osten, "I Need Your Love," MCA It was seven years and five months ago that Boston topped the Hard Report's album chart with Third Stage, thanks to airplay on "Cool The Engines" and "We're Ready". In fact, "Amanda" was the number two track on the very first issue of the Hard Report, back in October 1986. Fast forward to 1994, where Boston re-emerge with the first track from their upcoming album, Walk On, due in stores on June 7. "I Need Your Love" is a track with searing guitars and beautiful melodies. There's no denying the influence Boston has had on rock radio since their debut album. Since then, they've sold over 15 million albums in the U.S. This is a band with few equals, a group, who like Pink Floyd, can stay away for years without the slightest diminishing of their following. With a reputation like Boston, this is a track that belongs on any format. By the time you read this, damn near everyone will be playing it.

## hard Acts To follow

tevie Nicks, "Maybe Love Will Change Your Mind," Modern/Atlantic Occasionally, in the course of talking about a new record that's being offered to the wonderful world of radio, you hit the "what else do we write about them" wall. Take Stevie Nicks, a woman who's sold 20 million albums worldwide as a solo artist. And that doesn't even begin to account for the popularity of Fleetwood Mac, who've a been staple of rock radio longer than any of us have been able to reach the volume knob on the stereo. The mid-tempo rocker "Maybe Love Will Change Your Mind" underlines Stevie's unique, probing style. The song has the classic sound we've come to expect from Stevie, like her August 1991 top ten track "Sometimes (Life's A Bitch)." "It's cool. It's got two legs to run with it." says Chris McKee at WRFX. Nicks first all-new studio album in five years features Mike Campbell and Benmont Tench of the Heartbreakers Andy Fairweather Low, the guitarist in Eric Clapton's band; Eagles' cofounder Bernie Leadon; David Crosby and drummer Kenny Aronoff. Stevie will be performing "Maybe Love" and some of the other 12 songs on Street Angel on a major headlining tour that will begin in late July.

linis Rea, "Soup Of The Day," EastWest Until recently, if you mentioned Chris Rea (pronounced ree-uh) to American music fans, and just one vague recollection would come to mind: Didn't he have a big hit about 15 years ago? Yes, "Fool (If You Think It's Over)" from Rea's debut album Whatever Happened To Benny Santini?, went top five in the U.S. in 1978 and helped him earn a Grammy nomination. It was quite an impressive start to a career. Since then, Chris has been quietly (at least to American ears) selling millions of copies of his subsequent albums making himself known as one of England's top rock ballad singersongwriters Now, Chris has made an opening bid for renewed recognition in America with his latest album Espresso Logic It's already general ed a Top Ten AAA hit in "Julia." Now comes "Soup Of The Day, another hoarsely intimate track featuring his rugged brand of bluesy guitar. Expresso Logic has already sold 100,000 copies in a matter of iust a couple of months. "Soup" is the perfect addition to a balanced radio diet

Rolling Stones with Mick JAGGER, "ANGIE," RCA Victor It's classic Rolling Stones, as you've never heard them before. Mick Jagger's vocals are as plaintive as ever on this version of "Angie," one of eleven songs given a new treatment by the London Symphony Orchestra. Jaggers famous ode to David Bowie's ex was recorded under the irection of producer Chris Kimsey, who's twiddled the knobs for seven Stones albums (including Sticky Fingers and 1991's live Flash Point) over more than two decades. And you have Jon Astley, known for his work with the Who and Eric Clapton on "Lay Down Sally" and "Wonderful Tonight" handling the arrangements, along with Matt Clifford, who worked with the Stones on the Steel Wheels album and tour. So you have credible musicians 📂 you have a legendary frontman who's been giving the Bronx Cheer to any thought of putting his carriage in a lower gear. The demo appeal that's made "Angie" work over the years is still present.

"Afternoon Coffeespoons," ARISTA Canadian outfit has already booked its place in rock history with "Mmm Mmm Mmm Mmm," a single as surreal as moose jam. Now that people have become familiar with the twisted lyrics and gravel baritone of singer Brad Roberts, this is the perfect followup for reaching that 25-34 demographic. In fact, God Shuffled His Feet has now sold 1.35 million copies. "Afternoons" is the besttesting record at WENZ in Cleveland. And the Dummies are touring this summer with Elvis Costello. The early airplay's enough to put the Dummies at 100\* on the Hard Hundred. "I like that it isn't so heavy and, besides, it's humorous," says Holly nderson at WAVF. From Jeff Levine at WBAB, "Since the LP first came out we thought this song was terrific. We added it almost as soon as we added 'Mmm Mmm Mmm Mmm' because we wanted to show the band was not a one track novelty act." KRRK joins WAVF, WCCC, WHDQ, KZOZ, WPLR and WBAB in spooning out a record that's good for more than just afternoons. It's ideally suited for mornings, drive-time, late nights, evenings...

Elvis Costello, "Sulky Gial," Warner
Brothers Costello's aim is true. Declan
MacManus, the Imposter, the Coward Brothers,
Emotional Toothpaste — whatever he's called himself
over the years, he's always been on target. His melod-

ic voice has always had luster and texture — imbued with energy, warmth and sleek gentle tones. And his lyrics are always intelligent, complementing songs that have spirit and guts. Plus, you definitely don't have to be a fan to hear that this is the strongest track on the already critically acclaimed album. Airplay at WNEW and WVVV. Elvis is out on the road touring and selling records. Wherever he plays, sales follow.

REEN Day, "Longview," Reprise The band's <u>Dookie</u> album has already sold over 400,000 copies and the "Longview" video is in MTV's Buzz Bin. "MTV is helping," says Carl Craft at WCIZ, "A great song. I wish I could play it more." "I love that song. It's got the formula grunge sound," says Sleve Strick at WBCN. "It's really a good

pop tune. Good lyrics. The male audience can definitely relate to it." Rob Norton at KRNA adds, "Good phones.". Green Day, who were already firmly established on the independent scene before signing with Reprise, have been added to the Main Stage Line-up for Lollapalooza '94. "Longview" moves 35-30\* on the Hard Hundred, 20-14\* on the COR chart. And with 15 new sets of calls, including KLOS, KMOD, WBCN, WGIR, WKIT and WSHE lining up and being counted, Green Day are tied for the sixth Most-Added track of the week. WTPA and KRAB both report top-five phones.

Say yes to melodic hooks and vocalist Jon Anderson's creative musings. Yes boasts the second Most-Added track of the week with 33 sta-

tions saying Yes as "Walls" builds from 70-66\* on the Hard Hundred. "You couldn't ask for a better midday song," says Jack Monson at WXRX. "One of the best tracks on the record," says Steve Strick at WBCN. "Yes, it's good," adds Becca Goodman at KEZO. "Originally, we played it early off 'The Calling." WHMH has the balls to play "Walls" 40 times in a week. A two-month North American leg of the <u>Talk</u> world tour begins in Binghamton, New York, on June 1. And in July, "Walls" will become the first CD-ROM single ever released. The disc will sell for under \$10 and can be played in an audio CD player or through a CD-ROM drive. The CD-ROM part will include outtakes from the band's <u>Talk</u> album and interviews about the song.

REAT White, "Sail Away,"

Zoo It's smooth sailing on
the Hard Hundred, where Great
White move 53-41\*. And the winds
are favorable on the COR chart, too,

where Great White navigate from 40-26\*. Great White's sails are filled with 14 adds this week, with KFMF, KKEG, WBFL, WBTZ, WCIZ, WFYV, WGLF, WHDQ, WIMK, WKQQ, WMRR, WRCN, WXLP and WZNF among them. "Pleasant surprise of the week," says TJ Bryan at WDHA. "'Sail Away' is a gem and the bonus live CD is a treat." Kevin Thompson at WRCN offers, "After a few test spins the audience demanded this record." "A little different than what we're accustomed to from these guys, but 'Sail Away' has the sound you can play all day," says John Rozz of WSHE. Roger the Doger adds, "Don't let this one 'Sail Away' put it on. We're getting good phones." Top-five requests at KATP and KILO.

Spin Doctors, "Cleopatra's Cat," Epic "Il's fucking wonderful," says WBCN's Steve Strick." "The guitar riff in there is really calchy." And a wonderful first week

out, we might add. The Most-Added track of the week, with 73 stations and 498 spins doing the outta-the-box boogie. And the Doctors have the highest debuting release of the week, splash-landing at 47\* on the Hard Hundred and 37\* on the AAA chart. "Eclectic, unique and synthetic. Politically incorrect and we love it." says Chris McKee at WRFX. "We're getting all positives," says KATP's Dale Miller. "It's a very cool track for us. We are the 'Cat' in Amarillo. Now we're Cleopatra's." "I liked it from the first listen," says Holly Anderson at WAVF. "It's different." "It's the Spin Doctors doing Steve Miller's 'The Joker,'" says Jack Monson at WXRX. "I dig it." KNCN's Matt Vaughan tells us that "the bass riff is rippin!" Finally from WDHA's Lenny Bloch, "Spectacular! Many spins for the Spin Doctors. It's quirky, hippy, jerky, and cooly."

Bonnie Raitt, "Longing In Their Hearts," Capitol Put the rugged truthfulness of Bonnie's singing with a producer like Don Was and you get a record that releases

enough funky and libidinal energy to stir just about everyone. Is it hot in here or is it me? This rockin' title track to Raitt's number one album debuts at 99\* on the Hard Hundred and the track moves 13-10 on the Triple A chart. Fourteen reporters raised their hands when we took a roll call of adds, including the likes of KCLB. KCQR, KLBJ, KMJX, KQWB, KRZZ, WAPL, WGIR, WIZN, WKIT, WMMR, WPYX, WRCQ and WSHE. From John Cooper at WPYX, "A terrific track, we're getting nothing but positives from our male core. Here's Greg Bergen at KRZZ, "In this market people hover around it. When we see the 25+ consumer go out and buy it, we're gonna play the hell out of it. From Ron Stryker, "It's the closest thing to country we'll ever play! It works because it rocks enough to ward off the country station." Finally from Tom Van Zant at KCQR, "It's slick and she's a complete core artist. If Bonnie is an important artist to you this will definitely be an important song.

Tad Marinee, "I Don't Care," Repaise Patrick Leonard says it "clicked immediately" when he began working with former Mr. Mister frontman Richard

Page a couple of years ago. Page is a great singer and you know you've got state-of-the-art production when you've got someone like Leonard, who's done production and writing for Roger Waters, Pink Floyd and Rod Stewart. Yeah, the appeal here's primarily adult, but hooks this size pull big wide demos, so keep an open mind. This is far from a Triple A exclusive. Maybe a little spike action as a wedding present for Mr. Linehan, eh? Already on KSOY, KBCO, KZON, KKDJ, KFMG, WRNX, KTAO, KIOT, and more.

Bon Jovi, "Good Guys Don't Music Remember the last LP from these Jersey boys sold 2 million, the one before that 8 million. Why?

Because they had great rockers that worked. Forget the image. There's already great reaction from some of the top markets like KUPD, WNEW, KRXQ, WMMS, and KEZE, who all think it's one of the better rock tracks the band have done. "Undeniably one of Jersey's finest scores again," says Lenny Bloch at WDHA. Fourteen adds including KBER, KDJK, KEZE, KNCN, KRNA, KUPD (15 spins), WCCC, WDHA, WMMS, WPYX, and already on WNEW. Check out the video, which was shot on a Manhattan rooftop, when it World Premieres on MTV Wednesday. Don't forget----Major Motion picture push for 'The Cowboy Way'. From John Cooper at WPYX, "Excellent response so far and it's only been on a few days." Here's WMMS's Doug Kubinski, "Wow! It's not the direction we're headed but it just fits in."

Ribbit," Arlarric Here's a band in the Blues Traveler vein, in that they're always on the road creating a loyal audience, mostly on the East

Coast, even before they were on a major record label. From the band's new album The Madcap Adventures Of The Avocado Overlord, this is a song about a frog. Why are we not surprised? "Everyone who hears it gets in a good mood," says Holly Anderson at WAVF. 'Dig was just added at KSPQ, WBFL and is already spinnin' on WAAF (13 spins).

THOROGOOD Killer's Baze on on-

Conge Thorogood, "Killer's Bluze," ERC Lenny Bloch from WDHA told us, "After hearing it on the Hard hold button, I'm gonna give it another listen." Way to go! After all, it's back in the three chord 'I A Man' blues base and the closest vocal to "Bad To The Bone" George has done, so don't discount this record. Lonesome George and the guys from Delaware have been tapped to open the first leg of the ZZ Top tour. "It's a mother that will become a con-

cert favorite," says Rick West at WXKE. Seven new adds this week — KEZE, WAPL, WHTF, WRCQ, WXQR, WZBH and WZMT — joining the other believers at WXKE, WQWB and WZZR.

## Most Active

STADDING WESTWARD,
"Northing," Columbia "What an incredible fucking tune," says
Dom Nordella at WNCD. "The perfect mix of aggression and power."

"We liked it immediately," says Vinny Marino at WAXQ. "It's got a great sound to it." This cool Chicago rock band got immediate phones when the track was added almost two months ago at Q104 and KEZE in Spokane. Then, "Nothing" went number 8 in the Top Ten at Night on WXTB. Sales in New York and Spokane quickly followed, and now some generally tough stations are now falling westward. "Nothing" is a bulleted 49-50\* on the COR chart and moves 79-80 on the Hard Hundred. Four adds this week (KQRZ, KZAK, WDIZ and WWBZ) bring the station total to 19. There's increased play at KMOD (5-6), KRRK (6-9), KRXQ (0-5) and WBTZ (6-7).

Padioactive This San Diego based band built a substantial fan base with their first track, and now they're makin' waves with single

number two. "Unlucky Friend", combined with the fact that the band are still touring, looks set to kick this band into another level. Added this week at WKLQ and WVCR, already on KIOZ (8 spins). Tune to MTV to catch the video on Alternative Nation.

Sound Ardem, "Black Hole Sun," A&M The band that took its name from an outdoor sculpture in Seattle moves from 30-19" on the Hard Hundred with 1204

spins, and 14-10\* on the COR chart. Of course, when you have 77 stations playing your record and 29 more come on board, you're bound to see some upward movement on the charts. WUFX, WKLL, KBER, KLBJ, WCCC and WHJY are already reporting top-five phones. And you have WRGX, WAAF and WHMH all playing "Sun" upwards of 40 times a week. The mindbending Superunknown LP, Soundgarden's first new album in over three years, is 15 songs clocking in at just over 70 minutes that shot to the top of the charts with its more varied and well-produced sound. "The best record they have ever done," WRCN's Kevin Thompson says of "Black Hole Sun."

David Byene, "Angds,"
Luaka Bop/Size/WB David
was the #1 Most Added at Triple A
the first week, and now makes an
angelic rise from 30-11\* on the AAA

chart. It's the most accessible track we've heard since his Talking Heads days. Be sure to catch David on the road. Added at KSPQ, increased play at KLBJ and airplay at KCQR and WMMR.

Mencuny "This is a great song," says TJ at WDHA, "even better than their first LP 'Southside."

'Pretty slick, it's good," adds Matt

Vaughan at KNCN, making it easy to understand why the LP is about to break into the Top 10 at Triple A. As a great live band they are displaying the goods on their current tour with James. Eleven stations are on the track, with 6 adds this week at KATP, KNCN, KQDS, WHDQ, WIZN and WRUF.

Dixie Dregs, "Shapes Of Things," Capaicoan Why did they wait so long? Why did it take 12 years for this band to go back into the studio? It's not fair

that we've had to wait for these guys to return, especially now that they've added former Mahavushnu Orchestra violinist Jerry Goodman to the line-up. The full length album, <u>Full Circle</u>, is slated to come out early next month. WOZN, KOZZ, and KMKF were glad they're back and added the track this week

2, "All I WAIT IS YOU,"

RCA From an almost platinum soundtrack (Reality Bites) that
went gold the first week out comes
this track that was never worked

from the <u>Rattle & Hum</u> album. KLOS gave the track a whirl, others took notice and got the ball rolling. U2's spins are now being detected at KFOG, KZRR, KATT, WMMS, KYYS, and KRRK.

FLANCIS DUNNERY, "AMERICAN Life In The Summertime," ATLANTIC "Could be the sleeper pop-rock song of the summer," says Lenny Block of WDHA. "Great

lyrics." Dunnery wrote this song about Los Angeles before returning home to England "with my tail between my legs." Well, he's got no reason to feel that way about the good of USA now. "American Life" has some big call letters behind it including WIYY's 27 plays last week. Four adds help propel it 81-78\* on the Hard Hundred with 190 spins and 33-32\* at AAA. The song's even being used by the New York Mets in promotions for the current season. Dunnery's charm and wit are making believers at radio stations he visits on his promotional tour. "It's a great windows down driving tune," sez WMMS's Doug Kubinski.

John Mellancamp, "Wild Night," Mencuny An incredible 73-29\* move from 176-975 spins on the Hard Hundred and a 22-5\* leap on the AAA chart. That's

what we call wild. John has the fourth Most-Added track of the week with 19 stations reporting new airplay this week, including KBAT, KMJX, KMOD, KRRK, KRZZ, KSPQ, KUPD, WCIZ, WEGR, WONE, WPDH, WPYX, WRCN, WRKI, WRXR, WSHE, WTPA, WXLP and WXRX. "It works," says Russ at WSTZ. "We bumped it into medium this week." "The dude walks on water around here," says WZNF's Roger The Dodger. That could explain why 'ZNF gave John 31 spins last week. "Kind of a brave venture," adds Rick West at WXKE. Top-five phones at WRDU and WDVE.

Backbear soundmack,
"Money," Vingin This could
be a valuable tool to Lower End stations who are unfamiliar with the
song but know this band features

some of the hottest players from Afghan Whigs, Nirvana, Sonic Youth, Gumball and Soul Asylum. The upper demos stations will love to play a fresh updated version of a song everyone is familiar with. "Pretty much captures what the Beatles were like in the early '60s," says Greg O'Brian at WPDH. "It's a great record," says Vinny Marino at WAXO.

MAN," Vingin "Winwood plus Capaldi equals phones," says Scott Gentle at WFYV. "Getting lots of calls from older demos," says

Chuck Robson at KSPQ. "People are calling about the live show," says Carl Craft at WCIZ. "Unbelievable," says Tony Clayton at KSFX. "The best Traffic in a long time. This can jam me." "Here Comes A Man" keeps its bullet while moving from 8 to 9 on the Hard Hundred with 1974 spins this week and staying in the Triple A top five. WRDU and KSQY report top-five phone requests while KLBJ, WZNF and WIMZ report the heaviest play. The British rock band has just kicked off a U.S. tour in support of the Far From Home album. Several of the band's scheduled dates will bring them together with the Grateful Dead.

