# THE BAND

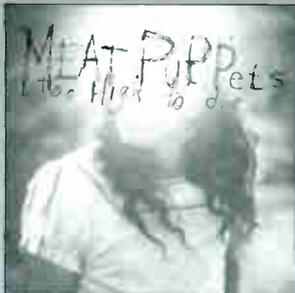

THE NEW SINGLE

“REMEDY”

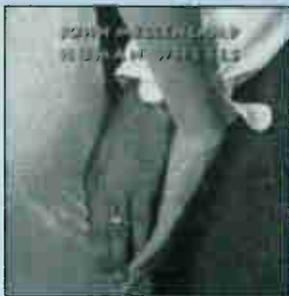

FEBRUARY 14

(Use as directed)

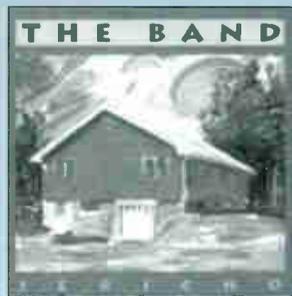

**M**EAT PUPPETS, "Backwater," London/PLG Slam dunk the Puppets before your competition does. The band is on tour with Blind Melon and if you happen to be vacationing in the UK (yeah, right) catch them on the road with Soul Asylum and Nirvana. And don't forget to watch out for these 'munchies' dates where the band hits town for a meet and greet with everyone invited. But the real news? The first week action. With 33 adds the band ties for second Most Added with OTB response at the likes of KSHE, Q104.3, WDVE, and WNOR, as 51 reports to date fires up a mighty 67\*-38\* Hard Hundred advance. From WDHA's T.J., "A quirky riff that completely sucks you in. Should be a big, big, big hit." WPYX's John Cooper sez, "Excellent track. Will be a big hit." Stephen Page, KOMA, told us, "I love the song. It's very accessible to rock radio." Here's WRUF's Scott Steele, "Sounds like something Steve Miller would have written but it works in any format. It's got a real strong hook. Put one and one together and add that son-of-a-bitch!" From Dom Nordella at WNCD, "The perfect song!"

## HARD ACTS To follow

**J**OHN MELLENCAMP, "Baby Please Don't Go," MCA Here's a great remake of Van Morrison's sixties obscure classic (how's that for an oxymoron?) "Baby Please Don't Go" which will be on the soundtrack for the movie *Blue Chips* starring Nick Nolte, Shaquille O'Neal, Tippi Hedren, Faye Wray, Doris Day, Marvin Gaye and Honk the Wonder Goose. But wait! The LP includes songs by CCR, Jimi Hendrix, John Lee Hooker and AL Green. With "Junior" currently climbing the charts and "Human Wheels" already over a million units, John's as hot as he ever was — please help yourself.

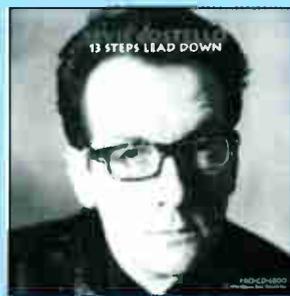

**T**HE BAND, "Remedy," Pyramid The Band's "Atlantic City" cover did a fine job of reintroducing the venerable group to the public, with strong AOR and even stronger AAA chart action. But given the album's wealth of excellent new tunes, it almost seemed sacrilegious not to start with an original. "Remedy" is just what the hook doctor ordered — and already a clear programmer pick. From KFMG's Ron Sorenson, "It's our favorite track on the album. It has the spirit and feel of the The Band's best work"... From WKNU's Dan Reed, "It really swings like all good Band songs should. We've been four cuts deep and 'Remedy' is our favorite one"... and from Jane Fredricksen, KTCZ, "This is a solid adult appeal record. Your upper demos know who these guys are and will welcome them back with open arms." Between this wonderful song, the Band's recent induction into the Hall Of Fame, and the upcoming Tonight Show appearance on February 22, any Adult leaning signal has plenty of reasons to let the Band play on.

**W**.A.S.P., "Hold On To My Heart," Capitol Bet you'd never expect this band to cross over. Like recent material from Ozzy, Def Leppard, and the Scorpions, this song could take Blackie all the way to the top of the pop charts. But don't worry about any fan base alienation here. His "Crimson Idol" theme project was voted a Top 20 concept album of all time, ranking up there with "Dark Side Of The Moon" and "Sgt. Pepper". Granted, that was Kerrang's opinion, but hey! Already on the Blaze with phones from day one, with KIL0 testifying after a three and a half month run. Also #2 at KBER with 30 spins last week. Keep an ear on what could well be the biggest crossover surprise out of anything on this page.

**A**LAN PARSONS, "Oh Life (There Must Be More)," Arista Parsons is nothing if not cinematic, and it's more and more apparent that the a sizeable segment of the Adult audience relates to the sound. After all, they're voting at the cash register — to the tune of 150,000 units after only one track. Parsons strength has always been the big elaborate sonic send up and here he doesn't disappoint.

**E**LVIS COSTELLO, "13 Steps Lead Down," Warner Bros. Elvis is back with the Attractions for the first time on disc since 1986, and as expected the record brims with that classic early CBS sound. Frankly, that's the era that most of the constituency seems to prefer. After satisfying his artistic whims with last year's string quartet outing ("The Juliet Letters"), it's obvious that Elvis has gone full circle through his schmoozing with McCartney and Jerry Garcia and his PG rated romance with Veronica all the way back to hanging with his Lowe life Stiff buddies. The full length CD ships on March 1, with all the press and TV hoopla that WB can muster. Watch for this first track to get killer play at all the AOR, Triple A, and Alternative formats. From WDHA's T.J., "Elvis is sheer brilliance." And WPYX's John Cooper sez, "This a track that rock radio can really warm up to."

CATCH THE MEAT PUPPETS ON TOUR WITH BLIND MELON

**Curtis Mayfield (A Tribute), Warner Bros.**

WB doesn't have any of the artists, and they're not really going to key on any tracks in particular...but how can you deny the lineup? There's a wealth of material here for all your special programming needs, what with B.B. King, Eric Clapton, Bruce Springsteen, Lenny Kravitz, etc. What? No Hendrix cut? With Virgin set to launch their excellent Traffic reunion album in the near future, you might want to tease the Winwood/Capaldi version of "It's Alright" — because it is. Helping pay Curtis Mayfield's medical bills is the worthy mission, and he'd sure appreciate a little help.

Curtis Mayfield

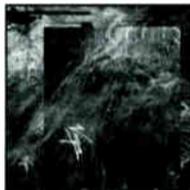

**The October Project, "Be My Hero", Epic**

When CNN does a full blown story on the emergence of Triple A, and the New York Times Magazine refers to the format by name, it's time to take heed. Increasing emphasis will be placed on crossing Triple A product over to mainstream, as more and more heritage signals come to that undeniable cross in the fragmentation crossroads. We think the October Project is viable on many levels. Philadelphia music power WXPX has had tremendous audience response on multiple tracks, and the retail in the market nothing short of exceptional. The appeal? Warm, ethereal harmonies, and a vibe that floats somewhere between Enya, the Story and perhaps Christine McVie. See them on tour with the Crash Test Dummies.

**Cry Of Love, "Too Cold In The Winter," Columbia**

One of the best new bands around delivers another whopper. The guys already have two consecutive number ones, so no surprise. In their live shows this is one of the crowd favorites. Sales are approaching 200,000 and this track will certainly bring them closer to gold. It's our #1 Most Added With 43 adds including K10L, KLOS, WAQX, WBCN, WBLM, WDIZ, WMMR, WPDH, and WZZO for a 91\*-43\* jump on the Hard Hundred — thanks to a station count 50 call letters deep. From Michael Cross at KJKJ, "They're my favorite group in the whole world. It's been too cold for months, so to warm us up we've been in Heavy with this track for weeks." T.J. from WDHA sez, "Could be the best track on the LP and the timing couldn't be better." Tom Guild at WRDU interjects, "They're our local boys and we're very proud of them. They're definitely ready for the big time." Here's WIZN's Mike Luoma, "How can you not play it when temps are -13 degrees this week, the coldest on record. This is an appropriate kick ass tune." The last word from Tim Parker at KNCN, "Just as good as the first two, from a very deep debut album."

**Brother Cane, "Hard Act To Follow," Virgin** Now on tour with Aerosmith and playing to expectedly packed houses. This week the airplay doubled. Is this as obvious as they get? It's #2 Most Added with 33 stations including KEGL, KIOX, KLOL, KSHE, WRIF, WCIZ, and WRCN for a 36\*-19\* jump on the Hard Hundred. From John Cooper at WPYX, "This is the track from the LP getting requests after only a few weeks play." Stephen Page at KOME tells us, "It's number three for these guys. Right in the groove." And from WCMF's Dave Kane, "Not a hard act to follow when there are winners like this one." Kevin Walsh at WVVV tells us, "A great band with a terrific solid rocker." WRUF's Scott Steele sums it up, "A little more oak-age rock and roll."

MOST ACTIVE

**Rush, "Nobody's Hero," Atlantic** 33 new adds this week (KIOZ, KLOS, WBAB, WCMF, WDIZ, WKLL, WONE, WRIF, and WRUF) bring the station count to 75 and cook up a 44\*-27\* underline. From Michael Cross at KJKJ, "Another killer track from another killer LP from Rush"... Rick Andrews at KZOZ sez, "I like it better than the first two tracks." John Cooper, WPYX indicates, "This is the reaction track from the LP." And WMRR's Guy Perry adds, "It's the best track on the LP." Finally, from Tim Travis at WDIZ, "When was the last time you heard Rush acoustic? When was the last time you heard Rush sound any better? When was the last time you waited so long to add a great tune? Add it!"

**Alice In Chains, "No Excuses," Columbia** This will be one of the biggest tracks of the year at rock radio. It's #4 Most Added with 22, taking the three week total to 168, reflected in an 8\*-4\* HH advance. Says WGIR's Jon Erdahl, "Can't deny this band a space on any playlist." Mary Ann at WLAV testifies, "Good phone record out of the box." Jared at WBLM adds, "M.D. Brian James and I both agree that this could be the LP of the year. This is Seattle at its finest." Cathy Faulkner at KISW concurs, "AIC is totally beyond phenomenal! Great phones, Great reaction." And KZRK's Larry Mac adds, "They're kickin major fucking ass here in the desert." From WXQR's Kris Kelly, "AIC = Sales, phones, and requests", and WDIZ's Tim Travis adds, "Don't be a maggot, fly with it."

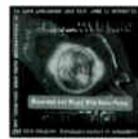

**Blue Murder, "We All Fall Down," Geffen** It's been four years since the debut LP and in that time guitarist John Sykes built his home studio, re-built the band and recorded his second record "Nothin' But Trouble". His fluid, melodic but bluesy style, honed during his Thin Lizzy days shines on this LP. Another great week of airplay for what's shaping up as a fast reacting record, if only because there are so many '70s sounding records out there. The Top 5 phone list already includes KBER and KEZE and KUFO is already getting good early research. From WDHA's Ed Trunk of WDHA, "Thank God for the new Blue Murder Track! It was so great to hear some great straight ahead kick ass rock and roll again, my audience has been asking about a new release from this band for years."

**Sass Jordan, "High Road Easy," MCA** To no one's surprise, Sass has exploded. This week's #3 Most Added snags 24 adds including KQRS, KSHE, WGIR, WLAV, WPDH, and WRKI, bringing the station count to a whopping 126 for a Hard Hundred move of 19\*-11\*. Sass Jordan sez, "Absolutely anything you can think of, I've done, I am, I wanna be." WGIR's Jon Erdahl raves, "A good rip rockin' tune that smokes the airwaves." Mary Ann at WLAV expands the thought, "I think it's got a big hook" WRDU's Tom Guild sez, "Stevie Salas adds a real nice touch to Sass." KDJK's Beaver Brown insists, "When God created the rock and roll voice Sass was the mold." And from KOME's Stephen Page, "Monster mouth."

**Buffalo Tom, "I'm Allowed," East/West** It's the track radio been asking for, the 'Tailights Fade' of this record. It's been Most Added Alternative and is primed for CHR. This is ATCO's "Runaway Train" or "No Rain". Our 4th Most Added with 22 adds including KISS, KSQY, WBCN, WTPA and WZZQ for a Hard Hundred debut at 60\*. From WAVF's Dave Rossi, "Buffalo Tom have always done great. This is a smash."

**Alternative NRG, "Drive (R.E.M.)," Hollywood** Our 6th Most Added with 19 new stations including WAPL, WBCN, WCCC, WDIZ, WHJY, WKLS, and WXKE for a 39\*-26\* move on the Hard Hundred with a total of 72 stations. From Tim Travis at WDIZ, "I love the live version. One of the few live versions that's better than the studio track."

**Big Head Todd And The Monsters, "It's Alright," Giant** Our 7th Most added with 18 stations including KATP, KEZO, KXRX, WAPL, WLUP, and WWWV for a debut at 58\* on the Hard Hundred. From Guy at WHDQ, "I like it. It'll work perfect for the mainstream, AAA, New Rock formats."

**Fury In The Slaughterhouse, "Every Generation," RCA** With 18 new adds including KCLB, KMBY, KRNA, WCIZ, WLLZ, WPLR, WDHA and WTPA. From T.J. at WDHA, "The Furies are the best thing to come out of Germany since Nena! Get past the name and get it on the air." Guy at WMRR sez, "It's an excellent record full of emotion." KSPQ's Chuck Robson, tells us, "This is without a doubt my favorite song out there. Watch this one shot up fast." Here's Dave Rossi at WAVF, "Extremely cool, this has character." And WRUF's Scott Steele wants you to know, "I love that song. Every generation has one that comes and goes but the Fury are here to stay."

**Billy Falcon, "I Like How It Feels," Mercury** Let Billy tell the story, "Artistically, I'm really excited about this record. I think it's a pretty cool next step. I'm proud of the songs and the way the guys played them. I think this is a little closer to that record I've been thinking about in my head." Yo Bill — thanks for sharin' those thoughts with us. Buy ya a Bud? He's 8th Most Added this week with 17 adds including KATP, KEZE, KRNA, KSQY, WBAB, WDHA, WMMR, WPYX, and WSHE for a Hard Hundred debut of 96\*.

**BoDeans, "Closer To Free,"** **Slash/Reprise** They're #9 Most Added with 13 new stations including KQRS, KSQY, WHCN, WLUP and WZZQ, all factoring into a 68\*-54\* Hard Hundred jump. From KSPQ's Chuck Robson, "We love the BoDeans records. Everything we play gets good reaction." The final word from Michael Cross at KJKJ, "It's classic BoDeans sound."

**Lenny Kravitz, "Spinning Around Over You,"** **Virgin** Lenny is receiving more media exposure through the Reality Bites movie trailers than any other current artist. 'Spinning Around' is a track that only you own. With 8 new adds Lenny moves to 28\* on the Hard Hundred with a total of 84 reporters.

**Raging Slab, "What Have You Done,"** **American** Slab pull in 6 new adds including WBTZ, WIZN, WNCD and ZROC to move 10 points to 85\* on the Hard Hundred.

From Jared at WBLM sez, "It's the slide guitar attack from hell! And from Mike Luoma at WIZN, "I believe in them and it doesn't hurt that this song kick's ass. The tune gurgles, grunts and slides along with nice changes that grab your gut and flop you down like a roller coaster."

**Joe Satriani, "Time Machine,"** **Relativity** The axe-master is on a roll yet again, with a tour in full bloom and doing well at the box office. He's only a few tix from selling out NY, Providence, New Haven, Boston, and D.C. With a 73-68\* move on the HH and an impressive overall presence on rock radio, it looks like the latest phase of Satch's career might prove to be one of his most successful. From KSJO's Dana Jang, "Always a local favorite. It should do well again."

**Ramones, "Substitute,"** **Radioactive** 4 new adds this week including KMOD, WBLM, and WVCR. Proven winners across the board, the band might be getting up there in years but they've managed to maintain the vitality that has kept 'em going for all this time. Don't relegate the band to your specialty shows — don't forget, your 34 year old listener was 17 when the first Ramones record came out. Carter from WBCN sez, "These guys have been around long enough to be called classic rockers! The song is a proven winner. It's definitely worth spicing up the airwaves."

**Jackson Browne, "Miles Away,"** **Elektra** The solid momentum continues with 11 new reports, including WBAB, WIXV, WLVO, WPLR and WRDU for a 28\*-23\* move on the Hard Hundred with 97 stations reporting airplay. From WRDU's Tom Guild, "This is proof that he can rock with the best of them."

**Screamin' Cheetah Wheelies, "Ride The Tide,"** **Atlantic** 8 new adds this week including KATT, WHEB, WKLQ, WNOR and WZXL the Wheelies clock in at 17\*, with a total of over 100 rock stations now believing in the Cheetah's second track from their debut LP. Dave Kane from WCMF sez, "We're still getting great calls on 'Shakin' and 'Ride The Tide' sounds like a winner too."

**Tool, "Prison Sex,"** **Zoo** The new Too'i video for "Prison Sex" is unbelievably amazing, even more so than the one for "Sober". It will definitely get your attention. 6 New adds include KEGL, KWHL, WIXV, and WLZR to bring the band to 36\* on the Hard Hundred with 62 reporting stations.

**Kings X, "Dogman,"** **Atlantic** With 5 new adds including KSFY, KZOZ, WLVO, and WRKI, this Texas trio moves to 15\* on the Hard Hundred with a total of 115 reporting stations. Rick Andrews at KZOZ observes, "Kings X has a raw harder edge" Tim Travis at WDIz adds, "Immediately you're into this song. There is no intro, either you get it from the get go, or its later gator." From WTKX's Strummer, "We're getting Top 5 phones playing it all dayparts." Finally from Mimi at WKLL, "My favorite pick in the hard rock arena."

**Tidal Force, "A Man Rides Through,"** **Atico** With 4 new adds including KSPQ, WGLF, and WRUF the Force move to 90\* on the Hard Hundred. From WRUF's Scott Steele, "The first time I saw the guys, I thought they were the biggest hair band in the world. But these guys are alive on the rock scene and deserve attention. We're getting good response at night too."

**April Wine, "Givin' It, Takin' It,"** **FRE** Already nearing platinum status in Canada, where the band recently completed an SRO headline tour. Miles & Co. move to 86\* on the Hard Hundred with 12 stations reporting including KSFY, KEYJ, KATP, KSPQ, WAPL, WTUE, KEZE and WHJY.

**Barefoot Servants, "Box Of Miracles,"** **Epic** New on 9 stations including KEGL, KLOS, WBLM, WKLS and WTKX to bring the band's debut effort from 12\*-10\* on the Hard Hundred with over 120 stations reporting. The scoop from Jared at WBLM is, "Easily some of the best blues rock of the '90s. Its good to hear Butcher and Schultz dueling it out throughout the whole LP." Jay at WZXL sez, "Sounds great on the air. We're stating to get phones. Check out the whole LP, there's some great tunes." From WCMF's Dave Kane, "Hopefully Jon Butcher will get the recognition he deserves."

**Mutha's Day Out, "Locked,"** **EMI** With 7 new adds this week including KNAC, KQWB, KSPQ and WRZK, Mutha moves to 40\* on the Hard Hundred and 22\* on the C.O.R. chart. From Larry Mac at KZRK "I knew Mutha's Day Out would happen. 'Locked' is kickin' into high gear and we're already thinking of checking out the song 'Green'. And from KSPQ's Chuck Robson, "They're from here and all the college kids called and told us to check them out."

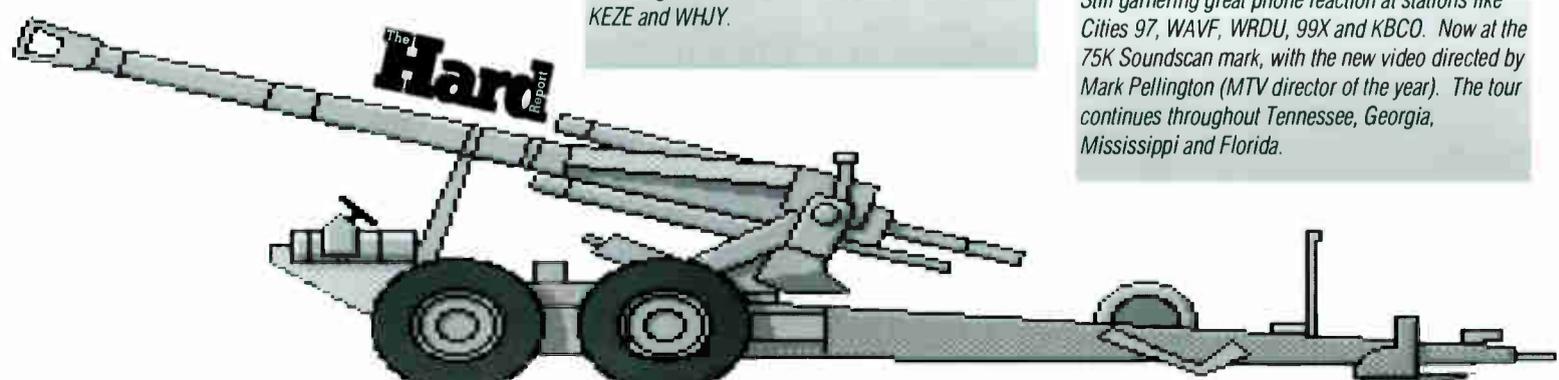

**Dig, "Believe,"** **MCA** A classic case of record building week to week. They're on tour with Blind Melon, every thing is breaking their way like we knew it would. Dig pulls in 5 new adds including KRRK, WLAV, WMMS, and WWCD for a total of 64 believers and a 37\*-32\* move on the Hard Hundred. From Mark Razz at WAAF, "I think Dig is gonna be the first huge band of '94, like last years STP story." And Peg Pollard at KIOZ sez, "There's a big one for us. Top 5 phones and the audience really seems to be responding to this band. It sounds great on the air."

**Smashing Pumpkins, "Disarm,"** **Virgin** "Disarm" is officially ready for adds and many stations are already feeling the buzz and it's only getting louder. General consensus from the beginning is that this is the track to bring the record home for Virgin. The album's already past two mil, with no signs of it remotely letting up. 5 new adds this week, including KRAB, WCCC, and WZZO, and a Hard Hundred move to 77\*. Can it be true Virgin is getting Def Leppard's drummer to deliver it to key P.D.'s? Only Naumann knows for sure.

