TOP PRIORITY

Charlie Sexton Sextet, "Everyone Will Crawl," MCA

Our speakers have been jumping all week long with the groove of this track from this Texas boy-wonder, and who could deny us this pleasure? Consider the source: Charlie Sexton has star power. His charismatic persona has gotten him through a life riddled with strange twists and turns, and at the age of 26 he is writing lyrics with the introspection of a poet. His antennae are glowing bright red these days, and this song is big-time testimony to an artist coming of age. Remember, Sexton was rolling some years before Arc Angels hit your lists, and while we all know of the contributions left behind, know that the Arc Angels were a band project that involved Charlie Sexton, not Charlie Sexton's band. He's got things to say as a solo artist that haven't been said. And the big dogs are listening — before the box adds at WDVE, WMMR and KTXQ should tell you something. This track can't be denied a strong listen immediately. **KQDS's Mike Keller** comes in early, calling the track "a break-out record. We had great success with the Arc Angels - there's a strong name value associated with Charlie." **Lyn at WIOT** says, "It's just sitting there saying 'play me'." **WTPA** and **Chris James** support the return to form for Charlie, too. "I like it a lot. It's a whole different direction. It goes back to what Charlie was doing when he first came in at rock radio."

HARD ACTS TO FOLLOW

Popa Chubby, "Sweet Goddess of Love and Beer," Sony/550

Popa Chubby's in the house this week, with Tuesday being proclaimed "Chubby Tuesday" by the 550 crew. Chubby delivers a bluesy vocal approach to a party track that will score instantly with your college contingent, and will likely work out fine with the rest of 'em. The BoDeans-ish vibe keeps this track from being considered too bluesy for the room, and the fact is, that Popa Chubby's already been around the block, garnering Rolling Stone press, and the admiration of those like Art Neville that appreciate a good party feel to their rock and roll. Don't eliminate this bit of knowledge from your internal dialogue: Popa Chubby used to play with Richard Hell. He's bald as a cue ball, and ready to party with a vengeance. And with homage to James Brown, to boot.

Simple Minds, "And the Band Played On," Virgin

With all the momentum of a successful comeback under their wings, The Simple Minds continue to impress rock radio with their staying power, even in the midst of a long layoff. This track carries with it the trademark hookiness and rich texture of previous hit efforts, and adds a harder edge to the mix than "She's a River" did this time around. Virgin is to be congratulated on the renewed success of a band once pegged as inexorably tied to the '80s. "And The Band Played On" showcases The Simple Minds as a rock and roll band first and foremost. If there is any doubt left in programmers' minds that The Simple Minds have viability in 1995, this track will squelch the doubts. The Minds are a band that definitely plays on at rock radio. By the way, keep an eye on "Hypnotized" at AAA and Alternative; that's a seductive number that's bound to do serious damage on both of those fronts as well.

Filter, "Hey Man, Nice Shot," Atlantic/Reprise

This Midwestern act brings this track to rock radio this week courtesy of the Demon Knight soundtrack, with the track also showing up on the forthcoming debut from the band. These hoop fans certainly capitalize on the tie-in with the title, just in time for the NBA playoffs. And Filter stands to get some real minutes in the game for the rockin' lot of Hard Hundred reporters looking for something to break that's got slam-dunk potential for nights. No weak stuff in the lane, baby! Playing time at **KIBZ**, with **Dave Douglass** noting it as a "pretty interesting project, reminiscent of the obvious sound relationship to what nine inch nails does for us." Also in with **Cindy** "I like it" **Bennett** at **KLOL**, and **Doug** at **KQRC**, who says, "The appeal to me is that I think it's a great hard rock '90s record. I call it nine inch nails with guitars." **Jay Sisson** at **WIXV** calls it "my favorite night record we're playing." **Chris James** at **WTPA** sees it in nights, too. "I think that's going to be huge. A tailor-made night time record for anybody."

The Caulfields, "Devil's Diary," A&M

The *Catcher in the Rye* character Holden Caulfield grew up in the pages of this classic, and the analogy is pertinent to the band The Caulfields, who take their name from the popular J.D. Salinger novel. Singer/guitarist and lyricist John Faye weaves classic fictional images into the songwriting of this edgy

pop band that deal with some of the heavy subjects in the tracks on "whirligig", and the resulting stories reflect the essence of growing up in a small college town like Newark, Delaware. Restlessness is the pre-vailing vibe, and it's a trait that gets exposed throughout the album. On "Devil's Diary", The Caulfields grab your attention quickly with the hook, and your college-age demo will react just as fast. While Faye sings "I'm bigger than Jesus now..." the youthful immortality and vision becomes apparent. These guys are holding up a mirror to your 18-24's. WMMR picks up this week, and **WRXX's Austin Keyes** says, "It's R.E.M. and The Smithereens together with a smidgeon of Joe Jackson. All the reasons why records that were alternative were so important in the '70s and '80s have come full-force into the '90s with this record. A pop supersonic hit. The whole album's brilliant."

Quicksand, "Thorn in My Side," Island

Quicksand have made fast work of the COR and Metal charts, jamming at #2 among the metal ranks, as this record crosses into Hard Hundred territory by way of the single "Thorn in My Side." This New York band has busted butt on the hard-core circuit, and have been on tour with the Offspring, so they're no brand new face to the rockers. There's plenty of melody and distinctiveness here to sway any rock programmer looking for a little heat in the kitchen, and enough blue-collar grunt

to spring your hard rock contingent to life. **John Osterland** at **WAAF** says, "I love the tune. We picked that one off the album. This is a band that we were just waiting to see explode. They're great players." **Cindy Bennett** at **KLOL** says "It's amazing. I love this band. This track has great tempo, a great hook and I think it will catch on really fast."

Sonia Dada, "Screaming John," Capricorn

With a boost at the AAA album chart level from 37-18 this week, it's time to talk crossover for this talented bunch of guys. This is one of the tightest, coolest bands out on the circuit in terms of their live show. And this track certainly reflects their musicality. Sonia Dada blend soulful vocals over groove beats, and lay in a killer guitar that keeps the thing rockin' along for any rock radio programmer interested in a little soul for the spice. This band just has it. Pure and simple. This Chicago-

based outfit should fit in just fine around your Hootie and Freddy cuts, and is a guaranteed crowd pleaser for your market on the stage. You're banking on big things from breaking bands, and these guys will deliver the good stuff for you.

Black Crowes, "Wiser Time," American

A laid-back effort from The Black Crowes that's not a ballad? You betcha. And naturally the boys of Black recall sonic similarities of great rock and roll days gone by. Listen to this thing segue like a mofa into your '70s oldies slot. It has classic leanings of Poco-ness, Allman Brothers, Frampton and other sweet-sounding security blankets for your gold followers. Some at radio have been frustrated with the past single choices from *America*, and likewise, the audience at rock radio hasn't got-

ten wet yet, either. Here's your shot at filling the void. It deserves a listen, and consideration in context. A smooth follow-up that doesn't sound like anything else out there right now.

MORE... HARD ACTS TO FOLLOW

Better Than Ezra, "Good," Elektra

A great week for the band brings in 17 adds, including WNEV, WWDC, WZZO, WHJY, WAOR and WZZO, with 24 increases from the already-convinced takes Better Than Ezra 60-46* on the Hard Hundred. They are making hay at Alternative, well-established in our Top 10 there. A smash is working at **X107** (26-42), with **Steve Blatter** commenting "That is gonna be big. I'm not sure how it's doing elsewhere, but it's already starting to sell up here. It's like southern grunge with a monster hook." And **John Beaulieu** at **WTUE** says, "It works for us who are opening up to new music." **Tom Starr** at **OUR** is "seeing good initial reaction." **Chris James** at **WTPA** predicts, "This will be the record of the spring. They will be the next Green Day, or R.E.M." Florida is sewn up, and **Neal Mirsky** and **ZTA** are even in the boat, summing it up succinctly: "That's a great record." We agree.

Freddy Jones Band, "Texas Skies," Capricorn

The track that comes from their debut release is making waves with the audience this week, as Capricorn continues to work the band in the big picture, exposing the audience to music that came before the label deal. And it did very well with the hook jury after spending some time on our hold button. Plenty of humorous anecdotes were tossed around, with several variations of an unofficial renaming campaign coming to the forefront including "Freddy Tucker", and "The Marshall Brothers." Even in the face of humor, the fact remains that mixing currents with library is what we're all doing here, and there may as well be some consistency in the segues. With the hits in recurrent, a little showcasing of the depth of this band is good for the fan base clamoring for more.

Pete Droge, "Northern Bound Train,"

American/Reprise

Great songwriting is the style for Droge, who continues to climb with the new release this week, as 12 stations increase their rotations, including the tough add **WDVE** (11-19). **KZQZ's Rick Andrews** calls it "a good balance for nights. I'll let the audience decide." **WGLF's Bob Fonda** echoes the sentiment. "Everybody should get off their asses and play it. Let your audience decide." And **Pam Brooks** at **HCN** says, "It's wonderful. To me, there's a real developing artist that we can play a quirky recurrent, little novelty ditty, and then a real beautiful follow-up, to the point where I was drifting away in the middle of the song going 'Wow'. What Buffalo Springfield has, and what Bruce has, it's just like 'Northern-Bound Train.'" **WPYX's John Cooper** recently had him in the studio, and reported "fairly positive feedback. He opened for Petty here last week, and seems to have a small but building fan base. It's a little early, but we're getting favorable reaction."

Collective Soul, "December," Atlantic

This band screams into the #1 Most Added position this week, with a whopping 39 adds including **KCLB**, **KEGL**, **KLBJ**, **WAPL**, **WBAB**, **WBZX**, **WFYV**, **WKLS**, **WRCX**, and **WZZQ**. **WAVF's Dave Rossi** echoes some sentiment in radioland when he asserts that "I put 'December' in rotation. I didn't play 'Gel'." Neither did **Pam** at **HCN**, who notes that "The success they had with 'Gel' proves this band was not a one-hit wonder." At **WDRK**, they report, "We tested it last week a couple of times and people just went nuts. We didn't get one bad phone call. They liked hearing a mellow song from them. We're going to play it all day." And **Bob Fonda** says, "It's the best thing they have done to date. The second album always dictates whether the band is for real or not and this album and band is definitely for real. A great record all the way through." **Dano** at **WOZN** says, "I liked 'December' best when I heard it the first time." **John Cooper** at **WPYX** says, "I think it's going to end up doing better than 'Gel', which really did test well for us. This track is much more mass-appeal."

Monster Magnet

"Negasonic Teenage Warhead," A&M

The difference is golden this week, as the trippy alternative feel permeates the radio airwaves of the Hard Hundred, catapulting 88-61*, and increases from **KLOS** (6-15), **WJRR** (4-8) and others. **GLF's Bob Fonda** calls it "a killer record. The phones started immediately. It jumps out at you and says 'Play me.'" **KFMZ's Paul Maloney** is reporting, "We're starting to get requests from test rotation." **Vinnie Marino** at **WAXQ** says it's "doing really well. It sounds great, gets nice phones, and I think these guys are going to be huge." **TJ** at **WDHA** says, "We tested it last night. I think it's a heck of a song, and could be a hit." The tough add **Rick West** at **WXKE** mused, "I love it. If I had added a record, it would have been that one."

Chris Duarte, "My Way Down," Silvertone

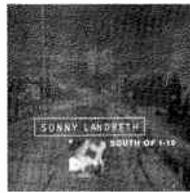

The guitarslinger continues to mow 'em down this week at Rock Radio, with some key players converted into believers. Witness the adds from **KQRS**, **KSHE**, **WKLS**, **WKZQ**, **WZZO** and **KQDS**. Witness the reaction to the track from radio. **KRZZ's George Bergen** says, "Great sound - it's got the funk and the blues. It's good midwestern rock. Strong phones, too." **KIBZ's Dave Douglass** is "happy with the record." **TJ** at **DHA** remarks that, "Whenever we play it, people go 'Who was that?' We're more than happy to let them know where they can buy the CD, and help them out. It is definitely one of the best reacting new records on the air." **Pam Brooks** at **WHCN** bumped Duarte up this week, calling it a "great balance for our power rotation. It's got a guitar-based sound, and it's tasty and different. The calls are very positive. We're very psyched." **WLWQ** reports Top 5 phones, and it's spinning 'round the clock there. **WOUR's Tom Starr** says, "It's the one that's really lighting things up big time. It seems to be very active." **Dano Amann** at **WOZN** says, "It's doing great. A hot tune." And in this week is **WRDU**, where **Tom Guild** says, "It's a very meaty, bluesy record. It's Stevie Ray Vaughan, but a little more rocked-up. It got played yesterday and got immediate phones on the very first spin. I have high hopes for that song." Both **WROV** and **WTUE** are also reporting Top 5 phones.

Jeff Buckley, "Last Goodbye," Columbia

With a tour schedule nearly forthcoming and a tremendous buzz working at rock radio, isn't it time to listen to Robert Plant on this one? Jeff Buckley makes sense for those of you looking to break an artist to your more-adult audience, and 7 more take the leap of faith, including **KATP**, **WAPL**, and **KLPX**, with increases at **KLOS** among the performers. **KZQZ's Rick Andrews** notes that, "It's a good record. It provides good balance for the station," and comes in with an add this week. Join the "ears," and come in for this notable artist who is delivering distinction and credibility to the format that few artists have managed to create over long careers. **WDRK** says, "It's a fantastic record. He's talented as hell. We were skeptical that it might be too hip for us, but it's too good to pass on."

Sonny Landreth, "Shooting For The Moon," Praxis/Zoo

Guitar texture and compelling vocals make this smoky rocker work, picking up 4 major adds this week at **KSHE**, **WKLS**, **KRNA**, and **KFMZ**. **Brian Rivers** at **KJKJ** notes, "It's something you can fit in anywhere. It fits in segue-wise, sound-wise and it's a damn good record." 16 PPW there, and destined for larger behavior. **KNCN's Kelly Mann** says, "We honestly just like the tune. The whole staff likes the tune. It does really well with our upper demos." **Michael Hughes** at **WKLS** says, "Texturally, it just fits so nicely. It's really a good-sounding record. It's one that we played on our CD players in our offices, and the jocks picked up on it so we went with it." **Tom** at **WOUR** says, "In terms of curiosity calls, we're seeing some translate into requests. It is a great feeling record for us in terms of good upper-demo that fits really well in the context of what we're doing for the 25+ audience." Having Mark Knopfler on backgrounds doesn't hurt its chances for familiarity, either, as Sonny Landreth climbs 50-47* on the Hard Hundred.

My Way Down

"We are getting a great reaction. Every time we play 'My Way Down,' people call in and ask 'Who is that?' This is definitely one of the best reaction songs on the air." - TJ Bryan/WDHA

"'My Way Down' is a meaty, riffy song — it's Stevie Ray Vaughan but a little more rocked up. We played it yesterday and got immediate phones. I have high hopes for this song." - Tom Guild/WRDU

"We're getting lots of phones on Chris Duarte. We have a great amount of success with blues-orientated artists, and Duarte provides a cool sound that separates our station from the others." - Bob Fonda/WGLF

"'My Way Down' provides a great balance for our power rotation. It's got a good guitar-based sound that is tasty and different. We're getting a positive response." - Pam Brooks/WHCN

"This song is really lighting up the phones big time! I'm sure we will be hearing more of Chris Duarte in the future." - Tom Starr/WOUR

"We rammed it when we first got it. We took it all the way up and then brought it back down to create the demand. The calls keep coming in." - Rick West/WXKE

JAMIESON NAMED RCA PRESIDENT

Industry veteran **Robert Jamieson** has been named President of **RCA Records**, filling the position left vacant when Joe Galante segued to **RCA/Nashville** as Chairman in September '94. "The search for a new president of RCA has unquestionably been one of my most important priorities since I joined **BMG Entertainment** in January," said **Strauss Zelnick**, President & CEO, BMG Entertainment North America. "Bob's experience, leadership, management skills and, above all, passion for the industry, make him an exciting choice to lead RCA as it moves toward its second century." Jamieson, who has served as President/GM of **BMG Canada** since 1991, commented, "To be given the mission of leading this famed label — home to such dynamic contemporary artists as **The Dave Matthews Band**, **SWV** and **Bruce Hornsby** — and boasting a rich catalog with artists as important as **Jefferson Airplane**, **Harry Nilsson** and, of course, **Elvis Presley**, is going to be both exciting and challenging." Jamieson joined BMG after serving as Executive VP of PolyGram Holdings in NY. Prior to that, he served as Exec. VP/Marketing & Sales, PLG U.S. Before joining PLG, Jamieson had an extensive career at **CBS Records** serving in a variety of executive positions in the U.S., Australia and Europe.