Music Look for another good week as playlists begin to open up. Lately it's been quite a crunch to grab some adds as most labels will

attest. Check out the Metal side where "Rumor" was second Most-Added with 29 adds, and this week 6 more believers bring the total to 35 stations which is half the hard rockin' panel. Gotta remember it's Bonham, where Jason and bandmates had a hit with "Wait For You". "The Bonham connection will be there," says Carl Craft at WCIZ. On at eight stations, with three adds at KKEG, KMOD and WVCR.

#### More

Pink Floyd, "Take It Back,"
Columbia Pink Floyd's prolonged sabbatical has clearly done
nothing to lessen the band's appeal.
They've answered the critics who

said the band lacks the depth of songs written by Roger Waters. Now they're winning fans over with a show that includes a spectacular light show and sonic wall of sound. "Take It Back" is at number seven on the Hard Hundred with 2045 spins and it climbs 19-16\* on the AAA chart and 17-15\* on the COR chart. "It's the follow-up for an LP that'll be around for a couple of years," says Jon Erdahl at WGIR. WBCN, WFYV and WHJY report top-five phones.

Columbia At any traveling fair we know of, a 100-70\* move on the Hard Hundred would be worth one of those big stuffed animals.

The ring's landed around the bottle at KQWB, WAPL, WKLC, WPDH, WRIF, WTKX, WWCT and WYMG this week. "Great follow-up," says JD at WONE. "Straight-ahead classic rock from a new band," says Tim Travis at WDIZ. Nothing less than a passion for this music would drive a band to have this sound halfway through the turbulent '90s. "Carnival" offers a rare glimpse of the virtually carefree, and will be the latest chapter in this AOR success story.

Away," Columbia A 27-24" move on the Hard Hundred with 1106 spins and a bulleted 9 on the Triple A chart. Fourteen stations

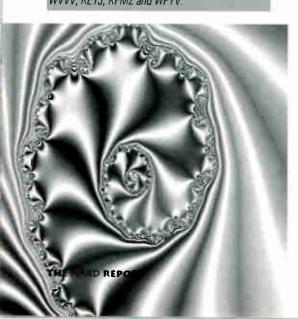

couldn't stay away this week, with the roll call including KBPI, KEGL, KEZO, KIBZ, KLAQ, KLOL, KRZR, WJRR, WNEW, WONE, WRUF, WTKX, WWCT and WZMT. And top-five phones are being seen, or is it heard, at KZRX, KEZE, WBTZ, WKQZ and KLBJ. WRZX gave Alice 51 spins last week while WAAF and WAQX both tallied 42 spins.

The Allman Brothers Band, "No One To Run With,"

**Epic** The Allman Brothers continue their climb, moving 7-4\* on the Hard Hundred, 44-32\* at COR and

they stay in the top ten at Triple A. Warren Haynes succeeds in emulating giant steps without smothering his own soul, as he continues to show off his uncanny ability to stand in for long-departed guitarist Duane Allman. "Unmistakable Allman Brothers," says Mike O'Hara at WKIT. "The best in years," says Lenny Bloch at WDHA. "It's got that Bo Diddley thing going," says Pam Landry at WPLR. "Vintage," adds WRCN's Kevin Thompson. "The band has nothing to prove to anybody." The Allmans have the fourth most-requested track of the week, with top-five phones at ten stations, including KCLB, WDHA, WCIZ, WRDU, WBCN, WHDQ, WVVV, KEYJ, KFMZ and WFYV.

# MOST ACTIVE

Collins Band, "Liaz," Image
The frankly rather effeminate
Henry Rollins... Oh, okay, he's not
really. Call me a "liar." Rollins is a
name that drags a train-load of

exclamation marks behind it. Muscle, force, stamina, energy. Invigorating is not the word. This is rock with capital everything. No let-up, no prisoners. Big, solid, granite, in-your-face rock. It's no coincidence that the new album is called Weight. "Liar" climbs 43-33\* on the COR chart and 72-71\* on the Hard Hundred. We can honestly report seven adds this week — KEGL, KLPX, KRRK, KRZR, KSPQ, WDIZ and WKQZ. And it's no lie that KZRX, WBTZ, WXTB, KILO and WFYV are getting top five phones. "That is a paradox of a life inside out," says Steve Funk at KZAK. "We're getting great response."

"Fall Down," Columbia
This song wasn't written about Kurt

This song wasn't written about Kurt Cobain, it was actually inspired by a woman "friend of a friend," but Glen

Philips says its release couldn't have been more timely. Philips says the song is about "not knowing exactly what you should do when someone is in trouble because they are self-destructive." "The new album is stunning," says TJ Bryan at WDHA. "These guys will challenge the Gin Blossoms and the Spin Doctors as one of the top pop-rock bands of '94." "A great song, much more rock-oriented," says Jay Philpott at WNOR. "Slick," says JD at WONE. Toad moves 50-34\* on this week's Hard Hundred up 400-742 spins and 7-6\* at AAA. Ten adds this week include KATS, KBAT, KCLB, KLOL, KUPD, WGIR, WRZK, WSTZ, WWCT and WXKE.

Cheap Trick, "You're All I CWANNA Do," WB If you're not a believer in this song, try this — get a cassette or CD single, pop it into your car stereo, roll down the

windows, step on the gas and then tell us it's not a hit. Eight more adds, from stations like KATT, KBER, KQWB, WBLM, WGIR, WRCQ, WYMG and WZZQ, propel Cheap trick from 64-61\* on the Hard Hundred. "It's a treat, not a trick," says Russ at WSTZ. "It reminds me of the old classic Cheap Trick. It's all we wanna do!" "A great song," adds Kevin Thompson at WRCN. "I'm so glad they're putting out hit rock records again."

Sass Jordan, "(Pissin')

Down Again," MCA KJOT,
KSPQ, WAXQ and WNCD join the
stream of stations, helping Sass
make a splash on the Hard Hundred

with a 57-49\* move and an increase in spins from 340-478. "Sass Jordan's latest is a very soulful story of a drug-dependent love, a good night record," says John Rozz at WSHE. "Great follow-up," says Vinny Marino at WAXQ. Jordan's tour is going well — wherever she plays, people talking about it and she's getting great piss, er, press.

OTHER STATION, "PUT THE Blame On Me," EASTWest Vocalist Susan Marshall is on the edge of explosive heartbreak and

there's passionate quitar work from

Gwin Spencer on this vibrant and vicious song from the band's <u>Brand New Bag</u> album. "Blame" climbs from 47-46\* on the Hard Hundred, with KJOT, KRRK and WGLF adding their names to the list of highly-respected notches on the FM dial that have been quenching their listeners' thirst for a '90s band born of rage and raw vulnerability. "It's a good hard rock & roll record with a welcome female lead," says Pam Landry at WPLR. "You take Cry Of Love and Sass and get Mother Station," says Dale Miller at KATP. "Roots, rock, gravelly female vocal," says Carl Craft at WCIZ. "Pretty cool."

Change," Vingin Boz hit the top spot on the Triple A chart, with a 2-1\* move, and climbs 55-54\* on the Hard Hundred with 434

spins. "It's tasty, wonderful and classy," says Jon Erdahl of WGIR. "Just where AOR stations are going for the '90s." "It's a nice change of pace," says Bill Palmeri of WPDH. "It all out kicks ass," says Scott Steele at WRUF. WGLF and WXLP come on board this week.

ive, "Selling The DRAMA,"

Radioactive Here's an introspective, honest band capable of a
sonic assault. "Selling The Drama"
investigates the relationship

between audience and artist. This is an easy add for any AOR station, it has everything AOR radio looks - it's huge at Alternative (2 weeks in a row), out of the box sales, Buzz Clip on MTV and a tour that's doing great business (many shows happen to be selling out in advance) and as MCA's Flash sez, "Even Ray Charles can hear this one!" And it climbs 58-44\* on the Hard Hundred with the spins increasing 336-557 while debuting at 48\* on the COR chart. "Great record, one of their best to date," says JD at WONE. "If I had money to buy stock in a record, I would buy in on this hit," says WXRX's Jack. Live are tied for sixth Most-Added this week, with KATP, KEYJ, KISS, KLBJ, KQWB, WFYV, WGLF, WKIT, WMMS, WNCD, WRIF, WRXL, WSHE, WXRX and WZMT calling us with new adds.

STUTTERING John, "I'll Talk
My Way Out Of It,"

Arlantic John debuts at 98\* on the Hard Hundred, with five adds from KILO, KQWB, WBZX, WRZK and

WXQR. "Ever since I was brought home in a cop car at seven, I've been talking my way out of things," Stuttering John Melendez explains, though his patter wasn't good enough to keep him from getting thrown out of the Grammys, or getting cursed by Eddie Van Halen, or chocked by Lou Reed... But the hookladen "I'll Talk My Way Out Of It" describes a central aspect of John's personality making him a perfect candidate for a profile in Rolling Stone. Some stations that compete with Howard Stern's stations were initially hesitant, but in New York, Q104 gave this track 22 spins last week and Vinny Marino at WAXQ says he's seen a "big reaction. Stern's audience listens to us. There is no downside."

Pob Rule, "She Gets Too High," Mercuny KGGO, KJOT, WHMH, WRXR, WVRK and WWWV came in through the add door this week, as Rob Rule gets

higher and higher — 37-36\* on the Hard Hundred and 38-35\* on the COR chart. The LP is happening. In stores since Tuesday it sold out in Tampa in one day thanks to spins and requests from WXTB. Mercury is closing in on 90 stations and the upcoming tour starting in June will certainly bring in more supporters. "A great track. We love it," says WBCN's Steve Strick. "This song has more moods than a mood ring," says Scott Gentle at WFYV. "That's a good record," says J.D. at WONE. Top phones at KEYJ, WIYY, and WTPA.

Yep, **Doug Clifton**'s definitely teaming up with **Ray Skibitsky** al **Evergreen Communications** 

Dever Update:

Corp's new class C 100KW signal at 96.5FM. According to an SBR press release, the Evergreen, Colorado licensed frequency was allocated nearly 13 years ago and has only recently been granted a final construction permit by the FCC. The release goes on to state that Ray has been named General Manager of the new station, but will also remain as president of SBR to be "involved in strategic and philosophic direction" of the consultancy. Furthermore, Skibitsky and SBR's involvement in the new station includes "advising ECC in the construction of studios, offices and transmitter facilities, format selection and personnel." While the format and call letters of the new project remain unannounced, sales and office staff have been hired and the new signal should debut in early summer. Whatever the format, Noble was apparently concerned enough about Clifton's likely involvement that they terminated him on Friday the 13th, rather than have Doug in the building for another working week. And while neither Clifton nor Skibitsky is saying a word, KBCO General Manager **Dino lanni** was quoted in last Monday's <u>Denver Post</u> as saying, "I expect they will be direct competition. I don't know why we have to have all this cloak and dagger stuff... Given the background of all the people involved with the radio station (at 96.5FM), it is more than apparent that they will develop a station that will go right up against us. They don't have the expertise in another format." The paper's TV-Radio columnist, Joanne Ostrow, went on to predict a "battle of the progressive radio stations," but did quote Skibitsky as saying, "My fear is that people will make this out as Skibitsky versus KBCO. It's certainly not that. I am not targeting any station in the marketplace, particularly not KBCO. I helped build that station. The last thing I want to do is hurt it." The only other real question mark as we go to press this week involves what's happening with KBCO music director and 12 1/2 year veteran **Ginger Havlat**. There's no official word from either camp at this point, but from where we sit, the smart money has Evergreen the scene. More next week, no doubt.

#### **ELEKTRA'S LOSING FAITH**

There's no official announcement yet, but our Noise sources have indicated that **Elektra**'s VP/Alternative Promotion and Marketing, **Faith Henschel**, is heading to the Tower for a VP/Marketing position. No word on a replacement, but we're predicting that by this time next week, Leshay's desk will be covered with resumes.

#### SCHWON JOINS SONY 550 MUSIC

Desiree Schuonn

**Desiree Schuon** was appointed Associate Director, Pop Promotion for **Sony 550**. **Hilary Shaev**, VP/Pop and Video Promotion commented, "Desiree's enthusiasm, love of music, and great interpersonal skills make her a true asset to the 550 team. We are lucky to have her here." Schuon joins Sony 550 after two and a half years as Promotion Editor of <u>The Network Forty</u> magazine, overlapping with a stint as Contributing Editor at <u>Album Network</u>. She previously spent a year and a half as Promotion and Marketing Director and part-time air personality at Summit Broadcasting's KAZY-FM/KLZ-AM in Denver.

#### KOME'S ROCK REVOLUTION

The word was out last week that **Infinity**'s **KDME** was poised for a format flip, and it became official at 3:00pm, Friday the 13th, when 98.5 was re-launched with an Alternative Rock format as "The New 98.5 KOME - <u>the</u> rock station for the 21st century." **KROQ**'s PD **Kevin Weatherly** and GM **Trip Reeb** were instrumental in developing the new format for their sister station with KOME PD **Ron Nenni** and GM **Jim Hardy**. Also assisting in the execution of The New 98.5 KOME is newly appointed Assistant PD/MD **Jay Taylor**. "Jay's programming experience in Alternative and CHR radio makes him the perfect choice for this key position, offering a fresh music perspective," commented Nenni.

#### THE BLUES GET HARD AGAIN

The Hard Report and Alligator Records are proud to announce the return on Friday, May 27, of the highly regarded weekly **Blues Page**. Complete with a Top 20 Airplay Chart, new release reviews and blues news and quotes, this widely read Blues section an exclusive among trade magazines — will provide editorial coverage about a genre that more and more AOR programmers consistently use to reach adult listeners. Given the proliferation of specialty Blues shows (over 170) and the increased spins on rock radio, the need for this prime coverage of the Blues is at an all-time high. If your station is programming a blues show and wants to become a blues reporter, fax your playlist to Jim McGrath at (716) 423-9657 each Friday. Jim does his "Blues Spectrum" show on Rochester's public powerhouse WXXI-AM. He also handles the chart tabulations for <u>Living Blues Magazine</u>. We also need programmers to do CD reviews. I missed those opportunities. I'm eager to come back and I have many people to thank, including hundreds of Loop listeners who took the time to send cards, letters, flowers, stuffed animals and most of all, those who said a little prayer that I'd get better. # It DESCEINSTEIN

By Bill Hard

hen David Einstein got out of the infantry back in the summer of '69, his dad, Jake, was sales manager at WHFS/Bethesda. That connection helped land the Sunday morning tape op gig, augmented by selling time on the side. David got his first full time shift in 1971, and by 1974 he was the Program Director, then was named Ops Manager in '81. Jake bought the station in the mid '70s, and in 1983 he sold the Bethesda facility, buying the current frequency, 99.1 in Annapolis. That move upped the power to 50KW, giving WHFS significantly improved Washington/Baltimore penetration. Duchessois bought the station in 1988, and the next year, after nearly two decades at WHFS, David signed on as RCA's Mid-Atlantic rep. His quick promo success did not go unnoticed, and in 1991 Drew Murray and Mercury snagged him for their NYC based Manager, East Coast Rock. As befits a guy who was arguably one of the very first Triple A programmers Dave was last month officially named Director, Adult Rock.

How long has the creation of your new position been in the works at Mercury?

Dave: Drew has been thinking about it for a long time. He was the prime mover on this thing. In me he saw not just a backup AOR guy, but someone who had experience dealing with this type of format while at WHFS before they became a total modern rocker. So, he decided to go ahead and let me take a shot at the format and see if we could build it into a viable part of the puzzle and build artist development.

Obviously, the top level execs are convinced that Triple A can sell a lot of records for them

Dave: Absolutely. Our President, Ed Eckstine, is an artist driven man. He's an A&R guy who definitely understands the legitimacy of this format and the fact that you can grow a career out of it, and that it's seminal in a lot of ways. And because of the involvement with public radio, there are some intangibles involved that are very important to artist development and imaging. The format may be difficult to quantify and qualify, but I think that's a positive aspect. That means that a lot of things can go on that can't go on at a highly researched station. I believe the over-researched, over-consulted. under-the-microscope formats have backed themselves into a corner in a lot of ways. AAA is going to be difficult to do all of those things with, I think that's great.

What do you think might cause a label not to dedicate serious promotional talent to Triple A?

Dave: The only two things that I can imagine — 1) they might feel that they don't have the talent or the roster to address the format; 2) if they're just old school and have blinders on, they're going to pretend that AAA's just not out there.

Not a great Winter book for Triple A this time around. How do you think that could affect faith in the format? Dave: I don't think that you should panic over one book. Sure, a couple of guys had soft books, but I don't think that broad stroke rethinking should take place. If I were still doing radio, that would be my advice. They are going to have ups and downs because they are experiment takers. They play some groundbreaking acts, so the familiarity on some levels can get to them. Many of them are niche formatted because they may be Class A's, and in that case, you are going to have a roller coaster type book anyway, depending on diary distribution. So there's a lot of things that fold into this. Plus, how many of the public radio stations are we leaving out of this discussion because they are not even rated in a given market? Or at least not in the same book that the commercial outlets are rated in? There are a lot of factors, and long story short, I don't think that there should be a kneejerk reaction to this at all. A couple of soft books don't really mean much in this format.

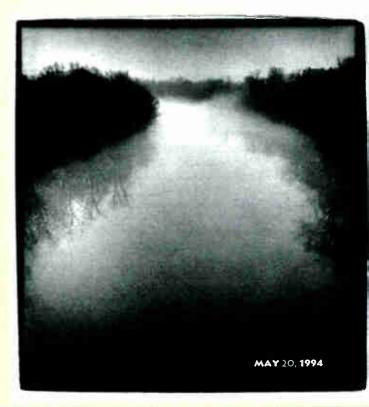

Tell that to the bankers and broadcast groups, though.

**Dave**: Leveraging will do that to you. I'm seeing some of the sins of the late '80s in the last two or three years all over again. It puts an enormous amount of pressure on programming. Programming is an

organic thing and needs to grow with the community. You can't force something along those lines, and when you've got geometric increases in debt service because of overleveraging, unnatural things start to happen. In most of the cases where you find someone from the corporate level coming down hard on a well programmed radio station because of one soft book, it usually is emotional reaction to a numbers glitch. But fluke or not, that usually translates into some kind of negative affect on the bottom line. Leveraging can be one of the most negative things that can happen to this type of format because it can't be quantified or qualified as easily as Top 40 or some of the other formats

Do you see all of the attention now being focused on Triple A affecting programmers' dayto-day activities?