**The Connells, "'74-'75,"** **TVT** A reflective, touching song from one of the founders of the North Carolina music scene, this track's essence is encompassed in the melody, use of harmonies and overall class it exudes. Still garnering great phone reaction at stations like Cities 97, WAVF, WRDU, 99X and KBCO. Now at the 75K Soundscan mark, with the new video directed by Mark Pellington (MTV director of the year). The tour continues throughout Tennessee, Georgia, Mississippi and Florida.

## SANDUSKY TO PURCHASE KUPD/KUKQ

Phoenix ruled radio news this week, with two big announcements. First, that Sandusky Radio, owners of **KDKB-FM**, had signed a contract to purchase **KUPD-FM/KUKQ-FM** for \$20 million. As per the press release, KUPD currently enjoys a 5.3 share 12+, with KDKB at a 4.9 in that demo. 25-54, KDKB has a 6.9, against KUPD's 5.0. Sandusky also owns and operates **The Eagle** in Dallas, and **KLSY-FM** and **KIXI-AM** in Seattle. What will this mean for Phoenix radio listeners? Perhaps not a whole lot. As one market observer noted, Sandusky wouldn't have parted with 20 mil unless they placed some serious value on their new acquisitions above and beyond simply signal and buildings. On the other hand, it's also been suggested that KUPD might now skew more toward guitar driven Alternative to hurt Jacob's Edge outlet in town.

The other news out of that market, though not a major headline generator, could have a far more significant effect on the status quo. None other than **John Sebastian** has been named Program Director of **Great American's** Classic Rocker **KSLX**. John, who spent the past few months finishing up a political/thriller novel, started in Phoenix as a jock back in 1970, and has actually lived there seven different times — with well documented stints in Los Angeles, Minneapolis, and Boston in between. How's John think the just announced duopoly will impact his station? "This doesn't affect KSLX much at all. If they do the right things, it has the potential to help them. I don't think duopolies affect other stations nearly to the degree that people first thought they might. Duopoly is clearly not the panacea that owners thought it might be. In reality, it actually helps the rest of the market. The listener still perceives the stations in question as two choices — and that doesn't change one iota. In fact, one or both of them can actually slip in their competency due to the inevitable staff reductions, etc."

But why do we think this announcement could ultimately shake up the market as much as the Sandusky sale? KSLX is currently ranked #13 25-54, possibly the worst ranking in that money demo for a classic rocker anywhere. His call? "I think we'll be #3 25-54 in a relatively short period of time." He's done it before, folks. Watch this space.

## WONE PROMOTES J.D.

APD/MD **Jeff (J.D.) Kunes** has been promoted to Program Director at **WONE/Akron** in the wake of OM **Harve Alan's** exit from the station. "I'm honored to be given the opportunity to help guide WONE, a station I consider one of the tope in the country," said J.D. "We're going in the right direction and I'm proud to be a part of all the excitement." J.D. has been with the station since it signed on in 1985, starting as a part-timer. In addition to his PD duties, he takes over the 10am-2pm air shift.

## BILL PUGH RETURNS TO MIAMI

No press releases yet, but by the time this issue hits the mail, it will be common knowledge that **Bill Pugh** is heading back to Miami to rejoin **John Tenaglia** and **TK Communications** as Vice President/Programming.

## PFEIFER HEADS HOLLYWOOD RECORDS

Bob Pfeifer

**Bob Pfeifer** has been named Executive Vice President of **Hollywood Records** and will head that organization, reporting to **Michael Eisner**, Chairman/CEO and **Frank G. Wells**, President of **The Walt Disney Company**.

Pfeifer has been VP/A&R since joining the label last August. "We are delighted to have Bob take charge at Hollywood Records," said Eisner. "He is a seasoned and successful executive with solid and broad experience in the music industry — having started out as a recording artist himself." Wells added, "Bob has had great success at Epic Records, where he signed several top recording groups, including those with platinum albums. Since joining Hollywood Records last summer, he has proved himself capable of leading Hollywood Records to a strong position in the industry." Pfeifer was formerly a member of the underground band **Human Switchboard**, and recorded an acclaimed album for I.R.S. Later, he recorded a solo album on the **Passport** label.

## GREG THOMPSON JOINS EASTWEST

Greg Thompson

**Greg Thompson** has been appointed Senior Vice President of Promotion of **EastWest**, based at the company's New York headquarters. In making the announcement, Executive Vice President **Craig Lambert** commented, "Ever since our company's inception, EastWest has had an executive staff whose skills complement our extraordinary roster. Because of his diversity of experience, Greg Thompson will be a tremendous asset to the EastWest family; he knows promotion from the grassroots on up. We welcome Greg with great enthusiasm." Immediately prior to his current appointment, Thompson was VP/National

Promotion of the **EMI Record Group**, a position he held since 1992. "Combining street savvy with an ability to break major acts, EastWest is the definitive record company for the '90s," commented Thompson. "I'm proud to have an opportunity to help take what **Sylvia Rhone** and **Craig** have built up to new heights."

## WW1/INFINITY'S UNISTAR ACQUISITION OFFICIAL

**GLASS NAMED A&M VP/MARKETING**

Jill Glass

A&M President/CEO **Al Cafaro** announced the appointment of **Jill Glass** to VP/Marketing, saying, "Jill's primary responsibility as VP/Marketing is to translate our artists' vision to the street. Her passion for music and all its possibilities, combined with her very practical experience in sales, promotion and product management make her perfect for this important job." Glass joined A&M in 1984 as manager of Special Projects/Alternative Marketing in Boston where, subsequently, she was Local Marketing Coordinator and then New England Promotion Manager.

**THE KRXX EDGE**

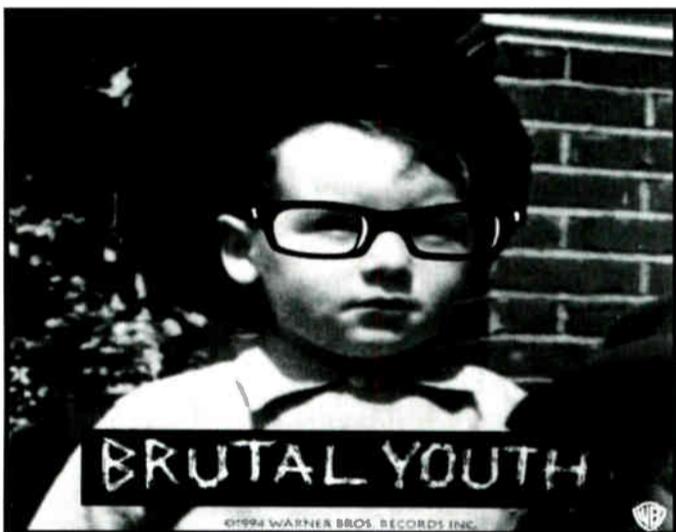

As reported in last week's Noise, the **Capital Cities/ABC** purchase of **KRXX** is official, and now so is the format change. As of last Monday (2/7), the former COR station became the sixth **Jacobs Edge** outlet. Fred Jacobs explains, "While every one of our Edge clients is doing well, we are pleased to be working with a major company like Capital Cities/ABC. This investment should make other major broadcasters sit up and take notice that the Modern Rock format is a viable and profitable option in every market."

**ACE UPDATE**

Updating the widely reported supposition that **Ace Cosby** was on the verge of making the move to mornings at **Q104.3** in NYC, it's a week later, and for **Ace**, Indianapolis is obviously the place. "I'm staying here with the family," was the word from **Ace**, adding, "I hope Bob find somebody that will fit... but he won't find anybody as good...ha ha!"

**FEBRUARY BABIES**

Congratulations to **RCA's Jordan Zucker** and his wife **Leslie** on the birth of their daughter **Izabella Cella Zucker**, born on Friday, February 4th, weighing in at 8 pounds, 15 ounces — "I thought it was a largemouth bass," explained Jordan. Also congrats to **KSHE PD Jim Owen** and his wife **Dobbie**, on the birth of their baby boy, **Connor Harold Dean Owen**, who made his debut on Wednesday, February 9th at 3:49 PM at a healthy 8 1/2 pounds. "The baby was born on GM John Beck's birthday," said Jim. "Is that the ultimate suck-up or what?"

# RADIO RUMBLE

**WDIZ/Orlando's** new morning show duo, Mike Brennan and Todd Yohn, hit the airwaves on Monday (2/14). Brennan, a former award-winning Orlando Sentinel journalist, is a stand-up comedian with club and concert credits from coast to coast. Yohn is a stand-up on both the college circuit and national club network. PD Michael Beck commented on the new show, "WDIZ has always been known for having the most innovative morning shows. In the '80s, it was Baxter and Mark, and in 1992, it was Ron and Ron. Now, with Mike and Todd, WDIZ presents the most talented duo ever heard on Orlando radio. Ron and Ron have had great ratings success and they will be tough to top, but the Mike and Todd Show will be funnier, more intelligent, have obviously more music than Ron and Ron, and it's a local Orlando show, not a Tampa show." As a result of the new show, News Director Carol Dedman's position has been eliminated. "Carol has been a great asset to WDIZ for the past seven years," said Beck. "With the new composition of the morning show, a formal 'news anchor' is not required. All of us at WDIZ wish Carol the best in her future endeavors."

**CFox/Vancouver** PD Bob Mills appointed Rob Robson Music Director in the latest in a series of re-shuffling at The Fox. Recent changes include naming Dana Wiliard Promotions Director, hiring Bill Courage for afternoon drive, moving Stevie Ray Dunbar to middays, and Stormin' Norman overnights. In the news department, Erin Davis has taken over the afternoon news anchor position, with Martin Strong handling weekend news duties.

**WVRK/Columbus** welcomed Brian Waters to morning drive, replacing Andy Woods, who will move to evenings and add Production Director duties. Waters returns to Columbus from WIVY/Jacksonville, where he handled middays and was the APD. Prior to that, he spent five years with WCGQ. PD Brad Hardin is expected to name a morning partner for Waters shortly.

**WDRE/Long Island** promoted Roy Seransky to General Sales Manager, up from Local Sales Manager, a position he held since April 1993. In making the announcement, Jarad Broadcasting VP/GM Dan Zako commented, "Roy's work ethic, knowledge, and energy have helped to lift the WDRE sales staff to new heights. I feel confident that he will be able to handle the added responsibilities with flying colors."

**WFNX/Boston** announced the appointments of Shaun Elizabeth Sinclair as an Account Executive and Todd Wilkinson as Production Director. Sinclair was most recently a senior account executive with Gannett newspaper, The Burlington Free Press. Prior to that, she was an account executive for WJDY-AM/WOKO in Burlington, Vermont. Wilkinson most recently did commercial and image production for WCHZ, Channel Z in Augusta. Prior to that, he was a production assistant at WDRE.

**WKRL/Syracuse** morning personality Bill Keeler has arranged for what he calls "a mega-divorce," on Valentine's Day, processing free legal divorces for central New Yorkers that can't afford them. "We're setting free the people that can't afford to get divorced," said Keeler. "These are couples that will never be able to work things out financially, and they would like to start new lives with someone else. So, Solid Rock, K-Rock is offering them a divorce free of charge." Keeler has teamed up with Ulica attorney Brad Margolis, who will conduct and process the divorce proceedings. 140 couples have already applied for the complimentary service. A mega-divorce ceremony, complete with a breakfast buffet, costumed officials, flowers and music will take place February 14 at 9:30am.

**WNEW/New York** listeners banded together to help raise over \$393,000 during last Sunday's 18 hour AIDS Radiothon on the station. Over the course of the program, listeners had the chance to bid on items including voice lessons with Meat Loaf, a chance to be in the Broadway musical "Les Miserable" for the night, autographed guitars from Bruce Springsteen, Jackson Browne, Robert Plant, Billy Joel and others, as well as donated auction items from U2, R.E.M., Aerosmith, Peter Frampton, Elton John, Rod Stewart, Rush, and other artists. Listeners also had the chance to "Pay for Play," helping to boost the total raised this year to more than \$130,000 more than the inaugural radiothon.

**WBCN/Boston's** morning man Charles Laquidara will be paying off his Superbowl bet at the Boston Garden on February 11, by ice skating the Boston Garden dressed as a woman. For the second year in a row, Charles has bet his wardrobe on the Superbowl with WBCN Sports Director Tank and lost. Charles and the WBCN Big Mattress Crew will broadcast the event live.

**WLUP/Chicago** will host the 3rd annual "Rock & Roll Up Your Sleeve" blood drive Monday, February 14. The annual blood drive, operated by LifeSource, collects blood for use in Chicago area hospitals. Scheduled to appear this year are psychic Joe Who, and "The Coffee Psychic" Jori Ann, as well as Elvis and Pricilla Presley impersonators. Loop newswomen Wendy Snyder and Kathy Voltmer will be on hand to donate. Each person who registers to donate blood will be eligible to win a trip for two to Puerto Vallarta.

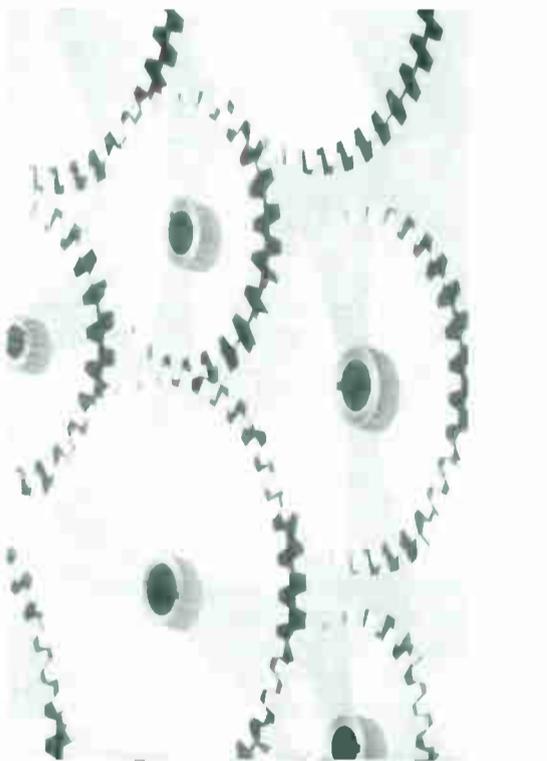

**KRXQ/Sacramento** will host the "93 Rock/Blue Chips 3 Point Basketball Tournament" at the new indoor basketball facilities in Folsom on Saturday (2/12). The 3 Point Shootout is free to the public and is being held to promote the release of Paramount Pictures' new college basketball drama "Blue Chips" starring Nick Nolte and Shaquille O'Neal. Prizes include a collector's "Blue Chips" jacket, Reebok shoes, and passes to the 93 Rock premiere of "Blue Chips" on Wednesday

but as soon as we get out of a break, we have to turn it down.

**On a brighter note, you've just had what is arguably the best COR book in the country.**

John: It's possible. We were #1 18-34 adults, and #3 25-54 adults.

**Do you think your 25-54's are a fluke?**

John: I think that we are a Top Five 25-54 radio station. In the summer we were #4 25-54 adults for two trends, then we had one bad month at the end of the Summer book, and we dropped down to #6. In the Fall we were #6 in one trend, we were tied for #5 in the second trend. Then we had a huge month at the end of the Fall book and made it to #3. I really believe that whatever your Arbitron numbers are, big or small, that you're never quite as good as your best book and never quite as bad as your worst. Arbitron methodology is still bullshit.

**You've done COR, Triple A, Mainstream, the works. Which do you enjoy most?**

John: It's all the same to me in a lot of ways. I love the music at all the formats you mentioned, and I would also probably enjoy programming a Classic Rock station. I don't think I would enjoy doing a country station, because I don't particularly enjoy that music.

**What do you think is the easiest to program?**

John: I don't think one format is easier than another. It depends on the competitive nature of your market.

**What do you think is the most difficult?**

John: Again, it depends on the competitive nature of the market. If there are three AOR's and no Triple A, then it's obviously easier to do Triple A. Bottom line is, how many competitors do you have trying to do the same thing as you? That's what makes radio programming difficult. I mean, you wouldn't have to be smart at all to go into a market that has no country station, and put a country station on the air, and get really good numbers. That doesn't take a lot of brains. I've worked in the markets where there are three, four and five stations all vying for different angles of the same piece of pie, and that's as tough as it gets. That's why COR is hard in this market, because there's another station trying it.

**Greg Ausham went across the street from WQFM to Lazer, and proceeded to win in what, two books? If somehow you found yourself out of work and 'QFM approached you, what do you think you could bring to the table?**

John: I could certainly add significantly to their war chest. However, there are several what I call immutable laws of radio, and one of them is that it takes years to build image and only minutes to destroy it. Lazer has a very strong image, and as much as any programmer would like to think that his former station would fall apart if he left, that's rarely the case. As long as somebody else came in that was smart, and aggressive and understood the format in the market, I think the station could keep humming right along. Certainly, I could add a lot to somebody across the street, but specifically how much I might add wouldn't be immediately obvious. In Greg's instance, he was able to do that because they didn't have anybody smart to take his place, and they had already made a lot of mistakes that had destroyed their image before his arrival. Greg was in the process of trying to rebuild WQFM, and when he left he really hadn't had time to complete the job. I really think that's the difference.

**Greg Ausham was undoubtedly a very hard act to follow, but you've truly improved on an already impressive track record.**

John: That's one of the reasons that I was able to do it. Greg handed me a great radio station, with a great staff and everything was in place to allow me to help guide it to — I hate the phrase 'the next level,' you see it everywhere — but we were able to evolve the radio station a little bit further. We couldn't have done that if it hadn't been a class operation and a very successful station from the start.

**What would you consider the strongest and weakest aspects of the station when you took over?**

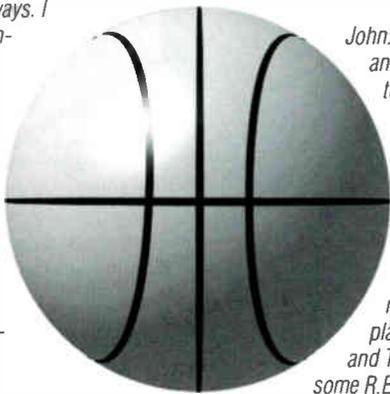

John: It had an incredible image on the street, it had several years of very strong numbers, it had arguably the best morning show in the market.

**And what needed the most serious attention?**

John: We needed to address ourselves a little more directly to the 25-34 audience, which Greg had just begun to do. The other main thing we needed to do was hone our marketing.

**What was WQFM doing at the time? Were they in their 'Lazer Jr.' mode yet?**

John: No, as a matter of fact, and that's why we were able to do this. At first they were fairly classic based, then they tried what you could best call an Adult Rock approach. They weren't playing AC/DC or Metallica or any of the real harder edged rock bands, and they were playing a lot of Eric Clapton and Tom Petty and throwing in some R.E.M. and some Peter

Gabriel.

**And that was after a long stretch of head to head with you guys.**

John: There was a period of three years or so where they were head to head with us, very much so.

**Was product differentiation a big problem for you then?**

John: To some extent, but we still had the street image. They changed their format so many times over the past five years. I think they've had about seventeen different morning shows during that same time.

**I had heard they sounded good when they lightened up.**

John: It was actually a fairly viable direction for them. The station started to sound pretty good, and I don't believe that they gave it enough time. They jumped off of that in February of '93. Initially, they just went on our tail at night, and were still kind of playing that Adult game during the day. Then, over the summer, they just gave up on that completely and they came face to face against us again.

**And how has cloning you worked for them?**

John: Well, they have been somewhere in the 3 to 4 share range for about five years, and they got to a 4 share in the Fall book. If they break through that in the Winter book, they will have made some progress. If they fall back a little bit, it will demonstrate that they're still where they've always been. They have a real serious image problem because they have changed so many times. 18-24 was the only area that they made a little progress, and quite honestly, that's always the battle field. It's the demo that will change the quickest, the one that is always tuning around looking for something new.

**And you feel you can hold your 18-24's and continue to perform 25-54?**

John: We certainly can. We won in the 25-54 arena by being a rock station. We didn't win by trying to be

an Adult Rock station. We play a lot of hard rock n' roll, so we are probably in the unique situation to be able to hold both the 25-34's that like that type of music and to hold the 18-24's, as well.

**Milwaukee was not Great American's number one market priority. How will the WKLH/WLZR combo rank with Saga?**

John: We're going to have the best of what Saga has to offer. We're a very important market, possibly their showpiece.

**I would doubt there are any other duopoly situations which own the #2 and #3 25-54 positions. Now that you've got the Classic Rock/COR dream team combo working for you, do you envision making any substantive changes?**

John: Absolutely not. We are perfectly positioned. That's why Saga bought us.

**Other than the Saga deal, what's the market duopoly situation like currently?**

John: There's only one other duopoly. Heritage Media, which owns WMYX, just recently purchased WEZW, which was the Easy station in the market.

**Does the prospect of someone linking up with WQFM concern you?**

John: I think that there are several players in the market who would like to pick up 'QFM, but I honestly don't believe that they will sell. They own the station free and clear and I think they like what they're doing, and I think that they are going to be around. We just have to constantly do what we do best and keep them at bay.

**I'd imagine record company political waters to be deep and swift now that you two are so similarly positioned.**

John: Absolutely.

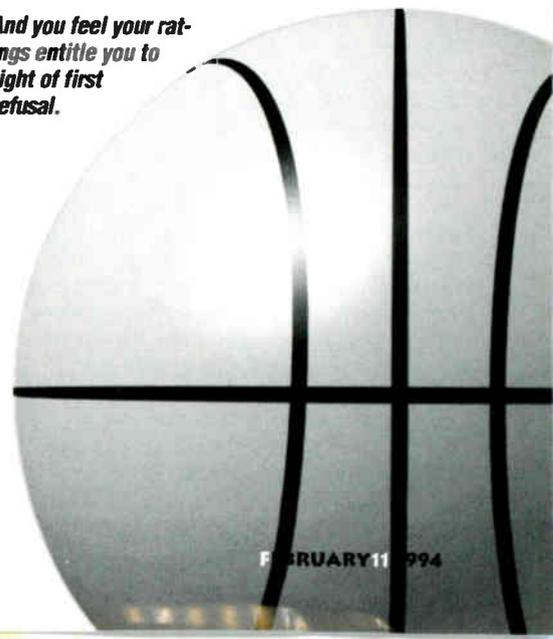

**Are you somehow not surprised at that?**

John: No, I'm not. I find that some companies have no memory of what you did for them two, three, or six months ago. If you're not playing the single that they're currently working, they think you're out to hurt them. That's a very short sighted approach. Those same companies fail to understand that there should be a client relationship between a record company and a radio station. We should be looked at as their client. They should go out of their way to take care of us in any way that they can. General Mills goes into a supermarket chain and drops their drawers to get some end aisle space for a new product. The same formula should apply to the record/radio relationship. When we pick up a project and run with it, we're giving them end aisle displays.

