FRONTRUNNERS

Capitol

STEVE MILLER

"YA YA"

Once again we get to talk about the new, improved Steve Miller, as the man with a rep for bending all the rules takes on yet another persona with this u-turn back to his roots.

Columbia

OMAR AND THE HOWLERS

"RATTLESNAKE SHAKE"

Hot on the heels of the T-Birds' red hot run on number one, Omar's latest leans on Jerry Lee Lewis and CCR for a brass belted bopper that's bound to be their biggest hit yet.

Atlantic

JON ASTLEY

"PUT THIS LOVE TO THE TEST"

Though Jon's name doesn't rank with Bowie, Palmer or Winwood in the suaveness sweepstakes—watch this naughty novelty foam female phones like nothing since "Didn't Mean To Turn You On"

RECORD OF THE WEEK

Reprise

BIG COUNTRY

"KING OF EMOTION"

In terms of delivering the killer cut they needed right on cue, "King" clearly comes through as this week's biggest winner. As Alan White calls it, "A big step forward in the presentation—more subtle, but still very tasty."

Steve Miller, "Ya Ya", Capitol.... When it comes to sonic innovation, Miller's the Merlin of them all, y'all. Through his twenty years on the scene, the one thing we've come to expect from this unique talent is almost constant change. Whether it's the look, the recording technique, or basic song structure, no one has demonstrated a more chameleon-like ability to roll the rock around with--and ahead--of the times. When the Space Cowboy cooled out, he came back as the Joker in '73, with a vocal approach most akin to that of today's rappers--one that turned the whole pop world around in about a week. Then came 1976's "Fly Like An Eagle", and '77's "Book Of Dreams", where he shed his skin once again with a synth approach that predated the synth/pop explosion by at least five years, and sold over seven million records to boot.... The innovation slowed in the early 80's, but hit singles like "Abracadabra" kept him in the public ear. And while 86's "I Want To Make The World Turn Around" did go to #1 at album radio, top 40 wasn't quite ready for yet another sweeping style change, this one foreshadowing the flowing, melodic style so prevalent today. Now he's at it again, with what history will prove to be the classic coffee-table stance on an old dance. Just think of it as Lee Dorsey on Windham Hill and you'll be half way around the track, Jack.

Omar And The Howlers, "Rattlesnake Shake", Columbia.... Power and not finesse is what makes this outfit shake, rattle and roll--and that means keeping things fairly straight forward and targeted right on the old moneymaker. We're talking a rough, gruff vocal approach that almost defies contemporary comparison, and a hammer claw guitar style that's rough by Mike Tyson's standards. I mean, this guy bends notes by literally bending the neck f'crissakes. So if in the first eight bars you hear snippets of ten of your Delta detonated roundhouse rousers there's a reason. Omar Dykes was born to raise hell, but thank God the blessed event happened about twenty years behind schedule. There are a million and one wanna be's, but this Texas tornado is the authentic item. If you've ever seen the band--or even done a phoner, you know what we mean. "Rattlesnake" is nothin' but a timecapsule houseparty, and we're betting you can watch this snake shake its way to the Howler's first multi-format hit.

HARD ACTS TO FOLLOW

Michelle Shocked, "Anchorage", Polygram.... Her "Texas Campfire Tapes" last year was a cult classic at the more forward thinking progressive stations, and considering it was recorded on a Walkman around a weenie roast, we can certainly understand the limited attention. However, this year's model is without a doubt a horse of a different color. Yes, we know the female thing is happening left and right, but Michelle offers what we'd consider a unique folk variation on the theme. Her voice is distinctive in its clarity and lack of electronic embellishment, and the album's subject matter -- from growing up in smalltown Texas to N.Y.P.D. brutality to the loneliness of far away friends is strictly a throwback to Kerouac. Few songs capture long distance angst like "Anchorage", and with early action at the likes of KBCO, WBCN, KTCL, and WHFS, this is one modern day child of the 60's you'd be remiss to dismiss without soundtracking through a rainy weekend.

Mark Ashton, "Caught Up On Love Street", RCA.... Chances are most of you out there in radioland don't remember Mark's work with Rare Bird, and we can't even guess how many of you remember Leon Russell's mid 70's stuff, or that of his cohort Marc Benno. Then again, how could you not hear "40,000 Headmen" in the intro, or David Gilmore in those fluid guitar fills throughout? "Caught Up On Love Street" is a musical mind tickler of the first order; one of the most effective mood pieces to hit our headphones of late. It's a little dark, but as Marrone says, not too damp--so drop it in and watch the penguins flounce.

Baxter Robertson, "Time And Again", Atco.... Not to imply that your ever diligent editors are hung up on credits this week, but didja notice that Bax's excellent new single was mixed by none other than Tom Lord Alge? Obviously Steve Winwood gave him the weekend off, and we're here to say the A-Man put the time to good use. Certainly we don't have to tell you this mixmaster has a radar ear for anything remotely resembling a register ringing chorus--and here he started with a goodun. A number of our reporters were captivated by the first track from this Lp, "No Simple Cure", and while that one brought Howard Jones to mind, from where we sit, "Time And Again" has more than the title in common with the Hooters' original rendition of Cyndi Lauper's hit "Time After Time". Look for surprising response on your very own "Dig It Or Die" feature.

Jon Astley, "Put This Love To The Test", Atlantic.... "Jane's Getting Serious" may have turned into a ketchup commercial, but before Heinz got hip, the tune's sophisticated music and message turned on adult listeners at least 57 different ways. True, the totally unorthodox sound took weeks and months to establish--but once on the air, the phone follow-through sealed the story. However, in these days of safe sex, we hardly expected Jon to up the randy ante to this degree, but you have to believe this track will get even faster reaction. Stylistically, we hear all kinds of Cars overtones, a la "Drive", and we don't have to tell you how Ric's throaty purr got those motors running. "This Love.." may be a little risky, but playing it safe is the last thing you want to do with acres of air between you and your intended. Plus, if you've ever met Jon you know he's one of the industry's true gentlemen. And probably all talk.

RECORD OF THE WEEK

Big Country, "King Of Emotion", Reprise.... It's tough to top a runaway hit record the first time out, especially from a band with such a high profile identity. When a bagpipe powered Celtic celebration takes the country by storm, there's really no sense in fooling with the formula. Unfortunately, it didn't take long to find it was time for a little sonic surgery--and the ecstatic reaction this week proves Stuart Adamson's overhaul this time was on the money. "King Of Emotion" starts with #1 Most Added honors, as 52 OTB adds cook up our highest 54* debut. KFMU's Dave Ross says, "They're back in a big way, with a song full of great hooks and cool vocals".... WGLF's Will Douglass adds, "I think this straight ahead, good rock and roll sound will do well"... And from KBOY's Bob Jeffries, "What a welcome relief to have them back. The most accessible, mainstream record they've had since the first one".... From WPYX's John Cooper, "First rate rock and roll. An excellent direction for these guys".... And from WGIR's Karen Small, "It has the patented Big Country sound and with the clean production you can hear the music clearly".

Al Stewart, "King Of Portugal", Enigma.... With the jury still out on the Nostradamus predictions, it's with no small sense of irony that one cues up Al's re-entry into the contemporary rock radio soundscape with similar uncertainty. As long standing fans of his singular ability to work history and mystery into his music, a la Donovan, we were most curious to sample his latest brew. Though time passages have not been kind to most of Stewart's seventies counterparts, it's at once apparent that Al's ticket is far from expired. This rock arrangement reveals his most skillful integration of the electric six string to date, with equally high marks for his surprisingly contemporary rhythm section. And above it all, that airy tenor presides, as proud and majestic as ever. Here's one return where talent and execution means one hell of a lot more than timing.

Vixen, "Edge Of A Broken Heart", EMI.... Once you've checked out the babe and the bike on the CD sleeve, and evaluated the flip side photo for core audience appeal--we strongly suggest you check the credits. "Written by Richard Marx and Fee Waybill. Produced by R. Marx." Vixen may be new to the game, but it's obvious they hit your desk with some serious hands on deck. This particular track starts with the kind of one listen hooks that made Mr. Marx last year's runaway rookie of the year, and the building keyboard intro and synth flourishes throughout flaunt the unmistakable Waybill flair. Any way you slice and dice it--from hooks to looks to packaging, playing and pedigree, this particular aggregation of rock and roll animals comes to you with all the right green lights.

YOU WANT ROCK...YOU GOT IT!
CROWDED HOUSE

ONE LISTEN AND YOU'LL
"NEVER BE THE SAME"

Produced By Mitchell Froom

Management By Gary Stamler

Crowded House, "Never Be The Same", Capitol.... These days it really doesn't pay to make "albums". Though consumers long for eleven more songs that dovetail into --and build from -- the number they hear on the radio, programmers prefer top tracks to roll like a row of dominos. Thus, we're not really surprised that this session's classic track has lain in pristine wait. It's as emotional, as evocative and as simply gorgeous a song as you'll ever hear or play. Please don't penalize the rest of the package for the first single's lack of CHR support. There's not a better example of an 80's approach to romantic writing and playing currently available on any album from any band. Just let your ears do the work, and your heart will follow.

The Bible, "Skywriting", Chrysalis.... Don't make the mistake of lumping The Bible in with any loose aggregate of "haircut" bands you'd care to bring to mind. Yes, they're British, and yes, they're new. But if you've spent time with the record you know they've got more in common with Paul Simon than Depeche Mode. Singable, memorable songs is what separates the man from the machine, and we feel The Bible towers over most of their European counterparts in that all important criteria. Vocalist Boo Hewerdine has one of the most unaffected and direct deliveries you'll hear, and the arrangements are equally at home in the context of what works on this side of the pond. "Skywriting" isn't the only world class melody on this as of yet overlooked gem--but in our opinion it's a significantly stronger starting card than "Crystal Palace".

David Drew, "Safety Love", MCA.... "Green Eyed Lady" was ample proof that David could belt with the best of them, but then again, we all knew turning a fifteen year old standard into a modern day contender was work cut out for King Kong. And as well as the cover performed, little did we appreciate the fact that the man with those monster pipes was also a writer of equal prowess. "Safety Love" is all balls and swagger, with just the right amount of snarl and punch to establish this artist in his own right. The verse may conjure up Billy Idol's "White Wedding", but the multi-layered middle eight really sets the tune apart. Doesn't happen often, but look for this hard charging original to do a lot more rock and roll damage than the remake that put this big voice on the map.

John Hiatt, "Slow Turning", A&M.... Frankly, we feel you'd have to be totally out to lunch upstairs not to know how large John looms in contemporary critical circles. Yeah, we know, that and a quarter will buy you a cuppa hot water. But even if you don't read the consumer press, certainly someone you know has seen this can't miss live performer. Hell, we see everyone who's anyone--and short of Graham Parker or Joe Jackson no one comes close in terms of up-close charisma. But it's not glitz and charm that fills the back of the hall--it's songwriting wedded to an electric immediacy only a few performers in any generation attain. That's the pitch: Now the numbers: Out of the box on 29, including KISW, KMOD, KXRX, WKLS, WLLZ, WNEW, WRXK, WXRT, WKLS, WPYX and WMMR. The track's new at 83*, ain't that great! Spend a little time with "Drive South", "Ride Along", "Paper Thin", and "Tennessee Plates".

Gary Wright, "It Ain't Right", A&M.... If you've heard the album, you ain't heard this song. Though Gary's solo success is built on trademark layered keyboards, what it takes to lock up that fire hardened AOR list these days is a liberally front loaded guitar. And the solo on this one grabs you by the ankles inside the first sixty seconds. Match that nasty ass guitar with the his grittiest vocal performance since Spooky Tooth's "Evil Woman" days and you've got a comeback track that is a hell of a lot closer to what's right for the tough turf of Eighties AOR. Again, with "Dreamweaver" still one of Classic rock's most rotated core tunes, this man will always a merit a serious second look.

IMPACT TRACKS

The Hothouse Flowers, "Don't Go", London/Mercury.... If you think by ignoring this band they will go away, you had better think again. CFOX, KDKB, KMJX, KRQR, KZAP, WAOR, WEZX, WIMZ, WPDH, WRKI, WZZO and a dozen more adds this week bring the station count up to 116. Increased at 15 including CFNY, KISS, WCCC, WHFS and WRCN where Monsig. Thomas McC Calderone took time out from his Bingo game to say, "Go with the buzz and the hype, everything you hear is true. Hothouse Flowers will be around a long, long time. This album is every bit as loaded as the 10,000 Maniacs, it's got legs to go the distance".... I love it when Monsignor Tom talks about legs, WFNX's Parish priest Fr. Bruce McDonald, leaves the confessional with this advise, "The Hothouse Flowers not only have a major buzz on the alternative circuit, but as far as I'm concerned it's at least as accessible as anything on mainstream AOR".... 38-26* on the HH.

Bruce Hornsby and the Range, "Defender's Of The Flag", RCA.... The second most added song this week sees 45 on this latest priority from Bruce's 33 1/3. Flag wavers include KDJK, KDKB, KEZO, WAOR, WAPL, WDIZ, WEZX, WHMD, WIXV, WNEW, WPLR, WRFX, WRIF and WZBH where Jenni Gipe explains her strategy, "Bruce Hornsby's 'Defender's Of The Flag' will bring people back to the way they felt about him when 'The Way It Is' came out. A real nice bluesy tune from the Range".... The live version on the CD gives you a chance to play this track even if you've been on it for a while. The biggest move with a mega 60-28* leap on the HH, we see no reason this won't Gallup into the top ten before long. WAAF's Rick MacKenzie slides down the pole with these comments, "By far the easiest add was Bruce Hornsby's 'Defender's Of The Flag'. This is the song from the album that will remind the core audience that Bruce can rock out".... On 84 with Heavy play on KISS, KVRE, WBLM, WGIR, WIOT, WLAV and 8 more.

Edie & the New Bohemians, "What I Am", Geffen.... When a new artist comes out of nowhere to cause this kind of buzz, ya'll better be payin' some mind. I mean a 21 position jump, 87-66*, on the Hard Hundred is about as easy tossin' cowchips over the moon. Ten more adds this week including, KKDJ, KMOD, WEZX and WXRT bring the station total up to 47 with steady action on KBCO, KBOY, KJET, KLBj, KRXQ, KRZQ, KTYD, KVRE, WDHA, WFNX, WGTU, WHCN, WHFS, and WHTG where Rich "Marshall Dillon" Robinson 'splains, "Edie & the New Bohemians have created the biggest buzz in our market, and deservedly so".... WIXV's head wrangler Virgil Thompson is plum beside hisself with glee, "There's a new artist and song out that really excites us here. Hey, I don't usually even comment on tunes--- I don't have the time each week. But I must tell the Edie & the New Bohemians story. Richard gets credit for hearing it and playing it first. 'What I Am' is a captivating song. Edie's voice piques the interest, and the 'Wah-Wah' guitar makes it truly unique. Personally, I love it---and the best part is the audience agrees! We had played the song a total of maybe six times, and it was top 2 requests. Then #1 the next week. We're talking all demos here, ala Tracy Chapman".

Huey Lewis, "Small World" (Pt. 1 & 2), Chrysalis.... Now, repeat after me--"It's a small world after all..." O.K., I'm better now. Seriously, this tune proves that musically speaking, it is a small world. Jazz is, at the very least, the great uncle of Rock and Roll, and we can't think of anyone better than Stan Getz to get that point across to your listeners. KBOY, KGGO, WAOR, WHMD, WIXV, WLLZ, WPDH and 13 more break down their playlist barriers this week. KZEL's always inquisitive Al Scott asks, "Can the audience get enough Huey Lewis? We've added 'Small World' this week, and the phones continue to smoke for this guy".... Another viewpoint, by way of KPEZ's Elise Vanderborcht, "How about Huey Lewis & the News with the Tower Of Power Horns! 'Small World' will work much better for us and it proves once again that Huey is a force to be reckoned with".... On 53 reporters, our 5th biggest mover, 68-47* on the HH.

John Cougar Mellencamp, "Rave On", Elektra.... This remake of the Buddy Holly chestnut gets the nod at CHEZ, KFMQ, KILO, KKDJ, KOZZ, WZXL and more than another half a dozen reporters. The intro really hooks the imagination and the heart and soul of this remake embellishes the original without trampling its spirit. Steady on 27 including, CHOM, KBCO, KGB, KRQR, KRXQ, KTYD, WHCN, WNEW and WBCN where Carter Alan is more than a little impressed, "Love John Cougar Mellencamp's new 'Rave On', what a great country honk arrangement of the Buddy Holly classic".... WAPL's Rick Panneck has results and predictions, "Creating an incredible amount of reaction, Mr. Cougar is top 5 on the phones. This could be a number one single at CHR, and AOR, for that matter too".... Moves 73-52* on the Hard Hundred.

Robert Palmer, Early In The Morning, EMI.... Debut at 62* not only rhymes, it tells the story of this sleek follow up to the #1 "Simply Irresistible". Boppin' Bob brings down 37 studio floors this week including, KDKB, KISW, KLOL, KMJX, KRQR, KRXQ, KRZQ, KVRE, WAPL, WCCC, WDIZ, WEQX, WEZX, WLLZ, WLVQ, WMMR, WNEW, WPDH, WPLR, WRIF, WYNF and WZZO. Let's face it, with the success of this new LP, you may never get the chance to see Mr. Palmer in a small hall again. With that in mind, direct those envy loaded letters to WLVQ c/o Wendy Steele, "Robert Palmer's 'Early In The Morning' is a good follow-up track and goes in this week. He played our Agora type club on August 7th, which holds about 1,250. He was as hot as a firecracker, we had a great time. It was unbelievable to see him in a club setting".... Sure Wendy, rub it in, we love it.

Buckwheat Zydeco, "Why Does Love Got To Be So Sad", Island.... Come on all you fence jockey's, wake up and smell the gumbo, this is record that demands your attention. Twenty-plus adds this week, including CHEZ, CHUM, KDJK, KEZO, KLOL, KOZZ, KSJO, WBLM, WCCC, WPDH and WXRT make for a spicy 65-46* slide up the HH. The smell of hit potential is almost as strong as a Bourbon St. cookout during Mardi Gras. KDJK's Randy Maranz digs in, "My fave of the week has got to be the Buckwheat Zydeco. Add a little Cajun spice to your life and enjoy the accordian as it should be. And what more can you say about the guitar of Eric Clapton?".... WLAV's head chef, Dave Lange, makes with the vocal stew, "The Buckwheat Zydeco took me by surprise, it's a great record".... On 66, oh-oh, one more 6 and we're in trouble.

"Folkways", Various Artists, Columbia.... It gives us a warm feeling all over our bodies when a project so near and dear to us inspires the AOR community to rant and rave en mass. WONE's J.D. leads off with, "I was knocked out by Bruce Springsteen's version of 'Vigilante Man' and 'I Ain't Got No Home' along with Dylan's version of 'Pretty Boy Floyd' and U2's impeccable touch on 'Jesus Christ'. This is a must LP for the Rock and Roll Enthusiast".... next we'll go to KGB and the lovely Pam Edwards, "Hallelujah! It absolutely makes my week whenever a new U2 song arrives at the station, but this time it's even better because I can go on the air and say, 'This is Pam Edwards, with Jesus Christ, rockin' you at 101 KGB-FM.' It really makes me smile and the rest of the 'Folkway's' record is great too".... The album debuts at 49* with U2 leading the way as the 5th most added track. 32 OTB including KGB, KISS, KISW, KSJO, WAAF, WBCN, WGIR, WIZN, WLLZ, WMMR, WONE, WPLR, WPYX and WZZO. Bruce Springsteen's "Vigilante Man" grabs 12 OTB with KBCO, KISS, KSJO, WGIR, WONE, WRXK and WZZO included. We'll let Carter Alan clean the bases from the WBCN dugout, "I can't say enough about the U2 track from 'Folkway's'. Not to mention all the other fine tracks from this album, but U2's rendition of 'Jesus Christ' just makes my spine tingle. The record is a runaway hit on WBCN, followed closely by Springsteen's 'Vigilante Man'. Hat's off to Columbia, the Smithsonian and everyone involved in the project".

Phil Collins, "Groovy Kind Of Love", Atlantic.... This first single from the forthcoming "Buster" soundtrack finds our hero in a mellow kind of love mood. While it may be a little soft, we show 15 OTB including, KBLE, KZEL, WMMR, WNEW, WDIZ and WZZQ. With a debut at 98* on the very misty Hard Hundred this song is starting to prove that it is loaded with the ever elusive female/upper demo appeal that makes for a big audience pleaser. WONE's resident mindbender, J.D., is proof that you must listen more than once, "When I first heard it I thought they had to be kidding. But I got hooked with a few more listens".... He's always scored big as Ben with those distinctive ballads and we see this as no exception.

Frozen Ghost, "Round and Round", Atlantic.... The base is now up to 85 with 19 new adds including WBCN, KBLE, KISS, KLBj, WEGR, and KTXQ where Redbeard explains the appeal, "Frozen Ghost 'Round and Round' is a very delightful, one listen hook".... Steady air on CFOX, CHEZ, CHOM, CILQ, KEZO, KILO, KKDJ, KOME, KOZZ, KRXQ, KSJO, WAOR, WCCC, WDVE, WHCN, WIOT, WLAV, WLVQ, WNEW, WONE, WRKI and many more. WVV's Butch Lazorchak has nice things to say about his Canadian cousins, "The new Frozen Ghost is very crisp and bright. It reminds me of the Fixx somewhat".... Could it be that all the critical investment in this band the last go round is going to pay off with a string of format busters? Does that 45-34* on the Hard Hundred tell you anything, Bunky?

Cinderella, "Don't Know What You Got...", Mercury.... CILQ, KDJK, KEZO, KGON, KLOL, KRXQ, KSJO, WAOR, WCCC, WDVE, WEGR, WIOT, WONE, WZZO and 22 more, make Cinderella the third most added here at Hard Castle. A regular "magic kingdom" move, in fact, the 4th largest, 57-35* on the HH. KDJK's prince Randy Maranz whips out his scroll and reads, "Cinderella's 'Long Cold Winter' is a truly fine L.P., we're 3 tracks deep right now and we expect more in the future. 'Don't Know What You Got' is a great record and it's doing real well for us right now".... WZBH's Jenni Gipe puts on her Princess voice, "The ballad from Cinderella is going to give them Platinum slippers"....and who could forget the dashing WIOT music king, Jim Steel, "This could be bigger than 'Nobody's Fool' from 'Nightsongs'".... It's easy to see, Cinderella knows exactly what they've got---a hit.

"WHERE'S LORRAINE?" TEXAS! CALIFORNIA!

AND THIS IS WHAT PEOPLE ARE
SAYING...

Jeff Carrol - KLBJ

"The thermometer said it was over 100. The hottest thing on Lake Travis Friday afternoon was Lorraine Lewis of Femme Fatale. The listeners loved her."

Rcn Nenni - KOME

"Lorraine's got the voice, the looks and the goods to cause a major commotion on the radio."

Boobie Bondage - Z-ROCK

"It's easy for one rock 'n' roll lady to recognize another rock 'n' roll lady and I sure saw one in Lorraine Lewis of Femme Fatale."

Magic Mike Ramsey - KLAQ

"Lorraine is truly an enchanting lady who loves fajitas, the big ones."

Wild Bill Scott - Z-ROCK

"I was pleasantly surprised with Lorraine. She will be a star."

New this week at KGB, KRXQ, WLZR, KAZY, WRDU, WLLZ, WHTF, WAQY, WWTR, KPEZ, KMJX, KQWB, KFMZ, WRUF, KZOQ

FEMME FATALE "WAITING FOR THE BIG ONE"

PRODUCED BY DAVID COLE MANAGEMENT: FRONT LINE MANAGEMENT

MCA RECORDS

© 1988 MCA Records, Inc.

Colin James, "Voodoo Thing", Virgin....

The add's keep rollin' in for this Canadian guitar wonder. 25 plug this axe in to their playlist including, KBPI, KMJX, KOME, KOZZ, KRXQ, WAOR, WEGR, WGIR, WLWQ, WPLR, WRKI and 14 more. Increased at KLOS, KZRR and WCMF, with total air saturation reaching a total of 80 stations. **WGIR's Jon Erdahl** was the recent victim of label kidnapping, he explains, "Virgin Record's Tom Jodka personally threw me into a room and made me listen to Colin James' 'Voodoo Thing'. Tom, there's no denying it, this record has the goods. I'm putting it in this week, way to go".... You better watch your back, you never know when this could happen to you. Be safe, tie yourself up and listen, the add will be an automatic. 51-39* on the Hard Hundred.