The remarkable range and depth of Jason's signings, from **Skid Row** to **Tori Amos** to **Clannad**, bode very well for Lava, and we are looking forward to the label's emergence as a wellspring of great talent. The creation of Lava continues Atlantic's philosophy of nurturing and empowering our people. I congratulate Jason on this well-deserved next step in a great career." "Even though we've been 'cover songed' and 'tributed' to death over the past couple of years, we put 'Keep On Growing' right in. It's the perfect outlet for SHERYL's earthy vocals, and choosing a DEREK & THE DOMINOES song definitely helps us bridge the gap between our listeners who still rock out to 'Layla' and our slightly hipper ones who know that SHERYL rules!" - Amy Winslow/WNEW

"KDKB's playing the whole album, well almost. The best women in rock n' roll are on Boys On The Side soundtrack. Check it out and play it." - Paul Peterson/KDKB

"Melissa is bigger than she's ever been. We've already gotten phones! We're also thinking about SHERYL CROW." - Chris James/WTPA

"We're three tracks deep already (with MELISSA ETHERIDGE's 'I Take You With Me' leading the way) and we're going to go deeper. Hats off to SHERYL CROW for having the balls to cover DEREK & THE DOMINOES classic and doing a fine job of it." - Ralph Tortora/WBAB

"Great! Perfect! A no brainer. If you're a Clapton aficionado, you know the track. SHERYL CROW has changed it to make it uniquely hers, with just enough edge for an adult leaning station." - Pam Brooks/WHCN

WCKG/Chicago is the latest station to sign on with Howard Stern. The self-proclaimed "King Of All Media" returns to the Windy City on the Cox Classic Rocker mornings 6-10am. Stern and WLUP-AM/Chicago parted company in August '93, after less than a year on the air, and Stern's breach of contract lawsuit against Evergreen Media is still pending. WRZK/Tallahassee's PD Jeff Horn has re-signed with the station for two more years after turning down an offer at cross-town station WXSX. In other station news, 'RZK hired night jock Bill Collins. Collins previously did nights for WGLF/Tallahassee.

POLLACK CONVENTION

Yes, the Pollack convention is over, but those darn fotos just keep on coming. These courtesy of Atlantic L.A. rep Pamela Jouan, were taken at the Friday night Hootie extravaganza...

Weiland, (grimacing, with beverage) flanked by KROQ's **Kevin Weatherly** on the left and Pollack's **Tommy Hedges**, reacts to the news that Atlantic has planned a **K.C. and the Sunshine Band** tribute album showcasing STP.

More Pollack stuff: (from l-r) WVRK's **Brian Waters**, Mirsky victim, WZTA's **Neal Mirsky**, Hootie's **Darius**, and somebody we don't know who's just happy to be around Neal.

Atlantic Director AOR Promo **Lea Pisacane** just before she attempts to initiate a head-butt with Hootie's **Darius** and WRUF's **Harry Guscott**.

Here we see Atlantic's **Lea Pisacane** tickled pink to be asked to join another industry cheese-op. (Front row - sort of) **Pisacane**, (Back row, l-r) KLOL's **Andy Beaubien**, Atlantic SR, VP/Promo **Andrea Ganis**, Hootie's **Darius**, Pollack's **Carol Holt**, Pollack's **Chris Holt**, and Atlantic's Natl. AOR Director **Mark Fisher**

Atlantic's VP/Promo **Danny Buch** gets a C- for his demonstration of the Heimlich maneuver on KROQ PD **Kevin Weatherly**, as Atlantic SR, VP of Promo **Andrea Ganis** and **Darius** of Hootie and the Blowfish smile politely, overlooking the error.

Music soothes the savage competition, as KLOS's **Carey Curelop** and KROQ's **Kevin Weatherly** discover that "Hold My Hand" is actually perfect tempo for doing the rumba.

Bill McGathy and company pose for the industry camera at Pollack, evidently completely unaware of the UFO hovering directly over their heads. Pictured l-r are Atlantic's Natl AOR man **Mark Fischer**, Hootie's **Soni**, KISW's **Cathy Faulkner**, Hootie's **Darius**, and indie kingpin **Bill McGathy**.

Behind their backs, they are actually holding hands, as this shot of WHJY PD **Bill Weston** and WMMS Promotions Director **Heidi Kramer** was taken just after they were named King and Queen of the Pollack prom. Presenting the award was **Darius** of Hootie and the Blowfish.

SNEED, INDEED!

by Bill Hard

ALAN CRACKED HIS FIRST MIC AT FREE-FORM AM PROGRESSIVE WROL/KNOXVILLE, BACK IN 1975. IT WAS THE SORT OF STATION WHERE THE NIGHT GUY CAME BACK FROM A SALES CALL, WROTE THE COPY, RECORDED THE SPOT, THEN LOGGED IT IN DURING HIS 7-MID SHIFT — BECAUSE HE ALSO DID TRAFFIC. THE STATION WAS SOLD IN 1976 AND WENT TOP 40, GIVING ALAN HIS FIRST INSIDE EXPOSURE TO ANOTHER FORMAT. LATER THAT YEAR, HE BECAME PROGRAM DIRECTOR AT WKGX/KNOXVILLE, THE FIRST AM TO EXECUTE THE THEN EXPLODING SUPERSTARS FORMAT. HE MOVED ON TO WKDF IN EARLY 1978, THEN SEGGED SOUTH TO ATLANTA FOR HIS FIRST HITCH AT WKLS/ATLANTA IN 1980. A YEAR LATER, IT WAS OFF TO HOUSTON AND KSRR, FROM WHICH HE RETURNED TO 'KLS IN EARLY '83, WHERE HE WOULD REMAIN UNTIL EARLY '85. ALAN DID A YEAR OF INDIE PROMOTION AFTER THAT, AND THEN FORMED HIS OWN RADIO CONSULTANCY IN THE SUMMER OF 1986. IN ADDITION TO A NUMBER OF URBAN AND AC CLIENTS, ALAN'S ROCK ROSTER INCLUDES WRCN/LONG ISLAND, WRKI/DANBURY, WRXR/AUGUSTA, WONE/AKRON, WEGW/WHEELING, WYBB/CHARLESTON, S.C., AND WKLC/CHARLESTON, W. VA..

How has duopoly affected owners' willingness to factor you guys into the budget?

Alan: In certain situations, it's become a better situation for consultants if you embrace the available technology. I've made it my business to learn a couple of the automation systems. I'm a big fan of the Ultimate Digital Studio/DCS combination, where you can go in and run a second radio station with one guy. You get a guy who can run Selector and UDS/DCS to do the morning show and be the personality focus of the radio station. You've got a great second station scenario there. If you have a consultant who can help drive that bus, it helps.

Are you concerned about the perception that since you're 'just one guy' that you might not be able to offer the in-depth expertise or resources that a larger consultancy might?

Alan: I keep my client roster focused. 12-15 stations is about the limit, because I want to be able to give every station a lot of attention. Last year I was on the road for at least part of 47 of the 52 weeks, because I like to visit every station a minimum of once per quarter. I also like to be in the office. My goal this year is to be in town 12 weeks of the 52. That still sounds like a lot of time on the road, 40 weeks, but it would be a big improvement over 1994.

You have worked with a number of Urban stations for a long time. Many people would consider that odd given your rock roots. Is it a big stretch?

Alan: I've done a number of A/C and Urban stations. Everyone is looking for that 25-44 thing in these formats. The music and library emphasis is different in those formats, but the approach to formatics is similar. It helps my perspective not having a format agenda. I can tell these guys, 'I work in Urban, in A/C.' Back when I was doing some contracting for RCS I did other formats in addition. Not having a format agenda has helped my overall perspective, but rock is still my first love.

RAY DAVIES, COOK, ALAN, JOANIE LAWRENCE (A/C INDY NOW) 1979.

You and Larry Shuster worked together for many years. Why did you part company?

Alan: It was something we had been discussing for some time, since last spring. He's a guy who loves the music and the creative side of the business. He wanted to move to that side of the industry. His leaving was in sync with a timetable that he set for himself. In fact, I told him in January that if he wanted to, we could postpone his departure. He said, 'No, I've been doing this for seven and a half years and I want to move into this other area, so I'm going to stick to my schedule.' I miss him. I think he's one of the most creative minds out there in radio. Eventually, I think he'll end up in an artist-development role.

Was your conservative approach to adding records frustrating for Larry?

Alan: No, he's very good at separating his personal tastes from what radio stations have to do strategically. I don't think it had to do with me. It was something he wanted to do, and now he's going to try and do it.

You have a rep, deserved or not, as being a pretty tough add. Would you agree with that?

Alan: I would agree.

When you were in radio, the times were obviously different. You had a pretty wide-listed approach most of the time, correct?

Alan: Absolutely. It was kind of a different day, before classic rock surged forward as a viable approach. You have to give a lot of credit to Fred Jacobs for taking that ball and running with it in the mid '80s, after which emphasis on classic rock became your standard operating procedure. It went along with the shift in demographic targeting from teens and 18-24, to a 25-34 core of the core

for that format. Now, we see tons of the quarter hours coming from 30-40 year olds. The conservative approach makes sense if you think about who's embracing the music. I'm not saying mainstream AOR is going to end up being a 45+ format at some point, but people's musical tastes are developed in their late teens and early twenties. People hang with that through their lives.

You have a masters degree in statistics and measurements, right?

Alan: Educational psychology, actually. But statistics and research design was my area of concentration.

At a certain point, when you were playing everything that hit your desk, was it dawning on you that your research background could figure into your decision-making?

Alan: When I was a PD, the rap on me was that I was into street promotion, lots of marketing, doing the local music albums, playing a lot of music, pressing the flesh, and getting out to shows. That's correct to a certain extent. I was much more seat-of-the-pants oriented and passionate about the music. But that was twelve to fifteen years ago. Now, I tend to be pigeon-holed as a research guy — someone who's tight-listed, who guns Selector and manipulates the inventory with the software. Some combination of those two perceptions is the real Alan. I'm into a balance of science and emotion. I'm still into street promotion and pressing the flesh and getting into the face of the listeners, but at the same time, competition from other media dictates that you be a lot more strategic these days. People move on very quickly. You can't educate listeners anymore. You violate their expectations, they are outta there. What used to be mainstream AOR has splintered into at least five different formats.

Could you rank those formats' viability?

Alan: I see COR and Triple A being the least viable of the splinter formats, especially in contrast to Classic Rock and Modern Rock. Some people would say, 'Where does Rock A/C fit in?' I don't see that as a format, I see it as a piece of two formats. It's pretty special-interest.

Having been involved with rock radio for nearly two decades, how concrete do you believe these delineations to be?

Alan: At this point in time, in the markets where we have resources and perceptual reports, we have to target these stations for what listeners want in 1995. We can't look at a 3 or 5 year plan. We just don't know what's around the corner, and that makes your question pretty tough to answer. Classic rock is going to be around. It's oldies for the 25-40 year olds now and Modern Rock is here to stay.

A lot of programmers tell me they believe that format is on its last legs. Wishful thinking?

Alan: It's a niche format that takes the big morning show to drive it. If you're just doing a music machine classic rock, it's tough to make it happen. We found that out first hand when we tried to resurrect WCXR. The station was down to a 2 share, and there were signal problems. Three weeks after we got in there, an Arrow came into the market. Even if that hadn't happened, I wonder if we could have taken it to the next level, to becoming a P1 radio station for sufficient listeners, without the big morning show. You've got your classic rock fans, but one of the research guys a couple of years ago said, 'Every classic rock station in America will eventually have a 3.5.' If you look at classic rock stations without Stern, or a viable local morning show, it's a tough order. Infinity is very smart. They've got Stern and now they're building for the future with the sports franchises. They are trying to build great adult stations that just happen to operate within the classic rock music environment. The classic stations that will survive are going to be the ones that are good adult radio stations operating in the present, but also operating in the environment created by that music. The classic rock stations that don't sound good are ones where every jock is a musicologist and every break is about some band whose bass player died 20 years ago.

Are there many stations like that around?

Alan: I hear them occasionally. They're not very good. The oldies stations that are doing well are exciting. They are on the street. They have good promotions. You've got your '50s based thing, and you've got what I call the E. Alvin Davis oldies format, which is the real oldies format. That's early to mid '60s. Then you've got the rock and roll oldies thing, the Arrow deal, where the target is early Beatles to early '80s. That's a whole different thing from the Supremes, Four Tops, early Beatles focus that you get with a specifically-targeted oldies station. Sometimes these Arrow stations sound a little strange because they are so broad. These oldies stations are searching for some identity, too.

And your thoughts on the hits of the 70's?

THE Hard INTERVIEW

I believe it will be short-lived. I don't see milking one decade of music, when a lot of that music was very disposable. Formatically, Arrow is classic rock with a Pop edge. It's about a 15-17 year era spread. Clearly it's '70s-based, but you've got an opportunity with the Arrow approach to move the station subtly. You're '70s based, but not relying totally on one decade's worth of music. If you've got ten years worth of music, and you use the top 100 from every year to build your database, you've only got a universe of 1,000 records. By the time you test the music and get rid of the stuff that is only good for spice or features, how long can you play that list? Maybe forever if you have a good morning show and a good environment for the station. It could work. But I see the all '70s as pretty special interest. I see it working with a strong morning show in a big market with a zillion stations where the station can target a small portion of the audience which actually translates into a lot of bodies.

Would you say station owners are as bullish about Alternative as, say, the trade and consumer press?

Alan: A lot of people are buying into it, including the media. People want 25-54s — where the buys are. National buys, regional buys, whatever. If there are six stations in a market attacking 25-54, and you can come in and be the 18-34, and be competitive with one or two stations, it makes a whole lot of sense. A lot of people see that. I look at stations in some of the major markets — I worked with Summit and KISS in New York for a number of years — 18-34 was the priority. That's shifted now with Emmis and the duopoly, because they are attacking the lower end with Hot.

And hope your guys on the street are taking care of business.

Alan: In the smaller markets, people want to be competitive 25-54. I've had situations where stations are dominant 18-34 and doing well, and the management and ownership are dissatisfied. You've got to make a commitment in the direction ownership and management want. It's very tough to be an 18-44 radio station. That's a father and a son. I see the mid teens to late '20s, the X-er, is one thing, and the 30-44 is another thing. You've got to pick your shot. It's hard to be the Live/Foreigner station. We're all a little more active musically. I don't need to hear 'Layla' ever again. But the bottom line is, this stuff is still viable, people love it, and radio people have to remind themselves how people use the radio. It's an appliance. It's a toaster for most people when they hit 30+. When someone listens to your radio station, you've got to give them those great 2-3 songs, great mechanics, great pro-

motions. You've got to adequately represent your radio station every quarter hour. People are in and out constantly. When you get into modern rock — younger formats, musically active people who are 12-34 — it's a different ballgame.

With all the press on Alternative music and the interest in the artists and videos not getting any smaller, could we be in the midst of a societal change so expansive that many of the existing notions might no longer apply?

GRAMMY WINNER DON SCHLITZ ("THE GAMBLER," ETC.), MARY CATHERINE, ALAN, LEON TSILIS, NANCY SILENSKI (FRONT) ON NASHVILLE'S "ROCK BLOCK" 1979.

Alan: I don't see the people who are 30-35 years old changing their musical preferences that they forged when they were in their late teens and early 20s. You're always going to have some people who are more aware, who want to be exposed to more things. We're talking about another generation's music. Modern rock is a real format. It's here to stay. The stations that do it well are fun and interesting.

What do you think of 99X?

Alan: I think they're good. I like their morning show; it's come a long way. I would prefer that they played fewer oldies, stuff from the early to mid '80s. Occasionally, I even hear a record from '78, '79 that I don't think is viable in the format. Correctly done, I see that format as current, recurrent, very little Gold, very much like Urban. I prefer that approach for Modern Rock. I don't want to hear the Plimsouls, 'A Million Miles Away,' or 'Allison' on 99X. I don't get that. They do get into some fairly broad stuff that is out of the Alternative area. I can tolerate that more than I can 12-15 year old songs.

With most of the consultants, and Pollack in particular, aggressively courting Alternative stations, do you feel the urge to cash in on all the excitement?

