!!!

Chas Chandler, an early manager of **Jimi Hendrix**, has found 15 unreleased tracks recorded by Hendrix during the sessions for his first two albums. "They weren't rejected because they weren't good enough, they just didn't fit the mood Jimi was looking for on the 'Are You Experienced' and 'Axis: Bold As Love' albums," Chandler says. The recordings were found in three boxes of tapes that had been in storage for the past 18 years. The boxes included many of the original multi-track recordings of his early tunes before overdubs. "I'm still sorting the stuff out, so I'm not exactly sure what's there," Chandler says. "But there's 15 or 16 songs that never got released. There's loads of demos jamming around with ideas. And I haven't even started looking at the alternate versions yet." Chandler managed Hendrix through the time when he was recording "Electric Ladyland" in 1969.

There has been criticism of **Ziggy Marley's** decision to perform at a music festival in the Negev desert of southern Israel, only a few miles from the Gaza strip. The Organization of African Unity has effectively boycotted Israel, and a day of solidarity with South Africa was announced in the occupied territories just a few days before Marley arrived. "When I first heard about this trip, I said I would not come because Israel supports South Africa, and there is a way going on between the Palestinians and the Israelis," Marley says. But he says he was assured by promoters that there was nothing improper about the visit. "It is a funny situation, because I can still play in America without problem, and America supports South Africa," Marley says. "I could still play England, and it supports South Africa. I could not really see the difference." Rita Marley was invited to be the honorary president of the festival.

Rolo McGinty of the Woodentops will be moving to Japan temporarily to work on a Japanese film soundtrack and to check out music technology in the country. He might also be involved in some oriental acting. "It has been mentioned, and it certainly seems preferable to a bit part in 'Miami Vice,'" McGinty says. The Woodentops are just wrapping up a six-month world tour.

Bonnie Raitt, **Stevie Nicks** and **Mick Fleetwood** appear on **B.B. King's** next album, "King Of The Blues 1988," which will be out in August.

Public Enemy will record a song for "Do The Right Thing," director Spike Lee's new film. Lee says Public Enemy are "the most conscientious band around. They're saying something which isn't I'm a better rapper than you, have a bigger car, chain, etc. It's positive now that's why Public Enemy are kicking ass."

June Tabor has released her first solo album in five years. One of the songs on her album is "Verdi Cries," written by 10,000 Maniacs' Natalie Merchant. Tabor found out that Merchant is a big fan of her work. She's also been working with Steeleye Span's Maddy Prior, her colleague in "Silly Sisters."

Ranking Roger seems much happier to be on his own, and thinks his new work is much different from the days of General Public. "The last General Public LP, I think, just sounds bland and poppy now," he says. "There are only about three things I can listen to on it, because we recorded it so many times we lost our way. It was crap. My new stuff I think is much more radical, concerned with the music more than the packaging. It's better than what Dave and I would have done together, because we always put in equal amounts, words and music, but this is just me."

R.E.M. may join the Amnesty International tour, at least for the two U.S. concerts. The band says Peter Gabriel approached them about participating in the tour.

I.R.S. Records' No Speak label will be releasing "Guitar Speak, Vol. 1" in September, featuring instrumentals from Alvin Lee, Leslie West, Rick Derringer, Phil Manzanera, Randy California, Robbie Krieger and Steve Howe.

Marti Jones' "Used Guitars" album includes versions of John Hiatt's "The Real One" and Graham Parker's "You Can't Take Love For Granted." Jones' new album was produced by Don Dixon. Both were seen recently at New York's Bottom Line when Jane Siberry performed two nights of shows just before Siberry and her band went to London for a series of dates.

Paul McCartney reportedly will play some concerts in the Soviet Union in the fall or spring. The Moscow News newspaper says McCartney will play eight solo concerts to commemorate the 30th anniversary of his career. The report quotes McCartney's manager as saying the shows will be at venues holding less than 4,000 people. The concerts will be in Moscow, and possibly Leningrad. McCartney has an album of 13 classic rock songs from the 1950s and 1960s being released on a Soviet label.

David Bowie will appear in a film with "Bobcat" Goldthwait in a "Martin and Lewis sort of comedy," Goldthwait says. "David's the suave singer, I'm the geek who drives him crazy," he adds. "David flew to see me on my tour to talk about the movie pairing. We're definitely two guys our parents had to wonder about -- so I guess we belong together."

The Los Angeles stop on the "Monsters Of Rock" tour was delayed for one day because Van Halen's Sammy Hagar was suffering from a throat infection. Hagar developed strep throat in Kansas City, and Eddie Van Halen has also been suffering a similar ailment.

Eric Burdon has a new album out called "I Used To Be An Animal, But I'm All Right Now." Burdon had planned to release a book in conjunction with the LP but his publisher disagreed. "I've been sidetracked for about 10 years, but I've moved back to the West Coast of the United States now and I'm ready to pick things back up again," Burdon says.

James Brown has been ordered by a South Carolina judge to perform a benefit concert for abused children as a sentence for his arrest on drug and weapons charges. Brown pleaded guilty to resisting arrest and possession of an illegal weapon, while pleading no contest to possession of PCP. Circuit Judge Jim Moore placed Brown on probation for a year and ordered him to put on a concert for Helping Hands Inc. and the Aiken County Fraternal Order of Police. Brown also has paid a \$1,200 fine as part of his sentence. Brown says he's considering moving to New York. "Maybe Augusta and South Carolina just can't handle me anymore," he says. In another case, charges are being dropped against Brown in connection with a fight with his wife Easter weekend. The prosecutor says he's

dropped the charge because Mrs. Brown wouldn't testify against the singer.

Ini Kamoze is having trouble with Jamaican television over his video for "Hole In The Pumpkin." The Jamaican Broadcasting Company objected to what it believes are political and drug references. "They say it is political and the next line of reasoning was that it promoted drugs," Kamoze says. "They say that the video is a green pumpkin, but to me that is just a pumpkin." Kamoze is no longer on Island Records and he is complaining that the label didn't pay him enough attention. "You find that because Island had artists off whom they could make a million or a half a million dollars in no time, then the reggae acts were relegated to lesser attention," he says. "I found after a while that it wasn't working out and in addition I was having differences with the producers, Sly and Robbie. It got to a stage where we really couldn't relate one on one." Kamoze is about to begin a U.S. tour and he has formed a new band called the One-Two Crew. His new album is called "Shocking Out."

Siouxsie Sioux has a strange explanation for the new single from Siouxsie & The Banshees. "'Peek A Boo' began over a year ago with a melody being played over a backward backing track," she says. "We then learned to play it forwards and then deconstructed it again into the shape it is now; a sum of its missing parts."

Former Orange Juice member **Zeke Manyeka** is working with Matt Johnson of The The on an album. There are plans to film some videos in Africa.

George Thorogood donated some of the proceeds from a recent Toronto show to Squash Hunger, a volunteer group in the city helping to feed the hungry. Thorogood also donated proceeds from two Ottawa shows to a food bank in that city.

Anthrax's next album, "State Of Euphoria," will be out in late September.

Cheap Trick's current "The Flame" hit was written by two English songwriters, Nick Graham and Bob Mitchell. The two have only been collaborating on songs for the past year and a half, and have written songs for Sinitta, Roger Daltry and Marilyn Martin. "The Flame" was written last November for a British female singer, but the song was offered instead to Cheap Trick. "We always felt 'The Flame' was something special, but we've thought the same about songs that have turned out to be absolute stiffs," Mitchell says. Before he began working with Graham, Mitchell had written songs for Laura Branigan, Jimmy Ruffin and Colin Blunstone. He's also writing and recording with some former members of the March Violets.

Balaam & The Angel's latest album, "Live Free Or Die," includes three songs written by the three Morris brothers and four songs co-written with the LP's producer, Steve Brown, who has worked with the Cult and Wham!

Chris Spedding has produced the new album of the Toronto-based band the Razorbacks, called "Go To Town."

Raymond May, who was born in Sri Lanka, says he owes his success to a showcase in Vancouver, where he now lives. "I just went up and did my thing," May says. It turns out that manager Bruce Allen was in the audience. "I had a ticket booked for England because I had become so disillusioned with my chances, so it was a real surprise to receive that kind of attention," May explains. His album, "Unadulterated Addiction," was produced by Paul Hyde.

Iggy Pop contributed a song to the self-titled album from Circus Of Power, which was produced by Daniel Rey, who has worked with Iggy and the Ramones. The LP will be out on the last day of August.

Singer **Helen Schneider**, who has been involved in theater in recent years, is working on a new album.

Steve Lillywhite will produce Bryan Adams' next album.

A new biography of **John Lennon** is being criticized by Yoko Ono and Elliot Mintz, her longtime close friend. The book, "The Lives Of John Lennon," is written by Albert Goldman. It includes the claim that Ono married Sam Havadtoy after Lennon's murder. "That is one of the claims in the book," Mintz says. "It is a total lie. We would welcome for him to come forth with some evidence -- a marriage certificate, a witness, anything. Let him put his cards on the table. His credibility will rise or fall depending on if he can back it up." Mintz told the New York Post that "the marriage story is mild compared to some of the other stuff. We've heard about all kinds of scurrilous charges, mostly involving sex and dope, which are Goldman's staples in terms of journalism, as evidenced by his books on Elvis (Presley) and Lenny Bruce. There are things too weird to be considered." Ono had tried to see proofs of the book, but her request was denied. Mintz says he's skeptical about Goldman's sources because one "told me he was paid for his time. He was just a street kid who was asked to an interview and was given \$100. It is my understanding that Goldman has offered or made payments to people. That's what we call checkbook journalism, and it's dubious at best." People magazine will be printing excerpts from the book, which will be out in September.

Whitney Houston's only U.S. concert this year will be a benefit at Madison Square Garden in New York. The August 27th show will aid the United Negro College Fund.

Ike Turner has been sentenced to one year in jail for possession and transportation of cocaine. Santa Monica, California, Superior Court Judge James Albracht ordered Turner to immediately begin serving his term at the county jail. Turner will also be on probation for three years. Turner was convicted in March on charges filed when Turner was stopped in West Hollywood in August 1987 and 5.6 grams of cocaine was found in his car.

The Georgia Satellites' **Dan Baird** says he wrote "Open All Night" after hearing Bruce Springsteen's "Pink Cadillac." Four people were arrested when about 200 fans went on a rampage in Nottingham, England, when **Ozzy Osbourne** canceled a concert at the last minute. Elton John begins a six-week U.S. tour in Miami on September 9. He's scheduled to begin recording a new album in Europe in November. John gave a sneak preview of his tour at a recent show in Los Angeles, which raised about \$500,000

for Athletes & Entertainers for Kids. It was the first performance by John since he underwent throat surgery in early 1987. One of the songs he performed was "Love Is Worth Waiting For," which he hopes to record with other artists as an AIDS charity record. John and lyricist Bernie Taupin say they wrote the song to "warn kids...that sex in this day and age is a dangerous game. We are aware that peer pressure and constant lecturing on social habits are uncomfortable burdens on the young, but in the case of AIDS, ignorance is not bliss."

Skinny Puppy have finished recording a new album, due for release in October.

Guitarist **Leslie West** has a new album out called "Theme" that features former Cream bass player Jack Bruce and includes a version of "Spoonful." He also appears on two albums coming out. One of them, "Guitarspeak," is an instrumental album that will also feature contributions from Jeff Beck and Andy Summers. He's also going to be playing on a record with Steve Vai and Joe Satriani, on a label being launched by Guitar Magazine. He's currently touring with Tim Bogert (ex-Vanilla Fudge/Cactus), and drummer Joe Franco (ex-Twisted Sister).