Patti Smith, "Up There, Down There",

Arista.... This is the one, boys and girls. "Up There, Down There" has been our favorite on the album since the first listen and soon you'll understand why. Debut at 88* on the Hundred, with adds at KBOY, KFMU, KLBK, KOZZ, KVRE, KZRR, WCCC, WHMD and close to half a dozen more. The power and passion of this tune will leave you and your listeners quivering like a bowl of day old jello. But don't listen to me, ask **WIZN's Tom Van Sant**, "No greasy comb for us, Patti Smith's 'Up There, Down There' is now an official add, although we've been playing it from day one. 1988's best album deserves it".... On 30 already with, steady as she goes, air time at CHEZ, WBCN, WGIR, WLLZ, WNEW, WRCN, and more.

MORE HARD ACTS**Smithereens, "Drown In My Own Tears",**

Capitol.... This track was the favorite of quite a few people right from the start. In fact, down at **WWWV, Dave Cowan** threw it right into heavy rotation when the album was released. And he's so damn smart that he works for us now! O.K., after that endorsement we thought you would demand to hear from some "real" radio people, and we've found **Pam Edwards** and **Redbeard** in total agreement. Pam first, "The Smithereens success story continues at **KGB** with 'Drown In My Own Tears'. I fully expect to play at least two other tracks from this record. The strength of this band shows up in requests, sales and research".... Meanwhile at **KTXQ** in Dallas, **Redbeard** says, "I think we could end up playing every song from the Smithereens album. They bridge the 60's and 80's while kind of skipping over the 70's".... Adds from KACV, KATP, KEZO, KGB, KJQN, KLOL, KOME, KPEZ, KRQR, KRQU, KTXQ, WGIR, WHEB, WIXV and WZZO stacked to a base of 25 stations brings the track 100-76*. One of the biggest gains of the week.

Psychedelic Furs, "All That Money

Wants", Columbia.... A return to guitars and some nifty turns of phrase that highlight the band's almost supernatural songwriting ability mark this remarkable song. At **KLOL David Sadoff** lines up for this action in double quick time, "This is an automatic. In fact, we've been playing it off the import CD for about two weeks now." You got it, the hunger is out there among the faithful and this song will definitely sate them like nothing else can. Adds on KISW, WBCN, WAAF, WXRT, WNEW and WEQX help along that 72* debut on the Hundred this week. New music mavens WFNX and WDRE already have it in Heavy and more will soon follow.

Reckless Sleepers, "If We Never Meet

Again", IRS.... The music of Jules Shear has inspired dozens of mere mortals over the years but label wrangling and the inability to find the perfect musical compliment to his vision have postponed the big screen success that has always been in the book. This new configuration, however, throws a very flattering light on the talents of Jules and radio is beginning to catch on. "This song should not be a sleeper but will, in fact, do really well for the format. Give it a listen", is the verdict of **KDJK's Randy Maranz** and **KMOD, KJET, KATT, KBCO, The Loop, WBCN** and **WPLR** are all in total agreement. Jules makes a solid 76-67* move this week and we anticipate more asleep at the wheel type folks to wake up and smell the coffee real soon.

Femme Fatale, "Waiting For The Big One", MCA....

When we first peeled the plastic off this one it was reasonably forgivable that the photo treatment of leading lady Lorraine Lewis pushed all other considerations aside. But with new play on **KGB, WLLZ, WRDU, KPEZ** and **KMJX** and a continuing love affair at steady rockers like **KZAP, WZZO, KJJO, WLZR, WFBQ** and **KBOY** where **Bob Jeffries** tells us, "One of the strongest tracks we've had on the air in the past three months." Look for Lorraine's personal appearance tour to light a fire under even more red blooded PD/MD types. "We are already getting good response from the phones for Femme Fatale", Says **WNPQ's Eric St John**, "We expect big things from this record." Check that 89-74* jump on the HH and remember, in America bigger is definitely better.

Winger, "Madalaine", Atlantic....

This power rockin' track has really started to come in on all fronts. "We like to play records for nice guys and Kip Winger is one of the nicest", so sez **Karen Anderson Small** at **WGIR**. How about that, an add on the nice guy scale. Other stations are jumping on board this never say die bump and run monster. Let's face it, when it comes to a high insulation rocker this one is tough to top. Adds on **WONE, WHJY, KSJO, KNCN** and **WXRC** and steady airplay at **KAZY, KBPI, KGB, WDIZ, WFBQ, KNAC** and **WLLZ** all spell a respectable 70-65* move on the Hard Hundred. These guys have a chromium polish sound that could blind lesser talents and will most certainly put your audience on notice that you still know how to rock.

David Lindley, "Never Knew Her",

Elektra.... Yeah he's greasy. Yup he dresses like Uncle Elmo on some bad Nightrain. And sure, he isn't likely to get too many commercial endorsements from Nexus. But who cares when one humanoid can sit down and make the guitar do a dance the way David can? This outing by El-Rayo-X is already getting big support on **KMBY, KTYD, KZAP, WBCN, KRQR** and **KRXQ** with a 99* debut to show this week for all that good taste in music. "Oh God is that song fabulous. Talk about your party records", according to **WWCT's Paul Nelson** and over at **KFMU David Ross** puts it this way, "David Lindley has put out an album that is truly incredible. This is the strongest thing David has done for quite awhile."

Peter Cetera, "You Never Listen To Me",

Warner Brothers.... We bet that a few of you still haven't listened to this track. You think you're too big and tough to play Pete on your radio station. Still you should know that this was our second biggest mover on the Hard Hundred with a huge 88-58* jump. Try a little experiment -- feature the song on the air, but don't pre-sell it. Then just try to count all of the inquiries you get about that new "Pink Floyd" tune your listeners just heard. If you're still squeamish, back-sell the song as David Gilmour with Peter Cetera, and everything will be cool. Would I lie to you??? Check the stations in already: **WQMF, KSHE, WLLZ, WNOR, WEBN, WFBQ, WDIZ** and **WLWQ** --a bunch of heritage rockers who aren't about to let clouded perceptions get in the way of a winning tune. Listen to **Lori Nicks** from **WYBB**, "Peter Cetera and David Gilmour, what a combination! I must admit I was a bit skeptical -- but it works, and works well"....

Michael Anderson, "Until You Loved Me", A&M.... With "Sound Alarm" leaving its mark among ear-sensitive programmers, it is a pleasure to note the 85* debut for Michael's second track. We show 32 stations already serving up the second slice, and what's most impressive is the weight behind this track. Michael is from Detroit, where quality is job one, and just check the quality behind the calls this week: KLOS, WLZR, WLLZ, KEZO and KFMM are among the 12 new adds. They join up with such early believers as WKLS, WLAV, WYNF, WCCC, WDHA, and KMOD. He's already getting recognition as one of 1988's brightest new faces, and with those kind of call letters in his corner along with a huge considering list, Michael's going to have a great run on this track--it's just a matter of time.

Pat Benatar, "Don't Walk Away", Chrysalis.... Rock radio welcomed Pat back after a 2+ year lay-off with a #1 reception for "All Fired Up". It appears that the time off was quite beneficial--not only did it fuel Pat's creative fires, but her absence seemed to make the listeners grow fonder as evidenced by weeks of strong requests. "Wide Awake In Dreamland" is so strong that the second track must have been a tough call. Still, we think that "Don't Walk Away" is an excellent choice. So do KATP, KFMH, KKAZ, KKDJ, KRXQ, KTYD, WKQZ, WKRR, WLLZ, WMJY, WPLR, WWCT, WXRC, and WZXL who joined up with early birds KDKJ, KFMU, KILO, KMOD, KRZQ, KSQY, KWHL, KZAM, WAPL and WRIF. It's a debut on the Hard Hundred this week at 92*.

Henry Lee Summer, "Hands On The Radio", Epic... The third file from this haystack burner is winning new ground week by week. If you haven't checked the figures recently, allow us to point out that "Hands On The Radio" has quietly crept up to 32* on the Hundred. Get ready for more of the same in the wake of this week's 9 point hike on the chart. Let's give a tip of the hat to KATS, KGB, KGGO, KMJX, KNCN, KQWB, KZEL, WAAF, WEGR, WHEB, WJXQ and WRXK for the adds in conjunction with rotational increases at KMBY, KRXQ, WFBQ, WONE and WWWV. Over at KZEL, **AI Scott** exclaims, "Henry Lee Summer comes up with one of the best real rock radio songs of the season"....

CHARTSTARS

Tommy Conwell, "I'm Not Your Man", Columbia.... On the strength of a 12-7* move, you can now call him "Top-10" Tommy; but we're sure to have a new nick-name for Mr. Conwell next week since this cut is climbing up the Hard Hundred faster than 2 monkeys chasing a lion up a coconut tree. "I'm Not Your Man" debuts at #7 most requested and the phones are rumblin' often at KMJX, KPEZ, WDHA, WEZX, WIBA, WXLP and a dozen others. Also noted from the "quite impressive" department are rotation increases at 25 reporters including KMOD, KOME, WBYR, WGTR, WMMR, WNOR, WQFM and WWWV. Enjoy the single now, and start familiarizing yourself and your listeners with the rest of the lp soon. As **WGIR's Karen A. Small** puts it, "The Tommy Conwell record is really growing on me. It's full of great music that keeps you coming back for more".

Glenn Frey, "True Love", MCA.... Properly used in the right places, this bouncy effort from Glenn could do your station a world of good. **AI Scott** of KZEL has advice for programmers under demographic duress, "Glenn Frey, a jug of wine and thou... that's just about all anybody needs for one real exciting Saturday night. Face it, this guy is better than deep massage for loosening up those female demos".... This week, Glenn loosened up a few tight playlists as well with impressive adds from KBPI, KLOL, WDVE, WMMR, WZYC and several others. The adds and the increased airplay on 21 stations sends "True Love" soaring 23-15* on the Hard Hundred. Also note the request action starting up with good phone reports in from KGGO, KKAZ, KWIC, WKLC, WRUF, WWRX, and WZXL. The lp is deep enough to keep you in new material from Glenn right into 1989.

Bad Company, "No Smoke Without A Fire", Atlantic.... "All is forgiven, please come home to rock radio" seems to be the sign hanging in the window of most AOR's regarding the welcome return of Bad Co to the airwaves. Even in markets where the programmers were skeptical, the audience is helping to tip the scales in favor of the "new" old sound of the band. Witness top-5 phones already reported at KATP, KBOY, KJOT, KLOL, KMJX, KOME, KQRS, WAPL, WDVE, WKQW and at KNCN where **Tim Parker** is impressed, "Bad Company goes into heavy. I mean, #3 requests in a week is really amazing".... New play from KGB, KISW, KTXQ, KYYS, WKFM, WKRR, WRIK, WZZO and 20 others leaves very few hold-outs and moves the song 27-22*. We think that **Eric St. John** at WNPQ is right on target, "Bad Company is gonna hit and stick around here. This song is just about ready to breakout big and is a must add to any playlist"....

Graham Parker, "Don't Let It Break You Down", RCA.... Don't be surprised to see "The Mona Lisa's Sister" rated as one of 1988's very finest when all those year-end best-of lists come out. Few in this generation can match Graham for wit, wisdom and songwriting skills. Fully recovered from an almost lethal dose of "Mercury Poisoning", Graham vents his frustration while offering a message of hope tidily packaged into a driving melody. And can this guy sing! "Don't Let It Break You Down" is up 6 points to 48* and nabs 6 new stations: CHEZ, KDKJ, KEZO, KISW, KPLX, and KQWB. A quick check finds support from KBCO, KILO, WBCN, WCCC, WLAV, WMMR, WNEW, WWWV and nearly 40 others so if you played "Get Started (Start A Fire)" then this should be a natural follow-up.

UB40, "Red, Red Wine", A&M.... Pay attention now, and we'll help you find a hit record. First off, don't look for the "new" UB40 single on the new UB40 album "Labour Of Love" 'cause it ain't there. No, it is not a cruel hoax or some sort of a CD-only bonus track. "Red, Red Wine" is actually several years old. You see, earlier this summer, some CHR-type in the South-west started giving the cut regular air play, and it developed into a #1 request record. Now A&M is taking the song to the open-minded folks at rock radio who were responsible for turning Ziggy Marley into gold this year. "Red, Red Wine" is already on at KLOL and WNEW where it's getting top-5 phones! Dig around in your CD-pro pile and take this one into your next music meeting.

Robert Cray, "Don't Be Afraid Of The Dark", Mercury.... Robert is closing in on the absolute upper reaches of the HH after a 4-3* move this past week. "Don't Be Afraid Of The Dark" is one of those songs that fits perfectly around anything else you might be playing. After airplay increases on KATS, KCAL, KGB, KJOT, KLOS, KLPX, KBMY, KOZZ, KRQR, KSHE, KZAP, WCKW, WIMZ, WPYX, WRDU, WRUF, and WRXK the vast majority of our reporters are enjoying Robert Cray in heavy or power rotation. 12 stations are tracking top-5 phones including KRQU, WIZN, WNGZ, WWWV and at KZEW where **Jimmy Christopher** raves, "I just can't get enough of the Robert Cray. This song is such a winner that the format can't go wrong with this track".... Amen, and nuff said.

Little Feat, "Let It Roll", Warner Brothers... While "Hate To Lose Your Lovin'" remains firmly entrenched at the top of the Hard Hundred, the title track continues to take new territory and the result is a 28-23* hike this week. New play on 18, including heavyweights like KLOL and WIYY while down on the KTXQ farm **Redbeard** relates, "When Little Feat fires up on 'Let It Roll', it's just like motoring down the highway in a big 12 cylinder Packard--it really cranks".... The track moves up to heavy at KEZE, KILO, KQRS, KRQU, WWRX and WYNF, where at a recent Feat show, **Charlie** "rocket in my pocket" **Logan** actually danced in public for the first time since a 1976 Sadie Hawkins event. Sez Charlie, "I'm so stoked to know that there's a band that can still motivate me to boogie my scruples away".... We're "Willin'" to bet that this will become only the second of several top ten singles from the rejuvenated Little Feat.

MAJOR MOVERS ARE BOXED AND BOLDED.
➤ INDICATES A CHART DEBUT.

While **Little Feat** continues to nail down the top of the Winners Chart in convincing style, the big moves are among those who most want to dethrone the Feat-sters. Although the **Fab T-Birds** remain strong in their 2* post position, the real class act comes from the direction of **Robert Cray** whose big 7-3* jump polevaults the competition and sees increases at KGB, KLOS, KSHE, WPYX and WRXX. This slice of original American music is a welcome change of pace from some of the sliced and diced, freeze dried platter product on the shelves right now. Seeing Robert do well is a terrific validation of the format's health and well being. Coming in on Robert's tail like a flaming cheeseburger from your local Graceland Drive-

Thru is the remake of "Don't Be Cruel" that has **Cheap Trick** once again sampling the rich and famous heights of a 9-5* week on the Winners Chart. Big rotational ups on WRDU, KZAP, KRQR, KLPX and KLOS help keep the momentum up and running with no obstacles in their way.

New to the Top Ten and looking every inch like the young Turk they have positioned him to be, **Tommy Conwell** takes his stripped down straight ahead style into a 14-8* week. This guy is really straightening a few wigs with his debut song and **KATT**, **WKDF**, **WNEW**, **WIYY** and **WZZO** are all getting the most mileage possible out of this tailor made format zoot suit. Also new to the penthouse club this week is **Rhythm Corps** with **KEZO**, **KGB**, **KMOD**, **KTXQ** and **KISS** all finding room to bump up their rotational commitment to this class act. That 10-9* week is yet another testament to the format's ability to hear and believe in new bands. We can all take a bow on this one.

Among the starters over the last few weeks that have kept their pace **Bad Company** is definitely the band to watch. After some neck and neck weeks on the chart, "Smoke Without Fire" kicks it into high gear and zooms 24-14* as a result. New play on **WAAF**, **WPYX**, **KGGG**, **KFMQ** and **KYYS** are elevating that performance curve and you know that a number of well heeled stations are going to up their rotational ante next week. There is still plenty of head room for this little devil but you can track Heavy airplay already on **KEZE**, **KLOL**, **KQRS**, **WBCN** and **KZAP**. Snarling guitars interlaced with that primal **BadCo** backbeat and it looks like another format sizzler.

Huge moves for **Cinderella** this week on a rising tide of adds from **WOUR**, **KMJX**, **KLOL**, **WKDF**, **WIOT**, **WFBQ** and **KEZO**. That almost astronomical 45-27* leap through time and space sees "Don't Know What You..." get some plasma drive going with the premium players out there. The **Georgia Satellites** are slipstreaming with an impressive 47-29* run helped along with new play on **KATT**, **KLAQ**, **WGLF**, **WHJY** and **WONE** while that Heavy airplay on **WRXX**, **WBCN**, **KISS** and **KGON** is keeping the game lively for those bar band fans. Critical success is bound to be followed by commercial breakthrough this time out for **Frozen Ghost**. "Round And Round" is getting some muscle moves on **WIYY**, **WBCN**, **KTXQ**, **KLBJ** and **KISS** and that strong 42-32* hammer job on the Winners Chart is the sign that the format has a very good memory when it comes to this band.

He's so sensitive. What a father figure. We're talking about real thirty-something market values here. **Rod Stewart** eschews some of his rowdy past for a cheaply shot and touchingly effective video. Right down to the little red haired tyke, the whole package breathes maturity from the guy who was still pumping hot legs when most guys are shopping for that tummy tuck. "Forever Young" angles for some fast rising action with **CFOX**, **KMOD**, **KTYD**, **WIYY** and **WAAF** helping put this track at 34*. **Colin James** is out there on the road opening for **Steve Winwood** and his set is turning heads from Biloxi to Boise. Colin is showing that there is always room for another blues based rocker with enough grit to grind the paint off your Mustang convertible. **KATT**, **KBPI**, **WLVQ**, **KZAP**, **KMJX** and **WHJY** are all in a conga line for this guy and his 35* debut is just the beginning friends.

New music from the **Moody Blues** is getting the red carpet treatment from **KLOS**, **KMOD**, **WBCN**, **WAQX** and **WHCN** and "Here Comes The Weekend" gets up to a 42* showing on the first week out. These guys remain a lock with that upper crust demo and any detour around their music is just plain ill advised. The man with a wardrobe all in primary colors, **John Kilzer**, is back with a second track that is doing well on **KTXQ**, **WCMF**, **KLBJ**, **KGON** and **WFYV**. "Green, Yellow and Red" clocks in with a 43* this week that belies the momentum building for this artist.

Some other new faces this week include a bigger than big showing for the **Smithereens**. In a huge vote of confidence for "Drown In My Own Tears", format leaders have carved out a 45*/76* differential from the rest of the format. That's a 31 place shift! Make no mistake, this song is a real tastemaker and the rest of the format will soon be pulled along after the format leaders on this one. Included in the cavalcade of winners on this track are **KGB**, **KLOL**, **KRQR**, **KTXQ**, **WZZO** and **KILO**. The guys at Capitol can just phone in their adds next week. This is an automatic or your name is **Buster**. Finally, we have the second song from **Gregg Allman** getting on the chart with a 48* debut this week. This is also a big lossleader selection for winning AOR's as the format at large is lagging at a 63* pace. **WIOT**, **KISS**, **WDIZ**, **KQRS** and **KBCO** are all on the front line for this one. Put this on right away and then sit back and start looking clever about how good your hit radar is.

Bob Jeffries, KBOY

"'King Of Emotion' is the most accessible record they've had in a long time and it's a welcome relief to have them back!"

Dave Ross, KFMT

"Big Country is back in a big way with 'King Of Emotion'. It's full of great hooks and cool vocals."

Karen A. Small, WGIR

"The thing that immediately strikes me about the new Big Country is the big, clean production. 'King Of Emotion' has their patented sound and you can hear this one loud and clear."

John Cooper, WPYX

"'King Of Emotion' is excellent, first rate rock and roll."

NEED LITTLE HYPE

LEE HAS A BIG WEEK

Following close on the heels on the announcement that Lee Abrams has become the National PD for Shamrock, came word that Lee is also taking over the direction of Satellite Music Network's Z-Rock format. As Shamrock chieftain, Lee will oversee programming at WDIZ/Orlando, WQFM/Milwaukee, WEZX/Scranton, WGRX/Baltimore and KMYZ/Tulsa while continuing to develop some of his newthink program concepts for the market at large. When we got to Lee he was just arriving in New York and jamming to another big meeting. "This is gonna be unbelievable. If our Z-Rock doesn't become the MTV of radio, the first real radio superstation, then it's all my fault. All the tools are here along with a solid commitment from the corporation." When asked how this dovetailed with his Radio Lisa plans, Lee told us, "The idea I had for Radio Lisa came to me years ago and this is the perfect outlet for it. At first I was concerned about SMN's desire to really do what had to be done to make it big. But not anymore, the company is really supporting this plan in a very impressive way." How will the music develop? "We will be heavily into quality bands like Def Leppard and those newer bands that work in that context. It won't be irritatingly hard but it will feature those bands that are considered hard rock by the public." Meanwhile over at Z-Rock, **Wild Bill** and **Boobie Bondage** are out the door as Lee enters with his title of Managing Director for the format. Look for the demo target to become an expanded 15-34 base with a high profile personality mix that will be very foreground, "I'm committed to helping rerevolutionize rock n' roll radio. We want to balance the riveting excitement of Top 40 radio back in the glory days with cutting edge AOR music." And what about his plans over at Shamrock where his stable of stations is in good health? "We'll be getting together for some meetings before the NAB and see what comes of that. But don't look for any massive changes." That would make sense with stations like WDIZ continuing to post impressive numbers in their head to head confrontation with WHTQ. **Rad Messick** told NOISE, "It's great to be able to continue my working relationship with Lee. I started working with him in 1974 at WQDR and it is really great to have somebody on our team with the national visibility that Lee has. There is nothing like having an idea person of Lee's stature on the team." Over at WQFM there's a new morning show and PD and a seriously upgraded attitude from management down to the guy who makes the coffee. PD **Keith Masters** opines, "I'm thrilled to be working with someone like Lee that "sees" radio in technicolor like no other." Look for Lee to surface like a devilfish in heat for the next few weeks. With all this "hands on" work to do, you just know the guy is going to get down in the trenches with dramatic effect. This is going to be fun to watch. In any case, we'll be talking to Lee in depth about his complete plans for the industry at large in future issues of the Hard Report.

It's a sweet sixteen party for INXS. Actually, the guys are celebrating the 3 Million sales mark for their most recent album. With top five singles and the first ever number one pop hit for the group, there is plenty to get happy about.

WEA CONVENTION HITS NAWLINS

And Nawlins may just hit back. Last time I was in the Crescent City the Quarter was jammed with prom queens and their navy dates in ice cream whites. I was reeling from package store to Shriner's bar and cashing checks with strangers while waiting for the smell of the streets to subside. It never did. Great town for a party and that is bound to be on the minds of a few WEA types as they converge on the loosest city in America. And who better to party than these guys? On the rising tide of big buck profits, a growing stable of fresh talent for the future, and a corporate manifest that continues to feature some of the best and brightest pros in the business; WEA is justifiably getting ready for the biggest, baddest Convention in recent memory. One of the big moves being watched these days at the corporate hive will be the corridor discussions regarding **Seymour Stein** and his new negotiations with Sire. But on a real a skeeve-ball level, where we're most at home, we are counting on photos aplenty and enough potentially damaging anecdotes to threaten the careers of various label honchos who could buy and sell me ten times over. Remember, we pay big for tips on hospitality suite slips. Just call 1-800-RAT-FINK and be sure to have lots of cotton in your mouth.