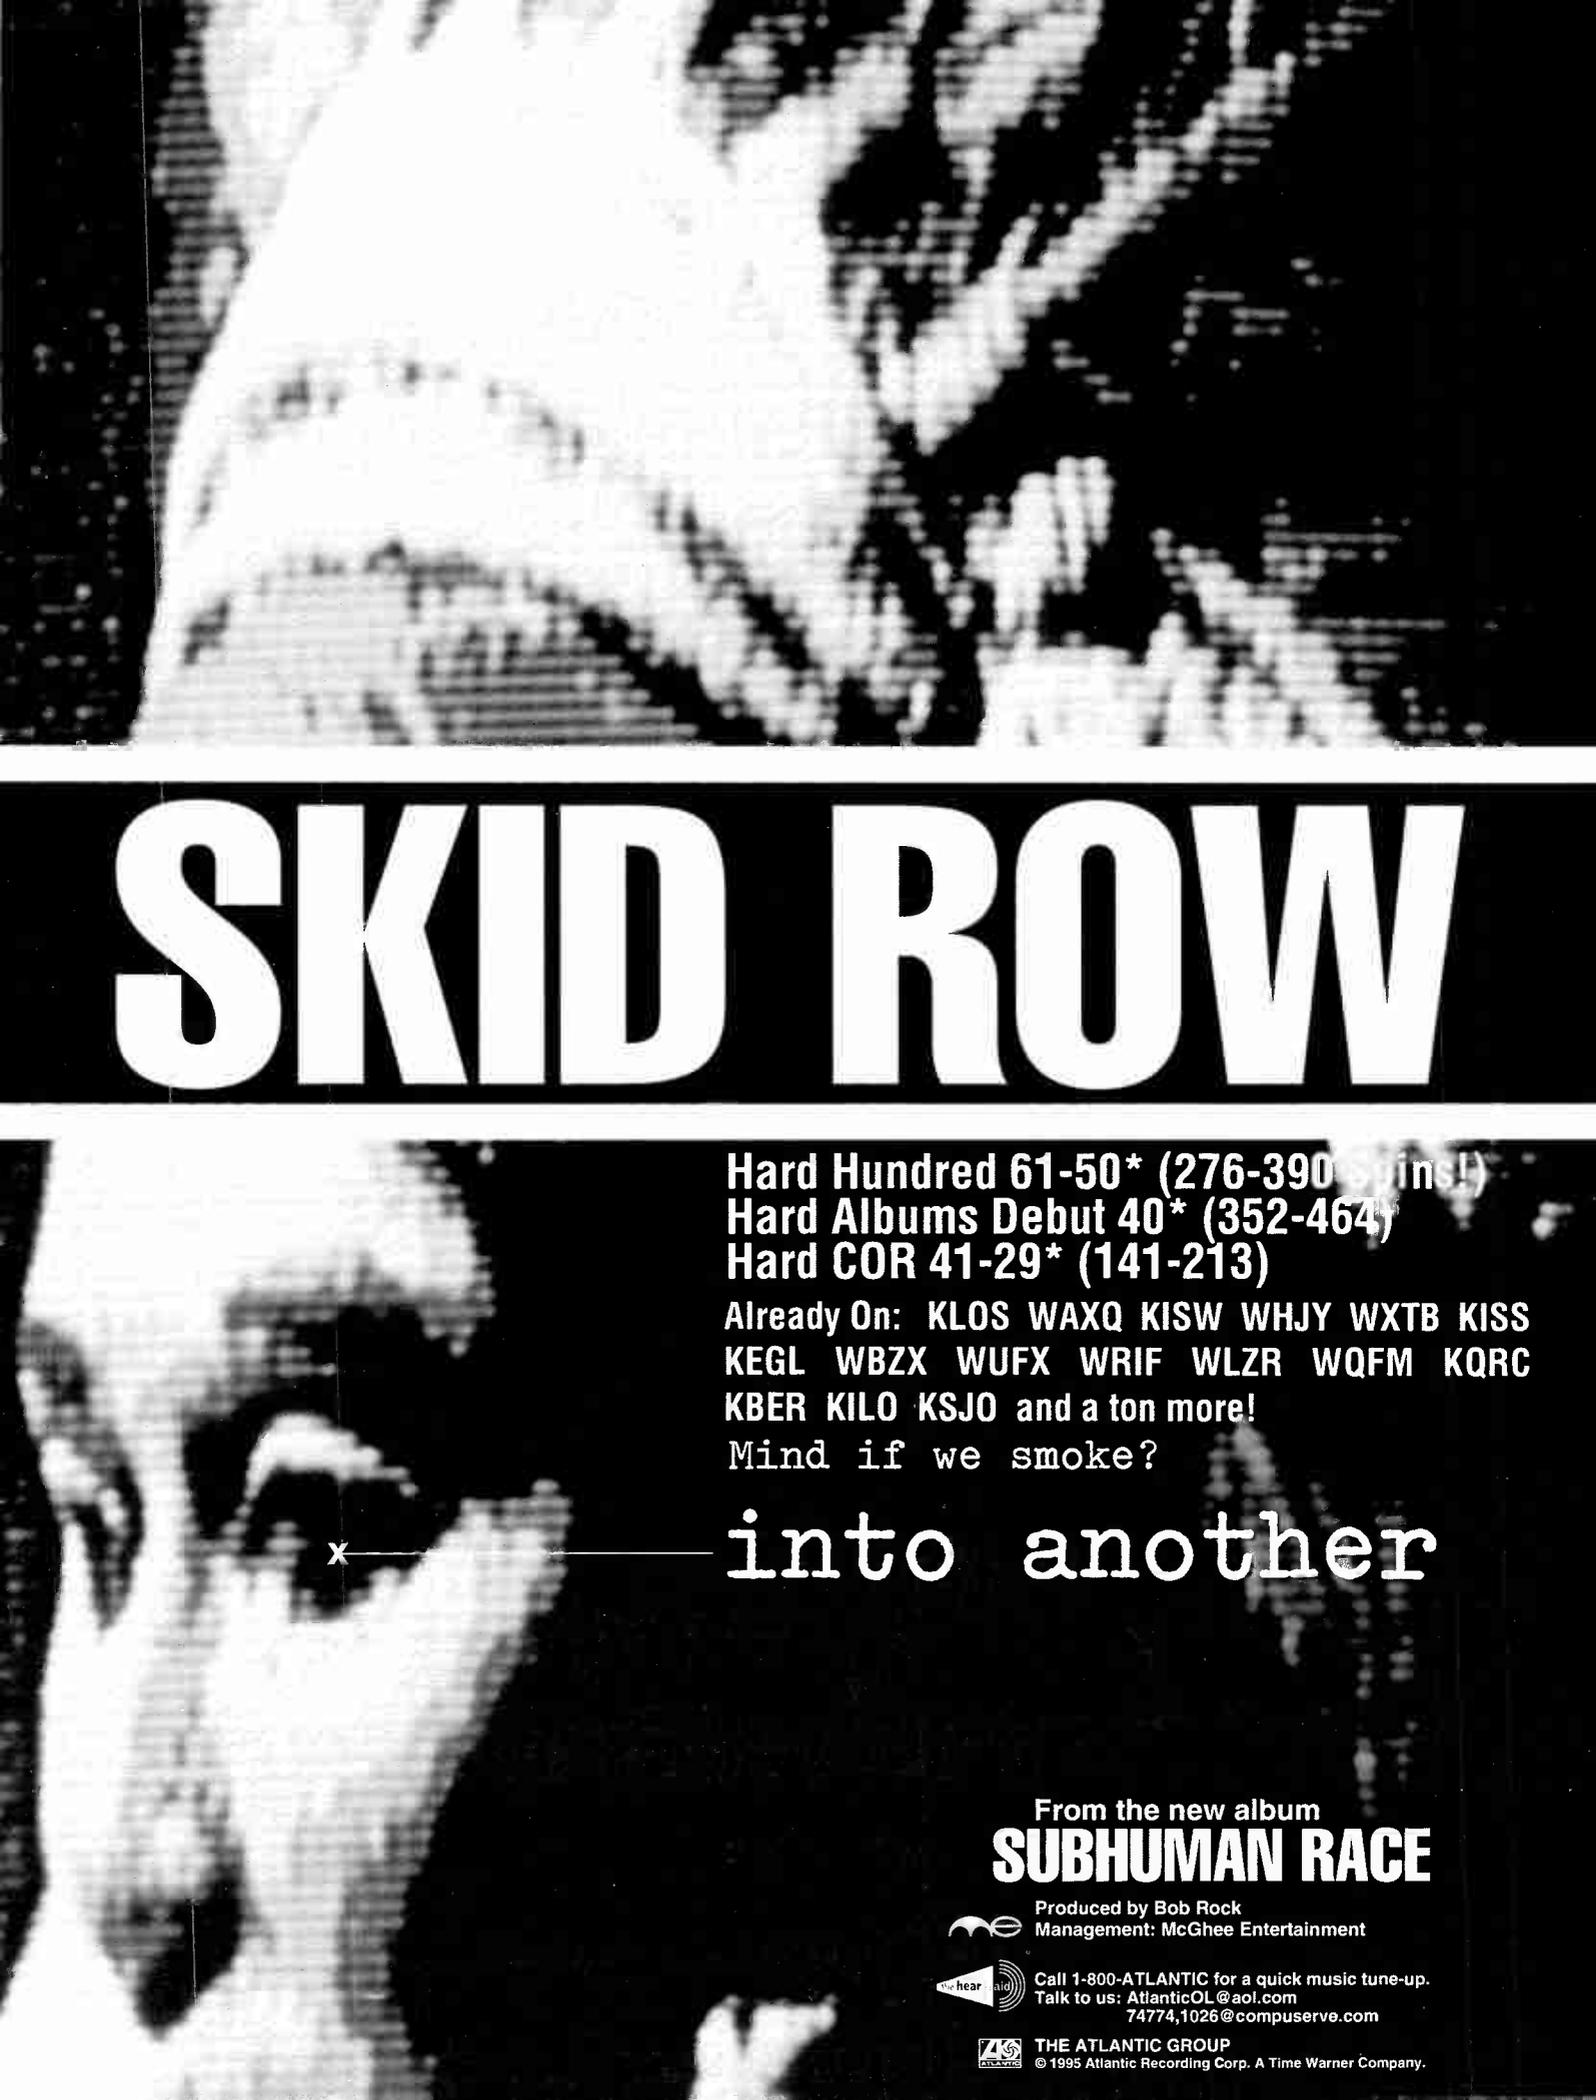

Alan: If I have the opportunity to work with a New Rock radio station, I would seize it. I see it as a viable alternative for a second FM in a duopoly or LMA situation, with a classic rock station. The match is really terrific. You do the mid teens to late 20s on the modern rock station then a 30-44 thing on the classic station where the currents are Tom Petty and Mellencamp and Clapton and Pink Floyd — that's a nice match. I'm hoping to have that opportunity, to put what I've learned doing Urban for the last eight and a half years into play system-wise for a New Rock station.

Liberty has a nice thang going on in Hartford, matching Modern with now Triple A leaning heritage WHCN. You like that pairing?

Alan: I think that's a pretty smart approach. One of the things about Triple A I think is interesting is that in the words of Jeff Pollack, if these stations aren't viable in terms of performance in 25-54 men, are they viable at all? I know some of them are interesting to listen to. A lot of the Triple A programmers embrace new music that 35+ listeners

don't seem to have much interest in, at least based on my observations in various markets. Triple A is supposedly an adult format. That's what the name says. But there's clearly a performance deterioration across cells here. Alternative music is huge 18-24. It still does well 25-34. But after you get into 35-44, there's a big drop-off in audience acceptability, and Triple A programmers continue to embrace this music. The Pop Alternative stuff is the most dangerous, at least with regard to the preferences of mainstream rock cumers. When you look at a Gin Blossoms, Toad, or Counting Crows, those are the least compatible with mainstream rock. Maybe they are more compatible texturally with the Triple A approach. These bands are very strong among women, especially 18-34. Some Triple A stations play soft '70s, classic rock occasionally, and then they'll mix it in with hipper A/C-type artists. These tend to be Bonnie Raitt-type stations. And then you get the Crash Test Dummies at the other end. I wonder what the logic is sometimes when I hear Michelle Shocked into a soft classic rock cut into the Freddy Jones Band into 'Hey Jealousy.'

Are you surprised that the Gin Blossoms and Toad don't meet listeners' expectations at the AOR level better?

THE Hard INTERVIEW

Alan: It does surprise me. That stuff is hooky and texturally appropriate. At the same time, the stuff with an edge, the grunge stuff, tends to have more in common with the tastes of the mainstream rockers. It makes sense. You've got Pearl Jam, STP, Alice in Chains. If you think about it, Alice in Chains opened up for Van Halen a couple of years ago. I looked at the crowd at the Pearl Jam concert, and the crowd at the Van Halen concert — you know the Van Halen audience is a little broader, a little older, but those two audiences had a lot in common.

Do you have any personal interest in Triple A?

Alan: I don't have any interest in the format, personally. Modern rock and mainstream classic rock-based radio with a few select currents are both much more viable than Triple A. Pure classic rock with a big morning show or the Infinity approach with some sports is much more viable. The 18-24 based COR stuff and Triple A are the least viable of the five. I think COR is the least viable, period. With Triple A you can at least come through with some viable sales efforts. You can say, 'Hey, we may not have the biggest audience, but look at our qualitative,' very much like a jazz station, an NAC station. Some of these stations have had incredible success, like KBCO. Of course they are being eaten alive at this point by the Peak.

In all of twenty-five to fifty-four, the number that is the most mind-blowing to me is the fact that Feinstein and KKFS are #2 25-54 in San Francisco. Talk about qualitative and quantitative.

Alan: They have done an incredible job. What Viacom's done in Washington, with the old CXR with JZW, is incredible. JZW had a little signal deficiency, it was in a battle with the Arrow and DC101. But there was a hole for jazz because Jazzy had become Big Oldies. If you do a good job with jazz, NAC, or Triple A in a big market, you can do well. KKSF and WJZW both have numbers, but even without big numbers, they are selling educated, affluent listeners.

What would you consider the best unconsulted station in the country?

Alan: Probably WDVE, although Gene obviously serves as an in-house consultant. DVE is one of those stations that really is the community. It goes beyond being just involved in the community. DVE is the best example of a great rock radio station that is out there. All that goes way beyond their music. It's tough to categorize them.

I hear they're getting their own zip code. You've had a long run with WONE. What is the key to your relationship with them, ratings success?

Alan: Ratings success and our methodical approach to things. That's something I've been proud of. In '88, 'MMS was the number 1 station in Akron with over a 10 share. Now they are not a player. They usually get a 3 or a 4. I'm on my third owner and fourth PD at WONE. Even though that's been the case, there's been a ton of continuity. Everybody has kept their eyes on the ball. They understand that the mission is to be a

great mainstream rock radio station for that market. You've got 'NCX covering the market with Stern. You've got 'MMS, the End — not a great signal, but still covering the market — and 'RQK, in Canton. You've got a pretty competitive rock thing going on there for 'ONE to dominate as well as they do. In the trend that came out yesterday, they were number 1 with a 9.1 25-54.

How much of a change in the station do you discern since John Gorman returned to the Buzzard?

Alan: Gigantic changes. They are playing tons of currents. I think they play too many currents, personally. Their list is too long. They have our former morning show on there. I have to tip my hat to John for getting those guys. Brian and Joe were first a team at 'ONE and then they went to Denver and then Dayton. Now they're at 'MMS.

What's your overview on the Charleston market? How much of a difference do you hear at WAVF since Gene Romano started consulting? And what is the key to such an eclectic station becoming such a ratings leader in the market?

Alan: I hadn't heard them for a while. Gene started working with them around last fall. I didn't get back involved in that market until November.

Do you feel you've made any inroads at WYBB thus far?

Alan: We've made inroads as far as focusing the station and getting some systems in place there and attacking the situation with more of a strategic plan. T.K. O'Grady, who is programming there, has been around the block. He worked at Fire in Chicago, at the old WAXY in Miami. He did a great job in CHR in Springfield, Missouri. He went back and did AOR at KXUS for about three years. There is a guy who has been in the majors and some smaller

MOBY AND ALAN WITH WINNERS 1979.

markets. He's going to do a great job there. It's going to take some time with 'YBB. The station's had about six PDs and as many consultants in as many years.

You'd agree that WAVF is a unique situation?

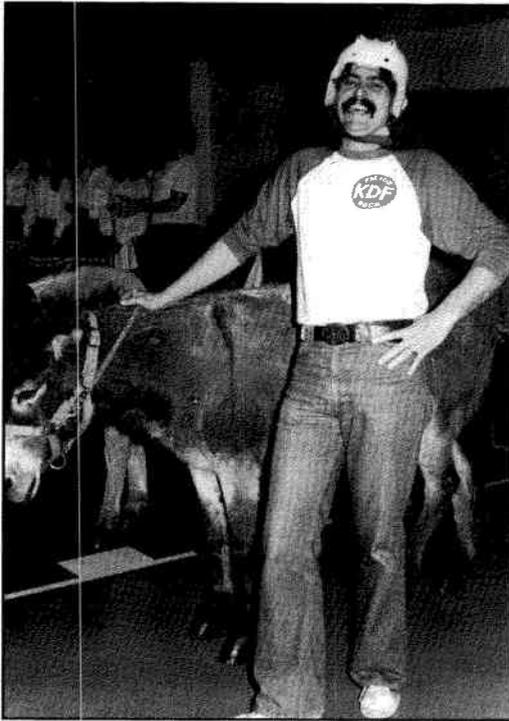

Alan: I worked with them for four and a half years. We had a great run there as a mainstream station, with Jeff Kent and then Steve Kosbau as PD. They did a great job. Woody and Dave have elected to take the station in an alternative-oriented Triple A direction. If you say, 'Where is there a really successful Triple A station?' I would have to point at 'AVF, rather than some of the others people talk about. You can hear 'Sunset Grill' by Don Henley into Liz Phair 'Supernova' at that station. One morning I heard Lyle Lovett into the Hothouse Flowers into Pete Townsend. It's pretty eclectic.

Given your relationship with WRCN, you've obviously heard what Russ Mottla has done with WDRE.

Alan: I have, and I think it sounds like college radio. Z100 is really the hit alternative radio station in that marketplace. DRE is interesting. But they are more adventurous and take more of an approach that you would hear at a non-commercial radio station. I think that's what Russ is trying to get to.

Do you think Russ made the move to differentiate himself from Z?

