THE HARD REPORT

TOP PRIORITY

Ian Moore, "Muddy Jesus," Capricorn

This axeslinger from Austin made major connections at rock radio with his previous effort, and through constant touring and other meet-and-greet opportunities, Moore has made himself a known quantity for those who rock. His slashing blues-based guitar work isn't overtly reminiscent of earlier masters, but it definitely expresses certain favoritism to the styles found around his hometown scene, both past and present. With a percussion bed lifted high amongst the vocal and guitar tracks, the overall effect

is one of rolling propulsion and sonic stimulation. The jungle feel is down and dirty, a revelation amidst more pristine passages that are easily found across the River Heritage. And when the truth's told, if your feet ain't a little bit muddy you haven't really learned how to swim.

COR

The Nixons, "Head," MCA

This Oklahoma based band has been impressing many radio programmers lately with their heartfelt intensity and hard rocking edge. Pulling in airplay at Rock Alternative and Hard Hitters stations, plus a handful of eager beavers at Current Rock already, they have both a refreshing edge and a familiar feel, endearing them to a variety of listeners. There is an underlying intensity to "Head" that makes the song particularly compelling and haunting, it is gentle with its vocal melody and aggressive with its rhythm and sharp guitars. Some of the early players include **Rob Hunter** at **KILO** who related that it simply "sounds good on air". Also considering it early is **Bob Burt** of **WHMH** who told us that they "have been giving it some spins at night and we're hoping to expand it from there." The Nixons have built their reputation on the road, and this release captured a spontaneous energy that can be found in a live set.

HERITAGE

Pink Floyd, "What Do You Want From Me," Columbia

This live version creates both new wonder at the spectacle that is Pink Floyd, and a brilliant reminder of tours gone by for those who got into the building. Some rock stations had luck with airplay from the studio version, enough so for the release of the live version as an official single. With positive results already in the box, it's a pretty safe bet for exposure. Of course, a sampling of the record will yield the tried-and-true favorites, including a live "Dark Side of the Moon." One of the most talked-about tours in recent memory deserves a second look in the audio context. So join the crowd: **KKEG, KLB, KMJX, KOMP, KSPQ, WAPL, WCCC, WDHA, WDRK, WEGR, WFBQ, WFYV, WGIR, WKLS, WIYY, WNCX, WPLR, WSHE, WZZO**, and about 30 more, as it was #2 Most Added at Heritage.

COR CUTS

Jennifer Trynin, "Better Than Nothing" (Squint/Warner Bros)

This new arrival from Boston is just now starting to sink in at Current radio with this poppy little song where musical currents flow along a jovial path. Four new adds came in at **KEYJ**, **KNCN**, **WKQZ** and **WVRK** to go along with increases at **KFMZ**, **KZBB**, **KZOZ**, **KZRR**, **WDIZ**, **WRZK**, **WSFM**, **WSHE**, and **WZAT**. Even with its lightweight melody - which will appeal to that advertiser friendly upper demo - there is an sharp edge to the guitars, "Tomorrow" will intrigue the younger element of your audience. With colorful lyrics and some subtle, catchy hooks this is a fresh sound for many demos. **Rich Church** at **WKQZ** who was refreshed from a round of 18 holes, expressed to us that he "likes that song. I like songs with guitars and gutsy women who sing about drinking and fighting!" On the more deliberate tip was **Steve Blatter** of **X107** who stated simply that, "The song is a smash, that's just my gut feeling!"

Silverchair, "Tomorrow" (Epic)

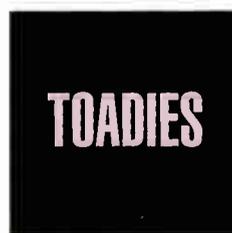

We have all heard about bands coming out of nowhere and taking over a chart, but this success story is even more amazing than your typical one hit wonder. This Australian trio was going the typical band route and entered a demo contest from a radio station. But they weren't your typical band and the next thing they knew, the demo for this cut was #1 on the national Aussie radio charts before they even had an album out. They are now set to delight the difficult to impress American radio programmers with this light hearted, accessible and edgy song, which is already pulling in 15 spins at **Q104.3**, to go along with an add at **KILO**, whose **Rob Hunter** assesses that "I want to listen to it some more, but from what I've heard it's an instant hit!" Another programmer who has heard the buzz is **Steve Blatter** of **X107**, who related that they are being "tagged the Pearl Jam of Australia."

Ugly Kid Joe, "Tomorrow's World" (Mercury)

While we are sure that the Ugly Kids have retained their sense of humor, "Tomorrow's World" shows the flip side of their jovial demeanor with a serious look at the state of the world. It seems that people are intrigued cuz the story keeps building, with 18 increases to go along with eight new adds this week at **KICT**, **KLBJ**, **KMOD**, **KZBB**, **WBZX**, **WOZN**, **WVRK**, and **KATP**, whose **Brad Elliot** relayed that he "likes it a lot, and it sure has a different feel for them. We put this right into medium and have already seen some phones." **Dano Amman** of **WOZN** - also intrigued - assessed that "It's a different, darker Ugly Kids. I like the song and I think that it's a good prospect for us." These surf and skater punks will be hitting the road this summer, where you will be able to peer at both this, their serious angle, and their overwhelming fun side as well!

Toadies, "Possum Kingdom" (Interscope/AG)

In many cases these days music is tossed out at mainstream radio and if it doesn't stick the label will move on to the next project. The Toadies are proof positive that if a project is believed in and allowed to grow and develop over time, then the result will come in. Originally being sent out last fall to find some key supporters (especially **Q104**), they are now seeing airplay with the cut "Possum Kingdom" on 48 stations, with five more adds this week at **KLAQ**, **KLOL**, **KUFO**, **WLLZ**, and **WSFM** and 22 increases. Obviously, these possums aren't going to be running out of steam any day soon! With a big 20 spins this week at **WHMH**, **Bob Burt** relates that "This is one of my favorite tunes going right now, I catch myself singing to it. I really like the way it all works together. With all of the new, unknown artists out there, the Toadies are getting the most phones." We suppose that they won't be unknown to the public for much longer.

Fury In The Slaughterhouse, "Dancing In The Sunshine Of The Dark," RCA

What a perfect song for this time of year. Grab your car keys, a cool pair of shades, and of course your new Fury album, and go for a long, fast drive. There's nothing better than a great song blaring through your car on a warm summer day, and this song would be your perfect companion. "Dancing In The Sunshine Of The Dark" is a short, punky gem that rolls through your soul. The luxurious vocals seem to carry on forever, and added with the grooving sounds of the guitar, you're pulled into its shaky flavor. Adds include **KEDG, KRRK (13)**, and the **Radio One Network**. Dancing on a radio near you.

Sugar Ray, "Mean Machine," Atlantic

Let's travel with the gods of music to their latest creation — a monstrous band with an eclectic spirit. Sugar Ray's first single "Mean Machine" is a heart-pounding guitar gargantuan. Just ask **KILO** and **KNCN** who just added this future hit. "Mean Machine" is actually a tribute to lead singer Mark McGrath's "barf green" vintage Cadillac, which he feels so deeply for he decided it deserved a place inside their album

Lemonade & Brownies. With drummer Stan Frazier's rhythmic styles and the deep swelling bass guitar of Murphy Karges, the band can't go unnoticed. **KUPD, WZAT, and WXTB** have increased their spins by a sound margin along with 13 others. It's the Hot Rod Lincoln From Hell.

Nixons, "Head," MCA

With an opening crash of guitar that sounds like an AC/DC opener, this tune gets down to business immediately. Suffice it to say that there's plenty of basic hard rock edge to go along with an underground sensibility that will rock even the most discriminating headbanger pallet. And MCA is all over this one, so there's no danger of being left at the altar. It's already on at **KDGE, WMYZ** and **WMMS**, and will fly at your place if you're looking for something on the heavy side that doesn't already have its roots locked down in an alternative image. The Nixons, at this point, are a rock band that will fly at both rock and Alternative.

Better Than Ezra, "In The Blood," Elektra/EEG

This is the second single from *Deluxe*, the debut album that keeps on turning heads at both rock and Alternative. With "Good"'s multi-format success, "In The Blood" stands a solid chance of capturing at least as much attention at radio. It is an entirely captivating effort that kicks ass after the first listen, and gets stronger with ensuing spins. Already tallied in

are **KRQT (15-24), WBCN (21-22), KROQ (12), KLOS (13)** and **REV 105 (11)**. Adds on the Alternative front include **KJEE, WDST** and **WPFM**, and early attention has already been afforded at **WEQX, WKRO, KNDD, Q101** and **LIVE 105**, among others.

Blues Traveler, "Run Around," A&M

With tremendous exposure on the various late night shows, multi-format activity and tour exposure, Blues Traveler continue to ascend with "Run Around." Showing little evidence of trailing off as J.B. and Co. net more adds, and stay in forward motion this week. **KKEG, WFYV, WNOR, WRXR, WXRK** and **WZNF** all add in, with increases at **KGGG (2-14), KQRS (18-22), WFBQ (13-15), WIZN (19-21), WRXK (6-19)** among others. The list of already-on includes **WWDC, WXKE, WBLM, WIOT, WPYX, WHJY, WHCN, WIYY, WKLS, WMMR** and others. Running this around all day can be a reality right away.

Catherine Wheel, "Waydown," Mercury

They made their debut U.S. tour appearance in Hartford over the weekend, and the video is rolling on MTV. The Wheel are making maximum impact at Alternative, Rock Alternative and COR. Why not Heritage? The heavy side of life isn't alien to the masses by any means. "Waydown" has enough Guns & Roses tendency to mix it up just fine around your night records at this point, and just the required edge to help you keep a foot in the door with the "in" crowd. This record is considered a bit of a move to the middle by those who are familiar with earlier work by the band. "Waydown" has plenty of mass appeal potential. Picks up **WRCX** and **WFYV** this week.

Bad Company, "Down and Dirty," EastWest/EEG

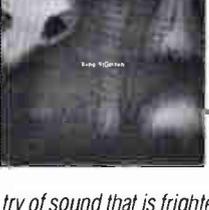

Gettin' down at Heritage, as well as COR and even somewhat at Rock Alternative, the revisit to radio for this classic rock name is logged in as successful. With the tone and flavor of the latter-day Bad Company in combination with some vocal similarities with the classic Bad Company-era hits, the two bases are seemingly covered in one fell swoop. **WHCN, WZZO** and **WIYY** come in this week, adding to constructive activity at **KYYS (10-21), WAOR (12-16), WGLF (14-15)** and **WZZQ (17-22)** in addition to other increasers. A total of 105 rock outlets are gettin' down and dirty with this brawling rocker, keeping straight-ahead rock and roll in the consideration pile for the others who haven't heard the news: It still works.

Dokken, "Too High To Fly," Columbia

A major chart leap for the Don and George reunion, 44-30* on the Heritage chart, signifies the willingness of rockers to make more room for the hard rock sound that has been creeping back into the playlists of our brethren COR stations. **KQRS** is one of 8 that added in this week, and the list of Heritage calls grows long with the likes of **KOMP, KLBJ, KCLB, WDHA, WCMF, WEBN, WRCN** and plenty of others in the increaser bin. Also on this record are **WZZQ, WHJY, WRIF, WCCC, WXTB, WROQ, WKLQ** and a host of others. 98 total stations have joined the Dokken reunion party.

King Crimson, "People," Virgin

The comeback that's been relatively ignored in favor of easier-to-hear tracks from other pop-rock classics is nonetheless thoroughly provocative and totally worthy of on-air attention. The skittishness of the rhythm track on "People" is another example of how King Crimson just doesn't fit perfectly alongside other rivals for your lists. You must consider them something entirely different. Original members Bruford, Fripp, Belew, Levin and Gunn weave a tapestry of sound that is frighteningly appropriate for uniting your new music fans with the classic Crimson contingent. Nobody can set the table of rock and roll adventure the same way King Crimson still can.

Soul Asylum, Let Your Dim Light Shine, Columbia

The full-length is in the mail, and with the screaming success of "Misery," the temptation will surely be to expose some of the other activity on this record. And there's plenty of angles to pursue. "Caged Rat," for example, has the feel of earlier indie releases, and came as a pleasant surprise. "Promises Broken" is slow in the tempo department and could make a nice ballad single. "Crawl" and "Hopes Up" both rock pretty hard, although "Crawl" breaks tempo from time to time with acoustic guitar. A real gem is "Bittersweetheart," a big-melody uptempo hit that will undoubtedly do some damage. In all, it's a very satisfying and appreciably diverse record from Soul Asylum at a time when they could've sold us all something more ordinary.

STEELE REINFORCES ZETA

Neal Mirsky

In what has to qualify as the week's surprise announcement, **Neal Mirsky** is out a **WQTA/Miami**, and former **KNAC** and **KRXX** PD **Gregg Steele** is in. Additionally, **Heidi Hess**, most recently morning co-host at **Q101/Chicago**, is Zeta's new MD and midday personality. Steele comments, "I would like to thank **Jay Hoker**, President

Gregg Steele

of **Paxson's** radio division, Programming VP **Alan Mason**, and GM **Ronna Woulfe** for bringing me on board. Thanks also to the **Pollack** organization for their input. I had been encouraged by a lot of people to take whatever came along in recent months, but I waited for the right opportunity, and when this was presented, I obviously went for it. I've been hired to maintain and build on the momentum that has already begun, and the addition of Heidi Hess as MD is the added plus the station has needed. We had talked about working together for a while now, and it's ironic that her deal was basically done at about the time my conversations with Paxson started. From Ms. Hess, "Miami, Gregg Steele, and Paxson Communications! Yes!! Gregg and I have kept in touch over the past couple of years, and I'm really psyched about working with such a respected, experienced programmer. Plus, I'm excited about Zeta's new direction and the great numbers so far."

Heidi Hess

Though disappointed for Neal, we are relieved to report his exit had absolutely nothing to do with his recent cover piece. As noted by none other than Gregg Steele, "Neal's a great guy who did a good job. He won't be out of work long." Reach Mirsky at (305) 797-9302.

IVY CLIMBS UP IN PORTLAND

Herb Ivy

Herb Ivy, PD/OM of **WBLM & WCYY** in Portland, Maine, has been promoted to VP of **Fuller-Jeffrey Broadcasting**. **WBLM/WCYY** GM **Eve Rubins** commented on the appointment, "Herb has proven himself to be an extremely valuable member of the Fuller-Jeffrey team with his never-ending display of energy, enthusiasm, and hard insights into radio strategies. Herb is not just a great person, but also a terrific executor as well." Ivy has been with Fuller-Jeffrey for ten years. He has co-hosted the **WBLM Morning** show for eight years, and has been PD/OM of "The Blimp" since 1993. He most recently has helped craft the vision for **WCYY**, a uniquely marketed AAA station with two frequencies on the dial. "I'm extremely thankful to **Eve Rubins** and **Bob Fuller** for this vote of confidence," said Ivy. "I intend for **WBLM** to remain one of the highest-rated Rock stations in the country, and I'm committed to developing **WCYY** into a premiere AAA station."