CHRYSLIS ACTION CONTINUES

Vice President of Promotion **Daniel Glass** announced some major changes on the Westcoast that are, frankly, cause for some celebration here at Hard Acres. **Jeff Laufer** gets upped to Director of Promotion for the Westcoast and the money will come in very handy with Jeff's twins on the way. (Congratulations you chucklehead!) Jeff will be responsible for daily operations on the coast and, as Glass says, "Jeff has certainly proven himself to be one of the leading executives out there." Gee Jeff, "executive"...How do we spell that? The other promotion this week sees **Michael Van Orsdale** made the National Director of Pop Promotion. Van Orsdale will work the Westcoast from a Los Angeles base. "Vano is the consummate professional. He has done it all", according to the ebullient Glass, "He will now have the freedom to go wherever he has to to break records and artists. Our Westcoast presence has never been this solid."

Jeff Laufer

Michael Van Orsdale

TELLER ON THE MCA THRONE

The news was sketchy at press time but the big rumble of the Westcoast this week sees former CBS Prez **Al Teller** being named to a similar post at **MCA Records**. Teller will be responsible for all aspects of the Record division and will replace **Myron Roth** who gets a corporate reassignment within the group. No doubt about it, this move will set up shockwaves that will be heard for weeks to come through every alley and penthouse in the industry. Does this business ever slow down?

AN EVERGREEN ISLAND?

Word circulating through journalistic quarters is that big bucks developer **Bruce Eichner** and his new **Evergreen** corporation has tendered a very substantial offer to acquire the rights to **Island Publishing**. This should be viewed as the entering wedge for Evergreen in the entertainment industry and will not overtly affect the record company itself outside of publishing sphere.

JEM COUNTS TO 11-(CHAPTER THAT IS)

Jem Records followed word of their filing Chapter 11 with news that a new financial package has been structured to prop up the troubled company. CEO **John Matarazzo** informs us that refinancing has been arranged with Security Pacific Commercial Credit, who will slip into the role of Debtor in Possession during these hard times. All this red ink hemorrhaging comes during massive staff changes that have run all the way through the company. This hasn't halted their intended release schedule which will feature, among others, some never before heard live Big Star recordings.

BURKHART ACQUISITIONS LINE UP

Degree Communications, the front for **Kent Burkhardt's** well choreographed move into broadcast ownership, has made some changes at their recently acquired baby, **KEYI/Austin**. New to the driving wheel is **GM Otis Dunnagan** who has spent some 12 years in the market in various sales and management capacities. In a previous conversation with Kent he explained to me the difficulty inherent to finding just the right station in the most advantageous market situation, with the maximum cashflow options, for a successful takeover. As a result, Degree Communications has moved in a slow, stately fashion toward their recent purchases which also includes **WANS/Anderson-Greenville-Spartanburg**.

DIAL ENIGMA

When I interviewed one of the interchangeable Hein brothers a few months ago we were constantly interrupted by a phone system that was strictly from hunger. As part of the label's recent upgrade in offices and the like, we are proud to report that they have a new 21st Century automated phone system that requires at least one curiosity call. A computerized voice instructs you to search for the right extension with the aid of your touchtone and when the right person is found you get treated to a sound bite telling you you're on track. It's a little like the computerized amusement park in the Firesign Theater's classic "We're All Bozos On This Bus". Forget that personal touch, the future is now and it's on tape at Enigma.

BRIAN WILSON ON THE ROAD

The Hard Report was recently treated to a rare meeting with **Brian Wilson** at the Philadelphia **WEA** branch office and the occasion was a special one for all those in attendance. Brian is definitely out of his room and back into the real world with a vengeance. His promotional tour has been netting some truly memorable radio interviews that have been circulating through the pipeline, and the man's willingness to mix it up with the public marks a solid commitment to pushing his new album over the top. Brian was a surprise on first glimpse; tall and rugged with a touch of the Marlboro man to him in his washed out denims and cowboy boots. Amiable in the crowd, Brian moved about and traded quips while the tables groaned under a serious buffet onslaught and the speakers endlessly unfolded his new release. Toward the end of the night the pens came out and Brian started signing everything in sight, including **Marrone's** vintage 1969 8-Track tape of "Wild Honey". While I was standing around with my album for signature, feeling a lot like a kid on line during Christmas, I thought about how much this kind of stuff must get on your nerves when you're a travelling artist suffering from the man-in-a-cage syndrome. As I leaned down to Brian, I suddenly knew what I wanted the inscription to say. I told him and he smiled, "To anybody special?" he asked. "Not really. Just as a general statement", I rejoined. "That's cool", the man in the sandbox responded and dashed off the message. And now it sits, emblazoned on my mantle, a prized rock and roll trophy from one of the few survivors of an incredible era. A man who chronicled the generation and took a lot of their guilt upon himself in true Rock Star-Messiah style. Oh yeah, as for that inscription, it reads, "Up Yours... Brian Wilson". Believe me, I will cherish it forever.

A NEW FRONTIERSMAN

Frontier Records announces the addition to their staff of **Jay Harding** as Assistant Director of West Coast Promotion for the label. Jay formerly worked at **KUSF/San Francisco** and had interned at **Geffen Records** before jumping in with **Graham** and that **Frontier** crew. Jay moves down the coast to the **Los Angeles** office for work at (818) 506-6886.

FUTURE ROCK FOR NOW PEOPLE . . .

POLYCHANGES AT A&R

As the staff changes at PolyGram continue to unfold we see some interesting moves in the A&R division. **Harry Palmer** is the new guy at the head of the class, he comes over from the Marketing office and will start piloting some of those new signings at the label. While Harry is getting measured for that VP Walkman the speculation about **Derek Schulman** rages still. The label is said to have Derek under contractual wraps until the end of the year while the folk at ATCO obviously expect him to hit the halls much sooner than that. Word has it that Schulman is excited to steer the fortunes of the ATCO label and that he has some very definite ideas about how and who, if you get my drift. Could PolyGram be holding him back to keep any raiding from impacting their new label momentum? Does Derek want a few PolyBuds to come along? Is this rampant gossip mongering ever going to end? Probably not anytime soon.

ELEKTRA ELEVATES VIRGINIA

Virginia Vasquez has been upped to Manager of Contract Administration at the label. A Rutgers graduate, Virginia has been with the label since 1985 after a brief stint in television. "Her promotion is in recognition of all her efforts and hard work", according to Senior VP/Business Affairs Gary Casson.

Virginia Vasquez, Elektra Manager Contract Administration, and one hell of a pair of eyes.

RCA PUBLICITY PROMOTION

Nine year Nipper vet **Paula Batson** has been upped to VP of Publicity at the label after much work and quite a few successful pushes in that department. Paula works out of Los Angeles and we look forward to more and better PR communication with her and her staff in the months to come.

ROCK AROUND THE TRACK

The third **Dodge International Star Challenge** celebrity race is lining up some impressive celeb names for their car-go-round in Connecticut on September 3rd. The DISC races are part of the company's don't drink and drive campaign and have been marked by big crowds and great PR for all involved. Revving up for the next burnt rubber expose' are Don Dokken, Jeff Carlisi of 38 Special, Motley Crue's Tommy Lee, Otis Redding III, Meatloaf and Nicolette Larson among others. The action should be hot and heavy and we look forward to photos galore with a crowd this stellar.

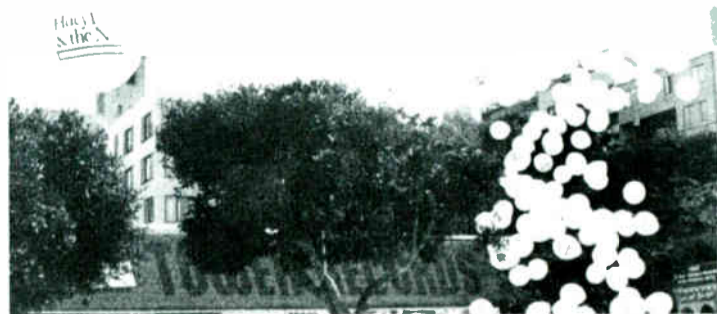

A&M star and musical chameleon **Joe Jackson** getting spiffy for the premiere of the film *Tucker*. Jackson contributed the original soundtrack to the film, which is getting rave reviews from the Hard Report Film Society.

BUNNY PRESS UPDATE

Karen Moss, who has been with the team at **Warner Brothers** for the last six years got a promotion recently in recognition of her years of strong and steady work with the label. Karen gets the post of National Press Manager and will immediately begin servicing the Hard Report with photos and stories unavailable in any other trade. Then the shameful secret of her marriage to a Panamanian band leader will come out in the tabloid press and small children will begin to revile her on street corners. It's a hard future in store for poor Karen is she neglects to give us preferential treatment.

THE IRS NEEDS YOU

Barry Lyons is in the market for a new rep to handle his turf out of Dallas. Looks like **Joe Estrada** has moved to the bracing clime of Denver for that local Polydor job and that leaves Barry looking for, "An immediate replacement to fill Joe's smelly size 14 shoes." Then Barry got a little misty and told us, "Joe's a great guy and we wish him the best. He was a pleasure to work with." Those Rocky Mountain PD and MD types certainly agree, the report back is unanimously positive on Mr. Estrada. Chalk it up to another great case of cradle robbing by Brodey and da boyz.

The international release of **Huey Lewis'** "Small World" album was the source of much jubilation at Tower Records all over the globe, including Spain and Sweden. Balloon liberation on an unheard of scale marked the event as you can see.

THE RADIO RUMBLE

WPHD/Buffalo ex-PD Bob Richards is looking like the next one in line for that custom fitted 97-Rock jumpsuit. Rumors are flying that Bob has been getting ready for the much discussed reemergence of what could be an insta-legend in the making.

WGTR/Miami has given the Colonel his wings for a job well done this week. The news came on the heels of some very encouraging trends. Three month rolling trends from May-June-July show the station rising 12 + 3.9/4.5 while their Adult numbers 18-34 run like 9.8/12.1 and those all important 18 + Men show a healthy 5.9/6.8 increase. At the same time, trends for both Zeta4 and WSHE are going backwards. The Colonel claims the success of WGTR hinges on, "A real team effort that goes from studio to office down though the hall and back to the studio again. The key is that people check their egos at the door around here. There's none of that 'I'm a big jock star' attitude going on here." In the area of programming and operation, the Colonel is clear on yet another point, "My GM would no more come in and tell me what to play than he would sing cock a doodle on the air. He knows that that's my job and he leaves me alone to do it." Congrats to Bill and the Colonel on what is looking like a great third act to their play.

KLOS/Los Angeles set the one day record for blood drives recently. The station stampeded about 2,500 people through the local Red Cross centers and a suitably impressed community responded with an outflowing of thanks. The volume of blood collected was more than had ever been raised at a one day event and the station is to be given a hearty handshake for all their work.

WNOR/Norfolk announces the appointment of Mike Barch as their new Promotion Coordinator. Now, listen up Mike, we can do this two ways... easy or hard. You send us tons of photos and all the latest on your promotional goings-on and I'll make you look good. Or, don't send us anything at all and you'll be slicing deli meat inside of six months. It's your choice.

WXLP/Davenport has gotten into the Fax Age and you can reach them at any time on (319) 326-1819. The station is celebrating a 20 share in the recent Birch which has propelled them to a #1 ranking 25-54.

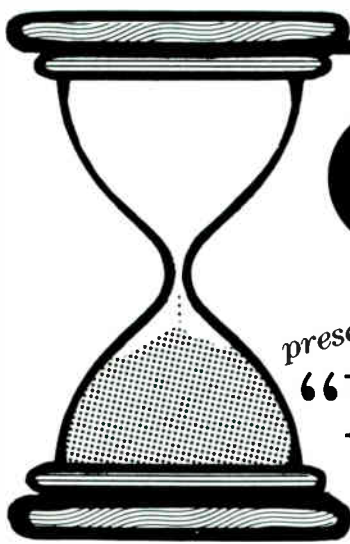

KLOL/Houston vet Dayna Steele signs a new long term contract with the station and moves to middays to accommodate the arrival of larger than large Texas personality Moby. Dayna has been on site for quite a while and it's good to hear that the powers that be in Oiltown showed such good commonsense in signing the lady to some paper.

WMMR/Philadelphia took their morning show down to Atlantic City for a week of live broadcasts that feature lots of work with huge crowds. Richie Havens, Tommy Conwell, Graham Parker and Warren Zevon all stopped by, as did a crowd that was estimated at five times the capacity of the hotel used for the week of shows. In another morning move the WMMR team brought in Soupy Sales for vacation duty when DeBella split for some down time.

WMJY/Long Branch is in the market for future AT's. They need both full and part time jocks and musical knowledge is a must on top of the usual studio skills. Send your best T&R to Willobee at WMJY, 156 Broadway, Long Branch, NJ 07740. No calls please.

WDVE/Pittsburgh has picked up the option on Chris Winter for their airstaff. Chris comes over from the gutted WXXP staff where she held down Middays.

CFNY/Toronto is looking to set a record at the Canadian National Expedition. Brad Driver will be representing the station as they go for the Cable Car riding record in a promotional stunt that only needs a barrel and a waterfall to be the stuff that legends are made of. Brad will be riding the car back and forth, up and down, non-stop for something like 17 days. That's 408 hours suspended by a thread high above the ground. Let's hope that cable car has some very special modifications for poor old Brad.

Joe Cocker is on tour through August and his Los Angeles dates were very well received. Pictured here with some of the Capitol Records braintrust, is the Cocker Man himself basking in the afterglow of another triumph at the sold out Universal Amphitheater.

KFMQ/Lincoln was the scene of *Vacation From Hell* for Joe Skare recently. Joe went off for a little R&R and when he got back he was surprised to find that his GM and his PD were both persona non gratta. As Bob Allen slides out former WQFM PD Brent Alberts moves in and Harris Communications enters as well. The station had been undergoing some scrutiny by new owners Midwest after they had moved into the shop and their shift in format to a more mainstream approach follows those ruminations. Joe and Brent seem to be headed in the right direction and as for his old comrade in arms, Joe tells us, "It was a pleasure working with Bob and I wish him all the best in the future." Speaking of the future, look for Bob to land on his feet in short order in a yet to be announced position that should be public in a week or so.

WPDH/Poughkeepsie has a new night shift guy. His name is Bob Wohfeld and he joins the crew for that post midnight vampire duty. Is this the same Bob Wohfeld that I worked with in Mendocino during our headband-fringe jacket days? If so, give me a call Bobster. Let's get sloppy and sentimental together over a few zombolas.

KITS/San Francisco is continuing their Live 105 Free Concert Series at Golden Gate Park. The Series has brought together shows by Paul Kelly, T. Bone Burnett, The Smithereens and Bob Geldof. The show are always free and a great piece of promotional gold for the station.

KRQU/Laramie and APD John McJunkin are splitsville. John hits the highway and the station looks for his replacement. Could be that PD Matt Roberts will promote from within. Only time will tell.

WLLZ/Detroit gave this lucky listener a 65K Twin Turbo Corvette in a recent promotion and then shipped him off for the Prince's Trust Concert in London. Here we see the winner planting one on station personality Sheri Donovan.

WFNX/Boston had the market virtually to themselves recently and boy did it feel good. When the power went out at the top of the Prudential Building all the radio stations that call that address home were blown off the air for a couple of hours. With those stations affected including Kiss 108 and WBCN the guys at the WFNX team got a clear shot at some sampling that might not have come their way otherwise.

KSHE/St. Louis broke the bank with their recent blood drive. The two day drive netted more donations than any previous push in the market and ranked as the second most successful such drive in the country. The most successful drive was reported in New Orleans where the Republican Convention used a huge amount of fresh blood just to keep the delegates from lapsing into a sugar shock coma.

WLUP/Chicago wants a strong talent to do news for the station. We are talking prime job opening here folks. Get your best aircheck to Greg Solk at WLUP, 875 N. Michigan Avenue, Chicago, IL 60611. This could be your stairway to the stars so get on it right now.

KDKB/Phoenix celebrated their 17th Birthday with the help of stations all over the country. Through some effective networking the station got a slug of Happy B-Day ID's from rockers all over America. Thanks to all the brothers in format who got involved.

KOME/San Jose spent some live time with Ian Anderson recently. The interview was spiced with some impromptu live strumming from the one-legged troubadour.

KVRE/Santa Rosa signed with Pollack and will be debuting a new and very stripped down AOR format in the very near future. They will be doing it without Bill Bowker and Scott Murray who have quit and crossed the street for duty at a Country station that will be reprising something similar to the old KFAT progressive country format. "These people have been very upfront and really quite nice about the whole thing", said Scott when grilled by a venomous NOISE. "No really, they have made it very clear that we both had jobs here. But we both wanted to do this. It's going to be a great challenge and the experience is bound to help both of us broaden our skills." No news as to the new PD at KVRE but it will probably be from outside the station. As for sister station KZAM, it will be interesting to note how the new ownership views their open ended format as well.

WKLR/Indianapolis wants a Production Director with hands of steel, pipes of platinum and a good sense of how to keep the old in and out baskets neat and tidy. If your interested contact Simon Jeffries at WKLR, 9292 N. Meridian Street, Indianapolis, IN 46260.

KMBY/Monterey adds Mollie Dawson to their night shift. Mollie moves north from KPWR/Los Angeles and she has also done a stint at KSPN/Aspen. The station is still in the market for an excellent morning talent. You'll be given a chance to work hard and sharpen your skills in a knowledgeable environment. Management there is top-notch. Get your T&R to Rich Berlin right away.

WKFM/Syracuse has a ride and a half to be given away. Check this classic Vette for a sure shot male come-buster.

WWRX/Providence is still shopping for part time airtalent. Are their no semi-pros in Rhode Island who like to keep their hand in? All I know is you should get that T&R to Dave Richards ASAP.

WIOT/Toledo MD Jim Steel sends this missive out to his former PD pal Keith Masters at WQFM. "You've proved you're a player. Now take all the food off their plate." Statements from Keith and Steven have certainly stirred up the pot in Milwaukee. But I didn't realize that Keith suffered from bad table manners too.

WLZR/Milwaukee responded to word of Steven Alan Segal's promotional premiere of the movie "Steven Never Wakes Alone". PD Greg Ausham called up the NOISEROOM in like manner, "Congratulations to 'QFM on their film debut and the debut of their morning show. The bartender at the event was my receptionist and she counted all of 19 attendees at the event. The whole thing was over by midnight. Once again, congratulations to the competition." As for the "radio terrorist" comment in the interview with Steven in last week's issue of the Hard Report. I got the distinct feeling that Greg was kinda pleased by that kind of press. Looks like things are heating up in time for Fall in Cheesetown.

KBCO/Boulder newsman Peter Finch interviewing Yoko Ono at the opening of "Imagine--The John Lennon Art Exhibit." Yoko was heard to say, "Are you sure you don't know Goldman?"

WYSP/Philadelphia continues their search for a PD as Andy Bloom gets Detroit bound for his new job with Fred Jacobs. Charlie Kendall was mentioned, but he's not it. Although Charlie is headed back home to Philly, he won't be the guy in the PD chair at WYSP and that's a fact. A certain Pennsylvania PD has been in the pipeline but that looks like more smoke and mirrors also. Our sources across the river indicate that the station has a hankering for a certain double digit research heavyweight from the Midwest who used to work only an hour and a half up the road. At any rate, look for a change as soon as Andy and the Infinity boys can ink the deal.

WXXP/Pittsburgh saw the wrath of a vengeful AOR cosmic muffin the other day. As the new polyester CHR types gathered around the newly erected tower, dancing in glee over their immolation of the once future minded rocker, something strange took place. The tower bent in two just like a limp twinkie. The station is looking to be on the air with their new format and calls in just a few weeks. Watch out for those voodoo dolls guys.

Graham Nash pictured with some Atlantic heavyweights after the CSN show at the Meadowlands. Pictured with Graham are Lou Sicurreza, Andrea Ganis, Fran Lichtman and David Fleischman. Nice tan Flash, and are those puka shells around your neck?

WRCN/Long Island has extended yet another invitation for Mike Marrone and myself to hit the airwaves with both barrels blazing. Look for Spike and your humble narrator to crawl into the studio and effectively blow any shot at a return to radio that either of us may have still cherished. Marrone is already looking for songs that will spark legal action and I'm thinking that maybe it's time to air those sex tapes I have featuring Morton Downey and Oprah Winfrey. It should be a lot of fun, even if we have to nail the studio door shut to finish the show.

WONE/Akron had a great time when they threw their Rockin On The River promotion. Here we see the station's J.D., Brian Fowler and Jim Chenot interviewing the artist du jour, Danny Wilde.

WHMD/Hammond slips beneath the murky waters of CHR and with a final glub disappears from sight. It was a pleasure doing biz with da Catfish while it lasted but it was just one of those things. I understand that just before they pulled the format plug that a vision of Elvis came to Catfish and offered him a new fail safe Twinkie and Cheeseburger diet if he would just repent his formatic sins. Not even young girls wrestling in cotton panties could turn back this clock. The station gets down as of August 29th.

KFMZ/Columbia has a new Production Director in Kelly Stevens who has spent some time honing his skills in the region. When NOISE contacted PD Rick Jeffrey about the deal he slipped out of his penny loafers and told us, "Kelly does a darn good job. He's real fetching and a spiffy addition to our staff." That Rick, what a way with words, you betchum!

MORE HIPPIE HEAD SHOTS

Here we have the much anticipated shot of half of KRQR's **Chris Miller**. It may not be much but when you're dealing with this kind of hair, a little goes a very long way.

And check this shot of KGB's **Ted Edwards**. Ted is the guy with head held high in this photo taken during his days at WCMF/Rochester. Who'da thunk that these Pacific Rim Sultans would look like spare change artists such a short time ago? If you have a particularly good and greasy Hippie Head Shot get it in the mail quicko pronto.

TOP 50 AIRPLAY

PICKS

Red Lorry Yellow Lorry "Nothing Wrong" (Beggars Banquet/RCA) The Lorries have been making their weighty presence known among alternative circles since 1985 and continue to churn out loud, crunching guitars restrained by rhythmic tension. Thunderous bass lines and fuzzy distortion plows through the airwaves and Chris Reed's booming voice likens to no other, placing them high on the list of favorite underground bands. The continuing assault of power packed singles remain true to their sound trademark yet twist off in new directions, and followers have come to demand a consistently strong track record. The Lorries may have been linked to the Sisters Of Mercy long ago, but break out of the mold with their own interpretation and unique approach. "Nothing Wrong" sports the song of the same name which is the most recent import single, plus a new version of "Only Dreaming". It also represents a more melodic edge, and combined with the concise nature of their songs, results in one of the group's finest releases to date. The slowed down, pendulum swing of "Hard Away" could find a home at stations hesitant to blast off with Lorry standards, but "Hands Off Me" blares the familiar atmosphere their fans eat up every time. But this one is filled to the top with more grit that you can emit in a year with "She Said", "Do You Understand?", "Open Up" and "Time Is Tight".

NEW RELEASES

Grace Pool (Reprise) The beautifully spaced songs from this New York based quintet, introduces a group escaping the trendy, thick commercialism and punk sensationalism of the city's music scene. They burst forth with a fresh, relaxing sound floating on subtle intonations and the airy whisper of keyboards, while lead vocalist Elly Brown stands and delivers sensitive, modern pop songs. "Awake In The Rain" rings with a triumphant chorus, sitting atop a rapid yet tender rhythm mode that flows throughout the whole album as you will notice. Sink into the heavenly sound of Grace Pool - a band not a person - and you'll find more delight in "Out Of The Wild", "Stay" (remember The Blue Nile version?) and "Under The Wrong Wing".

"Til Things Are Brighter" (Fundamental) Say hello to a compilation that you must hear to believe, and here it goes. Mekon/Three John, Jon Langford and Marc Riley (of The Creepers) had a great idea about assembling Johnny Cash songs, re-recorded by some of the hippest and coolest new music artists. It's a tribute to the "only man I know who has been arrested for picking flowers" as told by Langford, and it turns out to be a valuable sound experience whose proceeds will be donated to AIDS research. 'Til things are brighter, artists like That Petrol's Steve Mack, Tracey and Melissa Beehive, Marc Riley, Gaye Biker Mary Mary, Cabaret Voltaire's Stephen Mallinder, Marc Almond, Peter Shelley, Sally Timms, Michelle Shocked and others join together to pay tribute to the man in black and work towards a worthy cause. Fundamental Records should be in your Rolo by now: P.O. Box 2309, Covington, GA 30209.