Alan: Possibly so. In the past, the station under Calderone tended to be pretty Gold-based. Now it's very cutting edge, in terms of approach and attitude. The jocks have an edgy attitude. But I'm still going to listen to Z100 especially at night with Pearl Jam and STP and the Gin Blossoms. It sounds great. DRE's got a pretty good Nassau signal. They cover a lot of people. They've been in the 1.5 to 2.5 range. They're trying to se

Ted's intent at 'NEW was to maximize the potential for a 'mainstream station.' He didn't want to lean Triple A, he didn't want to lean more classic. They seem to have done a pretty good job of adding Live and Foreigner.

Alan: Yes, 'NEW is in the classic mainstream thing. They're not pulverized with tons of competition. They're walking the line, much like a medium market mainstream rock would be. One of the things that I see is that if 'NEW were more focused and played better currents and looked at strategic focusing of the music, they could do even better. K-Rock is weak musically. Music is not the big part of their energy. There's a long way from Q104 and Z100 to K-Rock. 'NEW has a lot of room to move there. They are trying to cover a lot of that territory instead of doing some strategic positioning and maximizing a core of the core.

With Ron Valeri coming into Q104, and that station under-performing to date, that whole market complexion is going to change.

Alan: People get Q104, though, I can tell you. People sometimes just look at 12+, but Q104 does a good job as far as people understanding what they are. With Q104 you see a late teens, early 20's format, and some mid to late 20's, but it is what it is.

Don't you think that with the correct adjustment, 104.3 could move to a late teens-late 20s radio station?

Alan: Absolutely. In the late '70s and early '80s, wasn't the rock demo supposedly 16-28?

I used to have managers breathing down my neck for a solid 18-49. Hey, no problem.

Alan: The core of the core, everybody is slashing it down to a 10-12 year age group. Q104 has that leeway. That station puzzles me because of the oldies I hear there. Maybe that won't be the case in the future. When I hear oldies on that station, I scratch my head. It's similar to what I described about 99X. I don't understand it. I know they've run the rap about doing a lot of cluster analysis and that's part of it, those up-tempo

classics and everything else. I'm into a purification of product thing. When I'm working with an Urban station, I encourage the people not to play anything but Urban product. If you're working for a classic rock-based station, be very careful about playing stuff that is clearly teens and early 20s. When I look at Q104, I wonder what 'Burning For You' has to do with that format. I understand when you start slicing that pie into clusters, cluster analysis can be very useful. I'm a big fan of it. You can also paint yourself into a corner if you decide you're going to take one piece of the pie and superserve it at the exclusion of the rest of the pie. The station has more potential than what we've seen. 'NEW does, too.

If you accept the fact that a certain amount of the low-end listener choice is fashion driven, could enough of those Q104 listeners be seduced by the Alternative buzz that the viability of metal-based product could fade?

Alan: That's absolutely true. Urban tends to be very current-based. There used to be a lot more of a one-hit wonder thing going on there. You see a lot of artists who can't follow up, and teen acts. The same is true at Alternative. The Spin Doctors are done and some people think Soul Asylum may be done, too.

Why would you say that?

Alan: There just doesn't seem to be much of a buzz on them. Programmers I speak with who played the soundtrack cut didn't get much on that. I wouldn't put them in the same category as the Spin Doctors. They came up with a weak follow-up. The reason I bring up the Spin Doctors is to illustrate my point that listeners move on. I'm wondering about the next Metallica record. That band sold

ALAN WITH TRUSTY STEED "RIGOR MORTIS" 1979 (REMEMBER DONKEY BASKETBALL FOR CHARITIES?).

what they can do. They have a terrific population base under their signal, being in Nassau County. It should be interesting to see what kind of effect they have. Z100 is in their ballpark, as far as I'm concerned, and so is Q104. They play a lot of the harder new rock.

The perception is that you moved WRCN a little more to the middle once Q104 cranked up. But was WRCN really rocking that hard previously?

Alan: We were clearly much more up-tempo and aggressive with our sound than 'BAB. Had we gotten the simulcast signal without Q104 in the picture, it would have been much easier. With Q104, the polarizing approach in today's society is the easiest one for people to grab onto. 'This guy is the hardest. We get that.' The battle now is to try and differentiate the station from 'NEW and 'BAB, the other mainstream stations in the mix, without getting into Q104's ballpark. They are going to be the hardest, most current, period. Once you get out into Suffolk County, Q104 is not a factor, due to signal problems. We cover from eastern Nassau to the Hamptons. Once you get out of Q104's coverage area, we are the most up-tempo, aggressive-sounding station. We've only had the adequate simulcast signal for a couple of quarters and that's a major market. 'BAB is a well-imaged station that has done well for an incredible amount of time. They're big on Long Island. It's going to be an interesting battle. 'NEW is still in the mix. You've got Q104, Z100, 'DRE and K-Rock. You've got seven stations in the 18-44 rock come battle.

THE Hard INTERVIEW

MIKE BECK (WDIZ), THE NUGE, KERRY LAMBERT (WZRR), ALAN 1979 (AT WKGN/KNOXVILL...FIRST ABRAMS SUPERSTARS AM.

Stations are so incentive-oriented, that if the companies are there with the right stuff, it's not hard to create the perception that a record is happening. I see it in my stats every weeks.

Alan: I've got to give the record people a lot of credit. They keep convincing people to give these bands another shot. They say, 'Hey, these guys are different. Play this one, it's going to happen.' At some point you've got to say, 'Hey, this is done.' We're to that point. I'd much prefer one of my stations to

other side of that coin is that we all owe each other common business courtesy. I encourage people at radio stations to set a time when the record people have a window of opportunity to contact them, work them, and do their job. At the same time, record companies have to respect what the radio stations are trying to accomplish and respect their rules and call when they have times set up. Radio and records need to understand that they are not in the same business.

One of your most commendable qualities is that you have managed to cultivate and maintain loyalty at the station level. What's the key there?

Alan: I appreciate that. I never thought I'd be a consultant. I became one because I wanted to stay in Atlanta, where my son was living. I started promoting records and segued into the consultant thing. When I started this, I made a commitment to myself that I would be more of a programmer's consultant. I vowed to stay out of politics, not power play people — some of the things that happened to me when I was a PD at the hands of consultants. Anything I would say to an owner or GM about a PD, I would say to the PD. I try to be on the table, up front with people. I tell people, 'I was a PD for almost a decade. I did a lot of things right, and I did a lot of things wrong. I can tell you what I did wrong, and you don't have to make those mistakes, because I made them, and I can tell you what not to do.'

Can I assume that the number 1 cardinal crime is to rat the PD out to the GM?

Alan: I like to work with the PDs and say, 'Hey, we need to focus the radio station and we need to do this and that. I like to work with the PD to augment the PD's efforts. That's what my mission is. I don't spend a lot of time PR-ing GMs. That's a bit of a problem for me at times. Sometimes I'm not as political as I should be, but at the same time, I don't have any trouble sleeping at night.'

a lot of records. They had a couple of huge tracks on there. Is Metallica still going to be there with a next release?

What do you see happening with this Megadeth record?

Alan: Not much. When you've got an active music format, geared towards currents, the audience is constantly moving on. Look what happened with this 'hair band' stuff. It was driving a whole format, but the radio station that represented that approach was the Blaze, which no longer exists.

At what point did you work with the Blaze?

Alan: I worked at the Blaze when it was Fire, when it was A/C. It was Fire, then it became the Blaze.

When you think about it, the fact that John Edwards could get in there, power up his currents, bag big numbers, sell to Evergreen for big bucks and get the hell out of town isn't such a bad plan, eh?

Alan: Yeah, they rode it too long. If the Blaze had evolved once grunge started happening, it could have survived. They held on to the Warrants and Wingers and Cinderellas and Poisons way past the point of usefulness. I had a frank conversation with Alan Oremen about Tesla a couple of weeks ago. These bands are done. That's not me saying it. Listeners are saying it, and these bands are not selling. In fact, many are no more than club acts now. The young, active rock audience has moved on. When that happens, you've got to accept it. You've got to accept it in Alternative, if the Spin Doctors are no longer viable. You've got to accept it in Urban. You've just got to move on.

embrace a harder record, like Bush.

How long do you think the Led Zep tribute is going to be around?

Alan: Some of those performances are terrific. But 30-35 year old Led Zeppelin fans don't appreciate a cover by 4 Non Blondes. I have urged our stations to handle that project gingerly, to play a taste of the viable bands like Hootie and STP. It's going to be out there, people are going to hear it, and it's going to be out of here.

How important is it to be first on a record that becomes a hit, like Bush?

Alan: If you're talking about an active, current-driven radio station, it's very important. If you're talking about a station trying to attack 25-44 with a core of 30-40, playing the hits is much more important than making the hits. At the same time, I tell our stations to play songs enough to get the job done. If you play a record 40-50 times and don't get anything on it, you can look the record guy in the eye and say, 'We played this record 30, 40, 50 times and it is supposed to be an active record. We never got anything on it.' It's hard to argue with that. If you throw a record in with 2 plays a week and fudge the report up to 5, what do you expect?

You did indie promotion at one point.

Alan: Yes, for a little over a year. I had been a PD for almost a decade. That year away from radio improved my perspective on the radio side. This is not something the record people would like to hear, but we're not the same industry. We're related industries. We have some concerns that overlap, but a lot of the concerns of the record community are in contrast to the concerns of radio. The record people want you to play their priorities. They want to get the exposure. They want you to play lots of current music, but that's not always in the best interest of the radio station, with regard to their strategic objectives. The

TRIPLE ACE

Susan Werner, "Last Of The Good Straight Girls," Private Music Bruce Ranes, *The World Cafe*, "I'm a real big fan of Susan Werner. She's a great songwriter, and her debut from Private Music is very strong. Catch her if you can when she comes through town, she will not disappoint." **Tim Tobin, Upper Valley Radio Network**, "Susan first caught our attention about a month ago when she played in the area. She's a tremendous singer/songwriter. Susan is a great talent for Triple A, both as a songwriter and

as an excellent performer, as well. We are looking for heavy airplay in the near future. This is a fine album." **Ian Taylor WKVT**, "Oh God, she's wonderful! Where has she been? 'Last Of The Good Straight Girls,' what a great song! We're playing it and you should, too. This song is not pretentious, it's wonderful and it rocks." **Jim Herron WBOS**, "Like it, added it! Boston loves Susan. One listen to *Last Of The Good Straight Girls* will tell you why we love her." **Jeff Hansen KPFT**, "I listened to the three-song sampler and was really impressed with her voice. This album is excellent for Triple A." **Greg Roberts KFMU**, "This is a good record that really balances out the station with a vocal texture that is real nice."

THE HOT CORNER

Peter Murphy, "Cascade," Atlantic From the mind of former **Bauhaus** frontman **Peter Murphy** comes a *Cascade* of passion. Peter's music and vocals are emotional beyond verbal description. It's as if Peter has been everywhere and done everything. Murphy invites the listener to take a journey where there are no limits. Prioritize your itinerary with Peter and make stops at "Mirror To My Woman's Mind," "Subway," "Disappearing," "The Scarlet Thing In You" and "Cascade." **Zeb Norris WXLE**, "The delightfully effete,

euro styling of Mr. Murphy are eminently more attractive now that someone taught him some major chords. Destined to be a modern rock smash, it also fits in our format." **Don Ferrell KRVM**, "I've been desperately waiting a long time for Peter Murphy. I've always loved this guy — even back in the days when I would be sitting around in the dark, dressed in black and listening to Bauhaus music. This is fantastic stuff, and I'm looking forward to the rest of the album. It fits well in our format and we're already getting calls on it. This is a barn burner of a tune."

Francine Reed, "I Want You To Love Me," Ichiban Wooah! Our heads are still spinning! What a powerhouse, upbeat, kick \$*@ blues duet! Francine Reed and Lyle Lovett can back anyone into a corner. That's power. When you decide to turn the repeat function off on the CD player and stop listening to "Why I Don't Know" and check out the rest of Francine's new release — *I Want You To Love Me* — you won't be disappointed. This female James

Brown brings you soulful vocals, funky guitar, tons of horns and Hammond organ all over the place. Groove on all — especially the duet "Why I Don't Know," "One Monkey (Don't Stop No Show)" and the smooth "Gathering Up My Love." Listeners of all types will salivate like dogs at this lady's tasty musical morsels.

SINGLE SPOTLIGHT

Simple Minds "Hypnotised" Virgin

Steve Cole KSPN, "Simple Minds' 'Hypnotised' has been our favorite track from the get-go. The guitar figure soars out of the typically dense arrangement and creates an effect that is truly hypnotising. It's more melodic than many of the tracks on the album, but it definitely

gets your attention and keeps it. 'Hypnotised' is one of the best singles of the year." **Sybil McGuire WMMM**, "We have been playing 'Hypnotised' since we got the album. I still love the feel of this record, the lead single, 'She's A River,' is a smash hit, and 'Hypnotised' is not far behind." **Shawn Taylor WVAY**, "We're playing 'Hypnotised' along with 'She's A River'. Playing the harder-edged Simple Minds and then a slower, steamier tune really balances things out. We love, love, love Simple Minds." **Mikel Ellicessor WYEP**, "I'm getting calls from adult males, which shows clearly that there is still interest in Simple Minds." **Bruce Stebbins WRNX**, "I really like 'Hypnotised,' it's got a good familiar sound that Triple A needs. It really balances out a playlist." **Kelly Long KXGO**, "It's great to have Simple Minds back. They still have the same tight music sound that weaves perfectly into Triple A."

TRIPLE CROWN

Simon Bonney "Everyman" Mute Corporation

Put another shrimp on the barbie and another cut from that smooth Australian mate Simon Bonney on CD player. Simon's *Everyman* is something that everyone should own. Heavy on various stringed instruments (banjo, mandolin, etc.), acoustic guitars and vocals — light on the bullshit — Simon cuts right to the point with creative arrangements and production throughout the entire disc. Interesting vocal hooks and delivery leave the listener eagerly awaiting the next track. Kindly explore the following: "Don't Walk Away From Life," "Travelin' On" and "Good Time Charlie's Got The Blues."

Terry Hall "Home" Anxious Records

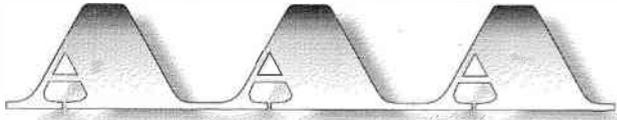

Home, the warm and comforting new release from British Pop Culture pioneer **Terry Hall**. After a very colorful career with a few different pop bands — **The Specials**, **The Funboy Three** and **The Colourfield** — Hall has finally come to musical terms with himself and presents us with his solo album, *Home*. Terry's captivating lyrics and keen sense of melody make this whole disc easy to fall for. "Forever J," "I Drew A Lemon," "What's Wrong With Me" and "I Don't Got You" are radio ready and begging to be spun. So, let your listeners welcome Terry Hall into their homes. He won't eat much and he's sure great to listen to.

Collective Soul "Collective Soul" Atlantic

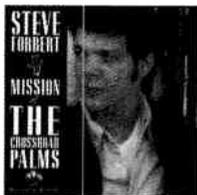

Collective Soul's latest release combines just the right amounts of melody and edge to perk up Triple A playlists... **Colter Langan KMMS**, "We added this immediately. The guitar player is a standout. Collective Soul adds great energy to our playlist, and is suggested for any Triple A station that wants to play some rock n' roll." **Ron Sorenson KFMG**, "We had great success with the first Collective Soul and the new album is just as useful for adding that extra edge to Triple A." **Ian Taylor WKVT**, "This is a tremendous effort by Collective Soul. We added this the minute we got it, and we are already three or four tracks deep on it. It's a very, very good album." **Greg Roberts KFMU**, "Collective Soul definitely shines on this record. You have to dig deep for the good stuff for the format, but they're in there." Suggested tracks for the format include "December," "The World I Know," "When The Water Falls," and "Reunion."

MUSIC NOTES

By Jason Parker

Steve Forbert, "Mission Of The Crossroad Palms," Giant

This is the album everyone hoped Steve Forbert would make. He has gotten back to what he does best, which is write powerfully emotive songs with simple arrangements and beautiful melodies. "It Sure Was Better Back Then" is a smash, plain and simple — and the other

eleven songs that make up *Mission* are equally good. Songs like "It Is What It Is (And That's All)," "Lay Down Your Weary Tune Again," and "Oh, To Be Back With You" are studies in songwriting, and "Real Live Love" and "Don't Talk To Me" are just plain fun to listen to. There's a wealth of material on this album, and hopefully it will put Little Stevie back on top.

Laura Love, "The Laura Love Collection," Putumayo

Laura Love has been wowing audiences in the Pacific Northwest for years with her awesome bass playing and her self-styled "Afro-Celt" music. Her blend of African rhythms with Celtic, rock and soul infuses her new album, *The Laura Love Collection*, with energy.

"If You Leave Me Now" is a great introduction to her sound, and is featured on the next new music sampler that you'll receive in a couple weeks. Also, check out "Anyway," "Less Is More," and "I'm A Givin' Way." Laura Love can add some much needed diversity to your playlist. Be sure to read her bio, she has quite a story.