Arista Records President and founder **Clive Davis** has renewed his contract with **BMG Entertainment** in a multi-year pact. Pictured (l-r): **Michael Dornemann**, Chairman/CEO, **BMG**; **Clive Davis**; **Strauss Zelnick**, President/CEO **BMG North American**.

LUCZAK'S BACK

Michael Luczak

Effective immediately, former **WMMS** and **WAZU** PD and **WEBN** air personality **Michael Luczak** is the new Program Director at Toledo's **WBUZ**. Current PD **Kelli Gates'** husband just graduated from the Medical College Of Ohio, and will relocate to L.A. for his residency in psychiatry. Is that the perfect programmer mate or what? Mr. Luczak comments, "We're gonna let the bee out of the hive. The station got off to a great start. Now, we'd like to add personality and fun and continue to play great new hard rock music, regardless of the genre that the industry assigns it to." Reach Michael Wednesday and Thursday morning, and be advised he'll continue his past habits of getting in early.

MCGATHY BASH

Radio and record luminaries across the country have once again converged upon the city that never sleeps for the 10th annual McGathy party, hosted by indie extraordinaires **Bill** and **Rose McGathy**. This year's two-day extravaganza (6/2 & 6/3) features a Friday night party at **CBGB's**, a Saturday night party at **LeBar Bat**, and performances by **Tea Party**, **Sleeper**, **Hum**, **The Nixons**, **Fight**, **Brother Cane**, **King Crimson**, **Sea Weed**, **Fury In The Slaughterhouse**, **Catherine Wheel**, **Gov't Mule**, **The Diverbombers & Who The...** Look for a full report on the festivities and tons o' photos in next week's issue.

Elektra/EEG threw a listening dinner in NYC to celebrate the soon-to-be-released debut solo album **Tigerlily** by **Natalie Merchant**. **Tigerlily** will be released June 20th. Pictured to Natalie's left is **Sylvia Rhone**, Chairman/CEO, **Elektra Entertainment Group**.

Jim Del Balzo

by **Bill Hard**

Jim Del Balzo has earned a reputation as one of the industry's most intense and outspoken label execs. Rocky's confidants include Program Directors, platinum artists, and the pro at Pebble Beach. Jim first interned at Arista back in '77, hanging posters at record stores in Harlem, among other places. He became Polygram's college promo manager in '78, and a year later teamed up with Jerry Jaffe and Bill McGathy as the National Album Promotion Manager, in what would become the industry's first Rock Department. In 1981, the label moved him to L.A. as the Promotion Manager, West Coast, and after "seven months, four days, nine hours and 36 minutes," Jimmy bagged L.A., returning to NYC to do local for Columbia. In 1986, he joined MTV as Director of Talent Relations, but in '87 returned to promotion as Columbia's National Album Director. Jimmy made VP in 1989, and last year was named Senior VP of Rock Promotion. With Sony just announcing record profits last year and Jim, Chris Woltman and Kim Langbecker already kicking major first-quarter butt, the timing's perfect for Rocky's second in-depth interview...

Let's start with your week at radio. You had another great week on the Dokken, and a surprisingly good week on Pink Floyd. Why did you go with a track that a lot of people played in studio form, and how hard was it to get radio revved up?

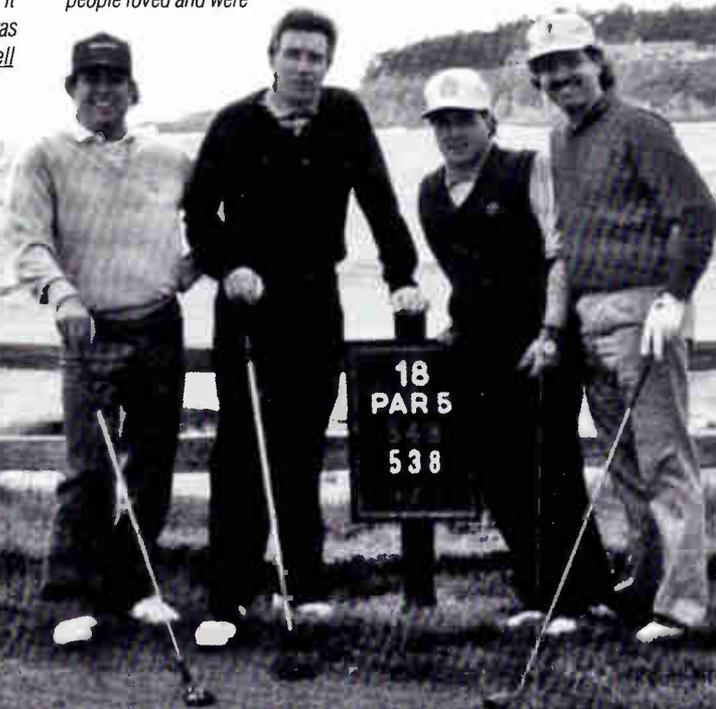

Jimmy: We had an interesting decision to make here. This particular track was on the Division Bell record and a lot of stations played it. But no stations played it, with one or two exceptions, to the point where it was burned out. Everyone said that for the small amount of play it had gotten, it had researched extremely well. There was a lot of pressure during the course of the Division Bell

to put this out as a track. For one reason or another, 'High Hopes' turned out to be a really big track at radio and 'Take It Back' had a video attached to it. We just never got around to it. Not that we didn't love the song. We did. There was a lot of pressure from radio to put this out. When the live album came out, I spoke with Floyd and management to make sure that this and another track, 'Coming Back To Life' would be selected for the live album. We felt 'Coming Back To Life' was one of the best songs on the record. It also never got around to being worked. It was a pretty obvious choice. We took a song people loved and were

familiar with, but had not played out to the max — to me it was a no-brainer that was the song we went with.

Did you have to jam it pretty hard to get those numbers?

Jimmy: We didn't jam it at all. You don't have to jam a Pink Floyd album. They are arguably one of the very best bands in the history of rock music.

THE Hard INTERVIEW

Led Zeppelin would have a claim to that throne, and so would the Rolling Stones and the Beatles. But few other bands are in their category. When Pink Floyd makes a live record with 'Dark Side Of The Moon' in its entirety, and great new songs, you don't have to jam it anywhere. We understood a few COR stations were not going to add this out of the box. I still hope they will.

You got 35 COR reporters, that's pretty good.

Jimmy: I think the people who didn't add it will eventually, because most of them play Floyd.

Clearly the Dokken project is way ahead of what people might have predicted. How do you explain the success from that so far?

Jimmy: When John Kalodner came to me and said, 'We have a new Dokken record,' I had mixed emotions. I was not that familiar with Dokken's past, and pictured them as a hard rock band from the '80s. They were really big at the time, but I didn't know what kind of record they could make in the '90s. I was really surprised when I heard

this record. There is a misconception on the part of a lot of people who equate them with some of the hair bands, not to take anything away from the Skid Rows, Cinderellas or Warrants or Poison. Obviously I worked Warrant hard for a number of years. Dokken was not a hair band. They were a hard rock band that had broken through with a couple of mainstream hits. Kalodner and I worked very carefully to get a great edit on 'Too High To Fly', which was over seven minutes on the album. It clicked.

Did you send your field staff out with specific instructions to debunk the hair band perception?

Jimmy: I actually met with a lot less resistance than I anticipated. I was surprised when I got out there and heard people say, 'Man, I love Dokken. Let me hear the new record.' I thought I would get a lot more of the, 'Oh my God, a Dokken record?' I didn't get nearly as much of that

as I expected. We positioned it well in the marketplace and the song was strong enough. The band worked their asses off. I put these guys on a three week promo tour from hell. It is no secret that George and Don have always had a volatile relationship. While they get along, there are some rough spots. Putting these guys on a bus together for three weeks was a challenge.

How did that go?

Jimmy: Really well.

Like I'm going to get you to hang out dirty laun-

dry, Jimmy.

Jimmy: There are rough spots in every relationship, especially when there are two creative people involved who approach things from different angles. There's a lot of lead singer/lead guitar player going on here. Creatively, it's a really healthy environment for these two guys. Their talents meld really well together. They make great music together. One of the things that separates Dokken from some of the other bands of that era is that George Lynch is a world class guitar player. There are very few people who can play on his level. That's a big reason Dokken has managed to work into the '90s and so far be successful. They are selling out every single show.

How is retail so far?

Jimmy: We've sold over 30,000 records in two weeks over the counter. We're very happy.

Do you think one of the reasons Dokken has done so well is a result of the so-called grunge backlash?

Jimmy: I think there is a backlash, period. At one point in time, I thought all this alternative music was going to take two years to burn through. I think it's going to take about six months. I'm seeing a renewal of great rock and roll, and an excitement outside of the industry, in other places. When there are three or more formats, counting MTV, pounding the same records and sound over and over

again, people are going to get tired of it pretty quickly. There was the skinny tie backlash back in the '70s. Some of those great bands survived. Some didn't. The great alternative bands will survive. A lot of alternative stations like to claim Alice in Chains, Stone Temple Pilots and Candlebox are alternative bands, but that's bullshit. They all broke at rock radio first, and alternative radio picked up on them afterwards when they knew they were hits and safe. In six months, people are going to be looking around for something else to play. Kalodner has always been a proponent of mainstream

rock. In some new form, it's going to get back down to mainstream, mass-appeal sound.

Were you concerned that there were Slaughter and Warrant releases within days of Dokken's?

Jimmy: They hurt us in the fact that there are a few people who put these bands from the '80s together. Once again, Dokken was never a hair band, they were metal. Warrant got locked into that hair band thing. Unfortunately.

When 'Cherry Pie' came out, did you know that was professional suicide?

Jimmy: No. At that time, the environment said, 'You need a big pop single for these bands to sell tonnage.'

THE Hard INTERVIEW

It was interesting that Warrant was Columbia's wedge into the whole pop-metal arena. Would you agree?

Jimmy: Jani is a great songwriter. All those guys are good friends of mine. It bothers me that they have gotten the most backlash of all those bands.

That new record is a nice piece of work, though.

Jimmy: Like I said, Jani is a great songwriter. You take 'Uncle Tom's Cabin' — that's a great song. In that era, when you had big, hit ballads like they did, it killed them. Little girls loved them, and all of a sudden it became a bad thing for them. It didn't hurt the Beatles any.

You worked the Beatles first record, right?

Jimmy: I worked some McCartney records.

What was the first record you worked?

Jimmy: 10cc, 'Bloody Tourists.' I got the CD a couple of years ago. It holds up well.

What was the first record you worked that you felt your involvement made a significant difference? Could I hazard a guess with Bram Tchaikovsky?

Jimmy: That's a good guess. There were a couple records before that from The Jam, a band ahead of their time. I worked really hard on them. Had they managed to stay together, they could really have been something.

Are you happy with what you've accomplished with the Corrosion of Conformity project?

Jimmy: We've got a third single coming out now, 'Seven Days.' I'm very satisfied with how we've done with this record at radio. The frustration I've felt is one I've felt all along — MTV's lack of support on rock records. There are two people in this country who determine the tastes of Americans: Kevin Weatherly and Andy Schoun. The two of them are at the forefront of two of

the most powerful tools for exposing records in this country. Unfortunately, I think they spend a lot of time talking to each other. They are determining what is getting played at two of the biggest outlets. They are taking the tastes of radio and the tastes of Americans with them. MTV is an incredibly powerful tool. When they play rap music, rap music sells. White kids in the suburbs were buying Public Enemy records by the hundreds of thousands, because that's what MTV was playing. When hair bands were popular, they were selling tons, because MTV was playing the shit out of them.

What was their objection to C.O.C.?

Jimmy: For some reason, they didn't think they were 'alternative' enough. C.O.C.'s roots are as an alternative band. They were punk rockers 8-10 years ago. They got hardly any MTV play. To me, that's the difference between having a gold, platinum or double platinum record. C.O.C. sold over 300,000 units. We are coming out with 'Seven Days,' which is a great song. We're going to build on it. Six months from now, MTV will be playing videos from C.O.C. and bands like them. Unfortunately, it's going to take them time to catch up with bands like this, which is too bad.

How come the Mike Watt records didn't seem to hang around the playlists longer, or get more reaction?

Jimmy: For whatever reason, the Eddie Vedder track didn't perform well.

Do you think people knew it was Eddie when they heard it?

Jimmy: I think it's easy to tell. Whenever people played it they said, 'It's Mike Watt's new song, sung by Eddie Vedder.' It was well-documented. We're going to be working a song sung by Evan Dando called 'Piss-Bottle Man.' It's a wonderful, diverse record.

How do you get people into something as eclectically delightful and varied as the whole Watt album, yet not really radio-friendly?

Jimmy: It is a challenge. Radio-friendly records aren't necessarily the most successful records in the long run. Alice in Chains is a perfect example. 'Man in the Box' was anything but radio-friendly. When they brought me this record, I said, 'This is a great song, but where will I get this played?' I had no idea we could convince radio this was a song they could play. I don't know that anybody will argue with me that Alice in Chains opened the doors for the Seattle sound. Soundgarden had been around and not done well commercially. Alice did well commercially with the *Facelift* record. They opened the door a little bit, and Pearl Jam came and pushed it wide open. Being radio-friendly is not always the best thing long term for artists. Some of the biggest artists have come from situations that were not initially radio-friendly.

Does it concern you that Soul Asylum's 'Misery' is so accessible?

Jimmy: The Eagles are very radio friendly, too. They did and do well whenever they put out a

THE Hard INTERVIEW

record. When you reach a level of success and have your craft as honed as Dave Pirner does, that's not a negative. When you bring something totally new to the table, like Alice in Chains, the benefits can be there for you. You can change the taste of radio programmers and the public. When you're as good at songwriting as Dave Pirner is, you don't have a whole lot to worry about.

When is the album coming?

Jimmy: The album hits the stores June 6th, and to be honest, eight or nine songs could have been the lead track from this record. 'Misery' is a total no-brainer, and there are a bunch of automatics on this record. If you are an artist, there is a trend that after you've been successful, you want to make an artistic statement. You want to make an album with songs with no hooks, or make an album that sounds very dissonant. They didn't do that. They wrote an album that has great hooks, melodies, songs and lyrics. I couldn't be more excited about the release of this Soul Asylum album.

Have you met Winona Ryder yet?

Jimmy: I met her one memorable night when Soul Asylum played the whole album at a small club in New York. Bruce Springsteen came in from the airport, after shooting the video for 'Murder Incorporated.' He found out Soul Asylum was playing at Tramps and he came down. I spent most of the night hanging out with Bruce, and watching Soul Asylum. He got up and did 'Tracks of My Tears' with them. I met Winona that night. It was so much fun. It was a couple of weeks after the Grammys. Bruce was walking around like Joe Q. Public. Everyone was coming up to him and congratulating him on the Grammys. He was having a great time. It was a magical night.

Last week Sony announced a 5.5 billion dollar year, up 25% from the previous year.

Jimmy: They should give me a bigger bonus, then. I don't really know much about Sony's finances. We had a pretty good year in the record division. A lot of what happens in the record division is out of our control because we are limited by the artists putting out records in that particular fiscal year. We did not have a lot of super-

star product last year. Bruce Springsteen, Pink Floyd, Soul Asylum have fallen into this year. Alice in Chains is coming. This year will be an awesome one. Two years ago was our best year ever. Last year was good, but not our best year ever. This year will surpass '93.