A home video featuring five videos from **Sting**'s current album is about to be released. "I wasn't a big fan of video a few years ago with the Police," he says. "Maybe it was because I wasn't happy with the band then and just about anything associated with them turned my stomach. But with the new band and a stage filled with musicians, it becomes quite challenging to pull it off in an artistic way."

About 5,000 fans went home, after some booing and chanting, and were able to see Maiden play the following night.

Researchers at the **University of California, Irvine**, say a study of 445 teenage students found that heavy metal music fans are more likely to have been arrested or have seen X-rated movies. The researchers found that metal fans tended to have negative feelings about school, as well. The findings, presented to the Western Psychological Association, stress that metal music hasn't been shown to cause those behaviors -- only that there is a correlation. The study found metal fans had attitudes on rape, suicide or alienation that were not significantly different than the rest of the student population.

Cozy Powell is reported to be ready to form a new version of Black Sabbath with Tony Iommi. Powell had earlier said he was putting together a band with Jack Bruce. Riot have reformed, though with guitarist Mark Reale the only original member still in the band. "Riot split primarily out of frustration," Reale says. "We had a strong grass roots following for the band but the management were always hurrying us along and making real bad moves." He says the band was relegated to opening for other groups, and that caused dissent among band members. Riot's new album is called "Thundersteel."

Former W.A.S.P. member **Randy Piper** has formed a new band called Animal, currently working on its debut album.

Wynton Marsalis says too many jazz critics are turning into sociologists, instead of simply reviewing the music. "Sociologists get into jazz and they call themselves jazz critics," he says. "They know nothing about music so they're not capable of criticizing it. They don't know what the structures of the songs are or what the musicians are trying to do. All they know is what kind of house Louis Armstrong grew up in or if he had a daddy or not. So what they do is give you a social assessment of who he should be based on some compilation of obscure facts...So they say Louis Armstrong grew up in a terrible environment, so they say that's why he was soulful. Duke Ellington was middle class -- that's why his band couldn't swing like Count Basie's. So many of these fake social cliches are constantly dredged up and presented to the public that they have undermined any serious attempt to study and address the fundamentals of the music." Marsalis says these type of critics "are actually destroying the force of younger musicians, destroying the integrity of the music and the integrity of studying music."

Richard Marx plans to begin working on a second album in September, for release early next year.

Over 200 pages of unpublished manuscripts by **Jim Morrison** are being published by Villard Books in October. "Wilderness: The Lost Writings of Jim Morrison, Volume I," was compiled by Morrison's friend, Frank Lusciandro. The writings were found in a steel strong box labeled 127 FASCINATION. Chris Blackwell, percussionist in Robert Plant's band, says he's found the former Led Zeppelin member to be a "really charming, regular guy." Blackwell, who had toured with Toyah and done session work for the Belle Stars and other bands, says he heard from Plant in 1986. A day of work in the studio ended with the formation of Plant's new band. "Working with Robert is not hard work at all," Blackwell says. "The last record was pretty much written in rehearsal studios, with all of us still pretty much in awe. Since we had just met him, it was like he had the final say." For Plant's next solo album, Blackwell says, "it will be a different deal. We know him now and can argue with him and say no." Blackwell adds that he thinks Plant's solo efforts have lacked direction until now. "I think that we introduced Robert to a lot of things that he had never thought of before," Blackwell explains. "He was good for us and we were good for him. He came in with his ideas, we came in with ours, and they met in the middle somewhere. You know, it really was now and Zen."

"All Of This Or Nothing" by The Psychedelic Furs

The Psychedelic Furs' career can really be divided into two parts; their early barbed, minimalist sound - "Sister Europe", "President Gas" and the smooth contours of the music they've developed since living in and being attracted to The United States - "Pretty In Pink" and "Heartbreak Beat". The latter has now been virtually disowned by Richard Butler and we wait with baited breath for the new Stephen Street material in January. In the meantime this, as with many Greatest Hits packages is a great album for radio play and when purchased will interest the fan who perhaps only discovered The Furs through "Pretty In Pink" as either a pleasant surprise or a nasty shock. You may choose to either hate or love a track like "President Gas" but you can't ignore it.

UK MUSIC NEWS

Big Country are back after a two year silence. The group return with a new single, a new album and some planned concerts. The single, released next week in Britain by Mercury is called "King Of Emotion" and was produced by Peter Wolf, who has previously worked with Starship and Heart. The 12 inch features two extra tracks - "The Travellers" and "Starred And Crossed" - and the CD single contains yet another extra track "Not Waving But Drowning". Unlike the usual use of the single as a promotional tool however, none of these tracks will be appearing on the group's forthcoming, as yet untitled, album in September. In interview on British radio, Stuart Adamson downplayed Big Country's long absence, insisting that they'd spent a good deal of the time working in the U.S. and Australia. When pressed though he admitted that this had only been since last May. In September, Big Country will be doing the increasingly trendy tour of Eastern Europe, visiting the U.S.S.R., Hungary, Poland, Czechoslovakia and maybe even Afghanistan! After that the band will embark on a twelve month tour of the rest of the world, taking in the U.S. Canada, Australia, Japan and countries in Europe.

There have been conflicting reports in the U.K. music press about **U2**'s album release in October, "Rattle And Hum". Some articles claim that U2 are shaving the originally planned double album down to a single. Others claim that it will still be a double album but that one record will be recorded in concert and that the other will be new studio tracks. But a new report in "Melody Maker" claims that the tracks will be alternate, spread across both records. What we definitely do know is that the album will compliment a movie of the same title, as will a book written by Peter Williams and Steve Turner and published by Pyramid through Octopus in the U.K. There were strong indications this week that there will be studio tracks on the album, as several artists in London revealed that they had been approached to work on the record by the group's management, including an apparently bewildered Captain Beefheart, who phoned up his guitarist Chris Lucas to tell him that he'd been approached by someone called "Bongo" and had he ever heard of him! Johnny Cash, who also appears in the movie is another said to be helping out on the album project, which when finally released should give plenty for radio stations to sink their teeth into.

The Cocteau Twins release their album on 19th September in Britain on 4AD. The long-awaited platter is called "Blue Bell Toll" and it is rumoured that it may be a departure from the sound Cocteau's fans have been accustomed to. There are no plans for the band to tour on this side of the pond - while their record company have developed a particularly snotty way of declining radio interviews.

Live Earth Day, a planned major festival in Fife, Scotland, has been an unmitigated disaster, making it likely that Mandela Day will be the only truly successful major rock festival of the summer in Britain. The originally planned concert had British

artists like Transvision Vamp, Go West and Ireland's Van Morrison linking up by satellite with Bob Dylan and The Grateful Dead in Los Angeles. The aim of the concert was to raise ecological awareness. More could not have conceivably gone wrong! The Los Angeles concert was canceled and only Van Morrison showed up out of the aforementioned artists. WTBS, the American Satellite company screening the concert pulled out, while bands who had been flown in especially for the event like New Model Army and Phil Manzanera (formerly with Roxy Music), were turned away. The weather was the worst recorded in the area for 40 years and out of an originally projected crowd of 70,000, 6,000 showed up. The festival organizers had no comment.

The new date set for the release of **The Smiths'** live album on Rough Trade Records, is 5th September. Morrissey's management in the meantime have denied the "New Musical Express" story that Morrissey and Johnny Marr may be getting back together again as The Smiths, in other corners of the press. "Sounds" quoted them as saying it was a work of complete fiction, although so far the artists themselves have made no comment on the persistent allegations. The Smiths' album is called "Rank" and was recorded at The National Ballroom in north London during November 1986 and broadcast originally by BBC Radio One. The complete track listing is: "The Queen Is Dead", "Panic", "Vicar In A Tutu", "Ask", "Rusholme Ruffians", "Boy With The Thorn In His Side", "What She Said", "Is It Really So Strange", "Cemetery Gates", "London" "I Know It's Over", "Draize Train", "Still Ill" and "Bigmouth Strikes Again". As has been a consistent feature of the albums' covers, this jacket will again have no pictures of the band, but instead one of Morrissey's 60's heroines - Alexander Bastido, who starred in the 60's TV show "The Champions". Both Morrissey and Marr were fully consulted about the choice of tracks by their former record company.

Echo And The Bunnymen are not splitting up, according to spokesmen for the band, although individual members of the group have yet to comment on the break up allegations which appeared in "The New Musical Express", based on the testimony of the group's manager and lead singer Ian McCulloch. A group spokesman said "They've only finished touring in the Spring and they've been having a break, but these rumours seem to get started every time they come off the road." The representative did admit however that the band have no studio booked or dates set for anything. If the Bunnymen survive until November they will be celebrating their tenth anniversary.

Elton John is holding a celebrity's version of a good Spring clean, only instead of taking his junk down to the local Salvation Army store, he's auctioning them at the London auction house Southeby's. First though, London's Victoria And Albert Museum will be mounting an exhibition of over 500 items John has collected since he was first in the money around 1973. Apart from his unbeatable collection of sunglasses, there are the kind of clothes Liberace would have swooned over jewelry, paintings, art deco and art nouveau furniture and 15 years worth of impulsive-buys. The V&A, more normally known for housing some of the great masters has earnestly described Mr. John as: "A passionate, discerning and eclectic collector of works of art, whose taste has often been ahead of his time."

By far the biggest star in London's eyes this week was **Prince**, over here to do seven nights at Wembley Arena and treated wherever he went like the second coming. Spotted after his shows at several parties were Terence Trent D'Arby, Sinéad O'Connor (furiously flirting with the only man she has publicly declared undying passion for, Mickey Rourke. She also had a big picture of him on the back of her jacket. Subtle, non?) Pete Dinklage, Paul Rutherford, Louise Goffin, The Jesus And Mary Chain, Ron Wood, Boy George, Eric Clapton, Don Letts, Chrissie Hynde and Spandau Ballet, to name but a few. The small one received orgasmic reviews in the British music press, and this sort of hem touching by Britain's rock fraternity went on throughout the week. If you say you don't like Prince here you might as well forget working in the music biz. To be charitable to Prince, he was a great sport all week and unlike the recently departed Michael Jackson, partied and mingled after every show, which considering how tiring that concert is, takes some doing. The only problem became the flurry of

rumours of where he'd show up next. London club owners quickly got wise, realizing that even the merest hint of an appearance would bring some faithful flocking. Over the past week he has been expected (but no dice) at The Mean Fiddler, The Town And Country Club, Cafe De Paris, Heaven and The Marquee. Prince also signed copies of his record at HMV and Tower and even managed to find time to go into the studio with George Clinton.

Despite last week's High Court order in London, banning **Charly Records** from releasing an early **Beatles** demo, thousands of copies are available in British record shops. The demos were recorded for Decca Records in 1962, but The Beatles eventually signed to Parlophone. Last week the court agreed with lawyers for the surviving band members, that Charly are not allowed to release the sessions, especially on compact disc. But after the hearing, Charly's solicitor Paul Lambert said that although the company has stopped manufacturing the session it is still widely available, not just on Charly but by other companies.

UK INDUSTRY NEWS

The respected British Sunday newspaper, "The Observer" has alleged in a front page story that Richard Branson's Virgin company is involved in a mafia payola case in California. Branson has strongly denied the allegations, both in a letter to "The Observer" and to "The New Musical Express". Virgin stated that although they have had contact with Joe Isgro's Quickcross record promotions company in Los Angeles, Mr. Isgro has never "worked directly for the company". According to Will Whitehorn, speaking for Mr. Branson, Quickcross Promotions, who have been uncovered in U.S., payola scandal, "is used and is continued to be used by Virgin and hundreds of other record companies" as so far Mr. Isgro has not been indicted and denies any wrongdoing. Virgin has hinted they make take legal action against the newspaper. Branson was said to be particularly furious at the publication of his photo with the caption "Mafia" underneath.

