## WB Ups Michaels, Malito

Warner Bros./Nashville VP/National Field Promotion **Gator Michaels** has been elevated to Sr. VP/Promotion, succeeding **David Haley**, who left the label two months ago. Concurrently, WB West Coast regional rep **Jim Malito** has been promoted to VP/National Field Promotion and will return to Nashville from Phoenix.

Michaels joined WB/Nashville as Dir./National Field Promotion in July 2002 and was elevated to VP last December. Before that he spent 2 1/2 years with Dreamcatcher and was VP/Promotion when he left the label. Prior to that he worked for Young-Olsen & Associates, an independent promotion company. His background also includes programming and on-air stints at WCLB/West Palm Beach and WCTK/Ft. Myers.

Malito joined WB/Nashville for West Coast duties in August 2002. He began his promotion career in December 1995 with Marco Promotions, moved to independent promotion firm Susan Turner & Associates in December 1997 as Dir./National Promotion and joined Dreamcatcher as Dir./National Field Promotion in March 2000.

Look for Michaels to announce a new West Coast rep to replace Malito in the very near future.

2. "Have you ever listened to a station you would not normally listen to because of a contest the station was running?" Of the total sample, 92% said "no," and 8% said "yes."

Commenting on the overall results of the survey, Paragon Media Strategies CEO **Mike Henry** said, "The appeal of contests to radio's audience continues a slow decline, but for a small minority of listeners, contests will affect the stations they listen to and how much they listen to them. Also, listeners and contest players still prefer contests with more but smaller prizes vs. contests with fewer but bigger prizes."

121 Country reporters. Songs ranked by total points for the airplay week of 5/29-6/4. Bullets appear on songs gaining points and/or plays or remaining flat from previous week. If two songs are tied in total points, the song with the larger increase in points is placed first. Songs below No. 1 and down in points and plays for three consecutive weeks are moved to recurrent. Most Added is the total number of new adds officially reported to R&R by each reporting station. Songs unreported as adds do not count toward overall total stations playing a song. Most Increased Points lists the songs with the greatest week-to-week increases in total points. Station Weight = AQH Persons + (Market rank X 10) divided by 4180. Total Audience equals Average Quarter Hour Persons times number of plays (times 100). Each daypart on each station is assigned an AQH number.