How would you rate your first quarter?

Jimmy: I think we're doing really well. Any time Bruce Springsteen is selling between 50-80,000 a week, and you're taking a million orders on the Pink Floyd record and Soul Asylum has orders near one million, it's got to be a pretty good quarter.

How intense is the pressure to perform when you turn in those kinds of numbers, as it relates to the staff and yourself?

Jimmy: A lot of the pressure is self-imposed. I know what's expected of me. Donnie doesn't have to come down here and tell me Pink Floyd is responsible for a huge amount of billing. I know that. I know Soul Asylum is a very important record to this company. I know breaking Jeff Buckley is very important. I know C.O.C. and Mad Season mean a lot to this company. I never get lectured. No one comes in here and says, 'You better deliver.'

Columbia has certainly invested a lot of time and money in Jeff Buckley, a fact I've heard discussed by other label execs.

Jimmy: The expectations for Jeff are not a record to record type thing. People realize that it could be this record or his second or third record — but he is a major talent, just as John Hammond knew Bruce Springsteen was a major talent. It didn't happen for Bruce until Born to Run. He made a couple of records that didn't sell. Columbia invested their time, effort, money and hearts in Bruce Springsteen. We are investing the same in Jeff Buckley, with the confidence that with his talent he will be a major artist. He is a major artist already, and from a dollar and cents standpoint, he is going to contribute big time to the bottom line. First and foremost, we know Jeff is a tremendous talent, and we want to make sure he gets the recognition he deserves.

Have you gotten a fair shake from the format with Buckley?

Jimmy: I think we did. We have another song coming out called 'Eternal Life' that is much more rock-friendly. We've had great success with Jeff at mainstream rock radio. WMAZ has done well. WNEW has done well with him. Jeff is one of those artists who can work for alternative radio as well as rock radio. I'm hoping that with 'Eternal Life' we can get a bigger spread at rock radio. 'Last Goodbye' just didn't have the texture to make a lot of the 18-24 males stand up and take notice. We hope to expand on the base we have.

I've heard it said that retail is almost dangerously slow. Within the corridors at Sony, what is the vibe at the retail level?

Jimmy: You're always concerned when business is off. The bigger concern is that people are saying there are no stars out there now. Who is the next mega-star? Who is the next Bruce Springsteen or Michael Jackson? Not that there will ever be anybody like that, but who will be the focal point, or the next great icon. I don't see Trent Reznor being it. I don't see the guys from Stone Temple Pilots being it — they're kind of faceless, they don't stand out. There's no David Lee Roth there. The star quality is missing from a lot of these acts. A lot of these bands make it clear that they are not into the whole star scene. To some extent they are getting their wish. They are no-

stars. In the long run, that's not a great thing for retail. You're reaching the same people all the time. The kids who listen to rock and alternative radio and Top 40 are also watching MTV. They are buying the same records. They are watching the same videos and hearing the same music. How does someone like Freedy Johnston emerge from that? It's harder for those people. There are no clear-cut stars of the magnitude we're used to from the past. It's difficult for other music to get exposed on a large scale. Where does it leave those other people? They're not coming into the stores.

Does the reality of the marketplace contradict the widespread label assumption that alternative airplay would dramatically improve retail?

Jimmy: Obviously, some of these bands are selling a lot of records. It's a handful of bands and there is no big Fleetwood Mac record, selling 12 million records. It hasn't clicked. Maybe in time it will come. Maybe the personalities will come — these new bands have only been in the spotlight for a couple of years. Maybe it will just take longer.

What is your point of view on guys like Carey Curelop and Steve Young wanting alternative recognition?

Jimmy: Carey ran into a problem. His problem is not that he's a rock station in Los Angeles. The problem is that he's a rock station in a city where if KROQ adds a record, there is a knee-jerk reaction from ten other stations across the country. They are in such a large market that KROQ can sell a lot of records. KROQ is a very powerful radio station. Carey felt he was being snubbed because he wasn't an alternative station. That's not it. He shares a lot of the records with arguably one of two of the most powerful stations in the country. Carey is a well-respected programmer. People watch what he does. Kevin is also a well-respected programmer. He hits a record, ten other alternative stations will follow. That's a fact. That's where Carey gets burned. It's not that he's not alternative. He's in competition with KROQ, and they will get as much as they can. People would never want to hurt Carey, but sometimes he gets part of the backlash. KLOS is earning the respect they deserve. It'll just take a little time.

A number of labels have focused in on the 75-80 most active stations in the country. Do you still work everybody?

Jimmy: Between myself and Chris Woltman and Kim Langbecker, we call 175 stations a week. I make sure our local staff talks to stations in even small markets. We work everybody, but obviously Q104 has a lot of clout. Q104, as a rock station, sells more records than any other in

America. KISW has a lot of clout with us, they sell a lot of records. KLOS has begun to sell a lot of product. As classic rock, they didn't do much for us from a sales standpoint. But when Carey plays a record, he sells records now. Those stations carry a lot of weight. We pay a lot of attention to what they're doing. 'AAF in Worcester is a very important station. Also, I don't deal with just rock. I do a lot of work with alternative. Oedipus is one of my best friends. I talk to him three times a week. I work 'BCN. 'MMS in Cleveland moves an awful lot of product. We are the rock department at the label, but we talk to an awful lot of alternative people. We go by relationships, where we have friends. Because Oedipus reports to a different section of a trade doesn't mean that I'm not going to talk to him anymore.

How much more is mainstream radio helping you than they were five years ago?

Jimmy: It's like day and night. I always knew it would turn around. For years, record guys were saying, 'If you play more music, you're going to do better and so are we. People are tired of hearing the Doors and Led Zeppelin and the Who.' Finally they figured out that was true. Now I'm seeing stations playing more music, breaking records and we're selling more. The rock stations have a lot more clout at labels than they have for 10 years. Rock radio is now an integral part of selling records. That could not always be said.

What does a station have to do to get on your bad side?

Jimmy: It's pretty tough. Being unprofessional or discourteous would do it, though. A local guy will come into the market and he'll take the programmer out to a \$200-300 dinner in a market, and then not have his call taken, that kind of stuff. We have great relationships with 99.9% of the stations. I don't have time for the people who are whores. I don't have time for people who don't care about music. If you are a whore who stands there with your hand out for deals for records, we don't work with you. There are some other guys who handle themselves that way with other labels, but not us. For the most part, there aren't many people who we don't get along with.

Why is it to radio's advantage to give you and your crew the benefit of the doubt whenever possible?

Jimmy: It's no secret if you ask around radio, people who are our friends, we take care of big time. We go out of our way. KQRS is one of the most classic mainstream stations in America, but Dave Hamilton has been a friend of mine for a long time. If Dave Hamilton asks for something, he gets it. I put a lot of stock in personal relationships

and stations that help us throughout the course of the year. I'm not a tit for tat guy, and neither is Chris Woltman or Kim Langbecker. We can do a lot of things for radio stations. When our friends call and ask us for stuff, I don't remember saying no to anything. They don't ask for outlandish things, and I don't remember saying no to any one of our friends. If there is any way we can help them, we do, every day. We don't punish anybody, but we take care of the guys who take care of us.

What do you think the worst thing a label can do, in respect to a radio station?

Jimmy: Be thoughtless to the needs of the station, in terms of their competitive battle. Every record company makes mistakes. Very often we don't think something is as important to a station as it is. If we don't have regard and respect for the people we deal with every day at radio, it's the worst thing a label can do. I may not see eye to eye with every programmer, and God knows Valeri and I have gone around and around on a lot of different things. Steve Young and I have not always agreed, and Dave Richards and I haven't either, nor do Gene Romano and I. First and foremost I have a lot of respect for all these guys and for what they do on a daily basis. Labels must respect radio, what they do, and the world they live in.

What do you think gives you your best bang for the promo buck?

Jimmy: That varies from record to record, depending on what type it is. We have a thing called 'Columbia Casts' where we take a band and put them in the studio. We use our satellite uplink and can get 10-12 markets each night, and we'll get the band on the air with one station, via satellite. 48 tracks, live from Sony studios in New York, it sounds like the band is playing a full-blown studio set in your studio. It's awesome. We've done that with a bunch of people and it's hugely successful. It's great radio. It's fun for us, the fans enjoy it. Talk about bang for your buck. We can reach a couple million people on any given evening.

A number of labels have said that all the co-pro politics have them thinking about getting out of that game permanently. Your thoughts?

Jimmy: It's a no-win situation. We never want to hurt anyone. The last thing we want to do is piss someone off who is supporting our records. At the same time, we're in the situation where if you do a show, somebody is going to be happy, somebody is going to be unhappy, now that they're sharing so much of the playlists. It's messy and we share a lot of the frustration of the other labels. It's been the source of some conflict.

THE Hard INTERVIEW

Do you and Jerry Blair ever find yourselves in each other's faces in terms of format loyalty?

Jimmy: No. We sit down and think about it. A lot of it happens on a local level, too. Very often the promoter wants to go to the alternative station not the rock station, because they don't have confidence that the rock station will sell it out. That's a fear that's quickly changing.

How much difference do you hear in Q104.3 since Ron Valeri took over?

Jimmy: They seem a bit more alternative. It seemed like they are dayparting records more than they were before. I don't think Bob ever dayparted records. This is not to say anything bad about Bob. He's a very good friend of mine. He's done incredible things for radio in New York. I think Ron has come in and built on what Bob has set up.

How do you think 'NEW will sound a year from now?

Jimmy: Two years ago, 'NEW should have gone alternative. When they had Pat St. John as a PD, they were flying without instruments. They needed to make a move to be a modern rock or COR station, something different than a classic-based rock station. They failed to do it at that point. I

don't believe they will be able to make any radical changes for a while. There is still a hole in this marketplace for a real aggressive, alternative radio station. One of the best stations in this market is X107 in Westchester. It's a great-sounding station. If that station were in Manhattan, they would probably get a 4 or 5 share. WNEW has got a lot of things on the table they have to deal with.

Have you had a chance to hear what Russ Mottla has been doing at 'DRE?

Jimmy: 'DRE had some serious problems when he arrived. They didn't fit into the

alternative mold. It was too dance-oriented or pop a couple of years ago. Russ needed to make some pretty radical moves. He's done a really good job.

Could you program a radio station?

Jimmy: I've been doing this for a long time. I've been a programmer at MTV. I know I can program a radio station. I know everybody promotion guy says that. I don't know much about clocks, but I've hung out with some of the best radio people over the years and I've learned a lot from them.

What format would you do?

Jimmy: That's a good question. I'd like to take a crack at what Q104 is doing. A rock station with an edge. Then again, I would have problems, because I would miss playing Springsteen and things like that.

Who would be the first jock you'd hire?

Jimmy: You know who I think is one of the best jocks in the country? Ray White at CD101 here in New York. They're not an AOR but he's tremendous. Mark Parenteau also does a great job.

Some have said that something that distinguishes you from some of your promo brethren is that you get up in the morning believing every radio station in America should play every record you have out, instead of picking your shot.

Jimmy: Who said that?

I'm not telling. Are you guilty of that?

Jimmy: No. I'm realistic about what records belong on what radio stations. However, if I think there's a way a station can play a song, I won't stop until I get it. Q104 should not be playing Bruce with what they're doing now. But I do believe there are a lot more records stations could play than they realize.

Finish this sentence. 'If I had two more hours a day I would...'

Jimmy: Spend more time with my children. When you get home at nine o'clock at night and you have a nine and seven year old who go to bed at 10 and 8 respectively, it doesn't leave a lot of time to eat dinner and see them. That's a constant source of frustration for me.

TRIPLE ACE

Soul Asylum, Let Your Dim Light Shine, Columbia For at least ten years, these guys couldn't even get arrested. They toured out of a van and recorded albums that were appreciated by critics and eagerly purchased by the loyal fans that they had accumulated, but were rarely heard by anyone outside of that circle. Then came *Grave Dancer's Union*. With its unique hybrid of melody and grunge, the album melted the hearts of jaded programmers everywhere and spent

about a gazillion weeks on just about every chart you can name. What do you do when you have to come through with a follow-up to that kind of success? Well, if you're Soul Asylum, you do what you've been doing for years — keep on making the music that you really want to make and that you know is good. Which brings us to *Let Your Dim Light Shine*, an album that will probably go gold before it even gets to the stores — and not because it's riding the coattails of *Grave Dancer's Union*, but simply because it is a great record. Like its predecessor, *Let Your Dim Light Shine* is melodic and edgy and honest and raw. Lyrically, the album covers the gamut of angst, but it doesn't leave you feeling like you want to curl up on your bed in a fetal position. Co-produced by Soul Asylum and Butch Vig, *Let Your Dim Light Shine* follows the group's unintentional path of transcending industry pigeonholes and is instead meant to be heard by everyone. After spending a thoroughly enjoyable morning listening to the tape with our phone on "do not disturb," we've been able to narrow down Triple A selections to our favorites (in addition, of course, to the first single "Misery"): "String Of Pearls" and "Just Like Anyone," followed closely by "I Did My Best," "To My Own Devices," "Promises Broken," and "Tell Me When." Then again, if you're in a mood for something a little edgier, "Nothing To Write Home About," "Shut Down," "Hopes Up" and "Eyes Of A Child" are perfect.

RADIO SEES THE LIGHT AGAIN...

THE JEFF HEALEY BAND

SPECIAL LIMITED EDITION SERIES **VOLUME I**

UNDER COVER

"The Jeff Healey Band has taken some classic Blues tunes and added the production elements of the '90s to create a fresh sound. We've gotten great response to 'As The Years Go Passing By,' a smooth, sultry rendition that weakens the knees and lights up the phones."

CHRIS MAYS, KMTT/SEATTLE

"We've always had success with Jeff Healey in the past. 'Highway 49' smokes. It is the Blues track that Clapton wished he had put on his album."

PAUL PETERSON, KDKB/PHOENIX

"Cover To Cover is preceded by a 4-track CD Pro which gets cookin' right from the start. Healey's pyrotechnics abound and his voice sounds better than ever. He once again proves himself to be a guitar wizard, and a consummate reader of the Blues."

Coming early 1996 . . . a brand new album produced by JOHN JENNINGS

TRIPLE CROWN

Susan Voelz, "Summer Crashing," Pravada

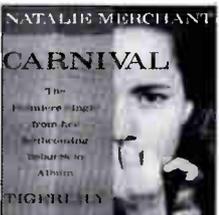

Feel the warm weather upon us? Good, because it's time to go *Summer Crashing* with a very unique musician — Susan Voelz. An accomplished violinist, Susan got her start with Austin's own *Poi Dog Pondering*. Her reputation quickly spread and Susan's services were soon required by John Mellencamp and more recently the Charlie Sexton Sextet as a touring hired gun. In the interim of touring, Susan managed to record two records, *13 Ribs* and her latest Pravada Records release *Summer Crashing*. Very diverse, Susan is either haunting you with her unison violin/vocal lines, soothing you with her melodic, slower, more moody pieces or sometimes rocking with a guitar driven alternative groove. Crash the following: "Taka Looka Round," "3 A.M.," "Happy" and "Mystic River Bridge."