The Delevantes, "Long About That Time," Rounder

The Delevantes could be huge. They write great songs with hooks and harmonies up the yin-yang, and have multi-format potential. *Long About That Time* is a terrific debut album that you should spend some time with. Backed by E Street Band bassist Garry Tallent

and Heartbreaker Benmont Tench on keys, Bob and Mike Delevante are poised to pounce. *Long About That Time* kicks things off, and lets you in on the band's influences, which include The Byrds, Bodeans, and their current home town of Nashville. "Driving At Night" is a good country-rocker, and "Pocketful of Diamonds" and "Blessing In Disguise" are also worth a listen. Don't let this one pass you by.

Susan Werner, "The Last Of The Good Straight Girls," Private

We extolled the virtues of Susan Werner when her CD *Pro* came out, but there are three album tracks that you should also spend some time with. "No One Here But Me" is a nice rhythmic folk piece, "Through The Glass"

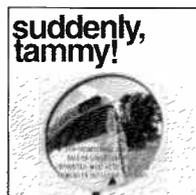

is a bittersweet love song, and "Yes to You (Tappen Zee)" is a funky little gem. Werner writes great songs, and if you need further proof, listen to "Much At All," which had us on the verge of tears when we first heard it.

Dr. Didg "Out Of The Woods," Ryko

Thanks to Jody Denberg at KGSR for pointing this one out to us. Dr. Didg is Graham Wiggins, one of the few masters of the didgeridoo outside of Australia. He blends his playing with electric guitar and percussion to form a very compelling sound. Check out the single,

"Devon," from the album *Out Of The Woods*. "Ever Increasing Circles" and "Under The Influence" are also great sounding songs.

Suddenly, Tammy!, "(We Get There When We Do)," Warner Bros.

With the release of *(We Get There When We Do)*, Suddenly, Tammy! should go from a promising indie band to a major AAA success story. With piano, bass and drums, and the sweet voice of Beth Sorrentino, this

is a band we can own from the get go. "Hard Lesson" is the single and sounds great to our ears. "Funky" is just that, and "Beautiful Dream" and "Get Off The Ground" also went over well here in the office.

Wilco, "A.M.," Sire/Reprise

Wilco is almost the same band as Uncle Tupelo, without Jay Farrar. If you liked UT, you'll love Wilco. *A.M.* is their "debut" album, which is supported by the single "Box Full Of Letters." An upbeat song with the typical Tupelo looseness, this one should fit in very well beside currents like Del Amitri and Steve Forbert.

Album tracks to focus on include "Should've Been In Love," "Pick Up The Change," and "I Must Be High."

C.J. Chenier "Too Much Fun," Alligator

Since the death of his father, the late great Clifton Chenier, C.J. Chenier has taken over the reins and become the world's greatest proponent of Zydeco music. With his group, The Red Hot Louisiana Band, he has been spreading the zydeco gospel worldwide. With the

release of *Too Much Fun*, more people than ever should be hip to this guy. You should have a 2-track CDPro with the single "Man Smart, Woman Smarter" (done by Robert Palmer and the Grateful Dead, among others) and the title track. Either or both will add spice to your station.

Columbia Records has expanded its Triple A Department. **Kid Leo** announced that he has promoted **Jenni Drozd** to National Triple A Promotion Coordinator. Jenni was formerly Rock/Triple A Promotion Assistant, and if you've ever had the pleasure of speaking with her, you already know that she is one of the most musically knowledgeable people you'll come across, and a genuinely pleasant person on top of that. She can be reached at (212) 833-8368.

KEKO /Tuscon's new area code has now gone into effect. The new number is (520) 622-6711. If you try to call the old area code, you will receive a mild electrical shock and a stern talking to from an aging, frustrated telephone operator.

FM101.9/Los Angeles announced changes in the on-air staff lineup. Effective Monday, April 3rd, **Nicole Sandler** moves to mornings. She will be reunited with **Chuck Moshontz**, formally with **The Mark and Brian Show** at **KLOS**. Chuck will focus on news and environmental issues. MD **Merilee Kelly** moves to middays, and PD and former morning man **Mike Morrison** takes on the afternoon shift. **Mimi Chen** remains in the 7pm-midnight slot. Commenting on the new addition to **KSCA**, VP/GM **Bill Ward** said, "Chuck Moshontz is one of the most respected names in L.A. radio and will bring added professionalism and talent to fm 101.9. We're pleased to have him on our team." **Mike Morrison** added, "While music will remain our primary focus in the morning, we're thrilled at the opportunity to bring such a talented newsman into our fold. Nicole and Chuck will complement the music wonderfully." In other station news, Mimi Chen has introduced a new nightly feature, the "fm 101.9 Local Spotlight." The show focuses on music from unsigned artists and airs weeknights at 11:00pm.

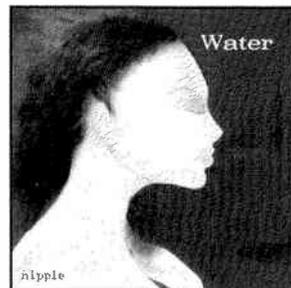

WCBE/Columbus recently unveiled a new station logo, highlighting the fact that the station can now be heard on both 90.5 in Columbus and 106.7 in Newark. "Our previous logo emphasized the 90.5 frequency, and since our expansion with the 106.7 translator in Newark, we've wanted to move towards the call letters," said PD **Norm Beeker**. The former logo had been used since 1987, and was designed when WCBE was a news and classical music station. "We've clearly changed on-air," added Beeker. "This design will bring our visual image into the '90s, and gives us a logo that reflects the diversity of WCBE."

When **Willy Porter** is in the area, he stops by the corporate cabin to let us know what he's up to, and to get directions to Philadelphia. The last we heard, Willy had several impressive offers on the table and close to 200,000 miles on his Volkswagen Rabbit. Pictured in the Hard Report mandatory "boys on the left, girls on the right" photo are (l-r): **Joe Hilger, Spiro Phanos, Willy, Lisa Riegel, Bill Hard, Collie Hard, Holly McCormack** and **Kelli Snively**.

Virgin staffers gathered around legendary guitarist **John Lee Hooker** to celebrate his 75th birthday and the release of his Pointblank/Virgin release, Chill Out.

Popa Chubby

Booty And The Beast

OKeh

Rich Gordon, WXXR, Rockford, IL

I'm always leery when I hear someone tell me about "the next big thing." It seems "next big things" usually come up short somehow, or were "in the right place" only a few seconds late. Popa Chubby is the latest blues performer gathering lots of hype from his label. As Bo Diddley put it so well, "You know you can't judge a book by looking at its cover." I suggest not looking at

the cover of this disc until after you've heard it. Popa Chubby has a rather unique appearance. The world of the blues is going to have to make room for another BIG man. I was surprised by this disc. Popa Chubby is one hell of a blues guitar player. He has learned to master the blues, and delivers it in a burst of high energy that can take your breath away. His mixture of blues and rock delivers a potent shot of tight blues energy. Coming out of the Bronx, these blues are seasoned with some tasty urban spices, gritty voice and blazing guitar. The disc opens with a barrage of blues guitar riffs on "Palace Of The King." Popa Chubby mixes up a perfect blend of tunes guaranteed to get you up and moving. "Sweet Goddess of Love and Beer" could become the anthem of barmaids across the land. "Lookin' Back" presents the case of "what if" in yet another light. And when it comes to the blues, "Same Old Blues" holds nothing back. You can tell that Popa Chubby attacks his instrument with a vengeance. "Sweat" provides a change of tempo, a jazz flavor with a hint of Tom Waits. Popa Chubby plays with reckless abandon, as though every song could be his last. It's 110% real blues, it's in your face. If you believe what they say, Popa Chubby is the next big thing.

Blues Plate Special

Snooks Eaglin
Soul's Edge
 Black Top
 Jay Bone of Jay Bone's Blues Ball, WRCN, Riverhead, NY

Although he shows up in various "Who's Who" columns in blues volumes, Snooks Eaglin has never attained the recognition of his contemporaries and playing companions like Dr. John and Professor Longhair. That's too bad, because Eaglin's unique playing style should be heard. His percussive guitar playing is expressive and instantly recognizable as his own. His latest Black Top release, Soul's Edge, like his three previous disks, is something of a primer for New Orleans musical styles. Here, Eaglin once again hops easily from blues to gospel to R&B to funk. Opening with the Fats Domino hit, "Josephine," Eaglin gives the tune a heavy second line treatment that was only suggested by the original. Check out the deep groove laid down by drummer Herman V. Earnest III and Meters' bassist George Porter, Jr. who also wrote or co-wrote several tunes on the album. Porter and Eaglin co-wrote the very pretty instrumental "Answer Now," which slips back and forth from a bluesy ballad to a mid-tempo funk with a natural ease. Some surprises on the disk are "Ling Ting Tong" about an inscrutable Chinatown restaurateur, a tune that was covered by Bill Haley and the Comets in the fifties, and Haley's own classic, "Skinny Minnie." "I Went To The Mardi Gras" has the classic New Orleans party feel that could move even me to dance. The disc closes with the gospel, "God Will Take Care Of You," which stylistically rounds out the program. Besides, after all that fun, you probably should spend some time at church.

Chicago - Legendary Delta blues piano player **Sunnyland Slim** passed away on March 17, 1995, of natural causes. He was 87. His piano style is emulated by many artists and became, as Robert Palmer wrote in the *New York Times*, "the underpinning on countless Chicago blues classics of the 1950's." Slim brought **Muddy Waters** to play guitar with him on some Chess recordings in 1947, thus sparking the transition of country blues to electrified "Chicago" blues.

I'd like to send out a big thanks to Alligator, Black Top, Blind Pig, AV/Excello, Private Music, Fat Possum, Pointblank and anyone else I might be leaving out for their support of Fox 102's first "Weekend Full O' Blues!" The Blues As I See It

Bruce Bjorkman, host, "1490 Bluez Blvd.", KBZY, Salem, OR

Don't Fall Into the Playlist Trap

I was sorting out the weekly copies of the **Hard Report** the other day and began to take a good look at these weekly "God Sheeps." What is their mission? Is it to be like top-40 radio, where "because something is number one, I should be playing it on my show?" Or, perhaps more importantly, a weekly documentation of what the average is being played on blues radio across the nation (as an indicator of what is and what is not getting attention)? In many of the calls I've taken from label reps, invariably the standard line, "Well it's number (fill in the blank) in the **Hard Report**," comes up. So what? Just because a release is included in the **Hard Report** doesn't automatically mean I'm going to immediately add it to the **1490 Bluez Blvd** rotation. What's important here is: What is the overall quality of the release? Is it really blues? Of what quality are the songs? The vocals? The overall musicianship of the release? Don't fall into the "it's number so and so in the **Hard Report**" trap. Instead, evaluate the release for its own merit and how it fits into your show and your audience's taste. This is where responding to your listener requests plays a key role.

Going For #1 Airplay

HOLLY MCCORMACK

CORCUTS

White Zombie "More Human Than Human" (Geffen)

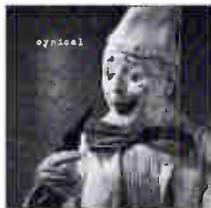

It may have taken the endorsement of *Beavis and Butt-head* for MTV and many mainstream stations to find out that the horror movie imagery and groove heavy stomp of **White Zombie** had an appeal that would skyrocket the band, but any station that really rocked (just ask anyone on the *Hard Hitters* panel) heard it immediately. With their completely unique and instantly recognizable style - despite the departure that "More Human Than Human" is for the band - they have won over such a rabid fanbase that as soon as this song hits the air, it will explode. Obviously the sparks are flying already with twenty five stations on before the "official" add date giving the Zombies a debut at #38 this week. If you don't believe us then just listen to some of these programmers, like Pat Dawsey of Z Rock who raves, "God this is like 'Thunder Kiss' Part II. There is a techno side to this song, but it's still heavy. This is so cool!" Or you can check out the assessments of Steve Funk at KZAK who calls it "an all day track, modern and funky and tough." and Greg Stevens of KIOZ who told us, "It's doing great so far, they had an immediate response and have been getting phones ever since." Don't delay or the Zombies will leave you in their dust.

Danzig, "I Don't Mind the Pain" (American)

The dark lord of rock n' roll has returned to laden our airwaves with his mysterious and eerie crooning, and with **Danzig** continuing their touring across the country to adoring fans, and MTV continuing to play "Cantspeak" (in between all the game shows and spring break telecasts) you now have the insidiously catchy "I Don't Mind the Pain" ready for airplay. While it is still very much within the sinister **Danzig** sound, it has an upbeat choppy rhythm with a smooth guitar and vocal melody, which gives the song an infectious flow to it. The band has a dedicated following which is constantly growing and looks to keep building with the spring tour. The song has already been added at KIOZ whose Greg Stevens feels that there is "a definite interest in the band, their core audience really likes this song". Another fan of the band is Joe Bevilacqua of WDZR and he feels that "with 'Cantspeak' working so well, this will be a nice compliment to it. It has a macabre feeling to it, but with an upbeat groove that will work well for us." You won't find any pain, and you won't mind the response, so get ready to join **Danzig** with "I Don't Mind The Pain".

Extreme, "Cynical" (A&M)

Everybody knows that the musical talents of **Extreme** are hard to top by most players out there, and as a band they have always had an upbeat and fun flavor about running throughout their songs while addressing relevant topics in their lyrics. The band is currently touring the country to mostly rave reviews and they are still seeing airplay on the lead off track "Hip Today", but if you are appreciate the no frills jammin' style of **Extreme** then "Cynical" is the song for you. It's already been found by KIOZ, WXKE, WVCR and WRZK whose Jeff Horn likes it because "it really sounds like classic Extreme, it's good, it's a more straight ahead song than 'Hip Today'". Also coming in this week is Joe Bevilacqua of WDZR who says, "It's the band at their best, this is a chunky song that proves that a band can stay true to their roots and still produce a great rock radio record." So, try to take your airwaves to the **Extreme** with the latest track "Cynical".

COR CUTS CONT.

Hailing from the Seattle grunge scene that has been so prolific the past few years, **TAD** are hardly a band that has climbed on any bandwagon. They have toiled away on the scene for years releasing albums on SubPop and enjoying the praise of other bands in the area such as Alice in Chains and Pearl Jam. Their last release, *Inhaler*, started to break some ground at mainstream for the band, and thanks to their friends in AIC, the band set out on a major national tour opening for them. With a fanbase at both hard rock and alternative college shows, they are set to offer us their first release on EastWest/EEG. The melodic "Dementia" is the initial single at COR, which is more accessible than many of you may remember **TAD** being, with hooky and energetic guitar work, but plenty of bite to back it up. This song has the potential to be the missing piece of the puzzle for a band that has done the work and received the critical acclaim and getting warmer in their search for the pot of gold.

Despite the fact that major releases are flooding onto radio programmers desks, we know that there is always room for a great song on your airwaves. This San Francisco based band possess a sound that is opulent and uplifting, and on the single "Butterfly", which has been on the desks of COR programmers for a few weeks now, has a vast feel of thick grinding guitars with the smooth vocals of **Matt Hilzendrager** flowing over the top. From the response of many programmers, **New Idol Son** seems to be testing well, and Steve Funk of KZAK added them this week and relayed that he is, "Enamored with the song. *Reach* is a cool little record and all of our testing has been positive, so with the band playing a show soon, we really want to get our audience familiar with them." There has been some additional scattered airplay across the country, but apparently many stations need someone screaming at them to take a record seriously, so here we go: "LISTEN TO THIS NOW OR WE'LL COME OUT THERE AND..." (fill in appropriate punishment here)! Now that the yelling is out of the way, take the time to check out this magical piece of music from **New Idol Son**.

Q104 in New York is always out at the shows bringing together their listeners with the artists. This time they made it out to Long Island for the **Pantera** show, and not only did their winners get to meet the band, they also got to bring home this awesome commemorative plaque signed by them. Pictured with the prize are (L-R) Q104's **Doug Sjonvall**, Pantera's **Phil Anselmo**, and the lucky Grand Prize Winner **Tracey Procanyn**.

More fun backstage at the **Pantera** show with **Q104**, this time Q104's **Morah Hochstein** and **Jennifer Rubin** made a **Dimebag Darrell** sandwich!

Just to commemorate the amazing collaboration known as **Mad Season**, we wanted to run this picture of **Mike McCready** taken during a show at Seattle's **RCKNDY**.

You know, I'm beginning to think that these radio stations are having more fun than us! (Well, maybe not, I did get to see the Bulls beat the Knicks last week!) This time we hop across the country to **KISW**, where the **Goo Goo Dolls** are making faces and showing off pet pictures. Pictured (L-R) are Goo Goos **Robby Takac** and **Johnny Rzeznick** along with KISW's **Cathy Faulkner** and photographic likeness of her cat.

"101 things to do with pickles" was the theme of the day at **KISW**! Showing of their green things are Warner Bros. **Dave Lombardi**, Goo Goo Doll **Robby Takac**, KISW PD **Steve Young**, Goo Goo Doll **Johnny Rzeznick**, and KISW MD **Cathy Faulkner**.