Jim Pemberton, WFBQ, Indianapolis

Strongest add of the week: Moody Blues. The first track did extremely well, and I think this could even out perform it.... Elton John's "Town Of Plenty" with Townshend on guitar is the album's best follow up to the first single.... "Walking With The Kid" is our follow up choice from Huey Lewis.... Also went with the Europe. These guys were just through town with Def Leppard and put on a great show. Good follow up to the last album.... Little Feat moves to heavy. They're huge here, and I mean huge. Easy top 5 phones, especially during the day.... Still looking at the Satellites' "Don't Pass Me By", ditto Dokken's "Tears", and probably John Kilzer and Ziggy next week.

Pam Edwards, KGB, San Diego

My new favorite band is Winger, hear "Madaline" a couple of times and you're hooked. I had the pre-release cassette in my car and realized I'd listened to all of side one without even thinking of popping it out. This is one solid album that's going to go the distance.... Although it may not be a priority track right now, you've gotta play John Cougar Mellencamp's "Rave On" from the Cocktail Soundtrack. Hit it while the movie's hot....this one is too cool to ignore, I haven't seen the movie yet but this soundtrack is great!

Carter Alan, WBCN, Boston

WBCN was honored to present the Sugarcubes in one of their first US concerts. The Nocturnal Emissions party was a grand success in which BCN gave away all the tickets at the Axis nightclub. For a while it seemed the party would never come off because of the Sugarcubes persistent immigration problems. After being rescheduled twice, lucky ticket holders finally got their wish and the band did not disappoint. The Sugarcubes album has been top 10 in sales in Boston for several weeks and "Birthday" is a top BCN request. We are also impressed with "Cold Sweat" and "Motor Crash".... I got one of my fondest wishes to come true last week when Dan McCloskey of Atlantic Records got me backstage to meet Robert Plant. I saw his show at the beginning of the tour and just had to check it out again. His cool professionalism spurred his young band into a powerhouse of a concert. After 10 or 20 heavy metal shows, it was refreshing to see some hard rock with real finesse.... The Siouxsie And The Banshees song works for us, with a surprisingly funky hook that never gives up.... Shona Laing's "Glad I'm Not A Kennedy" is a poignant observation at election time, and the BOC cut is also a bludgeoning rocker and is threatening to overcome Guns N' Roses in the top request slot.

Lorraine Caruso, WNEW, New York

Hothouse Flowers is already a household name in Ireland and should have no problem taking America by storm. "Don't Go" is a catchy, original, pop rock sounding hit.... Atlantic has a few hot records on their hands. The Frozen Ghost LP has a lot of substance, including their first single "Round & Round".... The Escape Club is starting to create a huge buzz around the station and on the air as well with "Wild, Wild West".... The number one selling record this week according to our retail tracking is Tracy Chapman.

Doug Clifton, KBCO, Boulder

The Little Feat album is one of the best records I've heard all year. We love the entire album. In fact we played everything from it this past weekend. First 2 songs to go into rotation will be "Let It Roll" and "One Clear Moment". This is the comeback record of the year. Thanks to Billy Payne and Fred Tackett for stopping by to chat with John Bradley backstage at Fiddler's Green.... Joan Armatrading is an artist we've been playing ever since her earliest releases. She's been a consistent favorite with our audience. Her new album is one of her best in some time. "Words" and the reggae flavored "Straight Talk" are two of my favorites.... Haven't had a lot of time to spend with the UB40 album, but the single goes in right away, followed by "Pulling Me Down".... Top Phones: Bobby McFerrin, Basia, Cheap Trick, Bobby King and Terry Evans and Melissa Etheridge.... Thanks to Chris Daniels and the Dynatoners for helping to make our "Summer In The City" benefit such a great party.... Speaking of parties Rich Abravaya had his hands full with Little Feat, Rod Stewart, Van Halen and Robben Ford all in town this past weekend. Good to see Larry Butler and Kenny Puvogel in town for the weekend festivities.... Finally thanks to Kay McCarthy for all of her help with our Jimmy Buffett buffet.

Lin Brehmer, WXRT, Chicago

Why would a major record label impress upon us the importance of a new act and their record and subsequently confess they have never pressed a compact disc for the album? We are not likely to forget crap like that. Of course, it's the same label that has told me countless times there would be "No Problem" getting CD catalog service on a couple of their records. It's now been close to 2 years that this "No Problem" has existed. A different label sent us a letter last week promoting a single from a previous album after we had just added a new record from the same artist. Do you people sit around dreaming these stunts up on conference calls? "O.K. here's what we do, we release a 12" we'll rack up some airplay, then we'll hit 'em with the remix and then tell them they're playing the wrong version... ah-ha-ha-ha!!!!".... B.A.D. has a monster of a mass appeal track in "Champagne".... Isn't the Little Feat album everything you hope a comeback album would be? "Long Time Till I Get Over You" blisters like a heel on a Chicago sidewalk, "Hangin' On To The Good Times" will make you cry in your beer.... My hottest tip for the summer-- Hothouse Flowers we're talking destiny, babe.

Ginger MacKenzie, KATP, Amarillo

The Europe record is a great follow up from a great band. Early phones are great, already one of our top 10 most requested.... Also love the Robben Ford, with top 10 calls for "Wild About You", but I also like "Born Under A Bad Sign" and "Talk To Your Daughter".... Strongest add of the week: I like the Colin James 'cuz I love the blues. I think he's a great young guitarist, and I expect a lot from him in the future.... Tommy Conwell kind of reminds me of Brian Setzer when he first came out. That reckless kinda look.... We're in first week on Frozen Ghost. We played the last FG record quite a bit and it did really well, so we decided to go out of the box on this one.... Love Henry Lee. I think his songs are great and he's going to go a long way. 20 years from now I expect to have at least ten or fifteen HLS albums in my collection.... Melissa Etheridge goes to heavy with good response to almost every track, with "Water" the leader.... Also moved the Joanna Dean up. She'll be here August 15th. "Kiss This" got top phones from the first day, and still gets response in recurrent.

Jeff Michaels, KSQY, Deadwood

If you're not playing the Hothouse Flowers, you haven't given it a chance. Listen again. Already Top 5 phones here. We heard it on first listen and I'll put my neck on the line and say the band is going to be huge. If you still have doubts, check out the promo video Polygram sent out and you'll realize how big they are in Ireland.... Nice follow up from Frozen Ghost, tasty band, classy song. Should go all the way to the top.... I had listeners telling me that Graham Parker's "Start A Fire" was their favorite song on the radio, so "Don't Let It Break You Down" goes in to keep that momentum going.... Also using the Kilzer follow up. He's one of the most colorful new artists of '88.... Moves: "Demons" from Gregg Allman trades places with the album's title track.... BOC moves to heavy. Good reaction and we are playing the Stephen King edit. Listeners claim the intro makes the song and I agree.... Paul Kelly also moves to medium. It sounds great and we've got good requests.... Almost Added: Pete Bardens.... And I'm still trying to decide on the second Little Feat song.

Tom Van Sant, WIZN, Burlington

What a fantastic boxed set Jethro Tull and Chrysalis have given us. Who could have guessed so much top notch material had been gathering dust all these years. My favorite is undoubtedly the Chateau D' Isaster tapes.... Mixed reaction here to the Joan Armatrading album. Although she is a core artist at WIZN, some feel "The Shouting Stage" is a bit on the slick commercial side. While the album undoubtedly has wide appeal, I don't think Joan has "sold out". She is simply communicating to a broader audience. Her talent is intact and on display as never before. Big things await, I feel sure.... What a joy to dig into Little Feat's new LP. They're in great form, just as always. The title song will be our next killer. Can't wait to see them live in the fall.... And a big "way to go" to all at WDVE for demonstrating what all Cardinal fans already know. Mets are pond scum.

Anthony Alfonsi, WDVE, Pittsburgh

Now that we've added Lita Ford's "Back To The Cave" I hope she asks me to go along. This song should help Lita continue to make 1988 her year.... It's also good to hear from Frozen Ghost again. I hope "Round And Round" does well for them because they're two of the nicest guys I've met in this business of head cases and egomaniacs.... I'd like to thank Barbara Balchick of Reprise for all she did at the Chicago show.

Jim Steel, WIOT, Toledo

Tips of the 104 Cap to: Pat Gruback of Reprise for the Neil Young Videos, Mark Dyba of Relativity for the visit and dinner, and everyone associated with Def Leppard. This isn't just a concert in Toledo. It's an event. Adds this week: INXS shows a nice stylistic change on "Never Tear Us Apart". Still has a bit of that funky groove but it's different enough to be good for people who might be starting to get burned on the group.... Joe Sat's "Always" could be the next "Europa" from Santana. I don't know if a lot of people still play that track from Carlos, but it always gets reaction when we play it here.... Tracy's "Revolution" goes in heavy. How can you miss. Between sales, Amnesty and the opportunity to play a tune that won't burn nearly as fast as "Fast Car" this makes it all the more appealing.... Also a heavy add for Def Lep's "Love Bites", a #1 tune that's been waiting to happen since its release.... Tommy Conwell is already a huge staff favorite.... Rhythm Corps moves to heavy. Just has a great sound and complements the day.

Bob Walton, WRDU, Raleigh

Strongest add of the week: Little Feat, without a doubt. They didn't skip a beat and they're literally lined up waiting for the CD at the stores. Meanwhile the single is # 2 in calls.... Also new: Cinderella's "Gypsy Road". The #2 sales debut added it, we didn't.... "Island" and "Demons" go in from the Gregg Allman. Again, the calls are just spectacular and they wanted to hear more.... We got calls for Europe two weeks before it was even released.... Getting good calls for Marti Jones. For all intents and purposes she's local for us.... Midnight Oil is still hot, and after a lot of tentative thoughts, the Benatar is a real record for us. We're talking top rock and roll sales.... Ziggy is also holding up well, I thought it was a novelty record but no. He opens for INXS in September.

Pam Brooks, WPDH, Poughkeepsie

As Jah is my witness, I did my darndest to figure some legit way to stay on the sunny isle of St. Martin. But that old time rock and roll kept calling me home. And what a pile of it there was for this wee one to come back to. Hot on the heels of their SRO show at The Chance came Little Feat's big step back on the scene. "Let It Roll" they said, and so we did. "Hate To Lose" is already hot stuff on the phones, and my other fave is "Hanging On To The Good Times". It's true that that we still miss Lowell, but it's wonderful to have new Feat on the air. And if the listeners response shows anything, sales should be tremendous.... How could I not find room for a man who, on vinyl, admits to doing "Dumb Things". And makes the song so infectious that even the guys I play it for are snapping their fingers. We've enjoyed Paul Kelly And The Messengers before and I hope to see this LP break wide open for them because it's filled with some very tasty ear treats.... Pam's picks for driving cassettes: Escape Club's "Wild, Wild West", it picks you up and carries you with non-stop vitality. The verdict isn't in yet on where I'll find the room, but at least I'm a happy camper, driving for hours with the Escape Club along. Another must for "trip" music, as well as an artist we continue to have success with is Jimmy Barnes. "Freight Train Heart" steamed its way onto the airwaves, as well as into my Honda and as I grabbed my driving wheel with a shriek of delight and sped off into the night, the shock waves were so loud we had to add it.