The Memphis Horns, "The Memphis Horns," Telarc

This album is heavy. We mean it weighs a ton! Wayne Jackson, Andrew Love, and an array of some of the biggest heavyweights of blues, funk and R&B, both past and present, make this record even too much for Atlas' shoulders. From a dead stop, this CD goes from zero to full speed in less than a second, and doesn't slow down one bit. Cue up these mofo's: Etta James on "Take Me To The River," the Sam Cooke classic "Somebody Have Mercy," featuring Isaac Hayes on Hammond B-3, William Bell belts out one of his own "Holding On To Love," and "Rumors," a Memphis Horns original done only the way Robert Cray can do it. Turn it up — bring the noise!

SINGLE SPOTLIGHT

Natalie Merchant, "Carnival," Elektra/EEG

Steve Cole KSPN, "'Carnival' is the first exquisite taste of Natalie Merchant's long awaited and eagerly anticipated solo album. In a format inundated with new and used female singer/songwriters, Natalie's voice soars above the competition. 'Carnival' is slightly dark and fascinating, various layers are revealed with each listen. Well worth the wait, can't wait to hear the rest of the album." **Kim Rowe WCLZ**, "Her voice and her music have matured since 10,000 Maniacs. 'Carnival' is such a nice song. When I first listened to it, I thought that it was great, and we added it right away. To be honest, I was never really a big fan of Natalie's in the past, but after hearing this new single, she can definitely count me in her fan club. I'm looking forward to hearing the entire album."

Van Morrison

You can get a sneak preview of Van Morrison's forthcoming single "Days Like This" on the latest Album Network Rock Tune-up CD. This song sees Van going back to his roots and delivering an eminently soulful tune that will leave you begging for the full album, titled *Days Like This* (A&M), which you'll see in mid-June. Plus, any time Van plays sax is an event in my book. Also on the AN CD is a new track from *The Hatters*. If you played "Dig The Ribbit" or anything else from their last album, "The Naked Song" from *You Will Be You* (Atlantic) will hit you just the same. If not, this is your opportunity to get hip to this cool band.

Phish

You may know that I am a huge Phish fan. I think these guys are geniuses, and if you've never seen them live you're really missing out. With their new album *Phish Live* (Elektra), you can get an inkling of their live works. The single is called, "Bouncing Around The Room." It's a song that was on one of their early albums, and a total crowd pleaser at their shows. Notice how the whole audience is singing along throughout. If you've witnessed this, you know that the whole crowd is bouncing up and down as the song is playing. For Phish fans, this is a real treat on the radio, and hopefully it will convert those not on the know.

Wailing Souls

Reggae-meisters Wailing Souls are back with a great track called "Live On." With summer right around the corner, this is the perfect song to ring in the warm weather. The album *Live On* (Zoo) should be coming later in June.

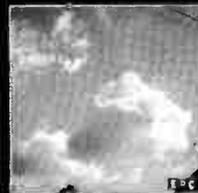

The Verve

You may not be all that familiar with The Verve, but they are one of those critics' darling bands. Their first album gained them many fans, and the forthcoming *A Northern Soul* (Vernon Yard/Virgin) will probably get tons of press. The single "On Your Own," shipped to Modern Rock and Progressive Radio this week, is a mid-tempo ballad that will cross both formats and sound good in either one. Some of the songs on the CD are rough, but there are a few for us to play with beyond the single, including "So It Goes," "History" and "Life's An Ocean."

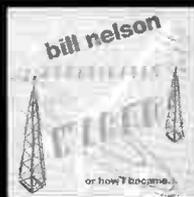

Monkeywalk

Monkeywalk wins the award for best indie release of the week. Their album *More* (Off-Beat Records) is full of great tunes that reminds me of a cross between The Subdudes and Marc Cohn. Bill Ringgenberg's voice is like buttah, and the production is far better than most indie projects. "Panic Temporary" kicks the album off, and will give you an idea of the soulful delights to follow. Other favorites include "Release," "That's Not Love," and "Sneaking Suspicion." Don't let this sleeper of the week pass you by.

Satchel

If you haven't already, check out the last track on Satchel's EDC (Epic) release. The song is called "Suffering," and it is starting to get some attention from the Progressive world, including, including KMTT, KSCA. It is a fine ballad that seems to be reacting well wherever it gets aired.

Bill Nelson

You may remember Bill Nelson from the Channel Light Vessel project he participated in last year with Roger Eno and Kate St. John. Nelson has released a solo album called *Practically Wires* (Gyroscope) that contains some stellar guitar work on many instrumentals. "Spinning Planet" is already receiving some Progressive airplay, and is the standout. With its upbeat tempo and quasi-chart lyrics, it would fit well on most playlists. Other songs of note are "Pink Buddha Blues" and "Every Moment Infinite."

Gene

Remember our "Gene" comment in last week's Constantine Notes? Well, it was reference to the band Gene that seemed to be omnipresent in the trades last week. Their album *Olympian* (Polydor) is getting much attention, and some airplay at both Modern Rock and Progressive. "Sleep Well Tonight" is the lead track, and has beefed-up Morrissey type sound. "I Can't Help Myself" is on the CDPro, but not on the full album. It has a nice lifting quality to it. Also check out the title track "Olympian," a mostly acoustic number.

Dead Hot Workshop

Dead Hot Workshop is the first release from Gary Spivak's new Tag recordings, an imprint of Atlantic. Their debut album *1001* is lead by the track "Vinyl Advice," which sounds like a Hootie track with vocals that have been sped up a bit. It's a good, upbeat pop tune. "Lead Thoughts" is also in the same vein, and "117" is worth checking out. KSCA leads the way on this one with an early add on the single.

Rod Stewart

Rod Stewart's new album *A Spanner In The Works* (Warner Bros.) is some of the best work he's done in years. With the lead single, Tom Petty's "Leave Virginia Alone," already picking up some play, the full CD should bolster Rod's run at the Progressive charts. With songs that are more acoustic and Progressive-friendly than more of his recent material, the album is a welcome reintroduction to an artist that has quite a history in rock music. Chris Rea's "Windy Town" gets things started with a nice reading from Rod, and David Lindley on Bazouki. Other covers Rod does on the album include Dylan's "Sweetheart Like You," Tom Waits' "Hang On St. Christopher," and Sam Cooke's "Soothe Me." Also check out the nice original "Lady Luck."

Batman OST

Val Kilmer, Nicole Kidman, Jim Carrey, and Tommy Lee Jones lead this all-star cast in Tim Burton & Joel Schumacher's epic *Batman Forever*, the third in the Batman movie series, and the first with young hotshot Kilmer as the lead character. Needless to say, this film will be the major blockbuster of the early summer, and the soundtrack will follow suit. With a lineup just as star-studded as the film, the CD on Atlantic features U2, Massive Attack (again with Tracey Thorn from EBTG), The Devlins, Michael Hutchence of INXS, and Mazzy Starr to name but a few.

Susan Werner stopped by the FM 101.9 Music Hall last week and managed to coax a great big pearly white smile out of PD Mike Morrison.

WBOS/Boston Programming Assistant **Mike Mullaney** is moving across town to become the new Music Director at **WLYT**. The station is currently a Rock AC outlet, but we hear that the owners are exploring other format options, including Triple A. Also joining **WLYT** in the PD slot is former **WFNX** staffer **Joanne Doody**. Mike commented on his new position, "I have a great deal of respect and admiration for **Jim Herron**, and obviously, I leave 'BOS with regrets, but this is the right thing for me to do now. I look forward to helping Joanne create something new and exciting at **WLYT**." You can reach Mike and Joanne at **WLYT**, 30 How Street, Haverhill, Mass., 01830. Ph: (508) 374-4733.

WDET/Detroit has elevated **Martin Bandyke** to the Music Director position, and **Chuck Horn** is now the Assistant Music Director.

KFOG/San Francisco's second annual **KFOG Sky Concert** drew an estimated 63,000 fans to Justin Herman Plaza and the surrounding waterfront on May 13, to see the fireworks display and hear the free concert by **Timbuk 3** and **The Freddy Jones Band**. PD **Paul Marszalek** commented, "Everyone involved with Sky Concert has a lot to be proud of — the bands, the fireworks designers, our staff, our sponsors, and volunteers — but we owe our deepest thanks to the Fogheads themselves who came out to the event and had a great time." **KFOG**'s Sky Concert fireworks were choreographed to a custom soundtrack featuring the music of **Elvis Costello**, **Pink Floyd**, **Stevie Ray Vaughan**, **UB40**, **Pretenders**, **Tom Petty**, and the **Rolling Stones**, and was aired on the station, as well.

Constantine Consulting is looking for candidates for upcoming openings at current and future client stations in medium to large markets. **Program Director:** Looking for an experienced Program Director with AC or AOR background. Minimum of three years programming experience. Computer skills a necessity. Other qualities: Strong leadership, and research interpretation and implementation. **Account Executive:** Strong, experienced radio salesperson who can sell an adult, sophisticated, upscale radio station with qualitative numbers. Someone who recognizes the value of the Progressive audience and doesn't sell just by "the numbers." **Air Talent:** Five years minimum on-the-air experience. Communicator. One-to-one style. Creative. Willing to have other responsibilities at the station and be part of the team. Morning Drive slot a possibility. Send resumes and tapes (if applicable) to Constantine Consulting 3788 Orange Lane, Boulder, CO 80304. No calls please.

The Local Beat

Michael Morgan KKRV/Wenatchee

"When the music's over..." That was the last song played on *The River*. As I may have told most of you, new ownership has taken over the station, and they have made a decision to go to a NEW COUNTRY format. If your label has a country desk, please have them call and send music to **Robin Taylor** — she needs your continued support.

HOLD IT!!... A couple of notes before we pass off into the night. Let's start with thank yous. First to **Dave Keefer** — he has done mornings excellently and been a big help in the continuing musical flow of *The River*. Also thanks to **Greg Roberts**, without whom there wouldn't have been *The River*. He taught me the joys of the Triple A format, and deserves all the kudos you can give him. I don't think there's a more innovative or creative person out there. And last but far from least — **YOU!** Without you, and your help, we couldn't have sounded as good as we did. Thank you all!!!

Furthermore — a couple of parting shots. **John Prine**'s *Lost Dogs And Mixed Blessings* generated more phone calls over the past two weeks than anything we've played over the past 18 months!! Coming in second is the parody disc *Stairways To Heaven*, which we played as the final *Nine O'Clock News*. A really fine addition for anyone would be "Holding On To Love" by **William Bell** on the new **Memphis Horns** CD on Telarc. That's it. The end. Condolence calls accepted Monday (June 5th) from 10-2 Pacific at (509) 884-2608. Relatives request no flowers — send new music to deserving AAA stations. Graveside services reserved for immediate family only.

Chris Mays KMTT/Seattle

Hey! Isn't time you cleaned out your office??? Yes, I've been peeking and I know you have closets full of moldy T-shirts and old posters, so hey — why don't you put 'em all in a big box and send them to us at KMTT???

See, we're doing this "Passport To Rock" promotion for the month of June that features concert trips to exotic locales, and part of the promotion is weekly parties where we need stuff to giveaway. So, our plan is to buy some suitcases and fill them with various rock and roll memorabilia for the grand prize at each party.

Do you have some stuff we can use? Please send it to us right away, and reap the benefits of a cleaner closet and more office space. KMTT-AM/FM, 1100 Olive Way, Suite 1650, Seattle, WA. 98101-1827.

KMTT PD **Chris Mays** (left), and A&M VP/Promotion **JB Brenner** hang with **Jann Arden** after he performance at the Troubadour in Seattle. Arden, who took home Juno awards for Songwriter Of The Year, Female Vocalist Of The Year, and Single Of The Year (for "Could I Be Your Girl"), has just launched a nationwide tour.

Blues Breakers

blues review

Sugar Blue

In Your Eyes

Alligator

Bruce Bjorkman, KBZY/ Salem, Oregon

If there's any question about the acceptance of diversity in America, one only needs to listen to the latest release on Alligator, Sugar Blue's *In Your Eyes*. The frenetic chromatic harp playing and impassioned vocals are all there, as Blue, (aka **David Whiting**) takes us on another romp through an emerging genre of urban blues. The release starts out of the blocks like a well-

honed and muscled Olympic sprinter with "Gucci Gucci Man." Pure Blue all the way. It's one of two social commentary songs on the release that showcase Blue's ability to pen a thoughtful and well-crafted song, devoid of the hackneyed blues lyrics that other writers get stuck on. Alligator seems to have a knack at finding artists (such as **Michael Hill's** *Blues Mob*) who lean towards urban blues. For blues radio programmers the first of two stand-out cuts on this release are the Blue/**Pinetop Perkins** collaboration titled "Bluepine." This tune shows that Whiting can get traditional blues down and still put a unique, fresh spin on the melody lines without destroying the original intent of the song. My only wish here is that Pinetop Perkins would have been given more solo time on the cut. The second number that should please blues programmers is Blue's rendition of the **Willie Dixon** classic, "Little Red Rooster." In my ears, this is the standout blues cut of the release. It's here that Whiting finally rids himself of any restraints and gets down. For a harder edge, play "Whirlwind" and "She," with fuzz lead guitar riffs reminiscent of Deep Purple's "Machine Head." Both of these tunes rock! It's always hard to come back from a highly acclaimed initial release and try and top it. I feel this is the case here with *In Your Eyes*. While the release has some very good moments, it does fall slightly short of *Blue Blazes* in its overall "blow your socks off" level of artistry. For Blue's next release, I'd like to hear a couple of things. For one, record him live where we can hear him play in a completely unrestrained manner. And also he should lean more heavily on purely blues material.

METAL Pick

Crowbar, Time Heals Nothing (Pavement)

When it comes to heavy, it's tough to beat **Crowbar**. Not exactly a small band in size - they are a formidable sight to behold on stage - they grind out rhythms that hammer your brain into a pulp, much to the pleasure of their punished fans. Their self titled Pavement debut (produced by Phil Anselmo) went a long way to establish them

as a force to be reckoned with as worldwide sales are up over 100,000 units. A big part of that success was the constant touring with bands like Sacred Reich, Souls at Zero, and especially with their mentor, Anselmo and Pantera on a sold out national trek. Now that they are set to unleash *Time Heals Nothing* onto the metal radio airwaves, we found that many of you just couldn't wait for this week, with early spins showing up at WDCR, WKNH, WRFL, KMSA, KZAK, WKLL, WZMB, WDBM, and WWSP, where **Crowbar** is already pulling in top requests. True to form, this is not a release for the lighthearted, packed with clubbing riff heavy rhythms such as on the opening "The Only Factor", which is backed up by the pummeling percussion that propels it into motion. Other highlights include the haunting dirge of the title track and the arrangements found in "Lack of Tolerance", with overwhelming breaks - populated with great drum fills and churning riffs - that build the momentum as it progresses. This may seem out of character, but on the compelling "Still I Reach" the intriguing element is the ensnaring and writhing melody line. Don't be mistaken though, the hearty vocals of **Kirk Windstein** will still plant a fist in your gut. Expect to see **Crowbar** continuing their track record on the road, with them heading out this summer as part of the Noizefest package alongside Pro-Pain, Testament and Overdose, which promises to be the most punishing line-up out this season. While they are out to prove that *Time Heals Nothing*, a dose of **Crowbar** on the airwaves will be the remedy for any soft side that your show may offer.