Who better to have in the **KIOZ** studios manning the phones than Jerky Boys **Johnny Brennan** and **Kamal**. The man in the middle trying to keep together a semblance of sanity is KIOZ's **Todd Kelly**.

As many of you already know, we have been developing a new chart over the past few months called the Impact Chart, and now it is ready to go. We felt that there was a need for this type of chart that was 1) based on spins and 2) took into consideration the vast differences between the radio shows that report to us. With this chart the accuracy and credibility of compiling real spins is in place, but with a large number of reporters who have 2 hour shows at major stations, we felt that their one spin of each artist a week had more of an effect on their market than how it would effect the chart. The challenge of creating a chart that truly shows the records that are impacting aggressive, hard edged shows, while combining information from stations with hours ranging from 1 to 100 per week was our catalyst to put this together.

Every station that reports to the Hard Hitters section has an impact number, and when they report their spins the computer multiplies their spins by the impact number, with all of the impact spins added up to compile the chart. This impact number is based on the number of hours of each show, the wattage of the station, and the market that they broadcast in. It is not a designation of "more important" stations, and any station that meets the minimum wattage standard to report (250 watts FM) will at least have an impact number of 1 (which puts their real spins in the chart). The number is a combination of values assigned based on the exact hours and wattage, and is then adjusted depending on the market. For example:

STATION A: 2 hours; 100,000 watts in major market.

A value of 3 from the hours plus a value of 2 for the wattage = base value of 5. Because they are in a major market a factor of +1 is added to the base value. Impact number = 6 (this is the highest value).

STATION B: 2 hours; 5,000 watts in large market.

A value of 3 from the hours plus a value of 1 for the wattage = base value of 4. A larger market (but not major) has an added factor of +.5 to base value. Impact number = 4.5.

STATION C: 8 hours; 270 watts in major market.

A value of 2 from the hours plus 0 for wattage = base value of 2. Major market adds on +1. Impact number = 3.

STATION D: 20 hours; 1000 watts in smaller market.

A value of 0 from the hours plus 1 for the wattage = base value of 1. Smaller market will not add any value for population. Impact number = 1 (real spins go into chart).

STATION E: 100+ hours, 3,000 watts; major market.

A value of 0 from hours plus 1 for wattage = base value of 1. Major market adds on +1. Impact number = 2.

STATION F: 6 hours; 3,000 watts; rural area.

A value of 2 from hours plus 1 for the wattage = base value of 3. Rural market will subtract 1. Impact number = 2.

If you have any further questions about how the Impact number is derived, please call us. A lot of work has gone into researching each station and the market that they broadcast in. If you are a radio station and there are any changes in your wattage or hours contact us immediately! In addition, any stations that simulcast in more than one market should let us know. We think that this chart will provide the most accurate analysis of what is getting influential airplay across the country and hopefully will translate into sales. Eventually the Impact chart will be the only chart printed, with a column added showing the real spins. Thanks for working with us while we try to provide the most effective and informational hard rock section, and once again, please call us with feedback!

Fight, "Blowout in the Radio Room" (Epic)

While much of the new talent out there trying to make a mark in the music world are capable enough, few can touch the dynamic abilities of **Rob Halford** even after all of these years in the business. We all know the history: after almost twenty years fronting the greatest band of all time and setting the standard for metallic vocal performance that has yet to be matched. In the past two years, however, the high Priest broke off on his own to explore some musical territories that he did-

n't feel he could travel with Judas Priest, and as the time neared for the debut release from his new crew **Fight**, the anticipation rapidly built from long time fans dying to hear **Halford's** new work. The release did not disappoint with barnburners like "Nailed To the Gun" and "Into The Pit" establishing the band strongly at metal radio. With a style strongly influenced by bands such as Pantera and Prong, the stripped down ferocious grooves and attacking guitars provided a rebirthing process for the legend. Now that the debut has established both **Halford** and his talented band (**Jay Jay** - bass; **Brian Tilse** - guitar; ex Priest member **Scott Travis** - drums; new member **Mark Chaussee** - guitars) as one to be reckoned with, **Fight** is returning with the first track off of the upcoming *A Small Deadly Space* release. While on the debut **Halford** did the lion's share of the writing, this release is the combined efforts of all the members, with the band beginning to establish their own style. Your first taste of the new material, the aptly named track "Blowout in the Radio Room", starts off with a hooky riff that kicks into some bending fretwork done with a retro tone that could have easily popped up in a Downing lead in a Priest song. From then on it's all **Fight**, with a steady and chunky rhythm that will hook its way deep inside your head. After the last release, the band consistently hit the touring trail both as a headliner and as a show opener, putting Halford and his new troupe of warriors well in touch with the audience, and they will be continuing that plan of action with the band hitting the road in May. The demand for new **Fight** will easily be there, so be sure to blow off the speakers at your station with "Blowout in the Radio Room"!

TOP Picks

TAD, *Infrared Ridinghood*, EastWest/EEG

After helping to establish what is now known as the grunge sound of the Northwest and having already built quite a name for themselves among the metal contingent, **Tad Doyle** and Co. now offer twelve new dirgeified songs on *Infrared Ridinghood*. **TAD** have created an album chock full of thick, groove laden riffs, incensed vocals, solid bass guitar and a massive percussive sound. Listen first to the impact track, "Dementia" - that, while melodic in parts, is as tenacious as it gets with gritty vocals and riff heavy guitars, both layered over a bed of methodical bass and drums. Although, the predominant factors found on tracks such as "Thistle Suit", "Emotional Cockroach" and "Tool Marks" are trademark grinding guitars, chunky bass lines and pounding drum beats, **TAD** have added an immense amount of attitude to their musical foundation making this album a force to be reckoned with. The band's hypnotic, yet frenzied style should make them a staple for rock radio, so fill your ears in on what your eyes have already seen by playing **TAD** today.

Scorpions, *Live Bites*, Mercury

Yes, folks, that's right you have been serviced with another live record from the best German import since Beck's. On this latest release, the **Scorpions** have captured the essence of their craft, live and in rare form. The instantly recognizable vocal work of **Klaus Meine** is the power behind the band's sound, and it is found in prevalence on *Live Bites*, along with all the other elements of the traditional **Scorps'** formula. In picking and choosing, cue up emphasis cut "In Trance", a remixed version, with a guitar driven, pulsating beat. Other faves found on the record include "Tease Me Please Me", "Rhythm Of Love" and "Alien Nation", all guaranteed to bring many a fan out of the woodwork and on the phone lines. Also offered are three new tracks - the crunchy, harder edged "Edge Of Time", the slower paced "Heroes Don't Cry" and "White Dove", with it's melodic guitar serenade and soft timbre. If there is any doubt the stream lined sound of live **Scorps** will work for you - remember, this is the band's third live album, they must be doing something right.

Argyle Park, *Misguided (R.E.X)*

The music of **Scott Albert** has become familiar to many of you out there thanks to the electronic ferocity of **Circle of Dust** that has been working its magic on the Hard Hitters chart. With his main body of work currently hitting the touring front, a compilation project headed by **Albert** is ready to blast into your station with the subtlety of a tornado. A collection of contributing artists on this project make up a impressive group of Hard Hitters favorites including **Tommy Victor** from Prong, **Lauren Boquette** and **Marco Forcone** from Drown, and **Jim Thirwell** of Foetus. The album opens with "Refuge", a cacophony of intense samples and melodies that hit with the force of a comet. Other samples from the buffet include "A Burden's Folly", with its churning riffs and aggressive vocals; "Leave Me Alone" which features the work of Drown's Lauren and Marco in a ferocious, hyper speed paced, anti-social anthem, and the consistent battering of "Misanthrope". If you're searching for the contributions from Tommy Victor jump to "Skin Shed" and "Doomsayer". This isn't just any walk in the park, the modernistic fury of **Argyle Park** will leave you feeling like you stepped into the set of Terminator 10!

Broken Hope, *Repulsive Conception (Metal Blade)*

This release should come with a warning like they have a amusement parks, because if you stumble unprepared into this release it could leave your brain overloaded and your body numb. The latest from one of the most brutal Chicago area exports is chock full of guttural vocals demonic churning guitars, and enough of an aural bombardment to leave you in a catatonic state. The release *Repulsive Conception*, is a worthy follow up to *The Bowels of Repugnance* and not only will it leave your eardrums bleeding from one listen, but with the band hitting the road with Deicide in May and Bolt Thrower in June, your body could be left in a bloody pulp as well. And if you liked the album artwork on Slayer's *Divine Intervention*, be sure to take a close look at **Broken Hope's** artwork, which was also penned by Wes Benscoter. So, for those of you who like your metal brutally heavy, then don't give up hope, because **Broken Hope** will be finding a comfortable slot on your airwaves soon.

HARD Hitters

TOP Picks Cont.

Soilent Green, Pussysoul, Dwell

The five who make up **Soilent Green** (**Ben Falgous** - vocals; **Tommy Buckley** - drums; **Donovan Punch** - guitar; **Brian Patton**; and **Scott Williams** - bass) have put together a collection of very potent songs - so potent in fact, that upon your first listen you'll be pummeled and pounded with such intensity you'd think you had just been hit by a Mack truck. The formidable sounds of **Soilent Green** are a mixture of sludgy guitars, hammer-like percussion and off-color lyrics, all molded together and ready to erupt as a mass of clamor and confusion.

Beware of the expletives found in many of the songs (a trip to the production studio might be necessary) but with such indiscernible, snarling vocals you'd be hard pressed to be able to pinpoint the four letter words. 23 Hard Reporters have already discovered the cacophony of the **Soilent Green** sound, with the likes of KWUR, WBAU, WBGU, WCDB, WDBM, WKLL, WNHU, WRFL, WSMU, WVFS, and WXPL all giving the record some rpm's. With such fierce music and early stats like that, it should be pretty easy to persuade you to spin **Soilent Green**.

The Chosen, The Alternative, Manifest Records

While sifting through the stacks of new stuff on your desk, in your perpetual search for an alternative (pun intended) sound for your show, the **Chosen** offer a straight forward batch of catchy tunes. The gritty vocals, polished guitar grooves and up-lifting percussive sound, make them a stand out among the band's bringing the '80s sound back to life with a '90s approach. Potential abounds on tracks like "Savage Attraction", with it's fluent guitar finagling and bass driven beat; "Roller Coaster", a song with fist-clenching strength, that comes complete with the pounding of a cow-bell, and "The Machine", with it's two chord intro and percussive fire power. This band's flair is undeniable - 17 stations added the record last week and spins were reported at KATP, KMSA, WKLL, WSGR and WUNH - so, if you are looking for an alternative (same pun) to your basic metal programing why not choose the **Chosen**.

Bad Seed, Bad Seed (Rockworld)

When at those joyous family reunions, there is always one bad seed that everyone tries to avoid. But don't let any nightmares about Uncle Vern scare you off. In this case you will be running to the **Bad Seed** and absorbing their ultra dense guitar melodies. This quartet (**Louie Leeman** - vocals; **Dante Scioscia** - bass; **Jason Trenczer** - guitar; **Ron Colandrea** - drums) hails from New York and in their earlier years were influenced by the reality of the hard-core artists populating the scene. But this **Seed** breaks off into their own direction taking their street level

approach and blending it with stirring atmospheres, churning guitars, and booming rhythms underneath. This debut may not be speedy, but it is thick and heavy and it will seep into your brain. **Bad Seed** have a good early reaction blooming with airplay reported at WKLL, WKNH, KMSA, WKLL, WWSP, and WXPL already. With spring finally underway, head out and plant some seeds - this **Bad Seed** will grow right into a healthy rotation!

White Zombie, "More Human Than Human", Geffen

Only the strong will survive this track from this experienced smashmouth crew, who climb back into the ring with this venture. Rulers of the COR/Metal contingent, White Zombie got some format exposure last year as "Thunderkiss '65" did well, especially fueled by Beavis & Butthead exposure. In "More Human Than Human," the mechanical quality of the rhythm track takes an ironic stance against the title. But there's nothing mechanical about the guitar track, a howling, driving force of sound that makes this track dance in your face. This track has a relentless quality; a robotic-like vocal and an industrial vibe that is hard to resist. Approaching 10 years together, White Zombie continue to rule the school that calls 'em one of the best bands ever to come out of New York City.

NOFX

NOFX, "Leave It Alone", Epitaph "Yeah, we've been around for ten years. It's just that we sucked for the first six," says bassist/vocalist/songwriter Fat Mike. Nothing like a little honesty, huh? Beats OJTV. "Leave It Alone" is a lean, mean fighting machine of a pop track that exhibits Green Day-ish punk tendencies while leaning towards Beatle-ey vocals. And it's short. The business gets done in an economy package stocked full of great reasons for a shot at your playlist this week. This track has the goods to become a real find for you, if you're not already familiar with this band. They recorded their latest Epitaph release, "Punk in Drublic" in 3 weeks, and it comes together with the certainty of a band seasoned for a longer haul. **KROQ** is already in.

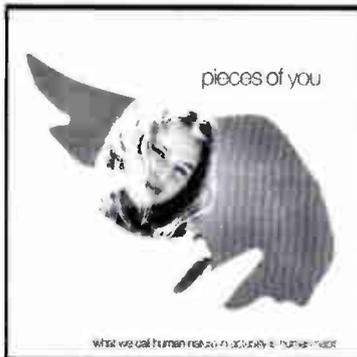

A House, "The Strong and the Silent", Radioactive The tongue-in-cheek title of the first single from this Dublin band doesn't really get you into the subject matter, and with a superficial listen or two you might choose to avoid the lyrical content altogether. But a deeper listen provides a haunting tale, one which unfortunately reflects a case of strong timing. The background chorus sounds sweet on the surface, the track is bouncy and light with a little undercurrent of rock edge a la The Alarm. Then you realize that the backgrounds are children's voices mixed in with others, and the line "This couldn't happen to me" repeats over and over in your mind after a few listens. And you'll see that your calling as a programmer is to reflect the trends. The tables are turned in this case — the music always wins, always heals. Some of your audience needs healing. Some need to wake up and smell the coffee.

Beowulf, "2 Cents", Restless "Everybody's got to put their two cents in, where they don't belong." The first line of this track sets the mood, or at least solidifies the attitude expressed in the slammin' guitar and rhythm of the intro. This, with the combination of the repeated phrase "shut up" will make you proud to be in radio again. Cathartically (read: figuratively, not literally), you can tell everyone to \$%@! off while you approach 11 on your company-issued stereo, without the perils of face-to-face verbal confrontation. It's all in the way that you use it. And you know the audience wants to scream by now, too. Give 'em what they want. Have some fun again. This one will make the cut for you in a very short amount of time. Early at KKNB, REV 105 and WCBZ.

Singer-songwriter **Jann Arden** won in five categories at the Juno Awards given out in Toronto, including songwriter of the year, female vocalist of the year and single of the year for "Could I Be Your Girl." **Celine Dion's** "Colour Of My Love" won for best album and best-selling album of the year, while **Susan Aglukark** also won two awards — for best new solo album and best music of Aboriginal Canada recording. **The Tragically Hip** were named group of the year, while **Neil Young** was named male vocalist of the year. **Buffy Sainte-Marie** was inducted into the Juno Hall of Fame. **Shiver** won for alternative album for "Rose Chronicles," and **Moist** won for best new group. **Robbie Robertson** and **Skin Walker** won the producer of the year award for the "Music For The Native Americans" album.

Pearl Jam lead singer **Eddie Vedder** was rescued by lifeguards in New Zealand when he was carried about 250 feet offshore by a riptide in Auckland, New Zealand. Vedder was swimming in rough surf with **Tim Finn**, formerly of **Split Enz** and **Crowded House**. Senior lifeguard Eric Davis says he was disappointed that Vedder only gave the lifeguards a brief thank-you. "We are volunteers operating on a shoestring budget and a donation would have helped us along," Davis said.

The London Sunday Times newspaper reports that **Paul McCartney** and **Yoko Ono** have recorded a song called "Hiroshima Sky Is Always Blue." The track, recorded at McCartney's studio in southern England, marks the 50th anniversary of the atomic bomb dropped on Japan. The song also features **Linda McCartney**, the McCartneys' four children, and **Sean Lennon**, the son of Ono and **John Lennon**. The newspaper says McCartney has given the master tape to Ono to use as she sees fit. She's agreed to give him some of Lennon's unfinished songs to use on an album slated for release late this year. "It was a cool way to cement our friendship," the newspaper says McCartney told a friend.

INXS lead singer **Michael Hutchence** and his wife, model Helena Christensen, have split up. "Michael Hutchence and Helena Christensen have announced today they have been spending and will be spending time apart," said a statement issued in London. "Despite the current media furor, the parting is perfectly amicable and they still love and are in contact with each other," it said. British tabloid newspapers had reported that Hutchence was found in a southern England hotel with Paula Yates, the wife of **Bob Geldof**.

Paul McCartney joined **Elvis Costello** and the **Brodsky Quartet** in playing the **Beatles** songs "Yesterday," "Eleanor Rigby" and a solo encore of "Lady Madonna" at an event in London where McCartney's latest classical work for piano was premiered. "An Evening with Paul McCartney and Friends" at St James's Palace in London raised tens of thousands of dollars for the Royal College of Music. McCartney's solo piece for piano, "A Leaf," was performed by Russian Anya Alexeyev, a graduate of the college. "When I was approached to help put together this evening, I was honoured to have been asked to do so but — perhaps more importantly — glad to be given the chance to help young aspiring musicians," McCartney said in a statement.