**Does rock radio get the lion's share of record company attention in Milwaukee?**

John: Absolutely. Rock radio probably gets more attention than anyone else in this market.

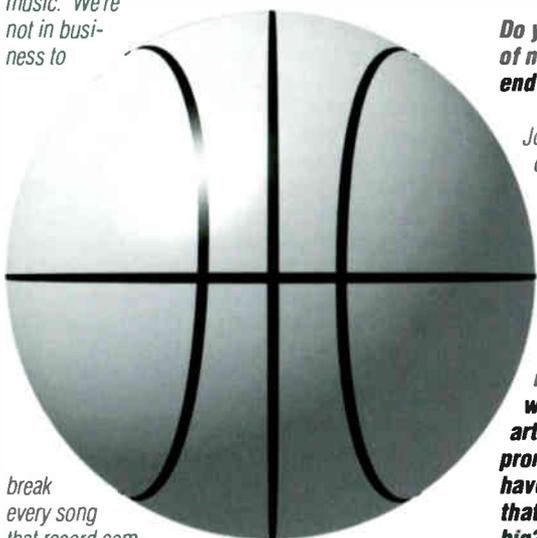

**And you feel your ratings entitle you to right of first refusal.**

John: Well, ratings are certainly a factor. If a station with a 6 share is playing a piece of product or doing a promotion, you're going to get a lot more value out of that than a station with a 3 share across the street.

**You have been accused of idiosyncratic song selection at times. It's a fact of life that labels regularly reward programmers and stations who are simpatico with their promotion grand plans.**

John: Does it really come down to idiosyncratic song selection, or does it come down to not playing the songs the label wants you to play when they want you to play them? I think that some record companies don't understand radio's mission. We're here to fill the needs of our customers and play their favorite music. We're not in business to

break every song that record com-

panies have, we're not in business to go by their timetables, we're in business to fulfil the needs of our listeners. To the extent that we can do that and help record companies, we're very happy to. I think they should be appreciative of that, though sometimes some labels are not. I like to use a football analogy. You can either be on one team, on the other team, or you can be a spectator. I don't care what position a record company decides to take, but they have to recognize the implications of the position that they assume. If you play on my team, hey, you're going to be at the victory party. If you play on the other team, you're going to be healing your wounds. If you sit on the sideline as a spectator to watch the game, you don't deserve any special treatment either. That's just the way that it works.

**We recently talked about a situation when a visiting label rep was hesitant to let you air a song on the spot, well in advance of the official release date.**

John: I don't see any reason why labels wouldn't want a radio station to do that. If someone is going to secretly record it behind their back in a specially wired studio quality situation, then, yeah, that sucks, and they should be wary of that. But if they trust somebody and they have their word they're not going to tape it, spread it to other stations, or play it again after you leave, there's no reason not to. Of course, it has to be set up properly. If you just throw it on the air, and you get your audience running into the record stores thinking it's available, then you're doing the band and the label a disservice. But, if you go on the air and say, 'Hey, this is a one shot deal. This won't be out for another month, but we have a chance to play it for you just this once, so get ready and give it a listen, then you're doing everybody a favor. You're doing the band and label a favor because you're building up advance anticipation for a piece of product.

**And when you're out early on a record or you bend to accommodate to a record company's game plan, you expect preferential treatment.**

John: You ask for as much as you can, and you expect to be taken care of to the extent that you're taking care of them. Not on a, 'Well, you only played two out of our seven bands' basis, but on a band by band

basis. If I'm playing the shit out of band X, I should be getting a lot of support from that label for that project, regardless if there are 8 other projects of theirs that I'm not playing. Sometimes, they lose that perspective, sometimes they allow that line to blur. I think that should be a very clear line.

**Do you encounter this problem more often than not?**

John: No, there are some great labels out there, and there are some people running labels and working for labels that are very understanding and very supportive of what we're trying to do. Those labels will do everything they can for us within the realm of still helping their artists and their projects, which is all you can expect from them.

**Do you feel that labels come to you with a lot of misconceptions about what so called low-end radio or COR radio is all about?**

John: Some do and some don't. The greatest misconception is that you can make any generalization. Every radio station is different. Just because 30 or 40 stations across the country get lumped together as COR stations, doesn't mean that they are all playing the exact same music or taking the same approach to their market.

**You've done a lot of programming at many different kinds of radio stations, as well as marketing, advertising, and even artist management. But you've never done promotion, though a number of companies have talked seriously with you about just that. Are the psychological hurdles just too big?**

John: The times that I have considered going to work for a record company were only in those situations that I felt the company came from the right mindset. That has to be something that comes from the top all the way down. There are some companies that have really grown a lot in their approach, companies that really believe that there are other ways to market product. I think, personally, if I were to go to work for a label, I would want to have control to the extent that I was able to really market product. It's a lot more then promoting. The old concept of record promotion should be a concept that's going down the drain. Record promotion is one facet of marketing a piece of product, and there are many other avenues available to record companies. Some labels are just beginning to get into those arenas and discover them.

**Let's talk about your foray into artist management with Lee Arnold. Color Radio was one of the first Gold Mountain bands. Was that whole experience ultimately satisfying or just hemorrhoidal?**

John: It's a lot of fun, and it can bankrupt you. It's one of those things that probably anyone would do if given the chance. It's like 'Wow, if this hits, I can probably make millions of dollars'. If it doesn't hit, you can spend your entire savings account, lose your condo in San Diego, sell your Corvette, and trade it in for a used Volvo.

**Ah yes, the good old 122S. Had one myself.**

John: I've had a couple of them.

**Speaking of busted bank accounts and beat up cars, do you feel as if you're at a point now where your current success sort of insulates you from the perceived roller coaster that is radio programming?**

John: No, you're never insulated. That's one facet of the business that you just have to accept if you want to continue to be in it. Certainly, you have a little bit more in the way of shock absorbers, but there are so

many variables that come into play that could effect you.

**Have you noticed much difference in the corporate styles of Saga vs. Great American?**

John: Oh sure, every company has their own style. I love Great American, and I'm sorry to be leaving their group, particularly because I think it's a real group. I'm very impressed with the level of people who work at Great American radio stations, and of course it's been a very AOR exclusive group for the most part — some of the best AOR radio stations in America. I've been proud to be able to talk to these people via the conference calls every week. That is something that I will miss, but I'm looking forward to the opportunity to work with Saga, a company that's very well respected. WKLH's General Manager Tom Joerres is a man everybody in town says lots of good things about. Steve Goldstein is really well respected and spoken of quite highly by lots of folks in the industry. Even his competitors admit he's a very bright man.

**What's the key to the esprit de corp that Great American engenders in its employees?**

John: It comes from the top down. Dave Crowl, the Great American President, formerly the WLZR GM, is a very personable guy. He gives his people the freedom to do their jobs freely and in a fun manner. Nick Miller, who is the other main corporate person that we deal with, is just a really smart and funny man, who has a good grip on research, and is very helpful. Those corporate qualities filter down to a bunch of great general managers. I think it's just a whole corporate culture, and I think it's the draw of all those great AOR's being together.

**Given that outgoing WLZR GM Dave Pugh gave you the big shot, I'm sure you're the president of his fan club. Obviously his faith in you has been well rewarded.**

John: I'd like to think so. He had to interview every available PD in America to reassure himself that I was, in fact, the best person for the job. Dave's one of the best GM's I've ever worked for, and I'll miss him.

**I've heard it said that 'KLH is the best Classic Rock station in the country. What's your read?**

John: They have taken the Classic Rock concept and expanded it as successfully as I ever seen it done. They also have been able to really ride the fence between Classic Rock and classic hits. But yet they play all the Classic Rock that's available to them, and they've made the library depth become a real key issue. I think they were the first station in the country to do the A to Z concept for the entire library, and they've done it a few times. They have always found ways to freshen their library and to turn it over. They really were at the forefront of the deep tracks concept, and yet were able to do it in a way where it didn't hurt them, when a lot of radio stations who tried it did lose numbers. They've also been fortunate, that for the most part they've competed against two very hard rockin' radio stations.

**Is there any Alternative presence in the market?**

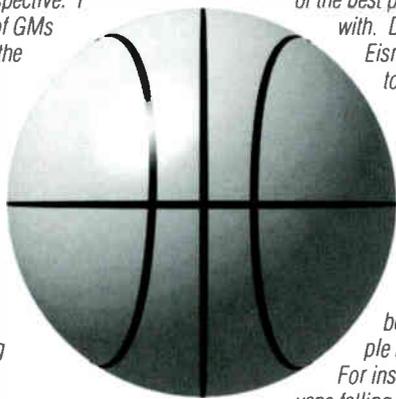

John: Our AM station, which we call the Warp, Wisconsin's Alternative Rock Programming, is 24 hours, but it's obviously handicapped because it's only a 1 Kw AM.

**Is that enough to keep potential Alternative competition at bay?**

John: That's why we put it on the air initially, to kind of get in the way of 'QFM when they took that plunge into that Adult Rock/Alternative phase a couple of years ago.

**Your previous station, WMAD, was one of the first of the new order of Triple A stations. Do you feel as if you hopped off the bandwagon right as it got rolling?**

John: Oh absolutely. I think it's a tremendous format, one I believe will still be an important player in the '90s. Unfortunately, it's been saddled by this reputation that it takes 2 years to get it going, and a lot of money from a marketing perspective. I believe that's hindered a lot of GMs and owners. But, looking at the alternatives — if you're the third or fourth AOR or AC in the market, what do you have to lose? You're going to spend those 2 years wallowing in low ratings and low revenue anyway. It's a one to two year process to build any radio station, anywhere, at least to get to the point where you're generating some real revenue.

**How do you think that a Triple A would do in your market?**

John: That's a good question. A Triple A in this market might not do as well here because of the huge success of WKLH. You need to look at it from a number of different perspectives. Some people still consider WMMO to have been a leader in that type of a format. They were to me more of an AC than they were a Triple A station. They really didn't have the depth or texture that a Triple A station should have. But, regardless, they came into the market with a bang, and everyone was talking about them. There was no Classic Rock in Orlando at that point, and there were very, very conservative ACs. There is a strong Classic Rock here that plays a lot of the same music already. I'm not sure if AAA would be a smart direction.

**I remember you really working hard at trying to arrange financing to buy WMAD. Your feelings about that now?**

John: I was very grateful for the opportunity.

**The psychological torture was worth it?**

John: Without a doubt. I learned so much about the business side of the industry. I put together probably five different drafts of a substantial business plan. I really learned the in's and out's of a financial statement and that's something that will only help me. I love radio. I would like the opportunity someday to have an ownership position or maybe become a general manager. Those are things that you need to know, and I do know them very well now.

**Has Milwaukee been a tough place for a COR radio station to make money?**

John: No, we've never been in the top five 25-54 prior to this Fall book, and Laser's been a very successful radio station. Certainly, a COR radio station with an 18-34 base can not do as well from a cash flow perspective as an equally successful radio station in a 25-54 arena. That's undisputed, but a #1 18-34 radio station with strong 25-34 numbers can do far better than a station that's number 6 or 7 or 8 or number 9 in 25-54 adults. The fact that we were able to do so well in 25-54 is icing on the cake.

**What would you consider your professional high point to date?**

John: I guess our latest accomplishment with Lazer. I was able to take a radio station that was already successful, maintain that success, and make major inroads in another demographic area. Greg was well liked, he had been in the market and at the radio station for a long time. The hardest part of any job is to come in and to win the trust and respect of your staff. That's particularly hard when you come in after somebody who already had that. It's easy if you come in after someone that none of the staff liked. So that was

a really tough challenge, and I believe I've accomplished it.

**You've always specialized in kind of a different, wacky approach to marketing, as epitomized by this past summer's recent billboard campaign.**

John: The picture puzzle billboard campaign was one of the best promotions I've ever been involved with. Dave Pugh, our ad agency, Bill Eisner and Associates, and I all worked together on it. It was highly liked and disliked by some of the top people in our company, and we were questioned as to whether or not we should be utilizing a campaign like this. But in the end we felt it worked very well. We took images that represented parts of bands' names and put those images on a board with our call letters. Then people had to figure out what they meant. For instance, pearls inside jam jars. Or vans falling out of the sky onto golf umbrellas, or the Washington Monument and the White House, plugged into an electrical outlet. We got tons of calls about it, and we then tied it into a contest on air, where we invited people to win their own billboard for a month if they were able to correctly name the artists in all the billboards in the campaign. We got tons of entries for that contest.

**Gosh, that campaign sounds tame compared to your spot featuring the fat woman getting run over by a van.**

John: Actually, it was a pick up truck. We had this footage of this rather obese woman dancing a la the "Cuz" campaign, and rather badly, I might add. Then Joe Kelly came on and said, 'They say imitation is the most sincere form of flattery', at which point you hear this engine revving off screen while the woman's dancing. Then Joe goes, 'Frankly we're not flattered,' and you see this pick-up truck come screeching across the screen and just nail this woman. Joe Kelly closes with 'Accept no substitutes. Laser 103.'

**Who loved it the most?**

John: The first group to get pissed off were women's groups. A couple of the more sensitive organizations claimed that we were endorsing violence against women, which of course, we weren't in any way. That started to raise the eyebrows of the general managers of the TV stations in town, who decided one by one that they couldn't play this commercial. The NBC affiliate did a story about the spot on the six o'clock news, and about the fact that they had decided to pull it, which just got us even more publicity. Then we went to the women's group that was involved in the complaint, explained our intentions, and proceeded to offer to raise money for them. They cautiously said yes, provided we were able to do it without their looking like they were endorsing what we had done. We threw a party at one of the local sports bars in town, with 46 TV screens, and we billed it as the last time anyone would ever be able to see the spot that was banned in Milwaukee. So many people showed up that we had to close the doors, and in the end we raised over \$1500 for the group. We showed the spot twenty times and every time we showed it the entire crowd went nuts. It was great.

**Given the rap that Lazer tends to run on a fairly tight budget, has finding and keeping quality air talent been difficult for you?**

John: Well, no. I was fortunate to step into a station with one of the best staffs around — from mornings to overnights. I did have to hire a few people when I took over. Darren Arriens went with Greg to Detroit, my production director left to pursue living in another area of the country. There were a couple other shifts that opened up real quickly. Mark Thompson was doing afternoons, and he left for a great opportunity in Chicago. I found some great talent in Brian Schock, even though he left suddenly to take the KNAC reins. I also discovered a great production director, one of

the best female air personalities in the country, and a bright, aggressive promotions director. I've been very fortunate to put such a fantastic staff together.

**What do you think about cluster analysis a la the stuff that Elliot and Bongarten are doing at Q104.3? Is Pink Floyd mixed in with the Meat Puppets the wave of the future?**

John: I'm really impressed with what they have done. I think those guys are both really smart, and cluster analysis makes a lot of sense. Again, research is just that, and you have to be smart enough to be able to balance research with all the other elements that make a station sound great. Here's another one of my Immutible Laws of radio. Research is like virtual reality. Just because it tests well, doesn't mean it's real for your radio station. That's of vital importance. I should tell you an antidote, that goes back to when Lee Arnold was running 'QFM. This was back in the early '80s, and we had just put WLFX, which was our across the street AOR competitor out of business. It folded up, and went to a Top 40 approach. We were the only AOR in the market, and we had huge shares. We were #1 in all the key demos, and I think we were #2 12+. Andy Bloom was the research director, John Sebastian was the consultant. Michael Jackson had just released "Beat It", with Eddie Van Halen playing lead guitar, and it rocked pretty hard. But it was Michael Jackson nonetheless. A lot of radio stations were playing it, and we started testing it. It began to test very well, and John Sebastian started telling Lee he ought to play the record. Then Andy kept coming to Lee with the research saying, 'You've got to play this!' Lee and I were both going, 'No, you can't play Michael Jackson on a rock radio station.' Well, it kept testing and finally in a weak moment, Lee gave in. It played one time on WQFM, and to this day, people will come up to me, or come up to Lee and say, 'I loved 'QFM back then. It was the greatest radio station. But I have to ask you one thing. Why did you ever play Michael Jackson? Yuck!

**Does programming Q104.3 in NYC interest you?**

John: I wouldn't be interested in the job in New York because of the situation that exists there. I really respect Bob Elliot and Randy Bongarten, but they don't need somebody of my calibre it seems. They've already put the music together, and they already know what they want to do. What they need is an administrator. My skills would be far underutilized in that capacity. I'm strong on strategic planning, marketing, research and computers. It seems to me they've got all those areas covered. All they really need is someone who can execute their plan. I'm the type of guy who likes a challenge more than a guaranteed win.

## TRIPLE ACE

**ELVIS COSTELLO** "13 Steps Lead Down," Warner Bros. We've seen Elvis go through many transitions in the seven or so years since his last album with the Attractions — some rocky and uncomfortable, some awe-inspiring. But deep down, every Elvis Costello fan yearned for the day when he would cut his hair, mend fences with the Attractions and get back to the music that made us loyal followers in the first place. That day has arrived in the form of *Brutal Youth*. **Ginger Havlat KBCO**, "Love it! The String Quartet was a nice touch, but this is the Elvis we know and love." **Chris Douridas KCRW**, "It's great to hear that Attractions sound again. But what's even better is that he still throws in some amazing balance. The track, 'Still Too Soon To Tell' is gorgeous." **Sybil McGuire WMMM**, "It's in Heavy rotation, Yes! This caused a fight in our office on who got to play Elvis first. Elvis is such an important artist for Triple A." **Mary Ramirez WVBR**, "It's nice to hear he's working with The Attractions, although his new song is actually more reminiscent of his own work. It moves like nothing else he's ever put out."

## THE HOT CORNER

**NRBQ** "Message For The Mess Age," Forward/Rhino. Everyone's got a favorite NRBQ song (mine is the live version of the "Batman Theme"), you just don't get to hear it on the radio. With their first studio release since 1989, the message is loud and clear — NRBQ will not be ignored anymore, and it's obvious that Triple A agrees: **Ginger Havlat KBCO**, "This song should open the doors to a lot of radio stations for NRBQ. The band has been undeservedly underplayed, but 'A Little Bit Of Bad' should give them the recognition they deserve." **Debi Campestrini KKRK**, "We couldn't wait to add this... so we didn't. It's an infectious tune, an instant add." **Jane Fredericksen KTCZ**, "This is a great record! It's fun, it's upbeat, very solid. It should push NRBQ to the next level." **Bill Evans KFOG**, "Their best record ever. Where's Big Al?" **Steve Cole KSPN**, "We put it on the air this morning and instantly liked it. There's a groove that's indescribable, and it sounds so smooth and good on KSPN. NRBQ is a group with a reputation of being one of the hardest working tour bands, and this album sounds like it matches their road prowess. 'Little Bit Of Bad' is so bad, that it's very, very good!"

**Leo Kottke** "Peculiaroso," Private Music. The #1 most added Triple A song this week drew equally impressive reaction: **Bob Terrill KCSU**, "Vintage Kottke, same great 'one person four-handed guitar,' this time with a twist — Rickie Lee Jones turns producer." **Chris Douridas KCRW**, "We're bringing him in next week. Great treatment from Rickie Lee Jones, who does a nice appearance as backup vocalist on 'Turning Into Randolph Scott.' A great balance of instrumental and vocal performances." **Jeff Luchsinger KERA**, "Probably sets a new standard for Leo. If you love classic Kottke, you can't *not* play this record." **Barbara Dacey WMVY**, "Rickie Lee Jones' production is fantastic. We're going with 'Peg Leg.' Kottke is one of the greatest guitar players in the world. It's great to have a record from him that's so right for our station." **Don Darue KTHX**, "Added it in heavy! Leo is a phenomenal artist for us, and people love hearing him on the air." **Bruce Ranes WXPB**, "Love the album. I'm a big fan of Leo, and I think it's one of his best albums to date."

**Downey Mildew, "Left Foot Down," High Street** There's a strong '60s influence throughout Downey Mildew's fourth full-length release, *Slow Sky*, that is especially prominent in the single "Left Foot Down." The harmonies are very reminiscent of the Mamas and the Papas in their prime, a sound definitely tied in with this L.A. band's California sound.

**WVBR's Mary Ramirez** was immediately taken with Downey Mildew's unique sound, "I love their beautiful harmonies, and their fresh, clean, happy, perky, upbeat sound. What else could you ask for in a song?" **KCSU's Bob Terrill**, however, was a little more cryptic, "Downey Mildew is a great acoustic zucchini vegetable blight." The official add date for "Left Foot Down" is February 14.

**The Band, "Remedy," Pyramid** The Band has firmly re-established itself in the hearts and playlists of Triple A stations.

The latest track from their stellar album was an immediate favorite of the format: **Jane Fredericksen KTCZ**, "This is a solid adult appeal record. Your upper demos know who these guys are and will welcome them back with open arms."

**Chad Gilley WCLZ**, "Great track from a great album. The audience response is obviously giving them a lot recognition." **Dan Reed WNKU**, "I think 'Remedy' is the perfect Band song. Great lead off track. It really swings like all good Band songs should. We've been four cuts deep into it, and it all sounds super. 'Remedy' is our favorite one." **Sybil McGuire WMMM**, "We've had it in heavy for several weeks now, and suddenly we have a classic Band song." Then we got a new one, which is the best of both worlds." **Bill Evans KFOG**, "Great groove!" **Ron Sorenson KFME**, "It's our favorite track on the album, has the spirit and feel of some of The Band's best work."

**Rob Wasserman, "Trios," MCA/GRP** Triple A's reaction to this impressive undertaking by bassist Rob Wasserman went something like this: **Steve Cole KSPN**, "Bassist Rob Wasserman is back with a vengeance with another unique assortment of pals. It's very imaginative pairings complement Rob's masterful bass playing. It leaves listeners panting with excitement."

**Ginger Havlat KBCO**, "This could be one of the hottest items from the corner. Question is where to begin on picking tunes 'cause it all sounds so good. What a cast." **Chris Douridas KCRW**, "We just had him on the air yesterday. The reunion of Carmie and Brian Wilson is beautiful. We love the Elvis Costello track and the Bob Weir/Neil Young song." **Jeff Luchsinger KERA**, "After the response from *Duets*, *Trios* should be huge for our audience." **Bill Evans KFOG**, "Eclectically brilliant." **Mark Keefe WVXU**, "On a lot of the tracks, he could have been anyone's bass player, in some cases he should have been. Fun stuff."