Dave: Not really. But when, all of a sudden, somebody in the #4 market in the country that's operating a public radio station is regarded as a P1, and instead of getting 20 to 30 discs a week on his desk, he's getting 200 — in a station like that, where a lot of support staff is volunteer, they are going to have manpower problems.

#### As Sky Daniels might put it, do you think all this new attention has given many programmers a case of big-itis?

Dave: I think it may have more to do with the fact that most of these folks are achievers anyway, and they really believe in what they're doing. They are trying to do what they did a year and a half, two years ago, which is to really listen to every entire album that comes across their desks, and you just can't. There is a frustration that goes on. The record guy, myself included, will call up and say, 'What did you think? I asked you about it last week?' and so-and-so will say, 'Well, I just didn't have time to get to it.' They are being hit with 2 to 3 times as much stuff to do in any given moment, and, of course, they're getting paid the same amount of money that they were paid last year. I think on that level you are going to get some frustration. Folks who have the budget for it, will get a good, competent Music Director. Folks don't have the budget, so they are going to try and put more hours in the day, and guess what? That doesn't work.

I hear a lot of record people commenting that for a format that is ostensibly more album based, an increasing number of AAA programmers are saying, 'What is the next track? When are we going to have the CD Pro?'

Dave: In response to that, that's a personnel problem. In other words, people are saying, 'Gimme a single, I'll listen to it and get a vibe off of that, then at least I will be able to cover all the projects that are out there. I don't have time for the whole Spin Doctors record, just let me hear a couple of tracks and let me go on. I'll get the general vibe.'

# Do you have concerns that the format is too quickly going from music intensive to promotion intensive?

Dave: No, I really don't. They're going to get hit with more projects, but people who are really focused and know what they want their station to sound like are still going to select what they think is the right stuff for their radio station. And, they are still going to do what they have always done. The people who are going to fall into the glitzier side of it, are there in any format. But the part about AAA that I really like is that stations can't be quantified or qualified because BDS simply doesn't have the hardware to deal with the format. They don't have the room on their hard disk to put in five or six tracks from a Mellencamp record or a Texas record. They can't track it. The format is difficult to follow, but there is a lot of beauty to that. Because of that, it's difficult to master.

Yeah, almost as difficult as the politics you'll soon have to deal with in Denver with two superpower Triple A's going right at each other.

Dave: Santa Fe is the same deal with what used to be KBAC and KIOT. I think that it's going to be fine for me, but it's really going to be the battle of the consultants, that seems to be what it's really about. In Santa Fe, it's Constantine vs. SBR. Although, that's not really a fair comparison since KIOT is a live station with real jocks, and KBAC is automated.

#### But they still are going to get a few shares, or more.

**Dave**: Absolutely, and what it will wind up being is a promotional and engineering situation. Does the signal get out? Are they on the street? Are they working the shows? That kind of thing.

Compare the impact of Triple A consultants to mainstream types. Do you think they wield more direct playlist power? Do you think that Dennis Constantine has more direct control over the music then Jeff Pollack does at his stations?

Dave: I don't think that Dennis tells you what to play. He consulted 'HFS when I was there, and he didn't then. By the way, I might have been the guy who talked him into getting into the consulting business. He was not consulting anybody before I called him. When Duchessois bought 'HFS, they wanted me to get outside advise, and we went through four or five people. I asked if it would be acceptable if I could talk this guy from KBCO into doing it and they agreed. We were the first station that he consulted. I can't comment on Jeff Pollack. I never worked with him.

Did you realize an immediate ratings and revenue increase?

**Dave**: It took about a year, but after that, things started to roll. And I have nothing but high praise for Robert Benjamin and his staff. He has really maximized that signal to the hilt. He's done a brilliant job down there, both in programming and the promotion department.

#### During your tenure, would you consider WHFS as close to Triple A as you could get?

Dave: Oh, yeah. We just played a lot of music, and that seemed the right thing to do at the time. We didn't really have a name for what we were doing. We just kept putting in more music every year, and the "format" metamorphed with the music. There were a lot of stations like that back then. I remember listening to Luke O'Reilly at WMMR back in '69, from where I was in Maryland, and they were damn near a free form radio station. There were a lot of us around. Norm Winer still has that same spirit in Chicago today. A lot of people have left that radio station and taken those ideas to other places, and the same thing with Constantine. He brought up a bunch of stellar group of programmers as well

Are you concerned that the format is too quickly mirroring some of mainstream rock radio's bad habits. For instance, running records up and down their charts in an effort to break the next Sheryl Crow or Counting Crows instead of concentrating on legit artist development for their

How long were you at audiences? WHFS? #### You really labored with a very inferior signal for a long time, didn't you?

**Dave**: Yeah, it was a 3 kilowatt out of Bethesda, and that was from '70 to '83. Then, we bought a 50 kilowatt station in Annapolis, and moved the signal about five miles closer to both markets.

Maybe you get some airplay at Mountain Stage, if you can, which is a beautiful show. Those guys are great at what they do. All three of those shows are important and they show a real care and love for live music. David Dye's way is a little different from Mountain Stage, and Mountain

Stage is a little different from E-Town, but they all have a very gentle, knowing hand that they put on the music, and that's what is important.

#### You don't see commercial stations taking shifting their focus?

Dave: The shift starts when you get consultants and researchers, who are mostly left-brained guys, messing around in the right brain side, where music appreciation is. They start throwing auditorium tests at you, and you start really focusing on what's up with the 25-44, and where is my cut-off point between the 18-34's and the 25-44's — and that's when you lose your hand on what you are doing. That's when it becomes too much of a left-brained thing. I'm not trying to finger consultants and researchers. Their job is to follow the General Manager's dictate of 'I want you to make people write our call letters down in diaries.' What most public radio people have to do, is to generate funds from fund raising. That means it's cool for them to have an Irish music show. or a reggae show or a woman's music program, or whatever they have to do to attack segments of the audience that are not going to be useful to a commercial programmer. Those programmers are trying to sell advertising. They are trying to generate call letters written down in diaries. Obviously, the whole audience approach is entirely different with the public broadcaster as opposed to a commercial broadcaster. If you told any consultant or any researcher worth his or her salt out there that you wanted to put on an hour of The Chieftans, they would tell you that you are crazy. They'd tell you that you are going to drive your cume to hell in a handbasket. But to the public broadcaster, that makes sense because they can generate a diehard Irish audience who will pony up that contribution twice a year.

#### What do you suppose motivated R&R to exclude non-commercial stations?

**Dave**: There are many questions about what they are doing. I do like the fact that the format's getting exposure on the Back Page, but at the same time, the sample base, I think, at 28 stations, is certainly not broad enough.

On that note, do you think the AAA charts had a little more cohesiveness when the base was a bit smaller, with more influence exerted by folks like Denberg, Winer, Clifton, Jim Robinson, who really knew what they were doing. It sure seems like there are more and more stations looking to report Triple A who are borderline.

**Dave**: And some of them are being advised by AOR consultants. Regardless, you're going to have gray areas in any format. You may have somebody who may be market dominant, not flanked by either a Triple A or Alternative, and they fill their four add slots every week with two Triple A and two alternative records. They daypart fanatically, and their 7-Mid doesn't sound anything like their 10-2, and they get away with it until somebody opens up a pure format.

#### Have you found that more and more Triple A's are being intimidated by charts?

**Dave**: Only because of the amount of music that is hitting them. When Spring comes, the releases multiply. Look at the last three or four weeks — Boz Scaggs, The Pretenders, the Indigo Girls, etc. etc. — really core to the format and good records, all of them. If I was Mike Morrison sitting there and looking at the three and four stacks on his desk that were about two feet high apiece, I would be scratching my head, too.

#### Does a new Indigo Girls tend to get in the way of your Texas record?

**Dave**: The Indigo Girls are extremely core to the format, and there are going to be artists that are more core then others. Hopefully, with more work, concentration and live playing, Texas will be mean as much to the format as the Indigo Girls, on whom Harvey has done a terrific job.

#### How important do you really think New York and L.A. are to the format?

Dave: In both cases, there are public radio stations out there that are doing a fine job of addressing their audiences in those respected towns, but I think that there is certainly room on the commercial level to augment what the public radio stations are already doing. Certainly, the audience base is there, between those towns, there's an ocean of people and there's certainly enough frequencies available. Once again, I have to go back to the fact that radio, especially in the '80s and on into the '90s, became a matter of real estate. Wall Street money got involved and it became a function of, 'Well, I have a property that is worth \$90 million here. What do you mean I can't get more then a 2.5 12+? If 90% of that is in the golden demo between 25-44, I'm doing good business, but it's not good enough.' Some owners feel that their lives are being run by bankers, and if they had their 60-70-80 million dollars tied up in a CD somewhere, they could make more money, so what the hell are they doing in radio? It becomes a function of cash, and it has nothing to do with music and

Do you think that 'NEW will end up leaning more Triple A?

Dave: I think it's a natural progression for them.

I wonder why they seem so reticent, especially with Q104 locking up the 18-24's

Dave: Speaking as somebody who was involved with a set of call letters for a long period of time, heritage is difficult baggage to carry. You are not only living with the new audience that you are trying to build every day, but you're trying to live with the old audience that remembers the days when you slammed the hell out of Led Zeppelin and probably still do. You are New York's 'Home of rock n' roll, ' you are WNEW. There are very few call letters out there that have that kind of heritage.

You don't think that in the context of the Allman Brothers and Pretenders you couldn't throw in a Peter Himmelman or a Vigilantes of Love?

Dave: I think that it's an imaging thing. How do you tell WNEW, who started back in the '60s, to go into the library and pull out all that classic rock stuff?

I'd think your sell job would be a little easier now that they're in the low 2's, not to mention the promotional support they'd realize if they made it known they were more interested in leaning Triple A.

**Dave**: We would do everything and anything we could do to expose our artists. New York and L.A. are the #1 and #1 market in the country. Who's really going to split the difference between L.A. and New York?

Now that you're officially the AAA guy, I'll bet those managers you deal with are very excited about having another avenue for their artists. But you think most of them truly understand the format?

**Dave**: Some do and some don't. It's my job to educate them and to maximize the exposure of all of Mercury's artists that fit this format. I fight a battle every day in the office with people who erroneously think they have a shot at Triple A. It's a really gray area.

What do you say to Rob Rule's manager, for instance? Musically, 'She Gets To High' could almost be a Big Head Todd track, but the rest of the album is nowhere close.

Dave: In that instance, you sit down with the manager and you say, 'Is this a rock band?' If, at the end of the day, everyone goes, 'Well, yeah', then you still service the record to key people and see what they think. If we get some positive feedback, maybe we'll chase it, but we won't go ahead and roll enormous resources behind chasing what might be a mismatch. Besides. with Rob Rule already charting in the 30's, there are plenty of good things happening with the project. In other words, I don't ever want to be accused of A&R'ing a record, that's not my job. My job is to hopefully present the stuff that we come up with to this format. There are people like Lisa whose opinion I solicit, and there are programmers out there that I send stuff to early and say, 'What do you think? Do we have a chance?' Then I come back with opinions other than my own.

Lowen & Navarro is an interesting situation. They were working the format before it was a format, and yet their latest record seemed to have a relatively short shelf life. Is that because Mercury hadn't quite decided how to approach AAA?

**Dave**: It's not fair to say the band was negatively affected, since they did get to #13 on your chart. I think we broke ground with them. Again, I don't know that you could say that it broke at the format, that it was close to a Top 10 record. I know that there are a lot of guys out there who know who they are now, and who know them on a one-to-one basis.

#### How come you haven't worked James at Triple A?

**Dave**: It comes next week. We just got a wonderful cover article in Musician magazine, which I think is the commercial magazine of choice for the format.

#### What's your definition of 'progressive'?

Dave: Moving forward.

How much in common do you see between classic rock and Triple A, formatically and demographically?

Dave: Demographically, very similar, 25-44 based. Formatically opposed. Ithink AOR has researched its way to classic rock. Classic Rock came up with the 650-700 quintessential rock songs and then proceeded to burn them up. Classic rock does not grow or move forward. To quote Marshall MacCluhan, radio is a hot medium. In the same sense, Triple A is a hot format. It's active, and the hottest thing about classic rock is Howard Stern. He's hot, but he's not about music. In terms of sharing, I would guess there is some, but not as much as some researchers would have you believe.

#### Have you heard the Arrow format and do you think it presents any kind of demographic threat?

**Dave**: Yes, I heard it in D.C., and to me, it has the feel of a male AC format. There is a nice mix generationaly, but it's got the wallpaper feel. It's not a hot format, it's passive. Therefore, it has some built-in marketing problems, with the same kind of perceptual difficulties a classic rock has on the street. How do you own the clubs? How do you promote? It's that active audience that you are going to have difficulty pulling out. Although, demographically, it seems to be making some nice gains in L.A., so the jury is still out.

#### Are you going to work the KISS cover by Toad on that tribute album?

**Dave**: No, and your next question should be, 'Why not?'

Indulge me, Dave-o.

**Dave**: The only track on the album that the Triple A format might embrace is the Toad. But we don't have the singles rights, so we would have to service the entire album. Plus, I can't imagine that there's any KISS in anybody's library.

I could have sworn I heard Mike Morrison intro 'Beth' the other day.

Dave: 'Here's Paul Stanley kickin' some ass!'

What's your take on the Island/PLG thing? How's that going to effect your life?

**Dave**: I don't think that it's going to effect mine at all. It might actually affect the general public more. The acronym 'PLG' was probably difficult for the consumer to get.

#### You think that they have that level of awareness?

**Dave**: In the industry, Chris Blackwell represents an enormous amount of expertise and involvement. If he winds up controlling Island again, and it looks as if he will, he'll once again be a magnet for new artistic talent

Do you think that it matters to Triple A radio programmers that a label has taken steps to formally recognize the format by appointing a Triple A specialist like yourself?

**Dave**: What they are telling me is that it's a very positive move and, hopefully, the rest of the industry will do the same thing and put more resources and manpower into developing acts for this format. Doesn't common sense dictate the labels with AAA directors will gain a greater market share at the format?

#### And your personal objective in this new position?

Dave: Mercury started with this in April of '94. We're going to make some mistakes but hopefully we will secure a solid position for our artists that we now have at Triple A. Once we've maximized exposure for our established artists, that will hopefully attract the best baby bands. The music is the bottom line. It's all we have to deal with. We're not the 19th floor at 825 8th Avenue, we're about the music that we put out. The better it is, the better we are.

he Iguanas, "Nuevo Boogaloo," MCA Many people are just now getting their first taste of this New Orleans-based band with "Fortune Teller," the single from their debut of the same name, which is featured on the Jimmy Hollywood soundtrack. But Triple A was onto this band's potential since early last year when that album was released. With their sophomore project, Nuevo Boogaloo, The Iguanas — just five years young are already being compared to the veteran Los Lobos. The

comparisons are inevitable, with the Latino-flavored guitar, saxophones and rhythm section on songs like "Oye Isabel," "Loco," and "La Tentacion." And there is certainly a Kiko influenced undertone to "Angel," "Boom Boom Boom," "As We Kiss Goodnight" and "Hey, Sweet Darling." Produced by Justin Niebank (Blues Traveller, Freddy Jones Band, Ian Moore), Nuevo Boogaloo is what Triple A is all about from a band that deserves the recognition that this stellar release will bring. Jeff Bieri KRCC, "If you have an audience that follows Los Lobos, The Iguanas are a natural. This is Hispanic flavored rock n' roll that will appeal to all audiences. Great stuff!" J.D. KXPT, "This is the coolest album out now.'

#### IOT CORNER

igilantes Of Love, "Welcome To Struggleville," Capricorn I've said it before and I'm saying it again — Vigilantes Of Love is the best "new" band this year. It was evident with the release of Killing Floor (Daemon/Sky '92) that it was only a matter of time before Bill Mallonee and company were brought to the attention of the masses, and being added to Capricorn's ever-growing and impressive roster was just the push VOL needed. Welcome To Struggleville

propels Mallonee's extraordinary songwriting talents to the forefront, especially on the outstanding "I Can't Explain Everything," "Last To Know," "Babylon," "All Messed Up," "Sympathy," "Vet" and the title track. Together with longtime friend and bandmate Travis McNabb (drums) and new members Newton Carter (electric guitar) and David LaBruyere (bass) Mallonee has released an album that Triple A will be proud to break Bryan Tarbox WSTG, "It's wonderful that Triple A stations are finally getting the full length CD so that this band can get the airplay they deserve." Patty Martin WXRT, "This is a nice sounding record that I think will be distinctive on the air." J.D. KXPT, "I had to struggle to keep from adding the single before the add date. We're looking forward to going deep on the album.

ish Hinojosa, "Destiny's Gate," Warner Bros. Jon Peterson WCBE, "Tish is back with a mind-blowing new release. Her new folk/rock sound is more fully realized with this release than in her earlier work, providing the variety needed for both public and commercial Triple A success." Greg Hils WNCW, "This is an excellent mixture of rock, Latino and country music. She has a great voice and a great bag of players

on this record. There is excellent content in her songs and they are definitely worth checking out." **Jeff Ballou KECH**, "Tish was here about four months ago and put on an excellent concert, everybody took to her. She's got a great voice, and has a mass appeal for different audiences." Suggested tracks include "Destiny's Gate," "Say You Will," "Looking For Love In The Pouring Rain," and "Baby Believe." Check out the hidden track on the album when it comes out — the Spanish version of "Destiny's Gate," which was listed on the advance CD.

ave Alvin, "King Of California," Hightone Triple A is two steps ahead in the Dave Alvin department: Brad Hockmeyer KTAD, "Okay, okay, so we love this new Dave Alvin Album. Okay, okay, so we're four tracks deep. Spend some time with this and don't let this gem slip through. Start with 'Barn Burning' and the title track." Jeff Luchsinger KERA, "This is a gem of a record. Dave's been doing the acoustic stuff on the road for the past few years and I think it's great to put it all on a record. This is a side of Dave Alvin that a lot of people weren't aware of if they've only heard his recorded work. We've had great response on this so far, and were moving it to heavy next week." Mikel Elicessor WYEP, "We work a lot with this record on our morning show. I'm finding that it provides a wonderful opportunity for people to have some space in the hour of our show to think a little bit instead of wall-to-wall production. It gives us the opportunity to really stake a sound for ourselves as a radio station, and people will identify us with Dave Alvin at WYEP." Greg Hils WNCW, "How is it that we keep missing Dave Alvin? He's a great songwriter with a unique voice and a fine guitar player. And if 'King Of California' is not his ticket to the Triple A chart, then it is time to close the chart down." Jeff Bieri KRCC, "This is great rootsy acoustic music from Dave Alvin. This album will work into any Triple A format. Don't let this one go by unheard."