Pearl Jam have linked up with a California firm that will sell tickets to the band's planned 40-date summer tour. The company, ETM, sees itself as eventually competing with Ticketmaster. Meanwhile, *Daily Variety* reports that bands can bypass Ticketmaster by using a provision in the ticket agency's contract that allows venues to sell tickets directly from the box office.

Michael Been of the **Call** has produced the debut album from San Francisco quartet the **Beggars** (on Island Records). Two members of the group, singer **Eli Braden** and guitarist **Jeremy Kunz** attracted Been's attention a few years ago when they opened for the **Call** at a show in Rockford, Illinois. "I was so impressed by those guys that I told them, 'When you graduate high school, look me up,'" Been says. "That's how good they were at 16 and 17." The band also includes former **Vigilantes Of Love** drummer **Travis McNabb**.

Jazz sax player **Gato Barbieri** is in stable condition at a Washington hospital after undergoing triple heart bypass surgery. Barbieri had been hospitalized with chest pains while in Washington for a club date.

The **Rolling Stones** have been touring Australia for the first time since 1973, but guitarist **Keith Richards** says he doesn't remember that tour because he was on LSD the entire time. "There are the odd gaps," Richards said in Melbourne.

Bob Dylan played some songs without his guitar as he opened his first British tour in three decades in Brighton. He sang "Mama You're Gonna Miss Your Best Friend Now" and "I Want You" before picking up his guitar for "All Along the Watchtower." Dylan's tour of Britain finishes on April 9.

Melissa Etheridge and her lover, director Julie Cypher, will pose for a print advertisement for People for the Ethical Treatment of Animals. The ad, part of the organization's "We'd Rather Go Naked Than Wear Fur" campaign, first appears in the April 4 issue of *The Advocate*. A PETA spokesman says the two donated their time for the shoot, as did photographer Greg Gorman.

A collection of over 2,000 photograph negatives and contacts from the early days of the **Beatles** sold for almost \$24,000 at a London auction at Bonhams, ten times the anticipated selling price. Unpublished song lyrics by **John Lennon** sold for almost \$13,000, while a bass guitar with **Paul McCartney's** signature sold for over \$9,000. A Gibson guitar had been modified for **Jimi Hendrix** went for over \$9,000, and one of the guitarist's fringe jackets fetched about \$9,000.

The black leather costume **Elvis Presley** wore for his December 3, 1968, NBC television special "Comeback" has been loaned to the Rock & Roll Hall of Fame and Museum, which will open soon in Cleveland. A guitar and scrapbook from the show, Presley's first in front of a live audience in seven years, has also been loaned to the museum. "These artifacts represent such an important era in Elvis' career — a period that fans, critics and historians agree was one of the high points in the life of rock & roll's most legendary artist," says rock hall curator Jim Henke. "This collection will be a cornerstone of our museum."

Two members of the **Digable Planets** have been charged in connection with a brawl at a Buffalo, New York, night club where they'd given a concert. **Maryann "Ladybug" Viera** and **Ishmael "Butterfly" Butler** were charged with impeding police, resisting arrest and assault. The band's latest album is "Blowout Comb."

The British music weekly *Melody Maker* has teamed up with the Samaritans organization to battle depression among British teens. The recent disappearance of **Rickey Jones** of the **Manic Street Preachers** and the suicide last year of **Nirvana's Kurt Cobain** are factors in the paper's decision to publish an article about fans' sense of grief when an artist dies. "Problems with pop stars are not trivial — it's not the facts it's the feelings," says Di Stubbs, an outreach worker for the Samaritans. "It's a temptation for all of us to play down the reasons why we feel bad but they are all equally valid. For some people something like this can really be the last straw. It's not the problem but it's the life that problem drops into."

The **Beatles'** first new British single in 26 years only reached number seven on the chart the first week out. "Baby It's You" made its chart debut while a house music record called "Don't Stop (Wiggle Wiggle)" by the **Outhere Brothers** topped the chart.

Irish singer **Mary Black** has a compilation album just out (on Curb Records) and plans a U.S. tour in April.

MUSIC NOW!

In order to tour in support of her album "Loose," **Victoria Williams** has started a new therapy to help treat her multiple sclerosis. "I'm doing it where I give myself a shot in the stomach every morning," she says. "I don't look forward to that on the tour, because it's a very painful shot. The whole thing takes an hour. I'm just hoping I get better and can quit doing the shot." Williams says she's trying not to let her illness get to her. "I have a pretty positive attitude," she says. "I can always see somebody worse off than me, so I have a hard time sitting around feeling sorry for myself."

Drummer **Mike Bordin** says **Faith No More** will be kept busy by the release of the new album "King for a Day, Fool for a Lifetime." He says the band will only have "about six days off" for the rest of the year. "We make a video next week. Then we'll be practicing, breaking in our new guitar player. Then we go to Europe for six weeks, starting in March. Then we go for five weeks in the States, then off to Australia for festival shows, then back to the States for a summer tour," Bordin says. "We've got a fall tour of Europe. Then it's down to the southern Hemisphere, where it's warmer — South America, Australia again. And Japan. And at that point, we start all over again."

A mountain climb in Tibet two years ago inspired **Laurie Anderson's** latest music album "Bright Red." But it was not a pleasant experience. "We went somewhere in the Himalayas to look at a lake, because supposedly written in code on the surface of the water were instructions for finding the new Dalai Lama. I thought, 'I'd like to see that,'" Anderson says. "Instead of seeing that, I got very, very ill. I got altitude sickness at about 22,000 feet, which is up there where planes are flying. I lost my hearing and just heard bells for days. There's this confusion when you're out of oxygen and you get very disoriented. Your brain starts boiling." Anderson says her fever got worse and two companions brought her down the mountain in a body bag. "You have these little holes for oxygen, and a little glass thing where you can look out," Anderson says. "I mean, it was a really intense thing. And I was like, 'Wow, what an adventure!' If you're gonna die, that's the place. I felt the whole thing was, for me, a very euphoric experience. One of the things I learned there was different kinds of images of time, how things could be incredibly compressed or stretched out. So, I came back into the studio and did this record and it wasn't until I was finished that I went, 'This is Tibet! All the songs here — it's all about that, being saved, hearing voices.'"

Two **James Brown** concerts that had been scheduled for early April were canceled by the Vietnamese government because they would have conflicted with official celebrations. Even though Vietnam's ministries of culture and foreign affairs had approved Brown's shows, officials in Saigon told the U.S. promoter that the concerts would "collide with the main cultural activities of the city in late April." Brown last visited Vietnam in 1968 when he entertained American troops.

A New Orleans jury has found **Damion Neville**, son of **Charmaine Neville**, innocent of the murder of his girlfriend last September. Neville had been charged with stabbing and strangling **Michelle Tyler**, but his attorneys argued that the 22-year-old was killed by drug dealers.

Alan Barton, lead singer for British '70s group **Smokie**, has died from injuries suffered in a highway accident in Germany. The band's mini-van skidded off the road during a severe thunderstorm and plunged into a ravine. Barton had suffered head injuries and been in a coma in a Cologne hospital since the accident. Five members of the band were injured while en route from Lennestadt to Dusseldorf. The other band members were not seriously injured.

Lyle Lovett and actress **Julia Roberts** have agreed to a legal separation, less than two years after they married in Marion, Indiana, 19 days after they met.

Mick Jagger has formed a movie production company with Steve Tisch, the co-producer of "Forrest Gump." Jagger's company, Jagged Films, has already set up offices with Tisch and are registering the name of their joint venture, Lip Service. "We get along and we have similar tastes," Tisch told the Los Angeles Times. "I'm at a point in my career where having fun making movies is pretty high up there in my list of priorities, and that means being less motivated by the deal and more by who I will be working with."

Kristen Hersh of **Throwing Muses** says it's unintentional that there are lots of references to water on the new album "University." "We don't think of it ahead of time," she says. "We usually go in with about 30 songs and kind of carve a record out of that. It's only later that we get any kind of impression of how the record looks to other people. I know there's a lot of water on it. And sex and horses and ponies and stuff. We sat down with the lady who did the bio, and she asked, 'Kristin, did you set out to write a water album?' I thought 'water record' was some music-biz lingo that I'd never heard of before. But there are around 40 references to water or rain, ocean, glasses of water! I just said, 'Oooh.' I hadn't noticed."

As he tours in support of his 44th album (not including compilations or reissues) "Spinning Coin," **John Mayall** has touring down to a science. "There are very few people involved in this enterprise," Mayall says. "We have an agent who sets up the gigs, and I yea or nay them. We don't have road managers or extra people involved. Four people set out on the road, and the promoters hire the back line — drum kit, bass speakers and guitar amps. All we take on the road are our actual instruments. When we check in at the airport, we have exactly 12 pieces of luggage. It makes for a very mobile situation."

Rapper **Eazy-E** has died of AIDS at age 31, less than a month after he was hospitalized for what he originally believed to be asthma. There are already plans for an outdoor rap concert in Los Angeles this summer to help AIDS-related charities.

CATHY FAULKNER, KISW/SEATTLE

The sun is out in Seattle. Life is grande and the music is awesome. **Queensryche** "Disconnected" is an automatic. The reviews from the European leg were phenomenal!!! Don't miss the boat on this great track (listen with headphones). Also happy to hear some new **Offspring**... "Kick Him" is in. **Fight** has grown in a good way. Give a listen. We also added **Better than Ezra**-cathy tune. My shades are on...I'm out of here!

KELLY OLIVER, KBKS/BOULDER

Where to begin? How about with **Type O Negative!** Thanks to John Nichols at Red Distribution for the Denver Tickets. **Type O Negative** put on one of my favorite shows of the year so far! As an added bonus Phil Anselmo showed up. Pete and Phil, this was awesome. I and the rest of those who didn't make it to Colorado Springs the night before (**Pantera** and **Type O Negative** were together) at least got the benefit of hearing Phil. Then the next night **Rollover** out of Chicago stopped by the 'BKS studios on their way to a show in Denver. The show was great. The crowd loved 'em! If you haven't heard their latest disc I recommend it! Louie Zagoras must have been born with a guitar! Good stuff. Speaking of killer guitar work, a local act **Zuba** played the same show with **Rollover**. Liza tore it up! That be it this week, I luv your gutz!

SHARON SCHIFINO, WHJY/PROVIDENCE

The hot item around the WHJY studios is definitely the new **White Zombie!** We couldn't decide which track to add (Metal or A.O.R.), so we added them both! "Super-charger Heaven" was spun a few times when our metal guy, The Doc, brought it in. Geoff Charles who does the 7p-12mid shift has said that it is the best requesting record on his show ever!!! Personally, I'm really into "More Human..." Also going in this week is **Better Than Ezra's** "Good". Cool song, huge hook. Bill's been a big fan of this record since he first heard it. Lastly, has anyone had a chance to sink their teeth into the **Goo-Goo Dolls** *A Boy Named Goo?* This is a great record!! These guys are overdue for some critical acclaim, and hopefully this is the album that will do it for them. The **Goo-Goo Dolls** are also amazing live, so check them out on tour now!!

DAVE DOUGLAS, KIBZ/LINCOLN

CHANNEL Z/AUGUSTA

Channel Z in Augusta had another smoking week chock full of promotions and special events. Man, where do we start? How about one happy camper and their friend taking a limo ride to Atlanta to see the sold out **Sarah McLachlan** show at the fabulous Fox theater! Thanks to Arista Goddess Linda Alter for that tasty morsel! This weekend, Augusta hosted over 40 Collegiate Rowing Teams, 900 Pro & Amateur Cyclists and several hundred runners for the 1995 Regatta Fest, and Channel

Z was right in the middle of it all! We kicked off the week-end with a great show from priority recording artists, **Sons Of Elvis**, thanks to Rick Austin and Michelle St. Clair from Priority. Thanks also to those two for the wonderful dinner with the band. Those guys are an absolute trip! Saturday brought the Rowing Regatta and Road Race and of course, we were there cheering on the home team. Saturday night, Channel Z threw a party for about 1000 people with live music from three of the regions hottest bands; **The Drag**, **The Twigs**, and **People Who Must**. That was tons of fun. Sunday was the Cycling Criteria, which we sponsored and were lucky enough to have one of the curves on the course named after us — The Dreaded "Z Turn." If all of this wasn't enough, we also had a **Juliana Hatfield** win-it-weekend with some limited edition copies of her new CD. Thanks to Todd Elmore and Myra Simpson at Atlantic for those. And now, with the Masters just a week away, we bid you adieu. Z you on the radio!

LENNY BLOCH, WDHA/DOVER

For the past few years WDHA has involved itself with a "local" band called **From Good Homes**... Scratch local, they're now RCA Records artist From Good Homes. No, this is not just another New Jersey band. They are five inspired musical fun guys from the Jersey hills. We've been playing songs from their independent release *Hick Pop Comin' At Ya* for a few years. Into rotation now goes "Let Go" from the debut. "Cool Me Down" looks to be the lead track which is also getting spiked. We did an in store CD release party yesterday at Scotti's Records in Morristown, New Jersey. Today they tell us this was the most successful event of it's kind ever for RCA. 400 CD's sold in about two hours! You like **Blues Traveler**, **Dave Matthews**, **Widespread Panic**? Take five to listen to the latest musical export from the Garden State...From Good Homes!

JOHN LENAC & KEVIN KLINE

CHANNEL Z/AUGUSTA

We had a fun filled week...what else would you expect. Michael and Kay of **Letters to Cleo** stopped by the station before their sold out show at the Regency last Tuesday. They chatted with a few of the Channel Z listeners who couldn't believe they were actually talking to Letters to Cleo. Kay and Michael had a good time in the studio and the listeners were extremely happy too. Then it was on to the show with 700 screaming Channel Z listeners. The highlight of the show was definitely "Here and Now", when Kay was overwhelmed with laughter after someone lit a stink bomb in the club. Wow, aromatic hilarity. Thanks to Letters to Cleo, Matthew Sullivan, and everyone at Giant Records for making Tuesday night a great night of music. Friday we began our **Indigo Girls** give away. All weekend long we gave away copies of *Swamp Ophelia* and pairs of tickets to their show Monday night. The phone lines were multiplied by the power of about a million Channel Z listeners trying to score this fine give away. Monday afternoon, Amy Ray stopped by the station for a nice chat with Rob Nicholson that sounded great. A large conglomeration of Channel Z fans packed the

Hammons Hall for the Performing Arts and were thrilled by the Indigo Girls' performance. We would be remiss if we didn't thank the Indigo Girls, Mark Potter, Jacqueline Saturn, and all at Epic for helping create an Indigo Girls frenzy in Springfield. Modern Music Monday, (a club night John host), had an Indigo Girls twist to it as we gave away limited edition autographed vinyl copies of *Swamp Ophelia* to people who presented their Indigo's ticket stub at the door. Our gratitude goes out to everyone at Epic who made this collectors item available to our Modern Music Monday Masses. **Groovenation** was another huge success Saturday night. Thanks to everyone who has gotten us dance music to play for this live broadcast. Please keep it coming. Also, thank you to Mary Tripodi, Tod Elmore and everyone at Atlantic for providing us with a box of the new **Juliana Hatfield** CD's to give away at Groovenation. This was a limited edition "buffalo skin wrapped" win-it-before-you-could-buy-it on Julianna's new *Only Everything* CD. It was a groovy prize for our Groovenation attendees. We love visitors and we had Capitol's Debbie Hathaway stop by the station for a festive time of music previews. Deb, you've got to ask Bob about Q-Tips for cats.

ED TRUNK, WDHA/DOVER

I've had the opportunity to catch some great live shows over the past few weeks, highlighted by the triumphant return of New Jersey's own **Skid Row**. Irving Plaza in NY sold out in just 30 minutes, and the two hour show proved that the four year layoff has only made the Skids more vicious than ever. **Subhuman Race** is getting immediate top phones on "The Hard Show", and with good reason. This album crushes from start to finish. My favorite track is getting spins now include "Firesign", "Beat Yourself Blind", "Eileen", "Frozen", and the super heavy title cut. Anyone hung up on the anti '80s bandwagon, get a clue. This is a great record from a great band, period! It's been 17 years since my first concert, **Kiss** at Madison Square Garden in 1977. It took that long to be as heavily engulfed by a live band as I was by **Marilyn Manson**. Words can't describe the effect this band has on an audience. Let's just say I had nightmares for two nights after witnessing Mr. Manson and company live. Aside from the visual, the band was super tight, and brutally heavy. They're returning to Jersey next month with **Danzig**, and I can't wait. The record's still doing well on the air, with "Snakeeyes and Sissies" being the emphasis cut. I also saw **Extreme**, with a new drummer Mike Mangini. You might say, how much difference can a new drummer make? Well in the case of **Extreme**, all the difference in the world. The band sounds better than ever. For my money, Nuno remains the most exciting guitarist of the last ten years, and *Waiting for the Punchline* may be the bands best release yet. On a non-metal note, I once again had the pleasure of seeing the brilliant **Jeffery Gaines** at a sold out club. This was the first time I saw Jeffery solo acoustic, and he's definitely the only artist in the world that I could tolerate three hours of music performed in that style from. He is the most talented singer/songwriter out there right now. I must admit, I do prefer him with the band, half electric,

half acoustic, but any chance to hear him sing I won't miss. Wouldn't it be nice to see his current release revived. After all **Sheryl Crow** and **Gin Blossoms** CDs were both out for well over a year before they broke. This guy should be huge! Finally, speaking of huge, by the time you read this **D-Generation** should have a new major label home. Now prepare to watch this band explode! Need music info, 201-455-1055 Ext. 1804 anytime. P.S. "Negosonic Teenage Warhead" from **Monster Magnet** should be a huge Spring hit. Jersey strikes again!