**John Mellencamp, "Baby Please Don't Go," MCA**

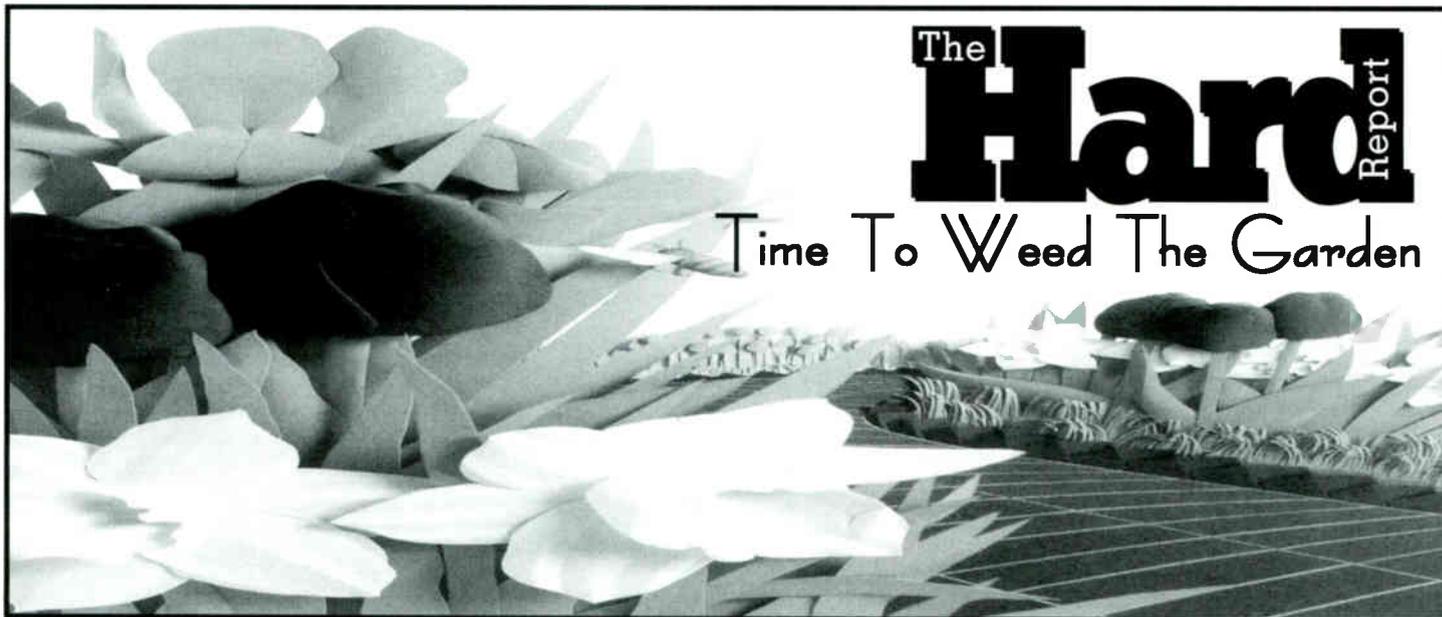

Mellencamp's infectious cover of this classic was recorded for the soundtrack from the soon to be released basketball movie "Blue Chips." Now, before you start saying, "Not another soundtrack," or "Not another cover," just sit yourself down and give it a listen. Mellencamp hits the nail on the

head with this song with an unbelievably smooth rhythm section that's guaranteed to have you singing this tune in your head for days. **Bill Evans KFOG** "An oldie and John Mellencamp — a great combination, doesn't matter what oldie he does." **Steve Cole KSPN**, "Joining the seemingly endless parade of cover versions, John Mellencamp's version of 'Baby Please Don't Go' takes a very original approach. The innovative drum platform underscores the original lick in a provocative manner. Love the original, love the three prior cover versions, and I found myself dancing around the study to the latest when I aired it this morning."

## Triple AAA Noise

**SBR** has added to **WXRT/Chicago** to its client list. 'XRT GM **Harvey Wells** explained, "Both WXRT and SBR have been trailblazers in the format — even before it was a 'format.' It will be great to have them as part of our team to keep WXRT a leader in progressive adult radio — we've always been committed to it even before the format had a name." Other SBR clients include KFOG, KMTT, WRLT, WKOC and WVGO.

### Time To Weed The Garden

# David Broza

on The

## World Cafe

with David Byrne

**O**ur guest is David Broza, who in a sense really puts true meaning to the word multi-cultural, that gets bandied around. Born in Israel and now living outside of New York City, which is kind of multi-cultural itself, welcome.

**David:** Thank you.

**You've had such a career throughout the world — in Spain in Spanish and in Hebrew in Israel. Do you sometimes feel like you have different parts of your persona working simultaneously?**

**David:** It gets complicated. There's definitely a different approach to each language when I sing it. To tell you the truth, I started off in Spain, musically. It was really playing Hendrix music or Clapton, it never was Spanish music, per se. The Spanish thing only came back to me about ten years after leaving Spain when I suddenly wanted to hold onto something that was my youth. So, I went back and bought records that were happening in those days in Spain that I hadn't really been paying attention to and started playing all those songs — songs written during the Franco regime, the Totalitarian regime. In those days, there were a lot of exiles, people living outside of Spain, making their political statements. I had grown up with that in the air, but I had never used or taken part musically in it. I was more running in the streets playing Hendrix or listening to the blues, which

would have been a protest to Spanish culture because of what it stood for, because of Franco. Only now has Spanish really become Spanish style, playing the Spanish guitars has become part of my music.

**You make a good point. In fact, the last album you did in this country was sort of an exploration of American poetry, so I guess what you are saying is when you look at a language of a culture, you really have to get inside the language to write.**

**David:** You bet. It's kind of hard, unless I want to play the part of the foreigner, which would be pretty easy.

**Yeah, I guess it would.**

**David:** They say that the clothes make the man, which I really think is just Giorgio Armani's way of selling. It really doesn't matter what you're wearing, but what you're saying and how you're saying it. You have to say it in a way that you're not intimidating or alienating anyone. Especially in society's like the United States. It's like 50 states, but it's one big community, and everyone studies the same books, the same text under the same programs, federally controlled and all that. It's a closed up society. If I come from the outside, right away I am placed in a certain situation or certain place. As a musician, wanting to be part of this mainstream America, in my way — I'm not mainstream, although I wish I was, in the way that Jackson Browne was or Paul Simon is, and the folk rocks kind of way — I would have to speak the language physically and subconsciously. The only way to do it is to really know it. Poetry has really helped me a lot. Just by the fact that I am picking up a poem by someone down in Arizona, Alberto Rios, with a Spanish name like his, although he's an American, having lived on the American side of the border. That's one that I can identify

with. Or I speak to Matthew Graham, who is from Evansville, Indiana right now, but raised in the Catskills as an Irish Catholic and ending up in the Midwest. Again, that's another story that I can identify with. These are old stories that I hook up with through the people that write them, then I set them up with music. I'm complicating your life, right.

**No, that's interesting. Your new record, how does it differ in terms of writing these songs now? It must be different from what you did last time.**

**David:** Not only does the language differ in America, the chord formation is a little more technical. For instance, around the Mediterranean, it's common to sing minor key songs, in the United States and the pop market, it's mostly major key.

**That's interesting.**

**David:** Country songs, which I think is the core of American pop, it was all major key songs basically. I had to turn from that gradually. It wasn't like, 'Okay, right now I'm going to start writing like they write in America.' I have to write naturally. The first release that I had here was about four years ago on EMI Records, and it was the result of my first four years in the United States. A lot of the songs were written still in the minor key progressions, and slowly they evolved to the major key progressions, without realizing what it was. With 'Time With Trains,' it was not so much that I wrote with the more major key, but they seem more American, even Southern to some point. I've had some people in Texas and Tennessee tell me how they sound almost gospel at times.

**There are different styles throughout the record, I don't know if you set out to do that but that's nice that you had a chance to do something different things.**

Shortly after David Broza's World Cafe appearance, we began what turned out to be a series of phone conversations. David is a fascinating artist whose passion for his craft is evident in his music. He transforms modern and sometimes obsolete poetry into moving contemporary music, exposing generations of listeners to often unknown artists. David spends a great deal of time in Israel, where he has achieved superstar status, but for the past nine years, he has called New Jersey home...

# David Broza

On The Phone

with Lisa Riegel

**The songs on your album 'Time Of Trains' are very emotional. When your performing on stage, how do you draw those emotions up and how draining is it for you?**

**David:** The show is all passion. I burn a lot of energy, a lot of emotion and feelings out on stage. Needless to say, I don't need a shrink. I get it all out there. I've done it since I was a kid, and sometimes I do two shows a night, and I've learned it does leave me somewhat drained emotionally. It's just like being on stage and performing a very strong theatrical piece and being the character all the way. I've learned to assume that role and, actually, I can literally switch from this kind of conversation that we're having and become very dramatic.

**The last time you and I talked, you told me that you are so emotionally drained after a show that after getting off stage, if somebody came up to you and told you that someone close had just died, you didn't know if you would have the emotion left to react right away. It's that intense.**

**David:** It's very, very intense. At times, I have a feeling that when I get into the shows, the audience is already familiar with some of my material, therefore they are not stunned and in a state of shock by the performance. They can actually let themselves flow with my dynamics. Then, I elevate everything to another level, and at times, I've been worried that somebody could actually stab me, without me being able to experience the actual feelings of the edge cutting through me. It's a state of — not frenzy, but ecstasy to some degree. There's so much adrenaline that I can generate while I'm performing. You know how it is when you're in a car crash, and you don't remember anything? I don't know what is happening to me on stage. I can't recall moments. It can be bizarre. I let myself go completely.

**Do you almost think in terms of a different persona?**

**David:** Oh, yeah, a horrible one. I call it, letting the monster out of you. I know there is one in every person. If you were to try to cross the New Jersey Turnpike during rush hour, running from one side of it to the other, and somebody took a picture of that, it wouldn't be the person that you know. There's an ele-

ment that's in you that is racing to save your body, whatever it is. It's that kind of feeling. I always regard it as a bullfight. It doesn't have to be like that, but it is. It's almost a life and death certification. What I'm saying by that really is that I give it all I've got as soon as I'm on stage. I will not excuse myself for giving less than the best show that I could possibly give, at all times. If I can't do it, then I would rather not do it at all. If you're one of those, 'Well, I did my best,' just don't bother because the stage is meant for those who are willing to sacrifice all while there on stage, and not be calculating. You've got to really know the role very well before you do it.

**You play to very large audiences in Israel, and the audience is still growing here in America — does that level of the intensity change for a smaller audience?**

**David:** No, it doesn't, for that precise reason. Here, I'm trying to establish myself, so I have to give all I've got every time. It's the music that drives me into that determination and to that sense of love or complete ecstasy on stage. It's the music. That's why I work so hard at writing the songs and trying to find the right lyrics, so that I don't feel like I'm giving, so that nothing makes me feel like I have a mediocre thing in my

totally convinced myself that I've done everything to put the elements together. On the other hand, I will leave things loose to some degree. 'Trains' was a live recording, every song. I didn't fix anything, on any of the songs. It was all me and my guitar getting into the studio, singing two or three songs a night. Three takes at the most, and then we added the other musicians we needed in order to give it a little bit more of a fancy presentation and a larger production to some degree.

**Do you leave in some mistakes that just worked themselves naturally into the songs?**

**David:** You bet. As a matter of fact, some of these songs I actually had to read off of the paper as I was recording them because I had so many songs for the album, and I only ended up with 11. I just kept on recording some songs further than the ones I'd planned, and some of them were not a 100% ready yet. So, I was reading them, and that meant that I really hadn't quite figured out the song yet, and what I heard back on tape was something that I really felt. Along with the producers, we decided this was it. And it worked.

hand. People can come and see my shows and say, 'I don't get it,' or hear my albums and it doesn't do anything to them. I hope they don't feel that way. I hope they either say they like it or they love it. But as far as me signing my name on it, I would only do that I

**M**ötley Crüe, "Hooligan's Holiday," Elektra Do John Corabi's gravelly vocals bury Vince's nasally tones? A lot of people seem to think so. The heavier guitar sound also takes the band into a much more contemporary strata. As noted by KQRC's Doug Sorenson, "It's not push up bra music anymore. It sounds much more mature. I think they're a new band"... From WKDF's John Nagarya, "Definite proof that Mötley Crüe has entered the '90s and belong right next to Nirvana & STP." KBPI's Bill Belts hears, "An accessible automatic here."... Finally, from Dana Jang at KSJO, "It's very well produced and the sound gets them beyond their core. A very good song."

**S**oundgarden, "Spoonman," A&M A platinum sized fan base. Check. Metal radio acclaim. Check. Alternative radio acclaim. Check. MTV Buzz Clip with "Outshined". Check. Major tour experience including Lollapalooza and set-up stint with Neil Young. Check. All systems go. Ready for take-off. Straight to the moon. Soundgarden has been paying their dues for a long time and finally enjoyed success with "Badmotorfinger", but that proverbial pot of gold was slightly out of reach. On "Spoonman" Soundgarden hits the jackpot. Chris Cornell's vocals have never been crisper or more haunting and flow easily over a funky, tribal groove accentuated by those killer bongos! The video for "Spoonman", which features the actual Spoonman, will be all over MTV shortly, and if you're smart, all over your station too. Add dates 2/21 & 2/22.

**B**lue Murder, "Nothin' But Trouble," Geffen It's been four long years since John Sykes and his talented comrades graced rock radio with "Jelly Roll", but Blue Murder is back and in prime form on "Nothin' But Trouble". The lead track "We All Fall Down" has already been embraced at both metal and COR radio, and many more hit singles will follow. Try out "Cry for Love", which is unforgettable not only for the infectious melodic turns that the song takes but also the sad tale of abuse that it tells. On the lighter side is a great cover of Small Faces '60s classic "Itchykoo Park". Keep in mind John Sykes musical lineage which includes Thin Lizzy and Whitesnake (Sykes co-wrote the material on Whitesnake's immensely popular self-titled release), as you decide to put this release straight into heavy rotation.

## Metal Pick

**M**otley Crue, *Hooligan's Holiday*, **Elektra**

If you thought that you could write off the Crues as just another hair band. Wrong! You thought that a disc as cool as Skinny Puppy's *Rise* or Ogibla's *Wolfsbane* wouldn't ever collaborate on a major label release like this. Wrong again. The Crues are back after a long break, a major personnel change adding **John Corabi** (formerly of the Scream) to vocals, and a new deal that will keep them at Elektra for quite some time. "Hooligan's Holiday", the first track from the upcoming self-titled release, is a great mix for any Crue head who has been foaming at the mouth for some of those **Sixx** best grooves (a **Nikki** and those uncut **Power** riffs and flames all make-doing-it-yourself **Tommy Lee** drum solos) which are fattened up with Bob Rock's production work. You also get all love for crunching guitar bridges spiced up with a bit of a blues lick in the middle, all courtesy of **Mick Mars**. It may not be heavy enough for you to be the "Relict Vision" Skinny Puppy redux, or the "Extended Holiday" version that mainstream radio won't go for, where next. If this first track is any indication, this release will be the rawest, heaviest amongst LPs the Crues has offered since "Live Wire" and *Too Fast For Love*. Corabi's snarl vocals are the perfect ingredient to the new Motley mix, which is about as smooth as a saw-blade. As Motley Crue enters the music world of the '90s beware, this one is not for the faint of heart!

**T**herapy?, "Troublegum/Knives", A&M  
 We must all be bordering on insanity because A&M keeps giving us more Therapy?. This threesome oozes the anger and punk mentality inherent from the religious strife in their Irish homeland. Tracks such as "Nowhere" and "Die Laughing" display the dark, cynical lyrics that characterize Therapy?, along with an angry pop sensibility. The first track for metal radio, "Knives" jumps right out of the gate and kicks your ass with thick riffs and lyrics like "I wanna crawl up inside you and die". Only Therapy? (& Tool) could release something that warped and still make sense. In addition, the maxi-single that shipped with the full CD, includes a clean version of "Knives" for radio if you can't get away with the original. Both Nurse and Hats Off to the Insane have established Therapy? at metal radio, and the "Screamager" stint as an MTV Buzz Clip (this track is also included on the full) have established the band enough so that your audience should be familiar with them and sink right into the new tracks. The full length and single adds are this week, although KEYJ, KSHE, and WVBR couldn't wait and are already on. Take some time and get a little Therapy? this week, you could use it.

**M**onster Voodoo Machine, "State Voodoo/State Control", D-Tribe/BMG  
 The pit forms to the right. This Canadian group (Adam Sewell - vocals; Terry Landry - bass; Jason Cuddy - guitar; Darren Quinn - guitar; Dean Bentley - drums; Stacey Hoskin - sampler) formed in 1991, and specializes in taking down-tuned guitars, samples, and all sorts of noise, running it all through a grinder and churning it out with a systematic beat. The hardcore influence shine through with the production work done by Paul Raven of Killing Joke (and now, Prong) and the abbreviated song lengths. The Voodoo Machine claims "we owe it to each other to educate ourselves". They are angry, but if you take a close look at the lyrics, you can see the reason behind their rhyme. If that isn't what you're looking for though, mindless, knock-your-head-through-the-wall jamming is always an option with tracks like "Get On With It", (which is already spinning at KDZR, WWSP, WWDX, KISS, KQAL, & WPCR) and "This Ain't No Small Town". On the road is where this band is most at home, and the energy of a live show is captured here. So take a visit to a new state - State Voodoo/State Control - and enjoy.

**B**lue Murder, "Nothin' But Trouble", Geffen  
 Ed Trunk from WDHA couldn't have said it better: "Thank god for the new Blue Murder track! It was so great to hear some great, straight ahead kick-ass rock again ... I can't wait for the new CD! Well the wait is over. After four years of waiting (and waiting) John Sykes and his new crew of musicians (Marco Mendoza - bass, Tommy O'Steen - drums, and Nik Green - keyboards; with Carmine Appice and Tony Franklin also contributing) have brought to metal radio a worthy follow up to their self-titled debut. Many of you are already playing the full-on rocker "We All Fall Down", which is already garnering top 5 requests at KISW, WDHA, and WRCN. Nothin' But Trouble offers many different options for depth tracks including "I'm on Fire" a rambunctious, up-tempo tune with soulful vocals, and "Cry For Love" a very serious song about child abuse which flows over a surreal, infectious melody. How 'bout checking out the cover of the '60s hit "Itchycoo Park" originally done by Small Faces. The talent of Blue Murder easily shines through with the stylized production of Sykes, and provides a breath of fresh air amidst all of the '90s grunge and crunch. The melodic power of Nothin' But Trouble is what sets this record apart and makes it worth a listen.

**Demented Ted, "Promises Impure", Pavement** Death metal with personality. Being that I'm from Chicago, I have had the opportunity to watch this Windy City fourpiece (**Mike Anderson** - drums; **Ron Janis** - vocals/guitars; **Ken Cutle** - guitars; **Eric Alvarez** - bass) develop into among the most popular thrashers on the scene. their live show is powerful enough to win over instant believers and with the constant touring by the Demented ones,

they started receiving press in magazines and fanzines worldwide even before they were signed. They will continue this precedent in the spring touring with *Unleashed and Broken Hope*. *Promises Impure*, Demented Ted's first release on Pavement Records combines the dark, gruff vocals with quick, melodic, and very heavy rhythms. This is brutal enough for any thrash show and the catchy guitar work on both "Existence Lies Beneath" and "Despair" will pull in many mainstream metal stations. Demented Ted has corralled in many early believers including KZRX, KEYJ, AND WWSP along with landing #4 most added honors. Be sure to give this one a listen.

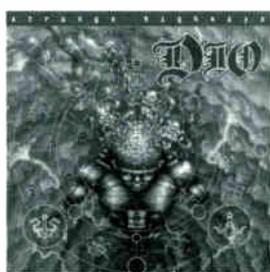

**Lucy's Fur Coat, "Elementary", Relativity** An accountant? An engineer? An X-Ray technician? A law student?

Playing rock n roll? They say you can't judge a book by its cover and Lucy's Fur Coat (**Charlie** - vocals; **Tony** - guitar; **Mike** - guitar; **Rob** - bass; and **Scott** - drums) are out to prove just that, with their 3-song sampler on your desk now, as they say, to warm you up for their upcoming Relativity release *Jaundice*. The song "Elementary" is characterized with the warm, smooth feel of the music

in the '70s without sounding dated. "Sensor" is a cool little ditty starting out with a barber shop-ish jangle that slams into gear with a crunch-riff that will knock you over. "Treasure Hands" also has a nostalgic '60s/'70s feel (can you hear the Steppenwolf?) along with strong drum beat that drives the song. It may not be politically correct, but try on a fur coat: Lucy's Fur Coat.

## QuickPick:

**Dio, "Strange Highways", Warner** Just in case you missed the bulletin last week, this is a quick reminder that the time has come to add the full length release from Dio - *Strange Highways*. Some of you (including WSOU, KIOZ, AND WAIF) have already hopped on the full CD while the lead off track "Evolution" has shot up the Hard Hitters chart. Now that the full LP is in your hands check out the cut, "Jesus, Mary and the Holy Ghost" which opens the CD with thundering drums driving the furious pace,

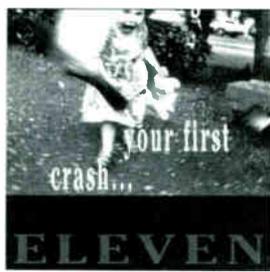

and also the title track "Strange Highways" which combines the best elements of earlier classics like "All the Fools Sail Away" & "Sign of the Southern Cross". With a spring tour in the works, the interest in metal's favorite mystic will be high.

## SingleMatters

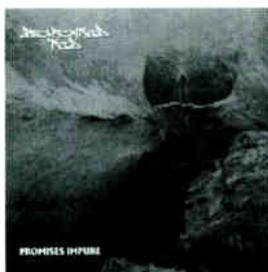

**Sepultura, "Refuse/Resist", Epic/Roadrunner** Just in time for the full throttle Sepultura U.S. tour is the powerful opening track from *Chaos A.D.* "Refuse/Resist" is the ultimate anarchistic anthem that starts out innocently - as we all do - with a heartbeat, specifically Zyon Cavaleira's pre-natal heartbeat. The fury of this song kicks in immediately and never slows down, as does the subject matter of this song, revolution, which becomes increasingly pertinent in these tumultuous times. Pay special

attention to the artwork, the situations discussed, and the poem on the actual CD: The message here is as heavy as the music. Also included on this single is the previously unreleased track "Inhuman Nature", a Final Conflict cover, to provide an extra dose of Sepultura to your listeners as the tour comes to your town (absolutely, positively do not miss this show)! Considering that Sepultura has been at the top of all metal charts and requests since the release of *Chaos A.D.*, we expect that you will have no problem unleashing "Refuse/Resist" on your metal airwaves.