Fields Of The Nephilim "The Nephilim" (Beggars Banquet/RCA) As gale winds of deep, dark electric guitars and rubbery bass blows in from the west, "The Nephilim" swoops down as the second shocker from Fields Of The Nephilim. Scary as it may seem, these sons of the apocalypse specialize in mood overdrive by seizing you with a dry, dusty sound and the lowest vocal growl since Clint

Ruin hit the record. They might lay it on a bit thick at times, but that's always been the theatrical strength of a surrealism approach. The galloping pulsations send them off into the sunset and night time soon falls with a roaring, gothic presence of which we are the beholder. Walk into a storm of haunting rock songs like "Endemoniada", "Phobia", "Moonchild" and the soothing dissonant tones in "Last Exit For The Lost".

CHARTSTARS

Michelle Shocked "Short Sharp Shocked" (PolyGram) This Texas maiden has struck a note in all of us, some of which were dormant and more we didn't even know we had. Her heartfelt delivery, enchanting voice and gifted talent for writing songs that touch the soul is the main thrust that pushes her over the top in every category.... "Anchorage" is the first single already on over 20 stations including KBCO, KTCL, WBCN, WHFS, WKXL, WMDK and KTAO (already Top 5 Requests). Open album emphasis from WHTG, WNCS, WRAS, WXRT, KABL, WFIT, KCPR and WRVU continues the upward trend to 13* Alternative Airplay this week. And new mentions for "If Love Was A Train" from KISS, KMOD and WFNX are an early hint of programming direction for a very deep Lp.... KCMU's new music director Maggie McCabe says, "Plus, plus, plus! This record is absolutely brilliant, and 'When I Grow Up' is a personal fave".... KJET's Damon Stewart "Moved it up in rotation immediately".... WCDB's Kevin Byrne says, "This album impressed and surprised me. It has a better feeling of what she's trying to communicate that the 'Texas' Lp. The timing is perfect for our station."

Psychedelic Furs "All That Money Wants" 12" (Columbia) It's not unusual that singles get alternative airplay coverage analysis without a full Lp to back things up, but the new Psychedelic Furs single makes this one exception to the rule. It's the missing link to the Furs we know and love - the guitar edge in tact and an alluring musical quality that avoids commercial standards and creates a new category all its own. This tune is head and shoulders above anything

they've released over the past few years - and I say that with great conviction.... It's radio's consensus too as Most Added honors place it in the highest 15* debut position this week. Overall, 45 stations go with the single including progressive airplay highlights at KABL, WOXY and WMJY (all top 5 phones) WDRE, WFNX, WXRT, WBCN, WHFS, KJQN, KRCK, KUSF, WRAS and many more.... An early Hard Hundred debut of 72* indicates they're not Alternative radio exclusive anymore, but it also indicates that they cannot be ignored as an important band for the future.... KLPX's Suzie Dunn mentioned, "I was pleasantly surprised by the new Furs and must admit I was also a bit leery going into it. But they're back on track with what should have been the step they took after 'Forever Now'.... KLOL's David Sadof states, "The Psychedelic Furs is an auto!"

Let's Active "Every Dog Has His Day" (I.R.S.) "There are too many hooks to deny this great pop crossover," says WWVU's Patrick Ferrise.... WVWV's Butch Lazorchak says, "They're a great American band, and it wasn't for Mitch Easter we may not have that new southern pop sound".... Kim Saade at WRAS notes, "This is a terrific album, definitely not a typical Mitch record, but more rock sensible with a great sound!".... Jamey Karr at KACV adds, "The production value is outstanding".... Mitch Easter has really done it this time. "Every Dog" is his best effort to date and the songs will jump out and bite you if you're off guard.... Reports from 31 stations send the official first week of release off with a bang. Adds this week at KQWB, WDET, WHFS, WMDK, WWUH, KRCK, WTSR, WFIT and more mean #2 Most Added honors as the album enters at 17*. "Every Dog Has His Day" leads off with an undeniable chorus, followed by the extra special touch of "Horizon", "Mr. Fool", "Night Train" and "Forty

Years". Send 'em out in cosmic fashion with "Orpheus In Hades Lounge".

"Married To The Mob" (Reprise/WB) The last time a soundtrack forged ahead of the crowd to this extent was "Some Kind Of Wonderful" and even "Pretty In Pink". This collection of songs has found favor with just about everyone reporting to the section and permeates to mainstream with music for the masses as well. Debbie Harry "Liar Liar", Chris Issak "Suspicion Of Love", Ziggy Marley "Time Bums", Tom Tom Club "Devil Does Your Dog Bite", and the two major attractions: Sinéad O'Connor "Jump In The River" and The Feelies "Too Far Gone". What a line up and what reaction with the #2 Airplay position locked up.... Close to 50 stations make the tally with Heavy rotation reported at WHTG, WDRE, WXRT, WMDK, WBER, KUSF, KTCL, KJET, KABL, WWUH, WWVU, WXCI, WBNY, WCDB, KJET, WFIT, KITS, WGTU, WOXY and WRCN.... WCDB's Kevin Byrne mentions, "It has made big gains at our station. This could be even bigger than 'Pretty In Pink'."

MUSIC NEWS!

Jon Astley was Serious last time, and now the techno-groove master is back with the first single from his second album, "The Compleat Angler" to be released on Atlantic Records. "Put This Love To The Test" is one of the most slick and clever songs to address the idea of foolin' around since Rod Stewart's "Tonight's The Night". After all, Jon's a first class act and a black tie affair could very well turn out - well listen and find out! The CD single features the U.S. and U.K. versions depending

FIELDS OF THE NEPHILIM

While other bands merely dabble in a blend of horror and rock, this one takes the concept all the way out... "The Nephilim" 8511-1-H. An apocalyptic vision of a nightmarish future. Contains "Moonchild" and "Chord of Souls."

LIGHTNING

Imagine The Clash discovering Hip Hop before they discovered American Express. Dressed like an army and hungry as hell, Lightning take the street with their rap 'n' roll attack. "Lightning Strike" 8392-1-R includes "Beat Street" (with guest vocals by Maria McKee), "Exocet Alley" (banned in England—not available on import) and "The Pack."

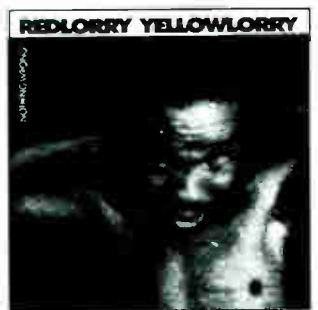

LOVE AND ROCKETS

After two great albums, the debut of Love And Rockets. Finally, the first Love And Rockets album is available in the U.S. "Seventh Dream of Teenage Heaven," 8507-1-H, the band's debut album, includes Love And Rockets classics like "Haunted When the Minutes Drag" and the title track. A remixed and edited version of "Dog-End of Day Gone By." And "Inside the Outside," a new track not available on any other Love And Rockets album. "Seventh Dream of Teenage Heaven." The important first album from a great band. The missing piece to the complete Love And Rockets collection.

CIRCUS OF POWER

Pile driving hard rock from New York City that'll make your mother cry. Includes "Call Of The Wild" and "Crazy" (written by Iggy Pop). Produced by Daniel Rey (The Ramones).

REDLORRY YELLOWLORRY

"Nothing Wrong" is a document of urban decay, an intimidating web of industrial soundscapes. Essential listening... —Record Mirror
"Nothing Wrong" 8480-1-H contains three tracks not available on the U.K. LP: "Only Dreaming" (new version), "The Rise" and "Open Up."

on your mood.... Switching gears, **John Hiatt's** latest "Slow Turning" is already raising eyebrows and fulfilling the expectations of his devoted following in its second week of release. "Slow Turning" is also the name of his brand new album, featured on the cover of this week's report. It's first rate material that demands your attention, from an American songwriter and performer who has been overlooked by national radio programmers for too long.... **Red Rum Records** is pleased to announce the release of the new "Big Live Nut Pack", a five inch and three inch CD packaged together. Enter the third release for Oregon's Crazy 8's, an extremely popular band in the Northwest, who pick up where Madness left off in their heyday. They let loose with party horns, tightly produced post ska music that makes you hop and assume other unexpected contortions. Hey, that audience is ragin' in the background of the ninety minute collection of their songs from 1984 to 1987 plus three newly recorded ones. It's Crazy eight inches and it's cute, but who's counting? The music is where it's at and that's non-stop energy you can use. Red Rum is located at P.O. Box 1084, Beaverton, OR 97075.... Some early **Love And Rockets** followers boldly confirm that "Seventh Dream Of Teenage Heaven" is the band's best work ever. They could be right, and now that RCA is reissuing the album originally released as an import on London's Beggars Banquet label the possibilities of a new audience rediscovering Love And Rockets is without limit. An edited remix of "Dog End Of Day Gone By" and a newly available track "Inside The Outside" serve as retail motivation as well as new airplay items. Love And Rockets And You.... **Enigma Records** releases the latest single from **The Dream Syndicate**, titled "I Have Faith". It's an inspirational song with a friendly melody and guitar action to put them back in your favor. Sure the band ducked out of sight for a while, but the upcoming album "Ghost Stories" will be a welcomed return for this popular guitar outfit from California.... They originate during your worst hangover, come back to annoy you during the Monday morning rush hour, and return just as indigestion begins to rear its ugly head. I'm talking about the **Sicilian Vespers** on Profile Records and the final analysis at the Hard Ranch was "it's so bad, it's good!" We're talkin' two brothers in crime writing tunes of taunt like "Baccala", "We're Going To Hollywood", "Flooze Of The

Neighborhood" and "She's A Meatball", all buzzing with an air of Beastie mentality and lots of annoying pleasures too. Radical but fun, the Sicilian Vespers could ring a bell with you too.... Mentioned briefly last week was the "Nightmare On Elm Street 4" soundtrack, featuring songs from Sea Hags, Divinyls and a Blondie classic "Rip Her To Shreds". But the new Vigil song "Therapist" is a striking new return from this young group of aspiring psychedelic, mod-rockers. Key in on the mysterious melody and the celestial guitar sounds that build this song into a hint of things to come from this developing act on Chrysalis Records. Also out is the new Was (Not Was) single "Spy In The House" from their forthcoming "What's Up Dog" Lp. The sleek sax, R&B urban rock fare surround the latest Was recordings is in prime form on the single, but peeking into the album is an angry, outrageous tune by the name of "Dad I'm In Jail" (and I like it... happy birthday dad!). Teeth clenching paranoia for a minute and a half, is a real departure that college and alternative radio programmers can roll around in and come out smelling like a rose!.... **Bad Mutha Goose** is one funk jam that finds strength in a mixed bag of musical ingredients, with ragged edges around a tight blend of heavy hip hop. Based In Austin, Bad Mutha Goose and the Brothers Grimm surprise and tempt on their four song Ep on Fabel Records. "One Man One Vote" is a dub storm that makes a strong statement in this election year and lends to the element of surprise making this record so appealing. A precision beat and snap happy hooks makes their cliff hanger mixing even more fun. For more "Goose Droppings" write to 1107 Music Lane, Austin, TX 78704.... The bubbling, electronic dance beat offered on the new **Severed Heads** single "Greater Reward" is another reason to hook up with one of the most innovative dance music association out in the blue yonder. Their elusive spirit and crafty experimentation always reaches for the idea that body music be just that. They will move you. And if that severed head promo item doesn't do you in, nothing will. Check in with Julianna Raeburn at Nettwerk Productions, 1717 West 4th Avenue, Vancouver B.C., Canada, V6J 1M2.... Caroline Records has signed the New York band **Live Skull** for an October release of their new album "Snuffer".... Beggars Banquet's New York office will have a new address as of September 1st: 247 Madison Avenue, Suite 804, New York, NY 10016.

BIG AUDIO DIALOGUE!

B.A.D. is not just another hip hop, groovy, urban pop group. They're an innovative band that represents all of those styles plus an adventurous blend of reggae and dub sound effects. Formed by ex-Clashman Mick Jones, the modern music outfit has been on top of a heap of new bands reaching into the nineties. One of the first musical distractions is the thoughtful and quirky editing of ex-Clash video director Don Letts, a full time band member along with Leo Williams, Greg Roberts and Dan Donovan. Big Audio Dynamite shows us a new and different way to live in harmony. Their live shows are packed with an audiences that travel the whole cultural spectrum. Their common bond is a lively and uplifting performance. "Tighten Up, Volume 88" is the latest and greatest B.A.D. Don Letts comes out from behind the keyboards to set us straight...

Dawn Hood: Film sound effects in the music was one of the first attractions to the B.A.D. sound. How did that concept come to be included in your music?

Don Letts: I think it has a lot to do with the fact that when I joined the group I couldn't play any instruments. I was a film producer first. My contribution was to write most of the lyrics and produce so called "found sounds" which give a three dimensional quality to the music, which I thought gave it a magical touch. I put my film ideas into our songs.... It's not something I like to make a big deal about because a lot of people are doing things like that but I'd like to think that we're doing it a bit more intelligently. Plus, when we write songs we don't structure them around effects; the effects are just the salt and pepper. In fact, on this album there is a lot less of that and more energy is placed on building songs with catchy melodies, intelligent lyrics and a rhythm you can dance to.

Dawn: The lyrics in "Just Play Music" are so plainly stated, making it stand out before you even hear it.

Don: I have to confess that while we were in the studio trying to just play music, we realized that we have to really let people know we're out there. There's so much "stuff" out there these days that we need to let as many people know about us as possible while realizing the first order of the day is to write great songs. That's what we're saying. If you look good as well, that's also a bonus. If you make great videos, that's a bonus. But what comes over the airwaves is the most important thing.

Dawn: What's different about the current album?

Don: On this album we tried to make the message a lot more simple and direct. On our earlier albums we were accused of being a little too clever. We wanted people to understand what we're saying and as far as a political statement we wanted to take a look at ourselves before we pointed the finger at someone else.

Dawn: Who puts the film sequences together for the live show?

Don: Again, that's my department and we think it's a back-drop that adds another dimension to the live show as well. We like to think of it like - when you have the TV on in your room with the volume down and the stereo is on and you turn around just as an odd image and the music synch up at that moment.

Dawn: Film didn't pack audiences in New York for nine nights in a row, but a reputation for a making the audience have a great time did. What's the story?

Don: It's a pleasure to work with a group of guys who are such a great live band, and one problem these days is that many people won't notice you until you release a video. Some people like music. We all love music and we're inspired by it. We want to continue that inspiration and I don't know if you can measure the inspiration watching two guys playing synthesizer music - but it's not rock and roll. We like the excitement, a little bit of danger and an element of the uncontrolled that rock music is about.

Dawn: Looking back over the past couple of years, how did B.A.D. evolve into the present?

Don: We're a new group, only three or four years old, and we've been growing up in public and that includes making mistakes. But that's what you get with Big Audio Dynamite. You won't get stuck into a formula, otherwise we would be trying to write more "E-MC2" songs. So at this point we're basically working it out as we go along, not sure exactly where it is we are going. We just want to keep it fresh and unlimited - to take a chance.... I must admit that the current album is the record I'm most pleased with and speaking as a filmmaker - you don't become a songwriter overnight. I still have stickers on my keyboard, and there are three times more than I had during the first record. In fact, my keyboard looks like a Puerto Rican low rider.... I'm beginning to get the knack of it. On other records you might need a dictionary to understand them but this one is much more direct.

Dawn: Does that attitude help the band stay true to itself?

Don: It's a built in safety device. We're critical of ourselves and in this business if you're not bullet proof you get shot, and we're constantly analyzing what we do before we put it out instead of worrying what is on other people's minds. We're constantly trying to get it right and it's still never enough because we're never fully satisfied...

Dawn: Who did the cover art for "Tighten Up, Vol. 88"?

Don: A gentleman named Paul Simonon, a name you may remember from The Clash. Paul's out there trying get a group together and I'm really glad about that. Joe Strummer in is one called The Latino Rockabilly War.

Dawn: Now that Mick Jones is on the road to recovery, when will you be touring?

Don: To say that he was under the weather is an understatement. The man had chicken pox which developed into pneumonia and this meant that he was in intensive care for a few weeks. It looks like another two months, sometime in October. Until then we're relying on music writers and radio to keep the flag flying until we can come out and cut it live.

HEAVY HITTERS

Record Of The Week

Kreator, "Out Of The Dark... Into The Light", Noise Intl.... Y'know, they say that a picture is worth a thousand words. If so, a Hard Hitters move of 39-16* (that's 23 points to you and me) paints one helluva picture. Mille (guitar and vocals), Rob (bass), Tritze (guitar) and Ventor (drums), collectively known as Kreator, and one of Europe's biggest thrash exports, have garnered a reputation that is nothing short of mindblowing. To some, that's a pretty vulgar thought (that's for those of you with the REALLY sick minds), but to most, it's a fact. Putting together an Ep with two new cuts and three live oldies was a stroke of pure brilliance. Ultimately it serves as a teaser for their next full Lp, you might say that it's just a little something to hold the masses over. Putting them out on the road with D.R.I. and Holy Terror wasn't a bad idea either, in fact, their recent touring activities are probably one of the biggest reasons for their unsurpassed chart movement. Playing around the country with a 6* Hard Hitters act is great for exposure. Kreator is currently receiving airplay on KCMU, KGB, KPGA, KSJS, KTEC, KUNV, WDWN, WGBW, WHDG, WHUS, WHVY, WKNH, WNHU, WNYU, WOXY, WPYX and WWUH with requests at KCMU, WDWN, WJUS, WNYU, WPYX, WUSB and WWUH. Remember, they're coming to a venue near you with D.R.I. and Holy Terror. (J.L.)

Metallica, "Language Of The Mad", Elektra.... One of the most eagerly awaited albums of perhaps the century is coming soon to a turntable near you, sooooooon! And just to tease you metallites into a hysterical frenzy, Elektra has given us that long awaited, much sought after import Ep featuring the new track "Harvester Of Sorrow" from the forthcoming monster release, "...And Justice For All". Millions of die-hard Metallikatz were treated to the live version of this song during the Monsters Of Rock extravaganza and now you can lay it on your fans A.S.A.P. and watch the phone company turn psychotic on you. "Harvester Of Sorrow" is a typical Metallica expose on the finer points of "tight as sh*t" (as Jeff so adeptly put it) musicianship with that ever present Hetfield growling. Also present are two of the finer cover tunes I've heard lately, and as you well know there are (too) many in general out. First up is the ol' (1973) Budgie tune "Breadfan" and it is killer extreme. It shatters yo' bones. Well....close. "The Prince" is a Diamond Head classic. The Metallitudes have always had a close affinity for that band, so it's only natural that they would take yet another D.H. cut and make it their own. Both tunes are in raw form, unproduced and the better

for it. The incredible sound and intensity that is ever present on the two cuts, just serves to confirm this band's position at the top of the metal summit. Ohmygod... all this and the album due out soon too....it's enough to make one give up everything of earthly value to follow them forever and ever....nahhhh, well maybe. (C.B.)

Danzig, "Mother", Def American.... Glenn Danzig is perhaps best known for his stint with the Misfits, who were/are relatively successful, if on an almost underground basis. Just ask the dudes in Metallica. With his new band of marauders Glenn has set out to establish Danzig as a certified rock outfit worthy of more than just backstreet recognition, and this may be just the ticket he needs. The lead track from their debut album has an almost nostalgic feel about it, due in large part to the Jim Morrison/John Kay type vocals and the heavy guitar feel. Fortunately, Doors-ish organ/keyboard flourishes are noticeably missing, making this track more natural and raw sounding. Drummer Chuck Biscuits (formerly of Black Flag and the Circle Jerks) is a well known basher and holds his end down with energy and control as does bassist Eerie Von. Laying down the steady and heavy guitar riffs is John Christ who seems to have a real feel for solid chord progressions without too much technical mess, while delivering rough but effective solos. At the knobs for this project was none other than Rick "Mr. Def Jam" Rubin, and his influence is evident throughout the Lp. While this is not by any means metal, it is a rock record with definitive style and feel. If you're looking to draw in that growing upper-demo-punk element in your broadcast area, play this. Play it loud. (C.B.)

Armored Saint Live, "Saints Will Conquer", Metal Blade.... This new six-song Ep was recorded in Cleveland on the "Hell On Wheels" tour which also featured Grim Reaper and Helloween back in October of '87. It represents the first attempt to capture the Saint's renowned live show on wax. The original recording was made by a "drunk, hippie engineer" so the quality is slightly sub-par for an Ep of this type but the energy is what really counts, and there's enough of that for a slew of records. Ironically, the vinyl version only contains one track from the "Raising Fear" Lp and that's the title cut. The CD however, contains the bonus songs "Chemical Euphoria" and "Long Before I Die". This one also includes the klassicks, "Can U Deliver", "Book Of Blood" and "Mad House", as well as "Nervous Man" and a previously unreleased studio track from the original sessions for the Armored Saint Ep from 1983 entitled "No Reason To Live". While the performances are all pretty damn good, bass player Joey Vera very nearly steals the show. In the studio, Dave Pritchard had to play additional guitar rhythm sections to be placed underneath his solo spots to make them fuller. These, of course, can not be reproduced live while Dave is playing his solos, therefore Vera had to make up for the dead space. He does a fantastic job filling it up with some really competent, consistant playing. It's just too bad that you have to get the CD to hear more of the newer stuff, but for what it is, this record rocks. (J.L.)

Circus Of Power, "Circus Of Power", RCA.... Well, a couple of weeks ago, we laid the "Call Of The Wild" on you and this week the whole Circus has come to town. "Call" did fairly well for its first week out tying for #4 Most Added Metal and causing that wonderfully witty winsome dude we know and love as Mr. Microphone to quip, "The Circus Of Power' is pretty cool. They're another n'Äuzz' band from New York City. I heard the Smallwood Organization snapped these guys up, so they must be good. "The "Call Of The Wild" does remind me of John Kay singing with The Cult on a Saturday night in a sleazy bar in the Bowery." The track picked up adds at KISS, KPGA, WGBW, WGIR, WKNH and WVVS this week, but the show doesn't end there though. Comin' right up are ten more crunchy trax for your biking (that's motorcycles dude) pleasure. Among them is a song called "Crazy" that was written by none other than Iggy Pop. Other cuts to spotlight include "White Trash Queen", "Heart Attack", "Machine" and "Turn Up The Jams". No clowning around here people, just a solid rock performance by a band that you may be hearing a lot more from in the coming weeks. (C.B.)

KILLER DWARF ALERT!

WKNC metalhead Steve Prue was viciously and savagely attacked by Russ Dwarf shortly after their set at the recent Iron Maiden/Killer Dwarfs show. Apparently he was shot through the ear with a rather large arrow. Steve was saved by David Gleekman (left), the local Epic rep. down thar and had to be heavily sedated after the attack. The arrow could not be removed.

METAL MUSIC NEWS

Greetings to one and all from Metal Control Center deep in the heart of Queens, New York. This is Sal "Earl Of Earache" Treppiedi with this week's metal news from around the world. This column will feature part three of our interview with Schmier from Destruction. Let's get to the news.

First off, we have a follow-up to an item the Earl reported in last week's column. Last week, we reported that Dana Strum, bassist for the **Vinnie Vincent Invasion**, had left the band. This week we have further information regarding the band's situation. Dana at that time had not left the band. This week we received information that Vinnie Vincent has parted ways with the rest of the Invasion. According to a well placed source, the move was a mutual decision amongst **Vincent, Dana Strum, Bobby Rock and Mark Slaughter**. The band did complete their recent tour, which ended Friday, August 26th, with Dana Strum. The band will be holding a press conference on Monday, August 29th to clear the air on recent developments. The Hard Report will be talking to one or more of the members of the Invasion. We will have their comments next week.

Butch Stone, manager of **Krokus**, recently announced that the band is going to be taking a one to two year hiatus. Rumors have apparently been flying around that the band had broken up. According to Stone, this is false. Stone did mention that the band may suffer one casualty. He indicted that he believes **BMarc Storace** will leave the band. "If I had to guess one way or the other, I would have to say that Marc will leave the band," explained Stone. He did mention though that he hopes that situation does not occur. Also, **Krokus** have apparently bought out their contract with **MCA Records** and will be shopping for a new deal as soon as possible.