TOP Picks

Catherine Wheel, Happy Days (fontana/Mercury)

You harder edged rockers out there seem to be appreciating the extra mettle that these British boys have added to their latest offering. Judging by the initial reaction from a variety of formats not only is Happy Days the title of their latest but also an indication of things to come! Climbing up to #18 on the Hard Hitters chart based on "Waydown" airplay alone, it looks promising for this ascension to continue with more songs to choose from. They have been known in the past for their smooth, fluent playing style, and there are plenty of examples of this entrancing sound, but we think that many of you will prefer some of the more rugged choices. "God Inside My Head" opens things up with a tortured performance - note the occasional hints of Reznor anxiety - laden with a heated, maniacal counterpoint of slashing instruments. The punk energy and innuendo of "Little Muscle" is raucous enough to create a stir on a harder show, and the indignant attitude of "My Exhibition", with its fairly ripping little guitar solo, is a sonic assault that many stations will find hard to resist. As you can hear from the songs, and see from the airplay, they are not just for alternative anymore. Now that you are armed with a variety of kinetic tunes, get behind the 'Wheel and drive into some Happy Days.

Overkill, Wrecking Your Neck - Live (CMC International)

This two CD thank you to the loyal fans of **Overkill** will not only be a special addition to the record collection, but also a popular supplement on your radio shows marking the ten years of music that the band has provided already. The metallic sampler that arrived earlier has landed with an enthusiastic response from radio - already up to #32 on the charts with ebullient comments from programmers like Dave Ciancio of WDBM who says, "How can you turn down the 'Kill?'" and Mike Melbye of KIBZ who exclaims, "It's Overkill and that's enough. It f*cking rules!" Many live compilations don't quite meet their expectations with selections that don't usually quite represent the true vibe of the artist, but Wrecking Your Neck is the exception with cuts from all aspects of their career including early songs like "Wrecking Crew", "Powersurge", and "Fuck You" (a song not quite ready for on air play). The exciting aspect of the production is the intensity captured on the recording, providing some of the spark that a fan can find in their shows - not the canned sound of redone studio cuts dubbed over the audience track. Bring out the neckbrace, for this package from **Overkill** will put you right in the front row.

Various Artists, Johnny Mnemonic Soundtrack (Columbia)

Now that the space age sci-fi thriller Johnny Mnemonic has hit the big screen, it's time to put the accompanying soundtrack on the airwaves. Offered up is an assortment of industrial strength tunes from some of the finer bands found on the heavier side of things. Samples, special effects, reverb and distortion are common elements of what has been handed out, with commanding tracks from **Helmet**, **KMFDM**, **Stabbing Westward** and the **Rollins Band** ideal for metal radio. If you are

looking to experiment a little, cue up the upbeat and catchy, sound effect filled "No More Love" from **God Lives Underwater** or "3 A.M. Incident" from **Cop Shoot Cop**, with it's torrential bass and percussive sounds. **DMX** and **WKLL** have already paved the way by adding **Helmet's** "Complete", while **KEYJ**, **KNDI**, **WEOS**, **WGLS**, **WKLL**, **WKNC**, **WKNH**, **WSGR**, **WSOU**, **WXZR**, and **WZMB** decided to add the full length album to pick and choose at will. From the early response, the soundtrack just might have a bigger impact than the big budget flick. Check it out.

Silverchair, "Tomorrow" (Epic)

This Aussie trio have been living on cloud nine for the past year, starting when they entered a demo competition that they not only won, but then saw the song - "Tomorrow" - work its way onto radio playlists and end up as a #1 song in the country without even releasing an album! Anyone who has toiled the musical circuits will realize the improbability of hitting #1 in their hometown without a deal, much less nationally. Once their EP was finally released, the sales pushed the

album platinum in a week. This Cinderella story is hoping to enjoy a bit of that success in the U.S. as well, and now radio will be looking for some of that magic pixie dust that **Silverchair** seems to have a stash of. The song in question is an unpretentious, mid tempo rocker with a guitar sound that switches from an almost southern rock tone to a fuzzed out modern edginess and loads of charm. Attempting to become the biggest import from Australia since Foster's, **Crocodile Dundee**, and **AC/DC** there is no need to delay, because "Tomorrow" has arrived today!

Big Audio Dynamite, "I Turned Out a Punk," Radioactive/MCA

In the history books, *The Clash* represent what is currently believed to be a fixture in the early heritage of British punk. Certainly Mick Jones can speak up loud and clear on the fashionable trend in today's Alternative world to belly up to the punk bar, something he most eloquently did in the June issue of *Musician Magazine*. While Mick walks us through the early Clash days, he freely comments on the state of affairs today, commenting that "if you're just getting it now, that's good, too." The track has that famously apathetic punk vocal style that goes along with a basic rock-tempoed instrument assault. **KJEE** adds it, and **KUKQ (26-28)**, **WBCN (11-14)** and **WMMS (15-18)** jack up the spin count. Big Audio Dynamite (they've re-attached the D-word) bring with them the historical accuracy of Jones and his influence to light amongst the newcomers. The story is totally relevant to the recent converts as well as the older subverts. "I Turned Out A Punk" is the anthem for those who get it.

Big Sugar, "Ride Like Hell," Silvertone

With a rock guitar presence that is unrivaled in terms of its stylistic elements and overall prowess, Big Sugar's "Ride Like Hell" is a precursor for big things to come. No Saccharin here. Classic underpinnings make this one stand out this week, but the forward momentum of the overall artist picture propels this project into uncharted waters. What the accompanying video displays is a retro cool and star-power image that reinvestigates past glories of American pop culture from the distance that only a rambunctious Canadian bar-brawling rock band could have. We've seen the big picture. You'll be seeing plenty of Big Sugar.

The Verve, "On Your Own," Vernon Yard/Virgin

One of the most compelling new releases of late is this one from The Verve. The lead-off hitter from this distinguished British ensemble is a subtle foreshadow of forthcoming madness from *A Northern Soul*. Power and vivacity lie under the surface with acoustic guitars and hypnotic vocal melody. This haunting texture plays well into the lyric's wry acknowledgement of our efforts to seek answers to the big questions. "On Your Own" echoes old U2, rides out with homage to "Emotional Rescue," and will make an elegant tempo downshift that can set up anything you've got to follow it up — music, promo or a back-announcing air talent. And it's already on at **DMX**, **KMYZ** and **WBCN**, courtesy of adds this week.

Alanis Morissette, "You Oughta Know," Maverick

From the first listen to the advance cassette, we've come to love and understand the lack of love and understanding caught red-handed in this smokin' debut from Ms. Morissette. Not many of us haven't been there. What is strikingly apparent is that while the streak of rage seems to come Fed-Ex from her own personal hell, it carries extra punch in the healing department — an Etheridge-like catharsis. The rock vocal is perfectly convincing, the music track subsequently energetic and passionate, adding up to a whole greater than the sum of its parts. With over 30 stations already on this one before the box including **LIVE 105 (27), KOME (35), KROQ (17), KXRR (31)** and **Q101(23)**, the cat's fully outta the bag this week.

Beastie Boys, "Root Down," Grand Royal/Capitol

One of the furiously fast seat-sellers out on the road this spring, the Beasties bring funk to the dial with "Root Down" in the rap/rock delivery mode we've all seen react at Alternative. Go for the clean version if you're worried about the "Seven Words" thing. But go for the fusion of forms, as "Root Down" is an elixir to the stale sound of disappointed Alternative loyalists who muse about the good days when there wasn't so much pressure to sell, sell, sell. The tricky thing is that sales for The Beasties will be out da window. So you'll grab those seeking edge, and cater to the kids. Not many rap artists fly in this climate. The Beastie Boys will. And already are at **CIMX, KXRR, KTCL, WBRU, KPOI, LIVE 105, KUKQ** and **WHTG**.

Timbuk 3, "Just Wanna Funk With Your Mind," High Street

This track from *A Hundred Lovers* comes fresh from Remixland, where the revitalizing touches of Consolidated's Mark Pistel brew a tremendously funky fix of Alternative savvy and wit, tantalizing musical textures. With five options from the CD-pro, you can pick your best mix. #1 is the original version, #2 is a better segue for Eurodance, #3 holds more rock sensibility with psychedelic ear candy, #4 plays longer and also plays industrial, and #5 blanks out the "Funk", creating more controversy. Either way, you've got the goods to stir up the hit pot in your favor. Because it sure sounds like one. Rock guitar weaves in and around the curvy body of the original, keeping it well within range for all of the format's possible incarnations of sound. Could very well be a monster hit.

Silverchair, "Tomorrow," Epic

One of the bastions of hipness that Australians cling to is their megawatt national Alternative radio station 2JJJ-FM (locals call it "Triple J"). And after winning a national demo contest, Silverchair's prize was a day in Triple J's recording studio. They recut "Tomorrow," and handed over the finished goods to the station. The song was added to the playlist, and bumped up to heavy soon thereafter, following overwhelmingly positive listener response. Six months later, "Tomorrow" was #1 in Australia. **91X** adds it this week, and **KNDO** shifts gears (**22-28**). **99X, Q101, CIMX** and **KDJK** are also on it. After two or three listens, you'll want to roll this one on your megawatt hipster airwave. Somethin' about a stonecarved rock hook, and the buzz and jangle of rock guitar verité. And a double platinum sales story down under.

Rembrandts, "I'll Be There," EastWest/EEG

This cut #15 from the most recent record has been buzzing since the label first released the full-length. It's one of those not listed on the cover art, but it has quickly become a player in music meetings. Called a "no-brainer hit" by many on the panel, the song first gained exposure from the T.V. show "Friends" on NBC, and has now become a monster in its own right. The uptempo beat, chugging rock guitars and picture-perfect pop chorus make this one unforgettable. **KOME, KROQ, WMMS, WPFM** and **WUNX** add it this week. **WHFS, WENZ, 99X, WAQZ** and **KACV** are already on.

Natalie Merchant, "Carnival," Elektra/EEG

The acceptance of Merchant without the Maniacs has gotten without a hitch, as she runs #2 Most Added this week with this compelling debut. A performer who has logged many impressions over the years with one of the format's staples, Merchant really comes into another voice on this record. It's as if she was held back in some way. The seasoned edge in her delivery suggests a real excitement with the new surroundings. If Natalie Merchant was a major figure while with the Maniacs, she is destined for superstardom on her own. Not many artists make the split from successful bands and win. Bet the farm on this one to pass through to a new level. The vocal production is so together it's silly. Strong, and #2 Most Added this week.

Paul Weller, "The Changingman," Go! Disc/London

The creative genius behind early British rock trio The Jam, and founder of The Style Council takes another turn with "The Changingman." Where The Jam scored was in the no-frills rock department. The Style Council featured more production, dancier tunes and slick British presentation. This lead-off track from *Stanley Road* modestly fuses both approaches. With guitar reminiscent of White Album-era Beatles, and a vocal style that Greg Allman might dig, Weller unveils a subtly amusing anecdotal anthem to the idea that the more things change, the more they stay the same. "The Changingman" will fly around the clock, too.

Tripping Daisy, "I Got A Girl," Island

The intro verses sound like something sung by a band of fraternity guys at a basement party. Hey, that style worked for Offspring, didn't it? And once the chorus kicks in, the deal is expanded in appeal, but not withdrawn from that lead. If you're playing to summer college populations, this track seems like a must-play to us. And don't forget about the student homecomings that occur in major markets for the summer, as well. It's that essence of Alternative youthfulness that makes this track work. Certainly, there's a musicianship that belies amateur status here. But not more than the slackers in your audience can handle with their own guitars and amps in their own basements.

the three day weekend is over. Now to the other three day weekend. At least for us on the other coast. With all these damn parties, how does anyone do any work? It's a great country we live in... Congratulations to *Addicted To Noise* publisher **Michael Goldberg**, who was named "Music Journalist of the Year" at the Music Journalism Awards & Conference's awards ceremony last week. Goldberg founded *Addicted To Noise*, a rock and roll magazine rocking the Internet, in December of 1994. Prior to that he was a staff editor and writer at *Rolling Stone* for a decade. Find the buzzin' mag at <http://www.addict.com/ATN/>. They're also celebrating their six-month anniversary by providing a special June issue featuring a 6000 word piece by **Dave Marsh** on the late **Kurt Cobain**, a rare interview with **Fugazi**, the Offspring, as interviewed by **Joey Ramone**, and an in-depth **Primus** interview... Keep a lookout for the new **Juliana Hatfield** single "What A Life," which is a great follow-up. Also in the happenin' league this week is a band called **Skirt**, with **Cave** on Phisst Records, and a Touch and Go release from a band called **Seam**... Watch out for **Blue Mountain**, a Roadrunner band that plays AAA. They're out with **Wilco** now, and the record is cool. Also, EMI has got a new **Jeffrey Gaines** record coming, and the advance listen of mine has yielded strong hopes for that one, for sure... Rhino has released a box set called *The American Comedy Store*, featuring bits from heavyweights like **Steve Martin**, **Robert**

Klein, **Steven Wright** and others. A sampler hit your desks this past week, and with proper avoidance of those illegal words that are pointed out on the enclosed one-sheet the sampler will make for some bits for air. Try the Steven Wright, the Tom Lehrer, and the classic Cheech & Chong bit. Or the Joan Rivers bit into **Oasis** "Rock and Roll Star"... New Rock 107.5 The Buzz, **KTBZ/Houston** has just released the entire lineup for the June 4th Buzz Festival. They will feature local bands **The Jinkies**, **Lima Sugar**, **Crazy Killed Mingus**, **Pushmonkey**, **Shed and Prick**. The main stage will feature **Phunk Junkeez**, **P.O.L.**, **Face to Face**, **Maid of Gravity**, **The Nixons**, **Ned's Atomic Dustbin**, **No Use For A Name**, **Our Lady Peace**, **Matthew Sweet** and **Bush**... Thanks goes to Capricorn Records for the plastic fold-out NYC map of "Real Down Town." I won't be able to get Real Lost anymore coming out of the Holland Tunnel... **Macintosh's New York Music Festival** is accepting registrants now for the July 17-22 bandfest-orama. No "How to Market Your Own Record" panels. No panels of presumptuous college radio managers lying about their criteria for choosing bands for air. Just music. 15 clubs, 350 bands. Call them at 212-343-9290 for more information. The registration fee is \$60... Keep touch with your Columbia rep. to try to get a copy of the *Columbia Radio Hour* featuring **Jeff Buckley**. They recorded Sunday's show at WNEW, and will make it available for play. According to sources at the

management level, the crowd at the taping was largely made up of fans from the fan club roster, so the response must be amazing. And at press time, it was speculated that he would do some unreleased music, as well. Buckley also did an exclusive broadcast with WBCN for the Boston market on 5/30, an acoustic show from the Mama Kin Music Hall. 'BCN supplied listeners tickets through on-air giveaway only - none were sold... **WEQX** is giving away front row tickets to the sold-out **REM** show in Albany by a food drive drawing. People who come by the Crossgates Mall at select times through the 6/16-18 weekend with non-perishable food items and/or donations to the Regional Food Bank of Northeastern New York will be eligible to fill out an entry for the front row tickets. The giveaway will be on 6/19, the day before the show, on Maria Chambers' morning show... **MOVES** Some changes already this week. **WROX/Norfolk** loses **MD Sara Trexler** and **APD LA Lloyd Hocutt**, as they exit the building. **PD Chris Corley** is looking for a middayer/MD immediately. T&R's to WROX, 999 Waterside Dr. Suite 500, Norfolk, VA 23510... **WKRO/Daytona Beach** has changed its music call hours. They will be Tuesdays from 2-4 p.m., and 4p-6p on Thursdays at 904-345-0075... **Jonathan Daniel** has been appointed Manager of Fiction Songs in New York. He was formerly with Sony Music. He can be reached at 212-930-4910... **SMITS HAPPENS**.