Wendy Steele, WLVQ, Columbus

It's hot as hell here, but we're still rocking and rolling like crazy in Columbus where the skyline is constantly changing. WLVQ is definitely the #1 supporter of hometown music and we've released "Hometown Project #9" on cassette. I'm curious as to how many of you still do hometown projects. Maybe the hometown issue could be something Noise might like to deal with. The local music scene in Columbus is hot and happening. Be on the lookout for The Toll, a Columbus band signed to Geffen. Their first release will be out next week and the label has been treating them like kings. They are represented by Freddie Demann and the album was done at Bearsville, produced by Steve Thompson and Michael Barbiero. They have an early Stones sound and are very intense to see live. There's a lot of talent in this town, you'd be surprised. A&R people, give me a call, we can chit chat about it--and it could be worth your while.

Dave Richards, WWRX, Providence

This is in response to Rhino's Penny Barnes' attack on radio last week. The day that a new AOR, like WRX gets those 50 or 60 alleged phone calls from certain record companies (which will go unnamed), is the day that I will take an ounce of your complaints seriously. You see Penny, a record rep would first have to make those phone calls for us not to return them. But we, like other radio stations, have not had that luxury. I have heard every excuse from "Your radio station doesn't play enough new music", to "You don't report to a certain trade or tip sheet", to "the consultant you work with has a certain reputation." But, my favorite is "our budget doesn't allow us to call your station". Funny how that same budget does allow for posters, badges, buttons, etc. So Penny, let me reverse the situation. I'm sitting on top of 50,000 watts waiting to return those phone calls. Since WRX went on the air, there are a few record companies who have NEVER called us, or returned my phone calls. It seems a record promotion person would want to promote his product to get it on the air, so to those record companies, I'll answer your question of whether it's your breath or bad habits: a phone call doesn't reveal bad breath, but a lack of phone calls does reveal bad habits.

Bruce McGregor, KEZO, Omaha

Love that blues rock stuff--When people ask us how we got a 17 share, I just smile and say "Blues rock". It's amazing to me how fast this stuff reacts. Like the Robben Ford. James Harmon did really well here and that Little Feat album--whew! This Colin James goes OTB. If you can't hear Robben Ford, you ought to have a brick thrown at your head or something. Even dust off some of your old J. Geils stuff, 72 to 74 editions. The adult demos can't get enough of that stuff and it doesn't alienate those 18-24's. It has energy. There's simply too much flat music around here.... We're four tracks deep on Little Feat. We're finding pockets of fans all over town. Across the country there are little pockets of people who were into this band and this is one of those towns. We have to treat this like any of the majors--like Winwood, etc. because the town demands it.... Also new: the Hothouse Flowers. I'll put that in the Monty Python quote "Now for something completely different", but great.... Again, more of that good uptempo rock and roll from Tommy Conwell, stuff that's good for all ages. Another instant curiosity record. These rare records that just separate us from Top 40's.... The first Bardens album did really well here and reaction so far on this one has been great. Sales are beginning to kick in.

Paul Nelson, WWCT, Peoria

Should we tell our CHR competition that Tracy Chapman is a woman or should we keep snickering whenever they play "Fast Car"?

Cyndee Maxwell, KWHL, Anchorage

Colin James is my choice for best new artist of '88. He smokes, he burns, I can't stop playing "Voodoo Thing", it makes me dance, it makes me sing.... I'd like to thank all the way cool people in Seattle for their hospitality during the Monsters Of Rock, Jim Anderson of Warner Bros., Don Coddington of Polygram and John Kohl of Elektra are tops on the list and I really enjoyed

meeting all the radio people who were there too, you guy's are all too much fun.

David A. Ross, KMJX, Little Rock

We've got Huey Lewis in town 8/7, and Magic 105 is doing a 105 hour countdown giving away tickets or albums each hour and our grand prize winner gets to go backstage to meet Huey. Thanks to Barry Griffin of Chrysalis for all the support.... Our lovely night rocker Casey Jones had these comments on the L.A. Monsters Of Rock... "Thanks to everyone who made my trip to L.A. such a memorable experience this includes Gene Dries and Larry White from WB, the boys from Devore, the Monsters Of Rock, the 83,000 folks at the L.A. Coliseum that caught me in the middle of the Cup War, to Ross "Beefcake" Goza from KNAC, the Cat House, and those beautiful long haired men on sunset strip who were created just for me".... David Allen says... Get 'em Casey!!!

Glenn O. WBYS, Buffalo

Aloha Rock 'N' Rollers, just when you thought it was safe to read the Radio Comments section...I'm back! Since I last talked to you all, I've gone to New York City for a wild party with Bill and Rose McGathy who deserve many thanks. Very honored that they asked me to come down for a HOT day at the big ballpark in the Bronx and an even hotter party. I got a chance to meet a lot of good people and put the faces to the friendly voices I had been speaking with for a long time. I'd also like to say a big thanks to Bruce Moser and Doug Dombrowski of Could Be Wild Promotions in Buffalo for flying me down. I had the great pleasure of meeting 5 gorgeous young ladies from the band Vixen on EMI records, if you haven't heard of these girls yet make sure you give John Hey a call and he'll take care of you with an advance tape. I'm waiting for the video! Also thanks to Bruce and Doug for bringing Raymond May in from Vancouver to spend the day with us and I look forward to seeing Raymond perform on August 15, The Bear is grateful for this special free show at Bayview Beach Club. Apologies to Cheryl Valentine from Metal Blade Records for not getting together Friday night but you and Metal Blade still Rule. Also like to say a special hello to my good friends Pete and Lisa Bunch in Florida, I miss you a lot and am trying to get your phone number from Matt, I'll talk to you soon. Aloha!

Tom Calderone, WRCN, Long Island

Tom is angry! Please call me at 516-727-1570 and tell me why you will not play Shriekback, Living Colour, Soul Asylum, Camper Van Beethoven and B.A.D...I'm just curious.... Finally 104 WRCN Long Island's concert leader celebrates The Ramones, Hot Tuna, B.A.D., Buster Poindexter and Ranking Roger in our August concert line-up.

Andi Turco, WEQX, Manchester

After a week of remotes it's great to get back to a semi-normal schedule again. I'm sorry if you haven't been able to get through to us, next week should be better.... The Little Feat album is even better than we expected, so we are also adding "Let It Roll" in addition to "Hate To Lose Your Lovin".... Another wonderful record is "Round And Round" from Frozen Ghost, their last record was one of my favorites of 1987 and I am confident that this one has the goods to finally bring them into the limelight.... After weeks of top 5 phones we moved Melissa Etheridge into heavy this week. It never fails, each time we play "Bring Me Some Water" listeners call for more information on how they can get the album.... We are also seeing good early response with In Tua Nua, Shriekback and The Escape Club. These are potential hits so don't let the CHR's beat you to them.... Just wanna say a big thank you to Atlantic's Danny McCloskey, the Robert Plant show was great and lunch here in Vermont was even better. I told you Larry, Darryl and Darryl do exist. That's it, goin' to see Bryan Ferry tonight and raise some hell with one of my favorite partners in crime...Pam Brooks.

Chris Herrmann, WHJY, Providence

Hey, it's the second of August and at least I have a great CRT tan (I'm a computer geek at heart and having loads of fun with our new Selector system), but it's time to enlighten this industry with some comments about this weeks music (Selector can't do this).... Tommy Conwell is the best thing out of Philly since The Hooters and those those awesome Cheesesteaks. Good time rock and roll that's right at home here on HJY.... Since the release of "Hysteria", "Love Bites" has run a close second to "Pour Some Sugar" on our phones-with no spins! Our actives are finally happy on that score.... Hothouse Flowers are great, as are Toni Childs and Winger (How's that for strange bedfellows?).... Oh--late flash--"Reptile" has again slithered into our control room.... Go see Judas Priest when they tear up your fair town, awesome! Over and outta here.

Hubby Dean, KZRR, Albuquerque

I tell you this Michael Anderson record sounds better and better every time I hear it. The same can be said for the great new record from Crowded House.

Patty Martin, KSJO, San Jose

Watch the mail for something new from David Lindley and El-Ray-o X, the album is called "Very Greasy" and features lots of different styles and plenty for rock radio. Take special notice to the credits for "Tiki Torches At Twilight", count how many people you know singing back-up. I especially like their treatment of "Werewolves Of London". Since I had to spend the weekend

at the county fair with the KSJO booth surrounded by drunk people in Metallica T-Shirts, I spent my few hours at home listening to the new Joan Armatrading and Little Feat, I thrive on contrast. Little Feat is packed with great songs, I like "One Clear Moment", "Let It Roll" and "Business As Usual" to start with.

Art Boerke, WKWQ, Columbia

The phones have really started up bigtime for Hurricane again. This is the second wave of listener interest for the band and we are encouraged by the response.... Tommy Conwell has given us an amazing tune and it's going to be huge. He's generated a tremendous response in Philadelphia and it's time for him to go national.... The company may have waited just long enough to put "Love Bites" out and this track should do very well.... The Beatle connection makes the new one from the Georgia Satellites a natural for our audience.... Robin Trower's "Shattered" is a natural for my audience, it's a much stronger track than the current label project.... We are getting crazy, crazy phones for the Little Feat this week. They move to Heavy as a result of what has to be one of the biggest debuts this year.... I'm still getting very good phones on Britny Fox and that continues to surprise me.... Jimmy Barnes has the potential to really get on top of things with "Driving Wheel". That slide guitar is killer and Jimmy is in top vocal form.

Jimmy Christopher, KZEW, Dallas

The Scorpions have a real big power ballad on their hands with "Believe In Love". We look forward to it doing very well here.... The Pat Benatar is still piling up tremendous phone response in the market. This lady is very welcome with the audience.... Def Leppard still gets huge requests even though we have it in recurrent. This record has a life of its own. It defies time and space.... The Smithereens "House We Used To Live In" is just another prime example of how strong this band is.

Craig Bradley, WRIK, Paducah

Hey, Colin James reminds me of some of the best new rock to come out this year. It's a damn good song that really rocks.... Rebel Heels is the big sleeper this week. We are seeing far more action on this song than we ever thought would happen.... The staff favorite around here is still the Benatar. We are all really high on her new album around here. It's nice to have her back.

Phil Thompson, KICT, Wichita

Thanks to Justin Fontaine of Capitol for the help with the Poison show last Tuesday.... Thanks also to Mary Tripodi for all your help with the AC/DC show. Even though you're in Chicago, we did feel your presence at the show and now I know how you got in your current state of mind.... Finally, thanks to Al Carolonza from WB for your hospitality in Kansas City for the Rod Stewart show.... And now, a few music notes. It was a long time coming for Michael Anderson's "Sound Alarm" and Tracy Chapman's "Fast Car". Maybe next time I won't wait so long.... Robert Cray is burning up the phones here, a great image artist picking up where the last album left off.... If anyone had told me that Little Feat could make a comeback without Lowell George, I would have had a hard time believing it. But "Hate To Lose Your Lovin'" is classic Little Feat. They haven't lost their sound or their spirit.... My two favorites this week are Tommy Conwell's "I'm Not Your Man" and the Georgia Satellites "Don't Pass Me By". This has to be one of the greatest rave up remakes of all time.

Ernie James, WEQX, Manchester

In Tua Nua is a real surprise for us. The jocks really love playing it and the public is picking up on it too.... Little Feat has been doing well for us so we have expanded to a second track.... The new Frozen Ghost is definitely the standout of the bunch this week. We really expect big things from this one.... The Escape Club is a real staff favorite, they are still really into this song.... Shriekback is also getting a big thumbs up from the staff. What a great summer time track!