The **Circle Jerks** have gone through some changes. Bassist **Zander Schloss** has left the band and subsequently joined **Joe Strummer's** band as the guitarist. Meanwhile, the new **Circle Jerks** bassist is none other than **Chris Poland**, formerly of **Megadeth**. According to the band's publicist, Poland has apparently gotten himself a punk style haircut as well. This I have to see.

Anthrax, who's new Lp "**State Of Euphoria**" will be released in mid-September, recently landed the opening slot for the upcoming **Ozzy Osbourne** tour. Look for **Ozzy's** new Lp to be released in September as well.

Sacred Reich's new album is entitled "**Surf Nicaragua**". It will be an Ep. The record will feature an intense cover of **Black Sabbath's** "**War Pigs**". Look for a real outrageous cover. The band is currently planning to tour following the release of this album.

EZO are about to go into the studio to begin recording their new album. **Hoboken's** latest import, via **Japan**, have completed writing their new album which they will record with an, as yet, unnamed producer. The band will still be recording for **Geffen Records**. If you remember, rumors ran around that the band had been dropped by **Geffen Records** and signed with **Enigma Records**. But according to a well placed source, the band is still recording for **Geffen**. In the meantime, the band has been regaining their health. **Hiro**, the band's drummer, recently underwent an appendectomy. The funny part of the situation is that **Hiro** was diagnosed as having appendicitis by his sister, a nurse, from all the way in **Japan**. When he checked into the hospital, his doctor told him that he was the first patient he'd ever had that had been diagnosed by someone from another country. Well, the Earl is happy to report that all is well with **Hiro**. Look for a new album in 1989.

The Earl would like to send out his congratulations to the new **Mr. and Mrs. Jeff Ivan**. Jeff is the metal disc jockey at **KFMX** in **Lubbock, Texas**. Good luck to you and your bride and may the spurs on your cowboy boots remain shiny for many years to come.

Now, let's get to part three of our interview with **Schmier of Destruction**.

DESTRUCTION INTERVIEW: PART III

HR: When you first started, **Destruction** was more of a black metal band. Did you want to get away from being a black metal band or is what you are doing now a progression?

SCHMIER: It was a progression. You don't want to write all those lyrics all the time. I wanted to write lyrics that made sense. **Tommy** wrote all the lyrics before and he really didn't care. Now it is something that is very important to us. We take a lot of time to write the lyrics. It wasn't like we said no more satanic lyrics. It was just a natural progression. I was 16 when I recorded the first album.

HR: How long did it take to record the "**Release From Agony**" Lp?

SCHMIER: It took about four weeks. We were not satisfied with the mix.

HR: What is that picture on the front cover?

SCHMIER: It is supposed to show a nightmare. The song, "**Release From Agony**" is a nightmare. We wanted to have a nightmare depicted on the cover. I had a good friend from **Austria** who we asked to draw the front cover. So, I sent him the lyrics and that is what he drew. It's something that people tell us is really wild. We think it is a real heavy cover. There is a message behind it. It's not like your average metal cover. Some people in **Europe** have said it is too much.

HR: Tell me about your lyrics. It seems that you are becoming more socially and politically conscious. Is that so?

SCHMIER: I just try to write things that are interesting, things that bug me, scare me or things that are just around me. I want to give them a message and let them know what is going on. I listen to other bands and they write about politics and stuff. I think it is important that we know what musicians are thinking about. It's to know what people are thinking about war, life and other things. For me, it is important to write lyrics that make sense.

Next week, we will have part four of our conversation with **Schmier of Destruction**.

That's all for now. Until next week, this is **Sal "Earl Of Earache" Treppiedi** reminding you that you know things are normal when turmoil exists in the **Yankee clubhouse** and **Mr. Death** has played his part to a tee.

Our exclusive interview with
Mark Osegueda of Death Angel

WAKE UP STEVE!!!

Here we see the afore mentioned heavily sedated Steve Prue with Iron Maiden bassist Steve Harris. Thank God they removed the arrow! Hey Steve, where are those T-shirts?!?

WE'VE GOT THE FUN

Following the now infamous Canoe Carnival Kipnapping Caper, suspect Peggy Donnelly was seen attempting to abduct your favorite Metal Slave, Jeff Luttrell. However a few hours (and a few beers) later, Peggy was seen wandering aimlessly around the lake in a canoe with none other than that also infamous New Jersey shark hunter - Michael Schnapp. Hmmmm....

MARK AND ME

Former Vinnie Vincent Ivasion vocalist Mark Slaughter and the Krusher's Bob Berzins recently got together to discuss why just about everybody with their picture in the Hard Report is wearing someone else's shirt.

THE KRUSHER CARRIES WHITE LION!?

Here we see White Lion bassist James Lomenzo hanging around with big Bob Berzins after a recent show in Las Vegas. Actually James put Bob in a stranglehold until he promised he'd go at least four tracks deeper on the album (yeah right). And Bob calls himself the Krusher. Hmph.

A BARREN CROSS IN VEGAS.

Yes, those Krusher dudes do get around. Not to be outdone by boss-man Bob Berzins, KRSR's Magic Alex got off this shot with the guys from Barren Cross. L to R are: Ray Parris, Mike Lee, Magic, Jim LaVerde and Steve Whittaker.

HARD HITTERS III

Featuring new tracks from Metallica, Anthrax, Ozzy, Suicidal Tendencies, Anvil, Hittman, Exciter, Rage, Mallet Head, Screamer, Majesty, Big Mouth, Bullet Boy and Fortune. Also featuring Flotsam & Jetsam's best track yet... "Hard On You"

**I Was A Teenage Death Angel
An Interview With Mark Osegueda**

What do you get when you take five cousins from San Francisco, put them behind some instruments and say, "Go for it"? You could just get a lot more than you bargained for in the form of a band called Death Angel. With ages ranging from 15 to 20, you might not expect the kind of quality thrash that these boys are incredibly capable of turning out. On their latest release they tackle some pretty significant and mature topics showing a musical progression unparalleled for a band this young in only a year's time. I recently took a "Frolic Through The Park" with lead vocalist Mark Osegueda. This is how it went.

Chris: Why don't we begin by finding out how five cousins ended up forming a band like Death Angel?

Mark: Okay. Well actually we all did grow up together when we were little except for Gus, because he was born outside of the United States. We all listened to the same stuff. Like we were always into Kiss, AC/DC and stuff like that and we would all pretend we were them - playing air guitar you know, especially Kiss. Eventually they finally decided to form a real band. It was Rob, Dennis, Gus and Andy. It was a four piece but they didn't have a bass player and Dennis sang then. But then eventually Dennis took up bass and it went that way for quite a while. They started in '82, the band itself playing songs and stuff. Then in '84 I came in and from there we've just worked at it slowly but surely.

Chris: Did you always know from the beginning what kind of music you wanted to play? There was no question about playing music like Kiss and those other early influences?

Mark: Well, by the time we got really good at playing we were no longer into Kiss. They were just the band that got us interested in music.

Chris: How do you guys personally classify your kind of music? You've been called a metal band and a thrash band and/or speed metal.

Mark: Umm, let's see. This is hard. Maybe you could bunch all those words into one. God...

Chris: Well do you consider yourselves "thrash"?

Mark: Well, that's a genre we seem to always fall into. Not only because of the name but because a lot of our music is, and I admit it. But, we also try to bring in a lot of different kinds of sounds. I think "thrash" sometimes scares a lot of people away because they think of just a bunch of talentless fools. I think our music has a lot of thought behind it, plus it's really technical. We also sometimes bring in, an old, almost hardcore funk rhythm and things like that. It's weird because we also have catchier chorus' that might just be classified as normal rock too.

Chris: Does your age cause you any problems with touring or anything like that?

Mark: So far the only problem we've had would be with the first album just cause Andy needed to go to school that one year. He still has two more years left, but for now on we're gonna go on the road every chance we can. In fact, we leave September 7th on our U.S. tour. We start off in Phoenix, Arizona on the ninth and then we work our way across the U.S. and head east. I can't wait. I love it. Oh, but anyway, Andy does have two years left, but he did take his proficiency test so....

Chris: Well, how is songwriting divided up or does Rob still do the majority of it?

Mark: Well the main songwriter still is Rob (Cavestany), but everyone else has been kind of putting their musical ideas in a lot more. Like Dennis is putting in some and Gus is putting in a lot more. Lyrically, it's more or less me and Rob.

Chris: Well, you guys handle a lot of social and political issues and are really mature writers for your age. Is that something you aim to do all the time?

Mark: Yeah, it's kind of really weird. I guess, the music itself along with the name is really controversial so I guess we just

like doing that, like with the whole nuclear thing, that was really more or less just for the first album. On this one we don't really deal with nuclear stuff, but we are tackling other issues whether it would be prejudices or stereotypes or just like problems with society like being bored or confused and stuff like that.

Chris: Well with an album that deals with issues like that, why did you call it "Frolic Through The Park"?

Mark: There we go. Now were getting to the deep conceptual part. Okay, "Frolic Through The Park". The park means

life, you know, running through life. if you notice on the cover, it's a freight elevator opening out to the park. Which ties into another subject - the song "3rd Floor". 'Welcome to the third floor/It's a one way trip/then they lock the door', it says. Welcome to the third floor, is like welcome to your life and you know you can do what you want but once you get out, there's like no turning back, your locked out.

Chris: Where do you get ideas like this?

Mark: Well, wait here's the even deeper concept on the album cover. There's a tree in the backround with a bunch of kids playing around it. The elevator is on the third floor and it's opening to the third floor. The tree stands for childhood, and the children are playing around it because they really don't have that many responsibilities yet. Okay, so now there's a businessman and he's in mid-life and he's holding a briefcase which are his responsibilities and he's letting go of a balloon - which represents his childhood. Then we get to the old woman sitting in a rocking chair holding her cain which just represents the later stages in life. Old age. She's just almost reverting back to childhood in a way, and really doesn't have that many responsibilities either but it also is the last stage of life.

Chris: Okay....do you feel that with this album there is a real strong progression from the "Ultra-Violence" musically?

Mark Osegueda Dennis Pepa Rob Cavestany Gus Pepa Andy Galeon

Mark: I'd say so, yeah. A lot of people think it's a big change and change seems like such a harsh word. I think there is a definite progression. The band itself individually has progressed tremendously. Each individual has gotten so much better on their instruments since the first album, it's just amazing. The songwriting just came easier and it seem to really flow and we didn't have to force it.

Chris: What prompted you to do "Cold Gin"?

Mark: When we're in practice sometimes, we'll be messing around and someone will always come up with some old riff whether it's an old song we all like or something old we play just to make each other laugh. We just play and see how far we can get through some of these songs and it gets really funny. That one just worked out well and sometimes they really do work well. We try to keep some spontaneity in our live shows and stuff. Live sometimes we've done "Electric Funeral" by Black Sabbath, we've done "83rd Dream" off the Cult's first album and "Cold Gin", which people really like a lot. We get a lot of requests and letters for it, so we decided to do it on vinyl. As a matter of fact, I was listening to a radio show and they were doing an interview with Gene Simmons and he mentioned us and said that we did a wonderful job with it. So that was kind of neat. If anyone would have told me when I was a kid that Gene Simmons would even know about a band that I was in, I would have freaked out.

Chris: That's great. How do you all feel about how well the record is doing on the metal airplay charts and about the great reception overall that it's received from the press, radio and fans alike?

Mark: We're blowin' and we're lovin' it. Our palms are sweating. (Laughs) We're just so excited about it but sometimes it just feels so stagnant when your sitting at home going 'hmmm'. That's why we were so glad September 7th is right around the corner. We just can't wait to get out there and play live.

Chris: I caught your video this week for "Bored". It was great, how did you feel about doing that?

Mark: Oh great, but basically in about two weeks it's gonna be different. We re-edited it. For the editing of that video we were in Europe and someone did it for us and we weren't completely pleased with how it turned out so we just changed some of the clips and deleted some stuff out of it. I think the new re-edited version is a lot more us.

Chris: Let's talk a little bit about the now infamous name you guys chose for the band. Death Angel is, in itself a bit controversial like you've said so weren't you afraid of instantly alienating a lot potential listeners by using a name like that.

Mark: Yeah true, it's controversial. Well, actually I wasn't in the band when they chose it, but I do know the story behind it. A long time ago before the band was even called that, about maybe seven years ago, they were just walking through a bookstore they saw a book with a neat cover and it was called "Death Angel". Then later on when they were trying to think of a name for the band they were gonna form, that one popped up and just happened to stick. But the thing is, it is really controversial and I guess we always kind of liked to be controversial (laughs). I don't know if it had to do with ages of the children, because everyone was really young at that time and also back then there weren't as many Death this, Angel that's or Dark whatever. Now there are so many bands like that, that we really get bunched into that kind of group. Sometimes that's a bit hard but we hope that the music really sets us apart. Some critics and press might be a bit skeptical before they ever hear the record so that could be a problem. We are really I guess

an open candidate for the P.M.R.C. and stuff like that. And especially on the first album, they could have attacked us quite a bit, because the lyrics were really a bit cheesy to me. That's just cause, and it's not a cop out or anything, but we were really young and that's basically what we thought. We didn't have that many responsibilities or outlooks or even a whole lot of experiences with life yet, to write about. And now we have a lot more to write about and as time goes on I think the lyrics will get a lot stronger. And plus we always said we had this name and we've had it for so long and people know it now and we always thought if we ever made it big one day we could say, "Wow, we made it big even with one of the savagest names around".

Chris: How did you guys hook up with Enigma?

Mark: Well, we recorded a demo tape that was produced by Kirk Hammett. It was three songs - "Kill As One", "Thrashers" and "The Ultra-Violence". And we sent it to them and they responded basically, after they listened to it, they said within about 24 hours, you know they just wanted to hear more. So we sent them that plus a promotional package - press and all that. So what we did was went to an eight track studio and did a real, inexpensive demo with all the songs we put on the album "The Ultra-Violence" in order and sent them that and they really liked it so we began negotiating. But that took about 8 months because at that time we were all minors.

Chris: Well, how did your parents feel about all that? We're they really surprised or were they right there behind you all the way?

Mark: Actually, our parents are real supportive. It's kind of weird really. Without them it would be real hard because they have that real push and are so supportive now. At first, mine were really skeptical though about the whole music thing, I guess any parent would be if you're son says like, "I'm gonna be in a band". Most parents want lawyers and doctors and things. I guess it was kind of weird. Now it's very common to see them at shows when we play the Bay Area. It's very common too, when my friends and people come to my house cause they hear this music playing real

loud and they knock on the door and hear Death Angel playing and I won't be home and it's my dad just sitting in the front room playing our records real loud. (Laughs)

Chris: Well what are you guys looking forward to in the future? Here you are, you're all quite young and you have this record that is doing really well. Where do you go from here?

Mark: Umm, up. Basically we just want to try our hardest, do our best and actually we're already writing. We're always writing and trying to keep our ideas fresh. So, all we can say is that all five of us are grabbing each others hands, putting our heads down and running as fast as we can forward and not letting anyone block us, hopefully.

-Many thanks to Mark Osegueda for being so cooperative and enthusiastic. Mucho thanx as always to Ris Happy Face (Clarissa) at Enigma for setting it up, her patience, friendship and for remaining calm, cool and collected at all times. These five guys may be young but they have got the world in their pockets. I wish them the best of luck always. Check out their tremendous new album "Frolic Through The Park", their latest video on MTV and on tour beginning September 7th.

Slam dancing is blamed for the deaths of two people at England's Donington Park in the country's midlands last weekend, where the **British Monsters of Rock** festival took place. Two others were injured because of activities near the stage that one eyewitness called a "nightmare." It appears that the two fans died when they slipped on the wet ground and were trampled by the crowd when they couldn't get back on their feet. A half a dozen fans collapsed and were rescued from the crush. The deaths occurred while **Guns N' Roses** were playing. **Iron Maiden**, **Kiss**, **David Lee Roth**, and **Megadeth** were also on the bill.

Robert Calvert, singer and songwriter with **Hawkwind** during the 1970s, has died at his home in Margate, in southern England. He died from a heart attack.

The soundtrack to "**Imagine: The Movie**" is now scheduled for release in October. The double album will include two unreleased songs: "Real Love," taken from a demo cassette, and a new version of "Imagine," performed by Lennon on piano. Capitol Records also plans to release a boxed set of 15 **Beatles** studio albums around the same time.

Elton John set a record for the Hollywood Bowl, selling out two shows in 24 hours. John's concerts scheduled September 23rd and 24th sold out in one day, the fastest ticket sale for a show at the arena. It'll be the first time John has played the bowl since 1982.

The **Rolling Stones** may soon be back together, according to **Mick Jagger**. The Stones have not worked together since 1982. They plan to record and tour sometime next year.

Mick Jones of **Big Audio Dynamite** is said to be recovering, after spending a couple of weeks in intensive care in a London hospital. He caught pneumonia from his four-year-old daughter, Lauren. He's off the critical list and is expected to leave the hospital in the next week or so.

Ian McCulloch is reportedly working on new material at a Liverpool studio. While there have been rumors of a split, **Echo & The Bunnymen** are said to be contracted to release another two or three albums.

Ozzy Osbourne is being sued for \$75,000 for canceling a show in Nottingham, England, recently. He pulled out of the show just before it was to start because of a throat infection. The promoters are suing Osbourne to make him pay for damage caused at the venue by fans who went on a rampage after the cancellation was announced.

Big Country plan a year-long world tour in conjunction with their new album. The group, who have just released the first single in two years, will open the tour next month in the Soviet Union.

A compilation of **Jimi Hendrix** performances recorded for British radio is being released (on Rykodisc) late next month. The double-album features "all live studio recordings of totally unreleased material," including "Purple Haze," "Stone Free," and versions of "Daytripper" and "Hound Dog." Hendrix' "Isle Of Wight" concert will be released on the same label early next year.

George Michael's current tour is reportedly taking in over \$25 million. New dates have been added to the tour in October.

Bryan Ferry and his band will tour Japan, Australia and New Zealand after completing his U.S. dates. It's rumored that Ferry may play at the close of Expo '88 in Brisbane.

The **Bhundu Boys**' "True Jit" album has finally been released in the U.S., having been out in England for about a year. The album of Zimbabwean "jit" music was produced by Robin Miller, who has worked with Sade. "We sang the new album in English, but it was only an experiment," says bass player **David Mankaba**. "We just wanted to see how it sounded, and now we know. It's hard for us to sing in English, so I don't think we'll do it again."

John Entwistle says members of **The Who** plan to go into the studio in October to record a new album. "But we've still got to write the material for that," he says. "There aren't any plans for live shows at the moment." Entwistle says he's still seeking a record label for his current band.

The **Cocteau Twins**' new album, "Blue Bell Knoll," will be their first to be released on a major label in the U.S. (Capitol Records). It's due out early next month.

Joe Satriani says he's been approached about doing some film soundtracks, but has mixed thoughts about the idea. "There are a few pending right now, and if they turned out I would be pleased," he says. "But they'd have to be the right thing. I've turned down movie soundtracks because I don't want to have to write music while people are killing each other left and right. There's got to be something that demands a musical task."

Los Lobos' Spanish-language album will be called "La Pistola y el Corazon," which means "the pistol and the heart." It will include two original tunes and seven arrangements of Mexican tunes.

Roy Thomas Baker is producing the second album from **T'Pau**.

David Bowie is reportedly shopping around his early records, with the rights to early records such as "Space Oddity" and "Lodger" reverting back to him. Bowie will regain control of the rights to "Scary Monsters" next year. It's believed he's looking for a deal where his albums would be remastered and reissued.

A **Certain Ratio**, the Manchester band formerly on Factory Records, has been signed to A&M Records. The band will record a new album next month for release early next year.

Former **Husker Du** guitarist **Bob Mould** has produced the new album from Boston band the **Zulus**. Mould has been keeping a low profile since Husker Du broke up in January. "Since the situation with the band, I've just been pretty much writing and staying out of things," he says. "I just wanted to get some time off and write for myself, first and foremost. I play every day, but not in front of people." Mould says he's living in a farmhouse in a small town about 50 miles from Minneapolis. "Nobody knows who I am, not that I was getting hounded before, but it's really nice to be anonymous." Mould still has little to say about the Husker Du split. "The band got together in '78 and ended in '88," he says. "We did everything we could do as a band. We accomplished quite a bit. I certainly don't feel bitter about it. The band meant too much to me and too much to the people that liked music."

The **Tom Tom Club's** third album is now scheduled for release in October. It's called "Boom Boom Chi Boom Boom."

Al Stewart says his first album in over four years is "more of an up album" than his past few albums. The LP is called "Last Days Of The Century," and he says it reflects some of the changes he's gone through over the years. **Joe Ciccarelli** produced the album.

Exodus' next album (on Combat Records) will be called "Fabulous Disaster." "It's gonna be brutal," says lead guitarist **Gary Holt**. "We wanted to return to the really heavy style of the first album, so this one's gonna be Exodus at our heaviest."

Former **Thin Lizzy** drummer **Brian Downey** has released an album with his new band, **Baby Snakes**. The LP is called "Sweet Hunger," and it's Downey's first vinyl offering since Thin Lizzy broke up five years ago. **Philip Chevron**, guitarist for the **Pogues**, contributes a voice-over on one of the songs.

Spandau Ballet, who have a new single, "Raw," just out in England, are in the studio working on their sixth album which should be out early next year.

The **Human League's Phil Oakey** is working on a new album in his hometown of Sheffield, England. There's a rumor that it will be a gospel LP, and it's unclear if this is a solo or group recording.

UK MUSIC NEWS

Two men are dead and another critically injured after being caught in a crush at **The Castle Donnington - Monsters Of Rock Festival**, August 20th. Police are still trying to piece together the events and the cause of the fatalities five days later. A record number of people came out to the festival. Organizers had been hoping for around 80,000 and even they were astonished when 107,000 showed up, so partially to blame could be the authorities simply letting too many people in to see bands like **Helloween, Guns N' Roses, David Lee Roth** and **Iron Maiden**. Some eyewitnesses have blamed the incident on slamdancing at the front of the crowd. Judy Totton, the Festival spokeswoman issued a statement Tuesday saying slamdancing could have been partially to blame and that slamdancing has been unknown at Donnington before and is not usually associated with heavy metal. This form of very physical and fairly violent dancing is in fact vaguely associated with speed-metal but is more normally associated with various forms of hardcore punk. The policeman in charge of safety says he was satisfied that every reasonable safety measure had been taken, but other eyewitnesses complained that the ground going towards the stage sloped downwards and that a bunching up of people was inevitable. Details will still be sketchy as it now becomes a matter for the coroner to collate his evidence which will go towards a full police inquest into the fatalities.

One of the two fans has not yet been identified and police have issued a full description of the young man on radio and television appealing to anyone who may know him. Alan Dick, 18 from Scotland could not be resuscitated by St. John's Ambulance men. Both were crushed during a set by **Guns N' Roses**. The band did not learn that anyone had died until later in the day and were said to be "devastated". David Chapple, 25 regained consciousness after 24 hours but Gary Dobson 19 of Nottingham in the north of England is said to be very ill. Chapple's mother told reporters that all her son remembers was his glasses being knocked off, stooping down to pick them up and being trampled on. An eyewitness told the "New Musical Express": "I saw the bloke who died. He was on the ground for ten minutes being trampled by everyone." Another major festival, Reading Rock was due to take place the following weekend. There, organizers are quick to point out that as a three day festival, it is a more relaxed and spread out event, unlike the mass concentration that occurred at Donnington.

Robert Calvert, the former songwriter and lyricist with **Hawkwind** is dead aged 43 from a heart attack. Calvert was

in the middle of recording with his new group **The Starfighters**, playing pub concerts and preparing for the **Hawkwind** 20th Anniversary tour next year. His wife, Jill, said that she hoped the album and a new book of poetry would still be issued. With **Hawkwind**, Calvert wrote and performed some of their best known material, like their British hit "Silver Machine". Later, he went on to form the short lived **Hawklords** before continuing his solo efforts, which included the witty project, **Captain Lockheed** and **The Starfighters**. He was also an author, his best known work being the novel **Hype**, a satirical look at the music industry. Had Calvert lived, he would have probably rejoined **Hawkwind** permanently, according to close sources.