**Eleven, "Let Down", Hollywood** The newest track from this progressive three-piece is "Let Down", an aural potpourri that kicks off with what sounds like a Middle-Eastern snake-charmer, and it will attract your listener's attention immediately. Then it kicks into a faded techno-groove that marches along at a deliberate pace. The sound is unique to the metal airwaves and that is what makes this band special and why the song will implant itself firmly in every listener's brain (you know, you hear one chord and for the rest of the day its stuck, that's all you can think of). Eleven is currently on a three week tour with Candlebox and win-

ning over more fans each night. If you can get to one of these shows, check it out, but if you can't make it, do the next best thing and try out "Let Down".

**The Melvins, "Lizzy", Atlantic** Talk about a band overdue. Finally, The Melvins have started receiving the acclaim they have deserved for a long time as many of today's "supergroups", Nirvana for example, acknowledge The Melvins as an inspiration and influence. Metal radio has warmly embraced the first two singles from *Houdini* and raved over the live shows. "Lizzy" has a slow, thick, methodical pace more in the vein of classic KISS than the frenzy of "Hooch" or "Honey Bucket". But if the frenzy is what you crave, check out "Rocket Reducer #62" and "Lexicon Devil", a fast and furious track not available otherwise, with more of a raw punk sound than anything we've heard recently. Also included is a live recording of "It's Shoved". Choices, Choices, Choices. Make the initial choice to add the new tracks this week and save the fun, yet difficult, decision of which tracks to play later!

**Shootyz Groove, "The Craze", Mercury** Uh-Oh. It's Valentine's Day and you know what that means. It's the one day every year that we all have to make our buddy Cheryl a happy camper. And that's not easy. But you can bet that Shootyz Groove adds would have her dancing circles all over her office. But there are even more reasons why "The Craze" would be a worthy addition to your playlist. First and most importantly, you have the FCC mix (ie: clean edit) at your fingertips so that you can run the most addictive, grooviest, dopest, flyest (sorry, I had to borrow some Ice-T inspired lingo) track on the *Respect* EP without losing your license. Also, Shootyz Groove are currently on tour with party band Mighty Mighty Bosstones, and the two bands match up to make a lively, intense show. All this is merely a warm up for the full length release coming out in May. With the recent success of the *Judgement Night Soundtrack*, Body Count, and Cypress Hill, among others, Shootyz Groove fit right in on the metal airwaves. Join in on "The Craze" for your Valentine this year - It's the sh\*!

"Superunknown", do I really need to say more?). The album is tentatively titled "All Boro Kings"... Looking to the future, there is something new and as always unusual coming to the metal community from **Infectious Grooves** (550 Music/Epic)... It's true! The new **Corrosion Of Conformity** (Relativity) album is done! The release date will be announced shortly, so stay tuned... **Roadrunner Records** have added **Buzz Ov-En** and **Madball** to their band roster. Charlotte, North Carolina natives **Buzz Ov-En** will enter the studio to record their debut album in March. New York band **Madball** features **Freddie Madball** on vocals, **Vinny Stigma** on guitar, **Will Shepler** on drums, **Matt Henderson** on guitar and **Jorge "Hoya" Guerre** on bass. The band has recruited producer **Steve McAllister** to join them in the studio in March. Tune in to your Music Television on February 26th to catch the world premiere of **Gwar's** (Metal Blade) "Jack The World" video on **Headbanger's Ball**... **Prong** (Epic) have completed work on a video for "Snap Your Fingers, Snap Your Neck". Look for it to air soon... The **Ex-Idols** (Relativity) are currently working on their first mini-movie for "Social Kill", one of the four cuts on the "Pill-Popper" disc. **Bad Brains** (Epic) return to the rock road, headlining club gigs in the southern part of the country... Check the Hard Tour guide for complete info on the February 11th to March 21st **Sepultura** (Epic/Roadrunner), **Fudge Tunnel** (Earache/Columbia), **Fear Factory** (Roadrunner) and **Clutch** (EastWest) tour... **For Love Not Lisa** (EastWest) travel the wilds of America from the February 18th kick off show in San Francisco, California to their wrap up date in Boston, Massachusetts on March 19th... The **Mighty Mighty Bosstones** (Mercury) have booked three dates in March. March 4th in Kiamesha Lake, New York; March 5th in Trenton, New Jersey and March 6th in New Brunswick, New Jersey. **Shootyz Groove** (Mercury) will join them for the March 4th and 5th shows... **Cannibal Corpse** (Metal Blade) are traveling around Europe, mostly in Germany, with **Morbid Angel** (Giant) at the end of March. Can I have your attention please — **Roadrunner Records** has a new address! They are now located at 536 Broadway 4th Floor, New York, New York 10012... Remember the deadline for the **Life Of Agony** (Roadrunner) "Give Us Your Pain" contest is March 4th, 1994. In telling your most agonizing story remember these simple rules — the story must be 100 words or more, it must be true, you must be willing to print your story if it wins and there is no limit on subject matter. Go ahead and enter, you just might win some of that really cool **Life Of Agony** stuff they are giving away. The end. Think a happy thought. Peace.

## Metal Filings

First and foremost, the top priority in your life should and would have to be to let your listeners in on the new **Motley Crue**. "Hooligan's Holiday", the first cut from their upcoming self-titled **Elektra** release, is one mean track! Going for adds February 14th and 15th, the **Skinny Puppy** (Dave Ogilvie) re-mix should add some digital flavor to any playlist... Next up, you really need to drop the full length **Therapy?** (A&M) album, "Troublegum", in the disc player for adds February 14th and 15th. The emphasis cut is the first on the album, "Knives", that arrived complete with an edited version... Also making a radio debut the 14th and 15th of April is the full length, "State Voodoo/State Control", from **Monster VooDoo Machine** (D-Tribe/BMG)... Something cool to take note of on the **Sepultura** (Epic/Roadrunner) "Refuse/Resist" single CD-pro is the non-LP b-side, "Inhuman Nature". Also pay close attention to the artwork and writing featured in the CD package - not only do **Sepultura** hand you an incredible song (for February 14th and 15th adds), they give you a little insight into the vibe of the song... **John Sykes** and Co. in **Blue Murder** (Geffen) first gave you "We All Fall Down", now they deliver the full 11 track LP, "Nothin' But Trouble", an album four years in the making. Don't think about it, just add it... If in fact you missed it the first time the **Wargasm** (Lonely Planet/Massacre) album, "Ugly", is going for adds again this week February 14th and 15th... Also in your hands and up for some serious airplay is the three song CD, "Elementary", from Clairemont's clean-cut **Lucy's Fur Coat** (Relativity). This is just an appetizer, and a tasty one at that, to the main course, the "Jaundice" LP. If you like what you hear, check the band out live as they tour the states from an industry debut at the Gavin Convention February 17th until a stop in Boston, Massachusetts on March 30th... By the end of this very week you will have in your hands the first juicy morsel from the highly anticipated **Soundgarden** (A&M) LP, "Superunknown". The "Spoonman" single goes for adds February 21st and 22nd, oddly enough about the same time the video will air on Music Television. The clip will feature the original Spoonman (an artist) as well as action footage of the band... The **Max Cavalera** and **Alex Newport** side project **Nailbomb** hand the metal community "Point Blank" for February 28th/March 1st adds... The first week in March of '94 brings not only the new single "Jack The World" but an onslaught of new songs from **Gwar** (Metal Blade). The single goes for adds March 7th and 8th with the entire musical collection arriving under the name "This Toilet Earth"... When it gets closer to April be on the look out for the next big thing - the new album from **Cannibal Corpse** (Metal Blade). April 12th marks the release of "The Bleeding", which was co-produced by the band and **Scott Burns**. While you are patiently waiting for the record to arrive, you can check the band out as they appear in the **Jim Carrey** flick - **Ace Ventura: Pet Detective** (which by the way was the highest grossing film after opening Friday, February 4th, with \$12 million in box office receipts). The band can be seen on the big screen when Ace Ventura enters a jam-packed club full of Cannibal fans while the band are performing "Hammer Smashed Face"... **Black Train Jack** (Roadrunner) release their sophomore LP on April 12th with the **Steven Haigler** produced LP, "You're Not Alone"... **Skrew** (Metal Blade) drop their second full length release, "Dusted", in your hands in May... **Vai** (Relativity) frontman **Devon Townsend's** band, **Noisescapes**, is gearing up to record their debut **Relativity Records** release... **Monster Magnet** (A&M) are currently writing material for their next record... **Dog Eat Dog** (Roadrunner) have entered a studio in Stamford, Connecticut with producer **Jason Corsaro** (the man responsible for engineering the

PROGRESSIVE

**The Charlatans, "Can't Get Out Of Bed," Beggars Banquet/Atlantic** Even though they had to suffer through the incarceration of keyboardist Rob Collins (he served half of an eight-month jail sentence for driving a robbery getaway car), the Charlatans have managed to put together a collection of songs that is the most cohesive of their career. The band's first record released under the Beggars/Atlantic arrangement, *Up To Our Hips* is proof positive of the musical growth the band has experienced over the past few years. Warm and bright throughout, the band exhibits a strong vitality in their new material. The lead track is a traditional pop tune (not-so-traditional for the band) that possesses all the elements and potential of an across the board success. As Tim Burgess says in NME's article on the band, "We've made a proper record, and we all know it. It might only happen once in your life, but this is it. We're a proper group now." Lest you had doubts.

**Elvis Costello, "13 Steps Lead Down," Warner Brothers** Back in full force Attractions-style, Elvis is back doing what made him famous fifteen years back — bare-bones, heartfelt pop with his sarcastic/romantic nature out front and bold. *Brutal Youth* ships on March 1st, and it marks a remarkable return to form for the artist who, for the past few years has satisfied his artistic whims (*The Juliet Letters*) and worked with polished session players (*Mighty Like A Rose*) at times lacking the fervor of earlier material. Throughout, Elvis has stayed true to himself. As he does here. This should not be considered a mere "throwback," as the material possesses a tremendous amount of vitality and freshness. Produced by Mitchell Froom, the record satisfies big time.

**Therapy?, "Nowhere," A&M** Huge. This track will way further the Irish trio's presence in the format and, undoubtedly, at retail as well. From *Troublegum*, the band's second full-length release, "Nowhere" possesses a biting, upbeat and stirring pop sound delivered ferociously with high levels of intensity. The hammering repetition of the guitar line drives the message home with resonant alacrity.

Clocking in at 2:20, the track's contained rage is explosive, to the point, and about as subtle as a jackhammer. Look for the band to be highly visible in '94 — with the release of the new Soundgarden imminent, A&M is sitting pretty.

**Angelfish, "Heartbreak To Hate," Radioactive** A highlight of last year's NMS (where they opened for Dig and the Ramones at the Radioactive showcase), this band had a successful run at college radio with last year's *Suffocate Me EP*. Now, with the release of their debut full-length (produced by Chris Franz and Tina Weymouth), this Scottish band is set to make its presence felt nationally. Vocalist Shirley Manson is at the center of the group's musical presentation, as her vocals possess a confidence and poise that comes out loud and clear on record. Conveniently released on Valentine's Day, expect good things from this track. Added early at **KBAC**, where **Armida** comments, "Sparkling vocals and crispy instrumentation make this track perfect for all dayparts."

**13 Engines, "Smoke And Ashes," Atlantic** The Toronto quartet has released four albums over the last six years to an ever-growing fanbase. Lauds from the press have followed them as well. 1992's *A Blur To Me Now* opened the door slightly for the band in the format — they were subsequently picked up by Atlantic, who is releasing *Perpetual Motion Machine* (it was already released in Canada). John Critchley's detached vocals ooze with sarcasm as the band sweetly prods along with fuzzy distortion and a crisp melody line. Upbeat and highly charged, this track works.

**House Of Large Sizes, "Sox On Spot," Red Decibel/Columbia** Another fine release under the Red Decibel/Columbia moniker. This Iowa trio is somewhat of a midwest institution, having developed a large following due to its extensive club schedule. With an emphasis on songs rather than on any type of "sound" per se, H.O.L.S. have developed their own identity and have done so intelligently and with the primary focus remaining on the art of the song. Hooks galore abound throughout this record, and this track has tremendous potential to react. Spin it and see for yourself.

**Horse, "Celebrate", (MCA, U.K.)** There's no horsing around on this record, it is certainly something to "Celebrate". A very smart alternative guitar-pop record that encompasses four fierce mixes to reach all corners of the music spectrum. Check out the "Fluke" mixes if you're looking for a more intense sound. The original "7" will fit 'Nice n Tidy' on your playlist.

**Thomas Dolby, "Hyperactive '94", (EMI, U.K.)** This import double-pack CD5 is great for you Dolby buffs. It features mixes of "Hyperactive", "Windpower", "She Blinded Me With Science" along with many other of his classics. If you are looking for something to replace that scratched up vinyl or need to get a hold of the Thomas Dolby classics you've been searching frantically for... this CD5 is for you mate!

**Messiah, "Thunderdome", (Warner Musik, U.K.)** Wow, a title that means what it says. A roaring track that will not only vibrate your speakers but may give your grandma the best reason she's had in years to lift up her skirt. The British import features seven different mixes (talk about selection) along with a track called "Destroyer" (Which they probably should have destroyed!!!). A U.S. release is imminent. This may have to be an evening record but it'll be a reaction record nonetheless.

**FKW, "Seize The Day", (PWL, France)** Another alternative dance record that is sure to cross the invisible boundaries of music. Tribal undertones are audible in this track but it's 1994 so don't let that scare you. There are three mixes that you can select from and if you really want to get daring check out the rather cool DMC remix (track 4) of "Never Gonna Give You Up" (Huh, wasn't that Rick Astley... please don't barf at me. I'm only the INFORMER!).

**Culture Beat, "Anything", (Sony, Germany)** Yes, another dance record that is sure to make more than your trousers. At over 135bpm this track is "Anything" but a sleeper. Perfect for night and mix shows. The import features "Mr. Vain" (Mr. Hardcore) remix. Give it a spin you may be surprised.

**One Dove, "Why Don't Take Me", Limited Edition Secret Knowledge/Underworld Remixes, (London, U.K.)** Looking for a kickin' night-time dance or mix show record... well this could be the shit! Respected producer/remixer Andrew Weatherall (Sabres Of Paradise) gets the smack on the back for being the genius of these remixes. Intense, fierce and limited edition means you better look for this 12" before it's gone (like the Berlin Wall).

# Throneberry

## How did you guys hook up with each other?

**Jason:** Before Throneberry, Paul and I played together in a band that was based in Oxford, Ohio that was called Liquid Hippos. We made an LP, just like one thousand copies. The interesting thing about that is that we were on Ultra Suede Records. We were Ultra Suede Records #002, and #001 was *Big Top Halloween*, the first Afghan Whigs record. So we've been buddies with them for a long time. Our first show was Valentine's Day, 1990. Really, for our first two, two and a half years, we kind of treaded water. We didn't make a whole lot of progress. We always felt like we were doing pretty good and writing pretty good songs, but we couldn't seem to get into the routine enough.

## Were you gigging a lot?

**Jason:** No, our drummer was also playing drums in another band, and we were kind of his second priority. More often than not, we'd maybe play once a month or something like that. We'd shoot for practicing once a week, but again that was like probably once every two weeks or three weeks. I guess it was about August of '92, when we got ourselves a van, and started paying for our practice space. We had been practicing at Ultra Suede studios, which is John Curley's studio in Cincinnati, which was great and plush, but we couldn't always count on practicing when we wanted to. If something was going on, we would get bumped because we weren't paying anything. We started having bills every month, so we had to have shows to pay the bills and make the van payments, etc. That's when we started taking it a little bit more seriously. August of '92 was when we recorded "Calliope" and "Green Goddess".

## When did you record the 7" of Touched?

**Jason:** We recorded "Touched" in January of '93. It was still a fairly new song, I think it was probably December when Greg (Dulli) heard us play it live, and was really excited. He had been talking about wanting to produce us for awhile, he even wanted to produce Liquid Hippo stuff. He

**Jason Arbenz**

said, "That's your song, that's the best thing that I've heard you do, I want to make it exactly like you guys played it live." He heard "Touched" and we decided that we were going to record it and let him be the producer on that song. We went in and did it, it came out great. It was comfortable working with him, he had some good input. What he offers is the ability to make decisions quickly and confidently, and just

his presence, he's a great guy. He's got a huge laugh, he's really fun. He makes you feel like you're important, and he inspires confidence. He was great to have around while we were recording that. John is a great guy, but not as strong a presence as Greg is. John has engineered everything that we've ever recorded there. He gets some production credit sometimes, but John is more of an engineer, and Greg is more an idea man. He's not as hands on, he's more conceptual. When we got "Touched" done, we stuck that with "Calliope" and "Green Goddess" and sent a three song tape to about 15 labels, twelve of which I think were just singles labels. Really quickly Alias got back to us, and we were really excited. Their A&R man, John Wells, said that he had been listening to it all day and he loved it and he wanted to come and see us right away. So the next time we played in Cincinnati, by this time, I guess they went out in March, and they came to see us in April. They spent a few days with us, kind of interviewing us, making sure that we don't have any real heavy commitments in other areas of our lives. They liked our show, we had fun with them. I think that they liked us as people. Monday, John Wells went back to L.A., and Monday night we got a contract offer.

## Wow... Talk about fast.

**Jason:** It's a Cinderella story, definitely.

**I was under the impression that you guys really gigged a lot, pretty much constantly in the Ohio area.**

**Jason:** No, that's not too accurate. We've played a lot of places around there, but there's no place that we go to every month or every two months and have a real good following. We're constantly trying to get into new places. There's people in Columbus, Lexington and Dayton and Toledo and Cleveland that know who we are, a little bit, but we don't have a real good thing going in any of those places.

**So is this the first kinda national tour?**

**Jason:** This is the first time we've played four shows in a row, for instance.

## How are you holding up?

**Jason:** It's been great, we're having a blast. Working one hour a day isn't that bad. I sent a postcard to the guys who I work with, I work in a picture framing store when I'm home. I said, "Working one hour a day is pretty cool, there's an awful lot of waiting around, but I feel like I've come into this pretty well prepared." They're going to know what I mean for sure.

## Was the gig at Brownie's your first gig at New York?

**Jason:** No, in New York we have actually cultivated a little following. We've been there four times, we were there for the NMS in July, and the CMJ thing in November, and then we played Wetlands on Jan. 1, and Brownie's on the 29th. That was the place that we had the most fun, because by now the word is out. Lots of industry people and lots of friends show up. It seems like a drawing place for people that we've known from Cincinnati. There is a lot of transplants and stuff. We do okay there.

## Let's talk a little bit about the record itself. Basically, you got the deal, and then you said, let's move on, let's do the record.

**Jason:** It was immediately following our return from NMS that we started working on it, I guess we began on the last couple of days in July. We did all of our recording over a period of about eight days. We went in there every day, ten hours a day, got as much done as we could. All the rhythm tracks probably took about 4 days, and then vocals and guitars, etc.

## So you were done writing before you entered the studio.

**Jason:** Sure. We've been a band for long enough that we indulgently toyed with the idea of putting out a really long triple album or double album just to get our stuff out there. Not that triple albums are better or anything, I just think the trend right now is towards long albums and I don't like that. 50 minutes of a band's is enough.

## I think that, especially for the band's brand of music, I think that it would maybe be overkill to do a three hour album.

**Jason:** Even if our songs are only 5 minutes long, sometimes they seem like they're 20. We have some long, involved songs that kind of refuse to get to the point before the 3-1/2 minute mark. You can only take so many of those in a row.

## So Greg was done with the Whigs' record by then?

**Jason:** Oh yeah. I'm trying to think when it was that they did there, but I know that it was finished. It was earlier in the summer, I think that maybe they did that in June or something. He actually had some time, he didn't really have any extra time beyond when we were finished, so what happened was, we got a few mixes a day over about a four day period until we had mixes of all 12 songs that we recorded. A few of them were kind of sub-par, they didn't really have an acceptable kind of sound, they weren't full enough or whatever. When the album was mixed, Greg and John did it independently of the four of us. We were banned from the studio, so we would basically check out the songs at night when they were done.

## That's weird.

**Jason:** Yeah, Greg's definitely a control kind of person and he didn't want the confrontation over little issues, he just wanted to get to the end and give it to us and say yes or no.

## Where you happy with the results?

**Jason:** I was not bummed out about any of them but there were a few that I thought, especially toward the end, the first few that they did I thought were great, but to the end, to be honest, seemed like they rushed them. There were little aspects that appear that there hadn't been a whole lot of thought put into it. Some of the ones from the last few days that they had mixed, we went in as a band with John Curley as the engineer and we remixed, with Paul our bass player pretty much calling the shots. He's the one out of the four of us that I think has the clearest idea of how the end product should come across.

## Have you played with the Whigs a lot?

**Jason:** Not really, we played a couple of shows with them, but for as long as we've known them, really not a lot. We played more together when we had our other band going, when it was Liquid Hippos. I guess at that point, we were on closer levels, but for the gap where Paul and I were just horsing around trying out different drummers and stuff, the Whigs made a bunch of progress and it kind of opened up a gap between us, and I think it would've been pretty unnatural for them to have taken us on the road anytime within our first year and a half or two year. Now, I kind of get the feeling that the really close association is maybe bumming Greg out a little bit. Every time you read about us, you see his name. It's cool, but we're certainly not trying to milk it.

## Honestly, I don't think that anyone perceives it as being that way, as you trying to milk something. Obviously there is going to be some connection, but I don't think that's the main objective. Does it bum you out at all?

**Jason:** Not really. I've heard some things though, like we got a review, the first review that I actually saw of our band, said that we had mastered an accomplished genre, but it was pointless, because it was that of the Afghan Whigs. That's not fair. When it reaches that point, it bums me out. I've also heard other things like, "... Similar to the Afghan Whigs, Throneberry has made a nice American rock album with vision or something like that..."

## Real vague.

**Jason:** Real lazy. Greg and I each miss a note here and there, and we both smoke, and there's raspiness in our voice, automatically the two bands are equal. That's not the same at all.

## Well, certain similarities exist, but the essence of the two bands is actually quite different.

**Jason:** Even if musically there are some similarities, we're both two guitars, bass and drums, we've been friends for a long time, sharing records with one another, being influenced by the same stuff, I think that goes a long way to explain any music similarities. Basically, I think that I'm a whole lot different kind of songwriter than Greg is.