he Church, "Two Places At Dnce," Arista The Church return with their unique sound that makes them instantly recognizable throughout the format. Triple A audiences cut their Church teeth in the mid-'80s with the band's seemingly never-ending string of hits. Their 9th album, Sometime Anywhere is somewhat of a departure for the band, focusing on the duo of Steve Kilbey and Marty Willson-Piper (Peter Koppes left the group to pursue his own musical interests). The lead track features a duet between Kilbey and Willson-Piper — a first for The Church. Jody Denberg KGSR, "We are big fans of The Church and this song should strike a chord with the upper demos, it's reminiscent of gasp! The Moody Blues, great hook." J.D. KXPT, "I listened to it, I liked it and I'm probably going to add it. It's got a different sound from the old Church."

immy Buffett, "Fruit Cakes," MCA Every year, about a million people consider their attendance at a Buffett show an annual "rite of summer," and we're willing to bet that a coupla hundred thousand or so of 'em are listening to your station right now. Bryan Tarbox WSTG, "It is great to have him back with a new record. I'm looking forward to playing a lot from this album." **Greg Roberts KKRV**, "Give your audience a tropical treat! What can you say that hasn't already been said before? We're bananas over Jimmy Buffet. Jimmy can take a song and make it into a treasure. You'll be diggin' this one." **Jeff Ballou KECH**, "Out of the box, we love it! Nice to here the Coral Reefer Band again — rock away, Reefers! This is really some great stuff, especially for our sound here at the station. Jimmy Buffet adds a lot of substance and makes our mornings fresh."

tevie Nicks, "Maybe Love Will Change Your Mind," Atlantic Stevie Nick's first all new studio album in five years, <u>Street</u> Angel, features Mike Campbell and Benmont Tench of the Heartbreakers, David Crosby, Kenny Aronoff and Eagles co-founder Bernie Leadon. Look for the new album and a major headlining tour beginning in late July. Dave Leonard WKZE, "Reminiscent of Fleetwood Mac. It's great to hear new music from such a great performer." J.D. KXPT, "It was added before it was supposed to be added. It was an automatic the day it was played in my office. We hope that we get her here." Greg Roberts KKRV, "Bonnie from Atlantic serviced me a month ago with this record and we've been groovin' to it ever since. I can officially tell people now that we have been playing it for awhile. It's a solid record, and we really like it."

loyd Paul, "Crying At The Circus," 7 Records With a highly emotive delivery and a shimmering overall presence, Lloyd Paul's debut album has got Triple A people talking. Here's a few: Jon Peterson WCBE, "A great deal of depth, variety and raw emotions. You can't go wrong with `Competition' or `Black Cadillac'." David Sloan DMX, "It's exploding out of the box, he's go a unique voice that works well for our format. We are playing the tracks 'She's Always There' (featuring Patty Larkin) and 'Black Cadillac' and both of these are definitely worth a listen." Other standout track to check out include "Secret Words Of Love" and "Anna Magnani," with a guitar/harmonica performance by the Lovin Spoonful/Woodstock 25 pitchman John Sebastian.

> ass Jordan, "(Pissin') Down Again" (Impact/MCA) This is a woman with an attitude who has come on like a storm with her latest release, Rats. This newest track accentuates her versatile voice going from the soft, soulful valleys to the hearty, belting chorus that seems out of place coming from her tiny

frame. Already embraced on the Hard Hundred, she is

climbing toward the COR with new adds at Q104 and WNCD to go with increases at KEZE and WHMH, plus heavy spins coming from WBTZ and WXKE. Her live show has converted many a passive listener as well; she continues to pack houses across the country and will do so well into the summer. Many people talk about adding some spice to their lives, but we think that adding some Sass to your airwaves will have an even better effect!

tomic Opera, "Justice" (Collision Arts/Giant) This Houston band may be new to the airwaves, but in a few short weeks they have already created quite a stir. In the metal ranks, the single "Justice" pulled in #1 Most Added status the first week out and has been collecting tans at such a fast rate they have jumped up to #28 on the Hard Hitters chart in a short amount of

Now it is time for you at COR to check out what they are so excited about. Early into the game are KNAC, WVCR, and Tim Andrews of KZRX emphatically states, "I f\*cking love it. It's starting to get a good reaction on the phones after only a week or two on it." With a powerful opening, the lush melodies and layered harmonies of "Justice" soon take over. With production duties being handled by Sam Taylor you may notice some similarities to his previous work with King's X, but the hypnotic vocals and poetic lyrics of Frank Hart separate them

oundgarden, "Black Hole Sun" (A&M) Now this is not exactly brain surgery here. The official add date for "Black Hole Sun" is this week and our friends at A&M wanted you to wait, but when the music is this great, you just can't help it. As "Spoonman" is just beginning to drop, "Black Hole Sun" is already in the Top 10 of the COR chart. As Pat Dawsey from Z Rock put it, "When I heard the

new Soundgarden I just said 'there it is'. 'Black Hole Sun' is doing just as well as 'Spoonman', with top 5 phones and top call out research and consistent top 3 sales research in the market." 43 of the 44 stations have added the track so the goal of the day is increased spins to go with the increases at KBPI, KIBZ, KIOZ, KISW, KNAC, KUPD, WAAF, and WWBZ. Soundgarden are preparing to embark on a summer long outdoor tour - with Eleven and TAD in tow - which is expected to be one of the biggest draws of the season (and they won't even charge \$100 a ticket). Superunknown is already being hailed by many as the album of the year in rock circles, and songs like this are the reason why

tuttering John, "I'll Talk My Way Out of It" (Atlantic) If you try to talk your way out of this song, then you are going to miss out on one of the best party tunes of the summer. Gaining initial fame as the interrogating sidekick of Howard Stern, it's obvious then that the Howard stations were the first ones to jump on this release. But the record stands up well on its own merit so that the

Howard connection is secondary, shown by a climb up to #21 on the Hard Hitters chart in the metal section, and more COR stations coming in each week. Vinny Marino of Q104 is already "seeing a big reaction. Stern's audience listens to us also, and there is no down side." With live performances packed way beyond capacity, a wildly entertaining video, and four new adds at KILO, WBZX,

WRZK, and WXQR, this is a song that will be on people's minds for a long time.

herapy?, "Die Laughing" (A&M) This Irish band is fresh off tours with King's X and Rollins Band where they garnered rave reviews and pulled in new fans. They are set to kick off the Black Sabbath tribute record with their version of "Iron Man" (with Ozzy on vocals of course). The LP had a Top 15 performance at metal (they are still

holding their own on a jam packed chart) off the first single "Knives", in addition to COR support from WIYY, KIOZ, and WKLQ to go along with an MTV Buzz Bin slot for the hook laden track "Screamager". Now they are coming at you with their demented yet melodic follow up from the <u>Troublegum</u> release. With all of this ammunition in their powder keg, and the catchy riff-packed "Die Laughing" on your desk, this trio is ready to explode, they only need you to light the match.

We would like to thank KQRC for sending in the celebratory shots from their 2nd Year Burthday Bash on April 29. The boys from Brother Cane are rocking a very packed house, and I guess looking at the picture is the next best thing to being there.

Maybe they are trying to compete with Victoria's Secret, but Byrd and the other folks at KSHE in St. Louis succeeded in stretching 1300 bras across the Mississippi River which is over a 1-2 mile long. Byrd is joined by KSHE's Jim Ellis, the KSHE mascot Sweetmeat (1 would assume that is the pig) and 500 listeners.

Q 104 goes straight to the people by giving winner Lisa Altimari a chance to go backstage and meet her heroes - Anthrax, along with getting photo passes that let her video tape the concert. What a package deal. Pictured with her and her very hig smile are Frank Bello, John Bush, Scott Ian (Anthrax); Vinny Marino (Q104); Danny Spitz and Charlie Benante (Anthrax).

Not only does Q104 gire their listeners the chance to meet their of favorite heros, but to work for them too! After heing roadie for a day for Rush, winner Tom Kelly also won an autographed guitar from opening act Candlebox and posed for this picture with the band after a long days work. Pictured (L-R) are Kevin Martin (Candlebox); Mike Taylor (Q104); Scott Mercardo (Candlebox); winner Tom Kelly and girlfriend Ann Petito: Lardi Martin and Peter Klett (Candlebox)

yclone Temple, "My Friend Lonely" (MonsterDisc) While those of you who are new to the metal radio rounds may not remember Cyclone Temple, anyone who has been around a couple of years will remember their crunching performance on the 1991 release I Hate, Therefore I Am on Combat Records and maybe even the Znowhite releases on Roadrunner before that. Guitarist Greg Fulton creates a sound that is one of the most unique and recognizable in the industry, and his showering

riffs were the standout characteristic on I Hate and their 1993 EP Building Errors in the Machine. You have the first cut off their upcoming release, My Friend Lonely, which was produced by Lee Popa whose previous work includes Living Colour, White Zombie, Prong, and Ministry. The title track is the first **Cyclone** release to feature the vocals of Chicago scene veteran **Sonny Deluca** who describes their sound as "heavy music with a touch of soul". They slow down their normally furious attack with **Fulton**'s brutally deep guitar tones which seep out of the speakers and overcome you like a thick fog. The solid rhythm of Scott Schafer and John Slattery (formally of the Slammin' Watusis) are the anchors with which Cyclone is driven. The band's fan club has some exclusive members that are familiar to every metal fan including Max Cavalera of Sepultura, "Dimebag" Darrell of Pantera and Jimi Hazel of 24-7 Spyz, who have all paid respects to the band and particularly the riff-work of Fulton. In fact, Fulton has been working with Hazel on his side project Black Angus. With an intense live show and a merciless onslaught of heavy grooves, showering riffs grinding, robust vocals, and piercingly relevant lyrics, Cyclone Temple are a windstorm of delight for metal programmers starving for truly heavy music in the arena of Pantera and Prong. This one taste of Cyclone (to go along with the cassette sampler that you should have in your hands) will have to do for now until the full length is released in a few weeks, but "My Friend Lonely" won't leave you lonely because it should light up your request lines and dominate your airwaves.

# Top Picks

arkoma, Integrity (Red Light) After a strong showing for this Midwest band on the first single, "Blue Horizon", Sarkoma netted #2 most added its first week out with a big 32 adds. Now with the full length release in your hands, they show no signs of losing any momentum with a new add at WIYY and airplay at KEYJ, KDJK, KDZR, KZRX, WLFR, WMHB, WNYO, WRCN, WTPA, WVUD, and WXTB. With that nice jump out of the starting gate it seems that you like what you hear so far and

Integrity gives you many more examples of their savage vocal and six-string attack with the upbeat rhythms. "Tuesday" has a grinding groove to get you moving and the thick melody of "Hoveldaze" should catch your ear too. This quartet strives to explore new territories in both lyrics and songwriting, but still achieve that fierce intensity that is so appealing. With a Hard Hitters debut this week, and the full length just arriving, this new band is set to begin their climb up the charts.

**1 eed, "Doe" EP (Giant/Mechanic)** This unique quartet were discovered during the 1993 South by Southwest Convention, but not through the orthodox methods of industry bigwigs being dragged to a showcase. Producer Howard Benson stumbled across them during a late night iam session at their rehearsal studio. The ensuing tape found its way to Steve Sinclair and so now we have this eclectic, young (very young - the oldest member is 22) band available to please our

ears. This sampler off of their upcoming release Ling, which will hit the streets June 28th, features three tracks hand picked as the hard rock favorites. Four stations KQAL, WSOU, WTSR, and KLBJ - couldn't wait until this week and added Doe early. Their unique layered mix combines robust drum skills, ethereal melodies and even middle eastern sounds and string quartets to create songs that belie their years. Since this release has already been circulating through the college music ranks (particularly in alternative), some of you may have already found it. If not, take the time to plant some Seed and enter their dreamy world.

epressive Age, Lying in Wait (CMC International) O.K. We may complain about having a rough day, maybe someone bitched at you, stressed at work, or any other number of things, but compared to the day to day existence that these musicians grew up with, we live a rosy life. Originating behind the Iron Curtain in East Berlin under the name of Blackout, they were trained on the early Judas Priest, Black Sabbath and Metallica school of thought listening to records that they found

on the black market for \$60 to \$120 a piece. That should really make you appreciate the free CDs. Eventually they escaped to West (i.e. free) Berlin for the freedom to write lyrics that won't be censored by the government, but not before vocalist (then drummer) Jan Lubitzki was caught and jailed for 14 months. Once they made it over they became Depressive Age and soon became one of the most popular bands on the heavy German scene and eventually all over Europe. You can hear the effect of their classic metal influences and even similarities to Iron Maiden and fellow Germans Helloween, on tracks like "Way Out", "Berlin", and "The Story". The title track and opening cut has sinister guitar hooks creating an evil atmosphere to be accentuated by **Lubitzki**'s piercing cries. They have finally reached the final stage - entering the U.S. market - of their musical journey which began many years ago in what could easily be termed a depressing age and place.

🕇 katenigs, What A Mangled Web We Leave (Red Light) The kings of slapstick hardcore have come storming back with the menacing romp of the first single "Regret", which has new adds at WMMR and WKNC to go along with airplay at KISS, KQAL, WRFL, KDJK, KUNV, WTPA, WVBR, and WZMB. If you're looking for the tongue in cheek satirical humor, like their previous offering Stupid People Shouldn't Breed, this release will not disappoint; with songs like "Ranch Apocalypse" - about David Koresh and "Family Values". Brand new to the fold are scattered sam-

ples and industrial textures that inject additional strength to songs like "Passion for Destruction" and "Parasites". Either they are brilliantly clever or the Texas heat has warped their brains. Whichever it is we can still enjoy their furious brand of southern baked mayhem. So take this opportunity to jump in the web and party with the Skatenias

## Single Matters

S epultura, "Slave New World" (Epic/Roadrunner) As if any of you really need a reason to play Sepultura, especially a killer track like this one, but our favorite Brazilian wonders are on the most brutal concert tour of the summer with Pantera and opener Biohazard or Prong. After dominating the airwaves for the past six months there is no reason for any of you to let up

now that you have a new track to play. "Slave New World" slams out at a hurricane pace, driven by Igor Cavalera's consummate drumming and a constant barrage of guitars. If this track isn't enough for you, pop on their brutal live version of the Motorhead classic "Orgasmatron" or check out the punked out hidden track at the end. After all, aren't we all actually just slaves in Sepultura's world?

S oundgarden, "Black Hole Sun" (A&M) After all the years of championing the abilities of this somber band, their day has finally arrived. Their metal fans provided the sturdiest of any base for them to build on, and while the band does not forget its roots, we have to make sure that the roots don't forget the band. If Soundgarden is selling

millions of units we should play more of them because we really understand what is so special about this band. "Black Hole Sun" was embraced by COR/AOR radio even before the official add date, and this single not only houses that potent, enchanting song, but also a couple of gems for the B-sides with metal radio specifically in mind. A live version of "Beyond The Wheel" is classic Soundgarden with Cornell hitting high notes that could break wine glasses, at the polar opposite of Thayil's dense rolling-in-the-mud guitar work. If that isn't enough, try out the remix version of "Spoonman" for some extra flavoring. There are many angles of Soundgarden on this single, so pick your side and start play-

herapy?, "Die Laughing" (A&M) This Irish band ▲ is fresh off tours with King's X and Rollins Band where they garnered rave reviews and pulled in new fans. They are set to kick off the Black Sabbath tribute record with their version of "Iron Man" (with Ozzy on vocals of course) in August. The LP made it up to the Top 15 in the Hard Hitters where they are still holding their own on a jam packed chart,

from the strength of the first track "Knives". Many of you metal programmers have been raving about this band since Nurse came out and it is time to make the difference and help take this band over the hump. They are coming at you with the demented yet melodic follow up from the <u>Troublegum</u> release in "Die Laughing". you are looking for something a bit different, try out the B-side "Tatty Seaside" Down", with its raw sound and guitar melodies that have a ring of classic Maiden sped up and warped. With all of this ammunition in their powder keg, and this catchy riff-packed song on your desk, this trio is ready to explode, they only need you to light the match.

L ife of Agony, "This Time" (Roadrunner) This New York City band has been impressing us since their appearance at the Foundations Forum kick-off party (if you could get in), and it is no surprise that they are still holding their own on the Hard Hitters chart. Keith Caputo's vocals seem to rise up straight from his soul to haunt over Joey Z.'s rich guitars and the force is under

scored by the emphatic rhythm section. They also will be hitting the road this summer with Carcass in a co-headlining tour sure to hit your town, so be sure to keep **Agony** on the airwaves with "This Time"; or to prime your listeners for the life show, give the live version of "Through and Through" a whirl. Don't make any mis takes this time and add "This Time"

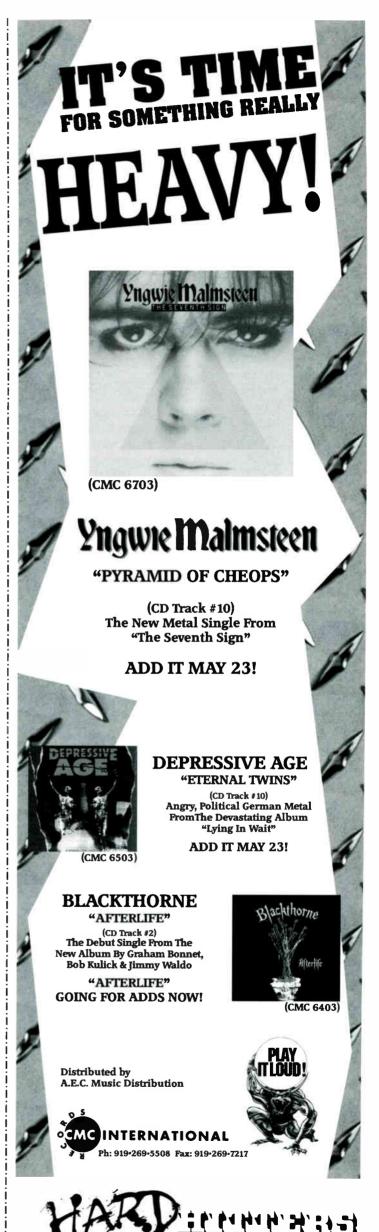

ngwie Malmsteen, "Pyramid of Cheops" (CMC Y international) As many of his fans are aware, Yngwie has always had an interest in Egyptian mythology, but on his latest single off The Seventh Sign, he brings this influence into his song melody to compliment his characteristic blazing fretwork, with a pace similar to that of "I Am A Viking" from his earlier work. Malmsteen is also off to

a blazing start at metal radio with a #1 Most Added slot the week it came out, and has climbed into the top 30 of the Hard Hitters chart. With 18 stations currently charting the LP, including increases at KIBZ and WDHA, plus heavy rotation on KSHE, KUNV, WDHA, and WTSR, it is apparent that his skilful technique is always of interest to metal radio. Take advantage of the second opportunity to enter the reverie of Malmsteen's world

E leven, "Heavy" (Hollywood) After months of steady but strong support from dedicated programmers and fellow musicians, it looks like the payoff time is getting closer for the performers in **Eleven**. With a early fall release in '93, they are one of the current entries on the Hard Hitters chart with the most longevity, and still hold their own at #36. With the middle slot on the coveted

Soundgarden tour and a top 20 record at COR radio, they are poised to reach out to even more listeners than ever before. For those of you who have been with this band since the beginning, you now have "Heavy" in your hands to focus your airplay and prime your listeners for a show in your area. So let your fans know what Soundgarden and Pearl Jam have already figured out: that these cats are cool. Besides, while most cats have nine lives, this cat obviously has eleven!