Mick Jones, leader of **Big Audio Dynamite** and former member of **The Clash**, is continuing to recover from serious illness. Jones contracted pneumonia after catching chicken pox from his four year old daughter over a month ago. This week he was moved out of intensive care and into a ward at his London hospital. He is now being put through a series of respiratory exercises and hopes to be at home before the end of August. But he will spend a long time quietly resting and it seems unlikely he will be doing any work for the rest of this year. A spokeswoman said this week: "We can't expect much from **B.A.D.** in the next few months. The important thing is that Mick gets well again."

Billy Bragg is back with a new single "Waiting For The Great Leap Forwards". Bragg has made the unusual guarantee that the single WILL NOT be coming out in a twelve inch, picture disc or CD Single - just a plain, old fashioned black seven inch single! "Waiting..." is from the bard's next album to be released simultaneously on both sides of the pond in mid-September. By that time Bragg will have already embarked on an extensive tour of North America which begins in Canada on 6th September and continues right through to the end of October. Barely having time to boil his underwear, he begins a tour of the British Isles in early November. A spokeswoman for Bragg describes the forthcoming material from the singer-songwriter as a lot more than just him and his guitar!

Marc Almond has returned with a single both the London critics and longtime fans have described as the finest in his career, "Tear Run Rings". The single is the first offering on Almond's new label EMI. His relationship with his longtime label Virgin, came under intense pressure when he presented them with the album "Mother Fist And Her Five Daughters" decreed as unnecessarily obscene by the label. The forthcoming album with his new label includes duets with several female singers, including apparently the late **Nico**. Marc told the "New Musical Express": "I've done a duet with

her called "Your Kisses Burn", which I think is the last thing she ever recorded. That was done I suppose four months ago, yet just a few weeks ago she died, which I guess is one of life's little ironies. She'd given up drugs and started a healthy life, jogging and cycling. And she was in Ibiza cycling and fell off in the heat and died. 30 years of drugs and she died of good health which was strange. That in a way was the theme of the song; a love song between the angel of death and a victim. While we were recording it, she was telling me stories and she was fascinating to listen to. But there was a terrible sadness there as well, a melancholia seemed to overcome her as the day wore on. When I heard she died, I wasn't surprised or shocked. I'm never surprised or shocked when people die these days because death is now available in so many ways, and so many people you know seem to die. But I think it was quite a fitting epitaph that the last words she sang on the record were "I will take your very soul." Marc's album will be called "The Angle Death In The Adonis Lounge".

Here is a list of some of the revelations claimed as fact by Albert Goldman in his book "The Lives Of John Lennon" published this week. **Paul McCartney, George Martin and Cynthia Lennon** are among those who claim the allegations in the book are false and have urged people to boycott it. The most significant allegations are that 1/ John Lennon and Brian Epstein had a homosexual relationship from mid-1963 to Epstein's death, starting in a holiday in Spain while Lennon's wife Cynthia was still recovering from the birth of Julian. He suggests that they were in turn part of a larger circle of men into S&M. 2/ Epstein was not alone when he died, but with a coldstream guardsman. These circumstances were covered up by Epstein's lawyer David Jacobs who himself died in a sado-masochistic ritual two years later. 3/ By the making of Sgt. Peppers, The Beatles were already taking heroin. 4/ Yoko Ono was put in an institution to prevent her killing herself during her first marriage. She was a nymphomaniac by the age of 16. 5/ Yoko boasted to friends that she set up McCartney's 1980 drug bust through relatives in Japanese customs. 6/ Lennon threatened to kill his father who took it seriously enough to dodge details with his solicitor to be opened in the event of unnatural death. 7/ Yoko had an affair with antiques dealer Sam Green, while John was still alive. 8/ Yoko had a whole apartment in the Dakota building full of fur coats. Yoko once spent \$300,000 on fur coats in a single afternoon. 9/ Lennon got a local girl pregnant in Hamburg and made her have an illegal abortion. 10/ The book suggests Lennon may have been partially responsible for the death of early Beatle Stu Sutcliffe, after kicking him in the head during a fight. Some believe he may also have killed a German sailor who The Beatles mugged in Hamburg. 11/ Lennon could not bear his son Sean to kiss him. 12/ Yoko placed cat turds in Lennon's ways so that he would step into them. In one of several violent incidents alleged by Goldman. Lennon, when he discovered this, dragged her by the hair to the stove and threatened to set her on fire. 13/ John and Yoko had a \$5000 a week heroin habit during the Dakota years.

Goldman suggests Yoko arranged to have a Caesarean birth so that Sean would be born on John's birthday. 15/ Lennon sent a film crew to cover The Monterey Pop Festival as a cover for smuggling two pints of pure acid into Britain. "The Lives Of John Lennon" is published by Bantam Press in the UK who stand by the work as "an exhaustively researched and accurate investigative biography. **Ray Coleman**, the former editor of "Melody Maker" who published his own authoritative biography on Lennon added his voice to the criticism of Goldman's work saying: "As America prepares for next year's 25th anniversary of The Beatles' first visit to The United States, there is outright fury that, eight years after being murdered, John Lennon is facing a new form of assassination." But one of the few rock writers to come out in favour of the book is perhaps Britain's best known and most controversial pop analysts, **Julie Burchill**, former scribe for the NME, The Face, Time Out and currently for "The Daily Mail" who serialized the book in Britain. She said this week to "Time Out": "If the young John Lennon - noble, savage scouse untouched by silly drugs,

silly gurus and silly women - came back today, I doubt if he'd have time for his defenders, who display the very same reverential blind faith he found so repulsive. No, the hand he would shake would be the hand of Professor Goldman... a man as gifted, cynical and iconoclastic as himself."

UK INDUSTRY NEWS

In anticipation of a single European market after 1992, when some 300 existing tariffs and protectionist rules will be dropped between European countries, French organization **MUSICOM** together with **MARS** are launching a pan-European industry even in October, according to "Music Week". Music on 88 aims to bring together record companies, music publishers, radio stations, programme producers, advertising and communication agencies, and artists from all over Europe in an effort to address the needs and expectations after 1992. The show runs from October 11th to 25th at La Vilette in Paris.

IN BRIEF

The **Cocteau Twins** release their new album "Blue Bell Knoll" September 19th... "Stop This Crazy Thing" is the excellent new single from **Coldcut**... Concerts in Britain this week include **The Reading Festival**, featuring **Squeeze, Starship** and **Iggy Pop** - while the multicultural festival **WOMAD** takes place in south-west England, featuring **The Proclaimers, Misty In Roots, Nusrat Fateh Ali Khan** and **Pere Ubu** among others. Elsewhere out and about are **Michael Jackson, Julia Fordham, Lightning Strike, Too Much Texas, Flaco Jimenez, The Four Brothers, The Smithereens, Southside Johnny And The Jukes, and Blowzabella** from France... **Railway Children's** new single is "Over And Over" remixed by **Stephen Street**... "Nothing Can Come Between Us" is more predictable fare from **Sade**... "Creeping Up On Jesus" is the second album from promising Virgin act **Big Dish**... **Communard Jimi Somerville** is currently backpacking in central America... **David Bowie** will be featured in an upcoming BBC Television show, in performance with the rather wonderful Montreal dance troupe **La La La Human Steps**... Talking Head **David Byrne** is also on British TV soon reading the texts for Robert Wilson's "The Knee Plays" accompanied by the **Les Miserables** jazz band... **Gene Loves Jezebel** were forced to cancel their appearance at Reading after **Jay Aston** fractured his ankle. He fell off a bike while peddling along Venice Beach in Los Angeles... **Then Jerico** play their first live dates here in eight months - a new album is due in October... **Richard Jobson** ex-**Skids** and ex-**Armoury Show** release an EMI single "Bad Man" on 30th August... The Cure's **Robert Smith** has finally married his longtime sweetheart Mary in a private church ceremony... The brand new single by **The Primitives** is called "Way Behind Me" on Lazy through BMG... Rumours that **The Style Council** have split up have been firmly denied. A tabloid newspaper claimed last week that **Paul Weller** was killing off the band so that he could spend more time with **DC Lee** and their baby; but Polydor say the story is false... **Sinead O'Connor's** next single is "Jumping In The River" written by former **Smiths** members **Mike Joyce** and **Andy Rourke**... **Duran Duran** have just finished a new single...

Julian Cope's new album is nearly finished... The next **Pet Shop Boys** album will include their own version of "I'm Not Scared" a massive floperooni when performed and released by friends **Eighth Wonder**... Some healthy activity in both the indie singles and albums charts here in the UK: "**Doing It For The Kids**" the mid-price sampler from Creation Records enters the charts at number one. The album features Creation acts **House Of Love, Momus, Biff Bang Pow** and many others. **The House Of Love** also enter the indie singles at number one with their marvelous claustrophobic single "Destroy The Heart". Also entering this week "You Make Me Realize" by **My Bloody Valentine** on Creation; "Always The Light" by **The Weather Prophets** and "Listen Up" by **ARK** on Rough Trade. (ARK are really AR Kane).

Beth Kepple, WKLS, Atlanta

Some things do get better with age and our 14th anniversary bash is living proof. Atlanta overdosed on pure rock and roll on Saturday night as 96 Rock threw a musical orgie. We rocked with Caesar Speaks, a local rock off winner, Marti Jones, John Hiatt, Michael Anderson, John Kilzer, and The Rhythm Corps. So much talent in such a small area in such a short period of time. It was electrical and definitely much more fun than the law allows. Thanks to all the above artists, Center Stage Theater, our buddies in the record biz that celebrated with us, and the 96-rockers that have made it all possible for the past 14 years.... Oh Atlanta, I got to get back to you! And they did with a vengeance, last night was the first two of four sold out Little Feat shows at the Center Stage Theater. Our afternoon drive lady Kaedy Kiely got to see their first live reunion performance last April at the New Orleans Jazz festival and got to interview Paul Barrere and Billy Payne yesterday afternoon. They were talking about that show and how Bonnie Raitt and Jimmy Buffet jammed with them--and how surprising it was that Ed Bradley of 60 minutes also was up on stage. Supposedly he is a friend of Jimmy Buffett. Within 5 minutes, as the guys were answering the requests lines and talking to listeners, who should call in but Ed Bradley himself; coincidentally he was in Atlanta working on a 60 minutes story. As Ed put it live on the air, "I just happened to be listening to the station that played the best music, and didn't even know you guys were in town until I heard the interview". Talk about an unsolicited upper demo on air endorsement. Ed wouldn't tell us what story he was working on, but promised to catch one of the shows after his work was done. I hope he does, it was the first time I've ever seen Little Feat and they tie with Pink Floyd for being the best concert I have ever seen in my life.

Charlie Logan, WYNF, Tampa

Thank God my feats didn't fail me now. Just when you think you're too jaded to rise to the level of enthusiasm it takes to dance and sing and yell and scream for over two hours, Little Feat hits town. I'm so stoked to know that there's a band that can still motivate me to boogie my scruples away. Little Feat stormed through a two hours plus set to a sold out audience chanting, "Feat Feat Feat". An incredible, stimulating night of rock and roll. Thanks to Paul Barrere and Sam Clayton for the interview and to Charlie Fox for all his help. This record is on fire in Tampa Bay.... Other records doing great on the air: Ya Ya and It Bites. Both sound wonderful bursting through my car speakers.... Robert Cray sounds so smooth and Europe and Cinderella and are burning out telephone lines. The Escape Club is so hip--a la INXS.

Pam Edwards, KGB, San Diego

Hallelujah! It absolutely makes my week whenever a new U2 song arrives at the station, but this time it's even better because I can go on the air and say, "This is Pam Edwards, with Jesus Christ, rockin you at 101 KGB-FM". It really makes me smile and the rest of the "Folkways" record is great too. Hats off to all the artists for donating their recordings and opening musical doors for a whole new generation.... The Smithereens success story continues at KGB with "Drown In My Own Tears". I fully expect to play at least two other tracks from this record. The strength of this band shows up in requests, sales and research. It has made them one of our premier new artists.... Another continuing success story centers around Joe Satriani. "Always With Me..." enters power rotation here at full steam. His music has certainly captured our audience and will capture yours too if you give it a chance.... And this week the songs generating the most "Where can I Buy this???" questions from listers are: Rhythm Corps' "Common Ground" and Melissa Etheridge's "Give Me Some Water".... Thanks to Paula Tugge at Polygram for the great time at Def Leppard. Just seeing 23,000 fans singing "Pour Some Sugar On Me" was well worth the trip.

Wendy Steele, WLWQ, Columbus

Robert Palmer's "Early In The Morning" is a good follow up track, which goes into medium this week. On August 9th he played our Agora type club which holds about 1250 people, and had such a good time he's coming back again this week. He was hot as a firecracker, like a fourth of July celebration. We had a great time, too. it was unbelievable to see him in a club setting, so to celebrate we're giving away tickets again and this time a "Simply Irresistible" night, which includes hotel room, brunch and 9.6 pounds of chocolate.... Colin James's "Voodoo Thing" also goes into medium this week. He will hopefully be at our big "Roll With It" party before the Winwood show here on September 2nd.... And congratulations to our promotion and sports director Mark "Munch" Bishop for nine years here at QFM-96. He originated the often stolen slogan "Sportsrockers" here in Columbus.

Redbeard, KTXQ, Dallas

Very delightful one listen hook from Frozen Ghost.... I want to point out the great guitar player on the John Kilzer record, he's Jack Holder, the junior Billy Gibbons.... I like that whole Iggy Pop album. I love the combination of Iggy and Steve Jones, one of my all time rock and roll heroes. The CD never leaves my deck. The fist track did well, so we're on "High On You".... I think we could end up playing every song from the Smithereens album. Their strength will always be their songs. They bridge the 60's and 80's while kind of skipping over the 70's.... When Little Feat fires up on "Let It Roll", it's just like motoring down the highway in a big 12 cylinder Packard. It really cranks--sales are top 10 and rising. When Living Colour first came out, I

featured it each week on my new music preview and then got calls for days afterwards. Then when it came through the back door I was ready to go since I knew there was something there from the start. Once again, after only one week of dayparted play the phones have picked up.

Carter Alan, WBCN, Boston

I can't say enough about the U2 track from "Folkways". Not to demean all the other fine tracks from this album, but U2's rendition of Woody Guthrie's "Jesus Christ" just makes my spine tingle. The record is a runaway hit on BCN, followed closely by Springsteen's "Vigilante Man". There's also a surprise in the Little Richard/Fishbone song which is delightful and scored heavily on its first play on the air. It's also the liveliest song, along with U2. Hats off to Columbia, the Smithsonian and everyone involved in the project.... Also, threatening to overwhelm Guns 'N Roses after many weeks of #1 success is an unlikely entry on the air, Bobby McFerrin and "Don't Worry, Be Happy". This infectious song is blowing the request lines out after only a week and a half.... Also love JCM's new "Rave On", with its great country honk arrangement of the Buddy Holly classic.

Brian Illes, WKFM, Syracuse

I saw Neil Young & the Bluenotes on Saturday night. The band is awesome. I had heard conflicting reports about how much classic material was in the show. The last word I had was that Neil would play "lots" of older stuff. However, the only classics were "After The Goldrush", and "Tonight's The Night". Two songs does not make "lots". Nevertheless, Neil is a great one, and if you're into the Bluenotes stuff, you'll really enjoy his current tour. But I have to believe that a majority of people want to hear "Southern Man", and "Cinnamon Girl".

David A. Ross, KMJX, Little Rock

Big thanks to Ted Mellencamp & Mercury for the chance to preview the new Bon Jovi--it smokes.... Happy 35th birthday to Geffen's Mark Neidahauser.... Good luck to Joey Estrada in Denver, you're getting a good one.... Coming up we've got James Taylor in town the 30th in Barton Coliseum and also our annual Summerset festival September 3rd, 4th and 5th. Twelve bands in all, featuring Steppenwolf, Rainmakers and Jimmy Davis and the Junction.

Rick MacKenzie, WAAF-FM

Some happening new music on the radio here this week. By far the easiest add was Bruce Hornsby's "Defenders Of The Flag". This is the song from the album that will remind the core audience that Bruce can rock out.... How 'bout that new one from the Psych Furs? The first guitar riff will tell you that this one needs to be on the air.... Henry Lee's "Hands on the Radio" is another straight down the middle tune that cannot hurt you to play--this guy is really just beginning to get the attention he deserves, don't give up on him yet!... Finally, after only 2 weeks on the air, Def Leppard's "Love Bites" is solidly the most-requested song here. Check this out, the album has been on WAAF's weekly Top 20 Album Countdown for 54 consecutive weeks and is the best selling of everything we play. Unbelievable!!

Joe Marino, WCCC, Hartford

First off, thanks goes to Bill and Rose McGathy who came to Hartford to say hello. The High Priest and Priestess of Rock n'Roll are a lot of fun to hang out with!... Then on Thursday I got to hear the new Bon Jovi album, "New Jersey". Hold on to somethin' an hold on tight, because this one's gonna blow you away! Thanks to Pat Rascone and Brenda Romano for a great time! Also, congratulations to Pat Rascone on the new gig. Polygram's gonna miss this unique individual.... David Drew shows that covers aren't his only forte, as "Safety Love" kicks just as much serious ass as "Green Eyed Lady" did. A fantastic tune from an up and coming rock star.... Who'd of thought that an old Gap Band tune could be such an easy Rock & Roll Radio add. That's what's happenin' here at CCC with Robert Palmer's "Early in the Mornin'".... Check out Cinderella's new one "Don't You Know...". They're already platinum, and multiply that real soon.... If you're not playing Kings X, you haven't heard it.... And finally check out John Hiatt. The LP is a piece of genius.

Erin Riley, WMMR, Philadelphia

The highlight of my week certainly has been the fact that Soupy Sales is filling in for John Debella while he is on vacation. There is nothing that brightens my day more than doing the mouse first thing in the morning.... I am very intrigued by the Jane's Addiction album. I have been awaiting its arrival ever since Rolling Stone wrote them up last year along with Tommy Conwell. I must say it is different and very, very good. I hope they tour soon because I can't imagine what their live show would be like.

J.D., WONE, Akron

"Folkways", a tribute to Woody Guthrie and Leadbelly is very refreshing. Now here's some great stuff! When I received my copy I slapped it on immediately and began to settle back for a journey into rock and roll euphoria. And what a trip! I was knocked out by Bruce Springsteen's cover of "Vigilante Man" and "I Ain't Got No Home" along with Dylan's version of "Pretty Boy Floyd" and U2's impeccable touch on "Jesus Christ". This is a must LP for the rock and roll enthusiast. It's very tasteful and the liner notes are well done. Kudos to Columbia for its dedication on a fabulous collection.

It's great to see the royalties from this project go to help preserve an art and keep the vision of two of songwriting's greatest legends alive.... Dear Carlyne Heldman, hey whatta ya say we act like a couple of chipmunks and go get nuts together?

Jimmy Christopher, KZEW, Dallas

The Fab T-Birds go straight into power from medium this week. The local awareness on this track is running high as the movie builds some steam.... I just can't get enough of the Robert Cray album. This song is such a winner that the format can't go wrong with this track.... Little Feat may always miss the Fat Man in the Bathtub but the band's integrity is still together enough to guarantee a satisfying experience for the listener.

David Sadof, KLOL, Houston

It's nice to be back after a restful week of vacation and return to a desk covered with CDs and records. (By the way, we still like to receive LPs so that we can maintain our record library) The Psychedelic Furs is an automatic. In fact, we've been playing it off the import CD for about two weeks. Thanks for including my favorite Furs song on the compilation, "She Is Mine".... "Drown In My Own Tears" goes into medium this week.... And our pick for the fourth Midnight Oil track, "Put Down That Weapon" goes in as well.... Guns N' Roses is still the hottest band out there with three songs getting top three requests followed by Europe and Bad Company.... Hysteria is still flying out of the stores, but having already played "Love Bites" our next cut is "Rocket".... Personal to Howie: the track by "A House" on "Just Say Yo" sounds great, and the Morrissey is getting a good response on Exposure. Unfortunately, the James records were warped when they arrived.... One last thing, if the Walmart Chain thought the Poison and Prince album covers were offensive, wait until they see Jane's Addiction.

Alan White, KILO, Colorado Springs

With new releases upon us every week it seems to reshuffle our priorities. We felt that Big Country has made a huge step forward in their presentation on "King Of Emotion". A little more subtle, but still very tasty.... Next week won't be any easier with Steve Miller, Omar and Vixen knocking at the door, plus Bon Jovi right after that. So bear with us because we've got to plan ahead too.... Welcome to our new Polytwins Joe Estrada and James Israel who will be working with Mercury.... Nice to see JB Brenner with fellow A&M'er Dick Merkle.... Also nice to formally meet Rich Bloom of Capitol who paid us a visit with Denver's Randy Robins.... Many thanks also to the gang at Chrysalis for the LA Benatar party. Especially Daniel, Geina, Kevin, Van O and Jeffrey. Thanks again for the LA getaway.

Christina Gorton, KKZX, Spokane

The man with a serious case of morning face does a pretty good job on his latest song. Robert Palmer comes out with "Early In The Morning" and goes into rotation this week.... Joan Armatrading and some guy you've probably never heard of named Mark Knopfler have gotten together for a track called "The Shouting Stage" from the album of the same name. We have added the track this week and it sounds great.... Moving into heavy on the basis of continuing hot phones is old Rubber Pants himself. "Dance On My Own" is tracking like a monster up here.

Al Scott, KZEL, Eugene

I love the new Bad Company album. The vocals really pop and there is just enough of those patented BadCo guitars to get the crowd going.... Henry Lee Summer comes up with one of the best real rock radio songs of the season.... Can the audience get enough Huey Lewis? No way. We've added "Small World" and "Walking With The Kid" this week and the phones continue to smoke for the guy.

Joe Anthony, KISS, San Antonio

The next Poison cut could be the most exciting cut on the album, getting good phones while testing.... Also give a listen to Saxon's "I Can't Wait" on Enigma, this is good as anything ever to hit the top 20, good sound, good phones.

Jim Steel, WIOT, Toledo

Thanks to Doug Burton of Polygram for stopping by this past week with Fred Coury of Cinderella. Although I couldn't make the show, the phone response after was buzzing about the band's performance. So hot on the heels of that show we'll move on to "Don't Know What You Got". This could be bigger than "Nobody's Fool" from "Nightsongs". Doug also gets many thanks, along with Def Leppard and their management, for turning things into reality here in Toledo. The thought alone turned this city into "Hysteria". Lord only knows what's gonna happen when they're actually here.... To Keith at QFM, you've proved your a player, now take all the food off their plate.

Jerry Trujillo, KDKB, Mesa

First of all I just want to say thanks to all the artists and record folks who helped make our 17th birthday celebration a huge success. Also want to thank the folks from other stations around the country who sent us Happy Birthday ID's, we will do the same when your's come up. Once again, thanks to all, and we'll do it again next year for #18.

Dave Kane, WCMF, Rochester

Thanks to Kip Winger for coming by to visit last week and to Bruce Moser for playing chauffeur. The Winger record is starting to pick up some calls. It looks as though I was mistaken on the Bad Company--the audience seems to like it and they're starting to call for it. A new artist to watch for is guitarist Jeff Healey. He is next in line for what seems to be an endless supply of talented guitarists. I'll be on vacation this week--so much later for youse.

Will Douglass, WGLF, Tallahassee

The Joe Satriani goes to heavy, with all daypart restrictions removed. The response has been positive and it adds a unique sound to the station. Good to hear an instrumental that moves everyone again.... Tommy Conwell moves up to medium. Still kinda early, but it sounds good so we'll move it up sooner than usual.... And both Little Feat tunes move up in rotation based on strong sales.... Strongest add of the week: Ya Ya's "Caught in a Lie", that's going to go CHR. It's got all the makings for a good fall hit.... Also new, the Georgia Satellites, which we have to give a shot to.... Also like the Big Country. A good straight ahead song, and since we're a college town the name is already familiar with a lot of the audience.

Dave Lange, WLAV, Grand Rapids

Regarding Buckwheat Zydeco--this band has been building for the last year and a half. Finally, I think they're in a position where they're ready (with the help of Eric Clapton) to break out. So look out!! He's been on our jazz show for a long time and he's ready to move to the mainstream.