## What kind of songwriter are you?

**Jason:** I don't know, his stuff seems more experimental. He knows less about playing the guitar than I do. I'm not a studied guitar player by any means. We both sit there and fool around the guitar by ourselves and wait for something odd to come out and build a song around it. I have a little larger vocabulary of things that I can do. I think that we have less stuff that I've never heard anything like before than the Whigs do. Lyrically, I don't think I'm as concerned with setting myself up as the dominant force. Greg gets in your face, and he's a protagonist. The song, my narrator, my main character, I think that maybe there is a little more range.

## Let's talk a little bit about the whole scene thing. What's it like up there?

**Jason:** There's good things and bad things. Among the good elements of Cincinnati is the fact that it's an inexpensive city to live in, people who are musicians can afford to live there. You can have an apartment, work in a movie theater or whatever, and play music at night, and rent a practice space for \$100 a month. Another thing that I think is good is the fact that there's not a lot of attention on the place. That's good and bad, but the good thing about is you're not put under the spotlight to early. It's a good place for you to get your act together before you take it out somewhere. It took us a long time because we couldn't get any momentum going. But you don't get discouraged easily, because it takes everybody a while to figure out what kind of band you think you are. Getting your act together before getting too much attention is good. Everybody says our record doesn't sound like a first album.

## Did you spend much time on the demos?

**Jason:** Well, we did two different demo tapes, one like a five song thing, and one a seven song thing. We didn't really distribute them widely. We sold some at shows, we gave some to friends, we listened to what people say about them. Cincinnati radio stations played them a little bit, but that's about it.

## Has 'OXY been real supportive of you?

**Jason:** I wouldn't say real supportive, but I heard that they added our record. They haven't had a chance to be real supportive, because we haven't had anything out. I think they played "Touched" mainly in the local area. But, WVXU has been really supportive, and they seem more willing to help out than 'OXY. 'OXY is a bigger, more commercial kind of station. VXU is a college station, and there alternative stuff is mid-night to five, because it's a lot less risky to play something.

## What other bands in particular are doing well in Cincinnati?

**Jason:** The Ass Ponies, I think first and foremost, are the band that make the record that I would most want to listen to. Their last record was on Safehouse, and I don't think there real fond of the people at Safehouse, and I think that they are kind of looking. I'm not sure if their deal was for more than one or what, but I know they're kind of in the market. They have hit a role, their new batch of songs is probably their best. They are just a great band, they have a hilarious sense of humor, a great sound, funny lyrics, short and catchy songs, no artifice whatsoever. Just a great band. Wolverin Brothers are probably the best live band in town. They did a Sub Pop single. Greg is a big Wolverin

Brothers supporter too. I know they've done a little bit of touring with the Whigs, and those guys and Ass Ponies have been at it longer than we have. It's probably just the Whigs and those two bands are the only bands in town that have been at it longer than we have.

## The thing that I really dig about the band is that you play on so many different elements. There's dissonance, yet, there's a real kinda candy sweetness present at the same time.

**Jason:** We like that. Either extreme doesn't work for us as well as combining the two. I think, we try to write the best songs possible, and the best songs are necessarily the ones that are just straight up catchy, 'cause those are disposable. In order to make something that bears repeated listening, there has to be an element of challenge to it. If you can make it a little bit ugly around the edges or something, that increases the life of a song, I think. We try not to get to repetitive, saying stuff over and over, we try not to have the lyrics too easy to understand. But, the opposite is true of all that stuff. We're not trying to make the most difficult music in the world. Nobody is a virtuoso in our band. We practice a lot, and we play about as good as we can. You can definitely hear on there when we make our mistakes.

## That's part of the beauty of it.

**Jason:** Especially with my singing. There's about two lines off the ground that I hit in a row that I can kind of relax to. The rest of the record I sit there wriggling around in my feet, looking for a cigarette or maybe go get another drink.

## Really quick — What's up with the name?

**Jason:** Throneberry. It was actually first thought of in the presence of Greg Dulli. He and I were in the locker room in a place working out and the band needed a name, we were practicing once a week for a couple of months, and one week I just told everyone, look, I'm tired of telling people that we have a band, but that we don't have a name, so next Wednesday we're going to have a name, and everybody has to think of some candidates. So, we were talking about how funny it would be to name the band after a baseball player and we thought of some mediocre baseball players, like Fillipe Lou, and then, suddenly, Throneberry, and we thought that Throneberry was kind of a nice word on it's own. So we did it very diplomatically and wrote down a bunch of candidates on a list of paper and voted and Throneberry won.

## Have Marv and his people asked for royalties yet?

**Jason:** We haven't had to give 'em any yet, but we haven't made any yet. I hope that he won't be too steamed.

The sounds of lunch/dinner dates being made and baggage getting zipped (though, if you're like me, you'll probably wait 'till an hour before your flight leaves) emanate throughout the industry as we all prepare to leave the respective horrors (ice/snow in the East, tremors in L.A.) for the splendor of San Francisco. Big news down in Phoenix — Sandusky Inc., owners of AOR KDKB have just bought AOR KUPD and news/talk KUKQ from G & C Broadcasting Inc.. Rumor has it that a rock/alternative will be born on KUPD's massive signal. Hmm... Wouldn't it be great if a certain **Jonathan L.** gets back on the airwaves as PD? We can only hope... **SBR Radio Company** has announced that it has picked up **WXRT** as a new client. No doubt the station will start to lean even further Triple A, as **Q101** has managed to claim a healthy claim on the low end, not to mention overall book-wise... **KDGE's** Edge Earth Concert will be held on Sunday, April 17. In the past, the bill has included Belly, Pearl Jam, Charlatans, Sugarcubes & Dada — every year, it's been a sellout. The event will be held for the third year in a row at the Coca-Cola Starplex in Dallas. The lineup is being put together as we speak, so if you're interested in having your band out there, give a call to either **Alex** or **Joel** (214) 580-9400. Proceeds will benefit Earth Promise and a handful of other environmentally aware charities... **WFXN** has named **Todd Wilkinson** Production Director. Todd did commercial and image production for **WCHZ**, where he also programmed and spun a four-hour dance show... **KROQ** on **Luscious Jackson**... **700 Miles** have entered Crystal Sound Studios in L.A. with Porno For Pyros member Matt Hyde to begin recording their second full-length LP. Hyde will be producing the album. Look for a June release... LOVE the **Luna/Spinanes** lithograph... Some tour dates: **The Juliana Hatfield Three**: 2/14 Chicago; 2/19 Los Angeles; 2/20 San Diego; 2/21 Phoenix; 2/22 Albuquerque. **Teenage Fanclub/Yo La Tengo**: 2/15 Boston; 2/16 NYC (Irving Plaza); 2/17 Washington DC; 2/18 Philly; 2/19 Chapel Hill; 2/20 Atlanta. Another band to watch out for — **April's Motel Room** on Immortal Records. Lotsa industry buzz about the band, whose brand of music is clean, laden with hooks and character. Guaranteed to make some noise when the record comes out in May... Heard the new **Smithereens**. No more attempts at CHR breakthrough via the candy store, thank you. This record is bare-bones Smithereens, and will be embraced by the format, no doubt. Way to go RCA... Listen to **Eat, Green Day**, and the new **Pavement**...

My mantra this week: "There's no place like home!" It's great to be back in Music City, working with the music I love, beside people that are so cool! Nashville isn't a hick town by any stretch. It's the perfect market to open up a new rock format, and the response we've gotten already at WRLG has topped every expectation of how our new baby would go over... people are THRILLED to have a station where the Tools and the Bad Religions and the Digs of the world. People call up and just GUSH... keeps the smile on my face during airshifts! So my music hours are Tues. & Thurs. 3-5 CST. My Myers-Briggs is INTJ (FYI) and my guilty pleasure is the Grateful Dead. What WRLG needs desperately is a groovy back catalog. Thanks in advance, look forward to saying hello, and I'll smell ya later!

**Smokin' Joe Kubek Band with Bnois King, Texas Cadillac, Bullseye Blues** What is a Texas Cadillac? Well, the ride is smooth and tight, like it just came off the A-team's assembly line. And it likes to be driven hard, fast, swingin' around curves and shufflin' through speed traps. Where will it take you? To the blues if the man behind the wheel is the big guy, Smokin' Joe Kubek, a native of Dallas' Oak Cliff neighborhood, which means he has just enough white trash blood to play the blues and be believable. And play them he does, easy, sleazy, at both 100 miles an hour and at a turtle's pace. Sittin' shotgun is Bnois King, singer and rhythm guitarist for the Kubek group. His voice has that soul drawl that makes the blues sweet, and he's got the power to put across heavy songs like Muddy Waters' "Still A Fool." Most of the tunes the Kubek group covers on "Texas Cadillac" are cherries, like Willie Dixon's "Mellow Down Easy," Jimmy Reed's "Where Can You Be" (which features Kubek playin' some heavy slide, as he also does on "Little Red Rooster") and Little Walter's "Mean Old World." King wrote a couple of tunes for the set, like the sensuous and funny "TV Light." The band plays each song with passion, sometimes raw, always real. The title cut, penned by producer Ron Levy, is as you would expect, a drivin' little number, just perfect for bringing those rockers painlessly into the blues fold. And blues fans? They've loved Kubek since they first heard the genuine, made-in-America player.

**R.L. Burnside, Too Bad Jim, Fat Possum** Out of the life and drum traditions of the Mississippi hills came guitarist Fred McDowell, (one of Bonnie Raitt's heroes). In turn McDowell taught R.L. Burnside how to play the percussive, droning style that pervades the intense "Too Bad Jim." Like a belly dancer, the music grinds one or two chords over and over, shifting rhythms and riffs without rhyme or reason, but all the while mesmerizing the listener with its sameness. Some of the songs in this 10-tune set come from the Mississippi hills, like "Shake 'Em On Down" and "Goin' Down South," others are familiar blues lyrics given the Burnside treatment, such as "Peaches" and "When My First Wife Left Me." Assisting Burnside in the set are drummer Calvin Jackson, whose drum kits sounds like it came from the life and drums days of '50 years ago, guitarist Kenny Brown and bass player Dwayne Burnside. The session was produced by Robert Palmer, author of "Deep Blues" and former New York Times music writer.

## SMOKIN' JOE KUBEK BAND featuring BNOIS KING *Texas Cadillac*

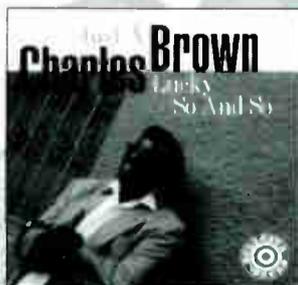

"I love 'em! Smokin' Joe Kubek and Bnois King are the hottest duo in blues today. Their new one, *Texas Cadillac* burns hotter than a Texas wildfire!" — Chuck Bloomingburg, *Lightning Blues* /WRLT

## CHARLES BROWN *Just A Lucky So and So*

"Charles Brown has been drifting around for many years, but at the age of 71, one listen will confirm that he is at the top of his career." — Gary Walker, WBGO

## BARBARA LYNN *So Good*

Barbara Lynn, one of the world's only left-handed female guitar players, is primarily known outside her native Texas for her sixties hit "If You Lose Me, You'll Lose A Good Thing." She is a major R&B talent, too long neglected, now ripe for rediscovery and ready to re-establish her reputation as a soulful and sensitive vocalist in the Tyrone Davis style and, ever more uniquely, as a guitar stylist of note.

Criminal charges have been filed against **Tommy Lee**, the drummer for **Motley Crue**, for allegedly bringing a .40-caliber semi-automatic pistol past security at the Los Angeles International Airport last November. Lee has been charged with one count of possession of a loaded firearm and one count of possession of a concealed firearm. Lee is to be arraigned in West Los Angeles Municipal Court on February 22.

**The Orb** have delayed release of their new single in Britain until April because of a long-running argument with their former record label (Big Life). After saying they wouldn't interfere with the band's future, their former label has re-released two old tracks "Little Fluffy Clouds" and "Perpetual Dawn" — in the last few months. The band says that's taken away attention from their new material. The Orb's former label says it's surprised by the complaints, because all of the releases were done with full knowledge of the duo of **Alex Paterson** and **Christian Weston**. Release of the Orb's next studio album is now set for May.

The **Stone Roses'** follow-up to their debut 1989 LP may not come out until this fall. The LP had been set for release in March and a label spokesman says the release date may change again.

A "Bethel '94" concert is being planned for this summer in upstate New York, to mark the 25th anniversary of the Woodstock concert. Promoter Sid Bernstein says the event will take place August 13 and 14 on the same farm in Bethel, New York, where the original three-day event took place. Bernstein says he's offered the three surviving **Beatles** \$25 million to play at the event, either together or individually. He's also planning to invite some of the acts that played at the original Woodstock festival. Bernstein says he's been contacted by several artists, including a member of the **Rolling Stones**, about performing. A town ordinance will limit attendance at this year's show to about 80,000 people. Tickets for the event will be \$150, which may explain why hundreds of people have already volunteered to help with crowd control. People attending Bethel '94 will also be asked to bring clothing and food items for the poor.

A summons has been issued for **Eddie Vedder** alleging he obstructed government operations by chasing security guards from the mosh pit during a **Pearl Jam** concert at the University of Colorado in November. Police say the guards were trying to remove a "disruptive individual" from the slam-dance area when Vedder stopped singing and told the guards to stop. Pearl Jam subsequently canceled the last of three sold-out concerts scheduled at the university in Boulder. Vedder could be fined \$750 and sentenced to six months in jail.

A gun dealer in Tulsa, Oklahoma, is firing a shot against programs to trade guns for concert tickets. He's offering a 10 percent gun discount for anyone who brings in a CD or cassette by country singer **Reba McEntire**. McEntire offered tickets to her February 19 concert in Tulsa in exchange for guns, and so far 49 guns have been received. "We don't have a gun problem," says Buck Dickinson, owner of Tulsa Gun & Pawn. "We have a criminal problem." Only one person has taken Dickinson up on his offer. He turned away someone who wanted to trade in his **Twisted Sister** albums. Dickinson says he'll throw away the McEntire recordings he gets. "We wouldn't let this stuff get back out on the streets," he says.

**Charlie Musselwhite**, has just released a new album called "In My Time." The LP was released on Musselwhite's 50th birthday, just as he was getting ready to tour Australia. "I've always said the first 100 years are the hardest," he says. Musselwhite says his biggest influence as a harmonica player was **Big Walter Horton**. "He was probably the first person who really played the instrument in a precise way instead of just doing train imitations," Musselwhite says. "He could play melodies and lines. He could play all the swing music." Musselwhite's new album sees him playing guitar on acoustic blues tracks, '50s-style swing blues and contemporary blues. Musselwhite recorded his first album, "Stand Back!", with his own band, in 1966.

**Marcella Detroit**, formerly of **Shakespear's Sister**, is about to release a solo album. Detroit says she never heard from her partner, **Siobhan Fahey**, when Shakespear's Sister broke up after the 1992 success of "Stay." "Siobhan and I had always talked about me doing my own record. That was one thing that was always in the cards," Detroit says. "We split permanently. I'm doing my own thing. She announced that Shakespear's Sister had split at the Ivor Novello Awards. I didn't know about it, though I had an inkling. That's when I found out. It's just kind of like when there's a marriage of two people that are so different. Sometimes, it can't end but any other way. It works for the same reasons that it doesn't work, for a while, then it doesn't work any more." Detroit recently played a low-key gig in southern England in advance of a world tour in support of the LP. "I Believe" is the first single out in Britain in advance of the LP.

**Jawbox** say having a major record label (Atlantic Records) release their new album "For Your Own Special Sweetheart" didn't change things too much for them. "There are a lot of bands that are babies and expect to be babied," says guitarist and singer **Bill Barbot**. "They want the label to produce them and manage them, and they just plug in their guitars. We're not like that." Barbot says the band "kind of outgrew" its previous indie label. The new album, recorded in Baltimore, was produced by the band with Ted Niceley. Three non-album b-sides are included on the CD-5 for "Savory." Jawbox has just begun a headlining national tour.

**Alice in Chains'** "Jar Of Flies" is the first EP to ever top the U.S. album chart. The EP, which runs just over 30 minutes, debuted at number one with sales of over 141,000 copies first week out.

Capitol Records is releasing a limited-edition vinyl single of the **Beatles'** first U.S. release, "I Want To Hold Your Hand," later this month.

The company releasing the film "In The Name Of The Father" is a bit embarrassed. The movie, set in the late 1970s, includes scenes with a poster for the album "The Jimi Hendrix Collection," which was only released last year.

**Richard Marx** says his new "Paid Vacation" album reflects his growth as a performer and he believes the LP is his best to date. "The cliché police were out in full force," he says. "The lyrics on this album really reflect more of me, what I'm going through and thinking about. I never really cared about anything before my kids. Not that I want to necessarily include all that in my songs, because I still want to be someone people can listen to for enjoyment. I don't care if I'm saying something no one else has ever said as long as I'm entertaining somebody."

**John Cale** is working on a "song-cycle" album with singer-song-writer **Bob Neuwirth**.

Two blues musicians have died in Chicago recently. **Buddy Scott** has died at 59 from cancer. Scott learned to play blues guitar from his mother, Ida Mae Perkins, who played guitar with **B.B. King**. Scott regularly performed at the Chicago Blues Festival. Delta blues singer **Johnny Littlejohn** died at age 62 of renal failure. Littlejohn, born John Funchess in Lake, Mississippi, played alongside **Muddy Waters** and **Howlin' Wolf** after moving to Detroit and Chicago.

**Whitney Houston** won in seven of the eight categories for which she was nominated at the American Music Awards, where she also received a special Award of Merit. **Aerosmith** won awards for favorite heavy-metal/hard-rock band and favorite pop-rock band, while the **Stone Temple Pilots** were named best new pop-rock artist and best new heavy-metal/hard-rock artist. **Rod Stewart** was given the International Artist Award at the ceremonies in Los Angeles. **Eric Clapton** was named best male pop-rock artist.

**Nirvana** producer Butch Vig has drastically remixed **Depeche Mode's** "In Your Room" for a new single.

The **Rankin Family**, a five-member group from Cape Breton, have been nominated in four categories for Canada's Juno music awards to be given out in Toronto on March 20. The group's single "Fare Thee Well Love" has sold more than 300,000 copies in Canada. Singers **Celine Dion** and **Roch Voisine** were both nominated in three categories. A total of over 150 entertainers, producers and other industry people have been nominated in 37 categories, though **Bryan Adams** and **David Foster** were shut out this year. Albums from **Meat Loaf**, the **Tragically Hip**, **Aerosmith**, **Bon Jovi** and the soundtrack to "The Bodyguard" are nominated for best-selling album, foreign or domestic. Records by **Snow**, **Leonard Cohen**, **Neil Young**, **Alannah Myles** and **Voisine** are nominated as album of the year. The **Tragically Hip**, the **Rankin Family**, **Neil Young**, **Michelle Wright** and **Celine Dion** have been nominated in the single of the year category. The **Barenaked Ladies**, the **Rankin Family**, country singer **Michelle Wright**, the **Tragically Hip**, and **Celine Dion** are nominated as Canadian entertainer of the year. **Blue Rodeo**, the **Jeff Healey Band**, **Moxy Fruvous**, **Rush** and the **Rankin Family** are nominated as group of the year. **Celine Dion**, **Rita MacNeil**, **Sarah McLachlan**, **Anne Murray** and **Alannah Myles** are nominated as female vocalist of the year. **Stef Carse**, **Daniel Lanois**, **John McDermott**, **Roch Voisine** and **Snow** are nominees in the male vocalist of the year category. **Rush**, the **Doughboys**, **I Mother Earth**, **Wild 'T' & The Spirit** and the **Tea Party** have been nominated for best hard rock album. **Junkhouse**, the **Odds**, **Sloan**, the **Tea Party** and the **Waltons** are nominees for best new group. **Jann Arden**, **Meryn Cadell**, **Charlie Major**, **Mario Pelchat** and **Jim Witter** are nominees for best new solo artist. **Jann Arden**; **Leonard Cohen**; **Jim Cuddy** and **Greg Keelor** of **Blue Rodeo**; **Sarah McLachlan** and **Jane Siberry** are nominees for songwriter of the year. At the awards next month, **Rush** is to receive a Hall of Fame Award.

**David Lee Roth's** upcoming album, "Your Filthy Little Mouth," features a duet with country singer **Travis Tritt** on the song "Cheatin' Heart Cafe." Roth also covers **Willie Nelson's** "Night Life" on the LP due out in late March.

**Jamiroquai, M People, the Stereo MCs, Suede** and **Take That** are the nominees in the Best British Group category of the Brit Awards to be given out in London on February 14. While in previous years the awards have been determined solely by record company voting, this year, record promoters and the Black Music Industry Association are also participating. Nominees for Best British Album include the Stereo MCs' "Connected," Jamiroquai's "Emergency On Planet Earth," **Dina Carroll's** "So Close," **Suede's** "Suede" and **Sting's** "Ten Summoner's Tales." For Best British Single the nominees are **Apache Indian's** "Boom Shak-A-Lak," Dina Carroll's "So Close," **Gabrielle's** "Dreams," M People's "Moving On Up," **New Order's** "Regret," **Radiohead's** "Creep," **Shaggy's** "Oh Carolina," Suede's "Animal Nitrate," Take That's "Pray" and **Paul Weller's** "Wild Wood." Apache Indian, Jamiroquai, M People, the Stereo MCs and the **Shamen** are the nominees for Best British Dance Act. **PJ Harvey, Bjork, Rod Stewart** and **Billy Joel** are among nominees in other categories. In an attempt to pre-empt the Brit Awards, the music newspaper *New Musical Express* last month held its own awards, "a celebration of the best new talents in British music." Rap group **Credit To The Nation** won the Brat award for Best New Act, while the **Boo Radleys** won for Best Album.

The guitars and orchestration on **Tori Amos' new album, "Under The Pink,"** were added after Amos recorded the basic tracks for each song. "My piano and vocal performances were done first on everything," Amos says. "Then, everything else started to come in, and the songs were pretty clear about what they'd allow and what they wouldn't."

The four original members of the **Smithereens** release a new album in late April (on RCA Records) called "A Date With The Smithereens." The LP includes 12 songs recorded in 12 days in New York City. Don Dixon, who worked on the band's first two albums, produced this new LP. **Lou Reed** plays lead guitar on two tracks on the LP — "Point Of No Return" and "Long Way Back Again."

The success of the "Common Thread" **Eagles** tribute album has increased sales of the band's catalogue. Sales of older Eagles albums have risen over 20 percent, and two Eagles albums are among the top 15 in catalogue album sales. The band's *GRreatest Hits* album has now sold over 14 million copies.