When **Prong** dropped by the **KDZR** studios frontman **Tommy Victor** gave KDZR's **Tracey Barnes**, bandmates **Ted Parsons** and **Paul Raven**, and Z-ROCK's **Craig Dori** a visual lesson in the happenin' retro look of the '90s. Now, what Paul is doing with the phone is another matter altogether.

As amazing as it seems here in this Kodak moment you can see **Infectious Grooves** frontman **Mike Muir** sitting still - hard to believe after experiencing first hand the full throttle energy of the band's live show! Mike and the rest of the reptilian rockers are seen here keepin' the fans happy at a recent in-store held March 31st at midnight in Los Angeles.

Warner Brothers' metal goddess Linnea Nan is sandwiched between two impressive representatives of the radio-type species - WDCR's Tommy Olcott and KEYJ's J.J.

As we all know **Stanley** (of Life, Sex & Death fame) is not the only one waiting to open the doors into the world of **Biohazard**! The doors captured here bearing the Biohazard seal of approval are the front doors of the **Warner Brothers** building in L.A.

Mingling on the streets of Brooklyn are Mutha's Day Out and Biohazard. Oddly enough the two bands were lensing video clips for "My Soul Is Wet" and "Tales From The Hard Side" (respectively) on the same street in Brooklyn. ERG Veep Michael Schnapp luckily was on hand for band introductions. Pictured are: Evan Seinfeld (Biohazard), Michael Schnapp (ERG), Bobby Hambel and Danny Schuler (both of Biohazard), Chuck Schaff, Jeff Morgan, Brice Stephens and Mikel Moore (all of Mutha's Day Out), Billy Graziadei (Biohazard) and Rodney Moffit (Mutha's Day Out).

"Everyone Except For Me"

# PROGRESSIVE

# CHOKE

he Church, "Two Places
At Once," Arista The
Church possess a sound and
an overall identity that makes them
instantly recognizable. Their solid run
of hits at the format in the mid-eighties
established them among fans the world
over. And they've grown with each
release — for this one, they've been left
without the services of Peter Koppes,
who left the band to pursue his own
musical interests. Their ninth album,
Sometime Anywhere, is a perfect dis-

pay of how Steve Kilbey and Marty Willson-Piper have come together as artists, able to adapt to new styles and environments for the sake of their music. Free of the obligations" to satisfy everyone's individual songwriting needs in the band, the duo took to the studio and gelled, resulting in a record markedly different than any previous effort. Many of the songs on the album were first takes, and the whole record was recorded in a relaxed atmosphere. The lead track features something that has never before been done on a Church record: a duet between Kilbey and Willson-Piper. Early adds at 91X, KNDD and KBBT, with a slew aspected this week.

SEAL

Seal, "Prayer For The Dying," Stre/Warner Bros. Back in '91, the world embraced "Crazy" in a big way, making Seal an international star of megaproportions. And, since he's laid pretty low for the past couple of years, we weren't quite sure what had happened to him. Would he go the way of countless other artists with that one smash then fade away? Or would he come back, like many, and release a banal record to earn a few extra bucks for his trip into oblivion?

Fortunately, neither has happened as his latest record (like his first, also titled "Seal") provides an ample showcase for the man's talents, as he displays the reasons that made so many people buy his record in the first place — agile vocals combined with a a distinct, atmospheric groove.

Rust, "Everyone Except For Me," Atlantic
Ever since this band formed in San Diego in 1991,
they've garnered massive attention. And they've dealt
with it on their own terms. For instance: when it came
time for the A&R world to notice them, the band
refused to showcase in L.A., instead making whoever
was interested come down to San Diego and see them
at the Casbah. Their place in the S.D. scene is defined
by the band's attitude — one of headstrong indifference

and a serious sense of identity — as well as their bombastic guitar-infused brand of rock. This release is from their debut, a self-titled EP filled with dusty rage. Look for them to be touring massively throughout the summer. **91X**, always supportive of their hometown bands, is already raging hard on this.

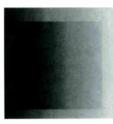

Renegade Soundwave, "Renegade Soundwave," Mute/Elektra This could very well come from out of left-field and prove to be a total smash. This group describes its sound as being "about the experience of growing up in London," as the songs paint pictures of the city's underworld, doing so with aplomb and a fiercely experimental mindset. Utilizing a luminous acoustic guitar strum as the base for the groove, the track incorporates elements of

house, industrial and hip-hop to result in a highly original piece of dance music, catchy as hell, and easily suited to the format. 'Sides, you know any song in which you can find the line "Hiccups with my pick-ups" is cool.

# The Elastic Purejoy

The Elastic Purejoy, World Domination
Dave Allen's coming out. You remember him as
Gang Of Four's original bassist, from Shriekback, then
on to King Swamp and, most recently, Low Pop
Suicide. For the first time in his career, Dave's totally
the focal vocal point, leaving the bass mostly to others
on the recording and live. One of his strongest elements is the lyrics, often dark and moody, yet present-

ed in a palatable manner. Musically, it's electric yet minimal, with forceful tempo. Strongest tracks are the single, "An Element Of Doubt," "Caxton Vs. The Fourth Estate," "Brian Eno's Stiff" and their cover of Sebadoh's "Soul and Fire." Considering Dave's a neighbor, you can call them an Arizona band. (Jonathan L.)

Rat Tuesday, "High And Low," Red Decibel/Columbia This Minneapolis band has made their mark touring incessantly all over the country, as their brand of high-energy pop bombast has garnered a loyal fanbase. Their sophomore effort, Everybody's Got One, is replete with various musical moods and instrumentation, and serves as a fine exhibit of the band's versatility. The lead track, with its straight-ahead rock delivery and acute overall style has

been jamming out at the Minneapolis stations, and we expect the band to make some waves nationally very soon.

rash Test Dummies, "Afternoons and Coffeespoons," Arista Here's the skinny: the band is out doing some prime gigs with Elvis Costello through most of the summer, the sales of the record are over 1.3 million (remember, it's only off of one single). We'll let the programmers speak: Halloran says, "Love it, dig it, it's totally groovy. Good follow up. Harder to spell, but nonetheless equally as catchy."

"MQMF's Randy Starr opines, "A smash follow up to "MMMM." Great phone reaction. A band you can't lose with." And WOXY's Julie Forman offers, "We had it in test rotation for a while, but with the distinct vocals of Brad Roberts, people recognized it and it caught on quick."

Therapy? "Die Laughing," A&M The band is set to attack us once again as this, their second single off <u>Troublegum</u>, gets set for the massive push. You say you're playing too much heavy stuff? No room for more? Well, let's not forget that your listeners have already developed a kinship for the boys from Belfast, and they're undoubtedly ready to embrace this one, arguably the strongest track on the record. With a song for the perpetually strung-out, Therapy? forays with a

stream of searing guitars and taut, relentless vocals. (Jon Marston)

The new Stevie Nicks album, due out in early June, features Bob Dylan playing guitar and harmonica on her cover of "Just Like A Woman." "He didn't want to do anything on it, until I begged him," Nicks says. "I told him, 'There's got to be some sort of spiritual connection. There are some people who will have never heard this song, and it's got to have you on it. I won't cover one of your songs if you won't be on it." Nicks' album also includes a tribute to Greta Garbo called "Greta," and "Jane," a song written for chimpanzee researcher Jane Goodall. "Jane's one of the few people who understands the emotions, and suffering, of chimpanzees," Nicks says. "She's the most incredible person. She gave up her whole life for them." The "Street Angel" album also includes two songs written over 20 years ago — "Destiny" and "Rose Garden." "I've tried to record those songs a few times over the years," Nicks explains. "I knew they were good songs, songs that people would be able to relate to. But there would always be a little voice that told me it wasn't the right time. So this time, I just said, 'Let's try again. Let's see if this group of musicians can do it.' And they did.'

Sebastian Bach of Skid Row doesn't think Kurt Cobain should be compared to John Lennon. While both were "incredibly gifted songwriters....as inspirational figures, the two could not be more distant." Bach says Lennon sang about peace and starting over, while Cobain sang of apathy, lithium and "just may have inspired a generation to think that suicide is the only way out." "Suicide is the ultimate act of selfishness. Megalomania. Cowardice," Bach says, adding that he feels "heartbroken" for the young daughter Cobain left behind.

ohn Mellencamp says his upcoming album "Dance Naked" is "as stripped-down a record as you're going to hear. All the vocals are first or second takes and half the songs don't even have bass parts. Others have just one guitar, bass and drums, which I haven't done since 'American Fool.' That album's hit 'Hurt So Good' — had one guitar, bass, drums and a tambourine." Mellencamp is planning his biggest tour in over a decade in support of the album, even though a few years ago he was talking about retiring. "When I wrote 'Pop Singer' in 1989, I didn't see any value in being a recording artist and was embarassed to be in the business," Mellencamp says. "Now it's, 'Do your fucking job, Johnny, and quit complaining about it!' Nothing's forever, just the next thing. That's how life is, that's how music is. This isn't forever, just the next fuckin' thing." Mellencamp plans an arena tour that includes dates in Canada in July and in the U.S. in August and September. Mellencamp will be accompanied by veteran band members Kenny Aronoff, Toby Meyers, Mike Wanchic

ranberries singer Dolores D'Riordan has undergone major surgery on her knee following a skiing accident. She'll need time off to recover from the damage to her ligament. The band had been working on a second album with producer Stephen Street. Six tracks had been completed in six weeks, but future recording sessions are on hold until O'Riordan recovers. The new material is said to be heavier than songs on "Everybody Else Is Doing It, So Why Can't We?"

anadian singer **Jane Siberry** appears on the new **Indigo Girls** album "Swamp Ophelia." While Siberry contributes backing vocals to two songs on the album, her name is repeatedly misspelled (as 'Sibery') throughout the album's liner notes.

A fter the release of "Symphonic Music Of Yes" and the just-issued "Symphonic Music of the Rolling Stones," you can expect to see similar albums with the music of the Who, Procol Harum and Jimi Hendrix. Procol Harum's Gary Brooker will produce that band's LP, while Eddie Kramer will produce and engineer the Hendrix symphonic music album.

econstruction, a group that included two former members of Jane's Addiction, releases a self-titled posthumous album in mid-July (on American Recordings). The band broke up after guitarist and vocalist Dave Navarro joined the Red Hot Chili Peppers earlier this year. Bass player and vocalist Eric Avery says he's ready to do something now that "is very different from what Deconstruction was."

Leon Redbone has a new album just out (on Private Music) called "Whistling In The Wind." The LP includes a duet with Merle Haggard called "Settin' By The Fire," and there's another song inspired by Haggard called "Truckin" 101. "Ringo Starr duets with Redbone on a song called "Little Grass Shack."

Enuff Z'Nuff has released a remixed version of its "1985" debut album (on Big Deal Records). In the liner notes to the album, Howard Stern says he wants the world to discover the band "before they end up choking on their own vomit in a dilapidated hotel room."

Rhino Bucket releases a new album at the beginning of June (on Moonstone Records). The album is the first since Simon Wright of AC/DC joined the band late last year. Some of Caroline's original DJs will participate, according to the (Manchester) Guardian newspaper. A vessel will be anchored off the county of Essex for a month of broadcasts, the report says. R ocker **Dwight Twilley** has published a book ⊾called "Questions From Dad," inspired by the way he's kept in touch with his daughter after becoming separated from her because of a divorce. Twilley lives in Los Angeles, but his daughter, Dionne, has been living in Oklahoma and Arkansas. Twilley originally just wrote letters to keep in touch with her, but decided to start sending her questionnaires she could answer and mail back to him. "I'd send long letters with drawings and stories, just trying to communicate and I felt really good about them until I put them into the mailbox," Twilley says. "Because as soon as they were in the mail, it was just like they disappeared. That was it. They were gone. I didn't really know what she thought about them. There wasn't really much response." Twilley thought about what he was like when he was 10 years old, his daughter's age at the time. "It made me recall how when I was about her age, a teacher surprised my class with a test on the first day of school. Everybody was grumbling and moaning and all that, but it turned out that this test was kind of fun. It was like, who would you like for your girlfriend or boyfriend? and I thought, you know, that's an idea. So I decided to create my own personal, fun questionnaire that I called 'the Dad's test.' And it just really worked. It kind of created a magical interactive dialogue....The very first response was written in big letters, 'Dad, send more.'" Twilley says the quizzes have helped him learn about "the little things, the funny things, and the things that would be just day-today chatter, and dialogue between us that to me actually eventually became more important."

Singer Rita Coolidge has been awarded \$750,000 by a judge in Los Angeles who found that her record label (Caliber Records) breached her contract. Judge Robert Letteau found the label violated its deal for Coolidge's 1992 album "Love Lessons" by failing to properly keep track of album sales and money that she was due. Rights to the album and related merchandising will now go to Coolidge. "There was a clause in her contract that if they didn't keep an accounting, all the rights would revert to Rita," says Coolidge's attorney, Susan Butler. "Nobody was paying attention to us when we said 'stop."" The judge ordered the label to pay \$251,825 in compensatory damages and interest and also pay \$500,000 in punitive damages. It was also ordered to pay legal fees.

"In usic is a religious decision. There is no cure, no antidote. It is an addiction." That's what **Sting** told graduating students at the Berklee College of Music in Boston after he was given an honorary degree. "Whether you make a million dollars or not one cent, music is a priceless gift," he said.

iz Phair will have a new album out in early September.

Im Gordon and Thurston Moore of Sonic Youth are expecting their first child in June. If they decide to tour in support of their new album, "Experimental Jet Set, Trash & No Star," they'll bring the baby along, Gordon says.

The Rollins Band won't be playing songs from "The End Of Silence" when it begins a U.S. tour in July. Instead, they'll only play new songs, including tracks from the new album "Weight." The move is in deference to new bass player Melvin Glbbs, who hasn't had the chance to become familiar with all of Rollins' repertoire.

**King Missile** have just released an eponymous album (on Atlantic Records) that includes 17 cuts produced by Daniel Rey. "Songs like 'Love Is..' and 'Let's Have Sex' are the result of writing a lot about love," says frontman **John S. Hall.** "I think it's the most important topic, and this is the first time I've started to get it right."

T. John details his 34-year heroin habit in a new autobiography called "Under A Hoodoo Moon." "Somebody might get a picture and learn something from my mistakes," he says. "You ain't got to mess up like that." Dr. John, whose real name is Malcolm Rebennack, kicked his heroin habit in 1989 and has since released three albums. His latest LP, "Television," includes a duet with Anthony Kiedis of the Red Hot Chili Peppers and a cover of Sly & The Family Stone's "Thank You (Falettinme Be Mice Elf Agin)."

Andy White says he moved away from poetry as an inspiration for song lyrics on his new album, "Destination Beautiful." "Some writings demand to be left on the page, others demand to be heard time and time again on albums, or as interpreted not by one but by a group of musicians in a studio or on a stage," he says. "As a songwriter, it's important to make this distinction." White's new album is also less political. "The more explicit political songs may reappear at some point but they simply don't fit on this album. And the point is that I've been really upfront about subjects like the religious divide in Northern Ireland," which White touched on in his very first album.

**Gone** will release a full-length album this summer (on SST Records) called "All The Dirt That's Fit To Print." Gone's "Smoking Gun" remix record is becoming the best-selling remix record its label has ever had.

lex Patterson of the Orb may work on a remix album for Primal Scream. "It's been mentioned, but nothing's definite and probably won't be until they gauge how successful 'Give Out But Don't Give Up' is going to be," Patterson says. "Personally, I think it's a shame they took so many risks making a groundbreaking record like 'Screamadelica,' only to then...well, you know." Patterson has remixed tracks for Big Audio Dynamite and U2, but the latter never saw the light of day. "We totally re-arranged 'Numb,' giving it a sort of a jazz feel but apparently Bono couldn't get his head 'round it and that was that," Patterson says. "It's a shame because it would've given them the sense of adventure and bravado that they need at this stage of their career."

Erasure soon release a new album called "I Say, I Say, I Say." It's the first release from the band since "Chorus" came out three years ago and it's produced by Martyn Ware, a founding member of the Human League and Heaven 17. A few years ago, Erasure had an EP of covers of Abba tunes. And Abba cover band Bjorn Again then released a record of Erasure tunes. But Vince Clark says Erasure won't be doing any more covers. "I don't think it's healthy actually," he says. "It doesn't achieve anything. The musical cause doesn't advance."

**K** ISS play on one track of the upcoming "KISS My Ass" tribute album. **Paul Stanley** says they joined **Garth Brooks** for a track on the LP. "Garth said, "Hard Luck Woman" works best for me but I'll only do it if you guys record it with me," Stanley explains. "So we hopped on a plane with our acoustic guitars and flew to Nashville and, when we got there, we hugged each other like we'd known each other all our lives."

Texas trio **Sunset Heights** has an album called "Texas Tea" just out (on Viceroy Music) produced by **Cream** lyricist **Pete Brown**. The band's album includes a new version of Cream's "Politician," featuring lyrics Brown wrote for Cream that were never recorded. "I haven't seen a band where the drums follow the guitar in such a close manner since Cream," Brown says of the band. Sunset Heights are described as offering a "Hendrix/Vaughan brothers" style of guitar-driven blues.