Patty Martin, KSJO, San Jose

Thanks to Ken Reuther from Atlantic for bringing Beatnick Beach by the station for an impromptu acoustic concert outside the KSJO studios. The band is great and if you're in the Bay Area and haven't seen them yet do yourself a favor and check them out. If you're elsewhere, make sure you catch them when they go on tour.... Out of the box: Big Country--larger than life sound that works well on the radio.... and U2 and Bruce from the "Folkways" collection. There is sure to be a lot of interest in these tracks, especially since they're a little bit different, but I think they'll sound great on the air.... Also added the Buckwheat Zydeco. He adds a little twist and Clapton's guitar brings it back to earth.... Follow up tracks from Cinderella and Winwood go in. The Cinderella album has done so incredibly well--we know they'll want to hear the next track soon.

Catfish, WHMD, Hammond

WHMD changes to CHR format Monday, August 29th. As music director, I'll stay on here, handling tunes and taking calls, picking the music for the top 40 format. It has been a priceless privilege to be associated with the record reps, artists, label executives, and trade magazines during the 21 months I've served as AOR music director. This radio station appreciates the service, promotions, and publicity received during its 5 years as an album rocker. I look forward to the challenge of programming CHR music and to new friends and relationships. I can easily adapt to top-40, but will also discuss opportunities elsewhere (shake, rattle & roll) (504) 345-1070.

Ty Banks, KQWB, Fargo

Huge amount of adds this week. Didn't have room for the Psychedelic Furs, "All That Money Wants", but will be on it next week.... Very excited about the new sound of Big Country. It's good to hear them back and nice to see them on Reprise.

Tom Van Sant, WIZN, Burlington

A truly harmonic convergence last Friday on the second WIZN "Blues Cruise." The weather was perfect, we saw a great turnout among our record friends, and a smokin' set by Treat Her Right. Thanks to all who made the trip, and a very big thank you to Donald DeLacy of RCA for all his help in bringing THR up for the occasion. We'll do it again next year without the golf.... No greasy comb for us, Patti Smith's "Up There Down There" is now an official add, although we've been playing it since day one. 88's best album deserves it.... Edie!, Edie!, Edie! "What I Am" is 5th most requested after only 2 week weeks. I had a feeling....

Jenni Gipe, WZBH, Georgetown

John Hiatt's "Slow Turning" and Colin James "Voodoo Thing" are a couple adds this week. What great rock and roll.... The ballad from Cinderella is going to give them platinum slippers.... Bruce Hornsby's "Defenders Of The Flag" will bring people back to the way they felt about him when "The Way It Is" came out. A real nice bluesy tune from the Range. To Richard Remsberg of KOMP--it was great seeing you this weekend.

Elise VandeBorgh, KPEZ, Austin

It's official; but I guess you knew that already. Wes Nessman and Johnny Walker leave Lubbock to land in Austin's cereal bowl as the breakfast flakes, Yeah!!!! Not only do we look forward to a major boost in the book department, this means that I can stay up late-nights with Letterman again. The playlist is kinda screwy lately. By September I'll have either lots of friends or lots of record people mad at me. Just bear with me. Hey

Buckwheat--love that zydeco, and it's a perfect song for our market with college about to start.... And how about Huey Lewis & the News and the Tower of Power Horns. "Small World" part 2 will work much better for us and it proves once again that Huey is a force to be reckoned with.

Skip Isley, WWTR, Ocean City

About a year ago, I watched a documentary on public TV about Woody Guthrie. I never knew much about him before, but after learning about this man's life, I began to see a little Woody Guthrie in a lot of my favorite artists. The next thing I know, these same artists are on the same record doing his songs. I applaud CBS on this entire project...simply said, The Folkways package is a piece of American history. My only regret is that the lyrics are not included with the album.

Craig Bradley, WRIK, Paducah

The Georgia Satellites have been a pretty good mover for us, phones picked up and the track is now in heavy. It gives us more of a kick-ass sound.... Also we're still noting good phones on Colin James and John Kilzer-- that may move up next week.

Haz Montana, WXLN, Davenport

A 20 share in the latest Birch AND #1 25-34! Things are hot at 97X.... You can now reach 97X anytime via FAX. Our FAX number is 319-326-1819.... Please check your address files for our updated address, too. We moved in January to this address: 1229, Brady, Davenport, Iowa 52803. We're still getting tons of mail for our old P.O. Box number and address.... Joe Satriani's "Always...", and Guns N' Roses "Sweet Child" and "Paradise City" are doing gangbusters on sales, requests, and callouts.... This week we also delve deeper on BOC and Benatar.... I gotta go enjoy the mellow weather while it lasts.... eat more lima beans!

Don Gilmore, KLBK, Austin

It is ironic that Michelle Shocked's debut studio effort is released at virtually the same time as the "Folkways" tribute to Woody Guthrie and Leadbelly as she personifies in this decade, the spirit of those pioneering American songwriters. From the letter from "Anchorage", and the gripping "Memories Of East Texas", to the rollicking ride of "If Love Was A Train", "Short Sharp Shocked" is a slice of uniquely American life that is not to be missed.

Virgil Thompson, WIXV, Savannah

There's a new artist and song out that really excites us here. Hey, I usually don't even comment on tunes--I don't have the time each week. But I must tell the Edie & The New Bohemians story. Richard gets credit for hearing it and playing it first. "What I Am" is a captivating song. Edie's voice piques the interest, and the "wah-wah" guitar makes it truly unique. Personally, I love it--and the best part is the audience agrees! We had played the song a total of maybe six times, and it was Top 2 requests. Then #1 the next week. We're talking all demos too, a la Tracy Chapman. Even if you don't put it on the air, at least discover it for yourself.... Promotionally speaking, how do you get a full-page newspaper article on your morning team, plus a three minute segment on all three local newscasts at both 6 and 11? Just have the morning team married in a double ceremony live on the air from a public downtown location--that's all. Look for photos soon!

Bernie Bernard, Voice of America, Washington, D.C.

So sad about Roy Buchanan, and just when his career was on the upswing. He will be missed. We put together a special tribute to Roy, which ran this past week.... VOA Europe is in the middle of an Amnesty International contest, where 2 couples will be sent to the Amnesty concert in Turin, Italy on September 8th. Albums by Tracy Chapman, Peter Gabriel, Sting and Bruce Springsteen are being given away, along with VOA Europe Human Rights Now t-shirts and Reebok tennis shoes. VOA Europe broadcasts to the western part of the continent on AM, FM and cable.... With all the hoopla about the Republican convention, I came up with a piece on contemporary New Orleans music, tracing the roots from Professor Longhair and Fats Domino, through Dr. John and the Neville Brothers, to Buckwheat Zydeco and The Radiators. The feature was broadcast in English and translated into several of our 43 languages.... Sting was in town a few weeks ago to narrate "Yanomamo", a musical about the plight of the Amazon rain forest. The performance at the Kennedy Center here in D.C. was a benefit for the World Wildlife Fund.... Sandra Dominique of the VOA creole service does a music and interview show called "Magazine Jen Jan" which is broadcast to Haiti and the Caribbean. The program is distributed to Haiti in stereo for re-broadcast on local radio stations.... Ray McDonald plans a Van Morrison birthday special, to air worldwide in English on August 31st....More next week on what we're doing in the alternative music realm.

Dave Ross, KFMU, Steamboat/Vail

Big Country is back in a big way. "King Of Emotion" is full of great hooks and cool vocals. It's nice to hear a strong and solid song from a band that has a following as big as this band has.... David Lindley has put out an LP that is truly incredible. You can't pass up just about anything on the LP. Make sure you check out the covers of "Werewolves Of London" and "Papa Was A Rolling Stone". This is the strongest thing Lindley has done in quite awhile.... Hey, we're looking for ID's from just about anyone. If you have any

suggestion please give me a call.... Finally, thanks to Nancy Levin for all the help in the Chicago giveaway. It's certainly appreciated.... That's it from the worlds only wind powered radio station.

Eric St John, WNPQ, Akron

This Ya Ya record is not a bad piece of work. This is a personal kind of thing for me. I really like this song and this add falls into that "hunch" category that you have to follow every once in awhile. We just put this on the air and we are posting instant callbacks from the audience.... Cheap Trick is still getting strong female phone response and the audience helps push that track up in rotation as a result.... We experimented with the Femme Fatal and are already getting good response on the phones. I predict big things from this record.... Ditto the second Cinderella track. We are getting lots of good feedback on this already.... Bad Company is gonna hit and stick around here. This song is just about ready to breakout big and is a must add to any playlist.

John Riggs, WKLC, Charleston

There is only one thing worth talking about this week and that is my ever growing love for Lorraine Lewis.

Rick Panneck, WAPL, Appleton

Two songs that are creating an incredible amount of reaction are Bad Company's "No Smoke Without A Fire" and "Rave On" from John Cougar Mellencamp. Mr. Cougar is top five on the phones, this could be a number one single at CHR, and AOR, for that matter too! Bad Company has caught me by surprise. Returning to their rock n' roll roots has really paid off--top five phones with an incredible buzz that was missing on the last lp.... Thanks to Arista's Tom Balla for turning us on to the Jeff Healey debut release. Move over Stevie Ray--Jeff Healey's on his way!... Finally how's this for a comparison--I recently got a call from a male listener who referred to Tracy Chapman's "Talkin' About A Revolution" as that song from Jose Feliciano--only in Wisconsin!

Jon Erdahl, WGIR, Manchester

Virgin's Tom Jodka personally threw me into a room and made me listen to Colin James "Voodoo Thing". Tom, there's no denying it, this record has the goods. I'm putting it in this week--way to go!

Karen A. Small, WGIR, Manchester

The "Folkway's" collection is a very classy salute to 2 giants of American music, as done by today's musical giants. It's great to hear these artists sing these Woody Guthrie/Leadbelly songs, classics in the American idiom, with such conviction. My favorite track by far is the great Little Richard/Fishbone rendition of "Rock Island Line".... The thing that immediately strikes me about the new Big Country is the big, clean production. "King Of Emotion" has the patented Big Country sound and this time you can hear the music clearly, good record.... Many thanks from Jon and I to Andrew from Reprise for the opportunity to meet the one and only Brian Wilson. Brian was very gracious and signed several items for our upcoming Rock & Roll auction.... One recent release that's really growing on me is the Tommy Conwell record, it's full of great music that keeps you coming back for more.... Scintillating production, great song, "Madalaine" has it all. We like to play records for nice guys and Kip Winger is one of the nicest, let's take "Madalaine" all the way to number one.

Mike Gardner, KOAS, Kealakekua

This summer has brought us a steady flow of releases that fit very nicely into our format. Right now Rebel Heels, Patti Smith and the hot Iggy Pop spell many good tunes.... Peter Murphy's got a nice sound with "Indigo Eyes" and Colin James will grow on us.... Gregg Allman has a nice even Lp that works well with our line-up. Dig deep, there's a wealth of good music that mixes well with older library stuff. If you're in Hawaii give me a call--we're on the big island.

Bob Jeffries, KBOY, Medford

Drought relief: Bad Company's "No Smoke Without A Fire" is in medium rotation and already top 5 phones. Not so much a surprise, more of a vindication. A very strong return for a truly remarkable band!... Def Leppard continues the Hysteria with "Love Bites". If you haven't sampled Bites, be prepared for yet another mega-hit that will elicit instant phone reaction.... The top 5 phones in Southern Oregon: Little Feat, Guns N' Roses, Melissa Etheridge, Bad Company and Tommy Conwell.

Tim Parker, KNCN, Corpus Christi

Strongest add of the week: Hothouse Flowers, I think. It's got that something you can't put your finger on but you know it's something important.... Also new: Winwood "Don't You Know...", and Henry Lee Summer's "Hands On The Radio". It took me longer than I thought to hear this one. Also, Bruce Hornsby "Defenders", and a light add on Winger "Madalaine". It sounds like Ratt, only they're pretty. Thanks to Beau Hill's writing and production they have that White Lion look about them.... Bad Company goes to heavy. I mean, #3 requests in a week is really amazing. It's a good song, but I didn't think it would light the phones up like this....

Inxs goes to power, and the Georgia Satellites to heavy. It's probably one of the best covers around 'cause it doesn't sound anything like the original. Also to heavy with Melissa Etheridge. Surprising phone action there with lots of curiosity calls. Also good calls for Femme Fatale. I think that's more than just a pretty face.

Paul Nelson, WWCT, Peoria

Just passing on a little research tip from a classic rock research friend. When someone says they want to hear variety, what they really want to hear is different tempo Eagles songs. Just thought I'd save you some research money.... What a wonderful package "Folkways" is--and how can you go wrong with names like U2, Springsteen and Mellencamp. U2 and Bruce are most appropriate for our format, but here in the midwest we can't forget Mellencamp.... Also went with the Peter Cetera. David Gilmour did wonders for Paul McCartney, so this could be our answer to the CHR action with this artist.

Mike Verity, WNGZ, Elmira

Confidential to Neil Young, hey hey, greetings from the back row.... Top 5 request out of the box on Bobby McFerrin, absolutely, positively H-O-T!!

John Loscalzo, WRCN, Long Island

Gee it's really great to be here, got to check out Bryan Ferry at Radio City a couple of weeks back. Just think... I was once told that Bryan Ferry was an insignificant artist. That person is now running a Tasty Freeze franchise--how's about some fries wit dat..... On a totally unrelated note, play that Jane's Addiction record really loud and offend your neighbors.... God I love the 90's.

Lori Niks, WYBB, Charleston

Peter Cetera and David Gilmour, what a combination! I must admit I was a bit skeptical--I mean, Chicago meets Pink Floyd...come on! But it works, and works well. Based on Pete's last couple of singles from the "Karate Kid" 1 & 2, I thought he was strictly an adult contemporary kind of guy, although I'm told that his first solo album was a rocker. Laced with heavy, funky bass and David Gilmour's unmistakable guitar, Peter Cetera's "You Never Listen To Me" proves his "One More Story" album covers both ends of the musical spectrum. From the A/C hit "One Good Woman" to this potential AOR smash, this collection has it all.

Trey Burley, WZMB, Jacksonville

Wild is awesome, wow!

Pam Brooks, WPDH, Poughkeepsie

We are starting with the words uh-huh, well alright, love your peaches, gonna shake your tree. "Ya Ya", I love it! Reminiscent of the "Joker" days, which is some of my favorite material from Steve Miller. My ears can't wait for the rest of "Born To Be Blue" to arrive. If we do nothing else next week, we will play this. Neat funk from Steve.... Melissa Etheridge not only continues to grow on my hitlist but the phones and sales grow stronger every day as well. Melissa, the Hudson Valley is in awe of your music and we hope you can come entertain us soon. For the time being though we'll stay psyched with "Water", which is now up to heavy. Way to go Melissa.... Long live the truly wonderful Zydeco art form, Buckweat is totally cool and WPDH is happy to throw our hats into the ring on this one. Not only is the lp very exciting, but to top it off, "Why does Love..." is one of my top ten favorite songs. Add to that the fact that Bill Palmeri, the PD, is a major Clapton and Buckwheat fan and you've got the big picture.... Speaking of the big picture--Big Country is a spine tingler. This should be humongous.

Fred McFarlin, WRFX, Charlotte

I claim full responsibility for the cosmic base on the "Inn" cut on the "Statements" compilation on Third Lock records. Local talent buffs: P.O. Box 25523 Charlotte NC, 28229 is the address to get a copy.... From the "Fox Exposures" corner, "Pagan Babies" and "Token Entry" on Hawker records is proof that true garage punk is not dead, it's alive & kicking ass in Philly.... Also on my turntable: Michelle Shocked, Sylvia Juncosa (on SST) and Jane's Addiction.... Finally, if any one knows where David Baker is, call me. He's an old bud (well, OK, he's only 30) who was last seen working as a supervisor for a company that worked video rentals in Texas and Oklahoma.

Randy Maranz, KDJK, Modesto

Cinderella--"Long Cold Winter" has brought forth a truly fine Lp from the band. We're three tracks deep right now and we expect more in the future. "Don't Know What You Got..." is a great record and it's doing real well for us right now.... Peter Cetera with David Gilmour--a truly fine effort from these major artists and they have produced a really fine record. Don't hesitate to add Peter Cetera, it will do well for you.... My fave of the week has got to be the Buckweat Zydeco. Add a little Cajun spice to your life and enjoy the accordion as it should be enjoyed. And what more can you say about the guitar of Eric Clapton.... Second pick of the week is Reckless Sleepers with Jules Shear. "If We Never Meet Again" should not be a sleeper, but should do really well, so give it a listen.... Thumbs up also for Jethro Tull, Graham Parker and John Kilzer.

Patrick Ferrise, WWVU, Morgantown

Let's Active's 12" is a great pop crossover, there's too many hooks to deny not having it.... Hunters and Collectors is a very nice record, well produced, lots of continuity, check out "Wishing Well". They're intelligent pop writers.... Screaming Tribesmen could be called power pop, traditional bass and drums, yet they do something new with it, if you're looking for some spice in your rotation, check it out.... Weather Prophets is pretty cool, listen to "Always," pop sensibility that will work in lots of formats.

Butch Lazorchak, WVWV, Blacksburg

Hunters and Collectors is a very good record, the tape spent a lot of time in my car, it's deep, there's other tracks that are equally as good as "Breadline.".... Jane's Addiction is really cool, but really heavy, like Black Sabbath. I was banging my head in the record store where I first heard it.... Hugh Cornwall is very cool. The Stranglers have matured, and they've got that mid-tempo down pat, the stranglin' tradition goes on.... Reckless Sleepers seems like it should be a huge hit, I can't see how anybody could have a problem with this, can't get more radio ready than this.... Michelle Shocked's "Anchorage" might be too mellow as compared to the rest of the album, you might have to listen twice to get into it. Invest a little time into it.... Sam Phillips and those big sixties cheeseboards: I love it. The album is consistently pop except one track, "I Can't Stop Crying," seems like Petula Clark, classic mid-sixties pop, the whole sound and feel.... Primitives are brilliant, if "Crash" isn't a hit, then there's no hope, we should all move to Australia. It's so infectious, it jumps out of the speakers. Her voice is squeaky and clean.... The Weather Prophets' first song is a surprise, I don't equate them with sax solos.... Rose of Avalanche is heavy, really heavy, they've have had some great stuff, I'm not so sure how the public will respond, especially all the instrumentals, it's pretty dark.... I can't wait to sit down and listen to the Let's Active album, a great American band. If it weren't for Mitch Easter there wouldn't be that southern sound.

Rich Robinson, WHTG, Asbury Park

The Yankees need pitching, the Mets need hitting, Lou needs a new boss, and I need a vacation.... Thanks to Michelle Block for everything.... Edie and the New Bohemians, Grace Pool, Hugh Cornwell and James--buy lots of copies, give them away as party favors.... Hunters and Collectors moves to power rotation thanks to great phone response and the fact that they have always been an in-house favorite. Don't let the same delay that Midnight Oil experienced happen to this great band.... Edie and the New Bohemians has created the biggest buzz in our market, and deservedly so.... The "Married To The Mob" Soundtrack should be as large a part of your playlist as it is ours.

Bob Weyersburg, WUNH, Durham

Jane's Addiction is pretty metal, but it's cool.... Let's Active is good stuff from down south.... Weather Prophets are really straight forward rock n' roll, though takes a few listens to really get into it.

Mike Thomas, WMDK, Peterborough

Summer's winding down in New England and I'm very excited about all the new music that has arrived in the past few weeks. Edie Brickell continues to set the airwaves on fire with her jazz/punk vocals and Kenny Withrow's Garcia-esque guitar.... It's great to see Hugh Cornwell back and in great form and Sam Phillips just grows on you. With the great success enjoyed by Tracy Chapman, Melissa Etheridge etc., how could you pass Sam by?.... Haven't got on the Transvision Vamp stick yet? The album is dynamite and Wendy's a sweet girl. Check out "Sister Moon".... The political season is heating up too, with George and Danny boy, Duke and Lloyd it's getting to be a three ring circus. One of the better political songs of the summer is "Glad I'm Not A Kennedy" by Shona Laing. Remembering President Kennedy's words and the ideals of the sixties like a breath of fresh air in these teflon times. The song worked out well here in Kennedy country. Great audience response.... Finally, when last seen Ivar's beach ball was being kicked around in the Tigers bullpen at Fenway Park.

Gina Galli, WBNY, Buffalo

Jane's Addiction is amazing, it's got lots of twists and turns, it's powerful.... Screaming Tribesmen have mellowed out, they're on the same line as Drivin' n' Cryin', making good music, not really hard.... Weather Prophets are another really good band that take the country twang and twist it, rather dark and deep.

Jon Jaeger, KCPR, San Luis Obispo

Jane's Addiction, god, what a rocking album, it's going to be very big.... Hunters and Collectors have released their best effort so far, they're going the same way as Midnight Oil, it's going to take them 7 albums, but people will know who they are.... Weather Prophets is a good solid album....the Colorblind James Experience is the best thing to come out all year, kind of a They Might Be Giants meet the Longshore Men.

Bill Hanson, WHTF, York

Let's Active's single is one of their better radio tracks, more accessible.... Uncle Green is one of the best albums I've heard recently, "Red Tape" is a

fantastic song.... The Lemonheads have a real future, they are really heavy, but then right in the middle there's an acoustic song that really surprises you.

Maggie McCabe, KCMU, Seattle

Jane's Addiction is a very powerful record, much more than the last one, it's a breath of fresh air to the LA rock scene, and they wear funny hats.... Sam Phillips is a nice low key record... Hunters and Collectors will have to grow on people, they've grown up, they're not young and angry anymore, it's a natural progression from their last record.... Weather Prophets is a great pop record.... Michelle Shocked: Plus plus plus plus! Much better than okay, absolutely brilliant, "When I Grow Up" is a great track, it's my fave!

Ann Delisi, WDET, Detroit

Back from a vacation, with the most outstanding in my mile-high record stack.... Sam Phillips is surprisingly very good, interesting to see what she will do in the field of female vocalists.... Hunters and Collectors have their best album to date, it will be a big success for them.... Weather Prophets was an attention-getter.... Edie Brickell and the New Bohemians is one of the best I've heard all year, she has thought-provoking lyrics and an unusual vocal style, they deserve an awful lot of recognition, I hope that they get it, it really caught me.

John Koski, WRVU, Nashville

I like Jane's Addiction a good deal, took a bit to get used to, the production has more clarity, more polish, but brought out what they have all along.... Thanks to the new Hunters and Collectors release, which is a fine effort, I've discovered their old records.... Reckless Sleepers are pretty poppish, kind of a good progression from the "Demolitis" tape Jules did.... Michelle Shocked's record is new folksy stuff, a nice change.... The mystic Indian tunes on the Primitives album are good, they're different than "Crash".... Rose of Avalanche is pretty good, hopefully due to this, their older records will be released.... Let's Active have developed their own style, but haven't strayed from their previous work.... Test Department is a record that anybody can like, and eases you into their old stuff. It's a unifying album, all sorts of jocks are playing it.

Damon Stewart, KJET, Seattle

Hunters and Collectors have a great record, and it's doing well for us, getting phone response and recognition.... Jane's Addiction has some overall accessible stuff, but the general tone is pretty heavy for mainstream listeners.... Hugh Cornwall is great, especially the video.... Fatal Flowers is another current fave, "Rock n' roll star" is starting to pick up phone response.... Reckless Sleepers, now that is the sleeper of the year. It's really great to see Jules Shear again.... Michelle Shocked is another one we had to move up immediately 'coz it sounded great on the air.... Sam Phillips is one record people should check out. The entire lp is quite diverse, and there's something for everybody.... Primitives is by far cool, we're on two tracks, getting mucho phone response (number two). We have hip listeners.... Let's Active started in medium, and we had to move it up after the first week, it's dynamite.

Jonathan Rosen, "Virgin Viny" KUPD, Phoenix

The most exciting new song I've heard this week is from John Hiatt with the new single "Slow Turning". John Hiatt--this has got to be the one. "Slow Turning" is made for rock radio and I won't say it's the most accessible John Hiatt, although I could; but Hiatt has put out so much music over the years, much like Jules Shear--and this deadly duo of songwriters have been ignored by radio. For years, they've been lauded as songwriters only. "Slow Turning" is massively infectious, especially with the addition of the banjos.... Uncle Milty's Rowdy Rivet Of the Week: Suicidal Tendencies "Trip To The Brain". I've gotten so much response to this song. It's the most powerful music ST has ever done, more punch than lyrics. Lefts and rights everywhere.... DRI slams Overkill in Uncle Milty's Metal Meltdown.