Richard Smith, WIXV, Savannah

Crowded House is very close to my heart with "Better Be Home Soon".... The Little Feat song "Let It Roll" is a solid followup headed for a steady run. This is not just lip service. This is an album that brings tears to my eyes. The audience is really into Little Feat around here and we get a lot of requests for the older stuff as well.... Paul Kelly is doing very well with "Dumb Things". Everybody seems to be loving that song the more they hear it.... You just can't go wrong with the Maniacs. This song is a delight for any air sound from coast to coast.

Don Gilmore, KLBK, Austin

"Down In My Own Tears" is the best song on the Smithereens record. Look for this one to take off real soon.... Jerry Harrison is doing real well here. I don't know why so many people have passed this track by. It's a killer tune.... One of my favorite adds in a long time is the new Tommy Conwell. "I'm Not Your Man" could be my song of the month the way things are going right now.

Eric St John, WNPQ, Canton

What a week! This Winger album is great and "Madalaine" is a kick ass rock and roll record that is bound to juice up any limp playlist. This track has great production touches and strong musical moves. Just don't segue it

with Tracy Chapman and I guarantee maximum headphone usage for you and your listeners.... The audience is still very supportive of Pat Benatar and her phone action is incredible.... Britny Fox continues to do great things on the phones around her.... The Fab T-Birds have given us an excellent track for both radio and the clubs.... The retail action is really building for the Little Feat album especially with the more mature demos.

Tony Montoya, KKAZ, Cheyenne

Def Leppard's "Love and Affection" will go through the wall, the ceilings and the basement. I'll bet you it's top five phones in two weeks. We've put it directly in Heavy.... Rossington is getting good phones around here and could possibly move up in rotation next week.... The in-studio fave right now has got to be Blue Oyster Cult. "Astronomy" is a real screamer in the monitors right now.... Neil Young gets on the playlist this week and with a line like, "Get off your couch and turn off your MTV", how can it miss?

Ralph Tortora, WBAB, Long Island

Oh please "Let It Roll" today and tonight! Like Paul Barrere said, this LP is so much like Feat it will make you cry. He was right. "Let It Roll" knocked me out live and does a damn good job on vinyl too. When you here this tune your fingers automatically start tapping and your feet start tapping. You gotta love it (the whole album). Long live Little Feat!.... Cheap Trick has another winner here with "Don't Be Cruel", the remix sounds much more crisp.... Still trying to digest the Tull Box set-lots of neat stuff on here, especially the live version of "Living In The Past".... Congratulations to Atlantic on the success of The Escape Club so far. It's going to get a lot bigger because "Wild, Wild West" is a killer.... A belated thank you to everyone at Columbia for a great evening in Philly with Tommy Conwell. Yes the band smokes and if you get a chance to see them, don't pass it up.... Another long overdue thank you to Bill McGathy for a wonderful day at Yankee Stadium. They didn't win but that Jose Cruz grand slam was out of control. I screamed so hard I lost my voice for a week. It was great seeing old friends and meeting new ones at both events.... Congratulations to Relativity for taking Satriani to Gold.... Congrats to Aerosmith for no reason, actually I am glad to see they are showing the young punks how to do it right.... I still say Rhythm Corps still sounds like Cat Stevens "Where Do The Children Play".... Cinderella put on a smokin' show last week at the Coliseum. Thanks to Tom Keifer and Eric Brittingham for stopping in at the station with an update on the band. Favorites from the new LP include "Seams", "Don't Know", "Last Mile", "If You Don't Like It".... Glad to see AOR is moving to Rod Stewart's "The Wild Horse", this is the best song on the LP.... Very reminiscent to his early stuff.... I know I said I would not, but I told you so. Guns N' Roses--Number 1...Enough said!

Christina Gorton, KKZX, Spokane

This new Gregg Allman grooves big time. We have added "Thorn In The Red Rose" this week and it sounds great on the air.... The locals pause just long enough to dip a little chaw and start hollering about Little Feat. The good old boys in this neck of the woods think this is just about the best stuff they've heard in a long time. You know what? we agree.... "Deep" by the Moody Blues has the phones hopping like never before. I can't believe the reaction to this track.... We are also getting huger than huge phones for Northwest homeboy, Robert Cray.

Al Scott, KZEL, Eugene

Cheap Trick has a roll going right now and this tribute to the King is a great example of why they are doing so well with the audience.... The Scorpions give us a natural followup with "Believe In Love". The phones have always been happening for this track so we are glad to see it in the mix.... Robert Palmer moves up in rotation this week and I can hardly keep my back in place when I watch that video. Somebody, help me!

Kim Alexander, WHCN, Hartford

Blah Blah Blah...DiDia, congratulations on your new job--I know you'll do great! We love you (That's Picozzi, too).... Blah Blah Blah...Phil, Shouldn't your middle name be Goldilox?.... Blah Blah Blah...Ziskrout, welcome back, you "Reptile" you.... Blah Blah Blah...Camper Van Beethoven and Robben Ford are happening at HCN.... Blah Blah Blah...The Hothouse Flowers record is radical but you must listen more than once.... Blah Blah Blah...Guns N' Roses in the midday--I love that!.... Blah Blah Blah...Bassman, how's it goin'?.... Blah Blah...Yo! Across the street...Ha Ha Ha Ha!

Stephen Page, KOMA, San Jose

Guns N' Roses--the album that wouldn't die--the phone response on this LP is so incredible that "Sweet Child O' Mine" had to be bumped to power just to appease the masses.... The new Huey Lewis & the News is a stellar collection of songs that will definitely broaden the AOR sound. Thank you Huey and thank you Chrysalis.... One final note: special thanks to Don Dokken and Jeff Pilson for helping us with the morning show a couple of weeks ago before the Monsters Of Rock show. Thanks a lot guys, we sure do appreciate it.

Jane Fredericksen, KTCZ, Minneapolis

Feats don't fail me now...holy cow...I haven't heard such danceable boogie since Mrs. O' Leary's Bossy got the hot foot. I'll go out on a limb and call this Little Feat album the comeback of the year. Ten fine songs and nary a sleeper in the bunch make this a programmers delicious dilemma. What

don't you play? By the way I'm still looking for Alan Lawson, he's locked himself in his office with his headphones ever since the album came in.... Of the all the acts we've helped to break this year, I think I'm proudest of 10,000 Maniacs and Tracy Chapman. Tracy Chapman is the voice of conscience. Her painful sincere honesty will chill you to the very marrow. "Fast Car" is a modern day masterpiece.... 10,000 Maniacs combine hip pop stylings with intelligent sophisticated lyrics. To all those who lament the state of rock today embrace these artists. They hold its future and I for one feel greatly relieved.

Mike Verity, WNGZ, Elmira

We needed a bulldozer to figure out Charlie Foster's music system, henceforth we are freezing the list this week. Congratulations to Charlie on his new gig in that crazy business we call record promotions with Paul Yeskel. The schedule is as follows: adds are available on Monday at 11am E.S.T. Calls will be taken Tuesday through Thursday from 10 to 1pm. No calls on Friday. I want to thank the record folks who have called to introduce themselves and I'm looking forward to working with them.... Personal favorite: Edie and the New Bohemians. Check it out.

Lorraine Rapp, WAQX, Syracuse

Cheap Trick's "Don't Be Cruel" sounds great on the radio! The timing was perfect for this remake. It's fun and gets you moving on a hot summer day.... The 95X 10th birthday celebration has begun with a month of great concerts and promotions. We're featuring a different artist each day, and giving birthday packs to our listeners each hour. It sounds hot on the air, and I thank everybody in the record industry for their help and support. See you next week!

Jose Diaz, WBLM, Portland

Jose here doing reports for Robin, who is on her vacation. This week Robin got her wish and we added Tommy Conwell and the Young Rumlbers. We feel strongly about "I'm Not Your Man" and expect to see some phone reaction real soon.... Joan Armatrading's "Living for You" continues her tradition of putting out very tasteful rock and roll. I'm looking forward to her show Aug. 17 in Portland.... It's incredible how everytime we play Joe Satriani the calls come in, saying how great it is, or what is that great song? There are no chances when you play it, it's a sure reaction getter.... Melissa Etheridge continues to barrel up the requests and sales in the area. Obviously her message is connecting very strongly with our listeners.... We're all in heaven here at the rock and roll BLM with our 16.8 12+ share in the Arbitrons, it's the highest ever for us and of course it's number one. Thanks to all at the record companies in the ongoing support in promotions.

Michael Cross, KJJO, Minneapolis

Crazy from the heat!! It has been 105 degrees, and there's no letting up! Luckily, there's great summertime rock being cranked up here with yet another great week in the music department. Blue Oyster Cult has out their best album in years. "Imaginos" shows the band isn't ready to rely on the past to make albums, as this new one sets new projections and propels them into the '90's. A progressive rock band that's here to stay!.... We think Henrick Ostergaard of Dirty Looks should apply for the lead vocals job for AC/DC! Sorry Brian, but Henrick is Bon Scott's replacement!! This album shows that Dirty Looks is a band with a future.... And now, a personal appeal to all AOR programmers too afraid to play bands that rock: Please don't judge bands by their names. Example; Vinnie Vincent Invasion's "That time of Year". This might be a "Metal" band to most of you but, (A) it's not a metal band and (B) this is a ballad with punch. Please crank it up. (I feel like I should be the new Midwest AOR promotion guy for Chrysalis--what a plug!) And, if no one minds, a lot of bragging.... Fact: Guns N' Roses is #1 here again with "Sweet Child O' Mine"/"Think About You". It is the 2nd time Guns N' Roses have reached #1 with a track, only to go #1 again with the same track. Second time at #1 on "Sweet Child", having first reached that coveted position back in March '88. Ditto on "Paradise City" and "Welcome To The Jungle", having reached #1 here way back in August of '87, and doing it again in February of '88. We're still playing both of those songs in Power Recurrent over a year after the add.... Ditto for Def Leppard on both "Pour" and "Love Bites". "Pour" went to #1 back in October '87, and "Love Bites" at #1 in September, '87. "Bites" was a re-add 2 weeks ago for us and holds at #11.... Mega-congrats to my bud Mark DiDia at FMQB, for somehow sliding in to L.A. to be the new National Director of AOR promotion. Geffen couldn't have made a better choice, unless they asked me! Speaking of the label with a shark, Mega-congrats to Geffen, Marko, Christina & the gang for pushin' AOR & CHR on Guns N' Roses. It really has paid off! I know I never imagined GNR at #1 on top of Billboard's charts. Keep it up, you guys Rule!.... Finally, advance thanks to the Georgia Satellites for coming on live on the air, and getting generally nuts, and "hi" to Mr. "Shot Of Love" Hardy at Megaforce. Go get 'em!!

Rick Mackenzie, WAAF, Worcester

What a great time we had this weekend on the beach! It was WAAF's "Beach Dig". We had \$50,000 in cash and prizes buried in the sand and 107 WAAF listeners on their hands and knees with golden shovels going crazy for hours under the hot sun digging for everything from a new sports car to incredible car stereos, concert trips and more.... On the topic of new music we added Cheap Trick's "Don't Be Cruel" straight into a power rotation. What a great rendition of a great song that everyone from 10 years old to death knows....

I couldn't wait to get back from vacation to add the new Little Feat. It has the classic Feat sound without sounding dated.... Finally Blue Oyster Cult has released a song worthy of putting their name on. Being a B.O.C. fan from way back, I for one hope this sparks some interest with many of you too.... And rounding things out this week...more songs from 3 great albums...."Never Tear Us Apart" from INXS..."Love Bites" from Def Leppard and "Town Of Plenty" from Elton John.... One personal note: I was on vacation in Maine just sunning and drinking. Thanks to WBLM for entertaining me. Keep up the good work!