**counting Crows** takes its name from an old English rhyme that suggests life is as pointless as counting crows. "I think this is certainly a generation in search of who they are as Americans," says lead singer **Adam Duritz**. "All of my characters and myself, I suppose — are constantly searching for something....All over there are people crying out wanting to be rooted, wanting to have a home, wanting to have someone and being unable to stay once they have it, because they get there and they can't stand the attachment so they go looking for something else." Duritz admits having mixed thoughts about the band's success. The band's debut album, "August And Everything After," has now sold over 1.5 million copies. "I never felt comfortable with myself before now. When I'm onstage, I'm everything I wanted to be," Duritz says. "I'm happy with the fame in a lot of ways. I won't deny that. But it's kind of scary. Something has definitely changed in my life, and I can't go back now if I wanted to."

**C** reg Ginn releases his third solo album in less than a year (on SST Records) in July. "Let It Burn (Because I Don't Live There Anymore)" is the name of the upcoming LP from the former **Black Flag** and **Gone** guitarist. Ginn's currently on tour and will take some time off to record more new material before hitting the road again in August for a five-week North American tour.

**Bill Mallonee**, guitarist and vocalist for the **Vigilantes Of Love**, says there's no contradiction in the band's name. "To be a vigilante is to be vigilant, to be strident about something, and if you take that in terms of love, you've got something that should be very consistent," Mallonee says. "It hurts to put your heart and soul under the magnifying glass. I think the world is shot full of contradiction and paradox, and I love that. Some of my favorite artists are people like **Tom Waits**, who seem to be in touch with the whole dark side and are poetic about it. It rings true. I wish more music would deal with those issues."

In Irish folk record is being released in Britain following its use on a BBC-TV program. "Riverdance," performed by the RTE Concert Orchestra with a traditional group named **Anuna**, was featured on a program called "Points Of View." A video clip of the song, in the style of **Enya**, was screened during the recent Eurovision Song Contest in Dublin, though it was not part of the competition. The record has already topped the Irish charts and is being released in the U.K. on (Son Records.) a subsidiary of **U2**'s Mother Records label.

ave Sardy of Barkmarket has produced the new album from industrial band Cop Shoot Cop. "I had a couple of weeks off, they asked me to produce, and I said, 'OK, if it's quick,'" Sardy says. Sardy will also be engineering the next album from the Red Hot Chili Peppers, which is being produced by Rick Rubin. Barkmarket releases a new EP in mid-July called "Lardroom." "The lardroom is the place in the slaughterhouse where all the fat is trimmed," Sardy explains. "That's the approach we took on this record — cutting all the fat away, doing it live, underthinking and underproducing." Barkmarket plans a midwestern tour this summer, followed by European festival dates and then more U.S. concerts.

**Green Day** has been added to the line-up for this year's Lollapalooza tour. The band will have the opening slot on the last half of the tour. The **Boredoms** will open shows during the first half of the tour dates, which begin in early July.

**S** an Francisco-area band **Samiam** is recording an album with producer Lou Giordano (for Atlantic Records). The album should be out this fall.

**Trotsky Icepick** have a "sort of" retrospective album out (on SST Records) called "Hot Pop Hello." The LP includes outtakes and previously unreleased material, including the band's first recording, which they describe as "the Danny & The Doorknobs theme song."

**rangutang** are releasing their debut full-length album (on Imago Records), called "Dead Sailor Acid Blues." The Boston quartet recorded the album at Bearsville Studios. **Christian Dyas** says the band "learned to take our time and not make snap judgements" on this record, allowing more time to record the LP.

Francis Dunnery calls his old group, It Bites, "a very strange band." "On video we looked like the fucking Osmonds, on record we sounded like 10cc, and live we were like the Mahavishnu Orchestra meets Rush."

**Opus III** releases a new album in mid-June called "Guru Mother" (on EastWest Records). "When You Made The Mountain" will be the first single. The band had a hit in 1992 with "It's A Fine Day."

uitarist Clay Fuller says Allgood is not a "Southern rock" band.

"'Southern rock' has connotations, especially lyrically, that don't apply to us at all," Fuller says. "It's a very confining term. I think 'Southern music' is more like it." The band's new album, "Kickin And Screamin," was recorded live in Augusta, Georgia. "After two studio records, we wanted to give something to the fans who are always coming up to us and asking us to do a live record," says vocalist Corky Jones.

**B** uju Banton was named Entertainer of the Year, Recording Artist of the Year, Most Outstanding Stage Personality, Best Male DJ and Performer of the Year at the 13th annual International Reggae Music Awards given out May 7. photographer has filed a \$1 million lawsuit against Michael Jackson claiming Jackson failed to intervene as two bodyguards beat him up and took his film. The federal court lawsuit claims "John Does I and II" attacked freelancer Alex Oliveria in New York City's Central Park on March 31 after one of the bodyguards demanded Oliveria's "film or I will break your neck." Oliveria's lawsuit claims he suffered severe permanent injuries, sleeplessness, anguish and distress because Jackson failed to discipline, train or supervise his bodyguards' conduct. Jackson is currently in New York recording a new album while staying in a three-bedroom Trump Tower apartment overlooking Central Park.

\$1 million lawsuit has been filed in federal court in New York by the widow of composed Nelson Riddle saying he should have been credited for Natalie Cole's updated version of "Unforgettable." Naomi Riddle's action contends Nat King Cole's 1953 version used Riddle's arrangement, but Jonny Mandel was credited as arranging the version released three years ago. "No credit was given to Riddle for his arrangement that was used in most of the 1991 version," the lawsuit says.

A Atlanta-area police officer has sued rapper **2Pac Shakur** for \$10 million claiming that Shakur shot him outside an Atlanta hotel last Halloween. A complaint filed in Dekalb Superior Court by Henry County policeman Scott Whitwell claims Shakur shot him in the left buttock, causing serious injury and leaving him with medical costs, mental and physical pain and suffering. "The facts will show that our client, who was unarmed, and his sister-in-law, who was also unarmed, were running for their lives when Tupac Shakur opened fire at them from a considerable distance," says Thomas Blaska, an attorney for Whitwell. Shakur is still facing an aggravated assault charge in connection with last year's incident.

**Paula Abdul** and actor Emilio Estevez are divorcing, citing irreconcilable differences. The couple had been married for two years.

**Luke** of the **2 Live Crew**, has been charged with aggravated assault for allegedly threatening to shoot his wife in a Miami suburb. "They were having a verbal altercation over their relationship and the altercation escalated to Mr. Campbell pointing a gun at her and saying 'I swear I will kill you and dump you in a lake somewhere," according to police spokesman Patrick Brickman. Campbell was released on \$7,500 bond.

His loving hands could not protect him enough. He must live with that. José Mercedez Sotz Caté and his son, José Estuardo Sotz Alvarez. In 1986, armed men, believed to be government agents, opened fire. Young José caught the bullets intended for his father, a Guatemalan trade union leader. The Wonder Stuff may be about to split, according to strong industry rumours reported by both the New Musical Express and Melody Maker. The rumours began shortly after the release of last year's "Construction For The Modern Idiot" album. Now, it seems as if the band's headlining appearance at July's Phoenix Festival, which is held on a site in the Midlands of England, may be a farewell concert. The band's British manager Les Johnson told the New Musical Express: "I'm not prepared to confirm comments made in the Gavin Report (a reference to The Wonder Stuff's American manager Steve Rennie telling that paper the band were close to splitting), but a full statement concerning the band's future will be issued next week. Two reasons are being cited for the possible break-up of the group. The relationship between frontman Miles Hunt and the rest of the band is said to have been broken down. There are also reports of difficulties between the band and their UK label Polydor. An EP of new Wonder Stuff songs is expected prior to their Phoenix show, while "Greatest Hits" and live albums may be in the pipeline as well. During an eight-year career, the Wonder Stuff have released four albums. All made the British charts and the band recently broke through the mainstream in Europe.

ike Scott of The Waterboys has returned to the live stage. The singer/songwriter played in front of 250 people at a fundraiser for a "New Age" community called the Findhorn Community, which is based in the Scottish Highlands. Scott has spent time as a resident with the group, but has now moved to a cottage. The Findhom Community encourages its members and many visitors to meditate and practice deep breathing exercises. Scott said of the show: "A gig like that really puts you in touch with the audience and

makes you feel good if it all goes well. I have really got the bug now and I want to play all the time. It is far harder playing to 200 odd friends than 50,000 strangers."

Primal Scream have provided the music for a forthcoming British television programme about the legendary Brazil soccer team of 1970. With such stars as Pele, the team won that year's Mexico World Cup. The film, put together by former Jesus and Mary Chain bassist Douglas Hart and Mike Alway, shows footage of the Brazil team set to Primal Scream's "Higher Than The Sun", "Shine Like Stars" and "Screamadelica". The film will be broadcast by the BBC2 television network at the end of the month. Elsewhere, Primal Scream's next British single will be "Jailbird", available via Creation on May 30. B-sides will be remixes from the Dust Brothers, Sabres Of Paradise and Kris Needs.

ittle Angels have split. A statement from the band says their show at London's Royal Albert Hall on July 2 will be their final appearance. The rest of the statement reads: "The five members wish to have the freedom to move forward and pursue new interests in music, having decided that they have taken the band as far as it can go. They intend to go out with a bang at the Albert Hall, which will be their biggest-ever headline gig and a fitting way to celebrate the end of ten successful years together."

Jimi Hendrix' face lit up London's famous Battersea Power Station and the headquarters of MI5 (part of the British secret service) in the early hours of May 9. The projection was organized by The Beautiful People, who sampled Hendrix on their "If 60's Were 90's" album. Hendrix' face appeared along with lines from "If 6 were 9": "White collar conservatives/Pointing their plastic finger at me." The stunt was in protest at the Criminal Justice Bill. As previously reported in The Hard Report, many see this legislation, currently before the British Parliament, as an infringement on civil liberties.

The Anti-Nazi League say the far-right are attempting to disrupt the forthcoming ANL Carnival. The free event, to protest against the recent growth in neo-tascist groups and racist violence, takes place in London's Brockwell Park on May 28 and features such artists as The Levellers, Incognito. Manic Street Preachers and Credit To The Nation. The ANL claim far-right groups have been spraying "Cancelled" over posters for the Carnival to try to discourage people from attending. However, they point out that a music license has been obtained and that the show will go ahead.

Luture Sound Of London have been experimenting with interactive technology. The dance/techno band sent a set performed at their north London studio via modern to the studio of BBC Radio One network DJ Pete Tong, who broadcast it on his Essential Mix show. Listeners were given a telephone number which allowed them to enjoy the broadcast complete with computer images if they were hooked into the computer network Internet. Future Sound Of London have a "virtual tour" of similar shows set up via various radio stations through the rest of this month and early June. Elsewhere, in more conventional mode, the band's new album, "Lifeforms" is released via Virgin on May 23. A video of the same name, featuring many of the graphics used during the band's broadcasts, will follow in June.

The Raincoats, who reformed after interest from the late Kurt Cobain, are set to release their first new material in 11 years. "Extended Play", a four-song EP, will be released via Blast First on May 31. The group, who feature original members Ana De Silva and Gina Birch, violinist Anne Wood and Steve Shelley, guesting between his Sonic Youth duties, have a short British tour lined up to support the release.

The Isle Of Wight and Chelmsford festivals have both been cancelled. The Isle Of Wight Festival, which had been due to take place from July 14-17, was cancelled due to organisers running out of time to assemble a bill. Promoter Ray Foulk, who was said to have confirmed The Levellers and been in negotiation with Bob Dylan, had hoped to build the festival into a 120,000 capacity event over the next five years. Foulk put togeth er the legendary Isle of Wight festivals at the end of the '60s when such artists as The Who and Jimi Hendrix performed. Last week, a spokesperson commented: "It became a time thing. There wasn't time to get the whole thing in place and do it properly. Rather than have a scaled down event, the organisers felt it best to postpone it and do it proper justice next year. There's no great rush. They've waited 24 years to get the festival together again, so one more year isn't going to make much differ-ence." The Chelmsford Festival (due to run from July 29-31), where organisers were rumoured to have approached Primal Scream and James, was called off for similar reasons. A spokesperson for promoters MCP said: "The only thing we couldn't confirm we were satisfied with was a good enough bill within the time we needed to promote the event." With two dance-oriented festivals also cancelled this year, these latest developments are causing many to ask whether there are too many promoters trying for a limited market. In this context, it's worth noting that established events such as Reading and Glastonbury are almost certain to attract some customers who may not be able to afford to attend more than one or two events. Also, the Phoenix Festival, now in its second year, is backed by the financial muscle

of the Mean Fiddler Organisation (who own several major London venues).

The Monopolies And Mergers Commission, a Government-appointed body, have reported that Compact Discs are not overpriced in the UK. The Commission had spent several months investigation the pricing of CDs, which are far more expensive in the UK than in other parts of the world. Although their report has yet to be officially published, enough leaks have emerged to give an idea of the Commission's findings. Consumer pressure groups have condemned the report.

John Lydon faces libel action from London lawyer Sleven Fisher. Fisher says passages in Lydon's book "Rotten: No Irish, No Blacks, No Dogs" are defamatory. Fisher is also suing the book's publishers Hodder and Stoughton and its printers Mackays of Chatham. Finally, the lawyer has taken out an injunction seeking to block further publication of any copies of the book containing the allegedly defamatory passages.

Yes singer Jon Anderson has been declared bankrupt. However, some confusion surrounds how the British High Court decision was arrived at. Sources in Britain claim Anderson filed the bankruptcy himself, but this is refuted by Anderson's American lawyer and manager Linda Benjamin. Benjamin says: "The Inland Revenue filed something but nobody got notice of the proceedings so nobody showed up." Benjamin, who intends to mount a legal challenge against the decision, also notes: "Jon is not bankrupt. His assets exceed his liabilities, so the judgement is not valid." Anderson has made no comment on the matter.

These Animal Men and S\*M\*A\*S\*H, both bands who have gained attention as part of the so-called New Wave of New Wave, look set for busy summers. These Animal Men have a five-track EP, "Too Sussed", scheduled for a late June release and will release their debut album in September. S\*M\*A\*S\*H, who tour the UK through late June/early July and are scheduled to perform at the New Music Seminar, will release their debut album in August.

**Thieves**, who were about to release their debut album, have split. The highly-rated band had been attracting strong UK press attention and looked set for a commercial breakthrough. Singer **David McAlmont** is to continue performing Thieves material with a new band, also known as **McAlmont**. Industry rumours suggest McAlmont sacked fellow Thieves member **Saul Freeman**, but that Freeman then slapped an injunction on McAlmont holding release of material and preventing the use of the Thieves name.

an Hunter, former lead of Mott The Hoople, has two albums re-released this month. Both date from his time with Chrysalis Records. "Welcome To The Club" was originally released as double vinyl set, but is now available on CD for the first time. As well as the tracks contained on the original album, "Welcome", also features additional rare live material: "The Golden Age Of Rock N'Roll", "When The Daylight Comes", "One Of The Boys" and "Medley". "Short Back And Sides" was produced by The Clash's Mick Jones and the late Mick Ronson, who worked extensively with Hunter. The album is being re-released with an additional 13 track CD of outtakes, demos, and rarities entitled "Long Odds And Outtakes". Hunter made three albums for Chrysalis. "You're Never Alone with A Schizophrenic" was re-issued as part of the label's recent 25th anniversary celebrations.

#### KIRKSTER AND STASH, WIYY, BALTIMORE 301-889-0098

Grego and Mo say yo! Can't believe we won Preakness on Sea Biscuit. Stash was on the handlebars. We were riding bareback and barefoot. Now on to Belmont. The real money's on **Pink Floyd**, just like a too tight suit "Take It Back". Hi to Madelyn Scartissue. We miss your Jet Black Flack. Congrats on landin' in Shakey City. Who else do we like? **Live's** "Sellin the Drama". We're buyin' a medium and things look great for this band from just up the road in York, Pa. We just partied with Rolling Stone Magazine's Hot Athlete Jeffrey Hammonds at the Baja Beach Club. He tells us he's thinkin' about stealin' 3rd. We say slide head first into "The Day I Tried To Live" from Soundgarden. "We" moved it into heavy at night. Thank God for Mottla! Its a sad fact that some programmers are afraid of Pantera, Rollins, Prong, Rage, Wildhearts, etc. If we lived in a town where the "Rock" station only played the new ZZ or Traffic we'd be PISSED!!! While your boring old audience is smellin' your stale ass, the brave new world's gonna leave you behind. We have.

#### PEG POLLARD, KIOZ, SAN DIEGO

FYI...My new and improved shorter airshift is 3p-6p. Please try to call me before that unless it's important. Thanks! I'm tellin' ya, the **Offspring** are hot, hot, hot. We're getting lots of calls and faxes for "Self Esteem". It's #2 requests, right behind **Rollins**. Check out **Rust's** "My Hometown." We're playing that and a track from an unsigned band called **Voodoo** more than our other local songs in regular rotation. I think **Courtney Love's** Hole CD is great... STP STP STP...The Second Album is coming!!!

#### JOHN ROZZ, WSHE, MD

WSHE is gearing-up for a huge Bicentennial bash...!f you're one of the many involved, we thank ya...We love ya...more details on the way!... Talkin' tunage this week, Soundgarden's "Black Hole Sun" is a great follow-up to "Spoonman!" I'm also likin' Paul Weller's "Sunflower." It fits that hip alternative crossover niche and you can play it all dayparts! You just can't go wrong with Aerosmith's "Crazy"...Afterall, it is Aerosmith..."The Kings of Rock... There is none higher...huh...huh..." And, "Big Empty" from Stone Temple Pilots is a great record...It sounds great and generates phones (What more could you want?)! See Ya!!

# CATHY FAULKNER, KISW, SEATTLE, 206-285-7625

If you have been with the band **Eleven** from the beginning like KISW, you may be ready for another track. Might I suggest "Let Down." It'll show your listeners that there's more than one track on this record. When **Eleven** did their KISW low dough show, it was by far the most rockin tune and received the most audience response. KISW is pleased as punch to play it and we look forward to checking them out as they open for **Soundgarden** on the 29th. **Wildhearts** is the real maccoy....don't let the "foul" words on song titles scare you. I've never heard more melody in such a hard band. I believe that "Suckerpunch" is a keeper. Finally, we have added another unsigned Seattle band. Before you sigh, they have opened for the likes of **Cry of Love** and **Brother Cane** in the Seattle area (before any airplay from KISW) and they have a substantial local following. Their name is **Scattercreek** and they are managed by Caryn Walling (206) 363-4367.