Jimmy Page was detained but not arrested after locking himself in the bathroom and lighting up a cigarette on a flight from San Francisco to Portland. When the smoke detector went off, the crew of United Flight 2032 notified authorities who waited for Page as he got off the plane. Police say Page was visibly intoxicated and tried to goad the police into arresting him. He said he realized smoking was not allowed. The Federal Aviation Administration could fine Page up to \$1,000 for the incident.

Hootie & The Blowfish begin a North American tour June 14 in Salem, Virginia, in support of their chart-topping "Cracked Rear View" album which is now triple platinum. The summer-long headlining tour continues through September 2 in Atlanta.

All 11,000 tickets for a June 17 concert at the Jones Beach Amphitheatre in Wantagh, New York, sold out in an hour, and a second show was added. **Dillon Fence** will open for Hootie during the first half of the tour.

The **Rolling Stones** have been asked to perform the theme song to the new James Bond film "Goldeneye," which comes out in December. British bands **Take That** and **Wet Wet Wet** have been rumored to be contenders for the chance to do the song. A publicist for the film confirms that "the Rolling Stones have been approached but nothing has been decided yet."

Kirk Pengilly of **INXS** and his wife, singer **Deni Hines**, have announced they're splitting up after only 17 months of marriage. "Deni's recent commitment to the touring production of 'Jesus Christ Superstar' and now her recording obligations in the UK, combined with Kirk's long term commitment to INXS, have seen the couple living separately for most of the past 12 months," says a spokeswoman for the couple. She added that the "tyranny of distance...has taken its toll on the relationship," but added the two remain very close friends and announced their decision "with considerable regret."

The **Rolling Stones** played a surprise concert in Amsterdam, the Netherlands, in advance of the June 3 start of their European tour in Stockholm, Sweden. The show took place at the Paradise, a church that has been converted into a nightclub. Dutch radio stations announced that 600 tickets would be sold for about \$15 each and the show sold out in 15 minutes. The show was recorded for a live album slated for release this fall and videotaped for a television special. There were also plans to broadcast the concert on a big screen on Museum Plain in the center of Amsterdam.

Screaming Lord Sutch, who released two albums in the early 1970s that featured **Jimmy Page**, **Nicky Hopkins** and **Jeff Beck**, may have to declare bankruptcy because of a \$300,000 debt. Sutch has also been a perennial British political candidate since he founded the Monster Raving Loony Party and ran for a local office in Stratford-on-Avon in 1963. He's since lost 36 elections with the slogan "Vote for insanity — you know it makes sense." As recently as last month, Sutch finished fifth in an election in Scotland. Sutch says he's distressed about the bankruptcy possibility. "Standing for parliament is my life," he says. "It's my hobby. It's my way of bringing a bit of sunshine into people's lives." Sutch still plays out with a rock band called the **Savages**.

James Brown's wife has been released from an Aiken, South Carolina, hospital after reportedly overdosing on prescription medication. Adrienne Brown was discharged almost two weeks after she entered Aiken Regional Medical Centers. The Browns wouldn't comment on the reason for her hospitalization.

James Michael Murphy, lead singer of early 1970s band **Zachariah**, has died of smoke inhalation in a fire at his home in Ashland, Kentucky. Murphy, who was 42, was found dead by firefighters on the floor of his kitchen. Authorities believe a burning cigarette caused a living room couch to ignite. Murphy was also the author of a song on **Billy Ray Cyrus'** debut album called "I Never Ever Thought That I Would Fall In Love With You."

Keyboardist **Benmont Tench** of **Tom Petty & The Heartbreakers** has a country music hit right now. He's written "Stay Forever" with singer **Hal Ketchum**. He's also credited with **Carlene Carter's** "Unbreakable Heart." Tench isn't the only member of the Heartbreakers to have country success. Former drummer **Stan Lynch** has been writing songs with **Raul Malo** of the **Mavericks** and **Kevin Montgomery**.

Elton John plays a concert June 3 at the French Disneyland to help celebrate the opening of a new "Space Mountain" attraction.

Matt Johnson of **The The** says people in England don't quite understand why he recorded an album of songs by country singer **Hank Williams**. "People didn't get it, so they didn't receive it so well," he says. "They thought Hank Williams was just this bloke who wrote happy tunes and I've gone and made them all dark. It was journalists who probably never heard Hank Williams, to be honest, didn't understand his life and the sadness in his life. In Europe, he's a cult figure and in America, he's a cultural icon. It's a completely different thing."

Australian slide guitarist **Dave Hole** releases a new album later this month (on Alligator Records) called "Steel On Steel." He's planning a U.S. tour when the album is released that will include clubs and major blues festivals across the country. The new LP is produced by Jim Gaines, who's worked with **ZZ Top**, **Stevie Ray Vaughan** and **Albert Collins**.

A 19-track album called "Strictly Commercial: The Best of **Frank Zappa**" comes out in August. The LP includes "Don't Eat The Yellow Snow," "Dancin' Fool," "Cosmik Debris," "Valley Girl," and "Peaches En Regalia."

Mick Ralphs says **Bad Company** didn't try to break any new ground with its current album "Company Of Strangers." "There are certain parameters that Bad Company has and we work within that framework," Ralphs says. "We're very fortunate to have a style and a sound that's recognizable. When people hear the new record, they say, 'Oh, that sounds like Bad Company.' That makes me feel so good, because that's all I want them, really, to say."

Ticketmaster has reportedly closed 22 of its ticket outlets in New York, Connecticut and New Jersey. The New York Times reports that the ticket distribution company shut down outlets that were giving the best seats to scalpers or employees' friends. A spokesman for the company would not confirm the report but said any "violations account for just a small portion of the more than 50 million tickets that Ticketmaster distributes every year." One of the outlets, Video 237 in Island Park, New York, has obtained a court order from a Nassau County Court allowing it to reopen. It has filed a lawsuit against Ticketmaster seeking \$25 million in damages for the five weeks it could not sell tickets.

An exhibition of 55 portraits by celebrity photographer **Raeanne Rubenstein** has gone on display in the Country Music Hall of Fame in Nashville. The photos include **Minnie Pearl**, **Janis Joplin**, **Loretta Lynn** and **John Lennon**.

Ted Nugent has a spot on the Hollywood Rock Walk of Fame, but his putting his hands in wet cement wasn't without protestors. Two women ran past the crowd at the ceremony carrying a banner saying "Ted Nugent Equals Violence on the Walk of Fame." Another man in the crowd shouted "Killer!" "It's important that the weenies object," Nugent said. "That proves I'm not one!"

The National Academy of Recording Arts & Sciences will hold the 1996 Grammy Awards in Los Angeles. The 30th annual awards will be held next year at the Shrine Auditorium, as they were this year. The awards were in New York City in 1994.

Gary Rossington, **Leon Wilkeson** and **Billy Powell** of **Lynyrd Skynyrd** attended a ceremony in California where the band was inducted into the Hollywood Rockwalk.

The **Beach Boys**, **Ringo Starr** and **REO Speedwagon** will play at a two-day "Jam Against Hunger" concert in Bloomington, Minnesota, July 3 and 4. It's hoped that the event will raise at least \$100,000 for five hunger organization, including the Minnesota Foodbank network and Minnesota Food Share.

A Newport Rhythm & Blues Festival will take place for the first time this year, at Fort Adams State Park in Newport, Rhode Island. The July 29 event will complement the long-running jazz festival which takes place the two following weekends in August. **Charles Brown**, **Ruth Brown**, **Bonnie Raitt**, **Steve Cropper**, **Solomon Burke**, **Sam Moore**, **Clarence Carter**, **Allen Toussaint & His Orchestra**, **Ima Thomas**, **Narada Michael Walden** and **Clarence Fountain & The Blind Boys of Alabama** are slated to appear. The event is a benefit for the Rhythm & Blues Foundation, which has provided financial and medical assistance for artists from the 1940s, '50s and '60s.

Bad Religion are opening for **Pearl Jam** on their North American summer tour which begins in Casper, Wyoming, on June 16.

Former **Abba** member **Benny Andersson** has donated four watercolors valued at \$229,000 to the Swedish National Art Museum. The works by Swedish artist Elsa Beskow date from 1903. "Don't call me a hero or a philanthropist," Andersson said in the daily "Expressen" newspaper. "The works must not disappear and everyone should have a chance to see them." Andersson had bought the works anonymously at a Stockholm auction. They depict four well-known children's songs by Swedish composer Alice Tegner.

Paul McCartney will become the last surviving member of the **Beatles** to appear on "The Simpsons," as he and his wife Linda feature in an episode about Lisa deciding to become a vegetarian. Linda McCartney says the guest spot allows her "to spread the vegetarian word to a wider audience." **Ringo Starr** lent his voice to the animated program in 1991 as **George Harrison** did in 1993.

REM have a new long-form video out called "Parallel," which features 11 tracks. Alternate versions of the release will include a censored or uncensored version of the "Nightswimming" video clip.

A 1961 reel-to-reel recording of 17-year-olds **Mick Jagger** and **Keith Richards** performing 12 songs at home sold for almost \$80,000 at a London auction. The 34-minute tape, believed to also feature guitarist **Dick Taylor** of the **Pretty Things**, was found in a cupboard by a friend who went to school with Jagger in Dartford, in southeast London. It includes versions of **Chuck Berry's** "Little Queenie" and "Around And Around" and **Ritchie Valens' "La Bamba."** An anonymous telephone bidder purchased the tape by the group, similar to the one that led **Alexis Korner** to invite Jagger and Richards to play at his club as **Little Boy Blue & The Blue Boys.** The tape's new owner can't release it for sale without the band's permission. At the same auction, a suede jacket owned by **John Lennon** sold just under \$32,000 and the shoes South African president Nelson Mandela wore when he was released from prison sold for almost \$7,000. But the auction didn't feature just big-ticket items. It was also possible to buy a Christmas card signed by manager **Brian Epstein** or a "Penny Lane" Liverpool street sign.

Ringo Starr says "Free As A Bird" "really sounds like a Beatle track. The new song will be released as part of a **Beatles** documentary airing later this year. Starr says the Beatles "could have made this in 1967" but adds it was difficult to listen to Lennon's voice on the partially-completed tape. "It was pretty emotional," he says. "We had to feel that he's gone for a cup of tea, that he's gone on holiday, but he's still there. That was the only way I could get through it."

Boy George has been busy in Britain promoting a new rock-oriented album and a new autobiography called "Take It Like A Man." The book describes how he quit drugs after two friends overdosed. George writes in capital letters in the book that "I HATE DRUGS, DRUGS ARE A CON." George says he's now living with Irishman Michael Dunne. "We have a mother-son relationship with a bit of incest thrown in," he says. The book also talks about other personalities saying that "**Madonna** is a gay man trapped in a woman's body."

Paul Simon is holding a competition at a New York City theater to find a teenage cap-pella group to perform in the Broadway show "The Capeman" that he's writing. The three winners will divide a \$10,000 prize and might be invited to perform when the show opens in fall 1996.

Elvis Presley fans who tour Graceland will soon be able to listen to a recorded guided tour that features interview segments with Presley and his former wife, Priscilla Presley, the president of Elvis Presley Enterprises.

"Adios Amigos," the title of the **Ramones** album coming out later this month, may signify the end of the band. "This may be th last album," says **Joey Ramone**, who's now 43 years old. "We could go on forever, but you want to go out great. You want people to remember you were a great band, not that you were has-beens or something." Ramone says declining record sales and a lack of recognition has taken its toll. "Maybe if we got the kind of radio play that **Green Day** and **Nirvana** and whoever else get, or if we got MTV play and asked to do Lollapalooza and things like that, we'd feel a little differently about sticking around a little longer. Don't get me wrong. I'm only too happy for bands like Green Day and the **Offspring** and **Hole** and **Soundgarden.** I think they're great bands, and I'm happy punk rock has finally taken hold in the United States, 20 years later." Ramone says that if the group splits after this record, he'll record a solo album and possibly open a nightclub in New York. The future of the Ramones will be decided based on the success of "Adios Amigos," he says. "If it turns out to be a big album for us, who knows what we'll do."

Rod Stewart says he's been drinking rum and Coke before and during his shows to help preserve his raspy voice, even though a voice coach warned him about drinking in 1985. "So many people don't drink or do anything now. They've all dried out; it's all carrot juice. I can't have that," Stewart says. "On the last British tour, I was in such bad health — and I still kept drinking. It was like beating your head against a brick wall. But I started to cut down 10 years ago getting off the port and brandies because I had a vocal coach who said 'You're just ruining your voice.' But I've found a new drink now, rum and Coke. If I have a rum and Coke before I go on and a couple half way through the show, it doesn't have any effect at all."

Seven songs by **Sting** are featured on the soundtrack to a new IMAX film called "The Living Sea" that centers on the world's oceans. The film just opened at the Liberty Science Center in northern New Jersey.

John Goodman and **Jim Belushi** have agreed to co-star with **Dan Aykroyd** in the sequel to "The Blues Brothers," which John Landis will direct. But the fate of the movie is up in the air because of a change in ownership of the parent company of the film studio. "We just have to wait for the dust to settle at Universal," Landis says. If the studio doesn't come up with the money for "The Blues Brothers 2000," Aykroyd says he'll raise it himself.

A series of television ads has been launched urging parents to call Time Warner and complain about offensive rap music. The 30-second announcements feature a toll-free telephone number for people to get a brochure from Empower America on the subject. The effort is backed by Empower America chairman William Bennett and C. Delores Tucker, head of the National Political Congress of Black Women. "Time Warner promotes music that celebrates the rape, torture and murder of women," Tucker says. The group has specifically criticized **2Pac Shakur**, **Snoop Doggy Dogg** and **Nine Inch Nails.**

Laura Branigan has a new compilation album called "The Best Of Branigan" (on Atlantic Records) which features two newly-recorded songs — **Maria McKee's** "Show Me Heaven" and **Donna Summer's** "Dim All The Lights."