CARL CRAFT/WCIZ/WATERTOWN

Ya'll gotta give the **Tragically Hip** a shot this time around...the album is a treat. The lead off on the CD, "Grace, Too," has the greatest bass line, especially the way it falls back into place during the last minute. "Fire In The Hole" is a trip — same with "Nautical Disaster"; and check out track six, "So Hard Done By" for serious razor blade strings, one of my favorite things. And how 'bout those funky, pop, blues of **Popa Chubby** for a good time ride? Well fill my bar with haze and booze, and settle me in for a stupid grin. There's a couple of super power pop laden harmony hooks on **Matthew Sweet's**, "Giving It Back". I love the way the drums are mixed on the single, it kinda makes me want to go splashing in puddles after the rain. (Huh?)

ERIC NIELSON, KMSA/GRAND JUNCTION

Ah...another lovely Wednesday morning, a serene portrait of a man at his computer and shiloads of snow falling on the ground! Having lived in Colorado for my entire life, it's not any surprise to me that it would show on March 29. Hell, I've seen snow on the 4th of July! The only reason I'm bitching about it is that once again we're attempting to go to see **KoRn**, **Marilyn Manson**, and **Danzig**. Instead of the customary 250 mile jaunt to Denver, we get to go a few more miles to Colorado Springs! The way my luck has been lately, we'll probably get caught in an avalanche or something like that. Important News Flash! By the time you get to feast your filthy little eyes on this, Western Colorado will have a new area code. It appears at the top of this thing, but once again, as a reminder, the new area code is 970. Don't freak out about this, for you have until October to get that through your skull. OK? Alrighty then! Again I'm running late, so this is the end for now. Later from HELL!!

DUG BROWN/WPUP/ATHENS

Hi. My playlist is frozen this week due to my being called out of town this week on an emergency, uh, vacation. Athens is dead this week anyway due to spring break. Hell, even our weekenders were out this weekend...thus, my magnificent 8 & 1/2 hour airshift Saturday night. I barely managed to get out before it turned into a 13 & 1/2 hour shift. Ick. OK. Tank Girl seems like a simple enough story to me (after all, half of my dreams are post-apocalyptic), but there is one thing I can't understand...how does a 40 Watt Club T-shirt make it from Athens to Australia after civilization ends? Oh, speaking of the Watt, Jared is selling his share of the club...so if you want to own 50% of the watt (hmmm, 20 Watts?) now is your chance. OK, I'm out of here until next monday. I'll tell you how my emergency, uh, vacation goes then.

THE HARD REPORT

MARK FISCHER

ATLANTIC RECORDS, 212-275-2085

And the envelope please...I must say I was pleased with seeing "Forest Gump" win Best Picture and Tom Hanks securing the Best Actor title for the second year in a row. I actually thought he deserved it more for this role than for "Philadelphia." Unlike others, I thought that "Pulp Fiction" was, "too cool for the room." It made an impact, but I don't think it was deserving of an Oscar. If you're into some well-written and slightly bizarre movies, you might want to rent, "Blood Simple." This movie was directed and produced by the Cohen Brothers (Raising Arizona). "Blood Simple" was there first film, it won the "Best Film" award at the Cannes Film Festival in 1983. I'm sure it's on Quinton Tarantino's Top 10 list... On the record side of things, **Encomium** scores big, debuting at #17 in Sound Scan selling 51,223. "Dancing Days" is already the Top Ten Most Requested Record at Rock Radio and **Hootie's** version of "Hey Hey What Can I Do" popped into the Top 40 this week. This tribute means more to your audience than you might think. **Collective Soul** was number one Most Added this week with "December." The new album has Sound Scanned over 50,000 already. Thousands of fans are seeing them open for **Van Halen**, make sure your listeners get to the Venue early. **Tragically Hip** made their official American television debut last weekend on "Saturday Night Live." The band played "Grace Too" which was the first Canadian single, and "Nautical Disaster." The Hip are currently in the States on a sold out tour. I urge every programmer and music head to go see this band. The record is getting more critical acclaim than any of their previous works. On deck for later in April is the song "So Hard Done By." Check it out. **Bad Religion** is infecting radio with "Infected." WXTB/Tampa is reporting Top 5 Phones. KLOS hit **Skid Row's** "Into Another" this week. Prepare yourself for the Sound Scan debut next week. KLOS also added **Samiam!** This San Francisco rock band has been total road warriors out supporting their newest track "Stepson." Take a listen you may be surprised. Thanks for keeping Atlantic #1.

And while I'm at it, Jason (WDET) hope your car is A-OK, I heard a little of the new Peter Case "Tom Again" rough master and wow - wait 'til you guys hear it! Super fantastic! Hope you listened up to hear **Paul Kelly** in station at 99X (in Atlanta of course) over the weekend. He still is a "Wanted man" at radio! Any of you retail cats out there who also DJ at local clubs should be calling me in regards to **Foetus' Gash** (in stores April 18th)!! If you are spinning at a local club, or have a friend who DJ's at a local club, call so I can set you up with **Foetus** vinyl. I'll set you up with some other goodies so the kids at the clubs will know that they can come to you, and buy **Foetus' Gash** on April 18th. More on this later. **COC** continues to reign at the registers thanks to retail support and lost of radio action. Plenty of double sided full color posters are on hand, so call to give your store a face lift. Look for a Spring/Summer **COC** club tour, at which point you can see for yourself why **COC** headed to Gold status (and beyond). All winners of the **COC** tour display contest (mentioned here last issue) should hold tight until **COC** gets back from Europe. At that time I'll shoot you out the personalized autographed framed **COC** posters. Got a chance to check out **Dokken** at Livestock in Florida and 20,000 screaming animals singing "Kiss Of Death" pretty much blew me away! New **Dokken** album coming soon. Thanks to Brian Medlin and all at WXTB and Heather and Mike at Aces Records. Haven't watched the sun come up in a while, but that's Tampa for ya. On deck: **Season To Risk!**

Some radio "gurus" are saying **Skid Row's Human Race** is too "thrashy" for their airways... C'mon people, let's not get out of hand, let's not blow this out of proportion... "My Enemy" is an over the top hard rock track and so are about 10 other songs on the record, but if you're playing the likes of **Quicksand, Monster Magnet, Faith No More, or White Zombie**, there's no reason to shy away from the heaviness of **Skid Row...** If "My Enemy" is too much for you, jump on "Into Another," Just like WXTB, KILO, KEGL, and about 70 other stations have. **Skid Row** is NOT a thrash band! **Skid Row** is NOT an alternative band! **Skid Row** is a Rock band! The slew of amazing rock records out right now is truly fantastic! Standouts include **Foetus, Mad Season, Maids of Gravity, Monster Magnet, Filter, Ssick of it All, Orange 9mm, Core, and Bad Seed...** Of course, **Collective Soul, Melvins, Encomium, Demon Knight, Samiam, Page/Plant, Bad Religion, Sugar Ray, and T-Hip** hold their own!!! Get ready for the **Motor City Madman** himself. He's back and he's loaded. "Kiss My Ass!"

Cheers to the entire WXTB crew for making Livestock '95 a complete blast! Medlin you rage! **Dokken** put on one shredding show - proving once again that George Lynch is one of the all time greatest guitar players ever! I don't think y'all spun every track on that **COC** record **Deliverance**. Get to it. **My Grain** is pure power in a **Sabbath** meets **ZZ Top** (circa 73) vein - (and as Jay Hughen will attest

- all the stuff that rock and roll dreams were made of). Yes **Mad Season** does fit on play lists that include **Death** and **Bolt Thrower**. Jim Thirwell is available to do interviews on behalf of **Foetus**. Get ready to pick the brain of a true musical genius. Is it me or does the new **Jayhawks** record get better with every listen?

Are you paying attention to **Kevin Salem**? Why is this man already the Runner-up Best New Singer of The Year in **Rolling Stone**? Why has everyone from **Alternative Press** to **Musician** to **Guitar World** raved about his debut? Why was "Will" Gavin's Alternative Record to watch last week? Why did this man ditch his day job as guitarist/producer (check records from **Dumptruck, Freedy, Madder Rose, Scarce, Yo La Tengo...**) to make **Soma City**? The answers to all of these questions can be answered by listening to "Will" and realizing that Kevin is easily one of the best songwriters out there today. Mr. Salem hits the road with **Wilco** at the end of April and you can catch him in the meantime playing dates with the likes of **Freedy Johnston, Love Battery, Simon Bonny** and the **Iguanas**. Phones are exploding at KTOZ for **Type O Negative's** "Black No. 1" as sales in Salt Lake double with X96's add last week. Catch the great clip on MTV or the Box and see why singer **Peter Steele's** voice isn't the only thing that will hold your listeners hostage. **Bloody Kisses** at #188 on the Billboard Top 200 and has sold buckets where there has been alternative play - every time...e-mail me! Queensryche kick off the **Promised Land** tour April 14 in Kalamazoo and oh what fun it is to air **Queensryche** specials while utilizing your Road To Promised Land - Arrived radio-only promo CD!! Selections go as far back as their self-titled debut EP (i.e. "The Lady Wore Black") and also now includes hits from **Promised Land** such as "I Am I", "Bridge", and "Damaged." Speaking of "Disconnected", we just dropped in the mail to you a **Queensryche** "Disconnected" single featuring three versions of "Disconnected" and it includes three tracks previously unavailable in the US. Such as, a live acoustic

version of "Silent Lucidity" recorded in Astoria London in October of '94. The "Disconnected" CD-Pro also features the track "Dirty Lil' Secret", a song which was recorded during the **Promised Land** sessions. And you will also find a version of "Someone Else" with guitars, drums and bass (the LP version only featured Geoff Tate's vocals and acoustic piano). And mark April 10th on your calendars as the **Queensryche** "Disconnected" add & airplay date! Congratulations go out to **Moist**, who snagged this year's Best New Group at the Juno Awards after performing "Push" (Juno's are the Canadian equivalent of the Grammy's). Call if you need another copy of the **Moist** LP Silver. **Butt Trumpet** is getting set to tour again to bring to you the live attack of "I'm Ugly And I Don't Know Why" as well as other great songs like "Funeral Crashing Tonight" and "I Left My Flannel In Seattle." You can play these songs on your metal show and make your listeners so happy they'll dial up the phone and let you know themselves! Plus, air these songs because Schnapp is sick of listening to old 8-tracks and wants to hear **Butt Trumpet** on your station!

What a spring this will be. First off, everybody should be playing the crap out of **Accept**. Their new disk, **Death Row** takes us back to the **Balls to the Wall** days. The sale are there so don't even try to say you don't have **Accept** fans in your town. I'll be getting liners done in a few weeks so if I still don't have your info, give me a call. I'm sure you've all heard of the **Crowbar** release date. Their latest, **Times Heals Nothing**, is due out May 23. Too bad for those not here this summer, because **Crowbar** is apart of Noisefest with **Propain, Overdose** and **Testament**. **Malevolent Creation's** latest also due out in May and I look for a tour to start with Milwaukee Metalfest. Two new ones from **Pavement** in April. First is **Oklahoma's Uglystick**, with their self-titled debut and **Crawl** with their industrial twist with their debut **Earth**. **Solitude** is still raging on the charts, watch for another tour to hit this summer.

Just say **Opressor** with **Broken Hope** last Sunday. **Opressor** kicked ass, **Broken Hope** deserve to be huge, I'm so into this band! It was great meeting Carlos & Eric from WCLC and Ryan from WVUR. Thanks for coming to the show. I noticed Cheryl Valentine's dialogue last week, the tidbit about how the only day of the year that there has never been a tornado touchdown reported is on January 16. That's my birthday! So technically, Jan. 16 a tornado touched down in East Stroudsburg, PA and I was spawn as a result! I have the smartest intern at Red Light! Kelly, metal director at WLRA and my assistant who talks to all C & K's made the Dean's list and got almost all A's last semester! Too bad she's president of her sorority. Anyway, Michigan Death Fest horror stories next week, major signing announcement hopefully next week, Solitude updates too. Thanks for support and patience.

Thanks to all that added **Misery Loves Co.**, **Anal Cunt** and **Extreme Noise Terror**. Anyone who hasn't had the chance to check out one, or any, of these records should do so ASAP cuz you are definitely missing out. **Misery Loves Co.** is going to be one of this year's hottest releases - mark my words. **Anal Cunt** debuted very high all over the charts its first week and moved up nicely last week so keep playing 'em. Plus you know ya gotta love a band with a name like this, Extreme Noise Terror's vocalist, Phil Vane, was in town for a few days last week. Those of you who did interviews know what a cool guy he is (Thanks!) - I guess the rest of you will have to wait until they come over to tour. Special thanks to WSOU and Kim Burke for having him down to the station. Also available: limited quantity of autographed posters and cds - hurry, hurry while supplies last folks! Bolt Thrower continue to punish your airwaves so continue to chart 'em. Got some vinyl left for your give away needs, but ya gotta call me quick. Keep spinning the **Pitch Shifter** remixes too. So, Tommy at Virgin wants to start about my Knicks and start taking shots at John Starks. OK. Where were your teams last year? One was get swept in the first round and the other lost to John Starks and the Knicks. Just remember my friend the road goes through the Knicks and until that time ends keep your mouth shut. Also, how about those Pirates? Enough jock talk, everyone should be kicking the new **KMFDM** record *Nihil*. This record is more diverse than any of their others. Check out "Juke Joint Jezebel" and "Flesh." I have a limited amount of vinyl available right now so the first people who call get them. Look for **KMFDM** to be on the road in May. Also, be on the look out for your chance to get a copy of *Nihil* for yourself. The trivia flyer should be at now...**Die Warzau Engine** will not go away! This is not metal, like some people seem to think. Just because the word "die" is in the name doesn't make it metal, go get it back and check this record out. **D*Note Criminal Justice** was just sent out to all you lovely RPM folks. If your station has a soundtracks show, give me a buzz, TVT has just put out the music from the movie "Hideaway" with **KMFDM**, **Sister Machine Gun**, **Godflesh**, **Miranda Sex Garden**, and more...**Catherine** is on tour with **Letters to Cleo** now, call for tickets, interviews and giveaways.

(Man, do I use a lot of !, or what?) **Kataklysm's** first single and title track from *Sorcery* should be turning your listeners into a bunch of drooling, incoherent, blithering freaks by now! The intensity of this disc is enough to make you lose all of your bodily fluids at one time...add it now! Read the April 1st *Billboard* cover story about the resurgence of Lounge music. Read about how **Royal Crown Review** was just signed to Warner Brothers. And **Friends Of Dean Martin** (nee Giant Sand) to Sub Pop. It also mentions the king of swing **Buster Poindexter** and Zoo's consummate loungers Love Jones. Those three can be found on the only comp to bring you the various new blends of cocktail in one shot, *Live In Lounge*. We had a big blowout in Beverly Hills that attracted members of the NBC show "Friends" (Which is the coolest show on T.V., and anyone who knows me knows I said this before the damn party)...It's contest time! All you diehard skankers will want to enter the Continuum Skavenger Hunt, which challenges you to use your fanaticism creatively to spread the message about **Ska: The Third Wave**. Up to \$5,000 is the prize for the craziest message that reaches the most people...call us for more info. Finding more stations every day that program ska music on a specialty basis. Interesting to note that the readers of *Alternative Press* voted ska one of the Next Trends To Watch. Ska does have a place in radio (I remember the WSOU days when we were the only ones playing **Soundgarden**, **Megdeth**, **Pantera**, **COC**, and **Queensryche** for god's sake and everybody thought metal was a specialty genre...). It's only a matter of time.

Savor the flavor, **Urban Dance Squad's Persona Non Grata**, step off of the R.A.T.M. comparisons and lists to the songs. I will got to bat for this record, Tommy at Virgin will go to bat for this record, Michael Jordan won't go to bat for this record because after his dismal failure as a baseball player he's back to carrying the entire Chicago Bulls franchise on his bony shoulders. **Tank Girl**...Lori Petty in a film destined for USA's "Up All Night" in a matter of months, the sound track features new songs from **Bjork**, **Belly**, **Veruca Salt** (Nina Gordon I love you), **Portishead**, **Magnificent (Stone Temple Pilots)** **Bastard**, **Bush**, **Hole**, **Devo**, **L7**. **Monster Magnet**, drink in **Dopes To Infinity**, this record will redefine your standards of psychedelic rock, don't miss the spaceship, baby.