#### CINDY SCULL, KEGL, DALLAS

Hey everyone....It's great to be in Dallas!... Let's talk music. My music hours are now on Mondays from 10 am-noon and Fridays from 11am-2pm. I look forward to talking to ya soon!

# DAVID HALL. WRLT. NASHVILLE. 615-242-5600

A big thank you to Mercury's Bebop Hobel for providing excellent accommodations while I visited Atlanta's first "Music Midtown" Festival. The three-day festival is modeled after Nashville's long-running "Summer Lights" Festival, which is coming up the first weekend of June. Atlanta did an excellent job on its first attempt and put together an impressive roster of acts. Highlights for me certainly included **Texas**, who rocked Sunday afternoon with a set loaded with great songs from "Rick's Road." I heard that **Texas** was the only band to sell out all its inventory at the "Atlanta CD" booth. It was a pleasure to meet **Sharleen Spiteri** and the

rest of the band and tell them how successful "Rick's Road" has been for WRLT, where we're four cuts deep, led by "You Owe It All To Me." Another highlight was the alltoo-brief festival opening set Friday night by Sam Phillips. For me it was a good preview of her headlining appearance here this week, and I was glad to be able to tell Sam and husband/guitarist T-Bone Burnett how much Nashville's looking forward to it. "Martinis and Bikinis" is another cd that WRLT has gone very deep on, led right now by the tracks "Baby I Can't Please You" and "Same Changes." It was a special kick to get to see Nashville's own Jason and the Scorchers on Saturday afternoon, my first opportunity to see them perform since the reunion. They're back and they're hot! One of the best live performance bands ever, The Scorchers punctuated their set with several great new songs that stood right up to the older gems like "Golden Ball and Chain." Their new cd is definitely one to look forward to. Besides the music, it was great to see and hang with old friends like A&M's Gina Suarez and Al Marks, Giant's Barry Griffin, Relativity's Stan Gleason, Chaos' Michele Block and the one and only, Al Moss. Thanks for the hospitality, Y'all!

#### BRUCE WARREN, THE WORLD CAFE

Hey Baby, Yo Baby... Big props this week go to the Epic Records crew for the slammin' G Love & Special Sauce record release party at JC Dobb's here in Philly... G & The Crew threw down an 8 song act that was a blend of the Meters funk and Howlin' Wolf... Play the record, now!... What the hell is Geggy Tah?, and how can we even begin to describe it? We think David Byrne signed them to Luaka Bop cause they have an otherworldly world music sound that connects the duo to Tommy Jordan and Greg Kurstin to cool sounding layers of unique instrumentation, sampling, jazz, and some kind of avant-pop. We suggest Geggy's "Last Word" (a no-brainer immediate audience reaction song), and "P. Stuff". Unconfirmed rumors report John Gorka carrying around a tattered and worn out Jim Croce Fakebook in his guitar case... So, what's on the Cafe stereo this week? New MC 900 FT JESUS, Looney Tunes; Ali & Ry's Talking Timbuktu; the totally kicking live album from Cajun homeys Steve Riley and The Mamou Playboys, Live! Superchunck's Foolish, Jack Logan's Bulk, and Maggie Esteps No More Mrs. Nice Guy... the idea is that an open mind is a terrible thing to waste... so where are you gonna be on July 16 & 17? How about the ultimate Triple A fest of the summer at WXPN's Songwriter weekend at Penn's Landing... The lineup includes Iris Dement, Sarah McLachlan, John Gorka, Sonia Dada, Sam Phillips, October Project, Dada, and Shawn Colvin w/ the Subdudes spread out over two days of fun in the sun... beyond our own hype department: The new Richard **Thompson** single "Easy There, Steady Now" features a cover of "Goin'Back" that he recorded live in the Cafe studios. It was sliced and diced by our very own mixmaster/producer Bruce Ranes... and thanx to Capitol's Greg Seese... While we're on the subject, look for a couple of Boo Radleys songs they played on the Cafe to come out on a cd-pro timed with their Lollapalooza dates... Why do the Triple A charts resemble Classic Bock Lite? Yo, MD's & PD's-we need more Ted Hawkins's and Milla's in this kind of radio, and you should listen to all kinds of music. Don't be slaves to the format gurus all the time... That's it this week. Remember there ain't no difference between a flying saucer and a time machine, and to keep playing the hits.

#### GUY DARK, WHDQ, CLAREMONT

I thoroughly enjoyed the ABC adaptation of Stephen King's "The Stand", but I was a little disappointed they didn't use The Alarm tune that was inspired by the book... If you're not playing **Rob Rule's** "She Gets To High", you're not only depriving your audience of quality rock record, you're also missing out on the opportunity to make **Jennifer Capriati** jokes!.. **Live's** "Selling The Drama" sounds awesome on the air, even if the lyrics are a tad abstruse!.. "Black Hole Sun" from **Soundgarden** shows off **Chris Cornell's** pipes, and is the kind of tune you'd expect to hear wailing out of car and van stereos at a county fair, between **AC/DC, Pearl Jam** and **Aerosmith**. When's the tractor pull, dude?!

#### ROB NICHOLSON & JULIE HOYT, CHANNEL Z,

Hello from Channel Z in Augusta, Georgia where the weather is hot and the music is even hotter. We have had a

phenomenal multi-media week here at 95.1. We released what we call "Channel Z TV" in conjunction with U2's "Zoo TV" with overwhelming success. We had a camera crew come into the studios and got the Channel Z disc jockeys to play vee-jays for a while. The video featured all sorts of music videos that had not been seen on TV before and the jocks had an absolute blast being taped, so the end product was fabulous. We started off renting out the videos for free at smaller moms-and-pops chains, but came in Monday morning to calls from major chains wanting in on the action. The phone response has been astronomical. A big "Thank You" and bear-hug goes out to Steve Leeds at PLG for making this possible for us... By the way, this is Channel Z's introduction to a third medium. We already rule the air-waves and have a kicking entertainment newspaper (Street Buzz) that we publish. Now we're taking on video. You gotta be more than a good voice to carry your weight here. You have to be able to write your own column for the paper and carry yourself on TV. We're extremely proud of our Channel Z talent... The Smithereens dropped in this afternoon for what turned into a Smithereens festival. The fellas hung out, played D.J. and took calls from fans. They were absolute dolls and we are totally pumped about the show they are putting on tonight. From the looks of the phones this afternoon, most of Augusta is planning on being at the show tonight. Thanks to Angela Borchetta for bringing them in and just for being such a sweetheart. Until next week, Peace, Love, and Cow-Pattie Casserole!

#### STEVE WOODWARD, KWVA, EUGENE

Now that we are becoming a "legitimate" radio station in everyone's eyes, (Hi, Munsey) the phones are a-ringin'. As I have said before, if you haven't called me, please do. My office hours are Tuesday and Thursdays from 10am to Noon Pacific Time (1 to 3 for you East Coast people). The number to reach me at is 503-346-9581. Please call me there and not the office number... The Summer is close at hand, and so is our station's big One Year Anniversary! (That is, one year on the airwaves and not cable) The celebration happens on the 27th ... if anyone happens to hit the Northwest in a couple of weeks, drop on in!.. I have noticed a couple of calls about an artist on my chart by the name of Darren Householder. Darren is a guitarist on the new Love/Hate album. He recently released a solo project through Shrapnel Records. The album is called Generator Man. It is an all instrumental album and it shreds! If you are curious about it, give me a call. I'll give you the details... This has been a really weird week chartwise. I had 2 albums in the top 12 drop completely off the charts, a third had the bottom just about drop out, and a couple of serious head-scratchers. King's X is still hanging around in our top 10, Stompbox and Atomic Opera are taking off, and I'm puzzled by the reactions I've had about the new Infectious Grooves album. Maybe, somebody spiked the Kool-Aid or something...who knows.

#### SUPER FRANK AND JOHN LENAC. KTOZ, MD, CHANNEL Z

Hello Friends. Channel Z is booming through the air and thousands of happy ears are tingling. Our listener line won't stop ringing. Many of the calls that we are inundated with are very far away. It is truly a joy to hear the excitement from a new or existing listener, that our new 50,000 watt arm has just reached out and touched!

We are kicking off "104 Days of Summer" Memorial Day Weekend, and it will last through Labor Day Weekend. Scheduled events include everything from a sizable product giveaway to some very exciting flyaways, such as Lollapalooza in New York. We'll be broadcasting from Missouri's Table Rock Lake a great portion of the summer. (What an opportunity for great music from your fine record label to be exposed to thousands of potential politicians.) Participation of any size is welcome. Thanks again to Graham Hatch, Charlie Foster, and the rest of the Arista gang for making a couple of Channel Z listeners weekend unforgettable. They spent the weekend in California and caught the Crash Test Dummies/Elvis Costello

Have a great week and remember to tip the bartender...

#### BULLDOG, WRFC, ATHENS, 706-549-6222

Interviewed **Hootie and the Blowfish** last week. This album should be big Triple-A. This next week I've got **Madder Rose** coming by, and I'm working on a **Vanilla Trainwreck** visit. Things are just peachy here. Other than that, I don't have anything to say. So I won't. I'm going to go away now.

The Smithereens dropped in this afternoon for what turned into a Smithereens Festival. The fellas hung out, played D.J. and took calls from fans. They were absolute dolls and we are totally pumped about the show they are putting on tonight. From the looks of the phones this afternoon, most of Augusta is planning on being at the show tonight. Thanks to Angela Borchetta for bringing them in and just for being such a sweetheart. Until next week, peace, love, and cow-pattie casserole! P.S. I wanted to re-fax this because there were a couple of things I wanted to include that didn't make it last night. Michael Been was accidentally left off the list yesterday and has been put back in. I also wanted to remind everyone of our specialty shows that we produce here at Channel Z. We have a regional music show called "South By Southeast" that is produced by Doug Motes. Please direct any inquiries to him. We also have a dance show called "Saturday Night Special" that is produced by Scott McDuffy, and he is always looking for new music as well. Tony Powers does a show called "Sunday Morning Over Easy" which is an eclectic mix of favorite tunes, new and old, that don't normally get covered during the week. We also have a new voice mail system set up that might be frustrating the hell out of many of you. My voice mail box number is 22, and Rob's is 12. That should help you out a bit! Thanks and we'll be back in touch

#### DENNIS CONSTANTINE, BROADCAST CONSULTANT, 303-440-5470

Congratulations to KMMS. The Moose has the highest share of any AAA station in the nation! KMMS is number one in Bozeman in the just released Winter Arbitron — with an amazing 18.7 12+ share! The Moose rules. Best song of the week — "Cleopatra's Cat." It's hard to believe that the Spin Doctors could possibly put out a bigger record than their first. But if this is any indication, Turn It Upside Down (Epic) shows maturation in every aspect of the band's songwriting skills. The hook is strong, the vocals are funky, and the Egyptian references in both guitar and vocals will crack you up. There are no bad songs on A Night In San Francisco (Polydor), the new live album from Van Morrison. You certainly can't go wrong with classics like "Tupelo Honey", "I've Been Working", "It Fills You Up", and "Did Ye Get Healed." Van shows off his blues chops on this album with a tribute to Sonny Boy Williamson that includes "Help Me" and "Good Morning Little Schoolgirl"; also "Ain't That Loving You Baby", and a great medley of "Stormy Monday/Have You Ever Loved a Woman/No Rollin' Blues." He is joined by **John Lee Hooker**, **Junior** Wells and Jimmy Witherspoon throughout the album. The highlight of the album is "Moondance/My Funny Valentine," which includes a scat section by Van, and Georgie Fame quoting every jazz standard he can remember during his organ solo. Robin Trower has released an all blues album called 20th Century Blues (V-12). "Secret Place" is a gorgeous slow instrumental piece which brings Stevie Ray Vaughan to mind. Also check out "Precious Gift," and the cover of **Lowell Fulson's** "Reconsider Baby." We've already told you about the title track from God's Home Movie (MCA) by Horse. Horse McDonald has a monstrous voice, rivaling Alison Moyet for range and power. "Years From

Now" starts with much the same feel as the title track, and then kicks it into gear. "Celebrate" is a fun, upbeat rocker. "Letter to Anne-Marie" may be the best track on the album. It's got soul, a great hook, and horns to boot. With spring and summer coming fast, we could all use some horns! The new album from Georgia's Vigilantes of Love is chock full of great upbeat songs. The title track was a nice introduction to Welcome to Struggleville (Capricorn) — now dig deeper and find tracks like "Resume", "All Messed In" and "I Ast To Know." Our town favorites are the moderate tunes "I Can Fynlain Everything," which has an immediately likable retro groove, and "Glory and the Dream." Scott Henderson is generally known as a fusion guitarist, but he has released a fine collection of blues tunes on Dog Party (Mesa /Bluemoon). "Dog Walk" is one of the grooviest blues tunes I've heard in a long time, and eminently accessible. The new Church album, Sometime Anywhere (Arista), is two discs and 20 songs deep. The single, "Two Places AT Once" is dreamy and powerful, which is signature Church. When the full album arrives in a couple weeks, check out "Loveblind", "Authority", "The Dead Man's Dream" and "The Time Being," which all sound like the older Church material. One of the most intriguing tracks on the album is "Eastern," which is an instrumental flavored with strings

and synths that bring to mind, you guessed it, Eastern musical influences. If you like the heavier side of **Willson-Piper's** guitar, try "The Maven." <u>Acoustic</u> (Liberty) from the **Nitty Gritty Dirt Band** showed up this week. "Cupid's Got a Gun" is the immediate standout. Much of the album is real twangy, but you may want to try "Badlands" or "Sarah In The Summertime."

#### LEA PISACANE. ATLANTIC RECORDS, 212-275-2215

Well, well, we're still #1. And who'd'a thunk it from a teeny little band of sweet, unassuming, gorgeous Georgia boys with a song so infectious that absolutely everyone loves it whether rivethead, earthdog, pinhead, yupster or rasta? (some simply because it makes them think of me.) OK - that's all the Collective Soul breast-beating (ouch) I'll do because since jaws are already dropped industry-wide re this, it just sounds like braggadoccio. But lissen . . . meet Francis Dunnery and you'll remember what your life was like before the stress set in. That's how fun and simple and loving the guy's outlook is. "American Life In the Summertime" WMMS, WRZX, WMMR, WQFM, WSHE, KXRX love it. But especially my darling sweethearts (all of 'em!) at WIYY where rock lives. Too - I will stamp my feet and fume vociferously until you guys understand that Stuttering

John's "I'll Talk My Way Out of It" is just a great rock song. Forget Howard for a sec, willya? "Train Kept A-Rollin" with a punk edge. Got it? WBZX, KEGL, KILO, WFYV, KRRK and, the hippest add of the year, WAXQ already do. (Wait - Page solo . . . aaaaaahhhhhh). And guess what? Ms. Stevie Nicks is back and still absurdly gorgeous and in fine voice. Check out the postcard we sent. I mean, I'd do it but I'm a girl. P.S. - It was a Hootie & the Blowfish T - shirt I was wearing in that daring photo a coulpa weeks back. Repeat that name endlessly. It will become your mantra.

#### DAVE LOMBARDI, WARNER BROTHERS

Glad to see people starting to give the new Cheap Trick cut a chance. You know, before we serviced this album, and this is going back to last year, we asked many of you for your opinions regarding Cheap Trick. Almost unanimously, the response was "They'd better rock!" So perhaps "Woke Up With A Monster" was a bit more over the top than you expected, that doesn't mean anyone should take it out on "you're All I Wanna Do." which is a Cheap Trick song in the finest tradition of the band's music. Let your listeners decide with this one, and we're sure you'll have success that's more in keeping with your expectations. This band still does matter to a lot of people! I'm really glad to see how much the Pretenders still matter to so many people, too. Great airplay, great first week sales, unbelievable anticipation for the tour . . . and , man, Chrissie still rocks with a toughness attitude and intensity that some of todays young, disenfranchised male singers should note.

Have you heard **Joan Jetts**' "Go Home"? You'll want to, and it ships next week to arrive in your shiny little hooves by Thursday (5/26). Look for early action at some pretty prestigious low-end rockers . . . Next up from **Primal Scream** is "Jailbird", which will be a godsend for those of you programming lyrically-challenged radio stations. Oh, and **Candlebox** rules, at it nears 800,000 units

#### ROGER MAYER, CAPRICORN RECORDS, 818-990-8903

I don't have a lot of time this week, so I'll keep it short.

1) Dixie Dregs' first studio CD in 12 years is coming your way... lead track a remake of the Yardbirds' classic "Shapes of Things." Perfect for AOR, Adult Rock and Classic Rock. 2) Ian Moore's "Harlem"... play it! 3) Freddy Jones Band's "In a Daydream"... an all-demo, all-format hit! 4) All and Widespread Panic music coming later this summer. Closed circuit to Doug Clifton... you are one of my true radio heroes. I wish you good luck and good health in your next endeavor. Peace.

#### MARK FISCHER, ATLANTIC RECORDS, 212-275-2085

Collectors beware! I was almost 15 000 dollars richer this past weekend. My wife and I were exploring our new neighborhood when I stumbled upon a diamond in the rough, at a street fair. Out of the corner of my eye, to by surprise, I saw a 1967 Psychedelic Avadon reprint poster of **John Lennon** for Look Magazine, hanging on a clothes line. If you're a Beatles Collector you'll know this is a rare and treasured item. As I walked over I discovered that all four **Beatle** posters were there in great condition. I immediately, told the woman at the booth I wanted the posters. At that point she informed me they were no longer for sale. Why, you might ask? Because some idiot told her that the \$6.00 price tag she had on the set of posters was about \$14,994 under market value. The rest of the day I walked around in a total daze, not believing how close I was to a true find. As my wife began to get irritated with my opportunist attitude, I realized we had wandered onto the Upper West side. Since we were so close I decided to take her by the Dakota, where Lennon had lived and died, fourteen years ago. As we stood there admiring the gothic looking structure and the entrance where **Lennon** had been fatally shot, I realized how much of an asshole I had been. All I could think about was how much money I could have made selling those posters. What was I thinking. I didn't deserve them. I forgot how powerful the music was to me, how rock had influenced my life, and how I owed the Beatles and rockn-roll alot more than \$15,000. I feel better now, especially looking back and realizing that the woman who owned the posters had owned them her entire life, and although they were valuable now she had no intent on selling them to me or any other collector. The moral of the story; as busy as we are in music business, and as

caught up in our own successes and glory we might get, let's remember why we got in this business. I hope it was and still is because of the love of music.