Flavor Flav of **Public Enemy** has been sentenced to three months in jail for firing a gun at a neighbor in his apartment building. Flav, whose real name is William Drayton, was also placed on three years' probation and ordered to enter a drug treatment program. He had originally been charged with attempted murder because of the November 1993 incident. The charge was reduced to the misdemeanor crime of weapon possession. He could have been given a one-year jail term.

The Metropolitan Museum in New York City says it's decided not to host the interview with **Michael Jackson** and his wife on the ABC-TV program "PrimeTime Live." The museum says it "will not serve as the location," apparently because it wants to avoid a media circus.

Tone Loc had to be taken to the hospital in the middle of an NBA game between the Los Angeles Lakers and the San Antonio Spurs. Loc, whose real name is Anthony T. Smith, went home a few hours later, and the nature of his illness wasn't disclosed.

Madonna says people are finally realizing the strength of her ability to write music. "I think people are starting to think of me as a songwriter as a result of this record," she says of the "Bedtime Stories" album. "People are listening to these songs and reflecting over the last 12 years and saying, 'You know what? She's a good songwriter.'"

Authorities say they probably won't charge the private security guard who shot a man who scaled a wall at **Madonna's** Hollywood Hills, California, mansion. Police say 37-year-old Robert Dewey Hoskins scaled an 8-foot fence and came within 40 feet of the house, which was used by mobster Bugsy Siegel as a gambling den. Hoskins was injured during a struggle with the guard. Police say Hoskins has previously threatened Madonna. He was booked for investigation of making terroristic threats and stalking her. Madonna wasn't home when the incident took place.

John Denver played "Country Roads" at a National Memorial Day Concert to salute veterans in Washington, D.C. Denver, the son of an Air Force veteran, also sang "Back Home Again" and "Annie's Song."

Oasis, Paul Weller, The Stone Roses, The Boo Radleys, Portishead and Shampoo are amongst artists who have been nominated for the fourth annual Mercury Music Prize. The award seeks to honour the best British album of the year regardless of genre. **Primal Scream**, **Suede** and **The M People** were the first three winners of the prize... **Black Grape's** debut single "Reverend Black Grape" is released this week via Radioactive. The debut single from former **Happy Monday** **Shaun Ryder's** new band has already attracted controversy because of its lyrics and promotional video. In the song, Ryder sings: "Old Pope he got the Nazis to clean up their masses/In exchange for gold and paintings he gave them new addresses." The lyrics are a reference to allegations the Catholic church aided Nazis during the war. A spokesperson for the Catholic church in the UK commented: "I don't think the church would waste its energies on this. I'm sure these people are great artists who sincerely believe this. But an attack of this nature isn't taken very seriously." The accompanying video, which shows Shaun Ryder and Black Grape's rapper **Kermit** dressed as priests, has been banned in the ITV network's 'The Chart Show.' Producers say the show goes out too early in the day for such material... Glastonbury Festival organizers are having massive problems with a black market in tickets to the event, which is now sold out. While tickets went on sale for just over 60 pounds sterling, some agencies are now charging as much as 150 pounds... **Pulp's** growing popularity in the UK was confirmed last week when their new single "Common People" (Island) went straight into the national charts at number two. The band are currently recording a new album for October release and will tour the UK in the same month... **Marion** have sacked bassist **Julian Phillips**. The highly-rated alternative band, tipped by many for a UK breakthrough this year, say the split was amicable. His replacement is 21-year-old **Nick Gilbert**. The band's manager is **Joe Moss**, who formerly managed **The Smiths**. Moss sold his clothing company to manage the band. Speaking to **Vox**, Moss commented: "It's really exciting and I don't find a lot of music exciting any more. **Elastica** are good but the delivery is very one-pace, whereas **Jaime (Harding, Marion frontman)** just goes right to the edge. It's not like a rap artist's shout, it's more like a soul singer's scream. First time I heard it I thought: 'Bloody hell, he's good.'" Marion recently supported **Morrissey** on a UK tour... **Rod Stewart** is this week's cover star in the **New Musical Express**. With **The Small Faces** now name checked by many musicians, the tone of the piece is largely positive (unlike previous years...). One of the funniest anecdotes concerns Stewart's time with **The Jeff Beck Group**. According to Stewart, the band nearly played at Woodstock until personal factors intervened: "I know he'll deny this, but Jeff thought his gardener was knocking his old lady off and he had to go home. Otherwise, we'd have played it. I'm glad we didn't." Stewart also talks about losing his musical direction in the early eighties: "Well, I don't know... Have you ever fallen out of love with what you're doing and woke up on day and said: 'I can't go to work?' That's how it was. I just fell out of love with it. I was very unhappy too: I thought I was in love but I wasn't..." **Golden Earring** will release their 25th album on June 5. **Face It** will be available via Columbia... **Mudhoney** have been swapping drinking stories with **Metal Hammer**. According to the band's **Dan Peters**, he and **Matt Lukin** were nearly arrested in London after a plane journey: "When we stepped off the plane the cops were there. Apparently, we go really drunk on the plane and the captain called ahead and said: 'There are these drunk bastards on the plane, can you take care of them?' When we got off, I said I was sorry I got drunk and that it wasn't my fault I was being served, I was just asking. Then, when they stopped serving they came around with the duty-free and I bought a bottle of scotch." **Mudhoney** have recently been touring Europe with **The Psychone Rangers** in support. Both bands have been receiving strong reviews... **Nick Cave** has completed work on his much anticipated album of murder ballads. One track, a cover of **Bob Dylan's** "Death Is Not The End," features guest appearances from **Shane Mac**

Gowen, Polly Harvey, Henry Rollins and **Kylie Minogue**. Minogue also features on another track entitled "The Wild Rose"... **Pete Best**, former drummer with **The Beatles**, is to tour and release an album. Best was replaced by **Ringo Starr** shortly prior to the recording of "Love Me Do," but has now returned to the fray with **The Pete Best Band** and "Back To The Beat," a CD recorded at Liverpool's Cavern Club. According to Pete's manager and brother **Roug Best**, "Pete is the skeleton in The Beatles' cupboard."... **Stephen Duffy's** new single "London Girls" seems to take a dig at the singer's own publicists **Phil Savidge** and **John Best**. The two also represent such successful UK alternative acts as **Suede**, **Elastica** and **Pulp**. "London Girls" features lines such as "Get the (music)

papers/Maybe this time/Indie-cators indicate a trend." The accompanying video features footage shot in The Good Mixer, a north London pub where it's tricky to spill your drink without getting some on an alternative/indie pop star... **Brian Eno** has been talking to **Mojo** about working with **U2**. According to the influential producer: "On 'Acthung Baby!' I had worked with them for a couple of weeks, then I came home for a couple of months. They sent me what they'd done so far and I listened to them thinking, 'This is a disaster! A total washout!' Because what had happened — as so often happens in recording — is that while people are waiting for the singer to write the song, they've got all this studio time booked, so they keep overdubbing. I went to Dublin determined to strip it all away and go back to what it had been. It was very successful and they agreed that it saved the album."... **Shed Seven** have been cautioned by police for throwing drums on to a motorway. The band's frontman **Rick Witter** explained to the **New Musical Express**: "We had just got into the charts and been on 'Top Of The Pops' (the BBC1 television network chart show) and half our kit was in the van. We were getting a bit big-headed with ourselves so we decided to throw the drums out onto the motorway. We don't apologise because we wanted people to crash. But if anybody finds **Alan's** snare we'd be grateful if they sent it back."... **Julian Cope** has written a book on German experimental music from the seventies. The book will be called **Krautrock**. Cope also says he is three-quarters of the way through a second part to his autobiography... **Caravan** have re-formed and are working on a new album... **Rosa Mota, Voodoo Child, Anita Lane, Fortran 5** and **John Came** all have June singles or albums scheduled for release via the eternally eccentric and wonderful Mute label (home of **Erasure** and **Depeche Mode**). The label is also releasing the soundtrack to "Hideaway," a set which includes contributions from the likes of **Miranda Sex Garden, Front Line Assembly, Peace Love And Pitbulls** and **Parallax**... **Jerry Dammers**, formerly keyboard player with **The Specials**, says he is looking for a record deal, but finding it hard to get a contract because he has a reputation for taking a long time in the studio. Dammers says he may have to form his own label again (he was behind Two Tone). Dammers also says he is unlikely to play live because he suffers from tinnitus... **The Levellers** have been working on a new album with producer **Alan Scott**. **Zeitgeist** should be available in August. The band had claimed they were nervous of studios because of spending so much time on the road... **The Frank And Walters**, absent from the public eye for some time, are working on a new album. The Phoenix Festival will be supported by Amnesty International. Spokespersons for Amnesty say they hope their support will signal the beginning of a long term tie-in between the human rights organizations and the annual July festival... **The Boo Radleys, Elastica, Gene** and **S*M*A*S*H** will all perform at a benefit show for the homeless charity shelter. The 'Helter Shelter' show will take place at the London Forum on July 6. S*M*A*S*H's **Ed Smash** says Shelter got him a place to live when he was a homeless 16-year-old... **Freddie Mercury's** stamp collection has been touring the UK. Apparently, it has proved hugely popular with **Queen** fans... I can't go on after that story. Until next week... Sorry...

CATHY FAULKNER, KISW/SEATTLE

Across the nation, people spent \$100 million on movie tickets. You wouldn't know it here in Seattle where most of our money went to shows. Two incredible **Page/Plant** shows (one in Tacoma, one in the Gorge). **Queensryche** blew me away with their incredible material... it's a sight to behold. They begin their second leg June 9th... don't miss it. Sunday KISW presented an incredible show with **Eleven, Love Battery, Seaweed, Second Coming, and Running with Scissors**. \$1 from each ticket went to fight censorship (a big problem here) through JAMPAC. **Seaweed** tried out their new material (due in August) and **Eleven** tried out their new material from *Thunk* due in July as well as their new drummer. It was great to work with them again and I hope you'll give **Eleven, Love Battery, and Seaweed** the airplay they deserve. BIG thanks to everyone who made this show possible!!!

AL SCOTT, KUFO/KBBT/PORTLAND

Okay everybody, get out of my way!! The KUFO add list this week is stylin'!! We added the new U2, "Hold Me, Thrill Me"... Also on is the new **Dokken** track. I have always liked **Dokken** and it's great to see them back with a cool release. the new **Sugar Ray** finally made it on KUFO. **Mean Machine** does the job in a big way. We decided to add "Polly" from the **Nirvana Unplugged**, the new **Live** song "All Over You" goes in and so does the **Toadies** with "Possum Kingdom." I got to check out **Queensryche** last Saturday night. What a fabulous show!! There were times when I thought I was watching a movie, but the tunes rocked! Thanks to our pal Freddy and all at EMIRG for his help with our **Queensryche** promotion. On The Beat side of things my favorite add this week is the new Garbage tune. Wow is very hip. Watch out for this one. Thanks to Astrid, Danielle, and Stan Foreman at Capitol for making our **Everclear** listening party go so well. We drank that Mexican beer and ate Mexican food to go along with the awesome sounds of the new **Everclear** release **Sparkle and Fade**. Special thanks to Greg Eklund and Craig Montoya from the band for showing up and hanging out with the listeners. thanks a ton you **Everclear** boys! I must say it was a great week. I even got to check out the **Grateful Dead/Chuck Berry** show. It's always a trip to watch an event like that. Plus I got to take a shower with about 20 people that I didn't even know! Wow!! That's about it for me. Send Dave and I everything you have that is cool. Now hurry up and leave me alone!!

CARTER ALAN/WBCN

WBCN's 17th Annual Rock and Roll Rumble, our local "Battle of the Band" blasted to a sweaty close after six nights of preliminaries and two semi-finals at the Middle East nightclub in Cambridge. Two groups, **Doc Hopper** and **Pooka Stew** battled it out in front of a sold-out crowd. While the five judges tallied their scores backstage, Reprise recording artist, the **Muffs**, jumped onstage for

a blistering guest slot. When the L.A. band had finished leveling the house, an announcement was read and **Doc Hopper** became the latest champion in a contest which has become a yearly symbol of WBCN's on going commitment to local rock. Congratulations **Doc Hopper**, from the Rock of Boston! The WBCN-sponsored return of **Elastica** to Boston was augmented by the debut of the Scottish band **Baby Chaos**. We've been playing "Buzz" from the album for a couple of months now, finding it somewhere between **Green Day's** hard bop, and the **Ziggy Stardust**-styled rock of **Oasis**. It's an effective combination delivered by a young, but seasoned quartet. Earlier in the day, the band visited BCN and turned out an excellent pair of unplugged tunes for the listening audience. **Baby Chaos** is a band to watch and "Buzz" is a hit. Dropping in at BCN only moments before **Baby Chaos** was **Wolfgang Press**, which scored its biggest hit by far earlier this year with "Going South." We were delighted that the UK band could play a couple of unplugged songs before its appearance that night at the Paradise. Also, **Ned's Atomic Dustbin** checked in on the satellite for an illuminating interview and some superbly-engineered, fully-plugged live music. Thanks to all the bands and Elektra-East West, Warner Brothers and Work for all the help. Next up is "River Rave '95" on the banks of the Charles River in downtown Boston. Our free concert will feature **General Public, Better Than Ezra, Letters To Cleo, and Sleeper**. Event T-shirts will raise money for "Friends of Shannon," a charity formed to help Women's Health organizations purchase security equipment and provide better services. After this show maybe I can relax for a minute or two; but with the summer tours cranking up now, probably not!

RECKLESS ERIC AND JULIE HOYT CHANNEL Z/AUGUSTA, GEORGIA

A big hello from us at Channel Z in Augusta, Georgia to all of you. Hope your spring is fairing just fine, while our is already feeling like the middle of summer! We had a **Dave Matthews Band** ticket giveaway weekend, and it's safe to say people were about to pull their hair out trying to get those concert tix. They're playing Atlanta with **Dionne Farris** and the **Samples!** What a show!! Thanks to Jetson at RCA and the wonderful folks at the Coca-Cola Lakewood Amphitheatre for those goodies. Moist came in for a show this Sunday at the Capri Cinema. It was an all-ages event and everyone got a chance to enjoy those fellas. Thanks to Peggy Miles and the lovely people of EMI for bringing that to the table. Epic's Steve Rennie came in for a visit, and had the pleasure of playing golf on the Augusta National with Reckless Eric. Poor Reckless got his butt kicked, but still so struck from the beauty of the course, well, he could just shit. Thanks also to Chris Siciliano from 550 for dropping by for a visit. Sitting in traffic with you was like a day at the beach! That covers it for now. Hope everyone has a wonderful week.

JAMIE MARKLEY, WWCT/PEORIA

Thanks to Jeannie Warsaw at Virgin Records for all her help with the **Brother Cane** show we had May 27th. It was a hog roast where we gave away a brand new Harley sportster, and **Brother Cane** put a cap on the day with a smokin' hoe set. I know some of you have heard the new **Brother Cane** single "And Fools Shine On" and were floored by it. Wait until you hear the whole record!! If you have any preconceived ideas of what this is all about... throw it out the window. This is great American rock n' roll with a 90's sound that should put these guys over the top in the next year. Thanks to Roman, David, and Scott for all their help and special thanks to Damon Johnson for making the whole thing happen. Can't wait to see you guys again at McGathy. Also thanks to Rick Sudakoff from Atlantic and J.B. from east west for all their help with the **Bad Co./Ted Nugent** show here May 23rd. Simon Kirke and new frontman Robert Hart were more than entertaining on the air, and as far as **Ted Nugent** goes, his interviews probably create more talk than most station promotions.