**Ben Vaughn** has released a new solo album called "Mono U.S.A.," which includes 18 surf, rockabilly, R&B and country songs recorded, in mono, at his home studio in New Jersey.

**Julio Iglesias** has covered **Patsy Cline's** "Crazy" as the title track to his new album, which also includes a duet with **Dolly Parton** called "When You Tell Me That You Love Me." The ten-song album will be out in April.

**Nils Lofgren** has released a new album called "Everybreath" (on Stampede Records). It includes a duet with **Bonnie Sheridan** called "Tender Love."

**Debbie Gibson**, currently starring in the London stage production of "Grease," will do a goodwill tour of Vietnam later this year. Now that trade links have reopened between the two countries, the Vietnamese are trying to import music from the United States. Gibson is said to have been chosen because the Vietnamese approve of her wholesome image. It's believed a series of **Madonna** concerts were suggested but rejected because of her sexy persona.

Jewish Lesbian folk singer **Phranc** has been playing concerts dressed up as **Neil Diamond**. "The best part of it is that I don't have to be Phranc," she says. "I come out and do 30 minutes of Phranc songs and joke around with the audience. Then I come back as Neil. My costume is as complete as possible. I've even got the chest hair." Phranc plans to have a new EP out in June.

Boston trio **G. Love & Special Sauce** will be the first act to release an album on the reactivated OKeh record label (through Epic Records). OKeh was founded in 1916 and released the first blues album, **Mamie Smith's** "Crazy Blues." The label went on to broaden its spectrum to include R&B and jazz music. Soul-blues singer-songwriter **Keb' Mo'** will be releasing an album on the label in the spring as will **Little Axe**, a studio collaboration involving **Doug Wimbish** of **Living Colour** and producer-remixer **Adrian Sherwood**.

**ZZ Top's** "Antenna" debuted on the U.S. album chart at number 14, the highest debut of the band's career.

American Recordings is donating the total profits it earned in Norway to the Sea Shepherd Conservation Society because of that nation's resumption of whaling earlier this year. About \$3,000 will be given to the organization which seeks to block whalers.

Original **Jellyfish** guitarist **Jason Faulkner** has released an album with his new band called the **Grays**. The LP's entitled "Ro Sham Bo."

New recordings by **World Party** and the **Posies** are featured on the soundtrack to the film "Reality Bites." The soundtrack album also includes a new recording of **Squeeze's** "Tempted" and the **Dinosaur Jr.** track "Turnip Farm," which was previously unavailable in the U.S. World Party's **Karl Wallinger** composed the music score for the movie, which stars Winona Ryder, Ethan Hawke and Ben Stiller.

Seattle band **Flop** chose their name as a joke. "There was no thought put into the name, really," says guitarist **Bill Campbell**. "We needed to come up with a name pretty much on the spot, and another friend just gave us that name. It just stuck. We're forced to live with it now." The band has occasionally lived up to its name. "We got booked into a club at Fayetteville, Arkansas," Campbell says. "It was penny-pitcher night or something. So the bar was full and the crowd was expecting a cover band that was going to play a four-hour set. And we're an original band that plays 45 minutes. We got to the club and realized that they hadn't read the contract. When we explained what we were about, and they said, 'That's fine. Just try to stretch it out as long as possible. That's fine.' Then we played, and they basically told us to get out of their place and that we stank. That's probably the worst thing that ever happened to us."

Opera singer **Placido Domingo** has begun teaching as an adjunct professor at the University of California at Los Angeles. He'll teach master classes in singing and conducting.

A judge in Denver has ruled that a woman will have to provide an original copy of her song if she wishes to claim **Michael Jackson** used it on his "Dangerous" album. Crystal Cartier says she doesn't have any copies of the demo tapes she claims she sent to record companies in 1989 of a song called "Dangerous" she says she wrote in 1985. Judge Edward Nottingham declined to let Cartier use a "re-created" version of the song in her \$40 million lawsuit.

A man has been sentenced to 100 days in the Los Angeles County jail for spraying fluorescent orange paint on **Michael Jackson's** star on the Hollywood Walk of Fame. Jose Gomez says he defaced Jackson's star because he hates "child molesters." "I sprayed his star because I hate child molesters," he told investigators. "I hate Michael Jackson because he molests little kids." One of Jackson's fans removed the paint shortly after the incident.

A Superior Court judge has reduced the sentence given to **Rick James'** girlfriend to two years in prison instead of four, following allegations of prosecutorial misconduct. Judge Michael Hoff reduced her sentence after James was given a reduced sentence because of allegations that an investigator provided heroin to a witness against James.

**Toni Braxton** and **Janet Jackson** have both been nominated in four categories for the eighth annual Soul Train Music Awards, to be given out in Los Angeles on March 15. **Tony! Toni! Tone!** were nominated in three categories.

Taping of "The Jackson Family Honors" special in Las Vegas has been delayed until February 19. **Michael Jackson** will apparently participate, but **LaToya Jackson** will not. "These past months have been a time of great strength for our family, as together we faced Michael's situation and the recent earthquake in Los Angeles, our home city," says **Jermaine Jackson**, who is serving as executive producer of the performance, the first time the family has performed on stage together in 20 years. The London Sunday Mirror newspaper reports that Michael Jackson plans to sue his sister, LaToya, to stop her from talking about his sex life. The newspaper says Jackson will file a \$446 million defamation character lawsuit against LaToya in the next few weeks. The report also says that, at the encouragement of his mother Katherine, he plans to leak stories about LaToya's plastic surgery and sex life.

**Ruben Blades** is losing his lead in the presidential race in the latest survey of Mexican voters' preferences. Ernesto Perez Balladares has pulled ahead of Blades in the most recent poll, by a margin of 32 percent to 19 percent. The election takes place on May 8.

Our London correspondent **JONATHAN WRIGHT** is a freelance journalist and broadcaster.

Millward Brown, the research company who last week took over from Gallup as compilers of the official British charts, have changed the way chart information is collated. The company have reduced the number of independent shops reporting sales and this looks likely to, in turn, hit the independent sector. Speaking to the *New Musical Express*, Creation boss **Alan McGee** commented: "As a rule, we sell more through specialist shops than the high street chain stores. By making the chart more reflective of sales at the big chains, the charts won't give a true indication of our sales." **The Boo Radleys**' Barney (...And Me)' single could be an early casualty of the new system. With advance orders of 14,000 copies, it appeared ready to chart in a high position. However, it now seems unlikely to enter the top 20. **Catherine Pusey** of CIN, who commissioned Millward Brown, has defended the new system, saying the sales at 250 independent shops were taken into account and that more would be added in the future. However, Gallup's sample included 500 independent retailers.

**Manic Street Preachers** have announced a show at London Clapham Grand on March 2 to aid the charity Imperial Cancer Research Fund. The show is a tribute to **Philip Hall**, co-manager and PR to the band, who died of cancer shortly before Christmas. **Suede** guitarist **Bernard Butler**, who also supports the charity following the death of his father from cancer last fall, will make a special appearance at the show. (When Suede won the £20,000 Mercury Music Prize, they donated the money to cancer charities). Other special guests will be announced in the near future.

**U2** have begun a legal action against the Performing Rights Society. U2 are attempting to gain the right to administer their own live performance royalties and claim the current arrangement with PRS is a restraint of trade. Further, the band want PRS to admit their membership rules are void and pay damages and interest, estimated at around £1 million. The case, if it eventually comes to court, could have profound effects on the industry. Currently, all artists have to take their live royalties via PRS. U2, though, claim PRS distribute money "excessively slowly" and want to be free to negotiate direct with promoters.

The BBC Radio One network's dropped by 2.2 million in 1993. 1.5 million stopped listening to the station in the last three months of the year. The figures follow a radical shake-up at the station by new controller **Matthew Bannister**, who ousted many long-established DJs. However, Bannister refuses to be downhearted or change direction. One reason for the changes was to redefine Radio One's role. That station has moved far more towards a public service broadcasting ethos, with many specialist shows picking up good ratings. It is also worth noting that, in the face of strong competition from the private sector at both a local and national level, the station retained 14.3 million listeners in 1993.

**Nirvana**, who sold out their British tour on the same day as tickets went on sale (February 2) could be amongst the bands contributing to a forthcoming **David Bowie** tribute album. Bowie has been approaching various artists personally and Nirvana have been including a version of "The Man Who Sold The World" in recent live sets.

The National Union Of Students is to hold a demonstration against central government plans to withdraw funding from the university live circuit. The National Union Of Students are asking students from across the country to make appointments to see their local MOs at Parliament on Wednesday February 16. This will bypass laws which can allow authorities to ban the demonstration as everyone gathering will be there to see an MP personally. The importance of the university circuit to young British bands was underlined by *Observer* journalist **Neil Spencer** who recently pointed out: "The circuit is a training ground for emerging talent, the half-way point between pub gigs and stadiums and since the late 60s most major British acts to emerge - **Led Zeppelin, Genesis, U2, The Smiths** and **Suede** - have taken this route." The government's legislation, which would restrict student unions to funding "core" activities such as sports and catering, have come under heavy criticism from many quarters. Many claim they are a politically attempt to weaken the influence of often popular local unions. Many also agree with the Conservative **Lord Beloff** who, not towing the party line, speculated the legislation was an attempt to get revenge by Conservatives who failed to get elected to Student Union office.

**UB40** saxophone player **Brian Travers** has been in a Dublin hospital. Travers was admitted on February 6 and found to be suffering from pneumonia. The previous evening he had suffered from breathing difficulties when performing at Belfast Kings Hall.

**Blur** will return with a new album in May. Meanwhile, they are amongst the first bands to be finalizing a show at the London Shepherds Bush Empire. The theatre, built in 1902, is re-opening as a live venue after several years as a BBC television studio.

The Glastonbury Festival, which takes places in June in Somerset, south-west England, may be televised for the first time this year. The Channel 4 network are currently in negotiation with Glastonbury organizers and are said to be considering dropping segments screened live from the festival into their programming for the weekend of the event. Elsewhere, as the planning for the summer festival season gets underway, it has been reported **The Levellers** are negotiating over a huge outdoor show at Cardiff Castle in Wales.

**The Pogues** will perform a show to benefit the ANC at London Hackney Empire on February 28. The band aim to raise around \$7,500 towards the ANC's forthcoming South African election campaign.

**Nick Cave And The Bad Seeds** will return with a new single on March 21. "Do You Love Me?" (Mute) will be followed by an album in April. The new project is said to be a concept album written around the subject of love.

## Larry Mac, KZRX, Phoenix

Saw **Candlebox** open up for **Rush** the other night in a sold out show at the coliseum here in Phoenix, watch this band, they will be huge. We're already lookin' at the next track "Far Behind" and so far in test spins, the reaction has been real positive. Check out **Clutch's** "El Jefe Speaks" for a great night song that'll light up your request line. I knew **Mutha's Day Out** would happen. "Locked" is kickin' into high gear. And, we're already thinkin' of checkin' out the song "Green", it'll make the hair on the back of your neck rise. Speaking of necks, **Pronk's** latest is blowing out of the stores here in Phoenix and in some stores is outselling **ZZ Top**. My favorites on the CD are "Snap Your Fingers..." and "Test". **Alice In Chains**, **Danzig**, **Type O Negative**, **White Zombie**, **Tool** still all kicking major f\*&king ass here in the desert. **Muzza Chunka's** "Float" is not a song you should ignore, gettin great response, and we are looking forward to seeing them in the valley of the sun real soon! Until next time, out.

## Mimi Griswold, WKLL, Utica

New on-air hours for me this week...which means new MUSIC CALL HOURS effective immediately: Thursdays and Fridays only 11AM-1PM only. Adds are still ready after 4pm on Tuesdays. **Danzig** continues to hang onto the number one slot after 20 weeks, **Alice In Chains** and **Kings X** are my favorite picks in the hard rock arena...at least until that **Soundgarden** arrives. Across the board, **John Hiatt's** "Buffalo River Home" could be that feel good pop tune that takes us all into summer without looking back and to get us through the summer the latest from **NRBQ**...featuring a quirky "Designated Driver"...is as refreshing as all the Seattle sounds put together...but then again, I'd take a rainy day of Seattle over a good day of sunshine in Liverpool, England any day.

## Ed Trunk, WDHA, Dover

Thank God for the new **Blue Murder** track! It was so great to hear some great, straight ahead, kick ass rock again. My audience has been asking about a new release from this band for years, and all indications show that they are very pleased with "We All Fall Down". I can't wait for the full CD. Other releases doing well on The Hard Show include the new **King's X** (thanks to drummer **Jerry Gaskill** for the phoner), **Fight's** "Immortal Sin" and the new **DIO**. I have also had a great response to some of the more rockin' tracks from the new **Mr. Big** and **Saigon Kick** releases. There's already a ton of requests in anticipation of the new **Motley Crue**. Thanks also to recent Hard Show guests, including **Eric Singer** from **KISS**, **Joe Lynn Turner**, **King's X** and **Rachel Bolan** from **Skid Row**. Once again, please remember, music calls Wednesday from 12 noon to 2 pm Eastern only. The phone number is 201-334-3465. Talk to you soon.

## Crankin' Craig Dori, Z-ROCK, Dallas

We want to welcome our first affiliate of '94, WKBH 105.5 in beautiful La Crosse, WI! Hey, I grew up on "old style", memories. Have you (yea, you) heard **Varga??** It smokes! As you read this we'll be starting into our next dog tag promotion. We'll be sending someone, and a good bud (friend) off to London to check out **Paw!** Music calls are from 2pm-5pm Monday & Tuesday. More later. Z-Rock - a better way to paint.

## Carter Alan, WBCN, Boston

**Concrete Blonde's** "Mexican Moon" continues to build in New England as a hit single that has won

solely on the strength of its haunting, acoustic based nature and smooth, silky female vocals. After nine weeks, the track is our top requested. Originally an album selection for WBCN, it's good to see Capitol "work" this as the latest single. Also performing strongly, although a bit later than around the rest of the country, is **Rush's** "Cold Fire". After a period of slackened interest through the late Eighties, the last two **Rush** albums (**Roll The Bones** and **Counterparts**) have re-ignited album and ticket sales for this veteran group here in New England. Two upcoming arena sell-outs proves the point. **The Stone Free - A Tribute To Jimi Hendrix** compilation has given WBCN several hits (Clapton, Beck & Spin Docs), now add **Belly** "Are You Experienced" to that list. The hard rock blast of the performance and familiarity of the song firmly pulls this band out of the alternative closet. When it comes to covers, I should also mention the excellent **Ramones** album **Acid Eaters**. These guys have been around long enough to be called classic rockers! The songs are proven winners - **The Who's** "Substitute", the **Stones'** "Out Of Time" and an **Eric Burdon** delight "When I Was Young". The Punk meets the Godfather? You bet, and it's definitely spicing up the airwaves.

## TJ Bryan, WDHA, Dover

Enough snow already! As I write this New Jersey is getting dumped on with another foot of snow. Old Man Winter can bite me! On to happier things, remember the first time you heard the name **10,000 Maniacs**? The music was nothing like you would expect from a band with that name. Same goes for **Fury In The Slaughterhouse**. "Every Generation Got It's Own Disease" is a tremendous song. The album is surprisingly strong, also. Get past the name, and get it on the air. The Furies are the best thing to come out of Germany since Nena! I was listening to **Candlebox** at home the other day and "Far Behind" just jumped out at me. What a tremendous tune. Cathy Faulkner was right on the money with this one! The new **Elvis Costello** is sheer brilliance! **Sheryl Crow** gets a bump this week as she pulls down number one phones. I'm looking forward to hearing the new **Pink Floyd**. If it gave Jim Del Balzo goose bumps, it must be good. By the way, this may just be a rumor, but I hear the corporate sponsor for the Floyd tour is going to be Depends. As always, it's been a business doing pleasure with you.

## J.D., WONE, Akron

The-Pick-Hit-To-Click-Of-The-Week... YES, "The Calling".

## Larry "Dr. Dub" Wallach, W.A.R.?, 212-964-3703

Hey AAA, add **The Samples** "Carry On" now. It is track #8 from **The Last Drag**, and our official add date is Valentine's Day. Have a little heart. Duh. **The Samples** are selling out shows all over the nation. Seeing is believing, so come out and see the band if you haven't already. **The Samples** are getting closer to gold with **The Last Drag**. **Still Water** CD-5 in production and coming to AOR in a few weeks. Word for the week - Karma - or Dingleberry - or...

## Cathy Faulkner, KISW, Seattle

**Candlebox** "Far Behind" is on it's way to being the biggest song yet on their self titled debut. Keep an eye out for that live EP, their live version of "Far Behind" is To Die For! Should be out in a couple of months. **Tool** "Prison Sex" and **Alice In Chains** "No Excuses" are totally beyond phenomenal! Great phones, great reaction.

## Mike Luoma, WIZN, Burlington

This'll be short..I'm writing this Monday night (2/7) and a couple of my friends from **Phish** are jamming at Neclars: I've got flashbacks to attend to! I've been hearing good things about their upcoming album; I can't wait to actually hear it! The only add this week goes to **Raging Slab**, with "What Have You Done". Corm's letting me run with this one; he felt the project might be over, but he's willing to give the Slab some benefit of the doubt, since he knows I believe in them. 'Course, it doesn't hurt that the song kicks ass! "What Have You Done" was on the six pack of slab we got almost a year ago. It blew many of us away then, it's about time the track is getting the push it deserves. This is the heavyweight contender on **Dynamite Monster Boogie Concert!** The tune gurgles, grunts and slides along, with nice changes that grab your gut and flop you down like a roller coaster. Gotta like it! Plus, having seen the **Slab** bring down "What Have You Done" really captures the band's live verve and energy. Don't count out the **Dynamite Monster Boogie Concert** just yet: great songs take time, like good wine. So sip some **Slab**, slip it in to your CD player and crank it up! Speaking of cranking, every once and a while our metal dude, Mike Wilhide, comes through. This time he's passed on to us "Mainstream Types" the new album fro the sons of Frank: Z-Shampoo Horn, featuring **Ahmet Zappa** on vocals and **Dweezil** on guitar. We've put "loser" in our jock choice category to give it some night spins. It's a cool tune. We'll see what happens.

## Ginger Havlot, KBCO, Boulder

Nothing like donuts to encourage near perfect attendance at a KBCO meeting. And the result of all those musically-opinionated ears: a lot of new adds. From **Reality Bites** Soundtrack we put in two tracks that probably will garner phone response, but for different reasons. **World Party's** contribution has a nice groove to it but I'd like to have seen **Bowie** credited on the disc for his obvious influence of Wallsinger. And **Big Mountain's** rendition of "Baby, I Love Your Way" should turn some heads. You just can't get away for those darn 70's. My radio pick song of the wee is **Died Pretty's** "Harness Up". One listen and I found myself humming it in the halls. **NRBQ's** "A Little Bit Of Bad" may be their biggest song to date and I think a lot of stations will be playing this band for the first time. If I didn't know better, I'd say it was a tune written by **John Hiatt**. Sure sounds like his work. **Alice In Chains** surprised me with **Jar of Flies**. We've never played them before but this is too good to pass up so we took off the jar lid and "No Excuses" flies first. Also new this week: **Leo Kottke** "Peg Leg". **Greenberry Woods** "Trampoline" (check out "Oh Christine" too). **Bjork** "Big Time Sensuality" and **The Young Dubliners**. Top phones: **Philadelphia** soundtrack, **Sheryl Crow** (she's become kind of like the Energizer bunny...keeps going, and going). **Beck**, **Beautiful People**, and **Sarah McLachlan**.

## Tommy Olcott, KOZR, Dallas

News flash! Starting this week Feb. 14, **Tracy Barnes** will be taking all of the music calls for the Dalls Z-Rock local programming. Tuesdays will be the day to reach him. Many of you already know Tracy...He's been in the business for quite a while and there's no doubt Tracy Barnes knows his rock-n-metal. Call him up and harass him. Many thanks to Linnea Nan and **Green Apple Quick Step** for stopping by the station last week. They rock! Have 'em bring their instrumts in the studio and jam. It sounds great

and definately lights up the phones. **Stripmind, Muzza Chunka & The Organization** were also in town last week. What a show. This Friday we host Z-Rock Jam II with **Sepultura/Clutch/Fudge Tunnel**. Then next week **Pronk** with **White Zombie**. Holy God! Y'all keep in touch. Starting in Mid/end of March I'll be taking over our promotions department. I will be calling, count on it. Thanks, Tommy.

## Dug, WRFC, Athens

Uh, hi. I interviewed the **Dave Matthews Band** last Friday night. They sold out the GA theater 2 nights running. We recorded a couple of songs in the production room which sounded great. Holly, from the Athens Observer, and I did a phoner with some of the people in **Counting Crows**. That went well too. This weekend was truly fun, filled with celebration, the resurrection of a dead motorcycle by my roommate the moto-necromancer, and other assorted hilarities. I was so happy I forgot to eat for the whole weekend. And on that note, is my anorexia creeping back in? You be the judge: I've lost so much weight that my pants keep sliding off, and I heard myself say '5 more pounds and then I'll stop...'. My mom's surgery went well.

## E. Heather Lose, WRLG, Nashville

My mantra this week: "There's no place like home!" It's great to be back in Music City, working with the music that I love, besides people that're so cool! Nashville isn't a hick town by any stretch. It's the perfect market to open up a new rock format, and the response we've gotten already at WRLG ahs topped every expectation of how our new baby would go over...people are thrilled to have a station where they can hear the **Tools** and the **Bad Religion** and the **Digs** of the world. People call up and just gish...keeps the smile on my face during airshifts! So my music hours are Tues & Thurs, 3-5 CST. My Meyers-Briggs is INTJ (FYI) and my guilty pleasure is the **Grateful Dead**. What WRLF needs desperately is groovy back catalog. Thanks in advance, I look forward to saying help, and I'll smell ya later!