#### CHRIS WOLTMAN, COLUMBIA

Let's talk about some music. . . let's talk about Stabbing Westward's "Nothing." The buzz on this band continues to grow every single day, and this day is no exception with official reports coming in from KQRS in Minneapolis, WWBZ in Chicago and KQRC in Kansas City alone with many other stations that I hope you are aware of like: WXTB, KISW, KIOZ, WQFM, WAXQ, WAAF, KEZE. Listen to this record and hear this band for what they can give your radio station - an exciting song that can light up the phones and create a buzz in the streets. You've got to listen to this record and you've got to give it a shot . . . then the record will do the rest. Toad The Wet Sprocket's "Fall Down" is coming off another tremendous week. Enough already for anyone not yet playing this track . . . the record rocks!!! I've watched this band grow from day one at Columbia and there is no question in my mind that Toad's vision and artistry is why I hope many of us are in this business. Alice In Chains . . . it's time to make that natural move to "I Stay Away" - well over one million units on Jar of Flies, the upcoming tour with Metallica, and the success of every Alice track to date is reason enough. This week Alice went on at the likes of WONE, KIBZ, WNEW, KEGL and many more. Make sure you look at Cry Of Love's "Carnival." We all know the success of this band to date. This week's adds include WAPL, WWCT, WYMG, WXFS, WPDH to name a few. That's it for now . . . Talk to ya later

# SETH M. GERSHMAN, ATLANTIC RECORDS, 212-275-2086

So, I'm considering taking a self defense course this summer. If you're wondering why then you probably don't read my comments regularly. I'm not meaning to sound presumptuous or anything but it appears that in recent weeks I have accidently offended a very significant organization by starting a false rumor that Loverboy was releasing a new record. The organization known only as The International Bandanna Association has made me the target of a variety of dangerous threats. Thus, well, you get the point. In music news: Collective Soul "Shine" biggest record of the year. Frente "Bizarre Love Triangle" biggest record of the year. Tori Amos "Cornflake Girl" possibly biggest record of the century. Also, the future of hugeness is . . . Charlatans "Jesus Hairdo" out now, Francis Dunnery "American Life In the Summertime" out now and up next new Stone Temple Pilots "Vaseline" !!! Get the picture.

#### E.I. IOHANTGEN, COLUMBIA, 212-833-

(In my best announcer voice) What happens when a wacky band from Liverpool hits the road with a zany band from NYC - the sparks are sure to fly on the tour of the summer. From the creators of Melrose Place and Good Times comes Carcass/Life Of Agony: Rock The Way It Was Supposed To Be, starring Dan Fitzgerald, E.J. Johantgen and Jerry Mathers as the Beav. Heavy fuckin' Metal.

#### JON NARDACHONE, ATLANTIC, 212-275-2135

So I get back from a raucous surfing weekend in Virginia Beach and I realize just what a monstrous summer lies ahead for all of us!!! For starters, on May 25 at approx. 11:30 AM, the new Stone Temple Pilots single, "Vaseline" will land in your mailbox . . . One week later Metal Radio will be serviced with a limited edition vinyl copy of the full LP, "Purple" . . . I dare say that "Purple" is a far different record than "Core"; please don't expect "Sex Type Ting" part 2 . . . Weiland and Co. will tour starting late June . . Also on the road NOW are Collective Soul, Surgery, and Stuttering John. Godspeed will open for Ronnie "Long Live Rock and Roll" Dio starting next week . . . Call me for tix Collapsing Lungs are a band to witness. This 7 piece brutality also hits the road in June . . . One more thing, I heard the new Overkill material last week . . . My brain was ripped out of my skull and force-fed down my . That's why I needed the raucous surfing in VA throat "WIDE FUCKING OPEN" !!!!!!

#### MICHAEL J. SCHNAPP, EMI RECORDGROUP, 212-492-1812

Tell me this could happen anywhere . . . NO! It could only happen in NYC ... It's Friday the 13th (go figure). I'm hailing a cab (you know, standing in the street and waving frantically at the cabs, hoping they'll pick me up) when a car hits me! That's right, A CAR HITS ME! This dickhead in a car knocks me down (not easy), so I kick his car (how else would I get his attention?) Now the driver gets out and starts yelling about how if I damaged his car I'm going to have to pay for the damage! Damage? Damage! So then I ask him who's gonna pay for his damage. What damage? "The damage I'm going to do to your face." He hit the road and left very fast! And speaking of road, Mutha's Day Out are hitting Little Rock, Tulsa, Oklahoma City, Lubbock, Tucson, Phoenix, San Diego, Orange County, Los Angeles, Eugene, Portland, Seattle, San Francisco, Sacramento, Tahoe, Denver, and Colorado Springs thru mid-June Mutha's Day Out "We All Bleed Red" (Especially If You Hit Me With A Car) is rockin' now. Prepare for your Soul to be Wet very soon! Play Mutha's Day Out or I'll run myself over!

#### LINNEA NAN, WARNER/REPRISE METAL. 818-953-3692 YES, YES, YES. You will be receiving your full cd of

Biohazard's State of the World Address. This will arrive with a full cd "Clean" version of State of the World Address. We have dubbed May 30 & 31 as add dates for the full ... Do what you must! ... Dio hitting the road with Love/Hate & Godspeed. Please get your ticket requests in NOW and keep jamming Strange Highways ... Atomic Opera making some noise. Did you catch the video for "Justice" on the Ball. If not, call me; we'll shoot you one soon ... Very soon - Joan Jett & L7, and of course it's time to experience Jesus Lizard "Show" live at CBGB's. Until then, I count the days until I can see Biohazard, Pantera, & Sepultura destroy the East Coast. Call if you want to be a part of this ...

# BRIAN McEvoy, Mercury Records, 212-333-8458

My first record at Mercury Records is the **Kiss** Tribute record <u>Kiss My Ass</u>. Please add this mother for me on June 6th. There is a limited run of clear vinyl records available on June 7th. CD and cassette in store on June 21st... **Downset's** first single "Anger" is available for

your adding pleasure on June 13th. Look for a limited number of **Downset** dates in the Northeast in early June. **Bruce! Bruce! Bruce!**, The new **Bruce Dickinson** masterpiece <u>Balls To Picasso</u> is coming to you in late June.

#### Dyana Kass, Hollywood Records, 818-560-5670

Being that "Deep Thoughts by Dyana Kass" was such a hit last week, I decided to go for round two. Anything worth fighting for is worth fighting dirty for . . . speaking of fighting for a worth while cause, how about the months of being in the ring with the Eleven record and winning the battle with much airplay on numerous tracks, phone stories, press, hip bands singing their praises daily and a **Soundgarden** tour to bout! Just when you thought we might be satisfied . . . You are informed that there is a new metal single going for adds on the 23rd entitled "Heavy." This dirging yet hypnotic slice o' music has just what you need to properly prepare for Eleven to come to your town so add it and jam it! Don't ever underestimate the power of the Mighty Seaweed and for those of you who have recently discovered their brilliance, spread the gospel! I must close by saying, someone who thinks logically is a nice contrast to the real world

#### MATT YOUNG, EARACHE, 212-343-9090

**A.C.** is the most extreme band ever! 58 songs of pure noise, humor and destruction. "Song #8" is the single (I use that word lightly). Play it real loud. Wait till ya see 'em live. **Pitch Shifter** are touring Europe now and will be back here at the end of the summer. **Disgust** are making plans for a summer visit to your town. The video for "Mother Earth" is done and on its way to your favorite video show now. The samplers are a huge success! Kids are ruining entire phone systems to get a hold of one. Your phone line could be next. Ring for 'em. **Napalm Death**! God Bless Earache. 212-343-9090.

#### CHUCK P. AND JOHN PERRONE, CAROLINE RECORDS, 212-989-2929

By time this dialogue is printed, I will either be completely flipping out about the New York Knicks in the Eastern Conference Finals or pissed off at Scottie "Humpty Hump" Pippen and the city of Chicago. Now that I've said that, it's time to enter the wonderful world of Caroline Records and here is what's going on. . . The Adrian Belew tour is starting at the end of this month. He will be out on the road, supporting his Caroline debut album "Here", throughout June and July. Check out the man that Trent Reznor of Nine Inch Nails calls "the most awesome musician in the world." Listen to "Never Enough" and "I See You". . The hard-crunchy sound of **Peach** should be setting your cd players on fire. "Siesta" is a record not to miss. Look for them in your town this summer. . . People are diggin' the new one from **Fudge**, "Southside Speedway." This is possibly the best live band out there. They're going out on the road for a couple of dates with Vanilla Trainwreck & Five-Eight. Don't miss'em!. . Get ready for a journey with Future Sound of London! "Lifeform" is a record that can be described as a "multi-tentacled monster." The future of music will arrive in less than four weeks! . . . Finally, you have seen the light! Seefeel's "Quique" is making its way into stations' normal rotation rather than just the dance shows. Don't miss the boat with this one . . . For all you RPM folks, you should have the **Transformer 2** "Transformations" cd now. Be on the look out for some 12's heading your way . . Comina your way soon: Technomancer IV, Howze D'Dynomite, Bracket, Excursion in Ambience: Third Dimension, and Fierce Ruling Diva.

#### JAMES LEWIS MARKETING, PACIFIC PALISADES, 310-820-4006

Storyville still continues to grow thanks to WMMM who comes in with an add, as well as some upward conversions. Many of you have been playing "Bluest Eyes" for a while now, so check out tracks 2, 4, and 5 for some change. Jimmy Lafave ropes in new adds from KBSU, KECH, KFMG, WDET, and WNCW and Highway Trance is already spinning heavy at KENS and KERA. Congratulations Bruce Warren for laying it on the line in his closing comments this week. Well said, Brucie!

#### DAVID T., LEVIATHAN RECORDS, 404-463-1009

In what is turning out to be a very pleasant surprise, Imperium's "Too Short A Season" is continuing it's steady climb up everyone's charts. Any and all tracks on the CD sound tremendous coming over the air! We appreciate your continued support on this one and its good to hear great musicians getting some notice... A special thanks goes out to JRBL of WKLL for including "Next Planet Please" in his TOP 10. There is no excuse for such great taste!

#### IILL AND IEANNIE. RED LIGHT RECORDS. 708-297-OKFU

Skatenigs and Sarkoma are kicking ass thanks so much! We've got t-shirts, and these neat S & M kits comin' your way. Coven, Gutted and Oppressor are still blowing everyone away. Hope you all liked the summer posters! Call me the minute you read this to let me know about summer hours, blah blah blah. Thanks for your support.

#### JASON MARTIN, W.A.R?, 303-665-2524

Wilma or Betty? Hunter S. Thompson or Pat Robertson? Rush Limbaugh or Howard Stern? Dtis Redding or Snoop Doggy Dog? June Cleaver or Carol Brady? Now that we have these extremely pressing questions addressed, let's get down to business and discuss something worth discussing: The Samples have sold One Hundred and Twenty-Seven Thousand (127,000) concert tickets between January 1 and May 7. Who do you think bought all those tickets? That's right! Your listeners. The same listeners have purchased Ninety Thousand (90,000) copies of The Samples latest release, The Last Drag. With all this great news you'd think we'd have nothing to wine about. Wrong! The gripe; we're still not receiving the airplay at a lot of AOR's The Samples would fit right into. We realize The Samples may not be right for every AOR, but come on, The Samples have a sales and fan base that far exceeds similar artist's receiving airplay on a number of AOR's. What's the criteria? Peace? Love? Chocolate dough-nut gems? Beer commercial cliches? Until next week.

#### MARNI HALPERN, PSYCHO ROADRUNNER RECORDS, 212-219-0077

Life of Agony's new single for "This Time" along with a live B-side of "Through and Through" will be going for adds on 5/23. Sepultura's new single for "Slave New World" that has a live track for "Orgasmatron" will also be going for adds on May 23. Don't forget to listen to the Dead Kennedy's cover "Drug Me", which is the hidden track on the Sepultura single. Dog Eat Dog #1 most added! Keep jamm'n out "No Fronts". After touring with Biohazard in Europe they will be heading back to the states to do a northeast tour. Black Train Jack will be touring with the Mighty Mighty Bosstones towards the end of the summer. Concentrate on "Handouts", and check out "What's the Deal" and "The Reason" which feature Sick of It All on vocals. Nailbomb increased in airplay this week, because you DJs know your shit!! If some of you can't play more songs off of Point Blank because of the language, take the time and edit the other great songs on this record. Trust us, it's worth it! Type D Negative will be out with Motley Crue this summer. Life of Agony will be touring with Carcass. What else do we need to tell you? Ummm. Oh Yeah-Sepultura, Pantera and Biohazard will be kicking it off on June 14th.

# MARK "PSYCHO" ABRAMSON. ROADRUNNER RECORDS 212-219-0077

RECORDS, 212-219-0077

Type D Negative. "Christian Woman". One of the top 100 most played AOR cuts in the country two weeks in a row. New add at WXTB (welcome to the family). Numerous jock picks on the Z-Rock syndicate. Three months on tour playing everywhere with Motley Crue, starting June 9th. Top 5 phones everywhere they are on. Live concert airing on Westwood One's high voltage the week of June 6th. Over 20 AOR's currently spinning the song. What are you waiting for? By the way, you want to see an incredible live band? See Nine Inch Nails!

#### TOM GATES, ROADRUNNER RECORDS, 212-219-0077

Black Train Jack are heading out on tour this summer with Mighty Mighty Bosstones they've played together before and certainly know how to tear the house down. Also expect Black Train Jack to head out to the West Coast in late June for a few weeks of dates. Walter from Quicksand jammed "The Joker" with them at CBGB's the other night and it was great fun to watch them win over a New York metal crowd at the Infectious Grooves show. "Handouts" is 2:50 of undeniable pop-punk! It would sure be a shame if you hadn't check out "Your're Not Alone" yet. What are you waiting for, and Eagles reunion tour or something? The Moon Seven Times will also be heading out for some dates on the East Coast and in the Midwest. I'll have more info on this tour next week. Die Monster Die will return to the U.S. to hook up with a great triple-bill summer tour that will be confirmed soon. Buzzoven is coming! PS-Cheryl Valentine has quit smoking again. Congratulate her. If you see her with a cigarette you have my permission to rip it from her hand and stomp it out.

#### SHERI SINCLAIR, ENERGY RECORDS, 212-695-3000

Hi! Thanks to all who are spinning **Larva**, let's keep it on the rise. **Tommy Kealty** joins the Energy family this week. So give us a call if you need anything. **Pro-Pain Advance** on your desk soon. xoxo. . .

#### IIM KOZLOWSKI, VICEROY MUSIC, 212-465-2357

We may have to move from our offices soon 'cuz our releases have been so hot they're threatening to burn the building down! Alvin Lee (always a radio favorite) and Mick Abrahams' Blodwyn Pig are both kickin' out the jams with new Viceroy releases and just over the horizon is Sunset Heights, a 3-piece from Houston that everyone is calling the real successor to Stevie Ray and Hendrix. Led by demon guitarist/vocalist Vince Converse and produced by the legendary Pete Brown (Cream, BBM), Texas Tea will be pouring out its blend of Texas blues 'n' rock the first week of June. Watch for "Man of the World" (the **Robin Trower** tune) to spearhead the Sunset attack at radio . . . speaking of attacking, get ready for the return of Robert Gordon. His first new release in 11 years, All For The Love of Rock 'N' Roll, showcases a major change in style for the man with one of the most distinctive voices in rock. His sidemen include Bobby Chouinard, Danny Gatton, Chris Spedding and Rob Stoner. Look for All For The Love . the first week in June with "Attacked Seduced and Abandoned" the first track to radio. Elsewhere in Viceroyland (where the Mountain Dew flows freely) are the debut releases for Viceroy's new label, Viceroy Vintage, from Uriah Heep and a collection of tracks from Heep's former keyboardist Ken Hensley, four of which include the late Paul Kossoff on guitar. On Viceroy, meanwhile, will be new releases from Washington's Naked Blue and a couple of very special collective recordings later in the summer along with some new material from Steve Hackett. There's lots more news, but no more room here, so until next week, remember that havin' the blues the Viceroy way will keep you in the pink. Happy ears!

#### GINA GALLI, ROUND THE GLOBE, 212-949-5575

Many may know Round The Globe for it's metal promotion and marketing abilities, we now offer the same services in Alternative radio promotion. I'm really looking forward to being a part of any new projects or tours that you have coming up this summer. Give me a call to find out more information.

#### MUNSEY RICCI, SKATEBOARD MARKETING LTD., 516-328-1103

So yo check it out, (WE HAVE A NEW MAIN TELE-PHONE/FAX NUMBER). Put it in your rolodex and make note of it. The postcards will be in the mail as you're reading this. Our address and all other information stays the same. Also, (WE'RE LOOKING FOR A COLLEGE MET-AL PHONE SLAVE). Please call us if that's you. Alright enough with that, the Dio tour starts on the 29th of this month, we have your tickets. Dig on the new track, you know you love it. Love/Hate is in your face, they're on the road with Dio and coming to town. The record is still climbing the charts so dig on it. Imperium is working real fine with most of you. This is one record that will grow on you big time, keep listening to it. The full length on the Sarkoma and the Skatenigs will be in your hands this week. You love these two bands and so do your listeners. Till next week Cya.

# SARA RUBENSTEIN, ELM RECORDS, 310-550-1223

The other day I was speaking with a Music Director (one of my favorites even though she isn't playing my record yet) and she asked me one of those little questions for which I'm supposed to have an answer readily available but never do because my desk is reminiscent of Devil's Tower in Montana (only not as pretty) so in order to find the answer I had to put her on hold. When I picked the phone back up she asked me if I knew what GREAT band was playing on our hold music and for once I had the answer ready: **CottonMather**, of course! The track was "Ivanhoe" which isn't a focus track but what the hell - we don't really care about focus tracks - they're all good. Well now, needless to say, her interest has been renewed. The thing is, I can't call EVERYBODY and put them on hold just to make sure they listen to what is really a terrific pop album so all I can do so STRONGLY recommend that those of you who haven't listened yet do so. You'll be glad you did and frankly so will we!

#### WINFRED JOHNSON, JUSTICE RECORDS

**Tab Benoit's** "Time and Time again", Add date, May 24. Those who could not wait: WOZN, KMKF, WWGZ, WWBR, KAFR, KFFX, KBCO, KFAN. What more do I need to say except spin it. Radio look for the album next week.

#### JOANNE GRAND, KRISTEN MOORE, AND ANVA FELDMAN, AIM MARKETING 908-679-9111

Hi There! We just want to say "Congrats" to all of our lovely station reps who've graduated, and "Welcome Aboard" to all the new Metal Directors. We're working some great bands, and have other cool ones on the wayso give us a call to chat. See ya!