Ty Banks, KQWB, Fargo

The Europe song "Superstitious" is showing some early signs of becoming a major record. This is the type of rock song that can appeal to all demos and ages.... The Rhythm Corps is still hot here and building every day.... And finally, personally exciting me is the new Blue Oyster Cult album "Imaginos"...Very strong!

Jeni Gipe, WZBH, Ocean City

What a blast it is listening to the new Little Feat album. We're getting lots of phones and everyone at the station wants a copy to take home.... All the hype about Melissa Etheridge has turned into top five phones here with only one week of airplay.... Another fine lady is Tracy Chapman. It's great to know that AOR radio has the gutsy females instead of the lusty ones of CHR.

Kelly Cruise, WEGR, Memphis

"Astronomy" from Blue Oyster Cult is one of their best songs to date...even though it's a new version of the same song they did a decade ago. They used it again because it fit into the concept of the album and if you want something really erie for night-time airplay, check out the version with Stephen King's introduction (King is a big fan of BOC). Last week, Blue Oyster Cult came to play just outside of Memphis and put on an excellent show. Their stage presence along with the good material on "Imaginos" could make them a major comeback this year. Honestly, I've never been real hot on Poison but "Fallen Angel" is a great song!.... And "Superstitious" is another smash for Europe.... Great to see Columbia's Gene Denonovich in town last week.

Mike Gardner, KOAS, Kealakekua

Looking hot for us this week is Europe's "Superstitious", the new Tommy Conwell And The Young Rumlbers, and interesting material for many weeks and probably years to come out of the new Jethro Tull box set.... Good response also happening with Iggy Pop, Jimmy Page, Rod Stewart, and of course anyone's favorite Steve Winwood. Getting some good concert action on the big island and hopefully much more to come. When in the neighborhood come in and say "hi".

J.D., WONE, Akron

Our fax promotion has taken off like gangbusters. Our first day on the air with it we received 300 entries in six hours. We've been on the air with it for seven work days and already we have close to 2000 entries. This has turned into a fun promotion and so far every one involved seems to be enjoying it.... Another promotion we're having fun with is "I Want My N-TV". We're giving away Neil Young's video for "This Note's For You". Since there's a lot of controversy surrounding this video we thought we should ask our listeners to write us a letter in 97 words or less, demanding their N-TV. We will pick the 10 best letters and those people will receive the video, the limited live version of "This Note's" on CD, plus tickets to Neil's upcoming September show. Many thanks going out to Barbara at Reprise for the videos and CDs.... P.S. Dear Carolyn Heldman: Haven't heard from you in a while. Hope you're coming to the soap-box derby next weekend. After the parade and all the hoopla, maybe we could play a game of Twister.

Charlie Logan, WYNF, Tampa/St. Pete

A couple of new bands make the airwaves this week. The Ya Ya LP is one of my favorites this year. "Caught In A Lie" is a dynamic song that will jump out of the radio and grab your listeners by the Ya Ya's.... It Bites' "Kiss Like Judas", with no current Genesis product out, this song fills the void left for that sound. I'd like this from the first listen off of the CD, and now we finally found a slot for it.... Tracy Chapman's "Revolution" and "Fast Car" just won't die here in Tampa. The sales are massive--she's got the #2 selling album in the market. "Revolution" is another short and sweet number and more up tempo so it fits better than "Fast Car".... Winger's "Madalaine" is getting good response at night with limited play so now we give it an official add.

Bob Jeffries, KBOY, Medford

Monsters Of Rock invaded the Seattle Kingdome last Wednesday and KBOY's Monster Lear Jet awarded 5 grand prize winners the big one of '88, a champagne flight from Medford to Seattle, back stage hospitality, a ten hour rock and roll marathon and a midnight party flight back to Medford. It was the largest rock promotion ever for southern Oregon and very active drawing over 2000 contestants. Front runners in bringing it all together include John Kohl of Elektra Records, Don Coddington of Polygram and Greg Dorfman of Warner Bros, without whose assistance and assurance we never would have moved the mountain. Once again the northwest record reps proved to be the best in the business.... Special note of thanks to Calvin Lew for the Scorpions boat excursion. It was a memorable night in Seattle meeting the Blitzkrieg rockers of Germany and Cal even arranged rain free

Chamber Of Commerce weather. Talk about being tight with a main man!... Musically, Tommy Conwell and the Young Rumlbers.... Spring book ends: Adults 18-34--#1 28.7, Adults 25-49--#1 24.7, Men 25-54--#1 24.0, Men 25-49--#1 24.7, Men 18+--#1 21.9, Men 18-49--#1 26.3. I want to thank my stereo, my diet and my esteemed record reps without whose assistance the improbable would of been unlikely.

Curt Cartier, KEZE, Spokane

Elton John's "Goodbye Marlon Brando" could be a contender. It makes you an offer you can't refuse.... Jethro "Colonel Sanders" Tull gets the nod this week. The box set does indeed have it all.... See Kings Of The Sun live. If you and hundreds others get off dancing on tables and screaming for more they are the best young band I have ever seen.... Robben Ford may still be a summer sleeper in some places but here it is a roaring giant.... Don't know too many French ladies who dig all-star spitting gaps, but the Satellites must have run into one somewhere. "Mon Cherie" is killer summer time buggy rock.

Dave Ross, KFMU, Steamboat/Vail

Neil's back again and sounding very hot. "Hey Hey" combines great horns and upbeat tempo and lyrics that contain that MTV fight back for an overall smash. I'm looking forward to big things from Neil on this one.... Graham Parker's "Don't Let It Break You Down" fits in perfect here. His distinctive vocal style is right in tune with the rest of this solid song. It certainly should appeal to all audiences.... Little Feat's new project is certainly a huge comeback record. These guys didn't re-form to become a bar band. They re-formed to go all the way and it seems like they certainly have. "Hate To Lose" brings in Top 5 phones this week and we couldn't hold back in getting deeper into it. "Let It Roll" seems to be the obvious choice and it certainly has it all. Don't miss out on a giant success story. That's it from the worlds only wind powered radio station.

David Sadof, KLOL, Houston

For a while it seems like just about every song we added was by an Australian artist. Well now it is time to turn our attention to Ireland. This week we added Hothouse Flowers, In Tua Nua, as well as Graham Parker's "Don't Let It Break You Down".... A reminder that our alternative music show airs Sunday nights from 10 until 12. We welcome new releases from both major labels and independent labels. Here are just a few bands featured this week: House Of Love, Edie And The New Bohemians, B.A.D, Icicle Works, Sugarcubes, Ranking Roger, Siouxsie And The Banshees, The Petal Jets, The Primitives and Let's Active.... Official music hours are 10 til noon and 3 til 5, Wednesday through Friday. Our adds are available on Tuesday after 12 noon.

Jerry Trujillo, KDKB, Phoenix

Our 93 Days Of Summer continues as we gear up for our big 17 year birthday celebration. With one of the best giveaways KDKB has ever done, beginning Sunday morning at midnight through August 20th, KDKB is giving away a pair of concert tickets every 93 minutes to shows like Def Leppard, Lynryd Skynyrd, Joe Cocker, Little Feat, Scorpions, and more. Also, the KDKB World Tour '88 continues with trips to Seattle to see our own Phoenix Cardinals against the Seahawks and see George Thorogood live and also trips to Kansas City, and a few other places as well. Needless to say, we're all busy but having a great time with our listeners.

Patrick Ferrise, WWVU, Morgantown

There's just so much terrific music out this summer, all I can do is add, add, add.... The Joy Division draws a lot on different parts of their career. I really like the diversity of songs on the compilation record, "Substance".... The "Married To The Mob" soundtrack has lots of good bands on it.... The Hothouse Flowers have an unusual pop sound with very full production.... Don Dixon has done a great job with In Tua Nua. Watch for them to massively cross over.... Dwight Yoakam provides a bit of an off the beaten track sound for those tired of the same old pop and rock.

Ann Delisi, WDET, Detroit

The Cowboy Junkies have a very unique sound, nice to see the alternatives picking up on this.... "High Time" from Icicle Works is a very promising new single.... It will be interesting to see how fans react to B.A.D.'s new approach, which I think is a refreshing change.... The Style Council have pulled off a pleasing comeback, and this a strong album to do it with.... Finally, Michelle Shocked has gone back into the studio to re-record her latest material, hopefully this will draw the attention that she deserves, it is amazing in terms of the folk-rock acoustical style, very strong songs.... It's great to see local veterans, Rebel Heels from Detroit, make a national showing at long last.

Gina Galli, WBNY, Buffalo

The Style Council is a really dynamic work, more so than their last album. The music is very tight and well produced and so far has gotten phenomenal response from both the jocks and the listeners.... The House Of Love is a very strong debut album, with some likeness to the Jesus and Mary Chain, and certainly music that sticks out above the rest.

Dirk Devault, WGTU, Hagerstown

The B.A.D. album is one of their best to date.... The House Of Love reminds me of the Jesus and Mary Chain, with lots of guitars.... The Style Council album is perfect progression for those guys, a stepping stone.... "People",

the album from Hothouse Flowers is one of my favorites and we'll be all over it soon. The ballad "Song For Katie" will be around for a long time.... Fatal Flowers is another album we'll be smearing all over the airwaves. I hear a heavy Stones influence with a southern rock sound.... The Weather Prophets will go a long way. Every time I hear a great album like this one I keep thinking of Nick Lowe's "Pure Pop For Now People".

Jetson, WOXY, Oxford

Contrary to what you have read, Howe Brandt will not be joining us as assistant P.D. He backed out on us, so we continue our search.... There's a lot of great new music out there now. The Hothouse Flowers album is incredible and I swear that Elvis is alive and singing.... Also this new Let's Active track is killer and the Balancing Act sounds great.... And thanks to John Souchak from Island Records for bringing Barry Andrews from Shriekback to the station.

Scott Carter, KCPR, San Luis Obispo

The Momus record (on Creation) sounds like New Order, different than other stuff currently out and very well rounded.... The Icicle Works sound like they've thrown a rough edge on, which they were moving away from in their earlier albums.... The Style Council is up to date and fresh.... House Of Love is one of my favorite records!

Renee Blake, WKXL, Concord

The Style Council has just released a fascinating LP. "Confessions Of A Pop Group" has something for everyone: jazz, rhythm and blues and rock and roll. Check out "A Very Deep Sea", "Story Of Someone's Shoe" and "Little Boy In A Castle".... In Tua Nua's Leslie Dowdall has a wonderful voice and the album is a pleasure, especially "Seven Into The Sea" where they demonstrate how well a beautiful voice can compliment a hard driving rocker. Also good, "Wheel Of Evil", "All I Wanted" and "Innocent And The Honest Ones".... Hothouse Flowers' "People" album is good listening. You can bob to the songs like "Don't Go", "It'll Be Easier In The Morning", "Hallelujah Jordan" and "Love Don't Work This Way".... B.A.D. is a real surprise with a very accessible sound. I especially enjoyed the political bent they took with Imelda Marcos and "2000 Shoes". Check out "Other 99", "Funny Names" and "Apple Cart". Then cue up your turntable and "Just Play Music".... Beatnik Beach has taken some time to grow on me. Little by little though, the melodies of these sandy long hairs are working their way into my ears and my phones. Would somebody call the E.N.T. specialist please?.... Fatal Flowers "Johnny D. Is Back" is an interesting album mixing blues and funk with an occasional jazz sound. Check out "Second Chance", "Rock and Roll Star" and "Dear Friend".... Reckless Sleepers are a real surprise! A mix of clean, upbeat songs that are very listenable, especially "Big Before It Bursts", "Big Boss Sounds", "This Heart" and "If We Never Meet Again".... Karla Bonoff's "New World" is a wonderful effort that makes the mark, especially with "Way Of The Heart", "Oh Mary", "New World" and "Goodbye My Friend". Karla, as Ralph Malph used to say, "You've Got It. You've still got it".... From the moment the Little Feat CD single arrived excitement was in the air. The album is delightfully funky. We all miss Lowell George, still the band sounds great in '88.... Steve Forbert is back stronger and better than ever. What an LP! Check out "Perfect Stranger". Steve, let's get better acquainted.... Robben Ford. WOW! What a release. The phones started as soon as we aired it.... Good to see Tommy Conwell and his Rumlbers getting support they so richly deserve.... We're getting phones on Escape Club and Christine Lavin.... On to other comments: Local New England band Blind Owl is starting to wake up A&R execs in big places. Attention labels: don't let the competition beat you out. Set your clock radio for Blind Owl.... The Music Zone is pleased to announce the debut date of our international program, "Hands Across The Water", featuring U.K. Music host Graeme Matthews of Newcastle England. The first edition will be broadcast on Sunday, August 7th at 4PM.