DAVE DOUGLAS, WAAF/BOSTON

It was a great night in Boston at the WAAF Memorial Day benefit concert featuring **Quicksand, Orange 9 Millimeter, P.O.L.**, and local support from **Sam Black Church**. Even though the 2,000 tickets we handed out were free, people brought donations of clothing, blankets, canned food, and cash for the New England Shelter for Homeless Vets and filled their truck. It was a huge part for everyone. Thanks to terrific label support from Island, Elektra, and Giant. These kind of shows can and do work for everyone, and WAAF appreciated the collective participation, especially when it applies to such a worthwhile cause.

PAM EDWARDS, KISS/SAN ANTONIO

This week KISS in San Antonio recognizes the genius of **Chris Whitley** and adds "O God My Heart Is Ready." From WNEW to KRAD to WPLR to KXFX to WSTZ plus 30 others we've got every part of the country checking in. As the Washington Post says, "**Whitley** has fashioned a new kind of blues - call it 'grunge-blues,' if you will - that restores a sense of danger and urgency to a field that once thrived on it." This is kind of song that will really differentiate you from your competitors. Look for **Whitley** 3-night residences to begin in Boston, Cleveland, DC, Philly, and Miami this June. There are only a few stragglers that aren't on "Molly" from **Sponge** yet as they go 38-31* in BDS. Make sure you see **Sponge** with **Our Lady Peace** touring all summer long! And, for all of my AAA friends, you must check out "Holding On To You" from **Terence Trent D'Arby**. This is the song that **Rod Stewart** should have recorded! Now, it's back to WORK!!

MATT DYLAN, WTZR/SCRANTON, PA

What, Z-Rock's Wounded Radio is gone! Well Scranton/Wilkes Barre still wants to hear heavy stuff and we're going to give it to 'em. Every Sunday either I, Tina Sweet, or my good friend the Sandman will be playing the newest and the heaviest from 11pm till 1am. The show will feature bads like **Overkill**, **Kyuss**, **Korn**, **Souls At Zero**, **Orange 9MM**, & **Morbid Angel**. Music calls will be taken by either Matt Dylan Tuesdays 12-5pm or Tina Sweet Tuesdays 5-7pm (for those who stay in the office late) Eastern time. First show airs June 4th. Wish us luck and we look forward to hearing from you.

THE TINK OF WWUD/DOVER, DELAWARE

Why hello there! Some people have asked me about all the pictures that have been showing up in the trades lately... Here's a brief reason why. Happy 10th to Rose & Bill. Now that the 10th annual McGathy Bash is under all our collective belts. I didn't have to go through a lot of bullshit introducing myself to the few radio types that did not know me by sight. There's the reasoning for this week. Once again a very large thank you to Bill, Rose, Sudie, Gil, Phil? My final accolade goes to SUDI for with her sociolinguistics was the argil that corbeled the occurrence. Thanks to all and I'm gone from the page...

WARNER BROTHERS RECORDS

818-953-3739

Melissa Etheridge, **Sass Jordan**, **Chrissie Hynde** and the **Pretenders**... and there's been more. For years we've heard that Rock radio (as a whole) doesn't play many female artists, but for years Rock radio has made exceptions for exceptional artists. I've got another one for that rather brief list, and a good number of you are already playing her music. Of course, I refer to **Jennifer Trynin**, who's "Better Than Nothing" remains among the most-added tracks for its second week of release. What are those key elements for Rock radio? Strong, aggressive guitar? **Jan** plays it pretty damn well, thank you. How about lyrics that remain compelling even as they spew attitude (that concept kinda reminds you of **Chrissie** a bit, huh)? Once again, **Jan** delivers. And just about everyone agrees that "Better" has the biggest hook this side of Quint. If you're not yet sure, don't put this too far on the back burner. When you're able to place "Better" in the context of the entire debut LP **Cockamamie**, you'll be convinced that **Jan** is the goods. The music is that good. The songs are that good. Don't get scooped by your Alternative brethren on this one, folks — stake your claim to **Jennifer Trynin** now, and be a part of this exciting rock artist from the start. Would I ever steer you wrong? I don't think so. I'm seeing the band for the first time this Wed. in Boston, so I'll be fitting you all in. See you at the Sister Rose and McGathy bash, if you're going. **Dannheisser's** touring with **R.E.M.**, but **Puvogel** and **Goodman-Moses** will be there with me, and we're bringing **Jennifer Trynin** and her bandmates to meet all of you. I'm out.

SCOTT "LO/JACK" DOUGLAS

VIRGIN, 212-332-0418

One week to **Brother Cane**. "And Fools Shine On." Adds 6/12. Meanwhile, I'm out on the road again, smiling and dialing and playing some great new music for the programming brain trust of rock radio as we know it today. This is a band that has, (through several permutations) continuously formed and reformed according to the musical and emotional flow of space and time. What you have is not a collection of old farts lost in space and time, but instead a snapshot of the homogenous efforts of seasoned artists captured on tape just for your listening enjoyment. Sound like the usual record-guy bullshit doubletalk built to take up space in the comments section? Maybe. Listen to the record. **King Crimson** has delivered an outstanding album and most commercially viable and radio-accessible record ever. On to acts newer to the format. **Maids of Gravity's Only Dreaming** is a fresh approach to modern rock. In a world of grungy, whiny, drup-infested, pissed-off-youth records, the Maids have a great hook and a cool sound. Do not attempt to adjust your set. Yes, it's true we can get happy without sounding like Partridge Family. Lastly for your immediate attention is **Danny Tate** for more adult-leaning stations in the group. **Dreaming** has been doing quite well at the (substitute your favorite label-AAA, A3, PAR, Adult Rock) format and we though you should know, of course. McGathy's little shindig will probably be but a memory when you get this. Hope you remember something about it. Lo/Jacks to: Mike Lee and Greg Bergen, Ron Eric Taylor and Sherry McKinnon, Jaxon and Mahoney, Marrone, and Dave "Daddy" Jackson (with a little help from Penny).

CHUCKIE THE VERVE

VIRGIN RECORDS, USA 212-332-0421

You should be happy and proud Modern Rock! You are understanding the Bristol genius: **Massive Attack**. NME & Melody Maker call it, "Trip Hop." Other Trip Hoppers are Portishead, Tricky, and all 95 Nelle Hooper production genius (**U2**, **Bjork**) I like that. **Massive Attack!** A founder of the "Trip Hop" sound that your listeners are loving on the air and in the clubs. **Massive Attack** is very-super-pomo for your zit-poppin demos, as well as daytime upper-demos who love the sensual Massive modern groove. "Protection" is having its way with KROQ, LIVE 105, KDGE, 91X, KNDD, KEGE, KNNC, KXRK, KXPX, KTCL, KBBT, KTOZ, WBER, WOXY, WBRU, MTV ALT. Nation. **Maids of Gravity** hits the road this week with **God Lives Under Water**. "Only Dreaming" in rotation on WBCN, KTOZ, KKNB, WRLG, WHTG, KACV, WCHZ, KBTZ, KISS, KLBJ, REV 105, WFNX, WDOX, KWOD. Space is the place! Ok, it's time for you to play an important roll in culture design. Listen to **THE VERVE**. It's the right thing to do. The kids love them! The adults dig them, the modern rock consumers buy them. Their fellow radio band pals adore them. (**Oasis**, **Beastie Boys**, **Metallica**). Facts: Paul Kriegler at KMYZ,

Tulsa, Oklahoma called in the first ADD. Next came Bruce Warren at World Cafe, then Oedipus at WBCN. These stations deserve ribbons. It looks like modern rock punkers got lost in an EX-10,000 Maniac Adult Contemporary Radio haze this week. Come clean. Add **The Verve** on Monday, June 5th, or you will be "On Your Own" in the next four weeks. Your listeners deserve to hear the best music possible. Rid your station of the demons of sound mediocrity! "Up Your ear, with a **Verve** Pro-Cd!" shouted Horshack.

REPRISE RECORDS 818-953-3752

The **Filter** story is getting bigger each week! Monitored airplay is Top 30 at Rock, Top 20 at Modern. Sales are incredible with 10,400 this week as the album breaks into the Top 100 best selling albums nationally in **Billboard** with a 35 point jump: 124*-89*. At Rock retail it is doing even better #3 on **Album Net's** rawk retail chart. Customer orders top 140,000 with nearly 50,000 already scanned. Requests are up and Top 5 phones include Q104.3, WXTB, WKLQ, WMMMS for #8 most requested. MTV has the video in Buzzclip/Stress Rotation with 17 spins this week and the band begins its' club tour the middle of this month. This record is happening, don't miss it. Another cut with notable action this week is the **Wilco** tune "Box Full Of Letters." Already on the verge of going top 15 at AAA and with some impressive Alternative support, the cut has been picking up significant rock adds over the past several weeks including WKLS and this week WMMR! Other supporters include WAVF (Rossi's been banging it out for weeks, call him), KLAQ, WXRC, WFSM, and KLBJ among others. This is jangley guitar rock with great hooks- **The Replacements** meet the **Buffalo Springfield**. "She" by **Green Day** is cracking the top 30 in rock airplay despite us not working the track. We will be releasing a brand new cut called "J.A.R." from the **Angus** soundtrack in July. Oh, by the way, you will have the new **Neil Young** cut "Downtown" on Wednesday, June 14th and the **Mirrorball** album will be in stores on June 27th. GET READY.

Wow what a week - **Peter Case Torn Again** is in the tip-top most added (anywhere from #2 to #3 depending on your source) at both Triple A and Americana, closing in on a strong contenders (does the letter U and the numeral 2 sound familiar?) at both formats. It's not just me saying glowing things about **Peter** — witness the sage words of Greg Roberts at KMFU: "This was added the day we got it. The reaction on the air from the listeners and the staff is that it's a breath of fresh air." Thanks Greg for that kind utterance! Some of you keep building on this record. If you haven't read the sensational reviews that ran in Album Net, Hard, Gavin, and FMQB please let me fax them to you so you can see how strongly everyone believes in this release. Until next week success story, keep out of trouble!

What more could you want in a band? Power, grace, and hey chick magnets (and hell, they're from Kansas City MO, the new gambling capitol of North America. **Season To Risk** has it all and then some. Isn't that what rock and roll is all about. Be sure to see STR in your town soon. The answer is yes **Foetus** is gonna tour! It should begin sometime in July. You want dysfunction? I'll give you dysfunction. **Dokken's Dysfunctional** continues to astound. "Too High To Fly" is gaining serious ground every week and **Shadows Of Life** is raising it's head. And **COC's** "Seven Days" with the b-side **Fuel** is the right tune-up for all those playlists.

22 months, two singles, countless tour (**NIN**, **Danzig**, etc) and over 420,000 units later we've reached the coolest track from **Type O Negative's** **Bloody Kisses**. "Summer Breeze" is upon us! It's impossible to imagine this band doing **Seals and Crofts**, so just jam the darn CD in and hear that this is the most wacked-out cover ever created. X96 and KUKQ jumped on the track early, both having had great success with previous **Negativity**. Also note that singer **Peter Steele** will bare all as the cover/centerfold model for July issue of **Playgirl**, which hits stores later this month. Things that we know for sure: 1) **Type O Negative** sell records hand-over-fist within two weeks after an add 2) Requests will never end 3) **Bloody Kisses** has been firmly planted on the **Billboard Heatseeker's Chart** for over 44 weeks and shows no signs of letting up. It's no secret that this band is doing something that sounds like nothing else out there. All that it takes is a little craving for diversity to put them on the radio. Their music will take care of the rest; just ask anyone who's ever played "Christian Woman" or "Black No. 1." Give me a ring if you have yet to hear this song! AAA/PAR/Adult Rock folks should definitely sneak a peak of our new band **Blue Mountain**, who are on tour right now with **Wilco**. Dates include: 6/6 Columbus, 6/7 Pittsburgh, 6/8 Philly, 6/9 New York, 6/10 Boston, 6/12 DC, and 6/13 Cleveland. **Five Songs From Dog Days** hits your desk in two weeks.

I just got the latest update on the **Noizefest** tour dates, so call for the details. We will be doing station liners for everyone when the tour starts, so if you have anything you want said report in immediately. Did you get your copy of **Malevolent Creation**? Should have come in by now even though it is not going for adds till next week. That's right their latest, "Eternal" goes for adds on June 12th. **Malevolent Creation** is slated for a tour later this summer. Once again I would like to thank **Bill** and everyone at **McGathy** for an easily predicted best party of the year. Yeaaaaa! It's finally gone above 70 degrees in Boston and we are all feeling it like a whack in the ass quickly gaining alternaradio momentum, with KUKQ wise enough to add "I'm Not a Wait," which has rapidly made the climb to medium. Muchos Kudos to WFNX for supporting the daylights out of **Tracy's Liverpool Sessions EP**. The irresistible track "Dandelion" brought **Tracy** in at #2 on FNX a few weeks ago, with 22 spins!! Another rad tune on this disc, as a whole devoid of filler with each track ripe for the testing, is "18 Heads Roll By." Guys, as I've said before with **Letters To Cleo**, I told you so!! Speaking of which, there is a great big **Letters To Cleo** show hosted by WBCN, outside (that's the way I like it) at the hatch shell here in Boston, June 1st. All townies must be present and accounted for says ME!! We will release the debut CD from our new bands **OTIS** on June 6th. They have just returned from tour dates opening for the **Ramones**. They are a powerful band from New Zealand that just recently supported **Faith No More** on their sold out European tour. **Shihad** also was a featured band at Australia's Big Day Out Festival (which is the Down Under version of Lollapalooza) and stole the show from many of the established bands on the roster. *Killjoy* is **Shihad's** American debut and what a debut it is! You'll see why **Shihad's** sound has been described as **Helmet** meets early **Killing Joke**. The quality and ferocity of *Killjoy* will make **Shihad** the band to hook into. Many people have been curious how the new **Peak** in Bozeman would fare. They did well, although most of their audience is 12-24. The Bozeman Willhight report just released shows **KMMS** (The Moose) with a 15.3 share (12+) good in second place, right behind new market leader **The Peak** (15.5). **KMMS** is number one in the money demos: 18-49 (18.8) and 25-54 (18.0). By the way, afternoon deejay and PD Colter Langan is #1 in his slot with a 20.0 share

(12+)! Congrats to the Bozemanites for another great book. **KMMS** continues as America's highest-rated Progressive station. A reminder, the A3 Summit is approaching. It will be August 24, 25, and 26 at the Clarion Harvest House in Boulder. There are rumors that this might be the last year for the event in Boulder, so make plans to attend. Call today and make your hotel reservations as the hotel has the tendency to sell out early. Call (800) 545-6285, and mention you want the special Gavin A3 rate.