## Lea Pisacane, Atlantic Records, 212-275-2215

See, I had all these records to talk about, like, there's this radically hip **Bad Religion** record "American Jesus" in the title but they didn't even need that 'cos what happens when you're together 10 years playing 651 shows a year? You either break up or become so tight you can bounce a quarter off you and the latter is what happened to **Bad Religion** - just go see 'em and you'll see. You'll also see why this band influenced everybody in every garage and every basement in every town in America for the last 10 years. Plus there's the gods **King's X** whose "Dogman" is making listeners dial the phone and say "What is that cool sounding song, ferchrissake??" Plus there's these **Lemonheads** who won't stop selling no matter what other records are out there competing for the grubby American dollar. Plus there's the **Screamin'** and **Yellin'** and **Hollerin' Cheetah Wheelies** who just simply are the SHIT and if you wanna come without touching yourself, RUN to the nearest sweaty club 'cos they'll be there. Plus there's the Gods who are **Geddy, Alex and Neil** and "Nobody's Hero" and never has a more timely, more personal, more powerful Rush song been written. And y'know when you're tripping on like mescaline or something and it's been about 4 hours since you dropped it and you're starting to plateau out but then you take a toke or 2 of some really awesome reefer that some guy in the next dorm got in Denver or somewhere and all of a sudden you're on this major upward swing of highness and you've for-

THE HARD REPORT

gotten all your last minute term papers for another 8 hours? Well, that's exactly what this Rush tour is doing to your life. (Whatsamatter? You don't get the analogy?) But I can't talk about ANY of these great and wonderful bands on Atlantic Records and Fine Tapes because the Big, Gigantic, Tremendous, Humongous, Earth-Shattering news concerns **Tori Amos**! Not only, my dear friends, did she debut on National Soundscan at #12 (!!!) but "**Under The Pink**"'s debut in Boston, Providence, Baltimore (Mottlaaaaa!), and Buffalo was #1! Number One! We're talking one. One. I'm not sure if you realize that it doesn't get any higher than that. And, in New York, LA, Chicago, Philly, San Francisco, Atlanta, Seattle, Salt Lake and more that I better not mention, because Jesus Christ, they're definitely gonna edit me already, she's TOP 5 and TOP 10! Nothin matters but that people adore her and buy her albums and want to commune with her music andher emotions in the darkness of their tapes-try-strewn, dimly-lit abodes where hopeful they're having sex.

## Diane Gentile, Arista, 212-489-7400

Rotation leaders: Q104.3/New York - 20 spins and WLLZ/Detroit - 22 spins! #1 Modern Rock Track, #1 Triple A Track, #1 Most Added Top 40 Radio? "MMM MMM MMM MMM" - **Crash Test Dummies**. Rock radio programmers that knew that this track is a smash and have added it are those programming: WAVF, WEZX, WDHA, WIQB, and WKIT. Don't even listen, just put the record on the air and watch the phones light up. This Valentine's Day, (Monday), is the add date for "Oh Life (There Must Be More)", the second **Alan Parsons** track from his new album, **Try Anything Once** which has already sold over 150,000 units. Please be sure to listen in your alternative and/or New Music feature shows. Also be aware that **Chapterhouse's** "We Are The Beautiful" debuted on the Modern Rock Chart/R&R at #27 this week. **WJRR/Orlando** (just rock n' roll) is already playing this track. They are the first AOR to recognize the crossover potential. All of these bands are on tour so please be sure to see them.

## DGC, Geffen Promotions

I think it's a very exciting time for the format - the music is some of the best in the last few years and rock radio is breaking bands! There is so much exciting music how do you play it all? Thanks for the amazing run thus far on **Counting Crows**! It's definately going #1 soon, if not already and there appears to be no burn - the album is doing huge numbers at retail - Check your soundscan - Top 10 - 70,23! This week! And there are at least four more monsters on the album! **Nirvana** is also a huge track at the format and seems to be testing very well! **Aerosmith** continues to kick and selling the **Beavis & Butthead** album! Everyone playing **Blue Murder** is telling us the same thing - immediate phones and Kulo is already getting good early reearch. Top 5 phones at KBER and KEZE. I think we got one here - Give it a spin or two to see how it sounds on the radio. We're now officially platinum on **White Zombie** - thanks to Rock Radio! "Black Sunshine" is working - it's a perfect night time record to start and we've re-entered on the BDs Top 40 at 39\*! Have you listened to **Beck**? Not **Jeff Beck** - **Beck** - Huge at Alternative and #1 phones at WXTB, WRZX, WMMS & WDIZ! Don't count this one out - you won't be able to get the hook out of your head! Watch out for a brand new **Sammy Hagar** track that rocks and it's a smash! Coming around March 1st - it's the first of two brand new songs, it's called "High Hopes" from a forthcoming

greatest hits album titled unboxed! Also be on the look out for **Sugartooth**-I love this record ad we're committed to it! It's going to be huge! Please give it a listen! **Zakk Wyld** is coming in April and it's the shit - get ready for a killer debut! Not to mention new tracks from **My Little Funhouse, Duff & Pariah!** Our plate is definatley full — in hot rotation on my CD player in my car - **Crash Test Dummies** (this one is going to be huge)!

## Scott Douglas, Virgin, 214-714-4509

On the road this week with **Brother Cane** on tour with **Aerosmith**. Can't wait to get back to New Orleans, should be crazy. Airplay doubles on **Brother Cane** this week. "Hard Act To Follow" is obvious. **Cracker** is beginning to crack the top five this week. This record will not burn. It just won't. **Lenny Kravitz** is perhaps receiving more media exposure through the **Reality Bites** movie trailers than any other current artist. "Spinning Around Over You" is a track that only you own. **Lenny Kravitz** is your artist. **Colin James** can flavor your midday or morning music logs with some fun reaction music. And, don't forget that **Smashing Pumpkins** "Disarm" is officially ready to add on 2/21. Many stations are beginning to get the buzz. Two million sales. C'mon! Last, **Iggy Pop** "Beside You" will arrive soon, you'll be pleasantly surprised. I'll save space 'til next week, that's the Scott Douglas show.

## Jessica Harley, Elektra, 212-275-4106

**Motley Crue** "Hooligan's Holiday" should be on the air right now! What can I say about this song? This band? How 'bout I keep my mouth shut and let WKDF's John Nagarya do the talking, "definitive proof that **Motley Crue** has entered the '90s and belongs right next to **Nirvana & STP**." Couldn't have said it better myself. **The Afghan Whigs** "Gentlemen" - play this record.

## Mark Fischer, Atlantic Records, 212-275-2085

I'm jinxed! I managed to go on my first road trip since becoming a New Yorker and upon my return what do I get? A foot of snow! Oh well, I'm learning to use those yankee shoe condoms and with careful footing find the subway. I do want to thank all the fine radio folks in North & South Carolina this past week for making me feel like a Southern boy again. Speaking of the South, Atlantic has just signed **Collective Soul**, an amazingly talented band whose debut track "Shine" has impressed several stations in the South. Breaking out of Orlando at WJRR and WDIZ, this record has sold second only to **Pearl Jam** in that market. **Tim Travis** from WDIZ tells me the record is no #2 at night and Top 5 request during the day. Look for us to officially solicit adds Feb 21st, for anyone wanting to find out more you can call Tim Travis at 407-682-4182. Don't worry, I asked Tim before doing this. He said no, then I threatened I would only give him nose bleed tickets to **Rush**, he became very accomodating. I want to devote the rest of my time on **Tori Amos**. I think that all my friends at radio will be blown away to discover that this Soundscan reports **Tori Amos** debuting at No# 12 nationally with 65, 327 over the counter sales, Wow! That is the shit! Like it or not, this woman is on fire. Many of you can still remember the birth of artists like **Elton John** or **Janis Joplin** to the progressive radio format. Thees artists are staples today. Today's rock format may have more limitations than the days of progressive AM and early FM radio, however I challenge you to test **Tori Amos** with your listeners. There are far to many of who have expressed being a closet Tori fan and do not let your true enthusiasim influence the air-

waves. I think **Tori** can breathe life into an otherwise none eventful midday. With a previous sales base of 800,000, you can expect many more weeks of exposure, not only sales, but the Active rotation on MTV, the TV appearances, the first this year being **Jay Leno** on Friday Feb 11th. Many of you squirmed the first time you heard **4 Non Blondes**, I know I did, I still do. But it worked! Are **4 Non Blondes** going to be a career AOR artist, that's yet to be seen, but **Tori Amos** is claimed by no format, only the very smart programmers and an avid fan base that stretches the globe. Don't be a sinner. "Find God" and play **Tori Amos**, Amen!

### James Lewis, Marketing, 310-820-4006

Greetings from Earthquake Central! Be looking for a killer CD entitled **Live Forever** - a compilation put together by **Carlos Santana** using material from his own personal collection. It features live cuts from **Jimi Hendrix, Marvin Gaye, Bob Marley, Stevie Ray Vaughn** and **John Coltrane**. You'll find it on Guts & Grace/Cohiba/Polydor Records and the add date is February 15 - enjoy! **Smokin' Joe Kubek** is hot - KKOS, KOTR, KRVM, KTAO, KTHX, KVNF, WCBE and WFUV all come in with adds. Along with **Smokin' Joe** on Rounder is **Vance Gilbert** who also had a great week thanks to KERA, KKRK, KLCC, KRCC, KRVM, KSPN, KTAO, KTHX, KVNF, WBUR, WCBE, WFBE and WMVY. From Antone's/Dos **Stephen Bruton, Sue Foley** and **David Halley** are still getting some heavy duty airplay. Listen to "Better You Get Ready", "Friendly Bird" and "It's Hard". **Karen Farr's Sistine** on November is still strong, check out "Shadowland" and "Wintertime". Thanks everyone!

### Michael Ehrenberg, High St./Windham Hill, 415-329-0647

Ahhhh, the rewards of being an uncle and godfather, my nephew **Simon Chesler** born Jan. 4, 1994, I find him absolutely amazing! Any record rep opportunities in Texas that someone may know of, can give me a call. First week out with **Downy Mildew's** "Left Foot Down" single, looks well, not that bad. As I write this, new adds are coming in. How about KZON, KCSU, WVBR, KTAO and WCBE to start out? Sooo, I can actualize a schedule for the **Subdudes** at the Gavin Seminar. Mark your calendars for Friday the 18th in the hotel suites. Time will be late that evening - invited: all who want to see a really fine show! Stay tuned for more details. By the way, you will be getting your first track of the **Subdudes** around the time of Gavin. I just heard a couple of rough mixes of some tracks from **Kristen Hall's** upcoming release. I was blown away by the multi-format crossover potential. Get ready for some serious damage this spring everybody.

The tour with **Carcass** starts in March (a true test of patience) Soon my friends soon! **Blood From The Soul** "Image and the Helpless" should be played all over metal, punk, industrial, hard core, and alternative radio! **Dig, Ramones, Angelfish** and **Gillooly**.

### Jay Hughen, A & M, 213-856-7139

?!?!?!?!?!?!?!?! The question mark with an exclamation point now folks! "Knives" is the first blast of bloody knuckle Irish rage from the new **Therapy?** full length **Troublegum**. Due to a tectonics malfunction we experienced recently here in CA, **Therapy?** "Knives" and **Troublegum** adds are slated for this Mon/Tues. the 14th & 15th. You've got new **Damn The Machine** tracks and the ball is rolling again! "Silence" is pulling phones and the mechanization of "Cat Food" rocks hard. Pick your criteria and do the right thing. Get your entries in now for the **DTM** jacket contest! Soon you will experience the depths of the Superunknown. "Spoonman" is the first facet...did I mention double colored gatefold vinyl with extra track?

### Jill Castellano, Red Light Records 708-287-6538

OK, ok we've got **Coven** coming your way this week. My intern Jeannie, who many of you have spoken with, and I are stuffing mailig boxes as fast as our little hands can go! In my attempt to be politically correct "radio impact date" will be Monday, February 28. Once again, Monday, February 28. That's 1994. With their truly twisted, satirical lyrics, sledge-hammer like rhythms and neck break crunching, **Coven's** "Boneless Christian" will have you laughing hysterically while bashing your head against the wall!! **Coeven** is not death metal, they are an aggressive thrash band who poke fun at black metal. Here's some lyrics for you from the title track "Boneless Christian" : "We could feed every Christian to the hungry and the homeless but before you do you'd better make sure they're boneless, and as I fired up the barbeque I made a suggestion, you bring the chips and I'll bring the Christian." HaHaHaHaHa! And hey, **Psycho** "King Of All Radio", they're baaaack! and on your desk soon!

### Michael Rittberg, Metal Blade, 805-522-9111

**The Organization** is currently on their headlining tour (**Strip Mind & Muzza Chunka** as openers). The self titled debut with lead track "Free Burning" is burning up the charts. Take a look for yourself. You can catch the video at **Headbanger's Ball** this next week. You can read about them in every major hard rock magazine. The point here is that there is something happening. Don't be left out. Coming in the next few weeks is the NEW record from **Gwar**. The lead single is "Jack The World." Headed your way in April is the new **Cannibal Corpse** record titled **The Bleeding**. You can catch **Cannibal Corpse** currently in the number movie in the country Ace Ventura: Pet Detective. **New Skrew** in May along with **Epidemic**. Lastly, we have had riots, floods, fires, earthquakes and now mud slides. Where are the Locust?

### John Knapp/550 Music

If you were in Los Angeles last week you had to hear **Eve's Plum** "I Want It All" on KROQ - 18 plays last week! Kevin, Darcy and Gene are joined by Q101/Chicago, KEDJ, WFNX, and WEQX...**Eve's Plum** is now on the air at 22 stations...This record explodes with Top 5 phones at KEDG in Las Vegas...If you're reading this and you're not playing this anthem...call me and I'll give you 27 reasons why you should get "I Want It All" in rotation...Amongst the believers are WDR, KWOD, X96, 99X, WENZ, WZRH, KBBT, KRZQ, WBRU, KPNT... **Deep Forest** contin-

ues to sell, sell, sell another 13,000 pieces this week...beat your CHR to "Sweet Lullaby"...At the very least my alternative friends, get this in a HOT recurrent spot. **FLOP**- "The Great Valediction" gets early play at WCHZ, WIIZ, WHTG, WFNX and KLZR...Look out for these guys in your town...2/12 - Hoboken, 2/13 - Asbury Park, 2/15 - NYC, 2/16 - Cleveland...Why folks talking about **FLOP** ...because they're the best power pop since the **Buzzcocks** or **Cheap Trick**...See ya till the next tremor. P.S. Look out for the style council-like sounds of **Sensation** and a new record from **Peter Himmelman** on 550 Music!

### Munsey Ricci, Skateboard Marketing, 516-825-5549

I can't believe the response the **Black Sabbath**, **Motorhead** and **Morbid Angel** tour is receiving. We're moving quite fast with tickets. In the Philadelphia, New York and Los Angeles markets, the list has been shut down. The chart numbers speak for all, read the trades. While we're on the subject of chart numbers, the **Dio** record is on your desk this week. Did you follow the movement of the single in the trades, huge chart moves everywhere. **Dio** will start doing radio interviews and station liners in the next few weeks. **For Love Not Lisa** is climbing again. Remember, we have the tour coming your way. All 21 cities will see what this band is all about. It's not just another record being handed to you. **Muzza Chunka** is also doing the road thing. For all of you who saw the showcase at Foundations in Los Angeles, now the rest of you must see why everybody loves this band. **TAD** will be doing phoners all this week. They're working on doing a second leg of their U.S. tour. So just do it, who's got better records than us.

### Jim, Alert, 800-772-7640

Rowan and Martin, Martin and Lewis, Lewis and Clark, **The Pinheads** and The Howard Stern Show - Some combinations are just meant to be. That's why "The Big One" KB 1520 is flying the show's producer Gary Dell'abate (ba ba boeey) to "always a beach day" Buffalo N.Y. for a Stern night soiree' at a local hotspot. In addition to the usual butt-bongo style antics one expects at a function of this nature, **The Pinheads** will be giving a featured hard rockin' musical performance, guaranteed to please. A big time to be had by all - I'm sure. **The Pinheads** and talk radio? Hey - **Hendrix** opened for the **Monkees** so - whatever it takes Okay?!

### Tommy Kealty, ERG, 310-289-6418

Plain and simple, **Mutha's Day Out** is top 10 at every trade's metal radio chart. **My Soul Is Wet** is tripling in sales in Detroit, New York, Little Rock, Dallas and Seattle. Spreading across the nation sucka! #6 on the Hard Airplay chart and damn! - lots of action on the ADR end with top 5 phones at KRRK, KICT, WLLZ, Q104, and more. KNAC, KLPX, and WKLQ jump on "Locked" this week. The band is on the road in the mid-west and Texas so give me a buzz for tickets. You certainly don't know what you are missing. I'll be calling you.

### Lisa Gladfelter & Chrissy Shannon, Geffen, 310-285-2723

It's been four years since **Blue Murder's** debut album, and in that time guitarist **John Sykes** built his home studio, re-built the band and recorded his second Geffen offering, entitled **Nothin' But Trouble**. One listen to this album and you'll be convinced of John's enormous contribution to the late '80s success of **Whitesnake**. His fluid, melodic but bluesy style,

honed during his **Thin Lizzy** days, shines on **Nothin' But Trouble**. John handles the vocal and production duties as well as the album's shimmering guitar work. Definitely check out his cover of the **Small Face's** "Itchykoo Park". Psychedelia for a new generation!

### Kevin Estrada, Hollywood, 818-560-3285

Well, I think we are just about done "tossing and turning" out here. Yeh, things got pretty shaky, but **Eleven** is still holding on strong. "Let Down" is the new single (you should have the CD single on your desk by now). Add date is February 14th and 15th - yeh Valentine's Day - so please don't let us down! And don't miss **Eleven** on tour with **Candlebox**, call us for dates, tix and interviews! We've got some big plans for **Eleven** in the next few months, so help us support this band now! So, to sum it up 1) Add **Eleven's** new single "Let Down" on February 14th and 15th, 2) Go see **Eleven** on tour as soon as they come to your town and 3) Feel good inside cuz you will be doing a great thang for the world!

### Sue Stillwagon, Zoo, 213-468-4225

It's Tuesday evening once again. Where does the time go? I could swear I was just sitting here the other day typing my comments wondering what time I'll eventually get out of here only to return tomorrow at an ungodly hour. Tuesdays are getting predictable. This is scary. **Varga** was the #1 most added record this week at metal radio. Thank you, thank you. I love when that happens. **Course of Empire** hit the road soon with **Machines Of Loving Grace**. Please spend some time with **Initiation**. There's some really great stuff on there like "Gear", "Breed", "White Vision Blowout" and of course "Infested". The new **Tool** video for "Prison Sex" is unbelievably amazing. Even more so than the one for "Sober". It will definitely get your attention.

### Steve Prue, Concrete Marketing, 212-645-1360

ADD THERAPY? FULL, SINGLE, WHATEVER TODAY! ADD THE **MONSTER VOODOO MACHINE** "STATE VOODOO/STATE VOODOO" FULL EP TODAY! Back to lower case. **Prong** #1 is a beautiful thing, keep the support up! **Clutch** is about to hit tar-mac with **Sepultura** and crew - this means that you need to keep them on the air and charts, "El Jefe Speaks" is the salvation for your soul. The boys from the Mid-west are kickin' it, **Stick** are about to go on the road with **Type O** and **Life O**. "Taught To Lose" is a cool new stylee for your transmitter's enjoyment. **KMFDM** had a nice #2 most added with "Light" this week, there will be a tour soon. Watch MTV **Headbanger's** - it's on there. On the autoerotic pig's blood tip: **Unsane** fullgutpunch with "Body Bomb", this flava is making a nice series o' moves up food-chain. Strumming bass with evil on his mind, **Michael Manning's Thonk** is converting unbelievers from the left to right coasts, "Big Fungus" is a 4 stringed caffeine bomb o' love. Locked and loaded for bear down to road to hell. **The Wildhearts** are a cross o **Ministry**, **Zodiac Mindwarp**, alcohol poisoning and English angst. Full CD on the way. "Black hole sun, won't you come and wash away the rain" - I'm sorry, I'm good with this winter shit, when is spring in this god-forsaken part of the world? **SOUNDGARDEN** in on the way for adds 2/21 - can you say coolest release this year? I knew you could. And the bands played on.

### Greg Derbas, Pavement Music, 708-916-1155

**Crowbar** on tour with **Pantera**. If you didn't get an interary check the trade or give me a call. They're playing a few selected cities for the frist leg so hopefully you're one of the lucky ones. Didn't I tell you **Stressball** was going to tour? They're hitting the road in April with **Genitorturers**. Yes, that's four weeks of body piercing for everyone in the band. Did you add my **Demented Ted** disk? I realize some of you got it a little late, so feel free to add it this week. They're planning a 10 week tour with **Unleashed & Broken Hope**. Dates are just around the corner. Need anything, just call.

### Dennis Constantine, 303-440-5470

Wow! A wonderful new album from **Richard Thompson**. "For the Sake of Mary" gets this album off on the right foot. Richard's new album, **Mirror Blue** (Capitol), is chock full of commercially accessible music. **Richard Thompson** has such a great image, this is a perfect album for Adult Rock stations. "The Way That It Shows" takes us through many emotions, from compassion to rage. Skilled songwriting at **Richard Thompson's** best. "Shane and Dixie" is the 90's version of "Frankie and Johnny". A fun, up rockabilly song. And "Fast Food" should be a big hit with all those who work at McDonalds. Make it a doube-order of fries, please. There's a lot of divber-sity on the new release from the **Young Dubliners**, **Rocky Road** (Scotti Bros.). "Last House On The Street" is a very good adult rocker with a strong hook. "Black And White" is also a very catchy song. **Billy Pilgrims** debut album has a lot of strength behind the great single, "Get Me Out Of Here". **Billy Pilgrim** (Atlantic) is 40-minutes of great songs by the duo that uses a man's name to be their identifier. Many of the songs are about staying up at night and pondering the problems of the owrld. "Insomniac" sets the tone of the all-night worriers. I like the simple acoustic style of "Halfway Home" - a perfect song to play at the end of the work day as people are driving home. This is a very strong debut album. Reminds me of the impact the first **Loggins and Messina** album had when it was released, yet it's very contemporary in its sound and spirit. You really can't go wrong with any cut on this album. Alright now, who wants to bet when the Dallas Mavericks will win another game?

### KC Kennedy, Meadowleaf Group

From the home of the Phoenix Suns, actually Scottsdale, Arizona, Harry Shapiro and I would like to welcome a new teammate. New to the Meadowleaf Group, Phoenix rock veteran **Dangerous Dave Oleson**, Dave has logged time at KDKB, KUPD, KSLX, among others. He will be filling our new position as Marketing Director February 15. Adding our services including radio research, and market evaluation. Open note to Phoenix wet behind the ears programmer **Tim Andrews**, how low can you go? To try to fire **Music Voice** editor, if he doesn't drop the ROCK RADIO REPORT, this is America when I last checked, and FREEDOM OF SPEECH & PRESS are still honored! Congrats to the G-Ster who joins former hard rock programmer Wild Bill Scott for their new project! Also thanks to Madd Maxx Hammer for your help in Dallas! Thanks for all your support...K.C.