Jonathan Rosen, KUPD "Virgin Vinyl", Phoenix

1988 is now complete: Sparks "Interior Design" on Rhino Records signals the end of wimp (make sure the beats are perfect) techno music. For them a bit harder is in on most songs. Perhaps the longest running under acclaimed band along with the fabulous Ramones in musical history.... Baseball Cards: Say, I'll trade you my Tracy Chapman, Suzanne Vega and I'll even throw in my Patti Smith for your Michelle Shocked.... Miles of hurt'n monster trumpet: Although not available on vinyl yet, Dan "The World's First Heavy Metal Trumpet" Collet's song "Metal Machine" is pure lunacy. With a buzz saw metal back up, Collet takes this instrument to new unexplored territory. If Doc Severinon was younger, would he or could he attempt such an amazing feat. If Dan stops in your town U.S.A. and asks you to play his demo-do it-a pure phone attraction.... In the desert arena: Slayer's "South Of Heaven" defeats King Diamond's "Them" in Uncle Miilty's first Metal Meltdown contest. Fifteen minute time limit for each band - Slayer (20 Yo's/3 Blows). King Diamond (16 Yo's/7 Blows). A wild audience participation with giveaways.

Mike Thomas, WMDK, Peterborough

Reckless Sleepers' "If We Never Meet Again" is just one of the great songs on this tremendous effort from Jules Shear. It's great to hear him back on vinyl again. It's a "sleeper".... After listening to B.A.D.'s "Just Play Music" for a while and hearing audience response, I'm convinced that this will be a big record for them.... The Primitives album is a fresh new sound from England, I like "Ocean Blue" and "Carry Me Home", both very strong tracks.... In Tua

Nua is absolutely in heavy rotation here. I was turned on to them on the "Live For Ireland" compilation. We're playing "All I Wanted" and "Seven Into the Sea" is a personal fave for me. I think this is a dynamite record--it will explode with mass appeal.... Siouxsie And The Banshees "Peek A Boo" is doing so well for us. I'm told the album will blow me away and I'd like to hear it.... Style Council's "Confessions Of A Pop Group" is one of the better albums they've released. It's a little different from their last few in the respect of it being a concept album. You could mistake some songs for "beautiful music" but some of the upbeat poppier songs are their best ever.... Tuesday Blue is my favorite record of the week. "Shibumi" is another alternative sleeper. They're certainly a band to be reckoned with in the near future. "Love Me Simple" is on the air at WMDK!

Mike Summers, KJQN, Salt Lake City

My thanks to all the record and promotion people who helped make our Erasure/Shona Laing concert a tremendous success, especially Nancy Levin. Over 13,000 people enjoyed the show outside at Park West.... Summer promotions have taken a serious toll on our supply of giveaways, please send your donations to KJQN, 58 West 400 North, #3, Salt Lake City, UT 84103.... As far as music, in goes new Sparks, Transvision Vamp, Style Council, Joan Armatrading and the new Import from Kim Wilde called "You Came".

Caesar Ettore, WKVU, Villanova

Greetings! With the events of the past week, I have once again been moved to write a summer dialogue, this time to express my opinion on a very disturbing trend in Philly. What can be more aggravating than going to a show to find out you can't get in because you're not 21 even though you're on the guest list. The Hard Report's Jeff Luttrell was the victim of one such ugly incident at a recent Seduce show at the Chestnut Cabaret in Philly which I attended with him and Chris. Upon entering the club (Jeff was left outside to talk to some locals) we found a number of people, mostly female who were obviously not "of age". Not only did this put a damper (well not that much) on what proved to be an excellent set by Seduce, but it brings up another point. Over 21 heavy metal shows are stupid. Not only can most of the bands fans not get in, but think how discouraging this must be to the bands to have to play in front of crowds of 40 to 50 people as Krokus did a few weeks ago at this same venue. I don't know how this situation is handled in other parts of the country, but the way it's handled in Philly really sucks. Why not set up a system like that at the Ritz in New York, where those who can drink are identified by some sort of wrist band. Come on people wake up. By the way, despite what most people think (Chris Black) I'm not a total thrash head although it is my preference. I'm into bands like Cinderella, Seduce and Dirty Looks. Pink Floyd and U.F.O are two of my favorite bands. Anyway, let me thank Chris and Jeff for a fun time outside the Chestnut Cabaret as I never knew standing in a total downpour could be so much fun - I'm serious. We'll have to do it again sometime.

Jeff Ivan, KFMY, Lubbock

Okay, first up this week is a big thanks to the beloved Metal Blade crew for the Alex Masi interview last week. Here's a guy with his priorities right in line. You can expect some great things from him in the future.... Also beginning now, our metal show moves over to Friday nights. I finally get a weekend off once in a while and it sure as hell won't hurt our weeknight numbers.... My only add this week is from an unsigned band called Adrian Dodz. My engineer got me their demo tape and it smokes. They're from the New Jersey area and are getting positive feedback from the record companies plus they're gonna be doing some opening shows for Poison, Britny Fox, Legal Weapon and L.A. Guns. All in all I see a big future for these guys and if you want their demo give them a call at 609-581-0600. Ask for Hal. You'll be glad you did.... Good ol' SPV is a very hot label down here at the moment. Mekong Delta and Hittman are doing extremely well. If you haven't given them a try yet, you'd be a fool not to.... The Slayer continues its upward sales climb followed closely by Death Angel, King Diamond and Voivod, which you must get the CD of so you can play their version of "Batman".... Looks like King Diamond just might go gold with the way they're climbing the Billboard charts and their tour hasn't even begun yet.... By the time you read this, I'll have less than a week's worth of bachelorhood left in me.

Bob Lang, WBIM, Bridgewater

Thanks to Mike Eliss of PolyGram for the backstage passes to Cinderella.

Lora Porter, KPGA, San Luis Obispo

First off, (straying from Hot Metal Soup a bit) I want to thank Sharon at RCA and Bruce Hornsby for a great interview and an even better show! Bruce Hornsby and the Range rocked central California for almost two hours last night - incredible!!.... I would also like to thank Mr. Ernest Borgnine for being a terrific sport and doing those metal show ID's.... Caught an Intrinsic rehearsal the other night. I haven't seen them play in quite a while and never with David Wayne. I was floored. The band has progressed two hundred percent since they recorded their debut album and Dave's vocals are powerful and fresh. He and the band have been putting a lot into this - it will go far.... Until next week, try and keep Monte Conner off your back.

Steve Kandtsheidt, WCDB, Albany

Finally someone sent a band to our little town in Albany. Flotsam rolled through here last weekend and brought with them one of the greatest bands this world has seen. I speak of, of course, New Jersey's greatest asset (next to Chris Black), Hades. About 500 people packed Albany's version of Porky's Place and showed both bands that Albany is truly a hungry town. I was totally pleased by the crowd who were actually screaming for Hades before and after they played. Hades roared through an energetic set including an incredible version of Sabbath's "Hand Of Doom". Flotsam then took the stage and banged out an hour and a half of pure metal that nearly incited a riot.... As for this club, it's called Saratoga Winners and the proud owners were totally into the packed house Friday. Booking agents take heed. There are metal fans in Albany, so send your bands here. Call the club or me for more info: 518-783-1010 or 518-482-5681 respectively.... I know in September we're all going to be mighty busy with new Metallica and Anthrax, but don't overlook the second Hades album. It definitely proves to be one of the best albums of the year, combining excellent musicianship with lyrics that really titillates your mind. Call Medusa and make sure it's in your hands the day it comes out. Play, play, play it! At the very least it should be number three on your playlists come September. If you're not playing their first, what are you waiting for?!! Hades is god!!.... The other morning while leisurely dining on my favorite morning repast of Captain Crunch, I noticed a picture of dear old Caesar on the milk carton. Could it be that he's run off with the winner of the 1988 Megadon look-a-like contest? Until next time, just say yo.

Mad Max Hammer, Z-Rock Satellite Network

In our Top Ten, Slayer goes north with "South Of Heaven" while Britny Fox jumps into their first week in our Top Ten. We've already powered the song "Fun In Texas", but I think "Girlschool" is the major song off the album and a personal fave.... We're playing the song "Superstitious" off the new Europe album. It will be kind of interesting to see what the rest of the album is like.... D.R.I. is still doing good for us with "Think For Yourself" and "Suit And Tie Guy".... I like the new Rhett Forrester album and I think it's real strong. A guy with his talent should be on a major label. He should be a major force in rock now. We're playing "Ready For Love", "Even the Score" and "I Must Be Crazy". But, of course the major song is "Assume The Position". It's the definite hit.... The new Pandemonium is a pretty good album. We play the two cover tunes "Snowblind" and "Radar Love" as well as "Your Evil Ways".... The total surprise for us this week is the new Wehrmacht album. We played the song "Biermacht" once and the audience went crazy.... Rigor Mortis - Buy it or die.

Mike Jones, WGIR, Manchester

It finally happened. Whitesnake and Great White finally played Manchester after a postponed June date. I was there broadcasting live from the concert site interviewing the band members for Rock 101. Great White went down a storm in front of a sold out crowd and Whitesnake was brilliant as usual. Then I went to see Def Leppard at Great Woods and they sold out the show. One of the loudest audiences at a rock show I have ever heard.... There was great joy amongst the harder rocking members of the airstaff here this week as we welcomed the raging new Kix single onto the airwaves. "She Dropped Me The Bomb" is a rocker, with Steve Whiteman's trademark yowling. New England is a big Kix market and these guy's LP sales don't reflect their popularity at all. Even the mighty Guns N' Roses look up to Kix. People will eat this one up so play it now!!.... D.R.I. is a band with mileage on them and "Four Of A Kind" is a great step forward for these "imbeciles". "Think For Yourself" is a very catchy song that I was actually singing in the shower.... And a very pleasant surprise from the Schnapp-one and SPV is a melodic AOR-esque rocker from Hittman. "Will You Be There" could actually pull some album radio stations into their cause. This song has quality.... I gotta go now, I'm off to celebrate Guns N' Roses number one position on Billboard. I'm ecstatic about this and wish them all humongous congratulations. Maybe there's hope for us after all.

Robin Taylor, KZEL, Eugene

First of all there are people I would like to thank for one of the best times I've had in my life. Great people like: PolyGram's Don Coddington and Calvin Lew, Elektra's John Kohl, Warner Brothers' Greg Dorfman, and the world's best photographer Darrell Westmoreland. And Don Dokken for making my week. P.S. Kat - blow it out your ear.

