1993 Country Music Association Country Radio Stations Mailing Label Service

CMA, in partnership with the M Street Journal, provides the most comprehensive list of stations broadcasting Country music in the U.S. and Canada.

Label Service Features:

The data for these labels comes from the M Street Database, considered to be the radio industry's standard for accurate station data. Over 500 changes per week are posted to this database, making it the choice of hundreds of record companies, managers, radio networks, and syndicators.

Beginning this year, you can now customize your list to be sent to any combination of states, regions, markets, reporting stations, or station types. When placing your order, we will discuss the specific purpose of your mailing with you, so that you can get the best possible response. Labels are high quality pressure-sensitive (self-sticking) type or cheshire type printed on continuous form backing. Mailing lists can also be ordered on disk.

Label format includes:

1. Station call letters.
2. Choice of Station Manager, Program Director, or Sales Manager's name on label, or a simple title.
3. Complete station mailing address.

As a new service this year, reports can include phone numbers, fax numbers (if available), station power, owner, markets served, and other useful information.

Members may order as many sets of labels as they want, in as many categories as they like. Customized reports in many different categories are also available for reference and office use, and may be ordered along with the labels. Labels are printed in zip code order. Reports are printed in city/state order or market order.

Lists can be based on any number of criteria, including:

- Geography (State, city, or region, both U.S. and Canada).
- Reporting Stations (Billboard, Gavin, Radio & Records, all).
- Format (Full-time Country, Satellite Country, etc.)
- Station Band (AM, FM, or both).
- Market Size (Arbitron mkts., M Street mkts., unmeasured, etc.)

This year, we have simplified the pricing of all labels and reports. These prices are 5 to 30 percent lower than last year. Postage and handling charges have been reduced from \$5.00 to \$3.00. Data prices are as follows:

Mailing labels	6 cents per station.
Report	6 cents per station.
Labels and Report*	10 cents per station.
(*Must be ordered together.)	

The CMA Country Radio List in its regular printed book form is available to members for a price of \$15.00. The non-member price is \$65.00.

All orders must be prepaid (check or money order, Mastercard, VISA or American Express.) Orders will be shipped within five working days.

The labels can be used for one mailing only and cannot be copied, sold, resold or redistributed.

***CMA MEMBER RATES FOR MAILING LISTS AND
LABELS HAVE BEEN DISCOUNTED
FROM LAST YEAR.***

(800) 248-4242

Table of Contents:

U.S. Country Stations by State and City of License	1
Canadian Country Stations by Province and City of License	123
U.S. Country Stations by Call Letters	136
Canadian Country Stations by Call Letters	144
U.S. Country Stations by Market	146
Canadian Country Stations by Market	167
International Country Stations	169

Guide to Features:

This year's CMA Country Radio Station List is divided into three basic sections. The first section lists all Country stations by state and city of license. You'll find the station's address, phone number, fax number, and some of the key personnel here. "GM" is General Manager. "PD" is Program Director. "SM" is Sales Manager.

The address listed for each station is the station's primary mailing address. The address city and state are not shown unless they're different from the station's city and state of license. The "Reports to:" listing gives a code for the trade publication(s) to which the station reports its playlist. "R" stands for *Radio & Records*. "B" stands for *Billboard*. "G" stands for *The Gavin Report*.

If the station is licensed to a city that is not the same as the name of the market, you'll find the market name at the end of the station's listing.

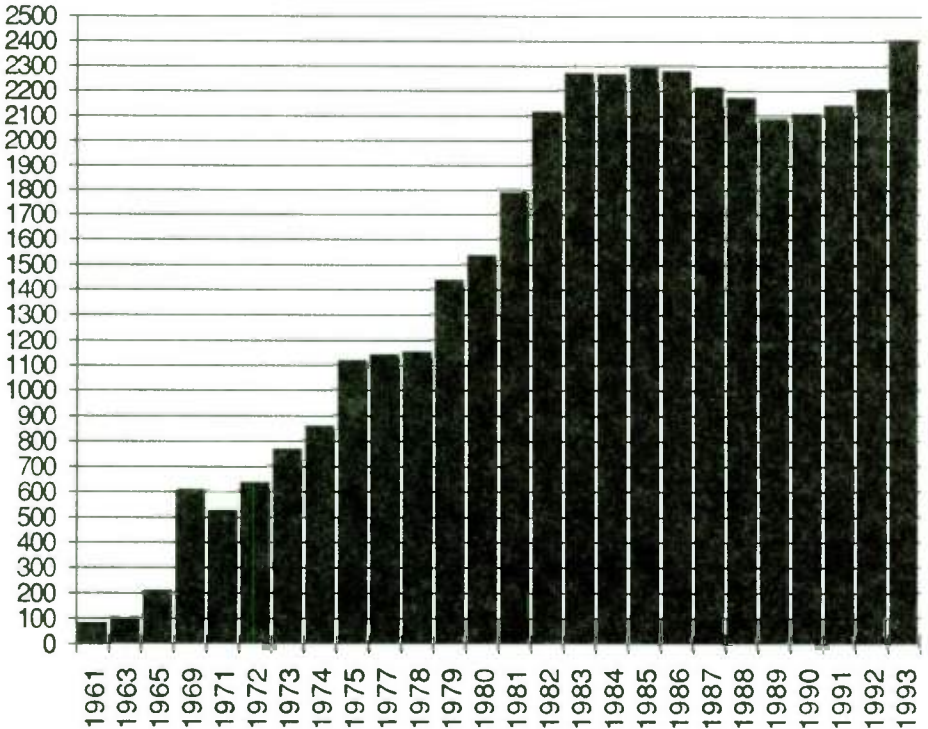

The second section is a new feature this year. It conveniently lists all stations alphabetically by call letters. You can use this section as a cross-reference.

The third section is also new this year. This market section lists over 400 markets across the U.S. and Canada, and the Country stations located in each market. This listing is especially helpful when the city of license differs from the market name. You'll also find important Arbitron and M Street market data here. All stations in this section are listed by frequency in numerical order.

COUNTRY STATION GROWTH