Suzie Dunn, KLPX "Test Department", Tucson

I was pleasantly surprised by the new Psychedelic Furs "All That Money Wants". I went into it a bit leery expecting a "Midnight To Midnight" sound. They're back on track and it's easily the next step after "Forever Now". This seems like the direction they meant to take and I'm happy to hear the old Furs we know and love.... Hunters & Collectors--the thing that strikes me most about them is the passion in the vocals that nearly bring you to tears on some songs. I really like the big horn sound and I feel that this album is one that should be listened to by AOR.... I was so excited by music this week: new Jane's Addiction and new Let's Active. I think everyone feels that Jane's Addiction will be as huge as Guns N' Roses but on a different scale. I find it hard to believe that someone could listen to the lp and deny that this is an incredible record.

Caesar Ettore, WKVU, Villanova

In case some of you are wondering about my absence from dialogues last week, here's the story. Take the fact that I saw Overkill, (awesome), S.O.D. (unreal), Kings X (great), Testament, Anthrax, M.O.D., Prophet, Saxon, Hurricane, D.R.I. Kreator, Holy Terror and of course The Ramones. Add to that the complete shock of running into Monte Conner on one of these shows

along with almost accidentally being strangled to death by Megadon at the Megaforce party and there you have it. Just the sight of Monte in public would be far too much for any mortal man.... Congratulations go out to Megaforce Records for five great years and one hell of a birthday bash. Keep up the great work.... It was my pleasure to meet a man who many consider a dialogue legend--yes the memorable event took place at a recent Faith Or Fear/Detante show. I met Rich Scroggs, newest member of the manly Combat staff.... Speaking of Combat, has anyone heard "Leprosy" the new album by Death. It's sick, but I love it. Total def hasn't been this much fun since Possessed released "Beyond The Gates". Oh well, I guess I'm going back to my thrash roots. Before finishing I'd like to say that if I don't write a dialogue next week it's because I will still be recovering from my first ever Cycle Sluts From Hell show followed by total devastation courtesy of Wrathchild.

Matt O'Shaugnessey, WRTN, New Rochelle

The hot weather continues and not one f**kin' AC here at the station works! But that's Ok 'cause there's plenty of cool new Lp's currently making the rounds on the "Midnight Metal" turntables.... cue Slayer. "South Of Heaven" is doing a bang-up job on our phone lines with "Ghosts Of War", "Silent Scream" and the title cut taking top honors. Brace yourself for the August 31 Felt Forum Massacre with Danzig in tow....Other Phone Climbers at WRTN include Death Angel's "Frolic In The Park" ("Why Do You Do This", "Bored"), Overkill's "Under The Influence" ("Hello From The Gutter", "Drunken Wisdom"), Suicidal Tendencies new 12", "Trip At The Brain" (add this or die -it's RAD!), Testament's "The New Order" ("Trial By Fire", "Eerie Inhabitants"), as well as newies by Cinderella, D.R.I., Marty Friedman, Winger and King Diamond.... Oh, and let's not forget Flotsam & Jetsam's latest bid, "No Place For Disgrace".... Does Eric A.K. burn or what? Truly one of the most underrated throats in Metaldom. You radio programmers out there who want to see red (as in flashing phone lights) should zero in on the title track, "Dreams Of Death" and especially "Hard On You"....Just got a preview of the upcoming Death disc, "Leprosy" on Combat and it's more than apparent that Megadon and his Combat cronies have another sure-fire wimp terminator on their hands with this mutha. Don't expect DJ's with a light disposition to feature this one. If I didn't know better I'd swear the Devil himself recorded this album--brutal stuff kids.... And while we're on the topic of all things heavy, "Midnight Metal" recently unleashed another monumental promotion which will find one lucky winner and a friend meeting Testament and Violence when they drop by the station on August 27 for an exclusive interview with yours truly. The headbangin' fun commenced on August 13th with hundreds of postcards flooding our Westchester mailbox from erstwhile Testament/Violence fans throughout the Tri-state area. On August 20 we'll hold a live drawing on the air and announce the winner, who'll be our guest on the air the following week. The winner of this happening contest not only gets to hang with both bands, but will also snag him or herself an autographed copy of "The New Order" and "Eternal Nightmare" to boot. Surely a promotion to be bandied about at Mike Schnapp's next "Dube Session".

Lora Porter, KPGA, San Luis Obispo

Greetings from the central coast. Saw Overkill in Hollywood last week. They were surprisingly tight, clean and powerful. All in all a good show.... NEWS FLASH. Thrash-A-Thon '88--the Central Coast is going to be invaded with pro-skaters and skate bands come next month. The pros are going to skate for 72 hours straight to raise money for the American Cancer Society.... An average of 30,000 spectators come to watch the pros unleashed. Past Thrash-A-Thons have gotten four page write-ups in Thrasher magazine, but this year's event will be even bigger. KPGA will be doing exclusive 72 hour radio coverage along with a special benefit concert. Yes, a benefit concert to kick off Thrash-A-Thon. We're getting together some of the best skate thrash bands to help raise money for the American Cancer Society. The first great band to say yes is D.R.I. Other biggies have said yes, but I won't mention names yet because the details aren't all worked out. It's gonna be big. Write-ups in many metal mags, 72 hour radio coverage, great publicity etc. If you're interested give me a call and we'll talk. Thanks to Metal Blade, Dyana, Ron Peterson, and D.R.I. for being the first.... Talk to ya next week, keep adding Intrinsic.

Lisa Walker, WPYX Metal Shop, Albany

Thanks to a whole slew of people for helping out the 'PYX 106 metal shop recently: First, Bruce Moser for having Kip Winger call with an interesting interview, Eva at Columbia and Glenn Tipton for the live backstage chat, Stu and Sal and Noise for finally introducing me to Mille of Kreator. Capitol-land is really curious about Kreator and our interview helped my listeners learn more about the band.... Thanks to Don Maggi for our live backstage interviews with Aerosmith and Guns N'Roses. Thanks to Susan and Herman Rarebell of the Scorpions for calling in.... Two bands to reckon with in late '88, early '89 are Wrathchild and Skidrow. They will both happen big and the Metal Shop phones haven't stopped for both bands since their recent capital land shows.

Mike Jones, WGIR, Manchester

Damage Incorporated--that should be the collective name of all the college and commercial metal shows for the next few months because of the "twin towers of thrash" as Chris and Jeff aptly put it releasing product in the not

to distant future. By now everyone should have the 12" of Metallica's new single "Harvester Of Sorrow". It is quite simply "prime hella-cool Metallica". A slower grinding song that has a rather eerie intro and builds into a King Kong style stomper that will evaporate your listener's faces with ease. This is the only new tune they performed live on the Monsters tour. Out of the box and on the air quicker than Megadon and Givens can polish off a case of suds. Wait till you hear the rest of the LP. Can you say "Double Platinum"?... The Circus Of Power is pretty cool. They're another "buzz" band from New York City. I heard the Smallwood Organization snapped these guys up, so they must be good. The "Call Of The Wild" does remind one of John Kay singing with The Cult on a Saturday night in a sleazy bar in the Bowery.... Jane's Addiction should be on your desk. Don't stare at it. Play the goddam thing and watch the phones light up. "Pigs In Zen", "Had A Dad"--this is heavy and dangerous music.... And lastly, I have to wish one of my best buddies in the biz--Derek "Tell him I'll call him right back" Simon immense luck, success and happiness at his new gig with the Kiss Co. Derek I'm sure you'll be missed at Concrete. The Kiss Co. now has a real flame thrower in their organization. Go get 'em buddy.... By the way, metal shows will be playing Ministry soon.

Steve (I'm finally speaking for myself) Prue, WKNC, Raleigh

Well you won't be hearing from me for a while--school starts next week and Dewey will be back at the musical helm at WKNC. I'll still be here, call for hours please.... Big time thanks to Corey Glover, Vernon, Muzz and Will and everyone else with Living Colour for the interview and the show. Special thanx to Hilary and Dave Gleekman at CBS/Epic for setting it all up. I'll see y'all at the CMJ convention in October.... P.S. aren't the Maiden pics great--and yes, I was straight.

Kenny Puvogel, Warner Brothers, 818-953-3723

Thanks to everybody at rock radio for making Little Feat's "Hate To Lose Your Lovin'" the #1 track in America. The cut "Let It Roll" is on a roll also. We had a big week on "Roll" with more to come. Van Halen's "Finish What You Started" is on fire at rock radio also. We will be shipping a CD pro in a couple weeks of the track "Feels So Good" (Sounds like a #1 track to me) to rock radio. You don't have to wait until then! Play "Feels So Good" off your CD copy of "OU812". Van Halen will be going back on the road in October! Can't wait! The band that will be opening the Van Halen show is a band just signed to Warner Brothers called "Private Life". You will have a CD pro of the track "Put Out The Fire" from Private Life produced by Eddie Van Halen, before the tour starts. Boy, can this lady sing! Continuing on with people who can sing, Rod Stewart's "Forever Young" looks as though it's gonna be a monster at both rock radio as well as CHR radio. What a beautiful song and a great video! The Peter Cetera/David Gilmour connection is working, and working well at rock radio. We've had 3 very nice weeks in a row with "You Never Listen To Me". We expect to have more. Check out the call letters that are playing Peter Cetera--you will be impressed. Thanks to everybody who has or is playing Robben Ford's "Wild About You". In two weeks we will be shipping the title track "Talk To Your Daughter" to rock radio. We still very much believe in Robben Ford. He is a great guitarist. Check out the Guitar Player magazine that we sent to you this week. We will be hitting rock radio very hard with "Talk To Your Daughter". My hero of the week would have to be Sky Daniels at KISW for adding Jane's Addiction. There is a definite buzz on this band out there. Get behind Jane's Addiction before they blow by you. KISW added "Ocean Size" from Jane's Addiction. This record is already selling in alot of areas across the country. We are also getting some nice airplay out of the St. Louis market (thank you KSHE & WMRV) on a new band called "PM". The track is "Pieces Of Paradise"--give it a listen. I'm off to the WEA convention in New Orleans. Thanks everybody for a great week. Better get ready for the Bulletboys "Smooth Up In Ya" which ships to you 9/6.

Jeffrey Nauman, Virgin, 213-278-1181

What's hotter than August weather in New Orleans? Why Colin James of course. "Voodoo Thing" is blowing on radio quicker than grease through a goose. Some of the tightest stations in the world have added this great new artist already. Check some of these calls: KISW, KXRX, KUPD, KGON, KLOS, KBPI, KGB, WIYY, KOME, WBCN, WHJY, WRIF, KYYS, WLWQ, WKLS, WLZR, and way too many more for these pages. I smell a hit, don't you?... Ziggy Marley continues to grow with "Tumblin Down". I can't imagine why, after breaking this artist, some of you want to give them over to Top-40. It doesn't make sense.... Steve Winwood's "Don't You Know What The Night Can Do" is closed. Thank you very much.... If you play Fleetwood Mac or a reasonable facsimile, I really think you should go back and listen to In Tua Nua's "All I Wanted". It should appeal to the same audience. Why don't you give it a shot and find out?... On its way this week from Virgin for all you hungry Deep Purple fans comes Ian Gillan and Roger Glover's LP featuring a veritable cookaahh called "Telephone Box". We think this record will fill a huge void for Deep Purple buyers and listeners who want something new from the boys. There is also a 12" edit of "Telephone Box" on its way. Don't miss this baby--and I am talking to you classic rockers too.... Well, us Virgins are off to New Orleans for the WEA convention where we will be enjoying the non-stop show put on by the weirdos at the Dungeon.

Paul Brown, Virgin, 212-463-0980

Yeah, here I come again with a nice hot heaping, verbose bucket of persiflage and badinage. And it's just for you. Just a couple of items this week. Sam Phillips. "The Indescribable Wow". In Tua Nua. "The Long Acre". "All I Wanted". Pull yourself away from the computer and take a close listen to these two marvelous LP's. And as long as you're doing that, pay extremely close attention to the new release from Hunters and Collectors, entitled "Fate". I worked with this band while I toiled at IRS. These guys don't dabble in esoterica. It's a straight-ahead frontal assault. Passionate, sweaty, heavily muscled. The horns serve to soften the edge of the guitars and Mark Seymour's incredible vocals. I have enough records here at Virgin that I have no need to hype you on another company's bands. Get into this band. I could go on and on but as we all know, talk is cheap. The bottom line is that Hunters and Collectors are a brilliant ensemble and you should all be supporting them accordingly. Finally, the Hugh Cornwell had a tremendous first week. "Another Kind Of Love" sounds amazing on the air. For now, take a listen, that's all we ask. That's it, I'm off to New Orleans and I can't wait to see if the lobster-faced woman cries when Jeffrey comes into town. Bye.

Jim McKeon, RCA, 212-930-4309

You want it, we want it, Bruce wants it--You got it--A great up tempo rocker with a bite to the lyric. "Defenders Of The Flag" from Bruce Hornsby and the Range. Plus a couple of great live versions of "Flag" and "Look Out Any Window"...All on a great looking Promo only CD. As Max at KRZQ says "Any song that takes on Jimmy Swaggart has to be added". Just got news of a very exciting Graham Parker solo acoustic tour of the states in September and October...As "Don't Let It Break You Down" picks up another nine additions this week...Thank you KISW, KUPD, KEZO, KQWB, KZRR, KDJK, KLPX, and CHEZ!!! Now the rest of you can't tell me that this brilliant "Mona Lisa's Daughter" LP is just a one track album--Just ain't so!!! This song in fact has some great rock energy that reminds me of Tom Petty. Have you heard Circus Of Power yet. Here's one dead serious Hard Rock band that is a blend of Aerosmith, Iggy, and Guns and Roses. The album is on your desk now--Listen to "Call Of The Wild" "Motor" and "Heart Attack". Outa the box at KNAC and KJJO...Watch the street on this one. Another number one alternative track for RCA with the Primitives "Crash" nailing down Gavin's No. 1 slot for the second week in a row. Listen to "Crash"--Its a killer summer record!! Next month get ready for Tom Cochrane (great!), Romeo's Daughter (from Mutt Lange!) and House of Lords (from Gene Simmons new label).

Michael Linehan, Reprise, 818-953-3750

Thanks to the many first week believers in Big Country. "King Of Emotion" is the #1 most added song and the highest debut of the week in all the tips. The variety of stations covers the whole range of album radio and includes DC101, KROQ, KSJO, WYNF, 91X, KISW, KYYS, WHFS, KRQR, WLZR, KILQ, WRXK and several dozen more. There is no question that the sound is somewhat different, especially on first listen but this track just gets better and better, and let's be frank, many of you have said that this band needed to make some changes. The album is called "Peace In Our Time" and comes the latter part of September. Neil's "Hey Hey" had another nice week on all tracks charts. He continues his tradition of amusing videos with "Hey Hey" and it looks like even you know who will show this one beginning in early September. Please listen to Grace Pool (It's a they, not a she, kinda like Jethro Tull only different). Their cut "Awake With The Rain" is refreshingly different and it's Tony Gates' new favorite song so you know you can even play it in the midwest.

Pamela Newman, Enigma, 213-390-9969

As we speak Hurricane is exploding. If you've got your ears to the street then you're probably just about beginning to notice this. Something really big is about to happen here, ladies and gentlemen. "I'm On To You", 4 weeks after it "peaked" on the Rock Radio charts, is now enjoying the highest level of airplay saturation that it's ever been at. The song has been showing up almost daily on MTV's Top 10 Most Requested Countdown, album sales start climbing to a pattern of 5,000 a week, then 6,000, this last week it was 8,000 and we find ourselves pushing the 135,000 mark. Meanwhile Hurricane's second offering to Rock Radio, "Over The Edge", gets the thumbs up this week from WQFM, KOME, KMOD, Q107 and WPXC--If you're not feeling the buzz on this one--you'd better check your pulse--you may be dead (maybe you're just sleeping). Warning: Today is The Last Day Of The Century. "King of Portugal" is going to make pop music history as Al Stewart returns to the airwaves. You've been curious, now you've got it in your hands; and for many of you no sooner is it in your hands than on your studio turntable (they still make those, don't they?) Was it my imagination or did I just hear "If you ain't got the Do-Re-Me" on the radio? Gosh, I love this wacky business! Oh, and Billy G,...hi (that's all I have to say, right?) P.S. Pat McLaughlin is God.

John Hammond, Rykodisc, 508-744-7678

Let's see, where to begin?... CMJ calls the Screaming Tribesmen's debut single "I've Got a Feeling" "...one of the very best singles of the year -- a charged guitar rocker with a massive soaring chorus." The band's new album "Bones & Flowers" is the Highest Debut on this week's Gavin and

FMQB Alternative charts—including a Gavin debut at #21 out of 50!! The album also jumps 15 places on the Hard Alternative chart this week, 50-35. But don't let the Alternative action fool you—this is not just a one-shot haircut band. One listen will tell you that this is a solid Rock & Roll band who has built a loyal following in Australia through six years of hard work, touring, etc.—and now they're ready to conquer America! The LP & 12" shipped to AOR reporters last week, and is on your desk today. Early AOR believers include WHFS, WVVV, WRSI, KBLE, KJJO, and WFNX (top 5 requests for 3 weeks!) Just announced are Northeast solo tour dates for Marty Wilson-Piper, guitarist of The Church, in support of his Ryko solo release "Art Attack". Also just shipped to you is Marty's lead single "She's King", as well as a new interview LP with 3 of 4 Church members on their solo projects. All for now—let's all join in the official Screaming Tribesmen scream -- AAAIIIEEE!

Matt Pollack, Relativity 718-740-5700

So I went surfing this weekend. No, not in the syringe infested waters with in my home town of Long Island, but instead at the Pier in N.Y.C. -that's right, Joe Satriani and Stevie Ray Vaughan. You bet it was hot! 7,000 + people sweating, drinking beer and humming non-lyrical tunes. The Satch man continues his sojourn, this time down under in Australia with Mick Jagger. Call me for ticket giveaways. Well, I can't really cover the ticket situation but we can supply you with a kangaroo with perhaps an air conditioned pouch. "Always" continues it's radio expansion! New 4 lettered words to express our happiness: KISW, WMMR, KGON, WPHD, WRFX, WTPA, WDIZ.... Now for the other 50% of our AOR roster, Chris Impellitteri. Chris' story is a continuing one with an established retail base (91 bullet-Billboard) and increasing airplay. If you put this record aside initially because of serious product load, then dig it up. This record is reacting phenomenally where it's being played. Can you argue with these calls? WQFM, KJJO, WYNF, KMOD, WPHD, KOME, WAQX, KNCN, KATP, KTAL....etc. Remember when you first slapped "Satch Boogie" on the air? We're talking shit kickin', bonafide phone reaction!.... And finally for the more adventurous types, The House Of Love is a Top 5 alternative act who are presently being hailed as the next invasion from the U.K. The song "Christine" reminds me of the Jesus and Mary Chain without the churn and early Echo And The Bunnymen. Buzz me if you don't have; buzz me if you do have and wanna talk about an add! I'm game.

Deborah Klinger, Apache, 213-466-9958

Apache Records is not taking no for an answer when it comes to "Mystery Street," John Brannen's newest cut. We've all heard the 100 reasons why you shouldn't add a record. One attentive listen to "Mystery Street" and you'll have the only reason you should. It sounds amazing! The perfect tune to ease summer into fall--this song deserves a chance, so unwrap that black mystery Street" wrap, open the jewel box, go to track 7, and sit back. "Mystery Street" says it better than we ever could.... Stay tuned for "Blue Taboo," the debut single from Hollywood Underground. On your desks September 7.

Monte Conner, Roadracer, (212) 219-0077

It is time for Tea! Your King Diamond "Mad Tea Party" packages should have arrived safely by now. If not, give us a call cause you're missing out on a King Diamond "Tea"-shirt, a blood-red 12" of "Tea" and a special King Diamond tea bag, which you can use at your own risk.... "Them" continues to hold steady at the top of the chart. In fact, if not for Slayer's Lp, the King would be at #1. No hard feelings here 'cause Slayer is THE ultimate band and anyone who tells you that "South Of Heaven" is a sell-out is a trendy, brainless imbecile with a hell of a lot to learn.... Other current faves besides the King and Slayer are: Ludichrist--"Powertrip", Death--"Leprosy" (give me Ludichrist and Death!), The Accused--"Maddest Stories", Violence--"Eternal Nightmare", Testament--"The New Order", Prong--"Force Fed", Pantera--"Power Metal", Sonick Plague--"What's The Purpose?" and Living

Colour--"Vivid".... Another fave, which I'm working, is the new Holy Terror LP, "Terror And Submission"--relentless, pounding, high-tech metal with enough pure power and ungodly conviction to drive a stake through your heart. The band is totally unique and sounds like no one else. Just ask WUSB's Raz Kut or the mighty Megadon. Let's see some Top Ten reports or there will be bloodshed (and a pissed off Megadon). Check out the track "Distant Calling"--Absolutely God-like. Other strong tunes are: "Mortal Fear", "Blood Of The Saints" and "Evil's Rising". The confessional is open - Holy Be Thy Shame!....I usually save the end of my dialogues to abuse Cheryl, but this week, out of pity, I'll give the poor girl a break.... William "Clyde-master" Howell, where's my School Of Violence tape?... Mike Faley--thanks for all your help--you're a God!

Nancy Twomlow, Metal Blade Records, 212-645-6208

Remember that saying (re:dialogue 2 weeks ago), "when the cat's away, the mice will play"? Well, we (Brian Lima, Steve Poss, Brian Blotner, and I) partied, partied, partied and we're still going strong. Anyways, Cheryl came back yelling "if everyone doesn't have D.R.I. in their Top 3 NOW they will perish under my wrath. This band is God, God, God. Do you hear me, God!" Then she proceeded to jump on the desks and scream "D.R.I. rules! D.R.I.'s 4 Of A Kind #1 everywhere!" Well, after four hours of this jumping up -n- down screaming, throwing D.R.I. tapes at unsuspecting pedestrians, we had to knock her out, tie her up, gag her, and throw her into the closet. Now we can actually discuss business in a manner suitable to such a prestigious company such as ours.... Now the Fates Warning and Candlemass 12"s should be on them there turntables along with Helstar and Banshee. Those already graced with their presence know that they're great. Also, don't forget that the Heretic LP and Betsy 12" are on their way. Coming out soon will be Armored Saint's live EP. Yes, the boys are back in their natural habitat and they're soundin' great! The new LP by Cryptic Slaughter will destroy you, and the new album by the homeboys from Connecticut, Liege Lord, will turn your brain to mush.... Remember, life is better when they remove the childproof caps.... The Lima/Poss Brain Teaser of the week: What rhymes with orange?... Little known fact of the week: The Empire State Building contains 3,500 miles of telephone and telegraph wire.

Janet Getchell, (201) 214-0061

Well, it's been grand, but all good things must come to an end, so does my internship with Megaforce, and to those who thought you got rid of me...HAAAA! I'll back soon to harass you on the phone. I'm going to be a monk secluded in the hills of upper North Jersey, to contemplate the universe and where Megadon fits in it. When I return to the world o'metal, I will possess superior mental powers to reduce even the most strong-willed of programmers to playing to my every whim.

Russ Gerroir, Concrete Marketing, 212-645-1360

Hi! For those of you who may have missed Derek's dialogue last week, I'm the new radio dude here at Concrete. I probably have spoken with most of you by the time you read this, but if we haven't spoken as of yet, give me a holler. Anyway, on to the records. Slayer continues to dominate the airwaves of metal radio. South Of Heaven is a monster. Call if you need tickets for Slayer shows in your area. Rhett Forrester continues to build at hard rock/metal radio as well. "Even The Score" is a record that will work for you. Try it and see. Joe and Josephine Isuzu told me so. Just kidding. It was really Dan Quayle who swore up and down about how great Rhett's record is. He's even got George Bush listening to it. (Cue: inward smile). And Winger is becoming a monster, as predicted in the pages a few weeks ago. Well over 50 AORs are now Winger believers and "Madalaine" is currently in medium rotation at MTV. Your continued support is a must. Play Winger and watch your phones light up. A very definite reaction record. Stay tuned for details about the upcoming releases from Ozzy Osbourne and Anthrax. See ya.