Jeff Naumann, Virgin, 213-278-1181

New from Virgin this week comes the full veritable suckaahh and I do mean veritable suckaahh LP from Colin James and for the last time it's not the guy from Men Without Work. Can this guy play guitar or what? I've got blisters on my fingers from playing air guitar just from listening to the record.... Also the next Steve Winwood single is an edit/remix of "Don't You Know What The Night Can Do". Colin James opens the rest of the Steve Winwood tour.... The Camper and Ziggy records continue to have really good weeks at radio. Why are you Jesus freaks waiting on these great and hip artists? I mean Camper is selling and requesting on every radio station playing it and Ziggy is averaging 2500 records a week and remember it is summer.... Programmers are really starting to come around on the In Tua Nua. "All I Wanted" may take three listens to get, but when you do get it you won't get it out of your head. Play it to your girlfriend, maybe she'll hear it quicker.... For you alternative minded people, check out "Holding On To The Earth" by

Sam (she's a girl) Phillips. You'll love the farfisa organ and it is produced by T-Bone Burnett.

Michael Linehan, Reprise, 818-953-3750

Brian Wilson's "Love & Mercy" had a 50% increase in heavies this week including WRIF. It's #3 phones at WNEW and Top 5 at a number of others. Sales are through the roof, moving into the Top 50 on Album Network's retail chart (Hi Mark) and is one of the most played in-store records. This track works well for album radio when it is presented properly, it can freshen your sound and broaden your demos.... If "This Note" has peaked for your station listen to Neil's "Hey Hey" which had a great first week at radio this week.

Michael J. Schnapp, SPV/U.S.A., 516-783-3040

Told you! HITTMAN! #1 Most Added Metal band this week. Wonder why? Then you probably haven't heard it. HITTMAN! The single, "Will You Be There?" is there. Chrissie heard it. Chrissie's freakin! Says it's gonna be huge! "Will You Be There?" Stations already there include KJJO, KFMX, Z-ROCK, WVVS, WNHU, WKNC, WGIR, WCDB, WAIF. Next week I expect to see more of you there! Don't just be there, be on! It!.... STEELER, from Germany, now on KNAC, KRSR, KSLC...the rest should roll in next week (hint).... Here's a strange one. This bizarre looking record with some Mozart dude on the cover, playing a violin with a bunch of scary eyes in the background. That's Eric Zahn. The record is MEKONG DELTA. Strange cover, strange noise, surprisingly good music. Refreshingly different, it's way heavy but very technical. You must hear it.... Also, listen, learn and love ASSASSIN. Don't be scared, Assassin's cover of "Pipeline" is a great refreshing treat, especially after everyone's Surfin' M.O.D. (and who isn't?).... Thanks to everybody who is playing and enjoying Steamhammer Records. Who's better than you? Oh, before I forget, anyone who forgot about the Bollock Brothers, WAKE UP. KROQ added a fun poke at Berlin's "Sex", "God Created Woman". Lighten up kids and lets all go for a laugh. Check it out, and thank you for your support.

Cheryl "I'm Outta Here" Valentine, Metal Blade, 212-645-6208

Okay, I'm getting a wee bit tired of comments like "burning up the phone wires", etc. You want somethin' HOT? How about D.R.I.? They don't just make your phones an annoyance, they sell like hot cakes! "4 Of A Kind" has been out for a short time and has already sold 75,000 copies at a rate of 10,000 per week. When a LP sells that well, you know that your adoring fans wanna hear More More More! So play it, report it, make it a part of your very soul.... Guess what? It's time to be agonized once again by a certain Paul Nelson. The best possible way to deal with both Paul and I is to play the shit out of the Liege Lord single, "Feel the Blade" (what's that song about?), and "Master Control" (for more of Matt Vinci's sadistic lingo - look for the lyrics to "Rapture") when it arrives in the mail. You'll have absolutely no problem with this because it Rules! Can you say solid?.... Betcha can't wait for Banshee to come out! Me neither. It will be coming to you with Candlemass, Helstar, and the newest Fates Warning single! Yippee! Hurrah! More great Metal Blade product for you to adorn your turntables with. Since we have so much killer vinyl out right now, why not make it easy on yourself and start naming our albums when you call in your lists. It's easier that way. You only have to remember one label. What a concept!.... Remember kids, goats don't shave!.... Any of you in promo land talked to Steve "Ticket Man" Pankowicz lately? He's everywhere and he's got tickets too. Not to mention the fact that he rules for getting me a certain hard-to-find T-shirt!.... You all know, of course, that Mr. Bert New will be unleashing his Georgian skills on us all shortly. They're actually letting him out of school with a diploma and everything. Bert's such a nice guy!....A special hello goes out to our AOR jammers Johnny James and Randy Kaye. What would life be like without you two?.... Later days kids, I'm off to the Liege Lord gig tonight where they will be showcasing their newest material. You should be jealous.

Coleen Baxter, SST, 213-835-6977

At the moment I'm trying to drag myself back to the 1960's after catching the Grateful Dead in Monterey. What a great way to spend a weekend--it was my first Dead show but I'm reasonably sure it won't be my last. If you know any Deadhead's yourself, be sure to let them know about the new Henry Kaiser LP, "Those Who Know History Are Doomed To Repeat It". Henry's a San Francisco musician who's very active in the Haight-Ashbury scene, and he cajoled Robert Hunter (the Grateful Dead's lyricist) to play on the album. Check out the updated, 80's interpretation of the Dead's "Dark Star", and the really beautiful version of "Mason's Children (an ultra-rare Dead tune from the early 1970's). If you'd like copy, just holler. You should all be singing along to the new album by The Last by now. WHTG, KRCK, KABL, KTOW, WDCR, WZLP, KSUA and KCRS have all picked up on the great hooks and three part harmonies. It's the perfect record for summertime and I don't intend to let you overlook this one.

Megadon, Combat, 718-740-5700

I just saw live footage of Impellitteri shot in Japan a few weeks ago, and man, was I blown away. How blown away? Here's how to find out. Put on the Impellitteri album: side two, cut one, "Tonight I Fly", listen to that chorus. Can you believe Graham Bonnet hitting them high notes? Get this - he can do it live, too! I tell ya, I was blown away! I've also just heard the forthcoming Raven album, and it's definitely a lot like "Wiped Out" and "All For One", and we all know how great their albums were, don't we? If you've given up hope

on them, give 'em another chance, and you'll be very surprised.... Now, hang onto your hats, metal industry, as the darkest day in Combat history is upon us. We've just hired a Metal Retail guy, none other than...(gulp)...Rich Scroggs! This is no lie! Call the above number and find out the shocking truth!.... Lastly, thanks to Cheryl Valentine and the boys in Liege Lord for a killer show at the Cat Club. By the way, Cheryl, you've got a really big mouth. Bye.

Monte Conner & Bonnie Park, Roadracer, 212-219-0077

Greetings from Amon, the House of King Diamond. You've been mighty good to the King, and grandma is in a great mood. Why is that sweet old lady happy? Well, first of all, King Diamond's "Them" is currently at #90 in Billboard. Secondly, King hosted MTV's "Headbanger's Ball" this past weekend (Aug 6th). Finally, King's U.S. tour with Flotsam & Jetsam kicks off on Aug. 12th. Watch these pages for the tour dates. So you see, Grandma has plenty to smile about. In order to express her appreciation for your great radio support, Grandma will be sending each of you a personal King Diamond Tea Bag! Drop this sucker in some hot water and see what happens. With each tea bag from Grandma, Roadracer will send a 12" single of "Tea" (on Blood-red vinyl) and a limited edition "Tea" shirt. This package of goodies from Grandma and Roadracer should arrive at your doorstep within the next week. Also, be on the lookout for a new King Diamond EP which will be released on Halloween. It's called "The Dark Sides" and will contain some unreleased tracks spanning all three K.D. LPS.... Finally after terrible delays, the Holy Terror record is sitting in your sweaty paws. Now tell me - Is that an awesome cover or what? Be sure to check out "Distant Calling" - the monster cut off the LP. Other goodies are "Mortal Fear" and "Evil's Rising". These guys sound like nobody else and Megadon worships 'em. So out of great respect for the Mega one, play Holy Terror. Also, be sure to catch Holy Terror on tour with D.R.I. and Kreator. Speaking of Kreator: Sal at Noise, I want my Kreator and Sabbath CDs. By the way, when are you guys going to sign some real bands? What's next? U3?

Janet Getchell, Megaforce, 201-254-6533

Oh my God, it's playable on the air! For the first time in a long time we have the long awaited MOD album that is playable for your audience without being offensive. Ok, who ever in Chicago wrote "Color My World" may have a heart attack, but for your audiences there is no offending. I know this never stopped some of you or Howard Stern from doing what you wanted, but for the rest don't worry. This is good, clean, party fun, Beach Party that is. There is a deep story going on also during the EP, you can hear Billy and Katrina's love story or see them and their pal Alex (Periales) spot oofus. Yep, MOD is back in a whole new way and it is time to beach party, and remember to watch out for those Goldfish From Hell!

Penny Barnes, Rampage, 213-828-1980

Gosh, it's amazing to me the kind of response some editorials in these sections can elicit. I'm talking about last weeks comments about the lack of professionalism from some stations in returning phone calls. Basic business practice. But you know what? Out of all the people that called me on my remarks, not one said that they disagreed with what I had to say, most said that they wholeheartedly agreed, and I even heard from some of those stations that I was talking about who said they were just calling to say hi!! Pretty incredible this business of communication aay?.... So this week we are foregoing the soapbox, in favor of talking about some of my favorite new artists out & about on Rhino/Rampage right now. You mean you guys are breaking new artists??? That's right, and it's happening before your very eyes. Only Child, Drive (they took another significant chart leap this week), Rhett Forrester, and more on the way. And a certain band that I am dying to have on this label. Hint: They are from L.A., have been playing out for awhile & when you hear their name you think of sweaters, or goats or just plain ass kickin' rock & roll. Thanks for the phone calls this week from WONE, WAPL, KBOY. And a big & hearty welcome, although belated, to Randy Maranz as the new MD at one of the best little rock & roll stations out there, KDJK/Modesto! As Sammy says....See Ya!

Clarissa Garcia, Enigma, 213-390-9969

We're here! Enigma now resides in beautiful downtown Culver City. This town is jumpin' now that we've taken over. Our new address is: 11264 Playa Court/P.O. Box 3628/Culver City, CA. 90231-3628. My extension is 215. Death Angel's doing great as the #5 Hard Hitter. I'm seriously looking forward to their show this weekend.... Stryper moved a whopping eight notches from #21 to #13 on Hard Hitters. Stryper will go out late September with White Lion--not to be missed. Could you possibly have more hair on one stage in one night? Bill and I were thinking of starting a new soap opera: "In Search Of Monte's Sense Of Humor". We're still deciding. Adios.

Alex De Felice, Noise, 212-334-9268

Kreator's "Out Of The Dark, Into The Light" should be everywhere by now. The band is currently shredding the South on tour and will be coming into the Northeast region this week. Call us for interviews, I.D.'s, German lessons, etc...The band is unstoppable.... Voivod's "Dimension Hatross" continues through the solar system. "Tribal Convictions" is still receiving good airplay and placement on "Headbanger's Ball". Check out their twisted version of "Batman" from the CD. Rager's "Perfect Man" should not be passed up. Check out "Don't Fear The Winter", "Death In The Afternoon" and "A Pilgrim's Path". This album packs the power of a case of beer and three bean burritos, which is incidentally where I'm off to.
